June 16, 1928

Dear Anna:

I have your letter of June 2. When Dr. Cooper's book comes, - I shall give it to Dr. Schmincke.

I'll get the poster "Waiting" and send it in a few days. Margaret has the right to use any drawing in that book I sent her on "Volk in Not." The terms I sent her. What they were I have forgotten. She undoubtedly has them there.

Please remember that I review books for the Indian press and as a rule write an article on each book. Speak to Margaret about this and send me,

or have publishers send me, any books
you would like to have brought before
the attention of the Indian people.

I send my reviews to three different
magazines and often write a special
article for the "Forward" of Calcutta, the
largest Indian daily.

Please put Dr. Mathilda Winternitz
on your list to receive the B.C. Review.
She is now one of our Committee. After
one month, place Dr. Bendix on the
list. Addresses with Margaret. He's a member
of the Committee but must not see the
last issue of the Review with my article.

I'm sending Dr. Stöcker's magazine
with Margaret's article in it.

Love to you all.

Agnes
