Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.
This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Public Interest Technology, MS

Organizational Leadership, MS

Technology (Management of Technology), MSTech

Global Technology and Development, MS

Human Systems Engineering, MS

Global Management, MGM

Human Systems Engineering (Intelligent Systems), MS

Management of Technology, MS

Design (Space Architecture and Extreme Environments), MSD

Human Systems Engineering (User Experience Research), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A current ASU student has no additional requirements for changing majors.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/inquiry-based-learning-degree/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=LATECLDRBS~null&college=CLA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: With more than 300 Global Education program opportunities (https://goglobal.asu.edu/) available to them, technological leadership students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career opportunities

Graduates with this degree are prepared for a wide variety of exciting career opportunities in diverse industries, such as software and technology, energy, aerospace, finance, law and education. They are prepared to succeed in many areas, such as:

- academic research
- business strategy
- data analytics
- engineering management
- entrepreneurship
- management consulting
- product management
- project management
- systems engineering
- technology transfer

Transborder Chicana/o and Latina/o Studies, BA (LATCLBA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Bachelor of Arts program in transborder Chicana/o and Latina/o studies challenges students to understand the intersections of identity, culture and community for Mexican-origin, Chicano and Latino populations in the United States and the U.S.--Mexico transborder region, with implications for other border communities around the world.

More specifically, students learn about the diversity of cultural, social, political, economic, historical, health-related and artistic experiences in these communities, and they develop tools for understanding borders and border communities worldwide. The curriculum focuses on growing the next generation of critical thinkers and changemakers who work toward improving the lives of Latinos, strengthening Latino and transborder communities, and honoring transborder knowledge.

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees) for more information and requirements.

Second language requirement: Yes
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Global opportunities

Global experience: With more than 300 Global Education program opportunities (https://goglobal.asu.edu/) available to them, transborder studies students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career opportunities

Latinos are the country's second largest ethnic group behind white non-Hispanics. Graduates are equipped to address the changing needs of Latinos in the U.S. and are prepared to pursue careers or further education; possible positions include immigration lawyer, nonprofit leader, teacher, entrepreneur, government employee, political activist, community organizer, advocate and artist. Career paths enhanced by this degree include:

- the arts
- education (administration and teaching)
- film and media
- law
- local, state and national government agencies
- local, state, and national public and private health services
- public policy and administration
- social work and nonprofit organizations

Transborder Chicana/o and Latina/o Studies (Media and Expressive Culture), BA (LATCLMBA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program description

The Bachelor of Arts program in transborder Chicana/o and Latina/o studies focuses on the cultural, social, political, economic, historical, health-related and artistic experiences of Mexican-origin, Chicano and Latino populations in the United States and the U.S.--Mexico transborder region.

In the media and expressive culture concentration, students focus their study on the cultures of Latino communities. Students learn about the cultural diversity of Chicano, Mexican, Puerto Rican, Cuban, Dominican, Central American and other Latino populations in the United States and their contributions to the arts by analyzing:

• film and the media
• history
• literature (novels, short stories, poetry)
• performance
• visual art

Second language requirement: Yes
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Students have the opportunity to immerse themselves in the homelands of the Chicano and Latino cultures they are studying. Students can deepen their understanding of transborder influences and gain a deeper appreciation of transborder media and expression while enhancing their resumes with heightened cultural competency, and critical thinking and communication skills. Each of the more than 300 Global Education program (https://goglobal.asu.edu/) options provides an opportunity for students to develop a valuable skill set that can give them an advantage in their career as well as personal enrichment. Whether in a foreign country, in the U.S. or online, Global Education programs encourage students to build communication skills, challenge them to adapt and persevere, expose them to differences across the world, and increase their ability to work with diverse groups of people.

Career opportunities

The media and expressive culture concentration equips graduates with analytical and communication skills vital to the pursuit of graduate work and various career paths, including:

- the arts
- education (administration and teaching)
- film and media
- law
- local, state and national government agencies
- nonprofit organizations
- public policy and administration
- social work

Transborder Chicana/o and Latina/o Studies (US and Mexican Regional Immigration Policy and Economy), BA (LATCLUBA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program description

The Bachelor of Arts program in transborder Chicana/o and Latina/o studies focuses on the cultural, social, political, economic, historical, health-related and artistic experiences of Mexican-origin, Chicano and Latino populations in the United States and the U.S.--Mexico transborder region.

In the U.S. and Mexican regional immigration policy and economy concentration, students focus their studies on the growing political and economic influence of Latinos in the U.S. and the U.S.--Mexico region, considering relevant current topics such as:

• border enforcement
• demographic change
• economic integration
• globalization
• immigration policy
• international migration
• regional development

Second language requirement: Yes
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics

Global opportunities

Global experience: Students have the opportunity to immerse themselves in the homelands of the Chicano and Latino cultures they are studying. Study abroad programs across Central America, Mexico and other Latin American countries deepen students' understanding of transborder influences, and they gain a new perspective on international migration. The heightened cultural competency, and critical thinking and communication skills that students acquire through study abroad are valued enhancements to students' resumes. More information on available programs can be found on the Global Education website (https://goglobal.asu.edu/).

Career opportunities

Graduates of the U.S. and Mexican regional immigration policy and economy concentration are prepared for careers in several fields, such as:

education (administration and teaching)
local, state and national government agencies
nonprofit organizations
public affairs
public policy and administration
social work

Graduates are also equipped with the theoretical and practical knowledge necessary to pursue graduate work in law and other fields.

Urban Planning, BSP (ARPUPBSP)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description

Urban planners guide communities in making wise decisions about their use of land and resources. The urban planning program introduces students to issues faced by urban areas and the tools necessary to address them.

Students in the Bachelor of Science in Planning program gain expertise in the analysis and synthesis of the physical, social, political and economic issues that shape urban and regional development. Courses cover comprehensive planning, computer and analytical methods, public policy formulation and administration, socioeconomic and environmental analyses, urban design and many other fields that urban planning encompasses, such as:

• geographic information systems
• housing
• landscape architecture
• planning and zoning law
• transportation
• urban and development economics
• utilities

In addition to reviewing the guidelines in the Concurrent Program Options section below, students interested in pursuing concurrent or second baccalaureate degrees in The College of Liberal Arts and Sciences are advised to visit The College's website (https://thecollege.asu.edu/concurrent-and-second-baccalaureate-degrees) for more information and requirements.

Second language requirement: No

First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Public Administration, MPA

Urban and Environmental Planning, MUEP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)

Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A current ASU student has no additional requirements for changing majors.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-urban-planning/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=ARPUPBSP~null&college=CLA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze the physical characteristics, social dynamics and economic conditions that influence urban and regional planning challenges through course projects
- Apply professional planning skills to evaluate urban planning scenarios by utilizing real-world data, simulation tools, and best practices in planning analysis.
- Apply professional norms through independent and team-based course projects.

Global opportunities

Global experience: Through study abroad (https://goglobal.asu.edu) programs, students of urban planning can gain an understanding of how communities around the world have developed urban areas, and look at urban issues from a global perspective. The valuable experience that students obtain through study abroad enhances their resumes, and they use their acquired insights to help communities at home and around the world.

More than 300 study abroad programs are available in more than 65 countries.

Career opportunities

Graduates of the urban planning program pursue career opportunities with private planning firms and governmental planning agencies, mainly at the city level, but also with county, state and federal entities. Some planners elect to pursue graduate degrees to develop specialty skills and enhance their opportunities for career advancement.

The urban planning degree, especially when combined with a focus on geographic information science, gives graduates an advantage in careers that combine urban planning with GIS and in other jobs that involve urban issues, including:

comprehensive and long-range planning
economic development planning
housing issues
planning law
public participation in the planning process
socioeconomic and environmental analyses
sustainable planning
transportation

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Prelaw (LALAWPRE)

Campus: Downtown Phoenix, Polytechnic, Tempe, West Valley

Program Description:

The prelaw program at Arizona State University is not a degree program. There is no single major that prepares students for becoming a lawyer and there are no specific courses required for law school. Rather, students are encouraged to take a variety of courses --- classes that challenge students intellectually through heavy amounts of reading, writing, critical thinking and analysis. It is also recommended that students engage with more practical experiences in fields related to law (e.g., through internships, job shadowing and so forth).

Challenging courses and real-world experiences, in conjunction with the requirements for a student's major, constitute a prelaw program that prepares students for the next steps in pursuing a career in the legal field.

Additional Program Fee: No
Second Language Requirement: No
First Required Math Course:

Nursing and Health Innovation, Edson College of

Applied Science (Health Entrepreneurship and Innovation), BAS (NUHCIBAS)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, West Valley, Online

Program description

The Bachelor of Applied Science program with a concentration in health entrepreneurship and innovation is designed for students with an Associate of Applied Science degree who want to lead transformative change in health through the creation of new products, processes and systems.

In this program, students examine health care policy and evidence-based practices through an innovative lens, using an integrated systems approach, enabling them to hone the skills necessary to be a leader of innovation in a health care context.

Students with an AAS degree in any field can pursue this pathway.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Second language requirement: No
STEM-OPT extension eligible: Yes
First required math course: Any math course with the MATH general studies designation will satisfy the math requirement.
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Aging, MS

Healthcare Innovation, MHI

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
Students must have an AAS degree from a regionally accredited institution to be eligible for admission to BAS programs at Arizona State University.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students with an AAS degree in any field are eligible to change their ASU major to this applied science program in health entrepreneurship and innovation.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/health-innovation-bas/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUHCIBAS~null&college=CNU) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Students learn to thrive in a global environment through the rich educational and interpersonal experiences inherent in study abroad opportunities. A resume enhanced by a valuable study abroad experience impresses prospective employers and helps students stand out should they decide to pursue advanced study.

With more than 300 Global Education program opportunities (https://goglobal.asu.edu/) available to them, health entrepreneurship and innovation students are able to tailor their experience to their interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships around the world, increasing their professional network.

Career opportunities

Primary career opportunities include health care administrators and health care managers, as well as:

- entrepreneurs

- health architects
- health care administrators
- health care strategists, advisors, project managers and administrators
- health innovation consultants
- health product and service managers
- health system designers
- intrapreneurs (managers who promote innovative product development and marketing)
- public relations experts in health

Community Health, BS (NUCHLTBS)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, West Valley, Online

Program description

Modern health care extends beyond the hospital and into local neighborhoods. Whether it means ensuring everyone has access to nutritious and fresh foods, or providing vulnerable populations with preventive checkups, health care is now a community matter.

The Bachelor of Science program in community health develops leaders who are dedicated to addressing health challenges at their source and creating partnerships with both public and private organizations to leverage resources. By creating a communitywide response to these challenges, graduates can better advocate for patients and provide education opportunities for people of all backgrounds.

Students with an interest in community change find that this degree prepares them to be informed health activists, organizers, planners and well-rounded members of the local, regional and national community.

Key program areas of emphasis:

• advocacy for diverse individuals, families and communities
• providing health education, health promotion and care coordination
• providing understanding of environmental concerns and their impact on health
• understanding components of a healthy, sustainable community

This degree program has the same prerequisites as the nursing major; therefore, students may transition seamlessly to this program and obtain a bachelor's degree in a health-related field.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Change of Major requirements

A current ASU student has no additional requirements for changing majors.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-community-health/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUCHLTBS~null&college=CNU) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Study abroad enables community health students to learn how to address the health needs of diverse populations. By immersing themselves in a culture outside the U.S., students can learn about global health

trends and how people in another country have advocated for positive change in the health care systems of their communities. Students can find more information on the Global Education Office website (https://goglobal.asu.edu/).

Career opportunities

Graduates of this program provide health education, health promotion, care coordination, disease management, health care navigation and advocacy services for individuals, families and communities.

Graduates may obtain employment as:

- community health managers
- community health outreach specialists
- health care navigators
- health promotion evaluators
- health services administrators

Health Care Compliance and Regulations, BS (NUHCCRBS)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, Online

Program description

The Bachelor of Science program in health care compliance and regulations is an undergraduate degree program dedicated to the training of compliance professionals. It is the first undergraduate degree program to be accredited by the Compliance Certification Board®. https://www.hcca-info.org/certification (https://www.hcca-info.org/certification)

Students are offered the opportunity to learn best practices from a broad array of industry experts (providers, regulatory agencies, government payers and others) within the health care industry, giving graduates options to pursue various careers in health care compliance.

This program is ideal for anyone interested in the ethical, regulatory and business sides of the health care industry. Program highlights include:

• data privacy and security
• industry standards for accreditation and auditing
• monitoring and auditing
• revenue cycles, including current billing and coding procedures
• risk assessment
• seven elements of an effective compliance program
• state and federal compliance laws and regulations

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: Any math course that meets the MATH designation
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A current ASU student has no additional requirements for changing majors.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/health-care-compliance-and-regulations-bs/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Students gain valuable experience when studying abroad, experience that enhances their resumes. With more than 300 Global Education programs (https://goglobal.asu.edu/) available to them, students can tailor their experience to their interests and skill sets. Students majoring in health care compliance and regulation can learn about other global health care systems and how they are regulated.

Graduates who possess the heightened cultural competency, leadership and critical-thinking skills they acquired when studying abroad may stand out in a competitive field.

Career opportunities

Graduates may be employed as:

- compliance analysts or specialists
- compliance leads or trainers for health care operations (revenue, clinical care, research, education)
- health care regulatory affairs analysts or specialists
- HIPAA privacy compliance analysts or specialists
- internal auditors, claims auditors or audit response leads
- Medicare and Medicaid compliance analysts or specialists
- special investigation unit analysts or specialists
- patient safety survey specialists
- regulatory compliance specialists

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Health Care Coordination, BS (NUHCCOBS)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, West Valley, Online

Program description

The Bachelor of Science program in health care coordination prepares students to effectively coordinate resources to optimize individual health outcomes.

Through coursework, students build a thorough understanding of health care systems, community and public health, community resources, health education and health advocacy.

The program emphasizes patient advocacy and education, the resources available from community and public health services, and the role of health policy and financing in modern health care.

Students prepare to work with an interdisciplinary team to use resources, provide health education and advocate for the patient when it is needed the most.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
or MAT 117 College Algebra or any math course that meets the MATH designation
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Aging, MS

Healthcare Innovation, MHI

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Health Entrepreneurship and Innovation, BS (NUHCIBS)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, West Valley, Online

Program description

The Bachelor of Science program in health entrepreneurship and innovation provides a broad background in the principles of innovation, leadership, complexity science, change theory, collaboration and evidence-based decision-making to ensure that its graduates are prepared to manage implementation of innovation in the health care arena.

Through the use of evidence-based decision-making and leadership skills in interprofessional teams, students learn to tackle health care challenges using modern technology, public policy and communication. This distinct program situates students at the intersection of innovation and entrepreneurship, enabling them to develop their own solutions to health challenges.

Program areas of emphasis:

• develop competence in the design, application and testing of innovative processes and products
• incorporate current trends with interprofessional teams
• lead processes of innovation and transformation

The BS in health entrepreneurship and innovation is an attractive degree completion pathway for transfer students and students seeking to change their major, as well as incoming first-year students. Students should consult with an advisor to review the applicability of completed coursework and to review a degree completion plan.

Second language requirement: No

Integrative Health, BS (NUIHLTBS)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, West Valley, Online

Program description

Patients come in all shapes and sizes, and so should the care they receive. There are many aspects of health and wellness, including the mind, body and spirit. One is not separate from another, but pieces of what make up the whole person. The Bachelor of Science degree program in integrative health focuses on a patient's well-being from a holistic perspective, applying conventional, natural and alternative health approaches as a collaborative model of care. A variety of health practices --- such as traditional Chinese medicine, herbal supplementation, physical medicine and acupuncture --- are explored to create a comprehensive, patient-centered approach for health and wellness.

Through innovative and interprofessional approaches in supporting diverse populations, students learn to differentiate the ethical, legal and practice standards of integrative and alternative health practitioners. Coursework and experiences include an emphasis on evidence-based practices and gaining an understanding of the historical and cultural foundations of the integrative health field.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: First math varies depending on the track chosen.
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some

combinations are not possible due to high levels of overlap in curriculum.

With more than 300 programs available, students can tailor their experience to their interests and skill sets. The valuable cultural competency, leadership and critical-thinking skills they acquire from study abroad opportunities will enhance their resumes and be applicable to any career choice.

Career opportunities

This degree program prepares students for graduate study in the areas of osteopathic medicine, chiropractic care, naturopathic medicine, physician assistant training, physical therapy and more.

Graduates may be self-employed or employed in hospitals, clinics, doctor offices, companies and holistic centers. Graduates may go on to pursue positions such as:

- chiropractic doctor
- health coach
- health educator
- health program manager
- health services administrator
- naturopathic doctor
- osteopathic doctor
- physician assistant
- wellness consultant
- wellness director

Nursing, BSN (NUNURDBSN)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, Polytechnic, West Valley, ASU Sync, ASU at The Gila Valley, Online

The accelerated BSN/MS option is currently only available to ASU Online students.

Program description

Achieving a Bachelor of Science in Nursing is possible through various distinctive pathways.

Traditional prelicensure BSN nursing program
The traditional prelicensure clinical nursing program is a full-time, upper-division nursing program for students who wish to become a registered nurse by completing a BSN. The program has three start dates per year: spring, summer and fall (semester start dates vary by campus location). It may be completed in a 16-month year-round schedule or a 24-month academic year schedule. Graduates are eligible to sit for the National Council Licensure Examination to obtain licensure as a registered nurse.

Students advance into the program in one of two ways: direct admission or the competitive advancement process. Direct admission is offered to incoming first-year students from high school who meet specific admission criteria. Students admitted directly must meet continuing eligibility criteria while attending ASU to advance into the upper-division nursing program. Directly admitted nursing students who do not meet continuing eligibility criteria, transfer

students or ASU students who are changing majors may apply for advancement to the upper-division nursing program by competing for any remaining spaces.

Accelerated BSN clinical nursing program
The accelerated BSN clinical nursing program is a full-time, 12-month upper-division clinical nursing program for students who wish to become a registered nurse by completing a BSN (semester start dates vary by campus location). Selection is competitive. Priority is given for students with an earned bachelor's degree seeking a second degree. Students pursuing advancement to the accelerated BSN clinical nursing program complete prerequisite coursework and apply for advancement to the program. Graduates are eligible to sit for the National Council Licensure Examination to gain licensure as a registered nurse.

Online RN to BSN program
The online RN to BSN program is available to students who have earned an associate degree in nursing and have a current RN license in good standing with the state board of nursing. RN to BSN program courses are offered online in 7.5-week sessions and can be completed in as little as 14 months. There are five starts per year: two in the fall, two in the spring and one in the summer. Assignments may include readings, discussions, papers, presentations and clinical practice experiences completed in a hospital or community setting in the location where the student resides.

Transfer pathway agreements are in place with community college nursing programs, which provide additional benefits to students. The RN to BSN program is not currently available to students residing in Tennessee or Washington.

Concurrent Enrollment Program
The concurrent enrollment program pathway is available to students enrolling in or already enrolled in any regionally accredited associate degree program in nursing that leads to NCLEX-RN licensure. This program is for qualified nursing students who are interested in earning their BSN while simultaneously pursuing their associate degree in nursing. Selected students enroll in the community college program and ASU CEP courses at the same time (concurrently). CEP courses taken at ASU are delivered in an online format and are offered in 15-week sessions. ASU CEP is not currently available to students residing in Tennessee or Washington.

Eastern Arizona College Partnership
This program offers a concurrent enrollment program pathway for qualified students pursuing an AAS in nursing from Eastern Arizona College while simultaneously earning a BSN from ASU. The Eastern Arizona College nursing courses are delivered in-person while the ASU BSN courses are delivered in an online format.

ASU Sync format option
This program is also offered via ASU Sync. ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers.

Students on I-20 immigration status are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available on the official U.S. government website at www.benefits.va.gov/gibill (www.benefits.va.gov/gibill).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Nursing, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
The admission standards for majors in the Edson College of Nursing and Health Innovation are higher than minimum university standards. Effective fall 2022, first-year admission requirements are:

• top 10% of high school graduating class, OR
• an overall high school cumulative GPA of 3.80 in ASU competency courses (scale is 4.00 = "A"), OR
• an overall high school cumulative GPA of 3.50 in ASU competency courses AND either a 25 ACT or 1230 SAT combined evidence-based reading and writing plus math score

Priority application date: November 1

First-year applicants should select an additional major when applying for admission.

English language proficiency requirements (https://admission.asu.edu/apply/international/undergrad/english-proficiency) for applicants whose native language is not English:

• minimum TOEFL iBT score of 76 (internet-based test, taken in a testing center), OR
• minimum IELTS score of 6.5, OR
• minimum Duolingo English test score of 100, OR
• minimum Cambridge English exam score of 176

First-year admission applications to the Bachelor of Science in Nursing program that are received after the November 1 application priority date are considered on a space-available basis. Students not offered admission directly to the nursing program are placed in the BS program in community health (https://degrees.apps.asu.edu/bachelors/major/ASU00/NUCHLTBS/community-health).

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Current ASU students interested in changing to this program need to apply for the upper-division clinical nursing program through an advancement application process. Space is limited, and selection is based upon GPA and the score earned on the TEAS. Students should speak with an advisor in the Edson College of Nursing and Health Innovation for more information on how to change a major to this program.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-nursing-rn-bsn/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=NUNURDBSN~null&college=CNU) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Through study abroad, students majoring in nursing are able to expand their knowledge of how nursing is practiced across the globe.

With more than 300 programs available (https://goglobal.asu.edu/), students can tailor their experience to their interests and skill sets. The heightened cultural competency, leadership and critical-thinking skills they achieve enhance their resumes and are applicable in any career choice.

Career opportunities

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Graduates deliver nursing care to individuals, families and communities. Completion of this degree program also prepares individuals for entrance into graduate study in nursing at the master's or doctoral degree levels, which is essential for teaching, administration, clinical specialization and research.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Public Service and Community Solutions, Watts College of

Applied Science (Emergency Management), BAS (PPEMGBAS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

The Bachelor of Applied Science program with a concentration in emergency management is a flexible, 60 credit hour degree program.

The curriculum is designed specifically for students who have completed an Associate of Applied Science from a regionally accredited institution.

The required capstone class provides experience to students through coordinated internships.

This program is not available to first-year students.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Second language requirement: No
STEM-OPT extension eligible: Yes
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
Students applying to this program must have completed an AAS degree from a regionally accredited institution. This program is not available to first-year students.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A current ASU student must have completed an AAS from a regionally accredited institution to change to this major. Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPEMGBAS~null&college=CPP) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Conduct analysis applying foundational principles of emergency policy and management in the context of complex systems.
- Demonstrate understanding of the complex organizational and governance structures operating in emergency management and homeland security.
- Synthesize their understanding of risk, organizations, and governance to create basic mitigation strategies to manage disruption.

Global opportunities

Global experience: Understanding how different regions around the world react to disasters can lead to insight on how to bring solutions to students' own communities. When studying abroad (https://goglobal.asu.edu/), students can make meaningful connections through exchange of ideas and perspectives. Study abroad programs that focus on issues like counterterrorism, resource management and urban infrastructure can help students develop a more informed and well-rounded view of emergency management.

Career opportunities

The degree in emergency management opens the door to a challenging career as a professional emergency manager. The advancement of technology has created the potential for more devastating disasters than ever before. As a result, there is an increasing demand for emergency managers who have a solid foundation in scientific and technical disciplines as well as management skills.

Community Advocacy and Social Policy, BA (PPCASPBA)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, West Valley, Online

Program description

The Bachelor of Arts program in community advocacy and social policy focuses on advocacy strategies through an in-depth exploration, analysis and comparison of social service systems and policies from an empowerment perspective.

The program emphasizes examining the needs of historically underserved individuals, families and communities. Policy analysis and social change are critical themes in developing an advocacy knowledge base, as are the equally important themes of prevention and social well-being. Students complete courses in two core areas: diversity and oppressed populations, and social issues and interventions.

While the BA program in community advocacy and social policy is fully accredited regionally under the Higher Learning Commission, it is not accredited through the Council of Social Work Education because it does not lead to a Bachelor of Social Work degree. Students ultimately interested in pursuing a master's degree in social work can build a strong foundation within this program.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A minimum cumulative GPA of 2.00 is required to change majors to this program.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-community-advocacy-and-social-policy/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site

while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPCASPBA~null&college=CPP) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply professional theories to working with diverse, oppressed and marginalized populations in both micro and macro practice.
- Apply social justice techniques to advance human rights, and social and economic justice.
- Identify and apply advocacy concepts and methods that support and advance social, economic and environmental justice.

Global opportunities

Global experience: Global Education programs (https://goglobal.asu.edu/) give students the chance to witness how policy, advocacy and social service systems function internationally, providing an opportunity for them to develop a valuable skill set that can give them an advantage in their career, as well as personal enrichment. Enhancing global awareness, communication competency and leadership skills through study abroad can better prepare a student for a career in social services.

Whether in a foreign country, in the U.S. or online, participation in one of the more than 300 Global Education programs encourages students to build communication skills that span intercultural boundaries, challenges them to adapt and persevere, exposes them to differences across the world that they can't experience from textbooks, and increases their ability to work with diverse groups of people.

Career opportunities

Graduates are prepared for employment in the social services arena, such as performing basic case management tasks, staffing hotlines and warmlines, making referrals to needed services, recruiting volunteers, and developing and providing training.

In addition, advocate positions are part of many organizations and areas, such as hospitals and the behavioral health system.

This degree program also prepares students to pursue graduate education.

Community Sports Management, BS (PPCSMBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Students interested in this program should apply directly to the BS in Parks, Recreation and Sport Management.

Program description

The Bachelor of Science program in community sports management focuses on preparing individuals with an interest in managing sport programs and activities for children, youth, adults and seniors in nonprofit, municipal and for-profit organizations.

The program emphasizes the many roles sports play in the community, including as a way to improve the overall quality of life, youth development, sport tourism and community development. Both program delivery and managerial functions are targeted. Specific areas of opportunity include work with youth sports, adaptive sports, sports tourism, sport events and adult recreational sports.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Community Resources and Development (Tourism), MS

Community Resources and Development (Parks and Recreation Management), MS

Community Resources and Development (Sustainable Communities), MS

Community Resources and Development, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPCSMBS~null&college=CPP) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Sports can bring communities together, at home and abroad, despite language and cultural differences. Studying abroad (https://goglobal.asu.edu/) gives students an opportunity to immerse themselves in a different culture and see firsthand the role of sport at the community level while building skills to help them in their future careers. Students who study abroad can achieve heightened cultural competency and leadership and critical thinking skills.

Career opportunities

Numerous career opportunities exist within community sports. Sport programs for youth and adults are offered by city parks and recreation departments, nonprofit organizations such as the Boys and Girls Club or the YMCA, and local nonprofit and for-profit sport clubs. In addition, many communities have sport tourism organizations and sport programs offered through adaptive or therapeutic sports programs such as Special Olympics, Wounded Warriors Project and Ability 360.

Possible positions for graduates of this major include sport supervisors, programmers and managers in local park and recreation departments and nonprofit organizations, as well as community relations and programming positions with professional and local sport organizations.

Community Sports Management (Events), BS (PPCSMEBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Students interested in this program should apply directly to the BS in Parks, Recreation and Sport Management.

Program description

The goal of the events concentration within the Bachelor of Science program in community sports management is to introduce students to the events field and create experts in the coordination, facilitation and planning of events in the community sports sector.

This concentration allows community sports management majors to focus their electives within the area of meetings and event planning. Students gain a solid foundation for developing and producing events that contribute to the economic development and social capital stemming from sports.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

Global experience: Sports can bring communities together, at home and abroad, despite language and cultural differences. Studying abroad (https://goglobal.asu.edu/) gives students an opportunity to immerse themselves in a different culture and build skills that enable them to navigate the intricacies of planning and executing community sport events where people of different cultural backgrounds gather. Students who study abroad can achieve heightened cultural competency and leadership and critical thinking skills.

Career opportunities

Students with a background in managing community sports events can find employment with:

- campus recreation departments
- health and fitness clubs
- morale welfare and recreation departments in the armed forces
- nonprofit organizations
- parks and recreation departments
- private sports organizations

Criminology and Criminal Justice, BS (PPCRIMJBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, West Valley, Online

Program description

The Bachelor of Science program in criminology and criminal justice is for students who want to understand the causes of crime, the role of criminal justice agencies in the control of crime, and the consequences of crime. This program also provides a solid foundation for those interested in pursuing a prelaw track.

Students learn sociological, psychological, biological and economic explanations for individual crime as well as differences in crime across neighborhoods, states, countries and over time. They also learn about the history, legal issues and current practices of crime control via police agencies, the court system, prisons, probation and parole.

These topics are delivered by top-ranking research faculty who offer students hands-on research opportunities and by experienced criminal justice professionals with intimate knowledge of the daily realities of crime and those who engage in crime. Students are encouraged to take advantage of internship opportunities in more than 200 agencies, study abroad programs and flexible course scheduling offered in-person, online and across multiple campuses.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
or MAT 117 College Algebra
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program allows students to choose a 3-year path while participating in the same high-quality educational experience of a 4-year option. Students can opt to fast-track their studies after acceptance into a participating program by connecting with their academic advisor. Fast track options appear at the top of the major map.
This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Emergency Management and Homeland Security (Homeland Security), MA

Public Administration (Urban Management), MPA

Public Administration (Nonprofit Administration), MPA

Crime Analysis, MS

Emergency Management and Homeland Security (Biosecurity and Threat Management), MA

Emergency Management and Homeland Security (Emergency Management), MA

Public Administration (Emergency Management), MPA

Public Policy, MPP

Criminology and Criminal Justice, MS

Criminal Justice, MA

Emergency Management and Homeland Security, MA

Public Policy (Science and Technology Policy), MPP

Public Administration (Public Finance), MPA

Public Policy (Environmental Policy), MPP

Public Administration, MPA

Emergency Management and Homeland Security (Cybersecurity Policy and Management), MA

Emergency Management and Homeland Security (Community Resilience), MA

Program Evaluation and Data Analytics, MS

Public Policy (Policy Informatics), MPP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Transfer admission requirements: The MyPath2ASU pathway allows Arizona transfer students to complete a prescribed sequence of courses that meet the requirements for the community college's AA degree along with the lower-division requirements for the ASU major.

Students completing their ASU BA degree at Yuma: Once the MyPath2ASU pathway requirements are complete, students complete the remaining requirements for the ASU bachelor's degree at the community college.

Students should visit Admission Services (https://admission.asu.edu/apply/transfer) for more information about ASU degrees offered at local community colleges.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A minimum cumulative GPA of 2.00 is required to change to this program.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-criminology-and-criminal-justice/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPCRIMJBS~null&college=CPP) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze theories of crime and how the criminal justice system responds to crime.
- Examine fundamental methodological and statistical techniques used in criminology and criminal justice research.
- Leverage an understanding of the systemic inequalities of crime for working in 21st century agencies and organizations related to criminal justice.

Global opportunities

Global experience: With more than 300 Global Education program opportunities (https://goglobal.asu.edu/) available to them, criminology and criminal justice students are able to tailor their experience to their unique interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The Watts College of Public Service and Community Solutions recommends these programs

(https://goglobal.asu.edu/students/major/criminology-criminal-justice) for students majoring in criminology and criminal justice.

Career opportunities

Graduates of the criminology and criminal justice program find a strong job market in the public and private sectors. Employment opportunities exist in:

- corrections
- courts
- federal agencies
- homeland security
- law enforcement
- legal offices
- parole offices
- private security
- probation offices
- victim advocate agencies

In addition, graduates are able to work in combating bank fraud and domestic terrorism. They also may pursue advanced degrees in law, criminology and criminal justice, and other social science disciplines.

Criminology and Criminal Justice (Policing), BS (PPCRJPOLBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, West Valley, Online

Program description

The concentration in policing in the Bachelor of Science program in criminology and criminal justice provides students with knowledge on policing strategies, police management, police accountability, crime analysis and procedural criminal law. This program also provides a solid foundation for those interested in pursuing a prelaw track.

Students who complete the concentration have a better understanding of how police organizations operate and are led; effective strategies for reducing crime, building trust and increasing accountability; improving police-citizen community relations (especially in communities of color); how the Constitution protects the rights of individuals in interactions with law enforcement; and techniques for analysis and mapping of crime and other police data.

After finishing the concentration in policing, students are better prepared for future employment in law enforcement and to contribute to the future of policing in the United States.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
or MAT 117 College Algebra
Math intensity: General

The Watts College of Public Service and Community Solutions recommends these programs (https://goglobal.asu.edu/students/major/criminology-criminal-justice) for students majoring in criminology and criminal justice.

Career opportunities

Career opportunities for graduates of the policing program include work:

- at the local level in sworn positions in police departments and sheriff's offices
- at the state level in trooper and investigator roles in state agencies
- at the federal level in agent and officer positions in federal law enforcement agencies
- in crime and intelligence analysis

- in private security

Graduates of the criminology and criminal justice program with a concentration in policing can also continue to graduate studies in criminology, related fields or law school.

Emergency Management, AS (PPEMEAS)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

The Associate of Science program in emergency management provides students with an understanding of the causes and effects of natural and human-made disasters and with the technical and administrative skills necessary to lead complex projects in response. Courses covering risk assessment, homeland security and biohazards, paired with practical skills such as operations continuity management and oversight of emergency operations centers, provide students with the key tools for emergency management planning and leadership.

Second language requirement: No

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPEMEAS~null&college=CPP) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Career opportunities

Graduates are prepared for careers in emergency management, community resilience, disaster recovery and risk prevention at the local, state and federal levels.

Emergency Management and Homeland Security, BS (PPEMHSBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Program description

The School of Public Affairs offers the Bachelor of Science program in emergency management and homeland security. The program provides students with an understanding of the political and social implications of disasters, terrorism and national security. Students gain the skills and knowledge to understand and manage natural and human-made threats and execute complex projects in response.

Coursework covering risk assessment, cross-boundary collaboration and rapid resource mobilization paired with practical skills such as operations continuity management, oversight of emergency operations centers, and techniques and best practices for developing prevention programs provide students with the tools to analyze complex situations and provide decision-making tools important for emerging leaders in the field.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Emergency Management and Homeland Security (Homeland Security), MA

Public Administration (Urban Management), MPA

Public Administration (Nonprofit Administration), MPA

Emergency Management and Homeland Security (Biosecurity and Threat Management), MA

Emergency Management and Homeland Security (Emergency Management), MA

Public Administration (Emergency Management), MPA

Public Policy, MPP

Emergency Management and Homeland Security, MA

Public Administration (Public Finance), MPA

Public Policy (Environmental Policy), MPP

Public Administration, MPA

Emergency Management and Homeland Security (Cybersecurity Policy and Management), MA

Emergency Management and Homeland Security (Community Resilience), MA

Program Evaluation and Data Analytics, MS

Public Policy (Policy Informatics), MPP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A minimum cumulative GPA of 2.00 is required to change majors into this program.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-

programs/undergraduate/bachelor-science-emergency-management-homeland-security/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPEMHSBS~null&college=CPP) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Understanding how different governments around the world manage disasters can provide insight for bringing solutions to students' own communities. Global Education programs (https://goglobal.asu.edu/) can help students gain practical knowledge and experience in how governments function at varying levels in a community. Students increase their knowledge and experiential base through study abroad programs to bring about positive change in their own communities. The heightened cultural competency and the leadership and critical thinking skills students acquire through study abroad programs also enhance their resumes.

Career opportunities

Graduates possess the knowledge and skills required for entry- and midlevel supervisory and managerial positions in the public sector at the local, state and federal levels, as well as other opportunities in the commercial and nonprofit sectors. Graduates have a significant advantage in the coming hiring boom within the field in response to the upcoming wave of retirees in the public sector and increasing demand for public services, especially at the federal level.

For those who already possess relevant knowledge and experience, the program provides complementary knowledge valuable for promotion in the field.

Graduates also may choose to further their education in graduate programs in emergency management, public policy, law or public administration.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Incorporate multiple perspectives when proposing creative solutions to complex NLM issues.
- Demonstrate proficiency in written communications with diverse audiences (e.g. clients, interdisciplinary team members, donors, community members).
- Integrate knowledge from diverse disciplines to develop comprehensive strategies that address the complex challenges faced by nonprofit organizations.

Global opportunities

Global experience: Studying abroad (https://goglobal.asu.edu/) can provide students with hands-on experience in nonprofit leadership through a global lens. Students gain skills to be used in their future careers through internships in nonprofits around the world. Students have the opportunity to intern abroad during summer break or during a semester while taking courses in locations such as South America and Asia.

Career opportunities

Prominent nonprofit organizations value this program's tradition of excellence and actively seek to hire its graduates.

The nonprofit sector in the United States is distinct in form and function. This sector includes institutions and individuals situated between government, public, business and commerce sectors. With more than 1.6 million organizations in the U.S., the sector employs more people than the finance, insurance and real estate industries combined.

Depending on their interests, graduates seek work in diverse settings that include a wide variety of missions, including arts and culture, environmental, health and youth development. Some graduates find employment with local, grassroots and direct-service nonprofits, while others find opportunities with grant-making foundations. Many work in affiliates of well-known national organizations such as:

- American Red Cross
- America's Second Harvest

- Humane Society of the United States
- March of Dimes
- National Urban League
- United Way
- youth-serving entities such as Big Brothers Big Sisters, Boys and Girls Clubs, Boy Scouts of America, Girl Scouts of the USA, Camp Fire USA and the YMCA of the USA

Increasing opportunities in the nonprofit sector include careers across the spectrum of community issues, such as the arts, environment and health care. Typical positions include:

- field executive
- fund development director
- program director
- program officer for grant-making organization
- volunteer program manager

- Integrate knowledge from diverse disciplines to develop comprehensive strategies that address the complex challenges faced by nonprofit organizations.

Global opportunities

Global experience: Studying abroad (https://goglobal.asu.edu/) can provide students with hands-on experience in nonprofit leadership with a global perspective. Students gain skills to be used in their future careers through internships in nonprofits. Students have the opportunity to intern during summer break or during a semester while taking courses in locations such as South America and Asia, adding a global lens for issues that Indigenous communities face around the world.

Career opportunities

Most of the major nonprofit organizations in Arizona and other states work with American Indian populations by providing services and expertise. Thus, career options are extensive and include many of the nonprofit organizations in the state and beyond. Careers fields may include fundraising, social services provision, volunteer management and youth programming.

Parks, Recreation and Sport Management, BS (PPPRMBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

The Bachelor of Science program in parks, recreation and sport management provides a transdisciplinary education in the management of parks, protected areas, community-based recreation services, and sport and special event management. The parks and recreation field emerged from the youth development, recreation and park movements of the late 19th century.

Students in the program learn about wilderness, environmental communication, parks and recreation management and policy, assessment and evaluation, and sport and recreation planning and programming. They learn through classroom instruction and field experiences to integrate the natural, social and managerial sciences to make informed decisions for recreation services, both natural resource-based and community-based.

The required internship component of the program enables students to gain practical experience in the parks and recreation professions.

The Council on Accreditation of Parks, Recreation, Tourism and Related Professions accredits this degree program.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

- Integrate knowledge from diverse disciplines to develop comprehensive strategies that address the complex challenges faced by park, recreation and sport organizations.
- Demonstrate proficiency in written communications with diverse audiences (e.g., clients, interdisciplinary team members, families, community members).

Global opportunities

Global experience: Study abroad programs that include travel to some of the world's most renowned and pristine parks, wildlife reserves and other recreational facilities, as well as to forests, reefs and deserts, provide students with invaluable professional development and insight that they can use in their future career.

With more than 300 programs available, study abroad (https://goglobal.asu.edu/) enables students to tailor their experience to their interests and skill sets.

Career opportunities

Graduates are prepared for professional positions in which they design, develop and manage services that address the recreational needs of a particular clientele. They are employed in a variety of public, private and nonprofit organizations in Arizona, nationally and abroad, and they find employment in such diverse settings as:

- armed forces recreation
- city park and recreation departments
- county and state park agencies
- federal natural resource agencies
- hospitals and care facilities
- nonprofit recreation programs
- private and commercial recreation facilities
- special event management
- sport venues and theme parks
- youth agencies

Public Service and Public Policy, BS (PPPAFBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Program description

The Bachelor of Science program in public service and public policy provides comprehensive coverage of topics in public policy, leadership and management.

Students learn how to lead and influence change via public organizations and the policy process. They also gain foundational knowledge about democracy, economics and the role of government in society. The program is distinct because it balances theoretical knowledge and a professional focus.

Students can select one of the following concentration areas to supplement their core courses. Concentrations must be applied to separately: business, criminology, emergency management and homeland security, health policy, law and policy or sustainability.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Students in the public service and public policy program work to create policies that advance the public interest. When studying abroad, students gain a better understanding of how government functions at various levels around the world and an understanding of which public policies are beneficial to society and which policies need to be improved upon. Students increase their knowledge and experiential base through study abroad programs to bring about positive change in their own communities.

More information on available programs can be found on the Global Education website (https://goglobal.asu.edu/).

Career opportunities

Graduates possess the knowledge and skills to transform government and policy in positions at all levels in city, county, state and federal agencies --- entry, midlevel supervisory and managerial. They are prepared for work in nonprofit organizations and in the private sector at the interface of public affairs and private enterprise. For those who already have work experience, the degree provides further opportunity for promotion.

The public service sector offers sustainable, exciting and fulfilling career options. Graduates are empowered to use knowledge of the public sector as a catalyst to change the world. By understanding the challenges facing government and being well-versed in the development of multiple useful and realistic solutions, graduates contribute to the development of local, national and global communities.

Public Service and Public Policy (American Indian Studies), BS (PPPAFAISBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the Public Service and Public Policy BS program.

Program description

The American Indian studies concentration within the Bachelor of Science program in public service and public policy provides students with specialized knowledge about the policy implications of American Indian-related decisions and actions. This concentration focuses on the latest policy implications and research impacting Indigenous communities in the United States.

The BS program in public service and public policy includes comprehensive coverage of topics in public policy, public leadership and management. Applications and examples encompass a wide variety of policy topics and management approaches.

This program examines the public sector and addresses the challenges facing the public in a practical way. It is distinct because it enables students to study public service, policy and administration with a focus on professional preparation for a career. The major is also well-suited to students interested in pursuing further education in law, public administration, public policy and other graduate pursuits focused on public affairs and the common good.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Students can apply a global lens to their studies by learning how American Indians view the world and by learning about current issues and tribal governance of Indigenous peoples around the world.

Participation in study abroad programs increases students' ability to work with diverse groups of people. Whether in a foreign country, in the U.S. or online, any of the more than 300 available Global Education programs (https://goglobal.asu.edu/) provide an opportunity for students to develop a valuable skill set that can give them an advantage in their career and personal enrichment. Students are encouraged to build communication skills that span intercultural boundaries, are challenged to adapt and persevere, and are exposed to differences they can't always read about in textbooks.

Career opportunities

Graduates of this program have gained the knowledge and skills required for entry- and midlevel supervisory and managerial positions in the public sector, such as city, county, state and federal agencies, though they would function successfully in many other types of organizations as well. Graduates are prepared for work in nonprofit organizations and in the private sector at the interface of public affairs and private enterprise. For those who already have work experience, the degree provides further opportunity for promotion.

Public Service and Public Policy (Business), BS (PPPAFBUBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

The School of Public Affairs offers a concentration in business as part of the Bachelor of Science program in public service and public policy.

This concentration establishes the links among the corporate world and the public sector by blending public policy and business strategy. Students are empowered with a robust skill set essential for leadership roles in today's global landscape. They master economic principles, strategic decision-making and advanced policy analysis by engaging in practical applications while navigating policy formulation, implementation and evaluation in governmental agencies.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Emergency Management and Homeland Security (Homeland Security), MA

Public Administration (Urban Management), MPA

Public Administration (Nonprofit Administration), MPA

Emergency Management and Homeland Security (Biosecurity and Threat Management), MA

Emergency Management and Homeland Security (Emergency Management), MA

Public Administration (Emergency Management), MPA

Public Policy, MPP

Emergency Management and Homeland Security, MA

Public Policy (Science and Technology Policy), MPP

Public Administration (Public Finance), MPA

Public Policy (Environmental Policy), MPP

Public Administration, MPA

Emergency Management and Homeland Security (Cybersecurity Policy and Management), MA

Global Management, MGM

Emergency Management and Homeland Security (Community Resilience), MA

Program Evaluation and Data Analytics, MS
Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A minimum cumulative GPA of 2.00 is required to change to this program.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPPAFBUBS~null&college=CPP) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Students seeking in-depth knowledge of the public sector related to agencies that conduct business in various capacities can benefit from studying abroad (https://goglobal.asu.edu/). Many programs focus on topics such as urban sustainability, challenges to a country's economy and governmental issues so students can see the concepts they have learned through a distinct cultural lens.

Career opportunities

This BS program in public service and public policy is preparation for entry- and midlevel supervisory and managerial positions in city, county, state and federal agencies. Graduates are prepared for work in nonprofit organizations and in the private sector at the interface of public affairs and private enterprise. They have the skills to be entrepreneurs in any sector, with career opportunities as diverse as small towns and Fortune 500 companies. For those who already have work experience, the degree provides further opportunity for promotion.

This business concentration prepares those with an interest in policy to focus on business issues and their policy implications.

Global opportunities

Global experience: Students seeking in-depth knowledge of the public sector related to agencies that work with criminal justice systems in various capacities can benefit from studying abroad (https://goglobal.asu.edu/). Students can observe how public policies in other countries directly impact policing and criminality, thus showing the concepts they have learned through a distinct cultural lens.

Career opportunities

Criminology continues to be a highly sought-after area, but many of the career pathways involve working in or around government. The program is primarily focused on individuals interested in or working in the public sector. The skills and knowledge graduates possess allow them to successfully function in many types of organizations, though the primary focus is on public organizations.

A BS degree in public service and public policy is preparation for entry- and midlevel supervisory and managerial positions in city, county, state and federal agencies. Graduates are prepared for work in nonprofit organizations and in the private sector at the interface of public affairs and private enterprise. For those who already have work experience, the degree provides further opportunity for promotion.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-public-service-and-public-policy-emergency/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?

major=PPPAFEHBS~null&college=CPP) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Understanding how different governments around the world manage disasters can provide insight for bringing solutions to students' own communities. Study abroad programs (https://goglobal.asu.edu/) can help students gain practical knowledge and experience in how governments function at varying levels in a community. The heightened cultural competency and the leadership and critical thinking skills students acquire through study abroad programs also enhance their resumes.

Career opportunities

Graduates possess the knowledge and skills required for entry- and midlevel supervisory and managerial positions in the public sector, such as city, county, state and federal agencies, though they would successfully function in many other types of organizations as well. For those who already have work experience, the degree provides further opportunity for promotion. In addition, the program prepares students for future graduate study in law, public policy and public administration.

The number of people retiring paired with the increasing demand for public services has resulted in an increase in job opportunities for graduates in the public sector. The federal government is the nation's largest employer with nearly two million people employed across the country, and nearly 85% of those jobs exist outside the Washington, D.C., area. The federal government is anticipated to hire tens of thousands of new employees for mission-critical positions in the next few years. Those with preparation in academic areas related to public service have an advantage in that market.

Public Service and Public Policy (Health Policy), BS (PPPAFHPBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

The School of Public Affairs offers a concentration in health policy as part of the Bachelor of Science program in public service and public policy. This program allows students to build a course of study that focuses on the health care industry. This sector continues to be a major part of the U.S. and world economy. The concentration in health policy provides students who have an interest in policy an opportunity to focus on health-related issues and their policy implications. The courses in the concentration are offered by the College of Health Solutions and the School of Human Evolution and Social Change.

The BS program in public service and public policy includes comprehensive coverage of topics in public policy, public leadership and management. Applications and examples encompass a wide variety of policy topics and management approaches.

This program examines the public sector and addresses the challenges facing the public in a practical way. It is distinct because it enables students to study public service, policy and administration with a focus on professional preparation for a career.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Public Service and Public Policy (Nonprofit Leadership and Management), BS (PPPANLMBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the Public Service and Public Policy, BS program.

Program description

The School of Public Affairs offers a Bachelor of Science in public service and public policy with a concentration in nonprofit leadership and management.

The BS program in public service and public policy includes comprehensive coverage of topics in public policy, public leadership and management. Applications and examples encompass a wide variety of policy topics and management approaches.

As the role of the nonprofit organization continues to grow, it presents broad policy implications for future public sector professionals. This concentration program empowers students to understand the social, political, economic and philanthropic factors related to the nonprofit sector.

The program examines the public sector and addresses the challenges facing the public in a practical way. It particularly enables students to study public service, policy and administration with a focus on professional preparation for a career. The major is also well suited to students interested in pursuing graduate education in law, public administration, public policy, and other areas focused on public affairs and the common good.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Public Service and Public Policy (Parks and Recreation Management), BS (PPPAPRMBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the Public Service and Public Policy, BS program.

Program description

The School of Public Affairs offers a Bachelor of Science in public service and public policy with a concentration in parks and recreation management.

Leisure and quality of life are an essential part of U.S. society. This program provides students a transdisciplinary education in the management of parks, protected areas and community-based recreation services.

The BS program in public service and public policy includes comprehensive coverage of topics in public policy, public leadership and management. Applications and examples encompass a wide variety of policy topics and management approaches.

This program examines the public sector and addresses the challenges facing the public in a practical way. It distinctly enables students to study public service, policy and administration with a focus on professional preparation for a

career. The major is also well suited to students interested in pursuing graduate education in law, public administration, public policy, and other areas focused on public affairs and the common good.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPPAPRMBS~null&college=CPP) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Global Education programs (https://goglobal.asu.edu/) at some of the world's most renowned and pristine parks, wildlife reserves, and other recreational facilities like forests, reefs and deserts provide students with insight as to how other countries use policy to manage their natural resources. Studying abroad allows students to tailor their experience to their particular interests and skill sets, with more than 300 programs available.

Career opportunities

The degree in public service and public policy is primarily for individuals working in or interested in working in the public sector. The skills and knowledge graduates acquire allow them to successfully function in many other types of organizations; however, the emphasis is on public organizations. They are prepared for work in nonprofit organizations and in the private sector at the interface of public affairs and private enterprise.

Graduates are prepared for entry- and midlevel supervisory and managerial positions in city, county, state and federal agencies. For those who already have work experience, the degree provides further opportunity for promotion.

Public Service and Public Policy (Social Services Delivery), BS (PPPAFSSBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Interested students should apply to the Public Service and= Public Policy, BS program.

Program description

Social services delivery is a fundamental building block of government affairs. Through this concentration, students explore the foundation and practices of social services, along with how social services can be designed, delivered and evaluated at local, state and federal levels.

The core Bachelor of Science program in public service and public policy includes comprehensive coverage of topics in public policy, public leadership and management. Applications and examples encompass a wide variety of policy topics and management approaches.

This program examines the public sector and addresses, in a practical way, the challenges facing the public. It distinctly enables students to study public service, policy and administration with a focus on professional preparation for a career. The major is also well suited to students interested in pursuing graduate education in law, public administration, public policy and other areas focused on public affairs and the common good.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPPAFSSBS~null&college=CPP) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: With more than 300 Global Education program opportunities (https://goglobal.asu.edu/) available, public service and public policy students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career opportunities

The degree in public service and public policy is focused primarily on providing graduates with the knowledge and skills required for entry- and midlevel supervisory and managerial positions in the public sector, such as city, county, state and federal agencies, though they would successfully function in many other types of organizations as well. Graduates are prepared for work in nonprofit organizations and in the private sector at the interface of public affairs and private enterprise.

For those who already have work experience, the degree provides further opportunity for promotion. In addition, this program acts as preparation for future graduate study in law, public policy and public administration.

The number of people retiring paired with the increasing demand for public services has resulted in an increase in job opportunities for graduates in the public sector. The federal government is the nation's largest employer, with nearly two million people employed across the country, and nearly 85% of those jobs exist outside the Washington, D.C., area. The federal government is anticipated to hire tens of thousands of new employees for mission-critical positions in the next few years. Students with preparation in academic areas related to public service and social services delivery will have an advantage in that market.

Public Service and Public Policy (Sustainability), BS (PPPAFSBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

Sustainability continues to be a highly sought-after area, and it presents broad policy implications. Through this concentration, students explore the challenges of sustainability and the development of solutions to pressing issues at local and global levels.

The Bachelor of Science program in public service and public policy includes comprehensive coverage of topics in public policy, public leadership and management. Applications and examples encompass a wide variety of policy topics

and management approaches.

This program examines the public sector and addresses the challenges facing the public in a practical way. It distinctly enables students to study public service, policy and administration with a focus on professional preparation for a career. The major is also well suited to students interested in pursuing graduate education in law, public administration, public policy and other areas focused on public affairs and the common good.

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Public Administration (Urban Management), MPA

Public Administration (Nonprofit Administration), MPA

Public Administration (Emergency Management), MPA

Public Policy, MPP

Public Policy (Science and Technology Policy), MPP

Public Administration (Public Finance), MPA

Public Policy (Environmental Policy), MPP

Public Administration, MPA

Global Management, MGM

Program Evaluation and Data Analytics, MS

Public Policy (Policy Informatics), MPP

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)

Recreational Therapy, BS (PPRECTBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

The Bachelor of Science program in recreational therapy prepares students to apply for the national professional certification through the National Council for Therapeutic Recreation Certification: https://nctrc.org/about-

certification/ctrs-the-qualified-provider (https://nctrc.org/about-certification/ctrs-the-qualified-provider).

The program prepares competent, entry-level recreational therapists with the requisite knowledge, skills and abilities needed to improve functional outcomes and increase participation in life activities for individuals experiencing health conditions. Students learn to conduct assessments, develop service plans, implement therapeutic interventions, and evaluate and document outcomes of care. They gain skills to effectively provide comprehensive therapeutic recreation services that include program design and evaluation, individual and group service provision, and advocacy. The required fieldwork component of the program facilitates the development of competencies to provide quality recreational therapy services.

Students who choose this degree program are committed to improving people's lives and contributing to their communities. This degree program is one of two such programs in Arizona, both offered by the School of Community Resources and Development. This program has a heavier emphasis on health care settings such as hospitals and human service agencies, while the BS in parks and recreation with a concentration in therapeutic recreation prepares students to provide recreational therapy services in community settings such as youth programs, adaptive sports, or parks and recreation.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

Illustrate collaborative solutions to complex community health issues (e.g., access to healthcare and recreation, health disparity, mental health, obesity, physical activity, substance abuse).
Employ effective communication skills including adapting use of nonverbal messaging when communicating with diverse audiences
Demonstrate elements of a qualified provider facilitating recreational therapy services.

Global opportunities

Global experience: With more than 300 Global Education program opportunities (https://goglobal.asu.edu/) available, recreational therapy students are able to tailor their experience to their individual interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships around the world, increasing their professional network.

Career opportunities

Recreational therapy is a rapidly growing field, given the rising number of returning veterans and an aging population. Graduates are prepared for work in a wide variety of clinical settings, including hospitals, rehabilitation centers and extended care facilities. Graduates also are qualified to work in community settings such as parks and recreation departments.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Social Work, BSW (PPSWUSWU)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, West Valley, ASU Sync, ASU at Tucson, Online

Program description

The curriculum for this undergraduate program leads to a Bachelor of Social Work degree.

Students focus on social work courses in social policy and services, human behavior in the social environment, social work practice, research and practicum instruction in community agencies. In addition, majors take elective courses in related areas.

Students interested in completing the BSW program in Tucson are encouraged to complete a MyPath2ASU® (https://admission.asu.edu/apply/transfer/MyPath2ASU). The Tucson location option is only available to transfer students.

Format options
This program is also offered via ASU Sync, specifically for students with transfer credit or those who already hold an associate degree. ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real-time with faculty and peers.

The program features ASU Sync courses at the upper-division level --- courses numbered from 300 to 499 that are designed primarily for juniors and seniors. It is ideal for transfer students who wish to complete their BSW degree with live interactions without coming to campus. Prerequisites and other restrictions should be noted before class registration.

Students on F-1 or J-1 immigration status are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available on the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill).

This major is eligible for the Western Undergraduate Exchange program at the following location: West Valley campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

This major is eligible for the Western Undergraduate Exchange program (https://admission.asu.edu/cost-aid/wue) at the following location: ASU at Tucson.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
The ASU Sync option is available only to transfer students or those with an associate degree. Students on F-1 or J-1 immigration status visas are not allowed to complete courses via Sync.

Transfer admission requirements: The MyPath2ASU pathway allows Arizona transfer students to complete a prescribed sequence of courses that meet the requirements for the community college's AA degree along with the lower-division requirements for the ASU major.

Students should visit Admission Services (https://admission.asu.edu/apply/transfer) for more information about ASU degrees offered at local community colleges.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A minimum cumulative GPA of 2.00 is required to change majors to this program.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-social-work-bsw/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPSWUSWU~null&college=CPP) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

Plan, implement and evaluate evidence-based interventions.
Apply professional case management intervention skills when working with individuals, families, groups and communities.
Advocate for advanced human rights, and social and economic justice.

Global opportunities

Global experience: When participating in a study abroad program, students examine social work through an international lens as it relates to community-building, service organizations, support for disenfranchised people and human rights advocacy.

Cross-cultural understanding is one of the main learning outcomes of study abroad programs and is also one of the most important skills of those moving into social work careers. Students are able to use the knowledge and skills learned in the program and the unique intercultural focus gained from study abroad to enhance their career.

Information on available programs can be found on the Global Education Office (https://goglobal.asu.edu/) website.

Career opportunities

Graduates are prepared to be generalist social work practitioners who focus on advocacy, referrals, case management and problem-solving functions with individuals, groups, families, organizations and the community.

Employment in social work is expected to increase commensurately with the needs of a growing and diverse population. Social workers are employed in public and private agencies and deal with a wide variety of social issues, including:

adoption and teen pregnancy
aging
child abuse and foster care
corrections and delinquency
disability
discrimination
domestic violence and family dysfunction
health and mental health
homelessness and poverty
substance abuse

Social work skills such as problem-solving, resource utilization, counseling, group work and community organization are also useful for employee relations and mediation positions in industry.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Tourism Development and Management, BS (PPTDMBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

Through the Bachelor of Science program in tourism development and management, students acquire the planning, management and leadership skills related to the growth and development of tourism throughout the world.

The curriculum takes full advantage of its strong connections with the professional tourism community in Phoenix. The required internship component of the program enables students to gain practical experiences leading to professional positions in travel, tourism and related fields. Students are exposed to the practices of heritage tourism, sustainable tourism, resort management, and meeting and convention planning.

While pursuing the BS in tourism development and management, a student also may choose to complete a certificate in convention sales and meeting planning. Additionally, students have the opportunity to participate in a study abroad program.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Community Resources and Development (Tourism), MS

Community Resources and Development (Parks and Recreation Management), MS

Community Resources and Development (Sustainable Communities), MS

Sustainable Tourism, MST

Community Resources and Development, MS

Community Resources and Development (Nonprofits and NGOs), MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A minimum cumulative GPA of 2.00 is required to change into this program.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPTDMBS~null&college=CPP) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Able to incorporate multiple perspectives when proposing creative solutions to complex tourism issues.
- Integrate knowledge from diverse disciplines to develop comprehensive strategies that address the complex challenges faced by tourism organizations.
- Able to demonstrate proficiency in written communications with diverse audiences (e.g., clients, interdisciplinary team members, community members).

Global opportunities

Global experience: Future tourism professionals need to develop an understanding of how and why people travel to destinations around the world and need to know how to share the local environment with visitors. Through study abroad programs (https://goglobal.asu.edu/), students gain valuable experience in the various subsets of tourism development and management around the world, including in Europe, Latin America, Oceania, Asia and Africa.

Career opportunities

Graduates are ready for successful careers in the rapidly expanding travel and tourism industry --- the largest industry in the world and the second largest in Arizona. Graduates can seek work across a wide variety of occupations in the public, nonprofit, or private and commercial sectors in diverse settings such as resorts, meeting planning, convention and visitor bureaus, tour operations, and commercial recreation businesses. In such settings, graduates design, develop and manage services that address the needs of a particular clientele.

The metropolitan Phoenix area is a major hub of tourism in the southwestern U.S. and has experienced rapid growth in:

- air transportation
- business and corporate travel
- gaming and casinos
- meetings and conventions
- resorts and hotels
- sports tourism
- state and national parks

Tourism Development and Management (Meetings and Events), BS (PPTDMMEBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

Through the Bachelor of Science program in tourism development and management, students acquire the planning, management and leadership skills related to the growth and development of tourism throughout the world.

The concentration in meetings and events enables students to focus their electives on courses that cover meetings and events planning topics. The concentration draws from both the special events program and the meeting management program, thus preparing students to be competitive in the events sector.

The curriculum takes full advantage of its strong connections with the professional tourism community in Phoenix. The required internship component of the program enables students to gain practical experiences leading to professional positions in travel, tourism and related fields. Students are exposed to the practices of heritage tourism, sustainable tourism, resort management, and meeting and convention planning.

While pursuing the BS in tourism development and management with a concentration in meetings and events, a student also may choose to complete a certificate in convention sales and meeting planning. Additionally, students have the opportunity to participate in a study abroad program.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Community Resources and Development (Tourism), MS

Community Resources and Development (Sustainable Communities), MS

Sustainable Tourism, MST

Community Resources and Development, MS

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A minimum cumulative GPA of 2.00 is required to change into this program.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=PPTDMMEBS~null&college=CPP) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Incorporate multiple perspectives when proposing creative solutions to complex tourism issues.
- Integrate knowledge from diverse disciplines to develop comprehensive strategies that address the complex challenges faced by tourism organizations.
- Able to demonstrate proficiency in written communications with diverse audiences (e.g., clients, interdisciplinary team members, community members).

Global opportunities

Global experience: Future tourism professionals need to develop an understanding of how and why people travel to destinations around the world, and learn how to share the local environment with visitors. When studying abroad (https://goglobal.asu.edu/), students gain valuable field experience and immersion in various locales around the world. Internships for credit in meetings and events are available in countries in Europe, Oceania, Latin America and elsewhere.

Career opportunities

Tourism-related meetings and events are significant contributors to the economy in Arizona as well as other states. Graduates are prepared to enter meeting and event-related careers in resorts and hotels, convention and visitor bureaus, private event companies, festivals, travel agencies, destination management companies, parks and recreation departments, public relations, and nonprofit fundraising.

Tourism Development and Management (Resort and Hotel Leadership), BS (PPTDMRBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

The Bachelor of Science program in tourism development and management with a concentration in resort and hotel leadership attracts students and professionals who have interests in the diverse areas of knowledge needed within the accommodations sector. These areas of knowledge include the ecological, social, economic and cultural sustainability practices in the industry; hospitality management and leadership; and the interrelated functions within departments of the lodging, food and beverage industries and other stakeholders, such as recreation organizations and heritage institutions.

The program provides students an academic option to study the resort and accommodations system in-depth and gain knowledge of the importance of the business relationships between suppliers, intermediaries and vendors, guests, and the public and private sectors.

The comprehensive coursework, which integrates resilient and sustainable practices, career exposure opportunities, study abroad options and internship experiences, prepares students for a management and leadership position in the world's largest service industry. It also prepares them to serve their communities with the skills, knowledge, techniques and capabilities needed for addressing major issues related to resorts and other tourism accommodations.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some

combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Community Resources and Development (Tourism), MS

Community Resources and Development (Sustainable Communities), MS

Sustainable Tourism, MST

Tourism Development and Management (Sustainable Tourism), BS (PPTDMSBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

The Bachelor of Science program in tourism development and management with a concentration in sustainable tourism equips students with the theoretical knowledge to navigate one of the world's largest industries.

Students explore resilience and sustainability, learning how to apply these concepts to tourism destinations. They gain a deep understanding of sustainability science, including the theories and language that underpin it. They develop essential skills to measure, create and implement sustainability policies throughout all stages of tourism development.

This program offers courses from the School of Sustainability and the School of Community Resources and Development, providing a robust foundation in sustainability while applying these skills to tourism. Comprehensive coursework, career exposure opportunities, study abroad options, and a culminating internship prepare students for management and leadership roles in the field.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Global experience: Future tourism professionals need to develop an understanding of how and why people travel to destinations around the world and of how to share the local environment with visitors. Through study abroad programs (https://goglobal.asu.edu/), students gain valuable experience in the global travel context by learning sustainable tourism policies in destinations all around the world, including in Europe, Latin America, Asia and Africa.

Career opportunities

Sustainable tourism is becoming increasingly important, and many tourism businesses are hiring sustainability coordinators. These businesses include hotels, airlines, museums, convention and visitor bureaus, and large attractions. Travel agencies and tour companies, such as those that implement ecotourism and volunteer tourism experiences, are especially interested in employees with a strong sustainable tourism background. Numerous sustainable tourism nonprofit organizations have emerged in recent years, and many government-related tourism organizations also hire those with a strong sustainability focus. Consulting opportunities are available to assist tourism businesses in developing sustainable practices as well.

Tourism and Recreation Management, BS (PPTRMBS)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

Through the Bachelor of Science program in tourism and recreation management, students acquire the planning and management skills required for careers in the growing tourism, recreation, sport and event industries throughout the world.

Selecting one of four emphasis areas --- tourism, recreation, events or sport --- enables students to home in on what most interests them. The curriculum offers broad understandings of each sector as well as the skills specific to a chosen field. Students are prepared to contribute to economic and social development and make a positive impact on quality of life, domestically and abroad.

Urban and Metropolitan Studies, BS (PPURBBS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program description

Located in the heart of downtown Phoenix, the Bachelor of Science program in urban and metropolitan studies is for students who yearn to study and understand urban theory in order to effectively address the challenges of rapid growth along with other contemporary urban issues.

Students in this program discover what makes the city tick --- and the city is their classroom. They examine challenges and solutions by researching history, society, culture, economy and politics in order to understand urban theory, and they use that knowledge to get involved in their communities. This gives them an outlet through which they can experience practical ways of solving complex problems faced by metropolitan regions. The students are invested in their neighborhoods. Many of them live and work downtown, and they learn how to improve urban health and well-being, often training themselves to be the future leaders of urban environments. Others focus on making a wide variety of other contributions to society, studying the role of arts and culture, business and property development, and revitalization and community-building in the life of the region.

This major is eligible for the Western Undergraduate Exchange program at the following location: Downtown Phoenix campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program (https://admission.asu.edu/cost-aid/wue).

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Analyze the basic factors affecting the development of urban policies.
- Use management principles to work effectively in complex urban organizations.
- Apply research and analytic tools to urban public problems.

Global opportunities

Global experience: As populations grow and lead to urban sprawl, countries around the world grapple with how to best serve society. Global Education programs (https://goglobal.asu.edu/) expose students to challenges large urban and metropolitan cities face in Europe, South America, Africa and Asia. Students experience cultural immersion and can research ways to improve and solve complex issues faced by urban and metropolitan cities.

Career opportunities

The transdisciplinary approach of the urban and metropolitan studies program ensures its graduates are prepared for work in a wide range of fields. Graduates successfully enter fields as diverse as urban management, revitalization, community development, urban sustainability and urban planning.

Some careers require additional graduate-level studies and professional experience. Students in the program are advised to explore their options with academic and career advisors to prepare an appropriate program of study and a

plan to participate in an internship that complements their long-term professional goals.

Teaching and Learning Innovation, Mary Lou Fulton College for

Applied Science (Early Childhood Studies), BAS (TEAPSECBAS)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The Bachelor of Applied Science with a concentration in early childhood studies is a two-year program for students who already have an Associate of Applied Science degree in early childhood education or a similar field.

Students gain skills in communication, critical thinking and leadership so they can positively affect lifelong learning for children from birth to age 5 (not yet in kindergarten). Through online coursework, students deepen their understanding of the social, emotional, cognitive and physical development of young children. Students learn to set developmentally appropriate learning goals, create and support effective instructional strategies, and develop highly individualized instruction for young learners.

This program integrates experiential learning opportunities into the curriculum, enabling students to put coursework into practice. Students must be able to work or volunteer with learners in an early childhood setting (birth to age 5, not yet in kindergarten) for at least 15 hours per month throughout their junior and senior year.

Individuals who do not have an AAS degree may consider the Bachelor of Arts in Education program in educational studies with a concentration in early childhood studies (https://degrees.apps.asu.edu/bachelors/major/ASU00/TEESECEBAE/educational-studies-early-childhood-studies), which has a parallel curriculum.

This program does not lead to teacher certification. Students seeking teacher certification should enroll in one of the Mary Lou Fulton Teachers College undergraduate programs that lead to institutional recommendation for teacher certification.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Early Childhood Special Education, MEd

Elementary Education, MEd

Early Childhood Special Education (Teacher Certification), MEd

Elementary Education (Teacher Certification), MEd

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
This program is not available to first-year students.

Transfer admission requirements: Students applying to this program must have completed an Associate of Applied Science degree from a regionally accredited institution and be employed or volunteer in an early childhood setting (e.g., Head Start, child development center, early care and education center, private or public preschools, home-based child care) to successfully participate and complete coursework.

Students who have earned an AAS degree from a regionally accredited Arizona community college may be eligible to transfer up to 75 credits towards the BAS degree.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A current ASU student must have completed an AAS degree program in early childhood education or a closely related field from a regionally accredited institution to change to this major.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/early-childhood-applied-science/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEAPSECBAS~null&college=CTE) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply theories of child development, culture, and context to make evidence-based decisions that support children's learning and well-being.
- Collaborate with families and community organizations to support the learning and well-being of young children.
- Use observation, documentation, and assessment tools to inform planning and support individualized instruction in early learning environments.
- Implement developmentally, culturally, and linguistically responsive teaching strategies that promote each child's learning, development, and sense of belonging.
- Plan curriculum using early learning standards and child-centered approaches.
- Create advocacy strategies to address an early childhood policy issue.

Global opportunities

Global experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that, for the foreseeable future, migration will increase globally. Learners will migrate to new communities, and in response, educators will be asked to meet the needs of students who speak languages other than English and who bring a variety of cultures into classrooms and learning environments.

Education students can prepare for this reality by participating in Global Education programs (https://goglobal.asu.edu/), in which they can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career opportunities

This program is a great option for those who are already working in the field of early childhood education.

Graduates may become early childhood educators in various settings, such as Head Start programs, early care and education centers, private preschools, nonprofit centers and home-based service providers. Other career opportunities include center-based administrators or directors; topic specialists who provide resources, training and technical assistance to early childhood educators and programs; program managers; family support specialists and consultants.

Early Childhood Education, BAE (TEECDEDBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, ASU Sync

Program description

The Bachelor of Arts in Education program in early childhood education prepares students to meet the educational, behavioral and social-emotional needs of children, ages birth to age 8 or grade 3. This program focuses on child development and best practices in early childhood education, including the skills to create inclusive learning environments; conduct instructional design, planning and facilitation; and assess, monitor and report the progress of young children.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and student teaching) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional

experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. Clinically embedded courses and professional experiences provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Students complete a series of internships before a semester-long full-time student teaching experience. With the support of a certified mentor teacher and ASU faculty, students are able to apply what they learn during coursework in learning environments.

Graduates are eligible to earn an institutional recommendation from ASU for Arizona teacher certification in Early Childhood Education, Birth-Age 8/Grade 3, as well as a Structured English Immersion, PreK-12, endorsement from the Arizona Department of Education. To teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option
This program is also offered via ASU Sync (https://provost.asu.edu/sync/students). ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. ASU Sync students must reside in Arizona throughout the duration of the program. Students on F-1 or J-1 immigration status are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

The ASU Sync option is only available to transfer students residing in Arizona because of state regulations and student teaching placement requirements. Students should have completed an associate degree by the time they enroll at ASU.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill/).

All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
The ASU Sync option is available only to transfer students residing in Arizona because of state regulations and student teaching placement requirements. Students should have completed an associate degree by the time they are enrolled at ASU. Students on F-1 or J-1 immigration status are not allowed to complete courses via Sync.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A current ASU student has no additional requirements for changing majors.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEECDEDBAE~null&college=CTE) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration is expected to increase globally for the foreseeable future. Learners will migrate to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and who bring a variety of cultures into classrooms and learning environments. Education students participating in study abroad programs can prepare for this reality by engaging in Global Education programs (https://goglobal.asu.edu/), where they can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career opportunities

There is a strong demand for early childhood educators in Arizona and nationwide. Many graduates with a degree in early childhood education hold leadership positions in Head Start, private nonprofit and private for-profit center-based programs, and public school early childhood environments.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Early Childhood and Early Childhood Special Education, BAE (TEECSEBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, ASU at The Gila Valley

ASU is no longer accepting new students to this program. Students interested in this program should apply to the BAE in Early Childhood Education or the BAE in Special Education.

Program description

The Bachelor of Arts in Education program for early childhood education and early childhood special education allows students to be eligible for dual certification in both early childhood education and early childhood special education (birth to age 8).

This program focuses on child development; research-based instructional and assessment practices in early childhood education; and the skills to assess, monitor and report the progress of children with and without disabilities. It prepares students to collaborate effectively with family members of young children to support the growth and development of those children.

Extensive professional experiences are built into this program to prepare students to enter the teaching profession after graduation. Graduates complete internships prior to a full-time teaching residency. Mary Lou Fulton Teachers College has developed a distinctive approach to teacher preparation, which includes student participation in internships and residencies while receiving guidance and support from faculty members and highly qualified certified teachers. Professional experiences are designed to prepare graduates to work with mutually supportive colleagues to address the academic and social-emotional needs of learners.

Graduates are eligible to earn an institutional recommendation from ASU for Arizona teacher certification in Early Childhood and Early Childhood Special Education, and an endorsement in Structured English Immersion, preK--12, from the Arizona Department of Education. In order to teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option: Transfer students who live in Arizona and outside of Maricopa County may be eligible to take regularly scheduled classes remotely via ASU Sync. More information is available on the program website (https://education.asu.edu/degrees/undergraduate).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
or MAT 117 College Algebra
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEECSEBAE~null&college=CTE) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Future educators must learn to create inclusive and inspiring learning environments, and they can do this by expanding their horizons through study abroad (https://goglobal.asu.edu/). Students can explore how schooling works in countries that are leaders in education, conduct comparative research, and make a difference in a community by volunteering at schools and engaging in local educational programs through service-learning opportunities.

Career opportunities

There is a strong demand for early childhood educators in Arizona and nationwide. Many graduates with a degree in early childhood education hold leadership positions in Head Start, private nonprofit and private for-profit center-based programs, and public school early childhood environments.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Education Exploratory, (TEEDUEXPL)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, West Valley

Program description

The education exploratory program enables first-year students to explore various areas in education before they select a major at Mary Lou Fulton Teachers College.

During the program's first year of coursework, which includes four foundational education courses, and through specific cocurricular events scheduled throughout the first and second semesters, students on this track are exposed to all programs and certification areas. Students can make an informed decision about the grade level or area of specialization they are interested in while they stay on track to graduate with a bachelor's degree.

Education exploratory is an introductory program offered to students before they declare a major. It does not lead to a degree, and students need to declare a major after they complete 30 credit hours.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A first-year student with fewer than 24 credit hours is eligible to change their major to this program.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEEDUEXPL~null&college=CTE) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration will increase globally for the foreseeable future. Learners will migrate to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and who bring a variety of cultures into classrooms and learning environments. Education students who participate in study abroad programs can prepare for this reality. By engaging in Global Education programs (https://goglobal.asu.edu/), students can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career opportunities

All students in the education exploratory program are poised to graduate from one of the majors within Mary Lou Fulton Teachers College. Information for those career opportunities can be found under each major.

Educational Studies, BAE (EDSLSTBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, West Valley, Online

Program description

Learning happens everywhere and at all ages. The Bachelor of Arts in Education program in educational studies provides a flexible pathway to a bachelor's degree for students who want to work with children, youth and adults within nonprofit settings, community-based organizations, civic organizations and businesses. Students develop practical skills aligned with workforce demands, including facilitating learning experiences with, and for, diverse people in different contexts. They also develop skills for effective communication, collaboration, critical thinking, leadership, advocacy and innovation --- all of which are essential to educators working across professional contexts.

The educational studies curriculum prepares graduates to serve in a variety of roles in educational settings. Additional benefits include:

• Applied learning experiences, including a two-semester internship, provide opportunities for developing creative problem-solving, effective communication, collaboration and leadership skills that can be leveraged to secure employment after graduation.
• Flexible learning options are offered that accommodate diverse schedules and preferences, supported by engaged faculty and knowledgeable advisors.
• Students develop relationships with prospective employers during the program through embedded learning experiences and partnerships.
• The program can be a pathway to one of three accelerated bachelor's to master's degree programs, which provide students with the opportunity to secure a master's degree in a single year. Two of the programs lead to teacher certification.

While a shared set of learning objectives unites educational studies students, each student also has the ability to curate a unique educational experience tailored to their professional interests and the opportunity to explore new areas of interest.

An educational studies minor is also available to ASU students in other degree programs.

This program does not lead to teacher certification. However, students enrolled in the BAE in educational studies can secure certification by pursuing one of the accelerated master's programs (https://acceleratedmasters.asu.edu/how-apply) that lead to certification.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
or MAT 117 College Algebra
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Secondary Education (Teacher Certification), MEd

Early Childhood Special Education, MEd

Learning Design and Technologies, MEd

Elementary Education, MEd

Global Education, MEd

Educational Policy, MA

Secondary Education, MEd

Early Childhood Special Education (Teacher Certification), MEd

Elementary Education (Teacher Certification), MEd

Higher and Postsecondary Education, MEd

Interdisciplinary Education on Community Health and Wellbeing, MA

Education, MA
Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A current ASU student has no additional requirements for changing majors.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-education-educational-studies/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=EDSLSTBAE~null&college=CTE) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Design sustainable educational innovations to address a social concern within an educational system.
- Integrate professional ethics, personal values, and personal beliefs in their educational practice as demonstrated in in-class reflections.
- Apply professional communication strategies, technology tools, and skills to engage in educational partnerships.

Global opportunities

Global experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration is expected to increase globally for the foreseeable future. Learners will migrate to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and who bring a variety of cultures into classrooms and learning environments. Education students who participate in study abroad programs can prepare for this reality by engaging in Global Education programs (https://goglobal.asu.edu/), where they can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career opportunities

Graduates hold a versatile degree that qualifies them for a variety of career paths in education, including roles at nonprofit organizations, community institutions, civic organizations and businesses.

Nearly 90% of alumni report being employed three months after graduation in various roles across multiple sectors, including:

- education sector
- health care sector
- nonprofit sector
- private sector
- social services sector

Educational Studies (Early Childhood Studies), BAE (TEESECEBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The Bachelor of Arts in Education program in educational studies with a concentration in early childhood studies prepares students for careers working with and advocating for children from birth to age 5 (not yet in kindergarten).

Students gain skills in communication, critical thinking and leadership so they can instill a lifelong love of learning in young children. Through online coursework, students deepen their understanding of the social, emotional, cognitive and physical development of young children. They learn to set developmentally appropriate learning goals for this age

group, and create and support effective instructional strategies and develop highly individualized instruction.

This program integrates experiential learning opportunities into the curriculum, enabling students to put coursework into practice. Students must be able to work or volunteer with learners in an early childhood setting (birth to age 5, not yet in kindergarten) for at least 15 hours per month throughout their junior and senior years.

Transfer students who already have an Associate of Applied Science degree in early childhood education or a closely related field should consider the Bachelor of Applied Science in applied science (early childhood studies) program, which has a parallel curriculum.

This program does not lead to teacher certification. Students seeking teacher certification should enroll in one of the other Mary Lou Fulton Teachers College undergraduate programs.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Apply theories of child development, culture, and context to make evidence-based decisions that support children’s learning and well-being.
- Collaborate with families and community organizations to support the learning and well-being of young children.
- Use observation, documentation, and assessment tools to inform planning and support individualized instruction in early learning environments.
- Implement developmentally, culturally, and linguistically responsive teaching strategies that promote each child’s learning, development, and sense of belonging.
- Plan curriculum using early learning standards and child-centered approaches.
- Create advocacy strategies to address an early childhood policy issue.

Global opportunities

Global experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration is expected to increase globally for the foreseeable future. Learners will be migrating to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and bring a variety of cultures into classrooms and learning environments. Education students who participate in study abroad programs can prepare for this reality by engaging in Global Education programs (https://goglobal.asu.edu/), where they can expand their notion of "normal" schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career opportunities

This program is a great option for students who are already working in the field of early childhood education.

Career opportunities for graduates include positions as early childhood educators in various settings, such as Head Start programs, early care and education centers, private preschools, nonprofit centers and home-based service providers. Other career opportunities include positions as center-based administrators or directors; topic specialists

who provide resources, training and technical assistance to early childhood professionals and programs; program managers; family support specialists; and consultants.

Educational Studies (Instructional Design), BAE (TEEDUSTBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The Bachelor of Arts in Education program in educational studies with a concentration in instructional design helps students build critical competencies related to designing effective online learning to meet the needs of learners.

The curriculum is grounded in modern learning theory and design. Coursework addresses a variety of components within the field of education, including foundations of instructional design, theory and design of digital learning, and digital learning evaluation. All courses are taught online and combine a variety of resources and technologies to facilitate direct interaction between and among students and program faculty.

This program culminates with an internship in which students create and present a project that is applied in a professional context, demonstrating their knowledge of instructional design. Students work with an organization to identify an instructional need, problem or performance gap, and then they develop and deploy a solution to be delivered in an online or blended format.

An instructional design minor is also available to ASU students in other degree programs.

This program does not lead to teacher certification. Students seeking teacher certification should enroll in one of the other Mary Lou Fulton Teachers College undergraduate programs.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
or MAT 117 College Algebra
Math intensity: General

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program has the following program outcomes:

- Conduct needs analyses to formulate evidence-based recommendations that inform instructional design decisions.
- Design inclusive, learner-centered instruction using appropriate learning theories and instructional design principles.
- Develop a fully functional prototype of a basic declarative or procedural instructional solution.
- Design a comprehensive plan for evaluating the effectiveness of an instructional solution.

Global opportunities

Global experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration is expected to increase globally for the foreseeable future. Learners will migrate to new communities. Career opportunities

There is growing demand for online educators, including in companies that develop materials for online students and any organization focused on digital learning. Graduates are prepared for instructional design roles in K--12 and higher education, nonprofits and corporate settings.

Career examples include:

- curriculum coordinator
- curriculum designer or developer
- distance learning manager
- instructional designer
- media center specialists
- technology coordinator
- training specialist, coordinator or manager

Elementary Education, BAE (TEEEDBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, West Valley, ASU Sync, Online

Program description

The Bachelor of Arts in Education program with a concentration in elementary education prepares prospective educators to work with children in grades K--8 in an educational setting. This program leads to a K--8 elementary education credential in the state of Arizona.

Students receive a firm grounding in academic content with current research and best practices from nationally recognized faculty in their fields of expertise, accompanied by professional experiences. Students also gain experience in integrating technology into teaching practices.

The teacher certification program for elementary education is clinically embedded during sophomore, junior and senior years. The Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and student teaching) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. Clinically embedded courses and professional experiences provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Students complete a series of internships before a semester-long full-time teaching experience. With the support of a certified mentor teacher and ASU faculty, students are able to apply in learning environments what they learn in coursework.

Graduates are recommended for grades K--8 elementary teacher certification. Those who desire to teach in a public school must pass the appropriate Arizona educator exams (National Evaluation Series or Arizona Educator Proficiency Assessments) to be credentialed to teach in Arizona.

Format option
This program is also offered via ASU Sync. (https://provost.asu.edu/sync/students) ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. ASU Sync students must reside in Arizona throughout the duration of the program. Students on F-1 or J-1 immigration status are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Education, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
The ASU Sync option is available only to transfer students residing in Arizona because of state regulations and student teaching placement requirements. Students should have completed an associate degree by the time they are enrolled at ASU. Students on F-1 or J-1 immigration status are not allowed to complete courses via Sync.

Transfer admission requirements: The MyPath2ASU® pathway allows Arizona transfer students to complete a prescribed sequence of courses that meet the requirements for the community college's AA degree, along with the lower-division requirements for the ASU major.

Students should visit Admission Services (https://admission.asu.edu/transfer) for more information about ASU degrees offered at local community colleges.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A current ASU student has no additional requirements for changing majors.

Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/elementary-education-bae/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEEEDBAE~null&college=CTE) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration is expected to increase globally for the foreseeable future. Learners will migrate to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and who bring a variety of cultures into classrooms and learning environments. Education students can prepare for this reality by participating in Global Education programs (https://goglobal.asu.edu/), expanding their notion of normal schooling and deepening their understanding of how to foster inclusive and inspiring learning environments.

Career opportunities

There is a demand for highly qualified elementary teachers in Arizona. A high percentage of students from this program receive job offers during their residencies. Many graduates with a degree in elementary education work in:

- charter schools
- nontraditional settings
- private school settings
- public elementary schools

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Elementary Education (Science, Technology, Engineering and Mathematics), BAE (TEESTEMBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Polytechnic

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program description

The Bachelor of Arts in Education program in elementary education with a concentration in science, technology, engineering and mathematics, collectively referred to as STEM, prepares students for certification in grades K--8 in the state of Arizona. This program includes coursework designed for students looking to advance their skills in STEM disciplines and wishing to learn techniques to effectively engage learners.

The program equips prospective educators with the specialized STEM knowledge they need to solve challenging problems and apply critical thinking skills. The elementary education STEM program offers students a firm grounding in the language, current research and best practices in STEM education.

Extensive professional experiences are built into this program to prepare students to enter the teaching profession after graduation. Graduates complete internships prior to a full-time teaching residency. Mary Lou Fulton Teachers College has developed a distinctive approach to teacher-preparation, which includes student participation in internships and residencies while receiving guidance and support from faculty members and highly qualified certified teachers. Professional experiences are designed to prepare graduates to work with mutually supportive colleagues to address the academic and social-emotional needs of learners.

Graduates earn an institutional recommendation from ASU for Arizona teacher certification in Elementary Education, K--8, and an endorsement in Structured English Immersion, pre-K--12, from the Arizona Department of Education. In order to teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
or MAT 117 College Algebra or MAT 170 Precalculus
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Future educators must learn to create inclusive and inspiring learning environments, and they can do this by expanding their horizons. Through the over 300 program options (https://goglobal.asu.edu/) available for global experiences, students can explore how schooling works in countries that are leaders in education, and they can conduct comparative research. Students can make a difference in a community by volunteering at schools and engaging in local educational programs through service-learning opportunities.

Career opportunities

Graduates of Mary Lou Fulton Teachers College are highly sought teachers in public, charter and private education institutions. Many graduates with degrees in elementary education also work at community organizations serving children and youth.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Elementary Multilingual Education, BAE (TEEMLEBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe

Program description

This Bachelor of Arts in Education program in elementary multilingual education prepares students to become educators for linguistically and culturally diverse learners in grades K--8. Students can specialize in several areas, including transborder and cultural studies, Indigenous education and Spanish.

Course topics include language diversity, dialectal variation, funds of knowledge (i.e., collections of knowledge-based cultural practices), and practices that value cultural and community engagement. Students learn processes for identifying English language learners as well as how to develop, and support the needs of students with, individual language learning plans. Students also receive preparation in teaching elementary content areas, including math, language arts, social studies and science, with a specific focus on meeting the academic and linguistic needs of English language learners.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and student teaching) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional

experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. Clinically embedded courses and professional experiences provide students with multiple opportunities to apply to practice in the classroom the knowledge gained in coursework.

Students complete a series of internships before a semester-long full-time student teaching experience. With the support of a certified mentor teacher and ASU faculty, students apply in learning environments what they learn during coursework.

Graduates are eligible to earn an institutional recommendation from ASU for Arizona teacher certification in Elementary Education, K--8, as well as an endorsement in either bilingual education or English as a second language from the Arizona Department of Education. To teach in an Arizona public school, graduates must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments. In addition, students must complete six credit hours of a foreign language or equivalent and pass an appropriate language proficiency test outlined by the Arizona Department of Education to be eligible for the bilingual education or English as a second language endorsement.

Format option
Upper-division courses in this program are also offered via ASU Sync (https://provost.asu.edu/sync/students). ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. ASU Sync students must reside in Arizona throughout the duration of the program. Students on F-1 or J-1 immigration status are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill).

Middle Grades Education, BAE (TEMGEBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe

Program description

The Bachelor of Arts in Education program in middle grades education prepares students for certification in teaching grades 5--9 in the state of Arizona. Students learn the essential knowledge and skills they need to become highly impactful middle-grades teachers, and they learn to plan and implement evidence-based practices that support the distinct needs of adolescents. In addition to general education and foundational courses, students select one content area of focus: middle grades English language arts, middle grades general science, middle grades mathematics or middle grades social studies.

The middle grades education coursework emphasizes developmentally responsive curriculum, instruction and assessment practices that are grounded in research, empower teachers and students, and prioritize equity. Extensive professional experiences are built into the program to prepare students to enter the teaching profession after graduation.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and student teaching) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. Physical Education, BAE (TEPPEBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe

Program description

The Bachelor of Arts in Education program in physical education prepares students to teach quality physical education programs to learners in preschool through grade 12.

The curriculum directly aligns with national beginning teacher standards of SHAPE America --- The Society of Health and Physical Education Teachers of America. Students take foundational coursework in the areas of growth and motor development, movement activities and lifelong physical fitness. The coursework covers elementary, secondary and adaptive physical education methods, including topics such as instructional design, lesson planning and modifications, and accommodations for P--12 learners. Students develop skills in creating positive and productive learning environments, assessing and monitoring student progress, reporting outcomes, and conducting themselves as responsible and ethical professionals.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and student teaching) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. Secondary Education, BAE (TESEDBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, West Valley, ASU Sync

Program description

The Bachelor of Arts in Education program in secondary education prepares students to educate learners in grades 6--12 in the content area of the student's choice.

Students develop strong content knowledge, instructional competency and professional skills needed to lead successful classrooms in middle and high schools. Students gain extensive experience integrating educational technology, and the program has a strong focus on teaching and learning practices that foster equitable access and outcomes for diverse secondary populations. Students select one content area as their subject emphasis, in which they take at least 24 credit hours. Content areas, which may vary depending on location, include biology, business, chemistry, earth and space sciences, economics, English, general science, geography, health, history, mathematics, physics, physical education, political science and American government, and some foreign languages.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and student teaching) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. Clinically embedded courses and professional experiences provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Students complete a series of internships before a semester-long full-time student teaching experience. With the support of a certified mentor teacher and ASU faculty, students apply in learning environments what they learn during coursework.

Graduates earn a bachelor's degree in secondary education and receive an institutional recommendation for teacher certification in Secondary Education, 6--12, as well as a structured English Immersion, P--12, endorsement through the Arizona Department of Education. To be eligible for secondary certification in Arizona, students must also earn a passing score on the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option
This program is also offered via ASU Sync (https://provost.asu.edu/sync/students). ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. ASU Sync students must reside in Arizona throughout the duration of the program. Students on F-1 or J-1 immigration status are not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

The BAE program in secondary education via ASU Sync is available for transfer students who reside in Arizona.

Students should speak to an advisor about the content areas and modalities offered at ASU campuses in and outside Maricopa County.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations. GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More

information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill).

International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
The ASU Sync option is available only to transfer students residing in Arizona because of state regulations and student teaching placement requirements. Students should have completed an associate degree by the time they are enrolled at ASU. Students on F-1 or J-1 immigration status are not allowed to complete courses via Sync.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A current ASU student has no additional requirements for changing majors.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TESEDBAE~null&college=CTE) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration will increase globally for the foreseeable future. Learners will migrate to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and who bring a variety of cultures into classrooms and learning environments. Education students participating in study abroad can prepare for this reality. By engaging in Global Education programs (https://goglobal.asu.edu), they can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career opportunities

Graduates are recommended for certification in an approved area for grades 6--12. The demand for well-prepared secondary teachers is strong, particularly in the areas of math and science. Job opportunities in a fast-growing state such as Arizona are numerous. Graduates with a degree in secondary education work in:

- charter schools
- private school settings
- public schools
- online schools

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.To be eligible for a secondary education credential in Arizona, students must meet all requirements specified by the Arizona Department of Education, including passing the appropriate Arizona educator subject knowledge exam, as well as the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments. Individuals who have previously earned a bachelor's or master's degree in the content area may be eligible to waive the subject knowledge exam and should contact mlfccertification@asu.edu (mailto:mlfccertification@asu.edu) to learn more.

Secondary Education (Biological Sciences), BAE (TEBIOBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, West Valley

Program description

Aligned with strong content knowledge of biological sciences, the Bachelor of Arts in Education in secondary education with a concentration in biology focuses on integrating technology into teaching and provides the professional experience needed to develop teaching skills that lead to success in the classroom.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and student teaching) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. Clinically embedded courses and professional experiences provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Students complete a series of internships before a semester-long full-time student teaching experience. With the support of a certified mentor teacher and ASU faculty, students are able to apply in learning environments what they learn in their coursework.

Completion of this program leads to a bachelor's degree in secondary education with a concentration in biology and an institutional recommendation from ASU that is recognized by the Arizona Department of Education for teacher certification in Secondary Education, 6--12, as well as a Structured English Immersion, P--12, endorsement through the Arizona Department of Education. To be eligible for secondary certification in Arizona, students must earn a passing score on the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 170 - Precalculus
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Education, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A current ASU student has no additional requirements for changing majors.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TEBIOBAE~null&college=CTE) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Because of climate change, geopolitical instability and economic factors, the United Nations and other institutions predict that migration will increase globally for the foreseeable future. Learners will migrate to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and who bring a variety of cultures into classrooms and learning environments. Education students participating in study abroad programs can prepare for this reality. By engaging in Global Education programs (https://goglobal.asu.edu/), students can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career opportunities

MLFTC graduates are highly sought-out teachers in public, charter and private education institutions. The demand for well-prepared secondary teachers is strong, particularly in the areas of math and science. Job opportunities in a fast-growing state such as Arizona are numerous.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Secondary Education (Chemistry), BAE (TECHMBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Polytechnic, Tempe, West Valley

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Program description

Bachelor of Arts in Education programs in secondary education prepare educators to teach youth enrolled in grades 6--12. While teacher candidates develop a strong theoretical background in their specific content areas, education program courses focus on developing the skills and teaching abilities required to be successful in the classroom. This program offers the Structured English Immersion instruction that qualifies students to receive the endorsement that enables them to work with English language learners, and it also provides extensive experiences throughout the program in integrating technology into teaching.

Secondary education professional pathway programs are clinically embedded during the junior and senior years. The primary goal of all professional experiences is to provide students with multiple opportunities to apply knowledge learned in ASU coursework to classroom practice in grades 6--12. Students complete internships one day a week during the junior year and first semester of the senior year. In the final semester, students complete a full-time teaching residency. Mary Lou Fulton Teachers College faculty and highly qualified lead teachers from partner school districts and charter schools collaboratively coach interns and residents during required professional experiences. The professional

experience provided by the program provides students an opportunity to work directly with youth and make an immediate impact on classroom achievement. Students are also given the opportunity to work collaboratively with fellow interns in content area and interdisciplinary teams. This intensive, hands-on model of teacher preparation creates highly sought-after graduates.

Graduates of the program desiring to teach in a public school must pass the appropriate Arizona educator exam to be certified to teach in the state of Arizona.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 270 - Calc w/Analytic Geometry I
Math intensity: Substantial

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Science educators can experience physical sciences and chemistry outside the classroom through study abroad (https://goglobal.asu.edu/). STEM programs in Europe, Asia and Latin America offer hands-on opportunities that explore climate change, engineering and the intersection of humanities and science. Opportunities include research and learning alongside peers from other countries. Program lengths range as short as a week to a full semester or a summer.

Career opportunities

Graduates from secondary education are recommended for certification in an approved area for grades 6--12. The demand for well-prepared secondary teachers is strong, particularly in the areas of math and science. Job opportunities in a fast-growing state such as Arizona are numerous. Graduates with a degree in secondary education work in:

- charter schools
- private school settings

- public schools

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Secondary Education (Earth and Space Sciences), BAE (EDESSBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Polytechnic, Tempe, West Valley

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options. Prospective students should consider the Secondary Education, BAE, which allows students to focus on a content area of their choice.

Program description

The Bachelor of Arts in Education program in secondary education with a concentration in earth and space sciences prepares students to educate learners in grades 6--12. Aligned with strong content knowledge of earth and space sciences, this program also focuses on integrating technology into teaching and provides the professional experience needed to develop teaching skills that lead to success in the classroom.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and student teaching) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. Clinically embedded courses and professional experiences provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Students complete a series of internships prior to a semester-long, full-time teaching experience. With the support of a certified mentor teacher and ASU faculty, students are able to apply what they learn during coursework in learning environments.

Graduates from this program earn a bachelor's degree in their content area and receive an institutional recommendation from ASU that is recognized by the Arizona Department of Education for teacher certification in Secondary Education, 6--12. To be eligible for secondary certification in Arizona, students must also earn a passing score on the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments.

Second language requirement: No

Secondary Education (English), BAE (TEENGBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, West Valley

Program description
The Bachelor of Arts in Education in secondary education with a concentration in English combines a strong foundation in English language arts with a focus on integrating technology into teaching. The program provides the professional experience necessary to develop effective teaching skills that lead to success in the classroom.

Mary Lou Fulton Teachers College has developed a team-based approach to teacher preparation, allowing students to participate in professional experiences (internships and student teaching) with a team of peers while receiving guidance and support from ASU faculty members and highly qualified certified teachers. Team-based professional experiences are designed to prepare students to work with mutually supportive colleagues to address the academic and social-emotional needs of learners. Clinically embedded courses and professional experiences provide students with multiple opportunities to apply knowledge learned in coursework to practice in the classroom.

Students complete a series of internships before a semester-long full-time student teaching experience. With the support of a certified mentor teacher and ASU faculty, students are able to apply in learning environments what they learn in their coursework.

Students who complete this program earn a bachelor's degree in secondary education with a concentration in English and receive an institutional recommendation from ASU that is recognized by the Arizona Department of Education for teacher certification in Secondary Education, 6--12, as well as a Structured English Immersion, P--12, endorsement through the Arizona Department of Education. To be eligible for secondary certification in Arizona, students must earn a passing score on the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments.

Second language requirement: No
STEM-OPT extension eligible: No

Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)

International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TESPABAE~null&college=CTE) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Studying abroad is vital when learning the Spanish language and culture. Future teachers of Spanish, the third most spoken language in the world, can add value to their degree through immersion programs across the Spanish-speaking world in Europe and Latin America. Students explore history and culture in English while acquiring Spanish language skills.

Available programs can be found on the Global Education website (https://goglobal.asu.edu/).

Career opportunities

Graduates of Mary Lou Fulton Teachers College are highly sought teachers in public, charter and private education institutions. The demand for well-prepared secondary teachers is strong. Job opportunities in a fast-growing state such as Arizona are numerous.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Special Education, BAE (TESPCEDBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, ASU Sync

Program description

Special educators make a difference in the lives of children and families. They are curious about how people learn and develop throughout their lifespan. A special education degree prepares students to understand human diversity, communicate effectively and develop problem-solving skills that support their success and that of others.

The Bachelor of Arts in Education program in special education prepares graduates to work with students with disabilities in inclusive settings. Teacher candidates learn to use evidence-based practices that promote students' success with general education content, including high-leverage practices in literacy and math. They develop adaptive techniques for students with disabilities and learn to use instructional and assistive technologies to facilitate success.

Students participate in professional experiences designed to expose them to numerous ways of teaching and learning. Internships and student teaching are embedded during sophomore, junior and senior years to provide teacher candidates with multiple opportunities to work directly with children and youth.

Program graduates are eligible for the Standard Professional Mild/Moderate Disabilities Special Education Certificate - Grades K--12. Those who desire to teach in a public school in Arizona must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option
This program is also offered via ASU Sync (https://provost.asu.edu/sync/students). ASU Sync enables students to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. ASU Sync students must reside in Arizona throughout the duration of the program. Students on F-1 or J-1 immigration status are not permitted to complete courses via ASU Sync and should speak with an advisor about other options for completing this program.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill/).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Education, MA

Acceptance to the graduate program requires a separate application. Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
The ASU Sync option is available only to transfer students residing in Arizona because of state regulations and student teaching placement requirements. Students should have completed an associate degree by the time they are enrolled at ASU. Students on I-20 visas are not allowed to complete courses via Sync.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

A current ASU student has no additional requirements for changing majors.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=TESPCEDBAE~null&college=CTE) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Because of climate change, geopolitical instability or economic factors, the United Nations and other institutions predict that migration will increase globally for the foreseeable future. Learners will migrate to new communities. Increasingly, educators will be asked to meet the needs of students who speak languages other than English and who bring a variety of cultures into classrooms and learning environments. Education students who participate in study abroad programs can prepare for this reality. By engaging in Global Education programs (https://goglobal.asu.edu/), students can expand their notion of normal schooling and deepen their understanding of how to foster inclusive and inspiring learning environments.

Career opportunities

The BAE program in special education leads to teacher certification to support a critical market demand for special education teachers in Arizona and beyond. Graduates are poised to find employment in any career that supports learners with disabilities; common settings include community- and youth-serving organizations, higher education institutions and health-related organizations.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Special Education (Visual Impairment), BAE (TESPEVIBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe

ASU is no longer accepting new students to this program. Individuals interested in earning a teacher certification in special education, grades K--12 from the Arizona Department of Education should consider the Special Education, BAE.

Program description

The Bachelor of Arts in Education program in special education with a concentration in visual impairment provides a strong foundation in evidence-based, high-leverage practices in special education. The visual impairment concentration focuses on diagnostic assessment, orientation and communication skills, and specific teaching methodologies for students with visual impairments. It includes a strong focus on assistive technology to advance learning in the classroom and in daily life.

Students are taught to collaborate with parents, classroom teachers and related service personnel to meet the needs of learners with visual impairments. The curriculum is aligned with Arizona and national standards consistent with the Council for Exceptional Children.

Starting in the fifth term, the program is delivered in partnership with the Foundation for Blind Children in Phoenix, Arizona. Courses are taught by Foundation for Blind Children faculty associates and full-time ASU faculty to provide candidates with theoretical and practical perspectives on teaching and learning for individuals with visual impairments.

Some professional experiences take place at the Foundation for Blind Children and within a local school district, providing experiences that prepare students to teach in both self-contained and inclusive settings.

Graduates earn an institutional recommendation from ASU for Arizona teacher certification in Visually Impaired Special Education, birth--grade 12 and an endorsement in Structured English Immersion, pre-K--12. Certifications and endorsements are issued by the Arizona Department of Education. To teach in an Arizona public school, graduates must pass the appropriate professional knowledge or subject knowledge educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
OR MAT 117 College Algebra
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Special Education and Elementary Education, BAE (TESPEBAE)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Polytechnic, Tempe, West Valley, ASU at Northeastern Arizona, ASU at The Gila Valley, ASU at Yuma

ASU is no longer accepting new students to this program. Individuals interested in a degree in special education should apply to the Special Education, BAE or the Mild/Moderate Special Education certificate. Individuals interested in a degree in elementary education should apply to the Elementary Education, BAE or the Elementary Education certificate.

Program description

The Bachelor of Arts in Education program for special education and elementary education prepares students to work with all learners in inclusive settings.

Since the general education classroom is a viable placement option for many students with mild and moderate learning and behavioral disabilities, students in this program learn to use evidence-based practices that promote success with general education content, including high leverage practices in literacy, math, sciences and social studies. They develop

adaptive techniques for learners with disabilities and use instructional and assistive technologies to facilitate success in the general education curriculum.

Extensive professional experiences are built into this program to prepare students to enter the teaching profession after graduation. Students complete internships prior to a full-time teaching residency. Mary Lou Fulton Teachers College has developed a distinctive approach to teacher preparation, which includes student participation in internships and residencies while receiving guidance and support from faculty members and highly qualified certified teachers. Professional experiences are designed to prepare graduates to work with mutually supportive colleagues to address the academic and social-emotional needs of learners.

Graduates earn an institutional recommendation from ASU for Arizona teacher certification in Mild/Moderate Disabilities Special Education, K--12, Elementary Education, K--8, and an endorsement in Structured English Immersion, preK--12, through the Arizona Department of Education. In order to teach in an Arizona public school, graduates must pass the appropriate professional knowledge or subject knowledge educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option: Transfer students who live in Arizona and outside of Maricopa County may be eligible to take regularly scheduled classes remotely via ASU Sync. Students can learn more on the Sync website (https://provost.asu.edu/sync/students).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 114 - College Mathematics
OR MAT 117 College Algebra
Math intensity: General

Concurrent program options

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Future educators must learn to create inclusive and inspiring learning environments, and they can do this by expanding their horizons through study abroad (https://goglobal.asu.edu/). They can explore how schooling works in countries that are leaders in education, conduct comparative research, and make a difference in a community by volunteering at schools and engaging in local educational programs through service-learning opportunities.

Career opportunities

Graduates of the program are eligible to teach in elementary education programs for grades K--8 and K--12 for the following high-incidence disabilities:

emotional disorders
intellectual disabilities (mild or moderate)
other health impairments
orthopedic impairments
specific learning disabilities

They can teach in a variety of inclusive educational settings, including public, charter and private schools as well as nontraditional settings (juvenile system, children's hospital and more).

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. University College

Exploratory Health and Life Sciences, (UCHSCIEXPL)

College/School: University College

Campus: Downtown Phoenix, Polytechnic, Tempe, Online

Program description

The exploratory health and life sciences track allows students to explore majors and career pathways related to understanding the health and well-being of living organisms.

ASU recognizes that many students seek the opportunity to explore possible academic programs when they first enter the university. By selecting an exploratory program, students can meet general studies requirements that all ASU graduates must fulfill while simultaneously exploring a variety of academic courses and disciplines that help to inform their next major at the university.

The exploratory health and life sciences program is a student-centered experience designed to enable students to explore who they are and what matters to them as they engage in deep self-exploration and design possible pathways for the future. Guided by design thinking principles, students explore their interests, values and skills while engaging in experiential learning opportunities. Students immerse themselves in diverse disciplines, which fosters the discovery of majors as well as career interests and pathways.

The exploratory program offers four tracks: health and life sciences; humanities, fine arts and design (https://degrees.apps.asu.edu/bachelors/major/ASU00/UCHUFAEXPL/exploratory-humanities-fine-arts-and-design); math, physical sciences, engineering and technology (https://degrees.apps.asu.edu/bachelors/major/ASU00/UCEMTPEXPL/exploratory-math-physical-sciences-engineering-and-technology); and social and behavioral sciences (https://degrees.apps.asu.edu/bachelors/major/ASU00/UCSBSEXPL/exploratory-social-and-behavioral-sciences).

All students in the exploratory major are required to enroll in these major and career exploration courses:

• ASU 230: Life by Design --- This course empowers students to proactively shape their academic and personal journeys, assisting them in identifying their interests, strengths and values.
• UNI 250: Designing Your ASU Experience --- This course provides students with comprehensive guidance on academic pathways and potential career opportunities, leading to greater confidence when they select their major.
• UNI 270: Work by Design - Preparing for a Career --- This course equips students with essential skills and strategies to pursue opportunities in their chosen or desired career fields.

Through these courses and the exploratory health and life sciences track, ASU encourages students to explore and develop academic interests and make informed decisions about their educational and career paths.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: Math courses needed are determined by potential major choice.
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students who have completed fewer than 45 college credit hours may change to exploratory status.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/exploratory-health-life-sciences/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=UCHSCIEXPL~null&college=CUC) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Exploring health and life sciences on a global scale can be beneficial to students as they narrow their focus of study. While taking courses abroad, students learn more about themselves and what career path they want to pursue.

Students earn ASU credit for completed courses, while staying on track for graduation. They may apply financial aid and scholarships toward program costs. More information is available on the Global Education Office (https://goglobal.asu.edu/) website.

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=UCEMTPEXPL~null&college=CUC) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Exploring math, physics, engineering and technology on a global scale can be beneficial in helping students to narrow their focus of study. While taking courses abroad, students learn more about themselves and what career path they want to pursue.

Students earn ASU credit for completed courses, while gaining a global perspective applicable to many careers. They may apply financial aid and scholarships toward program costs. More information is available on the Global Education Office (https://goglobal.asu.edu/) website.

Career opportunities

Career opportunities are specific to the ultimate major of choice.

Exploratory Social and Behavioral Sciences, (UCSBSEXPL)

College/School: University College

Campus: Downtown Phoenix, Polytechnic, Tempe, Online

Program description

The exploratory social and behavioral sciences program allows students to explore majors and career pathways related to understanding human behavior in interpersonal, cultural and societal contexts.

ASU recognizes that many students seek the opportunity to explore possible academic programs when they first enter the university. By selecting an exploratory program, students can meet general studies requirements that all ASU graduates must fulfill while simultaneously exploring a variety of academic courses and disciplines that help to inform their next major at the university.

The exploratory social and behavioral sciences track is a student-centered experience designed to enable students to explore who they are and what matters to them as they engage in deep self-exploration and design possible pathways for the future. Guided by design thinking principles, students explore their interests, values and skills while engaging in experiential learning opportunities. Students immerse themselves in diverse disciplines, which fosters the discovery of majors as well as career interests and pathways.

The exploratory program offers four tracks: health and life sciences (https://degrees.apps.asu.edu/bachelors/major/ASU00/UCHSCIEXPL/exploratory-health-and-life-sciences); humanities, fine arts and design (https://degrees.apps.asu.edu/bachelors/major/ASU00/UCHUFAEXPL/exploratory-humanities-fine-arts-and-design); math, physical sciences, engineering and technology (https://degrees.apps.asu.edu/bachelors/major/ASU00/UCEMTPEXPL/exploratory-math-physical-sciences-engineering-and-technology); and social and behavioral sciences.

All students in the exploratory major are required to enroll in these major and career exploration courses:

• ASU 230: Life by Design --- This course empowers students to proactively shape their academic and personal journeys, assisting them in identifying their interests, strengths and values.
• UNI 250: Designing Your ASU Experience --- This course provides comprehensive guidance on academic pathways and potential career opportunities, leading to greater confidence in selecting their major.
• UNI 270: Work by Design - Preparing for a Career --- This course equips students with essential skills and strategies to pursue opportunities in their chosen or desired career fields.

Through these courses and the exploratory social and behavioral sciences track, ASU encourages students to explore and develop academic interests and make informed decisions about their educational and career paths.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: Math courses needed are determined by potential major choice.
Math intensity: General

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)

International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students who have completed fewer than 45 college credit hours may change to exploratory.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/exploratory-social-behavioral-sciences/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=UCSBSEXPL~null&college=CUC) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Exploring social and behavioral sciences on a global scale can be beneficial to students who are narrowing their focus of study. While taking courses abroad, students are able learn more about themselves and what career path they want to pursue.

Students earn ASU credit for completed courses, while gaining a global perspective applicable to many careers. They may apply financial aid and scholarships toward program costs. More information is available on the Global Education (https://goglobal.asu.edu/) website.

Curriculum - Accountancy, BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: W. P. Carey School of Business
Plan Code: BAACCBS
Minimum credit hours: 120
Upper division minimum credit hours: 50.5

Requirement	Minimum Grade	Credit Hours
Career Navigation		
WPC 148 First-Year Introduction to Career Development	C	0.25
WPC 248 Sophomore Career Narrative Design OR **WPC 347 Intermediate Career Management** Career Navigation Course Sequence: Continuing first-year students will take WPC 248, after completing WPC 148. New transfer students will take WPC 347.	C	0.25
WPC 348 Junior Networking Foundations	C	0.25
WPC 448 Senior Career Transition Management	C	0.25
Business Core		
FIN 300 Fundamentals of Finance	C	3
LES 305 Business Law and Ethics for Managers	C	3
MGT 300 Principles of Management and Leadership	C	3
MKT 300 Marketing and Business Performance	C	3

Requirement	Minimum Grade	Credit Hours
SCM 300 Global Supply Operations (SUST)	C	3
WPC 300 Problem Solving and Actionable Analytics (QTRS)	C	3
Upper Division International Business Course AGB 302 International Management and Agribusiness (GCSI) ECN 306 Survey of International Economics (GCSI) MGT 302 Principles of International Business (GCSI) MKT 425 Global Marketing Management (GCSI) SCM 463 Global Supply Chain Management (GCSI)	C	3
AND Global Communities, Societies, and Individuals (GCSI)		

Major Courses

ACC 330 Data Analytics in Accounting	C	3
ACC 340 External Reporting I	C	3
ACC 440 External Reporting II	C	3
ACC 444 Integrated Business Processes and Enabling Technologies	C	3
ACC 430 Taxes and Business Decisions OR ACC 450 Principles of Auditing	C	3
Upper Division Accountancy Major Elective (choose two) ACC 350 Internal Reporting	C	6

Requirement	Minimum Grade	Credit Hours
ACC 430 Taxes and Business Decisions		
ACC 450 Principles of Auditing		
ACC 460 Ethics for Professional Accountants		
ACC 494 Topic: ESG Reporting		
CIS 407 Business Database Systems Development		

Business Capstone

WPC 480 W. P. Carey Capstone Course All upper-division Business Core classes (including International Business course) must be completed before enrolling in WPC 480.	C	3

Business Skills Courses

CIS 105 Computer Applications and Information Technology (QTRS)	C	3
ACC 232 and ACC 242 are the recommended lower-division ACC courses for Accountancy students.		
ACC 232 Financial Accounting I OR **ACC 231 Uses of Accounting Information I**	C	3

Specialization #2

Requirement	Minimum Grade	Credit Hours
Specialization Course	C	3
Students choose two specializations.		
Communication Specialization (choose four course) - offered at West Valley		
COM 100 Introduction to Human Communication (SOBE)		
COM 312 Communication, Conflict, and Negotiation (CIVI)		
COM 316 Gender and Communication (SOBE)		
COM 430 Leadership in Group Communication		
ENG 311 Persuasive Writing (CIVI)		
Digital Business Specialization (choose four courses) - offered as iCourses		
CIS 235 Introduction to Information Systems, Analytics and AI in Business		
CIS 300 Web Design and Development		
CIS 311 Business Agile Project Management		
CIS 312 Business Mobile Commerce and Monetization		
Inclusive Excellence Specilization (choose four courses) - offered at West Valley		
DST 101 Introduction to Disability Studies (CIVI)		
DST 494 Topic: Disability and Aesthetics		

Requirement	Minimum Grade	Credit Hours
ENG 353 African American Literature: Beginnings through the Harlem Renaissance (HUAD)		
ETH 430 Gender on the Borderlands (HUAD)		
SOC 426 Social Inequalities (CIVI)		
Food and Agribusiness Innovation Specialization (choose four courses - offered at Poly		
AGB 100 Introduction to Agribusiness		
AGB 321 Agribusiness Sales and Marketing		
AGB 333 Agribusiness Finance		
AGB 366 Food System Technology Innovations		
AGB 410 Food Supply Chains		
AGB 414 Food and Agribusiness Policy Issues		
AGB 452 Global Food and Agricultural Trade		
Food Industry Management Specialization (choose four courses) - offered as iCourses		
AGB 250 Economics of Resource Allocation: Food and Agriculture		
AGB 370 Food Retailing Strategy Development and Case Competition		
AGB 420 Food Advertising and Promotion		
AGB 425 Food Supply Networks		
AGB 435 Commodity Futures and Options Markets		

Requirement	Minimum Grade	Credit Hours
AGB 445 Food Retailing		
Global Management Specialization (choose four courses) - offered at West Valley		
Required:		
TGM 101 Principles of Global Management (GCSI)		
Choose three courses:		
TGM 312 Big Data in the Global Economy		
TGM 460 Global Risk Assessment and Management		
TGM 468 States and Markets in a Global Economy (GCSI)		
TGM 478 Cross-Cultural Communication and Negotiation		
Health Care Innovation Specialization (choose four courses) - offered at West Valley and as iCourses		
HCI 311 Health Innovation: Foundational Concepts		
HCI 421 Health Care Policy: The Innovator's View (CIVI)		
HCI 425 Facilitating Innovation to Achieve Outcomes		
HCI 428 Technology: A Tool to Advance Innovation in Health Care		
Human Resource Management Specialization (choose four courses) - offered at Poly		
Required:		

Requirement	Minimum Grade	Credit Hours
MGT 420 Human Resource Management		
Choose three courses:		
MGT 421 Compensation in Organizations		
MGT 422 Staffing		
MGT 423 Training and Development in Organizations

Business Capstone

WPC 470 Business Leadership Capstone All upper-division Business Core classes (including International Business course) must be completed before enrolling in WPC 470.	C	3

Business Skills Courses

CIS 105 Computer Applications and Information Technology (QTRS)	C	3
ACC 231 Uses of Accounting Information I	C	3
ACC 241 Uses of Accounting Information II	C	3
ECN 211 Macroeconomic Principles (SOBE)	C	3
ECN 212 Microeconomic Principles (SOBE)	C	3
ECN 221 Business Statistics (QTRS)	C	3

Business Skill - Math Courses

MAT 117 Track	C	6
MAT 117 College Algebra (MATH)		
MAT 210 Brief Calculus (MATH)		

AND Mathematics (MATH)

OR **MAT 210 Track**

Required:

MAT 210 Brief Calculus (MATH)

Choose one quantitative course from the list below:

MAT 211 Mathematics for Business Analysis **or** **ACO 100 All About Data: Design, Query, and Visualization (QTRS)** **or** **EDS 223 Design Thinking** **or** **EDT 180 Technology Literacy: Problem Solving using Digital Technology Applications (QTRS)**

AND Mathematics (MATH)

Students must complete two math courses. Students either complete MAT 117 and MAT 210 OR MAT 210 and MAT 211 or a quantitative course.

Other Business Courses

ENG 302 Business Writing		3
COM 259 Communication in Business and the Professions (CIVI)		3
PSY Elective **AND** Social and Behavioral Sciences (SOBE)		3
SOC Elective **AND** Social and Behavioral Sciences (SOBE)		3
WPC 150 Business and Society WPC 150 is required of all first-year business students. Transfer students will not be required to complete WPC 150 and instead will complete three hours of elective credit.	C	3

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

WPC 101 Student Success in Business WPC 101 is the W. P. Carey School of Business course that satisfies ASU 101.		1

First-Year Composition

ENG 101 First-Year Composition AND ENG 102 First-Year Composition OR **ENG 105 Advanced First-Year Composition** OR **ENG 107 First-Year Composition AND ENG 108 First-Year Composition**	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

Students must earn a 2.0 GPA in all courses offered by the W. P. Carey School of Business.

Students must complete a minimum of 22 credit hours of W. P. Carey School of Business courses taken at ASU.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Business (Health Care), BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: W. P. Carey School of Business
Plan Code: BABUSHCBA
Minimum credit hours: 120
Upper division minimum credit hours: 50.5

Requirement	Minimum Grade	Credit Hours
Career Navigation

Second Language: Requirement satisfied through the following: * Completion of a language course at the intermediate level (202 or equivalent), not including American Sign Language IV.	C	16

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

ARA 101 ASU: The Art Experience **OR HDA 101 ASU and Herberger Institute Experience**	C	1

First-Year Composition

ENG 101 First-Year Composition AND ENG 102 First-Year Composition **OR ENG 105 Advanced First-Year Composition** **OR ENG 107 First-Year Composition AND ENG 108 First-Year Composition**	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree

requirements in four years.

ASU Language Placement: Only true beginners are eligible for 101-level courses. All other students are required to take a placement exam, regardless of prior credit earned.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Art (Art Studies), BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: Herberger Institute for Design and the Arts
Plan Code: FAARTSTDBA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Art Studies Core		
Art Studies Core

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq
All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr
Mathematics Placement Assessment score determines placement in first mathematics course.
Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

It is suggested to complete at least one semester in Los Angeles. See your advisor for more information.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Film and Media Production (Directing), BFA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Fine Arts, BFA
College/School: Herberger Institute for Design and the Arts
Plan Code: HIFMPDBFA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Film Major		
FMP 180 Principles of Production Technology	C	3
FMP 205 Introduction to Post-Production	C	2
FMP 210 Principles of Creative Producing	C	3
FMP 245 Concepts of Cinematography	C	2
FMP 261 Principles of Screenwriting	C	3
FMP 280 Introduction to Film and Media Production	C	3
FMP 285 Portfolio Preparation and Review I	C	1
FMP 288 Understanding Ethics in Filmmaking	C	3
FMP 300 Short Film Production	C	3
FMP 360 The Filmmaker's Voice	C	3
FMP 380 Film Practicum	C	1

Requirement	Minimum Grade	Credit Hours
OR **FMP 484 Internship**		
FMP 385 Development of an Artist's Portfolio	C	2
FMP 388 Application of Ethical Filmmaking	C	3
Capstone requires three semesters to complete (FMP 398, FMP 480, and FMP 481). It cannot be condensed into two semesters.		
FMP 398 Capstone I: Development	C	3
FMP 480 Capstone II: Production	C	3
FMP 481 Capstone III: Post-Production	C	3
FMP 485 Portfolio Preparation and Review II	C	1
FMS 100 Introduction to Film and Media Studies (HUAD)	C	3
THF 160 Introduction to Storytelling (HUAD)	C	3
Entertainment Industry Elective **FMP 330 Professional and Technical Writing for Film/TV Industry** **FMP 335 Careers in Film and Media Industry** **FMP 411 Welcome to Hollywood** **FMP 417 Business and Legal Practices in Entertainment**	C	6
Upper Division Entertainment Industry Elective	C	3

Requirement	Minimum Grade	Credit Hours
FMP 330 Professional and Technical Writing for Film/TV Industry		
FMP 335 Careers in Film and Media Industry		
FMP 411 Welcome to Hollywood		
FMP 417 Business and Legal Practices in Entertainment		

Directing Concentration Courses

FMP 318 Directing for Film and Media I	C	3
FMP 345 Cinematography I	C	3
FMP 350 Directing for Documentary Media OR FMP 494 Topic: Directing the Personal Documentary	C	3
FMP 361 Writing the Short Film	C	3
FMP 418 Directing for Film and Media II	C	3
FMP 468 Directing for Film and Media III	C	3
THF 101 Acting Introduction	C	3

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

FMP 101 Orientation to Film	C	1

FMP 101 is not required for transfer students. Transfer students will complete one additional hour of elective credit instead.

First-Year Composition

ENG 101 First-Year Composition AND ENG 102 First-Year Composition			
OR	**ENG 105 Advanced First-Year Composition**	C	6
OR	**ENG 107 First-Year Composition AND ENG 108 First-Year Composition**		

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

Directing students are recommended to take a post-production, sound, cinematography, or screenwriting course to continue rounding out their expertise as directors.

It is suggested to complete at least one semester in Los Angeles. See your advisor for more information.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General

Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Media Arts and Sciences, BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: Herberger Institute for Design and the Arts
Plan Code: HIDGCBA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
AME 111 Introduction to Digital Culture (QTRS)	C	3
AME 130 Prototyping Dreams (HUAD)	C	3
AME 230 Programming for the Media Arts (QTRS)	C	3
Media Arts and Sciences Foundational Media Course		
AME 112 Computational Thinking for Media Arts		
AME 210 Media Editing

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

AME 101 ASU Media Arts and Sciences Experience	C	1

First-Year Composition

ENG 101 First-Year Composition AND ENG 102 First-Year Composition OR ENG 105 Advanced First-Year Composition OR ENG 107 First-Year Composition AND ENG 108 First-Year Composition	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit

hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Media Arts and Sciences (Education), BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: Herberger Institute for Design and the Arts
Plan Code: HIMASEDBA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
AME 111 Introduction to Digital Culture (QTRS)	C	3
AME 130 Prototyping Dreams (HUAD)	C	3
AME 230 Programming for the Media Arts (QTRS)	C	3
Upper Division Education Studies Elective **EDU 301 Why Education?** **EDU 302 Diversity in Learning Contexts** **EDU 402 Partnering to Advance Educational Initiatives** **EDU 404 Navigating Change in Educational Innovations** **LSE 303 Human Development: Addressing Learner Capabilities (SOBE)** **LSE 401 Designing Learning Environments for Inclusion (SOBE)**	C	3
Education Studies Elective **EDU 301 Why Education?**	C	9

Requirement	Minimum Grade	Credit Hours
EDU 302 Diversity in Learning Contexts		
EDU 402 Partnering to Advance Educational Initiatives		
EDU 404 Navigating Change in Educational Innovations		
LSE 303 Human Development: Addressing Learner Capabilities (SOBE)		
LSE 401 Designing Learning Environments for Inclusion (SOBE)		
SPE 222 Orientation to Education of Exceptional Children (CIVI)

Check: Minimum 2.50 Major GPA

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

THE 125 Orientation to Theatre	C	1

First-Year Composition

ENG 101 First-Year Composition **AND** **ENG 102 First-Year Composition**	C	6
OR **ENG 105 Advanced First-Year Composition**		

OR **ENG 107 First-Year Composition** **AND** **ENG 108 First-Year Composition**

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

---

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

---

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Theatre (Design and Production), BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: Herberger Institute for Design and the Arts
Plan Code: FADSNPRBA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
THE 320 History of the Theatre I (GCSI)	C	3
THE 321 History of the Theatre II (HUAD)	C	3
Upper Division THE Dramatic Literature Course **THE 421 Shakespeare: Stage and Film (HUAD)** **THE 422 Latinx Theatre and Film (HUAD)** **THE 423 African American Theatre (HUAD)** **THE 440 Experimental Theatre and Performance**	C	6
THF 126 Professional Development: Communication and Collaboration	C	2
THF 160 Introduction to Storytelling (HUAD)	C	3
THF 215 Design and Composition for Theatre and Film (HUAD)	C	3
THF 220 Principles of Dramatic Analysis (HUAD)	C	3
THF 397 Professional Development Seminar	C	1

Requirement	Minimum Grade	Credit Hours
THF 497 Senior Project	C	1 - 3
THP 102 Acting I	C	3
THP 201 Theatre Production Crew	C	1
THP 213 Introduction to Technical Theatre	C	3
THP 214 Introduction to Costuming	C	3
THP 218 Directing I: Introduction to Directing	C	3
THP 301 Theatre Production	C	2
THP 301 Theatre Production OR THP 401 Theatre Practicum OR THP 498 Pro-Seminar	C	3 - 9
Design & Production Concentration Elective	C	3

Design Electives:

- THP 330 Costume Design
- THP 340 Scene Design
- THP 345 Lighting Design
- THP 350 Sound Design
- THP 355 Media Design for Performance
- THP 440 Advanced Scene Design
- THP 445 Advanced Lighting Design
- THP 455 Advanced Media Design

Requirement	Minimum Grade	Credit Hours
THP 494 Topic: Costume Design II		
Technology:		
THP 331 Costume Construction		
THP 333 Costume Crafts		
THP 335 Stagecraft		
THP 352 Everyday Audio Editing (QTRS)

Applied Science (Graphic Information Technology) Major GPA

Check: Minimum 2.0 Major GPA

Students who have not met all ASU general studies and first-year composition requirements with their transfer courses must complete them at ASU to earn the BAS degree.

Students should work with their academic advisor to review the DARS graduation audit to determine needed requirements.

AAS Transfer Degree Block of Credit Hours	60

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq
All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr
Mathematics Placement Assessment score determines placement in first mathematics course.
Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Applied Science (Internet and Web Development), BAS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Applied Science, BAS
College/School: Ira A. Fulton Schools of Engineering
Plan Code: TSIWDBAS
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Internet and Web Development Core		
GIT 215 Introduction to Web Authoring	C	3
GIT 334 Image Editing and Manipulation		3
GIT 337 Web Content Design	C	3
GIT 340 Information Design and Usability		3
GIT 413 Professional Portfolio Design and Presentation		3
GIT 414 Web Site Design and Internet/Web Technologies		3
GIT 417 Advanced Web Markup and Scripting	C	3
GIT 432 Graphic Industry Business Practices		3
GIT 435 Website and E-Commerce Strategies		3
GIT 450 Digital Workflow in Graphic Industries		3
GIT 480 Senior Project		3

Curriculum - Chemical Engineering, BSE

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science in Engineering, BSE
College/School: Ira A. Fulton Schools of Engineering
Plan Code: ESCHEBSE
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours

Chemical Engineering Lower Division

Engineering Elective		3

*Students who do not meet the enrollment requirements for these courses (excluding CHE prefixes) may be allowed to enroll with instructor consent. Courses not listed here require a department petition form. To take any 494 class, please check with your advisor first.

BME 235 Physiology for Engineers

BME 465 Magnetic Resonance Imaging

BME 494 Topic: Bioenergy and Microbial Biotechnology

BME 494 Topic: Biomedical Device Design

BME 494 Topic: Finite Element Modeling for Biomedical Application

BME 494 Topic: Medical Imaging Instrumentation

BME 494 Topic: Molecular Medicine

BME 494 Topic: Molecular Synthetic Biology

Requirement	Minimum Grade	Credit Hours
BME 494 Topic: Technology for Global Health		
CEE 210 Engineering Mechanics I: Statics		
CEE 400 Earth Systems Engineering and Management (SUST)		
CEE 494 Topic: Bio-inspired Design		
CEE 494 Topic: Sustainable Energy and Material Use		
CSE 205 Object-Oriented Programming and Data Structures (QTRS)		
DAT 301 Exploring Data in R and Python		
EEE 202 Circuits I		
EEE 241 Fundamentals of Electromagnetics		
EEE 307 Signal Processing for Digital Culture		
EEE 498 Topic: Manufacturing Science of Solar Cells		
EEE 498 Topic: Renewable Energy Technology and Systems		
EEE 498 Topic: Science and Technology of Solar Cell Fabrication		
EGR 494 Topic: Engineering in Semiconductors and Microelectronics		
FSE 301 Entrepreneurship and Value Creation		
FSE 394 Topic: Engineering in Global Context		
FSE 394 Topic: Engineering for Humanity		

Requirement	Minimum Grade	Credit Hours
FSE 494 Topic: Nuclear Prolif Secur & Safegrd		
IEE 300 Economic Analysis for Engineers		
IEE 380 Probability and Statistics for Engineering Problem Solving (QTRS)		
IEE 385 Engineering Statistics: Probability		
MAE 494 / **MSE 494 Topic: Quantum Mech Eng: SW and HW of Quantum Computers**		
MSE 250 Structure and Properties of Materials		
MSE 435 Computational Materials Science and Engineering		
MSE 460 Nanomaterials in Energy Production and Storage		
MSE 466 Electrochemical Energy Storage and Conversion		
MSE 494 Topic: Bioinspired Materials and Biomaterials		
MSE 494 Topic: Electrochemical Materials Science		
MSE 494 Topic: Failure Analysis of Metallic Materials		
MSE 494 Topic: Manufacturing Processes for Structural Materials		
CHE 211 Introduction to Chemical Processing	C	3
CHE 231 Introduction to Transport Phenomena I: Fluids	C	3

Computing Capstone/Experiential Learning Requirement

Completion of all major MAT/STP coursework and the listed CSE or ACO prerequisites with a C or better is required prior to enrollment in the experiential learning courses. This is a two-semester requirement. Experiential learning courses may not be taken concurrently in the same semester.

All students must take at least three credit hours of CSE 484 or ACO/CSE 499, and may choose to take all six credit hours as CSE 484 and/or ACO/CSE 499, if they desire. See academic advisor for questions.

CSE 484 Internship OR **CSE 499 Individualized Instruction** OR **ACO 499 Individualized Instruction**	C	3
Upper Division Computing Capstone/Experiential Learning Requirement	C	3

Only one of ACO 482 or ACO 494 Industry Capstone Projects may apply for three out of the six credit hours for the Experiential Learning requirement.

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Computer Science (Cybersecurity), BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: New College of Interdisciplinary Arts and Sciences
Ira A. Fulton Schools of Engineering
Plan Code: ESCSEIBA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Not all courses are available at the West Campus.		
Not all major required courses are available every term. - Please see our degree requirements website for links to our flowcharts and our most up to date course lists. https://scai.engineering.asu.edu/computer-science-ba/cs-ba-degree-requirement		

Major Lower Division Requirements

ACO 201 Data Structures and Algorithms (QTRS) OR **SER 222 Design and Analysis of Data Structures and Algorithms** OR **CPI 220 Applied Data Structures and Algorithms**	C	3
CSE 110 Principles of Programming (QTRS)	C	3
CSE 205 Object-Oriented Programming and Data Structures (QTRS)	C	3
CSE 225 Introduction to Modern Computing Systems	C	3

Requirement	Minimum Grade	Credit Hours
CSE 240 Introduction to Programming Languages	C	3

Computer Science Upper Division Core Requirements

CSE 301 Computing Ethics	C	1
ACO 320 Database Systems	C	3
ACO 330 Computer Networks	C	3
ACO 350 Systems Programming (QTRS)	C	3
CSE 360 Introduction to Software Engineering	C	3

Cybersecurity Concentration Core

ACO 361 Secure Coding Concepts	C	3
Upper Division Computing Electives	C	6

- ACO 321 Database Development & Applications
- ACO 331 Network Forensics Analysis
- ACO 351 Governance, Risk and Compliance
- ACO 361 Secure Coding Concepts
- ACO 394 Special Topics
- ACO 420 Big Data Systems
- ACO 423 Data Science
- ACO 430 Wireless Networks and Security

Requirement	Minimum Grade	Credit Hours
ACO 431 Network Security		
ACO 432 Distributed Systems		
ACO 461 Security Operations		
ACO 494 Special Topics		
CPI 310 Web-Based Information Management Systems		
CPI 350 Evaluation of Informatics Systems		
CPI 360 Decision Making and Problem Solving		
CSE 335 Principles of Mobile Application Development		
CSE 365 Information Assurance		
CSE 445 Distributed Software Development		
CSE 446 Software Integration and Engineering		
CSE 460 Software Analysis and Design		
CSE 463 Introduction to Human Computer Interaction		
CSE 494 Special Topics		
Upper Division Cybersecurity Electives	C	12
ACO 331 Network Forensics Analysis		
ACO 351 Governance, Risk and Compliance		
ACO 401 Managing Cyber Risks in Enterprise Business Processes		
ACO 402 Privacy, Ethics and Compliance Issues		

Requirement	Minimum Grade	Credit Hours
ACO 430 Wireless Networks and Security **ACO 431 Network Security** **ACO 461 Security Operations** **FOR 350 Digital Forensics**		
Upper Division **FSE Elective** Recommended: **FSE 301** OR **FSE 350** The FSE Upper Division Elective may be met with two one-credit hour courses, or a three-credit hour course with the additional credit being allocated to university electives.	C	2

Computing Capstone/Experiential Learning Requirement

Completion of all major MAT/STP coursework and the listed CSE or ACO prerequisites with a C or better is required prior to enrollment in the experiential learning courses. This is a two-semester requirement. Experiential learning courses may not be taken concurrently in the same semester.

All students must take at least three credit hours of CSE 484 or ACO/CSE 499, and may choose to take all six credit hours as CSE 484 and/or ACO/CSE 499, if they desire. See academic advisor for questions.

CSE 484 Internship OR **CSE 499 Individualized Instruction** OR **ACO 499 Individualized Instruction**	C	3
Upper Division Computing Capstone/Experiential Learning Requirement	C	3

Requirement	Minimum Grade	Credit Hours
Only one of ACO 482 or ACO 494 Industry Capstone Projects may apply for three out of the six credit hours for the Experiential Learning requirement.		
ACO 482 Design Thinking for National Security		
ACO 484 Internship		
ACO 494 Topic: Industry Capstone Projects		
ACO 499 Individualized Instruction		
CSE 484 Internship		
CSE 492 Honors Directed Study		
CSE 493 Honors Thesis		
CSE 499 Individualized Instruction		

Computer Science - Cybersecurity - Major Requirement

Check: Minimum 2.0 Major GPA

Interdisciplinary Requirements

CHM 231 Elementary Organic Chemistry (SCIT) AND CHM 235 Elementary Organic Chemistry Laboratory (SCIT)		
Environmental Science:		
ENV 130 Introduction to Environmental Science (SCIT)		
Forensics:		
FOR 105 Physical Evidence and the Crime Scene (SCIT)		
FOR 106 Biology Behind the Crime Scene (SCIT)		
Geological Science:		
GLG 108 Water Planet (SCIT)		
GLG 101 Introduction to Geology I (Physical) (SCIT) AND GLG 103 Introduction to Geology I: Laboratory (SCIT)		
GLG 102 Introduction to Geology II (Historical) (SCIT) AND GLG 104 Introduction to Geology II: Laboratory (SCIT)		
GLG 110 Dangerous World (SCIT) AND GLG 111 Dangerous World Laboratory (SCIT)		
Physical Geography:		
GPH 211 Landform Processes (SCIT)		

Requirement	Minimum Grade	Credit Hours
GPH 111 Introduction to Physical Geography (SCIT) AND GPH 112 Introduction to Physical Geography Lab (SCIT)		
GPH 212 Introduction to Meteorology (SCIT) AND GPH 214 Introduction to Meteorology Laboratory (SCIT)		
Materials Science:		
MSE 208 Patterns in Nature (SCIT)		
Physical Science:		
PHS 110 Fundamentals of Physical Science (SCIT)		
PHS 115 The Science of Musical Instruments		
PHS 208 Patterns in Nature (SCIT)		
Science Education:		
SCN 250 Physical Science by Inquiry		
Earth Space:		
SES 106 Habitable Worlds (SCIT)		
SES 121 Earth, Solar System and Universe (SCIT) AND SES 123 Earth, Solar System and Universe Laboratory (SCIT)		
SES 141 Energy In Everyday Life (SCIT)		
Sustainability:		
SOS 182 Water Planet (SCIT)		

Requirement	Minimum Grade	Credit Hours
Three total (SCIT) lab science courses are required. Two (SCIT) courses must be from the same subject area and one (SCIT) course must be from a different subject area.		

Computer Science Mathematics Requirements

MAT 243 Discrete Mathematical Structures	C	3
MAT 265 Calculus for Engineers I (MATH)	C	3
MAT 266 Calculus for Engineers II (MATH)	C	3
MAT 267 Calculus for Engineers III (MATH) OR **CSE 259 Logic in Computer Science**	C	3

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

ASU 101-CAI The ASU Experience	C	1

First-Year Composition

ENG 101 First-Year Composition AND **ENG 102 First-Year Composition** OR **ENG 105 Advanced First-Year Composition** OR **ENG 107 First-Year Composition** AND **ENG 108 First-Year Composition**	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Computer Systems Engineering, BSE

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science in Engineering, BSE
College/School: Ira A. Fulton Schools of Engineering
Plan Code: ESCSEBSE
Minimum credit hours: 120
Upper division minimum credit hours: 49

Requirement	Minimum Grade	Credit Hours
Please see our degree requirements website for links to our flowcharts and our most up to date course lists. https://scai.engineering.asu.edu/computer-systems-engineering/degree-requirements-computer-systems-engineering/

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

ASU 101-CON The ASU Experience		1

First-Year Composition

ENG 101 First-Year Composition **AND** **ENG 102 First-Year Composition** OR **ENG 105 Advanced First-Year Composition** OR **ENG 107 First-Year Composition** **AND** **ENG 108 First-Year Composition**	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree

requirements in four years.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Construction Management and Technology, BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: Ira A. Fulton Schools of Engineering
Plan Code: ESCONMGTBS
Minimum credit hours: 120
Upper division minimum credit hours: 54

Requirement	Minimum Grade	Credit Hours
Major Upper Division Requirements		
ACC 382 Accounting and Financial Analysis		3
CON 310 Testing of Materials for Construction		2
CON 345 Mechanical Systems		3
CON 383 Construction Estimating OR CON 486 Infrastructure Construction Estimating		3
CON 424 Structural Design		3
CON 453 Construction Technology		3
CON 455 Construction Project Management		3
CON 448 Sustainable Construction		3
CON 484 Internship		1
CON 487 Project Controls		3

Requirement	Minimum Grade	Credit Hours
CON 491 Construction Project Capstone		3
CON 495 Construction Planning and Scheduling		3
CON 496 Construction Contract Administration		3
LES 305 Business Law and Ethics for Managers		3
MGT 380 Management and Strategy		3

Construction Management and Technology Electives

Upper Division **CON Elective** 9

Construction Management and Technology Major GPA

Check: Minimum 2.00 Major GPA

Major Lower Division Requirements

COM 225 Public Speaking and Presentations (CIVI)		3
CON 100 Introduction to Construction		2
CON 101 Construction and Culture: a Built Environment (HUAD)	C	3
CON 221 Applied Statics		3
CON 223 Strength of Materials	C	3
CON 243 Heavy Construction Equipment, Methods and Materials	C	3

CON 244 Working Drawing Analysis	C	3
CON 251 Microcomputer Applications for Construction	C	3
CON 252 Building Construction Methods, Materials, and Equipment	C	3
CON 271 Construction Safety	C	3
CON 273 Electrical Construction Fundamentals and Project Management	C	3
CON 296 Summer Field Internship		1
ECN 211 Macroeconomic Principles (SOBE)		3
MAT 170 Precalculus (MATH)	C	3
PHY 111 General Physics (SCIT) **AND** **PHY 113 General Physics Laboratory (SCIT)**	C	4

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

Students are expected to take internships during the summer unless otherwise approved by the Internship Director and chair of the Construction program. This may impact your financial

aid. Financial aid is available to those who apply and qualify, and students may receive funds to help cover costs for each semester of enrollment. The amount of financial aid that a student is eligible for varies depending on prior education experience and other individual factors. Learn more about summer financial aid and additional ways to cover summer costs. https://asu.my.salesforce-sites.com/kb/articles/FAQ/How-is-summer-financial-aid-awarded/

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

ASU 101-TPS The ASU Experience		1

First-Year Composition

ENG 101 First-Year Composition AND ENG 102 First-Year Composition OR ENG 105 Advanced First-Year Composition OR ENG 107 First-Year Composition AND ENG 108 First-Year Composition	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Engineering (Robotics), BSE

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science in Engineering, BSE
College/School: Ira A. Fulton Schools of Engineering
Plan Code: TSEGRRBSE
Minimum credit hours: 120
Upper division minimum credit hours: 45

EEE 480 Feedback Systems		
EEE 481 Computer-Controlled Systems		
EEE 498 Topic: Foundations Machine Learning: From Theory to Pract		
EEE 498 Topic: Renewable Energy Technology and Systems		
EEE 498 Topic: Science and Technology of Solar Cell Fabrication		
EGR 433 Transforms and Systems Modeling		
EGR 455 Robotic Systems I		
EGR 456 Robotic Systems II		
EGR 494 Special Topics		
EVE 302 Environmental Engineering Fundamentals: Physical and Chemical Processes		
EVE 303 Environmental Engineering Fundamentals: Microbiological Processes		
GLG 418 Geophysics		
IEE 305 Information Systems Engineering		
IEE 376 Operations Research Deterministic Techniques/Applications		
Upper Division MAE Elective		

Requirement	Minimum Grade	Credit Hours
MAT 300 Mathematical Structures		
MAT 310 Introduction to Geometry		
MAT 371 Advanced Calculus I		
MAT 420 Scientific Computing		
MAT 421 Applied Computational Methods (MATH)		
MAT 423 Numerical Analysis I (MATH)		
MAT 425 Numerical Analysis II		
MAT 451 Mathematical Modeling		
MAT 461 Applied Complex Analysis		
MAT 462 Applied Partial Differential Equations		
Upper Division MEE Elective		
MSE 330 Thermodynamics of Materials		
MSE 355 Structure and Defects		
MSE 440 Mechanical Behavior of Materials		
MSE 450 Introduction to Materials Characterization		
MSE 457 Quantum Mechanics for Understanding Properties of Atoms and Solids		
MSE 460 Nanomaterials in Energy Production and Storage		
MSE 466 Electrochemical Energy Storage and Conversion		

Requirement	Minimum Grade	Credit Hours
MSE 476 Growth and Processing of Semiconductors		
MSE 494 Topic: Adv. Materials Synth, Manufacturing, & Processing		
MSE 494 Topic: Advanced Polymer Science and Engineering		
MSE 494 Topic: Battery Materials Science and Engineering		
MSE 494 Topic: Bioinspired Materials and Biomaterials		
MSE 494 Topic: Electrochemical Materials Science		
MSE 494 Topic: Failure Analysis of Metallic Materials		
MSE 494 Topic: Intro to FEA for Matl Design and Characterization		
MSE 494 Topic: Manufacturing Processes for Structural Materials		
MSE 494 Topic: Semiconductor materials, devices, and fabrication		
PHY 310 Classical Particles, Fields, and Matter I		
PHY 361 Introductory Modern Physics		
SES 311 Essentials of Astrobiology: Exploration for Life in the Universe		
SES 350 Engineering Systems and Experimental Problem Solving (QTRS)		
SES 494 Topic: Modeling and Analysis of Space Thermal Systems		

Requirement	Minimum Grade	Credit Hours
TMC 498 Pro-Seminar		
By approval only:		
MAE 484 Internship

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Software Engineering, BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: Ira A. Fulton Schools of Engineering
Plan Code: TSSERBS
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Not all courses are available through ASU Online campus.		
Some ASU Online courses are only offered in specific sessions. Please see advising for course planning. Please see our degree requirements website for links to our flowcharts and our most up to date course lists. ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

CGF 101 First-Year Student: Introduction to ASU and Your Academic Community	C	1

First-Year Composition

ENG 101 First-Year Composition **AND** **ENG 102 First-Year Composition** **OR** **ENG 105 Advanced First-Year Composition** **OR** **ENG 107 First-Year Composition** **AND** **ENG 108 First-Year Composition**	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

Students are encouraged to complete an Experiential Aquatic course to fulfill elective hours. Students should meet with their academic advisor to learn more about these experiences that may be available locally and regionally in Arizona, and globally. In some cases, additional costs may apply.

Ocean Futures Experiential Aquatic Electives

> **FIS 494 Topic: Antarctica: Humans and the Environment**
>
> **FIS 400 / SEA 400 Sea Turtles, Sharks and Fisheries of Baja California**
>
> **SEA 415 Marine Invertebrate Zoology**
>
> **SEA 420 Coral Reef Ecology**
>
> **SEA 425 Research Diving Methods**

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Ocean Futures (Coastal and Marine Science), BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: College of Global Futures
Plan Code: GFSEACMSBS
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Major Courses		
SEA 101 Ocean Futures (SUST)	C	3
SEA 201 Ocean Conservation (SUST) OR SEA 202 Ocean Communities: Introduction to Ethnobotany (GCSI)	C	3
SEA 220 Biology of the Marine Environment	C	3
SEA 325 Oceanography	C	3
Ocean Futures Stewardship	C	3
SEA 294 Topic: Ocean Exploration		
SEA 340 Surfing: Economics, Culture and Science		
SEA 410 Arctic Futures		
SEA 494 Topic: Ethnoecology		
SEA 494 Topic: Coastal & Marine Management & Stewardship		

Requirement	Minimum Grade	Credit Hours

Curriculum - Sustainability, BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: College of Global Futures
Plan Code: SUSUSTBA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Sustainability Quantitative Courses		
SOS 102 Quantitative Reasoning for Sustainability	C	3
STP 226 Elements of Statistics (QTRS)	C	3
Sustainability Introductory Courses		
SOS 110 Building a Sustainable World (SUST)	C	3
SOS 111 Sustainable Cities (SUST)	C	3
Sustainability Core Competency and Skill Courses		
SOS 220 Systems Thinking	C	3
SOS 232 Professional Skills in Sustainability Practice	C	3
SOS 310 Equity, Justice and Sustainability (HUAD)	C	3
SOS 311 Future Thinking and Strategies	C	3

Requirement	Minimum Grade	Credit Hours
Sustainability Track Courses Students must select a single Sustainability Track. This track selection impacts the course options for the Sustainability Track Course requirement and the Sustainability Track Electives requirement. Students should select their track and notify their academic advisor by the end of sophomore year or as early as possible.		
BA sustainability students must select one of the following tracks: Society and Sustainability, Policy and Governance in Sustainable Systems, International Development and Sustainability, or Sustainable Urban Dynamics.		
Students complete the required course of their chosen track. Society and Sustainability Track - Required Course: SOS 320; Policy and Governance in Sustainable Systems Track - Required Course: SOS 321; International Development and Sustainability Track - Required Course: SOS 322; Sustainable Urban Dynamics Track - Required Course: SOS 323		
SOS 320 Society and Sustainability (SOBE) OR **SOS 321 Policy and Governance in Sustainable Systems** OR **SOS 322 International Development and Sustainability** OR **SOS 323 Sustainable Urban Dynamics**	C	3
Students complete three additional track courses, beyond their required track course, from the following:		
SOS 320 Society and Sustainability (SOBE) OR **SOS 321 Policy and Governance in Sustainable Systems**	C	9

Requirement	Minimum Grade	Credit Hours
OR SOS 322 International Development and Sustainability		
OR SOS 323 Sustainable Urban Dynamics		
OR SOS 324 Sustainable Energy Technology and Systems		
OR SOS 325 The Economics of Sustainability		
OR SOS 326 Sustainable Ecosystems		
OR SOS 327 Sustainable Food and Farms		
OR SOS 328 Sustainability and Enterprise		

Sustainability Track Electives

Take two elective courses from your selected track. At least one course (3 credit hours) must be upper division.

Society and Sustainability	C	3
ASB 202 Immigration and Ethnic Relations in the U.S. (CIVI)		
ASB 211 Women in Other Cultures		
ASB 311 Principles of Social Anthropology (GCSI)

Track Elective options may require prerequisite courses. Students must meet all prerequisite requirements to enroll in a course.

SOS Upper Division Elective

Upper Division **SOS Elective**	C	3

Sustainability Capstone

SOS 498 Pro-Seminar OR **SOS 493 Honors Thesis**	B-	3

GPA Requirements

Check: Minimum 2.5 Major GPA

Check: Minimum 2.5 ASU Cumulative GPA

Sustainability Second Language Requirement (BA)

Language Requirement: satisfied through completion of a language course at the intermediate level (202 or equivalent) or higher.	C	16

ASU Language Placement: Only true beginners are eligible for 101-level courses. All other students are required to take a placement or proficiency exam, regardless of prior credit earned. CLEP and AP credit are also viable options for fulfilling the second language requirement.

Related Discipline

All students must complete 12 hours of approved Related Discipline courses. A Related Discipline is a concentration outside of Sustainability that augments the student's Sustainability education. Must see advisor for approval. Courses for the Related Discipline may not overlap with other major requirements. Students may, however, use courses from a minor or certificate to satisfy the Related Discipline requirement. Students must notify their academic advisor of their selected related discipline so it can be entered into their degree audit.

Upper Division Related Discipline	C	9
Related Discipline	C	3

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

CGF 101 First-Year Student: Introduction to ASU and Your Academic Community OR **CGF 201 Transfer Student: Introduction to ASU and Your Academic Community**	C	1

First-Year Composition

ENG 101 First-Year Composition **AND** **ENG 102 First-Year Composition** OR **ENG 105 Advanced First-Year Composition**	C	6
OR **ENG 107 First-Year Composition** **AND** **ENG 108 First-Year Composition**		

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Sustainability, BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS

Track Elective options may require prerequisite courses. Students must meet all prerequisite requirements to enroll in a course.

SOS Upper Division Elective

Upper Division **SOS Elective**	C	3

Sustainability Capstone

SOS 498 Pro-Seminar OR **SOS 493 Honors Thesis**	B-	3

GPA Requirements

Requirement	Minimum Grade	Credit Hours
Check: Minimum 2.5 Major GPA		
Check: Minimum 2.5 ASU Cumulative GPA		

Second Language Requirement (BS)

ASU Language Placement: Only true beginners are eligible for 101-level courses. All other students are required to take a placement or proficiency exam, regardless of prior credit earned. CLEP and AP credit are also viable options for fulfilling the second language requirement.		
Language Requirement: satisfied through completion of a language course at the beginner level (102 or equivalent) or higher.	C	8

Related Discipline

All students must complete 12 hours of approved Related Discipline courses. A Related Discipline is a concentration outside of Sustainability that augments the student's Sustainability education. Must see advisor for approval. Courses for the Related Discipline may not overlap with other major requirements. Students may, however, use courses from a minor or certificate to satisfy the Related Discipline requirement. Students must notify their academic advisor of their selected related discipline so it can be entered into their degree audit.		
Upper Division Related Discipline	C	9
Related Discipline	C	3

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

CGF 101 First-Year Student: Introduction to ASU and Your Academic Community OR **CGF 201 Transfer Student: Introduction to ASU and Your Academic Community**	C	1

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.
Review the "ThunderGuide" located on your Canvas course page for both ASU and Thunderbird-specific resources and information. See advisor for details.
Meet with your academic advisor to begin planning for the best study abroad options for your major.

Thunderbird Proficiency Requirement

The Thunderbird proficiency requirement may be satisfied through one of the following: completion of a language course at the intermediate level (202 or equivalent); completion of an upper-division course or courses taught in a foreign language, taken in the United States or the relevant country; or, completion of six credit hours of upper-division courses that have the global communities, societies and individuals (GCSI) designation (in addition to the courses used to meet the university general studies requirements). Students must earn a grade of â Câ (2.00) or higher in the courses taken to fulfill this requirement. Most students will fulfill this requirement through the completion of TGM 353 and TGM 468. Adjustment to upper-division and elective hours may be required based on the coursework taken (see advisor).

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is

applied according to the designation the course carries at the time the class is taken.

Curriculum - Global Management, BGM - Intl Business, Lang & Culture

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Global Management, BGM
College/School: Thunderbird School of Global Management
Plan Code: TBTGMBGM
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Minimum "C" (2.00) grade is required in all course work in this major.		

Major Core

CIS 105 Computer Applications and Information Technology (QTRS)	C	3
COM 225 Public Speaking and Presentations (CIVI)	C	3
ECN 211 Macroeconomic Principles (SOBE)	C	3
ECN 212 Microeconomic Principles (SOBE)	C	3
Upper Division Ethics course **LES 305 Business Law and Ethics for Managers** **PHI 306 Applied Ethics (CIVI)** **PHI 360 Business and Professional Ethics (HUAD)**	C	3

Requirement	Minimum Grade	Credit Hours
PHI 406 / IAS 406 Moral Dilemmas		
MAT 117 College Algebra (MATH)	C	3
STP 226 Elements of Statistics (QTRS)	C	3

TGM Core

TGM 101 Principles of Global Management (GCSI)	C	3
TGM 200 Principles of Accounting for Global Organizations	C	3
TGM 204 Principles of Marketing for Global Organizations	C	3
TGM 300 Principles of Finance for Global Organizations	C	3
TGM 312 Big Data in the Global Economy	C	3
TGM 353 Regional Management Environment (GCSI)	C	3
TGM 391 Global Business and Professional Development Skills	C	1
TGM 468 States and Markets in a Global Economy (GCSI)	C	3
TGM 478 Cross-Cultural Communication and Negotiation	C	3

Curriculum - Applied Nutrition and Health, BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: College of Health Solutions
Plan Code: NHFNUENBS
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Major Courses		
HSC 310 Health Communication	C	3
HSC 355 Eating for Lifelong Health (SOBE) OR **NTR 450 Nutrition in the Life Cycle (SOBE)**	C	3
MKT 390 Essentials of Marketing OR **MKT 391 Essentials of Selling** OR **MKT 395 Essentials of Advertising and Marketing Communication**	C	3
NTR 142 Applied Food Principles	C	3
NTR 150 Introduction to the Professions in Nutrition and Dietetics	C	1
NTR 341 Medical Nutrition Therapy I OR **NTR 345 Development of Healthy Cuisines** Students following the Pre Dietetics Focus Area should take NTR 341. Students following the Community Nutrition Focus Area or Food Service Operations Focus Area should take NTR 345.	C	3

Requirement	Minimum Grade	Credit Hours
NTR 344 Nutrition Management and Leadership	C	3
NTR 348 Cultural Aspects of Food (GCSI)	C	3
NTR 350 Nutrition Counseling	C	3
NTR 402 Preprofessional Prep in Nutrition Careers	C	1
NTR 448 Community Nutrition NTR 448 fulfills the College of Health Solutions Experiential Learning requirement.	C	3
Students should select and follow a Focus Area to complete a total of 18 credit hours, at least nine of which must be upper division.		
Upper Division Focus Area Courses	C	9

Community Nutrition Focus Area

- **CHS 340 Health Theory**
- **EDS 301 Sustainable Community Design and Practices (SUST)**
- **EXW 446 Worksite Wellness**
- **HCD 332 Population Health Policy and Legislation**
- **HCR 335 Program Development and Management for Community Health**
- **HEP 348 Methods of Health Education**
- **HEP 380 Body Image and Wellness**
- **HEP 444 Epidemiology**

Requirement	Minimum Grade	Credit Hours

College of Health Solutions Requirements

CHS 100 Optimizing Your Health and Performance (SOBE) OR **CHS 300 An Exploration of Well-Being (SOBE)** First-year students should take CHS 100. Students who enter with more than 30 credits should take CHS 300.	C	3
College of Health Solutions students must complete 3 credits of Experiential Learning coursework. This requirement is fulfilled for Applied Nutrition and Health, BS students by the required NTR 448: Community Nutrition course. If interested in additional experiential learning opportunities, visit: https://chs.asu.edu/current-students/experiential-learning.		

Foundational Courses

BIO 160 Introduction to Anatomy and Physiology (SCIT) OR **BIO 201 Human Anatomy and Physiology I (SCIT)**	C	4
BIO 202 Human Anatomy and Physiology II (SCIT) OR **MIC 205 Microbiology (SCIT)** **AND** **MIC 206 Microbiology Laboratory (SCIT)**	C	4
CHM 101 Introductory Chemistry (SCIT)	C	4
HCD 300 Biostatistics (QTRS) OR **STP 226 Elements of Statistics (QTRS)**	C	3

HSC 210 Cultural Aspects of Health (GCSI)	C	3
MAT 114 College Mathematics (MATH) OR **MAT 117 College Algebra (MATH)**	C	3
NTR 241 Human Nutrition	C	3
NTR 290 Introduction to Evidence-Based Research in Nutrition	C	3
Students following the Community Nutrition Focus Area should take BIO 201 and BIO 202 toward the Foundation Courses requirements.		
Students following the Food Service Operations Focus Area should take BIO 160 and MIC 205 & MIC 206 toward the Foundation Courses requirements.		
Students following the Pre Dietetics Focus Area should take MAT 117, BIO 201 and BIO 202 toward the Foundation Courses requirements.		

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

CHS 101 The ASU Experience for Health Solutions Students		1

First-Year Composition

ENG 101 First-Year Composition **AND** **ENG 102 First-Year Composition** OR **ENG 105 Advanced First-Year Composition** OR **ENG 107 First-Year Composition** **AND** **ENG 108 First-Year Composition**	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

Students following the Pre Dietetics Focus Area will be eligible to apply to a graduate program in Dietetics which integrates the required coursework and experiential learning to prepare students for the Registered Dietitian (RD) exam. Upon passing the RD Exam, graduates can work as Registered Dietitian Nutritionists (RDN). For more information about institutions that offer a graduate program in Dietetics, please visit: https://www.eatrightpro.org/acend/accredited-programs/program-directory and search for *Graduate Programs* which are available in several states and online.

The Pre Dietetics Focus Area requires both BIO 202 and MIC 205/206. BIO 202 should be completed before MIC 205/206.

For student resources, including academic advising appointment scheduling, forms and policies, internship information, involvement/research opportunities and more, visit: https://chs.asu.edu/.

Students interested in pursuing health-related professional and graduate programs should explore pre-health resources,

including Pre-Health 101 Workshops and Pre-Health Advising. For more information, visit: https://prehealth.asu.edu/.

Career preparation resources are available through Career Services. For more information, visit: https://career.asu.edu/.

BMI 330 Topics in Translational Bioinformatics	C	3
BMI 404 Clinical Environments This course requires in-person observations within local health clinics. To conduct clinical observations, students must meet additional requirements prior to course enrollment, which typically include proof of vaccination, fingerprint clearance and/or background check, and a drug test.	C	3

Requirement	Minimum Grade	Credit Hours
BMI 410 Database Management in Health Care	C	3
BMI 461 Advanced Topics in Biomedical Informatics I	C	3
BMI 465 Comparative Genomics	C	3
BMI 482 Capstone I OR **CHS 492 Honors Directed Study**	C	3
BMI 483 Capstone II OR **CHS 493 Honors Thesis** BMI 483 and CHS 493 fulfill the College of Health Solutions Experiential Learning requirement.	C	3
Computer Science Courses		
BMI 110 Introduction to Python	C	3
BMI 210 Data Structures and Algorithms in Python	C	3
BMI 310 Health App Development	C	3
BMI 440 Biomedical Software Engineering	C	3
College of Health Solutions Requirements		
CHS 100 Optimizing Your Health and Performance (SOBE) OR **CHS 300 An Exploration of Well-Being (SOBE)** First-year students must take CHS 100; students who enter with more than 30 credits must take CHS 300 instead.	C	3
College of Health Solutions students must complete 3 credits of Experiential Learning coursework. This requirement is fulfilled		

for Biomedical Informatics, BS students by BMI 483 or CHS 493. If interested in additional experiential learning opportunities, visit: https://chs.asu.edu/current-students/experiential-learning.

Foundational Courses

BIO 181 General Biology I (SCIT)	C	4

RTH 364 Foundations in Recreational Therapy (SOBE)		
RTH 384 Recreational Therapy Practicum		
Motor Control Focus Area		
KIN 345 Motor Behavior		
KIN 415 Theory of Corrective Exercise		
KIN 421 Human Motor Control		

Requirement	Minimum Grade	Credit Hours
KIN 422 Motor Control in Special Populations		
KIN 424 Neural Aspects of Movement and Rehabilitation		
Muscular Fitness and Performance Focus Area		
EXW 425 Exercise Prescription for Health and Wellness		
KIN 416 Low Back Pain: Muscles and Movement		
KIN 460 Theory of Strength Training		
KIN 465 Muscle Physiology		
SSP 454 Sports Medicine		
Nutrition for Health and Performance Focus Area		
HSC 355 Eating for Lifelong Health (SOBE)		
NTR 345 Development of Healthy Cuisines		
NTR 353 The Western Diet		
NTR 457 Sports Nutrition		
NTR 448 Community Nutrition		
NTR 450 Nutrition in the Life Cycle (SOBE)		
Physical Activity Psychology Focus Area		
EXW 400 Stress Management for Wellness		
HEP 361 Digital Health Communication and Education		
KIN 348 Psychological Skills for Optimal Performance (SOBE)		

Requirement	Minimum Grade	Credit Hours
KIN 450 Biopsychosocial Perspectives on Physical Activity and Health **KIN 452 Exercise Psychology (SOBE)** **KIN 454 Motivational Theory in Exercise and Health** Students may select courses from any combination of the focus area lists to expand their knowledge in different areas. The lists are separated into several categories that span the field of exercise and health optimization.		
Students may apply up to 6 additional credits of EXW 484: Internship toward the Focus Area requirement. Completions beyond 9 credit hours will apply toward university electives.		

College of Health Solutions Requirements

CHS 100 Optimizing Your Health and Performance (SOBE) OR **CHS 300 An Exploration of Well-Being (SOBE)** First-year students should take CHS 100. Students who enter with more than 30 credits should take CHS 300.	C	3
College of Health Solutions students must complete 3 credits of Experiential Learning coursework. This requirement is fulfilled for Clinical Exercise Science, BS students by the required EXW 484: Internship course. If interested in additional experiential learning opportunities, visit: https://chs.asu.edu/current-students/experiential-learning.		

Foundational Courses

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

In order to be competitive for a dietetic internship to earn the Registered Dietitian (RD) credential after graduation, it is recommended that students maintain a minimum ASU cumulative GPA of 3.0 or higher.

The Commission on Dietetic Registration (CDR) requires a minimum of a master's degree in any field of study to be eligible to take the credentialing exam to become a registered dietitian nutritionist (RDN). In addition, CDR requires that individuals complete coursework and supervised practice in program(s) accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND). In most states, graduates also must obtain licensure or certification to practice.

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

Students interested in the Health and Media focus area are encouraged to take at least two MCO courses offered by the Walter Cronkite School of Journalism and Mass Communication.

Students interested in taking SPA courses to fulfill focus area requirements should plan ahead to complete prerequisites or the appropriate placement exam. For more information on placement, connect with CISA advising at: https://cisa.asu.edu/advising.

Students who use a Focus Area course to fulfill the college Experiential Learning requirement will need to complete an additional three credit upper division elective.

Students may concurrently pursue the Health Sciences, BS program and the Mayo School of Health Sciences Echocardiography program. To pursue both programs, students must complete all prerequisite courses prior to matriculation to the 21 month professional program at Mayo. Students must be accepted into the Mayo program, which has limited slots for admission. For admission criteria and application process, visit: https://college.mayo.edu/academics/health-sciences-education/echocardiography-program-arizona-and-minnesota/. If a student is accepted for the program, completion requires the student to attend ASU to meet our remaining requirements in the summer prior to the beginning of the program. Students must work closely with their ASU academic advisor to make certain all prerequisites have been met. Upon successful completion of the Echocardiography curriculum at Mayo, the student must have the credits transferred back to ASU for acceptance as a block. At that time, the student may apply for graduation from ASU with the BS in Health Sciences.

For student resources, including academic advising appointment scheduling, forms and policies, internship

information, involvement/research opportunities and more, visit: https://chs.asu.edu/.

Students interested in pursuing health-related professional and graduate programs should explore pre-health resources, including Pre-Health 101 Workshops and Pre-Health Advising. For more information, visit: https://prehealth.asu.edu/.

Career preparation resources are available through Career Services. For more information, visit: https://career.asu.edu/.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Health Sciences (Healthy Lifestyles and Fitness Science), BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: College of Health Solutions
Plan Code: NUHSCHLCBS
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Major Courses		
CHS 340 Health Theory	C	3
EXW 101 Foundations of Health and Fitness Science	C	3
EXW 335 Physical Activity and Physiological Concepts	C	3
EXW 344 Impact of Physical Activity on Health and Disease	C	3
EXW 400 Stress Management for Wellness OR HEP 443 Emotional Health and Interpersonal Relationships	C	3
HEP 350 Substance Use and Addictive Behaviors	C	3
HEP 361 Digital Health Communication and Education	C	3
HEP 466 Health Promotion Program Management and Administration	C	3
HSC 210 Cultural Aspects of Health (GCSI)	C	3

Requirement	Minimum Grade	Credit Hours
HSC 355 Eating for Lifelong Health (SOBE)	C	3
MED 320 Applied Medical/Health Care Ethics (HUAD)	C	3

Tracks

Students must select and complete at least one track. The track options are: Fitness Science, Health Education and Promotion, or Health and Wellness Coaching.

Upper Division Fitness Science Track Courses EXW 325 Fitness for Life EXW 425 Exercise Prescription for Health and Wellness HEP 380 Body Image and Wellness	C	9
OR **Upper Division Health Education and Promotion Track Courses** HEP 348 Methods of Health Education HEP 386 Assessing Strengths and Needs for Health Education and Promotion HEP 452 Health Advocacy in Health Education HEP 454 Health Promotion Program Planning and Implementation HEP 456 Health Promotion Program Evaluation		
OR **Upper Division Health and Wellness Coaching Track Courses**		

Requirement	Minimum Grade	Credit Hours
EXW 446 Worksite Wellness		
HEP 410 Obesity Perspectives and Prescriptions		
HSC 300 Complementary Health Care

PSY 101 Introduction to Psychology (SOBE)	C	3

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

CHS 101 The ASU Experience for Health Solutions Students		1

First-Year Composition

ENG 101 First-Year Composition AND **ENG 102 First-Year Composition** OR **ENG 105 Advanced First-Year Composition** OR **ENG 107 First-Year Composition** AND **ENG 108 First-Year Composition**	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses.
https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

Students must select and complete at least one track in Fitness Science, Health Education and Promotion, or Health and Wellness Coaching. Students may use electives to complete courses in multiple tracks, if they desire, in order to increase opportunities for certification.

Students who complete the Fitness Science track will be prepared to sit for the American College of Sports Medicine (ACSM) Certified Personal Trainer exam. For up to date certification requirements, visit: https://www.acsm.org/certification/get-certified/personal-trainer.

Students who complete the Health Education and Promotion track will be prepared to sit for the National Commission for Health Education Curriculum (NCHEC) Certified Health Education Specialist (CHES) exam. For up to date certification requirements, visit: https://www.nchec.org/.

Students who complete the Health and Wellness Coaching track will be prepared to sit for the American Council of Exercise (ACE) Certified Health Coach exam. For up to date certification requirements, visit: https://www.acefitness.org/fitness-certifications/health-coach-certification/default.aspx.

Students who complete the Health and Wellness Coaching track are positioned to additionally sit for the for the National Board of Health and Wellness Coaching (NBHWC) certification exam with the completion of minimal additional coursework. For up-to-date certification requirements, visit: https://nbhwc.org/. On-campus students interested in this certification are recommended to consider the Health and Wellness Coach certificate (https://degrees.apps.asu.edu/minors/major/ASU00/NHHWCCERT/health-and-wellness-coach).

For student resources, including academic advising appointment scheduling, forms and policies, internship information, involvement/research opportunities and more, visit: https://chs.asu.edu/.

Students interested in pursuing health-related professional and graduate programs should explore pre-health resources, including Pre-Health 101 Workshops and Pre-Health Advising. For more information, visit: https://prehealth.asu.edu/.

Career preparation resources are available through Career Services. For more information, visit: https://career.asu.edu/.

Students customize the Medical Studies degree by following the preprofessional course list that aligns with their planned health career path. A minimum of 11 credit hours of preprofessional coursework is required, though more may be needed depending on the selected course list and the requirements of the health graduate programs to which the student intends to apply.

College of Health Solutions Requirements

CHS 100 Optimizing Your Health and Performance (SOBE)	C	3
OR **CHS 300 An Exploration of Well-Being (SOBE)**		

First-year students should take CHS 100. Students who enter with more than 30 credits should take CHS 300.

College of Health Solutions students must complete three credits of Experiential Learning coursework. This requirement is fulfilled for Medical Studies, BS students by a course within the major. If interested in additional experiential learning opportunities, visit: https://chs.asu.edu/current-students/experiential-learning.

Foundational Courses

CDE 232 Human Development (SOBE) OR **COM 100 Introduction to Human Communication (SOBE)** OR **ECN 211 Macroeconomic Principles (SOBE)** OR **SOC 101 Introductory Sociology (SOBE)**	C	3

Students should select the course from this list that aligns with their desired health professions program. For more information, current students can check their graduation audit (DARS): https://goto.asuonline.asu.edu/dars/.

MAT 170 Precalculus (MATH)	C	3
PSY 101 Introduction to Psychology (SOBE)	C	3

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

For student resources, including academic advising appointment scheduling, forms and policies, internship information, involvement/research opportunities and more, visit: https://chs.asu.edu/.

Students interested in pursuing health-related professional and graduate programs should explore pre-health resources, including Pre-Health 101 Workshops and Pre-Health Advising. For more information, visit: https://prehealth.asu.edu/.

Career preparation resources are available through Career Services. For more information, visit: https://career.asu.edu/.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Nutritional Science, BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: College of Health Solutions
Plan Code: NHNUSCIBS
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Major Courses		
CHS 494 Topic: Capstone Capstone fulfills the College of Health Solutions Experiential Learning requirement.	C	3
HSC 300 Complementary Health Care	C	3
HSC 310 Health Communication	C	3
MED 320 Applied Medical/Health Care Ethics (HUAD)	C	3
NTR 142 Applied Food Principles	C	3
NTR 341 Medical Nutrition Therapy I	C	3
NTR 440 Advanced Human Nutrition I	C	3
NTR 441 Advanced Human Nutrition II	C	3
NTR 450 Nutrition in the Life Cycle (SOBE)	C	3
NTR 480 Integrative and Functional Nutrition	C	3

College of Health Solutions Requirements

CHS 100 Optimizing Your Health and Performance (SOBE) OR **CHS 300 An Exploration of Well-Being (SOBE)** First-year students should take CHS 100. Students who enter with more than 30 credits should take CHS 300.	C	3
College of Health Solutions students must complete 3 credits of Experiential Learning coursework. This requirement is fulfilled for Nutritional Science, BS students by the required CHS 494: Capstone course. If interested in additional experiential learning opportunities, visit: https://chs.asu.edu/current-students/experiential-learning.		

Foundational Courses

BCH 361 Advanced Principles of Biochemistry	C	3
BIO 201 Human Anatomy and Physiology I (SCIT)	C	4
BIO 202 Human Anatomy and Physiology II (SCIT)	C	4
CHM 101 Introductory Chemistry (SCIT) OR **CHM 113 General Chemistry I (SCIT)**	C	4
CHM 231 Elementary Organic Chemistry (SCIT) AND **CHM 235 Elementary Organic Chemistry Laboratory (SCIT)** Students interested in a health professions program that requires 8 credit hours of organic chemistry should see their academic advisor before enrolling in CHM 231 and CHM 235.	C	4
CHS 260 Health Professions Terminology	C	3
HCD 300 Biostatistics (QTRS) OR **STP 226 Elements of Statistics (QTRS)**	C	3

OR **STP 231 Statistics for Life Science (QTRS)**		
MAT 117 College Algebra (MATH) OR **MAT 170 Precalculus (MATH)**	C	3
MIC 205 Microbiology (SCIT) **AND** **MIC 206 Microbiology Laboratory (SCIT)**	C	4
NTR 241 Human Nutrition	C	3
NTR 290 Introduction to Evidence-Based Research in Nutrition	C	3
PSY 101 Introduction to Psychology (SOBE)	C	3

Students interested in graduate school or a health professions program are recommended to take CHM 113 and MAT 170 toward the Foundational Courses requirements.

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

CHS 101 The ASU Experience for Health Solutions Students	1

First-Year Composition

ENG 101 First-Year Composition **AND** **ENG 102 First-Year Composition** OR **ENG 105 Advanced First-Year Composition** OR **ENG 107 First-Year Composition** **AND** **ENG 108 First-Year Composition**	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

For student resources, including academic advising appointment scheduling, forms and policies, internship information, involvement/research opportunities and more, visit: https://chs.asu.edu/.

Curriculum - Population Health, BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: College of Health Solutions
Plan Code: NHPOPHLBS
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Major Courses		
BMI 102 Introduction to Population Health Informatics	C	3
CHS 280 Experiential Community Health and Research This course fulfills the College of Health Solutions Experiential Learning requirement.	C	3
CHS 340 Health Theory	C	3
EXW 450 Social Drivers of Health (CIVI)	C	3
HCD 201 Economics for Health Majors OR **ECN 211 Macroeconomic Principles (SOBE)** OR **ECN 212 Microeconomic Principles (SOBE)**	C	3
HCD 300 Biostatistics (QTRS)	C	3
HCD 332 Population Health Policy and Legislation	C	3
HCD 402 Health Economics (SOBE)	C	3
HEP 444 Epidemiology	C	3

Requirement	Minimum Grade	Credit Hours
HSC 310 Health Communication	C	3
MED 320 Applied Medical/Health Care Ethics (HUAD)	C	3
MED 445 Prevention and Management of Chronic Disease	C	3
PBH 422 Health Disparities and Access to Health	C	3
POP 100 Introduction to Population Health	C	3
POP 333 Systems Thinking in Population Health	C	3
Upper Division Experiential Learning Course		
CHS 394 Topic: Facilitator Seminar	C	6
CHS 484 Topic: Applied Health Experience		
CHS 484 Topic: Citizen Science in Health		
CHS 484 Topic: Translational Research		
CHS 493 Honors Thesis		
CHS 494 Topic: Undergraduate Research		
CHS 494 Topic: Undergraduate Teaching Assistant		
MED 325 Elements of Hospice and Palliative Care		
MED 375 Alzheimer's and Other Dementias		
MED 475 Palliative Care: Managing Complex Serious Illness		
POP 444 Population Health Field Experience		

Requirement	Minimum Grade	Credit Hours

Tracks

Students must select and follow a single track to complete a total of 18 credit hours, at least 6 of which must be upper division.

Upper Division Environmental Systems Track Courses	C	6
HEP 355 Population Health and Climate Change (SUST)		
HST 345 Environmental History (SUST)		
PAF 340 Contemporary Policy Challenges		
PBH 435 Environmental and Occupational Health		
PHI 310 Environmental Ethics (SUST)

NTR 494 Topic: Applied Practice in Nutrition		
RTH 364 Foundations in Recreational Therapy (SOBE)		
RTH 453 Inclusive Community Sport		
SSP 454 Sports Medicine		
SSP 484 Internship		
SSP 494 Topic: Strength & Conditioning for the Tactical Performer		

Students may apply up to 3 additional credits of SSP 484: Internship toward the Major Electives requirement. Completions beyond 6 credit hours will apply toward university electives.

College of Health Solutions Requirements

CHS 100 Optimizing Your Health and Performance (SOBE) OR **CHS 300 An Exploration of Well-Being (SOBE)**	C	3
First-year students should take CHS 100. Students who enter with more than 30 credits should take CHS 300.		

College of Health Solutions students must complete 3 credits of Experiential Learning coursework. This requirement is fulfilled for Sports Science and Performance Programming, BS students by the required SSP 484: Internship course. If interested in additional experiential learning opportunities, visit: https://chs.asu.edu/current-students/experiential-learning.

Foundational Courses

BIO 201 Human Anatomy and Physiology I (SCIT)	C	4
BIO 202 Human Anatomy and Physiology II (SCIT)	C	4
CHM 101 Introductory Chemistry (SCIT) OR **CHM 113 General Chemistry I (SCIT)**	C	4
MAT 117 College Algebra (MATH) OR **MAT 170 Precalculus (MATH)** Students interested in pursuing graduate school are recommended to take MAT 170 toward the Foundational Courses requirement.	C	3
NTR 241 Human Nutrition	C	3
PSY 101 Introduction to Psychology (SOBE)	C	3

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

CHS 101 The ASU Experience for Health Solutions Students		1

First-Year Composition

ENG 101 First-Year Composition AND **ENG 102 First-Year Composition** OR **ENG 105 Advanced First-Year Composition** OR **ENG 107 First-Year Composition** AND **ENG 108 First-Year Composition**	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

For student resources, including academic advising appointment scheduling, forms and policies, internship information, involvement/research opportunities and more, visit: https://chs.asu.edu/.

Students interested in pursuing health-related professional and graduate programs should explore pre-health resources, including Pre-Health 101 Workshops and Pre-Health Advising. For more information, visit: https://prehealth.asu.edu/.

Career preparation resources are available through Career Services. For more information, visit: https://career.asu.edu/.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Sports Science and Performance Programming (Strength and Conditioning), BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: College of Health Solutions
Plan Code: NHSSPPSCBS
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Major Courses		
KIN 101 Introduction to Kinesiology	C	3
KIN 348 Psychological Skills for Optimal Performance (SOBE)	C	3
NTR 457 Sports Nutrition	C	3
SSP 142 Sports Performance Practical Training	C	3
SSP 242 Resistance Training Foundations for Performance	C	3
SSP 275 Fundamentals of Sports Science (QTRS)	C	3
SSP 315 Exercise and Sport Physiology **AND** SSP 316 Exercise and Sport Physiology Laboratory	C	4
SSP 320 Coaching Leadership, Performance Team and Facility Management	C	3
SSP 325 Applied Anatomy and Biomechanics of Sport and Movement	C	4

Requirement	Minimum Grade	Credit Hours
SSP 423 Performance Testing and Technology	C	3
SSP 434 Plyometrics, Sports Movement and Conditioning	C	3
SSP 460 Resistance Training Application and Theory	C	3
SSP 461 Performance Programming Components and Periodization	C	3
SSP 484 Topic: Strength and Conditioning I	C	3
SSP 484 Topic: Strength and Conditioning II This course fulfills the College of Health Solutions Experiential Learning requirement.	C	4
Students must complete two distinct internship experiences and are required to attend a pre-internship workshop prior to enrolling in internship credit.		

College of Health Solutions Requirements

CHS 100 Optimizing Your Health and Performance (SOBE) OR **CHS 300 An Exploration of Well-Being (SOBE)** First-year students should take CHS 100. Students who enter with more than 30 credits should take CHS 300.	C	3

Requirement	Minimum Grade	Credit Hours
OR STP 420 Introductory Applied Statistics (QTRS)		
ABS 370 Ecology	C	3

Applied Biological Sciences Track

Students select either the General Biology or Health Professionals track and complete 18 total credit hours, 9 hours of upper-division of courses within the selected track.

Health Professionals Track	C	9
ABS 302 Ethical and Policy Issues in Biology		
ABS 312 Structure and Function		
ABS 318 Unseen Life on Earth		
ABS 319 Food, Health and Human Biology		
ABS 355 Ecology and Adaptations of Vertebrates		
ABS 394 Topic: Medicine and Culture		
ABS 417 Comparative Immunology		
ABS 484 Internship		
ABS 494 Topic: Emerging Infections & Epidemics		
ABS 494 Topic: Anatomy Practicum		
ABS 494 Topic: Natural Products & Drug Discovery		
BCH 361 Advanced Principles of Biochemistry		
BIO 201 Human Anatomy and Physiology I (SCIT)		

Requirement	Minimum Grade	Credit Hours
BIO 202 Human Anatomy and Physiology II (SCIT)		
BIO 351 Developmental Biology		
MIC 205 Microbiology (SCIT)		
SPA 118 Basic Spanish for Health Care Professionals		
OR **General Biology Track**		
ABS Elective		
BIO Elective		
BCH Elective		
MIC Elective		
Upper Division Health Professionals Track	C	9
ABS 302 Ethical and Policy Issues in Biology		
ABS 312 Structure and Function		
ABS 318 Unseen Life on Earth		
ABS 319 Food, Health and Human Biology		
ABS 355 Ecology and Adaptations of Vertebrates		
ABS 394 Topic: Medicine and Culture		
ABS 417 Comparative Immunology		
ABS 484 Internship		
ABS 494 Topic: Emerging Infections & Epidemics		

Requirement	Minimum Grade	Credit Hours
ABS 494 Topic: Anatomy Practicum		
ABS 494 Topic: Natural Products & Drug Discovery		
BCH 361 Advanced Principles of Biochemistry		
BIO 351 Developmental Biology		
OR **Upper Division General Biology Track**		
ABS Elective		
BIO Elective		
BCH Elective		
MIC Elective		

Foundational Courses

CHM 113 General Chemistry I (SCIT)	C	4
CHM 116 General Chemistry II (SCIT)	C	4
CHM 231 Elementary Organic Chemistry (SCIT) **AND** **CHM 235 Elementary Organic Chemistry Laboratory (SCIT)** **OR** **CHM 233 General Organic Chemistry I** **AND** **CHM 237 General Organic Chemistry Laboratory I** Pre-health students can opt to take the organic chemistry sequence (CHM 233/237 and CHM 234/238) instead of CHM 231/235.	C	4
MAT 210 Brief Calculus (MATH)	C	3

OR **MAT 251 Calculus for Life Sciences (MATH)**		
PHY 101 Introduction to Physics (SCIT) OR **PHY 111 General Physics (SCIT)** **AND** **PHY 113 General Physics Laboratory (SCIT)** Students considering graduate school or health professions complete the PHY 111/113 and PHY 112/114 sequence. All other students will complete PHY 101 and elective hours.	C	4
ASU 101-CLS The ASU Experience		1

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

First-Year Composition

ENG 101 First-Year Composition **AND** **ENG 102 First-Year Composition** OR **ENG 105 Advanced First-Year Composition** OR **ENG 107 First-Year Composition** **AND** **ENG 108 First-Year Composition**	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit

hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

ASU Online students will complete all experiments for the Organic Chemistry labs at the ASU Tempe campus during a one-week session in summer. Lab reports will be completed in subsequent weeks during the same summer term.

These laboratory courses will be offered during summer. This may impact your financial aid. Financial aid is available to those who apply and qualify, and students may receive funds to help cover costs for each semester of enrollment. The amount of financial aid that a student is eligible for varies depending on prior education experience and other individual factors. Learn more about summer financial aid and additional ways to cover summer costs.

CISA Science Courses

Students must complete a minimum of 12 credit hours of science courses offered by the College of Integrative Sciences and Arts. Select from ABS, BIO, CHM, MIC, and PHY subject codes.

> General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Applied Biological Sciences (Secondary Education in Biology), BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: College of Integrative Sciences and Arts
Plan Code: TSABSSBS
Minimum credit hours: 120
Upper division minimum credit hours: 50.5

Requirement	Minimum Grade	Credit Hours
Applied Biological Sciences Core		
ABS 100 Discovering the Professions	C	1
ABS 200 Building Your Professional Self	C	0.5
ABS 300 Career Competencies and Skills	C	0.5
ABS 311 Molecular and Cellular Biology OR ABS 314 Applied Plant Physiology OR BIO 360 Animal Physiology	C	3
ABS 350 Applied Statistics (QTRS)	C	3
ABS 370 Ecology	C	3
ABS 490 Applied Biological Sciences Seminar	C	1
BIO 181 General Biology I (SCIT)	C	4
BIO 182 General Biology II (SCIT)	C	4
BIO 340 General Genetics	C	4

Requirement	Minimum Grade	Credit Hours
Secondary Education Concentration Requirements		
BIO 480 Methods of Teaching Biology	C	3
SED 482 Science Teaching Methods for Secondary Schools I	C	3
TEL 310 Instructional Design and Planning: Instructional Thought and Action	C	4
TEL 317 Instructional Thought and Action: Learning Environment and Management	C	3
TEL 318 Instructional Thought and Action: Assessment for Learning	C	3
TEL 332 Disciplinary Literacy Methods	C	4
TEL 355 Internship: Initial	C	1
TEL 366 Professional Experience Internship	C	1
TEL 477 Internship: Advanced	C	2
TEL 488 Student Teaching	C	12
Applied Biology Education Requirements		
ABS 207 Applied Plant Taxonomy OR ABS 355 Ecology and Adaptations of Vertebrates OR BCH 361 Advanced Principles of Biochemistry	C	3
BLE 220 Foundations of Structured English Immersion (HUAD)	C	3

Requirement	Minimum Grade	Credit Hours
BLE 220 satisfies the requirement for a Structured English Immersion (for certified teachers). This endorsement authorizes the holder to teach one or more English language learners in the area they are appropriately certified.		
MIC 205 Microbiology (SCIT) **AND** **MIC 206 Microbiology Laboratory (SCIT)**	C	4
SPE 222 Orientation to Education of Exceptional Children (CIVI)	C	3

Foundational Courses

CHM 113 General Chemistry I (SCIT)	C	4
CHM 116 General Chemistry II (SCIT)	C	4
CHM 231 Elementary Organic Chemistry (SCIT) **AND** **CHM 235 Elementary Organic Chemistry Laboratory (SCIT)** OR **CHM 233 General Organic Chemistry I** **AND** **CHM 237 General Organic Chemistry Laboratory I** Students considering graduate school or professions should complete the Organic Chemistry sequence of both CHM 233/237 and CHM 234/238 in place of electives. All other students will complete CHM 231/235.	C	4
MAT 210 Brief Calculus (MATH) OR **MAT 251 Calculus for Life Sciences (MATH)**	C	3
PHY 101 Introduction to Physics (SCIT) OR **PHY 111 General Physics (SCIT)** **AND** **PHY 113 General Physics Laboratory (SCIT)** Students considering graduate school or health professions should complete the PHY 111/113 and PHY 112/113 sequence,	C	4

using PHY 112/114 in place of electives. All other students will complete PHY 101.

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

ASU 101-CLS The ASU Experience	C	1

First-Year Composition

ENG 101 First-Year Composition **AND** **ENG 102 First-Year Composition** **OR** **ENG 105 Advanced First-Year Composition** **OR** **ENG 107 First-Year Composition** **AND** **ENG 108 First-Year Composition**	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

GCU 113 is recommended as an elective since it satisfies the US and AZ constitution requirement for teacher certification.

CISA Science Courses

Students must complete a minimum of 12 credit hours of science courses offered by the College of Integrative Sciences and Arts. Select from ABS, BIO, CHM, MIC and PHY prefixes.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Applied Biological Sciences (Sustainable Horticulture), BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: College of Integrative Sciences and Arts

Curriculum - Applied Military and Veterans Studies, BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: College of Integrative Sciences and Arts
Plan Code: LSAMVSBA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Applied Military and Veterans Studies Core		
MVS 100 Introduction to Military Studies	C	3
MVS 200 The Military Culture and American Society	C	3
MVS 201 Interdisciplinary Approaches to Conflict and War	C	3
MVS 202 Exploring Veteran Culture	C	3
MVS 300 Fighting for American Ideals	C	3
MVS 301 Experience of America's Modern Wars	C	3
MVS 302 Representations and Self-Representations of Veterans in the Media and the Arts (HUAD)	C	3
MVS 400 Military Theory and Practice	C	3
MVS 401 The Military: Law, Ethics and Culture	C	3
MVS 402 Technology and Warfare	C	3
MVS 403 American Military Leadership	C	3

Requirement	Minimum Grade	Credit Hours
MVS 404 War and Memory	C	3
MVS 484 Internship OR **MVS 499 Individualized Instruction** Students must have all portfolio courses completed prior to enrolling in MVS 484 Internship or MVS 499 Individualized Instruction.	C	3
MVS 485 Military and Veterans Studies Portfolio and Performance Assessment	C	1

Portfolio Courses

Students will complete 15 credit hours in courses selected from the same portfolio track, to be used in creating the student's final project for their culminating experience course in Term 8. Students will choose the portfolio courses in consultation with their academic advisor.

Each portfolio track's course options are listed in the following categories: Leadership in Military and Veterans' Organizations; The Military and Veterans: Historical Perspectives; Principles of Health Care for Military, Veterans, and Their Families; or Public Leadership, Service, and Policy

Counseling and Counseling Psychology for Military and Veteran Communities - Portfolio Courses	C	6
CAP 120 Introduction to Counseling (SOBE)		
CAP 220 Self in a Multicultural Society (SOBE)		
CAP 240 Counseling Skills		
CAP 310 Addictions I: Foundations and Basic Principles		

Requirement	Minimum Grade	Credit Hours
CAP 315 Trauma and Crisis Intervention		
CAP 320 Theories of Counseling and Psychotherapy		
CAP 330 Group Counseling		
CAP 335 Addiction Group Counseling		
CAP 340 Multicultural Counseling Theory and Practice		
CAP 342 Community Outreach, Prevention and Intervention		
FAS 331 Modern Family Relationships (SOBE)		
FAS 370 Family Ethnic and Cultural Diversity (CIVI)		
JUS 305 Principles of Justice Studies (HUAD)		
MVS 484 Internship		
MVS 494 Special Topics		
PSY 315 Personality Theory and Research (SOBE)		
PSY 320 Learning and Motivation		
PSY 366 Psychological Disorders (SOBE)		
PSY 369 Biology of Human Sexuality

Upper Division Capstone/Project Course	C	3
IDS 401 Integration: Experiential Learning		
IDS 492 / HON 492 Honors Directed Study		
IDS 493 / HON 493 Honors Thesis		

Requirement	Minimum Grade	Credit Hours
Students may use Honors Directed Study or Thesis from different subject codes.		
IDS 484 Internship		
Students may use Internship credit from other subject codes.		

Major Electives

Upper Division Major Elective credits may be any courses listed under the Computer Skills, Research and Analysis, Statistics, Technical/Professional Communication or Capstone/Project course lists.

Upper Division Computer Skills Courses	C	18 - 6
CIS 308 Advanced Excel in Business		
CIS 309 Business Process Management		
CIS 310 Business Data Visualization		
GIS 311 Geographic Information Science III (QTRS)		
GIS 322 Programming Principles in GIS II		
GIT 312 Computer Animation and Motion Graphics		
IEE 305 Information Systems Engineering		
OR **Upper Division Research and Analysis Courses**		
HCR 301 Research Methods for the Health Care Professional		

Requirement	Minimum Grade	Credit Hours
HSE 390 Qualitative Research Methods		
ISS 301 Integrated Social Science Research Methods		
POS 301 Empirical Political Inquiry (SOBE)		
SOC 391 Applied Research Methods (SOBE)		
STS 301 Research in Science and Technology Studies		
TWC 413 Managing and Analyzing Data		
OR Upper Division Statistics Courses		
ABS 350 Applied Statistics (QTRS)		
HCD 300 Biostatistics (QTRS)		
HSE 430 Statistics for Human Systems Research II (QTRS)		
JUS 302 Statistical Analysis for Justice Studies (QTRS)		
PAF 301 Applied Statistics (QTRS)		
PSY 330 Statistical Methods (QTRS)		
SOC 390 Social Statistics I (QTRS)		
STP 310 Design and Analysis of Experiments		
STP 311 Regression and Time Series Analyses		
STS 401 Statistics in Science and Technology Studies (QTRS)		
SWU 321 Statistics for Social Workers (QTRS)		

Requirement	Minimum Grade	Credit Hours
OR		
Upper Division Technical/Professional Communication Courses		
COM 312 Communication, Conflict, and Negotiation (CIVI)		
COM 430 Leadership in Group Communication		
ENG 301 Writing for the Professions		
ENG 302 Business Writing		
HSC 310 Health Communication		
NTR 351 Nutrition Communication

TWC 422 Social Media in the Workplace		
TWC 446 Technical and Scientific Reports		
OR **Upper Division Capstone/Project Course**		
IDS 401 Integration: Experiential Learning		
IDS 492 / **HON 492 Honors Directed Study**		
IDS 493 / **HON 493 Honors Thesis**		
Students may use Honors Directed Study or Thesis from different subject codes.		
IDS 484 Internship		
Students may use Internship credit from other subject codes.		

Requirement	Minimum Grade	Credit Hours
Students choosing this major as a concurrent degree with another ASU major will only require six credits of upper division major electives.		

Foundational Courses

MAT 170 Precalculus (MATH)	C	3
Scientific Thinking in Natural Sciences Courses Students select an eight credit hour course pairing/group from the list below. **AST 111 Introduction to Solar Systems Astronomy (SCIT) AND AST 112 Introduction to Stars, Galaxies, and Cosmology (SCIT)** **BIO 181 General Biology I (SCIT) AND BIO 182 General Biology II (SCIT)** **CHM 113 General Chemistry I (SCIT) AND CHM 116 General Chemistry II (SCIT)** **PHY 111 General Physics (SCIT) AND PHY 113 General Physics Laboratory (SCIT) AND PHY 112 General Physics (SCIT) AND PHY 114 General Physics Laboratory (SCIT)**	C	8
AND Scientific Thinking in Natural Sciences (SCIT)		

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

ASU 101-CLS The ASU Experience		1

First-Year Composition

ENG 101 First-Year Composition AND ENG 102 First-Year Composition		
OR **ENG 105 Advanced First-Year Composition**	C	6
OR **ENG 107 First-Year Composition AND ENG 108 First-Year Composition**		

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Applied Science (Animal Biology), BAS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Applied Science, BAS
College/School: College of Integrative Sciences and Arts
Plan Code: LSANBIOBAS
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
BAS Core		
ABS 302 Ethical and Policy Issues in Biology	C	3
ABS 350 Applied Statistics (QTRS)	C	3
BIO 340 General Genetics	C	4
ABS 370 Ecology	C	3
BAS Concentration		
ABS 312 Structure and Function	C	3
ABS 355 Ecology and Adaptations of Vertebrates	C	3
ABS 372 Captive Animal Behavior Management	C	3
ABS 378 Animal Nutrition	C	3
ABS 417 Comparative Immunology	C	3
Upper Division Animal Biology Electives	C	9
ABS 318 Unseen Life on Earth		

Requirement	Minimum Grade	Credit Hours
ABS 371 Small Animal Veterinary Topics		
ABS 375 Equine Science		
ABS 376 Wildlife Ecology		
ABS 377 International Wildlife Conservation		
ABS 379 Animal Anatomy		
ABS 470 Life History of Mammals		
ABS 472 Applied Herpetology		
ABS 473 Applied Ornithology		
ABS 494 Topic: Emerging Infections & Epidemics		
ABS 494 Topic: Organismal Adaptation to a Changing Climate		
BIO 351 Developmental Biology		
BIO 360 Animal Physiology		

Students who have not met all ASU general studies and first-year composition requirements with their transfer courses must complete them at ASU to earn the BAS degree.

Students should work with their academic advisor to review the DARS graduation audit to determine needed requirements.

AAS Transfer Degree Block of Credit Hours	60

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

Students must have completed BIO 181, BIO 182 AND either CHM 101 or CHM 113, in order to meet upper division course prerequisites.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Applied Science (Applied Leadership), BAS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Applied Science, BAS
College/School: College of Integrative Sciences and Arts
Plan Code: LSALSBAS
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

ASU 101-CLS The ASU Experience	1

First-Year Composition

ENG 101 First-Year Composition AND ENG 102 First-Year Composition		
OR **ENG 105 Advanced First-Year Composition**	C	6
OR **ENG 107 First-Year Composition AND ENG 108 First-Year Composition**		

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - History, BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: College of Integrative Sciences and Arts
Plan Code: LSHISBA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Major Courses		
HST 345 Environmental History (SUST)	C	3
HST 495 Methods of Historical Inquiry	C	3
HST Elective	C	9
Upper Division **HST Elective**	C	12
History Related Area		
Students will complete a total of 15 credit hours of History Related Area courses (including a minimum of nine upper-division hours).		
Additional History Related Area	C	3
ENG Elective		
IDS Elective		
ISS Elective

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

Students must complete a minimum of 12 upper-division credit hours of HST courses offered by the College of Integrative Sciences and Arts.

Students must earn a 2.25 GPA or higher in major courses.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - History (Veterans, Society and Service), BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: College of Integrative Sciences and Arts
Plan Code: LSHISVSSBA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Veterans, Society and Service Concentration Requirements		
HST 345 Environmental History (SUST)	C	3
HST 495 Methods of Historical Inquiry	C	3

Major Electives

Upper Division TWC Restricted Electives	C	12

- TWC 312 Introduction to Visual Culture
- TWC 347 Written Communication for Managers
- TWC 355 Digital Ethics
- TWC 361 Writing for Health Care Management
- TWC 405 Writing for Social Media
- TWC 413 Managing and Analyzing Data
- TWC 414 Advanced Data Visualization
- TWC 421 Principles of Web Authoring
- TWC 422 Social Media in the Workplace
- TWC 435 Global Issues in Technical Communication (GCSI)
- TWC 436 Project Management in Technical Communication
- TWC 443 Grant & Proposal Writing
- TWC 446 Technical and Scientific Reports

Requirement	Minimum Grade	Credit Hours
TWC 447 User Experience in Medicine and Health		
TWC 452 Information in the Digital Age		
TWC 453 Information and Communications Technology in American History		
TWC 454 Information Technology and Culture		
TWC 484 Internship		

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

ASU 101-CLS The ASU Experience		1

First-Year Composition

ENG 101 First-Year Composition **AND** **ENG 102 First-Year Composition**		
OR **ENG 105 Advanced First-Year Composition**	C	6
OR **ENG 107 First-Year Composition** **AND** **ENG 108 First-Year Composition**		

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Technical Communication (Data Visualization), BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: College of Integrative Sciences and Arts
Plan Code: LSTECDVBS
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
Technical Communication Major		
TWC 122 Introduction to Social Media	C	3
TWC 150 Introduction to Technical Communication	C	3

Students interested in pursuing health-related professional and graduate programs should explore pre-health resources, including Pre-Health 101 Workshops and Pre-Health Advising. For more information, visit: https://prehealth.asu.edu/
Students interested in pursuing law-related professional and graduate programs should explore pre-law resources. For more information, visit: https://prelaw.asu.edu/
Career preparation resources are available through Career Services. For more information, visit: https://career.asu.edu/

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Biology, BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: New College of Interdisciplinary Arts and Sciences
Plan Code: ASLSCBA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
A minimum of 12 upper-division credit hours used toward the major requirements must be taken from the New College of Interdisciplinary Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in the Class Search.		

Biology Core

BIO 181 General Biology I (SCIT)	C	4
BIO 182 General Biology II (SCIT)	C	4
BIO 320 Fundamentals of Ecology	C	3
BIO 353 Cell Biology	C	3
LSC 347 Fundamentals of Genetics	C	3

Chemistry Core

CHM 113 General Chemistry I (SCIT)	C	4

Requirement	Minimum Grade	Credit Hours

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar

required of all first-year students.

NEW 101 The ASU New College Experience **OR IAS 300 Career Strategies and Personal Resilience** NEW 101 (or other ASU college equivalent) is required for all first-year students. IAS 300 is required for all transfer students in New College.		1 - 3

First-Year Composition

ENG 101 First-Year Composition AND ENG 102 First-Year Composition **OR ENG 105 Advanced First-Year Composition** **OR ENG 107 First-Year Composition AND ENG 108 First-Year Composition**	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

For student resources, including academic advising appointment scheduling, forms and policies, internship

information, involvement or research opportunities, and more, visit: https://newcollege.asu.edu/

Students interested in pursuing health-related professional and graduate programs should explore pre-health resources, including Pre-Health 101 Workshops and Pre-Health Advising. For more information, visit: https://prehealth.asu.edu/

Students interested in pursuing law-related professional and graduate programs should explore pre-law resources. For more information, visit: https://prelaw.asu.edu/

Career preparation resources are available through Career Services. For more information, visit: https://career.asu.edu/

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Biotechnology and Bioenterprise, BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: New College of Interdisciplinary Arts and Sciences
Plan Code: ASBITEBS
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
A minimum of 12 upper-division credit hours used toward the major requirements must be taken from the New College of Interdisciplinary Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in the Class Search.

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Conflict Resolution, BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: New College of Interdisciplinary Arts and Sciences
Plan Code: ASCNRBA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
A minimum of 12 upper-division credit hours used toward the major requirements must be taken from the New College of Interdisciplinary Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in the Class Search.		

Conflict Resolution Core

COM 100 Introduction to Human Communication (SOBE)	C	3
COM 222 Argumentation (CIVI) OR **COM 230 Teamwork and Collaboration (SOBE)** OR **COM 263 Communication Across Cultures and Global Engagement (GCSI)**	C	3
COM 312 Communication, Conflict, and Negotiation (CIVI)	C	3
PAX 230 Introduction to Peace Studies (GCSI) OR **JHR 100 Introduction to Social Justice and Human Rights (CIVI)**	C	3

Requirement	Minimum Grade	Credit Hours
Conflict Resolution Focus Areas		
Upper Division Conflict in Political and Social Systems Focus Area		
AMS 449 / ETH 449 / WST 449 Hate Speech, Manifestos, and Radical Writings (CIVI)	C	6
COM 421 Rhetoric of Social Issues		
COM 422 Advanced Argumentation (CIVI)		
ENG 456 / FOR 456 / PAX 456 / SBS 456 Studies in Forensic Linguistics		
HST 355 Total War and the Crisis of Modernity (HUAD)		
HST 454 History of Genocide (GCSI)		
POS 470 Law and the Political Order		
SOC 352 Social Change (CIVI)		
Upper Division Global and Intercultural Conflict Focus Area	C	6
COM 316 Gender and Communication (SOBE)		
COM 342 Oral History and Storytelling (HUAD)		
COM 371 Language, Culture and Communication (GCSI)		
COM 416 Gender and Race in the Media		
COM 463 Intercultural Communication for Global Leadership and Collaboration (GCSI)		
COM 471 Global Media and Cultural Identity (GCSI)		

Requirement	Minimum Grade	Credit Hours
POS 480 / SBS 480 Global Justice (GCSI)		
SOC 445 Globalization, Development, and Resistance		
Upper Division Relational and Interpersonal Conflict Focus Area		
COM 310 Communication in Interpersonal Relationships (SOBE)	C	6
COM 319 Persuasion and Social Influence (CIVI)		
COM 411 Communication in the Family (SOBE)		
COM 413 Resilient Relationships and Communities		
COM 417 Communication and Aging		
COM 432 Forgiveness and Reconciliation		
Upper Division Work and Organizational Conflict Focus Area		
COM 400 Communication in Professions	C	6
COM 414 Crisis Communication		
COM 415 Risk Communication (SOBE)		
COM 423 Facilitating Collaboration and Dialogue		
COM 430 Leadership in Group Communication		
COM 451 Communication and Work Relationships		

Conflict Resolution Electives

Requirement	Minimum Grade	Credit Hours
Upper Division Conflict Resolutions Electives	C	9
AMS 449 / ETH 449 / WST 449 Hate Speech, Manifestos, and Radical Writings (CIVI)		
COM 421 Rhetoric of Social Issues		
COM 422 Advanced Argumentation (CIVI)		
ENG 456 / FOR 456 / PAX 456 / SBS 456 Studies in Forensic Linguistics		
HST 355 Total War and the Crisis of Modernity (HUAD)		
HST 454 History of Genocide (GCSI)		
POS 470 Law and the Political Order		
SOC 352 Social Change (CIVI)		
COM 316 Gender and Communication (SOBE)		
COM 342 Oral History and Storytelling (HUAD)		
COM 371 Language, Culture and Communication (GCSI)		
COM 416 Gender and Race in the Media		
COM 463 Intercultural Communication for Global Leadership and Collaboration (GCSI)		
COM 471 Global Media and Cultural Identity (GCSI)		
POS 480 / SBS 480 Global Justice (GCSI)		
SOC 445 Globalization, Development, and Resistance		

Requirement	Minimum Grade	Credit Hours
COM 310 Communication in Interpersonal Relationships (SOBE)		
COM 319 Persuasion and Social Influence (CIVI)		
COM 411 Communication in the Family (SOBE)		
COM 413 Resilient Relationships and Communities		
COM 417 Communication and Aging		
COM 432 Forgiveness and Reconciliation		
COM 400 Communication in Professions		
COM 414 Crisis Communication		
COM 415 Risk Communication (SOBE)		
COM 423 Facilitating Collaboration and Dialogue		
COM 430 Leadership in Group Communication		
COM 451 Communication and Work Relationships		
COM 484 Internship		
COM 493 Honors Thesis		
COM 499 Individualized Instruction		

A maximum of three credit hours of COM 484, COM 493, or COM 499 may apply toward the Conflict Resolution electives category.

Upper Division Global and Civic Engagement Requirement: satisfied through completion of six credits of upper-division courses with a Global Communities, Societies and Individuals (GCSI) or Governance and Civic Engagement (CIVI) designation, in addition to the courses used to meet the university general studies requirements; or completion of three credits from an ASU-approved global education program. Adjustment to upper-division and elective hours is required if a lower-division global education course is used.	C	6
Mathematics Proficiency Requirement: all New College students in a Bachelor of Arts or Bachelor of Science degree program are required to obtain a grade of "C" or higher in any course that satisfies the ASU General Studies MATH requirement.		
Mathematics (MATH) Recommended: **MAT 114** OR **MAT 117**	C	3

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

NEW 101 The ASU New College Experience **OR** **IAS 300 Career Strategies and Personal Resilience** NEW 101 (or other ASU college equivalent) is required for all first-year students. IAS 300 is required for all transfer students in New College.	1 - 3

First-Year Composition

ENG 101 First-Year Composition **AND** **ENG 102 First-Year Composition** **OR** **ENG 105 Advanced First-Year Composition**	C	6

OR **ENG 107 First-Year Composition** AND **ENG 108 First-Year Composition**

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

For student resources, including academic advising appointment scheduling, forms and policies, internship information, involvement or research opportunities, and more, visit: https://newcollege.asu.edu/

Students interested in pursuing health-related professional and graduate programs should explore pre-health resources, including Pre-Health 101 Workshops and Pre-Health Advising. For more information, visit: https://prehealth.asu.edu/

Students interested in pursuing law-related professional and graduate programs should explore pre-law resources. For more information, visit: https://prelaw.asu.edu/

Career preparation resources are available through Career Services. For more information, visit: https://career.asu.edu/

ENG 420 Multicultural Autobiographies (HUAD)		
ENG 432 The American Renaissance		
ENG 457 Studies in American Poetry (HUAD)		
ENG 462 Africana Literature		
ENG 498 Topic: Reading England's Literary Landscapes		

Requirement	Minimum Grade	Credit Hours
Climate, Energy, Infrastructure Distribution Cluster		
ENG 245 Popular Culture Issues	C	6
ENG 324 Horror: Film and Short Stories (HUAD)		
ENG 342 20th-Century British and Irish Literature		
ENG 367 Environmental Issues in Literature and Film		
ENG 369 Science Fiction Studies		
ENG 378 Environmental Creative Nonfiction (HUAD)		
ENG 415 Studies in Medieval Literature and Culture (HUAD)		
ENG 416 Chaucer in Middle English (HUAD)		
ENG 471 Literature for Young Adults (HUAD)		
ENG 498 Topic: Reading England's Literary Landscapes		
Writing, Power, Change Distribution Cluster	C	6
ENG 205 Introduction to Writing, Rhetorics and Literacies (CIVI)		
ENG 213 Introduction to the Study of Language (SOBE)		
ENG 217 Writing Reflective Essays (HUAD)		
ENG 241 Literatures of the United States to 1860 (HUAD)		
ENG 288 Beginning Creative Writing Workshop in Fiction		

Requirement	Minimum Grade	Credit Hours
ENG 311 Persuasive Writing (CIVI)		
ENG 317 Cross-Cultural Writing (HUAD)		
ENG 323 Rhetoric and Grammar		
ENG 339 Creating Dramatic Works: Page to Stage to Screen		
ENG 352 Short Story (HUAD)		
ENG 353 African American Literature: Beginnings through the Harlem Renaissance (HUAD)		
ENG 354 African American Literature: Harlem Renaissance to the Present (HUAD)		
ENG 361 Scriptwriting		
ENG 379 Travel Writing		
ENG 394 / IAP 394 Topic: Print and the Protest		
ENG 410 Writing for Publication		
ENG 416 Chaucer in Middle English (HUAD)		
ENG 425 Studies in Romanticism (HUAD)		
ENG 433 Literary Magazine Publishing: Canyon Voices (HUAD)		
ENG 437 The American Novel, 1900 - 1960		
ENG 440 Studies in American Literature and Culture		
ENG 472 Rhetorical Studies		
ENG 484 Topic: Pen Project Prison Teaching		

Requirement	Minimum Grade	Credit Hours
English Electives		
ENG Elective First year writing courses (ENG 101/102/105/107/108) do not apply. Up to 3 credit hours of ENG 499 may apply toward this requirement.	C	9
Secondary Education Requirements		
SPE 222 Orientation to Education of Exceptional Children (CIVI)	C	3
ENG 482 Methods of Teaching English: Language	C	3
TEL 310 Instructional Design and Planning: Instructional Thought and Action	C	4
TEL 317 Instructional Thought and Action: Learning Environment and Management	C	3
TEL 318 Instructional Thought and Action: Assessment for Learning	C	3
TEL 332 Disciplinary Literacy Methods	C	4
TEL 488 Student Teaching	C	12
Upper Division Global and Civic Engagement Requirement: satisfied through completion of six credits of upper-division courses with a Global Communities, Societies and Individuals	C	6

(GCSI) or Governance and Civic Engagement (CIVI) designation, in addition to the courses used to meet the university general studies requirements; or completion of three credits from an ASU-approved global education program. Adjustment to upper-division and elective hours is required if a lower-division global education course is used.		
Mathematics Proficiency Requirement: all New College students in a Bachelor of Arts or Bachelor of Science degree program are required to obtain a grade of "C" or higher in any course that satisfies the ASU General Studies MATH requirement.		
Mathematics (MATH) Recommended: **MAT 114** OR **MAT 117**	C	3

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

NEW 101 The ASU New College Experience **OR** **IAS 300 Career Strategies and Personal Resilience** NEW 101 (or other ASU college equivalent) is required for all first-year students. IAS 300 is required for all transfer students in New College.		1 - 3

First-Year Composition

ENG 101 First-Year Composition **AND** **ENG 102 First-Year Composition** **OR** **ENG 105 Advanced First-Year Composition** **OR** **ENG 107 First-Year Composition** **AND** **ENG 108 First-Year Composition**	C	6

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

For student resources, including academic advising appointment scheduling, forms and policies, internship information, involvement and research opportunities, and more, visit: https://newcollege.asu.edu/

Students interested in pursuing health-related professional and graduate programs should explore pre-health resources, including Pre-Health 101 Workshops and Pre-Health Advising. For more information, visit: https://prehealth.asu.edu/

Students interested in pursuing law-related professional and graduate programs should explore pre-law resources. For more information, visit: https://prelaw.asu.edu/

Career preparation resources are available through Career Services. For more information, visit: https://career.asu.edu/

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is

applied according to the designation the course carries at the time the class is taken.

Curriculum - Environmental Science, BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: New College of Interdisciplinary Arts and Sciences
Plan Code: ASENVBA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
A minimum of 12 upper-division credit hours used toward the major requirements must be taken from the New College of Interdisciplinary Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in the Class Search.

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

NEW 101 The ASU New College Experience OR **IAS 300 Career Strategies and Personal Resilience** NEW 101 (or other ASU college equivalent) is required for all first-year students. IAS 300 is required for all transfer students in New College.	C	1 - 3

First-Year Composition

ENG 101 First-Year Composition AND ENG 102 First-Year Composition		
OR **ENG 105 Advanced First-Year Composition**	C	6
OR **ENG 107 First-Year Composition AND ENG 108 First-Year Composition**		

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

For student resources, including academic advising appointment scheduling, forms and policies, internship information, involvement or research opportunities, and more, visit: https://newcollege.asu.edu/

Students interested in pursuing health-related professional and graduate programs should explore pre-health resources, including Pre-Health 101 Workshops and Pre-Health Advising. For more information, visit: https://prehealth.asu.edu/

Students interested in pursuing law-related professional and graduate programs should explore pre-law resources. For more information, visit: https://prelaw.asu.edu/

Career preparation resources are available through Career Services. For more information, visit: https://career.asu.edu/

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Environmental Science (Environmental Justice), BS

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Science, BS
College/School: New College of Interdisciplinary Arts and Sciences
Plan Code: ASENVEJBS
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
A minimum of 12 upper-division credit hours used toward the major requirements must be taken from the New College of Interdisciplinary Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in the Class Search.		

Biology Core

BIO 181 General Biology I (SCIT)	C	4

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

Online students in this degree program will complete experiments for the Organic Chemistry labs (CHM 237 and CHM 238) and Biochemistry lab (BCH 372) during a 2-week, immersive, in-person experience on ASU's campuses in Arizona. Please email NCsummerlabs@asu.edu with any questions.

Online students in this degree program will complete FOR 494 Fundamental Skills in Forensic Science which requires an immersive residency in the crime scene lab and other labs at ASU's West Valley campus in Glendale, AZ. Please email

NCsummerlabs@asu.edu with any questions. Alternatively, students may seek a local internship (FOR 484). Forensic Science internships are not guaranteed. Forensic science internships are competitive and the application process takes time. All internships require prior faculty approval. For more information, visit: https://newcollege.asu.edu/internship-programs

Upper Division Global and Civic Engagement Requirement: satisfied through completion of six credits of upper-division courses with a Global Communities, Societies and Individuals (GCSI) or Governance and Civic Engagement (CIVI) designation, in addition to the courses used to meet the university general studies requirements; or completion of three credits from an ASU-approved global education program. Adjustment to upper-division and elective hours is required if a lower-division global education course is used.	C	6
Mathematics Proficiency Requirement: all New College students in a Bachelor of Arts or Bachelor of Science degree program are required to obtain a grade of "C" or higher in any course that satisfies the ASU General Studies MATH requirement.		

Interdisciplinary Requirements

MAT 210 Brief Calculus (MATH) **OR** **MAT 251 Calculus for Life Sciences (MATH)**	C	3
PHY 101 Introduction to Physics (SCIT) **OR** **PHY 111 General Physics (SCIT)** **AND** **PHY 113 General Physics Laboratory (SCIT)**	C	4

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

NEW 101 The ASU New College Experience **OR** **IAS 300 Career Strategies and Personal Resilience**	
NEW 101 (or other ASU college equivalent) is required for all first-year students. IAS 300 is required for all transfer students in New College.	1 - 3

First-Year Composition

ENG 101 First-Year Composition AND ENG 102 First-Year Composition		
OR **ENG 105 Advanced First-Year Composition**	C	6
OR **ENG 107 First-Year Composition AND ENG 108 First-Year Composition**		

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

Online students in this degree program will complete experiments for the Organic Chemistry labs (CHM 237 and CHM 238) and Biochemistry lab (BCH 372) during a 2-week, immersive, in-person experience on ASU's campuses in Arizona. Please email NCsummerlabs@asu.edu with any questions.

Online students in this degree program will complete FOR 494 Fundamental Skills in Death Investigations which requires an immersive residency in the crime scene lab and other labs at ASU's West Valley campus in Glendale, AZ. Please email

NCsummerlabs@asu.edu with any questions. Alternatively, students may seek a local internship (FOR 484). Forensic Science internships are not guaranteed. Forensic science internships are competitive and the application process takes time. All internships require prior faculty approval. For more information, visit: https://newcollege.asu.edu/internship-programs

Focus Area

Students consult their advisor to select a minor to pursue for their focus area, or to construct an individualized focus area with a coherent theme or purpose. Courses used to fulfill major requirements cannot also be used for minor requirements. A minimum of 12 credit hours upper division is required.

Upper Division Focus Area	C	12
Focus Area	C	12

Capstone

Requirement	Minimum Grade	Credit Hours
Upper Division Capstone		
IAS 480 Capstone: Practices and Approaches **IAS 484 Internship** **IAS 493** / **HON 493 Honors Thesis**	C	3
Upper Division Global and Civic Engagement Requirement: satisfied through completion of six credits of upper-division courses with a Global Communities, Societies and Individuals (GCSI) or Governance and Civic Engagement (CIVI) designation, in addition to the courses used to meet the university general studies requirements; or completion of three credits from an ASU-approved global education program. Adjustment to upper-division and elective hours is required if a lower-division global education course is used.	C	6
Mathematics Proficiency Requirement: all New College students in a Bachelor of Arts or Bachelor of Science degree program are required to obtain a grade of "C" or higher in any course that satisfies the ASU General Studies MATH requirement.		
Mathematics (MATH) Recommended: **MAT 114** OR **MAT 117**	C	3

ASU 101 or College-Specific First-Year Seminar

ASU 101 or college-specific equivalent First-Year Seminar required of all first-year students.

NEW 101 The ASU New College Experience		1

First-Year Composition

ENG 101 First-Year Composition **AND** **ENG 102 First-Year Composition**		
OR **ENG 105 Advanced First-Year Composition**	C	6
OR **ENG 107 First-Year Composition** **AND** **ENG 108 First-Year Composition**		

Notes

All baccalaureate degree students must fulfill university graduation requirements, including a minimum of 120 credit hours, with at least 45 credit hours in upper-division courses. https://catalog.asu.edu/undergraduatereq

All undergraduate students must complete General Studies requirements. https://catalog.asu.edu/ug_gsr

Mathematics Placement Assessment score determines placement in first mathematics course.

Students should work with their academic advisor, and consider course prerequisites, in order to complete all degree requirements in four years.

For student resources, including academic advising appointment scheduling, forms and policies, internship information, involvement and research opportunities, and more, visit: https://newcollege.asu.edu/

Students interested in pursuing health-related professional and graduate programs should explore pre-health resources, including Pre-Health 101 Workshops and Pre-Health Advising. For more information, visit: https://prehealth.asu.edu/

Students interested in pursuing law-related professional and graduate programs should explore pre-law resources. For more information, visit: https://prelaw.asu.edu/

Career preparation resources are available through Career Services. For more information, visit: https://career.asu.edu/

General Studies designations listed next to courses were valid for the 2025 - 2026 academic year. Please refer to the course catalog for current General Studies designations at time of class registration. General Studies credit is applied according to the designation the course carries at the time the class is taken.

Curriculum - Latin American Studies, BA

Catalog Year: 2025 - 2026 **General Studies Gold**
Degree: Bachelor of Arts, BA
College/School: New College of Interdisciplinary Arts and Sciences
Plan Code: ASLASBA
Minimum credit hours: 120
Upper division minimum credit hours: 45

Requirement	Minimum Grade	Credit Hours
A minimum of 12 upper-division credit hours used toward the major requirements must be taken from the New College of Interdisciplinary Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in the Class Search.

CHM 237 General Organic Chemistry Laboratory I	C	1
CHM 234 General Organic Chemistry II	C	3
CHM 238 General Organic Chemistry Laboratory II	C	1

Online students in this degree program will complete experiments for the Organic Chemistry labs (CHM 237 and CHM 238) and Biochemistry lab (BCH 372) during a 2-week, immersive, in-person experience on ASU's campuses in Arizona. Please email NCsummerlabs@asu.edu with any questions.

These laboratory courses will be offered during summer. This may impact your financial aid. Financial aid is available to those who apply and qualify, and students may receive funds to help cover costs for each semester of enrollment. The amount of financial aid that a student is eligible for varies depending on prior education experience and other individual factors. Learn more about summer financial aid and additional ways to cover summer costs.
