Ira A. Fulton Schools of Engineering

Campus: Polytechnic, Online

Program description

The Master of Science program in user experience trains you in UX research, design, content development, communication, tone of voice and evaluation of all components and products with which end users interact.

You learn how to research user needs, identify criteria for successful products and services, prototype those products and services, and refine them through usability testing and other user-centered evaluation methods.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Human Systems Engineering, BS

Human Systems Engineering (User Experience), BS

User Experience, BS

Technical Communication (User Experience), BS

Graphic Information Technology (User Experience), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a portfolio

Required Core (15 credit hours)
GIT 540 Cross-media Design Solutions (3)
HSE 542 Foundations of Human Systems Engineering (3)
TWC 501 Fundamentals of Technical Communication (3)

Choose two:
GIT 542 Usability and User Experience (3)
HSE 521 Methods and Tools in Human Systems Engineering (3)
TWC 544 User Experience (3)

Electives or Research (15 credit hours)

Culminating Experience (0 credit hours)
portfolio (0)

Additional Curriculum Information
Students should see the academic units for a complete list of approved electives and research courses. Other courses may be used with approval of the academic units.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of the Graduate College, the Ira A. Fulton Schools of Engineering, and the College of Integrative Sciences and Arts.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in related fields such as psychology, graphic information technology, graphic design, human systems engineering, business, cognitive science, design or technical communication from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in their first bachelor's degree program or the last 60 hours of their first bachelor's degree program; or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in nine semester hours of graduate coursework from a U.S. institution; or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable conferred master's degree program from a regionally accredited college or university.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• professional resume
• writing sample
• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Global Launch at ASU (https://globallaunch.asu.edu/learn-english/online-english/english-for-admission) offers an online alternative to standardized testing for international students who are seeking admission to ASU but need proof of English proficiency.

If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education is

considered, including completion of a reputable and robust certification program in user experience or user interface. Applicants are strongly encouraged to include a copy of their completed certification with their resume.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/online-user-experience-masters/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Integrate appropriate user experience principles into UX design processes.
Apply user research methods to projects to uncover usability challenges.
Evaluate designs and contexts of use to identify problems and prototype approaches for the improving user experience.
Synthesize technical information into written and visual documentation for user experience projects.

Career opportunities

Graduates have the skills to be UX professionals who effectively lead teams that constantly improve products and the lives of their users, and collaborate with clients and technical personnel.

UX is a rapidly growing field. Graduates can typically expect to find jobs in the areas of:

design research
digital visualization design
human-computer interaction
human factors research
interface design
interaction design
usability testing
user experience
user research

Interdisciplinary Arts and Sciences, New College of

Behavioral Data Science, Certificate (ASBHDSGRCT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Program description

The graduate certificate in behavioral data science offers an innovative blend of behavioral science and advanced data= science methods. The program equips you with essential skills to translate human behavior into quantifiable data for= deeper analysis. Through project-based learning, you gain practical skills, including data collection and cleaning, data= visualization and model-building --- skills that showcase your ability to address practical challenges using behavioral= data analysis.

If you come from a background in psychology or related fields, including those with minimal computing experience, this= curriculum is well suited for you. Courses emphasize hands-on data manipulation, cleaning and exploration, along with= project-based learning with compelling topics, including tree-based algorithms, deep learning and convolutional neural= networks. You learn how to apply these innovative techniques to behavioral and social data, providing you with the= critical thinking and technical skills needed in today's evolving job market.

The program aligns with ASU's charter and mission of inclusive and use-inspired research, making it an ideal choice for= you if you're looking to advance your education or enhance your professional capabilities. You engage in projects= directly applicable to in-demand fields, including health care, psychology and social data science, ensuring that your= skills are marketable and relevant.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (9 credit hours)
BDS 505 Statistical Methods (3)
BDS 511 Behavioral Data Science I (3)
BDS 512 Behavioral Data Science II (3)

Electives and Research (6 credit hours)

Additional Curriculum Information
Elective and research courses should be selected from the approved list available through the program advisor.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and= Sciences.

To be considered for the program, applicants must have earned a bachelor's or master's degree in psychology,= sociology, education or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• professional resume
• unofficial transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The statement of purpose provides the admission committee with the ability to evaluate the applicant's writing and their fit for this program. The following items should be addressed in the statement of purpose:
• Describe your career goals and how a graduate certificate in behavioral data science will help you achieve those goals.
• Behavioral data science is the application of data science and machine learning techniques to the understanding of human behavior. Briefly describe aspects of behavioral data science that most interest you.
• Briefly discuss previous experience with computation methods or willingness to engage with these methodologies.

A professional resume or CV may be included in the application materials but is not required.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Global opportunities

Global experience: Study abroad (https://goglobal.asu.edu/) is possible for graduate students, and it enables students in the psychology program to stand out in many career fields. Students are exposed to differences in the human condition worldwide, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt to new social and cultural circumstances.

Study abroad programs are offered on every continent, and more than 50 opportunities are available. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning.

Career opportunities

The graduate certificate in behavioral data science prepares graduates for a wide variety of career opportunities in areas that merge data science with psychologically grounded insights into human behavior. The program's distinct focus on advanced data science methods, machine learning and behavioral analytics equips students with the skills necessary to excel in multiple industries that rely on understanding human behavior through data-driven approaches, including academia, business, health care, education and public services.

The program's curriculum minimally overlaps with more traditional statistical training and is maximally relevant to the changing demands of the job market. This approach positions students at the forefront of technological and societal advancements, reflecting a distinct integration of data science techniques within the behavioral sciences.

Graduates are well-prepared for careers in industries focused on data-driven solutions. This program is particularly valuable for those seeking to enhance their expertise in the growing high-tech sectors in the Phoenix area, including

the West Valley, positioning them for success in fields that integrate behavioral science with data analytics.

Career opportunities for graduates of this program include:

- business intelligence analyst
- clinical data manager
- computer user support specialist
- data scientist
- educational data scientist
- operations research analyst
- social science researcher
- survey and market researcher

Biological Data Science (Biotechnology), MS (ASBDSTECMS)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Program description

The Master of Science program in biological data science with a concentration in biotechnology prepares you to become a leader at the intersection of technology, data science and the biological sciences. You develop the entrepreneurial and professional skills needed to translate scientific discoveries into innovative biotech solutions.

Courses in this concentration provide you with advanced knowledge in biostatistics, artificial intelligence and systems biology, with opportunities to specialize in public health and biomedical technologies. Additional coursework supports advanced study and research within diverse areas of specialization. Through hands-on learning and collaborations with local biotechnology organizations, you gain practical experience applying data-driven methods to improve existing technologies and drive innovation in the biotechnology sector.

This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Forensic Science, BS

Applied Computing, BS

Environmental Science, BS

Environmental Studies (Environmental Justice), BA

Biology, BA

Pharmacology and Toxicology, BS

Pharmacology and Toxicology (Environmental Studies), BS

Biotechnology and Bioenterprise, BS

Biology, BS

Applied Mathematics, BS

Environmental Studies, BA

Biology (Pharmacology/Toxicology), BS

Statistics, BS

Environmental Science (Environmental Justice), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

33 credit hours including the required capstone course (LSC 585)

Required Core (9 credit hours)
LSC 540 Foundations of Biostatistics (3)
LSC 541 Advanced Biostatistics and Machine Learning (3)
MNS 521 Artificial Intelligence (AI) Technologies (3)

Concentration (9 credit hours)
LSC 555 Molecular Biology (3)
MNS 551 Systems Biology (3)
MNS 552 Biotech Startup Foundations (3)

Laboratory Experience (3 credit hours)
LSC 547 Wet Laboratory Experience (3)

Restricted Electives (9 credit hours)
Courses in Public Health Technologies:
LSC 432 Fundamentals of Pharmacology (3)
PTX 430 Environmental and Human Toxicology (3)
PTX 432 Fundamentals of Pharmacology (3)
TPH 550 Data Science for Public Health (3)
TPH 551 Public Health Technologies (3)
TPH 552 Systems Design and Engineering for Public Health (3)

TPH 553 Health Technology and Equity (3)
TPH 554 Artificial Intelligence and Machine Learning in Public Health (3)
TPH 555 Health Communication, Behavior and Technology (3)
TPH 556 Public Health Technology Entrepreneurship, Innovation and Leadership (3)
TPH 557 Public Health Technology Ethics, Policy and Law (3)

Courses in Biological Science and Data Science:
BMD 513 Principles of Diagnostic Technology: Immunoassays (4)
BMD 514 Principles of Diagnostic Technology: Molecular Diagnostics (3)
BMI 502 Foundations of Biomedical Informatics Methods I (3)
BMI 550 Translational Bioinformatics (3)
BMI 598 Topic: Imaging Informatics and Diagnostics (3)
BMD 667 Regulation of Medical Diagnostics (3)
HCR 563 Fundamentals of Regulatory Affairs (3)
HCR 576 Drug Discovery, Development and Regulations (3)
HCR 577 Global Regulatory Affairs (3)
LSC 555 Molecular Biology (3)
LSC 598 Topic: Geospatial Data Science (3)

Culminating Experience (3 credit hours)
LSC 585 Capstone I in Biological Data Science (3)

Additional Curriculum Information

Restricted electives for this program are offered in two categories: Public Health Technologies and Biological Science and Data Science. Students are required to complete nine credit hours of restricted elective coursework by taking three courses. These courses may all be selected from a single category or combined from both, depending on the student's academic interests and career goals.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in biological sciences, mathematics, statistics, computing or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• personal statement
• professional resume
• two letters of recommendation
• proof of English proficiency

Additional Admission Information

An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

It is preferred that letters of recommendation be from faculty members who know the applicant's work well; if these are not available, letters of recommendation from individuals in supervisory or professional roles are accepted.

The statement of purpose should describe the applicant's educational background, scholarly interests, and academic and professional goals.

Depending on the applicant's educational background, additional courses may be required.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Graduates of this program are prepared for diverse careers across government agencies, private companies, regulatory bodies and clinical laboratories, including startups, global pharmaceutical leaders and federal institutions such as the NIH or the Department of Agriculture. They can pursue roles as:

- clinical analysts
- data scientists
- product development specialists
- research scientists

Having developed the skills to lead innovation and commercialize new technologies, program graduates are equipped= to contribute to trailblazing areas in biotechnology, including personalized medicine, AI platforms, intelligent drug= delivery systems, gene therapy, disease treatment and environmental applications such as geospatial and sustainable= technologies.

Biological Data Science, Certificate (ASBDSGRCT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Program description

The graduate certificate program in biological data science sits at the intersection of biology, computing, mathematics= and statistics, providing you with a valuable opportunity to develop an integrative skill set that is in high demand. You= receive hands-on training that bridges the natural and mathematical sciences.

You learn to manipulate big data, including the generation and analysis of data, using statistical and computational tool= sets. You can use your analytical skills in ecological, environmental, toxicological and other biological applications.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (6 credit hours)
LSC 540 Foundations of Biostatistics (3)
MNS 521 Artificial Intelligence (AI) Technologies (3)

Restricted Electives (9 credit hours)
ACO 501 Database Systems and Cloud Computing (3)
LSC 519 Computational Methods in Environmental Health (3)
LSC 541 Advanced Biostatistics and Machine Learning (3)
LSC 555 Molecular Biology (3)
LSC 556 Evolutionary Biology (3)
LSC 562 Applied Mathematics Techniques in Biology (3)
LSC 598 Topic: Data Science for Genomics (3)
LSC 598 Topic: Geospatial Data Science (3)
LSC 598 Topic: Marine Conservation Policy and Management (3)

Additional Curriculum Information
Restricted electives coursework may be substituted with the approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should be a maximum of 250 words and incorporate responses to the following prompts:
• Describe your academic or career goals and how a graduate certificate in biological data science will help you achieve those goals.
• Biological data science is a discipline that spans a broad range of biological topics, from molecular biology to ecology, and it uses a variety of computational methods. Please describe two aspects of biological data science that you are most interested in, and explain why.
• Optional) If any extenuating circumstances affected your undergraduate performance or affect you now, you may explain your situation. You do not need to include this information if your application meets all requirements for admission to the program.

A professional resume may be included in the application materials but is not required.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-biological-data-science) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Evaluate biological data with statistical tools to derive meaningful insights.
- Effectively communicate complex biological data and data-driven insights through oral presentations to a general audience

Career opportunities

The program's multiple levels of experiential learning prepare graduates to enter one of the fastest-growing job markets. Graduates are prepared to work in emerging areas of interdisciplinary and transdisciplinary research. They have the foundation needed to pursue a wide variety of careers that require skills in analytical reasoning, computer programming and database design in environments such as consulting firms, government agencies and nongovernmental organizations. Career fields relevant to the certificate program include:

- bioinformatics
- data management and databases
- data processing, hosting and related services
- environmental consulting
- marketing or advertising for companies with large consumer data sets
- patient data in health care contexts
- research data analysis

Graduates are also prepared to pursue advanced professional or graduate degrees.

Additional Curriculum Information
This master's degree offers a course-based option. This option is designed for individuals aiming to deepen their knowledge across various areas of biological data science without the primary emphasis on conducting original research. Although students may fulfill degree requirements through coursework alone, the program also offers a

culminating experience, such as a thesis or applied project, that delivers an advanced research opportunity. This option is particularly valuable for those aspiring for careers in research-oriented biological sciences or planning to continue their academic journey at the doctoral level. Students interested in strengthening their research expertise are highly encouraged to pursue either the thesis or the applied project.

Restricted electives for this program are offered in two categories: Mathematics, Statistics and Data Science, and Biological Sciences, Genomics and Biotechnology. Students are required to complete nine credit hours of restricted elective coursework by taking three courses. These courses may all be selected from a single category or combined from both, depending on the student's academic interests and career goals.

Course selection depends on availability and delivery format. Campus students must complete LSC 547, plus two additional Applied Computing courses. Online students must take three Applied Computing courses of their choice.

A list of preapproved elective courses is provided in the program handbook, and faculty members may approve other courses on a case-by-case basis.

Campus students typically select either an applied project or a thesis, based on their interests and career goals. Students selecting a six-credit-hour experience will not complete elective coursework. Students selecting a three-credit-hour experience will take three credit hours of elective coursework. Online students will pursue coursework only, maximizing flexibility and ensuring course content aligns with their goals.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in a related field such as biology, mathematics, statistics or computing, as well as unrelated fields from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants whose undergraduate record, academic preparation or area of study may not closely align with the program's requirements are encouraged to submit the names of up to two recommenders who can speak to their academic ability, preparation or professional potential.
It is preferred that letters of recommendation, when submitted, be from faculty members who are familiar with the applicant's work. If faculty recommendations are not available, letters of recommendation from individuals in supervisory or relevant professional roles are acceptable.

The statement of purpose should describe the applicant's educational background, scholarly interests, and academic and professional goals.

Depending on the applicant's educational background, additional courses may be required.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/biological-data-science-masters/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Evaluate biological data with statistical tools to derive meaningful insights.
- Create experimental and observational data to test scientific hypotheses
- Effectively communicate complex biological data and data-driven insights through oral presentations to a general audience

Career opportunities

The proliferation of big data sets generated in biological science fields has dramatically increased the demand for individuals with solid skill sets needed to manipulate and interpret this data.

Graduates are ready to enter one of the fastest-growing job markets to work with consulting firms and government agencies, as well as nongovernmental organizations, in data science, informatics, data analytics, database development and mathematical modeling of biological systems that are relevant to a variety of industries. They are well suited for employment in positions such as:

- bioinformatics data scientist
- chemical biology data scientist
- clinical data analyst
- computational biologist
- data engineer or data mining engineer
- database developer
- fisheries scientist, dairy scientist or animal scientist
- genomic scientist
- natural resources data scientist
- pharmaceutical scientist

Graduates also are ready to seek advanced professional or graduate degrees, such as in medical, dental, veterinary and public health fields.

Communication Studies, MA (ASCOMSTMA)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Program description

If you wish to advance in your existing career or pursue a new career as a communication professional, the Master of Arts program in communication studies is designed for you.

With emphasis on both advocacy and social technologies, the program enables you to tailor the program to your personal goals; you can focus on topics such as interpersonal, family, organizational, sport, environmental, global and intercultural communication; social media and politics; or technology-mediated interaction.

Working closely with faculty, you examine how communication improves the quality of workplaces, personal relationships, digital and face-to-face communities, public dialogues, cross-cultural interactions, and relationships between organizations and those who are influenced by their services, including citizens, customers, patients and fans. You also learn to use media and communication to advocate for yourself and others.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Social Justice and Human Rights, BA

Communication, BA

Sociology, BA

Political Science, BA

Gender, Women and Sexuality Studies, BS

Psychology, BA

Latin American Studies, BA

Sociology, BS

Interdisciplinary Arts and Performance, BA

Communication, BA

Interdisciplinary Arts and Sciences, BA

Communication, BS

Communication, BS

Social and Behavioral Sciences, BA

Psychology, BS

Biology, BA

History, BA

English, BA

Philosophy, Religion and Society, BA

Environmental Studies, BA

Global Management, BGM

Applied Science, BAS

Social and Behavioral Sciences, BS

Communication, BA

Political Science, BS
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

36 credit hours and a written comprehensive exam, or
36 credit hours including the required applied project course (CMN 593) and a written comprehensive exam, or
36 credit hours, a written comprehensive exam and a thesis

Required Core (12 credit hours)
CMN 502 Theory and Practice in Communication and Persuasion (3)
CMN 505 Methods in Applied Communication Research (3)
CMN 506 Humanistic Inquiry and Field Research in Communication (3)
CMN 522 Argumentation and Advocacy (3)

Electives (18-24 credit hours)

Culminating Experience Options (0-6 credit hours)
CMN 593 Applied Project, with written comprehensive exam (3)
CMN 599 Thesis, with written comprehensive exam (6)
written comprehensive examination (0)

Additional Curriculum Information
Electives with the CMN prefix are selected in consultation with the student's program advisor. When appropriate, students may take up to six credit hours outside the program. All electives must be approved by the student's program advisor.

The thesis or applied project must demonstrate intellectual ability, academic ability and professional growth. The thesis is supervised and approved by the student's advisor and committee. An oral defense is required for the thesis. The applied project is supervised by the student's advisor. The achievements or results of the applied project should be made available to the public in the form of a presentation, poster, report or other form negotiated with the faculty advisor.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

To be considered for admission to the program, applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• three letters of recommendation
• an academic writing sample (preferred) or professional writing sample
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The statement of purpose should describe the applicant's educational background, scholarly interests, and academic and professional goals.

Letters of recommendation from faculty members who know the applicant's work well are preferred; if faculty members are not available, the applicant may submit letters of recommendation from individuals in supervisory or professional roles.

Submission of a resume or curriculum vitae is optional.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Evaluate core concepts and theories of communication and advocacy.
- Design a research study relevant to communication.
- Construct an original argument about the relationship between communication and advocacy through the integration of disciplinary theories, course concepts, and scholarly literature.

Career opportunities

Graduates are prepared for jobs in corporate communication, journalism, mass media, social media, politics and a wide variety of other areas. They are well-positioned to pursue doctoral work or careers in many communication-driven fields, such as digital audience management, public affairs, public relations, science communication, training and employee development, strategic communication, community relations and nonprofit advocacy. Graduates are also prepared to pursue a career in higher education through the tenure track (e.g., instructor or professor at a community college or university) or the non-tenure track (e.g., lecturer, admission director, academic advisor).

Graduates already employed may find that the skills they acquired through the program are helpful for career advancement, given that some leadership positions require a master's degree. Those interested in changing careers may pursue a master's degree in communication studies to align with their particular professional goals.

Career examples include:

- fundraising manager
- human resources manager
- internal communications manager
- journalist
- learning and development analyst
- marketing account executive, consultant or research analyst
- political campaign manager or speechwriter
- sales account executive
- social media manager
- technical communication specialist
- web producer

English, MA (ASENGLMA)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Program description

The Master of Arts program in English addresses the many facets of English: its literature; its linguistic, social and cultural histories; and its capacities for persuasion, exposition and elucidation.

The program is grounded in scholarly tradition but designed for the demands of today's world. Its innovative curriculum has been developed to train you, as a present or future educator, and equips you to pursue a career in the wide variety of professions that value advanced critical thinking, research and communication skills.

World-class faculty is ready to help enhance your skill sets, deepen your knowledge bases and prepare you to put the MA in English degree to work in your chosen profession.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Social and Cultural Analysis (Ethnicity, Race and Indigenous Studies), BA

Social and Cultural Analysis (Women and Gender Studies), BA

Gender, Women and Sexuality Studies, BS

Latin American Studies, BA

Interdisciplinary Arts and Performance, BA

Social and Cultural Analysis (American Studies), BA

Disability Studies, BA

Interdisciplinary Arts and Sciences, BA

Communication, BS

History, BA

English, BA

Philosophy, Religion and Society, BA

Spanish, BA

Social and Cultural Analysis (Latin American Studies), BA

Social and Cultural Analysis (Peace Studies), BA

Social and Cultural Analysis (Queer and Sexuality Studies), BA

Applied Science, BAS

Communication, BA
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (ENG 597)

Required Core (6 credit hours)
ENG 502 Contemporary Critical Theories (3) or MAS 505 Theories of Change, Culture and Mind (3)
ENG 582 Pedagogy (3)

Electives or Research (12 credit hours)
ENG 500 Research Methods (3)
ENG 591 Seminar (3)
ENG courses (6)

Open Elective or Research Courses (9 credit hours)

Culminating Experience (3 credit hours)
ENG 597 Graduate Capstone Seminar (3)

Additional Curriculum Information
For electives or research, students should see the academic unit for the approved course list from ENG courses through New College. ENG 500 is a required research course for all students and must be included in the plan of study.

For the open elective or research courses, nine credit hours can be selected from ENG coursework offered by New College faculty. Students who wish to take ENG courses offered by faculty outside New College, or courses with a non-ENG prefix, must first receive approval from the program director.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• two letters of recommendation
• an academic writing sample (preferred) or professional writing sample
• resume or curriculum vitae (optional)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The statement of purpose should describe the applicant's educational background, scholarly interests and academic and professional goals.

It is preferred that the letters of recommendation come from faculty members who know the applicant's work well; if such faculty are not available, recommendation letters from individuals in supervisory or professional roles are acceptable.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Produce an in-depth literature review that synthesizes scholarly perspectives on a significant topic in literary studies and identifies gaps for future research.
- Design a pedagogical intervention that applies contemporary teaching and learning theory to address a specific instructional challenge.
- Design a research project that advances original scholarship in textual analysis, critical theory, or pedagogy.

Career opportunities

The ability to influence and motivate behavior through the power of well-crafted language is a skill valued in every industry that depends on customers, employees, suppliers or investors.

Graduates with a master's degree in English are able to use language to accomplish organizational goals; use advanced critical thinking abilities and advanced skills for clear and effective verbal communication; construct well-supported and persuasive arguments; and perform complex textual analysis. They are knowledgeable about historical trends in written discourse, have an awareness of the role of literary discourse in broader social and historical contexts, and have the ability to engage in big-picture thinking.

Career fields are many and varied. Examples include:

- business communication
- community college teaching
- editing
- grant writing
- journalism
- nonprofit consulting
- public relations
- publishing
- secondary education and continuing education
- technical writing
- web (content management, social media management)

Forensic Psychology, MS (ASFPSYMS)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: Online

Program description

In the Master of Science program in forensic psychology, you gain a strong foundation in psychological theory and research as well as legal decision-making and criminological theory, and you develop a basic understanding of forensic assessment. You grow an understanding of mental health issues and human behavior with respect to crime and the criminal justice and legal systems.

The program curriculum involves specialized coursework in criminal law, criminal behavior, the diagnosis and treatment of mental disorders, and legal decision-making. You learn about the various roles psychologists play in the legal system, helping you discover roles you might wish to pursue through careers in mental health or criminal justice, or through additional graduate training.

The program does not make you license-eligible for clinical practice, but you will be well prepared to pursue advanced degrees and continuing education programs in counseling and related fields.

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.
This degree is also offered as a concurrent program with the following:

Criminal Justice, MA

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Criminology and Criminal Justice (Policing), BS

Forensic Science, BS

Criminology and Criminal Justice, BS

Psychology, BA

Psychology, BS

Forensic Science (Death Investigations), BS

Psychology (Forensic Psychology), BA

Psychology (Forensic Psychology), BS
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

33 credit hours - course-based master's

Required Core (15 credit hours)
PSY 544 Advanced Psychology of Criminal Investigation (3)
PSY 545 Advanced Legal Psychology (3)
PSY 546 Advanced Forensic Psychology (3)
PSY 547 Advanced Correctional Psychology (3)
PSY 573 Psychopathology (3)

Electives (12 credit hours)

Statistics and Methods (3 credit hours)
PSY 514 Fundamentals of Forensic Psychology Research (3)

Criminal Justice System Courses (3 credit hours)
Choose one of the following:
CRJ 501 Seminar in Criminal Justice (3)
CRJ 513 Seminar in Courts and Sentencing (3)

Additional Curriculum Information
This master's degree is a course-based program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in psychology, criminal justice, social science or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• one letter of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants must provide evidence of successful completion of an undergraduate or graduate social science statistics and research methods course.

The statement of purpose should be a concise and well-written response that describes the applicant's academic or career goals and how a master's degree in forensic psychology will help them achieve those goals. The statement should also address which forensic psychology area is of interest and why.

It is preferred that the letters of recommendation come from faculty members who know the applicant's work well; if these are not available, recommendations should be from individuals in supervisory or professional roles.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-science-forensic-psychology/) for program descriptions and to request more information.

Career opportunities

The MS program in forensic psychology opens the door to a wide variety of careers. The field of forensic psychology offers career options as varied as consulting on public policy and working within the criminal justice system. Many forensic psychologists work in the court system to help lawyers, judges and juries better understand the motivations behind criminal behavior. Some graduates choose this path to advocate on behalf of underserved populations, including African Americans, Latinos, those from lower economic areas, children or those with mental illness. Additionally, the program provides a foundation for graduates pursuing doctoral degrees, which are required to become a forensic psychologist, and continuing education programs in psychology, criminology and related fields.

Career examples include:

- correctional counselor
- crime analyst
- forensic research psychologist
- forensic social worker
- investigative journalist
- jail supervisor
- jury consultant
- police consultant
- probation officer
- victim advocate

Admission deadlines (https://newcollege.asu.edu/admissions/deadlines)

Forensic Science, MS (ASFOREMS)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Program description

In the Master of Science program in forensic science, you acquire a solid foundation in the forensic sciences while applying innovative research to make a meaningful impact in the scientific community. You receive extensive, hands-on experience and in-depth knowledge in various forensic disciplines. While engaging in faculty-led research projects that encompass a wide variety of forensic science topics, you develop practical skills and contribute to state-of-the-art research.

The curriculum cultivates a strong scientific mindset, focusing on critical thinking, problem-solving and analytical skills essential for careers in forensic science. Courses include advanced topics such as forensic chemistry, forensic biology, crime scene investigation and legal aspects of forensic science. These courses are complemented by laboratory work and field experiences, ensuring that you gain practical skills and industry knowledge.

In addition to coursework, you have the opportunity to work closely with faculty members who are experts in their respective fields. This mentorship enables you to gain valuable insights into current research trends and techniques, fostering an environment of collaboration and innovation. The program also emphasizes the importance of ethical considerations and professional standards in forensic science, preparing you to navigate the complexities of the criminal justice system. You are well-positioned to make significant contributions to advancements in forensic science and contribute meaningfully to the field.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Forensic Science, BS

Biology, BA

Pharmacology and Toxicology, BS

Forensic Science (Death Investigations), BS

Biology, BS

Biology (Pharmacology/Toxicology), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

32 credit hours and a thesis, or
32 credit hours including the required applied project course (FOR 593)

Required Core (8 credit hours)
FOR 505 Advanced Forensic Biology (3)
FOR 506 Advanced Forensic Biology Laboratory (1)
FOR 507 Advanced Forensic Chemistry (3)
FOR 508 Advanced Forensic Chemistry Laboratory (1)

Other Requirements (4 credit hours)
FOR 500 Research Methods (3)
FOR 591 Seminar (1)

Research (6 credit hours)
FOR 592 Research (6)

Electives (8 credit hours)

Culminating Experience (6 credit hours)
FOR 593 Applied Project (6)
FOR 599 Thesis (6)

Additional Curriculum Information
The approved topic for FOR 591 Seminar is Application of Forensic Science Research. Elective coursework is made up of ASB, ASM, FOR and LSC courses, which should be selected in consultation with the program advisor. Students complete either an applied project or a thesis for their culminating experience.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in forensic science, chemistry, biology, physics, anthropology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• two letters of recommendation
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Required program coursework assumes an understanding of upper-division-level analytical chemistry, forensic chemistry, biochemistry, forensic biology or molecular biology. It is strongly recommended that applicants have successfully completed upper-division courses in these topics.

It is preferred that letters of recommendation come from faculty members who know the applicant's work well; if this is not possible, letters of recommendation from individuals in supervisory or professional roles are accepted.

The statement of purpose should describe the applicant's educational background, scholarly interests, and academic and professional goals.

Job applicants and students seeking a volunteer or internship position within a crime lab are required to undergo an extensive background check that includes a polygraph exam, fingerprinting and drug testing. Possible reasons for applicant disqualification include current or past illicit drug use (including marijuana), felony convictions and drunk driving convictions.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Analyze DNA results using accurate application of techniques in a laboratory setting.
- Analyze chemical and analytical evidence using accurate application of techniques in a chemistry laboratory setting.
- Develop a research question in the field of forensic science.

Career opportunities

Scientific and technological advances in the field of forensic science and continually increasing caseloads in law enforcement are projected to increase the number of forensic science technicians needed over the next decade.

Graduates of this program are well prepared for a variety of career paths. They may pursue employment in the field immediately after graduation; the skills and knowledge gained through the program also provide a strong foundation for those interested in further academic research or teaching positions.

Graduates may pursue roles in crime laboratories, law enforcement agencies, legal firms and private forensic consulting firms. They are well suited for employment in positions such as:

- crime scene lab analyst
- crime scene technician
- DNA analyst
- fingerprint technician
- forensic chemist
- forensic science technician
- forensic scientist
- toxicology-based professional

Forensic Science, PSM (ASFRSCIPSM)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: Online

Program description

The Professional Science Master's program in forensic science prepares you for career advancement by providing you with in-depth and broad educational coverage in the forensic sciences and helps you develop new competencies related to laboratory supervision. This includes an understanding of how to work with regulatory bodies that provide the framework for oversight in forensic laboratories, consistent with the guiding principles of the National Professional Science Master's Association.

You develop deeper scientific inquiry skills in biology, chemistry, genetics and related topics, as well as critical laboratory leadership skill sets.

As a successful graduate, you'll be equipped with the tools and experiences required for administrative and other advancement opportunities within and beyond the forensic science laboratory in both government and private sectors.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours - course-based master's

Required Core (9 credit hours)
FOR 525 Forensic Science and Governance (3)
FOR 550 Ethics in Forensic Science (3)
FOR 565 Laboratory Leadership, Policy and Practice (3)

Other Requirement (18 credit hours)
FOR 501 Forensic Toxicology (3) or FOR 598 Topic: Forensic Controlled Substance (3)
FOR 540 Advanced Topics in Human Forensic DNA Typing (3)
FOR 560 Quantitative Methods in Forensic Science Research (3)
FOR 598 Topic: Forensic Firearms (3)
FOR 598 Topic: Forensic Latent Prints (3)
SIF 598 Topic: Legal Reasoning and Principles for Behavioral and Forensic Scientists (3)

Restricted Electives (3 credit hours)
CRJ 574 Executive Leadership Principles (3)
FOR 502 Advanced Forensic Botany (3)

FOR 503 Forensic Entomology (3)
FOR 598 Topic: Forensic Crime Scene (3)
PSY 546 Advanced Forensic Psychology (3)

Additional Curriculum Information
This master's degree is a course-based program. For restricted elective coursework, students select one of the listed courses in consultation with their program advisor.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in an appropriate physical, biological or computer science or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The statement of purpose should describe the applicant's educational background, scholarly interests, and academic and professional goals.

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/forensic-science-psm/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Calculate statistical weights for evidentiary findings across multiple forensic disciplines.
- Evaluate forensic governance by considering its current state and application to forensic laboratories
- Develop a conclusion based on investigation of scientific forensic data.

Career opportunities

The PSM program in forensic science provides leadership training in the field of forensic science to practicing professionals in science and forensic science, criminalistics and medical examiner offices; to office personnel; and to members of the law enforcement and legal communities. Program graduates have the skills and experience to pursue a new career path or to advance in their current careers. Graduates with a master's degree in forensic science have gone on to careers that include jobs such as:

- biomedical researcher
- crime or forensic laboratory director, manager or supervisor
- crime scene investigator
- forensic anthropologist
- forensic engineer
- forensic nurse
- forensic scientist or criminalist
- forensic toxicologist
- law enforcement officer or supervisor
- military service member
- pharmaceutical researcher

Some graduates go on to professional schools and further graduate education, including Doctor of Philosophy= programs.

Human Factors in Forensic Science, Certificate (ASHFFSGRCT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: Online

Program description

Human factors that involve motivational and cognitive biases can undermine justice by negatively affecting the= collection, analysis and interpretation of forensic evidence. By accounting for human factors, forensic examiners can= enhance the objectivity and accuracy of their work.

The certificate program in human factors in forensic science offers you an interdisciplinary education, a foundation in= advanced research in human factors, and the skills to make a meaningful impact in the field. The curriculum features= specialized coursework at the intersection of psychology and forensic science, fostering a comprehensive= understanding of the impact of human factors on the forensic sciences. Courses focus on the way that limitations in= human cognition can adversely affect the collection, analysis and interpretation of physical forensic evidence, and on= identifying practical solutions to these problems.

You have the opportunity to join an exciting group of faculty and learn about the importance of human factors in= promoting justice.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (12 credit hours)
FOR 525 Forensic Science and Governance (3)
PSY 506 Advanced Cognitive Science (3)
PSY 514 Fundamentals of Forensic Psychology Research (3)
PSY 562 Advanced Human Factors (3)

Other Requirements (3 credit hours)
FOR 598 Special Topics (3) or
PSY 598 Special Topics (3)

Additional Curriculum Information
The approved topic for FOR/PSY 598 is Psychology of Forensic Decision Making. Students take the course once for three credit hours. The course can be substituted with department approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in forensic science, psychology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/human-factors-forensic-science/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Evaluate the limitations of human cognition in decision-making in the context of currently used forensic techniques.
- Formulate best-practice recommendations to mitigate the limitations of human cognition on forensic decision-making.

Career opportunities

Graduates of the certificate program in human factors in forensic science have developed skills and knowledge that enable them to perform their jobs more effectively and that can be applied in a variety of professional settings within the field. Many job opportunities are available to graduates, including these positions:

- crime scene investigator
- expert witness
- forensic technician

Industrial and Organizational Psychology, Certificate (ASIOPGRCT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: Online

Program description

In the graduate certificate program in industrial and organizational psychology, you become well versed in= transformational workplace empowerment strategies and interventions that can lead to the optimal well-being and= performance of individuals within organizations.

The foundational coursework uses concepts in psychology to emphasize training and development, professional= motivation, decision-making, justice and leadership. You engage in a rigorous curriculum that fosters advanced writing= and critical thinking skills to promote competence in theoretical frameworks within psychology. As part of the program,= you also conduct industrial and organizational psychology research.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (15 credit hours)
PSY 508 Choice and Decision Making (3)
PSY 509 Advanced Industrial and Organizational Psychology (3)
PSY 510 Professional Motivation and Leadership (3)
PSY 511 Psychology of Organizational Development (3)
PSY 556 Cultural Intelligence (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and= Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology or a

related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• one letter of recommendation
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

It is recommended that applicants have a background in psychology, sociology, communication, business, education or another closely related field. Required program coursework assumes a basic understanding of social science statistics and research methods. It is strongly recommended that applicants have completed a statistics course or a research methods course.

The statement of purpose should be concise and describe the applicant's academic or career goals and how a graduate certificate in industrial and organizational psychology will help them achieve those goals.

It is preferred that the letter of recommendation come from a faculty member who knows the applicant's work well; if this is not possible, the recommendation should come from an individual in a supervisory or professional role.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/industrial-organizational-psychology-certificate) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Analyze the theories and key concepts related to industrial/organizational psychology.
- Apply appropriate strategies to organizations to enhance productivity, inclusivity, and employee well-being.

Global opportunities

Global experience: Study abroad (https://goglobal.asu.edu/) is possible for graduate students, and it enables students in the psychology program to stand out in many career fields. Students are exposed to distinct differences in the human condition worldwide, are able to improve their language and cross-cultural skills for effective communication, and are challenged to adapt to new social and cultural circumstances.

More than 50 program opportunities are available, with programs on every continent. Faculty-directed programs tend to be the best fit for graduate students; taking courses with ASU professors over the summer or during academic

breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning.

Career opportunities

Graduates leave this program with a broad understanding of industrial and organizational psychology. They may pursue careers in psychology, education, business or government. In addition, the industrial and organizational coursework benefits graduates working in supervisory or management positions in corporate, government or social service professions.

The certificate can benefit those in positions such as:

- assessment development specialist
- data scientist
- human resource specialist
- people science and strategy manager
- product manager
- psychometric analyst
- service and testing supervisor
- workforce planning manager

Interdisciplinary Studies, MA (ASINTERMA)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

ASU is not currently accepting new students to this program.

Program description

The Master of Arts degree in interdisciplinary studies is an innovative program in which you learn how to use two or more disciplines in an integrative method that leads to new discoveries. Founded on the conviction that solving today's problems often requires an interdisciplinary approach, this flexible program provides study of interdisciplinary and transdisciplinary perspectives, interdisciplinary research methods, and modes of inquiry and practice.

The program consists of three required MAS courses, six courses of your choice and a capstone the final semester, and gives you access to faculty members who are active practitioners of interdisciplinary inquiry. Working with the faculty, you may define your own area of emphasis or adopt an existing area within the humanities, arts and social sciences.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Sociology, BA

Political Science, BA

Gender, Women and Sexuality Studies, BS

Psychology, BA

Sociology, BS

Interdisciplinary Arts and Performance, BA

Interdisciplinary Arts and Sciences, BA

Communication, BS

Social and Behavioral Sciences, BA

Psychology, BS

History, BA

English, BA

Philosophy, Religion and Society, BA

Applied Science, BAS

Social and Behavioral Sciences, BS

Communication, BA

Political Science, BS
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (MAS 585)

Required Core (9 credit hours)
MAS 501 Methods for Interdisciplinary Inquiry (3)
MAS 502 Perspectives in Interdisciplinary Studies (3)
MAS 505 Theories of Change, Culture and Mind (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)
MAS 585 Capstone Course (3)

Additional Curriculum Information
The core courses are designed as a sequence meant to guide students through the program, from learning about interdisciplinarity to practicing interdisciplinary research. Therefore, students are required to take each of the core courses the first time that they are available while the student is enrolled in the program.

For electives, students work with a faculty mentor to select 18 credit hours of graduate-level coursework that helps prepare them for their capstone course or reflects particular areas of specialty or interest.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• two letters of recommendation
• an academic writing sample (preferred) or professional writing sample
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The statement of purpose should describe the applicant's educational background, scholarly interests, and academic and professional goals.

It is preferred that the letters of recommendation come from faculty members who know the applicant's work well; if faculty are not available, the recommendations should come from individuals in supervisory or professional roles.

Submission of a resume or curriculum vitae is optional.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

The program's emphasis on a variety of research methods and modes of inquiry increases graduates' value to many organizations. They reach their professional goals in a multitude of industries and organizations, including advertising and marketing, nonprofit leadership and media production, museum curatorship, community college teaching and modern entrepreneurship.

Career examples include:

- archivist
- area, ethnic and cultural studies teacher or professor
- education administrator
- high school teacher
- human resources manager
- interdisciplinary research specialist
- market research analyst or marketing specialist
- nonprofit manager
- professor
- research consultant

The skills and knowledge that graduates have acquired can be directed toward doctoral study or professional goals in any enterprise that engages in research, entrepreneurship or education.

Law and Psychology, PHD (ASLPSYPHD)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: Downtown Phoenix, West Valley

Program description

The Doctor of Philosophy program in law and psychology takes a broad interdisciplinary approach to train you to be part of a new generation of scholars. The program combines rigorous training in the law and psychology field with training in advanced research methodology and statistics, criminological theory, and contextual training in other subfields of psychology.

The goal is for you to use this knowledge to tackle the many important but understudied areas within the legal system that are in desperate need of empirical psychological research.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (6 credit hours)
PSY 515 Quantitative Analysis I (3)
PSY 516 Quantitative Analysis II (3)

Required Research and Methodologies Sequence (18 credit hours)
PSY 500 Research Methods (3)
PSY 792 Research (15)

Advanced Statistics Course (3 credit hours)
Students select one from the following:
BDS 511 Behavioral Data Science I (3)
BDS 512 Behavioral Data Science II (3)
PSY 517 Quantitative Analysis III (Multivariate) (3)
PSY 533 Structural Equation Modeling (3)
PSY 537 Longitudinal Growth Modeling (3)
PSY 539 Multilevel Models for Psychological Research (3)

Substantive Courses (9 credit hours)
Students select three from the following:
PSY 598 Special Topics: Psychology of Forensic Decision Making (3)
PSY 621 Seminar on Psychology of Criminal Evidence and Investigation (3)
PSY 623 Seminar on Psychology of Legal Decisions and Processes (3)
PSY 625 Seminar on Mental Health and the Law (3)
PSY 627 Seminar on Child Well-being Across Legal Systems (3)

Theory Courses (6 credit hours)
Students select two from the following:
PSY 506 Advanced Cognitive Science (3)
PSY 550 Advanced Social Psychology (3)
PSY 577 Advanced Developmental Psychology (3)
PSY 691 Seminar: Theory and Foundations of Intervention Science (3)
PSY 691 Seminar: Biopsychosocial Influences and the Law (3)

Legal Systems and Principles Course (3 credit hours)
Students select one from the following:
CRJ 513 Seminar in Courts and Sentencing (3)
CRJ 537 Criminal Procedure of Investigations for Social and Forensic Scientists (3)
CRJ 538 Criminal Law and Social Control (3)
SIF 598 Special Topics: Legal Reasoning and Principles for Behavioral and Forensic Scientists (3)

Professional Development (3 credit hours)
PSY 691 Seminar: Professional and Ethical Issues in Law and Psychology (1)
PSY 691 Seminar: Pedagogy and Practice: Law and Psychology (1)
PSY 691 Seminar: Preparing for the Job Market (1)

Electives (24 credit hours)

Culminating Experience (12 credit hours)
PSY 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology, criminal justice, social science, or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current

residency.

GRE General test scores are optional and recommended only if the applicant believe they will strengthen the application. GRE subject tests are not required. ASU does not accept the GRE® General Test at-home edition.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Plan original research grounded in the legal and psychological literature.
- Execute an original, independent scholarly contribution to the field of law and psychology.
- Employ professional and ethical research principles in their scholarly work.

Career opportunities

Graduates are sought-after for their distinct skill sets that combine the complexities of law and justice with human behavior. Careers can be pursued in government, academia or private enterprise.

Career examples include:

- academic researcher or instructor as a college or university professor
- criminal justice data analyst
- government or nonprofit researcher and evaluator
- legal policy researcher and evaluator
- legal or trial consultant
- mental health policy analyst or consultant
- postdoctoral research fellow

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu) for program descriptions and to request more information.

Career opportunities

The foundational knowledge in psychology gained through the program can support students in a wide variety of professional contexts. Concepts related to human behavior, decision-making, and well-being are broadly applicable and may enhance students¿ effectiveness in fields such as:

- community services
- education
- human resources
- organizational development

In this way, while the program's central role is as a pathway to admission for graduate study, it also provides students with insights that can contribute positively to their current or future careers.

Psychology (Data Science), MS (ASPSYDTSMS)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

This program has a fee pending ABOR approval.

Program description

The Master of Science program in psychology with a concentration in data science offers you an innovative blend of behavioral science and advanced data science methods. The program equips you with essential skills to translate human behavior into quantifiable data for deeper analysis. Through project-based learning, you gain practical skills, including data collection and cleaning, data visualization and model-building --- skills that showcase your ability to address practical challenges using behavioral data analysis.

If you come from a background in psychology or related fields, including those with minimal computing experience, this curriculum is well suited for you. Courses emphasize hands-on data manipulation, cleaning and exploration, along with project-based learning with compelling topics, including tree-based algorithms, deep learning and convolutional neural networks. You learn how to apply these innovative techniques to behavioral and social data, providing you with the critical thinking and technical skills needed in today's evolving job market.

The program is an ideal choice if you are looking to advance your education or enhance your professional capabilities. You engage in projects directly applicable to in-demand fields, including health care, psychology and social data science, ensuring your skills are marketable and relevant. The program offers a distinct educational experience that minimally overlaps with more traditional statistical training and is maximally relevant to the evolving demands of the job market. This approach positions you at the forefront of technological and societal advancements, reflecting a unique integration of data science techniques within the behavioral sciences.

You are well-prepared for careers in industries focused on data-driven solutions. This concentration is particularly valuable if you are seeking to enhance your expertise in the growing high-tech sectors, positioning you for success in fields that integrate behavioral science with data analytics.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Psychology, BA

Psychology, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (BDS 553)

Required Core (3 credit hours)
PSY 502 Professional Issues in Psychology (3)

Methods and Statistics (6 credit hours)
BDS 500 Research Methods (3)
BDS 505 Statistical Methods (3)

Concentration (9 credit hours)
BDS 511 Behavioral Data Science I (3)
BDS 512 Behavioral Data Science II (3)
PSY 506 Advanced Cognitive Science (3)

Electives (9 credit hours)

Culminating Experience (3 credit hours)
BDS 553 Behavioral Data Science Capstone (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology, sociology, education and related fields from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• one letter of recommendation
• personal statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL® (iBT) or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

Related fields include those that have a background in psychology, data science, sociology, business or education. Required program coursework assumes a basic understanding of social science statistics and research methods. It is strongly recommended that applicants have completed a statistics course or a research methods course.

It is preferred that the letter of recommendation come from a faculty member who knows the applicant's work well; if this is not possible, the recommendation should come from an individual in a supervisory or professional role.

The statement of purpose should be a concise and well-written response that describes the applicant's academic or career goals, and how a master's degree in psychology with a concentration in data science will help them achieve those goals.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Global opportunities

Global experience: Study abroad (https://goglobal.asu.edu/) is possible for graduate students, and it allows students in the psychology program to stand out in many career fields. Students are exposed to unique differences in the human condition worldwide, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt to new social and cultural circumstances.

There are more than 50 program opportunities, with programs on every continent. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers close mentorship and professional network growth in many fields of study while earning ASU credit. Exchange program participation is also possible with careful planning.

Career opportunities

Graduates of the concentration program in data science are prepared for a wide range of career opportunities in areas that merge data science with psychologically grounded insights into human behavior. The program's unique focus on advanced data science methods, machine learning and behavioral analytics have equipped graduates with the skills necessary to excel in multiple industries that rely on understanding human behavior through data-driven approaches, including academia, business, health care, education and public services. Career opportunities for graduates of this program include:

- business intelligence analyst
- clinical data manager
- computer user support specialist
- data scientist
- educational data scientist
- operations research analyst
- social science researcher
- survey and market researcher

Psychology (Industrial and Organizational Psychology), MS (ASPGSIOPMS)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: Online

Program description

The Master of Science program in psychology with a concentration in industrial and organizational psychology educates you to be well-versed in workplace empowerment strategies and interventions that are transformational and can lead to the optimal well-being and performance of individuals within organizations.

The core coursework uses concepts in psychology to emphasize training and development, professional motivation, decision-making, justice and leadership. You engage in a rigorous curriculum that fosters advanced writing skills, critical thinking and analytical skills to promote competence in understanding theoretical, methodological, and statistical frameworks within psychology and industrial and organizational psychology research.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Psychology, BA

Psychology (Positive Psychology), BS

Psychology, BS

Psychology (Industrial and Organizational Psychology), BA

Psychology (Positive Psychology), BA

Psychology (Industrial and Organizational Psychology), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours - course-based master's

Required Core (3 credit hours)
PSY 502 Professional Issues in Psychology (3)

Concentration (12 credit hours)
PSY 508 Choice and Decision Making (3) or PSY 550 Advanced Social Psychology (3)
PSY 509 Advanced Industrial and Organizational Psychology (3)
PSY 510 Professional Motivation and Leadership (3)
PSY 556 Cultural Intelligence (3)

Research and Statistics (6 credit hours)
PSY 500 Research Methods (3)
PSY 513 Fundamentals in Quantitative Methods (3)

Electives (9 credit hours)

Additional Curriculum Information
This degree is a course-based master's program. Elective coursework should be selected in consultation with the program advisor.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in psychology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• one letter of recommendation
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

It is recommended that applicants have a background in psychology, sociology, communication, business, education or another closely related field. Required program coursework assumes a basic understanding of social science statistics and research methods. It is strongly recommended that applicants have completed a statistics course or a research methods course.

The statement of purpose should be a concise and well-written response that describes the applicant's academic or career goals and how a master's degree in psychology with a concentration in industrial and organizational psychology will help them achieve those goals.

It is preferred that the letter of recommendation come from a faculty member who knows the applicant's work well; if this is not possible, the recommendation should come from an individual in a supervisory or professional role.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/industrial-organizational-masters/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Construct effective written documents in the area of industrial-organizational psychology.
Critically evaluate the statistics and methods of research studies in psychology research literature.
Critically evaluate the ethical aspects of research studies in psychology research literature.
Critically evaluate industrial and organizational psychology strategies and interventions that increase or enhance workplace competencies and performance of individuals and organizations.

Global opportunities

Global experience: Study abroad (https://goglobal.asu.edu/) is possible for graduate students, and it enables students in the psychology program to stand out in many career fields. Students are exposed to unique differences in the human condition worldwide, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt under new social and cultural circumstances.

There are more than 50 program opportunities available, with programs on every continent. Faculty-directed programs tend to be the best fit for graduate students. Exchange program participation is also possible with careful planning.

Career opportunities

Graduates leave this program with a broad understanding of industrial and organizational psychology. They may pursue careers in psychology, education, business, consulting or government. In addition, the industrial and organizational coursework benefits graduates working in supervisory or management positions in corporate, government or social service professions.

Careers in which the industrial and organizational psychology concentration is beneficial include:

- assessment development specialist
- data scientist
- human resource specialist
- people science and strategy manager
- product manager
- psychometric analyst
- service and testing supervisor
- workforce planning manager

Psychology (Positive Psychology), MS (ASPGSPPMS)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Program description

In the Master of Science program in psychology with a concentration in positive psychology, you are prepared to apply your knowledge and skills to find meaning and fulfillment in your own life as well as contribute to transformational practices in communities and organizations that can lead to optimal well-being and more harmonious, equitable and inclusive societies.

Through the lens of historical and contemporary research in positive psychology, you gain a solid grounding in the basic tenets of the field, the methodologies employed, and the development and effectiveness of interventions that seek to improve people's lives and enable them to thrive. Coursework emphasizes a theoretical, evidence-based and experiential focus on key factors that contribute to psychological well-being and optimal functioning, such as gratitude, joy, love, optimism, inspiration, compassion, creativity, resilience and mindfulness.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Psychology, BA

Psychology (Positive Psychology), BS

Psychology, BS

Psychology (Industrial and Organizational Psychology), BA

Psychology (Positive Psychology), BA

Psychology (Industrial and Organizational Psychology), BS
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (PSY 553)

Required Core (3 credit hours)
PSY 502 Professional Issues in Psychology (3)

Research and Statistics (6 credit hours)
PSY 500 Research Methods (3)
PSY 513 Fundamentals in Quantitative Methods (3)

Concentration (12 credit hours)
PSY 550 Advanced Social Psychology (3) or PSY 577 Advanced Developmental Psychology (3)
PSY 565 Psychology of Mindfulness (3)
PSY 585 Advanced Positive Psychology (3)
PSY 586 Emotion (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)
PSY 553 Capstone in Psychology (3)

Additional Curriculum Information
Students are enrolled in a section of PSY 553 designated specifically for the positive psychology concentration. The capstone project requires students to synthesize and organize the prior research related to a positive psychology intervention, identify a gap in the prior research, and develop a research study proposal that addresses the identified gap.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirement of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in psychology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose

• one letter of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

It is recommended that applicants have a background in psychology, sociology, business, education or another closely related field. Required coursework assumes a basic understanding of social science statistics and research methods. It is strongly recommended that applicants have completed a statistics course or a research methods course.

The statement of purpose should be concise and outline the applicant's academic or career goals and describe how a master's degree in psychology with a concentration in positive psychology will help them achieve those goals.

It is preferred that the letter of recommendation come from a faculty member who knows the applicant's work well; if this type of reference is not available, the recommendation should be from an individual in a supervisory or professional role.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/positive-psychology-masters/) for program descriptions and to request more information.

Global opportunities

Global experience: Studying abroad (https://goglobal.asu.edu/) is possible for graduate students, and it enables students in the psychology program to stand out in many career fields. Students are exposed to distinct differences in the human condition worldwide, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt under new social and cultural circumstances.

There are more than 50 program opportunities, with programs on every continent. Faculty-directed programs tend to be the best fit for graduate students. Taking courses with ASU professors over the summer or during academic breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning.

Career opportunities

Graduates leave the program with an in-depth understanding of this growing field. They may pursue professional research careers in psychology, education, health care or marketing. In addition, the positive psychology coursework benefits graduates working in supervisory or management positions, in training or teaching roles, or in any social services profession.

Possible opportunities include:

- equity and inclusion officer
- individual life coach
- positive coach in sports or organizations
- positive psychology research assistant
- social and community services manager

Graduates can also find careers in the following industries:

- business --- sales and marketing manager, human resources manager, employee assistance program manager
- community health and wellness professions --- prevention specialist, youth development specialist, community health educator
- education --- high school psychology teacher, character strengths educator
- government --- health and wellness policy specialist, state department of public health or mental health program coordinator
- social services --- family interventionist, warm line worker, occupational analyst

Psychology (Sport Psychology), MS (ASPGSSPMS)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Program description

The Master of Science program in psychology with a concentration in sport psychology prepares you to apply knowledge and skills to work toward the health and achievements of individuals in a sport setting along with more harmonious, equitable and inclusive societies.

Through an interdisciplinary lens that includes psychology, communication and health, the core coursework emphasizes multiple theoretical perspectives and applications of sport psychology, culture and diversity in sports, and the cultural significance of sport fandom. Electives provide you with the flexibility to focus on areas important to your professional interests. The faculty in the sport psychology concentration are committed to providing an engaging curriculum that fosters advanced writing, critical thinking and analytical skills, and promotes competence in understanding theoretical, methodological and statistical frameworks within psychology and sport psychology research.

This program is not designed to prepare you for clinical practice. Opportunities to prepare for licensure exams aren't available through this program.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Psychology, BA

Psychology (Positive Psychology), BS

Psychology, BS

Psychology (Industrial and Organizational Psychology), BA

Psychology (Positive Psychology), BA

Psychology (Industrial and Organizational Psychology), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours - course-based master's, or
30 credit hours including the required capstone course (PSY 553)

OPTION WITH CULMINATING EXPERIENCE

Required Core (3 credit hours)
PSY 502 Professional Issues in Psychology (3)

Concentration (6 credit hours)
KIN 520 Applied Sport Psychology (3)
PSY 557 Perspectives in Sport Psychology (3)

Other Requirement (3 credit hours)
KIN 598 Topic: Performance Consulting Skills and Strategies (3)

Research and Statistics (6 credit hours)
PSY 500 Research Methods (3)
PSY 513 Fundamentals in Quantitative Methods (3)

Electives (9 credit hours)

Culminating Experience (3 credit hours)
PSY 553 Capstone in Psychology (3)

COURSE-BASED OPTION

Required Core (3 credit hours)
PSY 502 Professional Issues in Psychology (3)

Concentration (6 credit hours)
KIN 520 Applied Sport Psychology (3)
PSY 557 Perspectives in Sport Psychology (3)

Other Requirement (3 credit hours)
KIN 598 Topic: Performance Consulting Skills and Strategies (3)

Research and Statistics (6 credit hours)
PSY 500 Research Methods (3)
PSY 513 Fundamentals in Quantitative Methods (3)

Electives (12 credit hours)

Additional Curriculum Information
This master's degree offers a course-based option and a capstone course option. A course-based option may be ideal for students seeking practical knowledge and applied skills without the time commitment of a large independent project. Students who pursue a course-based option will take an additional elective related to their specific area of interest.

Students who select the capstone take nine credit hours and complete an independent project.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in psychology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• one letter of recommendation
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

It is recommended that applicants have a background in psychology, sociology, communication, kinesiology, nutrition or a closely related field. It is strongly recommended that applicants have completed a statistics course or a research methods course.

The statement of purpose should be a concise and well-written response that describes the applicant's academic or career goals and how a master's degree in psychology with a concentration in sport psychology will help them achieve those goals.

It is preferred that the letter of recommendation come from a faculty member who knows the applicant's work well; if this is not possible, the recommendation should be from an individual in a supervisory or professional role.

Admission deadlines (https://newcollege.asu.edu/admissions/deadlines)

Psychology, MS (ASPGSMS)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Program description

The Master of Science degree in psychology is available in two modalities (campus or digital immersion) with different culminating experience options (thesis, applied project or capstone).

Campus immersion
If you are completing a thesis or applied project as your culminating experience, you receive hands-on training through a research mentorship model. That is, you receive training in advanced research methodology and statistical analysis through rigorous coursework and by conducting research. For example, you gain experience developing research questions, designing studies, collecting and analyzing data, and preparing presentations and manuscripts. You also gain firsthand exposure to grant proposal writing and are encouraged to present research findings at professional conferences and publish as co-authors in faculty-guided research. This option culminates with the completion of a thesis or applied project and is ideal if you plan to pursue doctoral work in psychology or related fields or careers that involve psychological research methods, such as marketing research, education research analysis, public policy analysis, or research project management.

If you are completing a capstone in behavioral data science as your culminating experience, you receive training in the analytical, computational and theoretical skills needed to apply data science methods to behavioral research and real-world problems. Specifically, you engage in hands-on project-based learning through rigorous coursework in research methodology, statistical modeling, programming and the communication of scientific findings. This option culminates in a capstone course that showcases your applied data science skills through a public-facing deliverable that

demonstrates both conceptual understanding and technical fluency, such as a data science portfolio, technical report, or extended analysis. It's ideal if you plan to pursue careers in user experience research, health data analytics, government and nonprofit sectors, or doctoral study in psychology, cognitive science, informatics and related fields.

Digital immersion
The online program modality gives you an understanding of psychological theory and empirical research findings as they relate to human behavior, cognition, emotion and attitudes. The coursework helps you learn about the various roles of psychologists in society today and discover which you might like to pursue. The online curriculum is focused on applications of knowledge gained from psychological science rather than conducting research as an explicit part of the curriculum, and you are not typically provided with hands-on research opportunities. The online program culminates with a capstone course.

The campus immersion and online modalities both offer elective courses in several areas, including psychological disorders and psychopathology, affective science, cognitive psychology, cognitive science, neuroscience, developmental psychology, health psychology, legal psychology, physiological psychology and social psychology.

This program is not designed to prepare you for clinical practice. While a stepping stone to further clinically-oriented programs, opportunities to prepare for licensure exams aren't available through this degree program.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Psychology, BA

Psychology (Positive Psychology), BS

Psychology, BS

Psychology (Industrial and Organizational Psychology), BA

Psychology (Positive Psychology), BA

Psychology (Industrial and Organizational Psychology), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

36 credit hours and a thesis, or
36 credit hours including the required applied project course (PSY 593), or
36 credit hours including the required capstone course (PSY 553), or
36 credit hours including the required capstone course (PSY 553) - Mandarin Pathway

Required Core (3 credit hours)
PSY 502 Professional Issues in Psychology (3)

Research and Statistics (6 credit hours)
BDS 500 Research Methods (3) or PSY 500 Research Methods (3)
BDS 505 Statistical Methods (3) or PSY 513 Fundamentals in Quantitative Methods (3) or PSY 515 Quantitative Analysis I (3)

Additional Coursework for Campus Immersion Students (21-24 credit hours)

Statistics and research coursework (0-12)*
Foundation (0-15)
Electives (9-18)
*Additional statistics and research coursework selected in consultation with faculty and dependent on area of research interest and approved culminating experience

Additional Coursework for Digital Immersion Students (24 credit hours)
Foundation courses (15 hours)
Electives (9 credit hours)

Culminating Experience (3 or 6 credit hours)
PSY 553 Capstone in Psychology (3)
PSY 593 Applied Project (6)
PSY 599 Thesis (6)

Additional Curriculum Information
The MS program in psychology is delivered in person as well as online through digital immersion. Students in the online program and the Mandarin pathway will only have the option to complete a capstone course. The thesis and applied project are for in-person program students and are determined in consultation with faculty. The capstone course may be approved for in-person students.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program. Priority is given to applicants who have achieved a 3.25 GPA or higher.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

There are separate applications and admissions criteria for the campus immersion and online modalities. In the application for the campus immersion modality, students must indicate whether they are applying for the thesis or applied project option, or the behavioral data science capstone option.

Applicants must provide evidence of successful completion of an undergraduate or graduate statistics and research methods course. Typically, these prerequisite courses should be in a social science field; however, applicants may apply

with courses outside a social science field.

The statement of purpose should describe the applicant's educational background, scholarly interests, and academic and professional goals.

It is preferred that the letters of recommendation be from faculty members who know the applicant's work well; if these are not available, then recommendations should be from individuals in supervisory or professional roles. Two letters of recommendation are required. However, for the campus immersion thesis or applied project option, three letters of recommendation are strongly recommended.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-science-psychology/) for program descriptions and to request more information.

Career opportunities

The MS program in psychology prepares graduates for careers across a range of research-based and applied areas. Career examples include:

- community health worker
- health data analyst
- health educator
- market research analyst and marketing specialist
- medical and health services manager
- mental health counselor*
- psychology teacher, postsecondary
- social and community service manager
- social and human services assistant
- social science researcher or research assistant
- user experience researcher

*Further graduate training required for clinical licensure in most U.S. states.

Science Communication, Certificate (ASSCOMGRCT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

This program has a fee pending ABOR approval.

Program description

The graduate certificate program in science communication is designed for STEM students and professionals who want to improve public understanding of science and strengthen engagement between science and society.

Scientific challenges such as climate change, public health and misinformation demand more effective communication. This program provides students with research-based strategies and practical skills in storytelling, media relations and community dialogue to help bridge the gap between scientific knowledge and public understanding. Students learn to communicate complex ideas clearly, foster public trust in science, and address the social implications of scientific work. The program combines communication theory with hands-on training, preparing students to become leaders in science outreach, policy, education and advocacy.

This certificate program complements a range of graduate programs and aims to transform society through use-inspired, inclusive and impactful research.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Degree requirements
Required Core (15 credit hours)
CMN 520 Communication Campaigns (3)
CMN 571 Science, Media and Society (3)
CMN 572 Science Public Relations (3)

Students select two of the following courses:
CMN 573 Digital Media for Science Communication (3)
CMN 574 Public Engagement with Science (3)
CMN 575 Risk and Crisis Communication: Theory and Practice (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in business, communication or STEM-related fields from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL (iBT)®, or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Graduates are prepared to communicate science effectively across sectors, helping organizations bridge the gap between research and public understanding. This certificate enhances career prospects in science, health, policy and media and gives STEM professionals a competitive edge through strong communication skills --- one of the most valued yet underdeveloped competencies in the workforce.

Graduates may pursue roles as communication professionals or apply their skills in interdisciplinary careers. The certificate program prepares graduates to address global challenges like climate change, pandemics and disinformation.

Career examples include:

- communications manager
- health communication strategist
- media relations officer
- outreach coordinator
- policy analyst
- program manager
- public affairs officer
- public relations specialist
- research translation officer
- science communication specialist
- scientific content creator

Social Data Science, MA (ASSTCMA)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Program description

If you are interested in the social implications of big data and the ways that data science can provide insight into the understanding of social systems, the Master of Arts program in social data science is designed for you. You engage in research at the intersection of data and society, preparing to become a leader in the field.

Artificial intelligence and algorithmic structures of social interaction represent significant challenges to society, and questions of equity, privacy and autonomy have become a recurring public concern. These technologies also may provide the keys for addressing substantial social issues. The critical analysis of these socio-technical systems requires

both technical abilities and an understanding of social theory. This program provides those skills.

The program combines a thorough grounding in digital social science with the skills needed to analyze social data. This distinct combination enables you to understand and contribute to building ethical social platforms, to manage creative communities, and to understand network-mediated social change. You work through a series of courses that provide a grounding in social theory and digital research methods, and you produce work that exemplifies your understanding of the state of the art in applying social data science within organizational and community contexts.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Social Justice and Human Rights, BA

Sociology, BA

Political Science, BA

Psychology, BA

Sociology, BS

Psychology, BS

Biology, BA

History, BA

Environmental Studies, BA

Political Science, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours - course-based master's, or
30 credit hours and a thesis

OPTION WITH CULMINATING EXPERIENCE

Required Core (18 credit hours)
SDS 501 Theories of Data and Society (3)
SDS 510 Data Wrangling (3)
SDS 527 Ethics and Policies of Social Data (3)
SDS 537 Technologies of Community (3)
SDS 550 Computational Social Methods I (3)

SDS 551 Computational Social Methods II (3)

Electives (6 credit hours)

Culminating Experience (6 credit hours)
SDS 599 Thesis (6)

COURSE-BASED OPTION

Required Core (18 credit hours)
SDS 501 Theories of Data and Society (3)
SDS 510 Data Wrangling (3)
SDS 527 Ethics and Policies of Social Data (3)
SDS 537 Technologies of Community (3)
SDS 550 Computational Social Methods I (3)
SDS 551 Computational Social Methods II (3)

Electives (12 credit hours)

Additional Curriculum Information
This master's degree offers a course-based option and a thesis-based option. The course-based option is ideal for students seeking a fast and flexible path to the job market. Students completing the course-based option will complete 18 credit hours from the required core classes and 12 credit hours of electives. The thesis option is best suited for students pursuing research careers or doctoral study, offering in-depth experience in hypothesis-driven investigation. Thesis students explore original research topics that intersect social theory, ethics, and data science, preparing them to make scholarly contributions to the evolving field of digital social research. Thesis students complete 18 credit hours from the required core, six credit hours of electives and six hours of thesis credit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• academic writing sample (preferred) or professional writing sample
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

This application requires a statement of purpose. The following prompts should be answered within the statement. The response to each question should be no longer than 250 words.
• What about this program attracted you to it specifically, as opposed to other programs?
• What would be your ideal career after completing this program, and what about the career appeals to you? Feel free to mention multiple alternatives.
• In your education thus far, what has been your favorite course or learning experience, and what did you love about it?
• What is a project you have completed --- either solo or as a leader of a team --- that you particularly enjoyed or that you are especially proud of, and what elements made it so?
• Among the attributes, knowledge or skills you have already developed, which do you think will be most useful to your graduate school experience? What areas do you think you most need to develop in order to be successful in your future endeavors?

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/social-data-science/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate theoretical frameworks that explain the relationships between data, technology, and society.
Apply computational and digital methods in analysis of a social dataset.
Evaluate technologies for their potential to address community needs.
Communicate complex social data concepts and findings effectively through written, oral, visual, and interactive formats.
Evaluate ethical principles and policy frameworks governing the collection, use, and governance of social data.

Career opportunities

Graduates are prepared to advise institutions on appropriate policies and to draw on large-scale trace data to help address significant social issues. They are well-positioned for research roles in businesses, nonprofits and government organizations; to work with organizations to help them make ethical and effective use of social data; and for consulting roles regarding broader issues of social change and networked technologies. They also may continue on to doctoral work in cognate fields.

The program deliberately seeks to be more reflective of the diversity of those who are affected by datafication and to actively promote the careers of professionals who are underrepresented in data-related fields.

Career examples include:

chief information officer
communications director
community manager
data journalist
intelligence or policy analyst
program or project manager
public affairs specialist
research and data analyst
social media manager
social strategist

Social Justice and Human Rights, Certificate (ASJHRGRCT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Program description

In the social justice and human rights graduate certificate program, you explore key topics in the social justice and= human rights graduate certificate program, such as labor, migration, education and the environment, and the legal,= political, historical and cultural frameworks that contextualize them. You gain deeper insight into the theory and= practice of social justice, human rights and humanitarian efforts, making the program well-suited to channel your= interests and passions toward ethical responses to social injustice and human rights abuses.

You may focus on specific issues in international or domestic contexts, including refugee resettlement, immigration and= citizenship, human trafficking, racialized violence, and international human rights law and organizations. In courses= taught by experienced faculty from various disciplines, you develop an understanding of how social justice and human= rights issues are defined by multiple and intersecting forms of inequality and social identity, including gender, race,= ethnicity, class, sexuality and nationality. You may also select courses to develop practical skills in research and grant= writing or participate in an internship to gain experience.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
JHR 501 Proseminar in Social Justice and Human Rights (3) or
JHR 502 Foundations of Social Justice and Human Rights (3)

Electives (12 credit hours)

Additional Curriculum Information
Students should see their program advisor for a complete list of elective courses.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and= Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in anthropology,= sociology, psychology, political science or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• personal statement
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should be no longer than 500 words. It should describe the applicant's academic or career goals and how a graduate certificate in social justice and human rights will help achieve those goals. The personal statement should also describe what area of social justice and human rights the applicant is most interested in and why.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Global opportunities

Global experience: Study abroad (https://goglobal.asu.edu/) is possible for graduate students, and it allows students to stand out in many career fields. Students are exposed to unique differences in the human condition worldwide, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt to new social and cultural circumstances.

There are more than 50 program opportunities, with programs on every continent. Faculty-directed programs tend to be the best fit for graduate students; taking courses over the summer or during academic breaks with ASU professors offers close mentorship and professional network growth in many fields of study while earning ASU credit. Exchange program participation is also possible with careful planning.

Career opportunities

Graduates who hold a certificate in social justice and human rights can begin or advance their careers in advocacy work in nonprofit or government agencies, humanitarian work, international law and advocacy, as well as in careers that enable them to address forced migration, trafficking and gender-based or racialized violence.

Career examples include:

advocate or lobbyist
community organizer
grant writer
humanitarian aid worker
policy analyst or researcher
program officer
public defender
social justice specialist or consultant
social service worker

Social Justice and Human Rights, MA (ASJHRMA)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Program description

In the Master of Arts program in social justice and human rights, you explore key topics such as labor, migration, education and the environment, and the legal, political, historical and cultural frameworks that contextualize them. If you aim to channel your interests and passions toward ethical responses to social injustice and human rights abuses, this program is well suited for you.

You may focus on specific issues in international or domestic contexts, including refugee resettlement, immigration and citizenship, human trafficking, racialized violence, and international human rights law and organizations. In theoretically and methodologically rigorous courses taught by experienced faculty from various disciplines, you develop an understanding of how social justice and human rights issues are defined by multiple and intersecting forms of inequality and social identity, including gender, race, ethnicity, class, sexuality and nationality.

You may have the opportunity complete internships domestically or internationally, working alongside other researchers and advocates for social justice to grasp the complexities of the issues and to hone their abilities to work effectively in research and advocacy contexts. Internships may also inform the basis of the culminating experience: a traditional MA thesis, an applied project or a capstone course.

You gain deeper insight into the theory and practice of social justice, human rights and humanitarian efforts, and you develop practical skills in research and grant writing.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Social Justice and Human Rights, BA

Social and Cultural Analysis (Ethnicity, Race and Indigenous Studies), BA

Sociology, BA

Political Science, BA

Social and Cultural Analysis (Women and Gender Studies), BA

Gender, Women and Sexuality Studies, BS

Psychology, BA

Latin American Studies, BA

Sociology, BS

Interdisciplinary Arts and Performance, BA

Social and Cultural Analysis (American Studies), BA

Interdisciplinary Arts and Sciences, BA

Communication, BS

Social and Behavioral Sciences, BA

Psychology, BS

Biology, BA

History, BA

English, BA

Public Service and Public Policy, BS

Philosophy, Religion and Society, BA

Social and Cultural Analysis (Latin American Studies), BA

Environmental Studies, BA

Social and Cultural Analysis (Peace Studies), BA

Social and Cultural Analysis (Queer and Sexuality Studies), BA

Applied Science, BAS

Social and Behavioral Sciences, BS

Communication, BA

Political Science, BS
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (JHR 593), or
30 credit hours including the required capstone course (JHR 549)

Required Core (6 credit hours)
JHR 501 Proseminar in Social Justice and Human Rights (3)
JHR 502 Foundations of Social Justice and Human Rights (3)

Professional Development (3 credit hours)
JHR 506 Grant Writing for Social Justice and Human Rights (3)
JHR 515 Power and Inequality in Academia and Activism (3)
JHR 584 Internship (3)

Research (6 credit hours)
JHR 500 Research Methods (3)
JHR 525 Critical Methodologies in Social Justice and Human Rights (3)

Electives (9 or 12 credit hours)
JHR 503 Gender Based Violence and Sex Trafficking (3)
JHR 504 International Law and Organizations (3)
JHR 505 Migration, Asylum and Refugees (3)

JHR 510 Problem-based Seminar in Social Justice and Human Rights (3)
JHR 540 Critical Humanitarianism (3)
JHR 550 Global Justice (3)
JHR 598 Topic: Global Racial Justice (3)

Culminating Experience (3 or 6 credit hours)
JHR 549 Capstone in Social Justice and Human Rights (3) or
JHR 593 Applied Project (6) or
JHR 599 Thesis (6)

Additional Curriculum Information
The MA program in social justice and human rights is delivered in person as well as online.

The in-person program is designed to provide faculty mentorship and support student research culminating in a thesis or applied project. Campus students complete JHR 593 or JHR 599 and nine credits of elective coursework.

Online students complete JHR 549 and complete 12 credit hours of elective coursework.

Course availability depends on the semester and modality. Students select professional development and elective courses based on academic and professional interests. Any variation of culminating experience or coursework must be approved by the program director.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the New College of Interdisciplinary Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in applicable master's degree program.

All applicants must submit:
• graduate application and application fee
• official transcripts
• statement of purpose
• one letter of recommendation
• a writing sample (required for applicants to the on-campus program)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The statement of purpose should be a concise response to the following prompts:

• Describe your academic or career goals and how an MA degree in social justice and human rights will help you achieve these goals.
• Social justice and human rights is a discipline with a wide variety of topics. Briefly describe what area of social justice

and human rights you are most interested in and why.

One letter of recommendation is required. It is preferred that the letter of recommendation comes from a faculty member who knows the applicant's work well; if this is not possible, a letter of recommendation from an individual in a supervisory or professional role is accepted. It is strongly preferred that the letter come from a faculty member.

An academic writing sample is preferred, but a professional writing sample will also be accepted. A writing sample is recommended but not required for students applying to the digital immersion program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/social-justice-and-human-rights-ma/) for program descriptions and to request more information.

Global opportunities

Global experience: Studying abroad (https://goglobal.asu.edu/students/graduate-students) is possible for graduate students. There are more than 50 program opportunities, with programs on every continent.

Faculty-directed programs tend to be the best fit for graduate students. Taking courses with ASU professors over the summer or during academic breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning.

Career opportunities

Graduates with a master's degree in social justice and human rights can begin or advance their careers in advocacy work in nonprofit or government agencies, humanitarian work, international law and advocacy, as well as in roles that enable them to address forced migration, trafficking, and gender-based or racialized violence.

Career examples include:

- advocate or lobbyist
- community organizer
- grant writer
- humanitarian aid worker
- policy analyst or researcher
- program officer
- public defender (with further education)
- social justice specialist or consultant
- social service worker

Graduates are well positioned to pursue additional graduate education, such as law school or doctoral programs.

Journalism and Mass Communication, Walter Cronkite School of

Digital Audiences, Certificate (CSDASGRCT)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: ASU at Los Angeles , Online

Program description

The graduate certificate program in digital audiences prepares you to drive audience growth and engagement in any= industry.

You learn to measure and analyze how consumers interact with content online, on social media and on mobile devices.= Using those measurement skills, you develop strategies and tactics to grow audiences through search engine= optimization, search engine marketing, paid and organic social media campaigns, and digital analytics.

This program is designed to help you develop new skills, take on new responsibilities or more effectively promote your= work.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (15 credit hours)
MCO 561 Defining the Digital Audience (3)
MCO 562 Search Engine Strategy for Digital Audience Acquisition (3)
MCO 563 Social Media Campaigns and Engagement (3)
MCO 564 Digital Audience Research and Behavior (3)
MCO 565 Digital Audience Analytics (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and= Mass Communication.

Applicants must have earned a bachelor's or master's degree in communications, political science, business or a= related field from a regionally accredited institution. Admission to this program is limited to students who do not have= an undergraduate degree or minor in digital audiences.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's= degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- professional resume
- proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Applicants should have a TOEFL iBT® score of at least 5, or a score of 100 (taken at a testing center) if taken before January 21, 2026. Students with an IELTS band score of 7.50 or a Duolingo score of 135 are also considered.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/digital-audience-strategy-graduate-certificate/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Use professional tools, technology and techniques to develop audiences, content and behavior, and be prepared for analytics tasks in media careers.
- Create effective, strategic social media campaigns and be prepared for paid and organic social media work in media careers.
- Create effective, optimized content and campaigns for search engines, and be prepared for paid and organic search engine work in media careers.

Career opportunities

Graduates who complete the digital audiences graduate certificate are able to pursue careers in digital marketing, communications, digital strategy and social media.

Careers in this field include:

- digital marketer
- marketing associate
- market research analyst
- SEO specialist
- social media specialist

Digital Strategy and Audience Engagement, MS (CSDASMS)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: ASU at Los Angeles , Online

This program's name has changed effective Fall 2026. The previous name was Digital Audience Strategy.

Admission to this program is limited to students who do not have an undergraduate degree in digital strategy and audience engagement or a minor in digital audiences.

Program description

The Master of Science program in digital strategy and audience engagement prepares you to design and execute digital strategies through a data-driven, multidisciplinary, hands-on curriculum.

You learn to measure and analyze how consumers interact with content online, on social media and on mobile devices. Using those measurement skills, you develop strategies and tactics to grow audiences through search engine optimization, search engine marketing, paid and organic social media campaigns, and digital content creation. You work with clients to develop, test and execute audience growth strategies in real time.

Through required coursework in media law and entrepreneurship, you learn to make sound business decisions regarding consumer privacy, digital data security and community engagement. Through elective courses, you develop additional expertise in areas such as management, audience data and intellectual property. You may also pursue an internship for elective credit.

You graduate from the program ready to drive audience growth, lead digital marketing and further business development.

The MS in digital strategy and audience engagement is offered as an accelerated bachelor's plus master's degree with the Bachelor's of Arts in journalism and mass communication (https://degrees.apps.asu.edu/bachelors/major/ASU00/CSJMCBA/journalism-and-mass-communication). You can visit Cronkite's accelerated master's program (https://cronkite.asu.edu/accelerated-masters-degrees/) page to learn about eligibility requirements and review how to apply (https://acceleratedmasters.asu.edu/how-apply).

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Strategic Communication, BA

Sports Journalism, BA

Mass Communication and Media Studies, BA

Science Communication, BA

Content Creation, BA

Sports Strategic Communication, BA

Journalism, BA

Digital Strategy and Audience Engagement, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

33 credit hours including the required capstone course (MCO 566)

Required Core (21 credit hours)
MCO 503 Media Law (3)
MCO 539 Audience Lifecycle and Growth Strategies (3)
MCO 561 Defining the Digital Audience (3)
MCO 562 Search Engine Strategy for Digital Audience Acquisition (3)
MCO 563 Social Media Campaigns and Engagement (3)
MCO 564 Digital Audience Research and Behavior (3)
MCO 565 Digital Audience Analytics (3)

Electives or Internship (6 credit hours)

Culminating Experience (6 credit hours)
MCO 566 Digital Audience Management (6)

Additional Curriculum Information
For electives or internship coursework, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in journalism, communications, public relations or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement of intent
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Applicants should have a TOEFL iBT® score of at least 5, or a score of 100 if taken before Jan. 21, 2026 in a testing center. Students with an IELTS band score of 7.50 or a Duolingo score of 135 are also considered.

In 300 to 500 words, the personal statement of intent should describe the applicant's interest in the MS in digital

strategy and audience engagement, explain how previous academic or professional experience will inform the applicant's work in the program and how the program will help the applicant achieve their personal or career goals.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/digital-audience-strategy-ms/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Apply the values, principles, ethics and legal standards of digital strategy and audience engagement in media work.
- Create digital strategy and audience engagement content and campaigns using professional tools, technology, and techniques.
- Critically evaluate information, content, and research in professional contexts.

Global opportunities

Global experience: Studying abroad (https://goglobal.asu.edu/students/graduate-students) is possible for graduate students. There are more than 50 program opportunities, with programs on every continent. Faculty-directed programs tend to be the best fit for graduate students; taking courses with ASU professors over the summer or during academic breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning.

Career opportunities

The digital field is rapidly growing and true experts are highly sought after. Graduates of the MS program in digital strategy and audience engagement are equipped with the knowledge and skills they need to launch a new career in digital marketing, content creation, social media and SEO. Graduates are empowered and ready to accelerate their current communications career, able to step into leadership positions to steer digital marketing and communications teams.

Careers in this field include:

- marketing associate
- marketing manager
- market research analyst
- SEO specialist
- social media manager

Investigative Journalism, MA (CSINVJOUMA)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: Downtown Phoenix

Spring and Summer applications are only open to current undergraduate Cronkite students in the accelerated master's program.

Program description

The Master's of Arts program in investigative journalism prepares you to launch high-level investigative reporting careers at the world's most prestigious news organizations.

This program is designed for career switchers who have experience in fields such as law, health, business, government and the arts, and for early-career and mid-career journalists who want to develop specialization in investigative techniques.

You build on your existing knowledge through courses that strengthen your investigative reporting techniques, multimedia storytelling skills, and understanding of media effects, leadership and organization models. You produce journalism with deep public impact, preparing to lead accountability reporting throughout your career.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Strategic Communication, BA

Sports Journalism, BA

Mass Communication and Media Studies, BA

Journalism and Mass Communication, PHD (CSJMCPHD)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: Downtown Phoenix

Program description

The Doctor of Philosophy program in journalism and mass communication is a highly individualized program that is well-suited whether you are a seasoned media professional transitioning to academia; or a recent graduate of master's degree-level programs in journalism and communication, social and behavioral sciences, or the humanities.

You have access to the resources, training and mentorship you need to answer critical questions that challenge the fields of journalism, digital and social media, strategic communication and audience studies, and global mass communication.

The program is designed around core values of inclusive excellence, collaboration and mentoring, transdisciplinarity and original research.

You are able to develop individual programs of study, taking coursework and drawing on knowledge and methodologies from diverse fields that have a bearing on questions within mass communication. Examples include political science, film, computer and data sciences, sociology and anthropology.

Within the Cronkite School, you work closely with faculty mentors and fellow students on collaborative projects, develop your own research programs, and benefit from the advice and examples of senior scholars for personalized guidance.

The goal of the program is to train you to be a scholar capable of identifying key questions, designing appropriate studies to investigate those questions, and conducting independent and impactful research. You are exposed to a wide

variety of theories and methods, enabling you to forge your own scholarly identity based on interests and aptitudes.

The Cronkite School is committed to creating an environment in which everyone feels they are represented, their experience is equitable, they are fully accepted for who they are and they are valued. The school strives daily to be a welcoming place for all members of the community, where the importance and contribution of each individual are valued and respected.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (18 credit hours)

Electives (18 credit hours)

Other Requirements (24 credit hours)
previous master's degree or additional hours approved by the supervisory committee (24)

Research (12 credit hours)

Dissertation (12 credit hours)

Additional Curriculum Information
Students should see the academic unit for an approved course list.

Students entering the program with a master's degree in journalism or mass communication or a related field must complete 60 credit hours of coursework. Students who are admitted to the program without a master's degree are required to complete an additional 24 credit hours of coursework.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement of interest
• statement of research goals
• resume
• samples of scholarly work (optional)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Applicants should have a TOEFL iBT® score of at least 5, or a score of 100 (taken at a testing center) if taken before January 21, 2026. Students with a Duolingo score of 120 are also considered.

The personal statement of interest should be approximately 1,000-1,500 words and explain why the student wants to pursue a doctorate in mass communication as well as why the Cronkite School program fits their career and personal aims.

The statement of research goals should indicate at least two Cronkite research faculty members with whom the student would like to work, supported by relevant citations of the faculty members' scholarly publications.

Students should see the program website for application deadlines and admission terms. Applicants must meet all deadlines and application requirements to be considered.

The Cronkite School's doctoral committee reviews complete applications. Recommendations for admission are made to Graduate Admission Services, where the final admission decisions are made.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Critically evaluate existing scholarship from diverse fields that have a bearing on questions within mass communication.
- Conduct original scholarly research in their discipline and subdisciplines.
- Effectively and publicly communicate their original research findings to peers and colleagues.

Global opportunities

Global experience: The Cronkite doctorate program is multicultural, with students and alumni hailing from all over the world and bringing their experiences into seminar discussions and research. There are also opportunities to work on international grant-funded research projects (https://goglobal.asu.edu/students/graduate-students) led by Cronkite faculty to broaden students' perspective on issues within the discipline.

Career opportunities

Graduates with a doctorate in journalism and mass communication are prepared for a number of career opportunities. Those with professional expertise in mass media and communications are in especially high demand as universities and institutions train the next generation of media professionals. Career examples include:

- industry researcher or trainer
- media analyst
- media consultant
- university professor

Mass Communication, MMC (CSMCOMMMC)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: Downtown Phoenix

Program description

The Master of Mass Communication degree program immerses you in the practices of journalism and strategic communications.

This master's degree program begins with a multimedia boot camp, teaching you how to tell stories with text, photo, video and audio elements. In the second semester, you choose from a selection of more advanced courses, such as those focused on narrative writing, podcasting, advanced broadcast production, documentary production, health reporting, Spanish-language news, transborder coverage, public relations research, strategic communications storytelling and media entrepreneurship.

The program culminates in a professional immersion experience in one of the Cronkite School's strategic communication labs or news bureaus in Los Angeles, Phoenix or Washington, D.C. Working under the guidance of award-winning journalists and strategists, these capstone programs (https://cronkite.asu.edu/experiences) offer you practical experience in a professional news or agency environment.

This program is offered concurrently (https://cronkite.asu.edu/graduate-programs) with degrees from ASU's Sandra Day O'Connor College of Law and ASU's School of Sustainability. It's also offered in a dual MD/MMC degree with the Mayo Clinic Alix School of Medicine.

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.

This degree is also offered as a concurrent program with the following:

Sustainability Solutions, MSUS

Legal Studies, MLS

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Sports Journalism, BA

Journalism, BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project (MCO 593), or
33 credit hours including the required applied project course (MCO 593), or
33 credit hours including the required capstone course (MCO 570)

Required Core (12 credit hours)
MCO 503 Media Law (3)
MCO 510 Data Journalism (3) or MCO 536 Public Relations Research (3)
MCO 525 21st-Century Media Organization and Entrepreneurship (3)
MCO 554 Media Models, Organizations and Leadership (3)

Electives (6 or 9 credit hours)

Other Requirements (9 credit hours)
MCO 502 Multimedia Storytelling (8)
MCO 504 Cronkite Master's Seminar (1)

Culminating Experience (3 or 6 credit hours)
MCO 570 Capstone (6)
MCO 593 Applied Project (3)

Additional Curriculum Information
The master's degree program is full-time. Students with extensive professional journalism experience may be offered the opportunity to pursue the 30-credit-hour mid-career option.

Students must complete a total of eight credit hours of MCO 502, which is offered at variable credit hours and can be taken multiple times.

Students should see the academic unit for a complete list of approved electives. Other requirement coursework may be substituted with approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement of interest (350 to 500 words in length)
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Applicants should have a TOEFL iBT® score of at least 5, or a score of 100 (taken at a testing center) if taken before January 21, 2026. Students with an IELTS band score of 7.50 or a Duolingo score of 135 will also be considered.

The Cronkite School's graduate committee reviews complete and on-time applications. Recommendations for admission are made to Graduate Admission Services, where the final admission decisions are made.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Apply the values, principles, ethics and legal standards of journalism in media work.
- Create journalism for mass audiences using professional tools, technology, and techniques.
- Critically evaluate information, content, and research in professional contexts.
- Produce clear, accurate and engaging written content that meets professional standards.

Global opportunities

Global experience: Studying abroad (https://goglobal.asu.edu/students/graduate-students) is possible for graduate students. There are more than 50 program opportunities, with programs on every continent.

Faculty-directed programs tend to be the best fit for graduate students; taking courses with ASU professors over the summer or during academic breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning.

Career opportunities

The skills of strong reporting, research, writing and multimedia production are in high demand across industries, including in journalism, strategic communication, nonprofit leadership, international affairs, political advocacy and entrepreneurship. Graduates are prepared for careers in news, documentary storytelling, community engagement or corporate communications.

Career examples include:

- brand storyteller
- corporate and business communicator
- digital marketer
- digital media content creator
- digital strategist
- documentary producer
- entrepreneur
- marketing director
- media executive
- photojournalist
- podcast producer
- reporter
- videographer

Media Research and Technology, MS (CSMRTMS)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: Downtown Phoenix

Program description

The Master of Science program in media research and technology prepares you to study how media and human behavior interact in a rapidly evolving digital society. You develop advanced quantitative and qualitative research skills to analyze audiences and content using AI, biometrics and real-time data. You also gain foundational media creation skills that inspire your analyses.

Through applied research projects, you go beyond studying technology's relationship to media, using AI, biometrics and other emerging methods to conduct large-scale content analyses, measure content performance, model audience behavior, test messaging and examine audience attitudes. You also explore the issues at the nexus of media and tech --- including misinformation, polarization and network influence --- and drive solutions.

Emphasizing ethical frameworks to guide responsible research and interpretation, the program prepares you for both doctoral studies and research careers in industry, government and nonprofit sectors. You emerge equipped to generate actionable insights that inform media strategy, technology development and public understanding in complex communication ecosystems.

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

33 credit hours including the required capstone course (MCO 570)

Required Core (6 credit hours)
MCO 515 Media Effects (3)
MCO 520 Media, Technology and Society (3)

Other Requirements (18 credit hours)
MCO 502 Media Skills (8)
MCO 503 Media Law (3)
MCO 504 Cronkite Master's Seminar (1)
MCO 525 Media Ethics Leadership (3)
MCO 554 Media Models, Organizations and Leadership (3)

Electives (3 credit hours)

Culminating Experience (6 credit hours)
MCO 570 Capstone (6)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

Applicants are required to submit:

• graduate admissions application and application fee
• official transcripts
• personal statement
• professional resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Applicants should have a TOEFL iBT® score of at least 5, or a score of 100 if taken before January 21, 2026 in a testing center. Students with an IELTS band score of 7.50 or a Duolingo score of 135 are also considered.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Global opportunities

Global experience: Study abroad is possible for graduate students. There are more than 50 program opportunities, with programs on every continent delivered by ASU's Global Education Office (https://goglobal.asu.edu/), including programs just for Cronkite students that offer market and audience discovery opportunities. Students may also pursue international internships for program credit.

Career opportunities

Graduates are prepared for media research careers in communications organizations, technology firms, media companies, universities and brands thanks to the hands-on training they received in both content creation and analysis. Possible career paths include:

- audience analyst
- data analyst
- market insights specialist
- media researcher
- media strategist
- product manager

Graduates are also prepared for doctoral-level studies, which drive academic careers and promote scholarly research across media and technology fields.

Narrative and Emerging Media, MA (CSNEMMA)

College/School: Walter Cronkite School of Journalism and Mass Comm
Herberger Institute for Design and the Arts

Campus: ASU at Los Angeles

Program description

In the Master of Arts program in narrative and emerging media, you learn how to tell stories that aren't just watched or read --- they're experienced. In under one year, you learn innovative storytelling techniques, explore the emerging media marketplace, connect with the field's top professionals and develop critical media project management skills.

Through hands-on learning, you explore the entire landscape of emerging immersive media techniques --- including augmented reality, virtual reality, extended reality, 360 video, animated graphics, short-form digital video and documentary production --- to tell creative fictional stories or create nonfiction journalistic work. You capture and create content for workflow in multiple industries, and you learn to lead teams of producers, engineers, writers and artists across different technologies. You build business acumen and gain enhanced insight into the research, development, and finance and business models driving the future of emerging media, which are central to the program.

Delivered exclusively at the ASU California Center Broadway location in downtown Los Angeles, the program immerses you in a state-of-the-art emerging media hub. The building includes a state-of-the-art virtual production stage --- and ASU is one of only a handful of U.S. universities to provide a studio of this caliber. In addition, the building has a green screen studio that allows for virtual-reality productions and live broadcasts, as well as markerless motion capture. You learn and work in these spaces to create compelling visual storytelling for client productions and your own passion projects.

You engage in courses that anchor content creation and project management with communication theory and current case studies, along the way building a cohesive portfolio of professional work aligned with industry standards. You also network and receive critiques from industry professionals whose work may inspire your own. When you complete the program, you are well-prepared to leap into creation, production and project management roles across the media industry or to pursue independent work.

This is a joint program offered by The Sidney Poitier New American Film School and the Walter Cronkite School of Journalism and Mass Communication.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

30 credit hours including the required applied project course (NEM 693)

Required Core (21 credit hours)
NEM 501 Emerging Media (3)
NEM 510 Narrative Development and Pre-Production (3)
NEM 515 Emerging Media Production (3)
NEM 530 Emerging Media Project Management (3)
NEM 550 Diversity and Ethics in Emerging Media (3)
NEM 585 Portfolio (3)
NEM 630 Emerging Media for Clients (3)

Other Requirements (3 credit hours)
NEM 520 AR/VR/XR for Storytelling (3)
NEM 525 Virtual Production for Storytelling (3)
NEM 601 Short Form and 360 Video Production (3)

Electives (3 credit hours)

Culminating Experience (3 credit hours)
NEM 593 Applied Project (3)

Additional Curriculum Information
NEM 585 is a one credit hour course that must be taken three times, for a total of three credit hours.

Students must complete one course from the Other Requirements list.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of the Graduate College, the Walter Cronkite School of Journalism and Mass Communication, and the Herberger Institute for Design and the Arts.

Applicants must have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• professional resume
• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Create compelling independent, original narrative arcs for emerging media.
- Develop an advanced and systematic critical and entrepreneurial understanding of the business for emerging media production.
- Analyze industry-specific representational practices.

Global opportunities

Global experience: Study abroad is possible for graduate students. Students may use elective slots to participate in applicable study abroad experiences (https://goglobal.asu.edu/). Students are also encouraged to pursue work globally for their applied projects.

Career opportunities

Graduates are prepared to thrive in a growing, emerging media industry. According to a Bureau of Labor Statistics report in 2023, the world's largest economies will see a 23% increase in jobs related to virtual reality by 2030.

Graduates are well-suited to careers in AR, VR and XR production; immersive storytelling; virtual production; journalism and documentary production; and media project management, or to become entrepreneurial storytellers ready to seek funding for their own projects.

Science Communication, MA (CSSCOMMA)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: Downtown Phoenix

Program description

The Master of Arts program in science communication prepares you to lead efforts that bridge the gap between scientific discovery and public understanding.

You gain advanced skills in translating research into compelling multimedia storytelling that informs and inspires. Through collaboration with scientists, institutions and public organizations, you learn to position experts as trusted voices and foster community trust through transparent, fact-based communication. Coursework emphasizes PR, digital marketing, multimedia storytelling, media relations, content creation, digital marketing, audience engagement and strategic campaign design, responding to the growing need for skilled communicators who can counter misinformation and make complex ideas accessible to broad audiences.

Upon graduation, you are ready for leadership roles in government agencies, research organizations, universities, museums, nonprofits and industries such as biotech and AI, driving informed dialogue around science and innovation.

Sports Journalism, MA (CSSPJMA)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: Downtown Phoenix

Spring and Summer applications are only open to current undergraduate Cronkite students in the accelerated master's program.

Program description

Sports Journalism description
Sports media is among media's fastest-growing sectors. The Master of Arts in sports journalism is a 33-credit-hour, three-semester program in a city with five professional teams that provides extensive preparation for a career in sports

media and communication.

You begin this program by developing multimedia skills through course work in writing, video, audio and photography, working toward producing compelling sports content for today's multiplatform audiences. From there, you choose advanced classes in sports reporting, videography, podcast production, live sports production, play-by-play delivery, narrative writing, documentary video and more before joining the award-winning sports bureau experience.

You learn game-changing content skills, fresh reporting approaches and foundations in ethics, law and leadership in as few as 12 months.
Why study Sports Journalism at ASU?
The Walter Cronkite School of Journalism and Mass Communication is consistently ranked among the world's top mass communication schools. As the only premier sports journalism program located in a city with five professional sports teams, the Cronkite School offers unmatched access to live events and real-world experience.

Graduate study at ASU equips you with the strategic insight and leadership skills to advance your career in sports media leadership. You gain access to world-class tools, facilities and cross-disciplinary collaboration that position you at the forefront of modern sports storytelling.

Through the school's "teaching hospital" model, you learn by doing. You work in professional newsrooms, gain hands-on training in sports coverage, and build a portfolio that showcases your talent to employers. You regularly cover Major League Baseball's Spring Training, NCAA championships, the Olympics and other major sporting events.

Cronkite faculty include award-winning reporters, editors and producers with deep industry expertise. You benefit from their mentorship and from the #CronkiteNation alumni network, which spans every corner of the sports media industry.

You also have opportunities for global experience, from studying Cuba's media landscape to learning from Real Madrid executives in Spain. Cronkite's dedicated career services team helps connect you to internships, job opportunities and professional networks in sports media.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Strategic Communication, BA

Sports Journalism, BA

Mass Communication and Media Studies, BA

Science Communication, BA

Content Creation, BA

Sports Strategic Communication, BA

Journalism, BA

Digital Strategy and Audience Engagement, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

33 credit hours including the required capstone course (MCO 570)

Required Core (12 credit hours)
MCO 503 Media Law (3)
MCO 525 Media Ethics Leadership (3)
MCO 540 Sports Reporting (3)
MCO 554 Media Models, Organizations and Leadership (3)

Electives or Research (6 credit hours)

Other Requirement (9 credit hours)
MCO 502 Multimedia Storytelling (8)
MCO 504 Cronkite Master's Seminar (1)

Culminating Experience (6 credit hours)
MCO 570 Capstone (6)

Additional Curriculum Information
Students must complete a total of eight credit hours of MCO 502, which is offered at variable credit hours and can be taken multiple times.

Students should see the academic unit for a complete list of approved electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants must have earned a bachelor's or master's degree in a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement of interest (350 to 500 words in length)
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Applicants should have a TOEFL iBT® score of at least 5, or a score of 100 (taken at a testing center) if taken before January 21, 2026. Students with an IELTS band score of 7.50 or a Duolingo score of 135 are also considered.

The Cronkite School's graduate committee reviews complete and on-time applications on a rolling basis, with priority for admission and funding for applications received by Dec. 1.

Spring and summer applications are open to only current undergraduate Cronkite students in the accelerated master's program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Produce clear, accurate, and engaging written content that meets professional standards.
- Apply the values, principles, ethics and legal standards of sports journalism in media work.
- Create sports journalism for mass audiences using professional tools, technology, and techniques.
- Critically evaluate information, content, and research in professional contexts.
- Evaluate leadership approaches across professional media contexts.

Global opportunities

Global experience: Studying abroad (https://goglobal.asu.edu/students/graduate-students) is possible for graduate students. There are more than 50 program opportunities, with programs on every continent.

Faculty-directed programs tend to be the best fit for graduate students; taking courses with ASU professors over the summer or during academic breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning.

Career opportunities

Careers this Sports Journalism master's degree prepares you for

A master's in sports journalism prepares you for roles such as sports reporter, editor, producer, commentator, sideline analyst or podcast host. With your multimedia skills and leadership experience, you'll be ready for high-impact roles that connect storytelling, fans and communities across the global sports industry.

Sports Strategic Communication, MA (CSSPSTCOMA)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: Downtown Phoenix

Program description

The Master of Arts program in sports strategic communication prepares you to lead communications in an increasingly complex, global sports environment. The program emphasizes advanced strategy, leadership and innovation in media, branding and organizational communication. Through project-based coursework and partnerships with industry professionals, you learn to design campaigns, manage cross-platform teams, and guide organizational storytelling at strategic levels. You explore analytics-driven decision-making, crisis and reputation management, stakeholder engagement and executive communication within sports organizations.

The program develops you into a leader who is equipped for management roles in professional sports teams, leagues, athletic departments, agencies and global sports brands. You emerge ready to influence the direction of the sports communication industry with integrity, creativity and data-informed strategy.

Students may consider programs just for Cronkite students, which allow graduate students to advance their media skills and global communications perspectives.

Career opportunities

Content creation and campaign strategy skills are in high demand across the media industries. Many health strategic communicators pursue careers in hospital or corporate environments, while others leverage their skills in work with multiple clients or as entrepreneurs.

Graduates possess skills that are transferable across health communications organizations, including:

- colleges and universities
- communication agencies
- government agencies and health advocacy groups
- health care systems
- nonprofit organizations
- private practices
- public relations firms
- retail and hospitality brands

Graduates can apply their advanced media skills to a variety of roles, including:

- community engagement specialists
- content creators
- digital strategists
- health storytellers
- media executives
- media relations specialists
- PR professionals
- strategic communications leaders

Strategic Communication, MA (CSSTRCOMMA)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: Downtown Phoenix

Program description

Strategic Communication description
In the Master of Arts program in strategic communication, you gain the media skills and techniques, critical thinking skills and leadership capacity to advance your career in media, agencies, corporations, government or nonprofit organizations.

You develop the ability to address communication challenges through coursework in strategy development, content creation, client and audience research, crisis communication, ethics, campaign planning and others. You master skills in audience engagement and data analysis. Courses in communication management, leadership and project management help you become a leader. You are ready to shape brand narratives, guide reputation and lead communication strategy across sectors.

Your experience begins by developing foundations in communication strategy, theory and ethics. An emphasis on content creation prepares you to produce comprehensive public relations campaigns and innovative digital marketing campaigns with strategic content including video storytelling, persuasive writing and media planning. Then, via the school's teaching hospital model, you receive immersive, hands-on training in advanced tools, progressive techniques and practical client work at an award-winning, student-run agency.
Why study Strategic Communication at ASU?
The Walter Cronkite School of Journalism and Mass Communication is consistently ranked among the world's top mass communication schools. You build a professional portfolio that showcases your creativity, analytical skill and client results.

You learn from award-winning faculty with deep industry experience in PR, marketing and media strategy. You gain global experience through international opportunities: You have the chance to produce content at the Olympics, study with Real Madrid's media executives in Spain and analyze Japan's social media culture.

This graduate program emphasizes leadership and strategic decision-making --- preparing you to direct communication teams, advise executives and lead large-scale initiatives across industries. Plus, a dedicated career team and the powerful #CronkiteNation alumni network opens doors to internships, jobs and mentorship in PR, digital marketing and corporate communication.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Strategic Communication, BA

Sports Journalism, BA

Mass Communication and Media Studies, BA

Science Communication, BA

Content Creation, BA

Sports Strategic Communication, BA

Journalism, BA

Digital Strategy and Audience Engagement, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

33 credit hours including the required capstone course (MCO 570)

Required Core (3 credit hours)
MCO 561 Defining the Digital Audience (3)

Other Requirements (21 credit hours)
MCO 502 Multimedia Storytelling (8)
MCO 503 Media Law (3)
MCO 504 Cronkite Master's Seminar (1)
MCO 525 Media Ethics and Leadership (3)
MCO 554 Media Models, Organizations and Leadership (3)

choose one of the following courses:
MCO 522 Executive Communication and Media Relations (3)
MCO 539 Audience Lifecycle and Growth Strategies (3)

Electives (3 credit hours)

Culminating Experience (6 credit hours)
MCO 570 Capstone (6)

Additional Curriculum Information
Elective courses should be selected in consultation with the program advisor; some courses require department approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Walter Cronkite School of Journalism and Mass Communication.

Applicants must have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• professional resume
• personal statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Applicants should have a TOEFL iBT® score of at least 5, or a score of 100 (taken at a testing center) if taken before January 21, 2026. Students with an IELTS band score of 7.50 or a Duolingo score of 135 are also considered.

Applicants should provide a 300- to 500-word statement describing their interest in strategic communication, their career goals, and how previous work and academic experience have prepared the student for success.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Apply the values, principles, ethics and legal standards of strategic communication in media work.
- Create strategic content and campaigns using professional tools, technology, and techniques.
- Critically evaluate information, content, and research in professional contexts.
- Produce clear, accurate, and engaging written content that meets professional standards.
- Evaluate leadership approaches across professional media contexts.

Global opportunities

Global experience: Study abroad (https://goglobal.asu.edu/) is possible for graduate students. There are more than 50 program opportunities, with programs on every continent. Faculty-directed programs tend to be the best fit for graduate students; taking courses with ASU professors over the summer or during academic breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning.

Career opportunities

Careers this Strategic Communication masters degree prepares you for

Graduates pursue roles such as PR professional, communications specialist, brand strategist, media relations manager, influencer coordinator and corporate communications leader.

With this master's degree, you'll be prepared for many communications and brand strategy positions.

Law, Sandra Day O'Connor College of

Biotechnology and Genomics, LL.M. (LWGENOMLLM)

College/School: Sandra Day O'Connor College of Law

Campus: Downtown Phoenix

Program description

Today's lawyers must be prepared to handle challenges such as those that surround international trade, evidentiary standards, personalized medicine, licensing and business planning, to name a few.

The Master of Laws program in biotechnology and genomics is associated with the Center for Law, Science and Innovation, the nation's largest and oldest multidisciplinary research center focusing on the legal implications of new scientific discoveries and emerging technologies. The faculty has a long history of high-quality teaching, and a vast number of faculty members hold postgraduate degrees in a wide array of sciences.

Coursework and research opportunities are diverse. Through classroom instruction and guided independent study, you examine the legal issues surrounding genetic applications such as:

• cloning
• forensic evidence
• gene testing
• gene therapy
• genetically modified organisms
• stem cells and behavioral genetics

The issues relate to:

• business planning
• confidentiality
• evidentiary standards
• intellectual property
• international trade
• liability
• licensing
• privacy
• regulation

You explore and examine the law that enables and constrains the development, control and application of biotechnology and genomics.

Forensic science and ethical constraints on the various contemplated uses are also important elements of the program.

Because the legal, ethical and policy aspects of genomics and biotechnology are of global significance, this program is also beneficial for non-U.S. lawyers. Candidates for the LLM degree must have received their Juris Doctor or comparable terminal law degree from another country.

STEM-OPT extension eligible: No

Degree requirements
The program is designed to be completed in nine months on a full-time basis but may be pursued on a part-time basis.

A degree candidate must complete 24 credit hours of coursework to obtain the LLM degree in biotechnology and genomics. A candidate may elect to write a graduate thesis for either three or six credit hours; a candidate may also elect not to write a thesis and to fulfill the equivalent credit requirements with other coursework. Two required courses are Genetics and the Law, and Biotechnology: Science, Law and Policy.

The remaining credit hours generally are obtained from the list of elective courses. With faculty advisor approval, a candidate may satisfy up to six credit hours with courses offered by other ASU departments or by law courses that are not included on the approved elective list.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants should see the program website for application deadlines.

Admission to the program is competitive. To be admitted, an applicant must have completed a JD degree program or a law degree program at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country, and have submitted a complete application to the program. Selection is based on:

• academic background and potential
• career experience and ambitions
• diversity of experience and background
• space and resource limitations in the law school
• strength of experience related to the program sought and other factors

For an application to be considered complete, it must include the following:
• completed Law School Admission Council electronic application form (https://law.asu.edu/admission/llm), linked to on the ASU Law admission page
• completed LLM Credential Assembly Service report: https://www.lsac.org/llm-other-law-program-applicants/application-process-llm-other-law-programs (https://www.lsac.org/llm-other-law-program-applicants/application-process-llm-other-law-programs)
• required application fee
• resume that does not exceed three typed pages
• personal statement that does not exceed 1,250 words (double-spaced typed pages)
• transcripts from all institutions attended, including the transcripts showing that the bachelor's degree and law degree were conferred
• two letters of recommendation
• writing sample

Additional Application Information
Transcripts and letters of recommendation or evaluations must be submitted through the LSAC's Credential Assembly Service and are provided to the ASU College of Law by LSAC.

Applicants with degrees from foreign institutions must meet ASU Graduate College and Sandra Day O'Connor College of Law English proficiency requirements.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Graduates of the program can excel in the following legal fields:

- agricultural law and policy
- bioethics
- biomedical research ethics and law
- biotechnology policy, licensing and litigation
- FDA regulation
- genetics and the law
- health law, particularly public health law
- intellectual property law
- nanotechnology law and policy
- neuroscience and the law
- patent law and patent litigation
- privacy

Health Care Compliance and Administration, MLS (LWHCCMLS)

College/School: Sandra Day O'Connor College of Law

Campus: Online

Program description

The Master of Legal Studies program in health care compliance and administration is designed for both entry-level and experienced non-lawyer professionals working in health care compliance and administration. This 30-credit hour, one-year program provides legal knowledge applicable to health care practitioners and administrators who seek professional roles without intending to practice law. The target audience includes physicians; residency chiefs; medical residents; nurse practitioners; physician assistants; nurses and medical school faculty; medical practice, clinic and hospital administrators; chief medical or nursing officers; vice presidents of medical operations; compliance officers; privacy officers; and regulatory or quality managers.

The program provides a comprehensive understanding of the legal and regulatory framework governing health care organizations and related fields. Students develop the ability to identify legal issues and analyze and address complex compliance and health care administration challenges. Emphasis is placed on compliance with local, state and federal laws and regulations, as well as legal structures and legal reasoning relevant to informed decision-making in health care settings.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Degree requirements
Required Core (9 credit hours)
SDO 501 U.S. Law and Legal Analysis: Master's (3)

SDO 534 Health Industry Compliance: Master's (3)
SDO 581 Health Care Administration Law: Master's (3)

Other Requirements (12 credit hours)
SDO 511 Administrative Agencies and Regulation: Master's (3)
SDO 512 Compliance and Ethics: Master's (3)
SDO 528 Data Privacy and Protection: Master's (3)
SDO 530 Risk Assessment and Management: Master's (3)
SDO 532 Conducting Fact Investigations: Master's (3)
SDO 533 Fraud Investigation: Master's (3)
SDO 598 Topic: Medical Malpractice: Master's (3)

Electives (6 credit hours)

Culminating Experience (6 credit hours)
SDO 682 Health Care Compliance and Administration Capstone: Master's (3)

Additional Curriculum Information
Students select four courses in the other requirements list for a total of 12 credit hours. Each course is completed for three credit hours, and selected in consultation with the program advisor.

Elective coursework should also be selected in consultation with the program advisor.

Students pursuing Compliance Certification Board certification must have a cumulative GPA of 3.00 (scale is 4.00 = ''A'') to sit for their exams, even though ASU Law's graduation requirement is lower.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in health care from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• personal statement
• professional resume
• two letters of recommendation
• written statement
• official transcripts
• proof of English proficiency

Additional Curriculum Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4.5 on the Internet-based TOEFL (iBT)®, or a score of 80 if taken before January 21, 2026 in a testing center; 7 on the IELTS; or 115 on the Duolingo English test. Exceptional candidates with relevant experience

and background who have scores slightly below the thresholds above will also be considered.

Students may qualify for an exemption to the English proficiency requirement through successful completion of ASU's Global Launch Intensive English Program (https://globallaunch.asu.edu/learn-english/english-language-program) or the English for Graduate Admissions and Achievement course (https://globallaunch.asu.edu/learn-english/online-english/english-for-admission). Competitive applicants have a program cumulative GPA of at least 3.33 (scale is 4.00 = ''A'') with no courses grade below a letter grade of "B".

Master of Legal Studies applicants with foreign education credentials must have all transcripts evaluated by the Academic Credentials Evaluation Institute Inc. ACEI independently evaluates all academic documents issued in countries other than the United States. Students should contact ACEI through that organization's website to obtain an application for an evaluation. Applicants must request a course-by-course evaluation and order an official copy to be sent directly to:

Sandra Day O'Connor College of Law
Arizona State University
Beus Center for Law and Society
Office of Admissions and Financial Aid
Mail Code: 9520
111 E Taylor St.
Phoenix, AZ 85004

Applicants who have received their bachelor's or master's degree in the U.S. can apply through the MLS FastApp application process, which streamlines the application process and may allow for an offer of conditional admission to the Master of Legal Studies program while the applicant continues to submit any additional requested documentation.

If a decision cannot be made from the FastApp, the Sandra Day O'Connor College of Law admission team may request additional information from the applicant, including any or all of the following:

• explanations to affirmative answers to application questions pertaining to conduct
• two letters of recommendation
• writing sample

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/masters-in-healthcare-compliance/) for program descriptions and to request more information.

Career opportunities

Graduates of the MLS program in health care compliance and administration are prepared for leadership and advancement in health care compliance, risk management and administration roles across hospitals, health systems, clinics and medical practices.

Target jobs may include:

- health care administrator
- health care compliance officer
- health information compliance manager
- hospital or health system administrator

- medical operations leader
- patient safety director
- regulatory affairs manager

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential= licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for= licensure or certification in another state. For more information, students should visit the ASU professional licensure= (https://admission.asu.edu/academics/licensure) webpage.There is no professional licensure required for this program.= However, the law school plans to pursue Corporate Compliance Board certification for the new degree program. This= certification provides students who graduate from the program eligibility for various CCB certification exams (Certified= in Healthcare Compliance, Certified in Healthcare Privacy Compliance, Certified in Healthcare Research Compliance,= Certified Compliance & Ethics Professional, or Certified Compliance & Ethics Professional-International) or Corporate= Compliance Board continuing education credit within 2 years of graduation.

Health Law and Policy, Certificate (LWHLPGRCT)

College/School: Sandra Day O'Connor College of Law

Campus: Downtown Phoenix

Program description

The health law and policy certificate is a pivotal component in launching a health law career.

The program is designed to immerse you in multiple areas of public health law, policy and ethics, broadening your= knowledge and skills in preparation for practice in public and private sectors, policy development or academic work.

STEM-OPT extension eligible: No

Degree requirements
Required Core (5 credit hours)
LAW 650 Health Law (3)
LAW 651 Public Health Law (2)

Electives (10 credit hours)

Culminating Experience
writing requirement and active participation in health law

Additional Curriculum Information
Students are required to participate in at least one of the following activities; other activities consistent with this listing= also may be considered by the program or certificate director or designee:

• active participation as an officer for at least one year in the student Health Law Society
• editorial board position for at least one year with Jurimetrics
• health or public health law-based externships, upon approval from program director or designee, for at least one semester or summer session

• research assistant for at least one semester or summer session with the Public Health Law and Policy program or other centers or programs at ASU Law, provided that research is focused predominantly on health-related topics

The student must write a substantial paper on a health or public health law topic, under the guidance of a College of Law faculty member. The paper must be at least 15 single-spaced pages. Papers that satisfy the college's graduation writing requirement, flexible writing requirement or law journal requirements can fulfill this certificate requirement, including as part of seminar courses among the elective courses.

Each student must earn a cumulative average grade of at least 3.00 (scale is 4.00 = "A") for courses taken to satisfy the substantive requirements of the health law and policy certificate. A student also must earn a minimum grade of "B" in any course applied toward the certificate.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants must be existing Juris Doctor or Master of Laws students who are currently enrolled in coursework and in good academic standing with the ASU College of Law. Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• admission application for the certificate program through Law Interactive*
• proof of English proficiency

*Students should refer to the ASU Law website (https://law.asu.edu/).

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted to a graduate degree program before they will be considered for the certificate program. International students residing in the United States on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Further specific requirements for admission to the certificate program can be found on the Sandra Day O'Connor College of Law website.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Human Resources and Employment Law, MHREL (LWHREMHREL)

College/School: Sandra Day O'Connor College of Law

Campus: Downtown Phoenix, Online

Program description

The Master of Human Resources and Employment Law is a non-Juris Doctor graduate program that specifically caters to both entry-level and established nonlawyer human resources, recruitment and operations professionals who wish to understand the legal and regulatory framework that governs recruiting, hiring, maintaining, promoting and dismissing employees and independent contractors in the public and private sectors.

You identify and solve critical employment-related problems facing organizations that only trained professionals understand by learning the complex legal and regulatory framework governing HR activities.

The MHREL program consists of 30 credit hours that can be completed either in person or online in one to three years, on a full-time or part-time basis.

The Society of Human Resources Management, a premier HR professional organization with more than 300,000 members nationwide and globally, has recognized the ASU Sandra Day O'Connor College of Law as the first law school that's fully aligned with the SHRM curriculum guidelines. https://www.shrm.org/ (https://www.shrm.org/)

This alignment provides you with an emphasis in human resources and employment law the opportunity to apply for the SHRM certification professional exam. Achieving this certification is an important distinction that many employers recognize in hiring and promoting HR and employment law professionals.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required capstone course (SDO 685)

Required Core (18 credit hours)
SDO 501 U.S. Law and Legal Analysis: Masters (3)
SDO 531 Employment Law: Masters (3) or LAW 629 Employment Law (3)
SDO 541 HR and Employment Law: Masters (3)
SDO 551 Duties, Obligations and Rights in the Workplace: Masters (3)
SDO 552 Employment Discrimination: Masters (3) or LAW 630 Employment Discrimination (3)
SDO 569 Advanced HR and Employment Law: Masters (3)

Electives (9 credit hours)

Culminating Experience (3 credit hours)
SDO 685 Human Resource and Employment Law Capstone (3)

Additional Curriculum Information
Following completion of the six required core courses (18 credit hours), students in the MHREL program can select from varied elective courses (at least nine credit hours) that count toward their degree. The pool of elective courses students can choose from include courses focused on employment law-adjacent subject areas such as privacy rights, dispute resolution and contracts. Students are also able to choose elective courses that present an opportunity to explore other legal areas that may interest them or be pertinent to their chosen career path.

The degree culminates in a three credit hour capstone course that focuses on the practical application of knowledge and skills gained during the program. During the capstone course, students evaluate the impact of various statutory and regulatory laws that affect the day-to-day operations of a human capital management professional, learn how to successfully navigate challenges these laws present, and manage relationships with varying employee groups at all organizational levels.

Other Requirements
There is a minimum of B- or better for the MHREL capstone course and a minimum cumulative graduation GPA of 2.67.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants must have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

A minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of an applicant's bachelor's degree program is preferred. Prospective students may earn admission with a cumulative GPA below 3.00 if the other assets included in the application package are strong, such as:

• a personal statement that addresses the low GPA or inconsistent academic performance
• improved academic performance in subsequent degrees
• significant work history since completing a bachelor's degree

U.S.-educated applicants can apply through the FastApp process (https://law.asu.edu/admission/mhrel), which streamlines the application process and may allow for an offer of conditional admission to the MHREL program while the applicant continues to submit any additional requested documentation.

International or internationally educated applicants should complete the MHREL Full Application form (https://mls.law.asu.edu/Apps/Admissions/Application/MLS/).

All applicants must submit:
• official transcripts
• professional resume
• any other supporting documents (optional)
• proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. If English is not an applicant's native language, and an applicant has not completed a bachelor's degree or higher at a regionally accredited institution in the U.S., they must provide evidence of English proficiency as indicated by acceptable scores. Most competitive applicants should have a TOEFL iBT® score of at least 4.5, or 90 (taken a testing center) if taken before January 21, 2026; or an IELTS score of at least 7.0; or a PTE score of at least 64. Exceptional candidates with relevant experience and background who have scores slightly below these thresholds will also be considered. ASU's institutional code is 4007.

International applicants must also submit an official transcript, two letters of recommendation, a personal statement, a writing sample and explanations of affirmative answers to any conduct questions. U.S.-educated applicants may also be asked by the admission team to submit these resources to strengthen their application.

Applicants with foreign education credentials should have all transcripts evaluated by the Academic Credentials Evaluation Institute Inc. ACEI independently evaluates all academic documents issued in countries other than the U.S.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/hr-and-employment-law/) for program descriptions and to request more information.

Career opportunities

Employment opportunities exist in supervisory and management positions in government agencies (federal, state and local) and the private sector. Graduates of the program may find positions as:

- compensation and benefits managers
- employment recruiters
- equal employment opportunity managers and specialists
- executive search consultants
- hiring managers
- human resources managers and specialists
- labor advocates
- labor relations specialists
- legal support workers
- ombudsmen

Human resources specialist employment is projected to grow faster than average (employment increase of 6% or more) in the U.S. and to have 81,800 job openings nationwide over the period 2024 to 2034.

Professional licensure

ASU programs that may lead to professional licensure (https://admission.asu.edu/academics/licensure) or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state.Current and future students who complete this degree may be eligible for the Society of Human Resources Management certification exam with experiential hours. Students must have a minimum of 500 hours of relevant experience to apply for the SHRM-CP exam. Students who already have SHRM certification receive Continuing Education credit for the courses they have completed or will complete.

STEM-OPT extension eligible: No

Degree requirements
The certificate program requires a minimum of 21 credit hours of substantive work in Indian law and related fields. The= following courses are required:

LAW 632 Federal Indian Law I
LAW 704 Federal Indian Law II
LAW 776 Indian Legal Clinic
two advanced Indian law courses approved by the faculty director of the Indian Legal Program

The remaining credit hours consist of elective courses approved by the faculty director. Students must complete a= substantial paper on an Indian law topic approved by the faculty director. Students must receive a grade of "C" (scale is= 4.00 = "A") or above or a "Pass" in each course used to fulfill the Indian law certificate requirements.

More specific requirements for completion of the Indian law certificate can be found on the Sandra Day O'Connor= College of Law website.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Students who wish to pursue the Indian law certificate must be enrolled in the Juris Doctor degree program at the= Sandra Day O'Connor College of Law and must be in good standing. Specific requirements for the Indian law certificate= program can be found at the ASU Law website (https://law.asu.edu/).

An applicant whose native language is not English must provide proof of English proficiency regardless of their current= residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted to a graduate degree program= before being considered for the certificate program. International students residing in the United States on other types

of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this= certificate program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition= and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Graduates with this certificate stand out to employers, especially those seeking a job representing state, federal or= tribal governments or representing companies that do business with tribes.

Working for tribes in public service, private practice and nonprofit organizations, Indian law program alumni are= making a difference in Indian Country.

Juris Doctor of Law, JD (LWJDJD)

College/School: Sandra Day O'Connor College of Law

Campus: Downtown Phoenix, Online

Program description

The Juris Doctor degree program from the Sandra Day O'Connor College of Law prepares you to become a successful lawyer. The JD program offers a large selection of courses with options for transdisciplinary study with other departments on campus. You can take classes with a more traditional, theoretical focus and take advantage of many options that focus on the development of practice skills. The focus areas offered by ASU Law include:

• business law
• constitutional law
• criminal law
• dispute resolution
• health law
• Indian law
• intellectual property
• international law
• international rule of law and security
• law, science and technology
• law and sustainability
• patent practice
• sports law and business
• trial advocacy

As a first-year JD student, you take courses in civil procedure, contracts, torts, legal method and writing, property, constitutional law, criminal law, legal advocacy and professional responsibility. After the first year, all courses are electives; you must satisfy two writing requirements and an experiential requirement in order to graduate. A full list of graduation requirements (https://law.asu.edu/aba-disclosures) can be found on the ASU Law website.

Certificates (https://law.asu.edu/degree-programs/jd/certificates); study abroad options (https://law.asu.edu/experiences/abroad); the Washington, D.C. and Los Angeles locations; and many other opportunities are available to enhance your experience.

You can pursue a JD concurrently with other degrees from ASU, such as an Master of Business Administration, Master of Social Work, or Master of Sports Law and Business, or a Doctor of Philosophy in justice studies. If you are a Mayo Alix Clinic School of Medicine student, you also have an opportunity to pursue a dual JD/MD degree. More information is available on the Mayo Clinic and ASU Alliance for Health Care website: https://mayoclinicasualliance.org/education/dual-degree/ (https://mayoclinicasualliance.org/education/dual-degree/).

The part time online JD modality (https://law.asu.edu/degree-programs/jd-online) is mission driven towards working in public service and rural communities.

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.
This degree is also offered as a concurrent program with the following:

Social Work - Standard Program, MSW

Justice Studies, PhD

W. P. Carey MBA - Full-Time Program

Sports Law and Business, MSLB

Degree requirements
ASU Law JD students must complete a total of 88 credit hours to graduate.

Required Core (30 credit hours)
LAW 515 Contracts (4)

LAW 516 Criminal Law (4)
LAW 517 Torts (4)
LAW 518 Civil Procedure (4)
LAW 519 Legal Method and Writing (3)
LAW 522 Constitutional Law (4)
LAW 523 Property (4)
LAW 524 Legal Advocacy (3)

Electives (58 credit hours)

Additional Curriculum Information
Students should see ASU Law's Statement of Student Policies for additional JD degree requirements.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

To be considered for admission to the JD program, applicants must have taken the LSAT or JD-Next (excludes applicants applying to the ASU Achievement Program) and have earned, or will earn by the time of enrollment in law school, a bachelor's degree from an institution accredited by an accrediting agency recognized by the U.S. Department of Education.

ASU Law requires applicants to apply electronically through the Law School Admission Council website at https://www.lsac.org/ (https://www.lsac.org/).

An application for admission must include:
• electronic application
• personal statement (two to three pages, double-spaced and font size no smaller than 11 point)
• resume (no more than two pages and font size no smaller than 11 point)
• character and fitness statement, if applicable, explaining affirmative answers to questions in the Character and Fitness section
• binding admission contract, if applicable
• a valid LSAT or JD-Next score (excludes applicants applying to the ASU Achievement Program)
• transcripts from each undergraduate and graduate institution attended (must be sent to LSAC)
• proof of English proficiency for applicants whose native language is not English, regardless of their current residency

Applications may also include:

• an Arizona residency form
• an elevator pitch video
• an inclusive excellence statement
• an invitational interview
• letters of recommendation*
• optional addenda

* Applicants may submit no more than two letters. Because letters are not required, the admission office will not wait for them to complete a file for review.

Additional Application Information

The JD program enrolls one first-year class per year, entering in the fall semester. The degree is a three-year full-time program. Admission to ASU Law is competitive, and each year, ASU Law receives more applications from eligible candidates than can be accommodated.

ASU Law seeks to enroll a dynamic group of individuals who will provide an engaging learning environment. The admission committee makes decisions after considering all the information provided by the applicant. Among the factors influencing the admission decision are LSAT or JD-Next performance, undergraduate grade point average, quality and grading patterns of undergraduate institutions, previous graduate education, demonstrated commitment to public service, work and leadership experience, extracurricular or community activities, history of overcoming economic or other disadvantages, uniqueness of experience and background, maturity, ability to communicate, foreign language proficiency, honors and awards, service in the armed forces and publications.

For detailed information about the Juris Doctor application process, interested applicants are asked to visit the ASU Law (https://law.asu.edu/admission/jd) website.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/juris-doctor/) for program descriptions and to request more information.

Global opportunities

Global experience: Study abroad opportunities (https://law.asu.edu/experiences/abroad), including exchange programs through ASU's Sandra Day O'Connor College of Law, help satisfy students' interest in traveling and learning about other countries while they are studying law. Students can gain a distinct perspective through studying abroad, while also enhancing their marketability to prospective employers.

Career opportunities

According to the U.S. Bureau of Labor Statistics, employment of lawyers is projected to grow 4% between 2024 and 2034. The JD degree can lead to a lucrative career in any of several fields.

Career examples include:

- arbitration, mediation and dispute resolution attorney
- chief legal officer
- compliance attorney
- corporate lawyer
- criminal prosecutor or criminal defense attorney
- family lawyer or divorce attorney
- judicial clerk or judge
- law school professor
- politician or member of Congress
- trial and appellate lawyer

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Law and Sustainability, Certificate (LWLSUSGRCT)

College/School: Sandra Day O'Connor College of Law

Campus: Downtown Phoenix

Program description

The law and sustainability graduate certificate program prepares you for a legal career focused on environmental= sustainability.

Environmental sustainability is a primary emphasis at ASU, and this certificate program leverages that emphasis by= recognizing when you've successfully completed sustainability-related law coursework during your time at the law= school.

Through instruction and meaningful research experiences, you are equipped with the knowledge and skills necessary= to become an influential leader in the global sustainability movement. The program's renowned faculty research and= teach in every major area of sustainability policy, including climate change, water, energy and environmental= protection. You have access to a variety of externships, research opportunities, moot court experiences and= mentorships.

STEM-OPT extension eligible: No

Degree requirements
Required Core (6 credit hours)
LAW 619 Energy Law and Policy (3)
LAW 631 Environmental Law (3)
LAW 639 Natural Resource Law (3)
LAW 643 Water Law (3)

Electives (9 credit hours)

Culminating Experience
writing requirement and active participation in sustainability law

Additional Curriculum Information
Students must select two courses from the Required Core list.

The academic unit maintains a list of preapproved elective coursework. Students should contact the academic unit for= the current list.

Students must earn a cumulative GPA of at least 3.00 (scale is 4.00 = "A") for those courses taken to satisfy the= substantive coursework requirement for the law and sustainability certificate. Students also must earn a minimum= grade of "B" in any approved elective course taken outside the Sandra Day O'Connor College of Law.

To earn the certificate, students must participate in at least two activities from the following list:

• completion of a sustainability-focused legal externship approved by the program or faculty director

• completion of the Sustainability Law Research Seminar
• membership on the elected board of the law school's Environmental Law Society student chapter
• participation in an extramural environmental or sustainability moot court competition approved by the program or faculty director
• participation as a mentee in the Mentorship Initiative in Sustainability Law

Each student must write a substantial paper on a topic related to law and sustainability. The paper must be at least 15 pages and written under the guidance of an ASU Law faculty member. A sustainability-related paper written to satisfy ASU Law's graduate writing requirement or flexible writing requirement can fulfill this writing requirement, including a paper written as part of a seminar course included on the list of elective courses.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants must be existing Juris Doctor or Master of Law students who are currently enrolled in coursework and in good academic standing with ASU Law. Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• an admission application for the certificate program through Law Interactive*
• proof of English proficiency

*Students should refer to the ASU Law website (https://law.asu.edu/).

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Further specific requirements for admission to the certificate program can be found on the ASU Law website.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Given ASU Law's close proximity to dozens of law firms, government offices and other legal employers in sustainability-related fields, numerous ASU Law students involved in the law and sustainability program secure legal externships each year. ASU Law students have recently participated in externships with the Arizona Attorney General's Office, Arizona Corporation Commission, Arizona Department of Environmental Quality, Arizona State Legislature, City of Mesa, City of Scottsdale, Climate Institute, Gammage and Burnham PLC, Kyl Center for Water Policy, Office of Water Master, Rose Law Group PC, Salt River Project, and the U.S. Environmental Protection Agency.

Law, Science, & Technology, Certificate (LWLAWSTCE)

College/School: Sandra Day O'Connor College of Law

Campus: Downtown Phoenix

ASU is not currently accepting applications for this program.

Program description

You can supplement and enhance your Juris Doctor degree with the law, science and technology certificate. The= certificate program consists of focused coursework, mentorship and extracurricular educational opportunities to= prepare you for modern law practice.

You may choose one or more of the following focus areas:

• artificial intelligence
• data, privacy and security
• intellectual property
• life sciences

STEM-OPT extension eligible: No

Degree requirements
Students must satisfy their graduation writing requirement on a topic related to law, science and technology. The paper must meet all of the Sandra Day O'Connor College of Law requirements for a graduation writing project and must be supervised by a center fellow.

A minimum cumulative GPA of 3.00 (scale is 4.00 = "A") is required for those courses that satisfy the substantive coursework requirements of the certificate. Courses used to satisfy the core or focus area requirements may not be taken for pass or fail credit. A student may take one elective course on a pass or fail basis.

Substantive coursework is required in law, science and technology subjects; students must complete a minimum of seven courses, earning at least 16 credit hours, at the Sandra Day O'Connor College of Law. Two courses are chosen from the designated core courses, and five courses are chosen from a list of elective courses.

Each student is encouraged to actively participate in the events (lectures, conferences, symposia) sponsored by the Center for Law, Science and Innovation and to participate in at least one approved activity for two semesters.

Additional details of the program requirements can be found in the Sandra Day O'Connor College of Law Statement of Student Policies.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Students who wish to pursue this certificate must be enrolled in the JD program at the Sandra Day O'Connor College of

Law and be in good standing.

Specific requirements for admission to this program can be found on the ASU Law website (https://law.asu.edu/).

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa must apply to and be accepted to a graduate degree program before being considered for this program. International students residing in the United States on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this certificate program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

The certificate program in law, science and technology is designed for those interested in becoming an attorney and practicing law with an emphasis in law, science and technology in sectors that include intellectual property, life sciences, data, privacy and security.

Laws (Global Legal Studies), LL.M. (LAWLGLPLLM)

College/School: Sandra Day O'Connor College of Law

Campus: Downtown Phoenix

Program description

The Master of Laws program allows you one year of post-Juris Doctor study tailored to your scholarly and practice interests.

The program draws on the unique focus of the international and transnational legal expertise in global health, the environment, human rights, trade and emerging technologies. The program emphasizes transdisciplinary study and links rigorous legal training with the research and scholarship drawn from political science, policy studies, anthropology and sustainability.

You can take a wide variety of courses on international topics, such as international environmental law, international human rights law and international institutions. These include business-related courses such as international contracts, international taxation, international commercial arbitration and international business transactions.

You gain practical experience that makes you more competitive for jobs at home and abroad if you participate in externships. ASU Law can place you, if you are eligible, into an externship (https://law.asu.edu/experiences/externships) at organizations in Arizona or Washington, D.C., such as the U.S. State Department, the World Bank, International Rescue Committee, the Department of Homeland Security and Human Rights First. The opportunity for you to network with international decision-makers, opinion leaders and top practitioners is further amplified through ASU's large presence in Washington, D.C. (https://washingtondc.asu.edu/#why-is-asu-in-washington-dc)

You can develop professionally by engaging with globally minded leaders in the legal, government and business communities. For instance, the Phoenix Committee on Foreign Relations hosts events and other forums for select students to engage with prominent leaders and practitioners on trending international issues.

Each year, the Sandra Day O'Connor College of Law holds a workshop with the American Red Cross on international humanitarian law that brings students, members of the military and community leaders together to learn more about the principles governing armed conflict.

STEM-OPT extension eligible: No

Degree requirements
The program is designed to be completed in one academic year (nine months) on a full-time basis but may also be pursued on a part-time basis. A degree program candidate must complete 24 credit hours of coursework. A candidate may elect either to write a master's degree portfolio paper or to complete an applied project. Required coursework includes two of the following courses:

LAW 615 Public International Law (3)
LAW 691 Seminar: International Institutions (2)
LAW 709 International Human Rights (2-3)
LAW 768 International Business Transactions (2-4)

An international student whose initial law degree is not from a U.S. law school is required to take the following course:

LAW 596 Professional Legal Writing (3)

The remaining credit hours are generally obtained from the list of elective courses in international law.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a JD degree in the U.S. or a law degree at a foreign institution that would qualify them to practice law or pursue license to practice in that country.

All applicants must submit:
• completed LLM application form
• official transcripts
• resume, not exceeding three typed pages
• statement of interest, not exceeding 1,250 words (double-spaced typed pages)
• two letters of recommendation
• writing sample
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Applicants should see the College of Law website for acceptable TOEFL scores and additional information for foreign-educated applicants.

Applicants are encouraged to apply electronically through https://www.lsac.org (https://www.lsac.org/).

Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admission Council's Credential Assembly Service and are provided to the ASU College of Law by LSAC. Transcripts are required from all institutions attended, and transcripts showing that the bachelor's degree and law degree were conferred must be included.

Admission to the program is competitive. Selection is based on academic background and potential, diversity of experience and background, career experience and ambitions, strength of experience related to the program sought, space and resource limitations in the law school, and other factors.

Potential applicants should see the program website for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

According to the U.S. Bureau of Labor Statistics, employment of lawyers is projected to grow 4% between 2024 and 2034. The LLM program can lead to a number of opportunities in the legal profession at large, helping current lawyers advance in their careers by refining their leadership skills, becoming fluent with advanced terminology, developing a keen sense of professionalism, and learning how to navigate an ever-changing global environment.

Career examples include:

- chief executive officer or legal officer
- global litigation director
- judge
- law firm partner or administrator
- law school professor
- private banker (international)

Laws, LL.M. (LAWLAWSLLM)

College/School: Sandra Day O'Connor College of Law

Campus: Downtown Phoenix, Online

Program description

The Master of Laws program offers one year of post-Juris Doctor study tailored to your scholarly and practice interests. Study is available in a variety of areas in which the law school holds particular strength.

With more than 250 distinct courses (https://apps.law.asu.edu/apps/registrar/CourseInfo/Default.aspx) to choose from each year, the 24 credit hour LLM program is customized to meet your career goals with focus on popular areas of study. You can choose from a variety of emphasis areas to complete the general LLM. The program is flexible, with fall and spring starts as well as full-time and part-time options.

Emphasis areas include:

• business law (https://law.asu.edu/emphasis-areas/business-law)
• criminal law (https://law.asu.edu/emphasis-areas/criminal-law)
• entrepreneurship law and strategy
• health law (https://law.asu.edu/emphasis-areas/public-health-law-policy)
• Indian gaming and tribal self-governance (https://law.asu.edu/emphasis-areas/indian-gaming-governance)
• Indian law (https://law.asu.edu/indian-legal-program)
• intellectual property law (https://law.asu.edu/programs/intellectual-property)
• international law (https://law.asu.edu/emphasis-areas/international)
• international rule of law and security (https://law.asu.edu/programs/international-rule-of-law-and-security)
• law and sustainability (https://law.asu.edu/programs/sustainability)
• patent practice (https://law.asu.edu/emphasis-areas/patent)
• science and technology law (https://law.asu.edu/emphasis-areas/law-technology)

The college also offers an LLM in biotechnology and genomics (https://law.asu.edu/emphasis-areas/biotech-genomics) and in tribal policy, law and government (https://law.asu.edu/emphasis-areas/indian-gaming-governance).

STEM-OPT extension eligible: No

Degree requirements
The program requires 24 credit hours. Required courses depend on the student's concentration in the degree. International students are required to take LAW 596 Professional Legal Writing. A candidate may elect either to write a master's degree portfolio paper or to complete an applied project. The remaining credit hours generally are obtained from the list of elective courses. With faculty advisor approval, a candidate may satisfy up to six credit hours with courses offered by other ASU departments or by law courses that are not included on the approved elective list.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants must have earned a JD degree in the U.S. or a law degree at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country. For information and resources on applying to ASU Law, visit the Admission page (https://law.asu.edu/admission/llm) on their website.

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Applicants should see the Sandra Day O'Connor College of Law website for acceptable TOEFL scores and additional information for applicants.

All foreign-educated applicants are required to use the Law School Admission Council LLM Credential Assembly Service, which includes the ASU Law Electronic Application, the Document Assembly Service, and the International Transcript and Authentication Service. Students should refer to the special instructions for foreign-educated applicants at the school admission website (https://law.asu.edu/admission/apply/foreign).

ASU law alumni graduates who are interested in the LLM should refer to the Law for Life program.

Admission to the program is competitive. Selection is based on academic background and potential, experience and professional background, career experience and ambitions, and other factors.

Applicants should see the program website (https://law.asu.edu/admission/llm) for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

Legal Studies, MLS (LWLGSMLEGS)

College/School: Sandra Day O'Connor College of Law

Campus: Downtown Phoenix, Online

Program description

The Master of Legal Studies program is flexible; it's offered in the fall, spring and summer, full time and part time, and in person and online. You may focus your program on popular areas of study listed below. To learn more or schedule a visit, you should refer to the ASU Law website (https://law.asu.edu/visit).

Emphasis areas offered in person include:

• artificial intelligence (https://law.asu.edu/emphasis-areas/ai-law)
• business law (https://law.asu.edu/emphasis-areas/business-law)
• conflict resolution (https://law.asu.edu/emphasis-areas/conflict-resolution)

• criminal law (https://law.asu.edu/emphasis-areas/criminal-law)
• entrepreneurship law and strategy
• federal Indian law and tribal self-governance (https://law.asu.edu/emphasis-areas/indian-gaming-governance)
• health law (https://law.asu.edu/emphasis-areas/public-health-law-policy)
• Indian gaming (https://law.asu.edu/emphasis-areas/indian-gaming-governance)
• Indian law (https://law.asu.edu/indian-legal-program)
• intellectual property law (https://law.asu.edu/programs/intellectual-property)
• international law (https://law.asu.edu/emphasis-areas/international)
• international rule of law and security (https://law.asu.edu/programs/international-rule-of-law-and-security)
• law and sustainability (https://law.asu.edu/programs/sustainability)
• science and technology law (https://law.asu.edu/emphasis-areas/law-technology)

Emphasis areas offered online include:

• Arizona legal paraprofessional (https://asuonline.asu.edu/online-degree-programs/graduate/legal-paraprofessional-mls/)
• business law (https://asuonline.asu.edu/online-degree-programs/graduate/business-law/)
• conflict resolution (https://asuonline.asu.edu/online-degree-programs/graduate/conflict-resolution-emphases-mls/)
• construction law (https://asuonline.asu.edu/online-degree-programs/graduate/construction-law-emphases-mls/)
• contract management (https://asuonline.asu.edu/online-degree-programs/graduate/contract-management-mls/)
• corporate and health care compliance (https://asuonline.asu.edu/online-degree-programs/graduate/corporate-and-health-care-compliance-mls/)
• criminal law (https://asuonline.asu.edu/online-degree-programs/graduate/criminal-law-emphasis-mls/)
• federal contracting law (https://asuonline.asu.edu/online-degree-programs/graduate/federal-contracting-law-mls/)
• federal Indian law (https://asuonline.asu.edu/online-degree-programs/graduate/mls-federal-indian-law/)
• health care law and administration (https://asuonline.asu.edu/online-degree-programs/graduate/healthcare-law-administration-mls/)
• Indian gaming (https://asuonline.asu.edu/online-degree-programs/graduate/indian-gaming/)
• intellectual property law (https://asuonline.asu.edu/online-degree-programs/graduate/intellectual-property-law-emphasis-mls/)
• land use and property development law (https://asuonline.asu.edu/online-degree-programs/graduate/land-use-property-development-law-mls/)
• law and sustainability (https://asuonline.asu.edu/online-degree-programs/graduate/law-sustainability-emphases-mls/)
• Navajo Nation law (https://asuonline.asu.edu/online-degree-programs/graduate/mls-navajo-nation-law/)
• sports law (https://asuonline.asu.edu/online-degree-programs/graduate/sports-law-and-business-emphases-mls/)
• tribal self-governance (https://asuonline.asu.edu/online-degree-programs/graduate/tribal-government-mls/)

Pursuant to American Bar Association standards, no law credits completed prior to admission to a Juris Doctor program, including credits earned in the MLS program, may be transferred to a future JD program under any circumstances.

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.
This degree is also offered as a concurrent program with the following:

Mass Communication, MMC

W. P. Carey MBA - Full-Time Program

Information Systems Management, MS

Sustainability Solutions, MSUS

W. P. Carey MBA - Evening Program

Real Estate Development, MRED

Management, MS

Degree requirements

30 credit hours

The program consists of 30 credit hours of approved study. The degree program can be completed on a full-time or part-time basis.

Students are required to take:
SDO 501 U.S. Law and Legal Analysis: Masters (3)

Students are required to choose one of the following basic foundational courses:
SDO 510 Business Organizations: Masters (3) or LAW 654 Business Organizations (3)
SDO 511 Administrative Agencies/Regulation: Masters (3) or LAW 609 Administrative Law (3)
SDO 514 Intellectual Property: Masters (3) or LAW 664 Intellectual Property (3)
SDO 515 Criminal Law: Masters (3) or LAW 516 Criminal Law* (3)
SDO 516 Criminal Procedure-Masters (3) or LAW 604 Criminal Procedure (3)
SDO 518 Fundamentals of Contract Law: Masters (3) or LAW 515 Contracts* (4)
SDO 521 Property Law: Masters (3) or LAW 523 Property* (4)
SDO 525 Tort Law: Masters (3) or LAW 517 Torts* (4)
SDO 529 U.S. Constitutional Law: Masters (3) or LAW 522 Constitutional Law* (3)
SDO 598 Topic: Civil Procedure I: Masters (3) or LAW 518 Civil Procedure I* (4)

Other Requirements: The minimum cumulative GPA to graduate from the Master of Legal Studies program is 2.67.

*Students may enroll in no more than two of the LAW prefix designated courses marked with an asterisk. Such courses will be subject to availability.

The remainder of the credits are electives to complete the required 30 credits. Elective course selection is flexible, to accommodate the diversity of intellectual and professional interests the program is intended to serve.

MLS students can choose any SDO subject elective and most LAW subjects to complete 30 credits. Students in the MLS online program can only take SDO subject courses.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from an accredited four-year college or university in the United States or attained a comparable degree from a foreign institution.

All applicants must submit:
• completed Master of Legal Studies application form and application fee
• official transcripts from all institutions attended

• resume that does not exceed three typed pages
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Applicants should see the Sandra Day O'Connor College of Law website for acceptable TOEFL scores and additional information for foreign-educated applicants.

Master of Legal Studies applicants with foreign education credentials must have all transcripts evaluated by the Academic Credentials Evaluation Institute Inc. ACEI independently evaluates all academic documents issued in countries other than the United States. Students should contact ACEI through that organization's website to obtain an application for an evaluation. Applicants must request a course-by-course evaluation and order an official copy to be sent directly to:

Sandra Day O'Connor College of Law
Arizona State University
Beus Center for Law and Society
Office of Admissions and Financial Aid
Mail Code: 9520
111 E Taylor St.
Phoenix, AZ 85004

Applicants who have received their bachelor's or master's degree in the U.S. can apply through the MLS FastApp application process, which streamlines the application process and may allow for an offer of conditional admission to the Master of Legal Studies program while the applicant continues to submit any additional requested documentation.

If a decision cannot be made from the FastApp, the Sandra Day O'Connor College of Law admission team may request additional information from the applicant, including any or all of the following:

• explanations to affirmative answers to application questions pertaining to conduct
• two letters of recommendation
• writing sample

Admission to the program is competitive. Selection is based on a variety of factors, including academic background and potential, diversity of experience and background, career experience and ambitions, space and resource limitations in the law school, and other factors.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-legal-studies/) for program descriptions and to request more information.

Career opportunities

The MLS degree is designed for those who are looking to obtain working knowledge of the law but do not intend to become practicing lawyers. Graduates have achieved training in complicated legal topics and lawyering skills that prove invaluable to law firms, court systems, government agencies and corporations. Graduates have many career paths, including:

- accreditation director

- fraud investigator
- operations director
- risk analyst
- senior administrator (e.g., inside a law firm)
- senior business analyst
- senior compliance director
- senior contract negotiator

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Sports Law and Business, MSLB (LWSLBMSLB)

College/School: Sandra Day O'Connor College of Law

Campus: Downtown Phoenix

Program description

The Master of Sports Law and Business program at the Sandra Day O'Connor College of Law at Arizona State University is centrally located in vibrant downtown Phoenix. This unique program blends sports, law and business from a nationally ranked law school with world-class faculty.

The sports law and business program uses the expertise of world-class faculty and programming to provide you with specialized and targeted experiences for legal scholars with career aspirations in sports. It's the only law master's degree program in the U.S. that combines sports, law and business into one comprehensive program.

This in-person 36 credit hour degree program is offered in the fall semester and has both full-time and part-time opportunities. You can apply for these opportunities: the Allan "Bud" Selig Scholarship, the SLB Student Leadership Team, and MSLB graduate assistantship positions with Sun Devil Athletics. These opportunities are only available to you once you've been accepted into the MSLB program.

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.
This degree is also offered as a concurrent program with the following:

Juris Doctor, JD

Degree requirements
Required Core (18 credit hours)
SLB 510 Amateur Sports Law: MSLB (3) or SLB 512 Professional Sports Law: MSLB (3)
SLB 511 Career Strategies and Business Communications in the Sports Industry (3)

SLB 514 Negotiations and Alternative Dispute Resolutions in the Sports Industry (3)
SLB 517 Marketing for Sports Organizations (3) or SLB 598 Topic: Applied Sports Marketing: MSLB (3)
SLB 518 Sports Analytics (3)
SLB 581 U.S. Law and Legal Analysis Through Sport: MSLB (3) or LAW 519 Legal Method and Writing (3)

Electives or Research (15 credit hours)
SLB 508 Strategic Planning for the Future in Sports: MSLB (3)
SLB 516 Revenue Generation in the Sports Industry (3)
SLB 519 Pro Sports Team Operations and Legal Issues: MSLB (3)
SLB 522 NCAA Compliance, Infractions and Enforcement: MSLB (3)
SLB 523 MLB's Impact on Law and Society: MSLB (1-3)
SLB 524 Law and Business of Sports Branding: MSLB (3)
SLB 525 Sports Big Events: Law/Biz/Ops: MSLB (3)
SLB 598 Topic: Innovating Sports Organizations: Leadership and Diversity and Inclusion (3)
SLB 598 Topic: Sports Sponsorship, Partnership and Activations (3)
SLB 598 Topic: Applied Sports Marketing: MSLB (3)

Culminating Experience (3-6 credit hours)
SLB 593 Applied Project (3-6)

Additional Curriculum Information
Students must complete a minimum of three credits with a maximum of six credits of an applied project to serve as their culminating experience. This allows for additional applied projects for those who want to apply their studies to varying experiences.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill and complete all requirements in order for their application to be reviewed. Applicants who submit an incomplete application or do not provide all of the required documents will not be reviewed by the admission committee.

In addition to the MSLB application, applicants are required to submit the following documents:
• official transcripts or unofficial transcripts
• resume (one or two pages)
• personal statement; a minimum of 1,250 words is required
• two professional references
• video pitch

Additional application requirements may be requested. For updates on these items, students may visit the ASU Law website (https://law.asu.edu/admission/mslb).

Applications are reviewed on a rolling admission basis. Once an application has been reviewed, an applicant may be selected for an interview based on the qualifications presented in the application.

A minimum of a bachelor's degree from a regionally accredited four-year college or university in the United States or a comparable degree from a foreign institution is required.

Admission to the sports law and business program is only offered for the fall semester; applicants do not have the option for a spring or summer semester start date.

International Student Application Information
An applicant whose native language is not English must provide proof of English proficiency as indicated by acceptable scores regardless of their current residency. Applicants should have a TOEFL iBT® score of at least 5, or a score of 100 (taken at a testing center) if taken before January 21, 2026. Exceptional candidates with relevant experience and background who have scores slightly below these thresholds will also be considered. ASU's institutional code is 4007. This proof of English proficiency is required for international students and must be included in the MSLB application documents.

Applicants who have received undergraduate or graduate degrees from foreign institutions must have their transcripts evaluated by World Education Services, and WES must send that evaluation to the offices of the Sandra Day O'Connor College of Law. Evaluation of international transcripts must be reviewed and included in the application.

Additional Application Information
Transcripts
Official transcripts from all postsecondary institutions of higher education attended must be submitted to mslbasu@asu.edu (mailto:mslbasu@asu.edu) or mailed to the ASU Law admission office. An official transcript is a transcript certified by the issuing school and sent directly to ASU or delivered to ASU in a sealed envelope with a seal intact.

Character and Fitness
If an applicant answers Yes to any of the questions in this section, a separate statement or electronic attachment providing a complete description of the actions and full details of the charges and sanctions against the applicant must be included. The applicant also must include any charges that have been expunged, sealed or set aside, even if told by a judge or attorney it is not necessary to include. Additionally, the applicant should provide a personal account of the events that led to the charges or discipline. Failure to include this information results in an incomplete application. Incomplete applications are not reviewed by the admission committee.

Admission to the MSLB program is very competitive. Selection is based on a variety of factors, including academic background, experience and background in the sports industry, personal statement and goals, and other factors determined through the application process.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Analyze legal issues related to sports law and business.
- Write effectively on topics related to sports and business.
- Summarize current events, developments, and trends in the sports industry.

Global opportunities

Global experience: Students have an opportunity to study abroad. Interested students can explore "Sports Law and Business Down Under (https://law.asu.edu/newsroom/inaugural-summer-trip-australia-provides-asu-law-students-invaluable-insight-international)" in Melbourne, Australia and earn three course credits towards their program.

Career opportunities

Graduates are equipped to understand the sports market and the regulatory forces at play in the U.S. and globally.

Phoenix is a destination for the next generation of sports professionals, boasting opportunities for working, learning= and networking in every major industry in American sports.

ASU Law's MSLB program prepares graduates for a career in the sports industry at the highest levels and is geared= toward those who want to master legal principles that impact sports organizations such as the NBA, NFL, NCAA, MLB or= PGA.

Trial Advocacy, Certificate (LWTAGRCT)

College/School: Sandra Day O'Connor College of Law

Campus: Downtown Phoenix

ASU is not currently accepting applications for this program.

Program description

The graduate certificate program in trial advocacy (https://law.asu.edu/degree-programs/jd/certificates/trial-advocacy)= provides you with a prescribed course of study to help prepare you for practice if you are interested in pursuing a= career in criminal prosecution, criminal defense or civil litigation.

STEM-OPT extension eligible: No

Degree requirements
Required Core (6 credit hours)
LAW 602 Civil Procedure II (3) or LAW 604 Criminal Procedure (3)
LAW 605 Evidence (3)

Alternative Dispute Resolution Requirement (2 credit hours)

Litigation Requirement (3 credit hours)

Electives (4 credit hours)

Other Requirements
practical experience in client representation

Additional Curriculum Information
To earn the certificate, a student must take classes in courtroom practice and procedure as well as alternative dispute= resolution, participate in experiential learning either through simulation-based instruction in litigation and courtroom= advocacy or by representing clients in a clinical setting, and gain additional practical experience through pro bono= service, participation in a moot court competition or enrollment in a Rule 38 externship.

Students must complete four credit hours of electives from a selection of more than 40 classes.

Students must complete a minimum of two credit hours from the Alternative Dispute Resolution Requirement course= list.

Students must complete a minimum of three credit hours from the Litigation Requirement course list.

Students must gain practical experience in client representation by completing one of the following while maintaining continuous enrollment:

• completion of a Rule 38 externship
• pro bono service --- minimum of 50 hours working with an approved legal services organization
• representation of the College of Law in a regional, national or international moot court competition

Additional information on what specific courses can be used to fulfill the certificate requirements can be found on the College of Law trial advocacy page.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Sandra Day O'Connor College of Law.

Applicants must be existing JD program students who are currently enrolled in coursework and in good academic standing with the ASU College of Law. Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• trial advocacy certificate application
• graduate application through Law Interactive*
• proof of English proficiency

*Students should refer to the ASU Law website (https://law.asu.edu/).

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted to a graduate degree program before being considered for the certificate program. International students residing in the United States on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this program.

Further specific requirements for admission to this program can be found on the Sandra Day O'Connor College of Law website.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

The trial advocacy graduate certificate serves as a credential that represents to potential employers and clients that a Juris Doctor student has a demonstrated interest in trial advocacy and a solid foundation in the knowledge and the

skills needed to succeed in the field.

Tribal Policy, Law and Government, LL.M. (LWTBLMLAWS)

College/School: Sandra Day O'Connor College of Law

Campus: Downtown Phoenix

Program description

This Master of Laws program is designed for you, as a lawyer or law school graduate who plans to work on issues related to tribal law and federal Indian law at the professional and academic levels.

The LLM program in tribal policy, law and government can be focused in one of three areas: Indian gaming; tribal self-governance; or tribal policy, law and government. Core curricular offerings focus on domestic tribal law, federal Indian law and American institutions of law and government. The program explores the expression of domestic law within contemporary administrative, governmental and judicial institutions.

Home to the nationally known Indian Legal Program, the Sandra Day O'Connor College of Law leads the nation in producing graduates specializing in Indian law. You benefit from the extensive resources committed to the Indian Legal Program, including a director, experienced Native faculty and staff, and an Indian law clinic.

Arizona State University is located in the heart of the southwestern U.S., home to roughly one-third of the Native population in the U.S. and where many of the largest Indian nations in the country are located. The university is the academic home for several nationally known scholars researching American Indian issues, and it houses many unique resources for such scholarship, including the Labriola Collection at Hayden Library.

STEM-OPT extension eligible: No

Degree requirements
The program is administered by the Indian Legal Program and is oriented toward students who seek practical experience in tribal law and federal Indian law. It provides intensive instruction to students who graduated from a law school that had few or no courses in Indian law and who now seek to practice in these areas at a professional level. This degree program requires a minimum of 24 credit hours of study. A thesis is not required.

Students immerse themselves in the study of tribal law and federal Indian law, and they apply the knowledge and experience they gain through the practical component of the degree program, which may consist of research projects for tribal courts and governments; state, tribal and federal court practice; and tribal code drafting.

Graduates are well equipped for professional positions that require knowledge of and expertise in tribal law and federal Indian law. Students have the option of pursuing the degree on a part-time basis.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill both the Graduate College and the College of Law English proficiency requirements.

Admission to the program is competitive. To be admitted, an applicant must have completed a Juris Doctor degree or law degree at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country, and have submitted a complete application to the program.

Selection is based on academic background and potential, career experience and ambitions, diversity of experience and background, space and resource limitations in the law school, the applicant's strength of experience related to the program sought, and other factors.

Applicants are encouraged to apply electronically through the Law School Admission Council website: https://www.lsac.org (https://www.lsac.org). To be considered complete, the application must include the following:
• the completed LLM application form
• the required application fee
• a resume that does not exceed three typed pages
• a statement of interest that does not exceed 1,250 words, typed and double-spaced
• transcripts from all institutions attended, including the transcripts showing that the bachelor's degree and law degree were conferred
• two letters of recommendation
• a writing sample

Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and provided to ASU Law by LSAC.

Students should see the program website for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

According to the U.S. Bureau of Labor Statistics, employment of lawyers is projected to grow 4% between 2024 and 2034. Completing the LLM program in tribal policy, law and government can lead to a number of opportunities in Indian law, at large, helping current lawyers advance in their careers by enabling them to refine their leadership skills, become fluent with advanced terminology, and develop a keen sense of professionalism.

Graduates of the program are prepared for lucrative careers in government, economic development or health care positions that impact Native populations.

Career examples include:

- chief executive officer
- chief legal officer
- court justice
- election director for Native communities
- judge
- law firm administrator
- law firm partner
- law school professor
- litigation support director
- politician or member of Congress
- private banker for Native communities

Liberal Arts and Sciences, The College of

Actuarial Science, MS (LAACTMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Science program in actuarial science emphasizes broad awareness and appreciation of current issues faced by insurance industry practitioners as well as innovative resolutions provided by actuaries.

You advance your knowledge base by applying mathematical and statistical concepts and data analytics to the disciplines of risk management, finance and insurance. The program also includes a new, focused set of professional learning outcomes aligned with the needs of the ever-evolving insurance industry, while keeping the core technical learning outcomes in place. These guide your development of professional competencies through coursework, independent projects and opportunities outside the classroom, while remaining firmly based on a strong foundation of scholarly technical work in actuarial science.

Actuaries must pass a series of intensive professional exams to become credentialed. As a program graduate, you are prepared for the examinations required to become a credentialed professional by the Society of Actuaries or Casualty Actuarial Society and to be a competitive employee in the insurance and finance industries.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Actuarial Science, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (ACT 593)

Required Core (6 credit hours)
ACT 560 Regression Modeling In Insurance (3)
ACT 561 Machine Learning and Risk Management Applications (3)

Electives or Research (21 credit hours)

Culminating Experience (3 credit hours)
ACT 593 Applied Project (3)

Additional Curriculum Information
For electives and research, students select seven courses from an approved list. Students should see the academic unit for the approved course list. Other courses may be used with approval of the academic unit.

Only six credit hours of 400-level coursework are allowed on the plan of study, per Graduate College policy.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree (or equivalent) or master's degree from a regionally accredited college or university in a related field, such as mathematics, statistics, business, economics or predictive analytics.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• letter of intent or written statement
• two letters of recommendation
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants should have completed the following courses with a "B" or better (scale is 4.00 = "A"). ASU equivalents are given in parentheses. Courses may be substituted with approval of the academic unit:

Linear Algebra (MAT 342 or MAT 343)
calculus sequence 1-3 (MAT 270, 271, and MAT 272)
Applied Statistics (STP 420)
upper-division probability (ACT 415 or STP 421)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Apply appropriate techniques to analyze insurance datasets in coursework.
- Conduct all analyses in the field of actuarial science that appear on the preliminary actuarial exams.

- Use traditional and nontraditional predictive analytics to analyze large insurance data sets from real-world problems.

Career opportunities

Risk is a part of daily life, and wherever there is risk, there are opportunities for actuarial intervention. Many actuaries work with insurance companies to calculate premiums, to determine reserves needed to ensure an organization's financial health, and to ensure that organizations conform to stringent, complex legal mandates. Others help companies to establish retirement plans or are employed as consultants.

Graduates possess skills that are transferable to any industry and any organization that requires risk modeling and management, including:

- consulting
- energy, such as utilities, oil and gas
- environment (on issues such as climate change and the financial impact or risk of extreme events)
- financial services, such as banking and investment management
- government agencies, such as the Social Security Administration, the Department of Labor, and the Centers for Medicare & Medicaid Services (to manage social programs and to develop regulations and legislation)
- higher education
- insurance
- retirement and pensions
- transportation, such as shipping and air travel

Graduates can also apply the advanced problem-solving skills to a variety of other professional positions, such as:

- analyst
- business operations specialist
- consultant
- teacher

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Addiction Psychology, MS (LAADPSYMS)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The Master of Science program in addiction psychology pairs state-of-the-art research from internationally recognized experts in addictions with clinical expertise from licensed psychologists and licensed addiction counselors who have decades of experience providing addiction treatment.

This program provides the knowledge, skills and experience necessary for you to pursue state licensure for becoming

an addiction counselor.

ASU is an NAADAC Approved Education Provider. https://www.naadac.org/providers (https://www.naadac.org/providers)

STEM-OPT extension eligible: No

Degree requirements

45 credit hours including the required applied project course (PSY 593)

Required Core (27 credit hours)
PSY 570 Psychopharmacology (3)
PSY 601 Addiction and Substance Abuse: Assessment and Diagnosis (3)
PSY 602 Comorbidity in Substance Use Related Problems (3)
PSY 603 Evidence-based Interventions for Substance Use Related Problems (3)
PSY 604 Multicultural Issues Related to Substance Use Related Problems (3)
PSY 605 Group Therapy for Substance Use-Related Problems (3)
PSY 606 Case Management for Substance Use Related Problems (3)
PSY 607 Family and Adolescent Treatment for Substance Use Related Problems (3)
PSY 608 Supervision of Addictions Counselors (3)

Research (3 credit hours)
PSY 600 Research Methods (3)

Other Requirements (9 credit hours)
PSY 591 Seminar: Ethics (3)
PSY 680 Practicum (6)

Culminating Experience (6 credit hours)
PSY 593 Applied Project (6)

Additional Curriculum Information
Students complete six credit hours of practicum, which consists of 600 hours of applied work as an addiction counselor under supervision of licensed substance abuse counselors. With support from program advisors, students arrange for a supervision experience at a licensed addiction treatment center where they are located that provides supervision as part of the training experience. Program staff verify the licensure status of the agency and supervisor, and maintain a practicum training agreement. The practicum course also includes a weekly didactic class that facilitates the training process and monitors for any problems and successful completion of the practicum experience.

The culminating experience is a six credit hour applied project. For the applied project, students evaluate existing research on addiction treatment, identify gaps in the literature, and generate a study or recommendations that contribute to the field of addiction psychology. The applied project course also includes completion of a practice licensing exam that helps prepare students to obtain state licensure as an addiction counselor.

Courses listed for other requirements may be substituted with approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in health, behavioral health, psychology, counseling or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• professional resume
• two letters of recommendation
• written statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/addiction-psychology-masters/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Analyze different theories of addiction and models of addiction treatment in course projects.
- Develop integrated treatment plans based on client needs and assessment results, and implement the treatment plan in supervised practicum setting.
- Formulate resolutions to ethical, legal and cultural dilemmas that occur in clinical practice.

Career opportunities

Substance abuse counselor jobs can be incredibly rewarding and offer a wide variety of experiences. Graduates can find employment in substance abuse treatment centers; community mental health agencies; the primary care, integrated health and criminal justice fields; hospitals; schools and universities; and military and veterans affairs offices and hospitals.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.ASU's master's degree in addiction psychology meets the educational requirements to qualify for licensure in Arizona. Students should note there are additional postdegree requirements for licensure. The program also covers the educational content requirements for most states in the U.S.

Addiction and Substance-Use Related Disorders, Certificate (LAASRDGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

Addiction and substance abuse is one of America's top public health problems, and there is a growing need for well-trained addictions counselors.

In the graduate certificate program in addiction and substance-use related disorders, you explore state-of-the-art research and learn from internationally recognized experts in addictions with clinical expertise of licensed psychologists and licensed substance abuse counselors who have decades of experience providing substance abuse treatment.

This program is valuable if you are in counseling, social work, psychology, medicine and various fields of therapy that provide services to individuals and families suffering from addiction and substance use disorders.

The addiction certificate program meets all the curricular requirements of the Arizona State Board of Behavioral Health Examiners for licensure in substance abuse counseling as well as most national and state certification requirements.

STEM-OPT extension eligible: No

Degree requirements

21 credit hours

Required Core (18 credit hours)
PSY 570 Psychopharmacology (3)
PSY 601 Addiction and Substance Abuse: Assessment and Diagnosis (3)
PSY 602 Comorbidity in Substance Use Related Problems (3)
PSY 603 Evidence-Based Interventions for Substance Use Related Problems (3)
PSY 604 Multicultural Issues Related to Substance Use Related Problems (3)
PSY 605 Group Therapy for Substance Use-Related Problems (3)

Other Requirements (3)
PSY 591 Topic: Ethics (3)

Additional Curriculum Information
For students interested in pursuing licensure in substance abuse counseling, this graduate certificate meets all seven of the core content curricular requirements for the Arizona State Board of Behavioral Health Examiners. In addition, the program is in compliance with national certification curriculum guidelines.

PSY 591 can be substituted with approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any health, behavioral health or counseling-related field from a regionally accredited institution or an equivalent degree from an international institution that is officially recognized by its country.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• curriculum vitae or resume
• one letter or recommendation
• personal statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/addiction-and-substance-use-related-disorders-graduate/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Develop a comprehensive treatment plan using biopsychosocial assessment techniques in final course projects.
- Develop resolutions to ethical and legal dilemmas that occur in clinical practice.

Career opportunities

Substance abuse counseling can be incredibly rewarding, and the field offers a wide variety of experiences. Jobs are available in substance abuse treatment centers; community mental health agencies; primary care, integrated health and criminal justice facilities; hospitals; schools and universities; and military and veterans affairs centers. The U.S. Bureau of Labor Statistics expects employment of substance abuse counselors to grow 17% between 2024 and 2034, much faster than other occupations. Job prospects are expected to be very good for counselors who are licensed.

Career examples include:

- addiction counselor
- licensed addiction counselor
- licensed substance abuse counselor
- substance abuse counselor

- substance abuse technician

African and African American Studies, Certificate (LAAFRICACE)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The graduate certificate program in African and African American studies focuses on interdisciplinary study of the= peoples, history and cultures of Africa and the multifaceted experiences of people of African descent in Europe and the= Americas. You gain access to an extensive range of information and systematic knowledge committed to the new= model of African and African diaspora studies that focuses on the intersections of race, culture and gender with= transdisciplinary perspectives.

Courses examine interdisciplinary approaches to studying race, ethnicity, social justice, gender, citizenship and= economic development. You study issues in African and African American history, migration patterns, art, literature,= religion, family life and education, as well as how race and institutional racism have impacted the development of= African descended people in America and around the world.

This program offers an international dimension to the study of peoples and cultures of African descent, enabling you to= enhance your knowledge about global issues and expand your research pursuits. The program highlights the faculty= members' intellectual and research strengths, and the curriculum's transdisciplinary strategies and research= approaches that emphasize the continuities and disjuncture of history and experiences throughout Africa and the= diaspora.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
AFR 502 Africa and African Diaspora World (3)

Electives (12 credit hours)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution. Students who are not regularly admitted to a graduate degree program may still pursue the certificate.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program. When applicable, applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in a master's degree program.

Applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this certificate program.

Official copies of transcripts must be submitted from all colleges and universities where the applicant earned a bachelor's or master's degree.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Graduates will be able to employ appropriate theory and methods in the study of the African diaspora at a graduate level.
- Graduates will be able to practically and professionally apply knowledge of the African diaspora.

Career opportunities

Students who earn a graduate certificate in African and African American studies have many career opportunities, including:

- pursuing a career in journalism, teaching, law enforcement, social policy, human rights or civil rights
- starting their own business
- writing novels or screenplays

They also may attend graduate school in any number of disciplines, including anthropology, archeology, history, political science, psychology and sociology, or attend medical school or law school.

American Indian Studies (Cultural Resource Revitalization and Sustainability), MS (LAAISCMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is not currently accepting applications for this program.

Program description

This transdisciplinary Master of Science program in American Indian studies with a concentration in cultural resource revitalization and sustainability provides you with an intellectual and practical understanding of the issues facing American Indian populations, and the ability to apply that knowledge.

You acquire problem-solving skills that are useful in a variety of professional arenas, including government, private and nonprofit agencies. The curriculum's focus is on languages, cultures, arts, activism, histories, legal policy and education from an American Indian studies paradigm perspective. Delivery is mainly through in-person courses.

Through the cultural resource revitalization and sustainability concentration, you explore the development and implementation of American Indian-focused cultural resource management processes and analyze how policies and laws can improve or hinder the protection of American Indian cultural and funerary patrimony.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (AIS 593)

Required Core (6 credit hours)
AIS 501 Foundations of American Indian and Indigenous Studies (3)
AIS 514 Indigenous Thinkers and Intellectual Traditions (3)

Concentration (9 credit hours)

Electives (6 or 9 credit hours)

Culminating Experience (6 credit hours)
AIS 593 Applied Project (6) or
AIS 599 Thesis (6)

Additional Curriculum Information
As a culminating experience, students must complete a thesis or an applied project, depending on the student's career goals and interests. A thesis is primarily research oriented and involves formulating a research question, conducting a literature review and employing rigorous methodologies to gather and analyze data. A thesis should demonstrate the student's ability to conduct independent research and provide insights that advance academic knowledge and can serve as a stepping stone for further academic pursuits, such as a PhD. An applied project is just as rigorous as a thesis but more practice oriented and designed to solve real-world problems or address specific issues within a community, organization or field. It emphasizes the practical application of knowledge rather than purely theoretical research. Applied projects often focus on improving practices, policies or programs within a particular setting.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited college or university of recognized standing in a related field such as history, justice studies, sociology, ethnic studies, anthropology, political science or education.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal essay
• writing sample
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal essay should be three to four pages and indicate the applicant's prior research experience and training, professional goals and research interests, and the fit between their interests and the program's emphases, requirements, current faculty and coursework.

The writing sample should be 12 to 15 pages and can be a relevant policy paper or report, or a research paper for an academic course.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

After leaving ASU, many graduates:

- conduct research related to Indigenous culture revitalization
- direct or manage Indigenous culture organizations or companies
- facilitate Indigenous community partnerships and projects

American Indian Studies (Indigenous Rights and Social Justice), MS (LAAISIMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Science program in American Indian studies with a concentration in Indigenous rights and social justice is a transformative offering that empowers you with the knowledge and skills necessary to advance the rights of Indigenous peoples and their communities. You prepare to promote social justice in various contexts, including community-serving organizations, tribal agencies and nonprofit agencies. The interdisciplinary program draws on insights from law, sociology, anthropology, history and cultural studies, providing you with a comprehensive understanding of the systemic challenges faced by Indigenous communities around the world.

In the program, you study the historical and contemporary injustices that have impacted Indigenous peoples, including colonialism, land dispossession, cultural erasure and social inequities. Courses critically engage these issues, exploring how legal frameworks, social movements and grassroots activism intersect to shape, protect and advance Indigenous rights today. Courses cover a wide variety of topics, including Indigenous legal systems; human rights law; environmental justice; and the role of international organizations in protecting, defending and promoting Indigenous rights.

This program specifically focuses on decolonization and the reclamation of Indigenous knowledge systems, leadership and justice. You learn from Indigenous scholars and community leaders, gaining insights into traditional governance structures, cultural practices and contemporary strategies for resistance and revitalization. This approach enriches the academic experience and fosters meaningful relationships between you and Indigenous communities.

In addition to theoretical foundations, the program emphasizes practical skills through experiential learning opportunities. You may participate in fieldwork, internships or community projects that enable you to apply your knowledge in practical settings. These experiences provide you with valuable opportunities to engage with Indigenous organizations, governmental bodies and advocacy groups, enhancing your understanding of the complexities involved in promoting social justice.

The program fosters a collaborative learning environment that encourages critical dialogue and diverse perspectives. You are invited to discuss the ethical implications of your work, reflecting on the responsibilities of advocating for marginalized communities. This focus on ethics and accountability ensures that you have the necessary knowledge and understand the importance of respect, reciprocity and solidarity in your professional endeavors.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

American Indian Studies, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (AIS 593)

Required Core (6 credit hours)

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal essay should be three to four pages and indicate the applicant's research experience and training, professional goals and research interests, and the fit between their interests and the program's emphases, requirements, current faculty and coursework.

The writing sample should be 12 to 15 pages; relevant policy papers or reports, and research papers for an academic course are examples of acceptable types of writing samples.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Conduct research using methodologies that are culturally sensitive and respectful of Indigenous communities.
- Communicate effectively about complex issues related to Native American communities, both orally and in writing.
- Investigate processes and policies that advance Indigenous social justice and Indigenous rights.

Career opportunities

Graduates of the program are well-prepared to pursue careers in various fields, including law, policy development, community organizing, education and international relations, and as community liaisons. They emerge as informed advocates capable of navigating the intricate legal and social landscapes that affect Indigenous peoples. With a commitment to equity, diversity and cultural sensitivity, graduates are ready to challenge systemic injustices and contribute to empowering Indigenous communities.

American Indian Studies (Tribal Leadership and Governance), MS (LAAISTMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

If you are committed to advancing the goals of Indigenous communities through effective governance and leadership practices, the Master of Science program in American Indian studies with a concentration in tribal leadership and governance is for you. In this interdisciplinary program, you gain a deep understanding of the distinct political, cultural and legal frameworks that shape tribal nations, preparing you to become an effective community leader.

The curriculum combines theoretical knowledge with practical skills, covering essential topics such as tribal sovereignty, governance structures, decision-making processes and community development. You explore traditional Indigenous practices and contemporary governance models, gaining insights into balancing cultural values with modern goals and challenges. Key focus areas include economic development, environmental stewardship, legal frameworks and community engagement. The program emphasizes ethical leadership and cultural sensitivity, ensuring that you approach your work with respect for Indigenous values and traditions.

You learn from Indigenous research scholars, community leaders, and practitioners who bring rich perspectives and experiences to the classroom. This collaborative environment fosters critical dialogue and encourages you to reflect on your role as a community partner and advocate. By engaging with diverse voices and perspectives, you develop a holistic understanding of the challenges and opportunities within tribal governance. Through a combination of theoretical insights and practical experience, this program prepares you to address the complex challenges facing tribal

nations and to advocate for sustainable, culturally relevant solutions. You have the opportunity to elevate tribal leadership and contribute to the empowerment of Indigenous peoples.

- Communicate effectively about complex issues related to Native American communities, both orally and in writing.
- Propose a policy structure to address a legal issue impacting an Indigenous nation or community.

Career opportunities

Graduates are well-prepared for a variety of roles working with or for tribal governments, tribally serving government agencies, policymakers, nonprofit organizations and community-based initiatives. They emerge as skilled leaders capable of navigating the intricacies of tribal administration, policy development and community engagement. Whether working in economic development, environmental management or social services, graduates are prepared to drive positive change and enhance the well-being of Indigenous communities.

American Indian Studies (Visual and Oral Culture), MS (LAAISVMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is not currently accepting applications for this program.

Program description

The Master of Science program in American Indian studies with a concentration in visual and oral culture is a transdisciplinary program that provides you with an intellectual and practical understanding of the issues facing American Indian populations, and the ability to apply that knowledge.

You gain problem-solving skills in a range of professional arenas, including governmental, private and nonprofit agencies. The program focuses on the languages, cultures, arts, activism, histories, legal policy and education from an American Indian studies perspective. Delivery is through in-person courses.

The visual and oral culture concentration explores and contributes to American Indian culture and history as it exists in visual, material and written forms through creative writing, literature, poetry, film, photography, performing arts, digital arts, oral tradition, history and communication from an American Indian studies paradigm.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (AIS 593)

Required Core (6 credit hours)
AIS 501 Foundations of American Indian and Indigenous Studies (3)
AIS 514 Indigenous Thinkers and Intellectual Traditions (3)

Methods Requirement (3 credit hours)
AIS 525 Critical Indigenous Research Methodologies (3) or
AIS 535 Indigenous Participatory Action Research (3)

Concentration (6 or 9 credit hours)

Electives (6 credit hours)

Culminating Experience (6 credit hours)
AIS 593 Applied Project (3) or
AIS 599 Thesis (6)

Additional Curriculum Information
As a culminating experience, students must complete a thesis or an applied project. The choice between the two typically depends on the student's career goals and interests. A thesis is primarily research-oriented, and involves formulating a research question, conducting a literature review, and employing rigorous methodologies to gather and analyze data. A thesis aims to demonstrate the student's ability to conduct independent research and provide insights that advance academic knowledge and can serve as a stepping stone for further academic pursuits, such as a Doctor of Philosophy. An applied project is just as rigorous as a thesis but more practice-oriented and designed to solve real-world problems or address specific issues within a community, organization or field. It emphasizes the practical application of knowledge rather than purely theoretical research. Applied projects often focus on improving practices, policies or programs within a particular setting.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited college or university of recognized standing in a related field such as history, justice studies, sociology, ethnic studies, anthropology, political science or education.

Applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or applicants must have a minimum cumulative GPA of a 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal essay
• writing sample
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal essay should be three to four pages that indicate the applicant's prior research experience and training, professional goals and research interests, and the fit between their interests and the program's emphases, requirements, current faculty, and coursework.

The writing sample should be 12 to 15 pages and can include a relevant policy paper or report, or a research paper for an academic course.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

After completing the program, many graduates:

- conduct academic research
- curate and produce Indigenous festivals and events
- direct or manage Indigenous art companies, studios or dance-related organizations
- facilitate community partnerships and projects with Indigenous communities

American Indian Studies, MS (LAAISMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Science program in American Indian studies is an interdisciplinary program that integrates humanities and social sciences to explore Native American cultures, histories and contemporary issues. Through coursework, research and community engagement, you gain a deeper understanding of Indigenous worldviews, social justice and advocacy while developing critical leadership, research and policy skills.

Welcoming all qualified students provides for a supportive, collaborative learning environment where diverse perspectives and experiences are valued. The program's interdisciplinary approach allows you to examine Indigenous governance, sovereignty, environmental justice, education and cultural preservation, while faculty mentorship and hands-on learning opportunities provide you with the tools needed to engage in meaningful scholarship and advocacy. You gain expertise in Indigenous governance, policy research, community development, and cultural resource management, equipping you to take on leadership roles that foster meaningful change.

Whether pursuing academic research, public service or community engagement, this program empowers you to make a lasting impact and contribute to the advancement of Indigenous rights, sovereignty and self-determination.

STEM-OPT extension eligible: No

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in history, justice studies, sociology, ethnic studies, anthropology, political science or education or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• resume or CV
• personal essay
• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL (iBT) or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

The three- to four-page personal essay should describe any prior research experience and training, the applicant's professional goals and research interests and the alignment between the applicant's interests and our program's emphases, requirements and coursework. If there are any faculty who the applicant would like to work with, this should also be included in the personal statement.

The two letters of recommendation should be from individuals who can attest to the applicant's strengths and weaknesses for graduate study, critical thinking, writing and verbal skills.

It is recommended that applicants apply to the program a minimum of one month before classes begin.

Applicants with grades below the minimum level may be considered for provisional admission if there is strong evidence suggesting the potential of outstanding performance and skills in American Indian studies.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Graduates have an interdisciplinary foundation for careers in tribal governance, policy development, cultural preservation, government, nonprofit organizations and public service. Grounded in Indigenous knowledge, history, literature, arts, and environmental stewardship, they are able to support Native communities, strengthen tribal sovereignty, and promote social justice.

Graduates pursue careers in:

- cultural resource management
- education

- environmental consulting
- nonprofit leadership
- policy analysis
- social work
- tribal administration

With a commitment to Indigenous self-determination and advocacy, graduates are empowered to make a lasting= impact across multiple sectors while advancing Indigenous perspectives and priorities.

American Studies, Certificate (LAAMSGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description

The graduate certificate program in American studies consists of interdisciplinary inquiries into the diverse cultures,= global impact, social systems, gendered experiences, socioeconomic realities and political thought of the United States.= The field of American studies has evolved to include an understanding of diversity in U.S. society; how the U.S. national= community represents and imagines itself; how this resonates globally; and the role of social movements seeking to= achieve political, legal and economic change.

The program trains students in:

• applied research methods, particularly those that involve community involvement and engagement
• critical methodologies, including how alternative voices are key in research, politics and policy, and social justice work
• explorations of racial literacy, gender, sexuality and socioeconomic experiences grounded in historical contexts that facilitate understanding of contemporary U.S. populations
• the history and trajectory of the field of American studies
• the use of storytelling and narratives to represent diverse communities and facilitate broader understanding across groups

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
AMS 502 American Studies: Theory and Method (3)

Methods (3 credit hours)
AMS 500 Research Methods (3)

Electives (9 credit hours)

Additional Curriculum Information
For electives, students select courses from an approved list provided by the academic unit.

AMS 500 may be substituted with an alternative methods course as approved by the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• letter of intent
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/american-studies/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Articulate key theories and concepts in the field of American Studies.
- Evaluate how the field of American Studies has developed locally and globally since its inception.
- Write a final proposal that details what specific methods and critical approaches they plan to explore on a given topic.

Career opportunities

Graduates of the certificate program are prepared for careers in policy, education and teaching, urban planning, sustainability, sociopolitical movements, environmental impacts, advocacy, nonprofit organizations, government, journalism, law and justice, public safety, and health. This certificate program is also well-suited to be paired with other professional degrees that prepare students for these careers.

American Studies, MA (LAAMSTMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Arts program in American studies trains you in interdisciplinary approaches aimed at understanding the American experience in local and global contexts.

The array of disciplines spans the arts, humanities and social sciences, and faculty expertise covers a wide variety of ethnographic, historical, literary and media studies as well as interdisciplinary and community-based approaches. Given its geographical location in the American Southwest, the program values an exploration of diasporic and transnational influences in U.S. cultures and social and political history.

The American studies faculty have strengths and expertise in the areas of critical ethnic studies, Indigenous studies, gender studies, Black studies, immigration studies, justice studies, disability studies, queer studies, Latino studies, transborder studies, Asian American studies, cultural studies, environmental humanities and sports studies, enabling you to focus your education around these areas.

You gain expertise from working in a community of scholars dedicated to addressing critical questions of what America means, what American studies uncovers and how to expand the boundaries of the new American conversation. You are immersed in conversations about how one develops, conducts and engages in research on the American experience in academia and beyond. Additionally, you explore the field of American studies as the interdisciplinary analysis of American culture from multiple critical perspectives within transnational dynamics and exchanges.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Asian Pacific American Studies, BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (AMS 593)

Required Core (3 credit hours)
AMS 502 American Studies: Theory and Method (3)

Other Requirement (3 credit hours)
Methods course (3)

Electives or Research (18 or 21 credit hours)

Culminating Experience (3 or 6 credit hours)
AMS 593 Applied Project (3) or
AMS 599 Thesis (6)

Additional Curriculum Information
Students must complete one methods course for the degree, with academic advisor approval; AMS 502 cannot be used to meet this requirement. These courses can be drawn from a wide array of units across the various ASU campuses, but students should take advantage of the SST graduate methods courses. The academic unit sends lists of SST methods courses once per semester; students should consult with their faculty advisor or chairperson and get approval from the graduate chairperson in American studies to determine the best courses to take.

For electives or research, students should see the academic unit for the approved course list. Students choose 18 credit hours for the thesis option or 21 for the applied project option.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• writing sample
• curriculum vitae
• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. This program requires a TOEFL iBT® score of 4.5, or 90 (taken at a testing center) if taken before January 21, 2026.

The writing sample may be an article, published or unpublished; a research paper; a seminar paper; or any other extended sample of expository skill. A minimum of 4,000 words is required. The document should not be password protected.

The statement of purpose must be about 500 words and should be addressed to the American Studies Graduate Studies Committee. It must explain the applicant's scholarly background and training, career goals, the area of study they wish to pursue, and why they want to pursue graduate study at ASU.

Two references are required. Applicants should contact the faculty or professional supervisors they intend to use for references before listing them on the application and inform the intended recommenders that they will receive an

email from the ASU American studies program asking them to complete a questionnaire and provide comments on the applicant's suitability for graduate study. Applicants should confirm recommenders' email addresses before submitting them on the application. References from family members or relations are not recommended.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Articulate key theories and concepts in the field of American Studies.
- Evaluate how the field of American Studies has developed locally and globally since its inception.
- Write a final proposal that details what specific methods and critical approaches they plan to explore on a given topic.

Career opportunities

American studies graduates are able to bridge a strong theoretical foundation with applied research, making them well-equipped to enter national and international dialogues.

Graduates may go on to law school, graduate school or other professional degree programs. They find success in a number of areas in local and international contexts, including:

- business
- communications
- education
- government
- journalism
- law and medical fields
- nonprofits
- political consulting
- professional writing
- public engagement and community relations

Animal Behavior, PHD (LAANBPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy in animal behavior is a transdisciplinary graduate degree program that provides you with doctoral-level training in mechanistic and functional approaches to understanding behavior in a variety of animal taxa.

The study of behavior is at the interface of several scientific disciplines, including anatomy, ecology, evolution, neuroscience and physiology. This program offers you the diverse but specialized array of skills and knowledge needed to produce excellent research in animal behavior.

You gain expertise with applied scientific value in areas such as veterinary science, and mental and behavioral health in humans. The ecological focus of the program feeds into local, state and global priorities in biological conservation and ecosystem sustainability.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, an oral comprehensive exam, a written comprehensive exam, a prospectus and a dissertation

Required Core (8 credit hours)
ANB 601 Research Strategies in Animal Behavior (4)
ANB 602 Current Issues in Animal Behavior (1)

Electives or Research (64 credit hours)

Culminating Experience (12 credit hours)
ANB 799 Dissertation (12)

Additional Curriculum Information
Core course ANB 602 is a one credit hour course taken four times.

The department and the student's advisor determine a plan for elective and research courses in conjunction with the student.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:
• graduate admission application and application fee
• official transcripts
• academic record form
• personal statement
• curriculum vitae or resume

• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Review the literature relevant to the research question in animal behavior that they address in their dissertation.
- Execute a research plan of their own design that addresses a significant scientific question about animal behavior.
- Communicate the rationale and results of their research, both orally and in writing.

Career opportunities

A PhD program in animal behavior provides strong preparation for academic careers at every level, including community colleges and research universities. The skills and knowledge obtained in this program are also valuable for government careers in federal and state agencies responsible for wildlife management and conservation, and for conservation-related careers in nongovernmental organizations.

Career examples include:

- animal scientist
- biology professor
- conservation biologist
- postsecondary biology teacher
- wildlife biologist

Anthropology (Complex Adaptive Systems Science), PHD (LAANTHCPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The School of Human Evolution and Social Change is an excellent choice if you want to pursue a Doctor of Philosophy degree in the classic fields of anthropology: archaeology, bioarcheology, evolutionary anthropology and sociocultural anthropology. It's also an ideal environment if you want to combine these approaches and other disciplines to explore specific issues or research questions within a transdisciplinary context.

The flexible graduate curricula are designed to encourage you to design innovative plans of study that enable you to pursue your interests while you receive broad training in key areas. The anthropology faculty actively engage with faculty in other disciplines; these include applied mathematics, chemistry, environmental economics, epidemiology, formal modeling, genetics, sociology, sustainability, technology and society, and urban planning.

The complex adaptive systems science doctoral concentration trains you to be a part of the next generation of scientists studying the advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing university-wide research on complex adaptive systems science at Arizona State University and emphasizes the value of a complex adaptive perspective to give better insight and a more active role in seeking solutions to a broad array of critical issues facing society today. The training you receive in this program prepares you to become an expert scholar able to contribute not only to your chosen field but also to finding solutions to humankind's greatest challenges.

You receive training in data analysis and research design within the context of human evolution, archaeology and the wider field of anthropology. Through anthropological coursework, you learn how to ask important questions about the human species and employ statistics to analyze and extract meaning from data. You also learn to appreciate your place in nature and the long history of human societal change that brought you to where you are today.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Students who enter the program with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate degree program. This leaves 30 credit hours of coursework, 12 credit hours of research and 12 credit hours of ASB 799 Dissertation (54 credit hours total) to be earned postadmission.

Students who enter without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio, which is formally evaluated by a faculty committee, and present that research in a public forum before continuing to the later stage of the doctoral program.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in complex adaptive systems science, students select 12 credit hours from an approved list of applicable courses related to complexity.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study, and they typically have a member of the complex adaptive systems science graduate faculty as a member of their doctoral supervisory committee.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement outlining educational and professional goals
• current curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Undergraduate coursework in anthropology is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of general anthropology in a manner to be specified at the time of admission.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people trained in anthropology are increasingly sought for their broad, holistic knowledge and perspectives, which are the hallmarks of anthropology. Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- curating cultural resources
- directing nonprofit organizations
- directing programs in the private or public sector
- managing culture or heritage resources in private or public sectors
- modeling infectious diseases
- planning communities
- teaching

Anthropology (Urbanism), PHD (LAURBPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is not currently accepting applications for this program.

Program description

The School of Human Evolution and Social Change is an excellent choice if you want to pursue a Doctor of Philosophy in the classic fields of anthropology:

• archaeology
• bioarcheology
• evolutionary anthropology
• sociocultural anthropology

It's also an ideal environment if you want to combine these approaches and other disciplines when exploring specific issues or research questions within a transdisciplinary context. The flexible graduate curricula encourages you to design innovative plans of study to pursue your interests while receiving broad training in key areas. The anthropology faculty actively engage with faculty in other disciplines, including:

• applied mathematics
• chemistry
• economics
• environmental
• epidemiology
• formal modeling
• genetics
• sociology
• sustainability
• technology and society
• urban planning

The training you receive in this program prepares you to become an expert scholar able to contribute not only to your chosen field but to finding solutions to humankind's greatest challenges. The concentration in urbanism leverages the varied interests in urbanism and helps you as you attempt to compare, contrast and take stock of urbanism. Working with faculty from across a range of departments and programs at ASU, you are able to capture the creative tensions that scholarship on urbanism has inspired in order to stimulate a provocative, constructive kind of inquiry.

This degree program provides training in data analysis and research design within the context of human evolution, archaeology and the wider field of anthropology. In this program, through anthropological coursework, you learn how to ask important questions about the human species and employ statistics to analyze and extract meaning from data. You learn to appreciate your place in nature and the long history of human societal change that brought you to where you are today.

STEM-OPT extension eligible: No

Degree requirements

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate. This leaves 30 credit hours of coursework, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned post-admission.

Students entering without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in urbanism, 15 credit hours are selected from an approved list of applicable courses related to urbanism. These courses include the core urbanism course, GCU 516, as well as one course from each of the four urbanism clusters. These clusters are:

• built form
• culture and society
• institutions and governance
• natural environment

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement outlining educational and professional goals
• current curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Undergraduate coursework in anthropology is not a prerequisite for admission, but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of general anthropology in a manner to be specified at the time of admission.

Applicants may include with their application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Synthesize major theories, methodological approaches, and empirical findings within their chosen subfield(s)—Archaeology, Bioarchaeology, Evolutionary Anthropology, or Sociocultural Anthropology.
- Design a comprehensive study analyzing a current issue in the field.
- Evaluate urban social processes using urban anthropological theory and methods.

Career opportunities

The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people trained in anthropology are increasingly sought for their broad, holistic knowledge and perspectives, which are the hallmarks of anthropology. Some career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- curating cultural resources
- directing nonprofit organizations
- directing programs in the private or public sector
- managing culture or heritage resources in private or public sectors
- modeling infectious diseases
- planning communities
- teaching

Anthropology, PHD (LAANTHRPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

If you are interested in pursuing a Doctor of Philosophy in the classic fields of anthropology, The School of Human Evolution and Social Change is an excellent choice. It offers coursework in the traditional fields of study:

• archaeology
• bioarchaeology
• evolutionary anthropology
• sociocultural anthropology

It's also an ideal environment if you want to combine these approaches and other disciplines to explore specific issues or research questions within a transdisciplinary context. The flexible graduate curricula are designed to encourage you to design innovative plans of study that enable you to pursue your interests while you receive broad training in key areas. The anthropology faculty actively engage with faculty in other disciplines, including:

• applied mathematics
• chemistry
• environmental economics

• epidemiology
• formal modeling
• genetics
• sociology
• sustainability
• technology and society
• urban planning

The training you receive in this program prepares you to become an expert scholar who's able to contribute not only to your chosen field but also to finding solutions to humankind's greatest challenges. This program provides training in data analysis and research design within the context of human evolution, archaeology and the wider field of anthropology. Through anthropological coursework, you learn how to ask important questions about the human species and employ statistics to analyze and extract meaning from data. You learn to appreciate humanity's place in nature and the long history of human societal change.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Students who enter the program with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hours required for the doctorate. This leaves 30 credit hours of coursework, 12 credit hours of research and 12 credit hours of dissertation (54 credit hours total) to be earned postadmission.

Students who enter without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio to be formally evaluated by a faculty committee, and present that research in a public forum before continuing to the later stage of the doctorate.

Applied Behavior Analysis, MS (LAAPBAMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Science program in applied behavior analysis is a full-time, two-year program designed to align with the Behavior Analyst Certification Board's current test content outline, encompassing 345 classroom hours and 2,000 hours of supervised practicum fieldwork.

You develop skills with a primary focus on three areas delineated by the certification board: foundational behavior-analytic skills, client-centered responsibilities and the accumulation of essential knowledge.

Within this program, you are immersed in the intricacies of behavior-analytic principles such as positive reinforcement, shaping and communication training. You gain a strong foundation in effecting positive behavior change, addressing behavioral excesses and deficiencies, and challenging behaviors through evidence-based interventions.

This advanced degree program places an emphasis on the ethical conduct of applied behavior analysis, preparing you to navigate the field with integrity. You also have the opportunity to enhance your communication and leadership skills while training others on applied behavior analysis.

Mastery of behavioral measurement techniques is central to this program. You learn to collect and interpret data effectively and develop proficiency in understanding experimental designs to uncover relationships among measurements, relevant variables and behavior.

STEM-OPT extension eligible: No

Degree requirements

46 credit hours including the required applied project course (PSB 593)

Required Core (27 credit hours)
PSB 501 Basic Principles of Applied Behavior Analysis (3)
PSB 510 Basic Principles of Experimental Analysis of Behavior (3)
PSB 511 Advanced Research Methods (3)
PSB 520 Ethical Issues and Professional Standards in Applied Behavior Analysis (3)
PSB 530 Behavioral Observation and Functional Assessment (3)
PSB 540 Development of Applied Behavioral Intervention Programs (3)
PSB 563 Basic Principles of Organizational Behavior Management (3)
PSB 573 Advanced Principles of Learning and Analysis of Behavior (3)
PSB 578 Applied Behavior Analysis in Developmental Disorders (3)

Electives or Research (5 credit hours)
PSB 591 Seminar (2)
PSB 598 Special Topics (3)

Other Requirements (9 credit hours)
PSB 580 Practicum (5)
PSB 583 Fieldwork (4)

Culminating Experience (5 credit hours)
PSB 593 Applied Project (5)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's degree in psychology, human development, sociology or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose form
• curriculum vitae or resume
• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. The MS in applied behavior analysis program requires a TOEFL iBT score of at least 4.5, or 90 (taken at a testing center) taken before January 21, 2026, with Speaking and Writing portions in high "Fair" to "Good" range (21-30), or a PTE score of 62 or higher. IELTS scores must be 6.5 overall with at least 6.5 in the speaking and writing portions.

The application is completed online through the ASU Admission Services website. Applicants should upload their unofficial transcripts to the application before submitting.

It is strongly recommended that applicants download and print the MS in applied behavior analysis admission checklist from the Department of Psychology website to ensure completion of the application process and inclusion of all the required supplemental forms.

The statement of purpose form should describe professional and academic aspirations.

Applicants must submit two letters of recommendation from professionals or faculty members who can speak to the applicant's abilities.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate data to determine treatment efficacy in course projects.
Design behavioral assessments in course projects.
Develop an organizational behavior management (OBM) project and intervention.

Career opportunities

With a strong foundation in evidence-based practices, graduates have obtained the essential knowledge, skills and practical experience needed to pursue state licensure and establish themselves as proficient Board-Certified Behavior Analysts®. This program prepares students for highly sought-after roles within the human services sector, and upon graduation, students are well-prepared to pursue rewarding careers such as:

assistant clinical director

behavior specialist
clinical director

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Applied Mathematics, PHD (LAAPMPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

If you thrive on computational and mathematical modeling, the Doctor of Philosophy program in applied mathematics is intended for you. The program emphasizes a solid mathematical foundation and promotes creative scholarship in an application discipline.

The School of Mathematical and Statistical Sciences has faculty in applied mathematics with outstanding transdisciplinary research programs that have strong external funding. Current research interests include mathematical epidemiology and mathematical ecology, mathematical neuroscience, environmental fluid dynamics and high-performance computing, imaging and inverse problems, supply chain dynamics, control and optimization, computational methods for ordinary and partial differential equations, analysis of differential equations, and geophysical and environmental fluid dynamics.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
APM 505 Applied Linear Algebra (3)

Other Requirements (12 credit hours)
APM 501 Differential Equations I (3)
APM 502 Differential Equations II (3)
APM 503 Applied Analysis (3)

APM 504 Applied Probability and Stochastic Processes (3)
APM 506 Computational Methods (3)

Electives and Research (57 credit hours)

Culminating Experience (12 credit hours)
APM 799 Dissertation (12)

Additional Curriculum Information
Students must pass:
• two qualifying examinations
• a written comprehensive examination
• an oral dissertation prospectus defense

Students should see the department website for examination information.

Each student must write a dissertation and defend it orally in front of five dissertation committee members.

Electives are chosen from math or related area courses approved by the student's supervisory committee.

Students choose four out of the five courses listed for other requirements.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics, applied mathematics, economics, engineering or a natural science from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of education and career goals
• resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

To demonstrate their competitiveness in an applicant pool, applicants must show evidence of coursework in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371). It is desirable that applicants have scientific programming skills.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Apply concepts and skills from applied mathematics to conduct original research.
- Able to complete original research in applied mathematics.
- Apply advanced computational methods in their coursework and research.

Career opportunities

Foundational knowledge in mathematics is required for building careers in science and technology. It can be applied in many different types of professions in fields that include engineering, life sciences, business, and economic and social sciences. These are just a few of the top careers possible with a doctorate in applied mathematics:

- biostatistician
- data scientist
- engineer
- financial analyst
- government and military researcher
- industrial researcher
- mathematical modeling expert
- mathematician
- medical researcher
- operations research analyst
- university instructor and faculty member

Applied Prevention Science, Certificate (LAAPSGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

ASU is not currently accepting applications for this program.

Program description

This graduate certificate program provides you with foundational and theoretical knowledge necessary for employment= in the field of mental illness prevention and health promotion.

The program offers five courses totaling 15 credits. You receive self-directed training with one-on-one feedback from= faculty. Specific training areas and assignments are highly relevant to job demands, including community-based= program evaluation; evidence-based psychosocial interventions; prevention ethics including in diverse settings and= with diverse populations; and community psychology, advocacy and funding seeking for prevention programming= initiations and sustainment.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (15 credit hours)
PSY 563 Prevention Planning and Evaluation in Service Settings (3)
PSY 564 Prevention Education, Communication and Service Delivery (3)
PSY 567 Prevention Organization and Community Change (3)
PSY 569 Professional Ethics, Growth and Responsibility in Prevention (3)
PSY 678 Preventive Psychosocial Interventions that Work (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology or in any health, mental health, or counseling-related field, from a regionally accredited institution, or an equivalent degree from an international institution that is officially recognized by that country.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/applied-prevention-science-graduate-certificate/) for program descriptions and to request more information.

Career opportunities

The certificate program in applied prevention science is valuable for those aspiring to work in fields that provide services to children and families in diverse settings such as schools, courts, community health centers and mental health agencies, child welfare, home visiting programs, foster care services and tribal behavioral health.

Career examples include:

behavioral health specialist
community and social service specialists
community health worker
prevention specialist

Applied Statistics and Data Science, MS (LASTADSMS)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

Data science professionals and applied statisticians use sophisticated statistical, computational and mathematical tools to extract patterns from large, complex and often unordered datasets. In the Master of Science program in applied statistics and data science, you prepare to conduct critical analysis in a variety of areas, such as industry, research and government.

With a statistical and data science core consisting of statistical inference and classification, data mining, machine learning and associated computer methods, the program gives you a strong background in data-related skills that are useful in understanding and solving practical issues.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required capstone course (DAT 597)

Required Core (12 credit hours)
DAT 502 Machine Learning for Data Science (3)
DAT 531 Industry Tools for Data Science (3)
STP 530 Applied Regression Analysis (3)
STP 531 Applied Analysis of Variance (3)

Restricted Electives (9 credit hours)
APM 527 Deep Neural Networks (3)
DAT 528 Advanced Deep Learning (3)
DAT 535 Exploration and Analysis of Environmental Data (3)
STP 505 Bayesian Statistics (3)
STP 533 Applied Multivariate Analysis (3)
STP 551 Time Series Analysis (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)
DAT 597 Applied Statistics and Data Science Capstone (3)

Additional Curriculum Information
For elective coursework, students complete six credit hours of additional statistics or data science courses, selected in consultation with the program advisor. These may be additional courses from the restricted electives list or other DAT or STP courses.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in applied mathematics, data science, mathematics, statistics or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• personal statement
• professional resume
• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL (iBT)®, or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

The single-spaced personal statement should be no more than two pages and should detail the applicant's background, reasons for wanting to do graduate work in applied statistics and data science, and their plans for the future.

Two academic letters of recommendation are required, and at least one letter should be written by a faculty member from an institution that the applicant has attended.

Applicants must demonstrate relevant coursework or experience in the following areas:

• experience with MATLAB, Python, SQL, R or other relevant programming skills (indicated in the professional resume)
• introductory undergraduate statistics (equivalent to STP 420 Introductory Applied Statistics)
• probability and mathematical statistics (equivalent to STP 421 Probability and STP 427 Mathematical Statistics)
• undergraduate upper-division linear algebra (equivalent to MAT 343 Applied Linear Algebra)

Students may be admitted into the program without completing a probability course or a mathematical statistics

course, but are assigned additional course requirements that must be completed prior to starting the required core coursework, such as:

• STP 421 Probability
• STP 427 Mathematical Statistics

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/applied-statistics-data-science/) for program descriptions and to request more information.

Career opportunities

Statistics and data analysis have been identified as two of the most desirable skills in today's job market.

Graduates with a master's degree in applied statistics and data science can pursue a broad variety of careers in diverse fields such as business, finance, engineering, technology, education, marketing, government and other areas of the economy. These are just a few of the top career opportunities:

actuary
data scientist
financial analyst
industry data consultant or analyst
machine learning engineer
research scientist
software engineer
statistician

Asian Languages and Civilizations (Chinese), MA (LACHINAMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Chinese graduate program in the School of International Letters and Cultures offers you a Master of Arts degree with a focus in one of two areas: culture (literature, linguistics, religion) or pedagogy.

The two areas of instruction prepare you to succeed in Chinese language environments with cultural competence. Each of these two areas also introduces you to the fundamentals of sinology and East Asian studies, which can prepare you for further scholarly, educational and professional pursuits.

The focus on culture (literature, linguistics, religion) provides disciplinary training that allows you to achieve in-depth

command of spoken, aural and oral Mandarin Chinese as well as written literary Chinese.

The pedagogy focus is for you if your major interest is in teaching modern Chinese in K-16 environments. You are trained in communicative and task-based language teaching approaches embedded within appropriate cultural contexts, as well as developing solid foundations in teaching Chinese literacy, pronunciation and linguistic systems.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (CHI 593)

Required Core (3 credit hours)
CHI 501 or JPN 501 Proseminar: East Asian Humanities (3)

Concentration (3 credit hours)
SLC 596 Second Language Methodologies (3)

Electives (15 credit hours)

Other Requirements (3 credit hours)
CHI 598 Topic: History of the Chinese Language (3)

Culminating Experience (6 credit hours)
CHI 593 Applied Project (6) or
CHI 599 Thesis (6)

Additional Curriculum Information
The MA in Asian languages and civilizations has concentrations in Chinese and Japanese. Students in the Chinese concentration take CHI 501 as required core and students in the Japanese concentration take JPN 501 for core. The course is cross-listed.

Electives are selected in consultation with the program chairperson.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in Chinese or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• writing sample

• resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The writing sample should represent the applicant's thinking and writing skills on a topic connected with Chinese culture.

Candidates for the master's degree should present the equivalent of an undergraduate major in Chinese upon entrance to the program. Those who lack this background but show strong potential and meet the Graduate College admission requirements, including those with regard to English proficiency, may be admitted to a graduate program on a provisional basis. Students assigned any additional coursework upon admission must be completed in addition to the regular plan of study for the master's degree.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Critically assess the current issues and directions of Chinese and East Asian studies.
Analyze Chinese linguistically (linguistics track) or through literary, historical, and cultural texts (culture track).
Present the findings of their independent research with the appropriately cited evidential data to substantiate those findings.

Career opportunities

Professionals with this degree can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or work in larger sectors such as governmental, diplomatic and international business.

Career examples include:

foreign service
historians
interpreters and translators
lawyers
reporters and correspondents
social and community service managers
state department employees
supply chain managers
teachers and professors of area, ethnic and cultural studies
teachers and professors of foreign language and literature

Asian Languages and Civilizations (Japanese), MA (LAJAPANMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Asian languages faculty in the School of International Letters and Cultures offer you a graduate program leading to a Master of Arts degree in Asian languages and civilizations with a concentration in Japanese.

ASU's Japanese master's degree program enables you to pursue your interests in Japanese history, literature and culture through advanced training in modern and classical Japanese, and through in-depth study of specific historical and cultural periods.

The training equips you with the skills to do original research in primary sources and with the critical and methodological background to understand your chosen fields. Areas of particular faculty strength include early modern and modern literature; film, animation and popular culture; translation studies; modern history; Japan's warrior cultures; and transnational studies, especially Sino-Japanese literary and cultural relations and kanshibun genres.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (JPN 593)

Required Core (3 credit hours)
CHI 501 or JPN 501 Proseminar: East Asian Humanities (3)

Concentration (3 credit hours)
JPN 586 History of Japanology (3)

Electives (18 credit hours)

Culminating Experience (6 credit hours)
JPN 593 Applied Project (6) or
JPN 599 Thesis (6)

Additional Curriculum Information
The MA in Asian languages and civilizations has concentrations in Chinese and Japanese. Students in the Chinese concentration take CHI 501 as required core and students in the Japanese concentration take JPN 501 for core. The course is cross-listed.

Electives are selected in consultation with the program chairperson.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in Japanese or a related field from a regionally accredited

institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• resume
• writing sample
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The writing sample should represent the applicant's thinking and writing skills on a topic connected with Japanese culture. An academic writing sample, such as a research paper from a previous course, is preferred.

The personal statement should highlight the applicant's motivations and skills and indicate why they are interested in the Japanese graduate program.

Candidates for the program should present the equivalent of an undergraduate major in Japanese upon entrance to the program. Those who lack this background but who show strong potential and meet the Graduate College admission requirements may be admitted to a graduate program on a provisional basis. Students assigned additional coursework upon admission must be completed in addition to the regular plan of study for the master's degree.

Students should see the School of International Letters and Cultures website for more information.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Create a comprehensive literature review of both English and Japanese-language scholarship on a specific topic.
Translate accurately from both modern and classical Japanese-language primary sources relevant to their chosen research program.
Produce an original thesis project following the protocol for humanities research.

Career opportunities

Professionals with this degree can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or work in a larger sector such as governmental, diplomatic and international business career opportunities.

Career examples include:

foreign service
interpreters and translators

- lawyers
- reporters and correspondents
- social and community service managers
- state department
- supply chain managers
- teachers and professors of area, ethnic and cultural studies
- teachers and professors of foreign languages and literature

Asian Studies, Certificate (LAASIANCE)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The graduate certificate program in Asian studies offers you a transdisciplinary specialization in Asian language and= area studies.

The certificate program is available in two tracks. The East Asia track includes China, Japan and Korea, and the= Southeast Asia track includes Burma, Laos, Thailand, Vietnam, Malaysia, Singapore, Indonesia, the Philippines, Brunei= and Timor Leste.

STEM-OPT extension eligible: No

Degree requirements

18 credit hours

Required Core (6 credit hours)
two courses at the 500 level or higher that cover Asian content from a single discipline

Electives (6 credit hours)
two courses at the 500 level or higher that cover Asian content from a discipline other than that chosen for the core= courses

Other Requirements (6 credit hours)
language proficiency requirement: two courses at the 400 level or higher in one Asian language (Chinese, Indonesian,= Japanese, Korean, Thai, Vietnamese)

Additional Curricular Information
Students work closely with a faculty advisor from the Center for Asian Research to develop a cohesive curriculum= tailored to their individual goals and interests.

Some of the coursework from the discipline in which the student is earning a graduate degree may be used to satisfy= these requirements.

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Graduate students currently enrolled in any discipline may pursue a certificate in Asian studies in conjunction with their degree program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa must apply to and be accepted to a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Graduates of the graduate certificate program in Asian studies have training and knowledge relevant to careers in government, nongovernmental organizations, nonprofit organizations, global relationships, intercultural understanding, foreign service, research, professional writing and community college teaching.

Career examples include:

- cultural center associate
- historical society and exhibit curator
- language interpreter
- teacher or instructor

Astrophysics and Astronomy, MS (LAASTPHMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Science program in astrophysics and astronomy provides you with fundamental graduate training in both astrophysics and astronomy.

You take courses that cover stars and interstellar media, galaxies and cosmology, and you acquire quantitative skills through analysis and modeling. You may have observation opportunities through regional and international telescope observatories.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Mechanical Engineering, BSE

Aerospace Engineering (Astronautics), BSE

Earth and Space Exploration (Geological and Planetary Sciences), BS

Electrical Engineering, BSE

Electrical Engineering (Electric Power and Energy Systems), BSE

Earth and Space Exploration (Exploration Systems Design), BS

Earth and Space Exploration, BS

Earth and Space Exploration (Astrobiology and Biogeosciences), BS

Aerospace Engineering (Autonomous Vehicle Systems), BSE

Earth and Space Exploration (Astrophysics), BS

Aerospace Engineering (Aeronautics), BSE

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required capstone courses (SES 510 and SES 511)

Required Core (1 credit hour)
SES 502 Exploring SESE Research (1)

Electives or Research (5 credit hours)

Other Requirements: Astrophysics Sequence (9 credit hours)
AST 521 Stars and Interstellar Medium I (3)
AST 522 Stars and Interstellar Medium II (3)
AST 591 Seminar: Astrophysics (2)
SES 501 SESE Colloquium (1)

Other Requirements: Galaxies and Cosmology Sequence (3 credit hours)
AST 531 Galaxies and Cosmology I (3)
AST 532 Galaxies and Cosmology II (3)
AST 533 Galaxies and Cosmology III (3)

Other Requirements: Exoplanets and Planetary Science Sequence (3 credit hours)
AST 598 Topic: Origins of Solar Systems (3)
AST 598 Topic: Exploring Exoplanets (3)
SES 598 Topic: Water in the Solar System (3)

Other Requirements: Instrumentation and Techniques Sequence (3 credit hours)
AST 552 Astronomical Instrumentation and Data Analysis (3)
SES 598 Topic: An Introduction to Astro-statistics (3)
SES 598 Topic: Introductory Radio Astronomy (3)
SES 598 Topic: Spectroscopy for Astrophysics (3)

Culminating Experience (6 credit hours)
SES 510 Graduate Exploration Project I (3) and SES 511 Graduate Exploration Project II (3) or
SES 599 Thesis (6)

Additional Curriculum Information
Students select one course from each Other Requirements category. Substitutions may be made per department approval.

For their culminating experience, students in an accelerated program complete capstone courses SES 510 and 511. All other students complete SES 599.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Critically evaluate advanced astrophysical theories as applied to complex phenomena.
Apply advanced analytical methodology including, modeling, and observational methods to investigate astrophysical problems.
Conduct independent research that demonstrates the ability to critically evaluate astrophysical problems.

Career opportunities

Professionals with expertise in astrophysics and astronomy are in high demand across all sectors and industries, including remote sensing, data science, instrument building and scientific research. Coding and numerical modeling skills translate across many domains, including those beyond astrophysics. Skills in the measurement and analysis of data related to the physics, chemistry and structure of the universe and exoplanetary systems are valuable to businesses and institutions that rely on data-driven strategies to explore beyond the Earth and the solar system.

This degree program prepares candidates for further graduate study or for careers in related fields. Opportunities include scientific staff positions at government laboratories, teaching positions at the community college level, and technical positions in industry. Career examples include:

data scientist
research astronomer
telescope operator

Astrophysics, PHD (LAASTPHPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in astrophysics develops your creative scholarship and prepares you for professional careers in astrophysics, astronomy or related fields.

In this program, you take graduate-level courses in stars and interstellar media, galaxies and cosmology; obtain quantitative skills through analysis and modeling; and conduct independent, fundamental astrophysical research. In addition, you may have observing opportunities through regional and international telescope observatories. You work closely with a research advisor on a wide variety of topics, including theoretical physics, cosmology, galaxy dynamics, stellar evolution, exoplanets, and the development and building of instrumentation.

As a graduate student in astrophysics, you become a leader in observational and theoretical research. You participate in NASA- and National Science Foundation-funded space missions and study topics such as how stars are born and die, how galaxies interact and evolve, and how the universe changed as it developed from its earliest beginnings.

The program's world-class faculty have research expertise across the full breadth of astrophysics, including the solar system, stars and galaxies from the Milky Way to the most distant galaxies in the universe. Current ASU research applies both computational and observational approaches to the exploration of a variety of topics, such as fundamental cosmology and whether there is life on exoplanets.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (1 credit hour)
SES 502 Exploring SESE Research (1)

Electives or Research (53 credit hours)

Other Requirements: Astrophysics Sequence (9 credit hours)
AST 521 Stars and Interstellar Medium I (3)
AST 522 Stars and Interstellar Medium II (3)
AST 591 Seminar: Astrophysics (2)
SES 501 SESE Colloquium (1)

Other Requirements: Galaxies and Cosmology Sequence (3 credit hours)
AST 531 Galaxies and Cosmology I (3)
AST 532 Galaxies and Cosmology II (3)
AST 533 Galaxies and Cosmology III (3)

Other Requirements: Exoplanets and Planetary Science Sequence (3 credit hours)
AST 598 Topic: Exploring Exoplanets (3)
AST 598 Topic: Origins of Solar Systems (3)
SES 598 Topic: Water in the Solar System (3)

Other Requirements: Instrumentation and Techniques Sequence (3 credit hours)
AST 552 Astronomical Instrumentation and Data Analysis (3)
SES 598 Topic: An Introduction to Astro-statistics (3)
SES 598 Topic: Introductory Radio Astronomy (3)
SES 598 Topic: Spectroscopy for Astrophysics (3)

Culminating Experience (12 credit hours)
SES 799 Dissertation (12)

Additional Curriculum Information

Students select one course from each other requirement category. Substitutions may be made per department approval.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree in a related field to be used for this degree.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate literature and current research in the field of astrophysics as it relates to their own original research.
Conduct independent, original scientific research, drawing scientific conclusions that advances knowledge in astrophysics.
Effectively communicate complex astrophysics concepts, research findings, and their implications to diverse audiences, including scientific peers, industry professionals, and the public.

Career opportunities

Professionals with expertise in astrophysics are in high demand across all sectors and industries, including remote sensing, data science, instrument building, computational science, defense industries and scientific research. Coding and numerical modeling skills translate across many domains, even beyond astrophysics. Skills in the measurement and analysis of data related to the physics, chemistry and structure of the universe and exoplanetary systems are valuable to businesses and institutions that rely on data-driven strategies to explore beyond the Earth and solar system.

A doctoral degree in astrophysics is required for some careers in postsecondary education and research.

Career examples include:

- astrophysics professor
- data scientist
- instrument builder
- project manager
- research astronomer
- telescope operator

Atmospheric Science, Certificate (LAATMOSCE)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

This program is not currently accepting applications.

Program description

The transdisciplinary certificate program in atmospheric science is administered by an executive committee composed= of faculty from the Ira A. Fulton Schools of Engineering and The College of Liberal Arts and Sciences. The program= prepares you to complete a dissertation on a topic related to the atmospheric or oceanic sciences under the= supervision of a faculty member from one of the cooperating departments.

STEM-OPT extension eligible: No

Degree requirements

16 credit hours

A minimum of 16 credit hours is required in order to qualify for the atmospheric science certificate, consisting of:

three 3 credit hour courses from a list of courses in the core disciplines (9)
two 3 credit hour courses from a list of electives at the 400 level or above (6)
a capstone seminar (1)

Considering the diversity of courses and in order to ensure a transdisciplinary flavor, all prospective recipients have the= certificate program approved by the certificate executive committee. Certificates only are awarded to students who are= enrolled in an MA, MS, MNS or PhD program at ASU. The student's thesis or dissertation must also be related to some= aspect of atmospheric science.

The core courses are offered at least once every other year, so the certificate may be completed within two years.

Specific requirements are:

approval by the certificate committee of the student's proposed course selection
completion of one course from each of the core disciplines with a grade of "B" (3.00) or better
completion of two courses from the list of electives with a grade of "B" (3.00) or better

completion of the capstone seminar, which is one credit hour
completion of a dissertation on a topic related to the atmospheric or oceanic sciences

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Biochemistry (Medicinal Biochemistry), MS (LABCHMCMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the Master of Science program in biochemistry with a concentration in medicinal chemistry in the School of Molecular Sciences, you are trained in the fundamental aspects of the discipline while joining transdisciplinary teams

that work on larger, mission-based contemporary problems in areas such as:

• fundamental chemical biology
• medicine and health
• structure function and dynamics

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Molecular Biosciences and Biotechnology, BS

Chemistry, BS

Biochemistry (Medicinal Chemistry), BS

Biochemistry, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (CHM 593 or BCH 593), or
30 credit hours including the required capstone course (BCH 597)

Required Core (4 credit hours)
BCH 501 Current Topics in Biochemistry or CHM 501 Current Topics in Chemistry (4)

Concentration (3 credit hours)
CHM 535 Medicinal Chemistry (3)

Electives (9 or 15 credit hours)

Other Requirements (5, 6 or 8 credit hours)
BCH 501 Current Topics in Biochemistry (2) or CHM 501 Current Topics in Chemistry (2)
BCH 591 Seminar (3)
BCH 592 Research (6 or 8)

Culminating Experience (2, 3 or 6 credit hours)
BCH 593 Applied Project or CHM 593 Applied Project (2)
BCH 597 Capstone (3)
BCH 599 Thesis 6)

Additional Curriculum Information

For the required core, students complete four credit hours of any combination of BCH 501 and CHM 501 special topics.

Students choose an applied project, capstone or thesis. The credit hours required for the electives and other requirements depend on the culminating experience. Students who choose the applied project complete 15 credit hours of electives and six credit hours of BCH 592, which may include up to six additional credit hours of BCH 592. Students who choose the capstone option complete 15 credit hours of electives, two additional credit hours of CHM 501 or BCH 501, and three credit hours of BCH 591. Students who choose the thesis option complete nine credit hours of electives and eight credit hours of BCH 592.

The program consists of coursework, seminars and a research component. Elective coursework is selected based on the research area and in consultation of the research advisor.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in chemistry, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants interested in pursuing the accelerated degree program should review the requirements and submit a pre-application found on the School of Molecular Sciences website (https://sms.asu.edu/Graduate-Study/MedChem) before submitting a formal graduate admission application to the degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate the quality of biochemistry seminars and publications.
Design their culminating experience around current research and opportunities within a topic of interest.
Communicate the results of their culminating experience through an oral presentation.

Career opportunities

Professionals with knowledge and skills gained in this program have opportunities in six general areas: health care (prephysician training, medical or clinical laboratory support), industry (research and development, quality control), academia (high school and higher education), government (research, policy), nonprofit (policy, public education) and entrepreneurship (consulting, startups). In addition to specialized technical skills, graduates have vital, high-demand skills, such as critical thinking, teamwork and collaboration, and time management.

Some career examples include:

biotechnologist
clinical laboratory technician
drug discovery scientist
medical lab technician
pharmacology scientist
research and development scientist

The American Chemical Society provides helpful resources and a comprehensive list of possible careers on its website athttps://www.acs.org/careers/chemical-sciences.html.

Biochemistry, MS (LABIOCHMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the Master of Science program in biochemistry in the School of Molecular Sciences, you are trained in the fundamental aspects of the discipline. You also have the option to learn by joining transdisciplinary teams that work on larger, mission-based contemporary problems in areas such as:

• biogeochemistry
• energy and sustainability
• fundamental chemical biology
• materials and nanoscience
• medicine and health
• structure function and dynamics

You learn to solve biological problems at the molecular scale and contribute to research that can address challenging societal issues.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Chemistry, BS

Biochemistry (Medicinal Chemistry), BS

Chemistry (Environmental Chemistry), BS

Biochemistry, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (CHM 593), or
30 credit hours including the required capstone course (BCH 597)

Required Core (4 credit hours)
BCH 501 Current Topics in Biochemistry or CHM 501 Current Topics in Chemistry (4)

Electives (12 or 18 credit hours)

Other Requirements (5, 6 or 8 credit hours)
BCH 501 Current Topics in Biochemistry or CHM 501 Current Topics in Chemistry (2)
BCH 591 Seminar (3)
BCH 592 Research (6 or 8)

Culminating Experience (2, 3 or 6 credit hours)
BCH 597 Capstone (3)
BCH 599 Thesis (6)
CHM 593 Applied Project (2)

Additional Curriculum Information
For the required core, students complete four credit hours of any combination of BCH 501 or CHM 501. Students choose one of the culminating experience options listed above. The credit hours required for the electives and other requirements depend on the culminating experience chosen. Students who choose the thesis option complete 12 credit hours of electives and eight credit hours of BCH 592. Students who choose the applied project option complete six credit hours of CHM 592 and 18 credit hours of electives, which may include up to six additional credit hours of CHM 592. Students who choose the capstone option complete 18 credit hours of electives, two additional credit hours of CHM 501 or BCH 501, and three credit hours of BCH 591.

The program consists of coursework, seminars and a research component; extensiveness depends on the culminating experience.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in chemistry, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate the quality of biochemistry seminars and publications.
Design their culminating experience around current research and opportunities within a topic of interest.
Communicate the results of their culminating experience through an oral presentation.

Career opportunities

Professionals with training achieved in pursuit of a graduate degree in biochemistry have opportunities in six general areas: health care (prephysician training, medical or clinical laboratory support), industry (research and development, quality control), academia (high school and higher education), government (research, policy), nonprofit (policy, public education), and entrepreneurship (consulting, startups). In addition to specialized technical skills, graduates have many high-demand skills, such as critical thinking, teamwork and collaboration, and time management.

Some career examples include:

biotechnologist
clinical laboratory technician
drug discovery scientist
government scientist
pharmacology scientist
research and development scientist
science consultant

The American Chemical Society provides helpful resources and a more comprehensive list of possible careers on its website athttps://www.acs.org/careers/chemical-sciences.html.

Biochemistry, PHD (LABIOCHPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in biochemistry through the School of Molecular Sciences provides you with the training you need to solve biological problems at the molecular scale and to be a successful, independent scientist who can address challenging societal issues.

When you earn a doctoral degree in biochemistry, you are fully trained in all fundamental aspects of the discipline. Most also choose to join transdisciplinary teams that work on larger, mission-based contemporary problems in areas such as:

• biogeochemistry
• energy and sustainability
• fundamental chemical biology
• materials and nanoscience
• medicine and health
• structure function and dynamics

You should visit the prospective student webpage (https://sms.asu.edu/Graduate-Study/Biochemistry-PhD) to learn more about this doctoral program and the advanced transdisciplinary research being conducted in the School of Molecular Sciences.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

six graduate-level courses (12-18 credit hours)
enrollment in a BCH 501/CHM 501 seminar (8 credit hours)
BCH 792 Research (46-52 credit hours)
BCH 799 Dissertation (12 credit hours)

Additional Curriculum Information
The program consists of coursework and seminars selected by the student in consultation with the student's supervisory committee and based on the student's area of research. Qualifying exams consisting of a written comprehensive exam, an oral comprehensive exam and a prospectus are required to advance to candidacy. Students must successfully defend their dissertation during a public final oral defense. Students must also maintain a minimum GPA of 3.00 (scale is 4.00 = "A") or higher.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in chemistry, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

In addition to the admission application, applicants must complete an online supplemental application to the School of Molecular Sciences. The supplemental application is available 24 to 48 hours after submission of the admission application. The personal statement and contact information for the letters of recommendation are submitted as part of the supplemental application; information about the supplemental application can be found on the department's website. Applications that do not have a supplemental application are not reviewed.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Create new biochemical knowledge through experimentation or computation.
Communicate an original contribution to the field of biochemistry, through effective presentation of their research in their dissertation and oral defense.
Critically evaluate biochemical information.

Career opportunities

Graduates are prepared for professional careers in industry, government and academia. Professionals with knowledge achieved in pursuit of a graduate degree in biochemistry have opportunities in five general areas:

academia (high school and higher education)
entrepreneurship (consulting, startups)
government (research, policy)
industry (research and development, quality control)
nonprofit (policy, public education)

In addition to specialized technical skills, graduates have high-demand skills such as critical thinking, teamwork and collaboration, time management and many others.

Some career examples include:

drug discovery scientist
government scientist
pharmacology scientist
research and development scientist
research group leader
science consultant
university professor

The American Chemical Society provides helpful resources and a comprehensive list of possible careers on its website athttps://www.acs.org/careers/chemical-sciences.html.

Biology (Biology and Society), MS (LABIOSMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the biology and society concentration of the Master of Science program in biology, you examine topics in which biology intersects with society.

The concentration tailors individual plans of study to your needs and interests, with a solid grounding in the life and related sciences and with a rigorous analytical and interdisciplinary education. The program offers suggested courses if you wish to focus on these areas: bioethics, policy and law; biology education research; ecology, economics and ethics of the environment; and history and philosophy of science.

Bioethics, policy and law --- You train in the pressing moral, policy and legal issues raised by the biosciences and biomedicine and in the disciplinary methods necessary to address these issues.

Biology education research --- You focuses on carrying out education research to identify ways to improve undergraduate biology education broadly.

Ecology, economics and ethics of the environment --- You train in the theory and empirical methods for understanding, analyzing and shaping policy for coupled human-natural systems.

History and philosophy of science --- You train in the conceptual foundations of science, especially the epistemological and methodological assumptions that shape science and its progress through time.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.

The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Biological Sciences (Neurobiology, Physiology and Behavior), BS

Biological Sciences (Genetics, Cell and Developmental Biology), BS

Biological Sciences (Biology and Society), BS

Biological Sciences (Conservation Biology and Ecology), BS

Biological Sciences, BS

Biological Sciences (Biomedical Sciences), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis

Required Core (1 credit hour)
BIO 610 Introduction to Responsible Conduct of Research (RCR) in Life Sciences (1) or
BIO 611 Current Topics in Responsible Conduct of Research (RCR) in the Life Sciences (1)

Concentration (2 credit hours)
BIO 615 Biology and Society Lab (1), taken twice

Electives or Research (21 credit hours)

Culminating Experience (6 credit hours)
BIO 599 Thesis (6)

Additional Curriculum Information
The Electives or Research category allows an individual student program to be developed in consultation with the student's advisor and committee.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's

degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• academic record form
• personal statement
• curriculum vitae or resume
• writing sample
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Students are expected to have completed the equivalent of core requirements for an undergraduate major in biology or a related discipline (typically evolution, genetics and other courses appropriate to the student's particular interests). Students who do not have an undergraduate-level competency in the sciences may be considered for conditional admission to the biology and society concentration.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Able to articulate an understanding of current literature on scientific developments and their relevance to society in scholarly writing.
Able to contribute to original biology and society research in scholarly writing.
Able to communicate biology and society research results in presentations.

Career opportunities

Graduates are prepared for academic careers. Their skills and knowledge are also valuable for government careers in federal and state agencies responsible for management and conservation and for careers in industry and nongovernmental organizations.

Career examples include:

instructor at a university or college
lawyer
researcher analyzing health care, environmental or educational systems in an academic, government, nonprofit, private or industrial organization
science communicator in an academic, private or industrial organization
science policymaker or administrator
science or social studies teacher in an elementary or high school

Admission deadlines (https://sols.asu.edu/admission/graduate/deadlines)

Biology (Biology and Society), PHD (LABIOSPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the biology and society concentration of the Doctor of Philosophy program in biology, you examine topics with biological and social dimensions that are best understood together rather than in isolation. The concentration provides plans of study tailored to individual needs and interests. It encompasses a solid foundation in life sciences and related sciences and provides a rigorous analytical and interdisciplinary education. You may further specialize in one of four tracks:

Bioethics, policy and law --- This track focuses on pressing moral, policy and legal issues raised by biosciences and biomedicine, as well as methods to address them.

History and philosophy of science --- This track focuses on the conceptual foundations of science, especially the epistemological and methodological assumptions that shape science and its progress over time.

Ecology, economics and ethics of the environment --- This track focuses on the theory and empirical methods for understanding, analyzing and shaping policy that steer society toward a more productive, equitable and sustainable ecological future.

Biology education research --- This track focuses on carrying out education research that identifies ways to broadly improve undergraduate biology education.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (3 or 4 credit hours)
BIO 514 Statistical Models for Biology (4) or
BIO 620 Research Prospectus Writing (3)

Electives (68 or 69 credit hours)

Culminating Experience (12 credit hours)
BIO 799 Dissertation (12)

Additional Curriculum Information
An individual student program is developed in consultation with the student's advisor and committee.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.

Biology (Complex Adaptive Systems Science), PHD (LABIOCPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is not currently accepting applications for this program.

Program description

The Doctor of Philosophy program in biology with a concentration in complex adaptive systems science prepares you to be a part of the next generation of scientists, training you in the advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences.

The program is tightly integrated with diverse, ongoing university-wide research at Arizona State University on complex adaptive system science. It emphasizes the value of a complex adaptive perspective to give you better insight and a more active role in seeking solutions to a broad array of critical issues facing society today. You become fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study, and candidates typically have a member of the complex adaptive systems science graduate faculty as a member of the doctoral supervisory committee.

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit the following:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Only students admitted to participating doctoral programs may apply for a complex adaptive systems concentration. A letter of application from the student must be sent to the chair of the complex adaptive systems science graduate faculty. The application is reviewed by members of the graduate faculty who make final admission recommendations to the Graduate College.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

A doctorate in biology with a concentration in complex adaptive systems science displays strong preparation for academic careers at every level, from community colleges to research universities. The skills and knowledge graduates obtained in this program are also valuable in government careers with federal and state agencies responsible for wildlife management and conservation and for careers in industry and nongovernmental organizations.

Career examples include:

- food, agriculture and health care scientists in academic, private and industrial labs
- principal investigators in government labs and nonprofit organizations
- professors or instructors in universities and colleges
- science teachers in elementary and high schools
- wildlife, animal and conservation scientists

Biology, MS (LABIOMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description

The Master of Science program in biology is a flexible degree program based around your individual interests, enabling you to explore areas of biology that exist outside of traditional boundaries. This degree complements other, more specialized life sciences programs, allowing both interdisciplinary and traditional approaches.

This program currently admits you to a thesis-based pathway, an applied project pathway, or a coursework and capstone option. In the thesis pathway, you receive hands-on training and craft an individualized plan of study focused specifically on your own research interests. You work closely with an advisor from ASU's faculty of top-tier scientists and conduct research at the forefront of your field. You develop foundational research skills in the course of designing and completing your own research project.

In the coursework and capstone pathway, you build an individualized curriculum from a wide variety of courses taught by global experts. In your final semester, you delve more deeply into your own area of interest by completing a capstone project. While you have flexibility in the choice of your topic, you need to adhere to the project requirements (e.g., a literature review or research proposal) of the capstone course. This option is ideal if you don't need intensive research training but want to deepen and expand your biological knowledge and skills. With permission of the program director, you may complete an applied project instead of a capstone. The coursework and capstone pathway is also available in an online format.

The applied project pathway is an alternative option to the capstone pathway where you complete the applied project course under the mentorship of a single faculty member on a project that can be completed in one semester (e.g., extended literature review, analysis of a dataset, etc.). You must secure a SOLS faculty mentor willing to guide your project and complete the applied project proposal form (due by the last day of class the semester before you plan to enroll in the applied project course). The final product of the applied project is either a written report or a presentation, and the faculty mentor assigns the grade. You should note: the program can't help you find mentors. You can transition into this pathway mid-program if you secure a mentor.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Molecular Biosciences and Biotechnology, BS

Biological Sciences (Neurobiology, Physiology and Behavior), BS

Microbiology (Medical Microbiology), BS

Biological Sciences (Genetics, Cell and Developmental Biology), BS

Biological Sciences (Biology and Society), BS

Microbiology, BS

Biological Sciences (Conservation Biology and Ecology), BS

Biological Sciences, BS

Biological Sciences (Biomedical Sciences), BS
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours - course-based master's, or
30 credit hours and a thesis, or
30 credit hours including a written comprehensive exam, or
30 credit hours including the required applied project course (BIO 593), or
30 credit hours including the required capstone course (BIO 597)

COURSE-BASED OPTION

Required Core (1 credit hour)
BIO 610 Introduction to Responsible Conduct of Research (RCR) in Life Sciences (1) or
BIO 611 Current Topics in Responsible Conduct of Research (RCR) in the Life Sciences (1)

Other Requirements (2 credit hours)
BIO 541 SOLS Seminar Series (1)
BIO 542 SOLS Current Topics in the Life Sciences (1)

Electives (27 credit hours)

OPTIONS WITH CULMINATING EXPERIENCE

Required Core (1 credit hour)
BIO 610 Introduction to Responsible Conduct of Research (RCR) in Life Sciences (1) or
BIO 611 Current Topics in Responsible Conduct of Research (RCR) in the Life Sciences (1)

Other Requirements (2 credit hours)
BIO 541 SOLS Seminar Series (1)
BIO 542 SOLS Current Topics in the Life Sciences (1)

Electives (21, 24 or 27 credit hours)

Culminating Experience (0, 3 or 6 credit hours)
BIO 593 Applied Project (3)
BIO 597 Capstone (3)
BIO 599 Thesis (6)
written comprehensive exam (0)

Additional Curriculum Information
This master's degree offers a course-based option. Students choose one of the culminating experience options listed above.

The thesis option is best suited for students who wish to pursue original research under the close mentorship of a faculty advisor.

The capstone option is best suited for students who want to develop expertise in a specific area of biology through an individualized curriculum and a focused, discipline-specific written project.

The applied project option is best suited for students who wish to apply scientific methods and reasoning to a real-world problem or professional context.

The written comprehensive exam option is a good fit for students who prefer an examination-based demonstration of their knowledge or who need flexibility in how they complete their degree.

The course-based option is also a strong option for science communicators, journalists, or educators who already possess strong communication skills and wish to deepen their biological content expertise, as well as for professionals working in industry, government, or biology-adjacent fields who wish to broaden or update their scientific knowledge to better serve in their current or future roles.

The number of credit hours required for the electives depends on the culminating experience chosen; all students must complete 30 credit hours to complete this program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in biology or a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:
• graduate admission application and application fee
• official transcripts
• academic record form
• personal statement
• curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

It is desired that applicants have research experience.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/biology-ms/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Synthesize current scientific literature relevant to a topic in their chosen area of life sciences.
Develop a life sciences research plan relevant to their degree pathway that addresses a significant scientific question about their chosen area of biology.
Employ principles of ethical research conduct to the design, analysis, and communication of biological research topics of their interest.

Career opportunities

Graduates are prepared for life sciences careers in educational, medical, industrial and governmental institutions.

The thesis pathway is ideal for those pursuing research-intensive careers in academic or business settings. The coursework and capstone option is for those seeking careers in which deeper biological knowledge is valuable, such as secondary school teachers reaching for higher certifications, biotechnicians who want to add conceptual depth or analytical abilities to their laboratory skills, and writers who want to expand their scientific expertise.

Career examples include:

food, agriculture and health care scientist in an academic, private or industrial lab
instructor at a community college
researcher or technician in a government lab or at a nonprofit organization
science teacher at an elementary or high school
science writer
wildlife, animal or conservation scientist

Biology, PHD (LABIOPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in biology is intended to accommodate your diverse interests and academic requirements, which may encompass laboratory, field or theoretical work in a variety of biological disciplines. This program is flexible and customizable. Flexibility in the program is achieved by requiring you to complete one core course, offering a choice between two topics that represent the broad spectrum of research directions available within the program. The program provides a diverse selection of elective courses, which enable you to customize your academic pursuits.

The program's primary objective is to cultivate an adaptable academic foundation that promotes interdisciplinary research. By deeply engaging with core and specialized scientific areas, you prepare to lead and innovate in your respective field. This approach ensures that you not only be an expert in your respective research field but also possess the breadth of knowledge necessary to confront complex biological challenges.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (3 or 4 credit hours)
BIO 514 Statistical Models for Biology (4) or
BIO 620 Research Prospectus Writing (3)

Electives (67 or 68 credit hours)

Other Requirement (1 credit hour)
BIO 610 Introduction to Responsible Conduct of Research in Life Sciences (1)

Culminating Experience (12 credit hours)
BIO 799 Dissertation (12)

Additional Curriculum Information
The program is tailored to the needs of the individual student. The plan of study is developed by the student and a supervisory committee consisting of a major professor and three additional faculty members. The electives credit hours comprise coursework showing breadth in biology subdisciplines, seminars and research.

An oral comprehensive examination is required to advance to candidacy, and a formal defense of the final written dissertation is required before graduation.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in biology or a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:
• graduate admission application and application fee
• official transcripts
• academic record form
• personal statement
• curriculum vitae or resume

• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Research experience is desired for entry into this program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Able to review scholarly literature as they develop specialized expertise in their selected research area.
Able to perform research that they have designed to address important and challenging questions in the field of biology.
Able to communicate the findings and originality of their research, both orally and in writing.

Career opportunities

Earning a PhD in biology opens an array of vibrant career opportunities across academia and government, industry and nonprofit sectors. Graduates excel in roles such as teaching at educational institutions of all levels or spearheading research in next-generation laboratories. They are sought-after for their expertise by government agencies overseeing environmental preservation and private firms innovating in biotechnology, health care and sustainable agriculture.

Career examples include:

principal investigator in a government laboratory or nonprofit organization
professor or instructor at a university or college
researcher in an academic, private or industrial laboratory related to health care, food or agriculture
science teacher in an elementary or high school
wildlife, animal, environmental, conservation or forensic scientist

Chemistry, MS (LACHEMMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the the Master of Science program in chemistry in the School of Molecular Sciences, you are trained in the foundation disciplines of analytical, organic, physical, inorganic and environmental chemistry and geochemistry. Most also choose to learn by joining transdisciplinary research teams that work on larger, mission-based contemporary problems in areas such as:

• energy and sustainability
• frontiers of chemical measurement
• fundamental molecular science
• geologic and biospheric science
• materials and nanoscience
• medicine and health
• structure function and dynamics

You receive the training you need to solve molecular scale problems and to contribute to research that can address challenging societal issues.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Chemistry, BS

Biochemistry (Medicinal Chemistry), BS

Chemistry (Environmental Chemistry), BS

Biochemistry, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (CHM 593), or
30 credit hours including the required capstone course (CHM 597)

Required Core (4 credit hours)
BCH 501 Current Topics in Biochemistry or CHM 501 Current Topics in Chemistry (4)

Electives (12 or 18 credit hours)

Other Requirements (5, 6 or 8 credit hours)
CHM 501 Current Topics in Chemistry or BCH 501 Current Topics in Biochemistry (2)
CHM 591 Seminar (3)
CHM 592 Research (6 or 8)

Culminating Experience (2, 3 or 6 credit hours)
CHM 593 Applied Project (2)
CHM 597 Capstone (3)

CHM 599 Thesis (6)

Additional Curriculum Information
For the required core, students complete four credit hours of any combination of BCH 501 or CHM 501. Students choose one of the culminating experience options listed above. The credit hours required for the electives and other requirements depend on the culminating experience chosen; all students must complete 30 credit hours. Students who choose the thesis option complete 12 credit hours of electives and eight credit hours of CHM 592. Students who choose the applied project complete six credit hours of CHM 592 and 18 credit hours of electives, which may include up to six additional credit hours of CHM 592. Students who choose the capstone option complete 18 credit hours of electives and two additional credit hours of CHM 501 or BCH 501 and three credit hours of CHM 591.

The program consists of coursework, seminars and a research component; extensiveness depends on the culminating experience.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in chemistry, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate the quality of chemistry seminars and publications.
Design their culminating experience around current research and opportunities within a topic of interest.
Communicate the results of their culminating experience through an oral presentation.

Career opportunities

Professionals with the knowledge achieved in pursuit of a graduate degree in chemistry have opportunities in five general areas: industry (research and development, quality control), academia (high school and higher education), government (research, policy), nonprofit (policy, public education), and entrepreneurship (consulting, startups). In addition to specialized technical skills, graduates have many high-demand skills, such as critical thinking, teamwork and collaboration, and time management.

Some career examples include:

chemical technician
chemistry lecturer
environmental science specialist
government scientist
high school teacher
materials scientist
military scientist
science consultant

The American Chemical Society provides helpful resources and a comprehensive list of possible careers athttps://www.acs.org/careers/chemical-sciences.html.

Chemistry, PHD (LACHEMPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the Doctor of Philosophy program in chemistry in the School of Molecular Sciences, you learn to solve molecular-scale problems and gain the skills needed to be a successful independent scientist who can address challenging societal issues.

You are trained in the foundation disciplines of analytical, organic, physical, inorganic, environmental or geological chemistry, and you can also choose to join transdisciplinary research teams that work on larger, mission-based contemporary problems in areas such as:

• energy and sustainability
• frontiers of chemical measurement
• fundamental molecular science
• geologic and biospheric science
• materials and nanoscience
• medicine and health
• structure function and dynamics

You should visit the prospective student webpage (https://sms.asu.edu/Graduate-Study/Chemistry-PhD) to learn more about this doctoral program and the advanced transdisciplinary research being conducted in the school.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT

extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

six graduate-level courses (12-18 credit hours)
enrollment in a BCH 501 or CHM 501 seminar (8 credit hours)
CHM 792 Research (46-52 credit hours)
CHM 799 Dissertation (12 credit hours)

Additional Curriculum Information
The program consists of coursework and seminars selected by the student in consultation with their supervisory committee and based on the student's area of research.

Qualifying exams that consist of a written comprehensive exam, an oral comprehensive exam and a prospectus are required to advance to candidacy. Students must successfully defend their dissertation during a public final oral defense.

Students must also maintain a minimum GPA of 3.00 (scale is 4.00 = "A") or higher.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in chemistry, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

In addition to the admission application, applicants must complete an online supplemental application to the School of Molecular Sciences. The supplemental application is available 24 to 48 hours after the admission application is submitted. The personal statement and contact information for the letters of recommendation are submitted as part of

the supplemental application. Information about the supplemental application can be found on the School of Molecular Sciences website. Applications that do not have a supplemental application are not reviewed.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Critically evaluate chemical information.
Create new chemical knowledge through experimentation or computation.
Communicate an original contribution to the field of chemistry, through effective presentation of their research in their dissertation and oral defense.

Career opportunities

Professionals with knowledge achieved in pursuit of a graduate degree in chemistry have opportunities in five general areas: industry (research and development, quality control), academia (high school and higher education), government (research, policy), nonprofits (policy, public education), and entrepreneurship (consulting, startups). In addition to specialized technical skills, graduates have high-demand, vital skills in critical thinking, teamwork and collaboration, time management and many others.

Career examples include:

environmental science specialist
government scientist
materials scientist
military scientist
research and development scientist
research group leader
science consultant
university professor

The American Chemical Society provides helpful resources and a comprehensive list of possible careers athttps://www.acs.org/careers/chemical-sciences.html.

Classical Liberal Education and Civic Leadership, MA (LACLEDLMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Arts program in classical liberal education and civic leadership is an interdisciplinary course of study that fosters student engagement through the Socratic method of classroom dialogue. You join a community of students and faculty oriented to the holistic pursuit of knowledge. You can focus on a particular field of study, which helps you become more competitive in your area of employment.

The curriculum spans disciplines and topics, including classical antiquity and American civics. It combines theory with practice, and ideas with application. You inquire into the meaning of the good life and the practical challenge of leading others, including nations, societies and individuals. You grapple with the perennial questions of the human experience: What is the best form of government? The most just economy? The proper relationship between the self and the state?

From Plato and Locke to Jefferson and Lincoln, the great thinkers of the past guide you through the age-old debates about how individuals and societies flourish or flounder. As Aristotle taught, there is no substitute for doing the right thing in the right way. This is true in how children are educated, coexistence with neighbors, and governance of nations. The classical liberal education and civic leadership program aims to prepare you to be a part of the next generation of teachers, scholars and statesmen to meet the challenges ahead with integrity, prudence and imagination.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Civic and Economic Thought and Leadership, BS

Civic and Economic Thought and Leadership, BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (CEL 593)

Required Core (9 credit hours)
CEL 501 Literary Leaders (3)
CEL 503 Classic Texts in Political Philosophy and Justice (3)
CEL 513 Classic Texts in Leadership and Statesmanship (3)

Restricted Elective (3 credit hours)
LAT 421 Roman Literature (3)
SLC 598 Topic: Greco-Roman Ideas of Leadership and Politics (3)
SLC 598 Topic: The Classical Tradition: Greco-Roman Antiquity Now (3)
SLC 598 Topic: Tragedy and Comedy in the Greek Polis (3)

Electives or Research (12 or 15 credit hours)
CEL courses (12 or 15)

Culminating Experience (3 or 6 credit hours)
CEL 593 Applied Project (3)
CEL 599 Thesis (6)

Additional Curriculum Information
For the restricted elective, students select one course from the list of options. Students should see the School of Civic and Economic Thought and Leadership for the most current list. Other courses may be substituted with approval of the academic unit.

Electives or research courses are selected in consultation with the academic advisor.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in liberal arts, political science, history, philosophy, theology, the natural sciences or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation from people in education or leadership positions
• written statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Graduates of this program draw from the wisdom of the past to confront the challenges of the future. They have specialized knowledge to advance in a chosen field. As the workforce evolves, a graduate degree shows employers that individuals are dedicated to enhancing their industry expertise and credibility.

A master's degree can open many career doors, including certain career fields, advancement opportunities and higher salaries in the following areas:

civic leadership and engagement
education, at all levels
government
nonprofit work
politics

Clinical Psychology, MS (LACLPSYMS)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The Master of Science program in clinical psychology provides you with a comprehensive understanding of mental health and behavior, emphasizing evidence-based techniques for psychological assessment and treatment. You learn from internationally recognized experts to gain the knowledge and real-world experience needed to shape the future of psychological care. You develop expertise in psychological assessment, research methods and statistical analysis, becoming equipped to deliver data-driven, evidence-based care. The program also offers a broad foundation in psychology, covering biological, social, emotional, cultural and developmental influences on mental health. Through specialized coursework and practicum experiences, you can tailor your therapeutic training to focus on adults, or child and family therapy.

Applied clinical experience is an integral component of the program. Practicum placements take place in your home state at approved clinical sites. These placements provide supervised, real-world training in assessment and therapy, ensuring you graduate with the competencies required to enter the field with confidence.

Whether you are a recent graduate in psychology or related fields, a professional seeking career advancement in clinical practice, or preparing for doctoral-level study, if you are passionate about understanding and improving mental health, this program is designed for you. Through this program, you are prepared to enter the field as a skilled mental health professional.

A Master's Psychology license in the area of health service psychology, a term that is used for accreditation and licensure of professionals in both clinical psychology and counseling psychology, is currently being developed by the Arizona Board of Psychologist Examiners, and is expected to be implemented by 2028; it already exists in some other states. Additionally, the American Psychological Association is leading advocacy efforts at the national level to establish such a license, and many states that have not already will follow suit.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Degree requirements

45 credit hours including the required applied project course (PSY 593), or
48 credit hours including the required applied project course (PSY 593), or
51 credit hours including the required applied project course (PSY 593), or
54 credit hours including the required applied project course (PSY 593), or
57 credit hours including the required applied project course (PSY 593)

Required Core (12 credit hours)
PSY 530 Intermed Statistics (3)
PSY 534 Psychometric Methods (3)
PSY 572 Psychological Assessment (3)
PSY 589 Training in Cultural Competence (3)

Adult or Child Focus (6 credit hours)
PSY 574 Psychotherapy (3)
PSY 578 Developmental Psychopathology (3)

PSY 588 Child and Family Therapy (3)
PSY 591 Topic: Psychopathology (3)

Other Requirements (12 credit hours)
PSY 587 Ethics for Clinical Psychologists (3)
PSY 596 Dissemination and Implementation (3)
PSY 597 Clinical Interviewing (3)
PSY 609 Research Methods in Psychology (3)

Practicum (6 credit hours)
PSY 680 Practicum (6)

Restricted Electives (3, 6, 9, 12 or 15 credit hours)
PSY 535 Cognitive Processes (3)
PSY 575 Affective Aspects of Behavior (3)
PSY 581 Developmental Aspects of Behavior (3)
PSY 582 Biological Aspects of Behavior (3)
PSY 591 Topic: Advanced Social Psychology for Clinicians (3)

Culminating Experience (6 credit hours)
PSY 593 Applied Project (6)

Additional Curriculum Information
Students with an adult focus should take PSY 574 and PSY 591 Topic: Psychopathology. Students with a child focus should take PSY 578 and PSY 588.

Students must complete coursework in five aspects of behavior, including affective, biological, cognitive, developmental and social, which is completed in the restricted electives section. These courses can be completed at the undergraduate level, but at least one course should be completed at the graduate level. Because of this, the number of restricted electives coursework varies by student. Students should consult their program advisor when selecting their restricted electives coursework.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• personal statement
• professional resume
• two letters of recommendation
• proof of English proficiency

Additional Admission Information:
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL (iBT)®, or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

A combination of academic and professional references is desirable, with a preference for letters from clinically oriented or behavioral health-related supervisors. References from friends, family members or personal therapists are not accepted.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/clinical-psychology-degree-online/) for program descriptions and to request more information.

Career opportunities

Graduates are able to work in private and hospital settings as mental health counselors. They work with adults, children, couples and families on a range of mental health topics.

Career opportunities include:

- behavioral health clinician
- counseling center therapist supporting students at universities
- crisis intervention specialist
- mental health professional
- research scientist

If graduates do not pursue a license, they can provide mental health services within community agencies. They cannot establish a private practice or practice independently without a license.

Professional licensure

Master's level licensure for this program is pending.

Communication (Health Communication), MA (LACOMHEMA)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The Master of Arts program in communication with a concentration in health communication prepares you to design and deliver strategic messages that inform, motivate and empower individuals and communities to achieve better health. The curriculum integrates health care, marketing, behavior-change theory, health strategy, digital media, and

emerging eHealth and mHealth technologies, giving you the tools to navigate the complex communication challenges within today's health landscape.

Because effective communication underpins every sector of health care --- involving health outreach, patient care, organizational leadership and policy development --- the field encompasses a wide range of skills, including education and outreach, health advocacy, culturally competent communication, provider-patient interaction, crisis and risk communication and data-informed messaging. This comprehensive training ensures you can connect with diverse audiences and elevate health outcomes across multiple settings.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required capstone course (COM 550)

Required Core (12 credit hours)
COM 501 Research Methods in Communication (3)
COM 504 Theories and Models in Communication (3)
COM 530 Training and Development (3)
COM 540 Conducting Communication Research (3)

Concentration (9 credit hours)
COM 511 Health Communication and Social Change (3)
COM 512 Health and Organizational Communication Inquiry (3)
COM 513 Health Communication Across Contexts (3)

Other Requirement (3 credit hours)
COM 598 Special Topics (3)

Restricted Elective (3 credit hours)
COM 598 Special Topics (3)
TPH 501 Foundations of Public Health I (3)
TPH 553 Health Technology and Equity (3)
TPH 557 Public Health Technology, Ethics, Policy and Law (3)

Culminating Experience (3 credit hours)
COM 550 Capstone (3)

Additional Curriculum Information
Students should see their advisor for the list of approved topics for COM 598.

For restricted electives coursework, students select one course from the list.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in health communication, communication or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• personal statement
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL (iBT)®, or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

The one- to two-page personal statement should speak to how prior experiences position the student for success in this program. Its focus should be both on the field of communication generally and the focus on health communication.

The resume should highlight how prior work, volunteer and educational experiences set the applicant up for success in the degree concentration.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/health-communication-masters/) for program descriptions and to request more information.

Career opportunities

Graduates are prepared for careers related to health communication, risk and crisis communication, and medicine and health care within educational institutions; federal, state and local governments; nonprofit and community organizations; health care organizations and other health industries.

Career opportunities include:

- health campaign designer
- health communication strategist
- health researcher
- medical or science communicator
- policy or advocacy roles

Admission deadlines (https://humancommunication.asu.edu/degree/graduate/communication-ma)

Communication, MA (LACOMMOMA)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The Master of Arts program in communication provides you, as a working professional, with advanced training in communication skills and competencies, preparing you for career advancement and leadership in a shifting job market.

The flexible nature of this online program benefits you if you have a busy schedule.

The faculty members at ASU's Hugh Downs School of Human Communication are highly experienced in developing and delivering quality online coursework that prepares you for success in your career. You gain essential skills required in today's workplace, including conflict transformation, cross-cultural communication, negotiation, persuasion and crisis management.

The MA program concludes with a capstone project, giving you the opportunity to put your skills into action and make a real impact by solving communication problems in your community or workplace. The final project can be implemented by the organization or shown to future potential employers.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Communication, BA

Communication, BS

Business (Communication), BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (COM 550)

Required Core (12 credit hours)
COM 501 Research Methods in Communication (3)
COM 504 Theories and Models in Communication (3)
COM 530 Training and Development (3)
COM 540 Conducting Communication Research (3)

Electives (15 credit hours)

Culminating Experience (3 credit hours)
COM 550 Capstone (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in communication or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• resume
• letter of interest
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants should include a resume and letter of interest. The letter should be two to three pages, and should outline work, educational background and volunteer experience, as well as discuss why the applicant is interested in this degree, field and program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/communication-ma/) for program descriptions and to request more information.

Career opportunities

This program is designed for individuals looking to change career trajectories or get ahead in their current professions. Graduates can expect to find work in:

fundraising
government
health care
human resources
management
marketing
nonprofits
public relations
sales
teaching

Communication, PHD (LACOMMOPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Hugh Downs School of Human Communication offers you a transdisciplinary graduate program leading to the Doctor of Philosophy in communication.

This program provides coursework and resources spanning multiple approaches to human communication scholarship (critical, social scientific, performance) and domains of inquiry (relationships, organizations, global societies, cultures). You customize your training around core courses in communication theory and research methodology, plus multiple areas of emphasis. Most actively participate in one or more of the school's collaborative research initiatives.

The PhD program in communication is designed to meet your needs as a student whose interests transcend traditional disciplinary boundaries, and to prepare you for research-oriented careers in universities as well as the public or private sectors.

STEM-OPT extension eligible: No

Degree requirements

96 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (6 credit hours)
COM 604 Theory Construction in Communication (3)
Choose one:
COM 607 Contemporary Rhetorical Methods (3)
COM 608 Multivariate Statistical Analysis of Data in Communication (3)
COM 609 Advanced Qualitative Research Methods in Communication (3)

Electives (48 credit hours)

Other Requirements (24 credit hours)
COM 691 Seminar (24)

Research (6 credit hours)
COM 792 Research (6)

Culminating Experience (12 credit hours)
COM 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree; 66 credit hours are required beyond an appropriate master's degree.

At least six elective credit hours must be coursework outside of the communication field. At least three elective credit hours must be coursework in methods training.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit:
• graduate admission application and application fee
• official transcripts
• resume or curriculum vitae
• statement of goals
• three letters of recommendation
• writing sample
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Most commonly, students enter with a research-based Master of Arts in which they have completed a master's thesis.

An international student's teaching assistant appointment is contingent on a full certification of spoken English proficiency. This process typically involves taking and passing the SPEAK test with a score of 55 or higher. The SPEAK test is administered on ASU's Tempe campus by Global Launch (https://globallaunch.asu.edu/learn-english/other-services/international-teaching-assistant) at least 24 times a year. Only SPEAK scores from Global Launch are allowed.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

A doctoral degree in communication opens doors to a variety of careers in research, teaching, training and consulting. Graduates typically obtain jobs in research and teaching institutions that range from large research universities to four-year teaching schools and community colleges. A number of career opportunities appear in government agencies and organizations, both for-profit and nonprofit.

Graduates have obtained jobs as:

- academic administrators
- academic advisors
- campaign managers
- consultants

policy advocates
professors
program directors
researchers

Admission deadlines (https://humancommunication.asu.edu/graduate-admission)

Comparative Culture and Language, PHD (LAILCPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

You learn through professional training that is linguistically well-grounded, historically and culturally informed, and methodologically transdisciplinary through courses and supervision of research in the Doctor of Philosophy program in comparative culture and language. Central to the program is the critical inquiry of primary texts, media and cultural expressions, aiming at an original understanding of cultures and social groups in their formations, interactions and transformations throughout history.

This program is attentive to the various roles of language in societies and in the different perspectives through which language can be studied --- among other aspects, its variations, transformations, hybridizations and processes of acquisition. The doctorate in comparative culture and language focuses particularly on research questions and themes that cannot be fully explored within the traditional disciplinary boundaries; instead, it fosters dynamic collaboration across disciplines to engage in the production of knowledge that's crucial to understanding transnational and transcultural interactions across time and space.

The program offers you the opportunity to pursue, with the guidance of faculty members who are comparatists and specialists in particular fields, transdisciplinary research and teaching. In consultation with your advisor, you do your coursework in a primary and a secondary area of emphasis. Both areas are organized around interdisciplinary study and research in more than one language; you're expected to have advanced proficiency in one language other than English (this is the language of primary emphasis) and at least reading knowledge in a second language other than English (language of secondary emphasis).

For example, you might choose to study medieval European theater for the primary area of emphasis and medieval book culture for the secondary area. For the primary area of emphasis, you could demonstrate advanced proficiency in one European language, such as French or Italian, depending on the requirements of your research. For the second language other than English, you would have at least reading knowledge of, say, Latin. Another example: You might choose to study the representation of the migrant experience in contemporary East Asian cultures as the primary area of emphasis, and film and media studies as the secondary area. Your primary area of emphasis would require advanced proficiency in a certain East Asian language, such as Chinese, Japanese or Korean, and the secondary area reading knowledge of one more non-English language pertinent to your comparative research.

Faculty members are drawn from the School of International Letters and Cultures and other programs in the humanities and social sciences across Arizona State University.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, two foreign language exams, a prospectus and a dissertation

Required Core (3 credit hours)
SLC 602 Comparative Cultural Theory (3)

Restricted Electives (36 credit hours)
primary field of study (18)
secondary field of study (18)

Electives and Research (33 credit hours)

Culminating Experience (12 credit hours)
SLC 799 Dissertation (12)

Additional Curriculum Information
Students do coursework in a primary and a secondary area of emphasis. Both areas are organized around interdisciplinary study and research in more than one language; students are expected to have advanced proficiency in one language other than English (this is the language of primary emphasis) and at least reading knowledge in a second language other than English (language of secondary emphasis). Students complete 12 credit hours of foreign language coursework in the electives and research coursework.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program or a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• resume or curriculum vitae
• writing sample
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should describe the questions, issues or challenges the student plans to explore through the doctoral program in comparative culture and language and explain how previous studies, training or professional experiences have prepared the student for this research. It should include a proposed plan of study based on the current graduate-level offerings at ASU. In a brief statement, the student should indicate how those courses will be

preparation for the dissertation, how the plan fits with the description and goals of this doctoral program, and why the proposed program does not fit some other degree program.

Applicants must provide a 15- to 20-page writing sample in English; a writing sample in the primary language of interest may also be requested at the discretion of the admission committee. The writing sample should reflect the student's analytical and critical skills.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Professionals with this doctoral degree can confidently move into a variety of fields as an expert on concentration topics. Their skills are valued in the academic and international sectors for teaching positions; translation work; and work in government, diplomacy and international business.

Career examples include:

- area, ethnic and cultural studies teacher or professor
- education administrator
- foreign language and literature teacher or professor
- interpreter or translator
- philosophy and religion teacher or professor
- reporter or correspondent

Computational Life Sciences, Certificate (LACMLSGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description
In the computational life sciences graduate certificate program, you develop expertise in the understanding,== interpretation and analysis of diverse data types generated from a variety of life sciences disciplines, including ecology,== botany, evolutionary biology, neuroscience, molecular and cellular biology, and animal behavior.

STEM-OPT extension eligible: No

Degree requirements

16 credit hours and a portfolio

Required Core (1 credit hour)
BIO 511 Big Data in Context (1) or

BIO 610 Introduction to Responsible Conduct of Research (RCR) in Life Sciences (1) or
BIO 611 Current Topics in Responsible Conduct of Research (RCR) in Life Sciences (1)

Electives (15 credit hours)

Culminating Experience (0 credit hours)
portfolio (0)

Additional Curriculum Information
Elective coursework is selected from a restricted list in consultation with the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in life sciences or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• written statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The written statement should discuss the applicant's future career goals to better assist the student with selecting the most applicable set of courses in computational life sciences.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/computational-life-science-graduate-certificate/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Summarize key computational concepts, such as algorithms and relational databases, and their applications in the life sciences, and apply statistical concepts used in computational life sciences.
- Write simple computer scripts to find, retrieve, and organize various types of biological data, using command-line bioinformatics tools.
- Interpret the ethical, legal, medical, and social implications of biological data.

Career opportunities

Professionals with expertise in computational life sciences are in high demand in biotech and biomedical industries. Skills in data science are critical for the analysis and interpretation of life sciences data. These skills are valuable to businesses and institutions relying on data-driven life sciences research including hospitals, biotechnology companies, and for-profit and nonprofit research institutions.

Career examples include:

- bioinformatics scientist
- computational lab technician
- core facilities researcher
- ecologist
- educator
- microbiologist
- natural sciences manager
- software developer

Computational Life Sciences, MS (LACLSMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description

The Master of Science program in computational life sciences introduces you to a burgeoning new field. Huge leaps in= processing technologies have thrown open the doors for new research techniques and exciting opportunities for= interdisciplinary collaborations, focusing heavily on genomics data generation, analysis and interpretation.

You gain expertise in statistical modeling, bioinformatics and data science methods that drive discoveries across= genomics, transcriptomics, proteomics, metabolomics, epigenomics and imaging data. The curriculum emphasizes= hands-on training in data integration, visualization and machine learning to uncover patterns and generate actionable= insights.

Drawing from disciplines such as molecular and cellular biology, neuroscience, evolutionary biology, ecology and= systems biology, you work with diverse datasets ranging from DNA and RNA sequencing to protein networks, single-cell= analyses, ecological monitoring, and long-term environmental data.

In addition, you critically engage with the ethical, legal and social implications of computational life sciences, including= responsible data sharing, reproducibility and the challenges of working with sensitive biomedical information.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Molecular Biosciences and Biotechnology, BS

Biological Sciences (Neurobiology, Physiology and Behavior), BS

Microbiology (Medical Microbiology), BS

Biological Sciences (Genetics, Cell and Developmental Biology), BS

Biochemistry (Medicinal Chemistry), BS

Biological Sciences (Biology and Society), BS

Microbiology, BS

Data Science, BS

Biological Sciences (Conservation Biology and Ecology), BS

Biological Sciences, BS

Biochemistry, BS

Biological Sciences (Biomedical Sciences), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (BIO 593), or
30 credit hours including the required capstone course (BIO 597)

Required Core (1 credit hour)
BIO 511 Big Data in Context (1) or
BIO 610 Introduction to Responsible Conduct of Research (RCR) in Life Sciences (1)

Restricted Electives (18-20 credit hours)
Choose two computing in life sciences courses for six to seven credit hours:
BIO 539 Computing for Research (3)
BIO 591 Topic: Quantitative Methods in Conservation and Ecology (4)
BIO 598 Topic: Medical Genetics and Genomics (3)
BIO 598 Topic: Transcriptomics (3)

Choose two statistics and mathematics courses for six to seven credit hours:

BIO 514 Statistical Models for Biology (4)
BIO 579 Data Analysis and Visualization in R (3)
BIO 598 Topic: High-Throughput Genomics Analysis and Visualization (3)
BIO 598 Topic: General Linear Models for Biology (3)

Choose two biology courses for six credit hours:
BIO 543 Molecular Genetics and Genomics (3)
BIO 544 Discovering Biodiversity (3)
EVO 601 Principles of Evolution (3)
MCB 540 Functional Genomics (3)

Electives or Research (6--8 credit hours)

Culminating Experience (3 credit hours)
BIO 593 Applied Project (3)
BIO 597 Capstone (3)

Additional Curriculum Information
For restricted electives, students complete two computing in life sciences courses, two statistics and mathematics courses, and two biology courses. Restricted elective and electives or research credit hours are variable.

Students pursuing the applied project or capstone course complete three to six credit hours of electives or research. Students should consult the academic unit for a list of approved electives and research course requirements.

Courses not selected for the restricted electives may be used as elective coursework on the same plan of study. Students should check with their academic advisor to ensure that the total number of credit hours of their plan of study is equal to 30.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in biology, statistics or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/computational-life-sciences/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Employ statistical concepts used in computational life sciences.
- Organize various types of biological data using bioinformatics tools and simple computer scripts.
- Interpret the implications (ethical, legal, medical, and social) of biological data.

Career opportunities

Career opportunities for graduates include:

- academic research labs and teaching institutions
- biotechnology and pharmaceutical companies
- environmental and conservation organizations
- hospitals and medical research centers
- public health agencies and nonprofit research institutions

Median salaries in computational life sciences-related positions are significantly higher than the overall workforce== median, reflecting the high demand for professionals with this hybrid expertise in biology and data science.

Computer-Assisted Language Learning, Certificate (LACALLGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description

The graduate certificate in computer-assisted language learning focuses on the innovative use of technology in== language teaching and research. It's offered in multiple modalities: in person and online.

Through this program, you gain hands-on experience creating and evaluating digital learning materials, as well as the== skills to enhance language acquisition using technology. You gain practical skills and a deep understanding of the== theoretical and pedagogical approaches to integrating technology into language curricula.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (6 credit hours)
APL/ENG/SLC 557 Computer-Assisted Language Learning (3)
APL 558/SLC 510 Computer-Assisted Language Learning Praxis (3)

Restricted Electives (3 credit hours)

Electives (6 credit hours)

Additional Curriculum Information
For restricted electives, students select a second language acquisition course with department approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree with a major or minor in foreign language study, English or English education from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• resume or curriculum vitae
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English and who has not graduated from an institution of higher learning in the United States must provide proof of English proficiency regardless of their current residency. Applications are not processed without valid proof of English proficiency. Official scores must be sent to ASU for the application to be processed.

Applicants must submit a one- to two-page double-spaced, well-considered personal statement in which they explain how their experience and training have prepared them for the certificate program, and describe their aims and purpose in pursuing this certificate.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-

programs/certificates/computer-assisted-language-learning/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Critically evaluate current theoretical and pedagogical issues in the area of computer-assisted language learning.
Construct a testable theoretical or pedagogical hypothesis related to CALL.

Career opportunities

This certificate opens doors to a wide variety of careers in academic, business and international sectors. Graduates can apply their expertise in both teaching and technology-driven roles across various educational and professional environments, in hybrid or online classrooms. The skills gained are in high demand in teaching, research and beyond.

Career examples include:

distance learning coordinator
educational technology teacher or professor
foreign language or TESOL instructor
instructional coordinator
instructional designer or technologist
technology for language learning consultant
training and development specialist

Creative Writing, MFA (LACWRITMFA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the Master of Fine Arts in creative writing, you gain foundational knowledge of literary craft, developing a deep capacity to read as writers read --- for pleasure and surprise, and also for strategy, technical dexterity, and how language works on the page. You take two workshops in your primary genre (fiction or poetry) as well as one workshop in another genre. The department offers courses in creative nonfiction, translation and creative methods, designed each year in alignment with student curiosity, faculty interests and pressing questions in the field at large.

Mentorship at ASU includes artistic vision and practice, as well as framing career goals and planning for a writer's life --- potentially within, and often outside --- the academy. Unlike the usual two-year MFA offered at most institutions, ASU offers three years of study, allowing more time for you to grow as a writer and immerse yourself in multiple genres and cross-genre innovations, collaborative artistic or community projects, and the deep engagement of your own work, often a book-length manuscript.

The program is unswervingly student-first. Incoming poets and fiction writers work with an outstanding faculty who have received major national and international recognition, including fellowships from the Guggenheim, Howard, Lannan, and MacArthur Foundations; the National Endowment for the Arts and United States Artists; the Freedom

Scholar Award; National Book Critics Circle Award; National Magazine Award; OCM Bocas Prize for Caribbean Literature; and Whiting Writers Awards; multiple Pulitzer Prizes; medals of achievement from the National Society of Arts and Letters; two former Chancellors of the Academy of American Poets; and the Walt Whitman Award from the Academy of American Poets.

In concert with the MFA program in creative writing, three additional ASU entities extend the programming, funding opportunities and training available to MFA students. The Virginia G. Piper Center for Creative Writing offers fellowships, support for professional development and other teaching and leadership opportunities including a Community Outreach Graduate Assistantship. They also host an annual conference that brings major writers to campus each fall. The Center for Imagination in the Borderlands brings writers and other artists for intensive workshops, classes and public events throughout the year, and it offers research and pedagogy-based fellowships. The Worldbuilding Initiative brings major external writers together with ASU writers --- from the MFA program and elsewhere in the university --- for workshops and events. The creative writing program also hosts the Craft and Content lecture series and the Stellar Alumni reading series featuring creative writing graduates with recent books.

As an MFA poet or writer, you may also serve on the editorial board of an international literary journal, Hayden's Ferry Review, gain translation experience through the Thousand Languages Project, and intern with award-winning independent literary press Four Way Books.

STEM-OPT extension eligible: No

Degree requirements

48 credit hours including a written comprehensive exam and the required applied project course (ENG 593) - Fiction Track, or
48 credit hours including a written comprehensive exam and the required applied project course (ENG 593) - Poetry Track

Required Core (6 credit hours)
ENG 585 Artful Attention Writers as Readers (3)
ENG 665 Creative Methods (3)

Track Requirement (12 credit hours)
Fiction Track
ENG 563 Forms of Fiction (3)
ENG 564 Fiction Workshop (6)
ENG 565 Poetry Workshop (3) or ENG 566 Creative Nonfiction Workshop (3)

Poetry Track
ENG 562 Forms of Poetry (3)
ENG 564 Fiction Workshop (3) or ENG 566 Creative Nonfiction Workshop (3)
ENG 565 Poetry Workshop (6)

Additional Writing Courses (6 credit hours)
ENG 550 Translation (3)
ENG 598 Special Topics (3)
ENG 664 Mixed Genres (3)
ENG 667 Creative Writing and the Professions (3)
ENG 680 Practicum (3)

Reading and Conference for Project Development (6 credit hours)
ENG 590 Reading and Conference (3)

Electives (15 credit hours)

Culminating Experience (3 credit hours)
ENG 593 Applied Project (3)

Additional Curriculum Information
Electives must consist of ASU courses at or above the 500-level from an approved list. The required six credit hours of ENG 590 Reading and Conference must be taken over two semesters (3 credit hours each semester). As part of their track requirements, students must taken one workshop in a genre other than their track focus. A written comprehensive exam and an applied project are required.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Applicants should have an undergraduate major in English or creative writing; however, exceptional students who do not have either of these undergraduate majors may be admitted on the basis of writing excellence.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume or curriculum vitae
• three letters of recommendation
• creative manuscript
• statement of teaching philosophy
• academic writing sample
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English (regardless of current residency) and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency. Applications are not processed without valid proof of English proficiency. Official scores must be sent to ASU in order for the application to be processed.

The personal statement should include the applicant's writing background, intended area of specialization and a brief self-evaluation of recent work (double-spaced, up to three pages or 750 words). The creative manuscript should be up to 20 pages of poetry or up to 30 pages of prose (prose should be double-spaced). Students applying for a teaching assistantship must submit a statement of teaching philosophy and an academic writing sample.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Create original fiction or poetry that incorporates theoretical and foundational literary knowledge.
- Explicate their creative works articulately.
- Analyze and critique the writing of other creative writers.

Career opportunities

A MFA in creative writing graduate is prepared primarily for the professional creation of new art, including fiction, poetry and other written forms. In addition to working as novelists, poets and short story writers, graduates go on to careers in education, arts administration, media and entertainment, and in political and community organizations. Career examples include:

- book designer or publicity specialist
- book or magazine editor
- creative writing professor
- curriculum designer
- essayist or journalist
- grant writer and developer
- literary or events coordinator
- nonprofit administrator
- public relations and communications manager
- screenwriter
- secondary education teacher

Critical Theory, Certificate (LACRTGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, West Valley

Program description

The graduate certificate program in critical theory provides you with advanced study in critical and contemporary== theory. It promotes the skills required to use and interpret concepts from continental philosophy and theoretical== trends from the last two centuries. The program also offers tools for engaging critically with society and for producing== new cultural texts and ideas.

Critical theory encompasses a broad range of disciplines, including the arts, humanities, social sciences, and technical== and physical sciences. You have access to a wide variety of courses that apply toward the certificate.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours and a portfolio

Required Core (3 credit hours)
ENG 502 Contemporary Critical Theories (3)

Electives (12 credit hours)

Culminating Experience (0 credit hours)
portfolio (0)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume or curriculum vitae
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English and has not graduated from an institution of higher learning in the United States regardless of their current residency must provide proof of English proficiency. Applicants should note that official scores must be sent to ASU for the application to be processed.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The graduate certificate in critical theory is available to all ASU graduate students irrespective of their major, as well as to nondegree graduate students and working professionals provided they meet eligibility criteria. Sample majors include English; women and gender studies; art history; and arts, media and engineering. Eligible applicants must have taken two courses in critical theory or a related field at the upper-division undergraduate level (such as ENG 401 Topics in Critical Theory) or at the graduate level (such as ENG 502 Contemporary Critical Theories).

The statement of purpose should be approximately 300 to 600 words and address the following:

• the applicant's background in theory
• the areas of theory the applicant is interested in pursuing and which authors the applicant is reading and thinking about
• what concepts in critical theory interest the applicant most and why
• what the applicant hopes to accomplish by pursuing this certificate

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Students will be able to recognize and apply the affordances and limitations in the applications of foundational concepts of critical theory.
- Students will be able to apply the paradigms of critical theory to develop original research projects.
- Students will be able to build on, qualify or challenge claims in critical theory.

Career opportunities

Writers and other content professionals are in demand today, not only in traditional print media, but also on digital platforms. Critical theory provides valuable skills in logical argument and conceptual analysis that are useful across the media spectrum, from scholarly writing to popular magazines and websites with social, cultural and political themes. Students of critical theory are increasingly involved in multimedia work and technologies, such as artificial intelligence, and in both academic and commercial innovative institutional ventures, such as tech startups.

Career examples include:

- analyst for cultural tech company
- content provider for social media
- freelance cultural critic (on- and offline)
- grassroots activist
- instructor in critical theory, cultural studies or media studies
- political strategist or campaign worker
- writer in marketing and advertising

Digital Humanities, Certificate (LACDHGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is not currently accepting applications for this program.

Program description

In the graduate certificate program in digital humanities, you learn the methods and skills central to conducting= humanities research that employs qualitative and quantitative approaches.

The program promotes cross-disciplinary study in humanities and social and computational sciences, and is open to= you regardless of your current discipline. The program features training in transdisciplinary collaboration, project-based communication skills, critical theory and the simultaneous application of quantitative and qualitative problem-solving skills.

This certificate highlights an area of excellence within ASU that has emerged across its colleges, schools and= departments and is integral to the effort of transforming the humanities at ASU into new transdisciplinary= configurations.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours including the required applied project course (CDH 593)

Required Core (3 credit hours)
CDH 501 Digital Humanities: Critical Theory and Methods (3)

Electives (6 credit hours)

Other Requirement (3 credit hours)
CDH 580 Practicum (3)

Culminating Experience (3 credit hours)
CDH 593 Applied Project (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Admission is open to all ASU graduate students enrolled in an existing master's or doctoral program and in good standing. Students who are interested in transdisciplinary work are particularly well suited for this certificate program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Students are asked to outline a desired transdisciplinary area of inquiry. For example, a student who works on digital rhetoric and literacy may want to understand how to create and manage social media datasets or how to create a social media application. Alternatively, a student in the School of International Letters and Cultures may want to study digital archives of Slavic literature and may need to understand how digital archives are enmeshed in national and capitalist networks.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate ethical issues relevant to the collection and analysis of humanities data in course assignments.

- Evaluate the fit of computational tools for performing quantitative analysis in a humanities research project.
- Effectively communicate research findings through written report and digital media.

Career opportunities

Professionals with this certificate can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or work in a larger sector, such as governmental, diplomatic and international business settings.

Career examples include:

- computer and information research scientist
- cultural designer
- data scientist
- digital curator
- digital humanities instructor
- humanities digital content editor
- information architect
- metadata analyst
- social science research assistant

Disability Studies, Certificate (LADISGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the graduate certificate program in disability studies, you focus on the creation of new knowledge and consequent= practical implications in the area of disability. Courses are coordinated into an individualized systematic plan of study= that trains you to conduct disability research.

You examine disability from diverse perspectives, including disability law and justice, cultural politics of disability, and= family perspectives, and through the use of various research methods in disability studies. The program emphasizes= examining and creating new theoretical perspectives and methodological approaches at different levels of analysis= while analyzing topics of crucial importance locally and globally.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
JUS 530 Social Policy, Critical Advocacy and Disability (3) or
JUS 565 Critical and Comparative Issues in Disability (3)

Electives (12 credit hours)

Additional Curriculum Information

Students should see the academic unit for the preapproved list of elective coursework. Other coursework may be used with approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in social sciences, education, social work, law, health care and health care policy, or any related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa must apply to and be accepted to a graduate degree program before they will be considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Explain key theoretical perspectives contributing to the development of disability studies.
Critically examine data addressing current and/or future issues in the study of disability culture locally and globally.

Career opportunities

A disability studies certificate can benefit individuals working within a variety of fields such as health care, human services, education, rehabilitation sciences and social work. Additionally, individuals with a disability certificate can work within a number of diverse settings, including:

advocacy associations
community and family support agencies
foster care agencies
gerontology institutes

hospitals
jails and prisons
nonprofit agencies
pre-K-12 schools
research centers and institutes
state and local disabilities agencies

East Asian Languages and Civilizations (Chinese), PHD (LAEALCPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in East Asian languages and civilizations is a research-intensive, transdisciplinary, area-based degree in the study of traditional and modern languages and cultures of China. You may focus on:

• comparative cultural studies
• cultural history
• linguistics
• literary criticism
• literary thought

In every case, you are expected to acquire a solid grounding in the classical and modern versions of Chinese.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, two foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
CHI 501 Proseminar: East Asian Humanities (3)

Concentration (6 credit hours)
CHI 514 Advanced Classical Chinese (6)

Other Requirements (39 credit hours)
CHI 502 Academic Writing (3)
CHI 598 Topic: Proseminar: Chinese Literary History (3)
CHI 598 Topic: History of the Chinese Language (3)
CHI 598 Special Topics (15)
CHI 691 Seminar (15)

Electives (24 credit hours)

Culminating Experience (12 credit hours)
CHI 799 Dissertation (12)

Additional Curriculum Information
5 credit hours of CHI 598 Special Topics must be comprised of five courses, and 15 credit hours of CHI 691 must be comprised of five seminar courses. Other requirements and elective coursework for the degree are to be chosen in consultation with the program chair.

Courses for the other requirements may be substituted with the approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution. Applicants specializing in Chinese should have completed at least three years of modern Chinese and one year of classical Chinese.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• writing sample
• speech sample in Chinese or Japanese
• resume or curriculum vitae
• GRE scores
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

ASU does not accept the GRE® General Test at home edition.

The writing sample, which should be no more than 15 pages, should represent the applicant's skills in thinking and writing, and it should be on a topic connected with Chinese, Japanese or East Asian culture.

The speech sample is required if the applicant is applying for teaching assistantship funding. The speech sample should be a recorded message approximately four minutes in length, in Chinese or Japanese, on a topic of the applicant's choosing. (Applicants are asked to not read the message. This is to help the committee evaluate the level of proficiency, and the message should realistically reflect the applicant's spoken Chinese or Japanese). Recordings should be emailed to SILC@asu.edu (mailto:SILC@asu.edu).

Applicants should see the department website for more information.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Conduct textual analysis in East Asian (modern and/or traditional) and Western languages to inform independent research.
Create an independent research project in East Asian humanities, using a broad range of knowledge gained through reading and evaluations of scholarly production of others.
Write dissertations that offer original contributions to the field of East Asian humanities.

Career opportunities

Professionals with this degree can confidently move into academic, business and international fields. The skills they possess are valued for teaching positions, translation work and career opportunities in larger sectors such as government, diplomacy and international business.

Career examples include:

historians
interpreters and translators
lawyers
reporters and correspondents
social and community service managers
teachers or professors of area, ethnic and cultural studies
teachers or professors of foreign language and literature

English (English Education), PHD (LAENEDPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in English with a concentration in English education prepares you as an educator, leader or researcher to examine the writing and reading practices of secondary students. The program emphasizes critical thinking and inquiry into instructional practices of secondary English language arts teachers and provides training in pedagogy, curricular development and research methodologies. The doctoral curriculum comprises dynamic coursework, mentoring, interdisciplinary learning opportunities and community outreach.

Possible areas for research focus within this program include young adult literature, secondary reading and writing practices, new literacies, English language learning, critical literacy, and secondary English language arts curriculum and instruction development. The program encourages you to pursue coursework in other subdisciplines within the Department of English, such as rhetoric and composition, applied linguistics and literature, and coursework in the ASU Mary Lou Fulton College for Teaching and Learning Innovation, such as literacy and educational research methodology.

As a doctoral student, you benefit from the program's links to the Central Arizona Writing Project, which offers opportunities for related coursework, research, community outreach and teacher in-service programs.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
ENG 501 Approaches to Research (3)

Concentration (12 credit hours)
ENG 506 Methods and Issues in Teaching Language (3)
ENG 507 Methods and Issues in Teaching Composition (3)
ENG 540 Teaching Young Adult Literature (3)
ENG 541 Teaching Texts in Secondary Classrooms (3)
ENG 594 Topic: Central Arizona Writing Project Summer Institute (3)
ENG 606 Advanced Studies in English Education (3)

Other Requirements (9 credit hours)
ENG 525 Teaching Second Language Writing (3)
ENG 556 Theories in Literacy (3)
ENG 594 Topic: Teaching First-year Composition (3)
ENG 598 Special Topics (3)
ENG 606 Advanced Studies in English Education (3)
ENG 655 Disciplinary Discourses (3)

Internships (6 credit hours)
ENG 784 Internship (6)

Electives and Research (42 credit hours)

Culminating Experience (12 credit hours)
ENG 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. Students who do not hold a master's degree must take additional elective and research credit hours to reach the 84 credit hours required for this program.

Students should contact their advisor for a list of approved ENG 598 topic options for the Other Requirements section.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's and master's degree from a regionally accredited institution. Applicants with master's degrees in English education and related fields, such as English literature, applied linguistics, education, and rhetoric and composition are considered. A minimum of three years of

full-time teaching or volunteer work in secondary English language arts classrooms or in literate-rich settings is required.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume or curriculum vitae
• three letters of recommendation
• academic writing sample
• statement of teaching philosophy (teaching assistantship only)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency regardless of their current residency. Applications are not processed without valid proof of English proficiency; official scores must be sent to ASU in order for the application to be processed.

The one- to two-page statement should explain the applicant's interest in the program and how the applicant's background and preparation led to the specific career and research goals. Although applicants are not expected to have a definite research topic, the statement should articulate the specific domain or research area the applicant hopes to pursue and possible research questions. Letters of recommendation should be from individuals familiar with the applicant's promise in English education, including one letter from a school principal and two letters from university professors. Applicants applying for funding must also submit a statement of teaching philosophy.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Produce written article-length work of publishable quality.
Successfully design and conduct original research in the field of English education.
Write a comprehensive, book-length research study with theory, literature review, methods, analysis and findings based on their own research.

Career opportunities

Graduates may have careers as teachers and administrators in the field of language arts and literacy education in secondary schools, as researchers and as instructors of English education at the college level.

This degree is highly respected and sometimes required for positions in state and federal departments of education and with federal education bureaus (i.e., U.S. Bureau of Indian Education) or professional organizations, such as the National Council of Teachers of English, or the International Literacy Association. Graduates may work as federal or state curriculum specialists and analysts, or as education program designers or interpretive rangers for state parks.

Graduates may also become publishing industry content specialists or acquisitions editors for educational texts working at Scholastic, Pearson or Routledge, or specialize in trade books in young adult and children publishing.

Additional career examples include:

corporate communications director and professional development director
curriculum developer
department chair
district level research specialist
dual enrollment teacher
faculty member at a college or university
instructional leader
literacy coach
middle or high school English teacher

Language and Linguistics (3 credit hours)
ENG 530 Old English (3)

ENG 532 Middle English Dialects (3)
ENG 550 Translation (3)
LIN 517 History of the English Language (3)
a 400-level course in an approved language (3)
an approved 500-level LIN course (3)
an approved graduate-level SILC course (3)

Restricted Electives (12 credit hours)

Electives and Research (39 credit hours)

Culminating Experience (12 credit hours)
ENG 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. Students who do not hold a master's degree are required to take additional elective and research credit hours to reach the 84 credit hours required for this program.

The restricted electives include four courses which students can choose from an approved list of literary and cultural studies. Theses courses may be substituted with advisor approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume or curriculum vitae
• three letters of recommendation
• academic writing sample relevant to the field
• statement of teaching philosophy (teaching assistantship only)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency (https://english.asu.edu/admission/graduate-admission/information-international-students), regardless of current residency. Official scores must be sent to ASU in order for the application to be processed.

The well-considered, one- to two-page, single-spaced statement of purpose should explain the applicant's scholarly

background and training, career goals, proposed research specialization, any secondary field of interest and why the applicant wishes to pursue a PhD in English with a concentration in literature at Arizona State University. Applicants applying for funding must also submit a statement of teaching philosophy.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Identify and evaluate various disciplinary arguments, trends, traditions and debates within the knowledge community of literary and cultural studies scholars.
Analyze scholarly debates and developments in selected subfields of literary studies.
Produce arguments about the historical and cultural meanings of texts informed by primary research.

Career opportunities

Graduates are prepared for careers in higher education and other fields that value this expertise. Sectors employing high numbers of arts and humanities graduates include information and communication, financial and insurance, public administration and defense, arts and entertainment, and education.

Career examples include:

archivist, curator or exhibit designer
consultant or lobbyist
educator
higher education administrator
librarian or rare books curator
market research analyst
nonprofit program director
project manager
public relations specialist or manager
publisher, writer or editor copywriter

English (Writing, Rhetorics, and Literacies), PHD (LAENRHTPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in English with a concentration in writing, rhetorics and literacies promotes the study of rhetorical strategies, production, distribution and interpretation of oral, written, digital, visual, discursive, material and symbolic texts.

You examine historical trends and theoretical perspectives while also gaining experience in applied methods and emerging research practices. You come to understand how writing and other forms of mediated discourse create

knowledge and influence social action across a broad spectrum of writing, rhetoric and literacy studies.

The program encourages transdisciplinary study, and its flexible requirements enable you to pursue those aspects of the disciplines that interest you the most.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
ENG 501 Approaches to Research (3)

Concentration (9 credit hours)
ENG 551 Rhetorical Traditions (3)
ENG 552 Composition Studies (3)
ENG 556 Theories of Literacy (3)

Focus Area (9 credit hours)

Electives or Research (48 credit hours)

Other Requirements (3 credit hours)
ENG 588 Writing for Publication (3)

Culminating Experience (12 credit hours)
ENG 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. Students who do not hold a master's degree are required to take additional elective and research credit hours to reach the 84 credit hours required for this program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Applicants with bachelor's or master's degrees in fields such as anthropology, applied linguistics, cognitive science, communication, comparative languages and literatures, English literature, education, history, law, linguistics, modern languages, philosophy, political science, psychology, religion, rhetoric, composition, sociology, and speech and hearing science are considered.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts

• statement of purpose
• resume or curriculum vitae
• three letters of recommendation
• academic writing sample relevant to the field
• statement of teaching philosophy (teaching assistantship only)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency regardless of their current residency. Applications are not processed without valid proof of English proficiency; official scores must be sent to ASU in order for the application to be processed.

The well-considered, one- to two-page statement of purpose should explain the applicant's scholarly background and training, career goals, proposed research specialization, any secondary field of interest, and why the applicant wishes to pursue a PhD in English with a concentration in writing, rhetorics and literacies at Arizona State University. Applicants applying for funding must also submit a statement of teaching philosophy.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate competing knowledge claims within rhetorical studies and draw relevant interdisciplinary connections between those claims and one's own research topics.
Evaluate and draw from relevant disciplinary histories, theories and methods to support rhetorical inquiry into their research topics.
Design and carry out an original research study that produces data, findings and applied strategies for publication in professional, scholarly venues.

Career opportunities

Professionals with expertise in written communication, research and knowledge management are in high demand across sectors and industries, including business, media, law, entertainment, politics, nonprofits and community organizations. Skills in the measurement and analysis of data for the development of multimodal content (digital, print, oral, visual) are valuable to businesses, organizations and institutions relying on data-driven strategies to address and communicate complex, knowledge-rich issues to broad professional audiences.

Graduates are prepared for work as teachers, scholars and communications professionals. Career examples include:

editor and content manager
English or communications professor
human resources specialist
market research analyst
public relations specialist
publishing copy editor or proofreader
social media manager
technical writer

English Education, MA (LAENEDMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Arts in English education is a one-year, intensive program designed to prepare you, as a practicing or transitioning teacher, for a career as a exemplary educator, teacher-researcher and leader in English language arts instruction.

You develop a deep understanding of the English language arts by learning how to access, analyze and apply research and best practices for teaching secondary students (grades 7-12). This program balances the refining of disciplinary knowledge with pedagogical application of that knowledge in classrooms. You take contemporary methods courses, including advanced methods courses in English education research, teaching writing and text, teaching critical approaches to analysis of young adult literature, and teaching writing in an era of standardization.

This innovative course of study culminates with an inquiry project using newly learned methods of data collection and analysis, a project that's related to English language arts instruction in secondary classrooms. The program empowers you to employ teacher research and inquiry to address questions you have about your own students' learning and your own teaching practice.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

English (Secondary Education), BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (ENG 593)

Required Core (12 credit hours)
ENG 501 Approaches to Research (3)
ENG 506 Methods and Issues in Teaching Language (3)
ENG 507 Methods and Issues in Teaching Composition (3)
ENG 606 Advanced Studies in English Education (3)

Electives or Research (12 credit hours)

Other Requirements (3 credit hours)
ENG 594 Conference and Workshop (3)

Culminating Experience (3 credit hours)
ENG 593 Applied Project (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in English, creative writing, English education, secondary education or secondary curriculum and instruction, or a master's degree in education or a closely related field from a regionally accredited institution. Current certification in secondary English language arts (grades 6-12) or equivalent certification, or a minimum of two years teaching English language arts in a school setting is required.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume or curriculum vitae
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency regardless of their current residency. Applications are not processed without valid proof of English proficiency; official scores must be sent to ASU.

Applicants must submit a well-considered, one- to two-page statement of purpose in which they explain how their experience and training have prepared them for the English education program, their goals in pursuing the MA in English education, and plans for the future.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Students will demonstrate the ability to recognize various qualitative and quantitative research methods as appropriate and effective means for pursuing specific lines of classroom-based teacher inquiry and explain the pros and cons of a given methodological approach in terms of their classroom research.
Students will be able to locate, analyze and synthesize qualitative or quantitative teacher research studies specific to important issues in their own English language arts classrooms or schools.
Students will demonstrate the use of appropriate, effective qualitative or quantitative research methods as they design and implement studies for the purpose of improving curriculum and instruction in their own school districts and sharing their findings in a public forum.
Students will be able to identify important educational issues they face in teaching English language arts, survey a variety of resources (i.e., research literature, expert opinion and educational policy), and synthesize their learning into plans for best practice.

- Students will be able to interrogate their own pedagogical practices (i.e., curriculum and instruction, differentiation, English language learners, cultural responsiveness, assessment, digital and new literacies) in the teaching of English language arts (reading, writing, speaking, listening, use of language, technology) and make appropriate adaptations to best meet all students' needs.

Career opportunities

Graduates may pursue professions related to the field of secondary language arts and literacy education in secondary schools.

Career examples include:

- dual enrollment teacher
- education and leadership researcher
- faculty member at a college or university
- industry content specialist
- instructional leader
- literacy coach
- middle or high school English teacher

Outside of academia, graduates may become nonprofit public relations managers, event managers and associate= directors. They may work for state and federal education departments as content specialists, curriculum developers or= professional development providers.

Certified teachers who complete the MA program in English education may be qualified to teach dual-credit English= courses.

English, MA (LAENGLMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description

The Master of Arts program in English offers multiple pathways of learning and a choice of modalities (in-person and= online) so that you can find the best path through the program. You have opportunities for internships and= professional development.

Online: English studies
In the English studies track, you learn how to interpret complex cultural, historical, literary and language-related= materials. The online program includes a capstone course that enables you to review your experience and articulate= the skills and knowledge you've gained to current or future employers. This track doesn't include a thesis option.= Instead, in the capstone course, you create projects that can be used for professional and career growth.

Tempe campus
At the Tempe campus, you select one of two tracks: literature; or writing, rhetorics and literacies. The in-person= program culminates in the choice between a thesis and an applied project.

• Literature --- You develop skills in literary and cultural analysis, explore social and historical contexts, address theoretical issues and pursue interdisciplinary modes of inquiry.

• Writing, rhetorics and literacies --- You engage with various approaches to the history, theory and practices of rhetoric and the pedagogies of writing and composition.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

English (Writing, Rhetorics and Literacies), BA

English (Literature), BA

English, BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis - Literature Track, or
30 credit hours and a thesis - Writing, Rhetorics and Literacies Track, or
30 credit hours including the required applied project course (ENG 593) - Literature Track, or
30 credit hours including the required applied project course (ENG 593) - Writing, Rhetorics and Literacies Track, or
30 credit hours including the required capstone course (ENG 597) - English Studies Track

Required Core (3 credit hours)
ENG 501 Approaches to Research (3)

Track Coursework (12 or 18 credit hours)
English Studies Track (18 credit hours)
one course in linguistics (3)
one course in literature (3)
one course in writing, rhetorics and literacies (3)
one course in English education (3)
two additional courses (6)

Literature Track (18 credit hours)
ENG 502 Contemporary Critical Theories (3)
one course in early literatures and cultures (3)
one course in modern and contemporary literatures and cultures (3)
one course in global, ethnic, and transnational literatures and cultures (3)
one course in methods and approaches (3)
one course in language and linguistics (3)

Writing, Rhetorics and Literacies Track (12 credit hours)
one course in composition theory (3)
one course in rhetoric theory (3)
two 600-level courses (6)

Electives (3-12 credit hours)

Culminating Experience (3 or 6 credit hours)
ENG 593 Applied Project (3) or
ENG 597 Graduate Capstone Seminar (3) or

ENG 599 Thesis (6)

Additional Curriculum Information
Students should see the academic unit for the approved lists of track coursework.

Students must choose one of the following tracks: English studies; literature; or writing, rhetorics and literacies. Students complete 12 or 18 credit hours of track coursework and three to 12 credit hours of electives, depending on their track and culminating experience.

The capstone culminating experience option is available to students in the English studies track only. Students in this track must take the capstone. Students in one of the other tracks must select an applied project or thesis for the culminating experience.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume or curriculum vitae
• two letters of recommendation
• academic writing sample relevant to the field
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency (https://english.asu.edu/admission/graduate-admission/information-international-students) regardless of their current residency. Applications are not processed without valid proof of English proficiency. Official scores must be sent to ASU for the application to be processed.

The two-page, single-spaced statement of purpose should detail the applicant's background, reasons for wanting to pursue graduate work in the specified track, and plans for the future.

Two academic letters of recommendation are required, with a third being optional. Applicants to the English studies track can submit academic or professional letters of recommendation.

An academic writing sample is required for applicants to the literature; and writing, rhetorics and literacies tracks. Applicants to the English studies track are not required to submit a writing sample (the statement of purpose serves as the writing sample).

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-english/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Analyze (break into constituent parts) a relevant creative, literary, rhetorical or linguistic artifact or other cultural phenomenon, using concepts from a discipline in English studies, according to standards of rigor in the field.
- Compose a compelling case or argument relevant to English studies that meets or exceeds standards of rigor in the field.
- Use theories, concepts and methods from a discipline in English studies to sustain an evidence-based line of reasoning that makes a grounded, situated and qualified contribution according to standards of rigor in the field.

Career opportunities

Professionals with expertise in all areas of English studies are able to articulate and translate complex ideas for a general audience. Graduates are prepared for career opportunities in public humanities, business, digital media, teaching, museums, nonprofits and arts organizations. In addition, their advanced skills in writing, oral presentation and critical thinking are valuable assets for any career.

Career examples include:

- communications specialist
- copywriter
- editor or author
- educator
- higher education administration
- human resources specialist
- market research analyst
- publishing
- social media manager
- technical writer
- web content writer or specialist

Environmental Communication and Leadership, Certificate (LAECLGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

Scientists must go beyond publishing in journals if they want their research to be relevant to society. However, academic training rarely covers how to communicate with the press, the public, policymakers and other relevant stakeholders.

This certificate program in environmental communication and leadership gives you the important skills you need to increase your influence and reach above and beyond academia.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
BIO 578 Environmental Leadership and Communication (3)

Electives (12 credit hours)
policy and management (3)
communication (3)
leadership (3)
open elective (3)

Additional Curriculum Information
Students must choose three credit hours from each of the policy and management, communication, and leadership categories with approval of the School of Life Sciences. If a student takes a course for fewer than three credit hours, the student must take more than one course in that category to meet the three-credit-hour requirement. Students should contact the School of Life Sciences for a complete list of courses.

For the open elective category, students choose one three-credit-hour elective course from any of the other three categories above. Students should note that only three credit hours of approved 400-level coursework can appear on the plan of study.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Sample related fields include business, education, biology, geosciences, political science and English.

Applicants must have completed 12 undergraduate credit hours of natural science or social science coursework related to the environment at the time of application to the graduate certificate program. They must meet all other graduate admission requirements. Courses are reviewed by the School of Life Sciences graduate committee to ensure they fulfill this requirement.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Professionals skilled in communication as well as analytical and critical thinking are highly sought-after in public and private industry. Experience with conservation science, policy, management and leadership prepares graduates for careers in research, policy development, law and business management, among many others.

Career examples include:

attorney
ecologist
professor
research scientist
science journalist or communicator

Environmental Life Sciences, PHD (LAELSPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

A Doctor of Philosophy program in environmental life sciences provides doctorate-level training in different but integrated fields, with a focus on the interactions between organisms (e.g., plants, microbes, humans and other animals) and their environment (locally and globally). Dissertations can include any of the following fields, among others:

• biochemistry and chemistry
• biology (ecology, physiology, evolution)
• conservation science
• environmental engineering
• geosciences
• mathematics and statistics

• social sciences
• spatial sciences
• sustainability

You are trained by means of a core class taught by environmental life science faculty, additional courses that fit your needs, research seminars and hands-on experiences in the lab or field, with guidance from committee members across multiple disciplines.

The program focus is on collaborative, interdisciplinary and integrative studies of the causes and consequences of environmental variation across scales ranging from molecules to organisms to the globe. The overall goal is to provide a valuable interdisciplinary doctoral program that encourages you to explore and solve complex problems in the context of environmental change.

Administered by ASU's School of Life Sciences, eight additional schools participate in this interdisciplinary program to promote broad, collaborative training.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
ELS 501 Grand Challenges in Environmental Life Sciences (3)

Electives (69 credit hours)

Culminating Experience (12 credit hours)
ELS 799 Dissertation (12)

Additional Curriculum Information
Students are required to take ELS 501 in their first semester at ASU.

For electives, students should see the academic unit for approved coursework. Students also may take ELS omnibus courses to fulfill some of the elective requirements.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework are made up of electives and research.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:
• graduate admission application and application fee
• official transcripts
• academic record form
• personal statement
• curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Able to execute a research plan of their own design that addresses a significant scientific question about environmental life sciences.
Able to effectively communicate environmental biology concepts in oral and written formats.

Career opportunities

Environmental life scientists address ecological and environmental questions in social-ecological-technological systems, thus students often have a social science or related component in their dissertation. Graduates are prepared for a range of careers related to global environmental change, conservation and resource management, and sustainable industries among others.

Career examples include:

climate change analyst
consultant
environmental compliance inspector
environmental engineer
environmental safety and health coordinator
insect ecologist and exhibits specialist
oceans and climate manager
professor
public health scientist
research director
scientist

Scientist, professor, consultant and research director roles may involve specialization areas, including:

atmosphere and space
ecology (community, ecosystem, microbe, population, wildlife)
ecosystem restoration
forestry and conservation

Environmental Social Science (Complex Adaptive Systems Science), PHD (LAESSCPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in environmental social science is one of the few doctoral degree programs in the U.S. that draws on the premise that reducing human impacts and developing more sustainable environmental practices is difficult, if not impossible, to achieve without a focus on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

- culture and the environment
- environmental hazards and vulnerability
- environmental justice
- human environment impacts
- political ecology
- science and technology studies

These are the bases for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions, and health and the environment.

You work with faculty members who have expertise in a broad range of fields, including:

- archaeology
- community resources
- cultural and medical anthropology
- demography
- environmental history
- geographic information systems
- human and physical geography
- planning
- public affairs
- science and technology studies
- sociology

Coursework for the degree is focused on developing practical skills and a solid grasp of complex social science approaches to environmental issues. You work closely with your committee to develop a curriculum appropriate to your chosen interests and career goals.

The complex adaptive systems science doctoral concentration trains you to be a part of the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive systems science at Arizona State University, and it emphasizes the value of a complex adaptive systems perspective to give you better insight and a more active role in seeking solutions to a broad array of critical issues facing society today. You become fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
ASB 530/ESS 530/SOS 553 Changing Human-nature Relationships (3)

Concentration (12 credit hours)
ASM 570 Fundamentals of CAS Science (3)
one course in mathematics of CASS (3)
one course in modeling of CASS (3)
one course in application of CASS (3)

Electives or Research (45 credit hours)

Research (12 credit hours)
ESS 792 Research (12)

Culminating Experience (12 credit hours)
ESS 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework are made up of electives or research.

Students entering the program without a master's degree must earn an additional 30 hours of graduate credit, produce a research portfolio that is formally evaluated by a faculty committee, and present that research in a public forum before continuing in the later stage of the doctoral program.

All students must maintain an average GPA of 3.20 (scale is 4.00 = "A") in their courses and complete degree requirements per the program's satisfactory progress policy.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study, and students typically have a member of the complex adaptive systems science graduate faculty as a member of their doctoral supervisory committee.

Students should see the academic unit for a complete list of approved electives and concentration courses.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Undergraduate coursework in the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement outlining educational and professional goals
• current curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants may include in their application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Synthesize major theories, methodological approaches, and empirical findings on a contemporary research problem that the student identifies.
Apply complex adaptive systems science concepts and methods to analyze coupled human–environment systems.
Communicate research findings orally and in writing.

Career opportunities

The program trains students to move into teaching and research positions or to assume leadership roles in government, industry and nongovernmental organizations.

There is a demand in the job market for people with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people trained in this degree are increasingly sought for their broad, holistic knowledge and perspectives. Some career opportunities include:

analyzing and proposing policies
conducting postgraduate academic research
consulting for private and public organizations
curating cultural resources
directing nonprofit organizations
directing programs in the private or public sector

managing culture or heritage resources in private or public sectors
planning communities
teaching

Environmental Social Science (Urbanism), PHD (LAESSURPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is not currently accepting applications for this program.

Program description

The Doctor of Philosophy program in environmental social science is one of the few doctoral programs in the U.S. that draw on the premise that reducing human impacts and developing more sustainable environmental practices is difficult or impossible to achieve without focusing on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

• culture and the environment
• environmental hazards and vulnerability
• environmental justice
• human environment impacts
• political ecology
• science and technology studies

These are the bases for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions, and health and the environment.

You work with faculty who have expertise in a wide variety of fields, including:

• archaeology
• community resources
• cultural and medical anthropology
• demography
• environmental history
• geographic information systems
• human and physical geography
• planning
• public affairs
• science and technology studies
• sociology

The program trains you to move into teaching and research positions or to assume leadership roles in government, industry or nongovernmental organizations.

Coursework is focused on developing real-world skills and a solid grasp of complex social science approaches to environmental issues. You work closely with your committee to develop a curriculum appropriate to your interests and career goals.

The concentration in urbanism leverages the varied interests in urbanism and helps emerging scholars as they attempt to compare, contrast and take stock of different aspects of urbanism. Working with faculty across a number of departments and programs at ASU, you are able to capture the creative tensions that scholarship on urbanism has inspired to stimulate a provocative, constructive kind of inquiry.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Students entering with a master's degree in a related field may be granted up to 30 credit hours toward the 84 credit hour total required for the doctorate, leaving 30 credit hours of coursework, 12 credit hours of research and 12 credit hours of dissertation (54 credit hours total) to be earned after admission.

Students entering without a master's degree must complete an additional 30 credit hours of graduate coursework, produce a research portfolio that is formally evaluated by a faculty committee, and present that research in a public forum before continuing to the later stage of the doctorate program.

All students must maintain an average GPA of 3.20 in their courses and complete degree requirements per the program's satisfactory progress policy.

All students entering the program complete 18 credit hours of core classes in conceptual domains and topical foci. For the concentration in urbanism, students select 15 credit hours from an approved list of applicable courses related to urbanism. Some of the environmental social science core courses also count toward the concentration in urbanism. These courses include the core urbanism course GCU 516, as well as one course from each of the four urbanism clusters: built form, culture and society, institutions and governance, and natural environment.

Additional credit hours come from courses in research design, technical expertise and electives. Students may select from a substantial variety of courses to satisfy noncore requirements.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Undergraduate coursework in the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not a prerequisite for admission but is generally advisable. Students may be

admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement outlining educational and professional goals
• current curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants may submit with their application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Tuition information

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
ASB 530/ESS 530/SOS 553 Changing Human-nature Relationships (3)

Other Requirements (18 credit hours)
ASB 500 Topic: Ethnographic Research Methods (3)

ASB 500 Topic: Social Survey Research (3)
ASB 500 Topic: Qualitative Data Analysis (3)
ASB 501 Professionalism (3)
ASM 579 Proposal Writing (3)
BIO 517 Uncertainty and Decision Making (3)
BIO 527 Environmental Ethics and Policy Goals (3)
CHM 501 Topic: Science Policy for Scientists and Engineers (1-2)
ESS 502 Political Ecology: Theory and Research (3)
ESS 510 Urban Environments (4)
ESS 514 Urban and Environmental Health (4)
ESS 591 Topic: Decisions, Risk and the Environment (3)
ESS 591 Topic: Water and Social Theory (3)
GCU 585 Geographic Research Design and Proposal Writing (3)
SOS 532 Sustainable Urban Dynamics (3)

Electives (39 credit hours)

Research (12 credit hours)
ESS 792 Research (12)

Culminating Experience (12 credit hours)
ESS 799 Dissertation (12)

Additional Curriculum Information
For electives, students should see the academic unit for a course list approved by the chair.

Other Requirements coursework may be substituted with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, up to 30 credit hours from a previously awarded master's degree may be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is made up of electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Undergraduate coursework in the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not a prerequisite for admission but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement outlining educational and professional goals

• current curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants may include in the application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Synthesize major theories, methodological approaches, and empirical findings on a contemporary research problem that the student identifies.
Design a comprehensive study analyzing a current issue in the field.
Communicate research findings orally and in writing.

Career opportunities

The program trains students to move into teaching and research positions or to assume leadership roles in government, industry or nongovernmental organizations.

There is a demand in the job market for individuals with keen thinking skills who can manage, evaluate and interpret large amounts of data. Evolutionary Biology, PHD (LAEVOPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy in evolutionary biology is a transdisciplinary graduate degree program that provides you with doctorate-level training in the historical, conceptual, empirical and quantitative aspects of biological evolution.

Evolution is a fundamental scientific concept that underlies all aspects of modern biological, environmental and health-related research. It cuts across biological sciences in ways that few other foci do and informs the theoretical foundations of subfields such as population genetics and ecosystem ecology. It allows integration of information and patterns across levels of organization, informs the theoretical foundations of subfields ranging from population genetics to systematics to ecosystem ecology, and provides bridges between temporal and spatial scales.

Forgoing emphases on particular taxa or methods, the program focuses on understanding the patterns and processes that have shaped life on Earth and continue to do so, training you to be a part of the next generation of scientists to use this knowledge to meet present and future challenges to the biosphere and human health in the face of increasing environmental perturbation.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (9 credit hours)
BIO 514 Statistical Models for Biology (4)
EVO 601 Principles of Evolution (3)
EVO 610 Research Areas of Evolution (2)

Electives (9 credit hours)
The program advisor and the student's advisor will determine these courses in conjunction with the student.

Other Requirements (54 credit hours)
research, coursework or 30 credit hours from a previously awarded master's degree

Dissertation (12 credit hours)
EVO 799 Dissertation (12)

Additional Curriculum Information
Students take EVO 610 (1 credit hour) twice.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in a related discipline from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:
• graduate admission application and application fee
• official transcripts
• academic record form
• personal statement
• curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Able to review the literature relevant to the research question in evolutionary biology that they address in their dissertation.
Able to execute a research plan of their own design that addresses a significant scientific question about evolutionary biology.
Able to communicate the rationale and results of their research, both orally and in writing.

Career opportunities

Those who have earned a doctorate in evolutionary biology are prepared for academic careers at every level, from community colleges to research universities. Their skills and knowledge are also valuable for government careers in federal and state agencies, industry, and nongovernmental organizations.

Career examples include:

health care scientist in an academic, private or industrial lab
elementary or high school science teacher
principal investigator in a government lab or nonprofit organization
professor or instructor in a university or college
wildlife, animal or conservation scientist

Evolutionary Medicine, Certificate (LAEVMDGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is not currently accepting applications for this program.

Program description

With rising need for health science-related skills and an aging population in the United States, innovations in health and= medicine are in demand.

Evolutionary medicine is a new and burgeoning field situated between the life and social sciences that integrates the= fields of genetics, medicine, global health, evolutionary biology and public health to transform understanding of= disease and improve human health. You learn how to integrate perspectives from across fields to answer questions= about health and disease in the context of human life history.

You are introduced to integrated approaches within the biological and social sciences that are capable of addressing an= emerging, anticipated public need such as reemerging infectious disease, challenges with vaccines, the expansion of= chronic disease and other growing public health crises.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours including the required capstone course (BIO 571)

Required Core (3 credit hours)
ASB 507/BIO 507 Advanced Evolutionary Medicine (3) or
ASM 503/BIO 510 Evolutionary Medicine and Global Health (3)

Restricted Electives in Anthropology (3 credit hours)
ASB 503 Medical Anthropology (3)
ASB 510 Health: Social and Biocultural Theories (3)

Restricted Electives in Biology (3 credit hours)
ASM 546/BIO 546 Principles of Human Genetics (3)
BIO 545 Populations: Evolutionary Genetics (3)
EVO 601 Principles of Evolution (3)

Electives or Research (3 credit hours)

Culminating Experience (3 credit hours)
BIO 571 Evolutionary Medicine Capstone (3)

Additional Curriculum Information
Students choose one course from an approved list of electives or research courses and cannot choose courses already= taken for required core or restricted electives in anthropology and biology. For restricted electives in anthropology and= biology, students must choose one course from the list indicated for each subject.

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the life or social sciences or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• professional resume
• written statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The professional resume should demonstrate the applicant's skills and previous training.

The written statement should address future career goals to better assist the student with selection of the most applicable set of courses in evolutionary medicine.

International students who need an F-1 or 1 J-1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

With an aging population in the U.S. and a pivot toward global health concerns, there is an increase in demand for health care services.

Health care professional programs have competitive admissions processes, and students with a certificate in evolutionary medicine set themselves apart from their peers with skills in problem-solving to address the integration of basic medical and public health science and practice. They also have a working knowledge of how evolutionary thinking influences medical and public health intervention and have the ability to apply an integrated conceptual framework to the problems of public health and medicine in order to produce more holistic outcomes for the improvement of human health.

Career examples include:

anthropologists and sociologists
biologists
educators

physicians, nurses, psychologists and psychiatrists
public health professionals

Exploration Systems Design (Instrumentation), MS (LAESDIMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Science program in exploration systems design with a concentration in instrumentation promotes your development and growth as an engineering-literate scientist or science-literate engineer who is interested in the design, construction and implementation of scientific instrumentation. The distinct curriculum combines science applications with engineering knowledge and skills through engineering and science courses focused on Earth science, space science and astrophysics. The concentration trains you to design the next generation of in situ or remote sensing instrumentation for exploration of the Earth, space and the universe.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Mechanical Engineering, BSE

Aerospace Engineering (Astronautics), BSE

Earth and Space Exploration (Geological and Planetary Sciences), BS

Electrical Engineering, BSE

Electrical Engineering (Electric Power and Energy Systems), BSE

Earth and Space Exploration (Exploration Systems Design), BS

Earth and Space Exploration, BS

Earth and Space Exploration (Astrobiology and Biogeosciences), BS

Aerospace Engineering (Autonomous Vehicle Systems), BSE

Earth and Space Exploration (Astrophysics), BS

Aerospace Engineering (Aeronautics), BSE

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (SES 511)

Required Core (5 credit hours)
SES 501 SESE Colloquium (1)
SES 502 Exploring SESE Research (1)
SES 510 Graduate Exploration Project I (3)

Concentration (9 credit hours)
AST 552 Astronomical Instrumentation and Data Analysis (3)
EEE 543 Antenna Analysis and Design (3)
EEE 545 Microwave Circuit Design (3)
EEE 548 Coherent Optics (3)
EGR 608 Advanced Simulation (3)
MAE 503 Finite Elements in Engineering (3)
MAE 557 Mechanics of Composite Materials (3)

Electives or Research (13 credit hours)

Culminating Experience (3 credit hours)
SES 511 Graduate Exploration Project II (3)

Additional Curriculum Information
Students select three courses from the available concentration coursework.

For elective coursework, students select from the AST, GLG, SES or engineering courses in consultation with their faculty advisor. Six credit hours must be science coursework approved by the faculty advisor. Other courses can be used with academic unit approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, physical science or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• written statement
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

The U.S. and Arizona have a considerable presence of aerospace and other technology companies that have a high demand for skilled labor. In particular, local aerospace companies need graduates who have direct experience and training in the space sector. The concentration in instrumentation is especially well positioned to provide this training.

Exploration Systems Design (Instrumentation), PHD (LAESDIPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in exploration systems design with a concentration in instrumentation offers you an advanced systems approach for developing scientific exploration technologies in a variety of demanding environments on Earth and in space.

This transdisciplinary degree program targets technological development for exploration science, providing a distinct platform to train you as a systems engineer. This collaborative program between the School of Earth and Space Exploration and the Ira A. Fulton Schools of Engineering enables you to specialize in topics related to planetary exploration, astronomical instrumentation, robotics, sensors and sensor networks.

The curriculum integrates the School of Earth and Space Exploration's science, instrumentation and systems engineering core courses with related coursework from the Fulton Schools. The instrumentation concentration prepares you in the development of state-of-the-art sensors and systems for remote and in situ sensing related to planetary science, Earth science and astronomy.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (1 credit hour)
SES 502 Exploring SESE Research (1)

Concentration (9 credit hours)

Other Requirements (1 credit hour)
SES 501 SESE Colloquium (1)

Electives or Research (61 credit hours)

Culminating Experience (12 credit hours)
SES 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and the Graduate College, 30 credit hours from a previously awarded master's degree in a related field can be used for this degree. Related fields include engineering, computer science, geological sciences and physics.

As part of the electives or research, students take two science courses selected from the SESE graduate catalog (GLG, SES or AST prefixes). Substitutions may be made with academic unit approval.

Substitutions for Other Requirements may be made with department approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution. An undergraduate degree in electrical engineering, aerospace engineering or mechanical engineering is preferred.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants should see the program website for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Synthesize original knowledge in the field of engineering for Earth and space exploration by evaluating current research in the field in relation to their own original research
Conduct independent, original scientific research that advances knowledge in the field
Construct novel instrumentation to meet unique experiment requirements

Career opportunities

Professionals with expertise in exploration systems design are in high demand across sectors and industries, including remote sensing, systems engineering, data science, technical consulting, Earth and planetary science, and engineering. Coding and numerical modeling skills translate across many domains, even beyond exploration systems design. Skills in the design, manufacture and deployment of engineered solutions to science problems are valuable to businesses and institutions that rely on data-driven strategies to manage large teams and complex problems. The doctoral degree in exploration systems design is generally required for careers in postsecondary education and research.

Career examples include:

data scientist
engineering professor
instrument builder
machining specialist
project manager
research engineer

Exploration Systems Design (Sensor Networks), MS (LAESDSNMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Science program in exploration systems design with a concentration in sensor networks promotes your development and growth as a engineering-literate scientist or a science-literate engineer who is interested in the use of robotics, data science and other computational tools applied to science problems in Earth and space sciences.

The program's distinct curriculum combines science applications with engineering knowledge and skills through engineering and science courses focused on Earth science, space science and astrophysics. The concentration program trains you to use modern computational tools to address some of the most complex scientific challenges faced by humanity.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT

extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Mechanical Engineering, BSE

Aerospace Engineering (Astronautics), BSE

Earth and Space Exploration (Geological and Planetary Sciences), BS

Electrical Engineering, BSE

Electrical Engineering (Electric Power and Energy Systems), BSE

Earth and Space Exploration (Exploration Systems Design), BS

Earth and Space Exploration, BS

Earth and Space Exploration (Astrobiology and Biogeosciences), BS

Aerospace Engineering (Autonomous Vehicle Systems), BSE

Earth and Space Exploration (Astrophysics), BS

Aerospace Engineering (Aeronautics), BSE

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (SES 511)

Required Core (5 credit hours)
SES 501 SESE Colloquium (1)
SES 502 Exploring SESE Research (1)
SES 510 Graduate Exploration Project I (3)

Concentration (9 credit hours)
CEN 571 Hardware Acceleration and FPGA Computing (3)
EEE 507 Multidimensional Signal Processing (3)
EEE 511 Artificial Neural Computation (3)
EEE 515 Machine Vision and Pattern Recognition (3)
EEE 551 Information Theory (3)
MAE 547 Modeling and Control of Robots (3)

Electives or Research (13 credit hours)

Culminating Experience (3 credit hours)
SES 511 Graduate Exploration Project II (3)

Additional Curriculum Information
Students select three courses from the available concentration coursework.

For elective coursework, students select from the AST, GLG, SES or engineering courses in consultation with their faculty advisor. Six credit hours must be science coursework approved by the faculty advisor. Other courses can be used with academic unit approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, physical science or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• written statement
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Construct command and control, user interface and data handling and processing systems
Critically evaluate quantitatively answerable, scientifically interesting and reasonably scoped science questions related to Earth and space exploration. (Shared learning outcome)
Communicate their finds related to science questions, requirements and experimental design both orally and in writing. (Shared learning outcome)

Career opportunities

The U.S. and Arizona have a considerable number of aerospace and other technology companies with a high demand for skilled labor. In particular, local aerospace companies need those with direct experience and training in the space sector. The concentration in sensor networks is especially well positioned to provide this training.

ASU is not currently accepting applications for this program.

Program description

The Doctor of Philosophy program in exploration systems design offers you an advanced systems approach for developing scientific exploration technologies in a wide variety of demanding environments on the Earth, planets, moons and in space.

This transdisciplinary degree program you with provides a valuable platform for training as a systems engineer targeting technological development for exploration science. This collaborative program between the School of Earth and Space Exploration and the Ira A. Fulton Schools of Engineering allows you to specialize in topics related to planetary exploration, astronomical instrumentation, robotics, sensors and sensor networks.

The curriculum integrates the School of Earth and Space Exploration's science, instrumentation and systems engineering core courses with related coursework from the Ira A. Fulton Schools of Engineering. You must select a concentration as part of this degree program. Concentrations are available in instrumentation, systems engineering and sensor networks.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (1 credit hour)
SES 502 Exploring SESE Research (1)

Electives or Research (70 credit hours)

Other Requirements (1 credit hour)
SES 501 SESE Colloquium (1)

Culminating Experience (12 credit hours)
SES 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree in a related field to be used for this degree. Related fields include, but are not limited to, engineering, computer science, geological sciences or physics.

As part of the electives or research, students take two science courses selected from the SESE graduate catalog (GLG, SES, or AST prefixes). Substitutions may be made per academic unit approval.

Substitutions for Other Requirements may be made per department approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admissions application and application fee
• official transcripts
• statement of purpose
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Students should see the program website for application deadlines.

Instrumentation concentration
An undergraduate degree in electrical engineering, aerospace engineering or mechanical engineering is preferred.

Systems engineering concentration
Successful completion of a senior capstone or design project is an admission requirement for this concentration. Students who have not had a design course are required to take SES 405 Exploration Systems Engineering as an additional course.

Sensor networks concentration
An undergraduate degree in electrical engineering or computer science is preferred.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Professionals with expertise in exploration systems design are in high demand across sectors and industries, including remote sensing, systems engineering, data science, environmental consulting, Earth and planetary science, and engineering. Coding and numerical modeling skills translate across many domains, even beyond exploration systems design. Skills in the design, manufacture and deployment of engineered solutions to science problems are valuable to businesses and institutions relying on data-driven strategies to manage large teams and complex problems. The

doctoral degree in exploration systems design is generally required for careers in post-secondary education and research.

Career examples include:

data scientist
engineering professor
project manager
research engineer

Family and Human Development, MS (LAFAMHDMS)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

In the Master of Science program in family and human development, you gain an understanding of relationships and developmental dynamics as a practitioner-oriented professional.

You acquire the knowledge and skills necessary to facilitate healthy development of individuals and families as you study the factors that promote successful relationships and positive outcomes for individuals, families and communities across the life span. You also learn how to effectively evaluate research, translate research into best practices, and integrate research and field-related concepts into practice, applying what you learn in a variety of settings --- professional, personal and community.

The online format provides easy access to rigorous and valuable information that informs best practices in improving the lives of families and family members. The program also includes a customizable culminating experience that enables you to focus your training in your areas of interest and work.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Sociology, BS

Family and Human Development, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (FAS 588)

Required Core (6 credit hours)
CDE 531 Theoretical Issues in Child Development (3)

FAS 586 or SOC 586 Masters Professional Development (3)

Electives (15 credit hours)
diversity course (3)
other elective coursework (12)

Other Requirements (6 credit hours)
FAS 500 Research Methods (3)
CDE 501 Social Statistics (3)

Culminating Experience (3 credit hours)
FAS 588 Capstone Culminating Experience (3)

Additional Curriculum Information
Students should see the academic unit for a complete list of approved electives. The diversity course and other elective coursework are chosen with approval from the academic advisor. FAS 500 and CDE 501 may be replaced by equivalent courses with the academic advisor's approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00= "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts of all undergraduate and graduate coursework
• current resume or curriculum vitae
• personal statement of goals relevant to the master's degree program
• two letters of recommendation from individuals with professional or academic backgrounds
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement must be two to three pages, double-spaced, and must address the applicant's professional goals, the strengths that will enable them to succeed in the program, and professional experience or responsibilities relevant to the program.

Letters of recommendation must be from at least two academic or professional sources. Family members and friends do not meet this criterion. Applicants should see the program website for full application deadlines and admission terms and details.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-science-family-and-human-development/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Critically evaluate information, data, and research findings relevant to their field.
Communicate research findings to diverse audiences.
Evaluate real-world setting using evidence-based knowledge.

Career opportunities

Graduates often pursue careers in human, social and government agencies that involve working with children, youth and adults in positions such as:

caseworker
children, youth and family services worker
community engagement specialist
community support program official
family support specialist
human service specialist
manager
nonprofit organization administrator
outreach coordinator

Although the instruction students receive in this program can be beneficial to therapists and counselors, this degree does not enable students to seek licensure as a professional counselor or marriage and family therapist; the completion of an additional program or degree is required for those positions.

Family and Human Development, PHD (LAFAMSCPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is not currently accepting applications for this program.

Program description

The Doctor of Philosophy program in family and human development is devoted to the study of families, children and youth. The program's research, teaching and service gives you the opportunity to directly impact in the lives of children and adults, and their families and communities.

The faculty share a common commitment to particpate alongside you in high-quality research that both increases the basic understanding of human and family development and has the potential to contribute to the improvement of the lives of children and families.

STEM-OPT extension eligible: No

Degree requirements

85 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (1 credit hour)
FAS 503 Academic Professional Development (1)

Other Requirements (26 credit hours)
CDE 531 Theoretical Issues in Child Development (3)
FAS 500 Research Methods (3)
FAS 513 Introduction to Regression and Linear Models (4) or PSY 530 Intermed Statistics (4)
FAS 514 Advanced Regression and Nonlinear Models (4) or PSY 531 Multiple Regression in Psychological Research (4)
FAS 531 Theoretical Issues in Family Sciences (3)
two graduate-level courses in advanced methods or statistics (6)
one graduate-level diversity course (3)

Research (6 credit hours)
FAS or CDE 592 Research (6)

Electives (40 credit hours)

Culminating Experience (12 credit hours)
FAS or CDE 799 Dissertation (12)

Additional Curriculum Information
Postbaccalaureate (students entering after the bachelor's degree): Of the 85 credit hours for a postbaccalaureate program, six credit hours are dedicated to an empirical project, and 12 credit hours are for the dissertation.

Post-master's (students entering after the master's degree): When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this credential. Of the 55 credit hours of the post-master's degree program, 12 credit hours are for the dissertation.

Electives should be chosen in consultation with and approval of the advisor. Electives may be selected within or outside the T. Denny Sanford School of Social and Family Dynamics. All elective courses must be 500 level or higher.

Substitutions for all courses listed under other requirements may be made per department approval.

For the diversity course requirement, students should refer to the department for a list of approved courses.

For the advanced methods or statistics requirement, students take two courses with content that advances beyond Quantitative Methods I and II.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• a resume or curriculum vitae
• statement of goals relevant to the doctoral program
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement must be four to six pages, double-spaced, and address the applicant's professional goals, the applicant's strengths that will enable them to succeed in the program, a detailed description of past research experience, relevant professional experiences or responsibilities, and specific personal research interests. The applicant also must identify two or three faculty members whose research interests match their own and explain why they are good matches.

Three letters of recommendation are required. These must include at least one from an instructor at the institution where the applicant completed their undergraduate or graduate work. The letters should be from people who know the applicant in a professional or academic capacity; letters from family members or friends do not meet this criterion.

Students should see the program website for full application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Apply their understanding of theoretical perspectives to the field of child and family development in their final project and/or final exam.
Apply research methods, including study design, measurement, and analyses in their final exam and dissertation.
Able to implement a major independent research project that makes a unique contribution to the field of family and human development.

Career opportunities

Graduates possess knowledge and skills necessary for promoting healthy individual and family development as they study the factors that promote successful relationships and positive outcomes for individuals, families and communities across the life span. Graduates often pursue careers working with children, youth and adults in human, social and government agencies or take on leadership roles as researchers in a university, in a public or privately funded agency, in an industry or in government.

Career examples include:

community support program officials
government agency administrators and professionals
instructors
nonprofit organization administrators
research professionals

Film and Media Studies, MAS (LAAMPCMAS)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

Offering an overview of film, television, video games and other digital media across a range of platforms, the Master of Advanced Study program in film and media studies helps you develop into a more critically informed writer, teacher, storyteller and consumer of popular culture and media. Program courses enable you to build a strong understanding of how these media are made, tell stories and represent different social identities.

Delivered exclusively online, the MAS program explores the economic, social and cultural dimensions of U.S. media production within an interactive and flexible learning environment.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Film (Film and Media Studies), BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (FMS 597)

Required Core (9 credit hours)
FMS 504 Film Analysis (3)
FMS 510 Digital Media Studies (3)
FMS 520 Cultural History of US Television: Theory and Method (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)
FMS 597 Graduate Capstone Seminar (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume or curriculum vitae
• letters of recommendation (optional)
• application essay
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English and has not graduated from an institution of higher learning in the U.S. must provide proof of English proficiency regardless of their current residency. Applications are not processed without valid proof of English proficiency; official scores must be sent to ASU for the application to be processed.

In a one-page, double-spaced statement of purpose, the applicant should explain how their goals and interests align with the focus of the program.

Applicants are asked to write and submit a three-page essay that assesses their knowledge of media theory and critical analysis skills. The subject of the essay is given in the online application. Applicants should demonstrate the ability to write well and construct a persuasive critical argument. Appropriate secondary sources should be used in this essay.

While letters of recommendation are optional, applicants may include two or three letters in their application. Recommenders should be former teachers or supervisors who address the applicant's academic performance, motivation and character.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-advanced-study-american-media-and-popular-culture/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Graduates of this program will be able to engage theory and apply key concepts in film and media studies.

Students will be able to identify, evaluate and integrate appropriate primary and secondary sources in relation to the study of media.
Graduates will be able to analyze the cultural, economic, political and technological factors that influence media production, reception and analysis.

Career opportunities

Media industries offer many opportunities for graduates. The MAS degree in film and media studies provides graduates with valuable skills that lead to numerous employment opportunities in fields including education, academia, journalism, communications, research and media consulting. There is also more need for media studies experts in every major industry, with media policy, strategy, research, marketing, social media and branding required in all areas of the economy.

Career examples include:

archivist
branding strategist
educator
media buyer
media critic
media industry journalist
media researcher
political media strategist
producer
public relations expert
social media strategist

French (Comparative Literature), MA (LAFRECLMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

This program is not currently accepting applications.

Program description

The Master of Arts program in French comparative literature provides you with an opportunity to develop an advanced knowledge of French and of Francophone and other world literatures, histories and major works. You also develop a sound knowledge of the traditions, aims and methods of scholarly research in the field.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required applied project course (FRE 593) and a written comprehensive exam

Graduate students may take only 500-level courses for graduate credit. At least nine credit hours must be selected from those courses listed exclusively for graduate students. The program must include:
• FRE 500 Research Methods (3)
• one course in linguistics and one course in linguistics, civilization or translation
• one course in critical or cultural theory

It is recommended that the candidate enroll in FRE 500 as early as possible.

A minimum of four core courses offered by the French section must be selected from any combination of the following categories:

• Francophone studies courses
• genre courses
• period courses

When approved by the graduate committee, up to six credit hours of related coursework may be taken outside of French.

A student must achieve a grade of "B" (scale is 4.00 = "A") or higher in all work specifically included in the plan of study. Grades below a "C" (2.00) cannot be used to meet the requirements of a graduate degree. No student may accumulate more than one incomplete at any one time.

Independent study courses are given only under exceptional circumstances and do not duplicate courses that are available. The French graduate committee is responsible for authorizing such work in cooperation with the individual professor. A maximum of three credit hours of independent study is permitted.

Students must complete an applied project.

The written examination for the concentration in comparative literature is administered by the interdepartmental committee for comparative literature and consists of two essay-based components: general concepts of comparative literature and problems of comparative literature.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in French from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• writing sample
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The writing sample should represent the applicant's thinking as well as writing skills, and it should be written in French on a topic connected with the language or French culture. The writing sample should be approximately 5-10 pages in length.

Those who lack the appropriate background but who show strong potential and meet the Graduate College admission requirements may be admitted to a graduate program on a provisional basis.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Professionals with this degree can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or career opportunities in a larger sector, such as government, diplomacy and international business.

Career examples include positions as:

area, ethnic and cultural studies teachers and professors
editors
foreign language and literature teachers and professors
historians
interpreters and translators
lawyers
reporters and correspondents
social and community service managers

French (Linguistics), MA (LAFRELINMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

This program is not currently accepting applications.

Program description

The Master of Arts program in French linguistics provides you with the opportunity to develop an advanced knowledge of current linguistic theory as it applies to French as well as a sound grounding in the tools necessary to carry out linguistic research.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required applied project course (FRE 593) and a written comprehensive exam

The plan of study for the master's degree includes:
• an applied project
• a minimum of 30 credit hours of graduate-level work as approved by the candidate's supervisory committee

• a 500-level bibliography and research methods course offered by the department
• in some programs, six credit hours in another language or in closely related courses (when approved by the candidate's supervisory committee)

All candidates are required to pass a comprehensive written examination designed to evaluate the candidate's knowledge in the area of specialization. A reading list as agreed upon serves as a guide to prepare for this examination.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

Gender Studies, Certificate (LAWSTGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The graduate certificate program in gender studies offers you the opportunity to enhance your advanced degree with demonstrated proficiency in and knowledge about gender research and theories that you may apply in your own field.

The certificate is pursued in tandem with any graduate degree program at ASU.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (6 credit hours)
WST 601 Critical Concepts of Gender (3)
WST 602 Mapping the Intersections of Gender (3)

Electives (9 credit hours)

Additional Curriculum Information
Elective courses may be chosen from other WST graduate courses or from more than 30 approved courses from other departments throughout the university. Other courses may also be used with the graduate director's approval.

Up to six credit hours not used for another ASU degree or certificate can be transferred from another university, with the graduate director's approval. Courses should be recorded on the transfer section of the student's interactive program of study.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa need to be accepted to a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this certificate program.

The certificate is not offered as a stand-alone, certificate-only program. It is open only to degree-seeking students. However, up to nine credit hours of ASU nondegree credit can be transferred to the program for those who eventually

gain admission to an ASU graduate degree program.

Students should see the program website for more information about the certificate and to design coursework.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

> Will gain an understanding of the key concepts, theoretical frameworks, interdisciplinary approaches and critical debates that have shaped the field of gender studies
> Will gain an understanding of theoretical concepts, metaphors and frameworks employed by feminist scholars to understand the way gender articulates with other categories of difference

Career opportunities

Graduates of the program have gone on to careers at universities, research and policy institutes, government organizations, and nonprofit organizations.

Gender Studies, PHD (LAGSTPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

The next admit term is Fall 2027 (applications due in December 2026). Please contact sstgraduate@asu.edu with questions.

Program description

The Doctor of Philosophy program in gender studies is housed in the nation's first School of Social Transformation. The inclusive gender studies doctoral program empowers you to be a part of tomorrow's scholars and community leaders by immersing you in:

• creative and critical knowledge production
• deep fluency in feminist theory, methodology and praxis
• publicly engaged academic research

Courses in the gender studies program examine key topics related to gender. These include gendered dimensions of social structures, institutions and organizations; the ways in which policies and laws affect gender relations; the intersections of race, gender, sexualities and citizenship in a transnational world; historical and contemporary representations of gender across genres (e.g., popular culture; social media; scientific, medical, historical and legal discourse); and processes of social change, social movements and community development.

You can choose to specialize in a wide variety of topic areas:

• activism and social movements
• BIPOC feminisms
• critical globalization and development studies
• critical refugee studies
• feminist social reproduction theory
• immigration and migration
• popular culture studies
• queer of color critique
• reproductive justice
• transnational feminisms

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (12 credit hours)
WST 601 Critical Concepts of Gender (3)
WST 602 Mapping the Intersections of Gender (3)
WST 603 Engendering Methodology (3)
WST 701 Research Design and Proposal Development in Gender Studies (3)

Elective Coursework in Methodology (6 credit hours)

Elective Coursework in Specialization (12 credit hours)

General Electives (30 credit hours)

Research (12 credit hours)

Dissertation (12 credit hours)
WST 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, they select 30 hours of elective coursework with academic unit approval to reach the required 84 credit hours.

Students should see the academic unit for a complete list of approved electives.

Students must maintain an average GPA of 3.50 in their courses.

The gender studies doctoral program provides students with the transdisciplinary training in theory and methods needed to conduct original research and scholarship about gender. Thus, students also take two research methods courses relevant to their dissertation, chosen in consultation with their faculty advisor.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

The gender studies program welcomes applications from qualified students without regard to race, creed, color, religion, sex or national origin. Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official copies of all undergraduate and graduate transcripts
• resume or curriculum vitae
• statement of purpose
• three letters of reference, preferably from faculty or other researchers
• writing sample (10 to 15 pages)
• proof of English language proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Students should see the ASU Admission Services website for mailing addresses and further admission information.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Integrate and apply the core theories of gender in the field of women and gender studies.
- Examine and apply intersectionality as a foundational framework in the field of women and gender studies.
- Evaluate and apply core methodologies in the field of women and gender studies.

Career opportunities

Graduates of the program have gone on to careers at universities, research and policy institutes, government= organizations and nonprofit organizations.

Gender, Women and Sexuality Studies, MA (LAWSTMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description

If you wish to gain research skills and knowledge about gender analysis and to apply those tools to current problems and solutions, the Master of Arts program in gender, women and sexuality studies is designed for you.

This flexible, 30 credit hour graduate program provides you with advanced training in feminist research, theory and methodologies. You need to complete an applied project that addresses practical problems linked to gender.

If you are a full-time student, you can complete the program within two years, while as a part-time student, you take longer but can work while studying.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Gender, Women and Sexuality Studies, BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (WST 593)

Required Core (6 credit hours)
WST 501 Foundations of Feminist Thought (3)
WST 502 Interdisciplinary Gender Research Methodologies (3)

Electives (18 credit hours)

Culminating Experience (6 credit hours)
WST 593 Applied Project (6)

Additional Curriculum Information
Students must successfully provide an oral defense of the applied project.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution. Students may be admitted with a Bachelor of Arts or Bachelor of Science degree in any field, as long as they have completed two courses in women and gender studies or have equivalent experience. Appropriate majors may include women, gender and sexuality studies; history; English; sociology; religious studies; social work; psychology; communication; or ethnic studies. Students who have previously majored in a science, technology, engineering or mathematics field and have interests in gender and education or gender and science may also apply.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree

program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts from all colleges and universities where the applicant earned a bachelor's or master's degree
• personal statement
• resume or curriculum vitae
• writing sample
• two or three letters of recommendation
• relevant coursework
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should be about 1,000 words and describe any prior research experience and training, professional goals and research interests, and the fit between interests and the program's emphases. The statement should be uploaded.

The writing sample should be seven to 10 pages; it may be a research brief or report, a white paper, a policy paper, or a paper from a recent academic course. The writing sample should reflect the applicant's writing ability and critical thinking skills.

The letters of recommendation should be from individuals who can describe the applicant's strengths and weaknesses as they relate to graduate study and should speak to the applicant's critical thinking, writing, speaking and presentation skills, intellectual ability, leadership potential, interpersonal skills, and the ability to work with others, or other relevant accomplishments that best highlight their ability to complete a graduate degree in gender, women and sexuality studies.

The list of relevant coursework should include at least two courses, undergraduate or graduate, the applicant has taken that focus on gender or women. In addition, the applicant should list any research methods or social justice courses.

Further details about application requirements and application deadlines are available on the School of Social Transformation webpage.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-women-gender-sexuality-studies/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Will gain an understanding of and be able to apply the key concepts, theoretical frameworks, interdisciplinary approaches and critical debates that have shaped the field of gender studies
Will gain an understanding of and learn to develop and conduct research through a feminist perspective

- Will demonstrate the ability to perform intersectional feminist analysis

Career opportunities

Graduates of the program have gone on to careers at universities, research and policy institutes, government= organizations, and nonprofit organizations. They may also work in the fields of human services and public policy.

Geographic Education, MAS (LAGEOEDMAS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

ASU is not currently accepting applications for this program.

Program description

The Master of Advanced Study program in geographic education provides you with the opportunity to obtain= specialized experience in geographic pedagogy. The degree program is ideal if you are a K-12 teacher and is also= appropriate if you are a elementary or secondary school teacher.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours and an applied project

Required Core (3 credit hours)
COE 501 Introduction to Research and Evaluation in Education (3)

Geography Coursework (24 credit hours)

Culminating Experience (3 credit hours)
DCI 593 Applied Project (3) or
SED 593 Applied Project (3)

Additional Curriculum Information
Students should see the academic unit for an approved course list.

Students are required to have access to a computer with an Internet connection and the capability to view video and= animated files with sound, access to email, and access to a word processing program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in education, geography or related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current= residency.

Letters of recommendation must be from three people who can attest to the applicant's academic and professional= achievements. One letter must be from a former instructor.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition= and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Geographic Information Science, Certificate (LAGEOGISCE)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

Geographic information scientists have the ability to not only map out information but to provide a deeper= understanding of the world and the human interactions in it. By combining the disciplines of computer science,= statistics and geography, you can help answer the questions of what, where, why and how in many areas of interest in= many industries.

The geographic information sciences graduate certificate program teaches you the theoretical aspects of GIS, the= technical side of the discipline, and applications of the science. You learn how to analyze policy problems and research= questions from a spatial lens, acquire and analyze remotely sensed data, and model spatial phenomena.

Skills in geographic information science and geospatial data analytics offer you market-ready tools for turning novel= sources of spatial data into informed practice and prepare you to address issues such as climate change, population= growth and aging, and active transportation. The certificate program enables you, whether you are an ASU graduate= student from other disciplines or a GIS professional, to learn the valuable skill of how to apply GIS concepts and= technology to solve complex problems.

The certificate is intended as either a specialization within an existing master's degree or a stand-alone nondegree program if you are a practicing professional who previously earned a graduate degree.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
PAF 571 Geographic Information Systems (GIS) and Analysis (3) or
PUP 576 GIS Workshop for Planners (3)

Electives (6 credit hours)

Other Requirements (6 credit hours)
ABS 485 GIS in Natural Resources (3)
GIS 521 Geographic Information Science Programming (3)
GIS 561 Fundamentals of Spatial Optimization (3)
GIS 562 Location Analysis and Modeling (3)
GIS 563 Local Statistical Modeling (3)
GIS 571 Spatial Statistics for Geography and Planning (3)
GIS 591 Seminar: Data Mining and Data Driven Geography (3)

Additional Curriculum Information
Students select one of the required core courses for a total of three credit hours.

Two of the other requirement courses are selected from the list above for a total of six credit hours; other courses may be substituted with approval from the program director. The program recognizes that other graduate-level courses on GIS are offered at ASU. Advanced courses are often taught in omnibus courses, courses that have rotating content and whose content is not reflected in their titles. Students may include these courses in their certificate curriculum with approval of the program director.

Students select two three-credit-hour elective courses for a total of six credit hours in consultation with the program director.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they are currently pursuing a master's degree at ASU or have earned a master's degree and are currently practicing professionals.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement

• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The personal statement must be a one-page letter describing the applicant's overall objective for the GIS certificate program. It should clearly state the applicant's interest in GIS and provide evidence that the certificate will enhance the applicant's education or current employment.

Currently practicing professionals must submit a final transcript from the institution granting their master's degree.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Professionals with expertise in geospatial information science are in high demand across sectors and industries, including consulting firms, government agencies and community organizations. Skills in geographical data science, mapping and geospatial analysis are valuable to businesses and institutions relying on data-driven approaches to solve complex real-world problems.https://www.onetonline.org/link/summary/15-1299.02

Career examples include:

cartographer or photogrammetrist
geographic information systems technician
geospatial information scientist or technologist
geospatial intelligence analyst
mapping technician
remote sensing scientist or technologist

Geographic Information Science, PHD (LAGISPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in geographic information science prepares you to be a part of the next generation of scientists and engineers, enabling you to excel in theoretical, computational, analytical and technical knowledge in transdisciplinary geospatial sciences.

In this doctoral program, you have the opportunity to conduct research at the Spatial Analysis Research Center

alongside distinguished faculty specializing in remote sensing and earth observation, GIS, geoinformatics, spatial statistics and spatial-temporal analysis. You have the opportunity to investigate a variety of issues, including voting habits, health crises, altering landscapes and more --- all in an effort to better understand this complex and changing world.

The program has sufficient flexibility to allow for individual needs and interests, enabling you to create a plan of study that fits your personal, academic and professional goals.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (12 credit hours)
GCU 585 Geographic Research Design and Proposal Writing (3)
GIS 520 GIScience Issues and Debates (3)
GIS 521 Geographic Information Science Programming (3)
GIS 571 Spatial Statistics for Geography and Planning (3)

Electives or Research (55 credit hours)

Remote Sensing (3 credit hours)

Other Requirements (2 credit hours)
GCU 591 or GPH 591 Seminar: Geography Colloquium (2)

Culminating Experience (12 credit hours)
GIS 799 Dissertation (12)

Additional Curriculum Information
Students select electives, remote sensing and other requirements seminar coursework in consultation with their academic advisor. Students must complete at least nine credit hours of 500-, 600- or 700-level courses offered by SGSUP with prefixes PUP, GPH, GCU or GIS.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in geography, geology, earth science, computer programming, GIS, environmental science, geomatics or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• written statement
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Letters of recommendation should be from academic professionals or professional colleagues capable of evaluating the applicant's abilities, accomplishments and professional potential.

The written statement must address the following questions:

• What area of specialization within GIS do you wish to pursue, and why?
• Describe the aspects of your education that will enable you to pursue this area of specialization.
• What additional training do you feel you can obtain at Arizona State University to realize your education and career goals?

In the written statement, applicants also should provide any other information (for example, research experience or information that might be drawn from a resume) that they feel the committee should consider in the application for admission. The written statement should be no longer than two pages. A generic statement, often sent to multiple universities, does not substitute for a statement that addresses the applicant's reasons for applying to this program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Analyze scholarly literature associated with a research question for their doctoral research.
Create a dissertation proposal that clearly demonstrates significance, innovation, and a scientifically justified approach to address a novel research question.
Apply appropriate advanced research methodology in geographic information sciences to their doctoral research

Career opportunities

Professionals with expertise in geospatial information science research, theory and practice are in high demand across sectors and industries, including in institutions of higher education, consulting firms and government agencies. Skills in geographical data science, mapping and data analysis are valuable to businesses and institutions that rely on data-driven approaches to solve complex problems.

Career examples include:

computer scientist
conservation scientist

geoscientist
geospatial information scientist or technologist
geospatial intelligence analyst
remote sensing scientist or technologist

Geographic Information Systems, MAS (LAGISMAS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is not currently accepting applications for this program.

Program description

The Master of Advanced Study program in geographic information systems is a compact, one-year master's degree program that fosters advanced study in the management and use of GIS technology in public and corporate environments. The program meets important educational needs, whether you are a working professional or a recent college graduate seeking to improve your career standing. This comprehensive professional program balances work in the theoretical and technical aspects of GIS with the applications domain. You are exposed to innovative technology with a focus on building invaluable problem-solving skills, and you have the opportunity to work on practical, applicable GIS projects.

The program places the focus on location --- the heart of geography and GIS. From that foundation, you learn advanced modeling solutions in GIS and Earth observing, as well as how to integrate computer science, statistics and geography to address a multitude of questions.

Small class sizes ensure quality attention from the faculty, and classes are held in the evening during the week, allowing flexibility for the working professional.

The degree is achievable in one year. A new cohort begins the program each August, evening classes during the fall and spring semesters. Upon completion of the spring semester, you select a project to complete during a summer eight-week session. Final presentations take place in mid-July, completing the program.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

30 credit hours including the required applied project course (GPH 693 or GIS 693)

Required Core (24 credit hours)
GIS 601 Introduction to Geographic Information Systems (2)
GIS 602 Intermediate GIS (2)

GIS 603 Spatial Statistics and Modeling (2)
GIS 604 Implementation in the Corporate and Public Sectors (2)
GIS 605 GIS Project Planning and Implementation (2)
GIS 606 GIS Project Presentation (2)
GIS 610 Programming the GIS Environment (3)
GIS 630 GIS Technologies (3)
GIS 640 GIS for Business (3)
GIS 650 GIS for the Internet (3)

Other Requirement (3 credit hours)
GIS 684 Internship (3)

Culminating Experience (3 credit hours)
GIS 693 Applied Project (3) or
GPH 693 Applied Project (3)

Additional Curriculum Information
Other Requirement coursework may be substituted with approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's degree in a related field from a regionally accredited institution or a bachelor's degree in any field from a regionally accredited institution if they demonstrate a minimum of three years of related professional experience.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• resume
• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants must prepare a formal, written personal statement regarding relevant academic experience, professional experience and overall interest in GIS.

Letters of recommendation must be from two people who can attest to the applicant's academic and professional achievements. Letters can be from any combination of current or former instructors, supervisors or professionals currently employed within the GIS field or a related discipline.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Professionals with expertise in geospatial information science are in high demand across sectors and industries, including consulting firms, government agencies and community organizations. Skills in geographical data science, mapping and data analysis are valuable to businesses and institutions that rely on data-driven approaches to solve complex practical problems.

Graduates are prepared for careers in private and public industry. Employees with these skill sets are needed for a wide variety of positions, such as software developer, GIS analyst, mapping engineer, real estate researcher and more. Additional career examples include:

- cartographer or photogrammetrist
- geospatial information scientist or technologist
- geospatial intelligence analyst
- mapping technician
- remote sensing scientist or technologist
- software developer

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential= licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for= licensure or certification in another state. For more information, students should visit the ASU professional licensure= (https://admission.asu.edu/academics/licensure) webpage.

Geography, MA (LAGEOGMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description

The Master of Arts program in geography offers specialized academic and professional training in geography, enabling= you to secure a sound graduate background for further coursework or for immediate employment. The program has= sufficient flexibility to accommodate individual needs and interests, allowing you to create a plan of study that fits your= personal and professional goals.

In addition to innovative coursework, the state-of-the-art research centers, Spatial Analysis Research Center and Urban= Climate Research Center offer you the opportunity to work with exceptional faculty on diverse research projects. You= can work alongside some of the brightest minds in geography, including exceptional talent in the fields of urban heat= island research, GIS, energy, hazards and more.

You can build a path of knowledge that reflects your personal interests within the realms of geography. You benefit= from a wide variety of coursework and research opportunities in four broad interdisciplinary themes that span the= expertise of the faculty within the School of Geographical Sciences and Urban Planning:

• computational spatial science
• earth systems and climate science
• place, identities and culture
• sustainability science and studies

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Geography, BS

Geography, BA

Geography (Meteorology-Climatology), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required capstone course (GPH 597)

Required Core (3 credit hours)
GCU 596 Geographic Research Methods (3)

Other Requirements (8 credit hours)
GCU 528 Geographic Problems and Context (3) or GCU 529 Contemporary Geographic Thought (3)
GCU 591 or GPH 591 Seminar: Geography Colloquium (1)
GCU 591 or GPH 591 Seminar: Geography Colloquium (1)
methods and statistics course (3)

Electives (13 or 16 credit hours)

Culminating Experience (3 or 6 credit hours)
GCU 599 Thesis (6) or GPH 599 Thesis (6)
GPH 597 Geography Capstone (3)

Additional Curriculum Information
Coursework and research hours are selected by the student in consultation with an advisory committee. The program recognizes that other graduate-level courses are offered at ASU. Advanced topics are often taught in omnibus courses, which have rotating content that is not reflected in their titles. Students may include these courses in their curriculum with approval of the program directors.

The Other Requirements course Seminar: Geography Colloquium is taken twice, once in each of the first two semesters of the program, for one credit hour each. Other courses may be used with approval of academic unit. For the methods and statistics course requirement, students should consult with the academic unit for eligible courses.

Students take 13 credit hours of electives for the Culminating Experience thesis option, and 16 credit hours of electives for the nonthesis option.

Up to six credit hours of 400-level coursework may be applied toward the plan of study.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• resume
• one letter of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement must address three items:
• What area of geography does the applicant wish to pursue, and why?
• What aspects of the applicant's education (a description is needed) will enable the student to pursue this specialty?
• What additional training does the applicant believe can be obtained at ASU to realize their educational and career goals?

Applicants may also include in the personal statement any other information they feel should be considered in their application for admission (e.g., research experience or information that might be drawn from the applicant's resume).

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/geography-masters/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Analyze the journal research literature in the different subfields (physical, human, environmental) in geography.
Conduct an analysis of a research problem in geography.
Analyze the spatial dimensions of a subfield of geography

Career opportunities

Professionals with expertise in geographical sciences research, theory and practice are in high demand across sectors and industries, including consulting firms, government agencies, community organizations, and public and private research facilities. Skills in geographical data analysis, mapping and climate science are valuable to businesses and institutions that rely on research-based approaches to solve complex problems.

Some graduates of the program pursue doctoral degrees.

Career examples include:

environmental scientist or specialist
geographic information systems technician
geological materials technician
geophysical data technician
geoscientist
geospatial information scientist or technologist

Geography, PHD (LAGEOGPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The specialized academic and professional training that you receive in the Doctor of Philosophy program in geography is sound graduate background for an independent research career. The program has sufficient flexibility to allow for individual needs and interests, enabling you to create a plan of study that fits your personal and professional goals.

In addition to innovative coursework, the state-of-the-art Spatial Analysis Research Center and Urban Climate Research Center offer you the opportunity to work with exceptional faculty on diverse research projects. You have the opportunity to work alongside some of the brightest minds in geography, including members of the National Academy of Sciences and rising talent in the fields of climate science, sustainability and environmental science, urban heat island research, GIS and more.

In the program, you can build a path of knowledge that reflects your personal interests within the realms of geography. You benefit from a wide variety of coursework and research opportunities in four broad interdisciplinary themes that span the expertise of the faculty within the School of Geographical Sciences and Urban Planning:

• computational spatial science
• earth systems and climate science
• place, identities and culture
• sustainability science and studies

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
GCU 585 Geographic Research Design and Proposal Writing (3)

Electives or Research (43 credit hours)

Methods or Statistics Electives (6 credit hours)

Skills Electives (6 credit hours)

Specialization Electives (9 credit hours)

Other Requirements (5 credit hours)
GCU 529 Contemporary Geographic Thought (3)
GCU 591 or GPH 591 Seminar: Geography Colloquium (1)
GCU 591 or GPH 591 Seminar: Geography Colloquium (1)

Culminating Experience (12 credit hours)
GCU or GPH 799 Dissertation (12)

Additional Curriculum Information
Doctoral students entering with a bachelor's degree must complete 84 credit hours: 72 credit hours of coursework and research at ASU, and 12 dissertation credit hours.

Doctoral students entering with a master's degree must complete 54 credit hours: 42 credit hours of combined coursework and research at ASU, and 12 dissertation credit hours.

Coursework and research hours are selected by the student in consultation with an advisory committee. The program recognizes that other graduate-level courses are offered at ASU; advanced courses are often taught in omnibus courses, courses that have rotating content and whose content is not reflected in their titles. Students may include these courses in their curriculum with approval of the program directors.

Electives or research courses should be selected in consultation with your program advisor. Students must complete at least three credit hours of 500-, 600- or 700-level courses offered by SGSUP with the prefixes PUP, GPH, GCU or GIS.

The Other Requirements course Seminar: Geography Colloquium, is taken twice, once in each of the first two semesters of the program, for one credit hour each. Other courses may be used with approval of academic unit.

Up to six credit hours of 400-level coursework may be applied toward the plan of study.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts

• personal statement
• resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Incoming students must demonstrate or attain competence in cartography and quantitative methods and complete other basic coursework that will enable them to pursue graduate studies in their area of specialization.

The personal statement must address four questions:
• What specialty in geography does the applicant wish to pursue, and why?
• What aspects of the applicant's education (a description is needed) will enable them to pursue this specialty?
• What additional training does the applicant believe can be obtained at Arizona State University to realize their educational and career goals?
• What other information does the applicant feel should be considered in their application for admission? Examples include research experience or information that might be drawn from the applicant's resume.

Letters of recommendation must be from three faculty members who can attest to the applicant's academic achievements.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Write a scholarly literature analysis associated with a geographical research question for their doctoral research.
Develop a dissertation proposal that is in a format consistent with guidelines established by the NSF Doctoral Dissertation Award grant.
Apply appropriate advanced research methodology in geographic research sciences.

Career opportunities

Professionals with expertise in geographical sciences research, theory and practice are in high demand across sectors and industries, including institutions of higher education, consulting firms, government agencies, research facilities and community organizations. Skills in geographical data analysis, mapping and climate science are valuable to businesses and institutions that rely on research-based approaches to solve complex practical problems.

Career examples include:

atmospheric, earth, marine or space sciences professor or instructor
environmental scientist or specialist
geographic information systems technician
geophysical data technician
geoscientist
geospatial information scientist or technologist

Geological Sciences, MS (LAGEOSCMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the Master of Science program in geological sciences, you receive fundamental graduate training in geology. You are encouraged to cross subject boundaries and pursue new understandings of Earth and the solar system.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

30 credit hours and a thesis

Required Core (1 credit hour)
SES 502 Exploring SESE Research (1)

Electives or Research (22 credit hours)

Other Requirements (1 credit hour)
SES 501 SESE Colloquium (1)

Culminating Experience (6 credit hours)
SES 599 Thesis (6)

Additional Curriculum Information
Substitutions for courses listed as Other Requirements may be made with department approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants should see the program website for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Critically analyze and apply advanced geological concepts to investigate processes shaping the interior and surface of the Earth and other planetary bodies by evaluating geoscientific data and producing original research.
Apply advanced analytical, modeling, and/or field-based methods to investigate geological and/or planetary problems.
Conduct independent research that demonstrates the ability to critically evaluate geological and/or planetary data.

Career opportunities

Graduates are prepared for further graduate study or for careers in geochemistry, field geology, geomorphology, structure and tectonics, mineralogy and petrology, geophysics, planetary geology, hydrology, volcanology, Earth observation and remote sensing, and related areas, including geoscience education.

Professionals with expertise in geological sciences are in high demand across sectors and industries, including remote sensing, natural resource management, data science, economic geology (oil and mining industries), environmental consulting, hazard and risk assessment, geophysics and planetary science. Coding and numerical modeling skills translate across many domains, even beyond geosciences. Skills in the measurement and analysis of data related to the physics, chemistry and structures of the Earth and of planetary systems are valuable to businesses and institutions that rely on data-driven strategies to interact with the planet and explore beyond Earth.

Career examples include:

data scientist
environmental consultant
GIS or mapping specialist
materials analyst
planetary scientist
research geologist

Some students go on to doctoral programs in the field of geological sciences.

Geological Sciences, PHD (LAGEOSCPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in geological sciences is designed to develop creative scholarship in the terrestrial and planetary geosciences. You are encouraged to cross subject boundaries and pursue new understandings of Earth and the solar system.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (1 credit hour)
SES 502 Exploring SESE Research (1)

Electives or Research (70 credit hours)

Other Requirements (1 credit hour)
SES 501 SESE Colloquium (1)

Culminating Experience (12 credit hours)
SES 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree in a related field to be used for this degree. Substitutions for courses on the "other requirements" list may be made per department approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate literature and current research in the field of geological sciences as it relates to their own research.
Conduct independent, original scientific research and draw scientific conclusions that advances knowledge in the geological sciences.
Effectively communicate complex scientific concepts, research findings, and their implications to diverse audiences, including scientific peers, industry professionals, and the public.

Career opportunities

Graduates are prepared for academic and professional careers in geological science fields such as geochemistry, field geology, geomorphology, structure and tectonics, mineralogy and petrology, geophysics, planetary geology, hydrology, volcanology, Earth observation and remote sensing, and related areas, including geoscience education.

Professionals with expertise in geological sciences are in high demand across sectors and industries, including remote sensing, natural resource management, data science, environmental consulting, economic geology (oil and mining industries), hazard and risk assessment, geophysics and planetary science. Coding and numerical modeling skills translate across many domains, even beyond geosciences. Skills in the measurement and analysis of data related to the physics, chemistry and structures of earthly and planetary systems are valuable to businesses and institutions that rely on data-driven strategies to interact with the planet and explore beyond Earth. The doctoral degree in geological sciences is required for careers in postsecondary education and research.

Career examples include:

data scientist
environmental consultant
geologist
geosciences professor
instrument builder
planetary scientist
program manager
research scientist

German, MA (LAGERMMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

This program is not currently accepting applications.

Program description

The Master of Arts program in German offers you professional training in German linguistic, literary and cultural studies through courses and supervision of research that culminate in an applied project or thesis.

In consultation with your advisor, you arrange your coursework around one of three focus areas: literature, comparative literature, or language and culture. The program's designed to equip you to become an independent and creative professional as you broaden your knowledge of Germany as one of the world's leading economies, cultural contributors and human rights advocates.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (GER 593)

The plan of study for the master's degree includes a minimum of 30 credit hours of graduate-level work and a thesis or an applied project, as approved by the candidate's supervisory committee. The program must include a 500-level bibliography and research methods course offered by the school. When approved by the candidate's supervisory committee, nine credit hours in another language or in closely related courses may be included in the program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in German from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• resume or curriculum vitae
• writing sample
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Those who lack a degree in a related field but who show strong potential and meet the Graduate College admission requirements may be admitted on a provisional basis.

The writing sample should represent the applicant's thinking as well as their writing skills, and it should be written in German on a topic pertaining to the German language or culture.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Professionals with the valued skills developed in this degree program can confidently move into academic, business, diplomatic, government and international fields.

Career examples include:

area, ethnic and cultural studies teacher or professor
foreign language and literature teacher or professor
historian
interpreter or translator
lawyer
reporter or correspondent
social or community service manager

Global Health, MA (LASSHMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Applications for the Master of Arts program in global health are only accepted for the Accelerated Master's program.

Program description

In this Master of Arts program, global health is considered to be much more than, and very different from, international public health. It emphasizes that major health challenges stem from many factors well beyond disease itself --- factors that are cultural, ecological, evolutionary, historical, institutional, social and technological.

Any effective, sustainable solutions to the most pressing global health challenges need to take all these factors into account, including the complex ways in which they relate to each other. In this manner, this degree program teaches you to understand health challenges not simply as a product of disease, but as emerging in the contexts of complex and interrelated ecology, politics, history, culture, social institutions and evolutionary biology. It also places primacy on how to address the broader bases of ill health (i.e., structural, cultural) in complicated, ever-changing health challenges in low-resource community settings and a globalizing world. To do this, the program combines social and life science

theories with on-the-ground research and its application. There's a strong emphasis on collaborative action as key to identifying and addressing global health problems in a sustainable and meaningful way.

If you are accepted to the program, you are tied to ongoing transdisciplinary global health projects that address complicated, multifaceted health challenges that defy easy fixes, such as climate change-related diseases, emerging infectious diseases and obesity.

By applying a collaborative, problem-solving format, the master's degree program in global health prepares you to enter health or related fields (i.e., environmental, social) by providing you with the transdisciplinary orientation, team skills and social and cultural acuity that the Pew Health Professions Commission, among others, has identified as critical but lacking in current health workforce training. The program also emphasizes experiential learning as a way to gain mastery and requires your participation in a global internship program based in one of the international partnering communities.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Health, BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (SSH 593)

Required Core (3 credit hours)
ASB 510 Health: Social and Biocultural Theories (3)

Open Electives (6 credit hours)

Restricted Electives (6 credit hours)
ASB 580 Practicum (1-6)
ASB 583 Fieldwork (1-6)
ASB 584 Internship (1-6)

Other Requirements (9 credit hours)
ASB 500 Research Methods (3)
ASB 503 Medical Anthropology (3)
SSH 591 Seminar: Principles of Epidemiology for Global Health (3)

Culminating Experience (6 credit hours)
SSH 593 Applied Project (6)

Additional Curriculum Information
For restricted electives, students complete at least six credit hours from the list above.

Substitutions may be permitted by the graduate director for other requirement and restricted elective coursework. Additional methods-focused courses or graduate-level epidemiology courses can count toward these requirements.

Applied projects are completed in consultation with a faculty advisor. Students may use the fieldwork, internship or practicum experience as part of the research for the applied project.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned, from a regionally accredited institution, a bachelor's or master's degree in the social or life sciences (i.e., anthropology, sociology, gender studies, geography, political science, or public health or related fields, such as nutrition or human biology).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement outlining educational and professional goals
• current curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants may submit with their application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Admission is competitive and based on student academic excellence, additional relevant experience, and fit with available faculty. Value is placed on foreign language skills; practical, cross-cultural and international experiences; and prior social science and life science research.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Synthesize evidence to inform policy and programmatic decision-making in global health contexts.
Clearly articulate evidence-based strategies to address social, economic, and environmental determinants of health.
Apply public health theories in real-world settings.

Career opportunities

Nationally and internationally, the health field provides enormous and varied career opportunities, and demand is high and growing for graduates with specific skills. The program supports the goals of those pursuing careers in academic research teaching and health services. Sample employment venues include:

government agencies
health departments
international agencies (World Health Organization, Centers for Disease Control and Prevention, Global Health Council, World Bank, Inter-American Development Bank)
nongovernmental organizations
private sector entities
universities

The degree program also provides a broad intellectual base for those who plan advanced specialist health training in fields such as:

dentistry
medicine
nursing
pharmacy

In Arizona and elsewhere, there is a pressing need for appropriately skilled professionals to work in cross-cultural settings or with underserved populations such as migrants, minorities and those living in poverty, and many of these jobs are directly or indirectly related to health.

Global Health, MS (LASSHMS)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The Master of Science program in global health in the School of Human Evolution and Social Change prepares you to improve health for all people, in all places. Rooted in an anthropological and evolutionary approach to health, the program explores how culture, history, biology and the environment interact to shape health outcomes across time and place. Designed as a transdisciplinary and flexible degree, it equips you with the broad, adaptable skillset needed to address today's most pressing global health challenges ranging from emerging infectious diseases to chronic health disparities.

In this program, you gain both foundational knowledge and practical skills needed for impactful global health work. Through coursework that engages global health partners and the applied internship, you engage with critical health issues, including ONE Health, nutrition, maternal and child health, and infectious disease. You also develop cross-cutting competencies in epidemiology; research design; monitoring, evaluation and learning (also known as MEL); the art of crafting policy briefs; qualitative data analysis; and more. The program emphasizes developing sustainable, culturally-appropriate solutions and cultivating the ability to critically assess programs and research within diverse global contexts.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Anthropology, BS

Global Health, BA

Global Health, BS

Anthropology, BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a portfolio

Required Core (3 credit hours)
ASM 503 Evolutionary Medicine and Global Health (3)

Restricted Electives (12 credit hours)
ASB 455 Practicum for Social Sciences (3)
ASB 457 Global Mental Health (3)
ASB 462 Medical Anthropology: Culture and Health (3)
ASB 494 Topic: Ethnic Disparities and Health (3)
ASB 500 Topic: Qualitative Data Analysis (3)
ASB 500 Topic: Research Design for Global Health (3)
ASB 504 Global Health Policy (3)
ASB 507 Advanced Evolutionary Medicine (3)
ASB 510 Health: Social and Biocultural Theories (3)
ASB 526 Survey Topics in Global Nutrition (3)
ASB 548 Maternal and Child Health (3)
ASB 554 One Health (3)
ASB 598 Topic: Epidemiology in Context (3)
ASB 598 Topic: Monitoring, Evaluating and Learning for Global Health Programs (3)
ASB 598 Topic: Narrative and Science Engagement (3)
ASB 598 Topic: Reproductive Ecology (3)

Electives or Research (12 credit hours)

Other Requirement (3 credit hours)
ASB 584 Internship (3)

Culminating Experience (0 credit hours)
portfolio (0)

Additional Curriculum Information
For restricted electives, students complete at least 12 credit hours from the list above.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• written statement
• two letters of recommendation
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Students who have graduated from programs in anthropology, biology, public health, applied mathematics, statistics or in a related social science degree may be particularly well positioned for this program. Applicants with previous degrees in other fields should address in the written statement how their previous studies have prepared them for this program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/masters-global-health-ms/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Model professional and ethical practice when collaborating with partners and stakeholders during their applied global health internship in domestic or international settings.
Construct strategies to address the social, economic, and environmental determinants of health.
Appraise the strength of evidence for shaping policy and programmatic decisions.

Career opportunities

Graduates of the MS in global health program are well-positioned for careers across a variety of sectors including governmental and policy agencies, domestic and international non-governmental organizations, global research initiatives, and innovative private-sector health companies. Whether advancing policy, evaluating programs, managing health initiatives, or conducting global health research, graduates bring cultural insight and analytical rigor to the work of improving lives worldwide. Common job titles include:

education lead
evaluation specialist
program manager
research associate
technical advisor

Global Health, PHD (LASSHPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in global health draws on the premise that sustainable and satisfying solutions to the most pressing global health challenges require a sophisticated understanding of how cultural context, social and ecological processes and disease are really related.

This transdisciplinary graduate program trains you broadly in health social science research theory and methods. The program leverages the strength of ASU's medical anthropology programming and 15 medical anthropologists, and it has the advantage of accessing an exceptionally wide set of skills offered by those in such fields as medical sociology, demography, human geography and epidemiology.

Some particular thematic foci of the program are biocultural approaches to human coping, computer-based complexity modeling, culture and health, health in the Americas, and Indigenous and minority health, as well as mathematical epidemiology, nutritional anthropology, social justice and vulnerable populations, social networks, and urban and environmental health.

The program draws some 80 faculty members from throughout the university to consider how social science can be applied to understand and substantively improve the health of populations. The program favors community-based research in communities of all sizes and types, from hunter-gatherer communities to large U.S. cities, and runs collaborative projects in which you are encouraged to gain experience and conduct research.

You generally enter the program with a master's degree in a relevant field.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
ASB 510 Health: Social and Biocultural Theories (3)

Electives (39 credit hours)

Other Requirements (18 credit hours)
ASB 500 Research Methods (3)
ASB 501 Professionalism (3)

ASM 579 Proposal Writing (3)
SSH 591 Topic: Principles of Epidemiology for Global Health (3)
systematic methods courses (6)

Research (12 credit hours)
ASB 792 Research (12)

Culminating Experience (12 credit hours)
ASB 799 Dissertation (12)

Additional Curriculum Information
For electives, students should see the academic unit for a course list approved by the chair.

Other requirement coursework may be substituted with the approval of the academic unit. At least two systematic methods courses in an area other than epidemiology or biostatistics and ethnography should be selected, such as nutrition, survey, archival analysis, demography or geographic information systems.

When approved by the student's supervisory committee and the Graduate College, this program may allow up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is made up of electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement outlining educational and professional goals
• current curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Suitable backgrounds for admission include a master's degree in the social sciences (e.g., anthropology or sociology), public health, human biology or related fields. Students who enter directly from a bachelor's degree program should have completed at least 15 credit hours of social science and six credit hours of human biology or equivalent at the senior level and should have some background in statistics or epidemiology.

Applicants may submit with their application materials an optional scholarly writing sample, not to exceed 30 double-spaced pages.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Synthesize major theories, methodological approaches, and empirical findings within the field of Global Health.
Design a comprehensive study analyzing a current issue in the field.
Communicate research findings orally and in writing.

Career opportunities

Nationally and internationally, the health field provides enormous and varied career opportunities, and demand is high and growing for graduates with specific skills. The program supports the goals of those pursuing careers in academic research teaching and health services. Sample employment venues include:

health departments
government agencies
international agencies (World Health Organization, Centers for Disease Control and Prevention, Global Health Council, World Bank, Inter-American Development Bank)
nongovernmental organizations
private sector
universities

The degree program also provides a broad intellectual base for those who plan advanced specialist health training in fields such as:

dentistry
medicine
nursing
pharmacy

In Arizona and elsewhere, there is a pressing need for professionals with appropriate skills to work in cross-cultural settings or with underserved populations, such as migrants, minorities and those living in poverty, and many of these jobs are directly or indirectly related to health.

Global Security (Cybersecurity), MA (LAGSCSECMA)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The Master of Arts program in global security with a concentration in cybersecurity prepares you for a rapidly expanding field, with a focus on the complex relationship between cybersecurity and global politics. You learn from top faculty, including global thought leaders, seasoned scholars and skilled practitioners. Classes integrate case studies, policy exercises and critical thinking to prepare you for career advancement.

The cybersecurity concentration is a distinct element within the MA program in global security, engaging cyber issues from an interdisciplinary perspective with a focus on global security.

This nontechnical program provides you with relevant and continually updated coursework, enabling you to understand the complex risks, threats and modes of protection and response associated with cybersecurity. This program is more theoretical in nature and uses practical, relevant examples. You may progress at a variety of paces and can pursue the degree while working full time or part time.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Studies, BA

International Relations, BS

Political Science, BA

Applied Military and Veterans Studies, BA

International Relations, BA

Political Science, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (GSC 550)

Required Core (3 credit hours)
GSC 501 War, Conflict and Security (3)

Concentration (12 credit hours)
GSC 560 Overview of Cybersecurity (3)
GSC 561 Cybersecurity Threats and Trends (3)
GSC 562 Cybersecurity, Global Politics and Resiliency (3)
GSC 563 Cybersecurity Planning and Strategy (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)
GSC 550 Capstone (3)

Additional Curriculum Information
For electives, students take coursework from a restricted list, for a total of 12 credit hours. Students should contact the academic unit for the approved course list. Other coursework may be used with approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• curriculum vitae or resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The application requires a two- to three-page personal statement.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate emerging patterns in cyber security to explain changes in the global security environment.
Evaluate a contemporary case and explain challenges and dilemmas in cyber security.
Evaluate the strengths and weaknesses of different approaches to contemporary issues in cyber security.

Career opportunities

Graduates have the grounded and relevant understanding of major global trends and critical analytic skills that enhance their capacity to succeed in multiple career paths related to domestic and international security.

Example career areas include:

conflict zone and postwar reconstruction
consulting
global security intelligence (public and private sector)

humanitarian and human rights advocacy
policy analysis
regional affairs
risk assessment (public and private sector)
U.S. military advancement

Global Security (Intelligence Studies), MA (LAGSCISMA)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The Master of Arts program in global security with a concentration in intelligence studies prepares you to analyze and address contemporary intelligence challenges at the intersection of global security and policymaking. This program equips you with advanced skills in critical thinking, research and analysis across multiple intelligence domains including open-source intelligence, technology-driven change, decision making under uncertainty, and the human dimensions of intelligence. Emphasizing both theory and practice, the program engages you in case studies, simulations and applied exercises designed to reflect the real-world demands of intelligence work. You emerge with the knowledge and analytical capabilities necessary to contribute effectively to the U.S. intelligence community, defense sector, and private industry roles concerned with security and risk.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required capstone course (GSC 550)

Required Core (3 credit hours)
GSC 501 War, Conflict and Security (3)

Concentration (12 credit hours)
GSC 581 Intelligence and National Security Decision-Making (3)
GSC 582 Intelligence and Technology (3)
GSC 585 Covert Action (3)
GSC 586 Open-source Intelligence (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)
GSC 550 Capstone (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• personal statement
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL (iBT)®, or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

Applicants should provide a two- to three-page personal statement describing their educational background, their interest in the program, and highlight any significant experiences that have led to their interest in the subject area.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/global-security-intelligence-studies/) for program descriptions and to request more information.

Career opportunities

Graduates of the intelligence studies concentration can seek employment in careers across the U.S. intelligence community's agencies, the Department of Defense, and other federal departments with intelligence elements.

Career roles in the private sector include:

consultant
corporate security specialist
intelligence analyst
operations research specialist
policy analyst
risk analyst
security analyst
think tank researcher

Global Security (Irregular Warfare), MA (LAGSCIWMA)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The irregular warfare concentration in the Master of Arts program in global security enables you to focus your studies on components of irregular warfare, including proxy wars, counterinsurgency, narrative warfare and other features of modern conflict. You learn from top faculty, including international leaders in the field, seasoned scholars and skilled practitioners.

The courses in this program provide you with a relevant and continually updated understanding of the increasingly important role played by irregular warfare in the complex and competitive global security environment. This program balances the theoretical and practical aspects of irregular warfare through rigorous scholarly work with historical and contemporary case studies, and classes integrate case studies, policy exercises and critical thinking to prepare you for career advancement.

You progress at your own pace; the program can be completed in one year or over a six-year period. You may pursue the degree while working full time or part time.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Studies, BA

International Relations, BS

Political Science, BA

Applied Military and Veterans Studies, BA

Global Security and Competitive Statecraft, Certificate (LAGSCSGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The graduate certificate program in global security and competitive statecraft is an interdisciplinary program that trains= you to critically engage contemporary international security issues in a comprehensive manner.

The program is based on four key pillars: enabling innovative strategic thinking, developing analytic tools, supporting= critical interdisciplinary engagement, and encouraging flexible and resilient approaches to the inherently complex= challenges of current and future global security.

Program faculty have extensive experience as practitioners in the field of security and foreign policy. They bring their= deep understanding of the issues to rigorous and interesting coursework that enables you to develop a sophisticated= understanding of the complex global, political environment in which political actors compete.

You may pursue the certificate from anywhere in the world, and study while working full time or part time.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
GSC 512 Global Trends (3)

Restricted Electives (12 credit hours)

GSC 503 Future of War (3)
GSC 509 Emerging Technologies and Global Security (3)
GSC 561 Cybersecurity Threats and Trends (3)
GSC 571 Narrative Conflict (3)
GSC 572 Proxy Warfare, Strategic Thinking, History and Operational Arts (3)
GSC 573 Understanding Great Power Competition (3)
GSC 574 Security and the Global Economy (3)
GSC 598 Special Topics (3)

Additional Curriculum Information
For restricted electives, students take four courses from the restricted list, for a total of 12 credit hours. Students should contact the academic unit for eligible GSC 598 topics. Other GSC and IAL courses may be used with approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The application requires a one- to three-page personal statement.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/graduate-global-security-certificate/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Formulate a position on a contemporary global security issue that acknowledges the complexity and diversity of security challenges, highlighting the need for flexible and resilient strategies.
Critically evaluate contemporary trends and how they impact the global security environment.

Career opportunities

This certificate is designed to aid professional advancement in government, military, nonprofit and private sector careers.

Graduates have achieved timely and authoritative practitioner insights into the complexity of the contemporary global security environment. They also have developed critical analytic skills, improving their capacity to succeed in multiple career paths related to domestic and international security.

Career area examples include:

global security strategist (public and private sector)
intelligence and risk assessment analyst (public and private sector)
policy analyst
security consultant

Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-global-security/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate patterns of conflict applying discipline specific theories and models to explain changes in the global security. environment.
Evaluate a contemporary case study using key theories and concepts in global security.
Effectively communicate in writing the the complexity of contemporary security challenges and the need for flexible and resilient strategies.

Career opportunities

Graduates have a grounded and relevant understanding of major global trends and critical analytic skills, improving their capacity to succeed in multiple career paths related to domestic and international security.

Career area examples include:

conflict zone and postwar reconstruction
consulting
global security intelligence (public and private sector)
humanitarian and human rights
policy analysis
regional affairs
risk assessment (public and private sector)
U.S. military advancement

History and Philosophy of Science, PHD (LAHPSCIPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The history and philosophy of science is an interdisciplinary field that traces its origin to foundational works such as Thomas Kuhn's "Structure of Scientific Revolutions." The field is based on the idea that the best way to understand science is to study how it changes over time, along with careful analysis of its concepts, theories and practices.

The Doctor of Philosophy program in history and philosophy of science offers you training in the core areas of history and philosophy of science with an emphasis on interdisciplinary studies of the sciences, including:

• computational history and philosophy of science
• conceptual foundations of biology, including evolution ecology, genetics and development
• general philosophy of science and epistemology
• history and philosophy of applied ethics and science policy
• history of 19th- and 20th-century biology

The program is especially appropriate if you have an undergraduate or master's degree in philosophy, history, or the sciences and if you are seeking to broaden your disciplinary studies. If you are a science student who hasn't taken relevant undergraduate humanistic core courses, you can make up these courses during your first years in the program.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (6 credit hours)
HPS 615 Biology and Society Lab (3)
HPS 620 Research Prospectus Writing (3)

Restricted Program Electives (30 credit hours)

Program Electives (24 credit hours)

Research (12 credit hours)
HPS 792 Research (12)

Dissertation (12 credit hours)
HPS 799 Dissertation (12)

Additional Curriculum Information
An individual student program is developed in consultation with the student's advisor and committee.

HPS 615 Biology and Society Lab is a one credit hour course focused on student presentations of works in progress. Students must complete it three times during their graduate study.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution of recognized standing in a related field such as history, philosophy, or history and philosophy of science, as well as a demonstrated background and interest in one or more sciences.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• academic record form
• personal statement
• curriculum vitae or resume
• writing sample

• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Able to articulate an understanding of current literature on scientific developments and their relevance to society in scholarly writing.
- Able to contribute to original history and philosophy of science research in scholarly writing.
- Able to communicate history and philosophy of science research results in presentations.

Career opportunities

A doctorate in history and philosophy of science provides strong preparation for academic careers at every level, from community colleges to research universities, including research, teaching, administration and science communication. The skills and knowledge obtained in this program are also valuable for government careers in federal and state agencies responsible for health, agriculture, conservation and education policy and management, and for careers in industry and nongovernmental organizations.

Career examples include:

- lawyer
- medical writer or editor
- professor or instructor at a university or college
- researcher analyzing health care, environmental or educational systems in an academic, government, nonprofit, private or industrial organization
- science communicator in an academic, private or industrial organization
- science or social studies teacher in an elementary or high school
- science policymaker or administrator

History, MA (LAHISTMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description

The Master of Arts program in history combines classes taught by ASU's distinguished faculty in an online or in-person= environment with an emphasis on the development of analytical and communication skills. It offers engaging content

that deepens your knowledge of history while developing your core competencies, which are applicable in a variety of settings. You graduate from the program with an enhanced ability in finding and analyzing information, planning and organizing projects, and writing and speaking effectively.

The MA program in history offers studies in North American, European, public and global comparative history, and it provides you with opportunities for professional development through colloquia, internship experiences and conference attendance.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

History, BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (HST 593), or
30 credit hours including the required capstone course (HST 597)

Required Core (6 credit hours)
HST 640 Historical Methods (3)

Students pick one of the following:
HST 502 Public History Methodology (3)
HST 641 North American History (3)
HST 643 Global History (3)

Electives (12 credit hours)

Other Requirements (6 or 9 credit hours)
HST 500 Research Methods (3) and HST 598 Special Topics (3) OR
HST 500 Research Methods (3) and HST 598 Special Topics (3) and HST 591 Seminar (3)

Culminating Experience (3 or 6 credit hours)
HST 593 Applied Project (3) or
HST 597 Capstone (3) or
HST 599 Thesis (6)

Additional Curriculum Information
There are two options for the master's degree program in history: the thesis option (for in-person students only) and the nonthesis option. The thesis option requires 30 total credit hours of coursework, including six credit hours of HST 599 Thesis, three credit hours of HST 500 Research Methods, three credit hours of HST 598 Special Topics and 18 credit hours of coursework.

The nonthesis option requires 30 total credit hours, including three credit hours of HST 593 Applied Project or HST 597 Capstone, three credit hours of HST 500 Research Methods, three credit hours of HST 591 Seminar, three credit hours of HST 598 Special Topics and an additional 18 credit hours of coursework.

Online students must complete HST 597 Capstone, and may not take HST 599 Thesis or HST 593 Applied Project as their culminating experience.

For elective coursework, students should refer to the unit for a list of approved courses.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Competitive applicants typically have a 3.00 GPA (scale is 4.00 = "A") in the last 60 semester hours of their undergraduate coursework. Applicants with a lower GPA might still be accepted and should address lower GPAs in their personal statement.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume or curriculum vitae
• writing sample
• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. The history program requires a TOEFL iBT® score of at least 4.5, or 90 (taken at a testing center) if taken before January 21, 2026.

All applications are reviewed by multiple ASU faculty members and assessed holistically to determine if they demonstrate the capacity to succeed in a rigorous and writing-intensive graduate program. This decision is made on the basis of prior coursework in history and other social sciences, the quality of the writing sample, the statement of purpose, and the letters of recommendation. Prior coursework in history is not a requirement, but in such cases, applicants should have a strong writing sample that demonstrates their ability to engage in historical analysis. In cases where applicants do not have a suitable writing sample or demonstration of past success in historical coursework, they are encouraged to take one or two classes as a nondegree-seeking student and then apply.

Applicants are required to provide a minimum of two professional letters of recommendation, but a maximum of three letters of recommendation may be included. Recommenders should be faculty members familiar with the applicant's academic abilities but may also be work supervisors who are able to speak to the applicant's ability to succeed in a graduate program.

The statement of purpose, about 500 words in length, should be addressed to the history admission committee and should explain the applicant's scholarly background and training, career goals, the primary field the applicant wishes to pursue, and why the applicant wants to pursue graduate study at ASU. It is not necessary to specify a research topic, but if an applicant has one in mind, they should include it in the statement of purpose.

The writing sample may be an article (published or unpublished), a research paper or any other extended sample of expository writing no longer than 35 pages in length. Longer writing samples should not be submitted without first

consulting the graduate director. Documents and files should not be password protected. Acceptable file types are .rtf, .pdf and .doc.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-history/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Students will gain proficiency in historical methods and demonstrate nuanced understanding of different historical lenses and interpretive frameworks.
Students will be able to conduct and defend original historical research.
Students will demonstrate successful attainment of program goals in research and historiography.

Career opportunities

Graduates acquired advanced historical thinking skills as well as other skills employers consistently identify as highly valuable, including effective oral and written communication, critical thinking and problem-solving.

Graduates possess the fundamental training needed for careers in research, teaching, public history, government service and a host of other positions in the public, private and nonprofit sectors. They serve as first-rate historians, highly qualified teachers at the elementary and secondary levels and community colleges, researchers and consultants, archivists, foreign service officers, management professionals, community organizers and public servants.

Other career examples include:

business executive
college instructor
diplomat
editorial and publishing professional
museum director and staff
nonprofit director
research professional
teacher

History, PHD (LAHISTPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the Doctor of Philosophy program in history, you have access to outstanding opportunities for graduate study in North American, European, public and global-comparative history.

The School of Historical, Philosophical and Religious Studies' world-class faculty members deliver courses and individualized mentoring in a wide variety of historical topics, such as urban history, environment and sustainability studies, politics and policy, immigration, gender, race and ethnicity, and comparative history. In addition, as a history PhD student, you are strongly encouraged to take advantage of the numerous collaborative opportunities throughout the university in ASU's many innovative schools and centers.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (16 credit hours)
HST 502 Public History Methodology (3)
HST 640 Historical Methods (3)
HST 641 North American History (3)
HST 643 Global History (3)
HST 644 Area Studies in History (3)
HST 682 Advanced Research Skill (1)

Electives and Research (44 credit hours)

Other Requirement (12 credit hours)
HST 591 Seminar (6)
HST 792 Research (6)

Culminating Experience (12 credit hours)
HST 799 Dissertation (12)

Additional Curriculum Information
In general, all credit hours must be at the 500 level or higher. Graduate credit may be awarded for 400-level courses; it must be approved in advance and documented in the student's file.

The doctoral program requires a minimum of 84 credit hours and may be completed in four to five years. Students with a master's degree may apply 30 credit hours toward the 84 required credit hours with approval of the academic unit and the Graduate College. If the student does not already have a master's degree in a related field, the remaining 30 credit hours are made up of electives and research to reach 84 credit hours.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program. The most competitive applicants have a GPA of 3.30 or higher.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume or curriculum vitae
• writing sample
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. The program requires a TOEFL iBT® score of at least 4.5, or 90 (taken at a testing center) if taken before January 21, 2026. A student whose native language is not English also must submit a copy of an article or research paper in their native or principal research language, in addition to the English writing sample required of all students.

Students are required to submit a minimum of three email addresses of faculty or others qualified to speak to the student's suitability for graduate study in history. Letters of reference should be submitted by the recommenders in addition to the electronic reference form they are asked to complete.

The statement of purpose should be addressed to the history admission committee and explain the applicant's scholarly background and training, career goals, the primary field the applicant wishes to pursue, the proposed research specialization, and why the applicant wants to pursue graduate study at ASU; it should be about 500 words in length.

The writing sample, either published or unpublished, may be an article, a research paper, or any other extended sample of expository skill, and it must be no longer than 35 pages. Longer writing samples should not be submitted without first consulting the graduate director. Documents and files should not be password protected. Acceptable file types are .rtf, .pdf and .doc.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Demonstrate mastery of three domains of historical knowledge as well as display expertise in their proposed topic of study
Accomplish meaningful contributions to the profession through accepted publications and presentations
Identify and complete applications for funding opportunities that can support their research

Career opportunities

Graduates have the foundational skills in research, writing and communication and the fundamental training needed for careers in research, archival work, higher education, teaching, public history, government service, and a host of other areas in the public, private and nonprofit sectors.

They serve as first-rate historians, highly qualified instructors at universities and two-year schools, researchers and consultants for business and government, archivists, foreign service officers, management professionals, community organizers and public servants. Other career examples include:

archivist
diplomat

- editorial and publishing professional
- K-12 school teacher
- museum director or staff member
- nonprofit director
- university professor

Holocaust and Genocide Studies, Certificate (LAHGSGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The graduate certificate program in Holocaust and genocide studies recognizes the importance of studying the= Holocaust and other acts of genocide in order to give you the necessary contextualization to educate others while= offering ideas about representation, memorialization and commemoration. The certificate provides you with the= theoretical and historiographical grounding for understanding the Holocaust as a defining event and using it as a lens= through which to examine other genocides in world history. You analyze these acts in research seminars and engage in= interdisciplinary explorations of genocides and their representations in society, examining oral histories and material= culture.

The program also enables you to engage in experiential opportunities at public-facing organizations dedicated to= Holocaust and genocide awareness and education.

STEM-OPT extension eligible: No

Degree requirements

18 credit hours

Required Core (3 credit hours)
HST 570 Readings in Holocaust and Genocide Studies (3)

Other Requirements (3 credit hours)
HST 454 History of Genocide (3) or
HST 571 Holocaust: Collaboration and Resistance (3) or
HST 598 Topic: Holocaust, War and German Memory (3)

Electives (12 credit hours)

Additional Curriculum Information
Other Requirements courses can be replaced with advisor approval. Students must see the unit for an approved list of= elective topics.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Competitive applicants typically have a 3.00 (scale is 4.00 = "A") in the last 60 semester hours of their undergraduate coursework. Applicants with a lower GPA might still be accepted and should address lower GPAs in their personal statement.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• professional resume
• written statement
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The personal statement should be about 500 words in length; be addressed to the admission committee; explain the applicant's educational background and training, career goals, and familiarity with the study of the Holocaust and other genocides; and detail why the applicant is pursuing the certificate.

For the written statement, applicants are prompted to write a short response (500-800 words) to a question related to the study of genocide. This response serves to demonstrate to the committee the applicant's writing ability and potential for thoughtful participation in graduate coursework.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/holocaust-genocide-studies/) for program descriptions and to request more information.

Global opportunities

Global experience: Study abroad (https://goglobal.asu.edu/students/graduate-students) is an option for graduate students. There are more than 50 program opportunities, with programs on every continent. Faculty-directed programs tend to be the best fit for graduate students; taking courses with ASU professors over the summer or during academic breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning. These study abroad courses are elective options for students.

The Holocaust and genocide studies certificate program offers a professional experience elective that takes place abroad. Students should consult with the academic unit directly for more information about this professional experience option.

Career opportunities

Graduates are prepared with the training needed for careers in education, research, teaching, government service, public history and a host of other positions in the public, private and nonprofit sectors. They serve as first-rate historians, researchers and consultants, foreign service officers, management professionals, community organizers and public servants.

Other career examples include:

- archivist
- collections manager
- college instructor
- editor
- museum coordinator
- national parks historian and park ranger
- nonprofit director
- teacher

Immigration Studies, Certificate (LAIMMSTUCE)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The graduate certificate program in immigration studies provides you with a holistic understanding of the historical,= current and long-term causes and consequences of international migration as well as relevant professional and= research training opportunities.

The objective of the certificate program is to offer traditional academic training through coursework, research and the= practical experience of working with local immigrant and refugee communities.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

All students are required to take one core course, three approved elective courses on immigration, and three credit= hours of a culminating experience (either an internship or a research project). Students are to contact the school for a= list of approved courses.

Students may do an internship with Phoenix-based nongovernmental organizations or government agencies that= provide services to immigrants and refugees. Such internships give students professional training and actual= experience working with immigrant and refugee communities. Students are required to write a report describing the= organization and their experience as interns.

Students may enroll in three credit hours of research with a faculty member to do an independent research project.= They must write a substantial research paper based on field research in a local immigrant community, on library and= archival research, or on readings on an immigration topic.

Certificate students may choose to specialize in humanities, Mexican and Latino immigrants in the U.S., or social

sciences.

Given the nature of the immigration courses offered at ASU and the preponderance of Latino immigrant communities in the Phoenix area, the program emphasizes Latino immigration. However, students have the opportunity to take broader courses focusing on global migration and other immigrant groups, and work with local Asian or Southeast Asian immigrants and refugee communities.

For students currently enrolled in an ASU graduate degree program, applicable certificate courses may count toward their degree program with the approval and consent of the degree-granting program. For certificate students who are later admitted to an ASU graduate degree program, up to 12 credit hours from the certificate program may count toward their doctoral degree, or up to 12 credit hours may count toward their master's degree, with the approval and consent of the degree-granting program.

All requirements for the certificate program should be completed within three years, with a minimum cumulative GPA of 3.00 (scale is 4.00 = "A"). Students who require more time to finish the program, because of their part-time status or lack of desirable or available courses, must obtain approval from the executive committee.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement outlining educational and professional goals
• current curriculum vitae or resume
• one letter of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted to a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this certificate program.

Applicants may submit an optional scholarly writing sample, no longer than 30 double-spaced pages, with their application materials.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Evaluate key migration frameworks.
- Analyze real world organizational, community or policy contexts using appropriate immigration theoretical and methodological frameworks.

Career opportunities

The demand in the job market is high for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data on human thought and behavior.

Graduates are prepared for future study in graduate and professional schools or for careers as immigration practitioners and advocates in local and federal government agencies, and private and public institutions that serve immigrant and refugee communities.

Career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- directing nonprofit organizations
- directing programs in the private or public sector

Indigenous Education, Certificate (LAIEDGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The microcertificate program in Indigenous education offers a graduate-level credential focused on Indigenous= knowledge systems, culturally responsive pedagogy and tribal education policy. Designed for educators, leaders and= advocates, the program empowers learners to support Indigenous self-determination and advance equity in schools,= communities and educational institutions.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education= benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Degree requirements

9 credit hours

Required Core (9 credit hours)
IED 502 Indigenous Knowledges in Education (3)
IED 510 Indigenous Education and Colonial Histories (3)
IED 530 Indigenous Language Education and Revitalization (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in American Indian studies, Indigenous education or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• letter of intent
• short answer questions
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL® (iBT) or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

Applicants are required to submit a one-page letter of intent as part of their application to the Indigenous education microcertificate program. The letter should address the following:

• any classes, training or work in the fields of education, teaching or community-based learning
• how this program connects to the applicant's goals and what the applicant hopes to gain from it
• professional goals and what interests the applicant most about Indigenous education

This statement helps the admission committee better understand each applicant's background, motivations and fit for the program.

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu) for program descriptions and to request more information.

Career opportunities

The microcertificate in Indigenous education strengthens professional pathways in areas involving program coordination, outreach and engagement roles, community-based learning initiatives as well as positions that emphasize sovereignty, self-determination and Indigenous knowledges. It provides a valuable credential for individuals seeking to enhance their expertise and leadership capacity while serving Indigenous communities in a variety of educational, community-facing and general organizational leadership contexts.

Graduates of this program are well-prepared for roles in:

community advocacy
cultural institutions (museums and libraries)
K-12 and higher education
nonprofit organizations
policy and curriculum development
tribal education departments

Indigenous Education, MA (LAIEDMA)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The Master of Arts program in Indigenous education provides you with advanced training in research, theory and practice focused on Indigenous education and policy, and the complexities of the schooling process. If you work with Indigenous students or in Indigenous education programs and want to advance community-driven goals, this program is for you.

The schooling process, as explored in this program, examines how education systems function, including curriculum design, teaching methodologies and institutional structures, and their intersection with cultural and community contexts. You develop a nuanced understanding of how these elements relate to Indigenous knowledge systems and values, enabling you to identify and address systemic challenges while fostering environments that affirm and uplift Indigenous identities and perspectives.

This fully online program enables you to expand your career opportunities and enhance your impact without interrupting your professional life. Courses promote active engagement, facilitate the formation of educational alliances, and build collaborative relationships that sustain dynamic and innovative learning environments.

Designed to address real-world community needs, the program prepares you to strengthen education and support long-term improvements in Indigenous communities.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required capstone course (IED 585)

Required Core (9 credit hours)
IED 502 Indigenous Knowledges in Education (3)

IED 510 Indigenous Education and Colonial Histories (3)
IED 530 Indigenous Language Revitalization (3)

Other Requirements (3 credit hours)
IED 501 Critical Indigenous Research Methodologies (3) or
IED 535 Indigenous Participatory Action Research (3)

Electives (15 credit hours)

Culminating Experience (3 credit hours)
IED 585 Capstone (3)

Additional Curriculum Information
Students should see the academic unit for a complete list of electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in a related field, such as history, education, anthropology, sociology, ethnic studies, justice studies or political science, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal essay
• writing sample
• professional resume
• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

A selection committee comprising faculty members selects candidates based on their application materials and the committee's assessment of their potential to succeed.

The two- to three-page personal essay should describe any prior research experience and training in education; the applicant's experience working with or for Indigenous communities; professional goals and research interests; and the fit between their interests and the program's emphases, requirements and coursework. If the applicant knows of any faculty they would like to work with or whose research aligns with their interests, this should be noted in the personal essay.

The 12- to 15-page writing sample can be a relevant policy paper or report, or a research paper from an academic course.

The letters of recommendation should comment on the applicant's motivation, commitment, achievements, work experience and likely success in the program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/indigenous-education-ma/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Design and articulate Indigenous knowledge system(s), as it relates to education and schooling in Indian country
Appraise and compose the parallels of historical Indigenous education and current schooling for American Indian students, using an evidence-based approach to support their case
Articulate the contradictions and complexities between Western schooling and Indigenous educational processes for Native nations
Analyze research methods and methodologies through an Indigenous framework and compose their own research methodologies

Career opportunities

Graduates are well prepared for diverse career opportunities in roles that advance Indigenous education and community goals. Potential career paths include:

community development: leaders in nonprofits or tribal organizations driving educational initiatives
curriculum development: specialists designing culturally relevant educational materials and programs
educational leadership: directors or coordinators in Indigenous-serving schools, organizations or programs
higher education: instructors, program coordinators or student support roles in colleges and universities
policy advocacy: policy analysts or advisors focused on education and Indigenous affairs
research and consulting: experts conducting research or offering consultation on Indigenous education and policy

This program equips graduates with the skills to create meaningful change, enhance educational systems and empower Indigenous communities.

Infant Family Practice, MAS (LACDEMAS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is not currently accepting applications for this program.

Program description

This self-contained, accelerated Master of Advanced Study program in infant-family practice provides high-quality coursework and supervised internship experiences designed to train you to work in prevention and intervention programs serving families with infants, toddlers and preschool-age children.

Coursework prepares you for professional endorsement of the Infant/Toddler Mental Health Coalition of Arizona for culturally sensitive, relationship-based practice promoting infant mental health.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours and a portfolio

Required Core (12 credit hours)

Practicum (9 credit hours)

Other Requirements (6 credit hours)

Research (3 credit hours)

Additional Curriculum Information
The MAS in infant-family practice requires successful completion of a minimum of 30 credit hours and an applied project, including required coursework and an internship in a community placement approved by the faculty of the master's degree program in infant-family practice. Internships are expected to last approximately 12 months.

Students must meet the expectations of the agency supervising their internship.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field such as counseling, psychology, and family and human development.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• a personal statement
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letters of recommendation should be from individuals familiar with the applicant's academic background.

GRE scores are not required for this program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Many career paths are available to graduates with this degree. A few examples are:

child abuse prevention
child welfare
early childhood education and child care administration
early intervention
family support
home visiting
infant and early childhood mental health

International Affairs and Leadership, MA (LAIALMA)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The Master of Arts program in international affairs and leadership prepares you for international leadership roles in a dynamic learning environment led by senior international affairs professionals from the public and private sectors.

The program offers a distinct blend of leadership capacity development --- both theory and practice --- as well as substantive training focused on U.S. foreign policy decision-making, national security, international trade, and human rights and other key global issues. You have regular interactions with world-class professors and practitioners who'll help you learn how to shape the world in a meaningful and positive way.

The program places a high value on student-faculty interaction and on the learning of practical skills. Core courses are taught exclusively by highly experienced foreign policy practitioners, and emphasize policy debate and assignments that mimic real-world work. The program offers over two dozen electives, allowing you to chart your own path to success. You even have the option to spend a week in Washington to engage directly with faculty and a host of U.S. and international experts.

The MA program in international affairs and leadership is a lifelong community in which alumni, current students and faculty support each other in a vibrant professional network.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Studies, BA

International Relations, BS

Political Science, BA

International Relations, BA

Political Science, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (IAL 560)

Required Core (9 credit hours)
IAL 501 Principles of Character-Driven Leadership (3)
IAL 502 The Making of U.S. National Security Policy (3)
IAL 503 Applied International Leadership: Case Studies (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)
IAL 560 Capstone (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• letter of intent
• professional resume
• writing sample
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

GRE or GMAT results are not required but can be submitted as additional application material. ASU does not accept the GRE® General Test at home edition.

Applicants should have a deep-rooted interest in international issues of the future and a desire to influence them through character-driven leadership within the context of an increasingly complicated, globalized world. Ideal candidates have previous leadership experience and plan to devote their careers to working with other cultures and nations across a variety of sectors. While an ideal candidate has previous experience traveling or living overseas or has studied a language other than English, candidates with no prior experience in these areas are also welcome to apply. International and domestic students are encouraged to apply.

Using the letter of intent, applicants should narrate their own leadership journeys and their motivations for further studies in the areas of international affairs and leadership. The letter of intent should describe the applicant's academic and professional interests to date, their reasons for pursuing a master's degree in international affairs and leadership, and how this advanced degree relates to their specific goals.

The application review panel also evaluates the applicant's writing skills. The writing sample could be an original essay or previously written research paper, essay, policy memo, or other document that demonstrates the applicant's writing and analytical skills.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/international-affairs-master-degree/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Recommend innovative solutions to real-world challenges.
Effectively communicate analyses, ideas, and proposals - orally and in writing.
Evaluate the leadership styles of real-world international leaders using character-driven leadership principles.

Global opportunities

Global experience: Students can earn credit towards their MA in international affairs and leadership degree by studying abroad in one of dozens of countries around the globe through ASU World Innovators Study Abroad Program (https://ldns.asu.edu/asu-world-innovators-awi-study-abroad-program). Students engaged in internships in the U.S. or overseas that are related to international affairs can earn course credit toward their program.

In addition, students can earn degree credit by producing research papers on international topics about which they are passionate. Some students travel overseas to conduct their research.

Career opportunities

Graduates are making a mark in many fields and organizations, including U.S. government agencies, nongovernmental organizations, and prominent corporations.

Career opportunities include positions in:

International Rescue Committee
JET Program

Peace Corps
U.S. Congress
U.S. Department of Agriculture
U.S. Department of Defense
U.S. Department of State
U.S. Department of Veteran Affairs
U.S. Global Leadership Coalition
U.S. Small Business Administration

Justice Studies, MS (LAJUSSTMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Science program in justice studies is an innovative, interdisciplinary program that prepares you to work, research and advocate on behalf of social justice. You study a wide variety of topics at the local, national and international levels, gaining the training needed for analyzing social, economic, cultural, political and legal inequalities and promoting pathways to more just societies.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Justice Studies, BS

Justice Studies, BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (JUS 593)

Required Core (12 credit hours)
JUS 500 Research Methods (3)
JUS 501 Justice Theory (3)
JUS 509 Statistical Problems in Justice Research (3)
JUS 521 Qualitative Data Analysis and Evaluation (3)

Electives (12 credit hours)

Research (0 or 3 credit hours)
JUS 592 Research (3)

Culminating Experience (3 or 6 credit hours)
JUS 593 Applied Project (3) or
JUS 599 Thesis (6)

Additional Curriculum Information
Each student's program is developed in concert with the advisory committee. The required foundation courses provide students with a fundamental understanding of the theories, methods and analytic techniques associated with the study of justice.

To satisfy the thesis requirement for the degree, candidates must write a thesis and defend it in an oral examination conducted by the student's advisory committee. Students in this option are not required to take JUS 592 Research.

Students who elect the applied project option must enroll in three credit hours of JUS 592 Research before enrolling in JUS 593 Applied Project. Candidates pursuing this option must present their applied project and defend it in an oral examination conducted by the faculty member who supervises the project, and the graduate programs director or designated representative. The applied project typically includes a brief literature review to identify the nature of the issue or problem, and a description of the methodology used and, if relevant, of the program studied, followed by an analysis.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• writing sample
• resume or curriculum vitae
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Mailing addresses and further admission information are available on the ASU Graduate Admission Services website.

Application requirements vary for the accelerated justice studies program. Undergraduate students majoring in justice studies who are interested in and eligible for this accelerated graduate program should contact the academic unit to schedule an appointment with a graduate advisor before submitting an application. Further details about the accelerated justice studies program can be found on the School of Social Transformation webpage.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Interpret and conduct quantitative research.
Interpret and conduct qualitative research.
Generate solutions to address societal problems using interdisciplinary and multidisciplinary approaches.

Career opportunities

Graduates of the justice studies program are prepared to work in justice-related organizations, teach in community colleges, and pursue doctoral programs and research in the justice field.

Justice Studies, PHD (LAJUSSTPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in justice studies at School of Social Transformation invites all qualified applicants.

The diverse community of scholars unites you and faculty across academic boundaries to strategically create social change that is democratic, inclusive and just. The interdisciplinary doctoral program in justice studies prepares you to address complex social problems and become tomorrow's leader.

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.
This degree is also offered as a concurrent program with the following:

Juris Doctor, JD

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Required Core (6 credit hours)
JUS 620 Justice Research Methodology (3)
JUS 640 Theoretical Perspectives on Justice (3)

Other Requirement (3 credit hours)

JUS 630 Data Analysis for Justice Research (3) or
JUS 650 Advanced Qualitative Data Analysis (3) or
SST 691 Topic: Quantitative Methods for Qualitative Researchers (3)

Electives and Research (63 credit hours)

Culminating Experience (12 credit hours)
JUS 799 Dissertation (12)

Additional Curriculum Information
For the other requirement course, students may take JUS 630, JUS 650, SST 691 or other methods course at ASU that is approved by the justice studies graduate director.

Students entering the doctoral program with a master's or Juris Doctor degree may complete a minimum of 54 credit hours for the program. In addition to the requirements listed above, coursework includes 15 credit hours of elective classroom hours (nine of which must have a JUS prefix) and 18 credit hours comprising any combination of additional elective courses, reading and conference courses, or research courses.

Students entering the doctoral program without a master's or JD degree are required to complete 84 credit hours. In addition to the requirements listed above, the coursework includes 12 credit hours of 500-level foundation courses, 24 credit hours of elective classroom hours (15 of which must have a JUS prefix) and 27 credit hours comprising any combination of additional electives courses, reading and conference courses, or research courses.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• writing sample
• three letters of recommendation (academic references are preferred)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should be 1.5 to 2 pages, double spaced, and outline the applicant's areas of interest, educational and career goals. The writing sample should be 10 to 15 pages and discuss the research that best represents the applicant's academic thinking and writing skills.

The PhD/JD option allows qualified students to earn a JD from ASU's Sandra Day O'Connor College of Law while

simultaneously earning a transdisciplinary doctoral degree in justice studies. Students must apply separately to both programs. Applicants should contact the Sandra Day O'Connor College of Law for its requirements.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Apply knowledge of both qualitative and quantitative research methodologies.
Differentiate various theoretical perspectives of justice in their written work.
Analyze instances of social injustice and identify intersectional solutions that draw on interdisciplinary and multidisciplinary approaches grounded in justice studies.

Career opportunities

Graduates are prepared to work in justice-related organizations, teach in community colleges and universities, and conduct research in the justice field.

Language Teaching, MA (LALANTCHMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Arts program in language teaching prepares you with the tools you need to effectively teach languages in K-12, higher education and other multilingual settings, whether you are a current or aspiring language teacher. You engage in a wide range of theoretical and practical experiences that culminate in an applied project aligned with your professional goals. This program offers three track options: French, German and Spanish.

You can pursue this degree if you are a teacher in Arizona who is interested in continuing your professional development in both language pedagogy and language proficiency. You receive training in teaching methodologies, second language acquisition, heritage language pedagogy, computer-assisted language teaching, applied linguistics, and the teaching of literature and culture. This program may also be of interest to you if you wish to become a highly proficient bilingual.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

French, BA

Spanish, BA

German, BA
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (SLC 593)

Required Core (3 credit hours)
SLC 596 Second Language Methodologies (3)

Track (9 credit hours)

Other Requirements (12 credit hours)

Electives (3 credit hours)

Culminating Experience (3 credit hours)
SLC 593 Applied Project (3)

Additional Curriculum Information
Students choose from three available tracks: French, German or Spanish. Students should see their academic unit for approved track coursework. Students select coursework in consultation with their committee chair.

Other Requirements coursework may be substituted with approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in a foreign language, applied linguistics, linguistics, literature, education or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• letter of intent or written statement
• two letters of recommendation
• proof of target language proficiency
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The written statement should be no more than two pages, single-spaced, and should discuss how the applicant's

educational background and experiences have prepared them for this graduate program. The applicant should also describe why they are interested in pursuing this master's degree and how it aligns with their career goals.

Proof of target language proficiency is accepted by an audio or video submission of a two-minute self-introduction.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Employ current second language acquisition theoretical and pedagogical recommendations in language teaching lesson plans.
- Critically evaluate published evidence from research and practice studies in second-language acquisition.
- Create different types of language related activities by incorporating current pedagogical recommendations and technological tools.

Career opportunities

Professionals with this degree can confidently move into academic and business fields. Language skills developed through this program are valued for teaching positions, translation work or work in a larger sector, such as business, government and public administration.

Career examples include:

- adult, basic or secondary education teacher
- foreign language and literature teacher or professor
- instructional coordinator
- instructional designer or technologist
- interpreter or translator
- literacy teacher
- middle school or high school teacher
- reporter or correspondent

Linguistics, Certificate (LALINGUICE)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

This interdisciplinary graduate certificate program in linguistics is designed to equip you with an understanding of= language structure, acquisition and variation. You dive into the fascinating ways that languages change over time and= across different contexts, including spoken, written and signed modalities. You develop critical, in-demand skills such= as analytical reasoning, problem-solving and effective communication. Through coursework in areas including= discourse analysis, pragmatics, phonology and syntax, you become adept at evaluating language in diverse settings ---

skills that are highly sought after in today's globalized world. This certificate provides a robust foundation for you to improve your professional communication or deepen your expertise in language.

STEM-OPT extension eligible: No

Degree requirements

18 credit hours

Required Core Areas (9 credit hours)
discourse analysis and pragmatics (3)
phonology (3)
syntax (3)

Electives (9 credit hours)

Additional Curriculum Information
The electives may be chosen from fields such as applied linguistics, educational linguistics, natural language processing, second language acquisition and sociolinguistics. The electives are determined by the student in consultation with a faculty advisor.

Students must have completed an introductory course in linguistics taken at the upper-division or graduate level. They should consult the certificate program director for advice.

All certificate coursework must be completed with an average grade of "B" or higher (3.00 on a 4.00 scale).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume or curriculum vitae
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Students should visit the Department of English website for specific details about English proficiency requirements.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to

this certificate program.

The one- to two-page, well-considered statement of purpose should detail the applicant's background and reasons for pursuing the linguistics certificate.

To be considered for admission, an applicant must have taken an introductory course in linguistics at the upper-division or graduate level. Applicants must also show proof of a formal knowledge of a foreign language equivalent to two years of study at the university level, or plans to fulfill the language requirement concurrently with certificate courses. The language requirement may be met by completion of courses through the second-year level (four semesters) at ASU or elsewhere, or by completion of an upper-division language course with an average of "B" or better (scale is 4.00 = "A") for all such coursework (200- or 300-level), or through an examination that indicates placement above the 200 level. Language placement tests (https://silc.asu.edu/student-life/academic-advising/language-testing) are available on the School of International Letters and Cultures website. If this requirement is not already fulfilled at the time of application, candidates must demonstrate completion of this requirement at the end of their certificate coursework for their certificate to be granted.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Graduates of the graduate certificate program in linguistics will be able to solve language-related problems.
Graduates of the graduate certificate program in linguistics will be able to explain major subfields of linguistics.
Graduates of this program will be able to apply logical argumentation to critique key concepts in linguistics, thereby demonstrating their knowledge of theories.

Career opportunities

A graduate certificate in linguistics is more than just a qualification --- it's a powerful tool for career advancement. The linguistics certificate offers an important dimension to various careers including:

computer programmer
data analyst
foreign service worker
language consultant or language documentation expert
language program director or coordinator
language teacher
lexicographer
materials designer and developer
program and curriculum developer
teacher trainer
writer or editor

This certificate also provides an ideal stepping stone for those considering further studies in linguistics or related fields like education, technology or international relations.

Linguistics and Applied Linguistics, MA (LALINMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Arts program in linguistics and applied linguistics examines language from both the theoretical and applied perspectives. You build a foundation in core fields such as phonology, semantics, syntax, discourse analysis, and pragmatics, while exploring applied areas including second-language acquisition, language revitalization, sociolinguistics, global Englishes, and computer-assisted language learning. Flexible coursework and the option to complete either a thesis or an applied project prepare you for diverse career paths or further academic pursuits.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

English (Linguistics), BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including a foreign language exam and a thesis, or
30 credit hours including a foreign language exam and the required applied project course (LIN 593 or APL 593)

Required Core (3 credit hours)
LIN 515 American English (3) or
LIN 516 Pragmatics and Discourse Analysis (3)

General Linguistics Track (6 credit hours)
LIN 511 Phonetics and Phonology (3)
LIN 514 Syntax (3)

Applied Linguistics Track (6 credit hours)
LIN 511 Phonetics and Phonology (3) or LIN 514 Syntax (3)
LIN 520 Second-Language Acquisition Theories (3) or APL 601 Introduction to Applied Linguistics (3)

Electives (12 or 15 credit hours)

Research (3 credit hours)
LIN 501 Approaches to Research (3)

Culminating Experience (3 or 6 credit hours)
LIN 593 or APL 593 Applied Project (3)
LIN 599 or APL 599 Thesis (6)

Additional Curriculum Information
Students choose one of the two tracks in either general linguistics or applied linguistics.

Electives are restricted based on the student's chosen track. For the general linguistics track, one of the electives must be a 600-level course from the approved course list.

Students who select the thesis option take 12 credit hours of electives. Applied project students select 15 credit hours of electives.

Students must demonstrate evidence of a competent knowledge of a natural language other than modern English, to be selected by the student, subject to the approval of the chair of the thesis committee or the director of the applied project. This requirement may be met by:

• earning a "B" or better (3.00 on a 4.00 scale) in a 400- or 500-level course in an appropriate (approved) language course
• demonstrating comparable proficiency by taking a language examination, administered by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
• demonstrating native-speaker proficiency, as determined by the School of International Letters and Cultures, in a language approved by the student's supervisory committee
• earning a "B" or better (3.00 on a 4.00 scale) in both ENG 530 Old English and ENG 531 Old English Literature or their equivalents
• holding a bachelor's degree in an approved foreign language
• completing two years (four semesters) of college-level coursework (completed no more than six years prior to admission to the degree program) at least at the 100 and 200 levels with a "C" or better (2.00 on a 4.00 scale) for languages which the School of International Letters and Cultures does not offer or does not offer above the 200 level

Any course in which all class meetings are conducted in the approved language satisfies the requirement for a "B" or better in a 400- or 500-level course in an appropriate language; courses conducted in English do not satisfy the requirement. Also satisfying the requirement are GER 550 German for Reading Knowledge, FRE 550 French for Reading Knowledge, SPA 550 Spanish for Reading Knowledge, and ITA 550 Italian for Reading Knowledge. The Department of English does not require its graduate students to write papers in the approved language.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in such related fields as anthropology, applied linguistics, communication, cognitive science, comparative languages and literatures, literature, education, history, law, linguistics, modern languages, philosophy, political science, psychology, religious studies, rhetoric, composition, sociology, or speech and hearing science from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume or curriculum vitae
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English (regardless of current residency) and has not graduated from an

institution of higher learning in the United States must provide proof of English proficiency. Applications are not processed without valid proof of English proficiency. Applicants should note that official scores must be sent to ASU in order for the application to be processed.

Successful completion of at least one upper-division course in linguistics, language study or a related topic is required.

Applicants must submit a one- to two-page, well-considered statement of purpose in which they explain how their experience and training in language study have prepared them for the master's degree, their aims and purposes in pursuing the degree and plans for the future.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Design and carry out an original research study in their discipline and subdisciplines.
Demonstrate the ability to produce written scholarly work at a level expected by the profession and consistent with the degree program.
Demonstrate the ability to explain, synthesize and critique existing scholarship in their research area.

Career opportunities

Graduates from this program emerge with a versatile skill set that opens doors in diverse fields around the world. They work in academia, health care, government or the private sector. Many graduates also pursue a Doctor of Philosophy degree in linguistics or go on to study law, communications, anthropology and more.

Potential careers include:

curriculum developer or language program director
data analyst or computer programmer
language consultant or documentation expert
teacher, materials designer or teacher trainer
translator, interpreter or lexicographer
writer, editor or marketing specialist

Linguistics and Applied Linguistics, PHD (LALINPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in linguistics and applied linguistics provides you with a deep dive into the scientific study of language and its transformative role in human society. You may study formal or applied linguistics, or a combination of both, to develop expertise in the subfields that match your research interests.

The curriculum is designed for flexibility, offering focused training in key areas such as syntax, semantics, phonetics, phonology, pragmatics, discourse analysis and sociolinguistics. You can also explore specialized topics, including Indigenous American linguistics, language documentation, second-language acquisition, TESOL, global Englishes and computer-assisted language learning. With a focus on theory and application, the program prepares you for impactful careers across a variety of sectors.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a foreign language exam, a written comprehensive exam, a prospectus and a dissertation

Required Core (12 credit hours)
APL 601 Introduction to Applied Linguistics (3)
LIN 501 Approaches to Research (3)
LIN 511 Phonetics and Phonology (3)
LIN 514 Syntax (3)

Other Requirement (3 credit hours)
LIN 515 American English (3) or
LIN 516 Pragmatics and Discourse Analysis (3)

Professional Development (6 credit hours)
APL 555 Disciplinary Discourses (3)
LIN 655 Advanced Disciplinary Discourses in Linguistics and Applied Linguistics (3)

Specialization (9 credit hours)

Electives and Research (42 credit hours)

Culminating Experience (12 credit hours)
APL 799 or LIN 799 Dissertation (12)

Additional Curriculum Information
With the approval of the student's supervisory committee and the Graduate College, 30 credit hours from a previously awarded master's degree can be used for this degree. For students who do not have a previously awarded master's degree, additional electives and research coursework comprise 30 credit hours, which must include LIN 510 if the student has not taken it or its equivalent.

The specialization section includes three courses, which students can choose from an approved list of 500-, 600- and 700-level APL and LIN courses. At least one must be 600 level. These courses may be substituted with advisor approval.

Students must demonstrate evidence of competent knowledge of a natural language other than modern English, to be selected by the student and subject to the approval of the chair of the dissertation committee. The language requirement must be completed before the student is eligible to take the doctoral examinations.

The foreign language requirement must be fulfilled by a language approved by the student's doctoral supervisory committee.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume or curriculum vitae
• three letters of recommendation
• academic writing sample relevant to the field
• statement of teaching philosophy (teaching assistantship only)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English (regardless of current residency) and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency (https://english.asu.edu/admission/graduate-admission/information-international-students). Applications are not processed without valid proof of English proficiency. Applicants should note that official scores must be sent to ASU for the application to be processed.

The well-considered one- to two-page statement of purpose should explain the applicant's scholarly background and training, career goals, proposed research specialization, and any secondary field of interest, and describe why the applicant wishes to pursue a PhD in linguistics and applied linguistics at Arizona State University. Applicants who are applying for funding must also submit a statement of teaching philosophy.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Critical analysis expertise: Students will demonstrate the ability to explain, synthesize and critique existing scholarship in their research area.
Independent research expertise: Students will be able to design and carry out an original research study in their discipline and subdisciplines.
Scholarly writing expertise: Students will demonstrate the ability to produce written scholarly work at a level expected by the profession and consistent with the degree program.

Career opportunities

Graduates emerge as experts in their fields, ready to make contributions in academia and beyond. They are prepared to teach and conduct research at a university, work on language policy, or apply their skills in the business or nonprofit world. Graduates have succeeded in roles across government, health care, legal systems, publishing and more.

Career examples include:

computer-assisted language learning expert
data analyst
forensic linguist

language policy or documentation expert
language program director or coordinator
language researcher
linguistic consultant
program and curriculum developer
publisher
teacher trainer
university professor

Marriage and Family Therapy, MAS (LAMFTMAS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

This self-contained accelerated Master of Advanced Study program in marriage and family therapy provides you with high-quality coursework and supervised internship experiences designed to train you to be a practitioner that practices marriage and family therapy.

STEM-OPT extension eligible: No

Degree requirements

39 credit hours and a master's research paper

The master's degree program in marriage and family therapy requires the successful completion of a minimum of 39 credit hours and a project, including required coursework and completion of 300 client-contact hours in a community internship placement approved by the master's degree in marriage and family therapy faculty. Internships are expected to last approximately 12 months. Students must maintain a GPA of 3.00 (scale is 4.00 = "A") in all coursework and satisfactorily meet the expectations of the agency supervising their internship.

Students are required to have a vehicle and a valid Arizona driver's license for internship placement.

An internship entrance examination is held at the end of the first 7.5-week semester to determine student readiness for internship placement.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution in a related field, such as counseling, psychology, or family and human development, among others.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• a personal statement
• resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Letters of recommendation must be from three people who know the applicant in a professional or academic capacity. Family members and friends do not meet this criterion.

Students should refer to the program's website for detailed information on admission requirements.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Develop a comprehensive understanding of system-based Marriage and Family Therapy theories and employ the clinical application of these theories to pursue licensure as an MFT.
Construct a solid foundation grounded in system-based theoretical models to meet Marriage and Family Therapy Professional ethics and standards.
Differentiate appropriate Marriage and Family Therapy interventions showcasing their clinical competence.

Career opportunities

Many career paths are available to graduates of this program. A few examples are:

genetic counselor
psychologist
rehabilitation counselor
school and career counselor
social and community service manager
social and human service assistant
social worker
substance abuse, behavioral disorder and mental health counselor

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.The curriculum and degree requirements have been specified and approved by the Arizona Board of Behavioral Health Examiners and are devised to meet the degree requirements for licensure in the state of Arizona for the practice of marriage and family therapy.

Mathematics Education, PHD (LAMTEPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

If you come from a background in mathematics or a closely related area, this transdisciplinary Doctor of Philosophy program in mathematics education is for you. You gain a solid foundation in graduate-level mathematics as well as research skills and perspectives that enable you to incorporate mathematics into such core educational areas as:

• curriculum
• learning
• teaching
• technology

Conducting individual and collaborative research in the learning and teaching of mathematics is an integral part of this PhD program.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (12 credit hours)
MTE 501 Research in Undergraduate Mathematics Education I (3)
MTE 502 Research in Undergraduate Mathematics Education II (3)
MTE 503 Research in Undergraduate Mathematics Education Ill (3)
MTE 504 Research in Undergraduate Mathematics Education IV (3)

Electives (42 credit hours)

Area Courses (12 credit hours)

Research (6 credit hours)
MTE 792 Research (6)

Culminating Experience (12 credit hours)
MTE 799 Dissertation (12)

Additional Curriculum Information
Four to five graduate-level (500 and above) elective courses from mathematics, cognitive science, psychology, educational technology, philosophy or research should be taken as approved by the advisor.

For the area courses, students are required to take four graduate-level courses from the following areas of interest: mathematics, applied mathematics or statistics. Students should see the academic unit for the approved course list.

Students should see the school's website for information about qualifier and comprehensive examinations based on math coursework.

The doctoral dissertation culminating experience consists of a dissertation prospectus, oral dissertation defense and the submission of a final revised, formatted dissertation document to the Graduate College. Dissertations are composed under chair- and committee-supervised research, including literature review, research, data collection and analysis, and writing.

When approved by the student's supervisory committee and the Graduate College, up to 30 credit hours from a previously awarded master's degree may be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is made up of electives and research.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in mathematics or a closely related area, with exceptionally high grades in advanced coursework in mathematics, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of education and career goals
• writing sample
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

At least two of the letters of recommendation must be from faculty.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Able to incorporate mathematical concepts into novel teaching methods.
Address an original research question in mathematics education.
Able to complete original research in applied mathematics.

Career opportunities

Graduates of this program have opportunities in Arizona, the U.S. and internationally. Opportunities are typically at research universities and liberal arts colleges, community colleges, and education consulting firms. Possible roles include:

faculty-track academic
education consultant or analyst
mathematics professor, instructor or researcher

Mathematics, MA (LAMATHMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Spring admission is limited to students in the Accelerated Master's program.

Program description

The Master of Arts program in mathematics increases your mathematical knowledge beyond the traditional level of a bachelor's degree to prepare you for careers that require sophisticated mathematical skills.

You may choose to specialize in applied mathematics, core mathematics, mathematics education or statistics through your course selections.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Computational Mathematical Sciences, BS

Mathematics, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and 2 written comprehensive exams, or
30 credit hours and a portfolio, or
30 credit hours, a thesis and a written comprehensive exam

Required Core (3 credit hours)
APM 505 Applied Linear Algebra (3) or APM 506 Computational Methods (3) or MAT 543 Abstract Algebra I (3) or MAT 570 Real Analysis I (3)

Electives (21 or 27 credit hours)

Culminating Experience (0 or 6 credit hours)
MAT 599 Thesis (6)
portfolio (0)
two written comprehensive exams

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in mathematics, or a closely related field from a regionally accredited institution and have completed coursework in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of education and career goals
• resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Graduates of the MA program in mathematics possess sophisticated mathematical skills required for careers in many different sectors, including education, industry and government.

Potential career opportunities include:

- finance and investment analyst
- mathematician
- mathematics professor or instructor
- operations research analyst
- statistician

Students may also pursue further graduate study in mathematics or statistics in preparation for an academic career.

Mathematics, PHD (LAMATHPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

If you have exceptional mathematical ability, the Doctor of Philosophy program in mathematics is for you. The program emphasizes a solid mathematical foundation and promotes innovative scholarship in mathematics and its many related disciplines.

The School of Mathematical and Statistical Sciences has very active research groups in analysis, number theory, geometry and discrete mathematics.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Required Core (12 credit hours)
Select two of the following four sequences (each sequence consists of two consecutively numbered courses)
MAT 501 Geometry and Topology of Manifolds I (3)
MAT 502 Geometry and Topology of Manifolds II (3)
MAT 512 Introduction to Combinatorics (3)
MAT 513 Graph Theory (3)
MAT 543 Abstract Algebra I (3)
MAT 544 Abstract Algebra II (3)
MAT 570 Real Analysis I (3)

MAT 571 Real Analysis II (3)

Other Requirements (3 credit hours)
MAT 591 Seminar (3)

Electives (33 credit hours)

Research (24 credit hours)
MAT 792 Research (24)

Culminating Experience (12 credit hours)
MAT 799 Dissertation (12)

Additional Curriculum Information
Electives are to be chosen from math or related area courses approved by the student's supervisory committee.

Students must pass:
• two qualifying examinations
• a written comprehensive examination
• an oral dissertation prospectus defense

Students should see the department website for examination information.

Each student must write a dissertation and defend it orally in front of five dissertation committee members.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of education and career goals
• resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Additional eligibility requirements include competitiveness in an applicant pool as evidenced by coursework in linear

algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371), and it is desirable that applicants have scientific programming skills.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Apply advanced mathematical skills in coursework and research.
- Address an original research question in mathematics.
- Able to complete original research in theoretical mathematics.

Career opportunities

Graduates of the PhD program in mathematics possess sophisticated mathematical skills required for careers in many different sectors, including education, industry and government. Potential career opportunities include:

- faculty-track academic
- finance and investment analyst
- mathematician
- mathematics professor, instructor or researcher
- operations research analyst
- statistician

Medieval Studies, Certificate (LAMEDSTCE)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The graduate certificate in medieval studies is a transdisciplinary program that provides intensive engagement with the= global period between circa 500 and 1500 CE. You investigate this period's cultural activities in art, languages, literature,= history, music and religion to develop an understanding of intercultural intersections. You also gain expertise in a= variety of theoretical approaches to medieval studies and contribute to the field's future directions.

The certificate can be taken in conjunction with a master's degree or as a standalone.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
One of the following courses:
ARS 514 Monasteries, Madonnas and Manuscripts (3)

ENG 530 Old English (3)
ENG 531 Old English Literature (3)
ENG 532 Middle English Dialects (3)
ENG 632 Advanced Studies in Medieval and Renaissance Literature and Culture (3)
FRE 521 History of the French Language (3)

Electives (12 credit hours)

Additional Curriculum Information
No more than three credit hours may be transferred from another university. No more than six credit hours may be completed before admission to the certificate program. At least 10 credit hours must be at the 500-level or above.

Courses must be drawn from at least two different academic units.

To be approved as an elective, a course must spend at least 50% of the class meetings on the subject of the Middle Ages. Students should contact the department for a list of approved electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• writing sample
• statement of purpose
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English (regardless of current residency) and has not graduated from an institution of higher learning in the U.S. must provide proof of English proficiency (https://english.asu.edu/admission/graduate-admission/information-international-students). Applications are not processed without valid proof of English proficiency. Official scores must be sent to ASU for the application to be processed.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The statement of purpose should be no more than two pages, double-spaced. The statement should summarize the applicant's past educational experiences and current goals in pursuing a graduate certificate in medieval studies. The writing sample gives the committee a sense of the applicant's writing style and analytical abilities. An academic paper

submitted for a graduate or undergraduate course is appropriate. A writing sample dealing with a topic in medieval studies is preferred but not required.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Global opportunities

Global experience: Studying abroad (https://goglobal.asu.edu/students/graduate-students) is possible for graduate students. There are more than 50 program opportunities, with programs on every continent.

Faculty-directed programs tend to be the best fit for graduate students; taking courses with ASU professors over the summer or during academic breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning.

Career opportunities

The graduate certificate in medieval studies prepares students for advanced academic study and jobs in academia and a variety of other fields in which a humanities degree and interdisciplinary work are valued. Career examples include:

digital humanities
instructor in the humanities and social sciences
library and archival work
museum work
public humanities
public service
publishing

Microbiology, MS (LAMICROMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the Master of Science program in microbiology, you are trained in microbial ecology and evolution, geomicrobiology, bacterial physiology and genetics, bacterial pathogenesis, metabolic engineering, immunology and vaccine development, and cancer biology. You receive advanced training in the study of microbes and their impact on humankind, disease and the environment. The tools you use are as varied as nanotechnologies, genomics, mathematical models and satellite-based imaging.

You receive training in teaching as well as in basic, translational and use-inspired research with world-class faculty and collaborative research partners. Faculty members are associated with the School of Life Sciences, The Biodesign Institute, The Translational Genomics Institute, Barrow Neurological Institute, and other area hospitals and research centers.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work

authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Neuroscience, BS

Molecular Biosciences and Biotechnology, BS

Biological Sciences (Neurobiology, Physiology and Behavior), BS

Microbiology (Medical Microbiology), BS

Biological Sciences (Genetics, Cell and Developmental Biology), BS

Biological Sciences (Biology and Society), BS

Microbiology, BS

Biological Sciences (Conservation Biology and Ecology), BS

Biological Sciences, BS

Biological Sciences (Biomedical Sciences), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis

Required Core (3 credit hours)
MIC 501 Foundations in Microbiology (3)

Electives and Research (21 credit hours)

Culminating Experience (6 credit hours)
MIC 599 Thesis (6)

Additional Curriculum Information
Students should see the academic unit for a complete list of approved electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• academic record form
• personal statement
• curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Prior research experience is a desired qualification for admission.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Able to review the scholarly literature associated with research questions in microbiology.
Able to carry out a research plan in an area of Microbiology under advisement of their mentors.
Able to communicate science effectively, both orally and in writing.

Career opportunities

Professionals with tailored research training in specific directions --- including microbial physiology, environmental microbiology, evolution and ecology, immunology, virology and various aspects of modern molecular genetics --- are in demand in diverse sectors. Graduates are prepared for careers in bacteriology, virology, mycology, immunology and oncology in academic institutions, government agencies or commercial entities.

Career examples include:

environmental scientist or specialist (including health)
lab manager in an academic or industrial lab
medical or clinical laboratory technologist
microbiologist in diverse sectors, including food service and the health care industry
natural sciences manager
research technician in an academic or industrial lab

Microbiology, PHD (LAMICROPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in microbiology offers you a dynamic research environment; a wide variety of basic, translational and use-inspired research areas; advanced transdisciplinary training; and opportunities to work with world-class faculty and collaborative research partners committed to training you to be a scientific leader with the skills necessary to address significant global microbiological problems and challenges.

This program focuses on the smallest of living things and immunology. You can tailor the program around your interests and gain skills in contemporary approaches used in microbiology, biomedicine and biotechnology. You train in a broad array of fields, including microbial ecology and evolution, geomicrobiology, bacterial physiology and genetics, bacterial pathogenesis, metabolic engineering, immunology and vaccine development, and cancer biology.

Faculty members are associated with the School of Life Sciences, The Biodesign Institute, The Translational Genomics Institute, Barrow Neurological Institute, and other area hospitals and research centers.

This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (4 credit hours)
BIO 610 Introduction to Responsible Conduct of Research in Life Sciences (1)
MIC 501 Foundations in Microbiology (3)

Electives or Research (68 credit hours)

Culminating Experience (12 credit hours)
MIC 799 Dissertation (12)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Research experience is a desired qualification for admission.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Able to review the scholarly literature associated with research questions in microbiology.
Able to design and execute a research plan in an area of microbiology under advisement of their mentors.
Able to communicate science effectively, both orally and in writing.

Career opportunities

Graduates of this program's intense and interactive educational and research training are prepared for advanced careers in research and education, specifically in bacteriology, virology, mycology, immunology and oncology.

Career possibilities are diverse, with opportunities in academic organizations, research and development industries, government service and other professional organizations. Examples include:

instructor at a university or college
principal investigator in a government lab or nonprofit organization
professor at a university or college
research associate at a university
research scientist in industry

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Neuroscience, BS

Molecular Biosciences and Biotechnology, BS

Biological Sciences (Neurobiology, Physiology and Behavior), BS

Biological Sciences (Genetics, Cell and Developmental Biology), BS

Biological Sciences (Biology and Society), BS

Microbiology, BS

Biological Sciences (Conservation Biology and Ecology), BS

Biological Sciences, BS

Biological Sciences (Biomedical Sciences), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis

Required Core (6 credit hours)
MCB 555 Advanced Molecular and Cellular Sciences (3)
MCB 556 Advanced Molecular and Cellular Biology II (3)

Electives or Research (10 credit hours)

Other Requirements (8 credit hours)
BIO 543 Molecular Genetics and Genomics (3)

BIO 610 Introduction to Responsible Conduct of Research in Life Sciences (1)
MCB 501 Seminar: Molecular and Cellular Biology Colloquium (4)

Culminating Experience (6 credit hours)
MCB 599 Thesis (6)

Additional Curriculum Information
Students are required to take MCB 501 each semester they are registered. If a student is registered for more or fewer than four semesters, the research hours and MCB 501 hours may be adjusted accordingly to reach 30 credit hours.

Students should see the academic unit for a complete list of approved electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:
• graduate admission application and application fee
• official transcripts
• academic record form
• personal statement
• curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Research experience is a desired qualification.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Analyze scholarly literature associated with a research question.
Execute a research plan that addresses a significant scientific question about molecular and cellular biology.
Communicate the rationale and results of their research, both orally and in writing.

Career opportunities

Graduates are prepared for academic careers at every level, from community colleges to research universities. Their skills and knowledge are also valuable for careers in federal and state agencies, in industry and in nongovernmental organizations.

Career examples include:

community college instructor
elementary or high school science teacher
researcher or technician in a government lab or nonprofit organization
scientist or bioinformatician in an academic, private or industrial lab

Molecular and Cellular Biology, PHD (LACELLPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in molecular and cellular biology emphasizes interdisciplinary approaches in fundamental and highly applied molecular and cellular biology to answer basic and translational research questions. You can tailor the program to your interests while gaining skills in the most innovative approaches and techniques.

The program extends beyond the traditional boundaries of biological research. Faculty have a wide variety of research interests and training opportunities for you. Participating faculty members and researchers are drawn from multiple departments, colleges, centers and institutes across the university, including:

• New College of Interdisciplinary Arts and Sciences
• School for Engineering of Matter, Transport and Energy
• School of Biological and Health Systems Engineering
• School of Human Evolution and Social Change
• School of Life Sciences
• School of Mathematical and Statistical Sciences
• School of Molecular Sciences

Participating faculty members are also based at partner institutions in the greater Phoenix area, including:

• Caris Life Sciences
• Mayo Clinic Arizona
• Phoenix Children's Hospital
• Translational Genomics Research Institute
• University of Arizona College of Medicine - Phoenix

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-

students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (6 credit hours)
MCB 555 Advanced Molecular and Cellular Sciences (3)
MCB 556 Advanced Molecular and Cellular Biology II (3)

Electives or Research (54 credit hours)

Other Requirements (12 credit hours)
BIO 543 Molecular Genetics and Genomics (3)
BIO 610 Introduction to Responsible Conduct of Research (RCR) in Life Sciences (1)
MCB 501 Seminar: Molecular and Cellular Biology Colloquium (8)

Culminating Experience (12 credit hours)
MCB 799 Dissertation (12)

Additional Curriculum Information
Students take MCB 501 eight times for one credit hour each. Courses listed under Other Requirements may be substituted with approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:
• graduate admission application and application fee
• official transcripts
• academic record form
• personal statement
• curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Research experience is a desired qualification.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Able to review the literature relevant to the research question in molecular and cellular biology that they address in their dissertation.
- Able to execute a research plan of their own design that addresses a significant scientific question about molecular and cellular biology.
- Able to communicate the rationale and results of their research, both orally and in writing.

Career opportunities

Graduates hold positions as researchers and leaders in nongovernmental organizations, biotech and pharma, and in federal and state agencies.

Career examples include:

- faculty member at a university or college
- leader of a nonprofit organization
- principal investigator or leader in a private, government or industrial lab

Museum Studies, Certificate (LAMUSEUMCE)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the museum studies certificate program, you examine how museums produce and reflect culture and you examine= how museums care for the collections they steward.

You develop theoretical questions and applied skills that engage the functions, practices and critical analyses of= museums. You gain practical experience while being encouraged to challenge preconceived notions about museums= and the way they affect and are affected by societies and cultures.

Designed to be interdisciplinary, inclusive and representative, the program ensures that you understand the meaning= and significance of museums in contemporary society and prepares you for diverse museum careers.

STEM-OPT extension eligible: No

Degree requirements

18 credit hours

Required Core (3 credit hours)
ASB 579 Critical Issues in Museum Studies (3)

Electives (9 credit hours)

Other Requirements (6 credit hours)
ASB 580 Practicum (3) and ASB 584 Internship (3) OR
ASB 584 Internship (6)

Additional Curriculum Information
Certificate students may choose to specialize in areas such as anthropology, art history and public history.

For a complete list of approved elective and research courses, students should contact the school.

Internship (ASB 584) and Practicum (ASB 580) must be approved by their supervisory committees, usually in a museum setting or museum-quality collection or archive related to their chosen area of study: anthropology, art history, theory and criticism, or public history.

For students currently enrolled in an ASU graduate degree program, applicable certificate courses may count toward their degree program, with the approval and consent of the degree granting program. For certificate students who are later admitted to an ASU graduate degree program, up to 12 credit hours from the certificate program may count toward their doctoral degree or up to 12 credit hours may count toward their master's degree, with the approval and consent of the degree-granting program.

All requirements for the certificate program should be completed within a three-year time limit with a minimum cumulative GPA of 3.00 (scale is 4.00 = "A"). Students who require more time to finish the program, because of their part-time status or lack of desirable or available courses, must obtain approval from the executive committee.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution. Suitable backgrounds for admission include disciplines related to museum studies, anthropology, history or art (fine art or art history).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement outlining educational and professional goals
• current curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

For information on spring admission, students should contact the School of Human Evolution and Social Change.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate a museum-related issue drawing upon key concepts in the field of anthropology, art history, or public history.
Employ theories of collection or exhibit management to improve public knowledge and maintain cultural resources for future research or display.

Career opportunities

The demand in the job market is high for people with a skill set to manage cultural collections and community-engaged stewardship is strong. There is a growing need for researchers and practitioners with knowledge and skills who can manage, evaluate and identify cultural materials for long-term care, repatriation and interpretation.

Graduates can become leaders in their field, spending their time consulting for private and public organizations, directing nonprofit organizations, directing programs in the private or public sector.

Some career opportunities include:

museum collections manager
museum site director
NAGPRA repatriation specialist

Museum Studies, MA (LAMUSSTMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Arts program in museum studies informs and trains you in the ethical and legal considerations around collections care, cultural resource compliance, and collaboration with descendant communities as stakeholders in museum collections.

You develop theoretical questions and applied skills that engage the functions, practices and critical analyses of museums. You also gain practical experience while being encouraged to challenge preconceived notions about museums and the way museums affect and are affected by societies and cultures.

Designed to be interdisciplinary, inclusive and representative, the program ensures that you understand the meaning and significance of museums in contemporary society and prepares you for diverse museum careers.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required applied project course (ASB 593)

Required Core (3 credit hours)
ASB 573 Museum Administration (3)

Other Requirements (9 or 10 credit hours)
ASB 584 Internship (6)
ASB 579 Critical Issues Museum Studies (3) or ASB 591 Topic: Cultural Resource Compliance and Consultation (3) or ASM 555 Advanced Human Osteology (4)

Electives (14 or 15 credit hours)

Culminating Experience (3 credit hours)
ASB 593 Applied Project (3)

Additional Curriculum Information
For a complete list of approved elective and research courses, students should contact the school.

Internship (ASB 584) and Practicum (ASB 580) must be approved by the faculty advisor.

Credits for other requirements (nine or 10 credits) and electives (14 or 15 credits) vary and depend on whether ASB 555 (four credits) is completed as an option under other requirements.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution. Suitable backgrounds for admission include disciplines related to museum studies, anthropology, history or art (fine art or art history).

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

• graduate admission application and application fee
• official transcripts
• personal statement outlining educational and professional goals
• current curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Operate using the standards of professional practices and ethics during their applied internship in a museum or federal agency setting.
Address the constraints in decision-making, particularly as they pertain to the ethical and legal challenges that museums face.
Articulate strategies to address ethical and legal challenges confronting museum and cultural settings.

Career opportunities

The demand in the job market for people with the skill set to manage cultural collections and community engaged stewardship is strong. There is a growing need for researchers and practitioners with knowledge and skills who can manage, evaluate and identify cultural materials for long-term care, repatriation and interpretation.

Graduates may also become leaders in their field, spending their time consulting for private and public organizations, directing nonprofit organizations, or directing programs in the private or public sector.

Some career opportunities include:

museum collections manager
museum site director
NAGPRA repatriation specialist

Nanoscience, PSM (LANANPSM)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

This program is not currently accepting applications.

Program description

The Professional Science Master's in nanoscience is a cohesive program of transdisciplinary courses that provide you with the knowledge base required for research and innovation in nanoscience. The program incorporates courses in:

• chemistry and biochemistry
• electrical engineering
• materials science
• physics

Commercial innovation is a particular target goal of the degree, including applications in:

• biochemistry and sensing technology
• biophysics and biomedical technology
• nanomaterials and nanoscale devices

The PSM degree program in nanoscience is suitable for you, whether you are a working professional or you're a student with a traditional bachelor's degree or master's degree in related fields.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

32 credit hours including the required applied project course (NAN 593)

Required Core (5 credit hours)
NAN 505 Nanoscience and Society (2) or NAN 506 Innovation and IP Management (2)
NAN 571 Quantum Physics (3) or NAN 544 Introduction to Nanoscience (3)

Electives or Research (15 credit hours)

Other Requirements (6 credit hours)
NAN 591 Seminar (6)

Culminating Experience (6 credit hours)
NAN 593 Applied Project (6)

Additional Curriculum Information
Students must take either NAN 505 or NAN 506. Students may also take the other course as an elective.

Students with a physical science or engineering background should take NAN 571 Quantum Physics, and students with a biochemistry or life sciences background should take NAN 544 Introduction to Nanoscience.

The program includes a two-semester, student-centered professional seminar in which the central role of the program as a vehicle for innovation emerges. During the spring semester and summer session, students conduct an individual applied project in association with a research group. Throughout the program, students interact with research faculty and other students in a variety of disciplines related to nanoscience. Students also meet with visiting speakers and industrialists in the professional seminar and in other seminars.

If taken full time, the PSM in nanoscience program can be completed in 12 months (fall semester, spring semester and two eight-week summer sessions). Another option is the two-year part-time program, which allows prospective students and their employers flexibility in scheduling the program of study.

Students should see the academic unit for a complete list of approved electives. Many of the requisite elective courses are currently offered within the Department of Physics and the Department of Chemistry and Biochemistry. Most are cross-listed with other units.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in physics, chemistry or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• resume
• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. TOEFL scores or equivalent are required for applicants whose native language is not English.

The personal statement should outline the applicant's research interests and why the applicant wants to enroll in the PSM degree program.

Letters of recommendation should be from individuals familiar with the applicant's work or studies relevant to the program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Nanoscale science and engineering are having an increasing impact on many aspects of daily life, and the opportunities for careers are rapidly expanding. In areas as diverse as designing medical diagnostic devices, building better batteries, creating cosmetics, enhancing energy efficient windows, auto and plane manufacturing, and researching the nature of matter itself, knowledge of nanoscale science and engineering will be increasingly important in the upcoming years and decades.

The highly technical field of nanotechnology and nanoscience is always looking for scientists, engineers and technicians. Career examples include:

applications engineer
biotechnologist
forensic scientist
instrument development engineer
manufacturing engineer
market development manager
materials scientist
mechanical or electrical engineer
medical engineer
microscopist
optical engineer
research scientist
technical program manager

Natural Science (Earth and Space Sciences), MNS (LANATSCIMN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Natural Science program with a concentration in Earth and space sciences is designed to meet your needs as a professional seeking a graduate-level degree. It's especially suitable if you desire professional training rather than research training.

The program must be transdisciplinary; you are expected to emphasize coursework in two or more areas of specialization. The program offers you the opportunity for graduate training in the natural sciences (i.e., biological sciences, mathematics and physical sciences) and cognate areas. The program's flexible design allows you to create individualized professional graduate programs tailored to your background and goals.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

30 credit hours including the required applied project course (SES 593)

Required Core (1 credit hour)
SES 502 Exploring SESE Research (1)

Other Requirements (19 credit hours)
SES 501 SESE Colloquium (1)
GLG or SES courses (18)

Electives or Research (4 credit hours)

Culminating Experience (6 credit hours)
SES 593 Applied Project (6)

Additional Curriculum Information
Other Requirements coursework consists of SES 501 and 18 credit hours of GLG or SES graduate-level courses. Exceptions and substitutions may be allowed with approval of the academic unit.

The supervisory committee is chosen by the student in conjunction with the advisor. The composition of the supervisory committee must reflect the transdisciplinary nature of the program. The student develops a suitable applied project with the approval of the supervisory committee.

Students must submit a plan of study after conferring with the supervisory committee. While a minimum of 30 credit hours is required for the degree, more credit hours may be required by the supervisory committee, depending on the student's background and the nature of the proposed program.

In some cases, undergraduate courses may be required to prepare the student for graduate courses.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Apply advanced scientific concepts to investigate processes shaping the interior and surface of the Earth and other planetary bodies.
Apply advanced analytical, modeling, and/or field-based methods to investigate Earth and space science problems.
Conduct independent research that demonstrates the ability to critically evaluate geological and/or planetary data.

Career opportunities

Professionals with expertise in Earth and space sciences are in high demand across sectors and industries, including remote sensing, natural resource management, data science, environmental consulting, hazard and risk assessment, geophysics and planetary science. Skills in the measurement and analysis of data related to the physics, chemistry and structures of earthly and planetary systems are valuable to businesses and institutions that rely on data-driven strategies to interact with the planet and explore beyond Earth.

Career examples include:

geologist
high school teacher
science communication expert
science writer and science journalist

Neuroscience, MS (LABMENMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the Master of Science program in neuroscience, you acquire advanced knowledge on fundamental neuroscientific concepts, the neurobiological substrates of behavior, and next-generation experimental techniques for studying brain function. An important underlying theme of the program is understanding the genetic, molecular, cellular and circuit-level changes associated with neurodegenerative diseases, altered brain development and neuropsychiatric disorders.

You have access to mentored research opportunities with internationally recognized experts, and you also are able to explore recent primary literature and hone communication, presentation and professional skills.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

30 credit hours and a thesis

Required Core (5 or 6 credit hours)
BIO 610 Introduction to Responsible Conduct of Research in Life Sciences (1)
NEU 556 Human Systems Neuroscience (4) or NEU 576 Advanced Cellular and Molecular Neuroscience (3)
NEU 558 Neuroscience Journal Club (1)

Other Requirement (1 credit hour)
NEU 591 Seminar (1)

Research (9 credit hours)
NEU 592 Research (9)

Electives (8 or 9 credit hours)

Culminating Experience (6 credit hours)
NEU 599 Thesis

Additional Curriculum Information
Students choose either NEU 556 or NEU 576 as part of their core course requirements. Students who choose NEU 576 complete an additional credit hour of elective coursework to achieve the 30 credit hours required for the program. Students should contact the program advisor for a list of approved electives.

Students take NEU 599 in their last semester.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in the life sciences, psychology, engineering or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• professional resume
• three letters of recommendation
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must provide three letters of recommendation from people who can speak to their academic experiences, qualifications and potential. Recommenders receive an email with instructions and can submit their recommendation entirely online. Submission of a traditional hard-copy letter is not necessary.

In one- to two- single-spaced pages using Arial font, applicants should discuss their research interests and experience. Applicants should indicate what their goals are in obtaining a graduate degree; describe why the School of Life Sciences at Arizona State University is suited to the pursuit of their degree; and list their publications, honors, awards or society memberships.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Solve fundamental questions regarding nervous system function and associated pathologies using core neuroscientific concepts.
Effectively communicate neuroscientific concepts both orally and in writing.
Conduct independent research.

Career opportunities

The MS program in neuroscience prepares graduates for entry into advanced research or clinical training programs; technical positions in academia, industry and health care-related fields; or employment in sectors focused on education, consulting, law, pharmaceuticals and artificial intelligence.

Career examples include:

clinical research assistant
data analyst in neuroscience or artificial intelligence
laboratory technician
medical writer
pharmaceutical sales representative
public health professional in a position related to neurological disorders
technologist in medical imaging or genetic counseling

Admission deadlines (https://sols.asu.edu/admission/graduate/deadlines)

Neuroscience, PHD (GCBMENPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

Neuroscience is the scientific study of the nervous system. Studies in neuroscience can be multifaceted and combine physiology, anatomy, molecular biology, genetics and mathematical modeling, with the aim of understanding the fundamental and emergent properties of the many different cells in the brain and how they interact and coregulate

each other.

You integrate several levels of analysis --- molecular, cellular, systems, behavioral and cognitive --- to investigate basic, translational and clinical questions about the relationship between the brain and behavior.

The Doctor of Philosophy program in neuroscience includes aspects of graduate-level training from many different units on campus and from the program's partner institutions distributed across the greater Phoenix area. Partner institutions include Barrow Neurological Institute, Translational Genomics Research Institute, University of Arizona College of Medicine-Phoenix and the Banner Sun Health Research Institute.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (8 credit hours)
BIO 610 Introduction to Responsible Conduct of Research (RCR) in Life Sciences (1)
NEU 556 Human Systems Neuroscience (4)
NEU 576 Cellular and Molecular Neuroscience (3)

Electives or Research (58 credit hours)

Other Requirements (6 credit hours)
NEU 558 Neuroscience Journal Club (1)
NEU 591 Seminar (3)

Culminating Experience (12 credit hours)
NEU 799 Dissertation (12)

Additional Curriculum Information
Students take NEU 558 three times for one credit hour.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Regular admission may be granted to applicants who have achieved the minimum cumulative GPA or higher in the last two years of work leading to a bachelor's degree and who are competitive in the applicant pool, as evidenced by letters of recommendation. Particular attention is paid to research experience and overall preparation in problem-solving, as evidenced by previous coursework and research experiences.

There are no specific undergraduate course requirements other than those implied by the degree requirements described above. Most students are expected to have completed coursework in biology, chemistry and math.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• academic record form
• personal statement
• curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Research experience is a desired qualification.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Apply core neuroscientific concepts to address fundamental questions regarding nervous system function and associated pathologies.
Execute an independent research plan of their own design that tests hypotheses related to neuroscience.
Effectively communicate neuroscientific concepts, both orally and in writing.

Career opportunities

Graduates with a PhD in neuroscience have strong preparation for academic careers at every level, from community colleges to research universities. Graduates also apply the skills and knowledge obtained in this program to government careers in federal and state agencies, in industry (biotech, medical or pharmaceutical), and in nongovernmental organizations.

Career examples include:

biomedical or health care scientist in academic, biotech or industry labs
K-12 science teacher (elementary or high school)
principal investigator leading a research group in a government or nonprofit setting
university or college faculty member (professor, lecturer, instructor, etc.)

Contact information

Philosophy, MA (LAPHILMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the Master of Arts program in philosophy at The School of Historical, Philosophical and Religious Studies, you are able to study both traditional and contemporary philosophy, including ethics, political philosophy, metaphysics, epistemology, philosophy of law, philosophy of science, feminist philosophy, philosophy of language, experimental philosophy and the history of philosophy.

You have access to an active colloquium series and regular philosophical conferences on diverse topics. Members of the faculty are involved in interdisciplinary work in a variety of fields and enjoy close ties with the Lincoln Center for Applied Ethics, the Sandra Day O'Connor College of Law and a number of other graduate programs at ASU. The Lincoln Center for Applied Ethics also sponsors a wide range of activities, including large-scale conferences, distinguished visitors and support for graduate study.

The program seeks to maintain a balance between course offerings in the traditional areas of philosophy and opportunities for you to study current philosophical developments.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours and a portfolio, or
30 credit hours and a thesis

Required Core Areas (9 credit hours)
epistemology (3)
metaphysics (3)
value theory (3)

Electives and Research (15 or 21 credit hours)

Culminating Experience (0 or 6 credit hours)
PHI 599 Thesis (6) or
portfolio (0)

Additional Curriculum Information
There are two culminating experience options for the master's degree program in philosophy: the thesis option and the nonthesis portfolio option.

Thesis students take 15 credit hours of electives. Portfolio students take 21 credit hours of electives, which must include PHI 592 Research for three credit hours.

Students should see the academic unit for the list of courses approved for each core area in epistemology, metaphysics and value theory.

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• curriculum vitae
• writing sample
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency, a copy of an article or research paper in their native or principal research language, as well as the English writing sample required of all students regardless of their current residency. The philosophy program requires a TOEFL iBT® score of at least 5 or a score of 100 (taken at a testing center) if taken before January 21, 2026, or a score of 7.0 on the IELTS.

The statement of purpose should explain the applicant's specific intent and be no more than 600 words in length.

The writing sample must be a piece of philosophical writing, preferably a seminar paper or published article of no more than 20 pages and not a thesis or dissertation.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Students will be able to identify and articulate a philosophical problem or question in one of the core areas in philosophy --- that is, metaphysics, epistemology and value theory.
Students will be able to construct a reasoned defense of a clear, creative, and original solution to a philosophical problem in one of the core areas of philosophy --- that is, metaphysics, epistemology and value theory.
Students will be able to evaluate a solution or answer to a philosophical problem or question (such as one of those explicated in the course readings).
Students will be able to explain a philosophical argument or point verbally.

Career opportunities

The MA program in philosophy helps students develop and hone skills that are highly marketable and easily transferable.

Philosophy teaches its students to think critically, creatively and imaginatively. Though routine jobs are increasingly being lost to advances in automation and artificial intelligence, these skills are irreplaceable by technology, highly

sought-after by employers and transferrable from one occupation to another. Graduates have the ability to read closely and with a critical eye; to analyze complex problems and identify all the possible solutions, including some creative solutions; to assess the merits of each possible solution; and to articulate and argue for or against various possible solutions in clear, precise and unambiguous language.

As philosophy focuses on honing certain skills rather than acquiring a particular body of knowledge, philosophy prepares its students for a wide variety of careers rather than for just one particular occupation. Indeed, philosophy prepares its students for any career requiring problem-solving; clear, critical and creative thinking; and excellent reading, writing and communication skills.

The master's degree program in philosophy is designed to prepare students to enter doctoral programs; teach philosophy at the community college level; or work in any area that requires critical and analytical thinking, such as medicine, law, government or publishing.

Career examples include:

businessperson
computer programmer
counselor
educator
journalist
lawyer
politician
public policy analyst
publisher
writer

Philosophy, PHD (LAPHILPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in philosophy features a focus on practical and applied philosophy and an interdisciplinary coursework component related to your research topic. General areas of research include ethics, political philosophy, metaphysics, epistemology, philosophy of law, philosophy of science, philosophy of language, philosophy of religion and the history of philosophy.

Practical philosophy includes the fields of ethics, philosophy of law, social and political philosophy, feminist ethics, and political philosophy.

Applied philosophy includes the application of theories developed within any of the subdisciplines of philosophy to everyday problems or phenomena, such as the application of the philosophy of language in relation to hate speech, or the philosophy of mind in relation to computing and artificial intelligence. Applied philosophy also includes the application of research produced by methods used in other disciplines in order for you to understand and address philosophical questions, like the application of data-gathering instruments used in psychology to answer questions in experimental philosophy.

You may design dissertation projects in any of the major subfields of philosophy. For your interdisciplinary coursework supporting the dissertation project, for example, you might pursue a certificate in social transformation, gender studies, responsible innovation in sciences, or engineering and society.

Members of the faculty are involved in interdisciplinary work in a variety of fields and enjoy close ties with the Lincoln Center for Applied Ethics, the Sandra Day O'Connor College of Law and a number of other graduate programs at the university. The ASU philosophy faculty group sponsors an active colloquium series and regular philosophical conferences on diverse topics. The Lincoln Center for Applied Ethics also sponsors a variety of activities, including large-scale conferences, distinguished visitors and support for graduate study.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core Areas (15 credit hours)
applied philosophy (3)
epistemology (3)
formal methods (3)
metaphysics (3)
value theory (3)

Electives (39 credit hours)

Research (18 credit hours)
PHI 792 Research (18)

Culminating Experience (12 credit hours)
PHI 799 Dissertation (12)

Additional Curriculum Information
Students should contact the academic unit for the list of courses approved for each required core area.

In completing the electives requirements, at least nine credit hours and no more than 18 credit hours must be from other disciplines supporting the student's proposed dissertation area; 30 credit hours from a previously awarded master's degree may apply toward this requirement with approval by the student's supervisory committee and the Graduate College.

To ensure breadth in the traditional areas of philosophy, students must pass with a grade of "B" or better (3.00 on a 4.00 scale).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• curriculum vitae
• writing sample
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency, a copy of an article or research paper in their native or principal research language, as well as the English writing sample required of all students regardless of their current residency. The philosophy program requires a TOEFL iBT® score of at least 5, or a score of 100 (taken at a testing center) if taken before January 21, 2026; or a score of 7.0 on the IELTS.

The statement of purpose should explain the applicant's scholarly background and training, career goals, the primary field the applicant wishes to pursue and the proposed research specialization (no more than 600 words in length).

The writing sample must be a piece of philosophical writing, preferably a seminar paper or published article of no more than 20 pages.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Achieve competence with philosophical literature and writing
Achieve professional-level skills in mastering literature and philosophical writing
Able to identify and articulate a philosophical problem or question in one of the core areas in philosophy --- that is, metaphysics, epistemology and value theory

Career opportunities

The PhD programs in philosophy helps students develop and hone skills that are highly marketable and easily transferable.

Philosophy teaches its students to think critically, creatively and imaginatively. Though routine jobs are increasingly being lost to advances in automation and artificial intelligence, the skills taught by philosophy are irreplaceable by technology, highly sought-after by employers and transferrable from one occupation to another. Graduates have the ability to read closely and with a critical eye; to analyze complex problems and identify possible solutions, including some creative solutions; to assess the merits of each possible solution; and to articulate and argue for or against various possible solutions in clear, precise and unambiguous language.

As philosophy focuses on honing certain skills rather than acquiring a particular body of knowledge, philosophy prepares its graduates for a wide variety of careers rather than for just one particular occupation. Indeed, philosophy prepares its graduates for any career requiring problem-solving; clear, critical and creative thinking; and excellent reading, writing and communication skills.

The program is designed to prepare students for careers as philosophers, as teachers of philosophy and in areas in which they may benefit from advanced training in philosophy, such as law, civil service and publishing.

Career examples include:

- businessperson
- computer programmer
- counselor
- educator
- journalist
- lawyer
- politician
- public policy analyst
- publisher
- writer

Natural Science (Physics), MNS (LAPHYSMNS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Natural Science program in physics offers transdisciplinary graduate training in physics, physical science or physics education. The program is especially suited if you are a in-service high school science teacher who desires professional training rather than a research-based degree.

Designed for flexibility, the curriculum also features individualized professional graduate programs. These programs are well matched to your background and goals. You are expected to emphasize coursework in at least two areas of concentration. The program must be transdisciplinary.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required applied project course (PHS 593)

The graduate advisor and the student suggest three faculty members who reflect the transdisciplinary nature of the program to serve on the supervisory committee. With the recommendation of the chair of the Department of Physics, the committee is appointed by the vice provost for the Graduate College soon after the student has been admitted to the degree program.

After conferring with the student, the supervisory committee recommends the plan of study. The committee may require additional coursework to ensure proficiency, depending on the student's background and the nature of the proposed program. In some cases, undergraduate courses may be required to overcome deficiencies.

Teachers may enroll in these courses to earn credit toward recertification or to pursue an MNS degree. These courses are held during the summer. Depending on teacher interest, they may be offered at other times. For some courses, the prerequisites are two semesters of trigonometry-based college physics and an introductory calculus course.

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's degree from a regionally accredited institution. The program is open to in-service high school teachers who have completed two semesters of college physics and an introductory calculus course. Underprepared teachers can make up deficiencies by completing regularly scheduled courses. Students must be able to attend classes in person at the Tempe campus.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts of all undergraduate and graduate coursework
• two letters of recommendation
• personal statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letters of recommendation should be from individuals familiar with the applicant's work or studies that are relevant to the natural science program.

Conditions for admission are the availability of resources for the proposed program and having a Department of Physics faculty member designated to serve as a graduate advisor.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Graduates have a deeper understanding of physics and related subjects, both conceptually and pedagogically. They are better prepared to teach physics and other related subjects, and they may be qualified to teach dual enrollment courses in physics or related subjects, such as chemistry.

Physics, MS (LAPHYSIMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is not currently accepting applications for this program.

Program description

The Master of Science program in physics provides you with graduate instruction and research experience appropriate to many physics-related careers. The structure of the program is flexible enough to allow a wide range of programs of study and a wide range of backgrounds. It is also suitable if you wish to study part-time.

Completion of the program requires a minimum of two years. A typical schedule has you taking courses for the first three semesters and completing a research project in your final semester. You defend a master's degree thesis at the end of the program.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

30 credit hours and a thesis

The master's degree in physics can emphasize either physics or physics in combination with other fields.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in physics or a closely related field from a regionally accredited institution. To be admitted to the master's degree program in physics without deficiencies, applicants should have adequate undergraduate preparation equivalent to an undergraduate major of 30 credit hours in physics and 20 credit hours in mathematics. Courses in analytic mechanics, electromagnetism and modern physics, including quantum mechanics, are particularly important.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency in the form of a TOEFL or equivalent score regardless of their current residency.

Financial support in the form of teaching or research assistantships is contingent upon satisfactory performance in coursework, timely completion of the final examination for the master's degree, and need and availability of such

support.

Students on probation are offered financial support only under exceptional circumstances.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

As professional physicists, graduates can advance the frontiers of physics by generating new knowledge in their subfield while working on the most challenging scientific problems at the forefront of human understanding. Physicists are valued for their analytical, technical and mathematical skills and find employment in a vast majority of employment sectors, including:

academia
engineering
finance
technology

Physics, PHD (LAPHYSIPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

If you have the interest in a career in independent research, the Doctor of Philosophy program in physics is for you.

The recent advent of the graduate faculty initiative at ASU extends the spectrum of potential physics doctoral topics and advisors to include highly transdisciplinary projects that draw upon:

• biochemistry
• biology
• chemistry
• electrical engineering
• materials science
• other related fields

Consequently, you and your doctoral advisor can craft a novel doctoral project that transcends the classical palette of physics subjects. Transdisciplinary expertise of this nature is increasingly vital to modern science and technology.

Current areas of particular emphasis within the department include:

• biological physics
• cosmology
• electron diffraction and imaging
• nanoscale and materials physics

• particle physics and astrophysics

The department has more than 90 doctoral students and more than 40 faculty members.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (18 credit hours)
PHY 500 Research Methods (6)
PHY 521 Classical and Continuum Mechanics (3)
PHY 531 Electrodynamics (3)
PHY 541 Statistical Physics (3)
PHY 576 Quantum Theory (3)

Electives or Research (54 credit hours)

Culminating Experience (12 credit hours)
PHY 799 Dissertation (12)

Additional Curriculum Information
Of particular note within the core courses are the PHY 500 Research Methods rotations, which are specifically designed to engage doctoral students in genuine, faculty-guided research starting in their first semester. Students complete three credit hours of PHY 500 in the fall and spring semesters of their first year, for a total of six credit hours.

Coursework beyond the core courses is established by the student's doctoral advisor and supervisory committee, working in partnership with the student. The intent is to tailor the doctoral training to the specific research interests and aptitudes of the student while ensuring that each graduating student emerges with the expertise, core knowledge and problem-solving skills that define having a successful doctoral degree in physics.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 credit hours of coursework are made up of electives to reach the required 84 credit hours.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in physics or a closely related area from a regionally accredited institution. Applicants must have had adequate undergraduate preparation equivalent to an undergraduate

major of 30 credit hours in physics and 20 credit hours in mathematics. Courses in analytic mechanics, electromagnetism and modern physics, including quantum mechanics, are particularly important.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants requesting credit for prior graduate courses taken at ASU or elsewhere must demonstrate mastery of the relevant course material to the graduate-level standards of the Department of Physics.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

As professional physicists, graduates can advance the frontiers of physics by generating new knowledge in their subfields while working on the most challenging scientific problems at the forefront of human understanding. Graduates find positions in a variety of settings, such as administration, government labs, industrial labs and management, and as academic faculty.

Physicists are valued for their analytical, technical and mathematical skills and find employment in a vast array of employment sectors, including:

- academia
- engineering
- finance
- technology

Plant Biology and Conservation, MS (LAPLBIOMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the Master of Science program in plant biology and conservation, you receive advanced training in plant molecular and cellular biology, biotechnology, functional genomics, paleobotany, ecology, evolution and floristics, as well as in the

theory and practice of conservation biology.

You have the opportunity to work with faculty and researchers from ASU and the Desert Botanical Garden, located in Phoenix near ASU's Tempe campus.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

30 credit hours and a thesis

Required Core (3 credit hours)
PLB 502 Perspectives in Plant Biology (3)

Research (3 credit hours)
PLB 592 Research (3)

Electives (17 credit hours)

Other Requirements (1 credit hour)
BIO 591 Seminar (1)

Culminating Experience (6 credit hours)
PLB 599 Thesis (6)

Additional Curriculum Information
Students should see the academic unit for a complete list of approved electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in biology, botany or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:
• graduate admission application and application fee
• official transcripts
• academic record form

• personal statement
• curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Able to review the literature relevant to a research question in plant biology and conservation.
Able to execute a research plan of their own design to address a scientific question about plant biology and conservation.
Able to communicate research findings clearly and accurately in oral presentations and in writing to the scientific community and to the public.

Career opportunities

The conservation field demonstrates a growing need for botanists and conservation biologists in academic institutions; agricultural, biotechnological and landscape companies; government agencies; and nongovernmental organizations.

A MS program in plant biology and conservation provides strong preparation for academic careers. The skills and knowledge obtained in this program are also valuable for government careers in federal and state agencies responsible for management and conservation, and for careers in industry and with nongovernmental organizations.

Career examples include:

conservation scientist at a park, natural resource center, museum or national forest
food and agriculture scientist in an academic, private or industrial lab
instructor at a community college
researcher or technician in a government lab or at a nonprofit organization
science teacher in an elementary or high school

Political Psychology, MA (LAPPSMA)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

Developed as an interdisciplinary program that crosses political science and psychology, the Master of Arts program in political psychology was created to aid your professional advancement as a electoral and issue advocacy campaign professional, or your career in government, in the private sector or for a nonprofit organization. You learn the skills you need to mobilize voters and social movements; advance government programs; design successful political communication strategies; and effectively market political candidates for local, state and federal offices.

The program's mission is to educate you in the most recent insights from evidence-based research, prepare you with innovative tools and with knowledge that gives you an advantage over your peers, and encourage hands-on training that ensures you can apply your classroom learning. You have regular interactions with world-class teachers and researchers who'll help you learn how to shape the world in a meaningful and positive way.

The School of Politics and Global Studies is host to the Future Security Initiative, the Center for Latina/os and American Politics Research, and the SPGS Experimental Lab. The Department of Psychology hosts 10 doctoral, master's degree and graduate certificate programs that investigate issues such as social influence and persuasion, prejudices and discrimination, and neuroscience and clinical pathology. Faculty members are active in collaborative interdisciplinary research at ASU and with scholars at other universities, and have won many major grants and awards.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Political Science, BA

Political Science, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (PPS 550)

Required Core (3 credit hours)
PPS 501 Fundamentals of Political Psychology (3)

Other Requirements (6 credit hours)
PPS 504 Attitudes and Persuasion (3)
PPS 506 Experimental Design (3)

Electives (18 credit hours)

Culminating Experience (3 credit hours)
PPS 550 Capstone (3)

Additional Curriculum Information
Students should see the academic unit for a list of approved elective courses.

Other Requirements coursework may be substituted with approval from the program director. Substitutions are based on student interest in narrowing their specialization with guidance. This program does not seek to replicate existing communications or marketing degrees, but to harness the political psychology perspective as applied to a variety of potential student interests and careers.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• letter of intent or written statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

A letter of recommendation is strongly encouraged but not required. An academic letter of recommendation is preferred, but a letter from an employer or other supervisor is also acceptable. The letter should address topics such as the applicant's analytical skills, ability to integrate information, level of motivation, ability to meet deadlines, and work ethic. Once the application has been submitted, the listed recommender receives an email with instructions for providing their recommendation.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/political-psychology-ma/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate complex political issues using political psychology concepts and theories.
Analyze psychological influences on politics using relevant quantitative and/or qualitative methods.
Assess the impact of persuasive communication on political attitude formation and change.

Career opportunities

Graduates are prepared for a variety of careers in politics and related fields. An understanding of how citizens process political information and make political decisions is crucial for jobs in political campaigns, grassroots organizations, and political party organizations. The communication skills developed in this program could lead to careers in political marketing or political advertising. Graduates are also prepared for a variety of jobs in local, state or federal government.

Career examples include:

- campaign manager
- campaign strategist
- community organizer
- fundraising consultant
- issue advocacy consultant
- legislative aide
- lobbyist
- media strategist
- political analyst
- political marketing manager

Political Science (Political Analytics), MA (LAPOSPAMA)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

The Master of Arts program in political science with a concentration in political analytics prepares you to meet the rapidly growing demand for data-literate professionals in the public, private and nonprofit sectors. In an era when political decision-making, campaign strategy, policy development and public opinion research are increasingly driven and shaped by big data, you develop the skills to collect, analyze, interpret and communicate data in real-world political contexts.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required capstone course (POS 597)

Required Core (3 credit hours)
POS 503 Empirical Political Inquiry (3)

Concentration (6 credit hours)
POS 602 Methods of Political Analysis (3)
POS 605 Political Data Wrangling and Visualization (3)

Other Requirements (3 credit hours)
POS 603 Polimetrics I (3)

Restricted Electives (9 credit hours)
POS 598 Special Topics (3)
PPS 506 Experimental Design (3)
PPS 514 Campaign and Elections (3)
PPS 598 Topic: Political Campaign Management (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)
POS 597 Capstone (3)

Additional Curriculum Information
For restricted electives coursework, students select three of the courses from the list in consultation with their program advisor. The program advisor can also provide a complete list of approved topics for POS 598.

Other requirements coursework may be substituted with approval by the program director. Substitutions are based on student interest in narrowing their focus with guidance.

Students should see the academic unit for a list of approved elective courses.

The capstone course allows each student to explore a research area, interest, theme or question. Final written products are individually developed based on consultation with faculty.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in political science or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• letter of intent
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL (iBT)®, or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

The letter of intent should describe the applicant's academic and professional interests to date, their reasons for pursuing a master's degree in political science with a concentration in political analytics, and how this advanced degree relates to their future goals.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/political-analytics/) for program descriptions and to request more information.

Career opportunities

This concentration is ideal for students pursuing research, policy or analytics careers that demand strong statistical and methodological skills, while still grounding their expertise in core political science concepts.

Graduates are prepared for research or applied careers in political science in government, nonprofits and the private sector. Career examples include:

- campaign consultant
- campaign strategist
- data analyst
- lobbyist
- research specialist

Political Science, MA (LAPOLSCMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Arts program in political science offers a variety of areas of specialization within and between the four main subfields of political science --- American politics, comparative politics, international relations and political theory --- with particular strengths in ethnoreligious dynamics, women and politics, political violence, human rights, political psychology, political economy and Latino politics.*

Faculty are also active in collaborative interdisciplinary research at ASU and with scholars at other universities; many have won major grants and awards. The school is host to the Future Security Initiative, the Center for Latina/os and American Politics Research, and an experimental lab. Faculty are also affiliated with other centers at ASU, such as the Leadership, Diplomacy and National Security Lab; the Center for the Study of Religion and Conflict; the Melikian Center for Russian, Eurasian and East European Studies; and the Center for the Study of Economic Liberty.

The program may be taken as a terminal program or as a step toward eventual fulfillment of the requirements for the doctorate. If you plan to obtain the doctorate at ASU, you should apply directly to the doctoral program.

*If you are interested in a political theory specialization, you should consult with the academic unit before applying.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Studies, BA

Political Science, BA

Political Science, BS

Politics and the Economy, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required capstone course (POS 597)

Required Core Course (3 credit hours)
POS 503 Empirical Political Inquiry (3)

Other Requirements (6 credit hours)
focus area course (3)
POS 603 Polimetrics I or second focus area course for political theory (3)

Electives (15 or 18 credit hours)

Culminating Experience (3 or 6 credit hours)
POS 597 Capstone (3) or
POS 599 Thesis (6)

Additional Curriculum Information
Students who select the thesis option must submit a written thesis and hold an oral defense. Students who select the capstone option must submit a written paper.

The course POS 603 Polimetrics I may be substituted with permission of both the director of graduate studies and the faculty advisor. Students in the political theory focus area take a second focus area course instead of POS 603.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee

• official transcripts
• personal statement
• writing sample
• three letters of recommendation
• list of political science courses taken
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should be one to three pages and describe the areas of political science the applicant wishes to study, postgraduation goals, and why the School of Politics and Global Studies is the best fit. Applicants may also mention any faculty members with whom they are interested in working and explain why, and provide context for any discrepancies in their educational background.

The writing sample is typically a research paper or other similar paper that demonstrates the applicant's critical thinking and writing skills in political science or a related field. There is no length requirement for the writing sample, but it should be a sufficient length for the admission committee to evaluate the applicant's knowledge and skills.

To assist in evaluating all candidates, the applicant should list titles and related information for all previous undergraduate and graduate courses or coursework in political science or related fields. The list must be saved as a .pdf, .doc, .rtf or .txt file and uploaded with the online graduate admission application. The information should be in a table with the following column headings: Course Title, Undergrad Credit Hours, Graduate Credit Hours, Grade, Institution, Year.

Undergraduate coursework in political science is not a prerequisite for admission. However, master's degree students should have a basic understanding of elementary statistics and the undergraduate content of the political science fields of concentration that they wish to study. Students should allow sufficient time to acquire such a background.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Design independent research projects in the field of political science with real life applications.
Evaluate political science data using quantitative statistical methods.
Effectively communicate their research process and findings, orally and in writing.

Career opportunities

Graduates are prepared for research or applied careers in political science in government, nonprofits and the private sector. Career examples include:

campaign consultant
campaign strategist
data analyst
lobbyist
research specialist

Political Science, PHD (LAPOLSCPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in political science develops you to be a scholar who demonstrates a high level of excellence in teaching and research as a professional political scientist. The program offers a variety of areas of specialization within and between the four main subfields of political science: American politics, comparative politics, international relations and political theory. If you are interested in a political theory specialization, you should consult with the academic unit prior to application.

Program faculty have particular strengths in Latino and Latina politics, women and politics, ethnoreligious dynamics, political violence, human rights, political psychology and political economy.

The school is host to the Center for Latina/os and American Politics Research, the Future Security Initiative and an experimental lab. Faculty are also affiliated with other centers at ASU, such as the Leadership, Diplomacy and National Security Lab; the Center for the Study of Religion and Conflict; the Melikian Center for Russian, Eurasian and East European Studies; as well as the Center for the Study of Economic Liberty. Many faculty members are active in collaborative interdisciplinary research at ASU and with scholars at other universities, and they have won major grants and awards, as have the school's doctoral students.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
POS 503 Empirical Political Inquiry (3)

Electives and Research (69 credit hours)

Culminating Experience (12 credit hours)
POS 799 Dissertation (12)

Additional Curriculum Information
A maximum of 12 credit hours of approved coursework outside the department but within ASU may count toward the required 84 credit hours.

Coursework beyond the 12-credit-hour maximum may be taken outside the department with permission of both the director of Graduate Studies and the faculty advisor.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework is made up of electives and research to reach the required 84 credit hours.

Also required is a formal oral defense of the dissertation and a written comprehensive examination in the major field.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• writing sample
• GRE scores
• three letters of recommendation
• list of political science courses taken
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

ASU does not accept the GRE® General Test at home edition.

To assist in evaluating all candidates, the applicant should list titles and related information for all previous undergraduate and graduate courses or coursework in political science or related fields. The file must be saved in a .pdf, .doc, .rtf or .txt format and uploaded with the online graduate admission application. The information should be in a table with the following column headings: Course Title, Undergrad Credit Hours, Graduate Credit Hours, Grade, Institution, Year.

Undergraduate coursework in political science is not a prerequisite for admission. However, applicants to the doctoral program should have a basic understanding of elementary statistics and the undergraduate content of the political science fields of specialization that they wish to study. Students without this background should allow sufficient time to acquire it.

The personal statement (one to three pages) should describe the areas of political science the applicant wishes to study, postgraduation goals, and why the School of Politics and Global Studies is the best fit for the applicant. Applicants may also mention any particular faculty members with whom they are interested in working and why, as well as provide context for any discrepancies in their educational background.

The writing sample is typically a previously written research or other similar paper that best demonstrates the applicants critical thinking and writing skills in political science or a related field. There is not a length requirement for the writing sample, but it should be of sufficient level to allow the admission committee to evaluate the applicant's knowledge and skills.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate major debates in their specific field of political science (e.g., American Politics, Comparative Politics, International Relations, Political Theory)
Evaluate data using quantitative statistical methods.
Communicate the content of their doctoral dissertation orally and in writing.

Career opportunities

Program graduates have a strong track record of obtaining positions in academic, public and private sectors. The program works closely with students so they have the opportunity and tools needed to achieve their career goals. The doctoral program provides advanced education for graduates preparing for teaching, research or applied careers in political science in government, nonprofits and the private sector.

Career examples include:

campaign consultant
campaign strategist
data analyst
lobbyist
research specialist
tenure-track or instructional faculty in political science

Psychology (Clinical), PHD (LAPSYCLPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in psychology with a clinical concentration trains students in the clinical science model, blending research and clinical practice to improve understanding and treatment of mental and behavioral health. Accredited by the American Psychological Association and the Psychological Clinical Science Accreditation System, the clinical concentration program emphasizes rigorous research and evidence-based approaches to clinical work.

Students conduct research on the causes, development and treatment of behavioral and emotional disorders while learning to evaluate and apply interventions grounded in science. Coursework and research training promote critical thinking about psychological assessment, intervention and prevention across populations and settings. Research and mentorship are central to the program. Students work with faculty on research, contributing to all stages from study design to dissemination while applying findings to clinical psychological questions.

Clinical training begins in the second year with supervised practicum placements and culminates in a one-year, full-time internship. These experiences take place in university and community settings and emphasize ethical practice shaped

by cultural awareness and scientific evidence. Students can customize their elective coursework in the following areas:

• community and prevention --- examining social and environmental influences on mental health and substance use and designing interventions to promote healthy outcomes
• child clinical psychology --- training in assessing, treating and preventing childhood disorders, with attention to family stress and resilience
• health psychology --- exploring connections between psychological processes and physical health and medical care

Faculty research spans substance use, evidence-based treatment, child and adolescent development, health psychology, trauma and adversity and cultural influences on mental health. Through mentorship and interdisciplinary collaboration, the PhD program in psychology with a clinical concentration prepares students to advance clinical psychology as both a science and a practice.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
PSY 502 Professional Issues in Psychology (3)

Concentration (11 credit hours)
PSY 530 Intermed Statistics (4)
PSY 531 Multiple Regression in Psychological Research (4)
PSY 573 Psychopathology (3)

Other Requirements (23 credit hours)
PSY 598 Topic: Clinical Interviewing and Ethics (3)
PSY 600 Research Methods (3)
PSY 680 Clinical Training I (3)
PSY 680 Clinical Training II (3)
PSY 680 Clinical Training III (4)
PSY 780 ATM Assessment (3)
PSY 780 ATM Topic (1)
PSY 784 Internship (1)

Didactic Training for Clinical (3 credit hours)
PSY 574 Psychotherapy (3) or PSY 591 Child and Family Therapy (3)

Research (12 credit hours)
PSY 692 Research-Intensive Project (6)
PSY 792 Research (6)

Domain-Specific Knowledge (6 credit hours)

Electives and Research (14 credit hours)

Culminating Experience (12 credit hours)
PSY 799 Dissertation (12)

Additional Curriculum Information
In addition to the required coursework, students need to work with their faculty advisor to determine what additional coursework is required in the domain-specific knowledge area (also known as DSK), which is intended to provide discipline-specific knowledge in psychology, consistent with APA Standards of Accreditation. Students must fulfill the DSK requirements in the following topical areas: Affective, Biological, Cognitive, Developmental and Social. Students in the program are also expected to complete a research-intensive project to ensure that they can demonstrate advanced competence in independent psychological research prior to comprehensive exams and dissertation work.

This program includes required, in-person clinical learning placements. External Practicum Placements occur in semesters 5-10 (after completing the foundational coursework and the in-house clinical training) and are typically in the Phoenix metropolitan area. The External Internship for the Predoctoral Psychology culminating clinical training experience occurs during semesters 11-12 and is commonly performed outside of the state of Arizona.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in psychology and behavioral health related fields from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• personal statement
• professional resume
• three letters of recommendation
• SlideRoom application and fees
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

To apply to the doctoral program, applicants must follow the instructions on the doctoral program admission instructions and checklist. It is strongly recommended that applicants download and print this form to ensure

completion of the application process and to include all of the required supplemental forms.

The Department of Psychology application process is completed online through ASU's graduate admission services, which includes the application form and official transcripts. Application to the Department of Psychology doctoral programs is also completed via SlideRoom, for processing of supplemental application materials. The SlideRoom account requires an additional fee.

Applicants must submit three academic letters of recommendation from faculty members who know the student well. Three letters are required, but four letters of recommendation may be submitted.

Applicants must complete and submit a statement of purpose consisting of responses to, at minimum, two of the three prompts.

Applicants may submit GRE® scores, but they are not required. ASU does not accept the GRE® General Test at home edition.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

The PhD in psychology with a clinical concentration prepares graduates to be clinical scientists who pursue research-focused careers in academia and medical centers. Some graduates also pursue licensure as psychologists and obtain jobs in hospitals, health care and public service.

Overall, graduates are prepared for impactful roles such as:

data scientist-biostatistician
licensed clinical psychologist
program evaluation specialist
psychology professor
research professor

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.The PhD program in psychology with a clinical concentration provides the educational and clinical training requirements to pursue licensure as a licensed psychologist.

Psychology (Quantitative Research Methods), PHD (LAPSYQUPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the Doctor of Philosophy program in psychology with a concentration in quantitative research methods, you gain an immersive education in advanced statistical techniques and research methodologies that are employed in the conduct of both basic and applied psychological research.

A collaborative, interdisciplinary approach to research empowers you to deepen your understanding and tackle key issues, such as exploring the limits of existing methods, pushing the methodological frontiers forward, evaluating the effectiveness of established and emerging methodologies, and improving the robustness of psychological research through innovative measurements and analytical methods.

What sets this program apart is its distinguished, award-winning faculty members, known for their expertise and dedication to training the next generation of psychological methodologists. Alongside the faculty, you gain practical experience and master techniques in the areas of measurement, study design, data analysis, statistical modeling, and evaluation of the utility of new and existing methods.

You emerge as an expert in quantitative research who's prepared to make meaningful contributions to the field by developing and applying sophisticated statistical and methodological solutions to address pressing research issues.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
PSY 502 Professional Issues in Psychology (3)

Concentration (3 credit hours)
PSY 533 Structural Equation Modeling (3)

Other Requirements (35 credit hours)
PSY 530 Intermediate Statistics (4)
PSY 531 Multiple Regression in Psychological Research (4)
PSY 532 Analysis of Multivariate Data (3)
PSY 534 Psychometric Methods (3)
PSY 536 Statistical Methods in Prevention Research (3)
PSY 537 Longitudinal Growth Modeling (3)
PSY 538 Advanced Structural Equation Modeling (3)
PSY 539 Multilevel Models for Psychological Research (3)
PSY 540 Missing Data Analysis (3)
PSY 543 Statistical Mediation Analysis (3)
PSY 555 Experimental and Quasi-experimental Designs for Research (3)

Electives (19 credit hours)

Research (12 credit hours)

Culminating Experience (12 credit hours)

PSY 799 Dissertation (12)

Additional Curriculum Information
Electives are determined in consultation with the student's supervisory committee.

Other requirements courses may be substituted for other courses based on consultation with the student's supervisory committee.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• SlideRoom application and fee
• statement of purpose form
• curriculum vitae or resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

A GRE score may be submitted, but is not required for admission. If an applicant wants to submit GRE scores, they should note that ASU does not accept the GRE® General Test at home edition.

To apply to the doctoral program, applicants must follow the instructions on the doctoral program admission instructions and checklist. It is strongly recommended that applicants download and print the instructions and checklist to ensure completion of the application process and that all required supplemental forms are included.

The Department of Psychology application process is completed online through ASU Admission Services, which includes the application form and official transcripts. Application to the Department of Psychology doctoral programs is also completed via SlideRoom, for processing of supplemental application materials. The SlideRoom account requires an additional fee.

Applicants must submit three academic letters of recommendation from faculty members who know the student well. Three letters are required, but four letters of recommendation may be submitted.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Critically evaluate existing psychological literature to identify novel research questions within quantitative psychology.
Design an independent study to test theoretical models of human behavior, utilizing sophisticated statistical methods.
Integrate their research findings within the larger context in their field to identify limitations and provide areas for future direction.
Effectively communicate research findings through written publications and oral presentations.

Career opportunities

Quantitative psychologists possess advanced statistical and methodological expertise applicable to various research challenges. While rooted in psychology, their skills find broad applications in fields such as education, heath, neuroscience and marketing. Graduates of the doctorate in psychology (quantitative research methods) program excel in interdisciplinary collaboration and effective communication of complex ideas.

Potential careers include roles as:

consultants
data scientists
policy analysts
psychology professors
psychometricians
research scientists

Psychology, PHD (LAPSYCHPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in psychology offers you comprehensive training in innovative research methods and the application of psychological principles across various human conditions. This program stands out with six highly ranked areas of study:

• behavioral neuroscience and comparative psychology
• clinical psychology
• cognitive psychology
• developmental psychology
• quantitative research methods (formal degree concentration (https://degrees.apps.asu.edu/masters-phd/major/ASU00/LAPSYQUPHD/psychology-quantitative-research-methods-phd))
• social psychology

Each specialization shapes the core curriculum for you, encouraging interdisciplinary learning opportunities across the university.

Faculty members engage you in groundbreaking research, fostering theoretical exploration in areas such as evolution and behavior; cognitive processes such as attention and memory; personality studies; and societal issues such as stigma and prejudices. You investigate diverse topics, including individual resilience, cultural influences, neurobiological and psychosocial factors impacting behavior and health, child mental health prevention and life span developmental aspects of emotion and cognition.

A distinct strength of this doctoral psychology program is the wealth of outstanding faculty members who excel in quantitative methods. No matter your specialized area of focus, you gain access to a wide variety of courses and hands-on experiences, seamlessly integrating quantitative methodologies into your work.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
PSY 502 Professional Issues in Psychology (3)

Electives and Research (69 credit hours)

Culminating Experience (12 credit hours)
PSY 799 Dissertation (12)

Additional Curriculum Information
In addition to required coursework pertaining to the training area, students take courses related to their area of interest, as determined in consultation with their supervisory committees. Requirements vary across training areas.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in psychology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program. Due to the competitiveness of the program, applicants to the clinical area must have a minimum cumulative GPA of 3.30 rather than 3.00 in either their first bachelor's or applicable master's degree program.

All applicants must submit:

• graduate admission application and application fee
• official transcripts
• SlideRoom application and fee
• statement of purpose form
• curriculum vitae or resume
• GRE scores (optional)
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants may submit GRE scores if available, but GRE scores are not required for admission. ASU does not accept the GRE General Test at home edition.

To apply to the doctoral programs, applicants must follow the instructions on the doctoral program admission instructions and checklist. It is strongly recommended that applicants download and print this form to ensure completion of the application process and to include all of the required supplemental forms.

Public History, Certificate (LAPHGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description

The graduate certificate program in public history offers you the opportunity to explore local and community history,== digital humanities, historic preservation, oral history, cultural resources management, historical administration,== museum studies, archival training and scholarly publishing. You work with faculty and conduct research in a variety of== historical and applied fields, all of which emphasize the intersection of theory and practice in public history.

By its nature, public history training must move beyond the classroom. With a professional experience built in== conjunction with community partners, you can develop your professional networks and be introduced to processes== and settings, enhancing your career prospects.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (6 credit hours)
HST 502 Public History Methodology (3)
HST/WWS 585 Professional Experience (3)

Other Requirements (3 credit hours)
HST 580 Practicum (3) or
HST/WWS 585 Professional Experience (3) or
WWS 563 The Lived Experience of World War II (3)

Electives (6 credit hours)

Additional Curriculum Information
HST 585 Professional Experience is crosslisted with WWS 585 Professional Experience; students can take either section== to fulfill certificate requirements. For Other Requirements coursework, students complete either an additional three== credit hours of HST/WWS 585 or WWS 563 The Lived Experience in World War II, or take an HST 580 course from an== approved list. Students should see the unit for an approved list of Other Requirements courses and elective topics.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• professional resume
• writing sample
• two letters of recommendation*
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency. The history program requires a TOEFL iBT® score of at least 4.5, or 90 (taken at a testing center) if taken before January 21, 2026.

The personal statement should be about 500 words in length and addressed to the history admission committee. It should explain the applicant's scholarly background and training; career goals; how they have put history to work in the world or how they want to do so in the future; and how ASU's public history program might help them reach their career or intellectual goals as a historian.

A sample of the applicant's written work should be submitted electronically as part of the online application. Compelling writing samples include a strong thesis, demonstrated use of primary and secondary source evidence, and solid writing foundations (such as proper grammar and logical organization). The writing sample may be a published or unpublished article, a research paper, or any other extended sample of expository skill no longer than 35 pages.

All applications are reviewed by multiple ASU faculty members and assessed holistically to determine whether they demonstrate the capacity to succeed in a rigorous and writing-intensive graduate program. This decision is made on the basis of prior coursework (particularly in history and other social sciences) and the quality of the written statement and the personal statement. Applicants who have not taken coursework in history are eligible to apply to the program but should have a strong written statement.

*Letters of recommendation may be waived for applicants who have already completed a Master of Arts in history or are currently enrolled in the MA program in history at ASU.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/public-history/) for program descriptions and to request more information.

Global opportunities

Global experience: Study abroad (https://goglobal.asu.edu/students/graduate-students) is possible for graduate students. There are more than 50 program opportunities, with programs on every continent. Faculty-directed programs tend to be the best fit for graduate students; taking courses with ASU professors over the summer or during academic breaks offers students close mentorship and professional network growth in many fields of study while they earn ASU credit. Exchange program participation is also possible with careful planning.

Within the public history certificate program, students also have the option to organize a professional experience opportunity that can take place abroad. Students need to consult with the academic unit directly for more information about these professional experience options.

Career opportunities

Graduates have the theoretical knowledge and practical, hands-on training experience needed for careers in research, teaching, government service, public history and a host of other positions in the public, private and nonprofit sectors.

Graduates serve as first-rate historians, researchers and consultants, foreign service officers, management professionals, community organizers and public servants.

Other career examples include:

- archivist
- editor
- historical collections manager
- museum director
- national parks historian or park ranger
- nonprofit director

Religious Studies, MA (LARELIGMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the Master of Arts program in religious studies, you develop greater expertise regarding the nature and role of religion around the world.

You are offered an opportunity to develop knowledge of various religious traditions in their historical and cultural contexts and to learn research methods. Although you often concentrate upon a single religious tradition for your thesis work, the program provides a broadly comparative understanding of religions, not simply a specialist's training in a single tradition.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required applied project course (REL 593) and a foreign language exam, or
30 credit hours, a thesis and a foreign language exam

Required Core (6 credit hours)
REL 501 The Study of Religion I: Genealogies, Disciplines and Power (3)

REL 502 The Study of Religion II: Epistemology, Practice and Mediation (3)

Electives or Research (18 or 21 credit hours)

Culminating Experience (3 or 6 credit hours)
REL 593 Applied Project (3) or
REL 599 Thesis (6)

Additional Curriculum Information
There are two options for the culminating experience: a thesis or an applied project. An oral defense of the final written work is required for both options.

The thesis option is recommended for students intending to seek admission to a doctoral program upon completion of the master's degree or for students who plan to teach in the discipline at community colleges. Thesis students must have reading knowledge of all languages relevant to the proposed thesis topic and take 18 credit hours of electives or research coursework.

The applied project option is recommended for students intending to augment their primary area of expertise and professional training in fields such as counseling, journalism, K-12 education, law, social work and the ministry. The applied project requires submission of three publishable papers: one on theory and method, one on the student's minor area of study, and one on the major area of study. The student's chosen areas of study determine the coursework taken as electives, with applied project students taking 21 credit hours of electives coursework, four courses being in a major area of study and two courses being in a minor area. Reading knowledge of a foreign language relevant to the proposed area of study is required.

The student's plan of study may include up to six credit hours of 400-level coursework or one REL 690: Reading and Conference course with department approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree, in any field, from a regionally accredited institution. Transcripts must show evidence of having completed the equivalent of 15 credit hours of undergraduate work in the study of religions, including advanced courses in both Western and Asian or other non-Western religions. Applicants who have not met this requirement may be required to take additional coursework beyond program requirements.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program. The most competitive applicants have a GPA of 3.50 or higher.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• curriculum vitae
• writing sample
• contact information for three references
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Students are required to submit contact information for three academic references who are qualified to provide detailed, accurate evaluations of the applicant's potential as a graduate student in religious studies. Professors are preferred, particularly faculty advisors. Recommenders are contacted by the Graduate College with a request to complete a reference questionnaire.

The statement of purpose should be approximately 1,000 words and should outline the applicant's academic background, career goals and specific areas of interest in religious studies.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Students will be able to critique and evaluate classical and contemporary theoretical approaches through the examination and evaluation of supporting literature and data in the academic study of religion.
- Students will be able to develop important research questions through critical analysis of primary and secondary sources.
- Students will engage in original research leading to understanding and explaining developments in religion and their broader impact and to present their findings in a clearly written prospectus proposal and defense.

Career opportunities

The MA program in religious studies provides graduates with training and knowledge relevant to careers in government, nongovernmental organizations, nonprofit organizations, global relationships, intercultural understanding, foreign service, researchers, professional writing, journalism and publishing.

Career examples include:

- book editor
- community college instructor
- foreign service employee
- global affairs writer
- nongovernmental organization professional
- nonprofit management

Religious Studies, PHD (LARELIGPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The academic study of religion is a central component of the humanities and has become increasingly recognized as a critical tool in understanding society and politics in a globalized world.

The Doctor of Philosophy program in religious studies helps you develop greater expertise regarding the nature and role of religion around the world. The program provides supplementary training that includes history, anthropology, political science, journalism, secondary education and justice studies.

Doctoral focus areas in the study of religion approach the study in a variety of contexts. Focused areas offered are in:

• anthropology of religion
• global Christianity
• Islam in global contexts
• religion in Asia
• religion in the Americas

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (6 credit hours)
REL 501 The Study of Religion I: Genealogies, Disciplines and Power (3)
REL 502 The Study of Religion II: Epistemology, Practice and Mediation (3)

Other Requirement (3 credit hours)
REL 700 Research Methods (3)

Electives (51 credit hours)

Research (12 credit hours)
REL 792 Research (12)

Culminating Experience (12 credit hours)
REL 799 Dissertation (12)

Additional Curriculum Information
Students must choose one of the five focus areas that are listed in the program description, and they select courses for the focus area as part of their electives in consultation with their supervisory committee.

As part of the electives, students may include up to three credit hours of REL 690 Reading and Conference. Additionally, students may select up to six credit hours of graduate-level courses from a related discipline that support the student's research.

Other requirement course REL 700 may be substituted with approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program may allow up to 30 credit hours from a previously awarded master's degree to be used for this program. If students do not have a previously awarded master's degree, the remaining coursework is made up of electives and research.

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution. Transcripts must show evidence of having completed the equivalent of 15 credit hours of undergraduate work in the study of religions, including advanced courses in both western and Asian or other nonwestern religions. Applicants who have not met this requirement may be required to take additional coursework beyond program requirements.

Applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or applicants must have a minimum cumulative GPA of 3.30 (scale is 4.00 = "A") in an applicable master's degree program. The most competitive applicants have a GPA of 3.50 or higher.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• curriculum vitae
• writing sample
• contact information for three references
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The statement of purpose should be approximately 1,000 words describing the applicant's academic background, the reasons for wishing to pursue a doctorate in religious studies, the proposed area of specialization and specific research topics the student plans to engage in at ASU.

The writing sample should be a work of original scholarly writing, approximately 15 to 30 pages in length. It should represent the student's best academic writing.

Students are required to submit contact information for three academic references who are qualified to provide detailed, accurate evaluations of the applicant's potential as a graduate student in religious studies. Professors, particularly faculty advisors, are preferred. Recommenders are contacted by the Graduate College with a request to complete a reference questionnaire. Letters of recommendation can be submitted in addition to answering these questions online.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Students will analyze and present theories and methods in the study of religion through in-class discussion, oral presentation and submission of an original written seminar paper.
Students will critically analyze religions by formulating research questions, examining various kinds of qualitative data, and drawing connections to relevant secondary literatures.

- Students will conduct original research through a doctoral study drawing connections to relevant secondary literature, collect and analyze primary data, communicate, and defend responses to research questions.

Career opportunities

Graduates possess training and knowledge relevant to careers in a variety of different roles and in a range of employment sectors. Some typical employers include government agencies, especially the U.S. Department of Health and Human Services; nongovernmental organizations; schools, colleges and universities; charities and nonprofit organizations; social services; and churches and other religious organizations.

Career examples include:

- book editor
- case management director
- church administrator
- foreign service employee
- global affairs writer
- nongovernmental organization professional
- nonprofit manager
- professional researcher and writer
- university instructor

Scientific Teaching in Higher Education, Certificate (LASTHEGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The graduate certificate program in scientific teaching in higher education provides you with the skills and knowledge= needed for implementing and evaluating evidence-based teaching at the college level.

As part of the program, you gain experience teaching science in a higher education setting, take teaching-related= coursework and complete a culminating experience under the guidance of a scientific teaching faculty mentor. This= culminating experience can be either a significant teaching experience, including the use of evidence-based teaching,= or discipline-based education research focused on undergraduate science education.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours including the required applied project course (BIO 593)

Required Core (2 credit hours)
BIO 530 Scientific Teaching (2)

Electives (10 credit hours)

Culminating Experience (3 credit hours)
BIO 593 Applied Project (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa need to be accepted to a graduate degree program before they are considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Professionals with expertise in scientific teaching are in high demand in academia and educational institutions, and the skills and knowledge they obtain in this program are also valuable for careers in federal and state agencies that are responsible for educational policy, as well as in industry and nongovernmental organizations.

Career examples include:

- educator in a nonprofit organization or government agency
- elementary or high school science teacher
- professor or instructor at a college or university

Sexuality Studies, Certificate (LASXSGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The graduate certificate program in sexuality studies addresses the social construction, political economy, and cultures of sexualities and genders. This program interrogates heterosexuality and institutionalized heteronormativity and cisgenderism, and addresses lesbian, gay, bisexual, transgender, queer, and two-spirit identities and expressions as well as nonnormative sexual and gender identities that are not reflected by LGBTQ+ categories.

You have the flexibility to complete courses in, on and about sexuality and gender defined broadly, which are offered across disciplines and units at ASU. You gain theoretical and analytic tools to examine gendered and racialized sexual structural inequities and how social issues, economic inequalities and state institutions shape and are shaped by sexuality as an ever-changing and contested social norm. In addition, the certificate program enables you to further investigate sexualities in relation to other social categories and identities, sexual stratification, reproductive rights and justice, sexual health and justice, carceral genders and sexualities, sex work, the state and legal system, transnational and diasporic formations of sexualities and genders, and the associated social movements that challenge institutionalized barriers to sexuality and gender justice. The program integrates disciplinary, multidisciplinary and interdisciplinary perspectives.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
SST 604 Sexuality Studies (3)

Electives (12 credit hours)

Additional Curriculum Information
For elective coursework, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• a statement of purpose for pursuing the certificate
• proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa need to be accepted to a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this certificate program.

The program is open only to current ASU degree-seeking students. However, with academic unit and Graduate College approval, up to nine credit hours of ASU nondegree credit may be transferred to the certificate program for those who eventually gain admission to an ASU graduate degree program. This is administered by the graduate certificate committee. Students should refer to the Graduate College policy on certificate programs.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Students in the sexuality studies certificate will be able to analyze how sexuality has been conceptualized and understood as an interdisciplinary category of analysis across the humanities, social sciences and behavioral sciences.
- Students completing the certificate will be able to articulate key theories that have contributed to the development of sexuality studies and their significance.

Career opportunities

Graduates have gone on to careers at universities, research and policy institutes, government organizations, and== nonprofit organizations.

Social Science Research Methods, Certificate (LASSRMGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Downtown Phoenix, Polytechnic, Tempe, West Valley

Program description

Many of the biggest problems today --- such as tracking the outbreak of diseases, managing scarce water resources or== understanding the impact of new technologies --- require collaboration across the medical sciences, the physical and== biological sciences, the social sciences, and engineering. ASU's emphasis on collaborative work across disciplines is== crucial for understanding these complex problems and to develop solutions.

The interdisciplinary graduate certificate program in social science research methods prepares you to acquire, manage== and analyze a broad range of data on human thought and human behavior. Data can be qualitative (e.g., text, images== or sound) or quantitative (e.g., direct observation, surveys or geospatial). Data acquisition skills may include the== downloading and managing of information from online sources or the primary collection of data in surveys or in direct== observation. A key feature of this program is a focus on data analysis, so you are able to analyze and interpret any data

that you can collect. In the program, you demonstrate skills in statistical analysis as well as a selection of methods related to their interests.

This program is best suited for you if you hold a minimum of a bachelor's degree from regional, national or internationally accredited institutions, and in any field or discipline (e.g., anthropology, sociology, human development, sustainability, geography, political science or other fields with approval of the academic unit).

STEM-OPT extension eligible: No

Degree requirements

18 credit hours including the required applied project course (GCU 593)

Required Core (3 or 4 credit hours)
PSY 531 Multiple Regression in Psychological Research (4) or
STP 530 Applied Regression Analysis (3) or
STP 531 Applied Analysis of Variance (3) or
STP 533 Applied Multivariate Analysis (3)

Electives or Research (11 or 12 credit hours)

Culminating Experience (3 credit hours)
GCU 593 Applied Project (3)

Additional Curriculum Information
Students select one of the multivariate data analysis core courses for a total of three or four credit hours.

Students select four elective and research methods courses for a total of 11 or 12 credit hours in consultation with the program directors. The program recognizes that other graduate-level courses on research methods are offered at ASU. Advanced courses on methods are often taught in omnibus courses, courses that have rotating content and whose content is not reflected in their titles. Students may include these courses in their certificate curriculum with approval of the program directors.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution in a field such as human development, sustainability, geography or political science. Other subject areas may be accepted with approval from the academic unit.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must have completed an introductory statistics course before admission to the program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts

• statement of interest
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa first need to be accepted into a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Examples of introductory statistics courses include:
CRJ 504 Statistical Tools for Criminology and Criminal Justice
NUR 617 Foundational Concepts in Science and Statistics
POS 603 Polimetrics I
STP 530 Applied Regression Analysis
or equivalent with approval of the academic unit

A statement of interest should include how the certificate program will enhance the applicant's graduate studies or professional work.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Conduct expert multivariate data analysis in social science research.
Perform the appropriate research method(s) to a research question identified in order to answer the question.

Career opportunities

Professionals with expertise in social science research are in high demand across sectors and industries, including consulting firms, government agencies and community organizations. Skills in data acquisition, management and analysis are valuable to businesses and institutions relying on data-driven strategies in an interdisciplinary and collaborative marketplace.

Career examples include:

data analyst
economist
field researcher
human behavior researcher
social science research assistant
statistician

Social Transformation, Certificate (LASOTGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

If you are a graduate and postbaccalaureate student interested in how change is catalyzed by social movements,= protest, law, social entrepreneurship, activism and community organizing, the graduate certificate program in social= transformation is for you. Through the exploration of theories and research related to social change, you augment your= disciplinary degree and be prepared to contribute as a leader and changemaker in your community.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
SST 501 Foundations of Social Transformation (3)

Electives (12 credit hours)

Additional Curriculum Information
The electives taken are selected with the faculty advisor, who helps ensure they have a common theme and that= students' experiences in the courses align with the learning goals outlined for the certificate.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's= degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- statement of purpose
- proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted to a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this certificate program.

Students must submit a statement of purpose, no longer than 250 words, to the School of Social Transformation. The statement should indicate a demonstrated interest in the study of social transformation (e.g., previous coursework, professional experience, internships, career plans).

Applicants must meet the above criteria and have strong academic credentials, including their undergraduate or graduate GPA, and demonstrated interest in the area of social transformation, as judged by the School of Social Transformation graduate committee. The committee reviews applications for the certificate program in the fall and spring semesters of each year and makes its admission recommendations to ASU Graduate Admission Services.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

> Demonstrate knowledge of social theory, concepts and research methods to understand social change issues and analyze solutions to social problems.
> Apply the foundations and principles of social change theory and research to specific domestic or international issues through advanced research.

Career opportunities

Certificate graduates may go on to law school, graduate school or other professional degree programs. Potential career options include working as community organizers, youth and community advocates, community-based researchers and social justice consultants.

Social and Cultural Pedagogy, MA (LASCPMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Master of Arts program in social and cultural pedagogy is a two-year program helps you develop your exising professional experience and gain new applicable skills and practical knowledge to accomplish specific career goals.

After you're equipped with philosophical, theoretical and practical knowledge on social pedagogy, you are able to analyze social structures and cultural dynamics and work with communities to address complex societal problems through the design, implementation and evaluation of socio-educational strategies.

You have the opportunity to create an individualized path of study that accommodates your personal interests and career goals. You can also join a vibrant university club (Social and Cultural Pedagogy Graduate Organization), a national organization of scholars and practitioners (Social Pedagogy Association) and an international organization (Global Alliance for Social Pedagogy and Social Education).

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Justice Studies, BS

Asian Pacific American Studies, BA

Justice Studies, BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (SST 593)

Required Core (9 credit hours)
JUS 500 Research Methods (3)
SST 501 Foundations of Social Transformation (3)
SST 510 Social and Cultural Pedagogy: Theoretical and Practical Issues (3)

Electives (15 or 18 credit hours)

Culminating Experience (3 or 6 credit hours)
SST 593 Applied Project (3) or
SST 599 Thesis (6)

Additional Curriculum Information
Students who elect to complete the applied project option must take 18 credit hours of elective coursework to reach the required 30 credit hours for the program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution recognized by ASU.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume

• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. TOEFL scores are required for applicants whose native language is not English.

Applicants should supply a two- to three-page application letter (writing sample) in which they explain why they want to study in this program and why they feel well prepared to succeed in the program.

The resume should describe the applicant's educational history, related work or volunteer experiences.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Graduates will demonstrate an understanding of key theories and concepts in the field of social and cultural pedagogy in both their written and oral presentation work.
- Graduates of the program will demonstrate the ability to interpret and conduct quantitative and qualitative research.
- At the completion of the program, students will demonstrate knowledge of social transformation and social change through an interdisciplinary lens and use an interdisciplinary or multidisciplinary approach to address social and cultural pedagogy issues and solutions in their projects.

Career opportunities

Graduates are able to contribute to a better future via traditional, nontraditional and nonformal educational settings;= these include early childhood education programs, schools, youth programs, local governments, nongovernmental= organizations, museums, nonprofits, intercultural programs, cooperatives, citizenship education programs, human= rights programs, antipoverty programs, community development programs, literacy programs, community centers and= social movements.

Socio-Economic Justice, Certificate (LAECJUGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

This transdisciplinary graduate certificate in socio-economic justice enables you to develop expertise in ideas and= policies about the social and political phenomena that impact the material condition of injustices.

You investigate the local and global conditions that give rise to economic and ecological precarities and social= inequalities, as well as the practices that enable alternative economic approaches to wealth and labor, including wealth= sharing, land and food sovereignty, and solidarity economy. The program fuses interests in political economy,

structural inequalities and economic justice, allowing you to develop specialization and expertise in research and policy design in broad areas such as wealth sharing, income and land distribution, housing, food justice, employment and education.

This program complements the current graduate curriculum at ASU. It's structured to allow you to draw on a combination of core courses in justice and social inquiry, and coursework from units in the School of Social Transformation and throughout the university. The approach is transdisciplinary (i.e., inclusive of courses in a variety of disciplines but transcending disciplinary boundaries through an integrative core curriculum), intersectional (i.e., considering gender, sexual, race, class, disability and national relations), and transnational (courses that examine global and local concerns). It's designed to enable you to deepen your knowledge about, and develop research familiarity with, the many facets of the global economy and its adverse effects on social and planetary justice.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (6 credit hours)
Students must select one course from each of the following two areas of study:

Economic Justice (3 credit hours)
JUS 550 Gender, Race and Economic Justice (3) or
JUS 660 Globalization and Economic Justice (3)

Conducting Research in Communities (3 credit hours)
JHR 525 Critical Methodologies in Social Justice and Human Rights (3) or
JUS 633 Community Research (3)

Electives (9 credit hours)

Additional Curriculum Information
Students must select three elective courses on socio-economic justice from a restricted list; they should see the academic unit for the full list of possible courses.

Only one 400-level course may be listed on the plan of study. Students must have prior approval from the director of the certificate program to use any 400-level course.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts

• at least one letter of recommendation
• statement of purpose for pursuing the certificate
• writing sample demonstrating excellent writing and analytical skills
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted to a graduate degree program before being considered for the certificate program. International students residing in the United States on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this certificate program.

The letter of recommendation, statement of purpose and writing sample should be submitted to the justice and social inquiry program office.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

> Students completing the graduate certificate in socioeconomic justice will demonstrate the ability to conduct systematic analyses (quantitative and qualitative) of the social and political dimensions of global and local economics and their implications for social justice.
> Students completing the graduate certificate in socioeconomic justice will demonstrate knowledge of socio-economic and intersectional dimensions of justice, in relation to public policies at the local, national and global level.

Career opportunities

Graduates are prepared to work in government, law, justice-related organizations, and research think tanks; teach at community colleges; and pursue further graduate studies in justice-related fields.

Sociology, MA (LASOCMA)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

In the Master of Arts program in sociology, you receive advanced training as you prepare for applied careers in sociology.

You learn to use sociological knowledge and research methods to address real-world challenges in diverse professional

settings. This program emphasizes the practical application of sociological theory, quantitative and qualitative research, and data analysis to inform decision-making and organizational change across sectors such as public policy, social services, community development, health care, education and the private sector. You apply this knowledge to address social problems with an understanding of how social context influences well-being.

The online format provides easy access to rigorous and valuable content that informs best practices in improving lives. The program also includes a customizable culminating experience that allows you to focus your training in your areas of interest and work.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Sociology, BS

Family and Human Development, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (SOC 588)

Required Core (6 credit hours)
SOC 585 Sociological Theory (3)
SOC 586 or FAS 586 Masters Professional Development (3)

Electives (15 credit hours)
diversity course (3)
other elective coursework (12)

Other Requirements (6 credit hours)
SOC 500 Research Methods (3)
SOC 501 Social Statistics (3)

Culminating Experience (3 credit hours)
SOC 588 Capstone Culminating Experience (3) or FAS 588 Capstone Culminating Experience (3)

Additional Curriculum Information
Students should see the academic unit for a complete list of approved electives. The diversity course and other elective coursework are chosen with approval by the academic advisor. SOC 500 and SOC 501 may be replaced by equivalent courses with approval from the academic advisor.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts of all undergraduate and graduate coursework
• current resume or curriculum vitae
• a personal statement of goals relevant to the program
• two letters of recommendation (academic or professional)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement must be two to three pages, double-spaced, and it should address the applicant's professional goals, their strengths for success in the program, and any relevant professional experience or responsibilities they have completed.

Letters of recommendation must be from at least two individuals with a professional or academic background and connection to the applicant. Family members and friends do not meet this criterion. Letters of recommendation must be received electronically.

Applicants should see the program website for application deadlines and admission terms.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-sociology/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Apply evidence-based knowledge effectively in real-world settings.
Critically evaluate and interpret information, data, and research findings relevant to their field.
Communicate academic knowledge to diverse audiences.

Career opportunities

Professionals with expertise in research methodologies and data analysis coupled with an understanding of social and cultural issues and social change are sought-after in areas such as human services, human resources, education, public policy and community service in the social service, business and nonprofit sectors.

Career examples include:

advocate or mediator
case manager or social worker

community health worker or nonclinical health care staff
educator or sociology instructor
outreach coordinator or volunteer coordinator
probation officer
program manager
research coordinator
social and community services manager
sociologist

Although the program content is beneficial to therapists and counselors, this degree does not enable students to seek licensure as a professional counselor or therapist; that requires the completion of an additional program or degree.

Sociology, PHD (LASOCPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

In the Doctor of Philosophy program in sociology, you receive advanced training in theory, research methodology and substantive fields. You are prepared for teaching and research, with special emphasis on inequality and power; law and society; race and ethnicity; Latino sociology; health; and children, youth and families.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Required Core (6 credit hours)
SOC 603 Perspectives in Sociological Inquiry (3)
SOC 685 Applied Social Theory (3)

Theory (3 credit hours)
SOC 585 Sociological Theory (3)

Methods (3 credit hours)
SOC 591 Topic: Qualitative Research Methods (3)

Statistics (3 credit hours)

Other Requirements (3 credit hours)
SOC 791 Topic: Integrative Research (3)

Elective and Research (54 credit hours)

Culminating Experience (12 credit hours)
SOC 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's department and the Graduate College, 30 credit hours from a previously awarded master's degree can be used for this degree.

A minimum of 30 credit hours of the approved doctoral program, excluding dissertation and research hours, must be completed after admission to the program.

A qualifying exam, a written comprehensive exam, a prospectus and a dissertation are required.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in sociology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable bachelor's or master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• current resume or curriculum vitae
• personal statement detailing professional goals and research experiences
• writing sample
• three letters of recommendation from individuals familiar with the applicant's academic background
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

A personal statement is required. It must be no longer than four to five pages, double-spaced, and it must address the applicant's professional goals and reasons for applying to the program; describe strengths that will help the student succeed in the program and reach their professional goals; describe their research experience (a description of the master's thesis should be included, if applicable) and relevant responsibilities held; indicate personal research interests as specifically as possible; and include any additional information that will help the committee evaluate the application.

Three letters of recommendation are required, including at least two from instructors at the institution where the applicant completed undergraduate or graduate work. These letters should be from people who know the applicant as a student or in a professional capacity. Letters from family members or friends do not meet this criterion.

Students should see the program website for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Evaluate contemporary sociological perspectives in original written work.
- Apply sociological research methods to the analysis of data to create an original empirical research paper.
- Conduct research resulting in empirical papers that have an impact on relevant communities that are determined by the subjects of the research.

Career opportunities

Professionals with expertise in research methodologies and data analysis as well as an understanding of cultural and social change, and various social issues and phenomena, are sought-after in many areas, including human services, business, education and public policy, and the community service and nonprofit sectors.

Career examples include:

- demographer
- mediator
- research professional
- social or community service manager
- sociologist
- sociology instructor
- urban and regional planner

Spanish Linguistics, PHD (LASPALIPHD)

College/School: The College of Liberal Arts and Sciences
The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in Spanish linguistics offers advanced interdisciplinary graduate training that combines key areas in second language acquisition and teaching, applied linguistics, heritage language research and pedagogy, sociolinguistics and bilingualism. With the supportive guidance from your advisor, you are well prepared for a productive career in the discipline of Hispanic studies.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a foreign language exam, a written comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
SPA 543 Structure of Spanish (3)

Track (9 credit hours)

Electives or Research (41 credit hours)

Other Requirements (19 credit hours)
COE 502 Introduction to Data Analysis (3)
GRD 791 Seminar: Preparing Future Faculty and Scholars (PFx) (1)
SPA 544 Spanish Phonology (3)
SPA 546 Heritage Language Pedagogy (3)
SPA 598 Topic: Research Methods for Linguists (3)
SPA 598 Topic: Sociolinguistics (3)
SPA 598 Topic: Spanish Second Language Acquisition (3)

Culminating Experience (12 credit hours)
SPA 799 Dissertation (12)

Additional Curriculum Information
Students choose from two available tracks: Spanish heritage studies and sociolinguistics, or second language acquisition and teaching. Students should see the academic unit for the approved course list for each track.

Each candidate is expected to demonstrate a reading knowledge of one language other than English and Spanish. This

language requirement must be satisfied before the candidate is eligible to take the comprehensive examination.

Other Requirements courses may be substituted with approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used toward this degree. If students do not have a previously awarded master's degree, the 30 credit hours of coursework is made up of electives or research to reach the required 84 credit hours.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in Spanish or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement
• written statement
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Apply key concepts and theories to the analysis of Spanish linguistic phenomena.
Conduct relevant independent research projects in the field of Spanish Linguistics
Create curriculum plans focusing on teaching Spanish language and culture

Career opportunities

Graduates are prepared to enter an academic profession (teacher, scholar) or a profession outside academia. Professionals with the valued skills developed through this program can confidently move into business, diplomatic, government or international fields.

Career examples include:

editor
foreign language and linguistics teacher or professor
instructional design coordinator
interpreter or translator
lawyer
reporter or correspondent
social or community service manager
teacher or professor of area, ethnic or cultural studies

Spanish Literature and Culture, PHD (LASPANPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in Spanish literature and culture is intended to be as flexible as possible. You establish broad areas of competence by creating your own program of study with the supportive guidance of your advisor.

Graduate courses in literature and cultural studies focus on the production, distribution and reception of texts and their linguistics, either written or visual (e.g., photographs, films, visual narratives), as well as their linguistic, rhetorical and literary structure and functions, with an emphasis on literary theories and aesthetics. You have opportunities to focus on film and visual studies, sound studies, race studies, gender studies, sexuality studies, disability studies, Sino-Hispanic studies, colonial studies, a variety of comparative studies, environmental humanities and critical posthumanities.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
SPA 545 Concepts of Literary Criticism (3)

Literature and Culture Electives (51 credit hours)

Electives (6 credit hours)

Research (12 credit hours)
SPA 792 Research (12)

Culminating Experience (12 credit hours)
SPA 799 Dissertation (12)

Additional Curriculum Information
Coursework for the literature and culture electives must be SPA literature or culture content courses and approved by the student's supervisory committee. Students may not put SPA 596 Second Language Methodologies toward this requirement.

Each candidate is expected to demonstrate a reading knowledge of one language other than English and Spanish. This language requirement must be satisfied before the candidate is eligible to take the comprehensive examination.

The written and oral comprehensive examination, designed to ascertain the candidate's knowledge and orientation in the field of study and competence to proceed with the dissertation, is required at or near the end of coursework.

When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in Spanish or equivalent from a regionally accredited institution. Applicants from other academic backgrounds with relevant coursework in Spanish language and cultural studies also may be evaluated by the admissions committee.

Applicants must have a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.75 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• writing sample
• personal statement
• resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Submission of GRE scores is recommended but not required; this is especially advisable for applicants for the Spanish Graduate Fellowship Award. ASU does not accept the GRE® General Test at home edition.

Candidates for the program are required to demonstrate a near-native oral proficiency in Spanish and to show that they have developed a high order of expository prose in English and Spanish by presenting a term paper or a chapter of their master's degree thesis as their writing sample.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Analyze literary texts from various genres, movements and periods in Spanish
- Conduct a literature review in preparation for dissertation prospectus.
- Produce an original research project in the form of a dissertation.

Career opportunities

Professionals with this degree can confidently move into the academic profession; careers in education, including in museums and libraries; and professions outside academia, such as in the publishing industry, media, nonprofits and international relations. Skills developed through this program are valued for teaching positions, translation work or career opportunities in larger sectors, such as government, diplomacy and international business environments.

Career examples include these positions:

- area, ethnic or cultural studies teacher or professor
- curator
- editor
- digital humanities college coordinator
- foreign language and literature teacher or professor
- instructional design coordinator
- interpreter or translator
- lawyer
- reporter or correspondent
- social and community service manager
- study abroad manager

Spanish, MA (LASPANMA)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description

This Master of Arts program in Spanish provides a deep understanding of literature, art, history and pop culture within= Spanish-speaking communities worldwide. Taught primarily in Spanish, courses build your expertise in Spanish= linguistics, including grammar, sound systems and real-world language use.

With flexible electives, you can tailor your studies by examining topics such as Chicano poetry, contemporary Spanish-American short stories, culture and women writers in the early modern era, second language acquisition, second= language teaching methods and bilingualism. You shape your course plan based on previous training and career goals,= and you can choose your own learning modality by applying for either the in-person immersion or the ASU Online= experience.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Spanish, BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a portfolio, or
30 credit hours including the required capstone course (SPA 597)

Required Core (3 credit hours)
SPA 540 History of the Spanish Language (3)

Other Required (6 credit hours)
SPA 542 Studies in the Spanish Southwest (3) or SPA 546 Heritage Language Pedagogy (3) or SPA 598 Topic: Bilingualism (3)
SPA 586 Chicano/Chicana Short Novel (3) or SPA 576 Contemporary Spanish American Short Story (3) or SPA 568 Cervantes (3)

Restricted Electives (18 or 21 credit hours)

Culminating Experience (0 or 3 credit hours)
portfolio (0)
SPA 597 Capstone (3)

Additional Curriculum Information
Students seeking a master's degree in Spanish should consult with the respective graduate representative. Students in the immersion program must complete the portfolio, and students in the online program must complete SPA 597 Capstone.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in Spanish or another related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• resume or curriculum vitae
• writing sample (in Spanish)

• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants should provide a personal statement that is no more than two pages, summarizing past educational experiences and goals in pursuing a graduate degree.

Applicants should provide an academic writing sample such as an academic term paper, critical paper or research paper written in Spanish of at least six pages in length that was prepared in an upper-division or graduate Spanish course. Applicants may update an older paper to better demonstrate a current level of proficiency, write a completely new paper, or enroll in a graduate-level course as a nondegree-seeking student in preparation for applying for this program.

Two letters of recommendation are also required from a previous instructor or professor, work supervisor or character reference (anyone who can speak to the applicant's academic skill, character, motivation and persistence).

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/spanish-ma/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Critically evaluate cultural productions from Spanish or, Spanish-American, or Mexican-American literature.
Critically evaluate linguistic aspects of a specific area within the Spanish language.
Analyze the historical evolution of Latin to Spanish language.

Career opportunities

Professionals with this degree can confidently move into further academic, business and international fields. Skills developed through this program are valued for teaching positions, including in museums and libraries; translation work; work in a larger sector such as governmental, diplomatic and international business; and for careers in publishing, media, nonprofits and international relations.

Career examples include:

area, ethnic and cultural studies teachers and professors
foreign language and literature teachers and professors
historians
interpreters and translators
lawyers
reporters and correspondents
social and community service managers

Statistics and Data Science, Certificate (GCSTATCE)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The statistics and data science certificate program provides statistical training, whether you are a graduate student at= ASU or a working professional in the Phoenix metropolitan area.

The program draws upon a variety of faculty research and teaching interests from various academic units, so programs= of study can be tailored to reflect your individual needs and goals.

This certificate program is part of the shift in the School of Mathematical and Statistical Sciences' statistics curriculum= to include data science coursework. In particular, several new machine learning classes are available to you as a= certificate student.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (6 credit hours)
STP 530 Applied Regression Analysis (3) (or ECN 525 or IEE 578)
STP 531 Applied Analysis of Variance (3) (or IEE 572)

Electives (9 credit hours)

Additional Curriculum Information
The nine elective credit hours are taken from a set of courses approved by the School of Mathematical and Statistical= Sciences.

Students must have a GPA of at least 3.00 (scale is 4.00 = "A") in the courses that apply to the certificate.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's= degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this certificate program.

Applicants should have completed the following courses (equivalents at ASU are given in parentheses):
• introductory applied statistics (ECN 221, STP 226 or STP 420)
• one semester of calculus (MAT 210, MAT 265 or MAT 270)

Applicants are also required to have some computer literacy, with knowledge of a programming language, a spreadsheet program or a statistical software program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Apply regression analysis and analysis of variance concepts, and evaluate when these methods are appropriate.
Apply regression analysis and analysis of variance to analyze and solve real-world statistical problems.

Career opportunities

Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market. U.S. News & World Report ranks data scientist as No. 8 in their list of best jobs in 2025 on the basis of reported low-stress levels, healthy work-life balance, and solid prospects for advancement.

Graduates have knowledge that may be applied in a broad variety of career opportunities in fields as diverse as business, finance, engineering, technology, education, marketing, government and other areas of the economy. These are just a few of the top career opportunities supported by the statistics certificate program:

business consultant or analyst
data analyst
financial analyst
market research analyst
statistician

Statistics, MS (GCSTATMS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Spring semester admission is limited to students in the accelerated master's program.

Program description

The Master of Science program in statistics draws upon a wide spectrum of faculty research and teaching interests, including from faculty outside the school. As a result, your plan of study can be transdisciplinary and tailored to reflect your individual needs and goals.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Mathematics (Statistics), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a portfolio - Professional Track, or
30 credit hours and a thesis - Academic Track, or
30 credit hours including the required applied project course (STP 593) - Academic Track, or
30 credit hours, a written comprehensive exam and an oral comprehensive exam - Academic Track

Required Core (3 credit hours)
ECN 525 Applied Regression Models (3) or
IEE 578 Regression Analysis (3) or
STP 530 Applied Regression Analysis (3)

Track Coursework (9 or 12 credit hours)

Electives (9-18 credit hours)

Culminating Experience (0-6 credit hours)
ECN 599 or IEE 599 or STP 599 Thesis (6)
STP 593 Applied Project (3)
oral and written comprehensive exam (0)
portfolio (0)

Additional Curriculum Information
Students in the MS program in statistics are required to select one of the two available tracks: the academic track or the professional track. Students should speak with their advisor regarding the selection of a track and elective coursework

based on the target career.

Students in the professional track complete the portfolio culminating experience, and students in the academic track choose from an applied project, thesis or comprehensive exams.

Prerequisites may not be used to complete the 30 credit hours required for the degree.

Students who select the thesis or applied project option must defend it through an oral examination. The thesis must conform to the Graduate College format requirements.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in mathematics, statistics or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of education and career goals
• three letters of recommendation
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants should have completed the following courses (equivalents at ASU are given in parentheses), and applicants who lack any of these prerequisite courses must complete them before being considered for admission:

• advanced calculus (MAT 371)
• calculus (MAT 270, MAT 271 and MAT 272)
• computer programming (CSE 100)
• introductory statistics (STP 420)
• linear algebra (MAT 342)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Apply advanced statistical methods to analyze data.
Evaluate statistical approaches to problem-solving using the underlying theory of advanced statistical methods.
Apply advanced statistical skills to real-world problems.

Career opportunities

Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market.

Graduates with a master's degree in statistics can pursue a broad variety of careers in fields as diverse as business, finance, engineering, technology, education, marketing, government and other areas of the economy. These are just a few of the top career opportunities:

actuary
business consultant or analyst
data scientist
financial analyst
market research analyst
software engineer
statistician

This program also provides preparation for students interested in doctoral study and a faculty-track academic career.

Statistics, PHD (LASTPPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

As a science, statistics focuses on data collection and data analysis by using theoretical, applied and computational tools. The Doctor of Philosophy program in statistics reflects this breadth in tools and considerations while giving you the flexibility to tailor your program of study to reflect individual interests and goals. Research can be of a disciplinary or transdisciplinary nature.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
STP 526 Theory of Statistical Linear Models (3)

Other Requirements (15 credit hours)
IEE 572 Design Engineering Experiments (3) or STP 531 Applied Analysis of Variance (3)
IEE 578 Regression Analysis (3) or STP 530 Applied Regression Analysis (3)
STP 501 Theory of Statistics I: Distribution Theory 3 (3)
STP 502 Theory of Statistics II: Inference (3)
STP 527 Statistical Large Sample Theory (3)

Electives (42 credit hours)

Research (12 credit hours)
STP 792 Research (12)

Culminating Experience (12 credit hours)
STP 799 Dissertation (12)

Additional Curriculum Information
Electives are chosen from statistics or related area courses approved by the student's supervisory committee.

Other Requirements courses may be substituted with department approval.

Students must pass:
• one qualifying examination and coursework in analysis
• a written comprehensive examination
• a dissertation prospectus defense

Students should see the department website for examination information.

Each student must write a dissertation and defend it orally in front of five dissertation committee members.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in mathematics, statistics or a closely related area from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of education and career goals
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current

residency.

Completion of the following courses (equivalents at ASU are given in parentheses) is required. Applicants who lack any of these prerequisite courses must complete them before being considered for admission.

• calculus (MAT 270, 271 and 272)
• advanced calculus (MAT 371)
• linear algebra (MAT 342)
• computer programming (CSE 100)
• introductory applied statistics (STP 420)

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Proficient in applying advanced statistical methods in coursework and research.
Address an original research question in statistics.
Able to complete original research in statistics.

Career opportunities

Statistical analysis and data mining have been identified as two of the most desirable skills in today's job market. Data, and the analysis of data, is big business, and the Department of Labor projects that overall employment of mathematicians and statisticians is projected to grow 8% from 2024 to 2034, much faster than the average for all occupations.

For graduates of the doctoral program in statistics, that means a broad variety of career opportunities in fields as diverse as business, finance, engineering, technology, education, marketing, government and other areas of the economy.

These are just a few of the top career opportunities available for a graduate with a doctoral degree in statistics:

actuary
business consultant or analyst
data science professor, instructor or researcher
data scientist
faculty-track academic
financial analyst
market research analyst
software engineer
statistician

Teaching English to Speakers of Other Languages, MTESOL (LAENGMTESL)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description

If you seek to build a career in the international field of teaching English as a second or additional language, the Master= of Teaching English to Speakers of Other Languages program is designed for you. This program empowers you with= scholarly and professional knowledge in four core areas: language, learning, teaching and research.

You dive into a wide variety of key topics that reflect the latest trends and challenges in language education, such as= second language acquisition, computer-assisted language learning, critical pedagogy, curriculum design, global= Englishes, English grammar, intercultural rhetoric, discourse analysis, second language phonology and more. You are= equipped with the expertise to thrive in research and practical application, and in various educational settings.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered= as an accelerated bachelor's plus master's degree with:

English (Linguistics), BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree= program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (LIN 597) and a foreign language exam

Required Core (12 credit hours)
LIN 501 Approaches to Research (3)
LIN 510 Linguistics (3)
LIN 520 Second-Language Acquisition Theories (3)
LIN 521 Methods of Teaching English as a Second Language (3)

Other Requirement (3 credit hours)
LIN 584 Internship (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)
LIN 597 MTESOL Capstone (3)

Additional Curriculum Information
The foreign language requirement must be completed during the program before the master's degree is awarded.

The capstone is overseen by a director chosen from the Department of English linguistics and TESOL faculty.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution. Applicants may have undergraduate majors in the following fields, but are not limited to these: anthropology, applied linguistics, cognitive science, communication, comparative languages and literatures, education, English literature, history and law.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of purpose
• resume
• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English and has not graduated from an institution of higher learning in the United States must provide proof of English proficiency regardless of their current residency. Applications are not processed without valid proof of English proficiency; official scores must be sent to ASU for the application to be processed.

Applicants must submit a one-page, single-spaced, well-considered statement of purpose in which they explain how their experience and training have prepared them for the program, their aims and purposes in pursuing the MTESOL degree, and their plans for the future.

Two letters of recommendation are required. A third letter is optional. Because the letters should provide a clear picture of the applicant's potential for successfully completing a master's degree, at least one of the letters should be from a university professor who is familiar with the applicant's academic work and with master's-level academic programs.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-teaching-english-speakers-other-languages/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Apply theories and pedagogical knowledge to evaluate and create real-world teaching, materials development, or related professional practices in TESOL.
Synthesize and apply theories, research and key concepts in second language learning and development.
Evaluate and apply theories, key concepts, methods and materials in second language teaching.

Career opportunities

With TESOL professionals in high demand both in the U.S. and internationally, graduates' specialized skills make them sought-after candidates in a variety of fields. The ability to teach, design curriculum or consult on language programs can lead to exciting career paths in diverse settings. Students can learn more about the benefits of online English language learning master's degrees athttps://www.usnews.com/education/online-education/english-language-learning-masters-degree?edu-2401-variation=true.

Career examples include:

- adult education teacher
- consultant
- educational materials designer or developer
- English language or foreign language teacher
- international aid worker
- program and curriculum developer
- refugee English coordinator
- teacher trainer

Transborder Studies, MAS (LATCLMAS)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

If you are interested in border issues and communities, the Master of Advanced Study in transborder studies is designed for you. You learn from interdisciplinary scholars in both the social sciences and humanities to develop your individualized plan of study and focus area.

You have the opportunity to engage in innovative research or applied experiences, or you may focus your plan of study on a more professional and applied track.

The program has historically been grounded in and inspired by the geographical specificity of the U.S.-Mexico border. Given the massive scale of globalization in the 21st century and its influence on local, regional, national, subnational and international environments, the program examines transborder regions and populations around the world, including metaphorical, linguistic and cultural borders, as well as patterns and implications of immigration and migration.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Transborder Chicana/o and Latina/o Studies (US and Mexican Regional Immigration Policy and Economy), BA

Transborder Chicana/o and Latina/o Studies, BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply

(https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (TSS 593), or
30 credit hours including the required capstone course (TSS 596)

Required Core (6 credit hours)
TSS 502 Foundations of Transborder Studies (3)
TSS 504 Theories and Methods for Transborder Research (3)

Electives (18 or 21 credit hours)

Culminating Experience (3 or 6 credit hours)
TSS 593 Applied Project (3) or
TSS 596 Transborder Studies Capstone (3) or
TSS 599 Thesis (6)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in the social sciences, the humanities, the sciences, health, education, business or a professional field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• writing sample
• resume or curriculum vitae
• three letters of recommendation (colleagues or professors)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Synthesize relevant research to develop a literature review on the topics of transborder and transnational communities and settings
Conduct research or produce creative work that shows critical engagement with social issues pertaining to Mexican-origin, Central American, and/or other Latina/o populations in the U.S.-Mexico borderlands
Communicate findings, creations, or productions to academic and public audiences.

Career opportunities

Graduates are well suited for positions in local, state, national, and nongovernmental organizations and international agencies. They are also prepared for research opportunities or a doctoral degree program.

Transborder Studies, PHD (LATCLPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The Doctor of Philosophy program in transborder studies develops you to be a part of the next generation of scholars who advance research and scholarship, and their application, in transborder and transnational contexts.

You gain foundational knowledge in transborder, transnational and border issues from interdisciplinary scholars in anthropology, history, literature, political science, public policy, sociology, urban planning, and women and gender studies.

Faculty in the program approach transborder studies in a way that has been historically grounded in and inspired by the geographical specificity of the U.S.-Mexico border and the Chicano, Chicana, Latino and Latina populations. Arizona State University's proximity to the U.S.-Mexico border and the faculty's expertise make the university the ideal place of study. Given the massive scale of globalization in the 21st century and its influence on local, regional, national and transnational environments, the program is expanding to examine other transborder regions and populations.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (6 credit hours)
TSS 502 Foundations of Transborder Studies (3)
TSS 503 Epistemologies and Transborder Thought (3) or TSS 504 Theories and Methods for Transborder Research (3)

Electives and Research (66 credit hours)

Dissertation (12 credit hours)
TSS 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and the Graduate College, 30 credit hours from a previously awarded master's degree can be used for this degree. If students do not already have a master's degree in a related field, the remaining 30 credit hours are made up of electives and research that equal the 84 credit hours required for the doctoral program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a master's degree in a related field such as anthropology, economics, education, sociology, literature or psychology from a regionally accredited institution. Applicants who have earned a master's degree in another discipline must align their scholarly interests with the program's mission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• writing sample
• resume or curriculum vitae
• three letters of recommendation (from academicians)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should include an explanation of past experiences and current scholarly interests but concentrate on potential areas of research that draw on the specific resources of the department and faculty.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Analyze transborder and transnational issues using appropriate theoretical and methodological approaches.
Conduct research or produce creative work related to issues affecting transborder communities
Effectively communicate findings, creations, or productions orally to academic and non-academic audiences.

Career opportunities

Graduates have a number of career options, depending on their plan of study. Graduates with an academia-focused= trajectory may pursue careers as faculty members or in research. Opportunities for graduates of a more professional= and applied track include positions with local, state, national or international agencies.

Transdisciplinary Transportation Studies, Certificate (GCTRANSCE)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

Transportation has emerged as one of the highest priority issues for policymakers, planners, employers and citizens.

To respond to this challenge, the transdisciplinary transportation studies certificate program builds upon existing ASU= programs in a variety of disciplines offered in five colleges and two campuses, giving you as a current or future= transportation professionals the opportunity to pursue a wide range of transportation-related issues from a= multimodal, interdisciplinary perspective.

You collaborate with researchers and professionals across academic disciplines (these include policy, planning,= economics, technology, behavior, location, land use, equity and sustainability) who employ different research methods= and are focused on transport modes that range from walking to air travel.

The program is intended to be either a specialization within an existing master's degree or a stand-alone nondegree= program.

ASU is a transdisciplinary hub for innovative and integrative transportation research and education. This work= contributes to the development of smart, sustainable and socially equitable transportation systems. These systems= leverage technology to foster resilient communities and high quality of life, locally and globally.

STEM-OPT extension eligible: No

Degree requirements

16 credit hours including the required applied project course (PUP 593)

Required Core (3 credit hours)
PUP 564 Transportation Systems Professional Seminar (3)

Transportation Electives (9 credit hours)

Other Requirement (1 credit hour)
CEE 591 Seminar: Interdisciplinary Transportation Seminar (1)

Culminating Experience (3 credit hours)
PUP 593 Applied Project (3)

Additional Curriculum Information
For Transportation Electives, students take three credit hours from each category, for a total of nine credit hours.

• from any school in The College of Liberal Arts and Sciences

• from a college outside of The College of Liberal Arts and Sciences
• from subject prefixes CEE, GIS, GPH, PAF, PUP, SOS

Elective coursework is taken in consultation with the academic advisor.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• letter of interest
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants who wish to seek a graduate degree in any of the cooperating departments and who are not currently enrolled at ASU must complete the full graduate school application process as specified by the department of interest in addition to the online application for the transdisciplinary transportation studies certificate. The applications are evaluated separately.

Applicants are asked to explain in their letter of interest what they expect to gain from the transportation studies certificate program and the types of courses in the program that would be the most helpful in meeting their objective.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Professionals with expertise in transportation systems are in high demand across sectors and industries, including consulting firms, government agencies and community organizations. Skills in the analysis of transportation

alternatives and interrelationships with other disciplines are valuable to businesses and institutions relying on an integrated systems approach to solving complex real-world problems.

Career examples include:

- airfield operations specialist
- logistics analyst
- supply chain manager
- transportation analyst
- transportation engineer
- transportation planner

Translation Studies, Certificate (LALTSGRCT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The graduate certificate in translation studies is a transdisciplinary program offering coursework that intensively= engages with translation practice, issues related to the cultural role of the translator and translation, studies of the= variety of theoretical approaches to translation, and studies of transhistorical and cross-cultural theories of translation.= These areas of emphasis enable you to gain expertise in practical and theoretical knowledge of the field of literary and= practical (commercial) translation and to engage in developing new models for the practice of translation today.

The program offers you the opportunity to develop an understanding of intercultural intersections and= transdisciplinary approaches to the practice of translation and advanced training and mentorship.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours including the required applied project course (ENG 593 or SLC 593)

Required Core (6 credit hours)
ENG 550 Translation (3)
SLC 551 Global Approaches to Translation (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)
ENG 593 Applied Project (3) or SLC 593 Applied Project (3)

Additional Curriculum Information
For electives, students should see the academic unit for the approved course list.

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• writing sample
• personal statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted to a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this certificate program.

The personal statement should be no longer than two pages and should summarize past educational experiences and goals in pursuing a graduate certificate.

Applicants should have knowledge of a language other than English --- a minimum of six semesters of a second language or the equivalent (for example, advanced placement in high school). Applicants who have passed a language proficiency exam and achieved an advanced level in the target language may also apply.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Adeptly translate a prose or poetic text or texts from a source language into a target language.
Interpret existing translations through key concepts used in translation studies.

Career opportunities

Professionals with this certificate can confidently move into academic, business and international fields. Skills developed through this program are valued for teaching positions, translation work or work in a larger sector, such as in governmental, diplomatic or international business environments.

Career examples include:

archivist

editor
foreign language and literature teacher or professor
historian
interpreter or translator
lawyer
reporter or correspondent
social and community service manager

Urban Planning, PHD (ARPUPPHD)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Program description

The School of Geographical Sciences and Urban Planning prepares you to become a scholar and leader in urban planning. You pursue new knowledge across several areas, including urban climate, transportation, housing, environmental planning, and sustainability. In the Doctor of Philosophy program in urban planning, you have opportunities to interact with leading planning faculty, scholars and mentors as you develop strong foundations in the discipline. You conduct research alongside faculty; take classes focused on current issues in the field; complete research and reports for local clients; and start building your professional network across the academic, scholarly, public, private and nonprofit sectors.

You benefit from a wide variety of coursework and research opportunities in five broad interdisciplinary themes that span the expertise of the faculty within the school:

• city building and urban structure
• environmental and resiliency planning
• housing, neighborhoods and community development
• spatial analytics and smart cities
• transportation planning and policy

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (6 credit hours)
PUP 710 Current Planning Theory and Practice (3)
PUP 724 Planning Methods for Doctoral Students (3)

Electives and Research (64 credit hours)

Other Requirement (2 credit hours)
PUP 701 Urban Planning Colloquium (1)

Culminating Experience (12 credit hours)
PUP 799 Dissertation (12)

Additional Curriculum Information
Electives and research courses should be selected in consultation with the program advisor. Students must complete at least 12 credit hours of 500-, 600- or 700-level courses offered by SGSUP with the prefixes PUP, GPH, GCU or GIS.

Students take two semesters of PUP 701, for a total of two credit hours.

With approval of the student's supervisory committee and the Graduate College, 30 credit hours from a previously awarded master's degree can be used for this degree.

Up to six credit hours of 400-level courses may be applied to the plan of study.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a master's degree in a related field such as urban studies, geography, environmental studies, sustainability, architecture, public policy or public administration from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program and a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement must be no longer than 600 words and explain the applicant's interest in planning at the doctoral level; academic and professional background and, if appropriate, preparation for the selected area of specialty, which may include written samples or a portfolio; and educational and professional objectives.

Letters of recommendation should be from three faculty members who can attest to the applicant's academic achievements.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Demonstrate advanced knowledge of theory and existing scholarship in urban planning.
- Demonstrate advanced understanding of the research methods used in their area(s) of specialization, as defined by their reading list and major/minor subfields.
- Conduct research resulting in an original contribution to knowledge in urban planning, and successfully communicate findings in their dissertation and defense.

Career opportunities

The PhD program in urban planning educates scholars for positions in leading universities; research institutions; nongovernmental organizations; international multilateral institutions; and national, state and local governments. The program provides a strong foundation for undertaking research in planning, urbanism, urban design and urban sustainability.

Professionals with expertise in planning research, theory and practice are in high demand across sectors and industries, including institutions of higher education, planning consulting firms and community organizations. Skills in environmental impact assessment, geographical data analysis and community resiliency planning are valuable to organizations and institutions that rely on research-based approaches to solve complex problems.

Career examples include:

- chief sustainability officer
- city and regional planning aide
- environmental restoration planner
- transportation planner
- urban and regional planner
- urban planning teacher, postsecondary level

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential= licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for= licensure or certification in another state. For more information, students should visit the ASU professional licensure= (https://admission.asu.edu/academics/licensure) webpage.

Urban and Environmental Planning, MUEP (ARURBMUEP)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Program description

The Master of Urban and Environmental Planning program trains you, as a creative, skilled and ethical professional= planner, through real-world, transdisciplinary learning. In the program, you develop the tools and judgment to navigate= complex systems, engage communities, and address pressing challenges across environmental, social, economic and= political domains. The program emphasizes building strong foundations in theories of planning; methods of analysis;= planning processes; and creative implementation of planning tools, strategies and approaches. These foundational= skills are complemented by opportunities to apply your knowledge to real-world planning challenges, including= coursework that integrates local community partnerships and integrated networking and professional development= throughout the program. The program is accredited by the Planning Accreditation Board, enabling you to qualify for= certification by the American Institute of Certified Planners with two years of professional practice.

The MUEP program offers you a valuable opportunity to integrate urban and environmental aspects of planning in a rapidly developing metropolitan area. Cohort-driven classes, one-on-one advising and a common core of courses that translate knowledge into practice give you opportunities to build technical skills and grow your professional network.

As a part of the School of Geographical Sciences and Urban Planning, the program is enriched by the school's planning faculty, with expertise across the discipline including transportation, environmental planning, housing and community development, as well as a transdisciplinary faculty with expertise in geography, geographic information systems, urban climate and sustainability. You have access to a wide selection of electives within the school, enabling you to explore a range of contemporary planning issues that align with your interests, as well as complementary courses in allied fields of study. The program's dedicated advising model supports you in selecting course work, within the school and across the university, that aligns with your professional goals. The program is also complemented by the participation of faculty from other disciplines within the university and collaboration with leading planning practitioners in the Phoenix area.

Faculty research and teaching interests focus especially on the following broad interdisciplinary themes:

• city building and urban structure
• environmental and resiliency planning
• housing, neighborhoods and community development
• spatial analytics and smart cities
• transportation planning and policy

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.
This degree is also offered as a concurrent program with the following:

Public Policy, MPP

Public Administration, MPA

Sustainability Solutions, MSUS

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Geography, BS

Geography, BA

Geography (Meteorology-Climatology), BS

Geographic Information Science, BS

Urban Planning, BSP

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

47 credit hours and a thesis, or
47 credit hours including the required applied project course (PUP 593), or
47 credit hours including the required capstone course (PUP 580)

Required Core (21 credit hours)
PUP 501 Planning, History and Theory (3)
PUP 520 Planning Practice, Ethics and Processes (3)
PUP 531 Planning and Development Control Law (3)
PUP 544 Urban Land Use Planning (3)
PUP 571 Quantitative Methods for Planners (3)
PUP 579 Qualitative Methods for Planners (3)
PUP 642 Urban and Regional Economic Analysis (3)

Electives (14 or 15 credit hours)

Other Requirements (6 credit hours)
PUP 542 Environmental Planning (3)
PUP 576 GIS Workshop for Planners (3)

Culminating Experience (5 or 6 credit hours)
PUP 580 Practicum: Planning Workshop (5) or
PUP 593 Applied Project (5) or
PUP 599 Thesis (6)

Additional Curriculum Information
Students take either 14 credit hours of electives for the thesis option or 15 credit hours of electives for the nonthesis option.

Elective courses should be selected in consultation with your program advisor. Students must complete at least six credit hours of PUP 500- or 600-level coursework and at least three credit hours of other courses offered by SGSUP with the prefixes PUP, GPH, GCU or GIS.

Students take PUP 576 or another methods course approved by the department.

Students take PUP 542 or another environmental planning course approved by the department.

Online students must take PUP 580 as their culminating experience.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants should have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program. An applicant with a cumulative GPA between 2.50 and 3.00 (scale is 4.00 = "A") may still be considered.

All applicants must submit:

• graduate admission application and application fee
• official transcripts
• personal statement
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should be no longer than 600 words and must address the applicant's:

• academic and professional background and, if appropriate, preparation for the selected area of specialty (This may include written samples or a portfolio, but they are not required.)
• career goals, including how a master's degree in urban and environmental planning from the School of Geographical Sciences and Urban Planning will help achieve those goals
• educational objectives
• interest in planning

Letters of recommendation are not required for admission to the MUEP program; however, prospective students are encouraged to submit up to three letters to strengthen their application or provide necessary context to the application. Recommenders may include professional supervisors or colleagues, or academic supervisors (e.g., former professors and instructors) who can speak to the applicant's academic or professional experiences and qualifications to pursue a graduate degree.

Examples of applicants who may consider submitting letters of recommendation include:

• returning students (more than five years after completing an undergraduate degree)
• students with a bachelor's degree in an unrelated field
• students with a cumulative GPA between 2.50 and 3.00
• students pursuing a career change from an unrelated field

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/urban-environmental-planning/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Apply quantitative and/or qualitative data collection and analysis methods appropriately.
Effectively communicate planning concepts and recommendations through written reports, graphic visualization, and oral presentations.
Apply ethical planning principles in course projects.

Career opportunities

Professionals with expertise in planning theory and practice are in high demand across sectors and industries, including planning consulting firms, local governments and community organizations. Skills in environmental impact

assessment, geographical data analysis and community resiliency planning are valuable to businesses and institutions that rely on practical, research-based approaches to solve complex problems.

Alumni of the MUEP program work as professional planners in a variety of public, private and nonprofit settings. Career examples include:

city and regional planning aide
geospatial information technologist
social services director
sustainability specialist
transportation planner
urban and regional planner

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

War and Strategy, MA (LAWASMA)

College/School: The College of Liberal Arts and Sciences

Campus: ASU at Washington

Program description

The Master of Arts program in war and strategy at Arizona State University is designed to serve the Department of Defense's Strategic Thinkers Program, a premier graduate-level initiative that prepares select mid-career officers and civilians for senior leadership in national security and defense strategy. The program immerses military leaders in the evolving trends of war and strategy, with particular emphasis on their impact on effective decision-making and the execution of military operations. The program's joint composition --- drawing from the Army, Air Force, Navy, Marine Corps and Space Force --- cultivates an interdisciplinary understanding of war, strategy and policy that directly supports the strategic needs of the U.S. government.

You are educated in the reciprocity of war and strategy, warfighting and interagency or coalition-level strategic decision-making. You emerge with advanced strategic thinking skills, prepared to excel in demanding leadership roles. These appointments call for the ability to confront unanticipated security challenges, craft innovative approaches, and engage senior leaders on matters of strategy and military operations in the context of national policy objectives.

STEM-OPT extension eligible: No

Degree requirements

32 credit hours including the required capstone course (CEL 571)

Required Core (18 credit hours)
CEL 521 War and Strategy in Theory and Practice (4)
CEL 522 Foundations of Military Coalitions (4)
CEL 523 War and Strategy in Great Power and Competition (4)

CEL 524 Contemporary Challenges in War and Strategy (4)
CEL 570 War and Strategy Wargames (2)

Electives (12 credit hours)

Culminating Experience (2 credit hours)
CEL 571 Capstone Course War and Strategy Staff Ride (2)

Additional Curriculum Information
Elective courses include CEL, GSC and IAL coursework. Students should consult their academic advisor for a complete list of elective courses.

The capstone includes an on-site historical analysis of battlefields, and combines rigorous historical analysis, strategic reflection and experiential learning through an international staff ride examining a pivotal campaign in modern warfare.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• one letter of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL (iBT)®, or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

Applicants who are interested in pursuing the MA in war and strategy must submit a letter of recommendation from the Secretary of Defense. Applicants are only eligible for the program if they receive a recommendation and funding from the United States Department of Defense.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Global opportunities

Global experience: As part of the capstone experience, students participate in a two-week international staff ride that explores a pivotal campaign in modern warfare. Traveling abroad, they analyze strategy, leadership and decision-

making in the field --- integrating historical study with hands-on learning. Each year's destination focuses on a different theater of war, offering students a unique global perspective on military operations and strategy.

Career opportunities

Graduates of this program are among the most competitive and capable officers in the U.S. military, with most slated for brigade-level command or equivalent key leadership positions. Those not immediately assigned to command can serve as executive assistants or advisors to the nation's most senior general and flag officers or civilian leaders within the Department of Defense, joint staff and combatant commands. The war and strategy program provides the intellectual foundation, analytical rigor and applied experience necessary to equip these future commanders and senior advisors to lead effectively in the complex security environment of today's world.

Some potential career opportunities include:

- doctrine and concept developer
- legislative liaison
- national security council staff
- professional military education instructor
- strategic planner at combatant commands or major command headquarters
- strategic advisor to general or flag officers
- strategic advisor to senior civilian leadership

World War II Studies, MA (LAWWSMA)

College/School: The College of Liberal Arts and Sciences

Campus: Online

Program description

Through advanced interdisciplinary study in the Master of Arts program in World War II, you explore the causes and effects of World War II; the global nature of the conflict; the evolution of governance and political systems; and human responses to conflict, violence and genocide. Program coursework also helps you contextualize current events through study of the war's historical, political and cultural legacies.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required capstone course (WWS 597)

Required Core (12 credit hours)
WWS 561 Decision Points I (3)
WWS 562 Decision Points II (3)
WWS 563 The Lived Experience of World War II (3)
WWS 566 World War II Today (3)

Electives or Research (9 credit hours)

Other Requirements (6 credit hours)

HST 454 History of Genocide (3) or WWS 564 The Global War (3)
WWS 460 World War II (3) or HST 460 World War II (3)

Culminating Experience (3 credit hours)
WWS 597 Capstone (3)

Additional Curriculum Information
Students should refer to the academic unit for the approved electives and research course list.

For the Other Requirements courses, students must take either HST 454 or WWS 564. If a student chooses to take HST 454 to fulfill the requirement, they may take WWS 564 as an elective. Likewise, if a student chooses to take WWS 564 to fulfill a requirement, they may take HST 454 as an elective. Other coursework may be used with approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants must have earned a bachelor's degree (or equivalent) or master's degree from a regionally accredited college or university. Students from any field who demonstrate potential are considered for admission.

Competitive applicants typically have a 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their undergraduate coursework. Applicants with a lower GPA might still be accepted and should address lower GPAs in their personal statement.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• letter of intent or written statement
• written responses to unit-developed prompts
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

An applicant's potential for success is determined by the quality of writing and clarity of thought demonstrated in the letter of intent and responses to the application questions. During the application process, applicants are prompted to write short responses to World War II-related questions. These responses serve to demonstrate to the committee a student's writing ability and potential for thoughtful participation in degree coursework.

Letters of recommendation that point to a student's ability to deliver high-quality academic work and persist to an academic goal receive priority.

An applicant's GPA and academic performance, particularly in humanities coursework, also indicate potential.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/world-war-ii-studies-ma/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Able to analyze the decision-making process within the larger context of the Second World War.
Able to evaluate the global, social, cultural, economic and political legacy of World War II since 1945, with particular attention to differing narratives.
Analyzing the causes, course and memory of the genocidal nature of World War II, will be able to compose evidence-based arguments grounded in the analysis of sources.

Career opportunities

Graduates have the fundamental training needed for careers in research, teaching, public history, government service and a host of other positions in the public, private and nonprofit sectors.

Graduates serve as first-rate historians, highly qualified teachers at the elementary and secondary levels and at community colleges, researchers and consultants, archivists, foreign service officers, management professionals, community organizers, and public servants.

Other career examples include:

archivist
college instructor
editorial and publishing professional
museum director and staff
nonprofit director
research professional

Medicine and Medical Engineering, John Shufeldt School of

Medicine, MD (MDMEDMD)

College/School: John Shufeldt School of Medicine & Med Engineering

Campus: Downtown Phoenix

Program description

The Doctor of Medicine program prepares you to become a licensed medical doctor with a comprehensive foundation in clinical skills, biomedical and engineering sciences. Through small-group learning, laboratory and simulations, clinical rotations and utilizing advanced medical technologies, you gain expertise in basic sciences, organ systems and clinical medicine. The program is fully integrated with medical engineering, allowing you to explore innovations such as biomedical devices, robotics and artificial intelligence in health care throughout foundational and clinical curricula. This interdisciplinary approach enhances clinical problem-solving and the application of engineering to improve patient care. Emphasizing lifelong learning, critical thinking and technical proficiency, the program ensures you stay at the forefront of medical advancements and technological innovations.

You also complete the requirements for the MS in Medical Engineering.

Accreditation
The John Schufeldt School of Medicine and Medical Engineering, Doctor of Medicine program has received preliminary accreditation by the Liaison Committee on Medical Education (LCME). This is the U.S. Department of Education-recognized accrediting body for programs leading to an MD degree in the United States.

STEM-OPT extension eligible: No

Degree requirements

160 credit hours, national board exams and an internal comprehensive clinical exam

Pre-Clerkship (First 16 months; 69 credit hours): Students gain a robust foundation in biomedical sciences, clinical skills and medical engineering through small group active learning and early clinical exposure. Courses weave together core medical concepts with real-world applications of artificial intelligence, or AI, health systems science and the health humanities

Clerkship (12 months; 48 credit hours): Six core clerkships are paired with longitudinal family medicine experiences and four one-week engineering clinical clerkships. Thematic Innovation weeks reinforce foundational sciences and explore advanced clinical and engineering applications. Core clerkships include Internal Medicine, Surgery, Obstetrics and Gynecology, Pediatrics, Neurology, Psychiatry, Family Medicine, and the Engineering Clerkship. This phase culminates with USMLE Step 1.

Post-Clerkship (Final 18 months; 43 credit hours): Students personalize their education with electives, selectives, advanced clerkships, and a longitudinal capstone project in medical engineering, preparing them to lead in both clinical practice and innovation. During this phase, students will be required to complete four-week rotations in Emergency Medicine, Critical Care, two Sub-Internships, and electives. Residency preparedness will occur throughout the phase, including a three-week Transition to Residency course prior to convocation.

Admission requirements

This program is only available to U.S. citizens and permanent residents.

Medical College Admissions Test
To be considered for admission to the School of Medicine and Medical Engineering at ASU, applicants must have taken the MCAT and scored a minimum of 504. The MCAT must be taken no more than three years before matriculation to be

eligible.

Recommended coursework
The school does not require specific majors or coursework for entry into the concurrent degree program. However, to maximize student preparedness and chances for success in the program, candidates are strongly recommended to have successfully completed the following courses:

Medical curriculum preparedness:
biological sciences, including anatomy and physiology
chemistry, including organic and biological chemistry
behavioral sciences
humanities
English

Engineering curriculum preparedness:
calculus
differential equations
linear algebra
statistics
physics

Personal and professional experiences
As part of the mission-aligned review for the School of Medicine and Medical Engineering admission process, the school will also consider the personal and professional experiences of applicants to help discover well-rounded students in research and clinical exposure, contributions, and goals for the future. Recommended experiences include:

clinical exposure
engineering or data science
leadership
service
extracurricular activities

Letters of recommendation
The school requires four letters of recommendation. One from a clinical experience and one from an engineering or data science experience or course instructor are recommended.

Additional requirements
background check
AZ fingerprint clearance
criminal background check
U.S. citizenship
technical standards and essential qualifications
acknowledgement of concurrent degree program

For more detailed information on admission requirements, how to apply to the John Schufeldt School of Medicine and Medical Engineering, and important dates and deadlines, applicants should visit the main admission page at https://medicine.asu.edu/future-students/admissions (https://medicine.asu.edu/future-students/admissions).

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Graduates of the MD program are uniquely positioned for careers that blend clinical practice with biomedical innovation. In addition to traditional medical roles, they can lead the development of advanced medical technologies and health care innovation.

Potential job titles include:

- academic faculty or researcher
- biotech startup founder or advisor
- clinical practitioner in various specialties
- global health specialist
- government health advisor
- health care consultant
- leadership in medical technology companies
- medical device engineer
- medical researcher

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. The John Shufeldt School of Medicine and Medical Engineering prepares students in the MD program to be eligible to pursue initial physician licensure in the United States and its territories, subject to successful completion of all jurisdiction-specific post-graduate requirements. Students should be aware that physician licensure is issued by the individual state or territorial medical board where they intend to practice. It is recommended that students verify current requirements directly with the applicable state board prior to applying for licensure. For more information, visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Nursing and Health Innovation, Edson College of

Acute Care Pediatric Nurse Practitioner, Certificate (NUACPNGRCT)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The certificate program for the acute care pediatric nurse practitioner specialty is an advanced nursing practice= program. If you are a board-certified nurse seeking additional certification as an acute care pediatric nurse practitioner,= or a doctorate-level nurse seeking an acute care pediatric nurse practitioner position, this program is designed for you.= This program prepares you to provide holistic, client-centered care to meet the physical, psychological and social needs= of infants, children, adolescents and young adults.

All programs are offered in a hybrid format. You're required to travel to an ASU campus for up to one week for= orientation at the beginning of the program and two to three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Specialty courses= focus on assessment and management of a supportive, family-centered, culturally appropriate plan of care for= pediatric patients with chronic, complex acute and life-threatening illnesses. Any deficiency courses determined by your= unique gap analysis must have been completed within the past five years to be eligible for credit.

Focused clinical experiences are arranged for you if you're residing in Maricopa County, Arizona. You should expect to= travel throughout Maricopa County and, in some cases, throughout Arizona to complete your assigned clinical= placement.

If you're residing outside of Maricopa County, you're responsible for identifying the required number of clinical sites in= your area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College= of Nursing and Health Innovation must approve these sites before you start any clinical experience; the doctoral= program office doesn't guarantee a clinical placement site if you are outside Maricopa County. If, during the program,= faculty determine that you need additional supervision for clinical progress in the program, you must complete clinical= experiences in the Phoenix area.

The program offers practicum experiences (clinical rotations) in health profession shortage areas throughout the state,= in both urban underserved and rural areas, providing you with multicultural experiences to enhance professional= development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is= authorized to offer distance education to persons located in individual SARA member states in accordance with the= council's established policies and standards. California is not a SARA member, and the California Bureau of Private= Postsecondary Education doesn't regulate out-of-state public institutions for education offered online and in Arizona.= ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of= Nursing and Health Innovation; these are noted on the ASU state authorizations (https://admission.asu.edu/academics/authorizations) website.

STEM-OPT extension eligible: No

Degree requirements

20 credit hours

Required Core (20 credit hours)
DNP 606 Principles of Pediatric Acute Care I (3)

DNP 607 Advanced Pediatric Acute Care Practicum I (7)
DNP 619 Principles of Pediatric Acute Care II (3)
DNP 620 Advanced Pediatric Acute Care Practicum II (7)

Additional Curriculum Information
Every certificate student must complete 600 hours of direct patient care with a nurse practitioner or physician preceptor in the clinical setting. Documented clinical experiences are required by the Pediatric Nursing Certification Board for the graduate to be eligible to take the national pediatric nurse practitioner acute care certification examination.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants must have earned a bachelor's and master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of a current unencumbered RN license
• three professional letters of recommendation
• resume
• goal statement
• admission essay
• health and safety requirements (submitted after admission)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F1 or J1 visa need to apply to and be accepted into a graduate degree program before they will be considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Applicants must be nationally certified as a primary care pediatric nurse practitioner. Nationally certified family nurse practitioners working as a nurse practitioner in a pediatric setting are also considered.

One year of clinical experience working within the specialty population is preferred.

Applicants offered admission must meet health and safety requirements, which include a passing disposition on a background clearance, satisfactory completion of a substance screen, and required health and safety documents. Students offered admission must complete health and safety requirements by the provided deadlines or their offer of admission is withdrawn.

An interview with program faculty is required.

An admission examination is not required.

Applicants requesting review of previously completed courses must have a gap analysis review. Applicants must submit primary source documents (syllabi) for faculty review to demonstrate advanced physiology or pathophysiology, advanced health assessment, advanced pharmacology, and advanced role courses. Depending on the courses completed in the master's degree program, additional courses may be required to complete this specialty. Courses must have been completed within the past five years to be eligible or actively board certified and practicing.

Applications are reviewed on a space-available basis after the priority deadline.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Integrate evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of critical and unstable health conditions in acute care pediatric populations.
- Synthesize evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of complex and chronic health conditions in acute care pediatric populations.

Career opportunities

This program prepares graduates for excellence upon entering the workplace. The acute care pediatric nurse practitioner role has grown exponentially in the past decade, and the demand for board-certified advanced practice acute care providers has never been higher. Graduates of the certificate program in advanced practice nursing are prepared to provide health care for newborns, children, adolescents and young adults. Careers include:

- acute care home services
- critical care
- education and training of future health care providers
- emergency care
- inpatient hospitalist service
- specialty service provision
- transport teams

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Adult Gerontology Nurse Practitioner, Certificate (NUAGNPGRCT)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The certificate program for the adult gerontology nurse practitioner specialty is an advanced nursing practice program.= If you are a board-certified nurse in a different advanced practice registered nursing specialty who seeks additional= certification as an adult-gerontology primary care nurse practitioner, or a doctorate-level nurse who seeks an adult-gerontology nurse practitioner position, this program is for you. The program prepares you to provide holistic, client-centered primary care to adolescents, adults and geriatric patients in a variety of settings.

All programs are offered in a hybrid format. You're required to travel to an ASU campus for up to one week for= orientation at the beginning of the program, and two to three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment across the life span.= Specialty courses focus on assessment, screening, diagnosis and evidence-based management of common, chronic and= complex health conditions in adolescents, adults and geriatric patients. Content including epidemiology, differential= diagnosis, sociocultural variations in evidence-based treatments, health promotion and case management is= emphasized. Adult gerontology-focused theory and clinical courses include theories, principles and clinical skills in the= care of adolescents and adults across the life span in a variety of settings, including private practice, ambulatory clinics,= long-term care facilities and patients' homes. Practicing faculty with clinical experience teach the specialty coursework= and clinical experiences. Any deficiency courses determined by your specific gap analysis must have been completed= within the past five years to be eligible for credit.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. You should expect to= travel throughout Maricopa County and, in some cases, throughout Arizona to complete your assigned clinical= placement.

If you reside outside of Maricopa County, you're responsible for identifying the required number of clinical sites in your= area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of= Nursing and Health Innovation must approve these sites before you start any clinical experience; the doctorate= program office doesn't guarantee a clinical placement site if you are outside Maricopa County. If, during the program,= faculty determine that you need additional supervision for clinical progress in the program, you must complete clinical= experiences in the Phoenix area.

The program offers practicum experiences (clinical rotations) in health profession shortage areas throughout the state,= in both urban underserved and rural areas, providing you with multicultural experiences to enhance professional= development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is= authorized to offer distance education to persons located in individual SARA member states, in accordance with the= council's established policies and standards. California is not a SARA member; the California Bureau of Private= Postsecondary Education does not regulate out-of-state public institutions offering online education to students in= California, or in-person education in Arizona to students from California. ASU may offer educational activities in= California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these= are noted on the ASU state authorizations (https://admission.asu.edu/academics/authorizations) website.

STEM-OPT extension eligible: No

Degree requirements

22 credit hours

Required Core (22 credit hours)
DNP 623 Adult-Gerontology Health Promotion (3)
DNP 624 Adult-Gerontology Health Promotion Practicum (3)
DNP 625 Management of Common Health Problems in Adult-Gerontology: Theory (3)
DNP 626 Management of Common Health Problems in Adult-Gerontology: Practicum (5)
DNP 627 Management of Complex Health Problems in Adult-Gerontology: Theory (3)
DNP 628 Management of Complex Health Problems in Adult-Gerontology: Practicum (5)

Additional Curriculum Information
Nurses who complete this certificate meet the eligibility requirements to take the Adult-Gerontology Primary Care Nurse Practitioner exam. In addition to completing didactic courses, students complete 13 credit hours (585 clock hours) of practicum experiences in a community setting.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

Advanced Nursing Practice (Acute Care Pediatric Nurse Practitioner), DNP (NUANPACDNP)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The acute care pediatric nurse practitioner concentration of the Doctor of Nursing Practice program is an advanced nursing practice degree. This program prepares you to provide holistic, client-centered care to meet the physical, psychological and social needs of infants, children, adolescents and young adults.

All programs are offered in a flexible format requiring you to travel to an ASU campus for up to one week for orientation at the beginning of the program and two to three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Specialty courses focus on assessment and management of a supportive, family-centered, culturally appropriate plan of care for pediatric patients with chronic, complex acute and life-threatening illnesses. Any additional coursework determined by your unique gap analysis must have been completed within the past five years to be eligible for credit.

In addition to advanced nursing specialty-focused outcomes, the DNP program engages you to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. You are educated as a leader at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

Focused clinical experiences are arranged for you if you're residing in Maricopa County, Arizona. You should expect to travel throughout Maricopa County and, in some cases, throughout Arizona to complete your assigned clinical placement.

If you're residing outside of Maricopa County, you're responsible for identifying the required number of clinical sites in your area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before you start any clinical experience; the DNP program office does not guarantee a clinical placement site if you are outside Maricopa County. If, during the program, faculty determine that you need additional supervision for clinical progress in the program, you must complete clinical experiences in the Phoenix area.

The program offers clinical rotations in health profession shortage areas throughout the state, in both urban underserved and rural areas, which provide you with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual State Authorization Reciprocity Agreement member states in accordance with the council's established policies and standards. California is not a State Authorization Reciprocity Agreement member, and the California Bureau of Private Postsecondary Education does not

regulate out-of-state public institutions offering online and in-person education from Arizona. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these are noted on the ASU state authorizations (https://admission.asu.edu/academics/authorizations) website.

STEM-OPT extension eligible: No

Degree requirements

85 credit hours including the required applied project course (DNP 707)

Required Core (13 credit hours)
DNP 704 Principles of Evidence-based Care in Advanced Practice (4)
DNP 705 Health Care Outcome Management (3)
DNP 708 Systems Thinking in a Complex Healthcare Environment (3)
DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)

Concentration (26 credit hours)
DNP 606 Principles of Pediatric Acute Care I (3)
DNP 607 Advanced Pediatric Acute Care Practicum I (6)
DNP 619 Principles of Pediatric Acute Care II (3)
DNP 620 Advanced Pediatric Acute Care Practicum II (6)
DNP 643 Developmentally Based Care of the Well Child (3)
DNP 644 Well Child Advanced Practicum (2)
DNP 649 Advanced Physiology (3)

Other Requirements (40 credit hours)
DNP 601 Theoretical Foundations for Advance Practice Nursing (3)
DNP 602 Evaluating Research for Practice (3)
DNP 604 Advanced Human Pathophysiology Across Lifespan (4)
DNP 605 Advanced Health Assessment Across Lifespan (3)
DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)
DNP 609 Advanced Practice Nursing Role (1)
DNP 679 Biostatistics: Principles of Statistical Inference (3)
DNP 703 Innovation in Communication-scholarly and Professional Writing (2)
DNP 711 Healthcare Policy and Innovation (3)
DNP 712 Clinical Residency and Management (12)
DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives (3 credit hours)

Culminating Experience (3 credit hours)
DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information
Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Association of Colleges of Nursing has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a DNP program. This program includes 1,170 practicum hours, exceeding the AACN requirement.

Nurses must complete 600 hours of direct patient care with a nurse practitioner or physician preceptor in the clinical setting. Documented clinical experiences are required by the Pediatric Nursing Certification Board for the graduate to be eligible to take the national pediatric nurse practitioner acute care certification examination.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, up to 30 credit hours from a previously awarded master's degree can be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants must have earned a bachelor's or master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of a current unencumbered RN license
• three professional letters of recommendation
• resume
• goal statement
• admission essay
• health and safety requirements (submitted after admission)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

One year of clinical experience working within the specialty population is preferred.

Applicants offered admission must meet health and safety requirements, which include a passing disposition on a background clearance, satisfactory completion of a substance screen, and required health and safety documents. Students offered admission must complete health and safety requirements by the provided deadlines or their offer of admission is withdrawn.

An interview with program faculty is required.

An admission examination is not required.

Applicants requesting review of previously completed courses must have a gap analysis review. Applicants must submit primary source documents (i.e., syllabi) for faculty review to demonstrate advanced physiology or pathophysiology, advanced health assessment, advanced pharmacology, and advanced role courses. Depending on the courses completed in the master's degree program, additional courses may be required to complete this specialty. Courses must have been completed within the past five years to be eligible or actively board certified and practicing.

Applications are reviewed on a space-available basis after the priority deadline.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Develop strategies to influence organizational culture toward innovative evidence-based practice models.
- Develop nursing practice recommendations using evidence based rationales.
- Integrate evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of critical and unstable health conditions in acute care pediatric populations.
- Synthesize evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of complex and chronic health conditions in acute care pediatric populations.

Career opportunities

Graduates are prepared to excel upon entering the workplace and to practice at the most advanced level of nursing.

The acute care pediatric nurse practitioner role has grown exponentially in the past decade, and the demand for board-certified advanced practice acute care providers has never been higher. Graduates are prepared to provide health care for newborns and children up to young adulthood in careers that include:

- acute care home services
- critical care provision
- education and training of future health care providers
- emergency care provision
- inpatient hospitalist services
- specialty service provision
- transport teams

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Advanced Nursing Practice (Adult-Gerontology Acute Care Nurse Practitioner), DNP (NUANPGDNP)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The adult-gerontology acute care nurse practitioner concentration of the Doctor of Nursing Practice is an advanced nursing practice degree. This program is focused on the care of adolescents to older adults with acute, critical and complex chronic illness to stabilize the patient condition, prevent complications and restore maximum health across the continuum of care settings.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. The curriculum focuses on assessment and management of adolescent to older adult patients with chronic, complex acute and life-threatening illnesses.

In addition to advanced nursing specialty-focused outcomes, the DNP program engages students to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. Students are educated as leaders at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

Focused clinical experiences are arranged for students residing in Maricopa County, Arizona. Students should expect to travel throughout Maricopa County and, in some cases, throughout Arizona to complete their assigned clinical placement. The program offers clinical rotations in health profession shortage areas throughout the state, in both urban underserved and rural areas, which provide students with multicultural experiences to enhance professional development.

Students residing outside of Maricopa County are responsible for identifying the required number of clinical sites in their area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before students start any clinical experience; the DNP program office does not guarantee a clinical placement site for any student outside Maricopa County. If, during the program, faculty determine that the student needs additional supervision for clinical progress in the program, the student must complete clinical experiences in the Phoenix area.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual State Authorization Reciprocity Agreement member states in accordance with the council's established policies and standards. California is not a State Authorization Reciprocity Agreement member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions offering online and in-person education from Arizona. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these are noted on the ASU state authorizations (https://admission.asu.edu/academics/authorizations) website.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Degree requirements

86 credit hours including the required capstone course (DNP 707)

Required Core (13 credit hours)
DNP 704 Principles of Evidence-based Care in Advanced Practice (4)
DNP 705 Health Care Outcomes Management (3)
DNP 708 Systems Thinking in a Complex Health Care Environment (3)
DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)

Concentration (27 credit hours)
DNP 623 Adult-gerontology Health Promotion (3)
DNP 624 Adult-gerontology Health Promotion Practicum (3)
DNP 649 Advanced Physiology (3)
DNP 662 Principles of Adult Gerontology Acute Care I: Theory (3)
DNP 663 Principles of Adult Gerontology Acute Care I: Practicum (6)
DNP 664 Principles of Adult Gerontology Acute Care II: Theory (3)
DNP 665 Principles of Adult Gerontology Acute Care II: Practicum (6)

Other Requirements (40 credit hours)
DNP 601 Theoretical Foundations for Advance Practice Nursing (3)
DNP 602 Evaluating Research for Practice (3)
DNP 604 Advanced Human Pathophysiology Across Lifespan (4)
DNP 605 Advanced Health Assessment Across Lifespan (3)
DNP 608 Advanced Pharmacotherapeutics Across Lifespan (3)
DNP 609 Advanced Practice Nursing Role (1)
DNP 679 Biostatistics: Principles of Statistical Inference (3)
DNP 703 Innovation in Communication: Scholarly and Professional Writing (2)
DNP 711 Healthcare Policy and Innovation (3)
DNP 712 Clinical Residency and Management (12)
DNP 715 Dynamics and Principles of Information in Health Care (3)

Restricted Electives (3 credit hours)
DNP 603 Health Equity and Social Justice (3) or
DNP 661 Ethics and Advanced Nursing Practice (3)

Culminating Experience (3 credit hours)
DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information
Completion of an evidence-based doctoral capstone project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a DNP program. This program includes 1,125 practicum hours, exceeding the ANCC requirement.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, up to 30 credit hours from a previously awarded master's degree can be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of a current unencumbered RN license
• three professional letters of recommendation
• resume
• goal statement
• admission essay
• health and safety requirements (submitted after admission)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL® (iBT), or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

All applicants must have an interview with program faculty members before admission to the program.

One year of clinical experience working within the student's specialty population is preferred.

Applicants offered admission must meet health and safety requirements, which include a passing disposition on a background clearance and satisfactory completion of a substance screen.

An admission examination is not required.

Applications are reviewed on a space-available basis after the priority deadline.

Students requesting review of previously completed courses must have a gap analysis review. Courses completed prior to admission need to have faculty review to determine applicability to their current program of study. Primary source documents (such as syllabi) must be provided by the student for faculty review. If an applicant or student would like to request previously completed courses to apply to their program of study, the courses must have been completed in the past five years to be eligible. If an applicant or student is currently a nurse practitioner, and actively practicing, the

program will consider courses beyond five years.

Any additional courses determined by the student's gap analysis must have been completed in the past five years to be eligible for credit.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

DNP graduates are prepared for excellence upon entering the workplace and are prepared to practice at the most advanced level of nursing. Graduates of the adult gerontology nurse practitioner program have the knowledge and training to provide health care for patients in a wide variety of settings. The broad base of comprehension and clinical expertise enable graduates to participate effectively and lead within clinical, community and academic arenas.

Graduates have career opportunities in many areas. Career examples include:

- acute care nurse practitioner in hospitals, emergency rooms, intensive care units, outpatient specialty clinics or long-term care
- administrator
- business owner
- nursing educator
- professor
- researcher

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner), DNP (NUANPAGDNP)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The adult-gerontology nurse practitioner concentration of the Doctor of Nursing Practice program is an advanced nursing practice degree. This program prepares you to provide holistic, client-centered primary care to adolescents, adults and geriatric patients in a variety of settings.

All programs are offered in a flexible format, requiring you to travel to an ASU campus for up to one week for orientation at the beginning of the program and two to three times per semester thereafter.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment across the lifespan. Specialty courses focus on the assessment, screening, diagnosis and evidence-based management of common, chronic

and complex health conditions in adolescents, adults and geriatric patients. Content including epidemiology, differential diagnosis, sociocultural variations in evidence-based treatments, health promotion and case management is emphasized. Adult gerontology-focused theory and clinical courses include theories, principles and clinical skills in the care of adolescents and adults across the lifespan in a variety of settings, including private practice, ambulatory clinics, long-term care facilities and the patient's home. Practicing faculty with clinical experience teach the specialty coursework and clinical experiences.

In addition to advanced nursing specialty-focused outcomes, the program engages you to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. You are educated as a leader at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

Focused clinical experiences are arranged for you if you're residing in Maricopa County, Arizona. You should expect to travel throughout Maricopa County and, in some cases, throughout Arizona to complete your assigned clinical placement.

If you're residing outside of Maricopa County, Arizona, you're responsible for identifying the required number of clinical sites in your area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before starting any clinical experience; the program office doesn't guarantee a clinical placement site if you are outside Maricopa County. If, during the program, faculty determine you need additional supervision for clinical progress in the program, you must complete clinical experiences in the Phoenix area.

The program offers clinical rotations in health profession shortage areas throughout the state, both in urban underserved and rural areas, that provide you with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual state authorization reciprocity agreement member states in accordance with the council's established policies and standards. California is not a state authorization reciprocity agreement member, though ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation. These exceptions are noted on the ASU state authorization (https://admission.asu.edu/academics/authorizations) website.

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.
This degree is also offered as a concurrent program with the following:

Nursing and Healthcare Innovation, PhD

Degree requirements

84 credit hours including the required applied project course (DNP 707)

Required Core (13 credit hours)
DNP 704 Principles of Evidence-based Care in Advanced Practice (4)
DNP 705 Health Care Outcomes Management (3)
DNP 708 Systems Thinking in a Complex Healthcare Environment (3)
DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)

Concentration (22 credit hours)

DNP 623 Adult-gerontology Health Promotion (3)
DNP 624 Adult-gerontology Health Promotion Practicum (3)
DNP 625 Management of Common Health Problems in Adult Gerontology: Theory (3)
DNP 626 Management of Common Health Problems in Adult Gerontology: Practicum (5)
DNP 627 Management of Complex Health Problems in Adult Gerontology: Theory (3)
DNP 628 Management of Complex Health Problems in Adult Gerontology: Practicum (5)

Other Requirements (40 credit hours)
DNP 601 Theoretical Foundations for Advance Practice Nursing (3)
DNP 602 Evaluating Research for Practice (3)
DNP 604 Advanced Human Pathophysiology Across Lifespan (4)
DNP 605 Advanced Health Assessment Across Lifespan (3)
DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)
DNP 609 Advanced Practice Nursing Role (1)
DNP 679 Biostatistics: Principles of Statistical Inference (3)
DNP 703 Innovation in Communication-Scholarly and Professional Writing (2)
DNP 711 Healthcare Policy and Innovation (3)
DNP 712 Clinical Residency and Management (12)
DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives and Research (6 credit hours)

Culminating Experience (3 credit hours)
DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information
Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Association of Colleges of Nursing has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a DNP program. This program includes 1,125 practicum hours, exceeding the AACN requirement.

Nurses who complete this program meet the eligibility requirements to take the Adult-Gerontology Primary Care Nurse Practitioner exam. In addition to completing didactic courses, students complete 13 credit hours (585 clock hours) of practicum experiences in a community setting.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants must have earned a bachelor's or master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of a current unencumbered RN license
• three professional letters of recommendation
• resume
• goal statement
• admission essay
• health and safety requirements (submitted after admission)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

One year of clinical experience working within the specialty population is preferred.

Applicants offered admission must meet health and safety requirements, which include a passing disposition on a background clearance, satisfactory completion of a substance screen, and required health and safety documents. Students offered admission must complete health and safety requirements by the provided deadlines or their offer of admission is withdrawn.

An interview with program faculty is required.

An admission examination is not required.

Applicants requesting review of previously completed courses must have a gap analysis review. Applicants must submit primary source documents (i.e., syllabi) for faculty review to demonstrate advanced physiology or pathophysiology, advanced health assessment, advanced pharmacology, and advanced role courses. Depending on the courses completed in the master's degree program, additional courses may be required to complete this specialty. Courses must have been completed within the past five years to be eligible or actively board certified and practicing.

Applications are reviewed on a space-available basis after the priority deadline.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Develop strategies to influence organizational culture toward innovative evidence-based practice models.
- Develop nursing practice recommendations using evidence based rationales.
- Integrate evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of acute and common health conditions in adolescents, adults, and older adults.
- Synthesize evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of complex and chronic health conditions in adolescents, adults, and older adults.

Career opportunities

DNP graduates are prepared for excellence upon entering the workplace and are prepared to practice at the most advanced level of nursing.

Graduates of the adult gerontology nurse practitioner program have the knowledge and training to provide health care for patients in a wide variety of settings. The broad base of comprehension and clinical expertise enable graduates to participate effectively and lead within clinical, community and academic arenas.

Career examples include:

- business owner
- community advocate
- nurse practitioner
- professor

Professional licensure

Advanced Nursing Practice (Education), DNP (NUANPEDNP)

College/School: Edson College of Nursing and Health Innovation

Campus: Online

Program description

The Doctor of Nursing Practice program in advanced nursing practice with a concentration in education prepares you, as an expert nurse educator, to lead innovation in teaching and learning across clinical and academic environments. If you are an experienced nurse seeking to influence the future of nursing through evidence-based instruction, outcome-focused design and system-level thinking, this program is for you.

Through courses in evidence-based care, health care outcome management, systems thinking and innovation leadership, you gain the skills to design, implement and evaluate transformative educational strategies. You are prepared for roles in faculty development, curriculum leadership, clinical education and nursing program administration.

Residency experiences are integrated with your current professional contexts, enabling you to develop a doctoral project that directly addresses a problem of practice in clinical or academic education. This scholarly project reflects your learned advanced competencies in educational innovation, health policy and leadership.

The DNP with a concentration in education is ideal if you want to shape the next generation of nurses and improve outcomes through advanced instructional practices, organizational change and academic leadership. You'll join a collaborative community of faculty and peers committed to advancing nursing education and achieving lasting impact in diverse settings.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual State Authorization Reciprocity Agreement member states in accordance with the council's established policies and standards. California is not a State Authorization Reciprocity Agreement member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions offering online and in-person education from Arizona. Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program. If the master's program is not in nursing, the student must also have a bachelor's degree in nursing from a regionally accredited institution.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of a current unencumbered RN license
• three professional letters of recommendation
• resume
• goal statement
• admission essay
• health and safety requirements (submitted after admission)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL® (iBT), or a score of 80 if taken before January 21, 2026, in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

If the applicant's master's degree is not in nursing, then the applicant must also have a bachelor's degree in nursing from a regionally accredited institution.

All applicants must have an interview with program faculty members before admission to the program.

One year of clinical experience working within the student's specialty population is preferred.

Applicants offered admission must meet health and safety requirements, which include a passing disposition on a background clearance and satisfactory completion of a substance screen.

An admission examination is not required.

Applications are reviewed on a space-available basis after the priority deadline.

Students requesting review of previously completed courses must have a gap analysis review. Courses completed prior to admission need to have faculty review to determine applicability to their current program of study. Primary source documents (such as syllabi) must be provided by the student for faculty review. If an applicant or student would like to request previously completed courses to apply to their program of study, the courses must have been completed in the past five years to be eligible. If an applicant or student is currently a nurse practitioner and actively practicing, the program considers courses taken more than five years ago.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/dnp-nursing-education/) for program descriptions and to request more information.

Career opportunities

This program prepares graduates for excellence upon entering the workplace. DNP graduates are prepared to practice at the most advanced level of nursing.

Graduates may have roles in universities as:

- clinical nurse educators
- clinical nursing instructors
- clinical simulation coordinators or directors
- curriculum developers or instructional designers, specifically for nursing education
- deans or associate deans of nursing
- directors of nursing education or professional development
- nursing faculty members for BSN, MSN or DNP programs
- program directors (nursing education or simulation)

Graduates may also find roles outside of academia as:

- education consultants (health care or academic)
- education technology specialists (health care setting)
- health policy advisors (with education focus)
- nursing professional development practitioners
- staff development specialists
- training and development managers (health systems)

Advanced Nursing Practice (Family Nurse Practitioner), DNP (NUANPFNDNP)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The family nurse practitioner concentration of the Doctor of Nursing Practice program is an advanced nursing practice degree. This program prepares you to provide holistic, client-centered primary care to patients and families across the life span in a variety of settings.

All programs are offered in a flexible format requiring you to travel to an ASU campus for up to one week for orientation at the beginning of the program and two to three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment across the life span. Specialty courses focus on assessment, screening, diagnosis and management of acute and chronic conditions, emphasizing preventive care and promotion of healthy lifestyle choices. Content includes epidemiology, differential diagnosis and sociocultural variations in evidence-based treatments, including health promotion and health education. The program emphasizes theories, principles and clinical skills for holistic, client-centered, culturally appropriate primary care of infants, children, adolescents, adults and older adults within traditional, nontraditional and culturally diverse families. Practicing faculty with clinical experience teach the specialty coursework and clinical experiences, enriching learning. Any additional coursework determined by your unique gap analysis must have been completed in the past five years to be eligible for credit.

In addition to advanced nursing specialty-focused outcomes, the program engages you to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. You are educated as a leader at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

Focused clinical experiences are arranged for you if you're residing in Maricopa County, Arizona. You should expect to travel throughout Maricopa County and, in some cases, throughout Arizona to complete your assigned clinical placement.

If you're residing outside of Maricopa County, you're responsible for identifying the required number of clinical sites in your area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before you start any clinical experience; the DNP program office does not guarantee a clinical placement site if you are outside Maricopa County. If, during the program, faculty determine that you need additional supervision for clinical progress in the program, you must complete clinical experiences in the Phoenix area.

The program offers clinical rotations in health profession shortage areas throughout the state, in both urban underserved and rural areas, which provide you with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization reciprocity agreements member, Arizona State University is authorized to offer distance education to persons located in individual State Authorization Reciprocity Agreement member states in accordance with the council's established policies and standards. California is not a State

Authorization Reciprocity Agreement member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions offering education online or in person in Arizona. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these are noted on the ASU state authorizations website (https://admission.asu.edu/academics/authorizations).

DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives and Research (6 credit hours)

Culminating Experience (3 credit hours)
DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information
Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Association of Colleges of Nursing has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a DNP program. This program includes 1,125 practicum hours, exceeding the AACN requirement.

Nurses who complete this program meet the eligibility requirements to take a national family nurse practitioner certification examination. In addition to completing didactic courses, students complete 13 credit hours (585 clock hours) of family practicum experiences in a community setting.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants must have earned a bachelor's or master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of a current unencumbered RN license
• three professional letters of recommendation
• resume
• goal statement
• admission essay
• health and safety requirements (submitted after admission)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

One year of clinical experience working within the specialty population is preferred.

Applicants offered admission must meet health and safety requirements, which include a passing disposition on a background clearance, satisfactory completion of a substance screen, and required health and safety documents. Students offered admission must complete health and safety requirements by the provided deadlines or their offer of admission is withdrawn.

An interview with program faculty is required.

An admission examination is not required.

Applicants requesting review of previously completed courses must have a gap analysis review. Applicants must submit primary source documents (i.e., a syllabi) for faculty review to demonstrate advanced physiology or pathophysiology, advanced health assessment, advanced pharmacology, and advanced role courses. Depending on the courses completed in the master's degree program, additional courses may be required to complete this specialty. Courses must have been completed within the past five years to be eligible or actively board certified and practicing.

Applications are reviewed on a space-available basis after the priority deadline.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Develop strategies to influence organizational culture toward innovative evidence-based practice models.
- Develop nursing practice recommendations using evidence based rationales.
- Integrate evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of acute and common health conditions in primary care to individuals and families across the lifespan.
- Synthesize evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of complex and chronic health conditions in primary care to individuals and families across the lifespan.

Career opportunities

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. DNP graduates are prepared to practice at the most advanced level of nursing.

Graduates of the family nurse practitioner concentration have the knowledge and training to provide health care for patients across the life span in a wide variety of settings. This broad base of comprehension and clinical expertise enables them to participate effectively and lead within clinical, community and academic arenas.

Career examples:

- business owner
- community advocate
- nurse practitioner
- professor

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Advanced Nursing Practice (Innovation Leadership), DNP (NUANPILDNP)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The Doctor of Nursing Practice program in advanced nursing practice with a concentration in innovation leadership is an advanced nursing practice degree. This program is designed to take your thinking and career to the next level by leveraging innovation theory, complexity science and the application of the latest evidence to advanced health system outcomes.

The program is offered in a flexible format, requiring you to travel to an ASU campus for up to one week for orientation at the beginning of the program, and two or three times per semester.

Courses are designed for you as a clinical leader, educator, executive or informaticist, to help you create sustainable health care in the communities you serve. You learn how to optimize human and social capital, create measurable impact on your organizations, and foster environments of excellence through innovation. Practicing faculty with systems-based experience teach the coursework and residency experiences, enriching learning.

The DNP program engages you to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice, and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. You are educated as a leader at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

Acknowledged by graduates as a life-changing experience, this program is one of deep personal discovery and diverse professional enrichment. You are part of a rich social fabric of highly engaged, intellectually astute and practically sound nursing leaders who are changing health care for the nation.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours including the required applied project course (DNP 716)

Required Core (13 credit hours)
DNP 704 Principles of Evidence-based Care in Advanced Practice (4)

Students offered admission must complete health and safety requirements by the provided deadlines or their offer of admission is withdrawn.

An interview with program faculty is required.

An admission examination is not required.

Applicants requesting review of previously completed courses must have a gap analysis review. Applicants must submit primary source documents (syllabi) for faculty review.

Applications are reviewed on a space-available basis after the priority deadline.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Develop an innovative model to address a culture change in the organization.
- Develop nursing practice recommendations using evidence based rationales.
- Evaluate the theoretical underpinnings of leadership and nursing practice that influence the nurse leader's role in complex healthcare systems.

Career opportunities

Graduates of the innovation leadership concentration of the advanced nursing practice doctorate have the knowledge and training to change or create sustainable health care in their community. They are able to leverage resources, build effective organizational cultures, and develop professional relationships for high impact.

Career examples include:

- chief executive officer
- chief nurse executive
- clinical director

Advanced Nursing Practice (Neonatal Nurse Practitioner), DNP (NUANPNDNP)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

ASU is not currently accepting applications for this program.

Program description

The neonatal nurse practitioner concentration of the Doctor in Nursing Practice program is an advanced nursing practice degree. This program prepares you to provide holistic, client-centered care to neonates, infants and children within traditional, nontraditional and culturally diverse families.

Core courses focus on theory to advanced practice, application of evidence to advanced practice, advanced pathophysiology, advanced pharmacology and advanced health assessment. Advanced neonatal nursing theory and clinical courses focus on the development of a framework for developmentally supportive, family-centered, culturally appropriate advanced nursing practice with infants, children and families. Practicing faculty with clinical experience teach the specialty coursework and clinical experiences, enriching learning.

In addition to advanced nursing specialty-focused outcomes, the DNP program engages you to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice, and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. You are educated as a leader at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

This is a flexible program, a blend of in-person and online learning. You're required to travel to campus for orientation once and for immersions two or three times per semester.

Focused clinical experiences are arranged for you if you're residing in Maricopa County, Arizona. You should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete your assigned clinical placement.

If you're residing outside of Maricopa County, you're responsible for identifying the required number of clinical sites in your area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before you start any clinical experience; the DNP program office does not guarantee a clinical placement site if you are outside Maricopa County. If, during the program, faculty determine that you need additional supervision for clinical progress in the program, you must complete clinical experiences in the Phoenix area.

The DNP program offers clinical rotations in health profession shortage areas throughout the state, in both urban underserved and rural areas, providing you with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, ASU is authorized to offer distance education to persons located in individual state authorization reciprocity agreement member states in accordance with the council's established policies and standards. Additional Curriculum Information
Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students who complete a nurse practitioner doctoral program. This program includes 1,125 practicum hours, exceeding the ANCC requirement.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three online recommendations and one self-evaluation
• satisfactory completion of the analytical writing section of the GRE
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency, per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

The three online recommendations should be from individuals knowledgeable about the applicant's academic and nursing leadership potential; the self-evaluation is completed by the applicant.

A current unencumbered license is required. If clinical practice will occur outside Arizona, the student must have a current unencumbered license in the state where clinical practice will be conducted. If clinical practice will occur within Arizona, the student must have a current unencumbered Arizona license to practice as a registered nurse.

An interview with a representative of the specialty area is required.

Students should see the program website for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

DNP graduates are prepared to practice at the most advanced level of nursing.

Graduates of the neonatal nurse practitioner concentration of the DNP in advanced nursing practice have the knowledge and training to provide health care for patients in an acute care setting. This broad base of clinical expertise enables them to participate effectively and lead within clinical, community and academic arenas.

Career examples:

- business owner
- community advocate
- nurse practitioner
- professor

Advanced Nursing Practice (Primary Care Pediatric Nurse Practitioner), DNP (NUANPPDNP)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The primary care pediatric nurse practitioner concentration in the Doctor of Nursing Practice program leads to an advanced nursing practice degree. You prepare to provide holistic, client-centered primary care of infants, children, adolescents and young adults.

All programs are offered in a flexible format, requiring you to travel to an ASU campus for up to one week for orientation at the beginning of the program and two to three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Specialty courses focus on assessment; screening; diagnosis; health promotion; disease prevention; and management of minor, acute and stable complex-chronic health disorders in the pediatric population. Using best evidence, primary care specialty pediatric courses focus on health promotion and disease management, with an emphasis on preventive care and the development of a framework for supportive, family-centered, culturally appropriate advanced nursing practice for infants, children, adolescents and young adults. Practicing faculty with clinical experience teach the specialty coursework and clinical experiences, which enrich learning. Any additional coursework determined by your specific gap analysis must have been completed within the past five years to be eligible for credit.

In addition to advanced nursing specialty-focused outcomes, the DNP program engages you to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice, and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. You are educated as a leader at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

Focused clinical experiences are arranged for you if you are residing in Maricopa County, Arizona. You should expect to travel throughout Maricopa County and, in some cases, throughout Arizona to complete your assigned clinical placement.

If you reside outside Maricopa County, you are responsible for identifying the required number of clinical sites in your area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. These sites must be approved by Edson College of Nursing and Health Innovation before you begin any clinical experience; the DNP program office doesn't guarantee a clinical placement site if you are outside Maricopa County. If, during the program, faculty determine that you need additional supervision for clinical progress in the program, you must complete clinical experiences in the Phoenix area.

The DNP program offers clinical rotations in health profession shortage areas throughout the state, both in urban underserved and rural areas, that provide you multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual SARA member states in accordance with the

council's established policies and standards. California is not a SARA member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of a current unencumbered RN license in the state in which the student plans to do clinical practicums
• three professional letters of recommendation
• resume
• goal statement
• admission essay
• health and safety requirements
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

A current, unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

One year of clinical experience working within the student's specialty population is preferred.

Applicants offered admission must meet health and safety requirements, which include a passing disposition on a background clearance, satisfactory completion of a substance screen and required health and safety documents. Students offered admission must complete health and safety requirements by the provided deadlines, or their offer of admission will be withdrawn.

An interview with program faculty is required.

An admission examination is not required.

Applicants requesting review of previously completed courses must have a gap analysis review. Applicants must submit primary source documents, such as syllabi, for faculty review to demonstrate advanced physiology and pathophysiology, advanced health assessment, advanced pharmacology and advanced role courses. Depending on the courses completed in the master's degree program, additional courses may be required to complete this concentration. Courses must have been completed within the past five years to be eligible or the applicant must be actively board-certified and practicing.

Applications are reviewed on a space-available basis after the priority deadline.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Develop strategies to influence organizational culture toward innovative evidence-based practice models.
Develop nursing practice recommendations using evidence based rationales.
Integrate evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of acute and common health conditions in primary care pediatric populations.
Synthesize evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of complex and chronic health conditions in primary care pediatric populations.

Career opportunities

This program prepares graduates for excellence upon entering the workplace. DNP graduates are prepared to practice at the most advanced level of nursing.

The primary care pediatric nurse practitioner role is well established in all urban and most rural areas of Arizona. Advanced practice nursing graduates are prepared to provide comprehensive health care for newborns and youths. Graduates also may be employed as professors.

Possible careers include employment in these settings:

community health centers
outpatient primary and secondary health care clinics
specialty health care

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Advanced Nursing Practice (Psychiatric Mental Health Nurse Practitioner), DNP (NUANPCFDNP)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The psychiatric mental health nurse practitioner concentration of the Doctor of Nursing Practice program is an advanced nursing practice degree. This program prepares you to provide holistic, client-centered mental health care to individuals of all ages within traditional, nontraditional and culturally diverse families.

This is a flexible program, a blend of in-person and online learning. You're required to travel to campus for orientation once and for immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Specialty courses focus on assessment, screening, diagnosis and evidence-based management of common, chronic and complex mental health conditions across the lifespan. The program highlights valid and reliable tools for screening and identification of mental health disorders as well as early interventions for these problems. Content for each disorder include epidemiology, early signs and symptoms, differential diagnosis, and sociocultural variations in evidence-based management and treatment. Management includes psychopharmacologic and therapeutic skills building that are based in motivational interviewing, mindfulness, cognitive behavioral therapy and dialectical behavior therapy. The program emphasizes individual, group and family therapy techniques. Practicing faculty members with clinical experience teach the specialty coursework and clinical experiences, which enrich learning.

In addition to advanced nursing specialty-focused outcomes, the program engages you to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice, and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. You are educated as a leader at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

Focused clinical experiences are arranged for you if you're residing in Maricopa County, Arizona. You should expect to travel throughout Maricopa County and to surrounding counties to complete your assigned clinical placement.

If you're residing outside of Maricopa County, Arizona, you're responsible for identifying the required number of clinical sites in your area of residence and for identifying preceptors and sites willing to accommodate clinical rotations, and the college must approve these sites before starting any clinical experience; the program office doesn't guarantee a clinical placement site if you are outside Maricopa County. If, during the program, the faculty determine you need additional supervision for clinical progress in the program, you must complete clinical experiences in the Phoenix area.

The program office offers clinical rotations in health profession shortage areas throughout the state, both in urban underserved and rural areas, that provide you multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual state authorization reciprocity agreement member states in accordance with the council's established policies and standards. California is not a state authorization reciprocity agreement member and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation.

STEM-OPT extension eligible: No

Degree requirements

85 credit hours including the required applied project course (DNP 707)

Required Core (13 credit hours)
DNP 704 Principles of Evidence-based Care in Advanced Practice (4)

DNP 705 Health Care Outcomes Management (3)
DNP 708 Systems Thinking in a Complex Healthcare Environment (3)
DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)

Concentration (29 credit hours)
DNP 660 Advanced Neuropsychopathology Lifespan (2)
DNP 671 Advanced Mental Health Assessment Across the Lifespan (2)
DNP 672 Psychopharmacology Across the Lifespan (3)
DNP 673 Mental Health Promotion Across the Lifespan (3)
DNP 674 Mental Health Promotion Across the Lifespan Practicum (3)
DNP 675 Management of Common Mental Health Disorders Across the Lifespan (3)
DNP 676 Management of Common Mental Health Disorders Across the Lifespan Practicum (5)
DNP 677 Management of Complex and Chronic Mental Health Disorders Across the Lifespan (3)
DNP 678 Management of Complex and Chronic MH Disorders Across the Lifespan Practicum (5)

Other Requirements (40 credit hours)
DNP 601 Theoretical Foundations for Advance Practice Nursing (3)
DNP 602 Evaluating Research for Practice (3)
DNP 604 Advanced Human Pathophysiology Across Lifespan (4)
DNP 605 Advanced Health Assessment Across Lifespan (3)
DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)
DNP 609 Advanced Practice Nursing Role (1)
DNP 679 Biostatistics: Principles of Statistical Inference (3)
DNP 703 Innovation in Communication-scholarly and Professional Writing (2)
DNP 711 Healthcare Policy and Innovation (3)
DNP 712 Clinical Residency and Management (12)
DNP 715 Dynamics and Principles of Information in Health Care (3)

Culminating Experience (3 credit hours)
DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information
Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Association of Colleges of Nursing has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a DNP program. This program includes 1,125 practicum hours, exceeding the AACN requirement.

Nurses who complete this program meet the eligibility requirements to take a national psychiatric mental health nurse practitioner certification examination. In addition to completing didactic courses, students complete 13 credit hours (585 clock hours) of psychiatric mental health practicum experiences in a community setting.

For electives and research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants must have earned a bachelor's or master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of a current unencumbered RN license
• three professional letters of recommendation
• resume
• goal statement
• admission essay
• health and safety requirements (submitted after admission)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

One year of clinical experience working within the specialty population is preferred.

Applicants offered admission must meet health and safety requirements, which include a passing disposition on a background clearance, satisfactory completion of a substance screen, and required health and safety documents. Students offered admission must complete health and safety requirements by the provided deadlines or their offer of admission is withdrawn.

An interview with program faculty is required.

An admission examination is not required.

Applicants requesting review of previously completed courses must have a gap analysis review. Applicants must submit primary source documents (syllabi) for faculty review to demonstrate advanced physiology or pathophysiology, advanced health assessment, advanced pharmacology, and advanced role courses. Depending on the courses completed in the master's degree program, additional courses may be required to complete this specialty. Courses must have been completed within the past five years to be eligible or actively board certified and practicing.

Applications are reviewed on a space-available basis after the priority deadline.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Develop strategies to influence organizational culture toward innovative evidence-based practice models.
Develop nursing practice recommendations using evidence based rationales.
Integrate evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of acute and common health conditions in populations experiencing mental health disorders across the lifespan.
Synthesize evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of complex and chronic health conditions in populations experiencing mental health disorders across the lifespan.

Career opportunities

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. DNP graduates are prepared to practice at the most advanced level of nursing.

Graduates have the knowledge and training to provide health care for patients across the lifespan in a wide variety of settings. This broad base of comprehension and clinical expertise enables them to participate effectively and lead within clinical, community and academic arenas.

Career examples:

business owner
community advocate
nurse practitioner
professor

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Advanced Nursing Practice (Women's Health Nurse Practitioner), DNP (NUANPWHDNP)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The women's health nurse practitioner concentration of the Doctor of Nursing Practice program is an advanced nursing practice degree. The program prepares you to provide holistic, client-centered primary care to women of any age from adolescence through older adulthood.

All programs are offered in a flexible format requiring you to travel to an ASU campus for up to one week for orientation at the beginning of the program and two to three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment across the lifespan. Specialty courses focus on the assessment, screening, diagnosis and evidence-based management of common and complex gynecologic, sexual, reproductive, menopause-transition and post-menopause health care; uncomplicated and high-risk antepartum and postpartum care; as well as sexual and reproductive health care for men. Courses emphasize research and theories to provide the context essential to advanced nursing practice. These courses focus on health promotion, risk assessment and disease prevention for women across the lifespan, taking into account factors that influence health care and health outcomes. Any additional coursework determined by your specific gap analysis must have been completed within the past five years to be eligible for credit.

Focused clinical experiences are arranged for you if you're residing in Maricopa County, Arizona. You should expect to travel throughout Maricopa County and, in some cases, throughout Arizona to complete your assigned clinical placement.

If you're residing outside of Maricopa County, Arizona, you're responsible for identifying the required number of clinical sites in your area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before starting any clinical experience; the DNP program office doesn't guarantee a clinical placement site if you are outside Maricopa County. If, during the program, faculty determine you need additional supervision for clinical progress in the program, you must complete clinical experiences in the Phoenix area.

The DNP program offers clinical rotations in health profession shortage areas throughout the state, both in urban underserved and rural areas, that provide you with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to persons located in individual state authorization reciprocity agreement member states in accordance with the council's established policies and standards. California is not a state authorization reciprocity agreement member and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions offering online and in-person education from Arizona. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these exceptions are noted on the ASU state authorization (https://admission.asu.edu/academics/authorizations) website.

STEM-OPT extension eligible: No

Advanced Nursing Practice, DNP (NUANPDNP)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The Doctor of Nursing Practice in advanced nursing practice prepares you to apply research to and integrate research into clinical practice, using innovative approaches to improve health care outcomes of populations and individuals across multiple settings.

All programs are offered in a flexible format requiring you to travel to an ASU campus for up to one week for orientation at the beginning of the program and two to three times per semester.

Courses are designed for clinical experts and emphasize systems thinking in complex health environments, evidence-based practice, implementation science, and dissemination of outcomes to advance health care practices and policies. The program emphasizes innovation, leadership in professional relationships, and impacting organizational culture. Practicing faculty with systems-based experience teach much of the coursework and residency experiences, enriching your learning.

The DNP program engages you to meet doctoral-level competencies in systems-level thinking, complexity science, quality and safety, evidence-based practice, and the development of a doctoral project within a partner organization to improve outcomes at the patient, provider or health care system level. You are educated as a leader at the highest level of nursing practice to translate research into practice, lead in multidisciplinary teams, and engage in health care policy and advocacy to improve patient outcomes.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours including the required applied project course (DNP 707)

Required Core (13 credit hours)
DNP 704 Principles of Evidence-based Care in Advanced Practice (4)
DNP 705 Health Care Outcomes Management (3)
DNP 708 Systems Thinking in a Complex Healthcare Environment (3)
DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)

Other Requirement (23 credit hours)
DNP 679 Biostatistics: Principles of Statistical Inference (3)
DNP 703 Innovation in Communication-scholarly and Professional Writing (2)
DNP 711 Healthcare Policy and Innovation (3)
DNP 712 Clinical Residency and Management (12)
DNP 715 Dynamics and Principles of Information in Health Care (3)

Electives and Research (45 credit hours)

Culminating Experience (3 credit hours)
DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information
Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced nursing is required.

Students complete 540 hours of clinical practice residency, in addition to the 500 hours from their awarded master's degree.

For electives or research, students should see the academic unit for the approved course list. Other coursework may be used with the approval of the academic unit.

When approved by the student's supervisory committee and the Graduate College, up to 30 credit hours from a previously awarded master's degree can be used for this program.

Other requirement coursework may be substituted with approval of the academic unit if the student is in an approved concurrent program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee

• official transcripts
• proof of an unencumbered RN license
• three professional letters of recommendation
• resume
• goal statement
• admission essay
• health and safety requirements
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F1 or J1 visa need to apply to and be accepted to a graduate degree program before being considered for the certificate program. International students residing in the United States on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Applicants must be board certified as an Advanced Practice Registered Nurse.

Applicants offered admission must meet health and safety requirements, which include a passing disposition on a background clearance, satisfactory completion of a substance screen, and required health and safety documents. Applicants offered admission must complete health and safety requirements by the provided deadlines, or their admission offer is withdrawn.

An interview with program faculty is required.

An admission examination is not required.

Applicants requesting review of previously completed courses must have a gap analysis. These applicants must submit primary source documents (e.g. syllabi) for faculty review.

Applications are reviewed on a space-available basis after the priority deadline.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Develop strategies to influence organizational culture toward innovative evidence-based practice models.
Develop nursing practice recommendations using evidence based rationales.
Evaluate the theoretical underpinnings of advanced nursing practice and leadership that influence the nurse practitioner role in complex healthcare systems.

Career opportunities

Graduates of the DNP program have the knowledge and training to provide health care for patients across the life span in a wide variety of settings. This broad base of comprehension and clinical expertise enables them to effectively participate and lead within clinical, community and academic arenas.

Career examples:

- business owner
- community advocate
- nurse practitioner
- professor

Aging, MS (LAALDMS)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, Online

Program description

Aligned with the Arizona State University charter and design aspirations, the flexible online Master of Science program in aging assumes responsibility for the overall health of communities by educating you to become an expert in the field of aging. This graduate program emphasizes theory and research to understand the unique opportunities and challenges of the aging population. After completing this program, you may apply for credentialing as a gerontologist through the National Association for Professional Gerontologists.

By fusing intellectual disciplines and socially embedding partners in the network of aging health, wellness and social services, as well as entrepreneurs developing senior-related business ventures, this program is uniquely positioned to address the varied needs of this rapidly growing population. The program provides you with advanced interdisciplinary knowledge that focuses on improving the well-being of diverse older adults within the context of their families and communities.

The curriculum of the MS in aging is competency-based and designed in accordance with the Academy for Gerontology in Higher Education competencies for graduate education. It addresses the multidimensional aging process and the needs of aging populations and their potential contributions to society; reflects national health initiatives; and encourages interdisciplinary and community collaborations that are reciprocal, beneficial and sustainable to improve health outcomes of older adults.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Integrative Health, BS

Community Health, BS

Health Care Coordination, BS

Health Entrepreneurship and Innovation, BS

Applied Science (Health Entrepreneurship and Innovation), BAS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (HCA 593)

Required Core (15 credit hours)
HCA 501 Perspectives on Aging and the Life Course (3)
HCA 502 Research and Program Evaluation Issues in Aging (3)
HCA 503 Diversity in Aging (3)
HCA 505 Interdisciplinary and Community Collaboration in Aging (3)
HCA 508 Mental Health Assessment and Intervention (3)

Restricted Electives (6 credit hours)
HCA 504 Caregiving Issues for Families and Professionals (3)
HCA 507 Care Coordination Across the Continuum of Care (3)
HCA 510 Innovations in Program Development and Policy (3)

Electives (6 credit hours)

Culminating Experience (3 credit hours)
HCA 593 Applied Project (3)

Additional Curriculum Information
The program requires six credit hours of electives to support academic and professional interests. Students should consult with their advisor for the current approved elective list. Other courses may be used with approval of the academic unit.

For restricted electives, students select two courses from the list.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's

degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/aging-ms/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Examine human development and the aging process using gerontological frameworks
Discriminate between normal biological aging changes and acute and chronic conditions.
Evaluate relevant resources and scientific methods to assess programs and potential outcomes for aging individuals and their families.

Career opportunities

Graduates have the knowledge, training and insight to provide relevant information for the aging population in a wide variety of settings. The broad base of comprehension and expertise enables graduates to effectively participate and lead within the aging community.

Career examples include:

advocate
consultant
entrepreneur
expert witness
facilities director
lecturer
program manager
research coordinator

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Clinical Research Management, Certificate (NUHCRGRCC)

College/School: Edson College of Nursing and Health Innovation

Campus: Online

Program description

The clinical research management certificate program gives you the opportunity to advance their careers in clinical= research. The program helps you build a solid foundation in clinical trial management.

Through this online certificate program, you gain skills in ethical and responsible conduct, clinical research regulations,= trial operations and data management. Coursework includes critical topics such as day-to-day operations, participant= recruitment and retention, staffing, data management and comprehensive clinical trial management. The program= requirements also emphasize the integration of technology, quality systems, and cross-functional collaboration= essential to evidence-based health care.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (12 credit hours)
HCR 561 Responsible Conduct of Clinical Research (3)
HCR 562 Clinical Research Data Management and Technology Implementation (3)
HCR 563 Fundamentals of Regulatory Affairs (3)
HCR 565 Clinical Research Operations (3)

Restricted Elective (3 credit hours)

Additional Curriculum Information
Students should see the academic unit for the list of restricted electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health= Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a nationally= recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's= degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

• graduate admission application and application fee
• official transcripts
• resume or curriculum vitae
• two online references
• personal statement
• response to application questions
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants must have six months of full-time, related clinical research work or internship experience as described on the applicant's resume or curriculum vitae. Applicants may be required to submit a job description or internship transcript from their employer.

The online references should be professionals, such as colleagues, supervisors, professors or other professional contacts who can attest to the applicant's academic and leadership experiences.

Knowledge of anatomy, physiology and medical terminology is recommended.

Applications are due 30 days before the start of the session.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-clinical-research-management/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Integrate clinical research project management principles, regulatory requirements, ethical guidelines, and best practices to determine effective strategies for conducting compliant and high-quality clinical trials.
Synthesize global regulatory requirements, ethical considerations, and clinical research practices to determine appropriate compliance actions and develop evidence-based solutions for global clinical research operations.

Career opportunities

Certificate graduates can prepare for research positions that involve evaluating the safety and effectiveness of new medical products. There are many different therapeutic focus areas that graduates can pursue. Specific careers include:

clinical research assistant
clinical research associate
clinical research coordinator
clinical research supervisor
participant recruitment or site support specialist
regulatory or documentation specialist

quality or compliance support associate

Clinical Research Management (Regulatory Science), MS (NUCRMRSMS)

College/School: Edson College of Nursing and Health Innovation

Campus: Online

Program description

Clinical research management is a dynamic and growing field encompassing medical, health and research professionals who lead and conduct clinical trials for innovative medical products.

Regulatory affairs ensure that new products meet the requirements and standards set by regulatory authorities; and regulatory science addresses the safety, efficacy, quality and regulation of new medical products, diagnostics and treatments. The Master of Science program aligns regulations and national competencies throughout the life cycle of medical products. With a master's degree in clinical research management and a focus on regulatory science, you can advance medical care and treatment while ensuring that new discoveries adhere to rules and regulations that keep patients safe.

The regulatory science concentration of this program offers you a robust blend of skills in clinical research management and regulatory affairs and sciences. Coursework in this rigorous program includes regulatory writing techniques, quality assurance, medical devices and drugs, and pharmaceutical safety and risk management, ethical standards and regulation, in addition to clinical trial management.

This program meets your needs as a professional adult learner and provides the flexibility of online courses, allowing for enrollment five times per year. You can complete the program on a part-time basis, enabling you to continue to work while earning your degree.

The program has the distinction of being the first clinical research graduate degree to receive accreditation from the Commission on Accreditation of Allied Health Education Programs. The CAAHEP is the largest programmatic accreditor in the health sciences field and is recognized by the Council for Higher Education Accreditation in the U.S. and internationally.

STEM-OPT extension eligible: No

Degree requirements

33 credit hours including the required capstone course (HCR 566)

Required Core (18 credit hours)
HCR 551 Clinical Research Monitoring (3)
HCR 561 Responsible Conduct of Clinical Research (3)
HCR 562 Clinical Research Data Management and Technology Implementation (3)
HCR 563 Fundamentals of Regulatory Affairs (3)
HCR 565 Clinical Research Operations (3)
HCR 574 Scientific and Research Review Boards (3)

Concentration (12 credit hours)
HCR 552 Medical Device Development and Regulation (3)

HCR 553 Quality Assurance and Clinical Research (3)
HCR 555 Pharmaceutical Safety and Risk Management (3)
HCR 557 Clinical Research Design and Methods (3)
HCR 558 Technical Writing for the Regulatory Professional (3)
HCR 564 Global Regulatory Affairs Leadership (3)
HCR 567 Research Management and Contemporary Research Topics (3)
HCR 578 Legal Aspects of Clinical Research (3)
HCR 579 Translational Research in Drug Discovery and Development (3)

Culminating Experience (3 credit hours)
HCR 566 Clinical Research Management Capstone (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours or 90 quarter hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• resume or curriculum vitae
• three online references
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The applicant must have six months of full-time, related clinical research work or internship experience as described in a resume or curriculum vitae. Applicants without six months of experience are required to complete the research foundation courses provided through the program prior to enrollment in any courses.

The online references should be from colleagues, supervisors or other professional contacts and should attest to the applicant's academic and leadership experiences.

Courses or a background in anatomy, physiology and medical terminology are recommended.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-science-clinical-research-management-regulatory-science/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate regulatory and scientific evidence to develop clear, defensible conclusions in regulatory submissions and communications.
Synthesize ethical and regulatory requirements to determine appropriate compliance actions for protecting human subjects and ensuring responsible clinical research conduct.
Integrate regulatory, ethical, and scientific evidence to develop strategic solutions that enhance the quality, safety, and global regulatory compliance of clinical research.

Career opportunities

Graduates with an MS in clinical research management with a focus on regulatory science have a variety of career opportunities to explore. Career examples include:

clinical data analyst
clinical research associate or coordinator
clinical trial regulatory coordinator
medical device consultant
project manager
quality control specialist
regulatory affairs consultant
regulatory affairs manager
regulatory writer or technical documentation specialist

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Clinical Research Management, MS (NUCRMMS)

College/School: Edson College of Nursing and Health Innovation

Campus: Online

Program description

Clinical research management is a dynamic and growing field encompassing medical, health and research professionals who lead and conduct clinical trials for innovative medical products.

With clinical research rapidly expanding, the Master of Science program in clinical research management takes a

transdisciplinary approach in providing an education strong in commercial and fiscal practices of conducting clinical research to prepare you for clinical trial management. The program integrates scientific, regulatory and business principles to develop you to be ready to manage complex studies and teams across global research environments. This accredited program explores the ethical and regulatory aspects of research and overall management of clinical drug, biological and medical device trials, management of clinical studies, data management, drug discovery and medical devices. You are encouraged to innovate and develop entrepreneurial skills to lead clinical research endeavors.

The MS program in clinical research management meets your needs as a professional adult learner and provides the flexibility of online courses, allowing for enrollment five times per year. You can complete the program on a part-time basis, enabling you to continue to work while earning your degree. Completion of the program requires a project applicable to the clinical research management field.

This degree has the distinction of being the first clinical research graduate degree to receive accreditation from the Commission on Accreditation of Allied Health Education Programs. The CAAHEP is the largest programmatic accreditor in the health sciences field and is recognized by the Council for Higher Education Accreditation in the U.S. and internationally.

STEM-OPT extension eligible: No

Additional Curriculum Information
Students select four courses from the restricted electives list.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree that includes courses with content in anatomy and physiology and medical terminology, or if they have earned a bachelor's degree. Education or experience in anatomy, physiology and medical terminology is recommended.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours or 90 quarter hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• resume or curriculum vitae
• two online references
• personal statement
• response to application questions
• proof of English language proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The applicant must have six months of full-time, related clinical research work or internship experience, as described in a resume or curriculum vitae. Applicants who do not have six months of experience are required to complete a course in clinical research foundations, provided by the program, before enrolling in courses.

The online references should be from colleagues, supervisors or other professional contacts and should attest to the applicant's academic and leadership experiences.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-science-clinical-research-management/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate the design, documentation, and conduct of a clinical trial for compliance with Good Clinical Practices (GCP).
Develop methods for building leadership capacity and supporting effective work within interprofessional teams, diversity, and conflict.
Integrate regulatory, ethical, and scientific evidence to develop strategic solutions that improve the quality, safety, and operational efficiency of clinical research.

Career opportunities

The MS degree program in clinical research management prepares students for careers in governmental and regulatory agencies, pharmaceutical and medical device companies, health care institutions, academic institutions, and national or international research organizations.

Graduates have career opportunities in many areas. Career examples include:

- clinical program manager
- clinical quality or compliance specialist
- clinical research associate
- clinical research coordinator
- clinical trial data manager
- clinical trial director
- clinical trial program manager
- data or site management lead
- project manager
- site or regional operations manager
- study start-up manager

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential= licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for= licensure or certification in another state. For more information, students should visit the ASU professional licensure= (https://admission.asu.edu/academics/licensure) webpage.

Emergency Nurse Practitioner, Certificate (NUEMNPGRCT)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The certificate program for the emergency nurse practitioner specialty is an advanced nursing practice program. You= prepare to provide holistic, client-centered care to patients across the lifespan in ambulatory, urgent and emergent= settings. If you are a board-certified family practitioner nurse who seeks additional certification as an emergency nurse= practitioner; or a student currently enrolled in the third year in the Doctor of Nursing Practice program in the family= nurse practitioner track at Arizona State University, seeking to become an emergency nurse practitioner, this program= is designed for you.

This is a hybrid program, a blend of in-person and online learning. You are required to travel to campus for orientation= and immersions two or three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Any additional= coursework determined by your specific gap analysis must have been completed in the past five years to be eligible for= credit.

Specialty courses focus on care for patients with cardiovascular, thoracic-respiratory, dermatologic, abdominal,= musculoskeletal, psychiatric, traumatic, renal, genitourinary, endocrine, nervous, head, ear, nose and throat system= diseases and disorders in ambulatory, urgent and emergent settings.

Focused clinical experiences are arranged for you if you are residing in Maricopa County, Arizona. You should expect to travel throughout Maricopa County and, in some cases, surrounding counties to complete your assigned clinical placement.

If you reside outside Maricopa County, you are responsible for identifying the required number of clinical sites in your area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before you start any clinical experience; the doctoral program office doesn't guarantee a clinical placement site if you are outside Maricopa County. If, during the program, faculty determine that you need additional supervision for clinical progress in the program, you must complete clinical experiences in the Phoenix area.

The program offers practicum experiences (clinical rotations) in health profession shortage areas throughout the state, in both urban underserved and rural areas; these provide you with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, ASU is authorized to offer distance education to persons located in individual SARA member states, in accordance with the council's established policies and standards. California is not a SARA member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these are noted on the ASU state authorization (https://admission.asu.edu/academics/authorizations) website.

ASU nursing practice programs are accredited by the Commission on Collegiate Nursing Education and are validated by the American Academy of Emergency Nurse Practitioners.

STEM-OPT extension eligible: No

Degree requirements

16 credit hours

Required Core (16 credit hours)
DNP 610 Principles of Advanced Emergency Nursing I (3)
DNP 611 ENP Practicum I: Advanced Emergency Nursing Practice (3)
DNP 630 Principles of Advanced Emergency Nursing II (3)
DNP 631 ENP Practicum II: Advanced Emergency Nursing Practice (4)
DNP 649 Advanced Physiology (3)

Additional Curriculum Information
Every certificate student must complete 315 hours of direct patient care with a nurse practitioner or physician preceptor in the clinical setting. Documented clinical experiences are required by the certification organization, American Association of Nurse Practitioners, for the graduate to be eligible to take the national Emergency Nurse Practitioner certification examination.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants must have earned a bachelor's and master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• proof of a current unencumbered RN license
• three professional letters of recommendation
• resume
• goal statement
• admission essay
• health and safety requirements (submitted after admission)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F1 or J1 visa need to apply to and be accepted into a graduate degree program before being considered for the certificate program. International students residing in the United States on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program. Applicants must also be a licensed family nurse practitioner or enrolled in the family nurse practitioner program at ASU.

One year of clinical experience working within the specialty population is preferred.

Applicants offered admission must meet health and safety requirements, which include a passing disposition on a background clearance, satisfactory completion of a substance screen, and required health and safety documents. Students offered admission must complete health and safety requirements by the provided deadlines or their offer of admission is withdrawn.

An interview with program faculty is required.

An admission examination is not required.

Applicants requesting review of previously completed courses must have a gap analysis review. Applicants must submit primary source documents (i.e. syllabi) for faculty review to demonstrate advanced physiology or pathophysiology, advanced health assessment, advanced pharmacology, and advanced role courses. Depending on the courses completed in the master's degree program, additional courses may be required to complete this specialty. Courses must have been completed within the past five years to be eligible or actively board certified and practicing.

Applications are reviewed on a space-available basis after the priority deadline.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Integrate evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of acute illness or injury and exacerbations of chronic health conditions in emergency or urgent care settings.
- Synthesize evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of traumatic injury, pediatric conditions, and special population health conditions in emergency or urgent care settings.

Career opportunities

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Graduates of the emergency nurse practitioner certificate program have the knowledge and training to provide health care for patients across the lifespan in a wide variety of settings, and their broad base of comprehension and clinical expertise enables them to effectively participate and lead within clinical, community and academic arenas.

Career examples include:

- business owner
- community advocate
- nurse practitioner
- professor

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential= licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for= licensure or certification in another state. For more information, students should visit the ASU professional licensure= (https://admission.asu.edu/academics/licensure) webpage.

Family Nurse Practitioner, Certificate (NUFMPGRCE)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The certificate program for the family nurse practitioner specialty is an advanced nursing practice offering. If you are a= board-certified nurse in a different advanced practice registered nurse specialty area who seeks additional certification= as a family nurse practitioner, or a doctorate-level nurse who seeks to become a family health nurse practitioner, this= program is designed for you.

You prepare to provide holistic, client-centered primary care to individuals of all ages within traditional, nontraditional= and culturally diverse families. You train to meet the physical, psychological and social needs of individuals and families= across the lifespan.

All programs are offered in a hybrid format, requiring you to travel to an ASU campus for up to one week for

orientation at the beginning of the program, and two to three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Any additional coursework determined by your specific gap analysis must have been completed in the past five years to be eligible for credit.

Specialty courses focus on assessment, diagnosis and evidence-based management of common, chronic and complex health conditions in individuals, from infants to geriatrics, within traditional, nontraditional and culturally diverse families. Content that includes epidemiology, differential diagnosis, and sociocultural variations in evidence-based treatments, including health promotion, is emphasized.

Focused clinical experiences are arranged for you if you are residing in Maricopa County, Arizona. You should expect to travel throughout Maricopa County and, in some cases, throughout Arizona to complete your assigned clinical placement.

If you are residing outside Maricopa County, you are responsible for identifying the required number of clinical sites in your area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before you start any clinical experience; the doctoral program office doesn't guarantee a clinical placement site if you are outside Maricopa County. If, during the program, faculty determine that you need additional supervision for clinical progress in the program, you must complete clinical experiences in the Phoenix area.

Food Safety and Protection, Certificate (NUFDSPGRCT)

College/School: Edson College of Nursing and Health Innovation

Campus: Online

Program description

If you are a working professional or graduate student interested in food policy as it relates to the safety and quality of foods, the online food safety graduate certificate is designed for you. The curriculum is aligned with local, state and federal health and safety initiatives and also integrates the regulatory focus of the Food and Drug Administration.

In the program, you focus on the downstream evaluation of the production, processing and preparation of food and food products. You learn to assess food safety hazards, such as waterborne and foodborne pathogen outbreaks. You also learn about food manufacturing and processing, quality systems, foodborne illnesses, and policies and regulations.

Edson College of Nursing and Health Innovation recommends that you have a course in chemistry and biology completed before enrolling in the certificate.

The program aligns with the content on the Certified Professional Food Manager certification exam from the National Environmental Health Association and helps prepare you to take the NEHA exam. To successfully acquire professional certifications and credentials, and even to be eligible to test for these, you may need prior work experience, additional coursework, fieldwork and background checks. You should refer to the NEHA website for general information. www.neha.org (https://www.neha.org/)

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (12 credit hours)
HCR 543 Food Safety and Protection (3)
HCR 544 Assessing Food Safety and Developing Policy Procedures and Training (3)
HCR 558 Technical Writing for the Regulatory Professional (3)
SFS 560 Tools and Tactics for Food Policy Change (3) or HCR 550 Quality Assurance and Safety in Food and Dietary Supplements (3)

Other Requirements (3 credit hours)
HCR 563 Fundamentals of Regulatory Affairs (3) or
HCR 584 Internship (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a science-based or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• two letters of recommendation

• professional resume
• written statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/food-safety-grad-certificate/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate food safety regulations, hazard data, and oversight standards to determine appropriate actions for protecting public health and ensuring regulatory compliance.
Create evidence-based food safety documents, prevention strategies, and operational response plans that support regulatory compliance and public health protection.

Career opportunities

Graduates with a food safety certificate bring strong analytical, writing and inspection skills to the job market. Many find work within the manufacturing and agricultural industries as food safety, quality control or plant managers; product and public health inspectors; or compliance officers in food manufacturing and processing.

Career examples include:

border control public health inspector
facility manager
federal consumer safety inspector
food and safety sanitation product inspector
food inspector
food manufacturing, process and preparation specialist
health inspector
production control food safety inspector

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Health Care Innovation, Certificate (NUHCINGRCT)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, Online

Program description

The growing field of health care innovation requires individuals who can lead and facilitate change.

In the health care innovation graduate certificate program, offered in a flexible online format, you learn through= reflection, personality assessment, exercises in interdisciplinary team-case study analyses, system intervention, idea= pitching and change-readiness assessment. Related entrepreneurial and intrapreneurial concepts, such as prototyping,= business plan or project plan design, budgeting and presentation skills, are also covered.

Emphasizing complexity leadership and vulnerability along with emotional competence, this certificate prepares you to= work in this interdisciplinary and highly sought-after area.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
HCI 538 Innovation and the Individual (3)

Electives (12 credit hours)

Additional Curriculum Information
Students work closely with an advisor to select electives tailored to their individual goals and interests. Elective= coursework includes 12 credit hours at the 500 level or above focused on entrepreneurship and innovation. A= minimum of six credit hours must be completed from HCI courses.

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.

U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

International applicants (https://admission.asu.edu/apply/international/graduate)

English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health= Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any health-related= business, social science, hard science, health care practice or technology field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's= degree program or a minimum cumulative GPA of 3.00 in an applicable master's degree program.

All applicants must submit:

- graduate admission application and application fee
- official transcripts
- proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Admission examinations are not required.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-health-care-innovation/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Design innovative solutions that transform complex healthcare systems and advance the health of the communities they serve.
- Synthesize leadership theories, innovation frameworks, and principles of implementation science to transform traditional organizational cultures into cultures of innovation.

Career opportunities

Graduates with the health care innovation graduate certificate have opportunities for careers such as:

- clinical nurse specialist
- community health worker
- health educator
- health information technician
- informatics nurse specialist

Health Care Simulation, Certificate (NUHCSGRCT)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, Online

Program description

Nearly every nursing program, medical school and health care organization utilizes formative and summative= simulation experiences. The simulated learning environment provides a psychologically safe space where you can make= mistakes without risk to real patients.

The graduate certificate in health care simulation prepares you to design evidence-based simulations in the clinical or= academic setting, understand how to operate and sustain a simulation center, evaluate the effectiveness of simulation,

and design process improvement plans. You receive a range of experiences so you can learn to lead interprofessional teams to design, deliver, evaluate or employ operations techniques simulation education.

Health Care Simulation, MS (NUHCSMS)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, Online

Program description

In the Master of Science program in health care simulation, you acquire skills to design evidence-based simulations in the clinical or academic setting, understand how to operate and sustain a simulation center, evaluate the effectiveness of simulation, and design process improvement plans.

You develop evidence-based scenario design, use technology-enhanced environments that replicate real patient experiences with lifelike high-fidelity computer manikins or simulated participants, and employ operations techniques. Through learning and working with your peers, faculty and leaders from multiple disciplines such as health care, sociology, technology, the arts and public policy, you gain experience in creating transdisciplinary solutions.

Simulation in health care education aims to improve competencies in communication, teamwork, critical thinking, professional identity and safety. The simulated learning environment provides a psychologically safe space where you can make mistakes without risk to real patients.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required applied project course (HCS 593)

Required Core (3 credit hours)
HCS 501 Foundations in Health Care Simulation (3)

Other Requirements (18 credit hours)
HCI 540 Understanding and Applying Principles of Evidence-based Practice (3)
HCS 502 Health Care Simulation Educational Assessment and Debriefing Methods (3)
HCS 503 Principles of Operations Management in Health Care (3)

NUR 521 Health Care Evidence, Informatics and Analysis (3)
NUR 548 Patient Safety, Health Care Quality and Informatics (3)
NUR 671 Teaching in Academic and Practice Settings (3)

Restricted Electives (6 credit hours)
BMI 601 Fundamentals of Health Informatics (3)
HCI 538 Innovation and the Individual (3)
HCI 544 Information Technology (IT) for Health Care Innovation (3)
NUR 670 Curriculum Development in Academic and Practice Settings (3)

Culminating Experience (3 credit hours)
HCS 593 Applied Project (3)

Additional Curriculum Information
Coursework for other requirements or restricted electives may be substituted with approval of the academic unit.

For restricted electives, students choose two courses from the above list, for a total of six credit hours.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in health care or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• professional resume
• written statement
• proof of English proficiency

Healthcare Innovation, MHI (NUHCINNMHI)

College/School: Edson College of Nursing and Health Innovation

Campus: Online

Program description

The fully online Master of Health Care Innovation program prepares you to build and sustain cultures of innovation. You learn from multiple perspectives: personal competence for innovation, use of evidence in decision-making, remodeling system infrastructures, financing, communication and policymaking. You study change theory, leadership, entrepreneurship, technology and system design, and you develop competence in the design, application and testing of innovative processes and products. A primary focus of the MHI is to prepare you to lead processes of innovation and transformation.

Innovative thinking, planning, implementation and evaluation are emphasized throughout the program. The curriculum incorporates the latest trends in health care and is built upon collaboration with other professionals and faculty across diverse disciplines.

As a graduate of the program, you possess the leadership skills and behaviors to influence the future of health care as well as transform and improve health care outcomes for individuals and communities.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Integrative Health, BS

Community Health, BS

Health Care Coordination, BS

Health Entrepreneurship and Innovation, BS

Applied Science (Health Entrepreneurship and Innovation), BAS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

34 credit hours including the required capstone course (HCI 563)

Required Core (5 credit hours)
HCI 538 Innovation and the Individual (3)
HCI 561 Innovation Methods (2)

Electives (6 credit hours)

Other Requirements (18 credit hours)
HCI 540 Understanding and Applying Principles of Evidence-Based Practice (3)
HCI 542 Systems Thinking in a Complex Environment (3)
HCI 544 Information Technology (IT) for Health Care Innovation (3)
HCI 548 Advanced Principles and Concepts of Innovation (3)
HCI 550 Health Care Policy and Innovation (3)
HCI 552 Financing for Innovation (3)

Culminating Experience (5 credit hours)
HCI 563 Capstone: Final Innovation Project (5)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit
• graduate admission application and application fee
• official transcripts
• current resume

• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Formulate an innovative healthcare proposal focused on designing, facilitating, implementing, and evaluating healthcare innovation change programs.
- Synthesize leadership theories, innovation frameworks, and principles of implementation science to transform traditional organizational cultures into cultures of innovation.
- Design innovative solutions that transform complex healthcare systems and advance the health of the communities they serve.

Career opportunities

Graduates are equipped to drive change and innovation in the evolving health care industry.

Career examples include:

- health administration
- health care consultants
- health information technicians
- health technologists
- medical and health service managers

International Health for Healthcare Professionals, Certificate (NUHCRGRCI)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

ASU is not currently accepting applications for this program.

Program description

The international health for healthcare professionals graduate certificate program prepares you to meet the global= health challenges of the future. You receive comprehensive education in the promotion of holistic, culturally= responsive, evidence-based care within and outside the U.S.

Course content includes the provision of care in the presence and absence of natural (e.g., earthquakes) and human-made disasters (e.g., war), the spread of chronic and infectious diseases, economic and political issues, and other= factors that pose substantial challenges to world health promotion and disease prevention.

This graduate certificate is offered as a part-time or full-time online distance program that includes two daylong visits= to the ASU Downtown Phoenix campus and a capstone immersion experience.

STEM-OPT extension eligible: No

Degree requirements

16 credit hours including the required capstone course (HCR 572)

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they are undergraduate-prepared nurse or health-related professional (e.g., social worker, physician, psychologist, dentist) with a baccalaureate or graduate degree from a nationally or internationally recognized and regionally accredited academic institution, or equivalent.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• professional license in the state where the individual capstone project will be conducted, if required (e.g., RN, NP, MSW, PA or MD)
• resume or curriculum vitae
• email addresses of three professional references (not friends or relatives), who will be contacted to complete online recommendations
• fingerprint clearance or proof of application for U.S. citizens and applicants with permanent U.S. resident status
• photocopy of current, valid passport
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current= residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program= prior to being considered for the certificate program. International students residing in the U.S. on other types of visas= must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to= this certificate program.

References are contacted by the Graduate College, with a request to complete a reference questionnaire.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition= and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Interprofessional Healthy Aging, Certificate (NUGNCERT)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, Online

Program description

This certificate program in interprofessional healthy aging prepares you to address healthy aging, focusing on prevention and early intervention to optimize physical, mental and behavioral health and improve the quality of life of older adults and their family caregivers. The program, with an online flexible plan of study option, provides you with interdisciplinary knowledge that focuses collaboratively on improving the well-being of diverse older persons in the context of their families and communities.

The curriculum is based on the Association for Gerontology in Higher Education's Competencies for Graduate Education and addresses the multidimensional aging process, the needs of aging populations, and their potential contributions. It reflects national health initiatives and encourages reciprocal, beneficial and sustainable interdisciplinary and community collaborations to improve health outcomes.

When you complete the program, you can apply for recognition as a gerontological coordinator by the National Association for Professional Gerontologists, an independent international professional organization.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
HCA 501 Perspectives on Aging and the Life Course (3)

Restricted Electives (12 credit hours)
HCA 502 Research and Program Evaluation Issues in Aging (3)
HCA 503 Diversity in Aging (3)
HCA 504 Caregiving Issues for Families and Professionals (3)
HCA 505 Interdisciplinary and Community Collaboration in Aging (3)
HCA 507 Care Coordination across the Continuum of Care (3)
HCA 508 Mental Health Assessment and Intervention (3)
HCA 510 Innovations in Program Development and Policy (3)
NUR 628 Research, Theory and Principles for Palliative Care in the Older Adult (3)
SWG 571 Mental Health Aspects of Aging (3)
SWG 573 Policies to Promote Healthy Aging (3)
SWG 623 Program Evaluation (3)
SWG 632 Policy Practice (3)

Additional Curriculum Information
Other courses may be substituted for restricted electives if approved by the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/gerontology-graduate-certificate/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Examine human development and the aging process using gerontological frameworks.
Differentiate between normal biological aging changes and pathological conditions.
Evaluate relevant resources and scientific methods to assess programs and potential outcomes for aging individuals and their families.

Career opportunities

Graduates are prepared for employment in these occupations:

gerontological coordinator
life enrichment coordinator
life enrichment director
program manager
research coordinator

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Nurse Education in Academic and Practice Settings, Certificate (NUNURSEDCE)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, Online

Program description

If you are a registered nurse or other health professional, this certificate program in nurse education in academic and= practice settings prepares you to teach in academic or practice settings.

You learn about curriculum development, teaching methods, design and delivery of mediated instruction, producing= and evaluating educational programs, and you complete an applied practicum.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (15 credit hours)
NUR 670 Curriculum Development in Academic and Practice Settings (3)
NUR 671 Teaching in Academic and Practice Settings (3)
NUR 672 Design and Delivery of Mediated Instruction (3)
NUR 673 Producing and Evaluating Programs for Academic and Practice Settings (3)
NUR 579 Role-Focused Practicum: Nurse Educator (3) or
NUR 677 Scholarly Citizenship: Teaching Intensive (3)

Additional Curriculum Information
A teaching practicum (comprising 135 clock hours) is required.

As part of the required core, MS and DNP students take NUR 579, and PhD students take NUR 677.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health= Innovation.

Applicants must have earned a minimum of a master's degree in any field from a nationally recognized, regionally= accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's= degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

• graduate admission application and application fee
• official transcripts

• three professional letters of recommendation
• resume
• goal statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

International students who need an F-1 or J-1 visa need to apply to and be accepted into a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for this certificate program.

Licensure Requirements: RN licensure is not required for admission to the nurse education in academic and practice settings certificate program. However, to remain in the program, admitted students who are registered nurses must hold a current unencumbered RN license in the state in which they plan to do clinical practicums.

Health and Safety Requirements: Students recommended for admission must meet health and safety requirements by established deadlines, including a passing disposition on a background clearance, satisfactory completion of a substance screen and other requirements.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/nurse-education-academic-and-practice-settings-graduate/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Design evidence-informed and technologically relevant teaching and learning strategies.
Develop evidence-based strategies to formatively assess and summatively evaluate learning.
Participate in the systematic design/revision, implementation, and evaluation of curricula.
Integrate principles of collaboration in the nurse educator role.

Career opportunities

The nurse educator certificate prepares graduates for a variety of careers, helping to educate the future nursing workforce. Possible careers include:

academic faculty
charge nurse
chief nursing officer
nurse educator
nursing supervisor

Nursing (Clinical Research Management), MS (NUNURCRMMS)

College/School: Edson College of Nursing and Health Innovation

Campus: Online

Program description

The Master of Science program in nursing with a concentration in clinical research management focuses on preparing registered nurses to seamlessly integrate patient care with innovative clinical research methodologies, operations and cutting-edge technology to shape the dynamic future of clinical research.

The program features cross-disciplinary courses designed to integrate clinical practice and clinical research, enabling you to collaborate effectively across roles. Coursework in the MS in nursing with a concentration in clinical research management is delivered completely online, providing flexibility for you to balance your education and your career. Additionally, you complete a one-credit hour clinical prevention and population health practicum in the location where you live. Direct care clinical hours and a role-focused applied practicum enable you to work with a preceptor in an area or role best suited to your career goals.

By merging expertise in clinical care and clinical research management, you gain the skills needed to manage clinical trials, ensure regulatory compliance and uphold ethical standards while advancing patient care. This interprofessional approach prepares you to address the growing demand for a sustainable and innovative health care workforce, equipping you to lead in diverse settings where clinical practice and clinical research converge.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Degree requirements

33 credit hours including the required applied project course (NUR593)

Require Core (3 credit hours)
HCI 538 Innovation and the Individual (3) or
NUR 501 Individual and Innovation Leadership in Health Care (3)

Concentration (12 credit hours)
HCR 561 Responsible Conduct of Clinical Research (3)
HCR 562 Clinical Research Data Management and Technology Implementation (3)
HCR 563 Fundamentals of Regulatory Affairs (3)
HCR 565 Clinical Research Operations (3)

Other Requirements (15 credit hours)
DNP 602 Evaluating Research for Practice (3)
NUR 502 Advanced Health Assessment and Health Promotion (2)
NUR 503 Advanced Health Assessment, Pathophysiology and Pharmacotherapeutics for Health Promotion II (3)
NUR 509 Clinical Prevention and Population Health Practicum (1)

NUR 529 Role-focused Practicum: Patient Safety and Health Care Quality for the Nurse Leader (3)
NUR 544 Theoretical Foundations for Nursing (3)

Culminating Experience (3 credit hours)
NUR 593 Applied Project (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

Applicants are required to submit:

• graduate admissions application and application fee
• official transcripts
• resume
• proof of completion of a statistics course with a ''C'' or better
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL® (iBT), or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

Applicants applying to the RN to MS bridge option (those who will not have a bachelor's degree in nursing conferred before enrolling in the MS in nursing program) need to provide a transcript that shows at least 72 earned undergraduate credit hours from a regionally accredited institution or equivalent to apply to the master's degree program.

An interview with faculty may be required for applicants who have a bachelor's degree in nursing or higher. Applicants to the RN to MS bridge option are required to interview with faculty.

Students who are admitted with an associate degree will be required to complete additional coursework in their plan of study.

Completion of a statistics course with a "C" or better (scale is 4.00 = "A") should be evident on the applicant's transcripts, although applicants may still be admitted to the program with additional required coursework in statistics. Statistics is a required prerequisite for all MS in nursing programs.

Applicants must be able to verify U.S. citizenship or lawful immigration status. Applicants must live in or be able to come to an authorized state (https://admission.asu.edu/academics/authorizations) in the U.S. for any required clinical or practicum experiences.

Licensure requirements: Applicants for the MS in nursing must meet one of the following criteria:

• Applicants must hold a current unencumbered RN license in an authorized state (https://admission.asu.edu/academics/authorizations) in which they plan to do clinical practicums.
• Applicants who have recently graduated from a BSN program must provide proof of a valid U.S. RN license before beginning any courses in the second semester of the master's degree program.

Health and Safety Requirements: Students recommended for admission must meet health and safety requirements by established deadlines, including a passing disposition on a background clearance, satisfactory completion of a substance screen, and other requirements as a condition of admission.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/clinical-research-nursing-degree/) for program descriptions and to request more information.

Career opportunities

Graduates are part of a highly skilled workforce capable of driving excellence and innovation in clinical research and health care delivery. They are prepared for diverse career opportunities in clinical research organizations (national and international), governmental and regulatory agencies, the pharmaceutical industry and medical device companies, hospitals and other health care institutions, and academic research institutions. Graduates may work in roles such as:

clinical research associate
clinical research coordinator
clinical trial manager
regulatory affairs specialist
research nurse

Graduates are also well-suited for positions in government agencies like the Food and Drug Administration, the National Institutes of Health and the Department of Health and Human Services, as well as nonprofit organizations focused on health care research and patient advocacy. In these roles, graduates will contribute to the execution and management of clinical trials, ensuring ethical compliance, regulatory adherence and the advancement of evidence-based health care solutions.

Professional licensure

This program does not lead to any licensures or certifications. Students entering this program are already licensed registered nurses, so there are no additional professional licensure opportunities from this program.

Nursing (Entry to Nursing Practice), MS (NUNRENPRMS)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

If you hold a bachelor's degree in a non-nursing field and wish to become registered nurses, the Master of Science program in nursing with a concentration in entry to nursing practice is for you. Commonly referred to as a master's entry program in nursing (or MEPN), it is a full-time, intensive program that requires a commitment of at least 40 hours per week. Requirements may include weekends and overnight clinical experiences.

Program highlights include:

• completing a graduate degree in nursing with preparation for diverse nursing roles
• developing hands-on skills through simulation and clinical experiences
• streamlined program designed for individuals with non-nursing bachelor's degrees

Upon graduation, you are eligible to take the National Council Licensure Examination and apply for RN licensure through a state board of nursing.

STEM-OPT extension eligible: No

Degree requirements

53 credit hours including the required applied project course (NUR 593)

Required Core (3 credit hours)
HCI 538 Innovation and the Individual (3) or NUR 501 Individual and Innovation Leadership in Health Care (3)

Concentration (40 credit hours)
DNP 602 Evaluating Research for Practice (3)
NUR 514 Nursing Theory: Nursing Fundamentals (5)
NUR 515 Nursing Concepts for Psychiatric Mental Health (2)
NUR 516 Nursing Practice: Psychiatric Mental Health (2)
NUR 517 Nursing Practice: Pediatrics (2)
NUR 518 Nursing Practice: Adults (4)
NUR 519 Role-Focused Practicum: Care Coordination for the Nurse Leader (2)
NUR 524 Nursing Practice: Childbearing Family (2)
NUR 533 Nursing Concepts: Childbearing Family (2)
NUR 542 Readiness to Practice (2)
NUR 544 Theoretical Foundations for Nursing (3)
NUR 545 Advanced Pharmacology (3)
NUR 547 Community, Global and Population Health (3)
NUR 548 Patient Safety, Health Care Quality and Informatics (3)
NUR 550 Health Assessment (2)

Other Requirements (7 credit hours)
NUR 417 Nursing Concepts: Pediatric Clients (2)
NUR 478 Nursing Practice: Complex Care (2)
NUR 546 Nursing Concepts for Complex Care (3)

Culminating Experience (3 credit hours)
NUR 593 Applied Project (3)

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution. Applicants who hold a BSN degree are not eligible and should apply to the MS program in nursing or the MS program in nursing with a concentration in nursing education.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• prerequisite course information
• valid Test of Essential Academic Skills score (minimum score of 58.7% required for consideration)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants may be contacted to submit additional application materials, including a written statement and a recorded interview, depending on qualifications.

Applicants may be admitted to the program with additional assigned coursework. If a student is assigned any additional coursework by the academic unit upon admission, those courses must be completed with a grade of "B" (scale is 4.00 = "A") or higher before completing the graduate program's required coursework. Additional courses may include:

BIO 201 Human Anatomy and Physiology I and BIO 202 Human Anatomy and Physiology II
CDE 232 Human Development
CHM 101 Introductory Chemistry
HCR 240 Human Pathophysiology
MIC 205 Microbiology and MIC 206 Microbiology Laboratory
NTR 241 Human Nutrition
statistics (100-level or higher three credit hour course)

Applicants selected for admission must meet health and safety requirements, which include a passing disposition on a background clearance and satisfactory completion of a substance screen.

For additional details, interested applicants should access the application guide and nursing information session on the Edson College of Nursing and Health Innovation website (https://nursingandhealth.asu.edu/programs/ms/nursing-entry-nursing-practice-ms).

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Apply safety and quality principles in clinical decision-making to minimize risk and improve patient outcomes.
Evaluate evidence-based practice to inform clinical decision-making and support practice improvement.
Design population-focused care to improve health outcomes.

Career opportunities

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Graduates of this program have the knowledge and training to deliver innovative care and lead health care teams across diverse settings. Completion of this degree program also enables graduates to pursue advanced practice registered nurse certifications or doctorate-level nursing degrees.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

Applicants are required to submit:

• graduate admissions application and application fee
• official transcripts
• resume
• proof of completion of a statistics course with a ''C'' or better
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL® (iBT), or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

Applicants applying to the RN to MS bridge option (those who will not have a bachelor's degree in nursing conferred before enrolling in the MS in nursing program) need to provide a transcript that shows at least 72 earned undergraduate credit hours from a regionally accredited institution or equivalent to apply to the master's degree program.

An interview with faculty may be required for applicants who have a bachelor's degree in nursing or higher. Applicants to the RN to MS bridge option are required to interview with faculty.

Students who are admitted with an associate degree will be required to complete additional coursework in their plan of study.

Completion of a statistics course with a "C" or better (scale is 4.00 = "A") should be evident on the applicant's transcripts, although applicants may still be admitted to the program with additional required coursework in statistics. Statistics is a required prerequisite for all MS programs in nursing.

Applicants must be able to verify U.S. citizenship or lawful immigration status. Applicants must live in or be able to come to an authorized state (https://admission.asu.edu/academics/authorizations) in the U.S. for any required clinical or practicum experiences.

Licensure requirements: Applicants for the MS in nursing and MS program in nursing with a concentration in nursing education must meet one of the following criteria:

• Applicants must hold a current unencumbered RN license in an authorized state (https://admission.asu.edu/academics/authorizations) in which they plan to do clinical practicums.
• Applicants who have recently graduated from a BSN program must provide proof of a valid U.S. RN license before beginning any courses in the second semester of the master's degree program.

Health and Safety Requirements: Students recommended for admission must meet health and safety requirements by established deadlines, including a passing disposition on a background clearance, satisfactory completion of a substance screen, and other requirements as a condition of admission.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/nursing-health-care-innovation/) for program descriptions and to request more information.

Career opportunities

Graduates of this innovative online MSN program are prepared for leadership roles across diverse health care settings. Career opportunities include:

clinical director
health care administrator
informatics specialist
nurse executive
policy analyst
quality improvement leader

With expertise in policy, finance and technology, graduates can drive change in hospitals, health systems, government agencies and beyond.

Professional licensure

RN licensure is required for admission to this program. No additional licensure or certifications will result from completion of this program.

Nursing (Nursing Education), MS (NUNURSEDMS)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, Online

Program description

The country is experiencing a shortage of nursing faculty. The Master of Science degree program, with a concentration in nursing education, prepares you to advance your career and achieve your goal of becoming a nurse educator in an academic or practice setting. This program prepares you to teach future nurses and nursing leaders. Program highlights include:

• academic and clinical assessment
• curricular design and evaluation
• curriculum and course development and delivery
• educational theory and research
• testing and evaluation, including evaluation methods

Coursework in the MS in nursing with a concentration in nursing education is delivered completely online, providing flexibility for you to balance your education and your career. Additionally, you complete a one-credit hour population health practicum in the location where you live.

Courses in this program are led by experienced nursing faculty and designed with active learning strategies. Throughout the program, you learn the key competencies of a prepared nurse at the master's degree level while you gain additional nursing education skills.

RN to MS in nursing (nursing education) option
If you have an associate degree in nursing, you can consider pursuing ASU's online RN to MS in nursing with a concentration in nursing education pathway (https://asuonline.asu.edu/online-degree-programs/graduate/rn-msn-nursing-education/) option.

STEM-OPT extension eligible: No

Degree requirements

33 credit hours including the required applied project course (NUR 593), or
39 credit hours including the required applied project course - RN to MS Bridge Program (NUR 593)

Required Core (3 credit hours)
NUR 501 Individual and Innovation Leadership in Health Care (3) or HCI 538 Innovation and the Individual (3)

Bridge Coursework (6 credit hours)
NUR 552 Dynamics of Professional Nursing I (3)
NUR 553 Dynamics of Professional Nursing II (3)

Concentration (12 credit hours)
NUR 670 Curriculum Development in Academic and Practice Settings (3)
NUR 671 Teaching in Academic and Practice Settings (3)
NUR 672 Design and Delivery of Mediated Instruction (3)
NUR 673 Producing and Evaluating Programs for Academic and Practice Settings (3)

Other Requirements (15 credit hours)
DNP 602 Evaluating Research for Practice (3)
NUR 502 Advanced Health Assessment and Health Promotion (2)
NUR 503 Advanced Health Assessment, Pathophysiology and Pharmacotherapeutics for Health Promotion II (3)
NUR 509 Clinical Prevention and Population Health Practicum (1)
NUR 544 Theoretical Foundations for Nursing (3)
NUR 579 Role-focused Practicum: Nurse Educator (3)

Culminating Experience (3 credit hours)
NUR 593 Applied Project (3)

Additional Curriculum Information
Students in the RN to MS in nursing (nursing education) bridge program complete 39 credit hours for this degree. In addition to fulfilling the requirements listed above, these students must complete NUR 552 Dynamics of Professional Nursing I and NUR 553 Dynamics of Professional Nursing II before starting the MS curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants must have earned an associate, bachelor's or master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in their associate degree nursing program or the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must be licensed as registered nurses.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• resume
• proof of completion of a statistics course with a "C" or better
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Completion of a statistics course with a "C" or better (scale is 4.00 = "A") should be evident on the applicant's transcripts, although applicants may still be admitted to the program with additional required coursework in statistics. Statistics is a required prerequisite for all MS in nursing programs.

Applicants applying to the RN to MS bridge option (those who will not have a bachelor's degree in nursing conferred before enrolling in the MS in nursing program) need to provide a transcript that shows at least 72 earned undergraduate credit hours from a regionally accredited institution or equivalent to apply to the master's degree program.

An interview with faculty may be required for applicants who have a bachelor's degree in nursing or higher. Applicants to the RN to MS bridge option are required to interview with faculty.

Students who are admitted with an associate degree will be required to complete additional coursework in their plan of study.

Applicants must be able to verify U.S. citizenship or lawful immigration status. Applicants must live in or be able to come to an authorized state (https://admission.asu.edu/academics/authorizations) in the U.S. for any required clinical or practicum experiences.

Licensure requirements: Applicants for the MS in nursing and MS program in nursing with a concentration in nursing education must meet one of the following criteria:

• Applicants must hold a current unencumbered RN license in an authorized state (https://admission.asu.edu/academics/authorizations) in which they plan to do clinical practicums.
• Applicants who have recently graduated from a BSN program must provide proof of a valid U.S. RN license before beginning any courses in the second semester of the master's degree program.

Health and Safety Requirements: Students recommended for admission must meet health and safety requirements by established deadlines, including a passing disposition on a background clearance, satisfactory completion of a substance screen and other requirements as a condition of admission.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/masters-nursing-education/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Design evidence-informed and technologically relevant teaching and learning strategies.
Develop evidence-based strategies to formatively assess and summatively evaluate learning.
Participate in the systematic design/revision, implementation, and evaluation of curricula.
Integrate principles of collaboration in the nurse educator role.

Career opportunities

The master's degree program in nursing education prepares graduates for a variety of careers in which they can help educate the future nursing workforce. Job titles include:

charge nurse
chief nursing officer
clinical professor
director of nursing
faculty member
lead nurse
nurse educator
nursing supervisor

Graduates also are prepared for career advancement.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Nursing and Healthcare Innovation, PHD (NUNHIPHD)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The Doctor of Philosophy program in nursing and healthcare innovation provides you with an enriching academic environment that fosters scholarship, critical thinking and interprofessional collaboration. This research-intensive, interdisciplinary doctoral program is designed to help you pursue or advance a career as a leader in health science, health education and policy, and health innovation.

The program prepares you with the research skills to generate, apply and disseminate scientific knowledge, while demonstrating the leadership skills needed to influence health processes, outcomes, policy and innovation.

Edson College of Nursing and Health Innovation offers this degree program in both in a hybrid format (both traditional on-site and an innovative synchronous online format) and includes occasional travel to campus. Doctoral faculty mentors, representing a diversity of backgrounds and intellectual perspectives, are dedicated to providing learner-centered, research-focused doctoral education.

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.
This degree is also offered as a concurrent program with the following:

Advanced Nursing Practice (Adult-Gerontology Nurse Practitioner), DNP

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (3 credit hours)
NUR 602 State of the Science in Nursing and Healthcare Innovation (3)

Electives or Research (39 credit hours)

Other Requirements (30 credit hours)
NUR 601 Scientific Role Development I: Engaging and Committing (1)

NUR 603 Social and Contextual Issues in Nursing and Healthcare (3) or NUR 610 Genomics and Population Health (3)
NUR 604 Philosophy of Science Perspectives in Nursing and Healthcare Innovation (3)
NUR 605 Theory Analysis (3)
NUR 606 Scientific Role Development II: Validating and Demonstrating (1)
NUR 607 Scientific Role Development III: Bridging (1)
NUR 608 Qualitative Research Design and Methods (3)
NUR 609 Quantitative Research Design and Methods (3)
NUR 617 Foundational Concepts in Science and Statistics (3) or DNP 679 Biostatistics: Principles of Statistical Inference (3)
NUR 618 Advancing Research-Based Health Policy Through Leadership and Innovation Science (3) or DNP 711 Healthcare Policy and Innovation (3)
NUR 671 Teaching in Academic and Practice Settings (3)
NUR 680 Topic: Research Practicum in Nursing and Health Innovation (3)

Culminating Experience (12 credit hours)
NUR 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree. If students do not have a previously awarded master's degree, the 30 hours of coursework are made up of electives and research. From those elective and research hours, 12 credit hours are required in a substantive area of specialization and may be taken in any semester, based on availability and student interest. A total of 24 credit hours of coursework with a research focus are required, including 12 hours of dissertation credit.

Students are required to enroll in a minimum of nine credit hours per semester for years one and two of their plan of study. The plan of study can be as broad or as narrow as the student and the supervisory program committee deem necessary for the student's career goals. Students may choose from the following five substantive areas of study: aging, education, health care innovation leadership, healthy families or world health.

The program may incorporate courses from other disciplines to further refine substantive areas of study.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants must have earned a bachelor's or master's degree in nursing or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.50 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• current resume
• goal statement essay
• writing sample

• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants must show completion of a current inferential statistics prerequisite course.

GRE scores are recommended but not required. ASU does not accept the GRE® General Test at home edition.

Students are admitted once a year, to start in the fall semester.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Implement doctoral-level skills and knowledge related to qualitative research methods.
- Implement doctoral-level skills and knowledge related to quantitative research methods.
- Complete all stages of the dissertation project using comprehensive knowledge of relevant literature, theories, concepts, and outcomes within their area of research.

Career opportunities

Graduates of the PhD program are prepared to assume leadership roles in research, education and administration, with the goal of enhancing health and quality of life across diverse populations and settings.

Career examples include:

- academic faculty (e.g., professor)
- health care executive
- health educator
- health-focused scientist

Nursing, MS (NUNURDTMS)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, Online

The accelerated master's BSN/MS option is currently only available to ASU Online students.

Program description

The Master of Science program in nursing is ideal if you are a nurse looking to gain advanced education and skills in the translation of concepts, practices and principles of leadership. The degree is designed for nurses who think about the future and are ready to take the next step in their career. Accredited by the Commission on Collegiate Nursing

Education, this program emphasizes evidence-based practice, patient safety and health care quality, informatics and leadership.

Coursework is delivered completely online, providing you with the flexibility to focus on both your education and career goals. Additionally, a one-credit population health practicum is completed where you live. Throughout the program, you learn about leadership, innovative thinking and interprofessional team collaboration, and you advance your skills in leadership, research, evidence-based practice, evaluation, critical thinking, health care quality and patient safety.

RN to MS in nursing option
If you have an associate degree in nursing, you can consider pursuing ASU's online RN to MS in nursing bridge (https://asuonline.asu.edu/online-degree-programs/graduate/master-science-nursing-bridge/) option.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Nursing, BSN

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (NUR 593), or
36 credit hours including the required applied project course (NUR 593) - RN to MS Bridge Program

Required Core (3 credit hours)
NUR 501 Individual and Innovation Leadership in Health Care (3) or HCI 538 Innovation and the Individual (3)

Other Requirements (24 credit hours)
DNP 602 Evaluating Research for Practice (3)
NUR 502 Advanced Health Assessment and Health Promotion (2)
NUR 503 Advanced Health Assessment, Pathophysiology and Pharmacotherapeutics for Health Promotion II (3)
NUR 509 Clinical Prevention and Population Health Practicum (1)
NUR 521 Health Care Evidence, Informatics and Analysis (3)
NUR 529 Role-Focused Practicum: Patient Safety and Health Care Quality for the Nurse Leader (3)
NUR 544 Theoretical Foundations for Nursing (3)
NUR 547 Community, Global and Population Health (3)
NUR 548 Patient Safety, Health Care Quality and Informatics (3)

Culminating Experience (3 credit hours)
NUR 593 Applied Project (3)

Additional Curriculum Information
Students in the RN to MS in nursing bridge program complete 36 credit hours for this degree. In addition to fulfilling the requirements listed above, these students must complete NUR 552 Dynamics of Professional Nursing I (3) and NUR 553 Dynamics of Professional Nursing II (3) before starting the MS curriculum. Proof of statistics completion with a C or better is required (applicants may be admitted to the program with additional required coursework in statistics).

Statistics is a required prerequisite for all MS in nursing programs.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned an associate or bachelor's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in their associate degree nursing program or the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must be licensed as Registered Nurses and fulfill the admission requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• two letters of recommendation
• professional resume
• written statement
• proof of statistics completion with a C or better (applicants may be admitted to the program with additional required coursework in statistics)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Those applying only with an associate degree completed need to provide a transcript that shows at least 72 earned undergraduate credit hours from a regionally accredited institution or equivalent, and students who are admitted with an associate degree are required to complete additional coursework in their plan of study.

All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Students residing in the following states are not eligible for enrollment in this program due to state authorizations (https://admission.asu.edu/academics/authorizations): Louisiana, New York, Oregon, Rhode Island, Tennessee and Washington.

An interview with faculty may be required for applicants who have a minimum of a bachelor's degree or higher. Applicants who do not have a bachelor's degree are required to interview with faculty.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/masters-nursing/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Integrate established and evolving interdisciplinary knowledge as the basis for clinical judgment, innovation, and leadership in the art and science of nursing practice across diverse settings.
- Design evidence-based practice change across diverse health care settings with patients and populations to improve health and transform health care.
- Deliver collaborative population health interventions aimed at prevention, health promotion, and disease management to promote equitable population health outcomes.

Career opportunities

With a master's in nursing, graduates are prepared for an advanced position or a leadership role in the field. Possible job titles after earning this degree include:

- charge nurse
- chief nursing officer
- clinical educator
- clinical nurse
- director of nursing
- lead nurse
- nurse manager
- nurse supervisor
- nursing faculty

Primary Care Pediatric Nurse Practitioner, Certificate (NUPDNPGRCT)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The certificate program for the primary care pediatric nurse practitioner specialty is an advanced nursing practice= program. It prepares you to provide holistic, client-centered primary care to infants, children, adolescents and young= adults. If you are a board-certified nurse in a different advanced practice registered nurse specialty area who seeks= additional certification as a primary care pediatric nurse practitioner, or a doctorate-level nurse who seeks to become a= primary care pediatric nurse practitioner, this program is designed for you.

All programs are offered in a hybrid format, requiring you to travel to an ASU campus for up to one week for= orientation at the beginning of the program and two to three times per semester.

Core courses include advanced pharmacology, advanced pathophysiology and advanced health assessment. Any= additional coursework determined by your gap analysis must have been completed within the previous five years to be= eligible for credit.

Using best evidence, specialty courses focus on health promotion and the assessment and management of culturally appropriate plans of health care for well infants, children, adolescents and young adults, as well as those with minor, acute, and stable complex and chronic health disorders.

Focused clinical experiences are arranged for you if you're residing in Maricopa County, Arizona. You should expect to travel throughout Maricopa County and, in some cases, throughout Arizona to complete your assigned clinical placement.

If you're residing outside of Maricopa County, you're responsible for identifying the required number of clinical sites in your area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before you start any clinical experience; the doctoral program office doesn't guarantee a clinical placement site if you are outside Maricopa County. If, during the program, the faculty determine that you need additional supervision for clinical progress in the program, you must complete clinical experiences in the Phoenix area.

The program offers practicum experiences (clinical rotations) in health profession shortage areas throughout the state, in both urban underserved and rural areas, which provide you with multicultural experiences to enhance your professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is authorized to offer distance education to students located in individual SARA member states, in accordance with the council's established policies and standards. California is not a SARA member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these are noted on the ASU state authorization (https://admission.asu.edu/academics/authorizations) website.

STEM-OPT extension eligible: No

Degree requirements

32 credit hours

Required Core (32 credit hours)
DNP 640 Advanced Human Pathophysiology Pediatrics (4)
DNP 641 Advanced Health Assessment Pediatrics (3)
DNP 642 Applied Pharmacotherapeutics for Pediatrics (3)
DNP 643 Developmentally Based Care of the Well Child (3)
DNP 644 Well Child Advanced Practicum (3)
DNP 645 Management of Common Problems in Pediatric Primary Care (3)
DNP 646 Management of Common Problems in Pediatric Primary Care Practicum (5)
DNP 647 Management of Complex and Chronic Health Problems in Pediatric Primary Care (3)
DNP 648 Management of Complex and Chronic Problems Pediatric Primary Care Practicum (5)

Additional Curriculum Information
Nurses who complete this certificate program meet the eligibility requirements to take a national pediatric nurse practitioner certification examination. In addition to completing didactic courses, students complete 13 credit hours (585 clock hours) of pediatric practicum experiences in a community setting.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants must have earned a bachelor's and master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of a current unencumbered RN license
• three professional letters of recommendation
• resume
• goal statement
• admission essay
• health and safety requirements (submitted after admission)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F1 or J1 visa need to apply to and be accepted into a graduate degree program before being considered for the certificate program. International students residing in the United States on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Applicants must be board certified in a different Advanced Practice Registered Nurses specialty.

One year of clinical experience working within the specialty population is preferred.

Applicants offered admission must meet health and safety requirements, which include a passing disposition on a background clearance, satisfactory completion of a substance screen, and required health and safety documents. Students offered admission must complete health and safety requirements by the provided deadlines or their offer of admission is withdrawn.

An interview with program faculty is required.

An admission examination is not required.

Applicants requesting review of previously completed courses must have a gap analysis review. Applicants must submit primary source documents (i.e., syllabi) for faculty review to demonstrate advanced physiology or pathophysiology, advanced health assessment, advanced pharmacology, and advanced role courses. Depending on the courses completed in the master's degree program, additional courses may be required to complete this specialty. Courses must have been completed within the past five years to be eligible or actively board certified and practicing.

Applications are reviewed on a space-available basis after the priority deadline.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Integrate evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of acute and common health conditions in primary care pediatric populations.
- Synthesize evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of complex and chronic health conditions in primary care pediatric populations.

Career opportunities

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. The primary care pediatric nurse practitioner role is well established in all urban and most rural areas of Arizona. Graduates are prepared to provide comprehensive health care for infants, children, adolescents and young adults. Careers include positions in:

- clinical education and training of future health care providers
- community health centers
- fast-track emergency departments
- outpatient primary and secondary health care clinics
- specialty health care

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential= licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for= licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Psychiatric Mental Health Nurse Practitioner, Certificate (NUPMNUPRCE)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The certificate program for the psychiatric mental health nurse practitioner specialty is an advanced nursing practice= program. It prepares you to provide holistic, client-centered mental health care to individuals of all ages within= traditional, nontraditional and culturally diverse families. If you are a board-certified nurse in a different advanced= practice registered nurse specialty area who seeks additional certification as a psychiatric mental health nurse= practitioner, or a doctorate-level nurse who seeks to become a psychiatric mental health nurse practitioner, this= program is for you. It emphasizes the assessment, diagnosis and evidence-based management of common and= complex mental health disorders across the life span.

All programs are offered in a hybrid format requiring you to travel to an ASU campus for up to one week for orientation

at the beginning of the program and two to three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Any deficiency courses determined by your unique gap analysis must have been completed in the past five years to be eligible for credit.

The program highlights valid and reliable tools for screening and identification of mental health disorders, as well as early interventions for these problems. Content for each disorder includes epidemiology, incidence, early signs and symptoms, differential diagnosis, and sociocultural variations in evidence-based management and treatment. Management includes psychopharmacologic and therapeutic skills building that are based in motivational interviewing, mindfulness, cognitive behavioral therapy and dialectical behavior therapy. Individual, group and family therapy techniques are emphasized.

Focused clinical experiences are arranged for you if you're residing in Maricopa County, Arizona. You should expect to travel throughout Maricopa County and, in some cases, throughout Arizona to complete your assigned clinical placement.

If you're residing outside of Maricopa County, you are responsible for identifying the required number of clinical sites in your area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College of Nursing and Health Innovation must approve these sites before you start any clinical experience; the doctoral program office does not guarantee a clinical placement site if you are outside of Maricopa County. If, during the program, the faculty determines that you need additional supervision for clinical progress in the program, you must complete clinical experiences in the Phoenix area.

The program offers practicum experiences (clinical rotations) in health profession shortage areas throughout the state, in both urban underserved and rural areas, which provide you with multicultural experiences to enhance professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, ASU is authorized to offer distance education to persons located in individual state authorization reciprocity agreement member states in accordance with the council's established policies and standards. California is not a state authorization reciprocity agreement member, and the California Bureau of Private Postsecondary Education does not regulate out-of-state public institutions. Regulatory Science (Food Safety), MS (NURGSCFSMS)

College/School: Edson College of Nursing and Health Innovation

Campus: Online

Program description

The Master of Science program in regulatory science with a concentration in food safety is an online program that helps you study contamination concerns and regulations throughout the food supply chain, from growing to distributing to selling. You analyze food safety regulations from local, state and federal agencies, including the U.S. Food and Drug Administration. You also gain an understanding of the ethical and legal challenges of food safety and regulation.

Food safety regulation is a science focused on the safe handling, distribution, selling and preparation of food. This program covers key areas, including food safety inspections, hazard analysis, emergency response to contamination, and safe food practices. You learn how to identify food safety issues through the use of videos and simulations and to write reports on your findings. Applied learning experiences directly relate to the type of food safety problems that most frequently occur in the preparation, storage and processing of food.

Edson College of Nursing and Health Innovation highly recommends, but doesn't require, that you take a course in chemistry and biology before enrolling.

STEM-OPT extension eligible: No

Degree requirements

33 credit hours including the required applied project course (HCR 593)

Required Core (18 credit hours)
HCR 553 Quality Assurance and Clinical Research (3)
HCR 561 Responsible Conduct of Clinical Research (3)
HCR 563 Fundamentals of Regulatory Affairs (3)
HCR 576 Drug Discovery, Development and Regulations (3)
HCR 577 Global Regulatory Affairs (3)
HCR 578 Legal Aspects of Clinical Research (3)

Concentration (12 credit hours)
HCR 543 Food Safety and Protection (3)
HCR 544 Assessing Food Safety and Developing Policy Procedures and Training (3)
HCR 550 Quality Assurance and Safety in Food and Dietary Supplements (3)
HCR 558 Technical Writing for the Regulatory Professional (3)

Culminating Experience (3 credit hours)
HCR 593 Applied Project (3)

Additional Curriculum Information
The culminating experience is an applied project course that includes a project based on a food topic studied during the degree program. Students choose a scientific, technical or regulatory project that includes a research protocol or professional presentation to industry professionals.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants must have earned a bachelor's or master's degree in science or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• two letters of recommendation
• professional resume
• written statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/masters-food-science/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Interpret regulatory, ethical, and scientific frameworks to explain how food safety standards, human subjects protections, and federal oversight requirements guide the development and evaluation of food and medical products.
Evaluate regulatory, scientific, and quality-system principles to determine food safety risks, compliance requirements, and oversight strategies across food and medical product environments.
Synthesize regulatory, scientific, and quality-system evidence to develop professional regulatory documents, SOPs, and applied compliance solutions that meet industry and agency standards.

Career opportunities

Graduates from the program are in high demand for a variety of jobs in food safety and regulatory science. In particular, they are prepared for local, state and federal regulatory careers in agencies such as the FDA, the U.S. Department of Agriculture, and state and county health departments, as well as food manufacturers.

Professionals in the food safety industry conduct site inspections, assess food safety hazards, develop preventive food safety procedures, create food safety policies and more, depending on the position. No matter the job, the goal in food safety and regulation positions is always to protect the consumer.

Regulatory science and food safety careers include:

environmental health specialist
facility manager
food inspector

- food-safe chemical supplier
- quality assurance manager
- quality control manager
- registered sanitarian
- regulatory investigator

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.The program aligns with the content on the Certified Professional Food Manager certification exam from the National Environmental Health Association and helps prepare students to take the NEHA exam. To successfully acquire professional certifications and credentials, and to even be eligible to test for these, students may need prior work experience, additional coursework, fieldwork and background checks. www.neha.org (http://www.neha.org)

Regulatory Science, MS (NURSHSMS)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, Online

Program description

The Master of Science program in regulatory science prepares you to protect public health through the discovery, development and marketing of medical products to the consumer. This program focuses on maintaining compliance with drugs and device regulations, with an emphasis on safety, quality and performance. You prepare for careers in the pharmaceutical, medical research and medical device industries.

While earning the MS in regulatory science, you delve into all aspects of regulatory affairs, including:

• clinical research
• drug and medical device development
• ethical and legal aspects
• global regulatory practices
• manufacturing
• regulatory submissions

The field of regulatory science focuses on the application of regulations throughout the life cycle of medical products and compliance with regulations during their development, approval and marketing. This advanced degree incorporates a transdisciplinary approach to meet the unique needs of regulating bodies and the industry.

STEM-OPT extension eligible: No

Degree requirements

33 credit hours including the required applied project course (HCR 593)

Required Core (18 credit hours)
HCR 553 Quality Assurance and Clinical Research (3)

HCR 561 Responsible Conduct of Clinical Research (3)
HCR 563 Fundamentals of Regulatory Affairs (3)
HCR 576 Drug Discovery, Development and Regulations (3)
HCR 577 Global Regulatory Affairs (3)
HCR 578 Legal Aspects of Clinical Research (3)

Restricted Electives (12 credit hours)
HCR 552 Medical Device Development and Regulation (3)
HCR 555 Pharmaceutical Safety and Risk Management (3)
HCR 557 Clinical Research Design and Methods (3)
HCR 558 Technical Writing for the Regulatory Professional (3)
HCR 564 Global Regulatory Affairs Leadership (3)
HCR 568 Health Care Project Management (3)
HCR 575 Management and Negotiation of Clinical Trial Budgets and Contracts (3)
HCR 579 Translational Research in Drug Discovery and Development (3)

Culminating Experience (3 credit hours)
HCR 593 Applied Project (3)

Additional Curriculum Information
For electives coursework, students choose four courses for 12 credit hours from the restricted electives list. Other coursework may be substituted with approval from the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a nationally recognized, regionally accredited academic institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• resume or curriculum vitae
• two online recommendations
• personal statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The online references should be from professional colleagues, supervisors, professors or other professional contacts and should attest to the applicant's academic and leadership experiences.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/regulatory-science-ms/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Interpret regulatory and ethical frameworks to assess protections for human subjects and evaluate the oversight requirements that govern global clinical research.
Evaluate quality and compliance systems to determine strategies that support safe, effective, and globally compliant medical product development.
Synthesize regulatory, scientific, and quality evidence to create regulatory submissions, formal reports, clinical study report synopses, and corrective or preventive action plans that meet professional standards.

Career opportunities

The field of regulatory affairs continues to grow as pharmaceutical and medical development advances. Companies are eager to hire regulatory science professionals into jobs such as:

clinical research associate or scientist
compliance officer
FDA inspector
quality assurance specialist
quality control specialist
regulatory affairs specialist
regulatory coordinator
regulatory consultant
regulatory manager
regulatory project manager
regulatory scientist

Regulatory and Clinical Research Management, DPP (NURCRMDPP)

College/School: Edson College of Nursing and Health Innovation

Campus: Online

Program description

The Doctor of Professional Practice program in regulatory and clinical research management prepares you to influence the medical and health care industry through the development of new medical products such as drugs, biologics, vaccines and devices to address the health needs of consumers.

An interdisciplinary curriculum weaves innovation, technology, bioinformatics, policy, leadership methods and strategies with regulatory and clinical research management to ensure that you meet industry workforce needs and are a capable, high-functioning, innovative leader. Core courses provide a strong foundation in leadership and communication; the regulations and development of medical products through the life cycle; quality control; application of ethics to animal and human research; pharmacology, drugs and society; biologics; and small molecules. Other topics include the principles and concepts of innovation, systems thinking in a complex environment, artificial intelligence and business. These core courses are balanced with offerings from other ASU colleges and departments, providing you with the knowledge base, skills and abilities to tackle practical health concerns and ethical dilemmas; navigate the global regulatory landscape; and contribute to the discovery medical products, procedures and diagnostics to advance health care.

STEM-OPT extension eligible: No

Degree requirements

60 credit hours including the required applied project course (RCR 793)

Required Core (24 credit hours)
RCR 710 Leadership Communication in the Regulatory and Clinical Research Industry (3)
RCR 712 Leadership for Change in Regulatory and Clinical Research (3)
RCR 713 Quality Control and Assurance Through the Medical Product Cycle (3)
RCR 714 Ethical and Regulatory Aspects of Clinical Research (3)
RCR 715 Drugs and Society: Milestones in Drug Development (3)
RCR 716 Development and Manufacturing of Small Molecules (3)
RCR 717 Development and Regulation of Biologics (3)
RCR 718 Planning and Execution of Clinical Research (3)

Other Requirements (3 credit hours)
NUR 617 Foundational Concepts in Science and Statistics (3)

Electives (21 credit hours)

Culminating Experience (12 credit hours)
RCR 793 Applied Project (12)

Additional Curriculum Information
With approval from the student's supervisory committee and the Graduate College, 15 credit hours from a previously awarded master's degree can be used for this program.

Students should consult with the academic unit for the list of open electives and restricted electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants must have earned a master's degree in regulatory science or clinical research management, or a similar degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• professional resume
• two letters of recommendation
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Interested students must have a master's degree.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/doctor-regulatory-clinical-research-management/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Critically evaluate the literature of the field of Regulatory and Clinical Research Management.
Conduct applied research resulting in an original contribution to knowledge in the focused areas of their graduate program.
Apply principles of organizational management and leadership, as well as following FDA and international regulations, when writing a business proposal for the development and approval of new medical products.

Career opportunities

The life sciences industries provide an array of career opportunities for professionals with doctorate degrees. Technological advances such as AI and machine learning may advance the development and approval of new products to market. Both regulatory and clinical research management personnel are an integral part of this process. Directors and managers in regulatory affairs manage the regulatory aspects of the product through all phases of development, approval and postapproval. Professionals in clinical trial management positions are responsible for the planning, oversight and execution of study and program-level deliverables, managing high-performing teams in a fast-paced environment.

Career opportunities include:

clinical data manager
clinical operations director or manager
compliance officer or manager
director or manager of quality control
director or manager of quality management
director or manager of postmarket quality
program or project director manager

Women's Health Nurse Practitioner, Certificate (NUWHNPGRCT)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Program description

The certificate program for the women's health nurse practitioner specialty is an advanced nursing practice offering.= You prepare to provide holistic, client-centered primary care for women from adolescence through older adulthood. If= you are a board-certified nurse in a different advanced practice registered nurse specialty area who is seeking= additional certification as a women's health nurse practitioner, or a doctorate-level nurse who is seeking to become a= women's health nurse practitioner, this program is designed for you.

All programs are offered in a hybrid format; you're required to travel to an ASU campus for up to one week for= orientation at the beginning of the program and two to three times per semester.

Core courses include pharmacology, advanced pathophysiology and advanced health assessment. Any additional= coursework determined by your specific gap analysis must have been completed in the past five years to be eligible for= credit.

Specialty courses focus on the assessment, diagnosis and evidence-based management of common and complex= gynecologic, sexual, reproductive, menopause-transition and postmenopause health care; uncomplicated and high-risk= antepartum and postpartum care; and sexual and reproductive health care for men.

Courses emphasize research and theories to provide the context essential to advanced nursing practice focusing on= health promotion, risk assessment and disease prevention for women across the lifespan, taking into account factors= that influence health care and health outcomes.

Focused clinical experiences are arranged for you if you're residing in Maricopa County, Arizona. You should expect to= travel throughout Maricopa County and, in some cases, throughout Arizona to complete your assigned clinical= placement.

If you're residing outside Maricopa County, you're responsible for identifying the required number of clinical sites in= your area of residence and for identifying preceptors and sites willing to accommodate clinical rotations. Edson College= of Nursing and Health Innovation must approve these sites before you start any clinical experience; the doctoral= program office doesn't guarantee a clinical placement site if you are outside. If, during the program, faculty determine= that you need additional supervision for clinical progress in the program, you must complete clinical experiences in the= Phoenix area.

The program offers practicum experiences (clinical rotations) in health profession shortage areas throughout the state,= in both urban underserved and rural areas, which provide you with multicultural experiences to enhance your= professional development.

As a participating National Council for State Authorization Reciprocity Agreements member, Arizona State University is= authorized to offer distance education to persons located in individual SARA member states in accordance with the= council's established policies and standards. California is not a SARA member, and the California Bureau of Private

Postsecondary Education does not regulate out-of-state public institutions. ASU may offer educational activities in California. There are some exceptions for specific programs at Edson College of Nursing and Health Innovation; these are noted on the ASU state authorization (https://admission.asu.edu/academics/authorizations) website.

STEM-OPT extension eligible: No

Degree requirements

23 credit hours

Required Core (23 credit hours)
DNP 613 Women's Health Promotion I (3)
DNP 614 Women's Health Practicum I (3)
DNP 615 Management of Common Problems in Women's Health (3)
DNP 616 Advanced Women's Health Practicum II (5)
DNP 617 Management of Complex and Chronic Disease in Women (3)
DNP 618 Advanced Women's Health Practicum III (6)

Additional Curriculum Information
Nurses who complete this certificate meet the eligibility requirements to take the national women's health nurse practitioner certification examination. In addition to completing didactic courses, students complete 14 credit hours (630 clock hours) of practicum experiences in a community setting.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Edson College of Nursing and Health Innovation.

Applicants must have earned a bachelor's and master's degree in nursing from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of a current unencumbered RN license
• three professional letters of recommendation
• resume
• goal statement
• admission essay
• health and safety requirements (submitted after admission)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F1 or J1 visa need to apply to and be accepted into a graduate degree program before being considered for the certificate program. International students residing in the United States on other types

of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

Applicants must be board certified in a different Advanced Practice Registered Nurses specialty.

One year of clinical experience working within the specialty population is preferred.

Applicants offered admission must meet health and safety requirements, which include a passing disposition on a background clearance, satisfactory completion of a substance screen, and required health and safety documents. Students offered admission must complete health and safety requirements by the provided deadlines or their offer of admission is withdrawn.

An interview with program faculty is required.

An admission examination is not required.

Applicants requesting review of previously completed courses must have a gap analysis review. Applicants must submit primary source documents (syllabi) for faculty review to demonstrate advanced physiology or pathophysiology, advanced health assessment, advanced pharmacology, and advanced role courses. Depending on the courses completed in the master's degree program, additional courses may be required to complete this specialty. Courses must have been completed within the past five years to be eligible or actively board certified and practicing.

Applications are reviewed on a space-available basis after the priority deadline.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Integrate evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of acute and common health conditions in women’s health.
Synthesize evidence-based guidelines to support advanced clinical judgment in the assessment, diagnosis, and management of complex and chronic health conditions in Women’s Health.

Career opportunities

The Edson College of Nursing and Health Innovation prepares graduates for excellence upon entering the workplace. Graduates of this certificate program have the knowledge and training to provide health care for patients across the lifespan in a wide variety of settings. The broad base of comprehension and clinical expertise enables graduates to effectively participate and lead within clinical, community and academic arenas.

Career examples include:

business owner
community advocate
nurse practitioner
professor

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Public Service and Community Solutions, Watts College of

Community Resources and Development (Nonprofits and NGOs), MS (PPCRDNPMS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

The Master of Science program in community resources and development with a concentration in nonprofits and nongovernmental organizations is a two-year offering that prepares you to become a catalyst for change, empowering communities and enhancing lives through your expertise. You enhance your ability to think critically and creatively about challenges affecting communities and the organizations that serve them. You explore key topics in tourism, parks and recreation management, and sustainable community practices.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Parks, Recreation and Sport Management, BS

Tourism Development and Management, BS

Nonprofit Leadership and Management, BS

Nonprofit Leadership and Management (American Indian Studies), BS

Recreational Therapy, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
36 credit hours including the required applied project course (CRD 593)

Required Core (15 credit hours)
CRD 500 Research Methods (3)
CRD 502 Statistical and Data Analysis (3)
CRD 530 Community Services Management (3) or advanced inquiry course (3)
CRD 552 Critical Issues (3)
CRD 555 Theoretical Perspectives in Community Development (3)

Required Concentration (6 credit hours)
NLM 510 The Nonprofit Sector (3)
NLM 562 Social Entrepreneurship (3)

Elective or Research (3 or 9 credit hours)

Culminating Experience (6 credit hours)
CRD 593 Applied Project (6) or
CRD 599 Thesis (6)

Additional Curriculum Information
Students may select a thesis or applied project; in both cases, an assigned faculty member provides advising and guidance.

The thesis option is a research-oriented program and is recommended for students who are planning to continue graduate studies beyond the master's degree. Students in the thesis option complete an advanced inquiry course and three credit hours of elective coursework. The thesis option must be defended in an oral examination before a supervisory committee of at least three faculty members, one of whom must reside in another department.

The applied project is intended for students who are seeking additional knowledge and expertise relevant to professional career development. Students in the applied project option complete CRD 530 as part of their core coursework, and nine credit hours of electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of professional and academic goals
• three letters of recommendation
• current resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Only complete application files are reviewed. Students without undergraduate academic work in related disciplines must take six credit hours of coursework in addition to the master's degree requirements. The additional assigned coursework may be taken in conjunction with master's degree-level classes.

Applicants interested in financial aid need to submit their applications by Feb. 1 for fall semester admission and Oct. 1 for spring semester admission. Applications are accepted on a rolling basis.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Analyze critical topics and issues pertinent to nonprofit leadership and management, such as creative problem-solving, strategic planning and volunteer management.
- Relate their individual strengths to demonstrate knowledge of research methods and data analysis within the context of nonprofit organizations.
- Apply the principles and practices of community development to address the social, economic, environmental and cultural challenges of diverse communities.

Career opportunities

Graduates have expertise in nonprofit leadership and management and are well prepared for careers with:

- charitable associations
- foundations
- government agencies
- nonprofit organizations
- private-sector businesses

Community Resources and Development (Parks and Recreation Management), MS (PPCRDPRMS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

In the Master of Science program in community resources and development with a concentration in parks and recreation management, you prepare for research and leadership roles in parks, recreation and community services. You gain expertise in community services management, sustainability and critical-issue analysis through theoretical and applied learning.

Coursework includes in-depth study of topics related to parks, recreation, tourism, nonprofit organizations and sustainable communities. You conduct research and complete applied projects that develop analytical and managerial skills for designing, implementing and evaluating recreation and park programs.

Through these experiences, you learn to address emerging challenges in resource management, environmental stewardship and public engagement across diverse community and organizational settings.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Community Resources and Development (Sustainable Communities), MS (PPCRDSCMS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

In the Master of Science program in community resources and development with a concentration in sustainable communities, you prepare to address complex community challenges through strategic problem-solving and research. You strengthen your leadership skills while examining sustainability in tourism, parks and recreation management, and nonprofit organizations.

The curriculum integrates interdisciplinary approaches to sustainability and community development, emphasizing how environmental, social and policy factors intersect to shape quality of life. Faculty mentors guide you in analyzing and addressing these challenges to develop practical solutions that promote resilient, inclusive and sustainable communities.

You complete either a thesis or an applied project tailored to your professional and academic goals.

STEM-OPT extension eligible: No

Tourism Development and Management (Sustainable Tourism), BS

Tourism Development and Management (Meetings and Events), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
36 credit hours including the required applied project course (CRD 593)

Required Core (15 credit hours)
CRD 500 Research Methods (3)
CRD 502 Statistical and Data Analysis (3)
CRD 530 Community Services Management (3) or advanced inquiry course (3)
CRD 552 Critical Issues (3)
CRD 555 Theoretical Perspectives in Community Development (3)

Concentration (6 credit hours)
CRD 610 Sustainable Communities (3)
NLM 562 Social Entrepreneurship (3) or
NLM 572 Community and Social Innovations (3)

Electives (3 or 9 credit hours)

Culminating Experience (6 credit hours)
CRD 593 Applied Project (6) or
CRD 599 Thesis (6)

Additional Curriculum Information
Students may select a thesis or applied project. All students receive advising and direction from an assigned faculty member.

The thesis option is a research-oriented program and is recommended for students who plan to continue graduate studies beyond the master's degree. These students complete an advanced inquiry course and three credit hours of elective coursework. The thesis option must be defended in an oral examination before a supervisory committee of at least three faculty members, one of whom resides in another department.

The applied project is intended for students who seek additional knowledge and expertise relevant to professional career development. These students complete CRD 530 as part of their core coursework and nine credit hours of electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of professional and academic goals
• three letters of recommendation
• current resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Only complete application files are reviewed. Applicants who have not completed undergraduate work in a related

discipline must take six credit hours of coursework in addition to the master's degree requirements; this additional coursework may be taken in conjunction with master's-level classes.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Analyze critical topics and issues pertinent to sustainable communities, such as creative problem-solving, strategic planning and volunteer management.
- Relate their individual strengths to demonstrate knowledge of research methods and data analysis within the context of sustainable communities.
- Apply the principles and practices of community development to address the social, economic, environmental and cultural challenges of diverse communities.

Career opportunities

Graduates pursue leadership and policy roles in public, nonprofit and community organizations. They are well prepared to address sustainability challenges through program management, policy design and community development initiatives.

Career paths include roles such as:

- community services officer
- nonprofit or nongovernmental organization officer
- parks and recreation officer
- sustainability coordinator

Community Resources and Development (Tourism), MS (PPCRDTMMS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, ASU at Hainan

Program description

In the Master of Science program in community resources and development with a concentration in tourism, you examine how tourism influences communities and contributes to sustainable development. You explore critical topics in tourism management, recreation and community planning while analyzing the economic, social and environmental factors that shape destinations.

The program blends theory and practice through research, policy evaluation and community engagement. Faculty mentors guide you in developing solutions that balance tourism growth with environmental stewardship and community well-being.

You complete either a thesis or an applied project, gaining the analytical and leadership skills to manage tourism initiatives in local, national and global contexts.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Community Resources and Development, MS (PPRECDTMS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

In the Master of Science program in community resources and development, you prepare to address complex issues that affect communities and organizations. You study topics such as tourism, parks and recreation management, nonprofit organizations, and sustainable communities while developing research, leadership and analytical skills.

Coursework emphasizes applied learning that connects theory with hands-on experience. You tailor your studies through a thesis or applied project option, depending on your professional and academic goals. Faculty mentor you in community-based research and practical experiences that strengthen your ability to design, evaluate and manage programs that improve quality of life and promote community resilience.

STEM-OPT extension eligible: No

Community Resources and Development, PHD (PPCRDPHD)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

The Doctor of Philosophy program in community resources and development prepares you to become a scholar and leader who advances knowledge and practice in community development. The program emphasizes creating healthy, sustainable and equitable communities through interdisciplinary research, teaching and collaboration.

You pursue advanced study in areas such as nonprofit leadership and management, parks and recreation, tourism

development and community development studies. The curriculum provides rigorous training in theory, research design and statistical analysis. Working closely with faculty across ASU, you gain diverse perspectives on the social, economic and environmental factors that shape communities.

Through fieldwork and applied research, you translate theory into practice, developing the expertise to teach, conduct high-level research, and influence policy and organizational decision-making in ways that promote community and societal well-being.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (24 credit hours)
CRD 502 Statistical and Data Analysis (3)
CRD 555 Theoretical Perspectives in Community Development (3)
CRD 610 Sustainable Communities (3)
CRD 620 Community Research Methods (3)
CRD 640 Research Seminar in Community Resources and Development I (3)
CRD 650 Research Seminar II (3)
CRD 683 Fieldwork (3)
advanced statistics or methods (3)

Electives or Research (48 credit hours)

Culminating Experience (12 credit hours)
CRD 799 Dissertation (12)

Additional Curricular Information
When approved by the student's supervisory committee and the Graduate College, 30 credit hours from a previously awarded master's degree can be used for this degree.

All students are advised as a cohort initially by the doctoral program director. Students are required to take 24 credit hours of core coursework; 15 are with the cohort during the first year, and six are with the cohort during the second year. Students are assigned an individual advisor or mentor at the end of the first year of study. A supervisory committee is also formed at the end of the first year that reflects the interests of the student and faculty.

This is a four-year program. Each student develops a plan of study in consultation with the doctoral program coordinator, advisor and supervisory committee. Students complete elective coursework, including courses from contributing disciplines, selected in consultation with their advisor to foster the transdisciplinary nature of the degree program. Students also complete at least six credit hours of CRD 792 Research and 12 credit hours of CRD 799 Dissertation. When the student has completed the majority of coursework but has not yet started dissertation research, they must complete a written examination followed by an oral examination. These examinations must be completed within five years of admission.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants must have earned a master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• cover letter
• current and professional resume
• research statement
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International applicants are also required to submit TOEFL or IELTS scores and a financial guarantee statement. The minimum TOEFL iBT® score is 4, or 80 (taken at at testing center) if taken before January 21, 2026. The minimum IELTS requirement is an overall band score of 6.5 (no individual band below a 6.0). The TOEFL or IELTS must have been taken within the last two years.

The research statement should be sufficiently detailed to indicate compatibility with the educational objectives and capabilities of the doctoral program (about three pages, single spaced). Applicants should explain their research interests and indicate the faculty member with whom they would like to work. Students should review faculty profiles (https://scrd.asu.edu/content/school-directory?sort-by=last_name_asc) to learn their research expertise. All students are strongly encouraged to contact the faculty member before applying. Finalists participate in an interview via Zoom, and this video is shared with a faculty committee. Students should also contact faculty members with similar interests to discuss their fit with the program. The statement should make it clear why the applicant has chosen to pursue a doctorate in community resources and development, and how this program will help them achieve their career goals.

The recommendation letters may be a mix of academic and professional references; each must address the applicant's capacity to successfully complete the program.

Applicants are expected to have a master's degree from an accredited institution and to have completed a master's degree-level research methods and statistics class (or classes). If additional community resource and development-related coursework at the master's degree level is needed, appropriate classes are suggested.

The program is designed as a full-time, research-intensive program. Students are admitted once a year as a cohort and are generally expected to complete the degree in three to four years. A small number of part-time students on a longer completion time frame may be admitted when space is available. The school does not provide funding for part-time students.

Applications are reviewed by the admission committee, and recommendations for admission are then made by the graduate program director to the dean of the Graduate College.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Conduct research that contributes to community development with regard to parks, recreation, tourism, nonprofit management and community studies.
- Develop proficiency in integrating knowledge in their primary area of study related to community resources and development.
- Execute a comprehensive and original research project, resulting in a high-quality dissertation that demonstrates their ability to contribute significantly to their own fields such as tourism, parks and recreation, sustainable communities, or nonprofit organizations and NGOs.

Career opportunities

Graduates are prepared for research-oriented and leadership careers in higher education, government, nonprofit= organizations and the private sector. Career paths include positions such as university professor, think tank researcher,= independent scholar, consultant, foundation officer, government officer and corporate social responsibility officer.

Corrections Leadership and Management, Certificate (PPCMGGRCT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Program description

The graduate certificate program in corrections management gives you a solid foundational understanding of= correctional administration, leadership and policy analysis if you already hold a bachelor's degree.

The curriculum provides coursework in criminal justice organizations, corrections and community supervision, and= institutional management, and in cross-disciplines such as public administration.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (9 credit hours)
CRJ 514 Seminar in Corrections (3)
CRJ 516 Seminar in Criminal Justice Organization and Management (3)
CRJ 529 Community Corrections (3)

Electives (6 credit hours)

Additional Curricular Information
For electives, students should see the academic unit for the approved course list. A culminating experience is not= required for this program.

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application
• official transcripts
• written statement of career and educational goals
• proof of English proficiency

Students not admitted to a graduate degree-granting program at ASU (nondegree-seeking students) also must submit two letters of recommendation and a current resume.

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The written statement should be one- to two- pages in length and describe the applicant's prior education, relevant professional experience and career goals. It should explain how the corrections leadership and management graduate certificate will help the applicant attain their career goals. The statement should explicitly explain how the applicant's plans align with the School of Criminology and Criminal Justice's role and mission at ASU. It is recommended that applicants who feel as if they are weak in a particular area or admission requirement address their plan to remedy any shortcomings, should they be granted provisional admission into the program.

Students from related fields, such as public policy, political science, psychology and sociology, as well as students with other social science degrees, might be interested in this program; however, all eligible students are considered. Most students come from the aforementioned degree fields, although no specific undergraduate degree major is required for admission, and the school accepts applicants from all educational backgrounds.

Admission examinations are not required.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-corrections-management/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Apply management and organizational theories to issues in contemporary correctional practice.
- Assess the effectiveness of community corrections programs and interventions and their role in promoting evidence-based supervision strategies.

Career opportunities

Graduates of the corrections leadership and management graduate certificate program find a strong job market in the= public and private sectors. Employment opportunities exist in supervisory and management positions in criminal= justice agencies (federal, state and local) including the National Institute of Corrections, Federal Bureau of Prisons, and= local and state-level corrections departments.

Crime Analysis, Certificate (PPCRMAGRCT)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

The graduate certificate program in crime analysis is focused on crime analysis as a field applicable to all levels of= government --- federal, state and local --- and to positions in private sector organizations with functional and= operational activities related to crime analysis.

You study topics relating to the current principles of crime analysis, crime mapping and statistical tools in crime= analysis.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (15 credit hours)
CRJ 506 Seminar in Crime Analysis (3)
CRJ 510 Criminal Justice Planning and Program Evaluation (3)
CRJ 511 Applied Data Analysis in Criminal Justice (3)
CRJ 512 Seminar in Policing (3)
CRJ 531 Crime Mapping (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and= Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology, criminal justice, homeland security, counterterrorism or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• written personal statement
• current resume or curriculum vitae
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The written statement should be one to two pages in length and describe the applicant's prior education, relevant professional experience and career goals, and explain how the graduate certificate in crime analysis will help the applicant attain their career goals. The statement should explicitly explain how the applicant's plans align with the role and mission of the School of Criminology and Criminal Justice at ASU. It is recommended that applicants who feel as if they are weak in a particular area or admission requirement address their plan to remedy any shortcomings, should they be granted provisional admission into the program.

Applicants who are currently in an ASU graduate program should contact idpadvising@asu.edu (mailto:idpadvising@asu.edu) before applying, as they may be eligible for a streamlined option that requires only the graduate admission application and a written personal statement.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/crime-analysis/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Demonstrate the essential qualifications for employment in crime analysis and related occupations by critically applying theories of crime and place in relation to the whole of criminological theory to particular challenges in policing or related fields.
- Produce valid and reliable crime analysis information of utility to policymakers and practitioners.

Career opportunities

Graduates of this program are prepared to implement and maintain public and national safety at the local, state and federal levels. They should expect to find employment within government agencies such as:

- adult and juvenile probation departments

- corrections agencies
- courts of law
- Department of Homeland Security, which comprises several agencies, including the United States Secret Service, the U.S. Coast Guard and U.S. Customs and Border Protection
- local law enforcement
- prosecutor's offices

Some crime analysts also work for private organizations that deal with emergency response and information technology.

Careers in crime analysis may fall under the forensic science technicians category, a field projected to grow 13% between 2024 and 2034, much faster than the average for all occupations, with a median salary of $67,440 per year (Bureau of Labor Statistics, 2025). Careers for graduates also may fall under the category of police and detectives, a field expected to increase 3% through 2034, with a median salary of $77,270 (Bureau of Labor Statistics, 2025).

CRJ 508 Advanced Seminar in Crime Analysis (3)
CRJ 509 Data Management (3)
CRJ 510 Criminal Justice Planning and Program Evaluation (3)
CRJ 511 Applied Data Analysis in Criminal Justice (3)
CRJ 531 Crime Mapping (3)

Criminal Justice System Elective (3 credit hours)
CRJ coursework (3)

Crime Analysis Elective (6 credit hours)
CRJ 541 Open-source Data Wrangling and Visualization for Crime Analysts (3)
CRJ 542 Topics in Tactical Crime Analysis (3)

OPTION WITH A CULMINATING EXPERIENCE

Required Core (21 credit hours)
CRJ 506 Seminar in Crime Analysis (3)
CRJ 507 Social Network Analysis (3)
CRJ 508 Advanced Seminar in Crime Analysis (3)
CRJ 509 Data Management (3)
CRJ 510 Criminal Justice Planning and Program Evaluation (3)
CRJ 511 Applied Data Analysis in Criminal Justice (3)
CRJ 531 Crime Mapping (3)

Criminal Justice System Elective (3 credit hours)
CRJ coursework (3)

Crime Analysis Electives (3 credit hours)
CRJ 541 Open-source Data Wrangling and Visualization for Crime Analysts (3)
CRJ 542 Topics in Tactical Crime Analysis (3)

Culminating Experience (3 credit hours)
CRJ 593 Applied Project (3)

Additional Curriculum Information
This program offers a course-based master's option. Students interested in future graduate-level work (including a Doctor of Criminal Justice degree) or other professional degrees should consider the applied project culminating experience option. Students interested in pursuing research-related careers or working at organizations where completing the applied project could be a valuable experience should also consider taking CRJ 593. Students who are not currently working in the crime analysis field but are interested in positions in crime analysis may also find the culminating experience option useful for generating a final product that could be included in a portfolio of application materials to demonstrate competency and expertise in the field.

Working analysts who may already have professional experience doing projects and final reports may find the culminating project experience less valuable and may want to choose the course-based option to maximize their exposure to different crime analysis topics through additional coursework. This allows for added knowledge and skills in areas relevant to crime analysis practice. Working justice professionals who are not considering pursuing future education or research-related roles may find the course-based option more appropriate for their professional goals.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology and criminal justice or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or they must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Students with an undergraduate GPA under 3.00 may be permitted to enroll in up to 12 credit hours on a probationary basis. Those who maintain a GPA of 3.00 or higher are considered for regular admission.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/masters-crime-analysis/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Demonstrate the essential qualifications for employment in crime analysis and related occupations by critically applying theories of crime and place in relation to the whole of criminological theory.
- Use the fundamental methods and technologies required to produce valid and reliable crime analysis information of utility to policymakers and practitioners.
- Communicate the results of crime analysis orally and in writing.

Career opportunities

Graduates of this program should expect to find employment within government agencies, such as local law enforcement; the Department of Homeland Security, which comprises several agencies, including the Secret Service, Coast Guard, and Customs and Border Protection; adult and juvenile probation; the courts; corrections agencies and prosecutor's offices. Personnel in this field work at the local, state or federal level to implement and maintain public and national safety. Some crime analysts also work for private organizations that deal with emergency response, law

enforcement and information technology. There is also a growing demand for crime analysts in Latin America and the Caribbean in particular, with nations seeking platforms for educating and training future and current crime analysts.

Job titles for this career path include:

- crime data analyst
- criminal information analyst
- head of crime analysis
- intelligence analyst
- investigative analyst
- police crime analyst
- strategic data analyst

Criminal Justice, DCJ (PPCRIMJDCJ)

College/School: Watts College of Public Service & Community Solut

Campus: ASU Sync

Program description

The Doctor of Criminal Justice program is a professional doctoral degree that prepares you, as a mid- to senior-level practitioner, to become an expert who combines practical and academic knowledge in your field in ways that equip you to solve complex criminal justice issues.

The DCJ program provides you with state-of-the-art, interdisciplinary education on crime and justice issues. You take a core of required courses on criminological and organizational theory; criminal justice policies, practices and outcomes; inequality in criminal justice; and research methodology and statistics. You also choose from various electives on topics such as critical legal issues, contemporary policy issues, and teaching in criminology. The program prepares you to be a skilled criminology and criminal justice researcher prepared to meet the needs of innovative criminal justice agencies.

ASU Sync
Students on F-1 or J-1 immigration status are not permitted to complete courses via ASU Sync.

Students seeking to use GI Bill® benefits for ASU Sync programs should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill).

STEM-OPT extension eligible: No

Degree requirements

60 credit hours including the required applied project course (CRJ 793)

Required Core (18 credit hours)
CRJ 701 Applied Criminal Justice Policy Analysis: Past to Present (3)
CRJ 702 Applying Criminology and Criminal Justice Theory to Policy and Practice (3)
CRJ 703 Applied Criminal Justice Research Methods and Program Evaluation (3)

CRJ 704 Applied Data Analysis and Interpretation (3)
CRJ 705 Advanced Topics in Crime, Criminal Justice and Inequality (3)
CRJ 706 Organization, Management and Transformational Leadership in Criminal Justice (3)

Restricted Electives (18 credit hours)
CRJ 711 Legal Issues in Criminal Justice (3)
CRJ 712 Teaching Criminology and Criminal Justice (3)
CRJ 720 Topics in Methods and Statistics (3)
CRJ 730 Contemporary Policy Issues in Criminal Justice Systems (6)
CRJ 790 Reading and Conference (3)

Electives or Research (18 credit hours)

Research (3 credit hours)
CRJ 792 Research (3)

Culminating Experience (3 credit hours)
CRJ 793 Applied Project (3)

Additional Curriculum Information
CRJ 730 should be taken at least twice for six credit hours. It may be repeated on different topic for up to twelve total credit hours.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminal justice, criminology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• personal statement
• professional resume
• two letters of recommendation
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants are required to submit a personal statement on how the DCJ program will help them attain their career goals and why their research and policy interests align with those of the School of Criminology and Criminal Justice. The personal statement should not exceed five pages.

The letters of recommendation must be from faculty members or others qualified to evaluate the applicant's academic potential for a professional doctoral program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Synthesize advanced knowledge of criminological theory and existing research on criminal justice policy and practice to make original contributions to practical knowledge in the field.
- Apply knowledge about data analytics, research methodology, and related management and leadership skills to generate improved outcomes for crime and public safety problems.
- Produce a final applied capstone project and demonstrate they can effectively communicate the results of this project in writing and orally.

Career opportunities

The DCJ program provides a pathway to career opportunities in criminal justice agencies and academic institutions as well as nonprofit, advocacy and research organizations working in the crime and justice space. Graduates can pursue senior leadership opportunities in these areas:

- career-track or non-tenure track faculty positions at colleges and universities
- corrections
- court agencies
- law enforcement
- tenure-track faculty positions in community and junior colleges

Criminal Justice, MA (PPCRIMJMA)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Admission to this program is limited to students who do not have a master's degree in criminal justice.

Program description

The Master of Arts program in criminal justice is designed to provide you as a criminal justice agency professional with training in research methods and statistics.

Coursework covers topics of criminology and the operation of the criminal justice system. The degree program also provides you with advanced training in program planning and management, policy analysis and program evaluation.

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.
This degree is also offered as a concurrent program with the following:

Forensic Psychology, MS

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Criminology and Criminal Justice (Policing), BS

Criminology and Criminal Justice, BS

Psychology (Forensic Psychology), BA

Psychology (Forensic Psychology), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours - course-based master's, or
30 credit hours including the required capstone course (CRJ 505)

COURSE-BASED OPTION

Required Core (12 credit hours)
CRJ 501 Seminar in Criminal Justice (3)
CRJ 502 Seminar in Criminology (3)
CRJ 510 Criminal Justice Planning and Program Evaluation (3)
CRJ 511 Applied Data Analysis in Criminal Justice (3)

Electives (18 credit hours)

OPTION WITH CULMINATING EXPERIENCE

Required Core (12 credit hours)
CRJ 501 Seminar in Criminal Justice (3)
CRJ 502 Seminar in Criminology (3)
CRJ 510 Criminal Justice Planning and Program Evaluation (3)
CRJ 511 Applied Data Analysis in Criminal Justice (3)

Electives (15 credit hours)

Culminating Experience (3 credit hours)
This master's degree includes a course-based option.

Students interested in future graduate-level work (including a Doctor of Criminal Justice degree) or other professional degrees should consider the capstone option. Students interested in working in research-related careers or at non-profit or government organizations, where completing the capstone project would be valuable experience, should also consider taking CRJ 505. Students who would like to maximize their exposure to different criminal justice topics through coursework should pursue the course-based option. This allows for added knowledge and skills in a variety of areas

relevant to policy and practice. Working justice professionals who are not considering pursuing future education or research-related roles may find the flexibility of the course-based option more appropriate for their professional goals.

Students can take elective coursework in areas such as policing, corrections and management by combining required and elective coursework.

Students should consult the academic unit for a list of approved elective courses.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's degree in criminology, criminal justice or another closely related field from a regionally accredited institution. Applicants are encouraged to apply regardless of bachelor's degree concentration conferred.

Applicants are also eligible to apply to the program if they have earned a master's degree in a related field from a regionally accredited institution. Related fields include justice administration, forensic science and public administration. Applicants must not have a master's degree in criminal justice.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• two letters of recommendation
• written personal statement
• resume or curriculum vitae
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The written statement should be one to two pages in length and describe the applicant's prior education, relevant professional experience and career goals. The statement should explain how the MA program in criminal justice will help the applicant attain their career goals. The statement should explicitly explain how the applicant's plans align with the School of Criminology and Criminal Justice's role and mission. It is recommended that applicants who feel they are weak in a particular area or admission requirement address their plan to remedy any shortcomings, should they be granted provisional admission into the degree program.

Students should see the academic unit website for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-criminal-justice/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Generate research products using appropriate statistical techniques for addressing criminal justice problems.
- Critically appraise theoretical perspectives on causes of crime, policy responses to crime problems, and the operation of the criminal justice system.
- Formulate a final program evaluation research paper based on foundational knowledge of criminological theory and criminal justice policy.

Career opportunities

The MA program in criminology and criminal justice is designed to help graduates advance their career in criminal justice.

Graduates find a strong job market in the public and private sectors. Employment opportunities include supervisory and management positions in criminal justice agencies at federal, state and local levels, such as:

- city, county and state government liaison to criminal justice agencies
- communications supervisor (911 and dispatch)
- court administrator
- evidence and crime scene supervisor (CSI activities)
- intelligence analyzer
- law enforcement professional
- police crime analysis supervisor
- pretrial release specialist
- probation, parole or community supervisor
- property management and evidence retention supervisor
- risk manager
- veterans services specialist

Opportunities also include supervisory and management positions in social service agencies, such as:

- child and family services (e.g., Head Start, child support enforcement, foster care, elder care)
- Department of Economic Security
- homeless outreach

Graduates also have the opportunity to work in supervisory and management positions in the private sector, including= online security, as well as in the cybersecurity sector.

Criminal Sentencing and Sentencing Advocacy, Certificate (PPCSAGRCT)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

ASU ranks No. 20 for best graduate social work program by U.S. News & World Report, 2024 and No. 2 for best graduate criminology and criminal justice programs by U.S. News & World Report, 2023.

The certificate program in criminal sentencing and sentencing advocacy assumes that for any professional to function effectively, they must have a fundamental knowledge of the respective roles that sentencing professionals play during various phases of the criminal justice process.

In keeping with this viewpoint, you take courses for practice as both a presentence investigator and a sentencing advocate. Those courses are seminars in courts and sentencing, in presentence investigations, and in alternatives to penal sanctions. After taking these required courses, you select an area of specialization to further your expertise as a probation professional, sentencing advocate, mitigation specialist or victim advocate. You take these courses from a range of electives available in the School of Criminology and Criminal Justice and in the School of Social Work.

This interprofessional certificate program also provides you with content on the relationship between mental disorders and crime, and the way in which differential sentencing frameworks affect the sentencing of offenders suffering from mental disorders.

This program is highly recommended if you are a social worker, forensic psychologist or other criminal justice professional seeking specialized expertise as a sentencing professional responsible for making sentencing recommendations, addressing relevant offender risks and needs, victim impacts, treatment alternatives to incarceration, community safety and other relevant sentencing considerations.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (9 credit hours)
CRJ 513 Seminar in Courts and Sentencing (3)
SWG 528 Presentence Investigations (3)
SWG 529 Alternatives Penal Sanctions (3)

Electives (6 credit hours)

Additional Curriculum Information
For electives, students should see the academic unit for the approved course list.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in social work, criminology, criminal justice or a related field, or if they are currently enrolled in the master of criminal justice program.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

This program does not require admission examinations.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-criminal-sentencing-and-sentencing-advocacy/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Apply professional evidence-based interventions when working with offenders in the criminal justice system.
- Demonstrate ability to write a Presentence Report from information provided, including police reports, victim statements and interested parties.

Career opportunities

Social workers, criminal justice professionals and recent graduates of psychology and other social and behavioral sciences programs perform a number of roles in the disposition and sentencing of public offenders. They also provide support for victims of crime during the criminal justice process.

Career examples include:

- mitigation specialist
- presentence investigator
- probation professional
- sentencing advocate
- victim advocate

Criminology and Criminal Justice, MS (PPCRJMS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

The Master of Science program in criminology and criminal justice is a research degree offering designed to provide you with a high level of theoretical and empirical knowledge about crime and criminal justice.

You gain advanced research skills and receive training in program planning and management, and in policy and statistical analysis.

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.
This degree is also offered as a concurrent program with the following:

Public Policy, MPP

Public Administration, MPA

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Criminology and Criminal Justice (Policing), BS

Criminology and Criminal Justice, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

33 credit hours and a thesis, or
33 credit hours including the required capstone course (CRJ 505)

Required Core (12 credit hours)
CRJ 501 Seminar in Criminal Justice (3)
CRJ 502 Seminar in Criminology (3)
CRJ 503 Research Methods (3)
CRJ 504 Statistical Tools for Criminology and Criminal Justice (3)

Systems Courses (3 credit hours)
CRJ 512 Seminar in Policing (3)
CRJ 513 Seminar in Courts and Sentencing (3)
CRJ 514 Seminar in Corrections (3)
CRJ 517 Seminar on Juvenile Delinquency and Juvenile Justice (3)
CRJ 519 Seminar on Victimization (3)
CRJ 529 Community Corrections (3)
CRJ 533 Seminar in White Collar Crime (3)

Inequalities Courses (3 credit hours)

CRJ 515 Seminar in Women and Crime (3)
CRJ 518 Seminar on Race/Ethnicity, Crime and Justice (3)
CRJ 539 Topics in Law, Crime and Justice (3)

Electives (6 or 12 credit hours)

Other Requirement (0 or 3 credit hours)
CRJ 604 Regression Models (3)

Culminating Experience (3 or 6 credit hours)
CRJ 505 Theory and Practice in Criminal Justice (3) or
CRJ 599 Thesis (6)

Additional Curriculum Information
It is strongly recommended that students in the capstone option take CRJ 510 as one of their electives, as available. Students select two of the three systems courses listed above.

For the culminating experience, students choose either the thesis option or the capstone course. CRJ 604 Regression Models is only required for the thesis option. To satisfy the thesis requirements for the degree, candidates write a thesis and defend it in an oral examination conducted by the student's thesis committee. Students in the capstone option are not required to take CRJ 604.

Not all courses listed above are offered every semester. Each student's program of study is developed in consultation with their advisor to align their plan of study with the courses scheduled for upcoming semesters.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice or another closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• two letters of recommendation
• personal statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should address the applicant's prior education and professional experience, discuss their career goals and explain how the degree can help them achieve these goals.

Applicants should see the program website for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Apply theory and empirical knowledge about crime and the criminal justice system.
- Use the fundamental methodological and statistical techniques required to produce valid and reliable information of utility to policymakers and practitioners.
- Demonstrate the essential qualifications for employment in criminal justice agencies and related occupations by applying their research skills and foundational knowledge of criminology and criminal justice to a final written project.

Career opportunities

Graduates find a strong job market in the public and private sectors. They are prepared for careers as criminal justice researchers, for leadership roles in criminal justice and related agencies and organizations, and for continued study in doctoral programs in law, criminology and criminal justice. Employment opportunities include supervisory and management positions in criminal justice agencies at federal, state and local levels, such as:

- city, county and state government liaison to criminal justice agencies
- communications supervisor (911 and dispatch)
- court administrator
- evidence and crime scene supervisor (CSI activities)
- law enforcement professional
- police crime analysis supervisor
- pretrial release specialist

Criminology and Criminal Justice, PHD (PPCRJPHD)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

The School of Criminology and Criminal Justice at Arizona State University offers you an on-campus program of coursework and research leading to the Doctor of Philosophy in criminology and criminal justice.

This program trains you in criminal justice theory, research and policy, and is designed to prepare you to be highly skilled criminology and criminal justice faculty, or agency researchers or administrators.

The doctoral program is organized around a core of required courses in research methods, analytic techniques, criminological theory, and policies and practices in the criminal justice system. The program offers you distinctive elective courses in criminology, criminal justice and related fields. To complete the program, you complete both a comprehensive examination and a doctoral dissertation.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Required Core (12 credit hours)
CRJ 601 Seminar on Criminological Theory (3)
CRJ 602 Seminar on Criminal Justice Policies and Practices (3)
CRJ 603 Advanced Research Design (3)
CRJ 604 Regression Models (3)

Professional Development Coursework (3 credit hours)
CRJ 617 Professional Development in Criminology and Criminal Justice (3)

Theory or Systems Elective Coursework (3 credit hours)
CRJ 606 Advanced Topics in Theoretical Criminology (3)
CRJ 607 Advanced Topics in Policing (3)
CRJ 608 Advanced Topics in Courts and Sentencing (3)
CRJ 609 Advanced Topics in Corrections (3)
CRJ 610 Advanced Topics in Juvenile Justice (3)
CRJ 611 Advanced Topics in Crime and Victimization (3)
CRJ 612 Advanced Topics in Race, Gender, and the Criminal Justice System (3)

Research Methods or Statistics Elective Coursework (3 credit hours)
CRJ 510 Criminal Justice Planning and Program Evaluation (3)
CRJ 531 Crime Mapping (3)
CRJ 540 Qualitative Methods (3)
CRJ 560 Topics in Research Methods (3)
CRJ 605 Topics in Quantitative Methods (3)

Electives (51 credit hours)

Culminating Experience (12 credit hours)
CRJ 799 Dissertation (12)

Additional Curriculum Information
Doctoral students may also ask the Director of the PhD Program to review (and approve) a statistics or research methods class offered at the graduate level by another in-person graduate program at ASU in the social sciences.

Credits from Master's Degree (30 Credits)
A maximum of 30 credit hours of coursework from a previously awarded master's degree or JD may, with approval of the Director of the PhD Program and the Graduate College, be applied toward the doctoral plan of study.

For all students earning a doctorate, they should expect to complete at least 54 credits in the doctoral program above-and-beyond what they complete for their Master's degree.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants often hold a master's degree from an accredited institution; it may be in criminal justice, criminology or another field (e.g., sociology, political science, history, social work, public administration, psychology or philosophy). The program also allows for direct admission into the doctoral program for highly qualified students with only a bachelor's degree; these students earn their master's degree along the way to completing their doctoral degree.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• two letters of recommendation
• current curriculum vitae or resume
• personal statement
• sample of the applicant's written work
• proof of English proficiency.

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Official transcripts must be submitted from every university or institution from which a degree was awarded.

The letters of recommendation must be from faculty members or others qualified to evaluate the applicant's academic potential for doctoral study.

The personal statement should not exceed five pages, and it should describe the applicant's prior education, relevant professional experience and career goals. The statement must explain how the doctorate in criminology and criminal justice will help the applicant attain their goals. The statement should explicitly explain how the student's plans are consistent with the role and mission of the School of Criminology and Criminal Justice at ASU.

The applicant's sample of written work should be submitted electronically. The writing sample may be an article (published or unpublished), a research paper or any other extended sample of expository skill, and the sample must be no longer than 35 pages. Longer writing samples should not be submitted without first consulting the graduate director. Documents should not be password protected. Acceptable file types are .rtf, .pdf, and .doc.

Students should see the unit website for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Apply appropriate theoretical principles and procedures to issues and problems at the frontiers of criminology and the criminal justice system.
- Select appropriate data collection and data analysis techniques for conducting criminology and criminal justice research.
- Able to conduct dissertation research resulting in an original contribution to knowledge in criminology and criminal justice.

Career opportunities

Graduates of the criminology and criminal justice doctorate program find a strong job market in the public and private sectors. Employment opportunities include supervisory and management positions in criminal justice agencies (federal, state and local), policymaking, and teaching and research, such as:

- city, county and state government liaison to criminal justice agencies
- court administrator
- detective or investigator
- evidence and crime scene supervisor (CSI activities)
- forensic scientist
- intelligence analyst
- law enforcement or police crime analysis supervisor
- policy analyst
- probation, parole or community supervisor
- professor of criminal justice

Opportunities also include supervisory and management positions in social service agencies, such as:

- child and family services (e.g., Head Start, child support enforcement, foster care, elder care)
- Department of Economic Security
- homeless outreach
- victim advocacy

Graduates also have the opportunity to work in supervisory and management positions in the private sector, including= online security, as well as in the cybersecurity sector.

Domestic Violence Intervention and Victim Advocacy, Certificate (PPDVEPGRCT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

This program's name has changed effective Fall 2026. The previous name was Domestic Violence and Evidence-based= Practice.

Program description

ASU ranks No. 20 for best graduate social work program by U.S. News & World Report, 2024.

The graduate certificate program in domestic violence intervention and victim advocacy prepares you to intervene safely and effectively with survivors of domestic and gender-based violence. You develop advanced knowledge of the dynamics of abuse, trauma-informed approaches, and evidence-based practices that promote safety, health and empowerment. Coursework and service-based learning strengthen your skills in coordinated intervention and survivor advocacy, preparing you to support individuals and communities affected by violence. The program builds your capacity to design evidence-based interventions, develop cross-sector partnerships, and promote survivor-centered care across practice and policy settings.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
SWG 545 Domestic Violence Prevention and Intervention (3)

Restricted Electives (12 credit hours)
SWG 541 Generalist Practicum I (3)
SWG 542 Generalist Practicum II (3)
SWG 546 Approaches to Teen Dating Violence Prevention (3)
SWG 618 Advanced Practice in Domestic Violence (3)
SWG 641 Advanced Practicum: Direct Practice I (3)
SWG 642 Advanced Practicum: Direct Practice II (3)
SWG 643 Advanced Practicum: Planning, Social Work Administration and Community Practice I (3)
SWG 644 Advanced Practicum: Planning, Social Work Administration and Community Practice II (3)
SWG 647 The Domestic Violence Movement: An Intersectional Framework (3)
SWG 648 Intimate Partner Violence Risk Assessment (3)

Additional Curriculum Information
For restricted electives, students select four courses from the approved course list. Other coursework may be used with the approval of the academic unit.

Master of Social Work students who choose to apply an SWG-prefix practicum course toward the restricted electives requirement for the graduate certificate must complete one course from SWG 541, SWG 641, or SWG 643 and one course from SWG 542, SWG 642, or SWG 643.

The student's department-specific practicum experience credits may be substituted for those listed in the restricted electives section with department approval.

All students are required to complete 300 hours (minimum) of domestic violence service through a practicum experience. Students should work with the academic unit in coordinating the practicum experience. Concurrent with the beginning of their practicum experience, students take the Domestic Violence Prevention and Intervention core course (SWG 545) to learn about the foundations of working with domestic violence victims. The coursework and practicum experience maximize experiential learning opportunities.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution and are degree-seeking graduate students. Experience in social work, social services or a related field is required.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants interested in the domestic violence intervention and victim advocacy certificate are asked to attend an interview. The interview is a chance to help the student find an appropriate practicum experience to match the certificate requirements.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/domestic-violence-evidence-based-practice/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Implement evidence-based interventions when working with clients that are experiencing domestic violence.
Apply advocacy skills when working with clients that are experiencing domestic violence.

Career opportunities

Graduates of this program are prepared for leadership and advocacy roles in social work, victim services and community-based organizations addressing domestic and gender-based violence.

Career examples include:

clinician or therapist specializing in trauma and interpersonal violence
domestic violence or legal advocate
domestic violence support group facilitator
nonprofit director or program coordinator in advocacy and prevention organizations

- policy analyst or community outreach specialist in gender-based violence
- research, training or evaluation specialist in victim services
- shelter or victim services case manager or program manager

Emergency Management, Certificate (PPEMEGRCT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Program description

ASU ranks No. 2 for best graduate homeland security and emergency management program by U.S. News & World= Report, 2025.

The graduate certificate program in emergency management provides you with the skills and knowledge to manage= and assume positions of leadership in government, private, nonprofit and civic roles within the field of emergency= management. An orientation on all-hazards and all-threats paired with a focus on community resilience and= communication provides you with a generalist perspective, which is critically important for the disaster managers of= today and tomorrow.

This certificate program may be of interest to you if you have a background in disciplines such as public policy,= planning, political science, nonprofit management, social work, criminology and other related fields.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (9 credit hours)
PAF 520 Public Management (3)
PAF 552 Integrated Emergency Management (3)
PAF 555 Information Technology in Emergency Management (3)

Electives (6 credit hours)

Additional Curriculum Information
For electives, students should see the academic unit for an approved course list. Other coursework may be used with= the approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and= Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• a statement of career and educational goals
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students who reside in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The program is ideal for students from related fields, including political science, planning, urban and metropolitan studies, sociology and other social science degrees; however, applicants from all educational backgrounds may be accepted provided they meet the minimum requirements. Current ASU graduate students are eligible for the certificate as a supplement to their existing degree program. In addition, students not enrolled in a graduate program at ASU are eligible to apply as nondegree-seeking students provided they meet the admission criteria stated above.

ASU Master of Public Administration students in the emergency management concentration are not eligible for admission due to program overlap.

Students should see the program website for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/emergency-management-graduate-certificate/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Assess strategies in key mission areas to address community disruptions caused by a range of hazards and threats.
Create management practices to support the mission of EMHS organizations across public, private, and nonprofit sectors.

Career opportunities

Students who complete this certificate are prepared to pursue a career in a field related to public administration or public policy, particularly in the areas of participatory governance and public engagement. This may include opportunities as either a manager or policy analyst in local, state or federal agencies; nonprofit organizations; and private organizations that interface with the public sector.

Emergency Management and Homeland Security (Biosecurity and Threat Management), MA (PPEMHSBTMA)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

ASU ranks No. 2 for best graduate homeland security and emergency management program by U.S. News & World Report, 2025.

Biosecurity and threat management is an important and emerging area related to the intersection of homeland security, public health and risk management. It addresses a distinct set of hazard and threat management issues related to bioterrorism, agroterrorism and communicable disease threats associated with disaster incidents, as well as biodefense overall.

The biosecurity and threat management concentration within the Master of Arts program in emergency management and homeland security is designed to assist your professional development aimed at meeting these types of current and emerging challenges.

You serve and promote stronger and more resilient communities across public, private or nonprofit sector organizations. The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of today's world. Its core values of collaboration between practitioners, faculty and students; public service; commitment to diversity; and critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Criminology and Criminal Justice (Policing), BS

Emergency Management and Homeland Security, BS

Public Service and Public Policy (Criminology), BS

Criminology and Criminal Justice, BS

Public Service and Public Policy (Emergency Management and Homeland Security), BS

Public Service and Public Policy (Law and Policy), BS

Public Service and Public Policy, BS

Public Service and Public Policy (Business), BS
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

33 credit hours including the required applied project course (PAF 593)

Required Core (18 credit hours)
CRJ 511 Applied Data Analysis in Criminal Justice (3)
CRJ 554 Homeland Security (3)
PAF 551 Hazards Governance (3)
PAF 552 Integrated Emergency Management (3)
PAF 558 Program Evaluation for Emergency Management and Homeland Security (3)
PAF 559 GIS for Hazards Analysis (3)

Concentration (6 credit hours)
PAF 564 Health Aspects of Crises, Emergencies, Disasters (3)
PAF 575 U.S. Biodefense Policy and Management (3)
PAF 581 Bioterrorism and Health Intelligence (3)

Elective or Research (6 credit hours)

Culminating Experience (3 credit hours)
PAF 593 Applied Project (3)

Additional Curriculum Information
Students must select two courses from the concentration list.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences or another closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• two letters of recommendation
• a written statement
• evidence of current employment
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The written statement must be at least one page in length and describe the applicant's educational and career goals and long-term professional development strategy.

Applicants must provide evidence of current employment in an organization in this field; at least two years of prior professional experience in this or a related field; or a bachelor's degree in a related area.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Emergency Management and Homeland Security (Community Resilience), MA (PPEMHSCRMA)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

ASU ranks No. 2 for best graduate homeland security and emergency management program by U.S. News & World Report, 2025.

Community resilience refers to the efforts of government and nongovernment actors to develop policies and practices aimed at reducing short- and long-term hazard risks in order to enhance safety, sustainability and resiliency through

adaptive capacities.

This concentration within the Master of Arts program in emergency management and homeland security is focused helping you understand how community resilience is developed and promoted in coordination with government agencies (local, state and federal) as well as private and nonprofit sector organizations in which functional and operational responsibilities relate to planning, hazards mitigation, disaster recovery or sustainability.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Emergency Management and Homeland Security (Cybersecurity Policy and Management), MA (PPEHSCPMMA)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

Cybersecurity is an important tool for addressing threat and vulnerability issues that cut across multiple domains. ASU ranks No. 2 for best graduate homeland security and emergency management program by U.S. News & World Report, 2025.

The cybersecurity policy and management concentration within the Master of Arts program in emergency management and homeland security provides you with knowledge, skills and abilities that enable you to assume leadership, key management and other key operational positions in public sector agencies or related private sector organizations. These organizations have responsibilities related to managing cybersecurity hazards in the area of homeland security, emergency management, critical infrastructure protection, risk management and other related fields.

This concentration is particularly well-suited if you are a professional in emergency management, homeland security, critical infrastructure protection, hazard mitigation, and planning and emergency preparedness who does not seek nor require highly technical training in cybersecurity (beyond a basic competency level) but does have major operational responsibilities that pertain to cyber-related vulnerabilities. This program is a distinct contribution: It provides education and training on cyber policy and management issues for general administrators.

The program emphasizes giving you a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of today's world. The program's core values of collaboration between practitioners, faculty and students; public service; commitment to diversity; critical thinking; and evidence-based assessment are all central to promoting informed and effective leadership.

STEM-OPT extension eligible: No

Career opportunities

Graduates with a master's degree in emergency management and homeland security with the cybersecurity policy and management concentration have a wide range of career opportunities, and the management of cyber-related hazards cuts across a broad set of professional areas. They serve and promote stronger and more resilient communities across public, private or nonprofit sector organizations.

Career examples include:

- corporate operations crisis manager
- corporate operations security manager
- emergency management director
- emergency preparedness coordinator or specialist
- information security analyst
- logistics coordinator or manager
- security operations center manager

Advanced degrees or certifications may be required for academic or clinical positions.

Emergency Management and Homeland Security (Emergency Management), MA (PPEMHSEMMA)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

ASU ranks No. 2 for best graduate homeland security and emergency management program by U.S. News & World Report, 2025.

The emergency management concentration within the Master of Arts program in emergency management and homeland security equips you to assume greater management responsibility in helping communities reduce vulnerability to hazards and cope with disasters in both private and public settings.

You gain an essential understanding of the entire vision, mission and principles of emergency management with an emphasis on policy analysis and program evaluation, leadership, management, use of technology, phases of the disaster life cycle, and interagency and cross-sector collaboration. Core concepts and analytic approaches to disaster risk reduction and the promotion of community resilience capacity are addressed in concentration courses.

As a program student, you serve and promote stronger and more resilient communities across public, private or nonprofit sector organizations. The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of today's world. Its core values of collaboration between practitioners, faculty and students; public service; commitment to diversity; and critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.

Public Service and Public Policy, BS

Public Service and Public Policy (Business), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

33 credit hours including the required applied project course (PAF 593)

Required Core (18 credit hours)
CRJ 511 Applied Data Analysis in Criminal Justice (3)
CRJ 554 Homeland Security (3)
PAF 551 Hazards Governance (3)
PAF 552 Integrated Emergency Management (3)
PAF 558 Program Evaluation for Emergency Management and Homeland Security (3)
PAF 559 GIS for Hazards Analysis (3)

Concentration (6 credit hours)
PAF 554 Exercises and Planning for Emergency Management and Homeland Security (3)

PAF 555 Information Technology in Emergency Management (3)

Elective or Research (6 credit hours)

Culminating Experience (3 credit hours)
PAF 593 Applied Project (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned from a regionally accredited institution a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences, or another closely related field.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• two letters of recommendation
• written statement
• evidence of current employment in an organization in this field, or at least two years prior professional experience in this or a related field, or a bachelor's degree in a related area
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letters of recommendation should be from faculty or other academic staff who can evaluate the applicant's academic performance, or from professional sources such as a supervisor.

The written statement should be at least one page in length and describe the applicant's educational and career goals and long-term professional development strategy.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-emergency-management/) for program descriptions and to request more information.

Career opportunities

Graduates have the skills needed to thrive in many careers.

Career options include:

continuity of operations planner
disaster recovery specialist
emergency manager
hazard mitigation officer
logistics specialist
training and exercises planner

Advanced degrees or certifications may be required for academic or clinical positions.

Emergency Management and Homeland Security (Homeland Security), MA (PPEMHSHSMA)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

This concentration within the Master of Arts program in emergency management and homeland security is focused on homeland security as a field, applicable to all levels of government (federal, state and local) and to positions in private sector organizations with functional and operational skills related to organizational security.

You gain an essential understanding of the public policy and practice on homeland security and homeland defense issues, with an emphasis on policy analysis and program evaluation, leadership, management, use of technology interagency and cross-sector collaboration. You serve and promote stronger and more resilient communities across public, private or nonprofit sector organizations.

The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of today's world. The program's core values of collaboration between practitioners, faculty and students; public service; commitment to diversity; and critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Criminology and Criminal Justice (Policing), BS

Emergency Management and Homeland Security, BS

Public Service and Public Policy (Criminology), BS

Emergency Management and Homeland Security, MA (PPEMHSMA)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

The Master of Arts program in emergency management and homeland security develops you as a current and future practitioner to be a part of the next generation of leaders in these fields.

The program brings you a blended approach of practical knowledge and broader integrative thinking about the

complex societal challenges of today's world. The program's core values of collaboration between practitioners, faculty and students; public service; commitment to diversity; and critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.

One of the distinct features of this program is its breadth of content coverage. The program offers you five distinct concentration areas, listed below. These subject area specializations underscore the program's commitment to strategic thinking about current and future challenges. Likewise, the program has a number of learning opportunities from an international perspective.

• biosecurity and threat management (https://degrees.apps.asu.edu/masters-phd/major/ASU00/PPEMHSBTMA/emergency-management-and-homeland-security-biosecurity-and-threat-management-ma)
• community resilience (https://degrees.apps.asu.edu/masters-phd/major/ASU00/PPEMHSCRMA/emergency-management-and-homeland-security-community-resilience-ma)
• cybersecurity policy and management (https://degrees.apps.asu.edu/masters-phd/major/ASU00/PPEHSCPMMA/emergency-management-and-homeland-security-cybersecurity-policy-and-management-ma)
• emergency management (https://degrees.apps.asu.edu/masters-phd/major/ASU00/PPEMHSEMMA/emergency-management-and-homeland-security-emergency-management-ma)
• homeland security (https://degrees.apps.asu.edu/masters-phd/major/ASU00/PPEMHSHSMA/emergency-management-and-homeland-security-homeland-security-ma)

When you enroll in this program, you're encouraged to choose one of these area specializations. You can enroll in the degree program without declaring a concentration; however, selecting one is advisable because doing so assists in developing the knowledge, skills and abilities pertinent to your intended career path.

STEM-OPT extension eligible: No

Homeland Security, Certificate (PPHLSGRCT)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

In the graduate certificate in homeland security, you focus on homeland security as a field related to organizational= security.

You can study topics related to current international and domestic terrorism issues, global security, intelligence= analysis, cybersecurity issues, crime prevention and law enforcement.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (12 credit hours)
CRJ 553 Terrorism and Weapons of Mass Destruction (3)
CRJ 554 Homeland Security (3)
CRJ 557 Seminar in Domestic Terrorism (3)
CRJ 558 Seminar in International Terrorism (3) or CRJ 559 Seminar in Cyber Terrorism (3)

Electives or Research (3 credit hours)

Additional Curriculum Information
Students should see the academic unit for available elective and research coursework.

Students may choose to participate in a study abroad experience in counterterrorism in Israel during the summer term= that may be used to fulfill elective coursework. Students who choose this option enroll in CRJ 555 Police and= International Terrorism and CRJ 556 Etiology of Martyrdom.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and= Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology,= criminal justice, homeland security, counterterrorism or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• written personal statement
• two letters of recommendation
• current resume or currculum vitae
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The written statement should be one to two pages in length and describe the applicant's prior education, relevant professional experience and career goals, and explain how the graduate certificate in homeland security will help them attain their career goals. The statement should explicitly explain how the applicant's plans align with the role and mission of the School of Criminology and Criminal Justice at ASU. It is recommended that applicants who feel as if they are weak in a particular area or admission requirement address their plan to remedy any shortcomings, should they be granted provisional admission into the program.

Applicants who are currently in an ASU graduate program should contact idpadvising@asu.edu (mailto:idpadvising@asu.edu) before applying, as they may be eligible for a streamlined option that requires only the graduate admission application and a written personal statement.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Latino Cultural Competency in Social Work, Certificate (PPSWGGRCL)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

ASU is ranked No. 20 nationally for graduate social work programs by U.S. News & World Report (2024).

If you are a graduate student or practicing social worker seeking advanced preparation in culturally responsive and= linguistically informed practice with Latino clients and communities, the certificate program in Latino cultural= competency in social work is designed for you. You study cross-cultural and theoretical frameworks, explore social and= linguistic factors that shape effective practice, and apply evidence-based approaches in work with bilingual and limited-English-speaking populations. Coursework builds professional competence for culturally grounded social work in= diverse settings.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (3 credit hours)
SWG 533 Diversity, Oppression and Social Justice in Social Work (3)

Other Requirements (6 credit hours)
SWG 541 Generalist Practicum I (3)
SWG 542 Generalist Practicum II (3)
SWG 584 Internship (3)
SWG 641 Advanced Practicum: Direct Practice I (3)
SWG 642 Advanced Practicum: Direct Practice II (3)
SWG 643 Advanced Practicum: Planning, Social Work Administration and Community Practice I (3)
SWG 644 Advanced Practicum: Planning, Social Work Administration and Community Practice II (3)
SWG 645 Advanced Generalist Practicum I (3)
SWG 646 Advanced Generalist Practicum II (3)

Electives (6 credit hours)

Additional Curriculum Information
Students must complete one of the practicum or internship options by taking two courses from the approved other= requirements list. Other coursework may be used with the approval of the academic unit.

Master of Social Work students who choose to apply an SWG-prefix practicum course toward the requirement for the= graduate certificate must complete one course from SWG 541, SWG 641, SWG 643 or SWG 645 and one course from

SWG 542, SWG 642, SWG 644 and SWG 646.

If selected, enrollment in SWG 584 is for three credit hours and taken twice. This course is intended for nondegree-seeking students and students in degree programs outside of the School of Social Work.

The student's department-specific practicum experience credits may be substituted for those listed in the other requirements section with department approval.

This program requires six credit hours of practicum in an agency setting that provides opportunities for Spanish-language practice with Latino clients and communities. At least three credit hours of the electives must be taken from within the School of Social Work.

Students already working in the field of social work may petition to use their place of employment for the six credit hours of independent study practicum practice.

Students with an MSW from a CSWE-accredited institution who have completed SWG 533 with a ''B'' (scale is 4.00 = ''A'') in the past five years may substitute another Latino-oriented course.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• the School of Social Work Latino cultural competency application form and the required $50 application fee
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

No more than two certificate courses may be completed before applying for admission to the certificate program.

Social work graduate students must have graduate-level admitted status in the Watts College of Public Service and Community Solutions' School of Social Work and should have prior coursework or experience in Spanish, with at least limited proficiency in the language.

Community professional social workers must possess an MSW, BSW or related master's degree and should have prior= coursework or experience in Spanish, with at least limited proficiency in the language.

Community workers must have the equivalent of two years of work experience in the social service field and an= undergraduate degree, and they should have prior coursework or experience in Spanish, with at least limited= proficiency in the language.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition= and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Graduates of this certificate are prepared for roles in social work and human services that require bilingual= communication and cultural responsiveness. The program enhances practitioners' ability to engage effectively with= Latino populations and supports career advancement in clinical, community and advocacy settings serving diverse and= Spanish-speaking communities.

Law Enforcement Administration, Certificate (PPLEAGRCT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Program description

If you are a law enforcement professional who has already obtained a bachelor's degree and are seeking to advance in= your career, the graduate certificate program in law enforcement administration is designed for you.

The curriculum provides you with a comprehensive analysis of criminal justice organizations, policing, and program= analysis and includes cross-disciplinary topics such as public administration. The program is designed to give you a= solid foundational understanding of law enforcement agency administration, leadership and policy analysis.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Courses (9 credit hours)
CRJ 512 Seminar in Policing (3)
CRJ 516 Seminar in Criminal Justice Organization and Management (3) or CRJ 574 Executive Leadership Principles in= Public Safety (3)
CRJ 527 Police Accountability (3)

Restricted Electives (6 credit hours)

Additional Curriculum Information

Students should see the academic unit for the approved restricted elective course list. Restricted electives may be substituted with approval of the academic unit.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants who are nondegree-seeking students (not admitted to a graduate degree program at ASU) are required to submit:
• graduate admission application and application fee
• official transcripts of undergraduate and, if applicable, graduate coursework
• a written statement of career and educational goals
• two letters of recommendation
• current resume
• proof of English proficiency

Applicants who are graduate degree-seeking students (admitted to an ASU graduate program) are required to submit:
• graduate admission application
• a written statement of career and educational goals

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The written statement should be one to two pages in length and describe the applicant's prior education, relevant professional experience and goals. The statement should explain how the law enforcement administration graduate certificate will help the applicant attain their career goals. The statement should explicitly explain how their plans align with ASU School of Criminal Justice's role and mission. It is recommended that applicants who feel as if they are weak in a particular area or admission requirement address their plan to remedy any shortcomings, should they be granted provisional admission into the program.

Students from related fields such as public policy, political science, psychology, sociology and other social science degrees might be interested in this program; however, all eligible students are considered. Although most students would likely come from the aforementioned degree fields, there is no specific undergraduate degree major required for admission; the school accepts applicants with undergraduate degrees from all educational backgrounds.

Admission examinations are not required for admission to the certificate program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-law-enforcement-administration/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Critically apply management and organizational theories to issues in contemporary law enforcement practice.
- Demonstrate competence in explaining the role of proactive accountability measures in creating fairer and more effective law enforcement agencies.

Career opportunities

Graduates of the law enforcement administration graduate certificate program find a strong job market in the public= and private sectors. Employment opportunities include supervisory and management positions in criminal justice= agencies at federal, state and local levels, such as city police departments, county sheriff's offices, state bureaus of= investigation and federal law enforcement agencies.

Nonprofit Leadership and Management, Certificate (PPNONPROCE)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Program description

In the graduate certificate program in nonprofit leadership and management, you gain a detailed understanding of the= nonprofit sector's role in society, and you learn how to lead effectively and contribute to positive change in= communities.

You acquire the knowledge that nonprofit leaders need, including the historical and philosophical foundations of the= sector, the theory and practice of philanthropy, and effective financial and organizational management.

Coursework emphasizes practical leadership approaches that'll prepare you to strengthen operations, advance= missions and promote sustainable growth within nonprofit organizations.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (9 credit hours)
NLM 510 The Nonprofit Sector (3)

NLM 520 Financial and Resource Management (3)
NLM 540 Strategic Human Resources Management (3) or NLM 545 Volunteer Resource Management (3)

Electives (6 credit hours)

Additional Curriculum Information
Students select either NLM 540 or NLM 545 as part of the required core coursework.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International applicants are also required to submit TOEFL iBT® or IELTS scores and a financial guarantee statement.

The program is available to students who are pursuing a graduate degree and who are interested in pursuing a career in the nonprofit sector. In addition, the program is well-suited for working professionals pursuing a graduate degree who wish to strengthen their skills and connections in the nonprofit community and have one to three years of nonprofit professional experience.

Applicants should see the Watts College website for more information.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

Nonprofit Leadership and Management, MNLM (PPNPSMNS)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Program description

The Master of Nonprofit Leadership and Management program prepares you for senior leadership and management roles across the nonprofit sector. You gain a comprehensive understanding of the social sector and the distinctive characteristics of nonprofit organizations.

You examine both theoretical and applied aspects of leadership and management, developing expertise in governance, strategy and resource development. Coursework emphasizes financial management, ethical leadership and organizational sustainability through real-world applications.

The program offers management education comparable in scope to a business administration degree while maintaining a focus on the public good and mission-driven leadership.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Nonprofit Leadership and Management, BS

Nonprofit Leadership and Management (American Indian Studies), BS

Public Service and Public Policy, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply

(https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

33 credit hours including the required capstone course (NLM 620)

Required Core (15 credit hours)
NLM 510 The Nonprofit Sector (3)
NLM 520 Financial and Resource Management (3)
NLM 530 Program Evaluation and Information Management (3)
NLM 540 Strategic Human Resources Management (3) or NLM 545 Volunteer Resource Management (3)
NLM 550 Philanthropy (3)

Electives (15 credit hours)
NLM 515 Nonprofit Organizational Behavior and Principles of Management (3)
NLM 525 Fundraising and Resource Development (3)
NLM 540 Strategic Human Resources Management (3)
NLM 545 Volunteer Resource Management (3)
NLM 560 Leadership and Ethics in the Nonprofit Sector (3)
NLM 562 Social Entrepreneurship (3)
NLM 565 Grant Writing Nonprofit Organizations (3)
NLM 570 International Non-Governmental Organizations (3)
NLM 572 Community and Social Innovations (3)
NLM 580 Practicum (3)
NLM 585 Social Marketing (3)
NLM 605 Nonprofits, Law and Society (3)
NLM 610 Executive Leadership and Governance (3)

Culminating Experience (3 credit hours)
NLM 620 Capstone: Integrative Seminar (3)

Additional Curriculum Information
Students are required to complete 15 credit hours of core coursework and 15 credit hours of related elective coursework. Three credit hours of a capstone course are also required and must be completed in the final semester of the program. The capstone course integrates all concepts learned in the program, allowing students to synthesize material from prior coursework. Successful completion of this course is required in place of a thesis or applied project.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee

• official transcripts
• curriculum vitae or resume
• statement of educational and career goals
• three reference letters
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International applicants are required to submit TOEFL iBT® or IELTS scores and a financial guarantee statement.

The statement of educational and career goals should be written in sufficient detail to indicate compatibility with the educational objectives and capabilities of the school.

Reference letters should be from a combination of academic and professional references (letters from friends and family members are not accepted).

Students enrolled in the nonprofit leadership and management certificate program who are interested in this master's program must apply before they complete nine credit hours in the certificate program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Participatory Governance, Certificate (PPPGOGRCT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Tempe

Program description

This transdisciplinary certificate program combines academic rigor with practical skills. You examine the main theories= and research findings on participatory governance and public engagement, and familiarize yourself with past and= current democratic innovations in the U.S. and around the world. You also develop the capacity to design, carry out and= examine processes of participatory governance and public engagement.

You may pursue the certificate program as a specialization within an existing ASU graduate program or as a stand-alone certificate.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (9 credit hours)
Choose three of the following courses:
PAF 530 Management of Urban Government (3)
PAF 531 Community Conflict Resolution (3)
PAF 565 Theories and Practices of Democracy (3)
PAF 566 Participatory Governance and Civic Engagement (3)

Electives (6 credit hours)

Additional Curriculum Information
Electives are chosen from a list of preapproved courses and are selected with the faculty advisor. The faculty advisor= directs the selection of the electives to ensure that they focus on a common theme and to see that the student's= experiences in the courses align with the learning goals outlined for the certificate.

Students are required to maintain a minimum GPA of 3.00 (scale is 4.00 = "A") and to have no more than one grade= below a "B-" in courses taken to complete the certificate program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and= Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a= regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's

degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of career and educational goals
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Students from related fields such as political science, planning, urban and metropolitan studies, sociology and other social science degrees might be interested in this program. However, all eligible students are considered.

Students should see the program website for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Demonstrate knowledge of democratic theory and its connection to participatory governance.
- Understand advantages and disadvantages of different models of participatory governance.

Career opportunities

Graduates with this certificate are prepared to pursue a career in a field related to public administration or public= policy, particularly in the areas of participatory governance and public engagement. Possible positions include manager= or policy analyst in a local, state or federal agency; nonprofit organization; or private organization that interfaces with= the public sector.

Program Evaluation and Data Analytics, MS (PPPGEMS)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

The Master of Science program in program evaluation and data analytics is a professional degree program that gives you the skills needed to leverage data to improve organizational performance in the public, nonprofit and private sectors. It combines courses in program evaluation and data science, which empower you to utilize a diverse array of tools to generate insights on social impact and leverage data in organizations.

You receive training in data programming, visualization, dashboard design, open data, project management and impact analysis. Through this, you build the technical skills necessary to implement evidence-based approaches to policy and management.

Unlike other data scientist degrees, this program is built using public sector and nonprofit examples. You don't need a background in computer programming before starting the program. Through a project-based curriculum and individualized attention, you develop expertise in performance and evaluation frameworks.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Public Service and Public Policy (Sustainability), BS

Criminology and Criminal Justice (Policing), BS

Emergency Management and Homeland Security, BS

Public Service and Public Policy (Criminology), BS

Criminology and Criminal Justice, BS

Public Service and Public Policy (Health Policy), BS

Public Service and Public Policy (Emergency Management and Homeland Security), BS

Public Service and Public Policy (Law and Policy), BS

Public Service and Public Policy, BS

Public Service and Public Policy (Business), BS
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Recommend appropriate data storage, integration, and stewardship solutions based on organizational, technical, and ethical considerations.
- Implement end-to-end data analysis workflows that include data pre-processing, exploratory analysis, modeling, validation, and interpretation.
- Communicate compelling data narratives that integrate visual, textual, and quantitative elements to communicate insights to diverse technical and non-technical audiences.

Career opportunities

Program evaluation spans many fields and industries. These include educational institutions, nonprofit organizations, health care facilities, government programs and more. Options for employment are diverse for graduates who have a deepened capacity for program evaluation. Career titles with program evaluation as a central component of their role include:

- chief data officer
- city government program manager
- compliance officer
- director of evaluation or evaluation specialist
- education curriculum or program specialist
- government grant manager
- health care administrator
- monitoring and evaluation analyst
- nonprofit manager or executive director
- policy or research analyst

Public Administration (Emergency Management), MPA (PPPAFEMPA)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, ASU at Hainan

Program description

The Master of Public Administration program is a professional degree program that can be completed full time or part time.

The program consists of a core curriculum emphasizing managerial and analytic skills needed in a large range of careers that serve the public good. Through a focused set of electives, the concentration in emergency management provides you with the skills and knowledge you need in order to manage and assume positions of leadership in the field of emergency management within government, private, nonprofit and civic organizations. An all-hazards and all-threats orientation paired with a focus on community resilience and communication provides you with a generalist perspective, which is critically important for the disaster managers of today and tomorrow.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Public Service and Public Policy (Sustainability), BS

Criminology and Criminal Justice (Policing), BS

Emergency Management and Homeland Security, BS

Public Service and Public Policy (Criminology), BS

Criminology and Criminal Justice, BS

Public Service and Public Policy (Health Policy), BS

Public Service and Public Policy (Emergency Management and Homeland Security), BS

Public Service and Public Policy (Law and Policy), BS

Public Service and Public Policy, BS

Public Service and Public Policy (Business), BS

Public Service and Public Policy (American Indian Studies), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

42 credit hours including the required capstone course (PAF 509)

Required Core (27 credit hours)
PAF 501 Public Service Research I (3)
PAF 502 Public Service Research II (3)
PAF 503 Public Affairs (3)
PAF 504 Microeconomics of Public Policy I (3)
PAF 505 Public Policy Analysis (3)
PAF 506 Public Budgeting and Finance (3)
PAF 507 Public Human Resource Management (3)
PAF 508 Organization Behavior (3)
PAF 574 Diversity, Ethics and Leading Public Change (3)

Required Concentration (9 credit hours)
PAF 520 Public Management (3)

PAF 552 Integrated Emergency Management (3)
PAF 555 Information Technology in Emergency Management (3)

Electives or Research (3 credit hours)

Culminating Experience (3 credit hours)
PAF 509 Public Affairs Capstone (3)

Additional Curriculum Information
Students should see the academic unit for a complete list of approved electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field. Related fields include political science, criminology, planning, business, urban and metropolitan studies, and other social science fields. Although most students for the graduate concentration would likely come from the aforementioned degree fields, the department may accept applicants with undergraduate degrees from all educational backgrounds provided the minimum requirements for the degree program are met.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of career and educational goals
• two letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letters of recommendation should be from faculty or other academic staff who can evaluate the applicant's academic performance, or from professional sources such as a supervisor.

Students who enroll in MPA core courses must demonstrate minimum competency in statistics and American government, typically through the completion of an undergraduate social statistics course such as PAF 301 Applied Statistics and undergraduate coursework in American national government such as POS 310 American National Government. Completion of prerequisite courses is not a requirement for admission, but must be completed within one semester after starting the program. Students may also satisfy the American national government competency by successfully completing a noncredit online course offered by the School of Public Affairs to incoming students.

Applicants should email spa@asu.edu (mailto:spa@asu.edu) if they have questions about the application process.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Employ analtyic frameworks for supporting decision-making in public organizations and contributing to the policy process
- Interact productively with a diverse and changing workforce and citizenry.
- Apply public management principles to emergency management and preparedness challenges

Career opportunities

Graduates are prepared to pursue a career in a field related to public administration or public policy. Possible positions= include manager or policy analyst in a local, state or federal agency; nonprofit organization; or private organization that= interfaces with the public sector.

Public Administration, Certificate (PPPUAGRCT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Program description

ASU ranks No. 11 for best graduate public affairs programs by U.S. News & World Report, 2025.

Through comprehensive coverage of topics in public administration, management and policy, you discover the= challenges of management in the graduate certificate program in public administration, learn how to lead a public= organization and understand the process of policy development.

The program is designed to give you a solid foundational understanding of administration, leadership and policy= analysis in service to the public good.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (6 credit hours)
PAF 503 Public Affairs (3)
PAF 505 Public Policy Analysis (3)

Electives (9 credit hours)

Additional Curriculum Information
Electives are chosen from a list of preapproved courses and are selected with the faculty advisor. The faculty advisor

directs the selection of the electives to ensure they focus on a common theme and to see that the student's experiences in the courses align with the learning goals outlined for the certificate. For the electives, the student must select any three 3-credit PAF courses at the 500 level.

Students are required to maintain a minimum GPA of 3.00 (scale is 4.00 = "A") and to have no more than one grade below a "B-" in courses taken to complete the certificate program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree, in any field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of career and educational goals
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Students from related fields such as public policy, political science, planning, urban and metropolitan studies, sociology, as well as other social science degrees might be interested in this program. However, all eligible students are considered.

Students should see the program website for application deadlines and admission terms.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-

programs/certificates/public-administration-graduate-certificate/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

> Interact productively with a diverse and changing workforce and citizenry.
> Employ analytic frameworks for supporting decision-making in public organizations and contributing to the policy process.

Career opportunities

Graduates are prepared to pursue a career in a field related to public administration or public policy, particularly in the areas of participatory governance and public engagement. Possible positions include manager or policy analyst in a local, state or federal agency; nonprofit organization; or private organization that interfaces with the public sector.

Public Administration (Nonprofit Administration), MPA (PPNONPRMPA)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

ASU ranks No. 5 for best graduate nonprofit management program by U.S. News & World Report, 2025.

The Master of Public Administration is a professional degree program that prepares you for public service at all levels of government as well as in the nonprofit and private sectors. The program consists of a core curriculum emphasizing managerial and analytic skills required for work in a wide variety of careers that serve the public good. The MPA program can be completed full time or part time.

The nonprofit administration concentration builds on the core program through the application of administrative and leadership principles to train you as a professional who chooses a career in the nonprofit sector. You focus on the managerial aspects of running nonprofit organizations that solve specific challenges in communities around the world and that provide necessary services not available through traditional markets or government providers. You gain important skills you need in order to succeed, including financial management, volunteer management, fundraising, strategic planning and experience working with boards of directors.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Public Administration (Public Finance), MPA (PPPAFPMPA)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

ASU ranks No. 16 for best graduate public financing and budgeting program and No. 11 for best graduate public affairs programs by U.S. News & World Report, 2025.

The Master of Public Administration program is a professional degree program that prepares you for public service at all levels of government as well as in the nonprofit and private sectors. The MPA program can be completed full time or part time.

The program consists of a core curriculum emphasizing managerial and analytic skills needed in a wide variety of careers that serve the public good. Through a focused set of electives, the concentration in public finance provides knowledge and skills for you to excel in areas in which financial management plays an integral role in governance. The concentration deepens your knowledge of urban economics, managing money in the public sector, public budgeting, and capital budgeting and financing.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Public Administration (Urban Management), MPA (PPPAFUMPA)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

ASU ranks No. 9 for best graduate urban policy program and No. 11 for best graduate public affairs programs by U.S. News & World Report, 2025.

The Master of Public Administration program is a professional degree program designed to prepare you for public service at all levels of government as well as in the nonprofit and private sectors. The program consists of a core curriculum emphasizing managerial and analytic skills required for work in a wide variety of careers that serve the public good.

The urban management concentration prepares you to be a leader in local government, where most services and programs for residents are managed. Through a focused set of electives and interactions with experienced city managers, you gain knowledge and develop the skills you need in order to contribute to the operations of local government and help communities better serve the people who live there.

STEM-OPT extension eligible: No

Public Administration, EMPA (PPPUAEMPA)

College/School: Watts College of Public Service & Community Solut

Campus: Online

ASU is not currently accepting applications for this program.

Program description

The Executive Master of Public Administration program is designed for public sector leaders throughout the world who already have achieved considerable professional success prior to being admitted into the program.

It's a 19-month online graduate degree program, which also features three-day face-to-face executive sessions in both Phoenix and Washington, D.C. You participate in the program as part of a learning cohort, and the one-course-at-a-time online structure enables you to maintain a work-life balance as you immerse yourself in each topic.

Your learning experience begins with an orientation and executive session in Phoenix. Approximately one year later, you reconvene with the class in Washington, D.C. for a second executive session. The executive master's degree program ends in Phoenix, where you present your applied projects.

The program enables you to expand the breadth and depth of your professional network. The online curriculum attracts a more geographically diverse pool of applicants from around the world. The executive sessions in Phoenix and Washington, D.C. further enable you to develop deeper relationships with your classmates.

You are selected to be a EMPA student based on your ability to demonstrate the value you would add to the learning experience of the entire class. A new cohort begins each year.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Exceptions to the GPA requirements may be considered based on the professional achievements demonstrated by the applicant as determined by applicant's resume and other application materials. In addition to the GPA requirement, applicants are expected to have five to seven years of progressive leadership experience.

The personal statement must be 300 words or fewer and should include what experiences and qualities the student will bring to the program. The student must also discuss their career objectives and how they plan to leverage the degree to help achieve those objectives. In addition, applicants may provide any supplementary information that would strengthen the personal statement.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Graduates of the EMPA program are able to further advance in or switch to careers in local, state, tribal and federal governments or nonprofit and private organizations that regularly interface with the public sector.

Public Administration and Policy, PHD (PPPUBADPHD)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

ASU ranks No. 11 for best graduate public affairs programs by U.S. News and World Report, 2025.

The Doctor of Philosophy program in public administration and policy is a theoretically grounded research degree program designed to prepare you for a research-based career. This is a four-year, full-time degree program.

This program develops you into a well-rounded, independent scholar who are grounded in the classic and current literatures of public administration and public policy, skilled in research methods, and ready to contribute to the field through research and teaching. As a result, you are poised for success as a productive and active scholar, researcher and teacher.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (21 credit hours)
PAF 601 Advanced Public Policy Seminar (3)
PAF 602 Advanced Research Design for Public Policy and Management (3)
PAF 603 Advanced Economics for Public Administration and Public Policy (3)
PAF 604 Intellectual Foundations of Public Administration (3)
PAF 605 Organization Theory and Behavior Seminar (3)
PAF 609 Advanced Quantitative Methods Seminar (3)
PAF 610 Advanced Qualitative Methods for Public Affairs Research (3)

Electives (45 credit hours)

Research (6 credit hours)
PAF 792 Research (6)

Culminating Experience (12 credit hours)
PAF 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this degree.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor¿s or master's degree from a regionally accredited institution.

ASU's School of Public Affairs expects applicants for the doctorate to have demonstrated competency in the following subject areas at the time of application: organizational theory, public policy analysis, economics and quantitative analysis.

The doctoral program director or advisors may require or recommend completion of additional courses when there is a perceived gap of knowledge, especially if the gap relates to graduate-level quantitative analysis and economics (PAF 502 and PAF 504, respectively, or equivalent courses). However, these requirements or recommendations, if any, are not a barrier to admission.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program and have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts of all undergraduate and graduate coursework
• completed checklist
• written statement
• current resume or curriculum vitae
• three letters of recommendation
• samples of research reports or papers
• GRE scores (verbal, quantitative, analytical)
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must submit TOEFL scores to be considered for admission, regardless of their current residency; applicants should use institution code 4007. This is true even for those who have a master's degree from a United States university. To be considered for admission to the doctoral program in public administration and policy, the minimum score on a TOEFL iBT® is a 5, or a score of 100 (taken at a testing center) if taken before January 21, 2026. Applicants with scores below the minimum are not considered.

The written statement of educational and career goals must include a discussion of research interests.

The letters of recommendation should be primarily from faculty members. All letters should address the candidate's capacity to successfully complete the doctoral program. They should assess the student's capacity for critical and analytic thought, their ability to communicate effectively, both orally and in writing, and their commitment to completion of the program.

Only GRE test scores from within the past five years are accepted, and analytical scores are considered in admission decisions. ASU does not accept the GRE® General Test at home edition.

Admission is competitive; a limited number of well-qualified applicants are admitted each year.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Able to design curriculum for public service students
- Carry out an independent research project.
- Synthesize core theories, concepts and ideas as used and applied in public administration and policy.

Career opportunities

Graduates of this degree program are prepared to conduct high-level research and policy development in academic careers, public and nonprofit agencies, foundations and research institutes. This may include opportunities as a college or university professor, research scientist, research associate or researcher for another organization.

Public Administration, MPA (PPPADTMPA)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, ASU at Hainan , Online

Program description

ASU ranks No. 5 for best graduate public management and leadership program by U.S. News & World Report, 2025.

The Master of Public Administration program equips you with the skills and knowledge necessary to lead and manage in the public sector. It emphasizes the development of competencies in management, public policy analysis, administrative leadership and the ethical governance of public institutions. The program offers you a strong foundation in public service values, organizational behavior, budgeting and program evaluation. With a flexible curriculum, you can tailor your studies to focus on areas such as nonprofit management, urban affairs or policy implementation.

ASU's MPA program is known for its interdisciplinary approach and its alignment with the challenges faced by contemporary public administrators, fostering innovation and evidence-based decision-making.

You may also elect to specialize in one of four approved concentrations:

• emergency management
• nonprofit administration
• public finance
• urban management

This program can be completed full time or part time.

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.
This degree is also offered as a concurrent program with the following:

Social Work - Standard Program, MSW

Urban and Environmental Planning, MUEP

Criminology and Criminal Justice, MS

Sustainability Solutions, MSUS

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

English (Writing, Rhetorics and Literacies), BA

Public Service and Public Policy (Sustainability), BS

Sociology, BS

Anthropology, BS

English (Linguistics), BA

Health Care Administration and Policy, BS

Molecular Biosciences and Biotechnology, BS

Criminology and Criminal Justice (Policing), BS

Economics, BS

Business (Tourism), BA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

42 credit hours including the required capstone course (PAF 509)

Required Core (27 credit hours)
PAF 501 Public Service Research I (3)
PAF 502 Public Service Research II (3)
PAF 503 Public Affairs (3)
PAF 504 Microeconomics of Public Policy I (3)
PAF 505 Public Policy Analysis (3)
PAF 506 Public Budgeting and Finance (3)
PAF 507 Public Human Resource Management (3)
PAF 508 Organization Behavior (3)
PAF 574 Diversity, Ethics and Leading Public Change (3)

Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)
PAF 509 Public Affairs Capstone (3)

Additional Curriculum Information
Students should see the academic unit for a complete list of approved electives. Approved elective credit hours may include courses offered by the school or other academic units in the university.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in a related field. Related fields include social science degrees, although the department may accept applicants with degrees from all educational backgrounds provided the minimum requirements for the degree program are met.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• two letters of recommendation
• written statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letters of recommendation should be from faculty members or other academic staff who can evaluate the applicant's academic performance, or from professional sources such as a supervisor.

The written statement should be one to two pages in length and describe the applicant's educational and career goals. This statement is also used as a sample of the applicant's writing abilities.

Applicants also may submit a resume or other documents.

Students enrolling in MPA core courses must demonstrate minimum competency in statistics and American government, typically through the completion of an undergraduate social statistics course, such as PAF 301 Applied Statistics and undergraduate coursework in American national government, such as POS 310 American National Government. Completion of prerequisite courses is not a requirement for admission, but must be completed within one semester after starting the program. Students also may satisfy the American national government competency by successfully completing a noncredit online course offered by the School of Public Affairs to incoming students.

Applicants should email spa@asu.edu (mailto:spa@asu.edu) if they have questions about the application process.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/mpa-public-administration) for program descriptions and to request more information.

Career opportunities

Graduates are prepared to pursue a career in a field related to public administration or public policy. This may include opportunities as a manager or policy analyst in local, state or federal agencies; nonprofit organizations; and private organizations that interface with the public sector.

Public Policy (Environmental Policy), MPP (PPPUPEPMPP)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

ASU ranks No. 10 for best graduate environmental policy and management program by U.S. News & World Report, 2025.

The Master of Public Policy program equips you with the analytical tools needed to understand and address public policy issues. You also develop skills in managing the process of policy development, approval, implementation and evaluation.

Through a focused set of electives, the MPP concentration in environmental policy deepens your expertise in specific areas and issues, such as the implementation of sustainable practices in local governments, and builds the knowledge base and skills that enable you to bring sustainability solutions to the government, corporate and nonprofit sectors.

At the conclusion of the master's degree program, you are prepared to apply sustainability principles and approaches to careers in a variety of fields that address environmental and, inevitably, human challenges.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Public Policy, Certificate (PPPUPGRCT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

This certificate program in public policy is designed to give you analytical techniques and conceptual frameworks for= understanding policy issues as well as for identifying potential solutions and applying these skills to relevant issues.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (9 credit hours)
PAF 505 Public Policy Analysis (3)
PAF 540 Adv Policy Analysis (3)
PAF 541 Program Evaluation (3)

Electives (6 credit hours)

Additional Curriculum Information
The electives are chosen from a list of preapproved courses and are selected with the faculty advisor. The faculty= advisor directs the selection of the electives to ensure that they focus on a common theme and to see that the= students' experiences in the courses align with the learning goals outlined for the certificate. For the electives, students= select any two three-credit PAF courses that are 500-level.

Students are required to maintain a minimum GPA of 3.00 (scale is 4.00 = "A") and to have no more than one grade= below a "B" in courses taken to complete the certificate program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and= Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• statement of career and educational goals
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Students from related fields (e.g., public administration, political science, planning, urban and metropolitan studies, sociology and other social science fields) might be interested in this program. However, all eligible students are considered.

Students should see the program website for application deadlines and admission terms.

Public Policy (Science and Technology Policy), MPP (PPPUPSTMPP)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Tempe

Program description

The Master of Public Policy program allows you to approach the study of public policy with a focus on public policy in the urban setting.

The program trains you to lead by making positive policy decisions; addressing the difficult questions associated with public policy; and managing the process of policy creation, approval, implementation and evaluation. You also gain an understanding of policies addressing issues such as poverty, education, the environment and public safety. At the

conclusion of the program, you are able to identify, analyze and interpret the challenges and dilemmas of public policies, especially those of urban areas. You also are able to approach policy analysis with a variety of quantitative and qualitative methods, and you are prepared to develop innovative processes and tools to deal with changing realities of public policy and address issues on a global, regional and local scale.

The MPP program with a concentration in science and technology policy provides knowledge and skills for you if you're seeking or advancing careers in areas in which science and technology are either guided by public policy or play an integral role in the policy process. This concentration emphasizes theories and research concerning the role of science in decision-making, complexity theory, institutional design of knowledge production organizations, national innovation systems, innovation and industrial policy, technology transfer and research evaluation.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Public Service and Public Policy (Sustainability), BS

Criminology and Criminal Justice (Policing), BS

Public Service and Public Policy (Criminology), BS

Criminology and Criminal Justice, BS

Public Service and Public Policy (Health Policy), BS

Public Service and Public Policy (Emergency Management and Homeland Security), BS

Public Service and Public Policy (Law and Policy), BS

Public Service and Public Policy, BS

Public Service and Public Policy (Business), BS

Public Service and Public Policy (American Indian Studies), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

42 credit hours including the required capstone course (PAF 509)

Required Core (27 credit hours)
PAF 501 Public Service Research I (3)
PAF 502 Public Service Research II (3)
PAF 504 Microeconomics of Public Policy I (3)
PAF 505 Public Policy Analysis (3)
PAF 540 Advanced Policy Analysis (3)
PAF 541 Program Evaluation (3)
PAF 570 Microeconomics of Public Policy II (3)
PAF 573 Applied Econometrics (3)
PAF 574 Diversity, Ethics and Leading Public Change (3)

Concentration (6 credit hours)
HSD 501 Science and Technology Policy (3)

PAF 591 Topic: Innovation Policy and Management (3)

Restricted Electives (6 credit hours)

Culminating Experience (3 credit hours)
PAF 509 Public Affairs Capstone (3)

Additional Curriculum Information
Students should see the academic unit for a complete list of approved electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• two letters of recommendation
• written statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. Additional requirements for international students are on the international graduate admission (https://admission.asu.edu/apply/international/graduate) website.

Applicants may also submit a resume or other documents.

The letters of recommendation should be from faculty or other academic staff who can evaluate the applicant's academic performance, or from professional sources such as a supervisor.

The written statement should be one to two pages and describe the applicant's educational and career goals. The written statement is also used as a sample of the applicant's writing abilities.

Students enrolling in MPP core courses must demonstrate minimum competency in statistics and American government, typically through the completion of an undergraduate social statistics course such as PAF 301 Applied Statistics and undergraduate coursework in American national government such as POS 310 American National Government. Completion of prerequisite courses is not a requirement for admission, but they must be completed within one semester after starting the program. Students may also satisfy American national government competency by successfully completing a noncredit online course offered to incoming students by the School of Public Affairs.

Applicants should email spa@asu.edu (mailto:spa@asu.edu) if they have questions about the application process.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

> Apply analytic techniques for developing, comparing, and improving public policy solutions.
> Lead evidence-based efforts to solve public challenges within diverse and changing organizations and societies.
> Apply policy analysis tools to address challenges related to maximizing public value from innovations in science and technology.

Career opportunities

Graduates with this degree are prepared to pursue a career in a field related to public administration or public policy. This may include opportunities as either a manager or policy analyst in a local, state or federal agency; nonprofit organization; or private organization that interfaces with public sectors.

The program can also serve as a platform for preparation for doctoral studies in public policy, public administration, urban studies and other related programs.

Public Policy, MPP (PPPUBPMPP)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

ASU ranks No. 17 for best graduate public policy analysis program by U.S. News & World Report, 2025.

The Master of Public Policy program equips you with the analytical tools you need in order to understand and address public policy issues. You also develop skills in managing the process of policy development, approval, implementation and evaluation, as well as gain policy-specific knowledge on issues such as poverty, education, the environment and public safety.

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.
This degree is also offered as a concurrent program with the following:

Urban and Environmental Planning, MUEP

Criminology and Criminal Justice, MS

Sustainability Solutions, MSUS

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Public Service and Public Policy (Sustainability), BS

Criminology and Criminal Justice (Policing), BS

Emergency Management and Homeland Security, BS

Public Service and Public Policy (Criminology), BS

Criminology and Criminal Justice, BS

Public Service and Public Policy (Health Policy), BS

Public Service and Public Policy (Emergency Management and Homeland Security), BS

Political Science, BA

Public Service and Public Policy (Law and Policy), BS

Public Service and Public Policy, BS

Public Service and Public Policy (Business), BS

Political Science, BS

Public Service and Public Policy (American Indian Studies), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Public Safety Leadership & Administration (Emergency Medical Services-Mobile Integrated Healthcare), MPSLA (PPPSEMMPSL)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

The Master of Public Safety Leadership and Administration degree program is designed for you, as a public safety professional. An advanced degree is an important key to career progression within public safety administration. Having advanced degree gives you a significant advantage --- a practical understanding of public safety organization administration --- when you seek to progress in your profession.

The emergency medical services mobile integrated healthcare concentration provides you with the foundation for leadership and administration of EMS organizations. This program takes a multiprofessional approach to administration of EMS organizations and encompasses public policy and administration, organizational management and leadership, finance and data analysis. You develop a solid foundation of knowledge and skills on which to build success within the field of EMS administration.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours - course-based master's

Required Core (15 credit hours)
CRJ 510 Criminal Justice Planning and Program Evaluation (3)
CRJ 574 Executive Leadership Principles in Public Safety (3)
PAF 506 Public Budgeting and Finance (3)
PAF 507 Public Human Resource Management (3)
PAF 508 Organization Behavior (3)

Concentration (9 credit hours)
CRJ 571 Foundations of Emergency Medical Services (3)
CRJ 572 Community Paramedicine: Mobile Integrated Health Care (3)
HCD 502 Foundations of U.S. Health Systems and Design (3)

Electives or Research (6 credit hours)

Additional Curriculum Information
This master's degree is a course-based program. Students choose two courses from a restricted list or any graduate-level CPP or PAF course, with program approval, for the electives or research credits.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences or another closely related field from a regionally accredited college or university.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• two letters of recommendation
• written statement
• evidence of current employment in an organization in the field of the degree program or concentration, or at least two years of professional experience in the field of the chosen degree program or concentration
• resume or curriculum vitae
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The written statement should be one or two pages and describe prior education, relevant professional experience and career goals, and explain how the criminal justice program will help them attain their career goals. The statement should explicitly explain how their plans are consistent with the role and mission of the School of Criminology and Criminal Justice at ASU. It is recommended that applicants who feel they are weak in a particular area or admission requirement address their plan to remedy any shortcomings if they are granted provisional admission to the program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-

programs/graduate/masters-public-safety-leadership-and-administration-emergency/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Integrate theoretical perspectives on leadership into the planning of public safety programs.
Formulate a final program evaluation research paper based on foundational knowledge of organizational leadership and administration.
Evaluate approaches to effectively manage personnel, multi-agency partnerships and organizational change efforts in emergency medical service agencies.

Career opportunities

Graduates are in a position to lead and improve EMS teams in mobile integrated health care. They have knowledge and skills that uniquely qualify them for leadership positions in different types of EMS agencies, such as hospitals, public health departments and managed care organizations. Graduates should expect to find employment and advancement in all levels of government agencies and in the private sector.

Specific career opportunities include:

ambulance dispatcher
emergency medical technician
firefighter
medical assistant
paramedic

Social Entrepreneurship and Community Development, Certificate (PPSECDGRCT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Program description

The graduate certificate in social entrepreneurship and community development may be pursued as a stand-alone= credential or alongside an ASU master's degree to expand professional expertise and career opportunities. If you are a= student or professional in a field such as nonprofit leadership, public policy and innovation, and want to strengthen= your understanding of social enterprise and community development, this program is designed for you.

You learn to identify and pursue entrepreneurial opportunities that generate innovative responses to social challenges.= Coursework integrates principles of social entrepreneurship, community development and social innovation to build= organizational and community capacity.

By emphasizing applied tools, creative problem-solving and leadership strategies for positive change, the program= prepares you to design, implement and sustain initiatives that enhance social and economic well-being.
