ART SHEFTE

MODERN PIANO PLAYING

Price \$1.00 in U. S. A.
\$1.50 in Canada

FOR the first time in the history of Music Publishing, a legitimate, fundamentally correct course in Modern Piano Playing — having the endorsement of nationally known authorities — is now available to the public. The "SHEFTE RAPID COURSE" makes it possible for young or old to acquire a correct musical knowledge of Modern or Popular Music in a space of time heretofore believed impossible. What formerly required years can now be accomplished in months. If you want to take up the study of music merely for accomplishment or for your own amusement and the amusement of your friends, you can get results quickly and at little expense "The Shefte Way." Even if you aspire to serious study of music and later wish to pursue the classics, you will have formed an excellent foundation from the study of this modern course.

Shefte Rapid Course VOLUME 1—For Beginners—with no previous knowledge of music.
In Modern Piano Playing VOLUME 2—For Students with a fair knowledge of music.
IN THREE VOLUMES VOLUME 3—For the Advanced Student.

THE SIMPLEST, MOST THOROUGH AND MODERN COURSE OF INSTRUCTION IN POPULAR MUSIC

THOSE WHO ALREADY PLAY PIANO

Can now obtain a book that will not only instruct them how to create embellishments, breaks, etc.—when to use and where to use—but gives hundreds of those now in use. Popular music as played over the air and in prominent theatres, hotels, etc., by modern pianists is made so peppy and entertaining because of the employment of modern frills; in other words embellishments, breaks, endings, etc., which are not found in the printed copies.

SCALES AND ARPEGGIOS This volume contains all the scales correctly fingered in one and two octaves and gives arpeggios in all keys. It's an undeniable fact that these two forms of exercises are unequaled for the development of Technique—Relaxation—Flexibility and correct fingering. Price, \$1.00 in U. S. A.

KEYBOARD HARMONY The embellishment or fill in work required in popular music calls for a thorough knowledge of Keyboard Harmony. In this volume Mr. Shefte has succeeded in presenting the requirements in almost unbelievable simplicity. Without question the simplest, most condensed treatment of the subject yet published. Price, \$1.00 in U. S. A.

JAZZ BASS This volume teaches the various styles of Bass as used by Professional Performers covering all keys and chords. Enables the student to apply a genuine professional style Bass to all popular music and trains the left hand to follow the right hand subconsciously. The backbone of modern Jazz Playing. Price, \$1.00 in U. S. A.

JAZZ BREAKS All the Jazz Breaks—fill in embellishments—modulations—novelty endings—as used by the radio and vaudeville artists and jazz orchestra pianists are contained in this volume. 150 of them—not only the choicest of those most in use but many new and original conceptions by Mr. Shefte. It teaches how and where to use them. Price, \$1.00 in U. S. A.

HOT BREAKS That form of Popular Jazz—so aptly termed HOT is clearly illustrated and described in this book. The author shows a complete chorus of a popular song (as printed for sale) and the Hot version as it is played. All the Hot Endings, Fill ins and Breaks as now used are also included. A great work covering this phase of playing. Price, \$1.00 in U. S. A.

BLUE BREAKS An extremely simple but effective treatise on how, when and where to do "Blue" music. That wailing, melancholy, pleading atmosphere in music is styled "The Blues." These are made plain and understandable by the author by giving a chorus of a popular song without the Blues and another with the Blues applied. It also includes the Breaks and Endings now used by Popular Pianists. Price, \$1.00 in U. S. A.

I consider the Shefte system a most practical way of learning to play the piano, and it should appeal not only to those who want to learn popular music quickly and easily, but also to those who aim eventually at interpreting the lighter classics. It should help pupils to play "by ear" as well as by note, and altogether I find it a sane and straightforward approach to music in general.

Sigmund Spaeth

"Apostle of Common Sense in Music," B.A.
New York City.

I admire Mr. Shefte's knack in blending the musically meritorious and instructive elements with what is pleasingly tuneful in his course. The knowledge and proficiency thus acquired, may at a later period (let us hope) make the student an easy convert to the appreciation of, or even an active pursuit of classical as well as the higher grade modern music. In this light I am glad to highly recommend the course.

Chester L. Becker

Internationally known composer, pianist and pedagogue, President of the Associated Music Teachers League, Past President of the New York State Music Teachers Association, lecturer for the Music Teachers' National Association, Director of the American Progressive Piano School, etc.

I have scrutinized the Shefte Course and want to congratulate the author on the thorough manner in which he has presented the fundamentals of music; also the practical technical material which hits directly at the mark and eliminates all unnecessary drudgery. I highly recommend this course to adult beginners.

Leslie Fairchild

303 Beechwood Avenue, Bridgeport, Conn.
President Musical Research Club, Bridgeport.
Writer of Pedagogical articles for the Etude.
Editor of the State Bulletin, etc., etc.
"The Outlook"—"The Baton"

I have examined the Shefte books and think they are a very practical addition to piano study material. Every American musician should know syncopation, and this subject, among others, Mr. Shefte has treated in a very thorough and rational manner. I shall use these studies in my teaching.
