ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-social-entrepreneurship-community-development/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

> Articulate their understanding of the concepts of social entrepreneurship and social innovation through discussion, readings, individual research and writing.
> Apply class concepts through written analyses of organizations practicing community development, social entrepreneurship and social enterprise.

Career opportunities

Graduates are prepared for leadership roles that bridge the public, private and nonprofit sectors. Career paths include positions such as executive officer, program administrator, foundation officer and social enterprise manager.

Professionals with this certificate bring innovative thinking and entrepreneurial approaches to organizations working toward social and community development goals.

Social Work (Policy, Administration and Community Practice), MSW (PPCPDTMSW)

College/School: Watts College of Public Service & Community Solut

Campus: ASU Sync

Program description

ASU ranks No. 20 for best graduate social work program by U.S. News & World Report (2024).

In the policy, administration and community practice specialization of the Master of Social Work program, you learn

skills to intervene across the macro level of society: in systems, institutions, agencies, organizations, laws, policies, programs and communities. You complete a practicum in a government, nonprofit, social service, advocacy and policy, or research agency.

The advanced standing MSW is designed to be completed in an accelerated and intensive one-year format.

The MSW program is accredited by the Council on Social Work Education and certified by the Network for Social Work Management.

ASU Sync
Students on F-1 or J-1 immigration status aren't permitted to complete courses via ASU Sync.

If you seek to use GI Bill® benefits for ASU Sync programs, contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill).

STEM-OPT extension eligible: No

Degree requirements

39 credit hours and a portfolio, or
39 credit hours and a thesis

Required Core (3 credit hours)
SWG 514 Bridge Seminar I (3)

Other Requirements (6 credit hours)
SWG 515 Bridge Seminar II (3)
SWG 516 Social Work Skills Seminar (3)

Concentration (21 credit hours)
SWG 623 Program Evaluation (3)
SWG 632 Policy Practice (3)
SWG 643 Advanced Practicum: Planning, Social Work Administration and Community Practice I (3)
SWG 644 Advanced Practicum: Planning, Social Work Administration and Community Practice II (3)
SWG 681 Leadership and Administration (3)
SWG 682 Community Participation Strategies (3)
SWG 685 Program Planning in Social Services (3)

Electives (3 or 9 credit hours)

Culminating Experience (0 or 6 credit hours)
SWG 599 Thesis (6) or
portfolio (0)

Additional Curriculum Information
Students must start the program in summer for a total of nine credit hours. The remainder of the program is completed within two semesters (one academic year).

Students complete their practicum during the fall and spring semesters.

All credit hour path criteria must be approved by the academic unit before selection in the iPOS. The academic unit

advises and monitors students to ensure they choose the appropriate coursework. Core course selection depends on the student's background.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants must have a BSW from a Council on Social Work Education-accredited program with a minimum GPA of 3.20 (scale is 4.00 = "A") in the last two years of work leading to the BSW (junior and senior GPA). Applicants must have received their BSW no more than six years before the date of admission to the MSW program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts of all undergraduate and graduate work
• three letters of reference
• professional resume that includes volunteer and paid work experience
• statement of educational and career goals
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

A combination of academic and professional references is desirable. References from friends, family members or personal therapists are not accepted. At least one of the three required references must be from the applicant's BSW practicum instructor or, if the applicant has been employed in a social work-related job for two or more years, from their supervisor.

Guidelines for writing the statement can be found on the program website (https://socialwork.asu.edu/content/msw-application-proceduresmaterials). Applicants should also see the program website for application deadlines.

Students should contact the School of Social Work with any questions about the application process.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Advance human rights, and social, racial and economic justice.
Assess individuals, families, groups and communities.
Demonstrate ethical and professional behavior.

Career opportunities

The program prepares professional social workers for leadership in social change.

Graduates work for social justice and human rights through building sustainable systems that support people's social well-being, often by addressing the root causes of social problems and reforming unjust policies. Policy, administration and community practice roles include program planning and evaluation; policy development and analysis; political advocacy and lobbying; organizational leadership, management and supervision; grant writing; community development; and building and organizing social movements. Graduates are prepared to bring these skills to whatever environment they work in.

Career examples include:

- community advocate
- community organizer
- grant and fund developers
- nonprofit leadership and management
- policy analyst
- social services administration

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Social Work - Advanced Standing - Advanced Generalist, MSW (PPASWMSW)

College/School: Watts College of Public Service & Community Solut

Campus: West Valley, ASU at Yuma, Online

Program description

ASU ranks No. 20 for best graduate social work program by U.S. News & World Report, 2024.

The advanced standing advanced generalist specialization of the Master of Social Work program builds on mastery of the generalist foundation to increase the depth and breadth of practice. It's designed in an accelerated and intensive one-year format.

You learn both the micro skills of direct practice and macro skills of community development. Advanced generalist faculty emphasize the distinct characteristics of social work services helpful in both nonprofit settings and the small and rural community context.

The MSW program is consistent with the purpose of the social work profession to alleviate human suffering, enhance well-being and promote social justice with an emphasis on Southwest populations.

The program is accredited by the Council on Social Work Education.

STEM-OPT extension eligible: No

Degree requirements

39 credit hours including the required applied project course (SWG 693)

Required Core (3 credit hours)
SWG 514 Bridge Seminar I (3)

Advanced Generalist Coursework (24 credit hours)
SWG 606 Assessment of Mental Disorders (3)
SWG 610 Advanced Social Work Practice III (3)
SWG 614 Advanced Generalist Social Work Practice IV (3)
SWG 623 Program Evaluation (3)
SWG 632 Policy Practice (3)
SWG 640 Professional Seminar II: Applying Theory to Advanced Generalist Social Work Practice (3)
SWG 645 Advanced Generalist Practicum I (3)
SWG 646 Advanced Generalist Practicum II (3)

Other Requirements (6 credit hours)
SWG 515 Bridge Seminar II (3)
SWG 516 Social Work Skills Seminar (3)

Restricted Electives (3 credit hours)

Culminating Experience (3 credit hours)
SWG 693 Applied Project (3)

Additional Curriculum Information
Students in this program hold an undergraduate Council on Social Work Education-accredited Bachelor of Social Work or equivalent degree with a GPA of 3.20 in their junior and senior years within the last six years.
Students must start the program in the summer for a total of nine credit hours. The remainder of the program is completed within two semesters (one academic year).
Students complete a practicum and an applied project.
Students complete their practicum during the fall and spring semesters.
The academic unit advises and monitors students to ensure they choose the appropriate coursework.
Advanced generalist and other requirement coursework may be substituted with approval of the academic unit.
Students should see the academic unit for a complete list of approved restricted electives.

Admission requirements

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Apply professional social work theories to working with diverse, oppressed and marginalized populations in both micro and macro practice
Apply professional values and ethics during the advanced generalist practicum placement
Apply advocacy concepts and methods that support and advance social, economic, and environmental justice

Career opportunities

Graduates are prepared to be practitioners who deliver culturally competent, ethical interventions that range from complex case management and practice with individuals (micro); families and groups (mezzo); to affecting social change by developing skills in organization, administration, policy development and community practice (macro).

Career examples include:

community outreach coordinator
hospital or school social worker
mental health advocate
program specialist
social services manager or director

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Social Work (Advanced Direct Practice), MSW (PPAPDTMSW)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, ASU at Tucson

Program description

ASU ranks No. 20 for best graduate social work program by U.S. News & World Report, 2024.

The advanced direct practice specialization of the Master of Social Work program offers you four areas of practice, including children, youth and families; health; behavioral health; and child welfare. This program is designed to be completed in-person, in an accelerated and intensive, one-year format.

Across all areas, the curriculum is guided by social work values that emphasize evidence-based practice, client strengths, social justice and client empowerment. The primary curriculum goal of the MSW program is to educate you to be a advanced social work practitioner who demonstrates the knowledge, skills, values and ethics of the profession and is competent for specialized practice.

You learn how to diagnose and assess mental health conditions, create treatment plans and provide appropriate interventions in a variety of clinical and community settings.

This program is accredited by the Council on Social Work Education.

STEM-OPT extension eligible: No

Degree requirements

39 credit hours including the required capstone course (SWG 621)

Required Core (3 credit hours)
SWG 514 Bridge Seminar I (3)

Advanced Direct Practice Concentration (12 credit hours)
SWG 606 Assessment of Mental Disorders (3)
SWG 619 Practice-oriented Research (3)
SWG 641 Advanced Practicum: Direct Practice I (3)
SWG 642 Advanced Practicum: Direct Practice II (3)

Other Requirements (6 credit hours)
SWG 515 Bridge Seminar II (3)
SWG 516 Social Work Skills Seminar (3)

Restricted Electives (15 credit hours)

Culminating Experience (3 credit hours)
SWG 621 Integrative Seminar (3)

Additional Curriculum Information
Students must start the program in the summer and complete a total of nine credit hours. The remainder of the

program is completed within two semesters.

Students complete their practicum during the fall and spring semesters.

All credit hour path criteria must be approved by the academic unit prior to selection in the iPOS. The academic unit advises and monitors students to ensure they choose the appropriate coursework. Students should see the academic advisor when selecting courses and for a complete list of approved restricted elective coursework.

Students select electives in:

• children, youth and families
• health, behavioral health
• public child welfare

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants must have a BSW from a Council on Social Work Education-accredited program with a minimum GPA of 3.20 (scale is 4.00 = "A") in the last two years of work leading to the BSW (junior and senior GPA). Applicants must have received their BSW degree no more than six years prior to the date of admission to the MSW program.

All applicants must submit:

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Plan, implement and evaluate evidence-based interventions
- Apply knowledge of human behavior in the social environment when working with individuals, families and groups
- Apply professional values and ethics during the advanced direct practice practicum

Career opportunities

Graduates have the preparation they need to work with individuals, families and small groups. They work in areas such as adult and juvenile corrections, behavioral health, homeless services, mental health organizations, schools, nonprofits and government agencies, and gerontology services.

Career examples include:

- counselor
- group therapy clinician
- hospital or school social worker
- individual counselor
- mental health service professional
- outreach coordinator or shelter director
- wellness programmer

Social Work, MSW (PPSWDMSW)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, ASU Sync, ASU at Tucson, Online

Program description

ASU ranks No. 20 for best graduate social work program by U.S. News & World Report, 2024.

The first half of the standard program focuses on curriculum and gaining skills that build a foundational knowledge in social work. The second half of the program allows you to build specialized practice knowledge in advanced direct practice; policy, administration and community; and advanced generalist social work practice.

The standard Master of Social Work program can be completed over the course of two or three years.

The MSW program is accredited by the Council on Social Work Education.

ASU Sync
If you are on F-1 or J-1 immigration status, you should speak with an advisor about other options to complete this

program. Students on F-1 or J-1 immigration status are not permitted to complete courses via ASU Sync.

If you're seeking to use GI Bill® benefits for ASU Sync programs, you should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Concurrent program options

Students can choose to create their own concurrent degree combination to match their interests by working with their academic advisor during or after their first semester of study. Some concurrent combinations are not possible due to high levels of overlap in curriculum; students should speak with their academic advisor for more details.
This degree is also offered as a concurrent program with the following:

Public Administration, MPA

Juris Doctor, JD

Degree requirements

51 credit hours and a portfolio, or
51 credit hours and a thesis, or
51 credit hours including the required applied project course (SWG 593 or SWG 693), or
51 credit hours including the required capstone course (SWG 621) , or
54 credit hours and a portfolio, or
54 credit hours and a thesis, or
54 credit hours including the required applied project course (SWG 593 or SWG 693), or
54 credit hours including the required capstone course (SWG 621), or
57 credit hours and a portfolio, or
57 credit hours and a thesis, or
57 credit hours including the required applied project course (SWG 593 or SWG 693), or
57 credit hours including the required capstone course (SWG 621), or
60 credit hours and a portfolio (MSW/MPA concurrent degree), or
60 credit hours and a thesis (MSW/MPA concurrent degree), or
60 credit hours including the required applied project course (SWG 593 or SWG 693) - Advanced Generalist Track, or
60 credit hours including the required capstone course (SWG 621) (MSW/MPA concurrent degree)

STANDARD PROGRAM (campus immersion):

Required Core (3 credit hours)
SWG 510 Foundation Practice I (3)

Foundation Coursework (18 to 27 credit hours)
SWG 501 Human Behavior and the Social Environment I (3)
SWG 502 Human Behavior and the Social Environment II (3)
SWG 511 Foundation Practice II (3)
SWG 519 Research Methods in Social Work (3)
SWG 531 Social Policy and Services (3)
SWG 533 Diversity, Oppression and Social Justice in Social Work (3)
SWG 541 Generalist Practicum I (3)
SWG 542 Generalist Practicum II (3)
SWG 585 Macro Social Work Practice (3)

Restricted Electives (21 to 27 credit hours)

Other Requirements (3 credit hours)
SWG 610 Advanced Social Work Practice III (3) or
SWG 619 Practice-oriented Research (3) or
SWG 623 Program Evaluation (3)

Culminating Experience Options (0 to 6 credit hours)
portfolio (0) or
SWG 593 Applied Project (3) or
SWG 599 Thesis (6) or
SWG 621 Integrative Seminar (3) or
SWG 693 Applied Project (3)

ADVANCED GENERALIST TRACK (digital immersion):

Required Core (3 credit hours)
SWG 510 Foundation Practice I (3)

Advanced Generalist Track Coursework (54 credit hours)

Culminating Experience Options (3 credit hours)
SWG 593 Applied Project (3) or
SWG 693 Applied Project (3)

Additional Curriculum Information
Students on the 51, 54 and 57 credit hour paths have an undergraduate Council on Social Work Education-accredited Bachelor of Social Work in social work degree or Bachelor of Arts degree in community advocacy and social policy. Path selection depends on the student's educational background. Students are to consult an academic advisor in the unit.

The 60 credit hour advanced generalist track is the digital immersion option. These students have a bachelor's or master's degree from a regionally accredited institution. Students in the 60 hour path must take foundation year coursework in restricted electives per CSWE accreditation standards.

All credit hour path criteria must be approved by the academic unit prior to selection in the iPOS. A student interested in moving to a concentration should notify the academic advisor prior to submitting their iPOS. The academic unit advises and monitors students to ensure they choose the appropriate coursework.

The number of credit hours required for restricted electives depends on the credit hour path chosen and the culminating experience. Students should see the academic unit for a complete list of approved electives.

The foundation year includes basic courses in direct practice, organizational and community change, social policy, human behavior and research. Foundation coursework is selected in consultation with the academic advisor. Students are required to complete two practicums: a foundation practicum placement (480 hours) and a specialization practicum placement (480 hours) in a different setting.

Other requirement coursework may be substituted with approval of the academic unit.

The program may be completed within four semesters (two years) or six semesters (three years).

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a closely related field from a regionally accredited institution.

The School of Social Work requires one of the following:

• BSW from a Council on Social Work Education-accredited school of social work
• liberal arts undergraduate degree
• undergraduate degree with 30 credit hours in liberal arts courses at the undergraduate or graduate level

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts of all undergraduate and graduate work
• three professional or academic references
• professional resume that includes volunteer and paid work experience
• personal statement that includes educational and career goals
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

A combination of academic and professional references is desirable. References from friends, family members or personal therapists are not accepted. At least one of the three required references must be from the applicant's BSW field instructor or, if employed in a social work-related job for two or more years, from the applicant's supervisor.

The applicant's professional resume should include both work and volunteer experience in social service organizations. In order to be considered for possible admission, applicants who do not have work experience in social service organizations are required to have a minimum of 240 hours of volunteer experience in the social services over a six-month period in the five years immediately preceding application.

Guidelines for writing the statement of educational and career goals can be found at the program website (https://socialwork.asu.edu/content/msw-application-proceduresmaterials). If the applicant does not meet the minimum GPA requirements, the application may still be considered for admission to the program.

Test scores from either the GRE or the Miller Analogies Test are required only if the applicant's junior and senior GPA was below a 3.20 (scale is 4.00 = "A"). ASU does not accept the GRE® General Test at home edition.

Students should see the program website for application deadlines.

Three-year program
Students interested in this option must specifically apply to the part-time program and complete it in accordance with the plan developed to finish the degree in three years.

Transfer credit
Any transfer work is reviewed and approved in accordance with Graduate College policy. Transfer work must have been completed within three years of the semester and year of admission to the MSW degree program at ASU with a grade of "A" (scale is 4.00 = "A") or better.

Exemptions
Courses must have been completed within three years of the admit term of the MSW degree. Grades received must be an "A-" or better. A letter of good standing is required from the institution where students have taken the coursework. Course equivalencies from outside of ASU are reviewed by the MSW program coordinator. Courses identified as required core and culminating experiences in the breakdown of requirements cannot be substituted.

Concurrent degrees are currently unavailable for the online MSW degree program.

Students should contact the School of Social Work with any questions about the application process.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-social-work-social-work/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Identify and apply advocacy concepts and methods that support and advance social, economic and environmental justice.
Apply professional social work theories to working with diverse, oppressed and marginalized populations in both micro and macro practice.
Apply professional values and ethics during the advanced generalist internship.

Career opportunities

There are many paths within social work that graduates can pursue. Career examples include:

adult and juvenile correction social worker
behavioral health hospital social worker
community organizer
gerontology services patient coordinator
group and individual clinician
homeless services outreach coordinator or shelter director
policy analyst
program director and grant writer
school social worker
social services or nonprofit administrator

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Social Work, PHD (PPSW2PHD)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

ASU ranks No. 20 for best graduate social work programs by U.S. News & World Report, 2024.

The purpose of the Doctor of Philosophy program in social work is to train you to be a social work scholar --- social work professionals engaged in research, teaching and service.

Supplementary to the coursework, this doctoral program offers you opportunities to be actively involved in both research and teaching. You benefit from close mentorship of the committed faculty and regular partnerships with many internal research centers and offices. You also have valuable opportunities to develop a teaching portfolio, positioning you to succeed in academic careers.

STEM-OPT extension eligible: No

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Required Social Work Courses (12 credit hours)

Research Methods and Statistics (12 credit hours)

Directed Electives (33 credit hours)

Theory (3 credit hours)

Research (12 credit hours)
SWG 792 Research (12)

Culminating Experience (12 credit hours)
SWG 799 Dissertation (12)

Additional Curriculum Information
When approved by the student's supervisory committee and the Graduate College, this program allows 30 credit hours from a previously awarded master's degree to be used for this program. The number of credit hours required for directed electives depends on approval of the number of blanket hours from a previously awarded master's degree.

The doctoral program requires students to take a minimum of 36 course credit hours beyond the Master of Social Work, in addition to the required 24 credit hours of research and dissertation; 84 credit hours are required beyond the bachelor's degree. Students may need to take additional coursework to achieve the competency requirements set by the program or by their graduate supervisory committees.

Students develop their plan of study in consultation with the graduate supervisory committee. Required social work courses must be 700 level and approved by the doctoral program committee. Students should see the academic unit

for approved course lists and other requirements for research methods and statistics courses, electives and theory coursework.

Once the student has completed the 36 minimum course credit hours, they are required to register for 12 credit hours of SWG 792 Research before the defense of the prospectus, and 12 hours of SWG 799 Dissertation after the prospectus defense. The student must be registered for at least one credit hour during the semester, including summer, when they do their dissertation proposal defense. At least one of the dissertation hours must be taken in the semester during which the student expects to defend the dissertation.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in social work or a closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts of all undergraduate and graduate work
• curriculum vitae or resume
• personal statement
• three letters of reference
• required writing sample: social problem essay
• optional writing sample
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Admission to the doctoral program in the School of Social Work is based on the following criteria:

• an MSW degree from an accredited school of social work, preferably with two or more years of postdegree employment in human services
• experience in social work teaching or research and other scholarly activities
• experience with diverse populations
• goodness-of-fit with program goals
• good professional standing
• undergraduate and graduate GPA
• quality and extensiveness of social work experience
• research potential and creativity as demonstrated in requested essays and references

Though an MSW degree is preferred, exceptions may be made for students with a Bachelor of Social Work from an accredited school of social work and a master's degree in a related field, and for students from countries without accreditation.

Applicants have the option of submitting a sample of their written work. Examples include a refereed journal article, a class paper and a professional report (such as one might write in an agency setting). The writing sample should illustrate the applicant's ability to succeed in the doctoral program. Guidelines for writing the statement can be found at the program website (https://socialwork.asu.edu/content/application-and-admission).

All required admission materials are submitted directly to ASU Admission Services (https://admission.asu.edu/apply/graduate). Students should contact the School of Social Work at 602-496-0800 with any questions about the application process.

Students should see the program website for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Students will develop an individual teaching philosophy for social work education.
- Students will apply knowledge of research methods to an area of social work scholarship.
- Students will develop a research proposal in an original area of social work scholarship.

Career opportunities

Graduates are prepared to enter careers in applied research that enhance human well-being, particularly among= oppressed and vulnerable populations, and to educate the next generation of social workers.

Sustainable Tourism, Certificate (PPSTGRCT)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

If you are a professional who works in or aspires to work in the tourism industry, the graduate certificate in sustainable= tourism is designed for you. You explore strategies for developing and managing sustainable tourism destinations and= enterprises while balancing economic, environmental and cultural priorities.

Coursework introduces tools for designing and evaluating tourism products and experiences that minimize negative= impacts and enhance the long-term health of destinations. You gain skills in sustainability assessment, community= impact analysis, and destination and enterprise planning.

STEM-OPT extension eligible: No

Degree requirements

18 credit hours

Required Core (15 credit hours)
TDM 520 Sustainable Thinking in Tourism I (3)
TDM 521 Sustainable Thinking in Tourism II (3)
TDM 530 Sustainable Tourism Destination Planning and Management I (3)
TDM 531 Sustainable Tourism Destination Planning and Management II (3)
TDM 570 Sustainable Tourism (3)

Electives (3 credit hours)
TDM 540 Sustainable Food Management in Tourism (3) or
TDM 550 Managing the Sustainable Tourism Business (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International applicants are also required to submit TOEFL iBT® or IELTS scores and a financial guarantee statement.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-sustainable-tourism/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Demonstrate knowledge of the dominant concepts and practices in sustainable tourism.
Analyze existing examples of sustainable tourism by offering suggestions and solutions through research-backed support.

Career opportunities

Graduates are equipped to apply sustainable practices across the tourism and hospitality sectors. With their strengthened credentials, graduates are well positioned to apply sustainable tourism principles in roles focused on destination planning, operations management and responsible business practices across organizations, communities and global markets.

Sustainable Tourism, MST (PPSUSTMST)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Program description

In the Master of Sustainable Tourism program, you develop a comprehensive understanding of the environmental, economic and social dimensions of tourism. The curriculum integrates the three pillars of sustainability into established tourism concepts and practices to create a holistic, applied learning experience.

You explore innovative approaches to sustainable development within the tourism sector and analyze challenges facing destinations and communities worldwide. Coursework emphasizes how to design tourism products and experiences that minimize environmental impacts while enhancing cultural and economic vitality.

Through a community-centered framework, you learn to ensure that resources and opportunities remain viable for host communities, fostering long-term benefits and responsible global engagement.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Tourism Development and Management (Resort and Hotel Leadership), BS

Tourism Development and Management, BS

Sport and Recreation Management, BS

Tourism Development and Management (Sustainable Tourism), BS

Tourism Development and Management (Meetings and Events), BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

31 credit hours including the required applied project course (TDM 593)

Required Core (24 credit hours)
CRD 569 Advanced Tourism and Recreation Studies (3)
TDM 520 Sustainable Thinking in Tourism I (3)
TDM 521 Sustainable Thinking in Tourism II (3)
TDM 530 Sustainable Tourism Destination Planning and Management I (3)
TDM 531 Sustainable Tourism Destination Planning and Management II (3)
TDM 540 Sustainable Food Management in Tourism (3)
TDM 550 Managing the Sustainable Tourism Business (3)
TDM 570 Sustainable Tourism (3)

Electives or Research (3 credit hours)

Culminating Experience (4 credit hours)
TDM 593 Applied Project (4)

Additional Curriculum Information
One elective or research course is selected from an approved list for three credit hours. Students should contact the academic unit for a list of possible courses. Other courses may be used with approval from the academic unit.

Students complete an applied project that may consist of a sustainable tourism development plan for a community, a thorough sustainability audit of a tourism business, or another project approved by the faculty advisor.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in a related field such as tourism, recreation, hospitality, business, geography or planning from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• professional statement
• resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

In addition to submitting TOEFL iBT® or IELTS scores, international applicants are also required to provide a financial guarantee statement.

Letters of recommendation should be from current or former employers, current or former faculty members, or others who are familiar with the applicant's scholarly and professional abilities and characteristics. Applicants must provide recommenders' names, email addresses, titles and organizations.

A written professional statement describing the applicant's purpose in pursuing the master's degree is submitted online. In addition, a current resume that outlines the applicant's previous professional activities is required.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-advanced-study-sustainable-tourism/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Demonstrate strong critical thinking skills to be able to take into account the complexities of sustainable tourism issues.
- Analyze existing examples of sustainable tourism by offering suggestions and solutions through research-backed support.
- Develop the ability to engage with diverse stakeholders for positive impact in sustainable tourism.

Career opportunities

The program is designed for industry professionals who are seeking to advance their careers, as well as individuals interested in transitioning into tourism or sustainability-related fields. Graduates are prepared to meet the growing demand for professionals who can apply sustainability principles in tourism planning, management and operations.

Career examples include:

- destination planner and manager
- recreation manager
- sustainable food systems manager
- tourism planner

Trauma and Bereavement, Certificate (HSCTBGRCT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Program description

ASU ranks No. 20 for best graduate social work program by U.S. News & World Report (2024).

There is a growing need in society for health care workers and clinicians to be well prepared to help clients and patients experiencing trauma.

You gain enhanced knowledge about grief responses and the effects of trauma in the School of Social Work graduate certificate program in trauma and bereavement. In the program, you have opportunities to research these often underexplored topics while helping transform the sociopolitical management of grief, traumatic losses and end-of-life issues in contemporary society.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (6 credit hours)
SWG 576 War and Disaster (3)
SWG 577 Traumatic Death: Theory, Counseling and Practice (3)

Restricted Electives (3 credit hours)
SWG 575 Restorative Spaces and Therapeutic Communities: Ecological Care of Humans, Animals and the Earth (3)
SWG 655 Quality of Life, Mastering Mindfulness (3)
SWG 690 Reading and Conference (3)

Other Requirements (6 credit hours)
SWG 541 Generalist Practicum I (3) and SWG 542 Generalist Practicum II (3) or
SWG 584 Internship (6) or
SWG 641 Advanced Practicum: Direct Practice I (3) and SWG 642 Advanced Practicum: Direct Practice II (3)

Additional Curriculum Information
For restricted electives, students choose one of the three course options listed above for three credit hours.

Students must complete one of the practicums and internship options from the Other Requirements list. Courses are selected in consultation with an advisor. Practicums and internships must be preapproved with the academic unit. If selected, enrollment in SWG 584 Internship is for three credit hours and taken twice.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution in fields such as psychology, sociology and social work.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee

• official transcripts
• personal statement
• resume
• School of Social Work certificate application
• three references
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa first need to apply to and be accepted to a graduate degree program before being considered for the certificate program. International students residing in the U.S. on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

The personal statement, resume, School of Social Work certificate application (available on the department website), and three references (forms are available on the department webpage) should be submitted to the School of Social Work.

The personal statement must be two to four pages, double-spaced; additional guidelines are listed on the application.

No more than two certificate courses may be completed before applying for admission to the certificate program.

Students should see the program website for application deadlines.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Plan, implement and evaluate evidence-based interventions.
Apply professional values and ethics during the advanced direct practice internship.

Career opportunities

Graduates of this certificate program are prepared to work in the field of death and dying, as well as with patients experiencing trauma and bereavement, in clinical, organizational and administrative settings.

Career examples include:

crisis response team member or leader
hospice or chaplaincy worker
medical or premed professional
therapist or counselor

Curriculum and Instruction (Gifted Education), MEd (TEGEDMED)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The Master of Education program in curriculum and instruction with a concentration in gifted education prepares you to work effectively with gifted children, whether you are a teacher, school administrator, school psychologist, early interventionist or family member. You gain the theory and pedagogy needed to identify and serve this population of learners.

You learn how to identify learning potential and address specific needs of gifted and talented students. You gain an understanding of gifted students' affective and academic needs, and you learn how to design and provide appropriately challenging, differentiated curriculum and instruction.

You also learn how to develop a continuum of gifted programs and services; work with school administrators, teachers, school boards and parents; and advocate for gifted students at local and national levels.

The program is designed for public and private school teachers in regular classrooms, honors classrooms and gifted programs, and for school administrators, gifted program coordinators and school psychologists.

The program also provides the 12 credit hours of coursework in gifted education required for the Gifted Education (K-12) endorsement from the Arizona Department of Education. You should refer to the Arizona Department of Education website for additional requirements. The gifted courses can also meet criteria for gifted endorsements or gifted certification in other states.

This program doesn't lead to teacher certification. You should contact an advisor for information on other programs that lead to teacher certification in the state of Arizona.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required capstone course (SPE 597)

Required Core (3 credit hours)
TEL 504 Learning and Instruction (3)

Concentration (24 credit hours)
COE 501 Introduction to Research and Evaluation in Education (3)
SPE 572 Testing and Measurement in Gifted Education: Methods (3)
SPE 573 Differentiating Instruction for Gifted Learners: Teaching Methods (3)
SPE 585 Creativity: Foundations of Research and Development in Gifted Education (3)
SPE 586 Advising the Gifted Learner: Social and Emotional Needs (3)
SPE 587 Special Populations in Gifted Education (3)
SPE 588 The Gifted Learner: Foundations of Identification, Education and Development (3)
SPE 589 Gifted Education Programming: Models, Methods and Services (3)

Culminating Experience (3 credit hours)
SPE 597 Capstone (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• one letter of recommendation
• personal statement
• resume
• proof of English language proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letter of recommendation should be from an individual who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Design strategies and services tailored to the needs of gifted learners.
- Facilitate collaborative advocacy work in educational contexts to support outcomes for individuals with exceptionalities.
- Develop educational plans that address the social, emotional and academic needs of gifted students.

Career opportunities

Graduates have the skills to create and strengthen gifted programs, develop instructional methods, advocate for learners and work with school districts and families. They are prepared to expand or pursue education careers working with gifted learners.

Career examples include:

- educator in gifted or honors classroom
- gifted coordinator
- school administrator

Campus: Online

Program description

The Master of Education program in early childhood education prepares you to meet the developmental, educational and social-emotional needs of children from birth through age 8 or grade 3. You earn an institutional recommendation from ASU for Arizona teacher certification.

Through online coursework and applied activities, the program equips you with specialized skills and advanced knowledge in early childhood pedagogy, community collaboration, technology, policy and advocacy.

A series of professional experiences assists you in developing your understanding of teaching and learning as you apply knowledge from your coursework in varied early childhood settings. Individualized guidance through the clinical framework provides you with the support you need to become an effective educator.

You earn an institutional recommendation from ASU that's recognized by the Arizona Department of Education for teacher certification in Early Childhood, birth-age 8 or grade 3. To teach in an Arizona public school, you must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

STEM-OPT extension eligible: No

Degree requirements

36 credit hours including the required applied project course (ECD 593)

Required Core (6 credit hours)
ECS 549 Foundations of Typical and Atypical Child Growth and Development (3)
TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)

Other Requirements (18 credit hours)
ECD 505 Foundations of Early Childhood Education (3)
ECD 527 Mathematics in Early Childhood Education (3)
ECD 541 Assessment of Young Children (3)
ECD 565 Inclusive Instructional Methodologies for Young Children (3)
EED 532 Literacy Methods of Instruction and Assessment for Diverse Learners (3)

TEL 531 Foundations of Literacy: The Science of Reading (3)

Concentration (9 credit hours)
ECD 567 Clinical Experience: Early Childhood Internship (Ages Birth-5) (2)
ECD 576 Clinical Experience: Early Childhood Internship (Grades K-3) (2)
ECD 578 Student Teaching: Early Childhood (Grades K-3) (2)
ELL 515 Structured English Immersion Methods (3)

Culminating Experience (3 credit hours)
ECD 593 Applied Project (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should describe the personal and professional goals that motivated the applicant to apply to the program, and explain what led the applicant to this career path and how they will excel as an educator. The admission committee pays particular attention to the quality of writing and ideas expressed in the personal statement.

The professional resume should be one to two pages and include relevant personal, professional, educational and community activities.

The personal statement and professional resume should be prepared in one of the following file formats: MS Word (.doc), rich text (.rtf), Portable Document Format (.pdf), or text (.txt).

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/masters-early-childhood-education-certification/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Execute an instructional cycle using research-based pedagogical practices and theories appropriate for a range of learners
- Create learning experiences that address the content disciplines to engage learners in accessible, relevant, and meaningful content to ensure critical thinking and mastery of the content.
- Create and maintain inclusive, equitable learning environments that support individual and collaborative learning experiences, utilize high leverage practices, and foster critical thinking, active engagement, and well-being for all learners
- Use multiple methods of assessment and sources of data to evaluate various aspects of learners
- Apply strategies for teaming to meet students' needs
- Evaluate and recommend appropriate strategies to promote habits of mind
- Build and implement a professional growth plan using evidence and reflective practices
- Advocate for students, families, and communities with an understanding of the historical, social, local, or global context
- Self-reflect and assess personal contributions for shaping and supporting the mission of a school/organization's culture
- Apply expectations of the profession
- Analyze key ethical issues present in a prominent social or cultural problem in education, including the ways different ethical perspectives influence decision making related to the issue
- Examine previous understandings and assumptions and articulate the impact of the local/cultural context, personal histories, and relevant experiences on problem(s) of practice
- Engage in iterative cycles of inquiry in collaborative educational contexts and systems to imagine new concepts, catalyze ideas, and form new solutions, guided by principles and research that create positive change for learners.
- Analyze a relevant problem of practice in an educational context and system informed by major theories, theorists, and/or frameworks
- Implement an applied project, synthesize the findings and defend the significance and implications of the study as relevant to social and global context
- Utilize research findings to improve their own practice
- Apply relevant interdisciplinary perspectives and methods to current practices as an educator

Career opportunities

Graduates are highly sought-after teachers in public, charter and private education institutions. Graduates gain skills in teaching, conducting research, using technology and analyzing policy --- all of which prepare them to expand or pursue educational careers working with young children and their families. Career examples include:

- childcare worker
- early childhood educator (birth through grade 3)
- education administrator
- family social worker
- preschool teacher or director

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Early Childhood Special Education (Teacher Certification), MEd (TEECSTCMED)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

If you hold a bachelor's degree in a non-education field, the Master of Education program in early childhood special education with a concentration in teacher certification is designed for you. The program prepares you to work with young children with disabilities and those at risk for developmental or learning challenges. You earn an institutional recommendation from ASU for Arizona teacher certification.

You develop foundational knowledge of child development, including child development theories and best practices, including how to:

• assess, monitor and report the progress of young children
• build effective practices for engaging families
• create enriched, inclusive learning environments
• design coherent instruction
• plan and facilitate learning

As a graduate, you are eligible to earn an institutional recommendation from ASU for Arizona teacher certification in Early Childhood Special Education, birth through grade 3, from the Arizona Department of Education. To teach in an Arizona public school, you must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Educational Studies, BAE

Educational Studies (Early Childhood Studies), BAE

Applied Science (Early Childhood Studies), BAS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

38 credit hours including the required applied project course (ECS 593) - Alternative Certification Pathway, or
38 credit hours including the required applied project course (ECS 593) - Traditional Certification Pathway

Required Core (9 credit hours)
EED 532 Literacy Methods of Instruction and Assessment for Diverse Learners (3)
TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)
TEL 531 Foundations of Literacy: The Science of Reading (3)

Concentration (6 credit hours)
Alternative Certification Pathway
ECS 571 Birth to Preschool Apprentice Teaching (2)
ECS 574 Pre-Kindergarten to Grade Three Apprentice Teaching (2)
ECS 579 Early Childhood Special Education Apprentice Teaching Capstone (2)

Traditional Certification Pathway
ECS 556 Birth to Preschool Internship (2)
ECS 567 Pre-Kindergarten to Grade Three Internship (2)
ECS 596 Early Childhood Special Education Student Teaching (2)

Other Requirements (17 credit hours)
ECD 527 Mathematics in Early Childhood Education (3)
ECD 565 Inclusive Instructional Methodologies for Young Children (3)
ECS 520 Evaluation and Intervention Strategies for Infants, Toddlers and Preschoolers with Disabilities (3)
ECS 549 Foundations of Typical and Atypical Child Growth and Development (3)
SPE 502 Language and Communications Methods and Assessment (2)
SPE 558 Special Education Foundations: Law, IEPs, Assessment and Ethical Practice (3)

SEI Endorsement (3 credit hours)
ELL 515 Structured English Immersion (SEI) Methods (3)

Culminating Experience (3 credit hours)
ECS 593 Applied Project (3)

Additional Curriculum Information
All certification students must complete at least three professional experience courses and an experience in each special education setting (birth through preschool, and preschool through grade 3). Students can select the traditional or alternative pathway for certification. This determines what professional experience courses they take for the concentration.

Students on the traditional path must take at least one internship course (ECS 556 or ECS 567) before student teaching (ECS 596). For their third professional experience course, students must complete a professional experience in a new setting. For example, if they selected ECS 556 and then took ECS 596, they must take ECS 567 or ECS 574 for their third course. This way they have at least two experiences in different settings.

Students on the alternative path for certification must complete at least two apprentice teaching courses. Like the traditional path, students must have at least two experiences in different settings. For example, students can take ECS 574 and ECS 596 and then take ECS 556 or ECS 571 for their third experience because it is in a new professional experience setting.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

Educating Multilingual Learners, Certificate (TEESLGRCT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The graduate certificate in educating multilingual learners prepares you to educate multilingual learners in a variety of= settings, including pre-K-12 schools, colleges, universities and organizations that serve and advocate for linguistically= diverse populations.

Although the program is an excellent choice if you are seeking to improve your preparation for multilingual learners, it= doesn't lead to teacher certification. There's also no requirement for you to hold, seek or obtain a teaching certificate= when entering the program.

This program isn't designed to address specific requirements of any single state endorsement but may address many= components for state endorsements, depending on state requirements.

If you wish to build a career in the field of English language teaching, you should consider the Master of Teaching= English to Speakers of Other Languages (https://degrees.apps.asu.edu/masters-phd/major/ASU00/LAENGMTESL/teaching-english-to-speakers-of-other-languages-mtesol) offered through The College= of Liberal Arts and Sciences.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (9 credit hours)
BLE 534 Language, Policy and Power: Past and Present (3)
BLE 536 Education for Social Transformation (3)
BLE 537 Linguistics for Educators (3)

Electives (6 credit hours)

Additional Curriculum Information
Students should see the academic unit for the approved list of elective courses.

A culminating experience is not required for this program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree, preferably in education or related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement describing the applicant's interests and reason for seeking this certificate
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/graduate-certificate-english-second-language/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Evaluate education practices in the area of language using the theories of language, power and social transformation.
- Advocacy on behalf of multilingual learners.

Career opportunities

As populations continue to diversify, there is high demand for professionals with expertise in supporting multilingual learners. Program graduates are well suited for positions within education or organizations that serve international or immigrant populations.

Career examples include:

- educational consultant

- education manager
- instructor
- multilingual or bilingual education specialist
- professional development manager
- school administrator

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe

ASU is not currently accepting applications for this program. Prospective students interested in master's degree programs that do not lead to teacher certification might consider the MA in Education, MEd in Global Education MEd, and the MEd in Learning Design and Technologies.

Program description

The Master of Arts program in education with a concentration in accomplished teaching prepares you, as a practicing educator, to advance your expertise, innovate in the classroom, and help your schools or other work settings redesign education from a deep understanding of educational theory and practice. You improve your understanding of student learning and assessment, and you develop skills in conducting action research.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (DCI 593)

Required Core (15 credit hours)

Electives (12 credit hours)

Culminating Experience (3 credit hours)
DCI 593 Applied Project (3)

Additional Curriculum Information
Students should see the academic unit for an approved course list.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letters of recommendation should be from individuals who can comment on the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Education (Educating Multilingual Learners), MA (EDESLMA)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The Master of Arts in education with a concentration in educating multilingual learners prepares you to educate multilingual learners in a variety of settings, including pre-K-12 schools, colleges, universities and organizations that serve and advocate for linguistically diverse populations.

The program advances a contextualized view of multilingualism, highlights language learning processes and related pedagogies, and promotes your self-reflection about your potential as an advocate for your students.

You take both a practicum and a capstone course. The practicum provides you with an opportunity to apply theoretical and practical information presented through coursework in schools and other learning environments that serve multilingual learners. This is a structured practical experience supervised by a faculty member with whom you work closely. For the capstone, you identify a specific topic or problem of practice and lead a research-driven project or in-

depth review of the literature.

Although the program is an excellent choice if you are a teacher seeking to improve your preparation for multilingual learners, it does not lead to teacher certification. There's also no requirement that you hold a teaching certificate or seek to obtain one when entering the program.

This program isn't designed to address specific requirements of any single state endorsement but may address many components for state endorsements, depending on the state's requirements.

Note: If you wish to build a career in the field of English language teaching, you should consider the Master of Teaching English to Speakers of Other Languages (https://degrees.apps.asu.edu/masters-phd/major/ASU00/LAENGMTESL/teaching-english-to-speakers-of-other-languages-mtesol) program offered through The College of Liberal Arts and Sciences.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required capstone course (BLE 597)

Required Core (3 credit hours)
COE 501 Introduction to Research and Evaluation in Education (3)

Concentration (21 credit hours)
BLE 522 Bi/Multilingual Acquisition and Development (3)
BLE 531 Linguistically and Culturally Sustaining Pedagogy (3)
BLE 534 Language, Policy and Power: Past and Present (3)
BLE 535 Sociolinguistic Issues in Bilingual Education (3)
BLE 536 Education for Social Transformation (3)
BLE 537 Linguistics for Educators (3)
BLE 538 Methods for Educating Multilingual Learners (3)

Other Requirements (3 credit hours)
BLE 580 Practicum (3)

Culminating Experience (3 credit hours)
BLE 597 Capstone (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-multilingual-education/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Evaluate meaningful instructional methods, strategies, and resources grounded in linguistic processes and frameworks to support multilingual learners' academic and linguistic development and well-being.
- Advocate for instructional programs and practices that support the maintenance of multilingual learners' cultural and linguistic practices.
- Examine connections between context, local conceptions of linguistic diversity, and the powerful role of educational institutions in shaping educational experiences and outcomes for all learners.

Career opportunities

As populations continue to diversify, there is high demand for professionals with expertise in supporting multilingual learners. Graduates are well suited for positions within education or organizations serving international or immigrant populations.

Career examples include:

- education manager
- educational consultant
- instructor
- multilingual or bilingual education specialist
- professional development manager
- school administrator

Education (Literacy Education), MA (EDLANGMA)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

In the Master of Arts program in education with a concentration in literacy education, you gain an understanding of the sociocultural, historical and political settings in which reading, writing, oral language and the visual arts are created and used.

Fully online courses include digital technologies, multimodal literature, and language and literacy for diverse learners, as well as literacy assessment and instruction for children and adolescents. You learn how to evaluate literacy theories and pedagogies through both a solid theoretical foundation of literacy and a knowledge base of pedagogy. You also learn how to use technology to encourage critical thinking for learners, as well as how to use it as a resource for teaching, assessment and inquiry.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required capstone course (RDG 597)

Required Core (3 credit hours)
COE 501 Introduction to Research and Evaluation in Education (3)

Concentration (18 credit hours)
RDG 505 Language and Literacy Across the Lifespan (3)
RDG 510 Literacies, Digital Technologies and Learning (3)
RDG 512 Theoretical Foundations in Language and Literacy (3)
RDG 515 Multimodal Literature for Children and Adolescents (3)
RDG 518 Supporting Language and Literacy for Diverse Learners (3)
RDG 519 Writing Throughout the Lifespan (3)

Other Requirements (6 credit hours)
RDG 530 Literacy Methods, Assessment and Reflection for Children (K to Grade 5) (6) or
RDG 540 Literacy Methods, Assessment and Reflection for Adolescents and Adults (Grade 6-Adult) (6)

Culminating Experience (3 credit hours)
RDG 597 Capstone (3)

Additional Curriculum Information
Students put their coursework into action through an interactive capstone project in which they design, implement, analyze and reflect on a professional development project for literacy educators.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• one letter of recommendation
• personal statement
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letter of recommendation should be from an individual who can speak to the applicant's potential for success in a graduate program. The personal statement should describe the applicant's interests and reason for seeking this degree.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/literacy-education/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Design individualized assessments and instruction based on foundational literacy pedagogy.
- Critically evaluate a range of relevant cognitive, sociocultural, and critical theories of literacy education.
- Conduct a practitioner inquiry research project that centers on leadership in literacy practices.

Career opportunities

Graduates are literacy leaders who inquire into their own instructional approaches, analyze resources available for literacy instruction, and critically examine the environments and learning experiences constructed in their context.

They have skills in leadership, literacy assessment and instruction; conduct research and use technology; and are prepared to pursue or expand an educational career working with learners of all ages.

Career examples include:

- curriculum writer

- instructional coach
- instructor
- literacy coordinator
- literacy media specialist
- reading specialist

Education for Planetary Futures, MA (TEEPFMA)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

ASU is not currently accepting applications for this program. Students interested in the intersection of education and sustainability should consider the Global Education, MEd or Education, MA.

Program description

The Master of Arts program in education for planetary futures develops your passion for ecological and social justice into impactful education careers that promote sustainable futures where people and the planet can thrive. It fuses disciplines and creative practices to radically reimagine education, drawing on diverse knowledge traditions to transform how you as an educator prepare future generations. Through transdisciplinary coursework, inquiry and community-based work, you build skills to lead change through innovative pedagogies and policies prioritizing intergenerational justice, enact meaningful environmental action, and leverage diverse media for shifting narratives about ecological futures.

The program welcomes educators and education leaders from all settings seeking to harness education's transformative power for social and ecological change.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required capstone course (EPF 681)

Required Core (18 credit hours)
EPF 508 Education for Ecological and Social Justice (3)
EPF 512 Education, Imagination and Futures Thinking (3)
EPF 517 Inquiry for Transformation (3)
EPF 529 Systems Change for Planetary Futures: Pathways for Collective Action (3)
EPF 614 Capstone Proposal Development (3)
EPF 675 Inquiry and Action (3)

Electives (9 credit hours)

Culminating Experience (3 credit hours)
EPF 681 Capstone: Knowledge Mobilization (3)

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• professional resume
• three letters of recommendation
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should be no longer than three double-spaced pages in length. Applicants submit a "Personal Vision for Planetary Futures through Education" in which they are asked to respond to the following prompts:

• Reflect on your personal and professional experiences and how they have shaped your views on education's role in creating a better future for our planet. How do you see yourself contributing to a new way of thinking about education that supports a healthy planet and society? Consider the following in your response: How have your life experiences led you to recognize the importance of changing how we think about education in relation to environmental sustainability and social justice?
• Which parts of the MA in education for planetary futures program excite you the most, and how do you plan to apply what you learn to make a positive impact in the field of education and beyond?

Letters of recommendation can come from academic or professional sources who can speak to the applicant's academic abilities and potential for graduate-level study, or who can attest to the applicant's practical skills, work ethic and potential impact in the field of education for planetary futures.

For the professional resume, a traditional resume format is not required. However, it is important the resume includes information that illustrates the experiences, interests and the distinct qualities the applicant brings to the program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/education-planetary-futures/) for program descriptions and to request more information.

Global opportunities

Global experience: Global perspectives are integrated in all coursework, while global experiences are available in the form of electives to all interested students. Students in the program are encouraged to explore study abroad opportunities (https://goglobal.asu.edu/) offered by other programs at ASU, including study abroad opportunities offered by the school. Elective credit is also offered for internships in nonprofits, nongovernmental organizations, community organizations and international agencies working on sustainability-related programs (e.g., UNESCO, UNICEF, Save the Children, Regional Centers of Expertise on Education for Sustainable Development).

Career opportunities

Graduates of this program can pursue careers as:

- community education directors
- curriculum developers
- directors of nonprofit organizations
- directors of environmental conservation local and national governments
- education policymakers
- environmental consultants and advisors
- informal educators (e.g., museum curator) for K-12 education
- media and communications experts
- sustainability coordinators in K-12, informal or higher education institutions
- sustainability directors in K-12, informal or higher education institutions
- think tank or education startup advisors

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Education, MA (TEEDUMA)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

This program is not accepting applications for the Mandarin pathway.

Program description

The Master of Arts program in education is designed to help you advance your career in the field of education. When you graduate with this degree, you'll be able to further your educational endeavors which, in turn, allow you to shape society through your students.

In this program, you can customize your coursework in the following ways. You can choose two of the following Mary Lou Fulton College for Teaching and Learning Innovation focal areas:

• applied behavior analysis
• autism spectrum disorders
• early childhood education
• educating multilingual learners

• education for planetary futures
• educational leadership
• environmental education
• gifted education
• global education
• learning design and technologies
• literacy education
• physical activity and physical education
• special education endorsement*
• teaching pedagogy

Alternatively, you can choose one of the focal areas shown above and one of the focal areas from a partner college at ASU, shown below:

• data and society (New College of Interdisciplinary Arts and Sciences)
• digital audience strategies (Walter Cronkite School of Journalism and Mass Communication)
• financial education (W. P. Carey School of Business)**
• social justice and human rights (New College of Interdisciplinary Arts and Sciences)
• technical writing and communication (College of Integrative Sciences and Arts)

*If you are interested in the special education endorsement, you should speak to an advisor before selecting this focal area. It includes additional requirements.

**This option is currently only available if you are transferring from W. P. Carey into the MA in education program. You should speak with an advisor.

The program culminates with an applied project in which you design and develop an inquiry study that addresses at least one problem related to your areas of focus.

Note: If you are part of specialized cohorts or initiatives that include a focal area in MA in education, you should consult with an advisor.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Educational Studies, BAE

Secondary Education (Biological Sciences), BAE

Physical Education, BAE

Secondary Education (Mathematics), BAE

Secondary Education (English), BAE

Special Education, BAE

Middle Grades Education, BAE

Elementary Education, BAE

Secondary Education (History), BAE

Secondary Education, BAE

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (EDU 593), or
30 credit hours including the required applied project course (EDU 593) - Mandarin Pathway

Required Core (3 credit hours)
COE 501 Introduction to Research and Evaluation in Education (3)

Electives (24 credit hours)

Culminating Experience (3 credit hours)
EDU 593 Applied Project (3)

Additional Curriculum Information
The program is designed to be flexible and personalized in order to meet the interests of the learner. Students should see the academic unit for a list of electives to choose from as they explore focal areas of greatest interest.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• one letter of recommendation
• written statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letter of recommendation should be from an individual who can speak to the applicant's potential for success in a graduate program.

GRE scores are not required for admission.

Applicants must provide a written statement of approximately 500 words that describes their personal interest in the field of education, the goals they wish to achieve while in the program, and their short- and long-term career

aspirations. The admission committee pays particular attention to the quality of writing, the ideas expressed, and the relative match between the applicant and program goals.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/masters-in-education/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Synthesize relevant literature related to an educational problem.
- Employ an interdisciplinary framework to define an educational issue.
- Design an action research study related to an educational issue.

Career opportunities

Graduates have skills in effective communication, collaboration, leadership, advocacy and innovation, all of which are essential for education professionals in a variety of careers.

Career examples include:

- behavior specialist
- curriculum designer
- education program manager
- education subject matter expert
- instructional designer
- team lead (K-12 schools)

Educational Leadership (Principalship), MEd (TEPRINMED)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: West Valley, ASU Sync, Online

Program description

If you are an educator committed to systemic action and inclusive excellence, the Master of Education program in educational leadership with a concentration in principalship is designed for you. The program develops you into a leader who can build and sustain learning environments that empower educators to deliver excellent learning experiences and outcomes to all learners.

Offered entirely remotely, you can choose between two flexible modalities:

• ASU Sync --- This accelerated, four-semester program provides synchronous evening classes via Zoom, featuring live, interactive learning with peers and faculty. As a ASU Sync student, you need to reside in Arizona throughout the duration of the program. If you are on F-1 or J-1 immigration status, you should consult an advisor for alternative program options. Students on F-1 or J-1 immigration status are not permitted to complete courses via Sync.
• ASU Online --- ASU offers this program in a flexibly paced, online format with several enrollment sessions throughout the year. You may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-education-educational-leadership-principalship/) for program descriptions. Because it's flexibly paced, the program can typically take four to eight semesters to complete.

Both modalities are designed to meet Arizona's principal certification requirements and align with national educational leadership standards. If you are seeking certification in a state other than Arizona, you should consult your respective state department of education before applying.

This program prepares you to:

• align staffing and resources strategically to maximize learning conditions, strengthen educator effectiveness, and meet the needs of the school community
• apply systems thinking to school leadership, using data-informed strategies and research-based frameworks to strengthen instructional practices and improve outcomes for educators and students
• build authentic partnerships with families, educators and community members to create environments where all voices are valued and decisions reflect the strengths and aspirations of the community
• foster belonging and opportunity by implementing policies and practices that ensure every student is supported in developing their academic skills, social confidence and long-term success

A cornerstone of the program is the two-semester, school-based internship in which you work with a certified mentor principal to apply your learning in dynamic learning environments. This laboratory of practice enables you to design and implement an action research project that addresses a problem of practice within your school, preparing you to lead with confidence and competence.

ASU Sync
Students on F-1 or J-1 immigration status are not permitted to complete courses via ASU Sync.

If you are seeking to use GI Bill® benefits for ASU Sync programs, you should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Degree requirements

36 credit hours including the required applied project course (EDA 593)

Required Core (9 credit hours)
EDA 501 Foundations of Educational Leadership (3)
EDA 502 Transformative Leadership (3)
EDA 503 Leadership for Evidence-informed Decisions (3)

Concentration (15 credit hours)
EDA 511 School Law and Ethics (3)
EDA 548 Engaging Students, Families and Community (3)

Culminating Experience (3 credit hours)
EDA 593 Applied Project (3)

Additional Curriculum Information
Students may choose from the electives list offered. Selecting an elective outside the provided list requires department approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution and have at least two years of pre-K-12 teaching experience as a teacher of record.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• one letter of recommendation
• personal statement
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letter of recommendation should be from an individual who can speak to the applicant's potential for success in a graduate program, and one of the letters must be from a current immediate supervisor who is a principal, assistant principal or the equivalent.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-education-educational-leadership-principalship/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Develop practices that center community to foster agency and advocacy.
Model strategies for collaborative leadership.
Integrate inclusive practices when building school culture.

Career opportunities

Graduates of this robust, standards-based leadership preparation program have the expertise to become transformative school leaders. They have decision-making skills rooted in professional self-awareness, effective collaboration and critical reasoning.

Career examples include:

assistant principal
educational consultant
instructional coordinator
K-12 team lead
principal
school leader

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Leadership and Innovation (Policy and Administration), EdD (TEINNPAEDD)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: West Valley

ASU is not currently accepting applications for this program. Interested students should consider the Leadership and Innovation, EdD or the Educational Policy and Evaluation, PhD.

Program description

If you are a practicing educator-leader who wants to participate in creating better learning opportunities for students of all ages in a range of settings with the ultimate goal of transforming the practice of education, the Doctor of Education program in leadership and innovation is designed you.

The focus of the program is research in action. You conduct multiple studies throughout the program to learn by doing and to influence change based on scholarship applied in your workplace.

You begin the program already accomplished as a teacher, teacher leader, principal and superintendent, or edupreneur or higher education professional. Through your learning, you deepen your abilities to lead and innovate in educational organizations.

The program is not designed to prepare you for academic tenure-track positions.

The cohort-based program begins in summer with an introduction to doctoral studies and the formation of a professional learning community that draws on the strengths of all group members.

Required courses are team-taught by faculty and require you to conduct research in your workplace, laying the foundation for the culminating project: the action research study documented in the dissertation.

Leader-scholar communities, formed at the end of the first year and consisting of five to seven students and two faculty members, meet regularly for the second and third years of the program. You register for required research and dissertation hours as part of the LSC requirement.

Through these LSCs, you and your fellow studets support each other, under faculty guidance, in the conceptualization, implementation and study of change initiatives. You share your research at the end of each semester through roundtables, posters and symposia in a public research day.

The program enables you to be a thoughtful, intentional and informed leader who is willing and able to implement and study change. The program can make a difference in the way you think and work as a leader in education for the immediate and local benefit of school children, adult learners, your school or organization, the community and the world.

Successful graduates have made a commitment to continuing systematic study of their professional practice and making a positive difference in their local workplaces by putting their research in action.

STEM-OPT extension eligible: No

Degree requirements

90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation (including a Master's degree and 60 credit hours post-Masters)

Required Core (15 credit hours)
Research Core (9 credit hours)
Advanced Professional Studies (15 credit hours)
Directed Field-Based Study (3 credit hours)
Participation in Leader-Scholar Communities (6 credit hours)
Dissertation (12 credit hours)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

The concentration in policy and administration under the doctoral program in leadership and innovation is no longer accepting applications. Applicants should apply to the EdD in leadership and innovation rather than a specific concentration.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Educational Leadership, MEd (EDSUPVMED)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: West Valley, Online

Program description

The Master of Education program in educational leadership creates edupreneurs and community leaders, bold thinkers who are passionate about creating new possibilities in education, including founding alternative learning spaces and leading nonprofit initiatives, community coalitions or social impact organizations. Whether already rooted in a school or working in an education-adjacent space, students gain the vision, tools and support to lead transformative work with clarity and purpose.

This program prepares leaders to work at the intersection of education, innovation and community impact. It's not about following a prescribed path --- it's about designing one's own.

Students are prepared to:

• apply systems thinking to design and lead meaningful change
• champion inclusive leadership practices that foster deep community engagement
• launch and scale innovative educational initiatives through social entrepreneurship
• leverage technology and intellectual property to develop and expand transformative ideas
• navigate and influence education policy and lead effectively within nonprofit organizations
• secure and manage resources through strategic grant writing, fundraising and development efforts

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required applied project course (EDA 593)

Required Core (9 credit hours)
EDA 501 Educational Leadership Foundations (3)
EDA 502 Transformative Leadership (3)
EDA 503 Leadership for Evidence-informed Decisions (3)

Edupreneur and Community Requirements (15 credit hours)
EDA 548 Engaging Students, Family and Community (3)
EDA 560 Ideation, Technology and Intellectual Property (3)
EDA 562 Grants, Policies and Administration (3)
EDA 564 Publication Engagement and Community Externship (3)
EDA 566 Education and Social Entrepreneurship (3)

Leadership Electives (3 credit hours)
EDA 598 Coaching and Consultation (2)
EDA 598 Happiness in Leadership (1)
EDA 598 Leadership by Design (3)
EDA 598 Leadership Think Tank (2)
EDA 598 Leadership via Self-awareness and Self-care (2)
EDA 598 Leading and Facilitating Teams (1)
EDA 598 Qualified Evaluator (1)

Culminating Experience (3 credit hours)
EDA 593 Applied Project (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution and have at least two years of relevant professional experience.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• one letter of recommendation
• personal statement
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants must have at least two years of relevant professional experience, either as serving as a teacher of record in a pre-K-12 program or working in education, nonprofit and other education-adjacent roles.

The letter of recommendation should be from an individual who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/educational-leadership/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Integrate inclusive practices when building school cultures.
Develop practices that center community to foster agency and advocacy.
Model strategies for collaborative leadership.

Career opportunities

Graduates are bold thinkers who are passionate about creating new possibilities in education. They have the skills to engage in community-based, entrepreneurial and systems-oriented leadership.

Career examples include:

director or program manager in a community-based organization or nonprofit
education consultant or strategist for civic or philanthropic organizations
education policy or advocacy specialist
education program designer or innovation lead
family and community engagement coordinator
founder of a mission-driven education venture or initiative
grant writer or development officer in education-focused organizations
leader in youth services, afterschool or mentoring programs
manager of partnerships for schools, districts or educational nonprofits

Educational Policy and Evaluation, PHD (EDLDRSHPHD)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe

Program description

In the Doctor of Philosophy program in educational policy and evaluation, you prepare to conduct rigorous, high-impact and transdisciplinary research on education policies that affect conditions in pre-K-20 and other educational environments.

You engage in systematic analyses of education policies and practices in a variety of settings, including schools, universities, research centers, government agencies and nongovernmental organizations.

The program emphasizes intensive training in the theory, methods and implementation of education policy, with a focus on research and evaluation. You pursue an area of specialization supported by faculty expertise.

As an educational policy and evaluation student, you work closely with nationally and internationally recognized faculty members on collaborative and independent research projects that advance education, including scholarly articles, policy briefs, reports and engagement in education policy. The program also provides opportunities to influence the field through internships in applied settings and experiences in scholarly publishing.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Required Core (21 credit hours)
COE 502 Introduction to Data Analysis (3)
COE 503 Introduction to Qualitative Research (3)
EPA 701 Proseminar in Education Policy I (3)
EPA 702 Proseminar in Education Policy II (3)
EPA 704 Proseminar in Evaluation and Evaluation Research (6)
EPA 752 Research Design (3)

Electives (45 credit hours)

Research (6 credit hours)
Advanced research methods (6)

Culminating Experience (12 credit hours)
EPA 799 Dissertation (12) or
DCI 799 Dissertation (12) or
SPE 799 Dissertation (12)

Additional Curriculum Information
Of the 84 credit hours required for the degree, 54 must be earned at ASU, and 24 of the ASU credit hours must be earned in research and dissertation courses. The coursework includes classes in evaluation, policy analysis, research methods and an area of specialization.

Students who enter the doctoral program with a master's degree in a related discipline may count up to 30 credit hours from the master's degree toward the 84 credit hours. In addition, with program and Graduate College approval, a student may use up to 12 additional credit hours toward the doctorate if documentation is provided showing that those credit hours were not part of the master's degree.

Of the 45 credit hours for electives, 15 should be earned in the areas of specialization.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a master's degree from a regionally accredited institution or an international equivalent as determined by Graduate Admission Services.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement
• academic writing sample
• curriculum vitae
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

The academic writing sample should be a substantive piece created for an academic or professional audience.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Synthesize theoretical perspectives and literature related to their focus of educational research (learning, literacies, and/or technologies)
Design an educational research study.
Implement an educational research study

Career opportunities

Graduates gain the knowledge and skills to pursue careers as education researchers who advance the collective understanding of education policy for pre-K-20 and other education environments.

Career examples include:

policy analyst
professor
program evaluator
researcher

Educational Policy, MA (EDSPFMA)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe

ASU is not currently accepting applications for this program. Students interested in attaining a degree or certificate within education are encouraged to explore the wide range of degree options offered by MLFC.

Program description

The Master of Arts program in educational policy is well suited for you if you want to deepen their understanding of how to translate research to policy and practice, communicate and engage with stakeholders, and propose effective research-based policies. You also develop fundamental skills in analyzing and interpreting educational data.

This program is designed as a cohort model. It provides a supportive environment for you to take a sequence of core courses with your peers and to learn from professors who are experts in their fields. The program also provides you with the flexibility to select elective courses and individualize your experience to suit your specific interests and aspirations.

In the culminating experience in the final semester, you use your new knowledge and applied research skills to design and execute an individual or group project.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Educational Studies, BAE

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (EPA 593)

Required Core (15 credit hours)
EPA 532 Becoming an Informed Consumer of Education Research (3)
EPA 555 Translating Research for Educational Change (3)
EPA 556 Data Analysis for Education Decision Makers (3)
EPA 559 Systematic Inquiry for Problem Solving (3)

EPA 565 Critical Topics in Education Policy (3)

Restricted Electives or Research (12 credit hours)

Culminating Experience (3 credit hours)
EPA 593 Applied Project (3)

Additional Curriculum Information
For electives or research, students should see the academic unit for the approved course list.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program. The personal statement should describe the applicant's interests and reason for seeking this degree.

GRE scores are not required for admission.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate different types of education research.
Evaluate key issues in educational policy.

Design applied research to investigate educational policy issues.

Career opportunities

Graduates are prepared to expand or pursue careers that involve the use and interpretation of data. This program is also suited for those who want to pursue doctoral degrees in education after graduation.

Examples of possible positions include:

grants administrator
policy analyst
program and project manager
research and data analyst

Educational Technology, PHD (EDTECHPHD)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe

ASU is not currently accepting applications for this program. Prospective students might consider the Learning Design and Technologies, MEd.

Program description

In the Doctor of Philosophy program in educational technology, you focus on the design, development and evaluation of instructional systems and on educational technology applications that support learning. The doctoral program emphasizes research using educational technology in applied settings.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

84 credit hours, a written comprehensive exam, a prospectus and a dissertation

Required Courses (24 credit hours)
EDP 540 Learning Theories and Instructional Strategies (3)
EDP 552 Multiple Regression and Correlation Methods (3)
EDP 554 Analysis-of-Variance Methods (3)
LDT 501 Foundations of Learning Design and Technologies (3)
LDT 502 Design and Development of Instruction (3)
LDT 503 Design of Effective Communications (3)
LDT 504 eLearning Design and Development (3)
LDT 506 Evaluation of Learning Systems (3)

EDT 701 Research in Educational Technology (3)

Elective Courses (30 credit hours)
Students select a minimum of 30 credit hours of elective coursework in consultation with a faculty advisor or doctoral committee chair.

Practicum Hours (6 credit hours and research)
Students must earn at least 18 credit hours for practicum courses. Students complete three different practica while in the program: instructional design (typically EDT 780 Practicum for three credit hours), teaching (typically EDT 680 Practicum for three credit hours), and a research practicum.

Research (12 credit hours)

Culminating Experience (12 credit hours)
EDT 799 Dissertation (12)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.20 (scale is 4.00 = "A") in their first bachelor's degree program, or a minimum cumulative GPA of 3.20 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three email addresses for professional recommendations
• personal statement
• resume
• GRE scores
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. The Mary Lou Fulton College for Teaching and Learning Innovation requires a minimum TOEFL iBT® score of 5, or a score of 100 (taken at a testing center) if taken before January 21, 2026.

Scores of 500 or above on the verbal reasoning and quantitative reasoning sections of the GRE are required, as well as a score of four or greater on the analytical writing section of the GRE. ASU does not accept the GRE® General Test at home edition.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

The program prepares students for a variety of professional positions. Graduates are employed as faculty, educational technologists or instructional designers in universities, community colleges and schools, or as training managers in corporate settings.

Elementary Education (Teacher Certification), MEd (TEEEACLMED)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

If you already hold a bachelor's degree in any field and want to become licensed to teach kindergarten through grade 8 students, the Master of Education program in elementary education with a concentration in teacher certification is for you.

If you are seeking certification in art, music or physical education at the elementary level, then you are not be served by this program. Additionally, this program is not intended for you if you are pursuing certification while serving in a single-subject teaching role in these disciplines.

The program builds on connections between educational design and decision-making and is designed to foster strong professional growth and leadership development. The program of study is flexible, and you can complete it within five semesters with the appropriate professional experience placements. You can also enroll part-time over additional semesters.

Faculty actively engage in the educational research community, bringing new and relevant knowledge into the program. You engage in your own research through an applied project capstone experience, deepening your knowledge and improving your practice through research, critical evaluation and application of education concepts.

A series of professional experiences assist you in developing a thorough understanding of teaching and learning as you apply knowledge from your coursework in varied school settings. Individualized guidance through the clinical framework provides you with the support you need to become an effective educator.

This program offers two routes leading to Arizona teacher certification:

• In the traditional certification route, you complete three professional experiences: two internships and one student teaching.
• The alternative certification route provides an alternative pathway to teacher certification for individuals who are currently employed full-time by a school as a teacher of record. To qualify, you must secure a full-time teaching position in an approved K-8 placement. You complete three professional experiences in the alternative pathway.

The coursework is the same in both certification routes and culminates in a research project in which you apply what you've learned to address a problem of practice or a topic related to education.

As a graduate of this program, you earn an institutional recommendation from ASU that's recognized by the Arizona Department of Education for teacher certification in Elementary Education, K-8. To teach in an Arizona public school,

you must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Educational Studies, BAE

Educational Studies (Early Childhood Studies), BAE

Applied Science (Early Childhood Studies), BAS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

33 credit hours including the required applied project course (EED 593) - Alternative Certification, or
33 credit hours including the required applied project course (EED 593) - Traditional Certification

Required Core (5 credit hours)
TEL 510 Instructional Design, Planning and Assessment (2)
TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)

Concentration (16 credit hours)
EED 529 Science Teaching Methods for Elementary School (2)
EED 532 Literacy Methods of Instruction and Assessment for Diverse Learners (3)
EED 534 Social Studies Methods and the Arts (2)
EED 537 K-8 Mathematics Methods and Assessment (3)
TEL 502 Exploration of Education: Child/Adolescent Development and Foundations of Special Education (3)
TEL 531 Foundations of Literacy: The Science of Reading (3)

SEI Endorsement (3 credit hours)
ELL 515 Structured English Immersion (SEI) Methods (3)

Other Requirements (6 credit hours)
6 credit hours of Alternative Certification Pathway courses, or
6 credit hours of Traditional Certification Pathway courses

Culminating Experience (3 credit hours)
EED 593 Applied Project (3)

Additional Curriculum Information
Students select one of the alternative certification or traditional certification pathways.

Alternative pathway students choose six credit hours of apprentice teaching as their other required coursework from a pre-approved list. Students switching routes from traditional certification may substitute student teaching for two credits of apprentice teaching with permission from the program.

Traditional pathway students complete six credit hours from internship and student teaching as their other required coursework from a pre-approved list. At least two credits must be internship and at least two credits must be student teaching. Students switching routes from alternative certification may substitute apprentice teaching for student

teaching with permission from the program.

Students should see the academic unit for the appropriate other requirements and elective coursework. If a student plans to switch pathways mid-program, the student must reach out to the academic unit for appropriate advisement.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement
• resume
• IVP fingerprint clearance card issued by the state of Arizona
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency. The following are accepted to meet this requirement:

• TOEFL: Applicants must have a TOEFL iBT® score of 4.5, or a score of 90 if taken before January 21, 2026 in a testing center, with scores of 21-30 on the speaking and written portions. ASU's institutional code is 4007. Only electronic copies of scores are accepted.
• IELTS: Applicants must have an overall band score of at least 6.5 (6=Competent User, 7=Good User). No institutional code is needed.

The personal statement should describe the personal and professional goals that motivated the applicant to apply to the program, and explain what led the applicant to this career path and how they will excel as an educator. The admission committee pays particular attention to the quality of writing and ideas expressed in the personal statement.

The professional resume should be one to two pages and include relevant personal, professional, educational and community activities.

The personal statement and professional resume should be prepared in one of the following file formats: MS Word (.doc), rich text (.rtf), Portable Document Format (.pdf), or text (.txt).

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/masters-elementary-education-teacher-certification/) for program descriptions and to request more information.

Career opportunities

Graduates are highly sought-after teachers in public, charter and private education institutions. They possess skills in teaching, conducting research, utilizing technology and collaborating in teams --- all of which prepare them to succeed in educational careers working with learners in grades K-8.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Elementary Education, MEd (TEELEMMED)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The Master of Education program in elementary education prepares you to start a career in working with students in grades K-8. The program builds on connections between educational design and decision-making, and fosters strong professional growth and leadership development.

Faculty actively engage in the educational research community, bringing new and relevant knowledge into the program. You engage in your own research through applied project coursework, deepening your knowledge and improving your practice through research, critical evaluation and application of education concepts. The program culminates in an action research project in which you apply what you've learned to address a challenge in education.

The master's degree program does not lead to teacher certification. If you are interested in certification, you should enroll in the MEd program in elementary education with a concentration in teacher certification or in the teacher certification graduate certificate program.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

EED 534 Social Studies Methods and the Arts (2)
EED 537 K-8 Mathematics Methods and Assessment (3)
TEL 502 Exploration of Education: Child/Adolescent Development and Foundations of Special Education (3)
TEL 531 Foundations of Literacy: The Science of Reading (3)

Culminating Experience (3 credit hours)
EED 593 Applied Project (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any content area or education-related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• professional resume
• personal statement
• three professional references
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should describe the personal and professional goals that motivated the applicant to apply to== the program, and explain what led the applicant to this career path and how they will excel as an educator. The== admission committee pays particular attention to the quality of writing and ideas expressed in the personal statement.

The professional resume should be one to two pages and include relevant personal, professional, educational and== community activities.

The personal statement and professional resume should be prepared in one of the following file formats: MS Word (.doc), rich text (.rtf), Portable Document Format (.pdf), or text (.txt).

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition== and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year.== Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/elementary-education-masters/) for program descriptions and to request more information.

Career opportunities

Graduates are prepared to start or advance in educational careers working with children in grades K-8 in roles that do== not require certification. Students gain skills in instruction, assessment, educational research and collaborating in== teams --- all of which prepare them to work successfully in schools and other community-serving organizations. Roles== may include noncertified educator in a charter or private school, or educator in nonschool settings.

This program may also be suitable for certified teachers who do not have an undergraduate or graduate degree in== education.

Environmental Education, Certificate (TEEVEDGRCT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Downtown Phoenix, Polytechnic, Tempe, West Valley, Online

Program description

If you are passionate about safeguarding and managing the environment, the environmental education certificate== program prepares you with the requisite knowledge and skills needed to respond to environmental challenges as an== informed citizen. Through the program, you develop a suite of tools and enhance your environmental attitudes, values== and knowledge, building skills that prepare you and communities to collaboratively undertake positive environmental== action. The program also facilitates connections between actionable research findings and on-the-ground practices,== creating synergistic spaces in which stakeholders collaborate to address dynamic environmental issues over time.== Because of this commitment to application and iteration, the suite of environmental education tools can result in direct== benefits to the environment and address conservation issues concretely.

If you complete the ASU environmental education certificate program, you are eligible to apply for the Arizona= Association for Environmental Education state-level eeCertification (https://www.arizonaee.org/EE-Certification/

(https://www.arizonaee.org/EE-Certification/)). Certification is administered through AAEE at the state level and aligns with the North American Association for Environmental Education Guidelines for Excellence.

If you are seeking certification, you should work directly with the ASU environmental education certificate program coordinator to receive guidance on portfolio submission and state requirements.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (10 credit hours)
SCN 502 Environmental Education: Investigating Global Issues (3)
SCN 507 Biomimicry for Sustainable Innovations (3)
SCN 510 Conservation of Biological Diversity (4)

Other Requirements (5 credit hours)
SCN 504 Sonoran Desert Flora (3)
SCN 505 Tropical Ecology and Sustainable Development (3)
SCN 506 A Natural History of the Sonoran Desert (4)
SCN 508 Exploring Urban Environmental Education (3)
SCN 509 Environmental Education Project (1)
SCN 513 Nature Based Mindfulness (3)
SCN 598 Special Topics (1)

Additional Curriculum Information
Students complete five credit hours of other requirements. Students may take SCN 509 and SCN 598 multiple times for one credit hour each. Each course covers multiple topics. Courses should be selected in consultation with the program advisor.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• professional resume
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current

residency.

The personal statement should include candidate's academic qualifications, interests, motivations and other important factors relating to their academic pursuits.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/environmental-education) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Make evidence-based decisions regarding environmental issues.
Apply environmental literacy to design inclusive, nature-based solutions for sustainability issues.

Global opportunities

Global experience: Study abroad (https://goglobal.asu.edu/) is available through a 12-day tropical ecology experience in Costa Rica. This global immersion experience post-spring program enables students to apply what they have learned about the tropical biome, its flora and fauna, and its cultural and global value.

Other opportunities include a 12-day biodiversity experience in Ecuador and the Galapagos. This global immersion experience post-spring program provides students with the opportunity to apply what they have learned about biodiversity conservation, preservation and restoration of biodiversity and its impact on cultural and global populations.

The environmental education certificate program supports international internships. For example, several students have used the contacts and resources within the program to complete internships in Costa Rica.

Career opportunities

Graduates are prepared to pursue positions such as:

Department of Environmental Conservation coordinator
education program leader in a local, state or national park
electric vehicle manufacturing worker
environmental education coordinator in a school
museum environmental education coordinator
outdoor education and camps director
solar power engineer and installer
summer camps director
summer programming coordinator
U.S. Environmental Protection Agency coordinator

Fundamentals of Environmental Education, Certificate (TEFDEDGRCT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The microcertificate program in the fundamentals of environmental education equips you with essential knowledge= and practical skills in environmental education, civic engagement and sustainability. Open to both formal and= nontraditional educators, the program builds environmental literacy and effective communication strategies for= fostering community-based environmental learning.

Program experiences emphasize hands-on, place-based learning that extends beyond the classroom, including= analyzing biodiversity in desert and tropical ecosystems and developing environmental education projects that connect= science with community priorities. Through interactive fieldwork, case studies and collaborative projects, you= strengthen your ability to think critically and address real-world issues such as climate change, water scarcity and= biodiversity loss. You engage with community partners to design outreach initiatives, promote sustainable practices= and cultivate inclusive approaches to environmental problem-solving that support both ecological integrity and= community well-being.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education= benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

Gifted Education, Certificate (TEGEDGRCT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

In the graduate certificate program in gifted education, you learn the theory and pedagogy needed to identify and= serve gifted children. This program is for you, as a teacher, school administrator, school psychologist, early

interventionist or family member, to strengthen your ability to work with this population of learners.

You learn how to identify learning potential and address specific needs of gifted and talented students. You acquire an understanding of gifted students' affective and academic needs and learn how to design and provide appropriately challenging, differentiated curriculum and instruction.

You learn how to develop a continuum of gifted programs and services; work with school administrators, teachers, school boards and parents; and advocate for gifted students at local and national levels.

The program also provides coursework in gifted education required for the Gifted Education (K-12) endorsement from the Arizona Department of Education. You should refer to the Arizona Department of Education website for additional requirements. The gifted courses can also meet criteria for gifted endorsements or gifted certification in other states.

This program doesn't lead to any type of teacher certification in Arizona. This program also doesn't include the field experience and student teaching components or meet other requirements needed to become certified to teach.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (12 credit hours)
SPE 585 Creativity: Foundations of Research and Development in Gifted Education (3)
SPE 586 Advising the Gifted Learner: Social and Emotional Needs (3)
SPE 587 Special Populations in Gifted Education (3)
SPE 588 The Gifted Learner: Foundations of Identification, Education and Development (3)

Electives (3 credit hours)
SPE 572 Testing and Measurement in Gifted Education: Methods (3)
SPE 573 Differentiating Instruction for Gifted Learners: Teaching Methods (3)
SPE 589 Gifted Education Programming: Models, Methods and Services (3)

Additional Curriculum Information
A culminating experience is not required for this certificate program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree, preferably in education or a related field, from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts

• personal statement
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should describe the applicant's interests and reason for seeking this certificate.

Global Education, MEd (TEGLOEDMED)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The Master of Education program in global education prepares you, as a professional working in the field of international and comparative education, to identify, analyze and address contemporary problems that cross borders, cultures and disciplines in a variety of educational settings.

If you are currently working in or interested in international education, especially those charged with the administration, planning and evaluation of educational programs and policies, this program is for you. You gain a deeper understanding of the complex and dynamic relationship between global and local perspectives, develop practical solutions for key challenges, and experience working collaboratively across disciplines.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Educational Studies, BAE

Physical Education, BAE

Special Education, BAE

Middle Grades Education, BAE

Elementary Education, BAE

Secondary Education, BAE

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (GLE 593)

Required Core (18 credit hours)
GLE 501 Global Thinking in Education (3)
GLE 502 Inquiry in Global Education (3)
GLE 503 Evaluating Global Education Policies and Programs (3)
GLE 504 Exploring Global Education Issues in the Global Education Research Literature (3)
GLE 505 Evidence in Global Education Inquiry (3)
GLE 506 Applied Inquiry in Global Education: Developing Proposals for Field Research (3)

Electives or Research (9 credit hours)

Culminating Experience (3 credit hours)
GLE 593 Applied Project (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree in global education, comparative education or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee

• official transcripts
• one letter of recommendation
• personal statement
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Applicants must complete a personal statement that describes their background, including the personal, educational and professional experiences that led them to apply to this program. Applicants should follow the specific prompt found in the application.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/global-education-med/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate global education problems and practices using comparative frameworks.
Design a participatory and inclusive action research project to address a global issue in education.
Analyze comparative and international research literature to address contemporary educational problems across borders, cultures and disciplines.

Career opportunities

Graduates have the skills needed for leading and continually improving the education sector. They are equipped with the research and analysis skills to gather evidence to inform, design and improve practices in order to strengthen systems that provide quality education for diverse populations. They are well prepared to expand or pursue a variety of careers in international education.

Career examples include:

global education subject matter expert
policy analyst
program and project manager
school administrator

Higher and Postsecondary Education, MEd (EDPOSTMED)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, Online

Program description

The Master of Education program in higher and postsecondary education is designed to facilitate the your professional= development as you work in a college or university in an administrative role, or in an academic or student support= position.

The program develops you to be a leader who has a strong understanding of the theory and practice of higher= education administration, possesses the ability to analyze issues confronting contemporary colleges and universities,= and can exercise innovative and effective decision-making.

Coursework addresses a variety of practice-focused topics in the field, including the evolution of higher education in= the United States and globally; organizational characteristics of colleges and universities; how students grow, change= and develop within higher and postsecondary education institutions; important laws and policies pertaining to= administrative practice in higher education; how colleges and universities are funded; how to work successfully with= multiple stakeholders in contemporary higher education; and how to collect and use data to improve decision-making.

You can customize your coursework in either the leadership and organizational dynamic in higher education focal area,= or the student recruitment, retention and success focal area.

This 30 credit hour, 10-course program is offered on a 7.5-week calendar in fall and spring semesters, and six weeks in= summer. You may enroll part time or full time.

For the Tempe program, most courses are offered in a hybrid format, with half of the content delivered face-to-face (weekday evenings) and half delivered through independent or technology-supported learning experiences and= fieldwork. For the online program, all courses are offered in an asynchronous format.

This program culminates with a capstone project in which you demonstrate the knowledge you've gained through the= program.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered= as an accelerated bachelor's plus master's degree with:

Educational Studies, BAE

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree= program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required capstone course (HED 597)

Required Core (9 credit hours)
HED 510 Introduction to Higher Education (3)
HED 572 Program Assessment and Evaluation in Higher Education (3)
HED 620 Love, Justice, Equity and Inclusion in Higher Education (3)

Other Requirements (3 credit hours)
HED 580 Practicum (3)

Electives (15 credit hours)

Culminating Experience (3 credit hours)
HED 597 Capstone in Higher and Postsecondary Education (3)

Additional Curriculum Information
Students should see the academic unit for a complete list of approved electives. Students choose a focal area from the list of electives and take nine credit hours in that area. Students then select six additional elective credit hours from any focal area.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• one letter of recommendation
• personal statement
• resume
• proof of English language proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letter of recommendation should be from an individual who can comment on the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/higher-postsecondary-education/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Analyze how the historical foundations of contemporary American higher education influence contemporary issues in higher education.
- Examine higher education policies and practices that affect marginalized student communities.
- Design collaborative solutions to challenges in higher education.
- Design an assessment or evaluation strategy using relevant data analysis techniques.
- Develop an initiative to serve the social, material, and intellectual needs and desires of a unit in higher education.

Career opportunities

Graduates have skills in analyzing issues in higher education, working with diverse stakeholders, conducting research and making data-driven decisions, all of which prepare them to expand or pursue administrative roles at colleges and universities.

Career examples include:

- college program director
- student affairs leader
- student life leader
- student services staff

Interdisciplinary Education on Community Health and Wellbeing, MA (TEIECHWMA)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The Master of Arts program in interdisciplinary education on community health and well-being equips you for roles in diverse educational settings, such as schools, community centers and adult educational programs, with a primary focus on health and well-being. The degree places a significant emphasis on the various dimensions of wellness, illustrating how these dimensions can be leveraged to design, implement and assess educational and health promotion initiatives aimed at enhancing overall health and quality of life.

The program furnishes you with comprehensive knowledge and fundamental skills across a variety of areas, fostering a heightened understanding and appreciation for all individuals. It cultivates creative and innovative, systems-level thinking, encouraging a reimagining of health and disease management and facilitating the development of physical activity and health programming.

This program is a partnership with two colleges: Mary Lou Fulton College for Teaching and Learning Innovation and Watts College of Public Service and Community Solutions. You have the opportunity to select courses from disciplines such as physical activity and physical education, social work, recreational therapy, and nonprofit leadership and development.

In terms of design aspirations, the program stands out for its integration of intellectual disciplines, incorporating courses with theoretical perspectives from education and public service. Furthermore, it impacts societal transformation by promoting health across various community settings. The program is intentionally socially embedded, fostering connections between communities through numerous beneficial partnerships.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Recreational Therapy, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (EDU 593)

Required Core (3 credit hours)
COE 501 Introduction to Research and Evaluation in Education (3)

Leadership and Innovation (6 credit hours)
NLM 560 Leadership and Ethics in the Nonprofit Sector (3)
NLM 562 Social Entrepreneurship (3)
NLM 572 Community and Social Innovations (3)
PPE 585 Reading and Understanding Research: Physical Education and Beyond (3)
PPE 586 Physical Activity Leadership in Schools (3)

Other Requirements (18 credit hours)
PPE 531 Analysis of Skill and Game Performance (3)
PPE 532 Principles of Sport Coaching (3)
PPE 550 Physical Education for the Elementary School (3)
PPE 555 Physical Education in the Secondary School (3)
PPE 598 Special Topics (1-4)

RTH 551 Play with Children, Youth and Families (3)
RTH 563 Advocacy in Therapeutic Recreation (3)
SWG 501 Human Behavior and Social Experiment I (3)
SWG 558 Behavioral Health Services (3)
SWG 579 Critical Response to Mitigate Stress (3)

Culminating Experience (3 credit hours)
EDU 593 Applied Project (3)

Additional Curriculum Information
Students complete two courses from the Leadership and Innovation coursework list for a total of six credit hours. All topics of PPE 598 are approved, and the course can be taken for one to four credit hours, as long as the total Other Requirements coursework is equal to 18 credit hours. Courses should be selected in consultation with the program advisor. Substitutions may be made for other requirements coursework, including RTH 551, with department approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement

• professional resume
• one letter of recommendation
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

Applicants must provide a written statement of approximately 500 words that describes their personal interest in working in diverse, interdisciplinary educational and health promotion settings with a focus on health and well-being, the goals they wish to achieve while in the program and their short- and long-term career aspirations. The admission committee pays particular attention to the quality of writing, the ideas expressed and the relative match between the applicant and program goals.

One professional or academic reference should be provided.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/community-heath-wellbeing/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Reflect on their employment of team-based interprofessional practices to advance community health outcomes.
Critique social issues facing community health from an interprofessional perspective.
Design innovative interdisciplinary solutions to address community health issues.

Career opportunities

Graduates of this program can pursue careers as:

adult education directors
behavioral health technicians
corporate or employee wellness coordinators, managers or specialists
health communications developers
health and wellness coaches, managers or specialists
health promotions managers or specialists
life skills or lifestyle coaches
nonprofit organization or government office directors
professional mentors
recreational programmers
wellness operations specialists
wellness program managers or directors

Leadership and Innovation, EdD (TELINEDD)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: West Valley, Online

Program description

The Doctor of Education in leadership and innovation prepares you to become a scholarly practitioner who creates meaningful change in your schools, organizations and communities. The program centers on the use of action research methodologies, empowering you to investigate problems of practice, implement innovations, and design solutions that improve learning opportunities across diverse settings.

Designed for experienced professionals --- including teachers, principals, superintendents, higher education staff and faculty, and leaders in community, business, medical and military organizations --- the program helps you strengthen your ability to lead, innovate and transform practice as a scholarly practitioner.

This three-year, cohort-based program is offered in two flexible formats: hybrid (with classes at ASU's West Valley campus and online) or fully online. Both options provide the same curriculum, structure and faculty support.

Coursework emphasizes action research, reflective practice and innovation --- the hallmarks of scholarly practice. You engage in multiple cycles of action research within your own professional context, applying inquiry to guide improvement and sharing your findings with peers and colleagues. At the end of the first year, you join a leader-scholar community --- a small group of peers guided by a faculty mentor. These communities meet regularly during the second and third years, offering both academic and personal support throughout the action research dissertation process. The faculty mentor also serves as your dissertation chair, along with two additional committee members.

You emerge as a scholarly practitioner who uses action research to think critically, act with purpose, and lead with vision. You commit to ongoing professional inquiry and innovation, making a lasting difference for learners, organizations and communities.

Note: This program is designed to prepare you to be a scholarly practitioner and is not intended as preparation for research-focused, tenure-track faculty positions.

STEM-OPT extension eligible: No

Degree requirements

60 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (21 credit hours)
TEL 702 Dynamic Contexts of Education (3)
TEL 703 Innovation in Teaching and Learning (3)
TEL 704 Leadership for Organizational Change (3)
TEL 705 Systems Change and Leadership (3)
TEL 706 Action Research in Doctoral Studies (3)
TEL 707 Reading the Research (3)
TEL 708 Collaborative Approaches to Data-informed Decision Making (3)

Advanced Professional Studies (6 credit hours)
TEL 710 Innovations in Disseminating Research (2)
TEL 780 Practicum (4)

Directed Field-based Study (3 credit hours)
TEL 709 Directed Field-based Study (3)

Research (18 credit hours)
TEL 701 Quantitative Methods in Action Research (3)
TEL 711 Strategies for Inquiry (3)
TEL 712 Mixed Methods in Action Research (3)
TEL 713 Qualitative Methods in Action Research (3)
TEL 792 Research (6)

Culminating Experience (12 credit hours)
TEL 799 Dissertation (12)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a master's degree in any field from a regionally accredited institution or equivalent.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement
• guided writing sample
• curriculum vitae
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Recommenders should be individuals who can speak to the applicant's potential for success in a graduate program. The personal statement should describe the applicant's interests and reasons for seeking this degree, along with potential problems of practice to serve as a guide for applied research in the program. The guided writing sample should illustrate the applicant's academic writing abilities.

GRE scores are not required for admission.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/edd-leadership-and-innovation/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Synthesize theoretical perspectives and literature to address an identified problem of practice.
- Implement an action research study by applying data analysis methods to their research.
- Evaluate dominant narratives and power dynamics within educational systems that contribute to injustice at individual or systemic levels.

Career opportunities

Graduates possess skills in thinking critically about problems of practice, designing and conducting action research, collaborating with teams in leader-scholar communities and leading change in an educational organization. They are prepared to expand or pursue leadership positions in pre-K-12 schools, higher education institutions, and other organizations where learning takes place (e.g., community, business, medical and military).

Career examples include:

- community college leader
- educational consultant
- educational professional developer
- military trainer
- principal
- sales manager
- superintendent
- teacher leader
- university administrator

Learning Design and Technologies, Certificate (EDEDTGRCT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The graduate certificate program in learning design and technologies prepares you to design and develop digital= learning experiences and advance you in a variety of settings. You explore the principles and practices of designing= instructional interventions and learning materials that combine theories in education, psychology, communication and= technology to create effective learning experiences for adult learners.

You learn how to identify instructional needs, training problems and performance gaps, and then design and develop= instruction to mitigate those problems to improve organization performance and efficiency. Hands-on, scenario-based= projects provide you with applied practice and help you develop effective communication strategies to enable you to= effectively work on cross-functional teams.

The information covered in this program doesn't prepare you to teach in a K-12 classroom, although it may be helpful in a secondary role in your district --- such as creating or conducting professional development experiences, or coordinating or delivering technology training. You can pursue this graduate certificate while enrolled in other graduate programs at ASU.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (9 credit hours)
LDT 501 Foundations of Learning Design and Technologies (3)
LDT 502 Design and Development of Instruction (3)
LDT 503 Design of Effective Communications (3)

Other Requirement (6 credit hours)
LDT 504 eLearning Design and Development (3)
LDT 508 Design of Accessible and Inclusive Digital Learning (3)
LDT 511 Emerging Trends and Technologies for Learning Design (3)
LDT 513 Needs Assessment for Learning Design (3)
LDT 523 Design Principles of Online and Blended Learning (3)
LDT 598 Special Topics (3)

Additional Curriculum Information
Students select two of the courses in the other requirements section. Students should see their program advisors for the approved list of special topics for LDT 598. Courses should be selected in consultation with your program advisor.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement describing the applicant's interests and reason for seeking this degree
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F-1 or J-1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

GRE scores are not required for admission.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/instructional-design/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Synthesize foundational learning theories, practices and emerging trends in the field of learning design and technology.
Develop comprehensive instructional modules that address specific learning, training or performance needs.

Career opportunities

The field of instructional and learning design is continuing to expand as organizations seek to develop more of their training in online and blended formats. Preparation in instructional design positions graduates to work in a variety of settings, including K-12 schools or institutions of higher education, nonprofit organizations and corporations.

Graduates of this certificate program have broadened their instructional and learning design expertise for advancement in their fields in positions including:

content developer
corporate trainer
curriculum or learning designer
distance or blended learning professional
e-learning developer
instructional designer
instructional technologist
learning management system administrator
online learning specialist
online training manager
technology integration specialist
training consultant

Learning Design and Technologies, MEd (EDTECHMED)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The Master of Education program in learning design and technologies prepares you to build critical competencies related to designing quality online learning. It prepares you to use technology effectively to meet the needs of learners.

This program centers on the development and review of educational structures and emphasizes the design of learning environments, systems, applications and instructional materials. You gain skills in planning, designing, implementing and evaluating instruction for multiple learning contexts.

You take on education challenges and apply knowledge gained through coursework to a variety of projects, with a key area of focus formed around advanced educational technology.

All courses are taught online and combine a range of resources and technologies to facilitate direct interaction between you, program faculty members and classmates.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Educational Studies, BAE

Educational Studies (Instructional Design), BAE

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (LDT 593)

Required Core (24 credit hours)
LDT 501 Foundations of Learning Design and Technologies (3)
LDT 502 Design and Development of Instruction (3)
LDT 503 Design of Effective Communications (3)
LDT 504 eLearning Design and Development (3)
LDT 506 Evaluation of Learning Systems (3)
LDT 508 Design of Accessible and Inclusive Digital Learning (3)
LDT 513 Needs Assessment for Learning Design (3)
LDT 523 Design Principles of Online and Blended Learning (3)

Elective (3 credit hours)

Culminating Experience (3 credit hours)
LDT 593 Applied Project (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• one letter of recommendation
• personal statement
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letter of recommendation should be from an individual who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-education-learning-design-technologies/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate an existing instructional program.
Synthesize foundational learning theories, practices and emerging trends in the field of learning design and technology.
Develop comprehensive instructional modules that address specific learning, training or performance needs.
Create an instructional intervention or training solution in response to an identified instructional need, training problem or performance gap.

Career opportunities

As the importance of digital education grows in both academic and business settings, there is increasing demand for skilled educators who can thoughtfully and effectively integrate technology with pedagogy and instruction.

Graduates are professionals in learning design and technology who are prepared for careers in instructional design in a variety of business settings (corporate, industry, museum, nonprofit, public and government) as well as for technology leadership positions in traditional educational settings (K-12 schools, colleges and universities).

Career examples include:

distance learning director
e-learning developer
instructional designer
learning designer or developer
learning experience designer
online teacher, mentor or trainer
technology integration specialist
training specialist, coordinator, manager or director

Learning Sciences, MA (EDPSYCHMA)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe

ASU is not currently accepting applications for this program. Students interested in attaining a degree or certificate within education are encouraged to explore the wide range of degree options offered by MLFC.

Program description

The Master of Arts program in learning sciences emphasizes an understanding that learning happens in many places outside of traditional school settings, and doing so focuses on the power of design thinking to improve educational systems.

The curriculum's systems-level approach includes cognitive, social and contextual factors as well as the interactions among them.

Individualized guidance provides you with the support you need to succeed in today's rapidly evolving educational environment. You work with faculty to determine whether you conduct an applied project or complete a research thesis study. Applied projects provide evidence of mastery of the skills and knowledge obtained through the program, while a thesis project requires you to complete a research study within an area of inquiry in the learning sciences and has the potential for scholarly recognition.

This program doesn't lead to teacher certification but can prepare you for doctoral credentials in education after graduation.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required applied project course (LSE 593), or
30 credit hours, a thesis and a written comprehensive exam

Required Core (12 credit hours)
LSE 540 Theoretical Views of Learning in the Learning Sciences (3)

LSE 542 Research Methods in the Learning Sciences (3)
LSE 570 Case Exemplars of Learning Systems (3)
LSE 571 History of the Learning Sciences (3)

Other Requirements (6 credit hours)
LSE 591 Seminar (6)

Electives (6 or 9 credit hours)

Culminating Experience (3 or 6 credit hours)
LSE 593 Applied Project (3) or
LSE 599 Thesis (6)

Additional Curriculum Information
Students completing an applied project complete nine credit hours of electives. Students completing a thesis complete six credit hours of electives. Electives must be taken at the graduate level and are selected in conjunction with the student's advisor. LSE 591 should be taken for three credit hours twice, for a total of six credit hours.

With advisor approval, EDP 540 may be taken in place of LSE 540 for the core requirement.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement
• resume
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program, and the personal statement should describe the applicant's interests and reason for seeking this degree.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Evaluate the impact of different theoretical perspectives on learning environments.
Conduct research utilizing appropriate methods.
Develop collaborative partnerships that address challenges or opportunities in learning design or learning systems.

Career opportunities

Graduates possess skills in facilitating learning using an interdisciplinary approach, drawing on cognitive science, educational psychology, computer science, anthropology, sociology, information sciences, neurosciences, instructional design and more. They are prepared to pursue a variety of educational careers tailored to their professional goals.

Graduates are equipped to design effective learning and teaching systems in a wide variety of settings, such as museums, libraries, workplaces and schools. The program prepares graduates to become leaders in the development, integration and improvement of these systems.

Career examples include:

educational and interactional designer
educator in community organization
educator in educational institution
training specialist, coordinator, manager or director

Learning, Literacies and Technologies, PHD (EDCIPHD)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe

Program description

The Doctor of Philosophy program in learning, literacies and technologies is designed to prepare you to address socially significant educational programs and transform pre-K-20 educational programs through rigorous research, transdisciplinary engagements and educational interventions. You rely on multiple theoretical and methodological perspectives to explore, influence and transform educational institutions and their practices.

You begin engaging in research studies during your first semester and continue throughout the four-year program. Faculty members with diverse disciplinary backgrounds collaborate with you, individually and through teams, to design powerful studies, implement them in authentic settings, collect and analyze data, write research reports, and present and publish research primarily in academic journals. You prepare to enter the academy and to conduct theoretical, conceptual and humanities-based educational research. If you are interested in these areas, you are encouraged to apply to the program.

Through academic study and research in the learning, literacies and technologies program, you focus on the nature of

curriculum learning and literacies for diverse learners in various educational contexts. Furthermore, you examine how the use of technologies can support learning, design learning environments and understand the conditions under which learning occurs.

You develop areas of specialization with faculty advisors and doctoral committee members, working on engaging educational research, and thus lead the way to innovate and explore how new technologies can assist literacies for various learning contexts. Past examples of student specializations include mathematics education, gender and equity studies, science education, and curriculum studies. You're encouraged to craft your own programs of specialization and to work with faculty members from across the university.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

85 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

Required Core (9 credit hours)
DCI 701 Transdisciplinary Seminar I (3)
DCI 702 Transdisciplinary Seminar II (3)
DCI 706 Academic Writing (3)

Specialization (15 credit hours)

Research (12 credit hours)
COE 502 Introduction to Data Analysis (3)
COE 503 Introduction to Qualitative Research (3)
advanced research methods course (6)

Electives (37 credit hours)

Culminating Experience (12 credit hours)
DCI 799 Dissertation (12) or
PPE 799 Dissertation (12) or
SPE 799 Dissertation (12)

Additional Curriculum Information
Students entering the doctoral program with a master's degree in a related discipline may count up to 30 credit hours from the master's degree toward the 85 credit hours. In addition, with program and Graduate College approval, a student may use up to 12 additional credit hours toward the doctorate if documentation is provided showing that those credit hours were not part of the master's degree.

As part of electives, students complete seven credit hours of inquiry courses selected in consultation with the program advisor.

Admission requirements

General university admission requirements:

All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's and master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement
• guided writing sample
• curriculum vitae
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program, and one must be from an academic who can speak to the applicant's potential for graduate study.

The personal statement should describe the applicant's interests and their reason for seeking this degree.

For the guided writing sample, applicants are asked to submit an essay response to a two question prompt.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Design an educational research study.
Synthesize theoretical perspectives and literature related to their focus of educational research (learning, literacies and technologies).
Implement an educational research study.

Career opportunities

Graduates are educational researchers who serve as scholars, leaders and teacher educators engaged in the design, development and use of literacies and technologies that promote learning. They are stewards of their educational field, working across disciplinary boundaries to address the learning challenges of the new millennium.

Career examples include:

college program director

- educator
- instructional designer
- instructional specialist
- professor
- researcher
- teacher professional development leader

Online Teaching for Grades K-12, Certificate (TEEDTGRCT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, Online

ASU is not currently accepting applications for this program. Prospective students should consider the learning design== and technologies graduate certificate.

Program description

This certificate program prepares you to design systems for learning within a broad range of organizations. The== curriculum includes practical application of research on learning, design methods and organizational dynamics.

You are prepared to be an effective member and leader of teams who redesign education in pre-K-20 and other== settings when you complete the certificate program.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours including the required capstone course (EDT 580)

The certificate requires five courses, each consisting of three credit hours. The culminating experience is an electronic== portfolio that is completed in EDT 580.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and== Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a== regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's== degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

• graduate admission application and application fee
• official transcripts
• personal statement describing the applicant's interests and reason for seeking this degree
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

International students who need an F1 or J1 visa first need to apply to and be accepted into a graduate degree program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate College policies and procedures regarding admission to be considered for admission to this certificate program.

Applicants should have at least one year of professional education experience.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Organizational Behavior Management, Certificate (TEOBMGRCT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The graduate certificate program in organizational behavior management prepares professionals to apply behavioral principles to enhance organizational effectiveness and staff development. Through specialized courses, students learn to assess and improve workplace performance, design evidence-based interventions and lead teams within a variety of environments.

This program emphasizes applied learning in performance management and behavioral systems analysis. It promotes student success, societal transformation and community engagement by training leaders who create meaningful, data-driven improvements in the organizations and communities they serve.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

STEM-OPT extension eligible: No

Degree requirements

15 credit hours

Required Core (12 credit hours)
SPE 527 Behavior Analytic Assessment (3)
SPE 530 Fundamentals of Organizational Behavior Management (3)
SPE 560 Behavior Change Procedures: Implementing Interventions in Behavior Analysis (3)
SPE 562 Personnel Supervision and Organizational Behavior Management in Educational Settings (3)

Restricted Electives (3 credit hours)
SPE 541 Consultation Frameworks and Issues (3)
SPE 564 Controversial Therapies; Science, Fad and Pseudoscience in Educational Settings (3)
SPE 598 Special Topics (3)

Additional Curriculum Information
For restricted electives, students should select one course from the list, and consult their program advisor for a complete list of approved topics for SPE 598.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = ''A'') in an applicable master's degree program.

Applicants are required to submit:
• graduate admissions application and application fee
• official transcripts
• personal statement
• professional resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency by scoring at least 4 on the Internet-based TOEFL (iBT)®, or a score of 80 if taken before January 21, 2026 in a testing center; 6.5 on the IELTS; or 105 on the Duolingo English test.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-

programs/certificates/organizational-behavior-management-graduate-certificate/) for program descriptions and to request more information.

Career opportunities

Graduates of this certificate may pursue roles in education, clinical, health care or nonprofit sectors, including:

behavior-analytic program director designing and implementing staff interventions
behavior-based safety manager
clinical or regional director in human-services agencies
director of operations
organizational behavior management consultant
performance improvement specialist
school administrator
senior leader or mid-level manager in human service settings
supervising clinician
training and development manager

Secondary Education (Teacher Certification), MEd (TESCERTMED)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

If you have a bachelor's degree in any field and want to become licensed to teach grades 6-12, the Master of Education program in secondary education with a concentration in teacher certification is for you. The program fosters strong professional growth and leadership development.

The program of study is flexible, and you can complete it within five semesters with the appropriate professional experience placements. You can also enroll part time over additional semesters.

Faculty members actively engage in the educational research community, bringing new and relevant knowledge into the program. You engage in your own research through applied project coursework, deepening your knowledge and improving your practice through research, critical evaluation and application of education concepts.

A series of professional experiences assist you in developing a thorough understanding of teaching and learning as you apply knowledge from your coursework in varied school settings.

This program offers two routes leading to Arizona teacher certification:

• In the traditional certification pathway, you complete three professional experiences: two internships and one student teaching.
• The alternative certification pathway provides a different pathway to teacher certification if you are are currently employed full time by a school as a teacher of record. To qualify, you must secure a full-time teaching position in an approved content area and grade level.

The coursework is the same in both certification pathways and culminates in an applied project in which you apply

what you've learned to address a problem of practice or topic related to education.

Upon graduation, you earn an institutional recommendation from ASU that is recognized by the Arizona Department of Education for teacher certification in Secondary Education, 6-12.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Educational Studies, BAE

Engineering (Electrical Systems), BSE

Engineering (Robotics), BSE

Engineering (Automotive Systems), BSE

Engineering (Mechanical Engineering Systems), BSE

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours including the required applied project course (SED 593) - Alternative Certification Pathway, or
30 credit hours including the required applied project course (SED 593) - Traditional Certification Pathway

Required Core (5 credit hours)
TEL 510 Instructional Design, Planning and Assessment (2)
TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)

Concentration (6 credit hours)
SED 557 Internship I (2)
SED 567 Internship II (2)
SED 571 Apprentice Teaching I (2)
SED 574 Apprentice Teaching II (2)
SED 576 Internship III (2)
SED 578 Student Teaching (2)
SED 579 Apprentice Teaching III (2)
SED 596 Residency/Student Teaching (2)

Other Requirements (6 credit hours)
TEL 502 Exploration of Education: Child/Adolescent Development and Foundations of Special Education (3)
TEL 532 Literacy Across the Disciplines (3)

SEI Endorsement (3 credit hours)
ELL 515 Structured English Immersion (SEI) Methods (3)

Methods Requirements (7 credit hours)
SED 510 General Methods and Assessment (3)
SED 511 ELA Methods and Assessment (4)
SED 512 Secondary Mathematics Methods and Assessment (4)
SED 513 Science Teaching Methods for Secondary School (4)
SED 514 Methods of Teaching Secondary Social Studies (4)

TEL 598 Special Topics (4)

Culminating Experience (3 credit hours)
SED 593 Applied Project (3)

Additional Curriculum Information
Students should see an advisor for the other requirements section.

Students select either the alternative certification pathway or traditional pathway.

Alternative pathway students choose six credit hours of apprentice teaching and internship from concentration requirements. At least four credit hours must be apprentice teaching.

Traditional pathway students choose six credit hours of internship and student teaching from the concentration requirements. At least two credit hours must be internship, and at least two credit hours must be student teaching.

If a student plans to switch options mid-program, the student must reach out to the academic unit for appropriate advisement.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/secondary-education-teacher-certification/) for program descriptions and to request more information.

Career opportunities

Graduates are highly sought-after teachers in public, charter and private education institutions. Graduates of the program gain skills in teaching, conducting research, using technology and collaborating in teams --- all of which prepare them to succeed in educational careers working with learners in grades 6-12.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.To be eligible for secondary certification in Arizona, students must:

pass the appropriate Arizona educator subject knowledge exam, as well as the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments
or • hold a conferred bachelor's or master's degree with the content area listed in the degree title, and receive a passing score on the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments

Secondary Education, MEd (TESECEDMED)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The Master of Education program in secondary education prepares you to start a career working with students in grades 6-12, if you do not need teacher certification. The program builds on connections between educational design and decision-making and is designed to foster strong professional growth and leadership development.

Faculty members actively engage in the educational research community, bringing new and relevant knowledge into the program. You engage in your own research through applied project coursework, deepening your knowledge and improving your practice through research, critical evaluation and application of education concepts.

The program culminates in an applied action research project in which you apply what you've learned to address a challenge in education.

The master's degree doesn't lead to teacher certification. If you are interested in certification, you should enroll in the

MEd program in secondary education with a concentration in teacher certification, or in the teacher certification graduate certificate program.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Educational Studies, BAE

Additional Curricular Information
Students should see an advisor for other requirements. Students select courses depending on their content area.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree in any content area or education-related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• professional resume
• personal statement
• proof of English proficiency
• three professional references

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should describe the personal and professional goals that motivated the applicant to apply to the graduate degree and explain what led them to this career path and how they will excel as an educator. The admission committee pays particular attention to the quality of writing and ideas expressed in the personal statement.

The professional resume should be one to two pages and include relevant personal, professional, educational and community activities.

The personal statement and professional resume should be prepared in one of the following file formats: MS Word (.doc), rich text (.rtf), Portable Document Format (.pdf) or text (.txt).

The names, email addresses and institutions or companies of professional references who will submit electronic letters of recommendation are required. References should be individuals who have worked with the applicant in professional or academic capacities and who can attest to their aptitude in this field and their ability to complete graduate-level coursework.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/masters-secondary-education/) for program descriptions and to request more information.

Career opportunities

Graduates are prepared to start or advance in educational careers working with children in grades 6-12 in roles that do not require certification. They have gained skills in instruction, assessment, educational research and collaborating in teams --- all of which prepare them to successfully work in schools and other community-serving organizations. Roles may include noncertified educator in a charter or private school, or educator in nonschool settings.

This program also may be suitable for certified teachers who do not have an undergraduate or graduate degree in education.

Special Education (Applied Behavior Analysis), MA (TESPEABAMA)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The Master of Arts program in special education with a concentration in applied behavior analysis is an online program that combines an assortment of resources and technologies to provide you with the opportunity to interact directly with program faculty and classmates. Applied projects and assignments allow you to focus on the population that you plan to work while gaining the knowledge and skills you need in order to use applied behavior analysis across various populations and settings.

This program meets the behavior-analytic coursework requirements for those pursuing the Behavior Analyst Certification Board® Board Certified Behavior Analyst® examination Pathway 2.

The course sequence includes the Behavior Analyst Certification Board-required 315 classroom hours of graduate-level instruction aligned with the BCBA Test Content Outline (TCO 6th edition). It also meets the upcoming 2027 academic content standards under Pathway 2.

BCBA-supervised independent fieldwork supervision hours, required for certification, are arranged and completed by you separately from your ASU coursework. An optional remote BCBA supervised independent fieldwork practicum (SPE 580 Applied Behavior Analysis Practicum) is available. Once certified, you are equipped to meet diverse behavior needs and make a lasting difference in the community.

STEM-OPT extension eligible: No

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Behavior Analysis, BS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Degree requirements

30 credit hours and a thesis, or
30 credit hours including the required applied project course (SPE 593), or
30 credit hours including the required capstone course (SPE 597)

Required Core (3 credit hours)
SPE 525 Measurement, Data Display, Interpretation and Experimental Design (3)

Concentration (18 credit hours)
SPE 526 Concepts and Principles of Applied Behavior Analysis (3)
SPE 528 Assessment and Intervention Programming for Skill Acquisition (3)
SPE 529 Functional Behavior Assessment and Behavior Change Procedures (3)
SPE 530 Fundamentals of Organizational Behavior Management (3)
SPE 563 Philosophical Foundations of Applied Behavior Analysis in Educational Settings (3)
SPE 567 Ethics of Applied Behavior Analysis (3)

Electives (3 or 6 credit hours)

Culminating Experience (3 or 6 credit hours)
SPE 593 Applied Project (3) or
SPE 597 Capstone (3) or
SPE 599 Thesis (6)

Additional Curriculum Information
Students may choose to complete a remote supervised independent fieldwork practicum (SPE 580).

Students who choose the thesis option must complete three credit hours of electives.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• one letter of recommendation
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should demonstrate the applicant's goals with respect to the program outcomes and success in a graduate and online program. The statement should also demonstrate high-quality writing and awareness that the student understands the demands of graduate school.

One letter of recommendation from an individual who can speak to the applicant's potential for success in a graduate program is required for admission.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-arts-special-education-applied-behavior-analysis/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Implement effective behavior assessment procedures based on identified target behaviors.
Implement effective data collection and analysis methods to evaluate treatment effect.
Implement appropriate behavior change procedures based on relevant assessment data.

Career opportunities

Graduates are well prepared to provide applied behavior analysis and evidence-based consultative services and support to clients, organizations, and community and family members. Professionals with expertise in evidence-based practices in applied behavior analysis are in high demand across sectors and industries, including education, business and health care.

Career examples include:

applied behavior analysis therapist
behavior consultant
behavior specialist
board certified behavior analyst
early interventionist
educator
organizational behavior management specialist

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Special Education (Autism Spectrum Disorder), MA (TESPEASDMA)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

The Master of Arts program in special education with a concentration in autism spectrum disorders prepares you to provide important services for children and adults with autism spectrum disorders.

Coursework in this program covers evidence-based interventions to support individuals with autism spectrum disorders, as well as collaboration and consultation skills that empower you to most effectively work with families and

other professionals. In addition, you learn how to dispel common misconceptions about autism spectrum disorders and how to determine the credibility of sources.

The practicum component of the curriculum enables you to apply the topics covered in theoretical courses to practical scenarios. You build experience supporting individuals with autism spectrum disorders by delivering 45 direct contact hours of approved activities under the direction of a supervisor and instructor.

The master's program requirements align with the autism specialist standards of the Council for Exceptional Children.

STEM-OPT extension eligible: No

Degree requirements

30 credit hours including the required applied project course (SPE 593), or
30 credit hours including the required capstone course (SPE 597)

Required Core (3 credit hours)
SPE 525 Measurement, Data Display, Interpretation and Experimental Design (3)

Concentration (12 credit hours)
SPE 521 Foundations of Autism Spectrum Disorders (3)
SPE 540 Family-Centered Practices (3)
SPE 541 Consultation Frameworks and Issues (3)
SPE 566 Applied Behavior Analysis in Inclusive Settings (3)

Electives or Research (9 credit hours)

Other Requirement (3 credit hours)
SPE 680 Practicum (3)

Culminating Experience (3 credit hours)
SPE 593 Applied Project (3) or
SPE 597 Capstone (3)

Additional Curriculum Information
Each student completes a practicum customized to individual interests and abilities. For the culminating experience, students may elect to complete a capstone experience or an applied project, based on personal and professional interest and need.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants must have earned a bachelor's or master's degree in education, psychology or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts*
• written statement
• professional resume
• one letter of recommendation
• proof of English proficiency

*A transcript must show the bachelor's degree already conferred; in-progress bachelor's degrees are not accepted.

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

Critically evaluate research literature generated in the field of autism.
Evaluate intervention plans for individuals with autism spectrum disorder.
Consult with families and other professionals on the care of individuals with autism spectrum disorder.

Career opportunities

There is increasing demand for the specialized skills and knowledge needed to properly support children and adults, including family members, impacted by autism. Program graduates are well prepared to provide important services within a variety of roles, including as paraprofessionals, psychologists, speech pathologists, therapists and family members.

Career examples include:

community support professional
educator
interventionist

Program description

If you have a bachelor's degree in any field, and want to become licensed to teach special education or those want to pursue dual certification in special education and elementary education, the Master of Education program in special education with a concentration in teacher certification is for you. The program builds on connections between educational design and decision-making and is designed to foster strong professional growth and leadership development.

The special education single certification program of study is flexible, and you can complete it within five semesters with the appropriate professional experience placements. The special education dual certification program can be completed in six to seven semesters, depending on the semester start. You can also enroll part-time over additional semesters.

Two routes are offered that lead to Arizona teacher certification:

Traditional certification route: You can pursue single certification in special education for mild/moderate disabilities, or dual certification in special education for mild/moderate levels and elementary education.
• For single certification in special education for mild/moderate disabilities, you complete two internships and student teaching. Single special education certification graduates earn an institutional recommendation from ASU that is recognized by the Arizona Department of Education for teacher certification in Mild/Moderate Disabilities.
• For dual certification, you complete two internships: one in an elementary setting and one in a special education setting. You then complete two eight-week teaching student teaching experiences, one in a special education setting and one in an elementary school setting. Dual certification graduates earn an institutional recommendation from ASU that is recognized by the Arizona Department of Education for teacher certification in Mild/Moderate Disabilities, K-12, and Elementary Education, K-8.
• Alternative certification route: If you are currently employed full time by a school as a teacher of record, you can pursue an alternative certification route. To qualify, you must secure a full-time teaching position in an approved special education setting. This route leads to single certification in special education for mild/moderate disabilities; you are not able to pursue dual certification. You earn an institutional recommendation from ASU that is recognized by ADE for teacher certification in Mild/Moderate Disabilities, K-12.

The program culminates in an applied project in which you apply what you've learned to address a problem of practice or topic related to education.

STEM-OPT extension eligible: No

Degree requirements

34 credit hours including the required applied project course (SPE 593) - Mild-Moderate Alternative Certification Pathway, or
34 credit hours including the required applied project course (SPE 593) - Mild-Moderate Traditional Certification Pathway, or
40 credit hours including the required applied project course (SPE 593) - Mild-Moderate Traditional Certification Pathway - Dual Elementary Education, or

44 credit hours including the required applied project course (SPE 593) Intensive Support Needs - Moderate/Severe Traditional Certification Pathway

Required Core (5 credit hours)
TEL 510 Instructional Design, Planning and Assessment (2)
TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)

Concentration (6 or 8 credit hours)
Selected from the following according to certification option:
EED 557 Internship I (2)
EED 567 Internship II (2)
EED 582 Residency in Elementary Education for Dual Certification Semester Three Professional Experiences (2)
SPE 556 Internship I (2)
SPE 570 Internship II (2)
SPE 571 Apprentice Teaching I (2)
SPE 574 Apprentice Teaching II (2)
SPE 576 Internship III (2)
SPE 578 Student Teaching (2)
SPE 579 Apprentice Teaching III (2)
SPE 581 Dual Certification Residency (2)
SPE 596 Student Teaching Semester Three (2)

SEI Endorsement (3 credit hours)

Track (17, 21 or 27 credit hours)
Mild-Moderate Track (17 credit hours)
Mild-Moderate Traditional Certification Pathway - Dual Elementary Education (21 credit hours)
Intensive Support Needs - Moderate/Severe Track (27 credit hours)

Culminating Experience (3 credit hours)
SPE 593 Applied Project (3)

Additional Curriculum Information
For the single certification concentration requirements, students complete six credit hours of professional experiences. For traditional certification in special education, at least two credit hours must be SPE Internship, and at least two credit hours must be SPE student teaching. For alternative certification in special education, at least four credit hours must be in Apprentice Teaching. Students who switch from Alternative Certification may substitute Apprentice Teaching for Student Teaching with permission from the program. Students who wish to their switch certification option midprogram should reach out to the academic unit for appropriate advisement.

Students who are seeking dual certification in elementary and special education must complete two internships --- one in elementary and one in special education --- and both an EED and SPE student teaching placement; this extends the teaching certification requirement by two credit hours, for a total of eight credit hours. Students who switch from Alternative Certification may substitute Apprentice Teaching for Student Teaching with permission from the program.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• three letters of recommendation
• personal statement
• resume
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The letters of recommendation should be from individuals who can speak to the applicant's potential for success in a graduate program.

The personal statement should describe the applicant's interests and reason for seeking this degree.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/special-education-teacher-certification/) for program descriptions and to request more information.

Career opportunities

Graduates are highly sought-out teachers in public, charter and private education institutions. Students gain skills in teaching, conducting research, using technology and collaborating in teams --- all of which prepare them to successfully work with diverse learners in grades K-12.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.To teach in an Arizona public school, graduates must pass the appropriate Arizona educator subject knowledge exam, as well as the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments.

Special Education, MA (EDSPEDMA)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe

This program is not accepting applications at this time. Applicants interested in the MA in Special Education should apply directly to the MA in Special Education (Applied Behavior Analysis), the MA in Special Education (Autism Spectrum Disorders), the MEd in Special Education or the MEd in Special Education (Teacher Certification).

Program description

The Master of Arts program in special education is a noncertification degree program meant to advance the capacity of professionals, communities of practice and school, and other service systems to provide education and related services in inclusive and least-restrictive settings.

You learn how to design and deliver education and related services for populations with diverse needs. The skills you develop through this degree program include systematic planning for all individuals, support of positive behavior and advocacy for new, research-based approaches to education and related services.

STEM-OPT extension eligible: No

Degree requirements

36 credit hours and a thesis, or
36 credit hours and an applied project, or
36 credit hours, a written comprehensive exam and an oral comprehensive exam

Required Core (3 credit hours)
SPE 525 Measurement, Data Display, Interpretation and Experimental Design (3)

Electives (24 credit hours)

Culminating Experience (3 credit hours)
SPE 593 Applied Project (3) or
SPE 597 Capstone (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in education or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• letter of intent or written statement
• professional resume
• three letters of recommendation
• proof of English proficiency

Additional Application Information

An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Special Education, MEd (ECSPEDMED)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

This program is currently not accepting applications for the Intensive Support Needs - Moderate/Severe track. Advisors are available to discuss other options. Students can email GraduateEducation@asu.edu or call 602-543-6358.

Program description

The Master of Education program in special education prepares you to further your knowledge of special education for learners in grades K-12 with mild or moderate disabilities, if you do not need to obtain teacher certification. The program builds on connections between educational design and decision-making and fosters strong professional growth and development.

Faculty actively engage in the educational research community, bringing new and relevant knowledge into the program. You engage in your own research through applied project coursework, deepening your knowledge and improving your practice through research, critical evaluation and application of education concepts. The program culminates in an applied research project in which you apply what you've learned to address a challenge in special education.

The master's degree program does not lead to teacher certification. If you are interested in certification, you should enroll in the MEd program in special education with a concentration in teacher certification or the graduate certificate.

STEM-OPT extension eligible: No

Degree requirements

31 credit hours including the required applied project course (SPE 593) - Mild-Moderate Track, or
35 credit hours including the required applied project course (SPE 593) - Intensive Support Needs - Moderate/Severe

Required Core (5 credit hours)
TEL 510 Instructional Design, Planning and Assessment (2)
TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)

Track (17 or 27 credit hours)
Mild/Moderate Track (17 credit hours)
Intensive Support Needs - Moderate/Severe Track (27 credit hours)

Elective (0 or 6 credit hours)

Culminating Experience (3 credit hours)
SPE 593 Applied Project (3)

Additional Curriculum Information
Students select a track in either Mild/Moderate or Intensive Support Needs - Moderate/Severe. Students should see the academic unit for track course requirements.

Students in the Mild/Moderate track select six credit hours for electives in consultation with the academic unit. The Intensive Support Needs - Moderate/Severe track does not include elective credit hours.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any content area or education-related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• professional resume
• personal statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should describe the personal and professional goals that motivate the applicant to apply to the graduate program and explain what led the applicant to this career path and how they will excel in the field of special education. The admission committee pays particular attention to the quality of writing and ideas expressed in the personal statement.

The professional resume should be one to two pages and include relevant personal, professional, educational and community activities.

The personal statement and professional resume should be prepared in one of the following file formats: MS Word (.doc), rich text (.rtf), Portable Document Format (.pdf), or text (.txt).

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year.= Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/master-special-education/) for program descriptions and to request more information.

Career opportunities

Graduates are prepared to start or advance in educational careers working with diverse learners in grades K-12 in roles= that do not require certification. Students gain skills in instruction, assessment, educational research and collaborating= in teams --- all of which prepare them to successfully work in schools and other community-serving organizations. Roles= may include noncertified educator in a charter or private school, or educator in a nonschool setting.

This program also may be suitable for certified teachers who do not have an undergraduate or graduate degree in= education.

Teacher Certification, Certificate (TETEACGRCT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Online

Program description

If you want to obtain teaching licensure in a compressed time frame while working in a classroom or taking the= traditional route for certification, the graduate certificate in teacher certification is a flexible certification program= designed for you.

Through online courses, video-based teaching observations and supportive coaching, the certificate qualifies as a= pathway to Arizona teacher certification in elementary education, secondary education or special education (mild or= moderate). Coursework may be completed over the span of three semesters, depending on the start date.

There are two pathways for this program:

The alternative pathway requires you to be employed as a full-time teacher of record, also known as an apprentice= teacher, aligned with your certification area (elementary, secondary or special education) before enrolling in the= program.

The traditional pathway allows you to complete an internship and student teaching placement in your certification area= (elementary, secondary or special education).

You can choose to transfer credit hours to a Master of Education program in elementary education, an MEd program in= secondary education, or an MEd program in special education within three years of starting the graduate certificate= program.

You earn an institutional recommendation for Elementary Education, K-8; Secondary Education, 6-12; or Special= Education, K-12 Mild/Moderate Disabilities through the Arizona Department of Education.

To be eligible for an elementary, secondary or special education certification in Arizona, you must:

pass the appropriate Arizona educator subject knowledge exam and the professional knowledge exam offered through= the National Evaluation Series or Arizona Educator Proficiency Assessments

or • hold a conferred bachelor's or master's degree with the content area listed in the degree title and receive a passing score on the professional knowledge exam offered through the National Evaluation Series or Arizona Educator Proficiency Assessments

STEM-OPT extension eligible: No

Degree requirements

25 credit hours - Secondary Education Track - Physical Education, Alternative Certification, or
25 credit hours - Secondary Education Track - Physical Education, Traditional Certification, or
25 credit hours - Secondary Education Track, Alternative Certification, or
25 credit hours - Secondary Education Track, Traditional Certification, or
28 credit hours - Elementary Education Track, Alternative Certification, or
28 credit hours - Elementary Education Track, Traditional Certification, or
29 credit hours - Special Education Mild/Moderate Track, Alternative Certification, or
29 credit hours - Special Education Mild/Moderate Track, Traditional Certification

Required Core (5 credit hours)
TEL 510 Instructional Design, Planning and Assessment (2)
TEL 517 Creating Equitable Learning Environment: Decision Making and Action (3)

Tracks (13, 16, or 17 credit hours depending on track to certification)
Elementary Education Track (16)
Secondary Education Track, Traditional or Alternative Certification (13)
Secondary Education Track - Physical Education Traditional or Alternative Certification (13)
Special Education Mild/Moderate Track, Traditional or Alternative Certification (17)

SEI Endorsement (3 credits)
ELL 515 Structured English Immersion (SEI) Methods (3)

Other Requirements (4 credit hours)
EED 557 Internship I (2)
EED 571 Apprentice Teaching I (2)
EED 574 Apprentice Teaching II (2)
EED 578 Residency/Student Teaching in Elementary Education (2)
SED 557 Internship I (2)
SED 571 Apprentice Teaching I (2)
SED 574 Apprentice Teaching II (2)
SED 578 Residency/Student Teaching in Secondary Education (2)
SPE 556 Internship I (2)
SPE 571 Apprentice Teaching I (2)
SPE 574 Apprentice Teaching II (2)
SPE 578 Residency/Student Teaching in Special Education (2)

Additional Curriculum Information
The courses for the track and other requirements depend on the student's track and route to certification (traditional or alternative).

If a student is on the alternative path for certification and moves over to a traditional path, they may be able to substitute student teaching for apprentice teaching with program approval.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)

International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the Mary Lou Fulton College for Teaching and Learning Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in any field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:
• graduate admission application and application fee
• official transcripts
• professional resume
• personal statement
• proof of English proficiency

Additional Application Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should describe the personal and professional goals that motivated applicant to apply to the graduate certificate, and explain what led them to this career path and how they will excel as an educator. The admission committee pays particular attention to the quality of writing and ideas expressed in the personal statement.

The professional resume should be one to two pages and include relevant personal, professional, educational and community activities.

The personal statement and professional resume should be prepared in an MS Word (.doc), Rich Text (.rtf), Portable Document Format (.pdf), or Text (.txt) file format.

Fingerprint clearance is required for enrollment in the first term of placement. A copy of the applicant's identify verified fingerprint clearance card (front and back), also known as an IVP card, should be included or a copy of the Arizona DPS fingerprint card application if the IVP card has not yet been acquired at the time of program application. Students should visit the DPS site for information on applying for and receiving an IVP fingerprint clearance card. For out-of-state students, confirmation of fingerprint clearance or a background check in the host state is equivalent to IVP fingerprint clearance.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/graduate-teacher-certification/) for program descriptions and to request more information.

Career opportunities

Graduates are highly sought-after teachers in public, charter and private education institutions. Students gain skills in teaching, using technology and collaborating in teams, all of which prepare them to succeed in a career educating learners in elementary education (grades K-8) or secondary education (grades 6-12).

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential= licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for= licensure or certification in another state. For more information, students should visit the ASU professional licensure= (https://admission.asu.edu/academics/licensure) webpage.

Technology for Teaching and Learning, Certificate (EDEDTTGRCT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe

ASU is not currently accepting applications for this program.

Program description

If you are a classroom teacher who wants to become skilled in integrating technology in the curriculum, the graduate= certificate in technology for teaching and learning is for you.

You acquire the knowledge and skills needed to meet the National Education Technology Standards for Teachers,= developed by the International Society for Technology in Education and being adopted by the National Council for= Accreditation for Teacher Education.

The certificate program can be completed within two years.

STEM-OPT extension eligible: No

Degree requirements

15 credit hours including the required capstone course (EDT 591)

Students must successfully complete four out of a possible six educational technology courses before completing a= three credit hour required capstone course.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applications are currently closed.

Technology for Public Health, School of

Public Health (Public Health Technology), MPH (THPHPHTMPH)

College/School: School of Technology for Public Health

Campus: Downtown Phoenix, Online

Program description

Locally and globally, nothing is more important than protecting the public's health. However, around the world, public health systems are not structured in ways that empower them to swiftly and effectively respond to evolving threats.

The Master of Public Health program prepares you to be a new type of leader, one who is prepared to create innovative solutions by building and deploying advanced technologies for measuring, screening, preventing or intervening in public health.

The program, which emphasizes health promotion and disease prevention, particularly in vulnerable populations, offers you coursework that seamlessly weaves together core public health competencies with elements of human-centered technology, including:

• data science
• design-thinking and systems engineering
• environmental health
• epidemiology and biostatistics
• geographic information systems
• health policy and ethics
• leadership, entrepreneurship and innovation
• programming languages
• social and behavioral sciences
• web and app design

The concentration in public health technology bridges the disconnect between public health and other historically siloed disciplines to create impact at scale.

Training you to be proficient in public health and technology requires more than classroom-based learning. The program exposes you to an array of tools and technologies, and it teaches you how to apply these effectively in authentic settings. Community organizations and transdisciplinary faculty members lead you in an applied learning experience that enables you to experience applicable population health issues while demonstrating public health competencies. An integrative learning experience offers you the opportunity to integrate and synthesize competencies from multiple disciplines.

Arizona State University is an applicant for accreditation by the Council on Education for Public Health. The accreditation review will address the MPH in public health technology. Other degrees and areas of study offered by this institution will not be included in the unit of accreditation review.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

49 credit hours including the required capstone course (TPH 585)

Required Core (15 credit hours)
ASB 554 One Health (3)
BST 515 Applied Biostatistics in Medicine and Informatics (3)
POP 644 Epidemiology in Population Health (3)
TPH 501 Foundations of Public Health I (3)
TPH 502 Foundations of Public Health II (3)

Concentration (18 credit hours)
TPH 551 Public Health Technologies (3)
TPH 552 Systems Design and Engineering for Public Health (3)
TPH 553 Health Technology and Equity (3)
TPH 554 Artificial Intelligence and Machine Learning in Public Health (3)
TPH 555 Health Communication, Behavior and Technology (3)
TPH 557 Public Health Technology Ethics, Policy and Law (3)

Other Requirements (4 credit hours)
TPH 580 Practicum (3)
TPH 591 Seminar (1)

Restricted Electives (9 credit hours)

Culminating Experience (3 credit hours)
TPH 585 Capstone in Public Health Technology (3)

Additional Curriculum Information
The approved topic for TPH 591 is Entrepreneurship and Leadership for Public Health.

The capstone in the public health technology concentration fulfills the integrative learning experience requirement for the MPH degree. The capstone requires the student to produce a high-quality written product that is appropriate for the student's educational and professional objectives. Written products can vary, and might include the following: program evaluation report, literature review, training manual, policy statement or legislative testimony with accompanying supporting research. Other technology-based examples might include the code of a prototype software, bookended with an introduction and discussion that explains how this prototype demonstrates integration of foundational and concentration competencies. A poster presentation is not an acceptable high-quality written product. Ideally, the written product is developed and delivered in a manner that is useful to external partners, such as nonprofit or governmental organizations. At least one faculty member reviews each student's performance on the written work and evaluates it based on a faculty-developed rubric to ensure the written work addresses the selected foundational and concentration-specific competencies.

The practicum, or applied practice experience, is a foundational component of the MPH curriculum, providing students with the opportunity to apply their experience with public health technologies, theories and competencies to a practical setting. Students are encouraged to engage in a variety of activities --- including the ASU Public Health Technology Corps, internships, practicums, service learning, cocurricular activities and more --- in both governmental and nongovernmental organizations, nonprofits, industries, for-profit settings or university-affiliated settings primarily focused on community engagement. Upon successful completion of the APE, students have:

• applied academic knowledge to practical public health challenges
• demonstrated attainment of at least five competencies, including at least three foundational competencies, through practical and applied settings

• developed professional skills and enhanced their career readiness
• produced at least two suitable, nonacademic work products that benefit the practice site, demonstrating individual competency attainment

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the School of Technology for Public Health.

Applicants must have earned a bachelor's or master's degree in public health, medical sciences, engineering, computer science, liberal arts or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• professional resume
• three letters of recommendation
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should articulate the applicant's reasons for wanting to enroll in the MPH program at ASU and explain how they intend to use their degree in their future career in public health. Personal statements are generally expected to be between one and two pages, single-spaced, in length. This personal statement offers applicants an opportunity to express their personal motivations and demonstrate how the MPH program aligns with their professional aspirations.

Letters of recommendation must be from academic or professional sources who are familiar with the applicant's potential to be successful in the field of public health or public health technologies.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/public-health-masters-online/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Critically analyze essential services and core functions of public health through classroom assignments
- Proficiently apply quantitative methodologies and data to support evidence-based public health research, policy, and practice.
- Develop innovative solutions to address complex public health problems using skills, tools, mindsets, and strategies from at least one technology and engineering field

Career opportunities

Graduates with an MPH degree with a concentration in public health technology can be employed in academic institutions, government agencies, nonprofit organizations and health-related industries. Graduates are prepared for leadership roles in various sectors, including federal, state and local government; the private sector; and national, global and community-based organizations.

Career opportunities include:

- biostatistics
- corporate wellness
- data science and data visualization
- device and software development
- health data management
- health policy
- health promotion and disease prevention
- health technology and related fields
- industry health technology
- public health education

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.Each CEPH-accredited or CEPH-applicant graduate school or program identifies students eligible to take the certification exam (https://ceph.org/about/org-info/who-we-accredit/accredited (https://ceph.org/about/org-info/who-we-accredit/accredited/)). Candidates who pass the exam under these criteria are provisionally certified until graduation. Students attending schools and programs in CEPH-applicant status remain provisionally certified until graduation and the program receives full CEPH accreditation. More information on the credential is available on the National Board of Public Health website (https://www.nbphe.org/certified-in-public-health/cph-eligibility-requirements (https://www.nbphe.org/certified-in-public-health/cph-eligibility-requirements/)).

Public Health Technology, MS (THPHTMS)

College/School: School of Technology for Public Health

Campus: Downtown Phoenix, Online

Program description

Locally and globally, nothing is more important than protecting the public's health. With issues such as extreme heat, misinformation, infectious and noncommunicable diseases, and reproductive and mental health, public health affects

everyone.

However, public health systems --- which are responsible for protecting the health and well-being of the communities they serve --- are not structured in ways that empower them to swiftly and effectively respond to these layered and evolving threats.

The School of Technology for Public Health at ASU is creating a revolutionary approach in an emerging field to modernize and transform public health through the Master of Science program in public health technology. In addition to foundational public health knowledge, you are trained in the skills, tools, mindsets and strategies from technology and engineering fields to create and implement novel technology solutions to measure, screen, prevent and mitigate public health-related outcomes.

Serving as a catalyst to build and deploy the products, programs and systems needed to shape public health now and into the future, you design and deploy public health technologies such as:

• biosensors and wearables to promote health behavior and literacy
• geospatial technologies to better understand and improve social determinants at the neighborhood and community levels
• novel diagnostics and wastewater-based epidemiology for early threat detection
• remote monitoring equipment to prevent hospital readmissions
• smartphone apps to deliver just-in-time interventions

This transdisciplinary degree weaves together focused coursework from complementary fields such as computer science, geographic information science, data science and visualization, engineering, and global or population health to seamlessly integrate core public health competencies with elements of human-centered technology, systems engineering, data science and design.

The MS program in public health technology welcomes you, whether you are a full-time student or working professional, or are from a background with technology or engineering experience, with little prior health experience.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

STEM-OPT extension eligible: Yes

Degree requirements

30 credit hours including the required applied project course (TPH 593)

Required Core (27 credit hours)
TPH 501 Foundations of Public Health I (3)
TPH 550 Data Science for Public Health (3)
TPH 551 Public Health Technologies (3)
TPH 552 Systems Design and Engineering for Public Health (3)
TPH 553 Health Technology and Equity (3)
TPH 554 Artificial Intelligence and Machine Learning in Public Health (3)
TPH 555 Health Communication, Behavior and Technology (3)
TPH 556 Public Health Technology Entrepreneurship, Innovation and Leadership (3)
TPH 557 Public Health Technology Ethics, Policy and Law (3)

Culminating Experience (3 credit hours)
TPH 593 Applied Project (3)

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
U.S. applicants (https://admission.asu.edu/apply/graduate/admission)
International applicants (https://admission.asu.edu/apply/international/graduate)
English proficiency (https://admission.asu.edu/apply/international/graduate/english-proficiency)

Applicants must fulfill the requirements of both the Graduate College and the School of Technology for Public Health.

Applicants must have earned a bachelor's or master's degree in public health, medical sciences, engineering, computer science, liberal arts or related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours of their first bachelor's degree program or a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

Applicants are required to submit:
• graduate admission application and application fee
• official transcripts
• personal statement
• professional resume
• three letters of recommendation
• proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of their current residency.

The personal statement should articulate the applicant's reasons for wanting to enroll in the MS program at ASU and explain how they intend to use their degree in their future career in public health technology. Personal statements are generally expected to be between one and two pages, single-spaced, in length. This personal statement offers applicants an opportunity to express their personal motivations and demonstrate how the MS program aligns with their professional aspirations.

Letters of recommendation must be from academic or professional sources who are familiar with the applicant's potential to be successful in the field of public health or public health technologies.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/graduate/public-health-technology/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This program's learning outcomes include the following:

- Critically evaluate technology and engineering solutions when addressing complex problems in public health through a classroom project and an applied project
- Communicate complex public health concepts to diverse audiences effectively through an applied project
- Proficiently apply data science methodologies to public health data to support evidence-based public health research, policy, and practice

Career opportunities

Graduates with a MS in public health technology are prepared for leadership roles in various sectors, including federal, state and local government; the private sector; and national, global and community-based organizations.

Career opportunities include:

- corporate wellness officer
- data scientist and data visualization analyst
- device and software developer
- health data manager
- health policy analyst
- health technologist and related positions
- industry health technology officer
- lecturer in public health

Graduates can be employed in health-related organizations including:

- academic institutions
- county and state health departments
- for-profit industries
- national governmental health organizations
- nongovernmental organizations
- nonprofits

Undergraduate Programs

Undergraduate Minors (Program Descriptions and Requirements)

African and African American Studies Minor (LAAFRMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: In the minor program in African and African American studies, you examine the culture, arts, history, politics, economics and current status of African Americans, Africans and the African Diaspora, especially in the Caribbean, Central America and South America.

The goal is to prepare you for lifelong learning, advanced study in a variety of fields, and successful careers and productive public service in an increasingly diverse society.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in African and African American studies requires 15 credit hours, of which nine credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
AFR 200 Introduction to Africana Studies (GCSI)	C	3
AFR 300 Precolonial Africa (GCSI) **or** AFR 301 Race and Racism in Africa/African Diaspora (HUAD) **or** AFR 302 History of Black Women in America (HUAD) **or** AFR 305 The Global History of the Trans-Atlantic Slave Trade (GCSI)	C	3
Upper Division **AFR Elective**	C	6
AFR Elective	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in African and African American studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

The minor program allows students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. Completion of the minor program provides graduates with knowledge and skills that enable them to bring social justice concerns to a variety of professional careers, including law, education, public service, human welfare and social work.

Aging Minor (ASALDMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: People are living longer. While this represents one of the crowning achievements of the last century, it is also a significant challenge. Longer lives must be planned for.

The minor program in aging offers you the opportunity to create positive differences in the lives of older adults. You develop the tools and mindset that enable you to anticipate challenges in existing social structures at every level as the proportion of retired adults increases faster than the number of people in the workforce. You learn to develop solutions for an aging population's needs in areas of personal finance, transportation, increased demands for health care, assisted-living options and recreation.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in aging consists of 15 credit hours of coursework, of which 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		

Requirement	Minimum Grade	Credit Hours
Introductory Coursework		
ASB 102 Introduction to Cultural Anthropology (GCSI)	C	3
PSY 101 Introduction to Psychology (SOBE)		
SOC 101 Introductory Sociology (SOBE)		
Upper Division Aging Core		
COM 417 Communication and Aging	C	6
FAS 436 Sexuality in Mid-Life and Beyond		
IAS 450 Philosophical and Spiritual Issues in Death and Dying (HUAD)		
PSY 447 Psychology of Aging		
SOC 400 Perspectives on Aging		
SOC 418 / CDE 418 Aging and the Life Course (GCSI)		
Upper Division Aging Electives		
COM 417 Communication and Aging	C	6
FAS 436 Sexuality in Mid-Life and Beyond		
HSC 410 Supporting the Health of Older Adults		
HSC 412 Health Issues in Later Life		
IAS 450 Philosophical and Spiritual Issues in Death and Dying (HUAD)		
PSY 447 Psychology of Aging		
SOC 400 Perspectives on Aging		
SOC 418 / CDE 418 Aging and the Life Course (SOBE)		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in aging

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Completion of the minor program in aging is a pathway to a career researching, developing policies for, or providing services to older populations. Employment in associated career fields is expected to increase commensurately with the needs of a growing and diverse population. People who work with aging populations are employed in public and private agencies that deal with a wide variety of social issues, including:

- access to health care
- assisted-living facilities and management
- education
- disabilities
- discrimination
- elder abuse and family support
- health, mental health and end-of-life decisions
- housing
- recreational opportunities
- transportation

American Indian Studies Minor (LAAISMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The American Indian studies minor program offers an interdisciplinary foundation in Indigenous governance, culture and community life. You explore sovereignty, law, education, health and environmental stewardship, as well as Indigenous histories, philosophies and cultural expression while learning from faculty who connect academic study to the real-world priorities of Native nations.

Through a flexible and rigorous curriculum, you complete core courses in American Indian studies and choose upper-division electives that reflect your interests in leadership, sustainability, cultural preservation, research methods or community development. The interdisciplinary curriculum brings together ideas and methods from across fields to explore Indigenous histories, cultures, governance and contemporary issues.

Coursework centers Indigenous perspectives and knowledge systems, encouraging you to think critically and engage respectfully with diverse communities.

Designed to complement all majors, this minor program deepens your understanding of sovereignty, policy and Indigenous governance while strengthening your skills in research, communication and critical analysis.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in American Indian Studies requires 18 credit hours, of which nine credit hours must be upper division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.

Not all courses are available every term. Students should consult Class Search prior to each term to confirm course availability.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in American Indian studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates are prepared for diverse careers that engage with Native nations and Indigenous communities. Graduates develop cultural understanding, policy insight, and analytical and communication skills that are valued in government, education, public health, environmental management, research and nonprofit sectors. They are prepared to work thoughtfully and collaboratively with Native nations, Indigenous organizations, and related professions committed to Indigenous well-being and self-determination.

Students who pair the minor with majors in fields such as political science, sustainability, social work, public policy, justice studies, education or health sciences are well positioned for roles in tribal government, community development, policy analysis and advocacy. The program also provides a strong foundation for graduate or professional study focused on Indigenous governance, law, leadership or social justice.

American Studies Minor (ASAMSMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: The minor program in American studies helps you analyze American history, literature, politics and culture, enabling you to better understand the nation's evolving identity. Drawing on interdisciplinary approaches, it encourages critical thinking and cultural literacy --- skills that are relevant to law, education, government, media and other fields.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in American studies consists of 18 credit hours of coursework, of which 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
AMS 201 Introduction to American Studies (HUAD)	C	3
HRC 200 Introduction to Social and Cultural Analysis (CIVI)	C	3
Upper Division American Studies Electives	C	12

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in social and cultural analysis (American studies); BA in American studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

This minor program is ideal preparation for students seeking employment in the following careers:

- archivist
- copy writer
- editor
- high school teacher
- historian
- history professor
- journalist
- lawyer
- middle school teacher
- museum curator
- political analyst

Advanced degrees or certifications may be required for academic or clinical positions.

Animation Minor (HIANIMMIN)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe, Online

Description: The animation minor program is an opportunity for you to pursue your interest in art and expand any career path with critical thinking and creative problem-solving skills. Across six courses, you learn animation techniques and concepts. You can pursue multiple courses in 2D, 3D or stop-motion animation, or focus on one of those areas. Distinguished faculty members with expertise across an array of distinct areas teach within the field, including independent animation filmmaking, computer-generated imagery, machine learning, virtual reality and extended reality.

In addition to classroom learning, faculty members provide you with professional mentorship opportunities such as assistantships, scholarships, residencies and exhibitions. The program is further augmented by visiting artist and scholar lectures (https://art.asu.edu/events/visiting-artist-and-scholar-series) and public exhibitions (https://art.asu.edu/events) supported by the School of Art Galleries (https://art.asu.edu/galleries), the ASU Art Museum (https://asuartmuseum.org/), the Ceramics Research Center and Archive (https://asuartmuseum.org/research-learning/ceramics-research-center-archive/), and Pyracantha Press (https://art.asu.edu/degree-programs/printmaking/pyracantha-press). These events and activities offer you the opportunity to develop working knowledge of the art world, experience contemporary art and culture, and build a professional network of future colleagues. The program is also enriched by close proximity to cultural institutions in the Phoenix metropolitan area and nearby regions, such as the Phoenix Art Museum, Scottsdale Museum of Contemporary Art, the Heard Museum and the Los Angeles County Museum of Art.

You can visit the animation areas of study (https://art.asu.edu/degree-programs/animation) webpage to learn more about the program and the faculty. You can subscribe (https://art.asu.edu/events/email-list) to the School of Art newsletters and follow the school on social media to engage with the creative community.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in animation consists of 18 credit hours, of which nine credit hours must be upper division. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
ART 116 Introduction to Digital Media	C	3
ART 217 Introduction to Computer Animation	C	3
ARS 445 History of Animation	C	3
Upper Division Animation Elective	C	3

Requirement	Minimum Grade	Credit Hours
ART 394 Topic: 3-D Digital Modeling		
ART 394 Topic: 3D Visual Effects		
ART 417 Storyboarding and Narrative Sequencing		
ART 424 Stop Motion Animation		

Track Courses

Students select one track and complete six hours from that track. At least three credits must be upper division.

Track Course	C	3
Upper Division Track Course	C	3

2D Animation Track

ART 209 2D Digital Animation I		
ART 309 2D Digital Animation II		

3D Animation Track

ART 348 Animation Motion Studies		

Stop Motion Animation Track

ART 224 Basics of Stop Motion		
ART 424 Stop Motion Animation		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: All BFA in art majors

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

This minor enables graduates to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. When combining the animation minor with their major program of study, graduates can find employment in:

- animation
- communications and marketing
- content creation
- data analytics
- graphic design
- medical animation
- policy advocacy
- public relations
- sales
- urban planning

Anthropology Minor (LAASBMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: A minor program in anthropology completes your academic experience by focusing on the lessons and people that make human societies so interesting and challenging to understand, both in the past and in modern times.

A focus in evolutionary anthropology is perfect if you are on a premedical track in which a broad evolutionary

perspective is important for understanding disease processes. A focus in sociocultural anthropology provides you with understanding of human interaction and how social groups function.

Coursework in anthropology complements many majors, and anthropological training provides you with a competitive advantage in the workforce as you learn how to problem-solve creatively and better understand yourself and others.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in anthropology requires 18 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
Minor Core (choose two)		
ASB 102 Introduction to Cultural Anthropology (GCSI)		
ASB 222 Buried Cities and Lost Tribes (HUAD) **or** ASB 223 Aztecs, Incas and Mayas (HUAD)	C	6
ASM 104 Bones, Stones, and Human Evolution (SCIT)		
Upper Division Subfield Courses	C	12
At least two of the three subfields must be represented.		
Archaeology Subfield		
ASB 301 Global History of Health (HUAD)		
ASB 326 Human Impacts on Ancient Environments (SUST)		
ASB 330 Understanding Archaeology (SOBE)

Students choose 12 credit hours from the subfields of archaeology, evolutionary anthropology and sociocultural anthropology (including linguistics). The course completed to fulfill the Core requirement may limit the courses available to fulfill the Upper Division Subfield requirements due to necessary prerequisites.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in anthropology; BS in anthropology

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

The critical thinking skills learned in this minor program are beneficial in any career field that requires understanding human behavior and its motivations, including medicine, marketing, business, consulting and human resources.

The demand in the job market for people with an anthropology background is stimulated by a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data. As the many spheres of human interaction expand globally, people trained in anthropology are increasingly sought for their broad, holistic knowledge and perspectives, which are the hallmarks of anthropology.

Career opportunities include:

- acting as legal advocates in international cases
- analyzing and proposing policies
- conducting postgraduate academic research
- consulting for private and public organizations
- curating cultural resources
- directing nonprofit organizations
- directing programs in the private or public sector
- managing culture or heritage resources in private or public sectors
- modeling infectious diseases
- planning communities
- teaching

Advanced degrees or certifications may be required for academic or clinical positions.

Applied Biological Sciences Minor (TSABSMIN)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic

Description: The minor program in applied biological sciences is a rigorous and practical offering designed to help you understand the interrelationships among evolution, natural history, and the conservation of plants and animals.

Consistent with a polytechnic vision, this program involves extensive interaction with faculty through experience-based learning activities, including:

• faculty-guided research
• field trips
• internships
• laboratories
• service learning projects

You master fundamental biological principles through quality learning in the classroom, as well as work in laboratories and outdoor settings that include the Sonoran Desert, surrounding ecosystems, and the landscape of the greater Phoenix area.

Curriculum

Requirement	Minimum Grade	Credit Hours
The applied biological sciences minor consists of 23 credit hours. Students must complete 15 credit hours in courses offered by the College of Integrative Sciences and Arts.		
ABS 270 Sustainable Biological Systems (SUST)	C	3
BIO 181 General Biology I (SCIT)	C	4
BIO 182 General Biology II (SCIT)	C	4
ABS Elective		3
Upper Division **ABS Elective**		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: All applied biological sciences, biological sciences or biology majors at ASU

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in applied biological sciences can help graduates as they pursue graduate study in professional programs such as medicine, health or veterinary studies.

Applied Computing Minor (ASACOMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Description: In the minor program in applied computing, you combine technical computing skills with an understanding of the impact of computer science in applicable contexts.

Coursework in the minor provides you with a depth of knowledge in databases, networks and systems, and it adds a computational component to your major field of study.

The program is offered by the School of Mathematical and Natural Sciences.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in applied computing; BS in applied computing (cybersecurity); BS in computational forensics

Other Enrollment Requirements: Students must complete ACO 102 Object-oriented Programming, MAT 210 Brief Calculus, and MAT 243/300 Discrete Mathematical Structures/Mathematical Structures with a "C" or higher as prerequisites to coursework in the minor.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Computational and problem-solving skills are in demand in a multitude of career fields, including cybersecurity, web administration, business, government, education, science, medicine and telecommunications.

The applied computing curriculum provides a solid background for employment in positions such as:

- computer network administrator
- computer network technician
- computer programmer
- computer systems analyst
- database administrator
- information security analyst
- information technology manager
- software developer
- software engineer

- web developer

Applied Ethics Minor (ASAPETHMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Description: In the minor program in conflict resolution, you are introduced to philosophy and ethical theory, and develop critical thinking, reading and writing skills. Coursework connects ethical concepts to majors in fields that include health sciences, business, law and computer science, giving you the tools to analyze real-world issues from multiple perspectives. This program adds depth to any degree by encouraging you to consider the human impact of professional decisions and actions.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in applied ethics consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Applied Mathematics Minor (ASAPMMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: In the applied mathematics minor program, you acquire the tools to analyze and create mathematical models used in science, engineering and technology. Foundational courses in calculus, differential equations and linear algebra provide the core language needed to describe systems and predict outcomes. You can then tailor your studies with electives in areas such as mathematical biology, chaos theory, partial differential equations and optimization.

This program complements majors across the sciences, engineering and related fields by enabling you to build strong analytical and problem-solving skills.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in applied mathematics consists of 20 credit hours of coursework, of which nine hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
MAT 271 Calculus with Analytic Geometry II (MATH)	C	4
MAT 272 Calculus with Analytic Geometry III (MATH)	C	4
MAT 275 Modern Differential Equations (MATH)	C	3
MAT 343 Applied Linear Algebra	C	3
Upper Division Applied Mathematics Electives	C	6
MAT 300 Mathematical Structures		
MAT 350 Techniques and Applications of Applied Mathematics		
MAT 371 Advanced Calculus I		
MAT 421 Applied Computational Methods (MATH)		
MAT 422 Mathematical Methods in Data Science		

Requirement	Minimum Grade	Credit Hours
MAT 451 Mathematical Modeling		
MAT 494 Special Topics		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in applied mathematics; BA or BS in mathematics; BS in applied mathematics for the life and social sciences

Other Enrollment Requirements: MAT 270 Calculus with Analytic Geometry I may be needed to meet minor requirements.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates with this minor are prepared for careers that require modeling, data analysis and critical thinking. Career opportunities include these positions:

- bioinformatics scientist
- business intelligence analyst
- clinical data manager
- mathematician, statistician or biostatistician
- molecular and cellular biologist
- natural science manager
- secondary school teacher
- water resource specialist

Advanced degrees or certifications may be required for academic or clinical positions.

Applied Mathematics Minor (LSAPMMIN)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic

Description: The minor program in applied mathematics equips you with the skills to understand and apply mathematical concepts to solve complex problems, analyze data, and model and optimize processes. This minor is an excellent complement if you are majoring in diverse disciplines, preparing for advanced graduate studies, or seeking to enhance your career prospects.

The curriculum explores advanced applied mathematical topics, with a strong focus on their practical applications in the sciences. You gain proficiency in leveraging mathematical theories and techniques, including mathematical modeling, computational methods and statistics, to address relevant challenges and drive innovation across various fields.

Curriculum

Requirement	Minimum Grade	Credit Hours
The applied mathematics minor consists of 21 credit hours, of which 12 must be upper division. At least 12 credit hours of MAT courses must be offered by the College of Integrative Sciences and Arts, of which at least six credit hours must be upper division. A minimum of 15 credit hours of the minor must be earned at ASU.		
MAT 266 Calculus for Engineers II (MATH) **or** MAT 271 Calculus with Analytic Geometry II (MATH)	C	3
MAT 267 Calculus for Engineers III (MATH) **or** MAT 272 Calculus with Analytic Geometry III (MATH)	C	3
MAT 275 Modern Differential Equations (MATH)	C	3
MAT 343 Applied Linear Algebra	C	3
Upper Division Electives		9
ABS 350 Applied Statistics (QTRS) **or** STP 420 Introductory Applied Statistics (QTRS)		
ASC 310 Elements of Scientific Computing		
MAT 300 Mathematical Structures		
MAT 310 Introduction to Geometry		
MAT 350 Techniques and Applications of Applied Mathematics		
MAT 494 Topic: Fish Population Dynamics		
MAT 495 Undergraduate Research **or** MAT 499 Individualized Instruction		

Requirement	Minimum Grade	Credit Hours
PHY 302 Mathematical Methods in Physics II		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BA in applied mathematics

Other Enrollment Requirements: MAT 265 Calculus for Engineers I or 270 Calculus with Analytic Geometry I with a "C" or higher

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in applied math can help graduates use mathematical modeling and computational methods as they pursue careers in biology, natural science management or pathology.

Arabic Studies Minor (LAARBMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the minor program in Arabic studies, you receive instruction in Modern Standard Arabic as well as Arabic, Middle Eastern and Islamic literature, culture and civilization. You learn to communicate effectively in Arabic, interact with native speakers, read current material in Arabic, and write in Modern Standard Arabic.

This program could be highly beneficial to you in all academic disciplines if you are doing research or seeking employment in areas related to the Middle East or other parts of the Arab world. You are encouraged to participate in a study abroad program (https://goglobal.asu.edu/) to gain an immersive educational experience.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in Arabic studies requires 28 credit hours, of which 15 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
Course substitutions may be allowed for heritage and advanced speakers of the language.		
ARB 201 Intermediate Arabic I	C	5
ARB 202 Intermediate Arabic II	C	5

Art History Minor (FAARTHMIN)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe, Online

Description: The art history minor program enables you to pursue your passion for art while strengthening your academic preparation and development of skills that can assist you in your job search and career. If you are interested in enhancing your major with a broad introduction to the study of the history of art, which includes substantial chronological exposure to the history of art from diverse cultures, the curriculum is designed for you.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in art history consists of 18 credit hours of coursework, including 12 credit hours of upper-division electives. A minimum grade of "C" (2.00) is required in all courses for the minor. For those pursuing a minor, a minimum overall GPA of "C" (2.00) is required.		
ARS 101 Art from Prehistory Through Middle Ages (HUAD)	C	3
ARS 102 Art from Renaissance to Modernism (HUAD)	C	3
Upper Division **ARS Elective**	C	12

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

ARS 100 and ARS 300 may not be used toward the art history minor if students have credit in ARS 101 and ARS 102. If a student has completed ARS 100 or ARS 300, then they must complete ARS 201 and ARS 202 instead of ARS 101 and 102.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in art (art history); BA in art (museum studies)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Global opportunities

Global experience: Global Education programs (https://goglobal.asu.edu/) provide an opportunity for students to explore their creative side through an intercultural lens, deepen their understanding of the world, and gain valuable career-building experiences. Study abroad can prove to be a vital accompaniment to any art program, allowing for broad historical and archaeological explorations. Students develop insight into the cultures and minds of some of the world's most notable artists when they experience the places that gave rise to specific artistic styles.

With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture distinctly different from their own. Study abroad encourages students to develop and broaden their intercultural sensitivity, communication skills and leadership ability, and challenges them to think differently. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere. They have the chance to look inside themselves in a way they haven't done before, growing their personal and professional confidence along the way.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates of the art history minor are positioned to expand any career path and enhance their opportunities for future graduate study. A minor within the arts and humanities offers a different perspective that is useful before and after graduation. This minor can help graduates as they pursue careers in the arts and humanities, including design fields, anthropology, archaeology, cultural criticism and museum curation.

Asian Languages - Chinese Minor (LACHIMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the minor in Asian languages with a focus in Chinese, you gain an understanding of the language, literature and cultures of China. You are encouraged to participate in a study abroad program to enhance your education and overall minor experience.

If you're highly motivated and interested in learning Chinese to professional-level proficiency while pursuing the Asian languages minor with a focus in Chinese and an undergraduate major of your choice, you're encouraged to apply to the Chinese Language Flagship program (https://silc.asu.edu/chineseflagship).

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in Asian languages (Chinese) requires 19 credit hours, of which 13 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
Course substitutions are allowed for heritage and advanced speakers of the language.

Requirement	Minimum Grade	Credit Hours
A maximum of six hours are allowed from 200-level courses. Any additional 200-level credit hours completed will be applied toward the 120 credit hours needed for graduation.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BA in Asian languages (Chinese); BA in Asian languages (Chinese) - Chinese flagship; BA in business (language and culture) - Chinese or Chinese native speaker track

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in Chinese have enhanced communication skills and cultural competence that give them an advantage as they pursue careers in political analysis, education, tourism and hospitality, the military, sociology, marketing and various other fields.

Asian Languages - Japanese Minor (LAJPNMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: You can pursue a minor in Asian languages with a focus on Japanese and study the language, literature and culture of Japan while developing advanced abilities in speaking, listening, reading and writing.

A wide variety of electives allows you to pursue your interests in topics such as translation, business, popular culture, technology and classical language. In addition, ASU offers summer and yearlong programs to study abroad (https://goglobal.asu.edu/) in Japan.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in Asian language (Japanese) requires 18 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
Course substitutions may be allowed for heritage and advanced speakers of the language.		
JPN 301 Third-Year Japanese I	C	3

Asian Pacific American Studies Minor (LAAPAMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The Asian Pacific American studies minor program prepares you to address issues of justice, equity and access at the intersections of citizenship, race and ethnicity, gender and sexuality, and class and culture, and to identify actions and solutions based in community experiences and community-based research across multiple disciplines. You have the opportunity to work with a dedicated faculty committed to community-engaged research and student-centered learning.

The program educates you in social justice, the global causes and impacts of Asian and Pacific Islander migration, relational and comparative racial formations, and ethnic studies movements that have made and continue to make a difference in society for all people. The interdisciplinary faculty (https://sst.asu.edu/apas-faculty) comprises expertise in critical ethnic studies, diaspora and globalization, U.S. imperialism and settler colonialism, social networks, immigration, interracial and interethnic relations, and the health and well-being of Asian Pacific American families and communities.

The Asian Pacific American studies program is housed in ASU's interdisciplinary School of Social Transformation, the only school of its kind in the United States.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in Asian Pacific American studies requires 15 credit hours, of which nine credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.

Astronomy Minor (LAASTMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: If you are interested in developing a basic understanding of astronomy and analyzing issues from a scientific viewpoint, the astronomy minor program is for you. You build spaceflight hardware, make observations,

discover planets, explore cosmology, and develop instruments for telescopes and satellites.

With fewer prerequisites and more elective options than the astrophysics minor, this program is a great option if you are curious and come from a variety of majors.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in astronomy consists of a minimum of 23 credit hours, of which at least 15 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
AST 111 Introduction to Solar Systems Astronomy (SCIT)	C	4
AST 112 Introduction to Stars, Galaxies, and Cosmology (SCIT)	C	4
AST 321 Stellar and Planetary Astrophysics	C	3
AST 322 Introduction to Galactic and Extragalactic Astrophysics	C	3
Upper Division Astronomy minor electives		
Upper Division AST Elective Upper Division MAT Elective Upper Division PHY Elective Upper Division SES Elective Electives should be 3 credit courses.	C	9

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in earth and space exploration (astrophysics); BS in astronomical and planetary sciences

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

The astronomy minor supplements other degrees. The problem-solving techniques and skills that graduates have acquired are used in modern astronomy research and applicable to a wide variety of engineering and science careers.

Astrophysics Minor (LAASTPHMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: If you are interested in developing a background in the theoretical modeling and observational techniques of galactic and stellar astronomy, extragalactic astronomy and cosmology, the astrophysics minor program is designed for you.

When you complete the minor, you'll be able to think critically about scientific problems by reducing complex problems to their most important attributes and then designing experiments, observations and theoretical models that address those attributes.

If you are pursuing an astrophysics minor, you are expected to have a strong background in physics and mathematics.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in astrophysics consists of a minimum of 20 credit hours, of which at least 12 credit hours must be upper division. Students complete 12 credit hours of required coursework and select one of three eight-credit hour options to complete the minor.		
A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can		

Requirement	Minimum Grade	Credit Hours
be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
AST 321 Stellar and Planetary Astrophysics	C	3
AST 322 Introduction to Galactic and Extragalactic Astrophysics	C	3
AST 421 Astrophysics I	C	3
AST 422 Astrophysics II	C	3
Option 1		
SES 121 Earth, Solar System and Universe (SCIT)		
SES 123 Earth, Solar System and Universe Laboratory (SCIT)		
SES 126 Exploration of the Universe		
SES 128 Exploration of the Universe Lab		
or **Option 2**		
AST 111 Introduction to Solar Systems Astronomy (SCIT)	C	8
AST 112 Introduction to Stars, Galaxies, and Cosmology (SCIT)		
or **Upper Division Option 3**		
AST Elective		
MAT Elective		
PHY Elective		
SES Elective		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in earth and space exploration (astrophysics); other concentrations of the BS in earth and space exploration are compatible with the astrophysics minor as long as option 2 or option 3 of the minor is pursued.

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

The astrophysics minor supplements other technical degrees. Graduates have learned advanced problem-solving techniques and skills used in modern astrophysics research, which are applicable to a wide variety of engineering and science careers.

Behavior Analysis Minor (TEBEHANMIN)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, West Valley, Online

Description: The minor program in behavior analysis offers you a strong foundation in the principles of applied behavior analysis, equipping you with research-based knowledge and practical skills to address behavioral challenges across diverse settings. This program emphasizes the science of behavior change, preparing you to apply evidence-based strategies that improve outcomes for individuals and communities.

This program meets the behavior-analytic coursework requirements for those pursuing the Behavior Analyst Certification Board® Board Certified Assistant Behavior Analyst® examination Pathway 2 eligibility route.

While the program supports your pursuit of the Board Certified Assistant Behavior Analyst® credential*, this minor is also highly relevant if you seek to enhance your professional skills in ABA without certification. You develop expertise to make meaningful contributions in various fields where behavior analysis is applied.

All courses are delivered online, and coursework for those who choose the campus-based options are also remote and asynchronous. Coursework combines a number of resources and technologies to provide you the opportunity to interact with program faculty and classmates.

*Attaining the BCaBA® credential isn't required. If you are interested in attaining the BCaBA® credential, you must meet additional requirements.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in behavior analysis requires 15 credit hours.		
Required Courses		
SPE 365 Foundations of Behavior Analysis (SOBE)		3
SPE 366 Measurement and Experimental Analysis of Behavior		3
SPE 448 Assessing and Improving Challenging Behavior in Schools and Clinics		3
SPE 449 Assessment and Program Planning for Diverse Learning Needs		3
SPE 450 Professional and Ethical Practice in Behavior Analysis		3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

A minor can help students enhance the marketable skills they acquire in their major program and earn additional certifications and industry credentials.

Program graduates are well prepared to work across various populations and settings --- including home, industry, clinic, school and community environments --- where they provide applied behavior analysis and evidence-based consultative services and support for children, youth and adults.

Professionals with expertise in evidence-based practices in behavior analysis are in high demand. Career examples include:

- Board Certified Assistant Behavior Analyst®
- early interventionist
- Registered Behavior Technician®
- special education teacher

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Biochemistry Minor (LABCHMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: The minor program in biochemistry is designed to give you a solid grounding in the basics of biochemistry to complement your major degree program. It's especially appropriate if your major is in the various disciplines of life sciences, physics, engineering and geology, and if you are planning a career in the fields of medicine and health.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in biochemistry requires 28 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
CHM 113 General Chemistry I (SCIT) **OR** CHM 117 General Chemistry for Majors I (SCIT) **AND** CHM 111 General Chemistry Laboratory for Majors I (SCIT)	C	4
CHM 116 General Chemistry II (SCIT) **OR** CHM 118 General Chemistry for Majors II (SCIT) **AND** CHM 112 General Chemistry Laboratory for Majors II (SCIT)	C	4
CHM 233 General Organic Chemistry I	C	3
CHM 237 General Organic Chemistry Laboratory I	C	1

Requirement	Minimum Grade	Credit Hours
CHM 234 General Organic Chemistry II	C	3
CHM 238 General Organic Chemistry Laboratory II	C	1
BCH 341 Physical Chemistry with a Biological Focus	C	3
BCH 461 General Biochemistry I	C	3
BCH 462 General Biochemistry II	C	3
BCH 467 Analytical Biochemistry Laboratory	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

ASU Online students pursing this minor are required to travel to Tempe campus to complete compressed organic chemistry and biochemistry laboratory courses.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in applied biological sciences (all concentrations); BA and BS in biochemistry; BS in biochemistry (medicinal chemistry); BS in biological sciences (genetics, cell and developmental biology); BS in biological sciences (neurobiology, physiology and behavior); BA and BS in chemistry; BS in chemistry (environmental chemistry); BS in forensic science; BS in health sciences (preprofessional); BS in medical studies; BS in neuroscience

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors

A minor in biochemistry can help students as they pursue careers in medicine and health, chemical and biotechnology industries, research, government laboratories, environmental and food science, teaching and many other technical areas.

Advanced degrees or certifications may be required for academic or clinical positions.

Biological Sciences Minor (LABIOMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: The minor program in biological sciences offers you a flexible curriculum that can be tailored to your interests.

You explore the study of all living things and examine the basic organization of life, how organisms evolve, the role of organisms in the natural environment, how hereditary information is transferred, and the development of biotechnology.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in biological sciences requires 24 credit hours, of which 13 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.

Upper Division **BIO Elective** **or** Upper Division **MBB Elective** **or** Upper Division **MIC Elective** A maximum of three credits of undergraduate research or internship (BIO 484 or MBB 484 or MIC 484 OR BIO 495 or MBB 495 or MIC 495) will be allowed in the minor.	C	9

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in biological sciences (all concentrations); BS in microbiology (all concentrations); BS in molecular biosciences and biotechnology; BS in medical studies; BS in neuroscience; BS in nutrition; BS in public health; BS in applied biological sciences (pre-dental), BS in applied biological sciences (preveterinary medicine); BS in data science; BS in biomedical informatics; BS in forensic science (death investigation); BS in forensic science

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

A minor in biological sciences enables students to develop additional competencies that complement the knowledge and skills they acquire in their majors. Graduates are prepared with critical thinking and valuable problem-solving skills, and the introduction to the processes of research and scientific discovery they have received in the program helps them as they pursue a variety of positions, such as biologist, biological technician, medical and clinical laboratory technologist, zoologist, geneticist and educator.

Biology Minor (ASLSCMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: The biology minor program provides you with a strong foundation in the life sciences, complementing a wide variety of majors. Coursework emphasizes the study of living systems at multiple levels, from molecular and cellular processes to ecological and environmental dynamics. The program enhances your critical thinking, problem-solving and scientific reasoning skills while highlighting the relevance of biology to contemporary issues such as health, sustainability and conservation. When paired with majors outside the sciences, the biology minor creates valuable interdisciplinary pathways. For example, if you are majoring in political science, you may use the combination to prepare for careers in environmental law, while if you are in psychology, you may apply your biological training to studies in neuroscience or health care. This minor is a versatile addition to many academic programs, enriching both your professional preparation and intellectual exploration.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in biology consists of 19 credit hours of coursework, of which 11 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
BIO 182 General Biology II (SCIT)	C	4
CHM 116 General Chemistry II (SCIT)	C	4
Upper Division Ecology, Cell Biology or Genetics Requirement		
BIO 320 Fundamentals of Ecology **AND** LSC 322 Fundamentals of Ecology Laboratory BIO 353 Cell Biology **AND** BIO 354 Cell Biology Laboratory LSC 347 Fundamentals of Genetics **AND** LSC 348 Fundamentals of Genetics Laboratory	C	4
Complete one of the above course pairs.		
Upper Division Biology Electives	C	7
Upper Division BCH Elective		
Upper Division BIO Elective		
Upper Division ENV Elective		
Upper Division FOR Elective		
Upper Division LSC Elective		
Upper Division MIC Elective		
Upper Division PLB Elective		
Upper Division PTX Elective		

Requirement	Minimum Grade	Credit Hours
Courses must have BIO 182 as a prerequisite in order to count toward the Upper Division Biology Electives requirement. Special topics courses (394/494) may be applicable with prior approval. Up to three credit hours of experiential learning (388, 484, 486, 492, 493, 495, 499) may be applied toward this requirement. Seek academic advising prior to enrollment.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA and BS in biology (including all concentrations); BA and BS in environmental science (including all concentrations); BS in biotechnology and bioenterprise; BS in forensic science; BS in pharmacology and toxicology

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates who have completed this minor program along their major have numerous professional options. They are prepared to pursue graduate studies or seek careers in such diverse areas as environmental management and conservation, health professions, laboratory research, primary and secondary school teaching, science advisement to businesses and government, and science writing.

Business Minor (BABUSMIN)

College/School: W. P. Carey School of Business

Campus: Tempe, Online

Description: If you are interested in business courses but wish to pursue majors in other colleges, a minor program in business is for you. The courses available for the minor are designed to appeal to and inform you as a nonbusiness student while covering a wide variety of topics that are important to managers, such as:

• accounting
• computer information systems
• economics

• finance
• management
• marketing
• supply chain management

Curriculum

Requirement	Minimum Grade	Credit Hours
Students must complete 18 credit hours of the specified business minor courses with a grade of "C" (2.00) or better in each course. At least 12 credit hours must be upper division. At least 12 credit hours must be taken at ASU.		
Business Minor Core Courses		
ACC 382 Accounting and Financial Analysis		
ECN 211 Macroeconomic Principles (SOBE) **or** ECN 212 Microeconomic Principles (SOBE)		
FIN 380 Personal Financial Management	C	3
MGT 380 Management and Strategy		
MKT 390 Essentials of Marketing		
SCM 380 Supply Chain Management Foundations		
Upper Division Business Minor Core Courses		
ACC 382 Accounting and Financial Analysis		
FIN 380 Personal Financial Management		
MGT 380 Management and Strategy	C	12
MKT 390 Essentials of Marketing		
SCM 380 Supply Chain Management Foundations		
Business Minor Elective	C	3
Courses not used towards the business minor core may count towards the business minor elective.		

Requirement	Minimum Grade	Credit Hours
ACC 382 Accounting and Financial Analysis		
AGB 420 Food Advertising and Promotion		
AGB 445 Food Retailing		
AGB 456 Food Product Innovation and Development		
CIS 300 Web Design and Development		
CIS 308 Advanced Excel in Business		
ECN 211 Macroeconomic Principles (SOBE) **or** ECN 212 Microeconomic Principles (SOBE)		
FIN 380 Personal Financial Management		
FIN 331 Financial Markets and Institutions		
LES 380 Consumer Perspective of Business Law		
MKT 390 Essentials of Marketing		
MKT 391 Essentials of Selling		
MKT 396 Essentials of Services Marketing		
MKT 398 Essentials of Sports Business		
MGT 380 Management and Strategy		
REA 280 Real Estate Fundamentals		
SCM 380 Supply Chain Management Foundations		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: all W. P. Carey School of Business undergraduate degree programs

Other Enrollment Requirements: None. This minor is open to nonbusiness majors.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies to complement the marketable knowledge and skills they acquire in their majors.

A minor in business can equip students with an understanding of the foundations of business as they pursue careers in management or sales within their industry.

Chemistry Minor (ASCHMMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: The minor program in chemistry offered by the School of Mathematical and Natural Sciences enhances your proficiency and understanding in the field of chemistry. The program's biochemistry and analytical chemistry courses give you experience in the advanced and integrative fields of chemistry.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in chemistry consists of 18 credit hours of coursework, of which a minimum of nine hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
Chemistry Courses	C	9
BCH 341 Physical Chemistry with a Biological Focus		
BCH 371 Modern Concepts in Biochemistry		
BCH 372 Modern Concepts in Biochemistry Laboratory		
CHM 113 General Chemistry I (SCIT)		

Requirement	Minimum Grade	Credit Hours
CHM 116 General Chemistry II (SCIT)		
CHM 233 General Organic Chemistry I		
CHM 234 General Organic Chemistry II		
CHM 237 General Organic Chemistry Laboratory I		
CHM 238 General Organic Chemistry Laboratory II		
CHM 302 Environmental Chemistry		
ENV 499 / FOR 499 / LSC 499 / PTX 499 Individualized Instruction		
FOR 401 Forensic Toxicology		
FOR 423 Forensic Chemistry		
FOR 425 Analytical Chemistry for Life Sciences		
FOR 426 Analytical Chemistry for Life Sciences Lab		
FOR 494 Topic: Forensic Chemistry Lab		
LSC 430 / PTX 430 Environmental and Human Toxicology		
PTX 301 Basics of Pharmacology and Toxicology		
PTX 475 Principles of Toxicology

BCH 341 Physical Chemistry with a Biological Focus		
BCH 371 Modern Concepts in Biochemistry		
BCH 372 Modern Concepts in Biochemistry Laboratory		
CHM 302 Environmental Chemistry		
ENV 499 / FOR 499 / LSC 499 / PTX 499 Individualized Instruction		
FOR 401 Forensic Toxicology		
FOR 423 Forensic Chemistry		

Requirement	Minimum Grade	Credit Hours
FOR 425 Analytical Chemistry for Life Sciences		
FOR 426 Analytical Chemistry for Life Sciences Lab		
FOR 494 Topic: Forensic Chemistry Lab		
LSC 430 / PTX 430 Environmental and Human Toxicology		
PTX 301 Basics of Pharmacology and Toxicology		
PTX 475 Principles of Toxicology		
Up to three credit hours of individualized instruction (499) may apply toward this requirement.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA and BS in environmental science; BS in biology (pharmacology/toxicology); BS in forensic science; BS in pharmacology and toxicology

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates who hold a minor in chemistry are employed in a variety of fields and are well-suited to positions such as laboratory technician, research assistant, environmental scientist, technical advisor, science communication professional, hazard communication specialist, chemical education professional and consultant.

Many growing career fields --- such as forensic science, medicine and environmental quality --- now require a stronger foundation in chemistry, giving graduates of this program a competitive advantage. This minor demonstrates graduates' expanded chemistry knowledge to graduate programs and employers.

Chemistry Minor (LACHMMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The chemistry minor program gives you a solid grounding in the basics of chemistry to complement your major. It's especially appropriate if your major is in the various disciplines of physics, materials science, geology, engineering and life sciences.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in chemistry requires 28 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
CHM 113 General Chemistry I (SCIT) **OR** CHM 117 General Chemistry for Majors I (SCIT) **AND** CHM 111 General Chemistry Laboratory for Majors I (SCIT)	C	4
CHM 116 General Chemistry II (SCIT) **OR** CHM 118 General Chemistry for Majors II (SCIT) **AND** CHM 112 General Chemistry Laboratory for Majors II (SCIT)	C	4
CHM 233 General Organic Chemistry I	C	3
CHM 237 General Organic Chemistry Laboratory I	C	1
CHM 234 General Organic Chemistry II	C	3
CHM 238 General Organic Chemistry Laboratory II	C	1
CHM 325 Analytical Chemistry	C	3
CHM 326 Advanced Analytical Chemistry Laboratory	C	1
Upper Division Biochemistry/Physical Focus	C	8
BCH 361 Principles of Biochemistry **AND** BCH 367 Elementary Biochemistry Laboratory		
CHM 341 Elementary Physical Chemistry **AND** CHM 343 Elementary		

Requirement			Minimum Grade	Credit Hours
Physical Chemistry Laboratory				
or	**Upper Division Advanced Physical Chemistry Focus**			
CHM 345 Physical Chemistry I	**AND**	CHM 348 Physical Chemistry Laboratory I		
CHM 346 Physical Chemistry II	**AND**	CHM 349 Physical Chemistry Laboratory II		

Choose either the Biochemistry/Physical Focus or the Advanced Physical Chemistry Focus for the additional 8 credit hours.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Courses in this program may only be offered once per academic year. See academic advisor for details.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in applied biological sciences (all concentrations); BS and BA in biochemistry; BS in biochemistry (medicinal chemistry); BS and BA in chemistry; BS in chemistry (environmental chemistry); BS in forensic science; BS in health sciences (preprofessional); BS in nutrition; BS in nutrition (human nutrition); BS in medical studies; BS in neuroscience

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A chemistry minor can benefit graduates pursuing careers in chemical, electronics, manufacturing and environmental industries, and in national research and forensic labs.

Civic and Economic Thought and Leadership Minor (LACELMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the minor program in civic and economic thought and leadership, you are trained to read original texts and understand influential ideas in philosophy, economics and politics in order to become a leader in your field of study. Through faculty use of the Socratic method teaching style, you are challenged in the classroom and compelled to think critically about the problems that society faces today.

You participate in a high-impact curriculum and are eligible for a global intensive experience, leadership seminars, an internship program and special access to prominent scholars and visiting fellows.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in Civic and Economic Thought and Leadership requires 15 credit hours, of which nine credit hours must be upper-division. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
CEL 100 Great Ideas of Politics and Ethics (HUAD) **or** CEL 306 Justice and Virtue: Classical Political Thought (HUAD) **or** CEL 308 Liberty and Equality: Early Modern Political Thought (CIVI)	C	3
CEL 200 Great Debates in American Politics (AMIT)	C	3
CEL 352 Debating Capitalism (SOBE)	C	3
Upper Division **CEL Elective**		
CEL Upper Division Elective: students can take three credits of lower-division CEL Elective and only three credits of upper-division CEL Elective if they take CEL 306 or CEL 308 for the required course above (instead of CEL 100).	C	6

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in civic and economic thought and leadership; BS in civic and economic thought and leadership

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

A minor from the School of Civic and Economic Thought and Leadership supports a student's major and can be beneficial to graduates when they seek employment or apply to graduate school. Completion of a minor program demonstrates to employers or schools that the graduate is focused on educational goals and can handle the additional workload.

Graduates who are interested in careers as lawyers, doctors, journalists, educators, foreign service officers, law enforcement officials and political scientists benefit from this liberal arts education. They have the academic foundation to ask informed questions, make sound decisions for the common good, and solve the difficult problems that leaders in any discipline confront.

Classical Civilizations Minor (LACLCVMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The minor program in classical civilization provides you with a solid grounding in ancient civilization and mythology, along with an interdisciplinary introduction to the ancient world as a whole. You add to this base by selecting from a wide variety of courses covering language, literature, art, philosophy, history and religion.

If you study abroad with the Dorrance Scholarship program, you can apply your experience to this minor.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in classical civilizations requires 15 credit hours, of which nine credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BA in international letters and cultures (classical civilization); BA in international letters and cultures (classics)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Some of the most popular career fields among classics students are education, law, the nonprofit sector, medicine and business, according to a survey of more than 600 classics students published in The Classical Journal. Adding the study of classical civilizations to a program of study distinguishes students as having a deeper understanding of the roots of Western civilization, culture and history that serve them in just about any major or career they pursue.

Communication Minor (HSCMNMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: The communication minor program introduces you to the theory and practice of communication across cultural, public, organizational and relational settings. Coursework emphasizes the ways communication shapes identity, builds connections and influences communities. You develop critical thinking, writing and speaking skills that complement a wide variety of majors and career paths. The program's flexible design allows you to select courses that best support your academic and professional interests, making it a valuable addition for those seeking to strengthen their ability to analyze messages, adapt to diverse audiences and succeed in collaborative environments.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in communication consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
COM 100 Introduction to Human Communication (SOBE) If COM 100 is being applied toward a major requirement, a COM upper-division elective may be completed as a substitution.	C	3
COM 225 Public Speaking and Presentations (CIVI)	C	3
Upper Division **COM Elective**		
Up to three credit hours of experiential learning (382, 383, 483, 484, 498, 499) may apply toward this requirement.	C	12

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA and BS in communication

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

The minor in communication is a strong addition to any major. The program enhances preparation for employment in such diverse areas as:

- advertising
- corporate communications
- crisis management
- health communications
- human resource management
- media and public relations
- social media
- training and development

Communication Minor (LSCOMMIN)

College/School: College of Integrative Sciences and Arts

Campus: Downtown Phoenix, Polytechnic

Description: In the minor program in communication, you learn the practical and theoretical aspects of communication. The curriculum emphasizes message-based processes that create, maintain and transform identities, relationships, organizations and cultures through face-to-face and technological contexts.

Curriculum

Requirement	Minimum Grade	Credit Hours
This minor requires 18 credit hours of communication courses. Six credit hours must be taken from COM courses offered by the College of Integrative Sciences and Arts.		

Requirement	Minimum Grade	Credit Hours
COM 100 Introduction to Human Communication (SOBE)	C	3
COM 430 Leadership in Group Communication	C	3
COM Elective	C	3
Upper Division **COM Elective**	C	9

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BA or BS in communication; BA in business (communication)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in communication can help graduates as they pursue careers in marketing, law, human resources, management and numerous related fields.

Community Health Minor (NUCHLTMIN)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, West Valley

Description: If you want to create healthy, sustainable communities, the minor program in community health is for you.

Community health focuses on the actions and conditions needed for the health and well-being of individuals, families and communities. You acquire skills for working with teams in diverse settings to formulate research-based strategies that assist individuals in making healthy and sustainable lifestyle choices.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in community health consists of 15 credit hours. At least nine of the 15 credit hours must be upper-division courses. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
HCR 220 Introduction to Health Professions and the U.S. Health Care System (CIVI)	C	3
HCR 231 Fundamentals of Community Health	C	3
Upper Division Electives	C	9

Requirement	Minimum Grade	Credit Hours
HCR 303 Assessing Needs, Assets and Capacity for Health Education		
HCR 331 Communication within Communities		
HCR 335 Program Development and Management for Community Health		
HCR 336 Environmental Community Health		
HCR 435 Leaders in Community Health		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in community health

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. Students pursuing the community health minor learn about health care and, specifically, the impact that communities have on health care.

Graduates often pursue employment in an organization focused on health care. Advanced degrees or certifications may be required for academic or clinical positions.

Computational Mathematical Sciences Minor (LACMSMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The computational mathematical sciences minor program offers a structured curriculum with a focus on applied math. You develop a framework of scientific computing and numerical analysis skills.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in computational mathematical sciences requires 18 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
MAT 271 Calculus with Analytic Geometry II (MATH) **or** MAT 266 Calculus for Engineers II (MATH)	C	3 - 4
MAT 272 Calculus with Analytic Geometry III (MATH) **or** MAT 267 Calculus for Engineers III (MATH)	C	3 - 4
MAT 342 Linear Algebra **or** MAT 343 Applied Linear Algebra	C	3
MAT 420 Scientific Computing	C	3
MAT 421 Applied Computational Methods (MATH)	C	3
MAT 423 Numerical Analysis I (MATH) **or** MAT 425 Numerical Analysis II	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in actuarial science; BS in applied mathematics; BS in computational mathematical science; BS

in statistics; BS in data science; BA and BS in mathematics (including all concentrations); BAE in secondary education (mathematics)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

A minor in computational mathematical sciences is one of the most versatile minors, offering graduates many potential career options. Graduates are well positioned to pursue careers in computer technology, business, medical research, teaching and education, engineering, software development, governmental research, logistics and finance. Diverse areas of study, such as cancer modeling, weather forecasting and financial modeling, all involve computational mathematical sciences.

Conflict Resolution Minor (ASCNRMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: In the minor program in conflict resolution, you are introduced to theories and practices that enable you to understand, address and transform conflict while dealing with challenges at the micro and the macro levels in professional and cross-cultural contexts, and in individual and collective interactions.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in conflict resolution consists of 15 credit hours of coursework, of which a minimum of nine hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
COM 100 Introduction to Human Communication (SOBE) If COM 100 is being applied toward a major requirement, a COM upper-division elective may be completed as a substitution.	C	3
COM 312 Communication, Conflict, and Negotiation (CIVI)	C	3
COM 371 Language, Culture and Communication (GCSI) **or** COM 463 Intercultural	C	3

Requirement	Minimum Grade	Credit Hours
Communication for Global Leadership and Collaboration (GCSI)		
COM 400 Communication in Professions **or** COM 423 Facilitating Collaboration and Dialogue **or** COM 430 Leadership in Group Communication **or** COM 432 Forgiveness and Reconciliation **or** COM 451 Communication and Work Relationships	C	3
PAX 230 Introduction to Peace Studies (GCSI) **or** JHR 100 Introduction to Social Justice and Human Rights (CIVI)	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: COM 312, a required course in the minor, has a minimum GPA of 2.00.

Incompatible Majors: BA in conflict resolution

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates with this minor have the skills to take an interdisciplinary approach to conflict resolution while being grounded in communication. With this solid background, they are ready to pursue further education or careers in diverse areas and in relevant professions. Potential job titles include:

arbitrator, mediator or conciliator
educator
guidance counselor
human resource manager or specialist
marriage and family therapist
patient representative
residential advisor
social and community service manager

Advanced degrees or certifications may be required for academic or clinical positions.

Construction Management Minor (ESCMGMIN)

College/School: Ira A. Fulton Schools of Engineering

Campus: Tempe

Description: The minor program in construction management offers you coursework in construction management processes that incorporates the technology and industry practices required to ensure a quality-built environment.

Given industry demands for increased numbers of skilled personnel, this program provides you with much-needed supplementary knowledge if you are majoring in architecture, engineering and business as well as if you are majoring in sustainability.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in construction management requires 21 credit hours. A minimum cumulative 2.00 ASU GPA is needed to complete the minor.		
CON 244 Working Drawing Analysis	C	3
CON 251 Microcomputer Applications for Construction	C	3
CON 252 Building Construction Methods, Materials, and Equipment	C	3
CON 383 Construction Estimating		3
CON 453 Construction Technology		3
CON 495 Construction Planning and Scheduling		3
CON 496 Construction Contract Administration		3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in construction management; BSE in construction engineering

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may

be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Construction management graduates can be employed as:

- building services engineers
- building surveyors
- facilities managers
- site engineers
- sustainability consultants

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in counseling and applied psychological science (all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors, diversify their skills with training in another discipline, and improve their job outlook. Although most careers require more training than a minor alone can provide, a minor in counseling and applied psychological science can add value for those pursuing careers in education, social work or health care.

Advanced degrees or certifications may be required for academic or clinical positions.

Criminology and Criminal Justice Minor (PPCRJMIN)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, West Valley, Online

Description: The minor program in criminology and criminal justice allows you to explore issues of crime, law and the criminal justice system while pursuing other undergraduate programs at ASU. The program provides you with the tools

to analyze complex issues and policies within the criminal justice system, enhancing your ability to understand the nature of crime and the system response to lawbreaking.

In addition to the three required courses, which provide a solid understanding of the field, you select electives to meet your specific interests.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in criminology and criminal justice requires 18 credit hours of graded classroom and online coursework (internship or independent study not applicable), of which 12 are upper division. A minimum of 12 credit hours of CRJ resident credit must be completed at ASU.		
Students much complete CRJ 100, at minimum, as the prerequisite for all upper-division CRJ courses. Some upper-division CRJ courses require junior standing.		
CRJ 100 Introduction to Criminal Justice (SOBE)	C	3
CRJ 203 Courts and Sentencing **or** CRJ 230 Introduction to Policing **or** CRJ 240 Introduction to Corrections	C	3
CRJ 305 Gender, Crime, and Criminal Justice **or** CRJ 306 Race, Ethnicity, Crime, and Criminal Justice (CIVI)	C	3
CRJ 309 Criminology	C	3
Upper Division **CRJ Elective** Choose any two CRJ courses at the 300- or 400-level.	C	6

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Students should consider meeting with a criminal justice advisor prior to registration.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in criminology and criminal justice; BS in public service and public policy with the following concentrations: criminology, law and policy, or emergency management and homeland security

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Graduates of the criminology and criminal justice minor find a strong job market in the public and private sectors. Employment opportunities exist in:

- bank fraud investigation
- corrections
- the court system
- domestic terrorism investigation
- federal agencies
- homeland security
- law enforcement
- legal offices
- parole offices
- private security
- probation offices
- victim advocate agencies

Graduates also may pursue advanced degrees in law, criminology and criminal justice, and other social science disciplines. Advanced degrees or certifications may be required for academic or clinical positions.

Data Science Minor (LADATSCMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: In the minor program in data science, you gain skills in statistics, probability and coding in the context of large data sets. You become proficient in understanding and manipulating data sets to draw conclusions and make recommendations that impact practical settings.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in data science requires 25 credit hours, of which 16 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
DAT 250 Data Science and Society	C	3
DAT 300 Mathematical Tools for Data Science	C	3
DAT 301 Exploring Data in R and Python	C	4

DAT 402 Machine Learning for Data Science	C	3
MAT 265 Calculus for Engineers I (MATH) **or** MAT 270 Calculus with Analytic Geometry I (MATH)	C	3 - 4
MAT 266 Calculus for Engineers II (MATH) **or** MAT 271 Calculus with Analytic Geometry II (MATH)	C	3 - 4
MAT 343 Applied Linear Algebra **or** MAT 342 Linear Algebra	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: All majors in the School of Mathematical and Statistical Sciences

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Graduates with a minor in data science may be more valuable to prospective employers. They have enhanced critical thinking and decision-making skills, which help them as they pursue careers in areas as diverse as business, engineering, science, industry and government.

Design Studies Minor (ARDSNMIN)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe

Description: If you are interested in design, you can earn a minor in design studies through this nonstudio-based program of study that focuses on the design disciplines offered in The Design School:

• architectural studies
• graphic design
• industrial design
• interior design
• landscape architecture

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in design studies consists of 18 credit hours, of which nine credit hours must be upper division. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
Lower Division Design Studies	C	
ALA 100 Introduction to Environmental Design (HUAD)		
ALA 102 Landscapes and Sustainability (SUST)		
ARC 101 Architecture Project I		
ARC 102 Architecture Project II		
ARC 111 Architecture of Architecture I		

Requirement	Minimum Grade	Credit Hours
ARC 112 Architecture of Architecture II		
DSC 101 Design Awareness (HUAD)		
EDS 223 Design Thinking		
GRA 101 Designing Life		
GRA 111 Graphic Design History I (HUAD)		
GRA 112 Graphic Design History II		
GRA 225 Communication/Interaction Design Theory		
GRA 294 Topic: Illustrator		
GRA 294 Topic: InDesign		
GRA 294 Topic: Photoshop		
IND 242 Materials and Design		
IND 243 Design for Ecology and Social Equity (SUST)		
INT 111 Interior Design Issues and Theories (HUAD)		
INT 121 Introduction to Computer Modeling for Interior Design		
INT 123 Introduction to Computer-Aided Design and Building Information Modeling		
INT 131 Design and Human Behavior (SOBE)		
LAP 231 Introduction to Digital Applications for Designers		
LAP 251 Plant Materials for Sustainable Landscapes		
Upper Division Design Studies	C	12
APH 494 Topic: Frank Lloyd Wright		
APH 494 Topic: Peter Zumthor		
APH 494 Topic: The Image of Rome		

Requirement	Minimum Grade	Credit Hours
ARC 330 World and Western Architecture for Nonmajors **or** ARC 331 World and Western Architecture I		
ARC 332 World and Western Architecture II		
ARC 394 Special Topics		
ARC 431 Contemporary Architecture and Urbanism 1970 to the Present (HUAD)		
ARC 434 Great Cities (HUAD)		
ARC 436 Charles and Ray Eames		
ARC 494 Special Topics		
DSC 394 Topic: Design Entrepreneurship & Society		
DSC 494 Special Topics		
EDS 301 Sustainable Community Design and Practices (SUST)		
GRA 345 Design Rhetoric		
GRA 401 Creative Environment		
GRA 440 Finding Purpose		
IND 316 20th-Century Design I (HUAD)		
IND 317 20th-Century Design II (HUAD)		
IND 344 Human Factors in Design		
IND 354 Principles of Product Design		
INT 310 History of Interior Design I (HUAD)		
INT 311 History of Interior Design II (HUAD)		
INT 415 Latin American Design (GCSI)		
INT 494 Topic: Contemporary Design Issues in Europe		
INT 494 Topic: Design and Context		

Requirement	Minimum Grade	Credit Hours
LAP 311 History of Landscape Architecture (HUAD)		
LAP 312 Contemporary Topics in Landscape Architecture		
LAP 485 International Field Studies		
LAP 494 Special Topics		
LPH 494 Special Topics		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.50

Incompatible Majors: All majors in The Design School; BA in design studies; BA in design studies (design management)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor program in design studies is intended to provide an overview of design processes and design thinking that can benefit any major within ASU. Many industries, including business and engineering, seek candidates who have experience with and an understanding of design thinking; those who possess this skill have a distinct method of approaching ongoing problems with new insights that lead to solutions.

Digital Audiences Minor (CSDAUMIN)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: Downtown Phoenix, Online

Description: Who are digital consumers? How can they be measured? And how can data-driven strategy better engage and grow audiences?

By exploring the users of websites, social networks and apps, and applying techniques across digital analytics, social media, search engine optimization and search engine marketing, you gain a rich understanding of how to acquire and engage audiences with digital content and campaigns.

The digital audiences minor program uses real cases from actual brands and organizations to explore tools such as Google Analytics and Meta Ads, and tactics including competitive keyword research and digital advertising. Upon completion, you have a portfolio of authentic client work and the skills to strategically grow digital audiences and harness analytics to drive organizational change.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in digital audiences requires 15 upper-division credit hours.		
Students must complete MCO 307 first, followed by MCO 320, MCO 433, MCO 434 and MCO 438 in any order. Students must earn a "C" or better in all courses to be awarded the minor.		
MCO 307 The Digital Audience	C	3
MCO 320 Brand Storytelling	C	3
MCO 433 Social Media Campaigns, Engagement and Research	C	3
MCO 434 Search Engine Research and Strategy	C	3
MCO 438 Digital Audience Analysis	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in digital audiences

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may

be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates pursue careers in digital advertising, SEO, social media strategy and email marketing, as well as roles in communication, marketing, engagement and strategy at organizations in their major fields.

Digital Media Literacy Minor (CSDMLMIN)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: Online

Description: The minor program in digital media literacy prepares you to be at the forefront of strategic and ethical issues related to digital media, including misinformation and disinformation, automation, verification, security and privacy. You explore how media is created, consumed and researched, and how better information creates better communities.

You learn to use advanced tools and tactics to analyze media, verify and interpret information, exercise your freedom of expression, and use content to improve your own life and society.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in digital media literacy requires 15 credit hours, of which 12 are upper division. Students must maintain a 2.00 cumulative GPA and complete each minor course with a grade of "C" or better in order to be awarded the minor.		
MCO 120 Media and Society (HUAD)	C	3
MCO 425 Digital Media Literacy I	C	3
MCO 325 Data Literacy and Reasoning	C	3
MCO 302 Media Research Methods	C	3

Requirement	Minimum Grade	Credit Hours
MCO 418 History of Mass Communication (HUAD) **or** MCO 427 Misinformation and Society **or** MCO 428 Digital Media and Freedom of Expression in the 21st Century	C	

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BA in digital media literacy

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Graduates of this program pursue a variety of professional and educational opportunities. The program's liberal arts foundation --- including critical thinking, communication, research and problem-solving --- gives graduates the intellectual agility to thrive in many fields. Specialization in the technical, ethical, legal, social and economic aspects of digital media is especially valuable as employers of all sizes make an effort to leverage digital media to serve consumers.

As organizations aim to keep up with digital transformation and plan for the future, having a deep understanding of how digital ecosystems work is critical. Demand for graduates with digital media literacy is anticipated to rise in fields such as health care communication, public service and sustainability; the U.S. Bureau of Labor Statistics categorizes many jobs in these areas as having a bright outlook in the job market.

Given increasing emphasis on teaching media literacy to students of all ages and at every level, graduates can expect to find employment opportunities in a variety of educational settings. Some pursue graduate school in disciplines such as education, library science, law, public policy, business, public relations, digital strategy and journalism.

Disability Studies Minor (ASDISASMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: ASU Sync , Online

Description: In the minor program in disability studies, you explore historical, linguistic, social, artistic and legal dimensions of disability, with the goal of improving society in ways that benefit those with disabilities.

The curriculum combines theory and practice, preparing you to address injustices, exclusions and misapprehensions regarding disabilities through advocacy and self-advocacy, education, knowledge of the law and historical awareness. The coursework, designed to complement any undergraduate major, uses an electronic portfolio tailored to your professional interests.

Format options
The disability studies minor program is offered in two formats: ASU Online and ASU Sync.

ASU Online: The online program offers all coursework virtually (https://asuonline.asu.edu/students/courses/). Courses are typically offered in a 6-7.5 week format, and they're taught asynchronously (no set time to attend class each week). You access course content on your own schedule and complete assignments by preset deadlines.

ASU Sync: The Sync program (https://provost.asu.edu/sync) is a flexible minor option that allows you to attend classes virtually or in person. Courses in the minor (i.e., DST courses) are offered virtually, as either iCourses or live virtual lectures with faculty and peers (Sync classes). Courses required outside the minor, such as general studies or electives, are offered in person or virtually as iCourses. You should review Class Search (https://catalog.apps.asu.edu/catalog/classes) to determine course format options offered each semester to ensure that you can attend courses in the modalities available. The Sync program option is open to Arizona residents and nonresidents. If you are not an Arizona resident, you should should consider time zone differences because most Sync classes are scheduled according to local Arizona time.

If you are an international students on F-1 or J-1 immigration status, you should consult the International Students and Scholars Center (https://issc.asu.edu/) regarding eligibility and restrictions for Sync or other virtual courses.

If you are seeking to use GI Bill® benefits for ASU Sync programs, you should contact the Pat Tillman Veterans Center.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill).

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in disability studies consists of 18 credit hours of coursework, of which 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
DST 101 Introduction to Disability Studies (CIVI)	C	3

Requirement	Minimum Grade	Credit Hours

Early Childhood Education Minor (TEECEDMIN)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, West Valley

Description: A minor program in early childhood education enables you to combine knowledge gained in your major discipline with an understanding of educational practices for young children and their families.

You complete specialized coursework in topics such as childhood development, advocacy in early childhood, educational psychology, and family and cultural diversity.

The goal of this program is to prepare you to understand child development and apply that knowledge when collaborating with other educators in schools and other learning environments, such as preschools and community centers.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in early childhood education requires 18 credit hours, of which 9 must be upper division.		
Required Courses		
CDE 350 Inequality and Diversity in Education (SOBE) **or** FAS 370 Family Ethnic and Cultural Diversity (CIVI) **or** HEP 443 Emotional Health and Interpersonal Relationships **or** JUS 235 Disability, Justice and Advocacy (HUAD)		3

Requirement	Minimum Grade	Credit Hours
ECS 312 Social and Emotional Development of the Young Child (SOBE)		3
ECS 430 Systems, Policy, and Advocacy in Early Childhood/Special Education		3
EDP 310 Educational Psychology for Non-Teachers Students must complete three 1-hour EDP 310 courses.		3
SPE 222 Orientation to Education of Exceptional Children (CIVI)		3
TEL 215 Introduction to Child and Adolescent Development (SOBE)		3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: All education majors

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in early childhood education acquire knowledge and skills related to child development and educational support. They are prepared to pursue careers that require working with young children and their families in a variety of educational settings, including childcare providers and after-school programs.

Economics Minor (LAECNMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: Economics is a social science that examines how societies, businesses and individuals deal with scarcity. The minor program in economics offers instruction by distinguished researchers and award-winning professors, helping you build a foundation of economics and data analysis that supports your investigation of the forces shaping national and global economies.

You create a personalized program of study that covers economic theory and applications, and upper-division offerings suit your individual interests and goals.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in economics consists of 18 credit hours in economics courses, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be taken in courses offered by the W. P. Carey School of Business. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
ECN 211 Macroeconomic Principles (SOBE)	C	3
ECN 212 Microeconomic Principles (SOBE)	C	3
Upper Division **ECN Elective** No more than three credit hours of ECN 484 Internship may be applied to the minor.	C	12

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in economics; BS in economics (politics and the economy); BS in politics and the economy

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in economics may help graduates as they pursue careers in business, finance, government and law.

Educational Studies Minor (TEEDSTMIN)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, West Valley, Online

Description: The educational studies minor program prepares you to work with children, youth and adults in a variety of learning contexts.

You broaden your skill set by completing specialized coursework in topics such as pedagogy, educational technology and problem-solving.

You learn how to apply educational techniques in many professional settings. The program provides a foundation for you to make an impact as educators in a society in which the importance of lifelong learning and learning outside traditional school-based environments is likely to grow.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in educational studies includes six hours of required courses and nine hours from overview of education courses, for a total of 15 credit hours.		
Required Courses		
Select two courses:		
EDT 180 Technology Literacy: Problem Solving using Digital Technology Applications	C	6
SPE 223 Intersection of Society, Disabilities and Inclusion (CIVI)		
TEL 111 Exploration of Education (HUAD)		
TEL 208 Education in a Changing World (GCSI)		
TEL 215 Introduction to Child and Adolescent Development (SOBE)		

Requirement	Minimum Grade	Credit Hours
Upper Division Overview of Education Courses		
Select three courses:		
EDU 301 Why Education?		
EDU 302 Diversity in Learning Contexts	C	9
EDU 402 Partnering to Advance Educational Initiatives		
LSE 303 Human Development: Addressing Learner Capabilities (SOBE)		
LSE 305 Conceptualizing Learning: Theories in Practice		
LSE 401 Designing Learning Environments for Inclusion (SOBE)		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: All education majors

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Engineering Management Minor (ESENMMIN)

College/School: Ira A. Fulton Schools of Engineering

Campus: Tempe, Online

Description: The curriculum for the minor program in engineering management supplements your major by adding to the breadth of engineering science and design and by equipping you with additional management and design skills. This knowledge is augmented by an understanding of business practices, organizational behavior and management skills, enabling you to succeed in the management of a scientific or engineering enterprise.

Topics covered include project and resource management, financial engineering, risk management, configuration management, service plans, product liability, entrepreneurship and operations management, in addition to product design and process development.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in engineering management requires completion of 18 credit hours: three core courses (nine credit hours) and three elective courses (nine credit hours). All courses must be passed with a "C" or better. At least 12 credit hours must be completed in residency at ASU or through ASU Online.		
IEE 300 Economic Analysis for Engineers	C	3
IEE 380 Probability and Statistics for Engineering Problem Solving (QTRS)	C	3
IEE 458 Project Management **or** CEE 481 Civil Engineering Project Management	C	3
Electives (choose 3)	C	9
IEE 369 Work Analysis and Design		
IEE 376 Operations Research Deterministic Techniques/Applications		
IEE 381 Lean Six Sigma Methodology		
IEE 412 Introduction to Financial Engineering		
IEE 431 Engineering Administration		
IEE 437 Human Factors Engineering		

Requirement	Minimum Grade	Credit Hours
IEE 454 Risk Management		
IEE 456 Introduction to Systems Engineering		
IEE 474 Quality Control		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

CEE 481 may not be used for both the BSE in civil engineering and the minor in engineering management.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BSE in engineering management; BSE in industrial engineering

Other Enrollment Requirements: Before they enroll in the minor, students must have completed MAT 265 Calculus for Engineers I and MAT 266 Calculus for Engineers II (or an equivalent calculus sequence) with a grade of "C" or higher in each.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. The minor in engineering management can help students pursuing careers in engineering and business fields to gain valuable skills in management for engineering-related professions, potentially fast-tracking them into a managerial role down the line in their profession.

Career examples include production supervisor, project management team member and project management team leader.

English Minor (ASENGMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: In the English minor program, you strengthen your analytical skills, shape your own ideas, and flexibly develop your own interests. English courses are regularly offered in fiction and poetry; periods and authors in British, American and global literature; women's and ethnic literature; and creative and expository writing.

You have the opportunity to gain practical publishing experience with the literary magazine Canyon Voices (https://newcollege.asu.edu/canyonvoices).

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in English consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
ENG 200 Critical Reading and Writing About Literature (HUAD)	C	3
Upper Division **ENG Elective**	C	3
Complete one course from each of the four distribution clusters below. At least nine credit hours must be upper division from across the clusters. Individual courses do not apply to more than one requirement.		
Borders, Boundaries, Citizenship Distribution Cluster	C	3
ENG 221 English Literature to 1800 (HUAD)		
ENG 222 English Literature, 1800 to Present (HUAD)		
ENG 241 Literatures of the United States to 1860 (HUAD)		
ENG 242 Literatures of the United States, 1860 to Present (HUAD)		
ENG 328 The Novel to Jane Austen (HUAD)		
ENG 333 American Ethnic Literature		
ENG 334 The American Southwest in Literature and Film (HUAD)		
ENG 342 20th-Century British and Irish Literature		

Requirement	Minimum Grade	Credit Hours
ENG 353 African American Literature: Beginnings through the Harlem Renaissance (HUAD)

ENG 440 Studies in American Literature and Culture		
ENG 472 Rhetorical Studies		
ENG 484 Topic: Pen Project Prison Teaching		

Notes

Prerequisite courses may be needed in order to complete the requirements of this

minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in English; BA in English (secondary education)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates who have completed a minor in English are better prepared for professional training in law, business, teaching and public policy; for careers in marketing, public relations, government, diplomacy and community work; and for other professions in which problem-solving, creativity, research strengths, writing, interpersonal and digital skills are necessary and valued.

Advanced degrees or certifications may be required for academic or clinical positions.

English Minor (LSENGMIN)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic

Description: In the minor program in English, you focus on effective writing, critical thinking, and reading sophisticated literary and nonliterary texts.

Curriculum

Requirement	Minimum Grade	Credit Hours
The English minor consists of 18 credit hours. A minimum of nine upper-division credit hours is required, of which at least six credit hours must be taken through the College of Integrative Sciences and Arts. A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.		
ENG 200 Critical Reading and Writing About Literature (HUAD)	C	3
ENG Elective	C	6
Upper Division **ENG Elective**	C	9

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00 cumulative GPA

Incompatible Majors: BA in English

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in English can help graduates as they pursue careers in any field in which effective written communication and textual interpretation are important, including publishing, marketing, law, journalism, management, education and numerous other fields. Advanced degrees or certifications may be required for academic or clinical positions.

Environmental Science Minor (ASENVMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: In the environmental science minor program, you gain a fundamental understanding of how the natural world functions as a system, how changes in this system influence organisms and humans, and how humans impact this system.

An understanding of human-environment interactions gained through this minor augments your major field of study. The curriculum is designed for you to explore your interests from a variety of majors; you can choose from categories of scientific coursework and skill-based curricula that offer applied experiences.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in environmental science consists of 15 credit hours of coursework, of which 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
ENV 201 Fundamentals of Environmental Science (SUST)	C	3
IAS 407 Environmental Philosophy and Policy (SUST) **or** PHI 407 Environmental Philosophy and Policy (SUST) **or** IAS 409 Eco-Community Ethics **or** PHI 409 Eco-	C	3

Requirement			Minimum Grade	Credit Hours
Community Ethics	**or**	PHI 310 Environmental Ethics (SUST)		
Upper Division Environmental Science Electives			C	9
Global/Ecosystem Focus:				
BIO 422 Ecosystem Ecology				
CHM 302 Environmental Chemistry				
ENV 410 Soil Science				
LSC 434 Marine Ecology				
MIC 443 The Microbial Universe	**AND**	MIC 444 The Microbial Universe Laboratory		
Organismal Focus:				
BIO 370 Vertebrate Zoology				
BIO 385 Comparative Invertebrate Zoology				
BIO 410 Techniques in Conservation Biology and Ecology				
BIO 412 Conservation in Practice				
BIO 474 Herpetology				
Upper Division PLB Elective				
Skills in Environmental Science:				
ENV 345 Spatial Analysis in the Environmental Sciences				
ENV 388 STEM Research Fundamentals				
ENV 485 Environmental Impact Assessment				
ENV 499 Individualized Instruction				

Requirement	Minimum Grade	Credit Hours
Elective options are grouped together by thematic tracks. Students may choose electives from multiple tracks.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS and BA environmental science; BS and BA environmental science (environmental justice)

Other Enrollment Requirements: The first course in this minor, ENV 201, has prerequisites of BIO 181 General Biology I, BIO 182 General Biology II and CHM 116 General Chemistry II.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates have the foundational knowledge they need to apply environmental concepts and awareness to their future careers.

Many career fields have environmental applications, including:

- academic research
- business
- economics
- entrepreneurship
- health

Career opportunities are many, including positions in:

- environmental policy agencies
- federal and state agencies
- municipality planning offices
- nongovernmental and nonprofit organizations
- private consulting firms

Advanced degrees or certifications may be required for academic or clinical positions.

Environmental and Resource Management Minor (ESERMMIN)

College/School: Ira A. Fulton Schools of Engineering

Campus: Polytechnic

Description: In the minor program in environmental and resource management, you receive a thorough introduction to environmental regulations and key environmental management issues, such as the provision of clean, potable water; wastewater treatment; solid and hazardous waste management; and remediation technologies for polluted soils, groundwater and air. You learn to apply basic science and engineering principles to solving problems that significantly impact human health and ecosystems.

This program is a valuable addition to majors that focus on environmental issues, whether from a technical or a policy perspective. The courses form a coherent whole and demonstrate the connections among science, engineering, public policy, management and the law.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor requires completion of four core courses (12 credit hours) and two elective courses (six credit hours) for a total of 18 credit hours. At least 12 credit hours must be completed in residency at ASU. Courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.		
ERM 201 Environmental Management	C	3
ERM 203 Environmental Regulations	C	3
ERM 302 Water and Wastewater Treatment Technology	C	3
ERM 401 Hazardous Waste Management	C	3
Upper Division Electives	C	6
ERM 402 Unit Treatment Technologies		
ERM 406 Environmental Chemistry		
ERM 407 Occupational Hygiene		
ERM 426 Environmental Issues		
ERM 428 International Environmental Management		
ERM 432 Sustainable Solid Waste Management		
ERM 494 Topic: Algal Bioprocess and Biosystems Engineering		
ERM 494 Topic: Environmental Management Leadership		

Requirement	Minimum Grade	Credit Hours
ERM 494 Topic: Water and Food Security		
ERM 494 Topic: Environmental Health		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in environmental and resource management

Other Enrollment Requirements: Interested students must have at least sophomore status.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. Graduates with the skills gained in this minor are in high demand and can find work in industry, governmental management and regulatory agencies, and policymaking organizations.

Fashion Minor (HIFSHMIN)

College/School: Herberger Institute for Design and the Arts

Campus: Downtown Phoenix, Online

Description: The minor program in fashion offers grounding in the history, social context and economics of the contemporary fashion industry. You also have the option of pursuing more focused classes designed to introduce you to a variety of roles in this important industry: fashion history, fashion industry business practices and fashion production.

This minor program complements degree programs through subjects including marketing and merchandising, costuming, wearable technology, sustainability, management and leadership, and fashion and culture, as well as through international experience. Because of the relationship of these subjects to a wide variety of disciplines taught at ASU, many students throughout the university may supplement their major with closely-related fashion minor classes, creating a strong foundation for a variety of careers. Opportunities for study abroad can further advance your

professional goals.

Taught by well-known fashion industry professionals, you develop connections to leaders in the field.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in fashion requires 19 credit hours, of which nine credit hours must be upper division. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
Required Courses		
FSH 200 Textiles Science Lab (SCIT)	C	1
FSH 201 Textiles Science (SCIT)	C	3
Upper Division **FSH Elective**	C	3
Fashion Tracks		
Students complete 12 credit hours (six must be upper division) from a single track below. **Note:** The Fashion Design Track requires in-person classes only offered at Downtown Phoenix or Los Angeles. All other tracks are available for remote, online based learning.		
Apparel Technical Design Track	C	6
FSH 256 Digital Patternmaking and Fit Analysis I		
FSH 258 Technical Design I

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in fashion (including all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in fashion can help students as they pursue careers in fashion history, fashion industry business practices and fashion production.

Film and Media Production Minor (FAFMPMIN)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe

Description: The minor program in film and media production equips you with skills in basic film production and narrative techniques while teaching you about the history, theory and ethics of filmmaking, television and digital media. The program meaningfully supplements a wide variety of degrees.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in film and media production consists of 18 credit hours, of which nine credit hours must be upper division. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
FMP 180 Principles of Production Technology	C	3
FMP 280 Introduction to Film and Media Production	C	3
FMP 288 Understanding Ethics in Filmmaking	C	3
FMP 360 The Filmmaker's Voice	C	3
Upper Division Film Electives		
FMP 300 Short Film Production		
FMP 330 Professional and Technical Writing for Film/TV Industry		
FMP 340 Approaches to International Cinema (GCSI)		
FMP 355 Transborder Digital Media Making		
FMP 394 Topic: Acting and Directing in the Sound Studio		
FMP 395 Combat in Film	C	6
FMP 403 Independent Film (HUAD)		
FMP 405 Film and Television: Pioneers, Practices and Innovations		
FMP 417 Business and Legal Practices in Entertainment		
FMP 494 Topic: Borderlands Visionary Filmmakers Master Classes		
FMP 494 Topic: Directing the Personal Documentary		
FMP 494 Topic: Immersive Aspects of Sound		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in film (filmmaking practices); BA in film (film and media production); BFA in film and media production

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. Graduates with a minor in film and media production have marketable skills in narrative techniques and media production that help them stand out in competitive industries.

Film and Media Studies Minor (LAFMSMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: In the minor program in film and media studies, you engage in critical and creative study of film and media. You can choose from a variety of courses, including digital media analysis, film styles and genres, film and media franchises, video games and screenwriting.

ASU's Department of English has an extensive internship program, offering placements in publishing, media and marketing, government, nonprofits and film festivals. The department also boasts top online programs, rigorous undergraduate research opportunities, and options for cultural and community involvement.

Curriculum

Requirement	Minimum Grade	Credit Hours
The film and media studies minor consists of 18 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
FMS 100 Introduction to Film and Media Studies (HUAD)	C	3

Food and Nutrition Entrepreneurship Minor (ECFNTRMIN)

College/School: College of Health Solutions

Campus: Downtown Phoenix

Description: If you are interested in developing a greater understanding of nutrition, the food industry and food service operations, the food and nutrition entrepreneurship minor program is for you.

You gain basic knowledge and skills that can be used toward starting and managing your own business in the food industry. Some areas of study include:

• food service purchasing and management
• nutrition communication
• nutrition management and leadership
• nutrition science

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in food and nutrition entrepreneurship consists of 19 credit hours, of which 13 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.		
HSC 310 Health Communication **or** NTR 448 Community Nutrition	C	3
NTR 100 Introduction to Nutrition Science **or** NTR 241 Human Nutrition	C	3
NTR 142 Applied Food Principles	C	3
NTR 343 Food Service Purchasing	C	3
NTR 344 Nutrition Management and Leadership **or** NTR 360 Nutrition Entrepreneurship	C	3
NTR 445 Management of Food Service Systems	C	4

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BAS in applied nutrition and health; BS in applied nutrition and health; BS in dietetics; BS in nutritional science

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in food and nutrition entrepreneurship have additional knowledge in nutrition basics and leadership, which is beneficial for a career in restaurant management or food marketing.

Forensic Psychology Minor (ASFPSYMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Description: Forensic psychology is the application of psychology to the law. The minor program in forensic psychology is ideal if you are majoring in an area other than psychology and wish to learn about the intersection of mental health, behavior and cognition, and the legal system. The minor combines a basic overview of the field of psychology with coursework focused on the elements of psychology that touch the legal system such as criminal behavior, psychological assessment and rehabilitation, legal investigation, court proceedings and mental health.

This program further teaches you about the various roles for psychologists in the legal system and helps you discover which roles you might like to pursue.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in forensic psychology consists of 18 credit hours of coursework, of which 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
PSY 101 Introduction to Psychology (SOBE)	C	3
PSY 211 The Criminal Mind (SOBE)	C	3
PSY 366 Psychological Disorders (SOBE)	C	3
PSY 368 Forensic Psychology	C	3
PSY 467 Psychology of Criminal Investigation	C	3

Requirement			Minimum Grade	Credit Hours
PSY 468 Psychology and Law	**or**	PSY 474 Correctional Psychology	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA and BS in psychology (including all concentrations); BS in counseling and applied psychological science (including all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors) for program descriptions and to request more information.

Global opportunities

Global experience: Study abroad allows students in the psychology program to acquire enhanced knowledge and experience that enable them to stand out in many career fields. Students are exposed to unique differences in the human condition worldwide, are able to improve language and cross-cultural skills for effective communication, and are challenged to adapt under new social and cultural circumstances.

With more than 300 options available, whether in a foreign country, in the U.S. or online, Global Education programs (https://goglobal.asu.edu/) give students a global perspective and knowledge in preparation for their career. Students in the New College of Interdisciplinary Arts and Sciences can explore how their varied fields and interests interact in different settings around the world.

Career opportunities

Graduates with a minor in forensic psychology are more competitive for positions in the court, law enforcement, corrections and behavioral health areas. They often work in the areas of justice, mental health, research and human services. The minor program also serves as an introduction to the more advanced study of forensic psychology, which, with additional graduate-level training, can qualify graduates to practice as a forensic psychologist.

Forensic Science Minor (ASFOREMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Description: Forensic science encompasses the application of a wide variety of specialties to the legal system.

The minor program in forensic science equips you with a fundamental understanding of the basic principles of forensic science, modern laboratory practices, evidence-based critical thinking, and comprehensive knowledge of the ethical and practical considerations involved in case reports and testimony in this field. Additionally, electives within the minor offer you the opportunity to explore the specific forensic applications associated with any particular major or chosen career path.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in forensic science consists of 15 credit hours of coursework, of which 11 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

SIF 494 / SBS 494 Topic: Humanitarian Forensics		

Requirement	Minimum Grade	Credit Hours
Up to 3 credit hours of experiential learning (FOR 484/499) may apply toward this requirement.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in forensic science; BS in forensic science (death investigations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors) for program descriptions and to request more information.

Global opportunities

Global experience: Students can learn about science and law enforcement in other countries through study abroad (https://goglobal.asu.edu/). Being immersed in another culture broadens horizons and develops professional skills such as cross-cultural communication and critical thinking.

Career opportunities

Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. This program prepares students for many potential applications of their degree across a diverse suite of high-demand employment opportunities.

Scientific and technological advances in the field of forensic science as well as continually increasing caseloads in law enforcement are projected to increase the number of forensic science technicians needed over the next decade. The U.S. Bureau of Labor Statistics estimates that between 2024 and 2034, employment of forensic science technicians will increase 13%, an average increase much greater than in most occupations.

Incompatible Majors: BA and BS in geography; BS in geography (meteorology-climatology)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation.

Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Graduates with a minor in geography are strong candidates for positions that require an understanding of landforms, water, plants, weather and people --- and the interactions that take place among them. This understanding can be valuable in a variety of careers and fields, including:

business
city and urban planning
community outreach
government agencies
marketing
nonprofit organizations
sustainability
tourism

Geological Sciences Minor (LAGLGMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: If you are interested in developing a basic understanding of earth science and analyzing issues from a scientific viewpoint, the geological sciences minor program is for you.

You gain an understanding of Earth's interior and surface processes and structures and be able to think critically about scientific problems using theoretical and observational methods from geology.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in geological sciences consists of 21 credit hours, of which at least 13 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		

Requirement	Minimum Grade	Credit Hours
GLG 101 Introduction to Geology I (Physical) (SCIT)	C	3
GLG 103 Introduction to Geology I: Laboratory (SCIT)	C	1
GLG 102 Introduction to Geology II (Historical) (SCIT)	C	3
GLG 104 Introduction to Geology II: Laboratory (SCIT)	C	1
GLG 310 Structural Geology	C	3
GLG 321 Mineralogy	C	3
SES 401 Earth and Space Exploration Colloquium	C	1
Upper Division **GLG Elective** GLG upper division elective courses should be 3 credits each.	C	6

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in earth and environmental sciences; BS in earth and environmental sciences; BS in Earth and space exploration (astrobiology and biogeosciences); BS in Earth and space exploration (geological and planetary sciences)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates have a solid background in earth materials and processes that are fundamental to careers in environmental engineering and planning, science education, hydrogeology, water resources and scientific publishing, and in many government and nongovernmental agencies.

German Minor (LAGERMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: Through the minor program in German, you gain insights into the largest European economy and a key player in global politics. Studying the German language, culture and history not only complements degrees across a wide variety of fields but also helps you gain an understanding of centuries of philosophy, music and art.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in German requires 18 credit hours, of which 15 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
Course substitutions may be allowed for heritage and advanced speakers of the language.		
GER 201 Intermediate German I **or** GER 202 Intermediate German II **or** GER 210 Intensive German II Three credit hours of 200-level coursework will be applied to the minor and any additional credit hours will be applied toward university elective hours.	C	3
GER 312 Explore German Culture (GCSI)	C	3
GER 420 Discover - Discuss - Design: German Language and Culture	C	3
Upper Division GER Courses		
GER 310 Making Sense of German Grammar GER 311 Express Yourself in German (GCSI) GER 313 Create in German: Writing, Speaking, Performing GER 319 Work with German	C	6
Upper Division **GER Elective**	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BA in German

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in German helps students with communication and cultural competency skills as they pursue careers in political analysis, education, tourism and hospitality, the military, sociology, marketing and various other fields.

Career opportunities

In Arizona and elsewhere, there is a pressing need for professionals with appropriate skills to work in cross-cultural settings or with underserved populations --- such as migrants, minorities and those living in poverty --- and many opportunities in this area are directly or indirectly related to health.

Nationally and internationally, the health field provides enormous and varied career opportunities, and demand is high and growing for graduates with specific skills. This program supports the goals of those pursuing careers in academic research, teaching and health services. Employment venues include:

departments of health
government agencies (e.g., Centers for Disease Control and Prevention)
international agencies (e.g., World Health Organization, Global Health Council, World Bank, Inter-American Development Bank)
nongovernmental organizations
private sector
universities

The program also provides a broad intellectual base for those interested in advanced specialist health training in fields such as:

- dentistry
- medicine
- nursing
- pharmacy

Global Studies Minor (LASGSMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: The minor program in global studies offers you exposure to global processes and institutions from a transdisciplinary perspective. The program provides you with an introduction to the tools and skills necessary to make connections linking theory with challenging global issues.

Curriculum

Requirement			Minimum Grade	Credit Hours
The minor in global studies requires 18 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.				
SGS 101 Thinking Globally (GCSI)	**or**	SGS 301 Principles of Global Studies (GCSI)	C	3
SGS 303 Global Trends (GCSI)			C	3
Upper Division **SGS Elective**				
A maximum of three credit hours of SGS 484 International Experience or three credit hours of SGS 499 Individualized Instruction may be applied to the minor.			C	9
SGS Elective			C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in global studies; BA and BS in international relations

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in global studies have developed critical thinking and communication skills and cross-cultural awareness. These skills prepare graduates to pursue careers in diplomacy, foreign service, global trade and marketing, or international relations.

Health Care Compliance and Regulations Minor (NUHCCRMIN)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix

Description: The minor program in health care compliance and regulations integrates best practices from the business, regulatory, ethics and medical fields. You acquire the foundational and advanced knowledge required to support regulatory compliance in a health care environment. The program's focus on regulatory and ethical compliance enhances your major discipline.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in health care compliance and regulations consists of 16 credit hours. At least nine of the 16 credit hours must be upper-division courses. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
HCR 259 Compliance and the Health Care Industry	C	4

Requirement	Minimum Grade	Credit Hours
HCR 264 Regulatory Essentials of Compliance Program Design	C	3
HCR 360 Data Security and Privacy in Health Care Compliance	C	3
HCR 363 Risk Management, Auditing and Monitoring for Health Care Compliance	C	3
HCR 460 Investigations and Disclosures in Health Care Compliance	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in health care compliance and regulations

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

The courses in a minor complement and enhance the skill sets and knowledge that graduates have acquired in their major program. Although most career areas require more training than a minor can provide, graduates of the health care compliance and regulations minor program often pursue careers on the administrative side of health care organizations.

Health Care Coordination Minor (NUHCCOMIN)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, West Valley

Description: The minor program in health care coordination enables you to combine the knowledge of your major discipline with the foundational and advanced concepts of health care coordination.

If you complete this innovative minor program, you have the knowledge to navigate the health care system and assist in the coordination of health care for individuals and families to optimize outcomes.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in health care coordination consists of 15 credit hours. At least nine of the 15 credit hours must be upper-division courses. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
HCR 220 Introduction to Health Professions and the U.S. Health Care System (CIVI)	C	3
HCR 221 Foundational Concepts for Health Care Coordination	C	3
Upper Division Electives		
HCR 302 Social Determinants of Health HCR 321 Advanced Concepts for Health Care Coordination HCR 420 Professional Role Development: Health Care Coordination HCR 422 Policy and Financial Principles in Health Care Coordination	C	9

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in health care coordination

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

The courses in a minor complement and enhance the skill sets and knowledge that students acquire in pursuing their major program. Although most career areas require more training than a minor can provide, graduates with the health care coordination minor often pursue employment in an organization focused on health care.

Health Innovation Minor (NUHCIMIN)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, West Valley

Description: The health innovation minor program provides you with the foundational concepts necessary to contribute to transformational change in current health situations. You acquire an understanding of entrepreneurial thinking and the processes involved in initiating, implementing and sustaining innovation in health settings.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in health innovation consists of 15 credit hours. At least nine of the 15 credit hours must be upper-division courses. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
HCI 311 Health Innovation: Foundational Concepts	C	3
Upper Division **HCI Elective**	C	6
HCI Elective	C	6
A maximum of 3 credits of HCI 484 may apply to the minor.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.		

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in health entrepreneurship and innovation; BAS in applied science (health entrepreneurship and innovation)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Although most career areas require more training than a minor can provide, students who complete the health innovation minor program often pursue employment in an organization focused on health care, and they use their skills to help effect change within the organization.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Not all courses on the course lists are available every term or available in both on-campus and online formats. Students should consult the class schedule prior to each term to confirm course availability.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in history; BA in history (secondary education); BAE in secondary education (history)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in history can help graduates as they pursue careers in many fields, including education, law, public administration, social services, foreign service and communications.

History of Science, Technology and Innovation Minor (LSHSIIMIN)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic

Description: Science and technology shape every facet of modern human life, but all too frequently, the underlying histories and ideas go unexamined. The minor program in the history of science, technology and innovation helps you understand how society reached its present state. The program also prompts you to reflect on what the future might hold by providing a foundation in the social and intellectual issues central to the intertwined histories of science, technology and ideas.

Curriculum

Requirement	Minimum Grade	Credit Hours
The history of science, technology and innovation minor requires 15 credit hours. A minimum of six credit hours must be taken in courses offered by the College of Integrative Sciences and Arts. A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.		
HST 280 History of Science, Technology and Innovation (GCSI)	C	3
Electives	C	3
HST 309 Exploration and Empire (GCSI)		
HST 312 History of Women in Science and Medicine (HUAD)		
HST 318 History of Engineering (HUAD)		
HST 319 History of Aviation (HUAD)		
HST 345 Environmental History (SUST)		
HST 380 Studies in the History of Science		
HST 381 Studies in the History of Ideas		
HST 382 Studies in the History of Innovation and Technology		
HST 482 Writing and the History of Science, Ideas and Technology		
MVS 402 Technology and Warfare (GCSI)		
STS 200 Yesterday's Tomorrows: A History of the Future (HUAD)		
STS 203 Animals, Technology and Society (HUAD)		
STS 303 History of Modern Science and Technology (HUAD)		
STS 330 Information Technology and Artificial Intelligence		

Requirement	Minimum Grade	Credit Hours
STS 331 Ethical Issues in Science and Technology		

Upper Division Electives

HST 309 Exploration and Empire (GCSI)		
HST 312 History of Women in Science and Medicine (HUAD)		
HST 318 History of Engineering (HUAD)		
HST 319 History of Aviation (HUAD)		
HST 345 Environmental History (SUST)		
HST 380 Studies in the History of Science		
HST 381 Studies in the History of Ideas	C	9
HST 382 Studies in the History of Innovation and Technology		
HST 482 Writing and the History of Science, Ideas and Technology		
MVS 402 Technology and Warfare (GCSI)		
STS 303 History of Modern Science and Technology (HUAD)		
STS 330 Information Technology and Artificial Intelligence		
STS 331 Ethical Issues in Science and Technology		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00 cumulative GPA

Incompatible Majors: BA in history; BA in history of science, ideas and innovation

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may

be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

A minor in the history of science, technology and innovation can help students as they pursue careers in education, historical interpretation and conservation, law, compliance and regulation of technology, or any position that requires critical thinking, research and writing skills.

Human Nutrition Minor (ECNTRMIN)

College/School: College of Health Solutions

Campus: Downtown Phoenix

Description: In the minor program in human nutrition, you focus on the science behind nutrition. This includes how:

• your body processes nutrients for energy
• nutrients play important roles in health and disease
• nutritional needs change across the life span

This program also includes the medical nutrition therapy sequence, which provides you with a clear understanding of how nutrition can be used in a medical setting to prevent and treat diseases.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in human nutrition consists of 19 credit hours, of which 16 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.		
NTR 241 Human Nutrition	C	3
NTR 341 Medical Nutrition Therapy I	C	3
NTR 342 Medical Nutrition Therapy Lab	C	1
NTR 440 Advanced Human Nutrition I	C	3
NTR 441 Advanced Human Nutrition II	C	3

Requirement			Minimum Grade	Credit Hours
NTR 444 Medical Nutrition Therapy II			C	3
NTR 446 Medical Nutrition Therapy III	**or**	NTR 450 Nutrition in the Life Cycle (SOBE)	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BAS in applied nutrition and health; BS in applied nutrition and health; BS in dietetics; BS in nutritional science

Other Enrollment Requirements: To enroll in the courses required for the minor, students must complete the following courses:

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Knowledge obtained from this minor is useful for careers in the life sciences, biology, medicine, public health and health policy. Graduates with a minor in human nutrition have enhanced knowledge of how food is digested and metabolized in the body; this information is valuable for those pursuing careers in the health and medical field.

Human Systems Engineering Minor (ESHSEMIN)

College/School: Ira A. Fulton Schools of Engineering

Campus: Polytechnic, Online

Description: In the minor program in human systems engineering, you learn about the science of human performance and gain experience using methods and tools that enable you to apply your understanding to design and problem-solving. These skills can be used in a wide variety of domains, such as product usability, learning design, sports performance, and workplace and hospital safety.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor requires 21 credit hours. All required minor courses must be passed with a "C" (2.00 on a 4.00 scale) or better.		
HSE 101 Introduction to Human Systems Engineering (SOBE)	C	3
HSE 225 Human Systems Integration	C	3
HSE 230 Statistics for Human Systems Research I (QTRS)	C	3
HSE 290 Experimental Methods for Human Systems Research (QTRS)	C	3
HSE 323 Perceptual Systems (SOBE) **or** HSE 324 Applied Cognitive Science (SOBE)	C	3
HSE 325 Human-Computer Interaction	C	3
Upper Division Electives		
HSE 422 Human Factors in Sport HSE 423 Human Factors in Transportation HSE 424 Human Automation Interaction HSE 425 Human Factors in Medical Systems HSE 426 Training and Expertise HSE 427 Designing for Learning HSE 428 Judgment and Decision Making HSE 429 Product Design and Evaluation	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in human systems engineering

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

A variety of professions need experts in human factors. These professionals work on problems whose solutions involve an understanding of human performance in areas that include user experience, aviation human factors, cognitive performance, consumer psychology, transportation human factors, patient safety, effective teamwork, health psychology, learning optimization, social cognition, threat detection and sports psychology.

The human systems engineering minor prepares students for industry and government careers. Graduates may work as a member of a design team for a product or system in a position such as:

- game designer
- human factors engineer
- human systems integrator
- interface designer
- usability engineer
- user experience designer

Innovation in Society Minor (FIFISMIN)

College/School: Rob Walton College of Global Futures

Campus: Tempe, Online

Description: Innovation is fundamentally about empowering people and unlocking their potential to create positive change. That requires a human touch and knowledge of how to put people and communities --- not technology --- first. A minor in innovation in society can be a great addition to a major course of study, preparing you to be a leader in this exciting and fast-growing field.

This program centers on building a foundational knowledge in innovation while honing skills such as scenario planning, policy analysis, the responsible design of innovations, and public engagement. You are equipped to better understand the intricacies of modern-day challenges and anticipate and navigate future trends.

The program's small classes, one-on-one opportunities to work with faculty, and extensive community partnerships create a distinct experience in which you can learn how to grow and strengthen community leadership, capabilities and collaboration for innovation by using tools such as narrative, storytelling, visual art, participatory design and community-centered inquiry.

Curriculum

Requirement	Minimum Grade	Credit Hours
This minor requires a total of 15 credit hours, 12 of which are upper division.		
FIS 111 Welcome to the Future (CIVI)	C	3
FIS 307 Futures and Foresight Methods (SOBE)	C	3
Upper Division **FIS Elective**	C	3
Upper Division Futures and Foresight Minor Core		
FIS 305 Managing Knowledge and Change in Organizations		
FIS 338 The Moviegoer's Guide to the Future		
FIS 403 Governing Emerging Technologies		
FIS 407 Advanced Futures and Foresight Methods	C	6
FIS 411 Quantitative Foresight and Trend Analysis		
FIS 412 Harnessing Complexity		
FIS 432 Problem Solving Through Strategic Thinking		
FIS 452 Worldbuilding and Imagination		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BA innovation in society, BS innovation in society

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu) for program descriptions and to request more information.

Global opportunities

Global experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the Rob Walton College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students can find programs specific to their interests on the Rob Walton College of Global Futures study abroad webpage (https://collegeofglobalfutures.asu.edu/student-life/study-abroad/) and additional opportunities and information on the ASU Global Education Office website (https://goglobal.asu.edu/). These sites also include additional information about applying for funding to support global travel.

Career opportunities

As the landscape of science and technology rapidly transforms, the demand for graduates with a nuanced grasp of these changes becomes paramount. Across industries, there is a growing need for expertise in interpreting and guiding advancement in science and technology.

Graduates with this minor have highly sought-after jobs at NASA, the U.S. Department of Energy, Intel, OpenAI and beyond. Preparation in both theoretical and practical facets of innovation makes graduates invaluable assets in tech startups, corporations, nonprofit organizations and governments. This program paves the way to careers that align with the frontiers of contemporary challenges and solutions.

Instructional Design Minor (TELDTMIN)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Downtown Phoenix, Polytechnic, Tempe, West Valley, Online

Description: The minor program in instructional design combines modern learning theory with practical design work. The coursework includes real-world challenges that prompt you to analyze needs, set measurable objectives, create digital learning artifacts and evaluate outcomes. Assignments serve as portfolio pieces with peer and faculty feedback.

All courses are delivered online and incorporate collaborative tools and learning technologies used in the field. These tools support direct interaction between you, faculty and classmates.

The program concludes with a supervised internship, during which you partner with an organization to identify a need, build an online or blended solution, evaluate its impact, and present results to clients and organizational partners.

This minor doesn't lead to teacher certification. If you are seeking teacher certification, you should enroll in another Mary Lou Fulton College for Teaching and Learning Innovation undergraduate program.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in instructional design requires 15 credit hours.		
Required Courses		
LDT 301 Foundations of Instructional Design		3
LDT 320 Digital Learning Theories		3
LDT 330 Design of Digital Learning		3
LDT 410 Assessment and Evaluation for Digital Learning		3
Required Internship		
LDT 484 Internship The required internship is a Session C 15-week course. Students must secure an approved ASU work or volunteer placement for the internship. It is recommended that this be secured three months before the start of your internship. Program faculty can assist in identifying an appropriate internship experience.		3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

There is growing demand for online educators. Companies that develop materials for online students and any organization focused on digital learning need professionals with these skills. Graduates are prepared for instructional

design roles in K-12, higher education, nonprofits and corporate settings. Career examples include:

- curriculum coordinator
- curriculum designer or developer
- distance learning manager
- instructional designer
- media center specialist
- technology coordinator
- training specialist, coordinator or manager

Integrative Health Minor (NUIHLTMIN)

College/School: Edson College of Nursing and Health Innovation

Campus: Downtown Phoenix, West Valley

Description: The integrative health minor program provides you with the foundational knowledge you need to approach health from a holistic perspective that focuses on the mind, body and spirit. This program provides an overview of holistic approaches and emphasizes research; evidence-based approaches; and the legal, ethical, historical and cultural foundations of integrative health care.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in integrative health consists of 15 credit hours, of which 12 are upper-division. Each course must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
HCR 241 Foundations of Integrative Health	C	3
HCR 341 Biological, Manipulative, and Body-Based Therapies	C	3
HCR 342 Mind-Body and Energy Therapies and Modalities	C	3
HCR 343 Historical and Cultural Foundations of Integrative Health Care	C	3
HCR 440 Interprofessional Approaches to Integrative Health Care	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in integrative health

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Students who complete the integrative health minor often pursue employment in an organization focused on health care. Advanced degrees or certifications may be required for academic or clinical positions.

Integrative Social Science Minor (LSISSMIN)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic

Description: The minor program in integrative social science is designed to provide general education in the social sciences, providing you with exposure to the variety of theories and methods of social scientists. You benefit from this minor if you're seeking to expand your analytical, problem-solving and strategic planning skill sets.

This minor is useful if you are an engineer, technologist or other professional whose specialized education may not have included crucial social science research theories and methodologies.

Curriculum

Requirement			Minimum Grade	Credit Hours
The minor requires 15 credit hours, including 12 credit hours of required courses and three credit hours of electives. All 15 credit hours must be taken in residence at ASU with a minimum of six credit hours taken in courses offered by the College of Integrative Sciences and Arts.				
ISS 301 Integrated Social Science Research Methods	**or**	POS 301 Empirical Political Inquiry (SOBE)	C	3
ISS 304 Integrated Theories of Social Science			C	3

Requirement			Minimum Grade	Credit Hours
ISS 401 Statistics for Integrated Social Science (QTRS) (QTRS)	**or**	POS 401 Political Statistics	C	3
STS 304 Science, Technology and Society (SOBE)			C	3
Electives				
Upper Division ISS Elective				
POS 316 American Political Institutions (AMIT) POS 325 Public Policy Development (CIVI) POS 485 Political Economy (SOBE)			C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in integrative social science

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in integrative social science have expanded skills in the analysis of social phenomena and complex social problems and are prepared to pursue careers in strategic analysis, economics and politics.

Interdisciplinary Arts and Performance Minor (ASIAPMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Description: The minor program in interdisciplinary arts and performance offers you a unique opportunity to explore and integrate multiple artistic disciplines while complementing your primary field of study. Rooted in the nationally recognized Bachelor of Arts program, this minor program emphasizes creative experimentation, collaborative learning, and aesthetic innovation across a range of media.

You engage with visual, sound, performance, video, game and interactive arts through both practical and theoretical approaches, developing a versatile artistic perspective. You build skills in collaboration, innovation and critical thinking through a curriculum that encourages boundary-pushing exploration and fosters a dynamic understanding of the arts as it evolves in contemporary contexts.

The minor program enriches creative thinking, enhances cross-disciplinary collaboration, and supports you in crafting your own distinct artistic path --- whether for professional, academic or personal growth.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in interdisciplinary arts and performance consists of 15 credit hours of coursework, of which nine hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
IAP 110 Foundations of Visual Art, Performance and Interdisciplinarity (HUAD) **or** IAP 111 Foundations of Sound, Digital Arts, and Games (HUAD) A previously completed lower division course from the AME, ART, DCE, FMP, MTC, MUP, MUS, THE, or THP subject codes may be applicable in place of IAP 110 or IAP 111. If you have any questions, connect with your academic advisor.	C	3
IAP 201 Introduction to Interdisciplinary Arts (HUAD) **or** IAP 202 Perspectives on Interdisciplinary Arts and Performance (HUAD)	C	3
IAP 304 Traditions of the Avant-Garde and Experimental Art (HUAD) **or** IAP 305 20th and 21st Century Art, Performance, and Media (HUAD)	C	3
IAP 325 Sound Performance: Exploring Alternative Performance Groups **or** IAP 354 Visual Representation **or** IAP 361 Digital Editing and Media Literacy **or** IAP 375 Contemporary Performance: Theories and Practice (HUAD)	C	3
Upper Division **IAP Elective** IAP 394 "Mind and Bodies in Motion", IAP 394 "Oral History & Storytelling in Humanities & Arts", IAP 341, IAP 480, IAP 484, IAP 492, IAP 493, and IAP 499 may not	C	3

Interior Design History Minor (ARINTMIN)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe

Description: The interior design history minor program at The Design School welcomes students across disciplines to study the evolution of interior environments, from ancient to contemporary. Coursework examines global design traditions, introducing theories and methodologies from architecture and interior design while analyzing how spaces have addressed human needs, expressed cultural values, and responded to societal challenges.

You develop skills in visual analysis, historical research, and critical interpretation. The minor explores diverse topics --- including vernacular design, material culture, gender and domesticity, cross-cultural exchange, and sustainable design

movements. This foundation prepares you to understand how historical precedent informs equity-centered practice and the creation of environments that serve the common good.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in interior design history consists of 18 credit hours, of which 12 credit hours must be upper division. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
DSC 101 Design Awareness (HUAD)	C	3
INT 111 Interior Design Issues and Theories (HUAD)	C	3
INT 310 History of Interior Design I (HUAD)	C	3

ARC 434 Great Cities (HUAD)		
ARC 436 Charles and Ray Eames	C	6
ARC 494 Topic: Cinema and the City		
INT 415 Latin American Design (GCSI) **or** INT 494 Topic: Design and Culture in Latin America		
INT 494 Topic: Contemporary Design Issues in Europe		
INT 494 Topic: Design and Context		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.50

Incompatible Majors: BSD in interior design

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

The minor in interior design history can complement professional studies in architecture, interior design, environmental design, art, education and history. Degrees within these disciplines can lead to professional positions in studio design firms, design administration and design education.

Italian Minor (LAITAMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: In the Italian minor program, you acquire the skills to speak, write, read and comprehend Italian through courses and professional opportunities. You gain experience with a variety of research methods that foster your respect for and curiosity about the historical and contemporary cultures of the Italian peninsula and their relationships to global traditions.

You have a choice of four study abroad programs in Italy in which you can focus on developing your linguistic skills and learning more about Italy's contemporary responses to global challenges such as natural disasters and industrialized food systems. In addition, you have opportunities to collaborate on research projects and participate in internships abroad.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in Italian requires 18 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		

Requirement	Minimum Grade	Credit Hours
ITA 311 Speak Italy: Language, People, Culture **or** ITA 312 Write Italy: Language, People, Culture	C	3

Students may apply a maximum of six hours of 200-level ITA courses toward the minor.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BA in Italian

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

A minor in Italian enables students to enhance the marketable skills and knowledge they acquire in their major program with additional communication and cultural competencies.

Graduates with this minor often pursue careers in political analysis, education, tourism and hospitality, the military, sociology or marketing.

Justice Studies Minor (LAJUSMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: If you are interested in developing an understanding of the meaning of justice and injustice and in analyzing controversial issues, the minor program in justice studies is for you. In addition to the two required core courses, you are able to select electives that align with your specific interests.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in justice studies requires 15 credit hours, of which 9 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
JUS 105 Introduction to Justice Studies (HUAD) **or** JUS 305 Principles of Justice Studies (HUAD)	C	3
JUS 303 Justice Theory (CIVI)	C	3
Upper Division **JUS Elective**	C	6
JUS Elective	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA and BS in justice studies

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for

program descriptions and to request more information.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. Graduates with a minor in justice studies bring specialized knowledge and skills pertaining to social justice concerns to a variety of professional careers, including law, education, public service, and human welfare and social work.

Kinesiology Minor (NHKINMIN)

College/School: College of Health Solutions

Campus: Downtown Phoenix

Description: The minor program in kinesiology introduces you to the concepts, theories, research and careers related to the four major subdisciplines of kinesiology:

• biomechanics
• exercise and health psychology
• exercise physiology
• motor behavior

In the minor, you select one of these four subdisciplines as the area of emphasis for the upper-division coursework.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in kinesiology consists of 18 credits, of which 12 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.		
KIN 101 Introduction to Kinesiology	C	3
KIN 290 Introduction to Evidence-Based Practice	C	3
After completion of KIN 101 and KIN 290, students must complete one track. Track options include: Biomechanics, Exercise Physiology, Exercise/Health Psychology, or Motor Behavior.		
Upper Division Biomechanics Track	C	12
Required Course:		

Requirement	Minimum Grade	Credit Hours
KIN 335 Biomechanics		
Track Electives:		
KIN 334 Functional Anatomy and Kinesiology		
KIN 412 Biomechanics of the Skeletal System		
KIN 415 Theory of Corrective Exercise		
KIN 416 Low Back Pain: Muscles and Movement		
KIN 418 Experimental Neuromechanics		

OR

Upper Division Exercise Physiology Track

Required Course:		
KIN 340 Physiology of Exercise		
Track Electives:		
KIN 334 Functional Anatomy and Kinesiology		
KIN 440 Exercise Biochemistry		
KIN 441 Physiology of Women in Sport		
KIN 442 Fuel Metabolism		
KIN 443 Exercise Endocrinology		
KIN 444 Metabolic Adaptations to Exercise Training		
KIN 447 ECG Interpretation		
KIN 460 Theory of Strength Training		
KIN 465 Muscle Physiology		
KIN 466 Cardiovascular Exercise Physiology		

Requirement	Minimum Grade	Credit Hours

OR

Upper Division Exercise/Health Psychology Track

Required Course:

KIN 352 Psychosocial Aspects of Physical Activity (SOBE)

Track Electives:

EXW 400 Stress Management for Wellness

EXW 450 Social Drivers of Health (CIVI)

HEP 380 Body Image and Wellness

KIN 334 Functional Anatomy and Kinesiology

KIN 348 Psychological Skills for Optimal Performance

KIN 450 Biopsychosocial Perspectives on Physical Activity and Health

KIN 452 Exercise Psychology (SOBE)

KIN 454 Motivational Theory in Exercise and Health

OR

Upper Division Motor Behavior Track

Required Course:

KIN 345 Motor Behavior

Track Electives:

KIN 334 Functional Anatomy and Kinesiology

KIN 422 Motor Control in Special Populations

KIN 424 Neural Aspects of Movement and Rehabilitation

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in clinical exercise science; BS in kinesiology; BS in sports science and performance programming; BS in sports science and performance programming (strength and conditioning)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a kinesiology minor have enhanced knowledge of human movement, which is valuable for individuals pursuing careers in the health and medical fields.

Landscape Studies Minor (ARLNDMIN)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe

Description: The landscape studies minor program at The Design School is ideal if you have an interest in landscape architecture but are pursuing a major in another field. Through a wide variety of available courses, this program provides you with the framework for a greater understanding of how landscape architecture shapes the environment for a more sustainable future.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in landscape studies consists of 15 credit hours, of which nine credit hours must be upper division. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
ALA 102 Landscapes and Sustainability (SUST)	C	3
LAP 311 History of Landscape Architecture (HUAD) **or** LAP 312 Contemporary Topics in Landscape Architecture	C	3
LAP 352 Ecosystems and Sustainable Design	C	3

Materials Science and Engineering Minor (ESMSEMIN)

College/School: Ira A. Fulton Schools of Engineering

Campus: Tempe

Description: In the materials science and engineering minor program, you gain an in-depth understanding of materials, including their structure, processing, properties and performance.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in materials science & engineering requires a minimum of 16 credit hours. A minimum cumulative 2.00 ASU GPA is needed to complete the minor. Prerequisite courses may be needed in order to complete the requirements of this minor.		
Minor Required Courses		
MSE 250 Structure and Properties of Materials Students in programs that require MSE 250 will need to take an additional upper-division MSE course in place of MSE 250.	C	3
MSE 355 Structure and Defects	C	3
Upper Division **MSE Elective** Note: MSE 301 does not count towards the minor.	C	6
Materials-Related Lab		
Materials-Related Lab		
MSE 212 Microstructure and Properties Lab Note: MSE 212 is the recommended lab course to fulfill this requirement.	C	1
MSE 356 Thin Film and Microelectronic Devices Lab		
MSE 451 Nanomaterials and Electronics Characterization Lab		

Requirement	Minimum Grade	Credit Hours
Materials-Related Course		
Materials-Related Course		
BME 318 Biomaterials		
CEE 353 Civil Engineering Materials		
CHE 468 Polymer Principles and Processing		
CHM 471 Solid-State Chemistry		
EEE 352 Properties of Electronic Materials	C	3
EEE 436 Fundamentals of Solid-State Devices		
300-Level MSE Elective		
400-Level MSE Elective		
PHY 481 Materials Physics I		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.75

Incompatible Majors: BA in interdisciplinary studies with a concentration in materials science and engineering

Other Enrollment Requirements: Students must hold sophomore status to enroll in this program. To complete the program, students must earn a minimum GPA of 2.50 in all minor courses. Students adding the minor also need to complete:

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

For engineering graduates, a minor in materials science and engineering can expand career opportunities in nanotechnology, electronics, health care, sustainability and energy. For nonengineering graduates, this minor can provide a foundation in sustainability, nanotechnology and materials physics.

Mathematics Minor (ASMATHMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: In the minor program in mathematics, you explore higher-level mathematics, focusing on concepts commonly applied in business, economics and science. The curriculum emphasizes reasoning and the ability to formulate creative solutions to problems.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in mathematics consists of 20 credit hours of coursework, of which 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
MAT 271 Calculus with Analytic Geometry II (MATH)	C	4
MAT 272 Calculus with Analytic Geometry III (MATH)	C	4
MAT 300 Mathematical Structures	C	3
MAT 342 Linear Algebra **or** MAT 343 Applied Linear Algebra	C	3
Upper Division Mathematics Electives	C	6
MAT 310 Introduction to Geometry		
MAT 371 Advanced Calculus I		
MAT 411 History and Philosophy of Mathematics (HUAD)		
MAT 421 Applied Computational Methods (MATH)		
MAT 422 Mathematical Methods in Data Science		
MAT 443 Introduction to Abstract Algebra		
MAT 445 Theory of Numbers		

Requirement	Minimum Grade	Credit Hours
MAT 452 Introduction to Chaos and Nonlinear Dynamics		
MAT 461 Applied Complex Analysis		
MAT 462 Applied Partial Differential Equations		
MAT 472 Intermediate Real Analysis I		
MAT 494 Special Topics		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in applied mathematics; BA or BS in mathematics; BS in applied mathematics for the life and social sciences

Other Enrollment Requirements: MAT 270 Calculus with Analytic Geometry I may be needed to meet the requirements for this minor.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Mathematics is foundational and can be applied to many different types of careers. Math is a crucial part of engineering, life sciences, business, physics, technology, economics and social sciences. These are just a few of the top careers possible with a minor in mathematics:

cryptographer
engineer
financial analyst
mathematician
operations research analyst
statistician
teacher

Advanced degrees or certifications may be required for academic or clinical positions.

Mathematics Minor (LAMATMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The minor program in mathematics is designed for you if you want to further your knowledge of mathematics by developing more organized and logical thinking. It's beneficial if you are majoring in any field where there's a need for quantification in the analysis of information.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in mathematics requires 18 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
MAT 266 Calculus for Engineers II (MATH) **or** MAT 271 Calculus with Analytic Geometry II (MATH)	C	3 - 4
MAT 267 Calculus for Engineers III (MATH) **or** MAT 272 Calculus with Analytic Geometry III (MATH)	C	3 - 4
MAT 342 Linear Algebra **or** MAT 343 Applied Linear Algebra	C	3
Upper Division **ACT Elective** **or** Upper Division **DAT Elective** **or** Upper Division **MAT Elective** **or** Upper Division **STP Elective** In consultation with an academic advisor in the School of Mathematical and Statistical Sciences, students will choose nine credit hours of upper-division coursework in any combination from ACT, DAT, MAT and STP subjects.	C	9

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Students may not apply ACT 491, MAT 411 or MAT 485 toward the minor unless approved by an academic advisor in the School of Mathematical and Statistical Sciences prior to registration.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in actuarial science; BS in applied mathematics; BS in computational mathematical science; BS in statistics; BS in data science; BA and BS in mathematics (including all concentrations); BAE in secondary education (mathematics)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Mathematics is foundational and can be applied to many different types of careers. Math is a crucial part of engineering, life sciences, business, physics, economics and social sciences. A mathematics minor can be tailored to enhance a variety of top careers, including:

- computer scientist
- engineer
- financial analyst
- operations research analyst
- statistician
- teacher

The critical thinking skills developed while pursuing a minor in mathematics can help students improve their performance on law school or medical school entrance exams.

Media Analysis Minor (CSCMOMINA)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: Downtown Phoenix, Online

Description: The mass media play vital roles in how information is created and disseminated, and in how societies and cultures evolve.

In the media analysis minor program, you gain an understanding of the roles that media play, how they're changing, and what impact they make. You acquire the tools you need to critically evaluate, analyze and interpret media messages to become a wise consumer of media and a stronger communicator in your major field.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in media analysis consists of 18 credit hours of coursework: MCO 120 Media and Society and 15 credits of electives (at least 12 credits must be upper division). To pursue the minor in media analysis, students must maintain a minimum 2.00 cumulative GPA and obtain a minimum grade of "C" (2.00 on a 4.00 scale) in each course in the minor.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BA in journalism and mass communication; BA in sports journalism and mass communication; BA in mass communication and media studies; BA in digital media literacy

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

A minor can help students develop marketable communication skills, boosting their career options across their major field and advancing their understanding of how mass media functions. Graduates with a media analysis minor may pursue roles in communications, engagement and strategy in their chosen fields; media-facing roles in journalism and fact-checking; and other career opportunities in economics, finance and political organizations.

Media Arts and Sciences Minor (HIDGCMIN)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe

Description: In the media arts and sciences minor, you enhance your program of study through integrated, interdisciplinary training in creative processes and technical skills in new media with cultural applications.

You develop both the technical skills to create computational media and the cultural skills to know when or why to apply them. You learn to create computational media (computation combined with objects, sound, video, time, space, culture and bodies); breathe behavior into media, objects or systems by programming; and think critically about how computation impacts lives and how culture makes a difference in the ways that people experience computational media --- a critical skill in this dynamic age.

The GAME School educates the next generation of learners, empowering you with technofluency --- its development, application and implications. You are prepared to be a socially aware, critically thinking global citizen who strives to bring about positive change in a society that's increasingly shaped by new technologies.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in media arts and sciences consists of 21 credit hours of coursework, including 12 credit hours of upper division electives. A minimum grade of "C" (2.00) is required in all courses for the minor. For those pursuing a minor, a minimum overall GPA of "C" (2.00) is required.		
AME 111 Introduction to Digital Culture (HUAD)	C	3
AME 112 Computational Thinking for Media Arts **or** AME 230 Programming for the Media Arts	C	3
AME Elective **or** **MDC Elective**	C	3
Upper Division **AME Elective** **or** Upper Division **MDC Elective**	C	12

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: All media arts and sciences majors

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Media arts and sciences graduates have learned techniques that can transform society, and they communicate using contemporary computational media, a vital power in the world. These skills, along with specialized knowledge and judgment, complement their major program of study and help them become more marketable to employers.

Graduates work in cultural communication, marketing, design, social media, health, education, entertainment and creative arts. They can also find opportunities in all areas in which culture is shaped by technology and computational media, including mobile app design, audio production and autonomous systems.

Media Content Creation Minor (CSMCCMIN)

College/School: Walter Cronkite School of Journalism and Mass Comm

Campus: Downtown Phoenix, Online

Description: Engaging media content captures audiences' attention, connects communities to important information, and converts users into brand enthusiasts and loyal customers. In the minor program in media content creation, you learn to create high-quality content that gets seen and shared, connecting any idea to mass audiences.

In this minor, you pursue coursework across a variety of media skills and techniques, including:

• immersive media
• media project management
• podcasting and audio production
• static and motion graphic design
• studio production
• videography and photography
• writing and editing

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in media content creation requires 15 credit hours, of which at least nine		

Requirement	Minimum Grade	Credit Hours
must be upper division. A grade of "C" or better in each course is required.		
Media Content Courses	C	6
AME 210 Media Editing

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Some classes are available exclusively online or in-person. It is recommended that students review the class availability to ensure courses are available based on primary degree modality.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BA in journalism and mass communication; BA in sports journalism

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Global opportunities

Global experience: Students may participate in media project-based study abroad experiences and minor courses delivered globally. Cronkite media creation courses have been taught in England, Rwanda, Costa Rica, Brazil and beyond. With more than 300 Global Education program opportunities (https://goglobal.asu.edu/) available to them, media content creation students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Career opportunities

Graduates with this minor have an expanded capacity to create compelling content for clients, agencies, teams, businesses and their personal brands, complementing their major plan of study.

Those with media content creation skills pursue a variety of professional roles, including:

- brand ambassador
- content creator
- content strategist
- influencer
- podcaster
- subject matter expert
- thought leader
- videographer

Medical Studies Minor (NHMESTMIN)

College/School: College of Health Solutions

Campus: Downtown Phoenix, Polytechnic, West Valley

Description: The minor program in medical studies prepares you for employment in health care and clinical medicine, including in direct and indirect patient care.

You take coursework in:

• applied medical and health care ethics
• historical aspects of medicine
• leadership and professionalism

You have the option of enhancing the application of core concepts through completion of an internship. This minor doesn't replace pre-med academic preparation if you plan to apply to medical school.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in medical studies consists of 18 credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.		
HCD 303 Global Health Care Systems (GCSI)	C	3
HCD 330 Health Care Systems in the U.S. (CIVI)	C	3
MED 300 Historical and Contemporary Issues in Health	C	3
MED 320 Applied Medical/Health Care Ethics (HUAD)	C	3
MED 450 Leadership and Professionalism	C	3
Upper Division Elective		
HCD 420 Population Health Management MED 484 Internship PBH 422 Health Disparities and Access to Health	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BAS in applied science (health sciences); BS in health care administration and policy; BS in health sciences; BS in health sciences (healthy lifestyles and fitness science); BS in medical studies; BS in population health; BS in public health

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation.

Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Students who complete this minor acquire valuable skills in health care that can be implemented in a variety of career settings. Some career opportunities include project coordination, marketing, sales and research.

Military Leadership Minor (LAMISMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The minor program in military leadership enhances your learning experience by providing tools that prepare you for leadership roles in various organizations. You complete courses that cover academic and practical skills, including:

• effective communication
• leadership ethos
• negotiation
• problem-solving
• staff motivation and empowerment
• team-building

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in military leadership requires 18 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
Upper Division Army Option	C	9 - 12
The branch-specific option for Army requires 12 credit hours specific to the option and six credit hours from the Approved Electives list. Select three courses from the following four options:		
MIS 301 Training Management and the Warfighting Functions		

Requirement	Minimum Grade	Credit Hours

MIS 302 Applied Leadership in Small-Unit Operations

MIS 401 The Army Officer

MIS 402 Company Grade Leadership

Choose two additional courses from the Approved Electives list. Army option students are advised to select one elective from subject codes ACO, CEL, or SSP.

OR

Upper Division Air Force Option

The branch-specific option for Air Force requires 12 credit hours specific to the option and six credit hours from the Approved Electives list. Complete the following courses:

AES 301 Leading People and Effective Communication I

AES 303 Leading People and Effective Communication II

AES 401 National Security, Leadership Responsibilities and Commissioning Preparation I

AES 403 National Security, Leadership Responsibilities and Commissioning Preparation II

Choose two additional courses from the Approved Electives list.

OR

Upper Division Marine Option

The branch-specific option for Marine requires nine credit hours specific to the option and nine credit hours from the Approved Electives list. Select three courses from the following four options:

NAV 303 Evolution of Warfare

NAV 402 Leadership and Ethics

NAV 403 Fundamentals of Maneuver Warfare

NAV 499 Individualized Instruction

Choose three additional courses from the Approved Electives list; at least one of the Approved Electives must be upper division (300- or 400-level).

Requirement	Minimum Grade	Credit Hours

OR

Upper Division Navy Option

The branch-specific option for Navy requires 12 credit hours specific to the option and six credit hours from the Approved Electives list. Select four courses from the following five options:

NAV 301 Naval Ship Systems I

NAV 302 Naval Ship Systems: Weapons

NAV 401 Naval Operations and Seamanship

NAV 402 Leadership and Ethics

NAV 499 Individualized Instruction

Choose two additional courses from the Approved Electives list.

OR

Upper Division Non-ROTC Option

The non-ROTC option requires nine credit hours specific to the option and nine credit hours from the Approved Electives list. Select three courses from the following options:

AES 301 Leading People and Effective Communication I

AES 303 Leading People and Effective Communication II

AES 401 National Security, Leadership Responsibilities and Commissioning Preparation I

AES 403 National Security, Leadership Responsibilities and Commissioning Preparation II

NAV 301 Naval Ship Systems I

NAV 302 Naval Ship Systems: Weapons

NAV 303 Evolution of Warfare

NAV 401 Naval Operations and Seamanship

NAV 402 Leadership and Ethics

Requirement	Minimum Grade	Credit Hours
NAV 403 Fundamentals of Maneuver Warfare		
Choose three additional courses from the Approved Electives list; at least one of the Approved Electives must be upper division (300- or 400-level).		

Students choose the option befitting their chosen branch of the military. An option is also provided for non-ROTC students wishing to benefit from the skills and knowledge developed in the minor.

Approved Electives	C	9 - 6

Courses can only satisfy one requirement. No course used toward the branch-specific courses or the core courses for the non-ROTC option can be repeated as an elective.

Marine and Non-ROTC students must take at least three credit hours of upper-division approved electives.

Army ROTC students please consult with the ROTC Student Services Manager or your HRA to ensure you are meeting your military history commissioning requirement.

ACO 401 Managing Cyber Risks in Enterprise Business Processes

ACO 482 Design Thinking for National Security

AES 101 Department of the Air Force Professionalism

AES 103 Competition and Security

AES 201 Team and Leadership Fundamentals I

AES 203 Team and Leadership Fundamentals II

CEL 194 Topic: The American Way of War

CEL 394 Topic: Civil-Military Relations in America

CEL 394 Topic: US National Security Issues

CEL 475 Statesmanship and American Grand Strategy (HUAD)

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in music; BA in music (music and culture); BA in music (popular music); BM in music performance; BM in music theatre

Other Enrollment Requirements: Students must successfully complete an audition before the faculty in the applicable instrument area for admission to the program. Audition criteria and specific audition requirements (https://musicdancetheatre.asu.edu/admission/apply-music-major/audition-interview) are determined by area faculty and are similar to the MUP 111 and MUP 311 enrollment criteria for each instrument. Students interested in pursuing the performance minor should submit an application (https://musicdancetheatre.asu.edu/undergraduate-certificates/majorinfo/HIMUSPMIN/undergrad/true/20) (at the bottom of the page).

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs empower students to build complementary competencies, enhancing the marketable knowledge and skills they gain through their majors.

Graduates with a minor in music performance have valuable experience that can support careers in arts administration, teaching, business and beyond, giving them a competitive edge in a wide variety of fields.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

MHL courses may be accepted as Music History if the appropriate prerequisites are met or with instructor approval.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BMus in performance (music theatre)

Other Enrollment Requirements: An audition for music theatre is required for entrance into the minor or BIS concentration and MUP 121 and MUP 170 study. Audition criteria are determined by area faculty.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in music theatre have additional expertise that can help them as they pursue careers in arts administration, acting, performance or teaching.

Neuroscience Minor (LABMENMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: The minor program in neuroscience offers an interdisciplinary exploration of the brain and nervous system, combining the fields of biology and psychology. You can take courses in behavioral neuroscience, cellular and molecular neuroscience, cognitive neuroscience and systems neuroscience.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in Neuroscience requires 18 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
NEU 101 Introduction to Neuroscience	C	3
NEU 290 Data Science for Neuroscience Majors (QTRS)	C	3
Upper Division Minor Electives	C	12

Students must complete 12 credit hours of upper-division minor electives from any combination of tracks.

The following courses can not be used to satisfy the Neuroscience minor requirements: NEU 394 Topic: Neuroscience Undergraduate Teaching Assistant; NEU 484; NEU 492; NEU 493; NEU 499.

Behavioral Neuroscience

NEU 307 Your Brain on Drugs

NEU 327 Neuroscience of Learning

NEU 394 Topic: Current Topics in Behavioral Neuroscience

Requirement	Minimum Grade	Credit Hours
NEU 394 Topic: Neuroscience of the Sleeping Brain		
NEU 394 Topic: The Neuroscience of Aging		
NEU 433 Behavioral Neuroendocrinology		
NEU 460 Brain and Emotion		
NEU 494 Topic: Epigenetics and Mental Illness		
NEU 494 Topic: Estrogen, Brain, and Memory		
NEU 494 Topic: Psychiatric Medications		
NEU 494 Topic: The Social Brain		
Cellular and Molecular Neuroscience		
BIO 331 Animal Behavior		
BIO 360 Animal Physiology		
BIO 435 Research Techniques in Animal Behavior		
BIO 436 Sociobiology and Behavioral Ecology		
BIO 465 Neurophysiology		
BIO 467 Neurobiology **or** NEU 325 Biopsychology		
BIO 494 / NEU 494 Topic: Biotechnology Viruses as Tools		
BIO 494 Topic: Genetics and Genomics of Behavior		
BIO 498 Topic: Neural Development		
BIO 498 Topic: Neurodegenerative Disorders of the Aging Brain		
Cognitive Neuroscience		
NEU 310 Fundamentals of Cognitive Neuroscience		
NEU 323 Neuroscience of Perception		

Requirement	Minimum Grade	Credit Hours
NEU 394 Topic: Language and the Brain		
NEU 394 Topic: Python Programming for Neuroscience		
NEU 394 Topic: R Programming for Neuroscientists		
NEU 456 Visual Cognitive Neuroscience		
NEU 494 Topic: Themes in Cognitive Neuroscience		
SHS 367 Language Science (SOBE)		
SHS 485 Acquired Speech and Language Disorders		
SHS 494 Topic: Health Neuroscience		
Systems and Computational Neuroscience		
BIO 355 Introduction to Computational Molecular Biology		
BIO 439 Computing for Research		
BIO 494 / MAT 494 / NEU 494 Topic: Data Analysis in Neuroscience		
KIN 424 Neural Aspects of Movement and Rehabilitation		
MAT 451 Mathematical Modeling		
MAT 494 Topic: Mathematical Neuroscience		
NEU 394 Topic: Foundations of Computational Cog Neurosci		
NEU 426 Neuroanatomy		
SHS 310 Anatomical and Physiological Bases of Speech		
SHS 311 Hearing Science		
The following courses are additional elective options for Biomedical Engineering majors who meet the prerequisites:		
BME 316 Biomechanics for Biomedical Engineers		

Requirement	Minimum Grade	Credit Hours
BME 350 Signals and Systems for Bioengineers		
BME 360 Control in Biological Systems		
BME 465 Magnetic Resonance Imaging		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in neuroscience

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors) for program descriptions and to request more information.

Career opportunities

Minor programs allow students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor program in neuroscience supports students who are interested in pursuing careers in research, health care, biotechnology and more.

Nonprofit Leadership and Management Minor (PPNLMMIN)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: In the minor program in nonprofit leadership and management, you gain a broad understanding of how nonprofit organizations operate and contribute to community well-being. Coursework covers topics such as fund

development, volunteer management and organizational strategy, emphasizing the leadership and decision-making skills needed in the nonprofit and social sectors.

The program also offers the opportunity to earn the Certified Nonprofit Professional credential through the Nonprofit Leadership Alliance, a national consortium that prepares future leaders for nonprofit and community-focused careers. https://nla1.org/cnp-professionals (https://nla1.org/cnp-professionals)

You find this minor a valuable complement to your studies if you are majoring in areas such as business, communication, education and social work.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor requires 18 credit hours: a three-credit required core course and 15 credit hours of elective courses. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses in the minor.		
NLM 220 Introduction to Nonprofit Organizations	C	3
Electives		
NLM 160 Voluntary Action and Community Leadership (CIVI)		
NLM 235 Leadership and Ethics		
NLM 300 Fund Raising and Resource Development		
NLM 310 Strategic Volunteer Engagement (CIVI)		
NLM 320 Professional Development Seminar		
NLM 380 Financial Management for Community Organizations	C	6
NLM 420 Nonprofit Leadership Alliance Institute		
NLM 430 Managing Nonprofit Organizations		
NLM 440 Nonprofit Professional Certification		
NLM 451 Grant Writing		
NLM 484 Internship		
PRM 203 Designing Experiences: Events and Programs		
Upper Division Electives	C	9

Requirement	Minimum Grade	Credit Hours
NLM 300 Fund Raising and Resource Development		
NLM 310 Strategic Volunteer Engagement (CIVI)		
NLM 320 Professional Development Seminar		
NLM 380 Financial Management for Community Organizations		
NLM 420 Nonprofit Leadership Alliance Institute		
NLM 430 Managing Nonprofit Organizations		
NLM 440 Nonprofit Professional Certification		
NLM 451 Grant Writing		
NLM 484 Internship		

Students may only apply three credits of NLM 484 Internship. Internship Application.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in nonprofit leadership and management, including the American Indian studies concentration

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates are prepared for roles in a variety of mission-driven organizations. They may work with local grassroots nonprofits, community foundations or national organizations that focus on areas such as arts and culture, the environment, health and youth development.

Nutrition and Healthy Living Minor (NUNHLMIN)

College/School: College of Health Solutions

Campus: Downtown Phoenix

Description: The nutrition and healthy living minor program provides you with a greater understanding of how nutrition contributes to healthy lifestyles and disease prevention.

You have the opportunity to select classes in areas such as:

• body image and wellness
• counseling and communication in different mediums
• eating for lifelong health
• the history and cultural aspects of food
• nutrition in the community
• sports nutrition

Curriculum

Requirement			Minimum Grade	Credit Hours
The minor in nutrition and healthy living consists of 18 credit hours, of which 15 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.				
HSC 355 Eating for Lifelong Health (SOBE) (SOBE)	**or**	NTR 450 Nutrition in the Life Cycle	C	3
NTR 100 Introduction to Nutrition Science	**or**	NTR 241 Human Nutrition	C	3
NTR 345 Development of Healthy Cuisines			C	3
Upper Division Electives				9
HEP 380 Body Image and Wellness				
HSC 310 Health Communication				
NTR 320 History of Human Nutrition (HUAD)				
NTR 348 Cultural Aspects of Food (GCSI)				
NTR 350 Nutrition Counseling				
NTR 353 The Western Diet				

Requirement	Minimum Grade	Credit Hours
NTR 360 Nutrition Entrepreneurship		
NTR 390 Current Nutrition Research		
NTR 448 Community Nutrition		
NTR 457 Sports Nutrition		
NTR 480 Integrative and Functional Nutrition		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Some courses in this minor require CHM 101 or CHM 113 as a prerequisite. Students are encouraged to ensure all prerequisites are met when planning this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BAS in applied science (applied nutrition and health); BS in applied nutrition and health; BS in dietetics; BS in health sciences (healthy lifestyles and fitness science); BS in nutritional science

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates of the minor in nutrition and healthy living have a basic understanding of nutrition needs through the life cycle and how to put that knowledge to use in the community, which is of particular benefit to those pursuing careers in public health, the medical field or workplace wellness.

Many graduates obtain positions with responsibilities that include:

conducting academic research
developing and preparing recipes that meet nutritional guidelines
informing the community about food through social media and web platforms
providing people of all ages with general nutrition information

Organizational Leadership Minor (LSORGLMIN)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic, Online

Description: In the minor program in organizational leadership, you prepare for executive roles in a variety of environments. You develop skills and knowledge that leaders need to solve problems, communicate effectively, assess programs, manage resources and use emerging technologies.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in organizational leadership requires 18 credit hours, including a minimum of 12 upper-division credit hours.		
OGL 200 Introduction to Organizational Leadership (CIVI)	C	3
OGL 220 Behavioral Dynamics in Organizations (SOBE)	C	3
Upper Division Electives		12
OGL 300 Theory and Practice of Leadership		
OGL 340 Organizational Skills		
OGL 343 Social Processes in Organizations (SOBE)		
OGL 345 Organizational Ethics (HUAD)		
OGL 350 Diversity and Organizations (GCSI)		
OGL 355 Leading Organizational Innovation and Change		
OGL 357 Assessment in Organizations		
OGL 360 Assessment of Leadership Effectiveness		
OGL 365 Organizational Contexts		
OGL 484 Internship		
No more than three credit hours of internship may be applied to this minor.		

Requirement	Minimum Grade	Credit Hours
Any topic can be utilized within the OGL 340 and OGL 365 courses. Students may enroll in up to 15 credit hours of OGL 340 or OGL 365 topics courses to meet the requirements of the minor. Topics cannot be repeated.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BAS in applied science (applied leadership); BA in organizational leadership; BA in organizational leadership (project management); BA in organizational leadership (veterans, society and service); BAS in applied science (project management); BS in project management; BA in applied business and technology solutions.

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

The communication and cultural competency skills that graduates have acquired through the minor program in organizational leadership help them as they pursue careers in organizational behavior, organizational leadership, management and related areas.

Graduates are prepared for a variety of positions in government, health care administration, nonprofit agencies and the service industry.

Parks and Protected Area Management Minor (PPPRMMINT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: In this minor program, you explore how parks and protected areas are managed and conserved as vital community resources. Coursework examines the challenges of balancing population growth, recreation needs and environmental protection, especially in areas near cities.

The program emphasizes skill development in planning, policy and resource management while connecting classroom learning to real-world issues in sustainability and community development. It complements majors such as sustainability, urban planning, education and public service.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in parks and protected area management requires 15 credit hours of graded classroom coursework (no internship, no independent study), of which 12 are upper division. Students complete 12 credits of required coursework and three credits of electives. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses in the minor.		
PRM 120 Leisure and the Quality of Life (SOBE)	C	3
PRM 370 Public Lands Management	C	3
PRM 380 Wilderness and Parks in America (SUST)	C	3
TDM 480 Sustainable Tourism	C	3
Upper Division Elective		
CRD 301 Sustainable Communities (SUST)		
ENV 415 Field Techniques in Natural Resource Management		
PRM 340 Outdoor Survival	C	3
PRM 360 Environmental and Cultural Interpretation		
TDM 448 Heritage and Cultural Tourism		
PRM 360 is offered during fall semester only.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in parks and recreation management (all concentrations); BS in recreation therapy

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates are prepared for roles that involve recreation, conservation and environmental education. They may work in public, nonprofit or private organizations focused on park operations, community recreation or natural resource management.

Common pathways include positions such as park operations assistant, recreation coordinator, environmental education specialist and conservation program aide. The minor also strengthens career preparation for those pursuing majors related to sustainability, planning and community development.

Personal Health Minor (NHPHLMIN)

College/School: College of Health Solutions

Campus: Downtown Phoenix, Online

Description: The personal health minor program enables you to explore the attainment and retention of high-quality personal and emotional health while pursuing a non-health degree.

The minor program reflects the transdisciplinary nature of personal health by including courses from the fields of nutrition, exercise science, health sciences and health promotion.

You acquire the knowledge and skills necessary to optimize your personal health and assume greater responsibility in moving toward overall wellness.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in personal health consists of 18 credit hours, of which at least 9 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.		
EXW 325 Fitness for Life	C	3
HEP 380 Body Image and Wellness	C	3

Requirement			Minimum Grade	Credit Hours
HSC 355 Eating for Lifelong Health (SOBE) (SOBE)	**or**	NTR 450 Nutrition in the Life Cycle	C	3
NTR 100 Introduction to Nutrition Science	**or**	NTR 241 Human Nutrition	C	3
Electives				
EXW 302 Fundamentals of Wellness				
EXW 335 Physical Activity and Physiological Concepts				
EXW 400 Stress Management for Wellness				
EXW 438 Obesity, Exercise and Health				
HEP 350 Substance Use and Addictive Behaviors			C	6
HEP 361 Digital Health Communication and Education				
HEP 443 Emotional Health and Interpersonal Relationships				
NTR 345 Development of Healthy Cuisines				
NTR 348 Cultural Aspects of Food (GCSI)				

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BAS in applied science (applied nutrition and health); BS in clinical exercise science; BS in health education and health promotion; BS in health sciences (healthy lifestyles and fitness science)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Graduates of the minor program in personal health have skills in many areas, enhancing the marketable skills they acquire in their major program. Graduates can pursue careers in workplace wellness, the medical field or public health, among many other career options, though most career areas do require more training than a minor alone can provide.

Pharmacology and Toxicology Minor (ASPTXMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Description: In the minor program in pharmacology and toxicology, you take biology and chemistry courses that help prepare you to explore how chemicals (drugs and environmental toxicants) affect living organisms.

You learn to identify chemical characteristics that are associated with beneficial or adverse effects, describe how chemicals are evaluated for regulatory purposes, and summarize holistically how drugs and toxicants elicit their effects.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in pharmacology and toxicology consists of 15 credit hours of coursework, of which nine hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
PTX 301 Basics of Pharmacology and Toxicology	C	
PTX 432 Fundamentals of Pharmacology **or** LSC 432 Fundamentals of Pharmacology OR PTX 475 Principles of Toxicology **or** LSC 475 Principles of Toxicology	C	3
Pharmacology and Toxicology Electives	C	6
BCH 361 Principles of Biochemistry **or** BCH 371 Modern Concepts in Biochemistry		

Requirement	Minimum Grade	Credit Hours
CHM 233 General Organic Chemistry I		
CHM 234 General Organic Chemistry II		
COM 415 Risk Communication (SOBE)		
ENV 430 / LSC 430 / PTX 430 Environmental and Human Toxicology		
LSC 440 / FOR 440 Molecular Biology for Forensic Science		
PTX 325 / PSY 325 Physiological Psychology		
PTX 388 STEM Research Fundamentals		
PTX 432 / LSC 432 Fundamentals of Pharmacology		
PTX 450 Pharmacology and Toxicology Laboratory		
PTX 475 / LSC 475 Principles of Toxicology		
PTX 499 Individualized Instruction		
Upper Division Pharmacology and Toxicology Electives	C	3
BCH 361 Principles of Biochemistry **or** BCH 371 Modern Concepts in Biochemistry		
COM 415 Risk Communication (SOBE)		
ENV 430 / LSC 430 / PTX 430 Environmental and Human Toxicology		
LSC 440 / FOR 440 Molecular Biology for Forensic Science		
PTX 325 / PSY 325 Physiological Psychology		
PTX 388 STEM Research Fundamentals		
PTX 432 / LSC 432 Fundamentals of Pharmacology		
PTX 450 Pharmacology and Toxicology Laboratory		
PTX 475 / LSC 475 Principles of Toxicology		

Requirement	Minimum Grade	Credit Hours
PTX 499 Individualized Instruction		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in pharmacology and toxicology; BS in biology (pharmacology/toxicology)

Other Enrollment Requirements: The following prerequisite courses do not count toward the minor but may be needed to complete the requirements of the minor:

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Relevant career paths include positions within the pharmaceutical industry and in regulatory fields such as environmental risk assessment, and graduate programs in public health, pharmacology, toxicology or environmental health sciences.

Philosophy Minor (ASPHIMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: Through the minor program in philosophy, you gain an understanding of central philosophical issues, problems and ideas; a capacity for critical thinking and analytic reasoning; and the ability to present your positions effectively through oral and written communication.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in philosophy consists of 18 credit hours of coursework, of which 12 hours must be upper division. A minimum of 6 upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
Philosophy Electives	C	6
IAS 340 / PHI 320 Bioethics (HUAD)		
IAS 406 / PHI 406 Moral Dilemmas		
IAS 407 / PHI 407 Environmental Philosophy and Policy (SUST)		
IAS 409 / PHI 409 Eco-Community Ethics		
IAS 410 Evolution of Ideas		
IAS 417 / PHI 417 Philosophy of Censorship (HUAD)		
IAS 430 Science and Religion (HUAD)		
IAS 450 / PHI 450 / REL 450 Philosophical and Spiritual Issues in Death and Dying (HUAD)		
PHI 101 Introduction to Philosophy (HUAD)		
PHI 103 Principles of Sound Reasoning (QTRS)		
PHI 105 Intro to Ethics (HUAD)		
PHI 194 Special Topics		
PHI 215 Philosophy Goes to the Movies (HUAD)		
PHI 294 Special Topics		
PHI 303 / REL 300 The Future of Religions (HUAD)		
PHI 304 Existentialism (HUAD)		
PHI 306 Applied Ethics (CIVI)		
PHI 318 Philosophy of Religion (HUAD)		

Requirement	Minimum Grade	Credit Hours
PHI 339 Philosophy of Art		
PHI 360 Business and Professional Ethics (HUAD)		
PHI 391 / REL 391 Historical Perspectives on Philosophy and Religion		
PHI 394 Special Topics		
PHI 408 Feminist Ethics (HUAD)		
PHI 411 Continental Philosophy		
PHI 439 Philosophy of Love and Sex		
PHI 484 Internship		
PHI 494 Special Topics		
PHI 499 Individualized Instruction		
PHI Elective		
REL 484 Internship		
REL 499 Individualized Instruction		
Upper Division Philosophy Electives	C	12
IAS 340 / PHI 320 Bioethics (HUAD)		
IAS 406 / PHI 406 Moral Dilemmas		
IAS 407 / PHI 407 Environmental Philosophy and Policy (SUST)

PHI 484 Internship		
PHI 494 Special Topics		
PHI 499 Individualized Instruction		
PHI Elective		
REL 484 Internship		
REL 499 Individualized Instruction		
A maximum of six credit hours of PHI/REL 484 and/or PHI/REL 499 may be applied to the minor.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in philosophy

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates who have completed the minor in philosophy have critical thinking and strong communication skills essential to success in health care, law, public service, journalism, business and education. This minor program is ideal preparation for a wide variety of careers, including:

- entrepreneur
- intelligence analyst
- lawyer
- medical professional
- minister
- paralegal
- politician
- real estate agent
- teacher or professor
- writer

Philosophy Minor (LAPHIMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: In the minor program in philosophy, you gain an understanding of philosophical inquiry and method. The program offers you an introduction to central themes in the history of philosophy and in the current literature. You have the opportunity to sharpen your critical reasoning skills while addressing profound questions regarding the nature of:

• existence
• knowledge
• law
• morality
• politics
• science

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in philosophy consists of 15 credit hours, of which at least nine must be upper division. At least six upper-division credit hours must be in courses offered by The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Each course must be completed with a minimum grade of "C" (2.00 on a 4.00 scale) or higher.		
Students choose courses from the philosophical subdiscipline lists, with no more than two courses from any single track. Available subdisciplines are epistemology, ethics and political philosophy, history of philosophy, logic and metaphysics. Courses in the "other" list cover multiple subdisciplines and students may apply these courses within the minor without limit. Students should consult with an academic advisor in the School of Historical, Philosophical and Religious Studies about a proposed selection of courses before enrolling.		
Subdisciplinary Courses	C	6
Epistemology		
PHI 194 Topic: Trust, Lies, & Pseudoscience		
PHI 313 Probability, Evidence, and Decision		
PHI 314 Philosophy of Science (HUAD)		
PHI 325 Philosophy of Social Science		
PHI 330 Theory of Knowledge (HUAD)		
Ethics and Political Philosophy		
PHI 105 Intro to Ethics (HUAD)		
PHI 107 Introduction to Philosophy of Sex and Love		
PHI 120 Introduction to Medical and Bioethics (HUAD)		
PHI 306 Applied Ethics (CIVI)

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Not all courses for this program are available every term or available in both on-campus and online formats. Students should consult the class schedule prior to each term to confirm course availability.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in philosophy; BA in philosophy (morality, politics and law); BA in philosophy (science, nature and mind)

Other Enrollment Requirements: : None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in philosophy is beneficial in a wide variety of careers in fields that value analytical and reasoning skills and strong communication and writing skills. Graduates often pursue careers in business, law, politics, medicine and education.

Physics Minor (LAPHYMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: You learn the fundamental concepts of physics beyond the introductory level in the minor program in physics. Through rigorous hands-on experience, you deepen your understanding of foundational concepts and develop your quantitative skills.

Through upper-division electives, you can tailor the minor to enhance your career or graduate school outlook.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in physics requires a minimum of 27 total credit hours, of which 12 must be upper-division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only		

Requirement	Minimum Grade	Credit Hours
courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
PHY 121 University Physics I: Mechanics (SCIT) **AND** PHY 122 University Physics Laboratory I (SCIT) **or** PHY 150 Physics I (SCIT)	C	4
PHY 131 University Physics II: Electricity and Magnetism (SCIT) **AND** PHY 132 University Physics Laboratory II (SCIT) **or** PHY 151 Physics II (SCIT)	C	4
PHY 201 Mathematical Methods in Physics I (MATH)	C	3
PHY 252 Physics III (SCIT) **or** PHY 241 University Physics III **AND** PHY 202 Programming for Physicists	C	4
Upper Division Option 1	C	12
Students pursing Option 1 must complete PHY 333 or PHY 334, PHY 361, and six hours of PHY upper-division electives.		
PHY 333 Electronic Circuits and Measurements **or** PHY 334 Advanced Laboratory I		
PHY 361 Introductory Modern Physics		
Select two (six credit hours) PHY upper-division electives		
Upper Division PHY Elective		
OR **Upper Division Option 2**		
Students pursing Option 2 must complete PHY 302 and an additional nine credit hours selected from PHY 310, PHY 311, PHY 314 and PHY 315.		
Required:		
PHY 302 Mathematical Methods in Physics II		
Select three courses:		
PHY 310 Classical Particles, Fields, and Matter I		

Requirement	Minimum Grade	Credit Hours
PHY 311 Classical Particles, Fields, and Matter II		
PHY 314 Quantum Physics I		
PHY 315 Quantum Physics II		

Students choose from two options. Consult an academic advisor in the Department of Physics to discuss these options further.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in applied physics; BS in biophysics; BA and BS in physics

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in physics have additional analytical and problem-solving skills that benefit them as they pursue careers in technical fields.

Physics Minor (LSPHYMIN)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic

Description: In the minor program in physics, you acquire the knowledge and skills to understand and apply the fundamental laws of nature to solve complex, current problems. This minor is an ideal complement if you're pursuing majors in diverse disciplines; preparing for advanced graduate studies; or looking to broaden your career opportunities in science, engineering and technology.

The program is delivered by dedicated faculty who are experts in areas such as physical system modeling, materials science, advanced numerical techniques, and fundamental physics. Through a combination of rigorous coursework and hands-on, project-based research, you gain practical experience that connects theoretical concepts with actual applications.

The program's emphasis on interdisciplinary learning and practical skills makes it an invaluable addition to any academic portfolio, equipping you with a competitive edge in the job market and positioning you for success in a wide variety of professional and academic pursuits. Additionally, with the expansion of high-tech companies in the Phoenix area, you have valuable opportunities to connect with industry leaders and advance career prospects even before you graduate.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in physics requires 23 credit hours, including a minimum of 12 upper-division credit hours. A minimum of nine upper-division credit hours must be taken in courses offered by the College of Integrative Sciences and Arts. A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.		
PHY 121 University Physics I: Mechanics (SCIT)	C	3
PHY 122 University Physics Laboratory I (SCIT)	C	1
PHY 131 University Physics II: Electricity and Magnetism (SCIT)	C	3
PHY 132 University Physics Laboratory II (SCIT)	C	1
PHY 314 Quantum Physics I	C	3
PHY 321 Vector Mechanics and Vibration	C	3
Electives	C	6
PHY 201 Mathematical Methods in Physics I (MATH)		
PHY 302 Mathematical Methods in Physics II		
PHY 331 Principles of Modern Electromagnetism		
PHY 345 Foundations of Medical Physics		
PHY 361 Introductory Modern Physics		

Requirement	Minimum Grade	Credit Hours
PHY 499 Individualized Instruction		

Upper Division Electives

PHY 302 Mathematical Methods in Physics II		
PHY 331 Principles of Modern Electromagnetism		
PHY 345 Foundations of Medical Physics	C	3
PHY 361 Introductory Modern Physics		
PHY 499 Individualized Instruction		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00 or higher

Incompatible Majors: BA or BS in physics

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. Graduates with a minor in physics have expanded analytical skills that serve them well as they pursue careers in engineering, postsecondary education or mechanical design.

Political Science Minor (ASPOLMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: In the minor program in political science, you are introduced to foundational theories, practices and policies that shape local, national and international political systems. Coursework emphasizes research skills for analyzing complex sociopolitical issues across diverse contexts.

You explore topics in political theory, American institutions, and global affairs through a flexible, learner-centered curriculum. Faculty-guided projects connect political science to real-world policy concerns in areas such as urban politics, international relations and borderlands studies.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in political science consists of 18 credit hours of coursework, of which 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA or BS in political science

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates have a strong foundation to pursue staff, manager or policy analyst positions in local, state and federal government. This minor is recognized as a qualification for many careers in business (for-profit and nonprofit) and industry. Work may include binational, cross-border positions linking U.S. and Mexican businesses, Arizona-Sonora local government, or local community groups on both sides of the border.

Many use the program as a gateway to law school or as a basis for graduate work in professional schools or in applied fields such as:

- community development

- political science
- public administration
- public policy
- social science disciplines
- urban affairs and urban and regional planning

Political Science Minor (LAPOSMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: In the minor program in political science, you gain the skills and knowledge that help you participate effectively as a citizen in a democratic political system and flourish in the rapidly developing globalization of the world's political institutions, cultures and economies.

The program provides you with an introduction to the tools and skills necessary to link theory with contemporary problems and issues.

Courses in constitutional law or that cover the U.S. Supreme Court as part of the minor can benefit those interested in law school.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in political science requires 18 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
Required Courses	C	
POS 110 American Government and Politics (AMIT) **or** POS 310 American National Government (AMIT)		
POS 150 Comparative Government (GCSI) **or** POS 350 Comparative Politics (GCSI)		
POS 160 Global Politics (GCSI) **or** POS 360 World Politics (GCSI)		

Requirement	Minimum Grade	Credit Hours
POS 210 Political Ideologies (CIVI)		
Students select two courses.		
Upper Division **POS Elective**		
No more than three credit hours of POS 484 Internship and three credit hours of POS 499 Individualized Instruction may be applied to the minor.	C	12

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA and BS in political science; BS in politics and the economy; BA in business (global politics); BA and BS in international relations

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in political science can analyze political events and government processes, and communicate effectively to stakeholders. These skills help them pursue careers in law, advocacy, governance or public policy.

Popular Music Minor (HIMSCMIN)

College/School: Herberger Institute for Design and the Arts

Campus: Downtown Phoenix

Description: In the popular music minor program, you gain a working knowledge of music production and the music industry in the popular music minor program. You are invited to use the state-of-the-art popular music facilities and participate in visiting artist and extracurricular programs, including an annual career conference, industry partner activations, and performances at local venues.

Curriculum

Requirement	Minimum Grade	Credit Hours
The School of Music, Dance and Theatre offers a popular music minor consisting of 21 credit hours of coursework, including nine credit hours of upper division courses. A minimum grade of "C" (2.00) is required in all courses for the minor. For those pursing a minor, a minimum overall GPA of "C" (2.00) is required.		
MSC 115 Music Production Fundamentals	C	3
MSC 451 Popular Music Industry Studies I	C	3
MUS 100 Fundamentals of Music Notation	C	3
Popular Music Foundations Courses		
MSC 211 Songwriting Fundamentals		
MSC 212 Intermediate Music Production		
MSC 213 Sound Design Fundamentals	C	6
MSC 314 Critical Listening		
MSC 441 Live Sound and Stage Technology I		
Upper Division Popular Music Specialization Courses	C	6
MSC 442 Live Sound and Stage Technology II		
MSC 452 Popular Music Industry Studies II		
MSC 470 Sound Designer/Producer		
MSC 471 Contemporary Composer/Producer Specialization		
MSC 472 Songwriter/Producer Specialization		

Requirement	Minimum Grade	Credit Hours
MSC 473 Engineer/Producer Specialization		
MSC 474 Music Business Specialization		
MSC 475 DIY Creative Careers		
MSC 477 Live Experience Design Specialization		
MUP 441 Popular Music Ensemble		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

If students test out of MSC 115 and/or MUS 100, they should replace those credits with MSC 221 Popular Music Lab.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in music (popular music)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Career options for graduates include professional opportunities in and around:

composition
engineering
live event production and management
music business
music production
music technology
musical performance
scoring
songwriting
sound design

They also pursue careers as independent artists and in areas such as education and advocacy work.

Portuguese Minor (LAPORMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the minor in Portuguese, you gain an understanding of the language, literature and cultures of Portuguese-speaking countries.

Portuguese is the official language of Portugal, Brazil, Mozambique, Angola, Guinea-Bissau, East Timor, Equatorial Guinea, Macau, Cape Verde, and São Tomé and Príncipe. It's also an official language of the African Union and the European Union. It's the sixth-most-spoken language in the world, and the second-most-spoken Romance language (second to Spanish).

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in Portuguese requires 18 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
POR 313 Portuguese Conversation and Culture	C	3
POR 314 Portuguese Composition and Culture	C	3

Upper Division Elective Courses

GCU 323 Geography of Latin America (GCSI)		
POR 460 Brazilian Society Through Music (HUAD)		
POR 472 Transatlantic Encounters: Brazil and Portugal (GCSI)	C	6
POR 490 Consumer Culture in Latin America		
POR 494 Topic: Global Challenges in Cinema:Brazil,Africa,Portugal		
POR 494 Topic: Why is the Amazon Burning?		

Requirement	Minimum Grade	Credit Hours
Elective Courses		
GCU 323 Geography of Latin America (GCSI)		
POR 194 Topic: Desert Landscapes of Brazil: Soc&Culture of Sertão		
POR 194 Topic: Food, Culture, and Society in Latin America		
POR 460 Brazilian Society Through Music (HUAD)	C	6
POR 472 Transatlantic Encounters: Brazil and Portugal (GCSI)		
POR 490 Consumer Culture in Latin America		
POR 494 Topic: Global Challenges in Cinema:Brazil,Africa,Portugal		
POR 494 Topic: Why is the Amazon Burning?		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Global opportunities

Global experience: Students in this minor program have the opportunity to attend the following summer study abroad program through the Global Education Office: UArizona: Portuguese in Brazil (https://studyabroad.asu.edu/index.cfm?FuseAction=Programs.ViewProgramAngular&id=11518).

This program is recommended and approved by the School of International Letters and Cultures to give students a global experience studying the language and culture of Brazil.

• This is an ASU-authorized summer program.
• Students can advance their Portuguese language skills during this program in the vibrant coastal city of Salavdor, in northeastern Brazil.

• In addition to taking courses taught by local Brazilian faculty, students live with a host family to experience Brazilian culture firsthand and to further develop their Portuguese skills.
• Common excursions during the program include trips to Jericoacoara and Canoa Quebrada, two beautiful beach towns in the state of Cear.
• This program is open to students of any major; based on course offerings, it is ideal for students seeking courses in the Portuguese language.
• Completion of POR 102 is a program prerequisite.

Career opportunities

A minor enables students to enhance marketable skills and knowledge they acquire in their major program and to develop additional competencies. Because of the growing economies of many of the countries in which Portuguese is spoken, a minor in this language can prove to be a valuable addition to students' resumes.

More specifically, a minor in Portuguese can help students with communication and cultural competency skills as they pursue career fields such as these:

- diplomacy
- education
- entertainment
- international business
- interpretation and translation
- marketing
- political analysis
- sociology
- science and technology
- tourism and hospitality

Project Management Minor (LSPROMAMIN)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic, Tempe, Online

Description: In the minor program in project management, you are equipped with foundational skills to plan, execute and lead projects effectively across various fields. Through a blend of theoretical knowledge and practical application, you learn key concepts such as budgeting, scheduling, risk management and team collaboration. You enhance your critical thinking and problem-solving skills and be prepared to be a competitive candidate for today's dynamic job market.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in project management requires 18 credit hours, including a minimum of 12 upper-division credit hours.		
PMG 240 Introduction to Project Management	C	3

Requirement	Minimum Grade	Credit Hours
This course is needed as a prerequisite for all 300-level minor courses.		
PMG 321 Project Leadership, Strategy and Scope This course is required for all 400-level minor courses.	C	3

Upper Division Electives

PMG 320 Project Approaches	C	12
PMG 322 Project Schedule Management		
PMG 323 Project Cost Management		
PMG 324 Resources in Project Management		
PMG 326 Project Procurement Management		
PMG 421 Project Risk Management		
PMG 422 Project Quality Management		
PMG 423 Project Strategic Analysis		
PMG 484 Internship No more than three credit hours of internship may be used toward this minor.		
PMG 494 Topic: CAPM Exam Preparation Course		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00 (university minimum)

Incompatible Majors: BA in organizational leadership (project management); BS in project management; BA in organizational leadership; BA in organizational leadership (veterans, society and service); BAS in applied science (project management); BAS in applied science (applied leadership); BA in applied business and technology solutions.

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may

be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in project management have leadership, communication, problem-solving, assessment, effectiveness and cultural competency skills and are prepared to pursue positions in a variety of areas. Employers in many fields seek to hire and promote individuals who can skillfully manage projects and lead project teams.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Psychology Minor (ASPGSMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Description: In the minor program in psychology, you examine the scientific nature of the behavior and mental processes of individuals and groups.

The study of psychology includes basic and applied courses in the subfields of clinical, developmental, organizational, cross-cultural and social psychology, cognitive systems and behavioral neuroscience. This program trains you in the development of wide-ranging skills in critical thinking and reasoning, quantitative and qualitative research methods, teamwork, and the presentation of information in oral and written form.

The psychology minor program prepares you for more advanced study in psychology at the graduate level, in either graduate or professional schools.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in psychology consists of 18 credit hours of coursework, of which 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences.		

Requirement	Minimum Grade	Credit Hours
Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
PSY 101 Introduction to Psychology (SOBE) If PSY 101 is being applied toward a major requirement, a PSY upper-division elective may be completed as a substitution.	C	3
PSY Elective	C	3
Upper Division **PSY Elective**	C	12
PSY 399, PSY 384, 484, PSY 499, PSY 492, PSY 493, PSY 494 Professional Field Experience do not apply. A maximum of three hours of forensic psychology courses may apply (PSY 211, PSY 368, PSY 467, PSY 468, and PSY 474).		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA and BS in psychology (including all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

A minor in psychology is a strong addition to any major. Graduates are prepared for careers in diverse areas such as education, government, business and industry, health care and social services.

PSY 472 Clinical Psychology		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BA or BS in psychology

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

A minor can help graduates enhance the marketable skills they acquire in their major, diversify their skills with training in another discipline, and improve their job outlook. Although most careers require more training than a minor alone can provide, a minor in psychology can add value for those pursuing careers in business, education or health care.

Public Service and Public Policy Minor (PPPAFMIN)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: The minor program in public service and public policy prepares you for work in government at all levels and nonprofit organizations through comprehensive coverage of topics in public policy, public leadership and management, and urban studies.

You discover the challenges of management, learn how to lead a public organization, and understand the process of policy development.

This minor allows you to broaden your educational experiences.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in public service and public policy requires 18 credit hours: 12 hours of required courses and six hours of electives. A minimum of 12 credit hours must be taken in the School of Public Affairs at ASU.		
PAF 200 Public Service and Policy (CIVI)	C	3
PAF 201 Economics and Public Policy (SOBE)	C	3
PAF 300 Public Management and Administration	C	3
PAF 340 Contemporary Policy Challenges	C	3
Upper Division **PAF Elective**	C	6

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in public service and public policy (all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Students who complete this minor are prepared to pursue a career in a field related to public administration or public policy. This may include opportunities as a policy analyst, entry-level manager or program coordinator in local, state or federal agencies; in nonprofit organizations; and in private organizations that interface with the public sector. The program has an applied and professional focus that can enhance many other majors, which can give students a more competitive edge when seeking a public sector job.

Recreation Management Minor (PPRECMIN)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: The minor program in recreation management introduces you to community recreation programming and planning for a variety of populations.

You can broaden your educational experiences if you're enrolled in various undergraduate degree programs at ASU. If you're in a number of disciplines --- such as social work, criminology and criminal justice, kinesiology and psychology --- you may find this minor to be a beneficial supplement to your existing program.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in recreation management requires completion of 15 credit hours: six credit hours of required courses and nine credit hours of electives. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses in the minor.		
PRM 120 Leisure and the Quality of Life (SOBE)	C	3
PRM 203 Designing Experiences: Events and Programs	C	3
Upper Division Electives	C	9
PRM 304 Recreation and Sport Planning and Facilities		
PRM 335 Sports and Recreation for Youth Development (GCSI)		
PRM 360 Environmental and Cultural Interpretation		
PRM 453 Inclusive Community Sport		
PRM 475 Entrepreneurial Recreation and Tourism		
PRM 494 Special Topics		
RTH 364 Foundations in Recreational Therapy (SOBE)		

Requirement	Minimum Grade	Credit Hours
PRM 360 is only offered in fall semester		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in parks and recreation management; BS in recreation therapy; BS in parks and recreation management (therapeutic recreation)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. Graduates with a minor in recreation management can find opportunities in a wide variety of settings and organizations, including recreation, sports and youth development.

Recreational Therapy Minor (PPRECTMIN)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: In the minor program in recreational therapy, you learn to use recreation as a therapeutic tool to support the physical, emotional and social well-being of individuals and communities. Through a combination of coursework and applied experiences, you design, implement and evaluate recreation programs that promote health and quality of life. The minor complements majors such as integrative health; public health; social work; health sciences; psychology; education; and parks, recreation and sport management.

If you complete the minor, you fulfill part of the eligibility requirements to take the national certification exam through the National Council for Therapeutic Recreation Certification. https://nctrc.org/ctrs-the-qualified-provider/ (https://nctrc.org/ctrs-the-qualified-provider/)

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in recreational therapy requires completion of 18 credit hours: six credit hours of required courses and 12 credit hours of electives. Students seeking the national credential in therapeutic recreation should select electives from the Recreation Therapy Electives list.		
Required Courses		
RTH 364 Foundations in Recreational Therapy (SOBE)	C	3
RTH 413 Leadership and Professional Development in Recreational Therapy	C	3
Electives		
Choose 12 credit hours of elective courses. At least three credit hours must be upper division.		
For students seeking national credentialing through the National Council for Therapeutic Recreation (NCTRC), select four courses from the Recreational Therapy Electives list.		
Students interested in advancing knowledge in recreational therapy and do not intend to seek national credentialing through the National Council for Therapeutic Recreation (NCTRC) should select four courses between the two lists of courses: Recreational Therapy Electives and Other Electives.		
Recreational Therapy Electives	C	9
RTH 250 Therapeutic Recreation and Community Health (CIVI)		
RTH 400 Intervention Techniques in Recreational Therapy		
RTH 406 Program Design and Administration in Recreational Therapy		
RTH 440 Advocacy in Therapeutic Recreation (GCSI)		
RTH 453 Inclusive Community Sport		
RTH 455 Play with Children, Youth and Families		
RTH 460 Assessment and Documentation in Recreational Therapy		
or **Other Electives**		

Requirement	Minimum Grade	Credit Hours
These courses are not therapeutic recreation content courses and do not meet this coursework requirement for professional eligibility through the National Council for Therapeutic Recreation (NCTRC).		
CRD 202 Inclusive Community Development (SOBE)		
DST 101 Introduction to Disability Studies (CIVI)		
NLM 310 Strategic Volunteer Engagement (CIVI)		
PRM 120 Leisure and the Quality of Life (SOBE)		
PRM 203 Designing Experiences: Events and Programs		
RTH 294 Special Topics		
RTH 394 Special Topics		
RTH 494 Special Topics		

Requirement	Minimum Grade	Credit Hours
Upper Division Recreational Therapy Electives		
RTH 400 Intervention Techniques in Recreational Therapy		
RTH 406 Program Design and Administration in Recreational Therapy		
RTH 440 Advocacy in Therapeutic Recreation (GCSI)		
RTH 453 Inclusive Community Sport		
RTH 455 Play with Children, Youth and Families		
RTH 460 Assessment and Documentation in Recreational Therapy	C	3
or **Upper Division Other Electives**		
These courses are not therapeutic recreation content courses and do not meet this coursework requirement for professional eligibility through the National Council for Therapeutic Recreation (NCTRC).		
NLM 310 Strategic Volunteer Engagement (CIVI)

Science Communication Minor (ASSCOMMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: If you are in STEM, communication, or any field where you want to improve public understanding of science and strengthen engagement between science and society, the minor program in science communication is designed for you.

Scientific challenges such as climate change and public health demand more effective communication. This program provides you with research-based strategies and practical skills in storytelling, content creation, strategy, public engagement and community relations to help bridge the gap between scientific knowledge and public impact.

You learn to communicate complex ideas clearly, foster public trust in science, and address the social implications of scientific work. The program combines communication theory with hands-on training, preparing you to become a leader in science communication, policy, education and advocacy.

This program complements a range of undergraduate majors as it seeks to transform society through use-inspired, inclusive and impactful research.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in science communication consists of 15 credit hours of upper-division coursework. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

STS 303 History of Modern Science and Technology (HUAD)		
STS 304 Science, Technology and Society (SOBE)		
TWC 371 The Science of Science Communication		
TWC 411 Principles of Visual Communication		
TWC 446 Technical and Scientific Reports		

A maximum of three hours of COM 484 Internship may be applied toward this requirement.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in science communication

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates are prepared to communicate science effectively across sectors, helping organizations bridge the gap between research and public impact. This minor enhances career prospects in science, health, policy and media, and gives STEM professionals a competitive edge through strong communication skills --- one of the most valued yet underdeveloped competencies in the workforce.

Students may pursue roles as communication professionals or apply their skills in interdisciplinary careers. They can find themselves in leadership in roles such as communications manager, outreach coordinator, program manager or public affairs officer. Graduates are prepared to address global challenges like climate change, pandemics and disinformation.

Career examples include:

- extension specialist
- health marketing specialist
- media relations officer
- museum educator
- policy analyst
- public information officer
- public relations specialist
- research translation officer
- scientific content creator
- science communication specialist
- science writer

Science, Technology and Society Minor (ECSTSMIN)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic

Description: Life in the modern world is characterized by rapid technological change and uncertainty. Mastering the intricacies of the interrelationships between technology, science and society enhances any degree and provides you with the insights and skills required for success in any career field.

The science, technology and society minor program offers you a competitive edge in the job market by pairing technical skills with a deep understanding of how your work integrates into a larger societal framework. In an era of rapid technological change, you gain insights into the societal forces that influence innovation and policy. You grow your critical thinking skills by analyzing the ethical, political and cultural dimensions of scientific and technological advancements. Your problem-solving skills are enhanced as you learn to approach complex issues from diverse perspectives. You explore fascinating topics, such as the history of innovation, technology in developing countries, and the intersection of science and public policy.

Slavic Studies Minor (LASLVMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The Slavic studies minor program places an equal focus on Slavic languages, cultures and regional studies. You can pursue a concentration in either Bosnian, Croatian, Serbian or Polish to gain professional linguistic

proficiency.

The program's designed to complement your studies if your professional interests intersect with Poland or the countries of southeastern Europe, regardless of your major discipline. You may be particularly well suited for this minor if you are majoring in history, cultural anthropology, music, political science or economics.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in Slavic studies requires 18 upper-division credit hours. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in the class search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
Course substitutions may be allowed for heritage and advanced speakers of the language.		
Upper Division Slavic Language Courses

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: None

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with the minor in Slavic studies have communication and cultural competency skills that give them an advantage as they pursue careers in political analysis, education, tourism and hospitality, the military, sociology, marketing or various other fields.

Social Justice and Human Rights Minor (ASJHRMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Description: The minor program in social justice and human rights encompasses the social sciences and the humanities to prepare you to meet the challenges of today's issues of social justice and protection of human rights in local, national, international and global contexts.

You prepare to serve as an advocate for alleviating political, economic and social inequality. Coursework introduces you to principles and practices of everyday humanitarianism, multimedia advocacy, and theories and practices of social justice and human rights.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in social justice and human rights consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
JHR 100 Introduction to Social Justice and Human Rights (CIVI)	C	3
JHR 305 Theory and Practice of Social Justice and Human Rights (CIVI)	C	3
SBS 302 Qualitative Methods (SOBE) **or** SBS 303 Quantitative Methods (QTRS) **or** SBS 304 Social Statistics I (QTRS)	C	3
Students must complete one course from each of the three tracks listed below. At least two courses must be upper division.		
Social Justice and Inequality Track	C	3
ASB 339 / POS 339 / SBS 339 / SOC 339 Grassroots Social Movements		

Requirement	Minimum Grade	Credit Hours

Social Welfare Minor (LASSWMIN)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, West Valley, Online

Description: The social welfare minor program prepares you for work in human service settings where a fundamental knowledge of human relations is required.

The minor program enhances and broadens your abilities to analyze complex family, individual and societal problems in the context of societal values, cultural humility, and other social and economic variables. The program contributes to your understanding of society and social behavior, encourages critical thinking and helps you develop your communication skills.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in social welfare requires 18 credit hours of graded coursework (internship and independent study courses are not applicable), of which 12 are upper division. At least 12 credit hours must be completed at ASU. A minimum grade of "C" (2.00 on a 4.00 scale) is required for all courses in the minor. Students must maintain a minimum cumulative GPA of 2.00 (on a 4.00 scale) in the minor.		
SWU 171 Introduction to Social Work (SOBE)	C	3
SWU 291 Social Service Delivery Systems	C	3
SWU 332 Social Policy and Advocacy (CIVI) **or** SWU 432 Social Policy and Services	C	3

Upper Division Governance and Civic Engagement Course

SWU 374 Diversity and Oppression in a Social Work Context (CIVI) SWU 456 Immigrants and Refugees (CIVI) SWU 457 Southwest Borderland Immigration Issues (CIVI) SWU 461 LGBTQ+ Communities: Practice and Policy (CIVI)	C	3

Requirement	Minimum Grade	Credit Hours
Upper Division Electives		
SWU 303 Micro Human Behavior and the Social Environment (SOBE)		
SWU 340 Macro Human Behavior and the Social Environment (SOBE)		
SWU 454 Overview of Addictions		
SWU 456 Immigrants and Refugees (CIVI)		
SWU 457 Southwest Borderland Immigration Issues (CIVI)		
SWU 458 Behavioral Health Services	C	6
SWU 460 Legal Issues in Social Work		
SWU 461 LGBTQ+ Communities: Practice and Policy (CIVI)		
SWU 462 Global Social Welfare (GCSI)		
SWU 498 Pro-Seminar		

Select two courses from the elective list. Students may select one additional course from the Governance and Civic Engagement options above.

SWU 456, SWU 457, and SWU 461 cannot be used to meet both the Governance and Civic Engagement requirement and the elective requirement.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Prerequisite: SWU 171 is required before enrollment in any upper-division course.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BSW in social work; BA in public service and public policy (social services delivery); BA in community advocacy and social policy

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Graduates are prepared for work in a variety of human service settings. This minor complements careers in journalism, communications, public administration, nursing and related fields, and it provides a foundation for students who seek to pursue a Master of Social Work degree.

Sociology Minor (ASSOCMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: The minor program in sociology, offered by the School of Social and Behavioral Sciences, provides you with an understanding of the theory, practice and policy that underlie issues of social change, inequality and diversity. These issues are approached from multiple perspectives, including race or ethnicity, gender, economic position, age, geographic location and position in the global political economy.

You learn how sociology enhances your understanding of social realities and institutions at local, national and international levels and how it contributes to the other social sciences and to the humanities.

You gain a basic understanding of the assumptions underlying the discipline of sociology and develop the research skills necessary for analysis of complex social issues. These objectives are met through a flexible program that offers you both individual and group experiences, working with faculty members on concrete intellectual and policy issues.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in sociology consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
SOC 101 Introductory Sociology (SOBE) If SOC 101 is being applied toward a major requirement, a SOC upper-division elective may be completed as a substitution.	C	3
SBS 302 Qualitative Methods (SOBE) **or** SBS 303 Quantitative Methods (QTRS) **or** SBS 304 Social Statistics I (QTRS) **or** SOC 426 Social Inequalities (CIVI) **or** SOC 483 Sociological Theories (SOBE)	C	3
SOC Elective	C	3
Upper Division **SOC Elective** Up to three credit hours of experiential learning (484/499) may apply toward the SOC electives requirement.	C	9

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS or BA in sociology

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates are prepared for employment in corporate or governmental organizations and to continue their studies in graduate programs in sociology or social science, or in professional schools.

The sociological perspective is applicable to a wide variety of jobs in business, management, government, social services, the criminal justice system and the health professions. Coursework in sociology is valuable preparation for careers in journalism, law, the nonprofit sector, public administration and public relations. These are all fields that involve investigative skills and an ability to work with diverse groups.

Graduates with an advanced degree in sociology may become community activists, community developers, criminologists, demographers, gerontologists, organizational advocates, research analysts, statisticians, survey researchers or urban planners.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Students should consult with an academic advisor to select six credit hours from the Spanish elective list or other appropriate courses from the LAS or SPA subjects, with the understanding that their coursework will be carried out in Spanish.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in Spanish

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

The program offers excellent preparation for graduate school.

A minor in Spanish is also highly valuable for employment as a teacher in the elementary or secondary school system, especially in districts where bilingual programs are integral to the curricula.

Outside the education system, graduates find employment as translators and interpreters in:

- diplomatic corps
- federal and state courts
- law enforcement agencies
- law firms
- social agencies

The business world also provides employment for those fluent in Spanish. This is especially true in the American Southwest, with its proximity to Mexico, and through outlets created by multinational trade agreements.

Spanish Minor (LSSPAMIN)

College/School: College of Integrative Sciences and Arts

Campus: Downtown Phoenix

Description: This 15 credit hour minor program helps you hone your Spanish communication skills and gain the cultural knowledge that can help you serve the needs of the growing U.S. Latino community at home and abroad.

The program's combination of professionally focused courses and practical experience enhances your professional preparation for employment in positions that require advanced proficiency in Spanish and an in-depth understanding of U.S. Latino culture. With the flexibility of iCourses and enriching internships, you gain practical experience while mastering intercultural communication, decision-making, and problem-solving with cultural and ethical awareness.

If you are a heritage or bilingual Spanish student looking to expand your skills, you are encouraged to apply.

Curriculum

Requirement	Minimum Grade	Credit Hours
The Spanish minor requires a total of 15 credit hours. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses. Pass/Fail courses cannot be used.		
SPA 404 Spanish in U.S. Professional Communities	C	3
SPA 405 Latino Cultural Perspectives for the Professions (HUAD)	C	3

SPA 317 Spanish for Professional Success

SPA 402 Mastering Professional Spanish Writing **or** SPA 484 Internship

Choose one elective course from the following:

COM 362 Urban Communication: Reinventing the Latinx City

COM 363 Latinxs and the Media (SOBE)

SPA 318 Advanced Spanish for Health Care Professionals

SPA 401 Spanish Oral Communication for the Professions

SPA 402 Mastering Professional Spanish Writing

SPA 403 Advanced Spanish Grammar for Career Success

SPA 406 Introduction to Spanish/English Medical Interpretation

SPA 484 Internship

SPA 494 Topic: Community Interpretation

SPA 494 Topic: Introduction to Spanish Translation for the Profes

SPA 494 Topic: Spanish for Mental Health Practiti and Ally fields

SPA 494 Topic: Spanish for Social Care: Latinx Ameri Pop Cultures

or

Upper Division Professional Spanish and Latinx Cultures for Social Care and Public Work

Required courses:

SPA 401 Spanish Oral Communication for the Professions

SPA 494 Topic: Spanish for Social Care: Latinx Ameri Pop Cultures

Requirement	Minimum Grade	Credit Hours
Choose two courses from below.		
COM 362 Urban Communication: Reinventing the Latinx City		
COM 363 Latinxs and the Media (SOBE)		
SPA 317 Spanish for Professional Success		
SPA 318 Advanced Spanish for Health Care Professionals		
SPA 402 Mastering Professional Spanish Writing		
SPA 403 Advanced Spanish Grammar for Career Success		
SPA 406 Introduction to Spanish/English Medical Interpretation		
SPA 484 Internship		
SPA 494 Topic: Community Interpretation		
SPA 494 Topic: Introduction to Spanish Translation for the Profes		
SPA 494 Topic: Spanish for Mental Health Practiti and Ally fields		
or		
Upper Division Professional Spanish and Latinx Cultures for Heritage Speakers		
Required course:		
SPA 401 Spanish Oral Communication for the Professions		
Choose two courses from the list below:		
COM 362 Urban Communication: Reinventing the Latinx City		
COM 363 Latinxs and the Media (SOBE)		
SPA 317 Spanish for Professional Success		
SPA 318 Advanced Spanish for Health Care Professionals		

Requirement	Minimum Grade	Credit Hours
SPA 402 Mastering Professional Spanish Writing		
SPA 403 Advanced Spanish Grammar for Career Success		
SPA 406 Introduction to Spanish/English Medical Interpretation		
SPA 484 Internship		
SPA 494 Topic: Community Interpretation		
SPA 494 Topic: Introduction to Spanish Translation for the Profes		
SPA 494 Topic: Spanish for Mental Health Practiti and Ally fields		

Students complete nine upper-division credit hours from one of the three focus areas: Spanish for Professional Development and Solutions, Professional Spanish and Latinx Cultures for Social Care and Public Work, or Professional Spanish and Latinx Cultures for Heritage Speakers.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

SPA 484 Enrollment Information:

The Spanish Internship (SPA 484) is not limited to students pursuing the Spanish for the Professions certificate or the Spanish minor. Any undergraduate or graduate student is eligible to enroll!

If you're not currently in the Spanish for the Professions minor but are interested in participating, please contact the instructor Andres.Jimenez-Rodriguez@asu.edu or email CISAadvising@asu.edu.

Enrollment Deadlines:

For Fall enrollment: submit your request by May 1

For Spring enrollment: submit your request by December 1

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BA in Spanish

Other Enrollment Requirements: Students must have completed SPA 314 or SPA 316 or received faculty approval to begin the minor. Faculty approval can be requested by contacting CISAadvising@asu.edu (mailto:CISAadvising@asu.edu). For fall enrollment, students should submit a request by May 1. For spring enrollment, students should submit a request by Dec. 1. The applicant should include their name, ASU ID number, the requested minor, and the semester they would like to begin the program.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates can serve in professional fields such as health and legal services, journalism, business, social work and criminology.

They have many options for career opportunities in a variety of fields, including:

- business and international trade
- community and social services
- education and training
- engineering, urban planning and infrastructure
- government and public service
- health care services
- legal and justice systems
- media, communications and marketing
- nonprofit and international development
- tourism, hospitality and global experience

Spanish Minor (LASPAMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: The minor program in Spanish provides you with an opportunity to gain proficiency in reading, speaking and writing the Spanish language. You also gain a better understanding of the diverse cultures and regions of Spanish-speaking communities.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in Spanish requires 21 credit hours, of which 18 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
Course substitutions may be allowed for heritage and advanced speakers of the language.		
SPA 202 Intermediate Spanish (HUAD) **or** SPA 204 Intermediate Spanish II for Bilinguals (HUAD) **or** SPA 210 Intensive Spanish II	C	3
Three credit hours of 200-level coursework will be applied to the minor and any additional credit hours will be applied toward university elective hours.		
Upper Division Spanish Second Language Track		
SPA 313 Spanish Conversation and Composition (HUAD)		
SPA 314 Spanish Conversation and Composition (SOBE)		
SPA 412 Advanced Conversation and Composition		
or **Upper Division Spanish Heritage/Bilingual Language Track**	C	9
SPA 315 Advanced Spanish I for Bilinguals (SOBE)		
SPA 316 Advanced Spanish II for Bilinguals (CIVI)		
SPA 416 Advanced Spanish Conversation and Composition for Spanish Heritage Learners (HUAD)		
Students select one track to complete the nine credit hours in this requirement.		
Upper Division Option 1: Spanish Language Studies Track	C	9
Required Spanish Civilization and Culture Course (choose one):		
SPA 471 Civilization of the Indohispanomexicano Southwest (HUAD)		

Requirement	Minimum Grade	Credit Hours
SPA 472 Latin American Society: Five Case Studies		
SPA 473 Old and New Spaniards: Culture and Civilization of Spain (HUAD)		
SPA 474 Revolutionary Mexico and Postmodern Revisions		
SPA Upper-Division Restricted Elective (choose one):		
SPA 325 Introduction to Hispanic Literature (HUAD)		
SPA 400 Fundamentals of Spanish Linguistics (SOBE)		
SPA 413 Spanish Grammar in Context		
SPA 471 Civilization of the Indohispanomexicano Southwest (HUAD)		
SPA 472 Latin American Society: Five Case Studies		
SPA 473 Old and New Spaniards: Culture and Civilization of Spain (HUAD)		
SPA 474 Revolutionary Mexico and Postmodern Revisions		
SPA Upper-Division Elective or SPA Upper-Division Study Abroad Course (choose one):		
300-Level SPA Elective		
400-Level SPA Elective		
Upper Division Spanish Study Abroad Course		
SPA 317, 318, 401, 402, 403, 404 or 405 can not be used to fulfill the SPA 300-level or SPA 400-level electives.		
or		
Upper Division Option 2: Spanish Literary and Cultural Studies Track		
SPA 325 is required for this track		
SPA 325 Introduction to Hispanic Literature (HUAD)		

Requirement	Minimum Grade	Credit Hours

Choose one 400-level course from the following:

SPA 425 Understanding Spain: Literature and Culture Before 1700

SPA 426 Literature and Society in Modern Spain

SPA 427 Colonial and Postcolonial Latin American Literature (HUAD)

SPA 428 Foundational Texts of Latin American Literature Since Modernismo

SPA 429 Writing Mexico: Major Texts

SPA 464 Jaitón Works in Chicano/a Literature

SPA 471 Civilization of the Indohispanomexicano Southwest (HUAD)

SPA 472 Latin American Society: Five Case Studies

SPA 473 Old and New Spaniards: Culture and Civilization of Spain (HUAD)

SPA 474 Revolutionary Mexico and Postmodern Revisions

Choose one upper-division course from the following:

300-Level SPA Elective

400-Level SPA Elective

SPA 317, 318, 401, 402, 403, 404 or 405 can not be used to fulfill the SPA 300-level or SPA 400-level electives.

or **Upper Division Option 3: Spanish Linguistics**

SPA 400 is required for this track.

SPA 400 Fundamentals of Spanish Linguistics (SOBE)

Choose two courses from the following:

Requirement	Minimum Grade	Credit Hours
First course selection:		
SPA 413 Spanish Grammar in Context		
SPA 417 The Sounds of Spanish (SOBE)		
SPA 418 Architecture of Spanish		
SPA 419 Spanish Around the World		
SPA 420 Applied Spanish Linguistics (SOBE)		
SPA 421 Spanish in the Southwest		
Second course selection:		
SPA 413 Spanish Grammar in Context		
SPA 417 The Sounds of Spanish (SOBE)		
SPA 418 Architecture of Spanish		
SPA 419 Spanish Around the World		
SPA 420 Applied Spanish Linguistics (SOBE)		
SPA 421 Spanish in the Southwest		

Students select one track to complete the nine credit hours in this requirement.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

See information about Language Placement Testing or consult with an academic advisor in the School of International Letters and Cultures regarding placement into Spanish language classes. Students testing into higher Spanish language courses may need overrides to enroll.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BA in Spanish; BAE in secondary education (Spanish)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Global opportunities

Global experience: Participation in a study abroad program (https://goglobal.asu.edu/) can enhance a student's minor experience and education.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates with a minor in Spanish have enhanced communication skills and cultural competence, giving them an advantage as they pursue careers in political analysis, education, tourism and hospitality, the military, sociology, marketing or various other fields.

Special Events Management Minor (HSEVNMIN)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Description: In the special events management minor program, you learn how to plan, coordinate and manage events of all sizes. Coursework combines foundational and advanced instruction in event planning, budgeting, logistics and coordination, supported by applied learning opportunities in real event production.

You choose electives that align with your career interests. The program complements any major by enabling you to develop practical, transferable skills in organization, communication and leadership. You gain the ability to manage event operations and details while building teamwork and problem-solving skills.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor requires 15 credit hours of graded coursework (no independent study), of which 12 are upper division. Students complete six credit hours of required courses and nine credit hours of electives. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses in the minor.		

Requirement	Minimum Grade	Credit Hours
PRM 203 Designing Experiences: Events and Programs	C	3
PRM 487 Advanced Special Events Management **or** PRM 307 Event Leadership Experience PRM 487 is only offered spring semesters. PRM 307 is only offered fall semesters.	C	3

Upper Division Electives

CRD 350 Tourism, Hospitality, Recreation and Sports Marketing		
PRM 310 Strategic Volunteer Engagement (CIVI)		
PRM 483 Sports Tourism		
PRM 484 Internship	C	9
PRM 485 Sports Events		
TDM 345 Meeting and Convention Planning		
TDM 386 Convention Sales and Management		

Students may only apply three credits of PRM 484 Internship. Internship Application.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in parks and recreation management; BS in tourism development and management (including all concentrations); BS in tourism, hospitality and event management; BS in public service and public policy (parks and recreation management)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors) for program descriptions and to request more information.

Career opportunities

Graduates are prepared for roles that involve planning, marketing and coordinating events in corporate, nonprofit and community settings. They may work on conferences, weddings, trade shows, festivals or fundraisers.

Career paths include positions such as event planner, meeting coordinator, festival coordinator or venue operations assistant. The applied skills that students gain in organization, budgeting and logistics enhance their career preparation, particularly for those in majors such as business, communication, tourism and the arts.

Speech and Hearing Science Minor (LASHSMIN)

College/School: College of Health Solutions

Campus: Tempe

Description: The minor program in speech and hearing science emphasizes normal aspects of speech, language and hearing. In the program, you focus on how motor, cognitive and sensory systems interact with and influence hearing, speech and language in children and adults.

A few examples of courses that you can expect to take in this program are:

• aural rehabilitation
• anatomical and physiological bases of speech
• clinical methods and treatments of communication disorders
• introduction to phonetics

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in speech and hearing science consists of 24 credit hours, of which 18 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.		
Students are strongly encouraged to meet with a Speech & Hearing Science academic advisor.		
SHS 205 Exploring Communication Disorders in Children and Adults	C	3
SHS 250 Introduction to Phonetics	C	3

Requirement	Minimum Grade	Credit Hours
SHS 310 Anatomical and Physiological Bases of Speech	C	3
SHS 311 Hearing Science	C	3
SHS 367 Language Science (SOBE) **or** SHS 375 Speech Science	C	3
Upper Division Electives		
SHS 401 Principles of Audiology SHS 402 Clinical Methods and Treatment of Communication Disorders SHS 465 Speech and Language Acquisition (SOBE) SHS 470 Developmental Speech and Language Disorders SHS 485 Acquired Speech and Language Disorders SHS 496 Aural Rehabilitation	C	9
Students interested in pursuing the Speech-Language Pathology Assistant certificate should take SHS 402, 465, and 470 as their upper-division electives.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in speech and hearing science

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

A minor in speech and hearing science can provide a broad background for related careers such as medicine, education and neuroscience.

Graduates with this minor as a complement to their major are prepared to apply to most graduate programs in speech-language pathology, communication disorders or audiology.

Statistics Minor (ASSTAMIN)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley, Online

Description: Data is the lifeblood of decision-making, and the discipline of statistics focuses on how to gain insights from data. If you are in a STEM major and wish to significantly increase your grasp of statistics and probability at the upper-division level, the minor program in statistics is intended for you. It's an excellent addition if you are interested in data and data analytics.

The core courses provide foundational skills in probability, the analysis of distributions and the most common methods of inference. Later, more advanced coursework allows for specialization in nonparametric regression, statistical computing, multivariate analysis or other specialized topics.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in statistics consists of 15 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. Credit hours may not be shared between major and minor requirements. All courses used to satisfy requirements for the minor must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
STP 281 Statistical Analysis for Researchers **or** STP 420 Introductory Applied Statistics (QTRS) If STP 281 is being applied toward a major requirement, an STP upper-division elective may be completed as a substitution.	C	3
STP 310 Design and Analysis of Experiments	C	3
STP 311 Regression and Time Series Analyses	C	3
Upper Division Statistics Electives	C	6
MAT 422 Mathematical Methods in Data Science		
STP 315 Statistical Computing		
STP 421 Probability		

Requirement	Minimum Grade	Credit Hours
STP 450 Nonparametric Statistics		
STP 451 Quality Improvement		
STP 452 Multivariate Statistics		
STP 460 Categorical Data Analysis		
STP 470 Predictive Analytics		
STP 494 Special Topics		
STP 499 Individualized Instruction		

Up to three credit hours of individualized instruction (499) may apply toward the statistics electives requirement.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in statistics

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors) for program descriptions and to request more information.

Career opportunities

The completion of a minor program in statistics indicates to employers and graduate school admission committees that graduates have had significant training in the proper handling, analysis and interpretation of data.

Graduates work in a variety of fields, including government, business, health care and technology.

Statistics Minor (LASTAMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The minor in statistics is beneficial if you're majoring in a variety of disciplines, such as the sciences, business, economics, engineering or any field where there's a need for quantification in the analysis of information.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in statistics requires 18 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
MAT 266 Calculus for Engineers II (MATH) **or** MAT 271 Calculus with Analytic Geometry II (MATH)	C	3 - 4
MAT 267 Calculus for Engineers III (MATH) **or** MAT 272 Calculus with Analytic Geometry III (MATH)	C	3 - 4
STP 420 Introductory Applied Statistics (QTRS)	C	3
STP 421 Probability STP 421 and STP 427 must be taken through The College of Liberal Arts and Sciences.	C	3
STP 427 Mathematical Statistics	C	3
STP 429 Applied Regression (QTRS)	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in actuarial science; BS in applied mathematics; BS in computational mathematical science and

statistics; BS in data science; BA and BS in mathematics (including all concentrations); BAE in secondary education (mathematics)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Statistics is found in every pursuit that involves the collection or use of information, in areas as varied as marketing, sports statistics and medical research. Statistical analysis is essential to the fields of engineering, life sciences, business, physics, economics and social sciences.

Graduates with a statistics minor have data interpretation and critical thinking skills that are in high demand, strengthening their resumes.

Stress Management, Mindfulness and Resilience Minor (PPSMMRMIN)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Description: The minor program in stress management, mindfulness and resilience introduces you to integrative health approaches addressing the physiology and psychology of stress. Through evidence-based and experiential learning, you develop mindfulness and self-regulation skills that enhance well-being and support success in academic and professional settings.

Curriculum

Requirement			Minimum Grade	Credit Hours
The minor requires 15 credit hours, 12 of which must be at the upper-division level. A grade of "C" (2.00 on a 4.00 scale) or better must be earned for all courses in the minor. Students complete nine credit hours of required courses and six credit hours of electives. At least 12 credit hours must be completed at ASU. Students need to allow at least one year to complete the certificate program.				
SWU 250 Stress Management Tools I (SOBE)	**or**	HCR 294 Topic: Fndns of Mindfulness and Resilience: Sci/Practice	C	3
SWU 349 Stress Management Tools II (SOBE)			C	3

Requirement	Minimum Grade	Credit Hours
SWU 350 Whole Person Health Across the Lifespan (SOBE) **or** HCR 394 Topic: Org. Mindfulness Leadership Success in Workplace Students pursuing the BA in community advocacy and social policy complete SWU 350 in their major, so must complete HCR 394 topic "Organizational Mindfulness and Resilience: Leadership and Success in the Workplace" to fulfill the minor requirement.	C	3

Upper Division Electives

COM 452 Communication and the Art of Happiness EXW 302 Fundamentals of Wellness EXW 400 Stress Management for Wellness HCR 394 Topic: Org. Mindfulness Leadership Success in Workplace HEP 380 Body Image and Wellness HEP 443 Emotional Health and Interpersonal Relationships PSY 335 Positive Psychology PSY 494 Topic: Psychology of Mindfulness SWU 350 Whole Person Health Across the Lifespan (SOBE) SWU 351 Sustainable Living, Mindful Eating (SUST)	C	6

SWU 350 or HCR 394 not used in required courses may be used to fulfill elective requirements. Students pursuing the BA in community advocacy and social policy may not use SWU 350 to fulfill minor electives.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Students should consider meeting with a Watts College undergraduate academic advisor prior to registration.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: Students should consider meeting with a Watts College undergraduate advisor prior to enrolling in the minor to ensure an appropriate set of courses is taken.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors) for program descriptions and to request more information.

Career opportunities

Graduates are prepared to work in wellness-focused roles or to bring these skills into their current major area of study. This program enhances skills in managing workplace stress, promoting well-being and improving employee engagement, making graduates a valuable asset in wellness-focused organizations.

Career examples include:

- corporate trainer
- human resources associate
- mental health support worker
- mindfulness educator
- wellness coach

Studio Art Minor (HISTARTMIN)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe, Online

Description: In the studio art minor, you explore your passion for art while complementing your primary field of study. Through coursework in painting, drawing, printmaking, photography, sculpture and other media, you gain hands-on experience in diverse artistic practices. The flexible curriculum makes it possible to focus in one area or to experiment across several, supporting both individual creativity and broad-based learning.

Minors in the arts and humanities give you valuable perspectives that enrich academic preparation and professional pathways. By adding studio art to your studies, you expand your capacity for creative thinking, communication and cultural awareness --- skills that strengthen any career path.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in studio art consists of 18 credit hours, of which nine must be upper division. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
Studio Art Core		
ARA 195 Art in My World (HUAD)	C	3
ART 107 Photography as Experience **or** ART 108 Digital Literacy for the Arts **or** ART 109 Making as Seeing and Thinking **or** ART 110 Drawing as Seeing and Thinking (HUAD)	C	3
Art Electives		
ARA Elective **or** **ART Elective**	C	3
Upper Division **ARA Elective** **or** Upper Division **ART Elective**	C	9

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: All BFA in art majors; BA in art (art studies)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Global opportunities

Global experience: Global Education programs (https://goglobal.asu.edu/) provide an opportunity for students to explore their creative side through an intercultural lens, deepen their understanding of the world and gain valuable career-building experiences. Study abroad can prove to be a vital accompaniment to any art program, allowing for broad historical and archaeological explorations. Students develop insight into the cultures and minds of some of the

world's most notable artists when they experience the places that gave rise to specific artistic styles.

With more than 300 options available, Global Education programs give students a breadth of knowledge in arts and culture distinctly different from their own. Study abroad encourages students to develop and broaden their intercultural sensitivity, communication skills and leadership ability, and challenges them to think differently. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere; they have the chance to look inside themselves in a way they haven't done before, growing their personal and professional confidence along the way.

Career opportunities

Graduates with this minor are positioned to pursue any career path and develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. Graduates are well prepared to enter arts-related industries or bring creative insight to fields as diverse as business, education and technology.

Sustainability Minor (SUSUSMIN)

College/School: Rob Walton College of Global Futures

Campus: Downtown Phoenix, Polytechnic, Tempe, West Valley, Online

Description: In the sustainability minor program, you learn how to think critically and creatively about the world's most pressing social, environmental and economic challenges. The program explores sustainability principles and shows how they can be applied across all fields, including engineering, business, sociology, policy, planning and the arts.

In the minor, you examine how human societies, economies, cultures and technologies interact within local, national and global contexts, developing systems-thinking skills that'll prepare you to make informed, ethical and collaborative decisions.

Designed to complement almost any major, the sustainability minor equips you with the tools to lead positive change, whether you are improving community resilience, advancing clean energy solutions, or shaping equitable policies for a more sustainable world.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in sustainability requires 18 total credit hours.		
Core Requirements		
CGF 150 Introduction to Climate Futures **or** SFS 216 The Sustainable Plate (SUST) **or** SOS 111 Sustainable Cities (SUST)	C	3
SOS 110 Building a Sustainable World (SUST)	C	3

Requirement	Minimum Grade	Credit Hours
SOS/SFS Electives		
SOS Elective **or** **SFS Elective**	C	3
Upper Division **SOS Elective** **or** Upper Division **SFS Elective**	C	9

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in business (sustainability); BA in interdisciplinary studies with a concentration in sustainability; BS in public service and public policy (sustainability); BA in sustainability; BS in sustainability; BS in sustainable food systems

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Global opportunities

Global experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the Rob Walton College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students can find programs specific to their interests on the Rob Walton College of Global Futures study abroad webpage (https://collegeofglobalfutures.asu.edu/student-life/study-abroad/) and additional opportunities and information on the ASU Global Education Office website (https://goglobal.asu.edu/). These sites also include additional information about applying for funding to support global travel.

Career opportunities

A minor in sustainability opens doors to impactful careers across industries, including business, technology, education, science, government and the nonprofit sector. This interdisciplinary program gives students a distinctive edge, blending sustainability expertise with their primary field of study to meet the growing demand for professionals who can lead with purpose.

Graduates have learned to apply sustainability principles to real-world challenges, in areas such as developing resilient urban systems and advancing clean energy, and crafting equitable policies and promoting community well-being. Whether designing sustainable business solutions or shaping environmental strategies, students emerge prepared to make meaningful contributions to their organizations and to society.

By embracing sustainability, graduates don't just boost their employability, they become changemakers, helping build a more resilient, just and sustainable future.

Sustainable Food Systems Minor (GFSUSFSMIN)

College/School: Rob Walton College of Global Futures

Campus: Polytechnic, Tempe, Online

Description: Food and sustainability are becoming increasingly relevant issues to employers in fields across the public and private sectors. Food systems can be complex and particularly vulnerable to multiple threats. This minor program in sustainable food systems enables you to gain a general understanding of these complex systems and lays the groundwork for you to create positive change.

In two required courses, you learn the fundamentals of sustainable food systems and what shapes a sustainable plate. You have the opportunity to take food systems electives from diverse academic units that are also addressing challenges to food system sustainability. This encourages you to cover a breadth of topics and perspectives related to food system issues such as sustainable agriculture, food justice and sovereignty, agriculture policy and governance, agribusiness, food systems leadership and food culture.

After completing the minor, you'll have a strong orientation toward problem-solving and systems thinking and demonstrate proficiency in critical, analytical and creative thinking by developing, communicating and applying practical solutions to food sustainability challenges. You'll be able to assess and analyze the role of culture and society in shaping food systems.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in sustainable food systems requires a total of 18 credit hours.		
Required Core		
SFS 215 Fundamentals of Sustainable Food Systems (SUST)	C	3

Career opportunities

A minor in sustainable food systems complements a variety of bachelor's degrees, expanding career opportunities related to food in sectors such as business, engineering, technology, science, nutrition, education and government.

Knowledge of sustainable food systems is applicable across diverse career paths, including agriculture, public health, community development and policy advocacy. Graduates with this minor become catalysts for positive change, fostering equity and sustainability in various fields. Whether it's promoting urban farming initiatives, enhancing consumer goods or shaping public health policies, their expertise stands out among job applicants.

By incorporating sustainable food systems into their education, students not only broaden their career horizons but also contribute to a more sustainable, equitable and healthier future. This minor equips graduates with invaluable skill sets that are relevant and impactful in many career contexts.

Sustainable Tourism Minor (PPTDMSMIN)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: In the minor program in sustainable tourism, you explore how tourism supports both communities and the environment. You study core concepts in tourism development and management, and learn how travel contributes to sustainable growth locally and globally.

The minor program complements majors such as sustainability and business, and offers opportunities for study abroad and applied learning experiences.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor requires a total of 15 hours of graded classroom coursework (no independent study), of which nine are upper division. Students complete 12 credit hours of required courses and three credit hours of electives. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses in the minor.		
TDM 205 Introduction to Travel and Tourism (GCSI)	C	3
TDM 372 Tourism Planning	C	3
TDM 458 International Tourism and Hospitality (GCSI)	C	3
TDM 480 Sustainable Tourism	C	3
Electives	C	3
TDM 448 Heritage and Cultural Tourism		
TDM 475 Entrepreneurial Recreation and Tourism		

Requirement	Minimum Grade	Credit Hours
TDM 481 Sustainable Food Management in Tourism		
TDM 484 Internship		
TDM 494 Special Topics		

TDM 481 is offered spring semester only.

Students may only apply three credits of TDM 484 Internship. Review internship application and information.

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: : 2.00

Incompatible Majors: BS in tourism development and management; BS in tourism development and management (sustainable tourism); BS in tourism development and management (resort and hotel leadership); BA in business (tourism); BS in tourism development and management (meeting and events)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. Graduates can find opportunities in diverse settings in a wide variety of industries, including hotel management and environmental and travel agencies.

Technological Leadership Minor (LATECLDMIN)

College/School: The College of Liberal Arts and Sciences

Campus:

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Description: The minor program in technological leadership equips you with the skills needed to solve tomorrow's most pressing problems.

Through a series of engaging and hands-on courses, you learn how to recognize and describe unsolved problems in the fields of science and technology, and you practice implementing creative problem-solving techniques to design potential solutions to those problems.

Offered by the Interplanetary Initiative, this minor complements and enhances your major with key skills in interdisciplinary research, technology design and collaborative leadership.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BS in technological leadership

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

A minor in technological leadership supports students who are interested in emerging fields and careers that span multiple disciplines, such as:

- academic research
- business strategy
- data analytics

engineering management
entrepreneurship
management consulting
product management
project management
systems engineering
technology transfer

Theatre - Costume Design and Technology Minor (HITHCDTMIN)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe

Description: This minor program in theatre with a focus in costume design and technology provides you with opportunities to hone your craft while creating exciting production work in the costume studio. The program provides you with the distinct opportunity to explore your own creative process and to collaborate with artisans and

professionals in the field while gaining practical, hands-on experience producing costumes.

The program offers specialty coursework in:

• costume construction
• costume design and technology
• digital fabrication
• media design and technology
• millinery
• nontraditional fabrication
• pattern making for performance

In addition to building knowledge and skills, you are mentored by professional designers and technicians to successfully transition from college to your future career in entertainment design and production, or to graduate programs for additional training.

Curriculum

Requirement	Minimum Grade	Credit Hours
This minor consists of 18 credit hours, of which nine must be upper division. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.

Global opportunities

Global experience: Study abroad can prepare a future professional in the arts not only with cultural experiences but also with professional skills like collaboration and problem-solving. Global Education programs (https://goglobal.asu.edu/) provide an opportunity for students to explore their creative side with an intercultural lens, encouraging them to build communication skills and challenging them, as artists, to think differently.

With over 300 options available, Global Education programs give students a breadth of knowledge in arts and culture distinctly different from their own. Whether in a foreign country, in the U.S. or online, students learn to adapt and persevere through a program that provides them with a chance to look inside themselves in a way they haven't done before, growing their self-confidence along the way.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in costume design and technology can help graduates as they pursue careers in teaching, pattern making, costume design, shop management, and aging and dyeing costumes; positions such as first hand and set dresser; and entrepreneurship opportunities.

Transborder Chicana/o and Latina/o Studies Minor (LATCLMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the transborder Chicana/o and Latina/o studies minor program, you gain general knowledge from a comparative perspective about the Chicano and Latino populations in the United States and on the U.S.-Mexico border.

The core requirements focus on these populations' cultural, economic, sociological, historical, psychological and artistic experiences. For the remaining credit hours, you may select from courses in a variety of topics, including:

• community development
• diversity in education
• film and the media
• health issues
• immigration and migration
• language and bilingualism
• literature and performance
• politics and policy

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in Transborder, Chicana/o & Latina/o Studies requires 18 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the minor requirements.		
TCL 201 Transborder Society and Culture I: Interdisciplinary Approaches (HUAD) **or** TCL 202 Transborder Society and Culture II: Contemporary Issues	C	3
TCL 331 Mexican American History to 1900 **or** HST 331 Mexican American History to 1900 **or** TCL 332 Mexican American History Since 1900 (GCSI) **or** HST 332 Mexican American History Since 1900 (GCSI)	C	3
TCL Elective	C	3
Upper Division **TCL Elective**	C	9

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in transborder Chicana/o and Latina/o studies (all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

The minor program in transborder Chicana/o and Latina/o studies prepares students to work with Chicano and Latino populations in many industries, including:

business
education (administration and teaching)
film, media and the arts
law
local, state and national government agencies
nonprofit organizations
public affairs

- public health
- public policy and administration
- social work

Urban Planning Minor (ARPUPMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: If you wish to gain a further understanding of your community, from the neighborhood to the national level, you can benefit from an urban planning minor. The program provides you with insights into how neighborhoods are created and the effects of neighborhood planning on residents.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor requires completion of 18 credit hours, of which at least 12 must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
PUP 301 Introduction to Urban Planning	C	3
PUP Elective	C	6
Upper Division **PUP Elective**	C	9

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BSP in urban planning

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation.

Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

The urban planning minor introduces students to the fields of urban, regional and environmental planning. Students in the minor program can explore the theories, methods and practices of many urban planning topics, including:

comprehensive planning
planning law
public policy formulation
site planning
socioeconomic and environmental analyses
sustainable planning
urban design

Wellness Foundations Minor (ECEXWMIN)

College/School: College of Health Solutions

Campus: Downtown Phoenix

Description: In the wellness foundations minor program, you learn about optimizing personal health and wellness. You develop a greater understanding of the behavioral, social, cultural and environmental factors that impact health. You also learn how to make better personal lifestyle choices that may enhance individual well-being.

This minor program emphasizes a holistic approach to health and wellness and serves as a foundational step toward obtaining national certifications for professional practice in fields of study related to health, health coaching, fitness or wellness.

Curriculum

Requirement			Minimum Grade	Credit Hours
The minor in wellness foundations consists of 18 credit hours, of which at least 9 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.				
EXW 215 Resistance Training and Recovery Techniques	**or**	EXW 217	C	3

Requirement	Minimum Grade	Credit Hours
Cardiorespiratory and Flexibility Training		
EXW 302 Fundamentals of Wellness	C	3
EXW 325 Fitness for Life	C	3
EXW 400 Stress Management for Wellness **or** HEP 380 Body Image and Wellness	C	3
NTR 100 Introduction to Nutrition Science **or** NTR 241 Human Nutrition	C	3

Elective

CHS 340 Health Behavior Theory		
EXW 335 Physical Activity and Physiological Concepts		
EXW 344 Impact of Physical Activity on Health and Disease		
EXW 400 Stress Management for Wellness **or** HEP 380 Body Image and Wellness		
EXW 425 Exercise Prescription for Health and Wellness	C	3
EXW 450 Social Drivers of Health (CIVI)		
HSC 355 Eating for Lifelong Health (SOBE)		
NTR 345 Development of Healthy Cuisines		
NTR 348 Cultural Aspects of Food (GCSI)		
NTR 353 The Western Diet		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in clinical exercise science, BS in health sciences (healthy lifestyles and fitness science)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates of this course of study have a greater understanding of and appreciation for how they can take control of their personal well-being and lead a healthier lifestyle.

Completion of this coursework provides practitioners who wish to take a more holistic approach to health and wellness with foundational knowledge necessary to promote greater health throughout the community.

Writing, Rhetorics and Literacies Minor (LAWRHLMIN)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the minor program in writing, rhetorics and literacies, you learn to create new knowledge and reason, and to read, write and act in robust and significant ways to meet new challenges of the present and the future.

You consider how communication creates knowledge and action, and how that communication is constructed, circulated, reacted to and repurposed through time and place. You explore the history, theories and methods of inquiry as well as pragmatic and social actions of rhetoric, writing and literacies.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor in writing, rhetorics and literacies consists of 18 credit hours, of which 15 credit hours must be completed at the upper-division level. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
ENG 205 Introduction to Writing, Rhetorics and Literacies (CIVI)	C	3
ENG 390 Asking Good Questions	C	3
Upper Division Directed Electives	C	6
ENG 391 Writing in Context		

Requirement	Minimum Grade	Credit Hours
ENG 392 History of Rhetorical Theory (CIVI)		
ENG 393 Theories of Literacy		
Upper Division Minor Elective Courses		
ENG 301 Writing for the Professions		
ENG 311 Persuasive Writing (CIVI)		
ENG 317 Cross-Cultural Writing (HUAD)		
ENG 338 Protest Literature		
ENG 370 Science, Values, and the Public	C	6
ENG 371 Rhetoric of the Environmental Movement		
ENG 409 Winning Arguments		
ENG 419 Writing for Podcasts		
ENG 472 Rhetorical Studies		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in English (all concentrations)

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Minor programs enable students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors. A minor in writing, rhetorics and literacies can benefit those who pursue careers in writing, editing or publishing.

Youth Services Leadership Minor (HSYSLMIN)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: In the minor program in youth services leadership, you explore how professionals foster youth development through leadership and community engagement. Coursework covers program design, planning and delivery in educational, social and recreational settings.

The program complements majors in education, social work, communication and related fields by expanding your understanding of youth services and the networks that promote youth well-being. Emphasis is placed on leadership, collaboration and community partnerships, preparing you to guide and strengthen youth-focused initiatives across diverse settings.

Curriculum

Requirement	Minimum Grade	Credit Hours
The minor requires 15 hours of graded classroom coursework (no internship, no independent study), of which nine hours is upper division. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses in the minor.		
PRM 203 Designing Experiences: Events and Programs	C	3
CSM 335 Sports and Recreation for Youth Development (GCSI)	C	3
Electives	C	3
CDE 337 Early Childhood Intervention		
CDE 450 Childhood Disorders and Family Functioning		
CRD 202 Inclusive Community Development (SOBE)		
CRJ 204 Juvenile Justice		
CRJ 462 Gangs		
ECD 310 Applied Early Child Development		
ECD 312 Social/Emotional Foundations of Learning		

Requirement	Minimum Grade	Credit Hours
ECD 417 Arts Integration for Young Children		
JUS 477 Youth and Justice (SOBE)		
MUE 311 Music in the Lives of Children and Youth (HUAD)		
MUS 215 Children, Creativity, Arts (HUAD)		
NLM 220 Introduction to Nonprofit Organizations		
NLM 310 Strategic Volunteer Engagement (CIVI)		
NLM 451 Grant Writing		
RTH 364 Foundations in Recreational Therapy (SOBE)		
RTH 455 Play with Children, Youth and Families		

Upper Division Electives

CDE 337 Early Childhood Intervention		
CDE 450 Childhood Disorders and Family Functioning		
CRJ 462 Gangs		
ECD 310 Applied Early Child Development		
ECD 312 Social/Emotional Foundations of Learning		
ECD 417 Arts Integration for Young Children	C	6

NLM 310 Strategic Volunteer Engagement (CIVI)		
NLM 451 Grant Writing		
RTH 364 Foundations in Recreational Therapy (SOBE)		
RTH 455 Play with Children, Youth and Families		

Notes

Prerequisite courses may be needed in order to complete the requirements of this minor.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in parks and recreation management; BS in parks and recreation management (therapeutic recreation); BS in community sports management; BS in recreational therapy

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor.

Career opportunities

Graduates are prepared for roles that support youth development and family engagement in schools, community programs and nonprofit organizations. They may work in positions such as youth program coordinator, after-school program specialist or family resource aide.

Graduates apply leadership, communication and program management skills to promote positive outcomes for children and teens across education, social service and community settings.

Undergraduate Programs

Undergraduate Certificates (Program Descriptions and Requirements)

Accountancy Certificate (BAACCCERT)

College/School: W. P. Carey School of Business

Campus: Online

Description: If you do not have a background in accounting, this postbaccalaureate certificate program in accountancy gives you the necessary foundation and skills to pursue a career in accounting or business. The curriculum covers financial reporting, cost accounting, tax, audit and information systems topics, preparing you for a variety of professional opportunities.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 24 credit hours. A "C" minimum is required for all courses in the certificate, although students must maintain a 3.00 GPA in the post-baccalaureate certificate program.		
ACC 231 Uses of Accounting Information I	C	3
ACC 241 Uses of Accounting Information II	C	3
ACC 340 External Reporting I	C	3
ACC 350 Internal Reporting	C	3
ACC 430 Taxes and Business Decisions	C	3
ACC 440 External Reporting II	C	3
ACC 444 Integrated Business Processes and Enabling Technologies	C	3
ACC 450 Principles of Auditing	C	

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Applicants are eligible to apply to the program if they have earned a bachelor's degree in any field from a regionally accredited institution with a GPA of 3.00 (scale is 4.00 = "A"). Individuals interested in this certificate must apply for university admission as nondegree-seeking graduate students.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Career opportunities

Graduates are prepared for professional opportunities in auditing, taxation, corporate accounting and consulting roles across a wide variety of potential employers.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.Students who complete the certificate program satisfy the accounting education requirement to sit for the Certified Public Accountant exam in Arizona (and other states).

Students who have already earned an undergraduate degree in business satisfy Arizona's "other related courses" credit hour requirement, making them eligible to sit for the exam upon completion of the program. Students who do not already have an undergraduate degree in business will need to complete six 3 credit hour "other related courses" to be eligible to sit for the exam because additional hours in accounting and other related courses are required for certification. https://www.azaccountancy.gov/Certification/FAQs.aspx (https://www.azaccountancy.gov/Certification/FAQs.aspx)

The program also satisfies the educational requirements for Certified Management Accountant and Certified Global Management Accountant certification exams.

Actuarial Science Certificate (LAACTCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: Actuarial science is an area that requires expertise in subjects such as probability and interest theory, coupled with a strong foundation in accounting, finance and economics.

This certificate program helps prepare you to take actuarial exams required by the professional societies to become an actuary.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in actuarial science requires 18 credit hours, of which 15 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search.		
ACT 201 Introduction to Elements and Techniques of Actuarial Science	B	3
ACT 410 Mathematics of Finance	B	3
ACT 415 Probability for Risk Management	B	3
ACT 440 Single Life Mortality **or** ACT 450 Actuarial Models	C	3
Upper Division Actuarial Science Certificate Electives		
ACT 420 Ratemaking and Reserving	C	6
ACT 430 Mathematics of Financial Derivatives		
ACT 435 Statistics for Risk Modeling		
ACT 440 Single Life Mortality		
ACT 441 Long-Term Actuarial Mathematics		
ACT 450 Actuarial Models		
ACT 451 Short-Term Actuarial Mathematics		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

A grade of "B" (3.00 on a 4.00 scale) or better is required in the following courses: ACT 210, 410, 415, 420, ACT 430, ACT 435.

A grade of "C" (2.00 on a 4.00 scale) or better is required in the following courses: ACT 440, ACT 441, ACT 450, ACT 451.

Enrollment requirements

Although no specific academic major is required for admission to the actuarial science certificate program, a strong mathematical background is essential (found in majors such as mathematics, statistics, engineering and natural sciences). Students with a major or degree other than those listed require additional preparation beyond the certificate. Students are required to have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") and grades of "B" or higher in multivariate calculus, linear algebra and introductory statistics courses at ASU or an equivalent institution.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Identify the proper mathematical and statistical theories that may be applied to analyze actuarial data and draw analytical conclusions in a professional environment
- Use mathematical and statistical theories to demonstrate mastery of analytical decision-making based on both qualitative and quantitative data.

Career opportunities

Risk is a part of daily life, and wherever there is risk, there are opportunities for actuarial intervention. Many actuaries calculate premiums at insurance companies, determine reserves needed to ensure an organization's financial health, and ensure that organizations conform to stringent, complex legal mandates. Others help companies to establish retirement plans or are employed as consultants.

Graduates with a certificate in actuarial science have skills that are transferable to any industry and any organization that requires risk modeling and management, including:

- colleges and universities
- consulting firms
- energy and environmental companies
- financial services
- government agencies

- insurance companies
- retirement and pension companies
- transportation companies

Graduates also can apply the advanced problem-solving skills learned in the actuarial science certificate program to a variety of other professional positions, including:

- analyst
- business operations specialist
- teacher

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Conduct independent research exploring critical issues in and to the African diaspora.
- Analyze the ways in which race intersects with other social locations in shaping ideology, as well as social, political and cultural institutions.

Career opportunities

Students can advance their career options with an undergraduate certificate. By adding this specialization in African and African American studies as a complement to their major program of study, students become more marketable hires. Graduates who have completed this undergraduate certificate often pursue employment in education, law, public service, and human welfare and social work. Advanced degrees or certifications may be required for academic or clinical positions.

American Indian Nation Governance Certificate (LAAIGVCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The American Indian nation governance certificate program prepares you to be a leader who understands and supports the sovereignty and self-determination of Native nations. You gain a broad understanding of tribal governance structures, legal foundations and policy processes while examining how Native nations exercise sovereignty and shape their own futures.

Grounded in Indigenous perspectives and community priorities, the program emphasizes leadership, ethical engagement, and practical skills for working across governments and institutions. Through courses in federal Indian policy, tribal sovereignty and Indigenous leadership, you explore how governance systems reflect cultural values and promote community well-being.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in American Indian Nation governance requires 15 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
AIS 285 Federal Indian Policy (CIVI)	C	3
AIS 330 Tribal Sovereignty and U.S. Courts (CIVI)	C	3
Upper Division American Indian Studies Electives	C	9

Requirement	Minimum Grade	Credit Hours
AIS 385 Building Sustainable Indigenous Communities (SOBE)		
AIS 394 Topic: Indigenous Entrepreneurship & Innovation		
AIS 440 Cultural Professionalism		
AIS 445 Indigenous Leadership: Governance to Grassroots (CIVI)		
AIS 470 Tribal Governance and Nation Building (CIVI)		
AIS 480 Actualizing Decolonization		
AIS 484 Internship		
AIS 494 Topic: Indigenous Data & Decision Making		
AIS 494 Topic: Indigenous Statistics & Data Sovereignty		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Not all courses are available every term. Students should consult Class Search prior to each term to confirm course availability.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Understand the role of government, governance, and key legal frameworks affecting Native American Nations.
- Evaluate a contemporary issue in tribal governance through course projects.

Career opportunities

Graduates are prepared to lead and collaborate with Native nations, tribal organizations and public agencies. They are equipped for meaningful careers in tribal government, public policy, community development and education, with the skills to advance Indigenous governance and support community priorities in a wide variety of professional settings.

Graduates have the expertise to navigate the intersections of law, policy and Indigenous governance --- skills valued by tribal nations, federal and state agencies, and nonprofit organizations.

ACT 484 Internship		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Students must hold a minimum GPA of 2.50 to pursue this certificate and must have completed the following prerequisite courses at ASU or an equivalent institution with a grade of "C" or higher (scale is 4.00 = "A"):

CIS 105 Computer Applications and Information Technology or equivalent
ECN 211 Macroeconomic Principles or ECN 212 Microeconomic Principles
MAT 210 Brief Calculus
STP 226 Elements of Statistics or ECN 221 Business Statistics

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student. Applicants should contact the unit for additional information.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Analyze factors of risk to make informed assessments for insurance purposes.
- Use mathematical and statistical theories to demonstrate mastery of analytical decision-making based on both qualitative and quantitative data.

Career opportunities

Graduates with a certificate in analysis and management of insurance risk have skills that are transferable to any organization that requires risk modeling and management, including:

- colleges and universities
- consulting firms
- energy and environmental agencies
- financial services
- government agencies
- insurance companies
- retirement and pension companies
- transportation companies

Applied Business Data Analytics Certificate (BABDACERT)

College/School: W. P. Carey School of Business

Campus: Tempe, Online

Description: If you are interested in practical uses for computer-based tool suites that are capable of managing vast amounts of data, the certificate program in applied business data analytics is for you. You learn sophisticated but easy-to-use means of managing and analyzing such data. You leverage the tools for making good decisions about projects, process designs and fundamental tasks.

You are exposed to predictive analytics and modeling, big data techniques, and visualization, giving you significant insight into the advanced uses of computer-based tools. Critical thinking is an important skill and mindset; it's needed to establish and evaluate evidence-based benchmarks in order to make good data decisions that lead to high-quality outcomes.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in applied business data analytics requires 18 credit hours with 12 upper division credit hours. To earn the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or higher.		
CIS 105 Computer Applications and Information Technology (QTRS)	C	3
CIS 308 Advanced Excel in Business	C	3
CIS 309 Business Process Management	C	3
CIS 310 Business Data Visualization	C	3
CIS 405 Business Intelligence	C	3
Any Statistics Course **or** CIS 313 Location Analytics in Business	C	

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

ASU degree-seeking students
The applied business data analytics certificate is open to all ASU students.

Nondegree-seeking students
This certificate is available through the Pathways for the Future program (https://pff.asu.edu/). Applicants without a bachelor's degree are eligible to apply for and receive this certificate through the Pathways for the Futures program. Applicants who already hold a bachelor's degree should apply to ASU and this certificate program as a nondegree-seeking graduate student.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/undergraduate-certificate-applied-business-data-analytics/) for program descriptions and to request more information.

Career opportunities

With this specialization as a complement to their major program of study, graduates are more attractive to potential employers and have expanded career options.

Graduates with this certificate often pursue employment in management, business analysis or marketing. Advanced degrees or certifications may be required for academic or clinical positions.

Applied Cybersecurity Certificate (ASACSCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: Polytechnic, Tempe, West Valley

Description: In the applied cybersecurity certificate program, you develop the skills needed to protect data systems and organizations in today's digital world, including security operations, risk assessment, network defense and regulatory compliance. You learn how to identify cyber threats and develop strategies to prevent or respond to them. The program takes an interdisciplinary approach, combining technology, business and social science perspectives to prepare you for the complexity of modern security challenges.

This program is a collaboration between the New College of Interdisciplinary Arts and Sciences, the Ira A. Fulton Schools of Engineering and the W. P. Carey School of Business, giving you access to a wide variety of faculty and resources.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in applied cybersecurity consists of 15 credit hours of coursework, of which a minimum of 12 hours must be upper division. Students must complete courses from more than one subject to fulfill the certificate requirements. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
CSE 365 Information Assurance **or** IFT 202 Foundations of Information and Computer System Security	C	3
Upper Division Group A - Security Operations and Risk Management		
ACO 401 / CIS 401 Managing Cyber Risks in Enterprise Business Processes	C	3
ACO 461 Security Operations		
IFT 381 Information System Security		
Upper Division Group B - Systems and Network Security		
ACO 431 Network Security	C	3
CSE 466 Computer Systems Security		
CSE 468 Computer Network Security		
IFT 458 Middleware Programming and Database Security		
IFT 475 Security Analysis		
or **Upper Division Group C - Forensics/Cyber Crime**		
ACO 331 Network Forensics Analysis		
CSE 469 Computer and Network Forensics		
IFT 482 Network Forensics		
Upper Division Group D - Policy		
ACO 351 Governance, Risk and Compliance	C	3
ACO 402 / CIS 402 Privacy, Ethics and Compliance Issues		
CSE 467 Data and Information Security		
IFT 483 Security Compliance for Information Technology		
Upper Division Group E - Project		
ACO 484 Internship **or** ACO 499 Individualized Instruction	C	3
CIS 440 Capstone in Information Systems		
CSE 485 Computer Science Capstone Project I **or** CSE 486 Computer Science Capstone Project II		
IFT 401 Information Technology Capstone		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

To enroll in this certificate program, students should have completed at least 45 credit hours in their declared major and have a cumulative GPA of 2.00 or higher.

Students should note the prerequisite courses for required certificate courses and complete them before enrolling in the certificate program.

The prerequisites for CSE 365 Information Assurance are ACO 240, CIS 235, CIS 236, CSE 220 or CSE 240 with C or higher; CSE 230 with C or higher; and pre- or corequisites ACO 201, CSE 310, SER 222 or TGM 410.
The prerequisites for ACO 240 Introduction to Programming Languages are ACO 102 or CSE 205, or geographic information science major status with GIS 222, or software engineering graduate student status.

The prerequisites for CIS 235 Introduction to Information Systems, Analytics and AI in Business are CIS 105; MAT 210, 211, 270, or 271 or applied business and technology solutions BA major status; ECN 221 or 231 or data science BS major status; and CSE 205
The prerequisite for CSE 220 Programming for Computer Engineering is CSE 205.
The prerequisites for CSE 240 Introduction to Programming Languages are ACO 102 or CSE 205, or GIS major status with GIS 222, or software engineering graduate student status.
The prerequisites for IFT 202 Foundations of Information and Computer System Security are IFT 101, IFT 103 and IFT 166.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

This program is an ideal supplement for students interested in careers in cybersecurity in the private sector or within government agencies, such as the FBI, U.S. Department of Homeland Security, the National Security Agency and the U.S. Department of Defense. Graduates have a solid background to pursue these careers:

- chief information security officer
- cyber risk analyst
- information security engineer
- network security engineer
- security operations center analyst

Applied Social Sciences Certificate (ASAPSSCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: In the applied social sciences certificate program, you gain the skills to address real-world problems using social science tools. Through collaboration, you learn how to analyze issues, communicate evidence and apply expert knowledge in practical ways. Coursework may involve case studies, fieldwork and opportunities to work directly with community or organizational partners. You learn to identify and solve problems, reform managerial structures and organizational systems, and drive social change.

This program complements a wide variety of majors and prepares you to contribute to lasting beneficial developments in communities, organizations and industries.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in applied social sciences consists of 15 credit hours, at least 12 of which must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Electives are not limited to the certificate elective list; students should see their academic advisor prior to enrollment. Students are encouraged to take courses that develop breadth rather than limiting their selection to courses in one particular discipline.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate is open to students in any major. Students who wish to pursue this certificate should consult an academic advisor in the School of Social and Behavioral Sciences to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

This certificate program is well-suited for those with academic or career interests in human resources, administration, journalism, social work, business, and community and civic work, as well as politics, organizing and advocacy, public policy, education and sustainability. Graduates may find employment in positions such as:

- educator
- human resources manager or assistant
- recruiter
- research project manager
- research specialist
- social worker

Advanced degrees or certifications may be required for academic or clinical positions.

Arabic Studies Certificate (LAARBCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The certificate program in Arabic studies provides you with skills that enable you to communicate effectively in Arabic in the four areas of language acquisition: listening, reading, speaking and writing.

Simultaneously, you gain broad knowledge and understanding of the culture, literature and traditions of the vast Arabic-speaking world. The program provides critically needed educational and cultural diversity that enriches your undergraduate experience and prepares you for life as an employee and employer.

If you are a graduate student in the humanities, natural sciences and social sciences seeking an academic or professional career, you can also benefit from the program, given the demonstrably high need for graduates with knowledge of the Arabic language.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in Arabic studies requires 18 upper-division credit hours. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
Upper Division Arabic Core Courses		
ARB 311 Advanced Arabic Skills I	C	9
ARB 321 Arabic Conversation I		
ARB 331 Arabic/Islamic Culture and Literature (GCSI)		
ARB 335 Arabic Culture and Islam (GCSI)		
ARB 341 Quran Text and Women (GCSI)		
ARB 352 Modern Arabic Literature in Translation (HUAD)		
Upper Division Certificate Elective Courses	C	9
Some courses can be used either as a core course or as an elective, but no course can be counted more than once toward certificate requirements.		
ARB 321 Arabic Conversation I		
ARB 335 Arabic Culture and Islam (GCSI)		
ARB 336 Introduction to the Qur'an (GCSI)		
ARB 337 Hadith and Prophetic Tradition		
ARB 340 Arabic Translation		
ARB 341 Quran Text and Women (GCSI)		
ARB 351 Classical Arabic Literature (HUAD)		
ARB 352 Modern Arabic Literature in Translation (HUAD)		
ARB 360 Islamic Philosophical Literature		
ARB 421 Arabic Conversation II		
ARB 422 Advanced Arabic Media		
ARB 427 Arabic Prose: Reading the Arabian Nights		
ARB 428 Gender and Sexuality Discourse in the Middle East		
GCU 328 Geography of Middle East and North Africa (GCSI)		
HST 307 Studies in African History		

Requirement	Minimum Grade	Credit Hours
HST 372 Modern Middle East (GCSI)		
REL 365 Islamic Civilization (HUAD)		
REL 366 Islam in the Modern World (GCSI)		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Any student accepted into an appropriate degree program at ASU can declare the certificate in Arabic studies. Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. The student may be contacted to discuss the certificate before it is added to their record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Effectively communicate at a conversational level of spoken Arabic and a high intermediate level of written Arabic.
- Synthesize literary concepts to apply them to research in literature, culture or language.

Career opportunities

Graduates who have combined the certificate in Arabic studies with their major program of study may be more marketable to employers. Many decide to pursue employment in education, political analysis, the military, tourism and hospitality, or marketing.

Artificial Intelligence and Digital Media Certificate (HIAIDMCERT)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe

Description: In the artificial intelligence and digital media certificate program, you focus on the creative exploration of how new media, built on advances in AI and machine learning, influences the way people live, learn, create and communicate.

You enhance your program of study with integrated, transdisciplinary training in the use of AI in new media and its sociocultural implications. You learn how to design and create new media and analyze existing media products from a transdisciplinary perspective.

The Games, Arts, Media and Engineering School educates the next generation of learners, empowering you with technofluency --- its development, application and implications. The GAME School prepares you to be a socially aware, critically thinking global citizen who strive to bring about positive change in a society that is increasingly shaped by new technologies.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in artificial intelligence and digital media consists of 15 credit hours of coursework, including 12 upper-division credit hours. A minimum grade of "C" (2.00) is required in all courses for the certificate.		
AME 130 Prototyping Dreams (HUAD) **or** AME 230 Programming for the Media Arts	C	3
AME 400 Minds and Machines	C	3
AME 404 Reading the Algorithm	C	3
AME 434 Machine Learning for Media Arts	C	3
Upper Division Media Processing Electives	C	3
AME 430 Mac Development for Media Arts		
AME 435 Mobile Development		
AME 436 Animating Virtual Worlds		

Requirement	Minimum Grade	Credit Hours
AME 470 Programming for Social and Interactive Media		
CPI 321 Fundamentals of Game Art		
CPI 411 Graphics for Games		
CPI 421 3-D Modeling and Texturing		
CPI 462 Design for Learning in Virtual Worlds		
SER 332 Introduction to Graphics and Game Development		
SER 431 Advanced Graphics		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Understand key algorithms and topics underlying artificial intelligence and how they work.
- Analyze an AI algorithm from a sociocultural perspective and produce written documentation and analysis for a given algorithm and its deployment in society.
- Create of media products and creative work that intersect with AI technology or applications.

Career opportunities

Several companies are hiring in the augmented and virtual reality, image and video multimedia space, including Adobe, Dreamscape, NVIDIA, Disney and Intel.

According to the U.S. Bureau of Labor Statistics, overall employment in media and communication occupations is projected to grow more slowly than the average for all occupations from 2024 to 2034. Despite limited employment growth, about 104,800 openings are projected each year, on average, largely because of the need to replace workers who leave the occupations permanently. The median annual wage for media and communication workers (such as public relations specialists, news analysts, and writers and authors) was $70,300 in May 2024, which was higher than the median annual wage for all occupations of $49,500. Media and communication equipment workers (such as broadcast technicians, film and video editors, and photographers) had a median annual wage of $56,480 in May 2024, which was higher than the median annual wage for all occupations.

Employment in computer and information technology occupations is projected to grow much faster than the average for all occupations from 2024 to 2034. About 317,700 openings are projected each year, on average, because of employment growth and the need to replace workers who leave the occupations permanently. All these numbers show a promising future for graduates who develop the skills taught in this certificate program.

Example careers include:

- augmented and virtual reality software developer
- computer animator
- data scientist
- graphics software developer
- machine learning engineer
- media and communications designer
- user experience and user interface designer

Arts Entrepreneurship Certificate (HITHAECERT)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe

ASU is not currently accepting applications for this program.

Description: Arts entrepreneurship is an emerging, transdisciplinary field. The certificate program harnesses the skills and mindset of the entrepreneur to empower you to create work that is meaningful, sustainable and oriented to community and market need. You benefit from the business, marketing and organizational skills offered by certificate courses as applied specifically to and within the arts across the disciplines of art, dance, design, film, music and theatre. You have the opportunity to explore your own creative process and enhance your ability to collaborate with others.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in arts entrepreneurship consists of 15 credit hours.		
HDA 252 Foundations Arts and Design Entrepreneurship	B	3
Upper Division Arts Business Course		
ARA 396 Professional Practices for Design and the Arts	C	6
ARA 460 Gallery Exhibitions		
DSC 394 Topic: Design Entrepreneurship & Society		
ENT 305 Principles of Entrepreneurship		
FMP 417 Business and Legal Practices in Entertainment		
HDA 420 Design and the Arts Business Administration		
MUP 438 The Enterprising Artist		
NLM 451 Grant Writing		
THP 351 Arts Management (HUAD)		
THP 450 Theatre Organization and Management		
Upper Division Arts Policy, Community or Social Engaged Arts Courses		
ARS 441 Public Art	C	6
ART 442 Art and Community		
DCE 494 / HDA 494 / THP 494 Topic: The Atlas of Creative Tools		
DSC 494 Topic: Indigenous Architecture, Planning and Construction		
DSC 494 Topic: Indigenous Project Delivery		
EDS 301 Sustainable Community Design and Practices (SUST)		
HDA 310 Design and Arts Corps Community-Engaged Practices Milestone		
HDA 394 Topic: Disrupt, Create, Sustain		
HDA 494 Topic: Civic Body: Art and Public Health		
HDA 494 Topic: Civ Prac: Artists&Designers Collaborating/Comm		
HDA 494 Topic: Civic Practice:Arts/Design & Public Partnerships		
HDA 494 Topic: Creative Project Management		
MUP 439 Performing Arts Product Creation and Development		
THP 482 Theatre for Social Change (CIVI)		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

The certificate in arts entrepreneurship, designed to extend the study of an individual arts discipline, is available only to current students with a major within the Herberger Institute for Design and the Arts.

Students must have an overall GPA of 3.00 or higher and must submit an application to the Herberger Institute Office of Student Success. Institute students who meet the course and GPA requirements may enroll in the certificate program. A school advisor will add the certificate plan code to the student's record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Design a business model appropriate to a specific arts discipline.
- Design effective artistic products.

Career opportunities

The certificate program in arts entrepreneurship provides an excellent foundation for those who want to work in arts management. Additionally, the program's liberal arts emphasis prepares graduates for a variety of careers.

Arts and Humanities in Games Certificate (ASAHGCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: The certificate program in arts and humanities in games introduces you to the design, creation and analysis of games from holistic and interdisciplinary perspectives. It emphasizes the cultural, social and artistic dimensions of play and explores how games are used, consumed and experienced across diverse communities.

Through coursework that integrates arts and humanities, you examine the design, development and qualitative study of toys and games while considering the role of play in human mental, emotional and social growth. This interdisciplinary approach develops your critical and flexible thinking skills while broadening your understanding of games as cultural texts and creative practices.

The program complements the technically focused study of games offered through the Ira A. Fulton Schools of Engineering, providing a distinct view based in the humanities.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in arts and humanities in games consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
Required Foundational Course		
IAP 220 Games, Culture and Aesthetics (GCSI)	C	3
Game Emphasis Area		
Game Sound Emphasis	C	9
Required Courses (complete both):		
IAP 362 Games and Narratology		
IAP 421 Composition: Process, Technique and Style **or** IAP 469 Advanced Audio Production		
Elective (complete one):		
IAP 322 Multitrack Digital Recording		
IAP 325 Sound Performance: Exploring Alternative Performance Groups		
OR		
Game Writing Emphasis		
Required Courses (complete both):		
IAP 362 Games and Narratology		
IAP 494 Topic: Scriptwriting for Games		
Elective (complete one):		
ENG 379 Travel Writing		

Requirement	Minimum Grade	Credit Hours
ENG 388 Intermediate Creative Writing Workshop in Fiction: Form, Theory, and Practice		
IAP 222 Games and Ethics (HUAD)		
IAP 368 Digital Graphic Technologies		
IAP 462 Games and Play (SOBE)		

OR

Toys and Game Culture Emphasis

Required Courses (complete both):		
IAP 222 Games and Ethics (HUAD)		
IAP 462 Games and Play (SOBE)		
Elective (complete one):		
COM 312 Communication, Conflict, and Negotiation (CIVI)		
COM 324 Rhetoric and Media Criticism		
COM 416 Gender and Race in the Media		
COM 429 Visual Communication and Semiotics		
ENG 449 Masculinities, Femininities and Literacies		
IAP 464 Media and Diversity (HUAD)		
IAP 494 Topic: Cyberfeminist Cultural Production		

OR

Toys and Games as Works of Art Emphasis

Required Courses (complete both):		
IAP 362 Games and Narratology		
IAP 462 Games and Play (SOBE)		
Elective (complete one):		
IAP 352 Seeing and Drawing		
IAP 354 Visual Representation		
IAP 366 3D Modeling and Media Literacy (HUAD)		
IAP 368 Digital Graphic Technologies		

Students select and complete one emphasis area (comprised of two required courses and one elective course). At least six hours must be upper division.

Portfolio

IAP 495 Playworks Capstone I	C	3
IAP 496 Playworks Capstone II	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate is open to students in any major. Students who wish to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Apply principles of semiotics to the design and evaluation of games and toys.
- Implement effective marketing strategies to promote creative work.

Career opportunities

The certificate in arts and humanities in games is appropriate for students who are seeking employment as:

- artists
- board game designers
- game archivists and librarians
- game curators
- game sound designers
- game writers
- multimedia artists
- narrative designers
- video game designers

Arts in Education Certificate (HIAEDCERT)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe

Description: If you are a prospective pre-K-8 educator or recreation specialist who wishes to enhance facilitation practices by developing the skills needed to use the arts throughout programming and curriculum, the certificate program in arts in education is specifically designed you.

This certificate program does not lead to any official teaching certificate or endorsement through Arizona Department of Education. Instead, it is designed to help you use the arts in your regular teaching practice.

By weaving together the principles and practices of the arts and other disciplinary curricula, you can create rich and engaging environments that enhance student learning, capitalizing on the critical thinking, communication, collaboration and creativity inherent in the arts and arts experiences.

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires 18 credit hours, of which 12 must be upper division.		
Core Courses		
Other courses which engage in the teaching or learning of creative disciplines may be petitioned to apply.		
Arts in Education Core	C	3
ARA 311 Art Appreciation and Human Development		
ARE 301 Learning Through Artistic Practice: Curiosity and Creativity in the Everyday		
ARE Elective		
DCE 350 Dance in the Classroom: Learning Through Movement		
DCE 354 Creative Approaches to Teaching Dance I		
MUE 310 Music in Early Childhood (HUAD)		
MUE 311 Music in the Lives of Children and Youth (HUAD)		
MUE Elective		
MUS 211 Dance, Music and Meaning (HUAD)		
MUS 212 Music, Meaning and Imagination (HUAD)		

Requirement	Minimum Grade	Credit Hours
MUS 215 Children, Creativity, Arts (HUAD)		
THP 311 Drama and Education: Performance Methods for Teaching (HUAD)		
THP 411 Methods of Teaching Drama		

Upper Division Arts in Education Core

ARA 311 Art Appreciation and Human Development		
ARE 301 Learning Through Artistic Practice: Curiosity and Creativity in the Everyday		
ARE Elective		
DCE 350 Dance in the Classroom: Learning Through Movement		
DCE 354 Creative Approaches to Teaching Dance I	C	3
MUE 310 Music in Early Childhood (HUAD)		
MUE 311 Music in the Lives of Children and Youth (HUAD)		
MUE Elective		
THP 311 Drama and Education: Performance Methods for Teaching (HUAD)		
THP 411 Methods of Teaching Drama		

Track Courses

Students select one track below and complete 12 credits from that track. Some courses are fewer than three credit hours and may be repeated for credit.

Track Option 1: Educators/Education Majors - This track is intended for educators or education majors seeking to gain more exposure to creative arts disciplines and/or teaching in the creative arts disciplines.

Track Option 2: Creatives/Artists - This track is intended for creatives/artists seeking to gain more exposure to teaching and learning in the creative arts disciplines.

Track Option 1: Educators/Education Majors

AME 111 Introduction to Digital Culture (HUAD)

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

This program adds richness and depth to a student's program of study and is applicable to multiple careers, including:

- community engagement
- dementia care
- education and teaching
- nursing
- recreation

Advanced degrees or certifications may be required for academic or clinical positions.

Asian Pacific American Studies Certificate (LAAPACERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The Asian Pacific American studies certificate program educates you in social justice, the global causes and impacts of Asian and Pacific Islander migration, relational and comparative racial formations, and ethnic studies movements that have made and continue to make a difference in society for all people.

Topics include diaspora, globalization, U.S. imperialism and settler colonialism, social networks, immigration, interracial and interethnic relations, and the health and well-being of Asian Pacific American families and communities. You have the opportunity to work with dedicated faculty who are committed to community-engaged research and student-centered learning.

The program is housed in ASU's interdisciplinary School of Social Transformation, the only school of its kind in the United States.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in Asian Pacific American studies requires 15 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
APA 200 Introduction to Asian Pacific American Studies (SOBE)	C	3
APA 360 Asian Pacific American Experience	C	3

Requirement	Minimum Grade	Credit Hours
One APA 360 course is required. The course may be repeated for credit with different topics: Chinese Americans; Filipinx Americans; Japanese Americans; Multiracial; Pacific Islander.		
APA 484 Internship **or** SST 484 Internship		
APA 484/SST 484 Internship requires department consent prior to registering for the course. Visit The School of Social Transformation internship website to get started.	C	3
Upper Division **APA Elective**	C	6

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Students will perform critical analysis of a historical or contemporary issue affecting the Asian Pacific American population drawing upon key concepts in the field of Asian Pacific American studies.
Students will be able to summarize a range of Asian American and Pacific Islander experiences and communities within local, national and global contexts.

Career opportunities

Graduates who have combined the certificate in Asian Pacific American studies with their major program of study may be more marketable to employers. They often pursue employment in law, education, public service, and human welfare and social work.

Advanced degrees or certifications may be required for academic or clinical positions.

Asian Studies Certificate (LAASNCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The Asian studies certificate program enhances a bachelor's degree by giving you a deeper understanding of Asia. The program combines language study with coursework on Asian history, art, culture and society, providing valuable global perspectives that complement a wide variety of academic and professional paths.

You'll have official transcript recognition of specialization in Asian studies upon graduation.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in Asian studies requires 24 credit hours of approved coursework, in addition to proficiency in a language relevant to the study of Asia. Fifteen credit hours of upper-division area studies coursework must be chosen from at least four different disciplines, e.g., language and cultures, history, religious studies, anthropology, geography, political science, global studies, art and music. Courses from other disciplines may be used by approval. The remaining nine credit hours may be chosen in any combination.		
At least six upper-division hours in the certificate must be in courses offered by The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course that is used to fulfill the certificate requirements.

Requirement	Minimum Grade	Credit Hours
Students must demonstrate proficiency in a language relevant to the study of Asia by completing the 201- and 202-course sequence, one year of study abroad at the intermediate level or satisfactory performance on a proficiency exam. Acceptable languages include Arabic, Chinese, French, Hindi, Indonesian, Japanese, Korean, Portuguese, Spanish, Thai and Vietnamese. Students who are already proficient in one of these languages, or in another language relevant to the study of Asia that is not offered by ASU, such as Dutch, Tagalog or Urdu, may fulfill the requirement by passing a proficiency exam.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

ASU Language Placement: Only true beginners are eligible for 101-level courses. Students with previous experience in the language are required to take a placement exam.

Enrollment requirements

GPA Requirement: None

Incompatible Majors: BA in Asia studies (East Asia); BA in Asia studies (South Asia); BA in Asia studies (Southeast Asia); BA in global Asia studies

Other Admission Requirements: There are no specific admission requirements other than a desire to learn about Asia.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates who have combined the certificate in Asian studies with their major program of study often pursue employment in teaching, journalism, global finance and banking, international law or global public health. Advanced degrees or certifications may be required for academic or clinical positions.

Atmospheric Sciences Certificate (LAATMSCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the atmospheric sciences certificate program, you gain an in-depth understanding of weather and climate, including learning methods and equipment used to measure the atmosphere. The coursework gives you the knowledge and skill set necessary to apply basic weather and climate information in your specific major.

The certificate program's courses are linked to National Weather Service meteorologist certification requirements. By completing the atmospheric sciences certificate and the Bachelor of Science program in geography with a concentration in meteorology-climatology, you gain the geographic information systems expertise and the meteorological instrumentation skills necessary for work and certification with the National Weather Service.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 19 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.		
GPH 213 Climate and Weather (SCIT)	C	3
GPH 215 Climate and Weather Laboratory (SCIT)	C	1
GPH 412 Physical Meteorology	C	3
GPH 413 Meteorological Instruments and Measurement	C	3
GPH 414 Climate Change (SUST)	C	3
MAT 275 Modern Differential Equations (MATH)	C	3
GIS 311 Geographic Information Science III (QTRS) **or** GIS 341 Cartography and Georepresentation (QTRS) **or** GIS 351 Air Photo Interpretation **or** GPH 314 Global Change	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Applicants must have completed GPH 111 Introduction to Physical Geography, MAT 271 Calculus with Analytic Geometry II, and PHY 121 University Physics I: Mechanics with a grade of "C" or higher (scale is 4.00 = "A").

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Apply analytical skills to compute specific variables associated with the fundamental atmospheric energy balance relationship.
- Apply knowledge of climate change theories and reconstruction of past climates to specific theoretical world constructs.

Career opportunities

A certificate in atmospheric sciences is a valuable addition to a degree for graduates seeking a career in which understanding weather systems is beneficial, including fields related to sustainability and resource management.

Graduates who have earned both the certificate in atmospheric sciences and the BS degree in geography with a concentration in meteorology-climatology are prepared for careers as meteorologists, such as broadcast meteorologists with the National Weather Service. They are also prepared to pursue an advanced degree.

Bespoke Tailoring Certificate (HIBTCERT)

College/School: Herberger Institute for Design and the Arts

Campus: Downtown Phoenix, ASU at Los Angeles

Description: The certificate program in bespoke tailoring introduces you to the sustainable craft of authentic, handmade, bespoke tailoring, a centuries-old practice rooted in the traditions of Savile Row in London, "Sartoria su misura" in Milan, and "Haute Couture" in Paris. "Bespoke" refers to custom-made clothing tailored specifically to the individual's style and preferences. Emphasizing craftsmanship, artistry and sustainability, the program explores bespoke as a form of wearable art that combines sculptural design, architectural precision, and hand-worked cloth construction.

You study the historical and cultural origins of bespoke tailoring while developing professional, career-ready skills in design, pattern drafting and garment construction. Through the creation of tailored blazers and trousers, you learn to select appropriate fabrics, adapt and mark patterns, and master hand-stitching and molding techniques using the iron, mirroring traditional Savile Row apprenticeship methods. This program distinguishes bespoke from ready-to-wear and made-to-measure production, preparing you to uphold the values of sustainability, individuality and craftsmanship in contemporary fashion design.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in bespoke tailoring requires 19 credit hours, of which 12 are upper division.		
Preliminary Skills		
FSH 122 Apparel Construction I	C	3
FSH 200 Textiles Science Lab (SCIT)	C	1
FSH 201 Textiles Science (SCIT)	C	3
Upper Division **FSH Elective**	C	3
Bespoke Core		
FSH 401 Art of Bespoke Tailoring I	C	3
FSH 402 Art of Bespoke Tailoring II	C	3
FSH 403 Art of Bespoke Tailoring III	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Global opportunities

Global experience: More than 300 study abroad opportunities (https://goglobal.asu.edu/) are available through the Global Education Office giving students the ability to tailor their experience to their specific interests and skill sets. Students looking for a fashion program (https://studyabroad.asu.edu/index.cfm?FuseAction=Programs.SearchResults&Program_Name=fashion&Program_Type_ID=1&pi=%7F&pc=%7F&pr=%7F&pt=%7F&p_1000=%7F&p_1000_t=SELCT&p_1160=%7F&p_1160_t=MUL can spend a summer session exploring the sites, culture, language, heritage and fashion in either France or Italy along with distinguished ASU FIDM faculty.

Career opportunities

Graduates are prepared for careers in high-end custom fashion, including roles as bespoke or custom tailors, pattern cutters, garment technicians, and luxury atelier specialists. They may also pursue opportunities in costume design, heritage craft preservation, or in sustainable fashion studios focused on made-to-measure production.

Bilingual Education and English as a Second Language Certificate (TEESLCERT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, ASU Sync

Description: In the certificate program in bilingual education and English as a second language, you prepare to work with a growing population of culturally and linguistically diverse learners in the certificate program in bilingual education and English as a second language.

This certificate program enables you to meet requirements for endorsements in Bilingual Education and English as a Second Language through the Arizona Department of Education. This certificate program can be added to the following Bachelor of Arts in Education programs at Mary Lou Fulton College for Teaching and Learning Innovation:

- BAE in early childhood education
- BAE in elementary education
- BAE in middle grades education
- BAE in physical education
- BAE in secondary education
- BAE in special education

You learn and apply knowledge and skills in areas related to second language acquisition, biliteracy and bilingualism, culturally relevant and sustaining pedagogies, and evidence-based instructional practices that value language diversity as an asset. Additionally, the certificate program helps you develop critical perspectives that enable you to advocate for equitable support systems that meet the needs of linguistically diverse children and families.

This program does not lead to teacher certification.

Format option
This program is also offered via ASU Sync (https://provost.asu.edu/sync/students). ASU Sync enables you to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. As a ASU Sync student, you must reside in Arizona throughout the duration of the program. If you have F-1 or J-1 immigration status, you should speak with an advisor about other options to complete this program. Students with F-1 or J-1 immigration status are not permitted to complete courses via Sync.

If you are seeking to use GI Bill® benefits for ASU Sync programs, you should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill).

Curriculum

Requirement			Minimum Grade	Credit Hours
This certificate requires 18 credit hours, of which at least 15 must be upper division.				
Required Courses				
BLE 220 Foundations of Structured English Immersion (HUAD)	**or**	BLE 408 Structured English Immersion (SEI) Methods	C	3
BLE 336 Culturally Sustaining and Transformative Pedagogies			C	3
BLE 338 Foundations of Second Language Acquisition and Development			C	3

Requirement	Minimum Grade	Credit Hours
BLE 400 Principles of Language Minority Education	C	3
BLE 481 Elementary Multilingual Education Practicum This course contains an embedded professional experience.	C	3
TEL 340 Families, Communities and Cultures: Cultivating Networks of Culturally Responsive Relationships (SOBE)	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

To be eligible to apply for an English as a Second Language Endorsement or a Bilingual Education Endorsement, students must complete this certificate, complete their teacher preparation program, and provide verification of second language experience. The ESL endorsement requires second language learning experience which can be satisfied through the completion of two undergraduate foreign language classes. The BLE endorsement requires verification of proficiency in a spoken language other than English or sign language which can be satisfied through an external test. Students majoring in Special Education who want to obtain the BLE endorsement will be required to take one additional course in teaching students with exceptionalities from non-English language backgrounds.

Enrollment requirements

This certificate program is open only to students majoring in the early childhood education, elementary education, special education, secondary education, middle grades education and physical education undergraduate teacher preparation programs in MLFC.

Students are required to have a valid Arizona DPS Identity Verified Print fingerprint clearance card.

A GPA of 2.00 is required for continued good standing. Students should contact MLFC for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student but may not be eligible for an institutional recommendation for Arizona teaching licensure without additional preparation beyond the certificate.

Career opportunities

Graduates are highly sought-after teachers in public, charter and private education institutions, including in the increasing number of dual-language programs.

Biomedical Research Certificate (ASBMRCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: The biomedical research certificate program combines professional research experience conducted in laboratories of practicing academic scientists with upper-division coursework, including laboratory courses. This allows for specialization in given subject areas and enables you to gain competency in addressing scientific questions in the laboratory.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in biomedical research consists of 15 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
STP 280 Probability and Statistics for Researchers (QTRS)	C	3
Upper Division Biomedical Research Electives	C	8

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This program requires a cumulative GPA of 3.00 in ASU coursework and upper-division standing or graduate student status. Students who wish to pursue this certificate should consult an academic advisor in the School of Mathematical and Natural Sciences to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates who complete this program are highly competitive candidates for careers in the research sector and for admission to graduate and professional schools, such as medical or pharmacy school. They are also well prepared for positions such as laboratory researcher or technician, medical scientist, and molecular and cellular biologist.

Biomimicry Certificate (SUBMYCERT)

College/School: Rob Walton College of Global Futures

Campus: Tempe

Description: The undergraduate biomimicry certificate is a 19 credit-hour interdisciplinary opportunity available even if you are pursuing an unrelated field. The program responds to the growing demand for biomimicry training, the practice of learning and emulating the natural world to help solve problems sustainably. For example, Japan's bullet train was modeled after kingfishers, owls and penguins to make it faster and quieter. At Arizona State University, the Rob and Melani Walton Center for Planetary Health building uses shading inspired by the shape of saguaro cacti to keep the building cool without using extra energy.

Upon completing the program, you'll be able to:

• apply Life's Principles, design lessons distilled from nature, to specific challenges within your discipline
• develop biomimetic outcomes within discipline-specific contexts
• integrate biology into design using biomimicry thinking
• interpret observations in nature from a functional lens
• guide projects toward sustainability from a biomimetic perspective

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requries 19 credit hours, of which 12 are at the upper-division level. A grade of "B" or better is required in all biomimicry certificate courses. Students who earn a "B-" or lower in a certificate course must repeat the course to earn a "B" or better.		
Core Courses		
SOS 110 Building a Sustainable World (SUST) Students should complete SOS 110 prior to enrolling in the certificate or in the first semester of enrollment.	B	3
BMY 230 How Nature Works (SCIT)	B	

Requirement	Minimum Grade	Credit Hours
BMY 402 Principles of Life BMY 402 is typically only offered in spring semester.	B	3
BMY 404 The Practice of Biomimicry (SUST)	B	3
Upper Division Biomimicry-Related Elective **Upper Division BMY-Related Elective** CAS 302 History and Philosophy of Complex Systems Science DSC 494 Topic: Biomimicry in Design SCN 307 Biomimicry: Nature's Sustainable Solutions (SUST) SCN 311 Nature Mindfully	B	3

Students may also propose an alternative biomimicry-related elective not on the list above. The proposed elective ideally makes a connection between the student's major and the certificate. Students must submit a proposal and gain approval prior to taking the course. Students must be prepared to present a course syllabus and explain how they will apply biomimicry directly to course assignments. After completing the course, students must complete and submit a one-page form that guides them to reflect on their goals for applying biomimicry to the course, whether and how they succeeded, and what they learned in the process. The course will not be moved in the DARS audit to show completion of the requirement until after the student has completed and submitted the reflection form, which will be provided to them upon approval of the elective. Email cgfadvising@asu.edu with questions about the upper division elective.

Students must complete BMY 230 and either BMY 402 or BMY 404 prior to taking a proposed upper-division elective.

Upper Division Capstone Upper Division Capstone Course Recommended: BMY 430	B	3

Students must select either BMY 430, or a biomimicry-focused capstone in their corresponding major, or BMY 499 Independent Study (only if options 1 and 2 are unavailable). With the exception of BMY 430, students are responsible for identifying capstone options and submitting a proposal prior to taking the course. Students must be prepared to provide a course syllabus and explain how they will apply biomimicry directly to course assignments. After completing the course, students must complete and submit a one-page form that guides them to reflect on their goals for applying biomimicry to the course, whether and how they succeeded, and what they learned in the process. The course will not be moved in the DARS audit to show completion of the requirement until after the student has completed and submitted the reflection form, which will be provided to them upon approval of the capstone. Email with questions about the capstone.

Students must complete BMY 230 and either BMY 402 or BMY 404 prior to the capstone.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

This certificate takes a minimum of three semesters to complete, due to course sequencing.

Students must obtain prior approval if a proposing an alternative upper-division elective or capstone course. Proposals submitted after the course has already been completed will not be approved. Email or schedule an appointment with a CGF advisor for questions.

Enrollment requirements

Students must have a GPA of 3.00 to add the undergraduate certificate in biomimicry.

Before adding the certificate, students must make an appointment (https://collegeofglobalfutures.asu.edu/student-life/advising/undergraduate-advising) with a Rob Walton College of Global Futures advisor to review additional details about the requirements. Because of prerequisites and the timing of course offerings, the certificate must be initiated no later than the beginning of one's junior year.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue the graduate certificate in biomimicry.

Global opportunities

Global experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the Rob Walton College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S., or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students can find programs specific to their interests on the Rob Walton College of Global Futures study abroad (https://collegeofglobalfutures.asu.edu/student-life/study-abroad/) webpage, and additional opportunities and information on the ASU Global Education Office (https://goglobal.asu.edu/) website. These sites also include additional information about applying for funding to support global travel.

Career opportunities

Earning a certificate in biomimicry is a transformative step that amplifies the impact of a graduate's degree program. This transdisciplinary endeavor equips graduates with a specialized skill set rooted in applied, nature-inspired design and innovation. In a world where innovation, creativity and collaboration are highly sought-after, this certificate becomes a powerful asset, setting graduates apart in competitive job markets.

Biomimicry transcends career boundaries, seamlessly complementing paths in business, technology, science, education or government. It offers an avenue for contributing to meaningful work by emulating the wisdom of the natural world. By delving into biomimetic principles, graduates have gained the ability to understand and generate sustainable solutions, a skill set in high demand across industries. With a biomimicry certificate, graduates not only bring the natural world into their professional and personal lives but also bring about positive change, adding transdisciplinary and innovative value to their degree program.

Border Studies Certificate (LABDRSCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The certificate program in border studies equips you with the theoretical and practical knowledge to understand and contribute to the transformation of borders and transborder communities across nations. You become an effective agent of change by leveraging the history, culture, economics and environmental conditions of borders to advocate for prosperous, resilient and safe border communities and develop informed and innovative solutions.

The certificate program is offered through Arizona State University's School of Transborder Studies, the only school in the U.S. focused on the challenges, opportunities and populations of the U.S.-Mexico transborder space. An optional internship provides you with hands-on experience in the field.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in border studies requires 15 upper-division credit hours. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
TCL 303 Transborder Theory	C	3
TCL 305 Transborder Practicum and Field Research	C	3
TCL 472 The U.S.-Mexico Border: People, Place, Power	C	3
Upper Division Electives	C	6

TCL 431 Language Hegemony and Culture		
TCL 443 Political Ecology of the Border		
TCL 444 The Ethnography of Mexico and the Borderlands		
TCL 447 Gender, Culture, and Development (GCSI)		
TCL 484 Internship		
TCL 494 Topic: Ethnography of Schooling in the Borderlands		
TCL 494 Topic: Feminism on the Border		
TCL 494 Topic: Indigenous Nations & Human Rights on the Border		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Students acquire knowledge and skills for careers in government, community and nonprofit organizations; international organizations and businesses; and consulting. The certificate is also appropriate for students preparing for graduate education in political science, economics, public administration, environmental management, public health, cultural studies, migration and other fields where globalization as well as transnational and border processes pose particular challenges and opportunities for society.

Brazilian Studies Certificate (LABZSCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The certificate program in Brazilian studies enables you to study important areas and specific issues in Brazilian culture, including popular and urban culture and foundational literature, and gain proficiency in the Portuguese language.

With specialization in either language or culture, the program's language training includes live interactions with native speakers through virtual meetings with Brazilian students or coaches.

Regardless of concentration, you take coursework on topics such as food and culture, democracy, the African diaspora and environmental issues. You develop public-facing capstone projects, such as podcast series and opinion pieces, expanding your skill set to include teamwork, organizational skills and public speaking and writing.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in Brazilian studies requires 18 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
Course substitutions may be permitted for heritage speakers of Portuguese based on their proficiency level as determined by a Portuguese placement test. The language course substitution for advanced speakers of Spanish language can be satisfied by the two-course POR 320 and POR 321 sequence.		
Portuguese Language Courses	C	6 - 8
Choose one two-course sequence for 6-8 credit hours.		
POR 101 Elementary Portuguese I (HUAD) **AND** POR 102 Elementary Portuguese II		
POR 201 Intermediate Portuguese I **AND** POR 202 Intermediate Portuguese II		

Requirement			Minimum Grade	Credit Hours
POR 301 Portuguese for Spanish Speakers I	**AND**	POR 302 Portuguese for Spanish Speakers II		
POR 313 Portuguese Conversation and Culture	**AND**	POR 314 Portuguese Composition and Culture		

Upper Division Certificate Electives

GCU 323 Geography of Latin America (GCSI)				
GCU 485 / PUP 485 International Field Studies				
POR 313 Portuguese Conversation and Culture				
POR 314 Portuguese Composition and Culture				
POR 394 Special Topics				
POR 460 Brazilian Society Through Music (HUAD)				
POR 472 Transatlantic Encounters: Brazil and Portugal (GCSI)			C	12
POR 484 Internship				
POR 490 Consumer Culture in Latin America				
POR 493 Honors Thesis				
POR 494 Special Topics				
POR 499 Individualized Instruction				
Other courses may be used with approval from the faculty coordinator and academic advisor in the School of International Letters and Cultures.				

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

POR 313 and POR 314 may be applied to either Portuguese Language or to Upper-Division Electives, but may not be applied and counted in both categories for this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Examine the major events and issues of Brazilian history, culture, politics, and religion.
- Effectively communicate orally and in writing in Portuguese at the appropriate levels according to American Council on the Teaching of Foreign Languages (ACTFL) Proficiency Guidelines.

Career opportunities

Graduates can become more marketable to employers and advance their career options when they have earned an undergraduate certificate that complements their major program of study.

Those who have completed this certificate in Brazilian studies along with their major often decide to pursue employment in education, political analysis, the military, tourism and hospitality, or marketing.

CLO 3D Virtual Fashion Design Certificate (HICLOCERT)

College/School: Herberger Institute for Design and the Arts

Campus: Downtown Phoenix, ASU at Los Angeles

Description: This certificate program in CLO 3D virtual fashion design provides you with a comprehensive foundation in CLO 3D, a leading software for virtual garment design and simulation. You build a strong foundation in creating digital garments, developing and modifying patterns, and visualizing fit and construction in a virtual environment. The program also emphasizes sustainable design practices, showing you how 3D tools can reduce material waste and streamline the prototyping process.

Designed to help you as you prepare to enter the fashion industry, the program focuses on practical, industry-relevant skills and creative problem-solving. By learning to integrate 3D technologies into modern fashion design and production workflows, you gain a competitive edge and are well prepared for future careers.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in CLO 3D virtual fashion design requires 18 credit hours, of which 12 are upper division.		
Preliminary Skills		
FSH 122 Apparel Construction I **or** FSH 152 Apparel Construction and Finishing Techniques **or** FSH 158 Fundamentals of Technical Flat Sketching	C	3
FSH 208 Creative Technology for Fashion	C	3
Upper Division **FSH Elective**	C	3
CLO 3D Core		
FSH 431 CLO 3D: Virtual Fashion Design I	C	3
FSH 432 CLO 3D: Virtual Fashion Design II	C	3
FSH 433 CLO 3D: Virtual Fashion Design III	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Global opportunities

Global experience: More than 300 study abroad opportunities are available through the Global Education Office, (https://goglobal.asu.edu/) giving students the ability to tailor their experience to their specific interests and skill sets. Students looking for a fashion program (https://studyabroad.asu.edu/index.cfm?FuseAction=Programs.SearchResults&Program_Name=fashion&Program_Type_ID=1&pi=%7F&pc=%7F&pr=%7F&pt=%7F&p_1000=%7F&p_1000_t=SELCT&p_1160=%7F&p_1160_t=MUL can spend a summer session exploring the sites, culture, language, heritage and fashion in either France or Italy along with distinguished ASU FIDM faculty.

Career opportunities

Graduates are prepared for diverse careers across the fashion industry, including roles in fashion design, apparel technical design, product development, merchandising, styling, branding and marketing. They are equipped to thrive in creative, production and business-focused positions, leveraging skills in digital tools, sustainable practices and industry-standard workflows to excel in the rapidly evolving, global fashion market.

Civic Education Certificate (LACVECERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: If you seek to actively engage in or teach others about political issues and reforms, the civic education certificate program is geared toward you.

Certificate coursework provides you with a strong foundation in the theories and ideologies that provide the motivation and reasoning for much political activity. In addition, a civics in action component of the program enables you to investigate how contemporary American political institutions grapple with competing interests, values and civic ideas.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in civic education requires 15 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
POS 210 Political Ideologies (CIVI)	C	3
POS 442 American Political Thought (HUAD)	C	3
Upper Division Moral Foundations of Politics		
POS 340 History of Political Philosophy I		
POS 341 History of Political Philosophy II		
POS 346 Problems of Democracy (HUAD)	C	3
POS 443 Topics in Contemporary Political Theory		
POS 475 Morality and Politics		
Upper Division Civics in Action		
POS 313 The Congress (AMIT)		
POS 314 The American Presidency (AMIT)		
POS 315 The Supreme Court		
POS 325 Public Policy Development (CIVI)		
POS 332 American Political Parties		
POS 333 Interest Groups		
POS 348 Do You Want to Build a Nation? (CIVI)	C	6
POS 370 Law and Society (CIVI)		
POS 410 Governing American Cities		
POS 417 Arizona Politics		
POS 435 Women and Politics (SOBE)		
POS 439 Minority Group Politics in America		
POS 470 Law and the Political Order		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate before it is added to their record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Analyze a public policy using social science methods.
Communicate using clear and concise language on topics related to American democratic citizenship.
Apply a key political ideology, Classical Liberalism, to a public policy.

Career opportunities

Graduates who have combined the certificate in civic education with their major program of study become more attractive to employers. The program offers a balanced approach to the theory and practice of civic engagement, equipping graduates with the ability to analyze and navigate political events and institutions. The program helps prepare graduates for fields in which an understanding of citizenship, leadership, community, democracy, public responsibility and ethics is crucial, such as:

- business
- civic and social movements
- education (social studies)
- history
- journalism
- law
- politics
- public administration
- public service
- social work

Civil Communication Certificate (LACCOMCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The certificate program in civil communication provides you with specific training in dialogue-based methods of civility, the application of critical civil communication skills in public spheres, and civil and productive modes of argumentation.

This specialization enables you to recognize and competently practice and facilitate civil discourse --- for which there's an ever-increasing demand --- in society and in workplace organizations. The foundational courses offer you the opportunity for transdisciplinary collaboration and community engagement.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in civil communication requires 18 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
COM 222 Argumentation (CIVI)	C	3
COM 225 Public Speaking and Presentations (CIVI)	C	3
COM 327 Civil Communication	C	3
Upper Division Electives		
COM 312 Communication, Conflict, and Negotiation (CIVI) COM 319 Persuasion and Social Influence (CIVI) COM 321 Rhetorical Theory and Research COM 325 Advanced Public Speaking and Presentations (CIVI) COM 341 Social Contexts for Performance COM 421 Rhetoric of Social Issues	C	9

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate before it is added to their record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates who have combined the certificate in civil communication with their major program of study may be more marketable to employers. They often decide to pursue employment in social services, public policy or workplace organization.

Advanced degrees or certifications may be required for academic or clinical positions.

Classical Studies Certificate (LACLGCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Description: The classical studies program offers you a wide variety of opportunities to study the language, literature and culture of the ancient Greeks and Romans. It's ideal if you are interested in pursuing a classical education in conjunction with another major or as part of your general studies requirements.

Enrollment requirements

Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate before it is added to the student record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Demonstrate at least novice-high level of interpretive reading in Ancient Greek, as defined by the new Standards for Classical Language Learning of the American Classical League
- Engage with the perspectives, practices and products of ancient Greek and Roman cultures on at least the intermediate-mid level, as defined by the new Standards for Classical Language Learning of the American Classical League

Career opportunities

Graduates who have combined the certificate in classical studies with their major program of study may become more marketable to employers. They often decide to pursue employment in education, arts and humanities, tourism and hospitality, or marketing.

Communication Sciences and Disorders Certificate (NHCSDCERT)

College/School: College of Health Solutions

Campus: Tempe

Description: The postbaccalaureate certificate in communication sciences and disorders is for students who have earned a bachelor's degree in another discipline and wish to pursue a master's degree in speech-language pathology or communication disorders.

The coursework provides students with the knowledge necessary to perform at the master's degree level in the field. In most cases, students can complete the certificate within one calendar year.

Completion of the postbaccalaureate certificate does not guarantee admission to Arizona State University's graduate program.

Curriculum

Requirement	Minimum Grade	Credit Hours
The postbaccalaureate certificate in communication sciences and disorders consists of 27 credit hours, of which at least 24 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course and a certificate GPA of 3.0 or higher is required.		
A certificate GPA of 3.00 or higher is required.		
SHS 250 Introduction to Phonetics	C	3
SHS 310 Anatomical and Physiological Bases of Speech	C	3
SHS 311 Hearing Science	C	3
SHS 367 Language Science (SOBE)	C	3

Requirement	Minimum Grade	Credit Hours
SHS 375 Speech Science	C	3
SHS 401 Principles of Audiology	C	3
SHS 402 Clinical Methods and Treatment of Communication Disorders	C	3
SHS 496 Aural Rehabilitation	C	3
SHS 565 Speech and Language Acquisition	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Prospective students must have earned a bachelor's degree in a field outside of speech and hearing science with a minimum GPA of 3.00 (scale is 4.00 = "A").

Individuals interested in this certificate must apply for university admission as a nondegree-seeking graduate student and submit a supplemental application (https://asuhealthpromotion.co1.qualtrics.com/jfe/form/SV_5j2kHhlrtHGfApM) to the program. The certificate may be started in a fall or spring semester. Students can refer to the supplemental application for more information on the application process and deadlines.

Career opportunities

Graduates of this certificate program have the academic preparation they need to apply to graduate programs in communication sciences and disorders.

The curriculum is approved by the American Speech-Language-Hearing Association to meet the academic requirements for national certification as a speech-language pathology assistant and to pursue a master's program in speech-language pathology or communication disorders. https://www.asha.org/certification/education-pathways-to-speech-language-pathology-assistants-certification

Communication Training and Assessment Certificate (ASCTACERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: The certificate program in communication training and assessment prepares you to assess communication skills in business, professional and community settings and to develop training efforts that help others improve their communication skills.

Access to the award-winning, state-of-the-art CommLabASU builds your skills in communication training, presentation skills, professional development and assessment practices.

The combination of relevant coursework and hands-on experience developed through CommLabASU equips you with the knowledge and expertise necessary to train others in various professional and community settings.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in communication training and assessment consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
COM 225 Public Speaking and Presentations (CIVI) **or** COM 325 Advanced Public Speaking and Presentations (CIVI) **or** COM 342 Oral History and Storytelling (HUAD)	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate is open to students in any major. Students who wish to pursue this certificate should consult an academic advisor in the School of Social and Behavioral Sciences to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Design training and assessment messages using evidence-based communication principles.
Evaluate communication performance using established assessment criteria.

Career opportunities

Graduates of the program have a solid background for opportunities in government, private industry and nonprofit organizations. Potential positions include:

advertising and promotions manager
human relations manager
marketing associate
marketing manager
mediator
public relations and fundraising manager
public relations specialist
sales manager
training and development manager

Community-Engaged Practices in Design and the Arts Certificate (HISEPCERT)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe

Description: This self-paced online certificate trains you how to apply your talents to real-world contexts. You engage in online learning modules and guided mentorship to explore strategies for collaboration, project development, and community engagement.

The curriculum emphasizes ethical communication, leadership, and creative problem-solving while offering opportunities to work directly with community and industry partners. Through these experiences, you cultivate the capacity to lead collaborative initiatives, address complex social and cultural issues, and build a foundation for success across a variety of professional pathways. You develop skills in project design, problem-solving and leadership.

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires a total of 16 credit hours, of which 12 must be upper division.		
HDA 110 Community-Engaged Practices Foundations	C	1
HDA 210 Design and Arts Corps Community-Engaged Practices Benchmark	C	3
HDA 310 Design and Arts Corps Community-Engaged Practices Milestone Students may complete the six credits over more than one semester.	C	6
HDA 410 Design and Arts Corps Community-Engaged Practices Capstone Students may complete the six credits over more than one semester.	C	6

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

The certificate program, administered through the Office of Student Success in the Herberger Institute of Design and the Arts and through the Design and Arts Corps, is open to undergraduate students of any major.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

The skills graduates gain in this program give them a strong advantage in creative careers since artists and designers often work with schools, nonprofits, businesses and community organizations. They are prepared to work in the arts, education and design.

Computational Life Sciences Certificate (LACLSICERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: In the computational life sciences certificate program, you discover a burgeoning new field where huge improvements in processing technologies have opened the door to exciting new research techniques and interdisciplinary collaborations.

You engage with a suite of tools and approaches that enable you to uncover correlations, gain new understanding and help solve scientific problems.

Using your mastery of these new techniques, you examine data generated from a variety of fields, including ecology, botany, evolutionary biology, neuroscience, molecular and cellular biology, and animal behavior. You investigate topics such as DNA, RNA, protein, imaging, conservation and historical data; and you explore the ethical implications of collecting, storing, analyzing and sharing the results of computational life science data.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in computational life sciences requires 15 upper division credit hours. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.		
Upper Division Ethics or History Course

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Summarize key computational concepts, such as algorithms and relational databases, and their applications in the life sciences and apply statistical concepts used in computational life sciences.
Use bioinformatics tools and command line bioinformatics tools, and write simple computer scripts to find, retrieve and organize various types of biological data.
Interpret the ethical, legal, medical and social implications of biological data.

Career opportunities

Graduates of the computational life sciences certificate program have gained data interpretation skills and experience using new computational approaches and programs. Graduates who have combined this program with their major program of study are in high demand for roles that involve identifying and interpreting data in a variety of fields, including ecology, medicine, botany, evolutionary biology and animal behavior.

Advanced degrees or certifications may be required for academic or clinical positions.

Computer Gaming Certificate (ESSCICERT)

College/School: Ira A. Fulton Schools of Engineering

Campus: Tempe

Description: The computer gaming certificate program provides you with a game development skill set that you can apply to domain-specific applications in your major. The skill set includes architecture of game engines, art design and computer graphics for gaming, and game software development.

You learn to apply gaming technology to the rapidly growing video game industry and to fields including business, medicine, geography, biotechnology and education. Examples of projects are:

• building a game that teaches linear algebra by incorporating trigonometric rules into the game design
• creating a game that teaches correct sentence construction to beginning learners of English
• creating a game to help patients with physical therapy
• creating an interactive virtual world for corporate training
• designing a game platform that incorporates geographic information systems
• inventing a surgical simulation to educate medical students

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in computer gaming requires 18 credit hours, including 12 upper-division credit hours. Students will complete nine credit hours of core courses (including a final capstone project) and nine credit hours of elective courses. All courses must be passed with a "C" or better. Students need to allow at least three years to complete the certificate program due to the prerequisite structure.		
Computer Gaming Certificate Requirements		
CPI 111 Game Development I	C	3
CPI 211 Game Development II	C	3
CPI 441 Gaming Capstone CPI 441 is only offered in Spring semesters	C	3
Upper Division Elective Courses (choose three)		
CPI 311 Game Engine Development **or** SER 332 Introduction to Graphics and Game Development CPI 321 Fundamentals of Game Art CPI 394 Topic: Game Design Fundamentals CPI 411 Graphics for Games **or** SER 432 Game Engine Architecture CPI 421 3-D Modeling and Texturing CPI 462 Design for Learning in Virtual Worlds CPI 484 Internship FMS 365 Video Games and Narrative SER 431 Advanced Graphics	C	9
CPI 411 is only offered in the spring semester. CPI 421 is only offered in the fall semester. CPI 462 and SER 431 are offered infrequently.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

The computer gaming certificate is open to any student admitted to an undergraduate degree program at ASU who is in good academic standing. Students pursuing a Bachelor of Arts in interdisciplinary studies can use this certificate as part of their degree program.

All students are eligible to take CPI courses alongside their major, but they must follow the course prerequisite structure. Students should note that some courses are offered only in fall or in spring, so it may take two years to complete the certificate coursework.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Demonstrate the ability to apply game development techniques in solving real-world problems in different application domains.
- Demonstrate the ability to create a portfolio of hands-on games and prototypes using state-of-the-art technology.

Career opportunities

Students can advance their career options with an undergraduate certificate. Those who add this computer gaming specialization as a complement to their major program of study may be more marketable to employers in the gaming industry.

Convention Sales and Meeting Planning Certificate (PPTDMCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, ASU at Hainan

Description: In the certificate program in convention sales and meeting planning, you learn the fundamentals of promoting, selling and organizing events such as meetings, conferences, conventions and incentive programs. Coursework covers planning, marketing and management of professional gatherings for corporate, nonprofit and public organizations. You develop skills in budgeting, risk management and client relations and apply strategies to attract and serve diverse meeting and convention markets.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 15 credit hours of graded classroom coursework (no internship, no independent study), of which 12 are upper division. Students complete two required core courses (six credits) and three elective courses (nine credits). A minimum "C" (2.00 on a 4.00 scale) grade is required for all courses in the certificate. Courses taken as part of a university major may count toward that degree and the certificate. Requirements can be met online. All core classes and some elective classes are taught online at least once per year.		
CRD 350 Tourism, Hospitality, Recreation and Sports Marketing	C	3
TDM 345 Meeting and Convention Planning **or** TDM 386 Convention Sales and Management	C	3
Electives		
NLM 310 Strategic Volunteer Engagement (CIVI) PRM 203 Designing Experiences: Events and Programs TDM 205 Introduction to Travel and Tourism (GCSI) TDM 225 Introduction to Hotel, Resort and Lodging Management TDM 458 International Tourism and Hospitality (GCSI)	C	3
Upper Division Electives		
NLM 310 Strategic Volunteer Engagement (CIVI) TDM 458 International Tourism and Hospitality (GCSI)	C	6

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

A minimum ASU GPA of 2.00 is required for those pursuing the certificate.

Enrollment requirements

Other Enrollment Requirements: None

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Apply programmatic principles relevant to the convention industry to a variety of scenarios.
Plan an event using current practices and concepts.

Career opportunities

The field of convention sales and meeting planning comprises many areas, including fundraising, recruitment, coordination and supervision, and a variety of management responsibilities. The demand for professionals is high, and graduates have an excellent foundation for enhancing career opportunities nationally, regionally and locally.

The meetings, conventions and exhibitions industry in the U.S. generates more than $120 billion a year, supporting nearly two million jobs.

The city of Phoenix is a major convention and meeting destination. There is a need for qualified professionals to service conventions and meetings, due in large part to the $600 million investment in the Phoenix Convention Center expansion, development of new hotels and other visitor-related offerings, and the steady influx of corporate headquarters relocating to the greater Phoenix area.

CRJ 499 Individualized Instruction		

Requirement	Minimum Grade	Credit Hours
Special Topics courses (CRJ 394 and CRJ 494) must be approved by a School of Criminology and Criminal Justice advisor in order to select appropriate topics in the correctional studies certificate program.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Lower-division courses such as CRJ 240 (Introduction to Corrections) may be used to satisfy the requirements of any major or a minor at ASU, as well as requirements for the certificate program in correctional studies. No upper-division courses in criminology and criminal justice, however, may be used to satisfy the requirements of the certificate program in correctional studies and either the major or minor in criminology and criminal justice. For example, students majoring or minoring in criminology and criminal justice may not use CRJ 394, CRJ 406, CRJ 411, CRJ 434, CRJ 435, CRJ 443, CRJ 445, CRJ 484, or CRJ 494 to satisfy the requirements of the certificate in correctional studies and either the major or minor in criminology and criminal justice.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Analyze the historical and contemporary trends and operations of community and institutional corrections.
- Apply knowledge of effective strategies for engaging and implementing rehabilitative programming to a variety of correctional populations.

Career opportunities

Graduates find a strong job market in the public and private sectors. They have a strong foundation for pursuing a career or further study in corrections, law enforcement or community services. Employment opportunities include supervisory and management positions in criminal justice agencies, such as the National Institute of Corrections and the Federal Bureau of Prisons, and local and state-level corrections departments.

Advanced degrees or certifications may be required for academic or clinical positions.

Criminal Investigations Certificate (PPCRICERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, West Valley

Description: In the certificate program in criminal investigations, you learn about a variety of aspects of criminal investigations and criminalistics in the certificate program in criminal investigations. The program provides you with an understanding of the nature of criminal evidence; the language of forensic science; the scope, probative value and limitations of a variety of investigative specializations and their techniques; and an appreciation of how forensic investigative methods are used in the quest for justice.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 18 credits hours, of which 12 are upper division. At least 12 credit hours must be taken in residence at ASU.		
CRJ 210 Introduction to Criminal Investigations	C	3
CRJ 211 Documenting the Crime Scene	C	3
CRJ 410 Criminal Procedure I: The Law of Investigations	C	3
Upper Division Electives	C	9
CRJ 321 Evidence: Imperatives of Proof		
CRJ 433 Death Investigations: Principles of Forensic Medicine		
CRJ 434 Drugs of Abuse		
CRJ 435 Crime and Forensic Mental Health (SOBE)		
CRJ 450 Crime Analysis (QTRS)		
CRJ 484 Internship		

Requirement	Minimum Grade	Credit Hours
CRJ 494 Special Topics		
FOR 394 Special Topics		
FOR 410 Testimony and Ethics in the Forensic Sciences		
FOR 484 Internship		

Special Topics courses (FOR 394 and CRJ 494) must be approved by a School of Criminology and Criminal Justice advisor in order to select appropriate special topics courses that are approved for credit in the criminal investigations certificate program.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Upper-division coursework may not be used to satisfy the requirements of both a major and the certificate. Thus, if any elective courses in the certificate program are being used to satisfy the requirements of a major, different elective courses must be taken to satisfy the requirements of the certificate program. For example, students majoring in criminology and criminal justice may not use CRJ 321, CRJ 410, CRJ 433, CRJ 434, CRJ 435, CRJ 450, CRJ 484 or CRJ 494 to satisfy the requirements of the major and the certificate in criminal investigations. Similarly, students majoring in forensic science may not use FOR 350, FOR 410 or FOR 484 to satisfy the requirements of the major and the certificate in criminal investigations.

Prerequisite Information

CRJ 100 Introduction to Criminal Justice is a prerequisite requirement to enroll in CRJ 210, CRJ 211, CRJ 433, CRJ 434, CRJ 435, and CRJ 494.

ACO 100 is a prerequisite requirement to enroll in FOR 350.

FOR 370 is a prerequisite requirement to enroll in FOR 410. Completion of ENG 102 or 105 or 108 is also the prerequisite for FOR 410.

The completion of at least 45 credit hours is a prerequisite requirement to enroll in FOR 484 Internship.

Enrollment requirements

Students must complete the following prerequisite courses with a grade of "C" of higher (scale is 4.00 = "A") to be admitted to the certificate program. These courses may be taken in residence at ASU or transferred from other institutions, including community colleges.

For students majoring in the social sciences, humanities or arts:
FOR 105 Physical Evidence and the Crime Scene, SCIT or SQ (4) and
FOR 106 Biology Behind the Crime Scene, SCIT or SQ (4)

For students majoring in the natural sciences:
FOR 286 Principles of Forensic Science (4)

The FOR 105, FOR 106 sequence does not have prerequisites. These courses are designed for students majoring in the social sciences, humanities or arts to meet the natural science (GS Maroon) or Scientific Thinking in Natural Sciences (GS Gold) requirement of ASU's general studies program. Thus, students not majoring in the natural sciences who wish to declare the certificate program in criminal investigations must complete the FOR 105, FOR 106 two-course sequence.

In contrast, students majoring in the natural sciences, including forensic science, should not take FOR 105 and FOR 106; they need only complete FOR 286: Principles of Forensic Science, which has as prerequisites BIO 181, BIO 182, CHM 113 and CHM 116.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Apply investigative techniques to patterns of modus operandi, interviewing and interrogation strategies, and surveillance.
- Demonstrate an understanding of the processes involved in collecting evidence from a crime scene as well as the steps involved to present it in court.

Career opportunities

Graduates find a strong job market in the public and private sectors. Examples of roles include combating bank fraud and domestic terrorism. Opportunities include positions in:

- courts
- federal agencies
- forensic agencies
- homeland security
- law enforcement
- legal offices

Graduates also may pursue advanced degrees in law, criminology and criminal justice, and other social science disciplines. Advanced degrees or certifications may be required for academic or clinical positions.

This program is not designed to prepare students for work in a crime laboratory.

Cross-Sector Leadership Certificate (PPCSLDCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: The certificate program in cross-sector leadership provides a comprehensive overview of leading solutions to complex social challenges by integrating the public, private, nonprofit and military sectors.

You engage in a systems-thinking approach to challenges faced by local and global communities, explore the diverse characteristics and motives of each sector in engaging in cross-sector collaborations, and master processes to formalize such partnerships. You study values-based leadership and how individual, organizational and sector values can drive a leader's ability to act. You gain leadership skills, such as leading change within and between organizations across multiple sectors; and you learn to use human-centered design, social entrepreneurship and other approaches when tackling community challenges.

You end the program with a thesis or applied project that integrates the theories, procedures and concepts learned in the certificate courses with experiences from your internships in each sector.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in cross-sector leadership is a requirement for, and is limited to, participants in the Public Service Academy's Next Generation Service Corps, a four-year leadership development track that engages future civilian leaders in the public, private and nonprofit sectors to engage in collaboration and change in the context of social challenges in which they hold interest. Students are required to demonstrate forward academic progress to maintain enrollment in the certificate as well as the Next Generation Service Corps. ROTC students also may pursue the certificate.		
PAF 115 Foundations of Cross Sector Leadership	C	3
PAF 314 NGSC Community Impact Lab	C	3
PAF 315 Cross-Sector Collaboration (CIVI)	C	3
PAF 311 Leadership and Change (SOBE) **or** PAF 415 Social Entrepreneurship	C	3
PAF 421 Leadership Capstone **or** PAF 394 Topic: NGSC Leadership Instruction	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Enrollment in the certificate program in cross-sector leadership is offered only to students participating in ASU's Next Generation Service Corps (https://psa.asu.edu/next-generation-service-corps) or in the Reserve Officers Training Corps (https://military.asu.edu/rotc). Enrollment requirements for the certificate are the same as admission requirements for the NGSC or ROTC (by request). Public Service Academy staff and the Watts College of Public Service and Community Solutions Dean's Office enroll the students.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Compare innovative methods for finding solutions to address complex social issues, including social entrepreneurship and problem-solving processes of human-centered design.
- Identify and design cross-sector collaborations by understanding the nuances of the public, private and nonprofit sectors.

Career opportunities

Students can advance their career options with an undergraduate certificate.

Graduates of the certificate in cross-sector leadership have acquired a beneficial knowledge of cross-sector collaboration, advanced leadership skills, and an understanding of how to use these. These transferrable skills complement students' major program of study and may make them more marketable to employers.

Cryptology Certificate (LACRYCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: Cryptology is the art and science of making and breaking codes and ciphers. The certificate program in cryptology provides you with a strong foundation in the mathematical topics that are most applicable to modern cryptosystems. You also gain specialized knowledge required for understanding and working in the field of mathematical cryptology.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in cryptology requires 18 upper-division credit hours. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
MAT 440 Group Theory **or** MAT 444 Intermediate Abstract Algebra	C	3
MAT 445 Theory of Numbers	C	3
MAT 447 Cryptography I	C	3
MAT 448 Cryptography II	C	3
Upper Division Cryptology Elective Courses		
MAT 415 Introduction to Combinatorics		
MAT 416 Graph Theory		
MAT 441 Ring Theory	C	6
STP 421 Probability		
STP 427 Mathematical Statistics		
Students may substitute an approved cryptography-related internship for three credit hours of elective coursework.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This program has additional admission requirements; students should see a college advisor for details. Applicants should be in good academic standing with a "B" or higher (scale is 4.00 = "A") in MAT 300 Mathematical Structures, or equivalent.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Apply appropriate concepts from their elective courses in the certificate to cryptology.
Analyze security of contemporary cryptosystems using results from theoretical mathematics.

Career opportunities

A certificate in cryptology offers graduates a wide variety of career possibilities. Some pursuing this certificate are interested in working in government, business, financial and medical settings and in educational industries. These areas require professionals with the skills to secure data --- and program graduates have these skills.

Contact information

School of Mathematical and Statistical Sciences | WXLR 216

Data Science Certificate (ASDTSCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: The data science certificate program combines the strengths of database skills with interdisciplinary computational statistics and is ideal if you have an interest in these areas.

Through hands-on experience, you gain an understanding of the computational and statistical methods used to extract insights from complex data sets. In particular, the program offers you courses that cover key techniques for the various stages of the data science process, including data collection, data processing for both small and large datasets, data cleaning, exploratory data analysis, data visualization, predictive modeling using machine learning techniques, and statistical modeling.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in data science consists of 15 upper-division credit hours. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
ACO 320 Database Systems	C	3
ACO 423 Data Science	C	3
STP 315 Statistical Computing	C	3
Upper Division Data Science Electives		
ACO 321 Database Development & Applications		
ACO 420 Big Data Systems		
BMI 311 Biomedical Artificial Intelligence		
BMI 312 Health Data Mining	C	6
MAT 422 Mathematical Methods in Data Science		
STP 310 Design and Analysis of Experiments		
STP 311 Regression and Time Series Analyses		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Prerequisites for this certificate are:

ACO 201 Data Structures and Algorithms
MAT 243 Discrete Mathematical Structures or MAT 300 Mathematical Structures
STP 226 Elements of Statistics

Students who wish to pursue this certificate should consult an academic advisor in the School of Mathematical and Natural Sciences to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates with this certificate have numerous career opportunities, including data scientist, machine learning scientist or engineer, applications architect, data architect and data engineer.

Desert Food Production Certificate (LSDFPRCERT)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic

Description: The certificate program in desert food production equips you with the knowledge and skills you need to grow edible plants and navigate the challenges specific to desert climates.

Coursework in the program emphasizes organic food production, sustainable horticultural technologies, green waste reduction, water conservation, maintaining biodiversity and biological cycles, and enhancing soil quality.

You gain marketable skills that enable you to participate in the growing trend of producing and supporting the consumption of local foods.

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires 19 credit hours. A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.		
ABS 260 Fundamentals of Sustainable Horticulture (SUST)	C	4
ABS 368 Plant Propagation	C	3
ABS 460 Organic Gardening	C	3
ABS 464 Desert Horticulture	C	3
Electives		
ABS 225 Soils ABS 360 Southwest Home Gardening ABS 365 Future of Agriculture: Vertical Farming ABS 394 Topic: Floriculture: Sustainable Production and Design ABS 394 Topic: Sustainable Vegetable Production in the Arid SW ABS 414 Plant Pathology ABS 462 Greenhouse/Nursery Management ABS 484 Internship No more than two credit hours of ABS 484 may apply to the certificate.	C	3
Upper Division Electives		
ABS 360 Southwest Home Gardening ABS 365 Future of Agriculture: Vertical Farming ABS 394 Topic: Floriculture: Sustainable Production and Design ABS 394 Topic: Sustainable Vegetable Production in the Arid SW ABS 414 Plant Pathology ABS 462 Greenhouse/Nursery Management ABS 484 Internship No more than two credit hours of ABS 484 may apply to the certificate.	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

This certificate is open to students in any major.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates with this certificate have enhanced qualifications for careers that merge sustainable agriculture, environmental stewardship and local food systems. Employers in agriculture, horticulture, food science and community development increasingly value professionals with expertise in desert-specific food production and sustainable farming practices.

Graduates who pair this certificate with a related major often pursue careers such as:

- community garden or urban farm manager
- environmental and agricultural policy advisor
- farm and ranch manager
- food science and product development specialist
- nursery and greenhouse manager
- sustainable food systems manager

This certificate also strengthens pathways into advanced degrees in agricultural sciences, sustainability, environmental policy or public health. Career prospects are strong in the private and public sectors, with opportunities in agribusiness, nonprofit organizations, research institutions and government agencies focused on food security and environmental resilience.

Digital Business Innovation Certificate (BADBICERT)

College/School: W. P. Carey School of Business

Campus: Tempe

Description: The certificate program in digital business innovation provides you with a broad overview of today's digital information systems. You are exposed to modern tools for transforming business processes, maintaining digital presence and developing analytical insights.

When you complete the program, you are well suited for the business landscape, phenomenally transformed in recent years by digital innovations.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in digital business innovation requires 18 credit hours with 12 upper division credit hours. To earn the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or higher.		
CIS 105 Computer Applications and Information Technology (QTRS)	C	3
CIS 235 Introduction to Information Systems, Analytics and AI in Business	C	3
CIS 300 Web Design and Development	C	3
CIS 308 Advanced Excel in Business	C	3
CIS 311 Business Agile Project Management	C	3
CIS 312 Business Mobile Commerce and Monetization	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

The certificate in digital business innovation is open to all majors.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates who have combined the certificate in digital innovation with their major program of study may become more marketable to employers. They often decide to pursue employment in management, marketing, sales or communication.

Advanced degrees or certifications may be required for academic or clinical positions.

Disability Studies Certificate (LADISCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: Disability studies is an exciting and diverse field that looks at disability in the context of the wider world. Instead of seeing disability only as a medical issue, this field studies it as something shaped by society and culture. It also sees people with disabilities as an important and protected group. This program combines ideas from many disciplines

--- including history, sociology, law, politics, economics, geography, religion, gender studies, media and art --- to understand the lives and experiences of people with disabilities around the world.

You are encouraged to think critically and challenge the idea that disability just means something is "wrong" or needs to be cured or fixed. Instead, you learn how disability can be part of someone's identity and how society's rules, attitudes, and systems often make life more complex for people with disabilities.

The program also focuses on creating new ideas and strategies through education, law, policy and advocacy that break down the physical and social barriers that keep people with disabilities from fully participating in everyday life.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in disability studies requires 15 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Students in any major, including the major or minor program in disability studies offered by the New College of Interdisciplinary Arts and Sciences, are permitted to add this certificate.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Employ and critically assess core theories, models and perspectives that have contributed to the development of disability studies.
- Understand and identify representations of disability as historically specific and culturally contingent.
- Apply disability studies perspectives in the construction of social policy, engagement and advocacy.

Career opportunities

Graduates who have combined the certificate in disability studies with their major program of study may become more marketable to employers. They often decide to pursue employment in law, education, public service, and human welfare and social work.

Advanced degrees or certifications may be required for academic or clinical positions.

Domestic Violence Intervention and Victim Advocacy Certificate (PPDVEPCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

This program's name has changed effective Fall 2026. The previous name was Domestic Violence and Evidence-based Practice.

Description: The certificate program in domestic violence intervention and victim advocacy provides you with the experience and knowledge you need to intervene safely and effectively on behalf of the survivors of gender-based violence, a vulnerable group that helping professionals are likely to encounter in all areas of practice. Professionals who are knowledgeable about the dynamics of intimate partner violence are better equipped to assist those suffering its negative physical and mental health consequences.

Evidence-based care is crucial in domestic violence settings. You engage in service-based and classroom learning to understand the role of evidence-based interventions in promoting survivor safety and client empowerment.

When you complete the program, you'll be a verified advocate for victims of domestic violence in the state of Arizona.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 15 upper-division credit hours. Students will complete three credit hours of core coursework and 12 credit hours of elective courses. All courses must be passed with a grade of "B" or better. The comparable grade for an internship or practicum course is a "Y." Students need to allow at least one year to complete the certificate program.		
SWU 416 Domestic Violence Prevention and Intervention During their first semester in the certificate, students enroll in SWU 416.	B	3
Upper Division Electives	B	12
SWU 417 Technology, Interpersonal Relationships and Abuse		
SWU 418 Global Violence Against Women		

Requirement	Minimum Grade	Credit Hours
SWU 420 Domestic Violence Fatality Review		
SWU 412 Social Work Practicum I **or** SWU 484 Internship Enrollment in SWU 412 is restricted to students majoring in the Bachelor of Social Work. Non-majors should enroll in SWU 484.		
SWU 414 Social Work Practicum II **or** SWU 484 Internship Enrollment in SWU 414 is restricted to students majoring in the Bachelor of Social Work. Non-majors should enroll in SWU 484.		
SWU 494 Topic: Intersecting Domestic Violence Child Maltreatment		
Other internship credit may be substituted with department approval. Please email survivorlink@asu.edu for additional information.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

All students pursuing the certificate must have 56 credit hours of coursework completed with a minimum GPA of 2.50.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Apply knowledge of human behavior in the social environment when working with individuals, families and groups.
- Implement evidence-based interventions, safety planning and utilize an evidence-based safety decision aid (myPlan, a tool to enhance risk assessment).

Career opportunities

Graduates have the practical knowledge needed to support survivors of domestic and gender-based violence in a variety of community, nonprofit and human service settings. Their foundational advocacy and collaboration skills enable them to pursue entry-level or paraprofessional roles focused on safety, prevention and empowerment.

Career examples include:

- case management aide
- community outreach worker
- domestic violence or legal advocate
- domestic violence support group facilitator
- residential or crisis hotline advocate
- shelter case manager
- victim services assistant
- youth program assistant in a family violence prevention organization

Early Childhood Education Certificate (TEECDCERT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, ASU Sync

Description: The certificate program in early childhood education prepares you to support the cognitive and social-emotional development of young children from birth to age 8.

When you complete this certificate program, you're eligible for dual teaching certificates upon completion of an undergraduate degree or to meet requirements for an Early Childhood endorsement. This certificate can be added only to the Bachelor of Arts in Education program in special education.

You develop skills in understanding and applying evidence-based practices in early childhood education. The innovative coursework is centered on child development theory, development of young children, assessment practices and instructional pedagogy. You explore techniques and approaches to engage family members in the growth and development of their young children.

When added to the special education bachelor's degree program, you earn an institutional recommendation for teacher certification in Early Childhood Education, Birth-Grade 3, or an endorsement in Early Childhood Education, Birth-Grade 3, through the Arizona Department of Education. If you wish to teach in public schools, you must also pass the

appropriate Arizona educator exams (National Evaluation Series or Arizona Educator Proficiency Assessments) to be certified to teach in the state of Arizona.

Format option
This program is also offered via ASU Sync (https://provost.asu.edu/sync/students). ASU Sync enables you to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. As an ASU Sync student, you must reside in Arizona throughout the duration of the program. If you have F-1 or J-1 immigration status, you should speak with an advisor about other options to complete this program. Students with F-1 or J-1 immigration status are not permitted to complete courses via Sync.

If you are seeking to use GI Bill® benefits for ASU Sync programs, you should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill).

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in early childhood education requires 20 credit hours.		
Required Courses		
ECD 321 Foundations in Language, Literacy and Culture in Early Childhood (SOBE)	C	3
ECD 417 Arts Integration for Young Children	C	4
ECS 310 Foundations in Typical / Atypical Child Development	C	3
ECS 312 Social and Emotional Development of the Young Child (SOBE)	C	3
ECS 411 Instructional Methodologies for Young Children: STEM	C	3
ECS 412 Mathematics Curriculum, Instruction and Assessment	C	4

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate is open only to students in the special education undergraduate teacher preparation program in the Mary Lou Fulton College for Teaching and Learning Innovation.

Students are required to have a valid Arizona DPS Identity Verified Prints fingerprint clearance card.

A GPA of 2.00 is required for continued good standing. Students should contact MLFC for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student but may not be eligible for an institutional recommendation for Arizona teaching licensure without additional preparation beyond the certificate.

Career opportunities

There is a strong demand for early childhood educators in Arizona and nationwide. Graduates are prepared to work in a variety of settings, such as preschools, with childcare providers and in after-school care. Many graduates with early childhood education credentials hold leadership positions in Head Start, private nonprofit and private for-profit center-based programs, and public school early childhood environments.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.In addition to completing this certificate and a teacher certification program major, students are required to earn a passing score on the professional knowledge portion of the AEPA/NES exam and a passing score on the subject knowledge portion of the AEPA/NES exam in each area an Arizona teaching credential is sought. Subject knowledge exam waiver may apply. Students should contact MLFC for more information.

Early Childhood Special Education Certificate (TEECSCERT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, ASU Sync

Description: The certificate program in early childhood special education prepares you to work with young children, birth through age 8 or grade 3, who have a disability or are at risk of developing one.

You develop foundational knowledge of child development, including child development theories and best practices. You learn how to:

• assess, monitor and report the progress of young children
• build effective practices for engaging families
• create enriched, inclusive learning environments
• design coherent instruction
• plan and facilitate learning

This certificate program allows you to be eligible for dual teaching certificates upon completion of an undergraduate Bachelor of Arts in Education degree. This certificate can be added only to the BAE in early childhood education

If you add this certificate to the early childhood education bachelor's degree, you're eligible to earn an institutional recommendation from ASU for Arizona teacher certification in Early Childhood Special Education, birth through grade 3, from the Arizona Department of Education. To teach in an Arizona public school, you must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option
This program is also offered via ASU Sync (https://provost.asu.edu/sync/students). ASU Sync enables you to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. As an ASU Sync, you must reside in Arizona throughout the duration of the program. If you're on F-1 or J-1 immigration status, you should speak with an advisor about other options to complete this program. Students on F-1 or J-1 immigration status are not permitted to complete courses via Sync.

If you're seeking to use GI Bill® benefits for ASU Sync programs, contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill).

Economic Justice Certificate (LAECNJCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: Through the certificate program in economic justice, you gain knowledge of economic justice that promotes the growth of sustainable local, national and global communities.

You complete coursework in the theories and philosophies of economic justice and economic justice praxis to prepare you for transdisciplinary exploration of areas of personal interest. You develop the capacity to design, control, manage and evaluate initiatives that can economically revitalize communities, and you increase your research abilities.

When you complete the program, you are prepared to support and create change by analyzing and developing policies designed to build local skills and lay groundwork for new approaches to economic justice.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in economic justice requires 15 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.		
SST 310 Exploitation, Oppression and Resistance in Capitalist Societies (SOBE)	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

To declare this certificate, a student must have a minimum of 30 earned credit hours.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Apply the fundamental principles of economic justice to the specific domestic or international issues through community engagement and research.
- Critically assess core theory, concepts and methods for the study of economic justice issues.

Career opportunities

Graduates who combine the certificate in economic justice with their major program of study may become more marketable to employers. They often decide to pursue employment in law, education, public service, and human welfare and social work.

Advanced degrees or certifications may be required for academic or clinical positions.

Elementary Education Certificate (TEEEDCERT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, West Valley, ASU Sync

Description: In the certificate program in elementary education, you prepare to work with children in grades K-8 in an educational setting.

This certificate program can be added only to the following majors, granting you eligibility for dual teaching certificates when you complete your Bachelor of Arts in Education program:

• BAE in secondary education
• BAE in special education

You engage in innovative coursework grounded in theory-based strategies and evidence-based practices for teaching. Coursework is designed to support the development of instructional competencies, professional skills, content knowledge and pedagogical content knowledge in mathematics, science, English language arts and social studies.

This program has a strong focus on teaching and learning practices that foster equitable access and outcomes for culturally and linguistically diverse students, and learners with special needs and exceptionalities.

When you add this certificate to a bachelor's degree listed above, you're eligible to earn an institutional recommendation from ASU for Arizona teacher certification in Elementary Education, K-8, as recognized by the Arizona Department of Education. To teach in an Arizona public school, you must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option
This program is also offered via ASU Sync (https://provost.asu.edu/sync/students). ASU Sync enables you to attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. As an ASU Sync student, you must reside in Arizona throughout the duration of the program. If you have F-1 or J-1 immigration status, you're not permitted to complete courses via Sync and should speak with an advisor about other options to complete this program.

If you're seeking to use GI Bill® benefits for ASU Sync programs, you should contact the Pat Tillman Veterans Center regarding certain limitations.

Emergency Management Certificate (PPEMECERT)

College/School: Watts College of Public Service & Community Solut

Campus: Online

Description: In the undergraduate certificate program in emergency management, you gain the skills and knowledge to understand and manage natural and human-made threats and execute complex projects in response. Coursework covers risk assessment, homeland security, cross-boundary collaboration and rapid resource mobilization.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in emergency management consists of 18 credit hours of coursework.		
Core Courses		
PAF 160 How to Survive the 21st Century (SUST)	C	3
PAF 261 Hazards and Risk Management	C	3
PAF 360 Emergency Management I	C	3
PAF 424 Emergency Management II	C	3
PAF 461 Homeland Security	C	3
PAF 468 Planning and Exercises	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Students must be accepted to the U.S. Naval Community College to be admitted to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Understand emergency management and homeland security organizations.
- Draw connections between emerging risks and vulnerabilities in society related to emergency management challenges.

Career opportunities

Graduates are prepared for careers in emergency management, community resilience, disaster recovery and risk prevention at the local, state and federal levels.

Emergency Management Essentials Certificate (PPEMESCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: The emergency management essentials certificate program equips you with the skills and knowledge to prepare for, respond to and recover from a wide variety of emergencies and disasters. This program covers the essential principles of emergency management, including risk assessment, disaster preparedness, response coordination and

recovery planning. You gain practical experience in managing crises, coordinating with public safety agencies, and developing effective emergency plans to mitigate risks and protect communities.

The program is designed for you, whether you are pursuing a career in emergency management, public safety or disaster response; you are a community leader or government official looking to enhance your crisis management capabilities; you are a public or private sector employee responsible for organizational emergency preparedness and risk management; or you come from the various fields interested in understanding the strategies and systems needed to manage emergencies and protect communities.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 18 credit hours. A grade of "C" or better is required in all courses.		
PAF 112 Public Service and American Democracy (AMIT)	C	3
PAF 160 How to Survive the 21st Century (SUST)	C	3
PAF 261 Hazards and Risk Management	C	3
PAF 360 Emergency Management I	C	3
PAF 424 Emergency Management II	C	3
Upper Division **PAF Elective**	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate is available to current ASU students, as well as students not currently enrolled at ASU in a degree program.

For admission to the university to pursue this certificate, students must apply to the university and meet university admission requirements (https://admission.asu.edu/apply/student-type). Students not currently attending ASU who wish to pursue the certificate should contact an academic advisor in Watts College of Public Service and Community Solutions at spa@asu.edu (mailto:spa@asu.edu) or 602-496-1658 for admission procedures.

Current degree-seeking ASU students can request to add the certificate via the "Add a Certificate" button.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Understand emergency management and homeland security organizations.
- Draw connections between emerging risks and vulnerabilities in society related to emergency management challenges.

Career opportunities

Graduates possess the knowledge and skills required for entry-level positions in the public sector at the local, state and federal levels, as well as for other opportunities in the commercial and nonprofit sectors. Graduates will have a significant advantage in the coming hiring boom within the field in response to the upcoming wave of retirees in the public sector and increasing demand for public services, especially at the federal level. For those who already possess relevant knowledge and experience, the program provides complementary knowledge valuable for promotion in the field. Graduates also may choose to further their education in graduate programs in emergency management, public policy, law or public administration.

Energy and Sustainability Certificate (SUESUCERT)

College/School: Rob Walton College of Global Futures

Campus: Downtown Phoenix, Polytechnic, Tempe

Description: In the transdisciplinary certificate program in energy and sustainability, you examine current energy systems and explore what is required to transition to a sustainable energy future.

In a world increasingly focused on climate change, renewable resources and sustainable practices, this program equips you to tackle pressing environmental challenges. You gain expertise in areas such as solar and wind energy, urban sustainability and resource management. With the ability to analyze complex energy systems and policies, you become an invaluable asset in driving sustainability initiatives forward.

You begin with an overview of how energy affects people's lives, the basic science and methods of energy production, and a full overview of energy policy options. You may tailor the certificate around your specific interests in energy with a variety of electives representing a broad array of academic disciplines. You broaden your energy knowledge by taking courses outside your primary area of study.

This program helps you enhance your understanding of the technology and infrastructure for generating, distributing and using energy; the associated sustainability issues; and the social and policy dimensions of energy systems.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 15 credit hours, of which 12 is upper division.		
SOS 171 The Thread of Energy (SUST)	C	3
SOS 314 Basic Energy Science **or** SOS 324 Sustainable Energy Technology and Systems	C	3
SOS 315 Energy Policy	C	3
Upper Division Energy Elective Courses		
BME 494 Topic: Bioenergy and Microbial Biotechnology		
CEE 361 Introduction to Environmental Engineering		
CHE 469 Air Quality Engineering		
CHE 473 Fuel Cells and Biofuel Cells		
CHE 478 Biomass Energy Conversion Technology		
CHM 494 Topic: Solar Energy Conversion		
CON 448 Sustainable Construction (SUST)		
EEE 465 Photovoltaic Energy Conversion		
EEE 471 Power System Analysis		
EEE 498 Topic: Lithium-Ion Battery Technlgy Automtve Electrifictn		
EGR 476 Microgrid Design and Operation		
EVE 354 Materials in the Environment		
GCU 364 Energy in the Global Arena	C	6
GCU 442 Geographical Analysis of Transportation		
GLG 304 Minerals, Energy, and Society		
JUS 332 Politics of Energy Policy and Justice		
JUS 444 Environment and Justice		
MAE 494 Topic: Energy Efficiency		
PHY 498 Topic: The Science of Sustainable Energy		
PUP 430 Transportation Planning and the Environment		
SOS 323 Sustainable Urban Dynamics		
SOS 373 Minerals, Energy, and Society		
STS 317 Science, Technology, and Global Engagement		
STS 332 Global Issues in Science and Technology		
494 and 498 courses must be taken with the specific topic title indicated.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Some energy elective courses are more technical in nature, which may require additional math and science knowledge or prerequisites.

Energy elective courses are not limited to courses from this list only. Other courses on energy may be offered (special topics, etc.). Students may request to have those approved as an elective for this certificate by submitting a College of Global Futures Undergraduate Standards petition: Completed petitions may be submitted directly to CGF advising.

Enrollment requirements

Advising is not required, but students are encouraged to speak with an advisor by scheduling an appointment through the Rob Walton College of Global Futures advising (https://collegeofglobalfutures.asu.edu/student-life/advising/undergraduate-advising).

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Global opportunities

Global experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the Rob Walton College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students can find programs specific to their interests on the Rob Walton College of Global Futures study abroad webpage (https://collegeofglobalfutures.asu.edu/student-life/study-abroad/) and additional opportunities and information on the ASU Global Education Office website (https://goglobal.asu.edu/). These sites also include additional information about applying for funding to support global travel.

Career opportunities

An understanding of energy is increasingly important for jobs related to climate change, environmental quality, urban sustainability and sustainable development. A certificate in energy and sustainability serves as a strategic career enhancement to any major degree program. This program provides a distinct advantage, positioning graduates competitively for a variety of energy-related job opportunities across sectors.

Government agencies, utilities, nonprofit organizations and private businesses all require professionals with the specialized knowledge and transdisciplinary skills acquired through this program. The combination of skills and knowledge graduates have attained makes them indispensable in shaping a greener and more sustainable future.

Entrepreneurship and Innovation Certificate (BAKEICERT)

College/School: W. P. Carey School of Business

Campus: Tempe

Description: The certificate program in entrepreneurship and innovation engages you, challenging you to discover new ways of thinking while approaching business in a new way. You benefit from an entrepreneurship curriculum focused on principles that involve the startup of a new organization and its management into a fully established firm.

Beyond those related specifically to entrepreneurial business practices, courses in the certificate in entrepreneurship and innovation include such topics as social entrepreneurship, arts entrepreneurship, idea generation and storytelling as additional perspectives for you as an entrepreneur.

Curriculum

Requirement	Minimum Grade	Credit Hours
The entrepreneurship and innovation certificate requires 15 credit hours and is available to all majors. At least 12 credit hours must be upper division. All coursework must be taken at ASU. Students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or better.		
ENT 305 Principles of Entrepreneurship	C	3
ENT 340 Creativity and Innovation **or** TEM 230 Creativity and Business Innovation (HUAD)	C	3
ENT 360 Entrepreneurship and Value Creation **or** TEM 400 Technology Entrepreneurship	C	3
Upper Division Focus Area Electives	C	6

Students select two courses within the same focus area below. It is the student's responsibility to check the prerequisites required by courses in their discipline.

American Indian Studies Focus Area:

AIS 375 Indigenous Sustainability and Environmental Justice

AIS 385 Building Sustainable Indigenous Communities (SOBE)

Requirement	Minimum Grade	Credit Hours

Anticipating Futures Focus Area:

FIS 305 Managing Knowledge and Change in Organizations

FIS 307 Futures and Foresight Methods (SOBE)

FIS 308 Politics, Markets and Innovation (CIVI)

Aviation Management Focus Area:

AMT 491 is required in the aviation management focus area. Students will choose one other AMT course.

AMT 491 Aviation Management Capstone

AMT 308 Air Transportation (GCSI)

AMT 489 Airline Administration

Biomedical Engineering Focus Area:

BME 300 Bioengineering Product Design

BME 417 Biomedical Engineering Capstone Design I

Business/Start-up Focus Area:

AGB 456 Food Product Innovation and Development

ENT 445 Business Model Development

ENT 446 Venture Capital Experience

ENT 447 Lean Launch

ENT 464 Collaborative Design Development I

ENT 465 Collaborative Design Development II

ENT 494 Topic: Entrepreneurship Thought Leaders Speaker Series

FIN 455 Entrepreneurial Finance

MKT 375 Services Marketing

Design and Arts Focus Area:

ARA 396 Professional Practices for Design and the Arts

ARA 460 Gallery Exhibitions

DSC 394 Topic: Design Entrepreneurship & Society

FMP 417 Business and Legal Practices in Entertainment

MUP 438 The Enterprising Artist

MUP 439 Performing Arts Product Creation and Development

THP 351 Arts Management (HUAD)

THP 450 Theatre Organization and Management

Digital Media Entrepreneurship - Web Focus Area:

Requirement	Minimum Grade	Credit Hours
AME 435 Mobile Development		
GIT 402 New Media Internet Technologies		
GIT 414 Advanced Web Coding		
GIT 417 Interaction Scripting		
GIT 435 Website and E-Commerce Strategies		
GIT 480 Senior Project		
Herberger, FSE, WPC - Innovation Space Focus Area:		
New product development. Students enroll in the courses associated with their major.		
ENT 464 Collaborative Design Development I		
ENT 465 Collaborative Design Development II		
GRA 464 Collaborative Design Development I		
GRA 465 Collaborative Design Development II

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

The certificate in entrepreneurship and innovation is available to all ASU students in good standing except those majoring in business entrepreneurship, management with a concentration in entrepreneurship, and technology entrepreneurship and management.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Students advance their career options through this undergraduate certificate program, developing additional competencies that complement the marketable knowledge and skills they acquire in their majors. Those who complete this program often decide to pursue employment in management, sales and marketing.

Advanced degrees or certifications may be required for academic or clinical positions.

Environmental Education Certificate (TEEVEDCERT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, West Valley, Online

Description: The certificate program in environmental education is for you --- whatever major you are in, or if you are a nontraditional educator. The program is designed to establish standards for professional excellence in environmental education, as outlined by the North American Association for Environmental Education.

Environmental education is taught in traditional classrooms and in community-serving organizations such as nature centers, museums, parks and zoos. The program's required coursework increases the environmental literacy of future educators, fosters community leadership strategies, and provides you with opportunities to practice environmental education teaching methods.

If you complete the certificate program, you're eligible to apply for the state-level environmental education certification recognized by the North American Association for Environmental Education.

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires a minimum of 15 credit hours, 12 of which must be upper division. A "C" or better is required in all coursework.		
Required Courses		
Required Core Courses		
SCN 208 Nature and Society: An Introduction to Environmental Studies (SCIT)		
SCN 301 Ecology and Natural History of the Sonoran Desert (SCIT)		
SCN 302 Environmental Education: A Global Perspective (GCSI)	C	3
SCN 307 Biomimicry: Nature's Sustainable Solutions (SUST)		
SCN 308 Urban Sustainability and Environmental Education (SUST)		
SCN 310 Race to Save Biodiversity (SCIT)		
Upper Division Required Core Courses		
SCN 301 Ecology and Natural History of the Sonoran Desert (SCIT)		
SCN 302 Environmental Education: A Global Perspective (GCSI)		
SCN 307 Biomimicry: Nature's Sustainable Solutions (SUST)	C	6
SCN 308 Urban Sustainability and Environmental Education (SUST)		
SCN 310 Race to Save Biodiversity (SCIT)		
Elective Courses		
Upper Division Elective Courses		
SCN 303 Environmental Education Internship		
SCN 304 Sonoran Desert Flora		
SCN 305 Tropical Ecology and Sustainability (SCIT)	C	6
SCN 309 Environmental Education Project		
SCN 311 Nature Mindfully		
Any course not taken to satisfy the core requirements may be used to satisfy electives.		
Notes		
Prerequisite courses may be needed in order to complete the requirements of this certificate.		

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Design solutions to address environmental issues.
Implement environmental education strategies in response to community needs.

Global opportunities

Global experience: Study abroad (https://goglobal.asu.edu/) is available through a twelve-day tropical ecology experience in Costa Rica. This Global Immersion Experience post-spring program allows students to apply what they have learned about the tropical biome, its flora and fauna, and its cultural and global value.

Other opportunities include a twelve-day biodiversity experience in Ecuador and the Galapagos. This Global Immersion Experience post-spring program provides students with the opportunity to apply what they have learned about biodiversity conservation, preservation and restoration of biodiversity and its impact on cultural and global populations.

The environmental education certificate program supports international internships. For example, several students have used the contacts and resources within the program to complete international internships in Costa Rica.

Career opportunities

Graduates who combine the certificate in environmental education with their major program of study may become more marketable to employers. They often decide to pursue employment in educational settings such as nonprofit organizations, nature centers, museums, parks and zoos.

The environmental education certificate does not lead to teacher certification.

Environmental Humanities Certificate (LAENHCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: If you are interested in humanities-based approaches to the current global environmental crisis, a vital area of study, the environmental humanities certificate program is for you.

Courses are focused on the human relationship to the environment and the relationship between nature and culture. To gain practical experience, you also complete an internship in environmental activism, policy development, education or another pertinent area.

Curriculum

Requirement	Minimum Grade	Credit Hours
The environmental humanities certificate consists of 15 hours, of which 12 must be completed at the upper-division level. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.

Other courses may be used by approval of an academic advisor in the Department of English.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate before it is added to their record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Produce analytic writing about environmental issues that meets or exceeds standards in the field.
Engage critically with writing and group oral discussion assignments, and with up-to-date scholarly or creative environmental humanities texts.
Present team-prepared oral presentations on the cultural elements of an environmental challenge they are studying in order to prepare to learn teamwork and how to present pressing issues accessibly to the public.

Career opportunities

Graduates with this certificate have gained a multidisciplinary knowledge base and practical skill set that enable them to enact social and environmental change. They are well prepared for careers in sustainability, environmental science and public policy, and they are better equipped to implement environmentally responsible practices in their own lives.

Environmental Humanities Certificate (LSENHCERT)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic

Description: The certificate program in environmental humanities is an interdisciplinary offering that combines literature, history, philosophy and cultural studies to examine the complex relationships between humans and nature. You explore environmental narratives through film and literature, analyze the rhetoric of environmental movements, and investigate how culture shapes your understanding of place and sustainability.

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate is comprised of 15 credit hours, including at least 12 upper-division credit hours. Six credit hours must be taken from courses offered by the College of Integrative Sciences and Arts (CISA). A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.		
Upper Division Core Courses		
ENG 367 Environmental Issues in Literature and Film		
ENG 371 Rhetoric of the Environmental Movement		
HST 345 Environmental History (SUST)	C	9
IDS 316 Topic: Park Futures		
Other ENG courses may be approved by CISA advisors depending on special or variable topics courses available in given semesters.		
Complete at least two additional courses for a maximum of six credit hours. Students must work with an academic advisor in the College of Integrative Sciences and Arts to select electives. Some courses are limited to students majoring in the discipline, have prerequisites or cannot be taken in combination with another course on the list. Additional courses may be approved by the College of Integrative Sciences and Arts advisor depending on special or variable topics courses available in given semesters.		
Elective Courses	C	3
ASB 326 Human Impacts on Ancient Environments (SUST)		
ENG 334 The American Southwest in Literature and Film (HUAD)		
ENG 359 Indigenous American Literature		
ENG 378 Environmental Creative Nonfiction (HUAD)

TDM 480 Sustainable Tourism		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

The environmental humanities certificate is available to all ASU undergraduate students.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

An undergraduate certificate can help in career advancement. Graduates who have this specialization as a complement to their major program of study are prepared for impactful careers related to environmental topics, and they may become more marketable to employers.

Those who have completed this undergraduate certificate often pursue employment in environmental restoration planning, environmental protection or environmental communication.

Environmental Studies Certificate (ASEJCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

This program's name has changed effective Fall 2026. The previous name was Environmental Justice.

Description: In the certificate program in environmental studies, you prepare to advocate for solutions to current and future environmental challenges by critically assessing and evaluating the social and environmental issues at hand. By merging the social, scientific, historical and cultural aspects of environmental justice, you gain the ability to communicate with and for marginalized communities that disproportionately experience environmental hazards. By using scientific concepts and evidence-based cases, you work toward applying positive changes in all the communities you serve.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in environmental justice consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
Required Courses		
ENV 200 Introduction to Justice in the Environment (CIVI) **or** IAS 200 Introduction to Justice in the Environment (CIVI) **or** JHR 200 Introduction to Justice in the Environment (CIVI)	C	3

Essentials of Credit and Leasing Certificate (BAECLCERT)

College/School: W. P. Carey School of Business

Campus: Tempe

Description: According to the Equipment Leasing and Finance Association, the U.S. equipment finance industry exceeds one trillion dollars, with nearly 80% of businesses using loans, leases or lines of credit to finance equipment and software purchases. Of the two trillion dollars in total value of purchases from American businesses, nonprofits and government agencies, an estimated 57.3% is financed. The unsecured commercial lending market is expected to reach $12.5 trillion by 2031. https://www.alliedmarketresearch.com/unsecured-business-loans-market-A15157 (https://www.alliedmarketresearch.com/unsecured-business-loans-market-A15157)

In the certificate program in essentials of credit and leasing, you learn the decision-making criteria for the provision of credit and other nonequity financing, and develop the marketing skills needed to succeed in the credit and leasing industry. Through coursework, you develop a strong foundation in theory to enable critical thinking and problem-solving for financing challenges facing modern businesses, particularly in the small- to medium-enterprise segment.

If you intend to become a business owner, you can benefit from the course of study since it enhances familiarity with ways to secure finance necessary for growth.

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires 15 upper-division credit hours. A grade of "C" (2.00 on a 4.00 scale) or better is required for all coursework.		
FIN 300 Fundamentals of Finance **or** FIN 302 Managerial Finance **or** FIN 303 Honors Finance FIN 302 is available only to Finance majors.	C	3
FIN 350 Credit Analysis	C	3
MKT 300 Marketing and Business Performance **or** MKT 302 Strategic Marketing Management **or** MKT 303 Honors Marketing Theory and Practice MKT 302 is available only to Marketing majors.	C	3
Upper Division Electives	C	6
ACC 310 Intermediate Accounting		
ACC 310 is available only to Business (Corporate Accounting) majors.		
ACC 440 External Reporting II		
ACC 440 is available only to Accountancy or Finance majors.		

Requirement	Minimum Grade	Credit Hours
FIN 331 Financial Markets and Institutions		
FIN 431 Management of Financial Institutions		
FIN 431 is available only to Finance majors.		
MKT 370 Professional Sales and Relationship Management		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate is only available to W. P. Carey Bachelor of Science students or Bachelor of Arts students with a concentration in business.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree.

Career opportunities

The certificate program provides the fundamental knowledge across business disciplines necessary to contribute and succeed in banks, independent credit and leasing firms, and captive finance divisions.

Graduates are prepared for work across the commercial lending landscape, including at specialized finance companies, equipment manufacturers and the traditional banking sector, as well as for entrepreneurial ventures. According to the U.S. Bureau of Labor Statistics, the average salaries of related careers are as follows (May 2024):

budget analyst: $87,930
credit analyst: $101,910
financial examiner: $90,400
financial manager: $161,700
financial risk specialists: $118,950
loan officers: $74,180
property appraisers and assessor: $65,420

One course outside the list of electives, and perhaps outside the PHI subject code, may be used with written approval of the director of undergraduate studies.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Incompatible Majors: BA in philosophy (morality, politics and law)

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Students will be able to evaluate how well different normative ethical theories such as consequentialism, deontology and virtue theory provide moral standards that dictate which (if any) actions are right and wrong or how well different metaethical theories such as realism, expressivism, relativism, nihilism, compatibilism or incompatibilism account for the meaning and truth of moral claims.
Students will be able to apply leading ethical theories to practical ethical questions that arise in life.

Career opportunities

An undergraduate certificate can advance students' career options. Graduates are more marketable to employers when they have complemented their major program of study with this specialization in ethics. The certificate is evidence of analytical, reasoning and writing skills and competence in areas of increasing concern to employers, such as ethics, public policy and justice.

Graduates with this certificate often pursue careers in business, law, policy or politics. Advanced degrees or certifications may be required for academic or clinical positions.

Ethnic Studies Certificate (ASETHCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: Through the certificate program in ethnic studies, you explore the changing political, social, economic and cultural realities of racial, ethnic and Indigenous communities in the United States and the Americas.

The coursework combines topics in the humanities, arts and social sciences, and you receive instruction on methods to critically analyze racial, ethnic, gender and sexual identities; transnational movements; and diverse forms of cultural, literary and political expression.

If you are a degree-seeking or nondegree-seeking graduate student, or are majoring in professional programs, the certificate in ethnic studies is for you.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in ethnic studies consists of 18 credit hours, at least 12 of which must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate program is open to students in any major. Students who wish to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

This program prepares students for graduate study or for careers in a variety of fields, including business, health care, criminal justice, social services, education, public relations, community development, public policy and government. Potential careers include community health worker, social and community service manager, secondary and high school teacher, and journalist.

Advanced degrees or certifications may be required for academic or clinical positions.

European Studies Certificate (LAESCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The European studies certificate program provides you with a broad overview of European countries, including their natural environment and their cultural, demographic, economic and political characteristics.

In the program, you focus on the interconnectedness of European politics, religious diversity, ethnicities, socioeconomic justice and sustainable solutions. The program also develops your ability to analyze the historical development of the region and its exchanges with other world cultures.

You analyze what it has meant to be European in the past, how the concept has shifted in a globalized world, and how that knowledge can be applied to contemporary political and cultural debates as well as to professional opportunities in the region.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in European Studies requires 15 upper-division credit hours. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.

Students select a Capstone Experience in consultation with the European Studies coordinator and academic advisor. Credit earned on a study abroad program in a European country may count toward the capstone with coordinator and advisor approval.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Analyze the historical and contemporary borders of Europe and its sub-regions.
- Communicate research findings on a topic of European studies in an oral presentation using visual materials.

Career opportunities

Graduates with a certificate in European studies are attractive to employers looking for people who are aware of international cultural differences and the role of history and politics in current decision-making, and who can easily process information in a globalized world. Graduates may choose to pursue careers in international business, international relations, the nonprofit or government sector, tourism, hospitality or education.

Evolutionary Medicine Certificate (LAEVMDCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: In the evolutionary medicine certificate program, you discover a burgeoning new field that is improving human health and transforming understanding of disease by merging the fields of evolutionary biology, genetics, medicine, global health and public health.

You integrate perspectives from across these fields to investigate questions about health and disease in the context of human history. Using your mastery of these new approaches within the biological and social sciences, you address emerging and anticipated public health issues, such as reemerging infectious diseases, vaccination challenges, the increase in chronic diseases, and other growing health crises.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in evolutionary medicine requires 15 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Demonstrate mastery of key evolutionary concepts related to human health and disease.
Able to appropriately analyze data relevant to evolutionary medicine.

Career opportunities

Graduates who have complemented their major program of study with this certificate are well prepared for roles in a variety of fields, including biology, medicine, law and ethics. They have integrated, individualized skills that are in high demand to address the growing need for innovation in medicine and public health.

Advanced degrees or certifications may be required for academic or clinical positions.

Family Communication Certificate (ASFAMCCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: In the certificate program in family communication, you focus on issues that affect communication within the family. This program complements the communication program by bringing together an array of courses with implications for the family unit, such as new media and health courses. You are also encouraged to take courses in other disciplines that complement the family-related communication courses.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in family communication consists of 19 credit hours of coursework, of which a minimum of 13 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate program is open to students in any major. Students who wish to pursue the certificate should consult an academic advisor in the School of Social and Behavioral Sciences to ensure that an appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Synthesize theories and concepts relevant to family communication literature in a specific communication context (e.g., partner abuse, discipline of children, family conflict).
Design communication materials that convey best practices in family communication based on theory and research.

Career opportunities

This is a valuable certificate for students who plan to enter careers or graduate study in fields such as psychology, counseling, family studies, social work, medicine, nursing, law, aging, pastoral care, human services, media or communication technology.

Field Geology Certificate (LAFDGCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The certificate program in field geology prepares you with the core knowledge base and field experience to identify, describe, collect and interpret a variety of types of geological field data.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in field geology requires 15 upper-division credit hours. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.		
GLG 310 Structural Geology	C	3
GLG 452 Field Geology II	C	3
GLG 455 Advanced Field Geology	C	3
Upper Division Field Geology Electives		
GLG 362 Geomorphology		
GLG 420 Volcanology		
GLG 424 Petrology	C	6
GLG 435 Sedimentology and Stratigraphy		
GLG 489 Field Geochemistry		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Students must complete the following prerequisite courses or their equivalencies with a grade of "C" or higher (scale is 4.00 = "A") to pursue the field geology certificate:

GLG 101 Introduction to Geology I (Physical) and GLG 103 Introduction to Geology I Laboratory, or
SES 121 Earth, Solar System and Universe and SES 123 Earth, Solar System and Universe Laboratory, and
GLG 321 Mineralogy and GLG 451 Field Geology I

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Interpret a variety of types of geologic field data.
Prepare an interpretive written and illustrated technical report based on a geologic map they develop from field observations and data collection.

Career opportunities

Graduates who have completed this undergraduate certificate have a strong, field-based background; this is required for many entry-level jobs with resource mining, geotechnical and environmental consulting companies. It is also a strong asset for acceptance to many graduate research programs in the earth sciences.

Career opportunities include:

- geologic materials technician
- geologic sample test technician
- geoscientist
- geotechnician
- mining and geological engineer

Sample career settings include:

- environmental industry
- geotechnical industry
- mining and petroleum industries

Film and Video Studies Certificate (ASVIDCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: In the interdisciplinary film and video studies certificate program, you explore film theory and the practice of the moving image. You have the opportunity to develop your interests, skills and understanding of the forms, channels, technologies and histories of the media arts.

Coursework enables you to become a more astute critic of film and media arts. You learn about the history of film, television and video arts as well as their place in social, cultural and political expression. You also strengthen your critical thinking skills through an analysis of the ongoing philosophical, aesthetic, political and technological debates about film, media and video.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in film and video studies consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
IAP 111 Foundations of Sound, Digital Arts, and Games (HUAD)	C	3
IAP 201 Introduction to Interdisciplinary Arts (HUAD)	C	3
IAP 361 Digital Editing and Media Literacy	C	3
IAP 465 Media Technologies and the Arts	C	3
Upper Division **IAP Elective** Courses should involve film, video, editing, media, composition, or sound production. The following courses do not apply: IAP 394 "Mind and Bodies in Motion", IAP 394 "Oral History & Storytelling in Humanities & Arts", IAP 341, IAP 492, and IAP 493. Connect with your academic advisor if you have any questions.	C	6

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate program is open to students in any major. Students who wish to pursue the certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure that an appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Critically analyze digital creative processes and activities.
- Produce written work that demonstrates effective integration of ideas and a clear, coherent structure.
- Use research materials to explore key topics related to contemporary media studies.

Career opportunities

Graduates of the certificate program in film and video studies are prepared for careers as editors, art directors, video producers and directors, video and interdisciplinary project directors, or digital media specialists in areas such as video and film production, film studies, media studies or digital design. The valuable skills students gain through the program also prepare them for graduate study.

Food Industry Management and Marketing Certificate (BAFIMMCERT)

College/School: W. P. Carey School of Business

Campus: Polytechnic

Description: The certificate program in food industry management and marketing enables you acquire specialized business skills, whether you are a business or nonbusiness student. You gain a competitive advantage for employment with firms and agencies that operate within the global food industry.

You explore the roles that consumer food choices and purchases play in the allocation of resources throughout the food chain, from farm to retail.

Upon completion of the program, you have a deep understanding of the business, economic and market environments of the global food industry, with particular emphasis on food marketing and distribution.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in food industry management and marketing requires 15 credit hours with at least 12 upper division credit hours. To earn the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or higher.		
AGB 250 Economics of Resource Allocation: Food and Agriculture (GCSI) **or** AGB 302 International Management and Agribusiness	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Students majoring in food industry management are not eligible to pursue this certificate.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates with an undergraduate certificate have additional competencies that complement the marketable knowledge and skills they acquire in their majors, leading to increased career options.

Graduates who have completed this undergraduate certificate often pursue employment in management, marketing and sales. Advanced degrees or certifications may be required for academic or clinical positions.

Foundations of Computer Science and Artificial Intelligence Certificate (ESCSEACERT)

College/School: Ira A. Fulton Schools of Engineering

Campus: Polytechnic, Tempe, West Valley, Online

Description: The foundations of computer science and artificial intelligence certificate program equips you with foundational knowledge and interdisciplinary skills to pursue careers in technology-driven fields.

You explore core principles of computer science, including programming, data structures and algorithms, while gaining specialized exposure to AI topics. The curriculum emphasizes practical problem-solving, ethical considerations in AI, and the application of computational thinking to real-world challenges.

This program was developed in partnership with the U.S. Naval Community College, and was tailored to support the educational and professional advancement of enlisted personnel in the Navy, Marine Corps and Coast Guard.

This program is also available if you are a continuing ASU on-campus student interested in advancing your skills in computer science and AI. The online option is for USNCC students.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in computer science and artificial intelligence requires 24 credit hours. Students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or higher.		
MAT 210 Brief Calculus (MATH) **or** MAT 265 Calculus for Engineers I (MATH) **or** MAT 270 Calculus with Analytic Geometry I (MATH) USNCC students should enroll in MAT 210.	C	3
MAT 243 Discrete Mathematical Structures	C	3
ACO 100 All About Data: Design, Query, and Visualization (QTRS)	C	3
CSE 110 Principles of Programming	C	3
CSE 180 Computing, Data and AI Literacy (QTRS)	C	3
CSE 205 Object-Oriented Programming and Data Structures	C	3
STP 226 Elements of Statistics (QTRS) Other statistics courses may be approved by academic advisor.	C	3
CSE 285 Artificial Intelligence and Data Capstone	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu) for program descriptions and to request more information.

Career opportunities

Graduates are prepared to apply their knowledge and skills across a wide range of professional settings, supporting innovation and problem-solving in diverse industries. They are equipped to pursue careers in the private sector, government, military and nonprofit organizations, as well as to adapt to emerging fields. Graduates are also well prepared for continued academic study and lifelong learning.

Gender, Women and Sexuality Studies Certificate (ASWSTCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: This certificate program in gender, women and sexuality studies combines interdisciplinary topics and methods, enabling you to critically analyze and address how relations of gender are embedded in and connected to social, political and cultural transformations. The intellectual core draws from theories, methods and teachings in women and gender studies while engaging complementary fields of social justice, cultural studies, sexuality studies, queer studies, literature, history, sociology, psychology, oral history, ethnicity, race and Indigenous studies, and transnational studies.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in gender, women and sexuality studies consists of 18 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
HRC 200 Introduction to Social and Cultural Analysis (CIVI)	C	3
WST 100 Women, Gender, and Society (HUAD) **or** WST 300 Women and Gender in Contemporary Society (SOBE)	C	3
Upper Division Gender, Women and Sexuality Studies Electives	C	12
AMS 334 / ETH 333 / WST 334 Class in America		
ENG 336 / WST 330 Women, Film and Culture		
ENG 364 Women and Literature (HUAD)		
ENG 443 / WST 415 Gender, Culture and Literacy		
ENG 454 / WST 454 Gender and Literature (HUAD)		
ETH 433 / WST 433 Race and Sexualities in Social Justice Movements (SOBE)		
HRC 310 Social and Cultural Analysis: Method and Theory (SOBE)		
HST 328 Women in U.S. History, 1880-1980 (HUAD)		
LAS 340 / WST 341 Latin American Women Writers (HUAD)		
WST 333 Critical Perspectives on Sexuality (SOBE)		
WST 370 Chronicling Women's Lives		
WST 376 Feminist Theory (HUAD)		
WST 380 Race, Gender, and Class (SOBE)		
WST 390 / REL 390 Women, Gender and Religion (GCSI)		
WST 428 Gender, Madness and Justice (SOBE)		
WST 430 Gender on the Borderlands (HUAD)		
WST 444 Gender, Health, and Bodies (SOBE)		
WST 449 Hate Speech, Manifestos, and Radical Writings (CIVI)		
WST 457 Women, Cultures, and Societies		

Requirement	Minimum Grade	Credit Hours
WST 469 Trash Talk		
WST 473 Indigenous and Latina/Chicana Representation		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate program is open to students in any major. Students who wish to pursue the certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates are prepared for graduate study and for positions in a variety of fields, including business, health care, criminal justice, social services, education, public relations, nonprofits, community development, public policy and government. Possible careers include community health worker, secondary school teacher, human resource manager, probation officer, social and community service manager, writer and professor.

Gender, Women and Sexuality Studies Certificate (LAWSTCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The gender, women and sexuality studies certificate program provides you with an intersectional approach to the study of gender, race, class, ethnicity and sexuality in national and transnational contexts. This program enables you to write well, think critically and analyze problems effectively. The curriculum leads you to explore ideas about gender and sexuality and how these ideas have been transformed by feminist theory.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in gender, women and sexuality studies requires 15 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
WST 100 Women, Gender, and Society (HUAD) **or** WST 300 Women and Gender in Contemporary Society (SOBE)	C	3
WST 377 History of American Feminist Thought (HUAD) **or** WST 378 Global Feminist Theory (GCSI)	C	3
Upper Division **WST Elective**	C	9

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Analyze the ways in which gender intersects with other social locations in shaping ideology, as well as social, political and cultural institutions.
Demonstrate an understanding of key concepts, critical debates, and interdisciplinary approaches and methodologies that have shaped the field of women and gender studies.

Career opportunities

Graduates who have combined the certificate in gender, women and sexuality studies with their major program of study may increase their marketability to employers.

Graduates often decide to pursue employment in law, education, public service, and human welfare and social work. Advanced degrees or certifications may be required for academic or clinical positions.

Geographic Information Science Certificate (LAGISCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: Geographic information scientists do more than create maps; they uncover patterns, relationships and insights that help us better understand the world and how people interact within it. By combining elements of computer science, statistics and geography, you are equipped to answer complex questions about what is happening, where it's occurring, why it matters, and how to respond.

The certificate program in geographic information science combines geospatial tools, spatial reasoning and practical analysis to solve real-world problems. You work in multiple GIS platforms as you build a strong foundation in spatial analysis, geovisualization, remote sensing, cartography and spatial modeling. The curriculum balances technical training with conceptual insight, helping you understand not just how to work with geographic data, but how to analyze, interpret it and communicate your findings to others.

This program prepares you to apply GIS tools and spatial reasoning to pressing challenges such as climate change, population dynamics, public health, and sustainable urban development. Through applied coursework and class projects, you learn how to collect, manage, analyze, and interpret spatial data, turning raw information into actionable insights.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 20 credit hours, of which 13 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.		
GIS 205 Geographic Information Science I (QTRS)	C	3
GIS 211 Geographic Information Science II (QTRS)	C	4
GIS 311 Geographic Information Science III (QTRS)	C	4
Upper Division Geographic Information Science Elective		
Upper Division GIS Elective		
GLG 362 Geomorphology	C	6
GLG 452 Field Geology II		
Upper Division Geographic Information Science Related Coursework		
CEE Elective		
CSE Elective

PUP Elective		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

ASU degree-seeking students
The BS program in geographic information science is incompatible with this certificate program.

Nondegree-seeking students
This certificate is available through the Pathways for the Future program (https://pff.asu.edu/). Applicants without a bachelor's degree are eligible to apply for, and receive, this certificate through the Pathways for the Futures program. Applicants who already hold a bachelor's degree should apply to ASU and this certificate program as a nondegree-seeking graduate student.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Solve a geographic problem in spatial analysis.
- Solve a geographic problem in spatial sampling.

Career opportunities

Geographic information science is one of the fastest-growing segments of the economy, and employment possibilities can be found across the private sector and in many government agencies at the local, state and national levels.

Graduates who have paired this geographic information science certificate with their degree program have added knowledge, skills and abilities in these highly desirable areas:

- analysis
- computer programming
- problem-solving
- statistics

Designed to complement any undergraduate major, the certificate program supports graduates pursuing work fields such as:

- business
- computer science
- environmental science
- health care
- nonprofit organizations
- real estate
- retail
- transportation
- urban planning
- utilities
- visual arts

Global Engineering Certificate (ESGBENCERT)

College/School: Ira A. Fulton Schools of Engineering

Campus: Tempe

Description: In the certificate program in global engineering, you gain the interdisciplinary knowledge and skills needed to address complex challenges around the world in the certificate program in global engineering. The program includes foundational coursework in engineering perspectives, global engineering design, and international-themed courses relevant to your major --- such as sustainability, energy, environment, global development, leadership and entrepreneurship. With a focus on global systems thinking, the program prepares you to become a socially responsible and effective engineer who's capable of addressing the interconnected problems that transcend national borders.

The program includes virtually delivered programs, such as the Global Career Accelerator, that expose you to global industries, helping you build your professional skills through internships and applicable projects. Experiential programs like human-centered design projects immerse you in solving practical problems through design thinking, including customer discovery, rapid prototyping and field testing.

In addition to two required courses --- FSE 150 Perspectives on Grand Challenges for Engineering and FSE 420 Global Engineering for Humanity --- a key component of the certificate is a mandatory international experience. This requirement provides you with hands-on experience working on global engineering challenges through international or virtual internships (including global virtual internships and global career accelerator programs), internationally based research internships, Ira A. Fulton Schools of Engineering faculty-led or other study abroad programs, or an honors thesis focused on a globally relevant theme. Other comparable experiences may be considered on an individual basis. You should note that international travel that doesn't include an academic, research, experiential, service-learning or professional component doesn't fulfill this requirement. This experience enhances your cross-cultural competencies and provides a practical, immersive opportunity to apply your technical expertise in an international context.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 15 credit hours; three hours of lower-division and 12 hours of upper-division coursework. All courses must be passed with a "B" or better. Due to the prerequisite structure, students must allow at least three years to complete the certificate program.		
Foundation Course		
FSE 150 Perspectives on Grand Challenges for Engineering (GCSI)	B	3
Global Engineering Design Component		

Requirement	Minimum Grade	Credit Hours
FSE 420 Global Engineering for Humanity	B	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Global opportunities

Global experience: Ira A. Fulton Schools of Engineering offers many global opportunities for students to gain hands-on experience and expand their global networks.

For those seeking flexible online options, global virtual internships allow students to work with companies around the world from anywhere and gain practical experience in fields such as engineering, business and design. Additionally, Engineering Projects in Community Service offers students the chance to tackle applicable challenges in underserved communities, with projects in locations including Kenya, Vietnam and Spain. These opportunities help bridge technical skills with meaningful societal impact and are ideal for students interested in sustainable development and social entrepreneurship.

Cultural immersion opportunities abroad allow students to explore local cultures while they work on projects that address community needs. Faculty-led summer study abroad programs in countries including Japan, Taiwan, Ireland, China and England combine academic learning with practical exposure, enabling students to gain insights into global industries and innovative practices. These programs are ideal for students in engineering, design, business, sustainability and other fields, offering transformative experiences that prepare them for a future in the global workforce.

Career opportunities

With a strong foundation in both technical engineering skills and cross-cultural competencies, graduates are prepared to work in multinational corporations, international development organizations and global engineering firms. They can pursue roles in industries such as sustainable development, renewable energy, environmental engineering, infrastructure design and technology innovation, where solving complex global challenges is a priority.

In addition to traditional engineering positions, graduates have opportunities to work in global project management, international consulting and leadership roles that require both technical expertise and cultural fluency. Graduates may also contribute to international research initiatives and humanitarian engineering projects, or work with nongovernmental organizations focused on global development and disaster relief. With their enhanced understanding of global trends and the ability to navigate diverse cultural and regulatory environments, these engineers are highly sought-after by employers worldwide who need professionals capable of driving innovation and solving problems on a global scale.

Global Management Certificate (TBTGMCERT)

College/School: Thunderbird School of Global Management

Campus: Downtown Phoenix

Description: In the undergraduate certificate program in global management, you receive broad-based training in global business and global studies, helping to prepare you for a global management career. The program offers distinct courses that integrate an in-depth understanding of the political, economic and cultural aspects of doing business in specific regions with tools to assess business trends in specific countries.

About Thunderbird
Thunderbird School of Global Management has produced world-class leaders for nearly 80 years. The ideal Thunderbird student is curious, globally minded and eager to develop and advance their career in leadership and management within the global and digital landscape of today's interconnected world. After completing this program, graduates join a thriving global alumni network nearly 50,000 strong, managing some of the world's largest institutions, companies, nonprofits and NGOs.

Curriculum

Requirement	Minimum Grade	Credit Hours
The global management certificate requires 18 credit hours as outlined below, with a minimum of 12 upper-division credits. Students are encouraged to take courses that develop breadth within their sector rather than limiting their selection to courses in one particular subject area. Minimum "C" (2.00) grade is required in all course work in this certificate.		
TGM 101 Principles of Global Management (GCSI) It is recommended that students take TGM 101 prior to or concurrently with other TGM courses.	C	3
Electives		
TGM 204 Principles of Marketing for Global Organizations		
TGM 300 Principles of Finance for Global Organizations		
TGM 310 Supply Chain Operations for Global Organizations		
TGM 312 Big Data in the Global Economy		
TGM 353 Regional Management Environment (GCSI)	C	3
TGM 468 States and Markets in a Global Economy (GCSI)		
TGM 478 Cross-Cultural Communication and Negotiation		
TGM 487 Global Entrepreneurship		
TGM 489 Multinational Organizational Leadership		

Requirement	Minimum Grade	Credit Hours
Upper Division Electives		
TGM 300 Principles of Finance for Global Organizations		
TGM 310 Supply Chain Operations for Global Organizations		
TGM 312 Big Data in the Global Economy		
TGM 353 Regional Management Environment (GCSI)	C	12
TGM 468 States and Markets in a Global Economy (GCSI)		
TGM 478 Cross-Cultural Communication and Negotiation		
TGM 487 Global Entrepreneurship		
TGM 489 Multinational Organizational Leadership		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Study abroad or international experience is encouraged but not required. Consider ASU Global Education Office opportunities.

Enrollment requirements

Incompatible Majors: BGM in global management; BS in international trade.

No more than six credit hours may be shared between the certificate program and other degree, minor or certificate programs.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates who have combined the certificate in global management with their major program of study may become more marketable to employers. Many decide to pursue employment in corporations, governments or nonprofits in positions such as business analyst, global entrepreneur or marketing manager.

Advanced degrees or certifications may be required for academic or clinical positions.

Great Books in Political Thought Certificate (LAGBPTCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: This certificate program in great books in political thought teaches you the foundational great books, focusing on political thought and the Western civic tradition. Beginning with the classics like Plato, Aristotle and the Bible; moving to medieval thought with Augustine and Aquinas; and then to early and late modern authors such as Machiavelli, Locke, Rousseau, Montesquieu, Burke and Marx with other great writers like Tocqueville and Hawthorne, this program helps you engage with impactful texts that have been thought and debated through recorded history and were instrumental in shaping political ideas and institutions today.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in great books in political thought requires 15 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
CEL 100 Great Ideas of Politics and Ethics (HUAD)	C	3

Requirement	Minimum Grade	Credit Hours
CEL 306 Justice and Virtue: Classical Political Thought (HUAD)	C	3
CEL 308 Liberty and Equality: Early Modern Political Thought (CIVI)	C	3
Upper Division Great Books in Political Thought Electives		
CEL 307 Reason and Revelation: Medieval Political Thought (HUAD)		
CEL 331 Debating American Constitutionalism: The Founding		
CEL 334 Tocqueville's Democracy in America		
CEL 371 Classical Political Statecraft	C	6
CEL 391 Shakespeare's Leadership Lessons: Performance and Politics in the Pines		
CEL 394 Topic: Progress & Power: Late Modern Political Thought		
CEL 420 Political Thought and Literature		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates are prepared with key, specialized knowledge on political thought and civics. They can expect to specialize in their chosen career paths, such as a classical charter school teacher, professor, political scientist or news analyst.

Hazardous Materials and Waste Management Certificate (TSETMCERT)

College/School: Ira A. Fulton Schools of Engineering

Campus: Polytechnic

Description: The certificate program in hazardous materials and waste management provides you, as a current and prospective employee of industry or government, with a comprehensive and practical curriculum of study in hazardous materials management. The program features instruction by faculty, attorneys and professionals who work in the specific area in which they teach.

You are offered several industry-required courses by the environmental and resource management professional development program targeted at environmental professionals who engage in management and transportation of hazardous materials and waste: the Occupational Safety and Health Administration-mandated 40-hour Hazardous Waste Operations and Emergency Response course, the 16-hour initial Hazardous Materials Transportation Certification course, and their corresponding eight-hour refresher courses. These training courses are provided to you at less than 15% of the actual cost to support your professional development.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in hazardous materials and waste management requires 18 credit hours, of which 15 is upper-division. A grade of "C" or better is required in all courses.		
ERM 203 Environmental Regulations	C	3
ERM 401 Hazardous Waste Management	C	3
ERM 406 Environmental Chemistry	C	3
ERM 407 Occupational Hygiene	C	3
Upper Division **ERM Elective** Recommended: ERM 402 OR ERM 432	C	6

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

The certificate in hazardous materials and waste management is available to all ASU students in good standing, except those pursuing any program in environmental and resource management.

To add the certificate in hazardous materials and waste management, a student must hold, at minimum, junior status and have a minimum cumulative GPA of 2.00.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Evaluate environmental policies and regulations that apply to environmental and resource management.
- Apply management, scientific and technical solutions to natural and anthropogenic environmental problems.

Career opportunities

Graduates with the skills gained in this certificate program are in high demand and can find work in industry, governmental management and regulatory agencies, as well as policymaking organizations.

Graduates are firmly grounded in the scientific, technical and legal problems facing hazardous waste managers in today's business climate. They are prepared to be waste, health and safety professionals in industrial settings such as manufacturing, mining, and oil and gas, and in environmental engineering consulting firms. They also ensure compliance with OSHA and U.S. Environmental Protection Agency requirements in manufacturing operations, water and wastewater treatment facilities, and local governments. On the regulatory side, graduates work for agencies such as the EPA and state and county departments of environmental quality.

Health Care Policy and Delivery Certificate (NHHCPDCERT)

College/School: College of Health Solutions

Campus: Downtown Phoenix, Polytechnic, West Valley

Description: The health care policy and delivery certificate program offers you a comprehensive overview of key principles in health systems, including management, economics and program oversight within health care settings.

The curriculum emphasizes the business of medicine, administration, leadership and policy. You can choose to take an internship course to further apply and integrate these core concepts.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in health care policy and delivery consists of 18 credit hours, of which 15 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.		
HCD 302 Health Care Management	C	3
HCD 330 Health Care Systems in the U.S. (CIVI)	C	3
HCD 332 Population Health Policy and Legislation	C	3
HCD 402 Health Economics (SOBE)	C	3
HCD 403 Process Engineering	C	3
Elective	C	3
HCD 304 Health Care Finance		
HCD 404 Advanced Concepts in Health Care Administration and Policy		
HCD 484 Internship		
MED 450 Leadership and Professionalism		
PAF 311 Leadership and Change (SOBE)		

Requirement	Minimum Grade	Credit Hours
PAF 460 Public Service Ethics		
PBH 422 Health Disparities and Access to Health		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: BS in health care administration and policy; BS in health sciences

Other Enrollment Requirements: None

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Implement effective management approaches to improve processes to positively impact patients and populations.
Analyze how policy and economics influence professional health service delivery

Career opportunities

Graduates who have obtained the certificate in health care policy and delivery may be more marketable for employment opportunities and better prepared to enter postgraduate degree programs. The program is particularly relevant for future medical practitioners who intend to serve in a private practice because it broadens their understanding of the business side of U.S. health care systems. Entry-level opportunities in the field include program or clinical administration, advocacy and quality improvement. Advanced degrees or certifications may be required for academic or clinical positions.

Health Education Specialist Certificate (NHHEDSCERT)

College/School: College of Health Solutions

Campus: Downtown Phoenix

Description: Health education and health promotion professionals fill a critical role as they teach individuals how to stay well by living healthy lifestyles. As a health education professional, you can help mobilize communities to advocate for and create healthy environments, and champion health equity through policy, advocacy and environmental change.

In the health education specialist certificate program, you learn how to plan, implement, manage and evaluate health promotion programs that improve health outcomes and prevent chronic and infectious disease.

This certificate qualifies you to sit for the certified health education specialist exam through the National Commission for Health Education Credentialing (https://www.nchec.org/ (https://www.nchec.org/)). CHES is a globally recognized credential for health professionals.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in health education specialist consists of 27 credit hours, of which at least 15 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.		
HEP 102 Foundations of Health Education and Health Promotion	C	3
HEP 361 Digital Health Communication and Education	C	3
HEP 452 Health Advocacy in Health Education	C	3
HEP 454 Health Promotion Program Planning and Implementation	C	3
HEP 456 Health Promotion Program Evaluation	C	3
HEP 466 Health Promotion Program Management	C	3
Electives	C	9

Requirement	Minimum Grade	Credit Hours
CHS 340 Health Behavior Theory		
HEP 100 Introduction to Health and Wellness (SOBE)		
HEP 241 Health Education Methods for Injury Prevention and Preparedness		
HEP 251 Preventing HIV and Substance Misuse		
HEP 303 Human Sexuality for Health Education		
HEP 348 Methods of Health Education		
HEP 350 Substance Use and Addictive Behaviors		
HEP 355 Population Health and Climate Change (SUST)		
HEP 371 Conflict Management and Mediation and Violence Prevention		
HEP 380 Body Image and Wellness		
HEP 386 Assessing Strengths and Needs for Health Education and Promotion

HEP 410 Obesity Perspectives and Prescriptions		
HEP 443 Emotional Health and Interpersonal Relationships		
HEP 444 Epidemiology		
HEP 476 Community Health		
HSC 210 Cultural Aspects of Health (GCSI)		
MED 417 Impact of Violence on Health		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Assess health needs, determinants, and community capacity for a health education and health promotion practice.
Plan a comprehensive health education/promotion program
Advocate for health equity through policy, systems, and environmental change.

Career opportunities

Employment of health educators is expected to grow steadily, with the U.S. Bureau of Labor Statistics predicting a 4% increase in the field between 2024 and 2034. The need for quality health education specialists has never been more critical than it is today.

Having CHES certification gives graduates a competitive edge in the job market, and those who have earned this credential can identify themselves as a certified health education specialist.

Health education specialists, also known as health educators, can work in:

businesses
government
health departments
hospitals and clinics
nonprofit organizations
schools
tribal nations

Employment opportunities are available within national, state and local health departments and in community clinics, community and privacy advocacy groups, wellness centers, health education programs and nonprofit organizations.

Graduates of this program have varied opportunities, including these positions:

- community health educator
- community outreach coordinator
- grant writer
- health program manager
- patient education coordinator
- prevention specialist
- program evaluator
- wellness coordinator

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Health and Wellness Coach Certificate (NHHWCCERT)

College/School: College of Health Solutions

Campus: Downtown Phoenix, West Valley

Description: The health and wellness coach certificate program brings together coursework from the disciplines of exercise and wellness, nutrition, behavioral health and coaching psychology. You develop a strong background in, perspective on, and practical experience in the techniques and methods used to decrease and prevent chronic disease risks.

In this program you learn and practice:

• approaches to guiding individuals through meaningful lifestyle changes
• coaching communication skills
• evidence-based behavior change methodologies
• health coaching techniques
• strategies to influence sustainable healthy lifestyles

Faculty members monitor your coaching sessions to provide feedback on how you may improve your coaching skills. A final practical skills evaluation is conducted to assess your ability in health and wellness coaching.

If you successfully complete this program, you meet the eligibility requirements to take the National Board Certified Health and Wellness Coach examination offered by the National Board for Health and Wellness Coaching (https://nbhwc.org (https://nbhwc.org)).

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in health and wellness coaching consists of 24 credit hours, of which 21 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.		
CHS 340 Health Behavior Theory	C	3
EXW 344 Impact of Physical Activity on Health and Disease	C	3
EXW 400 Stress Management for Wellness	C	3
EXW 450 Social Drivers of Health (CIVI)	C	3
HSC 355 Eating for Lifelong Health (SOBE)	C	3
HSC 440 Health Coaching Concepts and Skills	C	3
HSC 441 Applied Health Coaching Techniques	C	3
NTR 241 Human Nutrition	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Apply evidence-based health and wellness coaching competencies to build a coaching relationship, and guide clients through enriched support for self-awareness and self-discovery.
- Implement health and wellness evidence-based interventions and strategies to elicit positive changes in individuals within the general population.

Career opportunities

Graduates can expand their career options with this certificate, which complements a variety of major programs of study.

Career options include:

- coach
- community health worker
- fitness and wellness coordinator
- health care support worker

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. History and Philosophy of Science Certificate (LAHPSCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the history and philosophy of science undergraduate certificate program, you explore central questions about the nature of science and how it develops and changes.

You examine how scientific claims are justified, and you investigate the social and moral implications of the changing scientific landscape as well as major landmarks in the development of science. You develop the skills to recognize and articulate scientific reasoning, gaining a deeper understanding of how the science of any era is shaped by prior events.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in History & Philosophy of Science requires 18 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Present historical and philosophical perspectives on science.
- Critically communicate research at the intersections of history and philosophy in science.

Career opportunities

There is a growing need for innovation in public health and scientific advancement. Graduates of this certificate program have acquired critical thinking skills and problem-solving abilities that are in high demand to address this need.

Graduates who have combined this program with a major program of study are well prepared for roles in a variety of fields, including biology, medicine, law and ethics. Advanced degrees or certifications may be required for academic, government or clinical positions.

Homeland Security Certificate (PPHSLCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Description: In the homeland security certificate program, you gain a focused, practical understanding of today's most pressing security challenges in the homeland security certificate program. The program covers international, domestic and cyber terrorism, along with an advanced elective related to your professional interests. You develop skills in threat analysis, risk assessment, policy evaluation and cyber defense awareness while examining the causes, methods and prevention of threats.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in homeland security requires 15 upper-division credit hours.		
CRJ 412 International Terrorism	C	3
CRJ 417 Cyber Terrorism	C	3
CRJ 419 Domestic Terrorism	C	3

Requirement	Minimum Grade	Credit Hours
Upper Division Electives		
CRJ 394 Special Topics		
CRJ 422 Violence in America		
CRJ 455 Police and International Terrorism		
CRJ 456 Etiology of Martyrdom		
CRJ 462 Gangs		
CRJ 463 White Collar Crime	C	6
CRJ 464 Organized Crime		
CRJ 494 Special Topics		
PAF 426 Intelligence Analysis and Homeland Security		
PAF 461 Homeland Security		

Only approved homeland security-related topics may be taken from Special Topics courses (CRJ 394 and CRJ 494).

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Bachelor of Science in criminology and criminal justice majors who are also pursuing the Homeland Security certificate may not use CRJ 412, CRJ 417, CRJ 419, CRJ 422, CRJ 455, CRJ 456, CRJ 462, CRJ 463, and CRJ 464 toward both their major and the certificate. These courses will only be used toward the certificate requirements.

Enrollment requirements

There are no admission requirements beyond those for admission to ASU.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/undergraduate-certificate-homeland-security/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Identify major domestic terror organizations and international terror threats.
Analyze patterns of cyberterrorism to deter cyberterrorist activity.

Career opportunities

Graduates find a strong job market in the public and private sectors. Employment opportunities include supervisory and management positions in criminal justice agencies (federal, state and local), such as the Department of Homeland Security, U.S. Customs and Border Protection, and local- and state-level law enforcement departments. Advanced degrees or certifications may be required for academic or clinical positions.

Hospice and Palliative Care Certificate (NHHAPCCERT)

College/School: College of Health Solutions

Campus: Downtown Phoenix

Description: The certificate program in hospice and palliative care provides you with the skills you need to be a health and health care worker that leads and manages chronic and end-of-life care in a variety of settings, including home health care.

You learn from interprofessional instructors who are involved in hospice and palliative care as physicians, social workers, nurses and bereavement counselors. These professionals work with children and adults, as well as palliative care and hospice patients.

Through this program, you:

• complete an internship at Hospice of the Valley, where you can help address the nonclinical care needs of patients and their families

• explore how contemporary issues are burdening the health care system under its current structure
• have the opportunity to shadow health professionals and learn about their roles through field experience at a health care facility
• learn through evidence-based research and the most advanced technology in hospice and palliative care
• receive specialized instruction on dementia and Alzheimer's disease

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in hospice and palliative care consists of 18 credit hours, of which 12 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course, with the exception of MED 484, which is graded on a satisfactory basis.		
MED 325 Elements of Hospice and Palliative Care	C	3
MED 375 Alzheimer's and Other Dementias	C	3
MED 475 Palliative Care: Managing Complex Serious Illness	C	3
MED 484 Internship This course is directed by Dr. Gillian Hamilton at Hospice of the Valley. A cumulative ASU GPA of 3.00 or higher is required to enroll.	Y	3
Electives		
HSC 410 Supporting the Health of Older Adults HSC 412 Health Issues in Later Life MED 445 Prevention and Management of Chronic Disease PSY 447 Psychology of Aging SOC 400 Perspectives on Aging SOC 418 Aging and the Life Course (GCSI)	C	6

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

GPA Requirement: 3.00

Incompatible Majors: None

Other Enrollment Requirements: None

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Analyze the health consequences of chronic disease and impact on patients during end of life care.
Formulate decisions in accordance with ethical and legal principles of the hospice and palliative care field in assigned projects.

Career opportunities

Graduates with this certificate have gained in-depth experience in health care settings and specialized training in hospice and palliative care.

Those who wish to pursue admission to medical school or other professional programs --- such as dental, pharmacy or optometry school --- can leverage this certificate as an additional credential to strengthen their application.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

To declare a certificate in human rights, a student must have a minimum of 30 earned credit hours.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Employ the core concepts and methods used in studying human rights in their written work.
Apply fundamental principles of human rights to research or community engagement.

Career opportunities

Human rights training can lead to a rewarding and meaningful career path as well as a professional degree. The following list of career options is not exhaustive; each offers distinct opportunities, requirements, strategies and tools for social change:

human rights activism coordinator
human rights advocacy officer
human rights campaigner
human rights educator
human rights fundraising specialist
human rights grant writer
human rights lawyer or legal officer
human rights policy analyst
human rights program officer
human rights researcher or research assistant

Indoor Farming Certificate (LSIFRMCERT)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic

Description: The future of farming may be vertical and urban. Whether you are a student or working professional, the novel indoor farming certificate program trains you to cultivate indoor crops with technology enhancements, including precise environmental control of temperature and lighting, sustainable energy management and optimal nutrient amendment to achieve significant improvements in crop productivity, resource consumption and environmental impact.

You receive specific training in indoor crop production and management, including production of clean fruits, vegetables and ornamental plants. Through classroom instruction and hands-on laboratories, you gain knowledge and skills related to plant physiology, indoor crop production systems and facility management, which are necessary for the emerging indoor farming industry.

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires a minimum of 15 credit hours, including at least 12 upper-division credit hours. Six credit hours must be taken from courses offered by the College of Integrative Sciences and Arts. A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.

AGB 333 Agribusiness Finance		
AGB 425 Food Supply Networks		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Before adding the certificate, current ASU students are required to complete BIO 100 The Living World, BIO 181 General Biology I or BIO 182 General Biology II.

Nondegree-seeking students must have a Bachelor of Science degree.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Students can advance their career options and become more marketable to employers with an undergraduate certificate in indoor farming.

Graduates who have complemented their major program of study with this certificate often pursue employment in nursery and greenhouse management, plant science, or farm and ranch management. Advanced degrees or certifications may be required for academic or clinical positions.

College/School: Ira A. Fulton Schools of Engineering

Campus: Tempe

Description: In the certificate program in informatics, you learn to use computer technology to gather, synthesize, store, visualize and interpret information. These skills are critical to a wide variety of disciplines.

You gain an understanding of the capabilities and technologies of informatics as applied to domain-specific problems in your field of study.

When you complete the certificate, you are able to understand and use methods for the basic computational principles behind the operation of communication, networking and interaction; decision-making and problem-solving; modeling, inference and visualization; representing, creating and running routine activities; and storing, indexing and retrieving information.

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires 21 credit hours of coursework, of which at least 12 must be upper division. Students complete 15 credit hours of required courses and select six credit hours of elective coursework. All courses must be passed with a "C" or better. At least 12 credit hours must be completed in residency at ASU.		
Informatics Certificate Requirements		

Requirement	Minimum Grade	Credit Hours
CPI 101 Introduction to Informatics (QTRS)	C	3
CPI 200 Mathematical Foundations of Informatics (MATH)	C	3
CPI 220 Applied Data Structures and Algorithms **or** CSE 310 Data Structures and Algorithms CPI 220 is only offered in the fall semester.	C	3
CPI 350 Evaluation of Informatics Systems	C	3
IEE 380 Probability and Statistics for Engineering Problem Solving (QTRS) **or** STP 420 Introductory Applied Statistics (QTRS)	C	3
Upper Division Elective courses	C	6
AME 394 Special Topics		
ART 345 Visualization and Prototyping		
ART 435 Foundry Research Methods		
BIO 355 Introduction to Computational Molecular Biology		
BIO 411 Quantitative Methods in Conservation and Ecology		
CIS 300 Web Design and Development		
CIS 308 Advanced Excel in Business		
CIS 310 Business Data Visualization		
CIS 405 Business Intelligence		
CIS 407 Business Database Systems Development		
CPI 310 Web-Based Information Management Systems		
CPI 360 Decision Making and Problem Solving		
CPI 394 Topic: Game Design Fundamentals		
CPI 394 Special Topics		
CPI 494 Special Topics		
CSE 310 Data Structures and Algorithms		
CSE 335 Principles of Mobile Application Development		
CSE 360 Introduction to Software Engineering		
CSE 365 Information Assurance		
CSE 394 Special Topics		
CSE 408 Multimedia Information Systems		
CSE 412 Database Management		
CSE 445 Distributed Software Development		
CSE 445 Distributed Software Development		
CSE 446 Software Integration and Engineering		
CSE 450 Design and Analysis of Algorithms		
CSE 460 Software Analysis and Design		
CSE 464 Software Quality Assurance and Testing		
CSE 467 Data and Information Security		

Requirement	Minimum Grade	Credit Hours
CSE 470 Computer Graphics		
CSE 471 Introduction to Artificial Intelligence		
CSE 475 Foundations of Machine Learning		
CSE 476 Introduction to Natural Language Processing		
CSE 477 Introduction to Computer-Aided Geometric Design		
DAT 300 Mathematical Tools for Data Science		
DAT 301 Exploring Data in R and Python		
DAT 401 Statistical Modeling and Inference for Data Science		
DAT 402 Machine Learning for Data Science		
EDT 440 Creating and Marketing Mobile Apps		
ENG 374 Technical Editing		
FMS 365 Video Games and Narrative		
FMS 374 Film and Media Visionaries		
FSE 301 Entrepreneurship and Value Creation		
FSE 404 EPICS Gold: EPICS in Action		
GIT 335 Computer Systems Technology		
GIT 340 Information Design and Usability		
IEE 380 Probability and Statistics for Engineering Problem Solving (QTRS)

STS 306 Social Effects of Science and Technology		
TEL 313 Technology in an Educational Setting		
TWC 414 Advanced Data Visualization		
TWC 444 User Experience and Usability Research		
CPI 484, CPI 494, and CSE 394 require advisor approval		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

ASU degree-seeking students
The undergraduate certificate in informatics is available to all students who are in good standing at ASU and who have completed CSE 205, MAT 242 and MAT 243 with a grade of "C" or higher. This certificate also may be used by interdisciplinary studies Bachelor of Arts students as part of their degree program.

Nondegree-seeking students
Applicants with or without a bachelor's degree are eligible to apply for and receive this certificate through the Pathways for the Future program (https://pff.asu.edu/). Applicants must have completed the following courses, or their equivalents, with a grade of "C" or higher (scale is 4.00 = "A").

CSE 205 Object-Oriented Programming and Data Structures

MAT 242 Elementary Linear Algebra
MAT 243 Discrete Mathematical Structures

Applicants who have taken these courses at another institution should use the Transfer Guide course search (https://transferguide.apps.asu.edu/app/home) to determine whether a transfer course can fulfill the prerequisite course requirements. Applicants who already hold a bachelor's degree should apply to ASU and this certificate program as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Use computational principles for information-based decision-making and problem solving.
Apply computational principles to the operation of storing, indexing and retrieving information in informatics applications.

Career opportunities

Graduates who have completed this certificate should be in high demand within the software industry and in government, education, science, medicine and other fields that make use of computer technology. The certificate's applied and user-oriented focus makes graduates attractive to such employers.

Innovation for Impact Certificate (FIIFICERT)

College/School: Rob Walton College of Global Futures

Campus: Tempe

Description: The innovation for impact certificate program is grounded in the belief that each person can do great things. You gain the knowledge, skills and critical dispositions necessary to leverage the power of innovation and create personally meaningful, socially significant change.

You learn tools and concepts for synthesizing research from courses across disciplines in social sciences, humanities, natural sciences and engineering. You identify a problematic condition or aspirational future and work with peers, mentors and the community to produce innovations that cultivate a better future for society.

This program offers you a distinct advantage in your chosen major.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 15 credit hours, of which 12 is upper division.		
FIS 201 Innovation in Society (HUAD)	C	3
FIS 305 Managing Knowledge and Change in Organizations	C	3
FIS 307 Futures and Foresight Methods (SOBE)	C	3
FIS 371 Innovation for Impact: Impact Journey	C	1
FIS 372 Innovation for Impact: Inquiry Journey	C	1
FIS 373 Innovation for Impact: Innovation Journey	C	1
FIS 481 Innovation for Impact: Application Journey	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Advising is not required, but students are encouraged to speak with an advisor by scheduling an appointment through the Rob Walton College of Global Futures advising website (https://collegeofglobalfutures.asu.edu/student-life/advising/undergraduate-advising/).

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Think critically about innovation and the relationship between changes in technology and society, as well as demonstrate knowledge of the influences, origins, histories, values and risks across innovation systems.
Apply foresight methods to analyze emerging trends and plausible futures, as well as demonstrate the ability to participate as a team member on an inquiry project and manage stakeholder alignment and ecosystem integration.

Global opportunities

Global experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the Rob Walton College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships around the world, increasing their professional network.

Students can find programs specific to their interests on the Rob Walton College of Global Futures study abroad webpage (https://collegeofglobalfutures.asu.edu/student-life/study-abroad/) and additional opportunities and information on the ASU Global Education Office website (https://goglobal.asu.edu/). These sites also include additional information about applying for funding to support global travel.

Career opportunities

This transdisciplinary program empowers graduates with valuable knowledge and skills that transcend traditional boundaries. They are prepared to lead in creating positive change and innovation across diverse environments.

In today's rapidly evolving world, where technology, society and solutions intersect, graduates are equipped to navigate complex challenges. The certificate opens doors to careers in various sectors, including business, technology, science, education and government. Graduates become catalysts for change, driving global futures through their interdisciplinary approach.

Interdisciplinary Health Humanities Certificate (LAIHHUCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, West Valley

Description: The interdisciplinary health humanities certificate program brings humanities methodologies to analyses of health and medicine. You learn ways to address challenges in health policy and health care practice and gain an advanced understanding of the cultural formations of health, illness and the body.

The curriculum offers you courses in the history of medicine, bioethics, disability studies, sociocultural aspects of health, and narrative medicine. These courses include critical analyses of representations of health and illness in literature and other media, as well as training in narrative and structural competency for health care professionals. A capstone course, internship or applied project offers experiential or project-based learning in this field.

Curriculum

Requirement	Minimum Grade	Credit Hours
The interdisciplinary health humanities certificate requires a total of 15 credit hours. A minimum of 12 upper-division credit hours are required, with at least nine of those credit hours taken in courses offered by The College of Liberal Arts and Sciences for students on the Tempe campus, or by the School of Humanities, Arts and Cultural Studies in the New College of Interdisciplinary Arts and Sciences for students on the West Valley campus. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.		
ENG 203 Introduction to Health Humanities	C	3
ENG 484 Internship **or** ENG 498 Topic: Interdisciplinary Health Humanities Projects **or** ENG 499 Individualized Instruction	C	3
Upper Division Electives	C	9
AFR 383 Blacks in Science, Medicine and Public Health		
ASB 301 Global History of Health (HUAD)		
ASB 305 Poverty and Global Health (CIVI)		
ASB 353 / SOC 353 Death and Dying in Cross-Cultural Perspective (GCSI)		
ASB 355 Traditional Medicine and Healing (HUAD)		
BIO 312 / IAS 340 / PHI 320 Bioethics (HUAD)		
BIO 315 Science, Values, and the Public		
ENG 469 Science and Literature (HUAD)

HCI 313 Philosophy of Science in Health Care: Understanding Paradigms of Health and Healing (HUAD)		
HPS 314 / PHI 314 Philosophy of Science (HUAD)		
HPS 331 / BIO 318 History of Medicine (HUAD)		

Requirement	Minimum Grade	Credit Hours
LSC 363 Genes, Race, Gender, and Society		
MED 300 Historical and Contemporary Issues in Health		
PHI 306 Applied Ethics (CIVI)		
REL 381 Religion and Moral Issues (HUAD)		
SOC 400 Perspectives on Aging		
SOC 448 Epidemics and Society (GCSI)		
TCL 323 Latina/o Health Issues (SOBE)		
TCL 410 Race, Medicine, and the Body		
WST 444 Gender, Health, and Bodies (SOBE)		

Some elective courses may be available only on the Tempe campus or the West Valley campus.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Students can become more marketable and advance their career options when they complement their major with this methodological specialization in interdisciplinary health humanities.

Graduates who have completed this undergraduate certificate often pursue employment in the health professions. Advanced degrees or certifications may be required for academic or clinical positions.

International Business Studies Certificate (BAIBSCERT)

College/School: W. P. Carey School of Business

Campus: Tempe

Description: In the certificate program in international business studies, you develop competency in a foreign language and a sensitivity to foreign cultures in the certificate program in international business studies. You gain an awareness of global social processes and an understanding of international business environments, principles and operations.

The W. P. Carey School of Business has partnerships with universities all over the world, so you can experience new cultures, visit new places and build intercultural and language skills. International internships also are offered in conjunction with ASU's Global Education Office.

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate program requires a minimum of 18 credit hours (at least 12 credit hours must be upper division). All business coursework must be completed through the W. P. Carey School of Business or through an approved ASU international study program.		
Only courses in which a student receives a grade of "C" (2.00 on a 4.00 scale) or better may be used to meet the certificate requirements, and an overall certificate GPA of at least 2.50 must be earned.		
MGT 302 Principles of International Business (GCSI) **or** ECN 306 Survey of International Economics (GCSI)	C	3
Upper Division International Business Certificate Electives	C	6
AGB 302 International Management and Agribusiness (GCSI)		
ECN 306 Survey of International Economics (GCSI)		

Requirement	Minimum Grade	Credit Hours
ECN 331 Economics of the European Economic Union (GCSI)		
ECN 335 South Asia and the World Economy		
ECN 360 Economic Development (GCSI)		
ECN 365 Economics of Russia and Eastern Europe		
ECN 436 International Trade Theory		
ECN 438 International Monetary Economics		
FIN 456 International Financial Management		
MGT 302 Principles of International Business (GCSI)		
MGT 400 Cross-Cultural Management (GCSI)		
MGT 425 Global Human Resources		
MGT 459 International Management		
MKT 425 Global Marketing Management (GCSI)		
SCM 463 Global Supply Chain Management (GCSI)		
300+ level WPC subject courses earned on a sponsored ASU study abroad program may be applied toward the elective area, per approval of the international programs coordinator.		
Upper Division		
Nonbusiness Global Communities, Societies and Individuals Coursework	C	3
Nonbusiness Global Communities, Societies and Individuals Coursework	C	6

Nonbusiness Global Communities, Societies, and Individuals coursework may be satisfied by any combination of the following:

1. Students can choose any of the university-designated nonbusiness Global Communities, Societies and Individuals (GCSI) courses.
2. One course must be upper division to meet the 12 upper-division hours requirement.
3. It is recommended to choose courses related to the area of study abroad experience. Additional courses may be approved by the international program coordinator.
4. Nonbusiness Global Communities, Societies and Individuals (GCSI) hours may also be satisfied by:

   An ASU or W. P. Carey School of Business education abroad program earning six credit hours or more fulfills six of the credit hours of nonbusiness Global Communities, Societies and Individuals requirements.
   An ASU or W. P. Carey School of Business education abroad program earning three credit hours fulfills three of the credit hours of nonbusiness Global Communities, Societies and Individuals requirements.

The certificate program requires students to meet a foreign language proficiency by meeting one of the following:

1. Completion of one year (two semesters) of the same foreign language at the college level.
2. Completion of one semester of the equivalent of 101- and 102-level coursework.
3. Completion of two years of the same foreign language in high school with a minimum grade of "C" (2.00 on a 4.00 scale).
4. Documentation of a proficiency or placement test confirming preparedness to start at least the second year of a foreign language (201 level or above).

A student whose native language is not English may have this requirement waived.

The certificate program requires students to participate in an ASU Global Education Office sponsored program.

Students cannot use independent non-sponsored programs to fulfill this requirement. Sponsored programs can be found on the Global Education Office website.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Students can advance their career options with an undergraduate certificate. The certificate program in international business enables students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Graduates who have completed this program often decide to pursue employment in management, sales, marketing and communication. Advanced degrees or certifications may be required for academic or clinical positions.

International Cinema Certificate (LAICINCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The certificate program in international cinema provides you with the means to explore and understand the role that international film plays in highlighting cultural diversity; reflecting the sociocultural, political and economic currents of the period and cultural setting depicted; and calling into question an accepted idea of the dominance of Hollywood film.

Following an integrated pathway through the variety of international film courses, you explore facets of international film history and production not often covered by American programs in film studies. If you are majoring in a second language, you can explore a particular culture's filmic heritage and traverse avenues for comparative analysis between the filmic heritage of two or more cultures. If you are majoring in other areas, you can encounter visual narratives different from your own and connect international cinema to your own respective experiences.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in international cinema requires 18 upper-division credit hours. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
SLC 340 Approaches to International Cinema (GCSI)	C	3
Upper Division Electives	C	15
CHI 345 Chinese Film and Civilization		
FMP 404 World Cinema		
FMS 426 Films of India		
FMS 427 Identity and World Film		
FMS 430 Artists in Film: Artists' Biopics		
FMS 441 Global Cinema		
GER 445 / FMS 445 / SLC 445 Holocaust, War and German Memory (HUAD)		
GER 446 / FMS 446 / SLC 446 Weimar-Era German Film (HUAD)		
HEB 349 Israeli Wars in Israeli Movies (HUAD)		
ITA 420 Italian Cinema		
KOR 347 Korean Film and Literature (HUAD)		
SLC 423 Italian Organized Crime in Films and History (HUAD)		
SLC 440 Film Theory and Criticism		
SLC 450 Experimental Narrative		

Requirement	Minimum Grade	Credit Hours
SLC 494 Topic: Narrative and Embodiment in Cinema		
SPA 433 Film and Culture of Mexico		
SPA 385 / SLC 385 Cinema and Culture of Spain		
SPA 475 Latin American Film		
THE 422 Latinx Theatre and Film (HUAD)		

Additional upper-division elective courses may be approved by the coordinator of the certificate program.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

ASU students with sophomore standing or higher and who have a GPA of at least 2.50 in any degree program are eligible for the international cinema certificate program. Admission to the certificate program is approved by the certificate coordinator in consultation with advisors.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Analyze approaches to film theory and criticism in the context of international film production
Communicate research findings on a topic connected to International Cinema production in an oral presentation using visual materials.

Career opportunities

Graduates who have combined the certificate in international cinema with their major program of study may be more marketable to employers. They often decide to pursue employment in education, tourism, the arts or the humanities.

International Relations Certificate (LAINSCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the international relations certificate program, you develop a sophisticated understanding of how the world is deeply interconnected and why events happening in one part of the globe may have huge impacts on other regions. You learn about U.S. political institutions or global politics before progressing to advanced coursework on public policy, political leadership and political change. You examine core issues in international relations, including America's role in the world, violent conflict, diplomacy and trade, and how local identities interact with global trends to shape world affairs. You develop analytical and communication skills, and pursue hands-on research, including internships.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in international relations requires 15 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Incompatible majors: BA and BS in international relations

Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate before it is added to their record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Correctly apply one of the main theories of international relations, liberalism, to a global event or policy.
Write about topics of international relations using clear and concise language.
Analyze key contemporary global issues.

Career opportunities

Graduates who have combined the certificate in international relations with their major program of study become more attractive to employers.

Graduates can identify global trends and address issues facing humanity. They have developed a deeper understanding of international policy while leveraging their critical thinking and communication skills, as well as their cross-cultural competencies. Their sector-spanning analytic skills are useful for careers in government, international organizations, nongovernmental organizations, academia and journalism. Graduates pursue careers as foreign service officers, security analysts and policy analysts, and in other data-driven positions.

International Trade Certificate (TBINTRCERT)

College/School: Thunderbird School of Global Management

Campus: Downtown Phoenix

Description: Designed for globally minded students, the undergraduate certificate program in international trade opens doors for you to the world of international business, cultivating a deep understanding of global markets, trade policy and cross-cultural strategy. You emerge ready to lead, negotiate and innovate in careers that can take you anywhere on the planet.

About Thunderbird
Thunderbird School of Global Management has produced world-class leaders for nearly 80 years. The ideal Thunderbird student is curious, globally minded, and eager to develop and advance their career in leadership and management within the global and digital landscape of today's interconnected world. After completing this degree, graduates join a thriving global alumni network nearly 50,000 strong, managing some of the world's largest institutions, companies, nonprofits and NGOs.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in international trade requires 18 credit hours as outlined below, with a minimum of 12 upper-division credits. Students are encouraged to take courses that develop breadth within their sector rather than limiting their selection to courses in one particular subject area. Minimum "C" (2.00) grade is required in all course work in this certificate.		
TGM 101 Principles of Global Management (GCSI) It is recommended that students take TGM 101 prior to or concurrently with other TGM courses.	C	3
TGM 430 International Trade and Regional Economic Agreements	C	3
Electives		
TGM 204 Principles of Marketing for Global Organizations		
TGM 300 Principles of Finance for Global Organizations		
TGM 310 Supply Chain Operations for Global Organizations		
TGM 312 Big Data in the Global Economy		
TGM 353 Regional Management Environment (GCSI)	C	3
TGM 460 Global Risk Assessment and Management		
TGM 468 States and Markets in a Global Economy (GCSI)		
TGM 478 Cross-Cultural Communication and Negotiation		
TGM 489 Multinational Organizational Leadership		
Upper Division Electives		
TGM 300 Principles of Finance for Global Organizations		
TGM 310 Supply Chain Operations for Global Organizations		
TGM 312 Big Data in the Global Economy		
TGM 353 Regional Management Environment (GCSI)	C	9
TGM 460 Global Risk Assessment and Management		
TGM 468 States and Markets in a Global Economy (GCSI)		
TGM 478 Cross-Cultural Communication and Negotiation		
TGM 489 Multinational Organizational Leadership		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Study abroad or international experience is encouraged but not required. Consider ASU Global Education Office opportunities.

Enrollment requirements

Incompatible Majors: BGM in global management; BS in international trade

No more than six credit hours may be shared between certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates who have combined the certificate in international trade with their major program of study may be more marketable to employers. Many decide to pursue employment in corporations, governments and nonprofits in positions such as global logistics manager, import and export agent, or international compliance manager.

This certificate opens a wealth of opportunities with organizations that operate in multiple countries across sectors and that need leaders who understand the increasing complexities of the global economy. Advanced degrees or certifications may be required for academic or clinical positions.

Islamic Studies Certificate (LAISLCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: Islam, the fastest growing religion in the world, plays an increasingly significant role in shaping international politics, culture, law and business. The certificate program in Islamic studies and its required coursework in two different regions enables you to gain an appreciation of Islam's multiculturalism and contemporary relevance in multiple disciplines and geographic settings.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in Islamic studies requires a minimum of 18 credit hours, of which at least 12 must be upper division. At least six upper-division hours must be in courses offered by The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. A minimum grade of "C" (2.00 on a 4.00 scale) is required in each course used toward the certificate.		
Language Requirement	C	3 - 6

Students must complete a minimum of three credit hours in a language relevant to the study of Islam, chosen from Arabic, Bosnian/Croatian/Serbian, French, Indonesian or Russian (typically offered in Fall and Spring semesters) or Farsi, Kazakh, Tatar, Turkish or Uzbek (these courses are offered by the Critical Languages Institute and are typically only available in summer terms under the SLC prefix; availability may vary). Students who are native speakers of these languages or other Islamic languages, or who have other equivalent knowledge may substitute three credit hours of additional coursework selected from the list of approved electives. See program coordinator.		
Islamic Studies Core (complete two courses)	C	6

Requirement	Minimum Grade	Credit Hours
HST 260 / REL 260 Introduction to Islam (GCSI)		
HST 336 / REL 365 Islamic Civilization (HUAD)		
HST 339 / REL 366 Islam in the Modern World (GCSI)		

Students must complete two of the three Islamic Studies core courses. At least one course must be upper division.

Upper Division Elective Courses	C	6

Students must choose electives that represent at least two of three geographic regions. The available geographic regions are Africa and the Middle East, America and Europe, and Asia. No more than one course from the "non-geographic" list may apply toward the certificate. It is recommended that students work with an academic advisor in the School of Historical, Philosophical and Religious Studies to select appropriate elective courses.

Africa and the Middle East

AFR 300 / ASB 310 Precolonial Africa (GCSI)

REL 480 / SGS 441 Religion and Global Politics

Requirement	Minimum Grade	Credit Hours
Students must complete a minimum of 12 upper-division hours within the certificate. If HST/REL 260 was taken as one of the core courses, students will need to choose upper-division courses for all nine hours of certificate electives (unless the language requirement was satisfied with an upper-division course).		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

ASU Language Placement: Only true beginners are eligible for 101-level courses. All other students are required to take a placement exam, regardless of prior credit earned. Students already proficient in a second language may take a proficiency exam.

Not all courses for this program are available every term. Students should consult the class schedule prior to each term to confirm course availability.

Enrollment requirements

There are no specific admission requirements other than a student's desire to learn about Islam and Islamic societies and culture.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Will be able to analyze an academic issue in Islamic studies.
Will be able to compose a critical argument about an academic issue related to Islamic studies.
Identify and summarize important features of the major periods of Islamic civilization from the seventh century to the present.

Career opportunities

Graduates who have completed the certificate in Islamic studies may be more marketable to employers. They have successfully pursued employment in education, law, tourism, international law, business, journalism, international relations, humanitarian service, diplomacy, the military, public advocacy, politics, medicine and the intelligence service.

The program is also designed to prepare students for graduate programs in history, religious studies, Islamic studies and area studies, and cultural anthropology, and for any academic discipline or career that focuses on the global Muslim society.

Advanced degrees or certifications may be required for academic or clinical positions.

Jewish Studies Certificate (LAJUDCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the Jewish studies certificate program, you examine the history and culture of the Jews. The program generates and facilitates research on Judaica and provides a model for transdisciplinary teaching and research.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in Jewish studies requires a minimum of 21 credit hours in approved coursework. At least 12 upper-division credit hours are required. At least six upper-division credit hours must be in courses offered by The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. A minimum grade of "C" (2.00 on a 4.00 scale) is required in each course used toward the certificate.		
Language Requirement	C	6 - 10
ARB 101 Elementary Arabic I **AND** ARB 102 Elementary Arabic II		
GER 101 Elementary German I **AND** GER 102 Elementary German II		
HEB 101 Elementary Modern Hebrew I and Israeli Culture (GCSI) **AND** HEB 102 Elementary Modern Hebrew II and Israeli Culture (GCSI)

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

ASU Language Placement: Only true beginners are eligible for 101-level courses. Students with previous experience in the language are required to take a placement exam.

Enrollment requirements

Incompatible Majors: BA in Jewish studies

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates are more marketable to employers when they have complemented their major program of study with an undergraduate certificate.

The familiarity with Jewish culture gained through the program gives graduates a competitive edge when they pursue a career with one of the hundreds of U.S. companies that do business in Israel.

These students are also prepared to:

- attend rabbinic seminary in preparation for becoming a rabbi or chaplain
- engage in world political and economic issues
- pursue advanced education in Jewish professional service fields

The certificate also provides a foundation for students who wish to pursue advanced degrees or careers related to their area of interest in fields that may include archeology, history, justice studies, journalism, law and international relations. Advanced degrees or certifications may be required for academic or clinical positions.

Juvenile Justice Certificate (PPJVJUCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Description: In the juvenile justice certificate program, you cover key topics focusing on justice-involved youth, including theoretical perspectives on why youth engage in delinquent acts; life-course criminology and how key turning points in life impact trajectories of youth; the number of youth who engage in delinquency who have a prior history of victimization; and juvenile justice and how the criminal justice system, including police, courts and correctional agencies, responds to youth.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 15 credits, of which 12 are upper division. A minimum of 12 credit hours must be taken in residence at ASU.		
CRJ 204 Juvenile Justice	C	3
CRJ 404 Juvenile Delinquency	C	3
CRJ 425 Life-Course Criminology	C	3
Upper Division Electives		
CDE 312 / SOC 312 Adolescence (SOBE)		
CDE 450 Childhood Disorders and Family Functioning		
CRJ 462 Gangs		
CRJ 494 Topic: Children and The Law	C	6
JUS 477 Youth and Justice (SOBE)		
PSY 341 Developmental Psychology (SOBE)		
TEL 315 Child and Adolescent Development		
Special Topics course CRJ 494: other juvenile justice-related topics may be substituted with approval.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Completion of the following prerequisite courses with grades of "C" or higher are required for enrollment in the certificate program:

• CRJ 100 Introduction to Criminal Justice
• completion of PSY 230 Introduction to Statistics or one of the following two-course sequences in research methods and statistics with a grade of "C" or higher: CRJ 302/CRJ 303 or JUS 301/JUS 302 or PSY 290/PSY 230 or SOC 391/SOC 390 or SWU 320/SWU 321 or FAS 361/SOC 390

Bachelor of Science in criminology and criminal justice majors who are also pursuing the juvenile justice certificate may not use CRJ 404, CRJ 425 and their chosen electives (CRJ 462 or CRJ 494) towards both their degree and the certificate.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Demonstrate an understanding of how the criminal justice system, including police, courts, and correctional agencies, can best respond to juvenile delinquent acts through a comprehension of risk and protective factors.
- Apply knowledge about the nature of delinquency into the analysis of appropriate responses to delinquent acts.

Illustrate competency in life-course theories of social control.

Career opportunities

Those who complete this certificate program have developed expertise in understanding youth crime and responses to it. This expertise prepares them for employment opportunities in juvenile courts, juvenile probation and corrections, and social service agencies.

Korean Studies Certificate (LAKORCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the certificate program in Korean studies, you gain in-depth and practical knowledge of dynamic Korea in the modern and contemporary world, with a particular focus on Korea's economic, cultural and technological innovation.

The program consists of two major components: Korean language skills in the areas of speaking, listening, reading and writing; and instruction in the areas of Korean society, culture, history, literature and religion.

Certificate coursework enriches your critical thinking skills and your ability to investigate and address issues surrounding Korea and independent sociocultural, geopolitical and environmental challenges in the world.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in Korean studies requires 22 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
Korean Language		
Course substitutions may be permitted for heritage speakers and other advanced speakers of the Korean language based on their proficiency level as determined by the Korean Placement Test.		
KOR 101 First-Year Korean I KOR 102 First-Year Korean II KOR 201 Second-Year Korean I KOR 202 Second-Year Korean II	C	10
HST 303 Studies in Asian History	C	3
KOR 321 Modern Korean Literature	C	3
KOR 347 Korean Film and Literature (HUAD)	C	3
KOR 350 Women of Korea (HUAD)	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Additional courses may be approved in consultation with an academic advisor in the School of International Letters and Cultures or the coordinator of the certificate.

Enrollment requirements

ASU students admitted to a degree program in any field of study are eligible to pursue the Korean studies certificate program. Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate before it is added to their record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Recognize and discuss the major events and issues of Korean history, culture, and society.
Communicate orally and in writing in Korean at the novice high for beginning learners or intermediate low for intermediate learners.

Career opportunities

Graduates who have combined a certificate in Korean studies with their major program of study are more marketable to employers than ever. Benefiting from their practical knowledge and enriched perspective of Korea in addition to training received in their majors, graduates have a competitive advantage in various professions, including academia, government, politics, tourism and hospitality, marketing, military and various other types of work that involve culture and language translation. Graduates often pursue employment in education and with Korean companies such as Samsung, LG and Hyundai.

Latin American Studies Certificate (LALASCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the Latin American studies certificate program, you gain an understanding of the cultures, economies, politics and history of Latin American nations while developing language proficiency in Spanish or Portuguese.

The program is designed to cross disciplinary boundaries and provide a diverse and global perspective of Latin American experiences. You may take courses in history, culture, transborder studies, geography, colonization, literature, film, theater, the arts and more.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in Latin American Studies requires 18 credit hours, of which 15 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
Language Requirement: Students must demonstrate Spanish or Portuguese proficiency through the 313-level of conversation and composition. The language proficiency requirement may be waived for native speakers or those with in-field experience equivalent to SPA 313 or POR 313.		
Upper Division Latin American Content Courses	C	
Students enrolled in a degree program with similar course enrollment options are recommended to select nine credit hours (three courses) from within their major and nine credit hours (three courses) outside their major. All students are encouraged to select courses in consultation with a Latin American Studies advisor.		
Language instruction courses dealing with Spanish and Portuguese conversation and composition cannot be used to satisfy the content course requirement. While students are encouraged to enroll in language instruction courses (i.e. conversation and composition) above the 313-level, they cannot apply such coursework to the Latin American studies certificate course requirements.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Students must have a minimum GPA of 2.00 to add this certificate program.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Explain the impact of the increasing Latino population on the U.S. political system.
Analyze issues and policies affecting Latino communities using qualitative and quantitative data.

Career opportunities

Graduates of this certificate program have the knowledge and hands-on experience to work in the fields of government, law and public policy. Additionally, graduates are more marketable to employers in:

business
education (administration and teaching)
film, media and the arts
nonprofit organizations
public affairs
public health
social work

Advanced degrees or certifications may be required for academic or clinical positions.

Law Enforcement in Parks and Protected Areas Certificate (PPLEPPCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: In the certificate program in law enforcement in parks and protected areas, you explore how public lands and natural resources are managed and protected through law enforcement and policy in the certificate program in law enforcement in parks and protected areas. Coursework examines the relationship between society and the environment, and the legal and ethical challenges involved in safeguarding parks and protected areas, especially those near cities in the Southwest.

The curriculum draws from both a nationally accredited parks and recreation program and a recognized criminology and criminal justice program. You gain knowledge in law enforcement, resource management and environmental protection, preparing you to address crime prevention, visitor safety and conservation across park and recreation settings.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 15 credit hours of graded classroom coursework (no internship, no independent study), of which 12 are upper divison. Students complete 12 credit hours of required core courses and a three credit hour elective. A grade of "C" grade (2.00 on a 4.00 scale) or better is required for all courses in the certificate. Courses taken as part of a university major may count toward that degree and the certificate.		
CRJ 230 Introduction to Policing	C	3
CRJ 410 Criminal Procedure I: The Law of Investigations	C	3
PRM 370 Public Lands Management	C	3
PRM 380 Wilderness and Parks in America (SUST)	C	3
CRJ 315 Police Organization and Management **or** PRM 340 Outdoor Survival **or** PRM 360 Environmental and Cultural Interpretation	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A GPA of 2.00 is required to add this certificate.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Demonstrate an understanding of the ethical standards implicit in law enforcement in parks and protected areas.
- Apply critical thinking skills by taking into account the complexities of an issue and acknowledging other viewpoints.

Career opportunities

Graduates are prepared for roles that combine natural resource protection and public safety. They may work with federal, state or local agencies, including park services, environmental and recreation departments, and conservation organizations.

Career paths include positions such as park ranger, recreation patrol officer, conservation enforcement aide, and visitor services specialist in public and private recreation settings.

Law and Human Behavior Certificate (PPLWHBCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Tempe, West Valley

Description: Law and human behavior is an umbrella term that encompasses various aspects of the rapidly emerging field of forensic psychology, law and justice.

This certificate program focuses on the criminal justice aspects of forensic psychology, emphasizing victimology, offender treatment, criminal incapacity, mental health law, juvenile justice and delinquency, and the dynamics of how the criminal justice system intersects with behavioral science.

The program provides you with an understanding of important but understudied areas where justice policy is in desperate need of empirical, psychological research.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 15 credit hours, of which 12 are upper division. At least 12 credit hours must be taken in residence at ASU.		

Requirement	Minimum Grade	Credit Hours
CRJ 260 Criminal Law I: Introduction to Substantive Criminal Law	C	3
CRJ 410 Criminal Procedure I: The Law of Investigations	C	3
PSY 366 Psychological Disorders (SOBE)	C	3
PSY 468 Psychology and Law	C	3
Upper Division Electives		
CRJ 309 Criminology		
CRJ 403 Victims and the Criminal Justice System		
CRJ 406 Sex Crimes		
CRJ 434 Drugs of Abuse		
CRJ 435 Crime and Forensic Mental Health (SOBE)		
CRJ 484 Internship		
CRJ 494 Special Topics	C	3
PSY 341 Developmental Psychology (SOBE)		
PSY 368 Forensic Psychology		
PSY 443 Child and Adolescent Psychological Disorders (SOBE)		
PSY 472 Clinical Psychology		
PSY 474 Correctional Psychology		
PSY 494 Special Topics		

Special Topics courses (CRJ 494 and PSY 494) must be approved by a School of Criminology and Criminal Justice advisor in order to select appropriate special topics courses that are approved for credit in the law and human behavior certificate program.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Bachelor of Science in criminology and criminal justice majors who are also pursuing the Law and Human Behavior certificate may not use CRJ 309, CRJ 403, CRJ 406, CRJ 410, CRJ 434, CRJ 435, CRJ 484, and CRJ 494 towards both their degree and certificate.

Enrollment requirements

Students must complete the following prerequisite courses with a grade of "C" or higher (scale is 4.00 = "A") to enroll in the certificate program. These courses may be taken in-residence at ASU or transferred from other institutions, including community colleges. Because these courses are requirements for the bachelor's degree programs in psychology or criminology and criminal justice, their completion satisfies not only requirements of these two majors but also the prerequisite requirements for enrollment in the certificate program in law and human behavior.

Completion of the following prerequisite courses with grades of "C" or higher is required for enrollment in the certificate program:

• CRJ 100 Introduction to Criminal Justice
• PSY 101 Introduction to Psychology
• first-year composition (ENG 102, 105 or 107)
• a course that meets the General Studies MATH or MA requirement (MAT 114, 117, 119, 170, 210 or 270)
one of these two-course sequences in statistics and research methods:
• CRJ 302 and 303, or
• PSY 230 and 290

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Apply psychological theory and research to explain the behavior of individuals in the criminal justice system.
Demonstrate competency in explaining how the criminal court systems of the United States apply the law.

Career opportunities

Graduates of the law and human behavior certificate program find a strong job market in the public and private sectors. Employment opportunities include supervisory and management positions in criminal justice agencies (federal, state and local), such as:

- evidence and crime scene supervisor (crime scene investigation activities)
- forensic psychologist
- intelligence analyst
- law enforcement officer

Graduates are also prepared for admission to leading graduate programs such as forensic psychology and law.

Leadership and Ethics Certificate (PPLDECERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: The certificate program in leadership and ethics focuses on developing your understanding the broad transdisciplinary field of leadership and its application to various elements of society and community. It prepares you for positions of leadership and responsibility in the university, in student organizations, in your communities, and throughout your career in business and government.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in leadership and ethics requires 15 upper-division credit hours. Students complete three core courses (nine credit hours), plus two discipline-based electives in leadership or ethics (six credit hours). Elective coursework may be selected from the approved list of elective courses or upon the recommendation of the department.		
All required courses must be taken at Arizona State University. Any course substitutions for the certificate are at the discretion of the School of Public Affairs.

NLM 430 Managing Nonprofit Organizations		
PAF 420 Managing Across Boundaries		
POS 314 The American Presidency (AMIT)		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Apply knowledge of leadership and ethics in real-world circumstances, whether at work or in civic engagement.
- Apply core competencies of leadership as they relate to the identification, assessment and resolution of problems of public relevance in organizations.

Career opportunities

Graduates are prepared to pursue a career in a field related to public administration or public policy, particularly in the areas of participatory governance and public engagement. This may include opportunities as a manager or policy analyst in local, state or federal agencies, in nonprofit organizations, and in private organizations whose work interfaces with the public sector.

Co-Curricular Experiences

Complete two co-curricular experiences (all pending approval of the certificate coordinator):

1. Complete an approved internship. This requirement must be completed after approval to add the certificate.
2. Approved leadership position on an executive board with a registered ASU club or organization.
3. Approved leadership role in support of the W. P. Carey School of Business or ASU community: (WPC 101 Facilitator, WPC Peer Advisor, Camp Carey Director, Leadership Through Action (Tillman Program), USG Position, Community Assistant, Residential Engagement Leader, A.P.P.L.E., other petition-approved activity).
4. ASU-affiliated study abroad program OR 75 hours of service learning or community service.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate is open only to undergraduate students in the W. P. Carey School of Business.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates who have combined the certificate in leadership in business with their major program of study may become more marketable to employers. Many decide to pursue employment in management, sales and marketing.

Advanced degrees or certifications may be required for academic or clinical positions.

Legal Issues in Criminal Justice Certificate (PPLCRJCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, West Valley, Online

Description: In the certificate program in legal issues in criminal justice, you learn how laws and policies shape the practice of criminal justice. Coursework examines law and theoretical perspectives on the effects of specific policies, including their impact on justice professionals and communities. You study issues such as crimes and defenses, searches and seizures, interrogations and confessions, and constitutional rights during adjudication.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 18 credits hours, of which 12 are upper division. At least 12 credit hours must be taken in residence at ASU.		
CRJ 203 Courts and Sentencing	C	3
CRJ 260 Criminal Law I: Introduction to Substantive Criminal Law	C	3
CRJ 410 Criminal Procedure I: The Law of Investigations	C	3
CRJ 416 Criminal Procedure II: Adjudication	C	3
CRJ 460 Criminal Law II: Advanced Substantive Criminal Law	C	3
Upper Division Electives		
CRJ 321 Evidence: Imperatives of Proof		
CRJ 350 Law and Social Control (CIVI)		
CRJ 394 Special Topics	C	3
CRJ 411 Legal Issues in Corrections		
CRJ 494 Special Topics		
Special Topics courses (CRJ 394 and CRJ 494) must be approved legal issues-related topics only.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Bachelor of Science in criminology and criminal justice majors who are also pursuing the Legal Issues in Criminal Justice certificate may not use CRJ 410, CRJ 416, CRJ 460, and their chosen elective (CRJ 321, CRJ 350, or CRJ 411) towards both their degree and certificate.

Enrollment requirements

Students must complete CRJ 100 Introduction to Criminal Justice with a grade of "C" or higher (scale is 4.00 = "A") to be admitted to the certificate program. This course may be taken at ASU or transferred from another institution, including a community college.

Bachelor of Science in criminology and criminal justice majors who are also pursuing the legal issues in criminal justice certificate may not use CRJ 410, CRJ 416, CRJ 460 or their chosen elective (CRJ 321, CRJ 350 or CRJ 411) for both their degree and this certificate.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Demonstrate competency in explaining the criminal process and Constitutional rights.
- Demonstrate competency in the historical development of criminal law, and the public policy implications of it.
- Demonstrate competency in explaining how the criminal court systems of the United States apply the law to pretrial, adjudication and sentencing processes.

Career opportunities

Graduates are prepared for employment opportunities in public policy, law enforcement and corrections, law firms and social service agencies. Advanced degrees or certifications may be required for academic or clinical positions.

Legal Systems and Governance Certificate (LALSGCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The legal systems and governance certificate program offers a structured pathway for you to explore legal systems and institutions while securing life-transforming internships in the fields of law, government relations and public policy. Drawing on expertise and networks within the School of Politics and Global Studies and across ASU, the program equips you with practical skills applicable to careers in public, private, nongovernmental and nonprofit entities. You gain experience analyzing the legal dynamics of political events and public policy.

This 15 credit-hour certificate program focuses on four areas: foundations of legal systems; institutions that structure, revise and enforce the law; principles and ethics that guide the development and revision of laws and regulations; and the applications and impacts of law and legal institutions on civil society. The interdisciplinary program combines high-impact experiential learning, classroom and internship opportunities that draw from local embeddedness in the Phoenix area; Washington, D.C. network; and global reach.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires a total of 15 credit hours, of which at least 12 credit hours must be completed at the upper-division level. Six credit hours must be from courses offered by The College of Liberal Arts and Sciences. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.		
Foundations of Law Course		
AIS 280 American Indian Sovereignty and the Courts (CIVI)		
AIS 285 Federal Indian Policy (CIVI)		
CRJ 260 Criminal Law I: Introduction to Substantive Criminal Law		
LES 210 Introduction to American Legal System and Business Law	C	3
PHI 103 Principles of Sound Reasoning (QTRS)		
POS 110 American Government and Politics (AMIT)		
POS 150 Comparative Government (GCSI)		
POS 216 State and Local Government (CIVI)		
Upper Division Institutions Courses	C	6
CRJ 460 Criminal Law II: Advanced Substantive Criminal Law		
POS 315 The Supreme Court		
POS 325 Public Policy Development (CIVI)		

Requirement	Minimum Grade	Credit Hours
POS 465 International Organization and Law (GCSI)		
POS 471 Constitutional Law I (AMIT)		
POS 472 Constitutional Law II		
Upper Division Principles Course		
LES 305 Business Law and Ethics for Managers		
PHI 307 Philosophy of Law (AMIT)		
PHI 347 Philosophical Theories of Constitutional Law (CIVI)

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates are able to analyze legal systems related to governance, policymaking, business and nonprofit organizations. The certificate program provides a valuable overview of legal systems and development of analytic and writing skills that are required for advanced legal training and careers in:

- arbitration
- corporate law
- employment law and human resources
- environmental law
- immigration and asylum
- intellectual property and trademarks
- legislative research and policymaking
- lobbying
- public advocacy
- sports law
- trial law

Graduates are able to demonstrate their knowledge of legal systems and applied analytic and writing skills in their applications to top-tier law schools, and graduate and professional schools in public policy, diplomacy and leadership. The certificate program also provides an excellent foundation for those seeking graduate opportunities in STEM or other fields that intersect with public policy or regulation.

Lesbian, Gay, Bisexual and Transgender Studies Certificate (PPLGBTCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The certificate program in lesbian, gay, bisexual and transgender studies offers you a multifaceted understanding of society.

Lesbians, gay men, bisexuals and transgender people play important roles as colleagues, clients, parents, children, siblings, neighbors, employees, employers, religious leaders and friends. Given the increasing visibility of and changing political climate for LGBTQ+ people in the United States, you are served well by learning about contemporary social issues regarding people from LGBTQ+ backgrounds and about their histories and communities, even if you do not identify as gay, lesbian, bisexual or transgender.

Your educational experience is enhanced when you are introduced to complex intersections between and among sexual, racial, ethnic, religious, geographic and national identities. This program's philosophy is to promote intellectual and pedagogical diversity as one of the university's greatest assets, and this is done in part by instilling in you a sensitivity to cultures different from your own and through careful analysis of the self in historical, artistic and sociocultural contexts.

The goals of the program are to give you knowledge about the history of, evolution of and current issues facing the LGBTQ+ community; practical experience using coursework knowledge in the community through an internship or community service project; and theoretical perspectives on heterosexuality as a presumptive sexual identity. You gain an understanding of lesbian, gay, bisexual and transgender studies as an academic area of inquiry and an understanding of community politics, dynamics and conflicts, and you engage in a use-inspired education that culminates in a public presentation.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in lesbian, gay, bisexual and transgender studies requires 15 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.		
SST 213 Introduction to LGBTQ+ History and Culture **or** WST 213 Introduction to LGBTQ+ History and Culture **or** SWU 180 Introduction to LGBTQ+ Studies (CIVI)	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the awarding of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Demonstrate knowledge about lesbian, gay, bisexual and transgender communities.
Apply knowledge about LGBT communities through directed research, an internship or community-based project under the supervision of an ASU faculty member.

Career opportunities

Graduates who have combined the certificate in lesbian, gay, bisexual and transgender studies with their major program of study may become more marketable to employers. They often decide to pursue employment in law, education, public service, and human welfare and social work. Advanced degrees or certifications may be required for academic or clinical positions.

Maritime Logistics Certificate (BALGMACERT)

College/School: W. P. Carey School of Business

Campus: Online

Description: Designed through a partnership between ASU and the U.S. Naval Community College, the certificate program in maritime logistics allows enlisted personnel (Navy, Marines and Coast Guard) access to ASU's robust learning technology, student support and quality curriculum, designed by ASU experts and military personnel.

In the program, you examine the theories, concepts and components of logistics, with particular attention to serving and supporting maritime and military logistics operations. In addition, you gain an understanding of logistics and supply chain management, financial management and accounting. You also obtain the analytics skills necessary to be successful in maritime and military logistics, as well as supply chain management and logistics understanding required by private industry.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in maritime logistics requires 21 credit hours. Students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or higher.		
Required Courses		
CIS 105 Computer Applications and Information Technology (QTRS)	C	3
ECN 211 Macroeconomic Principles (SOBE)	C	3
ECN 212 Microeconomic Principles (SOBE)	C	3
ECN 221 Business Statistics (QTRS)	C	3
SCM 200 Society, Supply Chains and You (SUST)	C	3
SCM 245 Logistics for the Maritime Environment	C	3
SCM 279 Maritime Logistics Application Capstone Completion of SCM 245 with a grade of C or better is required for SCM 279.	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Completion of MAT 117 (or equivalent) with a grade of C or better is required for ECN 211, ECN 212, ECN 221.

Enrollment requirements

Students must be accepted to the U.S. Naval Community College to be admitted to this program.

Career opportunities

Graduates are prepared to advance in careers in military service and to pursue further undergraduate study. They are well-prepared for positions in the fields of transportation, distribution and warehousing, and purchasing across all sectors --- private, nonprofit, government and military.

Mathematical Concepts of Engineering Certificate (LAMACECERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: If you seek a strong foundation in mathematics to support your interests in engineering, the certificate program in mathematical concepts of engineering is for you. Combining a core foundation in the quantitative and analytical skills found in mathematics with related skills in engineering, the program provides you with a solid mathematical background well-suited for multiple career paths.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in mathematical concepts of engineering requires 21 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
MAT 266 Calculus for Engineers II (MATH) **or** MAT 271 Calculus with Analytic Geometry II (MATH)	C	3 - 4
MAT 267 Calculus for Engineers III (MATH) **or** MAT 272 Calculus with Analytic Geometry III (MATH)	C	3 - 4

Requirement	Minimum Grade	Credit Hours
MAT 275 Modern Differential Equations (MATH) **or** MAT 274 Elementary Differential Equations (MATH)	C	3
IEE 380 Probability and Statistics for Engineering Problem Solving (QTRS)	C	3
MAT 343 Applied Linear Algebra **or** MAT 342 Linear Algebra MAT 343 and STP 420 must be completed with courses offered by the School of Mathematical and Statistical Sciences.	C	3
STP 420 Introductory Applied Statistics (QTRS)	C	3
Upper Division Mathematical Concepts of Engineering Elective DAT 301 Exploring Data in R and Python IEE 381 Lean Six Sigma Methodology IEE 385 Engineering Statistics: Probability IEE 470 Stochastic Operations Research	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

ASU degree-seeking students
Students must have completed MAT 265 or MAT 270 with a "C" or higher before enrolling in the certificate program. Students also must be in good academic standing, with a minimum cumulative grade point average of 2.00.

Nondegree-seeking students
Applicants with or without a bachelor's degree are eligible to apply for, and receive, this certificate through the Pathways for the Future program (https://pff.asu.edu/). Applicants must have completed MAT 265 Calculus for Engineers I or MAT 270 Calculus with Analytic Geometry I with a "C" grade or higher (scale is 4.00 = "A"). Applicants who have taken these courses at another institution should use the Transfer Guide course search (https://transferguide.apps.asu.edu/app/home) to determine whether a transfer course can be used as a prerequisite. Applicants who already hold a bachelor's degree should apply to ASU and this certificate program as a nondegree-seeking graduate student.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/mathematical-concepts-engineering-undergraduate-certificate/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Implement simulation algorithms in differential equations and linear algebra with engineering and physics applications.
- Develop teamwork and communication skills, which they will apply to real world problems involving concepts from probability and statistics.

Career opportunities

The certificate program in mathematical concepts of engineering complements many major programs of study. Graduates with this enhanced math background can become more marketable to employers.

Media Arts and Sciences Certificate (HIDGCCERT)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe

Description: In the media arts and sciences certificate program, you focus on the creative exploration of how new media is influencing culture --- or, rather, the way people live, learn, create and communicate.

When you pursue this certificate, you enhance your program of study with integrated, transdisciplinary training in creative processes and technical skills in new media with cultural applications.

The GAME School prepares the next generation of learners, empowering you with technofluency --- its development, application and implications. You are prepared to be a socially aware, critically thinking global citizen who strives to bring about positive change in a society that's increasingly shaped by new technologies.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in media arts and sciences consists of 18 credit hours of coursework, including 12 upper-division credit hours. A minimum grade of "C" (2.00) is required in all courses for the certificate.		
AME 111 Introduction to Digital Culture (HUAD)	C	3
AME 112 Computational Thinking for Media Arts **or** AME 230 Programming for the Media Arts	C	3
Upper Division **AME Elective** **or** Upper Division **MDC Elective**	C	12

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates with an undergraduate certificate can advance their career options. The certificate in media arts and sciences helps them become more marketable to employers through this specialization that complements their major program of study. Graduates go on to work in a variety of fields, including mobile app design, audio production and autonomous systems.

Mild/Moderate Special Education Certificate (TEMSPECERT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, ASU Sync

Description: The certificate program in mild/moderate special education prepares you to make connections and provide equitable learning environments to meet the diverse learning needs of students in kindergarten through grade 12.

This certificate may be added only to certain programs at Mary Lou Fulton College for Teaching and Learning Innovation. You're eligible for dual-teaching certification after completing this certificate program and one of the following Bachelor of Arts in Education programs:

- BAE in early childhood education
- BAE in elementary education
- BAE in elementary multilingual education
- BAE in secondary education

You learn how to work and partner with communities and schools to co-construct and negotiate roles and responsibilities in order to deliver effective special education programming. Coursework is grounded in data; theoretical foundations; federal, state and local policies; and a sense of responsibility to student and community needs.

When you add this certificate to a bachelor's degree program listed above, you're eligible to earn an institutional recommendation from ASU for Arizona teacher certification in Mild/Moderate Disabilities, K-12, from the Arizona Department of Education. To teach in an Arizona public school, you must pass the appropriate Arizona educator exams: National Evaluation Series or Arizona Educator Proficiency Assessments.

Format option
This program is also offered via ASU Sync (https://provost.asu.edu/sync/students). ASU Sync students attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. ASU Sync students must reside in Arizona throughout the duration of the program. If you have F-1 or J-1 immigration status, you should speak with an advisor about other options to complete this program. Students with F-1 or J-1 immigration status are not permitted to complete courses via Sync.

If you seek to use GI Bill® benefits for ASU Sync programs, contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill).

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires 19 credit hours.		
Required Courses		
RDG 413 Elementary Methods for Literacy Instruction and Assessment	C	4

Requirement	Minimum Grade	Credit Hours
SPE 321 Classroom and SPE Assessment	C	3
SPE 323 Effective Practices and Behavior Interventions: Supports for Exceptional Students	C	3
SPE 411 Special Education History and Law	C	3
SPE 423 Evidence-Based Practices for Students with Exceptional Needs	C	3
TEL 331 Foundations of Literacy: The Science of Reading	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate program is open only to students majoring in early childhood education, elementary education, elementary multilingual education and secondary education undergraduate teacher preparation programs in MLFC.

Students are required to have a valid Arizona DPS Identity Verified Prints fingerprint clearance card.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student but may not be eligible for an institutional recommendation for Arizona teaching licensure without additional preparation beyond the certificate.

Career opportunities

Graduates are highly sought-after teachers in public, charter and private education institutions. Graduates with degrees in special education may also pursue roles such as education resource specialist, interventionist or curriculum developer.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.In addition to completing this certificate and a teacher certification program major, students are required to earn a passing score on the professional knowledge portion of the AEPA/NES exam and a passing score on the subject knowledge portion of the AEPA/NES exam in each area an Arizona teaching credential is sought. Subject knowledge exam waiver may apply. Students should contact MLFC for more information.

Military Studies Certificate (LSMILSCERT)

College/School: College of Integrative Sciences and Arts

Campus: Online

Description: The military studies certificate program is designed in partnership with the U.S. Naval Community College to provide enlisted personnel, veterans and nonmilitary students with an interdisciplinary focus on national security, history and political science. Coursework includes global perspectives on war and conflict; an understanding of contemporary U.S. foreign policy; and regional focus of your choice on history, religion and politics.

The program includes capstone research or an applied project in which you explore the role of the U.S. military in advancing the goals of the nation in the past, present or future.

Curriculum

Requirement	Minimum Grade	Credit Hours
Required Courses		
HST 101 Global History Since 1500 (HUAD)	C	3
MVS 100 Introduction to Military Studies	C	3
IDS 350 Military Studies Interdisciplinary Capstone	C	3
POS 361 American Foreign Policy (SOBE)	C	3
Military Studies Electives		
Upper Division Military Studies Electives	C	6
HST 303 Topic: China,Japan & East Asia in World History		
HST 304 Topic: Stalin to Putin		

Requirement	Minimum Grade	Credit Hours
HST 372 Modern Middle East (GCSI)		
MVS 300 Fighting for American Ideals		
MVS 301 Experience of America's Modern Wars		
POS 300 Contemporary Global Controversies (GCSI)		
POS 364 National Security, Intelligence, and Terrorism (SOBE)		
POS 368 Ethics and Human Rights (GCSI)		
POS 465 International Organization and Law (GCSI)		
REL 366 Islam in the Modern World (GCSI)		
REL 379 Religion, Nationalism, and Ethnic Conflict (GCSI)		
SGS 303 Global Trends (GCSI)		
SGS 370 Geopolitics (GCSI)		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

ENG 101, 105 or 107 is a prerequisite requirement to enroll in IDS 350, as well as some elective options.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Create interdisciplinary arguments about military culture, veteran identity, and civil-military relations.
- Design a feasible research project related to military and veteran studies by asking appropriate questions and identifying usable sources.
- Evaluate primary and secondary sources for credibility and relevance.

Career opportunities

Graduates of this program are prepared to further advance in careers in military service or in undergraduate study.

Military and Veterans Studies Certificate (LAVSSCERT)

College/School: College of Integrative Sciences and Arts

Campus: Tempe, Online

This program's name has changed effective Fall 2026. The previous name was Veterans, Society and Service.

Description: Through the certificate program in military and veterans studies, you explore the history, representations, experiences and culture of military service and veterans.

You study the veteran community with an interdisciplinary approach that combines history, politics, business, journalism, psychology, law, sociology and the arts through the intersectional lenses of gender, race, ethnicity and national identity. This program trains you to listen to, learn from, serve, research and advocate for veterans and their families.

Future professionals and current employees at government agencies, health provider organizations, nonprofit organizations and media industries can benefit from this multifaceted certificate program.

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires 18 credit hours, of which 12 credit hours must be completed at the upper-division level, and nine credit hours must be completed at ASU. All courses must be completed with a grade of "C" (2.00 on a 4.00 scale) or higher.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/certificates/veteran-service/) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Assess the military-civilian divide using their knowledge of military culture and history.
Develop an evidence based argument using military and veterans' studies resources.

Career opportunities

Students can advance their career options with an undergraduate certificate.

Graduates who have combined the certificate in military and veterans studies with their major program of study may become more marketable to employers.

Graduates often pursue employment as health care social workers, social and community service managers, or community health workers. Advanced degrees or certifications may be required for academic or clinical positions.

Modern Hebrew Certificate (LAHEBCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The certificate program in modern Hebrew provides you with a firm foundation in the modern Hebrew language and a broad knowledge of Israeli culture, leading to advanced skills in reading, writing and conversing in the language. The program includes the study of literature, politics and history, enriching your knowledge of the Middle East and offering you deeper understanding of current affairs.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in modern Hebrew requires 18 credit hours, of which 12 credit hours must be upper-division. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
Language Requirement	C	6
HEB 101 Elementary Modern Hebrew I and Israeli Culture (GCSI)		
HEB 102 Elementary Modern Hebrew II and Israeli Culture (GCSI)		

Requirement	Minimum Grade	Credit Hours
HEB 201 Intermediate Modern Hebrew and Israeli Culture I		
HEB 202 Intermediate Modern Hebrew and Israeli Culture II		
HEB 313 Advanced Modern Hebrew I		
HEB 314 Advanced Modern Hebrew II		
Upper Division Hebrew Electives		
HEB 333 Biblical Hebrew Literature I **or** HEB 334 Biblical Hebrew Literature II		
HEB 347 / JST 347 / SLC 347 / ENG 347 Modern Israeli Literature in Translation (HUAD)		
HEB 348 / JST 348 / SLC 348 Israeli Society and Culture (HUAD)	C	12
HEB 349 Israeli Wars in Israeli Movies (HUAD)		
HST 372 Modern Middle East (GCSI)		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

ASU students admitted to a degree program in any field of study are eligible to enroll in the modern Hebrew certificate program.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Examine the current political affairs of Israel through writing assignments.
- Discuss Israeli culture and history through review of films.
- Communicate orally and in writing in Modern Hebrew at the intermediate level.

Career opportunities

Graduates who have combined the certificate in modern Hebrew with their major program of study may become more marketable to employers. They often pursue employment in political analysis, tourism and hospitality, foreign policy, international business, media, translation, education or marketing.

Music Entrepreneurship Certificate (HIMERTCERT)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe

Description: Music entrepreneurship is a discipline that intersects the traditional music disciplines. It harnesses the skills and mindset of the entrepreneur to empower you to create work that is meaningful, sustainable and oriented to community and market need.

If you are in a music degree program or have a background in music, you benefit from the business, marketing and organizational skills you develop through the certificate courses, as applied specifically to and within the arts.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in music entrepreneurship consists of 15 credit hours, of which 12 credit hours must be upper division. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.		
MUP 438 The Enterprising Artist	C	3
MUP 484 Internship **or** MSC 484 Internship	C	3

Requirement	Minimum Grade	Credit Hours

MUP 439 Performing Arts Product Creation and Development		
PAF 410 Building Leadership Skills (SOBE)		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

The certificate in music entrepreneurship is meant to supplement study for music majors and nonmajors in any discipline who have a music background. Students may be admitted to the certificate program by submitting a statement of interest outlining their music background and personal goals through the School of Music, Dance and Theatre application. For further application details, students should visit the program website (https://musicdancetheatre.asu.edu/undergraduate-certificates/majorinfo/HIMERTCERT/undergrad/true/20).

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Apply key concepts of entrepreneurship to critical evaluation of music career paths.
Synthesize knowledge of music entrepreneurship within the Phoenix area and surrounding communities through music entrepreneurship fieldwork.

Career opportunities

Graduates who have combined the certificate in music entrepreneurship with their major program of study may become more marketable to employers. They often pursue employment in industries such as arts entertainment, music business, arts administration and performance. Career examples include arts administrator, business owner, community arts advocate, performing musician, and public or community school teacher.

Nonprofit Professional Certificate (PPNPYCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: In the nonprofit professional certificate program, you prepare for leadership and management roles in the nonprofit sector while earning eligibility for the Certified Nonprofit Professional credential. The CNP is awarded through the Nonprofit Leadership Alliance, a national consortium that develops leaders for careers in community and social organizations. https://nla1.org/ (https://nla1.org/)

The curriculum follows a competency-based, experiential model that integrates coursework in fundraising, volunteer management and organizational leadership with applied field experience. You build skills in program planning, resource management and team leadership while connecting classroom learning to community-based practice.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 17 credits hours of graded coursework, of which 14 are upper division. A grade of "C" (2.00 on a 4.00 scale) or better is required for all courses in the certificate.		
NLM 220 Introduction to Nonprofit Organizations	C	3
NLM 320 Professional Development Seminar NLM 320 is taken twice, over two semesters, for a total of four credits.	C	4
NLM 420 Nonprofit Leadership Alliance Institute NLM 420 is offered fall semester only.	C	3
NLM 440 Nonprofit Professional Certification	C	1
Upper Division **NLM Elective**	C	6

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

The program includes active participation by nonprofit professionals who offer workshops, seminars, mentoring and field trips. The certified nonprofit professional credential can be earned in conjunction with any bachelor's degree and requires successful participation in co-curricular, experiential activities in addition to required academic coursework.

A minimum ASU GPA of 2.00 is required for those pursuing the certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before to the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Utilize self-evaluation and self-critique when proposing creative solutions to complex social issues.
- Prescribe their individual strengths and knowledge effectively within the social sector and related fields by creating well-structured career position plans.

Career opportunities

Graduates have expanded career opportunities across the nonprofit and community sectors. They are well prepared to apply their leadership and management skills to advance the missions of organizations focused on areas such as arts and culture, environmental sustainability, health and human services, and youth development.

Nuclear Engineering Certificate (ESNUENCERT)

College/School: Ira A. Fulton Schools of Engineering

Campus: Tempe

Description: With data centers projected to consume 11-12% of U.S. electricity by 2030, nuclear power offers a stable, carbon-neutral alternative. ASU's undergraduate certificate program in nuclear engineering equips you to meet rising global energy demands through sustainable solutions like small modular reactors. You gain foundational knowledge to support advanced nuclear systems, including Arizona's expanding infrastructure. The program addresses a national workforce gap, preparing you for high-paying roles in a resurging industry.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

Curriculum

Requirement	Minimum Grade	Credit Hours
Students must complete 18 credit hours, including three credit hours of physics coursework and 15 additional credit hours of nuclear energy-related coursework. The required courses include a mentored capstone experience focused on nuclear power. A grade of "C" or better is required in all certificate courses.		
PHY 241 University Physics III **or** PHY 252 Physics III (SCIT)	C	3
EEE 460 Nuclear Power Engineering	C	3
EEE 462 Nuclear Proliferation, Security and Safeguards	C	3
EEE 463 Electrical Power Plants	C	3
EEE 488 Senior Design Laboratory I	C	3
EEE 489 Senior Design Laboratory II	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Students should meet the higher admission requirements listed for the BSE in electrical engineering (https://degrees.apps.asu.edu/bachelors/major/ASU00/ESEEEBSE/electrical-engineering).

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates are prepared for careers in nuclear energy. Opportunities span engineering disciplines --- including electrical, mechanical and chemical --- and include positions in reactor design, safety analysis and energy policy. With nuclear power's resurgence and demand for clean energy, students can pursue high-paying roles in government, industry and research. The certificate also supports careers in data center energy management, where small modular reactors offer sustainable solutions to large energy needs.

Nutrition Education and Counseling Certificate (ECNTRECERT)

College/School: College of Health Solutions

Campus: Downtown Phoenix

Description: If you are pursuing a health-related degree outside of nutrition, the certificate program in nutrition education and counseling is designed for you. Through core topics in human nutrition, therapeutic diets, public policy and community nutrition interventions, you are equipped with the essential knowledge and skills needed for roles in nutrition and public health settings. You gain a solid foundation in understanding macronutrients and micronutrients, nutrition planning for conditions like diabetes and cardiovascular disease, and nutrition education for vulnerable populations. Additionally, you learn about nutritional needs throughout the life cycle and develop interpersonal and counseling skills to work with clinical and community populations.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires a total of 18 credit hours, of which 12 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.		
NTR 100 Introduction to Nutrition Science **or** NTR 241 Human Nutrition	C	3
NTR 290 Introduction to Evidence-Based Research in Nutrition	C	3
NTR 341 Medical Nutrition Therapy I	C	3
NTR 350 Nutrition Counseling	C	3
NTR 448 Community Nutrition	C	3
NTR 450 Nutrition in the Life Cycle (SOBE)	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

GPA Requirement: 2.00

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Analyze nutrition research, theories and concepts throughout the life cycle using evidence-based guidelines and practices.
- Apply nutrition counseling concepts to community health populations to provide an appropriate level of nutrition education and public resources available in the community.

Career opportunities

Graduates become more marketable and advance their career options with an undergraduate certificate. The certificate in nutrition education and counseling can complement a variety of major programs within the health field to help students gain entry-level positions such as:

- classroom assistant
- community health worker
- nutrition associate
- nutrition specialist

Graduates may find work in programs such as the Special Supplemental Nutrition Program for Women, Infants, and Children, or within the Head Start division of the U.S. Department of Health and Human Services.

Oral History and Storytelling Certificate (ASOHCCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: Through the oral history and storytelling certificate program, you gain an understanding of and appreciation for diverse cultures, past and present. You also engage in oral history research and interviewing, either building on existing projects or developing new community relationships at local, national and international levels.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in oral history and storytelling consists of 15 upper-division credit hours. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
HRC 310 Social and Cultural Analysis: Method and Theory (SOBE)	C	3
HRC 480 Capstone: Practices and Approaches	C	3
Upper Division Oral History and Storytelling Electives	C	9
COM 335 / IAP 335 Acting for the Camera		

Requirement	Minimum Grade	Credit Hours
COM 339 / ENG 339 / IAP 339 Creating Dramatic Works: Page to Stage to Screen		
COM 342 Oral History and Storytelling (HUAD)		
COM 394 Topic: Storytelling in the Professions		
ENG 317 Cross-Cultural Writing (HUAD)		
ENG 361 Scriptwriting		
ENG 394 Topic: Cross-Cultural Narratives		
ENG 394 Topic: Oral History & Storytelling in Humanities & Arts		
ENG 476 Topic: Folklore & Oral Traditions		
ENG 476 Topic: Folklore in Everyday Life		
ENG 484 / ETH 484 Topic: Pen Project Prison Teaching		
ETH 473 / WST 473 Indigenous and Latina/Chicana Representation		
HST 419 / LAS 419 20th Century Chicano/a History (HUAD)		
IAP 364 Documentaries		
WST 370 Chronicling Women's Lives		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate is open to students in any major. Students who wish to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

With the knowledge and skills to abide by the professional standards involved in oral history documentation, research and presentation, students leave the program better prepared for graduate programs or careers that integrate oral history. The certificate program in oral history and storytelling prepares graduates for careers such as ethnographer, culture and history director, videographer, editor, copy writer or journalist.

Organizational Leadership Certificate (LSORGLCERT)

College/School: College of Integrative Sciences and Arts

Campus: Online

Description: In the certificate program in organizational leadership, you develop the skills leaders need to solve problems, communicate effectively, assess programs, manage resources and evaluate emerging technologies.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in organizational leadership requires 21 hours, of which 12 must be upper division. A minimum grade of "C" is required in each course.		
Required Courses		
OGL 200 Introduction to Organizational Leadership (CIVI)	C	3
OGL 220 Behavioral Dynamics in Organizations (SOBE)	C	3
OGL 260 Resource Allocation in Organizations (SUST)	C	3

Requirement	Minimum Grade	Credit Hours
OGL 300 Theory and Practice of Leadership	C	3
OGL 345 Organizational Ethics (HUAD)	C	3
OGL 355 Leading Organizational Innovation and Change	C	3
OGL 381 Organizational Leadership Capstone	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

ENG 102, 105 or 108 is a prerequisite requirement to enroll in OGL 381.

Enrollment requirements

Students must be accepted to the U.S. Naval Community College to add this program.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Integrate core organizational leadership concepts.
- Investigate ethical principles in leadership.
- Apply principles of team dynamics.

Career opportunities

Graduates have the skills and knowledge needed for leadership positions in a wide variety of areas, such as business, government, the military, health care administration, nonprofit agencies and the service industry. This knowledge is applicable to any work environment, regardless of assigned role.

Peace Corps Prep Certificate (LSPCPRCERT)

College/School: College of Integrative Sciences and Arts

Campus: Downtown Phoenix, Polytechnic, Tempe, West Valley

Description: The Peace Corps prep certificate program fosters intellectual curiosity while building the competitiveness of Peace Corps applicants.

Six sectors --- education, youth development, health, environment, community and economic development, and agriculture --- comprise the program, unified by the mandatory course OGL 358 Peace Corps Seminar. To enhance the three core competencies of sector-specific skills, intercultural competence and leadership, you are encouraged to participate in service learning, internship opportunities and study abroad experiences.

Curriculum

Requirement	Minimum Grade	Credit Hours
The Peace Corps prep certificate requires 21 credit hours as outlined. Students are able to double count credits from their current major, minor, general studies requirements, or other certificates where applicable. Students are encouraged to take courses that develop breadth within their sector rather than limiting their selection to courses in one particular subject area.		
Required Courses		
OGL 358 Peace Corps Seminar (GCSI)	C	3
Upper Division		
any 484 Internship course **or** OGL 484 Internship Students complete a three credit hour internship and can do so by taking any internship course so long as their internship relates to their chosen sector. Internship hours may be completed locally, out of state or through an international study abroad program. The internship must be completed in the same program sector as the affiliated program sector electives. Students from any major have permission to register for OGL 484 in order to complete an internship related to their sector. Students may also meet the internship requirement by completing an internship experience through a study abroad program.	C	3
Global Communities, Societies and Individuals (GCSI) courses		
Global Communities, Societies, and Individuals (GCSI)	C	6

Requirement	Minimum Grade	Credit Hours
Students complete two additional "GCSI" (Global Communities, Society and Individuals) courses, excluding OGL 358 and the nine credit hours of sector-related electives. Sector-related electives in excess of nine credit hours may count toward this GCSI requirement. Courses can be either lower or upper division.		
Program Sector Electives		
Upper Division Agriculture Sector		9
AGB 302 International Management and Agribusiness (GCSI)		
AGB 425 Food Supply Networks		
AGB 452 Global Food and Agricultural Trade		
ASB 300 Food and Culture (SOBE)		
or **Upper Division Community and Economic Development Sector**		
ABS 364 Urban Forestry		
BIO 324 Environmental Ethics (SUST)		
BIO 434 People and Nature: Ecosystem Services		
ECN 360 Economic Development (GCSI)		
GCU 364 Energy in the Global Arena		
SOS 327 Sustainable Food and Farms		
or **Upper Division Education Sector**		
AFR 350 Inequality and Diversity in Education (SOBE)		
ECD 321 Foundations in Language, Literacy and Culture in Early Childhood (SOBE)		
ECS 315 Classroom Organization and Child Guidance		
HCR 402 Advocacy for Health and Health Education		
SOC 421 Education and Society (SOBE)		
SPF 301 Culture and Schooling		
or **Upper Division Environment Sector**		
ASB 375 Humans and the Environment: What's the Connection?		
BIO 320 Fundamentals of Ecology		
BIO 322 Conservation of Biodiversity (SUST)		
GPH 314 Global Change		
SOS 326 Sustainable Ecosystems		
or **Upper Division Health Sector**		
ASB 301 Global History of Health (HUAD)		
ASB 305 Poverty and Global Health (CIVI)		
ASM 345 Disease and Human Evolution		
EXW 450 Social Drivers of Health (CIVI)		
HSC 310 Health Communication		
or **Upper Division Youth Development Sector**		
ASB 346 Marriage and Family Diversity (SOBE)		

Requirement	Minimum Grade	Credit Hours
NLM 300 Fund Raising and Resource Development		
NLM 310 Strategic Volunteer Engagement (CIVI)		
PRM 315 Creating Community Through Park and Recreation Systems		
SWU 456 Immigrants and Refugees (CIVI)		
Students select nine upper-division credit hours from one of the six program sectors of Agriculture, Community and Economic Development, Education, Environment, Health, or Youth Development. Students should see their academic advisor for a complete list of sector-specific courses.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Foreign language study to at least the 200-level is encouraged but not required. For Peace Corps placements in Spanish or French-speaking countries, foreign language proficiency at the 200-level is often required.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

Applicants should contact an advisor in the College of Integrative Sciences and Arts for more information.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Outline Peace Corps history, mission, and service.
Demonstrate intercultural competence through experiential learning and reflection.

Career opportunities

Students can advance their career options with an undergraduate certificate. Those who have complemented their major program of study with this specialization in Peace Corps prep may be more marketable to employers.

Graduates with this certificate often pursue employment in the foreign service, nongovernmental agencies, relief organizations, community-based organizations and government positions. Advanced degrees or certifications may be required for academic or clinical positions.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Personal Fitness Training Certificate (NHPFITCERT)

College/School: College of Health Solutions

Campus: Downtown Phoenix

Description: In the personal fitness training certificate program, you gain the foundational knowledge and skills to develop effective physical activity programs that help people improve their health.

You acquire a detailed understanding of human physiology and exercise program development. You receive a well-rounded personal fitness education through courses such as:

• cardiorespiratory and flexibility training
• exercise prescription for health and wellness
• resistance training and recovery techniques

This program does not prepare you to work with clients with special needs or existing health conditions.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in personal fitness training consists of 18 credit hours, of which 12 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.		
EXW 215 Resistance Training and Recovery Techniques	C	3
EXW 217 Cardiorespiratory and Flexibility Training	C	3
EXW 335 Physical Activity and Physiological Concepts	C	3
EXW 425 Exercise Prescription for Health and Wellness	C	3
HEP 466 Health Promotion Program Management **or** MED 450 Leadership and Professionalism **or** NTR 344 Nutrition Management and Leadership **or** NTR 360 Nutrition Entrepreneurship **or** SSP 320 Coaching Leadership, Performance Team and Facility Management	C	3
Upper Division Elective		
CHS 340 Health Behavior Theory EXW 302 Fundamentals of Wellness EXW 400 Stress Management for Wellness HSC 355 Eating for Lifelong Health (SOBE) NTR 345 Development of Healthy Cuisines	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

GPA Requirement: 2.00

Incompatible Majors: None

Other Enrollment Requirements: None

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Apply concepts of muscular and cardio-vascular physiological systems to make appropriate choices of movements for their clients.
- Teach exercises that promote better overall health for clients.
- Apply exercise science concepts to create safe and effective exercise training programs.

Career opportunities

Students can improve their career options with an undergraduate certificate.

Graduates are prepared to pursue personal trainer certification through most accredited associations. Their knowledge of health appraisals, healthy lifestyles, behavior change, the benefits of exercise, exercise techniques and exercise program design makes them excellent candidates for opportunities in the general health and fitness fields.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Philosophy, Politics and Economics Certificate (LAPHPECERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe, Online

Description: The philosophy, politics and economics certificate program provides you with a foundation in each of these three fields, as well as the opportunity to consider how to integrate the three disciplinary perspectives through the introductory and capstone courses.

The program offers core concepts, tools and content in the fundamental disciplines of ethics, politics and economics, providing you the means to address social and political challenges.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in philosophy, politics and economics requires 15 upper-division credit hours. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
CEL 350 Philosophy, Politics and Economics (SOBE) **or** PHI 350 Philosophy, Politics and Economics (SOBE)	C	3
CEL 351 Classical to Modern Economic Thought **or** ECN 304 Classical to Modern Economic Thought	C	3
Upper Division Philosophy Electives		
PHI 306 Applied Ethics (CIVI) PHI 307 Philosophy of Law (AMIT) PHI 325 Philosophy of Social Science PHI 336 Social and Political Philosophy (CIVI) PHI 337 Ethical Theory (HUAD) PHI 360 Business and Professional Ethics (HUAD)	C	3
Upper Division Political Science Electives		
POS 313 The Congress (AMIT) POS 315 The Supreme Court POS 340 History of Political Philosophy I POS 341 History of Political Philosophy II POS 346 Problems of Democracy (HUAD) POS 442 American Political Thought (HUAD) POS 443 Topics in Contemporary Political Theory POS 475 Morality and Politics	C	3
CEL 485 Capstone Seminar in Civic and Economic Thought and Leadership	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors) for program descriptions and to request more information.

Career opportunities

The certificate program emphasizes the transferability of the knowledge and skills gained in philosophy and economics to practical problems of political and societal governance.

The certificate prepares students for a variety of important career opportunities --- and, more generally, to be leading citizens and contributors across many sectors of life, public or private, political affairs or civil society. Graduates have successful careers in business administration, consulting, finance, government and political affairs, health care, industry, international affairs, international development, investment banking, journalism, law, management, marketing, public policy, the tech sector and various nonprofit organizations.

Philosophy, Rhetoric and Literature Certificate (ASPRLCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Description: The certificate program in philosophy, rhetoric and literature is an interdisciplinary humanities program that integrates continental philosophy, literature, art, communication and social critique.

You explore existential crises and the production of cultural values. You examine the anxieties and expectations surrounding cultural identity, including the expectation to adhere to gendered, racial, ethnic, social and religious norms. Special attention is given to the roles that art, literature, thought, intercultural interaction and communication play in repairing fractured histories and in the creation of better social worlds.

Enrollment requirements

This certificate is open to students in any major. Students who wish to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

This program prepares students for advanced study in the humanities, social and behavioral sciences, and the arts, as well as lifelong learning in a variety of fields.

Physical Artificial Intelligence Engineering in Robotics and Manufacturing Certificate (ESPAIECERT)

College/School: Ira A. Fulton Schools of Engineering

Campus: Polytechnic

Description: If you are drawn to the challenge of developing intelligent machines that move, sense and adapt like living systems, you may find the certificate program in physical artificial intelligence engineering in robotics and manufacturing an ideal opportunity. If you are interested in emerging technologies and the ways machines interact with the physical world, this program serves as a strong foundation for innovation in the manufacturing domain.

In this program, you examine the intersection of artificial intelligence and robotics and its potential to transform modern manufacturing. You gain hands-on experience with smart sensors, control systems and machine learning to power factory automation and intelligent robotic operations --- all while preparing for the future of advanced manufacturing and intelligent automation that's already prevalent on earth's factories, and perhaps someday in the future within outer space and on celestial bodies.

GI Bill® benefits
This new program isn't yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires 18 credit hours, of which 12 must be upper division.		
RAS 101 Foundations of Robotic Engineering I		3
MFG 101 Introduction to Manufacturing Engineering		2
MFG 190 Prototyping Lab		1
MFG 387 Industrial Automation	C	3
MFG 430 AI in Physical Systems	C	3
RAS 420 Machine Vision Fundamentals	C	3
RAS 475 Applied Machine Learning and AI for Robotics and Manufacturing	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates are at the center of one of the fastest-growing career frontiers, one that combine AI, robotics and manufacturing processes. The future of manufacturing is intelligent and hands-on, with smart factories, autonomous systems and AI-powered machines that can adapt, learn and collaborate. Graduates have the skills that industries are urgently seeking --- skills that open doors to careers in smart robotics, factory automation, AI integration, and advanced manufacturing process design.

Planetary Science Certificate (LAPLSCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the certificate program in planetary science, you examine the formation and evolution of planetary bodies and the remote sensing technologies used to study them. You receive specific training in the origins of planetary systems, tectonics, volcanism, geomorphology, and remote mapping of surficial geology, using data from spacecraft and land-based observations. You also develop an understanding of planetary atmospheres, astrobiology, geodynamics and cosmochemistry.

This interdisciplinary program prepares you for technical career paths and to pursue exciting opportunities at the frontier of planetary exploration.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in planetary science requires a minimum of 18 credit hours, of which at least 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.

SES 494 Topic: Planetary Interiors		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Certificate courses may have prerequisites, and the most common are listed below. Additional enrollment requirements may include completion of these courses or their equivalents with a "C" or higher:

- GLG 101: Introduction to Geology I (Physical) and GLG 103: Laboratory; or SES 121: Earth, Solar System and Universe, and SES 123: Laboratory
- a math course at the level of MAT 266: Calculus for Engineers II or higher
- a chemistry course at the level of CHM 113: General Chemistry I or higher
- a physics course at the level of PHY 121: University Physics I: Mechanics and PHY 122: Laboratory or higher

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Synthesize core concepts of Earth and planetary sciences to analyze and communicate the formation and evolution of planetary bodies in our Solar System and beyond.
- Design a research hypothesis by applying domain knowledge and prepare a report on their independent research testing their hypothesis.

Career opportunities

The employment prospects for graduates who complete the planetary science certificate are enhanced by the potential for opportunities at the intersection of these fields. Opportunities include these positions:

- community college or university educator teaching earth science or astronomy classes
- docent at a science museum or planetarium
- faculty member or researcher at a university, working on federally funded planetary science research, instruments or missions
- K-12 educator in a program with an earth science or astronomy curriculum
- researcher at an aerospace company contracted to build subsystems, instruments or missions for federally funded planetary science research

In Arizona, such opportunities are offered at institutions that include the public universities, Mesa Community College, the United States Geological Survey, Lowell Observatory and the Planetary Science Institute. Arizona companies that employ people in these fields include World View, Paragon, FreeFall Aerospace, General Dynamics, Qwaltec and KinetX. National companies include Lockheed Martin, Honeywell, Ball, SpaceX, Blue Origin, Virgin Galactic, Intuitive Machines, Firefly Aerospace, Northrop Grumman, Axiom, Planet Labs, Blue Canyon Technologies, Astrobotic and ispace.

Graduates may also find employment in federal labs or as congressional staff.

Political Economy Certificate (LAPLECERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the political economy certificate program, you gain the tools to analyze the complex relationship between politics and economics in the political economy certificate program. This program emphasizes the mastery of quantitative methods and concise, impactful writing. This distinct combination ensures that you develop skills to effectively interpret data and craft persuasive arguments for decision-makers. Through a multidisciplinary approach, you explore how governments, institutions and markets interact to shape policies. Analyzing fiscal policies, trade or global economic trends, you acquire practical skills to influence actual decisions. Ideal for if you are looking to participate in policy debates, this program equips you with the technical and communication skills necessary for success in the field.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in political economy requires 15 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Evaluate the powers of the Presidency.
Analyze a political economy topic using social science research methods.
Communicate using clear and concise language on topics related to political science and economics.

Career opportunities

In a world of interconnected public and private institutions and global markets, graduates of the political economy certificate program are well prepared for careers in a variety of international and domestic environments.

Graduates who have combined the certificate in political economy with their major program of study are more marketable to employers. They often pursue careers in government, public policy, lobbying, nonprofit agencies or international business.

Political Entrepreneurship through Internships: Local to Global Certificate (LAPEICERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the certificate program in political entrepreneurship through internships: local to global, you begin with foundational instruction on U.S. political institutions or global politics before taking advanced coursework that examines public policy, political leadership and political change. Through experiential learning, including internships, you apply these skills in practical settings, developing leadership and professional skills and gaining a deep understanding of related institutions. This program equips you to be an active, informed participant in the policy process. Whether you are interested in global, national, state or local issues, a variety of internship opportunities help you engage civically and influence policies at multiple levels of governance.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in political entrepreneurship through internships: local to global requires 15 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Political History and Leadership Certificate (LAPTLCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The certificate program in political history and leadership provides you with a strong foundation in the history of politics and political thought, with a special emphasis on the role of leadership and citizenship. You come to understand the complexities of real decision-making beyond the abstractions. The program prepares you for leadership in your career.

Required courses combine academic study and mentoring contact with political, media and business leaders from the wider Phoenix area and Arizona communities, while electives drawn from a variety of disciplines are used to broaden the scope of emphasis. Through courses and optional weekly dialogue series, you learn from guest speakers from a variety of career fields.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in political history and leadership requires 15 credit hours, of which at least 12 must be upper division. At least six upper-division hours must be completed in courses offered by The College of Liberal Arts and Sciences. Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Students will analyze ideas and questions raised by major political thinkers writing about democracy.
Students will analyze major themes and ideas found in an array of primary sources on a topic related to political leadership in history.
Students will demonstrate the practical skills necessary in policy-making, administration and organization, informed all the while by fundamental principles of democracy and republicanism.

Career opportunities

Graduates become more marketable to employers and advance their career options when they have complemented their major program of study with this specialization in political history and leadership.

Graduates with this certificate often pursue employment as military officers, governor's office staff, members of congress, city council officials, county prosecutors, financial advisors and campaign strategists. Advanced degrees or certifications may be required for academic, clinical or other positions.

Power and Society Certificate (ASPWSOCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: In the certificate program in power and society, you prepare to think critically and practically about the relationship between power and society.

Courses in the program use multiple perspectives to explore the sources, exercise and consequences of power across a variety of social and historical settings. A special focus on gender is available across the spectrum of courses listed.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in power and society consists of 15 credit hours of coursework, of which a minimum of 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate program is open to students in any major. Students who wish to pursue this certificate should consult an academic advisor in the School of Social and Behavioral Sciences to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates with academic or career interests in politics, government, economics, organizing and advocacy, public affairs, journalism, human rights, social justice, education and sustainability are well positioned to pursue careers in fields such as social work, public administration, public policy and criminal justice.

Pre-Health Certificate (NHPRHECERT)

College/School: College of Health Solutions

Campus: Online

Description: The postbaccalaureate certificate program in pre-health prepares you with the academic foundation and professional skills needed to pursue advanced study in health professions.

Through a flexible and customizable online format, you deepen your understanding of scientific concepts, critical thinking and ethical decision-making in health care. Coursework emphasizes biology, chemistry, physics, mathematics and health-related humanities and social sciences, allowing you to explore the complex interplay of science, culture and policy in health systems. The required core course introduces you to clinical health care environments and professional expectations, while supplemental offerings support career exploration and entrance exam readiness.

You also develop competencies in clinical reasoning, professional communication and reflective practice through interactive learning experiences and exposure to real-world case studies. Guided by expert faculty and pre-health advisors, you build the knowledge, confidence and clarity to take the next step toward a career in health care.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/.

Curriculum

Requirement	Minimum Grade	Credit Hours
The postbaccalaureate certificate in pre-health consists of 15 credit hours. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course and a certificate GPA of 3.00 or higher is required.

Students can select elective courses independently, or in consultation with a pre-health advisor, based on their professional goals and graduate school requirements.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Students must have completed a bachelor's degree in any field with a minimum GPA of 3.00 (scale is 4.00 = "A") in the last 60 credit hours. Individuals interested in this certificate must apply for university admission as a nondegree-seeking graduate student and submit a supplemental application (https://asuhealthpromotion.co1.qualtrics.com/jfe/form/SV_01HSDb67z6bKfYi) to the program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors) for program descriptions and to request more information.

Career opportunities

Graduates are well prepared to pursue postgraduate health degrees, studying medicine, dentistry, pharmacy, optometry or related health fields. Further study can result in a career as a:

- chiropractor
- dentist
- medical doctor
- naturopathic doctor
- optometrist
- pharmacist
- physician associate
- podiatrist

Professional Sales Certificate (BAPRSCERT)

College/School: W. P. Carey School of Business

Campus: Tempe

Description: If you are a nonmarking business student interested in pursuing the many opportunities in professional sales, this certificate program in professional sales was created for you.

With the inclusion of courses in professional sales as well as sales management, this program prepares you to be a successful account manager or sales team leader in business-to-business and business-to-consumer settings.

An optional internship in sales is strongly encouraged as part of the program.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in professional sales requires 15 credit hours with at least 12 upper division credits. To receive the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or better.		
MKT 300 Marketing and Business Performance **or** MKT 303 Honors Marketing Theory and Practice	C	3
MKT 370 Professional Sales and Relationship Management	C	3
MKT 410 Sales Management	C	3
Upper Division Professional Sales Certificate Electives		
MGT 430 Negotiations		
MKT 435 Entrepreneurial Marketing		
MKT 438 Advanced Sales		
MKT 441 Sports Revenue Generation	C	6
MKT 484 Internship		
(Maximum three credits of MKT 484 may be applied towards the certificate elective)		
MKT 493 Honors Thesis		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate program is open to current students in the W. P. Carey School of Business who are not in the marketing major.

A student who is pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates who have combined the certificate in professional sales with their major program of study may become more marketable to employers. They often decide to pursue employment in sales, marketing or procurement.

Advanced degrees or certifications may be required for academic or clinical positions.

Project Management Essentials Certificate (LSPMGECERT)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic, Tempe, Online

Students currently pursuing an ASU degree can use federal financial aid to fund the program. This program is not currently approved for use with federal financial aid for students not currently pursuing an ASU degree.

Description: In the stackable undergraduate certificate program in project management essentials, you develop the skills to lead successful projects. This program covers key areas of project management, including project leadership, strategy, sustainability and organizational behavior. If you are looking to enhance your project management expertise and drive positive change in any industry, the program is an ideal fit.

This program can be completed as a standalone certificate or alongside a degree program, or it can stack into a future bachelor's degree.

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires 18 credit hours.		
OGL 220 Behavioral Dynamics in Organizations (SOBE)	C	3
PMG 101 Navigating Project Management: Successes, Failures, and Leadership Dynamics	C	3
PMG 203 Project Management for People, Planet and Prosperity (SUST)	C	3
PMG 240 Introduction to Project Management	C	3
PMG 320 Project Approaches	C	3
PMG 321 Project Leadership, Strategy and Scope	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate is available to current ASU students and to students not currently enrolled at ASU in a degree program.

To pursue this certificate, non-ASU students must apply to the university and meet university admission requirements (https://admission.asu.edu/apply/student-type). Students not currently attending ASU who wish to pursue the certificate should contact an academic advisor in the College of Integrative Sciences and Arts at CISAadvising@asu.edu (mailto:CISAadvising@asu.edu) for admission procedures.

Current degree-seeking students can request to add the certificate via the Add a Certificate button.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors) for program descriptions and to request more information.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Produce project progression documents based on case study assignments.
Apply leadership theory to project situations presented in course materials.

Global opportunities

Global experience: Experience studying and interning abroad can be one of the most valuable tools for project management students. Studying in one of more than 300 available Global Education programs (https://goglobal.asu.edu/) provides students the opportunity to develop a valuable intercultural communication skill set that can give them an advantage in the workforce.

Career opportunities

This certificate opens doors to a wide variety of entry-level career opportunities. Graduates can pursue roles such as project coordinator, project assistant, junior project manager and project scheduler. These positions offer the chance to support senior project managers, manage project schedules, assist with administrative tasks, and help ensure the smooth execution of projects.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.The Project Management Institute has two options for certification:
• The Certified Associate Project Manager credential requires 23 hours of project management education and a secondary degree (high school diploma, associate degree or the global equivalent) for students to test.
• The Project Management Professional credential requires either a four-year degree and 36 months of experience leading projects within the last eight years or a secondary education diploma (high school diploma, associate degree or the global equivalent) with 60 months of experience leading projects within the past eight years. In addition, students must have 35 hours of project management training to sit for the PMP designation test.

Public Administration and Public Management Certificate (PPPAFCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: If you are interested in public service, the certificate program in public administration and public management is designed for you; whether you are an undergraduate student who is interested in developing leadership skills or want to enhance your degree in an existing major at ASU; you are a working adult who wants to further your education yet is not looking for a degree program; or you are a student of the Bachelor of Arts in interdisciplinary studies who seeks to combine certificates with your degree.

You learn skills that enable you to analyze critical issues, build and bridge communities, deliver and manage public programs, improve the quality of life, lead change in public policy, preserve natural resources, provide public safety, reform welfare and strengthen democratic governance.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in public administration and public management consists of 15 upper-division credit hours of coursework. Students complete nine credit hours of core classes and six credit hours of elective courses.		
PAF 300 Public Management and Administration	C	3
PAF 315 Cross-Sector Collaboration (CIVI)	C	3
PAF 460 Public Service Ethics	C	3
Upper Division **PAF Elective**	C	6

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Apply management principles within the context of public administration issues.
- Apply ethical reasoning to the context of public administration and policy issues.

Career opportunities

Graduates are prepared to pursue a career in a field related to public administration or public policy, particularly in the areas of participatory governance and public engagement. This may include opportunities as either a manager or policy analyst in local, state or federal agencies; in nonprofit organizations; and in private organizations whose work interfaces with the public sector.

Recreational Therapy Certificate (PPRECTCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Description: In the recreational therapy certificate program, you learn to design and lead recreation activities that improve health, well-being and quality of life. Coursework introduces assessment, program planning and evaluation, and you explore creative and active forms of therapy, such as adapted exercise, aquatic therapy and community recreation.

The certificate complements degrees in health, education and community service fields and can also serve as a step toward becoming a Certified Therapeutic Recreation Specialist through the National Council for Therapeutic Recreation Certification. https://nctrc.org/ctrs-the-qualified-provider/ (https://nctrc.org/ctrs-the-qualified-provider/)

Curriculum

Requirement	Minimum Grade	Credit Hours
The recreational therapy certificate requires completion of 18 credit hours: six credit hours of required courses, 12 credit hours of electives and a minimum of 12 hours upper division. Students seeking the national credential in therapeutic recreation should select electives from that list. A grade of "C" or better is required in all courses for the certificate.		
Required Courses		
RTH 364 Foundations in Recreational Therapy (SOBE)	C	3
RTH 413 Leadership and Professional Development in Recreational Therapy	C	3
Elective Courses		
Choose four courses from Blocks A and B if interested in the ASU certificate, but not seeking the National Council for Therapeutic Recreation (NCTRC) credential. Choose four courses from only Block B if interested in taking support courses for NCTRC credential.		

Requirement	Minimum Grade	Credit Hours
At least six hours must be upper division.		
Upper Division		
Certificate Electives	C	6

Upper Division Block A

Choose four courses from Block A and B if interested in only the ASU certificate. Please note that Block A courses do not meet NCTRC credential requirements.

CDE 418 Aging and the Life Course (GCSI)

CDE 430 Infant and Toddler Development in the Family (SOBE)

CDE 450 Childhood Disorders and Family Functioning

RTH 471 Interprofessional Education and Social Prescription

PRM 310 Strategic Volunteer Engagement (CIVI)

PSY 366 Psychological Disorders (SOBE)

Upper Division Block B

Students seeking the national credentialing through the National Council for Therapeutic Recreation (NCTRC) should select four courses from this list.

RTH 400 Intervention Techniques in Recreational Therapy

RTH 440 Advocacy in Therapeutic Recreation (GCSI)

RTH 453 Inclusive Community Sport

RTH 455 Play with Children, Youth and Families

RTH 460 Assessment and Documentation in Recreational Therapy

Certificate Electives	C	6

Block A

Choose four courses from Block A and B if interested in only the ASU certificate. Please note that Block A courses do not meet NCTRC credential requirements.

BIO 160 Introduction to Anatomy and Physiology (SCIT)

CDE 244 Children Facing Health Care Challenges

CDE 418 Aging and the Life Course (GCSI)

CDE 430 Infant and Toddler Development in the Family (SOBE)

CDE 450 Childhood Disorders and Family Functioning

CDE 232 Human Development (SOBE) **or** PSY 341 Developmental Psychology (SOBE)

RTH 471 Interprofessional Education and Social Prescription

DST 101 Introduction to Disability Studies (CIVI)

PRM 120 Leisure and Quality of Life (SOBE)

PRM 310 Strategic Volunteer Engagement (CIVI)

Requirement	Minimum Grade	Credit Hours
PSY 366 Psychological Disorders (SOBE)		

Block B

Students seeking the national credentialing through the National Council for Therapeutic Recreation (NCTRC) should select four courses from this list.

RTH 250 Therapeutic Recreation and Community Health (CIVI)

RTH 400 Intervention Techniques in Recreational Therapy

RTH 440 Advocacy in Therapeutic Recreation (GCSI)

RTH 453 Inclusive Community Sport

RTH 455 Play with Children, Youth and Families

RTH 460 Assessment and Documentation in Recreational Therapy

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

The recreational therapy certificate requires completion of 18 credit hours: six credit hours of required courses and 12 credit hours of electives. Students seeking the national credential in therapeutic recreation should select electives from Block B.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors) for program descriptions and to request more information.

Career opportunities

Recreational therapists practice in settings such as inpatient and outpatient physical rehabilitation, inpatient and outpatient mental health, and skilled nursing facilities. Assisted living and adult day programs, parks and recreation and adapted sports programs, acute care hospitals, pediatric hospitals and programs, and school systems also employ these professionals.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. Religion, Conflict and Peace Certificate (LARELCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The religion, conflict and peace certificate program has three core components: regional, political and cultural.

The regional component provides you with specific regional knowledge of how religion has been implicated in human conflict. Required coursework in at least two different regions fosters a comparative understanding of the dynamics of religion and conflict in historical and global contexts.

The political component explores how religion influences or is influenced by matters of state, law, government or other dimensions of political life.

The cultural component provides you with an understanding of how religion operates as a powerful force that impacts and intersects with expressions of human identity, thought and culture.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in Religion, Conflict and Peace requires a minimum of 18 credit hours. At least 12 credit hours must be completed in upper-division coursework. At least six upper-division hours in the certificate must be completed in courses offered by The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. A grade of "C" (2.00 on a 4.00 scale) or higher is required for each course used to fulfill a certificate requirement.		

Requirement	Minimum Grade	Credit Hours
Of the 18 credit hours for the certificate, at least six credit hours must be fulfilled with courses from the humanities and at least three credit hours from the social sciences.		
When choosing courses within the certificate, complete six credit hours from the following subject areas to fulfill the humanities requirement: ARB, CEL, CHI, FMS, GER, HEB, HST, IAS, JST, PAX, PHI, REL, or SLC.		
When choosing courses within the certificate, complete three credit hours from the following subject areas to fulfill the social sciences requirement: AFR, ASB, COM, GCU, JUS, NEW, POS, SGS, SOC, or WST.		
Regional Component	C	6

After completing the three component requirements, students select electives from any of the Component course lists, keeping in mind that at least 12 credit hours in the overall certificate must be upper division.

In some cases, the same course can be used to fulfill more than one Component requirement. If a course is used to meet more than one Component requirement, additional electives may be required to meet the 18 credit hours required for the certificate.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Not all courses in the course lists are available every term. Students should consult the class schedule prior to each term to confirm course availability.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates can become more marketable and advance their career options when they have an undergraduate certificate. The certificate in religion, conflict and peace complements their major program of study with specialized knowledge and enables them to demonstrate broad intellectual curiosity and skills.

Graduates who complete this certificate program often decide to pursue employment in journalism, law, policy work, diplomacy, the military, public advocacy, publishing, education, ministry and other fields in which an enhanced understanding of religion and conflict is increasingly vital. Advanced degrees or certifications may be required for academic or clinical positions.

Risk Communication Certificate (ASRCMCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: The rising importance of the field of risk communication stems from the need to name, understand and manage physical and social risks as society is faced with increasingly challenging decisions concerning stressed social and environmental infrastructures.

Your proficiency in risk communication requires understanding the complex interfaces of physical, biological, psychological and social systems. In response, the certificate program in risk communication trains you in risk communication by combining the strengths of the four schools within the New College of Interdisciplinary Arts and Sciences: the School of Social and Behavioral Sciences; the School of Mathematical and Natural Sciences; the School of Interdisciplinary Forensics; and the School of Humanities, Arts and Cultural Studies.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in risk communication consists of 15 credit hours of coursework, of which 12 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "C" (2.00 on a 4.00 scale) or better.		
COM 415 Risk Communication (SOBE)	C	3
ENV 201 Fundamentals of Environmental Science (SUST) **or** BIO 130 Introduction to Environmental Science (SCIT)	C	3 - 4

IAS 409 / PHI 409 Eco-Community Ethics		
LSC 362 The Human Environment		
PTX 301 Basics of Pharmacology and Toxicology		
PTX 430 Environmental and Human Toxicology		
SBS 494 / SIF 494 Topic: Humanitarian Forensics		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate is open to students in any major. Students who wish to pursue this certificate should consult an academic advisor in the School of Mathematical and Natural Sciences or the School of Social and Behavioral Sciences to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Evaluate a real-world risk assessment based on best practices from risk communication and assessment scholarship.
Construct a crisis communication plan that incorporates best practices from crisis communication scholarship.

Career opportunities

Graduates are prepared for a variety of careers in risk management, crisis communications and environmental public affairs. Specifically, graduates are suited to work as risk management specialists and environmental advocates, and they are prepared to translate complex scientific ideas and analyses into information that can be evaluated meaningfully by all members of society.

Graduates work in local government agencies and public relations organizations, and in law enforcement, advertising, marketing and insurance.

Risk Management Certificate (BARMGTCERT)

College/School: W. P. Carey School of Business

Campus: Polytechnic

Description: In the certificate program in risk management, you acquire a solid foundation in the theory and practice of modern risk management.

The concept of enterprise risk management is highlighted at the onset of the curriculum, emphasizing that risks and risk management strategies must be considered holistically at the firm level, not in isolation. Emphasis is placed on identifying, measuring, communicating and managing a variety of risks.

Upon completion of the program, you'll be able to identify and measure a variety of business and financial risks, and design and articulate strategies for managing and communicating those risks.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in risk management requires 18 credit hours with at least 12 upper division credits. To receive the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or better.		
BUS 434 Business Risk Management	C	3
BUS 436 Frontiers in Risk Management	C	3
FIN 300 Fundamentals of Finance **or** FIN 302 Managerial Finance **or** FIN 303 Honors Finance	C	3

FIN 421 Security Analysis and Portfolio Management		
FIN 427 Derivative Financial Securities		
IEE 454 Risk Management		
PMG 421 Project Risk Management		
SCM 314 Analytics for Logistics **or** SCM 315 Supply Chain Analytics		

Requirement	Minimum Grade	Credit Hours
TGM 460 Global Risk Assessment and Management		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

The certificate program in risk management is open to all students.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates can advance their career options with an undergraduate certificate in risk management, with competencies that complement the marketable knowledge and skills acquired in their majors.

Many graduates pursue roles in compliance and management. Advanced degrees or certifications may be required for academic or clinical positions.

Russian and East European Studies Certificate (LAREECERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The certificate program in Russian and East European studies encourages you to develop competency in Russian or another East European or Eurasian language as well as the culture and politics of the region.

Coursework leading to the certificate is offered by outstanding faculty members in diverse fields of study, including architecture, economics, film studies, geography, history, international business, literature, music, political science and religious studies.

A one-credit, student-led capstone course is completed in your junior or senior year; with the support of an advisor, you can write a research paper on the Russian and East European studies topic of your choice, prepare a writing sample or a graduate school application, or work on a creative project.

If you have a major in any school or department, you may pursue this certificate and develop a personalized plan of study in cooperation with an advisor at The Melikian Center: Russian, Eurasian and East European Studies.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in Russian and East European studies requires 19 credit hours, of which 13 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.

Arranged honors theses and upper-division colloquia with Melikian Center faculty affiliates may also be used toward this requirement.		
LIA 485 REES Certificate Capstone In their junior or senior year, students will complete the one-credit REES Certificate Capstone. This can be in the form of a reading course offered by the Melikian Center or a project chosen in cooperation with a Melikian Center faculty affiliate. The project should represent an extended, research-based focus on some dimension of the region's languages, cultures, religions, histories, and/or politics. It may take the form of an extended research paper, honors thesis, translation project, research assistantship or internship. Other courses may be used with the approval of the certificate advisor.	C	1

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Analyze or examine a current or historical issue in Russia, Eastern Europe or Eurasia; utilize and evaluate sources of information on the issue; and construct an argument or produce a creative project about the issue.
Demonstrate a high degree of competency, defined as the ability to use language in real world situations in a manner deemed appropriate by native speakers and instructors of the language, in a REES language.

Global opportunities

Global experience: The Critical Languages Institute (https://melikian.asu.edu/cli) at ASU's The Melikian Center is a national training institute for less commonly taught languages. It offers summer intensive courses and study abroad programs around the world. Languages taught include Albanian, Armenian, Bosnian/Serbian/Croatian, Kazakh, Macedonian, Persian/Farsi, Polish, Russian, Tatar, Turkish, Ukrainian and Uzbek.

Specially designed, synchronous online summer intensive programs prepare students --- even beginners --- to function competently in the language they are learning when they go abroad. Once overseas, students live the language as they participate in family life, join sports and gaming clubs, sing in choirs, participate in neighborhood projects, and otherwise actively immerse themselves in the culture.

Career opportunities

Students who complete this certificate program enhance their prospects for highly competitive study abroad scholarships, including Fulbright, Boren and Critical Language Scholarship Program, and for selective graduate programs. Certificate holders may also qualify for distinct internships and entry-level government employment opportunities at agencies such as the U.S. Department of State and the National Security Agency.

Sales and Marketing Essentials Certificate (BASMECERT)

College/School: W. P. Carey School of Business

Campus: Tempe

Description: Ideal if you are are an undergraduate nonbusiness major, the certificate program in sales and marketing essentials offers you a set of courses that cover indispensable marketing knowledge in a wide variety of marketing application domains.

You enroll in two fundamental courses in marketing and choose three additional courses from a larger set (services marketing, business marketing, global marketing, sports business and advertising) to tailor the certificate to your particular interests.

While some courses are offered in a face-to-face setting, the entire certificate is offered via iCourse for flexibility and convenience.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in sales and marketing essentials requires 15 credit hours with at least 12 upper division credits. To receive the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or better.		
MKT 390 Essentials of Marketing	C	3
MKT 391 Essentials of Selling	C	3
Upper Division Sales and Marketing Essentials Certificate Electives		
MKT 392 Essentials of Business Marketing		
MKT 395 Essentials of Advertising and Marketing Communication		
MKT 396 Essentials of Services Marketing	C	9
MKT 397 Essentials of Global Marketing		
MKT 398 Essentials of Sports Business		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

This certificate program is for nonbusiness majors only.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates who have combined the certificate in sales and marketing essentials with their major program of study may become more marketable to employers, and they often decide to pursue employment in sales or marketing.

Advanced degrees or certifications may be required for academic or clinical positions.

School Nutrition Certificate (ECNTRCERC)

College/School: College of Health Solutions

Campus: Downtown Phoenix

Description: The certificate program in school nutrition provides you with a strong foundation in topics such as:

• development of healthy cuisines
• eating for lifelong health
• food service purchasing
• nutrition management and leadership

If you are interested in qualifying to sit for the school nutrition specialist credential offered by the School Nutrition Association, this certificate program is designed for you.

This certificate program provides detailed information on the requirements to run a school food service operation and offers you insight into the rules and regulations of the National School Lunch Program. More information can be found on the SNA website at https://schoolnutrition.org/careers-training/certificate-credentialing/certificate-program (https://schoolnutrition.org/careers-training/certificate-credentialing/certificate-program/).

You must complete 900 working hours in a school nutrition or food service environment before you're eligible to sit for the national School Nutrition Specialist exam. More information on this credential can be found on the SNA website at https://schoolnutrition.org/careers-training/certificate-credentialing/credentialing/ (https://schoolnutrition.org/careers-training/certificate-credentialing/credentialing/).

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in school nutrition consists of 30 credit hours, of which at least 24 must be upper division. A minimum grade of "C" (2.00 on a 4.00 scale) is required for each course.		
ACC 382 Accounting and Financial Analysis	C	3
EXW 302 Fundamentals of Wellness **or** EXW 325 Fitness for Life **or** HEP 100 Introduction to Health and Wellness (SOBE)	C	3
HSC 355 Eating for Lifelong Health (SOBE) **or** NTR 450 Nutrition in the Life Cycle (SOBE)	C	3
NTR 142 Applied Food Principles	C	3
NTR 341 Medical Nutrition Therapy I **or** NTR 345 Development of Healthy Cuisines	C	3
NTR 343 Food Service Purchasing	C	3
NTR 344 Nutrition Management and Leadership	C	3
NTR 400 Preprofessional Preparation in Dietetics **or** NTR 402 Preprofessional Prep in Nutrition Careers	C	1
NTR 445 Management of Food Service Systems	C	4
NTR 448 Community Nutrition	C	3
NTR 498 Topic: Child Nutrition Seminar This course is only offered in spring terms.	C	1

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

GPA Requirement: 2.00

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Students will utilize the knowledge of nutrition, food science and communication skills to convey food and nutrition information.
- Students will apply food safety and sanitation protocols and practices to food service environments.
- Students will demonstrate application of principles of food management and systems in the provision of food and nutrition services to individuals and organizations.

Career opportunities

Graduates with an undergraduate certificate can enhance their career options. The certificate in school nutrition helps graduates gain entry-level school food service positions such as:

- child nutrition coordinator
- child nutrition manager
- food service manager
- food service worker
- school food menu planner

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Secondary Education Certificate (TESEDCERT)

College/School: Mary Lou Fulton College for Teaching & Learning In

Campus: Tempe, West Valley, ASU Sync

Description: The secondary education certificate program prepares you to teach students enrolled in grades 6-12. While you develop a strong content background through your major coursework, the secondary education certificate program focuses on gaining the requisite knowledge and abilities for successfully teaching middle or high school students. To integrate teacher preparation with the academic specialization, Mary Lou Fulton College for Teaching and Learning Innovation collaborates and communicates with academic

departments throughout the university. A series of internships followed by a semester-long, full-time student teaching experience are required components of this program.

If you complete this program, you are issued an institutional recommendation for a secondary certification in Arizona. If you desire to teach in a public school, you must also pass the Arizona Educator Professional Knowledge exam (either the National Evaluation Series or the Arizona Educator Proficiency Assessments) to be certified to teach in the state of Arizona.

The secondary education undergraduate certificate is also available if you've earned a bachelor's degree; this is considered a nondegree graduate pathway.

Format option
This program is also offered via ASU Sync (https://provost.asu.edu/sync/students). Through ASU Sync, you attend live classes remotely via Zoom. Classes are designed to foster active collaboration and discussion in real time with faculty and peers. As an ASU Sync student, you must reside in Arizona throughout the duration of the program. If you have F-1 or J-1 immigration status, you should speak with an advisor about other options to complete this program. Students with F-1 or J-1 immigration status are not permitted to complete courses via Sync.

If you're seeking to use GI Bill® benefits for ASU Sync programs, you should contact the Pat Tillman Veterans Center regarding certain limitations.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at www.benefits.va.gov/gibill (https://www.benefits.va.gov/gibill).

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires 32 credit hours.		
Required Courses		
SPE 222 Orientation to Education of Exceptional Children (CIVI)	C	3
TEL 310 Instructional Design and Planning: Instructional Thought and Action	C	4
TEL 317 Instructional Thought and Action: Learning Environment and Management	C	3
TEL 318 Instructional Thought and Action: Assessment for Learning	C	3

SED 494 Topic: Secondary English Language Art Method Comp & Ltrcy		
THE 480 Methods of Teaching Theatre		

Students will meet with an academic advisor to determine the best methods course for their subject area.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

BLE 220 Foundations of Structured English Immersion (three credit hours) is strongly encouraged for students seeking full certification from the Arizona Department of Education. This course meets the Structured English Immersion (SEI) requirement.

Enrollment requirements

Students interested in pursuing the secondary education certificate should be enrolled as a degree-seeking undergraduate student. Students who are enrolled in a secondary education degree program are not eligible to add the secondary education certificate. Undergraduate certificates are not awarded before the completion of an undergraduate degree. This program is also available to students who have already completed a bachelor's degree and want to be certified to teach. Students interested in this option apply to ASU as a nondegree-seeking graduate student.

Students interested in this program should either major in or have a degree from one of the following content knowledge areas:

• biology
• business
• chemistry
• Chinese (Mandarin)
• earth and space science
• economics
• English
• French
• general science
• geography
• German
• history
• mathematics
• physics
• political science
• Spanish
• theatre

Students demonstrate their knowledge by having a minimum of 24 credit hours in coursework for the major, or by having a passing score on the appropriate teacher certification exam (NES or AEPA) and enrollment in an eligible major where a minimum of 24 credit hours of subject area knowledge will be accrued.

Students are required to have a valid Arizona DPS Identity Verified Print fingerprint clearance card.

A GPA of 2.00 is required for progression to the final semester of student teaching. Students should contact the Mary Lou Fulton College for Teaching and Learning Innovation for more information.

Career opportunities

The secondary education certificate prepares students for the high-demand, secure field of education.

Graduates who have combined the certificate in secondary education with their major program of study may become more marketable to employers. They often pursue employment as middle school teachers, high school teachers or educators at community-serving organizations.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Security Studies Certificate (PPSCSCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: The security studies certificate program provides you with the skills and credentials necessary for expanding your employment opportunities in corporate and public security.

You learn about transdisciplinary topics such as accounting, computer studies, information systems and crime analysis through the curriculum; part of this curriculum consists of advanced crime and law courses.

Upon completion of this certificate, you are well-equipped to have fluid conversations with professionals from different backgrounds about security, whether corporate or private.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in security studies requires 18 credit hours, of which 12 are upper division. Students select two core courses, two IT electives and two additional electives from each course list.		
Upper Division Core Courses		
CRJ 412 International Terrorism		
CRJ 419 Domestic Terrorism		
CRJ 463 White Collar Crime	C	6
CRJ 464 Organized Crime		
JUS 467 Terrorism, War, and Justice (CIVI)		
POS 364 National Security, Intelligence, and Terrorism (SOBE)		
IT Electives		
ACO 131 Global Cybersecurity		
CIS 105 Computer Applications and Information Technology (QTRS)		
CPI 101 Introduction to Informatics (QTRS)	C	6
CSE 100 Principles of Programming with C++		
CSE 110 Principles of Programming		
IFT 202 Foundations of Information and Computer System Security		
Upper Division Other Electives		
ACC 382 Accounting and Financial Analysis		
FIS 431 Technology, Security and Insecurity in Global Politics		
PAF 426 Intelligence Analysis and Homeland Security		
PAF 461 Homeland Security	C	6
POS 466 Migration, Environment and Global Security		
POS 467 International Security (GCSI)		
SGS 466 Migration, Environment and Global Security		
STS 364 Science, Technology, and National Security		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Bachelor of Science in criminology and criminal justice majors who are also pursuing the security studies certificate may not use CRJ 412, CRJ 419, CRJ 463, and CRJ 464 towards both their degree and certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Apply knowledge from computer information systems and accounting to private sector security concerns.
Demonstrate competency in how the criminal justice system, including the police, courts, correctional agencies, and the private sector respond to crime and security issues, including domestic terrorist threats.

Career opportunities

Graduates of the security studies certificate program find a strong job market in the public and private sectors. Employment opportunities include supervisory and management positions in corporate and public security as well as in criminal justice agencies at federal, state and local levels.

Advanced degrees or certifications may be required for academic or clinical positions.

Small Business and Entrepreneurship Certificate (BASMBCERT)

College/School: W. P. Carey School of Business

Campus: Tempe

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Description: In the certificate program for small business and entrepreneurship, you learn how to launch your own business or work with small or startup operations. Course topics include small business, entrepreneurship and business plan development. Classroom work is complemented by frequent interaction with successful founders and leaders of entrepreneurial ventures.

Enrollment requirements

The certificate in small business and entrepreneurship is available only to business majors at ASU. Students majoring in business entrepreneurship or management with an entrepreneurship focus are not eligible to pursue this certificate.

No more than six credit hours may be shared between the certificate and other degree programs, minors or other certificates.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Students can advance their career options with an undergraduate certificate. The certificate in small business and entrepreneurship enables students to develop additional competencies that complement the marketable knowledge and skills they acquire in their majors.

Students who complete this undergraduate certificate often decide to pursue employment in management or sales. Advanced degrees or certifications may be required for academic or clinical positions.

Social Science Research Methods Certificate (LASSRMCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the certificate program in social science research methods, you are prepared to acquire, manage and analyze a wide variety of human thought and behavior data. Data can be qualitative (e.g., text, images, sound) or quantitative (e.g., direct observation, surveys, geographic information systems).

Data acquisition skills may include downloading and managing information from online sources, collecting data in surveys or making direct observations. A key feature of this program is a focus on data analysis, so you can analyze any data you collect.

You demonstrate skills in statistical analysis and selecting methods related to your interests.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in Social Science Research Methods requires 18 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
GIS 469 Multivariate Statistics for Social Sciences **or** SOC 469 Multivariate Statistics for Social Sciences **or** STP 452 Multivariate Statistics	C	3
Social Science Research Methods Core (choose two)	C	6

Requirement	Minimum Grade	Credit Hours
ASB 484 Internship **or** ASB 499 Individualized Instruction	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Analyze social science data using qualitative, quantitative and multivariate data analysis techniques.
Design a social science research project using appropriate methodologies, statistical analyses, and ethical reporting practices.

Career opportunities

People with the skill set needed to solve complex problems are in demand in the job market. There is a growing need for researchers and analysts with keen thinking skills who can manage, evaluate and interpret large amounts of data to address these challenges.

Some career opportunities include:

acting as legal advocates in international cases
analyzing and proposing policies
conducting postgraduate academic research
consulting for private and public organizations
directing nonprofit organizations
directing programs in the private or public sector

Social Transformation Certificate (LASOTCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the certificate program in social transformation, you examine how varied communities have faced and addressed the needs of social change. You consider how to apply what you've learned in identifying just solutions to the social problems currently faced by society. The areas of focus include a variety of themes, such as:

• civil rights movements
• democracy movements
• gender equality
• gender justice
• immigration
• labor movements

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in social transformation requires 15 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Employ and critically assess core theory, concepts, and methods for the study of social change issues and examining solutions to social problems.
Apply the foundations and principles of social change to the specific domestic or international issues through community engagement and research.

Career opportunities

Graduates who have combined the certificate in social transformation with their major program of study may become more marketable to employers. They often decide to pursue employment in law, education, public service, and human welfare and social work.

Advanced degrees or certifications may be required for academic or clinical positions.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Students who have attained sophomore standing (30 credit hours) in any undergraduate degree program at ASU are eligible for admission to the certificate program for socio-legal studies.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Critically assess core socio-legal theory, concepts and methods.
Demonstrate the ability to apply the fundamental principles of socio-legal studies to specific domestic or international issues through direct community engagement or research.

Career opportunities

Graduates who have combined the certificate in socio-legal studies with their major program of study may be more marketable to employers. They often decide to pursue employment in law, education, public service, and human welfare and social work. Advanced degrees or certifications may be required for academic or clinical positions.

Spanish for the Professions Certificate (LSSPPRFCER)

College/School: College of Integrative Sciences and Arts

Campus: Downtown Phoenix

Description: In the 15 credit hour Spanish for the professions certificate program, you develop your Spanish communication skills and gain the cultural knowledge to serve the needs of Spanish-speaking communities in the U.S. and abroad. Through a combination of professionally focused courses and real-world experiences, you develop advanced oral and written proficiency, intercultural communication skills and cultural literacy. The program's emphasis on practical application enhances your preparation for employment in positions that require advanced Spanish proficiency and an in-depth understanding of U.S. Latino and Latin American cultures.

With the flexibility of iCourses and enriching internships, you gain practical experience while mastering intercultural communication, decision-making, and problem-solving with cultural and ethical awareness. You prepare to communicate across cultures, contribute to civil discourse, and address the social and cultural challenges of your profession with purpose and empathy.

Curriculum

Requirement	Minimum Grade	Credit Hours
The Spanish for the professions certificate requires at total of 15 credit hours. A grade of "C" or better is required in all courses. Pass/Fail courses cannot be used.		
Required Courses		
SPA 404 Spanish in U.S. Professional Communities	C	3
SPA 405 Latino Cultural Perspectives for the Professions (HUAD)	C	3
Electives		
Upper Division Spanish for Professional Development and Solutions	C	9

Required Courses:

SPA 317 Spanish for Professional Success

SPA 402 Mastering Professional Spanish Writing **or** SPA 484 Internship

Choose one elective course from the following:

COM 362 Urban Communication: Reinventing the Latinx City

COM 363 Latinxs and the Media (SOBE)

SPA 318 Advanced Spanish for Health Care Professionals

SPA 401 Spanish Oral Communication for the Professions

SPA 402 Mastering Professional Spanish Writing

SPA 403 Advanced Spanish Grammar for Career Success

SPA 406 Introduction to Spanish/English Medical Interpretation

SPA 484 Internship

SPA 494 Topic: Community Interpretation

SPA 494 Topic: Introduction to Spanish Translation for the Profes

SPA 494 Topic: Spanish for Mental Health Practiti and Ally fields

SPA 494 Topic: Spanish for Social Care: Latinx Ameri Pop Cultures

or **Upper Division Professional Spanish and Latinx Cultures for Social Care and Public Work**

Required courses:

SPA 401 Spanish Oral Communication for the Professions

SPA 494 Topic: Spanish for Social Care: Latinx Ameri Pop Cultures

Choose one elective course from the following:

COM 362 Urban Communication: Reinventing the Latinx City

COM 363 Latinxs and the Media (SOBE)

SPA 317 Spanish for Professional Success

SPA 318 Advanced Spanish for Health Care Professionals

SPA 402 Mastering Professional Spanish Writing

SPA 403 Advanced Spanish Grammar for Career Success

Requirement	Minimum Grade	Credit Hours
SPA 406 Introduction to Spanish/English Medical Interpretation		
SPA 484 Internship		
SPA 494 Topic: Community Interpretation		
SPA 494 Topic: Introduction to Spanish Translation for the Profes		
SPA 494 Topic: Spanish for Mental Health Practiti and Ally fields		
or **Upper Division Professional Spanish and Latinx Cultures for Heritage Speakers**		
Required course:		
SPA 401 Spanish Oral Communication for the Professions		
Choose two elective courses from the following:		
COM 362 Urban Communication: Reinventing the Latinx City		
COM 363 Latinxs and the Media (SOBE)		
SPA 317 Spanish for Professional Success		
SPA 318 Advanced Spanish for Health Care Professionals		
SPA 402 Mastering Professional Spanish Writing		
SPA 403 Advanced Spanish Grammar for Career Success		
SPA 406 Introduction to Spanish/English Medical Interpretation		
SPA 484 Internship		
SPA 494 Topic: Community Interpretation		
SPA 494 Topic: Introduction to Spanish Translation for the Profes		
SPA 494 Topic: Spanish for Mental Health Practiti and Ally fields		

Students complete nine upper-division credit hours from one of the three focus areas: Spanish for Professional Development and Solutions, Professional Spanish and Latinx Cultures for Social Care and Public Work, or Professional Spanish and Latinx Cultures for Heritage Speakers.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

SPA 484 Enrollment Information:

The Spanish Internship (SPA 484) is open to all eligible undergraduate and graduate students -- not just those in the Spanish for the Professions certificate or Spanish minor.

Not in the Spanish for the Professions program? No problem! Contact CISAadvising@asu.edu to learn how to participate.

Enrollment Deadlines:

Fall semester - May 1

Spring semester - December 1

Enrollment requirements

The prerequisites for this certificate are completion of SPA 314 Spanish Conversation and Composition, or SPA 316 Advanced Spanish II for Bilinguals, or permission of instructor.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

This certificate complements students' major area of study. With advanced bilingual skills and cultural knowledge, graduates are positioned for success in a wide variety of professional settings, including health and legal services, journalism, business, social work and criminology. This certificate gives graduates an edge in pursuing employment in fields such as:

- community interpretation
- education
- engineering and urban planning
- government
- health care services
- legal services support or justice administration
- tourism

Special Events Management Certificate (HSRTMUERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix

Description: In the certificate program in special events management, you gain hands-on experience in planning and managing professional events while developing a broad understanding of modern event operations. Coursework covers budgeting, venue management, safety and security, production and event technology.

You build practical and teamwork skills through opportunities to plan and coordinate events in real-world settings. Designed for both current ASU students and working professionals, the certificate program strengthens your leadership, organization and communication abilities that are valuable across many industries.

Through your studies, you explore how events bring communities together and support business, nonprofit and public initiatives through effective planning and collaboration. You learn to apply skills in planning, communication and risk management to design experiences that meet the needs of diverse audiences and organizations.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 18 credit hours of graded classroom coursework (no internship, no independent study), of which 15 are upper division. Courses taken as part of a university major may count toward that degree and the certificate. To earn the certificate, students must complete all coursework in the certificate with a minimum grade of "C" (2.00 on a 4.00 scale) or better.		
Required Courses		
PRM 203 Designing Experiences: Events and Programs PRM 203 must be taken before PRM 423, PRM 422 and PRM 427		3
CRD 350 Tourism, Hospitality, Recreation and Sports Marketing	C	3
PRM 422 Special Event Technology and Production Only offered in spring semesters.	C	3
PRM 423 Special Event Operations Only offered in fall semesters.	C	3
PRM 427 Where's the Money: Special Event Revenue Generation Only offered in fall semesters.	C	3
PRM 487 Advanced Special Events Management **or** PRM 307 Event Leadership Experience PRM 487 is only offered in spring semesters. PRM 307 is only offered in fall semester.	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

A minimum ASU GPA of 2.00 is required for those pursuing the certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Apply programmatic principles relevant to the special event industry to a variety of event-related scenarios.
Plan an event using current practices & concepts.

Career opportunities

Graduates are prepared for roles in event planning, coordination and operations across corporate, nonprofit and public sectors. They may work on conferences, festivals, trade shows, concerts or sporting events.

Career paths include positions such as event coordinator, production assistant, venue operations specialist, and marketing and logistics associate.

Speech-Language Pathology Assistant Certificate (LASLPACERT)

College/School: College of Health Solutions

Campus: Tempe

Description: The speech-language pathology assistant certificate program prepares you with the educational and clinical experience needed to become a speech-language pathology assistant. The curriculum is focused on:

• clinical methods and treatment
• developmental speech and language disorders
• implementation of treatment plans
• professional issues and ethical considerations

This program is a great option if you're majoring or minoring in speech and hearing science, if you've completed a bachelor's degree in speech and hearing, or if you're pursuing the postbaccalaureate communication sciences and disorders certificate.

This certificate program meets the American Speech-Language-Hearing Association's requirements for speech-language pathology assistant certification and Arizona's requirements for speech-language pathology assistant licensure.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate program includes 15 credit hours, including a clinical internship. A minimum of 12 credit hours must be completed at ASU. A minimum grade of "B-" (2.67 on a 4.00 scale) is required for each course.		
SHS 402 Clinical Methods and Treatment of Communication Disorders SHS 402 should be completed prior to the SHS 484: SLPA Certificate internship course.	B-	3
SHS 470 Developmental Speech and Language Disorders **or** SHS 485 Acquired Speech and Language Disorders **or** SHS 565 Speech and Language Acquisition	B-	3
SHS 473 Implementation of Treatment Plans for Individuals with Communication Disorders This course is only offered in the fall semesters.	B-	3
SHS 483 Professional Issues and Ethical Considerations for the SLPA This course is only offered in the spring semesters.	B-	3
SHS 484 Topic: SLPA Certificate This course should be completed in the student's final term.	B-	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Current undergraduate students who have completed at least nine credit hours in speech and hearing science coursework with an overall minimum GPA of 2.75 in the major and "B-" grade or higher in those courses are eligible to apply. Applications are also accepted from students who have completed a bachelor's degree in speech and hearing science or communication disorders from a program accredited by the American Speech-Language-Hearing Association with a major GPA of at least 2.75 (scale is 4.00 = "A").

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

A supplemental application is required for this certificate. Admission is limited because of placement capacity for the required internship experience. See the supplemental application (https://chs.asu.edu/slpa-application) for more information on the application process and deadlines.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Students will implement treatment strategies appropriate to client age and disorder in speech-language therapy sessions.
Students will apply professional and ethical principles in the practice of speech-language pathology for treatment of individuals with communication disorders.
Students will understand clinical activities by observing and interviewing speech-language pathologists or audiologists.

Career opportunities

Graduates with this certificate are prepared to work with people with communication disorders under the direction and supervision of a speech-language pathologist in schools, clinics and rehabilitation agencies that provide speech and language services.

Coursework and clinical training completed as part of the program also enhance preparation for graduate programs in speech and communication disorders.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Sports Business Certificate (BASPBCERT)

College/School: W. P. Carey School of Business

Campus: Tempe

Description: The certificate program in sports business has an innovative curriculum designed to deepen your knowledge in the sports business domain as you pursue a Bachelor of Science in the W. P. Carey School of Business.

Particular attention is given to providing a foundation in marketing and sales as applied to the sports business discipline. The certificate program prepares you for success by complementing coursework from your degree program with specialized business knowledge in the sports business area of interest.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in sports business requires 15 credit hours with at least 12 upper division credits. To earn the certificate, students must complete all courses with a grade of "C" (2.00 on a scale of 4.00) or better.		
MKT 311 Sports Business	C	3
Sports Business Certificate Electives		
MKT 294 Special Topics (MKT 294 Special Topics course must be sports related to apply towards the certificate) MKT 375 Services Marketing MKT 431 Sports Experiences MKT 435 Entrepreneurial Marketing MKT 441 Sports Revenue Generation	C	3
MKT 484 Internship (Maximum three credits of MKT 484 may be applied towards the certificate elective) MKT 493 Honors Thesis MKT 494 Special Topics (MKT 494 Special Topics course must be sports related to apply towards the certficate)		
Upper Division Sports Business Certificate Electives	C	9

Requirement	Minimum Grade	Credit Hours
(MKT 294 Special Topics course must be sports related to apply towards the certificate)		
MKT 375 Services Marketing		
MKT 431 Sports Experiences		
MKT 435 Entrepreneurial Marketing		
MKT 441 Sports Revenue Generation		
MKT 484 Internship		
(Maximum three credits of MKT 484 may be applied towards the certificate elective)		
MKT 493 Honors Thesis		
MKT 494 Special Topics		
(MKT 494 Special Topics course must be sports related to apply towards the certficate)		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Prerequisites: This program is available to W. P. Carey BS program students who have a minimum cumulative ASU GPA of 2.50 and 56 earned credit hours. Students must have completed MKT 300, MKT 302 or MKT 303 with a grade of "C" (2.00 on a 4.00 scale) or higher.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates who have combined the certificate in sports business with their major program of study may be more marketable to employers. They often pursue roles in marketing, sales or management. Advanced degrees or certifications may be required for academic or clinical positions.

Sports, Cultures and Ethics Certificate (LASPCECERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The certificate program in sports, cultures and ethics is a cross-disciplinary inquiry into the social, ethical and cultural influence of sports in society.

You explore the significance of sports in modern history, including relationships between sports and identity, community, politics, media, business and education. You analyze the ethical and philosophical issues of participating in and watching sports. Courses also cover how playing fields become places of connection and conflict, expanding opportunities or reinforcing inequalities based on race, gender, sexuality, religion and socioeconomic class.

When you complete the program, you have knowledge and understanding of the multifaceted nature of sports and their wide-ranging impact on cultures and lives.

Curriculum

Requirement			Minimum Grade	Credit Hours
The certificate in sports, cultures and ethics requires a minimum of 15 credit hours, of which at least 12 must be upper division. At least six upper-division hours must be in courses offered by The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. All courses for the certificate must be passed with a minimum grade of "C" (2.00 on a 4.00 scale).

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Not all courses listed for this program are available every term. Students should consult the class schedule prior to each term to confirm course availability.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Evaluate the social, cultural, political, and economic contexts relevant to ethical and justice issues in sports
- Interpretation of how playing fields become places of connection and conflict, expanding opportunities or reinforcing inequalities based on race, gender, sexuality, religion and socioeconomic class

Career opportunities

Students who combine the certificate in sports, cultures and ethics with their major program of study become more marketable to employers.

Students who complete this undergraduate certificate often pursue employment in sports business, sports journalism, sports law, education, sports governance and administration, coaching or the sports sciences. Advanced degrees or certifications may be required for academic or clinical positions.

Stress Management, Mindfulness and Resilience Certificate (PPSMMRCERT)

College/School: Watts College of Public Service & Community Solut

Campus: Downtown Phoenix, Online

Description: The certificate program in stress management, mindfulness and resilience provides you with applied training in integrative health approaches to understanding and managing stress. Coursework emphasizes evidence-based practice and experiential learning that foster mindfulness, self-regulation and resilience. You gain skills that promote well-being and can be directly applied in health, education and workplace settings.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 15 credit hours, 12 of which must be at the upper-division level. Students take nine credit hours of required core courses and six credit hours of electives. A grade of "C" (2.00 on a 4.00 scale) or better must be earned for all courses in the certificate. At least 12 credit hours must be completed at ASU. Students need to allow at least one year to complete the certificate.		
SWU 250 Stress Management Tools I (SOBE) **or** HCR 294 Topic: Fndns of Mindfulness and Resilience: Sci/Practice	C	
SWU 349 Stress Management Tools II (SOBE)	C	3

Requirement			Minimum Grade	Credit Hours
SWU 350 Whole Person Health Across the Lifespan (SOBE)	**or**	HCR 394 Topic: Org. Mindfulness Leadership Success in Workplace	C	3

Upper Division Electives

COM 452 Communication and the Art of Happiness EXW 302 Fundamentals of Wellness EXW 400 Stress Management for Wellness HCR 394 Topic: Org. Mindfulness Leadership Success in Workplace Students can count this course as 3 out of 6 credit hours of electives if they do not use it to fulfill the 9 hours of required courses. HEP 380 Body Image and Wellness HEP 443 Emotional Health and Interpersonal Relationships PSY 335 Positive Psychology PSY 494 Topic: Psychology of Mindfulness SWU 350 Whole Person Health Across the Lifespan (SOBE) Students can count this course as 3 out of 6 credit hours of electives if they do not use it to fulfill the 9 hours of required courses. SWU 351 Sustainable Living, Mindful Eating (SUST)			C	6

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Consider meeting with a Watts College undergraduate academic advisor prior to registration.

Enrollment requirements

Minimum GPA required: 2.00

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/minors) for program descriptions and to request more information.

Career opportunities

Graduates are prepared to work in wellness-focused roles. This program enhances skills in managing workplace stress, promoting well-being and improving employee engagement, making graduates a valuable asset in wellness-focused organizations.

Career examples include:

- corporate trainer
- human resources associate
- mental health support worker
- mindfulness educator
- wellness coach

Sustainable Food Systems Certificate (SUFSUCERT)

College/School: Rob Walton College of Global Futures

Campus: Tempe

Description: Food systems are particularly important for human societies to sustain; however, these systems are particularly vulnerable to multiple threats. Whatever your discipline, food and sustainability are becoming increasingly relevant issues to employers in fields across the public and private sectors.

This certificate program in sustainable food systems enables you to take advantage of the diversity of courses offered that address challenges to food system sustainability. You're encouraged to cover a breadth of topics and perspectives related to food system issues. You also have the opportunity to focus on particular skills and approaches suitable for your career path, in areas as varied as agriculture, marketing, retail, policy and ethics. This program offers an innovative and exciting approach to the challenges of food system sustainability.

Because of the transdisciplinary nature of the certificate program, many courses are found across ASU's campuses, allowing you to choose the focus area and location of study that best fit your needs.

The knowledge, competencies and skills you have upon completion of this certificate include the ability to identify food system drivers, activities, actors and outcomes at different spatial scales; and the capacity to assess the primary social, economic and environmental drivers and outcomes associated with food system sustainability challenges.

You also acquire the ability to apply the following analytical skills or approaches to the development of food system sustainability solutions: cultural and social analysis, alternative agricultural design and practice, analysis of biophysical processes and environmental services, urban planning and policy, marketing and entrepreneurial development, sustainability assessment, and consumer preference and behavior.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate requires 15 credit hours, of which 12 is upper division.		
Required Course		
SFS 215 Fundamentals of Sustainable Food Systems (SUST) **or** SFS 216 The Sustainable Plate (SUST)	C	3
Sustainable Food Systems Tier Electives Students must choose four tier electives. A minimum of two courses must be selected from Tier 1 Core electives, and no more than two courses from the same subject prefix across both Tiers 1 and 2 should be selected. ENG 367 and PUP 498 must be taken with the specific titles/topics indicated.		
Upper Division Tier 1 - Core Electives (choose at least two)		
ABS 319 Food, Health and Human Biology		
ABS 369 Hydroponic Food Crop Production		
AGB 302 International Management and Agribusiness (GCSI)		
AGB 414 Food and Agribusiness Policy Issues		
AGB 456 Food Product Innovation and Development		
ASB 300 Food and Culture (SOBE)	C	6
BIO 429 Human Impacts on Ecosystem Functioning		
ITA 350 Food and Culture: The Mediterranean Lifestyle in Italy		
NTR 353 The Western Diet		
PLB 302 Plants and Civilization		
PUP 498 Topic: Urban Food Systems		
SOS 327 Sustainable Food and Farms		
Upper Division Tier 2 - Electives	C	6
ABS 319 Food, Health and Human Biology		
ABS 368 Plant Propagation		
ABS 369 Hydroponic Food Crop Production		
ABS 464 Desert Horticulture		
AGB 302 International Management and Agribusiness (GCSI)		
AGB 321 Agribusiness Sales and Marketing		
AGB 414 Food and Agribusiness Policy Issues		

Requirement	Minimum Grade	Credit Hours
AGB 420 Food Advertising and Promotion		
AGB 452 Global Food and Agricultural Trade		
AGB 456 Food Product Innovation and Development		
ASB 300 Food and Culture (SOBE)		
ASB 305 Poverty and Global Health (CIVI)		
ASB 463 / TCL 443 Political Ecology of the Border		
BIO 311 Biology and Society		
BIO 324 Environmental Ethics (SUST)		
BIO 418 Soil Ecology		
BIO 434 People and Nature: Ecosystem Services		
ENG 367 Environmental Issues in Literature and Film		
GPH 314 Global Change		
ITA 350 Food and Culture: The Mediterranean Lifestyle in Italy		
NTR 348 Cultural Aspects of Food (GCSI)		
NTR 353 The Western Diet		
NTR 448 Community Nutrition		
PLB 302 Plants and Civilization		
PUP 498 Topic: Urban Food Systems		
SOS 322 International Development and Sustainability		
SOS 327 Sustainable Food and Farms		
SOS 370 / ASB 370 Ethics of Eating		
SOS 374 / GLG 327 Earth's Critical Zone		

Tier Electives are not limited to courses from this list only. Other courses on food systems may be offered (special topics, etc.). Students may request to have those approved as an elective for this certificate by submitting a College of Global Futures Standards Petition.

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Advising is not required, but students are encouraged to speak with an advisor by scheduling an appointment through Robert Walton College of Global Futures advising (https://collegeofglobalfutures.asu.edu/student-life/advising/undergraduate-advising/).

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Global opportunities

Global experience: With more than 300 Global Education program opportunities available to them, students of all majors, including programs in the Rob Walton College of Global Futures, are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

Students can find programs specific to their interests on the Rob Walton College of Global Futures study abroad webpage (https://collegeofglobalfutures.asu.edu/student-life/study-abroad/) and additional opportunities and information on the ASU Global Education Office website (https://goglobal.asu.edu/). These sites also include additional information about applying for funding to support global travel.

Career opportunities

A certificate in sustainable food systems provides a distinct and valuable skill set that transcends traditional career boundaries. Whether graduates are pursuing paths in business, technology, science, education or government, the knowledge of sustainable food systems enriches their ability to drive positive change.

This certificate brings a fresh perspective to various sectors, including agriculture, consumer goods, public health and education. Graduates are equipped to address pressing issues such as environmental sustainability, farm-to-table practices, nutrition and urban agriculture. Graduates stand out in a competitive job market, offering versatile skills that can be applied across diverse career landscapes.

By integrating sustainable food systems principles into their education and future endeavors, graduates become catalysts for transformative change, shaping a healthier, more sustainable future for all. This certificate not only broadens their career horizons but also empowers them to make a lasting impact in their chosen fields.

Symbolic, Cognitive and Linguistic Systems Certificate (LAPHICERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The certificate program in symbolic, cognitive and linguistic systems takes a transdisciplinary approach to the symbolic representation and processing of information in human cognition; natural languages; and formal mathematical, logical and computing systems.

You cover coursework in three areas: human cognition and theories of mind, philosophy of language and linguistics, and computing and logic.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in Symbolic, Cognitive, and Linguistic Systems requires 18 credit hours, of which at least 12 must be upper division. At least six upper-division credit hours must be taken through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. A grade of "C" (2.00 on a 4.00 scale) or higher is required for all courses used toward the certificate.		
CSE 110 Principles of Programming **or** CSE 205 Object-Oriented Programming and Data Structures **or** CSE 240 Introduction to Programming Languages	C	3
Upper Division Philosophy Course (choose one)		
PHI 313 Probability, Evidence, and Decision		
PHI 319 Philosophy, Computing and Artificial Intelligence (QTRS)		
PHI 330 Theory of Knowledge (HUAD)		
PHI 331 Philosophy of Language (HUAD)		
PHI 333 Symbolic Logic	C	3
PHI 334 Philosophy of Mind (HUAD)		
PHI 394 Topic: Ethics of Artificial Intelligence		
PHI 401 Rationalism		
PHI 402 Empiricism		
PHI 413 Advanced Symbolic Logic		
Students must complete at least one course each from the cognitive, linguistic and symbolic systems electives lists to earn the certificate.		
The required CSE course above also satisfies the requirement in the symbolic systems category, but students must complete at least one course from the two other categories. Once all three categories are satisfied, students may choose any courses from the cognitive, linguistic and symbolic systems lists for the remaining electives.		
Electives	C	3
Cognitive Systems

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Not all courses for this program are available every term. Students should consult the class schedule prior to each term to confirm course availability.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Evaluate arguments for formal validity and construct formal proofs. Students will be able to capture the logical form of English sentences.
Explain and apply key philosophical concepts or theories in the study of human cognition, including techniques and challenges for modeling human cognition using formal or programming languages.

Career opportunities

Graduates who have complemented their major with this specialization in symbolic, cognitive and linguistic systems can advance their career options and may be more marketable to employers. The analytical and reasoning skills they have gained, particularly reasoning with computer programming languages and other symbolic systems, enhance their employment opportunities.

Graduates with this undergraduate certificate often pursue employment in business, engineering, information systems or psychology. Advanced degrees or certifications may be required for academic or clinical positions.

Teaching English to Speakers of Other Languages (TESOL) Certificate (LATESLCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The teaching English to speakers of other languages certificate program consists of key courses that provide you with the practical skills and confidence necessary to teach English as a second or other language anywhere in the world. This certificate can be added to any degree program and includes a supervised internship to gain valuable hands-on experience before graduation.

This certificate does not certify you to teach in Arizona public schools (K-12).

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate program in teaching English as a second language requires 18 credit hours, of which 12 must be completed at the upper-division level. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.		
ENG 213 Introduction to the Study of Language (SOBE)	C	3
ENG 404 Studies in Second Language Acquisition ENG 404 is repeatable for credit and must be completed twice.	C	6
ENG 484 Topic: TESOL Internship	C	3
ENG 403 Semantics **or** ENG 404 Studies in Second Language Acquisition **or** ENG 414 Studies in Linguistics	C	3
ENG 214 English Grammar and Usage **or** ENG 312 Language and Society (SOBE) **or** ENG 313 Phonology and Morphology **or** ENG 314 Modern Grammar **or** ENG 413 History of English Language	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Requests to declare this certificate are reviewed by the academic advisor in the academic unit offering the certificate. Students may be contacted to discuss the certificate before it is added to their record.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Language expertise (linguistic knowledge): Graduates of the undergraduate certificate program in TESOL will be able to recall and explain structural and functional features of human language.
Language learning and use expertise (L2-specific knowledge): Graduates of the undergraduate certificate program in TESOL will be able to recall and explain theories, research and key concepts in first and second language use and learning.
Teaching expertise (pedagogical knowledge): Graduates of the undergraduate certificate program in TESOL will be able to recall and explain key concepts, theories and methods in second language (L2) teaching and will be able to develop teaching and learning materials.
Real world expertise (context-specific knowledge and application): Graduates of the undergraduate certificate program in TESOL will be able to apply theories and key concepts in (a) language studies, (b) L2 use and learning, and (c) L2 teaching to real-world contexts (e.g., language teaching, materials development, or related professional practices).

Career opportunities

The TESOL certificate is useful for graduates who are interested in careers in this increasingly important field. It also serves as excellent preparation for students who wish to pursue graduate studies in the Master of Teaching English to Speakers of Other Languages program at ASU or in a similar program at another institution.

Students who combine this TESOL certificate with their major program of study may become more marketable to employers.

Graduates with this undergraduate certificate often pursue teaching opportunities abroad. Advanced degrees or certifications may be required for academic or clinical positions.

Transformation and Change Certificate (ASTNCHCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus:

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Description: The certificate program in transformation and change provides you with a broad but integrated intellectual experience that gives tangible meaning to the concept of transformation.

Coursework is focused on a thematic approach, and you work through the lenses of several disciplinary and interdisciplinary orientations to understand the dynamics of transformation. This gives you an elevated measure of depth and breadth to your overall educational experience.

Enrollment requirements

This certificate is open to students in any major. Students who wish to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Graduates can advance or broaden their career options with a certificate in transformation and change. They leave the program with attributes that employers seek: creativity, versatility, a well-rounded knowledge base, robust critical thinking skills, strong oral and written communication skills, and the ability to devise creative approaches to problem-solving. All are considered major assets in the workplace. With this academic and intellectual foundation and their transferrable skills, they have the tools that enable them to pursue graduate education or advance in a wide array of careers in fields such as education, human services, government, marketing, consulting, social work and publishing.

U.S. National Security and Intelligence Studies Certificate (LANSISCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The undergraduate certificate program in U.S. national security and intelligence studies emphasizes critical thinking; analytical writing; and the interpretation of human intelligence, signals intelligence, geospatial intelligence, and open-source intelligence, commonly termed HUMINT, SIGINT and GEOINT. You explore topics such as cybersecurity threats, critical languages, and cross-cultural analysis, equipping you to address complex global security challenges. You develop the ability to create an intelligence collection plan to collect key forms of intelligence in support of national security objectives. You demonstrate your mastery of core intelligence concepts through the stages of the intelligence process: planning and direction, collection, processing, analysis and production, and dissemination with both oral and technical reports.

You learn to synthesize knowledge about the U.S. intelligence community and national security objectives by analyzing the missions, roles and structures of the 18 organizations within the U.S. intelligence community. You develop a comprehensive understanding of the national security enterprise through the application of research, data analysis and structured analytical techniques used in the production of finished intelligence products. You develop strong analytical writing and oral communication skills, essential for conveying complex information effectively to diverse audiences.

This interdisciplinary program integrates high-impact experiential learning with classroom instruction and internship opportunities that connect you to professionals across the federal government, private sector and nonprofit organizations. With strong local engagement in the Phoenix area; a network presence in Washington, D.C.; and a global outlook; the program prepares you to thrive in the dynamic and evolving field of intelligence and national security.

GI Bill® benefits
This new program is not yet approved for use with GI Bill® benefits.

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs. More information about education benefits offered by VA is available at the official U.S. government website at https://www.benefits.va.gov/gibill/ (https://www.benefits.va.gov/gibill/).

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in U.S. national security and intelligence studies requires 15 credit hours, of which 12 credit hours must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.		
INR 235 Introduction to the U.S. Intelligence Community **or** POS 235 Introduction to the U.S. Intelligence Community	C	3

Students complete six credit hours from one track that is beneficial to their personal or academic goals. Track options are: National Security and Intelligence, Foreign Languages and Cultures, or STEM.		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Global opportunities

Global experience: The Center for Intelligence and National Security, in partnership with the Melikian Center, the Critical Languages Institute, and ASU's Global Education Office (https://goglobal.asu.edu/), seeks to expand academic opportunities for students to study abroad and engage in global learning experiences as a critical component to the certificate. These programs are designed to help students develop research skills in an international context, gain cross-cultural competence, and build the global awareness and adaptability necessary to thrive in diverse environments --- skills that directly strengthen the future national security workforce and advance U.S. strategic interests.

Career opportunities

Graduates are prepared for work in the areas of cybersecurity; inspection, investigation and compliance; intelligence analysis; intelligence collection; law and legal services; and security.

The program enhances workforce readiness and provide increased opportunities for graduates to find meaningful, impactful careers within the U.S. national security and intelligence community sectors in:

- acquisitions and contracting
- business and mission support
- computer science
- data science
- education and training
- foreign languages
- geography
- infrastructure and logistics
- information technology
- medical and occupational health
- science, technology, engineering and mathematics

The certificate provides an excellent foundation for students pursuing careers in the public or private sectors, as well as those seeking to continue their education at the graduate level in national security, global security or intelligence studies.

Vocal Pedagogy Certificate (HIVCLPCERT)

College/School: Herberger Institute for Design and the Arts

Campus: Tempe

Description: If you are a current or future singing teacher or choral director who wishes to cultivate and further the development of your teaching skills and knowledge of the field of vocal pedagogy, the vocal pedagogy certificate program provides an opportunity for you to develop your skills, as a upper-level undergraduate student or nondegree-seeking graduate student. This is a 15 credit hour certificate program, including a set of core courses in pedagogy and applied voice, elective course offerings in related disciplines, and a teaching practicum.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in vocal pedagogy consists of 15 credit hours, of which 12 must be upper division. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy certificate requirements.		
MUP 311 Studio Instruction **or** MUP 321 Studio Instruction **or** MUP 327 Studio Instruction	C	2
MUP 402 Anatomy and Physiology of Singing	C	2
MUP 403 Literature for Teaching Voice	C	1
MUP 404 Voice Teaching Practicum	C	1
MUP 481 Performance Pedagogy and Materials	C	2

Electives

MSC 221 Popular Music Lab		
MUE 110 Introduction to Music Education		
MUE 413 The Art of Teaching Children Music		
MUE 480 Art of Teaching Advanced Vocalists		
MUP 250 Diction for Singers		
MUP 438 The Enterprising Artist	C	3
MUP 439 Performing Arts Product Creation and Development		
MUP 453 Art Song Repertoire		
SHS 310 Anatomical and Physiological Bases of Speech		
THP 277 Voice and Speech I		
THP 351 Arts Management (HUAD)		
THP 377 Voice and Speech II		

Upper Division Electives

MUE 413 The Art of Teaching Children Music		
MUE 480 Art of Teaching Advanced Vocalists		
MUP 438 The Enterprising Artist		
MUP 439 Performing Arts Product Creation and Development	C	4
MUP 453 Art Song Repertoire		
SHS 310 Anatomical and Physiological Bases of Speech		
THP 351 Arts Management (HUAD)		
THP 377 Voice and Speech II		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A minimum of an associate degree in music or a related field, or status as a third-year or higher undergraduate music major in a Bachelor of Music or Bachelor of Arts program is required.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Apply skillful techniques of singing to academic settings.
Apply advanced understanding of voice and current pedagogical practices in private studio and classroom settings.

Career opportunities

Graduates who earn this certificate can develop a private teaching studio or a vocal coaching studio, conduct choirs, teach future voice teachers how to teach effectively, teach vocal diction and projection, or teach healthy singing methods across a variety of styles and age groups.

Water Resources Certificate (LAWATRCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: The certificate program in water resources covers topics related to hydrologic science and their application to water resources management. The sequence of classes offered through the certificate program builds from a foundation in geological sciences up to water policy and design aspects of hydrology, as selected by you.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in water resources requires 16 credits, of which 12 credits must be upper division. A minimum of six upper-division credit hours must be taken from The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better can be used to satisfy minor requirements.		
GLG 108 Water Planet (SCIT) **or** SOS 182 Water Planet (SCIT)	C	4
GLG 327 Earth's Critical Zone **or** SOS 374 Earth's Critical Zone	C	3
GLG 470 Hydrogeology	C	3
Upper Division Water Resources Electives		
CEE 441 Water Resources Engineering		
GLG 325 / BIO 325 / CHM 385 Oceanography		
GLG 330 / SEA 330 Digital Blue Planet (QTRS)		
GLG 362 Geomorphology	C	6
GLG 471 Hydrology		
GLG 481 Geochemistry		
GLG 489 Field Geochemistry		
SEA 394 Topic: Fluid Dynamics		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Analyze scientific data to quantify and make predictions about water flow at or near Earth's surface in response to gravitational, atmospheric, topographic, and hydrologic characteristics of the medium through which it moves.
Demonstrate advanced understanding of the hydrologic cycle and the interactions among physical, biological, and chemical components of a particular geologic setting.

Career opportunities

The demand for individuals with industry-specific water resources skills is clear.

Students who earn a certificate in water resources can advance their career and become more marketable to employers. Exciting career opportunities in this field exist within government agencies, private sector consulting, engineering firms and nonprofit organizations, though most career areas require more training than a certificate alone can provide.

Career opportunities include:

- hydrologist
- soil and water conservationist
- water or wastewater engineer
- water resources technician

Sample career settings include:

- environmental industry
- governmental agencies
- nonprofit organizations
- private voluntary organizations
- regulatory agencies
- utilities

Wildlife Management Certificate (LSWLMCERT)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic

Description: If you are interested in biology, conservation, sustainability and management of wildlife resources, the undergraduate wildlife management certificate program is for you. You gain application-based and hands-on experience in the field and engage with wildlife professionals.

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires 22 credit hours. A grade of "C" (2.00 on a 4.00 scale) or better is required in each course.		
ABS 274 Introduction to Wildlife Management	C	4
ABS 376 Wildlife Ecology	C	3
ABS 377 International Wildlife Conservation	C	3
ABS 470 Life History of Mammals	C	3
Upper Division Electives		
ABS 380 Restoration and Wildlife Plants		
ABS 384 Natural Resources Measurements		
ABS 472 Applied Herpetology		
ABS 473 Applied Ornithology		
ABS 475 Habitat Management for Small Wildlife		
ABS 476 Large Mammal Habitat Ecology	C	9
ABS 485 GIS in Natural Resources		
ABS 486 Introduction to Remote Sensing		
ABS 489 Undergraduate Research		
ABS 494 Topic: Urban Wildlife Ecology		
ABS 494 Topic: Wildlife Dynamics		

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Career opportunities

Students can advance their career options with an undergraduate certificate. This certificate can give a hiring edge to students who want to pursue employment in the growing number of environmental careers offered by state and federal agencies such as the Arizona Game and Fish Department, U.S. Forest Service, U.S. Geological Survey and U.S. Bureau of Land Management. Students also have strong career prospects with nongovernmental organizations in areas of fish and wildlife management and range management or as biological technicians.

Advanced degrees or certifications may be required for academic or clinical positions.

Work+Life Design Certificate (UCWLDCERT)

College/School: University College

Campus: Downtown Phoenix, Polytechnic, Tempe, West Valley

Description: The work+life design certificate program equips you with real-world experience, essential soft skills, and a deeper understanding of your career goals through hands-on learning opportunities like internships, research and service projects. The program helps you stand out to employers and graduate schools by showcasing your initiative and readiness.

You begin with a foundational course in experiential learning where you explore how to integrate your academic and personal experiences while fostering a growth mindset for lifelong success. You gain confidence and clarity by applying classroom knowledge in practical settings and reflecting on your growth so that you can bridge academic learning and professional success.

Working with Military Families Certificate (LAWWMFCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: In the working with military families certificate program, you complete academic coursework in the working with military families certificate program to enhance your knowledge of human development, marital and familial relationships, and family dynamics in the context of military culture.

You learn about the complex challenges that military personnel, military families and veterans face, such as dealing with multiple deployments, war, combat, trauma and death. You study normative family processes, stress and coping with military culture.

Curriculum

Requirement	Minimum Grade	Credit Hours
The Working with Military Families certificate requires 15 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.		
CDE 232 Human Development (SOBE)	C	3
FAS 331 Modern Family Relationships (SOBE)	C	3
FAS 410 Military Family Systems in a Democracy	C	3
SOC 415 Families and Social Policy	C	3
FAS 484 Internship Students are required to complete a capstone internship project that includes a field work experience, a written integrative paper and an oral presentation.	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

There are no admission requirements beyond those for admission to ASU.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Analyze the contextual influences on individual and family relationships specific to military families.
Analyze family relationship patterns, including communication, conflict, roles.

Career opportunities

Graduates may be more marketable to employers and advance their career options when they complement their major with this undergraduate certificate specialization in working with military families.

Graduates understand and appreciate the similarities and differences between civilian and military culture, making them more inclusive coworkers, managers and community members with regard to the military community. Students who complete this undergraduate certificate often decide to pursue employment in health care, counseling, social work, sociology or education.

Advanced degrees or certifications may be required for academic or clinical positions.

Workplace Communication Certificate (LAWCOMCERT)

College/School: The College of Liberal Arts and Sciences

Campus: Tempe

Description: Communication skills are valued across many industries and regarded as essential for success in the workplace. The certificate program in workplace communication focuses on helping you become a competent communicator across various professional settings. As part of the program, you learn how to lead teams and create effective presentations. This program complements coursework in many majors by enabling you to develop the communication skills needed to maximize productivity and satisfaction in professional contexts.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in workplace communication requires 15 credit hours, of which 12 credit hours must be upper-division. A minimum of six upper-division credit hours must be completed through The College of Liberal Arts and Sciences. When selecting courses, the college offering the course can be identified by viewing the course details in Class Search. Only courses completed with a grade of "C" (2.00 on a scale of 4.00) or better may be applied toward the certificate requirements.

Writing Certificate (ASWRTCERT)

College/School: New College of Interdisciplinary Arts and Sciences

Campus: West Valley

Description: The certificate program in writing offers five track options: creative writing, generalist, nonfiction writing, professional and technical writing, and publishing and editing, which can be tailored to your individual interests and career goals.

The program comprises intensive coursework that culminates in an exit portfolio, which is a collection of work that demonstrates your mastery of writing skills.

Curriculum

Requirement	Minimum Grade	Credit Hours
The certificate in writing consists of 16 credit hours of coursework, of which a minimum of 13 hours must be upper division. A minimum of six upper-division credit hours must be earned through courses offered by the New College of Interdisciplinary Arts and Sciences. All courses used to satisfy requirements for the certificate must be completed with a grade of "B" (3.00 on a 4.00 scale) or better.		

Requirement	Minimum Grade	Credit Hours
Students select one track and complete 15 credit hours from that track, of which 12 credit hours must be upper division.

AMS 490 Writing Certificate Portfolio	**or**	ENG 495 Writing Certificate Portfolio	B	1

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

Any ASU student in good academic standing (minimum cumulative GPA of 2.00; scale is 4.00 = "A") who has successfully completed the first-year composition requirement (ENG 101 and 102; ENG 105; or ENG 107 and 108 with a grade of "C" or higher) is eligible to add the New College writing certificate. No more than nine credit hours may be shared between the certificate and other degree programs, minors or other certificates. Students who wish to pursue this certificate should consult an academic advisor in the School of Humanities, Arts and Cultural Studies to ensure that the appropriate set of courses is taken.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before an undergraduate degree is completed. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

Revise portfolio writing samples to improve the content, structure, and clarity of their ideas in their chosen writing track.
Write clearly, effectively, persuasively and descriptively in the format of their chosen writing track.

Career opportunities

Certification of advanced writing skills paves the way to a vast array of career opportunities in journalism and publishing, public advocacy, military and government, elementary and secondary education, industry and management, economic development and law. Graduates are prepared for jobs as technical writers, copy editors, teachers, publishers, writers, reporters and correspondents, and script writers.

Writing Certificate (LSWRTCERT)

College/School: College of Integrative Sciences and Arts

Campus: Polytechnic

Description: In the writing certificate program offered by the College of Integrative Sciences and Arts, you write for specific purposes and consider how writing is used in careers.

In the core course, you cultivate visual and multimodal literacies, enabling you to respond to new writing situations with flexibility, creativity and resourcefulness. You complete two electives in a focus area of your choice, such as professional writing, food and travel, science and the environment, mentoring writers, or another area of writing in support of your interests. An internship provides opportunities for you to gain practical, hands-on skills. For example, you might serve as a writing mentor in the Writers' Studio or be involved with publishing a journal. Finally, in the program's capstone course, you assemble a portfolio of your best work, design and carry out a new applied project, and connect what you've learned in the program to potential careers.

Curriculum

Requirement	Minimum Grade	Credit Hours
This certificate requires 15 credit hours. Students complete four upper-division writing courses (12 credit hours). At least three of the courses must be offered by the College of Integrative Sciences and Arts. In addition, students must complete a capstone course (three credit hours) at the end of their program. A grade of "C" (2.00 on a 4.00 scale) or better is required in all courses.		
ENG 446 Visual Narratives (HUAD)	C	3
ENG 484 Internship	C	3
Upper Division		
Writing Focus Electives	C	6
Suggested focus pairings are below. Students may work in consultation with their advisor to develop a two-course focus area in support of their professional or personal interests in writing.		

Food and Travel Writing Focus

ENG 379 Travel Writing

ENG 394 Topic: Writing About Food

Mentoring Writers Focus

ENG 480 Methods of Teaching English: Composition

ENG 482 Methods of Teaching English Language Arts

Professional Writing Focus

ENG 301 Writing for the Professions

Requirement	Minimum Grade	Credit Hours
ENG 311 Persuasive Writing (CIVI)		

Writing about Science and the Environment Focus

ENG 378 Environmental Creative Nonfiction (HUAD)		
HST 482 Writing and the History of Science, Ideas and Technology		

ENG 498 Pro-Seminar		
Students must complete at least three hours of ENG 498 Pro-Seminar at the end of their program as a capstone course. Students will work closely with faculty on their writing portfolio and applied project.	C	3

Notes

Prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment requirements

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded before the completion of an undergraduate degree. A student who already holds an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.

Program learning outcomes

Program learning outcomes identify what a student will learn or be able to do upon completion of their program. This programâ s learning outcomes include the following:

- Compose effective visual and multimodal narratives.
- Develop an effective applied project that focuses on writing.

Career opportunities

Students and professionals can advance their career options with an undergraduate writing certificate. Graduates who have combined the certificate in writing with their major program of study may be more marketable to employers.

Undergraduate Programs

Undergraduate Degrees (Program Descriptions)

Business, W. P. Carey School of

Accountancy, BS (BAACCBS)

College/School: W. P. Carey School of Business

Campus: Tempe, West Valley, Online

Program description

The W. P. Carey School of Accountancy works closely with its professional advisory board to create a learning environment that emulates the professional world through exploration of applied processes and strategies. In the Bachelor of Science program in accountancy, you gain critical thinking, team-building, communication and information technology skills, along with knowledge of accounting theories and procedures.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 210 - Brief Calculus
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Accountancy and Data Analytics, MACC

Artificial Intelligence in Business, MS

Taxation and Data Analytics, MTax

Management, MS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:

First-year admission requirements: 1230 SAT Reasoning or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business Bachelor of Science major and who did not select a second major or are not admissible to their second major choice will be placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Students are required to have met ASU transfer student admission requirements, have a transfer GPA of 3.00 (and 3.00 ASU GPA, if applicable), and have met one of the following: an SAT Reasoning score of 1160 (prior to March 2016), or an SAT Reasoning score of 1230 (after March 2016), or an ACT score of 25, or graduated in the top 8% of their high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students who do not meet the above requirements may still qualify for direct admission by meeting all of the following: ASU general transfer student admission requirements, a transfer GPA of 3.00 (and ASU GPA, if applicable), and a 3.40 cumulative GPA in the following courses or equivalents. Students must have completed at least six of the eight courses.

- ACC 231 Uses of Accounting Info I
- ACC 241 Uses of Accounting Info II
- CIS 105 Computer Applications & Info Technology
- ECN 211 Macroeconomic Principles
- ECN 212 Microeconomic Principles
- ECN 221 Business Statistics
- MAT 210 Brief Calculus
- MAT 211 Math for Business Analysis

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside the W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and who did not select a second major, or are not admissible to their second major choice, are placed in a BA program in the W. P. Carey School of Business. Students not interested in the program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should visit the W. P. Carey School of Business (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) website to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the school's advising website (https://students.wpcarey.asu.edu/advising-sos).
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/accounting-degree/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAACCBS~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to accountancy students. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Understanding international accounting methods helps students become more well-rounded and competitive in the accounting field. Accountancy students in particular benefit from thinking about participating in a Global Education program (https://goglobal.asu.edu/) early in their program. Students can leverage global opportunities and learning, which are great assets as they prepare for internships; these programs also provide distinct experiences that students can share with recruiters.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/students/major/wp-carey/accountancy) for students majoring in accountancy.

Career opportunities

Accounting is a dynamic field, with varied career opportunities in the private sector and in government agencies worldwide.

Graduates have the essential academic preparation and competitive edge they need for:

- a position in consulting
- a position in personal financial planning and portfolio analysis
- a professional career in public, corporate and governmental accounting
- operating a business

Graduates are also well-positioned to pursue a graduate degree or attend law school.

Applied Business and Technology Solutions, BA (BAAPBTSBA)

College/School: W. P. Carey School of Business

Campus: Polytechnic, West Valley , Online

Program description

The Bachelor of Arts program in applied business and technology solutions is designed to meet your needs as a workforce learner who wishes to complete an undergraduate degree in business.

In this program, you can quickly access accounting, business analytics, computer information systems, economics, finance, management, marketing, process management and business ethics courses, and directly connect what's taught in the classroom to your working environment. The program's applied internship courses enable you to put what you're learning into practice, and emphasis areas allow you to further customize the degree.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 117 - College Algebra
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way business functions, study abroad programs provide students with valuable skills that employers are looking for, including communication and interpersonal skills, flexibility, motivation and a global perspective on business applications worldwide.

Business students can participate in Global Education programs (https://goglobal.asu.edu) nearly anywhere in the world and gain valuable internship experience in many global business hubs, such as Australia, Germany, England, Singapore, China and the United Arab Emirates.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/students/major/wpcarey) for students majoring in applied business and technology solutions.

Career opportunities

Graduates have a strong academic foundation in core business functions, and the program's flexibility enables them to apply their knowledge in a variety of fields and settings.

Artificial Intelligence in Business, BS (BAAIBBS)

College/School: W. P. Carey School of Business

Campus: Polytechnic, Tempe, Online

Program description

Artificial Intelligence in Business description
The Bachelor of Science program in artificial intelligence in business equips you with the technical AI and business skills required to succeed in the constantly evolving landscape of technology and information systems. As a business student in this program, you learn how to leverage AI mindfully, toward meaningful value creation within an organization.

You learn how AI technologies work and how to deploy AI successfully within a business. Plus, you are able to practice these skills in an organizational setting under the guidance of world-class business faculty and leaders.
Why study Artificial Intelligence in Business at ASU?
Artificial intelligence is transforming every industry --- and ASU ensures you stay ahead of the curve. The Department of Information Systems (https://wpcarey.asu.edu/information-systems-degrees) within the W. P. Carey School of Business

is consistently ranked among the nation's top 20 for undergraduate and graduate programs by U.S. News & World Report.

You learn from faculty who are award-winning leaders in information systems research and education. Their work in the Center for AI and Data Analytics for Business and Society (https://aida.wpcarey.asu.edu/) keeps ASU at the forefront of exploring how emerging technologies impact organizations and society.
Additional program degree details
This Bachelor of Science in artificial intelligence in business is offered across multiple ASU campuses and 100% online, so you can choose the format that fits your schedule and goals.

There are many ways to customize your experience (https://wpcarey.asu.edu/undergraduate/opportunities) at W. P. Carey. Student life and professional development opportunities include the AI in Business Club, which offers hands-on workshops, guest speakers and networking to help you build practical skills. Learn more about W. P. Carey student organizations through the Business School Council (https://www.wpcbsc.com/wpc-clubs-and-organizations).

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Second language requirement: No
STEM-OPT extension eligible: Yes
First required math course: MAT 210 - Brief Calculus
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Business, BA (BABUSBA)

College/School: W. P. Carey School of Business

Campus: Polytechnic, Tempe, West Valley

Students interested in the BA in Business should apply directly to the concentration they are interested in.

Program description

The Bachelor of Arts program in business provides an innovative, transdisciplinary approach to learning that broadens your career options upon graduation. Not only will you acquire a strong grounding in the principles of business, but you also immerse yourself in coursework outside the business school as a supplement to your degree.

You learn how to apply core business knowledge in one of the following disciplines:

• business (agribusiness innovation and technology)
• business administration
• communication
• corporate accounting
• food industry management
• global leadership
• global logistics management
• global politics
• health care
• human resources
• information security
• law
• language and cultures
• public service and public policy
• retail management
• sports business
• statistics
• sustainability
• technology
• tourism

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 210 - Brief Calculus
or MAT 117 College Algebra
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Public Administration, MPA

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:

First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice are placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students cannot change their major to this degree program. Students should submit a request through the business school's advising website (https://students.wpcarey.asu.edu/advising-sos) to declare a business concentration. Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSBA~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way business functions, study abroad programs (https://goglobal.asu.edu/) provide students with valuable skills that employers are looking for, including communication and interpersonal skills, flexibility, motivation and a global perspective on business applications worldwide. Business students can study abroad nearly anywhere in the world and participate in practical case studies in global business hubs.

Career opportunities

The W. P. Carey School of Business offers many concentrations, and graduates have options in a number of fields. Students should view specific concentrations for career opportunities information.

Business (Accounting and Business Decisions), BA (BABUSCABA)

College/School: W. P. Carey School of Business

Campus: Tempe, Online

This program's name has changed effective Fall 2026. The previous name was Business (Corporate Accounting).

Program description

The Bachelor of Arts program in business with a concentration in accounting and business decisions addresses your educational needs as someone who has an interest in accounting but does not plan to enter public accounting.

Managerial accounting is the emphasis of this program. The six major courses in the concentration prepare you for corporate accounting positions by helping you develop skills in strategic financial planning, control, corporate compliance and decision-making.

Upon completion of the program, you may take the Certified Management Accountant exam.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 210 - Brief Calculus
or MAT 117 College Algebra
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Accountancy and Data Analytics, MACC

Public Administration, MPA

Artificial Intelligence in Business, MS

Taxation and Data Analytics, MTax

Management, MS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
First-year admission requirements for this program are the same as the university's first-year admission requirements.

This program is not available to students with BA, Bachelor of Science or Master of Science degrees in accountancy.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice are placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should visit the W. P. Carey School of Business website (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) to determine whether they meet change of major requirements. Students who are ready to change their major should submit their request through the advising website (https://students.wpcarey.asu.edu/advising-sos). This program is not available to students who already hold a BA, BS or MS degree in accountancy.
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-corporate-accounting/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSCABA~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in corporate accounting. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Experiences abroad help students understand international accounting methods and grow their portfolio of marketable business skills, making them a competitive candidate in the corporate accounting field. A Global Education program (https://goglobal.asu.edu/) contributes to students' success by

enabling them to improve their interpersonal and language skills while they broaden their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-corporate-accounting) for students majoring in accounting and business decisions.

Career opportunities

Graduates have many career opportunities and are in high demand. Senior management roles for corporate accountants include chief financial officer. Currently, more than half of CFOs at larger corporations have formal accounting training. The longer term projected trend is for CFOs to have extensive corporate accounting training, particularly given that CFOs at public U.S. corporations personally sign financial statements.

Typical early- to mid-career positions held by corporate accountants include controller, treasurer and vice president in areas such as financial planning, divisional controlling, cost accounting directing, senior financial analysis and senior accounting. Individuals in these positions typically report to the CFO.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Business (Agribusiness Innovation and Technology), BA (BABUSGAGBA)

College/School: W. P. Carey School of Business

Campus: Polytechnic

Program description

Business (Agribusiness Innovation and Technology) description
The agribusiness industry is increasingly competitive, sophisticated and global, driving demand for innovative leaders who understand the industry's distinct challenges and practices. In the Bachelor of Arts program in business with a concentration in agribusiness innovation and technology, you learn the business of agricultural production, finance, marketing and distribution.

Through a technology-rich, applied, industry-oriented curriculum that focuses on practical projects, you explore global agribusiness issues such as international trade, food safety, food security and sustainability. This program is specifically designed to meet the needs of students interested in studying the business aspects of agriculture in the domestic and global economy. You learn to analyze and manage issues involved in food manufacturing, input and output supply activities, commodity trading and food distribution.
Why specialize in agribusiness innovation and technology at ASU?
Studying agribusiness at ASU equips you to design solutions for today's complex global food and agribusiness systems. Agribusiness powers the production, financing, marketing and distribution of the food, fiber and energy that support communities around the world.

As part of the highly ranked W. P. Carey School of Business, you discover how an education and career in agribusiness can create meaningful global impact. This growing, sustainable industry offers opportunities to help move products

from farm to market in efficient and profitable ways.

The Morrison School of Agribusiness (https://wpcarey.asu.edu/agribusiness-degrees) provides specialized coursework in food and agribusiness management along with experiential learning, including industry competitions and internships.

You benefit from a number of program advantages:

• applied courses and projects with real-world relevance
• individualized support from faculty and advisors
• leading-edge, technology-focused curriculum
Additional program details
This program is offered at ASU's Polytechnic campus (https://campus.asu.edu/polytechnic-campus), a hands-on learning environment focused on innovation, discovery and collaboration. You have access to specialized equipment and facilities that support real-world learning and experimentation.

There are many ways to customize your experience (https://wpcarey.asu.edu/undergraduate/opportunities) at W. P. Carey. To enhance your learning, you can join clubs like the ASU Global Agribusiness Club or Young Farmers & Ranchers --- professional organizations connecting you with networking opportunities, career resources and industry insights. Explore details about W. P. Carey student organizations through the Business School Council (https://www.wpcbsc.com/wpc-clubs-and-organizations).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 210 - Brief Calculus
or MAT 117 College Algebra

Global Management (Digital Audience Strategy), MGM

Management, MS

Global Management (Sustainability Solutions), MGM
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable; scale is 4.00 = "A") and a cumulative ASU GPA of 3.00 (scale is 4.00 = "A").

Transfer admission requirements: Transfer applicants must have a GPA of 3.00 (scale is 4.00 = "A") for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should refer to the W. P. Carey School of Business website (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) to determine whether they meet change of major requirements. Students who are ready to change their major should submit their request through the school's advising website (https://students.wpcarey.asu.edu/advising-sos).

Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSGAGBA~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in every field of business. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a contemporary perspective on business applications worldwide. By participating in a Global Education program (https://goglobal.asu.edu/), students improve their language skills while they broaden their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-global-agribusiness) for students majoring in business with a concentration in agribusiness innovation and technology.

Career opportunities

Careers this Business (Agribusiness Innovation and Technology) degree prepares you for

The agribusiness industry is becoming more complex, sophisticated and global --- driving demand for leaders who understand the unique challenges of food, agriculture and supply chain systems. ASU agribusiness graduates are prepared for careers with private agribusiness firms and government agencies in areas such as finance, management, marketing, supply chain and technology.

With personalized guidance from the W. P. Carey Career Services Center, you can gain access to diverse career pathways. Our alumni have secured positions with organizations including:

- AGCO
- Cargill
- Coca-Cola
- Farm Credit West
- Kraft Heinz
- Nestlé
- Shamrock Foods
- Taylor Farms
- Tyson Foods

Graduates also find work in various unified school districts.

Business (Applied Supply Chains), BA (BABUSGLBA)

College/School: W. P. Carey School of Business

Campus: West Valley, Online

This program's name has changed effective Fall 2026. The previous name was Business (Global Logistics Management).

Program description

The Bachelor of Arts program in business with a concentration in applied supply chains trains you to be a strategic thinker, excellent analyst, effective communicator and team leader who is focused on efficiency, effectiveness and increasing revenue.

You develop practical skills in areas such as supplier management, purchasing strategy, transportation, sustainability and data-driven decision-making. As organizations across the private, public and nonprofit sectors face increasing supply chain complexity, demand continues to grow for professionals trained not only in logistics, but also in procurement and strategic supply management.

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should visit the W. P. Carey School of Business (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) website to determine whether they meet change of major requirements. Students who are ready to change their major should submit their request through the advising website (https://students.wpcarey.asu.edu/advising-sos).
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-concentration-communication/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSCBA~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to business communication majors. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Understanding how to collaborate with diverse peers, persuade and negotiate, manage and work in a variety of teams, and connect with actual customers helps students influence business success through effective communication. A Global Education program (https://goglobal.asu.edu/) contributes to students' success by enabling them to improve their interpersonal and language skills while they broaden their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-business-communication) for students majoring in business communication.

Career opportunities

Graduates have specific knowledge of business practices and the capacity to effectively communicate complex business information. Business communication has exploded as a distinct professional field as companies require rapid and considered responses, conveying ordinary information as well as disseminating crisis communications. Historically, these positions have been staffed with people who are trained in communication, English, journalism or other fields but lack specific business knowledge. Graduates of this program are qualified to enter these positions with knowledge that is useful immediately to potential employers and can quickly advance graduates' careers.

Business (Financial Planning), BA (BABUSFPBA)

College/School: W. P. Carey School of Business

Campus: Tempe, Online

Program description

The Bachelor of Arts program in business with a concentration in financial planning provides you with knowledge and experience in personal financial planning.

You learn the necessary skills in finance, taxes, portfolio management, insurance and estate planning from leading faculty.

This program gives you the knowledge and skills needed to be a financial planning professional who develops solutions that meet your clients' personal financial needs.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 210 - Brief Calculus
or MAT 117 College Algebra
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Accountancy and Data Analytics, MACC

Public Administration, MPA

Artificial Intelligence in Business, MS

Taxation and Data Analytics, MTax

Management, MS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)

International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable; scale is 4.00 = "A") and a cumulative ASU GPA of 3.00 (scale is 4.00 = "A") .

Transfer admission requirements: Transfer applicants must have a GPA of 3.00 (scale is 4.00 = "A") for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should refer to the following W. P. Carey School of Business (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) website to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the W. P. Carey School of Business advising website (https://students.wpcarey.asu.edu/advising-sos).
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/financial-planning-business/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSFPBA~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: With more than 300 Global Education program opportunities (https://goglobal.asu.edu/) available to them, financial planning students are able to tailor their experience to their unique interests and skill sets. Whether in a

foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-financial-planning) for students majoring in financial planning.

Career opportunities

Financial planners are in high demand in the dynamic field of financial services and planning. Aging populations are paying closer attention to their finances as they approach retirement, and the rising need for financial planning services and advisors translates into huge opportunities for careers in this growing market. Employment of personal financial advisors is projected to grow 10% between 2024 and 2034, much faster than the average for all occupations.

Graduates can secure employment in the growing field of financial services and planning.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Global opportunities

Global experience: As globalization and growing populations continue to impact the way the world lives and works, international experiences have become vital to success in food industry management. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a contemporary perspective on business applications worldwide. Understanding global trends as consumer tastes and needs change helps students be more prepared and competitive leaders in a variety of food industry firms and organizations. Through participation in a Global Education program (https://goglobal.asu.edu/), students improve their language skills while they broaden their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/students/major/wp-carey/food-industry-management) for students majoring business with a concentration in food industry management.

Career opportunities

Graduates are prepared for business careers in the food industry, which is defined as the group of firms and organizations involved with manufacturing, marketing and distributing food beyond the farm to retail stores, restaurants and institutions such as schools and hospitals. The industry is becoming increasingly competitive, sophisticated and global, and it shows a growing demand for professional management: One in six people are employed in the food industry nationwide, with 100,000 in Arizona.

Global opportunities

Global experience: As globalization continues to impact the way business functions, study abroad programs (https://goglobal.asu.edu/) offer vital experiences, providing business students with opportunities to practice cultural competency-building for global business success.

Students gain valuable skills that employers are looking for, including communication skills, flexibility, motivation and a global perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-global-politics) for students majoring in business with a concentration in global politics.

Career opportunities

Graduates of the global politics concentration think critically about global problems and integrate inquiry and action to become responsible leaders. Successful graduates have a firm understanding of how the relationship between a local marketplace and politics can impact global decisions. They are prepared to successfully launch careers in many fields, including:

- campaign and issue management
- information analysis
- public relations

Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable; scale is 4.00 = "A") and a cumulative ASU GPA of 3.00 (scale is 4.00 = "A").

Transfer admission requirements: Transfer applicants must have a GPA of 3.00 (scale is 4.00 = "A") for all transfer coursework and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should refer to the W. P. Carey School of Business (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) website to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the advising website (https://students.wpcarey.asu.edu/advising-sos).
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSHCBA~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to health care communities around the world. Through international study and internships, students can gain valuable skills that employers are seeking: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Immersion in a foreign culture helps students gain a new perspective on how to provide critical health care to diverse populations of various backgrounds. A Global Education program (https://goglobal.asu.edu/) contributes to this work by enabling participating students to improve their interpersonal and language skills while they broaden their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-business-health-care) for students majoring in business with a concentration in health care.

Career opportunities

Graduates have the ability to understand different stakeholders in complex environments. They are prepared for careers in health care management, administration, access, analytics and policy-setting in public or private health care settings.

Business (Human Resources), BA (BABUSHRBA)

College/School: W. P. Carey School of Business

Campus: Polytechnic, Online

Program description

Business (Human Resources) description
This Bachelor of Arts in business with a concentration in human resources program involves both theoretical and applied concepts, with a focus on practical and applied aspects of human resources.

You obtain foundational knowledge in labor relations and labor law, workforce planning and artificial intelligence influences in the employment arena. You also engage in a deep exploration of staffing, global HR, training and development, employment law, and compensation and benefits. In addition, there are opportunities to participate in an HR project internship as part of your coursework.
Why specialize in human resources at ASU?
As part of the nation's most innovative university, W. P. Carey School of Business prepares you to lead the future of work. You learn from expert faculty with real-world experience in areas such as leadership, HR analytics and organizational development.

The Department of Management and Entrepreneurship (https://wpcarey.asu.edu/management-degrees) is recognized among the best in the world for research productivity and innovation. As part of the W. P. Carey community, you benefit from internship opportunities, corporate partnerships and access to major employers in the Phoenix metro area --- one of the fastest-growing business regions in the country.
Additional program details
This program is available 100% online or in person at ASU's Polytechnic campus (https://campus.asu.edu/polytechnic-campus) --- a collaborative, innovation-focused environment offering hands-on learning spaces and resources.

There are many ways to customize your experience (https://wpcarey.asu.edu/undergraduate/opportunities) at W. P. Carey. The ASU student chapter of the Society for Human Resource Management connects you with HR professionals and peers through events, networking opportunities and industry insights, helping you stay current with trends and best practices in the field. Learn more about W. P. Carey student organizations through the Business School Council (https://www.wpcbsc.com/wpc-clubs-and-organizations).

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 210 - Brief Calculus
or MAT 117 College Algebra
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Public Administration, MPA

Management, MS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should visit the W. P. Carey School of Business (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) website to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the advising website (https://students.wpcarey.asu.edu/advising-sos).
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-business-human-resources/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSHRBA~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Participation in a Global Education program (https://goglobal.asu.edu/), through international study and internships, enables students to broaden their understanding of international business practices and gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-human-resources) for students majoring business with a concentration in human resources.

Career opportunities

Careers this Business (Human Resources) degree prepares you for

A career in human resources offers opportunities to shape workplace culture, recruit and retain talent, and drive organizational success. Graduates are prepared to work in businesses, nonprofit organizations and government agencies in areas such as:

- compensation and benefits
- employee relations and labor relations
- HR analytics and technology
- learning and development
- talent acquisition (recruiting) and workforce planning

You'll graduate ready to perform both strategic human capital work and technical HR functions, including policy design and employee engagement, as an expert in the use of emerging automation and AI technologies.

Professional licensure

ASU programs that may lead to professional licensure or certification are intended to prepare students for potential licensure or certification in Arizona. Completion of an ASU program may not meet educational requirements for licensure or certification in another state. For more information, students should visit the ASU professional licensure (https://admission.asu.edu/academics/licensure) webpage.

Business (Information Security), BA (BABUSISBA)

College/School: W. P. Carey School of Business

Campus: West Valley, Online

Program description

Data security has become an everyday part of business operations. Protecting key stakeholders and clients is essential for businesses of all sizes and types.

The Bachelor of Arts program in business with a concentration in information security provides you with core business skills as well as the basic critical and technical skills necessary to understand cyber threats, risks and security in the business setting. You discover why data security and risk management are critical parts of daily business operations, and you learn about cyber infrastructure and information security in the context of startups and enterprises across industries.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Second language requirement: No
STEM-OPT extension eligible: Yes
First required math course: MAT 210 - Brief Calculus
or MAT 117 College Algebra
Math intensity: Moderate

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way the world lives and works, international experiences have become essential to language and culture majors. They provide students with vital experiences, enabling them to build critical skills in navigating cultural customs and understanding the nuances of conducting international business. Through international study and internships, students gain valuable skills that employers are looking for:

communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide.

Nearly 90% of surveyed executive recruiters believe that bilingualism is critical to global business success, according to the Korn/Ferry International Executive Recruiter Index. A Global Education program (https://goglobal.asu.edu/) contributes to students' success by enabling them to improve their language skills while broadening their understandings of international business practices.

The W. P. Carey School of Business recommends the language and culture administration global education program (https://goglobal.asu.edu/w-p-carey-language-and-culture), the Chinese language and culture administration global education program (https://goglobal.asu.edu/w-p-carey-chinese-language-and-culture) and the Spanish language and culture administration global education program (https://goglobal.asu.edu/w-p-carey-spanish-language-and-culture) for students majoring in language and culture.

Career opportunities

Graduates are equipped to play key roles in companies and organizations that are seeking new markets or dealing with international interests domestically. The demand for multilingual business professionals is strong in the hotel and tourism industry and in consulting, banking and finance, international trade, sports management and media companies.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way business functions, study abroad programs (https://goglobal.asu.edu/) provide vital experiences to students, giving them opportunities to practice building cultural competency for global business success. Students gain valuable skills that employers seek, including communication skills, flexibility, motivation and a global perspective on business applications worldwide. Graduates of the law concentration have a firm understanding of how the relationship between a local marketplace and local laws can impact global decisions.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-business-law) for students majoring in business.

Career opportunities

Graduates of the law concentration pursue careers in the business world, and exposure to aspects of law and legal issues assists them in attaining their career goals. Graduates are prepared to use their skills in a variety of industries and in areas as diverse as new business ventures and corporate or agency compliance.

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice will be placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should refer to the W. P. Carey School of Business (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) website to determine whether they meet change of major requirements. Students ready to change their major should submit their request through the advising website (https://students.wpcarey.asu.edu/advising-sos).
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSPBA~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way business functions, study abroad programs (https://goglobal.asu.edu/) provide vital experiences to students. They gain valuable skills that employers are seeking, including communication skills, flexibility, motivation and a real-life perspective on business applications worldwide. Graduates of the public service and public policy concentration have a firm understanding of how the relationship between a local marketplace and public policy can impact global decisions.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-public-service-and-public-policy) for students majoring in business with a concentration in public service and public policy.

Career opportunities

Job opportunities in the public sector are increasing for graduates because of retiring workers and an increasing demand for public services. Through comprehensive coverage of topics in public policy and public administration, the program prepares students for work in public, nonprofit and private sectors.

The program also offers preparation for students who wish to pursue graduate degrees in:

law
nonprofit administration or other public service
policy-oriented areas
public administration
public policy

Business (Retail Management), BA (BABUSRBA)

College/School: W. P. Carey School of Business

Campus: Online

Program description

The Bachelor of Arts program in business with a concentration in retail management provides a business curriculum focused on the knowledge and skills you need for leadership roles in the retail industry.

The program has been developed in collaboration with faculty and industry professionals to provide a curriculum responsive to industry needs. Drawing on coursework from four areas in the concentration, the program offers the full business core plus 18 credit hours of retail-specific coursework, giving you the broad preparation and leadership skills required today.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 210 - Brief Calculus
or MAT 117 College Algebra
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some

combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Artificial Intelligence in Business, MS

Management, MS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements.

Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-

programs/undergraduate/bachelor-arts-business-retail-management/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSRBA~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: Participation in international study and internships through a Global Education program (https://goglobal.asu.edu/) enables business students to broaden their understanding of international business practices while gaining valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-retail-management) for students majoring in business with a concentration in retail management.

Career opportunities

Graduates are ready to assume positions of responsibility in the retail industry, such as:

- administrative services manager
- business manager
- food service manager
- general and operations management
- management analyst
- operations specialist
- purchasing or buying manager
- sales manager
- training and development manager
- wholesale and manufacturing representative

Business (Sports Business), BA (BABUSMSBA)

College/School: W. P. Carey School of Business

Campus: Tempe, West Valley, Online

Program description

The Bachelor of Arts program in business with a concentration in sports business is ideal if you have an interest in the sports industry.

You acquire the skills necessary to build knowledge and understanding of the development of the strategic business process in sports organizations and its relationship to media. The program emphasizes practical aspects of the sports industry, particularly focusing on media and its influence on the field.

The proliferation of mass communication, including television, game systems and social networks, has transformed sports into a highly commercialized industry; in turn, sports continue to generate revenues for these businesses. The interaction between sports and media has led to a multitude of applications of business knowledge to these fields.

Second language requirement: No

Global opportunities

Global experience: With more than 300 Global Education program opportunities (https://goglobal.asu.edu/) available to them, sports business students are able to tailor their experience to their specific interests and skill sets. Whether in a foreign country, in the U.S. or online, students build communication skills, learn to adapt and persevere, and are exposed to research and internships across the world, increasing their professional network. Through global experiences, students gain valuable skills that employers seek, such as communication skills, flexibility, motivation and an international perspective on business applications worldwide.

Business students can study abroad nearly anywhere in the world, including in global business hubs. The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-sports-business) for students pursuing degree in business with a concentration in sports business.

Career opportunities

Graduates with this concentration find opportunities in mass communication, including television, game systems and social networks. Career opportunities for graduates include these positions:

- administrative service manager
- advertising and sponsorship salesperson
- agent
- business manager
- event planner
- management analyst
- operations specialist
- purchasing or buying manager
- wholesale and manufacturing representative

Business (Statistics), BA (BABUSTABA)

College/School: W. P. Carey School of Business

Campus: West Valley

Program description

If you are interested in a curriculum that helps you develop solid business skills while emphasizing mathematics and statistics, the Bachelor of Arts program in business with a concentration in statistics is designed for you. The program covers theoretical and applied statistics, focusing on the practical application of statistical methods.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT

extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Second language requirement: No
STEM-OPT extension eligible: Yes
First required math course: MAT 210 - Brief Calculus
or MAT 117 College Algebra
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Global opportunities

Global experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in every field of business. Through a Global Education program (https://goglobal.asu.edu/), students can gain valuable skills that employers are seeking: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Understanding statistical methods used internationally helps students become more well-rounded and competitive in their chosen field. A Global Education program contributes to students' success by enabling them to improve their interpersonal and

language skills while they broaden their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-statistics) for students majoring in business with a concentration in statistics.

Career opportunities

Graduates are prepared for business or government positions in which they use statistics to help make decisions and solve problems. Potential opportunities include these positions:

- financial analyst
- market and survey researcher
- personal financial advisor
- statistician

Global opportunities

Global experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to business sustainability majors. Through a Global Education program (https://goglobal.asu.edu/), students gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Understanding global sustainability perspectives helps students rethink the nature of business as they gain the knowledge necessary to influence growth, improve returns on capital and strengthen risk management through sustainability. Participating in a Global Education program contributes to this knowledge by enabling students to improve their interpersonal and language skills while they broaden their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-business-sustainability) for students majoring in business with a concentration in sustainability.

Career opportunities

Graduates are prepared for roles in a wide variety of professions in which business and sustainability intersect. As interest in sustainability continues to grow, organizations increasingly seek ways to thrive while minimizing their environmental impact --- making this a critical issue for society. People around the world are asking how to understand, evaluate and act on sustainability challenges while making sound business decisions. This program equips graduates with the interdisciplinary knowledge needed to address these challenges, balancing societal, scientific and business considerations.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice are placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should refer to the W. P. Carey School of Business (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) website to determine whether they meet change of major requirements. Students who are ready to change their major should submit their request through the advising website (https://students.wpcarey.asu.edu/advising-sos).
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSTCBA~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in every field of business. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. A Global Education program (https://goglobal.asu.edu/) contributes to students' success by enabling them to improve their interpersonal and language skills while they broaden their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-technology) for students majoring in business technology.

Career opportunities

Program graduates bring a solid background in business to technology companies. They can also apply their technological skills in a variety of industries.

Business (Tourism), BA (BABUSTBA)

College/School: W. P. Carey School of Business

Campus: Tempe, Online

Program description

The Bachelor of Arts program in business with a concentration in tourism is an innovative transdisciplinary offering that prepares you for positions in a variety of professions in which business and tourism play important roles.

You complete rigorous courses within the tourism concentration, in addition to the skill and core courses required of all W. P. Carey School of Business majors.

Developing tourism and recreation opportunities requires you to have an understanding of effective marketing techniques and the ability to interact with many different types of businesses that support those efforts.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 210 - Brief Calculus
or MAT 117 College Algebra
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management (Sustainable Tourism), MGM

Global Management (Global Digital Transformation), MGM

Global Management (Global Health Care Delivery), MGM

Global Management (Creative Industries and Design Thinking), MGM

Global Management (Global Development and Innovation), MGM

Public Administration, MPA

Global Management (Nonprofit Leadership and Management), MGM

Global Management (Global Entrepreneurship), MGM

Global Management (Global Business), MGM

Global Management, MGM

Global Management (Global Affairs), MGM

Global Management (Public Administration), MGM

Global Management (Public Policy), MGM

Global Management (Global Legal Studies), MGM

Global Management (Digital Audience Strategy), MGM

Management, MS

Global Management (Sustainability Solutions), MGM
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
First-year admission requirements for this program are the same as the university's first-year admission requirements.

Readmission requirements: Students must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Transfer applicants must have a GPA of 3.00 for all transfer work and meet university transfer admission requirements. Transfer students should select an additional major, which must be outside the W. P. Carey School of Business, when applying for admission.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major or are not admissible to their second major choice are placed in the BA program in applied business and technology solutions in W. P. Carey School of Business, which is offered via ASU Online as well as at the Polytechnic and West Valley campus locations. Students not interested in that program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should refer to the W. P. Carey School of Business (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) website to determine whether they meet change of major requirements. Students who are ready to change their major should submit their request through the advising website (https://students.wpcarey.asu.edu/advising-sos).
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-arts-business-tourism/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSTBA~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way people live and work, study abroad programs (https://goglobal.asu.edu/) provide students with valuable skills that employers are seeking, including communication and interpersonal skills, flexibility, motivation and a global perspective on business applications worldwide. Business students can study abroad nearly anywhere in the world to gain practical, hands-on experience and learn how tourism impacts the local and global economy and best practices.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-tourism) for students majoring in business with a concentration in tourism.

Career opportunities

Tourism management and development combines marketing and economic development with an emphasis on managerial understanding to promote smooth operations. With solid academic preparation in business, graduates are positioned for success in the tourism industry and affiliated professions. The skills acquired from exposure to both business and tourism courses make graduates more marketable and productive in their careers.

Business Data Analytics, BS (BABDABS)

College/School: W. P. Carey School of Business

Campus: Tempe, Online

Program description

In the Bachelor of Science program in business data analytics, you gain the requisite knowledge, skills and experience to create and manage big data initiatives and associated business processes to facilitate large-scale business data analytics in organizations.

You learn organizational and technical competencies to implement data gathering, cleansing, integration and modeling tasks, as well as data asset analysis for business applications. The program covers data warehousing, dimensional modeling, big data analytics methods, and visualization tools and techniques, and it introduces topics such as data mining and predictive analytics.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Second language requirement: No
STEM-OPT extension eligible: Yes
First required math course: MAT 210 - Brief Calculus
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management (Sustainable Tourism), MGM

Global Management (Global Digital Transformation), MGM

Global Management (Global Health Care Delivery), MGM

Global Management (Creative Industries and Design Thinking), MGM

Artificial Intelligence in Business, MS

Global Management (Global Entrepreneurship), MGM

Global Management (Global Business), MGM

Global Management, MGM

Global Management (Data Science), MGM

Business Analytics, MS

Global Management (Global Affairs), MGM

Global Management (Public Administration), MGM

Global Management (Public Policy), MGM

Global Management (Global Legal Studies), MGM

Global Management (Digital Audience Strategy), MGM

Management, MS

Global Management (Sustainability Solutions), MGM
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
First-year admission requirements: 1230 SAT Reasoning or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business Bachelor of Arts programs or any other degree program outside the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice will be placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Students are required to have met ASU transfer student admission requirements, have a transfer GPA of 3.00 (and 3.00 ASU GPA, if applicable), and have met one of the following: an SAT Reasoning score of 1160 (prior to March 2016), or an SAT Reasoning score of 1230 (after March 2016), or an ACT score of 25, or graduated in the top 8% of their high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students who do not meet the above requirements may still qualify for direct admission by meeting all of the following: ASU general transfer student admission requirements, a transfer GPA of 3.00 (and ASU GPA, if applicable), and a 3.40 cumulative GPA in the following courses or equivalents. Students must have completed at least six of the eight courses.

- ACC 231 Uses of Accounting Info I
- ACC 241 Uses of Accounting Info II
- CIS 105 Computer Applications & Info Technology
- ECN 211 Macroeconomic Principles

• ECN 212 Microeconomic Principles
• ECN 221 Business Statistics
• MAT 210 Brief Calculus
• MAT 211 Math for Business Analysis

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside the W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major, or are not admissible to their second major choice will be placed in a BA program in the W. P. Carey School of Business. Students not interested in the degree or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should review W. P. Carey School of Business minimum requirements (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the school's advising website (https://students.wpcarey.asu.edu/advising-sos).
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/bachelor-science-business-data-analytics/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABDABS~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to business data analytics students. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. International experiences can help students understand new perspectives in the use of data on an international scale. Business data analytics students in particular benefit from thinking about participating in a Global Education program (https://goglobal.asu.edu/) early in their program. Students can leverage global opportunities and learning, which are great assets as students prepare for internships; students

also can share these unique experiences with recruiters.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-business-data-analytics) for students majoring in business data analytics.

Career opportunities

The demand for employees with business analytics skills is strong; the Occupational Information Network projects 34% growth in business intelligence analyst positions through 2034. The career table below shows additional details and lists other career opportunities that leverage a business analytics skill set.

Graduates can become data analysts, data architects, data visualization developers, data change agents and data operators. Many graduates serve as data architects, change agents and analytics tool suite operators for business and government.

These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in every field of business, especially business entrepreneurship.

Global Education programs (https://goglobal.asu.edu/) can provide exposure to global startups and how different countries approach entrepreneurship. Through international study and internships, students can gain valuable skills that employers are looking for: communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide. International experience help students learn to identify global market trends and opportunities, and strategically execute innovative entrepreneurial solutions that will ignite change and make an impact. Through participation in a Global Education program, students improve their interpersonal and language skills as they broaden their understandings of international business practices.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-business-entrepreneurship) for students majoring in business entrepreneurship.

Career opportunities

Graduates of the program understand the unique requirements of an entrepreneur and have learned how to effectively identify market opportunities, innovative solutions and execution strategies. They may follow multiple self-directed paths, such as starting a new venture or nonprofit organization, working for a new venture or a small business, or taking a position as an innovative leader within an existing organization.

Business Exploratory, (BABUSEXP)

College/School: W. P. Carey School of Business

Campus: Tempe

Program description

Virtually every profession and organization uses business in some way. As a business exploratory program student, you have an opportunity to explore a variety of areas in business before selecting one of these 12 majors:

- accountancy
- artificial intelligence in business
- business data analytics
- business entrepreneurship
- computer information systems
- economics
- finance
- financial technology
- management
- marketing
- real estate and applied finance
- supply chain management

You work with world-class faculty in an environment that values high-quality teaching, and you have the opportunity to graduate from one of many Bachelor in Science programs in the W. P. Carey School of Business.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 210 - Brief Calculus
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
The first-year admission standards for this major are higher than the university's first-year admission standards. First-year admission requirements: 1230 SAT Reasoning or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer admission requirements: For students who hold 30 or more transfer credit hours after high school: Students must have a transfer GPA of 3.00 and a score of 1160 (prior to March 2016) or 1230 SAT Reasoning (after March 2016) OR 25 ACT score, OR the student must have graduated in the top 8% of their high school class OR have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students are not permitted to change their major to this degree program. Students admitted to this exploratory program who are ready to declare their major should submit their request through the advising website (https://students.wpcarey.asu.edu/advising-sos).
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BABUSEXP~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way the world lives and works, international experiences have become vital to success in every field of business. Through any of the more than 300 available Global Education programs (https://goglobal.asu.edu/), students can gain valuable skills that employers are looking for: communication and interpersonal skills, as well as flexibility, motivation and a real-life perspective on business applications worldwide.

Career opportunities

Graduates have the skills and knowledge needed in today's companies, whether they are starting their own businesses or working in large multinational corporations. Career opportunities are listed in the program description for each

major.

Additionally, many graduates attend some of the other top-tier graduate schools in the country in a variety of disciplines.

Information Systems Management, MS

Management, MS

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
First-year admission requirements: 1230 SAT Reasoning or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business BA programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Students are required to have met ASU transfer student admission requirements, have a transfer GPA of 3.00 (and 3.00 ASU GPA, if applicable), and have met one of the following: an SAT Reasoning score of 1160 (prior to March 2016), or an SAT Reasoning score of 1230 (after March 2016), or an ACT score of 25, or graduated in the top 8% of their high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students who do not meet the above requirements may still qualify for direct admission by meeting all of the following: ASU general transfer student admission requirements, a transfer GPA of 3.00 (and ASU GPA, if applicable), and a 3.40 cumulative GPA in the following courses or equivalents. Students must have completed at least six of the eight courses.

- ACC 231 Uses of Accounting Info I
- ACC 241 Uses of Accounting Info II
- CIS 105 Computer Applications and Info Technology
- ECN 211 Macroeconomic Principles
- ECN 212 Microeconomic Principles
- ECN 221 Business Statistics
- MAT 210 Brief Calculus
- MAT 211 Math for Business Analysis

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major, or are not admissible to their second major choice, will be placed in a BA program in the W. P. Carey School of Business. Students not interested in the program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should visit the W. P. Carey School of Business (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) website to determine if they meet change of major requirements. Students who are ready to change their major should submit their request through the school's advising website (https://students.wpcarey.asu.edu/advising-sos).
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/computer-information-systems-bs/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BACISBS~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way people live and work, international experiences have become vital to success in every field of business. Through international study and internships (https://goglobal.asu.edu/), students gain valuable skills that employers are looking for, including communication and interpersonal skills, flexibility, motivation, and a real-life perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-computer-information-systems) for students majoring in computer information systems.

Career opportunities

Currently, there is a shortage of information systems professionals, with many more jobs than qualified applicants. With a degree in computer information systems, graduates have limitless career choices. A computer information systems degree can lead to job opportunities in a variety of industries, including:

- education
- entertainment
- finance
- health care
- national defense
- transportation

Information systems are key components in the success of other functional business areas such as accounting, supply chain management, finance and marketing. Entry-level information systems positions include:

- computer forensics analyst
- database administrator
- information systems consultant
- information technology security manager
- network administrator
- project manager
- software or systems developer
- systems administrator
- systems analyst

Long-term career aspirations for a graduate with a computer information systems degree could include:

- chief executive officer
- chief information officer
- chief knowledge officer
- chief security officer
- chief technology officer

Economics, BS (BAECNBS)

College/School: W. P. Carey School of Business

Campus: Tempe, Online

Program description

In this Bachelor of Science program in economics, you choose from a variety of electives offered by the Department of Economics and many other ASU departments. You're encouraged to develop a program of study tailored to your individual needs and interests.

You acquire the critical thinking and communication skills needed to succeed in business or graduate school. The program of study can also be tailored to prepare you for graduate programs in economics, business or law. If you're interested in pursuing a doctorate in economics, you're strongly encouraged to minor or major in mathematics as well.

The department's mission is to provide the highest quality instruction to students, conduct advanced research in economics, and provide leadership and service to professional communities.

STEM-OPT for International Students on F-1 Visas
This program may be eligible for an Optional Practical Training extension for up to 36 months. This OPT work authorization term may help international students gain skills and experience in the U.S. Those interested in an OPT extension should review ASU degrees that qualify for the STEM-OPT extension (https://issc.asu.edu/f-1j-1-students/employment/stem) at ASU's International Students and Scholars Center website.
The OPT extension only applies to students on an F-1 visa and does not apply to students completing the degree through ASU Online.

Second language requirement: No
STEM-OPT extension eligible: Yes

First required math course: MAT 210 - Brief Calculus
or MAT 270 Calculus with Analytic Geometry I
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management (Sustainable Tourism), MGM

Global Management (Global Digital Transformation), MGM

Global Management (Global Health Care Delivery), MGM

Global Management (Creative Industries and Design Thinking), MGM

Global Management (Global Development and Innovation), MGM

Public Administration, MPA

Global Management (Nonprofit Leadership and Management), MGM

Artificial Intelligence in Business, MS

Global Management (Global Entrepreneurship), MGM

Global Management (Global Business), MGM

Global Management, MGM

Global Management (Data Science), MGM

Global Management (Global Affairs), MGM

Global Management (Public Administration), MGM

Global Management (Public Policy), MGM

Global Management (Global Legal Studies), MGM

Global Management (Digital Audience Strategy), MGM

Management, MS

Global Management (Sustainability Solutions), MGM

Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)

Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
First-year admission requirements: 1230 SAT Reasoning or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business Bachelor of Arts programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Students are required to have met ASU transfer student admission requirements, have a transfer GPA of 3.00 (and 3.00 ASU GPA, if applicable), and have met one of the following: an SAT Reasoning score of 1160 (prior to March 2016), or an SAT Reasoning score of 1230 (after March 2016), or an ACT score of 25, or graduated in the top 8% of their high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students who do not meet the above requirements may still qualify for direct admission by meeting all of the following: ASU general transfer student admission requirements, a transfer GPA of 3.00 (and ASU GPA, if applicable), and a 3.40 cumulative GPA in the following courses or equivalents. Students must have completed at least six of the eight courses.

- ACC 231 Uses of Accounting Info I
- ACC 241 Uses of Accounting Info II
- CIS 105 Computer Applications and Info Technology
- ECN 211 Macroeconomic Principles
- ECN 212 Microeconomic Principles
- ECN 221 Business Statistics
- MAT 210 Brief Calculus
- MAT 211 Math for Business Analysis

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major, or are not admissible to their second major choice, will be placed in a BA program in the W. P. Carey School of Business. Students not interested in the program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should visit the W. P. Carey School of Business website (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) to determine whether they meet change of major requirements. Students who are ready to change their major should submit their request through the school's advising website (https://students.wpcarey.asu.edu/advising-sos).

Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Attend online

ASU Online: ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program's ASU Online page (https://asuonline.asu.edu/online-degree-programs/undergraduate/economics-bs-wpc/) for program descriptions and to request more information.

ASU Local: It is now possible to earn an ASU degree with ASU Local (https://asulocal.asu.edu), an integrated college experience in which students take advantage of in-person success coaching and programming experiences on site while completing one of 130+ undergraduate online degree programs, all of which come with online faculty interaction and tutoring support.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAECNBS~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way people live and work, international experiences (https://goglobal.asu.edu/) have become vital to success in every field of business. Through international study and internships, students can see different economic systems play out in real time and gain valuable skills that employers seek, including communication and interpersonal skills, flexibility, motivation and a global perspective on business applications worldwide.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/w-p-carey-economics) for students majoring in economics.

Career opportunities

A major in economics provides students with the analytical and quantitative skills needed in careers in business, government and public policy.

Some graduates have taken positions as:

- consultants who serve as advisors to state and federal governments and private corporations
- corporate economists who collect data and make forecasts relevant to the firm's business
- employees in banking and financial services firms

Each year, many graduates pursue further studies at other prestigious universities.

Entrepreneurial Leadership, BA (BAENTLBA)

College/School: W. P. Carey School of Business

Campus: West Valley, Online

Program description

In the Bachelor of Arts program in entrepreneurial leadership, you prepare to start, lead and manage entrepreneurial organizations for long-term success.

This program develops entrepreneurial-minded leaders like you to effectively manage the value-creation process of existing small and medium-sized businesses, and manage new ventures. Through your coursework and internship opportunities, you become a leader by developing a broad entrepreneurial mindset and leadership style that enable you to seize entrepreneurial opportunities. You can also develop and nurture those entrepreneurial opportunities within your organizations through the effective communication, team building, critical thinking and problem-solving skills you learn in this program.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 117 - College Algebra
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Finance, BS (BAFINBS)

College/School: W. P. Carey School of Business

Campus: Tempe

Program description

The Department of Finance has a rich tradition of educating leaders who excel in all aspects of the discipline of finance. Whether you aspire to ascend to the top ranks of the venture capital industry, execute multimillion-dollar real estate deals, or become a successful entrepreneur with your own ideas and drive, the Bachelor of Science program in finance equips you to succeed.

In particular, the Investment Banking Industry Scholars program mentors you if you're interested in working on Wall Street. The student investment management fund provides you the opportunity to manage an actual investment portfolio worth hundreds of thousands of dollars.

Finance department faculty members are considered among the top researchers in the world because of their scholarly publications. The professional advisory board, comprising leading professionals from the financial services, manufacturing, energy, investment banking and real estate sectors, provides a sounding board for new ideas and is a job resource for top graduates.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 210 - Brief Calculus

Financial Technology, BS (BAFINTBS)

College/School: W. P. Carey School of Business

Campus: Polytechnic

Program description

Financial Technology description
Financial technology, commonly referred to as fintech, is a rapidly growing field that has revolutionized financial services. The permeation of technology into traditional banks and financial services firms and the use of technology to improve financial services have led to more efficient, convenient and accessible financial products for consumers and businesses alike, opening opportunities for innovation across the financial sector.

In the Bachelor of Science program in financial technology, you develop an understanding of key concepts, technologies and trends shaping the industry, and learn to analyze and evaluate the opportunities and challenges presented by financial technology innovations. You cultivate critical thinking and problem-solving skills to effectively apply solutions to practical challenges.
Why study Financial Technology at ASU?
At ASU's highly regarded W. P. Carey School of Business, you study under faculty in the Department of Finance (https://wpcarey.asu.edu/finance-degrees) who are recognized experts and researchers in corporate finance, asset pricing, governance, market microstructure, real estate, portfolio management and fintech. Their real-world experience and industry insights guide you as you learn to simplify complex financial systems through structured, analytical thinking.

You also have access to experiential learning opportunities (https://wpcarey.asu.edu/finance-degrees/undergraduate-learning-experiences) such as hands-on practicums, applied projects and internships. These experiences help you connect classroom concepts to real-world challenges and prepare you to contribute to the future of financial services.
Additional program details
This program is offered at ASU's Polytechnic campus (https://campus.asu.edu/polytechnic-campus) --- a hub for innovation and interdisciplinary collaboration. You learn in cutting-edge facilities that encourage hands-on exploration and problem-solving in real-world contexts.

There are many ways to customize your experience (https://wpcarey.asu.edu/undergraduate/opportunities) at W. P. Carey. You can connect with a vibrant community of peers through more than 40 business-related clubs and organizations, offering additional opportunities for leadership, networking and career development. Learn more through the Business School Council (https://www.wpcbsc.com/wpc-clubs-and-organizations).

Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Students are required to have met ASU transfer student admission requirements, have a transfer GPA of 3.00 (and 3.00 ASU GPA, if applicable), and have met one of the following: an SAT Reasoning score of 1160 (prior to March 2016), or an SAT Reasoning score of 1230 (after March 2016), or an ACT score of 25, or graduated in the top 8% of their high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

Transfer students who do not meet the above requirements may still qualify for direct admission by meeting all of the following: ASU general transfer student admission requirements, a transfer GPA of 3.00 (and ASU GPA, if applicable), and a 3.40 cumulative GPA in the following courses or equivalents. Students must have completed at least six of the eight courses.

- ACC 231 Uses of Accounting Info I
- ACC 241 Uses of Accounting Info II
- CIS 105 Computer Applications and Info Technology
- ECN 211 Macroeconomic Principles
- ECN 212 Microeconomic Principles
- ECN 221 Business Statistics
- MAT 210 Brief Calculus
- MAT 211 Math for Business Analysis

Transfer students should select an additional major when applying for admission. Additional choices may include any of the school's BA programs or any other business or other degree program outside W. P. Carey School of Business.

Students who are admissible to the university but do not meet admission requirements for this program and did not select a second major, or are not admissible to their second major choice, will be placed in a BA program in the W. P. Carey School of Business. Students not interested in the program or campus location may reach out to wpcareyug@asu.edu (mailto:wpcareyug@asu.edu) for assistance in selecting another degree program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Change of Major requirements

Students should visit the W. P. Carey School of Business (https://students.wpcarey.asu.edu/degrees-and-advising/degree-programs/change-majors) website to determine if they meet change of major requirements. Students

who are ready to change their major should submit their request through the school's advising website (https://students.wpcarey.asu.edu/advising-sos).
Students should visit the Change of Major form (https://changemajor.apps.asu.edu) for information about how to change a major to this program.

Transfer options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use MyPath2ASU® (https://webapp4.asu.edu/transfercreditguide/app/transfermap?major=BAFINTBS~null&college=CBA) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships (https://admission.asu.edu/transfer/MyPath2ASU) in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and they help students save time and money in their college journey.

Global opportunities

Global experience: As globalization continues to impact the way people live and work, international experiences have become vital to success in every field of business. Through international study and internships, students gain valuable skills that employers are looking for, including communication and interpersonal skills, flexibility, motivation and a real-life perspective on business applications worldwide. Business students can participate in Global Education programs (https://goglobal.asu.edu/) nearly anywhere in the world and gain valuable internship experience in many global business hubs.

The W. P. Carey School of Business recommends these programs (https://goglobal.asu.edu/students/major/wpcarey) for students majoring in financial technology.

Career opportunities

Careers this Financial Technology degree prepares you for

With a degree in financial technology, you can enter a career developing technology solutions that improve financial operations and processes. Whether you're interested in financial services, data analytics or software development, this program prepares you for diverse and in-demand roles.

Graduates may work on developing payment systems, enhancing financial security, or using advanced technologies like machine learning and blockchain to inform financial decisions.

Logistics (Maritime), AS (BALGMARAS)

College/School: W. P. Carey School of Business

Campus: Online

Program description

The Associate of Science program in logistics with a concentration in maritime applications uses interdisciplinary methods to prepare you to become a maritime logistics professional across all sectors: private, nonprofit, government and military. Designed as a partnership with the U.S. Naval Community College, the program provides training to enlisted personnel (Navy, Marines and Coast Guard).

In this program, you examine the theories, concepts and components of logistics, with particular attention to serving and supporting maritime and military logistics operations. You also gain an understanding of logistics and supply chain management, and you develop the communication, financial management and accounting, analytics and managerial skills necessary to be successful in maritime and military logistics, and in private industry.

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 117 - College Algebra
Math intensity: Moderate

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
Students must be accepted to the U.S. Naval Community College to be admitted to this program.

Tuition information

When it comes to paying for higher education, everyone's situation is different. Students can learn about ASU tuition and financial aid (https://admission.asu.edu/cost-aid) options to find out which will work best for them.

Career opportunities

Graduates are prepared to advance in careers in military service and to succeed in further undergraduate study. They can pursue positions in the fields of transportation, distribution and warehousing, and purchasing.

Management, BS (BAMGTBS)

College/School: W. P. Carey School of Business

Campus: Polytechnic, Tempe, West Valley, Online

Program description

The Bachelor of Science program in management prepares you to become an effective manager and team leader. You gain theoretical and conceptual knowledge and build critical skills such as:

- analytical research and problem-solving
- communication
- critical thinking
- global awareness
- leadership
- personal ethics and integrity
- teamwork

The curriculum includes the fundamentals of the global economy, the world of e-business, ethics, human resources, strategic management and collaborative team skills. Throughout the program, theories and concepts of management and ethical leadership are enhanced by experiencing and testing them in skill-based exercises, case discussions and practical, team-based project work.

The management major prepares you to face:

• corporate accountability
• cross-functional management
• demands for continuous process improvements to enhance the value chain
• ethical decision-making
• the fast pace of e-business
• growing technological sophistication
• the need for skills in communicating and working with people, directing projects and managing change
• racial, cultural and gender diversity in the workforce

Second language requirement: No
STEM-OPT extension eligible: No
First required math course: MAT 210 - Brief Calculus
Math intensity: Moderate

Concurrent program options

Students pursuing concurrent degrees (also known as a "double major") earn two distinct degrees and receive two diplomas. Working with their academic advisors, students can create their own concurrent degree combination. Some combinations are not possible due to high levels of overlap in curriculum.

Accelerated program options

This program also allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's plus master's degree with:

Global Management (Sustainable Tourism), MGM

Global Management (Global Digital Transformation), MGM

Global Management (Global Health Care Delivery), MGM

Global Management (Creative Industries and Design Thinking), MGM

Global Management (Global Development and Innovation), MGM

Public Administration, MPA

Global Management (Nonprofit Leadership and Management), MGM

Artificial Intelligence in Business, MS

Global Management (Global Entrepreneurship), MGM

Global Management (Global Business), MGM

Global Management, MGM

Global Management (Global Affairs), MGM

Global Management (Public Administration), MGM

Global Management (Public Policy), MGM

Global Management (Global Legal Studies), MGM

Global Management (Digital Audience Strategy), MGM

Management, MS

Global Management (Sustainability Solutions), MGM
Students typically receive approval to pursue the accelerated master's during the junior year of their bachelor's degree program. Interested students can learn about eligibility requirements and how to apply (https://acceleratedmasters.asu.edu/how-apply).

Admission requirements

General university admission requirements:
All students are required to meet general university admission requirements.
First-year (https://admission.asu.edu/first-year/apply)
Transfer (https://admission.asu.edu/transfer/apply)
International (https://admission.asu.edu/international/undergrad-apply)
Readmission (https://admission.asu.edu/undergrad/readmission)

Additional requirements:
First-year admission requirements: 1230 SAT Reasoning or 25 ACT score, or graduated in the top 8% of high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").

First-year applicants should select an additional major when applying for admission. Additional choices may include any of the W. P. Carey business Bachelor of Arts programs or any other degree program outside of the W. P. Carey School of Business. Students who are not admissible to a W. P. Carey business BS major and who did not select a second major or are not admissible to their second major choice are placed in a business BA program in the W. P. Carey School of Business.

Readmission requirements: Students must meet first-year admission requirements by way of high school GPA, test score or class rank and must have a transfer GPA of 3.00 (if applicable) and a cumulative ASU GPA of 3.00.

Transfer admission requirements: Students are required to have met ASU transfer student admission requirements, have a transfer GPA of 3.00 (and 3.00 ASU GPA, if applicable), and have met one of the following: an SAT Reasoning score of 1160 (prior to March 2016), or an SAT Reasoning score of 1230 (after March 2016), or an ACT score of 25, or graduated in the top 8% of their high school class, or have an overall high school GPA of 3.40 in ASU competency courses (scale is 4.00 = "A").
