Executive Summary

Maricopa County Department of Transportation (MCDOT) is responsible for more than 2,500 centerline miles of roadway throughout unincorporated Maricopa County. New pedestrian facilities along MCDOT roadways are designed and constructed to comply with the most recent standards from the Americans with Disabilities Act (ADA) Title II Regulations. Facilities built prior to the ADA becoming law were identified in a 2017 inventory as needing additional evaluation to determine compliance. Those facilities include:

- 1,286 miles of sidewalk,
- 12,163 existing curb ramps,
- 3,453 potential locations for new curb ramps,
- 6,556 driveways crossing sidewalks with vertical curbs, and
- 78 bus stops.

Since 2017, MCDOT has newly constructed and/or upgraded multiple pedestrian facilities. The following table provides information on MCDOT’s efforts to improve accessibility. The counts are from projects where MCDOT was the sole/primary/lead agency and may include facilities that will be or have been annexed by a city or town. An update to the 2017 inventory is planned as a component of the next MCDOT Transportation System Plan, TSP2050.

MCDOT ADA Compliant Facilities completed since 2018

Feature	2018-2023	2024-2025	Total
Curb Ramps	1,803	393	2,196
Sidewalk Miles (5 Feet minimum)	41	5	46
Sidewalk 5-ft. x 5-ft. Passing Spaces	453	0	453
Pedestrian Push Buttons	283	64	347
Accessible Pedestrian Signals	12	0	12
Bus Stop Pads	18	18	36
Driveways With Landings	150	65	215

The table below shows the percentage of MCDOT compliant curb ramps improving from 14 percent in 2017 to 28 percent in 2025. Ramps are retired from the MCDOT system when streets are annexed, single ramps are replaced with dual ramps, or unneeded ramps are removed.

MCDOT Curb Ramp Status

Curb Ramps	2017	2025
ADA Compliant	1,772	3,446
Not Compliant	10,391	9,072
Total	12,163	12,518
% Compliant	14%	28%
Retired	NA	162

MCDOT continues to work toward total ADA compliance within the constraints of funding availability by including ADA reviews on all roadway projects and programming specific projects to remove identified barriers.

Introduction

The core purpose of Maricopa County Department of Transportation (MCDOT) is to provide transportation connections that improve people's lives. The *MCDOT Americans with Disabilities Act (ADA) Action Plan and Transition Plan Update (Plan)* is intended to further this purpose by providing equivalent access to the maximum extent feasible for people with disabilities. The Plan accomplishes this by documenting improvement needs, outlining methods to address ADA issues, and creating a potential timeline for achieving compliance with the ADA. The Plan is a living document that will address, through annual updates, the ADA issues in MCDOT public rights-of-way that affect the accessibility of individuals with disabilities. The Plan meets all requirements for compliance with Title II of the ADA and shows innovative transportation planning, public participation processes, and an enhanced transportation facilities program at a regional level. An Action Plan updating MCDOT's progress is submitted on request to the Arizona Department of Transportation (ADOT) for approval. Additional updates and revisions to the document will be done during this request unless otherwise advised by ADOT.

Purpose and Need

The ADA provides comprehensive civil rights protection to individuals with disabilities. The ADA is divided into five parts, covering the following areas:

- Title I: Employment
- Title II: Public Services and Transportation
- Title III: Public Accommodations and Services
- Title IV: Telecommunications
- Title V: Miscellaneous Provisions

Title II applies to state and local governments and protects qualified individuals with disabilities from discrimination on the basis of disability in services, programs, and activities provided by state and local governments, regardless of the government entities size or whether they receive Federal financial assistance.

As a requirement of Title II of the ADA, MCDOT is required to prepare a transition plan that:

- Identifies physical obstacles in the public entity's facilities that limit the accessibility of its programs or activities to individuals with disabilities,
- Describes the methods used to make pedestrian facilities accessible,
- Outlines steps to meet compliance, and if the time period of the transition plan is longer than one year, identifies what will occur each year until compliance issues do not exist, and
- Identifies the public official responsible for the implementation of the Transition Plan.

In addition to what is included in the plan, a public agency must:

- Establish a grievance procedure,
- Provide public notice about ADA requirements,
- Develop internal design standards, specifications, and details,
- Approve a plan and set milestones for addressing ADA issues,
- Establish a budget for the Transition Plan,
- Monitor the progress of plan implementation, and
- Provide an opportunity for interested parties to participate in the development and annual update of the plan by submitting comments.

ADA Guidance

The Department of Justice has amended the ADA regulations over time to address accessibility concerns that have arisen since 1991 and to be consistent with guidelines produced by the U.S. Architectural and Transportation Barriers Compliance Board (Access Board). Compliance with the most current standards, the 2010 ADA Standards for Accessible Design (2010 Standards), is required for new construction and any alterations to an element of the accessible route. The 2010 Standards include a safe harbor provision for existing facilities built or altered to be in compliance with the 1991 ADA Standards for Accessible Design (1991 Standards) prior to March 15, 2012. These facilities or elements are not required to be updated to reflect the incremental changes in the 2010 Standards solely because of an alteration to a primary function area that is served by that path of travel. This safe harbor provision allows balance between providing accessibility to facilities and the potential financial burden to undertake alterations subject to the current standards. The detectable warning requirement in the 1991 Standards was suspended during the period between May 12, 1994, and July 26, 1998, and from December 23, 1998, and July 26, 2001.

The table below addresses which standards, to date, a facility must be in accordance with.

New Construction and Alterations of ADA Element	
Construction/Alteration Dates	Applicable Standards
Before September 15, 2010	1991 Standards or UFAS
September 15, 2010 to March 15, 2012	1991 Standards, UFAS, or 2010 Standards
On or after March 15, 2012	2010 Standards

The regulations and requirements for ADA incorporate and span many different types of facilities. This Plan addresses ADA compliance only for MCDOT public rights-of-way and does not include the rights-of-way owned and operated by ADOT or any of the incorporated cities and towns within Maricopa County.

The types of facilities that are addressed when evaluating for ADA compliance in MCDOT public rights-of-way include: sidewalks, pedestrian crossings, pedestrian signals, bus stop pads, curb ramps, driveway crossings, and rail crossings as part of sidewalks. Each feature has its own set of unique requirements for design in order to be ADA compliant. However, when addressing accessibility needs and requirements, it is important to note that Title II requirements do not supersede or preempt state or local laws that may offer equivalent or greater protection.

Exceptions

Curb ramps are an important part in making sidewalks, street crossings, and other pedestrian routes in the public right-of-way accessible to people with disabilities as they allow a safe transition from a roadway to a curbed sidewalk and vice versa. Curb ramps are required if the sidewalk is installed or altered at an intersection, during new construction, as a means of providing program accessibility, and as a reasonable modification. The ADA does not require installation of ramps or curb ramps in the absence of a pedestrian walkway. The County is not obligated to address existing obstacles on the adjacent sidewalk at the same time if an existing curb ramp is replaced as part of a resurfacing alteration.

When maintenance activities are undertaken, ADA facilities are not required to be brought into compliance with the current standards if they met the applicable standards at the time due to the safe harbor provision. However, if two or more maintenance treatments are used it may be considered an alteration. Resurfacing, as maintenance, may also be considered an alteration under ADA if it involves work on a street or roadway spanning from one intersection to another, and includes overlays of additional material to the road surface, with or without milling. If such resurfacing affects the crosswalk, even if it is not the full roadway width, then curb ramps must be provided at both ends of the crosswalk if there are none, if not included under the safe harbor exception above. If there is an insufficient amount of right-of-way to make the necessary ADA modifications during an alteration project, proper documentation of reasonable efforts to obtain access to the necessary right-of-way is required.

ADA Program Information

ADA Title II Coordinator

The ADA Title II Coordinator is the public official responsible for the coordination of efforts of the government entity to comply with the requirements of ADA and is responsible for investigating and responding to complaints filed by the public.

The following individual is the ADA Title II Coordinator for MCDOT:

Reed Kempton
Planning Project Manager
Maricopa County Department of Transportation
2901 W. Durango Street
Phoenix, AZ 85009, (602) 506-7742
Reed.Kempton@Maricopa.gov

In 2021, Michele Ross was designated the ADA Coordinator for Maricopa County.

Michele Ross
Maricopa County ADA Coordinator
301 W. Jefferson Street, 10th floor
Phoenix, AZ 85030, (602) 506-0583
ADAhelp@Maricopa.gov

Policy and Procedures

Currently MCDOT adheres to the 2010 ADA Standards for all new construction and alterations to existing public rights-of-way, as outlined in the MCDOT Roadway Design Manual, and designed in accordance with the MAG Uniform Standard Specifications and Details, and the MCDOT supplement to the MAG Standard Specifications and Details.

As new information becomes available, or ADA standards change, MCDOT will update policies and practices to incorporate the latest information and standards (see **Appendix A.**)

In February 2020, MCDOT developed ADA Guidelines for project managers, consultants, designers, engineers, developers, and the public. The document identifies standards and references; defines new construction, alteration, and maintenance activities; specifies standard details; outlines paired curb ramp placement; clarifies multiple agency participation; describes constructions tolerances; and provides an exception process. These guidelines are attached as **Appendix B.**

Grievance Procedure

The Grievance Procedure, required by Title II of ADA, may be used by anyone who wishes to file a complaint alleging discrimination on the basis of disability in the provision of services, activities, or programs by MCDOT. Under the Grievance Procedure, MCDOT will act or respond to all complaints received. The Grievance Procedure and form is provided in **Appendix C** and is available for access through the MCDOT website or upon request in an alternative format.

Public Notice

An ADA Public Notice is a requirement and responsibility for state and local governments to provide information about the rights of the public under ADA. This is not a one-time requirement but an ongoing responsibility. The ADA Public Notice is provided in **Appendix D** and is available for access through the MCDOT website or upon request in an alternative format.

Communication

MCDOT provides Title II information, ADA Title II Coordinator contact information, the Plan, and the ability to provide feedback to the Plan on the MCDOT website.

MCDOT's Compliance History

In 1994, MCDOT developed the ADA Transportation Facility Compliance Transition Plan. The objective was to identify the deficiencies of MCDOT facilities and set forth measures to correct them. A physical inventory of intersections within MCDOT jurisdiction without curb ramps was collected with the intent to install curb ramps on every corner of every intersection. Within this plan MCDOT also modified the design standards used for curb ramps to comply with the 1991 ADA Standards.

MCDOT evaluated the effectiveness of the 1994 ADA Transportation Facility Compliance Transition Plan in 2011 and prepared an ADA Transition Plan Guideline that provided some recommendations for when a full update was needed. The main recommendation made for the full update was to address multiple types of transportation facilities, not just curb ramps. These five facility types recommended to be included were: curb ramps, sidewalks, driveways, accessible pedestrian signals, and railroad at-grade crossings. In 2015, intersections from the original 1994 plan were reviewed to determine if they were still within MCDOT jurisdiction.

In 2017, MCDOT compiled a comprehensive inventory of facilities in the public rights-of-way under its jurisdiction. This process discovered a significant number of curb ramps, sidewalks, driveways, and other facilities that were not previously identified in the 1994 plan.

Since then, MCDOT has taken steps to make sure that every roadway project is evaluated for ADA compliance and has programmed projects specifically to address accessibility issues.

Commitment

MCDOT has made ADA awareness and compliance an integral part of business. Each year, MCDOT updates its Transportation Improvement Program (TIP) to identify how transportation dollars will be invested over the next five fiscal years. The TIP contains system improvements that include new or improved roadways, bridges, drainage structures, intersection improvements, Intelligent Transportation Systems, and more. The TIP allows MCDOT to plan for five years of future projects using the project development process (planning, scoping, design, and construction). The TIP is updated annually and approved by the Maricopa County Board of Supervisors. All TIP projects include an ADA compliance review with necessary ADA improvements identified in the planning and

scoping processes. Projects specifically addressing pedestrian accessibility issues are also included in the TIP as stand-alone projects.

The dissemination of information and requests for comments regarding possible accessibility issues were initially gathered in part through the 2018 Active Transportation Plan (ATP) public outreach. The public outreach conducted during the ATP process included public and stakeholder workshops, open house events, online outreach with an interactive map, and participation in regional community events. Additional public outreach was included with the 2021 Transportation System Plan 2040 (TSP 2040).

Both plans, supporting documents, and the ability to provide feedback during the drafting process were available for all people through MCDOT's website, as required by ADA, and all communication by MCDOT, where necessary, was provided in an effective way for individuals with disabilities to ensure an equal opportunity.

Implementation

An understanding of existing defects, public input, and the prioritization of projects ultimately serves as the basis to identify and prioritize locations that require accessibility improvements.

Inventory

In 2017, MCDOT conducted a survey of owned and/or maintained public rights-of-way to evaluate current accessibility. Curb ramps, driveways, and sidewalks were observed through aerial imagery and assumptions were made to determine if these facilities or elements were compliant with the 2010 Standards. A Geographic Information System (GIS) program was used to collect this data, and hundreds of locations were field checked to ensure accuracy. This type of survey is called a windshield survey, a systematic observation, and is not specifically detailed.

The assumption made for curb ramps for the 2017 inventory was that if a highly visible, detectable warning was present at a curb ramp, the ramp had been reconstructed to adhere to the 2010 Standards. If the curb ramp lacked a detectable warning, was in significantly poor condition, or dimensions of the landing appeared to be less than four feet wide, they were identified as possibly being noncompliant with the requirements. The ramps that were identified as possibly not being built to the 2010 Standards based on the above assumptions will be further investigated to determine if the safe harbor provision applies.

The basis for sidewalk compliance identification was whether the sidewalk width met the 2010 Standards and if there were obstructions along the accessible route reducing the sidewalk's passable width.

Detailed data on bus stop accessibility was provided by the *Valley Metro Transit Stop Inventory and Accessibility Study* completed in June 2017.

The 2017 inventory identified facilities on MCDOT roadways and determined, of those, which may need further evaluation to determine potential accessibility issues:

- 1,286 total miles of sidewalk
 - 1,029 miles of inadequate sidewalk width
 - 50 locations with identified obstructions in pedestrian way
- 12,163 total existing curb ramps
 - 10,391 curb ramps without detectable warnings including:

- 78 signalized intersections
- 70 traffic island curb ramps
- 3,453 potential locations for new curb ramps as required by the 2010 Standards
- 6,556 total driveways crossing sidewalks with vertical curbs
 - 3,353 potential cross slope issues
- 78 total bus stops
 - 73 possible accessibility issues at bus stops

Inventory Update: Cartegraph

In 2021, MCDOT began implementing an asset management system in Cartegraph, a software designed to manage physical infrastructure assets. The MCDOT curb ramp inventory is updated as each construction project is completed, providing an up-to-date GIS based view of MCDOT facilities. Counts for other features are still based on an annual review of construction drawings. A current list of curb ramps that are not compliant, along with other items from the 2017 inventory, can be found in **Appendix F**.

Methods for Compliance

There are multiple ways in which ADA issues in MCDOT public rights-of-way are mitigated and incorporated into projects. Improvements can be implemented with roadway maintenance, roadway reconstruction, pedestrian and bicycle projects, or as a standalone ADA project.

In some areas it may not be feasible to achieve ADA compliance, either due to technical constraints or financial burden. If a project to eliminate the ADA accessibility issue is found to be infeasible, the ADA Coordinator will compile detailed documentation for reaching this conclusion. This documentation, required by ADA, will include the consideration of all resources available for use in the funding and operation of the service, program, or activity. If the project is not feasible, other remedial actions will be taken to provide the services to individuals with disabilities, whether through practical design improvements or design accommodations, to make sure that access in public rights-of-way is still provided.

Transportation System Plan

The Transportation System Plan (TSP) sets the framework of the future transportation system as population, development, technology, and other factors impact Maricopa County. The plan evaluates roadway needs, sets performance measures, and provides a clear vision. This plan represents a change in scope from a capacity-driven focus to a broader view that includes disabled and vulnerable users, pedestrians, bicyclists, emerging technologies, freight, and vehicles.

MCDOT's commitment to ADA compliance can be seen in TSP. Two of the six performance measures include sidewalks and curb ramps. The pre-COVID targets were to build 25 miles of new sidewalk and bring 50 percent of curb ramps into compliance by 2025. An update to the TSP has kicked off and will be reevaluating all the targets listed below.

	Performance Measure: Capacity	Target: 30%
Incorporate MCDOT roadways with a volume to capacity (V/C) ratio greater than or equal to 1.0 into the long-range Transportation Improvement Program (TIP)		
	Performance Measure: PM-10 Compliance	Target: 15%
Incorporate unpaved MCDOT roadways within the Particulate Matter 10 (PM-10) non-attainment area exceeding 100 vehicles per day (vpd) into the long-range TIP		
	Performance Measure: Bicycle Lanes	Target: 25 miles
Complete centerline miles of bicycle lanes		
	Performance Measure: Sidewalk	Target: 25 miles
Complete centerline miles of sidewalk		
	Performance Measure: Curb Ramps	Target: 50%
Bring curb ramps into compliance with the Americans with Disabilities Act (ADA)		
	Performance Measure: Signal Optimization	Target: 80%
Actively monitor and adjust signal timing to optimize travel times on MCDOT's arterial corridors		

Funding

MCDOT receives funding for the TIP from local, regional, state, and federal sources. The primary source of funding is the Highway User Revenue Fund (HURF). HURF is the distribution of the State of Arizona taxes for motor fuels and a variety of other fees and charges including gasoline, fuel taxes, motor carrier taxes, vehicle license taxes, motor vehicle registration fees, and other miscellaneous fees. The second largest source of MCDOT funding is the Maricopa Association of Governments (MAG) Arterial Life Cycle Program (ALCP). MAG ALCP funding is for specific projects and includes regional funds and federal transportation funds.

Another source of TIP funding comes from local partnerships. MCDOT works cooperatively with the County's 25 cities and towns, three native nations, and other stakeholders to meet the transportation needs of its residents. This includes entering into Intergovernmental Agreements to share costs and resources on joint roadway projects.

Schedule

All identified ADA barrier remediation cannot be funded for completion in one fiscal year. However, MCDOT is committed to making improvements systematically over a multiyear period. When possible, upgrades to curb ramps, driveways, traffic signals, and narrow sidewalks are implemented in conjunction with programmed roadway maintenance and reconstruction projects. As funding becomes available, remediation specific projects have been identified for programming and construction in the TIP.

Neighborhood Facilities Analysis

Faced with hundreds of miles of narrow sidewalks and more than 10,000 noncompliant curb ramps, it was important to create a process to prioritize the needed repairs. Census data was used to identify 213 neighborhoods in unincorporated Maricopa County and rank them by percentage of disabled residents. Once studies were completed in the top 20 neighborhoods, schools, hospitals, recreation centers, and other destinations were added to the evaluation. An NFA includes a complete evaluation of pedestrian and bicycle features including detailed measurements of curb ramps, sidewalks, and driveways. Since 2018, 40 neighborhoods have been studied. Three additional ones are being evaluated now.

To the right is a typical curb ramp detail sheet created for a ramp located in Sun City West as part of an NFA.

NFA to Job Order Contract

When MCDOT began the NFA Program, the process was to evaluate all pedestrian facilities in a neighborhood, provide project recommendations, and package the recommended improvements into a project for scoping and design. MCDOT field staff noticed that many of the curb ramps could be installed using a standard detail, suggesting that a Job Order Contractor (JOC) could be used for these ramps, skipping the scoping and design phases.

Recommendations from each NFA now include two groups of projects. The first group consists of curb ramps and five-foot by five-foot passing spaces that do not need design and can be constructed using a JOC. The second includes facilities that need some level of site-specific design. The first group is packaged for construction via JOC and positioned to take advantage of close-out funds. This process enabled the construction of almost as many curb ramps in 2021 as were installed in 2018, 2019, and 2020 combined. 468 curb ramps were constructed in 2022 and an additional 187 in 2023. As we progressed through the neighborhoods, it became apparent that our criteria were too strict and there were not enough ramps to justify JOC projects. We are currently revisiting the neighborhoods already studied using revised criteria to make the projects more viable. See **Appendix E** for sample improvement maps.

2024/2025 Accomplishments Summary

Facilities

The following table shows MCDOT ADA facilities that have been newly constructed and/or upgraded since the 2017 inventory. These numbers are for projects where MCDOT was the sole/primary/lead agency. It may include facilities that will be or have been annexed by a city or town.

MCDOT ADA Compliant Facilities completed since 2018

Feature	2018-2023	2024-2025	Total
Curb Ramps	1,803	393	2,196
Sidewalk Miles (5 Feet minimum)	41	5	46
Sidewalk 5x5 Passing Spaces	453	0	453
Pedestrian Push Buttons	283	64	347
Accessible Pedestrian Signals	12	0	12
Bus Stop Pads	18	18	36
Driveways With Landings	150	65	215

The table below shows the percentage of MCDOT compliant curb ramps, which improved from 14 percent to 28 percent in eight years. Ramps are retired from the MCDOT system when streets are annexed, single ramps are replaced with dual ramps, or unneeded ramps are removed.

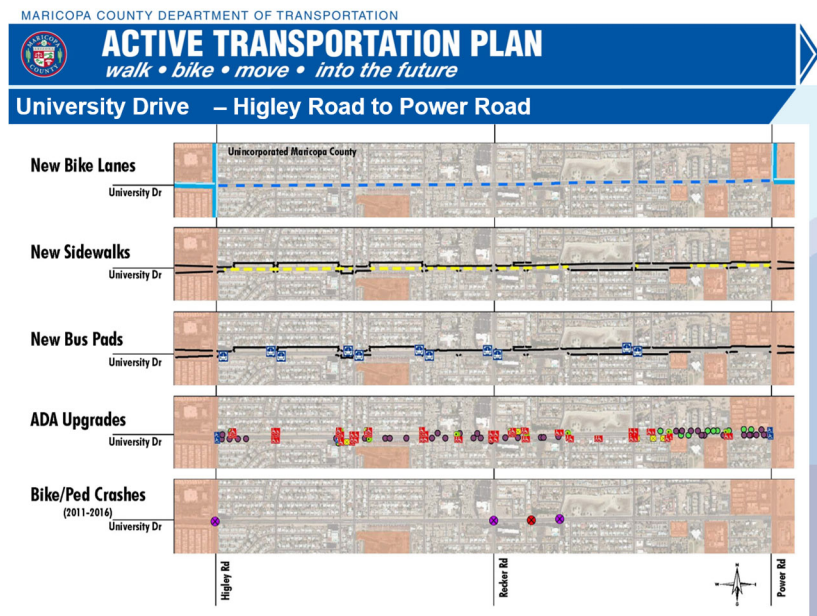

MCDOT Curb Ramp Status

Curb Ramps	2017	2025
ADA Compliant	1,772	3,446
Not Compliant	10,391	9,072
Total	12,163	12,518
% Compliant	14%	28%
Retired	NA	162

Highlights from 2024 & 2025

- **University Drive: Higley Road to Power Road (Two Miles)**
 - Highest ranked project in the 2018 MCDOT Active Transportation Plan
 - Partially funded by Federal Congestion Mitigation and Air Quality Program (CMAQ)
 - 91 curb ramps upgraded
 - 2 miles of sidewalk poured
 - 41 driveways reconstructed
 - 11 bus stop pads installed
 - Two miles of bike lanes were striped in each direction

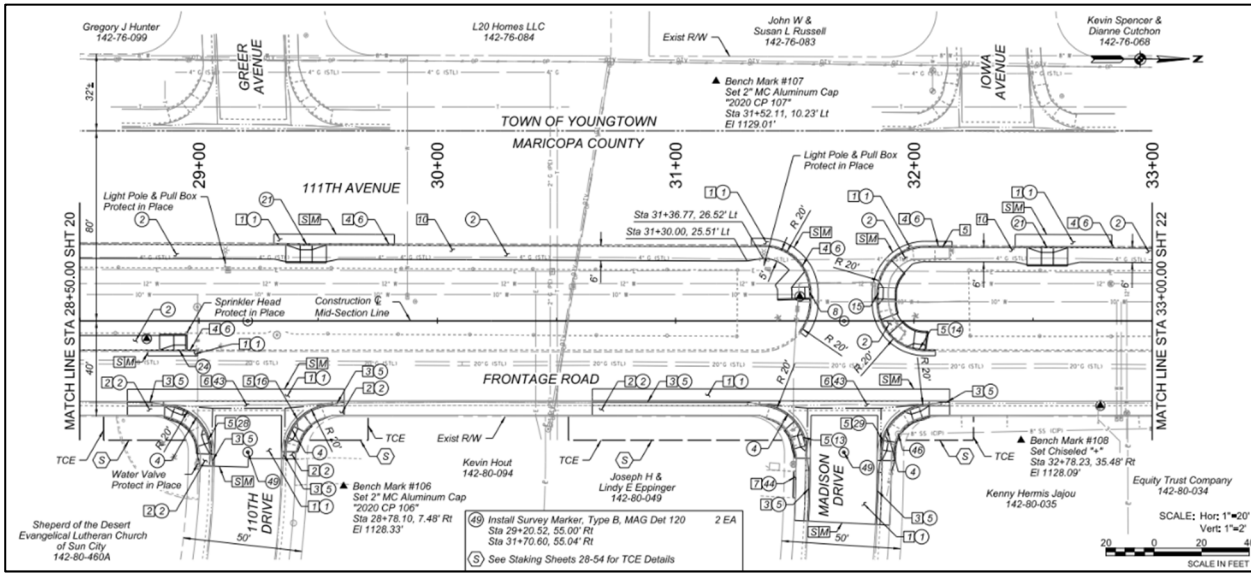

- **111th Avenue from Peoria Avenue to Alabama Avenue (1 mile)**

Coordination between Phoenix Transit and MCDOT informed MCDOT about a passenger in a powered wheelchair who waits for the bus in the street because there is no curb ramp near the bus stop. The bus stop sign was on a streetlight pole in gravel behind a vertical curb in a 48-foot-wide median. Several alternatives were evaluated before deciding on a new sidewalk in the median with curb ramps for the Youngtown residents. Additionally, Sun City residents to the east would get upgraded curb ramps at all frontage road corners and sidewalks through the median to access the bus stops. The bus stops were given 8’x8’ pads as requested by Valley Metro. Below is a clip from the plans showing complications with the frontage road and offset intersections.

- 82 curb ramps upgraded
- 1 mile of sidewalk poured
- 4 bus stop pads installed

- Pyranantha Drive, Broken Arrow Drive, and Echo Mesa Drive in Sun City West**

A resident on Pyranantha Drive east of Broken Arrow Drive contacted MCDOT and requested a way to leave the neighborhood with his wheelchair. There were no existing curb ramps in this area. MCDOT installed three ramps on each of three T-intersections so the resident could easily access the rest of Sun City West.

Appendix A: MCDOT ADA Policy

Title: Americans with Disabilities Act Policy	Policy No.: T1302
Purpose: To establish MCDOT policy supporting the Americans with Disability Act and associated accommodations.	Division: Engineering
Authorized Signature: DocuSigned by:  <small>89E8452A6BB0459...</small> Jennifer Toth, P.E. Transportation Director	Effective Date: 8/8/2022

A. Background:

This policy is developed to be in accordance with the requirements of the Americans with Disabilities Act (**ADA**). Maricopa County Department of Transportation (MCDOT) will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities.

B. Policy:

1. Employment: MCDOT does not discriminate on the basis of disability in its hiring or employment practices. It also complies with all regulations promulgated by the U.S. Equal Employment Opportunity Commission under the ADA and ADA Amendments Act.
2. Effective Communication: MCDOT will, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities, so they can participate equally in MCDOT’s programs, services, and activities. This includes qualified sign language interpreters, documents in Braille, and other ways of making information and communications accessible to people who have speech, hearing, or vision impairments.
3. Modifications to Policies and Procedures: MCDOT will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities regulated by the ADA and ADA Amendments Act.

C. Supporting Information:

Introduction

The core purpose of the Maricopa County Department of Transportation (MCDOT) is to provide connections that improve people's lives. Compliance with the Americans with Disabilities Act (ADA) furthers this purpose by providing, to the maximum extent feasible, equitable access to and within MCDOT right-of-way for people with disabilities.

The purpose of this guide is to assist MCDOT staff, consultants, developers, and the public with understanding acceptable ADA design practices in MCDOT right-of-way.

Standards and References: Descriptions and Hierarchy

These guidelines were developed based on requirements described in the hierarchy of documents below. For an ADA concern within the right-of-way for which clear guidance is not provided by these Guidelines, the ADA coordinator or designee should be contacted.

- US Department of Justice 2010 Standards for Accessible Design (2010 Standards)
 - Title II of the 2010 Standards: State and Local Government Facilities
- FHWA Manual of Uniform Traffic Control Devices
- MCDOT Roadway Design Manual
- MCDOT Traffic Signal Design Manual
- MCDOT Traffic Signing Manual
- Maricopa County Supplement to the Maricopa Association of Governments (MAG) Standard Details
- MAG Standard Details

ADA Requirements

Compliance requirements vary depending on whether a project is considered new construction, alteration, or maintenance as outlined in the 2010 Standards. A description of each project type is provided below and additional information on the requirements for each type is provided in the following sections.

- **New construction** refers to site preparation for, and construction of, entirely new structures and/or significant extensions to existing structures.
- **Alteration** refers to a change in a facility that affects or could affect the usability of the facility.
- **Maintenance** refers to any activity that does not alter existing elements of the pedestrian pathway.

New Construction

All new construction, including construction of new sidewalks on existing roads, is subject to the 2010 Standards.

- All pedestrian facilities that are part of an intersection shall be made compliant even if road improvements include only a portion of the intersection.
- All corners of all intersections affected by a given project shall be made compliant.

- T-intersections should have at least two accessible crossings.
- Exceptions in new construction should be rare.

Alterations

Resurfacing of streets constitutes an alteration under the ADA and triggers the obligation to provide or upgrade curb ramps where pedestrian walkways intersect the resurfaced streets. Roadway improvements that trigger installation or upgrade of curb ramps include, but are not limited to, the following:

- Improvements to the geometry of the intersection, such as installation of new turn lanes or widening of existing lanes
- Signal improvements
- Grade elevation changes
- Crosswalk striping improvements
- Streetscape improvements
- Sidewalk improvements within the legal crosswalk
- Mill & Overlay
- Microsurfacing / Thin Lift Overlay (0.5 to 1.5 inches)
- In-place asphalt pavement recycling
- Open-graded surface course
- Cape Seals (chip seal covered with slurry seal)
- Addition of new layer of asphalt pavement
- Asphalt or concrete pavement rehabilitation

Maintenance

The following treatments are considered maintenance and trigger no obligation to provide or upgrade ADA accessible features:

- Spot patching and pothole repair
- Replacement of disturbed curbing
- Restriping of existing markings in place
- Chip sealing
- Thin coat sealing
- Crack sealing
- Trenching for underground utility construction
- Diamond grinding
- Spot friction treatments
- Joint repair
- Traffic signal timing adjustments

The combination of two or more maintenance treatments may rise to the level of being an alteration. In general, restriping of existing markings in conjunction with any other maintenance item does not constitute an alteration. Chip seals covered with another seal coat become a cape seal and are

considered an alteration. Other combinations of treatments applied within one year should be evaluated for to determine if they are considered an alteration.

Multiple Agency Participation

In the occurrence that MCDOT does not control all of the public right-of-way required to provide access for persons with disabilities, MCDOT will work jointly with all others with interests in the highway, street, or walkway to ensure that pedestrian access improvements occur at the same time as any alteration or new project. The ADA encourages this cooperation by making each of the public agencies involved responsible for compliance.

To ensure that pedestrian access improvements occur at the same time as any alteration or new project MCDOT will approach affected agencies to develop an Intergovernmental Agreement (IGA) identifying responsibility for project management, schedule, permitting, cost sharing, and other elements needed to complete the project.

Standard Details

The MCDOT standard details have been developed to ensure compliance with ADA requirements and shall be used where appropriate. The following list is provided for reference. MAG and other agency details not specifically listed below are not approved.

Standard Details for New Construction:

MCDOT 2024: Single Curb Ramp Mid-block Residential Street w/4" Roll Curb

MCDOT 2031-1: Radial Curb Ramps 30' & 35' Curb Returns

MCDOT 2031-2: Radial Curb Ramps 30' & 35' Curb Returns

MCDOT 2032: Radial Curb Ramps for Residential Intersections

MCDOT 2033: Single Radial Curb Ramp at Sidewalk Transition

MCDOT 2036: Return Type Driveways with Attached Sidewalk

MAG 230: Sidewalks

MAG 234: Curb Modification at Detectable Warning

MAG 236-1: 25' – 35' R-Radial Curb Ramp Attached Sidewalk

MAG 236-2: 35' – 35' R-Radial Curb Ramp Detached Sidewalk

MAG 236-3: 20' R-Radial Curb Ramp Attached Sidewalk

MAG 236-4: 25' 35' R-Radial Combination Curb Ramp

MAG 238-1: Perpendicular Curb Ramp

MAG 238-2: Combination Curb Ramp (MAG 238-4 Single Curb Ramp Mid-Block Residential Street w/ 4" Roll Curb will be out Jan. 2020, it will replace MCOT 2024)

(MAG 238-4 Single Curb Ramp Mid-Block Residential Street w/ 4" Roll Curb will be out Jan. 2020, it will replace MCOT 2024)

MAG 250-1: Driveway Entrances with Detached Sidewalk

MAG 250-2: Driveway Entrances with Sidewalk Attached to Curb

MAG 260: Retrofit Driveway or Alley Entrance

MAG 262: Wing Type Alley Entrance with Combined Curb and Gutter

MAG 263: Wing Type Alley Entrance with Roll Type Curb and Gutter

Standard Details for Alterations:

MCDOT 2022: Retrofit 20' Return w/Dual Combination Curb Ramps

MCDOT 2023: Retrofit 20' – 25' Return w/Single Combination Curb Ramp

MCDOT 2030-A: Sidewalk Ramp Retrofit – Method A

MAG 236-5: 25' – 35' Radial Parallel Curb Ramp (Not allowed except for retrofit purposes. Use requires special approval from MCDOT)

MAG 238-3: Parallel Curb Ramp (Not allowed except for retrofit purposes. Use requires special approval from MCDOT)

MAG 251: Return Type Driveways (Use is limited to industrial and commercial, not to be used for residential driveways)

Note: Any deviation from the standard details must be approved by MCDOT engineering staff in consultation with MCDOT planning staff.

Paired Ramps

The offset between paired ramps at unmarked crosswalks may be adjusted to improve alignment with the receiving ramp. The control points of paired ramps should be within five feet of each other, as shown in the figure below. The control point is the mid-point of the ramp at the face of curb. Paired ramps within marked crosswalks likely already have an acceptable offset.

Construction Tolerances

The ADA allows a tolerance of 1/4-inch in 10 feet when evaluating **existing** facilities impacted by an alteration or maintenance project. This calculates to 0.2 percent. For example, if the cross slope of an existing ramp was measured at 2.2 percent, the cross slope would be considered compliant because it is within the construction tolerance level. Any measurement greater than 2.2 percent would not be compliant. All newly constructed facilities should be compliant with the ADA, **without reliance** on the construction tolerance.

Exceptions to Requirements

MCDOT's intent is for all facilities within the public right-of-way to meet all of the 2010 Standards described within this document. However, the ADA does include several specific exceptions described below.

Safe Harbor

The ADA includes a "safe harbor" provision, wherein public entities are not required to retrofit elements within a path of travel that were in compliance with the 1991 standards before March 15, 2012. This means that if an element existed *and* complied with the 1991 standards prior to March 15, 2012, no updates would be required to that element. For example, the 1991 standards required detectable warnings to be installed on curb ramps, which means that any existing ramps without detectable warnings would not fall within the safe harbor provision and must be updated. Safe harbor does not apply when a curb ramp or other feature is impacted by construction or alteration projects.

Technical Infeasibility

ADA compliance may be considered technically infeasible based on constraints imposed by existing conditions or if the required improvements would introduce a disproportionate cost to the project. If it appears as though a facility will not be brought into compliance due to technical infeasibility or disproportionate costs, the rationale for this exemption must be documented using the design exception process as follows:

A design exception shall be submitted in compliance with requirements of Chapter 1, Section 1.1 of the MCDOT Roadway Design Manual. The MCDOT ADA Coordinator or designee will be included in the review to determine if the requested exception meets the standard for technical infeasibility or disproportionate cost. A letter of decision for the design exception request will normally be provided within a three week time period. The exception shall be filed with the project documents.

Note: In situations where compliance is not feasible, the ADA requires that agencies conduct all work which is determined to be "technically feasible" given the constraints imposed by the existing conditions. Improvements should be made to ensure that the facility will be as close as possible to compliant.

Appendix C: Grievance Procedure and Form

Americans with Disabilities Act

Grievance Procedure

January 2026

Publication available in alternative format upon request. Please contact:

Reed Kempton
Planning Project Manager – ADA Coordinator
Email: Reed.Kempton@maricopa.gov
Phone: (602) 506-7742

Grievance Procedure under the Americans with Disabilities Act

PURPOSE AND TIMING

This Grievance Procedure is established to meet the requirements of the Americans with Disabilities Act (ADA). It may be used by anyone who wishes to file a complaint alleging discrimination on the basis of disability in the provision of services, activities, programs, or benefits by the Maricopa County Department of Transportation (MCDOT).

PROCESS

The complaint should be submitted in writing and include the following:

- Name, address, and phone number of grievant.
- Location and date of alleged issue
- Description of alleged discrimination

Note: Alternative means of filing complaints, such as personal interviews or an audio recording of the complaint, will be made available upon request for people with disabilities.

The complaint should be submitted by the grievant, or designee, as soon as possible but no later than 180 calendar days after the alleged violation. Complaints may be filed by e-mail at mcdotplanning@maricopa.gov or by mail at the following:

Maricopa County Department of Transportation
Attn: Planning Branch
2901 West Durango Street
Phoenix, Arizona 85009

Within 15 calendar days after receipt of the complaint, the MCDOT ADA Coordinator or designee will contact the grievant to discuss the complaint and possible resolutions.

Within 15 calendar days of the contact, the ADA Coordinator, or designee, will respond in writing, and where appropriate, in a format accessible to the complainant, such as large print, Braille, or audio recording. The response will explain the position of MCDOT and offer options for substantive resolution of the complaint.

If the response by the ADA Coordinator, or designee, does not satisfactorily resolve the issue, the grievant or designee may appeal the decision.

The Escalation (Appeal) Process is as follows:

Appeal shall be filed, in writing, within 15 calendar days after receipt of the response from the most recent step in the escalation ladder (indicated in graphic below) and shall include:

- Name, address, and phone number of grievant.
- Location and date of alleged issue
- Description of alleged discrimination
- Copy of any/all previously provided decisions.
- Reasoning as to why the previous decision(s) are not satisfactory.

Note: Alternative means of filing complaints, such as personal interviews or an audio recording of the complaint, will be made available upon request for people with disabilities.

In each step of appeal the County Representative, indicated in the escalation ladder or their designee, will contact the grievant within 15 calendar days to discuss the complaint, details, and potential resolutions.

The County Representative will, within 15 calendar days after the contact, respond in writing, and, where appropriate, in a format accessible to the complainant, with a resolution of the complaint.

All written complaints received by the ADA Coordinator or designee and appeals to County Representatives, including their responses, will be retained by MCDOT for at least three years.

Escalation Ladder

ADA Complaint / Grievance Form

This form is to be used **ONLY** for issues on sidewalks and streets located in unincorporated Maricopa County or Programs (i.e. public meetings) operated by the Maricopa County Department of Transportation

Complainant: _____

Person Preparing Complaint (if different than Complainant): _____

Relationship to Complainant (if different than Complainant): _____

Street Address & Apartment Number: _____

City: _____ State: _____ Zip Code: _____

Phone #: _____ E-Mail: _____

Please provide a complete description of the specific complaint or grievance:

Please specify any location(s) related to the complaint or grievance (if applicable):

Please state what you think should be done to resolve the complaint or grievance:

Signature: _____ Date: _____

Return to:
Reed Kempton
Planning Project Manager
Maricopa County Department of Transportation
2901 West Durango Street, Phoenix, AZ, 85009

Upon request, reasonable accommodation will be provided in completing this form, or copies of the form will be provided in alternative formats. Contact Reed Kempton at the address listed above, via telephone (602) 506-7742 or email, Reed.Kempton@Maricopa.gov.

Appendix D: ADA Public Notice

NOTICE UNDER THE AMERICANS WITH DISABILITIES ACT

In accordance with the requirements of title II of the Americans with Disabilities Act of 1990 ("ADA"), the **Maricopa County Department of Transportation (MCDOT)** will not discriminate against qualified individuals with disabilities on the basis of disability in its services, programs, or activities.

Employment: MCDOT does not discriminate on the basis of disability in its hiring or employment practices and complies with all regulations promulgated by the U.S. Equal Employment Opportunity Commission under title I of the ADA.

Effective Communication: MCDOT will generally, upon request, provide appropriate aids and services leading to effective communication for qualified persons with disabilities so they can participate equally in MCDOT programs, services, and activities, including qualified sign language interpreters, documents in Braille, and other ways of making information and communications accessible to people who have speech, hearing, or vision impairments.

Modifications to Policies and Procedures: MCDOT will make all reasonable modifications to policies and programs to ensure that people with disabilities have an equal opportunity to enjoy all of its programs, services, and activities. For example, individuals with service animals are welcomed in MCDOT offices, even where pets are generally prohibited.

Anyone who requires an auxiliary aid or service for effective communication, or a modification of policies or procedures to participate in a program, service, or activity of MCDOT, should contact the office of **Reed Kempton at 602-506-7742 or by email at Reed.Kempton@Maricopa.gov** as soon as possible but no later than 48 hours before the scheduled event.

The ADA does not require MCDOT to take any action that would fundamentally alter the nature of its programs or services, or impose an undue financial or administrative burden.

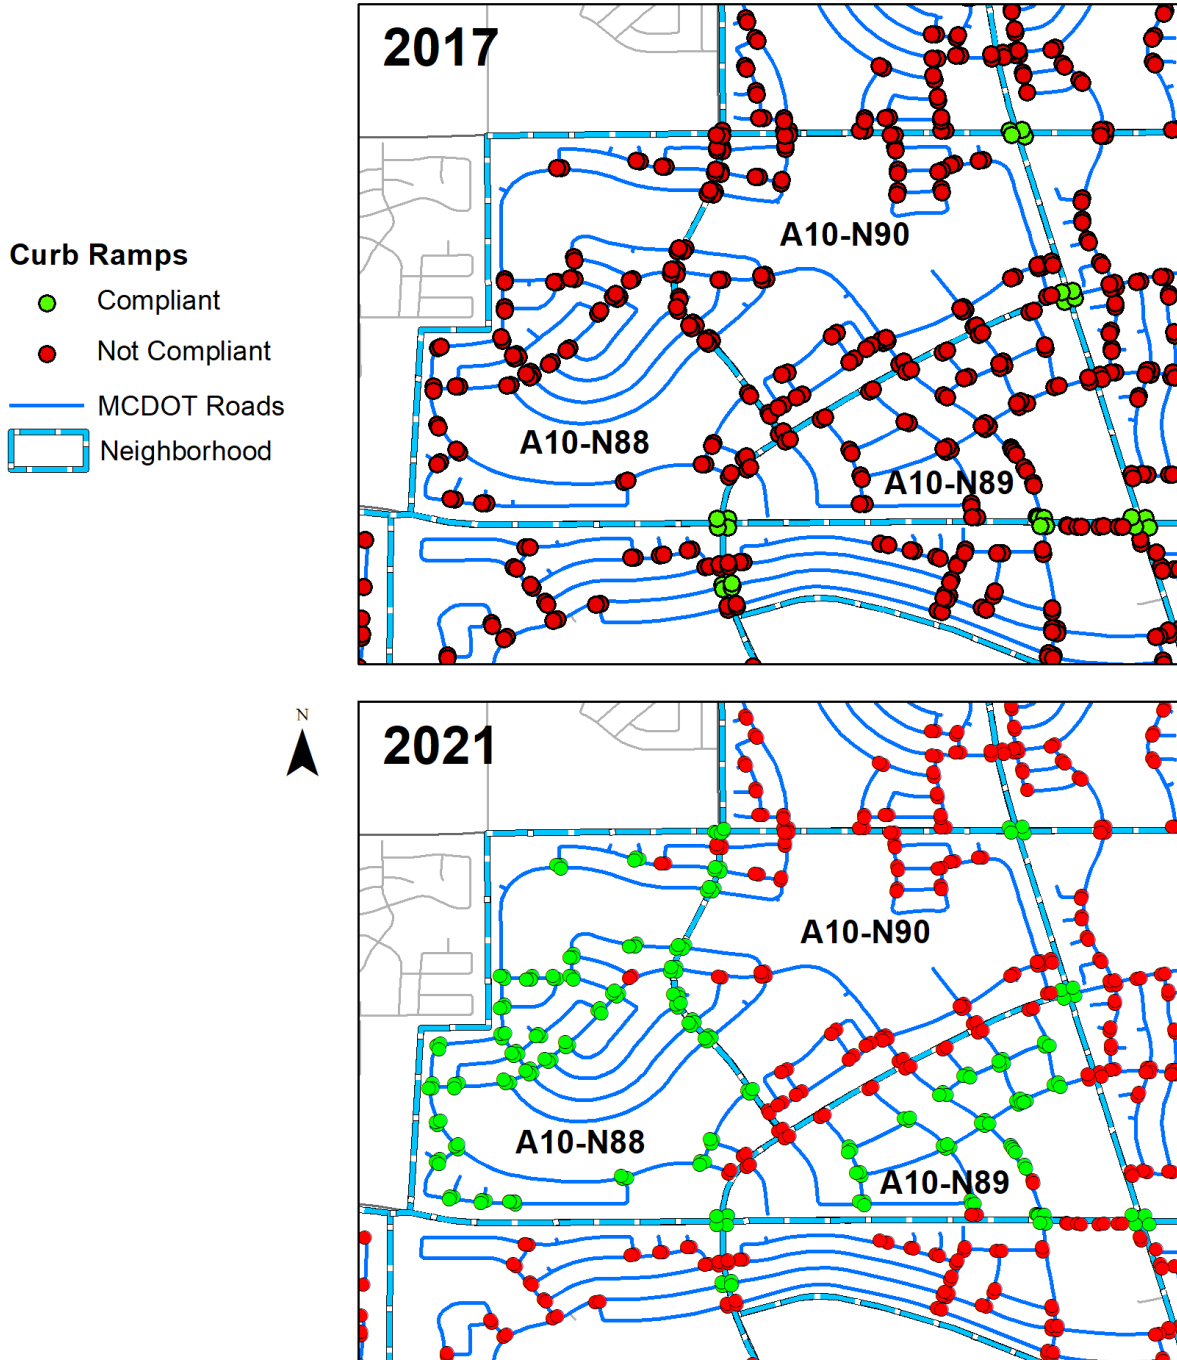

Complaints that a program, service, or activity of MCDOT is not accessible to persons with disabilities should be directed to **Reed Kempton at 602-506-7742 or by email at Reed.Kempton@Maricopa.gov**

MCDOT will not place a surcharge on a particular individual with a disability or any group of individuals with disabilities to cover the cost of providing auxiliary aids/services or reasonable modifications of policy, such as retrieving items from locations that are open to the public but are not accessible to persons who use wheelchairs.
