January 8, 1925.

Dear Agnes:

I wonder if you would do something for me.

We have been trying to get some German pessaries for our clinical research work, and have written several times to the firm whose address I give you below, but have received no reply. Would you please go and see them and find out what is the matter.

I know these goods cannot be shipped directly into the U.S., but they can ship any amount to Canada to the address which we have given them. I am enclosing copy of a letter we wrote them which gives the Canadian address. I would be greatly obliged to you if you could make a personal call on this firm and find out what the trouble is and why they have not made any shipments. We want very much to get these pessaries into Canada, and we can take care of them from that point.

My other letter will probably be received by you before this comes to hand.

Love always.

Address is:  
Hechtel & Le Noir,  
Zimmerstrasse 77,  
Berlin SW, 68,

copies of letters enc.
