

[1924-1928?]

Dearest Margaret:

1928

Enclosed is the Protocol of our 2nd. session of our B. C. Clinic. Dr. Bendix has come in the Committee. He is the Head Physician of the Ambulatoriums here (i.e., just what a clinic is in America), and as the Protocol tells you we have made changes accordingly in our work. The B. C. Committee stands, with him included, and the B. C. name. But to push our work through we call our centers "Sexual & Marriage Advice Centers" under the B. C. Committee. We did this because they already exist to a certain degree and because the Committee said we would be able to get all the Ambulatoriums as B. C. Centers in this way. In this way we get a room, furnished with everything we need; waiting rooms; nurses, card catalogues, and everything but the doctor. We pay for the doctor and for the money you send us

may open two centers. There are 22
Ambulatoriums in Berlin alone and
we hope eventually to see a B.C. clinic
in each. Dr. Bendix puts them at our
disposal. The Ambulatoriums are from
the "Krankenkasse" or Sick Insurance
of the City. It is Social Democratic
Dr. Bendix is Social Democratic himself.
Now that the S. D. are the ruling party,
we thus have them behind us also.

I'm sick, Margaret, and haven't done
much in this. "Often can hardly walk."
Went to a Press meeting of our Committee
on the 28th but could hardly get there
and then late and heard little. Press Committee
consists of Dr. Bendix, Dr. Wolf, Dr.
Winteritz, Dr. Max Hodann; and
Dr. Bendix gives pictures and all and
in a day or two our publicity starts in
the entire workers' press.

too bad it has been done.

They have asked you not to publish the Protocol or the names of our Committee. To lay low and see what happens for a time. So don't send my article to the press at all. The only names that will appear will be Dr. Bendix, head of the ambulatory system, Dr. Schmircke, Health Comm. of Neukölln, Dr. Stöcker (respectable) and Dr. Hodann, Health Commissioner. Dr. Wolf's name does not appear. She is known as a Communist physician & writer. We let the respectables appear at first.

Your article ^{on your Clinic} appears in a few days in Dr. Stöcker's "New Generation". I didn't give it to the Women Physicians. They do nothing. I'll send you copies.

Love
Margaret
