In my article I have not written that we are supporting the  
Committee. This I left out deliberately because of two things: first  
over half of our Committee are Communist and I did not wish to  
connect your name like that without your consent. Secondly,  
because our Committee disagreed the future of the  
Catholic and Monarchist will put up a fight. I will say  
we are a foreign institution supported by the  
Americans want to reduce the German birth rate. We laughed  
at all this, but it was raised, and it was in the  
meeting that in all publicity we would say are supported by  
private funds. Later, after we have washed the  
we will be free.

We expect some light because of the new propaganda here  
for a huge birth rate, and because of the growing strength of  
the reactionary movement. And also because we have for the first  
time come out openly and used the words "Birth Control" instead of  
hiding behind the words "Marriage and Sexual Advice". That is  
going to cause a row.
