(see enclosure)

Dear Margaret.

Just a note to send
you the quarterly of the
Association of Women
Physicians of Germany. As you
see, this is published by
Dr. Eidenhizer - whose name
& address I sent you & he
invited to the Int. B.C. Congress,

1928?

and by Dr. Laura Tarnan,
(Kaiserallee 202) who should
also be invited to the
Congress.

You will see by the
magazine that it is devoted
to birth control and to
abolishing the law making
abortion a crime.

I have given Dr.
Edenhuizen a copy of the
B.C. Review and she is

3
placing you on the
exchange list of
magazine. The issue I
send you of his journal
is the first copy of
this exchange. Can you
not exchange regularly
with them? If so, instruct
the office to place the
Review on the list.

I hope you have
invited Dr. Edenhuizen to

(4E)

the Congress. She is one of
the finest women I have
ever known, and she is one
of the best known women
specialists in Germany. Her
practice is huge. I have
told her that you will
send her an invitation. She is
very influential with women
physicians, & she is vitally
interested in you & your movement.

My love to you,

Dr. Edenhuizen ^{sells} herself, ^{sells} & fits all different
kinds of birth control means for every
woman who wishes it, & she has two nurses
who assist her in her work in her office.
