

Arizona State University

Academic Catalog Archive

2014-2015

This document provides an archival record of the academic programs offered during the 2014-2015 academic year. It is a printable option of the online catalog for accreditation organizations, agencies and university offices for data collection, evaluation purposes and referencing. The information and links presented in this archive may no longer be accurate. For current catalog information, refer to the online version of the academic catalog.

Corrections or additions to the Academic Catalog Archive 2014-2015 program information and major maps, as of August 30, 2014, may be provided in a future addendum. For inquiries or questions please contact academic.catalog@asu.edu.

About this Document

To navigate this version of the Academic Catalog 2014-2015 refer to the table of contents and the bookmarks provided. The table of contents provides a hyperlinked listing of resources in the order in which they appear in this document. Keyword searches may be employed as an additional means of locating resources within this document.

This document contains program descriptions and requirements for graduate degrees and certificates, undergraduate degrees, minors and undergraduate certificates. Major maps, included for undergraduate degrees, outline each degree's requirements and a recommended sequence of courses. Additionally, Arizona State University has established special transfer partnership documents with Arizona community colleges to facilitate the transition to ASU. Maricopa to ASU Pathways Program (MAPP) for established undergraduate degrees can be found at the end of this document.

ASU Mission, Vision and Values

ASU Vision and Goals: 2013 and Beyond

ASU Vision

To establish ASU as the model for a New American University, measured not by who we exclude, but rather by who we include and how they succeed; pursuing research and discovery that benefits the public good; assuming major responsibility for the economic, social, and cultural vitality and health and well-being of the community.

ASU Mission & Goals: 2013 And Beyond

Demonstrate American leadership in academic excellence and accessibility

- Maintain the fundamental principle of accessibility to all students qualified to study at a research university
- Maintain university accessibility to match Arizona's socioeconomic diversity
- Improve freshmen persistence to 90%
- Enhance university graduation rate to 75%-80% and 25,000 graduates
- Enhance quality while reducing the cost of a degree
- Enroll 100,000 online and distance education degree seeking students
- Enhance linkages with community colleges so as to expand baccalaureate degree production to national leadership levels
- Enhance measured student development and individual student learning to national leadership levels

Establish national standing in academic quality and impact of colleges and schools in every field

- Attain national standing in academic quality for each college & school (top 5-10% for each college)
- Attain national standing in the learning value added to our graduates in each college & school
- Become the leading university academically (faculty, discovery, research, creativity) in at least one department or school within each college/school

Establish ASU as a global center for interdisciplinary research, discovery and development by 2020

- Become a leading global center for interdisciplinary scholarship discovery and development
- Become a leading American center for discovery and scholarship in the social sciences, arts and humanities
- Enhance research competitiveness to more than \$700 million in annual research expenditures
- Augment regional economic competitiveness through research and discovery and value-added programs

Enhance our local impact and social embeddedness

- Enhance linkage to local and regional social and community development groups
- Establish/develop/enhance linkages and partnerships with local, regional and national NGO's, governments and public agencies, and private sector firms with a focus on community development
- Undertake applied sustainability research that impacts the social, environmental and economic evolution of the southwest
- Provide an objective and ongoing facilitation role for the region's progress

Institutional Inclusion

Diversity Plan

ASU is deeply committed to positioning itself as one of the great new universities by seeking to build excellence, enhance access, and have an impact on our community, state, nation and the world. To do that requires our faculty and staff reflect the intellectual, ethnic and cultural diversity of our nation and world so that our students learn from the broadest perspectives, and we engage in the advancement of knowledge with the most inclusive understanding possible of the issues we are addressing through our scholarly activities. As one part of this commitment, we have developed a strategic plan for diversity at ASU. Developed in consultation with a wide variety of constituencies within the university and the deans, this plan, called "Building blocks for success through people, programming and policies," contains a statement that serves as an ongoing touchstone of our commitment and several specific initiatives that will change and evolve over time, depending on the challenges and opportunities we have before us.

Diversity is defined in terms of representation and inclusion. Representation reflects the extent to which our students, staff, faculty and administrators proportionately reflect the regional and national populations served by our public institution. Inclusion encompasses empowerment and voice among all members of the university community in the areas of scholarship, teaching, learning and governance. We recognize that race and gender historically have been markers of diversity in institutions of higher education; we further believe that diversity includes additional categories such as socioeconomic background, religion, sexual orientation, gender identity, age, disability, veteran status, nationality and intellectual perspective.

Accreditations

All ASU academic programs are fully accredited by the North Central Association Higher Learning Commission. The institution has been continuously accredited by the Higher Learning Commission since 1931.

This accreditation is reviewed for reaffirmation every ten years, with the next review in 2022. (For more information on the reaffirmation process, see here [1].) The official letter from the Higher Learning Commission communicating the status of ASU's accreditation is available for public viewing here [2].

A number of programs also have **specialized accreditations** by professional and national accrediting agencies. A list of those specialized accreditations may be found here [3].

ASU University Accreditation Office

At ASU, the Vice Provost for Graduate Education serves as the University Accreditation Officer (UAO). Representing the University President and the University Provost, the UAO officer is charged with the essential functions related to university-wide accreditation activities and with providing guidance and assistance as the process moves forward leading to successful and productive accreditation visits.

University Accreditation Officer and Vice Provost for Graduate Education

Andrew N. Webber

480-965-5906 Fax: 480-965-0375

andrew.webber@asu.edu

Administrative Assistant, Accreditation

Carla McNeil-Baxter

480-965-4253 Fax: 480-965-0375

carla.mcneil-baxter@asu.edu

Functions of the ASU University Accreditation Office

Liaison to the Higher Learning Commission (HLC).

The UAO monitors institutional compliance with HLC requirements and coordinates the institutional evaluation for continuing accreditation by the HLC every ten years. The UAO also facilitates HLC approval of program and/or institutional changes where required. As a program prepares for accreditation, it is encouraged to visit the HLC website higherlearningcommission.org to find information about HLC standards and procedures for accreditation.

Professional Accreditation Oversight

The UAO works closely with academic units and programs that seek new accreditation or seek re-accreditation. This oversight includes:

1. Coordination of site visitors schedule and university administrators. All programs are asked to coordinate the site visitors schedules/itinerary with the UAO – this to insure that appropriate university administrators will be available at the time of the site visit.
2. Review of self-study draft. The UAO will conduct a review of the self-study draft to assure a self-study that meets the accreditation criteria and guidelines and addresses any problems from previous accreditation and other issues that may be present. A written report will be returned to the program with recommendations and edits.

3. Briefing paper. The UAO will review the briefing paper draft (prepared by the program) and submit recommendations and edits before the final paper is distributed to university administrators and other appropriate officials. The briefing paper is an in-house confidential resource and not shared with the site visitors.
4. The site visit report and response to the report. The UAO will review the site visit report and the program's draft response, looking for accuracy, completeness, and tone. Based on this review, written recommendations for the program response will be made.
5. Accreditation Status Letter. The original letter is held in the UAO as part of the accreditation permanent records. The UAO will send copies of this letter to the program and supervising administrator. The UAO will enter the date of the next accreditation review into the university calendar which is maintained by this office.

Note: Repository for all accreditation documents.

All programs are asked to provide copies of all accreditation records, reports and other documentation to the UAO, as they become available. Records will be held in the UAO until being sent to University Archives.

October 3, 2013

President Michael M. Crow
Arizona State University
PO Box 2203
Tempe, AZ 85287-2203

Dear President Crow:

This letter is formal notification of the action taken concerning Arizona State University by the Higher Learning Commission. At its meeting on September 24, 2013, the Institutional Actions Council (IAC) acted on the items below. This letter serves as the official record of this action, and the date of this action constitutes the effective date of your new status with the Commission.

Action. IAC continued the accreditation of Arizona State University with the next Reaffirmation of Accreditation in 2022-23.

If the current Commission action includes changes to your institution's *Statement of Affiliation Status (SAS)* or *Organizational Profile (OP)*, the changes will appear in these documents within three weeks of the date of action. The SAS is a summary of your institution's ongoing relationship with the Commission. The OP is generated from data you provided in your most recent Institutional Update.

The Commission posts the SAS, OP and this action letter with the institution's directory listing on its website. Information for institutions on notifying the public of this action is available at <http://ncahlc.org/Information-for-Institutions/institutional-reporting-of-actions.html>.

If you have questions about these documents after viewing them, please contact Susan Devine. On behalf of the Board of Trustees, I thank you and your associates for your cooperation.

Sincerely,

A handwritten signature in black ink that reads "Sylvia Manning".

Sylvia Manning
President

Academic Calendar

ASU regularly offers classes in the fall, spring and summer terms with the following components:

Fall/Spring Session A: first 7.5 week session

Fall/Spring Session B: second 7.5 week session

Fall/Spring Session C: full semester (15 weeks plus final exams)

Summer Session A: first 6-week session

Summer Session B: second 6-week session

Summer Session C: 8 week session

If a class is scheduled in a session other than Session A, B or C, the drop/add/withdrawal deadlines are prorated based on the length of the class. Check the calendar icon  next to each class on your schedule in My ASU [1] for the prorated deadline dates.

All dates are subject to change without notice.

Summer 2014

Session A: (1st 6 Week Session) Monday, 5/19/2014 – Friday, 6/27/2014 Session B: (2nd 6 Week Session) Wednesday, 7/2/2014 – Tuesday, 8/12/2014 Session C: (8 Week Session) Monday, 5/19/2014 – Friday, 7/11/2014			
Schedule of Classes Available [7]	February 11, 2014		
Registration Begins [8]	February 12, 2014		
Suggested Postmark to Meet Tuition/Fee Payment Deadline	April 24, 2014		
Tuition/Fee Payment Deadline - [9] For registration through May 4, 2014, for non financial aid students and students who have not accepted any financial aid awards for the semester. For students with accepted financial aid, no payment is due on this date. The due date for Tuition charges for students registering through May 4 with accepted financial aid is extended to June 25, 2014. For more information, please see Tuition and Deadlines [10].	May 8, 2014		
\$50.00 Late Registration Fee Begins [11] (does not apply to ASU Online students)	Session A May 11, 2014	Session B June 24, 2014	Session C May 11, 2014
Classes Begin	Session A May 19, 2014	Session B July 2, 2014	Session C May 19, 2014
Last day to register or drop/add without college approval [12]	Session A May 20, 2014	Session B July 3, 2014	Session C May 20, 2014

Tuition and Fees

Tuition Commitment

Undergraduate Resident Tuition

Arizona State University is committed to providing undergraduate resident students with reasonable tuition rates while they earn their degree. Degree-seeking undergraduate students are automatically assigned to a tuition cohort [1] upon admission or readmission and do not need to take any action to benefit from the commitment tuition rate.

The commitment tuition rate [1] applicable to each tuition cohort is initially equal to the approved tuition rate [1] at the time of admission or readmission. Any future increases in tuition will be based off of this rate until the tuition commitment period [1] expires. Undergraduate resident students not eligible for the commitment tuition rate include non-degree seeking students,

students enrolled in six or fewer credit hours, and students whose commitment period has expired. Ineligible students will pay the most recently approved tuition rate.

- Commitment Tuition Rate [2]
- Commitment Period [3]
- Commitment Tuition Rate Definitions [4]
- Commitment Tuition Rate FAQs [5]

Note: Continuation of the commitment tuition rate assumes no unusual levels of inflation and no substantial change in the levels of state support. Tuition and fee information provided here or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

[5] <https://students.asu.edu/tuitioncommitment/faqs>

Commitment Period

Undergraduate Resident Tuition

The commitment period [1] is determined at the time of admission or readmission. The commitment period is five years for degree seeking undergraduate students admitted as freshmen. The commitment period for undergraduate students classified as other than freshmen is prorated based upon credit hours earned prior to the semester of admission. All prior earned credits [1] are included in this determination regardless of whether the hours are applicable to a student's program of study. The commitment period will be retroactively modified and tuition charges adjusted if prior earned credits are reported subsequent to admission.

Commitment Period

Degree Seeking Undergraduate Residents

Prior Earned Credits	Academic Level upon Admission	Commitment Period
Up to 24	Freshman	5 Year
25 to 55	Sophomore	4 Year
56 to 86	Junior	3 Year
87 and Above	Senior	2 Year

Expiration of Commitment Period

The commitment period ends upon the earlier of the expiration of the commitment period determined at the time of admission, upon graduation, or upon application for admission or readmission. The commitment period is not carried over for students who

graduate or leave prior to expiration of the commitment period determined at the time of admission. Upon expiration of the commitment period students revert to paying the most recently approved tuition rate.

Residency Status

The commitment tuition rate is applicable to undergraduate students classified as residents for tuition purposes. If an undergraduate student is reclassified from nonresident to resident for tuition purposes, the commitment period and commitment tuition rate are determined based upon the original semester of admission as a nonresident student. For example, a student admitted as a nonresident freshman fall 2011 and reclassified as a resident fall 2013 is eligible for a three-year commitment beginning in fall 2013 and will be classified in the fall 2011 tuition cohort. A sophomore transfer student admitted as a nonresident fall 2011 and reclassified as a resident fall 2013 is eligible for a two-year commitment period beginning fall 2013 and will be classified in the fall 2011 tuition cohort.

Maricopa-ASU Pathways Program (MAPP)

Students admitted to ASU as resident degree-seeking students in accordance with the Maricopa-ASU Pathways Program (MAPP) are eligible for the ASU tuition commitment. The commitment period is five years from the time of acceptance in a MAPP program, if at the time of admission to ASU the student is in compliance with the MAPP requirements. For example, a student accepted in a MAPP program fall 2011 who transfers to ASU fall 2013 is eligible for the fall 2011 tuition commitment rate for three years, i.e. fall 2013 until spring 2016. Upon expiration of the commitment period students revert to paying the most recently approved tuition rate. Note: Students admitted to ASU in accordance with transfer protocols other than MAPP will be billed for tuition in accordance with the policies applicable to transfer students.

Non-degree Students

Students admitted as undergraduate non-degree seeking are not assigned to a tuition cohort or a commitment period. Non-degree seeking undergraduate resident students pay the most recently approved tuition rate and are subject to all future tuition increases.

Second Undergraduate Degree

The commitment period for a student who previously earned one or more undergraduate degrees will be determined at the time of admission or readmission based upon prior earned credits.

Concurrent Degrees

The commitment period is not extended for students working on two or more degrees concurrently.

Part-time Enrollments

The commitment period determined at the time of admission or readmission is not extended for part-time enrollment. Undergraduate degree seeking resident students enrolled in six or fewer credit hours are billed the most recently approved part-time rate.

Breaks in Enrollment

The commitment period determined at the time of admission or readmission will not be extended due to breaks in enrollment for any reason, including military service, illness, or church mission. Students must apply for a Leave of Absence to maintain their original semester of admission for purposes of assignment to a tuition cohort and determination of the commitment tuition rate upon their return, but the commitment period is not extended by the Leave of Absence. The commitment tuition rate will continue to increase during the Leave of Absence. For example, a student admitted as a freshman fall 2011 who takes a leave of absence for fall 2012 and spring 2013, returning fall 2013, is eligible for the remaining three-year commitment period and remains classified in the fall 2011 tuition cohort.

The commitment period for students required to apply for readmission will be determined based upon the new semester of admission and prior earned credits. For example, a student admitted as a freshman fall 2011 completes 30 credit hours, but does not attend fall 2012 or spring 2013 and does not take a Leave of Absence. Upon application for readmission fall 2013 the student is classified as a sophomore eligible for a four year commitment period, is classified in the fall 2013 tuition cohort, and the commitment tuition rate is based upon the tuition rate approved for fall 2013.

Links:

[1] <https://students.asu.edu/node/2282>

Commitment Tuition Rate

Undergraduate Resident Tuition

The commitment tuition rate [1] applicable to each tuition cohort [1] is initially equal to the approved tuition rate at the time of admission or readmission. Any future increases in tuition will be based off of this rate until the tuition commitment period [1] expires. Undergraduate degree seeking resident students are automatically assigned to a tuition cohort upon admission or readmission and do not need to take any action to benefit from the commitment tuition rate.

Degree-Seeking

The commitment tuition rate applies to undergraduate degree seeking resident students. Undergraduate resident students not seeking a degree will pay the most recently approved tuition rate and are subject to all future tuition increases.

Tuition Commitment Enrollment Requirement

The commitment tuition rate applies for fall/spring semesters during the commitment period in which enrollment exceeds six credit hours or 11 credit hours for students at the Lake Havasu campus. Undergraduate degree seeking resident students enrolled in six or fewer credit hours are billed the most recently approved tuition rate. The commitment period is not extended for part-time enrollment.

Residency Status

The commitment tuition rate is applicable to undergraduate students classified as residents for tuition purposes. If an undergraduate student is reclassified from nonresident to resident for tuition purposes, the commitment tuition rate and commitment period are determined based upon the original semester of admission as a nonresident student.

Community College Transfer Students in Pathway Programs

Students may be eligible for the commitment tuition rate if they are:

- Admitted to ASU as a resident, degree-seeking student, *and*;
- Enrolled in one of these partnership programs:
 - o Maricopa-ASU Pathways Program (MAPP)
 - o Transfer Admission Guarantee (TAG), or;
 - o RN-BSN pathway program

The commitment tuition rate is based on the semester the student enrolls for one of these pathway programs, if at the time of admission to ASU the student is in compliance with the pathway requirements. Upon expiration of the commitment period, students revert to paying the most recently approved tuition rate. The commitment ends upon the earlier of these circumstances: (1) expiration of the five-year commitment period determined at the time of pathway enrollment, up to a maximum of three years from initial enrollment at ASU, (2) upon graduation from ASU, or (3) withdrawal from the university. **Note:** Students admitted to ASU in accordance with transfer protocols other than these pathway programs will be billed for tuition in accordance with the policies applicable to transfer students.

Readmission

The commitment tuition rate is based upon the most recent semester of undergraduate degree admission or readmission. Students required to apply for readmission are assigned to a new tuition cohort and are billed for the commitment tuition rate applicable for the new cohort. The commitment tuition rate associated with the original semester of admission is not maintained under any circumstances, including military service, illness, or church mission, unless an official Leave of Absence is granted by the University Registrar's Office. Students must apply for a Leave of Absence to maintain their original semester of admission for purposes of assignment to a tuition cohort and determination of the commitment tuition rate. The commitment period is not extended by the Leave of Absence and the commitment tuition rate continues to increase.

Expiration of Commitment Period

Upon expiration of the commitment period students revert to paying the most recently approved tuition rate. The commitment period ends upon the earlier of the expiration of the commitment period determined at the time of admission, upon graduation, or upon application for admission or readmission.

Students Admitted Prior to Summer 2008

For undergraduate degree seeking resident students admitted prior to summer 2008 the commitment tuition rate is based upon fall

2007 tuition regardless of semester of admission. This initial tuition commitment tuition rate will remain intact during the commitment period, and any increases in tuition will be based off this rate. Starting in fall 2009, the remaining commitment period [1] will be determined based upon the most recent semester of undergraduate degree admission or readmission and prior earned credits at the time of admission. For example, a student admitted as a sophomore fall 2006 is eligible for a remaining commitment of one year in fall 2009. Beginning in fall 2010, because the commitment period has expired, the student admitted as a sophomore in fall 2006 will pay the most recently approved tuition rate.

Differential Tuition, Program Tuition and Other Fees

The commitment tuition rate only applies to base undergraduate resident tuition. The tuition commitment does not apply to differential tuition, program tuition, mandatory registration fees, or any other charges assessed by ASU.

Summer Session Tuition

The commitment tuition rate is not applicable for summer registration. All students are billed at the same rate, which is equal to the most recently approved per credit hour rate.

Special Nonresident Tuition Rates

Students eligible for special nonresident tuition rates that are based upon resident tuition are not eligible for the commitment tuition rate. Nonresident students eligible for special tuition rates will be billed based upon the most recently approved tuition rate and are subject to all future tuition increases.

Note: Continuation of the commitment tuition rate assumes no unusual levels of inflation and no substantial change in the levels of state support. Tuition and fee information provided here or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

Commitment Tuition Rate Definitions

Undergraduate Resident Tuition

Approved Tuition Rate: Undergraduate resident tuition rate approved for each tuition cohort. Non-degree seeking students, students enrolled in six or fewer credit hours, and students whose commitment period has expired will also pay the most recently approved tuition rate.

Commitment Tuition Rate: Full-time undergraduate resident tuition rate applicable to each tuition cohort, based on the approved per credit hour tuition rate at the time of admission or readmission. Increases in tuition will be based off of the initial tuition rate until the commitment period expires. Full-time undergraduate resident tuition is assessed for enrollment in more than six credit hours during the fall/spring semester.

Commitment Period: Period of up to five years, as determined by academic level upon admission or readmission and prorated based upon prior earned credits.

Prior Earned Credits: All credit hours earned prior to semester of admission. Includes hours earned at ASU, other institutions, through testing, or by any other means.

Tuition Cohort: All undergraduate degree-seeking students admitted or readmitted for a given fall semester. Students admitted during the preceding summer semester and the following winter session or spring semester are assigned to the fall semester tuition cohort. If students are admitted to multiple programs, the admit semester of the student's active primary academic program will determine the tuition cohort.

Note: Continuation of the commitment tuition rate assumes no unusual levels of inflation and no substantial change in the levels of state support. Tuition and fee information provided here or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

Residency for Tuition Purposes

In Arizona, as in all other states, tuition at publicly supported universities are lower for residents than non-residents. Residency classification is determined for all students in accordance to guidelines provided by the Arizona Board of Regents' (ABOR) [1], which reflect current Arizona revised statutes [2]. Students that are classified as non-residents can request reclassification and must support their request with documentation that shows compliance with ABOR policy and current state law.

Requesting Residency Classification

Please complete the following steps to request residency classification.

1. Review the residency guidelines [3], frequently asked questions [4] and general information [5].
2. Complete your request using the residency reclassification application [6].
3. Submit all required documentation [7] to the Residency Classification Office.
4. View the status of your request from the residency reclassification application [6].
5. Review your decision. If denied, you can request a residency appeal [8].

Only current, active students are eligible to request residency reclassification applicants must be admitted to ASU before a petition/verification can be submitted.

Students are expected to read and understand all requirements related to residency for tuition purposes and it is the student's responsibility to be in compliance with all residency requirements, including applicable state laws. Lack of knowledge or incorrect assumptions about residency will not excuse the requirement to be familiar with the policies and procedures listed herein.

Petition Deadlines

Semester	Petition Deadline	Priority Deadline ¹
Summer 2014 ²	May 20, 2014	April 18, 2014
Fall 2014	August 27, 2014	June 20, 2014
Spring 2015	TBD	TBD

¹ Petitions submitted (and fully completed) before the priority deadline will be evaluated prior to the first day of classes. Petitions submitted after this date will be reviewed in the order in which they are received and may not be evaluated until after classes begin.

² Summer petitions are only evaluated for students registered for summer classes.

You will not be permitted to submit a request for reclassification after the posted deadline. Per ABOR policy, failure to submit a request for reclassification by the deadline constitutes a waiver of your right to petition for that term. Late requests cannot be accepted and there is no option to appeal a petition submitted after the deadline.

Appeal Deadlines

If denied, your denial letter will include an appeal deadline. However, to ensure that your appeal is heard as soon as possible, your request for a hearing should be made not later than 10 days after your decision is rendered. See residency appeals [8] for additional information.

Information regarding residency classification, including the content on these pages, is subject to change without notice. Direct all questions to Residency Classification at 480-965-7712 or email residency@asu.edu [9].

Tuition and Fee Descriptions

ASU tuition and fees are approved annually by the Arizona Board of Regents. In addition to resident and nonresident tuition, commonly billed tuition and fees include:

Differential Tuition and Program Tuition

Certain colleges and programs assess additional differential and program tuition as approved by the Arizona Board of Regents. Visit the Tuition and Fees Schedules [1] for college and program specific tuition and fees.

Excess Hours Tuition

The Arizona Legislature enacted legislation in 2005 (A.R.S. § 15-1626) that establishes credit hour thresholds for undergraduate students who attend a public university in Arizona. Undergraduate students who enroll for credit hours beyond the applicable threshold are required to pay an Excess Hours Tuition Surcharge [2]. Students who have more than 145 credit hours will be assessed the Undergraduate Excess Hours Tuition Surcharge.

Special Class, Hybrid & iCourse Fees

Special Class, Hybrid and iCourse fees are assessed based on enrollment in specific classes. These fees are published with each class through Class Search [3].

Technology Fee

The technology fee funds technology initiatives including expanding ASU's wireless network on all of its campuses, increasing the number of technology-enabled classrooms, developing a system to allow students to access University-licensed software, reducing dependence on computing labs and expanding and improving online self-service environment. All students are assessed this mandatory technology fee as authorized by the Arizona Board of Regents.

Late Registration Fee

All students who register beginning the week before the first day of the semester will be assessed a late registration fee of \$50.00, with the exception of students enrolling only in late start sessions. Students enrolling exclusively in late start sessions, will be assessed the late registration fee beginning one week before the session start date. Please see Tuition Deadlines [4] for specific

dates. Registration after the published deadline may be permitted under extraordinary circumstances if approved by an authorized College designee. Late fees are not refundable.

Recreation Fee

All students are assessed a recreation fee allowing access to recreation facilities on all four ASU Campuses. For more information, please visit Campus Recreation [5]. Faculty/staff who are also students are not assessed a recreation center fee with their other registration fees, but may pay an optional fee at faculty/staff rates.

Student Service Facility Fee

The Student Service Facility Fee is a mandatory fee authorized by the Arizona Board of Regents to be charged to all students. This fee will allow for the enhancements of existing facilities and the planning and development of new student service facilities to meet the needs of the growing student population.

Student Programs Fee

All students are assessed a mandatory program facility fee as authorized by the Arizona Board of Regents to provide funding for new or enhanced facilities and student support programming.

Health and Wellness Fee

All students are assessed a Health and Wellness Fee as authorized by the Arizona Board of Regents to enhance services for students who seek both preventive and acute care and to expand outreach and wellness education and services.

Student Athletic Fee

The Student Athletic Fee will fund reinvestment in academic support areas, strengthen undergraduate and graduate academic experiences, and enhance student engagement in athletics, including access to Sun Devil Athletics sporting events and enhanced game day experiences in Sun Devil Stadium, Wells Fargo Arena and other athletic venues. This fee was initiated and supported by Undergraduate Student Government and the Graduate and Professional Student Assembly.

Financial Aid Trust Fee

Student Financial Aid Trust grants are assistance provided in partnership between ASU students and the state legislature. All students are assessed a mandatory financial aid trust fee as authorized by the Arizona Legislature to create a Financial Aid Trust Fund, from which Financial Aid Trust Grants are awarded under the usual aid eligibility criteria. Fees collected from students are matched by the State of Arizona. For more information, please visit the Financial Aid Trust Grant [6] website.

Tuition Refund Policy

Students are required to pay all tuition and fees for any registered course unless enrollment is officially cancelled during the 100% refund period. Tuition and fees are nonrefundable after the 100% refund period. All refunds are less any amounts owed to the university and are subject to payment holding periods.

Withdrawal or cancellation occurs on the calendar day that withdrawal is requested either Online or in person at a Registrar site. By registering for classes students agree to pay all applicable tuition and registration fees. The university provides a prorated refund for students receiving financial aid; therefore, the refund schedule is the minimum amount refundable to these students.

Fall and Spring Semester Classes

The 100% refund period extends through the first two weeks of the semester for regular semester classes (Session C) and sessions eight weeks or longer. The 100% refund period is one week for sessions shorter than eight weeks (Sessions A & B) and for dynamically dated classes. For classes that begin prior to the first day of the regular semester, the applicable 100% refund period

begins on the class start date not the semester start date. Students are required to pay tuition and fees owed for enrollment cancellations that occur after the refund period.

Summer Session Classes

The 100% refund period is the first five days of the applicable summer session (Sessions A, B and C.) Students are required to pay tuition and fees owed for enrollment cancellations that occur after the refund period.

Medical or Compassionate Withdrawals

Students withdrawing for medical circumstances or other extenuating circumstances must contact their college to initiate the process. Approved medical or compassionate withdrawals [1] are eligible for up to an 80% refund of tuition if approved within two years of the end of the semester. No tuition refund is provided thereafter.

For specific semester or session deadlines, please refer to Tuition Dates and Deadlines [2].

Source URL: <https://students.asu.edu/tuitionrefundpolicy>

[1] <https://students.asu.edu/forms/medical-compassionate-withdrawal-request>

[2] <https://students.asu.edu/tuitiondeadlines>

Tuition and Fees Schedules

To view current year tuition and fees, please visit the Tuition and Cost Calculator [1].

To view historical information about tuition and fees, please visit Tuition and Fees Schedule [2].

NOTE: All amounts shown in the Tuition and Fees Schedules or in other university publications or Web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with board policy, and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

Tuition charges will be billed on your student account and may be viewed online through My ASU [3] after registration. See Billing [4] for information on how to pay your tuition and fees.

ASU [5] Payment Plan: If tuition is not paid by the applicable tuition due date, or financial aid is not awarded and accepted by the due date, you will be automatically enrolled in the ASU Payment Plan and charged a nonrefundable enrollment fee.

Thinking of Leaving ASU? By registering for classes, you agree to pay all applicable tuition and registration fees. If you plan to leave the university, you must officially withdraw to cancel registration before the refund deadline. Refund deadlines are available on the Important [6] Dates [6] calendar. Please ensure that you have dropped or withdrawn from all classes during the 100 percent refund period or you will be responsible for the tuition charges. See the Tuition Refund Policy [7].

IRS Form 1098-T

Arizona State University prepares an IRS form 1098-T, Tuition Tax Statement each calendar year. IRS form 1098-T reports amounts billed to you for qualified tuition and may assist you in the preparation of your tax return with regards to education tax benefits you may be eligible to claim. Read more about the IRS form 1098-T [8].

*The ASU Tuition Commitment is that full-time undergraduate resident tuition will increase at a reasonable rate from the semester of admission or readmission. For more information about the Tuition Commitment and the Commitment Period please refer to students.asu.edu/tuitionandfees.

⁽¹⁾ Music Fees & Special Class Fees are dependent on specific class enrollment and are not included here. Fees are available online through Class Search.

⁽²⁾ Undergraduate students with total credit hours in excess of the threshold established by the Arizona Legislature are required to pay tuition on these excess hours. For resident students the excess hours tuition is \$135 per credit hour up to a maximum of \$945 for enrollment in 7 or more hours. For nonresident students the excess hours tuition is \$197 per credit hour up to a maximum of \$2,364 for enrollment in 12 or more credit hours. See students.asu.edu/tuitionandfees for additional information regarding the Undergraduate Excess Hours Tuition.

⁽³⁾ Students admitted to Barrett, the Honors College are assessed a \$500 honors fee each fall and spring semester in addition to the tuition and fees presented above.

⁽⁴⁾ All amounts shown in the Tuition and Fees Schedules or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

⁽⁵⁾ Certain graduate and undergraduate programs are assessed differential tuition or program fees, depending on the college and/or program. Use the Tuition and Cost of Attendance Estimator to review program specific tuition and fees.

⁽¹⁾ Students admitted to an Online campus program are not billed the student programs fee, student service facility fee, athletics fee, health and wellness fee, or recreation fee.

⁽²⁾ Online tuition is billed per credit hour with no cap. The rates presented above are per session and if more than 18 credit hours are taken in a session, tuition will be greater. To calculate the increase in tuition, add the tuition cost per hour for each additional hour taken to the tuition and fees total for 18 hours.

⁽³⁾ Special Class Fees are dependent on specific class enrollment and are not included here. Fees are available online through Class Search.

⁽⁴⁾ Mandatory fees are billed per session but are not to exceed the seven hour rate in a term.

⁽⁵⁾ Undergraduate students with total credit hours in excess of the threshold established by the Arizona Legislature are required to pay tuition on these excess hours. For resident students the excess hours tuition is \$135 per credit hour up to a maximum of \$945 for enrollment in 7 or more hours. For nonresident students the excess hours tuition is \$197 per credit hour up to a maximum of \$2,364 for enrollment in 12 or more credit hours. For more information about the Tuition Commitment and the Commitment Period please refer to students.asu.edu/tuitionandfees.

⁽⁶⁾ Students admitted to Barrett, the Honors College are assessed a \$500 honors fee each fall and spring semester in addition to the tuition and fees presented above.

⁽⁷⁾ All amounts shown in the Tuition and Fees Schedules or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. ⁽¹⁾ Students admitted to ASU Colleges at Lake Havasu City are not billed the student service facility fee, athletics fee, health and wellness fee, or recreation fee.

⁽²⁾ Music Fees & Special Class Fees are dependent on specific class enrollment and are not included here. Fees are available online through Class Search.

⁽³⁾ Undergraduate students with total credit hours in excess of the threshold established by the Arizona Legislature are required to pay tuition on these excess hours. For resident students the excess hours tuition is \$135 per credit hour up to a maximum of \$945 for enrollment in 7 or more hours. For nonresident students the excess hours tuition is \$197 per credit hour up to a maximum of \$2,364 for enrollment in 12 or more credit hours. See students.asu.edu/tuitionandfees for additional information regarding the Undergraduate Excess Hours Tuition.

⁽⁴⁾ Students admitted to Barrett, the Honors College are assessed a \$500 honors fee each fall and spring semester in addition to the tuition and fees presented above.

⁽⁵⁾ All amounts shown in the Tuition and Fees Schedules or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

⁽⁶⁾ Certain graduate and undergraduate programs are assessed differential tuition or program fees, depending on the college and/or program. Use the Tuition and Cost of Attendance Estimator to review program specific tuition and fees.

⁽¹⁾ Students admitted to an Online campus program are not billed the student programs fee, student service facility fee, athletics fee, health and wellness fee, or recreation fee.

⁽²⁾ Online tuition is billed per credit hour with no cap. The rates presented above are per session and if more than 18 credit hours are taken in a session, tuition will be greater. To calculate the increase in tuition, add the tuition cost per hour for each additional hour taken to the tuition and fees total for 18 hours.

⁽³⁾ Special Class Fees are dependent on specific class enrollment and are not included here. Fees are available online through Class Search.

⁽⁴⁾ Mandatory fees are billed per session but are not to exceed the seven hour rate in a term.

⁽⁵⁾ All amounts shown in the Tuition and Fees Schedules or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

⁽⁶⁾ Certain graduate and undergraduate programs are assessed differential tuition or program fees, depending on the college and/or program. Use the Tuition and Cost of Attendance Estimator to review program specific tuition and fees.

*Undergraduate Freshmen and sophomores in the New College of Interdisciplinary Arts and Sciences are eligible to receive a 10% reduction in base tuition. In order to receive this discount, students must take all classes at the campus of their major. The discount is not affected by enrollment in iCourses.

**The ASU Tuition Commitment is that full-time undergraduate resident tuition will increase at a reasonable rate from the semester of admission or readmission. For more information about the Tuition Commitment and the Commitment Period please refer to students.asu.edu/tuitionandfees.

⁽¹⁾ Music Fees & Special Class Fees are dependent on specific class enrollment and are not included here. Fees are available online through Class Search.

⁽²⁾ Undergraduate students with total credit hours in excess of the threshold established by the Arizona Legislature are required to pay tuition on these excess hours. For resident students the excess hours tuition is \$135 per credit hour up to a maximum of \$945 for enrollment in 7 or more hours. For nonresident students the excess hours tuition is \$197 per credit hour up to a maximum of \$2,364 for enrollment in 12 or more credit hours. See students.asu.edu/tuitionandfees for additional information regarding the Undergraduate Excess Hours Tuition.

⁽³⁾ Students admitted to Barrett, the Honors College are assessed a \$500 honors fee each fall and spring semester in addition to the tuition and fees presented above.

⁽⁴⁾ All amounts shown in the Tuition and Fees Schedules or in other University publications or web pages represent tuition and fees as currently approved. *Undergraduate Freshmen and Sophomores in the Polytechnic School are eligible to receive a 10% reduction in base tuition. In order to receive this discount, students must take all classes at the campus of their major. The discount is not affected by enrollment in iCourses.

**The ASU Tuition Commitment is that full-time undergraduate resident tuition will increase at a reasonable rate from the semester of admission or readmission. For more information about the Tuition Commitment and the Commitment Period please refer to students.asu.edu/tuitionandfees.

⁽¹⁾ Music Fees & Special Class Fees are dependent on specific class enrollment and are not included here. Fees are available online through Class Search.

⁽²⁾ Undergraduate students with total credit hours in excess of the threshold established by the Arizona Legislature are required to pay tuition on these excess hours. For resident students the excess hours tuition is \$135 per credit hour up to a maximum of \$945

for enrollment in 7 or more hours. For nonresident students the excess hours tuition is \$197 per credit hour up to a maximum of \$2,364 for enrollment in 12 or more credit hours. See students.asu.edu/tuitionandfees for additional information regarding the Undergraduate Excess Hours Tuition.

⁽³⁾ Students admitted to Barrett, the Honors College are assessed a \$500 honors fee each fall and spring semester in addition to the tuition and fees presented above.

⁽⁴⁾ All amounts shown in the Tuition and Fees Schedules or in other University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors. Finally, please note that fee amounts billed for any period may be adjusted at a future date.

⁽⁵⁾ Certain graduate and undergraduate programs are assessed differential tuition or program fees, depending on the college and/or program. Use the Tuition and Cost of Attendance Estimator to review program specific tuition and fees.

Important Reminder

By registering for classes you agree to pay all applicable tuition and registration fees. You will NOT be dropped from your classes for non-payment. If you do not have adequate financial aid to cover tuition costs, and if you do not pay tuition by the applicable deadline, you will be enrolled in the Tuition Installment Plan and assessed a non-refundable \$100 resident/\$200 non-resident enrollment fee. **See page 13 for more information.**

Semester Calendar - Fall 2014

All dates and times published in this schedule are tentative and are subject to change without notice.

If a class is scheduled in a session other than Session A, B or C, the drop/add/withdrawal deadlines are prorated based on the length of the class. Check the calendar icon next to each class on your schedule in My ASU for the prorated deadline dates.

Session A: Thursday, 8/21/2014 – Friday, 10/10/2014

Session B: Wednesday, 10/15/2014 – Friday, 12/5/2014

Session C: Thursday, 8/21/2014 – Friday, 12/5/2014 (Final Exams 12/8/2014-12/13/2014)

* See Residential Life for designated move in dates.

** Late Registration fee of \$50 assessed.

*** Classes start on Thursday, August 21, 2014 in order to fully comply with ABOR contract hour requirements

Admission and Registration

Admission/Readmission

Undergraduate admission/readmission:
students.asu.edu/admission

Graduate admission/readmission:
graduate.asu.edu

Law College:
law.asu.edu

Students who are required to be advised must do so before submitting a registration request. Non-degree undergraduate students may not enroll for more than eight semester hours. Students who have been previously enrolled in a degree program at ASU are not permitted to attend in non-degree status.

Registration Procedures Overview

my.asu.edu

- Step 1: Log into My ASU to view your online Registration Dates. A registration date is the date/time that you may begin to register for classes. You may register online or in person anytime after your assigned registration date begins through the end of the drop/add period.*
- Step 2: Check for registration holds on My ASU. If you have an academic advising hold, plan to meet with your academic advisor well before your Registration Date occurs.
- Step 3: Review degree and catalog requirements.
- Step 4: Review your Major Map on My ASU (undergraduate students only).
- Step 5: Search for available classes using the Class Search at my.asu.edu.
- Step 6: Register for classes at my.asu.edu or in person at any registrar location <https://students.asu.edu/contact/office-university-registrar>
- Step 7: Pay tuition. If you do not have adequate financial aid to

cover tuition costs, and if you do not pay tuition by the applicable deadline, you will be enrolled in the Tuition Installment Plan and assessed a non-refundable \$100 resident/\$200 non-resident enrollment fee.

*Students may register for Fall 2014 through August 22, 2014 for Session A, August 27, 2014 for session C, and October 16, 2014 for Session B. However, a \$50 late registration fee is charged beginning TBD. This fee does not apply to ASU online students.

Registration/Enrollment General Information

Registration Dates

All students are assigned an online **registration date** which will permit registration for the Fall 2014 semester. Students should log into My ASU to view their registration date as soon as possible.

A registration date is the date and time that a student may begin registering for the next semester. Students may register in person or online anytime after the assigned registration date begins, through the end of the drop/add period.

If you are an entering freshman in the Fall semester, your registration date will be the date of your orientation program. If you are not an entering freshmen, and you do not have a registration date assigned, contact the University Registrar Services at 480.965.3124.

Building Your Class Schedule

ASU's registration system will allow you to search the Schedule of Classes/Class Search and build a Fall class registration request. You can save that plan (shopping cart) and then later return to it. When you return, you will be able to see if the class status has changed since you built and saved the plan. You can view the online Schedule of Classes/Class Search via My ASU (my.asu.edu). The Fall 2014 Schedule of Classes is available February 24, 2014.

Registration, cont.

Submitting Your Registration Request

Once you have submitted your schedule request, you will be able to immediately see which courses were successfully added to your schedule. **Note: You may choose to audit a course in which case you attend and participate in the class but do not earn credit. Be sure to obtain instructor's approval before registering and paying fees. Refer to your catalog and see your academic advisor for additional information about audit enrollment.**

Drop/Add

Anytime after you have a class schedule, you will be able to drop and add courses via My ASU or in person at any registration location through the published drop/add deadline. During this period, you may drop one or more (but not all) scheduled classes. Classes that are dropped do not appear on the student's transcript. A student who wishes to withdraw from his/her last course during the drop/add period must process a complete withdrawal. Colleges or departments may require approvals before a student can add specific classes.

Swap

You can use the swap feature when you want to ensure that you do not drop a class you are already registered for until you have successfully added a replacement class.

Registration Holds

You will be able to view a list of holds that will prevent registration. Items that can prevent you from registering are: unpaid fees, academic advising requirements, immunizations, etc. Do not delay your ability to get the classes you want. Take care of your University business now to eliminate any holds.

To Dos

You will be able to view a list of your To Do items. To Do items display tasks you need to complete, such as completing a financial aid form. To Do items do not restrict registration. However, if you do not accomplish an open To Do item, it can become a Hold on your record. Follow the instructions or contact the appropriate person to make arrangements to complete each pending task as soon as possible.

Registration Locations

Tempe campus	West campus	Polytechnic campus	Downtown Phoenix campus
Student Services Bldg, Room 140	University Center Bldg, Room 120	Administration Bldg	University Center Bldg, Room 166
480.965.3124	602.543.8203	480.727.1142	602.496.4372
Monday - Friday 8:00am - 5:00pm			
Offices are closed in observance of the following holidays: Labor Day—September 1, 2014 Veterans Day—November 11, 2014 Thanksgiving Holiday—November 27-28, 2014 Holiday Break—December 25-26, 2014			

A photo ID is required to process transactions in person.

In order to process any registration transaction in a student's absence, a third party must present their photo ID and written authorization signed by the student. A Registration by Proxy Form for a third party must present their photo ID and written purpose is available on the web at students.asu.edu/forms/registration or at any University registration site.

Measles Immunization Policy

Arizona State University requires new freshman, transfer, and graduate students to submit proof of two doses of MMR—Measles (rubeola), Mumps and Rubella (German Measles). This is a mandatory requirement for all college students born on or after

January 1, 1957. You will not be permitted to register, add, or drop classes without having met this requirement. If you cannot locate your documentation, the MMR vaccinations and lab test are available for a minimal fee at ASU Health Service.

One of the following may be used as documentation:

- Documentation of two MMR vaccines with the first at around 12 months or older and the second vaccination at least 28 days apart.

Registration, cont.

Measles Immunization Policy, Cont.

- Documentation by a physician of having had Rubeola, Mumps and Rubella diseases.
- Documentation of a positive lab test showing immunity to RUBEOLA IgG (Measles=Hard measles/10 day measles).

When submitting your documentation, please include the cover page that can be found at <https://eoss.asu.edu/health/immunization>

Mail, Fax or Email to:

IMMUNIZATION DEPARTMENT	FAX#: 480-965-8914
ASU Health Service	Phone#: 480-965-8177
Arizona State University	Email: measles@asu.edu
P.O Box 872104	
Tempe, AZ 85287-2104	

Advising

Admitted undergraduate students who have declared a major should contact an academic advisor in the college or school of their major for advising and for assistance in determining the catalog under which they will graduate. Exploratory/undeclared students should contact School of Letters & Sciences for academic advising. Many programs require academic advisement prior to registration for classes.

Students may visit MyASU to learn their current academic advising office assignment. For additional information regarding general academic advising for all ASU departments Visit <https://students.asu.edu/academics>

Instructor-Initiated Drop Option

The instructor of a course has full authority within departmental or other higher-level policies to decide whether or not class attendance is required. During the second week of classes in Fall or Spring, or the first four days of each Summer Session, the instructor can drop a student for non-attendance. In classes which are full, this will allow accommodation of other students requesting the class and help instructors avoid excessive

overrides. Instructor-initiated drops for non-attendance must be based upon concrete evidence of non-attendance and be signed by the Dean or Dean's Designee in the college offering the course. The college will notify the student by mail at the student's currently posted local address. Nothing in this policy contradicts any other policy regarding attendance, religious holidays, or the student's responsibility to notify the instructor in case of absences.

Note: Students should be aware that non-attendance will not automatically result in being dropped. Instructors have the right to exercise this option at their discretion. It is also the student's responsibility to contact the instructor before the end of the first week of classes if absences during that period cannot be avoided.

Withdrawal Policy

Course Withdrawal

After the drop/add period and up to September 10, 2014 for Session A, November 4, 2014 for Session B and November 5, 2014 for Session C, a student may withdraw from any course with a grade of "W". Withdrawals may be initiated online using My ASU or in person at any registration site. Courses with alternate begin and end dates may have an adjusted withdrawal schedule. Courses from which the student withdraws will remain on the student's transcript with a grade of "W". Any appropriate refunds are issued based on the published Refund Schedule and the date of the withdrawal. To determine whether you will be eligible for a refund after withdrawing, contact Student Accounts at 480-965-6341. It is the student's responsibility to initiate a withdrawal if unable to attend a class. Failure to do so will result in a grade of "E" being assigned for the class. Although students who do not attend class during the first week of a term may be administratively dropped from the class, such withdrawal is at the discretion of the instructor. In special circumstances, a medical withdrawal or academic record change maybe authorized by the Dean of an academic unit if the student petitions for the change and presents documentation of reasons for being unable to attend the class. Please note academic record changes can only be requested after the semester has ended. It is the student's responsibility to petition for such change if appropriate.

Complete Withdrawal

A student may withdraw from all of his or her classes (the student will no longer be enrolled in any classes for the specified semester) through the transaction deadline or the last day of classes for

Registration, cont.

any semester. A grade of “W” is awarded for each class from which the student withdraws. The complete withdrawal deadline is October 10, 2014 for Session A, and December 5, 2014 for Sessions B and C. Beginning the first date of the semester, undergraduate students are required to request a complete withdrawal in person. Making a complete withdrawal from the University is a difficult decision, and ASU has many resources in place to help. Because there may be serious academic and financial consequences to processing a complete withdrawal, you should view complete withdrawal as a final resort. You are encouraged to meet with your academic advisor to explore alternatives.

Note: A student may not avoid any penalty for academic dishonesty by withdrawing from a course. A student may be reinstated to a course to receive a penalty of a reduced or failing grade, or XE. Remember: If you have financial aid or scholarships, be sure you understand minimum credit hour requirements for maintaining those awards.

Military Withdrawal

To completely withdraw due to military activation, immediately contact Veterans Services in the Pat Tillman Veterans Center. For all campuses, call 480.965.7723 to determine whether the call to active duty qualifies for the “Military Activation” policy. For example, students reporting to “boot camp” or required training may not qualify for this policy. Students who qualify will receive some regulatory relief in the recalculation of financial aid and the calculation of tuition and fee charges. Students are also given options regarding their academic records, e.g., complete withdrawal, incomplete grades, etc.

Financial Assistance Withdrawal Policy

Circumstances may necessitate complete withdrawal from the University. For financial aid, a complete withdrawal from the full term or any individual session can affect financial aid eligibility. The outcome of complete withdrawal on your financial aid depends on when the complete withdrawal is initiated and the types of financial aid you received. In all cases, your financial aid must be recalculated.

Official Complete Withdrawal

Federal regulations require the recalculation of Title IV financial aid in cases where a student received financial aid and officially

withdrew on or before the point which 60% of the semester has lapsed. If a return of aid is required, ASU returns the unearned portion of Title IV financial aid funds to the Federal Programs on behalf of the student. Any return of financial aid funds made by the University will be charged to the student’s University account. Payment to the University will be due on demand. Title IV funds include the Federal Pell Grant, the Federal Supplemental Educational Opportunity Grant (FSEOG), the Federal Perkins Loan, the Leveraging Educational Assistance Partnership (LEAP), the Academic Competitiveness Grant (ACG), the Science and Mathematics Access to Retain Talent Grant (SMART), the Federal Teach Grant, the Iraq and Afghanistan Service Grant, the Federal Direct Subsidized and Unsubsidized Student Loans and the Federal PLUS Loan. Federal Work Study earnings and non-Title IV aid are not included in this formula. However, the student may not continue to work under the Federal Work Study program after their official date of withdrawal.

University Testing Requirements

All new, transfer, or readmitted undergraduate students must meet one of the following testing requirements:

- Take the ACT English, SAT verbal examination, WritePlacer Plus section of the ACCUPLACER, TOEFL (Test of English as a Foreign Language), IELTS (International English Language Testing System), or PTEA (Pearson Test of English Academic) and have scores submitted to ASU.
- Receive a score of 4 or 5 for the advanced placement examination in English offered by the College Entrance Examination Board and have scores submitted to ASU.
- Take the CLEP College Composition exam, earning a score of 50 that qualifies for placement in ENG 102, and have scores submitted to ASU.
- Have previously taken or be currently enrolled in WAC101, WAC107, ENG101, ENG102, ENG105, ENG107, or ENG108 at ASU. If the course was taken at ASU before 1980, contact the Records and Enrollment Services Office in SSV140 or at 480.965.3124, before registering for classes.
- Transfer a course equivalent to ENG101, ENG102, ENG105, ENG107, or ENG108 with a grade of “C” (2.00) or higher.

An official transcript showing the grade must be received by ASU.

Registration, cont.

The evaluations of transfer English courses at Arizona State University has been centralized and all evaluations will be processed through the new Transfer Credit Guide. All transfer students should visit www.asu.edu/transfercredit to request an evaluation of transfer course work. Any questions regarding the evaluation process should be sent to articulation@asu.edu.

Placement Exams

A. First-Year Composition

Placement in First-Year Composition courses (WAC101 or WAC107 followed by ENG101 or ENG107 the next semester, or ENG101, ENG105, or ENG 107) is determined by the score earned on the ACT English, SAT Verbal Exam, Accuplacer, TOEFL, IELTS, or PTEA exam. Multilingual students are not required to take multilingual sections of first-year composition courses (WAC107, ENG107, and ENG108). They have the option of taking mainstream composition courses (WAC101, ENG101, and ENG102). If students enter the university without taking an acceptable placement exam, the Accuplacer may be taken once on campus at the University Testing and Scanning Services, located at 1130 E. University Dr. Suite 204 in Tempe, at regularly scheduled times. Contact the UTSS at 480.965.7146 to make an appointment. Placement in First-Year Composition will be determined as follows:

Multilingual students who have taken the IELTS or PTEA exam should contact the Writing Programs Office at 480-965-3853 for assistance with registration.

Students who have taken the Advanced Placement Exam in English offered by the College Entrance Examination Board, the International Baccalaureate English A Exam, or the CLEP College Composition Exam, can contact the Writing Programs Office at 480-965-3853 for more information about placement into first-year Composition courses.

B. Mathematics Course Placement Exams

Arizona State University requires the **Math Placement Test** to

Exam Score:	Register For:
SAT Verbal 460 and below	WAC101 or WAC107
ACT English 18 and below	WAC101 or WAC107
TOEFL 550PBT / 213CBT / 79iBT and below	WAC107
IELTS 6.0 and below	WAC 107
PTEA 56 and below	WAC 107
SAT Verbal 470-610	ENG101 or ENG107
ACT English 19-25	ENG101 or ENG107
TOEFL 560PBT / 220CBT / 83iBT and above	ENG101 or ENG107 (Students should call 480-965-3853 for assistance when registering for ENG101)
IELTS 6.5 and above	ENG 107
PTEA 56 and above	ENG 107
SAT Verbal 620 and above	ENG105
ACT English 26 and above	ENG105
Accuplacer score 4 or below	WAC101 or WAC107
Accuplacer score 5, 6, or 7	ENG101 or ENG107
Accuplacer score 8	ENG 105

assess a student's prerequisite knowledge for placement into several mathematics courses up to and including first semester calculus. The instrument used for testing is a powerful assessment tool that zeros in on the strengths and weaknesses of a student's mathematical knowledge, reports placement score to the student and then, if necessary, provides the student with a learning environment for bringing this knowledge up to an appropriate level for the desired course placement.

All incoming students must complete the **Math Placement Test** prior to enrollment unless they have transferred an equivalent prerequisite course. The time limit to finish the assessment

Registration, cont.

Veterans Educational Benefits

Veterans and eligible dependents must apply for veterans educational benefits and then verify their status with Veterans Services as soon as possible with each new semester. Distance Learning classes have veterans education benefit restrictions. Veterans cannot collect benefits for audited classes.

Student Identification

ASU Sun Devil Cards

Students are required to provide an ASU ID card to receive many ASU services, gain access to educational records, or gain access into secure buildings, classrooms and labs. Each student admitted to ASU now may choose between the Pitchfork ID Check Card MasterCard® offered by MidFirst Bank¹ and the basic Sun Card. The Pitchfork Card is an official ASU student photo ID and a MasterCard check card linked to Sun Devil Checking account. Both cards act as official university IDs and cost \$25*, which may be paid with cash, check, Visa®, MasterCard®, or applied to the student's university account. As proof of identity, students will need their ten-digit ASU ID and a legal photo ID (driver's license, passport, or Military ID, etc.). Call 480.965.CARD (2273), or visit cardservices.asu.edu for more information. Both the Pitchfork Card and the basic Sun Card contain a 16-bit iCLASS® chip that allows easy access into classrooms and residence halls without the use of a key.

Do not punch holes in your card, or you will damage your card's functionality.

Both the Pitchfork Card and the basic Sun Card can be used for a variety of services.

Tuition and Fees

Admission Application Fees

*Admission application fees are subject to change. These fees are non-refundable and must be paid at the time of application.

*Also includes resident students applying from out-of-state.

Fall 2014 General Tuition*

General tuition, program-specific tuition, special class fees and mandatory registration fees are set annually by the Arizona Board of Regents. Visit the following websites for more information.

- General tuition and mandatory registration fee information— <https://students.asu.edu/tuitionandfees>
- Program-specific information— <https://students.asu.edu/tuition>

Special class fees can be viewed online at the time of class registration

By registering for classes you agree to pay all applicable tuition and registration fees.

*All amounts presented in any University publications or web pages represent tuition and fees as currently approved. However, Arizona State University reserves the right to increase or modify tuition and fees without prior notice, upon approval by the Arizona Board of Regents or as otherwise consistent with Board policy and to make such modifications applicable to students enrolled at ASU at that time as well as to incoming students. In addition, all tuition amounts and fees are subject to change at any time for correction of errors.

Tuition Billing

Tuition charges will be billed on your student account and may be viewed online through My ASU (my.asu.edu) after registration. From My ASU, select the “Finances” link on the upper left side.

By registering for classes you agree to pay all applicable tuition and registration fees.

If tuition is not paid by the applicable tuition due date, or financial aid is not awarded and accepted by the due date, you will be automatically enrolled in the ASU Payment Plan and charged a non-refundable enrollment fee of \$100 for resident students and \$200 for non-resident students. For students with accepted financial aid sufficient to cover tuition charges, financial aid will automatically pay tuition charges and no action is necessary. For students with accepted financial aid insufficient to cover tuition charges, payment in full is required by the due date to avoid automatic enrollment in the ASU Payment plan. Refer to <https://students.asu.edu/tuitiondeadlines> for your specific tuition payment due date.

Online Billing

Online billing provides reliable and secure access to billing statements any time of day from anywhere in the world along with immediate access to current account information. To view and pay your charges, login to my.asu.edu, select the link “Finances” on the upper left side, then click “Make a Payment”. Online billing statements are also available through QuikPAY by clicking “View Account”. Students are responsible to review their ASU e-mail account for notification of billing statements and to login to their student account on My ASU for current billing information. **Billing statements are not mailed.**

Students may authorize others to view and pay their ASU student account through QuikPAY. Log in to my.asu.edu, select the “Finances” link on the upper left side, then click “Make a Payment”. Once directed to QuikPAY select Authorized Payers from the left windowpane and enter the requested information for each person to be authorized on the account. Authorized Payers must have a valid email account.

eCheck Payments

eChecks are ASU’s preferred payment method and are accepted online with no service charge or additional cost to the student. Make eCheck payments on QuikPAY by logging in to My ASU (my.asu.edu), select the “Finances” link on the upper left side, then click “Make a Payment” to be directed to the online payment processor. eChecks are a fast and simple payment method that can be made from regular U.S. checking and savings accounts in U.S. dollars. Checks issued from money market accounts, credit card companies, mutual funds, brokerage accounts, home equity or other lines of credit cannot be processed as an eCheck. Additional information is available at students.asu.edu/tuitionandbilling, see Payment Options.

Tuition and Fees, cont.

Credit Card Payments

ASU does not directly accept credit or debit card payments for tuition or other student account charges. The University has arranged for a third-party processor to accept Visa, MasterCard, Discover, and American Express credit and debit card payments online. The processor will charge a 2.5% service fee for credit and debit card payments in addition to the ASU payment amount. The service fee is not paid to ASU and is non-refundable, even if related payment to ASU is refunded. Credit and debit card payments may be made on QuikPAY by logging in to My ASU (my.asu.edu). Click on the "Finances" link on the upper left side, then click "Make a Payment" to be directed to the online payment processor. Credit and debit card payments are not accepted by mail, in person, or over the phone.

International Payments

ASU has partnered with peerTransfer to offer a streamlined and cost effective payment method for you to make international payments to ASU through QuikPAY. Initiate your international wire transfer payment at least one week before the applicable due date to ensure timely receipt.

Personal Checks

Checks payable to Arizona State University and without restrictive endorsement are generally acceptable. Mail checks to Cashiering Services, Arizona State University, PO Box 870303, Tempe, AZ 85287-0303. Include your ASU ID number. Check payments should be mailed at least two weeks prior to the applicable tuition due date to avoid automatic enrollment in the Tuition Installment Plan. Check payments are also accepted in person at all campuses. **See Tuition Hours on page 14.**

Residency Classification

Residency (tuition) status is initially determined by the application for admission at the time a student applies to the University. Non-resident students who feel they may qualify for resident tuition status must file a petition for reclassification no later than the last day of regular registration. For general information about the requirements, consult the ASU General Catalog or the web at students.asu.edu/residency. Residency classification is a complex process and you are encouraged to petition early during the reclassification period. It is recommended that you submit the appropriate residency petition form and requested supporting documentation along with your \$50.00 non-refundable petition fee to the Residency Classification Office by the appropriate deadline date. Deadline for submitting a reclassification petition for Fall 2014 is August 27, 2014. Failure to petition by the last day of regular registration constitutes a waiver of the student's rights for residency reclassification or appeal for the current semester.

Citizenship or Lawful Presence Requirement

Arizona law requires that students who are seeking consideration for in-state tuition status or aid that is funded in part or in whole by state money to provide verification of citizenship, permanent residency or other lawful immigration status. Most students will be able to be verified through automatic processes such as the financial aid application ([FAFSA](#)). Students choosing to go through the FAFSA process should be verified no later than the beginning of July for the Fall term, December for the Spring term and May for the summer term. If the FAFSA has not cleared the verification requirement by the recommended month it is highly possible that documentation is still required.

Tuition and Fees, cont.

ASU Payment Plan

The ASU Payment Plan provides students with the option to budget payment of certain eligible university charges over several months. Eligible charges are tuition, housing, meal plan and health insurance. Students may enroll themselves in the plan through my.asu.edu or they will be automatically enrolled if tuition charges are not paid in full by the applicable due date. There is a per-semester non-refundable fee of \$100 for resident students and \$200 for non-resident students. For information on how the fees are broken down, go to students.asu.edu/tuitioninstallmentplan. Please note that the enrollment fee is non-refundable, even if the student withdraws from classes.

All students are eligible to enroll in the ASU Payment Plan after they register for classes. Once a student enrolls for classes, he or she will not be withdrawn from classes during the current semester for non-payment. Students must withdraw from classes if they decide not to attend. If students enrolled in the plan do not make scheduled payments, monthly late fees will be assessed until the account is brought current on payments, registration in future semesters will be blocked, and access to other University services, such as official transcripts and diplomas, will be withheld.

Tuition Payment with Financial Aid

Financial aid is posted to your student account and used to pay tuition and other student account charges, with any excess financial aid immediately refunded to you. Any institutional charges incurred after financial aid disbursement are the student's responsibility to pay by the due date. Financial aid awards generally only pay charges in the semester for which the aid is intended, and you may be refunded excess financial aid for one semester and still have a balance owed for another semester. If you receive a refund, ensure that all charges have been paid by logging in to My ASU (my.asu.edu) and select the "Finances" link on the upper left side.

For students with accepted financial aid sufficient to cover tuition charges, financial aid will automatically pay tuition charges and no further action is necessary. Students with unpaid tuition charges in excess of pending aid will be automatically enrolled in the ASU Payment Plan.

Note: If financial aid is not awarded and accepted by the tuition due date, tuition charges must be paid in full to avoid automatic enrollment in the ASU Payment Plan and assessment of the non-refundable ASU Payment Plan fee of \$100 for resident students and \$200 for non-resident students.

By registering for classes you agree to pay all applicable tuition and registration fees. Classes are not automatically cancelled for non-attendance or non-payment.

Taxability of Scholarships and Fellowships: Scholarships, grants, fellowships and stipends (but not loan funds) are taxable income to the recipient, except for the portion of these funds used for tuition, registration, other University fees, and books, supplies and equipment required for the courses being taken. Special tax regulations also apply to non-resident alien students and may require withholding of taxes at the time of aid disbursement to these individuals. Information on the taxability of scholarships can be obtained from the following IRS publications and forms: Publication 970, Tax Benefits for Education, Pub 519-U.S. Tax Guide for Aliens, Form 1040EZ and instructions - Income Tax Return for Single and Joint Filers with No Dependents, Form 1040NR and instructions - U.S. Non-resident Alien Income Tax Return. These publications and forms can be obtained from the Internal Revenue Service at their toll free number 1.800.829.FORM or online at www.irs.gov.

The Student Financial Assistance Withdrawal Policy will apply when a student receives financial aid funds and subsequently withdraws, drops out, takes an unapproved leave of absence, fails to return from an approved leave of absence, is expelled, or otherwise fails to complete the period of enrollment for which he or she was charged. **See page 8 in this handbook or online at students.asu.edu/financialaidpayment.**

Students with loans who would like to cancel or reduce their loans must inform the Student Financial Assistance Office in person within 14 days of the disbursement.

Tuition and Fees, cont.

Tuition Payment with Prepaid or College Savings Plans

Prepaid or College Savings Plan payments made payable to Arizona State University are generally accepted. Mail checks to Cashiering Services, Arizona State University, PO Box 870303, Tempe, AZ 85287-0303. Include the student's ASU ID number. Prepaid or College Savings Plan payments should be mailed at least two weeks prior to the applicable tuition due date to avoid automatic enrollment in the ASU Payment Plan and assessment of the non-refundable installment plan fee. Notification to Arizona State University of pending payments by the Prepaid or College Savings Plan does not exempt a student from automatic enrollment in the ASU Payment Plan and assessment of the non-refundable installment plan fee.

Sponsorship by Approved Governmental and Third-Party Agencies

Submit sponsorship authorization in person at the Student Accounts Office, by fax to 480.965.9242, or by e-mail sponsorbilling@asu.edu. Failure to do so by the tuition payment deadline will result in automatic enrollment in the ASU Payment Plan and assessment of a non-refundable enrollment fee of \$100 for resident students and \$200 for non-resident students. An acceptable letter of authorization must be submitted to the Student Accounts Office by September 10, 2014.

A **\$75 per semester** Sponsored Tuition Fee will be assessed to each sponsored student. Sponsored students are responsible for all tuition, fees, and late charges if the sponsoring agency fails to pay by the due date of the invoice. Questions about third party sponsorship may be directed to the Student Accounts Office at 480.965.2436 or 480.965.4029.

International students who are required to carry student health insurance and are using coverage through their sponsor must receive approval from ASU Campus Health Services, Room 124, 480.965.2411. Governmental and Third-Party Agencies must have offices in the United States with invoices directed to a U.S. address.

Employee Reduced In-state Tuition

Partial waivers are available to faculty and staff who are employed at least 50% time within the state University system, and to their spouses and dependent children. Employees must fill out the Employee Tuition Waiver Form every semester they attend, which can be obtained at Human Resources, the Student Accounts Office, or at asu.edu/hr/forms/index.html. The completed form may be submitted to Student Accounts (Tempe Campus), Student Services Building Room 230, or at the West, Polytechnic, or Downtown Phoenix campus Cashiering Offices. The form may also be faxed to 480.965.9242. The tuition waiver does not cover 100% of your tuition and fees. The non-waived portion of the tuition and fees will be billed on your student account and should be paid by the due date to avoid late fees.

Please submit early.

Tuition and Fees, cont.

Non-residents are not eligible for Tuition Waivers. Please contact Residency Classification at 480.965.7712. Residency processing can be time-consuming, so apply early. You must be employed on the first day of the semester to be eligible for employee reduced in-state tuition. Employee Tuition Waivers must be processed by the Student Accounts Office on or before the first day of the session to qualify for reduced tuition. Waivers submitted after the first day of the session will not be accepted and you will be held responsible for the full tuition and fees.

Graduate Assistants

Students identified as Research and Teaching Assistants receive tuition assistance if they meet employment and class enrollment requirements. RA/TA remissions do not cover 100% of tuition and fees. If eligible for a remission, the remaining tuition and fees will be billed on your student account with a October 25, 2014 due date.

Differential Tuition and Program Tuition

Certain graduate, undergraduate, colleges and programs assess additional differential tuition and program tuition which differs according to college and/or program. Contact your program advisor for details on these fees or see the Tuition Estimator at students.asu.edu/costs.

Excess Hours Tuition

The Arizona Legislature enacted legislation in 2005 (A.R.S. § 15-1626) that establishes credit hour thresholds for undergraduate students who attend a public university in Arizona. Undergraduate students who enroll for credit hours beyond the applicable threshold of 145 hours are required to pay a tuition surcharge. The tuition surcharge is billed in addition to tuition, program tuition, mandatory fees and class fees. See students.asu.edu/tuitionandfees for additional information.

Special Class, hybrid and icourse Fees

Special class, hybrid and iCourse fees are assessed based on

enrollment in specific classes. Class fees are published with each class through [class search](#).

Financial Aid Trust Fee

All students are assessed a mandatory financial aid trust fee as authorized by the Arizona Legislature to create a Financial Aid Trust Fund, from which Financial Aid Trust Grants are awarded under the usual aid eligibility criteria. Fees collected from students are matched by the State of Arizona. See the Tuition and Fees Schedule at students.asu.edu/tuitionandfees.

Technology Fee

All students are assessed a mandatory technology fee as authorized by the Arizona Board of Regents to fund technology initiatives and improve access on all campuses. See the Tuition and Fees Schedule at students.asu.edu/tuitionandbilling.

Student Programs Fee

All students are assessed a mandatory student programs fee as authorized by the Arizona Board of Regents to provide funding for new or enhanced facilities and student support programming. See the Tuition and Fees schedule at students.asu.edu/tuitionandfees.

Tuition and Fees, cont.

Recreation Fee

All students are assessed a recreation fee allowing access to recreation facilities on all four ASU campuses. See the Tuition and Fees Schedule at students.asu.edu/tuitionandfees. Faculty/staff who are attending classes and all online students are not assessed the recreation fee. Please contact the Student Recreation Complex at 480.965.8900 for information on how to become a member.

Health and Wellness Fee

All students are assessed a health and wellness fee as authorized by the Arizona Board of Regents to enhance services for students who seek both preventative and acute care and to expand outreach and wellness education and services.

Student Service Facility Fee

All students are assessed a Student Services Facility Fee as authorized by the Arizona Board of Regents to provide funding for new and enhanced student service facilities. See the Tuition and Fees schedule at students.asu.edu/tuitionandfees.

Late Registration Fee

All students who register Thursday, August 13, 2014 and after, will be **assessed a late registration fee of \$50.00**. Registration after the published deadline may be permitted under extraordinary circumstances if approved by an authorized College designee. Late fees are not refundable.

Tuition Receipt

For students requiring tuition receipts for insurance, reimbursement, or other reasons, login to my.asu.edu and select the "Finances" link on the upper left side, then click View History and select the Tuition Receipt tab at the top of the page. For in person assistance or additional documentation, see campus locations under "Tuition Payment Hours", page 14.

Delinquent Financial Obligations

Students with delinquent accounts will not be allowed to register for classes or obtain official transcripts or diplomas. The University reserves the right to involuntarily withdraw students with severely delinquent accounts from current semester courses. University billings not paid by the due date are subject to monthly

late charges beginning 30 days past due and continuing monthly until paid in full. The monthly late charge for past due balances between \$20-\$50 is \$5, for balances between \$51-\$400 is \$10, for balances between \$401-\$1,000 is \$25, for balances between \$1,001-\$3,000 is \$50, for balances between \$3,001-\$5,000 is \$75, and for balances greater than \$5,000 is \$100. Former students with outstanding charges may be referred to an outside collection agency with late fee assessment continuing monthly until paid in full.

Returned Checks

A \$25 fee is assessed for returned checks and eChecks. Students with multiple returned checks or eChecks are subject to a permanent registration hold requiring advanced payment in secure funds prior to registration or access to other University services.

Student Health Insurance

Eligibility: Group Health insurance is available to:

- **Undergraduate students** registered for at least seven units or have a consortium agreement to take courses at another qualified college with an overall credit hour total of at least seven units
- **Graduate students** enrolled in degree or certificate programs, and taking at least three credit hours or one dissertation/thesis hour
- **Group Health Insurance** is available to undergraduate students registered for at least seven units, or have a consortium agreement to take courses at a qualified college with an overall credit hour total of at least seven units, graduate students enrolled in degree or certificate programs, and taking at least 3 credit hours or one dissertation/thesis hour. Student Health Insurance enrollment is an available option through My ASU (my.asu.edu) by selecting Health and Wellness in the Quick Links. Open enrollment is online through the first two weeks of class.
- **International student** enrollment in Student Health Insurance is mandatory and the cost of insurance is automatically added to registration fees. Waiver exception may apply. For additional information or waiver application <http://students.asu.edu/internationalstudenthealth>

Tuition and Fees, cont.

Student Health Insurance enrollment is available through My ASU (my.asu.edu) by selecting Health and Wellness in the Quick Links box on the left-hand side of the page. Once enrolled for Student Health Insurance, you will be automatically re-enrolled into the plan each subsequent semester once you have registered for classes. The premium will be billed to your student account.

Coverage may be added or dropped until September 3, 2014. Complete withdrawal from the University on or before September 3, 2014 will not result in automatic cancellation of student health insurance. Go to my.asu.edu and select Health and Wellness in the Quick Links box on the left-hand side to cancel enrollment in student health insurance. The insurance **cannot** be cancelled if complete withdrawal from the University occurs after September 3, 2014 or if the insurance has been utilized.

Additional information about coverage, eligibility, spouse and dependent coverage, cost, payment options and coverage limits, can be found at students.asu.edu/health or [Aetna Student Health enrollment information](#).

Institutional Refund Policy

Tuition and Fees

Tuition and fees are subject to a 100% refund if enrollment is officially cancelled within the refund period. In the Fall semester, for classes eight weeks or longer, the refund period is two weeks, and for classes shorter in length the refund period is one week. Additional information can be found at <https://students.asu.edu/tuitionrefundpolicy>.

Beginning the first day of classes, undergraduate students are required to work with the College of their major to facilitate the withdrawal process.

The 100% refund period is one week for sessions shorter than eight weeks and dynamically dated classes. All refunds are less any amounts owed to the University and are subject to payment holding periods. Students withdrawing for medical or other extenuating circumstances must contact their college to initiate the process. Tuition is non-refundable after the first week of these sessions/classes.

The University provides a prorated refund for students receiving financial aid; therefore, the refund schedule is the minimum amount refundable to these students. Withdrawal or cancellation occurs on the calendar day that withdrawal is processed either in person at any Registrar site or online using My ASU. See [stu-dents.asu.edu/financialaidpayment](https://students.asu.edu/financialaidpayment) for the Financial Aid Withdrawal Policy.

Student Account Refund (Disbursement)

Financial aid is posted to your student account and used to pay University charges such as tuition, Residential Life, meal plan and health insurance fees. Refunds of excess financial aid will be processed beginning the week before classes and will continue to be processed throughout the semester. Any changes to your schedule that results in a fee increase or any other fees incurred after financial aid disbursement, will be your responsibility to pay by the due date. You may view details of your student account, including financial aid refunds, by logging into my.asu.edu and select the "Finances" link on the upper left side, then clicking "View History".

Note: To receive your financial aid refund beginning the week before classes, you must register for classes, complete your financial aid packet, and accept your loans at least two weeks before the semester begins. Financial aid refunds will be mailed or direct deposited to your bank account.

Refund by direct deposit to your bank account is available and is the most convenient way to receive student account refunds. Direct deposit enrollment is available at My ASU (my.asu.edu) by selecting the "Finances" link on the upper left side, and clicking "Direct Deposit" in the Financing Tasks box under "Manage Payments". Further information is available at students.asu.edu/tuitionandbilling or in the Student Accounts Office on the 2nd floor of the Student Services Building (Tempe campus). Direct deposit enrollment must be completed a minimum of two weeks prior to your refund being issued. For students not enrolled in direct deposit, or who do not meet the direct deposit enrollment deadline, refund checks will be mailed. Keep your mailing address up to date to ensure that refund checks are received in a timely manner. View and update your address on My ASU by clicking on "My Profile" in the top-right corner. If you request a replacement check there is a \$20 per check reissue fee. **All student account refund checks will be mailed.**

Transportation Options

For all transportation related inquiries, including parking permit rates and locations, free campus shuttle service, Valley Metro bus and METRO light rail passes, and visitor parking, please visit the ASU Parking and Transit Services website at <http://parking.asu.edu>.

Ombudspersons

While all faculty and staff within the University community serve to facilitate matters, the following individuals have been designated to serve as ombudspersons (impartial fact-finders and problem solvers). They have no power to reverse or change decisions but have conciliation skills to help resolve matters.

Chair	Paul Karoly	College of Liberal Arts and Sciences	480.965.5404
Academic / Student Affairs	P.F. Lengel	College of Liberal Arts and Sciences	480.965.6506
	Kaylen Cons	Student Affairs	480.965.5302
	Patrick O'Rourke	Residential Life	480.965.1543
Academic Professionals	Dick Filley	Ira A. Fulton School of Engineering	480.727.5252
	Elaine Rostad	Student Services	602.496.2153
Staff Personnel	Michelle Johnson	ASU Gammage	480.965.5062
Tempe Campus	Barzin Mobasher	Ira A. Fulton School of Engineering	480.965.0141
	Paul Karoly	College of Liberal Arts and Sciences	480.965.5404
	Ronald Rutowski	College of Liberal Arts and Sciences	480.965.4369
	Tamara Underiner	Herberger Institute of Design and the Arts	480.965.7323

	Edwin Gonzalez-Santin	College of Public Programs	602.496.0101
	Kevin Ellsworth	School of Letters and Sciences	480.727.7090

University Policies

Family Educational Rights and Privacy Act

General Information

The federal Family Educational Rights and Privacy Act (also known as FERPA, and/or the Buckley Amendment) affords students certain rights with respect to their education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.

Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

Note: Students must provide photo identification in order to access their education records.

2. The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.

Students who believe their record is inaccurate or misleading should write to the University official responsible for the record. Clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing about the request for amendment. Additional information about the hearing procedures will be provided to the student when notified of the right to a hearing.

Note: FERPA does not address grade disputes or grievances which are pursued through other University and/or college procedures.

3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interest. School officials are administrators, faculty, professional staff, academic advisors, clerical or support employees, including ASU law enforcement unit personnel and ASU health staff, volunteers, a person or company with whom the University has contracted as its agent, acting with legitimate educational interest to provide a service instead of using University employees or officials (such as an attorney, auditor, collection agent, service provider); a person serving on the Board of Regents; staff in the Alumni Association and ASU Foundation offices, or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

Additional exception categories may be found in SSM 107-01: Release of Student Information which is located on the web at <http://www.asu.edu/aad/manual/ssm/ssm107-01.html>

A school official has a legitimate educational interest if the interest in an education record is justified under one or more of the following conditions:

- The information or records requested are relevant and necessary to accomplish some task or determination related to the legitimate educational interest of the student;
- the official needs to review an education record in order to fulfill his or her professional responsibilities for the University;
- the task or determination is an employment responsibility or a properly assigned subject for the inquirer's determination and/or
- the task or determination is consistent with the purpose for which the records, information, or data are maintained.

Note: A parent of a dependent student may challenge denial of access to the dependent student's record by producing the most current copy of Internal Revenue Form 1040. (Dependency is defined in Section 152 of the Internal Revenue Code.) If that form lists the student in question as a dependent, the parent

University Policies, cont.

will be required to sign an Affidavit of Dependency which affirms that the student is his/her tax dependent. The affidavit will be retained by the University Registrar Services and must be renewed each tax year. Upon receipt of these documents, the dependent student records will be made available to the parent as specified under FERPA.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Arizona State University to comply with the requirements of FERPA. Students are encouraged to first contact the University Registrar's Administration Office at 480.965.7302. A complaint may be filed with the Department of Education at the following address:

Family Policy Compliance Office

U.S. Department of Education

400 Maryland Avenue, SW

Washington, DC 20202

Definitions:

Student is any individual formally admitted and is or has been in attendance at ASU. The term does not apply to applicants for admission, nor does it apply to persons who have been admitted but who have not registered.

Education Record is any record(s) directly related to a student and maintained by Arizona State University or by a party acting for the University. This includes any information or data recorded in any medium, including, but not limited to: handwriting, print, computer media, video or audio tape, film, microfilm, and microfiche.

Directory Information (or releasable information) is general information that may be released to anyone without the consent of the student, unless the student indicates otherwise, except to the extent that FERPA authorizes disclosure without consent, including:

- Student Name
- Addresses (e.g., local, home, mailing and ASU e-mail, including directory number)

- Telephone Number(s)
- Date of Birth
- College
- Major
- Academic Level
- Dates of Attendance
- Enrollment status (e.g., undergraduate or graduate, full-time or part-time)
- Most Recently Attended Institution
- Participation in Officially Recognized Activities/Sports
- Weight/Height of Members of Athletic Teams
- Degrees, Honors and Awards Received (including National Merit, National Achievement, and National Hispanic Scholars)

Personally Identifiable Information (or non-releasable information) includes all information not defined as directory information, plus any information including directory information that the student has instructed ASU not to release. Personally identifiable information may not be released without the prior written consent of the student, except to the extent that FERPA authorizes disclosure without consent.

Student Control of Directory Information

Students may control release of directory information by submitting the appropriate form to any University registration location.

Unless otherwise requested, a student's name, email address, academic level, college and major may appear in the directory of faculty, staff, and students on ASU's web directory. To avoid the release of directory information in the printed directory, complete the appropriate form located at students.asu.edu/forms/withhold-directory-information-request.

University Policies, cont.

ASU has a policy that regulates and permits the sale of enrolled student directory information only through the University Registrar's Office. Unless otherwise directed by the student, directory information is subject to sale to outside purchasers.

Students accessing education records or receiving University services must provide proof of identification.

Questions or requests for additional information may be directed to any University registration location. Additional information, including FAQ's, is available on the web at

<http://students.asu.edu/policies/ferpa>.

Discrimination Complaints

Complaints of alleged discrimination in employment and educational programs and activities on the basis of race, color, religion, national origin, sex, gender identity, sexual orientation, age, disability, and qualified veteran statuses may be referred to the Office of Equity and Inclusion for review, investigation and resolution. All employees and students may visit with the Office of Equity and Inclusion to discuss any concerns without fear of jeopardizing their job or academic standing with the University.

Title IX Compliance

Title IX of the Education Amendments of 1972 protects individuals from discrimination based on sex in any educational program or activity operated by recipients of federal financial assistance. Sexual harassment, which includes acts of sexual violence, is a form of sex discrimination prohibited by Title IX.

ASU is committed to providing an environment free from discrimination based on sex and provides a number of resources and services to assist students, faculty and staff in addressing issues involving sex discrimination, including sexual violence. The following conduct shall constitute a violation of Title IX:

1. Making sexual advances or requesting sexual favors if submission to or rejection of such conduct is the implicit or explicit basis for imposing or granting terms and conditions of employment or education at the University;
2. Making sexual advances, requesting sexual favors, or otherwise discriminating on the basis of gender in a manner that unlawfully creates an intimidating, hostile, or offensive

working, residential, or educational environment at the University or that otherwise unlawfully interferes with an individual's work or educational performance;

3. Engaging in any sexual contact against a person who has not given consent or committing any act of sexual assault, public sexual indecency or sexual abuse against a person who has not given consent, if the act is committed on University property or in connection with any University sponsored event or activity;
4. Acting, recommending action, or refusing to take action in a supervisory position in return for sexual favors, or as a reprisal against a person who has rejected, reported, filed a complaint regarding, or been the object of sexual harassment; or
5. Disregarding, failing to investigate, or delaying investigation of allegations of sexual harassment to the extent that action, reporting, or investigation is appropriate or required by one's supervisory position.

A consensual amorous relationship may lead to sexual harassment or other breaches of professional obligations, particularly if one of the individuals in the relationship has a professional responsibility toward or is in a position of authority with respect to the other, such as in the context of instruction, advisement, or supervision. Due to the power difference, it may be difficult to avoid the appearance of favoritism or to assure a truly consensual relationship. Amorous relationships may result in conduct that amounts to sexual harassment or that violates the professional duties of even-handed treatment and maintenance of an atmosphere conducive to learning or working.

University Policies, cont.

Specifically, if involved in an amorous relationship with someone over whom he/she has supervisory authority, the individual must remove himself/herself from any participation in recommendations or decisions affecting evaluation, employment conditions, instruction, or the academic status of the other person in the relationship, and must inform his/her immediate supervisor.

Contact the Office of Equity and Inclusion for information or assistance:.

Office of Equity and Inclusion Office of Title IX Coordinator

Accommodations for Students with Disabilities

To facilitate the availability of reasonable and effective disability accommodations from the first day of class, qualified students must use the following process:

- Register for classes on their assigned priority enrollment date, and
- Request disability accommodations, from the applicable campus Disability Resource Centers, immediately following Priority Enrollment.

Note: Some accommodations, including but not limited to: alternative print formats, (e.g., Braille, e-text, large print), interpreting services, lab materials conversions, assistive technology, and the hiring of lab assistants, may require up to one semester in preparation time.

Returning Students: to request accommodations for ASU classes, go to <https://eooss.asu.edu/drc> and sign into DRC Connect.

New Students: please go to <https://eooss.asu.edu/drc> and sign in to DRC Connect. You will then need to submit an application to register with the DRC. Follow the prompts. If you have questions, do not hesitate to contact one of our offices below.

Contact Information: You can reach any of our Disability Resource Center offices by utilizing the information below:

DRC Phone number: (480)965-1234

DRC Fax number: (480)965-0441

DRC e-mail address: DRC@asu.edu

NOTE: For documentation questions please see: <http://www.asu.edu/aad/manuals/ssm/ssm701-02.html> . Disability information is kept confidential.

ASU Statement on Drug-Free Schools and Campuses

Under federal legislation entitled the Drug-Free Schools and Communities Act Amendments of 1989 ("Act"), no institution of higher education shall be eligible to receive funds or any other form of financial assistance under any federal program, including any federally funded or guaranteed student loan program, unless it has adopted and has implemented a program to prevent the use of illicit drugs and the abuse of alcohol by students and employees. The Act requires the annual distribution of the following information to students and employees.

Prohibition

It is the goal and policy of Arizona State University ("ASU") to provide a drug free environment for all University students and employees. To achieve this goal and to comply with federal law, ASU prohibits the unlawful sale, manufacture, distribution, dispensation, possession, and use of controlled substances on its property or as part of any of its activities.

Every ASU student and employee must abide by the terms of this statement, abide by applicable policies of the Arizona Board of Regents and Arizona State University, and abide by local, state, and federal laws regarding the unlawful possession or distribution of illicit drugs and alcohol.

ASU students and employees are subject to all applicable drug and alcohol policies, including policies set forth in the University's Staff Personnel Policies and Procedures Manual, the Academic Affairs Policies and Procedures Manual, University Student Services Manuals, and the ASU Police Department Policies and Procedures Manual. The following drug and alcohol policies also apply to students and employees: the Arizona Board of Regents' Code of Conduct and Student Code of Conduct and Arizona State University's Policy regarding alcohol and other drugs.

Sanctions

Sanctions under federal, state, and local law for the unlawful possession or distribution of illicit drugs and alcohol are serious and can range from civil sanctions to criminal convictions including fines and imprisonment. A listing of Arizona penalties

can be found at www.azleg.gov/arizonarevisedstatutes.asp?title=13 and a listing of Federal penalties can be found at www.justice.gov/dea/agency/penalties.htm. Sanctions will be imposed on a student who violates a Board of Regents' or University drug or alcohol policy; those sanctions may include expulsion or suspension, and may also include the requirement that the student participate in a drug education program. Sanctions will be imposed on an employee who violates university drug or alcohol policies which may include termination of employment, progressive discipline, and may also include the requirement that the employee participate in a drug education program.

Health Risks

A. Alcohol

Alcoholic consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effect just described.

Repeated use of alcohol can lead to dependence. Sudden cessation of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition, can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk than other youngsters of becoming alcoholics.

ASU Statement on Drug-Free Schools and Campuses, cont.

B. Illicit Drugs

A description of health risks associated with the use of illicit drugs is set forth in the attached Exhibit B.

Treatment, Counseling, and Rehabilitation Programs

Additional information regarding the health risks associated with the use of illicit drugs and the abuse of alcohol, drug awareness programs, and drug rehabilitation programs are available to employees and students through Student Health, the Employee Assistance Program and Counseling and Consultation. Classes on drug abuse are offered in the School of Social Work, Departments of Psychology and Counseling, the College of Nursing and the Human Resources Department.

The following offices have the ASU Statement on Drug-Free Schools and Campuses and will provide it on request:

- *Office of General Counsel*
- *Dean's Office in each ASU College*
- *Human Resources Department*
- *Division of Graduate Studies*
- *Provost Offices on each campus*
- *Student Employment*
- *Office of Research Development and Administration*
- *Student Life*

For further information about this statement or the Drug-Free Schools and Communities Act Amendment of 1989, contact the Office of General Counsel by calling 480.965.4550.

Facts About ASU

Arizona State University enjoys a national reputation as a leading research institution. ASU produces more graduates than any other university in the state. Students from around the nation and the world choose ASU because of its diversity and quality of academic, student, and research programs, a beautiful campus setting, and the value of the ASU degree in today's world.

Academic Environment

ASU offers 163 bachelor's degree programs, 155 master's degree programs, 83 doctoral programs, and one law degree program.

Undergraduate Students

ASU enrolled 10,232 new freshmen for the Fall 2013 semester. **Of the new freshmen, 27.6% graduated in the top 10% of their high school class.** The average ACT composite score of first time freshmen is 24.1. The average SAT combined score is 1107.

ASU enrolled 7,992 new transfer students for the Fall 2013 semester with 54.2% of the new transfers coming from community colleges in Arizona.

The graduation rate for 2008 lower division transfer students graduating in 5 years or less was 62.9%

The graduation rate for 2009 upper division transfer students graduating in 4 years or less was 75.1%

Undergraduate Enrollment

ASU enrolled 62,089 undergraduates in the Fall 2013 semester. Seniors (Seniors: 22,288; Juniors: 17,542; Sophomores: 11,294; Freshmen: 10,691) compose the largest class, representing more than a quarter of the student body and over a third of the undergraduate enrollment. ASU enrolled students from every state and from 95 countries in the Fall 2013 semester.

Undergraduate Student Profile

36.3% are from ethnic minority backgrounds

5.3% are international students

The average age is 23.

Degrees Awarded

In 2012-2013, ASU awarded 13,913 bachelors, 4,163 masters,

636 doctoral and 204 law degrees.

The graduation rate for 2007 first time, full time freshmen graduation in six years or less was 58.6%. Information on students who transfer out from ASU is not recorded, therefore is not available.

University Policies

Undergraduate Policies and Procedures

Admission

Freshman Admission Requirements and Timelines

ASU welcomes applications from students with diverse academic backgrounds and interests. Freshman applicants who possess a high school diploma and meet the following requirements will be admitted to ASU.

- English - 4 years (composition/literature based)
- Math - 4 years - Algebra I, Geometry, Algebra II and one course requiring Algebra II as a prerequisite.
- Laboratory Science - 3 years total (1 year each from any of the following areas are accepted: Biology, Chemistry, Earth Science, Integrated Sciences, and Physics)
- Social Science - 2 years (including one year American History)
- Foreign Language - 2 years (same language)
- Fine Arts - 1 year

Applicants must also meet at least one of the following:

- Top 25% in high school graduating class
- 3.0 GPA in competency courses (4.0 = A)
- ACT 22 (24 nonresidents)*
- SAT Reasoning 1040 (1110 nonresidents)*

*ASU does not require the writing portion of these tests.

Applicants must successfully complete ASU competency requirement. Admission may be granted with one deficiency in no more than two competency areas. Deficiencies cannot be in both math and laboratory science. Students must earn a minimum 2.0 in any subject area. Most competencies may also be met by test scores or college courses. See Detailed Competency Requirements [2] for more information.

Higher Requirements for Some ASU Schools/Colleges Some colleges/schools have higher requirements for admission to their majors. To learn more about requirements, find the major of your interest at Degree Search [3]. You should select a second major on your application if your first choice has higher requirements.

Individual Review All students who don't meet the above standards will be evaluated through a process called Individual Review. Through this process Undergraduate Admissions will review all available information about a student's application, carefully considering all aspects of a student's academic background and accomplishments. Submission of an ACT or SAT test score is highly recommended. In some cases, additional information might be requested.

Home School Applicants ASU welcomes home school students and recognizes the unique academic experiences they contribute to our rich community of scholars. Please read additional admission information specifically for home school students [4].

General Educational Development (GED) Students may also meet admission requirements by submitting an official GED score of 500 or above.

Important dates for fall 2015

June 15, 2014 - Application for admission is available

Freshman Application for fall 2015 is available

Nov. 1, 2014 - VIP admission date

Complete your application for admission by this date (with official high school transcripts and application fee) to receive select benefits: expedited admission and scholarship decisions, priority access to Orientation and housing registration, and exclusive event invites and campus visit offers.

Jan. 1, 2015 – FAFSA Submit your FAFSA

Starting Jan. 1 you can file your FAFSA with ASU (school code 001081) to find out what financial aid you might be eligible for. Students can submit the FAFSA to ASU prior to applying and admission to the University; however, only students admitted into ASU degree seeking programs will be reviewed for and offered financial aid.

Feb. 1, 2015 - Priority admissions date

Complete your application for admission by this date to ensure you're considered for the maximum scholarship opportunities. Late applicants will be considered for university admission and financial aid, but ASU programs with higher admission standards will give priority consideration to applications submitted by this date.

March 1, 2015 – FAFSA Priority Deadline

File your FAFSA to ASU by this date to maximize the amount of financial aid you could qualify for. Eligible students who apply by this date have a greater chance of receiving need-based aid. We encourage you to submit your FAFSA even if the priority filing date has passed.

May 1, 2015 - Enrollment deposit date

Submit your enrollment deposit to ASU to become an official Sun Devil and secure your spot in our fall 2015 incoming class. After you submit your enrollment deposit you can register for your orientation date and submit your campus housing preferences.

Application steps

1. Complete the Undergraduate Admission Application. ASU prefers that you apply online [5].
2. Submit the nonrefundable application fee. The application fee is not a processing fee, it is required of all students, and is non refundable under any circumstances
 - o Arizona residents - \$50.
 - o Non-residents - \$65.
3. Have your ACT or SAT scores sent directly to ASU from ACT or College Board. ACT or SAT scores are required for merit scholarship consideration and for ASU course placement. It is also required for some majors, and can be helpful in the general admission process.
4. Applicants must request transcripts from each educational institution attended. Official transcripts must be mailed or sent electronically directly to Admission Services by the records office of the issuing institution(s). Transcripts delivered by hand will only be accepted if they are sealed in the original high school envelope. ASU does not accept transcripts transmitted by fax. High school transcripts must show GPA and date of graduation. ASU requires an English translation of all foreign-language transcripts.

ASU will review your application file once you have submitted all materials.

To see if you have any missing items, and to view your admission status, sign in at My ASU [6] using your ASURITE ID, which is sent to you after you apply for admission.

Mailing Address (All materials, all campuses)

Steps for Freshman Enrollment for Newly Admitted Students

Congratulations, Sun Devil!

Welcome to the family! It's a big accomplishment to get accepted to a top tier university, like ASU. Be sure to complete these last few steps as soon as you can so nothing stands in your way as you start your new college chapter.

Once you're admitted

1. **Pay your enrollment deposit.**

Upon admission, first-time freshmen pay an enrollment deposit [1]. The deposit may be paid on My ASU [2].

2. **Join devil2devil on My ASU.**

Why wait for fall to start connecting with your classmates? Meet other new students, ask questions, win contests and find exclusive content in ASU's private social network: devil2devil.

3. **Get your parents connected**

We invite your parents to join the Sun Devil community. Family members can access helpful resources, connect with other families and subscribe to updates at ASU's parent website. [3]

4. **Apply for Financial Aid and Scholarships**

File the Free Application for Federal Student Aid [4] (FAFSA) by ASU's priority date of March 1 each year to maximize the amount of aid you receive. Eligible students who apply by this date have a greater chance of receiving need-based aid. The FAFSA can be filed beginning Jan. 1 of each year. ASU's Federal School Code is 001081.

Search and apply for private and departmental scholarships through ASU's scholarship website [5]. The general scholarship application, which is used for many ASU scholarships, is typically available in November and closed by Feb. 1. Read more about financial aid at ASU [6].

Remaining steps post deposit

1. **Customize Housing and Dining Preferences**

Now that you have submitted your enrollment deposit, you can customize your housing preferences. All freshmen are expected to live on campus in their Residential College, a comprehensive living and learning community that allows students to live with others who are pursuing similar academic disciplines. Residential Colleges provide students the opportunity to continue their learning outside of the classroom by connecting with the faculty and staff in the residential community, participating in peer group dialogues and engaging with academic support activities.

Visit My ASU [7] to view and customize your housing and dining options based on your campus and academic major.

Confirm your options early for a greater chance of receiving your living and dining preferences. If you have a potential roommate in mind who shares your academic program, you each must request the other as early as possible, so that we may have every opportunity to fulfill your request. Be sure you include each other's name, ASU ID number, and the same hall and Residential College preferences. Keep in mind, roommate requests are subject to space availability and are not guaranteed. If you are planning to live at home with your parents or have other special circumstances that prevent you from living on campus, you must request an on-campus housing exception. Read more about housing at ASU [8].

2. **Sign up for Orientation and Register for Classes**

ASU Orientation [9] is required for freshmen. At orientation, you can meet with an academic advisor and register for your first-semester courses. You will also meet other new Sun Devils and learn about university resources. Staff from a variety of departments — including University Housing and Student Financial Assistance, and members of the ASU Parents Association — will be on hand to answer your questions and welcome you to the university.

Before you go to Orientation

- a. Learn about ASU's Photo ID card options [10] so you can choose your card at orientation. This card allows you to complete all in-person transactions requiring a photo ID and gain access to library and other services.
- b. Submit MMR immunization verification form. You must submit your Measles, Mumps and Rubella (MMR) immunization form before attending ASU Orientation. You may receive an immunization at any ASU campus. Call for an appointment. Fees apply.

Downtown Phoenix campus 602-496-0721

Polytechnic campus 480-727-1500

Tempe campus 480-965-3349

West campus 602-543-8019

Learn more about ASU Health Services [11].

- c. Take math placement test [12] and send ACT or SAT scores. Be sure you're ready to register for classes at ASU Orientation. Take the math placement test well before you attend orientation. The university uses ACT and SAT scores to place you in the appropriate freshman English composition course. To check if ASU has your ACT or SAT scores on file, select Test Scores in the My Admission box on My ASU [7].

You won't be able to register unless you have taken care of both of these items.

3. **Explore Summer Sessions**

Get a jump start on your ASU experience by enrolling in summer sessions. Admission to ASU for the fall semester allows you to register for summer classes without submitting another application.

Plan to attend orientation early to consult with your advisor on both fall and summer class selection.

4. **Review Parking Permit and Transportation Services Options**

Learn about parking permits, campus shuttles, discounted bus and Metro Light Rail passes, Zipcar, carpooling and more at our Parking and Transit Services website [13].

5. **Pay Tuition and Fees**

Tuition charges will be billed to your student account and may be viewed online through My ASU [7] after registration (typically by July). By registering for classes, you agree to pay all applicable tuition and registration fees. If you decide not to attend, you must completely withdraw from all classes before the semester begins. If tuition is not paid by the applicable due date, or financial aid is not awarded and accepted by the due date, you will automatically be enrolled in the tuition installment plan and charged a nonrefundable enrollment fee.

Access online billing at My ASU [14]. Select My Finances then Make a Payment. Students are responsible for checking their ASU email account for notification of billing statements and to review their student account on My ASU for current information.

Read more about tuition and billing at ASU [15].

ASU Competency Requirements

Competencies may be met with high school work, college work, and/or test scores. Competencies must be met regardless of your major or the number of transferable hours you have earned. Students must earn a minimum of a 2.0 GPA in each competency area.

Admission may be granted with one deficiency in no more than two competency areas. Deficiencies in both math and laboratory science are not acceptable.

You might not need to meet Competency Requirements. Refer to Exceptions.

English Competency Requirement

Meet one of the following:

- Four years of high school English (composition/literature based).
- Minimum test score of 21 on ACT English or 530 on SAT Critical Reading.
- One transferable three-semester-hour college English composition course.

English Composition Placement:

All freshman and college students who have not earned a "C" or better in a transferable freshman English composition course or who have not received a score of 4 or 5 on the Advanced Placement Examination in English offered by the College Entrance Examination Board (See Related Sites) must submit ACT or SAT scores before registration to be placed in an appropriate English course.

Mathematics Competency Requirement

Meet one of the following:

- Four years of high school courses: one year each of Algebra I, Geometry, Algebra II, and an advanced math class for which Algebra II is a prerequisite.
- Minimum test score of 24 on ACT Math or 540 on SAT Math.

- One transferable three-semester-hour college math course for which at least intermediate algebra is a prerequisite.

Laboratory Science Competency Requirement

Meet one of the following:

- Three years of high school laboratory science, one year each from three of the following: Biology, Chemistry, Earth Science, or Physics (an integrated science or an advanced science may be substituted for one required course).
- Two years of high school laboratory science (Biology, Chemistry, Earth Science, or Physics) plus minimum SAT II subject test score on one of the following: Chemistry-600, Biology-590, Physics-620, or ACT Science-20 (subject test score may not be from the same subject as either high school credit earned and may be used to satisfy only one laboratory science unit).
- Three transferable four-semester-hour college laboratory science courses including one semester each from three of the following: Biology, Chemistry, Earth Science, Physics. An integrated laboratory science or advanced level science may be substituted for one required course.

Social Science Competency Requirement

Meet one of the following from Section A and one from Section B:

Section A

- One year of high school American History.
- Minimum **SAT II** subject test score of 560 on American History/Social Studies.
- One transferable three-semester-hour college American History course.

Section B

- One year of high school social science (e.g. European History, World History, Economics, Sociology, Geography, Government, Psychology, or Anthropology).
- Minimum **SAT II** subject test score of 580 on World History.
- One transferable three-semester-hour college social science course.

Foreign Language Competency Requirement

Meet one of the following:

- Two years of the same high school foreign language.
- Attainment of minimum score on a national standardized foreign language test or placement into a third semester college foreign language class based on university placement exam results.
- Two transferable 3- or 4-semester-hour, college-level courses in the same foreign language.

Fine Arts Competency Requirement

Meet one of the following:

- One year of high school fine arts or a combination of two semesters of high school fine arts.
- One transferable three-credit college fine arts course.

Exceptions

You do not need to meet competencies if:

- If you have completed an associate's or higher level degree from a regionally accredited post-secondary institution with a minimum 2.0 GPA (A=4.0) if you are an Arizona resident. If you are a nonresident, you must have a minimum 2.5 GPA (A=4.0).

- or if you have completed the Arizona General Education Curriculum (AGEC) with a minimum 2.0 GPA (A=4.0) if you are an Arizona resident and 2.5 GPA (A=4.0) if you are a nonresident.

See also the ASU General Catalog [1].

Admission for Home-Educated Students

Arizona State University welcomes home school students and recognizes the unique academic experiences these students contribute to our rich, scholarly environment. We have a growing community of home school students who thrive in the ASU environment.

We understand that your academic background differs from students who attended public, private or charter schools. While our general admission requirements and application are geared toward students who have attended a high school, as a home school student, you can easily fill out the application and then include additional information to accurately demonstrate your accomplishments.

Admission requirements

Home school students must meet the general requirements [1] for ASU admission, including specific documentation with your application to confirm your completion of the requirements:

- Competency Requirement - Per Arizona Board of Regents (ABOR) policy, laboratory sciences must be conducted in real labs and students should complete the Evaluation of Laboratory Science Courses [2] form as part of the application process. (If you have questions about the laboratory sciences requirement, please call 480-965-7788.)
- Aptitude Requirement - Must be met with SAT or ACT test score.
- Graduation Requirement - Upon completion of secondary school education, complete the Affidavit of Completion of Secondary School Education [2]. The affidavit must be completed by the parent/guardian and notarized.

When the Application for Admission [3] asks you which high school you attended, enter your home town name. Scroll down through the city options until you find Home School at the bottom.

Your application will be reviewed as soon as all of these items are received by Undergraduate Admissions.

For questions regarding admission for home school students, please contact Nicole Sumrall at 480-965-6427 or email asuhomeschool@asu.edu [4].

Admission to Barrett, the Honors College

Barrett, the Honors College [5] is consistently recognized nationally as a top honors experience. Barrett combines the caring and community of a top, small college on all four ASU campuses with the resources of a major public university. Home school students who want to be considered for admission to Barrett are encouraged to submit an application. Barrett requires a separate application, and an early application [6] is strongly suggested. The Barrett admission staff will help you with any questions you have about filling out the application.

Scholarships

Through the New American University Scholarship program [7], ASU recognizes exceptional academic performance. Remember to submit your transcripts and test scores when you apply for admission by or before the scholarship priority date so that you may be considered for scholarships.

Home school students will be considered for ASU scholarships upon admission.

Please contact Nicole Sumrall [8] with any questions.

Transfer Admission Requirements

ASU welcomes applications from a broad profile of transfer students from community colleges and four-year institutions. Transfer specialists [1] will work with you to assist you with the admission process.

A student must meet one of the following requirements for consideration as a transfer applicant:

- graduated from high school
- earned a GED with a score of 500 or above
- completed an associate degree or be in progress toward an associate degree

Information for assured admission and individual review for admission is below.

Assured admission standards for students transferring to ASU

Transfer applicants must meet at least one of the following requirements for admission to ASU. Please note that some ASU colleges and schools have higher requirements for admission to their majors.

Arizona residents

Arizona transfer students must meet one of the following requirements:

- Associate degree from a regionally accredited institution with a 2.00 cumulative GPA or higher (4.00=A).
- Arizona General Education Curriculum (AGEC) with a 2.50 cumulative GPA or higher (4.00=A).
- Complete a transfer pathway program through an accredited Arizona community college. Pathways include: Maricopa - ASU Pathways Program (MAPP), Registered Nurse-Bachelor of Science in Nursing (RN-BSN) Pathway, Transfer Admission Guarantee (TAG), Associate of Applied Science to Bachelor of Applied Science (AAS-BAS).

ASU accepts college-level courses in which you have earned a "C-" or better.

Nonresidents

Nonresident transfer students must meet one of the following requirements:

- Associate degree from a regionally accredited institution with a 2.50 cumulative GPA or higher (4.00=A).
- AGEC from an Arizona community college [2] with a 2.50 cumulative GPA or higher (4.00=A).
- An IGETC or CSU GE from a California community college [3] with a 2.50 cumulative or higher (4.00=A).

ASU accepts college-level courses in which you have earned a "C-" or better.

Individual review for admission

Students who do not meet ASU's assured admission criteria may be considered through the individual review process. Admission Services will review all available information about a student's application, carefully considering all aspects of a student's academic background and accomplishments. In some cases, additional information might be requested.

Transferring with 24 or more transferable credits:

Students with 24 or more transferable credit hours and a minimum 2.50 cumulative GPA are given serious consideration through the individual review process.

Transferring with fewer than 24 transferable credits:

Students with fewer than 24 transferable credit hours must have a minimum 2.50 cumulative GPA and meet freshman aptitude requirements to be considered through individual review. See freshman admission requirements [4].

Admission for international transfer students

View international admission requirements [5].

Admission for home-school students

Transfer students who graduated high school in a home school setting and have not completed an associate degree or higher must submit the Affidavit of Completion of Secondary School Education [6]. The affidavit must be completed by parent/guardian and notarized.

Home-schooled students may also meet admission requirements by submitting an official GED score of 500 or above. For questions regarding admission for home-schooled students, e-mail asuhomeschool@asu.edu [7].

Higher requirements for some programs

Some ASU colleges and schools have higher requirements for admission to their majors. See degree search [8] for detailed admission information for your desired program of study. You should select a second major on your application if your first choice has higher requirements.

How to Apply as a Transfer Student

Thank you for your interest in applying to ASU. We want to make the application process and your transfer to ASU as smooth as possible. Follow the steps below.

Application timeline

You are encouraged to apply early. Submit your application for admission and all application materials by the dates listed below.

Late applicants will be considered for university admission and financial aid, but ASU programs with higher admission standards will give priority consideration to applications submitted by these dates. Please view other important dates on the academic calendar [1].

Fall 2014

Class registration begins: early March 2014

Priority application date: April 1, 2014.*

First day of classes: Aug. 21, 2014.

Spring 2015

Priority application date: Oct. 1, 2014*

Class registration begins: Oct. 27, 2014

First day of classes: Jan. 12, 2015

Fall 2015

Priority application date: March 1, 2015*

*This is the priority application deadline for admission and merit-based scholarship consideration.

How to apply

ASU will review your application file once you have submitted all materials. To see if you have any missing items, and to view your admission status, log into My ASU [2] using your ASURITE ID, which is sent to you after you apply for admission. Students who are not admitted to ASU will be provided with information to appeal.

1. **Complete the admission application.**

Fill out the admission application [3] online. We encourage you to apply early. Ideally, you will start the application process one year prior to your planned enrollment date at ASU. This timeline is important to help ensure a smooth transition and improve opportunities for financial assistance.

Note: After the first day of a semester, approvals for that semester's application and admission will be handled by exception only. Please contact Admission Services at 480-965-7788.

2. **Submit the nonrefundable application fee.**

Arizona resident fee is \$50.

Nonresident, International and ASU Online fee is \$65.

Pay using a credit card (eCheck or MasterCard) when you submit your application or mail a check or money order to ASU. If you are applying to an online program, you will need to pay with a credit card when you submit your application.

3. **Request to have your official transcript(s) and test scores mailed to ASU.**

Transcripts

In order for your file to be processed you must request official transcripts be sent directly to ASU from all institutions you have attended. This includes high school transcripts regardless of your age or number of college credit hours. ASU accepts transcripts in a sealed envelope from high schools hand-delivered by applicants themselves to undergraduate admissions but does not accept hand-delivered college transcripts or those transmitted by fax. High school transcripts must show grade point average (GPA) and date of graduation. Upon graduation or completion of your final semester at your current institution, request that a final transcript be sent directly to ASU to determine final admission status. Receipt of your final transcript impacts financial aid disbursement and eligibility to register for future classes.

Test scores

Have your ACT/SAT scores sent directly to ASU. If you have taken AP, IB, and/or CLEP exams, request that your scores be sent directly to ASU. If you are an international applicant, please have your TOEFL or IELTS scores sent to ASU directly from the testing agency. ASU requires an English translation of all foreign-language transcripts.

Mailing address

All admission materials must be sent to:

Admission Services

Arizona State University

P.O. Box 870112

Tempe, AZ 85287-0112

You will need to pay using an eCheck or MasterCard when you submit your application.

4. **Complete the FAFSA**

Remember to complete the Free Application for Federal Student Aid to be considered for a variety of financial aid opportunities. Explore financial aid [4] and scholarships [5].

Your Next Steps

Once you have applied for admission and are accepted, you are ready to complete the next steps related to your enrollment [6].

How Credits Transfer to ASU

ASU will accept transfer credit for traditional course work you have successfully completed at regionally accredited institutions of higher education as documented on an official transcript. Please keep in mind that the applicability of a specific transfer course toward an ASU degree program depends on the requirements of the department, division, college or school in which you are enrolled at ASU.

Read **How credits transfer to ASU** below to learn what types of credit are and are not accepted by ASU, how to earn credit by exam and more.

The Transfer Credit Guide [1] is a helpful online tool that allows you to search for ASU course equivalencies. If a specific course is not found, then you can request a transfer course evaluation.

You must have your official transcripts sent from the issuing institution directly to Admission Services in order for courses to be officially evaluated and transferred to Arizona State University (see below for address). ASU applies the following general standards for transferring credit from another institution.

- ASU accepts college level (not remedial) courses in which you have earned a grade of C (4.00="A") or better from regionally accredited institutions.
- A maximum of 64 semester hours of credit will be accepted as lower-division credit when transferred from a regionally accredited community, junior or two-year college, with the exception of some special programs.
- Some ASU colleges/schools may not accept credit for courses that are evaluated with nontraditional grading systems (e.g, pass/fail).
- Acceptable academic credits earned at other institutions that are based on a different unit of credit than the one prescribed by the Arizona Board of Regents are subject to conversion before being transferred to ASU. All ASU students must meet graduation requirements (university, college, major and general studies requirements) in order to earn a bachelor's degree.
- The ASU college of your major determines how transfer courses fulfill the degree requirements of your ASU major. You should review the degree requirements of the program into which you intend to transfer and confer with an academic advisor about your credits and how they will apply to your degree program. (Search ASU's 250+ academic programs and read program requirements [2].)
- Grades and honor points that you earned at other colleges and universities are considered for admission (see below for honorably discharged veterans' exception), but your ASU cumulative grade point average (GPA) is based solely upon course work taken at ASU.

ASU will NOT accept the following types of credit:

- Courses in which you earned a grade below "C-"
- Credit awarded by postsecondary institutions in the U.S. that lack candidate status or accreditation by a regional accrediting association
- Credit awarded by postsecondary institutions for life experience
- Credit awarded by postsecondary institutions for courses taken at non-collegiate institutions (e.g., governmental agencies, corporations, industrial firms, etc.)
- Credit awarded by postsecondary institutions for non-credit courses, workshops and seminars offered by other post-secondary institutions as part of continuing education programs

Where to send transcripts

Official transcripts must be mailed or sent electronically directly to Undergraduate Admissions by the records office of the issuing institution(s). ASU does not accept transcripts sent or carried by hand by the applicants themselves or transmitted by fax.

Admission Services
Arizona State University
PO Box 870112
Tempe, AZ 85287-0112

Military Credits

Find detailed information about military transcripts and credit [3].

Credit by Examination

Students may receive credit for an ASU course by taking an examination in place of the actual course. Learn more about earning credits by taking an exam [4] such as College-level Examination Program (CLEP), Advancement Placement (AP) credit and more.

Appeal Process

Students who feel they have been unjustly denied credit for transfer courses they have taken may appeal to the appropriate committee.

Credit for Military Experience

Arizona State University evaluates military transcripts for possible transfer credit [5]. Courses must be similar in nature to a course in our undergraduate curriculum and applicable to one of our undergraduate academic programs to receive transfer credit.

Transfer FAQs

1. What is ASU's definition of a transfer student?

A transfer student is anyone applying for admission to ASU who has attended a college or university after high school graduation. Most students who completed courses while still in high school (dual enrollment) are considered freshmen.

2. What are the admission requirements for transfer students?

Please see transfer admission requirements [1] for details.

3. Will I have to send ACT/SAT test scores to apply?

It depends on your particular situation. If you are transferring fewer than 24 transferable credits, you must also meet freshman admission requirements, which may require ACT/SAT scores. Also, some majors, such as business, require a particular ACT/SAT score for admission into the program. See degree search [2] for major-specific admission information.

4. Will I have to send high school transcripts to apply?

Yes, unless you meet the following: you have an associate degree (or higher) from a regionally accredited institution posted on transcripts.

High school transcripts should be sent directly from your high school to:

ASU Admission Services
P.O. Box 870112
Tempe, AZ 85287-0112

5. Can I transfer college credits?

Please see how credit transfers to ASU [3] for details.

6. How do I choose a major?

There are a variety of resources available to help you select a major. You can start by visiting degree search [4] to explore the types of degree programs at ASU. You can also talk with a transfer representative [5].

7. I attended ASU previously as a transfer student. Am I a transfer student or a readmission student?

If you have previously attended ASU as a degree-seeking student, you will be considered a readmission student. Please see readmission information [6]

8. I'd like to talk to someone at ASU about transferring. Is there a person I can talk to?

Yes. ASU has a staff of transfer specialists who are specifically trained to discuss transferring to ASU. Answer a few short questions and we will contact you [7].

9. I am ready to apply. What do I do next?

Congratulations on making the decision to pursue your bachelor's degree at ASU. Apply online [8], send all official transcripts and pay the application fee by the preferential deadline [9] specified for each semester. This will start the transfer admissions process. Soon after you apply, you will receive a notice confirming that your application has been received and it will include information on how to monitor the status of your application.

10. Do I have to have an associate degree to transfer?

No, you can transfer at anytime as long as you meet transfer admission requirements [10]. However, ASU recommends attaining your associate degree before transferring.

11. I am in high school and taking college courses. Am I considered a transfer student?

No. Please see ASU's definition of a transfer student in question 1.

12. How do I gain residency?

Being declared a resident by the State of Arizona differs from being considered a resident for tuition purposes by ASU. The Residency Classification office has specific guidelines to follow when determining a student's residency status, initially based on the information provided on the application for admission. For more information, please review the Residency Classification Survey [11].

13. Do I have to send all my transcripts?

Yes. In order for ASU to determine whether you meet admission requirements, we must evaluate your entire academic history including course work completed at each institution attended.

14. What prerequisites do I need to complete before transferring to ASU?

There are no prerequisites required to be admitted to ASU, unless you have fewer than 24 transferable credits. Students with less than 24 transferable credits are required to meet freshman admission requirements [12], including aptitude and competency requirements.

15. Can I live on campus as a transfer student?

Yes, ASU has housing devoted specifically to upper-division students, and strongly encourage all students to live on campus their first year at ASU. For more information, refer to the University Housing website [13].

There is also a variety of off-campus housing options in close proximity to ASU's campuses. For more information on off-campus housing, check out the Center for Off-Campus & Commuter Student Services (OCCSS). [14]

FAQs for California residents

1. If attending a CA community college, is the IGETC/ CSU GE required for transfer?

The IGETC/CSU GE is not a requirement for admission to ASU. It is optional whether a California community college student chooses to transfer in with their general education courses completed or not. Completing either GE pattern and getting certified by your community college will, however, satisfy many of the General Studies requirements at ASU.

2. What does it mean to get IGETC/CSU GE certified?

Getting certified means you have completed all General Education requirements at your CA community college. If you have confirmed with your community college counselor that you are eligible for the certification, ASU will require that you submit the official certification along with your official transcripts to the Admissions Services.

3. Currently, I don't meet the WUE admissions requirements. Should I wait to apply?

No. Even though you may not currently qualify for WUE, we will always re-evaluate your admission to the program if you currently have courses in progress and submit your last and final transcripts.

4. I live in California but would like to meet with an ASU representative to discuss the transfer process. Is there anyone I can speak to in person?

Most certainly! ASU representatives will be throughout the state of California attending college transfer fairs and hosting various visits at California community colleges.

Transferring from a Two-Year School

ASU is a diverse learning environment with representation from all 50 states in the nation and more than 160 countries. As a major metropolitan research university, ASU is internationally recognized for its innovative programs and distinguished faculty. We welcome you to our academic community.

Find your path to ASU

We have established special transfer partnerships with the states listed below. We continue to work with colleges across the country to develop pathway programs that will help students like you transition to ASU.

- Arizona [1]
- California [2]
- Texas [3]
- Washington [4]

Western Undergraduate Exchange (reduced out-of-state tuition program)

ASU is part of the Western Undergraduate Exchange [5], offering students from 14 Western states (not including Arizona) the ability to study at a discounted nonresident tuition rate in more than 60 degree programs.

International Undergraduate Admission

Arizona State University is ranked one of the best universities in the world. When you study at ASU, you will enjoy prestigious faculty, state-of-the-art facilities and a vibrant community of students from more than 150 countries in the world. At ASU, you can choose from more than 300 undergraduate degree programs [1] that will lead you to a successful career path.

Learn how to apply to ASU

Admission Requirements

An international student is a student on a J-1 or F-1 visa who is not a citizen of, or a permanent resident of, or a refugee in the United States of America.

Academic Requirement

- Freshmen must have a 3.00 grade point average (GPA) (a "B" or better where "A"=4.00) from a secondary school.
- Transfer students must have a minimum 2.50 GPA (a "C+" or better where "A"=4.00) from a college or university. Some ASU programs require a minimum transfer GPA of 3.00, including the W. P. Carey School of Business and Ira A. Fulton Schools of Engineering.
- Some ASU programs may have higher admission requirements and may require a minimum ACT or SAT score.

English Language Proficiency Requirement

Applicants whose native language is not English (identified by the U.S. Department of State Bureau of Public Affairs) must provide evidence of English language proficiency. The English proficiency requirement may be fulfilled by meeting **one of the following**:

- Minimum score of 500 (paper-based), 173 (computer-based), or 61 (internet-based) on the Test of English as a Foreign Language (TOEFL).
- Minimum overall band of 6.0 with no band below 5.5 on the International English Language Testing System (IELTS).
- Minimum Pearson Test of English (PTE) of 53.

Note: Some ASU colleges/schools have higher English proficiency requirements. For example, The ASU Ira A. Fulton Schools of Engineering require a higher TOEFL score of 550 (paper-based), 213 (computer-based) or 79 (internet-based) as well as an IELTS score of 6.5. And, the Walter Cronkite School of Journalism requires a higher TOEFL score of 600 (paper-based) or 100 (internet-based), an IELTS score of 7.0 and a PTE score of 73.

Exceptions to the English (TOEFL/IELTS) Requirement:

- Applicants who have completed their junior and senior years in a U.S. high school with SAT Verbal score of 550 or ACT English score of 23.
- Applicants who have completed a minimum of 48 transferable semester credits including six credits of freshman English composition at a U.S. college or university with a cumulative GPA of 2.50 or higher.
- Applicants holding a bachelor's degree from a regionally accredited U.S. college or university.
- Applicants who have completed four years of high school in a U.S. high school. These applicants are subject to high school competency requirements.
- Applications who have successfully completed the Advanced 2 level of the American English and Culture Program at Arizona State University [2].

Conditional Admission

ASU may offer conditional undergraduate admission to international applicants who meet the academic (aptitude) requirement but do not meet the minimum English proficiency standards. Through conditional admission, students must first successfully complete the Advanced 2 level of the English language course at ASU's American English and Culture Program [3] or fulfill the ASU English Language Proficiency requirement as stated above before being allowed to enroll in university courses.

Note: ASU reserves the right to independently test any student's English proficiency upon arrival, including those who have earned scores satisfying minimum admission criteria, and may require support classes if the demonstrated level of English proficiency is not sufficient for academic success.

Competency Requirement

International students who attended **four years of high school in the U.S.** are required to meet the competency requirements.

- English: four years (composition/literature based).
- Math: four years - algebra I, geometry, algebra II and one course requiring algebra II as a prerequisite.
- Laboratory Science: three years total (1 year each from any of the following areas are accepted: biology, chemistry, earth science, integrated sciences, and physics).
- Social Science: two years (including one year American history).
- Foreign Language: two years (same language).
- Fine Arts: one year.

Higher Requirements for Some ASU Schools/Colleges

Some ASU colleges/schools have higher standards for admission into their programs. International applicants must meet general university international admission requirements as well as the appropriate freshman or transfer program requirements of their major. Search for your degree [4] for more details.

Scholarship for International Students

ASU offers a limited number of merit-based scholarships for highly qualified international freshman students who are non-immigrant, nonresident and degree seeking. To be considered for this competitive scholarship, you must submit your application for admission by **April 1, 2014**. There is no separate scholarship application to complete. For more information, visit New American University Scholarship [5]. Please email asuinternational@asu.edu [6] if you have any questions.

Application Deadlines

You must submit your application for admission to ASU, along with the application fee, by the deadline specified for each semester. In order to expedite the evaluation of your application, please remember to submit official transcripts, test scores and supporting credentials along with your application.

Spring 2015: Nov. 1, 2014

Summer 2015: Feb. 1 2015

Note: Applications for summer that are not completed in time for the start of the summer session, will be reviewed for admission for fall 2015.

Fall 2015: May 1, 2015

Note: International students who have been admitted for the fall semester who would like to begin attending classes during the summer must contact Admission [7] Services [6] by May 1, 2015. Otherwise, I-20s will be created for the fall semester.

New American University Scholarship: April 1, 2014

Make sure to apply as early as possible to allow time for all documentation and processes to be completed.

Application Procedures

1. Complete the Undergraduate Admission Application.

ASU prefers students to apply online [8]. However, if you are unable to complete the online application, you can download the paper application [9] and follow these steps:

1. Complete and sign the application (incomplete, unsigned applications cannot be processed).
2. Send the completed application and all supporting documents (application fee, transcripts, test scores and the financial guarantee) to:

Regular Mail

International Undergraduate Admissions
Student Services Building
P.O. Box 870112
Tempe, AZ 85287-0112

FedEx

International Undergraduate Admissions
Student Services Building
1151 S Forest Ave
Tempe, AZ 85287-0112

For more information, call 480-965-7788 or email asuinternational@asu.edu [6].

2. Submit the nonrefundable application fee.

The application fee is \$65 (U.S. Dollars). If you did not submit your application fee with your admission application, you may make your payment through My ASU [10] or submit payment in the form of a check or money order drawn on a U.S. Banking Affiliate and made payable to Arizona State University. Do not send cash or international postal money orders. Application fees cannot be waived or transferred to a future application.

3. Request that your official transcript be sent directly from your school(s) to Undergraduate Admissions.

Official transcripts are certified copies of official documents from each secondary school, college, university and/or technical schools attended.

Upon graduation or completion of the semester, request that a final transcript be sent directly to ASU to determine final admission status.

Records must include courses completed, grades or marks earned, and certificates or degrees awarded. Include a certified English translation of all documents not written in English. Official documents include:

- Original academic credentials issued by the registrar of the institution attended, bearing the original raised or colored seal of the institution and the signature of the institution's registrar, academic official or recognized international organization.
- Photocopies of academic credentials that have been verified as true copies of the original by a responsible official of the institution attended or by an educational representative of the country's government or embassy. Each page must bear the verifying official's signature and stamp.
- Photocopies of international academic credentials on file with the registrar of an institution you previously attended in the U.S.
- Photocopies of academic credentials that have been certified by a recognized international educational organization, such as the U.S. Educational Foundation, AMIDEAST or the Institute for International Education.

Note: Photocopies certified by a notary public are not official. Scanned copies are also not accepted in lieu of original official academic documents.

4. Submit evidence of English language proficiency.

Have your TOEFL or IELTS score sent directly to ASU.

TOEFL: The official TOEFL score report can be sent directly to ASU from the Educational Testing Service. ASU's TOEFL institutional code is 4007. For information about this test and registration procedures, contact ETS at PO Box 6151, Princeton, NJ 08541-6151, USA or visit www.toefl.org [11].

IELTS: For information about this test and registration procedures, contact the IELTS Office, University of Cambridge Local Examination Syndicate, 1 Hills Road, Cambridge/CB1 2EU, UK or visit www.ielts.org [12].

PTE: For information about the Pearson Test of English, visit <http://www.pearsonpte.com/Pages/home.aspx> [13].

5. Submit your ACT or SAT scores.

If you have taken the ACT or SAT, please submit official scores to Undergraduate Admissions. Some ASU colleges/schools have minimum ACT/SAT score requirements for entrance to their programs.

Deferred Enrollment

You may not defer enrollment at ASU. If you must change the semester of enrollment on your application, please submit another online application [14] and pay a new application fee for the new semester in which you are applying. Please note that all of your supporting documents are on file at ASU for one year, so you may not need to submit your other documents again.

Items to Consider

- Admission to ASU cannot be determined until your file is complete and all of your credentials are evaluated.
- You must enroll full-time each semester.
- Students holding F-2 visas cannot attend ASU on a full-time basis.
- All international students on F-1 or J-1 visas must provide a Financial Guarantee [15] to show evidence of sufficient funds available for their students before their SEVIS Form I-20 can be issued. Learn more [16].

Nondegree Student Admission

Some individuals may be interested in studying in a nondegree status, either through pre-college summer programs or for their own personal learning experience. If this matches your interest, please read more about the nondegree status and follow the steps to completing a nondegree application for admission.

Definition of Nondegree Student Status

A nondegree student is one who has not attended ASU as a degree-seeking student, who has not earned a bachelor's degree, who is not attending full time, and who is not, at this time, applying to a degree program.

Once admitted to a degree program, a student is not permitted to register in a nondegree status.

Nondegree students may enroll in eight credit hours each fall or spring semester, seven semester hours for each 5-week summer session and nine semester hours for the 8-week summer session.

Nondegree students may apply up to 15 hours taken in nondegree status to a degree program if you choose to pursue an undergraduate degree in the future.

Nondegree students are not eligible for financial aid.

Nondegree students may not be eligible for academic advising.

Requirements

To be admitted to ASU as a nondegree student, an applicant must be a high school graduate.

Students currently enrolled in high school and persons under the age of 18 may be admitted as nondegree students by submitting an official high school transcript and a letter of approval from a high school counselor or principal.

Applicants must have a 3.0 cumulative GPA in Arizona Board of Regents competency courses [1] to be considered for admission.

Apply now. [2]

Preferential Application Deadlines

You must submit the Application for Undergraduate Admission, along with the application fee, by the deadline specified for each semester. In order to expedite the evaluation of your application, also submit official transcripts, test scores and supporting credentials immediately.

Fall semester: May 1
Spring semester: December 1
Summer session: May 1

Nondegree applications received after the preferential date for each semester will be considered on a space-available basis. Space is limited in some programs and admission to these programs is more competitive.

Application Procedures

1. Complete the Undergraduate Admission Application. ASU prefers that you apply online [2].
2. Submit the nonrefundable application fee:
 - o Arizona residents - \$50.
 - o Non-residents and online - \$65.
3. If needed, have your ACT or SAT scores sent directly to ASU.

ASU will review your application for admission once all materials are on file. To see if your file is complete, sign in to My ASU [3] using your ASURITE ID provided to you after you submitted your application.

Undergraduate Readmission

Quick Re-entry

If you are an undergraduate degree seeking student who previously attended ASU but have not been enrolled at ASU for **one or two consecutive fall or spring semesters** you are eligible to return through "Quick Re-entry." You do not need to submit a new application or application fee. You may sign in to My ASU [1] and register for classes. Note that you may have hold or to do items that you need to complete before you are able to register for classes. F1/J1 students are still responsible for all SEVIS requirements and should check with the International Students and Scholars Office [2] at ASU.

NOTE: you must submit official transcript(s) from any institution(s) you attended during your absence from ASU. Official transcripts must be mailed or sent electronically directly to Admission Services by the records office of the issuing institution(s). ASU does not accept transcripts sent or carried by hand by applicants themselves or transmitted by fax. See Mailing Address.

Readmission Requirements

If you are not eligible for "Quick Re-entry" (i.e., because you have not been enrolled at ASU for **three or more semesters**, completed your academic program or were academically disqualified), you must apply for readmission [3] and submit applicable fees. An applicant for readmission must have an ASU GPA of 2.0 or higher, depending on the ASU school or college. Students who do not meet this GPA requirement may appeal. In these cases, the completed application for readmission may be subject to a due date that is earlier than the application deadline.

NOTE: you must submit official transcript(s) from any institution(s) you attended during your absence from ASU. Official transcripts must be mailed directly to Admission Services by the records office of the issuing institution(s). ASU does not accept transcripts sent or carried by hand by applicants themselves or transmitted by fax. See Mailing Address. Read more about transferring college credit to ASU [4].

Preferential Application Deadlines

Fall Semester

ASU's preferential readmission application deadline for Fall Semester is June 1. Readmission applications received after June 1 will be considered on a space-available basis. Space is limited in some programs and admission to these programs is more competitive.

Spring Semester

ASU's preferential readmission application deadline for Spring Semester is December 1. Readmission applications received after December 1 will be considered on a space-available basis. Space is limited in some programs and admission to these programs is more competitive.

Summer Semester

Preferential deadline is May 1.

What needs to be submitted by the deadline?

You must submit the Application for Undergraduate Admission, along with the application fee, by the deadline specified for each semester. In order to expedite the evaluation of your application, also submit official transcripts, test scores and supporting credentials immediately.

I was previously admitted to ASU but did not attend. Am I a readmission student or a transfer student?

If you have previously been admitted to ASU but did not attend, you will be considered a freshman student [5] or a transfer student [6].

Application Procedures

1. Complete the Undergraduate Admission Application [3]. ASU prefers that you apply online.
2. Submit the nonrefundable application fee:

- Arizona Residents - \$50.
- Non-residents - \$65.

If applying to an Online degree program a nonrefundable application fee of \$65 will be charged regardless of residency classification.

3. Request that an official transcript be sent directly from your school(s) to Admission Services. Upon completion of the semester, request that a final transcript be sent directly to ASU to determine final admission status. A student who does not meet readmission requirements for his/her selected major must submit complete transcripts before an admissions decision is made. Students need only submit transcripts from institutions other than ASU. **NOTE:** Receipt of your final transcript impacts financial aid disbursement and eligibility to register for future classes.

4. All applicants on F1 or J1 visas must provide a Financial Guarantee to show evidence of sufficient funds available for their studies before the application can be processed. In addition, US Citizenship and Immigration Services (USCIS) requires ASU to obtain additional information prior to processing your visa application. You must go to My ASU [1] and login, and then update address information showing Local and SEVIS addresses (list current US address as Local Address; add home country address as SEVIS Address). Please note that if you are readmitted, you must still meet all deadlines associated with the issuance of an I-20 to attend ASU. These deadlines are dependent upon your current location. Contact the International Student Office at ASU for immigration information at 480.965.7451 or ISO@asu.edu [7].

Mailing Address (Transcripts and other materials, all campuses)

Admission Services
Arizona State University

Admission Before Receipt of Final Transcript

Applicants enrolled in other colleges and universities may be considered for readmission on the basis of meeting all readmission requirements, except for a final transcript of work in progress. This final transcript must be sent to Admission Services directly from the issuing institution immediately after the work in progress has been completed. **Transcripts carried by hand are not accepted.**

Admission is official only after the final transcript has been received showing that the applicant has met the university readmission requirements. In the event the applicant does not qualify or has falsified application documents, readmission and registration are canceled, and any registration fees paid are returned according to university refund policies.

Veterans Exception

By Arizona statute, no failing grades received by a veteran at an Arizona university or community college before military service may be considered when determining admissibility. This exception applies only to veterans who

1. are honorably discharged;
2. have served in the armed forces of the United States for a minimum of two years; and
3. have previously enrolled at a university or community college in Arizona.

Military service records must be submitted, including form DD 214.

Academic Renewal

Academic renewal is a university policy administered to recalculate the cumulative ASU GPA of an undergraduate student who:

1. Is pursuing his/her first undergraduate degree and has not previously received an academic renewal; and
2. Has a cumulative ASU GPA below 2.0 (individual colleges may elect to consider applications for students whose GPA is a 2.0 or higher); and
3. Is readmitted to a degree program after an absence of at least five continuous calendar years (including summer sessions).

Courses (including transfer credits) completed before the five-year absence with a grade "C" (2.00) or higher was earned are treated in the same manner as if all the credits were transfer credits, up to a maximum of 60 credit hours.

The cumulative GPA is based only on credits earned subsequent to the student's reentry. Graduation requirements for resident credit hours and GPA must be fulfilled after the academic renewal. Graduation requirements for academic recognition (resident credit hours and GPA) must also be fulfilled after the academic renewal.

Courses completed before and after the academic renewal **remain on the transcript** and may be considered when students apply for undergraduate professional or graduate programs.

A request for academic renewal follows this procedure:

1. Students interested in academic renewal must fill out the Application for Academic Renewal and submit the form to the Dean's Office in the college of your major.
2. The Application for Academic Renewal may be submitted immediately upon readmission but must be submitted no later than the start of the third semester after readmission.
3. The Dean's Office specifies in advance a minimum of 12 semester hours required for completion.
4. When the approved credits are completed with a cumulative GPA of 2.50 or higher, and no grade lower than "C" (2.00) in each course, the Dean's Office will forward the Application for Academic Renewal to the University Registrar's Office for processing.

Only readmission students working toward their first undergraduate degree are eligible to apply for academic renewal, which may be effected only once during a student's academic career.

Academic renewal is transferable among colleges.

All students with a cumulative ASU GPA below 2.00 and have been absent from ASU 5 consecutive calendar years or more are eligible to petition for academic renewal. Individual colleges may elect to entertain petitions for academic renewal from students with ASU GPAs above 2.00. College standards committees have final authorization on academic renewal petitions.

Undergraduate Readmissions Contact Information and Office Locations (for all campuses)

Phone: 480.965.7788

Fax: 480.965.3610

Location: Student Services Building, Room 112, Tempe campus (map [8])

Leave of Absence

Undergraduate Student Leave of Absence [9]

If a student needs to take an extended break from their studies at the University they may be eligible for a Leave of Absence. The Undergraduate Student Leave of Absence (LOA) policy assists and encourages students to return and graduate after an absence of more than two consecutive fall and spring semesters from ASU. Students who have more than two consecutive semesters of absence and who have been granted a leave of absence need not apply for readmission or pay readmission fees and may participate in their regularly scheduled registration/enrollment period upon return to the University.

Enrollment Verification

Arizona State University is frequently required to certify a student's enrollment as to full-time, part-time, etc. Enrollment status is determined by the number of credits for which a student is enrolled during the term in which certification is requested. Courses a student has withdrawn from are not included. Note that classes taken for audit are included in total enrolled hours.

Fall & Spring Semesters

- Undergraduate students must be enrolled in at least 12 credit hours to be considered full time and enrolled in at least nine hours in order to be three quarter time. Enrollment in six to eight hours is considered half-time and enrollment in five or fewer hours is considered less than half-time.
- Graduate students must be enrolled in at least nine credit hours to be considered full time and enrolled in seven to eight hours in order to be three quarter time. Enrollment in five to six hours is considered half-time and enrollment in four or fewer hours is considered less than half-time.
- Research and teaching assistants must be enrolled in at least six credit hours to be consider full time.

Summer Sessions

- Undergraduate students must be enrolled in at least four credit hours to be considered full time and enrolled in two-three credit hours in order to be half-time. Enrollment in one hour is considered less than half-time.

- Graduate students must be enrolled in at least three credit hours to be considered full time and enrolled in at least two credit hours in order to be half-time. Enrollment in one hour is considered less than half-time.
- Research and teaching assistants must be enrolled in at least two credit hours to be considered full time and one credit hour to be considered half-time.

Co-Operative Education

Students are required to be enrolled in a designated co-op course within their college for a minimum of one credit hour during the co-op semester. Co-op students will be identified for enrollment verification purposes as being in full time status. This will include verification to the National Student Clearinghouse for loan deferment purposes. The co-op experience must meet the clock time in hours of work to meet the full time enrollment requirement, as monitored by the student's college. A credit hour is defined as a minimum of 45 clock hours.

Enrollment Verification

For an online enrollment verification, log in to the National Student Clearinghouse [1] using your ASURITE ID to view and print an enrollment verification certificate. ASU has authorized the National Student Clearinghouse to act as our agent for providing enrollment verification for insurance purposes, student loans, future employment, etc. This form is official and does not require a signature or seal from the University.

ASU sends enrollment information to the National Student Clearinghouse four times each semester on the following schedule:

- approximately one week prior to the semester start date
- after the second week of classes
- after the course withdrawal deadline
- at the end of the semester

Please refer to the academic calendar [2] for these dates.

If you need special information on your enrollment verification such as GPA or if you need a specialty verification form completed such as the Canadian or Alaskan form, visit any registration location [3] (photo ID required). We can often complete such forms while you wait, although some may take 24 to 48 hours to complete if we need to contact other offices.

You may also submit an Enrollment Verification Request Form [4] by mail, fax, or email (see instructions on form). Requests by email, mail or fax **must** include the student's verifiable signature. Allow up to two business days for processing.

If you have questions or need additional information, please contact University Registrar Services, Records & Enrollment Services at 480-965-3124 or registrar@asu.edu [5].

Enrollment & Degree Verification for Outside Agencies

Arizona State University has contracted with the National Student Clearinghouse [6] to process all enrollment and degree verification requests for employers, employment agencies, background search firms, and various other businesses that offer products or services based on the individual's status as an enrolled student.

- Visit the National Student Clearinghouse [1] for service 24 hours a day, 365 days a year.
- If you need assistance, contact National Student Clearinghouse directly at 703-742-4200.
- If the National student Clearinghouse can confirm the degree or enrollment, the response is immediate and requestors will be able to print or obtain a PDF version of the verification.
- Enrollment verifications for each term will be available starting the first week of classes for that term.
- A fee will be charged for this service.

Attendance

The instructor has full authority to decide whether class attendance is required.

Source URL: <http://catalog.asu.edu/attendance>

Arizona General Education Curriculum (AGEC)

The Arizona public community colleges and universities have agreed upon a common structure for a general education core. This curriculum provides students attending any Arizona public community college with the opportunity to build a general education program that is transferable to any other state institution without loss of credit. This common agreement is called the Arizona General Education Curriculum (AGEC).

The AGEC is composed of 35-37 semester hours of lower-division general education course work in which a student may prepare for transfer.

The AGEC has three forms: AGEC-A, AGEC-B and AGEC-S. Refer to <http://www.aztransfer.com/AGECReqs> [1] for a detailed description of each AGEC.

Community colleges are responsible for certifying the date of completion of the AGEC on the official institutional transcripts.

Completion of the appropriate AGEC will fulfill university lower-division general education requirements of the baccalaureate degree with which the AGEC articulates. Students completing the AGEC will still be required to fulfill lower-division program requirements and prerequisites within their college and major and minor area of study. To complete a degree program most efficiently, students should select courses that concurrently satisfy AGEC and major requirements.

Completion of any AGEC guarantees admission to the university provided that a GPA of 2.00 (for Arizona residents) or 2.50 (for nonresidents) has been achieved. AGEC completion, however, does not guarantee admission to any specific university program. Many majors (e.g., architecture, engineering, business, the fine and creative arts or health professions) have significant prerequisites or program requirements that must be completed before a student may be admitted to upper-division course work. Community college students who are undecided about which of the universities they plan to attend or what program of study they intend to pursue are advised to explore educational options while they complete the AGEC. In all cases, students have the responsibility for selecting general education course work that is relevant to the requirements of their intended major and degree.

Students who complete both the AGEC and an approved associate's degree will be assigned junior class standing by the state universities. Junior class standing is based on the number of semester credits a student has earned and does not necessarily indicate the remaining number of semester credits needed to complete degree requirements. Course prerequisites, major requirements and upper-division requirements continue to be specified by each university. Appropriate sequencing of courses and timely completion of course prerequisites are essential to ensure efficient progress toward a baccalaureate degree. Students who have identified the university they plan to attend or a major area of study are advised to fulfill requirements and prerequisites identified by these programs through the AZ Transfer major guides [2] or transfer pathways [3]. The AGEC does not replace articulation agreements developed to enhance the transfer process between specific institutions. Nor does the AGEC eliminate the possibility that students who have identified the university they plan to attend and a major area of study will follow transfer guides provided by the state universities.

Course Load and Concurrent Enrollment

Course

A minimum full-time course load for an undergraduate student is 12 credit hours. The maximum course load for which a student may register is 18 credit hours (with the exception of a 19-hour maximum for students enrolled in the Ira A. Fulton Schools of Engineering and College of Technology and Innovation), with a maximum of nine credit hours in each A or B session. A student wishing to register for more than the maximum must petition the standards committee of the college in which the student is enrolled and must obtain an approved overload before registration.

Summer Session Semester Hour Load

The summer session credit hour load limit is seven credit hours for each six-week session and nine credit hours for the eight-week session, and the load limit may not exceed a total of 14 credit hours for any combination of sessions.

Graduate Credits Earned by Undergraduate Students

ASU undergraduate students who have achieved senior status (cannot be postbaccalaureate) with a cumulative GPA of 3.00 or higher may count up to 12 credit hours of graduate-level course work toward their graduate degree at ASU (preadmission credit hours). Only graduate courses with a grade of "B" (3.00) or higher may be included on a graduate plan of study. Preadmission graduate courses cannot be used to meet any baccalaureate graduation requirements. Before registering for these courses, students are advised to check with their academic advisor to ensure the correct internal academic unit or college process is followed. Permission to take a preadmission graduate course does not guarantee admission to a graduate degree program or that the course may be used toward graduate degree requirements.

Use of Graduate Course Credit by Undergraduates

Graduate course credit earned by an undergraduate student that is used to fulfill requirements for an undergraduate degree program cannot also be used in a graduate degree program unless the student is enrolled in an approved accelerated program. Students must contact their advisor before enrolling in a graduate course they wish to use toward a future graduate program at ASU.

Concurrent Enrollment

Provided that the other institution's regulations concerning enrollment, graduation requirements and transfer of credits are not violated, a student may enroll in classes at other institutions or in independent learning courses while enrolled at ASU. However, the student is urged to seek advising before concurrent enrollment to assure orderly progress toward a degree. If total credits exceed the maximum course load, prior permission must be granted by the college standards committee.

Enrollment Verification Guidelines

The registrar is responsible for verifying enrollment, according to general guidelines; see enrollment verification [1].

Credit by Examination

Students may receive credit for an ASU course by taking an examination in place of the actual course. Some exams can be taken prior to admission to ASU. Information is provided below for each type of exam, the courses that are equivalent and other conditions that may apply to credit being awarded.

- A student may earn no more than 60 hours of credit by examination for any or all programs, including ASU comprehensive and proficiency exams.
- Credit will not be awarded for any course in which the student has been given credit from any educational institution.
- Credit will not be granted for a course taken at an educational institution after credit by examination has been awarded. Exception: Students who take the advanced placement exams, however, may choose either to have the credit earned by advanced placement kept in their cumulative university hours, or to complete the ASU course and have the credit and grade instead, regardless of in which order the test or course are taken. (See the advanced placement section, below, for additional details on the exam and its equivalent scores.)
- Credit may not be received for a lower-level or prerequisite course when credit has already been received in a higher-level course within the same field.
- Only credit earned by comprehensive examination will count toward the resident credit requirement for graduation.
- Credit by exam is awarded based on the date the exam was taken. Students who take the exam during the current catalog year (August 2014 – July 2015) will earn credit based on the credit equivalency found in the current catalog. If the test was taken in a prior academic year, please refer to the catalog for that year or search the Transfer Credit Guide [1] for more information.

College-level Examination Program (CLEP) [2] can be taken before or during enrollment at ASU.

Advanced Placement (AP) [3] is taken during secondary school or before enrollment at ASU.

DANTES or DSST(Defense Activity for Nontraditional Education Support Subject Standardized Test) [4] is taken by military or approved government personnel before or during enrollment at ASU.

International Baccalaureate (IB) diploma/certificate [5] is earned by students of an International Baccalaureate®-approved school before enrollment at ASU.

Cambridge International Exam [6] is taken by students who have completed a Cambridge course in their secondary school.

Comprehensive examinations [7] can be taken by current ASU students.

Proficiency examinations [8] can be taken by current ASU students.

For information about placement testing for mathematics and English classes prior to orientation, please refer to the placement and testing requirements [9] in the ASU Catalog.

College-Level Examination Program (CLEP)

Students who have taken a College-Level Examination of the College Entrance Examination Board may receive university credit. The table of CLEP credit applies to all students enrolled in the university for the first time in August 1975 and any student enrolling thereafter. CLEP examination credit is not given where it duplicates credit previously earned by the student at the university or accepted by the university for work done elsewhere. All examinations are given monthly by University Testing and Scanning Services [10].

The General Studies requirement in natural science (SQ and SG) and literacy and critical inquiry (L) are not satisfied by CLEP. There is no limit to the number of CLEP credits that can be used to fulfill the other parts of the General Studies requirement. A student who has received ASU credit for a course due to Special Programs credit may not duplicate the credit by enrolling in the same class for credit at ASU or transferring it to another institution.

Subject Examinations

To obtain credit or placement for all subject exams except English, French, German, and Spanish, a student must receive a score of 50 (Computer Based Testing [CBT] scale) or higher. To obtain credit for College Composition, a student must receive a standard score of 610 (1978 scale), 500 (1986 scale), or 50 (CBT scale). For test scores for French, German, and Spanish, see the CLEP credit table, below.

All equivalency is subject to future review and possible catalog change. For more information, contact University Testing and Scanning Services [10] at 480-965-7146, or visit 1130 E. University Dr., Suite 204, Tempe, AZ.

Examination	Semester Hours	Equivalency

Western Civilization I—Ancient Near East to 1648	3	HST 102 or 103
Western Civilization II—1648 to the Present	3	HST 104

Advanced Placement

Students who have taken an advanced placement course of the College Entrance Examination Board in their secondary school and who have taken an AP examination of the CEEB may receive university credit. No credit is given for any examination with a score of two or one. There is no limit to the number of AP credits that can be used to meet the General Studies requirement, including the requirements in natural sciences (SQ and SG) and literacy and critical inquiry (L).

When the scores are received by the university directly from the CEEB, credit is awarded as shown in the Advanced Placement Credit table below.

DANTES/DSST

Students who have taken a DSST (DANTES [Defense Activity for Nontraditional Education Support] Subject Standardized Test) may receive university credit. Credit is awarded for score results at or above the American Council on Education's recommended score if the subject examination is applicable to a program of study at ASU or may be assigned elective credit. To receive credit, a transcript showing the DSST results must be received by ASU directly from the Educational Testing Service.

International Baccalaureate (IB) diploma/certificate

Students who present an International Baccalaureate diploma/certificate may qualify for university credit, depending on the level of the examination and the grade received. Arizona State University grants credit for higher-level courses only. A grade of five qualifies the student to receive credit for up to two introductory courses while a grade of four qualifies a student to receive credit for one introductory course. No credit is awarded for English as a second language (English B). Credit is awarded according to the International Baccalaureate diploma/certificate credit table below.

Comprehensive Examinations

A comprehensive examination is intended to permit a student to establish academic credit in a field in which the student has gained experience or competence equivalent to an established university course. Applications are given only for courses listed in the current catalog and only for courses in which a comprehensive examination can serve as a satisfactory measure of accomplishment.

A number of restrictions apply. To be eligible to apply to take a comprehensive examination to establish undergraduate course equivalence, a student must:

1. have earned not more than 60 semester hours of credit through comprehensive, CLEP, international baccalaureate and advanced placement examinations
2. have earned no credit for a duplicate course
3. have earned no credit for a course for which this course is a prerequisite

The decision on the suitability of course material for a comprehensive examination, the development of a comprehensive examination and the administration of an examination are strictly departmental functions. An application is for one course only. The student should complete an application form with the number, title and number of semester hours for the course. When completed, the application must be approved by the student's advisor and the chair of the department responsible for offering the course.

The student must then pay the stated fee for such examinations at cashiering services. The receipt must be taken to the departmental office.

The examination is prepared by the instructor who normally conducts the course, and it is comprehensive in nature and scope. The instructor and other experts designated by the chair grade the examination, using letter grades "A+," "A," "A-," "B+," "B," "B-," "C+," "C," "D" or "E." If the grade is "C" or higher, a mark of "Y" is entered on the student's permanent record; otherwise, no entry is made. Credit by examination is indicated as such on the record. The student is notified by mail of the result of the examination. In cases of failure ("D" or "E"), the student is not given an opportunity to repeat the examination.

A student pursuing a second baccalaureate degree may not receive credit by comprehensive examination, but with prior approval of the college, the student may use the examination to waive a course requirement if a grade of "C" or higher is earned.

Proficiency Examinations

Proficiency examinations and auditions are given:

1. to waive a course requirement
2. to validate certain transfer credits in professional programs
3. to determine a student's ability in a field where competence is an important consideration

Detailed information may be obtained from the dean's office of the college in which the student is registered.

Glossary of Academic Terms

University Academic Good Standing (Undergraduate): [2]

2.00 Cumulative GPA

- College specific academic good standing rules can be developed. Example: W. P. Carey Academic Good Standing. Use college name in policy title to differentiate it from University policy.

University Academic Probation: [3]

An undergraduate student with a cumulative GPA that has dropped below a 2.00 at the end of semester (fall or spring), is placed on University Academic Probation.

- Colleges may establish specific criteria for their own Academic Probation status, to be defined as "College Name" Academic Probation. Example: Fulton Schools of Engineering Academic Probation

University Continuing Academic Probation: [3]

A student is said to be on University Continuing Academic Probation each semester (fall or spring) that student (previously on University Academic Probation) earns a semester GPA above a 2.00, but remains below a Cumulative GPA of 2.00.

- Colleges may establish individual time limits for Continuing Academic Probation, to be defined as "College Name" Continuing Academic Probation.

Co-enrolled Continuing Probation Program [4]

Select disqualified students may participate in the Co-enrolled Continuing Probation Program at the discretion of their college or school. Under this program, the student takes UNI 220 Academic Refresher plus one ASU course selected by the student's advisor. The student co-enrolls at a Maricopa Community College with a schedule selected in consultation with the ASU advisor. Upon completion of the term, students with a combined semester cumulative GPA of 2.50 may continue regular enrollment at ASU. Parameters regarding the number of co-enrolled hours required are at the discretion of each college or school.

Ineligible: [5]

A student who is in University Academic Good Standing, but is ineligible to remain in their major based on college specific academic requirements. To be phased out for 14-15 with new tracking requirements and University Academic Good Standing policies.

Disqualified: [6]

A student on University Academic Probation who does not earn a semester (fall or spring) GPA of 2.00 or greater. Students who are disqualified are not permitted to enroll at ASU in any subsequent fall or spring semester.

Satisfactory Progress: [7]

This term is used in different ways for students with regards to financial aid, sponsored international programs, athletics and with regards to receiving veteran's benefits. It is a complex calculation which is major and situation specific. This term should not be utilized to refer to Academic Standing.

Progression: [7]

This term is used to refer to how a student meets milestones and degree requirements to enable movement towards achieving degree completion. This term should not be utilized to refer to Academic Standing.

Reinstatement: [8]

A student who has previously been academically disqualified and seeks to return either for a fall or spring semester a) immediately or b) after a period of absence and has met college admissions standards.

Quick Re-entry: [9]

Undergraduate degree seeking students who previously attended ASU but have not been enrolled at ASU for one or two consecutive fall or spring semesters are eligible to return through "Quick Re-entry." Students do not need to submit a new application or application fee.

Readmitted: [9]

Students not eligible for "Quick Re-entry" (i.e., because they have not been enrolled at ASU for three or more semesters, completed their academic program or were academically disqualified), must apply for readmission and submit applicable fees. An applicant for readmission must have an ASU GPA of 2.00 or higher, depending on the ASU school or college.

Off Track:

A student who has not met one or more critical requirements as stated in terms 1-4 of their major map in a given fall or spring semester.

Twice Off Track:

A student who has not met one or more critical requirements as stated in terms 1-4 of their major map in two consecutive fall or spring semesters.

On Track:

A student who has met all critical requirements identified in terms 1-4 of the major map in the current term and previous terms against which they are being evaluated (as identified in the major map).

On Track to Graduation:

A student who has met all necessary requirements (terms 5-8) in the current term and necessary or critical requirements in previous terms against which they are being evaluated (as identified in the major map).

Off Track to Graduation:

A student who has not met one or more necessary requirements (terms 5-8) as stated in their major map in a given fall or spring semester.

Critical Requirement: [10]

As identified on the major map, as a curricular or non-curricular degree requirement that the faculty have identified as critical predictors of success in a specific major. Critical requirements can be courses, grades, GPAs or non-curricular requirements such as submitting a fingerprint clearance card. Critical Requirements appear in terms 1-4.

Necessary Requirement:

As identified on the major map, as a curricular or non-curricular degree requirement that the faculty have identified as necessary for timely completion of degree requirements. Necessary requirements appear in terms 5-8.

8 Semester Tracking:

The evaluation of how completed courses meet degree requirements in a specific term. Includes both critical and necessary courses. Also refers to the student application for viewing all major map requirements and progression towards meeting those requirements (personalized major map).

eAdvisor: [11]

A suite of tools used to monitor student progression towards degree completion including Degree Search, major maps and the tracking of critical and necessary requirements (8 Semester Tracking application).

Milestones:

A curricular or non-curricular requirement that needs to be completed by a specific point in time. Examples: portfolio review or audition.

Concurrent Degree: [12]

Internal to the university, two degrees, same level, same time, some shared courses. Concurrent degrees can either be preapproved combinations or unique combinations added by the student via petition. Examples: JD/PhD or BS/BSE. Two diplomas are awarded.

Multiple Concentration:

Internal to the university, one degree awarded, same level, same time, some shared courses. For undergraduate degrees with multiple concentrations, students may not share coursework between the core concentration curricula. Multiple concentrations are typically added by petition. Example: Business (Global Leadership), BA and Business (Sustainability), BA.

Joint Degrees:

ASU does not offer a joint degree. This would be a “joint” offering with another university where both universities would issue transcripts and diplomas.

Dual Degree:

An offering that is both internal and external to ASU. The student pursues two degrees simultaneously, one with ASU and one with an external institution. Example: ASU and Mayo Clinic.

Accelerated bachelors/masters (4 + 1) [13]

The 4+1 accelerated bachelor’s and master’s degrees are designed by the academic units to provide selected high-achieving undergraduate students with the opportunity to combine advanced undergraduate course work with graduate courses work to accelerate graduate degree completion. These programs allow accelerated students to obtain a bachelor’s and master’s degree within five years. These programs are preapproved combinations and are internal to ASU.

Accelerated bachelors/masters (3 +2):

A preapproved pathway to achieving a bachelor’s degree and a graduate level degree in five years. These are pre-established relationships, typically with international institutions.

Placement and Testing Requirements

English Placement

All new, transfer or readmitted undergraduate students who plan to enroll for seven or more semester hours must meet one of the following testing requirements. Students who fail to meet at least one of these requirements are not allowed to register for any course the following semester:

- Take the ACT English or SAT verbal examination, and have scores submitted to ASU.
- Receive a score of four or five for the advanced placement examination in English offered by the College Entrance Examination Board, and have scores submitted to ASU.
- Take the CLEP general examination in College Composition, earning a score that qualifies for equivalency with ENG 101, and have scores submitted to ASU.

- Have previously taken ENG 101, ENG 102, ENG 105, ENG 107 or ENG 108 at ASU; or have previously earned a grade of "Y;" or be currently enrolled in WAC 101 or WAC 107 at ASU. If the course was taken before 1980, contact the recording section, in SSV 142, before registering for classes.
- Transfer a course equivalent to ENG 101, ENG 102, ENG 105, ENG 107 or ENG 108 with a grade of "C" (2.00) or higher. An official transcript showing the grade must be received at ASU. If a student transfers an equivalent composition course from a public Arizona community college or university or an articulated equivalent course from another institution, the equivalency is automatically posted and the student need not take further action. A student transferring a nonarticulated composition course from any other college or university may be required to submit documentation to determine equivalency of the courses. After consultation with an advisor, if evaluation is necessary, the student should submit a request for evaluation through the ASU Transfer Credit Guide [1].
- An international student whose native language is not English must take ENG 107 (or WAC 107 followed by ENG 107 the second semester) in the first semester at ASU, unless they have taken and transferred an equivalent composition course from a college or university in the U.S. Such a course must be evaluated for equivalency through the ASU Transfer Credit Guide [1].

Admitted ASU students who have not sent official ACT or SAT scores to ASU may need to take the WritePlacer section of the ACCUPLACER placement test [2] for placement into a first-year English composition course.

Math Placement

ASU requires all incoming freshmen to complete the ASU mathematics placement test [3] for mathematics prior to orientation, in order to determine the appropriate math course for enrollment.

Source URL: https://catalog.asu.edu/test_req

Retention and Academic Standards

Class Standing

A student's class standing is determined by the number of hours earned, as shown in the table below.

Class Standing	
Student	Hours Earned
Freshman	24 or fewer semester hours earned
Sophomore	25 to 55 semester hours earned
Junior	56 to 86 semester hours earned
Senior	87 or more semester hours earned
Graduate	bachelor's from accredited institution

Academic Good Standing

For the purpose of retention, university academic good standing [1] for degree-seeking students is defined as a minimum cumulative GPA of 2.00. This standard is in effect for all students, regardless of catalog year, beginning in fall 2013.

A student who does not maintain the minimum GPA standard is placed on academic probation or is disqualified. A student on academic probation is in conditional good standing and is permitted to enroll.

Students on academic probation must meet with an academic success specialist to discuss academic success strategies for the subsequent semester and will be required to take UNI 220 Academic Refresher. In addition, students who have fewer than 24 credit hours will be required to participate in the ASU Pathway for Achieving Student Success Program. Students who successfully complete UNI 220 and participate in the PASS program will get an additional semester of academic probation before being disqualified. More information on the PASS program can be found here: <https://studentsuccess.asu.edu/pass> [2].

To transfer from one college to another within the university or to be eligible for readmission, a student must have an ASU GPA of 2.00 or higher. The GPA determining good standing is computed on courses taken only at ASU.

For purposes of retention or transfer, an individual college may set higher GPA standards; otherwise, the university standards prevail. See the college sections of this catalog or contact the college deans' offices for statements regarding college retention standards.

Dean's List

Undergraduate students who earn 12 or more graded semester hours ("A+," "A," "A-," "B+," "B," "B-," "C+," "C," "D" or "E") during a semester in residence at ASU with a GPA of 3.50 or higher are eligible for the Dean's List. A notation regarding Dean's List achievement appears on the unofficial transcript.

Satisfactory Academic Progress

The university is required to publish and enforce standards of satisfactory academic progress for certain students (e.g., student athletes, students receiving financial aid and students receiving veterans benefits).

Certification of satisfactory progress for student athletes is verified by the academic advisor and the dean's designee for certifying satisfactory progress. Certification of satisfactory progress [3] for students receiving financial aid or veterans benefits is verified by Student Financial Assistance or the Veterans Services offices, respectively. Students should contact their advisors or the appropriate office for additional information on satisfactory progress requirements.

Probation

A student's college assumes responsibility for enforcing academic standards and may place on university academic probation [4] any student who has failed to maintain good standing as previously defined. For purposes of probation and retention, an individual college may set higher GPA standards. A student on academic probation is required to observe any rules or limitations the college may impose as a condition for retention.

Co-enrolled Continuing Probation Program

Select disqualified students may participate in the Co-enrolled Continuing Probation Program at the discretion of their college or school. Under this program, the student takes UNI 220 Academic Refresher plus one ASU course selected by the student's advisor. The student co-enrolls at a Maricopa Community College with a schedule selected in consultation with the ASU advisor. Upon completion of the term, students with a combined semester cumulative GPA of 2.50 may continue regular enrollment at ASU. Parameters regarding the number of co-enrolled hours required are at the discretion of each college or school.

Ineligible

A student who is placed on ineligible [5] status at the end of a semester is considered ineligible to continue in the college or school at the end of the following semester, even if the student meets ASU good standing requirements but not the conditions imposed for retention by the college or school. At the close of the semester, a student deemed ineligible will receive from the college or school an email that will outline options available for continuing at ASU in another college.

Ineligibility is exercised at the discretion of the college. An ineligible student is notified by the dean of the college and is not allowed to register in a fall or spring semester at the university, unless arrangements are made to transfer to another college. A student who has already registered for a future semester will be withdrawn from classes. An ineligible student who does not change to a different major may not attend ASU. A student who is ineligible may apply for reinstatement to the college standards committee. An ineligible student may not attend ASU as a nondegree student.

Disqualification

A student who is placed on probation at the end of a semester is subject to disqualification [6] by the college or school at the end of the following semester if the conditions imposed for retention are not met.

Disqualification is exercised at the discretion of the college or school. A disqualified student is notified by the dean of the college and is not allowed to register in a fall or spring semester at the university. If the student has already registered for a future fall or spring semester, the registration is canceled. A student who has been disqualified may apply for reinstatement to the college standards committee. A disqualified student may not attend as a nondegree student. If a disqualified student elects to attend another university or two-year college, any credits earned there will not affect the ASU cumulative GPA. A course repeated elsewhere will not result in a replacement of a grade earned at ASU. Disqualified students must consult with an academic advisor to determine eligibility to attend ASU in the summer session, to raise the ASU cumulative GPA.

Select disqualified students may participate in the Co-enrolled Continuing Probation Program. See "Probation."

Reinstatement

A disqualified or ineligible student who has skipped a fall or spring semester must follow the procedures for readmission. See readmission to the university [7].

A disqualified or ineligible student who has not skipped a semester may contact an advisor in his or her college to see if reinstatement is possible. (See reinstatement: <https://catalog.asu.edu/glossary#reinstatement> [8].) If the student wishes to transfer to a different college, he or she may submit an application for reinstatement to the college into which he or she wishes to transfer. An ineligible student who does not skip a fall or spring semester must follow the ineligible procedures. See ineligible status.

Academic Integrity

Find out more about academic integrity [9].

University Undergraduate General Studies Requirement

A baccalaureate education should prepare students for a particular profession or advanced study and for constructive and satisfying personal, social and civic lives, as well. In addition to depth of knowledge in a particular academic or professional discipline, students should also be broadly educated and develop the general intellectual skills they need to continue learning throughout their lives. Thus, the General Studies requirement complements the undergraduate major by helping students gain mastery of critical learning skills, investigate the traditional branches of knowledge and develop the broad perspective that frees one to appreciate diversity and change across time, culture and national boundaries.

Critical learning skills include proficiency in the use of language, mathematics and quantitative methods as tools for acquiring, renewing, creating and communicating knowledge. A broad education includes an understanding of the methods and concerns of traditional branches of knowledge — the arts and humanities, the social sciences and the natural sciences. Developing perspective requires historical, global and cross-cultural examination of knowledge of all kinds.

The General Studies requirement is composed of courses in five core areas and three awareness areas. The courses are approved by the General Studies Council and are noted in the course catalog [1] for each academic term. General Studies courses are regularly reviewed and are occasionally added to and deleted from the list. Students should always consult the course catalog [1] each semester to see which courses currently meet the General Studies requirement.

A student receives the General Studies credit that a course carries during the semester in which the course is taken.

Five Core Areas (general studies)

L: Literacy and Critical Inquiry (three credit hours)

Literacy is competence in written and oral discourse. Critical inquiry is the gathering, interpretation and evaluation of evidence. The literacy and critical inquiry requirement helps students sustain and extend their ability to reason critically and communicate clearly through language.

Students must complete three credit hours from courses designated as L. Students must have completed ENG 101, ENG 105, or ENG 107 to take an L course.

The three hours required to meet the General Studies L requirement are in addition to the university level upper-division L requirement. See university graduation requirements for more information.

MA and CS: Mathematical Studies (combined six credit hours)

This core area has two categories. Mathematics (MA) is the acquisition of essential skills in basic mathematics. Computer/statistics/quantitative applications (CS) applies mathematical reasoning and requires students to complete a course in either the use of statistics/quantitative analysis or the use of a computer to assist in serious analytical math work.

This requirement has two parts: At least three credit hours must be selected from courses designated MA and at least three credit hours must be selected from courses designated CS; and all students are expected to fulfill the MA requirement by the time they accumulate 30 hours of credit in residence at ASU. Any student who has more than 30 hours of resident ASU credit and has not fulfilled the MA requirement must enroll in an MA course or an appropriate prerequisite and continue to do so every semester until the mathematics requirement is met. College officers may grant waivers to the immediate and continual enrollment requirement only when there are scheduling conflicts detrimental to the student's academic progress.

HU: Humanities, Arts and Design and SB: Social-Behavioral Sciences (combined 12 credit hours)

The study of the humanities and the disciplines of art and design deepen awareness of the complexities of the human condition and its diverse histories and cultures. Courses in the humanities are devoted to the productions of human thought and imagination, particularly in philosophical, historical, religious and artistic traditions. Courses with an emphasis in arts and design are devoted to the study of aesthetic experiences and the processes of artistic creation. They may also feature a design emphasis in which material culture is studied as a product of human thought and imagination.

The social-behavioral sciences provide scientific methods of inquiry and empirical knowledge about human behavior, within society and individually. The forms of study may be cultural, economic, geographic, historical, linguistic, political, psychological or social. The courses in this area address the challenge of understanding the diverse natures of individuals and cultural groups who live together in a world of diminishing economic, linguistic, military, political and social distance.

A total of 12 credit hours must be completed in the following two core areas: humanities, arts and design (HU); and social-behavioral sciences (SB). At least six credit hours must be taken in one of these two core areas.

The 12 hours required to meet the General Studies HU/SB requirement are in addition to the university level upper-division HU/SB requirement. See university graduation requirements for more information.

SQ and SG: Natural Sciences (combined eight credit hours)

The natural sciences help students appreciate the scope and limitations of science and its contributions to society. Natural science areas of study include anthropology, astronomy, biology, biochemistry, chemistry, experimental psychology, geology, microbiology, physical geography, physics and plant biology. Knowledge of the methods of scientific inquiry and mastery of basic scientific principles and concepts are stressed, specifically those that relate to matter and energy in living and nonliving systems. Firsthand exposure to scientific phenomena in the laboratory is important in developing and understanding the concepts, principles and vocabulary of science.

General Studies courses that satisfy the natural science requirement are given one of two classifications: quantitative (SQ) and general (SG).

Natural Science — Quantitative (SQ): These laboratory courses include a substantial introduction to the fundamental behavior of matter and energy in physical and biological systems.

Natural Science — General (SG): These laboratory courses cover aspects of scientific inquiry that lend themselves to more qualitative or descriptive discussions of science.

Eight credit hours of courses designated SQ or SG must be selected. Of these, at least four credit hours must be taken from the SQ category.

Three Awareness Areas (General Studies)

Students must complete courses that satisfy three awareness areas. Courses that are listed for a core area and one or more awareness areas may satisfy requirements concurrently, up to a maximum of two of the awareness areas listed for that course. These awareness areas promote appreciation of cultural diversity within the contemporary U.S., the development of an international perspective and an understanding of current human events through study of the past.

1. Cultural Diversity in the United States (C)

The objective of the cultural diversity (C) requirement is to promote awareness and appreciation of cultural diversity within the contemporary U.S. This is accomplished through the study of the cultural, social or scientific contributions of women and minority groups, examination of their experiences in the U.S., or exploration of successful or unsuccessful interactions between and among cultural groups. Awareness of cultural diversity and its multiple sources can illuminate the collective past, present and future and also help students achieve greater mutual understanding and respect.

2. Global Awareness (G)

The objective of the global awareness (G) requirement is to help students recognize the need for an understanding of the values, elements and social processes of cultures other than those of the U.S. The global awareness area includes courses that recognize other contemporary cultures and the relationship of the American cultural system to generic human goals and welfare.

3. Historical Awareness (H)

The objective of the historical awareness (H) requirement is to help students develop knowledge of the past, which can be useful in shaping the present and future. History is present in languages, art, music, literature, philosophy, religion and the natural sciences, as well as in the social science traditionally called history.

Meeting the General Studies Requirement

All students enrolled in a baccalaureate degree program must successfully complete a minimum of 29 credit hours of approved General Studies courses. Many General Studies courses are approved as satisfying more than one requirement. The following conditions govern the application of courses toward the General Studies requirement:

- A single course may be used to satisfy one core area and a maximum of two awareness area requirements.
- A single course may be used to satisfy a maximum of two awareness area requirements.
- A single course cannot be used to satisfy two core area requirements, even if it is approved for more than one core area.

There is no limit to the number of advanced placement or College-Level Examination Program credits that can be used to meet the General Studies requirement; see credit by examination [2]. However, CLEP credits do not satisfy the natural sciences (SQ and SG) and literacy and critical inquiry (L) portions of the General Studies requirement.

Transfer Credit

Completion of ASU's lower division general studies and composition requirements will be awarded to any transfer student who has completed the general studies and composition requirements at another domestic university as certified through completion of the AGECE from an Arizona community college or IGETC/CSUGE for California public community colleges, or the completion of an associate of arts degree at any regionally accredited community college or university in the United States. These students will still be required to fulfill lower-division program requirements and prerequisites within their college and major and minor area of study. Additionally, students must still take six upper-division credit hours (three for L and three for SB or HU) to complete the ASU university level graduation requirements. If students transfer from Arizona community colleges without completing the AGECE or from other accredited postsecondary institutions, they receive credit for General Studies based on course-by-course equivalency. See Arizona General Education Curriculum [3].

University Requirements

In addition to the 29 credit hours of lower-division general education coursework, university graduation requirements also require students to take six additional upper-division credit hours. Three hours with a Literacy (L) designation are required to be chosen from approved upper-division courses, preferably in the major. Three hours with either a Humanities, Arts and Design (HU) or Social-Behavioral Sciences (SB) designation should also be chosen from approved upper-division courses, preferably in the major.

College or School and Major Requirements

In addition to the General Studies requirement, students must also complete college or school and major requirements. Students are encouraged to work with their academic advisors to develop a program of study that efficiently meets all graduation requirements. A well-planned program should enable a student to concurrently satisfy requirements at the university, college or school levels and within their major.

Source URL: https://catalog.asu.edu/ug_gsr

[2] http://catalog.asu.edu/credit_exam#CLEP

[3] <http://catalog.asu.edu/agece>

University Undergraduate Graduation Requirements

All students enrolled in a baccalaureate degree program must fulfill the following university requirements to graduate.

Credit Requirements

A minimum of 120 credit hours is required for graduation with a baccalaureate degree. A minimum of 45 credit hours in upper-division courses is required for graduation. Some programs may require more than 120 credit hours and 45 upper-division credit hours for graduation; check the program's major map for graduation requirements.

No more than 60 credit hours earned in independent learning courses or earned by comprehensive examination (including advanced placement, College-Level Examination Program, DANTES Subject Standardized Test and International Baccalaureate diploma/certificate exams) are accepted for credit toward the baccalaureate degree.

Grade Point Requirement

A minimum cumulative grade point average of 2.00 for all courses taken at ASU is required to graduate with a baccalaureate degree. Some programs may require more than a 2.00 GPA; refer to the specific program's major map for graduation requirements.

General Studies Requirement

All students enrolled in a baccalaureate degree program must satisfy a university requirement of a minimum of 29 credit hours of approved course work. See General Studies. [1]

Students transferring from Arizona community colleges with a certified completion of the appropriate Arizona General Education Curriculum will have satisfied all lower-division General Studies requirements of the baccalaureate degree with which the AGEC articulates. For more details regarding the different versions of AGEC, refer to <http://aztransfer.com/> [2].

An additional combined six hours of Literacy (L) (three hours total) and Humanities, Arts and Design (HU) / Social-Behavioral Sciences (SB) (three hours total) at the upper-division level, preferably chosen from within the major, must be completed in addition to 29 credit hours of General Studies course work.

Mathematics Requirement

All undergraduate degree-seeking students are expected to fulfill the university's mathematics requirement by the time they have accumulated 30 hours of credit in residence at ASU. Any student who has more than 30 hours of credit and has not fulfilled the mathematics requirement must enroll in a mathematics course or an appropriate prerequisite course and continue to do so every semester until the mathematics requirement is met. A waiver may be granted for continuous enrollment if there are scheduling conflicts detrimental to the student's academic progress. Also see the Math Intensive Programs: Required Course Policy

First-Year Composition Requirement

Completion of both ENG 101 and ENG 102 or ENG 105 with a grade of "C" (2.00) or higher is required for graduation from ASU in any baccalaureate program. An international student whose native language is not English may meet the first-year composition requirement by completing ENG 107 and 108 with a grade of "C" (2.00) or higher. Students who are required to take first-year composition must enroll in their first required composition course within the first year and continue to enroll in required composition courses every term until composition requirements are met.

New and Transfer Students

Composition courses transferred from non-Arizona public or out-of-state institutions may require evaluation and approval by the Office of Transfer Systems Development. After consultation with an advisor, if evaluation is necessary, the student should submit a request for evaluation through the ASU Transfer Credit Guide [3]. Students should complete the process upon transfer of course work to ASU so the student is able to enroll in additional courses if required to do so. Students who are required to take first-year composition must enroll in their first required composition course within the first year and continue to enroll in required composition courses every term until composition requirements are met.

Resident Credit Requirement

Resident credit refers to a course that is offered in a regular semester, winter session (prior to 2011-2012), intersession or summer session. Credit earned through comprehensive examinations is also included when calculating ASU resident hours. Credit earned through independent learning, advanced placement, the College-Level Examination Program or an International Baccalaureate diploma/certificate are excluded when calculating ASU resident hours.

Every candidate for the baccalaureate degree is required to earn a minimum of 30 credit hours in resident-credit courses at ASU.

Guidelines for Determination of Catalog Year

The catalog is published annually. Department, school, division, college and university requirements may change and are upgraded often. In determining graduation requirements, an undergraduate student may use only one edition of the catalog but may elect to follow any later catalog edition under which the student attends. Students may not use an edition of the catalog that was in effect before their high school graduation or completion of GED. Students maintaining continuous enrollment at any Arizona community college or public university may graduate according to the requirements of the catalog in effect at the time of initial enrollment following high school graduation or completion of a GED or according to the requirements of any single catalog in effect during subsequent terms of continuous enrollment. Students may maintain continuous enrollment while pursuing their degrees, whether attending a single Arizona community college or public university or transferring among public institutions in Arizona. Students

transferring among Arizona public higher education institutions must meet the admission, residency and all curricular and academic requirements of the degree-granting institution.

1. A semester in which a student earns course credit is counted toward continuous enrollment. Noncredit courses, audited courses, failed courses or courses from which the student withdraws do not count toward the determination of continuous enrollment for catalog purposes. See examples A and B in the continuous enrollment table below.
2. Students who do not meet the minimum enrollment standard stipulated above during three consecutive semesters (fall/spring/fall or spring/fall/spring) and the intervening summer term at any Arizona community college or public university are no longer considered continuously enrolled. (Note that students are not obligated to enroll and earn course credit during summer terms, but summer enrollment may be used to maintain continuous enrollment status.) These students must meet requirements of the Arizona community college or public university catalog in effect at the time they are readmitted or of any single catalog in effect during subsequent terms of continuous enrollment after readmission. See examples C and D in the continuous enrollment table below.
3. Students admitted or readmitted to an Arizona community college or public university during a summer term must follow the requirements of the catalog in effect the following fall semester or of any single catalog in effect during subsequent terms of continuous enrollment. See example E in the continuous enrollment table below.
4. In areas of study in which the subject matter changes rapidly, material in courses taken long before graduation may become obsolete or irrelevant.
5. Course work that is more than eight years old is applicable to completion of degree requirements at the discretion of the student's major department. Departments may accept such course work, reject it or request that the student revalidate its substance. The eight-year limit on course work applies except when program accreditation agencies limit the life of course work to fewer than eight years. Departments may also require students to satisfy current major requirements rather than major requirements in earlier catalogs when completing earlier requirements is no longer possible or educationally sound.
6. Enrollment by Arizona community college students in nontransferable courses still constitutes enrollment for purposes of determining whether the student has been continuously enrolled. For example, if a student takes two semesters of cooperative education classes that are not transferable to the university but constitute continuous enrollment at the community college, the university should consider it continuous enrollment.
7. Exceptions made by an institution apply only to the institution that made the exception. For example, if the community college departments accepted credit that was more than eight years old, the university department to which the student transfers might not; it has the right and the obligation to reevaluate any credit more than eight years old.

Inquiries about these guidelines may be directed to the student's academic advisor.

Continuous Enrollment		
Student's Activity		
	Semester/ Year	Status
Example A		
Admitted and earned course credit at an Arizona community college	Fall 2001	Active
Continued at an Arizona community college	Spring 2002 Fall 2002	Active
Transferred to an Arizona university	Spring 2003	Student enrolled under 2001–2002 or any subsequent catalog
Example B		
Admitted and earned course credit at an Arizona community college	Fall 2003	Active
Enrolled but earned all "Ws" or "Es" (0.00)	Spring 2004	Inactive

Enrolled in audit courses only	Fall 2004	Inactive
Nonattendance	Spring 2005	Inactive
Transferred to an Arizona university	Fall 2005	Student enrolled under 2005–2006 or any subsequent catalog
Example C		
Admitted and earned course credit at an Arizona community college	Fall 1999	Active
Nonattendance	Spring 2000 Fall 2000 Spring 2001	Inactive
Readmitted and earned course credit at an Arizona community college	Fall 2001	Active
Transferred to an Arizona university	Spring 2002	Student enrolled under 2001–2002 or any subsequent catalog
Example D		
Admitted and earned course credit at an Arizona community college	Fall 2000	Active
Nonattendance	Spring 2001	Inactive
Readmitted and earned course credit at an Arizona community college	Summer 2001	Active
Nonattendance	Fall 2001 Spring 2002	Inactive
Transferred to an Arizona university	Fall 2002	Student enrolled under 2000–2001 or any subsequent catalog
Example E		
Admitted and earned course credit at an Arizona community college	Summer 2004	Active
Continued at an Arizona community college	Fall 2004 Spring 2005	Active
Nonattendance	Fall 2005	Inactive
Readmitted and earned course credit at an Arizona community college	Spring 2006	Active
Transferred to an Arizona university	Summer 2006	Student enrolled under 2004–2005 or any subsequent catalog
Example F		
Admitted and earned course credit at an Arizona university	Summer 2004	Active
Nonattendance	Fall 2004	Inactive
Nonattendance	Spring 2004	Inactive
Readmitted and earned course credit at an Arizona university	Fall 2005	Active

Continued at an Arizona community college	Spring 2006	Student enrolled under 2004–2005 or any subsequent catalog

Application for Graduation

For information on how to apply for graduation and deadline dates, visit: <http://students.asu.edu/graduation> [4].

Petition for Variance from Degree

Any student wishing to have a college or university degree requirement variance must petition the standards committee of the college in which the student is enrolled. All petitions must originate with the student's advisor.

The University Undergraduate Standards Committee advises the Office of the Executive Vice President and Provost of the University regarding undergraduate student petitions that concern university-wide academic requirements. These requirements include but are not limited to requirements on the amount of transfer credit, graduation requirements, limits on credit by examination and requirements for a second baccalaureate degree. To petition for a variance from such university requirements, the University Undergraduate Standards Committee petition is used. Most petitions heard by the University Undergraduate Standards Committee start at the college level and are forwarded for final review and decision to the university level committee.

Overview of Graduation Requirements

At ASU, students take classes that fulfill four types of requirements. As illustrated in the graduation requirements diagram below, some courses can fulfill two or more types of requirements but other courses fulfill only one requirement. The total credit hours needed to graduate are represented by the largest circle. The university minimum is 120 credit hours. Some majors, however, require more than 120 credit hours.

Although the three shaded circles in the illustration below are equal in size and the white circle is larger than all three, the total number of semester hours for each type of requirement may vary.

University Requirements

The yellow circle represents university requirements. The General Studies requirement and first-year composition requirement are among these requirements.

College Requirements

The gray circle represents college requirements. Some colleges and schools such as the College of Liberal Arts and Science have additional requirements.

Major

The red circle represents the requirements of the major. The credit hours required for a major may be as low as 30 hours or as high as 65 hours.

Electives/Minor/Certificate

The white circle represents electives and the requirements of a minor or certificate. A minor typically adds an additional 18 to 25 credit hours of course work. Although every student must eventually declare a major, minor and certificates are not required. Some courses, while providing credit hours toward graduation, fall outside the shaded circles and are not required in a program for graduation. These courses are electives. Some majors leave no room for electives within the minimum 120 credit hours required to graduate.

Other Requirements

The separate units of ASU — such as colleges, schools and departments — have specific requirements for graduation that must be satisfied for a baccalaureate degree. Students are encouraged to consult with an academic advisor in planning a program to ensure it meets the various requirements. A well-planned program may enable a student to concurrently satisfy a portion of the General Studies requirement together with a portion of a college or major requirement.

Graduation with Academic Recognition

An undergraduate student must have completed at least 56 credit hours of resident credit at ASU to qualify for graduation with academic recognition for a baccalaureate degree. Note: West campus students following a catalog year prior to fall 2007 are required to have completed at least 50 credit hours of resident credit at ASU.

The cumulative GPA determines the designation, as shown in the academic recognition table below.

Academic Recognition	
Cumulative GPA	Designation
3.40–3.59	cum laude
3.60–3.79	magna cum laude
3.80–4.00	summa cum laude

The cumulative GPA for these designations is based on ASU resident course work only. For example, ASU independent learning course grades are not calculated in the honors GPA. All designations of graduation with academic recognition are indicated on the diploma and the ASU transcript. Graduation with academic recognition applies only to undergraduate degrees.

A student who has a baccalaureate degree from ASU and is pursuing a second baccalaureate degree at ASU (with a minimum of 30 hours of resident credit) is granted academic recognition on the second degree based on the credit hours earned subsequent to the posting of the first degree. If fewer than 56 credit hours are completed at ASU subsequent to completion of the first ASU degree, the level of academic recognition can be no higher than that obtained on the first degree. If 56 or more credit hours are completed at ASU after completion of the first ASU degree, the level of academic recognition is based on the GPA earned for the second ASU degree. Inquiries about graduation with academic recognition may be directed to the graduation office (480-965-3256).

Additional Degrees

Second Baccalaureate Degree

The student seeking a second baccalaureate degree must meet admission criteria for that degree. After conferral of the first degree, a minimum of 30 credit hours in resident credit courses at ASU must be successfully completed to earn the second baccalaureate degree. The student must meet all degree and university requirements of the second degree.

Concurrent Degrees

More than one baccalaureate degree may be pursued concurrently if prior approval is given by the standards committees of the colleges offering the degrees. Students may receive concurrent degrees if they meet the minimum requirements for both degrees.

eAdvisor and critical requirements

EAdvisor is Arizona State University's electronic advising and enrollment management system, designed for first-time freshmen and transfer students from Arizona public universities and Arizona community colleges. Students use eAdvisor to:

1. learn more about graduation requirements for their major
2. discern the critical courses and grades that are required to stay on track to successfully complete their degree
3. plan for and schedule appropriate courses in the correct sequence to maximize success
4. monitor progress toward their degree
5. find out how courses may fit into other majors if they decide to change majors

Through eAdvisor, students follow a major map that outlines the critical requirements and optimal eight-semester plan. If students do not meet the critical requirements, an advising hold may be placed on the students' records, and an advising session is required before future registration activities can take place. When students do not meet the critical requirements for two consecutive semesters, they are considered off track and may be advised to change majors.

Math Intensive Programs: Required Course Policy

ASU undergraduate degree programs are categorized in the area of math intensity as either general, moderate or substantial based on the number and type of required math courses. Students enrolled in a degree program categorized as substantial in math intensity who receive a failing grade of "E" twice in the same required math course may be required to change their major to a major categorized as general or moderate. This policy is applicable even if the required math course is not marked as critical through the eAdvisor Tracking Tool.

University Policy for Student Appeal Procedures on Grades

Informal

The steps outlined on this page, beginning with step A, must be followed by any student seeking to appeal a grade. Student grade appeals must be processed in the regular semester immediately following the issuance of the grade in dispute (by commencement for fall or spring), regardless of whether the student is enrolled at the university. It is university policy that students filing grievances and those who are witnesses are protected from retaliation. Students who believe they are victims of retaliation should immediately contact the dean of the college in which the course is offered.

A. The aggrieved student must first undergo the informal procedure of conferring with the instructor, stating the evidence, if any, and reasons for questioning that the grade received was not given in good faith. The instructor is obliged to review the matter, explain the grading procedure used and show how the grade in question was determined. If the instructor is a graduate assistant and this interview does not resolve the difficulty, the student may then take the problem to the faculty member in charge of the course (regular faculty member or director of the course sequence).

B. If the grading dispute is not resolved in step A, the student may appeal to the department chair or other appropriate chair of the area within the department (if any). The department chair may confer with the instructor to handle the problem. Step B applies only in departmentalized colleges.

C. If these discussions are not adequate to settle the matter to the complainant's satisfaction, the student may then confer with the dean of the college concerned (or the dean-designate), who will review the case. If unresolved, the dean or designate may refer the case to the college academic grievance hearing committee to review the case formally. In most instances, however, the grievance procedure does not go beyond this level.

Formal

The following procedure takes place after steps A, B and C (or A and C) have been completed.

D. Each college has on file in the office of the dean (and in each department of the college) the procedures and composition of the undergraduate or graduate academic grievance hearing committee for student grievances. Each college committee shall operate under grievance procedures as stated, which satisfy due process requirements. The committee shall always meet with the student and the instructor in an attempt to resolve the differences. At the conclusion of the hearing, the committee shall send its recommendations to the dean.

E. Final action in each case will be taken by the dean after full consideration of the committee's recommendation. Any recommended grade changes may be made by the dean. The dean shall inform the student, instructor, department chair (if any), registrar and grievance committee of any action taken.

Academic Integrity

Definition

What is a violation of the academic integrity policy?

The ASU student academic integrity policy [1] lists violations in detail. These violations fall into five broad areas that include but are not limited to:

1. Cheating on an academic evaluation or assignment.
2. Plagiarizing.
3. Academic deceit, such as fabricating data or information.
4. Aiding academic integrity policy violations and inappropriately collaborating.
5. Falsifying academic records.

What is not a violation of the academic integrity policy?

Not all inappropriate behavior in the academic setting is an academic integrity policy violation.

Student Code of Conduct

Violations of the ASU Student Code of Conduct, other than the provision concerning academic dishonesty, are more generally considered inappropriate behavior. The Office of Student Rights and Responsibilities [2] reviews and sanctions these matters. If a student violates both the academic integrity provision and additional provisions of the Student Code of Conduct, both the college

and the Office of Student Rights and Responsibilities will review the matter. Each independently makes determinations concerning violations and appropriate sanctions.

Research

For graduate students and undergraduates involved in research, there can be overlapping areas between Academic Integrity Policy violations, responsible conduct of research and research misconduct. The five areas listed above describe the kinds of Academic Integrity Policy violations and are handled under the ASU Student Academic Integrity Policy by faculty members, colleges and the provost.

If a student is working on a federally funded research project, some of these items may also be considered misconduct in research [3]. Misconduct is defined as:

Fabrication, falsification, plagiarism and other practices that seriously deviate from those that are commonly accepted within the academic community for proposing, conducting or reporting research. Instances of honest error and honest differences in interpretations or judgments of data are not considered misconduct. (From RSP 004: Definitions [4])

At ASU, the Office of the Associate Vice President of Research handles misconduct in research. A student who violates both ASU's Misconduct in Research Policy and Student Academic Integrity Policy will be reviewed by both the college and the Office of Knowledge Enterprise Development [5]. Each independently makes determinations concerning violations and appropriate sanctions.

In addition, some actions might be considered violations of the norms of responsible conduct of research, but not Academic Integrity Policy violations or misconduct in research. Many of these incidents fall into the general category of "collaborator disputes." For example, if a doctoral graduate of ASU continued a line of research begun at ASU in a new lab external to ASU, and the ASU mentor objected, generally speaking the matter would be addressed as a collaborator dispute, rather than as an Academic Integrity Policy violation or misconduct in research. Many conflicts over appropriate authorship credit on publications also fall into this area.

Student Obligations to Academic Integrity

Each student must act with honesty and integrity, and must respect the rights of others in carrying out all academic assignments. A student may be found to have engaged in academic dishonesty if, in connection with any Academic Evaluation or academic or research assignment (including a paid research position), he or she:

- A. Engages in any form of academic deceit;
- B. Refers to materials or sources or uses devices (e.g., computer disks, audio recorders, camera phones, text messages, crib sheets, calculators, solution manuals, materials from previous classes, or commercial research services) not authorized by the instructor for use during the Academic Evaluation or assignment;
- C. Possesses, reviews, buys, sells, obtains, or uses, without appropriate authorization, any materials intended to be used for an Academic Evaluation or assignment in advance of its administration;
- D. Acts as a substitute for another person in any Academic Evaluation or assignment;
- E. Uses a substitute in any Academic Evaluation or assignment;
- F. Depends on the aid of others, including other students or tutors, in connection with any Academic Evaluation or assignment to the extent that the work is not representative of the student's abilities;
- G. Provides inappropriate aid to another person in connection with any Academic Evaluation or assignment, including the unauthorized use of camera phones, text messages, photocopies, notes or other means to copy or photograph materials used or intended for Academic Evaluation;
- H. Engages in Plagiarism;
- I. Uses materials from the Internet or any other source without full and appropriate attribution;

- J. Permits his or her work to be submitted by another person in connection with any Academic Evaluation or assignment, without authorization;
- K. Claims credit for or submits work done by another;
- L. Signs an attendance sheet for another student, allows another student to sign on the student's behalf, or otherwise participates in gaining credit for attendance for oneself or another without actually attending;
- M. Falsifying or misrepresenting hours or activities in relationship to an internship, externship, field experience, clinical activity or similar activity; or
- N. Attempts to influence or change any Academic Evaluation, assignment or academic record for reasons having no relevance to academic achievement.

Source URL: <https://provost.asu.edu/academicintegrity/policy/StudentObligations>

Allegations of Academic Dishonesty

This policy is not intended to address differences of opinion over grades issued by an instructor exercising good faith and professional judgment regarding a student's work. Before any action is taken under this Policy that may result in the withdrawal, suspension or expulsion of an international student, both the student and the academic program are advised to consult with the ASU International Student Office.

These procedures are designed to encourage a fair and appropriate response to allegations of academic dishonesty. They may be modified in individual cases, so long as the student is provided an opportunity to respond to allegations of academic dishonesty within a reasonable time after those allegations have been made. An Advisor may accompany the student at any point in the process. The Advisor will not be permitted to participate directly or speak for the student, but may be present during meetings and hearings.

- A. Complaint.
 - a. Anyone with a good faith basis for believing that a student has violated this policy may report the alleged violation to the responsible instructor, chair, dean, director or designee. The person who pursues the allegation is called the "Initiator" in this policy. If for any reason, an Initiator is unable or unwilling to continue in that role, another university representative may continue as Initiator.
 - b. An individual who has received an allegation may decide not to initiate a complaint. This decision will not prevent another person from becoming the Initiator.
- B. Response to Complaint.
 - a. An instructor who believes that a student has violated this policy in a class for which the instructor is responsible may assign any of the following sanctions:
 - i. a reduced grade for an assignment, or
 - ii. a reduced grade for the course.
- C. If the instructor wants to recommend another sanction set forth in Section IV, including an XE grade, the instructor must forward that recommendation for review by the College/School Board and approval by the Dean, Director or designee. The student and the instructor will be provided an opportunity to provide information to the College/School Board as part of its review.
- D. At any time, the student and the Initiator may propose a resolution, but the Dean, Director, or designee, may choose to pursue the case on behalf of the University.
- E. Information regarding the allegation or resolution may be provided to appropriate university representatives.
- F. If the Initiator and the student are unable to agree on resolution, then the student, the Initiator, or a representative of the Dean or Director may submit the matter to the Dean, Director or designee of the College/School in which the alleged academic dishonesty occurred for review by the College/School Board.
- G. After a formal request for review has been filed, the Student may remain in class or in the program until the appeal has been resolved. The student will not be given a refund, however, if the student is not successful in the appeal and the decision is made to remove the student from the class, program or university.
- H. If the matter is not submitted by the student to the Dean, Director or designee for review within 10 days following the time the student is accused of academic dishonesty, the decision or recommendation of the instructor becomes final. If the instructor has submitted a request for an XE or any other sanction to the Dean, Director or designee, and the student has not requested review within 10 days of receiving notice of this request, the Dean, Director, or designee may enter a decision on the request. Only if the decision includes suspension or expulsion from the university will the student be able to request further review.

Source URL: <https://provost.asu.edu/academicintegrity/policy/AllegationsofAcademicDishonesty>

Review by College/School Board

- A. Within 10 days after the Student receives a reduced or "XE" grade, or other notice of the alleged academic dishonesty, the Student may submit a written statement to the Dean requesting review of the allegation, the sanction or the proposed sanction by the College/School Board. For the purpose of calculating the time for submitting a matter for review, the 10 day period is counted to include only days that fall within the regular fall or spring semester and do not include the summer sessions or intersession. The Dean may appoint an ad hoc board to conduct the review or may use a standing board. The review will take place during the regular fall or spring semester, unless the parties agree otherwise.
- B. These procedures should guide the review process, but may be altered by the Chair of the College/School Board in consultation with the Office of General Counsel.
- C. The Student statement should describe the alleged academic dishonesty, including a factual narrative of events and the dates and times of occurrences and any sanction or proposed sanction. The statement should also include the names of persons having information about relevant circumstances or events, the general nature and description of all evidence, and should be signed by the Student.
- D. If the Student submits a request for review at the end of a semester, or during the last semester of enrollment, the course grade may be withheld for a reasonable period of time (normally not to exceed six months) until the matter is decided. In situations involving the student's last semester before graduation, the degree may be withheld pending the outcome of the hearing. If a grade or degree will be withheld for any period, the Initiator, Dean, Director, or designee must notify the Registrar's Office.
- E. The Dean, Director or designee will forward the student's statement to the Chair of the College/School Board.
- F. If the alleged cheating involves the work of multiple students, the College/School Board may modify these procedures to address the circumstances. The College/School Board should provide prior written notice to all interested parties of any modification of the procedures. A student who has not submitted a request for a review should not expect to benefit from a review requested by another student.
- G. Hearing Proceedings
 - a. The Chair of the College/School Board will send a copy of the statement to the Initiator, together with a copy of this Policy or with instructions on accessing the policy electronically.
 - b. The letter to the student, a copy of which shall also be sent to the Initiator and the department chair, will include the following information:
 - i. Statement of time and place when a hearing on the charges will be held by the College/School Board;
 - ii. Requirement that the parties to provide each other and the College/School Board a written list of witnesses and a description of any documents or other evidence they intend to use at the hearing. Unless the Chair provides otherwise, this information must be exchanged at least one calendar week before the hearing.
 - c. Prior to the hearing, the College/School Board will also advise the parties in writing of any additional time limitations or procedural requirements.
 - d. The Initiator shall have the burden of showing that it is more likely than not that the student engaged in academic dishonesty.
 - e. Issues shall be resolved fairly and as promptly as possible under the circumstances.
 - f. The hearing will be closed to the public. The student and the Initiator may remain in the hearing throughout the presentation of all evidence and testimony, although the College/School Board Chair may remove either party, any Advisor, or any witness if that person's conduct is disruptive.
 - g. The student and the instructor may each have an Advisor present but the Advisors shall not be permitted to address the College/School Board directly, except as the College/School Board Chair deems necessary or appropriate.
 - h. The College/School Board Chair has the final authority to resolve procedural disputes that arise. Although formal rules of evidence do not apply to the hearing process, the College/School Board Chair may limit the presentation of irrelevant or cumulative evidence, the number of witnesses and the length of each parties presentation.
 - i. The proceedings may be recorded, as determined by the College/School Board Chair.
 - j. When necessitated by fairness or extraordinary circumstances, the College/School Board may permit the parties to make arrangements for recorded, written, or telephonic testimony for use in the proceeding.
 - k. The hearing procedure will be as follows, unless the College/School Board Chair provides notice to the parties of alternative or supplemental procedures.
 - i. The College/School Board Chair will introduce the persons present at the hearing and remind all participants of the requirement that all information received in the hearing must be maintained in confidence.
 - ii. The College/School Board Chair will read allegation of academic dishonesty.
 - iii. The College/School Board Chair will make any necessary decisions or clarifications regarding procedure.

- iv. Testimony and Evidence Presented by the Initiator.
- v. The Initiator shall offer evidence in support of the allegation.
 - 1. The Initiator may call witnesses and present evidence.
 - 2. The student may ask questions of the Initiator or any of the Initiator's witnesses, following each person's presentation.
 - 3. College/School Board members may ask questions of the Initiator, the student or any of the Initiator's witnesses.
- vi. Testimony and Evidence Presented by the Student.
 - 1. The student shall offer evidence in defense of the allegation.
 - 2. The student may call witnesses and present evidence.
 - 3. The Initiator may ask questions of the student or any of the student's witnesses, following each person's presentation.
 - 4. College/School Board members may ask questions of the student, the Initiator, or any of the student's witnesses.
- vii. The College/School Board shall deliberate in private until a majority recommendation is reached and recorded. If the recommendation is not unanimous, dissenting opinions should be reflected in the recommendation submitted to the Dean or Director.
- viii. The College/School Board will prepare a written recommendation to the Dean or Director. The recommendation will include the Board's determination as to whether it is more likely than not that the student violated this policy. The decision should also include the College/School Board's findings with respect to the material facts.
- ix. If the Board finds a violation, the recommendation should recommend sanctions. The Board may consider prior violations or informal resolutions of previous allegations in its deliberations.
- x. The College/School Board will submit its recommendation to the Dean or Director.
- xi. The Dean or Director may dismiss the allegation, may concur with or modify the recommendation or may request further proceedings, but may not make new findings adverse to the student or increase the severity of a sanction, unless the student has previously violated this policy.
- xii. After any additional proceedings and within a reasonable time, the Dean or Director will issue a decision. The Dean will provide written notice of the decision to the student, the Initiator, the instructor (if the instructor is not the Initiator), the College/School Board and the department chair (or administrative equivalent).
- xiii. If the decision imposes a sanction of suspension or expulsion from the university, or revocation of a degree, the notice letter from the Dean or Director will state that the student may appeal the decision by filing a written request for review with the Provost of the campus at which the alleged violation occurred within 10 days of the date of the notice letter. If the student does not submit a written request for review within 10 days, the decision of the Dean or Director becomes final.
- xiv. Once the student has provided written notice of an appeal of a sanction, the sanction will not be imposed until the appeal has been resolved with the exception that the university may withhold posting of a grade or completion of graduation until the matter has been resolved.

Source URL: <https://provost.asu.edu/academicintegrity/policy/CollegeReview>

Sanctions

- A. Sanctions that may be imposed by an Instructor.
 - a. Subject to the procedures set forth in section III, an instructor, academic supervisor, or committee responsible for evaluation may impose any of the following sanctions for academic dishonesty:
 - b. Reduced or failing grade for assignment,
 - c. Reduced or failing grade for course, or
 - d. Reduced, failing grade, or no credit for other academic evaluation (e.g., clinical training, comprehensive exam, thesis, dissertation).
 - e. Within 10 days after an instructor-imposed sanction is assigned, the student may appeal the sanction to the Dean or Director.
- B. Sanctions that may be recommended by an instructor.
 An instructor, academic supervisor, or committee responsible for academic evaluation may recommend other or additional sanctions to the Dean or Director, including assignment of the grade of XE and withdrawal of credit for a previously accepted course or requirement, if the sanctions are otherwise provided in this policy or in the Student Code of Conduct and Disciplinary Procedures.

- C. Sanctions that may be imposed by a Dean or Director.
 - a. After reviewing the recommendation of the School/College Board, a Dean or Director may impose any of the following sanctions for academic dishonesty:
 - i. Reduced or failing grade for assignment,
 - ii. Reduced or failing grade for course,
 - iii. Reduced or failing grade for other academic evaluation (e.g., clinical training, comprehensive exam, thesis, dissertation),
 - iv. Assignment of a grade of "XE";
 - v. Withdrawal of credit for a previously accepted course or requirement;
 - vi. Removal from the School or College or from a major or program of study within the School or College, permanently or for a specified period of time.
 - b. The decision of the Dean or Director to impose any of the above sanctions is final.
- D. In addition to the above sanctions, a Dean or Director may recommend to the Provost any of the following sanctions:
 - a. Revocation of a degree (the student's official and unofficial transcript may reflect that revocation was the result of academic dishonesty);
 - b. Expulsion from the University without expectation of readmission (the student's official and unofficial transcript may reflect that expulsion was the result of academic dishonesty);
 - c. Suspension from the University for a specific period of time (the student's official and unofficial transcript may reflect that suspension was the result of academic dishonesty);
 - d. Other sanctions as consistent with this policy and the Student Code of Conduct.
- E. Final Sanctions
 - a. The student will receive written notice of the decision and recommendations of the Dean or Director.
 - b. If the sanctions do not include suspension from the university, expulsion from the university or revocation of the degree, the recommendations of the Dean or Director will be final.
 - c. If the sanctions include suspension from the university, expulsion from the university or revocation of the degree, but the student does not object in writing to the recommendations of the Dean or Director within 10 days, the recommendations of the Dean will be final.
 - d. If the sanctions include suspension from the university, expulsion from the university or revocation of the degree, and if the student provides written notice to the Provost of an objection to the recommendations of the Dean within 10 days, the Provost will convene a University Hearing Board to review the recommendations.
- F. Mitigating and aggravating circumstances may be considered in determining the appropriate sanction for a violation of this policy.

Guidelines for Review

- A. A student may seek to have a Dean's or Director's decision reviewed by the University Hearing Board only if the final decision imposes a sanction of suspension or expulsion from the university, revocation of admission or revocation of a degree.
- B. The request for review must be in writing and must be filed with the Provost within 10 days of the date of the decision letter from the Dean.
- C. The University Hearing Board shall follow the procedures set forth in the ABOR Student Disciplinary Procedures, except that the Provost, or designee will take the role of the Vice President for Student Affairs and will establish the University Hearing Board to conduct the appeal, and the College may take the role of the Dean of Students in presenting the case on behalf of the College/Initiator. The Provost may make other alternations to the procedures, with notice to the individuals involved.
- D. The University Hearing Board will make a recommendation to the Provost.
- E. The decision of the Provost is final.

Procedures Following Final Decision

If any student work affected by the finding of academic dishonesty has been placed in the library or forwarded to a third party in partial fulfillment of degree requirements that work may be removed from the library or withdrawn from the third party. If a degree has been awarded, it may be revoked if requirements were not adequately fulfilled due to academic dishonesty.

Other University Policies

The University's Misconduct In Research Policy is independent of the Student Academic Integrity Policy and the Guidelines for Graduate Appeals. Individual conduct may, for example, violate both the Student Academic Integrity Policy and the Misconduct in Research Policy and be subject to review and sanctions under both policies.

Source URL: <https://provost.asu.edu/academicintegrity/policy/Sanctions>

Definitions

Academic Evaluation: Means any academic project, paper, performance, quiz, exam, comprehensive exam, candidacy exam, thesis, dissertation, clinical or internship experience or other evaluation assigned or offered for credit (including extra or optional credit), intended to fulfill an academic requirement, or considered by the university to provide academic or research experience (such as a paid research position).

College/School Board: Means each College, School or Program hearing or standards board appointed by the academic Dean, Director or administrative equivalent to review allegations of academic dishonesty.

Dean: Means the person holding the position of college Dean, Director, or the administrative equivalent, or that person's designee. (This does not include a "Program Director" or "School Director" if the academic unit reports to a college level dean or director.

Plagiarism: Means using another's words, ideas, materials or work without properly acknowledging and documenting the source. Students are responsible for knowing the rules governing the use of another's work or materials and for acknowledging and documenting the source appropriately.

Provost: Means the Provost or another person designated by the senior academic officer of the campus at which the alleged academic dishonesty occurred.

University: Means ASU Tempe, ASU Polytechnic, ASU West, ASU Downtown Phoenix, ASU Online, and all other locations used for instruction or academic activities.

University Board: Means the University Academic Integrity Hearing Board constituted by the Provost at the campus at which the alleged academic dishonesty occurred.

Advisor: Means an individual selected by the student to assist him/her during a hearing conducted by the University Academic Integrity Hearing Board. The advisor may be a faculty or staff member, student, or other representative of the student.

Day: Means normal university business day, not including Saturday, Sunday or any officially recognized university employee holiday or any day on which the university is closed.

Source URL: <https://provost.asu.edu/academicintegrity/policy/Definitions>

The Grade of "XE"

1. The "XE" grade denotes failure through academic dishonesty. The "XE" grade will be recorded on the student's official and unofficial transcript with the notation "failure due to academic dishonesty." The "XE" grade shall be treated in the same way as an "E" for the purposes of grade point average and determination of academic standing.
2. No student with an "XE" grade on his or her transcript shall be permitted to represent that University in any extracurricular activity or to run for or hold office in any recognized student organization.
3. Generally, the "XE" grade will remain on the transcript permanently if it was awarded for an act of academic dishonesty requiring significant premeditation. For other cases, after at least 12 months have elapsed since the "XE" grade was imposed, a student may file a written petition to the Dean or Director of the College or Program that imposed the "XE" to have the "XE" grade removed and permanently replaced with the grade of "E." The decision to remove the "XE" grade and replace it with an "E" is in the sole discretion and judgment of the Dean or Director or his or her designee.
4. The Dean or Director or designee may confer with other university officials and may require the student to attest that the student has not been involved in any other act of academic dishonesty or similar disciplinary offense at Arizona State University or another institution. If the student's representation is later discovered to be false, the "XE" grade may be reinstated.

Source URL: <https://provost.asu.edu/academicintegrity/policy/TheGradeOfXE>

Impact

Following the Academic Integrity Policy and Avoiding Violations

Academic integrity is a fundamental value because violations of it cause real harm to real people. Protecting the ASU community from this harm is everyone's responsibility.

- Students who suspect a policy violation are encouraged to discuss their concerns with their course instructor or academic advisor.
- Faculty, T.A.'s, and instructors are expected to address all violations of the ASU Academic Integrity Policy. Please become familiar with the university policy and the process for addressing violations of the policy within your college/school [1].

Harm to Student

- If students cheat in a course or another academic exercise, they are taking away from themselves the opportunity to learn.
- The faculty holds the highest standards of academic integrity. If a student is caught cheating, the sanction can be anything from a lowered grade on an assignment to expulsion from ASU.
- ASU has a grade of "XE" which can become part of a transcript and permanent academic records and explicitly means that the student failed a course because of academic dishonesty. Here's the Student Academic Integrity Policy's [2] explanation of the "XE":

The "XE" grade denotes failure through academic dishonesty. The "XE" grade will be recorded on the student's official and unofficial transcript with the notation "failure due to academic dishonesty." The "XE" grade shall be treated in the same way as an "E" for the purposes of grade point average and determination of academic standing.

No student with an "XE" grade on his or her transcript shall be permitted to represent the University in any extracurricular activity or to run for or hold office in any recognized student organization.

Generally, the "XE" grade will remain on the transcript permanently.

- ASU degrees could mean less. If ASU develops a reputation for academic dishonesty based on high levels of student cheating, students' future employers, colleagues and others could have less respect for their accomplishments at ASU.
- Cheating creates an unfair grading environment for others. Whether or not a course is graded on a curve, a student who cheats, turns in high-quality work and is not caught raises the expectations about work quality for all students.
- Cheating can directly affect innocent students. For example, if a student plagiarizes on a group project, all the students in the group may be sanctioned for an Academic Integrity Policy violation.

Harm to Future Employers, Clients or Patients

- Cheating can hurt the people students will work with in the future. Many students are preparing for careers where they will provide services to others—legal, journalistic, medical, research, etc. If these students fail to learn how to do this work because they cheat at ASU, they have cheated their future employers and clients of a knowledgeable professional.

Harm to ASU

- ASU is an intellectual community focused on teaching, research and the values of the New American University. The creation, transmission, sharing and applying of knowledge are central activities of the community. Cheating violates fundamental values of the university community.

Introduction

The office for Graduate Education admits students into programs leading to both professional and research-oriented advanced degrees and certificates beyond the bachelor's degree. The master's and doctoral degrees are awarded to students completing programs that culminate in research and creative endeavors. The PhD degree is the highest university award, conferred on candidates who have proven their ability as scholars and original researchers.

Academic Integrity

The highest standards of [academic integrity](#) and compliance with the university's [Student Code of Conduct](#) are expected of all graduate students in academic coursework and research activities. The failure of any graduate student to uphold these standards may result in serious consequences including suspension or expulsion from the university and/or other sanctions as specified in the academic integrity policies of individual colleges as well as the university.

Violations of academic integrity include, but are not limited to: cheating, fabrication of data, tampering, plagiarism, or aiding and/or facilitating such activities. At the graduate level, it is expected that students are familiar with these issues and that each student assumes personal responsibility in their work.

Graduate Student Responsibilities

Graduate students are responsible for familiarizing themselves with all university and graduate policies and procedures. Each student should also communicate directly with his/her academic unit to be clear on its expectations for degree completion.

Information is provided to students via [MyASU](#). Students should frequently check their MyASU account for the most up-to-date information regarding their status, holds, items to attend to and other important information.

It is very important that students check with their thesis/dissertation advisor well in advance of data collection to ensure compliance with university regulations regarding the collection of research data. Please see the section of this guide titled "Research Involving Human and Animal Subjects."

Application

Submission of an Application

For admission information and procedures, see students.asu.edu/graduate. Applications for all graduate degree programs, certificate programs, and/or non-degree must be submitted via the students.asu.edu/graduate/apply.

Prior to submitting an application to the office of Graduate Education, applicants should review information regarding the [degree program](#), and academic unit application requirements and deadlines. Students who have a Graduate Education approved *Request to Maintain Continuous Enrollment* on file with the office of Graduate Education prior to their semester of non-registration and are re-entering the same degree program for the semester immediately following the approved Request, are not required to submit a new application.

Application Deadlines

Application deadlines are set by the degree programs. Consult the program's website or the [Graduate Degree and Certificate Search](#) tool for specific application deadlines.

Graduate Admission Services may differ from those of the academic unit. To accommodate timely processing, international applicants for fall enrollment must submit application materials by the previous December. Not all academic units accept applications for both the fall and spring semesters; however, if the academic unit allows for spring applications, international applicants must submit materials for spring enrollment by the previous August.

*Please note that international students must apply to Sessions A or C only (Session B is not available to international students due to visa requirements).

Application Fee

Each application to an ASU graduate program must be accompanied by a non-refundable application fee, payable by credit card at the time of submission. The application fee covers Graduate Education administrative costs of processing all applications and is not refundable under any circumstance.

- ⤴ Domestic application fee: \$70;
- ⤴ International application fee \$90.

In addition to the normal application fee, a \$50 non-refundable late processing fee will be assessed for all applications submitted on or after the dates indicated previously.

Applicants receive an email acknowledgement once the application has been successfully submitted. The acknowledgement includes an ASURITE ID and activation code so that students may follow the progress of their application through MyASU. Applicants should review [MyASU](#) to monitor their application status, “To Do” items and “Holds”.

Application Requirements

Applicants must submit official transcripts from all post-secondary institutions previously attended to the office of Graduate Education (see students.asu.edu/graduate/standards). **Academic units may have admission requirements in addition to those of the Graduate Admission Services.** Many graduate programs require scores from a national admissions test such as the Graduate Record Examination (GRE), Graduate Management Admission Test (GMAT), or the Miller Analogies Test. Some programs require a portfolio, letters of recommendation, a statement of goals and/or a resume. Applicants should consult the academic unit regarding program admission requirements prior to submitting an online application.

All documents received by Graduate Admission Services in connection with an application become property of the ASU Graduate Education office and will not be returned.

Academic Credentials

Applicants who attended school in the United States must hold a bachelor’s degree or higher from a regionally accredited U.S. institution in order to be eligible for admission. Applicants are required to provide proof that a bachelor’s or graduate degree was awarded before completion of their first semester of graduate studies at ASU.

Applicants who attended school outside of the U.S. must hold a bachelor’s or graduate degree, or equivalent, from an institution that is officially recognized by that country. If original credentials are issued in a language other than English, applicants must provide the original language transcripts as well as an official and literal translation. Applicants are required to provide proof that a bachelor’s or graduate degree was awarded before completion of their first semester of graduate studies at ASU.

Photocopied documents certified by a notary public are not official. For more information regarding official academic credentials see students.asu.edu/graduate. For additional information regarding official international academic credentials see students.asu.edu/graduate/apply.

Applicants must have maintained a minimum grade point average of 3.0 (on a 4.0 scale) in the last 60 semester hours or 90 quarter hours of undergraduate coursework.

Applicants should contact the degree program for specific additional requirements. Degree programs will submit a recommendation to the Vice Provost for Graduate Education regarding their willingness to admit an applicant.

Because ASU receives applications from many highly qualified students, some applicants may be denied admission for reasons not related to their academic performance. Examples include, but are not limited to: program capacity, mentor availability, and/or program match.

Additional International Requirements

International Applicants

Please consult the Graduate Admission Services websites at students.asu.edu/graduate, and students.asu.edu/international/immigration for complete information.

Applicants who will hold an F-1 or J-1 visa must:

1. Meet the regulations of the U.S. Immigration and Customs Enforcement (ICE) agency.
2. Obtain insurance coverage against illness and accident before being permitted to register for classes. Insurance must be maintained throughout the student's enrollment at the university.
3. Submit proof of [English proficiency](#).
4. Submit additional materials as outlined on the Graduate Admission Services website at students.asu.edu/graduate/apply.
5. Verify that they have the financial resources to cover their expenses during graduate study at ASU. The *Financial Guarantee* form is available through the Graduate Education website at students.asu.edu/graduate. In addition to the *Financial Guarantee* form, if ASU is providing an assistantship, an official offer letter must be sent to the office for Graduate Education. Similarly, if a governmental entity is funding the student, an official letter from the government must be submitted to the office for Graduate Education in addition to the *Financial Guarantee* form.

The I-20 or the DS-2019 (documents needed to obtain a student visa) is issued only after the completed and properly verified **Financial Guarantee** form, proof of [English proficiency](#) and supporting documents have been received by the office of Graduate Admission Services. International students may enroll at ASU only if they have been admitted to a degree program, a certificate program, or the post-baccalaureate teacher education program. ***Immediately upon arrival on campus, students must report to an advisor in the International Student and Scholars Center (ISSC). Failure to report may result in loss of status or deportation.***

Applicants residing in the U.S. on a valid visa must provide proof of a current visa. Enlarge image and fax the copy to 480-965-5158.

English Language Requirement

Applicants from a country whose **native** language is not English (regardless of where they may now reside) must provide proof of English proficiency. The English language requirement cannot be waived. Acceptable proof is as follows:

- ✧ [TOEFL](#) score of at least 550 (PBT) or 80 (iBT). The TOEFL is administered by TOEFL/TSE Services. ASU's institutional code is 4007. ASU accepts only electronic copies of the TOEFL score report.
- ✧ [IELTS](#) overall band score of at least 6.5 with no band below 6.0. The IELTS is administered by the University of Cambridge. No institutional code is needed.
- ✧ [Pearson](#) Test of English (PTE) score of at least 60. The PTE is administered by Pearson.

Individual academic units may have higher requirements for English proficiency. Consult the academic unit's website. English proficiency is only valid for two years and must be taken within two years from the beginning of the semester for which the student applied.

Some applicants are exempt from the English proficiency requirement. The following exceptions must be met exactly to be considered for an exemption:

- ✧ Applicants who have earned a bachelor's degree or higher in residence from a regionally accredited college/university in the United States.
- ✧ Applicants who have completed at least 12 semester hours of graduate coursework with a cumulative GPA of 3.0 (on a 4.0 scale) or higher in residence at a regionally accredited college/university in the United States.
- ✧ Applicants who have completed at least 90 semester hours of undergraduate coursework with a cumulative GPA of 3.0 (on a 4.0 scale) or higher in residence at a regionally accredited college/university in the United States.
- ✧ Applicants who have completed the American English and Culture Program (AECF) Advanced Level II with grades of "B" or better along with the recommendation of the Director of AECF.

All international applicants who are from a country whose native language is not English and who wish to apply for teaching assistantships must pass an examination that certifies their skill in speaking English—either the Interview Test, or the Speaking Proficiency English Assessment Kit (SPEAK) test. Tests are administered at ASU; additional information may be found at global.asu.edu/aecp/ita.

Post-Baccalaureate Non-Degree Programs

Applicants who do not immediately intend to pursue a graduate degree may apply as a post-baccalaureate students.asu.edu/graduate/nondegree. The application process does not require the submission of academic credentials or test scores.

Non-degree applicants must have earned a bachelor's degree or higher from a U.S. regionally accredited institution or the equivalent of a U.S. bachelor's or graduate degree from an international institution that is officially recognized by that country.

There is no limit to the total cumulative credit hours a student can take as a non-degree student. However, to apply the credit hours toward an ASU master's or doctoral degree, students are limited to twelve credit hours taken within three years of admission prior to admission to the degree program.

Non-degree study may be restricted by certain academic units. Contact the degree program for restriction information.

Financial aid is not available to non-degree students.

Non-degree study is typically not available to international students on F-1 or J-1 visas. For exceptions, prior to applying, you must obtain written approval from your Designated School Official (DSO) granting permission for you to take classes.

After Applying

After an application has been successfully submitted, applicants receive an email acknowledgement that includes an ASURITE ID and activation code. Applicants should review [MyASU](#) to check on the application status, “To Do” items and “Holds”.

Admission

A minimum grade point average of 3.0 (on a 4.0 scale) in the last 60 semester hours or 90 quarter hours of undergraduate coursework is required to be considered for admission to an ASU graduate degree program.

Academic units submit recommendations regarding admission decisions to the office for Graduate Admission Services; only the Vice Provost for Graduate Education can make formal offers of admission.

Applicants monitor the status of their application through MyASU. If admitted, the formal letter of admission can be downloaded from MyASU. If denied admission, letters are sent via email to the address on record.

Admission Types

- ✧ Regular Admission: Applicant satisfies all requirements for admission and is academically acceptable to both the degree program and the office for Graduate Education.
- ✧ Provisional Admission: Applicant does not meet minimum academic standards with respect to grade point averages as required by Graduate Education and the academic unit, but has additional evidence to suggest the potential for success. This status provides the academic unit with an opportunity to better evaluate the student’s academic potential. Students have a maximum of one academic year to satisfy the provisional condition. **Graduate Admission Services will withdraw students from the degree program who have not met the provisions of their admission within the required timeframe.** When students have satisfied the provisional requirements, they should confirm with the academic unit that a change of status has been recommended. Students with Provisional Admission are not eligible to submit a *Plan of Study* until the conditions of admission have been satisfied.
- ✧ Regular Admission with Deficiencies: Applicant’s grades and test scores are at an acceptable level but applicant does not have the academic background expected by the degree program and the university. Required deficiency courses may not be applied toward the minimum hours required for the degree program. Monitoring deficiency completion is the responsibility of the academic unit.

Defer Admission

Students may, with the recommendation of the degree program, defer their initial semester and year of admission to the next semester for which the degree program is admitting students. No further deferrals are allowed.

International Student Admission

International students planning to attend ASU on an F-1 student visa or a J-1 exchange visitor visa must provide documentation required by the United States Citizenship and Immigration Services. Visa documents are only issued for international students enrolled in a degree program or the post baccalaureate teacher education program. There are strict regulations regarding when an I-20 or DS-2019 can be issued. Detailed information may be found at: students.asu.edu/international/immigration.

Registration and Enrollment

All students are required to have proof of measles immunizations on file with [Student Health](#) prior to registration.

Graduate students register through MyASU according to their enrollment appointment. Details regarding registration and course drop/add procedures are provided in the [Registration and Tuition Payment Guide](#).

Enrollment Verification Guidelines

The University's Registrar's Office will verify student enrollment each semester according to the general guidelines that follow.

Enrollment Verification Guidelines for Graduate Students

	Full Time*	Half Time	Less Than Half Time
Regular Semester			
Graduate	9 or more hours	5-8 hours	4 or fewer hours
Graduate Assistant**	6 or more hours	--	--
Six-Week Summer Sessions			
Graduate	3 or more hours	2 hours	1 hour
Graduate Assistant**	2 or more hours	1 hour	--
Eight-Week Summer Session			
Graduate	5 or more hours	3-4 hours	2 or fewer hours

*Audited courses do not count toward full-time enrollment

For enrollment verification purposes, "Graduate Assistant" is a generic term that includes Teaching Assistants, Research Assistants, Teaching Associates and Research Associates. **Academic units may have specific requirements regarding registration requirements for Graduate Assistants; students should consult with their degree program unit.

International F-1 and J-1 students are required to maintain full-time enrollment status. Any exception to full-time enrollment must be previously approved by the [International Student and Scholars Center \(ISSC\)](#).

Maximum Course Load

The office for Graduate Admission Services does not have a maximum credit hour enrollment policy. It is expected that academic units will set course loads for their students that facilitate academic success.

Continuous Enrollment

Once admitted to a graduate degree program or graduate certificate program, students must be registered for a minimum of one credit hour during all phases of their graduate education, including the term in which they graduate. This includes periods when students are engaged in research, conducting a doctoral prospectus, working on or defending theses or dissertations, taking comprehensive examinations, taking Graduate Foreign Language Examinations, or in any other way utilizing university resources, facilities or faculty time.

Registration for every fall semester and spring semester is required. Summer registration is required for students taking examinations, completing culminating experiences, conducting a doctoral prospectus, defending theses or dissertations, or graduating from the degree program.

To maintain continuous enrollment the credit hour(s) must:

- ✦ Appear on the student's *Plan of Study*, OR
- ✦ Be research (592, 792), thesis (599), dissertation (799), or continuing registration (595, 695, 795), OR
- ✦ Be a graduate-level course.

Grades of "W" and/or "X" are not considered valid registration for continuous enrollment purposes. "W" grades are received when students officially withdraw from a course after the drop/add period. "X" grades are received for audit courses. Additionally, students completing work for a course in which they received a grade of "I" must maintain continuous enrollment as defined previously. Graduate students have one year to complete work for an incomplete grade; if the work is not complete and the grade changed within one year, the "I" grade becomes permanent. Additional information regarding incomplete grades can be found at asu.edu/aad/manuals/ssm/ssm203-09.html.

Graduate Assistantships

All Graduate Teaching Assistants and Associates (TAs), and Graduate Research Assistants and Associates (RAs) must register for a minimum of six semester hours of appropriate credit during each academic term of their appointment. The six hours cannot include audit enrollment. **Academic units may have specific requirements regarding Graduate Assistants; students should consult with their degree program unit.**

TAs and RAs are treated as residents for tuition purposes. To be eligible for tuition remission, TAs and RAs must be employed a minimum of 10 hours per week (25 percent Full Time Equivalency {FTE}). TAs/RAs working 10-19 hours per week (25-49 percent FTE) receive a 50 percent remission of tuition for the semester or summer session of their employment. TAs/RAs working 20 hours per week (50 percent FTE) do not pay tuition during the semester or summer session of their employment. In addition, the university pays the individual health insurance premium for those TAs and RAs working 20 hours per week (50 percent FTE).

Due to federal regulations, international students on F-1 and J-1 visas are allowed to work a maximum of 20 hours per week while school is in session (fall and spring semesters). International students are allowed to work 40 hours per week during summer sessions. International students typically are not allowed to seek employment outside the university; students must consult with the International Student and Scholars Center (ISSC).

Detailed information and application procedures regarding Graduate Assistantships can be found at graduate.asu.edu/financing/tara.

Request to Maintain Continuous Enrollment

Graduate students planning to discontinue registration for a semester or more must submit a [*Request to Maintain Continuous Enrollment form*](#). This request must be submitted and approved before the anticipated semester of non-registration. Students may request to maintain continuous enrollment without course registration for a maximum of two semesters during their entire program.

Having an approved *Request to Maintain Continuous Enrollment* by Graduate Education will enable students to re-enter their program without re-applying to the university. Students who do not register for a fall or spring semester without an approved Request are considered withdrawn from the university under the assumption that they have decided to discontinue their program. Students removed for this reason may reapply for admission to resume their degree program; the application will be considered along with all other new applications to the degree program.

A student with a Graduate Education approved *Request to Maintain Continuous Enrollment* is not required to pay tuition and/or fees, but in turn is not permitted to place any demands on university faculty or use any university resources. These resources include university libraries, laboratories, recreation facilities or faculty time.

Voluntary Withdrawal from ASU

If a student wishes to withdraw from his/her graduate degree program and the university, they must complete the [Voluntary Withdrawal form](#). Students must separately complete the appropriate forms with the University Registrar to withdraw from their courses. International students should contact the [International Student and Scholars Center \(ISSC\)](#) before submitting a *Voluntary Withdrawal* form, as it most likely will affect their visa status.

Voluntary Withdrawal from a Graduate Degree Program

If a student wishes to transition from one graduate degree program to another graduate degree program, the student should complete the [Voluntary Withdrawal form](#). The student should not take this action until they have been admitted to the other graduate degree program.

Other Types of Withdrawal

There are appropriate circumstances when students may need to withdraw from the university (i.e. medical withdrawal, compassionate leave). The policies for such withdrawals are the same for both undergraduate and graduate students. Types of withdrawals and procedures can be found at: students.asu.edu/drop-add. For course withdrawals contact the University Registrar's Office.

Involuntary Withdrawal by the office for Graduate Education

Any student who does not comply with the office for Graduate Education policies may be withdrawn from their graduate program after review by the Vice Provost for Graduate Education.

In addition, an academic unit may recommend withdrawal of a student from a graduate program for lack of compliance with published departmental policies or lack of satisfactory academic progress. All such recommendations must be submitted to the office for Graduate Education with appropriate documentation (e.g., nature of issue, communications with student). Only the Vice Provost for Graduate Education may withdraw a student from a graduate program due to lack of compliance with satisfactory academic progress policies.

A student who has been withdrawn from a graduate program due to lack of compliance with published departmental or Graduate Education policies, or lack of satisfactory academic progress is eligible to apply for admission to the same program only after one year has passed from the term of the withdrawal.

Grade Point Averages

Graduate students must maintain a minimum 3.00 grade point average (GPA) to maintain satisfactory academic progress and to graduate. The minimum 3.00 GPA must be maintained on **both** the *Plan of Study* (iPOS) GPA and the Graduate GPA.

- ⤴ The iPOS GPA is calculated on all courses that appear on the student's approved iPOS.
- ⤴ The Graduate GPA is calculated on all courses numbered 500 or higher that appear on the transcript, with the exception of:
 - Courses counted toward an undergraduate degree at ASU (unless shared with a master's degree in an approved bachelor's/master's degree program);
 - Courses identified as deficiencies in the original letter of admission.

Transfer credits and some courses taken in the Sandra Day O'Connor College of Law are not calculated on the iPOS GPA or the Graduate GPA.

Courses with grades of "D" (1.00) and "E" (0.00) cannot appear on the iPOS but will be included when calculating the Graduate GPA. Courses with an "I" grade cannot appear on the iPOS.

Satisfactory Academic Progress

All graduate students are expected to make systematic progress toward completion of their degree. This progress includes satisfying the conditions listed below, and achieving the benchmarks and requirements set by the individual degree programs. Each degree program should have in place policies for satisfactory academic progress. Students are responsible for verifying additional satisfactory progress policies as required by their degree program. If a student fails to satisfy the requirements of their degree program and/or the benchmarks outlined below, the student may be dismissed from their program based on the academic unit's recommendation to the office for Graduate Education. The Vice Provost for Graduate Education makes the final determination.

1. Maintain a minimum of 3.00 GPA on both the iPOS and Graduate GPAs. If either GPA falls below 3.00, the student must develop, with their advisor, an academic performance improvement plan that includes the conditions and timeframes for making satisfactory academic progress in their degree program.
 - a. The iPOS GPA is calculated from all courses that appear on the student's approved iPOS.
 - b. The Graduate GPA is calculated from all courses numbered 500 or higher that appear on the transcript, with the exception of courses counted toward an undergraduate degree at ASU (unless shared with a master's degree in an approved bachelor's/master's degree program); and courses identified as deficiencies in the original letter of admission. The student is considered to be on academic probation until the conditions specified in the academic performance improvement plan are met and both GPAs are above 3.00.
2. Satisfy all requirements of the graduate degree program.
3. Satisfy the maximum time limit for graduation from the student's graduate degree program (six years for master's, ten years for doctoral).
4. Doctoral students must comply with the five year time limit for graduation after passing the comprehensive examinations.
5. Successfully pass comprehensive exams, qualifying exams, foreign language exams, and the oral defense of the proposal/prospectus for the thesis or dissertation.

6. Successfully complete the culminating experience and, if required, the oral defense of the culminating experience.
7. Graduate students must stay continuously enrolled in their degree program. Failing to do so without a Graduate Education approved *Request to Maintain Continuous Enrollment* is considered to be lack of academic progress and may lead to automatic dismissal of the student from the degree program. Persistent “W” and “I” grades during multiple semesters on a plan of study or transcript may reflect lack of academic progress.

Graduate Degree Requirements

Determination of Academic Requirements

Students graduate under the degree requirements and policies in effect at the semester and year of admission to a graduate degree program. Students that fail to maintain continuous enrollment and are re-admitted to the degree program, graduate under the degree requirements and policies in effect at the time of the new admission date.

A minimum of 30 credit hours of graduate-level coursework including a culminating experience is required for a master’s degree, although individual programs may have higher requirements. The culminating experience may be a comprehensive examination, a capstone course, an applied project, a portfolio, a thesis or equivalent.

Students that have a capstone course requirement must receive a grade of “B” or better. If a student fails to achieve a capstone final grade of “B” or better, they must retake the course.

A minimum of 84 credit hours of graduate-level coursework and a written comprehensive examination are required for a doctoral degree, although individual programs may have higher requirements. Additionally, the Foreign Language Examination, oral comprehensive examination and/or dissertation or equivalent may be required. A written comprehensive examination and prospectus (research proposal) is required for all programs requiring a dissertation.

The Plan of Study (iPOS)

The Plan of Study (iPOS) functions as a contract between the student, the academic unit, and the office for Graduate Education. The iPOS contains certain degree requirements such as coursework, a committee and a culminating experience which must be included before it can be approved. The academic unit’s graduate support staff should be the primary contact regarding iPOS and degree requirements. The iPOS must be approved by a student’s committee, the head of the academic unit, and the Vice Provost for Graduate Education.

To facilitate degree completion and shorten time to degree, graduate students with regular status must submit their iPOS by the time they have enrolled for 50 percent of the minimum credit hours required for their degree program.

Coursework

Graduate-level courses are those numbered 500 or higher. All core courses required by a graduate program must be at least 500-level. A maximum of 6 credit hours of 400-level coursework can be included on an iPOS. 400-level courses taken prior to admission and 400-level courses graded as “Pass/Fail” are not acceptable. Courses with grades of “D”, “E”, or “W” and audited courses (graded as “X”) cannot be included on an iPOS. **Courses applied to a previously awarded degree cannot be included on an iPOS.**

Any course with a grade of Incomplete (“I”) must be completed within one calendar year of the end of the scheduled course. If a regular grade is not assigned within the calendar year, the “I” becomes permanent. The student will have to re-register for the course to receive credit. Additional information regarding incomplete grades may be found at asu.edu/aad/manuals/ssm/ssm203-09.html.

Graduate students may register to audit one or more courses with the approval of the supervisory committee chair and the consent of the instructor involved. An audited course does not count toward the minimum number of credits required for international students with visa restrictions, students employed as TA/RAs, or students receiving financial assistance. Courses taken for audit do not satisfy the Graduate Education continuous enrollment policy. Undergraduate courses not included on the iPOS do not satisfy the Graduate Education continuous enrollment policy.

Master’s degree students whose culminating experience is a thesis must include 6 (and only 6) credit hours of 599 Thesis credits on the iPOS. Doctoral students whose culminating experience is a dissertation must include 12 (and only 12) credit hours of 799 Dissertation credits on the iPOS. Thesis and Dissertation credit hours may only receive grades of “Z” (research is in progress), or “Y” (research is satisfactorily complete). Doctoral students may apply 30 credit hours of appropriate coursework from a previously awarded master’s degree toward their doctoral plan of study.

Petitions

A formal request for an exception to the office for Graduate Education policy requires a petition to be completed by the student, and approved by the committee chair and the head of the academic unit. The office for Graduate Education will review the petition and make a final determination.

ASU Pre-Admission Credit

Pre-Admission Credits

Credit hours completed at ASU or from another regionally accredited US institution or international institution officially recognized by that country, before the semester and year of admission to an ASU graduate degree program, are considered pre-admission credits. With the approval of the degree program and the Graduate Education office, students may include a maximum of 12 graduate-level credit hours with grades of “B” or better that were not used towards a previous degree. Preadmission credits must have been taken within three years of admission to the ASU degree program to be accepted.

Accelerated Bachelor’s/Master’s programs may use a maximum of 12 pre-admission credits which may include up to a maximum of 12 hours shared between the Bachelor’s and Master’s program. Students in accelerated programs should contact their advisor to ensure proper sharing of credit hours.

Official transcripts must be sent to Graduate Admission Services from the records office of the institution where the credits were earned.

Certain types of graduate credits cannot be transferred to ASU, including credits awarded:

- ✧ By post-secondary institutions that lack candidate status or accreditation by a regional accrediting association, or an equivalent international institution.
- ✧ For life experience.
- ✧ For courses taken at non-collegiate institutions (e.g., government agencies, corporations, and industrial firms).

- ✧ For courses, workshops, and seminars offered by other postsecondary institutions as part of continuing education programs.
- ✧ For extension courses.

Academic credits earned at institutions other than ASU that base their credit calculation on a different scale from ASU's are subject to conversion before inclusion on a *Plan of Study*. In all cases, the inclusion of transfer courses on a *Plan of Study* is subject to approval by the degree program and the Vice Provost for Graduate Education.

Graduate Credits Earned by ASU Undergraduate Students

Pre-admission credit hours earned in graduate-level courses (per Graduate Education policy) by ASU undergraduate students may count toward a graduate degree at ASU provided the credit hours have not been used toward a previously awarded degree. Prior to awarding a bachelor's degree, ASU undergraduate students should contact their undergraduate advisor to set aside graduate courses for use toward a future graduate degree so that these courses do not count toward their undergraduate degree.

ASU students enrolled in an approved Bachelor's/Master's degree program (commonly referred to as 4+1), may share ASU credit hours. Students must contact their ASU undergraduate advisor and graduate support staff to ensure proper sharing of credit hours. Students must successfully complete the undergraduate degree and be admitted to the respective graduate program prior to completing 12 credits of graduate coursework.

An undergraduate degree and a graduate degree may not be awarded during the same term of enrollment. Students must apply, be admitted and registered as a graduate student to earn a master's or doctoral degree at ASU.

Sandra Day O'Connor College of Law Credit

The office for Graduate Education accepts a numerical grade of 70 or above for courses taken in the ASU Sandra Day O'Connor College of Law as part of an approved *Plan of Study*. These grades are not used in the two GPAs calculated for graduation unless needed, as determined by the office for Graduate Education. The Sandra Day O'Connor College of Law also utilizes a letter grade system for coursework; letter grades are submitted as part of an approved *Plan of Study* and are calculated in the GPAs.

Repeating ASU Courses

Graduate students (degree or non-degree) may retake any course at ASU; however, all grades are part of the student's permanent academic record and remain on the student transcript as well as in all GPA calculations.

Graduate Foreign Language Examination (FLE)

A graduate degree program may require at least a reading level proficiency of a foreign language relevant to the student's area of study. Students who are required to demonstrate proficiency in a foreign language must pass the [Graduate Foreign Language Examination](#) specific to their particular graduate program. Students must be enrolled for a minimum of one credit hour during the term in which they take the examination.

Students must successfully complete the Foreign Language Examination before taking any required comprehensive examinations or scheduling the final oral defense of the thesis or dissertation. A student may petition the office for Graduate Education for a re-examination but must pass the examination in no more than three attempts.

Master's Degree Plan of Study (iPOS)

Students must submit an iPOS before completing 50 percent of the credit hours required for their degree program. A student is not eligible to schedule a comprehensive examination or defense without an approved iPOS.

Master's Degree Minimum Credit Hours

A minimum of 30 semester hours of graduate work is required for the master's degree at ASU. If a thesis is required, 6 (and only 6) of the minimum required credit hours on an iPOS must be 599 Thesis credits. *Plans of Study* submitted for master's degrees that do not have a thesis requirement cannot include 599 Thesis credits. If an applied project is required, the Applied Project course (XXX 593) must be included on the *Plan of Study* and requires a grade of "B" or better. A "Y" grade is also permitted.

Master's Degree Maximum Time Limit

All work toward a master's degree must be completed within six consecutive years. The six years begins with the semester and year of admission to the program. Graduate courses taken prior to admission that are included on the *Plan of Study* must have been completed within three years of the semester and year of admission to the program.

Master's Degree Supervisory Committee

A master's supervisory committee must be appointed before the student may apply for the comprehensive examination or before the student can register for 599 Thesis credits (if applicable). The committee is appointed by the Vice Provost for Graduate Education upon the recommendation of the head of the academic unit. For programs requiring a thesis or written examination, the supervisory committee is comprised of a minimum of three members, including a chair or co-chairs.

Tenured/tenure-track faculty may serve as members of a master's graduate supervisory committee, chair or co-chair. The chair of the committee is typically from the student's degree program and should be carefully selected by the student to guide their work. ASU academic professionals or non-tenure accruing faculty with appropriate academic credentials may serve as a member or co-chair on master's committees; they may not serve as chair of a master's supervisory committee.

Master's Thesis/Thesis Defense

To satisfy the research requirement for master's degrees, a student is expected to present a thesis that is defended in an oral examination. Degree programs may have requirements in addition to the thesis (e.g. comprehensive examinations). Students should check with their degree program to confirm requirements. An oral defense of the thesis is required and must be completed to the satisfaction of the supervisory committee. At least 50% of the committee must be physically present at the oral defense. Students must be physically present at the oral defense of their thesis. Students must be registered for:

- ✦ At least one semester hour of credit that appears on the *Plan of Study*; OR
- ✦ At least one semester hour of appropriate graduate-level credit, for example: Research (592), Thesis (599), or Continuing Registration (595 or 695); OR
- ✦ At least one hour of a graduate-level course.

Revisions to the thesis are typical and must be completed in a timely manner. If the student is unable to complete revisions to the thesis and submit to UMI/ProQuest by the deadline for the semester in which the

defense is held, the student must complete the revisions, remain continuously enrolled, and present the final document to UMI/ProQuest within one year of the defense. Failure to do so will require the re-submission of the document for format review and may result in re-defense of the thesis to ensure currency of the research.

Other Master's Culminating Experiences

A comprehensive examination, capstone course, applied project or portfolio is required as a culminating experience in master's programs that do not have a thesis requirement. The office for Graduate Education requires a written component to the comprehensive examination; academic units may also require an oral component. Students must have an approved iPOS prior to scheduling their comprehensive examination and/or registering for their applied project or capstone course. An applied project requires registration in the Applied Projects course (XXX 593) and requires a grade of "B" or better, a grade of "Y" is also permitted. A capstone course requires a grade of "B" or better.

Students are required to register for at least one semester hour of credit that appears on the iPOS or one hour of appropriate graduate-level credit during the fall, spring or summer session in which they complete their culminating experience.

Master's Comprehensive Examination

Students must be in good academic standing regarding GPA requirements (see previous section titled "Satisfactory Academic Progress") prior to taking master's comprehensive examinations. Foreign language requirements, if applicable, must be fulfilled before taking the comprehensive examinations.

Students are required to register for at least one semester hour of credit that appears on the iPOS or one hour of appropriate graduate-level credit during the fall, spring or summer session in which they take their comprehensive examinations.

The master's comprehensive examination must have a written component; however, individual master's degree programs may require an additional oral component of the comprehensive exam for all of their students based on the academic progress policy of the program.

The student must schedule the comprehensive examination with their academic unit. All comprehensive examination results must be reported to the office for Graduate Education immediately upon completion. Academic units are not required to allow students a second opportunity; upon failing comprehensive examinations, academic units may submit a recommendation to the office for Graduate Education requesting dismissal of the student from the degree program.

Failing the comprehensive examination(s) is considered final unless the supervisory committee and the head of the academic unit recommend and the Vice Provost for Graduate Education approve a re-examination. Only one re-examination is permitted. A petition with substantial justification for re-examination, endorsed by the members of the student's supervisory committee and the head of the academic unit, must be approved by the Vice Provost for Graduate Education before a student can take the examination a second time.

Re-examination may be administered no sooner than three months and no later than one year from the date of the original examination. The office for Graduate Education may withdraw a student from the degree program if the student's petition for re-examination is not approved, or if the student fails to successfully pass the retake of the comprehensive examination(s).

Students choosing to appeal the results of their comprehensive examinations must follow the grade appeals process outlined by their academic unit.

Doctorate Degree

Doctoral Degree Plan of Study (iPOS)

Students must submit an iPOS before completing 50 percent of the credit hours required for their degree program. A student is not eligible to apply for the Foreign Language Examination (if applicable), comprehensive examinations, dissertation proposal/prospectus or dissertation defense (if applicable) without an approved iPOS.

Doctoral Degree Minimum Credit Hours

A minimum of 84 semester hours of graduate work is required for the doctorate degree at ASU. If a dissertation is required, 12 (and only 12) of the minimum required credit hours on an iPOS must be 799 Dissertation credits. *Plans of Study* submitted for doctorate degrees that do not have a dissertation requirement cannot include 799 Dissertation credits. Students may apply 30 credit hours from a previously awarded master's degree toward their doctoral *Plan of Study* with approval of the degree program and the Vice Provost for Graduate Education.

Doctoral Degree Maximum Time Limit

Doctoral students must complete all program requirements within a ten-year period. The ten-year period begins with the semester and year of admission to the doctoral program. Graduate courses taken prior to admission that are included on the iPOS must have been completed within three years of the semester and year of admission to the program (previously awarded master's degrees used on the *Plan of Study* are exempt).

Additionally, the student must defend the dissertation within five years after passing the comprehensive examinations. Therefore, the maximum time limit is the shortest of the following:

- ✦ Time period since initial enrollment (10 year time limit); OR
- ✦ Time after passing the comprehensive exams (5 year time limit).

Any exception must be approved by the supervisory committee, the head of the academic unit and the Vice Provost for Graduate Education. If a time limit exception is approved, the student may need to re-take the comprehensive examinations. The office for Graduate Education may withdraw students who are unable to complete all degree requirements and graduate within the allowed maximum time limits.

Doctoral Degree Supervisory Committee

Upon the recommendation of the head of the academic unit, the Vice Provost for Graduate Education appoints the student's dissertation committee. The committee must be comprised of at least three members, including either a chair or co-chairs. Doctoral programs may have additional requirements for committee composition. This committee serves as the intellectual guide for the student and must approve the research/scholarly focus and substance of the dissertation. The members of the dissertation committee have the necessary knowledge and skills to advise the student during the formulation of the research topic and during the completion of the research and the dissertation.

Dissertation chairs and co-chairs must be approved by the Vice Provost for Graduate Education and each degree program maintains the list of faculty approved by the office for Graduate Education. Most resident faculty at ASU may serve on dissertation committees with the proviso that they have appropriate expertise in the discipline.

All PhD programs have a [Graduate Faculty](#). The Graduate Faculty in a PhD program may also include highly qualified individuals from outside the university who have been approved to serve on committees. Each PhD program maintains the list of faculty approved by the office for Graduate Education to chair or co-chair PhD dissertations. Additional information regarding ASU Graduate Faculty can be found at graduate.asu.edu/graduate_faculty_initiative.

Doctoral students (including PhD, DMA, DBH, DNP and EdD) are urged to communicate with their academic unit to confirm eligibility of faculty to chair doctorate committees.

The final committee membership must be appointed by the Vice Provost for Graduate Education before the student may apply for comprehensive examinations, defend the dissertation prospectus, and register for 799 Dissertation course credits (if applicable).

Doctoral Comprehensive Examination

Students must be in good academic standing regarding GPA requirements (see previous section titled “Satisfactory Academic Progress”) prior to taking doctoral comprehensive examinations.

When students have essentially completed the coursework on an approved iPOS, they must request permission to take the doctoral comprehensive examination. The doctoral comprehensive examination must have a written component; however individual doctoral programs may require an additional subsequent oral component of the comprehensive exam for all of their students based on the academic progress policy of the program. These examination(s) are designed to assess a student's mastery of the field of specialization. Doctoral comprehensive examination(s) are administered by a committee consisting of a minimum of three members.

Foreign language requirements, if applicable, must be satisfied before taking the comprehensive examination(s).

During the fall, spring or summer session that the student takes the comprehensive examination(s), they are required to register for:

- ✧ At least one semester hour of credit that appears on the *Plan of Study*; OR
- ✧ At least one semester hour of appropriate graduate-level credit, for example: Research (792), Dissertation (799), or Continuing Registration (795); OR
- ✧ At least one hour of a graduate-level course.

All comprehensive examination results must be reported to the office for Graduate Education immediately upon completion. Academic units are not required to allow students a second opportunity; upon failing comprehensive examinations, academic units may submit a recommendation to the office for Graduate Education requesting dismissal of the student from the degree program.

Failing the comprehensive examination(s) is considered final unless the supervisory committee and the head of the academic unit recommend and the Vice Provost for Graduate Education approve a re-examination. Only one re-examination is permitted. A petition with substantial justification for re-examination, endorsed by the members of the student's supervisory committee and the head of the academic unit, must be approved by the Vice Provost for Graduate Education before a student can take the examination a second time. Re-examination may be administered no sooner than three months and no later than one year from the date of the original examination. Graduate Education may withdraw a student from the degree program if the student's petition for re-examination is not approved, or if the student fails to successfully pass the retake of the comprehensive examination(s).

Students choosing to appeal the results of their comprehensive examinations must follow the grade appeals process outlined by their academic unit.

Doctoral Prospectus Defense

All doctoral degree programs that require students to complete a dissertation must require students to complete a dissertation proposal/prospectus and submit the results to the office for Graduate Education. Failure of the doctoral dissertation prospectus oral defense is considered final unless the supervisory committee and the head of the academic unit recommend and the Vice Provost for Graduate Education approve a second proposal defense. If a petition is approved, the student must submit the new prospectus by the end of six months (the six months begins from the date that the first doctoral dissertation proposal defense was held). If the academic unit does not grant the student permission to retake the proposal defense, or if the student fails to pass the retake of the proposal defense, Graduate Education may withdraw the student from the degree program.

Students are required to register for at least one semester hour of credit that appears on the iPOS or one hour of appropriate graduate-level credit during the fall, spring or summer session in which they conduct their doctoral prospectus.

Doctoral Candidacy

Doctoral students (with specific degree program exceptions approved by the Vice Provost for Graduate Education) achieve candidacy status upon the successful completion of the comprehensive examination(s), the Foreign Language Examination (if applicable), and successfully defending the dissertation prospectus (if applicable). Doctoral students who have been advanced to candidacy are required to maintain continuous enrollment until all degree requirements have been completed and the student graduated.

Doctoral Dissertation/Dissertation Defense

The written doctoral dissertation is based on an original and substantial scholarly work that constitutes a significant contribution to knowledge in the student's discipline. The dissertation research must be conducted during the time of the student's doctoral studies at ASU, under guidance of ASU Graduate Faculty, and in accordance with the office for Graduate Education policies and procedures. The composition of the dissertation is defined by the degree program with the approval of the Vice Provost for Graduate Education.

The dissertation research experience culminates in a final oral exam, commonly known as the "dissertation defense." A final public dissertation defense is required. At least 50% of the committee must be physically present at the oral defense. Students must be physically present at the oral defense of their dissertation. During the semester that the student defends the dissertation they are required to register for:

- ✧ At least one semester hour of credit that appears on the *Plan of Study*; OR
- ✧ At least one semester hour of appropriate graduate-level credit, for example: Research (792), Dissertation (799), or Continuing Registration (795); OR
- ✧ At least one hour of a graduate-level course.

Revisions to the dissertation are typical and must be completed in a timely manner. If the student is unable to complete revisions to the thesis and submit to UMI/ProQuest by the deadline for the semester in which the defense is held, the student must complete the revisions, remain continuously enrolled, and present the final document to UMI/ProQuest within one year of the defense. Failure to do so will require the re-submission of the document for format review and may result in re-defense of the dissertation to ensure currency of the research.

Graduate Certificates

The graduate certificate is a programmatic series of linked courses. Graduate certificates facilitate professional growth for people who already hold the baccalaureate degree. For more information on current graduate certificates see the [Graduate Degree and Certificate Search](#) page.

Certificate Admission

All applications for graduate certificate programs must be submitted through asu.edu/gradapp.

Certificate Requirements

A minimum of 15 semester hours of graduate work is required to complete a graduate certificate. No more than one-fifth (20 percent) of the minimum required credit hours for a graduate certificate may be transferred from another university. All transfer work must meet the office for Graduate Education transfer policies. All coursework used to complete an ASU graduate certificate must be completed within a six-year time limit. Courses at a 400-level may be allowed with prior approval from the appropriate certificate program; however, a minimum of two-thirds of the courses taken to complete the certificate must be at the 500-level or above. No more than 40% of coursework towards the requirements of a graduate certificate can be completed prior to admission to the certificate program.

Awarding of a Graduate Certificate

A student will be eligible for the official posting of the graduate certificate to their transcripts when all applicable coursework has been successfully completed and the office for Graduate Education scholarship requirements have been met. Students must submit an iPOS for the graduate certificate program, and apply for graduation.

Concurrent Master's Degrees

A student may pursue concurrent master's degrees with prior written approval from the head of the academic unit for each degree program and the office for Graduate Education. A separate online application is required for each degree program. A maximum of 20 percent of the minimum total semester hours for the completion of both degrees may be common hours shared between the *Plans of Study*. The total number of hours common to both degree programs may vary from this maximum value only when the office for Graduate Education has formally approved coordinated degree programs.

Coursework common to both programs must constitute a well-planned and meaningful part of each of the programs and may only include coursework completed after admission to both degree programs. In all cases, the guidelines below must be followed:

1. The student must be enrolled in both programs each fall and spring semester to maintain continuous enrollment or must submit a *Request to Maintain Continuous Enrollment* form. A Graduate Education approved Request applies to both degree programs; students may not be registered for coursework in either program.
2. Graduate credit transferred from another institution may be applied toward only one degree program.
3. Culminating experiences (e.g. capstone courses, theses, applied projects) and comprehensive examinations cannot be shared between concurrent degree programs.
4. The six year maximum time limit for completing degree requirements and graduation apply to each concurrent degree individually.

Concurrent Master's/Doctoral Degrees

A student may pursue concurrent master's/doctoral degrees provided the degree programs are in different areas with prior written approval from the head of the academic unit for each degree program and the office for Graduate Education. A separate online application is required for each degree program. A maximum of 9 credit hours may be common hours shared between the *Plans of Study*.

Coursework common to both programs must constitute a well-planned and meaningful part of each of the programs and may only include coursework completed after admission to both degree programs. In all cases, the guidelines below must be followed:

1. The student must be enrolled in both programs each fall and spring semester to maintain continuous enrollment or must submit a *Request to Maintain Continuous Enrollment* form. A Graduate Education approved Request applies to both degree programs; students may not be registered for coursework in either program.
2. Graduate credit transferred from another institution may be applied toward only one degree program.
3. Culminating experiences (e.g. capstone courses, theses, dissertations, applied projects) and comprehensive examinations cannot be shared between concurrent degree programs.
4. The maximum time limits for completing degree requirements and graduation apply to each concurrent degree individually (6 years for Master's; 10 years or 5 years after comprehensive exams for doctoral).

Concurrent Doctoral Degrees

A student may pursue concurrent doctoral degrees provided the degree programs are in different academic areas with prior written approval from the head of the academic unit for each degree program and the office for Graduate Education. A maximum of 12 credit hours may be common hours shared between the *Plans of Study*. In all cases, the guidelines below must be followed:

1. The student must be enrolled in both programs each fall and spring semester to maintain continuous enrollment or must submit a *Request to Maintain Continuous Enrollment* form. A Graduate Education approved Request applies to both degree programs; students may not be registered for coursework in either program.
2. The 30 hours allowed from a previously awarded master's degree may only be applied to one of the doctoral programs and graduate credit transferred from another institution may be applied toward only one degree program.
3. The comprehensive examination, the dissertation prospectus, and the dissertation cannot be shared between concurrent degree programs.
4. The student must meet the 10 year maximum time limit and 5 year limit after comprehensive exams for each degree.

Master's in Passing (MIP)

In those cases where there is an approved Master's in Passing (MIP) program in place for a doctoral degree, those doctoral students who complete the requirements of the approved MIP may be awarded the related master's degree. Students should check with their doctoral program to see if there is an approved Master's in Passing for their degree.

Students who include 30 hours from a previously awarded master's degree on their doctoral *Plan of Study* are not eligible for a Master's in Passing. All coursework included in an MIP *Plan of Study* must have been completed after the semester and year of admission to the doctoral program.

Bachelor's/Master's Accelerated Programs

In a limited number of pre-approved programs, ASU will allow for the simultaneous pursuit of an undergraduate and graduate degree. In such cases, the program must be approved by the Vice Provost for Graduate Education. The students must successfully complete the undergraduate degree and be admitted to the respective graduate program prior to completing 12 credits of graduate coursework. Students must contact their ASU undergraduate advisor and graduate support staff to ensure proper sharing of credit hours.

Students may not share any credit hours taken as an undergraduate student unless they have been formally admitted to an approved accelerated program.

Research Considerations

The master's thesis and doctoral dissertation (or equivalent) must be based on original and independent research/creative activity conducted by the student, under the guidance of the graduate supervisory committee. The thesis is an introduction to scholarly writing and is intended to create an understanding of theory and methods applicable to one's field. The dissertation should demonstrate the candidate's mastery of research and scholarly methodologies, theory, and tools of the discipline. Both the thesis and dissertation should demonstrate the candidate's ability to address a major intellectual problem and to propose meaningful questions and hypotheses, as well as utilize the methods with which to study the proposed research question(s) and related hypotheses, and draw conclusions.

Supervisory Committees

Students are guided by faculty mentors who advise them through their degree program. Students should identify their advisors early in their graduate career and look to them for guidance in their graduate work. Once the student has selected a thesis/dissertation committee, the head of the academic unit recommends the supervisory committee to the Vice Provost for Graduate Education who reviews and appoints the Committee. Graduate supervisory committees must consist of a minimum of three individuals, including the chair or co-chairs.

Faculty Emeriti who meet Graduate Education criteria may serve as members or co-chairs on graduate supervisory committees. They may serve as chairs with the recommendation of the academic unit and approval of the Vice Provost for Graduate Education on a case by case basis. Qualified individuals outside the university, upon the recommendation of the head of the academic unit and approval of the office for Graduate Education, may serve as members of thesis and dissertation committees. All such requests must be submitted to the Vice Provost for Graduate Education for approval.

Research Involving Human and Animal Subjects

Theses or dissertations that make use of research involving human or animal subjects must include a statement indicating that the research has been approved by the appropriate university body.

Research involving human subjects conducted under the auspices of Arizona State University is reviewed by the University Human Subjects Institutional Review Board (IRB) in compliance with federal regulations. Documents containing any data collection from human subjects require that applications be submitted to the ASU Office of Research Integrity and Assurance for approval **before** data collection or recruitment of subjects is initiated at researchintegrity.asu.edu/humans.

Research involving the use of animals conducted under the auspices of Arizona State University is reviewed by the Institutional Animal Care and Use Committee (IACUC) in compliance with federal regulations. Documents

containing any data collection from animal research require that applications be submitted to ASU Office of Research Integrity and Assurance for approval at researchintegrity.asu.edu/animals.

It is very important that students check with their thesis/dissertation advisor well in advance of data collection to ensure compliance with university regulations regarding the collection of research data.

Thesis/Dissertation Defenses

Thesis and dissertation defenses are open to all members of the university community and the general public. The oral defense engages the supervisory committee and the candidate in a critical and analytical discussion of the research and findings of the study, as well as a review of the contribution of the research topic to advancing knowledge in that discipline. The presentation of a thesis or dissertation defense in an open forum fosters a broader awareness of the state of graduate research at ASU, promotes a wider scholarly dialogue among disciplines, and recognizes publicly the scholarly contributions of master's or doctoral candidates.

Defenses must be scheduled through MyASU at least 10 working days in advance of the defense date. It is expected that oral defenses will be held on an ASU campus during regular business hours in order to facilitate student, faculty, and public accessibility. When there are sound educational reasons for holding a defense under different circumstances, contact the office for Graduate Education for approval **before** scheduling the defense.

Students must be physically present at the oral defense of their thesis, dissertation or equivalent document. If, due to unforeseen circumstances, they cannot be physically present, then the oral defense must be rescheduled to another date when they can be physically present.

It is desirable that all members of a student's supervisory committee be physically present with the student at the final oral defense of a thesis or dissertation. However, there are situations (e.g. faculty travel, faculty emergencies and/or faculty leave) that may necessitate holding a defense with one or more committee member(s) absent. In all cases at least 50% of the committee must be physically present. If a committee member cannot physically attend, they can tele/video conference, or they can appoint a substitute to attend in their place. The substitute should be a regular faculty member with the academic unit. The supervisory committee chair must be physically present; if there are two co-chairs, one of them may tele/video conference if needed. In either case, please email grad-gps@asu.edu with the student's ID number and the name of the tele/videoconferencing member or with the names of the member who will be absent and the faculty member who will attend as a substitute. This information must be submitted **before** the defense.

Degree Completion

The final culminating experiences for graduate degrees vary by program. In many master's degree programs a thesis is required, in other programs the culminating experience is an applied or professional project. In all PhD programs, as well as in most professional doctoral programs, dissertations are required. Theses and dissertations are officially documented and archived. Theses and dissertations are submitted to UMI/ProQuest, which makes their content available to the public. Information on the dissertation later appears in *Dissertation Abstracts International*. For this reason, all theses and dissertations must undergo Graduate Education format review. The Vice Provost for Graduate Education reviews the content to affirm the quality and originality of the scholarly work.

Scheduling a Defense and Format Review

At least 10 working days prior to the planned defense of a thesis, dissertation or equivalent, students schedule the defense through their MyASU. See [Graduation Deadlines](#). Students work with their supervisory committee and the academic unit's graduate support staff to identify a suitable date and reserve a room. When a defense

date and location have been identified and the defense has been scheduled through MyASU, students submit a complete draft copy of the thesis/dissertation to be defended via email to gradformat@asu.edu. The defense will be published on the Graduate Education [Master's/Doctoral Defense Schedule](#) website that updates every Monday.

The [Format Manual](#) is a comprehensive guide to formatting a thesis, dissertation or equivalent document and it always overrides a Style Guide if the two conflict. Students must use the *Format Manual* to prepare their thesis/dissertation. Questions regarding the *Format Manual* requirements should be directed to gradformat@asu.edu.

The Graduate Education's [Formatting Tool](#) uses the *Format Manual* guidelines to generate a template into which you insert your document's text. The formatting tool is designed to help students with the basic format requirements such as margins and spacing, and greatly improves the format review process for students.

UMI/ProQuest Submission

Students are required to create a new user account specific to the submission of their document and must use their ASU email address. UMI/ProQuest requires all students to submit a PDF version of their final document. The ASU office for Graduate Education requires that the PDF document is in compliance with the formatting standards presented in the format manual. Students will receive final format approval only after the submitted PDF document has successfully passed a format review. Students have an opportunity to order bound copies of their document for themselves through UMI/ProQuest.

Graduation

Students must apply for graduation through MyASU in accordance with the University Registrar policies. See [Application for Graduation](#). Students must meet all University and Graduate Education degree requirements prior to the conferral of their degree.

The graduation deadlines and procedures are set by the office for Graduate Education and are available online at graduate.asu.edu/progress/graduation_deadlines. Deadline dates vary slightly depending on the calendar year, so students should check them carefully in advance of the semester they plan to defend their thesis/dissertation. It is very important that students become familiar with these deadlines so that graduation can occur during the expected term.

Graduate Student Appeals

The Graduate Council Appeals Board (GCAB) serves as the appeals body for graduate students seeking redress on procedural issues related to academic decisions regarding their graduate programs. ***Before initiating an appeal, the graduate student must fully utilize any and all other appeal and review processes available in the student's program, academic unit or college/school.*** The GCAB will not entertain any appeals until the graduate student has exhausted all other appropriate appeal procedures.

The GCAB reviews written appeals of graduate students concerning:

- ✧ Procedural matters in graduate student programs (e.g., procedures related to *Plans of Study*, satisfactory academic progress, theses, dissertations, and preliminary, qualifying or comprehensive exams).
- ✧ Academic issues that are not covered by other university policies or processes.

The GCAB does not review appeals pertaining to the following areas because these appeals are heard by other university bodies (see parentheses below):

- ✧ Course grades (subject to review by the academic unit and college/school).
- ✧ Results of capstone experiences, preliminary, comprehensive and qualifying examinations and defenses (subject to review by the academic unit and college/school).
- ✧ Recommended dismissal by a program or academic unit due to lack of satisfactory academic progress (subject to review by the academic unit and college/school).
- ✧ Allegations of academic dishonesty (subject to review under the ASU Student Academic Integrity Policy located at provost.asu.edu/academicintegrity/policy).
- ✧ Allegations of scientific misconduct (subject to review under ASU policy RSP 210 ["Misconduct in Research"] in the Research and Sponsored Projects Policy and Procedures Manual).
- ✧ Allegations of discrimination (subject to review by the ASU Office of Equity and Inclusion).

The Guidelines for Graduate Appeals describing further the GCAB appeal procedures, process and jurisdiction are available from the office for Graduate Education and on the website at:

graduate.asu.edu/sites/default/files/Graduate_Appeals_Guidelines.pdf.

graduate.asu.edu

College Policies

Business, W. P. Carey School of

The W. P. Carey School of Business is one of the largest and highest-ranked business schools in the country, repeatedly lauded by publications like The Wall Street Journal, Financial Times, Princeton Review and U.S. News & World Report. The school is internationally regarded for its leadership in business education, research productivity and distinguished faculty members, including a Nobel Prize winner. Students come from all over the world and include dozens of National Merit Scholars.

Our academic choices are as diverse as they are abundant. Undergraduates can earn a BS in one of nine business disciplines or a BA that combines core business classes with a concentration outside the W. P. Carey school. Our programs of study reflect and respond to the demands of business and industry today and beyond, and we have dedicated career placement services. We are located in the heart of the fast-growing Phoenix metropolitan area, which provides opportunities for internships, employment and networking. Our classes are offered on ASU's Tempe, Polytechnic, West and Downtown Phoenix campuses. For more information, visit wpcarey.asu.edu [1].

Undergraduate Policies

Academic Integrity

Academic Dishonesty

The faculty of the W. P. Carey School of Business follow the guidelines in the student academic integrity policy on academic dishonesty. A copy of the policy may be obtained online at <https://provost.asu.edu/index.php?q=academicintegrity> [2].

The W. P. Carey School of Business honor code may be found online at <https://my.wpcarey.asu.edu/academic-integrity/code-of-conduct.cfm> [3].

Academic Standing

Probation

All business students, freshman through senior, must maintain a minimum 2.00 GPA for all courses completed at ASU. If this standard is not maintained, the student is placed on university academic probation. Students on university academic probation must see an advisor before further registration and must do one of the following:

1. Raise the ASU cumulative GPA to 2.00 or higher in order to return to academic good standing.
2. Obtain a semester GPA of 2.50 with no grade lower than a "C" in order to be granted one additional semester on continued college probation. At the end of continued college probation, the student must return to academic good standing (a minimum cumulative ASU GPA of 2.00) to avoid disqualification.

Disqualification

Students who do not meet college probation requirements are academically disqualified. Disqualified students should meet with their academic advisors. These students may attend ASU during the summer session immediately following disqualification only.

Advising

W. P. Carey offers undergraduate program academic advising at the Polytechnic, Tempe and West campuses. Students may find personalized advising information and may schedule appointments in advance at <http://wpcarey.asu.edu/sos/> [4]. Students admitted to the W. P. Carey leaders academy or business honors program may schedule appointments by visiting the W. P. Carey School Undergraduate Advising S.O.S. website at <https://my.wpcarey.asu.edu/apps/advising/index.cfm> [5], visiting McCord Hall 102 or calling 480-965-8710.

To ensure students are making progress toward their degrees, we encourage students to schedule appointments each semester. We require advising for:

- newly admitted students, prior to enrollment for the first term (at orientation)
- freshman students, prior to enrollment for the second term
- transfer students, prior to enrollment for the second term
- seniors, upon completion of 87 or more credit hours
- any student who is on university academic probation
- any student who is off track in regard to Sun Devil Tracking requirements

For additional information regarding academic advising, visit <https://my.wpcarey.asu.edu/undergrad/advising/overview.cfm> [6] or contact the W. P. Carey School of Business undergraduate programs office at 480-965-4227.

Credit/Registration

Pass/Fail

Business majors may not enroll on a pass/fail basis for any course required for graduation. Pass/fail credits taken at another institution may be petitioned for use, but only if the student can demonstrate proof that the pass grade was equivalent to a "C" (2.00) or higher.

Transfer Credit

Credit from other institutions is accepted subject to the following guidelines: Students planning to take their first two years of work at a community college or another four-year college should take only those courses in business and economics that are offered as freshman- or sophomore-level courses at any of the state-supported Arizona universities. These lower-division courses are numbered 100 through 299. A maximum of 30 hours of business and economics courses from community colleges are accepted toward a bachelor's in business.

Students may transfer up to nine credit hours of approved upper-division business course work required for the business degree to ASU. Upper-division business courses taught in the junior or senior year in the state universities may not be completed at a two-year college for transfer credit in the business core or major. Such courses may be utilized in the free elective category subject to the 30-hour limitation. Courses taught as vocational or career classes at the community colleges that are not taught in the schools of business at any one of the state universities are not accepted for credit toward a bachelor's degree. Courses taught in the upper-division business core at the state universities must be completed at the degree-granting institution unless transferred from an accredited four-year school. Normally, upper-division business course transfer credits are accepted only from AACSB International-accredited schools. To be accepted for credit as part of a degree program in business, all courses transferred from other institutions must carry prerequisites similar to those of the courses they are replacing at ASU.

Degree Requirements

Critical Requirements

All business students must meet the critical requirements for their majors. Students who are required to follow eAdvisor Tracking requirements and do not comply with the critical requirements are off track and have a hold placed on their records. These students must meet with an advisor to have their hold removed. For more information, visit <https://my.wpcarey.asu.edu/undergrad/advising/tracking.cfm> [7].

Reinstatement/Readmission

Students seeking readmission after an absence from the university should contact the undergraduate programs office, in BA 109, regarding policies and procedures.

Other Special Requirements

Major Proficiency Requirements

Students must receive grades of “C” (2.00) or higher in upper-division courses for the major. If a student receives a grade below “C” (2.00) in any course in the major, this course must be repeated. If a second grade below “C” (2.00) is received in either an upper-division course in the major already taken or in a different upper-division course in the major, the student is no longer eligible to take additional upper-division courses in that major.

Student Appeal Procedure on Grades

W. P. Carey School of Business students follow the university policy for student appeal procedure on grades, which may be found online at <https://catalog.asu.edu/appeal> [8].

Admission

Because of the additional requirements for the BS, students who do not meet minimum admission standards will automatically be considered for the BA in the W.P. Carey School of Business. Freshman admission requirements for the BA program are the same as the university's freshman admission requirements. Transfer students wanting to be placed in the BA program must have a 3.00 GPA for all transfer course work and a 3.00 GPA for all ASU course work and meet university transfer admission requirements.

Graduate Policies

All graduate students in the W. P. Carey School of Business are required to maintain a cumulative GPA of "B" (3.00). See individual graduate degree programs for specific requirements on satisfactory academic progress, probation and disqualification.

Advising

Advising of graduate students is normally handled by graduate faculty members. Once admitted, students can request a temporary faculty advisor in a potential area of concentration in order to prepare a plan of study. Students are encouraged to begin discussions with faculty members early in their studies so course work can be geared toward supporting their academic progress. All students, whether in a thesis or nonthesis option, must file a plan of study.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies including those of Graduate Education and the W. P. Carey School of Business.

Design and the Arts, Herberger Institute for

The Herberger Institute for Design and the Arts is built on a combination of disciplines unlike any other program in the nation, comprising schools of art; arts, media and engineering; design; film, dance and theatre; music, as well as the ASU Art Museum.

The Herberger Institute recommends students contact the Office of Student Success at 480-965-4495 to obtain the most current information on college policies. The Herberger advising staff are available to assist with any questions regarding the institute's policies.

Undergraduate Policies

Academic Integrity

Academic honesty is expected of all students in all examinations, papers, academic transactions and records. The possible sanctions include, but are not limited to: appropriate grade penalties, loss of registration privileges, disqualification and dismissal. The Herberger Institute for Design and the Arts strictly adheres to the ASU student academic integrity policy. Information about the policy can be found at <http://provost.asu.edu/academicintegrity> [1].

Academic Standing

Probation

A student in any of the institute's degree programs is placed on university academic probation when he or she fails to maintain a cumulative GPA of 2.00. Students on academic probation must observe rules or limitations the institute imposes on their probation as a condition of retention. All Herberger Institute students who are placed on academic probation are required to attend mandatory advising appointments in an effort to help them improve their academic standing. Students are required to complete an academic success contract with their advisor to discuss campus academic resources, plan semester goals and discuss strategies to attain academic success. These meetings continue until the student earns a cumulative GPA of 2.00 or higher.

Disqualification

If the overall GPA is not at the required level and the conditions of probation have not been met after one semester on probation, the student is disqualified for a minimum of two full academic semesters. Disqualification is exercised at the discretion of the institute and becomes effective on the first day of the fall or spring semester following institute action. A disqualified student is notified by the Office of the Registrar or the dean of the institute and is not allowed to register for a fall or spring semester at the university until reinstated.

Reinstatement

A disqualified or ineligible student who has skipped a fall or spring semester must follow the procedures for readmission. See readmission to the university [2].

A disqualified or ineligible student who has not skipped a semester may contact an advisor in his or her college to see if reinstatement is possible. (See reinstatement: <https://catalog.asu.edu/glossary#reinstatement> [3].) If the student wishes to transfer to a different college, he or she may submit an application for reinstatement to the college into which he or she wishes to transfer. An ineligible student who does not skip a fall or spring semester must follow the ineligible procedures. See ineligible status.

Disqualified students may attend summer sessions at ASU to raise their cumulative GPA. If a 2.00 or higher cumulative GPA is achieved upon completion of summer course work, the student may petition the institute for early reinstatement. Applications for readmission to ASU must be made to the admission services office. By following recommendations and meeting established standards for summer course work or course work completed at other institutions, the possibility of successful reinstatement is enhanced. All students who are academically disqualified or who are off track for two semesters should contact a Herberger advisor. Advisors provide transitional advising for students who must choose another major.

Also available in the Office of Student Success is information on the college policies and procedures for student grievances with respect to grades and various petitions regarding standards and graduation requirements.

Advising

Undergraduate academic advising is handled as a centralized activity within the institute. Students are encouraged to make appointments through the Herberger Institute Office of Student Success. For more information, visit the advising website: <http://herbergerinstitute.asu.edu/students/undergrad/advising.php> [4]. While the institute provides academic advising, it is ultimately the responsibility of each student to fulfill academic and program requirements. Administration of program requirements is the responsibility of the head of the academic unit and the dean.

Credit/Registration

Course Load

First-semester freshmen and entering transfer students are not permitted to register for more than 18 credit hours in Session C or nine credit hours in Session A and nine credit hours in Session B. Other students who wish to register for more than 18 hours must meet the academic criteria for an overload petition and work with their academic advisor in the Herberger Office of Student Success. Any petition for an overload in excess of 21 hours (or more than 10 hours in either Sessions A or B) must be presented to the advising manager. No student should assume that his or her petition for overload will be granted.

For summer sessions, the maximum course load is 14 credit hours, seven per six-week summer session. Overloads are rarely granted for these sessions and requests must be petitioned to the Herberger Office of Student Success.

Audit Grade Option

Students may choose to audit courses in which they attend regularly scheduled class sessions but earn no credit. Students should obtain instructor approval before registering for the course(s).

Note: This grade option may not be changed after the drop/add period.

Pass/Fail or Credit/No Credit

The only courses accepted toward graduation with a grade of pass/fail or credit/no credit are courses designated by the academic unit as such, or internships and field studies.

Transfer Credits

While the university accepts credits transferred from other accredited institutions, transfer course work must be equivalent in content and level of offering. Arts or design transfer credits are not applied to specific degree programs until reviewed and accepted by the appropriate academic units. Students who change majors to transfer into the institute or one of its program areas must have a minimum cumulative GPA of 2.50. A student wishing to enter a major that requires an audition, interview, milestone or portfolio review may be required to successfully complete this requirement before changing their major. Any student transferring to art, dance, music or theatre and film must complete a creative review to enter most majors, and some arts transfer credit will not be evaluated until after successful completion of the creative review. The Design School requires a review of samples of work (portfolio format) from previous studio classes to evaluate transfer studio credits.

Incompletes

Students are responsible for contacting their course instructors regarding the process of requesting and fulfilling requests for an incomplete. The grade of "I" (incomplete) can only be given by an instructor when a student who is doing otherwise acceptable work is unable to complete a course (e.g., final exam or term paper) because of illness or other conditions beyond the student's control. Students must obtain the official form to request a grade of incomplete at <http://students.asu.edu/forms/incomplete-grade-request> [5]. A completed form must include a justification, a listing of requirements that have not been fulfilled and a proposed schedule of completion. The instructor will review the request and determine whether to accept or deny the request. If accepted, the instructor may propose modifications, if necessary, and submit a copy of the request to the appropriate office. An incomplete in any course that is a prerequisite for sequential courses automatically denies enrollment in subsequent courses or could result in the student being administratively dropped from a subsequent course if the student has already enrolled. The student has one calendar year from the date the grade of "I" is recorded to complete the course. A student does not reregister or pay fees for a course for which an "I" has been received in order to complete the course. Grades of "I" for undergraduate course work that have been on a student's record for more than one calendar year will be automatically changed to a grade of "E."

Withdrawals

University withdrawal regulations apply to all courses. In addition, because the institute's curricula are modular and sequential and because space in the programs is limited, a student is expected to progress through the curriculum with his or her class.

Degree Requirements

Critical Requirements

All Herberger students must meet the program and critical requirements for their majors. A student who does not comply with the critical requirements is off track and will have a hold placed on their record, and the student will be required to meet with a Herberger academic advisor to have the hold removed. For more information, please review your major map accordingly.

Concurrent Degrees

Students who wish to obtain concurrent degrees must submit a standards committee petition to the undergraduate curriculum committee after successfully meeting the following criteria: minimum 3.00 cumulative GPA, successful completion of 12 credit hours in both programs, and successful admission into both intended programs of study. Students must complete a minimum of 30 unique credits between both programs.

Change of Major

Current ASU students who wish to change majors to one of the institute's degrees must have a cumulative ASU GPA of 2.50 or higher. Students wishing to enter a major that requires an audition, interview, milestone or portfolio review may be required to successfully complete this requirement before changing their major.

For more information about critical requirements, please refer to the corresponding major map.

Within The Design School, students who have passed the milestone are placed on college probation when any of the following occurs:

- admitted to the milestone with deficiencies in course requirements
- received an incomplete, failure or withdrawal from any required course
- earned a semester GPA below 3.00
- received a grade of "D" (1.00) or "E" (0.00) in a design studio, a design laboratory or a design lecture
- violated the university's Student Code of Conduct or any admission agreement

Students on college probation must observe rules or limitations that the institute or academic unit places on their probation as a condition of continuation. Students may be removed from a program (but not necessarily from the university) when any of the following occurs:

- the requirements imposed are not met or the probationary semester GPA is below 3.00 after one semester on probation
- failures or withdrawals in required courses are not resolved at the next offering of the course
- failures or withdrawals from required sequential courses
- incompletes in required sequential courses are not completed before the first day of class of the next semester

A student removed from a program is not guaranteed reinstatement to the program even if probation requirements or requirements placed on readmission are fulfilled. Appeals may be made first to the appropriate academic unit and, if necessary, to the Herberger Institute undergraduate curriculum committee. For more information, contact the Herberger Office of Student Success or The Design School.

Reinstatement/Readmission

Undergraduate degree-seeking students who previously attended ASU in the Herberger Institute for Design and the Arts but have not been enrolled at ASU for one or two consecutive fall or spring semesters are eligible to return through quick reentry. Students do not need to submit a new application or application fee, but must contact an academic advisor in their program for registration.

Undergraduates who have been away from the university for three or more semesters and want to return to ASU in a Herberger Institute program are required to apply for readmission through the admission services office.

- Readmission is only considered after a student has remained out of the Herberger Institute for a minimum of two semesters.
- A student is required to supply proof he or she is now capable of successfully completing courses in the discipline by the completion of at least 12 hours of appropriate course work with a GPA of 2.50 or higher.
- If the readmission request requires a change of major, then admission decisions are made by the college that offers the intended major.
- If a student seeks readmission to his or her previous Herberger Institute major and that major requires a creative review, a new review may be required.
- If readmission is approved within the Herberger Institute, the student will return with continued probation status in the appropriate degree program.

Once readmitted, returning students are required to meet with a Herberger advisor before enrolling in courses at ASU.

Other special requirements

Creative Reviews

A creative review (audition, interview, milestone, portfolio submission) is required for entrance into most majors in the Herberger Institute. See <http://herbergerinstitute.asu.edu/admissions/undergrad/applying/major.php> [6] for details.

Graduate policies

Advising is handled as a decentralized activity within the institute. To offer personalized attention, each academic unit establishes its own graduate advising procedures. Students are encouraged to make appointments through the central office of their major discipline. Students should consult their academic unit's website for general information about the programs, admission and advising procedures:

- School of Art: <http://art.asu.edu/> [7]; phone 480-965-6303
- School of Arts, Media and Engineering: <http://ame.asu.edu/> [8]; phone 480-965-9438
- School of Dance: <http://dance.asu.edu/> [9]; phone 480-965-5029
- The Design School: <http://herbergerinstitute.asu.edu/degrees/design.php> [10]; phone 480-965-3536
- School of Music: <http://music.asu.edu/> [11]; phone 480-965-5069
- School of Film, Dance and Theatre: <http://theatreilm.asu.edu/> [12]; phone 480-965-5337

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies including those of Graduate Education and the Herberger Institute for Design and the Arts.

Engineering, Ira A. Fulton Schools of

The Ira A. Fulton Schools of Engineering educate undergraduate and graduate engineering students, giving them the knowledge, skills and attitudes they need for success in technically oriented careers. The schools provide students with a range of educational opportunities by which they may achieve excellence in the major branches of engineering, computer science, informatics and construction management.

The Ira A. Fulton Schools of Engineering take pride in their diversity, their economic and cultural heritages and in the quality of their graduates. The schools strive to be integral to the community they serve and a lifelong presence in the lives of those within their compass. The schools' educational and research programs are built around the following principles: entrepreneurship; use-inspired research and scholarship; a focus on the individual; intellectual fusion of unique and distinct disciplines; social embeddedness in the local, national and international community; and global engagement.

For more information, see <http://engineering.asu.edu> [1].

Ira A. Fulton Schools of Engineering Aspirations

Graduates from any of the schools' programs will be technically sound. In addition to technical competency, the Ira A. Fulton Schools of Engineering aspire to develop leaders who are well-read, well-spoken and knowledgeable about current business practices. To this end, the schools offer enhanced curricula, special courses and extracurricular activities to enrich the student's stay and to offer every student opportunities to achieve the schools' aspirations.

All the programs within the schools are professional programs, and professionalism is an important component of all the curricula. The schools strive to help students understand and value the various aspects of professionalism, including ethical behavior, a desire for lifelong learning, the ability to communicate with others and an awareness of how the profession fits into and impacts society. As a first step in ethics, all students are expected to follow the student code of conduct and rules of academic integrity defined by the university as outlined at <http://provost.asu.edu/academicintegrity> [2].

Undergraduate Policies

Academic Integrity

Students enrolled in the Ira A. Fulton Schools of Engineering are required to maintain high levels of integrity and honesty in their academic progress. The ASU student academic integrity policy is strictly enforced and followed. A student with an alleged violation is required to discuss the violation with the professor. A student charged with a violation of the student academic integrity policy will have the opportunity to appeal the charge and be heard by the Ira A. Fulton Schools of Engineering standards hearing board, which provides recommendations to the dean or the dean's designee. The dean or dean's designee will review the recommendation and render a decision. If the decision is suspension or expulsion, the student may appeal to the Office of the University Provost. Policy information is located at <http://provost.asu.edu/academicintegrity> [2].

The Ira A. Fulton Schools of Engineering have developed and enforce a number of academic standards. These standards are designed to support students and ensure the quality of the schools' graduates.

Academic Standing

Student Responsibilities

Students need to make many decisions as they complete their degrees. While the schools and the university have a number of resources available (e.g., faculty, courses, advisors and tutors) to help with decision-making, students are expected to take responsibility for their decisions.

Ira A. Fulton Schools of Engineering Good Standing

Students are expected to select and successfully complete courses that lead to the timely completion of their degrees. Students are said to be in good standing if they fulfill all of the following:

- maintain acceptable GPAs
- enroll and complete critical tracking requirements
- complete courses each semester that are applicable to their degrees

Ira A. Fulton Schools of Engineering Probation

Some students do not make satisfactory progress, and these students generally need extra attention and resources to help them get back to good standing. Such students are placed on Ira A. Fulton Schools of Engineering academic probation to help ensure they get the necessary help. There are many reasons why students fail to make satisfactory progress. Working with an academic advisor to plan a strategy for success is crucial. Students may be required to reduce their course loads (13 credit hours maximum), retake courses or even take courses outside of their programs, if these measures will help bring them back to academic good standing.

To return to academic good standing in the Ira A. Fulton Schools of Engineering, students with probation status need to earn a minimum semester GPA of 2.25 and earn a minimum cumulative ASU GPA of 2.00 at the end of the probation semester. If enrolled in only one course, a grade of "C+" (2.33) or better and a minimum cumulative ASU GPA of 2.00 is required to obtain academic good standing. Students who meet either the semester GPA requirement or meet the cumulative ASU GPA requirement at the end of their first probationary semester may be continued on probation.

Conditions for Ira A. Fulton Schools of Engineering Probation

A student is placed on college or university probation status when specific academic expectations are not met. Some conditions trigger an automatic placement on probation whereas others trigger an automatic review of the student's case to determine if probation is warranted. When a probation review is triggered, the final decision and any conditions of probation are determined at the program level.

Automatic probation is triggered by any of the following:

- two successive semesters with GPAs less than 2.00
- an ASU cumulative GPA less than 2.00

Automatic review (borderline) is triggered by any one of the following:

- a semester with a GPA less than or equal to 2.00
- a cumulative GPA in the major of less than 2.00

Courses completed during summer sessions are not used to reevaluate a student's probationary status.

Ira A. Fulton Schools of Engineering Ineligibility

Students who are on probation and fail to meet the schools' retention standards become ineligible to continue working toward a degree within the Ira A. Fulton Schools of Engineering.

Ira A. Fulton Schools of Engineering Ineligibility occurs if the probationary student does any of the following:

- does not attain a semester GPA of 2.25 or higher and has a cumulative GPA of at least 2.00 at the end of the probationary semester
- has already been on probation for two consecutive semesters
- fails to complete any courses appropriate for the degree during each semester

Ira A. Fulton Schools of Engineering-ineligible students are subject to the following limitations:

- Students who change colleges may not register for courses in the Ira A. Fulton Schools of Engineering unless the courses are required by their new majors.
- Students who register for courses in the Ira A. Fulton Schools of Engineering may be withdrawn from these courses any time during the semester they are registered.

Ira A. Fulton Schools of Engineering-ineligible students are encouraged to consider these options:

- Students may be eligible to change their majors to other colleges if they are in university academic good standing and have acceptable cumulative GPAs. The acceptable GPA level depends on the number of hours of completed course work. Students should contact their advisor to determine if they are eligible.
- Students may take nonengineering courses during summer sessions.
- Students may request a review of their status by contacting the office of academic and student affairs.

Advising

Successful completion of a program in the Ira A. Fulton Schools of Engineering requires careful planning. While final responsibility for becoming familiar with and understanding academic degree requirements lies with each student, each program employs professional academic advisors who work with students in setting academic and career goals, understanding school and university policies and procedures, meeting degree requirements and becoming familiar with the university's and the school's sources of academic support. Students may also work with faculty advisors familiar with the chosen fields of specialization. Students should consult their advisors prior to registering each semester. A list of program advisors can be viewed at <http://engineering.asu.edu/advising> [3].

Students are encouraged to use the eAdvisor tool for academic planning. This service provides critical requirements and major maps, which are individualized student reports that lay out a specific, clear and accurate path to timely completion of each student's intended degree. Access eAdvisor at <http://eadvisor.asu.edu> [4].

Many students find it necessary to work while attending ASU. The working student should endeavor to create a careful balance of work and class responsibilities to avoid academic problems. Students should inform their academic advisors of any outside work or activity so that course loads may be adjusted accordingly.

Staff in the office of academic and student affairs in the Ira A. Fulton Schools of Engineering are available to assist individual students with many different types of advising issues. They work with students to answer general questions about policies and procedures; help with registration transactions; administer the probation, disqualification and readmission processes; oversee disciplinary actions; hear grade grievances; and assist with other administrative matters.

Mandatory Advising

All first-year students, student athletes and students who are found to be having academic difficulty are required to be advised before they can register for classes, including summer sessions classes. Some programs relax the advising requirement after the first year, so students should consult their academic advisor or review the My Tasks list in My ASU to determine if advising is required.

Credit/Registration

Students are required to register for courses using one of the university-provided processes. As part of the registration process, the school enforces the following registration restrictions:

Maximum Hours

Students enrolled in undergraduate degree programs in the Ira A. Fulton Schools of Engineering may register for a maximum of 19 credit hours per semester. Any student wanting to register for more than the maximum must submit a college standards petition and have an approval on file prior to registering for the overload.

Ira A. Fulton Schools of Engineering Probationary Status

Students who have been placed on Ira A. Fulton Schools of Engineering academic probation must meet with their academic advisors and complete their probation success plans. The success plan is designed to assist students in identifying a path to academic success and can be found at <http://engineering.asu.edu/students/standards> [5]. Students on Ira A. Fulton Schools of Engineering academic probation may enroll in a maximum of 13 credit hours per semester.

Degree Requirements

Undergraduate Nondegree Status

Students who are enrolled in an undergraduate nondegree status in the schools must obtain advising and approval to register from the office of academic and student affairs before registering each semester.

Course Prerequisites

Students should consult the schedule of classes and the catalog for course prerequisites. Students who register for courses without the designated prerequisites may be withdrawn without their consent at any time before the final examination. Such withdrawal may be initiated by the course instructor, the program chair of the program offering the course or the dean of the college. In such cases, students will not receive monetary reimbursement.

Pass/Fail Grades

Students requesting credit for pass/fail courses taken at another institution must file an Ira A. Fulton Schools of Engineering standards petition. Each request is judged on its particular merits.

Non-Ira A. Fulton Schools of Engineering Students

Students who are not admissible to programs in the Ira A. Fulton Schools of Engineering and who enroll in another college at ASU may not register for any 300- or 400-level courses in the schools unless the courses are required in their degree programs and the students have the proper course prerequisites.

First-year Composition Requirement

Completion of the first-year composition requirement is required for graduation. Any student whose written or spoken English in any course is unsatisfactory may be required by the appropriate school director or program chair to take additional course work. Find the first-year composition requirement at http://catalog.asu.edu/ug_grad_req [6].

Change of Major

Students interested in switching majors to one of the programs within the Ira A. Fulton Schools of Engineering must meet the schools' admission requirements for transfer students. Change of major is not guaranteed, and students interested in changing majors are encouraged to make an appointment with an advisor in the program of interest to discuss the probability of success and to develop a plan of action to ensure successful advancement to upper-division courses. For admissions information, visit <http://engineering.asu.edu/undergraduate/adreqs> [7].

Students who were admitted as freshmen into the Ira A. Fulton Schools of Engineering, with the exception of the Polytechnic School, who and have maintained continuous enrollment in any Fulton engineering major may choose to change to any other major within the Ira A. Fulton Schools of Engineering provided they are in good academic standing [8]. Students admitted to the Polytechnic School must meet the transfer admission requirements in order to change to an engineering major outside of the Polytechnic School.

Transfer students who have been admitted to the Ira A. Fulton Schools of Engineering from a non-ASU institution or another college within ASU must meet transfer admission guidelines in order to change to any other major within the Ira A. Fulton Schools of Engineering.

Evaluation of Previous Course Work

Transferring from one institution to another or between programs can result in a net loss in credits that count toward the degree. Thus, it is important for students who contemplate transferring into the Ira A. Fulton Schools of Engineering from other institutions, whether community colleges or four-year institutions, to carefully study the requirements of their degree programs to get a sense of what courses may transfer.

Credit is granted for transferred courses deemed equivalent to corresponding courses in the selected program of study, subject to grade and ASU resident credit requirements. No grades lower than "C" (2.00) are accepted as transfer credit to meet the graduation requirements of the schools. Credits transferred from a community college or two-year institution are applied only as lower-division credits. For a listing of the acceptable courses transferable to the various degree programs, prospective Arizona transfer students should consult their advisors and refer to the ASU transfer tools available at <http://transfer.asu.edu> [9].

It should be noted that some courses taken in other ASU colleges or other universities may be acceptable for general university credit but may not be applicable toward the degree requirements of the schools. Determination of those particular courses applicable to a specific degree program is made within the appropriate academic unit with approval of the dean.

Currency of Course Work

Courses taken more than five years before admission to degree programs in the Ira A. Fulton Schools of Engineering are not normally accepted for transfer credit, at the option of the program in which the applicant wishes to enroll. Courses completed within the five years preceding admission are judged for their applicability to the student's curriculum.

General Education Development

Students admitted to the university after successful completion of the GED examination are directly admitted to the Ira A. Fulton Schools of Engineering (BSE or BS) program within their majors, provided they meet the minimum ACT or SAT score required for freshman admission to the Ira A. Fulton Schools of Engineering.

Graduation Requirements

To qualify for graduation, an Ira A. Fulton Schools of Engineering student must have a minimum cumulative ASU GPA of 2.00 in addition to having a GPA of at least 2.00 for the courses in the major.

University Graduation Requirements

In addition to program and schools' requirements, students must meet all university graduation requirements. A well-planned program of study enables students to meet all requirements in a timely fashion. Students are encouraged to consult with an academic advisor in planning a program to ensure they comply with all necessary requirements. University graduation requirements can be found at http://catalog.asu.edu/ug_grad_req [6].

Reinstatement/Readmission

Readmission

Undergraduate degree-seeking students who previously attended ASU in the Ira A. Fulton Schools of Engineering but have not been enrolled at ASU for one or two consecutive fall or spring semesters are eligible to return through quick reentry. Students do not need to submit a new application or application fee, but must contact an academic advisor in their program for registration.

Undergraduates who have been away from the university for three or more semesters and want to return to ASU in an Ira A. Fulton Schools of Engineering program are required to apply for readmission through the admission services office. Readmission requests are processed as follows:

1. School of Engineering students seeking readmission to the same program they left, and who left ASU with either academic good standing or probation status, are readmitted to the degree program they left with the same academic standing (i.e., good academic standing or probation) they had when they left ASU.
2. Students seeking readmission to an Ira A. Fulton Schools of Engineering program other than the program they left and who have an ASU GPA of 3.00 or higher are readmitted to the degree program with the same academic standing (i.e., good academic standing or probation) they had when they left ASU.
3. Students seeking readmission to an Ira A. Fulton School of Engineering program other than the program they were in when they left ASU with either academic good standing or probation status and who have an ASU GPA less than 3.00 are subject to the admission by change of major process. These requests for readmission are reviewed on an individual basis. If the

request for readmission is approved, the student is readmitted to the new degree program with the same academic standing (i.e., good academic standing or on probation) he or she had when leaving ASU.

4. Students seeking readmission to an Ira A. Fulton Schools of Engineering program and who left ASU with either ineligible or disqualified status are subject to review by the office of Academic and Student Affairs and the program.
 - o Readmission is only considered after a student has remained out of the Ira A. Fulton Schools of Engineering for a minimum of 12 months.
 - o A student is required to supply proof he or she is now capable of successfully completing courses in the discipline by the completion of at least 15 hours of appropriate course work with a GPA of 3.00 or higher and a cumulative (ASU plus transfer) GPA of at least 2.50.
 - o If the readmission request requires a change of major, then the admission by change of major review process must be completed.
 - o If readmission is approved, the student will return with continued probation status in the appropriate degree program.

Once readmitted, returning students are required to meet with a program advisor before enrolling in courses at ASU.

Other Special Requirements

Advancing to Upper-division Courses

The faculty in the Ira A. Fulton Schools of Engineering have identified a set of critical requirements in the first four semesters of each program whereby performance in these critical requirements is a key component in progressing in the chosen major. These critical requirements include a set of courses and performance levels required in those courses and are outlined on the major maps.

Graduate Policies

Policy for Maintaining Satisfactory Academic Progress

A student who has been admitted to a graduate degree program in the Ira A. Fulton Schools of Engineering, with either regular or provisional admission status, must maintain a 3.00 or higher GPA in all of the following:

1. all work taken for graduate credit (courses numbered 500 or higher)
2. course work in the student's approved plan of study
3. all course work taken at ASU (overall GPA) postbaccalaureate

A student will be placed on academic probation if one or more of the student's GPAs listed above falls below 3.00. Students will be notified by mail when placed on academic probation.

A student will earn academic good standing by obtaining a 3.00 or better in the GPAs listed above by the time the next nine hours are completed. Course work such as research and dissertation registration that are for "Z" (in progress) or "Y" (satisfactory) grade cannot be included in these nine hours.

A student may be recommended for dismissal from a graduate program if the student fails to increase all of the GPAs listed above to 3.00 or better by the time he or she completes at least nine credit hours as defined in the previous paragraph.

A student may appeal actions concerning dismissal by petitioning the program in which they are enrolled.

Academic units in the Ira A. Fulton Schools of Engineering can expand this policy statement to include additional policy governing the satisfactory academic progress of the students in their graduate programs.

Additional Graduate Policies

Full details of policies related to graduate students in the Ira A. Fulton Schools of Engineering can be found on each program's Web page. For a list of programs, visit <http://engineering.asu.edu> [10]. University policies related to graduate students can be found at <http://graduate.asu.edu> [11].

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies including those of Graduate Education and the Ira A. Fulton Schools of Engineering.

Health Solutions, College of

Undergraduate Policies

Academic Integrity

Academic honesty is expected of all students in all examinations, papers, laboratory work, academic transactions and records. The ASU Student Academic Integrity Policy is strictly enforced for students found in violation of this policy. Possible sanctions include, but are not limited to, appropriate grade penalties, loss of registration privileges, disqualification and dismissal. For more information, see <http://provost.asu.edu/academicintegrity> [1].

Academic Standing

To maintain satisfactory academic progress, all students* in the College of Health Solutions must:

1. maintain a minimum 2.00 GPA each semester
2. maintain a minimum 2.00 cumulative GPA

*Speech and Hearing Science majors must maintain a 2.80 GPA in ASU critical tracking courses. For more information on specific admission criteria, please see <https://students.asu.edu/admission> [2].

Probation

Students are placed on probation at the end of fall or spring semester when their GPA is below 2.00.

Continuing Probation

Students are placed on continuing probation when their cumulative GPA is below 2.00 for two consecutive semesters but they have shown academic progress and not earned less than a C in any course the most recent semester.

eAdvisor Tracking

In addition to being in university good academic standing, all students in the College of Health Solutions must adhere to ASU critical tracking course work, per the pertinent major map. For more information on critical tracking courses, please see <https://webapp4.asu.edu/programs/t5/MajorMaps>. [3]

Students are off-track if they fail to meet ASU critical tracking requirements for two consecutive semesters. For more information on critical tracking courses, please see <https://webapp4.asu.edu/programs/t5/MajorMaps> [3]

Students who remain on off-track status for two or more consecutive semesters may be required to change majors.

Disqualification

Students are disqualified from ASU if their cumulative GPA remains below 2.00 for more than two consecutive semesters. Students who are disqualified are not allowed to enroll in the following fall or spring semester. Disqualified students may take courses during the summer to raise their GPA.

Remediation

Students are required to meet with an academic advisor if they are placed on probation, continuing probation, off-track status or are at risk for disqualification, at which point an appropriate remediation plan will be discussed.

Advising

Mission of The Office of Student Services in the College of Health Solutions: We are committed to supporting student success and providing excellent academic advising, ensuring the accuracy of information, connecting students to resources and guiding them toward their ultimate goal of graduation. We aspire to foster personal, social, and academic success to produce well-informed, innovative, and capable professionals.

It is important for students in the College of Health Solutions to cultivate the following skills in their development as a health professional:

1. proactively identify problems and possible solutions
2. accept feedback in a positive manner
3. modify performance in response to feedback
4. communicate with others in a respectful and confident manner
5. assume responsibility for learning

Academic advising is available to facilitate student success in these and other domains. Advisors are available to meet with students in each of the undergraduate programs in person, by email, by phone or via Skype.

Academic advising is required for the following students:

1. All freshman and new transfer students are required to meet with an academic advisor before course registration.
2. Students not in satisfactory academic standing (i.e., probation, continuing probation, off-track status, disqualification, etc.) are required to meet with an academic advisor to discuss a remediation plan.

Faculty and staff utilize Academic Status Reports (ASRs) to provide student feedback over the course of the academic semester and year. The ASRs may be used to identify students who are struggling academically or professionally or to recognize students who are exceeding in course work. Academic advisors and faculty mentors may access ASRs to provide students with valuable insight into performance improvement. <https://students.asu.edu/asrr> [4]

In order to be successful in the College of Health Solutions, students are strongly encouraged to be proficient in basic concepts in writing, math and science. Students are encouraged to use the following resources:

1. Academic Advising: <http://healthpromotion.asu.edu/programs/advising.htm> [5] or <http://shs.asu.edu/ug-advis> [6]
2. Student Success Center: <https://studentsuccess.asu.edu> [7]
3. Math Tutoring Center: <https://studentsuccess.asu.edu/> [8]
4. Writing Center: <https://studentsuccess.asu.edu/writingcenters> [9]
5. Peer Coaching: <https://students.asu.edu/fys> [10]
6. Career Services: <https://students.asu.edu/career> [11]

Credit/Registration

Students are allowed to register for a maximum of 18 credits per semester. Students may petition the College of Health Solutions Standards Committee through the Academic Advising Office to register for more than the maximum allowable. For more information, please see https://catalog.asu.edu/course_load [12].

Transfer credits from other institutions may be accepted and applied based on the student's major. The College of Health Solutions recommends that students work closely with their academic advisor to determine the process for applying pertinent transfer credit hours to their program of study. For more information on the transfer process, please see <https://transfer.asu.edu> [13].

Degree Requirements

Students who are interested in pursuing concurrent degrees may petition the College of Health Solutions Standards Committee through the Academic Advising Office.

The College of Health Solutions strongly recommends that students interested in applying for a concurrent degree meet the following criteria:

1. minimum 3.00 GPA
2. minimum of 12 hours of course work completed in the first major
3. minimum of nine hours of course work completed in the second major

Once accepted as a concurrent degree student in the College of Health Solutions, students are required to meet the following criteria:

1. a maximum of 15 hours of shared course work between majors (i.e., course work that overlaps between majors)
2. a minimum of 30 hours of unique course work between majors (i.e., course work must be distinct in each major)

For more information on degree requirements, please see <http://www.asu.edu/programs/> [14]

Reinstatement/Readmission

Disqualified or ineligible students who have missed a fall or spring semester must follow ASU procedures for readmission. Students are also required to meet with a College of Health Solutions academic advisor prior to course enrollment. Exceptions may apply, including students on leaves of absence and students who serve in the military. For more information, please see <http://students.asu.edu/readmission> [15].

Other Special Requirements

Clinical requirements

Some degree programs offered in the College of Health Solutions require clinical training in hospital or ambulatory care settings. These clinical sites may require criminal background checks (CBC), proof of medical insurance and/or immunizations.

Special considerations

Medical / compassionate withdrawals

Students must meet specific criteria for medical leave of absence, leave of absence or compassionate withdrawal. Students who are eligible, or who have questions about eligibility, must work closely with the Academic Advising Office to complete the necessary procedures.

For more information, please see https://students.asu.edu/files/LeaveOfAbsence111010cb_0.pdf [16] or <https://students.asu.edu/forms/medical-compassionate-withdrawal-request> [17]

Incomplete grades

Students must meet specific criteria to be eligible for a grade of incomplete. If qualified, students have one calendar year to complete course requirements. If requirements are not met per the standards agreed upon with the course instructor after one calendar year, the incomplete grade adjusts to a course failure. For more information, please see <https://students.asu.edu/files/Incomplete%20Grade%20Request.pdf> [18]

Military

Students with military or veteran status, please see <https://students.asu.edu/military> [19]

Americans with Disabilities Act (ADA)

The College of Health Solutions is compliant with, and supportive of, the Americans with Disabilities Act. Reasonable accommodations will be made for qualified students. Reasonable accommodation is defined as the provision of an auxiliary aid, or modification to the course or program which will allow access to the job duties, the educational process, program and degree, or activity. Students are encouraged to visit the Disability Resource Center. For more information, please see <http://www.asu.edu/studentaffairs/ed/drc/> [20]

The Americans with Disabilities Act (ADA) 1990 provides comprehensive Civil Rights protection and is designed to remove barriers which prevent persons with disabilities from accessing the same educational and employment opportunities as persons without disabilities. The law also provides access to public accommodations, state and local government services, transportation, and telecommunications. The Americans with Disabilities Act also prohibits discrimination against a qualified individual with a disability with regard to admission to educational institutions or vocational training programs (public or private); employee compensation; job training; and other terms, conditions and privileges of employment.

Graduate Policies

Academic integrity

Academic honesty is expected of all students in all examinations, papers, laboratory work, academic transactions and records. The ASU Student Academic Integrity Policy is strictly enforced for students found in violation of this policy. Possible sanctions include, but are not limited to, appropriate grade penalties, loss of registration privileges, disqualification and dismissal. For more information, refer to the specific graduate program manual, and please see <http://graduate.asu.edu/beintheknow> [21].

Academic Standing

Each graduate program in the College of Health Solutions adheres to specific academic requirements. Students are strongly encouraged to become familiar with the expectations listed in their respective graduate program manual.

Academic Advising

It is important for graduate students in the College of Health Solutions to cultivate the following skills in their development as a health professional:

1. proactively identify problems and possible solutions
2. accept feedback in a positive manner
3. modify performance in response to feedback
4. communicate with others in a respectful and confident manner
5. assume responsibility for learning

Academic advising is available to facilitate student success in these and other domains. Advisors are available to meet with students in each of the graduate programs (i.e. the School of Nutrition and Health Promotion, the Department of Speech and Hearing Science, the School for the Science of Health Care Delivery, the Doctor of Behavioral Health Program and others).

Faculty advisors meet with students in the academic area of concentration.

Special considerations

Medical / compassionate withdrawals

Students must meet specific criteria for medical leave of absence, leave of absence or compassionate withdrawal. Students who are eligible, or who have questions about eligibility, must work closely with the Academic Advising Office to complete the necessary procedures.

For more information, please see https://students.asu.edu/files/LeaveOfAbsence111010cb_0.pdf [16] or <https://students.asu.edu/forms/medical-compassionate-withdrawal-request> [17]

Military

Students with military and/or veteran status, please see <https://students.asu.edu/military>. [19]

Americans with Disabilities Act (ADA)

The College of Health Solutions is compliant with, and supportive of, the Americans with Disabilities Act. Reasonable accommodations will be made for qualified students. Reasonable accommodation is defined as the provision of an auxiliary aid, or modification to the course or program which will allow access to the job duties, the educational process, program and degree, or activity. Students are encouraged to visit the Disability Resource Center. For more information, please see <http://www.asu.edu/studentaffairs/ed/drc/>. [20]

The Americans with Disabilities Act (ADA) 1990 provides comprehensive Civil Rights protection and is designed to remove barriers which prevent persons with disabilities from accessing the same educational and employment opportunities as persons without disabilities. The law also provides access to public accommodations, state and local government services, transportation, and telecommunications. The Americans with Disabilities Act also prohibits discrimination against a qualified individual with a disability with regard to admission to educational institutions or vocational training programs (public or private); employee compensation; job training; and other terms, conditions and privileges of employment.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies including those of Graduate Education and the College of Health Solutions.

Honors - Barrett, the Honors College

Students who have demonstrated high levels of academic achievement in high school or college may apply for admission to Barrett. Each candidate must file an application to the college separate from the ASU application, in accordance with the appropriate Barrett deadlines.

Applicants are evaluated on the basis of their academic records, high school class ranks and performances on the SAT or ACT. The college also values students who have special talents and aptitudes, exhibit exceptional leadership qualities, have had unusual life experiences and display significant community involvement. High school GPAs used in the evaluation process are calculated in accordance with the Arizona Board of Regents competency requirements, pursuant to ABOR Policy 2-102.

The Barrett admissions application and additional information about the college and its activities are available at <http://barretthonors.asu.edu> [1].

Undergraduate Policies

Advising

Barrett students have advisors in their major, an assigned Barrett honors advisor and faculty honors advisors in departments throughout the university. Students are encouraged to stay in regular contact with all these resources and are required to complete mandatory advising sessions with their Barrett honors advisor during semesters one, three and six. To schedule an appointment with a Barrett honors advisor, call 480-965-9155 (Tempe campus), 602-496-1757 (Downtown Phoenix campus), 480-727-5539 (Polytechnic campus) or 602-543-3410 (West campus).

Students can review honors opportunities in majors at <http://barretthonors.asu.edu> [2]. There are also special prelaw and prehealth advising opportunities for Barrett students. Contact the Barrett advising office for more information.

Degree Requirements

Barrett Academic Course Requirements

Honors students must maintain high standards of academic performance and show progress toward completion of graduation requirements in their disciplinary majors and in Barrett. In order to graduate from Barrett, students must complete the following, which includes 36 credit hours of honors course work:

1. HON 171 and HON 272 The Human Event must be completed in sequence during a student's first two semesters in the college.
2. Thirty additional credit hours of honors course work must be earned with a letter grade of "C" (2.00) or higher. This may include HON prefix classes, honors sections of classes, honors enrichment contracts or any automatic honors course such as ENG 105 (in-person sections), CEE 486, PHY 333 or any graduate-level (in-person) course.
3. Included in the 36 credit hours of honors course work are at least 18 hours of upper-division or graduate-level honors credits for an earned letter grade of "C" (2.00) or higher, including six credit hours of honors course work outside the academic major. Students should investigate specialized honors, upper-division tracks within their majors.
4. Those admitted as upper-division transfer students (defined as students with 48 post-high school university credits completed by the time of planned enrollment in Barrett) must complete a three-credit, 300-level HON special topics course in addition to the 18 required hours of upper-division honors course work. Six of the 21 honors credits must be outside the academic major. A total of 21 hours of upper-division honors course work are required for these upper-division transfers, because they do not have time to complete all 36 honors hours.
5. Students are required to complete an honors thesis or creative project for at least three credit hours, though students are encouraged to complete six credit hours of thesis or creative project work. The thesis credit hours may be included in the 18 required hours of upper-division honors course work. The honors thesis or creative project is launched with a prospectus that is due one academic year before the defense. Prior to enrolling in credit for thesis or creative project work, students must complete a required preparatory workshop or course. The final copy of the honors thesis or creative project must be filed by the posted deadline during the student's graduation semester.
6. ASU graduation requirements in an academic major must be met.
7. The student must maintain a cumulative ASU GPA of 3.25 or higher.

Barrett course requirements may be met in a variety of ways. There are two specific required courses for first-year students. Only courses in which a student receives a grade of "C" (2.00) or higher may be used to meet Barrett requirements.

Those entering the college as lower-division students may take as many as 18 lower-division honors credits, which include HON 171 and 272 The Human Event, and at least 18 upper-division credits (total honors credits must be 36). HON 171 and 272 are cross-disciplinary seminars that acquaint students with ideas that form the foundation of a university education and emphasize critical thinking, discussion and writing.

Those who enter as upper-division students must take 21 upper-division honors credits, including a required three-credit, 300-level HON honors course taught by an Honors faculty fellow. Junior-level seminar courses introduce students to critical thinking, discussion and writing in a topical area chosen by the instructor. All students are expected to complete this course during the first semester upon transferring.

Departmental honors-only courses are limited to honors students and others who receive special permission from the instructor to enroll. Enrollment in these courses is limited. Compared to their nonhonors equivalents, these courses are designed to offer richer, more complex intellectual experiences appropriate to the discipline and the level of the course for all students enrolled. Other disciplinary honors courses group honors students in small cohorts to work on research projects of common interest.

Honors enrichment contracts are available in many departmental courses, allowing honors students to contract with the instructor of designated non-honors courses to earn honors credit by pursuing enrichment activities, which include supplemental sessions with the instructor. Honors enrichment contracts must be filed during the first four weeks of class and completed during the semester in which the course is offered. The enrichment contract form offers guidelines to aid students and faculty in developing appropriate contracts.

Course numbers listed in the ASU schedule of classes as 298/492 Honors Directed Study, 493 Honors Thesis, 497 Honors Colloquium, all classes with the HON prefix and those with departmental prefix that carry the honors designation as a notation are reserved for students in Barrett and always count for honors credit. Students may receive credit for more than one of each of these courses in a given department.

The departmental courses with the number 493 are reserved for honors students completing their honors thesis or creative project. A student may enroll for this course only with the approval of the sponsoring academic department and of the faculty member who serves as the student's thesis or creative project director. Course numbers listed in the ASU schedule of classes as 493 fulfill the student's upper-division literacy and critical inquiry (L) General Studies requirement.

There are certain courses that carry automatic honors credit. These include ENG 105 (any in-person section), CEE 486, and PHY 333. Graduate-level courses taught in an in-person format automatically earn honors credit.

Journalism and Mass Communication, Walter Cronkite School of

The Walter Cronkite School of Journalism and Mass Communication has a student-centered culture focused on helping students complete their degrees in a timely manner. The school encourages students to visit the school's website <http://cronkite.asu.edu> [1] or contact its student services center at 602-496-5055 with questions about any of the school's policies.

Undergraduate Policies

Academic Integrity

The Cronkite School has a zero tolerance policy toward academic dishonesty that is enforced within every course and educational activity offered or sanctioned by the school. Any allegation of academic dishonesty will be referred to the school's standards committee for review and recommendation to the dean of the school. If any student is found to have engaged in academic dishonesty in any form – including but not limited to cheating, plagiarizing and fabricating – that student shall receive a grade of XE for the class and will be dismissed from the school. There will be no exceptions.

At the beginning of every Cronkite class, each student will be given a copy of the full academic integrity policy, along with accompanying information on plagiarism. Students must sign a pledge that indicates they have read and understood the material and agree to abide by the policy.

The policy, along with guidance on how to avoid plagiarism and fabrication, can be found at http://cronkite.asu.edu/assets/pdf/Academic_Integrity_Policy.pdf [2]

Accuracy: Since accuracy is the most important aspect of journalism, the Cronkite School adheres to rigid standards. Any major error of fact – a misspelled proper name, an erroneous phone number, an incorrect address, a libelous statement or a misstatement of a major fact – in other words, anything that would require a printed correction if the story were to appear in a newspaper – will result in an E (55 percent) on an assignment. Misspellings or errors of grammar will bring a student's grade down. If you are careless, you will lose points fast.

Attendance and Make-up Work: Students are expected to be in every class and to arrive on time. There are no excused absences or lateness. Make-up work will be not be given; if a student misses an in-class assignment, quiz or test, the student will receive a zero.

Deadlines: Like accuracy, the ability to meet deadlines is a hallmark of good journalism and students are expected to meet them. Assignments submitted even one minute past the deadline will not be accepted; they will receive a zero.

Diversity Principles: The Cronkite School practices inclusivity in student, staff and faculty populations in order to create an academic environment that embraces diversity of thought and acceptance of all people regardless of race, gender, age, sexual orientation or societal, political, cultural, economic, spiritual or physical differences <http://cronkite.asu.edu/about/diversity.php> [3]

ACEJMC Values and Competencies: As a member of the Accrediting Council on Education in Journalism and Mass Communication, the Cronkite School is committed to classroom learning that achieves ACEJMC professional values and competencies. These include the core areas of freedom of speech, ethics, diversity, critical thinking, research, writing and use of tools and technologies related to the field. For a full list of ACEJMC values and competencies, see <http://www2.ku.edu/~acejmc/PROGRAM/PRINCIPLES.SHTML#vals&comps> [4].

Social Media Guidelines: It's important that students of journalism and communication know how to use social media ethically and professionally. The Cronkite School has developed standards drawn from the Poynter Institute for Media Studies and the Society of Professional Journalists. Those guidelines can be found at <http://cronkite.asu.edu/node/735> [5].

Academic Standing

Probation

All ASU students, freshman through senior, must maintain a minimum 2.00 GPA for all courses completed at ASU. If this standard is not maintained, the student is placed on probation. Students on probation must see an advisor before further registration and must do one of the following:

1. Raise the ASU cumulative GPA to 2.00 or higher in order to return to academic good standing.
2. Obtain a semester GPA of 2.50 with no grade lower than a "C" in order to be granted one additional semester on continued probation. At the end of the continued probation, the student must return to academic good standing (a minimum cumulative ASU GPA of 2.00) to avoid disqualification.

Disqualification

Students who do not meet probation requirements are academically disqualified. Disqualified students should meet with their academic advisors. These students may attend ASU during the summer session immediately following disqualification only.

Cronkite School Journalism & Mass Communication Majors – Students in this major must maintain a minimum 2.5 GPA for all courses completed at ASU in order to be in good standing in the major. If a student's GPA falls below a 2.50 cumulative GPA they will have one semester to raise their cumulative GPA to meet the requirement. Failing to raise the cumulative GPA to a 2.50 or higher will result in the student having to change her major from Journalism and Mass Communication.

Cronkite School Mass Communication and Media Studies Majors - Students in this major follow the University policies for GPA requirements, probation and disqualification.

Advising

Cronkite School undergraduate students are assigned an advisor by the student's last name. See the Undergraduate Advising page for specifics: <http://cronkite.asu.edu/undergrad/advising.php> [6]

To ensure students are making progress toward their degrees, the Cronkite School encourages students to check in with their advisors each semester. Advising is mandatory for:

- first-time freshmen, both semesters their first year at ASU
- transfer students prior to enrolling for their first semester at ASU
- students on probation
- students who are off-track in the major

ASU Online students are strongly encouraged to make an appointment with their respective advisors before enrolling for their first semester.

For additional information, contact the Cronkite School's Advising Center at 602-496-5055.

Students should follow the sequence of courses outlined on major maps and online degree audits and contact their Cronkite advisor with any questions. Critical requirements for freshmen in the school are available at <http://cronkite.asu.edu> [1].

Credit/Registration

Changes of Major – students are eligible to change their major if they meet the criteria below:

Journalism and Mass Communication degree program: Current ASU students who have at least 12 hours of credit earned at ASU and at least a 3.00 cumulative GPA are eligible for admission.

Transfer students with at least 12 hours of academic credit earned after high school and at least a 3.00 cumulative GPA are eligible for admission.

Online Mass Communication and Media Studies degree program: Current ASU students who have at least 2.00 cumulative GPA are eligible for admission. Prospective transfer students (not yet admitted to ASU) and ASU students who have a cumulative GPA below 3.00 are encouraged to meet with a Cronkite School advisor. To schedule a meeting, contact the Advising Center at 602-496-5055.

Transfer Credit

Credit from other institutions is accepted subject to the following guidelines: Students may apply up to 64 credits of course work from an accredited two-year institution to their degree. Students may apply up to nine credit hours of approved upper-division journalism course work from a four-year ACEJMC accredited institution to the Cronkite School's journalism degree requirements. Students interested in having these courses reviewed should provide detailed syllabi and course schedules to the Cronkite School's academic standards committee. Students should see their academic advisors for help.

Degree requirements

All Cronkite students must meet the critical requirements for their majors. Students who are required to follow eAdvisor Tracking requirements and do not comply with the critical requirements are off-track and will have a hold placed on their records. These students must meet with an advisor to have the hold removed.

Specific requirements for the Journalism and Mass Communication degree can be found at: <https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/CSJMCBA/undergrad/false>. [7].

Specific requirements for the Mass Communication and Media Studies degree can be found at: <https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/CSMCMSTBA/undergrad/false> [8].

Reinstatement/Readmission

Students seeking readmission after being discontinued from the university should contact undergraduate admission services at <https://students.asu.edu/contact/admissions> [9].

Other special requirements

Major proficiency requirements – all Cronkite students must receive at least a “C” (2.00) or in all JMC and MCO courses. Journalism and Mass Communication majors must also receive a grade of Y (80 percent or better) in JMC 101 Grammar for Journalists, or pass the Cronkite School’s English Grammar Exam.

Graduate Policies

The Walter Cronkite School of Journalism and Mass Communication is a nationally recognized professional program that prepares students for careers as reporters, editors, producers, correspondents, anchors and multimedia journalists. Our students go on to online media outlets, television stations, newspapers, magazines, radio stations, websites and digital media companies.

The school consistently ranks in the top 10 in the annual Hearst intercollegiate journalism competition, often called the Pulitzers of college journalism. And the school’s students have finished first in the Society of Professional Journalists’ Mark of Excellence Awards for a record sixth consecutive year. The faculty consists of award-winning professional journalists and world-class media scholars. The school is housed on ASU’s Downtown Phoenix campus, in the middle of one of the nation’s largest media markets.

More information on the school’s academic standards, policies, and procedures and those of ASU Graduate Education can be found at http://graduate.asu.edu/faculty_staff/policies [10].

Academic Integrity

Academic dishonesty in any form will not be tolerated in the Walter Cronkite School of Journalism and Mass Communication.

The crux of our democracy is the ability of citizens to obtain honest, truthful and balanced information, and the credibility and integrity of the individual journalist and communications professional are crucial in that effort.

In light of the Cronkite School’s mission to prepare students to become journalists and communication professionals, it is critical that credibility and integrity are fostered within the educational environment of the school. To that end, a zero tolerance policy toward academic dishonesty will be enforced within every course and educational activity offered or sanctioned by the school.

Any allegations of academic dishonesty will automatically be referred to the standards committee of the school for review and recommendation to the dean of the school. **If any student is found by the committee to have engaged in academic dishonesty in any form — including but not limited to cheating, plagiarizing (<http://cronkite.asu.edu/about/plagiarism.php> [11]) and fabricating — that student shall receive a grade of XE for the class and will be dismissed from the Walter Cronkite School of Journalism and Mass Communication. There will be no exceptions.**

The Cronkite School will notify Graduate Education if a graduate student is being dismissed from the school for having engaged in academic dishonesty.

Admission

Candidates for the master of mass communication degree apply online at <https://students.asu.edu/graduate> [12]. Admission is for the fall semester and candidates must meet Graduate Education's admission requirements before the Cronkite School can review the application. Applicants must submit official transcripts in sealed envelopes directly to the Graduate Education office. Applicants who are not native English speakers must also submit the results of the TOEFL. The Cronkite School's application deadline is Feb. 1 of each year.

Plan of Study

After completing 18 of the 36 credit hours of course work required for the master of mass communication degree, students must file an official Plan of Study with the Walter Cronkite School of Journalism and Mass Communication. The Plan of Study is available online via the MyASU link on <http://www.asu.edu/> [13].

The student selects the ASU courses that have been taken, those in progress and those the student plans to take in future semesters. Once the Plan of Study is completed, it is electronically forwarded to the Cronkite School's graduate office. It must be approved by the members of the Cronkite School's graduate committee and dean. The completed Plan of Study is sent to the Graduate Education and then to the Graduation Office. The approved Plan of Study is a contract between the student and the school verifying the classes the student intends to take during his or her course of study. Students who have not filed an approved Plan of Study are not eligible for graduation. Changes in the Plan of Study may be made by using the Course Changes to the Graduate Plan of Study available online at MyASU (<http://www.asu.edu/> [13]).

Students who need to file a Plan of Study will be notified by the Graduate Education via email. If the student fails to file the Plan of Study within the specified time period, a hold will be placed on the student's ASU record. The hold will prevent the student from registering for classes. Once the student has filed the Plan of Study and it has been approved, the hold will be removed. The Graduate Education monitors students' POS status and places or removes the holds.

Satisfactory Academic Progress

All graduate students are expected to make systematic progress toward completion of their degree. This progress includes satisfying the conditions listed below, and achieving the benchmarks and requirements set by the individual degree programs. Each degree program should have in place policies for satisfactory academic progress. Students are responsible for verifying additional satisfactory progress policies as required by their degree program. If a student fails to satisfy the requirements of their degree program and the benchmarks outlined below, the student may be dismissed from their program based on the academic unit's recommendation to Graduate Education. The vice provost for Graduate Education makes the final determination.

1. Maintain a minimum of 3.00 GPA on both the iPOS and Graduate GPAs. If either GPA falls below 3.00, the student must develop, with their advisor, an academic performance improvement plan that includes the conditions and timeframes for making satisfactory academic progress in their degree program.
 - o The iPOS GPA is calculated from all courses that appear on the student's approved iPOS.
 - o The graduate GPA is calculated from all courses numbered 500 or higher that appear on the transcript, with the exception of courses counted toward an undergraduate degree at ASU (unless shared with a master's degree in an approved bachelor's and master's degree program); and courses identified as deficiencies in the original letter of admission. The student is considered to be on academic probation until the conditions specified in the academic performance improvement plan are met and both GPAs are above 3.00
2. Satisfy all requirements of the graduate degree program.
3. Satisfy the maximum time limit for graduation from the student's graduate degree program (six years for master's, ten years for doctoral).
4. Doctoral students must comply with the five year time limit for graduation after passing the comprehensive exams.
5. Successfully pass comprehensive exams, qualifying exams, foreign language exams, and the oral defense of the proposal or prospectus for the thesis or dissertation.
6. Successfully complete the culminating experience and, if required, the oral defense of the culminating experience.
7. Graduate students must stay continuously enrolled in their degree program. Failing to do so without a Graduate Education approved Request to Maintain Continuous Enrollment is considered to be lack of academic progress and may lead to automatic dismissal of the student from the degree program. Persistent "W" and "I" grades during multiple semesters on a plan of study or transcript may reflect lack of academic progress.

In addition to the Graduate Education satisfactory academic progress policies, the Walter Cronkite School of Journalism and Mass Communication has adopted the following:

1. If a student's GPA falls below 3.00, the student will be notified in writing and placed on probation. If the student's GPA is not raised to at least a 3.00 by the end of the next semester (excluding summer), a recommendation will be made to Graduate Education to remove the student from the Master of Mass Communication program.
2. If a student earns less than a "C" in MCO 502 Journalism Skills (Bootcamp), the Cronkite School will recommend to Graduate Education that the student be removed from the program immediately.
3. To receive their degrees, Master of Mass Communication students also are required to earn at least a "B" in MCO 570 Capstone.

Appeals

Students who want to appeal a course grade must first discuss the issue with the instructor. If the issue is not resolved, the student may appeal the decision to the school's standards committee. The standards committee will review the issue and make a recommendation to the dean. The dean's decision is final. Students should be aware the standards committee may recommend a grade lower than the one awarded by the course instructor.

If a student fails to make satisfactory academic progress and a recommendation is made to Graduate Education to remove the student from the Master of Mass Communication program, the student will have ten business days to file a written appeal with the dean. The dean's decision regarding appeals is final.

Transfer Credit

Students admitted to the 30-credit hour mid-career MMC program may transfer up to six credit hours of approved course work taken before beginning the program; the six credit hours may include nondegree course work. Only courses with a grade of "A" or "B" and taken within three years of admission to an ASU graduate program may be accepted as transfer credit.

In order to have graduate course work that was completed at other accredited institutions included on a Plan of Study, a student must petition the Cronkite School's graduate committee. The student also must complete the petition section of the Plan of Study.

Students who are in the 36-credit hour professional master's program are not permitted to transfer course work from another institution or from another ASU program.

Time Limitations

Students have six years from the start of their program to complete their degrees.

400-Level Courses Taken for Graduate Credit

The Walter Cronkite School of Journalism and Mass Communication may allow graduate students to enroll in and use up to two three-credit 400-level courses on their Plans of Study (a total of six credit hours). Students must receive permission from the senior associate dean prior to enrolling in any 400-level course they intend to include on their Plans of Study. Students taking these courses are responsible for obtaining and completing the 400-Level Course Contract form. This form specifies what the student must do to receive graduate credit for the course. It must be signed by the professor.

Preadmission Credit

Credit earned in graduate-level courses (per Graduate Education policy) by undergraduate students may count toward their graduate degrees at ASU provided the credit hours have not been used toward a previously awarded degree. Before awarding a bachelor's degree, ASU undergraduate students should contact their undergraduate adviser to set aside graduate courses for use toward a graduate degree.

Reserving a course does not guarantee the student will be admitted to a graduate degree program or that the course will be used to meet graduate degree requirements. A maximum of nine semester hours of credit may be reserved and only courses with a grade of

“B” (3.00) or better are applicable. Reserved credit is classified as nondegree credit and must be taken within the six-year time limit to be included on a Plan of Study.

Grades of Incomplete

The Graduate Education requires students who receive an incomplete in graduate course work (500-level or above) to complete the necessary work within one calendar year. If the incomplete is not removed within one calendar year, it will become part of the student’s permanent transcript and cannot be used on a student’s Plan of Study. To receive credit for the course, the student must repeat the course by reregistering, paying fees and fulfilling all course requirements.

MMC students with more than one incomplete at any time will be considered failing to make adequate progress, and they will be notified and placed on probation. If the student does not complete the work to remove the incomplete and earn a letter grade by the end of the calendar year, a recommendation may be made to Graduate Education to remove the student from the Master of Mass Communication program.

With 400-level courses taken for graduate credit, students are required to complete the necessary work to remove an incomplete grade within one calendar year. If the incomplete grade is not removed within one calendar year, the “I” will become an “E.” An “E” cannot be used to meet the requirements for a graduate degree, but it is used to calculate the student’s GPA. Students may retake the class to earn a higher grade; however, both the “E” and the new grade will be used in calculating the student’s GPA. If this results in the GPA falling below 3.00, a recommendation to withdraw the student from the MMC program will be made to Graduate Education.

Applied Project

Students enrolled in the 30-credit hour mid-career program have the option of completing an applied project and are eligible to enroll in MCO 593, Applied Project, when they have no more than six credit hours of course work remaining on their Plan of Study. Students interested in completing an applied project are encouraged to meet with the senior associate dean no later than the end of their first year in the program.

For more information on the applied project see the Applied Project Procedures handout available in the Cronkite School’s Graduate Office.

Financial Aid

Many graduate students receive financial aid from ASU to assist in financing their education. More information can be found at <http://graduate.asu.edu/financing> [14].

ACEJMC Values and Competencies

As a member of the Accrediting Council on Education in Journalism and Mass Communication, the Cronkite School is committed to classroom learning that achieves ACEJMC professional values and competencies. These include the core areas of freedom of speech, ethics, diversity, critical thinking, research, writing and use of tools and technologies related to the field. For a full list of ACEJMC values and competencies, see <http://www2.ku.edu/~acejmc/PROGRAM/PRINCIPLES.SHTML#vals&comps> [4].

Diversity Principles

The Walter Cronkite School of Journalism and Mass Communication practices inclusivity in student, staff and faculty populations in order to create an academic environment that embraces diversity of thought and acceptance of all people regardless of societal, political, cultural, economic, spiritual or physical difference, age or sexual orientation.

To this end, the school directs efforts to the following four principles:

1. Actively seek out and encourage diverse populations to become productive members of the faculty, staff and the student body.
2. Create and maintain a work, learning and social environment that is cognizant and supportive of a diversity of human differences and beliefs.

3. Incorporate within the formal content of the curriculum and in each course an affirmation of the core journalistic values of accuracy, fairness, ethical behavior and sensitivity when reflecting an increasingly multicultural world.
4. Foster and support a climate in which events and activities of the school reflect diversity of awareness, sensitivity to and support for people of different origins, orientations and abilities.

Social Media Guidelines for Student Journalists

The Cronkite School encourages participants in its professional programs to make use of social networking sites such as Facebook and Twitter, which are valuable reporting tools and promotional and distribution channels for our content. To ensure the highest journalistic standards in these programs, participants must abide by the following standards for social media use drawn from The Poynter Institute for Media Studies and the Society of Professional Journalists' Code of Ethics.

Law, Sandra Day O'Connor College of

Graduate Policies

Academic Integrity

Honor Code

The legal profession, a self-regulating association, depends on the integrity, honor and personal morality of each member. Similarly, the integrity and value of a Sandra Day O'Connor College of Law degree depends on a reputation for fair competition. The college's honor code is intended as a measure to preserve the integrity of the school's diploma and to create an arena in which students can compete fairly and confidently. Copies of the honor code are available from the college's student services office.

Academic Standing

Retention Standards

The College of Law requires a minimum grade point average of 73.00 or 2.00 to continue enrollment. If a student's grade point average falls below this number, he or she may be disqualified in accordance with College of Law policies.

The College of Law statement of student policies contains additional retention and academic policies. The statement of student policies can be found at <http://law.asu.edu> [1].

Advising

Academic assistance for currently enrolled law students is available through the office of the assistant dean for academic affairs.

Admission Process

The Sandra Day O'Connor College of Law enrolls only one first-year, JD class per year, and it enters in the fall semester. The program is a three-year program, and almost all students study on a full-time basis. The college does offer a flexible scheduling option for students with circumstances that make full-time enrollment impossible. The following steps must be completed for an applicant to be considered for admission to the JD program:

1. Demonstrate an earned undergraduate degree from an accredited four-year college or university by the time of enrollment in the JD program.
2. Take the LSAT and provide a reportable score from that test.
3. Submit a completed application with application fee.
4. Submit transcripts and letters of recommendation through the Law School Admissions Council's Credential Assembly Service, which will be provided to the College of Law by LSAC with the applicant's LSAT record. Applicants must apply electronically through www.lsac.org [2].

The undergraduate record and LSAT score are only two of many factors considered for admission.

More details about the application process can be found at <http://www.law.asu.edu/admissions> [3]. For an application to be considered timely, it must be postmarked or electronically submitted by Feb. 1. For earlier consideration, the early decision deadline is Nov. 15.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies including those of Graduate Education and the Sandra Day O'Connor College of Law.

Source URL: <https://catalog.asu.edu/policies/law>

Letters and Sciences, School of

The School of Letters and Sciences provides students across ASU with the knowledge and skills to comprehend and effectively engage the changing world of the 21st century at local, national and global levels. The school offers graduate and undergraduate degree programs that prepare students for a rapidly changing marketplace, as well as foundational instruction in humanities, social sciences, mathematics, sciences and professional fields. The school also offers ASU students with fewer than 45 college credit hours the opportunity to explore all ASU degrees as an exploratory student.

Undergraduate Policies

Academic Integrity

Academic honesty is expected of all students in all examinations, papers, academic transactions and records. The possible sanctions include, but are not limited to, appropriate grade penalties, loss of registration privileges, disqualification and dismissal. The School of Letters and Sciences adheres strictly to the student code of conduct regarding academic dishonesty. A copy of the student code of conduct may be obtained from the student's academic advisor or online at <http://provost.asu.edu/academicintegrity> [1].

Academic Standing

To be considered in academic good standing in the School of Letters and Sciences, students must achieve a cumulative GPA of 2.00 or higher.

Students who do not achieve a 2.00 GPA will be placed on university academic probation and must meet with an advisor to discuss academic success strategies for the subsequent semester. Students on academic probation will be required to take UNI 220 Academic Refresher. UNI 220 will appear on the students' DARS. In addition, students who have fewer than 24 credit hours will be required to participate in the ASU PASS [2] program. If students successfully complete UNI 220 and participate in the PASS program, they will get an additional semester of continuing probation before being disqualified.

Within one semester, a student on academic probation must do one of the following:

1. Raise ASU cumulative GPA to 2.00 or higher in order to return to academic good standing.
2. Obtain a semester GPA of 2.00 or higher and be continued on probation even if the cumulative GPA is below a 2.00. The student may be continued on academic probation, earning the required semester GPA, for as many semesters as needed to achieve academic good standing.

Students who fail to meet either of these options may be disqualified from ASU.

Advising

All students are encouraged to seek advising before registration. Students must follow the calendar published in the registration and tuition payment guide each semester for information and deadlines pertaining to enrollment, adding or dropping classes and withdrawals.

In addition to information provided by an academic success specialist, students must read the requirements for university general studies, college graduation and major degree requirements in their edition of the ASU academic catalog. The ASU academic catalog is the governing source for all degree requirements.

Advising Locations and Contact Information: <https://sls.asu.edu/node/480> [3]

Mandatory Advising

The following students in the School of Letters and Sciences must receive advising clearance prior to course registration:

- students in all exploratory tracks
- students in their first semester at ASU
- students completing their 30th, 60th and 90th credit hours
- students on academic probation
- students who have been readmitted to ASU
- students who have been disqualified (these students are allowed to attend ASU summer sessions only and must be advised prior to registration)
- students who are off-track for graduation

Students are encouraged to check their mandatory advising status each semester before attempting any registration transactions through MyASU.

Credit/Registration

Students enrolling in courses offered by the School of Letters and Sciences are expected to follow the rules and deadlines specified in this catalog and the current registration and tuition payment guide. Students are encouraged to meet with their academic success specialists before registration.

Degree Requirements

All candidates for graduation are required to complete at least 120 credit hours, of which at least 45 hours must consist of upper-division courses. A minimum ASU cumulative GPA of 2.00 is required for graduation.

Critical and Necessary Requirements

eAdvisor is a suite of tools used to monitor student progression toward degree completion consisting of Degree Search, major maps and the tracking of critical and necessary requirements. All undergraduate majors at ASU provide an eight-term course plan leading to four-year graduation called a major map.

Terms one through four include one or more courses designated as critical requirements. These courses are a critical predictor of success in a specific major. Necessary requirements designated in terms five through eight must be completed successfully and in the appropriate term to ensure timely completion of the degree program.

Access eAdvisor at <http://eadvisor.asu.edu/> [4].

Exploratory Students

All first-year students who choose to become an exploratory student are required to declare an exploratory track in one of four areas:

- exploratory social and behavioral sciences
- exploratory health and life sciences
- exploratory humanities and fine arts
- exploratory math, physical sciences, engineering and technology

Each of these tracks is designed to provide students with introductory courses in a field of choice (e.g., introduction to psychology, introduction to environmental design), general studies education and elective courses that reinforce student interests. Each exploratory track is composed of a three-semester major map, culminating in the declaration of a major no later than the completion of 45 credit hours. Students are required to maintain a GPA that keeps them in good academic standing with the university and allows them to declare the major of their choosing.

Major maps for each of these exploratory tracks and all other School of Letters and Sciences and ASU majors are available at <http://www.asu.edu/programs/> [5].

Required Courses

All new School of Letters and Sciences freshman students are required to enroll in the ASU 101 course during their first ASU semester.

All exploratory students are also required to enroll in a major and career exploration class (UNI 150, 250, or 270) each semester the student remains designated as an exploratory student.

Appeals Procedures

Academic appeals and requests for variances or exceptions should be discussed first with the student's academic success specialist and then, if necessary, submitted in writing to the School of Letters and Sciences standards committee. The university undergraduate standards committee also reviews all requests reviewed by the School of Letters and Sciences standards committee for exceptions to university requirements. For more details please visit <https://sls.asu.edu/node/203> [6].

Concurrent Degrees

The school allows students who have completed at least 30 graded credit hours with a minimum GPA of 2.00 to request approval from the school to pursue a concurrent degree. Concurrent degrees may not be from the same discipline or have overlap in the courses required for each major. Note: in order to complete a concurrent degree, students must earn at least 30 unique credit hours

applied toward each degree. Students should schedule an academic advising appointment to begin the concurrent degree approval process.

Readmission

Students who have been disqualified from ASU may be readmitted to the School of Letters and Sciences for a fall or spring semester if they complete one of the following:

1. Raise their ASU cumulative GPA to good academic standing (2.00) by taking ASU summer session courses.
2. Complete 12 or more transferrable credit hours at a community college or university with no grades lower than a "C" and a GPA of 2.50 or better. Courses in which the student failed or received a "D" at ASU should not be repeated at another institution.

Once readmitted, the student may be placed on academic probation for at least one semester. Students on probation will have one semester to raise their cumulative or semester GPA to meet ASU academic good standing (2.00). Failure to do so will result in disqualification from the university.

Graduate Policies

Please review graduate policies at graduate.asu.edu/forms/gradpolicies [7].

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies including those established by Graduate Education and the School of Letters and Sciences.

Liberal Arts and Sciences, College of

Included are the current policies in the College of Liberal Arts and Sciences.

Undergraduate Policies

Academic Integrity

Academic honesty is expected of all students in all examinations, papers, laboratory work, academic transactions and records. The possible sanctions include, but are not limited to, appropriate grade penalties, loss of registration privileges, disqualification and dismissal. For more information, see <http://provost.asu.edu/academicintegrity> [1].

Student Responsibilities

Students enrolling in courses offered by the College of Liberal Arts and Sciences are expected to follow the rules and deadlines specified in this catalog pertaining to enrollment, adding or dropping classes, withdrawals, and tuition payment.

Students are encouraged to meet with their departmental academic advisors regularly. Students with additional questions regarding the academic rules of the college and the university are welcome to meet with advisors in the college's office of student and academic programs, in FULTN 110 (480-965-6506).

In addition, students must understand and follow the requirements for university General Studies and college graduation requirements in their edition of ASU's Academic Catalog. The academic catalog is the governing source for all degree requirements.

Academic Standing

The standards for GPA and the terms of academic probation, disqualification, reinstatement and appeal are identical to those of the university, as set forth under retention and academic standards. One exception, disqualified students in the College of Liberal Arts and Sciences are suspended for at least two regular semesters at the university.

When a student is placed on probation, one of three things can happen. The student can:

- return to academic good standing by raising his or her cumulative GPA to 2.00 or higher
- remain on probation by earning the required semester GPA of at least 2.00, but not raising the cumulative GPA to academic good standing*
- be disqualified if the student fails to achieve the required semester GPA of 2.00

*A student may continue on academic probation, earning the required semester GPA, for as many semesters as it takes to raise the cumulative GPA to academic good standing.

Students who are placed on academic probation are required to see their major advisor. Students who are academically disqualified should contact the office of student and academic programs in FULTN 110 (480-965-6506).

Note: Students who leave the university for a semester or more while on academic probation are not automatically readmitted. Such students should contact the office of student and academic programs regarding procedures for reinstatement and returning to academic good standing.

Advising

All students are encouraged to seek advising before registration.

eAdvisor

eAdvisor provides students the tools to successfully follow their major maps to graduation and to assist in:

- learning more about graduation requirements for their majors
- discerning what critical-requirement courses and grades are required to stay on track to successfully complete their degrees
- planning for and scheduling appropriate courses in the correct sequence to maximize success
- monitoring progress toward their degrees
- finding out how courses may fit into other majors if they decide to change majors or to add concurrent degrees

Students can access and learn more about eAdvisor at <http://eadvisor.asu.edu/> [2].

Advising Locations

College of Liberal Arts and Sciences students should seek routine advising in the department or school of their major. Locations of each advising office can be found at <https://clas.asu.edu/current-students/department-advisors> [3].

The office of student and academic programs, in FULTN 110, is the central resource center for academic information in the college. Requests from students, departmental advisors and faculty for clarification of rules, procedures and advising needs of the college and university should be directed to that office. Also available is information on policies and procedures of the college regarding academic honesty, student grievances with respect to grades and various petitions involving college and university degree and graduation requirements.

Required Advising

The following groups of students are required to meet with their advisors in order to be eligible to register for their courses:

- all students registering for their first semester at ASU
- freshmen registering for their second semester at ASU
- students on academic probation
- students who have been disqualified
- students who are off track in their major

Students listed above should consult an advisor in the department or school of their major. One exception, disqualified students should schedule an advising appointment with the office of student and academic programs located in FULTN 110 (480-965-6506).

Advising for Preprofessional Programs	
Professional Field	Advisor Location
Dentistry	FULTN 110
Foreign Service	Diplomat in Residence, Philip Egger, COOR 6th floor
Law	FULTN 110
Medicine	FULTN 110
Ministry	School of Historical, Philosophical and Religious Studies, COOR 3309
Occupational Therapy	FULTN 110
Optometry	FULTN 110
Osteopathy	FULTN 110
Pharmacy	FULTN 110
Physical Therapy	FULTN 110
Physician Assistant	FULTN 110
Veterinary Medicine	FULTN 110

Health Professions

Students who plan to pursue a health profession should meet regularly with the preprofessional advising staff located in the office of student and academic programs. For each of the health-related fields listed above, specific courses must be taken to complete graduate or professional school prerequisites and to prepare for required standardized admission exams (e.g., MCAT). To schedule a meeting with a prehealth advisor, call 480-965-2365 (FULTN 110).

Prelaw

Students who plan to pursue a law-related profession should seek out guidance from the preprofessional advising staff located in the office of student and academic programs. There are no specific course requirements for entrance into law school. Courses that engage students in intense critical analysis and include substantial amounts of writing, however, are recommended as are practical experiences in legally related fields (e.g., through internships). Students can schedule a meeting with a prelaw advisor by calling 480-965-2365.

Credit/Registration

Credits, Degrees and Course Registration

Credit Requirement

All candidates for graduation for bachelor degrees in the college are required to complete at least 120 credit hours, of which at least 45 hours must consist of upper-division courses. A minimum ASU cumulative GPA of 2.00 is required for graduation.

Concurrent Degrees

The college allows students who have completed at least 30 graded credit hours with a minimum GPA of 2.00 to petition the college to pursue a concurrent degree. Concurrent degrees may not be from the same discipline or have overlap in the courses required for each major. Petition forms can be found on the college's website or through the office of student and academic programs (FULTN 110). Note: in order to complete a concurrent degree, students must earn at least 30 unique credit hours applied toward each degree.

Minors

The college offers minors in many of its disciplines. All minors must entail a minimum of 18 hours in the discipline with at least 12 of those hours as upper-division courses. Six of the upper-division hours must be taken from courses offered by the College of Liberal Arts and Sciences. Students should work with the advisors in the departments of their minors to make certain they are making the most effective choices to complete their minors. Students may not use courses in their minors toward their majors and, similarly, students may not use courses in their majors to fill the requirements of their minors. Additionally, there may be some disciplines that are too close in content for a student to choose a particular combination of minor and major.

Course Load

The normal course load is 15 or 16 credit hours for a full 15-week semester. First-semester freshmen and entering transfer students are not permitted to register for more than 18 credit hours in the initial 15-week semester or nine credit hours in session A and nine credit hours in session B. Other students who wish to register for more than 18 hours must have a GPA of at least 3.40 and have completed a minimum of two semesters at ASU, in which they have completed 17 to 18 hours per 15-week semester. Students meeting these requirements may seek an overload for 19 to 20 hours (or up to 10 hours in either session A or B) from the advising office in the departments of their majors. Any petition for an overload in excess of 21 hours (or more than 10 hours in either session A or B) must be presented to the office of student and academic programs, in FULTN 110. No student should assume that his or her petition for overload will be granted.

For summer sessions, the maximum course load is 14 credit hours, seven per six-week summer session. Overloads are rarely granted for these sessions, and requests must be petitioned to the office of student and academic programs, in FULTN 110.

Pass/Fail Grade Option

The pass/fail grade option is intended to broaden the education of liberal arts and sciences undergraduates by encouraging them to take advanced courses outside their specializations. A grade of "P" (pass) contributes to a student's earned hours, but does not affect the GPA. A failing grade is computed into the GPA.

College of Liberal Arts and Sciences students with at least 60 credit hours may take courses under the pass/fail option. The following conditions apply:

- Enrollment for the pass/fail option must be approved by the instructor and the college.
- Enrollment for the pass/fail option must be indicated during registration and may not be changed after the drop/add period.
- A maximum of 12 hours taken for pass/fail may be counted toward graduation.

Note: Students may not enroll under the pass/fail option in the following courses:

- those taken to satisfy the second-language or first-year composition requirements
- those in the student's major, minor or certificate program
- those counted toward or required to supplement the major
- those counted as 499 Individualized Instruction
- those taken for honors credits

- those counted toward satisfying the College of Liberal Arts and Sciences graduation requirements or ASU's General Studies requirements

Audit Grade Option

Students may choose to audit courses in which they attend regularly scheduled class sessions but earn no credit. Students wishing to audit a course should obtain instructor approval before registering. Note: The audit grade option may not be changed after the drop/add period.

Degree Requirements

College Graduation Requirements

All students in the College of Liberal Arts and Sciences must complete the university General Studies requirements as well as all requirements in their major. In addition, the college has established requirements that are specific to the BA, BS and BS in planning degrees.

Requirements for all college undergraduates. All students are required to take a minimum of MAT 117 or higher, excluding MAT 110 and one-credit hour math courses. A grade of "C" (2.00) or higher must be earned in the chosen mathematics course.

Each student admitted as a first-time freshman is required to complete a freshman success course or first-year seminar. These courses are designed to introduce students to the college and help them gain understanding of what they will need to do to be successful students at ASU. Topics include academic success, academic integrity and student engagement.

Bachelor of Arts. Each student pursuing a bachelor of arts degree must demonstrate intermediate proficiency in a second language by completing the courses specified below with a grade of "C" (2.00) or higher in each course. The second-language course requirement may be fulfilled in one of the following ways:

- completion of second-language course work at the intermediate level (202 or equivalent)*
- a foreign language course at the 300 level or higher taught in the foreign language and having 202 or its equivalent as a prerequisite
- demonstrated completion of secondary education at a school in which the language of instruction is not English
- completion of SHS 202 American Sign Language IV or its equivalent

*Those students completing this requirement in Ancient Greek must take GRK 301 and 302; students completing the requirement in Portuguese or Romanian must complete POR 314 or ROM 314.

Bachelor of Science. Each student pursuing a bachelor of science degree must complete six credit hours (two courses) of Science and Society courses. Students should consult an advisor in the department or school of their major for a list of appropriate courses. The current list of Science and Society courses is also listed on the college's website at <https://clas.asu.edu/advising-and-academic-services/science-and-society>. [4]

Major Requirements

Each student is required to select a major from among the fields of study offered by the college. Major maps describe the requirements for completion of each degree program.

The department of the major may require up to 45 credit hours of course work. The minimum is 30 hours. A maximum of 15 additional hours may be required in related courses and prerequisites. No more than 60 credit hours of course work may be required to complete the major, related courses and prerequisites. Some departments require calculus-level mathematics and up to five of these credit hours may be excluded from the 60-hour maximum as they satisfy the college's mathematics proficiency requirement. A minimum of 12 upper-division hours in the major must be taken in residence and from courses offered by the College of Liberal Arts and Sciences.

No credit is granted toward fulfilling major or minor requirements in any upper-division course in that subject field unless the grade in that course is at least a “C” (2.00). In the College of Liberal Arts and Sciences, the assignment of a grade of “Y” (satisfactory) indicates a level of performance that would have resulted in a grade of at least “C” (2.00) had the normal grading scheme been used.

See individual departmental websites for other minimum grade requirements.

Major fields of study are classified into the following three areas:

Humanities

- Asia studies
- Asian languages (Chinese/Japanese)
- English
- film and media studies
- French
- German
- history
- international letters and cultures
- Italian
- Jewish studies
- philosophy
- religious studies
- Russian
- Spanish

Natural Sciences and Mathematics

- actuarial science
- biochemistry
- biological sciences
- biophysics
- chemistry
- computational mathematical sciences
- Earth and environmental studies
- Earth and space exploration
- mathematics
- microbiology
- molecular bioscience/biotechnology
- physics
- psychology

Social Sciences

- African and African American studies
- American Indian studies
- anthropology
- applied mathematics for the life and social sciences
- Asian Pacific American studies
- communication
- economics
- family and human development
- geographic information science
- geography
- global health
- global studies
- justice studies

- political science
- sociology
- transborder Chicana/o and Latina/o studies
- urban planning
- women and gender studies

General Electives

Most liberal arts and sciences majors can meet all the above requirements with fewer than the 120 credit hours required for graduation. Remaining hours are general electives that may be selected from any of the departments of the College of Liberal Arts and Sciences or from the offerings of other ASU schools and colleges.

Reinstatement/Readmission

Students who have been academically disqualified from the university can earn readmission or reinstatement to the college and to their majors. That process begins with developing a plan with advisors in the office of student and academic programs. The plan will include taking at least 12 approved credit hours at community college and earning a minimum GPA of 3.00 with no course earning a grade below a "C" (2.00). Students can schedule a meeting to develop a plan with the office of student and academic programs by calling 480-965-6506.

Note: Disqualified students who were off track for two or more semesters at the time of their disqualification will not be readmitted or reinstated into their former majors.

Other Special Requirements

Some of the major degree programs offered by the college require students to satisfactorily complete a portfolio before being permitted to take upper-division classes. Others require students to study abroad as part of the degree program. Students should check with the departments or schools of their majors to see if there any such policies apply to them.

Graduate Policies

Please consult the individual school or department for information about requirements for graduate study.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies set forth by Graduate Education and the College of Liberal Arts and Sciences.

New College of Interdisciplinary Arts and Sciences

The New College of Interdisciplinary Arts and Sciences is dedicated to providing knowledge on the cutting edge, preparing students with the abilities they will need to succeed in the 21st century.

New College offers an interdisciplinary approach by building upon the knowledges of multiple disciplines such as history, religion, psychology, sociology, biology and statistics, and brings them together to meet such challenges as developing sustainable societies, creating social justice and human rights, ending poverty and understanding who we are and what gives meaning to our lives.

New College focuses on the arts and sciences, a curriculum grounded in the study of a particular discipline or major within a broad general education that provides students with the ability to think critically, to express themselves in speaking and writing, to use quantitative and technological skills in solving problems, and to understand how values shape individuals and societies.

Further, in the tradition of a liberal arts education, New College is built upon close faculty-student relationships, and a large number of undergraduates pursue their own faculty-sponsored independent research projects. Students are also granted the opportunity to integrate curricular with extracurricular life not only by lectures, discussions and activities outside of the classroom, but also by internships and service-learning opportunities in local businesses and organizations. For more information, visit <http://newcollege.asu.edu/> [1].

Undergraduate Policies

Academic Integrity

The New College of Interdisciplinary Arts and Sciences adheres to ASU's student academic integrity policy. Therefore, academic honesty is expected in all areas of student work including examinations, written work, laboratory assignments, internships, group work and all other necessary transactions. If academic integrity is compromised, possible sanctions include, but are not limited to, course assignment grade penalties, failure of course, disqualification and dismissal from the university. For more information, see <https://provost.asu.edu/academicintegrity/policy> [2].

Academic Standing

New College students must achieve a cumulative GPA of 2.00 in order to be considered in good academic standing at ASU. Students falling below a semester or cumulative GPA of 2.00 will be placed on academic probation and will be required to meet with an advisor to effectively plan academic progress toward graduation. For further information, see https://catalog.asu.edu/retention_standing [3].

Advising

All students in New College are encouraged to seek academic advisement prior to course enrollment each semester.

To ensure students are making timely progress toward degree completion, advising may be required for the following:

- newly admitted students
- freshman students
- students on academic probation
- students off-track for eAdvisor Tracking requirements

For New College advising information, see <http://newcollege.asu.edu/college-advisor> [4].

For eAdvisor Tracking and other general academic program information, see <https://students.asu.edu/academics> [5].

Credit/Registration

Audit Grade Option

Students may audit a course, which allows them to attend but not earn credit. Students must obtain instructor approval prior to enrollment (<https://students.asu.edu/grades> [6]). This grade option may not be changed after the drop/add period.

The audit option may be used under the following conditions:

- approval has been granted from the instructor and college offering the course
- audit option chosen during initial registration for the course

Course Load

Students are limited to a maximum of 18 credit hours per term. Enrollment in additional credit hours requires college academic advisor approval.

Course Prerequisites

Course prerequisites are established to ensure student success in a course. Students must complete all course prerequisites prior to enrolling in the desired course. Prerequisite overrides may be granted under the following conditions:

- transfer course has been accepted by advisor to fulfill required course prerequisite
- prerequisite override has been granted by an advisor

Grade of Incomplete

A grade of incomplete is granted if a student is in good standing in the course and has completed a substantial portion of the course work, but experiences extenuating circumstances prior to the end of the semester, preventing completion of the course (see <https://students.asu.edu/forms/incomplete-grade-request> [7]).

Pass/Fail Grade Option

A grade of “Y” (pass) contributes to a student’s earned hours, but does not affect the GPA. A failing grade is calculated into the GPA.

The pass/fail grade option may be used under the following conditions:

- approval has been granted from the instructor and college offering the course
- pass/fail option chosen during initial registration for the course, if available

New College students may not enroll under the pass/fail option in the following courses:

- those taken to satisfy first-year composition requirements
- those taken from the student's major, minor or certificate program
- those taken for honors credits
- those counted toward satisfying New College general studies requirements
- those counted toward satisfying the New College language and cultures and math proficiency requirements

Transfer

Transfer Course Work

Credit is granted for transferred courses deemed equivalent to corresponding courses in the selected program of study, subject to grade and ASU resident credit requirements. No grades lower than “C” (2.00) transfer to ASU. Credits transferred from a community college or two-year institution are applied as lower-division credits. For a listing of the acceptable courses transferable to the various degree programs, prospective Arizona transfer students should consult their advisors and refer to the ASU transfer tools (<http://transfer.asu.edu> [8]).

Some courses taken from other ASU colleges or other universities may be acceptable for general university credit but may not be applicable toward the degree requirements of the schools. Determination of those particular courses applicable to a specific degree program is made within the appropriate academic unit.

Withdrawal

Complete Session Withdrawal Information

Since a complete session withdrawal from the university can be a difficult decision and could result in serious academic and financial consequences, beginning the first day of the fall and spring semesters, **undergraduate students** are required to contact the college or school of their major to facilitate the withdrawal process.

Students must complete the following steps in the order in which they are listed:

1. Fill out a complete session withdrawal form (<http://newcollege.asu.edu/advising/completewithdrawal> [9]).
2. Make an appointment with their advisor and take the form to the appointment.

ASU has many resources in place to help students. Students may want to consider one or more of the following:

- **Withdraw from Just One or Two Classes (Course Withdrawal):** After the drop/add deadline through the course withdrawal deadline for a class, students can withdraw from the class while remaining enrolled in other classes. Students are encouraged to contact their academic advisor to discuss the impact this may have on meeting critical requirements.
- **Request a Medical or Compassionate Withdrawal:** Medical or Compassionate withdrawals are available for students needing to withdraw from one or more classes due to a personal mental/physical health condition or the death or serious illness of a family member or close friend. For information concerning medical/compassionate withdrawal requests, see <https://students.asu.edu/files/Medical-Compassionate%20Withdrawal%20Request.pdf> [10].
- **Seek Tutoring or Academic Support Services:** The Student Success Center provides a variety of services to help students become better learners and gain the confidence and skills to achieve their academic goals. Services include: writing centers, math tutoring, subject area tutoring and supplemental instruction. For more information concerning Student Success Center, visit <http://studentsuccess.asu.edu/west> [11].
- **Make an Appointment with ASU's Counseling Services:** Counseling and mental health services are provided at each of the four ASU campuses. ASU students may seek services at any of the campus counseling centers, regardless of their college affiliation. For more information, visit <https://students.asu.edu/counselingwest> [12].
- **Explore the Possibility of an "I" (Incomplete) Grade:** If approved, a grade of "I" (incomplete) may be granted by an instructor when students are otherwise doing acceptable work and have completed a substantial portion of the course, but are unable to complete the course due to illness or other conditions beyond their control. Students interested in incompletes should discuss this option with their instructors and arrange for the completion of the class requirements.

Possible consequences resulting from a complete session withdrawal:

- **Financial Aid:** Financial aid recipients who completely withdraw from the university may be responsible for immediate repayment of funds. The effect of a complete withdrawal on financial aid depends on when the withdrawal is dated and the type of financial aid. For more information, visit <https://students.asu.edu/financialaid> [13].
- **Tuition and Refunds:** The date of a complete withdrawal will determine whether or not a tuition refund will be generated. Please review the tuition refund policy [14] for more information.
- **Health Insurance:** Students should contact their health insurance company to determine whether or not withdrawing from the university affects their coverage.
- **Residential Life:** Students who live on campus should contact their residential hall community staff to determine what impact withdrawing will have on their eligibility to live on campus; to complete a license agreement release form; and to arrange an appointment to officially check out. For more information, visit <http://housing.asu.edu/content/west-campus> [15].
- **Veteran Benefits and Certifications:** Students should contact the appropriate veteran benefits and certifications office to discuss information regarding veterans' educational benefits and military activation. For more information, email w.westvso@asu.edu.

For general university withdrawal procedures, see <http://students.asu.edu/withdrawal> [16].

Degree Requirements

All candidates for graduation in the BA, BS and BAS curricula are required to present at least 120 credit hours, of which at least 45 credit hours must consist of upper-division work. A minimum cumulative GPA of 2.00 is required for graduation. Students must complete a New College residency requirement of a minimum of 12 credit hours of upper-division (300 and 400 level) course work from the school housing the student's major.

It is the student's responsibility to be aware of the degree program requirements and to select courses accordingly.

To graduate, a student must satisfy three requirements:

1. college proficiency requirements for language and cultures and mathematics
2. university first-year composition and general studies requirements
3. major requirements that involve concentrated course work in one program

Proficiency Requirements

Each student is required to demonstrate proficiency in the analysis of language and cultures and mathematics by passing an examination or by completing the courses specified below with a grade of “C” (2.00) or higher in each course.

Students considering graduate work after completion of a bachelor’s should consult with faculty advisors regarding language requirements in their intended areas of study.

Language and Cultures

This requirement may be satisfied through one of the following:

- completion of secondary education at a school in which the language of instruction is not English
- completion of a language course at the intermediate level (202 or equivalent), including American Sign Language IV
- completion of an upper-division course or courses taught in a foreign language, taken in the United States or the relevant country
- completion of six credit hours of upper-division courses that have a global awareness (G) or cultural diversity in the U.S. (C) designation in addition to the courses used to meet the university General Studies requirements
- completion of two sequential semesters of course work in a current computer language. Contact the college advising office for information on applicable course work.

Mathematics

MAT 142 or any MAT course for which MAT 117 or a higher-level MAT course is a prerequisite.

Major Requirements

Each student is required to select a major from among the programs offered by the New College of Interdisciplinary Arts and Sciences.

The major program may require up to 45 credit hours of course work. The minimum is 30 hours. A maximum of 18 additional hours may be required in related courses and prerequisites. No more than 63 credit hours of course work may be required to complete the major, related courses and prerequisites.

No credit is granted toward fulfilling major or minor requirements in any upper-division course in the subject field of the major unless the grade in that course is at least a “C” (2.00). Normally a “Y” (pass) grade needs confirmation that it is equivalent to a “C” (2.00) or higher.

General Electives

After the three requirements have been satisfied, the remainder of the minimum 120 credit hours required for graduation are general electives. Contact college advisors for assistance in selecting elective courses.

Concurrent Degrees

Students seeking concurrent degrees must file a petition to do so (<http://newcollege.asu.edu/advising/forms> [17]). If the program overlap is too significant between the two programs, the petition will not be granted.

The following conditions must be met when seeking approval for concurrent degrees:

- The student has completed all prerequisites and a minimum of 12 credit hours within the first major.
- The student has maintained a cumulative GPA of 3.00 or higher.

- The student provides adequate justification for the addition of a concurrent degree.
- The student has not waited until the final semester to petition for approval to pursue a concurrent degree.

Minors

New College offers minors in many of its disciplines. All minors require a minimum of 18 credit hours in the discipline with at least 12 of those hours completed as upper-division course work. Six of the upper-division hours must be taken from courses offered by the New College of Interdisciplinary Arts and Sciences. Courses used in the minor may not be used in the student's major program (<https://catalog.asu.edu/index.php?q=minors> [18]).

Reinstatement/Readmission

Undergraduate degree-seeking students who previously attended ASU in New College but have not been enrolled at ASU for one or two consecutive fall or spring semesters are eligible to return through quick reentry. These students are not required to submit a new application or application fee, but must contact an academic advisor in their school to enroll.

Undergraduates who have been away from the university for three or more semesters and want to return to ASU in a New College program are required to apply for readmission through the university registrar's office (see <https://students.asu.edu/readmission> [19]).

Disqualified or ineligible students must follow the procedures for readmission and will be reviewed by the college on a case-by-case basis.

Graduate Policies

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies including those of Graduate Education and the New College of Interdisciplinary Arts and Sciences.

Nursing and Health Innovation, College of

Students interested in the undergraduate nursing programs, including the traditional prelicensure clinical nursing program (TPCNP), postbaccalaureate clinical nursing program (PBCNP), RN to BSN, RN to BSN concurrent enrollment program (CEP), and the

Eastern Arizona College - ASU RN to BSN partnership program (EAC) may contact the undergraduate student academic services office at 602-496-0888 to obtain the most current information on college policies. Because of changing resources regarding clinical experiences, the criteria used to determine how spaces will be assigned to these programs are subject to change.

Special note: The College of Nursing and Health Innovation periodically needs to implement new policies, protocols and procedures to comply with accreditation, regulatory or clinical health care agency requirements; therefore, policies, protocols and procedures are subject to change.

Confirm current policies, protocols and procedures with the respective program office and student handbook. All appendices referenced are included in the Undergraduate Student Handbook, <https://nursingandhealth.asu.edu/current-students/student-forms> [1].

Undergraduate Policies

Academic Integrity

Academic and Professional Integrity

Academic honesty is expected of all students in all examinations, papers, academic transactions and records. The possible sanctions include, but are not limited to, appropriate grade penalties, disqualification and dismissal. The College of Nursing and Health Innovation (CONHI) adheres to the ASU student code of conduct and the CONHI academic and professional integrity protocol located in the undergraduate nursing student handbook. A copy of the student code of conduct may be obtained online at <https://provost.asu.edu/academicintegrity> [2] and a copy of the CONHI academic and professional integrity protocol may be obtained online at <https://nursingandhealth.asu.edu/students/forms> [3]. Academic dishonesty is not tolerated in any course and is subject to specific College of Nursing and Health Innovation policies and procedures.

Academic Standing

University standards for academic good standing are followed for all majors in the college. Students who do not maintain the minimum GPA after each fall or spring semester are placed on academic probation. Students on academic probation or continuing probation must meet with an academic advisor before registering for the subsequent semester. Students placed on academic probation have one semester to raise the cumulative or semester GPA to meet the academic good standing criteria; otherwise, these students may be disqualified or determined to be ineligible for the majors in this college. Disqualified students are not permitted to enroll for the fall or spring semesters.

eAdvisor tracking focuses on students who initially enroll as full-time freshmen and tracks their progress during the first four semesters. It identifies and outlines the critical courses, GPA requirements and milestones that predict success in each major. Students use major maps and progress reports to plan what courses to take each semester.

Students who do not meet critical requirements are notified they are off track, and off-track status is displayed on My ASU student pages. Off-track students are required to see an academic advisor before registering for or adding classes. Students off track for two consecutive semesters may be required to change majors.

Students pursuing the RN to BSN, the postbaccalaureate BSN or the concurrent enrollment program are not critically tracked.

Advising

Academic advising is an essential aspect of the educational experience and is provided by the college through the undergraduate student academic services office and the graduate programs offices. Academic advisors assist students with program planning, registration, preparation of petitions, verification of graduation requirements, referrals to university and community resources and career planning. ASU accepts course work transferred from other accredited institutions and then the College of Nursing and Health Innovation determines if and how the courses will be applied.

The undergraduate student academic services office is committed to ensuring that students reach their academic goals and graduate in four years. This is done by monitoring student progress and providing the academic resources and personalized tools students need to get off to a good start and stay on track toward graduation. Students can monitor their own progress with the eAdvisor

academic success resources at <https://eadvisor.asu.edu/> [4] and with personalized tools at <https://eadvisor.asu.edu/students/tools> [5].

Student responsibilities include following university guidelines regarding submission of transcripts from all colleges other than ASU, obtaining the necessary signatures or computer verifications required by the university, and following university procedures for matriculation. It is ultimately the responsibility of each student to fulfill academic and program requirements.

Mandatory Advising

All freshmen and new undergraduate transfer students are required to meet with an academic advisor before registering for courses. Students with academic probationary status and off-track students are required to meet with an academic advisor to plan strategies for improving academic standing. Students interested in transferring to the prelicensure nursing program must attend a BSN information session before a one-on-one academic advising appointment will be scheduled. Information session information is located at <http://nursingandhealth.asu.edu/programs/nursing/undergraduate/bsn/info-bsn.htm> [6].

Credit/Registration

Course Load

Students wishing to register for more than the maximum allowable credits in a term must petition the standards committee and must obtain an approved overload before registration (search for undergraduate standards committee petition on the main ASU Web page). All prerequisite courses for the nursing programs must be taken for a letter grade. All upper-division nursing courses will be taken for a grade except for selected clinical courses in the prelicensure program that are taken for “P” (pass) or “Y” (satisfactory).

Students wishing to pursue concurrent degrees must petition the university standards committee.

Degree Requirements

RN to BSN Program

Applicants who have an associate degree in nursing or a nursing diploma and have their RN license must apply to the online RN to BSN program at <http://asuonline.asu.edu/> [7]. Admission standards for the online RN to BSN program are the same as university admission requirements, which can be found at <http://students.asu.edu/admission> [8].

The RN to BSN program builds on the knowledge and skills the student learned in their associate degree or diploma from a diploma school. The course assignments will enhance the student’s written and verbal communication skills, clinical reasoning skills, and information technology skills. Faculty are leaders and experts in their practice areas. Faculty strive to prepare graduates who will be engaged, professional, innovative leaders who use evidence-based practice to facilitate positive change in the work environment and community. Graduates will demonstrate holistic population-based perspectives and be solution identifiers, client advocates and effective communicators.

The RN to BSN program is offered entirely online. The program can be completed in 14 to 18 months.

The RN to BSN program has transfer pathway agreements with all the community colleges in Arizona. There are five start times per year: twice in the spring and fall and once in the summer. There are field work assignments in some courses, but there are no clinical or practicum classes. Students must have earned a 2.50 in the following courses to be eligible for the Maricopa pathway program: BIO 201, BIO 202, CHM 130/LL, BIO 205, ENG 101, ENG 102, and PSY 101. The courses required for each pathway vary somewhat.

Students with an AAS from a community college in Arizona may be eligible for a Pathway program. Students who did not complete the AAS in the state of Arizona are eligible for the non-pathway program.

Potential students must have an active RN license in good standing in the state or country in which they are working. There is a minimum GPA of 2.50 for all undergraduate course work. All prerequisites require a grade of a “C” or better.

For more information on this program please view <http://asuonline.asu.edu/degree-programs/undergraduate/bachelor-science-nursing-rn-bsn> [9].

Traditional Prelicensure Clinical Nursing Program

Admission requirements for the traditional prelicensure clinical nursing program (TPCNP) are more rigorous than university requirements. Some entering freshmen will be directly admitted to the nursing major. Other students will be admitted to prenursing and then compete for space in the nursing program. A competitive application process (CAP) will be used to fill any available seats in the TPCNP after placing directly admitted nursing major students. Spaces will be given to those students with the highest advancement score. Directly admitted nursing major students must meet continuing eligibility criteria each semester. If they fail to meet one or more of the criteria, they forfeit their direct admit nursing major status and may compete for advancement to the TPCNP.

The continuing eligibility criteria are as follows:

1. "on track" status each semester
2. full-time (12 or more credits per semester) and continuous enrollment
3. grades of "B" or better in critical (prerequisite) courses; one "C" grade allowed
4. minimum 11 critical (prerequisite) courses taken at ASU (dual enrollment and AP credits will count as part of the 11)
5. 3.50 minimum cumulative ASU GPA
6. 3.50 minimum semester ASU GPA in every semester
7. 3.50 minimum critical (prerequisite) course GPA each semester*
8. thirteen of 17 prerequisite courses completed by the end of the 3rd term with a 3.75 GPA in those 13 courses or 3.75 select GPA*
9. successful completion of all screening items
10. complete prerequisites in four semesters

*Pluses and minuses (+/-) are not used in this computation.

Consideration for advancement to the TPCNP and the PBCNP are separate processes that follow admission to ASU.

Prenursing, transfer students, students in other majors, nursing major students who have forfeited direct admission, and students who have already completed a bachelor's degree in another discipline are all eligible to compete for a space in the program through the competitive application process, provided they have completed the prerequisite courses and all screening items. The advancement score for the TPCNP is composed of the select GPA and the TEAS score.

Select GPA: The select GPA will be computed based on 13 critical (prerequisite) courses and must include ENG 101, ENG 102, and three of the four lab sciences (BIO 201, BIO 202, CHM 101, MIC 205/206). Critical courses with a grade of "C" or better may not be repeated to improve the select GPA. Please see a nursing academic advisor for possible replacement course options.

Note: Students who have already earned a bachelor's degree may choose to use a "Pass" grade rather than letter grades for ENG 101 and 102.

Prerequisite and select GPA: Students must have a minimum 3.25 in both their prerequisite GPA and select GPA. The average select GPA for those advanced into the program in previous semesters has been much higher than a 3.25.

Test of Essential Academic Skills: Students will be measured in the basic essential skills in academic content areas of reading, mathematics, science and English and language usage. To prepare for the exam we recommend students visit www.atitesting.com [10] to review the resources available from the creators of the exam. TEAS score: Minimum required = 58.7 percent.

The select GPA and TEAS scores will be used to rank students from high to low in the CAP. After direct-admit students who meet continuing eligibility criteria are advanced, students highest on the list will be offered the remaining spaces in the traditional prelicensure clinical nursing program. Students not selected may choose to compete again in the next term, if space is available. There is no limit on the number of times students may compete; a waiting list will not be maintained. Students who do not meet the minimum select GPA and TEAS scores will be withdrawn from consideration.

Nursing faculty may opt to use additional criteria in the selection process.

Postbaccalaureate Clinical Nursing Program

In order to be considered for the postbaccalaureate clinical nursing program, all interested students must have a bachelor's degree in a discipline other than nursing posted at ASU by the deadline for placement.

Placement in the postbaccalaureate clinical nursing program is based on clinical space availability. More students may request placement than clinical space will allow. Placement is not guaranteed.

The program is a 12-month program that begins during the spring semester and it includes the spring, summer and fall semesters. The program is offered only at the ASU Downtown Phoenix campus. The program will only begin during the spring semester. Summer tuition rates apply.

The prerequisites for this program are: BIO 201, BIO 202, CDE 232, CHM 101, HCR 220, HCR 240, MIC 205/206, NTR 241, PGS 101 and a statistics course that meets the General Studies CS requirement.

Eight of the 10 courses must be completed by the placement deadline with a minimum 3.50 GPA for the semester for which you apply. All four science courses (BIO 201, BIO 202, CHM 101, and MIC 205/206) must be completed by the placement deadline.

Students must meet all ASU General Studies requirements by the end of the fall semester before beginning the postbaccalaureate clinical nursing program in the spring semester.

Grades of "C" (2.00) or better must be earned in each course and a minimum 3.50 Prerequisite GPA is required by Dec. 31. Courses with a grade of "C" or better may not be repeated to improve the Prerequisite GPA. Please see academic advisor for limited replacement course options.

Placement is based on a select GPA, Test of Essential Academic Skills score of 58.7 percent or higher and responses to essay questions. Eligibility requirements, criteria for placement and measurements are subject to change. The select GPA will be computed based on eight of 10 prerequisite courses. If only eight prerequisite courses are completed by the placement deadline, the student's select GPA will include all eight of the courses, four of which must be science courses. If the student has more than eight courses completed, they must select at least three of four lab sciences and then choose five other courses.

Students who have a degree may choose to apply to the PBCNP, the TPCNP, or both programs as long as the prerequisites have been met for both programs.

Concurrent Enrollment Associate-Baccalaureate Nursing Program

The concurrent enrollment associate-baccalaureate nursing program is offered through participating community colleges in the Maricopa Community College District and ASU. This program is designed for qualified nursing students who are interested in earning their BSN in nursing while simultaneously pursuing their AAS in nursing. Selected students will be enrolled in the MaricopaNursing program and ASU BSN courses concurrently. BSN courses taken at ASU will be delivered in an online (iCourse) format.

The concurrent enrollment program allows students to pursue an AAS in nursing via the current MaricopaNursing program while providing an affordable, concurrent course of study that enables students to complete their BSN degree in approximately one to two semesters after graduating with their AAS degree. A limited number of participants are selected from the pool of MaricopaNursing students who have met all associate-baccalaureate CEP identified eligibility requirements.

ASU prerequisite requirements: BIO 201, BIO 202, CHM 101, PGS 101 or CDE 232, MIC 205/206, ENG 101 and 102, HCR 240, and the math requirement (MAT 117, 142, or higher). Students must have a 3.25 or higher GPA in these courses to be eligible for consideration.

For more information please see: <http://nursing.maricopa.edu/> [11]

General Information

Students in the Clinical nursing programs must earn grades of “C” (2.00) or higher in all nursing course work except in nursing practice courses where a designation of a “Y” (satisfactory) or “P” (pass) grade is required. In addition, students are allowed only one nursing course failure (i.e., grade below “C”). The second failure in a nursing course will result in disqualification from the nursing major.

Arizona State Board of Nursing Requirement: Once students have earned the BSN, they must pass a national licensing examination, known as the NCLEX-RN, in order to obtain a nursing license. Arizona State law prohibits an individual convicted of a felony from applying for nursing licensure or certification until five years after the date of absolute discharge of the sentence. Application for and passage of the NCLEX-RN is the sole responsibility of the student.

Students who have completed one or more semesters in an upper-division, accredited, baccalaureate school of nursing are highly unlikely to transfer into clinical nursing programs with advanced standing.

For the TPCNP, PBCNP and CEP programs, science courses (CHM 101, BIO 201, BIO 202 and MIC 205 and 206) must be current within seven years of the program start date. For example, science courses must be taken in spring 2007 or later to be considered current for the spring 2014 programs.

Program Fees

Traditional prelicensure clinical nursing program: Students directly admitted to ASU as a nursing major are charged \$1,000 per semester/term in addition to regular tuition while taking the critical (prerequisite) courses. All students advanced to the TPCNP, whether directly admitted or competitively admitted, are charged \$1,750 per semester or term for the four semesters or terms of the clinical program in addition to tuition charges. Fees are subject to change.

Postbaccalaureate clinical nursing program: There is a \$5,500 program fee per semester or term for the postbaccalaureate BSN concentration in addition to regular tuition and fees. This totals approximately \$16,500 in program fees plus regular tuition and fee charges.

Concurrent Enrollment Program: There is a \$750 program fee per semester or term for the concurrent enrollment program.

RN-BSN Online Program: There is a \$750 program fee per semester or term for the RN to BSN online program. This fee is prorated based on the number of credits taken per term.

All tuition and fees are subject to change.

Reinstatement/Readmission

Disqualified or ineligible students who have skipped a fall or spring semester must follow the procedures for readmission. See readmission to the university at <https://students.asu.edu/readmission> [12].

Applications for reinstatement and readmission to nursing are subject to rigorous requirements that reflect admission and progression standards.

Other Special Requirements

Special note: The College of Nursing and Health Innovation periodically needs to implement new policies, protocols and procedures to comply with accreditation, regulatory or clinical healthcare agency requirements, therefore policies, protocols and procedures are subject to change.

Confirm current policies, protocols and procedures with the respective program office and student handbook. All appendices referenced are included in the Undergraduate Student Handbook, <https://nursingandhealth.asu.edu/current-students/student-forms> [1]

Other Special Requirements

Students in clinical nursing programs that require working in hospitals or with vulnerable populations must meet additional requirements as follows:

Titers and Immunizations

Measles, Mumps & Rubella (MMR): Students must provide proof of immunity through positive titer results for rubella and rubeola.

Varicella (chicken pox): Students must provide proof of immunity through positive titer results. A history of chicken pox does not constitute proof of immunity. Two vaccinations may be required.

Hepatitis B: Three doses of hepatitis B are required. Students may also provide immunity through positive titer results.

Tetanus/Diphtheria: Students must provide proof of receiving a tetanus/diphtheria immunization within the last ten years. Students are required to keep this immunization current throughout the advancement consideration process and when enrolled in the traditional prelicensure clinical nursing program.

Tuberculin Skin Test: Students must provide proof of a TB skin test taken within the last 12 months, with negative results. Students with positive TB skin test results must follow up with their health care providers for assessment and follow-up treatment, if needed. Treatment must be initiated prior to enrollment in the traditional prelicensure clinical nursing program; TB skin test results must be valid through the first semester of the program, and negative TB skin test or evidence of follow-up treatment is required every 12 months while participating in the program.

Supplemental Materials: The requirements specified in this section affect student ability to progress in the traditional prelicensure clinical nursing program course work, eligibility for clinical placement and to ultimately to be licensed as an RN.

Cardiopulmonary Resuscitation/Basic Life Support Certification: Proof of CPR/BLS health care provider certification is required. Students are required to keep the CPR/BLS current throughout advancement consideration and when enrolled in the traditional prelicensure clinical nursing program.

Level One Fingerprint Clearance Card: Level one fingerprint clearance, in the form of a fingerprint clearance card, is required by Arizona state law to work and care for children, the elderly and vulnerable adults. Fingerprint clearance is determined after a background screening process at the state and federal levels to check for criminal records. Students must have a valid, unrestricted fingerprint clearance card to advance to and remain in the clinical nursing programs. Students with concerns about a restriction may call the Arizona Department of Public Safety at 602-223-2279.

Federal- and State-level Background Screening: Students must have an unrestricted security background check to advance to and remain in clinical nursing programs.

Drug Screen and Nicotine Testing: All students in clinical nursing programs will be required to complete a drug screen. Results of the drug screen must be negative. Dilute specimens are considered positive. Students will also be tested for nicotine; however, the presence of nicotine will not restrict enrollment in clinical course work but will affect the clinical placements while in the program.

Lawful Presence: The college follows the Arizona State Board of Nursing policy regarding lawful presence in the United States. "On January 2, 2008, ARS 1-504 (HB2467) was implemented by the Board requiring ALL applicants to provide the Board with satisfactory documentation demonstrating the applicants' citizenship, alien status, legal residency or lawful presence in the United States" (<http://www.azbn.gov/Documents/Newsletters/2008/Journal%201st%20Quarter%202008.pdf> [13], page 23).

RN Licensure: Students completing the BSN are eligible to sit for the NCLEX-RN. However, legislation regarding the Arizona State Board of Nursing prohibits an individual convicted of a felony from applying for licensure or certification until five years after the date of absolute discharge of sentence. This means that all court-ordered terms of probation or parole must be completed at least five years prior to the date of application for nurse licensure. Each case is considered by the Arizona State Board of Nursing on its own merits. The elapse of five years does not guarantee licensure or certification — it simply permits the submission of an application and board consideration. In addition, the Arizona State Board of Nursing may deny any application for a license if the applicant has committed any acts of unprofessional conduct. See the Arizona State Board of Nursing website at <http://www.azbn.gov> [14].

Required Clinical Experiences: Clinical hours vary with facility placement and may include 12-hour blocks of time, weekends and evenings. Flexibility is required since there are a limited number of available clinical sites for student experiences. Students must have the ability to utilize written, verbal and computerized communication with faculty, peers and other health care professionals. Students are expected to demonstrate the ability to think critically and apply nursing knowledge to clinical situations. Students are also required to accept professional supervision from faculty and designated staff and effectively integrate feedback into practice.

Equal Access: The college is committed to making learning experiences accessible and inclusive for all students, including those with an identified disability or disabling condition. In compliance with the ASU policy on Students with Disabilities USI 702-02, <http://www.asu.edu/aad/manuals/usi/usi701-02.html> [15], every effort will be made to accommodate students with special needs to find cost-effective methods to address the identified student condition and serve the needs of the patients. Accommodations may include resources and assistive aids for those students with cognitive and perceptual disabilities, specialized equipment for hearing or vision deficits, and modifications to the physical environment or clinical hours. Students with disabilities are required to document their condition with the Disability Resource Center upon admission to the college and to be key participants in identifying their needs. The college will provide reasonable and appropriate accommodations for any student who has documented a disability or disabling health condition.

Graduate Policies

Additional Policies

Academic Advising: Prospective graduate students may receive information through the graduate program office of the college. Advisor contact information is available at <https://nursingandhealth.asu.edu/advising/nursinggrad.htm> [16]. Upon admission, each student is assigned a faculty advisor or mentor within the degree or certificate program or area of concentration.

Review the student handbooks for the College of Nursing and Health Innovation for information regarding graduate academic procedures and protocols:

Graduate Student Handbook (<https://nursingandhealth.asu.edu/files/students/handbooks/nursing-grad.pdf> [17])

PhD in Nursing and Healthcare Innovation Student Handbook
(<https://nursingandhealth.asu.edu/files/students/handbooks/phd.pdf> [18])

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies including those of Graduate Education and the College of Nursing and Health Innovation.

Public Programs, College of

The College of Public Programs believes our students are our greatest resource. We strive to put the well-being of our students at the center of every policy and program. Policies and processes serve as guidelines for our students, but each student situation is unique, and we encourage our students to work directly with our talented advising staff to address concerns and issues.

Undergraduate Policies

Academic Integrity

The College of Public Programs academic integrity process models the ASU process. For more information on the process, including next steps, please visit our website at <https://copp.asu.edu/> [1].

Academic Standing

Students in the College of Public Programs are considered to be in good standing for the purpose of retention if they maintain a cumulative GPA of 2.00 or higher in all courses taken at ASU. Certain majors within the College of Public Programs may require a progressively higher GPA than 2.00 as a student advances toward their degree. These requirements are outlined in the student's major map.

Probation

Any student who does not maintain good standing is placed on academic probation. A student on academic probation is required to observe any limitations or rules the college may impose as a condition for retention.

Disqualification

A student who is on probation becomes disqualified if one of the following occurs:

- the student has not returned to good standing
- the student has not met the required semester GPA

Disqualification is exercised at the discretion of the college and becomes effective on the first day of the fall or spring semester following college action. A disqualified student is notified by the office of the registrar or the dean of the college and is not allowed to register for a fall or spring semester at the university until reinstated. A student who is disqualified may not attend as a nondegree student.

Advising

The following categories of students are required to receive advising and be cleared by a program advisor before they may register for classes:

- all freshmen
- all students majoring in social work
- readmitted students
- students on probation
- students who have been disqualified
- students with special admission status
- students with admission competency deficiencies
- transfer students in the first semester at ASU

Credit/Registration

Course Load

A normal course load per semester is 15 or 16 credit hours. The maximum number of hours for which a student can register is 18 credit hours unless an overload petition has been filed and approved by the department or school standards committee and dean or dean's designee. Semester course loads may be further limited for students in mandatory advising. Petitions for overload are not ordinarily approved for students who have a cumulative GPA less than 3.00 and who do not state valid reasons for the need to register for the credits. Students who register for credit hours in excess of 18 and do not have an approved overload petition on file may have courses randomly removed through an administrative drop action. Specific degree requirements are explained in detail under the respective college, school and department sections.

Degree Requirements

Interdisciplinary Public Service Requirement

The College of Public Programs has a college-level graduation requirement for all undergraduate students majoring within the college. This degree requirement is called the interdisciplinary public service requirement. Each student must complete course work from other schools within the college. Students may choose a core course from their major and three courses from the approved course list for this requirement in addition to completing ASU 101. ASU 101 must be completed in the first year at ASU; the other courses can be taken while completing the degree. The approved course list is available through the advisor for the major. Questions about this requirement should be directed to the academic advisor for the major.

Reinstatement/Readmission

Students seeking reinstatement after disqualification should contact the College of Public Programs student services office regarding procedures and guidance for returning to good standing. When reinstatement includes readmission, application must be made through the ASU readmissions process. All academic disciplinary action is the function of the College of Public Programs student services office, UCENT 650, under the direction of the dean of the college. Students having academic problems should call this office for advising at 602-496-0600.

The mission of the College of Public Programs professional academic advising staff is to assist students in developing meaningful educational plans to meet their academic, career and personal goals in an ongoing process of evaluation and clarification. The advisors strive to perform their duties in a professional, ethical, confidential, accurate and supportive manner, respecting student diversity and needs and always holding the individual in highest regard. The student and advisor should accomplish this process in a spirit of shared responsibility to develop academic excellence, strong decision-making skills and self-reliance. A student who has been admitted to the College of Public Programs is assigned an academic advisor from the academic unit of the student's major area of study. Questions about advising should be directed to the student's academic advisor or to the College of Public Programs student services office, UCENT 600.

Graduate Policies

Advising

Advising is usually handled by graduate faculty or a committee. Once admitted, each student is typically assigned a temporary faculty advisor in the potential areas of specialization; this advisor assists in planning a course of study. For those degree programs requiring the completion of a thesis, a chair and thesis supervisory committee are selected by the director of graduate studies, in consultation with the student and appointed by the vice provost of Graduate Education. Each graduate degree program in the College of Public Programs has its own set of policies regarding academic performance expectations. Students should contact their graduate advisor to review policies relevant to their degree.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies including those of Graduate Education and the College of Public Programs.

Sustainability, School of

Undergraduate Policies

Academic Integrity

The School of Sustainability adheres to ASU's academic integrity policies and procedures which can be found at: <https://provost.asu.edu/index.php?q=academicintegrity> [1].

Academic Standing

Student Responsibilities

Students need to make many decisions as they complete their degrees. While the school and the university have a number of resources available (e.g., faculty, courses, advisors and tutors) to help in making the decisions, students are expected to take responsibility for their decisions.

Good Standing

Students in the School of Sustainability are considered in good standing for the purpose of retention if they maintain a cumulative GPA of 2.00 or higher in all courses taken at ASU and maintain critical requirements within the major, which may include higher GPA expectations (students should refer to the major map for their catalog year).

Critical Requirements

All sustainability students must meet critical requirements for their intended majors. Students who do not comply with the critical requirements are off track and will have holds placed on their records. They will have to meet with their advisors to have their holds removed. Further registration in their intended majors may not be permitted for those students who still do not meet all critical requirements in the following semester. Students that are off track for two consecutive semesters may be required to change their major.

Probation

Students that do not maintain a cumulative GPA of 2.00 or higher in all courses taken at ASU are placed on academic probation. Before students on probation can register for classes in the next semester, they are required to complete an academic success contract with an advisor and discuss campus academic resources, plan semester goals and discuss strategies to attain academic success. Students on academic probation may be limited to the number of credit hours they can enroll in, must enroll in UNI 220 Academic Refresher, and must also do one of the following:

1. Over the next semester, raise their cumulative ASU GPA to 2.00 or higher in order to return to good academic standing.
2. Obtain a semester GPA of 2.50 with no grade lower than a "C" in order to be granted one additional semester on continuing probation (providing them with a total of two semesters to return to good academic standing and avoid or disqualification).

In addition, students who have fewer than 24 credit hours will be required to participate in the ASU Pathway for Achieving Student Success (PASS) Program <https://studentsuccess.asu.edu/pass> [2].

Disqualification

Students who do not meet probation requirements are subject to disqualification. Disqualified students will not be able to register for classes in the fall or spring semester at the university. Registrations will be canceled for students who have already registered for future fall or spring semesters.

Advising

The School of Sustainability's Student Services Center assists students in achieving their personal, educational, cultural and career goals while becoming self-directed, lifelong learners. The School encourages students to meet with an advisor at least once a semester and requires that students meet with an advisor at four points during their academic career:

1. new student advising (all newly admitted students)
2. sustainability success advising (during the first semester to plan for the second semester)
3. pivotal advising (at the point in time where students typically declare their track and related discipline)
4. launchpad advising (to prepare for capstone experiences and planning for post graduation)

Office hours are Monday through Friday (excluding university holidays), 9 a.m. to 4 p.m. Students should call in advance (480-727-6963) to make their appointments so advisors can set aside the appropriate time to answer all their questions.

Degree Requirements

School Graduation Requirements

All students in the School of Sustainability must complete the university General Studies requirement as well as all requirements in their majors. In addition, the school has established requirements that are specific to the BA and BS:

1. ASU 101 requirement: ASU 101-SOS The ASU Experience (for incoming freshmen) or SOS 201 Introduction to ASU and Sustainability (for incoming transfer students) (1)
2. statistics requirement: STP 226 Elements of Statistics, CS (3) or additional statistics course options as approved by the school
3. second language requirement

Second Language Requirement

Bachelor of Arts: Any student pursuing a BA in the School of Sustainability must demonstrate intermediate proficiency in a second language by completing the courses specified below with a grade of "C" (2.00) or higher in each course. Second-language course requirements may be fulfilled by one of the following:

- completion of second-language course work at the intermediate level (202 or equivalent)*
- a second-language course at the 300 level or higher taught in the second language and having 202 or its equivalent as a prerequisite
- completion of secondary education at a school in which the language of instruction was not English

*Those students completing this requirement in Ancient Greek must take GRK 301 and 302; students completing the requirement in Portuguese or Romanian must complete POR 314 or ROM 314.

Bachelor of Science: Any student pursuing a BS in the School of Sustainability must demonstrate intermediate proficiency in a second language by completing the courses specified below with a grade of "C" (2.00) or higher in each course. Second-language course requirements may be fulfilled by one of the following:

- completion of second-language course work at the introductory level (102 or equivalent)
- a second-language course at the 200 level or higher taught in the second language and having 102 or its equivalent as a prerequisite
- completion of secondary education at a school in which the language of instruction is not English

The School of Sustainability also requires a cumulative 2.50 ASU GPA and a 3.00 SOS GPA in order to graduate with a BA or BS in sustainability.

Concurrent Degrees

Students who wish to obtain concurrent degrees must realize there are certain combinations that would not be approved because there is too great an overlap between the courses required for each major. For example, students may not pursue a BA or BS in sustainability as well as a BA in business with a concentration in sustainability.

Reinstatement/Readmission

Students seeking reinstatement after disqualification or readmission after absence from the university should contact the School of Sustainability office regarding procedures and guidance for returning to good standing. When reinstatement includes readmission, application must be made through the ASU readmission process.

Other special requirements

Student Appeal Procedure on Grades

The School of Sustainability follows the university policy for student appeal procedure on grades, which may be found online at <https://catalog.asu.edu/appeal> [3].

Graduate Policies

Graduate students should refer to the School of Sustainability graduate handbook at <http://schoolofsustainability.asu.edu/graduate/> [4] for information about graduate policies and academic standards.

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies including those outlined by Graduate Education and the School of Sustainability.

Please contact the school for more information at schoolofsustainability@asu.edu [5] or 480-727-6963.

Teachers College, Mary Lou Fulton

Mary Lou Fulton Teachers College is nationally known for innovative teacher preparation programs, the quality of its graduates and strength of its school partnerships. The college is among the national leaders in teacher education. Graduates are prepared to address the local and global challenges of improving education by becoming the next generation of teachers, school and school district leaders, researchers, scholarly practitioners, policy makers and other educational leaders.

Mary Lou Fulton Teachers College prepares new teachers to impact student achievement through rigorous and innovative programs at schools around the state and on ASU's Tempe, Polytechnic, West and Downtown Phoenix campuses. Online graduate and undergraduate courses are offered in a variety of areas making programs available at a distance.

As one of the largest, most influential colleges of education in the nation, Mary Lou Fulton Teachers College offers highly regarded doctoral degree programs. Candidates are well prepared for dynamic careers in school leadership, education policy, education technology, higher and post-secondary education and other education related fields. Consistently ranked as a top graduate school by U.S. News & World Report, Mary Lou Fulton Teachers College is a force for discovery and for inspiring leaders who will meet the challenges of the future.

For more information, visit <http://education.asu.edu> [1].

Undergraduate Policies

Academic Integrity

Students in Mary Lou Fulton Teachers College who do not exhibit integrity and professional behaviors in the classroom or when in the field are referred to the college administration for disciplinary action. Please refer to the Student Academic Integrity Policy for more information: <http://provost.asu.edu/academicintegrity>. [2]

Academic Standing

Academic Standing - Teacher Preparation

To be in good standing in Mary Lou Fulton Teachers College, students must maintain an overall cumulative GPA of 2.50 or higher with at least a “C” (2.00) grade in all education courses and must complete the courses as outlined. Students in the professional program will be formally reviewed regarding their academic progress and professional attributes in order to determine retention and continuation status. Students with records containing indicators of professional or academic concerns will be placed on probation, suspension or permanently removed from their programs.

Academic Standing – Educational Studies

To be in good standing in Mary Lou Fulton Teachers College, students must maintain an overall cumulative GPA of 2.00 or higher and earn a “C” (2.00) grade in all education courses. Students with records containing indicators of professional or academic concerns will be placed on probation, suspension or permanently removed from their programs.

Advising

The Office of Student Services is dedicated to providing students with the very best academic support and guidance throughout their academic programs. Academic program advisors provide assistance selecting classes and in fulfilling program requirements. Each ASU campus has dedicated academic advisors trained on all Teachers College programs. See <http://education.asu.edu/content/student-services-contact-information> [3] for advising locations and contact information. Students are encouraged to meet with their advisors every semester.

Credit Registration

Students are limited to a maximum of 18 credit hours per term. Enrollment in additional credit hours requires college academic advisor approval.

Audit

Teachers College students are permitted to audit any non-iTeachAZ course. Additional university fees are assigned to courses when the audit option is chosen.

Course Prerequisites

Enrollment in upper-division iTeachAZ course work requires approval from Teachers College. Review current course descriptions for course prerequisites.

Incomplete Grades

Incomplete grades will only be issued if a student is in good standing in the course and experiences an extenuating situation just prior to the end of the term. Courses not leading to Arizona teacher certification must be completed one calendar year from the initial grade assignment. Students enrolled in the professional program must complete “I” grades before the start of student teaching.

Pass/Fail

A “Y” grade is assigned to a passed course and an “E” grade is assigned to a failed course. Only the “E” grade will be computed in the ASU cumulative GPA.

Grade appeals

The undergraduate grade appeal policy is available from academic advisors in the office of student services or at <http://mytc.asu.edu> [4]. Students attempting to appeal grades must first discuss the reasons with the course instructors. Appeals must be filed by the deadline stated in the policy. <http://mytc.asu.edu/student-forms-and-policies> [5].

Transfer

Students may transfer a maximum of 64 credits from two-year institutions. There is no limit to the number of credits transferred from four-year institutions. Students interested in substituting previous teacher preparation courses for current professional program Teachers College courses must submit the petition for adjustment of requirements to the office of student services at their chosen campuses.

Any transfer student who is interested in starting iTeachAZ must submit an online form, have a 2.50 cumulative GPA, completion of 60 credit hours and fulfill specific course requirements as outlined by each education major. Students who complete the Associate of Arts in elementary education, Transfer Admission Guarantee and Maricopa-ASU Pathways Program will meet the requirements for progression into the professional program.

Withdrawal

Review the Mary Lou Fulton Teachers College undergraduate withdrawal policy at <http://mytc.asu.edu/student-forms-and-policies> [5] and the current university withdrawal procedures at <http://students.asu.edu/withdrawal> [6]. It is each student's responsibility to withdraw from courses. Students will not be automatically withdrawn for non-attendance.

Degree Requirements

Students who begin at ASU as freshmen will follow the major maps for their chosen programs. The major map is an outline that students follow each term for enrollment. Students who have attended only ASU are reviewed at the completion of each term to ensure that they are on track for graduation. Transfer students must attend an advising session and will learn the degree requirements as well as minimum eligibility requirements for degree completion. Students must fulfill field experience, student teaching or service learning requirements as part of degree completion. Mary Lou Fulton Teachers College is committed to providing support and resources for students needing academic or professional growth assistance.

To be in good standing in Mary Lou Fulton Teachers College, students must maintain an overall cumulative GPA of 2.00 or higher and earn a “C” (2.00) grade in all education courses. Students are evaluated in accordance with the Mary Lou Fulton Teachers College retention and continuation policy. Students in the program are formally reviewed regarding their academic progress to determine retention and continuation status. Students with records that contain indicators of professional or academic concerns will be placed on probation, suspension or permanently removed from their programs.

Students who exhibit unprofessional behaviors or attributes will be required to meet with a Mary Lou Fulton Teachers College administrator to develop a Professional Improvement Plan (PIP), which outlines the expectations for continuing in the program. Students placed on a PIP will be placed on probation or suspension and are subject to the disqualification policy of Mary Lou Fulton Teachers College. Refer to the retention and continuation policy for additional information: <http://mytc.asu.edu/student-forms-and-policies> [5].

Reinstatement/Readmission

Applications for reinstatement/readmission will be reviewed by the Director of Undergraduate Student Services on a case-by-case basis.

Other Special Requirements

Additional Requirements for Teacher Certification Candidates

Milestones

As outlined on major maps, students are required to meet milestones for successful progression into iTeachAZ. These milestones include obtaining DPS fingerprint clearance card, submitting an Intent to Progress Form, with an Academic Advisor, and attending an enrollment workshop. Details can be found at <http://mytc.asu.edu/student-forms-and-policies> [5].

Fingerprint Clearance Card

Per Arizona state statute A.R.S. § 15-106, all teachers and persons who are required to be fingerprinted to work in the classroom are required to have an identity verified fingerprint clearance card. All students enrolling in programs leading to certification must participate in field experiences and student or apprentice teaching. Students participating in field experience must have proof of a fingerprint clearance card on file in the Office of Clinical Experiences before field placement hours begin.

Intent to Progress

All students who start at ASU as first-time freshmen must submit their intent to progress forms to the office of student services during term three, before beginning the iTeachAZ program in term five. Intent to progress form is located at <http://mytc.asu.edu/student-forms-and-policies> [5].

Graduate Policies

Academic Policies

The college offers master's and doctoral programs as well as graduate certificates. Some programs also allow students to obtain state or professional certification.

After admission to a degree program, specific advice related to degree requirements and activities is provided by academic advisors in the Office of Student Services. Once admitted, all graduate students are required to submit a plan of study. The plan of study (iPOS) functions as a contract between the student, the academic unit and Graduate Education. The iPOS contains certain degree requirements such as course work, a committee and a culminating experience. Call 602-543-6358 and ask for the academic advisor for a specific campus or program.

Grade Appeals

The graduate grade appeal policy is available from academic advisors in the Office of Student Services or at <http://mytc.asu.edu> [7]. Students wishing to appeal grades must first discuss the reasons with the course instructors. Appeals must be filed by the deadline stated in the policy.

Satisfactory Progress Policies

The college graduate satisfactory academic progress and professional conduct policy is provided to students at the time of enrollment and is available on <http://mytc.asu.edu> [7]. Students must maintain a minimum GPA each semester, meet program deadlines, avoid the accumulation of an excessive number of grades of incomplete or withdrawals and adhere to professional responsibilities standards. Graduate students may be placed on academic probation for reasons stated in the satisfactory academic progress and professional conduct policy. For complete information, see the policy.

Continuous Enrollment and Re-entry for Graduate Programs

Once admitted to a graduate program, the student must be enrolled continuously, excluding summer sessions, until all requirements for the degree have been fulfilled. If a plan of study must be interrupted for one semester, the student may apply to Graduate Education for a leave of absence not to exceed one semester. An application for leave status, endorsed by the division director or designee, must be approved by Graduate Education; for a doctoral student, the leave must also be endorsed by the members of the student's supervisory committee. This request must be filed and approved prior to the semester of anticipated absence. A student on leave is not required to pay fees and is not permitted to place any demands on university faculty or use any university facilities. Students may be continuously enrolled by registering for one credit hour of continuing registration; please contact an academic advisor for more details. A student who interrupts a program without obtaining an approved leave of absence may be removed from the degree program by Graduate Education.

Graduation Requirement

A candidate for a graduate degree must satisfactorily complete the culminating experience requirements required by the program. Information is available for each program from the Office of Student Services.

Master's Programs

In addition to the Graduate Education policy and procedures that govern graduate programs at ASU and which are provided elsewhere in this catalog, the policies specific to each master's program are provided to students at the time of enrollment in the program. Students are limited to 15 credit hours per semester. Online students are limited to nine credit hours per semester. Exceptions must be approved by the division director. Students who enroll in additional hours may be administratively withdrawn.

Each student in the Induction, Master of Education and Arizona Certification (InMAC) program must hold an Arizona intern teaching certificate and be employed. If either the employment or certificate status changes, the student will need to apply to be placed in the Master's and Arizona Certification (MAC) program. A MAC student who becomes employed on an intern certificate will be evaluated by the division director or designee and placed in the appropriate classes to complete the degree. In either case, extra time may be required to complete the degree program.

Master's Satisfactory Academic Progress and Professional Conduct Policy

Students in master's programs may be placed on academic probation for reasons stated in the satisfactory academic progress and professional conduct policy. These include but are not limited to failure to meet the academic requirements of Graduate Education, a GPA of 3.00 (on a 4.00 scale) or failure to meet the academic requirements of the particular program as stated in the program handbook. Students are expected to maintain professional conduct as explained in the policy. Failure to meet these standards of professional conduct or violations of the student conduct code may result in academic probation, or, for egregious violations, immediate recommendation to Graduate Education for dismissal.

Doctoral Programs

In addition to the Graduate Education policy and procedures that govern doctoral programs at ASU and which are provided elsewhere in this catalog, the satisfactory academic progress and professional conduct policy applies. Additional information specific to a degree program may be provided when students first register for the program.

PhD and EdD Satisfactory Academic Progress and Professional Conduct Policy

Students in doctoral programs may be placed on academic probation for reasons stated in the satisfactory academic progress and professional conduct policy. These include but are not limited to:

- failing to meet the academic requirements of Graduate Education, a GPA of 3.00 (on a 4.00 scale) or failure to meet the academic requirements of the particular program as stated in the program handbook
- unsatisfactory progress as noted on annual review form by mentor or failure to meet for annual review
- failure to meet the standards of professional conduct or violations of the student conduct code may result in academic probation, or, for egregious violations, immediate recommendation to Graduate Education for dismissal

In addition to minimum academic requirements and conduct requirements, a student must maintain progress to degree completion. A student can be recommended to Graduate Education for dismissal for failure to meet Graduate Education policies. See <http://graduate.asu.edu> [8].

Students must fulfill all requirements of their individual graduate programs to remain in good academic standing and abide by all university policies including those of Graduate Education and Mary Lou Fulton Teachers College.

Additional requirements

Per Arizona state statute A.R.S. § 15-106, all teachers and persons who are required to be fingerprinted to work in the classroom are required to have an identity verified fingerprint clearance card. All students enrolling in programs leading to certification must

participate in field experiences and student or apprentice teaching. Students participating in field experience must have proof of a fingerprint clearance card on file in the Office of Clinical Experiences before field placement hours begin.

Academic Programs List

The following section contains a listing of all program descriptions and requirements that are provided for graduate degrees and certificates, minors, undergraduate certificates and undergraduate degrees. Undergraduate degrees have a corresponding major map that includes the critical requirements, order of courses and grade requirements for that degree. Each undergraduate degree's requirements are outlined on the degree's corresponding major map. The major maps and MAPP agreements are provided in the final sections of this document.

Graduate Programs

Graduate Degrees and Certificates (Program Descriptions and Requirements)

Business, W. P. Carey School of

Accountancy, MAcc (BAACCMACC)
Agribusiness, MS (AGAGRIBMS)
Business Administration (Accountancy), PHD (BAACCTPHD)
Business Administration (Agribusiness), PHD (BAAGRIPHD)
Business Administration (Computer and Information Systems), PHD (BAINFSYPHD)
Business Administration (Finance), PHD (BAFINANPHD)
Business Administration (Management), PHD (BAMGMTPHD)
Business Administration (Marketing), PHD (BAMARKPHD)
Business Administration (Supply Chain Management), PHD (BASCMPHD)
Business Analytics, MS (BABUSANMS)
Economics, PHD (BAECONPHD)
Finance, MS (BAFINMS)

 Family Nurse Practitioner (certificate), Certificate (NUFMPGRCE)
 Family Psychiatric and Mental Health Nurse Practitioner (certificate), Certificate (NUPMNUPRCE)

Geriatric Nursing (certificate), Certificate (NUGNCERT)
 Healthcare Innovation, MHI (NUHCINNMHI)
 International Health for Healthcare Professionals (certificate), Certificate (NUHCRGRCI)
 Nurse Education in Academic and Practice Settings (certificate), Certificate (NUNURSEDCE)
 Nursing (Community Health Advanced Practice Nursing), MS (NUCHNDTMS)
 Nursing (Nursing Education), MS (NUNURSEDMS)
 Nursing and Healthcare Innovation, PHD (NUNHIPHD)
 Regulatory Science and Health Safety, MS (NURSHSMS)

Public Programs, College of

Applied Ethics and the Professions (Leadership, Management, and Ethics), MA (LAAEPLMEMA)
 Assessment of Integrative Health Modalities (certificate), Certificate (PPSWGGRCH)
 Community Resources and Development, MS (PPRECDTMS)
 Community Resources and Development, PHD (PPCRDPHD)
 Community Resources and Development (Nonprofits & NGOs), MS (PPCRDNPMS)
 Community Resources and Development (Parks and Recreation Management), MS (PPCRDPRMS)
 Community Resources and Development (Sustainable Communities), MS (PPCRDSCMS)
 Community Resources and Development (Tourism), MS (PPCRDTMMS)
 Corrections Management (Certificate), Certificate (PPCMGGRCT)
 Criminal Justice, MA (PPCRIMJMA)
 Criminology and Criminal Justice, MS (PPCRJMS)
 Criminology and Criminal Justice, PHD (PPCRJPHD)
 Emergency Management and Homeland Security, MA (PPEMHSMA)
 Latino Cultural Competency in Social Work (certificate), Certificate (PPSWGGRCL)
 Law Enforcement Administration (Certificate), Certificate (PPLEAGRCT)
 Nonprofit Leadership and Management (certificate), Certificate (PPNONPROCE)
 Nonprofit Studies, MNPS (PPNPSMNS)
 Participatory Governance (certificate), Certificate (PPPGOGRCT)
 Policy Informatics (Certificate), Certificate (PPPOIGRCT)
 Program Evaluation, MS (PPPGEMS)
 Public Administration, MPA (PPPADTMPA)
 Public Administration (Certificate), Certificate (PPPUAGRCT)
 Public Administration (Emergency Management), MPA (PPPAFEMPA)
 Public Administration (Nonprofit Administration), MPA (PPNONPRMPA)
 Public Administration (Urban Management), MPA (PPPAFUMPA)
 Public Administration (Urbanism), PHD (PPPAURBPHD)
 Public Administration and Policy, PHD (PPPUBADPHD)
 Public Policy, MPP (PPPUBPMPP)
 Public Policy (Certificate), Certificate (PPPUPGRCT)
 Public Policy (Environmental Policy), MPP (PPPUPEMPMP)
 Public Policy (Policy Informatics), MPP (PPPUPPIMPP)
 Public Policy (Science and Technology Policy), MPP (PPPUPSTMPP)
 Public Safety Leadership and Administration, MPSLA (PPPSLAMPSL)
 Social Entrepreneurship and Community Development (certificate), Certificate (PPSECDGRCT)
 Social Work, MSW (PPSWDMSW)
 Social Work, PHD (PPSW2PHD)
 Social Work (Advanced Direct Practice), MSW (PPAPDTMSW)
 Social Work (Planning, Administration and Community Practice), MSW (PPCPDTMSW)
 Social Work - Advanced Standing, MSW (PPASWMSW)
 Sustainable Tourism, MAS (PPSUSTMAS)
 Sustainable Tourism (certificate), Certificate (PPSTGRCT)

Trauma and Bereavement (certificate), Certificate (HSCTBGRCT)

Sustainability, School of

Complex Adaptive Systems Science (certificate), Certificate (SUCASGRCT)

Executive Masters for Sustainability Leadership, EMSL (SUEMSLEMSL)

Global Sustainability Leadership (certificate), Certificate (SUSUSGGRCT)

Sustainability, MA (SUSUSTMA)

Sustainability, MS (SUSUSTMS)

Sustainability, PHD (SUSUSTPHD)

Sustainability (Complex Adaptive Systems Science), PHD (SUSUSTCPHD)

Sustainable Solutions, MSUS (SUSUSOMSUS)

Teachers College, Mary Lou Fulton

An Overview of Autism Spectrum Disorders (certificate), Certificate (EDSPEGRCA)

Applied Behavior Analysis (Certificate), Certificate (TEABAGRCT)

Curriculum and Instruction (Teaching and Learning), MEd (EDDCIMED)

Curriculum and Instruction (Accomplished Teaching), MA (EDACCTCMA)

Curriculum and Instruction (Applied Behavior Analysis), MEd (TEABAMED)

Curriculum and Instruction (Autism Spectrum Disorders), MEd (TEASDMED)

Curriculum and Instruction (Bilingual Education), MA (EDBILINMA)

Curriculum and Instruction (Early Childhood Education), MEd (TEECDMED)

Curriculum and Instruction (English as a Second Language), MA (EDESLEMA)

Curriculum and Instruction (Gifted Education), MEd (TEGEDMED)

Curriculum and Instruction (Literacy Education), MA (EDLANGMA)

Educational Leadership, MEd (EDSUPVMED)

Educational Leadership (Principalship), MEd (TEPRINMED)

Educational Leadership (Supervision), MEd (TESPRVIMED)

Educational Policy, MA (EDSPFMA)

Educational Policy and Evaluation, PHD (EDLDRSHPHD)

Educational Technology, MEd (EDTECHMED)

Educational Technology, PHD (EDTECHPHD)

Elementary Education, MEd (TEELEMED)

Elementary Education (Teacher Certification Accelerated), MEd (TEEEACLMED)

English as a Second Language (Certificate), Certificate (TEESLGRCT)

Gifted Education (Certificate), Certificate (TEGEDGRCT)

Higher and Postsecondary Education, MEd (EDPOSTMED)

Institutional Research and Policy Analysis (certificate), Certificate (EDINSRESCE)

Instructional Design and Performance Improvement (certificate), Certificate (EDEDTGRCT)

Leadership and Innovation, EdD (TELINEDD)

Leadership and Innovation (Policy and Administration), EdD (TEINNPAEDD)

Leadership and Innovation (Teaching), EdD (TEINNTEEDD)

Learning, Literacies and Technologies, PHD (EDCIPHD)

Online Teaching for Grades K-12 (certificate), Certificate (TEEDTGRCT)

Physical Education, MPE (ECPHYEDMPE)

Secondary Education (Educational Technology), MEd (TESEDTCMED)

Secondary Education (Teacher Certification), MEd (TESCERTMED)

Special Education (Teacher Certification), MEd (TESECRTMED)

Technology for Teaching and Learning (certificate), Certificate (EDEDTTGRCT)

Undergraduate Programs

Minors (Program Descriptions and Requirements)

African and African American Studies Minor (LAAFRMIN)

American Indian Studies Minor (LAAISMIN)

American Studies Minor (ASAMSMIN)
Anthropology Minor (LAASBMIN)
Applied Biological Sciences Minor (TSABSMIN)
Applied Psychology Minor (ECPSYMIN)
Arabic Studies Minor (LAARBMIN)
Architectural Studies Minor (ARSTDMIN)
Art History Minor (FAARTHMIN)
Asian Languages (Chinese) Minor (LACHIMIN)
Asian Languages (Japanese) Minor (LAJPNMIN)
Asian Pacific American Studies Minor (LAAPAMIN)
Astronomy Minor (LAASTMIN)
Astrophysics Minor (LAASTPHMIN)
Biochemistry Minor (LABCHMIN)
Biological Sciences Minor (LABIOMIN)
Business Minor (BABUSMIN)
Chemistry Minor (ASCHMMIN)
Chemistry Minor (LACHMMIN)
Communication Minor (HSCMNMIN)
Communication Minor (LACOMMIN)
Community Sports Management Minor (PPCSMMIN)
Computational Mathematical Sciences Minor (LACMSMIN)
Construction Management Minor (ESCMGMIN)
Criminology and Criminal Justice Minor (PPCRJMIN)
Dance Minor (FADANMIN)
Design Studies Minor (ARDSNMIN)
Digital Culture Minor (HIDGCMIN)
Early Childhood Education Minor (TEECEDMIN)
Economics Minor (LAECNMIN)
Educational Studies Minor (TEEDSTMIN)
Engineering Management Minor (ESENMMIN)
English Minor (ASENGMIN)
English Minor (LAENGMIN)
English Minor (LSENGMIN)
English (Linguistics) Minor (LAENGMINN)
English (Literature) Minor (LAENGMINN)
Ethnic Studies Minor (ASETHMIN)
Family and Human Development Minor (LAFASMIN)
Film and Media Production Minor (FAFMPPMIN)
Film and Media Studies Minor (LAFMSMIN)
Food and Nutrition Management Minor (ECFNTRMIN)
French Minor (LAFREMIN)
Geography Minor (LAGCUMIN)
Geological Sciences Minor (LAGLGMIN)
German Minor (LAGERMIN)
Global Health Minor (LASSHMIN)
Global Studies Minor (LASGSMIN)
History Minor (ASHISMIN)
History Minor (LAHISMIN)
History Minor (LSHISMIN)
Human Nutrition Minor (ECNTRMIN)

Interdisciplinary Organizational Studies Minor (ASIOSMIN)
Interior Design History Minor (ARINTMIN)
Italian Minor (LAITAMIN)
Justice Studies Minor (LAJUSMIN)
Landscape Studies Minor (ARLNDMIN)
Latin American Studies Minor (ASLASMIN)
Life Sciences Minor (ASLSCMIN)
Materials Science and Engineering Minor (ESMSEMIN)
Mathematics Minor (ASMATHMIN)
Mathematics Minor (LAMATMIN)
Media Analysis Minor (CSCMOMINA)
Military Leadership Minor (LAMISMIN)
Music Minor (FAMUSMIN)
Music Performance Minor (HIMUSPMIN)
Nonprofit Leadership and Management Minor (PPNLMMIN)
Nutrition and Healthy Living Minor (NUNHLMIN)
Organizational Leadership Minor (LSORGLMIN)
Parks and Protected Area Management Minor (PPPRMMINT)
Personal Health Minor (NHPHLMIN)
Philosophy Minor (ASPHIMIN)
Philosophy Minor (LAPHIMIN)
Physics Minor (LAPHYMIN)
Physics Minor (LSPHYMIN)
Political Science Minor (ASPOLMIN)
Political Science Minor (LAPOSMIN)
Psychology Minor (ASPGSMIN)
Psychology Minor (LAPGSMIN)
Public Relations and Strategic Communications Minor (HSPRSMIN)
Public Service and Public Policy Minor (PPPAFMIN)
Real Estate Minor (BAREAMIN)
Recreation Management Minor (PPRECMIN)
Religious Studies Minor (ASRELMIN)
Religious Studies Minor (LARELMIN)
Romanian Minor (LAROMMIN)
Russian Minor (LARUSMIN)
Science, Technology and Society Minor (ECSTSMIN)
Slavic Studies Minor (LASLVMIN)
Social Welfare Minor (LASSWMIN)
Social and Behavioral Sciences Minor (ASSBSMIN)
Sociocultural Anthropology Minor (ASASBMIN)
Sociology Minor (ASSOCMIN)
Sociology Minor (LASOCMIN)
Spanish Minor (ASSPAMIN)
Spanish Minor (LASPAMIN)
Spanish Minor (LSSPAMIN)
Special Events Management Minor (HSEVNMIN)
Speech and Hearing Science Minor (LASHSMIN)
Statistics Minor (LASTAMIN)
Studio Art Minor (HISTARTMIN)
Sustainability Minor (SUSUSMIN)

Sustainable Tourism Minor (PPTDMSMIN)
 Theatre Minor (FATHEMIN)
 Tourism Development and Management Minor (PPTDMMIN)
 Transborder Chicana/o and Latina/o Studies Minor (LATCLMIN)
 Urban Planning Minor (ARPUPMIN)
 Urban and Metropolitan Studies Minor (PPURBMIN)
 Wellness Foundations Minor (ECEXWMIN)
 Women and Gender Studies Minor (ASWSTMIN)
 Women and Gender Studies Minor (LAWSTMIN)
 Youth Services Leadership Minor (HSYSLMIN)

Undergraduate Programs

Undergraduate Certificates (Program Descriptions and Requirements)

Actuarial Science Certificate (LAACTCERT)
 African and African American Studies Certificate (LAAFRCERT)
 Applied Business Data Analytics Certificate (BABDACERT)
 Arabic Studies Certificate (LAARBCERT)
 Arts Entrepreneurship Certificate (HITHAECERT)
 Arts in Education Certificate (HIAEDCERT)
 Asian Pacific American Studies Certificate (LAAPACERT)
 Asian Studies Certificate (LAASNCERT)
 Brazilian Studies Certificate (LABZSCERT)
 Child Life Certificate (LACHLFCERT)
 Child Nutrition Certificate (ECNTRCERC)
 Civic Education Certificate (LACVECERT)
 Civil Communication Certificate (LACCOMCERT)
 Classical Studies Certificate (LACLGCERT)
 Computer Gaming Certificate (ESSCICERT)
 Convention Sales and Meeting Planning Certificate (PPTDMCERT)
 Creative City Certificate (PPURBCERC)
 Digital Culture Certificate (HIDGCCERT)
 East Asian Studies Certificate (LAEASCERT)
 Economic Justice Certificate (LAECNJCERT)
 Energy and Sustainability Certificate (SUESUCERT)
 Entertainment and Technology Certificate (LAFMSUERE)
 Environmental Humanities Certificate (LAENHCERT)
 Environmental Humanities Certificate (LSENHCERT)
 Ethics Certificate (LAETHCERT)
 Ethnic Studies Certificate (ASETHCERT)
 European Union Studies Certificate (LAEUSCERT)
 Family Communication Certificate (ASFAMCCERT)
 Film and Video Studies Certificate (ASVIDCERT)
 Games and Impact Certificate (TEGIMCERT)
 Geographic Information Science Certificate (LAGISCERT)
 Hazardous Materials and Waste Management Certificate (TSETMCERT)
 History and Philosophy of Science Certificate (LAHPSCERT)
 Homeland Security Certificate (PPHSLCERT)
 Honors Business Consulting Certificate (BAECNUERT)
 Human Rights Certificate (LAHRTSCERT)
 Informatics Certificate (ESCPICERT)
 International Business Certificate (BAIBSCERT)

International Studies Certificate (LAINSCERT)
 Islamic Studies Certificate (LAISLCERT)
 Jewish Studies Certificate (LAJUDCERT)
 Knowledge Entrepreneurship and Innovation Certificate (BAKEICERT)
 Korean Studies Certificate (LAKORCERT)
 Latin American Studies Certificate (LALASCERT)
 Leadership and Ethics Certificate (PPLDECERT)
 Leadership, Ethics and Service Certificate (PPLETSCERT)
 Lesbian, Gay, Bisexual and Transgender Certificate (PPLGBTCERT)
 Medieval and Renaissance Studies Certificate (LAMRSCERT)
 Nonprofit Professional Certificate (PPNPYCERT)
 Oral History Certificate (ASOHCCERT)
 Philosophy, Rhetoric and Literature Certificate (ASPRLCERT)
 Political Entrepreneurship through Internships: Local to Global Certificate (LAPEICERT)
 Political Thought and Leadership Certificate (LAPTLCERT)
 Professional Sales Certificate (BAPRSCERT)
 Public Administration and Public Management Certificate (PPPAFCERT)
 Religion and Conflict Certificate (LARELCERT)
 Russian and East European Studies Certificate (LAREECERT)
 Sales and Marketing Essentials Certificate (BASMECERT)
 Secondary Education Certificate (TESEDCERT)
 Security Studies Certificate (PPSCSCERT)
 Small Business and Entrepreneurship Certificate (BASMBCERT)
 Social Transformation Certificate (LASOTCERT)
 Socially Engaged Practice in Design and the Arts Certificate (HISEPCERT)
 Socio-Legal Studies Certificate (LASLSTCERT)
 Southeast Asian Studies Certificate (LASALCERT)
 Spanish for the Professions Certificate (LSSPPRFCER)
 Special Events Management Certificate (HSRTMUERT)
 Speech-Language Pathology Assistant Certificate (LASLPACERT)
 Sports Business Certificate (BASPBCERT)
 Symbolic Systems Certificate (LAPHICERT)
 Teaching English to Speakers of Other Languages (TESOL) Certificate (LATESLCERT)
 Technical Communication Certificate (LSTECCERT)
 Technology Entrepreneurship Certificate (ESTNECERT)
 Translation Certificate (LASPACERT)
 Women and Gender Studies Certificate (ASWSTCERT)
 Women and Gender Studies Certificate (LAWSTCERT)
 Writing (Liberal Arts and Sciences) Certificate (LAENGCERT)
 Writing (New College) Certificate (ASWRTCERT)

Undergraduate Programs

Undergraduate Degrees (Program Descriptions)

Business, W. P. Carey School of

Accountancy, BS (BAACCBS)
 Agribusiness (Global Agribusiness), BS (AGAGBGABS)
 Business, BA (BABUSBA)
 Business (Communication), BA (BABUSCBA)
 Business (Food Industry Management), BA (BABUSFIMBA)
 Business (Global Agribusiness), BA (BABUSGAGBA)
 Business (Global Leadership), BA (BABUSGBA)

Business (Global Logistics Management), BA (BABUSGLBA)
 Business (Global Politics), BA (BABUSGPBA)
 Business (Human Resources), BA (BABUSHRBA)
 Business (Law), BA (BABUSLBA)
 Business (Public Service and Public Policy), BA (BABUSPBA)
 Business (Sports and Media Studies), BA (BABUSMSBA)
 Business (Statistics), BA (BABUSTABA)
 Business (Sustainability), BA (BABUSSBA)
 Business (Technology), BA (BABUSTCBA)
 Business (Tourism), BA (BABUSTBA)
 Business (Urban Policy), BA (BABUSUBA)
 Business Data Analytics, BS (BABDABS)
 Business Entrepreneurship, BS (BABUENTBS)
 Business Exploratory, (BABUSEXP)
 Computer Information Systems, BS (BACISBS)
 Economics, BS (BAECNBS)
 Finance, BS (BAFINBS)
 Food Industry Management, BS (BAFIMBS)
 Management, BS (BAMGTBS)
 Marketing, BS (BAMKTBS)
 Marketing (Digital and Integrated Marketing Communications), BS (BAMKDIMCBS)
 Marketing (Professional Sales), BS (BAMKTPSBS)
 Supply Chain Management, BS (BASCMBBS)
 Design & the Arts, Herberger Institute for
 Architectural Studies, BSD (ARSTDBSD)
 Art (Art Education), BFA (FAARTEBFA)
 Art (Art History), BA (FAARTHBA)
 Art (Art Studies), BA (FAARTSTDBA)
 Art (Ceramics), BFA (FAARTCBFA)
 Art (Drawing), BFA (FAARTDBFA)
 Art (Fibers), BFA (FAARTFBFA)
 Art (Intermedia), BFA (FAARTIBFA)
 Art (Metals), BFA (FAARTMBFA)
 Art (Museum Studies), BA (FAARTMSBA)
 Art (Painting), BFA (FAARTPABFA)
 Art (Photography), BFA (FAARTPHBFA)
 Art (Printmaking), BFA (FAARTPMBFA)
 Art (Sculpture), BFA (FAARTSBFA)
 Arts (BA in the Arts), BA (FAATSBA)
 Dance, BFA (FADANBFA)
 Dance (Dance Education), BFA (FADANEBFA)
 Design Studies, BA (ARDSNBA)
 Design Studies (Design Management), BA (ARDSNMBA)
 Digital Culture (Art), BA (HIDGCABA)
 Digital Culture (Arts and Design Studies), BA (HIDCADSBA)
 Digital Culture (Design), BA (HIDGCDBA)
 Digital Culture (Film), BA (HIDGCFBA)
 Digital Culture (Interdisciplinary Arts and Performance), BA (HIDCIAPBA)
 Digital Culture (Media Processing), BA (HIDGCMPPBA)
 Digital Culture (Music), BA (HIDGCMBA)

Digital Culture (Technological Entrepreneurship), BA (HIDGCTEBA)
 Digital Culture (Theatre), BA (HIDGCTBA)
 Environmental Design, BS (HIEDSBS)
 Film (Film and Media Production), BA (FAFLMBA)
 Film (Filmmaking Practices), BA (FAFPRBA)
 Graphic Design, BSD (ARGRABSD)
 Industrial Design, BSD (ARINDBSD)
 Interior Design, BSD (ARINTBSD)
 Landscape Architecture, BSLA (ARPLABSLA)
 Music, BA (FAMUSBA)
 Music Education, BMUS (FAMUSEBM)
 Music Therapy, BMUS (FAMUSTHBM)
 Performance (Collaborative Piano), BMUS (FAMUSPPBM)
 Performance (Guitar), BMUS (FAMUSPGBM)
 Performance (Jazz), BMUS (FAMUSPJBM)
 Performance (Keyboard), BMUS (FAMUSPKBM)
 Performance (Music Theatre), BMUS (FAMUSPMBM)
 Performance (Orchestral Instrument), BMUS (FAMUSPOBM)
 Performance (Voice), BMUS (FAMUSPVBM)
 Performance and Movement, BA (HIPERMVBA)
 Theatre, BA (FATHEBA)
 Theatre (Acting), BA (FATHEABA)
 Theatre (Design and Production), BA (FADSNPRBA)
 Theory and Composition (Composition), BMUS (FAMUSTCBM)
 Theory and Composition (Theory), BMUS (FAMUSTTBM)

Engineering, Ira A. Fulton Schools of

Aeronautical Management Technology (Air Transportation Management), BS (TSAMTMBS)
 Aeronautical Management Technology (Professional Flight), BS (TSAMTFBS)
 Aeronautical Management Technology (Unmanned Aerial Systems), BS (TSAMTUASBS)
 Aerospace Engineering (Aeronautics), BSE (ESAEROBSE)
 Aerospace Engineering (Astronautics), BSE (ESAEASBSE)
 Aerospace Engineering (Autonomous Vehicle Systems), BSE (ESAEAVSBSE)
 Air Traffic Management, BS (TSATMBS)
 Applied Computer Science, BS (TSAC SBS)
 Applied Science, BAS (TSAPSBAS)
 Applied Science (Aviation Management Technology), BAS (TSAMTABAS)
 Applied Science (Electronic Energy Systems), BAS (TSEESBAS)
 Applied Science (Graphic Information Technology), BAS (TSGITBAS)
 Applied Science (Internet and Web Development), BAS (TSIWDBAS)
 Applied Science (Manufacturing Technology and Management), BAS (TSMETFBAS)
 Applied Science (Operations Management), BAS (TSIMCOBAS)
 Applied Science (Software and Computing Systems), BAS (TSCSTBAS)
 Biomedical Engineering, BSE (ESBMEBSE)
 Chemical Engineering, BSE (ESCHEBSE)
 Civil Engineering, BSE (ESCEEBSE)
 Civil Engineering (Environmental Engineering), BSE (ESCEEEBSE)
 Civil Engineering (Sustainable Engineering), BSE (ESCEESUBSE)
 Computer Science, BS (ESCSEBS)
 Computer Science (Information Assurance), BS (ESCSEIBS)
 Computer Science (Software Engineering), BS (ESCSESBS)

Computer Systems (Computer Hardware Technology), BS (TSCSTHBS)
 Computer Systems (Embedded Systems Technology), BS (TSCSTMBS)
 Computer Systems Engineering, BSE (ESCSEBSE)
 Computer Systems Engineering (Information Assurance), BSE (ESCSEIBSE)
 Construction Engineering, BSE (ESCONBSE)
 Construction Management, BS (ESCONMGTBS)
 Construction Management (Concrete Industry Management), BS (ESCONIMBS)
 Electrical Engineering, BSE (ESEEEBSE)
 Electrical Engineering (Electric Power and Energy Systems), BSE (ESEEEPBSE)
 Electronics Engineering Technology (Alternative Energy Technologies), BS (TSEETABS)
 Electronics Engineering Technology (Electronic Systems), BS (TSEETEBS)
 Electronics Engineering Technology (Integrated Electronic Systems), BS (TSEETINBS)
 Engineering, BSE (TSEGRBSE)
 Engineering (Automotive Systems), BSE (TSEGRASBSE)
 Engineering (Electrical Systems), BSE (TSEGRESBSE)
 Engineering (Humanitarian Engineering), BSE (TSEGRHEBSE)
 Engineering (Mechanical Engineering Systems), BSE (TSEGRMEBSE)
 Engineering (Robotics), BSE (TSEGRRBSE)
 Engineering Management, BSE (ESEMGBSE)
 Environmental and Resource Management, BS (TSETMBS)
 Graphic Information Technology, BS (TSGITBS)
 Graphic Information Technology (Gaming), BS (TSGITGBS)
 Industrial Engineering, BSE (ESIEEBSE)
 Industrial and Organizational Psychology, BS (ECPSYBS)
 Informatics, BS (ESCPIBS)
 Information Technology, BS (TSIFTBS)
 Manufacturing Engineering, BS (TSMEGRBS)
 Manufacturing Engineering Technology (Mechanical), BS (TSMETMBS)
 Materials Science and Engineering, BSE (ESMSEBSE)
 Mechanical Engineering, BSE (ESMAEMBSE)
 Mechanical Engineering (Computational Mechanics), BSE (ESMAECBSE)
 Mechanical Engineering (Energy and Environment), BSE (ESMAEEBSE)
 Mechanical Engineering Technology, BS (TSMECBS)
 Mechanical Engineering Technology (Aeronautical Engineering Technology), BS (TSMECEBS)
 Mechanical Engineering Technology (Automation Engineering Technology), BS (TSMECUBS)
 Mechanical Engineering Technology (Automotive), BS (TSMECTBS)
 Pre-Engineering, (TSEGRPRE)
 Product Development and Manufacturing Technology, BS (TSMETBS)
 Software Engineering, BS (TSSERBS)
 Technological Entrepreneurship and Management, BS (TSTEMBS)

Health Solutions, College of

Applied Science (Food Service Management), BAS (ECNTRBAS)
 Applied Science (Health Sciences), BAS (NUHSCBAS)
 Applied Science (Medical Laboratory Science), BAS (NUMLSBAS)
 Biomedical Informatics, BS (ESBMIBS)
 Exercise and Wellness (Exercise and Wellness), BS (ECEXWBS)
 Exercise and Wellness (Health Promotion), BS (ECEXWHBS)
 Health Education and Health Promotion, BS (NHHEHPBS)
 Health Sciences (Health Policy), BS (NUHSCHPBS)
 Health Sciences (Healthy Lifestyles Coaching), BS (NUHSCHLCBS)

Health Sciences (Pre-professional), BS (NUHSCPREBS)
 Health Systems Management, BS (TSHSYMBS)
 Kinesiology, BS (NUKINBS)
 Medical Studies, BS (NHMEDBS)
 Nutrition (Dietetics), BS (ECNTRDBS)

Graduate Programs

Graduate Degrees and Certificates (Program Descriptions and Requirements)

Business, W. P. Carey School of

Accountancy, MAcc (BAACCMACC)

Online Degree Search Title: Accountancy (MACC)

Campus: TEMPE

Program Description:

The MAcc program is structured to provide students with an in-depth working knowledge of advanced accounting topics that are most relevant in today's business environment. Students are prepared for a wide range of professional careers in accounting. The program aids significantly in preparation for the certified public accountant examination and also offers an emphasis in information systems.

Classes begin in both the fall (August) and Spring (January) semesters and offered on the Tempe campus. The nine month master's in accountancy is designed for individuals who want to immerse themselves in full-time graduate studies and take classes during the day.

Degree Requirements: 30 credit hours including the required capstone course (ACC 588).

The master's is a cohort-based, full-time program requiring a bachelor's degree in accountancy and is completed in one academic year, either August through May or January through December. Applicants must complete program prerequisites prior to admission to the program. Refer to the master's website for a current list of required course prerequisites. Graduate-level accounting courses are only open to students admitted to the graduate program.

Concurrent Degrees:

This degree is also offered as concurrent degree with:

Legal Studies (MLS)

W. P. Carey MBA - Full-Time Program

Accelerated Degrees:

This degree is also offered as an accelerated degree with Accountancy, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

All applicants are required to submit the ASU Graduate Education online application and the supplemental application materials required by the W. P. Carey Graduate Programs Office.

Minimum requirements for admission to the master's program are:

- official transcripts of all course work completed at institutions other than ASU
- GMAT test scores
- one letter of recommendation that comments on students motivation, commitment, achievements, work experience and opportunity for success in the program
- current resume
- essays
- proof of English proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Complete application instructions may be obtained from the department's website.

Students must fulfill both the requirements of Graduate Education and those of the W. P. Carey School of Business.

Agribusiness, MS (AGAGRIBMS)

Online Degree Search Title: Environmental and Resource Management (MS)

Campus: POLY

Program Description:

The Morrison School of Agribusiness and Resource Management at the Polytechnic campus offers the MS in environmental and resource management. This degree is designed to prepare students from a variety of backgrounds with a set of critical and analytical business skills, while recognizing the unique demands of the agribusiness and resource management sectors. Graduates are well prepared for successful administrative or managerial careers with either government or private-sector organizations in either field.

Students are able to select either a research-oriented program, which leads to the completion of a supervised thesis, or a program consisting of course work only (nonthesis option). The nonthesis option allows students to develop an area of specialization and apply these skills to a real-world environmental and resource management problem through an integrative, capstone course experience. Both the thesis and nonthesis options require the completion of a common set of core courses.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required capstone course (AGB 589).

Core requirements for this program include 18 credit hours of course work. Thesis students fulfill the remaining 12 credit hours by taking three research credits, six thesis credits and three hours of electives. Nonthesis students fulfill the remaining hours by taking 12 hours of electives.

It is suggested that students take a coherent sequence of courses such as those indicated below, but considerable flexibility is possible based on individual backgrounds and interests.

Thesis and Nonthesis MS in Agribusiness

Semester I

AGB 528 Advanced Agribusiness Marketing (3)

AGB 561 Applied Econometrics (3)

Semester II

AGB 511 Advanced Agribusiness Management (3)

AGB 532 Advanced Agribusiness Finance (3)

AGB 570 Managerial Economics for Agribusiness (3)

Semester III

500-level AGB emphasis electives (6)

AGB 589 Agribusiness Capstone (3)

Semester IV

500-level AGB emphasis or other electives (9)

Thesis Option

AGB 592 Research (3)

AGB 599 Thesis (6)

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate Education application
- official transcript from each college or university attended
- official GRE general exam, Miller Analogies Test or GMAT scores
- statement of purpose*
- current curriculum vitae
- proof of English language proficiency**
- three letters of recommendation (optional)

*Note: An explanation of the applicant's basic skills in economics, accounting, statistics, computer use and some experience or knowledge in an area related to agribusiness should be addressed in the statement of purpose.

****Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. Complete information on the English proficiency exams and other required documents can be found on the Graduate Education website:**
<http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

For best consideration, the deadline is Feb. 1 for fall applications; Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

The Morrison School of Agribusiness and Resource Management awards assistantships to selected candidates. These support ongoing research and teaching activities. The awards are made on the basis of availability and according to the needs of the faculty and interests of the students. Scholarships are also available on a competitive basis for qualified candidates.

Business Administration (Accountancy), PHD (BAACCTPHD)

Online Degree Search Title: Accountancy (PhD)

Campus: TEMPE

Program Description:

The objective of the PhD in business administration with a concentration in accountancy is to prepare scholars to conduct high-quality research and to teach in the fields of:

- auditing
- financial accounting
- managerial accounting
- taxation

This program allows students to develop the capability to review, analyze, conduct and publish research through a series of research seminars, theory-building and statistical course work that supplement and complement students' abilities and desires. In addition, doctoral students participate in ongoing research projects in conjunction with faculty members in the School of Accountancy.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

This program consists of 12 hours of dissertation and 72 hours of course work and research. Students may not apply credit hours earned for a doctoral degree previously awarded at ASU or another institution toward their current ASU doctoral degree. However, at the academic unit's discretion, students may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Students work with their study committees to determine an appropriate plan of study. Common areas of functional specialization among doctoral studies include financial and managerial accounting, auditing and taxation. With these functional areas, doctoral studies may emphasize experimental or archival research methods. All accountancy doctoral students are required to take a three-semester sequence of accountancy doctoral course work. A maximum of 12 approved graduate credit hours can be transferred to satisfy program requirements.

Comprehensive Examinations

Upon completion of all necessary course work on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam and, at the discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the vice provost for Graduate Education upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled in at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit (such as 795 Continuing Registration) during the semester (including a summer session) in which the student defends the dissertation.

Note: For detailed information regarding the university's doctoral degree requirements, please refer to the Graduate Education Doctor of Philosophy policy and procedures.

Maximum Time Limit

Doctoral students must complete all program requirements within a 10-year period. The 10-year period starts with the initial enrollment into the doctoral program. In addition, the student must take the final oral examination in defense of the dissertation within five years after passing the comprehensive examinations. Any exception must be approved by the supervisory committee and the vice provost for Graduate Education and ordinarily involves repetition of the comprehensive examinations.

Admission Requirements:

All applicants must submit the Graduate Education online application and complete English proficiency requirements.

Applications are initially reviewed by a School of Accountancy doctoral committee using a portfolio approach. In addition to GMAT scores and prior academic performance, letters of recommendation and a personal statement are reviewed to ensure a good "fit" between students' goals and the school. Recommendations for action are then made to the director of doctoral programs in the W. P. Carey School of Business, who in turn make recommendations to Graduate Education.

Graduate Education admits or denies each applicant and notifies them in writing.

Business Administration (Agribusiness), PHD (BAAGRIPHD)

Online Degree Search Title: Agribusiness (PhD)

Campus: POLY

Program Description:

The objective of the PhD in business administration with a concentration in agribusiness is to produce scholars who are trained in the latest methods of business and economic analysis and who can apply these methods to critical research problems faced by firms in the agribusiness industry. With this background, graduates with a concentration in agribusiness are qualified to assume teaching and research positions at top-ranked research universities.

Agribusiness doctoral students are involved with research in the following:

- consumer behavior in food markets
- derivatives, commodity trading and risk management
- food and fiber supply chain management
- international agricultural trade and policy
- strategic marketing by food retailers

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

At least 30 hours (which may include research credit) of the approved doctoral program and 12 dissertation hours must be completed after admission to the student's doctoral program. Students may not apply credit hours earned for a doctorate previously awarded at ASU or another institution toward their current ASU doctorate. However, at the individual academic unit's discretion, students may apply up to 30 credit hours from a previously awarded master's toward their doctoral plan of study.

Agribusiness doctoral students are expected to develop a program of study that consists of three elements:

- a core of theory and quantitative methods course work in economics and management from the Morrison School of Agribusiness and Resource Management
- advanced courses in at least one of these areas from the W. P. Carey School of Business: economics, finance, marketing, supply chain management or management
- a three-course sequence of doctorate-level theory and methods from the Morrison School of Agribusiness and Resource Management as applied to issues and concepts specific to the agribusiness sector

The agribusiness doctorate is designed to allow flexibility with focus, so each student's program of study is unique, but is designed to produce the highest level of research competency in the student's chosen area of interest.

Comprehensive Examinations

Upon completion of all necessary course work on a student's approved program of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examination consists of a minimum of a written exam; at the discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status in a letter from the vice provost for Graduate Education upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled in at least one credit hour that appears on the program of study or one hour of appropriate graduate-level credit (such as 795 Continuing Registration) during the semester (including summer session) in which the student defends the dissertation.

Note: For detailed information regarding the university's doctoral degree requirements, please refer to the Graduate Education Policies and Procedures.

Maximum Time Limit

Doctoral students must complete all program requirements within a 10-year period. The 10-year period starts with the initial enrollment into the doctoral program. Business Administration (Computer and Information Systems), PHD (BAINFSYPHD)

Online Degree Search Title: Computer Information Systems (PhD)

Campus: TEMPE

Program Description:

The Department of Information Systems offers a computer information systems concentration within the W. P. Carey PhD in business administration degree program. The objective of the program is to prepare scholars for careers at leading educational institutions. This program allows students to develop the capability to review, analyze, conduct and publish research through a series of seminars and additional supporting course work. In addition, doctoral students participate in ongoing research projects in conjunction with faculty members in the department.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

The doctoral program consists of a minimum of 84 credit hours of graduate-level course work beyond the bachelor's degree. A minimum of 42 hours of doctoral course work and 12 hours of dissertation credits are required to be taken at Arizona State University's Tempe campus. At the department's discretion, students may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Students work with their program committees to determine an appropriate plan of study. Common areas of specialization for doctoral studies include:

- business analytics and big data
- health care information technology
- IT enabled services and process innovation
- information economics and strategy
- security and privacy
- social media, e-commerce and mobile platforms

Comprehensive Examinations

Upon completion of all necessary course work on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam and, at the discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the vice provost for Graduate Education upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctoral degree. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit (such as 795 Continuing Registration) during the semester (including summer session) in which the student defends the dissertation.

Note: For detailed information regarding the university's doctoral degree requirements, please refer to Graduate Education policies and procedures.

Maximum Time Limit

Doctoral students must complete all program requirements within a 10-year period. The 10-year period starts with the initial enrollment into the doctoral program. In addition, students must take the final oral examination in defense of the dissertation within five years after passing the comprehensive examinations. Any exception must be approved by the supervisory committee and the vice provost for Graduate Education and ordinarily involves repetition of the comprehensive examinations.

Admission Requirements:

All applicants are required to submit the Graduate Education online application and the supplemental application materials required by the department.

Doctoral applicants admitted to the W. P. Carey School of Business must have demonstrated the following proficiencies:*

- competency in mathematics
- strong quantitative ability
- competency in the use of computer technology for analytical purposes
- an undergraduate degree in a related field from an accredited university
- GMAT score
- proof of English proficiency**

*A master's or MBA is recommended (30 credits may count toward the minimum total of 84 hours of course work in our doctoral program). At least two years of full-time related work experience is recommended.

**International applicants whose native language is not English must submit scores from the Test of English as a Foreign Language (TOEFL). For more information on requirements, please review the program's website. Please also review the Graduate Education website for specific ASU admission requirements.

Applications are reviewed by the department's faculty committee using a portfolio approach. The committee will review each individual application and examine all parts equally.

Students must fulfill both the requirements of Graduate Education and those of the W. P. Carey School of Business.

Business Administration (Finance), PHD (BAFINANPHD)

Online Degree Search Title: Finance (PhD)

Campus: TEMPE

Program Description:

The primary objective of the PhD in business administration, concentration in finance is to train students for careers as professors of finance at major research universities. The program provides a challenging course of study in the most recent developments in both the theoretical and empirical aspects of financial economics. This course of study, along with work in economics and statistics, serves as preparation for understanding and critical analysis of current issues in finance.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

At least 30 hours (which may include research credit) of the approved doctoral program and 12 dissertation hours must be completed after admission to the student's doctoral program. Students may not apply credit hours earned for a doctoral degree previously awarded at ASU or another institution toward their current ASU doctoral degree. However, at the individual academic unit's discretion, students may apply up to 30 relevant credit hours from a previously awarded master's toward their doctoral plan of study.

Comprehensive Examinations

Upon completion of all necessary course work on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examination. The comprehensive examination consists of a minimum of a written exam and, at the discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the vice provost for Graduate Education upon passing

the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit (such as 795 Continuing Registration) during the semester (including summer session) in which the student defends the dissertation.

Note: For detailed information regarding the university's doctoral degree requirements, please refer to the Graduate Education Doctor of Philosophy policy and procedures.

Maximum Time Limit

Doctoral students must complete all program requirements within a 10-year period. The 10-year period starts with the initial enrollment into the doctoral program. In addition, the student must take the final oral examination in defense of the dissertation within five years after passing the comprehensive examinations. Any exception must be approved by the supervisory committee and the vice provost for Graduate Education, and ordinarily involves repetition of the comprehensive examinations.

Admission Requirements:

Admission to the PhD in business administration with a concentration in finance is granted to applicants who present convincing evidence of high-order analytical skills, intellectual curiosity and the ability to work independently in pursuing scholarly research. Applicants should possess the intellectual curiosity and discipline required for original inquiry.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the W. P. Carey School of Business.

In addition to the general requirements of Graduate Education, applicants must submit:

- an online Graduate Education application
- three academic letters of recommendation
- scores from the GMAT or GRE
- a brief statement of their career objectives
- a resume

While many accepted students have an MBA or MS in a business-related field, others have a background in other areas, such as engineering, economics, mathematics, physics or political science.

Business Administration (Management), PHD (BAMGMTPHD)

Online Degree Search Title: Management (PhD)

Campus: TEMPE

Program Description:

The Department of Management offers students the opportunity to obtain a PhD in business administration with a concentration in management. The doctoral program places primary emphasis on the development of research competence and also emphasizes teaching as a vehicle to academic professionalism. It is not intended for those seeking careers in industry or consulting. The mission of the program is the development of scholars who are prepared to assume the diverse responsibilities of faculty positions at leading research universities. Although management is a broad field, this doctoral program is best suited for students interested in specializing in organizational behavior, strategic management or organization theory.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

At least 30 hours (which may include research credit) of the approved doctoral program and 12 dissertation hours must be completed after admission to the doctoral program. Students may not apply credit hours earned for a doctoral degree previously awarded at ASU or another institution toward their current ASU doctoral degree. However, at the individual academic unit's discretion, students may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Doctoral students are required to commit full time to the program, at least until they have successfully defended the dissertation proposal. Full-time enrollment entails a minimum of six hours of course work in any regular academic semester. To reach a total of 84 credit hours for the program, most students enroll for nine to 12 credit hours per semester. In addition, students work closely with faculty members through a research assistantship. The program is relatively small, with an emphasis on high quality; we provide a great deal of individual attention and mentoring to our students.

Comprehensive Examinations

Upon completion of all necessary course work on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam and, at the discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the vice provost for Graduate Education upon passing the comprehensive examinations and successfully defending the dissertation proposal.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit (such as MGT 795 Continuing Registration) during the semester (including summer sessions) in which the student defends the dissertation.

Maximum Time Limit

Doctoral students must complete all program requirements within a 10-year period. The 10-year period starts with the semester and year of admission to the doctoral program. In addition, students must take the final oral examination in defense of the dissertation within five years after passing the comprehensive examinations. Therefore, the maximum time limit is the shortest of the following: the time period since initial enrollment (10-year time limit) or the time after passing the comprehensive exams (five-year time limit).

Any exception must be approved by the supervisory committee and the vice provost for Graduate Education and ordinarily involves repetition of the comprehensive examinations.

Admission Requirements:

Applications are initially reviewed by a faculty committee using a portfolio approach. Materials are reviewed to ensure a good fit between students' goals and research interests and those of the department. Recommendations for action are then made to Graduate Education. Graduate Education admits or denies each applicant and notifies them in writing.

All applicants must submit:

- the Graduate Education online application
- GMAT scores and prior academic performance records
- three letters of recommendation
- a personal statement
- employment summary
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the W. P. Carey School of Business.

Business Administration (Marketing), PHD (BAMARKPHD)

Online Degree Search Title: Marketing (PhD)

Campus: TEMPE

Program Description:

The PhD program is for those students who want to become full-time professors at research-oriented universities. It is not intended for people who want to work in industry positions. It is a full-time program only, and students take all their courses on campus.

All students complete a core curriculum, yet tailor their work to achieve personal goals. The program is designed to be completed in four to five years.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Plan of Study

At least 30 hours (which may include research credit) of the approved doctoral program and 12 dissertation hours must be completed after admission to the doctoral program. Students may not apply credit hours earned for a doctoral degree previously awarded at ASU or another institution toward their current ASU doctoral degree. However, at the individual academic unit's discretion, students may apply up to 30 credit hours from a previously awarded master's degree toward their doctoral plan of study.

Comprehensive Examinations

Upon completion of all necessary course work on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam and, at the discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the vice provost for Graduate Education upon passing the comprehensive examinations and successfully defending the dissertation proposal.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit (such as MKT 795 Continuing Registration) during the semester (including summer session) in which the student defends the dissertation.

Note: For detailed information regarding the university's doctoral degree requirements, please refer to Graduate Education policies and procedures.

Maximum Time Limit

Doctoral students must complete all program requirements within a 10-year period. The 10-year period starts with the initial enrollment into the doctoral program. In addition, students must take the final oral examination in defense of the dissertation within five years after passing the comprehensive examinations. Any exception must be approved by the supervisory committee and the vice provost for Graduate Education and ordinarily involves repetition of the comprehensive examinations.

Business Administration (Supply Chain Management), PHD (BASCMPHD)

Online Degree Search Title: Supply Chain Management (PhD)

Campus: TEMPE

Program Description:

The objective of the PhD in business administration with a concentration in supply chain management is to prepare scholars to conduct high-quality research and teach in the field of supply chain management. Supply chain management incorporates the core areas of logistics, operations management and sourcing or purchasing.

It is a full-time residential program for students whose career goals are full-time university research and teaching upon completion of the degree. Students are trained to competently recognize SCM-related problems, frame these problems into research questions and address them in a scholarly manner. Students are required to review, analyze, conduct and publish research through a series of doctoral seminars and supplemental course work that encourages creativity and critical thinking.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The doctoral program requires the completion of course work, the completion of academic papers for submission to journals, a comprehensive exam and a dissertation. The program is generally viewed as a four-year process. Most students will serve in research assistantships for all four years. During the program, students are expected to actively participate in required courses as well as in seminars and presentations from colleagues, department faculty and visiting scholars. Students will also have the opportunity to teach courses during their doctoral program. Teaching assistantships will typically be made available during the last two years of the program. This will allow doctoral students to get research projects and manuscripts into the multiyear pipeline typical of accepted research articles. Through our areas of excellence, centers and faculty, the SCM program has special opportunities for industry-based research projects.

Course Work

The doctoral program consists of a minimum of 84 credit hours of approved graduate course work beyond the bachelor's degree. The department requires doctoral students to take 48 credit hours of graduate course work in residence at ASU during their first two years. The specific classes must be approved by faculty members in the students' areas of excellence. Students are also required to take 12 hours of research and 12 hours of dissertation credit. A maximum of 12 credits can be transferred from previous graduate course work. Moreover, each student's plan of study must be approved in advance by their program chair.

Academic Papers

Students are expected to work on academic papers for submission to journals during their doctoral program. Summer months are intended for manuscript writing for those students who have yet to successfully defend their dissertation proposals. At the end of each summer, all doctoral students are required to have at least one new manuscript ready for submission to a journal for publication. Faculty in the areas of excellence will supervise manuscript planning and writing. The bulk of the writing is to be done during the summer by the students. Faculty in the students' areas of excellence will evaluate the papers and provide detailed feedback and instructions for rewriting of papers.

Comprehensive Examinations

Upon completion of all necessary course work on a student's approved plan of study, the academic unit may initiate the scheduling and administering of a student's comprehensive examinations. The comprehensive examinations consist of a minimum of a written exam and, at the discretion of the academic unit, an oral exam may also be required.

Candidacy

Doctoral students are notified of achieving candidacy status when they receive a letter from the vice provost for Graduate Education upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation Requirements

Students are required to present a dissertation to satisfy the research requirement for the doctorate. The dissertation is defended in an oral examination commonly known as the dissertation defense.

Students must be enrolled for at least one credit hour that appears on the plan of study or one hour of appropriate graduate-level credit (such as 795 Continuing Registration) during the semester (including a summer session) in which the student defends the dissertation.

Note: For detailed information regarding the university's doctoral degree requirements, please refer to the Graduate Education policies and procedures.

Maximum Time Limit

Doctoral students must complete all program requirements within a 10-year period.

Admission Requirements:

Applications are initially reviewed by a faculty committee using a portfolio approach. Materials are reviewed to ensure a good fit between students' goals and research interests and those of the department. Recommendations for action are then made to Graduate Education. Graduate Education admits or denies each applicant and notifies them in writing.

All applicants must submit:

- the Graduate Education online application
- GMAT or GRE scores and prior academic performance records
- letters of recommendation
- a personal statement
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the W. P. Carey School of Business.

Business Analytics, MS (BABUSANMS)

Online Degree Search Title: Business Analytics MS

Campus: ONLNE, TEMPE

Program Description:

Delivered by the highly ranked W. P. Carey Departments of Information Systems and Supply Chain Management, the MS in business analytics program builds on quantitative skills and develops the analytics depth needed to make an immediate impact. Students discover how to derive value from data, lead data-driven analyses and create a business advantage across markets and industries.

The nine-month, lock-step curriculum consists of eight quarter-based courses and two semester-long courses. The program culminates in a semester-long applied project, which delivers real-world experience and develops communication and leadership abilities. One (1.5 credit hours) applied project course from each discipline will serve as the culminating experience for students completing the MS in business analytics.

Classes begin each fall semester in August and are offered on both the Tempe campus and Online. The MS in business analytics (on the Tempe campus) is designed for individuals who want to immerse themselves in full-time graduate studies and take classes during the day. The MS in business analytics (offered online) is designed for working professionals and is offered entirely online.

Degree Requirements: 30 credit hours including the required applied project courses (SCM 593 and CIS 593).
Academic Catalog Archive 2014-2015 246

Core Courses:

CIS 505 Introduction to Enterprise Analytics (3)
CIS 508 Data Mining I (3)
CIS 509 Data Mining II (3)
CIS 515 Business Analytics Strategy (3)
ECN 525 Applied Regression Models (3)
SCM 516 Introduction to Applied Analytics (3)
SCM 517 Data-Driven Quality Management (3)
SCM 518 Analytical Decision Making Tools I (3)
SCM 519 Analytical Decision Making Tools II (3)

Culminating Experience:

CIS 593 Applied Project II (1.5)
SCM 593 Applied Project I (1.5)

Admission Requirements:

All applicants are required to submit the ASU Graduate Education online application and the supplemental application materials required by the W. P. Carey Graduate Programs Office.

Minimum requirements for admission to the MS in business analytics program are:

- official transcripts of all course work completed at institutions other than ASU
- GMAT or GRE test scores
- one letter of recommendation that comments on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.
- proof of English proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Complete application instructions may be obtained from the department's website.

Students must fulfill both the requirements of Graduate Education and those of the W.P. Carey School of Business.

Economics, PHD (BAECONPHD)

Online Degree Search Title: Economics (PhD)

Campus: TEMPE

Program Description:

The PhD program in economics is a full-time program intended to prepare students for teaching and research positions at four-year institutions of higher education and for research positions in public agencies or private business organizations. The doctoral program is relatively small in size, with about 45 doctoral students in residence at any time. The low student-faculty ratio allows us to provide greater faculty attention and mentoring compared to larger programs. Students are involved in teaching, research and seminar activities, becoming valued members of the department. Most of our doctoral students are supported through teaching and research assistantships for five years. Stipends are highly competitive with any graduate program in the country.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

In addition to completing 60 credit hours beyond the bachelor's (30 credit hours beyond the master's) and 24 credit hours of research and dissertation, the doctoral student must accomplish five tasks:

- meet the qualifying examination requirement
- present at least one area of emphasis
- pass the comprehensive examination (both written and oral components)
- pass the dissertation proposal defense

- complete a dissertation with an oral defense

See the Department of Economics graduate student handbook for details concerning these tasks.

Admission Requirements:

- Each applicant must submit an online application form, fee and other materials to ASU Graduate Education; admission guidelines are available from Graduate Education.
- All applicants to the doctoral program in economics must have a bachelor's or equivalent.
- The Department of Economics requires applicants to send official scores from the GRE. Applications will not be reviewed until the GRE scores are received.
- Applicants are required to submit at least three letters of recommendation to the Director of Graduate Studies in the Department of Economics.
- Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the W. P. Carey School of Business.

Our admission policy weighs several factors including letters of reference, overall GPA, GRE scores and performance in selected mathematics and economics courses. We have no absolute standards for any of the factors, but performance on each clearly should suggest academic potential that is far above those of the normal undergraduate student.

The application deadline is Jan. 15 for the fall semester. There are no spring admission.

Finance, MS (BAFINMS)

Online Degree Search Title: Finance (MS)

Campus: TEMPE

Program Description:

The W. P. Carey MS in finance at Arizona State University delivers a leading-edge curriculum balanced between finance and asset and portfolio management. Graduates of this program will be prepared for a range of career opportunities, including corporate finance, risk management, money management, financial planning, investment banking, consulting or real estate.

The master's in finance is one of the few advanced finance degrees offered by a top-ranked business school, offering a distinctive foundation in business and finance. Students will have access to world-renowned faculty, motivated classmates and personalized career resources. The program begins each fall in August and completes in nine months.

Degree Requirements: 32 credit hours including a capstone course (FIN 575).

The master's in finance curriculum is composed of 12 courses. The schedule will follow the seven-week quarterly schedule of the MBA program.

Required Core Courses:

ACC 502 Financial Accounting (3)
ECN 501 Statistics for Managers (3)
ECN 502 Managerial Economics (3)
FIN 502 Managerial Finance (3)
FIN 525 Investment Strategies (2.5)
FIN 530 Derivatives (2.5)
FIN 550 Fixed Income (2.5)
FIN 555 Entrepreneurial Finance (2.5)
FIN 545 Advanced Corporate Finance (2.5)
FIN 560 International Finance and Investments No (2.5)
FIN 565 Risk Management in Banks and Financial Institutions (2.5)

Culminating Experience:

FIN 575 Finance Capstone (2.5)

Total required credit hours: 32

Admission Requirements:

There are two main audiences for the master's program: First, recent undergraduates from business, economics or related majors, or from programs where quantitative skills have been emphasized; and second, career advancers who have strong quantitative skills and seek to adapt those skills to be more competitive in the job market. Career advancers must be able to commit to a full-time plan of study; the program may not cater to working professionals as it is currently designed.

This program is appropriate for students from undergraduate programs with quantitative underpinnings at either ASU or other universities. Typical undergraduate majors are expected to include business and management; and economics, statistics, computer science and other types of science, engineering, technology and mathematics (STEM) degree areas.

Students must complete the online application form to apply to Graduate Education for admission to the program. They must also submit the following:

- official transcripts of all course work completed at institutions other than ASU
- GMAT
- two letters of recommendation

GPA and Minimum Qualifications: All applicants must submit a GMAT test score. The average GMAT target is 650-675 (similar to peer programs). Applicants should expect to score above 600 on the GMAT to be competitive.

Applicants must have maintained a minimum grade point average of 3.00 (on a 4.00 scale) in the last 60 semester hours or 90 quarter hours of undergraduate course work.

English Proficiency Requirement for International Applicants: The English proficiency requirements are the same as the Graduate Education requirement. Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Foreign Language Exam: No

Students must fulfill both the requirements of Graduate Education and those of the W. P. Carey School of Business.

Global Financial Management, DBA (BAGFMDBA)

Online Degree Search Title: Global Financial Management (DBA)

Campus: TEMPE

Program Description:

To accelerate China's pace of global integration, the W. P. Carey School of Business at Arizona State University and Shanghai Advanced Institute of Finance have jointly launched a DBA in global financial management program in China. The Doctor of Business Administration is an applied research professional degree program designed for senior corporate leaders and government officials in China seeking a terminal degree alternative to the traditional PhD. The leaders emerging from this program will transform China's economic structure, its financial markets and shape the future of China's leadership roles in the global economy of the 21st century.

This degree is only offered in China.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.
credit hours from an awarded master's degree (30)
required core (27)
electives (6)
required research (9)
DBA 799 Dissertation (12)

Admission Requirements:

- minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's bachelor's degree program, with a minimum GPA of 3.00 required in the master's work for acceptance into the DBA program
- minimum of a graduate degree from a regionally accredited college or university of recognized standing in a related field such as Master of Business Administration, Master of Economics, Master of Finance, Master of Accountancy or related field of specialization in business.

English proficiency requirement for international applicants is not required.

This degree is only offered in China. All applicants are required to contact the program coordinator before submitting the Graduate Education online application.

Global Logistics, MS (BAGLSMS)

Online Degree Search Title: Global Logistics (MS)

Campus: WEST

Program Description:

Offered during fall term and available at ASU's West campus, the W. P. Carey School of Business MS in global logistics is delivered by the highly ranked W. P. Carey Department of Supply Chain Management and provides deep expertise in global logistics and unique insight into emerging markets.

The nine-month full-time curriculum with courses offered during the day provides specialized knowledge and practical perspectives on global operations, logistics and multicultural perspectives, thus preparing graduates for a growing career field. Students will have access to world-renowned faculty, motivated classmates and personalized career resources.

Degree Requirements: 30 credit hours including the required applied project course (SCM 593).

The program curriculum is composed of 10 courses, including one course that serves as the applied project. The schedule is will follow a combination of ASU scheduling options. Three courses will follow schedule C and will have a semester-long duration. The other seven courses will follow the 7.5-week quarterly schedule of the MBA program. Those courses will require some online and extra class time to meet the 40-contact-hour standard of The Association to Advance Collegiate Schools of Business.

Required Core Courses for the Degree:

SCM 502 Operations and Supply Management (3)
SCM 515 Decision Models for Supply Chain Management (3)
SCM 516 Introduction to Applied Analytics (3)
SCM 520 Strategic Procurement (3)
SCM 541 Logistics in the Supply Chain (3)
SCM 542 Logistics, Emerging Markets, and Economic Development (3)
MGT 400 Cross-Cultural Management (3)
MGT 411 Leading Organizations (3)
SCM 545 Cases in Global Logistics (3)

Culminating Experience:

Total required credit hours: 30

Admission Requirements:

There are two main audiences for the master's program: recent undergraduates from logistics-related majors and career advancers with a background in supply chain management and operation whose skills can be expanded to include a broader global context and exposure to emerging markets. Students must be able to commit to a full-time plan of study; the program may not cater to working professionals as it is currently designed.

This program is appropriate for students who have strong quantitative skills and seek to adapt those skills to be more competitive in the job market. Typical undergraduate majors are expected to include business and management majors, computer information systems, economics and other types of global studies or similar degree areas.

Students must complete the Graduate Education online application to apply for admission to the program. They must also submit the following:

- official transcripts of all course work completed at institutions other than ASU
- GMAT or GRE test scores
- one letter of recommendation

GPA and Minimum Qualifications: Applicants must have maintained a minimum grade point average of 3.00 (on a 4.00 scale) in the last 60 semester hours or 90 quarter hours of undergraduate course work.

Required Admissions Examinations: All applicants must submit either the GMAT or GRE. For more information on GMAT, please visit <http://www.mba.com> (<http://www.mba.com>). For GRE, please visit www.ets.org/gre (<http://www.ets.org/gre>). Applicants should expect to score above 600 on the GMAT to be competitive.

English Proficiency Requirement for International Applicants: The English proficiency requirements are the same as the Graduate Education requirement. Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Information Management, MS (BAINFOMS)

Online Degree Search Title: Information Management (MS)

Campus: ONLNE, TEMPE

Program Description:

The MS in information management is a degree program designed for working professionals offered in an evening or online format. The W. P. Carey School of Business information management program will prepare students to manage in an information technology environment. Students will also learn the business skills needed to leverage IT and gain a competitive advantage in the global economy.

The evening master's is a 12-month program that starts in June. The online master's is a 16-month program that starts in Jan. or Aug. Both the evening or online master's features integrated course work in a case-based and team-oriented environment, allowing students to collaborate and leverage the experience of their peers.

Degree Requirements: MSIM Evening or Online: 30 credit hours including the required applied project course (CIS 593), or MSIM/MBA Dual Degree: 30 credit hours and an applied project, or MSIM/MBA Dual Degree: 30 credit hours and an applied project.

The master's in information management is offered in a 12-month evening format or 16-month online format. The program requires 30 credit hours of course work and an applied project.

With an innovative curriculum that deepens the synthesis of information, technology and business, the W. P. Carey School of Business master's in information management combines the best of both worlds - a leading-edge information management education and one of the nation's top ranked business schools. Please access the program website for a list of courses.

Management, MS (BACMRMS)

Online Degree Search Title: Management (MS)

Campus: TEMPE

Program Description:

Arizona State University's W. P. Carey School of Business MS in management is an innovative business degree program providing new liberal arts, science, engineering and other nonbusiness graduates with the intellectual and professional skills needed to succeed in today's business environment. This one-year program is designed to develop critical-thinking skills as applied to fundamental business procedures and processes, and leadership skills. It is also designed to bridge the gap between academic preparation and real-world business applications.

Graduates of this program will have the capability and motivation to rapidly progress in any profession where business plays an important role. The management program differs substantially from a traditional MBA program in that no work experience is required for admission and the course work is completed in one year, giving a broad overview of the essentials of managerial decision-making.

Classes begin each fall semester in August and are offered on the Tempe campus.

Degree Requirements:

The following courses are required:

ACC 502 Financial Accounting

ACC 503 Managerial Accounting

ECN 501 Managerial Statistics

ECN 502 Managerial Economics

FIN 502 Managerial Finance

LES 582 Ethical Issues for Managers

MGT 502 Organization Theory and Behavior

MGT 588 Strategic Leadership

MGT 591 Topic: Business Communications

MGT 591 Topic: Consulting Project Capstone
MGT 591 Topic: Negotiations
MGT 594 Career Leadership
MKT 502 Marketing Management
SCM 502 Operations and Supply Chain Management
SCM 587 Project Management

Management, MS (BAMCCMS)

Online Degree Search Title: Management in China/Corporate (MS)

Campus: TEMPE

Program Description:

The W. P. Carey School of Business at Arizona State University is directly involved in the development of top leadership in China. The MS custom corporate program in China is designed for participants from a single company in China. Upon successful completion of the program curriculum, the participants will be granted an ASU Master of Science in Management degree through the W. P. Carey School of Business.

The curriculum is designed to leverage participants' existing strengths in a chosen management concentration and at the same time provides intensive knowledge on managerial decision making and strategic formulation. Accordingly, the curriculum is designed with a strong interdisciplinary focus, while achieving cycle time efficiency. At the core of the curriculum delivery is emphasis on the practical applications with direct business connectivity. The curriculum also prides itself on its integration of global practices and local market characterizations, to enable participants' ability to excel in the modern economy.

The hallmarks of prestigious programs include two key elements: the faculty and the students. No other master of science program in China offers a more impressive list of faculty or students than the W. P. Carey MS China program. The faculty includes renowned faculty from W. P. Carey School of Business as well as from other prestigious American business schools.

Degree Requirements: 36 credit hours including the required capstone course (MGT 588).

The curriculum consists of 12 courses, with a concentration on management. It is a world-class master program with immersion in financial

accounting, managerial finance, statistics and economics, marketing management, organizational theory and behavior, human resources management, supply chain management and information technology management.

All students must successfully complete the comprehensive requirement for MS graduates established by the W. P. Carey School of Business and Graduate Education. As a lock-step program, there will be no opportunities for participants to make up missed courses or to substitute courses. Therefore, students must complete all 12 courses before graduation with a grade of "B" (3.00 on a scale of 4.00) or higher for each course to satisfy the comprehensive requirement. A thesis is not required.

Admission Requirements:

The MS custom corporate program in China requires that students be nominated into the program by the company and is only delivered in China. Applicants are required to contact the program coordinator before submitting the Graduate Education online application.

Real Estate Development, MREDev (ARREMREDEV)

Online Degree Search Title: Real Estate Development (MRED)

Campus: TEMPE

Program Description:

The Arizona State University's master's in real estate development (MRED) is one of the leading programs offered through the nationally ranked and recognized W. P. Carey School of Business, in partnership with the Sandra Day O'Connor College of Law, the Herberger Institute for Design and the Arts, and the Del E. Webb School of Construction. The program offers a truly transdisciplinary approach to real estate development education through a full-immersion curriculum that explores the development process in its entirety.

The program partnerships are the key to encompassing all facets of the real estate development process. Students receive core knowledge through a transdisciplinary curriculum that offers real-world application through synthesis projects utilizing actual locations with variable situations.

During the one-year program, students learn how to locate, analyze and consider the physical, legal, economic, political and financial conditions impacting the use of property and the critical analysis required for a successful project. Graduates of the program are prepared to undertake mid- and senior-level management responsibility for small to large development and investment companies. They enter the real estate development industry with a keen awareness of developing projects that are financially viable, economically desirable, politically acceptable, environmentally respectful, socially responsible and contextually and artfully designed.

Degree Requirements: 36 credit hours including the required capstone course (RED 515).

While there are no business course prerequisites, potential students must demonstrate strong quantitative ability and effective written and oral communication skills.

The program is offered in an intense format covering two academic semesters. Students take required core course modules in a variety of formats, including:

- comprehensive module exams to assess aggregate knowledge
- face-to-face classroom instruction
- group work
- independent research
- synthesis projects
- topical quizzes
- weekly assignments

The business school does not accept graduate credits earned while students are in nondegree status or courses taken prior to admission to the master of real estate development program or taken while enrolled in another program outside the W. P. Carey School of Business.

Foreign Language Requirements

None.

Thesis Requirements

None.

All students must successfully complete the final synthesis project requirement established by the W. P. Carey School of Business and Graduate Education for the master of real estate development. The comprehensive culminating experience is integrated with RED 515 Capstone Project: Mixed Use Property Development. Students passing this course with a grade of "B" (3.00) or higher satisfy the culminating experience requirement.

Concurrent Degrees:

This degree is also offered as concurrent degree with Legal Studies (MLS)

Admission Requirements:

All applicants are required to submit the ASU Graduate Education online application and the supplemental application materials required by the W. P. Carey Graduate Programs Office. Complete application instructions may be obtained from the department's website.

Minimum requirements for admission to the master's in real estate development program are:

- official transcripts of all course work completed at institutions other than ASU
- GMAT or GRE test scores*
- one letter of recommendation that comments on student's motivation, commitment, achievements, work experience and opportunity for success in the program
- current resume
- essays
- proof of English proficiency**

*MCAT or LSAT scores can be accepted in lieu of GMAT or GRE.

**Proof of English proficiency is required for all applicants whose native language is not English (regardless of where they may now reside).

Students must fulfill both the requirements of Graduate Education and those of the W. P. Carey School of Business.

Supply Chain Management (certificate), Certificate (BASCMCERT)

Online Degree Search Title: Supply Chain Management (Grad Certificate)

Campus: ONLNE

Program Description:

The certificate is composed of five, three-credit online courses in supply chain management, each five weeks in length. The content of the courses is tightly integrated and offers a comprehensive coverage of core topics in supply chain management. The intended audiences for the certificate include working professionals who are graduates of general management undergraduate or graduate business programs who wish to supplement their degrees with focused, graduate-level courses in supply chain management, and they are either relatively new to supply chain management and desire a foundational knowledge of supply chain management complexities as well as a strong understanding of how companies leverage their supply chains to achieve competitive advantage, or experienced supply chain management professionals who wish to update their knowledge of current thinking and best practices through interaction with faculty engaged in broad-based research and consulting.

Degree Requirements: 15 credit hours including the required capstone course (SCM 532).

The following courses are required for this certificate:

SCM 502 Operations and Supply Management (3)
SCM 520 Strategic Procurement (3)
SCM 521 Supply Management and Negotiation (3)
SCM 532 Supply Chain Cost and Design Issues (3)
SCM 541 Logistics in the Supply Chain (3)

Admission Requirements:

All applicants must submit the Graduate Education online application and meet Graduate Education admission requirements. In addition, applicants should have a minimum of two years of full-time work experience.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill the requirements of both Graduate Education and the W. P. Carey School of Business.

Supply Chain Management and Engineering, MS (BASCMEMS)

Online Degree Search Title: Supply Chain Management and Engineering MS

Campus: ONLNE

Program Description:

The MS in supply chain management and engineering is a two-year, 30-credit-hour program for working professionals in supply chain management, industrial engineering or a related field that consists of 15 credit hours of courses from the Department of Supply Chain Management in the W. P. Carey School of Business and 15 credit hours from the Industrial Engineering program in the School of Computing, Informatics, and Decision Systems Engineering in the Ira A. Fulton Schools of Engineering.

Most students will have an undergraduate degree in a technical field, such as business, engineering or science. The objective is twofold: to provide students with knowledge of the fundamental foundations across the full spectrum of supply chain management functions and the ability to use state-of-the-art engineering tools to analyze, control and optimize modern supply chains.

Degree Requirements: 30 credit hours including the required applied project course (SCM 593).

core course credit hours (27)

culminating experience: SCM 593 Applied Project (3)

Admission Requirements:

The W. P. Carey School of Business and the Ira A. Schools of Engineering seek exceptional individuals who are working supply chain professionals (or in closely related fields). Applicants must be highly motivated and have strong intellectual capabilities. The admission committee looks for outstanding academic credentials, character qualities such as maturity, integrity and leadership, and diversity in perspectives and experiences.

Students must complete the online application form to apply to Graduate Education for admission to the program. They must also submit the following to the W. P. Carey School:

- resume
- official transcripts of all course work completed at institutions other than ASU
- GMAT or GRE test scores
- personal statement

Taxation, MTax (BATAMTAX)

Online Degree Search Title: Taxation (MTax)

Campus: TEMPE

Program Description:

The master of taxation program is a specialized degree program designed to equip students with the highly technical and demanding skills required to provide tax and business advice in the private and public sector. An esteemed faculty of practitioners and experienced accounting professionals deliver deep knowledge through our innovative, practical curriculum.

The nine-month master's program is delivered by the highly ranked W. P. Carey School of Accountancy and is designed for individuals who want to immerse themselves in full-time graduate studies and take classes during the day. Classes begin each fall in August on the Tempe campus.

Degree Requirements: 30 credit hours including the required capstone course (ACC 589).

The Master of Taxation program is a nine-month, full-time, lock-step program that offers classes during the day and is completed in one academic year (August to May). Applicants must complete program prerequisites prior to admission to the program. Please refer to the W. P. Carey graduate programs website for a current listing of required course prerequisites. Graduate-level accounting courses are only open to students admitted to the graduate program.

Concurrent Degrees:

This degree is also offered as concurrent degree with:

Legal Studies (MLS)

W. P. Carey MBA - Full-Time Program

Accelerated Degrees:

This degree is also offered as an accelerated degree with Accountancy, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

All applicants are required to submit the ASU Graduate Education online application and the supplemental application materials required by the W. P. Carey Graduate Programs Office.

The minimum requirements for admission to the master of taxation program are:

- official transcripts of all course work completed at institutions other than ASU
- GMAT test scores
- one letter of recommendation that comments on the student's motivation, commitment, achievements, work experience and opportunity for success in the program
- current resume
- essays
- proof of English proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Complete application instructions may be obtained from the department's website.

Students must fulfill requirements of both Graduate Education and those of the W. P. Carey School of Business.

W. P. Carey MBA, MBA (BAEVEAMBA)

Online Degree Search Title: W. P. Carey MBA - Weekend Program

Campus: TEMPE

Program Description:

The purpose of the W. P. Carey MBA is to provide a solid foundation and knowledge base in the core business disciplines, to develop analytic capabilities, decision-making and leadership skill sets essential to making sound business decisions. The curriculum is delivered in a case-based, team-oriented and discussion learning environment. Elective courses provide additional depth and breadth to enhance an area of emphasis, students' knowledge base and career goals. The weekend MBA is designed for working professionals seeking to continue working full-time while attending school. The program starts each January, and is completed in 19 months.

The MBA program is supported by each of the eight academic units within the W. P. Carey School of Business.

Degree Requirements: 48 credit hours including the required capstone course (MGT 589).

While there are no business course prerequisites, potential students must demonstrate strong quantitative ability and effective written and oral communication skills.

The core courses are designed to provide a foundation in business knowledge and skills and must be taken in the prescribed sequence. Elective courses build upon the business core and center on the further development of an optional area of emphasis. There may be additional requirements that vary by area of emphasis. The program is completed in 19 months.

The business school does not accept graduate credits earned while students are in nondegree status or courses taken prior to admission to the MBA program, or taken while enrolled in another MBA program outside the W. P. Carey School of Business. Registration in school of business courses numbered 501 and above is limited to students who have been admitted to a graduate degree program and have the approval of the MBA program office.

W. P. Carey MBA, MBA (BAEXECMBA)

Online Degree Search Title: W. P. Carey MBA - Executive Program

Campus: TEMPE

Program Description:

The purpose of the W. P. Carey School of Business MBA program is to provide a solid foundation and knowledge base in the core business disciplines, to develop analytic capabilities and decision-making and leadership skill sets to effectively integrate decisions into the business environment. The executive MBA is designed for managers who have significant experience managing people, projects and budgets. Classes begin in the fall and meet twice monthly on Fridays and Saturdays. This allows the opportunity to minimize time away from work, maximize time for studying and class preparation and is flexible enough to accommodate travel for students who are regional as well as local. The executive MBA is completed in 21 months.

The MBA program is supported by each of the eight academic units within the W. P. Carey School of Business. Curriculum information can be found on the school website.

Degree Requirements: 48 credit hours including the required capstone course (MGT 589).

While there are no business course prerequisites, potential students must demonstrate strong quantitative ability and effective written and oral communication skills.

The executive curriculum must be taken in the prescribed sequence and is augmented by a series of lectures on thought leadership and off-site learning programs, including a business and public policy course in Washington, D.C. An additional off-site course exploring issues and strategies in the global business environment is held in partnership with an international business school. The program is completed in 21 months.

The business school does not accept graduate credits earned while students are in nondegree status or courses taken prior to admission to the MBA program or taken while enrolled in another MBA program outside of the W. P. Carey School of Business. Registration in school of business courses numbered 501 and above is limited to students who have been admitted to a graduate degree program and have the approval of the MBA program office.

W. P. Carey MBA, MBA (BAFULLMBA)

Online Degree Search Title: W. P. Carey MBA - Full-Time Program

Campus: TEMPE

Program Description:

The purpose of the W. P. Carey School of Business MBA program is to provide a solid foundation and knowledge base in the core business disciplines, to develop analytic capabilities, decision-making and leadership skill sets essential to making sound business decisions. The curriculum is delivered in a case-based, team oriented learning environment. A specialization in a functional area provides additional depth and breadth to further enhance students' knowledge base and focus career goals. The full-time MBA is designed for individuals who want to immerse themselves in full-time graduate studies and take classes during the day. Small class size in the program supports individual learning, promotes student-faculty interaction and encourages personal and professional development.

The MBA program is supported by each of the eight academic units within the W. P. Carey School of Business.

Degree Requirements: 48 credit hours including the required capstone course (MGT 589).

While there are no business course prerequisites, potential students must demonstrate strong quantitative ability as well as effective written and oral communication skills.

The core courses are designed to provide a foundation in business knowledge and skills and must be taken in the prescribed sequence. Elective or specialization courses build upon the business core and center on the further development of a specialization. There may be additional

requirements that vary by specialization. The program is typically completed in two years, with a required internship in the summer between the first and second year of study.

The business school does not accept graduate credits earned while students are in nondegree status or courses taken prior to admission to the MBA program or taken while enrolled in another MBA program outside of the W. P. Carey School of Business. Registration in school of business courses numbered 501 and above is limited to students who have been admitted to a graduate degree program and have the approval of the MBA program office.

W. P. Carey MBA, MBA (BASHANGMBA)

Online Degree Search Title: W. P. Carey MBA - Shanghai Program

Campus: TEMPE

Program Description:

The W. P. Carey School of Business at Arizona State University is directly involved in the development of top leadership in China. In 2003, the executive MBA program launched in Shanghai, China. The program is delivered in collaboration with Shanghai National Accounting Institute, an entity under the governance of China's Ministry of Finance.

The business leaders emerging from this program will shape U.S.-Sino trade relationships during China's continued global expansion. This academic program is the cornerstone of a number of new offerings that include knowledge transfer and access to the highest level of decision-makers in China.

This degree is only offered in China.

Degree Requirements: 48 credit hours including the required capstone course (MGT 589).

The curriculum consists of 12 courses. It is based on the integration of core management principles, with an immersion in accounting, finance, supply chain management, service marketing, customer relation management and management of services innovation. At the core of the curriculum delivery is emphasis on the practical applications with direct business connectivity. The curriculum also prides itself on its integration of global practices and local market characterizations, to enable participants' ability to excel in the modern economy.

In addition, the curriculum is designed with a strong interdisciplinary focus, while achieving cycle-time efficiency. Each course will be delivered in an intensive manner over two consecutive weekends, with four full days of face-to-face instruction supplemented by online instruction materials to enable learning interactions between faculty and participants.

All students must successfully complete the comprehensive requirement for the MBA established by the school of business and Graduate Education. The comprehensive culminating experience is integrated with MGT 589 Strategic Management. Students passing this course with a grade of "B" (3.00 on a scale of 4.00) or higher satisfy the comprehensive examination requirement. A thesis is not required.

Admission Requirements:

This degree is only offered in China. All applicants are required to contact the program coordinator before submitting the Graduate Education online application.

Design & the Arts, Herberger Institute for

Architecture, MArch (ARARCMARCH)

Online Degree Search Title: Architecture (MArch)

Campus: TEMPE

Program Description:

The MArch is an accredited professional degree program at ASU. There are two programs of study available:

- a two-year program for applicants who have completed the four-year BSD in architectural studies at ASU or an equivalent degree from another school that offers an accredited professional degree in architecture
- a three-plus-year program for applicants with an undergraduate degree in a discipline or field other than architecture

Both programs promote broad areas of knowledge, professional skill and a social awareness that the architect must command if architecture is to enhance contemporary life and remain an enduring and valid expression of society.

Degree Requirements: 56 credit hours including the required capstone course (ADE 622), or 78 credit hours including the required capstone course (ADE 622).

Two-year program

Requirements involve an average of 14 credit hours per semester. A summer internship is required after the first full year of study.

Students who can adequately demonstrate competence through experience or previous academic course work for any of the specific requirements outlined below are encouraged to petition the graduate coordinator for a course substitution.

Typical Plan of Study

First Year

Fall

ADE 521 Advanced Architectural Studio I (5)
ATE 553 Building Systems III (3)
ATE 563 Building Structures III (3)
ATE 598 Sustainability of the Built Environment (3)

Spring

ADE 522 Advanced Architectural Studio II (5)
APH 505 Foundation Theory Seminar (3)
ATE 556 Building Development (3)
Design Professional Elective* (3)

Summer

ARP 584 Clinical Internship (3) or ARP 598 ST: Arch Professional Practice

Second Year

FallAAD 515 Current Issues and Topics (3)
ADE 621 Advanced Architectural Studio III (5)
Design Professional Elective* (3)
Design Professional Elective** (3)

Spring

ADE 622 Advanced Architectural Studio IV (5)
AAD 652 Architectural Management II (3)
Design Professional Elective** (3)

*The list of Herberger Institute design electives can be found on the Herberger Institute for Design and the Arts website.

**Elective can be taken outside the college with graduate coordinator approval.

Three-plus-year program

The three-plus-year graduate program requires 24 credit hours of proficiency course work in addition to the master's-level course work, which make up the total number of 102 credit hours of approved courses and electives. For most students, this program involves 15 credit hours in the first summer and 14 to 15 credit hours in each of the subsequent six semesters. A summer internship is required after the second full year of study.

Students who can adequately demonstrate previous academic course work for any of the proficiencies are encouraged to petition the graduate coordinator for a course waiver.

Typical Plan of Study

Note: Courses shown in boldface are considered deficiencies and do not count toward official plan of study.

First Year

Summer

ADE 510 Foundation Architectural Studio (6)

ALA 236 Computers in Landscape Architecture (3)

APH 509 Foundation Seminar (3)

Fall

ADE 511 Core Architectural Studio (6)

APH 313 History of Architecture I (3)

ATE 361 Building Structures I (3)

ATE 451 Building Systems I (3)

Spring

ADE 512 Core Architectural Studio (6)

APH 314 History of Architecture II (3)

ATE 452 Building Systems II (3)

ATE 462 Building Structures II (3)

After the first summer and academic year, the three-plus -year curriculum merges with the two-year curriculum, and they become the same course of study.

Concurrent Degrees:

This degree is also offered as concurrent degree with W. P. Carey MBA - Full-Time Program

Admission Requirements:

Admissions Requirements to the Two-Year Program

Applicants must:

- Complete an online application to Graduate Education and hold an undergraduate or graduate degree from a college or university recognized by ASU.
- Have completed a minimum of a bachelor's degree (or equivalent) in architectural studies or similar preprofessional degree in architecture. The bachelor's degree must be granted by an institution that offers the National Architectural Accrediting Board (NAAB) accredited degree program in architecture.
- Meet the minimum GPA requirements as established by Graduate Education.
- Provide an official copy of GRE scores (unofficial copies will not be accepted). For more information, visit the GRE website or <https://uoeee.asu.edu/testing> (<https://uoeee.asu.edu/testing>).
- International students are required to submit an official Test of English as a Foreign Language (TOEFL) score. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).
- A portfolio, letter of intent and contact information of three references must also be submitted via SlideRoom (<https://asuherberger.slideroom.com>) (<https://asuherberger.slideroom.com>). The Design School requires that these be submitted in addition to the Graduate Education application requirements.

Admissions Requirements to the Three-Year Program

Applicants must:

- Complete an online application to Graduate Education and hold an undergraduate or graduate degree from a college or university recognized by ASU.
- Have completed a minimum of a bachelor's degree (or equivalent) in a field other than architectural studies.
- Meet the minimum GPA requirements as established by Graduate Education.
- Provide an official copy of GRE scores (unofficial copies will not be accepted). For more information, visit the GRE website or <https://uoeee.asu.edu/testing> (<https://uoeee.asu.edu/testing>).
- International students are required to submit an official Test of English as a Foreign Language (TOEFL) score. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).
- A portfolio, letter of intent and contact information of three references must also be submitted via SlideRoom (<https://asuherberger.slideroom.com>) (<https://asuherberger.slideroom.com>). The Design School requires that these be submitted in addition to the Graduate Education application requirements.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

Applicants may be admitted to the two-year program with deficiencies if their previous course work is not equivalent to the ASU undergraduate requirements and standards. Deficiencies must be completed prior to taking the required courses, if necessary. Please keep in mind that this may cause the student to take longer than two years to complete the program.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the department.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Art, MFA (HIARTMFA)

Online Degree Search Title: Art (MFA)

Campus: TEMPE

Program Description:

The Herberger Institute School of Art MFA program seeks to provide a stimulating and challenging environment for artistic and intellectual growth. We recognize contemporary art practice may emerge from within a distinct material practice, but usually involves working across a variety of media and methods. As a result, prospective students select an area of focus for their creative research and studio activity, but can expect to develop their own path through curriculum, availing themselves of human and facilities resources throughout the program. Areas of focus may be chosen from among a range of media and methods including:

- ceramics
- drawing
- fiber arts
- intermedia
- metal arts
- painting
- photography
- printmaking
- sculpture
- wood arts

With the realization that discipline, familiarity with historical precedents and freedom go hand in hand, the program strives to strike a balance between supporting the acquisition of skills and technique and encouraging independence, innovation and critical reflection. Responsibility is placed on the individual student to find personally meaningful content and an effective means to express that content within and across the art disciplines. Graduate students enjoy studio spaces determined by their area of focus, engaged creative research with faculty and access to graduate facilities.

Partnerships with the ASU Art Museum collections and staff, a strong guest artist schedule and other special professional development opportunities enhance the program.

Further information can be found in the program description on the school webpage.

Degree Requirements: 60 credit hours and an oral comprehensive exam (defense of MFA exhibition).

The 60 hours of graduate credit are subject to committee approval and must include:

- 10 to 15 hours of ART 680 Practicum, resulting in an MFA exhibition
- 18 to 27 graduate studio credit hours
- at least six credit hours of graduate-level academic course work
- nine to 18 credits of graduate-level ART seminars
- six credits of required courses in Contemporary Art Theory (3) and Cross-Practice Critique (3)

Admission Requirements:

Admission is a two-step process. Although applicants fill out one application through the online Graduate Education application process, they must be admitted into both the MFA program and Graduate Education.

- All applicants must complete the Graduate Education online application.
- A bachelor's from a regionally accredited college or university recognized by ASU is required.
- Minimum of a 3.00 cumulative GPA (scale is 4.00="A") in the last 60 hours of a student's bachelor's program is required.

• The Test of English as a Foreign Language (TOEFL) is required for applicants whose native language is not English, regardless of where they may now reside: <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)

Applications include the following components:

- current resume or curriculum vitae
- portfolio of 20 images sized with a maximum dimension of 1024 pixels; video files less than 60MB each; and accompanied by an image list
- statement of intent not exceeding 1,000 words that addresses the applicant's artistic interests, reasons for applying to graduate school in general and the ASU School of Art in particular, as well as professional goals
- three letters of recommendation from faculty members with whom the applicant has studied or from recognized professionals in the field*

*All the instructions for letters of recommendation must be followed when submitting with the application to Graduate Education.

The method for submission is online via SLIDEROOM: <https://asuherberger.slideroom.com>. (<https://asuherberger.slideroom.com>) Applicants may upload images (.jpg), video (.mov, .wmv, .flv), music (mp3) or PDF documents. The deadline to submit is Jan. 15 for fall admission; the School does not admit for the spring semester.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

ART 102

soagrad@asu.edu

480-965-8521

Art (Art Education), MA (FAARTEDMA)

Online Degree Search Title: Art Education (MA)

Campus: TEMPE

Program Description:

Students in the MA in art with a concentration in art education investigate issues in art teaching and learning from multiple perspectives, including art inquiry, studio, visual culture, development and context. The degree culminates with an original thesis study proposed and carried out by the student. Thesis studies may be conducted in a range of contexts where art learning takes place, such as K-12 art classrooms, art centers and museums, university studios or in a teacher's own classroom.

Degree Requirements: 30 credit hours, a thesis and a written comprehensive exam (qualifying research proposal).

The degree program requires:

18 hours of core courses

six hours of special topics on research related to integrating the teaching of studio art, art history and criticism or aesthetics

six hours of research and thesis

To meet the core requirements, students must take the following core courses:

ARE 510 Visual Culture Research (3)

ARE 520 Issues in Teaching Inquiry in Art (3)

ARE 525 Research on Art Instruction (3)

ARE 530 Issues in Teaching Studio Art (3)

ARE 535 Research on Teaching Studio Art (3)

ARE 540 Teaching Art in Cultural Contexts (3)

Before the end of the first semester of course work (six or more credit hours), a plan of study must be submitted to Graduate Education. Additional program requirements are indicated in the master's in art education guidelines.

Admission Requirements:

All applicants must submit a Graduate Education online application. Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

An applicant must have a bachelor's from a regionally accredited college or university with a major of no fewer than 45 credit hours of art, including 12 hours of art history and six hours of art education. Additional hours may be required by the school.

An applicant must have a GPA of at least "B" (3.00) in undergraduate course work during the junior and senior years. Applicants who do not meet these requirements must submit scores from the MAT or the GRE.

Applicants should submit:

- a formal art education research paper for review
- resume
- statement of intent
- two letters of recommendation

If applying for scholarships, fellowships or assistantships, the application deadline is Jan. 15. Otherwise, art education reviews applications through April 1, for admission the following semester.

Art (Art History), MA (FAARTHISMA)

Online Degree Search Title: Art History (MA)

Campus: TEMPE

Program Description:

The MA in art with a concentration in art history is a comprehensive degree designed to train students to engage with visuality in multiple ways. It offers a diverse curriculum intended to foster critical understanding of aesthetics, production, patronage and consumption of art. Eleven internationally recognized faculty members offer classes across many cultures, time periods, and geographies, using multiple approaches and methodologies. The program stresses intersections between disciplines, borders, margins, points of mediation and technological developments throughout history. The graduate curriculum offers focused study in the areas of images and digital technologies, art in social and political contexts, and histories and theories of visual culture.

Degree Requirements: 30 credit hours, a thesis and a foreign language exam.

This program must include a minimum of 21 hours in art history, with at least 12 of these earned in 500-level seminars. At least one course must be taken in each of the four core areas:

- ancient and medieval
- Asia and Native Americas
- modern
- renaissance and baroque

Satisfactory completion of ARS 501 Methodologies and Art History is required during the first semester of residence. The remaining hours include ARS 599 Thesis, approved electives and other courses specified by the faculty.

Admission Requirements: • All applicants must submit a Graduate Education online application.

- Applicants must have a bachelor's degree from a regionally accredited university with an undergraduate major or minor in art history, or at least four upper-division art history courses in which a GPA of 3.00 or higher was maintained.
- GRE scores must be submitted in support of the application, along with three letters of recommendation.
- Applicants should submit one formal research paper for review.
- Applicants should submit a one-page statement of intent indicating their objectives for graduate study.
- Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

The application deadline is Jan. 15 for fall. The School of Art does not admit for spring.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Art (Digital Technology), MFA (FADIGITMFA)

Online Degree Search Title: Art (Digital Technology) (MFA)

Campus: TEMPE

Program Description:

The MFA in art with a concentration in digital technology is offered by the School of Art in collaboration with the School of Arts, Media and Engineering. It is a hybrid degree that combines technological and artistic goals and requires students with skills and experience in both realms.

Applicants will be required to demonstrate accomplishment in art and technology, particularly in having developed new digital technology for the arts. Course work will be required in both the School of Art and the School of Arts, Media and Engineering. The School of Art offers graduate-level courses in digital audio, video, photography, animation, compositing and rapid prototyping. Graduate courses offered by the School of Arts, Media and Engineering focus on topics such as interactive media methodology and theory, sensing and understanding activity, perception and cognition for artists and designers, advanced programming, interaction design for media installations, and digital and physical fabrication.

Degree Requirements: 60 credit hours and an oral comprehensive exam.

Graduate credit is subject to committee approval and includes:

36 graduate studio credit hours in the major areas of concentration, of which 18 credit hours are ART studio classes and 18 credit hours are graduate-level courses in the School of Arts, Media and Engineering

six credit hours of ART 621 Seminar

six credit hours of graduate-level art history

six credit hours of ART 680 Practicum and six credit hours of AME 593 Applied Project, leading either to a final thesis exhibition or an applied project

Admission Requirements:

Admission is a two-step process. Although applicants fill out one application through the online Graduate Education application process, they must be admitted into the MFA program and Graduate Education.

- All applicants must complete the Graduate Education online application.
- A bachelor's from a regionally accredited college or university recognized by ASU is required.
- A minimum of a 3.00 cumulative GPA (scale is 4.00="A") in the last 60 hours of a student's bachelor's program is required.
- The Test of English as a Foreign Language (TOEFL) is required for applicants whose native language is not English regardless of where they may now reside: <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Applications must include the following components:

- current resume or curriculum vitae
- portfolio of 20 images sized with maximum dimension of 1024 pixels; video files of less than 60MB each; and an image list that accompanies the portfolio
- statement of intent not exceeding 1,000 words that addresses the applicant's artistic interests, reasons for applying to graduate school in general and the ASU School of Art in particular, as well as professional goals
- three letters of recommendation from faculty members with whom the applicant has studied or from recognized professionals in the field*

*All the instructions for letters of recommendation must be followed when submitting with the application to Graduate Education.

Application for the digital technology concentration program must also include:

- a statement and evidence of work demonstrating digital technology skills beyond end user applications
- an art and digital technology resume

The method for submission is online via SLIDEROOM: <https://asuherberger.slideroom.com> (<https://asuherberger.slideroom.com>). Applicants may upload images (.jpg), video (.mov, .wmv, .fly), music (.mp3) or PDF documents. The deadline to submit is Jan. 15 for fall admission; the school does not admit for the spring semester.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Built Environment (Energy Performance and Climate Responsive Architecture), MS (ARENERGYMS)

Online Degree Search Title: Built Environment (Energy Perf/Climate Responsive Arch) MS

Campus: TEMPE

Program Description:

The MS program in the built environment with a concentration in energy performance and climate-responsive architecture educates students to become experts in energy efficient building design and energy technology. The program is concerned with the relationships between climate and site, thermal and visual comfort in buildings, and energy demand and consumption of buildings. Courses in this concentration establish a basic core of knowledge of the principles of the natural energies available at the building boundary due to climate and site; thermal and optic behavior of building materials and components; passive and low-energy architectural systems for heating, cooling and lighting; and appropriate integration with mechanical systems. Additional courses are available to support advanced study and research in a variety of related specialties.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (ATE 593).

Curriculum (Total of 30 credits)

First Year

Fall

ATE 521 Building Environmental Science (3)

ATE 550 Passive Heating and Cooling (3)

ATE 560 Building Energy Analysis (3)

Spring

ATE 562 Experimental Evaluation (3)

ATE 582 Environmental Control Systems (3)

ATE 598 ST: Building Energy Analysis II (3)

ATE 598 ST: Sustainability of the Built Environment (3)

Second Year

Fall

ATE 591 Seminar: Energy and Climate (1)*

ATE 599 Thesis (3-6)**

Spring

Elective (3)

ATE 599 Thesis (3-6)**

*This course is not required for the degree; however, it is a recommended elective. Three credits of electives are required.

**Thesis credits can be taken in either fall or spring semesters for a total of six credits. Completing a thesis is optional but strongly recommended; it can be substituted by an applied project of six credits (ATE 593).

Sample List of Electives:

CEE 598/SOS 598 Life Cycle Assessment for Civil Systems (3 credits), Spring

CEE 598/SOS 598 Applied Data Analysis for Energy Scientists (3 credits), Spring

DSC 558 Daylighting (3 credits), Fall

Admission Requirements:

All applicants must submit a Graduate Education online application.

All applicants must have completed a minimum of a baccalaureate or graduate degree from a college or university recognized by ASU, in one of the professions or fields of study outlined below:

- a five- or six-year National Architectural Accrediting Board-accredited professional degree in architecture (BArch or MArch)*
- a four-year Bachelor of Science in landscape architecture, or a master's in landscape architecture which must be granted by an institution that offers the Landscape Architectural Accreditation Board-accredited degree program in landscape architecture
- an engineering degree (BS or MS) with a background in building sustainability issues**
- a science degree (BS or MS) with a background in building sustainability issues

*See the NAAB website for more information.

**Mechanical and civil engineering and construction majors are particularly suited for application to this program.

Requirements:

- Applicants must meet the minimum GPA requirements as established by Graduate Education.
- Applicants must provide an official copy of GRE scores (unofficial copies will not be accepted). For more information, visit the GRE website or <https://uoeee.asu.edu/testing> (<https://uoeee.asu.edu/testing>).
- Additional application materials can be found online at: <http://herbergerinstitute.asu.edu/admissions/grad/applying/> (<http://herbergerinstitute.asu.edu/admissions/grad/applying/>).
- Students whose native language is not English (regardless of where they may now reside) are required to submit an official TOEFL score. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based). Other information for International applicants can be found on the Graduate Education website.

Admission to the program is selective. Admission to the program cannot be deferred; students must enroll in the semester for which they are admitted. Otherwise, they will need to go through the entire application process again for the year in which they are applying.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting The Design School.

Application Deadlines

All materials must be received by The Design School and Graduate Education by Jan. 15 for fall semester consideration. Priority will be given to students who have submitted all the required application materials to both Graduate Education and The Design School by deadline of Jan. 15. The master's program in built environment does not admit students for the spring semester or summer sessions.

Composition, MM (FAMCOMPMM)

Online Degree Search Title: Music Composition (MM)

Campus: TEMPE

Program Description:

The MM in composition focuses on the development of skills necessary to pursue a career in music composition. Opportunities to collaborate with music scholars, theorists, performers, educators and other composers provide students with a broad and well-rounded foundation for advanced careers in music.

Degree Requirements: 32 credit hours, a thesis and a written comprehensive exam, or 32 credit hours, an applied project and a written comprehensive exam.

The degree credit requirements are distributed as follows:

nine hours of composition

eight hours of electives

nine hours of music theory and music history

six hours of thesis

The thesis is an original composition that demonstrates mastery of composing for the selected performance medium and the coherent organization of musical material.

Additional information on degree requirements for all graduate music programs may be found on the checksheets posted here:
<http://music.asu.edu/students/grad/checksheets.php> (<http://music.asu.edu/students/grad/checksheets.php>).

Admission Requirements:

Applicants who meet the following requirements are eligible to apply.

- U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country.

- B" (3.00 on a 4.00 scale) grade point average in the last 60 semester hours or 90 quarter hours of undergraduate course work.
proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency:

- TOEFL score of at least 550 (PBT) or 80 (iBT)
- IELTS overall band score of at least 6.5
- Pearson Test of English (PTE) score of at least 60

The School of Music does not offer conditional admission under any circumstances.

Application Requirements

Materials due by Oct. 1 for spring admission and Dec. 1 for fall admission:

- Graduate Education admission application and application fee: <https://students.asu.edu/graduate/admissions>
(<https://students.asu.edu/graduate/admissions>)
- School of Music Application (including a resume and personal statement): <http://music.asu.edu/admissions/grad/applying/>
(<http://music.asu.edu/admissions/grad/applying/>)
- prescreening portfolio: <http://music.asu.edu/admissions/auditions/prescreening.php> (<http://music.asu.edu/admissions/auditions/prescreening.php>)

Materials required to complete your application for faculty review:

- three letters of recommendation
- official transcripts
- international applicants: proof of English proficiency <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Application Deadlines

The deadline for submission of the Graduate Education admission application, School of Music application and prescreening portfolio is Oct. 1 for spring admission and Dec. 1 for fall admission. For more information on application deadlines, see <http://music.asu.edu/admissions/deadlines> (<http://music.asu.edu/admissions/deadlines>). After receipt of complete application materials (including recommendation letters, transcripts and English proficiency) and review of prescreening materials, an applicant may be invited for an interview.

Composition (Interdisciplinary Digital Media and Performance), MM (FADIGITMM)

Online Degree Search Title: Music (Interdisciplinary Dig. Media and Perf.) (MM)

Campus: TEMPE

Program Description:

The MM in composition with a concentration in interdisciplinary digital media and performance is designed for students who have interests and skills in unique cross sections of the arts and sciences. The degree expands the School of Music offerings to include areas beyond typical music course work, allowing for expanded opportunities for personal growth. It also allows the School of Music and its students to be actively involved in current developments in the ever-changing field of media. The state-of-the-art media facilities of the School of Arts, Media and Engineering and its hybrid arts-engineering faculty and courses are invaluable assets to music students, with resources that complement existing and future courses in electronic music.

Degree Requirements: 32 credit hours, a thesis and a written comprehensive exam, or 32 credit hours, a thesis, a written comprehensive exam and an oral comprehensive exam.

The degree credit requirements are distributed as follows:

12 hours in arts media and engineering core

five or six hours in electives

eight or nine hours in music theory and music history

six hours in thesis

Additional information on degree requirements for all graduate music programs may be found on the checksheets posted here:

Dance, MFA (FADANCEMFA)

Online Degree Search Title: Dance (MFA)

Campus: TEMPE

Program Description:

The MFA in dance at ASU is a highly flexible program that enriches creative and embodied practices through an integrated curriculum, connecting intuitive, kinesthetic and intellectual experiences. ASU School of Film, Dance and Theatre seeks individuals who are self-motivated, have clear and demonstrated objectives, and are willing to explore new possibilities in the field of dance. This program also recognizes and encourages individual strengths and professional experience. The School of Film, Dance and Theatre welcomes a diversity of applicants with interest in:

Creating:

- dance and art making
- dance technologies
- improvisation and real-time composing
- interdisciplinarity and hybridity
- performance
- socially-engaged and community arts practices
- sound design

Framing and Contextualizing:

- dance and related histories
- dance anthropology and ethnography
- dance pedagogy
- movement analysis and critical inquiry
- musical methods
- performance and cultural studies
- philosophy of dance
- educational and professional partnerships

Moving:

- contemporary ballet
- postmodern contemporary dance
- somatic practices
- urban arts practices

Degree Requirements: 60 credit hours and a bound document.

Incoming students take course work in dance and related fields, which has been designed to provide a broad and fundamental preparation for future careers in:

- arts administration
- arts presenting
- community partnerships
- cross-cultural and ethnographic research
- independent creative practices
- multimedia and technology
- preK-20 private and public sector education
- professional performance companies
- social work and public programs
- wellness and health care

The MFA applied project in dance serves as the culminating experience in the graduate dance curriculum. Students have the opportunity to select the format and structure of their project in conjunction with their Master of Fine Arts committee. The applied project takes into consideration the future goals of the student and serves as a bridge to careers beyond graduate school.

Admission Requirements:

To apply for admission to the Master of Fine Arts in dance program, a student must complete an online Graduate Education application and supply official copies of all transcripts from previous institutions to Graduate Education. Applicants whose native language is not English (regardless of where they now reside) must provide proof of English proficiency.

The School of Film, Dance and Theatre requires:

- a current resume
- web-based documentation of recent work, including one solo piece and one group piece, or other forms and types of creative research
- three letters of recommendation from professionals in the field
- a personal artistic statement

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Dance (Interdisciplinary Digital Media and Performance), MFA (FADANDIMFA)

Online Degree Search Title: Dance (Interdisciplinary Digital Media and Perform.) (MFA)

Campus: TEMPE

Program Description:

The MFA in dance with a concentration in interdisciplinary digital media and performance builds on the strength of the School of Film, Dance and Theatre and expands into the specific area of new media practices. The concentration provides a select group of graduate students with a rigorous, in-depth opportunity to specialize in dance as well as interdisciplinary digital arts.

The interdisciplinary classes and research activities of the transdisciplinary School of Arts, Media and Engineering that form part of this concentration give students access to advanced media equipment, studios, project funding and interdisciplinary collaborators.

Degree Requirements: 60 credit hours and a bound document.

The degree involves three years of residency:

- a final MFA applied project (8)
- a written document
- an oral defense
- 18 credit hours of required course work in the concentration taught by AME
- 15 credits of electives
- 19 required credit hours in the School of Dance
- ongoing showings of work

The current MFA is normally accomplished during three years of residency in the School of Film, Dance and Theatre. Ongoing showings of creative work are required. Foundational course work is offered in areas of:

- creative practice
- movement practices
- pedagogy
- professional development
- technology
- theory

Students enrolled in the program specialize in areas related to independent research. The Master of Fine Arts applied project, which may involve producing original choreography, presenting a lecture demonstration on a body of research or another form of original work, acts as the culminating experience of the program. Thesis presentation, a final written document, reflective in nature, as well as an oral defense complete the process.

Admission Requirements:

To apply for admission to the Master of Fine Arts program in dance, interdisciplinary digital media and performance, a student must complete an online Graduate Education application and supply official copies of all transcripts from previous institutions to Graduate Education.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

The School of Film, Dance and Theatre requires:

- a current resume
- DVD of recent work, including one solo piece and one group piece
- three letters of recommendation from professionals in the field
- a personal artistic statement that relates to School of Dance core values as described by the Learning Lens

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Design (Arts, Media and Engineering), MSD (ARDESAMMSD)

Online Degree Search Title: Design (Arts, Media and Engineering) (MSD)

Campus: TEMPE

Program Description:

The arts, media and engineering concentration focuses on the integration and application of humanistic, computational and design knowledge in tackling complex problems. The concentration provides opportunities for exploring experiential media systems through theoretical analysis, creative engagement and practical development. AME students combine design excellence with technical rigor in creating hybrid objects, adaptive systems and responsive environments.

Graduating students will be prepared to lead innovative design and development initiatives at corporations and other institutions at the forefront of media culture.

Degree Requirements: 36 credit hours and a thesis, or 36 credit hours including the required applied project course (DSC 593).

Students may choose to complete their graduate work by way of a thesis or an applied project. A master's thesis is a scholarly endeavor that demonstrates the ability of the author to do supervised research and intellectual writing. The applied project is somewhat different. It includes both a project and a written document and is a scholarly endeavor that demonstrates the ability of the designer to do supervised research and present substantial evidence of the ability to apply research creatively to a design situation.

Admission Requirements:

MSD Program Requirements

- All applicants must submit an online application to Graduate Education and hold an undergraduate or graduate degree from a college or university recognized by ASU.

All applicants must have completed a program in design and must hold a bachelor's in graphic design, industrial design, interior design or a related design discipline. When applying for admission, applicants must declare one of seven concentrations:

- arts, media and engineering
- design of health care and healing environments
- industrial design
- interaction design
- interior design
- new product innovation
- visual communication design
- Applicants must meet the minimum GPA requirements as established by Graduate Education.
- No GRE is required.
- Applicants whose native language is not English (regardless of where they may now reside) are required to submit an official Test of English as a Foreign Language (TOEFL) score. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).
- A portfolio, letter of intent and contact information for three references must be submitted via SlideRoom (<https://asuherberger.slideroom.com>) (<https://asuherberger.slideroom.com>)). The Design School requires that these items are submitted in addition to the Graduate Education application requirements.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

Teaching or Research Assistantships

Applicants wishing to be considered for teaching or research assistantships should submit an additional statement outlining areas in which they feel competent to serve as a teaching or research assistant. All interested applicants can apply for a teaching assistantship position online. The link to the application will be provided on the MSD website.

All international teaching or graduate assistants whose primary language is not English are required to be certified in their English language abilities. Those individuals whose native language is not English will be required to submit a Speaking Proficiency English Assessment Kit (SPEAK) score, which is administered at ASU. Students also have the option of completing the Test of Spoken English, administered directly by the Educational Testing Service. For this group, no personnel action form will be signed until this examination has been successfully completed.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the Academic Catalog Archive 2014-2015 277

department.

Design (Design of Healthcare and Healing Environments), MSD (ARHHEMSD)

Online Degree Search Title: Healthcare and Healing Environments (MSD)

Campus: TEMPE

Program Description:

The MSD with a concentration in design of health care and healing environments is focused on the science and experiences behind the built environment's real and perceived impacts on health and wellness. To this end, the concentration in design of health care and healing environments emphasizes the intersection and integration of evidence-based research and practice, interdisciplinary studies, best practices, and innovation in supporting and advancing the design of healthy environments, products and processes. This concentration explores and synthesizes principles from a variety of disciplines including innovation, architecture, design, communication, human behavior, policy, quality and performance improvement, among others -in arriving at a thorough understanding of the critical issues facing the health care industry. Students in this concentration will have opportunities to:

- be mentored by local health care design consultants
- communicate with forward-thinking health care research centers
- engage directly with real clients
- interact with prominent health care organizations
- participate in industry conferences
- team with nursing and health innovation faculty and students

Degree Requirements: 36 credit hours and a thesis, or 36 credit hours including the required applied project course (DSC 593).

Students may choose to complete the graduate work by way of a thesis or an applied project. A master's thesis is a scholarly endeavor that demonstrates the ability of the author to do supervised research and intellectual writing. The applied project is somewhat different. It includes a project and a written document and is a scholarly endeavor that demonstrates the ability of the designer to do supervised research and present substantial evidence of the ability to apply research creatively to a design situation.

Admission Requirements:

MSD Program Requirements

• All applicants must submit the Graduate Education online application and hold an undergraduate or graduate degree from a college or university recognized by ASU.

• All applicants must have completed a program in design and must hold a bachelor's in graphic design, industrial design, interior design or a related design discipline. When applying for admission, applicants must declare one of seven concentrations:

- arts, media and engineering
- design of health care and healing environments
- industrial design

- interior design
- new product innovation
- visual communication design

• All applicants must meet the minimum GPA requirements as established by Graduate Education.

• Applicants whose native language is not English (regardless of where they may now reside) must submit an official Test of English as a Foreign Language (TOEFL) score. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

• A portfolio, letter of intent and contact information for three references need be submitted to SlideRoom (<https://asuherberger.slideroom.com>) (<https://asuherberger.slideroom.com>). The Design School requires that these be submitted in addition to the Graduate Education application requirements.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

Teaching or Research Assistantships

Applicants wishing to be considered for teaching or research assistantships should submit an additional statement outlining areas in which they feel competent to serve as a teaching or research assistant. All interested applicants can apply for a teaching assistantship position online. The link to the application will be provided on the MSD website.

All international teaching or graduate assistants whose primary language is not English are required to be certified in their English language abilities. Those individuals whose native language is not English will be required to submit a Speaking Proficiency English Assessment Kit (SPEAK) score, which is administered at ASU. Students also have the option of completing the Test of Spoken English, administered directly by the Educational Testing Service. For this group, no personnel action form will be signed until this examination has been successfully completed.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the department.

Design (Industrial Design), MSD (ARINDDMSD)

Online Degree Search Title: Industrial Design (MSD)

Campus: TEMPE

Program Description:

The MSD with a concentration in industrial design is meant for individuals interested in advanced studies in:

- criticism and methodology
- design processes
- history
- human factors
- technology
- theory

This concentration develops an understanding of contemporary industrial design issues through specialized research and design skills. It also prepares the graduate student for a career in industrial design education.

Degree Requirements: 36 credit hours and a thesis, or 36 credit hours including the required applied project course (DSC 593).

Students may choose to complete their graduate work by way of a thesis or an applied project. A master's thesis is a scholarly endeavor that demonstrates the ability of the author to do supervised research and intellectual writing. The applied project is somewhat different. It includes a project and a written document and is a scholarly endeavor that demonstrates the ability of the designer to do supervised research and present substantial evidence of the ability to apply research creatively to a design situation.

Admission Requirements:

MSD Program Requirements

- All applicants must submit an online application to Graduate Education and hold an undergraduate or graduate degree from a college or university recognized by ASU.
- All applicants must have completed a program in design and must hold a bachelor's in graphic design, industrial design, interior design or a related design discipline. When applying for admission, applicants must declare one of seven concentrations:

- arts, media and engineering
- design of health care and healing environments
- industrial design
- interaction design
- interior design
- new product innovation
- visual communication design

- Applicants must meet the minimum GPA requirements as established by Graduate Education.
- Applicants whose native language is not English (regardless of where they may now reside) are required to submit an official Test of English as a Foreign Language (TOEFL) score. The minimum score for admission to the program is 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).
- A portfolio, letter of intent, and contact information for three references must also be submitted via SlideRoom (<https://asuherberger.slideroom.com> (<https://asuherberger.slideroom.com>)). The Design School requires that these be submitted in addition to the Graduate Education application requirements.

No GRE test is required.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

Teaching or Research Assistantships

Applicants wishing to be considered for teaching or research assistantships should submit an additional statement outlining areas in which they feel competent to serve as a teaching or research assistant. All interested applicants can apply for a teaching assistantship position online. The link to the application will be provided on the MSD website.

Design (Interaction Design), MSD (ARDSCIMSD)

Online Degree Search Title: Design (Interaction Design) (MSD)

Campus: TEMPE

Program Description:

Interaction design is about people and how people connect through products and services. The interaction design concentration focuses on the study of principles, tools, complexities and change that prepare students for endeavors such as creating effective physical and virtual shopping, creating effective information retrieval systems and numerous such human-spatial interactions. Design principles guide the students in the methods of creating dynamic, expressive and communicative forms.

Degree Requirements: 36 credit hours and a thesis, or 36 credit hours including the required applied project course (DSC 593).

Students may choose to complete their graduate work by way of a thesis or an applied project. A master's thesis is a scholarly endeavor that demonstrates the ability of the author to do supervised research and intellectual writing. The applied project is somewhat different. It includes a project and a written document and is a scholarly endeavor that demonstrates the ability of the designer to do supervised research and present substantial evidence of the ability to apply research creatively to a design situation.

Design (Interior Design), MSD (ARINTDEMMSD)

Online Degree Search Title: Interior Design (MSD)

Campus: TEMPE

Program Description:

The MSD with a concentration in interior design is a research degree that addresses the discovery and inquiry of how people relate to space. The program encourages the investigation of creativity, innovation and critical thinking while acknowledging the importance of cultural and historical precedent. This concentration develops an understanding of contemporary interior design issues through specialized research and design skills. This concentration prepares students with prior interior design training for more specialized career fields and for a career in academia.

Degree Requirements: 36 credit hours and a thesis, or 36 credit hours including the required applied project course (DSC 593).

Students may choose to complete their graduate work by way of a thesis or an applied project. A master's thesis is a scholarly endeavor that demonstrates the ability of the author to do supervised research and intellectual writing. The applied project includes a project and a written document and is a scholarly endeavor that demonstrates the ability of the designer to do supervised research and present substantial evidence of the ability to creatively apply research to a design situation.

Design (New Product Innovation), MSD (ARDSCNMSD)

Online Degree Search Title: Design (New Product Innovation) (MSD)

Campus: TEMPE

Program Description:

The MSD with a concentration in new product innovation is a research-oriented graduate degree. In this degree program, students will apply the concepts learned in the core and required courses through the execution of an applied project, which could be the design and development of a new product, a new method of doing design research, new design guidelines for medical devices, etc. The focus is on application, and students will present evidence of knowledge of principles in new product innovation, strategy for implementation or methods of design evaluation. Students will present the projects through a design presentation, executive summary and project document.

Degree Requirements: 36 credit hours including the required applied project course (DSC 593).

This project-based concentration teaches graduate students about the role of design and innovation in the process of new product development within the context of a quickly evolving global economy.

Students complete their graduate work with an applied project. It includes a project and a written document and is a scholarly endeavor that demonstrates the ability of the designer to do supervised research and present substantial evidence of the ability to creatively apply research to a design opportunity.

Admission Requirements:

MSD Program Requirements

- All applicants must submit the Graduate Education online application and hold an undergraduate or graduate degree from a college or university recognized by ASU.

Design (Visual Communication Design), MSD (ARVCDMSD)

Online Degree Search Title: Design (Visual Communication Design) (MSD)

Campus: TEMPE

Program Description:

The MSD with a concentration in visual communication design is meant for individuals interested in advanced studies in visual language, history,
Academic Catalog Archive 2014-2015 283

theory, criticism and methodology, design processes and technology. This concentration develops an understanding of contemporary graphic design issues through specialized research and design skills. It also prepares the graduate student for a career in graphic design education.

Degree Requirements: 36 credit hours and a thesis, or 36 credit hours including the required applied project course (DSC 593).

Students may choose to complete their graduate work by way of a thesis or an applied project. A master's thesis is a scholarly endeavor that demonstrates the ability of the author to do supervised research and intellectual writing. The applied project is somewhat different. It includes a project and a written document and is a scholarly endeavor that demonstrates the ability of the designer to do supervised research and present substantial evidence of the ability to apply research creatively to a design situation.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Applicants to the master's program in design must hold a bachelor's in graphic design, industrial design, interior design or a related design discipline. When applying for admission, applicants must declare one of seven concentrations:

- arts, media and engineering
- design of health care and healing environments
- industrial design
- interaction design
- interior design
- new product innovation
- visual communication design

Further information can be found in the program description on the school Web page.

Admission is a two-step process. Although applicants fill out one application through the online Graduate Education application process, they must be admitted into both the concentration in the MSD program and Graduate Education.

MSD Program Requirements

- A 3.00 or higher undergraduate GPA is required.
- A minimum score of 550 on the paper-based Test of English as a Foreign Language (TOEFL) or 80 on the Internet-based test is required for applicants whose native language is not English, regardless of where they may now reside.
- Additional application materials can be found online at <http://herbergerinstitute.asu.edu/admissions/grad/applying/> (<http://herbergerinstitute.asu.edu/admissions/grad/applying/>).

GRE scores are not required.

Applicants are required to submit the following materials in addition to Graduate Education requirements:

- A portfolio, letter of intent and contact information for three references should be submitted via SlideRoom (<https://asuherberger.slideroom.com> (<https://asuherberger.slideroom.com>)).
- Applicants wishing to be considered for teaching or research assistantships should submit an additional statement outlining areas in which they feel competent to serve as a teaching or research assistant and inexpensive copies of samples of work that will not be returned. All interested applicants can apply for a teaching assistantship position online. The link to the application will be provided on the MSD website.
- All international teaching or graduate assistants whose primary language is not English are required to be certified in their English language abilities. Those individuals whose native language is not English will be required to submit a Speaking Proficiency English Assessment Kit (SPEAK) score, which is administered at ASU. Students also have the option of completing the Test of Spoken English, administered directly by the Educational Testing Service. For this group, no personnel action form will be signed until this examination has been successfully completed.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

Students must fulfill the requirements of both Graduate Education and those of the Herberger Institute for Design and the Arts.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the department.

Design, Environment and the Arts, PHD (HIDEAPHD)

Online Degree Search Title: Design, Environment and the Arts (PhD)

Campus: TEMPE

Program Description:

The PhD in design, environment and the arts is an individualized institute-wide interdisciplinary degree that integrates graduate courses and faculty research with expertise in design; health care and healing environments; history, theory and criticism; and digital culture in design. Broad in scope, the program is at the cutting edge of creating new knowledge in architecture, design and the arts. It complements interdisciplinary research in other disciplines within the university. The program provides research experience for students wishing to pursue careers in industry as members of interdisciplinary design teams on environmental and energy issues, as well as for those wishing to teach in the architecture, design or the arts fields. Applicants should apply to the degree appropriate to their area of research interest.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students must be thoroughly familiar with design and the arts and are expected to demonstrate a high level of academic maturity before being admitted to the program. Up to 30 credit hours from a previously awarded master's can count towards the requirements of the doctoral program.

Of the 54 credit hours remaining after the master's, 12 must be dissertation credit and 12 may be research. These 24 hours plus the remaining 30 hours must be completed after admission to the program. No transfer credits are allowed to fulfill the 54-credit-hour minimum requirement completed after admission to the program.

The student is required to take 15 credit hours in the focus area and a minimum of nine credit hours of specialized course work outside the area of focus; a minimum of six credit hours in current research and research methods is required.

Each student entering the program is required to submit a plan of study during the first year.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Students are admitted to the program only upon completion of a master's in architecture, graphic design, industrial design, interior design, landscape architecture, fine arts or upon the demonstration of equivalent standing. Students must be familiar with design and the arts and will be expected to demonstrate a high level of academic maturity before being admitted to the program.

The doctoral executive committee evaluates the applications and supporting materials during the early spring for fall semester admissions.

Admission decisions are based on:

- the ability of the potential mentor to devote time to the student
- the compatibility of the applicant's career goals with the purpose of the degree program
- GRE scores
- previous academic training and performance
- recommendation letters
- the research mission of the institute and the research interests of faculty

The recommendations of the committee are forwarded to the program director for approval. Upon the written recommendation from the program director, the vice provost of Graduate Education will notify all applicants in writing of the admission decision.

In addition to submitting the Graduate Education online application and meeting Graduate Education requirements, applicants must submit the following doctoral application requirements online at the time of application. The application will be considered incomplete if one of these items is missing:

- a statement of purpose summarizing career objectives and the reasons for pursuing doctoral education
- an indication of proposed concentration (design, history, theory and criticism, digital culture in design, or health care and healing environments)
- an indication of a potential mentor in the Herberger Institute for Design and the Arts*
- three letters of recommendation (preferably academic, although could be professional)**
- a sample of sole-authored written work in English or any other evidence relevant to admission to the program (i.e., master's thesis, research paper or published articles)
- GRE scores (required)
- proof of English language proficiency***

*We recommend that the student email the faculty members who the student feels have related research interests, to introduce themselves and to
Academic Catalog Archive 2014-2015 285

inquire about the faculty member's availability to be a mentor.

****Students will provide the names and contact information of three recommenders at the time of their online application. Recommenders will receive an email with a link to the online letter of recommendation to complete. Students are able to see which recommenders have already completed their recommendation by logging into the My ASU system and viewing their "To Do" list. Once a recommender has submitted the letter of recommendation, the recommender's name will be removed from the "To Do" list. All letters must be in English.**

*****A Test of English as a Foreign Language (TOEFL) score of at least 100 iBT or 600 PBT or an overall International English Language Testing System band score of 7.50, with no individual band below 7.00, is required of all applicants whose native language is not English (<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)). International applicants who are interested in receiving funding as teaching assistants must take the Speaking Proficiency English Assessment Kit (SPEAK), administered at ASU, and become certified. Additional information is available on the department website.**

Minimum of a 3.00 cumulative GPA (scale is 4.00="A") in the last 60 hours of a student's bachelor's degree program.

Identification of a proposed research topic, or list of possible topics, that aligns with the research mission of the doctoral program and the research interests of faculty.

Student must have identified a program faculty member who has agreed to serve as a mentor.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Design, Environment and the Arts (Digital Culture in Design), PHD (HIENVDGPHD)

Online Degree Search Title: Design, Environment and the Arts (Digital Culture in Design) (PhD)

Campus: TEMPE

Program Description:

The PhD in design, environment and the arts with a concentration in digital culture in design focuses on the role of computational systems in enhancing creativity and the quality of human design. Graduates of the program should be thinkers as well as doers; they should learn to question the existing paradigms that govern the digital world as they impact design and the arts; they should be able to analyze systematically how digital tools affect the way designers and artists think, conceptualize, create and evaluate their designs and artwork; and, as a result, be able to come to a unique synthesis, leading the way in these fields.

This concentration will primarily explore the impact of digital culture on how built environments, products and visual communications are designed and analyzed by design professionals and are utilized by their intended audience. Students should be able to systematically question existing paradigms and ontology's of digital tools, evaluate the new paradigms that emerge as a result of digital culture, and propose new frameworks for design disciplines. Issues such as user interface design for new products, computer simulation of performance of buildings and products, effects of digital tools on architectural form giving, digital design processes, better incorporation of human factors into design tools, usability and interaction design are some examples of faculty expertise and areas of focus.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The doctoral program in design, environment and the arts with a concentration in digital culture in design requires the following:

required doctoral core courses (6)
required concentration core courses (12)
research and approved electives (24)
799 Dissertation (12)
a previously awarded master's or approved relevant course work (30)

Students must be thoroughly familiar with design and the arts and are expected to demonstrate a high level of academic maturity before being admitted to the program. Up to 30 credit hours from a previously awarded master's can count towards the requirements of the doctoral program.

Of the 54 credit hours remaining after the master's, 12 must be dissertation credit and 12 may be research. These 24 hours plus the remaining 30

hours must be completed after admission to the program. No transfer credits are allowed to fulfill the 54-credit-hour minimum requirement completed after admission to the program.

The student is required to take 12 credit hours in the concentration and a minimum of nine credit hours of specialized course work outside the concentration; a minimum of six credit hours in current research and research methods is required.

Each student entering the program is required to submit a plan of study during the first year.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Students are admitted to the program only upon completion of a degree in architecture, graphic design, industrial design, interior design, landscape architecture or fine arts, or upon the demonstration of equivalent standing. Students must be familiar with design and the arts and will be expected to demonstrate a high level of academic maturity before being admitted to the program.

The doctoral executive committee evaluates the applications and supporting materials during the spring for fall semester admissions. Admission decisions are based on:

- the ability of the potential mentor to devote time to the student
- the compatibility of the applicant's career goals with the purpose of the degree program
- GRE scores
- previous academic training and performance
- recommendation letters
- the research mission of the institute and the research interests of faculty

The recommendations of the committee are forwarded to the program director for approval. Upon the written recommendation from the program director, the vice provost for Graduate Education will notify all applicants in writing of the admission decision.

In addition to submitting the Graduate Education online application and meeting Graduate Education requirements, applicants must submit the following doctoral application requirements online at the time of application. The application will be considered incomplete if one of these items is missing:

- a statement of purpose summarizing career objectives and the reasons for pursuing doctoral education
- an indication of proposed area of concentration (design, history, theory and criticism, digital culture in design, or health care and healing environments)
- an indication of a potential mentor in the Herberger Institute for Design and the Arts*
- three letters of recommendation (preferably academic, although could be professional)**
- a sample of sole-authored written work in English or any other evidence relevant to admission to the program (i.e., master's thesis, research paper or published articles)
- GRE scores (required)
- proof of English language proficiency***

*We recommend that you email the faculty member(s) who you feel have related research interests, to introduce yourself and to inquire about their availability to be a mentor to you.

**Students will provide the names and contact information of three recommenders at the time of their online application. Recommenders will receive an email with a link to the online letter of recommendation to complete. Students are able to see which recommenders have already completed their recommendation by logging into the MyASU system and viewing their "To Do" list. Once a recommender has submitted the letter of recommendation, the recommender's name will be removed from the "To Do" list. All letters must be in English.

***A Test of English as a Foreign Language (TOEFL) score of at least 100 iBT or 600 PBT or an overall International English Language Testing System (IELTS) band score of 7.50, with no individual band below 7.00, is required of all applicants whose native language is not English (<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)). International applicants who are interested in receiving funding as teaching assistants must take the Speaking Proficiency English Assessment Kit (SPEAK), administered at ASU, and become certified. Additional information is available on the department website.

A minimum of a bachelor's (or equivalent) or a graduate degree from a regionally accredited college or university is required. Bachelor's must be in the field of architecture, graphic design, industrial design, interior design, landscape architecture, arts media or engineering.

Applicants should have a minimum of a 3.00 cumulative GPA (scale is 4.00="A") in the last 60 hours of a student's bachelor's degree program.

Students should identify a proposed research topic, or list of possible topics, that aligns with the research mission of the program and the research interests of faculty.

Student must have identified a doctoral program faculty member who has agreed to serve as a mentor.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Design, Environment and the Arts (Healthcare and Healing Environments), PHD (ARENHHEPHD)

Online Degree Search Title: Design, Environment and the Arts (Healthcare and Healing Environments) (PHD)

Campus: TEMPE

Program Description:

The health care and healing environments concentration under the PhD in design, environment and the arts degree focuses on the integration of evidence-based design, sustainable science and best practices benchmarks when planning health care facilities. Facility-related responsibilities supported by this area cluster into seven functional work units:

- facilities analysis (physical and environmental)
- human factors and user needs
- interior planning and design
- programming (long-range planning)
- research methodologies
- space management and planning
- strategic planning

This multidisciplinary program integrates the principles of medical and clinical innovations, interior architecture, human health services, communication studies, architecture and behavioral and engineering sciences. Students in this program will be mentored by local health care design consultants, teaming with nursing students, working directly with real clients and corresponding with forward-thinking health care research centers. Graduating students will be able to:

- address contemporary issues facing the health care industry
- address health care environments on multiple levels
- apply evidence-based research techniques
- effectively communicate with clinicians

Upon graduation, students may pursue advanced positions in the following arenas:

- elite consulting firms as facility programmers
- large health care systems and corporations as strategic planners
- leading manufacturers and vendors as expert representatives
- planning divisions in architectural and planning firms as medical planners

- research centers as decision-makers

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students will be required to complete program requirements detailed below:

previously completed a master's (30)

required core courses (6)

required concentration courses (18)

elective courses (18)

dissertation (12)

Students must be thoroughly familiar with design and the arts and are expected to demonstrate a high level of academic maturity before being admitted to the program. Up to 30 credit hours from a previously awarded master's can count toward the requirements of the doctoral program. If the student has not completed a master's, elective courses approved by the supervisory committee may substitute.

Of the 54 credit hours remaining after the master's, 12 must be dissertation credit and 12 may be research. These 24 hours plus the remaining 30 hours must be completed after admission to the program. No transfer credits are allowed to fulfill the 54-credit-hour minimum requirement completed after admission to the program.

The student is required to take 18 credit hours in the concentration and a minimum of nine credit hours of specialized course work outside the area of concentration; a minimum of six credit hours in current research and research methods is required.

Each student entering the program is required to submit a plan of study during the first year.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Ideal candidates must already hold a master's in design, interior design, architecture, nursing or other related fields. A statement of intent will express interest in the health care research/design concentration. If students enter the program with no design or health care background, they must take certain deficiency courses.

The doctoral executive committee evaluates the applications and supporting materials during the early spring for fall semester admissions. Admission decisions are based on:

- the ability of the potential mentor to devote time to the student
- the compatibility of the applicant's career goals with the purpose of the degree program
- GRE scores
- previous academic training and performance
- recommendation letters
- the research mission of the institute and the research interests of faculty

The recommendations of the committee are forwarded to the program director for approval. Upon the written recommendation from the program director, the vice provost of Graduate Education will notify all applicants in writing of the admission decision.

In addition to submitting the Graduate Education online application and meeting Graduate Education requirements, applicants must submit the following doctoral application requirements online at the time of application. The application will be considered incomplete if one of these items is missing:

- a statement of purpose summarizing career objectives and the reasons for pursuing doctoral education
- an indication of proposed concentration (design, history, theory and criticism, digital culture in design, or health care and healing environments)
- an indication of a potential mentor in the Herberger Institute for Design and the Arts*

three letters of recommendation (preferably academic, although could be professional)**

- a sample of sole-authored written work in English or any other evidence relevant to admission to the program (i.e., master's thesis, research paper or published articles)
- GRE scores (required)
- proof of English language proficiency***

*We recommend that the student email the faculty members who the student feels have related research interests, to introduce themselves and to inquire about the faculty member's availability to be a mentor.

**Students will provide the names and contact information of three recommenders at the time of their online application. Recommenders will receive an email with a link to the online letter of recommendation to complete. Students are able to see which recommenders have already completed their recommendation by logging into the My ASU system and viewing their "To Do" list. Once a recommender has submitted the letter of recommendation, the recommender's name will be removed from the "To Do" list. All letters must be in English.

***A Test of English as a Foreign Language (TOEFL) score of at least 100 iBT or 600 PBT or an overall International English Language Testing System band score of 7.50, with no individual band below 7.00, is required of all applicants whose native language is not English (<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)). International applicants who are interested in receiving funding as teaching assistants must take the Speaking Proficiency English Assessment Kit (SPEAK), administered at ASU, and become certified. Additional information is available on the department website.

Minimum of a 3.00 cumulative GPA (scale is 4.00="A") in the last 60 hours of a student's bachelor's degree program.

Identification of a proposed research topic, or list of possible topics, that aligns with the research mission of the doctoral program and the research interests of faculty.

Student must have identified a program faculty member who has agreed to serve as a mentor.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Digital Culture, MA (HIDGCMA)

Online Degree Search Title: Digital Culture

Campus: TEMPE

Program Description:

The MA in digital culture is geared towards practitioners of design and the arts who have an interest in software and system development and seek to enhance their practice through expanded engagement with interactive, embodied media design in an interdisciplinary environment.

The degree allows artists and designers to explore new avenues for real time media creation that seek to go beyond current paradigms. Course work also explores current practices in various contexts (performance environments, health and well-being, social media and communication) as well as engineering based approaches to develop experiential systems with social impact.

Degree Requirements: 33 credit hours including the applied project course (AME 593).

Core Courses (12 hours):

AME 530 Experiential Media Methodology and Theory I (3)
AME 531 Experiential Media Methodology & Theory II (3)
AME 532 Creating by Algorithm (3)
AME 533 Realtime Data Analysis and Pattern Recognition for Interaction (3)

Required Concentration Courses: Not Applicable

Elective or Research Courses (18 hours):

AME 541 Interactive Forms (3)
AME 598 Advanced Interactive Sound (3)
AME 598 Media Installations (3)

AME 598 Animating Virtual Worlds (3)
AME 598 Understanding Activity (3)
AME 598 Programming for Social and Interactive Media (3)
AME 598 Integrated System Development (3)
AME 598 Digital Design for Tangible Devices (3)
AME 598 Movement Sensing and Interaction (3)
AME 598 Performance Systems Design (3)
AME 598 Multimodal Sensing Systems (3)
AME 598 Integrated Perception and Cognition (3)
AME 598 Media Synthesis (3)
AME 598 System Modeling (3)
ART 539 Intermedia Studio (3)
ART 543 Intermedia Performance (3)
MTC 598 Electronic Studio Tech I (3)
MTC 598 Electronic Studio Tech II (3)
MUE 598 Digital and Participatory Culture in Music (3)
PSY 528 Sensation and Perception (3)
PSY 562 Advanced Human Factors (3)
THP 555 Media Design Applications (3)
THP 556 Performance Technology (3)

Culminating Experience (3 hours):

AME 593 Applied Project (3)

Total required credit hours: 33

Admission Requirements:

Degree: A minimum of a bachelor's or master's degree in arts, humanities, design, media studies, computer science, engineering, or a closely related field from a regionally accredited college or university is required.

GPA: A minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of the student's first bachelor's degree program is required. A minimum of 3.00 cumulative GPA (scale is 4.00 = A) in the applicable master's degree is required.

Portfolio:

A portfolio is required; however submissions will vary depending on the background of each prospective student due to the interdisciplinary nature of the program. A wide variety of disciplines are expected to be interested in the master's. We will request key works from applicants that illustrate the skills they wish to develop in the master's program. Examples include games they have designed and programmed, interactive installations and performances (submitted as video), web sites they have created or programmed, music they have composed digitally, or films they have made.

Foreign Language Exam: No

Required Admission Examination: No

Letters of Recommendation: Yes

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Environmental Design and Planning, PHD (ARENVDEPHD)

Online Degree Search Title: Environmental Design/Planning (PhD)

Campus: TEMPE

Program Description:

This program is an individualized institute-wide interdisciplinary degree that integrates graduate courses and faculty research expertise with concentrations in design; health care and healing environments; history, theory and criticism; and urban design. Broad in scope, the program is at the cutting edge of creating new knowledge in architecture, design and the arts. It complements interdisciplinary research in other disciplines within the university. The program provides research experience for students wishing to pursue careers in industry as members of interdisciplinary design teams on environmental and energy issues, as well as for those wishing to teach in the architecture, design or the arts fields.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students must be thoroughly familiar with design and the arts and are expected to demonstrate a high level of academic maturity before being admitted to the program. Up to 30 credit hours from a previously awarded master's can count towards the requirements of the doctoral program.

Of the 54 credit hours remaining after the master's, 12 must be dissertation credit and 12 may be research. These 24 hours plus the remaining 30 hours must be completed after admission to the program. No transfer credits are allowed to fulfill the 54-credit-hour minimum requirement completed after admission to the program.

The student is required to take 15 credit hours in the area of concentration and a minimum of nine credit hours of specialized course work outside the area of concentration; a minimum of six credit hours in current research and research methods is required.

Each student entering the program is required to submit a plan of study during the first year.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Students are admitted to the program only upon completion of a master's in architecture, graphic design, industrial design, interior design, landscape architecture, fine arts or upon the demonstration of equivalent standing. Students must be familiar with design and the arts and will be expected to demonstrate a high level of academic maturity before being admitted to the program.

The doctorate executive committee evaluates the applications and supporting materials during the spring for fall semester admissions. Admission decisions are based on the compatibility of the applicant's career goals with the purpose of the degree program, the research mission of the institute and the research interests of faculty, previous academic training and performance, GRE scores, recommendation letters and the ability of the potential mentor to devote time to the student.

The recommendations of the committee are forwarded to the program director for approval. Upon the written recommendation from the program director, the vice provost of Graduate Education will notify all applicants in writing of the admission decision.

In addition to submitting the Graduate Education online application and meeting Graduate Education requirements, applicants must submit the following Doctorate of Philosophy application requirements online at the time of application. The application will be considered incomplete if one of these items is missing.

- GRE scores
- An indication of a potential mentor in the Herberger Institute for Design and the Arts. We recommend that you e-mail the faculty member(s) that you feel have related research interests to introduce yourself and to inquire about their availability to be a mentor to you.
- An indication of proposed area of concentration (design, history, theory, and criticism, or health care and healing environments).
- A sample of sole-authored written work in English or any other evidence relevant to admission to the program (i.e., master's thesis, research paper, or published articles).
- A statement of purpose summarizing career objectives and the reasons for pursuing doctorate education.
- Three letters of recommendation (preferably academic, although could be professional). Students will provide the names and contact information of three recommenders at the time of their online application. Recommenders will receive an e-mail with a link to the on line letter of recommendation to complete. Students are able to see which recommenders have already completed their recommendation by logging into the MyASU system and viewing their "To Do" list. Once a recommender has submitted the letter of recommendation, the recommender's name will be removed from the "To Do" list. All letters must be in English.

A Test of English as a Foreign Language (TOEFL) score of at least 100 iBT or 600 PBT or an overall International English Language Testing System (IELTS) band score of 7.50, with no individual band below 7.00, is required of all applicants whose native language is not English.

International applicants who are interested in receiving funding as teaching assistants must take the Speaking Proficiency English Assessment Kit (SPEAK), administered at ASU, and become certified. Additional information is available on the department website.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

History and Theory Of Art, PHD (FAHIARTPHD)

Online Degree Search Title: History and Theory of Art (PhD)

Campus: TEMPE

Program Description:

The PhD in the history and theory of art is a collaborative program with the University of Arizona in Tucson, Ariz. The emphasis is on interdisciplinary methodologies and electronic technologies to prepare students for teaching and museum careers.

Degree Requirements: 84 credit hours, a foreign language exam, an oral comprehensive exam, a prospectus and a dissertation.

The PhD requires 60 credit hours beyond the MA or 90 beyond the BA. The 42 credits of PhD course work include:

12 credits in the major area of emphasis

nine credits in a minor area within art history

six interdisciplinary credits (courses outside of art history)

six hours of PhD core courses (ARS 691 Methodologies and ARS 692 Technologies)

nine credits of electives

the remaining 18 credits are research (ARS 792) and dissertation (ARS 799)

A student may elect to have a second minor in an area outside art history. In this joint program, all PhD students are required to take courses by faculty at both Arizona State University and the University of Arizona.

Admission Requirements:

The complete application requires submissions to both Arizona State University Graduate Education and the School of Art. The following must be submitted to the Graduate Education as part of the Graduate Education application:

online application

- application fee
- official notice of GRE scores (within last five years)
- official transcripts

any other materials requested by Graduate Education

The following must be sent to the art history graduate advisor in the School of Art:

- a statement of intent regarding graduate study
- the MA thesis and/or a scholarly research paper
- any request for assistantships and tuition scholarships
- three academic letters of recommendation (to be sent directly by referees)

The postmark deadline for complete applications for admission beginning in the following spring semester is Oct. 15; for the following fall semester it is Jan. 15. Students entering in the spring will have few or no opportunities for fellowship or assistantship support the first semester.

Industrial Design, MID (HIINDMID)

Online Degree Search Title: Industrial Design (MID)

Campus: TEMPE

Program Description:

The MID degree is a 60-credit-hour studio-based program in which students will learn to design new product-service systems that solve critical global problems. Students will engage in research, brainstorming, idea visualization, prototyping and testing of creative solutions that address critical problems we face in the world today. Graduates of this program will be adept in using principles of design innovation, sustainability and systems thinking in problem-solving and are expected to find positions in industry as well as academia after graduation.

Degree Requirements: 60 credit hours including the required capstone course (IND 622).

Two-year program

Typical Plan of Study

First Year (Fifth year)

Fall

DSC 511 Design Research (3)

DSC 598 Topic: The Culture of Objects (3)

IND 513 Industrial Design Seminar: Contemporary Issues (1)

IND 521 Advanced Industrial Design Studio I (5)

IND 544 Human Factors Systems and Documentation (3)

Design Professional Elective (3)

Summer

IND 584 Clinical Internship (3)

Second Year (Sixth year)

Fall

IND 598 Topic: Solving Problems with Life Cycle Assessment (3)

IND 621 Advanced Industrial Design Studio III (5)

Design Professional Electives (6)

Spring

AAD 552 Architectural Management II (3)

IND 598 Topic: Digital Ideation and Rapid Prototyping (3)

IND 622 Advanced Industrial Design Studio IV (5)

Design Professional Elective (3)

Three-plus-year program

Bolded courses are considered deficiencies and do not count toward official graduate program of study.

First Year

Summer

DSC 236 Introduction to Computer Modeling (3)

IND 509 Foundation Industrial Design Seminar (3)

IND 510 Foundation Industrial Design Studio (6)

Fall

IND 227 Visual Methods for Problem Solving (3)

IND 242 Materials and Design (3)

IND 316 20th Century Design I (3)

IND 511 Core Industrial Design Studio I (6)

Spring

IND 261 Industrial Design II (3)
IND 317 20th Century Design II (3)
IND 428 Design Presentation (3)
IND 512 Core Industrial Design Studio II (6)

Admission Requirements:

All applicants must complete the Graduate Education online application.

Admission requirements for the two-year program:

- Applicants must hold a minimum of a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing in a related field such as industrial design or product design.
- Applicants must meet the minimum GPA requirements as established by Graduate Education.
- Applicants must submit an official Test of English as a Foreign Language (TOEFL) score of at least 80 (Internet-based) or 550 (paper-based), if English is not student's native language, regardless of where they may now reside. Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).
- Submit a portfolio, letter of intent, and contact information for three references to SlideRoom (<https://asuherberger.slideroom.com> (<https://asuherberger.slideroom.com>)). The Design School requires that these be submitted in addition to the Graduate Education application requirements.

Admission requirements for the three-plus-year Program:

- Applicants must hold a bachelor's degree (or equivalent) from a regionally accredited college or university of recognized standing in a field other than industrial design.
- Applicants must meet the minimum GPA requirements as established by Graduate Education.
- Applicants must submit an official Test of English as a Foreign Language (TOEFL) score of at least 80 (Internet-based) or 550 (paper-based), if English is not their native language, regardless of where they may now reside. Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).
- Submit a portfolio, letter of intent, and contact information for three references to SlideRoom (<https://asuherberger.slideroom.com> (<https://asuherberger.slideroom.com>)). The Design School requires that these be submitted in addition to the Graduate Education application requirements.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying. The GRE is not required.

Applicants may be admitted to the two-year program with deficiencies if their previous course work is not equivalent to the ASU undergraduate requirements and standards. Deficiencies must be completed prior to taking the required courses, if necessary. Please keep in mind that this may cause the student to take longer than two years to complete the program.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the department.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Interior Architecture, MIA (HIAMIA)

Online Degree Search Title: Interior Architecture (MIA)

Campus: TEMPE

Program Description:

The MIA is a studio-based professional degree that prepares graduates to fill leadership positions in interior architecture, design practice and education. Focusing on the development of groundbreaking design solutions to contemporary and emergent societal issues, such as sustainability and health care, this degree draws upon history, theory and criticism to inform a transdisciplinary, evidence-based approach. Studios will have close ties to the allied disciplines of architecture and landscape architecture with faculty from those programs actively involved in teaching studios with an interior architecture concentration. This provides a foundation of interdisciplinary learning, to assist in the understanding of integrated practice. This degree program aims to further a candidate's comprehension of design as a synergistic process of identifying, analyzing and creating useful,

beautiful and stimulating interior environments that serve the needs of varied user populations.

Degree Requirements: 56 credit hours including the required capstone course (INT 622).

Two-year Program

After the first summer and academic year, the three-plus-year curriculum merges with the two-year curriculum and they become the same course of study.

Admission Requirements:

All applicants must complete the Graduate Education online application.

Admission Requirements for the Two-year Program:

- All applicants must hold an undergraduate or graduate degree from a college or university recognized by ASU.
- All applicants must have completed a minimum of a bachelor's degree (or equivalent) in interior design or interior architecture from a CIDA-accredited program or a four-year degree in architecture from a NAAB-accredited program.
- All applicants must meet the minimum GPA requirements as established by Graduate Education.
- Applicants whose native language is not English (regardless of where they now reside) are required to submit an official Test of English as a Foreign Language (TOEFL) score of at least 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).
- A portfolio, letter of intent and contact information for three references need be submitted to SlideRoom (<https://asuherberger.slideroom.com>) (<https://asuherberger.slideroom.com>). The Design School requires that these be submitted in addition to the Graduate Education application requirements.

No GRE test is required.

Admission Requirements for the Three-plus-year Program:

- All applicants must hold an undergraduate or graduate degree from a college or university recognized by ASU.
- All applicants must have completed a minimum of a bachelor's degree (or equivalent) in a field other than in interior design, interior architecture or architecture.
- All applicants must meet the minimum GPA requirements as established by Graduate Education.
- Applicants whose native language is not English (regardless of where they may now reside) are required to submit an official Test of English as a Foreign Language (TOEFL) score of at least 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Landscape Architecture, MLA (ARLDEMLA)

Online Degree Search Title: Landscape Architecture (MLA)

Campus: TEMPE

Program Description:

The MLA program at ASU is designed to enable students to engage with the community in applied projects that focus on improving the ecological and social health of the urban environment. The emphasis is on sustainable outdoor environments. In the United States, most state registration boards require a degree from an accredited professional degree program as a prerequisite for licensure.

The graduate landscape architecture program projects can include large-scale work encompassing urban design, landscape reclamation, open space preservation planning and landscape ecological design, and projects at a more intimate scale of the neighborhood park or residential back

yard. Emerging areas of focus include biotechnical design, construction of greenways, green roofs, living walls, urban agriculture as well as the design of healing environments.

As an accredited master's program in landscape architecture, the curriculum is intended to prepare students for landscape architecture professional practice and advanced study at the doctoral level. The Design School is committed to the merging of global and local contexts and concerns and, toward this end, graduate students in their final year go abroad for two weeks as part of their studio course. To date, students have traveled to Argentina, England, Ethiopia, Germany, Japan, the Netherlands, Rwanda, Spain and Turkey. The school also offers a number of summer study abroad programs in an effort to extend the student opportunities for global engagement. Since 2011 when the first class of students graduated with master's degrees in landscape architecture, ASU alumni have found employment with nationally recognized landscape architects, in multinational firms and within public municipalities and agencies.

Degree Requirements: 56 credit hours and a thesis, or 56 credit hours including the required applied project course (LDE 593), or 56 credit hours including the required capstone course (MLA 622).

After the first summer and academic year, the three-plus-year curriculum merges with the two-year curriculum and they are the same.

Admission Requirements:

All applicants must submit an online Graduate Education application.

Admissions Requirements to the Two-Year Program

- Applicants must hold an undergraduate or graduate degree from a college or university recognized by ASU.
- Applicants must have completed a four-year or five-year BSLA or BLA in landscape architecture or be a licensed landscape architect. The bachelor's must be accredited by the Landscape Architectural Accreditation Board.
- Applicants must meet the minimum GPA requirements as established by Graduate Education.
- Provide official copy of GRE scores; unofficial copies will not be accepted. For more information, visit the GRE website or <https://uoeee.asu.edu/testing> (<https://uoeee.asu.edu/testing>).
- Provide proof of English proficiency if student's native language is not English, regardless of where they now reside, in the form of an official Test of English as a Foreign Language (TOEFL) score of at least 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).
- Submit a portfolio, letter of intent, and contact information for three references via SlideRoom (<https://asuherberger.slideroom.com>) (<https://asuherberger.slideroom.com>). The Design School requires that these be submitted in addition to the Graduate Education application requirements.

Admissions Requirements to the Three-Plus-Year Program

- Applicants must hold an undergraduate or graduate degree from a college or university recognized by ASU.
- Applicants must have completed a minimum of a bachelor's degree (or equivalent) in a field other than landscape studies.
- Applicants must meet the minimum GPA requirements as established by Graduate Education.
- Provide an official copy of GRE scores; unofficial copies will not be accepted. For more information, visit the GRE website or <https://uoeee.asu.edu/testing> (<https://uoeee.asu.edu/testing>).
- Provide proof of English proficiency if student's native language is not English, regardless of where they now reside, in the form of an official Test of English as a Foreign Language (TOEFL) score of at least 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).
- Submit a portfolio, letter of intent, and contact information for three references via SlideRoom (<https://asuherberger.slideroom.com>) (<https://asuherberger.slideroom.com>). The Design School requires that these be submitted in addition to the Graduate Education application requirements.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

Applicants may be admitted to the two-year program with deficiencies if their previous course work is not equivalent to the ASU undergraduate requirements and standards. Deficiencies must be completed prior to taking the required courses, if necessary. Please keep in mind that this may cause the student to take longer than two years to complete the program.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the department.

Media Arts and Sciences, PHD (FAMASPHD)

Online Degree Search Title: Media Arts and Sciences (PhD)

Campus: TEMPE

Program Description:

Media, arts and sciences PhD students train in translating, transporting and combining knowledge across disciplines for the development of innovative experiential media systems and accompanying theoretical models. The degree structure includes transdisciplinary media courses through the School of Arts, Media and Engineering, elective-course credits relating to the student's research interests, and substantial research and dissertation hours devoted to collaborative research within the School of Arts, Media and Engineering network. Active participation in School of Arts, Media and Engineering interdisciplinary research teams allows media, arts and sciences doctoral students to gain and contribute expertise in knowledge fusion for digital media.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The requirements for this program are comprised of 39 course credit hours, 33 research hours and 12 dissertation hours. Thirty of the 39 required course credits will be from the transdisciplinary media courses offered by the School of Arts, Media and Engineering. All students will be required to take a minimum of two courses under each of the five constituting areas of experiential media (30 hours).

Admission Requirements:

Application yearly deadline is Jan. 7. Students are only admitted during the fall semester.

Applicants will be required to submit:

- a Graduate Education online application
- official transcripts of all undergraduate and graduate course work (if applicable)
- official GRE scores
- curriculum vitae
- statement of purpose
- three letters of recommendation and a portfolio of supporting material

Additionally, the statement of purpose should explain in a concise and persuasive manner how the student's educational, professional and personal experiences inform their research and creative interests as well as elaborating on any aspect of their background that supports candidacy to the School of Arts, Media and Engineering program.

Each applicant must demonstrate entry-level competencies. This can be demonstrated primarily through a portfolio. The portfolio may include previously developed media products, projects or publications demonstrating an understanding of and involvement with digital media and computation. Entry-level competency can also be partially demonstrated through course work and may include such courses as:

- advanced computer programming
- computer graphics and animation
- computer music
- digital design
- film theory
- interactive technologies
- media authoring tools
- media theory
- multimedia systems
- signal processing

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Music (Conducting), DMA (FACONDDMA)

Online Degree Search Title: Conducting (DMA)

Campus: TEMPE

Program Description:

The DMA in music, concentration in conducting (emphasis areas: choral, orchestra/opera, wind band) prepares highly qualified musicians to become conductors and scholars, emphasizing a thorough knowledge of repertory, knowledge of historical and analytical issues, an understanding of efficient, effective rehearsal technique and a clear, expressive conducting technique. Doctoral conducting students receive considerable individual attention and have regular opportunities to rehearse and conduct a variety of ensembles.

Degree Requirements: 90 credit hours, a research paper, a written comprehensive exam and an oral comprehensive exam.

The degree credit requirements are distributed as follows:

18 hours in conducting core

nine hours in specialty courses

nine hours in electives

nine hours in cognate (integrated conducting, instrumental performance or music education)

21 hours in music history and music theory

24 hours in recitals and research

30 hours from a master's degree may be applied toward the 90-hour degree requirement. Once admitted to a the program, a student is required to be enrolled continuously, excluding summer sessions, until all requirements for the degree have been fulfilled. In general, the student should expect to spend at least the equivalent of three academic years beyond the bachelor's in the program. A minimum of two semesters must be spent in continuous full-time residence at ASU. At least 54 hours must be completed in residence at ASU.

Additional information on degree requirements for all graduate music programs may be found on the checksheets posted here:

<http://music.asu.edu/students/grad/checksheets.php> (<http://music.asu.edu/students/grad/checksheets.php>).

Admission Requirements:

Students seeking admission typically hold a Master of Music degree. Applicants with other degrees are considered if they have received graduate training similar to that normally expected in an MM program.

Applicants who meet the following requirements are eligible to apply.

- Applicants must hold a U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country.
- Applicants must have achieved a "B" (3.00 on a 4.00 scale) grade point average in the last 60 semester hours or 90 quarter hours of undergraduate course work.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency:

- TOEFL score of at least 550 (PBT) or 80 (iBT)
- IELTS overall band score of at least 6.5
- Pearson Test of English (PTE) score of at least 60

The School of Music does not offer conditional admission under any circumstances.

Application Requirements

Materials due by Oct. 1 for spring admission and Dec. 1 for fall admission:

- Graduate Education admission application and application fee: <https://students.asu.edu/graduate/admissions> (<https://students.asu.edu/graduate/admissions>)
- School of Music Application (including a resume and personal statement; choral applicants must also upload a writing sample): <http://music.asu.edu/admissions/grad/applying/> (<http://music.asu.edu/admissions/grad/applying/>)
- prescreening video: <http://music.asu.edu/admissions/auditions/prescreening.php> (<http://music.asu.edu/admissions/auditions/prescreening.php>)

Materials required to complete your application for faculty review and audition consideration:

- three letters of recommendation
- official transcripts
- GRE/MAT scores
- international applicants: proof of English proficiency <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)

Application Deadlines

The deadline for submission of the Graduate Education admission application, School of Music application, and prescreening video is Oct. 1 for spring admission and Dec. 1 for fall admission. After receipt of complete application materials (including recommendation letters, transcripts, and English proficiency requirements) and review of prescreening materials, an applicant may be invited for a live audition. Information on the audition component may be found here: <http://music.asu.edu/admissions/auditions/> (<http://music.asu.edu/admissions/auditions/>). GRE/MAT scores may be submitted after the Oct. 1 and Dec. 1 deadlines, but must be received before enrollment at ASU.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Music (Interdisciplinary Digital Media and Performance), DMA (FAINTDDMA)

Online Degree Search Title: Music (Interdisciplinary Dig. Media and Perf.) (DMA)

Campus: TEMPE

Program Description:

The DMA in music with a concentration in interdisciplinary digital media and performance is designed for students who have interests and skills in unique cross sections of the arts and sciences. The degree expands the School of Music offerings to include areas beyond typical music course work, allowing for expanded opportunities for digital sound and interactive projects. It also allows the School of Music and its students to be actively involved in current developments in the ever-changing field of media and digital culture. The state-of-the-art media facilities of the School of Arts, Media and Engineering and its hybrid arts-engineering faculty and courses are an invaluable asset to music students, with resources that complement existing and future courses in electronic music.

Degree Requirements: 90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The degree credit requirements are distributed as follows:

36 hours in arts, media and engineering core

30 hours in music theory and music history

24 hours in research and dissertation

Thirty hours from a master's degree may be applied toward the 90-hour degree requirement. Once admitted to the program, a student is required to be enrolled continuously, excluding summer sessions, until all requirements for the degree have been fulfilled. In general, the student should expect to spend at least the equivalent of three academic years beyond the bachelor's in the program. Music (Music Composition), DMA (FACOMPDMA)

Online Degree Search Title: Music Composition (DMA)

Campus: TEMPE

Program Description:

The DMA in music with a concentration in music composition is a professional degree program designed for outstanding students of composition who are preparing for professional careers, including teaching positions at the university level. The concentration in music composition provides extensive faculty interaction as well as opportunities to develop advanced skills in traditional and contemporary compositional techniques. The opportunity to collaborate with music scholars, theorists, performers, educators and other composers provides students with a broad and well-rounded foundation for advanced careers in music.

Degree Requirements: 90 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The degree credit requirements are distributed as follows:

36 hours in major area (composition, music technology, electives)

30 hours in music theory and music history

24 hours in research and dissertation

The music composition concentration requires the creation of a significant original work of music (considered to be a dissertation) and either two article-length research papers or a substantial paper.

Thirty hours from a master's degree may be applied toward the 90-hour degree requirement. Once admitted to the program, a student is required to be enrolled continuously, excluding summer sessions, until all requirements for the degree have been fulfilled. In general, the student should expect to spend at least the equivalent of three academic years beyond the bachelor's in the program. A minimum of two semesters must be spent in continuous full-time residence at ASU. At least 54 hours must be completed in residence at ASU.

Music (Music Education), PHD (FAMUSEDPHD)

Online Degree Search Title: Music (Music Education) PhD

Campus: TEMPE

Program Description:

The PhD in music, concentration in music education is a scholarly research degree. Graduates of this program typically serve as faculty members at colleges or universities. They become scholars, researchers, music and arts administrators, and public policy advisors to education and arts organizations, and civic and government groups.

The music education doctoral program includes highly specialized study in music education, elective studies with scholars and artists in the School of Music and other schools in the Herberger Institute for Design and the Arts, and opportunities for cross-disciplinary elective study with faculty in schools and colleges across the ASU campuses. A plan of study is designed by the student in consultation with the faculty to support a research trajectory identified by the student.

Research conducted by students in the music education concentration aims to reexamine, interrogate and broaden discourse, practice, and policy in music education, and to expand music and education scholarship by challenging methodological and disciplinary boundaries. The degree concludes with dissertation research.

Degree Requirements: 90 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The degree credit requirements are distributed as follows:

- 30 hours in concentration (music education courses, including research)
- 10 hours in core requirements
- 12 hours in dissertation
- 29 hours in electives (music, music education and related studies)

three hours in internship
six hours in research

Thirty hours from a master's degree may be applied toward the 90-hour degree requirement. Once admitted to a the program, a student is required to be enrolled continuously, excluding summer sessions, until all requirements for the degree have been fulfilled. In general, the student should expect to spend at least the equivalent of three academic years beyond the bachelor's in the program. A minimum of two semesters must be spent in continuous full-time residence at ASU. At least 54 hours must be completed in residence at ASU.

Admission Requirements:

Students seeking admission typically hold an MM degree. Applicants with other degrees are considered if they have received graduate training similar to that normally expected in a Master of Music program.

Applicants who meet the following requirements are eligible to apply.

- U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country
- B" (3.00 on a 4.00 scale) grade point average in the last 60 semester hours or 90 quarter hours of undergraduate course work
- proof of English proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

- TOEFL score of at least 550 (PBT) or 80 (iBT)
- IELTS overall band score of at least 6.5
- Pearson Test of English (PTE) score of at least 60

The School of Music does not offer conditional admission under any circumstances.

Application Requirements

Materials due by Oct. 1 for spring admission and Dec. 1 for fall admission:

- Graduate Education admission application and application fee: <https://students.asu.edu/graduate/admissions> (<https://students.asu.edu/graduate/admissions>)
- School of Music Application (including a resume, personal statement and repertoire list): <http://music.asu.edu/admissions/grad/applying/> (<http://music.asu.edu/admissions/grad/applying/>)
- prescreening recording: <http://music.asu.edu/admissions/auditions/prescreening.php> (<http://music.asu.edu/admissions/auditions/prescreening.php>)

Materials required to complete your application for faculty review and audition consideration:

- three letters of recommendation
- official transcripts
- GRE/MAT Scores
- piano pedagogy applicants: teaching demonstration video http://music.asu.edu/admissions/auditions/grad/piano_pedagogy.php (http://music.asu.edu/admissions/auditions/grad/piano_pedagogy.php)
- international applicants: proof of English proficiency <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Application Deadlines

The deadline for submission of the Graduate Education admission application, School of Music application and prescreening recording is Oct. 1 for spring admission and Dec. 1 for fall admission. For more information on application deadlines, see <http://music.asu.edu/admissions/deadlines> (<http://music.asu.edu/admissions/deadlines>). After receipt of complete application materials (including recommendation letters, transcripts and

English proficiency) and review of prescreening materials, an applicant may be invited for a live audition: <http://music.asu.edu/admissions/auditions/> (<http://music.asu.edu/admissions/auditions/>). GRE/MAT scores may be submitted after the Oct. 1 and Dec. 1 deadlines, but must be received before enrollment at ASU.

Music Education, MM (FAMUSEDMM)

Online Degree Search Title: Music Education (MM)

Campus: TEMPE

Program Description:

The MM in music education is designed for individuals interested in music teaching and learning in public and private schools, community education settings, early childhood programs, and adult education. Practicing teachers as well as community musicians and music educators interested in advanced studies in music teaching and learning may enroll. Students may elect courses in each part of the degree program and can design a course of study that meets their specific interests and needs. The degree provides opportunities to study full time, part time (through evening courses), in the summers only, or by combining full-time, part-time and summer study. Full-time students may complete the degree in as little as one year.

Degree Requirements: 32 credit hours and a written comprehensive exam.

The degree credit requirements are distributed as follows:

10 hours in music education core

10 hours in musicianship core

12 hours in specialization

Six credits may be transferred from another regionally accredited graduate institution. Up to nine credits may be taken prior to admission.

Additional information on degree requirements for all graduate music programs may be found on the checksheets posted here:

<http://music.asu.edu/students/grad/checksheets.php> (<http://music.asu.edu/students/grad/checksheets.php>).

Admission Requirements:

Applicants who meet the following requirements are eligible to apply.

- U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country
- B" (3.00 on a 4.00 scale) grade point average in the last 60 semester hours or 90 quarter hours of undergraduate course work
- proof of English proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency:

- TOEFL score of at least 550 (PBT) or 80 (iBT)
- IELTS overall band score of at least 6.5
- Pearson Test of English (PTE) score of at least 60

The School of Music does not offer conditional admission under any circumstances.

Application Requirements

- Graduate Education application and application fee: <https://students.asu.edu/graduate/admissions> (<https://students.asu.edu/graduate/admissions>)
- School of Music Application (including a resume): <http://music.asu.edu/admissions/grad/applying/> (<http://music.asu.edu/admissions/grad/applying/>)
- three letters of recommendation
- official transcripts
- proof of English proficiency (international applicants): <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Application Deadlines

Applications are accepted until all spaces are filled and reviewed on a rolling basis. Applicants are encouraged to complete their applications as early as possible. For more information on application deadlines, see <http://music.asu.edu/admissions/deadlines> (<http://music.asu.edu/admissions/deadlines>). To ensure prompt processing of applications, email MusicAdmissions@asu.edu (<mailto:MusicAdmissions@asu.edu>) after submitting an application.

Music Therapy, MM (FAMTHERMM)

Online Degree Search Title: Music Therapy (MM)

Campus: TEMPE

Program Description:

The MM in music therapy provides music therapists with graduate-level study in the theory and practice of music therapy. The degree fosters an expanded research perspective in music therapy, emphasizing community partnerships, community-based music therapy program development and external funding, that culminates in a graduate clinical project or thesis. Candidates for the program must hold the credential Music Therapist-Board Certified or a similar international music therapy credential. Candidates for the program must hold undergraduate degrees in either music or music therapy. Applicants who have completed a four-year Bachelor of Music in music therapy and received board certification from the Certification Board for Music Therapists qualify for the two-year track; applicants with an undergraduate degree in music (Bachelor of Music or Bachelor of Arts in music), but not in music therapy, qualify for the three-year track.

Degree Requirements: 33 credit hours including the required applied project course (MUE 586), and a written comprehensive exam, or 33 credit hours, a thesis and a written comprehensive exam, or 63 credit hours including the required applied project course (MUE 586), and a written comprehensive exam, or 63 credit hours, a thesis and a written comprehensive exam.

The degree credit requirements for the two-year track are distributed as follows:

16 hours in music therapy core
8 hours in other studies in music
9 hours in clinical cognate

Three-Year Track: In addition to the above requirements, the three-year track requires 30 hours of deficiency course work for a total of 63 credit hours, including the completion of an internship required for certification.

Additional information on degree requirements for all graduate music programs may be found on the checksheets posted here: <http://music.asu.edu/students/grad/checksheets.php> (<http://music.asu.edu/students/grad/checksheets.php>).

Admission Requirements:

Applicants who meet the following requirements are eligible to apply.

- Applicants must hold a U.S. bachelor's degree in music or music therapy from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country.
- Applicants must have achieved a "B" (3.00 on a 4.00 scale) grade point average in the last 60 semester hours or 90 quarter hours of undergraduate course work.

If an applicant's native language is not English (regardless of where they may now reside), they must provide proof of English proficiency: The School of Music does not offer conditional admission under any circumstances.

- TOEFL score of at least 550 (PBT) or 80 (iBT)
- IELTS overall band score of at least 6.5
- Pearson Test of English (PTE) score of at least 60

Application Requirements

- graduate admission application and application fee: <https://students.asu.edu/graduate/admissions> (<https://students.asu.edu/graduate/admissions>)
- School of Music application (including a resume and personal statement): <http://music.asu.edu/admissions/grad/applying/> (<http://music.asu.edu/admissions/grad/applying/>)
- three letters of recommendation

- official transcripts
- audition: http://music.asu.edu/admissions/auditions/grad/music_therapy.php (http://music.asu.edu/admissions/auditions/grad/music_therapy.php)
- international applicants: proof of English proficiency <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)

Application Deadlines

Applications are accepted until all spaces are filled and reviewed on a rolling basis. For more information on application deadlines, see <http://music.asu.edu/admissions/deadlines> (<http://music.asu.edu/admissions/deadlines>). Applicants are encouraged to apply and complete their applications as early as possible. To ensure prompt processing of applications, email MusicAdmissions@asu.edu (<mailto:MusicAdmissions@asu.edu>) after submitting an application. An in-depth interview emphasizing the applicant's music therapy philosophy, research activities and clinical interests will be scheduled after receipt of complete application materials. A phone interview may be arranged.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Performance (Collaborative Piano), MM (FACPIANOMM)

Online Degree Search Title: Piano, Collaborative (MM)

Campus: TEMPE

Program Description:

Students in the MM in performance, concentration in collaborative piano, perform with all instrumental areas and voice, focusing on collaborative endeavors such as art song recitals, instrumental duos and chamber music, operatic productions and participation in our large ensembles. Students refine specific pianistic skills while developing the knowledge and abilities to be skilled and sensitive musical collaborators. The opportunity to collaborate with music scholars, theorists, composers, educators and other performers provides students with a broad and well-rounded foundation for advanced careers in music.

Degree Requirements: 32 credit hours and a written comprehensive exam.

The degree credit requirements are distributed as follows:

18 hours in collaborative piano and performance (including four recitals)

14 hours of music history, music theory and electives

At least one year of college-level course work in either French, German or Italian and at least one of the following are required:

one semester of diction in each of the two other languages

one semester of language instruction in each of the two other languages

Language deficiencies must be made up during the first year of study.

Additional information on degree requirements for all graduate music programs may be found on the checksheets posted here:

<http://music.asu.edu/students/grad/checksheets.php> (<http://music.asu.edu/students/grad/checksheets.php>).

Admission Requirements:

Applicants who meet the following requirements are eligible to apply.

- U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country

Performance (Conducting), MM (HIPERCOMM)

Online Degree Search Title: Performance (Conducting) (MM)

Campus: TEMPE

Program Description:

The MM in performance with a concentration in conducting trains musicians for leadership positions in school, college and professional orchestras and wind bands. The program is appropriate for any musician (teacher or performer) who desires to obtain a position at the college and university level as a conductor of orchestras or wind bands and for public school teachers of orchestras and wind bands.

There are two tracks within this concentration. The wind band track is designed to meet the needs of the conductor focusing on band directing. Required courses are specific to conducting wind bands, and elective courses can be taken for further band study.

The orchestral track is designed to meet the needs of the conductor focusing on orchestral conducting. Required courses are specific to orchestral conducting, and elective courses provide additional opportunities for further orchestral study.

Degree Requirements: 32 credit hours including the required capstone course (MUP 596 and MUP 597).

Wind Band Track (32):

required core courses (14)

required track courses (11-12)

elective or research courses (4-5)

culminating experience: (2) MUP 596 Solo Performance

MUP 597 Solo Performance

Orchestral Track (32):

required core courses (15)

required track courses (11-12)

elective or research courses (3-4)

culminating experience (2) MUP 596 Solo Performance

MUP 597 Solo Performance

Admission Requirements:

Required for admission to the concentration is a U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country.

Admission criteria for the concentration are the same as for the Master of Music in performance, the degree in which this concentration resides, with one exception: an on-campus audition interview is required. As a preliminary step to an on-campus conducting audition, applicants will submit a video recording demonstrating conducting technique. Only those invited by the conducting faculty to audition in person will be allowed to do so. (An invitation to audition is based upon the preliminary video submission.)

Applicants who meet the following requirements are eligible to apply.

- U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution officially recognized by that country
- B (3.00 on a 4.00 scale) grade point average in the last 60 semester hours or 90 quarter hours of undergraduate course work
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency:

- TOEFL score of at least 550 (PBT) or 80 (iBT)
- IELTS overall band score of at least 6.5
- Pearson Test of English (PTE) score of at least 60

The School of Music does not offer conditional admission under any circumstances.

Application Requirements

Theatre, MA (FATHEAMA)

Online Degree Search Title: Theatre (MA)

Campus: TEMPE

Program Description:

The MA in theatre introduces students to graduate study in the field of theatre and performance studies and provides a broad base of knowledge in the areas of history and historiography, theory, literature and dramaturgy and practice. Students will have the opportunity to tailor their plan of study to specific research and artistic subject areas and will prepare a research thesis as the culmination of their studies. The program is designed for those who wish to later enter a PhD program, for K-12 educators seeking to expand and amplify their expertise, and for those seeking to advance their knowledge of theatre and performance studies.

Degree Requirements: 30 credit hours, a thesis and a written comprehensive exam.

This program consists of:

- 24 credit hours of graduate course work (15 credits of required courses and nine credits of electives)
- six credit hours devoted to a thesis, chosen by the student and approved by the student's faculty committee

Admission Requirements:

Applicants must submit a Graduate Education online application.

The deadline for application to the School of Film, Dance and Theatre is Feb. 15.

Students should provide:

- current curriculum vitae
- sample of scholarly writing
- statement of purpose*
- GRE general scores**
- three letters of recommendation from professionals familiar with their work
- proof of English language proficiency***

*The statement of purpose should address the student's background and experiences as they relate to the student's reasons for pursuing the doctorate; should describe the student's research interests; and should indicate future career goals.

**Subject scores are optional.

***Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill the requirements of Graduate Education, those of the School of Film, Dance and Theatre, and the Herberger Institute for Design and the Arts.

Theatre (Arts Entrepreneurship and Management), MFA (HITHEAEMFA)

Online Degree Search Title: Theatre (Arts Entrepreneurship and Management)

Campus: TEMPE

Program Description:

The MFA in theatre with a concentration in arts entrepreneurship and management provides students with the opportunity to learn as part of the unique cohort, MFA in theatre. The concentration teaches the skills of arts entrepreneurship, arts management and arts marketing within the context of the MFA in theatre degree, also grounding students in theories of performance, community-based arts and theatre history and literature. Thus, students develop a holistic understanding of the role of arts managers as enablers of art-making. Students can earn a concurrent certificate in nonprofit leadership and management.

Degree Requirements: 60 credit hours including the required applied project course (THP 693), a practicum and an oral comprehensive exam.

This program requires 60 credit hours, or 63 credit hours if the student applies for and concurrently pursues the Nonprofit Leadership and Management (NLM) graduate certificate.

core course credit hours (15)

concentration course credit hours (27)

elective or research course credit hours (12 or 15*)

culminating experience: applied project and written document with oral defense (3)

- other requirements:

THP 680 Practicum (1)

THP 680 Practicum (1)

THP 684 Internship (1)

*12 elective credit hours are required for the 60 credit MFA. However, if the student elects to pursue the NLM certificate concurrently, then she or he will need to take an additional three credit elective course in the NLM program to complete the certificate and degree requirements.

Admission Requirements:

Students must meet all admission requirements of Graduate Education.

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

In addition, the School of Film, Dance and Theatre requires a minimum of 30 undergraduate semester hours of course work in theatre, film, dance, music, art, or business with a minimum GPA of 3.20 overall.

For the concentration in arts entrepreneurship and management, requirements also include:

- three letters of recommendation from professionals who can speak to the potential for success in arts entrepreneurship or management
- resume
- sample of critical writing, such as a term paper or research project (in lieu of GRE scores)
- statement of educational and professional objectives
- sample of materials indicative of the candidate's potential to succeed as an arts entrepreneur or manager that might include, but are not limited to: publicity materials, marketing plans, budgets, stage management prompt books, grant proposals, business plans
- interview (interviews may be conducted on campus or remotely)

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Theatre (Directing), MFA (FADIRMFA)

Online Degree Search Title: Theatre (Directing) MFA

Campus: TEMPE

Program Description:

Admission to the directing, performance and performance design concentrations is cohort-based.

The MFA in theatre with a concentration in directing is a program for students who demonstrate serious purpose, professional aspirations, theatrical daring and the desire to explore new work in collaborating with playwrights and in the devising and creation process. Respect for fellow artists and a desire to learn about how all the parts fit together are essential qualities in the successful candidate and, indeed, the successful director. Students are introduced to varied critical viewpoints from select artists and scholars. A hands-on, mentor-student approach is emphasized, with the intent of developing the skill, artistry and communication skills required to be an excellent professional director.

Degree Requirements: 60 credit hours including the required applied project course (THP 693).

This is a three-year program culminating in an applied project. Practical directing and directing classes are approximately 50 percent of the course

Academic Catalog Archive 2014-2015 319

work. Classes also include:

- acting: viewpoints and composition
- assistant directing for a professional or faculty director working on the main stage
- design collaboration
- directing the new play
- dramatic theory and criticism
- dramaturgy
- performance technology
- projects in community-based drama
- re-envisioning
- research methods
- solo performance
- theatre for social change
- theatre history and literature
- theatre organization and management

MFA directors will direct a new work every year. Major assignments may include:

- creating and directing an adaptation of an existing work
- directing a new play by an MFA playwright
- directing one applied project in the main-stage season
- guiding an ensemble in the devising process and directing the resulting devised piece

Directing faculty mentor all student projects. Academic and artistic progress is evaluated at the end of each semester by a faculty committee. Program continuation is contingent upon a successful review. A professional internship is required for each MFA director.

Admission Requirements:

Students are admitted to this program every three years, forming a cohort with their colleagues in the other Master of Fine Arts programs in theatre practice; the next class will begin course work in 2014.

The deadline for application to the School of Film, Dance and Theatre is Jan. 15.

Applicants must submit a Graduate Education online application.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education, those of the School of Film, Dance and Theatre and the Herberger Institute for Design and the Arts.

In addition to the requirements outlined on the Graduate Education website, the School of Film, Dance and Theatre requires additional application components for the Master of Fine Arts in theatre, directing concentration, including:

- a personal interview
- a statement of purpose
- a current resume
- a written directorial approach to a play selected by the reviewing committee
- three letters of reference from professionals familiar with the student's work

Theatre (Dramatic Writing), MFA (FADRWRTMFA)

Online Degree Search Title: Theatre (Dramatic Writing) MFA

Campus: TEMPE

Program Description:

The concentration in dramatic writing under the MFA in theatre will include course work in playwriting, screenwriting, historical studies in theatre, dramatic theory, directing new work, literary management, electives and related topics such as writing for solo performance, storytelling, devising and collaborative writing.

The School of Film, Dance and Theatre's support for the production of new plays and performance works written by its Master of Fine Arts students is an aspirational model for other institutions. Student-written work is highlighted in the annual new works series.

Degree Requirements: 60 credit hours including the required applied project course (THP 693).

The program is composed of the following:

required core courses (27)

required concentration courses (9)

elective courses (18)

applied project (6)

The student will write a thesis play as the applied project, which will be developed as one of the following:

- a full production on the school's main stage
- a staged reading
- a workshop production

Admission Requirements:

Potential students must meet all admission requirements of Graduate Education. In addition, applicants should have an undergraduate major in theatre or in creative writing, with a GPA of 3.00 or above. An applicant may have an undergraduate degree outside of theatre or film and may be admitted on the basis of excellent creative writing and academic work. Deficiencies in undergraduate preparation may be removed while pursuing the MFA degree.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Applicants must submit the following:

- three letters of recommendation
- current resume
- statement of career goals and a profile of your writing endeavors or interests
- manuscript sample of one of the following: a full-length play (60 pages or over) or a series of one-act plays (30 pages minimum)

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Theatre (Interdisciplinary Digital Media), MFA (FATHEADMFA)

Online Degree Search Title: Theatre (Interdisciplinary Digital Media) (MFA)

Campus: TEMPE

Program Description:

This graduate concentration is offered through the School of Film, Dance and Theatre in collaboration with the School of Arts, Media and Engineering. It focuses on the growing importance of digital media as a way of making and thinking about art. School of Arts, Media and Engineering courses and research activities prepare students to become sophisticated developers, makers, evaluators and entrepreneurs of digital media, while at the same time completing a sequence of core courses in theatre.

Degree Requirements: 60 credit hours including the required applied project course (THP 693).

The degree requirements are:

- a minimum of 18 hours in core School of Arts, Media and Engineering courses, to be selected in consultation with each student's School of Arts, Media and Engineering graduate advisor
- 15 hours in research and applied project credits

- 27 hours of core courses in theatre theory, history and practice

The overall course of study is developed with the advisor to ensure a breadth of transdisciplinary knowledge.

Admission Requirements:

The deadline for application to the School of Film, Dance and Theatre is Feb. 15, but please note that for financial aid purposes, the School of Arts, Media and Engineering deadline is Feb. 1.

- Applicants must submit a Graduate Education online application.
- Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill the requirements of Graduate Education and those of the School of Film, Dance and Theatre; the School of Arts Media and Engineering and the Herberger Institute for Design and the Arts.

The School of Film, Dance and Theatre requires the following additional application materials for the master's in interdisciplinary digital media:

- a current resume
- a portfolio of materials that support the statement of purpose (writing samples, electronic performance materials, etc.)
- a statement of purpose detailing the applicant's background in theatre, as well as the applicant's interest in and suitability for work in the interdisciplinary of theatre and digital media
- three letters of recommendation from professionals familiar with the applicant's work

Theatre (Performance Design), MFA (FAPERDMFA)

Online Degree Search Title: Theatre (Performance Design) MFA

Campus: TEMPE

Program Description:

Admission to the directing, performance and performance design concentrations is cohort-based.

ASU offers a strenuous and innovative MFA in theatre with a concentration in performance design program that focuses on a nontraditional approach to design training in preparation for the theatrical design challenges of the future. The design student works with an ensemble of designers, directors and performers to create new projects that redefine the role of the traditional designer.

Skills for approaching and creating new work include:

- design applications in multimedia
- development of artistic entrepreneurship and integrity
- drafting and computer imaging
- new work development

Performance design students work in multiple venues, including the 481-seat Galvin Playhouse, 164-seat Lyceum Theatre, two studios and one experimental space. In addition, students work in the shops, a design studio and a computer-imaging lab.

Degree Requirements: 60 credit hours including the required applied project course (THP 693).

This is a three-year program culminating in an applied project.

- Academic and artistic progress is evaluated at the end of each semester by a faculty committee.
- A professional internship is required and can be fulfilled anytime after the first year of study.
- Students conclude with an applied ensemble design project suited to their needs and interests.
- The first year is dedicated to creating an ensemble, as well as honing the skills needed to visually communicate ideas to a director and audience.
- The second year concentrates on new work development that will culminate in a tour. This year also concentrates on strengthening design abilities.
- The third year serves as a bridge between the educational and professional theatre and the communities they serve.

Program continuation is contingent upon a successful review.

Admission Requirements:

Students are admitted to this program every three years, forming a cohort with their colleagues in the other Master of Fine Arts programs in theatre practice; the next class will begin course work in 2014.

Students must fulfill both the requirements of Graduate Education, those of the School of Film, Dance and Theatre and the Herberger Institute for Design and the Arts.

The deadline for application to the School of Film, Dance and Theatre is March 15.

Applicants must submit a Graduate Education online application.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

The School of Film, Dance and Theatre requires the following additional application components:

- academic writing sample
- current resume
- personal interview
- portfolio of 10 samples of visual work to be presented at interview
- three letters of recommendation from professionals familiar with the student's work
- written statement of purpose

Theatre (Performance), MFA (FAPERFMFA)

Online Degree Search Title: Theatre Performance (MFA)

Campus: TEMPE

Program Description:

The MFA in theatre, concentration in performance re-envision the role of the artist in society focusing on the devising and development of new work. The program stresses an actor-creator model as well as fostering a critical, conceptual thinker and collaborator by offering skills for developing artistic entrepreneurship, innovating performance applications in multimedia and interdisciplinary collaboration, informed by artistic integrity and social responsibility.

The school offers multiple approaches to new work development:

- connected motion
- devising
- Fitzmaurice voicework
- Lecoq
- new play development
- performance technology
- rasaboxes
- solo and collaborative performance
- Viewpoints

In addition to core physical and vocal training, the program offers a rich variety of guest artists each semester, undergraduate level teaching opportunities, study abroad opportunities, funding for national and international conference travel, and career development internship opportunities.

During the third year of study, candidates conduct professional career development internships. In the past, students have completed internships at:

- Chicago Dramatist Theatre
- Cleveland Playhouse
- Dah Theatre, Belgrade, Serbia
- Hartford Stage

- North Coast Rep
- One Yellow Rabbit
- SITI Company
- Synetic Theatre
- Theatre L'Homme Dieu
- The Bali Purnati Art Centre
- Victory Gardens

Eight performers will be admitted to the cohort every three years.

Degree Requirements: 60 credit hours including the required applied project course (THP 693).

This is a three-year program culminating in an applied project.

- The first year is dedicated to intensive movement; acting and Fitzmaurice voice training; ensemble building and devising with a focus on Lecoq, Rasaboxes, Viewpoints, and Meisner. The year will culminate in a final site-specific show case performance.
- Second-year training provides opportunities for students to explore their work in a wide range of performance modalities such as community-embedded drama, performance art, solo performance, performance and technology, devising, and working with guest artists. Performers collaborate with the MFA designers, directors, and playwrights to devise a new scripted performance for the mainstage season.
- The third year culminates in an applied performance project serving as a bridge between the educational and professional worlds and the communities they serve.

Students conclude their graduate studies with an applied performance project, specifically suited to their needs and interests. Academic and artistic progress is evaluated at the end of each semester by a faculty committee. Program continuation is contingent upon a successful review. A professional career development internship is required.

Admission Requirements:

Applicants must submit a Graduate Education online application. An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Students are admitted to this program every three years, forming a cohort with their colleagues in the other Master of Fine Arts programs in theatre practice. The next class will begin course work in 2014. The deadline for application to the School of Film, Dance and Theatre is March 15.

The School of Film, Dance and Theatre requires additional application components for the Master of Fine Arts in theatre (performance):

- current resume
- statement of purpose
- academic writing sample
- an audition
- an interview, either on campus or at one of the university or resident theatre association sites
- three letters of recommendation from professionals familiar with the student's work

Students must fulfill both the requirements of Graduate Education and those of the School of Film, Dance and Theatre.

Theatre (Theatre For Youth), MFA (FAYOUTHMFA)

Online Degree Search Title: Theatre for Youth (MFA)

Campus: TEMPE

Program Description: This MFA program educates artists, teachers, scholars and advocates to take a leading role in the future of theatre. With a dual focus on working with young people and serving a diverse global community, students are equipped with the skills, knowledge, and understanding to become national and international leaders in the field.

Students are prepared for careers in professional theatre as artists or education directors, specialists in arts organizations, or as teachers in

elementary or secondary education.

Students who have pursued the theatre for youth concentration under the MFA in Theatre have also frequently applied and obtained an Arizona State Teacher Certification or graduate certificates in nonprofit leadership and management or socially engaged practice in design and the arts outside of this degree program.

Degree Requirements: 60 credit hours including the required applied project course (THP 693), a written comprehensive exam and an oral comprehensive exam.

This is a three-year program. Required core courses are supplemented by elective courses in an emphasis area. The emphasis areas prepare students for careers in professional theatre, as artists or education directors, specialists in arts organizations or as teachers in elementary or secondary education. An internship with a professional theatre company, school or arts organization and a final applied project complete the program.

Admission Requirements:

Each year, four applicants are selected.

Applicants must submit:

- a Graduate Education online application and fee
- GRE exam scores
- immunization records
- international student visa information
- proof of English language proficiency*
- transcripts

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the School of Film, Dance and Theatre, and the Herberger Institute for Design and the Arts. The deadline for application to the School of Film, Dance and Theatre is Feb. 1.

The following additional application components are also required:

- current resume
- statement of purpose clearly explaining the applicants aesthetic and educational philosophies and future career goals**
- an interview***
- three letters of recommendation from professionals familiar with the applicant's work

**After reading these statements, the faculty should understand not only applicants' current passions, but also why the theatre for youth program at ASU would be an appropriate fit to meet students' educational, practical and scholarly goals. The program accepts thoughtful, well-informed artists, scholars, educators and citizens.

***Applicants are invited to a group interview date, normally scheduled on the first Friday of February.

Theatre (Theatre For Youth), PHD (FAYOUTHPHD)

Online Degree Search Title: Theatre for Youth (PhD)

Campus: TEMPE

Program Description:

This PHD program educates artists, teachers, and scholars to take a leading role in the future of theatre. With a dual focus on working with young people and serving a diverse global community, we equip our students with the skills, knowledge, and understanding to become national and international leaders in the field.

Graduates are prepared for careers as leading academics and researchers in the fields of theatre, theatre education, youth studies and related fields.

Degree Requirements: 90 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The concentration in theatre for youth requires:

- a core of 30 credit hours
- 24 credit hours in research and dissertation preparation
- courses in research methodology, approved by the supervisory committee (six credit hours).*

*Where appropriate, the supervisory committee may approve certification of literacy in a foreign language as meeting this research methodology requirement. This approval is granted only in those circumstances wherein fluency in that language is necessary for the dissertation research.

In meeting these requirements, students, with the advice of the supervisory committee, may select theatre courses in areas such as:

- community-based theatre
- theatre education
- theatre for social change
- theatre history
- theatre theory and criticism
- tutorial courses

Students may also take courses outside the School of Film, Dance and Theatre in areas such as:

- area studies
- aesthetic theory
- children's literature
- critical and cultural studies
- educational theory and methodology
- languages and literatures
- the arts and arts education

All activities are selected to help students meet the goals of the program and develop the capability of becoming leaders in the field.

Additional Requirements:

- preliminary reviews of a student's performance in courses and development of research skills, artistic skills and teaching competencies conducted by the supervisory committee at the end of each semester
- comprehensive examinations composed of written and oral components centering on theatre history, literature and criticism, theatre for youth and theatre education and the research area
- dissertation developed from an approved prospectus, based on original research work of high quality, demonstrating proficiency in the student's special field and adding new knowledge

Admission Requirements:

Applicants must submit:

- a Graduate Education online application
- application fee
- GRE exam
- proof of immunizations
- international student visa information
- proof of English language proficiency*
- transcripts

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of the Graduate Education and those of the School of Film, Dance and Theatre.

The deadline for application to the School of Film, Dance and Theatre is Jan. 15.

The School of Film, Dance and Theatre requires additional application components for the doctoral program in theatre with a concentration in theatre for youth:

- an interview
- current curriculum vitae

- sample of scholarly writing
- statement of purpose, which should explain the applicant's research, artistic and educational philosophies and goals, as appropriate to the applicant's desired focus in the doctoral program; explain also how study in the ASU theatre for youth program might particularly suit these goals and philosophies
- three letters of recommendation from professionals familiar with the applicant's work that should address, specifically, the applicant's potential for success in a doctoral program

Theatre (Theatre/Performance Americas), PHD (FAPERAMPHD)

Online Degree Search Title: Theatre (Performance America) PhD

Campus: TEMPE

Program Description:

The PhD in theatre with a concentration in theatre and performance of the Americas trains scholars to examine the histories, theories and practices associated with cultural performance, from a hemispheric point of view. Through course work, seminars, research and study opportunities, doctoral students work from diverse critical perspectives that mobilize thought across geographical and disciplinary borders. They develop skills to re-examine and interrogate the canon of theatre as text and as performance, expanding the traditional boundaries of theatre studies in two ways: via a perspective that considers the shared histories and practices of theatre and performance in the Americas as central to an intervention in traditionally narrated histories and theories of theatre; and via the methodologies of cultural and performance studies that accommodate other forms of embodied expression related to, but distinct from, formal theatrical expression.

The course of study is designed to provide substantive historical and theoretical grounding in the field, while allowing flexibility in the choice of specialized seminar and practical experiences. The first year of study immerses students in the theoretical and practical groundwork of performance research, in general, and modalities of performance in the Americas, in particular. In the second year, students build on research interests identified in the first year, through specialized course work and practical experience.

Degree Requirements: 90 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

A total of 60 credit hours are required after completion of a master's in a relevant discipline.

The concentration in theatre and performance of the Americas consists of:

- a core of 24 hours
- 12 hours of electives, two of which must come from outside the school (as approved by the supervisory committee)
- 24 hours of research and dissertation preparation

In meeting these requirements, students, with the advice of the supervisory committee, may select theatre courses in areas such as:

- community-based theatre
- dramaturgy
- theatre for social change
- theatre history
- theatre theory and criticism
- topics seminars

Students may also take courses outside the School of Film, Dance and Theatre in areas such as critical and cultural studies, area studies, languages and literatures, and aesthetic theory. All activities are selected to help students meet the goals of the program and develop the capability of becoming leaders in the field.

Preliminary Reviews

Reviews of the student's performance in courses and development of research skills, artistic skills and teaching competencies are conducted by the supervisory committee at the end of each semester.

Comprehensive Examinations

Examinations are composed of written and oral components centering on theatre history, literature and criticism, theatre and performance of the Americas and the research area.

Dissertation Requirements

A dissertation based on original high-quality research work demonstrating proficiency in the student's special field is required.

Admission Requirements:

Applicants must submit a Graduate Education online application.

Students must fulfill both the requirements of Graduate Education, including those regarding English proficiency, and those of the School of Film, Dance and Theatre.

The deadline for application to the School of Film, Dance and Theatre is Jan. 15.

The School of Film, Dance and Theatre requires additional application components:

- current curriculum vitae
- sample of scholarly writing
- statement of purpose*
- GRE exam scores
- three letters of recommendation from professionals familiar with the student's work

*The statement of purpose should address the student's background and experiences as they relate to the student's reasons for pursuing the doctorate; should describe the student's research interests; and should indicate future career goals.

An interview is strongly recommended.

Please note only students who have already earned a master's in a relevant area are accepted.

Urban Design, MUD (ARMUDMUD)

Online Degree Search Title: Urban Design (MUD)

Campus: TEMPE

Program Description:

Situated within The Design School, the MUD program is a transdisciplinary postprofessional graduate program integrating newly emerging research and applied practices from the disciplines of architecture, landscape architecture, ecology, law, civil engineering, planning, public programs, systems theory and real estate development with the ever changing realities of our larger world. The program leverages our local Arizona conditions --- our rapidly urbanizing metropolis, arid climate, cultural diversity and our New American University --- toward the development of responsible global initiatives and innovative design strategies for urban environments.

The curriculum is built around the analysis and understanding of contemporary urban conditions specific to rapidly urbanizing and arid regions of the world. Students are encouraged to pursue concurrent graduate degrees within The Design School.

Degree Requirements: 45 credit hours and a thesis, or 45 credit hours including the required applied project course (MUD 593), or 45 credit hours including the required capstone course (MUD 622).

Master of Urban Design (MUD) Degree Requirements:

First Year

Fall

MUD 590 Advanced Urban Design Studio I (5)

MUD 598 Urban Design Elements(3)

Design Professional Elective (3)

Spring

ATE 598 Topic: Sustainability of the Built Environment (3)

MUD 591 Advanced Urban Design Studio II (5)

MUD 598 Urban Design Issues (3)

Summer (recommended but not required)

Professional Internship or Design Professional Elective or Design School International Study Abroad Program (3)

Second Year

Fall

MUD 621 Advanced Urban Design Studio III (5)

MUD 692 Research (3)

Design Professional Elective (3)

Spring

MUD 622 Advanced Urban Design Studio IV, or MUD 599 Thesis, or MUD 593 Applied Project (5)

Design Professional Elective (3)

Urban Design Professional Elective (3)

Total credit hours in program: 45

Admission Requirements:

Applicants must submit a Graduate Education online application.

Applicants who hold a studio based four-year undergraduate design degree will be considered for the two-year MUD program. The MUD is a postprofessional program.

Program Admission Requirements

- Applicants must hold an undergraduate or graduate degree from a college or university recognized by ASU in a studio-based design discipline.
- Applicants must meet the minimum GPA requirements as established by Graduate Education.
- Applicants must provide an official copy of GRE scores (unofficial copies will not be accepted). For more information, visit the GRE website or <https://uoeee.asu.edu/testing> (<https://uoeee.asu.edu/testing>).
- Applicants whose native language is not English (regardless of where they may now reside) are required to submit an official Test of English as a Foreign Language (TOEFL) score of at least 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found on the Graduate Education website at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).
- A portfolio, letter of intent, and contact information for three references need to be submitted to SlideRoom (<https://asuherberger.slideroom.com>) (<https://asuherberger.slideroom.com>). The Design School requires that these be submitted in addition to the Graduate Education application requirements.

Students must fulfill both the requirements of Graduate Education and those of the Herberger Institute for Design and the Arts.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

Applicants may be admitted to the two-year program with deficiencies if their previous course work is not equivalent to the ASU undergraduate requirements and standards. Deficiencies must be completed prior to taking the required courses, if necessary. Please keep in mind that this may cause the student to take longer than two years to complete the program.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the department.

Campus: TEMPE

Program Description:

The MVCD degree is a 60-credit-hour studio-based degree program. Students of this program work on strategic visual communication design projects with a focus on the development of visual language systems firmly grounded on the principles of information design, typography and interaction design. Students engage in visual and theoretical research, ideation, visualization, prototyping and testing of creative solutions that address critical problems faced in the contemporary visual world. Graduates of this program are adept in working with fundamental principles of visual communication design, emotional intelligence and systems thinking in problem identification and its appropriate contextual solutions. The graduates pursue professional practice in visual communication and multimedia industry as well as academia.

Degree Requirements: 60 credit hours including the required capstone course (GRA 622).

Two-year track

core: 43 credit hours

electives: 6 credit hours

internship: 6 credit hours (DSC 598, GRA 584)

capstone: 5 credit hours (GRA 622)

Three-year track

deficiency courses: 21 credit hours

graduate courses, internship and a capstone course: 81 credit hours

Admission Requirements:

All applicants must complete the Graduate Education online application.

Admissions Requirements to the Two-Year Program

- All applicants must hold an undergraduate or graduate degree from a college or university recognized by ASU.
- All applicants must have completed a minimum of a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing in visual communication design or graphic design.
- All applicants must meet the minimum GPA requirements as established by Graduate Education.
- Applicants whose native language is not English (regardless of where they may now reside) are required to submit an official Test of English as a Foreign Language (TOEFL) score of at least 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found on the Graduate Education website at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).
- A portfolio, letter of intent and contact information for three references need be submitted to SlideRoom (<https://asuherberger.slideroom.com>) (<https://asuherberger.slideroom.com>). The Design School requires that these be submitted in addition to the Graduate Education application requirements.

No GRE test is required.

Admissions Requirements to the Three-Plus-Year Program

- All applicants must hold an undergraduate or graduate degree from a college or university recognized by ASU.
- All applicants must have earned a bachelor's degree (or equivalent) in a field other than in visual communication design or graphic design.
- All applicants must meet the minimum GPA requirements as established by Graduate Education.
- Applicants whose native language is not English (regardless of where they may now reside) are required to submit an official Test of English as a Foreign Language (TOEFL) score of at least 80 (Internet-based) or 550 (paper-based). Other information for international applicants can be found at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).
- A portfolio, letter of intent and contact information for three references need be submitted to SlideRoom (<https://asuherberger.slideroom.com>) (<https://asuherberger.slideroom.com>). The Design School requires that these be submitted in addition to the Graduate Education application requirements.

No GRE test is required.

Students must fulfill the requirements of both Graduate Education and those of the Herberger Institute for Design and the Arts.

Admission to the program is selective. Admission cannot be deferred; students must enroll in the semester for which they are admitted, otherwise they will need to go through the entire application process again for the year in which they are applying.

Applicants may be admitted to the two-year program with deficiencies if their previous course work is not equivalent to the ASU undergraduate requirements and standards. Deficiencies must be completed prior to taking the required courses, if necessary. Please keep in mind that this may cause the student to take longer than two years to complete the program.

A personal interview is not required; however, a candidate wishing to visit the school is welcome and should make arrangements by contacting the Academic Catalog Archive 2014-2015 330

department.

Engineering, Ira A. Fulton Schools of

Aerospace Engineering, MS (ESAEROSPMS)

Online Degree Search Title: Aerospace Engineering (MS)

Campus: TEMPE

Program Description:

The aerospace engineering MS program offers two track options: a thesis option and a nonthesis option.

The nonthesis option has two possible culminating experiences: a portfolio or an applied project. The applied project option requires a faculty advisor.

All students are admitted to the nonthesis option unless a faculty thesis advisor is secured, at which time the student can initiate a change to the thesis option.

Degree Requirements: 30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (MAE 593).

The plan of study, or iPOS, must be in accordance with university and program requirements. A minimum cumulative GPA of 3.00 is required throughout the program. Candidates for the program must complete a minimum of 30 credit hours of courses at the 500 level and above, with a minimum cumulative GPA of 3.00 or above in the following courses:

- at least 12 credit hours of graduate MAE course work (500 level and above) for thesis students, and at least 15 credit hours of graduate MAE course work (500 level and above) for nonthesis students
- at least six credit hours of graduate mathematics-oriented courses (500 level and above)
- at least six credit hours of additional graduate (500 level and above) courses, which are not restricted to MAE courses or to other technical electives*
- six credit hours of MAE 599 Thesis for thesis students or up to six hours of MAE 593 Applied Project for applied project students, or three hours of additional graduate electives (500 level and above) for portfolio students**

A final defense of the thesis will be required for students in the thesis option.

*A maximum of 3 credit hours of MAE 584 Internship may be counted toward this requirement.

**These additional three hours of graduate electives are not restricted to MAE courses.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Aerospace Engineering (Aeronautics), BSE
- Aerospace Engineering (Astronautics), BSE
- Aerospace Engineering (Autonomous Vehicle Systems), BSE
- Mechanical Engineering, BSE
- Mechanical Engineering (Computational Mechanics), BSE
- Mechanical Engineering (Energy and Environment), BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Admission to the aerospace engineering graduate program is highly competitive. To be considered for admission to the master's program, the student must submit these items:

- online Graduate Education application
- application fee
- official GRE score
- proof of English language proficiency*
- official transcripts from all prior institutions attended
- personal statement
- resume or curriculum vitae
- three letters of recommendation

*Applicants whose native language is not English (regardless of where they may now reside) are required to achieve a minimum score of 80 on the Internet-based Test of English as a Foreign Language (TOEFL).

Students must fulfill both the requirements of Graduate Education and the Ira A. Fulton Schools of Engineering.

Application priority deadlines are Jan. 15 for fall semester and Aug. 1 for spring semester.

Aerospace Engineering, PHD (ESAERSPPHD)

Online Degree Search Title: Aerospace Engineering (PhD)

Campus: TEMPE

Program Description:

The PhD program in aerospace engineering accommodates individual interests and encourages independent and innovative study. Students are part of a diverse intellectual community dedicated to advancing the state of the art and practice of aerospace engineering.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

84 credit hours

qualifying exam

written and oral comprehensive exams

prospectus

dissertation

All students pursuing the PhD are required to pass both a qualifying and a comprehensive examination administered by the program committee. In addition:

course work directly related to the research area (18)

mathematics (9)

graduate courses outside the major research area (9)

MAE 792 Research

MAE 799 Dissertation credit hours (12)

Students in the PhD program who have not completed an MS degree previously will be allowed to apply for a Master of Science in Passing (MSP) after successfully completing the comprehensive exams.

Admission Requirements:

Admission to the aerospace engineering doctoral program is highly competitive. Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

To be considered for admission to the program, the student must submit these items:

- Graduate Education application
- application fee
- GRE scores
- official transcripts from all prior institutions attended
- personal statement
- resume or curriculum vitae

- proof of English language proficiency*
- three letters of recommendation

*Students whose native language is not English are required to achieve a minimum of score of 80 on the Internet-based Test of English as a Foreign Language (TOEFL).

Application priority deadlines are Jan. 15 for fall admission and Aug. 1 for spring admission.

Aerospace Engineering (Engineering Education), PHD (ESAEEEDPHD)

Online Degree Search Title: Aerospace Engineering (Engineering Education) PhD

Campus: TEMPE

Program Description:

The PhD in aerospace engineering with a concentration in engineering education will prepare students to become scholars, researchers or practitioners in academia. The concentration provides students with an opportunity to explore pedagogy, methodology, curriculum and instruction and apply it to engineering.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

credit hours of course work directly related to the research area (18)

credit hours of courses in methodology, curriculum and instruction (15)

credit hours of mathematics courses (9)

credit hours of additional course work and research related to dissertation (30)

prospectus

dissertation (12)

written and oral comprehensive exams

Admission Requirements:

To be considered for admission to the doctoral program the student must submit these items:

- Graduate Education application
- application fee
- GRE scores
- official transcripts from all prior institutions attended
- personal statement
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency*

*An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Applications are due Jan. 31 for fall admission and July 1 for spring admission.

Applied Ethics and the Professions (Ethics and Emerging Technologies), MA

(LAAEPEETMA)

Online Degree Search Title: Applied Ethics (Ethics and Emerging Technologies) MA

Campus: TEMPE

Program Description:

The purpose of this program is to examine ethical challenges posed by emerging technologies, including nanotechnology, neurotechnology, biotechnology, robotics and advanced information and communication technology. Not only are these technologies being developed at an unprecedented pace, they also share several unique characteristics, including system complexity, social embeddedness and the potential to converge with one another. Emerging technologies will change how humans live and work and have the potential to alter the very nature of human existence. Questions considered by courses in the program include:

- emerging technologies and public policy
- ethical responsibilities of professionals engaged in development of emerging technologies
- promise and perils of emerging technologies
- whether traditional ethical concepts and processes can and should be applied to emerging technologies

Degree Requirements: 30 credit hours including the required applied project course (AEP 593).

Graduate course work is distributed as follows:

required core courses (6)

required concentration course (3)

elective concentration courses (15)

required culminating experience as capstone courses (6)

Admission Requirements:

All applicants must submit the Graduate Education online application and meet both the Graduate Education and program admission criteria. The following documents are required for the application process:

- official GRE scores are to be sent directly to Graduate Education
- official transcripts from all postsecondary institutions attended are to be sent directly to Graduate Education
- statement of interest in applied ethics and career goals
- three letters of recommendation

Applicants whose native language is not English (regardless of where they may now reside) must demonstrate proficiency in the English language by meeting the Graduate Education English proficiency requirements. Applicants required to demonstrate English proficiency and seeking a teaching assistantship must demonstrate proficiency in spoken English; a score of 55 or better on the Speaking Proficiency English Assessment Kit (SPEAK) or a score of 26 on the speaking portion of the Test of English as a Foreign Language (TOEFL) is required.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Applied Psychology, MS (ECAPSYCHMS)

Online Degree Search Title: Applied Psychology (MS)

Campus: POLY

Program Description:

The MS in applied psychology in the Ira A. Fulton Schools of Engineering provides students with opportunities for practical experience in diverse organizations and laboratories as well as internships in a variety of settings. The program is hands-on and challenging, and the field is growing quickly, creating opportunities for further study and employment. The areas of application include the following:

- consumer psychology
- human factors and user experience design
- industrial and organizational psychology

- learning design

Recent graduates are working at places like Intel, Boeing, GoDaddy, Mayo Clinic, PayPal, Motorola, Google and the Air Force Research Lab. Recipients of our master's degree have also gone on to pursue a doctorate at ASU and other prestigious institutions.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (PSY 593).

This master's requires the completion of 30 credit hours with a grade point average of 3.00 ("B" grades) or higher. Students have the option of doing a thesis or an applied project to develop and demonstrate professional knowledge and skills. Students who plan to go on to a doctoral program are encouraged to complete a thesis.

Students selecting the thesis option will, under faculty supervision, work on the thesis for at least one calendar year. The first three thesis credits will be devoted to developing an idea and preparing a proposal for approval by a faculty committee. The next three credits will allow for preparing the details of research design and data collection for the thesis (materials, computer programs, experimental text beds, questionnaires, etc.). The final six credits will be devoted to collecting and analyzing data and writing and revising the thesis under the direction of the student's committee chair. Students will defend the thesis in an oral examination.

Students selecting the applied project option will, under faculty supervision, allocate the 12 credit hours to a combination of research, practicum, project activities and report writing appropriate to the goals of the student and the program and the availability of practicum or internship opportunities. In all cases, the project will culminate in a substantial written report followed by a comprehensive oral examination covering the project and other materials from required courses.

Admission Requirements:

The following is required of applicants to complete an application file. Incomplete files will not be reviewed or considered until complete.

- a bachelor's in psychology or a related field (including engineering, computer science or business)
- an online Graduate Education application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English*
- official GRE general exam scores
- statement of purpose describing professional and academic aspirations
- three letters of recommendation from college professors, employers (in a human factors related field) or a combination of both academic and professional references

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. International applicants can find complete information on the English proficiency exams and other required documents on the Graduate Education website: <http://graduate.asu.edu/international> (<http://graduate.asu.edu/international>).

For best consideration, the deadline is Feb. 1 for fall applications and Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Applicants to this program generally have completed an undergraduate course in statistics.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Biological Design, PHD (GCBDSPHD)

Online Degree Search Title: Biological Design (PhD)

Campus: TEMPE

Program Description:

The doctoral program in biological design seeks to develop a new type of scientist by training students in core disciplines related to biomedicine and biotechnology while simultaneously preparing them to participate successfully in the interdisciplinary research teams of the future.

The research emphasis is on projects that are use-inspired, contributing directly to solutions for important societal challenges. This is a highly
Academic Catalog Archive 2014-2015 335

mentored program of personalized study that provides significant interaction with the large and vibrant local research community. Students are expected to complete the program in four to five years.

The key distinguishing features of the curriculum are:

- a personalized plan of study that allows students to explore the disciplinary and interdisciplinary areas of greatest interest
- a two-semester core course sequence that will provide core training in relevant bio-related areas
- encouragement to choose dissertation research projects that are use-focused, contribute to solving a large-scale challenge and promise rich interdisciplinary experiences
- opportunities to participate in special seminars and outreach activities to encourage broad research interactions
- three 10-week laboratory rotations during the first year of study*

*Rotations can be in any ASU laboratory provided it is centered largely on biological research.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required course work includes:

BDE 701 Fundamentals of Biological Design I (9)

BDE 702 Fundamentals of Biological Design II (3)

BDE 721 Integrative Research (3)

BDE 722 Research Design (3)

BDE 751 Teaching in Science (2)

BDE 791 Seminar (total of 4 credits minimum)

BDE 792 Research (1 credit minimum every semester)

BDE 799 Dissertation (12)

Specialized Disciplinary Courses (total of 6 credits minimum)

Admission Requirements:

Applications for the biological design graduate program are taken and processed through ASU Graduate Education. The application deadline for the program is Jan. 1.

Applicants must submit an online Graduate Education application.

Before submitting the online application, candidates should prepare the following documents:

- GRE test scores: The institution code for ASU is 4007 and the departmental code is 0000. Subject test scores are also recommended but not required.
- Letters of Recommendation: Three letters of recommendation relative to the candidate's academic career are required.
- Personal statement: This document should reflect the candidate's career and educational goals and should explain why they are interested in pursuing this degree.
- Resume: The resume should include prior research and employment experience, honors, awards, memberships held, publications, etc.

For additional Graduate Education application requirements, including transcripts, fees and international application requirements, please see the Graduate Education website.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Biomedical Engineering, MS (ESBIOENMS)

Online Degree Search Title: Biomedical Engineering (MS)

Campus: TEMPE

Program Description:

The School of Biological and Health Systems Engineering faculty offer a graduate program leading to the MS in biomedical engineering.

Areas of study include:

biomaterials, biosensors, biomarkers and biomimetic materials

- biomedical imaging
- molecular, cellular and tissue engineering
- neural and rehabilitation engineering
- synthetic and systems biology

Biomedical engineering offers both thesis and applied project master's degrees to those students who meet the criteria for successful graduate study.

Biomedical engineering offers a joint BSE and applied project MS in the biomedical engineering degree program. The program allows up to twelve credit hours of graduate-level course work taken as technical electives during the senior year to be applied toward the undergraduate and graduate degrees.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (BME 593).

All candidates pursuing a master's in biomedical engineering are required to complete an approved plan of study. Special course requirements for the different areas of study are established by the faculty.

Candidates whose undergraduate degree is in a field other than biomedical engineering may be required to complete more than the required credit hours of the program of study.

The following are program requirements for the applied project option, for a total of 30 credits:

applied project (3)

biomedical engineering course work (13)

biomedical engineering seminar (2)

general electives (6)

quantitative electives (6)

The following are program requirements for the thesis option, for a total of 30 credits:

biomedical engineering course work (9)

biomedical engineering seminar (3)

general electives (6)

quantitative electives (6)

thesis (6)

Accelerated Degrees:

This degree is also offered as an accelerated degree with Biomedical Engineering, BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

In addition to the general requirements for admission to Graduate Education, applicants must submit the following directly to Graduate Education:

- an online Graduate Education application
- official GRE scores
- resume or curriculum vitae
- a statement of purpose
- two letters of recommendation
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Biomedical Engineering, PHD (ESBIOENPHD)

Online Degree Search Title: Biomedical Engineering (PhD)

Campus: TEMPE

Program Description:

The School of Biological and Health Systems Engineering faculty offer a graduate program leading to the PhD in biomedical engineering.

Areas of study include:

- biomaterials, biosensors, biomarkers and biomimetic materials
- biomedical imaging
- molecular, cellular and tissue engineering
- neural and rehabilitation engineering
- synthetic and systems biology

The doctoral degree in biomedical engineering is conferred upon evidence of excellence in research resulting in a scholarly dissertation that is a contribution to knowledge.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required Bioengineering Courses

Doctoral students are required to complete six credits from each of the following three areas (at least 18 credits):

BME graduate courses (BME prefix) (6)

life science/biology graduate courses (6)

quantitative math or engineering (6)

Students must also complete BME 780 Teaching Practicum (3).

Up to six credits of the required biomedical engineering courses and technical electives combined may be at the 400 level.

Technical Electives

No fewer than nine semester hours of course work (as determined by the student's supervisory committee) must be selected from the list of 400- to 700-level courses that are not selected as required BME courses.

Research/Dissertation

BME 792 Research (37)

BME 799 Dissertation (12)

Seminar

BME 591 (5)

Admission Requirements:

In addition to the general requirements for admission to Graduate Education, applicants must submit the following directly to the Graduate Education office:

- an online Graduate Education application
- official GRE scores
- a statement of purpose
- resume or curriculum vitae
- three letters of recommendation
- proof of English proficiency*

*An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering. Please view the School of Biological and Health Systems admissions checklist on the Web for specific admissions procedures and deadlines.

ECG 346

Chemical Engineering, MS (ESCHEMEMS)

Online Degree Search Title: Chemical Engineering (MS)

Campus: TEMPE

Program Description:

The chemical engineering faculty offer a graduate program leading to the MS in chemical engineering. This degree has two track options: a thesis option and a nonthesis option. The nonthesis option has an applied project. The thesis and applied project options require a faculty advisor. All admitted students are assumed to be in a nonthesis option until a faculty advisor has been secured. Areas of research emphasis include, but are not limited to:

- atmospheric aerosols
- biomolecular engineering
- biosensors
- chemical therapies for neurodegenerative diseases
- composite material synthesis and characterization
- electrochemistry
- electronic materials processing
- engineering education
- flexible display technology
- fuel cells
- inorganic membranes
- process design and operations
- protein synthesis
- surface, interface and colloidal science
- transport phenomena in living systems
- water purification

A graduate handbook detailing information on graduate studies in chemical engineering is available on the school website. Students should contact the graduate programs office for additional details.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (CHE 593).

All candidates for the master's in chemical engineering are required to complete an approved plan of study. The required course work for this degree is divided into the following categories:

Chemical Engineering Core Requirements: Students are required to take nine credit hours of graduate-level chemical engineering courses, exclusive of seminar (CHE 591), research (CHE 592), thesis (CHE 599) and reading and conference (CHE 590). These three courses (nine hours) must come from the following list:

CHE 533 Transport Processes I (3)

CHE 543 Thermodynamics of Chemical Systems (3)

CHE 544 Chemical Reactor Engineering (3)

Technical Electives: The amount of technical electives for each student is nine credits however, the composition of the technical electives will vary based on each student's final culminating experience. At least one technical elective course (three hours) must be taken from outside of chemical engineering. CHE 590 Reading and Conference may be taken as a technical elective only once, for a maximum of three credits.

Thesis: Thesis-based students must select a minimum of nine credit hours of technical electives thesis students may take three hours of CHE 592 Research towards the nine credit hours of technical electives.

Applied Project: Students who are pursuing the applied project option must register for three hours of CHE 593 and will have to complete a total of six hours of technical electives. For more detailed information, please see the Graduate Handbook on the school website.

Seminar: All full-time chemical engineering graduate students are required to successfully complete the seminar course (CHE 591) during every semester of residence. Part-time students are required to complete CHE 591 at least three times. Only three hours of seminar apply toward the master's, regardless how many times it is taken. Candidates whose undergraduate degree was in a field other than chemical engineering may be required to complete more than 33 credit hours.

Accelerated Degrees:

This degree is also offered as an accelerated degree with Chemical Engineering, BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

To be considered for admission to the master's program, the student must submit these items:

- online Graduate Education application
- application fee
- official GRE score
- proof of English language proficiency*
- official transcripts from all prior institutions attended
- personal statement
- resume or curriculum vitae
- three letters of recommendation

*Applicants whose native language is not English (regardless of where they may now reside) are required to achieve a minimum score of 100 on the Internet-based Test of English as a Foreign Language (TOEFL).

Students must fulfill both the requirements of Graduate Education and the Ira A. Fulton Schools of Engineering.

The application deadline for the fall semester is Jan. 15 spring semester is Sept. 1.

Chemical Engineering, MSE (ESCHEMEMSE)

Online Degree Search Title: Chemical Engineering (MSE)

Campus: TEMPE

Program Description:

The chemical engineering faculty offer a professional program leading to the MSE in chemical engineering. The program is designed to bridge the gap between knowledge of engineering sciences and creative engineering practice while at the same time increasing the depth and breadth of knowledge in selected areas of emphasis. The pattern of course work applicable to the degree is potentially unique for each student, although it must conform to the general guidelines for subject matter for the degree as authorized here.

Two options are available within the MSE program. The first is a general MSE, where students follow the same course outline as required by the MS, except that they will substitute thesis/research hours with additional elective course work. The second is an MSE with a specialization in semiconductor processing and manufacturing. Both options require completion of an applied project, rather than a thesis, at the conclusion of program course work. Note that financial assistance is not available to students who elect an MSE program.

Degree Requirements: 33 credit hours including the required applied project course (CHE 593).

Additional courses may be assigned by the supervisory committee depending on the background of the candidate. Specific requirements for the two MSE program options are outlined below:

Option 1: General MSE in chemical engineering (nonthesis).

Students who choose this option follow the requirements for the MS (see MS program requirements), but will replace the thesis/research credits with additional credit hours of course work. In addition, MSE students must take three credit hours of seminar. This degree requires a total of 33 credit hours.

After completing the course work, students must complete a report, typically 15-20 double-spaced pages, plus figures, on a topic of their choice (the topic needs to be approved by their committee). At the conclusion of the report, the student will make an oral presentation on the topic to his/her committee.

Option 2: MSE in chemical engineering with a specialization in semiconductor processing and manufacturing (nonthesis).

The MSE in chemical engineering and a specialization in semiconductor processing and manufacturing, involves a total of 33 credit hours. After completing the course work, students must complete a report, typically 15-20 double-spaced pages, plus figures, on a topic of their choice (the topic needs to be approved by their committee). At the conclusion of the report, the student will make an oral presentation on the topic to the committee.

The following courses are required for this degree:

CHE 458/598 Semiconductor Material Processing (3)

CHE 598 Deposition and Etching (3)

EEE 591 Fundamentals of Solid State Devices (3)

IEE 570 or IEE 572 Advanced Quality Control Design of Engineering Experiments (3)

MSE 598 Materials Issues in Semiconductor Processing (3) • six credits of chemical engineering electives at the 520 level or higher

- six credits of technical electives at the 500 level or higher
- three credits of a technical elective at the 400 level or higher

Seminar: In addition to the 30 credits listed above, three credits of the one-unit graduate seminar (CHE 591) are required. Online students can substitute an additional technical elective (500-level or higher) for this requirement.

Admission Requirements:

Applicants to the MSE program are required to submit the following:

- application fee
- Graduate Education online admission application
- current resume
- official Test of English as a Foreign Language (TOEFL) scores, for international students only*
- official transcripts from all prior institutions attended
- resume
- statement of purpose, describing your research interests and reasons for seeking a degree in chemical engineering
- three letters of recommendation from faculty or professionals who can comment on your research and scholarly capabilities**

*Chemical Engineering requires a minimum of 600 for paper-based and 100 for Internet-based for admission consideration.

**Letters of recommendation are submitted via the on-line recommendation system.

Please view the school website for specific admission procedures.

Students applying for the MSE in chemical engineering may have an BS in a field other than chemical engineering. The qualifications of transition students are reviewed by the chemical engineering graduate admission committee, and a special program is designed for successful applicants. Deficiencies for admission to the MSE are specified at the time of admission.

Chemical Engineering, PHD (ESCHEMEPHD)

Online Degree Search Title: Chemical Engineering (PhD)

Campus: TEMPE

Program Description:

The chemical engineering PhD program has areas of research emphases in:

- atmospheric aerosols
- biomolecular engineering
- biosensors
- chemical therapies for neurodegenerative diseases
- electrochemistry
- electronic materials processing
- engineering education
- flexible display technology
- fuel cells
- inorganic membranes
- process design and operations

- protein synthesis
- polymers and polymer composites
- surface, interface and colloidal science
- transport phenomena in living systems
- water purification

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

84 credit hours, qualifying exam, written and oral comprehensive exams, prospectus and a dissertation

Core Courses:

CHE 533 Transport Processes I (3)

CHE 543 Thermodynamics of Chemical Systems (3)

CHE 544 Chemical Reactor Methods (3)

Technical Electives (18) (from within or outside chemical engineering program):

CHE 591 Seminar (5)

CHE 792 Research (12)

CHE 799 Dissertation (12)

Additional Research/Elective Hours (28)

Admission Requirements:

To be considered for admission to the doctoral program, the student must submit these items:

- Graduate Education application
- application fee
- GRE scores
- official transcripts from all prior institutions attended
- personal statement
- resume or curriculum vitae
- proof of English language proficiency*
- three letters of recommendation

*Students whose native language is not English (regardless of where they may now reside) are required to achieve a minimum score of 100 on the Internet-based Test of English as a Foreign Language (TOEFL).

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Applications are due Jan. 15 for fall admission and Sept. 1 for spring admission.

Civil, Environmental and Sustainable Engineering, MS (ESCIVILMS)

Online Degree Search Title: Civil, Environmental, and Sustainable Engineering (MS)

Campus: TEMPE

Program Description:

The faculty in civil, environmental and sustainable engineering offer a graduate program leading to an MS in civil, environmental and sustainable engineering. The program is designed to enhance the knowledge gained in the undergraduate program by requiring the students to understand and practice fundamental concepts in engineering, mathematics and the basic sciences.

The pattern of course work applicable to the degree is potentially unique for each student, although it must conform to the general guidelines for subject matter content for the degree as authorized here and on the program's website. Students are admitted to one of the following specialty areas:

- environmental engineering
- geotechnical engineering
- hydrosystems engineering
- structural engineering
- sustainable engineering
- transportation engineering

Degree Requirements: 30 credit hours and a thesis.

The written thesis must be original research in nature. All candidates for the master's are required to complete 24 credit hours of approved graduate course work and a minimum of six credit hours of thesis. Additional courses may be assigned by the graduate supervisory committee, depending on the background of the candidate.

A final oral examination in defense of the thesis written work is required for all students.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Civil Engineering, BSE
- Civil Engineering (Environmental Engineering), BSE
- Civil Engineering (Sustainable Engineering), BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Applicants are expected to satisfy all requirements for both admission to Graduate Education and to the program. Entry into this program requires a bachelor's with a major in engineering or a closely related bachelor's program. The student's credentials for admission are evaluated by the graduate program chair and a committee chaired by the specialty area coordinator. The minimum GPA requirement is an overall undergraduate GPA of 3.00 on a 4.00 scale. Applicants with a lower GPA may be provisionally admitted at the discretion of the admission committee.

A student whose undergraduate degree is not in civil engineering is required to take appropriate undergraduate courses as deficiency courses to establish a base of knowledge in the discipline. Deficiencies for admission to the graduate degree programs are specified at the time of admission and details can be obtained at the graduate studies section of the program's website.

Applicants must take the GRE and have their official scores sent directly to Graduate Education. Prospective students should note the following two requirements need to be met for consideration for admission: minimum score in the quantitative section is 700 and minimum combined score for the quantitative and verbal sections is 1100. More information regarding how to send official GRE scores are on the Graduate Education website.

Applicants are required to submit three letters of recommendation.

Applicants are encouraged to submit a resume and personal statement.

Applicants whose native language is not English (regardless of where they may now reside) must demonstrate proficiency in the English language by meeting Graduate Education's English proficiency requirements. Applicants required to demonstrate English proficiency and seeking a teaching assistantship must demonstrate proficiency in spoken English a score of 55 or better on the Speaking Proficiency English Assessment Kit (SPEAK) or a score of 26 on the speaking portion of the Test of English as a Foreign Language (TOEFL) is required.

Civil, Environmental and Sustainable Engineering, MSE (ESCIVILMSE)

Online Degree Search Title: Civil, Environmental and Sustainable Engineering (MSE)

Campus: ONLNE, TEMPE

Program Description:

The faculty in civil, environmental and sustainable engineering offer a professional program leading to an MSE in civil, environmental and sustainable engineering. The program is designed to bridge the gap between knowledge of engineering sciences and creative engineering practice, while at the same time increasing the depth and breadth of knowledge in selected areas of emphasis.

The pattern of course work applicable to the degree is potentially unique for each student, although it must conform to the general guidelines for subject matter content for the degree as authorized here, on the program's website and in the program's graduate handbook. Students are admitted to one of the following specialty areas:

- environmental engineering
- geotechnical engineering
- hydrosystems engineering
- structural engineering
- sustainable engineering
- transportation engineering

Degree Requirements: 30 credit hours and a written comprehensive exam.

All candidates for the master's are required to complete approved graduate course work.

Additional courses may be assigned by the graduate supervisory committee depending on the background of the candidate.

Details of the comprehensive written examinations for the different specialty areas can be obtained at the graduate studies section of the program's website.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Civil Engineering, BSE
- Civil Engineering (Environmental Engineering), BSE
- Civil Engineering (Sustainable Engineering), BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Applicants are expected to satisfy all requirements for admission to Graduate Education. Entry into this program normally requires a bachelor's degree with a major in engineering or a closely related bachelor's degree program.

The student's credentials for admission are evaluated by the graduate program chair and a committee chaired by the specialty area coordinator.

A minimum GPA requirement is an overall undergraduate GPA of 3.00 on a 4.00 scale. Applicants with a lower GPA may be provisionally admitted at the discretion of the admission committee.

A student whose undergraduate degree is not in civil engineering is required to take appropriate undergraduate courses as deficiency courses to establish a base of knowledge in the discipline. Deficiencies for admission to the graduate degree programs are specified at the time of admission and details can be obtained at the graduate studies section of the program's website.

Applicants must take the GRE and have their scores sent to Graduate Education. Prospective students should note that GRE scores are used in the admission decision. The average scores for those who were admitted to the graduate programs over the last five years are:

- 732 for MS/MSE and 751 for PhD (GRE General Test) or 157 for MS/MSE and 159 for PhD (GRE revised General Test) in the quantitative section
- 1203 for MS/MSE and 1239 for PhD (GRE General Test) or 308 for MS/MSE and 311 for PhD (GRE revised General Test) as combined quantitative and verbal scores

More information regarding how to send official GRE scores to Graduate Education can be found at <https://students.asu.edu/graduate/faqs> (<https://students.asu.edu/graduate/faqs>).

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Civil, Environmental and Sustainable Engineering, PHD (ESCIVILPHD)

Online Degree Search Title: Civil, Environmental and Sustainable Engineering (PhD)

Campus: TEMPE

Program Description:

The faculty in civil, environmental and sustainable engineering offer a graduate program leading to the PhD in civil, environmental and sustainable engineering. A broad range of theoretical and experimental research programs have been established in civil and environmental engineering to prepare graduate students for careers in professional practice and research. These programs are constantly evolving with the changes in society and the profession, and many are multidisciplinary in nature.

The pattern of course work applicable to the degree is potentially unique for each student, although it must conform to the general guidelines for subject matter content for the degree as authorized here and in the program's graduate handbook. Students are admitted to one of the following specialty areas:

- environmental engineering
- geotechnical engineering
- hydrosystems engineering
- structural engineering
- sustainable engineering
- transportation engineering

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

All candidates for the doctorate are required to complete 84 approved graduate credit hours; of these, 30 credit hours can be from the previously awarded master's. Additional graduate credit work may be assigned by the graduate supervisory committee, depending on the background of the candidate.

The graduate credit hours must include a minimum of 12 credit hours of research and 12 credit hours of dissertation work.

This degree also requires written and oral comprehensive examinations and approval of the dissertation prospectus for the student to be eligible for doctoral candidacy.

After entering candidacy, students complete their research, write and successfully defend their written dissertation.

A final oral examination in the defense of the dissertation work is required for all students.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Applicants are expected to satisfy all requirements for admission to both Graduate Education and the program. Entry into this program requires a master's in engineering or a closely related master's program. Exceptionally qualified students with a bachelor's may be admitted to the doctoral program.

The student's credentials for admission are evaluated by the graduate program chair and a committee chaired by the specialty area coordinator. A minimum requirement is an overall GPA of 3.20 in all postbaccalaureate graduate course work.

A student whose undergraduate or master's is not in civil engineering is required to take appropriate undergraduate or graduate courses as deficiency courses, to establish a base of knowledge in the discipline. Deficiencies for admission to the program are specified at the time of admission, and details can be obtained at the graduate studies section of the program's website.

Applicants must take the GRE and have their official scores sent directly to Graduate Education. Prospective students should note that GRE scores are used in the admission decision. The average scores for those who were admitted to the graduate programs over the last five years are (a) 732 for MS/MSE and 751 for PhD (GRE General Test) or 157 for MS/MSE and 159 for PhD (GRE revised General Test) in the quantitative section, and
Academic Catalog Archive 2014-2015 345

(b) 1203 for MS/MSE and 1239 for PhD (GRE General Test) or 308 for MS/MSE and 311 for PhD (GRE revised General Test) as combined quantitative and verbal scores. More information regarding how to send official GRE scores can be found on the Graduate Education website.

Applicants are required to submit three letters of recommendation.

Applicants are required to submit a resume and personal statement.

Applicants whose native language is not English (regardless of where they may now reside) must demonstrate proficiency in the English language by meeting Graduate Education's English proficiency requirements. Applicants required to demonstrate English proficiency and seeking a teaching assistantship must demonstrate proficiency in spoken English a score of 55 or better on the Speaking Proficiency English Assessment Kit (SPEAK) or a score of 26 or higher on the speaking portion of the Test of English as a Foreign Language (TOEFL) is required.

Computer Engineering (Computer Systems), MS (ESCENCMS)

Online Degree Search Title: Computer Engineering (Computer Systems) (MS)

Campus: TEMPE

Program Description:

Computer engineering is a multidisciplinary program that builds on the fundamentals of computer science, electrical engineering, industrial engineering and applied mathematics. Graduates of this program will have the knowledge and skills necessary to advance the design, system integration, testing, evaluation and deployment of the state-of-the-art hardware and software for systems that include computing, communications and networking (wired and wireless), control functions, sensing, signal processing and actuation.

The MS program is intended for students who want to gain knowledge deeper than that provided at the BS level and sufficient for designing and implementing state-of-the-art systems in industrial research and development positions. The program is also appropriate for students contemplating future PhD study and desiring to gain experience in research. Master's graduates may work under the direction of PhD scientists and engineers in high-tech lab settings assisting in developing innovative products and systems that require strong foundational knowledge in the underlying sciences and the ability to synthesize and analyze engineering principles as they relate to the development of new computer engineering technology.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours and a written comprehensive exam.

The computer engineering master's degree requires:

Thesis Option:

required core courses (6)

approved electives (18)

CEN 599 Thesis (6)

final thesis defense

Nonthesis Option:

required core courses (6)

approved elective (24)

final written comprehensive exam on the two core and four of the area courses

Admission Requirements:

Applicants must have a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing in a related field such as:

- computer engineering
- computer science
- computer systems engineering
- electrical engineering

Minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's bachelor's degree program.

Applicants must submit:

- an online graduate application
- personal statement (indicating professional goals and reasons for desiring to enroll in the program)
- three letters of recommendations
- official transcripts sent to Graduate Education
- GRE required if undergraduate program is not ABET-accredited (<http://www.abet.org/> (<http://www.abet.org/>))
- proof of English language proficiency*

*The Test of English as a Foreign Language (TOEFL) is required for applicants whose native language is not English, regardless of where they may now reside. See <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>) for more information.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

For full consideration, the application deadline is Feb. 15 for fall semester and Aug. 15 for spring semester.

Depending on prior academic preparation and accomplishments of an applicant, deficiency courses may be specified to ensure adequate background preparation. Matriculated students will take a placement exam prior to start of classes in their first semester on the following five courses:

CSE 230 Computer Architecture and Organization

CSE 310 Algorithm and Data Structure

EEE 203 Signals and Systems

EEE 335 Analog and Digital Circuits

MAT 243 Discrete Math

A reading list of the topics covered in the placement exam will be provided in advance.

Computer Engineering (Computer Systems), PHD (ESCENCPHD)

Online Degree Search Title: Computer Engineering (Computer Systems) (PhD)

Campus: TEMPE

Program Description:

Computer engineering is a multidisciplinary program that builds on the fundamentals of computer science, electrical engineering, industrial engineering and applied mathematics. Graduates of this program will have the knowledge and skills necessary to fundamentally advance and develop new paradigms for the design, system integration, testing, evaluation and deployment of state-of-the-art hardware and software for systems that include computing, communications and networking (wired and wireless), control functions, sensing, signal processing and actuation.

The PhD program is intended for students with excellent ability in mathematics and physical science who are interested in gaining an in-depth knowledge of the foundational principles of engineering and pursuing a career in academia, research or highly technical entrepreneurial innovation. The doctoral program provides a broader and more in-depth preparation than the MS and MSE programs, in anticipation of a demonstrated ability to independently pursue more creative and substantive innovation with higher impact.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The computer engineering doctoral degree requires:

at least 12 credit hours of CEN 792 Research

at least 24 credit hours of approved computer engineering area courses, 12 credit hours of which must be courses noted with M* or D* from the six computer engineering areas; no more than 6 credit hours may be noted with M*

at least 18 credit hours of approved graduate courses from science, engineering or mathematics

at most, six credit hours of CEN 790 Reading and Conference

six credit hours of required core courses

12 credit hours of CEN 799 Dissertation

For more information please visit <http://cidse.engineering.asu.edu/forstudent/prospective-students/computer-engineering/> (<http://cidse.engineering.asu.edu/forstudent/prospective-students/computer-engineering/>).

Admission Requirements:

Applicants must have a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing in a related field such as:

- computer engineering
- computer science
- computer systems engineering
- electrical engineering

Minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's bachelor's degree program. A minimum GPA of 3.00 is required in the MS or MSE work for acceptance into the program.

Applicants must submit:

- an online Graduate Education application
- personal statement that explains professional goals and reasons for desiring to enroll in the doctorate program, describes any research experiences and indicates personal research interest
- three letters of recommendations
- official transcripts sent to Graduate Education
- GRE (required if undergraduate program is not ABET-accredited; <http://www.abet.org> (<http://www.abet.org>))

Test of English as a Foreign Language (TOEFL) is required for applicants whose native language is not English:

<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>) Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Computer Science, MCS (ESCOMSCMCS)

Online Degree Search Title: Computer Science (MCS)

Campus: TEMPE

Program Description:

The MCS is an advanced degree program targeted at students with an undergraduate education in computing and related disciplines who can best profit from further breadth and background in computer science. The MCS also affords an opportunity for students employed in industry to seek a breadth of advanced education in computer science.

The program reflects the dual nature of computer science as both a scientific and engineering discipline by allowing emphasis on theory as well as practical applications. Students seeking the master's submit a project portfolio compiling projects completed in three courses during their studies. Students can study topics such as:

- artificial intelligence
- computer-aided geometric design
- computer architecture
- computer graphics
- computer science theory
- database concepts
- digital systems design
- distributed systems
- language processing
- networking
- operating systems
- software engineering

Degree Requirements: 30 credit hours and a portfolio.

Each student defines a potentially unique program of study subject to approval by the graduate programs office and Graduate Education. The student must complete a minimum of 30 credit hours of approved graduate-level work. At least 24 of the 30 credit hours must be computer science and engineering (CSE) 500-level credits at ASU. At least 30 hours must be for formal course work (including CSE 591 but excluding credits for CSE 590 Reading and Conference).

MCS students must complete a project portfolio from three courses in which the student received a "B"(3.00) grade or higher. See the Graduate Student Handbook for complete details: http://cidse.engineering.asu.edu/wp-content/uploads/2012/05/CIDSE_CS_MCS_graduate_handbook.pdf
Academic Catalog Archive 2014-2015 350

(http://cidse.engineering.asu.edu/wp-content/uploads/2012/05/CIDSE_CS_MCS_graduate_handbook.pdf).

Students will also complete one course in three areas to cover a wide range of knowledge. The three areas are:

- applications: courses are in the areas of artificial intelligence, databases, graphics and multimedia
- foundations: courses focus on algorithms, mathematical logic, programming languages and theory
- systems: courses cover topics in architecture, networks, operating systems and software engineering

Admission Requirements:

Students interested in applying to the program must submit an online application to Graduate Education.

An applicant for the MCS program should have a bachelor's degree in computer science, computer engineering or a closely related area.

Applicants must submit:

- online Graduate Education application
- a statement of purpose
- official transcripts from every university attended
- scores for the GRE, unless the student has graduated with an undergraduate degree in computer science or computer systems engineering at ASU
- three letters of recommendation
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

If the student is assigned any deficiency course work upon admission, those classes must be completed with a grade of "B" (3.00) or higher within two semesters of admission to the program. Deficiency courses are:

CSE 230 Computer Organization and Assembly Language Programming (3)

CSE 310 Data Structures and Algorithms (3)

CSE 340 Principles of Programming Languages (3)

CSE 355 Introduction to Theoretical Computer Science (3)

CSE 360 Introduction to Software Engineering (3)

CSE 430 Operating Systems (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission. The application deadline for admission and financial aid is Dec. 1 for the fall semester and Aug. 1 for the spring semester.

Computer Science, MS (ESCOMSCMS)

Online Degree Search Title: Computer Science (MS)

Campus: TEMPE

Program Description:

The MS in computer science is a research-oriented degree targeted toward students with an undergraduate education in the science of computation. It provides instruction in advanced course work and emphasizes research by the student.

Students can conduct cutting-edge research in a wide variety of research areas including:

- algorithms
- artificial intelligence
- bioinformatics
- computer-aided geometric design
- computer graphics
- computer networks

- database systems
- distributed computing and operating systems
- embedded systems
- information assurance
- intelligent information integration
- multimedia information systems
- software engineering

Degree Requirements: 30 credit hours and a thesis.

Complete 30 credit hours of course work, including six credit hours of thesis to graduate with the master of science degree. Students must successfully pass a thesis defense to graduate.

Complete one course in three areas to cover a wide range of knowledge. The three areas are:

- applications: courses are in the areas of artificial intelligence, databases, graphics and multimedia
- foundations: courses focus on algorithms, mathematical logic and computer science theory
- systems: courses cover topics in architecture, networks, operating systems and software engineering

The remainder of the student's course work focuses on the research area of interest, conducted with the guidance of a faculty advisor. Students must complete nine credit hours of course work in their research area.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Computer Science, BS
- Computer Science (Information Assurance), BS
- Computer Science (Software Engineering), BS
- Computer Systems Engineering, BSE
- Computer Systems Engineering (Information Assurance), BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Students interested in applying to the master of science program must submit an online application to Graduate Education.

An applicant for the master of science program should have a bachelor's degree in computer science, computer engineering or a closely related area.

Applicants must submit:

- online Graduate Education application
- scores for the GRE, unless the student has graduated with an undergraduate degree in computer science or computer systems engineering at ASU
- three letters of recommendation
- a statement of purpose
- official transcripts from every university attended
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

If the student is assigned any deficiency course work upon admission, those classes must be completed with a grade of "B" (3.00) or higher within two semesters of admission to the program. Deficiency courses are:

- CSE 230 Computer Organization and Assembly Language Programming (3)
- CSE 310 Data Structures and Algorithms (3)
- CSE 340 Principles of Programming Languages (3)
- CSE 355 Introduction to Theoretical Computer Science (3)
- CSE 360 Introduction to Software Engineering (3)
- CSE 430 Operating Systems (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission. The application deadline for admission and financial aid is Dec. 1 for the fall semester and Aug. 1 for the spring semester.

Computer Science, PHD (ESCOMSCPHD)

Online Degree Search Title: Computer Science (PhD)

Campus: TEMPE

Program Description:

The PhD in computer science program prepares students to undertake fundamental and applied research in computer science to prepare students for careers in academia, government and industry. Students can conduct cutting-edge research in a wide variety of research areas, including:

- algorithms
- artificial intelligence
- bioinformatics
- computer-aided geometric design and computer graphics
- computer networks
- database systems
- distributed computing and operating systems
- embedded systems
- information assurance
- intelligent information integration
- multimedia information systems
- software engineering

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The PhD includes 12 to 18 credit hours of CSE 792 Research and 12 credit hours of CSE 799 Dissertation. Students will complete one course in three areas to cover a wide range of knowledge. The three areas are:

- Applications: The courses are in the areas of artificial intelligence, databases, graphics and multimedia.
- Foundations: The courses focus on algorithms, mathematical logic, programming languages and theory.
- Systems: The courses cover topics in architecture, networks, operating systems and software engineering.

Area courses cannot include CSE 598 courses.

Admission Requirements:

Students interested in applying to this program must submit an online application to Graduate Education. An applicant for the PhD program should have the equivalent of a bachelor's degree in computer science, computer engineering or a closely related area. Most applicants should have earned the master's degree, but exceptional undergraduate applicants may be admitted directly to the doctoral program.

Every applicant must submit:

- online Graduate Education application
- scores for the GRE, unless the student has graduated with an undergraduate degree in computer science or computer systems engineering at ASU
- three letters of recommendation
- a statement of purpose
- official transcripts from every university attended
- curriculum vitae or resume

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

If the student is assigned any deficiency course work upon admission, those classes must be completed with a grade of "B" (3.00) or higher within two semesters of admission to the program. Deficiency courses are:

CSE 230 Computer Organization and Assembly Language Programming (3)
CSE 310 Data Structures and Algorithms (3)
CSE 340 Principles of Programming Languages (3)

CSE 355 Introduction to Theoretical Computer Science (3)

CSE 360 Introduction to Software Engineering (3)

CSE 430 Operating Systems (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

The application deadline for admission and financial aid is Dec. 1 for the fall semester and Aug. 1 for the spring semester.

Computer Science (Arts, Media and Engineering), MS (ESAMECSMS)

Online Degree Search Title: Computer Science (Art, Media and Eng) (MS)

Campus: TEMPE

Program Description:

The MS in computer science program with a concentration in arts, media and engineering emphasizes research on the integration of the human physical experience with computation and digital media. Arts, media and engineering researchers produce experiential media systems and models that:

- assist the disadvantaged
- empower creativity
- enhance scientific discovery
- evolve human ability
- facilitate learning
- improve quality of life

Within these application areas, researchers explore experiential construction, interaction and feedback, knowledge creation, sensing, perception and modeling.

The purpose of the arts, media and engineering concentration under the MS in computer science is to train hybrid engineering-arts graduates who get their inspiration from the arts and their methodology from computer science and engineering. Students will specialize in transdisciplinary media development. More information about the arts, media and engineering concentration can be found at <http://ame.asu.edu/> (<http://ame.asu.edu/>).

Degree Requirements: 30 credit hours and a thesis.

Students complete 30 credit hours of course work, including nine credit hours of arts, media and engineering-approved course work and six credit hours of thesis, to graduate with the degree. Students must successfully pass a thesis defense to graduate. Students will complete nine credit hours of arts, media and engineering courses selected in consultation with the student's graduate advisor.

Students will also complete one course from each of the following three areas:

- applications: artificial intelligence, databases, graphics and multimedia
- foundations: algorithms, mathematical logic, programming languages and theory
- systems: architecture, networks, operating systems and software engineering

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Computer Science, BS
Computer Science (Information Assurance), BS
Computer Science (Software Engineering), BS
Computer Systems Engineering, BSE
Computer Systems Engineering (Information Assurance), BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Students interested in applying to this program must submit an online application to Graduate Education. An applicant for the master's program

should have a bachelor's degree in computer science, computer engineering or a closely related area.

Applicants must submit:

- online Graduate Education application
- official transcripts from every university attended
- scores for the GRE, unless the student has graduated with an undergraduate degree in computer science or computer systems engineering at ASU
- a statement of purpose and a curriculum vitae
- three letters of recommendation
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.
<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

The statement of purpose must address the transdisciplinary nature of the arts, media and engineering program. Applicants should explain in a concise and persuasive manner how their educational, professional and personal experiences inform their research and creative interests, writing on any aspect of their background that supports candidacy to the program. For further information on how this statement can be expanded upon by students interested in a research assistantships or an integrative graduate education and research traineeship within arts, media and engineering, please visit <http://ame.asu.edu/education/prospective/funding.php> (<http://ame.asu.edu/education/prospective/funding.php>). Please submit a curriculum vitae with your statement of purpose.

If the student is assigned any deficiency course work upon admission, those classes must be completed with a grade of "B" (3.00) or higher within two semesters of admission to the program. Deficiency courses include:

CSE 230 Computer Organization and Assembly Language Programming (3)
CSE 310 Data Structures and Algorithms (3)
CSE 340 Principles of Programming Languages (3)
CSE 355 Introduction to Theoretical Computer Science (3)
CSE 360 Introduction to Software Engineering (3)
CSE 430 Operating Systems (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

The application deadline for admission and financial aid is Dec. 1 for the fall semester and Aug. 1 for the spring semester.

Computer Science (Big Data Systems), MCS (ESCSEBDMCS)

Online Degree Search Title: Computer Science (Big Data Systems)

Campus: TEMPE

Program Description:

The big data systems concentration under the MCS in computer science degree program is designed for graduate students who want to pursue a thorough education in the area of big data systems.

The goal of this concentration is to provide students the knowledge, skills and advanced development capability expertise in designing scalable (parallel, distributed and real time) systems for acquiring, storing, processing, and accessing large-scale heterogeneous multisource data and in using analytical tools to mine information from the data.

Graduates will be able to choose and deploy the appropriate data management processing and analysis systems with a suitable structured or unstructured data model that a particular task and domain application needs. This concentration will provide a competitive advantage to secure employment as there is a growing need for data scientists and engineers that can architect, implement and manage large data systems.

Degree Requirements: 30 credit hours and a portfolio.

Required Core Courses: 9 credit hours

Foundations (3)

Systems (3)

Applications (3)

Required Concentration Courses: 9 credit hours

CSE 510 Database Management System Implementation (3)

CSE 512 Distributed Database Systems (3)

CSE 572 Data Mining (3) or IEE 520 Statistical Learning for Data Mining (3)

Electives: 6 credit hours

CSE 515 Multimedia and Web Databases (3)

CSE 575 Statistical Machine Learning (3)

CSE 591 Topic: Data Visualization (DV) (3)

CSE 591 Topic: Semantic Web Mining (SWM) (3)

CSE 591 Topic: Virtualization and Cloud Computing (VCC) (3)

Note: Additional elective course work may be required. If the student takes CSE 510, CSE 512, CSE 572, or CSE 515 as part of the nine credit core courses for the MCS degree, then the student has to take three additional credits to ensure that the total credit hours are equal to 30.

Culminating Experience: 0 credit hours

Portfolio

Other Elective or Research Courses: 6 credit hours

Students choose six credit hours of other elective or research course work approved by their academic advisor.

Total required credit hours: 30

Admission Requirements:

In addition to completing the ASU graduate admission application, the following materials must also be submitted to complete the application package:

U.S. Residents:

- one set of official transcripts from every college and university attended, including ASU, unless the student graduated from ASU
- official GRE test scores
- three letters of recommendation
- statement of purpose

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

International Applicants:

- academic credentials*
- official GRE General test scores taken within the last five years
- official TOEFL score, taken within the last two years (only required for those who did not graduate with a baccalaureate degree from an accredited U.S. institution)**
- three letters of recommendation
- statement of purpose

*All international records must be submitted in the original language accompanied by an official English translation. If the student has attended a U.S. institution, one set of official transcripts from every college and university attended, except ASU, is required.

**The TOEFL score must be valid on the first day of class for the term the student is applying for. CIDSE requires that TOEFL scores must be above 575 (paper), or 90 (IBT), or minimum IELTS is an overall band scores of 7.0.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Computer Science (Information Assurance), MCS (ESCSEIMCS)

Online Degree Search Title: Computer Science (Information Assurance) (MCS)

Campus: TEMPE

Program Description:

The MCS in computer science with a concentration in information assurance is designed for graduate students who want to pursue a thorough education in the area of information assurance. The goal of this concentration is to provide students the knowledge, skills and the advanced development capability in science and engineering for information assurance, including computer and network security, software security, data and information security, applied cryptography and computer forensics.

The concentration in information assurance is an advanced degree targeted at students with an undergraduate education in computing and related disciplines, and students employed in industry who can best profit from further breadth and background in computer science and information assurance. Students will have a competitive advantage to secure employment. According to the National Security Agency, information assurance is defined as the set of measures intended to protect and defend information and information systems by ensuring their availability, integrity,

authentication, confidentiality and nonrepudiation. This includes providing restoration of information systems by incorporating protection, detection and reaction capabilities.

Degree Requirements: 30 credit hours and a portfolio.

The student must complete 30 credit hours of approved graduate-level work, including 15 credit hours of information assurance course work. At least 24 of the 30 credit hours must be computer science and engineering (CSE) 500-level credits at ASU. At least 30 hours must be formal course work (including CSE 591 but excluding credits for CSE 590 Reading and Conference). Students must complete 15 hours of approved information assurance course work. See <http://cidse.engineering.asu.edu/forstudent/graduate/computer-science/> (<http://cidse.engineering.asu.edu/forstudent/graduate/computer-science/>) for more information.

Students will also complete one course in one of the following three areas to cover a wide range of knowledge:

- applications: courses are in the areas of artificial intelligence, databases, graphics and multimedia
- foundations: courses focus on algorithms, mathematical logic, programming languages and theory
- systems courses cover topics in architecture, networks, operating systems and software engineering

MCS students must complete a project portfolio from three courses in which the student received a "B" (3.00) grade or higher. See the Graduate Student Handbook for complete details: http://cidse.engineering.asu.edu/wp-content/uploads/2012/05/CIDSE_CS_MCS_graduate_handbook.pdf (http://cidse.engineering.asu.edu/wp-content/uploads/2012/05/CIDSE_CS_MCS_graduate_handbook.pdf).

Admission Requirements:

Students interested in applying to the MCS program must submit an online application to Graduate Education. An applicant for the MCS program should have a bachelor's in computer science, computer engineering or a closely related area.

Applicants must submit:

- online Graduate Education application
- official transcripts from every university attended
- scores for the GRE, unless the student has graduated with an undergraduate degree in computer science or computer systems engineering at ASU
- a statement of purpose
- three letters of recommendation
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

If the student is assigned any deficiency course work upon admission, those classes must be completed with a grade of "B" or higher within two semesters of admission to the program. Deficiency courses include:

CSE 230 Computer Organization and Assembly Language Programming (3)
CSE 310 Data Structures and Algorithms (3)
CSE 340 Principles of Programming Languages (3)
CSE 355 Introduction to Theoretical Computer Science (3)
CSE 360 Introduction to Software Engineering (3)
CSE 430 Operating Systems (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

The application deadline for admission and financial aid is Dec. 1 for the fall semester and Aug. 1 for the spring semester.

Computer Sciences (Biomedical Informatics), MS (ESCSBIOIMS)

Online Degree Search Title: Computer Science (Biomedical Informatics)(MS)

Campus: TEMPE

Program Description:

The MS in computer science with a concentration in biomedical informatics is designed for graduate students who wish to specialize in such topics as genomics and computational systems biology. The concentration is interdisciplinary in nature, providing preparation that integrates technological expertise in the information sciences, computer science, bioscience and statistics with an understanding of the clinical environment of the health care professional. It will expose computer science students to current issues in clinical practice as well as the use of information systems in health care settings.

Degree Requirements: 30 credit hours and a thesis.

Students complete 30 credit hours of course work, including nine credit hours of course work in biomedical informatics and six credit hours of thesis work to graduate with the degree. Students must successfully pass a thesis defense to graduate. Students will complete the following nine credit hours in biomedical informatics:

BMI 501 Introduction to Biomedical Informatics (3)

BMI 540 Problem Solving in Biomedical Informatics (3)

BMI 5XX Approved Elective in Biomedical Informatics (3)

Students will also complete one course from each of the following three areas:

- applications: artificial intelligence, databases, graphics and multimedia
- foundations: algorithms, mathematical logic, programming languages and theory
- systems: architecture, networks, operating systems and software engineering

The remainder of the course work will be in computer science, and students will focus their research in one of the following areas:

- bioinformatics
- biomedical informatics
- clinical informatics
- imaging informatics
- public health informatics

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Computer Science, BS

Computer Science (Information Assurance), BS
Computer Science (Software Engineering), BS
Computer Systems Engineering, BSE
Computer Systems Engineering (Information Assurance), BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Students interested in applying to this program must submit an online application to Graduate Education. An applicant to the master's program should have a bachelor's in computer science, computer engineering or a closely related area. Every applicant must submit:

- online Graduate Education application
- Test of English as a Foreign Language (TOEFL) scores (applies to applicants whose native language is not English)
- official transcripts from every university attended
- scores for the GRE, unless the student has graduated with an undergraduate degree in computer science or computer systems engineering from ASU
- a statement of purpose
- three letters of recommendation
- verbal, quantitative and analytical GRE scores (optional: subject test in computer science)

If the student is assigned any deficiency course work upon admission, those classes must be completed with a grade of "B" (3.00) or higher within two semesters of admission to the program. Deficiency courses are:

CSE 230 Computer Organization and Assembly Language Programming (3)

CSE 310 Data Structures and Algorithms (3)

CSE 340 Principles of Programming Languages (3)

CSE 355 Introduction to Theoretical Computer Science (3)

CSE 360 Introduction to Software Engineering (3)

CSE 430 Operating Systems (3)

The applicant's undergraduate GPA and depth of preparation in computer science and engineering are the primary factors affecting admission.

The application deadline for admission and financial aid is Dec. 1 for the fall semester and Aug. 1 for the spring semester.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Computing Studies, MCSt (TSCOMPMCST)

Online Degree Search Title: Computing Studies - Polytechnic Campus (MCST)

Campus: POLY

Program Description:

The computing faculty of Engineering Programs offers the MCSt graduate program. The computing studies program is designed for students with the equivalent of a bachelor's in computing and requires 33 credit hours of graduate instruction, including a two-semester culminating experience. The program prepares students with the technical and professional knowledge necessary for career advancement and positions of leadership in computing.

As a discipline, computing is evolving rapidly; the body of knowledge in computer science and software engineering is constantly changing, and the impact computing has on society is growing at an astonishing pace. The program uses project-based, laboratory-rich curriculum to prepare graduates for careers that contribute to computing's disciplinary context.

Master's of computing studies students learn essential skills and obtain experience necessary for success after graduation, including:

- a strong technical foundation
- familiarity with the tools, languages and methods of the profession
- understanding of the concepts and practices underlying software design and construction
- practiced communication and teaming skills
- significant background in at least one computing application area
- practiced communication and teaming skills

Graduates of the program may pursue advanced research degrees in computing, employment or leadership in computing, or pursue careers in computing application areas. The computing faculty are especially strong in enterprise systems, software engineering, visual analytics, computer gaming, embedded systems and mobile computing. In addition to academic credentials, departmental faculty have extensive industry experience.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (CST 593), or 33 credit hours including the required capstone course (CST 517 or CST 518).

The plan of study must contain approved graduate-level course work. The program offers a set of courses that comprise the foundations of advanced study in computing: software development, communications and teaming, computing research methods, data structures, algorithms and computing language concepts. A student's program of study must include the following core courses that provide the graduate computing foundation:

CST 500 Research Methods (3)

CST 501 Advanced Data Structures and Algorithm Analysis (3)

CST 502 Emerging Language and Programming Paradigms (3)

CST 515 Software Enterprise: Inception and Elaboration (3)

CST 516 Software Enterprise: Project and Process Management (3)

CST 500, CST 501 and CST 515 should be taken in the first semester or as early in the student's program as possible.

Students are encouraged to identify four graduate CST computing courses (12 credit hours) of specialization course work that contributes to their individual educational objectives. Of the four, two courses (6 credit hours) may be entry-level graduate courses. Entry-level courses are typically offered as CST 598. Program faculty offer graduate-level courses (5xx-level, formal courses excluding 598) that provide specialized treatment in areas representing faculty research interests.

Students also select one of three culminating experiences (6 credit hours): thesis, applied project or software capstone.

Thesis

Students who select the thesis option develop a project and thesis paper that reflects innovation in a specialization area. The thesis is developed over two successive semesters by registering for three credits of CST 599 Thesis each semester. Before registering for CST 599, the student identifies a faculty committee consisting of a chair in the specialization area and two other members. The committee directs the development of the thesis and gauges its merit at completion.

Applied Project

Students who select the applied project option develop a project and paper that reflects advanced application knowledge in a specialization area. The project is developed over two successive semesters by registering for three credits of CST 593 Project in the first semester and registering for another three credits of CST 593 Project in the second semester. Before registering for the project in the first semester, the student identifies a faculty committee consisting of a chair in the specialization area and two other members. The committee directs the development of the applied project and gauges its merit at completion.

Software Factory (Capstone)

Students who select software capstone formulate an advanced analysis of the software enterprise and participate in a team-based, two-semester software factory experience. Students develop a portfolio demonstrating achievement of learning outcomes. A committee of three faculty provide mentorship and assess student achievement of outcomes. Students take the software capstone in two successive semesters by registering for CST 517 in one semester and registering for CST 518 in the following semester.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate Education application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores
- optional) statement of purpose
- optional) two letters of recommendation

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate Education website: <http://graduate.asu.edu/international> (<http://graduate.asu.edu/international>).

For best consideration, the deadline is Feb. 1 for fall applications' and Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate technical preparation in a selected technology at the undergraduate level. It is recommended that applicants have completed a bachelor's in computing. Excellent applicants with a partial computing background may be admitted with undergraduate computing deficiencies.

Undergraduate deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Students must fulfill the requirements of both Graduate Education and the Ira A. Fulton Schools of Engineering.

Construction Engineering, MSE (ESCONEMSE)

Online Degree Search Title: Construction Engineering (MSE)

Campus: TEMPE

Program Description:

The MSE in construction engineering is a multidisciplinary program encompassing the areas of geotechnical engineering, structural engineering, transportation engineering, construction engineering and management-related topics. The degree focuses on a combination of design and management topics preparing the student for a career working at the interface of design and construction; it is especially desirable to those students who are interested in a career emphasizing construction of infrastructure.

Degree Requirements: 30 credit hours and a written comprehensive exam.

All candidates for the master's are required to complete approved graduate course work.

Additional courses may be assigned by the graduate supervisory committee depending on the background of the candidate.

Details of the comprehensive written examinations for the different specialty areas can be obtained at the graduate studies section of the program's website.

Accelerated Degrees:

This degree is also offered as an accelerated degree with Construction Engineering, BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Applicants are expected to satisfy all requirements for admission to Graduate Education. Entry into this program normally requires a bachelor's degree with a major in engineering or a closely related bachelor's degree program.

The student's credentials for admission are evaluated by the graduate program chair and a committee chaired by the specialty area coordinator.

The minimum GPA requirement is an overall undergraduate GPA of 3.00 on a 4.00 scale. Applicants with a lower GPA may be provisionally admitted at the discretion of the admission committee.

A student whose undergraduate degree is not in civil or construction engineering is required to take appropriate undergraduate courses as deficiency courses to establish a base of knowledge in the discipline. Deficiencies for admission to the graduate degree programs are specified at the time of admission and details can be obtained at the graduate studies section of the program's web site.

Applicants must take the GRE and have their scores sent to Graduate Education. Prospective students should note that the following two requirements need to be met for consideration for admission: minimum score in the quantitative section is 700 and a minimum combined quantitative and verbal scores is 1100. More information regarding how to send official GRE scores to Graduate Education can be found at http://graduate.asu.edu/admissions/degree_requirements (http://graduate.asu.edu/admissions/degree_requirements).

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Construction Management, MS (ESCONSTMS)

Online Degree Search Title: Construction Management (MS)

Campus: ONLNE, TEMPE

Program Description:

The faculty in the Del E. Webb School of Construction offer a graduate program leading to the MS in construction management. The interdisciplinary nature of the program allows a candidate's plan of study to reflect individual interests and career goals.

The primary objective of the program is to allow students with a bachelor's in construction or a related field such as architecture, business or engineering to broaden and improve their professional capabilities in construction. The program is designed to meet the growing need for professionals with advanced technical, management and applied research skills in the construction industry.

The facilities management specialty area supports the needs of the student desiring a career in the maintenance, operation, renovation or decommissioning of existing facilities. The construction management specialty area allows students seeking upper-level management positions in various sectors of the construction industry to improve their competency in project, program and company management areas.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours and a written comprehensive exam.

If appropriate graduate-level courses are not available in a student's pursued area of interest, the supervisory committee has the option to approve a maximum of six credit hours of 400-level course work to be part of the approved plan of study. Students may not use 400-level deficiency courses to satisfy degree requirements.

Accelerated Degrees:

This degree is also offered as an accelerated degree with Construction Management, BS
Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit a Graduate Education online application.

Applicants are expected to satisfy all requirements for admission to both Graduate Education and the program. In addition, applicants are expected to be competent in basic construction topics. Admission is based on:

- proof of proficiency in the English language*
- a current resume
- an evaluation of the student's academic and professional background
- scores from the verbal, quantitative, and analytical writing portions of the GRE**
- a personal statement
- three letters of recommendation

*Applicants whose native language is not English (regardless of where they may now reside) must demonstrate proficiency in the English language by meeting the Graduate Education English proficiency requirements. Applicants required to demonstrate English proficiency and seeking a teaching assistantship must demonstrate proficiency in spoken English; a score of 55 or better on the Speaking Proficiency English Assessment Kit (SPEAK) or a score of 26 on the speaking portion of the TOEFL is required.

**Applicants must have their official GRE scores sent directly to Graduate Education. More information regarding how to send official GRE scores can be found on the Graduate Education website.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Construction Management, PHD (ESCONPHD)

Online Degree Search Title: Construction Management (PHD)

Campus: TEMPE

Program Description:

The faculty in the Del E. Webb School of Construction offer a graduate program leading to the PhD degree in construction management. The purpose of the construction management doctorate program is to prepare research scholars, new faculty and professionals for positions in industry, universities and government as well as facilitate a higher level of investigation and knowledge creation through the professor-doctoral student dynamic.

The Del E. Webb School of Construction is distinctively positioned to provide students with an interdisciplinary educational and research experience at the doctoral level, which will provide value in construction education, research and industry programs, private construction research facilities, and high-level management positions in the construction industry.

The objectives of the degree program include research experience for doctoral students who might wish to pursue careers in either industry or academia as members of interdisciplinary research teams, as well as providing a high-level interdisciplinary doctoral education for those who wish to develop academic careers teaching at the university level.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The doctoral program in construction will typically require three to four years of full-time study and research beyond the master's degree. Generally, students will be admitted into the doctoral degree program at or near the completion of their master's degree.

The program requires 84 credit hours postbachelor's degree or 54 credit hours postmaster's degree.

The program consists of:

- admission to candidacy
- core construction courses
- elective courses
- a qualifying examination
- successful defense of a dissertation prospectus and complete dissertation
- a written and oral comprehensive examination

Admission Requirements:

Students who hold a master's degree in a related field from a regionally accredited university or equivalent are eligible to apply for admission to the program. Only exceptional students will be admitted without a master's degree. Related fields include construction, civil engineering, architecture and business. At the discretion of the admission committee, students from other disciplines may be eligible as well.

Applicants must submit a Graduate Education online application.

Applicants are expected to satisfy all requirements for admission to both Graduate Education and the program. In addition, applicants are expected to be competent in construction topics.

Admission is based upon:

- official GRE scores*
- proof of English language proficiency**
- a current resume
- an evaluation of the student's academic and professional background
- masters' thesis abstract
- a personal statement from each applicant describing their career goals and research objectives
- research interests
- three letters of recommendation

*Applicants must take the GRE and have their official scores sent directly to Graduate Education. More information regarding how to send official GRE scores can be found on the Graduate Education website.

**Applicants whose native language is not English (regardless of where they may now reside) must demonstrate proficiency in the English language by meeting the Graduate Education English proficiency requirements. Applicants required to demonstrate English proficiency and seeking a teaching assistantship must demonstrate proficiency in spoken English; a score of 55 or better on the Speaking Proficiency English Assessment Kit (SPEAK) or a score of 26 on the speaking portion of the TOEFL is required.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Electrical Engineering, MS (ESEEMS)

Online Degree Search Title: Electrical Engineering (MS)

Campus: TEMPE

Program Description:

This program does not accept applications to the MS directly. Students should apply to the MSE program and, once admitted, consult with the MSE program advisors if interested in the MS program.

The electrical engineering faculty in the Ira A. Fulton Schools of Engineering offer a research program leading to the Master of Science in electrical engineering.

Graduate courses and programs are offered in the following six areas of specialization:

- control systems
- electromagnetics, antennas and microwave circuits
- electronic and mixed-signal circuit design
- electric power and energy systems
- signal processing and communications systems
- solid-state electronics

Degree Requirements: 30 credit hours and a thesis.

The credits earned toward this research degree must include a minimum of eight courses (24 credit hours minimum) and six hours of EEE 599 (thesis). As part of the eight courses, at least two should be outside the area of specialization.

Requirements include:

- at least four EEE courses
- at least two courses outside the area of specialization
- at most two 400-level courses
- at least three EEE 500-level courses
- at most one EEE 590 Reading and Conference or FSE course

exam*

*A final oral examination in defense of the thesis completes the master's requirements.

Admission Requirements:

Applicants must submit an online Graduate Education application.

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Students desiring the Master of Science in electrical engineering must initially apply to the MSE program. Students who later obtain a research advisor may transfer to the MS program.

Electrical Engineering, MSE (ESEEMSE)

Online Degree Search Title: Electrical Engineering (MSE)

Campus: ONLNE, TEMPE

Program Description:

The electrical engineering faculty in the Ira A. Fulton Schools of Engineering offer a professional program leading to the MSE in electrical engineering. Graduate courses and programs are offered in the following six areas of specialization:

- control systems (not an option for the online degree but available to on-campus students)
- electromagnetics, antennas and microwave circuits
- electronic and mixed-signal circuit design
- electric power and energy systems
- signal processing and communications systems
- solid-state electronics

Courses are available on campus and online. The degree can be completed taking all classes on campus or all classes online.

A dual degree, the MBA/MSE in electrical engineering, is available as an online option. For more information, visit <http://wpcarey.asu.edu/mba-programs/online/customize-your-MBA#degree> (<http://wpcarey.asu.edu/mba-programs/online/customize-your-MBA#degree>).

Degree Requirements: 30 credit hours and a written comprehensive exam.

The master's in electrical engineering is a professional degree requiring a minimum of 30 hours of course work (a minimum of 10 classes) and a final comprehensive examination. There is no thesis.

Requirements include:

at least five EEE courses

at least three EEE 500-level courses

at least two courses outside the area of specialization

at most one EEE 590 Reading and Conference or FSE course

at most two 400-level courses

A final comprehensive examination in the area of specialization completes the master's in electrical engineering requirements. The examination is given each semester at the end of the sixth week of classes.

Concurrent Degrees:

This degree is also offered as concurrent degree with W. P. Carey MBA - Online Program

Accelerated Degrees:

This degree is also offered as an accelerated degree with Electrical Engineering, BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

The decision to admit a student who has earned a bachelor's degree from a program accredited by ABET to a master's program in electrical engineering is based on a number of factors. A minimum requirement is an undergraduate GPA of 3.00 (out of 4.00) in the student's last two years of undergraduate work. A student whose undergraduate degree is not from an ABET-accredited program must have the equivalent of at least a 3.50 GPA in the last two years of undergraduate study and must score 156 or higher on the quantitative section of the GRE general test.

Students interested in applying to this program must submit an online application to Graduate Education.

In addition, an applicant whose native language is not English (regardless of where they may now reside) must demonstrate proficiency in the English language by meeting the English proficiency requirements stated on the Graduate Education website.

International students seeking teaching assistantships must demonstrate proficiency in spoken English by scoring at least 26 on the speaking portion of the iBT or 50 on the ASU administered Speaking Proficiency English Assessment Kit (SPEAK).

The admissions deadline for the fall semester is the preceding Dec. 31; for the spring semester, the preceding July 31.

A student whose undergraduate degree is not in electrical engineering may need to take appropriate undergraduate courses to establish a baseline of knowledge in the discipline.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Electrical Engineering, PHD (ESEEPHD)

Online Degree Search Title: Electrical Engineering (PhD)

Campus: TEMPE

Program Description:

The PhD in electrical engineering is awarded upon evidence of excellence in research leading to a scholarly dissertation that is a contribution to knowledge. Graduate courses and programs are offered in the following six areas of specialization:

- control systems
- electromagnetics, antennas and microwave circuits
- electronic and mixed-signal circuit design
- electric power and energy systems
- signal processing and communications systems
- solid-state electronics

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Doctoral students are required to complete 84 credit hours of academic credit beyond the bachelor's degree. The following summarizes the degree course requirements:

master's degree: 30 hours from any accredited institution

500-level or above: 18 hours, at least nine hours of EEE courses

research class or omnibus course hours: 12 hours, can be 400-level and above

EEE 792 Research (12)

EEE 799 Dissertation (12)

The 84 hours include 30 credit hours for the master's degree, a required 18 credit hours of doctoral course work, 12 hours of research (EEE 792), and 12 hours (and only 12 hours) of dissertation (EEE 799).

The additional 12 hours can be more hours of research (EEE 792) or can be class work as determined by the supervisory committee. At least half (nine hours) of the minimum requirement of 18 credit hours of doctoral course work must be in electrical engineering. EEE 790 Reading and Conference can be used for no more than three credit hours toward the required 18, but does not count toward the nine hours of 500-level EEE classes required.

All courses counting toward the required 18-hour minimum must be at the 500 level or higher. Note all courses having the prefix EEE 591 count as 400-level courses. No more than one three-hour reading and conference (EEE 790) course can be taken as part of the 18-hour requirement. The content of any proposed reading and conference course must be reviewed and approved by the electrical engineering director of graduate studies before a student registers for the course.

A qualifying examination, a comprehensive exam and the dissertation defense are required. Additional information on the program can be found in the "Blue Student Guide" published and available on the program's website.

Admission Requirements:

Applicants must submit an online Graduate Education application.

In general, a student must have a least a 3.00 GPA (out of 4.00) in all undergraduate course work and at least a 3.50 GPA in all graduate course work for admission to the doctoral program. A student must usually hold a master's degree before being admitted to the doctoral program. Direct doctoral admission is available for students graduating from an ABET-accredited electrical engineering program with a GPA of 3.60 or higher. A student whose master's degree is not from a U.S. institution must score 156 or higher on the quantitative section of the GRE General Test. A good score on the writing portion is considered desirable.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. International students seeking teaching assistantships must demonstrate proficiency in spoken English by scoring at least 26 on the speaking portion of the Internet-Based Test of English as a Foreign Language (TOEFL) or 50 on the ASU administered Speaking Proficiency English Assessment Kit (SPEAK).

The admission deadline for the fall semester is the preceding Dec. 31; for the spring semester, the deadline is the preceding July 31.

A student whose undergraduate degree is not in electrical engineering may need to take appropriate undergraduate courses to establish a baseline of knowledge in the discipline.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Electrical Engineering (Arts, Media and Engineering), MS (ESAMEMS)

Online Degree Search Title: Electrical Engineering (Art, Media and Eng) (MS)

Campus: TEMPE

Program Description:

A concentration in arts, media and engineering has been established as a collaboration between the electrical engineering program at ASU and the Herberger Institute for Design and the Arts. This concentration is available both for the MS and the PhD students admitted to this program who take two-thirds of their course, research and thesis credits from the electrical engineering program and one-third of the credits from the arts, media and engineering program. All applicants are strongly encouraged to see the FAQ on this concentration available at <http://ecee.engineering.asu.edu/faq-ecee-ame-concentration> (<http://ecee.engineering.asu.edu/faq-ecee-ame-concentration>).

Electrical engineering students in the arts, media and engineering concentration undergo training toward integrating principles of digital signal processing, pattern recognition, computer vision and multimedia computing with interdisciplinary objectives, with the goal of enabling new paradigms of human-machine experience that directly address societal needs and facilitate knowledge. Examples include media-based intelligent systems for health care and well-being, as well as promotion of environmentally sustainable practices. For more information see <http://research.ame.asu.edu> (<http://research.ame.asu.edu/>).

Degree Requirements: 30 credit hours and a thesis.

Eight courses are required, typically five from EEE and three from AME. In addition, six hours of thesis are required, typically four credits from EEE and two from AME.

Admission Requirements:

Students interested in applying to this program must submit the Graduate Education online application. Students from ABET-accredited undergraduate programs who wish to be considered for a master's program must have a minimum GPA of 3.00 (on a 4.00 scale) in the last two years of undergraduate course work. Students from undergraduate programs that are not accredited by ABET must have a minimum GPA of 3.50 (on a 4.00 scale) in the last two years of undergraduate course work or have graduated first class with distinction and must score in the 90th percentile or higher on the quantitative section of the GRE general test.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

International students seeking teaching assistantships must demonstrate proficiency in spoken English by scoring at least 26 on the speaking Academic Catalog Archive 2014-2015 373

portion of the Internet-Based Test of English as a Foreign Language (TOEFL) or 50 on the ASU-administered Speaking Proficiency English Assessment Kit (SPEAK).

Applicants should submit materials that reflect the hybrid nature of the arts and engineering degree, including a statement of purpose and curriculum vitae demonstrating interest and relevant experience in the area. Students will have the opportunity to upload their curriculum vitae and statement of purpose when completing the online application. Additionally, the arts, media and engineering program requires three letters of recommendation from individuals familiar with the applicant's ability to succeed in an interdisciplinary research environment.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Program details are as follows:

- a comprehensive examination
- the dissertation defense
- a qualifying examination
- 10 courses are required, typically seven from EEE and three from AME
- 12 hours of dissertation are required, typically eight credits from EEE and four from AME
- 12 hours of research are required, typically eight credits from EEE and four from AME

Admission Requirements:

Applicants must submit an online Graduate Education application.

Applicants with a master's degree who wish to be considered for the doctoral program must have a minimum GPA of 3.50 (on a 4.00 scale) in their master's program. Applicants without a master's degree must have a minimum GPA of 3.60 (on a 4.00 scale) in the last two years of undergraduate course work and have graduated from an ABET-accredited undergraduate program.

In addition to an online application to Graduate Education, an applicant whose native language is not English (regardless of where they may now reside) must demonstrate proficiency in the English language by meeting the English proficiency requirements stated on the Graduate Education website.

International students seeking teaching assistantships must demonstrate proficiency in spoken English by scoring at least 26 on the speaking portion of the iBT or 50 on the ASU-administered Speaking Proficiency English Assessment Kit (SPEAK).

Applicants should submit materials that reflect the interdisciplinary nature of the arts and engineering degree, including a statement of purpose and curriculum vitae demonstrating interest and relevant experience in the area. Students will have the opportunity to upload their curriculum vitae and statement of purpose when completing the online application. Additionally, the arts, media and engineering program requires three letters of recommendation from individuals familiar with the applicant's ability to succeed in an interdisciplinary research environment.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Engineering, MEng (ESENGRMENG)

Online Degree Search Title: Master of Engineering (MEng)

Campus: ONLNE, TEMPE

Program Description:

When pursuing an MEng, students can customize their learning experience by selecting a curriculum that addresses their academic and professional goals. The master's is designed for working professionals and is delivered entirely online to meet the unique needs of professional engineers. It is a practice-oriented degree program.

In the MEng program, multiple emphasis areas are available with additional areas under development. Within each area, there are specific course requirements in addition to the general program requirements. Students can select one of several areas of study available, such as:

- embedded systems
- engineering management
- modeling and simulation
- quality, reliability and statistical engineering
- systems engineering

Engineers who enter the master's program have the opportunity to gain valuable experience applicable to their industry while gaining an advanced degree. Convenience and flexibility are key advantages of this program. The Master of Engineering, which can be earned entirely through distance learning, is a 30-credit-hour degree program that does not require GRE results, a thesis or on-campus attendance.

The master's is only available through distance learning. The degree program is supported through online courses available from the Ira A. Fulton Schools of Engineering.

Degree Requirements: 30 credit hours and a written comprehensive exam, or 30 credit hours and an oral comprehensive exam, or 30 credit hours including the required applied project course (CSE 593 or IEE 585 or IEE 593).

- Students must complete a total of 30 credit hours equaling 10 courses to earn a Master of Engineering. One half of all course work, excluding the practice-oriented project, must be in engineering.
- Students must complete three credit hours of applied engineering mathematics and three credit hours of engineering management/business.
- A culminating event is required and will be identified by the student's advisory committee. It could be a final written or oral examination, or the final report for a practice-oriented project. Additional requirements may exist for some academic units and emphasis areas of the Master of Engineering program.

Admission Requirements:

To be considered for admission, the following are required:

- the Graduate Education online application
- official transcripts from all institutions
- bachelor's degree required with a background in the desired field of study
- a minimum GPA of 3.00 (on a 4.00 scale) for the last 60 credit hours of the undergraduate transcript
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

GRE scores are not required.

Graduates of non-U.S. institutions must satisfy admission requirements established by ASU Graduate Education.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Engineering, MS (TSEGRMS)

Online Degree Search Title: Engineering MS

Campus: POLY

Program Description:

The MS in engineering program consists of a core set of courses designed to develop applied analytical expertise across disciplinary boundaries, with direct applications of advanced design principles to system design, management and control. The expertise developed in the core curriculum is reinforced through focus areas that provide flexibility for the student, including alternative energy, mechanical, electrical and manufacturing engineering. The program incorporates a relevant project, required of all students in this degree program, within the focus area courses. The degree will offer options for students culminating in a master's thesis, an applied project or a capstone project course. Each of these options is designed to engage students with real-world applications of engineering and to develop problem-solving skills.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required Applied Project course (EGR 593) and an Oral Comprehensive Exam, or 30 credit hours including the required Capstone course (EGR 570).

Culminating Experience: EGR 593 Applied Project (3)
core course credit hours (12)
focus area course credit hours (12)
elective course credit hours (3)
as applicable, other requirements: Not Applicable
overall required credit hours (30)

Culminating Experience: EGR 570 Capstone Course (3)
core course credit hours (12)
focus area course credit hours (12)
elective course credit hours (3)
as applicable, other requirements: Not Applicable
overall required credit hours (30)

Culminating Experience: EGR 599 Thesis (6)
core course credit hours (12)
focus area course credit hours (12)
elective course credit hours: Not Applicable
as applicable, other requirements: Not Applicable
overall required credit hours (30)

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Engineering (Electrical Systems), BSE
- Engineering (Mechanical Engineering Systems), BSE
- Engineering (Robotics), BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Program admission requirements include:

- minimum of an earned U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution that is officially recognized by that country in engineering, physical sciences, mathematics or a similar field
- minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's first bachelor's degree program or a minimum of 3.00 cumulative GPA (scale is 4.00 = A) in the applicable master's degree

- a "B" (3.00 on a 4.00 scale) grade point average in the last 60 semester hours or 90 quarter hours of undergraduate course work*

GRE test scores

- proof of English language proficiency**

*If the applicant does not meet the minimum GPA requirements, the application may still be considered. In certain cases, demonstrated aptitude through professional experience or additional postbaccalaureate education will be considered.

**Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Engineering Science (Enterprise Systems Innovation and Management), MSE (ESIEEMSE)

Online Degree Search Title: Engineering Science (Enterprise Sys Innov and Mgmt) (MSE)

Campus: ONLNE, TEMPE

Program Description:

The Ira A. Fulton Schools of Engineering offer an MSE in engineering science with an enterprise systems innovation and management concentration, providing enterprise and technology managers a wide range of analytical and strategic methods in enterprise systems, innovation and management. The core focus of the program includes enterprise product and service (offering) innovation, process and strategy innovation within the enterprise, in addition to enterprise management, asset, design and business model innovation.

The enterprise systems innovation and management concentration allows professionals the opportunity to enhance their leadership abilities and analytical thinking and bring value to their organization and professional advancement. In today's global environment, business execution is becoming increasingly competitive. Managing resources, products and customers across the globe magnifies organizational challenges and requires more sophisticated systems, tactical thinking and advanced methods of measuring, analyzing and controlling performance. Managers must understand the underlying issues across the enterprise to impact and create business value.

The master's in engineering science with a concentration in enterprise systems innovation and management is only available through distance learning and is no longer accepting new applications. The degree program is supported through online courses available from the Ira A. Fulton Schools of Engineering.

Degree Requirements: 30 credit hours including the required applied project course (IEE 593).

- Students must complete a total of 30 credit hours, equaling 10 courses, to earn an MSE.
- Students must complete a three-credit-hour applied project (IEE 593), three credits of applied engineering mathematics and three credits of engineering management/business.
- Students must complete the required culminating experience course (IEE 593) and an applied project.
- Additional requirements may exist for some academic units.

Admission Requirements:

No new applications are being accepted for the master's in engineering science with a concentration in enterprise systems innovation and management.

Applicants must submit:

- the Graduate Education online application
- official transcripts from all institutions
- a minimum grade point average of 3.00, on a 4.00 scale, for the last 60 credit hours of the undergraduate transcript
- The schools attended and major of study completed are also significant factors in admission; an example of undergraduate degrees of applicants might include, but not be limited to, a BS in business, BS in mathematics or BS in engineering.
- Completion of a basic statistics course and calculus course is required for admission; a prerequisite course in industrial statistics and tools might be required for some students not meeting this requirement.

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

- GRE scores are not required.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Engineering Science (Software Engineering), MSE (ESSFEMSE)

Online Degree Search Title: Engineering Science (Software Engineering) (MSE)

Campus: ONLNE

Program Description:

The MSE in engineering science with a software engineering concentration offers specialized courses founded on the fundamentals and principles of software engineering. The program provides the knowledge and skills needed to work as a software engineer or software task leader on large and small projects using either agile methodologies or formal capability maturity model integration approaches. The program addresses major software development methodologies, techniques, tools and processes for developing and managing software projects. The curriculum is based on the Software Engineering Body of Knowledge under the leadership of the IEEE Computer Society. Each course will place an emphasis on applied assignments and projects that are relative to the student's workplace.

The program is only available through distance learning, supported through online courses available from the Ira A. Fulton Schools of Engineering.

Degree Requirements: 30 credit hours and a portfolio, or 30 credit hours including the required applied project course (CSE 593).

- Students must complete 30 credit hours equaling 10 courses to earn a master's.
- Students must complete a culminating experience (applied project or portfolio), three credits of applied engineering mathematics and three credits of engineering management/business.
- A culminating event is required and will be identified by the student's advisory committee. It could be a project portfolio or the final report for an applied project.
- Additional requirements may exist for some academic units.

Admission Requirements:

To be considered for admission, applicants must submit:

- the Graduate Education online application
- official transcripts from all institutions to be evaluated
- applicants must have earned a BS in computer engineering, software engineering or a related field
- a minimum grade point average of 3.00 (on a 4.00 scale) in the last 60 credit hours of the undergraduate transcript (or for the last 12 units of the postbaccalaureate transcript)
- evidence of demonstrated expertise in the area of object-oriented programming, advanced data structures, algorithm design and algorithm analysis; maturity in high-level programming (required); successful completion of Calculus I (a minimum requirement)
- proof of English language proficiency*

*An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

GRE scores are not required.

Graduates of non-U.S. institutions must satisfy admission requirements established by ASU Graduate Education.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Industrial Engineering, MS (ESINDENMS)

Online Degree Search Title: Industrial Engineering (MS)**Campus:** ONLNE, TEMPE**Program Description:**

The MS in industrial engineering degree program offers a thesis track and a nonthesis track. At the time of the admission, students' applications are considered primarily for the nonthesis track. After matriculating at Arizona State University, a student may consult and receive approval from the industrial engineering faculty to pursue the thesis track. Final consideration and approval may be given to students who have obtained an ASU graduate grade point average of 3.20 or greater.

Industrial engineering combines knowledge from the physical, mathematical and social sciences to design systems that integrate people, equipment and information in the most efficient way. Improvements made by industrial engineers in automation, information control and process quality revolutionized manufacturing in the past century and greatly increased quality of life. Trends towards globalization, increased complexity and rapid technological innovation create an even greater need for industrial engineering in the 21st century.

Successful industrial engineering concepts are also spreading to the financial, logistics and health care services industries, affording new areas of opportunity.

Faculty members in the industrial engineering program are internationally recognized for their innovative research projects, funded both by government and industry. The industrial engineering program at ASU is consistently ranked among the top 20 in the nation for graduate programs in the United States.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours and a written comprehensive exam.

The master's in industrial engineering is a 30-credit-hour program which has a thesis and a nonthesis track. The thesis track requires 24 credit hours of course work, six credit hours of thesis, a written thesis and a final oral examination. The nonthesis track requires 30 hours of course work and a comprehensive exam. All students are required to take the following course work:

IEE 505 Information Systems Engineering (3) or IEE 598 Design of Computational Systems (3)

IEE 545 Simulating Stochastic Systems (3)

IEE 572 Design of Engineering Experiments (3) or IEE 578 Regression Analysis (3)

IEE 574 Applied Deterministic Operations Research Models (3) or IEE 575 Applied Stochastic Operations Research Models (3)

three to four area courses

zero to two elective courses

IEE 599 Thesis (6) (thesis track only)

Students must successfully defend the thesis or pass the written comprehensive examination to graduate.

Concurrent Degrees:

This degree is also offered as concurrent degree with W. P. Carey MBA - Online Program

Accelerated Degrees:

This degree is also offered as an accelerated degree with Industrial Engineering, BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Students must submit an online application to Graduate Education. Required supplementary application materials include:

- a statement of purpose
- GRE scores
- three letters of recommendation
- official transcripts from all institutions attended

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

At the time of application, all applicants must have successfully completed a minimum of nine credit hours of calculus (Calculus I, II, III) with a grade of "C" (2.00) or higher.

A student with any deficiency course work must complete each deficiency with a grade of "B" (3.00) or better within two semesters of admission to the program. Deficiency courses include:

CSE 110 Principles of Programming with Java (3)

CSE 205 Concepts of Computer Science and Data Structures (3)

IEE 376 Operations Research Deterministic Techniques/Applications (3)

IEE 380 Probability and Statistics for Engineering Problem Solving (3)

IEE 470 Stochastic Operations Research (3)

MAT 242 Linear Algebra (2)

For full consideration, the application deadline is Jan. 15 for fall semester and Sept. 15 for spring semester.

Industrial Engineering, MSE (ESINDENMSE)

Online Degree Search Title: Industrial Engineering (MSE)

Campus: ONLNE, TEMPE

Program Description:

Industrial engineering combines knowledge from the physical, mathematical and social sciences to design efficient manufacturing and service systems that integrate people, equipment and information. Improvements made by industrial engineering in automation, information control and process quality revolutionized manufacturing in the past century and greatly increased our quality of life. Trends toward globalization, increased complexity and rapid technological innovation create an even greater need for industrial engineering in the 21st century.

Successful industrial engineering concepts are also spreading to the financial, logistics and health care services industries, affording new areas of opportunity.

The MSE in industrial engineering program is designed to bridge the gap between knowledge of engineering sciences and creative engineering practice, while at the same time increasing the depth and breadth of knowledge in selected areas of emphasis. The program of course work applicable to the degree is potentially unique for each student, although it must conform to the general guidelines for subject matter content for the degree.

Degree Requirements: 30 credit hours and a written comprehensive exam.

The MSE in industrial engineering requires:

four core courses

four area courses

two electives

a written comprehensive examination

Students are required to complete the following course work:

IEE 505 Information Systems Engineering (3) or IEE 506 Design of Computational Systems (3)

IEE 545 Simulating Stochastic Systems (3) or IEE 567 Simulation Systems Analysis (3)

IEE 572 Design of Engineering Experiments (3 credits) or IEE 578 Regression Analysis (3)

IEE 574 Applied Deterministic Operations Research Models (3) or IEE 575 Applied Stochastic Operations Research Models (3)

four area courses

two elective courses

Students must complete a final written comprehensive examination in three of the four core courses. A student who maintains a 3.75 GPA in the four core courses is exempt from the written comprehensive examination.

Admission Requirements:

Students will submit the online application to Graduate Education. Required supplementary application materials include:

- a statement of purpose
- GRE scores
- three letters of recommendations

Applicants whose native language is not English (regardless of where they may now reside) must also meet the University's English Proficiency requirements prior to having the application processed. Please see <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

At the time of the application, all applicants must have completed a minimum of nine credit hours of calculus (Calculus I, II, III) with a grade of "C" (2.00) or higher.

A student assigned with deficiency course work must complete the class with a grade of "B" (3.00) or higher within two semesters of admission to the program. Deficiency courses include:

CSE 110 Principles of Programming with Java (3)
CSE 205 Concepts of Computer Science and Data Structures (3)
IEE 376 Operations Research Deterministic Techniques/Applications (3)
IEE 380 Probability and Statistics of Engineering Problem Solving (3)
IEE 470 Stochastic Operations Research (3)
MAT 242 Linear Algebra (2)

For full consideration, the application deadline is Jan. 15 for fall semester and Sept. 15 for spring semester.

Industrial Engineering, PHD (ESINDENPHD)

Online Degree Search Title: Industrial Engineering (PhD)

Campus: TEMPE

Program Description:

The PhD in industrial engineering program engages students in fundamental and applied research in industrial engineering as preparation for careers in academia, government and industry. The overall educational objective of graduate study in industrial engineering is to improve each student's ability to identify, define and solve problems and perform original research to address the underlying causes of these problems. Industrial engineers develop qualitative and quantitative abilities to guide the design and operation of sustainable organizations and systems.

Faculty members in the industrial engineering program are internationally recognized for their innovative research projects, funded both by government and industry. The industrial engineering program at ASU is consistently ranked among the top 20 graduate programs in the United States.

Degree Requirements: 85 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students are required to complete five core courses within the first year of full-time enrollment in the doctoral program:

IEE 605 Foundations of Information Systems Engineering (3)
IEE 620 Optimization I (3)
IEE 622 Optimization II (3)
IEE 640 Probability & Stochastic Processes (3)
IEE 670 Mathematical Statistics (3)

After completion of the core courses, each student must take and successfully pass a qualifying exam on four of the five core courses to be allowed to continue in the program. As part of the program, students will also complete the following required courses:

IEE 594 Conference and Workshop (1)
IEE 700 Research Methods (1)
IEE 784 Teaching Internship (1)
IEE 790 Reading and Conference (1) OR
IEE 584 Internship (1), OR
an additional IEE 594 Conference and Workshop (1)
IEE 792 Research (12)
IEE 799 Thesis (12)

Students must also complete 42 credit hours of approved course work beyond the core and required courses.

Eligible students can request a master's in passing after successfully completing the qualifying exam and completing 30 credit hours in the doctoral program.

A written and an oral comprehensive examination are required no later than the semester following completion of 57 credit hours of course work in the plan of study. The student must also successfully defend the dissertation prospectus and the dissertation research.

Admission Requirements:

Students will submit an online application to Graduate Education. Required supplementary application materials include:

- a statement of purpose
- GRE scores
- three letters of recommendation
- official transcripts from all institutions attended

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

At the time of application, all applicants must have successfully completed a minimum of nine credit hours of calculus (Calculus I, II, III) with a grade of "C" (2.00) or higher.

A student with any deficiency course work must complete each deficiency with a grade of "B" (3.00) or better within two semesters of admission to the program. Deficiency courses include:

CSE 110 Principles of Programming with Java (3)

CSE 205 Concepts of Computer Science and Data Structures (3)

IEE 376 Operations Research Deterministic Techniques/Applications (3)

IEE 380 Probability and Statistics for Engineering Problem Solving (3)

IEE 470 Stochastic Operations Research (3)

MAT 242 Linear Algebra (2)

For full consideration, the application deadline is Dec. 15 for fall semester and Sept. 15 for spring semester.

Information Technology, MS (TSIFTMS)

Online Degree Search Title: Information Technology MS

Campus: POLY

Program Description:

Students who select the MS in information technology obtain advanced technology skills that prepare them for careers in industry, education or government. Through the curriculum, graduates design and implement information technology solutions, develop and implement enterprise databases, perform technical analysis of systems and networks, design and create technical graphic and geographic technology solutions, and serve as information technology and communications security experts. The program focuses on developing the ability to conceptualize, organize and realize information technology projects that meet the needs of users within an organizational or societal context. Program course work encompasses core technologies and a specialization area with a culminating project experience.

Degree Requirements: 33 credit hours including the required applied project course (IFT 593).

overall required credit hours (30)

core course credit hours (15)

elective course credit hours (12)

culminating experience: IFT 593 Applied Project (3)

Admission Requirements:

Program admission requirements include:

- minimum of a bachelor's or master's degree in information technology, computer science, applied computing, engineering or a closely-related field from a regionally accredited college or university
- minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's first bachelor's degree program; minimum of 3.00 cumulative GPA (scale is 4.00 = A) in the applicable master's degree
- GRE test
- letters of recommendation
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Lean Six Sigma Black Belt (Certificate), Certificate (ESLSSBGRCT)

Online Degree Search Title: Lean Six Sigma Black Belt Certificate

Campus: ONLNE, TEMPE

Program Description:

The Lean Six Sigma Black Belt graduate certificate is aimed at engineers and managers who oversee tactical and strategic projects as well as various operational functions in their organizations. The certificate aims to provide students with a set of contemporary tools to produce measurable improvements in business processes. In particular, graduates of the certificate program will:

- gain an in-depth understanding of the Define Measure Analyze Improve Control process and the tools used to achieve effective process and product improvement
- develop the leadership and team-building skills necessary to oversee continuous improvement projects with many stakeholders
- understand how lean principles and design for Six Sigma fit into the overall task of product and process improvement

Courses will be available face-to-face for on-campus students and available online through the Office of Global Outreach and Extended Education. To support the professional engineering workforce, students will be able to complete the graduate certificate entirely online.

The culminating experience is an applied project students are required to complete as part of the capstone course. This requirement is in line with the Black Belt certification requirements used nationwide in similar certification programs.

Degree Requirements: 15 credit hours including the required capstone courses (IEE 585).

overall required credit hours (15)

required course credit hours (6)

elective course credit hours (6)

culminating experience: IEE 585 Six Sigma Capstone (3)

Admission Requirements:

Students must fulfill both the requirements of Graduate Education and the Ira A. Fulton Schools of Engineering.

Students should have completed a course in basic statistics, have taken math courses through vector calculus, and demonstrate computer skills with modern programming languages and software. The basic statistics course should cover descriptive statistics, modeling uncertainty through the use of probability distributions, the concept of hypothesis testing, analysis of variance and confidence intervals, and simple linear regression.

Manufacturing Engineering, MS (TSMEGRMS)

Online Degree Search Title: Manufacturing Engineering (MS)

Campus: POLY

Program Description:

Manufacturing engineering draws upon two distinct bodies of knowledge, manufacturing processes (e.g., how materials are altered in either shape or properties) and the processes of manufacturing (e.g., manufacturing systems and management). This combination of topics is embedded in the MS in manufacturing engineering program, and students can follow their interests by developing deeper expertise in either manufacturing processes or the processes of manufacturing. The degree provides advanced technical content to help students prepare for career transitions and improve company competitiveness. The program consists of a core set of courses designed to provide all students with advanced knowledge of manufacturing fundamentals and an introduction to systems engineering. The expertise developed in the core curriculum supports student focus

areas building on existing unit faculty strengths, including automation, additive and subtractive manufacturing processes (including computer numerical control machining), modeling and simulation, electronics manufacturing, and manufacturing management. A thesis, applied project or capstone course option is offered.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required Applied Project course (EGR 593), or 30 credit hours including the required Capstone course (EGR 570).

Required Core (12)

electives or research (12-15)

one of the following options is required of all students: EGR 599 Thesis (6)

EGR 593 Applied Project (3)

EGR 570 Capstone Design (3)

Total Credit Hours (30)

Admission Requirements:

Program admission requirements include:

- minimum of a bachelor's or master's degree in engineering, physical sciences, mathematics, or similar from a regionally accredited U.S. institution, or the equivalent of a U.S. bachelor's degree from an international institution that is officially recognized by that country
- minimum of a "B" (3.00 on a 4.00 scale) GPA in the last 60 semester hours or 90 quarter hours of undergraduate course work
- GRE scores
- proof of English proficiency*

*If the student is from a country whose native language is not English (regardless of where they may now reside), they must provide proof of English proficiency. Acceptable proof is as follows: TOEFL score of at least 550 (PBT) or 80 (iBT), IELTS overall band score of at least 6.5, or Pearson Test of English (PTE) score of at least 60.

Students must fulfill the requirements of Graduate Education and the Ira A. Fulton Schools of Engineering.

Materials Science and Engineering, MS (ESMATEMS)

Online Degree Search Title: Materials Science and Engineering (MS)

Campus: ONLNE, TEMPE

Program Description:

The materials science and engineering MS program has two track options: a thesis track and a nonthesis track. The nonthesis track has an applied project or a portfolio option. The thesis and applied project options require a faculty advisor. All students are admitted to the nonthesis track. If students wish to change to the thesis track, a faculty advisor has to be secured, and then a petition can be submitted to change to the thesis track. This graduate program prepares students for professional careers in materials science and engineering and related fields in industry, government and educational institutions.

Degree Requirements: 32 credit hours and a portfolio, or 32 credit hours and a thesis, or 32 credit hours including the required applied project course (MSE 593).

Core Courses (6 credits)

Thesis students must take six hours of core courses selected from the list below. Note that the fourth choice requires both MSE 526 and MSE 527 but only the MSE 526 may be counted as a technical elective. This selection is most appropriate for students who have some background in modern physics.

MSE 515 Introduction to Electrical, Magnetic and Optical Properties of Materials (3)

MSE 523 Structural and Mechanical Properties of Materials (3)

MSE 524 Advanced Thermodynamics (3)

MSE 526/527 Materials Physics I and II (6)

MSE 561 Phase Transformations, Kinetics, and Diffusion in Solids (3)

Technical Electives (18 credits)

Students must take 18 hours of technical electives. Refer to MSE handbook and checksheets for options.

Seminar

Students must take a total of two hours (across two semesters) of MSE 591 Seminar.

Thesis

Thesis students must take six hours of thesis (MSE 599), complete a thesis and pass the thesis defense examination.

Applied Project

Students in the applied project track are required to take three hours, but may take up to six hours, of applied project (MSE 593), complete an applied project and pass the applied project presentation as the final culminating experience.

Portfolio

Students in the portfolio track will submit, in the last semester of their program, a portfolio containing at least two projects from previous materials science and engineering course work, along with a paper explaining the projects. Students must successfully complete the portfolio requirements to pass the culminating experience.

Accelerated Degrees:

This degree is also offered as an accelerated degree with Materials Science and Engineering, BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Admission to the materials science and engineering graduate program is highly competitive.

To be considered for admission to the master's program, the student must submit these items:

- online Graduate Education application
- application fee
- official GRE score
- proof of English language proficiency*
- official transcripts from all prior institutions attended
- personal statement
- resume or curriculum vitae
- three letters of recommendation

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. Students whose native language is not English are required to achieve a minimum score of 100 on the Internet-based Test of English as a Foreign Language (TOEFL).

Students must fulfill both the requirements of Graduate Education and the Ira A. Fulton Schools of Engineering.

The application priority deadlines are Jan. 15 for the fall semester and Aug. 1 for the spring semester.

Materials Science and Engineering, MSE (ESMATEMSE)

Online Degree Search Title: Materials Science and Engineering (MSE)

Campus: ONLNE, TEMPE

Program Description:

The materials science and engineering program faculty offer an MSE in materials science and engineering. This degree does not require a thesis. The program is intended for students who are working full-time in industry. Many of the courses are offered online. Three concentration options are available:

- general
- semiconductor processing and packaging packaging track
- semiconductor processing and packaging processing track

Degree Requirements: 32 credit hours and a portfolio, or 32 credit hours including the required applied project course (MSE 593).

A total of 32 credit hours are required for the MSE in materials science and engineering. Students must take 24 credit hours of technical electives, two credit hours of seminar (MSE 591) and six credit hours of applied project (MSE 593) with the following conditions:

- Either IEE 570 Advanced Quality Control or IEE 572 Design of Experiments are highly recommended as technical electives.
- Up to six credit hours of electives may be taken at the 400 level or higher.
- Up to nine credit hours may be from disciplines outside materials, with advisor approval.
- The seminar (MSE 591) is a one credit hour course. Reading and conference (MSE 590) may be taken, with advisor approval, in place of seminar for online students.

Applied project credits (MSE 593) are conducted under the guidance of a faculty member, but can be done remotely. Students must consult the faculty advisor and have an approved applied project plan on file prior to enrolling in applied project course.

Culminating Event

The culminating event consists of an oral presentation before the supervisory committee, in which the student must present the findings in their applied project report, as well as answer questions garnered from the coursework they have completed in the program. The report, typically 25 pages in length, is on a topic of the student's choice and approved by the supervisory committee. Arrangements can be made for the distance learning students to conduct an oral examination by telephone or an online meeting program.

Admission Requirements:

Applicants to the MSE program are required to submit the following:

- application fee
- Graduate Education online admission application
- official transcripts
- personal statement
- resume or curriculum vitae
- Test of English as a Foreign Language (TOEFL) score for applicants whose native language is not English
- three letters of recommendation

GRE scores are not required for admission to the MSE program.

Students must fulfill the requirements of both Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Materials Science and Engineering, PHD (ESENMATPHD)

Online Degree Search Title: Materials Science and Engineering (PhD)

Campus: TEMPE

Program Description:

The PhD in materials science and engineering prepares students for professional careers in materials science and engineering and related fields in industry, government and educational institutions.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Credit Requirements

The doctoral program in materials science and engineering consists of 84 hours of graduate work. A total of 10 lecture courses (30 credit hours) plus three credit hours of seminar are required. Students entering the program with a master's degree in materials science may apply up to 30

hours toward the plan of study, but must take four lecture courses at ASU. If the MS has not been completed, a maximum of 12 hours of graduate work may be applied with program approval.

Required Courses

The doctoral program in materials science and engineering program core requirements include 12 hours of graduate-level materials science and engineering courses. The following four courses (comprising these 12 hours) are required for all students:

Core Courses (12 hours)

MSE 523 Structure and Mechanical Properties (3)

MSE 524 Advanced Thermodynamics (3)

MSE 515 Introduction to Electronic, Magnetic and Optical Properties or MSE 526/MSE 527 Materials Physics I and II (3)

MSE 561 Kinetics and Phase Transformations in Solids (3)

Electives (3-18 credit hours)

Students entering with a bachelor's degree are required to complete a minimum of 18 hours of elective course work. Graduate elective courses may be selected from any of the graduate courses in the materials science and engineering curriculum as well as elective courses from related disciplines (e.g., chemistry, physics, electrical engineering), subject to approval by the faculty advisor. These courses should comprise a focused plan of study with emphasis in a particular area of materials science, organized in consultation with faculty supervisory committee.

Research (24-39 credit hours)

Students entering the doctoral program with a master's degree need to complete 24 hours of research (MSE 792). Students entering with a bachelor's degree are required to complete 39 hours of research (MSE 792).

Dissertation (12 credit hours)

All doctoral students are required to complete 12 hours of dissertation (MSE 799). Note that 12 hours (and only 12) of dissertation credit (MSE 799) are required on the plan of study.

Seminar (3 credit hours)

The MSE 591 seminar is a one credit hour course. Students must take three credit hours (across three semesters) of seminar. The seminar course consists of a series of seminars presented by invited speakers and graduate students. Doctoral students are required to give a seminar presentation once during the academic year after they have begun their research.

Admission Requirements:

Applicants to the doctoral program are required to submit the following:

- Graduate Education online admissions application
- application fee
- GRE score
- official transcripts
- personal statement
- resume or curriculum vitae
- Test of English as a Foreign Language (TOEFL) score for international students
- three letters of recommendation

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Once the application file is complete, the file is forwarded to the faculty admissions committee for evaluation and recommendation. Financial aid is available to highly qualified students. The most common type of financial aid is teaching and research assistantships, which are accompanied by tuition waivers and major medical insurance benefits. Other types of financial aid include Ira A. Fulton Schools of Engineering fellowships and Science Foundation Arizona fellowships.

Students must fulfill both the requirements of Graduate Education and the Ira A. Fulton Schools of Engineering.

Applications are due Jan. 15 for fall admission and Sept. 1 for spring admission.

Mechanical Engineering, MS (ESMEMS)

Online Degree Search Title: Mechanical Engineering (MS)

Campus: TEMPE

Program Description:

The mechanical engineering MS program offers two track options: a thesis option and a nonthesis option.

The nonthesis option has two possible culminating experiences: a portfolio or an applied project. The applied project option requires a faculty advisor.

All students are admitted to the nonthesis option unless a faculty thesis advisor is secured, at which time the student can initiate a change to the thesis option.

Degree Requirements: 30 credit hours and a portfolio, or 30 credit hours and a thesis, or 30 credit hours including the required applied project course (MAE 593).

The plan of study (iPOS) must be in accordance with university and program requirements. A minimum cumulative GPA of 3.00 is required throughout the program. Candidates for the program must complete a minimum of 30 credit hours of 500-level and above courses with a minimum cumulative GPA of 3.00 or above in the following courses:

- At least 12 credit hours of MAE graduate course work (500 level and above) are required. Non-MAE graduate courses may be substituted upon the approval of the MAE Graduate Affairs Committee.
- The student should complete at least six credit hours of graduate mathematics-oriented courses (500 level and above).
- At least six credit hours of additional graduate courses are required; these may be either MAE or non-MAE courses, and are not restricted to science, mathematics or engineering. A maximum of three credit hours of MAE 584 Internship may be counted toward this requirement.
- Students are required to complete 30 hours of course work plus the submission of a portfolio, or six hours of MAE 599 Thesis for thesis students, or three hours of MAE 593 Applied Project for applied project students. A final defense of the thesis will be required for thesis students.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Aerospace Engineering (Aeronautics), BSE
- Aerospace Engineering (Astronautics), BSE
- Aerospace Engineering (Autonomous Vehicle Systems), BSE
- Mechanical Engineering, BSE
- Mechanical Engineering (Computational Mechanics), BSE
- Mechanical Engineering (Energy and Environment), BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Admission to the mechanical engineering graduate program is highly competitive.

To be considered for admission to the master's program, the student must submit these items:

- online Graduate Education application
- application fee
- official GRE score
- proof of English language proficiency*
- official transcripts from all prior institutions attended
- personal statement
- resume or curriculum vitae
- three letters of recommendation

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. Students whose native language is not English are required to achieve a minimum score of 80 on the Internet-based Test of English as a Foreign Language (TOEFL).

Students must fulfill both the requirements of Graduate Education and the Ira A. Fulton Schools of Engineering.

Application priority deadlines are Jan. 15 for the fall semester and August 1 for the spring semester.

Mechanical Engineering, MSE (ESMEMSE)

Online Degree Search Title: Mechanical Engineering (MSE)

Campus: TEMPE

Program Description:

The mechanical engineering faculty offer a graduate program leading to the MSE in mechanical engineering. The MSE is the nonthesis master's degree in mechanical engineering and requires either a comprehensive exam or an applied project as a culminating event. A number of wide and diverse research areas may be pursued. All of the graduate programs stress a sound foundation leading to a specialized area of study. Additional information can be found in the program guidelines on the school website.

Degree Requirements: 30 credit hours and a portfolio, or 30 credit hours including the required applied project course (MAE 593).

The MSE is the nonthesis master's. The students must pursue one of the following options for their culminating experience: the comprehensive exam (default) or an applied project. Students taking the comprehensive exam, except for Master's-in-Passing (MIP) students, will normally list the graduate program chair as their program committee chair. Students will be allowed to pursue an applied project only if they are able to first secure a faculty advisor, who will then also serve as the program committee chair. The name of the student's program committee chair must be filed with the graduate programs office via the interactive plan of study (iPOS) by the time the student has completed 15 credit hours. A change of program committee chair requires approval of the graduate program chair.

For students pursuing the applied project option, the master's program committee shall consist only of the program committee chair, i.e., only the faculty advisor.

The iPOS must be in accordance with university and program requirements. For students currently enrolled in a master's program at another institution and wishing to transfer to ASU, note that a maximum of nine graduate credit hours may be counted toward an MSE at ASU. A minimum cumulative GPA of 3.00 is required throughout the program. Candidates for the MSE must complete a minimum of 30 credit hours of course work distributed as follows:

- At least 15 credit hours of graduate course work (500 level and above). Non-MAE graduate courses may be substituted upon the approval of the MAE Graduate Affairs Committee.
- At least six credit hours of graduate mathematics-oriented courses (500 level and above). Students are strongly encouraged to take MAE 501 Linear Algebra in Engineering and MAE 502 Partial Differential Equations in Engineering.
- At least six credit hours of additional graduate (500 level and above) courses, which are not restricted to MAE courses or to other technical electives. A maximum of three credit hours of MAE 584 Internship may be counted toward this requirement. A combined maximum of six credit hours of MAE 591 Seminar, MAE 594 Graduate Research Conference, or MAE colloquium classes may be counted toward this requirement.
- A minimum of three hours of MAE 593 Applied Project for applied project students or a minimum of three hours of additional graduate electives (500 level and above) for comprehensive exam students. These additional three hours of graduate electives are not restricted to MAE courses or to other technical electives.

A final comprehensive examination or applied project presentation will be administered. The purpose of this culminating event is to determine the student's ability to integrate the knowledge gained in his or her course work.

Admission Requirements: • Applicants must submit an online Graduate Education application.

- All applicants are required to submit a statement of academic and career objectives and address the desire to pursue graduate studies at ASU in mechanical engineering.
- All applicants are required to take the general GRE.
- A minimum GPA of 3.00 (on a 4.00 scale) is required for graduates from accredited U.S. institutions. Graduate Education is responsible for international GPA interpretation.
- Applicants who do not have English as their primary language are required to achieve a minimum score of 80 on the Internet-based Test of English as a Foreign Language (TOEFL).
- Three letters of recommendation are required, using the online recommendation system.

Students must fulfill requirements of both Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Mechanical Engineering, PHD (ESMEPHD)

Online Degree Search Title: Mechanical Engineering (PhD)

Campus: TEMPE

Program Description:

The PhD program in mechanical engineering accommodates individual interests and encourages independent and innovative study. Students are part of a diverse intellectual community dedicated to advancing the state of the art and practice of mechanical engineering.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

84 credit hours

qualifying exams

written and oral comprehensive exams

prospectus

dissertation

All students pursuing the PhD are required to pass both a qualifying and a comprehensive examination administered by the program committee.

credit hours of course work directly related to the research area (18)

credit hours of mathematics (9)

credit hours of graduate elective courses outside the major research area (9)

MAE 792 Research

MAE 799 Dissertation credit hours (12)

Admission Requirements:

Admission to the mechanical engineering doctoral program is highly competitive. To be considered for admission to the program, the student must submit these items:

- Graduate Education application
- application fee
- GRE scores
- official transcripts from all prior institutions attended
- personal statement
- resume or curriculum vitae
- proof of English language proficiency*
- three letters of recommendation

*Students whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency and are required to achieve a minimum score of 80 on the Internet-based Test of English as a Foreign Language (TOEFL).

Mechanical Engineering (Engineering Education), PHD (ESMEEEDPHD)

Online Degree Search Title: Mechanical Engineering (Engineering Education) PhD

Campus: TEMPE

Program Description:

The PhD in mechanical engineering with a concentration in engineering education will prepare students to become scholars, researchers or practitioners in academia. The proposed concentration provides students with an opportunity to explore pedagogy, methodology, curriculum and instruction and apply it to engineering.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

credit hours of course work directly related to the research area (18)

credit hours of courses in methodology, curriculum and instruction (15)

credit hours of mathematics courses (9)

credit hours of additional course work and research related to dissertation (30)

written and oral comprehensive exams

prospectus

dissertation (12)

required credit hours total (84)

Admission Requirements:

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton School of Engineering.

To be considered for admission to the doctoral program the student must submit these items:

- Graduate Education application
- application fee
- GRE scores
- official transcripts from all prior institutions attended
- personal statement
- resume or curriculum vitae
- three letters of recommendation

Applications are due Jan. 31 for fall admission and July 1 for spring admission.

Natural Science (Middle School Science, Technology, Engineering and Mathematics), MNS (GCSTMMNS)

Online Degree Search Title: Middle School Sci, Tech, Engr, and Math (MNS)

Campus: TEMPE

Program Description:

The middle school science, technology, engineering and mathematics concentration under the MNS degree program is a focused course of study for K-8 certified teachers, providing them with integrated content in STEM subject matter that enables them to be considered highly qualified by the No Child Left Behind Act. In addition, the concentration utilizes sustainability research and integrates STEM content around sustainability. Its target audience is middle school teachers rather than secondary certified teachers, secondary mathematics teachers, and applied mathematicians. Although most program applicants will hold a valid teaching certificate, it is not required that they do so for admission. The program would also be appropriate for informal mathematics and science educators such as education outreach coordinators for industry and museums.

Degree Requirements: 30 credit hours including the required applied project course (PHS 593 or STM 593).

The distribution of courses for this concentration are:

Required core course:

STM 501 Introduction to Modeling in STEM (3) Required concentration courses: STM 502 Cognition and Instruction in STEM (3)

STM 503 Mathematical Modeling (3)

STM 504 Modeling Integrated Science (3)
STM 505 Engineering Design (3)
STM 511 Classroom Applications in STEM (3)
STM 512 Quantitative Modeling (3)
STM 513 Sustainability Science (3)
Elective course (3) Culminating experience: STM 593/PHS 593 Applied Project (3) Total credit hours: 30

Admission Requirements:

Applicants must submit an online Graduate Education application.

A bachelor's from a regionally accredited university with a junior-senior GPA of 3.00 (no particular major is required).

Students must meet all admissions criteria of Graduate Education and must submit an online application for admission, including requirements on English proficiency. Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Nuclear Power Generation (certificate), Certificate (ESNPGRCT)

Online Degree Search Title: Nuclear Power Generation (Grad Certificate)

Campus: ONLINE, TEMPE

Program Description:

The nuclear power generation graduate certificate is a multidisciplinary professional option within the Ira A. Fulton Schools of Engineering. The goal of the nuclear power generation certificate program is to prepare students and professionals from a variety of engineering and scientific disciplines to work effectively in the nuclear energy industry, including nuclear power plants, government regulators and national laboratories. The certificate program offers students a comprehensive, interdisciplinary education as courses from multiple academic units constitute the core and elective classes available to the student.

Students typically begin with the study of nuclear science and engineering fundamentals. Subsequent core courses focus on:

- nuclear power plant dynamics and diagnostics
- nuclear power plant operations and safety
- nuclear reactor theory and design
- structural materials in nuclear power systems

Elective courses allow students to tailor the remaining studies toward facilitating their career goals and focusing on studies tied to their discipline. Example elective courses include nuclear power engineering, health physics and electrical power plants. The primary mode of instructional delivery is online using the facilities of the engineering office of Global Outreach and Extended Education.

Degree Requirements: 15 credit hours.

15 credit hours including:

EEE 562 Nuclear Reactor Theory and Design (3)
EEE 563 Nuclear Reactor System Dynamics and Diagnostics (3)
EEE 564 Interdisciplinary Nuclear Power Operations (3)
MSE 565 Structural Materials in Nuclear Power Systems (3)

Admission Requirements:

Applicants who hold a bachelor's in an engineering or science discipline, such as physics, chemistry and mathematics, from a regionally accredited institution are eligible to apply to the program. Applicants are required to submit:

- an official ASU Graduate Education online application
- official transcripts of all undergraduate and graduate course work
- a statement of career and educational goals

Regular admission may be granted to applicants who have achieved a GPA of 3.00 (4.00 scale) or better in the last two years of work leading to a bachelor's and are competitive in the applicant pool.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the Ira A. Fulton Schools of Engineering.

Simulation, Modeling, and Applied Cognitive Science, PHD (TSSMACSPHD)

Online Degree Search Title: Simulation, Modeling and Applied Cognitive Science (PhD)

Campus: POLY

Program Description:

Simulation, modeling and applied cognitive science describes a growing transdisciplinary field (including the disciplines of psychology, engineering and computer science) that explores how people interact with technological and social systems in contexts that include transportation, medicine, military, computing and other complex systems. Cognitive science provides the foundation necessary for integrating human capabilities and limitations into complex sociotechnical systems (i.e., the practice of cognitive engineering), and the application of cognitive science relies heavily on simulation and modeling methods.

A large domain exists in which coupling applied cognitive science with simulation and modeling is imperative. Examples include the following:

- development of intelligent agents
- driving simulators for research on driver distraction
- dynamical systems models of team interaction
- gaming simulators for studying business decision-making
- human-in-the-loop simulation studies of cybersecurity analysis
- models of cognitive states and processes or sociocultural systems
- medical simulation for health care research
- nuclear control room simulation for improved human system integration
- pilot training research using aircraft simulators
- simulation of consumer behavior
- tests of future airspace control concepts using air traffic control simulators

This PhD is designed to produce individuals who are well-grounded in simulation, modeling and cognitive science and skilled in its methods. Employers (e.g., Department of Defense, Federal Aviation Administration, Nuclear Regulatory Commission, hospitals, etc.) have an ever-increasing demand for personnel who can bridge the gap between rigorous science and solutions to real-world problems. The doctorate will provide transdisciplinary, research-driven training in the computing, engineering, technology, applied cognitive science and human systems integration.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students will work with a committee of at least three faculty members to design a program of study tailored to the student's interests and background. There will be considerable flexibility in setting the plan of study, but it must include a minimum number of credit hours in the areas of foundations, tools and methods, applications, research and scholarship. The program should also aim for an interdisciplinary education by including work in various disciplines. The degree requires 84 credit hours, with up to 30 credit hours accepted from a previously awarded master's. Electives can be chosen to provide additional breadth or depth, depending on the student.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate Education application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores
- statement of research interests

- three letters of recommendation

Note: A master's in psychology, engineering, cognitive science, computer science or closely related field is required.

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate Education website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

For best consideration, the deadline is Feb. 1 for fall applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate technical preparation in statistics, cognitive science and software programming. Applicants who lack some of the required preparation still may be admitted but assigned deficiency courses, which must be completed within the first semester of starting the graduate program while concurrently enrolled in graduate-level course work. Deficiencies courses are assigned after admission is granted but before the start of the student's first semester. A faculty member will notify students with deficiencies and the specific course requirements via email.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Software Engineering, MS (TSSERMS)

Online Degree Search Title: Software Engineering MS

Campus: POLY

Program Description:

The MS in software engineering degree program focuses on developing advanced knowledge and abilities in the design and application of software. Students will learn to apply engineering principles to software development, including design methodologies, operation principles and maintenance and testing approaches. The program is aimed at developing professional skills in this discipline as well as providing opportunities for students to engage in research and develop research abilities.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (CST 517 and CST 518), or 33 credit hours including the required applied project course (CST 593 and CST 517 or CST 518).

overall required credit hours (33)

core course credit hours (15)

elective course credit hours (12)

culminating experience (three options; each combination totals 6 credit hours taken over two semesters):capstone course requirements:

CST 517 Software Factory I (3) and CST 518 Software Factory II (3)applied project course requirements:

CST 517 Software Factory I (3) and CST 593 Applied Project (3)thesis course requirement:

CST 599 Thesis (6)

Accelerated Degrees:

This degree is also offered as an accelerated degree with Software Engineering, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Program admission requirements include:

- minimum of a bachelor's or master's degree in information technology, computer science, applied computing, engineering or a closely related field, from a regionally accredited college or university (or international equivalent)
- minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's first bachelor's degree program; minimum of 3.00 cumulative GPA (scale is 4.00=A) in the applicable master's degree, if appropriate
- GRE test
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Solar Energy Engineering and Commercialization, PSM (ESSEECPSM)

Online Degree Search Title: Solar Energy Engineering and Commercialization (PSM)

Campus: TEMPE

Program Description:

The PSM in solar energy engineering and commercialization offers advanced, interdisciplinary education in solar energy to students with backgrounds in science, technology, engineering or mathematics (STEM). The objective of the program is to enable graduates to pursue careers in industry, government or the nonprofit sector that involve solar energy and its utilization. Students in the program must select courses from technical and nontechnical tracks, including solar energy policy, spanning a number of academic programs and schools. Opportunities exist for engagement with the solar energy industry or government policymakers, leading to a required culminating applied research project. The degree program is meant to be completed in 12 months for full-time students.

Degree Requirements: 30 credit hours including the required applied project course (MAE 593 or SEC 593).

The Professional Science Master's in solar energy engineering and commercialization requires the following:

Core Courses (15 credit hours):

one approved Solar Photovoltaic graduate course (3)*

GCU 598 Solar Energy and Public Policy (2)

HSD 594 Science Outside the Lab (Field Trip - Washington DC) (1)

MAE 588/SEC 588 Solar Energy Colloquium (3)

MAE 593/SEC 593 Applied Project (6)

Elective Courses (15 credit hours including 9 technical credits and 6 non-technical credits)

*Students will be provided with a list of approved courses, to include but not be limited to ALT 507 Evaluation of Photovoltaics and Fuel Cell Systems, ALT 535 Applied Photovoltaics, EEE 565 Solar Cells, or EEE 591 Solar Energy.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Mechanical Engineering, BSE

Mechanical Engineering (Computational Mechanics), BSE

Mechanical Engineering (Energy and Environment), BSE

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements: • completed Graduate Education online application

- official transcripts from each institution from which a degree was earned sent to Graduate Education
- general GRE
- minimum of a 3.00 cumulative GPA (4.00="A" scale) in the last 60 hours of a student's bachelor's program
- minimum of a bachelor's degree in a field such as science, technology, engineering or mathematics (STEM), from a regionally accredited institution or the equivalent of a U.S. bachelor's from an international institution that is officially recognized by that country
- English proficiency requirement*
- three letters of recommendation
- personal statement

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. Acceptable scores on the TOEFL or IELTS as follows: The minimum TOEFL requirement is 550 (PBT) or 80 (iBT).

The minimum IELTS requirement is an overall band score of 6.5.

The minimum Pearson Test of English (PTE) requirement is 60.

Other details regarding English proficiency requirements are described on the Graduate Education website:

<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Campus: ONLINE, TEMPE

Program Description:

The certificate in sustainable technology and management is an interdisciplinary program that helps managers, engineers and organizations meet the business and engineering imperatives of sustainable development in a globalizing and increasingly competitive economy.

Students will be presented with metrics and skill sets that will enhance the development of sustainable technologies, entrepreneurship and organizational strategy. The net benefit will be reduced risks and costs and increased competitive advantages through strategic alliances, scenario planning and resource management.

Degree Requirements: 15 credit hours.

Students will work with a faculty advisor to select their course work.

Students will complete a capstone project supervised by a faculty advisor, which will demonstrate complex engineering management problem-solving for sustainability and technologies. This will include:

- a presentation to the faculty, advisory committee and invited members of the community
- comparative analysis of options
- detailed business plans
- technical evaluations and recommendations

Students are expected to earn a "B" (3.00) or better in each course. It is also expected that they complete the program in three years, but can finish the program in one or two years depending on how many courses they take each semester.

Admission Requirements:

Students are required to apply for this certificate program through the Graduate Education online application.

Students must have a bachelor's or master's from a regionally accredited institution with a cumulative grade point average of 3.00 or higher, on a 4.00 scale, or be currently admitted to a graduate degree program at ASU.

Students are required to submit official copies of all undergraduate and graduate transcripts to Graduate Education. ASU transcripts do not need to be sent. If a student has already submitted these to ASU, they do not need to resend them.

A personal statement and resume must be submitted along with the application. Preference will be given to students with degrees in business, engineering, the sciences or public policy.

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students are required to apply to the certificate program before completing more than six credit hours of the required courses for the certificate.

Students must fulfill both the requirements of Graduate Education and the Ira A. Fulton Schools of Engineering.

Technology (Alternative Energy Technologies), MSTech (TSATMSTECH)

Online Degree Search Title: Alternative Energy Technologies (MSTech)

Campus: POLY

Program Description:

The MSTech concentration in alternative energy technologies provides students with graduate level expertise in alternative energy technologies that will provide energy resources in the global economy. The program is flexible and permits students to develop a program of study, with faculty approval, to meet their individual career goals.

The program provides a hands-on research experience in the alternative energy technologies field. Topics for master's theses and applied projects include: the use of energy sources such as solar, wind, ocean, geothermal and biomass; the solar-hydrogen cycle, a renewable energy scenario that relies on production of hydrogen from solar energy; and energy conversion and distribution in a "smart electrical grid." The required research provides students with an opportunity to develop special research and application skills directly related to individual needs and objectives in the field of alternative energy technologies.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (EST 593).

Thesis Option

Concentration (15-16)

Supporting Area (8-9)

Research methods courses:

EST 500 Research/Writing (2)

EST 591 Graduate Seminar (1)

EST 599 Thesis (6)

At least nine hours of 500-level course work must be included in the technical concentration. Students may take up to six credit hours of 400-level course work to broaden their technical knowledge within the concentration or supporting area. Students are required to complete six hours of EST 599 Thesis, write a thesis and make an oral defense. All course work applied toward the minimum 33-credit-hour total must be at the 400 and 500 levels.

Nonthesis Option

Concentration (15-18)

Supporting Area (9-12)

Research Methods Courses:

EST 500 Research/Writing (2)

EST 591 Graduate Seminar (1)

EST 593 Project (3)

At least nine hours of 500-level course work must be included in the technical concentration. A maximum of three credit hours of EST 593 Applied Project may be applied toward the 20-credit-hour, 500-level minimum. Additional background deficiency hours may be required. All course work outside Engineering Programs must be preapproved by the department chair.

A final oral defense of the applied project is required. A copy of the applied project report or thesis must be submitted before the candidate is eligible for this examination.

Plan of Study

Course work: The student selects a concentration and supporting area, as well as a subset of courses from each area. Specifically, five to six courses are selected from the concentration area and three or four are selected from the supporting area. Early in the program, the student identifies an advisor for the major who is a faculty member of the department interested in the selected area of concentration. The student works with the advisor and committee to develop the program of study and, subsequently, to carry out the research component of the program.

Research: Each student is required to complete an applied project or thesis within the student's area of emphasis as a part of the degree program. The applied project includes a written report.

Research Activity: Research activities in Engineering Programs include systems, circuit applications and digital design. MSTech candidates will find a broad range of research that can lead to an applied project or thesis.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate Education application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English*
- official GRE general exam scores
- statement of purpose
- current resume
- optional) three letters of recommendation

*International applicants can find complete information on the English proficiency exams and other required documents on the Graduate Education website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

Note: A bachelor's that includes a minimum of 30 credit hours or equivalent in a technology area including course work applicable to the concentration being sought and a minimum of 16 credit hours of mathematics and science is required.

For best consideration, the deadline is Feb. 1 for fall applications and Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Undergraduate deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Students must fulfill requirements of both Graduate Education and the Ira A. Fulton Schools of Engineering.

Technology (Aviation Management and Human Factors), MSTEch (TSHFMSTECH)

Online Degree Search Title: Aviation Mgmt/Human Factors (MSTEch)

Campus: POLY

Program Description:

The MSTEch program offers a concentration in aviation management and human factors. The program focus is on preparing graduates for a career in the aviation industry and can serve as the foundation for further advanced study. Courses are offered at the Polytechnic campus, with some courses offered online. Graduates of this program are provided with technical and professional skills for use in leadership positions in the aviation industry.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (AMT 593).

The following are the core requirements for meeting the department's goal to provide an in-depth research and statistics background early in the program, as a foundation for the student's thesis or applied project. The comprehensive elective curriculum design will offer courses that reflect current and applied topics.

Core Requirements

Course selection must include the following core courses:

OMT 504 Law and Ethics for Technical Professionals (3)

OMT 549 Research Methods or equivalent (3)

PSY 530 Intermediate Statistics (3)

Students have a choice of selecting a thesis option (nine credit hours of core courses plus 18 credit hours of selected course work) or an applied project option (nine credit hours of core courses plus 21 credit hours of selected course work). The detailed design of the graduate student's total program requirements (33 credit hours) with the selection of the required courses will be the responsibility of the student along with the supervisory committee chair and committee members. The defining guideline for the department will be to match the student's specific career goals and objectives to a balanced curriculum that can be achieved in a reasonable time and in accordance with a known course-offering schedule.

Additional Requirements

Eighteen credit hours are required for the thesis option and 21 credit hours for the applied project option.

AMT 522 Aviation Law (3) (spring offering)
AMT 523 Intermodal Transportation Management (3) (summer offering)
AMT 525 Airport Planning and Design (3) (spring offering)
AMT 526 Aviation Labor Relations (3) (fall offering)
AMT 527 Airline Management Strategies (3) (fall offering)
AMT 541 Aviation Physiology (3) (fall offering)
AMT 546 Crew Resource Management/LOFT (3) (spring offering)

All master's courses will be 500-level courses. A single course exception (400-level course) may be authorized with the consensus of the supervisory committee. Students in this graduate program also have the opportunity to enroll in operations management technology and cognitive science and engineering graduate courses. Aviation students must take at least five AMT graduate courses.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate Education application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English*
- official GRE general exam scores
- statement of purpose
- current resume
- three letters of recommendation

*International applicants can find complete information on the English proficiency exams and other required documents on the Graduate Education website: <http://graduate.asu.edu/international> (<http://graduate.asu.edu/international>).

For best consideration, the deadline is Feb. 1 for fall applications and Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate technical preparation in a selected technology at the undergraduate level. The applicant's past work and professional experience are also evaluated and taken into consideration. Undergraduate course work of admitted applicants to this program generally include calculus and statistics.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Technology (Electronic Systems Engineering Technology), MS^{Tech} (TSSYMSTECH)

Online Degree Search Title: Electronics Engineering Technology (MS^{Tech})

Campus: POLY

Program Description:

The MS^{Tech} with a concentration in electronic systems provides students with graduate level expertise in the technology of electronics and its application at a system level. The program is flexible and permits students to develop a program of study, with faculty approval, to meet their individual career goals. The student selects a combination of courses in a technical concentration and supporting area. The program provides students with an opportunity to conduct research either as a master's thesis or as an applied project. This research experience will develop special research and application skills directly related to individual needs and objectives.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (EST 593 or EET 593).

The degree requirements for the master's with a concentration in electronic systems engineering technology offered by the department include:

Thesis Option
Concentration (15-16)
Supporting Area (8-9)
Research Methods Courses:
EST 500 Research/Writing (2)

EST 591 Graduate Seminar (1)

EST 599 Thesis (6)

At least nine hours of 500-level course work must be included in the technical concentration. Students may take up to six credit hours of 400-level course work to broaden their technical knowledge within the concentration or supporting area. Students are required to complete six hours of EST 599 Thesis, write a thesis and make an oral defense. All course work applied toward the minimum 33 credit hours total must be at the 400 and 500 levels.

Nonthesis Option

Concentration (15-18)

Supporting Area (9-12)

Research Methods Courses:

EST 500 Research/Writing (2)

EST 591 Graduate Seminar (1)

EST 593 Applied Project (3)

At least nine hours of 500-level course work must be included in the technical concentration. A maximum of three credit hours of EST 593 Applied Project may be applied toward the 20-credit-hour, 500-level minimum. Additional background deficiency hours may be required. All course work outside the department must be preapproved by the department chair.

A final oral defense of the applied project is required. A copy of the applied project report or thesis must be submitted before the candidate is eligible for this examination.

Plan of Study

Course work: The student selects a concentration and supporting area, as well as a subset of courses from each area. Specifically, five to six courses are selected from the concentration area, and three or four are selected from the supporting area. Early in the program, the student identifies a major advisor, who is a faculty member of the department interested in the selected area of concentration, and a committee. The student works with the major advisor and committee to develop the program of study and subsequently to carry out the research component of the program.

Research: Each student, as a part of the degree program, is required to complete an applied project or thesis within the student's area of emphasis. The applied project includes a written report.

Research Activity: Research activities in the department include systems, circuit applications and digital design. Candidates will find a broad range of research that can lead to an applied project or thesis.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate Education application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores

Technology (Environmental Technology Management), MTech (TSMGMSTECH)

Online Degree Search Title: Environmental Tech Mgmt (Polytechnic Campus) (MTech)

Campus: POLY

Program Description:

The MTech degree with a concentration in environmental technology management provides students with a background in the sciences, engineering, environmental science, natural resource management or other affiliated areas with the regulatory and technical background to manage complex environmental problems.

Graduate courses are available in a traditional face-to-face format and as online courses. The degree can be completed as a completely Web-based distance learning program and students are currently enrolled from more than 20 states and countries around the world. Most students are working professionals and are able to finish the degree while working full time. It is possible to complete the degree within two years, including summers. The curriculum includes courses such as:

- air pollution
- chemistry of hazardous materials
- environmental law
- hazardous waste management
- industrial hygiene
- international environmental law
- soil and groundwater contamination
- sustainable development
- toxicology

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (ETM 593 or ERM 593).

Concentration area course work includes 12 credit hours of core classes and 15 credit hours of approved electives in addition to six credit hours of thesis (ETM 599) or applied project (ETM 593) and research (ETM 592).

Applied Project Option

Core Courses (12)

Approved Electives (15)

Research (3)

Applied Project (3)

Thesis Option

Core Courses (12)

Approved Electives (15)

Thesis (6)

Supporting course work includes the following areas of study:

- air pollution
- comprehensive emergency management
- environmental chemistry
- environmental risk assessment
- homeland security
- international environmental law
- international environmental management
- principles of hazardous materials and waste
- soils and groundwater contamination
- sustainability and sustainable development
- sustainable solid waste management
- terrorism, weapons of mass destruction and current issues
- water and wastewater treatment technologies

Accelerated Degrees:

This degree is also offered as an accelerated degree with Environmental and Resource Management, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate Education application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores
- statement of purpose (maximum of 600 words)
- current resume

Applicants may optionally submit three letters of recommendation.

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate Education website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>). Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

For best consideration, the deadline is Feb. 1 for fall applications; Oct. 1 for spring applications; April 15 for summer applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate preparation in a selected technology at the undergraduate level. The applicant's past work and professional experience are also evaluated and taken into consideration.

Undergraduate course work of admitted applicants to this program generally includes chemistry, precalculus and statistics. Deficiencies for admission to the graduate degree program, if any, are specified at the time of admission.

Undergraduate deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Technology (Global Technology and Entrepreneurship), MSTech (TSGEMSTECH)

Online Degree Search Title: Technology (Global Technology and Entrepreneurship) MSTech

Campus: ONLNE, POLY

Program Description:

The MSTech with a concentration in global technology and entrepreneurship prepares graduates for entrepreneurial and intrapreneurial roles in global technology-driven organizations. The global technology and entrepreneurship program empowers graduates to become leaders in global technology-driven organizations through hands-on study and experiential learning of entrepreneurship and innovation ;combined with strategic management of technology, decision making, and systems and process analysis and modeling.

Program graduates serve as enablers in the implementation of their organization's strategy. Graduates will be able to critically assess and solve problems while they contribute to, and utilize, knowledge and applied learning experience toward strategic management of technology; entrepreneurship and innovation; strategic adoption and use of technology; analysis and modeling of systems; identification, testing and acceleration of adoption of new business and manufacturing processes; evaluation and adoption of global best practices and utilization of knowledge management techniques. Project-based experiential learning is used in all face-to-face, hybrid and online courses.

Degree Requirements: 33 credit hours including the required applied project course (OMT 593).

Students will work with a faculty advisor to design a plan of study tailored to their background and interests. It is expected that graduates of the program possess skills in research and the ability to apply these research skills in practice. To achieve this goal, each student is required to complete OMT 549 Research Techniques and Applications and OMT 593 Applied Project.

core course credit hours (9):

OMT 504 Law and Ethics for Technical Professionals (3)
OMT 520 Strategic Management of Technology (3)
OMT 549 Research Techniques and Applications (3)
additional concentration courses (restricted electives) credit hours (15)
elective course credit hours (6)*
culminating experience: OMT 593 Applied Project (3)
overall required credit hours (33)

*Select one to two elective courses (6 credit hours) from approved graduate offerings. Students may substitute up to six credit hours with approved courses from a global partner university, or as part of an approved global experience. Students may also select elective courses from other majors and other degree programs of ASU upon approval of your faculty advisor.

Admission Requirements:

In addition to the university requirements, the program admission requirements include:

- an appropriate technical, science or business baccalaureate degree from an accredited college or university
- a minimum of 30 credit hours in technology, science and mathematics or their equivalents, with a grade "C" or better in each course
- completion of an undergraduate college-level statistics and probability course with a grade of "B" or better
- completion of an undergraduate college-level technical writing and communications course with a grade "B" or better
- a minimum undergraduate grade point average of 3.00 on a 4.00 point scale for the last 60 credit hours of undergraduate study
- GRE test
- a letter of application
- a current resume
- three letters of recommendation, either academic or professional
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Industrial or business experience beyond completion of a baccalaureate degree is strongly recommended. Graduate work presupposes an adequate technical preparation in a selected technology at the undergraduate level. Undergraduate deficiencies for admission to the graduate program, if any, will be specified at the time of admission and tracked by the academic unit. The applicant's past work and professional experience will also be evaluated and taken into consideration in the admission decision.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Technology (Graphic Information Technology), MSTech (TSGIMSTECH)

Online Degree Search Title: Graphic Information Technology (MSTech)

Campus: ONLNE, POLY

Program Description:

The MSTech with a concentration in graphic information technology provides students with the opportunity to study in the various areas of the graphics industry. These areas include the following:

- commercial photography and technical imaging
- multimedia and video
- premedia, digital printing and publishing
- web design and development

The courses offered in this degree program provide students with a working knowledge of the technology and management required of the global cross media graphics industry. This program focuses on cross media publishing and graphic imaging and is not a traditional information technology, computer science, computer information systems or information systems management program. The addition of e-media channels such as the searchable Web, tablet, smart mobile cell, social media, digital print, etc., has created new opportunities in the global industry. Changes and developments in communications technology affect everyone in the value chain to include the following: publishers, designers, premedia houses, printers and Web and multimedia developers.

The degree program has two study options: ASU Online or Polytechnic campus. Either program can be done completely at a distance. It is recommended that applicants inquire about differences in the two campus options before applying. The applicant chooses the campus when completing the online Graduate Education application. The campus cannot be changed once selected.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (TMC 593 or GIT 593).

Students are required to complete a minimum of 33 credit hours of graduate course work. Of the total 33 hours, a minimum of 27 credit hours must be 500-level courses and part of the approved program. Additional courses may be assigned by the faculty supervisory committee, depending on the background of the candidate. The minimum degree requirements are as follows:

Applied Project Option

technical area of emphasis (18)

supporting area (9)

research methods course (3)

applied research project (3)

Thesis Option

technical area of emphasis (18)

supporting area (9)

thesis (6)

Most graduate degree students in this program elect to do an applied project rather than a thesis. The applied project generally allows the student to thoroughly explore a graphics related problem and demonstrate knowledge of the problem, solutions for the problem and suggestions for further explanation of the problem. Students in the ASU Online program must select the applied project option.

Courses within the various graphics areas are taught on a rotating basis. The most frequently offered courses are listed below. (598 designates university omnibus classes)

GIT 500 Research Methods (3)

GIT 537 Current Issues in Quality Assurance (3)

GIT 538 Personnel Development for the Graphics Industry (3)

GIT 540 Cross-Media Design Solutions (3)

GIT 542 Information Design and Usability (3)

GIT 584 Internship (3)

GIT 590 Reading and Conference (3)

GIT 598 Advanced Internet Programming (3)

GIT 598 Color Reproduction Systems (3)

GIT 598 Current Trends in Cross Media Research (3)

GIT 598 Digital Workflow in Graphic Industries (3)

GIT 598 Graphic Industry Business Practices (3)

GIT 598 Multimedia Authoring, Scripting and Production (3)

GIT 598 Web Management and E-Commerce (3)

GIT 598 Website Design and Internet/Web Technologies (3)

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Applied Science (Graphic Information Technology), BAS

Applied Science (Internet and Web Development), BAS

Graphic Information Technology, BS

Graphic Information Technology (Gaming), BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate Education application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English (regardless of where they may now reside)
- official GRE general exam scores
- statement of purpose (letter of application)
- current resume

Applicants may optionally submit two letters of recommendation.

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate Education website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

For best consideration, the deadline is Feb. 1 for fall applications; Oct. 1 for spring applications; April 15 for summer applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate technical preparation in a selected technology at the undergraduate level. The applicant's past work and professional experience are also evaluated and taken into consideration.

Undergraduate course work of admitted applicants to this program generally include precalculus and statistics. Deficiencies for admission to the graduate degree program, if any, are specified at the time of admission and must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Technology (Integrated Electronic Systems), MSTEch (TSESMSTECH)

Online Degree Search Title: Integrated Electronic Systems (MSTECH)

Campus: POLY

Program Description:

The MSTEch with a concentration in integrated electronic systems provides students with graduate-level expertise in the processes and technology used to develop, design, manufacture and exploit integrated electronic functions on silicon, in packages and on boards. The program is flexible and permits students to develop a program of study, with faculty approval, to meet their individual career goals.

The program provides hands-on laboratory experience in integrated circuit device fabrication and manufacturing in a setting that emulates the real industry. The program provides students with an opportunity to conduct research either as a master's thesis or as an applied project. Students can develop special research and application skills directly related to individual needs and objectives in the field of microelectronics. Topics for thesis and project work include circuit applications; digital design; microelectronics and integrated electronic systems, including design and device processing and fabrication; silicon device packaging; board-level design; and application of integrated electronics functions.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (EST 593).

Thesis Option

concentration (15-16)

supporting area (8-9)

research methods courses:

EST 500 Research/Writing (2)

EST 591 Graduate Seminar (1)

EST 599 Thesis (6)

A minimum of 20 credit hours must be 500-level courses. At least nine hours of 500-level course work must be included in the technical concentration. Students may take up to six credit hours of 400-level course work to broaden their technical knowledge within the concentration or supporting area. Students are required to complete six hours of EST 599 Thesis, write a thesis and hold an oral defense. All course work applied toward the minimum 33 credit hour total must be at the 400 and 500 levels.

Nonthesis Option

concentration (15-18)

supporting area (9-12)

research methods courses:

EST 500 Research/Writing (2)

EST 591 Graduate Seminar (1)

EST 593 Project (3)

At least nine hours of 500-level course work must be included in the technical concentration. A maximum of three credit hours of EST 593 Applied

Project may be applied toward the 20-credit-hour, 500-level minimum. Additional background deficiency hours may be required. All course work outside Engineering Programs must be preapproved by the department chair.

A final oral defense of the applied project is required. A copy of the applied project report or thesis must be submitted before the candidate is eligible for this examination.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate Education application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores
- statement of purpose
- current resume
- optional) three letters of recommendation

Note: A bachelor's that includes a minimum of 30 credit hours or equivalent in a technology area including course work applicable to the concentration being sought, and a minimum of 16 credit hours of mathematics and science is required.

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate Education website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

For best consideration, the deadline is Feb. 1 for fall applications; Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Undergraduate deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Students must fulfill requirements of both Graduate Education and the Ira A. Fulton Schools of Engineering.

Technology (Management of Technology), MS^{Tech} (TSMRMSTECH)

Online Degree Search Title: Management of Technology (MS^{Tech})

Campus: POLY

Program Description:

The MS^{Tech} with a concentration in management of technology prepares students for leadership roles as technically proficient professionals in technology-driven organizations, whether private or public. Students are prepared to successfully transition into leadership positions in their field of expertise and to move into a general leadership role outside their area of technical expertise as their careers grow.

This degree program is open to individuals with a technical undergraduate degree who wish to develop their leadership and management skills to complement their technical expertise. The curriculum is tailored to the needs of the student, ensuring each student obtains basic leadership and management skills.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (TMC 593).

It is expected that graduates of the program possess skills in research and the ability to apply these research skills in practice. To achieve this goal, each student is required to complete OMT 549 Research Techniques and either TMC 593 Applied Project or TMC 599 Thesis.

Additionally, each student is required to select four courses (12 credit hours) from the following list:

- OMT 503 Marketing Management (3)
- OMT 504 Law and Ethics for Technical Professionals (3)
- OMT 540 International Management (3)
- OMT 548 Statistical Methods for Research (3)

OMT 550 Industrial Training and Development (3)
OMT 592 Research (1-3)
OMT 598 ST: Advanced Operations Topics (1-4)
OMT 598 ST: Advanced Quality Topics (1-4)
OMT 598 ST: Forecasting and Evolution of Technology (1-4)
OMT 598 ST: Simulation of Operations (1-3)
TMC 584 Internship (1-3)

Graduate courses from other majors may be selected with approval from the student's graduate advisory committee. These additional courses are selected to support the student's individual career goals and perceived needs. If selecting the thesis option, courses are chosen to support the student's research topic and research methods. To ensure that all courses taken will fit into the plan of study, all students are expected to discuss their tentative plan with their program advisors prior to registering for their first class and must have an approved plan of study on file by the completion of nine credit hours toward the degree.

Students without a statistics course at the undergraduate level will be required to complete an appropriate course during the first semester in the program. This course will be in addition to the other requirements for the degree. Additional courses may be required to fulfill deficiencies, based on a review of the applicant's transcripts. Please contact the department for more information.

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate Education application
- official transcript from each college or university attended
- an English proficiency exam score for applicants whose native language is not English*
- official GRE general exam scores
- statement of purpose
- current resume
- three letters of recommendation

*International applicants can find complete information on the English proficiency exams and other required documents on the Graduate Education website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>). Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

For best consideration, the deadline is April 1 for fall applications; Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Admission to the graduate degree program presupposes an adequate technical preparation in a selected technology at the undergraduate level. The applicant's past work and professional experience are also evaluated and taken into consideration. Industrial experience beyond completion of a bachelor's is strongly recommended.

Undergraduate course work of admitted applicants to this program generally include calculus, technical writing and statistics. Students without a statistics course at the undergraduate level will be assigned a statistics deficiency course. This course will be in addition to the other requirements for the degree. Additional courses may be required to fulfill deficiencies, based on a review of the applicant's transcripts. Deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Students must fulfill both the requirements of Graduate Education and those of the Ira A. Fulton Schools of Engineering.

Technology (Manufacturing Engineering Technology), MS^{Tech} (TSMFMSTECH)

Online Degree Search Title: Manufacturing Engineering Technology (MS^{Tech})

Campus: POLY

Program Description:

Manufacturing is in a period of dramatic transformation. Future manufacturing will involve a global supply network to enable innovation, design, and integration of products and services. At its core, manufacturing engineering is about creating and delivering products and services that have value to customers and society.

The MSTech with a concentration in manufacturing engineering technology provides students with graduate level expertise in the technologies and processes integral to this transformation. The program is flexible and permits students to develop a program of study, with faculty approval, to meet their individual career goals. Students can select a technical focus in manufacturing processes, management or automation. The degree concentration is designed to provide graduates with technical and professional skills that will facilitate preparation for, and advancement in, leadership positions in industry, education, government and military. Laboratories and classrooms are well equipped, and the faculty members teaching the classes have relevant teaching, research, industry, and training experience and background.

Entry into the program requires that the student have a sound technical undergraduate degree, but not necessarily in manufacturing engineering.

Research Activity

The program provides students with an opportunity to conduct research either as a master's thesis or as an applied project. Program faculty are engaged in theoretical and applied research projects, involving undergraduate and graduate students in manufacturing related projects. Graduate students employed in local industry are encouraged to develop research topics that address problems of interest to their employers. Current research interests of the faculty include:

- machinability and manufacturing processes
- manufacturing
- manufacturing cost economics
- modeling and simulation

Theses and applied projects are supported by a number of well-equipped laboratories and facilities:

- automation laboratory
- composite materials laboratory
- computer numerical control machining center laboratory
- computer-aided design and computer-aided manufacturing laboratory
- energy conversion and combustion laboratory
- welding and casting laboratory

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (MET 593).

All course work applied toward the minimum 33-credit-hour total must be at the 400 level or higher with a grade of "B" (3.00) or higher. A maximum of six credit hours of 400-level course work may be included in the student's plan of study. An oral defense of the written applied or research project (thesis) is required as the final examination in either option. This defense is typically done during the last semester of study. All course work outside the Engineering Programs must be preapproved and on the plan of study.

Thesis Option

In the thesis option, a minimum of 27 credit hours must be 500-level courses, allowing students to take up to six credit hours of 400-level course work to broaden their technical knowledge within the technical concentration or a supporting area. The course work may be a combination of manufacturing, mechanical or aeronautical engineering technology courses, or a limited number from outside the department. Students are required to complete six credit hours of MET 599 Thesis, write a thesis and present an oral defense.

Thesis Option

technical concentration area (18)

supporting area (6)

research methods courses: EST 500 Research Writing (2)

EST 591 Research Seminar (1)

MET 599 Thesis (6)

Applied Project Option

In the applied project option, a minimum of 27 credit hours must be 500-level courses, allowing students to take up to six credit hours of 400-level course work to broaden their technical knowledge within the technical concentration or a supporting area. The course work may be a combination of manufacturing, mechanical or aeronautical engineering technology courses or a limited number from outside the department. The applied project requires a supporting report; the project and report are defended in a final oral examination.

Applied Project Option

technical concentration area (18)

supporting area (9)

research methods courses: EST 500 Research Writing (2)

EST 591 Research Seminar (1)

MET 593 Applied Project (3)

Admission Requirements:

Applicants must submit all the items below to complete an application file. Incomplete files will not be reviewed or considered until complete.

- an online Graduate Education application
- official transcript from each college or university attended
- an English proficiency exam for applicants whose native language is not English
- official GRE general exam scores
- statement of purpose
- current resume
- optional) three letters of recommendation

Note: A bachelor's that includes a minimum of 30 credit hours or equivalent in a technology area including course work applicable to the concentration being sought, and a minimum of 16 credit hours of mathematics and science is required.

International applicants can find complete information on the English proficiency exams and other required documents on the Graduate Education website: <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

For best consideration, the deadline is Feb. 1 for fall applications; Oct. 1 for spring applications. Late applications may still be considered for the same application term or for the next term of admission; however, the department reserves the right to deny or not review a late application.

Undergraduate deficiency courses must be completed within the first year of the graduate program while concurrently enrolled in graduate-level course work.

Technology (Mechanical Engineering Technology), MStech (TSMHMSTECH)

Online Degree Search Title: Mechanical Engineering Technology (MStech)

Campus: POLY

Program Description:

The MStech with a concentration in mechanical engineering technology provides students with graduate level expertise in the technologies and processes integral to the design and implementation of mechanical systems, in both high-tech engineering settings such as automotive and aeronautics, as well as in settings that address problems in the developing world. The program is flexible and permits students to develop a program of study, with faculty approval, to meet their individual career goals. Students can select from the following focus areas: aeronautical, engineering for the developing world, automotive and automation.

The degree concentration is designed to provide graduates with technical and professional skills that will facilitate preparation for, and advancement in, leadership positions in industry, education, government and military. Laboratories and classrooms are well equipped, and the faculty members teaching the classes have relevant teaching, research, industry, and training experience and background.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (MET 593).

All course work applied toward the minimum 33-credit-hour total must be at the 400 level or higher with a grade of "B" (3.00) or higher. A maximum of six credit hours of 400-level course work may be included on the student's plan of study. An oral defense of the written applied or research project (thesis) is required as the final examination in either option. This defense is typically done during the last semester of study. All course work outside the Engineering Programs must be preapproved and on the plan of study.

Thesis Option

In the thesis option, a minimum of 27 credit hours must be 500-level courses, allowing students to take up to six credit hours of 400-level course work to broaden their technical knowledge within the technical concentration or the supporting area. The course work may be a combination of manufacturing, mechanical or aeronautical engineering technology courses or a limited number from outside the department. Students are required to complete six credit hours of MET 599 Thesis, write a thesis and present an oral defense.

Thesis Option

Health Solutions, College of

Audiology, AudD (LAAUDAUDD)

Online Degree Search Title: Audiology (AuD)

Campus: TEMPE

Program Description:

The AuD program is designed to prepare audiologists for autonomous clinical practice. The clinical doctorate model at ASU stresses the integration of academic classroom learning and practical experience across a broad spectrum of clinical specialties and practice environments.

Degree Requirements: 95 credit hours and a written comprehensive exam.

The program is designed for full-time students over a period of 45 months, including four fall and four spring semesters and three summers. The four-year course of study includes academic and clinical practicum components and requires a minimum of 95 credit hours, of which 63 are required academic credits provided through the Department of Speech and Hearing Science and 32 are required clinical credits.

Eligibility for graduation is based upon the following:

- achieving a passing score on the American Speech-Language-Hearing Association Praxis national certification examination in audiology
- successful completion of 63 credit hours of required academic course work
- successful completion of 32 credit hours of clinical experiences

Admission Requirements:

All applicants must submit a Graduate Education online application and have a cumulative GPA of 3.00 or higher. Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill the requirements of Graduate Education and those of the College of Health Solutions.

An applicant to the doctoral program must hold a bachelor's in speech and hearing science or another discipline. Applicants with undergraduate degrees in related fields such as nursing, education, any of the biological sciences, etc. may apply, although they are admitted as leveling students and must complete at least one year of prerequisite courses in speech and hearing science at the undergraduate level.

Applicants must submit:

- a 200-word statement of intent containing evidence of proficiency in written communication
- GRE scores
- official transcripts
- three letters of recommendation

All application materials must be submitted to Graduate Education by Jan. 15. Enrollment begins in the fall semester only.

Behavioral Health, DBH (LSBEVHEDBH)

Online Degree Search Title: Behavioral Health (DBH)

Campus: ONLNE

Program Description:

The DBH is an innovative new interdisciplinary, applied clinical doctorate designed to upgrade master's level professionals to become experts in the emerging new field of integrated behavioral care. Integrated care is the holistic treatment of both medical and behavioral conditions that are so common in primary care and other medical settings but often undetected and untreated. The results are poor clinical outcomes and increased medical costs related to overuse of medical services.

A key recommendation in health care reform is improved integration of medical and behavioral care in order to both improve health outcomes and decrease health care costs. The doctoral curriculum is explicitly focused on graduating experts who can speak both the language of evidence-based clinical interventions as well as cost savings and return on investment analyses that will be in high demand in new models of accountable care delivery. Traditional doctoral training does not prepare clinicians or managers with the interdisciplinary knowledge required to meet these new demands in the health care marketplace. This program reflects a paradigm shift to a curriculum based on:

- business entrepreneurship skills, such as writing a business plan, marketing and return on investment specific to health care
- evidence-based behavioral interventions for primary care that are efficient and contribute to cost savings by reducing unnecessary medical care services and costs
- health care systems policies, economics and finance that respond to emerging opportunities in health care reform
- medical literacy, to understand common medical conditions seen in primary care and consult effectively with the medical team

The curriculum is unique in that it:

- incorporates internship experience in primary care or similar medical settings
- integrates clinical and professional affiliated faculty as well as faculty associates who are experts and are directly employed in health care environments in the area that they are teaching

- is a flexible, online degree program that enables students to select a program of study ranging from part-time to full-time attendance
- is available through ASU Online as a distance-learning program
- offers a residential conference every fall and spring for students to meet with faculty, national leaders and their peers
- offers either a clinical track for licensed clinicians or a management track for health care managers and leaders
- replaces the dissertation with a culminating research project that combines an applied research study with a business plan

Internship experiences are arranged with local site liaisons and students meet in small groups with a doctoral consultant who leads case reviews and studies. Rural health and experiences with disadvantaged and multicultural populations are encouraged. Graduates of the program will contribute to a societal transformation by leading to improved access to behavioral care, integration of a behavioral provider on the medical team, improved patient outcome and satisfaction, and decreased cost of care.

Degree Requirements: 84 credit hours including the required applied project course (IBC 793).

core course requirements (27)

elective courses (18)

internship and culminating experience (9)

previously awarded master's degree or other courses approved by the supervisory committee (30)

Admission Requirements:

All applicants must submit a Graduate Education application.

Applicants must possess a bachelor's degree and a master's degree from a regionally accredited postsecondary institution in the U.S. or an equivalent degree from a recognized international postsecondary institution.

Applicants must have a minimum of a 3.00 GPA calculated on the last 60 credit hours of their first bachelor's degree.

All applicants whose native language is not English (regardless of where they may now reside) must meet university and degree program English proficiency requirements.

Students must fulfill both the requirements of Graduate Education and the College of Health Solutions.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes. View the program description and request more information here.

Biomedical Diagnostics, MS (NHBMDMS)

Online Degree Search Title: Biomedical Diagnostics (MS)

Campus: DTPHX, TEMPE

Program Description:

The MS in biomedical diagnostics will be a 30 credit degree program taught by faculty at ASU in collaboration with Dublin City University and Ventana Medical Systems. The program will employ a blended learning approach adopting online and face-to-face elements. The culminating experience for this program is an applied project that will include industry partnerships, as well as experiences at both ASU and DCU. The degree will cover four central areas related to the diagnostics field within the program: the technology, the science, the business and the application of diagnostics.

Degree Requirements: 30 credit hours including an applied project (BMD 593).

core course credit hours (15)*

elective credit hours (9)*

research (3)

culminating experience: BMD 593 Applied Project (3)

overall required credit hours (30)

*Please note that students will take one or more of their courses through Dublin City University and will request to transfer that course work into ASU as part of their degree program.

Admission Requirements:

Degree(s): A minimum of a bachelor's or master's degree in one of the following fields, or a closely related field from a regionally accredited college or university is required: biomedical informatics, biology, life sciences, chemistry, biochemistry, engineering, biomedical engineering, business, computer science, supply chain management, health sciences and medical studies.

GPA: A minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's first bachelor's degree program is required. A minimum of 3.00 cumulative GPA (scale is 4.00 = A) in the applicable master's degree is required.

English Proficiency Requirement for International Applicants: The English proficiency requirements are the same as the Graduate Education requirement. (see Graduate Education requirement http://graduate.asu.edu/admissions/international/english_proficiency (http://graduate.asu.edu/admissions/international/english_proficiency)) Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Required Admission Examinations: None required

Letters of Recommendation: Yes

Students must fulfill the requirements of both Graduate Education and those of the College of Health Solutions.

Biomedical Informatics, MS (ESBIOINFMS)

Online Degree Search Title: Biomedical Informatics (MS)

Campus: DTPHX

Program Description:

The MS in biomedical informatics is designed to meet the rapidly growing need for professionals with preparation that integrates technological expertise in informatics, computer sciences, biosciences and mathematical statistics with a knowledge of the clinical environment in the health care professions.

The program features a sequence of courses specifically designed to bring together clinicians and researchers in teams, applying new developments in informatics theory to clinical practice. This program is supported by a broad set of collaborators including Banner Health, Barrow Neurological Institute, Mayo Clinic-Phoenix Program and The University of Arizona College of Medicine. This approach makes the master's in biomedical informatics program at ASU distinctive, if not unique, among biomedical informatics programs in the United States. Students will take courses in such areas as public health, clinical environments, bioinformatics and statistics.

Students in the master's and PhD programs split course work between ASU's Tempe campus and Mayo Clinic, Scottsdale campus. Shuttle service is complimentary and provided several times daily between Tempe and Scottsdale locations.

Degree Requirements: 32 credit hours, a written comprehensive exam and including the required capstone course (BMI 592).

Due to the diverse academic backgrounds of students requesting admission into this program, many will find it necessary to take some course work in preparation. However, all students will take 32 credit hours of graduate-level course work, including 17 hours of mandatory course work as outlined below:

BMI 501 Introduction to Biomedical Informatics (3)

BMI 502 Foundations of Biomedical Informatics Methods I (3)

BMI 504 Introduction to Clinical Environments (3)

BMI 505 Foundations of Biomedical Informatics Methods II (3)

BMI 540 Problem Solving in Biomedical Informatics (3)

BMI 570 Symposium (2)

The remaining hours include nine hours of elective course work and six hours of research credit to be applied to the completion of a scientific paper.

Admission Requirements:

Students interested in applying to this program must submit an online application to Graduate Education.

Applicants should have earned a bachelor's degree in biology, computer science, engineering, nursing or statistics. Applicants who have earned degrees in other unrelated fields with appropriate academic backgrounds will also be considered. However, all applicants must have basic competencies in college-level calculus (similar to MAT 270), general biology (similar to BIO 188) or physiology, statistics (similar to STP 226) and basic computer programming (similar to CSE 100 or 110).

The applicant's undergraduate GPA, statement of purpose and depth of preparation in their field are the primary factors affecting admission. Every applicant must submit scores for the GRE or any other graduate-level entry examination.

Applicants whose native language is not English (regardless of where they may now reside) must also submit Test of English as a Foreign Language (TOEFL) scores.

Students must fulfill the requirements of Graduate Education and the College of Health Solutions.

Biomedical Informatics, PHD (ESBMIPHD)

Online Degree Search Title: Biomedical Informatics (PHD)

Campus: DTPHX

Program Description:

The biomedical informatics faculty offer a graduate program leading to the PhD in biomedical informatics. The core program features courses specifically designed to bring together clinicians, biological scientists and informatics researchers to apply new developments in informatics theory to clinical or biological practice.

Additional concentration course work in an area of focus and emphasis on independent research are intended to place these students at the leading edge of the field. Strong collaborative relationships with a variety of health care organizations, the bioscience industry and governmental agencies provide an unparalleled opportunity for doctoral students to explore and contribute to advances in bioinformatics and informatics related to imaging, clinical medicine and public health. Students may explore special foci on cross-cutting areas, such as data mining, predictive modeling and simulation.

Students in the MS and doctorate programs split course work between ASU's Tempe campus and Mayo Clinic, Scottsdale campus. Shuttle service is complimentary and provided several times daily between Tempe and Scottsdale locations.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Due to the diverse academic backgrounds of students requesting admission into this program, many will find it necessary to take some course work in preparation. However, all students will take a 84 credit hours of approved graduate-level course work, including 22 credit hours of mandatory courses listed below:

BMI 501 Introduction to Biomedical Informatics (3)

BMI 502 Foundations of Biomedical Informatics Methods I (3)

BMI 504 Introduction to Clinical Environments (3)

BMI 505 Foundations of Biomedical Informatics Methods II (3)

BMI 515 Advanced Biostatistical Methods (3)

BMI 540 Problem Solving in Biomedical Informatics (3)

BMI 560 Teaching in Biomedical Informatics (2)

BMI 570 Symposium (2)

Admission Requirements:

Applicants must submit an online Graduate Education application.

An applicant should have earned a bachelor's in biology, computer science, engineering or statistics or be trained as a post-bachelor's health professional in medicine, nursing or pharmacy. Those who have earned degrees in other unrelated fields with appropriate academic backgrounds will also be considered. However, all applicants must have basic competencies in anatomy and physiology, college calculus, computer programming, general biology and statistics.

The applicant's undergraduate GPA, statement of purpose and depth of preparation in their field are the primary factors affecting admission. Every applicant must submit:

- scores for the GRE (verbal, quantitative and analytical required; the subject test is optional) or any other graduate-level entry examination
- scores for the Test of English as a Foreign Language (TOEFL) for applicants whose native language is not English (regardless of where they may now reside)

Students must fulfill the requirements of Graduate Education and the College of Health Solutions.

Clinical Exercise Physiology, MS (NHCEPMS)

Online Degree Search Title: Clinical Exercise Physiology

Campus: DTPHX

Program Description:

This degree is preparation for a career as a clinical exercise physiologist, who usually works in concert with medical professionals to guide exercise and rehabilitation programs for at-risk clients and clients with chronic diseases. The American College of Sports Medicine is the national association responsible for establishing guidelines and recommendations for exercise testing, prescription and evaluation of research for both healthy and chronic disease populations. The ACSM Registered Clinical Exercise Physiologist® (RCEP) certification is deemed "ACSM's most prestigious credential for clinical professionals with a master's degree who work with clients currently under the care of a physician for cardiovascular; pulmonary; metabolic; orthopedic or musculoskeletal; neuromuscular; and neoplastic immunological or hematological diseases." This degree will provide the knowledge, clinical experience and skills needed to prepare individuals for successful completion of the registration examination for the RCEP certification.

Degree Requirements: 36 credit hours and a written comprehensive exam.

Required Courses (24 hours):

EXW 501 Research Statistics (3)
EXW 542 Health Promotion (3)
EXW 536 Physiological Aspects of Physical Activity and Chronic Disease (3)
EXW 562 Functional Assessment and Exercise Prescription for Older Adults (3)
EXW 565 Cardiovascular & Pulmonary Physiology (3)
EXW 560 Cardiopulmonary Rehabilitation (3)
EXW 568 Management and Treatment of Chronic Disease for the Clinical Exercise Physiologist (3)
KIN 547 ECG Interpretation (3)

Elective Courses (2 hours):

EXW 591 Seminar (1 + 1) (2)

Research Courses (4 hours):

EXW 500 Research Methods (3)
EXW 592 Research (1)

Culminating Experience:

Written comprehensive exam

Other Requirements (6 hours):

EXW 584 Clinical Exercise Physiology Internship (6)

Total required credit hours: 36

Admission Requirements:

Degree: Minimum of a bachelor's or master's degree in exercise science, exercise physiology, kinesiology or a closely related field from a regionally accredited college or university.

GPA: Minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of the student's first bachelor's degree program.

English Proficiency Requirement: The English proficiency requirements are the same as the Graduate Education requirement.

Foreign Language Exam: No

Required Admission Examination: GRE

Letters of Recommendation: Yes

All qualified applicants will be admitted providing they have completed and met all requirements for admission. Admission will not be limited to any target number of students unless enrollment exceeds the projected capacity of the program to provide an adequate, quality program. In the case of space limitations, applicants will be prioritized based on GRE scores, GPA, letters of reference and letter of intent for admission to the program.

Communication Disorders, MS (LACOMDISMS)

Online Degree Search Title: Communication Disorders (MS)

Campus: TEMPE

Program Description:

The faculty in the Department of Speech and Hearing Science offer a program leading to the MS in communication disorders. Thesis and nonthesis degree options are available. The speech-language pathology program is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association.

Degree Requirements: 53 credit hours and a written comprehensive exam, or 53 credit hours, a thesis and a written comprehensive exam.

Thesis Option

Students wishing to pursue the thesis option must complete 53 credit hours of course work, six hours of which must be thesis credit and 14 credits of which must be practicum and internship. The thesis must meet requirements established by Graduate Education.

Nonthesis Option

Students choosing the nonthesis option must complete 53 credit hours of course work, 14 of which must be practicum and internship.

Final Examinations

For the master's thesis option, two final examinations are required:

- the American Speech-Language-Hearing Association (ASHA) Praxis national certification examination in speech-language pathology
- an oral defense of the thesis

For the master's nonthesis option, two final examinations are required:

- a department-administered comprehensive examination in speech-language pathology
- the ASHA Praxis national certification examination in speech-language pathology

Admission Requirements:

Students applying for admission to this program should submit to Graduate Education:

- an online Graduate Education application
- email addresses of three recommenders
- GRE scores
- a statement of professional and academic goals not to exceed 300 words
- undergraduate transcripts
- proof of English proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

All materials must be received by Jan. 15 for fall admission, which is the only term in which students may begin their program of study. Candidates who have undergraduate deficiencies may need to take required prerequisite courses.

Students must fulfill both the requirements of Graduate Education and the College of Health Solutions.

Exercise and Wellness, MS (ECEXERMS)

Online Degree Search Title: Exercise and Wellness (MS)

Campus: DTPHX

Program Description:

This degree offers unique opportunities for those interested in becoming scholarly professionals and contributors to public health through the delivery of effective exercise and wellness programs to all segments of society. Professionals in education, counseling, commercial fitness and wellness, work site or corporate health promotion, and personal training or life coaching, who are interested in an advanced training in health promotion, exercise and physical activity promotion, fitness and conditioning or in exercise and chronic disease prevention should consider the program.

Degree Requirements: 36 credit hours and a thesis, or 36 credit hours and a written comprehensive exam.

All students must focus their plan of study in one of two areas: health promotion and physical activity or fitness and conditioning.

All students are admitted to the nonthesis option, but may apply to the thesis option. For students who stay with the nonthesis option, the comprehensive exam is the culminating experience. For students who elect the thesis option, the thesis is considered the final integrative experience of the degree. It involves conducting research that is guided by a recognized research paradigm (e.g., scientific, interpretive), producing a scholarly report of the process and results. The thesis option is a good choice for students who are interested in pursuing more advanced graduate study in the field.

The thesis option consists of:

core courses: (12)

EXW 501 Research Statistics (3)

EXW 536 Physiological Aspects of Physical Activity and Chronic Disease (3)

EXW 542 Health Promotion Theory (3)

NTR 500 Research Nutrition I (3)

restricted elective courses: (3)

EXW 591 Exercise and Wellness Seminar (1)

EXW 592 Research (2)

elective courses in focus area: (15)
EXW 534 Sports and Fitness Conditioning (3)
EXW 535 Advanced Exercise Assessment and Prescription (3)
EXW 538 Obesity, Exercise, and Health (3)
EXW 590 Reading and Conference (1-12)
EXW 592 Research (1-12)
EXW 598 Health Program Evaluation (3)
EXW 598 Public Health and Physical Activity (3)
EXW 598 Special Topics (1-4)
EXW 598 Theory of Strength Training (3)
EXW 635 Physical Activity and Aging (3)
EXW 642 Exercise Epidemiology (3)

thesis: EXW 599 Thesis (6)

The nonthesis option is an appropriate choice for those students who cannot devote full-time to their research endeavors or for students who are seeking to continue their education, advance their skill level as practitioners or advance their current careers.

The nonthesis option consists of:

core courses: (12)
EXW 501 Research Statistics (3)
EXW 536 Physiological Aspects of Physical Activity and Chronic Disease (3)
EXW 542 Health Promotion Theory (3)
NTR 500 Research Nutrition I (3)

restricted elective courses: (3)
EXW 591 Exercise and Wellness Seminar (1)
EXW 592 Research (2)

elective courses in focus area: (21)
EXW 534 Sports and Fitness Conditioning (3)
EXW 535 Advanced Exercise Assessment and Prescription (3)
EXW 538 Obesity, Exercise, and Health (3)
EXW 590 Reading and Conference (1-12)
EXW 592 Research (1-12)
EXW 598 Health Program Evaluation (3)
EXW 598 Public Health and Physical Activity (3)
EXW 598 Special Topics (1-4)
EXW 598 Theory of Strength Training (3)
EXW 635 Physical Activity and Aging (3)
EXW 642 Exercise Epidemiology (3)

written comprehensive exam: representing core courses and focus area

Admission Requirements:

Applicants must submit the Graduate Education online application.

In addition to meeting Graduate Education requirements, all applicants to the program are required to submit GRE scores.

Applicants whose native language is not English (regardless of where they may now reside) must also satisfy English proficiency requirements.

Students must fulfill the requirements of Graduate Education and the College of Health Solutions.

Admission to the master's program is based on a number of factors including undergraduate grade point average, GRE scores, three professional letters of recommendation and statement of career or research interests.

Applications are accepted for admission to the fall semester only, with first priority given to completed applications received by Jan. 15. Applications will continue to be reviewed as long as space is available. Students who do not have undergraduate credit for the basic courses required for a bachelor's in exercise and wellness (human anatomy or physiology, human nutrition, exercise physiology, health behavior change, exercise testing and exercise prescription) can be admitted with course deficiencies. However, it is recommended that these deficiencies be taken prior to or within the first year of graduate study. Undergraduate courses taken as deficiencies are not considered part of the graduate plan of study. An undergraduate course in statistics is strongly recommended.

Exercise and Wellness (Healthy Aging), MS (NHEXWHMS)

Online Degree Search Title: Exercise and Wellness (Healthy Aging)

Campus: DTPHX

Program Description:

The MS in exercise and wellness with a concentration in healthy aging prepares the graduate student in the delivery of physical activity programs to older adults. Course content includes: the theories of aging; impact of aging on functional capacity and motor abilities; the role of lifestyle behaviors on aging; physical activity assessment and programming for older adults; physical activity and nutritional influences on healthful aging; and an introduction to the health care system for older adults.

Degree Requirements: 36 credit hours and a thesis, or 36 credit hours and a written comprehensive exam, or 36 credit hours including a capstone course (EXW 597).

Core Courses (9 credit hours):

EXW 501 Research Statistics (3)
EXW 542 Health Promotion (3)
EXW 536 Physiological Aspects of Physical Activity and Chronic Disease (3)

Required Concentration Courses (15 credit hours):

EXW 540 Aging and Lifestyle Behaviors (3)

EXW 562 Functional Assessment and Exercise Prescription for Older Adults (3)

NTR 551 Advance Geriatric Nutrition (3)

HCD 531 Introduction to the Health Care System (3)

KIN 523 Motor Control and Aging (3) OR

EXW 635 Aging and Physical Activity (3)

Elective Courses (6 credit hours):

EXW 591 Seminar (2)

EXW 592 Research (1)

EXW 500 Research Methods (3)

Culminating Experience (6 credit hours):

EXW 584 Internship and a written comprehensive exam OR
EXW 597 Capstone project OR
EXW 599 Thesis

Total required credit hours: 36

Admission Requirements:

Degree: Students are expected to have the course work and undergraduate credit for the basic courses required for a BS degree in exercise and wellness. Students who do not have these course competencies can be admitted with deficiencies. Deficiencies are determined upon admission,
Academic Catalog Archive 2014-2015 419

and these courses must be completed usually by the end of the first year of study. These courses are not considered part of the graduate program of study. A graduate course may be substituted for a deficiency but will be evaluated on a case-by-case basis. First priority will be given to completed applications received by Jan. 15.

The following courses must be completed prior to or during the master's degree as deficiencies. The corresponding ASU course can be found in parentheses:

Exercise Physiology & Laboratory (EXW 315 Physiological Foundations of Movement)
Exercise Prescription (EXW 425 Exercise Prescription)

Exercise Testing & Laboratory (EXW 420 Exercise Testing)
Human Anatomy and Laboratory (BIO 201 Human Anatomy and Physiology I)
Human Nutrition (NTR 241 Human Nutrition)
Human Physiology and Laboratory (BIO 202 Human Anatomy and Physiology II)
Kinesiology & Laboratory (EXW 330 Kinesiological Foundations of Movement)

GPA: A minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's first bachelor's degree program is required. A minimum of 3.00 cumulative GPA (scale is 4.00 = A) in the applicable master's degree is required.

English Proficiency Requirement for International Applicants: Applicants whose native language is not English must submit a Test of English as a Foreign Language (TOEFL) score unless they meet the requirements for an exception.

Required Admission Examinations: The GRE score required is approximately the 50th percentile.

Nutrition, MS (ECHNUTMS)

Online Degree Search Title: Nutrition (MS)

Campus: DTPHX

Program Description:

The MS program in human nutrition is based on the scientific foundations of nutrition, but it also prepares students with strong writing skills, computer literacy, interpretive expertise, problem-solving skills and research experiences. Students who have completed an accredited Didactic Program in Dietetics may also elect to apply to the ASU Dietetic Internship in order to meet the requirements to become a registered dietitian.

The primary objective of the graduate program in nutrition is to provide advanced training in nutrition research. Graduate students are expected to develop competencies in research methods and in advanced practice knowledge relevant to their area of study. The skills and knowledge acquired during the course of training should enable each student to develop professional competencies that can be applied to significant problems and issues within the field of nutrition and dietetics.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required Applied Project course (NTR 593).

The plan of study must contain approved graduate-level work and a thesis or applied project. The following courses are required:

Required Courses:

NTR 500 Research Methods I (3)
NTR 501 Research Methods II (3)

Required Concentration Courses:

Choose two graduate-level nutrition seminars from the following list; topics and availability vary by semester.

Current topics include:

NTR 523 Vegetarian Nutrition (3)
NTR 527 Policies, Environment and Obesity Prevention (3)
NTR 529 Pediatric Nutrition (3)

NTR 537 Evidenced-Based Nutrition (3)
NTR 598 Seminars (3)*

Electives (9)

Required Statistics Course:

Choose one course from the following list of approved courses:

EDP 552 Multi-regression and Correlation Methods (3)

EDP 554 Analysis-of-Variance Methods (3)

EXW 501 Research Statistics (3)

PSY 529 Correlation and Psychometric Theory (3)

PSY 530 Intermediate Statistics (3)

STP 530 Applied Regression Analysis (3)

STP 531 Applied Analysis of Variance (3)

STP 532 Applied Nonparametric Statistics (3)

STP 533 Applied Multivariate Analysis (3)

or other approved course

NTR 599 Thesis (6) or NTR 593 Applied Project (6)

*NTR 598 Seminars reflect the changing nature of research and cover different subject areas each semester. Recent seminars include global nutrition, public health, functional foods and sports nutrition.

Admission Requirements:

Applicants must submit a Graduate Education online application.

Prerequisites for admission into the program are:

- anatomy and physiology I and II with labs (such as BIO 201 and 202 at ASU)
- biochemistry (one semester only is required, such as BCH 361 at ASU)
- general chemistry with lab (such as CHM 101 or CHM 113 plus CHM 116 at ASU)
- general nutrition for majors (such as NTR 241 at ASU)
- microbiology with lab (such as MIC 205 and MIC 206 at ASU)
- organic chemistry with lab (one semester only is required, such as CHM 231 and CHM 235 lab at ASU)
- statistics (any statistics course)

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill the requirements of Graduate Education and the College of Health Solutions.

No interview is required.

Nutrition (Dietetics), MS (ECNTRDMS)

Online Degree Search Title: Nutrition (Dietetics) MS

Campus: DTPHX, ONLNE

Program Description:

The dietetics concentration under the MS in nutrition is a nonthesis option designed specifically for Registered Dietitians seeking to continue their education, advance their skills as practitioners and achieve their career goals. To facilitate the matriculation of working professionals, some courses are offered online and others are offered one evening per week in person. Students will have the option of enrolling part-time or full-time.

The dietetics concentration under the master's in nutrition requires applicants to have one year, full-time experience as an RD; however, prospective students will not have to be employed at the time of application to the program, nor will students have to be employed to maintain good standing in the program.

Degree Requirements: 30 credit hours including the required applied project course (NTR 593).

Required Courses:

NTR 500 Research Methods I (3)

NTR 501 Research Methods II (3)

Required Concentration Courses:

Choose two graduate-level nutrition seminars from the following list; topics and availability vary by semester.

Current topics include:

NTR 523 Vegetarian Nutrition (3)

NTR 527 Policies, Environment and Obesity Prevention (3)

NTR 529 Pediatric Nutrition (3)

NTR 537 Evidenced-Based Nutrition (3)

NTR 598 Seminars (3)*

Electives (9)

Required Statistics Course:

choose one course from the following list of approved courses:

EDP 552 Multi-regression and Correlation Methods (3)

EDP 554 Analysis-of-Variance Methods (3)

EXW 501 Research Statistics (3)

PSY 529 Correlation and Psychometric Theory (3)

PSY 530 Intermediate Statistics (3)

STP 530 Applied Regression Analysis (3)

STP 531 Applied Analysis of Variance (3)

STP 532 Applied Nonparametric Statistics (3)

STP 533 Applied Multivariate Analysis (3)

or other approved course (3-6 credits)

Applied Project:

NTR 593 Applied Project (6)

*NTR 598 Seminars reflect the changing nature of research and cover different subject areas each semester. Recent seminars include global nutrition, public health, functional foods and sports nutrition.

Admission Requirements:

Prospective students must apply online to Graduate Education. Applicants must also satisfy the following admission requirements:

- a minimum of 2,080 hours (equivalent to one year full-time) of work experience in dietetics or a closely related discipline since becoming an RD
- adequate academic preparation
- current RD credential verification by the Commission on Dietetic Registration
- favorable letters of recommendation
- personal or phone interview
- satisfactory and competitive GPA
- proof of English proficiency*

*Applicants whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Students must fulfill the requirements of Graduate Education and the College of Health Solutions.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Obesity Prevention and Management, MS (NHOB SMS)

Online Degree Search Title: Obesity Prevention and Management

Campus: DTPHX

Program Description:

The MS in obesity prevention and management is an innovative, interdisciplinary degree that draws on a wide array of expertise at ASU to integrate perspectives from the social, applied, life, and health sciences and provides advanced graduate-level problem-focused experiential training that is grounded in evidence and best practices for effective prevention and management of obesity. This degree is geared towards postbaccalaureate students and professionals who wish to advance their understanding of social, cultural, environmental, health and psychological issues associated with obesity. The program emphasizes the complex etiology of obesity and includes courses that will enhance students' ability to work with individuals and populations at risk of obesity to develop effective strategies for prevention and management of the condition across the lifespan.

Degree Requirements: 30 credit hours including an applied project (OBS 593).

Core Course (3 credits)

OBS 501 Obesity Prevention and Management: An Introduction (3)

Electives (21 credits)

Students will select one course each from a list of options provided for the following categories:

- concepts in behavior change (3 credits)
- research methods (3 credits)
- statistics (3 credits)

Additional course selection will depend upon student's chosen track. Students will select six credits from prescribed categories for each track and six credits from other categories listed below.

Tracks:

- cultural aspects of behavior change
- general track
- public health approaches for behavior change
- technological approaches for behavior change

Culminating Experience (6 credits)

Applied project (6)

Admission Requirements:

Degree: Minimum of a bachelor's degree (or equivalent) or a graduate degree in social or health science related fields from a regionally accredited college or university of recognized standing. The following entry-level competencies are needed for admission to the program: students should have completed undergraduate level courses in statistics and psychology and ideally have completed one or more courses in nutrition, physiology and chemistry.

GPA: A minimum of a 3.00 cumulative GPA (scale is 4.00= A) or better is required in the last two years of work leading to a bachelor's degree. Applicants should be competitive in the applicant pool as evidenced by GRE verbal, quantitative, and analytical scores, as well as the statement of educational and career goals, and the letters of recommendation.

English Proficiency Requirement for International Applicants: The English proficiency requirements are the same as the Graduate Education requirement. Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Foreign Language Examination(s): No

Required Admission Examinations: GRE

Letters of Recommendation: Yes

Writing sample: A two- to three page application letter is required, in which the applicants explain why they want to pursue this degree and why they feel well prepared to succeed in this graduate program.

Students must fulfill both the requirements of Graduate Education and those of the College of Health Solutions.

Physical Activity, Nutrition and Wellness, PHD (ECNUTRIPHD)

Online Degree Search Title: Physical Activity, Nutrition, and Wellness (PhD)

Campus: DTPHX

Program Description:

The graduate faculty mentors of the School of Nutrition and Health Promotion offer an interdisciplinary graduate program leading to the PhD in physical activity, nutrition and wellness. The doctoral degree in physical activity, nutrition and wellness integrates graduate courses from several academic units.

Students are challenged to integrate information to focus on issues that contribute to health through chronic disease risk reduction, quality of life promotion, and enhancement of well-being. One unique feature of this program is that it integrates exercise and nutrition research with health promotion research using a problem-centered approach rather than a pure disciplinary approach. While many healthy lifestyles are studied, the emphasis is on physically active living and sound nutrition.

The degree prepares students for research in healthy lifestyles intended to reduce the physical, social and economic costs of poor nutrition and sedentary lifestyles. Students tailor a course of study in either nutrition and health or in physical activity and health, or they can select from a combination of the two programs. Graduates are prepared for careers in higher education, governmental agencies, and in health-related research positions in nonprofit organizations or in private industry.

The program requires residency and a minimum of three years of full-time study after the master's degree. Students will be actively involved in research at all stages of doctoral study through participation in directed research internships, independent research experiences, seminars or colloquia and dissertation research.

Degree Requirements: 97 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Credit requirements are distributed as follows:

previously awarded master's (30)

research core: statistics, research and applied research experiences (26)

cognate (12)

professional development/internship (5)

area of focus (12)

dissertation (12)

Examples of areas of focus include:

- chronic disease prevention
- energy balance
- epidemiology, surveillance, measurement
- lifespan, aging, special topics
- metabolism, physiology and health
- public and community health policy
- technology and health promotion

Courses in the focus or thematic area are determined by the student and supervisory committee. At least three but not more than nine credit hours in the focus area should be taken from a program outside the exercise and wellness or nutrition programs.

Admission Requirements:

Applicants must submit the Graduate Education online application.

In addition to meeting Graduate Education requirements, applicants must have successfully received a master's prior to admission to the program, and it is preferable that a data-based research thesis has been completed.

Applicants must include the following materials with the online application:

- GRE scores (verbal, quantitative and writing)
- letter of intent indicating research or scholarly interest, primary program area, statement of career goals and name of a potential faculty mentor from the list of approved faculty mentors
- professional resume
- three letters of recommendation
- teaching or research assistantship application
- Test of English as a Foreign Language (TOEFL) score*
- writing sample (six-10 pages)

*An applicant whose native language is not English, regardless of where they may now reside, must submit a TOEFL score unless the requirements for an exception have been met.

Prerequisite courses: Students may only be admitted if the following prerequisite undergraduate course topics or their equivalent have been completed prior to starting the program:

- exercise physiology
- human anatomy
- human nutrition
- human physiology
- upper-division nutrition

Students should also have completed a graduate-level statistics and research methods course.

It is expected that students admitted to the program will have a strong disciplinary foundation in physical activity and wellness, health promotion, exercise science or nutrition science. Individuals lacking background in these areas will be required to make up deficiencies before admission. Other requirements may be necessary depending on the area of study and will be determined by the mentor and executive committee.

Admission decisions are based on the compatibility of the applicant's research interests and career goals with the purpose of the degree program, previous academic training, GPA, GRE scores, recommendations, available funding and a match of research interests with available mentors.

It is expected that doctoral students will spend a minimum of three years in full-time residence. The intent is to involve and embed the student in ongoing research as well as class study. Thus, all doctoral students are to be full-time students and hold part-time appointments (20 hours per week) as teaching or research assistants. As such, to be accepted into the program, funding must be available and students must have the expertise, experience and willingness to teach courses or laboratories in the exercise and wellness or nutrition undergraduate curriculum or be a research assistant as funding allows.

Applications are accepted for admission to the fall semester only, with first priority given to completed applications received by Jan. 15.

Students must fulfill the requirements of Graduate Education and the College of Health Solutions.

Science of Health Care Delivery, MS (NHSCHDMS)

Online Degree Search Title: Science of Health Care Delivery

Campus: DTPHX, ONLNE

Program Description:

The MS in the science of health care delivery is designed to provide a foundation in the multidisciplinary field of health care delivery. This degree will provide students with knowledge and competencies to contribute in a patient-centered, safe and cost-effective health care system. The ASU degree is designed for individuals with an interest in a career in the health care industry. The program will focus on quality improvement systems in health care, health disparities and interventions, health education, health economics, health policy, interprofessional teamwork and leadership skills, change management, and evidence-based assessment and management. Much of the course work will utilize a case-based, solution-oriented approach to facilitate integration of knowledge and competencies. Participating students will work in a cohort through the program and will complete the degree in nine months (one academic year).

Degree Requirements: 30 credit hours including the required applied project course (HCD 550).

overall required credit hours (30)

core course credit hours (26)

culminating experience:

HCD 550 Capstone: Applied Project (4)

Admission Requirements:

A minimum of a bachelor's or master's degree from a regionally accredited college or university of recognized standing in a related field such as biology, chemistry, biochemistry, nursing, public health, pharmacy, biomedical informatics, social work, premed, prehealth, nutrition, health promotion and others is required.

A minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's first bachelor's degree program or a minimum of 3.00 cumulative GPA (scale is 4.00 = A) in the applicable master's degree is required.

Applicants whose native language is not English (regardless of where they now reside) must provide proof of English proficiency.

Students must fulfill requirements of both Graduate Education and the College of Health Solutions.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Speech and Hearing Science, PHD (LAHEARPHD)

Online Degree Search Title: Speech and Hearing Science (PhD)

Campus: TEMPE

Program Description:

The PhD in speech and hearing science is designed to prepare scholars for careers of basic and applied research in educational, industrial or health care delivery environments. The student pursues a program with the unifying theme of human communication and its disorders.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

After a core curriculum, which may include aspects of neuroscience, methodology or speech and hearing science, the student completes a program of study under the guidance of the program committee. As part of the doctoral program, a programmatic research experience prepares the student for basic or applied research leading to the dissertation.

Admission Requirements:

Applicants typically have completed a master's or equivalent in speech and hearing science, psychology, linguistics or a related discipline.

Applicants with a bachelor's, strong research interests and a strong academic record are also considered.

All applicants must complete an online Graduate Education application.

Applicants must submit the following evidence for admission review:

- GRE scores, including the writing score, taken within the last five years

- online application for admission to Graduate Education
- official transcripts of undergraduate and graduate study
- professional references from three individuals who are familiar with the applicant's academic record
- proof of English proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Health Solutions.

Interdisciplinary Arts & Sciences, New College of

Communication Studies, MA (ASCOMSTMA)

Online Degree Search Title: Communication Studies (MA)

Campus: WEST

Program Description:

The MA in communication studies prepares students for communication-intensive roles in such fields as:

- community relations
- employee communication
- grass-roots advocacy
- health communication
- human services
- media campaigns
- political communication
- public affairs
- technology-mediated communication systems

A substantive number of graduates pursue the PhD and careers in teaching and research.

Within the master's in communication studies, the notion of advocacy is explored. This is achieved by examining advocacy across the discipline's traditional classifications and within a variety of contexts. This approach allows faculty to journey with students to discover and attend to advocacy in new and unique ways, to collectively theorize and practice advocacy. People who come to our program join the faculty in this endeavor.

Advocacy occurs at the intersection of public and private lives, in the space where the two overlap and mutually inform one another, often in complex and challenging ways. It is here that we seek to uncover the ways in which symbols, messages, meanings and social action are constructed and arranged to establish, facilitate, enhance or detract from the social status, social support and identities of particular individuals and groups, especially the misrepresented, marginalized and othered. Although the faculty recognize fully that one can advocate on one's own behalf, the faculty believe the true work of advocacy involves advocating for a variety purposes - for self, for others, for causes, for organizations - and in a range of spaces and ways. Advocacy is about social action and engagement, publicly and privately. It involves working diligently and ethically to create spaces for a variety of voices and perspectives to be seen, heard, supported and represented. The advocate uses communication theory and practice to build and reclaim spaces for a variety of communities and individuals, and to consider and redress issues of power, knowledge, representation, exclusion, inclusion and access. Advocacy is a calling to the responsibility we have to engage for ourselves and others in a global age of shifting media technologies and power relations. The master's in communication studies seeks to provide those interested in advocacy the opportunity to develop the intellectual and conceptual skills necessary to follow that calling.

Degree Requirements: 36 credit hours and a written comprehensive exam, or 36 credit hours including an applied project (CMN 593) and a written comprehensive exam, or 36 credit hours, a written comprehensive exam and a thesis.

The degree consists of these courses:

CMN 502 Theory and Practice in Communication and Persuasion (3) or CMN 522 Argumentation and Advocacy (3)
CMN 505 Methods in Applied Communication Research (3)

CMN 506 Humanistic Inquiry and Field Research in Communication (3)

Electives (21)*

*At least 21 credit hours of electives are selected in consultation with the student's program advisor. When appropriate, students may take up to six credit hours outside the program.

Additional Requirements

CMN 502 or CMN 522, CMN 505, and CMN 506 must be completed with a grade of "B" (3.00) or higher. In addition, the student must earn a cumulative GPA of 3.00 or higher in all courses numbered 500 or above that appear on the transcript and all courses that appear on the program of study.

The determination of requirements for each student's program of study is the mutual responsibility of the student and advisor. Students are permitted to take comprehensive examinations only concurrent with, or subsequent to, completion of their 36th credit hour of course work.

Thesis or Applied Project

Qualified students can complete a thesis (6 credit hours) or applied project (3 credit hours) in addition to elective hours and examinations. The thesis or applied project must demonstrate intellectual, academic, and professional growth and ability. The thesis is supervised and approved by the student's advisor and committee. An oral defense is required for the thesis. The applied project is supervised by the student's advisor. Public presentation (e.g., a poster session or class presentation) is required for the applied project.

Descriptions of current program options and requirements are available from the communication studies program in FAB N301H.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Communication, BA
- Communication, BS
- Political Science, BS
- Political Science, BA
- Psychology, BS
- Psychology, BA
- Social and Behavioral Sciences, BA
- Social and Behavioral Sciences, BS
- Sociology, BA
- Sociology, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Admission to the program is competitive, based on an applicant's undergraduate scholarly activities, research abilities and professional experience. All applicants must submit the following:

- official transcripts of all undergraduate and graduate work
 - a 500-word personal statement indicating academic and professional goals and addressing how the program will aid in the achievement of those goals
 - three letters of recommendation, up to two of which may come from appropriate professional, nonacademic sources
 - a writing sample of scholarly work or an example of professional activities (i.e., technical reports, grants, creative campaign)
 - official GRE scores, if the undergraduate cumulative GPA is below 3.00 for the last 60 credit hours
- proof of English proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. These applicants must achieve a minimum test score of 550 paper-based, 213 computer-based or 80 Internet-based on the Test of English as a Foreign Language (TOEFL) or a minimum overall score of 6.5 on the International English Language Testing System (IELTS).

Students must fulfill both the requirements of Graduate Education and the New College of Interdisciplinary Arts and Sciences.

Interdisciplinary Studies, MA (ASINTERMA)

Online Degree Search Title: Interdisciplinary Studies (MA)

Campus: WEST

Program Description:

The MA in interdisciplinary studies is an innovative and flexible degree program designed for students who wish to pursue a unique educational experience by combining the study of two or more disciplines. Founded on the conviction that solving problems and producing knowledge in the 21st century often requires the crossing of disciplinary boundaries, the program provides exposure to a variety of research methods, historical perspectives and modes of inquiry.

Prospective students include teachers who intend to increase and integrate their knowledge in specific content areas, professionals in the corporate and nonprofit sectors who wish to advance or redirect their careers, aspiring scholars and researchers who want to prepare for doctoral study, and other individuals who desire personal enrichment in the humanities and social sciences. Once admitted to the program, students may define their own area of emphasis or adopt an area such as:

- American studies
- assessment of integrative health modalities (see graduate certificate program <https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/PPSWGGRCH/graduate/false> (<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/PPSWGGRCH/graduate/false>))
- cultural studies
- digital media art
- English literature
- gender studies (see graduate certificate program <https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/LAWSTGRCT/graduate/false> (<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/LAWSTGRCT/graduate/false>))
- museum studies (see graduate certificate program <https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/LAMUSEUMCE/graduate/false> (<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/LAMUSEUMCE/graduate/false>))
- nonprofit leadership and management (see graduate certificate program <https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/PPNONPROCE/graduate/false> (<https://webapp4.asu.edu/programs/t5/majorinfo/ASU00/PPNONPROCE/graduate/false>))
- philosophy, rhetoric and literature

The degree requires 30 credit hours of course work, including three core courses that prepare students for advanced interdisciplinary study. Working closely with a faculty advisor, students may select the remaining courses from graduate offerings across the New College of Interdisciplinary Arts and Sciences and other Arizona State University colleges and schools. The program culminates with a capstone experience that may result in a research paper or applied project.

Degree Requirements: 30 credit hours including the required capstone course (MAS 585).

Core Required Courses:

MAS 501 Methods for Interdisciplinary Inquiry (3)

MAS 502 Perspectives in Interdisciplinary Studies (3)

MAS 505 Theories of Change, Culture, and Mind (3)Area of Emphasis/Focus Area:

Working with a faculty mentor, students select 15 to 18 credit hours of graduate-level course work that reflect a particular area of specialty or interest.Elective:

Students can select three credit hours of a graduate-level elective in order to reach the required 30 credit hours for the degree program.Capstone Experience:

MAS 585 Capstone Course (3)

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- American Studies, BA
- Applied Science, BAS
- Communication, BS
- Communication, BA

Social and Behavioral Sciences, BA
Social and Behavioral Sciences, BS
Sociology, BS
Sociology, BA
Women and Gender Studies, BA
Women and Gender Studies, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Admission is granted on a competitive basis. To be admitted to the master's in interdisciplinary studies, candidates must have a four-year bachelor's degree from a regionally accredited institution or foreign equivalent and must submit the following:

- official transcripts of all undergraduate and graduate course work
- official GRE scores if undergraduate GPA is below 3.00
- a personal statement
- three letters of recommendation*
- writing sample
- resume
- proof of English proficiency**

*It is preferred that these letters come from faculty.

**Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students whose native language is not English must also achieve a minimum test score of 550 paper-based, 213 computer-based, 80 Internet-based on the Test of English as a Foreign Language (TOEFL), or a minimum overall score of 6.5 on the International English Language Testing System (IELTS).

Students must fulfill both the requirements of Graduate Education and the New College of Interdisciplinary Arts and Sciences.

Psychology, MS (ASPGSMS)

Online Degree Search Title: Psychology (MS)

Campus: WEST

Program Description:

The MS in psychology program is a full-time, two-year, research-oriented program most appropriate for students who plan to continue on to a doctoral program or pursue research-related careers in business, government or nonprofit sectors. Students receive intensive training in advanced research methodology and statistical analysis and are offered a wide variety of elective graduate seminar courses in:

- abnormal psychology

- affective science
- behavior analysis
- cognitive psychology
- developmental psychology
- health psychology
- legal psychology
- psychophysiology
- social psychology
- stress and coping family psychology

Students in this program receive hands-on experience with:

- data collection and analysis
- experimental design
- grant proposal writing
- laboratory instrumentation
- manuscript development

All students are expected to participate in faculty-guided research, including the opportunity to present research at regional and national conferences, and participate as coauthors in conferences, published research reports or monographs. In addition, students will conclude their studies with an empirical thesis project or an applied research-based project.

Degree Requirements: 31 credit hours and a thesis, or 31 credit hours including the required applied project course (PSY 593).

Specific credit-hour requirements include:

- A seminar for all newly admitted students, that will address professional issues such as locating and applying for external funding, ethical issues in research and practice, and participation in professional organizations. All psychology faculty present their research and participate in the seminar. (1)
- Completion during the second year of the program of either a thesis or an applied research project. This work will be approved and overseen by the three-member (thesis) or the two-member (applied project) supervisory committee, as stipulated by Graduate Education policy. (6)
- Five elective content courses in which students acquire an understanding of current theoretical issues of psychology (e.g., abnormal psychology, affective science, behavior analysis, cognitive psychology, developmental psychology, health psychology, legal psychology, psychophysiology and social psychology) and become familiar with theoretical analysis and the current state of the field. (15)
- Independent research hours accrued in faculty laboratories or an applied research-based project in which students will receive hands-on experience in experimental design, laboratory instrumentation, data collection and analysis and manuscript development. Students take three or more credit hours. Research credit hours cannot substitute for elective content courses. (3 or more)
- Training in advanced research methods and statistics. (6)

Admission Requirements:

Applicants must submit an online Graduate Education application.

Applicants must meet Graduate Education admission requirements. All applications must include the following:

- bachelor's in psychology or a related field
- minimum cumulative GPA of 3.00 on a 4.00 scale
- completion of the GRE, with a recommended verbal plus quantitative score of 300
- successful completion of undergraduate psychology statistics and research methods courses (or their equivalent)
- three letters of recommendation from faculty; letters from faculty preferred but if not available then from individuals in supervisory or professional roles
- personal statement*
- proof of English proficiency**

*A personal statement no longer than three double-spaced pages must be submitted describing how the applicant would be a good fit for the program, including research interests and career plans. The statement should rank-order three faculty members with whom the applicant would be interested in working.

**Applicants whose native language is not English (regardless of where they may now reside) must also achieve a minimum test score of 550 paper-based, 213 computer-based or 80 Internet-based on the Test of English as a Foreign Language (TOEFL) or a minimum overall score of 6.5 on the International English Language Testing System (IELTS).

Students must fulfill both the requirements of Graduate Education and those of New College of Interdisciplinary Arts and Sciences.

Social Justice and Human Rights, MA (ASJHRMA)

Online Degree Search Title: Social Justice and Human Rights (MA)

Campus: WEST

Program Description:

The MA in social justice and human rights offers justice and human rights approaches to specific issues such as:

- education
- environment
- gender and sexuality
- health
- human trafficking
- migration
- work

These issues are approached in a context influenced by the intersections of gender, race, ethnicity, sexuality, location or nationality. The program provides a theoretically and methodologically rigorous program that will offer opportunities for skill specialization in research and in the management of advocacy-oriented organizations in the nongovernmental sector, domestically and transnationally. Students choose one of two tracks: social justice and human rights research or nongovernmental organization management.

The program is structured so current practitioners in NGOs and other nontraditional students are able to complete their degree requirements by spending two semesters on campus and completing the remainder of their degree requirements at their place of work in whatever location or country that may be. The remaining course work can be completed via a summer internship and a semester off campus, to complete the capstone experience in the field. Many students will remain on campus for their entire program of study.

Degree Requirements: 33 credit hours and a thesis, or 33 credit hours including the required applied project course (JHR 593).

The program includes:

18 credit hours of core course work

six credit hours of career-oriented track course work

six credit hours of elective course work AND three credit hours of applied project

OR

three credit hours of elective course work AND six credit hours of thesis

Core Course work (18 credit hours)

JHR 500 Research Methods (3)

JHR 501 Proseminar in Social Justice and Human Rights (3)

JHR 506 Grant Writing for Social Justice and Human Rights (3)

JHR 510 Problem-Based Seminar in Social Justice and Human Rights (3)

JHR 511 Community-Embedded Seminar in Social Justice and Human Rights (3)

JHR 584 Internship (3)

Career-oriented Track (6 credit hours)

In consultation with the program director, each student will select either two nonprofit leadership management courses or two research courses.

Electives (3-6 credit hours)

In consultation with the program director, each student is required to complete one to two additional courses that fit their program.

Culminating Experience (3-6 credit hours)

Students will complete either JHR 593 Applied Project (3 credit hours) or JHR 599 Thesis (6 credit hours)

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Admission is granted on a competitive basis. To be admitted, candidates must have a four-year bachelor's from a regionally-accredited institution, or foreign equivalent and must submit the following:

- a personal statement
- official transcripts of all undergraduate and graduate course work
- official GRE scores
- resume
- two letters of recommendation
- writing sample
- proof of English proficiency*

*Students whose native language is not English must also achieve a minimum test score of 550 paper-based, 213 computer-based, or 80 Internet-based on the Test of English as a Foreign Language (TOEFL), or a minimum overall score of 6.5 on the International English Language Testing System (IELTS).

Completion of an undergraduate research methods or statistics course is recommended, but not required.

The GRE requirement may be waived if the applicant has successfully completed graduate-level course work.

Journalism & Mass Communication, Walter Cronkite School of

Business Journalism (Certificate), Certificate (CSBSJGRCT)

Online Degree Search Title: Business Journalism

Campus: ONLNE

Program Description:

The graduate certificate in business journalism is designed to give professional journalists a competitive edge in the globally expanding job market for business journalists. The five-course, 15-hour program is offered through the Cronkite School's Donald W. Reynolds National Center for Business Journalism and taught by top faculty at the Walter Cronkite School of Journalism and Mass Communication. The certificate can be completed in one year, and a portion of the graduate course work may be applied to the Cronkite School's master's of mass communication degree.

Degree Requirements: 15 credit hours.

Required Courses: 15 credit hours

Electives: None required

Culminating Experience: None required

Total required credit hours: 15

Admission Requirements:

Admission criteria: Applicants must meet the admissions criteria for Graduate Education.

Degree(s): An undergraduate degree in journalism, mass communication or related field from a regionally accredited institution, or bachelor's degree and professional journalism experience is required.

GPA: A minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 semester hours or 90 quarter hours of a student's bachelor's degree program is required. Applicants should have official transcripts of all college-level work sent to Graduate Education.

English Proficiency Requirement for International Applicants: (See policies and procedures)
(<https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>))

All applicants for the graduate certificate in business journalism must also submit the following materials:

- a resume or biographical sketch
- a 350- to- 500-word personal statement that serves as a writing sample*

*In the personal statement, the applicant should detail the reasons for pursuing the business journalism certificate.

Applicants whose native language is not English (regardless of where they may now reside) must take the Test of English as a Foreign Language (TOEFL) and have a score of at least 100 on the Internet based test (IBT). Students can have these scores automatically submitted to ASU and the Cronkite School by using institution code 4007.

The Cronkite School's graduate committee will review complete applications on a rolling basis and submit its admissions recommendations to the Graduate Education for final approval.

Required Admission Examinations: None required

Applicants must fulfill the requirements of both Graduate Education and those of the Walter Cronkite School of Journalism and Mass Communication.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated,7.5-week classes.

Journalism and Mass Communication, PHD (CSJMCPHD)

Online Degree Search Title: Journalism and Mass Communication PHD

Campus: DTPHX

Program Description:

This program is designed to be a small, student-centered, scholarly research-oriented PhD in journalism and mass communication. It is based on the following priorities:

- a journalism and mass communication focus
- an interdisciplinary approach that requires course work outside of the journalism school
- one-on-one, faculty-student mentoring
- program flexibility

The emphasis of this degree is the creation of scholarly, peer-reviewed, articles and presentations based on journalism and mass communication philosophy, theory, and methods. The program prepares students for research-oriented careers in journalism and mass communication education and related fields.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering the program with a master's in journalism or mass communication, or a related field, must complete 60 credit hours of course work. Students who are admitted to the program without a master's degree will be required to complete an additional 24 credits of course work.

core courses (18)

dissertation (12)

elective courses (18)

previous master's or additional hours approved by the supervisory committee (24)

research (12)

The total credit hours required is 84.

Admission Requirements:

Applicants must complete an online Graduate Education application.

Admission is granted for the fall semester only. The application deadline is Feb. 1 of each year. Applicants must meet all deadlines and application requirements to be considered.

The Cronkite school's doctoral committee reviews complete and on-time applications. Recommendations for admission are made to ASU Graduate Education, where the final admission decisions are made.

ASU Graduate Education requires that applicants have a minimum grade point average of 3.00 (on a 4.00 scale) in the last 60 semester hours of course work to be considered for admission.

Applicants must submit:

- test scores on the quantitative and verbal sections of the GRE, with the verbal score being particularly important to the Journalism school's graduate committee
- three letters of recommendation
- personal statement of interest (350-500 words in length)
- resume
- samples of scholarly work
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. Test of English as a Foreign Language (TOEFL) scores must be at least 600 for the paper-based examination and 100, Internet-based.

Students must fulfill both the requirements of Graduate Education and those of the Walter Cronkite School of Journalism and Mass Communication.

Mass Communication, MMC (CSMCOMMMC)

Online Degree Search Title: Master of Mass Communication (MMC)

Campus: DTPHX

Program Description:

The MMC offers basic journalism skills instruction, education in journalism values and instills 21st-century vision and perspective. Students gain practical hands-on experience in specialties including print, broadcast, online and business journalism.

The cornerstones of the graduate program are the journalism school's professional immersion programs:

- Borderlands projects
- Cronkite News Service
- New Media Innovation Lab
- NewsWatch
- The Knight Center for Digital Media Entrepreneurship

Degree Requirements: 30 credit hours including the required applied project course (MCO 593), or 30 credit hours including the required capstone course (MCO 570), or 36 credit hours including the required capstone course (MCO 570).

The master's program is a full-time, three-semester-long, 36-credit-hour immersion program. Students with extensive professional experience may be offered the opportunity to pursue the 30-credit-hour mid-career option.

Accelerated Degrees:

This degree is also offered as an accelerated degree with Journalism and Mass Communication, BA

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Admission is granted for the fall semester only. The application deadline is Feb. 1 of each year. Applicants must meet all deadlines and application requirements to be considered. The Cronkite school's graduate committee reviews complete and on-time applications. Recommendations for admission are made to ASU Graduate Education, where the final admission decisions are made.

Applicants' submission requirements:

- Applicants must complete an online Graduate Education application.
- ASU Graduate Education requires that all those admitted have at least a 3.00 GPA (based on a 4.00 scale) in the last 60 credit hours or 90 quarter hours of undergraduate course work.
- The scores on the quantitative and verbal sections of the GRE are required, with the verbal score being particularly important to the Journalism school's graduate committee.
- Test of English as a Foreign Language (TOEFL) scores must be at least 600 for the paper-based examination and 100, Internet-based.
- Three letters of recommendation are required.
- Applicants must submit a personal statement of interest (350-500 words in length).
- A resume is required.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Law, Sandra Day O'Connor College of

Biotechnology and Genomics, LL.M. (LWGENOMLLM)

Online Degree Search Title: Biotechnology and Genomics (LLM)

Campus: TEMPE

Program Description:

The LLM in biotechnology and genomics program is offered through the Sandra Day O'Connor College of Law's Center for Law, Science, and Innovation, the nation's oldest, largest and most comprehensive research center focusing on the intersection of law and science. Through classroom instruction and guided independent study, LLM candidates will examine the legal issues surrounding genetic applications such as:

- cloning
- forensic evidence
- gene testing
- gene therapy
- genetically modified organisms
- stem cells and behavioral genetics

The issues relate to:

- business planning
- confidentiality
- evidentiary standards
- intellectual property
- international trade
- liability
- licensing
- privacy
- regulation

LLM students explore and examine the law that enables and constrains the development, control and application of biotechnology and genomics. Relevant legal fields include:

- agricultural law and policy
- health law, particularly public health law
- intellectual property

Forensic science and ethical constraints upon the various contemplated uses are also important elements of the program. Because the legal, ethical and policy aspects of genomics and biotechnology are of global significance, this program will also be beneficial for non-U.S. lawyers. Candidates for an LLM degree must have received their JD or comparable terminal law degree from another country.

Degree Requirements:

The program is designed to be completed in nine months on a full-time basis, but may also be pursued on a part-time basis. A degree candidate must complete 24 credit hours of course work to obtain the LLM in biotechnology and genomics. A candidate may elect to write a graduate thesis for either three or six credit hours, or can elect not to write a thesis and fulfill the equivalent credits with other course work. Two required courses are: genetics and the law, and biotechnology: science, law and policy.

The remaining credit hours will generally be obtained from the list of elective courses. With faculty advisor approval, a candidate may satisfy up to six credit hours with courses offered by other ASU departments or by law courses that are not included on the approved elective list.

Admission Requirements:

Applications are accepted on a rolling basis for fall or spring entry.

Priority deadlines

- Fall application priority deadline: July 30

- International applicants who require a visa: June 15
- Spring application priority deadline: Nov. 30
- International applicants who require a visa: Oct. 30

Admission to the program is competitive. In order to be admitted, an applicant must have completed a JD degree or a law degree at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country and have submitted a complete application to the program. Selection will be based on:

- academic background and potential
- career experience and ambitions
- diversity of experience and background
- strength of experience related to the program sought and other factors
- space and resource limitations in the law school

For an application to be considered complete, it must include the following:

- completed LLM online application form (available at <http://www.lsac.org> (<http://www.lsac.org>))
- required application fee
- resume that does not exceed three typed pages
- statement of interest that does not exceed 1,250 words (double-spaced, typed pages)
- transcripts from all institutions attended, including the transcript showing that the bachelor's and law degree were conferred*
- two letters of recommendation*
- writing sample

*Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and will be provided to the ASU College of Law by LSAC.

Applicants with degrees from foreign institutions must meet ASU Graduate Education and College of Law English proficiency requirements.

Indian Law (certificate), Certificate (LWLAWGRCI)

Online Degree Search Title: Indian Law Certificate

Campus:

Program Description:

The Indian law certificate program is designed for students who plan to practice Indian law, particularly students who may be representing tribal communities directly after graduation.

To be eligible to pursue the Indian law certificate, a student must be enrolled in the Sandra Day O'Connor College of Law and be in good standing. Transfer applicants may be admitted to the certificate program if they otherwise meet the admission standards of the Sandra Day O'Connor College of Law.

The certificate requires substantive course work, a minimum grade requirement, practice experience in Indian law and the College of Law graduation writing requirement written on an Indian law topic.

Degree Requirements:

The certificate requires a minimum of 21 hours of substantive work in Indian law and related fields. The following courses are required:

advanced legal research and writing

at least one other course, approved by the executive director, that primarily addresses core Indian law issues

LAW 632 Federal Indian Law I

LAW 704 Federal Indian Law II

Indian law seminar

Other credits must come from a list of approved law electives or non-law electives approved by the executive director. Students pursuing the certificate must also complete a practice experience in Indian law (the Indian law clinic or other executive director-approved experience) and the

senior thesis requirement. Students must receive a grade of "75" or above, "C" (2.00) or above or a "pass" in each course used to fulfill the Indian law certificate requirements.

More specific requirements for completion of the Indian law certificate can be found on the College of Law website.

Admission Requirements:

Students wishing to pursue the Indian law certificate must be enrolled in the JD program at the Sandra Day O'Connor College of Law and must be in good standing. Specific requirements for the Indian law certificate program can be found at the college's website.

Juris Doctor of Law, JD (LWJDJD)

Online Degree Search Title: Juris Doctor (JD)

Campus: TEMPE

Program Description:

The JD degree program offers a particularly large selection of courses with many options for interdisciplinary study with other departments on campus. Students will find the opportunity to take classes with a more traditional, theoretical focus and to take advantage of many options that focus on the development of practice skills. The college hosts:

- The Center for Law and Global Affairs
- The Center for Law, Science and Innovation
- The Indian Legal Program

Degree Requirements:

Satisfactory completion of the course of study offered by the College of Law leads to the Juris Doctor degree.

To be eligible for the Juris Doctor, a student must satisfy all the following:

- Admission to the college as a candidate for the degree and satisfaction of any conditions imposed at the time of admission or prior to graduation during the course of law study is required.
- All 88 credits required for graduation must be earned at the ASU Sandra Day O'Connor College of Law unless prior approval by the dean's designee is granted (per college policies).
- A maximum of 12 credits of externship work and a maximum of seven credits of independent study can be counted toward the 88 credits required for graduation.
- Complete all required first-year courses, professional responsibility and either Constitutional Law II or Criminal Procedure.
- Complete degree requirements no earlier than 24 months and no later than 84 months after commencing study at the law school or a law school from which the school has accepted transfer credit. A transfer student must complete the work of at least three semesters in the ASU Sandra Day O'Connor College of Law immediately preceding the granting of a degree.
- No more than four credit hours of "D" (1.00 on a 4.00 scale) grade work after the first year can be applied toward the 88 hours.
- Satisfy the graduation writing requirement (per college policies).
- Satisfy the professional skills requirement (per college policies).
- Satisfy the flexible writing requirement (per college policies).
- Successful completion of a minimum of 88 hours of academic credit of which 72 must be graded with a cumulative weighted average of "C" (2.00 on a 4.00 scale) or better is required.
- A minimum of 63 credits must be obtained from courses that involve attendance at regularly scheduled class sessions. The following do not count toward the required 63 credits: externships, independent studies, credits taken outside the law school under College of Law policy IX A, credits received for journal work, credits received for moot court, credits received for teaching assistantships, credits received from courses without regularly scheduled meetings, credits received for any clinic other than the civil justice clinic, the immigration law and policy clinic, the Indian legal clinic, the mediation clinic and the post-conviction clinic.
- A maximum of 38 transfer credits can be counted toward the 88 credits required for graduation.

Concurrent Degrees:

This degree is also offered as concurrent degree with:

Justice Studies (PhD)
Psychology (PhD)
Tucson / Downtown Phoenix - Social Work - Standard Program (MSW)
W. P. Carey MBA - Full-Time Program

Admission Requirements:

The Sandra Day O'Connor College of Law at Arizona State University enrolls only one first-year, Juris Doctor class per year, and it enters in the fall semester. The program is a three-year program, and almost all students study on a full-time basis. The college does offer a flexible scheduling option for students with circumstances that make full-time enrollment impossible. Each year, far more applications are submitted to the Sandra Day O'Connor College of Law than the college's facilities and programs can accommodate. Thus, admission is competitive. The College of Law makes its admission decisions based upon all information contained in the applicant's file.

To be considered for admission to the program, an applicant must have taken the LSAT and have earned, or expect to earn by the time of enrollment in law school, a bachelor's degree from an accredited four-year college or university. Further, a candidate must complete the application for admission and submit all mandatory attachments. Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and will be provided to the College of Law by LSAC with the applicant's LSAT record. Applicants must apply electronically through <http://www.lsac.org> (<http://www.lsac.org/>).

The Sandra Day O'Connor College of Law will provide full file review to 100 percent of the completed applications to the Juris Doctor program. While the applicant's undergraduate record and LSAT score are important predictors, no decision will be made on objective criteria alone. Among the other factors considered by the admission committee are:

- ability to communicate
- demonstrated commitment to public service
- diversity of experience and background
- exceptional personal talents
- extracurricular or community activities
- foreign language proficiency
- geographic diversity
- graduate study
- history of overcoming economic or other disadvantage
- honors and awards
- leadership experience
- maturity
- overcoming disability
- personal experiences with discrimination
- publications
- service in the Armed Forces
- the rigor of the undergraduate course of study
- work experience

Application deadlines are as follows:

- Early admission (nonbinding): Nov. 15.
- Regular admission: Feb. 1.

For an application to be considered complete, it must include the following:

- a complete Credential Assembly Service report, with all transcripts and letters of recommendation or evaluations*
- the completed application, including explanations for affirmative answers to conduct, character and fitness questions
- LSAT scores from Law School Admissions Council
- a personal statement that does not exceed two double-spaced, typed pages
- the required application fee
- a resume that does not exceed three typed pages

*The report must be from the current application year.

Applicants with degrees from foreign institutions must meet ASU Graduate Education and College of Law English proficiency requirements.

LAW 119

Law, Science, & Technology (certificate), Certificate (LWLAWSTCE)

Online Degree Search Title: Law, Science, and Technology Certificate

Campus:

Program Description:

The law, science and technology certificate program is for students with science and technology interests and is limited to students pursuing a JD at the Sandra Day O'Connor College of Law.

The program allows for specializations in the areas of:

- environmental law
- genomics and biotechnology law
- health law
- intellectual property
- law and psychology

Degree Requirements:

- Each student must satisfy their graduation writing requirement on a topic related to law, science and technology. The paper must meet all of Sandra Day O'Connor College of Law's requirements for a graduation writing requirement and must be supervised by a center fellow.
- A minimum cumulative grade average of at least a B is required for those courses that satisfy the substantive course work requirements of the certificate. Courses used to satisfy the core or specialization requirements may not be taken for pass or fail credit. A student may take one elective course on a pass/fail basis.
- Substantive course work is required in law, science and technology subjects for a minimum of seven courses, earning at least 16 credit hours, at the Sandra Day O'Connor College of Law. Two courses are chosen from the designated core courses and five courses are chosen from a list of elective courses.

Each student is encouraged to actively participate in the events (speaker, conferences, symposia) sponsored by the Center for Law, Science and Innovation and to participate in at least one approved activity for two semesters.

Students have the option of pursuing a specialization within the certificate. The specialization areas are intellectual property, health law, environmental law, genomics and biotechnology law, and law and psychology. For students pursuing the specialization option, four courses within the area of specialization are required and the core course requirement is reduced from two to one.

Additional details of the program requirements for the law, science and technology certificate can be found in the Sandra Day O'Connor College of Law Statement of Student Policies.

Admission Requirements:

Students wishing to pursue the law, science and technology certificate must be enrolled in the JD program at the Sandra Day O'Connor College of Law and be in good standing.

Specific requirements for admission to the law, science and technology certificate program can be found on the college website.

Laws, LL.M. (LAWLAWSLLM)

Online Degree Search Title: Laws (LLM)

Campus: TEMPE

Program Description:

The LLM program allows one year of post-JD study tailored to the scholarly and practice interests of participating students. Study is available in a variety of areas in which the law school holds particular strength. Alternatively, U.S. attorneys and international attorneys may design their own

customized master's program to complement their interests in the practice of law.

Degree Requirements:

The program requires 24 credit hours. Required courses will depend on the student's particular concentration of the degree. International students will be required to take LAW 596 Professional Legal Writing. A candidate may elect to write a master's portfolio paper, or can instead elect to complete an applied project. The remaining credit hours will generally be obtained from the list of elective courses. With faculty advisor approval, a candidate may satisfy up to six credit hours with courses offered by other ASU departments or by law courses that are not included on the approved elective list.

Admission Requirements:

The Sandra Day O'Connor College of Law offers several master's programs for students who have already completed a law degree within the U.S. or abroad. Applications are accepted on a rolling basis for fall or spring entry.

Priority deadlines

- Fall application priority deadline: July 30
- International applicants who require a visa: June 15
- Spring application priority deadline: Nov. 30
- International applicants who require a visa: Oct. 30

Admission to the program is competitive. To be admitted, an applicant must have completed a Juris Doctor or a law degree at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country and have submitted a complete application to the program. Selection will be based on academic background and potential, diversity of experience and background, career experience and ambitions, strength of experience related to the program sought, space and resource limitations in the law school, and other factors.

For an application to be considered complete, it must include the following:

- the completed LLM application form*
- the required application fee
- a resume that does not exceed three typed pages
- a statement of interest that does not exceed 1,250 words: double-spaced, typed pages
- transcripts from all institutions attended, including the transcript showing that the bachelor's degree and law degree were conferred**
- two letters of recommendation**
- a writing sample

*Applicants are encouraged to apply electronically through <http://www.lsac.org> (<http://www.lsac.org>).

**Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and will be provided to the ASU College of Law by LSAC.

Applicants with degrees from foreign institutions must meet ASU Graduate Education and College of Law English proficiency requirements.

Laws (Global Legal Studies), LL.M. (LAWLGLPLLM)

Online Degree Search Title: Laws (Global Legal Studies) (LLM)

Campus: TEMPE

Program Description:

The LLM program allows one year of post-JD study tailored to the scholarly and practice interests of participating students. Study is available in a variety of areas in which the law school holds particular strength. The concentration in global legal studies is designed in coordination with the College of Law's Center for Law and Global Affairs. The program draws on the unique focus of the center and our faculty's wide range of international and transnational legal expertise in global health, the environment, human rights, trade and emerging technologies. The program emphasizes interdisciplinary study and links rigorous legal training with the research and scholarship drawn from political science, policy studies,

anthropology and sustainability. Students in this program will have the opportunity to practice empirical research and work on center research initiatives in public-private governance, global health, human rights indicators, transitional justice and human trafficking.

Degree Requirements:

The program is designed to be completed in one academic year (nine months) on a full-time basis, but may also be pursued on a part-time basis. A degree candidate must complete 24 credit hours of course work. A candidate may elect to write a master's portfolio paper, or can instead elect to complete an applied project. Required course work includes two of the following courses:

international business transactions

international human rights law

international institutions

public international law

The remaining credit hours will generally be obtained from the list of elective courses in international law. International students will be required to take LAW 596 Professional Legal Writing.

Admission Requirements:

The Sandra Day O'Connor College of Law offers several master's programs for students who have already completed a law degree within the U.S. or abroad. Applications are accepted on a rolling basis for fall or spring entry.

Legal Studies, MLS (LWLGSMLEGS)

Online Degree Search Title: Legal Studies (MLS)

Campus: ONLNE, TEMPE

Program Description:

The MLS is a unique, 30-credit-hour graduate program offered to established professionals or academicians whose work intersects with the law but who do not want to become attorneys. Students learn the foundations of U.S. law and study the process of legal analysis in the context of the cases, laws and regulations related to their specific career interests. Students are required to take one core course in U.S. law and legal analysis, foundational course work, and choose the remaining credits as electives to customize their studies to the area of law relevant to their current career.

Note: Pursuant to American Bar Association standards, no law credits completed prior to admission to a JD program, including credits earned in the MLS program, may be transferred to a future Juris Doctor program under any circumstances.

Degree Requirements:

The program consists of 30 credit hours of approved study. The degree can be completed on a full-time or part-time basis. Students are required to take:

LAW 581 U.S. Law and Legal Analysis (3)

Students are required to choose at one of the following basic foundational courses:

LAW 515 Contracts* OR LAW 530 Fundamentals of Contract Law (4/3)

LAW 516 Criminal Law (3)*

LAW 604 Criminal Procedure (3)

LAW 522 Constitutional Law I (3)*

LAW 518 Civil Procedure (3/5)*

LAW 602 Civil Procedure II (3/4)

LAW 664 Intellectual Property (2/4)

LAW 523 Property (2/4)*

LAW 517 Torts (2/4)*

LAW 654 Business Organizations (3/4)

LAW 625 Constitutional Law II (3/4)

Note: students may enroll in a maximum of 2 courses with an asterisk.

The remainder of the credits are electives. Elective course selection will be flexible, to accommodate the diversity of intellectual and professional interests the program is intended to serve.

Concurrent Degrees:

This degree is also offered as concurrent degree with:

Accountancy (MACC)

Information Management (MS)

Management (MS)

Real Estate Development (MRED)

Sustainable Solutions (MSUS)

Taxation (MTax)

W. P. Carey MBA - Full-Time Program

Admission Requirements:

The Sandra Day O'Connor College of Law offers the master's program for students who do not wish to practice law, but believe that education in the law would be beneficial to their advancement in their careers or in other fields.

Priority deadlines

- Fall application priority deadline: July 30
- International applicants who require a visa: June 15
- Spring application priority deadline: Nov. 30
- International applicants who require a visa: Oct. 30

Admission to the program is competitive. In order to be admitted, an applicant must have completed a bachelor's degree from an accredited four-year college or university in the United States or attained a comparable degree from a foreign institution and have submitted a complete application to the program. Selection will be based on a variety of factors, including academic background and potential, diversity of experience and background, career experience and ambitions, space and resource limitations in the law school and other factors.

For an application to be considered complete, it must include the following:

- the completed MLS application form

- the required application fee
- a resume that does not exceed three typed pages
- a statement of interest that does not exceed 1,250 words: double-spaced, typed pages
- transcripts from all institutions attended, including the transcript showing that the bachelor's degree was conferred
- two letters of recommendation
- a writing sample

Applicants with degrees from foreign institutions must submit transcripts to World Education Services (www.wes.org) and meet ASU Graduate Education and Sandra Day O'Connor College of Law English proficiency requirements.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Legal Studies (Patent Practice), MLS (LWLPPMLEGS)

Online Degree Search Title: Legal Studies (Patent Practice) (MLS)

Campus: TEMPE

Program Description:

The concentration in patent practice, within the MLS degree prepares students for the practice of patent law as registered patent agents with the United States Patent and Trademark Office. The concentration focuses on providing students with substantial doctrinal knowledge about patent law as well as the practical skills training, including a capstone clinical course, relevant in the patent law field.

Degree Requirements:

core course credit hours (3)

LAW 581 US Law and Legal Analysis (3)

concentration course credit hours (18)

elective course credit hours (6)

culminating experience: Clinical Experience (Lisa Foundation Patent Law Clinic) (3)

Total required credit hours (30)

Admission Requirements:

Priority Deadlines:

Fall Application Priority Deadline: July 30

International applicants who require a Visa: June 15

Spring Application Priority Deadline: Nov. 30

International applicants who require a Visa: Oct. 30

Degree(s): Admission to the concentration requires a bachelor's degree in one of the following:

- aeronautical engineering
- agricultural engineering
- biochemistry
- biology
- biomedical engineering
- botany
- ceramic engineering
- chemical engineering

- civil engineering
- computer engineering
- computer science*
- electrical engineering
- electrochemical engineering
- electronics technology
- engineering physics
- food technology
- general chemistry
- general engineering
- geological engineering
- industrial engineering
- marine technology
- mechanical engineering
- metallurgical engineering
- microbiology
- mining engineering
- molecular biology
- nuclear engineering
- organic chemistry
- petroleum engineering
- pharmacology
- physics
- textile technology

*Acceptable computer science degrees must be accredited by the Computer Science Accreditation Commission (CSAC) of the Computing Sciences Accreditation Board (CSAB) or by the Computing Accreditation Commission (CAC) of the Accreditation Board for Engineering and Technology (ABET) on or before the date the degree was awarded.

GPA: A minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's first bachelor's degree program is required. A minimum of 3.00 cumulative GPA (scale is 4.00=A) in the applicable master's degree is required.

English Fluency: Applicants must meet the requirements of Graduate Education as well as those of the Sandra Day O'Connor College of Law. Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency as indicated by acceptable scores. Applicants should have a TOEFL score above 600 (paper), 250 (computer) or 100 (Internet). Exceptional candidates with relevant experience and background who have scores of at least 590 (paper), 243 (computer) or 96 (Internet) also will be considered.

Required Admission Examinations: None

For an application to be considered complete, it must include the following:

- the completed master's application form
- the required application fee
- a resume that does not exceed three typed pages
- a statement of interest that does not exceed 1,250 words: double-spaced, typed pages
- transcripts from all institutions attended, including the transcript showing that the bachelor's degree was conferred
- two letters of recommendation
- a writing sample

Tribal Policy, Law and Government, LL.M. (LWTBLMLAWS)

Online Degree Search Title: Tribal Policy, Law, and Government (LLM)

Campus: TEMPE

Program Description:

The LLM in tribal policy, law and government is designed for lawyers and law school graduates who desire to work on issues related to tribal law and federal Indian law at the professional and academic levels. The Sandra Day O'Connor College of Law is a leading institution in producing graduates specializing in Indian law. The College of Law is also home to the nationally known Indian Legal Program which was established in 1988.

The program provides students with a detailed understanding of the nature of tribal government, law and policy development within the domestic federal structure. Candidates will benefit from the extensive resources committed to the Indian legal program, including a director and staff and an Indian law clinic with its own full-time director and staff.

The core curricular offerings focus on domestic tribal law, federal Indian law, and American institutions of law and government. The program explores the expression of domestic law within contemporary administrative, governmental and judicial institutions.

ASU is located in the heart of the southwestern U.S., home to roughly one-third of the native population in the U.S. and where many of the largest Indian nations in the country are located. It is the academic home for several nationally known scholars who do research on American Indian issues, and houses many unique resources for such scholarship, including the Labriola Collection at Hayden Library.

Degree Requirements:

The program is administered by the Indian Legal Program and is oriented toward students who seek practical experience in tribal law and federal Indian law. It provides intensive instruction to students who graduated from a law school that had few or no courses in Indian law and who now seek to practice in these areas at a professional level. This degree requires a minimum of 24 credit hours of study. A thesis is not required.

Students will immerse themselves in the study of tribal law and federal Indian law and will apply the knowledge and experience they gain through the practical component of the degree program which may consist of:

- research projects for tribal courts and governments
- state, tribal and federal court practice
- tribal code drafting

Graduates will be well equipped for professional positions that require knowledge and expertise in tribal law and federal Indian law. Students have the option of pursuing the degree on a part-time basis.

Admission Requirements:

Applications are accepted on a rolling basis for fall or spring entry.

Priority deadlines

- Fall application priority deadline: July 30
- International applicants who require a visa: June 15
- Spring application priority deadline: Nov. 30
- International applicants who require a visa: Oct. 30

Admission to the program is competitive. In order to be admitted, an applicant must have completed a JD degree or law degree at a foreign institution that would qualify the applicant to practice law or pursue license to practice in that country, and have submitted a complete application to the program. Selection will be based on:

- academic background and potential
- career experience and ambitions
- diversity of experience and background
- space and resource limitations in the law school
- strength of experience related to the program sought, and other factors

Applicants are encouraged to apply electronically through <http://www.lsac.org> (<http://www.lsac.org>). For an application to be considered complete, it must include the following:

- the completed LLM application form (<http://www.lsac.org>)
- the required application fee
- a resume that does not exceed three typed pages
- a statement of interest that does not exceed 1,250 words, typed and double-spaced
- transcripts from all institutions attended, including the transcript showing that the bachelor's degree and law degree were conferred*
- two letters of recommendation*
- a writing sample

*Transcripts and letters of recommendation or evaluations must be submitted through the Law School Admissions Council's Credential Assembly Service and will be provided to the ASU College of Law by LSAC.

Applicants with degrees from foreign institutions must meet ASU Graduate Education and College of Law English proficiency requirements.

480-965-1474

Letters & Sciences, School of

Applied Biological Sciences, MS (TSAPBIOSMS)

Online Degree Search Title: Applied Biological Sciences (MS)

Campus: POLY

Program Description:

The MS in applied biological sciences is designed to train students who are creative problem solvers, who are technically proficient whether they work in the field or at the laboratory bench, who stay abreast of scientific advances and the technical literature in their field of research, who are articulate in oral and written communication, and who understand the societal and policy implications of their work.

The degree is supported by faculty with backgrounds in:

- biotechnology
- ecological restoration
- environmental biotechnology
- environmental policy
- plant systematics
- urban horticulture
- wildlife biology

All students are required to complete a core of graduate courses, conduct a research project under the direction of a faculty member and prepare and defend a research thesis. Students may also select a nonthesis option.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (ABS 592 or ABS 593).

Plan of Study: All students are required to complete two seminars: ABS 591 in the spring semester and ABS 691 in the fall semester.

The remaining hours are chosen to support the student's educational objectives.

There are no foreign language requirements and no comprehensive examinations.

Thesis Requirements: A thesis is required, which constitutes six credit hours of the total 30 hours

Nonthesis Option: The nonthesis option requires a three-credit hour applied project course (ABS 593) and three-credit hour culminating course requirement (ABS 592)

Final Examinations: A final oral examination covering the thesis and related subject matter is required.

Admission Requirements:

All applicants must submit an online application to Graduate Education and must meet the minimum requirements for admission, including those regarding English proficiency.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the School of Letters and Sciences.

In addition, scores from the GRE or Miller Analogies Test are required. Applicants are expected to have completed 18 credit hours in biological sciences and closely-related courses. Specific fields of study may have specific expectations regarding courses taken at the undergraduate level. Applicants not meeting these course requirements may be considered for admission with deficiencies.

Submit the following separate application materials to Graduate Enrollment Services:

- a resume
- a statement of intent (maximum 600 words) explaining the applicant's interest in environmental resources, academic background and educational objectives
- three letters of recommendation from references who are qualified to comment on the applicant's potential in the selected area of study

Application Deadlines

For fall enrollment, application materials are due to the Department of Applied Sciences and Mathematics and Graduate Education by March 15.

For spring enrollment, application materials are due to the Department of Applied Sciences and Mathematics and Graduate Education by Oct. 15.

Selection Procedures and Notifications

Department faculty evaluate the applications and supporting materials and recommend to Graduate Education whether the applicant should be granted regular or provisional admission or if admission should be denied. If admission is provisional, Graduate Education, in its letter of admission, will specify the provisions that need to be met to gain regular status. The school informs successful applicants of the procedures for enrollment.

Applied Ethics and the Professions (Science, Technology and Ethics), MA (LAAEPSEEMA)

Online Degree Search Title: Applied Ethics (Science,Tech, and Ethics) MA

Campus: POLY

Program Description:

The science, technology and ethics concentration of the MA in applied ethics and the professions degree focuses on the ethical issues arising from the multiple challenges involved in balancing economic, technological, environmental, social and cultural development in a world increasingly affected by science and technology. It provides the student with a general background in ethics and ethical systems with an emphasis on ethical issues in science and technology, as well as exposing students to new challenges posed by rapidly evolving sociotechnical systems in such areas as:

- energy, environment and development
- genetic engineering and biotechnology
- information and communication technology
- nanotechnology
- risk assessment
- technology and security

Degree Requirements: 30 credit hours including the required applied project course (AEP 593).

Course work is distributed as follows:

Required core course:

AEP 501 Foundations of Ethics, Online (3)

Required course in concentration:

HSD 598 Science, Technology and Ethics (3)

Electives from concentration courses (18)

Required capstone course:

Admission Requirements:

General admission requirements are as follows:

- the ASU Graduate Education online application
- 3.00 or higher undergraduate GPA
- resume
- personal statement of interest and qualification
- two letters of recommendation

the Test of English as a Foreign Language (TOEFL) score or comparable proof of English proficiency (international students)

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the School of Letters and Sciences.

No GRE is required.

Counseling, MC (EDCOUNMC)

Online Degree Search Title: Counseling (MC)

Campus: TEMPE

Program Description:

The mission of the MC in counseling program is to prepare students to become professional mental health counselors, culturally competent to work with diverse clientele in a variety of mental health settings in Arizona and other states. Clinical mental health counselors seek to prevent or treat psychological problems and to promote the health of individuals, families, groups and organizations in a multicultural and diverse society. The MC program was designed according to the standards for clinical mental health and school counseling set by the Council for the Accreditation of Counseling and Related Educational Programs.

The faculty has endorsed the multicultural counseling competencies of the American Counseling Association; the guidelines on multicultural education, training, research, practices and organizational change for psychologists; and the guidelines for psychotherapy with lesbian, gay and bisexual clients of the American Psychological Association.

Degree Requirements: 60 credit hours and a thesis, or 60 credit hours and a written comprehensive exam.

The program can be completed in no less than two years. Most students can complete the program in two to three years. The program is not designed to be a part-time program.

The practitioner option places considerable emphasis on supervised field experiences. A comprehensive exam is required to complete this option.

The research option places considerable emphasis on developing research competencies, in addition to supervised field experience. Successful completion of a master's thesis is required in this option.

Admission Requirements:

Applicants to this program must:

- Submit the online Graduate Education application.
- Be graduates of accredited higher education institutions.
- Meet the Graduate Education requirements for admission (e.g., minimum 3.00 junior/senior GPA and English language proficiency).
- Submit a three- to five-page personal statement (see below).
- Submit three recommendation forms (see below).
- Take the verbal and quantitative sections of the GRE. The test must be retaken if scores are more than five years old.

Nonacademic/Professional/Life Experiences

Applicants are required to submit a three- to five-page personal statement that will include information on significant life experiences, professional experiences, personal attributes, personal and professional goals, and other information that will assist the faculty in evaluating the applicant.

Recommendations

Three recommendation forms are to be submitted. These should be completed by persons able to evaluate the applicant's academic potential, professional experience and personal attributes.

All application materials must be submitted by Jan. 15 to ensure consideration for admission the following fall semester.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the School of Letters and Sciences.

For more information, visit the school's website.

Counseling Psychology, PHD (EDCPSYPHD)

Online Degree Search Title: Counseling Psychology (PhD)

Campus: TEMPE

Program Description:

The APA-accredited PhD program in counseling psychology closely adheres to the scientist-practitioner training model in preparing graduates for employment in academic and service delivery settings. Although faculty interests are diverse, there is a common emphasis on empirical data as the basis for professional practice. The faculty has endorsed the ethical principles and code of conduct, guidelines on multicultural education, training, research, practices and organizational change for psychologists and the guidelines for psychotherapy with lesbian, gay and bisexual clients of the American Psychological Association.

The program is committed to the scientist-practitioner model. One manifestation of that commitment is the three complementary functions of the program's counselor training center: service delivery, clinical training and research. Research foci include (but are not limited to):

- at-risk populations
- career development
- multiculturalism
- positive psychology
- process and outcome in therapy
- supervision

Degree Requirements: 113 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Our doctoral curriculum typically requires three to five years of full-time graduate study, plus a yearlong internship in an APA-approved setting. Each of these years involves course work pertaining to theory, research and practices in counseling psychology. Students are expected to maintain full-time status. Full-time status involves being registered for at least nine credits per semester in the course work years. This requirement applies only to the academic year and not summer sessions. At a minimum, students are required to complete two years of course work in residence at ASU.

Admission Requirements:

Applicants to doctoral study in counseling psychology must first submit an online Graduate Education application and GRE scores (which can be no older than five years).

Students whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

The following supplemental materials are required by the counseling psychology program:

- a brief personal statement (600 words or less) describing the applicant's history, academic and professional goals, and reasons for selecting the counseling psychology program at ASU

- a completed biographical information form
- a seven-page sample of the applicant's expository writing (e.g., taken from a paper prepared for a course or a report on a project the applicant has completed in this field)
- three letters of recommendation*

*The preference is that two of these letters be from persons familiar with the applicant's academic work.

All application materials must be submitted by Dec. 15 in order to ensure consideration for admission the following fall semester.

For more information, visit the school's website.

Global Technology and Development, MS (LSGTDMS)

Online Degree Search Title: Global Technology and Development MS

Campus: DTPHX, ONLINE

Program Description:

The MS in global technology and development is a program in international social, economic and political development that highlights the variable of technology in these development processes and analyzes change within the context of the current era of globalization. One of the central concerns addressed in the program is the global disparity in wealth and access to resources and basic needs, both between and within countries. Students are encouraged to pursue unique research questions in the developed or the developing worlds, which engage them in social science research on issues related to technology and human socioeconomic and political development. Students take theoretical, research, policy and regional studies courses to prepare for the master's culminating experience requirement of a thesis, applied project or comprehensive examination, depending upon the interests and goals of each student.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (GTD 593), or 30 credit hours including the required capstone course (GTD 592 or GTD 584), or 30 credit hours, a written comprehensive exam and an oral comprehensive exam.

core credit hours (12 credit hours)

restricted elective credit hours (12 credit hours)

GTD On-campus program:

GTD 599 Thesis or GTD 593 Applied Project (6 credits) or written and oral comprehensive exams
 six additional credit hours of course work

GTD Online program:

GTD 592 Capstone (Research) (3 credits) or GTD 584 Capstone (Internship) (3 credits)
 three additional credit hours of course work

Admission Requirements:

All applicants must complete the Graduate Education online application. A bachelor's degree from a regionally accredited college or university recognized by ASU is required, in related fields such as political science, international relations, sociology, anthropology, economics, business, education, technology, engineering, life sciences, foreign languages or literature (i.e., topics related to global development, culture or socioeconomic institutions).

Also required is a minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of the program.

A Test of English as a Foreign Language (TOEFL) score is required from any applicant whose native language is not English (regardless of where they may now reside). Please visit <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>) for more information.

Students must fulfill both the requirements of Graduate Education and the School of Letters and Sciences.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Technical Communication, MS (LSTCCMMS)

Online Degree Search Title: Technical Communication

Campus: POLY

Program Description:

The master's degree in technical communication will teach students how to design, produce, and manage print and digital texts, using traditional and developing technologies. The curriculum provides students with a comprehensive understanding of the professional, cultural, and ethical issues that shape the field; it balances theory and practice to ensure students develop the analytical abilities, technology expertise, and hands-on skills necessary for success as a technical communicator. Students who complete the program will be accomplished writers, editors, designers, and researchers who are able to respond effectively to a range of audiences, issues, and communication situations. The program will prepare students for technical communication positions in the private, public, and nonprofit sectors and will offer professionals the opportunity to further advance their careers.

Degree Requirements: 36 credit hours and a thesis, or 36 credit hours including the required applied project course (TWC 593).

Core Courses: 21 hours

TWC 501 Principles of Technical Communication (3)

TWC 511 Principles of Visual Communication (3)

TWC 521 Principles of Writing with Technology (3)

TWC 531 Principles of Technical Editing (3)

TWC 552 Information in the Digital Age (3)

TWC 504 Applied Rhetoric (3)

TWC 505 Research in Technical Communication (3)

Restricted Electives: 9 hours (choose 3 below)

TWC 543 Proposal Writing (3)

TWC 544 Manual and Instructional Writing (3)

TWC 545 Computer Documentation (3)

TWC 546 Technical and Scientific Reports (3)

TWC 551 Copyright and Intellectual Property in the Electronic Age (3)

TWC 553 Information and Communications Technology in American History (3)

TWC 598 Topic: Visual Information (3)

TWC 598 Topic: Information Architecture (3)

Culminating Experience: 6 hours

TWC 599 Thesis (6) OR

TWC 593 Applied Project (6)

Total required credit hours: 36

Admission Requirements:

Degree: A minimum of a bachelor's degree from an accredited college or university is required. Applicants in any program of study will be accepted as potential candidates for the program.

Students must apply to the Graduate Education office utilizing the online admission application; applicants must meet all admission requirements of the Graduate Education office.

All applicants must submit a written letter of application that includes a detailed statement of purpose, as well as a portfolio of at least three

Academic Catalog Archive 2014-2015 453

documents that demonstrate the applicant's ability to write in a variety of genres. Portfolio documents can include both academic or professional writing for a range of audiences and purposes, and need not be in the area of technical communication. The portfolio should be 15-30 pages in length. The writing samples in the portfolio will be evaluated using a rubric that considers several criteria, including demonstration of ability to focus on a specific purpose and to meet audience needs; organization; clarity; mechanical soundness; and overall effectiveness.

All applicants must submit three letters of reference, either academic or professional, that speak to the background and capabilities of the applicant.

GPA: A minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's first bachelor's degree program is required. A minimum of 3.00 cumulative GPA (scale is 4.00 = A) in the applicable master's degree is required.

English Proficiency Requirement for International Applicants: Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Since this degree requires a high degree of proficiency in English, we will expect non-English speaking applicants to have the following TOEFL scores:

Traditional paper-based: 600

Internet-based: 100

Computer-based: 250

Foreign Language Exam: No

Required Admission Examinations: None required

Letters of Recommendation: All applicants must submit three letters of reference, either academic or professional, that speak to the background and capabilities of the applicant.

Students must fulfill both the requirements of Graduate Education and those of the School of Letters and Sciences.

Technical Communication (certificate), Certificate (LSTECGRCT)

Online Degree Search Title: Technical Communication

Campus:

Program Description:

Through the technical communication program, students learn how to produce and communicate technical information using traditional and digital technologies.

Degree Requirements:

The certificate requires 18 hours, including the following classes:

TWC 501 Principles of Technical Communication (3)

Choose two of the following courses:

TWC 511 Principles of Visual Communication (3)

TWC 521 Principles of Writing with Technology (3)

TWC 531 Principles of Technical Editing (3)

Choose three other 500-level TWC courses, of which at least two of which must be genre or information courses, such as TWC 543 Proposal Writing (3) or TWC 552 Information in the Digital Age (3).

Admission Requirements:

This is a graduate certificate. Students must have completed a bachelor's degree prior to pursuing this certificate. Students must use the Graduate Education online application to apply as nondegree seeking students.

For U.S. Department of Education Gainful Employment Program Disclosure information, see

Liberal Arts & Sciences, College of

African Studies (certificate), Certificate (LAAFRICACE)

Online Degree Search Title: African Studies (Grad Certificate)

Campus: TEMPE

Program Description:

The graduate certificate in African and African diaspora studies is an interdisciplinary program with four areas of emphasis:

- African diaspora studies
- African studies
- comparative studies
- women and gender in African and African diaspora studies

These areas of emphasis provide students with access to an extensive range of information and systematic knowledge committed to the new model of African and African diaspora studies that focuses on the intersections of race, culture and gender with interdisciplinary perspectives.

The required course, AFR 500 Research Methods, offers students an overview of the focus and explicates relevant methodologies and theories.

This required course, along with the courses within the areas of emphasis and the capstone course, complete the certificate. As this certificate program offers students an international dimension to the study of peoples and cultures of African descent, students will invigorate their knowledge about global issues and further expand their research pursuits. This certificate program characterizes the faculty members' intellectual and research strengths and the curriculum's interdisciplinary strategies and research approaches that highlight the continuities and disjuncture of history and experiences throughout Africa and the diaspora.

Degree Requirements: 18 credit hours.

The certificate program requires:

- AFR 500 Research Methods (3)
- capstone project (3)
- elective (3)
- emphasis courses (9)*

*Students select one of four emphases after consulting with the director of the certificate program.

Admission Requirements:

Applicants must submit the Graduate Education online application. Admission to the graduate certificate in African and African diaspora studies program is open to any student who has completed a bachelor's degree at an accredited U.S. institution or equivalent. Students who are regularly admitted to a graduate degree program may pursue the certificate in tandem with their degree program. Students who are not regularly admitted to a graduate degree program may still pursue the certificate.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

American Indian Studies (Cultural Resource Revitalization and Sustainability), MS (LAAISCMS)

Online Degree Search Title: American Indian Studies (Cultural Resource Revitalization and Sust) MS

Campus: TEMPE

Program Description:

The MS in American Indian studies is an interdisciplinary program that will result in an intellectual and practical understanding of the issues facing American Indian populations and the ability to apply that knowledge and resultant problem-solving skills in a range of professional arenas, including governmental, private and nonprofit agencies. Focus will be on languages, cultures, arts, histories, legal policy and education from an American Indian studies perspective. Delivery will be mainly through in-person and online courses. Students may select a thesis (research) or nonthesis (professional) option. Thesis students will be involved in a major research project under the direction of their faculty advisors, culminating in a thesis. This is the option students should select if they have an interest in a research-oriented position within an organization or agency, or wish to pursue a doctorate degree. Nonthesis students will complete a research project that identifies and addresses an applied problem or issue relevant to a partner agency or organization under the direction of their faculty advisors. This is the option students should select if they are interested in a leadership and managerial level position within an organization or agency.

The required core classes emphasize knowledge and skills all graduates must have. Concentrations and electives are designed so students can concentrate in the areas of visual and oral culture, indigenous rights and social justice, cultural resource revitalization, and sustainability or tribal leadership and governance. Depending on the option chosen, students will complete either a thesis or a practicum. Both are research projects, but the practicum is more applied in nature.

The cultural resource revitalization and sustainability concentration will explore the development and implementation of American Indian-focused cultural resources management processes and analyze how policies and laws can improve or hinder the protection of American Indian cultural and funerary patrimony.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (AIS 580).

core credit hours (9)

concentration credit hours (9)

elective credit hours (6)

AIS 599 or AIS 580 thesis or applied project (6)

Admission Requirements:

The minimum requirements for admission are:

- online Graduate Education application
- bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing in a related field such as history, justice study, sociology, ethnic studies, anthropology, political science or education
- a TOEFL score from any applicant whose native language is not English

Please visit <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>) for more information. Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

American Media and Popular Culture, MAS (LAAMPCMAS)

Online Degree Search Title: American Media and Popular Culture (MAS)

Campus: ONLNE, TEMPE

Program Description:

The MAS degree offered by the Film and Media Studies Program at ASU features innovative approaches to the study of film, television, computer games, new media and screenwriting, using historic methods, critical theory and creative expression as modes of analysis. While the media arts have traditionally been studied as independent disciplines, our program provides a more comprehensive approach that views them as convergent. We therefore recognize the importance of understanding the history of film as an art form, for instance, but also the need to view it in relation to television and digital media. We are committed to integrating the study of such media convergence into our curriculum, both as units within courses and through the design of new courses entirely devoted to that phenomenon.

Degree Requirements: 30 credit hours including the required applied project course (FMS 593).

The program consists of nine credit hours of core courses, 18 credit hours of electives and a three-credit applied project. Students should review the webpage and then consult the director.

Admission Requirements:

Applicants must complete the Graduate Education online application, with required supporting documents, and meet all admission criteria.

Supporting documents include:

- a two-page personal statement describing the student's past academic work and reasons for pursuing the degree

- a three-page essay (subject provided in the online application) that assesses the student's knowledge of media theory and critical analysis skills

Application deadlines are Jan. 15 and April 15 for summer and fall enrollment respectively, and Sept. 15 for spring enrollment. For more information, visit the program webpage.

Applicants whose native language is not English (regardless of where they may now reside) will be required to meet the Department of English proficiency requirement. <http://english.clas.asu.edu/gradstudies-international> (<http://english.clas.asu.edu/gradstudies-international>).

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Animal Behavior, PHD (LAANBPHD)

Online Degree Search Title: Animal Behavior (PhD)

Campus: TEMPE

Program Description:

Animal behavior is a graduate degree program that will provide doctorate-level training in mechanistic and functional approaches to understanding behavior in a variety of animal taxa.

The study of behavior is at the interface of several scientific disciplines (e.g., physiology, ecology, evolution), and good research in this area requires diverse but specialized training and skills. This program will unify and coordinate graduate training in both behavioral sciences education and research.

This program complements the transdisciplinary PhD in neuroscience program at ASU and has applied scientific value in areas such as mental and behavioral health in humans and veterinary science. The ecological focus in the program (i.e., behavioral ecology, conservation biology) feeds into valley, state and global issues in ecosystem and resource sustainability.

Degree Requirements: 84 credit hours, a prospectus and a dissertation.

core requirements (8):

ANB 601 (4) Research Strategies in Animal Behavior
ANB 602 (4) Current Issues in Animal Behavior

elective courses (21): The department and the student's advisor will determine these courses in conjunction with the student.

research (43)

dissertation (12)

Admission Requirements:

All applicants will need to submit the Graduate Education online application.

The applicant must fulfill these requirements:

- a baccalaureate degree from a regionally accredited institution in the U.S. or an international equivalent degree
- a minimum GPA of 3.00 (4.00 scale) that was earned in the student's last 60 hours of the bachelor's program
- a GRE test score
- proof of English language proficiency*

*A TOEFL is required for applicants whose native language is not English. Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Anthropology, PHD (LAANTHRPHD)

Online Degree Search Title: Anthropology (PhD)

Campus: TEMPE

Program Description:

The School of Human Evolution and Social Change is an excellent choice for students wanting to pursue a PhD in the classic fields of anthropology:

- archaeology
- bioarchaeology
- evolutionary anthropology
- sociocultural anthropology

It is also an ideal environment for students who want to combine these approaches and other disciplines to explore specific issues or research questions within a transdisciplinary context. Our flexible graduate curricula are designed to encourage students to design innovative plans of study, to pursue their interests while receiving broad training in key areas. The anthropology faculty actively engage with faculty in other disciplines, including:

- applied mathematics
- chemistry
- environmental economics
- epidemiology
- formal modeling
- genetics
- sociology
- sustainability
- technology and society
- urban planning

The training students receive in this program prepares them to become expert scholars able to contribute not only to their chosen field, but to finding solutions to humankind's greatest challenges.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Students entering with a master's in a related field may be granted up to 30 credit hours toward the 84 hours required for the doctorate. This leaves 30 hours of course work, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned post-admission.

Students entering without a master's must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses, and complete degree requirements per the program's satisfactory progress policy.

Admission Requirements:

Students must submit an online Graduate Education application. The application deadline is Dec. 1 for admission in the following fall. There is no spring admission. In addition to the general requirements for admission to Graduate Education, applicants must also provide:

- statement of purpose outlining career and educational goals
- current curriculum vitae or resume
- optional sample of their written work
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Undergraduate course work in anthropology is not a prerequisite for admission, but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of general anthropology in a manner to be specified at the time of admission.

The training students receive in this program prepares them to become expert scholars able to contribute not only to their chosen field, but to finding solutions to humankind's greatest challenges.

The complex adaptive systems science doctoral concentration trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive systems science at Arizona State University and emphasizes the value of a complex adaptive perspective to give better insight and a more active role in seeking solutions to a broad array of critical issues facing our society today. Students will be fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Students entering with a master's in a related field may be granted up to 30 credit hours toward the 84-hour total required for the doctorate. This leaves 30 hours of course work, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned post-admission.

Students entering without a master's must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in complex adaptive systems science, 12 credit hours will be selected from an approved list of applicable courses related to complexity.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study, and typically will have a member of the complex adaptive systems science graduate faculty as a member of their doctoral supervisory committee.

Admission Requirements:

Students must submit an online application to Graduate Education. The application deadline is Dec. 1 for admission in the following fall. There is no spring admission. In addition to the general requirements for admission to Graduate Education, applicants must also provide:

- current curriculum vitae or resume
- official GRE scores
- optional sample of their written work
- statement of purpose outlining career and educational goals
- three letters of recommendation
- transcripts of all undergraduate and graduate course work, with a minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's bachelor's degree program

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Undergraduate course work in anthropology is not a prerequisite for admission, but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of general anthropology in a manner to be specified at the time of admission.

Anthropology (Urbanism), PHD (LAURBPHD)

Online Degree Search Title: Anthropology (Urbanism) Phd

Campus: TEMPE

Program Description:

The School of Human Evolution and Social Change is an excellent choice for students wanting to pursue a PhD in the classic fields of anthropology:

- archaeology
- bioarchaeology
- evolutionary anthropology
- sociocultural anthropology

It is also an ideal environment for students who want to combine these approaches and other disciplines to explore specific issues or research questions within a transdisciplinary context. Our flexible graduate curricula are designed to encourage students to design innovative plans of study to pursue their interests while receiving broad training in key areas. The anthropology faculty actively engage with faculty in other disciplines, including:

- applied mathematics
- chemistry
- environmental economics
- epidemiology
- formal modeling
- genetics
- sociology
- sustainability
- technology and society
- urban planning

The training students receive in this program prepares them to become expert scholars able to contribute not only to their chosen field but to finding solutions to humankind's greatest challenges.

The concentration in urbanism will leverage the varied interests in urbanism and help emerging scholars as they attempt to compare, contrast and

Academic Catalog Archive 2014-2015 463

take stock of urbanism. Working with faculty from across a range of departments and programs at ASU, doctoral students will be able to capture the creative tensions that scholarship on urbanism has inspired in order to stimulate a provocative, constructive kind of inquiry.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's in a related field may be granted up to 30 credit hours toward the 84-hour total required for the doctorate. This leaves 30 hours of course work, 12 hours of research credit, and 12 hours of dissertation credit (54 credit hours total) to be earned post-admission.

Students entering without a master's must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in urbanism, 15 credit hours will be selected from an approved list of applicable courses related to urbanism. These courses will include the core urbanism course, GCU 516, as well as one course from each of the four urbanism clusters. These clusters are:

- built form
- culture and society
- institutions and governance
- natural environment

Admission Requirements:

Students must submit an online Graduate Education application. The application deadline is Dec. 1 for admission in the following fall. There is no spring admission. In addition to the general requirements for admission to Graduate Education, applicants must also provide:

- statement of purpose outlining career and educational goals

Applied Behavior Analysis, MS (LAAPBAMS)

Online Degree Search Title: Applied Behavior Analysis (MS)

Campus: TEMPE

Program Description:

Offered by the Department of Psychology, this program is a full-time, scientifically based, two-year program that meets the Behavior Analyst Certification Board Fourth Edition Task List for course work with more than 270 classroom hours and 1,500 hours of practicum fieldwork. Successful graduates will be able to sit for BACB certification and once certified, they will be eligible for state-licensing. The program's learning outcomes include mastery across three major areas:

- basic behavior-analytic skills
- client-centered responsibilities

- foundational knowledge

Students will be trained to acquire knowledge of and effectively practice the following:

- use of different measurement types, fundamental elements of behavior change and behavior change procedures and systems
- development of experimental designs
- behavior problem identification, assessment and intervention
- identification of key concepts such as stimuli, responses, punishment, reinforcement and types of conditioning
- professional ethics and behavior analytic philosophies such as determinism, pragmatism and empiricism

Degree Requirements: 42 Credit hours including the required applied project course (PSB 593).

The program requires

Core Courses: 24 credit hours

PSB 501 Basic Principles of Applied Behavior Analysis (ABA) (3)

PSB 510 Basic Principles of Experimental Analysis of Behavior (2)

PSB 511 Advanced Research Methods (2)

PSB 520 Ethical Issues and Professional Standards in ABA (3)

PSB 530 Behavioral Observation and Functional Assessment (3)

PSB 540 Development of Applied Behavioral Intervention Programs (3)

PSB 563 Basic Principles of Organizational Behavior Management (OBM) (2)

PSB 573 Advanced Principles of Learning and Analysis of Behavior (3)

PSB 578 Applied Behavior Analysis in Developmental Disorders (3)

Elective or Research Courses: 4 credit hours

PSB 591 Seminar (2)

PSB 598 Special Topics (elective) (2)

Culminating Experience: 5 credit hours

PSB 593 Applied Project (5)

Other Requirements: 9 credit hours

PSB 580 Practicum: Applied Behavior Analysis (4)

PSB 583 Fieldwork: Applied Behavior Analysis (5)

Admission Requirements:

In addition to submitting an online Graduate Education application, prospective students must also must provide documentation that meets the following requirements:

- bachelor's degree in psychology, human development, sociology or a closely related field from a regionally accredited college or university in the United States or an equivalent degree from a recognized international postsecondary institution
- a minimum 3.00 cumulative GPA (where 4.00 = A) in the last 60 hours of the student's bachelor degree program
- proof of English proficiency*
- official transcripts from each college or university attended
- GRE scores
- statement of purpose describing professional and academic aspirations
- a current resume or curriculum vitae and at least two letters of recommendation, one of which should be from a tenure-track faculty member associated with the applicant's most recent degree program**

*Applicants whose native language is not English (regardless where they may now reside) must provide proof of English proficiency.

**If the applicant's graduation year is greater than five years from the application date, then a letter from a recent or current employer may be substituted. For example, if the applicant received a bachelor's degree in 2006 and is applying in 2014, then a letter from an employer may be used instead of a letter from a faculty member. No more than four letters of recommendation may be submitted.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Deadline: All application materials - including the Graduate Education online application, letters of recommendation and supporting documents - must be received by March 1. Applications will not be reviewed or considered until complete. Admission is for fall only; there is no spring start date for the program.

Applied Ethics and the Professions (Biomedical and Health Ethics), MA (LAAEPMEMA)

Online Degree Search Title: Applied Ethics (Biomedical and Health Ethics) MA

Campus: TEMPE

Program Description:

Medicine is infused with moral values and is deeply embedded in a variety of social and cultural contexts, which significantly determine the effectiveness of medical care in achieving healthy outcomes for patients and populations. The objective of the biomedical and health ethics concentration is to integrate academic and clinical dimensions of moral issues in medical practice and biomedical research. Students from a broad range of backgrounds will be exposed to the internal and external logics of medicine, health care and biotechnology and will gain substantive understanding of ethical, cultural and societal issues in a variety of domains. Through course work and other experiences, students will deliberate individually and collectively about a wide range of issues and problems in contemporary medicine and the history of medicine; develop advanced critical normative reasoning and judgment capacities; and cultivate effective communication skills for academic, clinical and policy contexts.

Degree Requirements: 30 credit hours including the required applied project course (AEP 593).

All students are required to complete graduate course work distributed as follows:

required core course (3)

required concentration course (3)

elective concentration courses (18)

required capstone courses (6)

The required core course for students across all concentrations in the MA applied ethics and the professions program is AEP 501 Foundations of Academic Catalog Archive 2014-2015 466

Ethics (3) (online), which provides students with the theoretical and historical bases to pursue specialized applied ethics education.

The required concentration course introduces the students into basic concepts and practices of their field. In biomedical and health ethics, the required concentration course is BIO 516, which focuses on practices and products of bioethics.

Required Core Course:

AEP 501 Foundations of Ethics (3) (online)

Required Concentration Course:

BIO 516 Foundations of Bioethics (3)

Electives for this Concentration: (18)

select six courses from the following list:

AEP 551 Ethical and Spiritual Approaches to Death and Dying (3)

ASB/SSH 501 Ethics, Social Justice and Health Social Science (3)

ASB 502 Health of Ethnic Minorities (3)

ASB 509 Health: Social and Biocultural Theory (3)

ASB 511 Ethics in Health Social Science Research (3)

BIO 598 Health Systems and Policy (3)

HSD 591 Ethics and Emerging Technologies (3)

LAW 617 Genetics and the Law (3)

LAW 652 Bioethics and the Law (3)

LAW 791 Neuroscience and the Law (3)

MHI 550 Healthcare Policy and Innovation (3)

NTR 598 Topic: Politics, Ethics and the American Diet (3)

PHI 591/LAW 791/BIO 591 Research Ethics and Law (3)

REL 598 Medical Ethics: Religious and Secular (3)

WST 598 Gender and Global Health Disparities (3)

Other Electives:

Graduate seminars in other disciplines may be on topics that are relevant to one or more of the concentrations and may be used as electives for the master's in applied ethics and the professions, with the approval of the program of one of the concentrations and the approval of the instructor of the seminar.

Required Capstone Course:

AEP 593 Applied Project (3)

Admission Requirements:

General admission requirements are as follows:

- all documentation submitted via the ASU Graduate Education online application
- B" (3.00) undergraduate GPA
- TOEFL score or comparable proof of English proficiency for applicants whose native language is not English (regardless of where they may now reside)
- personal statement of interest and qualification
- resume
- two letters of recommendation

Note: No GRE is required, except for the ethics and emerging technologies concentration, which is required unless this requirement has been waived by the director.

For more information on the specifics, please see the Graduate Education office.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Students should also refer to the college of the concentration they are interested in for additional details.

Liberal Arts & Sciences, College of

School of Life Sciences

<https://sols.asu.edu/>

Applied Linguistics, PHD (EDAPLPHD)

Online Degree Search Title: Applied Linguistics (PHD)

Campus: TEMPE

Program Description:

Applied linguistics combines research topics in the linguistics sciences and education to pursue principled approaches to language-related concerns. The applied linguistics PhD program at Arizona State University is focused on simultaneous and developmental bilingualism in children and adolescents. Faculty participate in the program from within multiple curricular units across the institution's four campuses. The program encourages interdisciplinary study, and its flexible requirements enable students to pursue those aspects of the disciplines that interest them the most. The program prepares students for entrance into the field as teachers, scholars and professionals.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

There must be a minimum of 54 credit hours beyond the master's level, including a minimum of 12 units of dissertation credit. All students in the program must satisfy 18 units of foundation course work.

Because applied linguistics is interdisciplinary in nature, applicants may differ from one another with regard to their prior experience and preparation. For instance, while some applicants may have substantial prior training in core theoretical linguistics (foundations) others may have considerable preparation in an area related to a supported concentration. Students should consult the program director for assistance in planning their degree programs. The program director may address potential redundancies in a student's program requirements with prior academic preparation by allocating a maximum of 30 credit hours from an awarded and approved graduate degree toward the applied linguistics program requirements, or the director may permit the student to take additional elective courses in lieu of introductory courses covered in an undergraduate program.

Foundation Course Work: (18 credit hours)

- Overview of the Field: A three-credit course providing a survey of the field of applied linguistics is required. (3)
- Linguistics: Course work in theoretical linguistics, including one approved linguistics elective, is required. (15)

Teaching Internship: (1 credit hour)

Colloquia: A four-semester sequence of two-credit colloquium meetings is required for students in the first two years. (8 credit hours)

Research Methods: Students must take two courses in research methods, selected in consultation with the advisor. (6 credit hours)

Research Specialization: In consultation with the program director, students take 11 three-credit courses in their field of specialization. (33 credit hours)

Breadth: Two courses in a secondary concentration area are required. (6 credit hours)

Dissertation: (12 credit hours)

An oral defense of the dissertation is required.

Language Requirement: Students in the applied linguistics doctoral program must demonstrate proficiency in a second language equivalent to two years of study. A language appropriate to the student's area of interest is selected in consultation with the advisor. The language requirement must be satisfied, by examination or course work, prior to advancement to candidacy. Computer or other nonhuman languages may not be used to satisfy this requirement. Students for whom English is a second language may use their first language to satisfy the requirement by examination. Course credit used to satisfy the language requirement cannot be used to satisfy other program requirements and cannot be counted toward the total required 84 credits.

Admission Requirements:

Applicants must submit an online Graduate Education application.

The application must include:

- academic writing sample that provides good evidence of writing ability
- official GRE scores and transcripts of all undergraduate and graduate course work
- resume or curriculum vitae

- statement of interest outlining career and research goals
- three letters of recommendation addressing the student's academic promise for the program

Applications are due Jan. 15 for fall admission.

Students must have completed a bachelor's from a regionally accredited institution or university of recognized standing prior to admission into the program. Because applied linguistics is an interdisciplinary field, applicants with prior academic preparation in any field are welcome.

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of the Graduate Education office and the College of Liberal Arts and Sciences. International students should refer to the Department of English webpage for English proficiency requirements <http://english.clas.asu.edu/gradstudies-international> (<http://english.clas.asu.edu/gradstudies-international>).

Please see the program's website for additional information.

Applied Mathematics, PHD (LAAPMPHD)

Online Degree Search Title: Applied Mathematics (PHD)

Campus: TEMPE

Program Description:

The PhD includes rigorous training in fundamental applied mathematics and its application to real-world problems in fields such as:

- biology
- geology
- physics
- various engineering disciplines

All students will participate in individual and collaborative research.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The program consists of 84 credit hours that must include:

five core courses (15)

MAT 591 Seminar (3)

MAT 799 Dissertation (12)

Students must pass a written comprehensive examination and an oral dissertation prospectus. Each student must write a dissertation and defend it orally in front of five dissertation committee members. See the department website for examination information.

Admission Requirements:

Applicants must submit:

- Graduate Education online application
- official general GRE scores
- official transcripts
- statement of education and career goals
- three letters of recommendation

Minimum background for consideration of admission to the doctoral program in applied mathematics includes:

- hold a bachelor's in mathematics, applied mathematics, economics, engineering or a natural science from a regionally accredited university with a 3.00 GPA (on a 4.00 scale)
- be competitive in an applicant pool as evidenced by course work in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371)

- have scientific programming skills (desirable)

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Applied Mathematics for the Life & Social Sciences, PHD (LAAMLPHD)

Online Degree Search Title: Applied Mathematics for the Life and Social Sciences (PhD)

Campus: TEMPE

Program Description:

The applied mathematics for the life and social sciences PhD focuses on the training of researchers working on scientific questions at the interface of the mathematical, life and social sciences. Graduates of the program will be making innovative and far-reaching scientific contributions that rely on the cutting-edge computational mathematical and modeling approaches. This degree focuses on producing quantitative scientists and applied mathematicians conducting high-level interdisciplinary and crossdisciplinary research. The program's faculty includes mathematicians, statisticians, theoretical biologists and social scientists from five different schools at Arizona State University.

There is a high demand for first-rate scientists, researchers and faculty interested in meeting the challenges faced by communities in the 21st century and by research and planning programs at institutions with the mission to address global challenges. Arizona and the nation's health, environmental and natural resource challenges are urgently in need of a large pool of researchers with these interdisciplinary skills.

There are three tracks a student can follow:

- applied mathematics: more in-depth focus on the tools as applied to the life and social sciences, i.e., on dynamical systems, computational and numerical methods, simulation and mathematical analysis
- life sciences: focus on understanding the tools for representing the structure and operation of complex biological and ecological processes
- social sciences: focus on understanding the tools for representing the structure and operation of complex social systems and processes

By offering courses that enhance interdisciplinary exchanges and collaboration among the faculty and students interested in addressing questions of social relevance, the program builds upon foundations already established in:

- bioinformatics
- computational sciences
- ecology
- genomics
- mathematical analysis
- mathematical epidemiology
- nonlinear dynamics
- population dynamics
- social science fields

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's in a related field may be granted up to 30 credit hours toward the 84-hour total required for the doctorate. This leaves 30 hours of course work, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned postadmission.

Students entering the program without a master's must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee and present that research in a public forum before continuing in the later stage of the doctoral program.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses and complete degree requirements per the program's satisfactory progress policy.

All students are required to complete a sequence of core courses. The core competencies consist of:

- core math skills

- deterministic modeling or computational methods
- math biology
- statistics and probability
- stochastic modeling

Admission Requirements:

Students must submit an online application to Graduate Education. The application deadline is Dec. 1 for admission in the following fall. There is no spring admission. In addition to the general requirements for admission to Graduate Education, applicants must also provide:

- statement of purpose outlining career and educational goals
- current curriculum vitae or resume
- optional sample of their written work
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Prior to admission, students should have completed at a 300 or 400 level a minimum of the following:

- 15 hours of mathematics or statistics
- nine hours of life sciences and social sciences course work at the senior or college graduate level
- no fewer than three hours each of life sciences and social sciences course work

A master's in the social sciences (e.g., anthropology, gender studies, geography, sociology), life sciences or related fields (e.g., biology, ecology, genomics), applied mathematics, mathematics or statistics is preferred.

Asian Languages and Civilizations (Chinese), MA (LACHINAMA)

Online Degree Search Title: Asian Languages/Civilizations (Chinese) MA

Campus: TEMPE

Program Description:

The Chinese graduate program in the School of International Letters and Cultures offers an Master of Arts degree with a focus in one of two areas:

- area 1: literature, linguistics and culture
- area 2: pedagogy

Area 1 seeks to prepare students for further academic training, for entrance to professional schools in such fields as law, business or journalism, and for a general level of knowledge about the languages and cultures of China as an asset to a professional career. Area 2 is intended for students whose major interest is in teaching modern Chinese in K-16 environments.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (CHI 593).

The plan of study for the master's includes a minimum of 30 credit hours of graduate-level work, as approved by the candidate's supervisory committee, a thesis or an applied project option. The plan must include a 500-level bibliography and research methods course offered by the department. When approved by the candidate's supervisory committee, nine hours of advanced-level work in another language or in closely related courses may be included in the plan. Students who are primarily interested in teaching at the secondary or community college levels may select a plan of study with a concentrating in language pedagogy.

Admission Requirements:

Students interested in applying to the program must submit a Graduate Education online application. Candidates for the master's should, upon entrance, present the equivalent of an undergraduate major in the language in which the degree is sought. Those who lack this background, but who show strong potential and meet Graduate Education admission requirements, including those with regard to English proficiency, may be admitted to a graduate program on a provisional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular plan of study for the master's degree.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

See the department website for more information.

Asian Languages and Civilizations (Japanese), MA (LAJAPANMA)

Online Degree Search Title: Asian Languages/Civilizations (Japanese) MA

Campus: TEMPE

Program Description:

The Asian languages faculty in the School of International Letters and Cultures offers a graduate program leading to an MA in Asian languages and civilizations (Japanese). In addition to preparing some students for further academic training, the program helps to prepare students for jobs relating to Japan (in fields such as law, business or journalism) and for entrance into professional schools.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (JPN 593).

The plan of study for the MA includes a minimum of 30 credit hours of graduate-level work and a thesis, as approved by the candidate's supervisory committee, or 27 credit hours of course work and 3 credit hours of applied project. The plan must include a 500-level bibliography and research methods course offered by the department. When approved by the candidate's supervisory committee, nine hours of advanced-level work in

another language or in closely related courses may be included in the plan.

Students who are primarily interested in teaching at the secondary or community college levels may select a plan of study with an area of study in language pedagogy. Students seeking a master's in Asian languages and civilization should consult with their Graduate Education representative. In keeping with the idea of in-situ experience as a key ingredient for advanced intellectual understanding, all degree candidates must have spent at least nine continuous months in a Japanese language environment within four years of entering the program.

Admission Requirements:

Students interested in applying to this program must submit an online Graduate Education application.

Candidates for the program should, upon entrance, present the equivalent of an undergraduate major in the language in which the degree is sought. Those who lack this background, but who show strong potential and meet Graduate Education admission requirements, may be admitted to a graduate program on a conditional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular plan of study for the master's degree.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

See the School of International Letters and Cultures website for more information.

Asian Studies (certificate), Certificate (LAASIANCE)

Online Degree Search Title: Asian Studies (Grad Certificate)

Campus: TEMPE

Program Description:

The graduate certificate in Asian studies offers graduate students an interdisciplinary specialization in Asian language and area studies. The certificate is available in two tracks:

- East Asia (China, Japan and Korea)
- Southeast Asia (Indonesia, Laos, Thailand and Vietnam)

Degree Requirements: 18 credit hours.

The certificate requires completion of 18 credit hours, distributed among the following areas:

core course requirements

electives

language proficiency requirement

a thesis or capstone project on a topic related to the student's region of emphasis and selected in consultation with the student's faculty mentor

Some courses may be applied to the certificate and the student's degree program.

Admission Requirements:

Graduate students in any discipline may pursue a certificate in Asian studies in conjunction with their degree programs. This program is also open to students who already hold graduate degrees.

Applicants must submit a Graduate Education online application.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Astrophysics, MS (LAASTPHMS)

Online Degree Search Title: Astrophysics (MS)

Campus: TEMPE

Program Description:

The program provides fundamental graduate training in astrophysics to prepare candidates for further graduate study or careers in astrophysics, such as:

- scientific staff positions at government laboratories
- teaching at the community college level
- technical positions in industry

Degree Requirements: 30 credit hours and a thesis.

20 credit hours are structured courses. The student, with the approval of the advisor and supervisory committee (formed upon enrollment), selects courses that make up a coherent plan of study. For students in the astrophysics program, course work consists of:

AST 521 Stars and Interstellar Medium I (3)

AST 522 Stars and Interstellar Medium II (3)

AST 523 Stars and Interstellar Medium III (3)

AST 531 Galaxies and Cosmology I (3)

AST 532 Galaxies and Cosmology II (3)

AST 533 Galaxies and Cosmology III (3)

These courses are combined with additional work in core fields such as physics or mathematics and provide comprehensive graduate training in the major fields of astrophysics. All students in the School of Earth and Space Exploration are also required to take two one-credit seminars:

GLG 500 SESE Colloquium (1)

GLG 591 Faculty Research Seminar (1)

Students are expected to exhibit mastery of topics in these core fields and may be required by their advisor and committee to include such courses in their plan of study. Specific course requirements may be waived by the advisor and the graduate oversight committee if the student has successfully completed equivalent courses at universities elsewhere. Individual plans of study that include work in related fields may also be designed with advisor approval, subject to the requirements of Graduate Education.

The master's plan of study also includes six credit hours of thesis credit or AST 599. Students must follow Graduate Education policies and procedures for admission to the program and for fulfilling the requirements of the degree.

Thesis requirements: A thesis based on observational, theoretical, laboratory or literature research in astrophysics is required.

Final Examination: A final oral examination in defense of the thesis is required.

Admission Requirements:

Applicants must submit all materials electronically through the Graduate Education online application. In addition to the materials required by Graduate Education, students applying for admission to the master's program in astrophysics must submit:

- scores on the general GRE
- scores on the physics GRE
- statement of purpose
- three letters of recommendation

Applicants whose native language is not English, regardless of where they now reside, must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

The deadline for applications for the fall term is Dec. 15 of the previous year.

Astrophysics, PHD (LAASTPHPHD)

Online Degree Search Title: Astrophysics (PhD)

Campus: TEMPE

Program Description:

The PhD in astrophysics program is designed to develop creative scholarship and prepare students for professional careers in astrophysics, astronomy or related fields.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students may be admitted into the program with a bachelor's or master's in a related field. Up to 30 credit hours of master's-level work in a related field can be accepted toward the fulfillment of the doctoral requirements.

The plan of study for the doctorate will be selected with the recommendation of the student's supervisory committee. Each plan of study must include 12 credit hours of dissertation and a minimum of 25 hours of course work. For students in the astrophysics program, required course work includes:

AST 521 Stars and Interstellar Medium I (3)

AST 522 Stars and Interstellar Medium II (3)

AST 523 Stars and Interstellar Medium III (3)

AST 531 Galaxies and Cosmology I (3)

AST 532 Galaxies and Cosmology II (3)

AST 533 Galaxies and Cosmology III (3)

These courses are combined with additional work in core fields such as physics or mathematics and provide comprehensive graduate training in the major fields of astrophysics. All students in the School of Earth and Space Exploration are also required to take two one-credit seminars:

GLG 500 SESE Colloquium (1)

GLG 591 Faculty Research Seminar (1)

Specific course requirements may be waived by the advisor and the graduate oversight committee if the student has successfully completed equivalent courses at universities elsewhere. Individual plans of study that include work in related fields may also be designated with advisor approval, subject to the requirements of the Graduate Education office.

Comprehensive examination: The student's supervisory committee will determine the content of the comprehensive examination, consisting of a written and an oral examination.

Dissertation requirements: A dissertation is required, which is based on original work demonstrating creativity in research and scholarly proficiency in the subject area.

Final examination: A final oral examination in defense of the dissertation is required.

Admission Requirements:

Applicants must submit all materials electronically through the Graduate Education online application.

In addition to the materials required by ASU Graduate Education, students applying to the doctoral program in astrophysics must submit:

- scores on the general GRE
- scores on the GRE physics subject test
- statement of purpose
- three letters of recommendation

Applicants whose native language is not English (regardless of where they now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

The application deadline for fall semester is Dec. 15 of the previous year.

Atmospheric Science (certificate), Certificate (LAATMOSCE)

Online Degree Search Title: Atmospheric Science (Grad Certificate)

Campus: TEMPE

Program Description:

The interdisciplinary certificate in atmospheric science program is administered by an executive committee composed of faculty from the Ira A. Fulton Schools of Engineering and the College of Liberal Arts and Sciences. The objective of this program is to recognize ASU graduate students who specialize in a thesis or dissertation topic related to the atmospheric or oceanic sciences.

Students must complete a dissertation on a topic related to the atmospheric or oceanic sciences under the supervision of a faculty member from one of the cooperating departments.

Degree Requirements: 16 credit hours.

A minimum of 16 credit hours will be required in order to qualify for the atmospheric science certificate, consisting of:

- three three-credit courses from a list of courses in the core disciplines (9)
- two three-credit courses from a list of electives at the 400 level or above (6)
- a capstone seminar (1)

Considering the diversity of courses and in order to ensure an interdisciplinary flavor, all prospective recipients will have their certificate program approved by the certificate executive committee. Certificates will only be awarded to students who are enrolled in an MA, MS, MNS or PhD program at ASU. The student's thesis or dissertation must also be related to some aspect of atmospheric science.

The core courses are offered at least once every other year, so the certificate may be completed within two years.

Specific requirements are:

- approval by the certificate committee of the student's proposed course selection
- completion of one course from each of the core disciplines with a grade of "B" (3.00) or better
- completion of two courses from the list of electives with a grade of "B" (3.00) or better
- completion of the capstone seminar, which is one credit hour
- completion of a dissertation on a topic related to the atmospheric or oceanic sciences

Admission Requirements:

In order to apply to a graduate program, the applicant must complete the Graduate Education online application and meet all other requirements, including those with regard to English proficiency (for applicants whose native language is not English, regardless of where they may now reside), to be admitted to graduate study at ASU.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Biochemistry, MS (LABIOCHMS)

Online Degree Search Title: Biochemistry (MS)

Campus: TEMPE

Program Description:

The faculty in the Department of Chemistry and Biochemistry offer a program leading to the MS in biochemistry. The program offers a wide range of

active research with an emphasis on contemporary and interdisciplinary study in the areas of biochemistry, life sciences and other biochemistry-related fields. Drug design and protein chemistry, nanobiotechnology, biogeochemistry, medicinal chemistry and RNA-protein interactions are a few of the many topics currently being researched.

See <http://chemistry.asu.edu/graduate/facultyResearch.asp> (<http://chemistry.asu.edu/graduate/facultyResearch.asp>) for information on faculty research and the state-of-the art facilities available for conducting high-quality investigations. The master's in biochemistry prepares students for professional careers in industry, government and educational institutions.

Degree Requirements: 30 credit hours and a thesis.

The program consists of course work and seminars selected by the student in consultation with the student's supervisory committee and based on the student's area of research. A written thesis is required and must be successfully defended during a public final oral defense. Students must maintain a minimum GPA of 3.00 or better. A total of 30 credit hours must be completed for the plan of study and includes:

500 level or above courses as approved by the department (12)

BCH 592 research courses (8)

BCH 501 or CHM 501 seminar or other seminar course as approved by the department (4)

BCH 599 Thesis (6)

Total: 30 credit hours

A program fee in the amount of \$300 per semester is required in addition to the normal tuition costs.

Admission Requirements:

All applicants must submit an online Graduate Education application and must meet the requirements set by Graduate Education which can be found on Graduate Education website. The Department of Chemistry and Biochemistry requires official GRE scores be sent directly to Graduate Education by the Educational Testing Service. The subject test is not required but may be submitted to support the applicant's academic record.

In addition to the Graduate Education admission application, applicants must complete an online departmental supplemental application. Information on the supplemental application can be found on the department website: <http://chemistry.asu.edu/graduate/applicantInfo.asp> (<http://chemistry.asu.edu/graduate/applicantInfo.asp>).

Applicants whose native language is not English (regardless of where they live now) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Biochemistry, PHD (LABIOCHPHD)

Online Degree Search Title: Biochemistry (PhD)

Campus: TEMPE

Program Description:

The graduate faculty in the Department of Chemistry and Biochemistry offer a program leading to the PhD in biochemistry. The program offers a wide range of active research with an emphasis on contemporary and interdisciplinary study in the areas of biochemistry, life sciences and other biochemistry-related fields. A few of the many topics currently being researched:

- bioanalytical chemistry
- bio-organic chemistry
- biophysical chemistry
- chemical education
- environmental and geochemistry
- inorganic and materials chemistry

In addition to a broad range of individual research topics, the department also has a number of interdisciplinary programs:

Energy Frontier Research Center for Bio-Inspired Solar Fuel Production (<http://chemistry.asu.edu/news/DeptHighlights.asp#5>) (<http://chemistry.asu.edu/news/DeptHighlights.asp#5>))

Center for Membrane Proteins in Infectious Diseases, MPID (<http://chemistry.asu.edu/news/Faculty.asp#6>) (<http://chemistry.asu.edu/news/Faculty.asp#6>))

NASA Astrobiology Institute Team. "Follow the Elements" (<http://astrobiology.asu.edu>) (<http://astrobiology.asu.edu/>)

The faculty also participate in a number of other interdisciplinary programs leading to the doctorate. See <http://chemistry.asu.edu/graduate/facultyResearch.asp> (<http://chemistry.asu.edu/graduate/facultyResearch.asp>) on faculty research and <http://chemistry.asu.edu/graduate/facilities.asp> (<http://chemistry.asu.edu/graduate/facilities.asp>) for state-of-the-art facilities available for conducting high quality investigations. The doctorate in biochemistry prepares students for professional careers in industry, government and educational institutions.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The program consists of course work and seminars selected by the student in consultation with the student's supervisory committee and based on the student's area of research. Qualifying exams consisting of a written comprehensive exam, an oral comprehensive exam and a prospectus are required to advance to candidacy. Students must successfully defend their dissertation during a public final oral defense. Students must also maintain a minimum GPA of 3.00 or better. A total of 84 credit hours must be completed for the plan of study and includes:

six graduate-level courses

enrollment in a BCH 501/CHM 501 seminar each semester

BCH 792 Research

BCH 799 Dissertation

Admission Requirements:

All applicants must submit an online Graduate Education application and must meet the requirements set by Graduate Education, which can be found on the Graduate Education website. The Department of Chemistry and Biochemistry requires official GRE scores be sent directly to Graduate Education by the Educational Testing Service. Biochemistry (Medicinal Biochemistry), MS (LABCHMCMS)

Online Degree Search Title: Biochemistry (Medicinal Chemistry) (MS)

Campus: TEMPE

Program Description:

The faculty in the Department of Chemistry and Biochemistry offer a program leading to the MS in biochemistry with a concentration in medicinal chemistry. This program is intended for students who plan to continue their educational training in pharmacy, medical school or a related field and want to expand their background knowledge in biochemistry before beginning their professional education. Students completing the program will be awarded a MS in biochemistry degree with a concentration in medicinal chemistry.

Degree Requirements: 30 credit hours including the required applied project (research paper) course (CHM 593 or BCH 593).

A minimum of 30 credit hours, including course work, seminars, research and an applied project consisting of a written research paper are required. Courses are selected by the student in consultation with their supervisory committee based on the research area. The MS in biochemistry is
Academic Catalog Archive 2014-2015 479

awarded when the student has obtained a minimum cumulative GPA of 3.00 in course work, demonstrated quality performance in the laboratory and completion of the research project, completed and presented an approved research paper at an oral defense to the student's supervisory committee and met all deadline dates and requirements set by Graduate Education.

A program fee in the amount of \$300 per semester is required in addition to the normal tuition.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Accelerated Degrees:

This degree is also offered as an accelerated degree with Biochemistry (Medicinal Chemistry), BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

All students applying for admission to the program must meet the requirements set by Graduate Education and submit a Graduate Education online application. Applicants must have:

- completed a bachelor's degree in chemistry, biochemistry or a related area from a regionally accredited institution
- a cumulative GPA of 3.40 or better in the student's bachelor's degree
- original scores for the GRE*

Application to the Department of Chemistry and Biochemistry includes the completion of the electronic supplemental application providing information on:

- test scores
- a personal statement
- contact information for three letters of recommendation

*The subject test is not required.

Biology, MS (LABIOMS)

Online Degree Search Title: Biology (MS)

Campus: TEMPE

Program Description:

This program is designed to prepare students for careers in teaching and research in educational, medical, industrial and governmental institutions.

Degree Requirements: 30 credit hours and a thesis.

- Courses and research credits can be distributed in any combination appropriate to the student's individual educational goals.
- A final oral examination covering the thesis and related subject matter is administered by the supervisory committee.
- A minimum of 30 credit hours is required.
- Each student's program is prepared in consultation with the supervisory committee, consisting of a professor in the major and two additional faculty members.
- The program must include six hours of thesis and one hour of seminar.
- The remainder of the plan of study usually consists of a mixture of course work; readings, conferences and seminars in the student's primary and related fields; and research credits.
- A typical plan of study consists of six credit hours of thesis, one credit hour of seminar, nine to 15 hours of course work and additional seminars, and eight to 14 credit hours of research credit.

Accelerated Degrees:

This degree is also offered as an accelerated degree with Biological Sciences, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit a Graduate Education online application. Admission criteria are as follows:

- minimum GPA of 3.00 during the student's last two years or last 60 credit hours
- applicants should have completed the requirements for an undergraduate major in biology or related discipline
- minimum GRE scores in verbal (50th percentile), quantitative (70th percentile), and writing (5)

Test of English as a Foreign Language (TOEFL) score of 600 paper-based or 100 Internet-based is required for applicants whose native language is not English

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Biology, PHD (LABIOPHD)

Online Degree Search Title: Biology (PhD)

Campus: TEMPE

Program Description:

The PhD in biology program allows the student to acquire high research competency in one or more specialized areas while receiving a broad, solid grounding in biological sciences.

Degree Requirements: 84 credit hours, a oral comprehensive exam, a prospectus and a dissertation.

The program is tailored to the needs of the individual student. The plan of study is planned by the student and the supervisory committee, consisting of a major professor and four additional faculty members.

- Eighty-four credit hours are required.
- An oral comprehensive examination is required in order to advance to candidacy, and a formal defense of the final written dissertation is required prior to graduation.
- Twelve hours of dissertation are required.*

*The remaining hours are comprised of course work showing breadth in biology subdisciplines, seminars and research.

Admission Requirements:

Applicants must submit a Graduate Education online application.

Admission criteria are as follows:

- a 3.00 minimum GPA during the student's last two years or last 60 credit hours
- undergraduate requirements met for a major in biology, or related discipline, with an adequate background in related courses in chemistry, mathematical and physical sciences
- minimum GRE scores in verbal (50th percentile), quantitative (70th percentile) and writing (5)
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency in the form of Test of English as a Foreign Language (TOEFL) scores of at least 600 for paper-based or 100 for Internet-based.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Biology (Biology and Society), MS (LABIOSMS)

Online Degree Search Title: Biology (Biology and Society) (MS)

Campus: TEMPE

Program Description:

With the biology and society concentration under the MS in biology degree program, students may choose a formal track in the areas where biology intersects with society. There are three focus areas:

- bioethics, policy and law
- ecology, economics and ethics of the environment
- history and philosophy of science

The bioethics, policy and law track trains students in the pressing moral, policy and legal issues raised by the biosciences and biomedicine and in the disciplinary methods necessary to address these issues. Ecology, economics and ethics of the environment trains students in the theory and empirical methods for understanding, analyzing and shaping policy for coupled human-natural systems. The history and philosophy of science track trains students in the conceptual foundations of science, especially the epistemological and methodological assumptions that shape science and its progress.

The program is richly interdisciplinary, drawing from the following and other disciplines to develop skills for analyzing and addressing the problems where biology intersects with society:

- anthropology
- bioethics
- biology
- ecology
- economics
- environmental ethics
- environmental studies
- ethics
- history
- history and philosophy of science
- justice studies
- law
- modeling
- nursing
- philosophy
- political science
- religious studies

The concentration tailors individual plans of study to individual needs and interests, with a solid grounding in life and related sciences and with rigorous analytical and multidisciplinary education. The three tracks offer suggested courses for those wishing to focus on these areas.

Degree Requirements: 30 credit hours and a thesis.

An individual student plan is developed in consultation with the student's advisor and committee.

Accelerated Degrees:

This degree is also offered as an accelerated degree with Biological Sciences (Biology and Society), BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Students must submit an online application to Graduate Education. The program also requires a bachelor's degree, a "B" (3.00 on a 4.00 scale) grade point average in the last 60 semester hours or 90 quarter hours of undergraduate course work, and scores from the GRE general exam.

Entering students are expected to have completed the equivalent of core requirements for an undergraduate major in biology or a related discipline

Academic Catalog Archive 2014-2015 482

(typically evolution, genetics, and other courses appropriate to the student's particular interests). Students without an undergraduate level competency in the sciences may be considered for conditional admission to the biology and society concentration.

A TOEFL is required for applicants whose native language is not English. Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Biology (Complex Adaptive Systems Science), PHD (LABIOCPHD)

Online Degree Search Title: Biology (Complex Adaptive Systems Science) (PhD)

Campus: TEMPE

Program Description:

The PhD in biology with a concentration in complex adaptive systems science trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing university-wide research on complex adaptive system science at Arizona State University and emphasizes the value of a complex adaptive perspective to give better insight and a more active role in seeking solutions to a broad array of critical issues facing our society today. Students will be fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study, and candidates typically will have a member of the complex adaptive systems science graduate faculty as a member of the doctoral supervisory committee.

Admission Requirements: • Applicants must submit the online Graduate Education application.

- Applicants must have the minimum of a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university.
- Only students admitted to participating doctoral programs may apply for a complex adaptive systems concentration. A letter of application from the student must be sent to the chair of the complex adaptive systems science graduate faculty. The application will be reviewed by members of the graduate faculty who will make final admission recommendations to Graduate Education.
- Applicants must have the minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of their bachelor's degree program.

The TOEFL is required for applicants whose native language is not English, regardless of where they may now reside; see <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Chemistry, MS (LACHEMMS)

Online Degree Search Title: Chemistry (MS)

Campus: TEMPE

Program Description:

The faculty in the Department of Chemistry and Biochemistry offer a program leading to the MS in chemistry. Areas of study include:

- analytical chemistry
- biochemistry
- geochemistry
- inorganic chemistry
- organic chemistry
- physical chemistry
- chemical education
- solid-state chemistry

See <http://chemistry.asu.edu/graduate/facultyResearch.asp> (<http://chemistry.asu.edu/graduate/facultyResearch.asp>) for information on faculty research and the state-of-the-art facilities available for conducting high quality investigations. The master's in chemistry prepares students for professional careers in industry, government and educational institutions.

Degree Requirements: 30 credit hours and a thesis.

The program consists of course work and seminars selected by the student in consultation with the student's supervisory committee and based on the student's area of research. A written thesis is required and must be successfully defended during a public final oral defense. Students must maintain a minimum GPA of 3.00 or better. A total of 30 credit hours must be completed for the plan of study and includes:

500 level or above courses as approved by the department (12)

BCH 501 or CHM 501 seminar or other seminar course as approved by the department (4)

CHM 592 research courses (8)

CHM 599 Thesis (6)

Total: 30 credit hours

Admission Requirements:

All applicants must submit an online Graduate Education application and must meet the requirements set by Graduate Education, which can be found on the Graduate Education website. The Department of Chemistry and Biochemistry requires official GRE scores be sent directly to Graduate Education by the Educational Testing Service. The subject test is not required but may be submitted to support the applicant's academic record.

In addition to the Graduate Education admission application, applicants must complete an online departmental supplemental application. Information on the supplemental application can be found on the department website: <http://chemistry.asu.edu/graduate/applicantInfo.asp> (<http://chemistry.asu.edu/graduate/applicantInfo.asp>).

Applicants whose native language is not English (regardless of where they live now) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Chemistry, PHD (LACHEMPHD)

Online Degree Search Title: Chemistry (PhD)

Campus: TEMPE

Program Description:

The graduate faculty in the Department of Chemistry and Biochemistry offer a program leading to the PhD in chemistry. Areas of study include:

- analytical chemistry
- biochemistry
- chemical education
- environmental and geochemistry
- inorganic and materials chemistry
- organic chemistry
- physical chemistry

In addition to a broad range of individual research topics, the department also has a number of interdisciplinary programs:

Energy Frontier Research Center for Bio-Inspired Solar Fuel Production (Prof. Devens Gust) (<http://chemistry.asu.edu/news/DeptHighlights.asp#5>) (<http://chemistry.asu.edu/news/DeptHighlights.asp#5>))

Center for Membrane Proteins in Infectious Diseases, MPID (Prof. Petra Fromme) (<http://chemistry.asu.edu/news/Faculty.asp#6>) (<http://chemistry.asu.edu/news/Faculty.asp#6>))

NASA Astrobiology Institute Team. "Follow the Elements" (Prof. Ariel Anbar) (<http://astrobiology.asu.edu>) (<http://astrobiology.asu.edu/>))

See <http://chemistry.asu.edu/graduate/facultyResearch.asp> (<http://chemistry.asu.edu/graduate/facultyResearch.asp>) for information on faculty research and <http://chemistry.asu.edu/graduate/facilities.asp> (<http://chemistry.asu.edu/graduate/facilities.asp>) for state-of-the-art facilities available for conducting high quality investigations. The doctoral program in chemistry prepares students for professional careers in industry, government and educational institutions.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The program consists of course work and seminars selected by the student in consultation with the student's supervisory committee and based on the student's area of research. Qualifying exams consisting of a written comprehensive exam, an oral comprehensive exam and a prospectus are required to advance to candidacy. Students must successfully defend their dissertation during a public final oral defense. Students must also maintain a minimum GPA of 3.00 or better. A total of 84 credit hours must be completed for the plan of study and includes:

six graduate-level courses

enrollment in a BCH 501 or CHM 501 seminar each semester

CHM 792 Research

CHM 799 Dissertation

Admission Requirements:

All applicants must submit an online Graduate Education application and must meet the requirements set by Graduate Education, which can be found on the Graduate Education website. The Department of Chemistry and Biochemistry requires official GRE scores be sent directly to Graduate Education by the Educational Testing Service. The subject test is not required but may be submitted to support the applicant's academic record.

In addition to the Graduate Education admission application, applicants for the chemistry doctoral program must complete an online departmental supplemental application. Information on the supplemental application can be found on the department website:

Communication, PHD (LACOMMOPHD)

Online Degree Search Title: Communication (PhD)

Campus: TEMPE

Program Description:

The graduate faculty members of communication offer an interdisciplinary graduate program leading to the PhD in communication. Concentrations are available in interpersonal, intercultural and organizational communication. This program also provides course work and resources in rhetoric and performance studies.

The program is housed in the Hugh Downs School of Human Communication and is designed to prepare scholars for research-oriented careers in universities and in the public or private sectors. Students are provided training in communication theory, research methodology and a specialization in one or more areas of concentration. The goal of the program is to meet the needs of students whose interests transcend traditional disciplinary boundaries.

Degree Requirements: 96 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The PhD requires a minimum of 66 hours beyond an appropriate master's degree.

Course work for a typical plan of study is distributed as follows:

required core courses (6)

area of concentration (36)

COM 792 Research (12)

COM 799 Dissertation (12)

Students are required to demonstrate proficiency in research methods (statistics, computer languages, content analysis methods, interviewing, participant observation, etc.) which, in the judgment of the supervisory committee, is needed for the student's dissertation research.

Students are required to take three credit hours of COM 792 Prospectus/Dissertation Practicum and three credit hours of COM 792 Seminar Assistant.

Students must take at least one of the three advanced methods courses:

COM 607 Contemporary Rhetorical Methods (3)

COM 608 Multivariate Statistical Analysis of Data in Communication (3)

COM 609 Advanced Qualitative Research Methods (3)

The required theory course is COM 604 Theory Construction in Communication (3).

Two interdisciplinary theory and methodology courses are required of all students in the program.

Admission Requirements:

Applicants must submit:

- an online Graduate Education application
- GRE scores
- official transcripts
- resume or curriculum vitae
- statement of goals
- Test of English as a Foreign Language (TOEFL) scores, if applicable
- three letters of recommendation
- writing sample

Please visit the Hugh Downs School of Human Communication website for details.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Creative Writing, MFA (LACWRITMFA)

Online Degree Search Title: Creative Writing (MFA)

Campus: TEMPE

Program Description:

The ASU MFA in creative writing has always been an unswervingly student-first program. Through small classes, intimate workshops and practicum, or one-to-one mentoring, the centuries-old apprenticeship model thrives within the New American University. Poets and fiction writers work with an outstanding faculty that has published more than 80 books and has garnered national and international attention through awards including:

- Guggenheim and NEA fellowships
- Pulitzer Prize
- two Medals of Achievement from the National Society of Arts and Letters
- Western States Book Award
- Walt Whitman Award from the Academy of American Poets

The Creative Writing Program at ASU has been consistently able to offer MFA students among the best funding packages in the nation through teaching and research assistantships, which are renewable for each of the program's three years. Additionally, in concert with the writing program, the Virginia G. Piper Center for Creative Writing offers a variety of graduate assistantships, international writing and teaching scholarships, and thesis fellowships to continuing students.

Degree Requirements: 48 credit hours, a practicum and a written comprehensive exam.

The creative writing program requires 48 credit hours of study evenly divided between writing courses and literature courses designed to inform that writing. While students are expected to satisfy these requirements in the genre in which they were accepted, the program encourages cross-genre study, and electives can include courses taken outside of the creative writing program, even outside the English department. A practicum project and a written comprehensive exam are required.

Admission Requirements:

Applicants should have an undergraduate major in English or creative writing, with a GPA of 3.00 or above (4.00 scale); however, exceptional students who do not have either of these undergraduate majors may be admitted on the basis of writing excellence.

Application materials must be received by Jan. 1. ASU's Creative Writing Program accepts application materials between Sept. 1 and Jan. 1. Successful applicants will begin in fall semester.

The application process requires a combination of the following:

- mailing hard copies of letters and creative manuscripts directly to the Creative Writing Office
- mailing hard copies of academic transcripts directly to Graduate Education
- submitting application materials online through the Graduate Education website

REQUIRED HARD COPY MATERIALS

Applicants must submit three copies of the creative manuscript (up to 20 pages of poetry, or up to 30 pages of prose) and three letters of recommendation (one copy of each letter from three recommenders) directly to:

Creative Writing Program
ASU Department of English
PO Box 870302
Tempe, AZ 85287-0302

- Applicants must have their university transcripts mailed directly to Graduate Education.

REQUIRED ONLINE MATERIALS

Online materials are submitted online through the Graduate Education website. Required materials to be submitted online include:

- online Graduate Education application
 - application fee
 - personal Statement including your writing background, intended area of specialization, a brief self-evaluation of recent work, and goals
 - resume or curriculum vitae
 - teaching assistant application and statement of teaching philosophy (http://english.clas.asu.edu/teaching_assistantships)
- (http://english.clas.asu.edu/teaching_assistantships) - note the MFA applicant deadline is Jan. 1)
- academic writing sample (for TA application)

- proof of English proficiency, from applicants whose native language is not English (regardless of where they may now reside)

International students should refer to the Department of English webpage for English proficiency requirements:
<http://english.clas.asu.edu/gradstudies-international> (<http://english.clas.asu.edu/gradstudies-international>).

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

East Asian Languages and Civilizations (Chinese), PHD (LAEALCPHD)

Online Degree Search Title: East Asian Languages and Civilization (PhD)

Campus: TEMPE

Program Description:

The PhD program in East Asian languages and civilizations is a research-intensive, interdisciplinary, area-based degree in the study of traditional and modern languages and cultures of China and Japan. Students may focus on:

- comparative cultural studies
- cultural history or linguistics
- literary criticism
- literature
- thoughts

In every case, students will be expected to acquire a solid grounding in the classical and modern versions in the primary language of their area.

Degree Requirements: 84 credit hours, two foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The program requires a minimum of 84 credit hours of which 30 hours from an earned master's degree program that is directly relevant to the PhD program may be counted toward that requirement. However, a minimum of 30 credit hours of course work and 24 hours of research are required beyond the master's level. If a student already has a master's, it will not be necessary to complete the existing School of International Letters and Cultures master's in Asian languages and civilizations. However, the student will be required to satisfy all course requirements for the master's.

All students, whether in Chinese or Japanese, must comply with the following requirements:

- Complete a minimum of six courses selected from advanced courses in literature, religions or intellectual history.
- Complete five seminars.
- Complete SLC 500 Theory and Methodology in East Asian Literature and Culture.
- Complete 12 core requirements.
- Submit a dissertation and pass an oral defense of that dissertation.
- Demonstrate reading knowledge of a second pertinent Asian language and one pertinent European language, aside from English.
- Pass written and oral comprehensive examinations in four fields, three of which must be selected from areas that are well-represented within the East Asian languages and civilizations doctoral graduate curriculum.

Admission Requirements:

Applicants who hold a bachelor's degree from a regionally accredited institution in a related field are eligible to apply to the program. The following entry-level competencies are needed for admission to the program:

Chinese concentration:

completion of at least three years of modern Chinese and one year of classical Chinese

Japanese concentration:

completion of at least three years of modern Japanese and one semester of classical Japanese

All applicants are required to submit:

- an online Graduate Education application

- a statement of career and educational goals
- official GRE scores
- official transcripts of all undergraduate and graduate course work
- three letters of recommendation (two of which should be academic recommendations)

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Regular admission may be granted to applicants who have achieved a GPA of 3.30 (4.00 scale) or better in the last two years of work leading to the bachelor's and who are competitive in the applicant pool, as evidenced by GRE scores (verbal, quantitative and analytical), the statement of career and educational goals and the letters of recommendation.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

See department website for more information.

English, MA (LAENGLMA)

Online Degree Search Title: English (MA)

Campus: ONLNE, TEMPE

Program Description:

The MA in English encompasses five distinct tracks. Literature students develop and hone skills in oral presentation, writing and critical thinking while exploring social, historical and cultural contexts.

In the broad-based and global linguistics program, students study theory and application focusing on phonology, syntax, sociolinguistics, historical linguistics and second language acquisition.

The rhetoric and composition program offers a wide array of courses encompassing the history, theory and practice of rhetoric and pedagogy of writing.

Comparative literature students interpret cultural productions in English and at least one other language, and they explore approaches ranging from textual criticism, critical theory and translation to cultural studies and the social sciences.

Students in the English education program develop a deep understanding of the language arts by learning how to access, analyze and apply theoretical frames and best practices for teaching grades seven through 12.

The master's in English prepares students to be teachers, scholars, writers and editors and to work in a variety of professions, including government, advertising, fundraising and public relations.

Degree Requirements: 30 credit hours including the required applied project course (LIN 593 or ENG 593) and a foreign language exam, or 30 credit hours, a thesis and a foreign language exam.

A student may pursue a track in comparative literature, English linguistics, literature, English education or rhetoric and composition. All tracks have a foreign language requirement.

For the track in comparative literature, course work must include:

- one course in comparative literary and cultural studies
- one course in criticism and theory
- one course in theory and problems of translation
- four courses in a language other than English
- two courses in concepts and methodology (one of which must be bibliographical methods)

Thesis Option: 24 hours of course work and six hours of thesis

Nonthesis Option: 27 hours of course work and three hours of applied project

For the track in English linguistics, two options are available:

The applied linguistics option includes:

LIN 500 Research Methods

LIN 511 Phonetics and Phonology or LIN 514 Syntax

LIN 515 American English or LIN 516 Pragmatics and Discourse Analysis

LIN 520 Second-Language Acquisition Theories

a course from a selection of advanced linguistics courses

The general linguistics option includes:

LIN 500 Research Methods

LIN 511 Phonetics and Phonology

LIN 514 Syntax

LIN 515 American English

one advanced linguistics course.

Thesis Option: 24 hours of course work and six hours of thesis

Nonthesis Option: 27 hours of course work and three hours of applied project

For the track in literature, course work must include:

one course in literary theory

ENG 500 Research Methods

a distribution requirement

two courses selected must be graduate seminars at the 600 level

Thesis Option: 24 hours of course work and six hours of thesis

Nonthesis Option: 27 hours of course work and three hours of applied project

For the track in English education, course work must include:

ENG 500 Research Methods

ENG 506 Methods and Issues in Teaching Language

ENG 507 Methods and Issues in Teaching: Composition

ENG 606 Advanced Studies in English Education

15 elective or research hours, to be determined by advisor

Nonthesis Option: 27 hours of course work and three hours of applied project

For the track in rhetoric and composition, course work must include:

one course in composition theory

one course in rhetoric theory

ENG 500 Research Methods

15 elective course work hours, which must include six credit hours of graduate seminars at the 600 level

Thesis Option: 24 hours of course work and six hours of thesis

Nonthesis Option: 27 hours of course work and three hours of applied project

Admission Requirements:

Applicants must submit a Graduate Education online application.

The application deadline is Jan. 15 for most programs. Linguistics has a Sept. 15 deadline for spring and deadlines of Jan. 15 and April 15 for fall admission.

Applicants for the master's in English program with a track in literature are required to have an undergraduate major in English. Those who do not have a major in English are encouraged to register as nondegree students while they take supplementary courses, as identified by the advisor.

They must also submit:

- an academic writing sample relevant to the field
- GRE general test scores

- resume
- statement of purpose
- three letters of recommendation
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.
<http://english.clas.asu.edu/gradstudies-international> (<http://english.clas.asu.edu/gradstudies-international>)

Applicants for the master's in English program with a track in linguistics and with a track in rhetoric and composition may have undergraduate majors in fields such as, but not limited to:

- anthropology
- applied linguistics
- cognitive science
- communication
- comparative languages and literatures
- education
- English literature
- history
- law
- linguistics
- modern languages
- philosophy
- political science
- psychology
- religion
- rhetoric or composition
- sociology
- speech and hearing science

Students should consult with an advisor to determine whether their preparation is deficient in any area.

Applicants must also submit:

- resume
- statement of purpose
- three letters of recommendation

Applicants for the rhetoric and composition program must also submit an academic writing sample relevant to the field and GRE general test scores.

Applicants for the English education program should have an undergraduate major in English, a related education field, or teaching experience in the English language arts at the secondary level. Applicants must also submit a statement of purpose, three letters of recommendation, resume and official transcripts.

Applicants for the linguistics program must show completion of one upper-division course in a linguistics-related field.

Applicants for the master's in English program with a track in comparative literature must prove fluency in a foreign language to a level sufficient for graduate study. Other documents required include:

- academic writing sample relevant to the field
- statement of purpose
- three letters of recommendation

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

English (English Education), PHD (LAENEDPHD)

Online Degree Search Title: English (English Education) PhD

Campus: TEMPE

Program Description:

The PhD in English with a concentration in English education prepares students to examine the writing and reading practices of secondary students as well as the instructional practices of secondary English language arts teachers by emphasizing the relationship between pedagogy and research methodologies used to study the teaching of secondary English. Possible areas for research focus within this program include young adult literature, secondary reading and writing practices, new literacies, English language learning, critical literacy, and secondary English language arts curriculum and instruction development. The program encourages students to pursue course work in other subdisciplines within the Department of English, such as rhetoric and composition, applied linguistics and literature, and in the Mary Lou Fulton Teachers College, such as literacy and educational research methodology. The program prepares students to become professors of English education or to pursue other relevant opportunities in research and administration.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Required course work includes:

research methods (3)

foundational distribution (12)*

advanced studies distribution (12)

internships (9)

specialization (6)**

dissertation (12)

*Students must take 12 credit hours at the 500 level, selected from a list of approved courses in education, English, linguistics and applied linguistics.

**Students must take at least two courses in the area of specialization.

Admission Requirements:

A bachelor's degree from a regionally accredited college or university recognized by ASU is required.

Undergraduate and Graduate Majors: Applicants with master's degrees in English education and related fields such as English literature, applied linguistics, education, and rhetoric and composition will be considered. A minimum of three years full-time teaching or volunteer work in secondary English language arts classrooms or in literate-rich settings is required.

Application Deadline: Jan. 15 for the following fall

Candidates must submit the following:

- online application: <http://graduate.asu.edu/admissions> (<http://graduate.asu.edu/admissions>)
- one- to two-page statement of interest explaining the student's interest in the program, and how the student's background and preparation led to his or her specific career and research goal
- academic writing sample that provides strong evidence of academic writing ability
- three letters of recommendation from individuals familiar with the applicant's promise in English education, including one letter from a school principal and two letters from university professors
- curriculum vitae or resume
- GRE general test scores
- official transcripts with a cumulative GPA of at least 3.50 GPA in all previous graduate work.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

International students should refer to the Department of English webpage for English proficiency requirements.

<http://english.clas.asu.edu/gradstudies-international> (<http://english.clas.asu.edu/gradstudies-international>).

English (Literature), PHD (LAENLITPHD)

Online Degree Search Title: English (Literature) PhD

Campus: TEMPE

Program Description:

The PhD in English with a concentration in literature promotes the study of the production, distribution and reception of texts; of their linguistic, rhetorical and literary structures and functions; and of the internal and external forces shaping literature. The program offers courses that utilize chronological, generic and somatic approaches with an emphasis on literary history and critical theory as well as diverse contents and methodologies. Many courses explore issues relating to gender, class, race and ethnicity. The program prepares students for entrance into the profession as teachers and scholars.

Degree Requirements: 84 credit hours, a foreign language exam, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

A student with an appropriate master's must complete a minimum of 54 credit hours of approved graduate work, which includes 12 credit hours of dissertation, provided the student's master's is accepted by the supervisory committee and the academic unit. Research hours may be used toward course work in consultation with the advisor. A student without an appropriate master's must complete 84 credit hours of work at ASU. At the advisor's discretion, students may include up to 12 credit hours of appropriate, graduate-level course work undertaken at another university and not previously counted toward any other degree.

Specifically required are six credit hours in theory courses and ENG 500 Research Methods. Students must complete eight graduate courses in any of the following categories:

- cultural studies
- ethnic studies
- gender studies
- genre
- history and structure of the English language
- literature 1500-1660
- literature 1660-1900
- literature since 1900
- literature to 1500
- postcolonial or anglophone literatures

Students must take at least five graduate seminars at the 600 level en route to the doctorate, at least three of which must be taken in the doctoral program. Up to 12 credit hours taken outside the department may be counted toward the degree. Students should consult with their supervisory committees when choosing electives.

Admission Requirements:

Applicants for the doctoral degree in English (literature) must submit:

- online Graduate Education application
- academic writing sample
- curriculum vitae
- GRE general scores (subject scores are optional)
- statement of purpose
- three letters of recommendation

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

International students should refer to the Department of English webpage for English proficiency requirements:

<http://english.clas.asu.edu/gradstudies-international> (<http://english.clas.asu.edu/gradstudies-international>).

Deadline for admission applications and requests for financial aid, including teaching assistantships, is Jan. 15. Incomplete files are not considered. Students should refer to the program's webpage for further information.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

English (Rhetoric, Composition and Linguistics), PHD (LAENRHTPHD)

Online Degree Search Title: English (Rhetoric, Composition and Linguistics) PhD

Campus: TEMPE

Program Description:

The PhD in English, concentration in rhetoric, composition and linguistics at Arizona State University promotes the study of the production, distribution and interpretation of oral and written texts. Using classical and contemporary theories, methods and contexts, rhetoric and composition courses emphasize rhetorical strategies of oral, written, material and digital texts. Linguistics courses focus on the structure, function and acquisition of language and on its cognitive, oral, social and textual contexts. Requirements are designed to encourage a full understanding of theoretical and applied aspects of rhetoric, composition and linguistics and their intersection. The program encourages interdisciplinary study, and its flexible requirements enable students to pursue those aspects of the disciplines that interest them the most. The program prepares students for entrance into the field as teachers, scholars and professionals.

Degree Requirements: 84 credit hours, a foreign language exam, a written comprehensive exam, a prospectus and a dissertation, or 84 credit hours, a foreign language exam, an oral comprehensive exam, a prospectus and a dissertation.

In general, a student with an appropriate master's must complete 54 credit hours of approved graduate work, which includes 12 credit hours of dissertation. Research hours may be used toward course work in consultation with the advisor. A student without an appropriate master's usually must complete 84 credit hours of work at ASU. At the advisor's discretion, students may include up to 12 credit hours of appropriate, graduate-level course work undertaken at another university and not previously counted toward any other degree.

Course Work Requirements:

Research Methods: Students must take ENG/LIN 500 or its equivalent (3 credit hours).

Foundational Distribution: Foundational courses are offered at the 500 level, but also may include courses completed as master's level work at other universities. Students must complete at the 500 level (or equivalent) one course in composition studies, one course in rhetoric and two courses in linguistics (12 credit hours).

Advanced Studies Distribution: Advanced studies courses are offered at the 600 level or above. Students may choose to take 600-level courses required by the distribution from one area of study (rhetoric, composition or linguistics) or a combination of areas in which they would like to concentrate. It is assumed that a student will have taken a foundational level course prior to taking an advanced studies course, especially when the area of study is new for the student (12 credit hours).

Continuing Concentration: Students may choose to take other foundational (500 or equivalent) and advanced (600 and above or equivalent) courses in any one of the areas of concentration or a combination of areas in which they would like to concentrate. Students should consult with an advisor when selecting additional courses for concentration. It is expected that some of these continuing courses will include ENG or LIN 790 and 792 used in preparation for the doctoral examination. Note: Special Topics courses (ENG 598, LIN 548, LIN 598) and seminars (ENG 591, LIN 591) may fulfill some of the distribution requirements at the foundational (500 level) and advanced studies (600 level) levels. Students should consult with an advisor when choosing these courses.

Interdisciplinary Option: Students are encouraged to take up to 12 hours of courses outside the department to count toward the degree. Those courses may fulfill some of the foregoing requirements at the foundational and advanced studies distribution, or be taken in addition to those required by the distribution. Students should consult with an advisor when choosing these courses (up to 12 credit hours).

Admission Requirements:

Applicants must submit a Graduate Education online application.

Supporting documents include:

- academic writing sample
- curriculum vitae
- GRE general test scores
- official transcripts
- statement of purpose

- three letters of recommendation

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of the Graduate Education office and those of the College of Liberal Arts and Sciences.

<http://english.clas.asu.edu/gradstudies-international> (<http://english.clas.asu.edu/gradstudies-international>).

Deadline for admission applications and teaching assistantships is Jan. 15. Incomplete files are not considered.

Environmental Life Sciences, PHD (LAELSPHD)

Online Degree Search Title: Environmental Life Sciences (PHD)

Campus: TEMPE

Program Description:

Environmental life sciences is a novel graduate degree that provides doctorate-level training in several complementary fields focused on interactions between organisms (e.g., plant, animal or microbe) and their environment. The program provides transdisciplinary training that includes aspects of:

- biology
- chemistry or biochemistry
- environmental engineering
- geosciences
- mathematics
- social sciences
- sustainability

Graduate students are trained in:

- core classes
- seminars
- reading groups
- research clusters

We focus on collaborative and integrative study of the effects of environmental variation on fluxes of materials and energy across scales ranging from the organism to the globe. Our overall goal is to provide a unique PhD program that produces students with a broad appreciation of environment-organism questions in the context of natural and anthropogenic environmental change.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

As specified in each student's plan of study, the total number of credit hours should consist of:

core courses (7)

program electives (9)

ELS 799 Dissertation (12)

Beyond these 28 credit hours, the remaining credit hours should be filled from electives or from the Environmental Life Sciences omnibus courses such as ELS 784 Doctoral Internship or ELS 790 Doctoral Reading and Conference, up to the required number of total credit hours (54 if entering with a master's or 84 with a bachelor's).

Admission Requirements: • Students must submit an online application to the Graduate Education office.

• Applicants must possess a minimum of a bachelor's (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing in a related field. They must have had a minimum of a 3.00 cumulative GPA (4.00 scale) in the last 60 hours of their first bachelor's degree.

• All applicants must submit GRE results.

• Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. A TOEFL

score of 600 paper-based or 100 Internet-based IELTS overall band score of at least 6.5 with no band below 6.0 is required.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Environmental Social Science, PHD (LAESSPHD)

Online Degree Search Title: Environmental Social Science (PhD)

Campus: TEMPE

Program Description:

The PhD in environmental social science is one of the few doctoral programs in the U.S. that draws on the premise that reducing human impacts and developing more sustainable environmental practices will be difficult, if not impossible, to achieve without a focus on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

- culture and the environment
- environmental hazards and vulnerability
- environmental justice
- human environment impacts
- political ecology
- science and technology studies

These are the basis for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions, and health and the environment.

Students will work with faculty who have expertise in a broad range of fields including:

- archaeology
- community resources
- cultural and medical anthropology
- demography
- environmental history
- geographic information systems
- human and physical geography
- planning
- public affairs
- science and technology studies
- sociology

The program will train students to move into teaching and research positions, or to assume leadership roles in:

- government
- industry
- nongovernmental organizations

Course work for the degree is focused on developing real-world skills and a solid grasp of complex social science approaches to environmental issues. Students work closely with their committee to develop a curriculum appropriate to their chosen interests and career goals.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's in a related field may be granted up to 30 credit hours toward the 84 hour total required for the doctorate. This leaves 30 hours of course work, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned postadmission.

Students entering without a master's must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated

by a faculty committee and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses and complete degree requirements per the program's satisfactory progress policy.

Admission Requirements:

Students must submit an online Graduate Education application. The application deadline is Dec. 1 for admission in the following fall. There is no spring admission.

In addition to the general requirements for admission to Graduate Education, applicants must also provide:

- statement of purpose outlining career and educational goals
- current curriculum vitae or resume
- optional sample of their written work
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Undergraduate course work in the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not a prerequisite for admission, but is generally advisable. Students may be admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Environmental Social Science (Complex Adaptive Systems Science), PHD (LAESSCPHD)

Online Degree Search Title: Environmental Social Science (Complex Adaptive Systems Science) (PhD)

Campus: TEMPE

Program Description:

The PhD in environmental social science is one of the few doctoral programs in the U.S. that draws on the premise that reducing human impacts and developing more sustainable environmental practices will be difficult, if not impossible, to achieve without a focus on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

- culture and the environment
- environmental hazards and vulnerability
- environmental justice
- human environment impacts
- political ecology
- science and technology studies

These are the bases for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions and health and the environment.

Students will work with faculty who have expertise in a broad range of fields including:

- archaeology
- community resources
- cultural and medical anthropology
- demography
- environmental history
- geographic information systems

- human and physical geography
- planning
- public affairs
- science and technology studies
- sociology

The program will train students to move into teaching and research positions, or to assume leadership roles in:

- government
- industry
- nongovernmental organizations

Course work for the degree is focused on developing real-world skills and a solid grasp of complex social science approaches to environmental issues. Students work closely with their committee to develop a curriculum appropriate to their chosen interests and career goals.

The complex adaptive systems science doctoral concentration trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive systems science at Arizona State University and emphasizes the value of a complex adaptive systems perspective to give better insight and a more active role in seeking solutions to a broad array of critical issues facing our society today. Students will be fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Students entering with a master's in a related field may be granted up to 30 credit hours toward the 84 hour total required for the doctorate. This leaves 30 hours of course work, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned postadmission.

Students entering without a master's must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses, and complete degree requirements per the program's satisfactory progress policy.

For the concentration in complex adaptive systems science, 12 credit hours will be selected from an approved list of applicable courses related to complexity.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study and typically will have a member of the complex adaptive systems science graduate faculty as a member of their doctoral supervisory committee.

Admission Requirements:

Applicants must submit an online Graduate Education application. The application deadline is Dec. 1 for admission in the following fall. There is no spring admission.

In addition to the general requirements for admission to Graduate Education, applicants must also provide:

- statement of purpose outlining career and educational goals
- current curriculum vitae or resume

Environmental Social Science (Urbanism), PHD (LAESSURPHD)

Online Degree Search Title: Environmental Social Science (Urbanism) PHD

Campus: TEMPE

Program Description:

The PhD in environmental social science is one of the few doctoral programs in the U.S. that draws on the premise that reducing human impacts and developing more sustainable environmental practices will be difficult, if not impossible, to achieve without a focus on the social dynamics of environmental issues using critical social science perspectives.

The program is organized around theoretically based conceptual domains:

- culture and the environment
- environmental hazards and vulnerability
- environmental justice
- human environment impacts
- political ecology
- science and technology studies

These are the bases for addressing various topical foci, including urban environments, technologies and their consequences, landscapes, institutions and health and the environment.

Students will work with faculty who have expertise in a broad range of fields including:

- archaeology
- community resources
- cultural and medical anthropology
- demography
- environmental history
- geographic information systems
- human and physical geography
- planning
- public affairs
- science and technology studies
- sociology

The program will train students to move into teaching and research positions, or to assume leadership roles in:

- government
- industry
- nongovernmental organizations

Course work for the degree is focused on developing real-world skills and a solid grasp of complex social science approaches to environmental issues. Students work closely with their committee to develop a curriculum appropriate to their chosen interests and career goals.

The concentration in urbanism will leverage the varied interests in urbanism and help emerging scholars as they attempt to compare, contrast and take stock of urbanism. Working with faculty from across a range of departments and programs at ASU, doctoral students will be able to capture the creative tensions that scholarship on urbanism has inspired in order to stimulate a provocative, constructive kind of inquiry.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's in a related field may be granted up to 30 credit hours toward the 84-hour total required for the doctorate. This leaves 30 hours of course work, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned postadmission.

Students entering without a master's must earn an additional 30 hours of graduate credit, produce a research portfolio which is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses and complete degree requirements per the program's satisfactory progress policy.

All students entering the program complete 18 hours of core classes in conceptual domains and topical foci. For the concentration in urbanism, 15 credit hours will be selected from an approved list of applicable courses related to urbanism. Some of the environmental social science core courses also count toward the concentration in urbanism. These courses will include the core urbanism course, GCU 516, as well as one course from each of the four urbanism clusters:

- built form
- culture and society
- natural environment
- institutions and governance

Additional hours come from courses in research design, technical expertise and electives. Students may select from a substantial range of courses to satisfy noncore requirements.

Admission Requirements:

The application deadline is Dec. 1 for admission in the following fall. There is no spring admission.

Applicants must provide:

- online Graduate Education application
- a statement of purpose outlining career and educational goals
- a current curriculum vitae or resume
- an optional sample of their written work
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work
- proof of English proficiency, for applicants whose native language is not English (regardless of where they may now reside)

While undergraduate work in one of the social sciences (e.g., geography, political science, sociology, anthropology, planning or history) is not required, some course work in the social sciences is advantageous for admission. Students may be admitted without such a background and may be required to acquire knowledge of the social sciences in a manner to be specified at the time of admission.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Evolutionary Biology, PHD (LAEVOPHD)

Online Degree Search Title: Evolutionary Biology (PhD)

Campus: TEMPE

Program Description:

Evolutionary biology is an interdisciplinary graduate degree program that will provide doctorate-level training in the historical, conceptual, empirical and quantitative aspects of biological evolution. Evolution cuts across the biological sciences in ways that few other foci do:

- allows integration of information and patterns across levels of organization
- informs the theoretical foundations of subfields ranging from population genetics to systematics to ecosystem ecology
- provides bridges between temporal and spatial scales

Forgoing emphases on particular taxa or methods, the program focuses on understanding the patterns and processes that have and continue to shape life on Earth, training the next generation of scientists to use this knowledge to meet present and future challenges to the biosphere and human health in the face of increasing environmental perturbation.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

EVO 601 Principles of Evolution (3)

EVO 610 Research Areas of Evolution (2)

BIO 614 Biometry (4)

elective courses (9)*

research, course work or 30 credit hours from a previously awarded master's (54)
dissertation (12)

*The program and the student's advisor will determine these courses in conjunction with the student.

Admission Requirements: • All applicants will submit the Graduate Education online application.

- The applicant must have a baccalaureate degree from a regionally accredited institution in the U.S. or an international equivalent degree.
- A minimum GPA of 3.00 (4.00 scale) must have been earned in the student's last 60 hours of their bachelor's program.
- The GRE is required.
- TOEFL is required for applicants whose native language is not English (regardless of where they may now reside).

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Exploration Systems Design, PHD (LAESDPHD)

Online Degree Search Title: Exploration Systems Design (PhD)

Campus: TEMPE

Program Description:

The PhD in exploration systems design offers students an advanced systems approach for developing scientific exploration technologies in a wide range of demanding environments on the Earth, planets, moons and in space. This transdisciplinary degree program provides a unique platform to train systems engineers targeting technological development for exploration science. This collaborative program between the School of Earth and Space Exploration and the Ira A. Fulton Schools of Engineering allows students to specialize in topics related to planetary exploration, astronomical instrumentation, robotics, sensors and sensor networks. The curriculum will integrate the School of Earth and Space Exploration's science, instrumentation and systems engineering core courses with related course work from the Ira A. Fulton Schools of Engineering. Students must select a concentration as part of this degree program. Concentrations are available in instrumentation, systems engineering or sensor networks.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students may be admitted into the program with a bachelor's or master's in a related field. Up to 30 credit hours of master's-level work in a related field such as engineering, computer science, geological sciences or physics can be accepted toward the fulfillment of the doctoral requirements.

The plan of study for the doctorate will be selected with the recommendation of the student's supervisory committee. The exploration systems design doctorate requires:

core courses (6)

course work specific to the concentration (9)

SES 799 Dissertation (12)

All students in the School of Earth and Space Exploration are also required to take two seminars:

GLG 500 SESE Colloquium (1)

GLG 591 Faculty Research Seminar (1)

Admission Requirements:

Students applying to the doctoral program in exploration systems design must submit:

- online Graduate Education application
- scores on the general GRE
- a statement of purpose
- three letters of recommendation

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Applications for fall admission are due by Dec. 15 of the previous year.

Instrumentation Concentration:

An undergraduate degree in electrical engineering, aerospace engineering or mechanical engineering is preferred.

Systems Engineering Concentration:

Successful completion of a senior capstone or design project is an admission requirement for this concentration. Students who have not had a design course are required to take SES 405 Systems Engineering as a deficiency course.

Sensor Networks Concentration:

An undergraduate degree in electrical engineering or computer science is preferred.

Family and Human Development, MS (LAFAMHDMS)

Online Degree Search Title: Family and Human Development (MS)

Campus: ONLNE, TEMPE

Program Description:

The MS program in family and human development is devoted to the study of families, children and youth. The program's research, teaching and service have direct meaning for the lives of children and adults and the families and communities in which they live.

The faculty share a common commitment to high-quality research that both increases the basic understanding of human and family development and has the potential to contribute to the improvement of the lives of children and families.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required capstone courses (FAS 584 and FAS 598).

Courses are selected by the student along guidelines of the specific areas, after consultation with the supervisory committee. The plan of study should be completed and approved by the supervisory committee once completing 50 percent of the minimum required credit hours for the degree. A minimum of 30 credit hours is required. Acceptance of the proposed plan of study must be verified by signature of the chair and supervisory committee members. After approval within the program or college, the plan of study is submitted to Graduate Education for final approval.

The following requirements must be met for the tracks in child development or family studies. All students must take the following courses (or equivalent, with the approval of the graduate director):

diversity course (3)

elective credit hours (9 or 12)

multiple regression (3)

CDE 531 or FAS 531 Theoretical Issues (3)

FAS 500 Research Methods (3)

FAS or CDE 599 master's thesis (6) or FAS 584 and 598 capstone project (9)

Accelerated Degrees:

This degree is also offered as an accelerated degree with Family and Human Development, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Admission to the master's in family and human development program is determined by the following criteria:

- online application to Graduate Education
- official transcripts of all undergraduate and graduate course work
- resume or curriculum vitae
- statement of goals relevant to the master's program
- Test of English as a Foreign Language (TOEFL) score of at least 600*
- two letters of recommendation

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences

Applications should be completed by submitting the online Graduate Education application. As part of the online application, the applicant will submit their resume or curriculum vita, statement of goals and the names and email addresses for their three recommenders. Letters of recommendation will be received electronically.

After submitting the graduate application, official collegiate transcripts should be sent to:

Arizona State University
Graduate Enrollment Services
Interdisciplinary Building, B-Wing, Room 170
PO Box 871003
Tempe AZ 85287-1003

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Family and Human Development, PHD (LAFAMSCPHD)

Online Degree Search Title: Family and Human Development (PhD)

Campus: TEMPE

Program Description:

The program in family and human development is devoted to the study of families, children and youth. The program's research, teaching and service have direct meaning for the lives of children and adults and the families and communities in which they live.

The faculty share a common commitment to high-quality research that both increases the basic understanding of human and family development and has the potential to contribute to the improvement of the lives of children and families.

Degree Requirements: 85 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Each student must prepare and submit a plan of study in conjunction with the chair and members of his or her supervisory committee once completing 50 percent of the minimum required credit hours for the degree. The plan of study consists of a minimum of:

85 credit hours for students entering after the bachelor's degree

- Of the 85 credit hours for a postbaccalaureate program, six credit hours are thesis and 12 credit hours are dissertation.
- Postbaccalaureate students complete a master's-in-passing before advancing to their doctoral studies.

55 credit hours for students entering after the master's degree

- Of the 55 credit hours of the postmaster's program, there are 12 credit hours of dissertation.

The additional hours in the postbaccalaureate and postmaster's tracks involve courses in:

- electives relating to family and human development
- family and human development
- statistics and research methods

Admission Requirements:

Admission to the doctoral program in family and human development is determined by the following criteria:

- online application to Graduate Education
- a resume or curriculum vitae
- a Test of English as a Foreign Language (TOEFL) score of at least 600 for each applicant whose native language is not English (regardless of where they may now reside)
- official transcripts of all undergraduate and graduate course work
- statement of goals relevant to the doctoral program
- three letters of recommendation
- verbal, quantitative and analytical GRE scores

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Applications, which are due Jan. 10, should be completed by submitting the online Graduate Education application. As part of the online application, the applicant will submit their resume or curriculum vitae, statement of goals and the names and email addresses of their three recommenders. Letters of recommendation will be received electronically.

After submitting the graduate application, official collegiate transcripts and GRE test scores should be sent to Graduate Enrollment Services.

French (Comparative Literature), MA (LAFRECLMA)

Online Degree Search Title: French Comparative Literature (MA)

Campus: TEMPE

Program Description:

The School of International Letters and Cultures offers a graduate program in French leading to the degree of MA in French with concentration in comparative literature.

Degree Requirements: 30 credit hours including the required applied project course (FRE 593) and a written comprehensive exam.

Graduate students may take only 500-level courses for graduate credit. At least nine hours must be selected from those courses listed exclusively for graduate students. The program must include:

- FRE 500 Bibliography and Research Methods (3) (It is recommended that the candidate enroll in this course as early as possible.)
- two courses in linguistics, civilization or translation (of which one must be in linguistics)
- one course in critical or cultural theory

For core courses, a minimum of four courses offered by the French section must be selected from any combination of the following categories:

- Francophone studies courses
- genre courses
- period courses

When approved by the graduate committee, up to six hours of related course work may be taken outside of French.

A student must achieve a GPA of "B" (3.00) or higher in all work specifically included in the plan of study. Grades below a "C" (2.00) cannot be used to meet the requirements of a graduate degree. No student may accumulate more than one incomplete at any one time.

Independent study courses will be given only under exceptional circumstances and will not duplicate courses which are available. The French graduate committee is responsible for authorizing such work in cooperation with the individual professor. No more than three hours of independent study will be permitted.

Students must complete an applied project.

The written examination for the concentration in comparative literature will be administered by the interdepartmental committee for comparative literature and will consist of two essay-based components: general concepts of comparative literature and problems of comparative literature.

Admission Requirements: • All applicants must submit the Graduate Education online application.

- Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Candidates for the master's should, upon entrance, present the equivalent of an undergraduate major in the language in which the degree is sought. Those who lack this background but who show strong potential and meet Graduate Education admission requirements may be admitted to a graduate program on a provisional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular program of study for the master's degree.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

French (Linguistics), MA (LAFRELINMA)

Online Degree Search Title: French Linguistics (MA)

Campus: TEMPE

Program Description:

The School of International Letters and Cultures offers a graduate program in French leading to the degree of MA in French with concentrations in literature, linguistics or comparative literature.

Degree Requirements: 30 credit hours including the required applied project course (FRE 593) and a written comprehensive exam.

The plan of study for the master's includes:

applied project option

- a minimum of 30 credit hours of graduate-level work, as approved by the candidate's supervisory committee
- a 500-level bibliography and research methods course offered by the department
- in some programs, six hours in another language or in closely related courses (when approved by the candidate's supervisory committee)

Comprehensive Examination: All candidates are required to pass a comprehensive written examination designed to evaluate the candidate's knowledge in the area of specialization. A reading list, as agreed upon, serves as a guide to prepare for this examination.

Admission Requirements: • Applicants must submit the Graduate Education online application.

- Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Gender Studies, PHD (LAGSTPHD)

Online Degree Search Title: Gender Studies (PhD)

Campus: TEMPE

Program Description:

The academic study of gender is increasingly recognized as central across academic fields, from literature to psychology, to biology and law. The goal of the doctoral program is to train researchers who can take their place in the world as:

- academic faculty
- policymakers
- researchers inside and outside of academia

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The gender studies program requires:

84 credit hours for students admitted with only a bachelor's degree

a dissertation

both a written and oral comprehensive examination

The gender studies doctoral program is designed to provide students with the interdisciplinary training in theory and methods needed to conduct original research and scholarship about gender. At the core of the program are four required courses:

WST 601 Critical Concepts of Gender (3)

WST 602 Mapping the Intersections of Gender (3)

WST 603 Engendering Methodology (3)

WST 701 Research Design and Proposal Development in Gender Studies (3)

Students also take two research methods courses relevant to their dissertation, plus additional courses among three areas of specialization:

Gender, justice and social change

Courses in this area explore the gender dimension of social structures, institutions and organizations; the processes of social change and community development; and the ways policies and laws can change gender relations. We have faculty expertise in:

- child welfare
- development
- domestic violence
- environment
- globalization
- immigration
- social policy
- sustainability
- transnational feminisms
- work

Health, science and technology

Courses in this area explore the impact of gender on:

- health care
- health occupations
- science and technology

We have faculty expertise in:

- bioethics
- gender and technology
- health and sexuality
- HIV and AIDS prevention

- the participation of women in math and science in the developing world
- women's roles as healers and caregivers

Visual and narrative culture

Courses in this area explore historical and contemporary representations of gender in all genres, including:

- art
- literature
- popular culture
- scientific, medical, historical and legal discourse
- theater

Our faculty focus especially on the intersections of gender representations with representations of race, sexuality, class and the ways in which representations produce rather than simply mimic gender inequality and polarized identities.

Admission Requirements:

The gender studies program welcomes applications from qualified students without regard to race, creed, color, religion, sex or national origin.

Submit to Graduate Education:

- online Graduate Education application

nonrefundable application fee as specified by Graduate Education

- official copies of all undergraduate and graduate transcripts
- official GRE scores*
- resume or curriculum vitae
- statement of purpose
- proof of English proficiency**
- three letters of reference, preferably from faculty or other researchers
- writing sample (10-15 pages)

*The GRE test scores cannot be more than five years old.

**Students whose native language is not English (regardless of where they may now reside) must meet ASU's English proficiency requirements <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>).

Please see the ASU Graduate Education website for mailing addresses and further admission information.

For additional financial information, consult the Financial Aid office at <https://students.asu.edu/financialaid> (<https://students.asu.edu/financialaid>).

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Gender Studies (certificate), Certificate (LAWSTGRCT)

Online Degree Search Title: Gender Studies (Grad Certificate)

Campus: TEMPE

Program Description:

The academic study of gender is increasingly recognized as a central focus across academic fields, from literature to psychology, to biology and law. The graduate certificate in gender studies offers graduate students the opportunity to enhance their advanced degrees with demonstrated proficiency and knowledge about gender research and theories that they may apply in their own fields.

Degree Requirements: 15 credit hours.

Two required courses (6)

WST 601 Critical Concepts in Gender (3)
WST 602 Mapping the Intersectionalities of Gender (3)

Three additional courses (9)

Courses may be chosen from other WST graduate courses or from more than thirty approved courses from other departments throughout the university. Other courses may also be used with the graduate director's approval. Up to six credits not used for another ASU degree or certificate can be transferred from another university, with graduate director's approval. Courses should be recorded on the transfer section of the student's Interactive Program of Study (iPOS). Up to nine credit hours of ASU nondegree credit can be transferred for students who are eventually admitted to an ASU graduate program.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Please see <https://sst.clas.asu.edu/node/1877> (<https://sst.clas.asu.edu/node/1877>) for more information about the certificate and to design course work.

Geographic Education, MAS (LAGEOEDMAS)

Online Degree Search Title: Geographic Education (MAS)

Campus: ONLNE, TEMPE

Program Description:

The MAS in geographic education is an online nonthesis degree program that provides teachers with the opportunity to obtain a highly qualified status in geographic education. The degree program is intended for K-12 teachers and is appropriate for elementary and secondary school teachers. Although the courses are completed online, there are two in-person meetings, including an orientation and a graduation event, where capstone projects are presented.

Degree Requirements: 30 credit hours and an applied project.

The requirements are as follows:

- Students must complete 24 credit hours in geography, a three-credit-hour course in educational research (COE 501 Introduction to Research and Evaluation in Education) and a three-credit-hour course on the applied project related to geographic education (SED 593 Applied Project or DCI 593 Applied Project). This culminating experience is required in place of a thesis.
- Students are required to have access to a computer with an Internet connection and the capability to view video and animated files with sound, access to email, and access to a word processing program.
- Thirty credit hours are to be taken completely online, with two one-day sessions required at the Tempe campus for an orientation session and presentation of an applied project.

Admission Requirements:

All applicants must submit an online Graduate Education application.

In addition to Graduate Education admission requirements, prospective students must have a bachelor's degree from a regionally accredited institution (or equivalent) in education, geography or related area with a minimum GPA of 3.00 (4.00 scale) or they must demonstrate a minimum of one year of related professional experience and successful completion of a bachelor's degree from a regionally accredited institution (or equivalent) with a minimum GPA of 3.00 (4.00 scale). Applicants with a GPA below 3.00 can apply and may be accepted if they show substantial promise of success based on the candidate's statement and letters of recommendation. Applicants to the degree program are accepted year-round for fall admission.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Geographic Information Science (certificate), Certificate (LAGEOGISCE)

Online Degree Search Title: Geographic Information Science (Grad Certificate)

Campus: TEMPE

Program Description:

Under the auspices of the School of Geographical Sciences and Urban Planning, this interdisciplinary certificate program in geographic information science is administered by an executive committee. The objective of this program is to enable ASU graduate students and GIS professionals to learn how to apply GIS concepts and technology for the purpose of spatial analysis.

Degree Requirements: 16 credit hours including the required capstone course (GPH 591).

a capstone seminar (1)
three required courses (9)
two elective courses (6)

Admission Requirements:

All applicants to the certificate program must submit the Graduate Education online application.

Current graduate students receive priority admission to the certificate program.

Students qualify for admission to the certificate program by maintaining good standing in a cooperating department and completing an application specific to the GIS certificate.

Practicing professionals who already hold a graduate degree must furnish proof of an advanced degree by a formal transcript to Graduate Education.

Prospective students must complete prerequisites listed for the level-one required course.

Applicants whose native language is not English (regardless of where they now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Geographic Information Systems, MAS (LAGISMAS)

Online Degree Search Title: Geographic Information Systems (MAS)

Campus: TEMPE

Program Description:

The MAS in geographic information systems program is a compact one-year nonthesis degree fostering advanced study in management and the use of GIS technology in public and corporate environments. The degree meets important educational needs of working professionals and recent college graduates seeking to improve career standing.

The program provides a comprehensive professional degree that balances work in the:

- applications domain
- technical side of the discipline
- theoretical aspects of GIS

Students are exposed to cutting-edge technology, management theory and practice and several societal dimensions associated with the application of GIS technology.

Courses are held evenings and weekends, and the curriculum is highly adaptable to the work environment; thus, the master's is achievable in a one-year time period.

Degree Requirements: 30 credit hours including the required applied project course (GPH 693).

Enrolled students must complete three sequential semesters of course work.

- The first semester, offered during the fall, is composed of six two-credit-hour modules, which are not transferable.
- Students in the spring semester must complete four three-credit-hour courses.
- During the final semester, offered through the eight-week summer session, students must complete a three-credit-hour GIS internship, and a three-credit-hour capstone course.

Admission Requirements: • All applicants must submit the Graduate Education online application.

- In addition to Graduate Education admission standards, prospective students seeking the degree must have successfully completed a bachelor's in a related area with a minimum GPA of 3.00 (4.00 scale) or demonstrate a minimum of three years of related professional experience and the successful completion of a bachelor's degree in an unrelated area as determined by the MAS-GIS steering committee.
- Applicants must submit two letters indicating support from any combination of current or former instructors, supervisors or professionals currently employed within GIS or a related discipline.
- Applicants must prepare a formal, written statement regarding relevant academic experience, professional experience and overall interest in GIS.
- Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Application materials for the coming academic year are accepted and reviewed on a rolling basis until June 30. Applicants are notified of their status within six weeks of receipt of their application materials.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Geography, MA (LAGEOGMA)

Online Degree Search Title: Geography (MA)

Campus: TEMPE

Program Description:

The MA in geography program is designed to offer specialized academic and professional training in geography so the student may secure a sound graduate background for further specialization or for immediate employment. The program has sufficient flexibility to allow for individual needs and the interests of the student. A minimum of 30 credit hours beyond the bachelor's is required. At least 24 credit hours must be in geography.

Degree Requirements: 30 credit hours and a thesis.

The School of Geographical Sciences may consider a student for a traditional master's that includes the successful defense of a thesis. Master's students must complete 30 credit hours, including 24 credit hours of combined course work and research hours at ASU and a six-credit-hour thesis.

The master's program includes two required courses: GCU 529 Geographic Thought and Theory (3) and GCU 585 Advanced Research Methods (3) and additional course work or research hours as selected by the student in consultation with an advisory committee.

Admission Requirements:

Applicants must submit the Graduate Education online application and it must be accompanied by:

- applicant's scores on the GRE (verbal and quantitative)
- current resume
- geography essay questions
- official transcripts from applicant's undergraduate program
- three letters of recommendation from professors

It is presumed that all students entering the master's program have an adequate background in geography, including course work that is the equivalent of GPH 371 Introduction to Cartography and Georepresentation and GCU 495 Quantitative Methods in Geography.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Geography, PHD (LAGEOPHD)

Online Degree Search Title: Geography (PhD)

Campus: TEMPE

Program Description:

The PhD in geography program provides specialized academic and professional training in geographical sciences so the student can secure a sound background for further research and teaching and for immediate employment.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

PhD students entering with a bachelor's must complete 84 credit hours. These hours include 72 credit hours of course work and research at ASU and 12 dissertation hours.

Doctoral students entering with a master's must complete 54 credit hours. These include 42 credit hours of combined course work and research hours at ASU and 12 dissertation hours. The doctoral program includes:

two required courses: GCU 529 Geographic Thought and GCU 585 Advanced Research Methods

two seminars in GCU/GPH 591

additional course work or research hours as selected by the student in consultation with an advisory committee

Admission Requirements:

The School of Geographical Sciences admits students to its doctoral program with either a bachelor's or master's in geography or a related field. We welcome applicants without geography degrees. Incoming students must demonstrate or attain competence in cartography and quantitative methods and complete other basic course work that will enable them to pursue graduate studies in their area of specialization.

Applicants must submit:

- online Graduate Education application
- the applicant's scores on the GRE (verbal and quantitative)
- three letters of recommendation from professors
- geography essay questions
- current resume
- official transcripts from applicant's undergraduate program
- proof of English proficiency, for applicants whose native language is not English (regardless of where they may now reside)

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Geological Sciences, MS (LAGEOSCMS)

Online Degree Search Title: Geological Sciences (MS)

Campus: TEMPE

Program Description:

The MS in geological sciences program is designed to provide fundamental graduate training in geology and to prepare the student for further graduate study, or for certain careers in:

- geochemistry
- geology
- geophysics
- planetary geology
- related fields

Degree Requirements: 30 credit hours and a thesis.

The master's consists of a minimum of 30 credit hours of graduate level course work. The student, with the approval of the advisor and supervisory committee (formed upon enrollment), selects courses that make a coherent program of study. Each program of study must include six hours of thesis credits and 20 or more credit hours of course work other than research and thesis. One-half of the credit hours applicable toward the degree must be in geological sciences courses while the remainder may include work in related fields. In addition, all students in the School of Earth and Space Exploration are required to take two seminars:

GLG 500 SESE Colloquium (1)

GLG 591 Faculty Research Seminar (1)

Thesis Requirements: A research-based thesis is required. The final examination is an oral defense of that thesis.

Admission Requirements:

Students applying for admission to the geological sciences master's program must submit:

- online Graduate Education application
- GRE scores
- a statement of purpose
- three letters of recommendation
- proof of English proficiency, for applicants whose native language is not English (regardless of where they may now reside)

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

The deadline for applications for the fall term is Dec. 15 of the previous year.

Contact Information:

Geological Sciences, PHD (LAGEOSCPHD)

Online Degree Search Title: Geological Sciences (PhD)

Campus: TEMPE

Program Description:

The PhD in geological sciences program is designed to develop creative scholarship and to prepare students for professional careers in geological science fields such as geochemistry, geology, geophysics, planetary geology and related areas.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students may be admitted into the program with a bachelor's or master's in a related field. Up to 30 credit hours of master's-level work in a related field can be accepted toward the fulfillment of the doctoral requirements.

The plan of study for the doctorate is selected with the recommendation of the student's supervisory committee. Each plan of study must include 12 credit hours of dissertation and 25 hours of course work. All students in the School of Earth and Space Exploration are also required to take two seminars:

GLG 500 SESE Colloquium (1)

GLG 591 Faculty Research Seminar (1)

ASU Graduate Education policies and procedures must also be met for admission into the program and for fulfilling the degree requirements.

Comprehensive Examination: Doctoral candidacy is earned on the basis of a written component and an oral component. The written examination is in the form of two written research projects. The oral exam consists of an oral defense of the two projects.

Dissertation Requirements: A dissertation is required that is based on original work demonstrating creativity in research and scholarly proficiency in the subject area.

Final Examination: A final oral examination in defense of the dissertation is required.

Admission Requirements:

Applicants must submit:

- online Graduate Education application
- scores on the GRE
- statement of purpose
- three letters of recommendation

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

The application deadline for fall semester is Dec. 15 of the previous year.

German, MA (LAGERMMA)

Online Degree Search Title: German (MA)

Campus: TEMPE

Program Description:

The faculty in the School of International Letters and Cultures offers graduate programs leading to the MA degree with a major in German. Students admitted to the master's program with a major in secondary education may elect German as their subject matter field.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (GER 593).

The plan of study for the master's includes a minimum of 30 credit hours of graduate-level work and a thesis, as approved by the candidate's supervisory committee. The program must include a 500-level bibliography and research methods course offered by the department. When approved by the candidate's supervisory committee, nine hours in another language or in closely related courses may be included in the program.

Admission Requirements:

- Students interested in applying for this program must submit an online Graduate Education application.
- Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Candidates for the master's should, upon entrance, present the equivalent of an undergraduate major in the language in which the degree is

Academic Catalog Archive 2014-2015 517

sought. Those who lack this background, but who show strong potential and meet Graduate Education admission requirements, may be admitted to a graduate program on a provisional basis, pending removal of specified deficiencies. These deficiencies must be completed in addition to the regular program of study for the master's.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Global Health, MA (LASSHMA)

Online Degree Search Title: Global Health (MA)

Campus: TEMPE

Program Description:

In this MA program, global health is considered to be much more than and very different from international public health. It emphasizes that major health challenges stem from many factors well beyond disease itself — factors that are:

- cultural
- ecological
- evolutionary
- historical
- institutional
- social
- technological

Any effective, sustainable solutions to our most pressing global health challenges will need to take all of these factors into account, including the complex ways in which they relate to each other. In this manner, this degree understands health as not simply a product of disease, but rather emerging in the contexts of our complex and interrelated ecology, politics, history, culture, social institutions and evolutionary biology. It also places primacy on how to address the broader (i.e., structural, cultural) bases of ill health in complicated, ever-changing health challenges in low-resource community settings and a globalizing world. To do this, the degree combines both social and life science theories with on-the-ground research and its application. There is a strong emphasis on collaborative action as key to identifying and addressing global health problems in a sustainable and meaningful way.

Students accepted into the program are tied to ongoing interdisciplinary global health projects that address complicated, multifaceted health challenges that defy easy fixes, such as:

- climate change-related diseases
- emerging infectious diseases
- obesity

Students develop an applied project to contribute to the team goals. By applying a collaborative, problem-solving format, the master's in global health is intended to provide those planning to enter health or related fields (i.e., environmental, social) with the interdisciplinary orientation, team skills, and social and cultural acuity that the Pew Health Professional Consortium inter-alia has identified as critical but lacking in current health workforce training. The degree also emphasizes experiential learning as a way to gain mastery and requires participation in a global internship program based in one of the international partnering communities.

Degree Requirements: 30 Credit Hours including the required applied project course (SSH 593).

All students are required to take the following four foundational courses (12 credit hours):

ASB 500 Ethnographic Field Methods (3)
ASB 503/SSH 503 Medical Anthropology (3)
ASB 510/SSH 510 Health: Social and Biocultural Theories (3)
AML 613 Methods and Concepts in Math Epidemiology OR SSH 591 Principles of Epidemiology for Global Health (3)

Substitutes may be permitted by the graduate director, including individualized research, conference and independent study courses with approved faculty. Additional methods-focused courses or graduate-level epidemiology courses can count toward this requirement.

Students are also required to complete a minimum of six credits of practicum, six credits of electives and six credit hours of an applied project. Applied projects are completed in consultation with a faculty advisor; options include internship, practicum, a research project, scholarly research paper or an outreach project.

All students must maintain a 3.00 (out of 4.00) average GPA on both the iPOS and graduate GPAs per the Graduate Education satisfactory academic progress policy.

Accelerated Degrees:

This degree is also offered as an accelerated degree with Global Health, BA

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit the online Graduate Education application. The application deadline is Dec. 1 for admission in the following fall. There is no spring admission.

In addition to the general requirements for admission to Graduate Education, applicants must also provide:

- a statement of purpose outlining career and educational goals
- a current curriculum vitae or resume
- an optional sample of their written work
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Admission is competitive and based on student academic excellence, additional relevant experience, plus fit to available faculty. Minimum GPA for consideration for admission would normally be 3.50 on a 4.00 scale for the last two years of study leading to the bachelor's. A degree in the social or life sciences (e.g., anthropology, sociology, gender studies, geography, political science), public health, or related fields (nutrition, human biology) is generally expected for applicants. Value will be placed on:

- foreign language skills
- practical, cross-cultural and international experiences
- prior social science and life science research

Global Health, PHD (LASSHPHD)

Online Degree Search Title: Global Health (PhD)

Campus: TEMPE

Program Description:

The PhD in global health draws on the premise that sustainable and satisfying solutions to our most pressing global health challenges requires a sophisticated understanding of how cultural context, social and ecological processes and disease are really related.

The transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. While it leverages the strength in medical anthropology at ASU (including the 15 medical anthropologists on campus), it also takes advantage of a much wider set of skills offered by such fields as medical sociology, demography, human geography and epidemiology. It is designed to train those who anticipate working in transdisciplinary academic settings, medical schools or nonacademic health settings, such as:

- commercial sector

- governmental agencies
- nongovernmental organizations

Some particular thematic foci of the program are:

- biocultural approaches to human coping
- computer-based complexity modeling
- culture and health
- health in the Americas
- indigenous and minority health
- mathematical epidemiology
- nutritional anthropology
- social justice and vulnerable populations
- social networks
- urban and environmental health

The program draws some 80 faculty members from all across the university to consider how cutting-edge social science can be applied to not only understand but also to substantively improve the health of populations. The program favors community-based research and runs collaborative projects in which students are encouraged to gain experience and conduct research, from large U.S. cities to hunter-gatherer communities. Students generally enter the program with a master's in a relevant field.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's in a related field may be granted up to 30 credit hours toward the 84-hour total required for the doctorate. This leaves 30 hours of course work, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned postadmission.

Students entering without a master's must earn an additional 30 hours of graduate credit, produce a research portfolio that is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses and complete degree requirements per the program's satisfactory progress policy.

Admission Requirements:

Students must submit an online Graduate Education application. The application deadline is Dec. 1 for admission in the following fall. There is no spring admission.

In addition to the general requirements for admission to Graduate Education, applicants must also provide:

- statement of purpose outlining career and educational goals
- current curriculum vitae or resume
- optional sample of their written work
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Suitable backgrounds for admission include a master's in the social sciences (such as anthropology or sociology), public health, human biology or related fields. Students entering directly from a bachelor's program should already have completed at least 15 hours of social science and six hours of human biology (or equivalent) at the senior level, and should also have some background in statistics or epidemiology.

Online Degree Search Title: Global Health (Complex Adaptive Systems Science) (PhD)

Campus: TEMPE

Program Description:

The PhD in global health draws on the premise that sustainable and satisfying solutions to our most pressing global health challenges require a sophisticated understanding of how cultural context, social and ecological processes and disease are really related.

The transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. While it leverages the strength in medical anthropology at ASU (including the 15 medical anthropologists on campus), it also takes advantage of a much wider set of skills offered by such fields as medical sociology, demography, human geography and epidemiology. It is designed to train those who anticipate working in transdisciplinary academic settings, medical schools or nonacademic health settings, such as:

- commercial sector
- governmental agencies
- nongovernmental organizations

Some particular thematic foci of the program are:

- biocultural approaches to human coping
- computer-based complexity modeling
- culture and health
- health in the Americas
- indigenous and minority health
- mathematical epidemiology
- nutritional anthropology
- social justice and vulnerable populations
- social networks
- urban and environmental health

The program draws some 80 faculty members from all across the university to consider how cutting-edge social science can be applied to not only understand but also to substantively improve the health of populations. The program favors community-based research and runs collaborative projects in which students are encouraged to gain experience and conduct research, from large U.S. cities to hunter-gatherer communities. Students generally enter the program with a master's in a relevant field.

The complex adaptive systems science doctoral concentration trains the next generation of scientists in advanced concepts and methods needed for approaching diverse phenomena in the social and life sciences. The program is tightly integrated with diverse, ongoing, university-wide research on complex adaptive systems perspective at Arizona State University and emphasizes the value of a complex adaptive systems science perspective to give better insight and a more active role in seeking solutions to a broad array of critical issues facing our society today. Students will be fluent in the common language of complexity while also receiving a solid foundation in the domain knowledge of existing academic disciplines.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Students entering with a master's in a related field may be granted up to 30 credit hours toward the 84-hour total required for the program. This leaves 30 hours of course work, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned postadmission.

Students entering without a master's must earn an additional 30 hours of graduate credit, produce a research portfolio that is formally evaluated by a faculty committee and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in complex adaptive systems science, 12 credit hours will be selected from an approved list of applicable courses related to complexity.

Student doctoral dissertations should include the application of complex adaptive systems concepts and methods in their field of study, and typically will have a member of the complex adaptive systems science graduate faculty as a member of their doctoral supervisory committee.

Admission Requirements:

Students must submit an online Graduate Education application. The application deadline is Dec. 1 for admission in the following fall. There is no spring admission.

In addition to the general requirements for admission to Graduate Education, applicants must also provide:

- statement of purpose outlining career and educational goals
- current curriculum vitae or resume
- optional sample of their written work
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work, with a minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's bachelor's degree program

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Suitable backgrounds for admission include a master's in the social sciences (such as anthropology or sociology), public health, human biology or related fields. Students entering directly from a bachelor's program should already have completed at least 15 hours of social science and six hours of human biology (or equivalent) at the senior level and should also have some background in statistics or epidemiology.

Global Health (Culture and Health), PHD (LASSHCHPHD)

Online Degree Search Title: Global Health (Culture and Health) PHD

Campus: TEMPE

Program Description:

The PhD in global health draws on the premise that sustainable and satisfying solutions to our most pressing global health challenges require a sophisticated understanding of how cultural context, social and ecological processes and disease are really related.

The transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. While it leverages the strength in medical anthropology at ASU (including the 15 medical anthropologists on campus), it also takes advantage of a much wider set of skills offered by such fields as medical sociology, demography, human geography and epidemiology. It is designed to train those who anticipate working in transdisciplinary academic settings, medical schools or nonacademic health settings, such as:

- commercial sector
- governmental agencies
- nongovernmental organizations

Some particular thematic foci of the program are:

- biocultural approaches to human coping
- computer-based complexity modeling
- culture and health
- health in the Americas
- indigenous and minority health
- mathematical epidemiology
- nutritional anthropology
- social justice and vulnerable populations
- social networks
- urban and environmental health

The program draws some 80 faculty members from all across the university to consider how cutting-edge social science can be applied to not only understand but also to substantively improve the health of populations. The program favors community-based research and runs collaborative projects in which students are encouraged to gain experience and conduct research, from large U.S. cities to hunter-gatherer communities. Students generally enter the program with a master's in a relevant field.

The concentration in culture and health provides focused, specialized training in theories and methods for researching the relationship between culture and health. This concentration utilizes the perspectives of medical anthropology and sophisticated ethnographic methods to study and interpret the role of cultural and social differences in shaping health. Students investigate these methods in the context of the community-based, participatory approaches that tend to promote the most mutually meaningful and lasting health solutions. Graduates are thus particularly prepared

for leadership in addressing health disparities in cross-cultural settings and with the most vulnerable populations. This includes very complex, difficult settings where particularly nuanced and sophisticated (often anthropological) understandings of health-related challenges are needed.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's in a related field may be granted up to 30 credit hours toward the 84-hour total required for the doctorate. This leaves 30 hours of course work, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned post-admission.

Students entering without a master's must earn an additional 30 hours of graduate credit, produce a research portfolio that is formally evaluated by a faculty committee, and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in culture and health, 15 credit hours will be selected from an approved list of applicable courses.

Admission Requirements:

Applicants must submit an online Graduate Education application. The application deadline is Dec. 1 for admission in the following fall. There are no spring admissions.

In addition to the general requirements for admission to Graduate Education, applicants must also provide:

- statement of purpose outlining career and educational goals
- current curriculum vitae or resume
- optional sample of their written work

Global Health (Evolutionary Global Health Sciences), PHD (LASSHEPHD)

Online Degree Search Title: Global Health (Evolutionary Global Health Sciences) PhD

Campus: TEMPE

Program Description:

The PhD in global health draws on the premise that sustainable and satisfying solutions to our most pressing global health challenges require a sophisticated understanding of how cultural context, social and ecological processes and disease are really related.

The transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. While it leverages the strength in medical anthropology at ASU (including the 15 medical anthropologists on campus), it also takes advantage of a much wider set of skills offered by such fields as medical sociology, demography, human geography and epidemiology. It is designed to train those who anticipate working in transdisciplinary academic settings, medical schools or nonacademic health settings, such as:

- commercial sector
- governmental agencies
- nongovernmental organizations

Some particular thematic foci of the program are:

- biocultural approaches to human coping
- computer-based complexity modeling
- culture and health
- health in the Americas
- indigenous and minority health
- mathematical epidemiology
- nutritional anthropology
- social justice and vulnerable populations
- social networks
- urban and environmental health

The program draws some 80 faculty members from all across the university to consider how cutting-edge social science can be applied to not only understand but also to substantively improve the health of populations. The program favors community-based research and runs collaborative projects in which students are encouraged to gain experience and conduct research, from large U.S. cities to hunter-gatherer communities. Students generally enter the program with a master's in a relevant field.

The concentration in evolutionary global health sciences requires training in universal principles of research design (from experiments to systematic qualitative and quantitative description), data analyses, methods (quantitative and qualitative), and anthropological interpretation (or the identification of determinants of the origins and distribution of health phenotypes in past and present human populations). Students will choose from a wide range of data collection and inferential tools in order to address specific questions, through a combination of lecture and guided reading courses designed to master the highly diverse literature in evolutionary global health sciences that best pertains to their career goals.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's in a related field may be granted up to 30 credit hours toward the 84-hour total required for the doctorate. This leaves 30 hours of course work, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned postadmission.

Students entering without a master's must earn an additional 30 hours of graduate credit, produce a research portfolio that is formally evaluated by a faculty committee and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a 3.20 (out of 4.0) average GPA in their courses, and complete degree requirements per the program's satisfactory progress policy.

The doctoral program in global health with a concentration in evolutionary global health sciences requires the following:

Core courses (10 credit hours)

SSH 510 Health: Social and Biocultural Theories (3)

SSH 513 Research Design and Proposal Writing in Health Social Science (3)

SSH 502 Professional Seminar in Global Health (1)(x4) or approved equivalent

Concentration courses (16 credit hours)

ASB 500 Ethnographic Research Methods (3)

ASM 560 Human Growth and Development: An Evolutionary Perspective (3)

ESS 513 Institutions (3)

SSH 503 Advanced Medical Anthropology (3)

SSH/ASM 514 Infectious Disease and Human Evolution (4)

Elective courses

ASB 510/SSH 510 Health - Social and Biocultural Theories

ASB 537 OR ASM 591 Topics in Mesoamerican Archeology OR Human Growth and Development

ASM 546 Principles of Human Genetics

Other relevant electives from SHESC, SOLS, etc.

Substitutes to required courses may be permitted by the graduate director, including individualized research, conference, or independent study courses with approved faculty.

Admission Requirements:

Applicants must submit an online Graduate Education application. The application deadline is Dec. 1 for admission in the following fall. There is no spring admission.

In addition to the general requirements for admission to Graduate Education, applicants must also provide:

- statement of purpose outlining career and educational goals
- current curriculum vitae or resume
- an optional sample of their written work
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work, with a minimum cumulative GPA of 3.0 (scale is 4.00=A) in the last 60 hours of a student's bachelor's degree program

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Suitable backgrounds for admission include a master's in the social sciences (such as anthropology or sociology), public health, human biology or related fields. Students entering directly from a bachelor's program should already have completed at least 15 hours of social science and six hours of human biology (or equivalent) at the senior level, and should also have some background in statistics or epidemiology.

Global Health (Urbanism), PHD (LASSHURPHD)

Online Degree Search Title: Global Health (Urbanism) PhD

Campus: TEMPE

Program Description:

The PhD in global health draws on the premise that sustainable and satisfying solutions to our most pressing global health challenges require a sophisticated understanding of how cultural context, social and ecological processes, and disease are really related.

The transdisciplinary graduate program trains students broadly in cutting-edge health social science research theory and methods. While it leverages the strength in medical anthropology at ASU (including the 15 medical anthropologists on campus), it also takes advantage of a much wider set of skills offered by such fields as medical sociology, demography, human geography and epidemiology. It is designed to train those who anticipate working in transdisciplinary academic settings, medical schools or nonacademic health settings, such as:

- commercial sector
- governmental agencies
- nongovernmental organizations

Some particular thematic foci of the program are:

- biocultural approaches to human coping
- computer-based complexity modeling
- culture and health
- health in the Americas
- indigenous and minority health
- mathematical epidemiology
- nutritional anthropology
- social justice and vulnerable populations
- social networks
- urban and environmental health

The program draws some 80 faculty members from all across the university to consider how cutting-edge social science can be applied to not only understand but also to substantively improve the health of populations. The program favors community-based research and runs collaborative projects in which students are encouraged to gain experience and conduct research into societies from large U.S. cities to hunter-gatherer communities. Students generally enter the program with a master's in a relevant field.

The concentration in urbanism will leverage the varied interests in urbanism and help emerging scholars as they attempt to compare, contrast and take stock of urbanism as it pertains to the thematic foci of the program. Working with faculty from across a range of departments and programs at ASU, doctoral students will be able to capture the creative tensions that scholarship on urbanism has inspired in order to stimulate a provocative,

constructive kind of inquiry.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Students entering with a master's in a related field may be granted up to 30 credit hours toward the 84-hour total required for the doctorate. This leaves 30 hours of course work, 12 hours of research credit and 12 hours of dissertation credit (54 credit hours total) to be earned postadmission.

Students entering without a master's must earn an additional 30 hours of graduate credit, produce a research portfolio that is formally evaluated by a faculty committee and present that research in a public forum before continuing on in the later stage of the doctorate.

All students must maintain a 3.20 (out of 4.00) average GPA in their courses and complete degree requirements per the program's satisfactory progress policy.

For the concentration in urbanism, 15 credit hours will be selected from an approved list of applicable courses related to urbanism. These courses will include the core urbanism course, GCU 516 (three credit hours) as well as one course from each of the four urbanism clusters. These clusters are:

- built form
- culture and society
- institutions and governance
- natural environment

Admission Requirements:

Applicants must submit an online application to Graduate Education. The application deadline is Dec. 1 for admission in the following fall. There is no spring admission.

In addition to the general requirements for admission to Graduate Education, applicants must also provide:

- statement of purpose outlining career and educational goals
- current curriculum vitae or resume
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work

Students may also submit an optional sample of their written work.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Suitable backgrounds for admission include a master's in the social sciences (such as anthropology or sociology), public health, human biology or related fields. Students entering directly from a bachelor's program should already have completed at least 15 hours of social science and six hours of human biology (or equivalent) at the senior level, and should also have some background in statistics or epidemiology.

History, MA (LAHISTMA)

Online Degree Search Title: History (MA)

Campus: ONLNE, TEMPE

Program Description:

The faculty in history offer a graduate program leading to the MA in history. Candidates are offered an opportunity to develop knowledge of a specific historical field, to study comparative history and to learn research methods.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (HST 593 or HST 692).

A minimum of 30 credit hours of graduate studies are required for a master's in history: 24 credit hours of course work, plus six credit hours of

thesis research credits (HST 599). The thesis equivalent option substitutes six credit hours of HST 592 Research or HST 593 Applied Project in place of the six credit hours of HST 599 and requires as well an additional three credit hours of HST 591 Seminar (six total instead of three) in the 30 credit hours of the plan of study. See website for more information. With the approval of the supervisory committee, candidates may take up to six credit hours of closely related interdisciplinary course work in another academic unit.

Master's students select a primary field and a research specialization. Available primary fields include:

- East or Southeast Asia
- Europe
- Latin America
- North America
- public history (Note: public history students pursue a double concentration, e.g., public history and North American history, or public history and European history. For public history information and requirements see <http://shprs.clas.asu.edu/public-history> (<http://shprs.clas.asu.edu/public-history>))

Advising: At the beginning of the first semester of study, the student, in consultation with the graduate director, selects a faculty advisor who will help direct the student to the completion of the required course work and thesis. Normally, the advisor is selected, at least tentatively, prior to enrollment or within the first six weeks of the fall semester. The faculty advisor helps the student select the other two members of the supervisory committee and together they develop the plan of study. The advisor, with the candidate, is primarily responsible for determining the plan of study, selecting the topic of the thesis or of the thesis equivalent, and guiding the student's research. The second and third committee members must be selected by the time the program of study is submitted at the end of the first year.

Thesis: The culminating experience of the master's degree program is the writing, presentation and defense of a thesis or thesis-equivalent based on original research. The thesis, an extended essay of approximately 100 pages, addresses a topic chosen by the student in consultation with the faculty advisor who serves as chair of the supervisory committee. The thesis explores a limited subject in depth, analyzing, explaining and drawing conclusions from the information gleaned from primary and secondary sources. The thesis thereby demonstrates the student's ability to:

- analyze and argue points cogently
- do research in the primary sources of the field
- organize and develop a topic
- survey and synthesize the relevant secondary literature on the topic
- write proficiently

Accelerated Degrees:

This degree is also offered as an accelerated degree with History, BA

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements: • Online electronic application: Applicants must submit an online Graduate Education application. Students apply for admission to Graduate Education and to a degree program (e.g., the master's in history). The history program is affiliated with several graduate certificate programs, including scholarly publishing and medieval and renaissance studies. Students applying for admission to the master's program in history and a certificate program, such as the scholarly publishing certificate program, are required to submit two separate applications (for the degree program and for the certificate program).

Transcripts: Should be mailed to Graduate Education at the address shown here. It is not necessary to mail transcripts to the history program.

- GRE scores: A report of the scores received on the GRE must be submitted to Graduate Education. Scores should be no more than five years old.
- Letter of application: Addressed to the history admission committee explaining the applicant's scholarly background and training, career goals, the primary field the student wishes to pursue, the proposed research specialization, and why the applicant wants to pursue graduate study at ASU (about 500 words in length).
- Resume: Upload into online application.
- Data form: Please download the form to a desktop and upload into the online application.
- Writing sample: A sample of the applicant's written work should be submitted electronically. The writing sample may be an article (published or unpublished), a research paper, or any other extended sample of expository skill no longer than 35 pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents and files should not be password protected. Acceptable file types are .rtf, .pdf, and .doc.
- Assistantship application: Application form for a graduate assistantship, if desired, can be downloaded.
- References: Students are required to submit a minimum of three email addresses from faculty or others qualified to speak of the student's suitability for graduate study in history.
- International Students: Students applying from outside the U.S. whose native language is not English must follow Graduate Education guidelines demonstrating English language proficiency. The Graduate Education's minimum Test of English as a Foreign Language (TOEFL) score is 550; however, the history program requires a score of at least 600. Students whose original language is other than English must send a copy of an article or research paper in their native or principal research language in addition to the English writing sample required of all students. Prospective international students applying for teaching assistant positions must achieve a score of 55 or higher on the Test of Spoken English (TSE) or

Speaking Proficiency English Assessment Kit (SPEAK).

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

History, PHD (LAHISTPHD)

Online Degree Search Title: History (PhD)

Campus: TEMPE

Program Description:

The PhD in history offers doctoral students the opportunity to study past and contemporary civilizations and to learn research methods and professional writing strategies for use in diverse applications, including:

- business
- historical societies and agencies
- leading academic institutions
- the public sector

Areas of major emphasis include:

- competence in historical research methodology
- developing skills in scholarly analysis
- obtaining expertise in a chosen historical subject area

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

The doctoral degree requires 84 total credit hours beyond the bachelor's. Students with a master's in history are allowed to apply 30 credit hours of that degree toward the 84 total credit hours required for the doctoral program. 60 credit hours must be in history courses and must meet the following requirements:

- Fifty-four credit hours must be taken in residence at ASU.
- In general, all credit hours must be at the 500 level or above (graduate credit for 400-level courses must be approved in advance and documented in the student's file).
- At least nine credit hours must be taken in the primary field and six credit hours in the secondary field. These will normally be HST 598 or HST 591 courses but may include directed readings, HST 790.
- Nine credit hours must be taken of HST 591 research seminars. Only one seminar is transferable from a master's.
- Six credit hours must be taken in core field courses for U.S. and European majors only.
- Three credit hours of HST 500 Historical Theory and Methodology are required during the first year.
- Twenty-four credit hours must be taken in dissertation research, 12 credit hours each of HST 792 and HST 799.

Students must select a primary field, a secondary field and a research specialization. There is a written qualifying exam in the primary field and a portfolio defense for the secondary field. The dissertation is written in the area of the research specialization.

Advanced Research Skill Requirement: Doctoral students must also demonstrate proficiency in one or more foreign languages relevant to their fields of study and possibly an advanced research skill relevant to their dissertation research (e.g., oral history, geographic information systems, documentary editing, statistical analysis or methodological-theoretical training in a related discipline).

Advising: For guidance through the program, students select a supervisory committee of at least three faculty members, with the student's advisor serving as committee chair. Students also select a separate secondary field committee to evaluate their secondary field portfolio. The primary field qualifying examination is administered by an ad hoc committee composed of professors who have taught the core courses in that field. The dissertation prospectus and dissertation are evaluated by the supervisory committee.

Dissertation: The culminating experience for the doctoral program in history is the dissertation. Approximately 250-300 pages in length, it must be

an original contribution to knowledge and demonstrate the candidate's proficiency in independent research and historical exposition. The research topic is chosen by the student in consultation with the faculty advisor who serves as chair of the supervisory committee.

Admission Requirements: • strong>Online electronic application: Applicants must submit an online Graduate Education application. Students apply for admission to Graduate Education and to a degree program (e.g., the PhD in history). The history program is affiliated with several graduate certificate programs, including scholarly publishing and medieval and renaissance studies. Students applying to the doctoral program in history as well as one of these certificate programs must submit two separate applications (for the degree program and for the certificate program).

- strong>Official transcripts: Should be submitted to Graduate Education. It is not necessary to mail transcripts to the history program.
- strong>GRE scores: A report of the scores received on the GRE must be submitted to Graduate Education. Scores should be no more than five years old.
- strong>Letter of application: Addressed to the history review committee explaining the applicant's scholarly background and training, career goals, the primary and secondary fields of study the student wishes to pursue, proposed research specialization, and why the applicant wants to pursue graduate study at ASU (about 500 words in length).
- strong>Resume: Upload into online application.
- strong>Data form: Please download the form to a desktop and upload into the online application.
- strong>Writing sample: A sample of the applicant's written work should be submitted electronically. The writing sample may be an article (published or unpublished), a research paper or any other extended sample of expository skill, no longer than 35 pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents should not be password protected. Acceptable file types are .rtf, .pdf, and .doc. Files should not be password protected.
- strong>Assistantship application: Application form for a graduate assistantship, if desired, can be downloaded at http://graduate.asu.edu/sites/default/files/TA-RA_AssistantshipApplication.pdf (http://graduate.asu.edu/sites/default/files/TA-RA_AssistantshipApplication.pdf target="_blank"). The form should be emailed to: graduate.history@asu.edu (<mailto:graduate.history@asu.edu>). See special requirements below for international students applying for graduate assistantships.
- strong>References: Students are required to submit a minimum of three email addresses from faculty or others qualified to speak to the student's suitability for graduate study in history.*
- strong>International students: Applicants whose native language is not English (regardless of where they may now reside) must follow Graduate Education guidelines demonstrating English language proficiency. See <http://graduate.asu.edu/admissions/international> (<http://graduate.asu.edu/admissions/international>). The Graduate Education minimum Test of English as a Foreign Language (TOEFL) score is 550; however, the history program requires a score of at least 600. Students whose original language is other than English must send a copy of an article or research paper in their native or principal research language in addition to the English writing sample required of all students.

*Referees will be contacted by Graduate Education, with a request to complete a reference questionnaire.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

History and Philosophy of Science, PHD (LAHPSCIPHD)

Online Degree Search Title: History and Philosophy of Science (PhD)

Campus: TEMPE

Program Description:

This degree combines solid training in the core areas of philosophy with an emphasis on interdisciplinary studies of the sciences and:

- conceptual structure
- epistemology
- history
- impacts on society

The strength of ASU's history and philosophy of science program is to bring philosophy, history and the study of science together. This degree program is especially appropriate for students with a background in philosophy who seek to broaden their disciplinary studies with a historical perspective.

Applicants will typically come from undergraduate programs that have included philosophical, historical, or history and philosophy of science training, or they will hold a master's degree in one of those fields. Science students are eligible as well, and will make up relevant undergraduate humanistic core courses during their first years. Most graduates will seek a career based in philosophical or historical analyses of the sciences.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.
six credit hours of required core courses
at least 30 credit hours of restricted program electives
at least 24 credit hours of program electives
12 credit hours of research HPS 792
12 credit hours of HPS 799 Dissertation

Admission Requirements: • online Graduate Education application

- minimum of a bachelor's degree (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing in a related field such as: history, philosophy, or history and philosophy of science, as well as a demonstrated background and interest in one or more sciences
 - minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's bachelor's degree program
 - GRE test scores
 - Test of English as a Foreign Language (TOEFL) test scores for applicants whose native language is not English
- <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Human and Social Dimensions of Science and Technology, PHD (GCHSDSTPHD)

Online Degree Search Title: Human and Social Dimensions of Science and Technology (PhD)

Campus: TEMPE

Program Description:

This program prepares students to teach and conduct research on the conceptual, historical, social and policy foundations of science and technology, as well as their interactions with society, using humanistic and social science methods.

The PhD in human and social dimensions of science and technology responds to growing demand for interdisciplinary research in the humanities and social sciences that can provide insights into the dynamic relationship between science, technology and society. Solutions to the problems of applying science and technology to human well-being can only be found by fully integrating research from across many social science and humanities disciplines.

The program is flexible, combining a strong, integrated, first-year experience with substantial freedom for students, in conjunction with their advisors, to design carefully crafted plans of study relevant to their own areas of specialization and expertise. Unique among programs of this kind nationally, students will also learn to communicate and work with scientists, engineers, policymakers, business and community officials, or the public in conducting and applying research.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

This is a research degree, culminating in a dissertation, which must draw on multiple disciplinary perspectives.

Students may apply up to 30 hours from a prior master's toward the total hour requirement upon approval of the steering committee. Each student, with his or her supervisory committee, develops a unique plan of study, which the student's supervisory committee approves.

Each student completes a yearlong core seminar, a second-year research project, two major fields, one minor field, methods training, electives and research. Students also regularly attend the program colloquia. There are no foreign language or statistics requirements, except as needed for a particular student's selected dissertation project.

Comprehensive Examination

The written dissertation prospectus and its oral defense constitute the written and oral comprehensive examinations required by Graduate Education for advancement to candidacy. Each student develops a written dissertation prospectus, including a bibliography and discussion of

relevant research skills. The student makes an oral defense of the dissertation prospectus to his or her supervisory committee, which must approve the prospectus. Students normally complete the dissertation prospectus and its defense in the fifth semester.

Dissertation

The dissertation represents an original body of research that contributes to existing knowledge in a significant way.

Final Examination

Upon completing the dissertation, the student makes an oral defense of the dissertation to the supervisory committee, which must approve the dissertation. The doctorate is granted upon successful completion of the oral defense and any revisions to the dissertation required by committee members.

Admission Requirements:

Applicants must submit an online Graduate Education application.

Preference is given to students with demonstrated interest and competence in relevant areas of intellectual work. All students must hold an undergraduate degree from a regionally accredited institution or university of recognized standing at the time of admission and have a minimum GPA of 3.00 on a 4.00 scale for the last 60 semester hours of undergraduate work.

The doctoral program admits one cohort annually for plans of study that begin in the fall semester. The application deadline is Dec. 15 for students wishing to begin a plan of study the following August. There is no guarantee that applications received after Dec. 15 will be reviewed.

To apply to the program, applicants are required to submit:

- an online ASU Graduate Education application
- official transcripts of all undergraduate and graduate course work
- the HSD academic record form
- a curriculum vitae or resume
- a statement of proposed research program that clearly identifies why the student feels ASU is the appropriate place to pursue their doctorate and identifies one or more faculty members whose interests or work are relevant to the student's proposed research
- a writing sample
- general GRE scores
- three academic letters of recommendation
- proof of English language proficiency*

*Applicants whose native language is not English must provide proof of English proficiency (regardless of where they may now reside) with one of the following:

- TOEFL score of 600 paper-based or 100 Internet-based
- IELTS overall band score of at least 6.5 with no band below 6.0
- Pearson Test of English (PTE) score of at least 60

Regular admission may be granted to applicants who meet Graduate Education admission requirements.

Students must fulfill the requirements of both Graduate Education and the College of Liberal Arts and Sciences.

Immigration Studies (certificate), Certificate (LAIMMSTUCE)

Online Degree Search Title: Immigration Studies (Grad Certificate)

Campus: TEMPE

Program Description:

The immigration studies graduate certificate program provides students with an understanding of the causes and consequences of international migration as well as relevant professional and research training opportunities.

The program prepares graduates for future study in graduate and professional schools or for careers as immigration practitioners and advocates in nongovernmental organizations, local and federal government agencies, as well as in other private and public institutions serving immigrant and

Academic Catalog Archive 2014-2015 531

refugee communities.

The objective of the certificate program is to offer traditional academic training through course work, research and practical experience working with local immigrant and refugee communities.

Degree Requirements: 15 credit hours.

The certificate consists of 15 total credit hours. All students will be required to take:

one core course

three approved elective courses on immigration

three hours of a culminating experience (either an internship or a research project)

For a list of approved courses, please contact the school.

Internship: Students may do an internship with Phoenix-based, nongovernmental organizations or government agencies that provide services to immigrants and refugees. Such internships will give students professional training and actual experience working with immigrant and refugee communities. Students will be required to write a report describing the organization and their experience as interns.

Research: Students may enroll in three credits of research with a faculty member in order to do an independent research project. They must write a substantial research paper based on field research in a local immigrant community, library and archival research, or readings on an immigration topic.

Certificate students may choose to specialize in:

- humanities
- Mexican and Latino immigrants in the U.S.
- social sciences

Given the nature of the immigration courses offered at ASU and the preponderance of Latino immigrant communities in the Phoenix area, the program emphasizes Latino immigration. However, students will have the opportunity to take broader courses focusing on global migration and other immigrant groups, as well as work with local Asian or Southeast Asian immigrants and refugee communities.

For students currently enrolled in an ASU graduate degree program, applicable certificate courses may count toward their degree program with the approval and consent of the degree granting program. For certificate students who are later admitted to an ASU graduate degree program, up to 12 credit hours from the certificate program may count toward their doctoral degree or up to 12 credit hours may count toward their master's, with the approval and consent of the degree-granting program.

All requirements for the certificate program should be completed within a three-year time limit with a cumulative grade point average of at least 3.00. Students who require more time to finish the program (because of their part-time status or lack of desirable or available courses) must obtain approval from the executive committee.

Admission Requirements:

Students must submit an online application to Graduate Education. The application deadline is Dec. 1 for admission in the following fall. There is no spring admission. In addition to the general requirements for admission to the Graduate Education office, applicants must also provide:

- a current curriculum vitae or resume
- a statement of purpose outlining career and educational goals
- an optional sample of their written work
- official GRE scores
- three letters of recommendation
- transcripts of all undergraduate and graduate course work

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Infant Family Practice, MAS (LACDEMAS)

Online Degree Search Title: Infant - Family Practice (MAS)

Campus: TEMPE

Program Description:

This self-contained accelerated program provides high-quality course work and supervised internship experiences designed to train professionals to work in prevention and intervention programs serving families with infants, toddlers and preschool-age children.

The program prepares individuals for positions in a variety of professional capacities including:

- child abuse prevention
- early childhood administration
- early intervention
- family support and child care
- infant mental health

Course work prepares students for professional endorsement by the Infant-Toddler Mental Health Coalition of Arizona's Endorsement for Culturally Sensitive, Relationship-Based Practice Promoting Infant Mental Health.

Degree Requirements: 30 credit hours and a portfolio.

The MAS in infant-family practice requires the successful completion of a minimum of 30 credit hours, and an applied project, including required course work and an internship in a community placement approved by the master's in infant-family practice faculty. Internships are expected to last approximately 12 months. Students must maintain a GPA of 3.00 in all course work and satisfactorily meet the expectations of the agency supervising their internship.

Foreign Language Requirements: None

Thesis Requirements: None

GRE Scores: GRE scores are waived for this program.

Admission Requirements:

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Admission to the program is determined by the following criteria:

- online Graduate Education application
- a personal statement
- official transcripts of the student's academic record
- three letters of recommendation from individuals familiar with the applicant's academic background
- proof of English proficiency, for applicants whose native language is not English (regardless of where they may now reside)

Additionally, candidates are sometimes contacted for an interview.

International Letters and Cultures, PHD (LAILCPHD)

Online Degree Search Title: International Letters and Cultures

Campus: TEMPE

Program Description:

The PhD in international letters and cultures degree provides research and training that is linguistically well-grounded, historically and culturally informed, and methodologically transdisciplinary. Central to the program is the critical inquiry of primary documents from a variety of media across

multiple languages, aiming at a deep understanding of the development of cultures through history. Students in the program must focus on research questions and themes that cannot be fully explored within the traditional disciplinary boundaries. The program fosters dynamic scholarly collaboration across disciplines in order to engage in the production of knowledge crucial to understanding transnational and transcultural phenomena from antiquity to the present.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

core course credit hours: (12)

restricted elective course credit hours:

primary field of study (18)

secondary field of study (18)

other requirements:

elective/research credit hours (12)

foreign language credit hours (12)

culminating experience:

Dissertation (SLC 799) (12)

Overall required credit hours: 84

Admission Requirements:

The program requires a minimum of a bachelor's degree in the humanities or social sciences. A condition of admission to the program is advanced competency in English and in the language of primary emphasis, i.e., the language of most of their course work and of most of the primary materials for their dissertation. Students must also have competency in a third language, either upon application to the program or to be acquired in the course of the program. Students whose bachelor of arts is not in foreign language must demonstrate proficiency by submitting a writing sample in the language of primary emphasis (and of secondary emphasis, if applicable) and an instructor's letter addressing their competency.

Applicants must submit:

- the Graduate Education online application form

- a personal statement summarizing the applicant's educational background and goals
- a writing sample in English (five pages minimum)
- three letters of recommendation

GPA: Minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's first bachelor's degree program and 3.30 or better in the last two years of work leading to the bachelor's degree.

English Proficiency Requirement for International Applicants:

The minimum TOEFL score required is 550 (PBT) or 80 (iBT). Applicants whose native Language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Justice Studies, MS (LAJUSSTMS)

Online Degree Search Title: Justice Studies (MS)

Campus: TEMPE

Program Description:

The MS in justice studies is designed to prepare students for:

- further study and research in the justice field
- professional positions in justice-related organizations
- teaching in community colleges

Students use elective courses to develop a specialization in an area relevant to their own interests and consistent with the school's focus on the following areas:

- citizenship, migration and human rights
- globalization, sustainability and economic justice
- law, policy and social change
- media, technology and culture
- social identities and communities

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (JUS 593).

The master's program has two options: a thesis or an applied project.

Thesis option

The thesis option requires the completion of 30 credit hours and six of these credit hours are JUS 599 Thesis. To satisfy the thesis requirement for the degree, candidates must write a thesis and defend it in an oral examination conducted by the student's advisory committee.

Applied project option

The applied project option requires the completion of 30 credit hours, and six of these credit hours are JUS 593 Applied Project. Candidates pursuing the applied project option must present their applied project and defend it in an oral examination conducted by the faculty member who supervises the project and the graduate programs director or designated representative. The applied project typically includes a brief literature review to identify the nature of the issue or problem and a description of the methodology used and, if relevant, of the program studied, followed by an analysis.

Each student's program is developed in concert with the advisory committee. The program has three major categories: foundation courses, elective courses, and thesis and applied project requirements.

The required foundation courses provide students with a fundamental understanding of the theories, methods and analytic techniques associated with the study of justice. The foundation courses include:

- JUS 500 Justice Research Methods (3)
- JUS 501 Justice Theory (3)
- JUS 509 Statistical Problems in Justice Research (3)
- JUS 521 Qualitative Data Analysis and Evaluation (3)

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Justice Studies, BS
- Justice Studies, BA

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

All applicants must submit the Graduate Education online application and upload these additional items through the online application process by Dec. 14.

- personal statement (one-and-a-half to two pages, double spaced) outlining areas of interest, educational and career goals
- three letters of reference*
- a writing sample, 10-15 pages (research that best represents the student's academic thinking and writing skills)

*Academic references are preferred.

Also required:

Language proficiency: Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Transcripts: Send one set of official transcripts from every college and university from which a bachelor's degree or higher was earned to Graduate Enrollment Services.

Please see the ASU Graduate Education website for mailing addresses and further admission information.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Justice Studies, PHD (LAJUSSTPHD)

Online Degree Search Title: Justice Studies (PhD)

Campus: TEMPE

Program Description:

The doctoral program in justice studies is an interdisciplinary degree program offered through the auspices of Justice and Social Inquiry in the School of Social Transformation. The program integrates philosophical, legal and ethical approaches with social science and humanities perspectives to study five areas of interest:

- citizenship, migration and human rights
- globalization, sustainability and economic justice
- law, policy and social change
- media, technology and culture
- social identities and communities

Justice and Social Inquiry is recognized as a leader in the interdisciplinary study of justice and a pioneer in the establishment of a full-fledged program in the field.

The PhD/JD option allows qualified students to earn a Juris Doctor from ASU's Sandra Day O'Connor College of Law while simultaneously earning an interdisciplinary doctoral degree in justice studies. Students must apply separately to both programs.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Students in the doctoral program must complete three foundation courses as a part of the course work for the doctoral degree in justice studies. Students must earn a grade of "B" (3.00) or higher in each of the foundation courses:

JUS 620 Justice Research Methodology (3)

JUS 630 Data Analysis for Justice Research (3) or JUS 650 Advanced Qualitative Data Analysis (3)

JUS 640 Theoretical Perspectives on Justice (3)

Students entering the doctoral program with a master's or JD are required to complete 54 credit hours:

- Eighteen credit hours are comprised of any combination of additional elective courses, reading or conference hours, or research hours.
- Fifteen credit hours are elective classroom hours; nine credit hours must have a JUS prefix.
- Nine credit hours are PhD core courses.
- Twelve credit hours are earned as dissertation research.

Students entering the doctoral program without a master's or JD are required to complete 84 credit hours:

- Nine credit hours are required doctoral courses.
- Twelve credit hours are earned as dissertation research credit.
- Twenty credit hours are 500-level foundation courses.
- Twenty-four credit hours are elective classroom hours fifteen credit hours must have a JUS prefix.
- Twenty-seven credit hours are comprised of any combination of additional elective courses, reading and conference hours or research hours.

Concurrent Degrees:

This degree is also offered as concurrent degree with Juris Doctor (JD)

Admission Requirements:

All applicants must submit the Graduate Education online application and upload additional items. Applicants must upload the following items through the online application process by Dec. 14:

- a personal statement (one-and-a-half to two pages, double-spaced) outlining areas of interest, educational and career goals
- three letters of reference (academic references are preferred)
- a writing sample, 10-15 pages (research that best represents the applicant's academic thinking and writing skills)

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Liberal Studies, MLSt (LAMLSMLS)

Online Degree Search Title: Liberal Studies (MLSt)

Campus: ONLNE, TEMPE

Program Description:

The MLSt offers students interested in a multidisciplinary approach to human ideas and values an opportunity to expand their liberal arts backgrounds. The program is intended for students seeking a graduate degree that explores the integration of the humanities with political, religious, social and scientific questions within their cultural contexts. The program connects students to the entire College of Liberal Arts and Sciences and integrates the disciplines.

Degree Requirements: 30 credit hours including the required applied project course (MLS 593).

Students are required to take three core classes, six electives and an applied project. We offer four core classes and students select any three of the four offered.

Core courses

MLS 501 Writing About Social Issues (3)

MLS 502 Religion, Health and Culture (3)

MLS 503 Ethics, Science and Culture (3)

MLS 504 Film and Media Studies (3)

Electives

Eighteen hours of electives, no more than nine in the same department.

Emphasis areas available:

- borders: migration, health and cultural identity
- gender, religion and culture
- science, nature and creative nonfiction writing

Admission Requirements:

Applicants must submit:

- an online Graduate Education application
- a letter of interest in the program
- a resume, biographical statement or curriculum vitae

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Linguistics (certificate), Certificate (LALINGUICE)

Online Degree Search Title: Linguistics (Grad Certificate)

Campus: TEMPE

Program Description:

This interdisciplinary graduate certificate in linguistics offers students in several fields the opportunity to gain an understanding of the way in which languages are structured, how they are acquired and how they vary over time, space, social distance and situational contexts.

The skills acquired through the completion of the core courses for this certificate include:

- analytical abilities
- communication skills
- critical thinking
- problem-solving

In addition, the knowledge acquired in the areas of discourse analysis and pragmatics makes students aware of the necessity to use appropriate registers and styles when creating written documents or oral presentations to different audiences.

Degree Requirements: 18 credit hours.

The required nine credit-hour core of the certificate consists of courses in:

- discourse analysis and pragmatics
- phonology
- syntax

The other nine credit hours (three courses) may be chosen from fields such as:

- educational linguistics
- natural language processing
- second language acquisition/applied linguistics
- sociolinguistics

Prerequisite: Introductory course in linguistics (taken at the upper-division or graduate level.) Consult the certificate program director for advice.

All certificate course work must be completed with an average grade of "B" (3.00) or higher.

Admission Requirements:

The graduate certificate in linguistics is available to all ASU graduate students irrespective of their major and to nondegree graduate students and working professionals provided they meet eligibility criteria. Students are advised that only nine hours may be taken in nondegree or certificate status and applied to a graduate degree or certificate program.

Eligibility requirements for obtaining the graduate certificate include:

- completion of an undergraduate bachelor's from an U.S.-accredited institution or equivalent
- formal knowledge of a foreign language, equivalent to two years of study of a foreign language at the university level or plans to fulfill the language requirement concurrently with their certificate courses*
- an introductory course in linguistics at the upper division or graduate level

*The language requirement may be met by completion of courses through the second-year level (four semesters) at ASU or elsewhere; or completion of an upper-division language course with an average of "B" (3.00) or better for all such course work (200 or 300 level); or through examination, indicating they should be placed above the 200 level. (Language placement tests are available online at the Language Placement Policies and Tests website. See: <https://international.clas.asu.edu/testing> (<https://international.clas.asu.edu/testing>)). If this requirement is not already fulfilled at the time of application, candidates must demonstrate completion of this requirement at the end of their certificate course work in order for their certificate to be granted.

Application Process:

Applications are accepted year-round. Applicants must complete the Graduate Education online application for admission.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

International students should refer to the Department of English webpage for English proficiency requirements <http://english.clas.asu.edu/gradstudies-international>. (<http://english.clas.asu.edu/gradstudies-international>)

Supporting documents consisting of a resume and statement of purpose must be uploaded into the online application. The statement should be a one- to two-page, well-considered statement of purpose detailing the student's background and reasons for wanting to complete the linguistics certificate.

Once the online application has been submitted, the student should send a copy of unofficial transcripts, statement of purpose and resume via email to the Graduate Program Manager in the Department of English with the subject heading "Linguistics Certificate Application."

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

For further information see: <http://english.clas.asu.edu/gradstudies-lingcert> (<http://english.clas.asu.edu/gradstudies-lingcert>).

Literary Translation Studies (Certificate), Certificate (LALTSGRCT)

Online Degree Search Title: Literary Translation Studies

Campus: TEMPE

Program Description:

The graduate certificate in literary translation studies is an interdisciplinary program offering course work that provides:

- intensive engagement of students in translation practice
- investigation of issues related to the cultural role of the translator and translation
- studies in the variety of theoretical approaches to translation in the 20th and 21st centuries
- studies in trans-historical and cross-cultural theories of translation

These areas of emphasis enable students to gain expertise in practical and theoretical knowledge of the field of literary translation and to engage in developing new models for the practice of translation today. The program offers interested students the opportunity to develop an understanding of intercultural intersections and interdisciplinary approaches to the practice of translation, and advanced training and mentorship in what is one of the most globally relevant fields in the 21st century.

Degree Requirements: 15 credit hours including an applied project course (ENG 593 or SLC 593)..

Required Courses: six credit hours

Electives: six credit hours (students choose two from the list below:

CHI 543 Chinese Language and Linguistics (3)
CHI 691 Seminar Topic: Critical Perspectives on Modern Chinese Literature (3)
ENG 603 Advanced Studies in Comparative Literature (3)
ENG 656 Studies in Cross-Cultural Discourse (3)
FRE 421/598 Structure of French (3)
FRE 598 Special Topic: Text and Performance in Medieval France (1-4)
GER 494/598 Special Topic: Weimar German Cinema (1-4)
GER 494/598 Special Topic: German Modernism (1-4)
GER 521 History of German Language (3)
JPN 543 Japanese Language and Linguistics (3)
LIN 510 Linguistics (3)
SLC 494/598 Special Topic: Interdisciplinary Approaches to Syntax (1-4)
SLC 429/598 Topic: Politics and Culture in European Short Fiction (3)
SPA 539 General Spanish Linguistics (3)
SPA 543 Structure of Spanish (3)
SPA 565 20th-Century Spanish Drama (3)
SPA 567 Contemporary Spanish Novel (3)
SPA 575 Contemporary Spanish American Novel (3)
TCL 446/598 Comparative Bilingual Latina/o Poetics (3)
TCL 445/598 Transborder Latin American Short Story (Spanish Language only) (3)
TCL 488/598 Border Global Narratives (3)
THE 504 Studies in Dramatic Theory and Criticism (3)

Culminating Experience: three credit hours

ENG 593 Applied Project (3) OR
SLC 593 Applied Project)(3)

Total required credit hours: 15

Admission Requirements:

Students eligible for admission into the literary translation studies certificate program will meet the following eligibility requirements:

- Students should have an undergraduate degree from an accredited college or university, or be a current ASU graduate student or nondegree seeking applicant with demonstrated language proficiency. Because this is a certificate program in literary translation, it is to be expected that the majority of students applying for admission may be drawn from a discipline in the humanities or the fine arts (for example, English, history, theatre, or modern or classical languages taught in the School of International Letters and Cultures). However, prospective students from any discipline who would find intensive study of literary translation of use and interest, and who meet the required criteria, may apply.
- A minimum cumulative GPA of 3.00 or higher (scale is 4.00=A) in the last 60 hours of a student's first bachelor's degree program and a minimum of 3.00 cumulative GPA (scale is 4.00 = A) in the applicable master's degree is required.
- Students who are not in the College of Liberal Arts and Sciences must fulfill the requisite language requirements for admission, but the language requirements can have been fulfilled at the undergraduate level at ASU or another accredited institution.

Students should have knowledge of a language other than English, a minimum of six semesters of a second language, or the equivalent (for example, Advanced Placement (AP) in high school).

OR

- Students should have passed a language proficiency exam achieving advanced level in the target language. The language proficiency test in reading and writing will be administered by the relevant language program (i.e. French, German, Italian, Spanish, etc.).
- All students must attain advanced level (equivalent of advanced American Council on the Teaching of Foreign Languages requirements, approximately equivalent to six semesters of undergraduate study), in reading and writing as measured by a written exam in the target language (i.e. French, German, Italian, Spanish) as a prerequisite for taking SLC 551 Global Approaches to Translation (3). See ACTFL (<http://actflproficiencyguidelines2012.org/> (<http://actflproficiencyguidelines2012.org/>))

Students must fulfill both the requirements of Graduate Education and those of College of Liberal Arts and Sciences.

Marriage and Family Therapy, MAS (LAMFTMAS)

Online Degree Search Title: Marriage and Family Therapy (MAS)

Campus: TEMPE

Program Description:

The purpose of this self-contained accelerated program is to provide high quality course work and supervised internship experiences that meet the degree requirements for licensure in the State of Arizona, to practice marriage and family therapy as determined and laid out by the Arizona Board of Behavioral Health Examiners. The degree requirements are specified by the board, and the program is designed to train practitioners who wish to

Academic Catalog Archive 2014-2015 541

practice marriage and family therapy.

Degree Requirements: 39 credit hours and a master's research paper.

The MAS in marriage and family therapy program requires the successful completion of a minimum of 39 credit hours and an applied project, including required course work and completion of 300 client-contact hours in a community internship placement approved by the master's degree in marriage and family therapy faculty. Internships are expected to last approximately 12 months. Students must maintain a GPA of 3.00 in all course work and satisfactorily meet the expectations of the agency supervising their internship.

Foreign Language Requirements: None

Thesis Requirements: None

GRE Scores: GRE scores are waived for this program.

Transportation: Students are required to have a vehicle and a valid Arizona driver's license for internship placement.

Written/Oral Internship Examination: An internship entrance examination to demonstrate readiness for internship placement will be held at the end of the first eight-week semester.

Admission Requirements:

Applicants must submit the online Graduate Education application.

Admission to the program is determined by the following criteria:

- a personal statement
- admission to ASU Graduate Education
- official transcripts of the applicant's academic record
- three letters of recommendation from individuals familiar with the applicant's academic background

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Mathematics, MA (LAMATHMA)

Online Degree Search Title: Mathematics (MA)

Campus: TEMPE

Program Description:

The MA is designed to increase mathematical knowledge beyond the traditional bachelor's degree in order to prepare students for careers requiring sophisticated mathematical skills. Students may choose to specialize in:

- applied mathematics
- core mathematics
- mathematics education
- statistics

Degree Requirements: 30 credit hours and 2 written comprehensive exams, or 30 credit hours, a thesis and a written comprehensive exam.

Thesis option

The degree program requires:

- 30 credit hours of math or math-related graduate course work

- six of the 30 credit hours must consist of the thesis (599)
- one qualifying sequence examination (see the school website for examination information)
- a final oral examination in defense of the thesis

Nonthesis Option

The degree program requires:

- 30 credit hours of math or math related graduate course work
- two qualifying sequence examinations (see the school website for examination information)

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Computational Mathematical Sciences, BS
Mathematics, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit:

- the Graduate Education online application
- official general GRE scores from ETS
- official transcripts
- a statement of education and career goals
- three letters of recommendation

Applicants whose native language is not English (regardless of where they now may reside) must provide proof of English proficiency.

Minimum background for consideration of admission to the master's program includes:

- a bachelor's degree in mathematics or a closely related area with a 3.00 GPA (4.00 scale)
- course work in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371)

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Mathematics, PHD (LAMATHPHD)

Online Degree Search Title: Mathematics (PhD)

Campus: TEMPE

Program Description:

The PhD is intended for students with superior mathematical ability. It emphasizes a solid mathematical foundation and promotes creative scholarship in mathematics and its many related disciplines.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

- Student must pass two qualifying examinations, a written comprehensive examination and an oral dissertation prospectus. See the school website for examination information.
- Student must register for 12 credit hours of dissertation (799).
- Student must write a dissertation and defend it orally in front of five dissertation committee members.

Admission Requirements:

Applicants must submit:

- the Graduate Education online application
- the general GRE scores from ETS

- official transcripts from all undergraduate and graduate studies
- a statement of education and career goals
- three letters of recommendation

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Minimum background for consideration of admission to the doctoral program in mathematics includes:

- a bachelor's degree in mathematics or a closely related area with a 3.00 or better GPA (4.00 scale)
- course work in linear algebra (equivalent to ASU course MAT 342 or MAT 343) and advanced calculus (equivalent to ASU course MAT 371)

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Mathematics Education, PHD (LAMTEPHD)

Online Degree Search Title: Mathematics Education (PhD) (Mathematics and Statistics Dept - Grades 9-20)

Campus: TEMPE

Program Description:

This interdisciplinary program accommodates students from a variety of academic backgrounds. It provides students with a solid foundation in graduate level mathematics as well as research skills and perspectives that will allow them to deal broadly with mathematics problems of:

- curriculum
- equity
- learning
- policy
- teaching
- technology

Conducting individual and collaborative research in the learning and teaching of mathematics is an integral part of the program.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Program requirements include the following:

- 12 credit hours of Research in Undergraduate Mathematics Education (RUME) 1-4, with qualifying exams given in RUME 1 and 2
- four graduate math courses from a list of options (see the school website for examination information)
- six credit hours of research (MTE 792)
- a written comprehensive examination
- an oral comprehensive examination
- an oral dissertation prospectus defense
- 12 credit hours of dissertation (MTE 799)

Each student must write a dissertation and defend it orally in front of five dissertation committee members.

Admission Requirements:

Applicants must submit:

- the Graduate Education online application
- the official general GRE scores (students must be competitive in an applicant pool)
- official transcripts
- a statement of education and career goals
- three letters of recommendation (at least two of these must be from faculty)
- a writing sample

Minimum background for consideration of admission to the PhD program in mathematics education includes a master's in mathematics or a closely

related area with a 3.00 GPA (4.00 scale) or a bachelor's degree in mathematics or a closely related area with exceptionally high grades and advanced course work in mathematics.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Medieval Studies (certificate), Certificate (LAMEDSTCE)

Online Degree Search Title: Medieval Studies (Grad Certificate)

Campus: TEMPE

Program Description:

The certificate program prepares students for advanced study or for academic positions by augmenting their skills and knowledge, thereby making them better equipped to meet the demands of their fields.

Degree Requirements: 18 credit hours (MA certificate), or 27 credit hours (PhD certificate).

Medieval Latin:

One semester (three to four credit hours) for MA students, two semesters (six to eight credit hours) for PhD students, with proficiency attested either by achieving a grade of "B" (3.00) or better in the Medieval Latin course(s) or by satisfactory performance on the Medieval/Renaissance Latin examinations offered by the Centre for Medieval Studies at the University of Toronto. (This requirement presupposes two years or 12 to 16 credit hours or equivalent of undergraduate training in Latin.)

Medieval vernacular language (e.g., Old English, Old Norse, Old French):

Two semesters (six credit hours) for MA students, three semesters (nine credit hours) for PhD students.

Paleography: One semester (three credit hours).

Medieval course work outside the major discipline: Two semesters (six credit hours) for MA students, three semesters (nine credit hours) for PhD students.

Admission Requirements:

All applicants to any certificate program must submit the Graduate Education online application. Graduate students admitted to a degree program in any field may earn one of two master's or doctorate-level certificates: the certificate in medieval studies or the certificate in Renaissance studies.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Microbiology, PHD (LAMICROPHD)

Online Degree Search Title: Microbiology (PhD)

Campus: TEMPE

Program Description:

The microbiology graduate program offers a dynamic research environment, broad range of basic, translational and use-inspired research areas, cutting-edge interdisciplinary training, and opportunities to work with world-class faculty and collaborative research partners committed to training scientific leaders with skills necessary to address significant global microbiological problems and challenges.

The program prepares students for research and teaching careers in universities and colleges, government agencies and industry.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The plan of study is designed by the student and the supervisory committee, consisting of a major professor and three additional faculty members. The program is tailored to the needs of the individual student.

- Eighty-four credit hours are required.
- A formal defense of the final written dissertation is required prior to graduation.
- The remainder hours are comprised of course work showing breadth in microbiology and related disciplines, seminars and research.
- Twelve hours of dissertation are required.
- Written and oral comprehensive examinations are required in order to advance to candidacy.

Admission Requirements:

Applicants must submit the Graduate Education online application.

Applicants should have:

- 3.00 minimum GPA during the last two years or last 60 credit hours of undergraduate or master's studies, with a significant number of science credits included in these
- completion of the requirements for an undergraduate major in biology, microbiology, chemistry or related discipline, with a strong background in mathematical and physical science
- minimum GRE scores in verbal (50th percentile), quantitative (70th percentile) and writing (5)
- proof of English proficiency for applicants whose native language is not English, regardless of where they may now reside*

*The following minimum test scores are acceptable as proof of English proficiency:

- Test of English as a Foreign Language (TOEFL): 600 paper-based or 100 Internet-based
- International English Language Testing System (IELTS): overall band score of at least 6.5 with no band below 6.0
- Pearson Test of English (PTE): 60

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Molecular and Cellular Biology, MS (LACELLMS)

Online Degree Search Title: Molecular and Cellular Biology (MS)

Campus: TEMPE

Program Description:

The MS in molecular and cellular biology prepares students for careers that span traditional disciplinary boundaries. The broad-based training provides the necessary skills for professional careers in academic institutions, governmental institutions and industry, particularly those related to health and chemical sciences.

The participating faculty in this interdisciplinary degree program are drawn primarily from the Department of Chemistry and Biochemistry and the School of Life Sciences, with additional faculty from the departments of:

- bioengineering

- chemical and materials engineering
- kinesiology
- physics
- psychology
- the School of Human Evolution and Social Change

One striking aspect of studies in this broad area of biological science is the interdisciplinary nature of the field. Similar approaches and techniques are used for studies of biological systems whether they are:

- animal
- bacterial
- plant
- viral

Degree Requirements: 30 credit hours and a thesis.

A minimum of 10 designated credit hours of molecular and cellular biology courses and six hours of research and thesis are required. The remaining courses are selected by the student in consultation with the supervisory committee.

Admission Requirements:

All applicants must submit the Graduate Education online application. Admission criteria are as follows:

- a 3.00 minimum GPA during the student's last two years or last 60 credit hours
- minimum GRE scores in verbal (50th percentile), quantitative (70th percentile) and writing (5)
- Test of English as a Foreign Language (TOEFL) scores of 600 paper-based or 100 Internet-based for non-native English speakers.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Applicants must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Molecular and Cellular Biology, PHD (LACELLPHD)

Online Degree Search Title: Molecular/Cellular Biology (PhD)

Campus: TEMPE

Program Description:

The PhD in molecular and cellular biology prepares students for careers that span traditional disciplinary boundaries. Research in this exciting field is focused on understanding the fundamental molecular events that are at the core of all life. The goal of the program is to provide a diverse range of research and training opportunities for doctoral students interested in pursuing a multidisciplinary approach to their studies that extends beyond the traditional boundaries of biological research. The broad-based training provides the necessary skills for professional careers in academic institutions, governmental institutions and industry, particularly those related to health and chemical sciences.

Participating faculty members and researchers are drawn from multiple departments, colleges, centers and institutes across the university, including the School of Life Sciences; the Department of Chemistry and Biochemistry; the School of Biological and Health Systems Engineering; the School of Mechanical, Aerospace, Chemical and Materials Engineering; the School of Mathematical and Statistical Sciences; the School of Human Evolution and Social Change; the Department of Psychology; and the New College of Interdisciplinary Arts and Sciences. Participating faculty members are also based at partner institutions in the greater Phoenix area, including the Translational Genomics Research Institute, Mayo Clinic in Arizona, Barrow Neurological Institute, Carl T. Hayden Veteran's Administration Medical Center and University of Arizona College of Medicine-Phoenix.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The plan of study is designed by the student and the supervisory committee, consisting of a professor in the major and three additional faculty members; the professor in the major and one other must be from the molecular and cellular biology core faculty.

- Eighty-four credit hours are required.
- A formal defense of the final written dissertation is required prior to graduation.
- An oral and written comprehensive examination are required in order to advance to candidacy.
- Twelve credit hours of dissertation are required and the remaining hours are comprised of core course work, seminars and research.

Admission Requirements:

All applicants must submit the Graduate Education online application. Admission criteria are as follows:

- a 3.00 minimum GPA during the student's last two years or last 60 credit hours
- minimum General GRE scores in verbal, quantitative, and writing. Subject GRE not required
- Test of English as a Foreign Language (TOEFL) scores of 600 paper-based or 100 Internet-based for non-native English speakers

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Museum Studies, MA (LAMUSSTMA)

Online Degree Search Title: Museum Studies (MA)

Campus: TEMPE

Program Description:

The museum studies program examines how museums produce and reflect culture and the role museums play worldwide. Students develop theoretical questions and applied skills that engage the functions, practices and critical analyses of museums. They also gain practical experience while being encouraged to challenge preconceived notions about museums and the way they affect (and are affected by) societies and cultures. Designed to be use-inspired, socially embedded and transcultural, the program ensures that students understand the meaning and significance of museums in contemporary society and prepares them for diverse museum careers.

Degree Requirements: 30 credit hours and a research portfolio.

The MA in museum studies requires that all students complete the following three courses, two of which must be taken during the first year of study:

ASB 500 Museum Studies Research Methods (3)
ASB 574 Exhibit Design and Development (3)
ASB 579 Critical Issues in Museum Studies (3)

Students must complete six credit hours of internship (ASB 584) approved by their supervisory committees, usually in a museum setting or museum quality collection or archive related to their chosen area of study: anthropology, art history, theory and criticism or public history. On completion, students must submit a journal or portfolio about the internship and skills acquired.

Additionally, six hours of ASB 592 Research are required.

Admission Requirements:

Students must submit an online Graduate Education application. The application deadline is Dec. 1 for admission in the following fall. There are no spring admissions. In addition to the general requirements for admission to the Graduate Education office, applicants must also provide:

- a statement of purpose outlining career and educational goals
- a current curriculum vitae or resume
- an optional sample of their written work
- three letters of recommendation
- official GRE scores
- transcripts of all undergraduate and graduate course work

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Suitable backgrounds for admission include disciplines related to museum studies, anthropology, history or art (fine art or art history).

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Museum Studies (certificate), Certificate (LAMUSEUMCE)

Online Degree Search Title: Museum Studies (Grad Certificate)

Campus: TEMPE

Program Description:

The museum studies program examines how museums produce and reflect culture and the role museums play worldwide. Students develop theoretical questions and applied skills that engage the functions, practices and critical analyses of museums. They also gain practical experience while being encouraged to challenge preconceived notions about museums and the way they affect (and are affected by) societies and cultures. Designed to be use-inspired, socially embedded and transcultural, the program ensures that students understand the meaning and significance of museums in contemporary society and prepares them for diverse museum careers.

Degree Requirements: 18 credit hours.

Eighteen credit hours are required, which include 12 hours of required course work, and a six-credit-hour internship at an approved museum. All requirements for the certificate program should be completed within a three-year time limit with a cumulative grade point average of at least 3.00. Students who require more time to finish the program (because of their part-time status or lack of desirable or available courses) must obtain approval from the executive committee.

For students currently enrolled in an ASU graduate degree program, applicable certificate courses may count towards their degree program with the approval and consent of the degree granting program. For certificate students who are later admitted to an ASU graduate degree program, up to 12 credit hours from the certificate program may count toward their doctoral degree or up to 12 credit hours may count towards their master's, with the approval and consent of the degree-granting program.

Admission Requirements:

Students must submit an online application to Graduate Education. The application deadline is Dec. 1 for admission in the following fall. For information on spring admission, please contact the school. In addition to the general requirements for admission to Graduate Education, applicants must also provide:

- a current curriculum vitae or resume
- a statement of purpose outlining career and educational goals
- an optional sample of their written work
- official GRE scores
- three letters of recommendation
- transcripts of all undergraduate and graduate course work

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Suitable backgrounds for admission include disciplines related to museum studies, anthropology, history or art (fine art or art history).

Nanoscience, PSM (LANANPSM)

Online Degree Search Title: Nanoscience (PSM)

Campus: TEMPE

Program Description:

The PSM in nanoscience is a cohesive program of interdisciplinary courses that provide the knowledge base required for research and innovation in nanoscience. The program incorporates courses in:

- chemistry and biochemistry
- electrical engineering
- materials science
- physics

Commercial innovation is a particular target goal of the degree, including applications in:

- health care
- nano-medicine
- optics
- semiconductor electronics and optoelectronics
- sensors

The PSM in nanoscience program is suitable for working professionals as well as for students who have obtained a traditional bachelor's or master's in related fields.

Degree Requirements: 30 credit hours including the required applied project course (NAN 593).

Core courses account for 15 of the 30 credits, including society- and intellectual-property-based courses in addition to core science courses. Many of the requisite elective courses are currently offered within the Departments of Physics, and Chemistry and Biochemistry. Most are cross-listed with other units.

The program includes a two-semester, student-centered professional seminar where the central role of the program as a vehicle for innovation emerges. During the spring semester and summer session, students conduct an individual applied project in association with a research group. The degree does not require a thesis. Rather, the applied project forms the basis of the final capstone presentation.

Core Courses (two three-credit hours each):

NAN 505 Nanoscience and Society (2) (final summer session)
NAN 506 Innovation and IP Management (2) (final summer session)
NAN 571 Quantum Physics for Nanoscience (3) (fall semester)
NAN 591 Professional Seminar (2) (each fall and spring)
NAN 593 Applied Project (3) (each spring and final summer session)

The NAN 505 and NAN 506 courses are designated as alternate core courses, which in some years will be given within the professional seminar.

Three alternate program options may be found at: <http://nanoscience.asu.edu/psm-program-study-and-program-options> (<http://nanoscience.asu.edu/psm-program-study-and-program-options>).

Throughout the program, students interact with research faculty and other students in a variety of disciplines related to nanoscience. Students also meet with visiting speakers and industrialists in the professional seminar, as well as other seminars.

If taken full time, the PSM in nanoscience can be completed in 12 months (fall semester, spring semester and two eight-week summer sessions). Another option is our two-year, part-time program, which allows prospective students and their employers flexibility in scheduling their program of study.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

- Chemistry, BS
- Materials Science and Engineering, BSE
- Physics, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements: • Applicants must submit an online Graduate Education application, with accompanying materials as specified on the Graduate Education website.

- Applicants who hold a bachelor's from a regionally accredited institution in physics, chemistry or a related field are eligible to apply to the program.
- GRE scores are not required for application, but will be taken into consideration if submitted.
- This program also seeks to attract students already employed in related areas, and who wish to become knowledgeable and skilled in nanoscience.
- A Test of English as a Foreign Language (TOEFL) or equivalent score for non-native English speakers will be required when applicable.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Natural Science (Geological Sciences), MNS (LANATSCIMN)

Online Degree Search Title: Geological Sciences (MNS)

Campus: TEMPE

Program Description:

The School of Earth and Space Exploration participates in the program leading to the MNS in natural science, concentration in geological sciences. This interdisciplinary degree is designed to meet the needs of professionals seeking a graduate-level degree. The program offers the opportunity for interdisciplinary graduate training in the natural sciences (i.e., biological sciences, mathematics and physical sciences) and cognate areas.

The degree program is especially suited for individuals who desire professional training rather than research training. Because of designed flexibility, the degree also offers the opportunity for individualized professional graduate programs depending upon the backgrounds and goals of the students. Students are expected to emphasize course work in two or more areas of concentration. The program must be interdisciplinary.

Degree Requirements: 30 credit hours and an applied project.

The supervisory committee is chosen by the student in conjunction with the advisor. The composition of the supervisory committee must reflect the interdisciplinary nature of the program. The student will develop a suitable applied project with the approval of the supervisory committee.

A program of study is recommended by the supervisory committee after conferring with the student. While the minimum of 30 credit hours is required for the degree, more credit hours may be required by the supervisory committee, depending upon the background of the student and the nature of the proposed program. All students admitted to this program are also required to take two seminars:

- GLG 500 SESE Colloquium (1)
- GLG 591 Faculty Research Seminar (1)

In some cases undergraduate courses may be required to remove deficiencies. An applied project is required; however, a thesis is optional. For the thesis option, a final written or oral examination, or both, is required. Each examination is administered by the supervisory committee.

Admission Requirements:

Students applying for admission to the program must submit:

- online Graduate Education application
- GRE scores
- statement of purpose
- three letters of recommendation

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

The application deadline for fall semester is Dec. 15 of the previous year.

Natural Science (Physics), MNS (LAPHYSMNS)

Online Degree Search Title: Physics (MNS)

Campus: TEMPE

Program Description:

The MNS curriculum provides interdisciplinary graduate training in physics, physical science or physics education. The degree is especially suited for high school science teachers who desire professional training rather than research training. Designed for flexibility, the curriculum also features individualized professional graduate programs. These programs are well suited to the backgrounds and goals of students. Students are expected to emphasize course work in two or more areas of concentration. The program must be interdisciplinary.

Degree Requirements: 30 credit hours including the required applied project course (PHS 593).

Supervisory Committee:

- The graduate advisor and the student suggest names of persons to serve on the supervisory committee. The supervisory committee recommends the plan of study, after conferring with the student.
 - The supervisory committee, consisting of three faculty members, is appointed by the vice provost for Graduate Education upon the recommendation of the chair of the Department of Physics.
 - The supervisory committee is formed soon after the student has been admitted to the degree program and must reflect the interdisciplinary nature of the program.
 - The supervisory committee may require more courses, depending upon the background of the student and the nature of the proposed program.
- In some cases undergraduate courses may be required to overcome deficiencies.

Teachers may enroll in these courses in order to earn credit toward recertification or to pursue an MNS degree. These courses are held during the summer. Depending on teacher interest, they may be offered at other times. For some courses, the prerequisites are two semesters of trigonometry-based college physics and an introductory calculus course. Additional information about the MNS for high school physics teachers is available at: <http://physics.asu.edu/graduate/mns/> (<http://physics.asu.edu/graduate/mns/>).

Admission Requirements: • Applications must be submitted online with accompanying materials as specified by Graduate Education. To obtain application forms, access the Graduate Education website.

- Requirements for admission are the availability of resources for the proposed program and a Department of Physics faculty member designated to serve as a graduate advisor.
- A Test of English as a Foreign Language (TOEFL) or equivalent score will be required from applicants whose native language is not English.

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Neuroscience, PHD (GCBMENPHD)

Online Degree Search Title: Neuroscience (PHD)

Campus: TEMPE

Program Description:

Neuroscience involves the study of the nervous system and its relation to an organism's function. It encompasses how gene and nerve networks interact with the environment throughout an organism.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The PhD in neuroscience degree program will integrate aspects of graduate level training from many different units on campus as well as from the program's partner institutions distributed across the greater Phoenix area. Partner institutions will include, but are not be limited to, The Barrow Neurological Institute, Translational Genomics Research Institute, University of Arizona College of Medicine, the Mayo Clinic and Sun Health.

The program requires the completion of 84 credit hours of which 12 hours, and only 12, are dissertation credits. At least 18 credits of formal course work are required. In consultation with their committee and their supervisor or mentor, students will be able to customize their plan of study to suit their particular interests and goals. Each student completes six credit hours of the core course credits. The core course sequence must be completed before the oral and written evaluation examinations are taken. Additional credits will be comprised of specialized disciplinary courses or research credits chosen in consultation with their mentor and advisory committee.

A one-credit-hour journal club seminar will be required each semester.

Advancement to candidacy will be dependent on successfully passing a formal comprehensive examination that includes a written proposal of the dissertation research and an oral examination in the broader areas that pertain to that research study. When the research is completed, the dissertation must be written and presented in a public seminar and successfully defended before the supervisory committee.

Admission Requirements:

Applicants must submit an online Graduate Education application plus the appropriate documents, including three letters of recommendation and official GRE scores.

The graduate committee will be responsible for decisions concerning potential recruitment of students and admission recommendation of students to the program.

They will also be highly active in the recruitment procedure each year.

Requirements

A bachelor's in science or engineering from a regionally accredited institution (or equivalent degree) is required. Applicants must submit the following:

- an official ASU Graduate Education application
- a statement of career and educational goals
- names of at least three neuroscience faculty in area of interest
- official GRE scores
- official transcripts of all undergraduate and graduate course work
- three letters of recommendation (two of which should be academic recommendations)
- official TOEFL scores (international students)
- current curriculum vitae or resume
- the Interdisciplinary PhD in Neuroscience Program Academic Record Form

Regular admission may be granted to applicants who have achieved a GPA of 3.00 (4.00 scale) or better in the last two years of work leading to a bachelor's and who are competitive in the applicant pool as evidenced by GRE verbal, quantitative and analytical scores, the statement of educational and career goals and the letters of recommendation. Particular attention will be paid to research experience and overall preparation in problem-solving abilities as evidenced by previous course work, research experiences and GRE scores.

Because this program draws on an extremely broad range of disciplinary backgrounds in recruiting students, there is no specific set of undergraduate course requirements other than those implied by the degree requirements described above. Most students will be expected to have

Academic Catalog Archive 2014-2015 553

had course work in biology, chemistry and math, or demonstrated ability through a subject test GRE. During the first semester, student progress in the core course will be closely monitored for difficulty in specific areas.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Nonfiction Writing and Publishing (Certificate), Certificate (LANWPGRCT)

Online Degree Search Title: Nonfiction Writing and Publishing

Campus: DTPHX, POLY, TEMPE, WEST

Program Description:

Students in the nonfiction writing and publishing certificate will learn good writing, which includes the ability to read, analyze, and synthesize information and concepts, and express them with words. Graduates will have a portable, professional skill that can transcend disciplines and equip them for life both within and beyond the academy. Graduates will have the skills to publish analyses and narratives of complex ideas and knowledge for diverse audiences, from scholars to various public audiences. The certificate embraces all varieties of nonfiction:

- biography
- blogs and other types of web writing
- creative nonfiction
- essays
- formal scholarship
- genre-specific rhetoric
- journalism
- op-eds
- popular science writing
- narrative history
- young adult literature
- and any other types of prose not based on fiction

The certificate program is unique as it is embedded in specific academic content areas including disciplinary-specific and transdisciplinary areas.

Degree Requirements: 15 credit hours.

Core Courses: 3 credit hours

HPS 520/HST 520 Masters of Nonfiction Writing (3)

Concentration Courses: None required.

Electives: 12 credit hours

Culminating Experience: None Required.

Total required credit hours: 15

Admission Requirements:

Degree(s): Applicants must hold a bachelor's degree or higher from a regionally accredited U.S. institution. Applicants who attended school outside of the U.S. must hold a bachelor's or graduate degree, or equivalent, from an institution that is officially recognized by that country. Applicants must be enrolled in a graduate degree program, have a graduate degree (masters or doctoral), hold a postbaccalaureate professional degree or be enrolled in an accelerated undergraduate-masters program.

Applicants must submit:

- the nonfiction writing and publishing certificate application
- official transcripts
- writing sample

GPA: Applicants must have maintained a minimum grade point average of 3.00 (on a 4.00 scale) in the last 60 semesters or 90-quarter hours of undergraduate course work.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Philosophy, MA (LAPHILMA)

Online Degree Search Title: Philosophy (MA)

Campus: TEMPE

Program Description:

The MA in philosophy program is designed to prepare students to:

- be employed in any areas that require critical and analytical thinking (such as medicine, law, government or publishing)
- enter doctoral programs in philosophy at other institutions
- teach philosophy at the community college level

Degree Requirements: 30 credit hours and a portfolio, or 30 credit hours and a thesis.

There are two tracks of study for the master's in philosophy:

Thesis Option

- An additional six credit hours of PHI 599 Thesis is required (see Thesis Requirements below).
- Each student must take at least 24 credit hours of approved graduate-level courses, not including PHI 599 Thesis.
- Each semester's program of study must be approved by the director of graduate studies.
- Each student is required to take an approved graduate-level course of three credit hours or more in each of the following four major areas and to obtain at least a "B" (3.00) in each course: epistemology, history, metaphysics and value theory.
- Students must maintain a "B" (3.00) average or better in their graduate course work and at least a "B" (3.00) in the courses specified above.

Thesis Requirements

- After the thesis committee is formed, the student shall, within a reasonable time, present a thesis prospectus to that committee for approval.
- Each student must complete six credit hours of PHI 599 Thesis. No more than six credit hours of PHI 599 may count toward the 30-credit-hour requirement.
- This written work must demonstrate the ability to carry out independent research in philosophy.
- At the end of the third semester of graduate work, each student shall form a thesis committee, with the approval of the director of graduate studies. One member, the "director", shall chair the thesis committee. At least two members of the thesis committee, including the director, shall be members of the philosophy department.
- Once the thesis committee has certified that the student's thesis is sufficiently complete, the student shall present an oral defense of the thesis. The committee may still require changes in the thesis after the oral defense.

Nonthesis Option

- An additional three hours of PHI 592 Research is required to prepare the portfolio.
- Each semester's program of study must be approved by the director of graduate studies.
- Each student must take at least 27 credit hours of approved graduate-level courses, not including PHI 592 Research.
- Each student is required to take an approved graduate-level course of three credit hours or more in each of the following four major areas and to obtain at least a "B" (3.00) in each course: epistemology, history, metaphysics and value theory. An overall GPA of "B" (3.00) is required.

Portfolio Requirements

- A portfolio is required. This written work must consist of two papers from one of the major areas and must demonstrate the ability to carry out independent research in philosophy.
- Each student must complete three hours of PHI 592 Research no more than three credit hours of PHI 592 may count toward the 30-credit-hour requirement.
- At the end of the third semester of graduate work, each student shall form, with the approval of the director of graduate studies, a portfolio committee. At least two members of the portfolio committee, including the director, shall be members of the philosophy department.
- After the portfolio committee is formed, the student shall, within a reasonable time, present a portfolio prospectus to that committee for approval.
- Once the portfolio committee has certified that the student's portfolio is sufficiently complete, the student shall present an oral defense of the portfolio. The committee may still require changes in the portfolio after the oral defense.

Admission Requirements:

Applicants must submit an online Graduate Education application. All applications for admission to the master's in philosophy must be accompanied by:

- the applicant's current curriculum vitae
- the applicant's score in the GRE
- complete transcripts
- a sample of philosophical writing
- a statement of purpose
- three letters of recommendation from persons qualified to judge the applicant's potential for graduate work in philosophy

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

The application deadline is Feb. 15.

Philosophy, PHD (LAPHILPHD)

Online Degree Search Title: Philosophy (PhD)

Campus: TEMPE

Program Description:

The PhD in philosophy is designed to prepare students for careers:

- as philosophers
- as teachers of philosophy
- in areas that may benefit from advanced training in philosophy (such as law, civil service and publishing)

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The student's plan of study is selected by the student in consultation with the graduate director and the supervisory committee and is approved by the supervisory committee.

Course requirements:

This program requires 84 credit hours.

To ensure breadth in the traditional areas of philosophy, students must pass with a grade of "B" (3.00) or better:

Core course work (18)

One approved course in each of the following areas:

value theory (3)

applied philosophy (3)

formal methods (3)

epistemology (3)

metaphysics (3)

history of philosophy (3)

Electives (42)

At least nine and no more than 18 must be from other disciplines supporting the student's proposed dissertation area; master's degree credit allowance (30) from a previously awarded masters.

Research (12)

Dissertation (12)

Foreign Language Requirement:

None

Comprehensive Examination:

Students will be examined in their area of specialization. Normally, this occurs after the student has completed at least 60 hours of graduate course work. The student, with the advice of his or her committee, shall construct a bibliography. Approval of the bibliography must be secured from the committee one semester in advance of the scheduled written examination. The committee shall provide the student some questions at least 30 days prior to the examination, from which the written examination questions will be taken. The written examination shall occur on a single day and shall last no longer than six hours; three hours in the morning and three hours in the afternoon. The student may not use notes of any kind during the written examination. The oral examination normally follows the written examination within two weeks, depending on the availability of the committee.

Dissertation Prospectus:

Each doctoral candidate will prepare a prospectus of four to seven pages for the dissertation. The format and design of the prospectus will be determined by the candidate and committee chair. The prospectus should include the following:

- bibliography
- discussion of the approach to the project
- discussion of relevant literature
- thesis statement

Doctoral students achieve candidacy status in a letter from the vice provost for Graduate Education upon passing the comprehensive examinations and successfully defending the dissertation prospectus.

Dissertation:

A dissertation based on original research is required. Research for the dissertation is supervised by a committee of at least three faculty members, appointed by the graduate director in consultation with the student. Students must enroll for a minimum of 12 credit hours of research or dissertation credit after admission to candidacy.

Final examination:

An oral examination in defense of the dissertation is required.

Admission Requirements:

Applicants must submit the Graduate Education online application. All applications must be accompanied by:

- the applicant's current curriculum vitae
- the applicant's score in the GRE
- complete transcripts
- a sample of philosophical writing
- a statement of purpose
- three letters of recommendation from persons qualified to judge the applicant's potential for graduate work in philosophy

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Philosophy (History and Philosophy of Science), MA (LAHPSMA)

Online Degree Search Title: Philosophy (History and Philosophy of Science) MA

Campus: TEMPE

Program Description:

Nationally, there is great interest in science and in understanding the nature of science and the forces that change scientific research. The job market in philosophy is strong for philosophers of science (and especially in the life sciences) with some positions remaining unfilled even when the market is intensely competitive in other areas. In addition, the history and philosophy of science is becoming a strong disciplinary emphasis within growing professional societies.

Some programs, elsewhere, focus primarily on philosophy or primarily on history, but those that bring the two together are regarded among the strongest in each area. The objective, here, is to provide a program for students who come to history and philosophy of science from the humanities and who seek a career based in philosophical analysis of the sciences. We have the research strength competitive with any international program.

Degree Requirements: 30 credit hours, including the required capstone course (HPS 551) and a thesis.

Graduate course work for the MS includes:

history of science (3)
philosophy of science (3)
topics in the history of science (3)
topics in the philosophy of science (3)
research methods in the history and philosophy of science (3)
prospectus writing (3)
research and thesis (12)

Admission Requirements:

No longer accepting applications.

Philosophy (History and Philosophy of Science), PHD (LAHPSPHD)

Online Degree Search Title: Philosophy (History and Philosophy of Science) PHD

Campus: TEMPE

Program Description:

This degree combines solid training in the core areas of philosophy with an emphasis on interdisciplinary studies of the sciences, and their:

- conceptual structure
- epistemology
- history
- impacts on society

The strength of ASU's HPS program is to bring philosophy, history, and the study of science together.

This degree program is especially appropriate for students with a background in philosophy who seek to broaden their disciplinary studies with an historical perspective. Applicants will typically come from undergraduate programs that have included philosophical, historical, or history and philosophy of science training or with a master's degree in one of those fields. Science students are eligible as well, and will make up relevant undergraduate humanistic core courses during their first years. Most graduates will seek a career based in philosophical or historical analyses of the sciences.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Graduate course work includes:

history of science (3)
philosophy of science (3)
prospectus writing (3)
research methods in the history and philosophy of science (3)
dissertation (12)
topics in the history of science (3)
topics in the philosophy of science (3)
Additional courses required for the degree include:
advanced logic or approved equivalent (3)
approved philosophy or other relevant courses (9)
a course in history of philosophy (3)
a course in value theory (3)
HPS 615 Biology and Society Lab (3 hours, one credit each)
research or elective courses approved by dissertation chair (33)

Admission Requirements:

This program is no longer accepting applications.

Physics, MS (LAPHYSIMS)

Online Degree Search Title: Physics (MS)

Campus: TEMPE

Program Description:

The MS in physics program provides graduate instruction and research experience appropriate to many physics-related careers. The structure of the program is flexible enough to allow a wide range of programs of study and a wide range of student backgrounds. It is also suitable for part-time study.

Completion of the program requires a minimum of two years, with students typically taking courses for the first three semesters and completing a research project in their final semester. The student defends a master's thesis at the end of the program.

Degree Requirements: 30 credit hours and a thesis.

The master's in physics can emphasize either physics alone or physics in combination with other fields.

Admission Requirements:

Applications must be submitted online with accompanying materials as specified on the Graduate Education website.

To be admitted to the master's program in physics without deficiencies applicants should have adequate undergraduate preparation equivalent to an undergraduate major of 30 credit hours in physics and 20 credit hours in mathematics. Courses in analytic mechanics, electromagnetism and modern physics, including quantum mechanics, are particularly important.

Students applying for admission must submit:

- test scores for the verbal, quantitative and analytical sections of the GRE*
- proof of English language proficiency**

*Submission of scores for the physics GRE subject test is recommended, although not mandatory.

**Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency in the form of a Test of English as a Foreign Language (TOEFL) or equivalent score.

Financial support in the form of teaching or research assistantships is contingent upon:

- satisfactory performance in course work
- timely completion of the final examination for the master's degree
- need and availability of such support

Students on probation are offered financial support only under exceptional circumstances.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Physics, PHD (LAPHYSIPHD)

Online Degree Search Title: Physics (PhD)

Campus: TEMPE

Program Description:

The PhD in physics is intended for highly capable students having the interest and ability to follow a career in independent research. Graduates find positions in a variety of settings:

- academic faculty
- administration
- government labs
- industrial labs
- management

The recent advent of the graduate faculty initiative at ASU extends the spectrum of potential physics doctoral topics and advisors to include highly multidisciplinary projects that draw upon:

- biochemistry
- biology
- chemistry
- electrical engineering
- materials science
- other related fields

Consequently, students and doctoral advisors can craft novel doctoral projects that transcend the classical palette of physics subjects. Multidisciplinary expertise of this nature is increasingly vital to modern science and technology.

Current areas of particular emphasis within the department include:

- biological physics
- cosmology
- electron diffraction and imaging
- nanoscale and materials physics
- particle physics and astrophysics

The department has more than 100 doctoral students and more than 40 faculty members.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The physics doctoral program requires a student to:

- complete 84 credit hours of course work
- pass a written and an oral comprehensive examination
- prepare and defend a doctoral dissertation

Within the newly redesigned and modernized physics graduate curriculum, all doctoral students are required to take 18 credit hours of core physics courses, specifically:

First Semester

PHY 500 Research Rotation I (3)

PHY 521 Classical and Continuum Mechanics (3)

PHY 541 Statistical Physics (3)

Second Semester

PHY 500 Research Rotation II (3)

PHY 531 Electrodynamics (3)

PHY 576 Quantum Theory (3)

Course work beyond these core courses is established by the student's doctoral advisor and supervisory committee, working in partnership with the student. The intent is to tailor the doctoral training to the specific research interests and aptitudes of the student while ensuring that each graduating student emerges with the expertise, core knowledge and problem-solving skills that define a successful doctoral degree in physics.

Of particular note within the core courses are the PHY 500 Research Rotations, which are specifically designed to engage doctoral students in genuine, faculty-guided research starting in their very first semester at ASU.

Admission Requirements:

Applications must be submitted online with accompanying materials as specified on the Graduate Education website.

Applicants to the Department of Physics doctoral program must hold at least a baccalaureate from a recognized institution and must have had adequate undergraduate preparation equivalent to an undergraduate major of 30 credit hours in physics and 20 credit hours in mathematics. Courses in analytic mechanics, electromagnetism and modern physics, including quantum mechanics, are particularly important.

Applicants must submit test scores for the verbal, quantitative and analytical sections of the GRE. The subject GRE test scores should also be submitted; submission can be waived in extraordinary circumstances.

A Test of English as a Foreign Language (TOEFL) or equivalent score will be required, when applicable, from applicants whose native language is not English (regardless of where they may now reside).

Applicants requesting credit for prior graduate courses, taken either at ASU or elsewhere, must demonstrate mastery of the relevant course material to the graduate level standards of the Department of Physics.

Financial support in the form of teaching or research assistantships is contingent upon:

- satisfactory performance in course work
- timely completion of examinations (including the written and oral PhD comprehensive examinations)
- the need and availability of such support

Students on probation are offered support only under exceptional circumstances. The period for which a doctoral candidate may receive financial support through the Department of Physics does not normally exceed six years.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Political Science, MA (LAPOLSCMA)

Online Degree Search Title: Political Science (MA)

Campus: TEMPE

Program Description:

The MA in political science program provides advanced education for students preparing for teaching, research or applied careers in political science. This degree may be taken as a terminal program or as a step toward eventual fulfillment of the requirements for the PhD. Students who plan to obtain the doctorate at ASU should apply directly to the doctoral program.

Degree Requirements: 30 credit hours and a portfolio, or 30 credit hours and a thesis.

- Additional hours must be taken in graduate-level courses and seminars each semester until course work is completed.
- All candidates must take POS 503 and the core courses in the student's major field.
- A maximum of six credit hours in approved courses may be taken outside the department.
- A minimum of 30 credit hours is required for the master's in political science.
- Six credit hours of reading and conference (POS 590) or independent study (POS 592) courses may count toward the 30-hour requirement.
- This program includes both a thesis and portfolio (nonthesis) option. If the thesis option is followed, the program must include a combination of three credit hours of research (POS 592) and three credit hours of thesis (POS 599) credit.

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Global Studies, BA
Political Science, BS
Political Science, BA

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants must submit the ASU Graduate Education online application.

In order to be considered for admission for the fall semester, all application materials must be submitted to and received by the appropriate office (both Graduate Education and the political science program) by Jan. 2. There is no spring admission.

All required materials will be submitted through the Arizona State University Graduate Education admission application. These include:
Letters of Recommendation:

Three letters of recommendations are required from people capable of evaluating the applicant's political science expertise. Please provide the name and email addresses of recommenders as directed on the graduate admission application form.

Personal Statement:

Applicants should write a personal statement of one to three pages indicating what area of political science is intended to be studied and why.

If applicable, please include any honors, scholarships, prizes, honorary societies, etc. that have been received or the applicant belongs to.
Writing Sample:

Please submit a writing sample (i.e., research paper) that best represents the applicant's thinking and writing skills in political science or a related subject.

Political Science Courses:

To assist in evaluating all candidates, please list titles and related information for all previous undergraduate and graduate courses or course work in political science or related fields.

Please complete the information in a table with the following column headings:

Crs Title | Undergrad Credit Hrs | Graduate Credit Hrs | Grade | Institution | Year

Save this file in a .doc, .rtf, or .txt format and upload it on the Graduate Education admission application.

Test Scores:

GRE scores are required of all applicants. Applicants should ensure that GRE scores are reported on the application form, and they should request to have an official score report sent directly from ETS to Graduate Education. Photocopies are not acceptable.

The institution code with ETS is 4007.

Additional Information

Undergraduate course work in political science is not a prerequisite for admission. However, master's students should have a basic understanding of elementary statistics and the undergraduate content of the political science fields of concentration that they wish to study. Students should allow sufficient time to acquire such a background.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Political Science, PHD (LAPOLSCPHD)

Online Degree Search Title: Political Science (PhD)

Campus: TEMPE

Program Description:

The PhD in political science is intended to develop scholars who demonstrate a high level of excellence in teaching and research as professional political scientists. It is distinguished by a wide variety of areas of specialization, including:

- American politics
- comparative politics
- international relations
- political theory
- public policy

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The doctoral program in political science requires:

- 84 credit hours, including 12 hours of dissertation research
- a formal oral defense of the dissertation
- an oral comprehensive examination covering the dissertation prospectus

- POS 503 and POS 603 which are included in the 84 required hours
- the supervisory committee of three members, including the committee chair from the student's major field
- a written comprehensive examination in the major and minor fields

A maximum of 12 credit hours of approved course work outside the department but within ASU may count toward the 84 credit hours.

A maximum of 30 credit hours from a postgraduate program elsewhere may be transferred in and counted toward the 84 credit hours.

Admission Requirements:

Applicants must submit the ASU Graduate Education online application.

In order to be considered for admission for the fall semester, all application materials must be submitted to and received by the appropriate office (both Graduate Education and the political science program) by Jan. 2. There is no spring admission.

All required materials should be submitted through the Arizona State University Graduate Education admission application. These include:

Test Scores:

GRE scores are required of all applicants. Applicants should ensure that GRE scores are reported on the application form, and request to have an official score report sent directly from ETS to Graduate Education. Photocopies are not acceptable.

The institution code with ETS is 4007.

English Proficiency:

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts. Please see <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

In addition to these documents Graduate Education requires an application fee, official transcripts, etc. Please see <https://students.asu.edu/apply> (<https://students.asu.edu/apply>) for more instructions.

For additional requirements for International students, please see <http://graduate.asu.edu/international> (<http://graduate.asu.edu/international>).

Applicants for financial aid should also complete and submit the application form for graduate assistantships by Feb. 1.

Doctoral students should have a basic understanding of elementary statistics and the content of the areas of concentration that they wish to study. Students should allow for sufficient time to acquire such a background.

Psychology, PHD (LAPSYCHPHD)

Online Degree Search Title: Psychology (PhD)

Campus: TEMPE

Program Description:

The Department of Psychology offers doctoral programs designed to provide outstanding training in innovative research, methodology and the application of psychological principles to a wide variety of human conditions. The department is organized into six major areas of interest:

- behavioral neuroscience
- clinical
- cognitive science
- developmental

quantitative (must apply to the Quantitative Research Methods PhD)

- social psychology

Students pursue their graduate studies within one of these six areas, and each area determines the basic curriculum for their graduate program. There is, however, substantial opportunity to integrate courses of study across areas in the department.

Further, specialized emphases are available that integrate across programs in the university (e.g., integrating psychology and law).

At the core of doctoral training in psychology is an emphasis on the development of skill in research and quantitative methods. Faculty in all six areas are actively engaged in major research programs. These theoretically grounded research programs address the breadth of psychological processes:

- cognitive processes (e.g., attention, language, memory) as they occur within the context of perception and action, personality and issues of stigma and prejudice
- cultural influences on psychological processes
- evolution and behavior
- individual resilience
- lifespan developmental aspects of emotion and cognition
- neurobiological and psychosocial processes that underlie behavior and health (e.g., drug abuse, stress, heart disease)
- prevention of child mental health problems

A particularly unique strength of the Department of Psychology is the wealth of outstanding faculty whose specialization is quantitative methods. A breadth of courses and experiences in quantitative methods are available that are well integrated into the areas of research that characterize the department and offer students a rare opportunity to develop expertise in this critical domain.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

In addition to required course work (determined by training area), students take courses related to their area of interest as determined in consultation with their supervisory committees. All doctoral students complete 12 dissertation credit hours. Requirements vary across training areas.

Concurrent Degrees:

This degree is also offered as concurrent degree with Juris Doctor (JD)

Admission Requirements:

Applicants must submit an online Graduate Education application.

In addition to the general requirements for admission to Graduate Education, applicants must also provide the following:

- scores on the GRE
- transcripts

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Deadlines:

The Graduate Education online application, including all letters and supporting documents, must be received by Dec. 5 for applicants to the quantitative and developmental programs, Dec. 1 for applicants to the clinical program, and Jan. 5 for applicants to the behavioral neuroscience, social psychology, and cognitive science programs.

Psychology (Quantitative Research Methods), PHD (LAPSYQUPHD)

Online Degree Search Title: Quantitative Research Methods (PhD)

Campus: TEMPE

Program Description:

The quantitative concentration of the PhD in psychology focuses on the broad class of quantitative and methodological issues that arise in the conduct of both basic and applied psychological research. There are seven core faculty members in the quantitative concentration, of whom several are also affiliated with a substantive area. This dual affiliation supports the training of students of quantitative methods against a backdrop of methodological issues associated with the development of the substance of psychological science. The quantitative concentration is committed to training the next generation of psychological methodologists who will make contributions in developing methods in the areas of measurement, design and analysis and evaluating the utility of new and existing methods for use in psychological research.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

The quantitative curriculum is structured as a series of progressively more advanced courses. New quantitative courses may be implemented under an omnibus number (PSY 591) at the interest of the faculty.

Students complete the following course work:

PSY 530 Analysis of Variance (3)
PSY 531 Multiple Regression Analysis (3)
PSY 532 Analysis of Multivariate Data (3)
PSY 533 Structural Equation Modeling (3)
PSY 534 Psychometric Methods (3)
PSY 555 Experimental and Quasi-Experimental Designs (3)
PSY 591 Quantitative Seminar (3 credit hours annually)

During the course of training, students also complete these requirements:

psychological methodology electives (12)
substantive course work (6)
additional substantive or psychological methodology electives (6)
PSY 599 Master's Thesis (6)
PSY 792 Post-Master's Research (12)
PSY 799 Dissertation (12)

Admission Requirements:

Applicants must submit an online Graduate Education application. The online application, including all letters and supporting documents, must be received by Dec. 5.

In addition to the general requirements for admission to Graduate Education, applicants must also provide the following:

- scores on the GRE
- transcripts
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Religious Studies, MA (LARELIGMA)

Online Degree Search Title: Religious Studies (MA)

Campus: TEMPE

Program Description:

The MA in religious studies emphasizes the comparative study of religions. The program seeks to understand the phenomena of religion across a wide spectrum of cultural contexts and historical periods. Reflecting the different interests and areas of expertise of the faculty, the curriculum incorporates a variety of approaches to the subject:

- cultural
- historical
- literary
- sociological
- theological

Primary areas of emphasis include:

- Christianity
- Buddhism
- Hinduism
- Islam
- Judaism
- modern Western religious thought
- religion in the Americas (African-American, Latin American, Native American and North American religions)
- religions in Asia

Comparative themes and current theories are central to the curriculum. These include but are not restricted to:

- ethnography and anthropology of religion
- nationalism and ethnicity
- popular religion
- post-coloniality
- religion and gender
- religion, secularisms and modernity
- religious conflict and peace studies
- ritual studies
- transborder studies

Although students often concentrate upon a single religious tradition for their thesis work, the program seeks to provide a broadly comparative understanding of religions, not simply a specialist's training in a single tradition.

Degree Requirements: 30 credit hours including the required applied project course (REL 593) and a foreign language exam, or 30 credit hours, a thesis and a foreign language exam.

Thesis Option

This option is recommended for students intending to seek admission to a doctoral program upon completion of the master's or planning to teach in the discipline at community colleges. For the thesis option, the student must satisfy the following requirements:

- an oral defense of the thesis
- reading knowledge of all languages relevant to the proposed thesis topic
- a thesis that earns six credit hours of 599 Thesis credit
- 24 credit hours of course work, including six credit hours in methods and theory (REL 501 and 502), six credit hours of graduate seminar (REL 591), offered each semester on varying topics within the academic study of religion and three credit hours of research (REL 592) to prepare the thesis proposal

Portfolio Option

This option is recommended for students intending to augment their primary area of expertise and professional training in fields such as:

Academic Catalog Archive 2014-2015 567

- counseling
- journalism
- law
- the ministry
- social work
- K-12 education

For the portfolio option, the student must satisfy the following requirements:

- an oral defense of the portfolio
- a portfolio consisting of three publishable papers: one on theory and method, one on the student's minor area of study, and one on the major area of study
- reading knowledge of a foreign language relevant to the proposed area of concentration
- 30 credit hours of course work, including six credit hours in methods and theory (REL 501, 502), six credit hours of graduate seminar (REL 591), four courses in a major area of concentration and two courses in a minor area

Admission Requirements:

Applicants must submit an online Graduate Education application. To be eligible for admission to the graduate program in religious studies, an applicant must submit the following:

- email addresses of three academic references*
- evidence of having completed the equivalent of 15 credit hours of undergraduate work in the study of religions, including advanced courses in both western and Asian or other non-Western religions**
- a statement of purpose of approximately 1,000 words outlining the academic background, career goals and specific area of interest in religious studies in relation to fields offered by the faculty, to be sent to the graduate coordinator of the department
- test scores from the GRE
- a writing sample
- proof of English proficiency***

*Referees will be contacted by Graduate Education, with a request to complete a reference questionnaire.

**Students without the necessary background in religious studies may remove deficiencies by taking additional specified courses at the beginning of their program of study, which may not count toward the fulfillment of degree requirements.

***Test of English as a Foreign Language (TOEFL) is required for applicants whose native language is not English (regardless of where they may now reside).

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Complete applications are due by Jan. 1.

Religious Studies, PHD (LARELIGPHD)

Online Degree Search Title: Religious Studies (PhD)

Campus: TEMPE

Program Description:

The academic study of religion is a central component of the humanities and has become increasingly recognized as a critical tool in understanding society and politics in a globalized world. The PhD program has two main goals:

- to provide supplementary training for graduate students in a range of related programs (including history, anthropology, political science, journalism, secondary education and justice studies) who would benefit from greater expertise regarding the nature and role of religion around the world
- to train graduate students for careers as scholars and teachers in the academic study of religion

Doctoral tracks in the study of religion approach the study in a variety of contexts. Specifically offered are tracks in:

- anthropology of religion
- global Christianity
- Islam in global contexts
- religion in Asia
- religion in the Americas

Degree Requirements: 84 credit hours, a foreign language exam(s), a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Course Work:

The plan of study must contain a minimum of 84 credit hours, including 12 hours of dissertation. Courses and research hours are approved by the student's supervisory committee.

Admission Requirements:

All applicants must submit an online Graduate Education application. In addition to the general requirements for admission to Graduate Education, applicants must also submit:

- email addresses of three academic references*
- GRE scores
- a statement of purpose of approximately 1,000 words
- Test of English as a Foreign Language (TOEFL) for applicants whose native language is not English**
- a writing sample

*Referees will be contacted by Graduate Education to complete a reference questionnaire.

**An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

The application deadline is Jan. 1.

Renaissance Studies (certificate), Certificate (LARENAISCE)

Online Degree Search Title: Renaissance Studies (Grad Certificate)

Campus: TEMPE

Program Description:

The certificate program prepares students for advanced study or for academic positions by augmenting their skills and knowledge, thereby making them better equipped to meet the demands of their fields.

Degree Requirements: 18 credit hours (MA certificate), or 27 credit hours (PhD certificate).

Medieval/Renaissance Latin:

One semester (three to four credit hours) for MA students, two semesters (six to eight credit hours) for PhD students, with proficiency attested either by achieving a grade of "B" (3.00) or better in the medieval Latin courses or by satisfactory performance on the Medieval/Renaissance Latin examinations offered by the Centre for Medieval Studies, University of Toronto. This requirement presupposes two years or 12 to 16 credit hours or equivalent of undergraduate training in Latin.

Early modern language at the upper-division level:

Two semesters (six credit hours) for MA students; three semesters (nine credit hours) for PhD students. Literature or linguistics classes may apply.

Paleography: One semester (three credit hours)

Course work outside the major discipline: Two semesters (six credit hours) for MA students three semesters (nine credit hours) for PhD students.

Admission Requirements:

All applicants to graduate certificate programs must submit the Graduate Education online application. Graduate students admitted to a degree program in any field may earn one of two master's or doctorate-level certificates: the certificate in medieval studies or the certificate in Renaissance studies.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Responsible Innovation in Science, Engineering and Society (certificate), Certificate (GCRSESGRCT)

Online Degree Search Title: Responsible Innovation in Science, Engineering and Society Certificate

Campus: TEMPE

Program Description:

The certificate in responsible innovation in science, engineering and society is designed for scientists, engineers, research managers, technology officers, public administrators, and policy officials who seek to advance science and technology to improve societal outcomes and to develop creative solutions to the fundamental global challenges of the 21st century.

The certificate provides knowledge, skills and methods for analyzing innovation and technological systems; knowledge and uncertainty in decision-making; the regulation and governance of science and technology; the uptake of science and technology in complex societal settings; and interactions between science, technology and the public. The certificate may be pursued by professionals in industry or government or by graduate students pursuing their ASU degree program. The certificate will involve 15 credits of course work, which includes a significant capstone experience.

Degree Requirements: 15 credit hours including the required capstone course HSD 580.

This program requires 15 credit hours.

core course credit hours: 3

elective course credit hours: 9

culminating experience or culminating experience options:

HSD 580: Practicum (3 credit hours)

Admission Requirements:

Degree: Applicants must have earned a U.S. bachelor's degree or higher from a regionally accredited institution or the equivalent of a U.S. bachelor's degree from an international institution that is officially recognized by that country.

GPA: Applicants must have maintained a "B" (3.00 on a 4.00 scale) grade point average in the last 60 semester hours or 90 quarter hours of undergraduate course work.

International Students: International students who need an F1 or J1 visa will first need to apply to and be accepted into a master's or doctoral program prior to being considered for the certificate program. International students residing in the USA on other types of visas must adhere to all Graduate Education policies and procedures regarding admission be considered for admission to this certificate program.

English Proficiency: Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. Acceptable proof is as follows (or the most current requirements at <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>)):

- TOEFL score of at least 550 (PBT) or 80 (iBT)
- IELTS overall band score of at least 6.5 with no band below 6.0.
- Pearson Test of English (PTE) score of at least 60

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Scholarly Publishing (certificate), Certificate (LASCHPUBCE)

Online Degree Search Title: Scholarly Publishing (Grad Certificate)

Campus: TEMPE

Program Description:

The scholarly publishing certificate program offers training in publishing studies to graduate students from any discipline. The program focuses on publishing wherever it occurs: museums, corporations, cultural institutions, university presses, commercial houses, digital start-ups, libraries, journal and textbook publishers, and learned societies. Students create the future world of publishing as it is expressed in the digital world of e-books, apps, blogs, websites, interactive media, online scholarship, and popular writing. Graduates work for publishing houses, museums, corporations, cultural institutions, government agencies and libraries.

Degree Requirements: 20 credit hours.

Course work includes four required core courses and electives from a variety of disciplines. The certificate requirement includes a summer internship. Some courses may be applied to both the certificate and the student's degree program.

Admission Requirements:

Graduate students in any discipline may pursue a certificate in scholarly publishing in conjunction with their degree programs. The program is also open to students who already hold graduate degrees.

The application deadline is Jan. 1 for enrollment in August. Applications will also be reviewed after the deadline if space remains in the class.

Applicants are required to submit a Graduate Education online application solely for the scholarly publishing program, regardless of any applications to other programs.

Please submit the following materials:

- Applicants must submit an online Graduate Education application.
- A resume or curriculum vitae is required, and it must be uploaded into the online application.
- A letter of intent should be addressed to the history review committee explaining your scholarly background and training, your career goals and why you want to pursue graduate study at ASU (about 500 words in length).
- Three reference letters are required. Students should contact their references and inform them that they will be contacted by Graduate Education and asked to submit an electronic recommendation. Students are required to submit a minimum of three email addresses from faculty or others qualified to speak to the student's suitability for graduate study in scholarly publishing.
- Official transcripts should be mailed to Graduate Education. (It is not necessary to mail transcripts to the certificate program).
- A writing sample is required. Submit a sample of your written work electronically. The writing sample may be an article (published or unpublished), a research paper, or any other extended example of your expository skill no longer than 35 double-spaced pages in length. Longer writing samples should not be submitted without first consulting the graduate director. Documents should not be password protected. Acceptable file types are .rtf, .pdf, and .doc.
- Proof of English proficiency is required for applicants whose native language is not English, regardless of where they may now reside.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Science and Technology Policy, MSTP (LAHSDPSM)

Online Degree Search Title: Science and Technology Policy (MSTP)

Campus: TEMPE

Program Description:

The ASU science and technology policy master's program provides professional education for students seeking advanced public, nonprofit or private sector careers in science and technology policy and related fields in the United States or abroad. Students will learn essential skills, knowledge and methods for analyzing innovation, expertise and large-scale technological systems. Particular emphasis is placed on the political and societal contexts and impacts of science and technology. The program is a one-year cohort-based program designed to attract students of the highest caliber in their early- to mid-careers.

Students will acquire the following knowledge and skills.

- analysis of knowledge systems supporting policy decisions
- analysis of scientific and technological innovation systems
- analysis of the social and policy dimensions and implications of large-scale technological systems
- skills in collaborative, team-based analysis of science and technology policy problems
- skills in effective professional communication
- understanding of the theoretical foundations of the interactions among science, technology and society
- understanding of U.S. and, where appropriate to a student's career interests, international science and technology policies and the policy processes that generate them

Degree Requirements: 30 credit hours including the required applied project course (HSD 593).

required core courses:

HSD 501 Science and Technology Policy (3)

HSD 502 Advanced Science and Technology Policy (3)

restricted electives from a list provided by the program chair (6)

applied policy analysis courses:

HSD 505 Science and Technology Policy Workshop in Washington, DC (3)

HSD 593 Applied Project in Science and Technology Policy (3)

internship:

HSD 584 Internship in Science and Technology Policy (3)

- electives (9)

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

African and African American Studies, BA

Justice Studies, BS

Justice Studies, BA

Women and Gender Studies, BA

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Students may enroll only in the fall semester of each year.

- Applicants must submit an online Graduate Education application.
- Students are required to hold a minimum of a bachelor's (or equivalent) or a graduate degree from a regionally accredited college or university of recognized standing.
- Students are strongly encouraged to have prior relevant education, training or experience in science and technology policy; management of science, technology or innovation; or science, technology and society.

- Students must hold a minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's first bachelor's program.
- The GRE is required for admission.
- Three letters of recommendation are required.
- A resume is required.

A personal statement is required.

Proof of proficiency in the English language is required for applicants whose native language is not English (regardless of where they may now reside).

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Social and Cultural Pedagogy, MA (LASCPMA)

Online Degree Search Title: Social and Cultural Pedagogy (MA)

Campus: TEMPE

Program Description:

The MA in social and cultural pedagogy is an innovative degree that immerses students in the theory and practice of social pedagogy, and prepares them for working with diverse populations in a variety of organizational and community settings.

The program is geared to those working in education-related settings primarily in the independent and nonprofit sector. This degree is relevant for individuals interested in areas such as childhood and youth studies, adult education and workplace learning, popular and digital cultures, social movement learning, restorative justice, disabilities, indigenous knowledge, and ecopedagogy.

The program emphasizes research, theory and practice related to nonformal and informal education dynamics throughout the lifespan, focusing on change-oriented processes and foregrounding anthropological and sociological perspectives. It includes core courses in historical and current developments in social pedagogy, lifelong and experiential learning, and sociocultural approaches to education.

Courses will be offered through the Internet (iCourses) and face-to-face. Social pedagogy is both an interdisciplinary academic field of inquiry and a field of professional practice. It has a long tradition that can be traced back to 1844, and it is currently experiencing a surge in scholarly and professional interest. There are many master's programs in social pedagogy around the world (especially in Europe and Latin America), but the master's degree in social and cultural pedagogy at ASU is the first of its kind in North America.

Degree Requirements: 30 credit hours and a thesis, or 30 credit hours including the required applied project course (SST 593).

Required courses:

SST 501 Foundations of Social Transformation (3)

JUS 500 Research Methods (3)

SST 510 Social and Cultural Pedagogy (3)

electives: 15 credit hours

applied project: 6 credit hours (SST 593) or thesis: 6 credit hours (SST 599)

Admission Requirements:

All applicants must complete the Graduate Education online application.

A bachelor's degree from a regionally accredited college or university recognized by ASU is required. Minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's bachelor's degree program.

Writing sample: a two- to three-page application letter in which the applicant explains why they want to study in this program and why they feel well-prepared to succeed in this graduate program.

Resume: the resume should describe prior educational history, related work, or volunteer experiences.

TOEFL scores are required for applicants whose native language is not English.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Social Transformation Certificate, Certificate (LASOTGRCT)

Online Degree Search Title: Social Transformation (Certificate)

Campus: DTPHX, POLY, TEMPE, WEST

Program Description:

This certificate is designed for graduate and postbaccalaureate students interested in how change is catalyzed by social movements, protest, law, social entrepreneurship, activism and community organizing. Through the exploration of theories and research related to social change, students are able to augment their disciplinary degrees and be prepared to contribute as leaders and change makers in their communities.

Degree Requirements: 15 credit hours and a practicum.

The electives taken will be selected with the faculty advisor. The faculty advisor will directionalize the electives to ensure they focus on a common theme. That will help to ensure students' experiences in the courses align with the learning goals outlined for the certificate.

The culminating experience will be a community-based practicum experience and a paper that synthesizes students' interests with their implications for social transformation. The practicum placement will be with a local nonprofit or governmental organization working toward social innovation and social change. Students will be assisted in identifying a practicum placement by the program advisor. At the end of the practicum, students will produce a paper which will analyze the social and political dimensions of some issue within (or aspect of) social transformation. The paper should also identify the implications of this aspect or issue for social policy and social justice. The paper should begin within the context of the practicum experience and will be presented to the designated subset of the certificate executive board for final approval. Students will take three credits of SST 580 Practicum to complete the practicum and then revise, improve and finalize the paper with a certificate faculty member.

Admission Requirements:

To be considered for admission, students should submit the following documents to the School of Social Transformation program office:

- Students must submit a statement of purpose for pursuing the certificate that is no longer than 250 words. The statement should indicate any demonstrated interest in the study of social transformation (e.g., previous course work, professional experience, internships, career plans).
- Students who are not regularly admitted to an ASU graduate program must submit an official transcript showing the completion of a bachelor's degree in any academic field. These students should have maintained at least a 3.00 GPA or equivalent during their junior-senior years of work on the bachelor's degree.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the School of Social Transformation.

Admission Decision Process

Applicants must meet the above criteria as judged by the School of Social Transformation graduate committee to have strong academic credentials (undergraduate or graduate GPA) as well as demonstrated interest in the area of social transformation. The committee will review applications for the certificate program in the fall and spring semesters of each year and make recommendations for admission to Graduate Education.

Socio-Economic Justice (certificate), Certificate (LAECJUGRCT)

Online Degree Search Title: Socio-Economic Justice (Grad Certificate)

Campus: TEMPE

Program Description:

The graduate certificate in socioeconomic justice addresses the social and political implications of global and local economies for economic inequality and social justice. This transdisciplinary program fuses interests in political economy, socioeconomic inequality and analysis of related policies and their consequences for social welfare in areas of income, housing, employment and education. This certificate complements the current graduate curriculum at ASU and is structured to allow students to draw upon a combination of core courses in justice and social inquiry and course work from units from across the ASU campuses. Our approach is transdisciplinary (i.e., inclusive of courses in a variety of disciplines but transcending disciplinary boundaries through an integrative core curriculum), intersectional (i.e., considering gender, race, class, nation and sexual relations) and transnational (courses that examine global and local concerns). It will strengthen student understanding of the justice implications of the convergence of social and economic inequalities in the global economy.

Degree Requirements: 15 credit hours.

This includes two core (required) courses, three elective courses and a one-credit hour culminating experience that includes a research paper.

Required Certificate Core Courses (6)

Students must select one course from each of the following two areas of study:

1. Economic Justice (3)

Students must select one of the following courses:

JUS 550 Gender, Race and Economic Justice (3)

JUS 660 Globalization and Socio-Economic Justice (3)

2. Conducting Research in Communities (3)

Students must select one of the following courses:

JHR 525 Action Research (3)

JUS 633 Community Research (3)

Elective Courses (9)

Students must select three electives on socioeconomic justice from among the following courses:

ASB/POL 447 Citizenship, Nationalism and Identity (3)*

ASB 591 Environmental Justice and the City (3)

JHR 510 Problem-Based Seminar: Oaxaca; Migration, Gender and Human Rights (3)

JHS 511 Community-Embedded Seminar: Contemporary Slavery and Trafficking (3)

JHR 525 Action Research (3)

JUS 405 Economic Justice (3)*

JUS 415 Gender and International Development (3)*

JUS 494 Advanced Topics in Global Justice (3)*

JUS 550 Gender, Race and Economic Justice (3)

JUS 555 Migration, Immigration and Justice (3)

JUS 591 Family Work and Justice (3)

JUS 591 Globalization and Livable Cities (3)

JUS 591/691 Difference, Citizenship and Globalization (3)

JUS 591/691 Governance, Citizenship and Justice (3)

JUS 660 Globalization and Socio-Economic Justice (3)

JUS 633 Community Research (3)

POS 598 North-South Relations (3)

POS 598 Urban Politics and Policy (3)

SOS 514 Human Dimensions of Sustainability (3)

SWG 531 Social Policy and Services (3)

SWG 533 Diversity and Oppression (3)

SWG 591 Border Family and Community Asset Building Policies (3)

WST 598 Gender and Globalization in Latin America (3)

*Note: Only one 400-level courses listed above is allowed.

Must have prior approval from the director of the certificate in economic justice program for any 400-level course.

Culminating Experience (1)

This capstone research paper synthesizes the student's disciplinary interests with their implications for socioeconomic justice. Students register for JUS 590 Readings and Conference.

Admission Requirements:

All applicants must submit the Graduate Education online application.

Graduate students who are regularly admitted to a graduate degree program at ASU or students who have completed a bachelor's at a regionally accredited U.S. institution or equivalent are welcome to apply for the socioeconomic justice graduate certificate program.

To be considered for admission, applicants must meet the Graduate Education office criteria for admission to a graduate certificate program at ASU. Students also should submit the following documents to the justice and social inquiry program office:

- at least one letter of recommendation
- a statement of purpose for pursuing the certificate
- a writing sample demonstrating excellent writing and analytical skills
- transcripts*

*Students who are already enrolled in an ASU graduate program must submit an unofficial copy of their graduate transcripts and be in good standing with Graduate Education; students who are not regularly admitted to an ASU graduate program must submit an official transcript showing the completion of a bachelor's in any academic field with a junior and senior GPA of at least 3.00 or equivalent.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Sociology, MA (LASOCMA)

Online Degree Search Title: Sociology (MA)

Campus: TEMPE

Program Description:

This degree program provides advanced training for those preparing for teaching, research or applied careers in sociology and may be taken either as a terminal program or as a step toward eventual fulfillment of requirements for the doctorate.

Degree Requirements: 32 credit hours and a thesis.

The MA in sociology program includes:

SOC 503 Academic Professional Development (1)
SOC 500 Research Methods and 505: Applied Regression Analysis (6)
SOC 585 Sociological Theory (3)
SOC 599 Thesis (6)
elective courses (16)

Accelerated Degrees:

This degree is also offered as an accelerated degree with Sociology, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

All applicants must submit a Graduate Education online application.

Admission to the program is determined by the following criteria:

- a current resume or curriculum vitae
- a personal statement detailing professional goals and research experiences
- a writing sample

- GRE scores (verbal, quantitative and writing)
- three letters of appraisal from persons familiar with the applicant's academic background
- valid transcripts of the student's academic record

The application deadline is Jan. 15.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Sociology, PHD (LASOCPHD)

Online Degree Search Title: Sociology (PhD)

Campus: TEMPE

Program Description:

This degree provides advanced training in theory, research methodology and substantive fields to prepare sociologists for teaching and research with special emphasis on family, medical sociology and demography.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

Thirty credit hours from a previously awarded master's degree may be applied to the 84-credit-hour requirement.

The PhD requires 54 credit hours beyond the master's degree:

theory (3)

methods (3)

statistics (3)

dissertation (12)

elective courses and research credits (33)

First-year doctoral students are required to take SOC 503 Sociology as a Profession.

A minimum of 30 credit hours of the approved doctorate program, exclusive of dissertation and research hours, must be completed after admission to the program.

Admission Requirements:

Applicants must submit the online Graduate Education application. Admission to the program is determined by the following criteria:

- a current resume or curriculum vitae
- a personal statement detailing professional goals and research experiences
- a writing sample
- a master's or its equivalent in sociology or a related field*
- GRE scores (verbal, quantitative and writing)
- three letters of appraisal from persons familiar with the applicant's academic background
- valid transcripts of the applicant's academic record

*The option is available for a few outstanding undergraduates to apply directly to the doctorate program. These students must obtain a master's-in-passing.

All applications are due Jan. 15.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Spanish, MA (LASPANMA)

Online Degree Search Title: Spanish (MA)

Campus: TEMPE

Program Description:

The MA in Spanish program combines Spanish, Spanish American and Mexican American literature, linguistics and culture. All programs have a research component: candidates for the master's in Spanish write a thesis.

The program has two concentrations: literature and culture, and linguistics. It is possible to concentrate courses in one of two subconcentrations within the linguistics track:

- sociolinguistics
- second language acquisition and applied linguistics.

Students admitted to the master's program with a major in secondary education may elect Spanish as the subject matter field.

Degree Requirements: 30 credit hours and a portfolio, or 30 credit hours, a thesis and a written comprehensive exam.

Students seeking a master's in Spanish should consult with the respective graduate representative.

Comprehensive Examination: All candidates are required to pass a comprehensive written examination designed to evaluate the candidate's knowledge in the area of specialization. A reading list is provided as a guide to preparation for this examination.

Thesis: All candidates must write a thesis.

Admission Requirements:

Students interested in applying to this program must submit the following documentation using the online application:

- a Graduate Education online application
 - an academic writing sample; for example, an academic term paper, critical paper or research paper approximately 10-25 pages prepared in an upper-division or graduate Spanish course
- a personal statement (preferably in Spanish) that is no more than two pages summarizing past educational experiences and goals in pursuing a graduate degree
- a resume, if interested in a teaching assistantship
 - three letters of recommendation*

*The online application will ask for recommender's names and email addresses. They will be notified and given instructions. If a candidate is interested in obtaining a teaching assistant position, the two letters of recommendation included with their application to the program should also address the candidate's competence in Spanish and ability (potential or demonstrated) to conduct a university-level language course. If the authors of the academic letters are unfamiliar with a candidate's teaching ability, a separate letter addressing this issue from a more appropriate source should be included in the application package.

See <https://international.clas.asu.edu/graduate/spanish-ma> (<https://international.clas.asu.edu/graduate/spanish-ma>) for more information.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Spanish, PHD (LASPANPHD)

Online Degree Search Title: Spanish (PhD)

Campus: TEMPE

Program Description:

The School of International Letters and Cultures offers a graduate program in Spanish leading to the PhD in Spanish with concentrations in literature and culture studies.

Degree Requirements: 84 credit hours, two foreign language exams, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

- The candidate must present an acceptable dissertation based on original investigation. The dissertation must represent a significant contribution to knowledge and demonstrate the candidate's ability to do independent, scholarly research.
- Each candidate is expected to demonstrate a reading knowledge of two languages other than English and Spanish. The language requirements must be satisfied before the candidate is eligible to take the comprehensive examination.
- The candidate must complete 84 credit hours of graduate-level work.
- A final oral examination is required. This examination covers the subject matter of the dissertation and appropriate field.
- The candidate must complete 12 (and only 12) credit hours of dissertation (SPA 799).
- Thirty hours of credit for the master's in Spanish will count toward the 84 credit hours.
- A written and oral comprehensive examination, designed to ascertain the candidate's knowledge and orientation in the field of study and competency to proceed with the dissertation, is required at or near the end of course work.

Admission Requirements:

All candidates for the doctoral program in Spanish must submit the Graduate Education online application and fulfill the general requirements of the Graduate Education office concerning admission.

Candidates for the program will be required to demonstrate a near-native oral proficiency in Spanish and to show that they have developed a high order of expository prose in English and Spanish by presenting a term paper or a chapter of the master's thesis.

The Spanish graduate program requires a 3.75 overall GPA (on a 4.00 scale).

Admission to the Spanish doctoral program requires the candidate to present a master's in Spanish or equivalent from an accredited institution.

The committee may request letters of recommendation regarding the applicant's command of Spanish and potential for doctoral work. A personal interview may also be appropriate.

It is recommended, but not required, that students applying for admission to the master's or doctoral program submit scores on the GRE; this is especially advisable for the applicants for the Spanish Graduate Fellowship Award.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Statistics, MS (GCSTATMS)

Online Degree Search Title: Statistics (MS)

Campus: TEMPE

Program Description:

The School of Mathematical and Statistical Sciences offers a program leading to the degree MS in statistics. The program is interdisciplinary in that it draws upon faculty research and teaching interests from various academic units so programs of study can be tailored to reflect individual needs and goals.

Degree Requirements: 30 credit hours including the required applied project course (STP 593 or IEE 593 or ECN 593) and an oral comprehensive exam, or 30 credit hours, a thesis and an oral comprehensive exam, or 30 credit hours, a written comprehensive exam and an oral comprehensive exam.

Completion of the degree requires 30 credit hours of approved credit, none of which may be from the prerequisites. The program must include the nine credit hours from three required theory courses:

STP 501 Probability (3)

STP 502 Mathematical Statistics (3)

STP 526 Theory of Statistical Linear Models (3)

The required theory courses are fundamental to the education of statisticians and are necessary for more advanced graduate study. Two courses in applied linear statistical models are also required:

applied analysis of variance and design of experiments (ECN 530, IEE 572 or STP 531) (3)

applied regression analysis (ECN 525, IEE 578 or STP 530) (3)

The program must also include either three credit hours of applied project (ECN 593, IEE 593 or STP 593); six credit hours of thesis (ECN 599, IEE 599 or STP 599); or an oral and written comprehensive exam on advanced statistics course work to be administered by the School of Mathematical and Statistical Sciences. The applied project or thesis must be defended at an oral examination. The content of the applied project report or thesis, in its final form, must be suitable for submission to an academic journal or conference proceedings. The thesis must conform to Graduate Education format requirements.

The remaining credit hours come from elective courses chosen by the student with the approval of supervising faculty. A maximum of six credit hours may be chosen from a related field on which statistics relies (such as computer science) or in which statistics is an essential tool (e.g., biostatistics, quality control). The elective courses allow the student to emphasize a particular area of statistical inference, culminating in an applied project report or a thesis on a topic in that area. No foreign language or written comprehensive examinations are required.

The student has considerable flexibility in selecting an area of specialty.

Admission Requirements:

Applicants must submit:

- the Graduate Education online application
- official transcripts
- a statement of education and career goals
- three letters of recommendation
- general GRE scores

Applicants should have completed the following courses (equivalents at ASU are given in parentheses):

- advanced calculus (MAT 371)
- calculus (MAT 270, MAT 271 and MAT 272)
- computer programming (CSE 100)
- introductory applied statistics (QBA 221 or STP 420)
- linear algebra (MAT 342)

Applicants who lack any of these prerequisite courses must complete the prerequisites before being considered for admission. Although most applicants earn the bachelor's in a quantitative area (such as statistics, quantitative business analysis, mathematics, engineering or computer science), this is not required for admission to the program. The submission of GRE scores is required.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Statistics, PHD (LASTPPHD)

Online Degree Search Title: Statistics (PHD)

Campus: TEMPE

Program Description:

Statistics has been described as the science of learning from data. Statisticians are involved with the collection and subsequent analysis and interpretation of data.

The statistics PhD program includes faculty from departments in the Ira A. Fulton Schools of Engineering, the College of Liberal Arts and Sciences, the W. P. Carey School of Business and the New College of Interdisciplinary Arts and Sciences. The interdisciplinary collaboration provides the opportunity for programs of study to be tailored to reflect individual needs and goals.

Degree Requirements: 84 credit hours, a written comprehensive exam, a prospectus and a dissertation.

This program includes:

core course work (mathematical statistics, probability, STP 526, STP 527, STP 530 or IEE 578, STP 531 or IEE 572) (15)

elective statistics or related area courses approved by the student's supervisory committee (45)

MAT 792 Research (12)

MAT 799 Dissertation (12)

Students must pass:

- one qualifying examination and course work in analysis*
- a written comprehensive examination
- a dissertation prospectus defense

*See the school website for examination information.

Each student must write a dissertation and defend it orally in front of five dissertation committee members. See the department website for examination information.

Admission Requirements:

Applicants must submit:

- Graduate Education online application
- the general GRE scores
- official transcripts
- a statement of education and career goals
- three letters of recommendation

The minimum requirements for consideration of admission to the PhD program in statistics are:

a bachelor's degree in statistics, mathematics or a closely related area with a 3.00 GPA (4.00 scale)

• completion of the following courses (equivalents at ASU are given in parentheses): calculus (MAT 270, 271 and 272), advanced calculus (MAT 371), linear algebra (MAT 342), computer programming (CSE 100), and introductory applied statistics (QBA 221 or STP 420)

Applicants who lack any of these prerequisite courses must complete the prerequisites before being considered for admission.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Statistics (certificate), Certificate (GCSTATCE)

Online Degree Search Title: Statistics (Grad Certificate)

Campus: ONLNE, TEMPE

Program Description:

The School of Mathematical and Statistical Sciences offers a program leading to the certificate in statistics. The program is interdisciplinary in that it draws upon faculty research and teaching interests from various academic units so that programs of study can be tailored to reflect individual needs and goals. The certificate seeks to provide statistical training for graduate students at ASU and professionals in the metro Phoenix area.

Degree Requirements: 15 credit hours.

To qualify for the certificate, students must complete a three-credit course in applied regression analysis (IEE 578, ECN 525, or STP 530) and a three-credit course in analysis of variance or experimental design (IEE 572, ECN 530, or STP 531). The remaining nine credits are taken from the set of courses approved by the School of Mathematical and Statistical Sciences. The certificate program requires no applied project. Students must have a GPA of at least 3.00 in the courses which apply to the certificate.

Admission Requirements:

All applicants to the statistics certificate program must submit the Graduate Education online application.

Applicants must have a bachelor's and should have completed the following courses (equivalents at ASU are given in parentheses):

- introductory applied statistics (ECN 221, STP 226 or STP 420)
- one semester of calculus (MAT 210, MAT 265 or MAT 270)

Applicants are also required to have some computer literacy with knowledge of a programming language, a spreadsheet program or a statistical software program.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Teaching English to Speakers of Other Languages, MTESOL (LAENGMTESL)

Online Degree Search Title: Teaching English to Speakers of Other Languages (MTESOL)

Campus: TEMPE

Program Description:

The Department of English at Arizona State University offers a professional program leading to the MTESOL. This well-established, specialized degree program provides students with knowledge and skills necessary to teach English to speakers of other languages in various parts of the world (including the United States). The focus of the program is on theories and methods of language teaching and the aspects of linguistics that teachers need for effective classroom performance. The master's degree in Teaching English to Speakers of Other Languages is intended for those who wish to build a career in the field of English language teaching.

Established in 1969, the MTESOL program has graduated students from various countries and regions in Africa, Asia, Europe, Latin America, Melanesia, the Middle East and throughout the United States. The program features internationally known faculty members whose expertise includes computer assisted language learning, curriculum design, English for academic purposes, English as an international language, English grammar and grammar for TESOL, intercultural rhetoric, interlanguage pragmatics, language testing and assessment, materials development, nonnative English speakers in TESOL, second language acquisition, second language phonology and second language writing. Also, these faculty have extensive practical experience designing and teaching ESOL courses in the US and internationally, including general English courses for students of all ages, academic English courses for university students, settlement English courses for refugees and immigrants, and occupational English courses.

Graduates of the MTESOL program have been successful in finding employment in a variety of TESOL-related positions locally, nationally and internationally. Many also continue on to pursue doctoral degrees at Arizona State University and elsewhere.

Degree Requirements: 30 credit hours including the required capstone course (ENG 597) and a Foreign Language Exam.

Approved graduate course work must include:

LIN 500 Research Methods

LIN 510 Linguistics

LIN 520 Second-Language Acquisition Theories

LIN 521 Methods of Teaching English as a Second Language

ENG 597 Graduate Capstone Seminar

An internship is recommended if a student has no teaching experience.

Foreign Language Requirement: A foreign language is required and must be completed during the program.

Capstone: A three-credit-hour capstone course (ENG 597), which is overseen by a director, chosen from the English department linguistics and TESOL faculty.

Accelerated Degrees:

This degree is also offered as an accelerated degree with English (Linguistics), BA

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Applicants may have undergraduate majors in fields such as, but not limited to:

- anthropology
- applied linguistics
- cognitive science
- communication
- comparative languages and literatures
- education
- English literature
- history
- law

Graduate Education requires a grade point average of "B" (3.00) or better in the last two years of work leading to the bachelor's degree.

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

International students must submit a TOEFL score of at least 250 computer-based, 100 Internet-based, an IELTS score of 7.0 or above, or a 68 on the Pearson Test of English Academic (PETA) to be considered for admission. International students should refer to the Department of English webpage for English proficiency requirements. <http://english.clas.asu.edu/gradstudies-international> (<http://english.clas.asu.edu/gradstudies-international>)

Application deadlines are Jan. 15 and April 15 for fall admission and Sept. 15 for spring admission.

The following documents are required:

- official transcripts
- online Graduate Education application
- resume
- statement of purpose
- three letters of recommendation

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Transborder Studies, MAS (LATCLMAS)

Online Degree Search Title: Transborder Studies (MAS)

Campus: ONLINE, TEMPE

Program Description:

The MAS in transborder studies is designed for the postbaccalaureate professional who seeks training in an integrated program that also provides for differentiation via three thematic options. The course of study is designed to provide a cohesive and holistic program of learning that focuses on the complex economic, political, ecological, social and cultural issues of a co-evolving border region of the U.S. Southwest and Mexico. Students

will be required to engage in an intensive internship process in which they will apply their learning. The program will also provide a choice to explore one of the following three areas more deeply:

- Transborder culture, language and learning: focuses on the interrelated processes of cultural emergence, language development and learning as they interact with each other in conjunction with the development of mathematical and scientific reasoning skills, literacy skills and critical thinking in the transborder context.
- Transborder media and expressive culture: provides students with an interdisciplinary understanding of how representation, interpretation and language shape, and are shaped by Chicana/o, Mexican and Latina/o culture in a transborder context.
- Transborder migration, health and applied social policy: provides students with theoretical and applied frameworks for understanding border communities in the areas of migration, health, education, environment and other areas affecting social development.

Degree Requirements: 30 credit hours including the required capstone course (TCL 608), a written comprehensive exam, an oral comprehensive exam and a foreign language exam.

Required Courses:

TCL 502 A Deep History of the United States/Mexico Borderlands II (3)

TCL 503 Epistemologies and Transborder Thought (3)

TCL 504 Tools for Transborder Research (3)

Select one of the following three:

TCL 505 Theories and Methods of Migration, Health and Applied Social Policy (3)

TCL 506 Theory and Methods of Transborder Media and Expressive Culture (3)

TCL 507 Theory and Methods of Transborder Cultural Acquisition, Language Development, and Learning (3)

In Addition:

TCL 601 Internship (3 semesters) (9)

TCL 608 Capstone Course: Transmitting Transborder Studies to Publics and Institutions (3)

TCL 691 Seminar (6)

Admission Requirements: • Applicants must submit an online Graduate Education application.

- A minimum of a bachelor's (or equivalent) or a graduate degree from a regionally accredited college or university is required. The bachelor's must be in the social sciences, humanities, sciences, health, education, business or professional field.
- A minimum of a 3.00 cumulative GPA (4.00=A) is required in the last 60 hours of a student's bachelor's degree program.
- GRE required.
- Test of English as a Foreign Language (TOEFL) required for applicants whose native language is not English, see <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>).

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Liberal Arts and Sciences.

Attend Online: ASU offers this program in a fully online format-no face-to-face sessions required. We offer six enrollment sessions throughout the year, and you learn in accelerated, 7.5-week classes.

Transportation Systems (certificate), Certificate (GCTRANSCE)

Online Degree Search Title: Transportation Systems (Grad Certificate)

Campus: TEMPE

Program Description:

Transportation has emerged as one of the highest priority issues for policy makers, employers and citizens. The transportation systems certificate program enhances the education of current and future transportation professionals to respond to this challenging environment. It builds upon existing programs in five disciplines, offered in five colleges and two campuses in the ASU system. The program approaches the subject from an integrated systems perspective. It exposes students to a range of transportation alternatives and the interrelationships among transportation, economic development, land use, energy and the environment.

The certificate program offers current ASU graduate students and transportation professionals the opportunity to pursue a wide range of

Academic Catalog Archive 2014-2015 584

transportation-related issues from a multimodal and interdisciplinary perspective. The certificate is intended to be either a specialization within an existing master's degree or as a stand-alone, 15-credit-hour, nondegree program.

Degree Requirements: 15 Credit hours including the required capstone course (PUP 593), or 15 credit hours including the required applied project course (PUP 593).

the applied project course, PUP 593 (3)

a seminar course (3)

three electives from an approved list of transportation-related courses (including at least one from a field outside the student's major)

Students are strongly encouraged to include, as one of the three elective courses, a course in methods or techniques applicable to transportation systems planning. In the applied project course, students are encouraged to work with transportation professionals in their area of interest to identify a project that is of interest to the broader public.

All decisions related to program offerings and departmental participation are made in cooperation with the transportation systems certificate admissions and advisory committee, which includes a member from each participating department.

Admission Requirements:

Admission to the transportation certificate program is the same for both new students and current degree-seeking students.

Applicants must:

- Complete the online Graduate Education application.

Submit responses to two essay questions:

- What do you expect to gain from the transportation certificate?
- What types of courses within the certificate would be the most helpful in meeting your objective?
- Provide a current resume.
- Provide official transcripts.
- Provide official Test of English as a Foreign Language (TOEFL) scores for applicants whose native language is not English. Information regarding English proficiency requirements can be found on the Graduate Education website.

Questions regarding transcript requirements need to be directed to Graduate Education.

Applicants who wish to seek a graduate degree in any of the cooperating departments and who are not currently enrolled in ASU must complete the full graduate school application process as specified by the department of interest, in addition to an online application for the transportation certificate. Please see department guidelines for admission to a degree program. Please be aware that admission to a degree program and the transportation certificate program are independent of each other. Applicants interested in applying for the transportation certificate in addition to a degree program must also complete an admission essay for the certificate program that is independent from an admission essay for a degree program.

Admission to the program will be determined by the transportation systems certificate admissions and advisory committee, consisting of representatives from each of the participating programs.

For US Department of Education Gainful Employment Program Disclosure information, see

<https://catalog.asu.edu/files/disclosures/GCTRANSCE/Gedt.html> (<https://catalog.asu.edu/files/disclosures/GCTRANSCE/Gedt.html>).

Students must fulfill the requirements of both Graduate Education and those of the College of Liberal Arts and Sciences.

Urban and Environmental Planning, MUEP (ARURBMUEP)

Online Degree Search Title: Urban and Environmental Planning (MUEP)

Campus: TEMPE

Program Description:

The MUEP is accredited by the Planning Accreditation Board. It is an interdisciplinary, professional degree designed to prepare students for leadership roles in planning in the public and private sectors. The curriculum includes a common core of required courses which provide linkage between knowledge and practice and fundamental theories and skills.

As active scholars and teachers in an accredited planning program, our faculty have a wide range of interests and expertise, including in the areas of:

- desert cities
- disaster recovery planning
- housing
- infrastructure planning
- international development
- land use and environmental planning
- planning history
- public participation
- regional development

Faculty research and teaching interests especially focus on the following broad interdisciplinary themes:

- Community Development for Social Equity: http://geoplan.asu.edu/muep_communitydevelopment (http://geoplan.asu.edu/muep_communitydevelopment)
- Spatial and Economic Analysis: http://geoplan.asu.edu/muep_spatialeconomic (http://geoplan.asu.edu/muep_spatialeconomic)
- Transportation Planning and Policy: http://geoplan.asu.edu/muep_transportation (http://geoplan.asu.edu/muep_transportation)
- Urban Design and Sustainable Cities: http://geoplan.asu.edu/muep_cities (http://geoplan.asu.edu/muep_cities)

The master's program in urban and environmental planning offers a unique opportunity to integrate urban and environmental aspects of planning in a rapidly developing metropolitan area. Individual practical experience in planning is provided through an optional internship program and applied research. In addition to the planning faculty, the program is enriched by the interdisciplinary participation of faculty from other academic units of the university and leading planning practitioners from the Phoenix area.

Degree Requirements: 47 credit hours and a thesis, or 47 credit hours including the required applied project course (PUP 593), or 47 credit hours including the required capstone course (PUP 580).

The plan for the master's 47 credit hours has the typical distribution as follows:

electives (21)

- required core courses, including either the capstone studio, thesis or professional project (26)

Students must complete the required core courses and select an area of specialization. Students must also select a capstone studio, a professional project or a thesis option. Successful completion of an approved statistics course, if not achieved by the student as an undergraduate, will be required as a deficiency.

Concurrent Degrees:

This degree is also offered as concurrent degree with:

- Public Administration (MPA) - Downtown Phoenix
- Public Policy (MPP)
- Sustainability (MA)
- Sustainability (MS)
- Sustainable Solutions (MSUS)

Accelerated Degrees:

This degree is also offered as an accelerated degree with Urban Planning, BSP

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

To be considered for the master's program in urban and environmental planning, the applicant must submit the Graduate Education online application and fulfill all admission requirements of Graduate Education, in addition to meeting admission requirements of the School of Geographical Sciences and Urban Planning. The following materials are required:

- an application to Graduate Education
- current resume
- GRE scores
- official transcripts from all other colleges and universities attended

statement of intent (maximum 600 words) explaining the applicant's:

- academic and professional background and, if appropriate, preparation for the selected area of specialty (this may include written samples or a

portfolio, but these are not required)

- educational objectives
- interest in planning
- proof of English language proficiency*
- three letters of recommendation from references who are qualified to comment on the applicant's potential in the selected area of study

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency in the form of Test of English as a Foreign Language (TOEFL) scores.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Urban Planning, PHD (ARPUPPHD)

Online Degree Search Title: Urban Planning (PhD)

Campus: TEMPE

Program Description:

The PhD in urban planning will educate scholars for positions in leading universities, research institutions, nongovernmental organizations, international multilateral institutions, national, state and local governments, and high-level consulting firms. The program will provide a strong foundation for undertaking research in planning, urbanism, urban design and urban sustainability.

While topics and methods will be wide ranging and will include spatial, theoretical and urban design inquiry, the focus of the doctorate will be on the built environment, its problems and potential solutions that improve the quality of life of urban residents.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

required core courses (6)

program electives and research (34)

PUP 701 Urban Planning Colloquium (two semesters, for total of two hours)

PUP 799 Dissertation (12)

Admission Requirements: • Applicants must submit online Graduate Education application.

• Minimum of a master's degree (or equivalent) is required or a graduate degree from a regionally accredited college or university of recognized standing in a related field such as: urban studies, geography, environmental studies, sustainability, architecture, public policy, public administration.

• A Minimum of a 3.00 cumulative GPA (scale is 4.00="A") in the last 60 credit hours of a student's bachelor's degree program is required. A minimum GPA of 3.00 is required in the master's work for acceptance into the PhD program.

• GRE is required.

• Test of English as a Foreign Language (TOEFL) required for applicants whose native language is not English. Please visit <https://students.asu.edu/graduate/proficiency> (<https://students.asu.edu/graduate/proficiency>) for more information.

An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and those of the College of Liberal Arts and Sciences.

Nursing & Health Innovation, College of

Adv Nursing Practice (Women's Health NP), DNP (NUANPWHDNP)

Online Degree Search Title: Women's Health Nurse Practitioner (DNP)

Campus: DTPHX

Program Description:

This program is designed for nurses seeking to become advanced-practice nurses as women's health nurse practitioners. Providing a foundation for this specialty are graduate courses in application of theory to advanced practice; application of evidence to advanced practice; advanced pathophysiology; advanced health assessment; and advanced practice nursing role. The DNP program is designed to be accessible to students living or working at a distance, with course work delivered in a hybrid online format in which students attend on-campus sessions two to three times each semester.

Women's health care theory and clinical courses include theories, principles and clinical skills in the care of women and their families. Courses focus on critical thinking, diagnosis, problem-solving and nursing management of women throughout the maternity cycle and with common gynecological problems. Client education, communication and collaboration are emphasized.

Degree Requirements: 84 credit hours including the required applied project course (DNP 707).

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a nurse practitioner doctoral program. This program includes 1,125 practicum hours, exceeding the ANCC requirement.

Admission Requirements:

Applicants must submit an online Graduate Education application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of a bachelor's degree in nursing from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00, or a cumulative GPA equal to 3.00 (4.00=A) or higher for any baccalaureate or graduate degree attained
- a current unencumbered license*
- satisfactory completion of the analytical writing section of the GRE
- three online recommendations from individuals knowledgeable about the applicant's academic and nursing leadership potential and one self-evaluation submitted by the applicant
- an interview with a representative of the specialty area
- proof of English proficiency**

*If clinical practice will occur outside of Arizona, the student must have a current unencumbered license in the state where clinical practice will be conducted. If clinical practice will occur within Arizona, the student must have a current unencumbered Arizona license to practice as a registered nurse.

**Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency per the Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Students are admitted once a year to start in the fall semester.

Students must fulfill the requirements of both Graduate Education and the College of Nursing and Health Innovation.

Advanced Nursing Practice, DNP (NUANPDNP)

Online Degree Search Title: Advanced Nursing Practice - DNP

Campus: DTPHX

Program Description:

The DNP in advanced nursing practice program is designed for master's prepared, advanced practice nurses. Courses are designed for clinical experts and are innovative, interesting and organized to provide students with expert colleagues and mentors across the U.S. who can challenge them to take their practice to a new level.

Degree Requirements: 84 credit hours including the required applied project course (DNP 707).

Postmaster's applicants should identify a relevant clinical issue related to advanced practice nursing that they would like to pursue during their doctoral program. Students will complete 540 hours of clinical practice residency and the program courses. Completion of an evidence-based doctoral applied project is required. Each project will be developed individually with each student. Each student will have a primary mentor working with them on the project. Clinical practice residency hours will be used to complete the project in a practice setting; work settings may be included, but specific objectives will be developed individually with each student that may be different from the student's job. Rural health and experiences with disadvantaged and multicultural populations are encouraged and sites are available for these experiences.

Admission Requirements:

Applicants must submit an online Graduate Education application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of a Master of Science degree in nursing from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00, or a cumulative GPA equal to 3.00 (4.00=A) or higher for any baccalaureate or graduate degree attained
- a current unencumbered license*
- three online recommendations from individuals knowledgeable about the applicant's academic and nursing leadership potential and one self-evaluation submitted by the applicant
- an interview with a representative of the specialty area
- proof of English language proficiency**

*If clinical practice will occur outside of Arizona, the student must have a current unencumbered license in the state where clinical practice will be conducted. If clinical practice will occur within Arizona, the student must have a current unencumbered Arizona license to practice as a registered nurse. All students must have current certification as an advanced practice nurse.

**Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency per Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools (CGFNS).

Students are admitted once a year to start in the fall semester.

Advanced Nursing Practice (Adult Nurse Practitioner), DNP (NUANPADDNP)

Online Degree Search Title: Adult Nurse Practitioner (DNP)

Campus: DTPHX

Program Description:

The DNP in advanced nursing practice with a concentration in adult nurse practitioner, is designed for Registered Nurses who seek to become advanced-practice nurses as adult nurse practitioners. Providing a foundation for this specialty are graduate courses in application of theory to advanced practice; application of evidence to advanced practice; advanced pathophysiology; advanced health assessment; and advanced practice nursing role. The program is designed to be accessible to students living or working at a distance, with course work delivered in a hybrid online format in which students attend on-campus sessions two to three times each semester.

Graduates in the adult nurse practitioner concentration are prepared to provide primary care to adults who are in various states of health in a variety of settings. Health promotion and illness prevention are among the essential threads integrated throughout the program of study. Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt will be made to arrange this in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student will be required to complete the clinical experience in the Phoenix area. Rural health and experiences with disadvantaged and

multicultural populations are encouraged, and sites are available for these experiences.

Degree Requirements: 84 credit hours including the required applied project course (DNP 707).

Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.

The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing the DNP. The program includes 1,170 practicum hours, exceeding the ANCC requirement.

Admission Requirements:

Applicants must submit the Graduate Education online application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of a bachelor's in nursing from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00, or a cumulative GPA equal to 3.00 (4.00=A) or higher for any baccalaureate or graduate degree attained

Child and Adolescent Mental Health Intervention (certificate), Certificate (NUCAMHICE)

Online Degree Search Title: Child and Adolescent Mental Health Intervention Specialist (Grad Certificate)

Campus: DTPHX

Program Description:

The College of Nursing and Health Innovation at ASU offers the nation's first child and adolescent mental health intervention specialist graduate certificate program. This innovative program is designed specifically for pediatric and family nurse practitioners, physicians and other interdisciplinary health care providers who desire to enhance their knowledge and skills in the assessment and management of common mental and behavioral health problems in children and adolescents. This graduate certificate curriculum is predominantly an online distance education program with two daylong visits to the ASU Downtown Phoenix campus for orientation and intensive learning.

Degree Requirements: 15 credit hours.

Nine credit hours of this program can be transferred into the college's post-master's child and family psychiatric mental health nurse practitioner program for those students desiring more depth in assessing and treating child and adolescent mental health problems as a child and family psychiatric mental health nurse practitioner.

Admission Requirements:

Applicants must submit the Graduate Education online application.

- Applicants must either have an MS in nursing and work as a pediatric and family nurse practitioner or pediatric clinical nurse specialist, or be a health-related professional (e.g., physician, social worker, physician assistant) with experience in child and adolescent behavioral and mental health.
- Current health care licensure in the applicant's state of residence is needed for admission to this certificate program.
- Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Nursing and Health Innovation.

Clinical Research Management, MS (NUCRMMS)

Online Degree Search Title: Clinical Research Management (MS)

Campus: DTPHX, ONLNE

Program Description:

The MS in clinical research management program prepares students to lead complex global clinical research operations at multiple types of employer settings in the rapidly growing clinical research industry. Graduates of the program will be qualified to fill specialized positions in regulatory affairs and clinical research operations. Potential employers include medical drug, device and product developers, governmental regulatory agencies, health care institutions, organizations conducting clinical research, academic medical institutions, and national and international contract research organizations.

The clinical research management program offers a transdisciplinary approach to education in the fiscal practices of conducting clinical research, the ethical and regulatory aspects of clinical research, and the overall operational management of clinical drug, biological and medical device trials. The program is designed to be flexible, making it convenient for the adult learner.

Degree Requirements: 33 credit hours including the required capstone course (HCR 566).

A three- to six-credit-hour capstone clinical research project is required.

Admission Requirements:

Applicants must submit an online Graduate Education application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- a bachelor's degree from a nationally recognized, regionally accredited academic institution in one of the following fields: clinical research, health science, nursing, allied health or life science
- or, a bachelor's degree (in any other field) with research or health care experience and completion of all prerequisite courses*
- an undergraduate junior and senior GPA equal to 3.00, or a cumulative GPA equal to 3.00 (4.00=A) or higher, for any undergraduate or graduate degree attained
- three online recommendations from individuals knowledgeable about the applicant's academic and leadership potential are required
- proof of English language proficiency**

*The following undergraduate three-credit prerequisite courses, or their equivalent in background or experience, must be completed with a grade of "C" (2.00) or better:

- anatomy and physiology
- medical terminology

**Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Nursing and Health Innovation.

Applications are accepted year-round for enrollment in fall, spring or summer.

Clinical Research Management (Regulatory Science), MS (NUCRMRSMS)

Online Degree Search Title: Clinical Research Management (Regulatory Science) (MS)

Campus: ONLINE

Program Description:

The purpose of this concentration is to prepare students for careers in the regulatory aspects of clinical research. The regulatory science concentration uses a multidisciplinary approach and encompasses course work in regulatory writing techniques, quality systems, and medical device or pharmaceutical regulation. The concentration is designed to develop the student's understanding of how to meet regulatory oversight requirements as they relate to the conduct of clinical studies. The concentration offers an alternative course option for students pursuing the clinical research management degree.

Degree Requirements: 33 credit hours including the required capstone course (HCR 566).

Required Core Courses: 12 credit hours

HCR 551 Clinical Research Monitoring (3)

HCR 552 Medical Device Approval and Regulation (3) OR HCR 564 Capstone Clinical Research Management Project (3)

HCR 567 Research Management and Contemporary Research Topics (3)

HCR 574 The Institutional Review Board and Human Research (3)

Required Concentration Courses: 18 credit hours

HCR 552 Medical Device Development & Regulation (3) OR

HCR 555 Pharmaceutical Safety & Risk Management (3) OR

HCR 565 Clinical Research Operations (3)

HCR 553 Quality Assurance and Clinical Research (3)

HCR 558 Technical Writing for the Regulatory Professional (3)

HCR 561 Responsible Conduct of Clinical Research (3)

HCR 562 Clinical Research Data Management and Technology Implementation (3)

HCR 563 Fundamentals of Regulatory Affairs (3)

Electives: None Required.

Culminating Experience: 3 credit hours

HCR 566 Capstone Clinical Research Management Project II (3)

Total required credit hours: 33

Admission Requirements:

Degree(s): This program requires a bachelor degree in clinical research, health science, nursing, allied health or life sciences, or a bachelor degree in any other field and health care related experience or research, and the completion of all prerequisite courses. The following undergraduate three-credit prerequisite courses, or their equivalent in background and experience, must be completed with a grade of "C" or better:

- anatomy and physiology
- medical terminology

GPA: A minimum of a 3.00 cumulative GPA (scale is 4.00=A) in the last 60 hours of a student's first bachelor's degree program is required. A minimum of 3.00 cumulative GPA (scale is 4.00 = A) in the applicable master's degree is required.

English Proficiency Requirement for International Applicants: Students whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency. The clinical research management regulatory science concentration adheres to Graduate Education policies requiring minimum acceptable TOEFL scores of 550 (PBT) or 83 (iBT).

Required Admission Examinations: None

Evidence-Based Practice in Nursing and Healthcare (certificate), Certificate (NUEVIDNSCE)

Online Degree Search Title: Evidence-Based Practice in Nursing and Healthcare (certificate)

Campus: DTPHX

Program Description:

The evidence-based practice in nursing and health care graduate certificate program is designed to prepare nurse clinicians, educators and other health care professionals as experts in evidence-based practice. This 18-month program is user friendly and constructed in a distance-learning, online format to facilitate involvement of participants throughout the U.S. and the world. Two on-site visits to ASU are required. The initial visit is an orientation and the final visit is an immersion.

Admission Requirements:

Applicants must submit an online Graduate Education application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of an accredited master's degree with a 3.00 cumulative GPA (4.00=A) or current enrollment in an accredited master's degree program with a cumulative 3.00 GPA and approval by program director
- submit a letter of support from the applicant's agency
- submit official transcripts from the applicant's academic degree institution(s)

Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Nursing and Health Innovation.

Family Nurse Practitioner (certificate), Certificate (NUFMPGRCE)

Online Degree Search Title: Family Nurse Practitioner (Grad Certificate)

Campus: DTPHX

Program Description:

This program is designed for nurses seeking to become advanced-practice nurses as family nurse practitioners. Providing a foundation for this specialty are graduate courses in application of theory to advanced practice; application of evidence to advanced practice; advanced pathophysiology; and advanced health assessment. The course focus is on development of expertise in providing primary care to individuals of all ages within traditional, nontraditional and culturally diverse families. Focused clinical experiences are arranged with preceptors and administrators in the student's local health care setting. Rural health and experiences with disadvantaged and multicultural populations are encouraged.

Degree Requirements: 22 credit hours.

This graduate certificate program (including 585 clinical hours) prepares nurses with their master's to become family nurse practitioners.

Prerequisites required, or equivalent courses taken in master's program:

DNP 604 and 630 Human Pathophysiology (3) - across the lifespan

DNP 605 and 631 Advanced Health Assessment (3) - across the lifespan

DNP 608 and 632 Pharmacology (3) - across the lifespan

DNP 609 and 610 Advanced Practice Nursing Role (3)

Students will have an individual review of their transcripts and an individualized program of study designed to meet certification requirements. This may add up to one year of additional study to complete this certificate.

Admission Requirements:

Applicants must submit an online Graduate Education application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of a master's degree in nursing from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (4.00=A) or higher for any baccalaureate or graduate degree attained
- a current unencumbered license*

- satisfactory completion of the analytical writing section of the GRE
- three online recommendations from individuals knowledgeable about the applicant's academic and nursing leadership potential and one self-evaluation submitted by the applicant
- an interview with a representative of the specialty area
- international applicants: proof of English language proficiency**

*If clinical practice will occur outside of Arizona, the student must have a current unencumbered license in the state where clinical practice will be conducted. If clinical practice will occur within Arizona, the student must have a current unencumbered Arizona license to practice as a registered nurse. All students must have current certification as an advanced practice nurse.

**Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency per the Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Family Psychiatric and Mental Health Nurse Practitioner (certificate), Certificate (NUPMNUPRCE)

Online Degree Search Title: Family Psychiatric and Mental Health Nurse Practitioner (Grad Certificate)

Campus: DTPHX

Program Description:

This 28-credit postmaster's certificate is designed for advanced practice nurses seeking to become a family psychiatric mental health nurse practitioner. This certificate is delivered using a hybrid format with the majority of course work completed online. In-person attendance is required for several immersion sessions at the ASU Downtown Phoenix campus. Please contact the graduate program office for specific details.

Degree Requirements: 28 credit hours.

This graduate certificate program (including 585 clinical hours) prepares nurses with a master's to become family psychiatric mental health nurse practitioners.

Prerequisites required, or equivalent courses taken in master's program:

DNP 604 and 630 Human Pathophysiology (3) - across the lifespan

DNP 608 Pharmacology (2) - across the lifespan

DNP 605 and 631 Advanced Health Assessment (3) - across the lifespan

DNP 609 and 610 Advanced Practice Nursing Role (3)

Students will have an individual review of their transcripts and an individualized plan of study designed to meet certification requirements.

Depending on how many prerequisite courses are completed in the master's, up to one year of additional study may need to be added to complete this specialty.

Admission Requirements:

Applicants must submit an online Graduate Education application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- master's degree in nursing from a nationally recognized, regionally accredited academic institution
- official transcripts from all academic institutions
- unencumbered RN license in the state where the student plans to do the clinical practicum experience*
- three online recommendations from individuals knowledgeable about the applicant's academic and nursing leadership potential and one self-evaluation submitted by the applicant
- an interview with a representative of the specialty area
- international applicants: proof of English language proficiency**

*Students who live out of state may complete clinical practicums in their own state if suitable practicum sites are available and they agree to contract with the College of Nursing and Health Innovation.

**Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency per the Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Geriatric Nursing (certificate), Certificate (NUGNCERT)

Online Degree Search Title: Geriatric Nursing (Grad Certificate)

Campus: DTPHX

Program Description:

This program will prepare practice leaders who are responsive to societal and cultural needs and who are committed to providing and improving evidence-based practice in geriatric nursing. The target groups for this certificate are nurses, nursing faculty and nurse practitioners who want to increase their knowledge related to evidence-based practice geriatric care. Nursing faculty teaching in associate degree programs and baccalaureate programs are particularly targeted so this knowledge area can be added to basic programs of nursing in Arizona.

Admission Requirements:

Applicants must submit an online Graduate Education application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of a bachelor's degree in nursing from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00, or a cumulative GPA equal to 3.00 (4.00 = A) or higher for any baccalaureate or graduate degree attained
- submission of a resume
- submission of a goal statement
- three online recommendations
- an interview with program faculty
- proof of English proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

International Health for Healthcare Professionals (certificate), Certificate (NUHCRGRCI)

Online Degree Search Title: International Health for Healthcare Professionals (Grad Certificate)

Campus: DTPHX

Program Description:

The international health for health professionals graduate certificate prepares health care personnel to meet the global health challenges of the 21st century. Students receive comprehensive education in the promotion of holistic, culturally responsive evidence-based care within and outside the U.S.

Course content includes the provision of care in the presence and absence of natural (e.g., earthquakes) and human-made disasters (e.g., war), the spread of chronic and infectious diseases, economic and political issues, and other factors that pose substantial challenges to world health promotion and disease prevention.

This graduate certificate is offered as a part- or full-time hybrid online distance program with two daylong visits to ASU Downtown Phoenix campus and a capstone immersion experience.

Admission Requirements:

Applicants must submit an online Graduate Education application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- undergraduate-prepared nurse or health-related professional (e.g., social worker, physician, psychologist, dentist) with a baccalaureate or graduate degree from a nationally or internationally recognized and regionally accredited academic institution, or equivalent
- an undergraduate junior and senior GPA equal to 3.00, or a cumulative GPA equal to 3.00 (4.00=A) or higher for any baccalaureate or graduate degree attained
- professional license in the state where the individual capstone project will be conducted, if required (e.g., RN, NP, MSW, PA or MD)
- resume or curriculum vitae
- email addresses of three professional references who will be contacted (do not include friends or relatives) for completion of online recommendations*
- fingerprint clearance or proof of application for U.S. citizens and applicants with permanent U.S. resident status
- photocopy of current, valid passport
- applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency

*Referees will be contacted by Graduate Education, with a request to complete a reference questionnaire.

Nursing (Community Health Advanced Practice Nursing), MS (NUCHNDTMS)

Online Degree Search Title: Community Health Nursing (MS)

Campus: DTPHX

Program Description:

The community health nursing graduate program provides theoretical and practical foundations for advanced practice in community and public

health nursing in public or private sector health care settings. Graduate courses in nursing theory, research, epidemiology and biostatistics provide a foundation for practice in community and public health nursing. By combining public and community health theory with nursing theory and research, the community health nurse considers all influences on the population and community in decision-making and outcome evaluation. The major focus in this specialty area is on utilizing public health sciences and skills in the assessment of communities and populations, policy development, program planning, effective communication and the impact of cultural influences on health. The graduate in community and public health is actively engaged in education (e.g., community, staff, students and colleagues), case management, expert clinical practice, consultation, research and administration.

Degree Requirements: 45 credit hours including the required applied project course (NUR 593).

The practicum and internship requirements include 540 clock hours. At the completion of the program, students are eligible to take the American Nurses Credentialing Center exam for national certification as an advanced public health nurse.

Admission Requirements:

Applicants must submit an online Graduate Education application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of a bachelor's degree in nursing from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (4.00=A) or higher for any undergraduate or graduate degree attained
- a current unencumbered license in the state where internship or practicum will be conducted or an unencumbered Arizona license to practice as a registered nurse to enroll in nursing practicum courses
- satisfactory completion of the analytical writing section of the GRE
- three online recommendations from individuals knowledgeable about the applicant's academic and nursing leadership potential and one self-evaluation submitted by the applicant
- an interview with the program faculty
- proof of English proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency per Graduate Education requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

Applications to the program are accepted each year for fall semester enrollment.

Nursing (Nursing Education), MS (NUNURSEDMS)

Online Degree Search Title: Nursing Education (MS)

Campus: DTPHX

Program Description:

The MS program is designed to foster scholarship, creativity and innovation that prepares the nurse educator for leadership roles in academic and practice settings. The program offers advanced-level courses that can be used to provide a seamless transition to the PhD or the DNP program, depending on career goals. At the completion of the program, graduates with two years of teaching experience may be eligible to take the National League for Nursing certification examination.

Degree Requirements: 38 credit hours including the required applied project course (NUR 593).

This degree program culminates in an applied project related to learner-centered education. The core of the program consists of 15 hours of courses and a practicum, which focuses on the science and art of nursing education, theory and practice courses related to one of the current clinical specialties.

Admission Requirements:

Applicants must submit an online Graduate Education application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of a bachelor's degree in nursing at a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00 or a cumulative GPA equal to 3.00 (4.00=A) or higher for any baccalaureate or graduate degree attained
- current unencumbered license*
- three online recommendations from individuals knowledgeable about the applicant's academic potential and a self-assessment form submitted by the applicant
- an interview with program faculty
- proof of English language proficiency**

*If clinical practice will occur outside of Arizona, the student must have a current unencumbered license in the state where clinical practice will be conducted. Nursing and Healthcare Innovation, PHD (NUNHIPHD)

Online Degree Search Title: Nursing and Healthcare Innovation (PHD)

Campus: DTPHX

Program Description:

The PhD in nursing and healthcare innovation is designed for scholars who wish to pursue careers as leaders in health policy, education and research. This degree will also help to address a national need for faculty and researchers who are increasingly in short supply.

This program is offered in traditional onsite delivery format and innovative synchronous online delivery, designed to maintain our commitment to a highly mentored, interactive learning experience. Several different modalities are used to enhance the student's learning, including multimedia presentations, asynchronous discussion boards and live chats.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Up to 30 credit hours from a previously awarded master's may count toward this requirement. Twelve credit hours are required in a substantive area of concentration and may be taken in any semester, based on availability and student interest. Twenty-four credit hours of course work with a research focus are required, including 12 hours of dissertation credit.

Students are required to enroll in a minimum of nine credit hours per semester for years one and two of their program of study. The program of study can be as broad or as narrow as the student and the supervisory program committee deem necessary for the student's career goals. Students may choose from the following five substantive areas of study:

- aging
- education
- children, teens and families
- health care innovation leadership
- world health

The program may incorporate courses from other disciplines to further refine substantive areas of study.

Written and oral comprehensive examinations are required. Students must also complete and successfully defend a written dissertation.

Admission Requirements:

Applicants must submit an online Graduate Education application. Admission to the doctoral program in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- completion of a bachelor's or master's degree in nursing or a related field from a nationally recognized, regionally accredited academic institution
- a cumulative undergraduate GPA of at least 3.00 or a cumulative graduate GPA of at least 3.50 (4.00=A)
- submission of a current resume, goal statement essay, and a writing sample
- completion of a current inferential statistics prerequisite course by post-master's applicants
- GRE scores are recommended, but not required
- proof of English proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Students must fulfill both the requirements of Graduate Education and the College of Nursing and Health Innovation.

Students are admitted once a year to start in the fall semester.

Regulatory Science and Health Safety, MS (NURSHSMS)

Online Degree Search Title: Regulatory Science and Health Safety (MS)

Campus: DTPHX

Program Description:

The MS in regulatory science and health safety is designed to prepare students for careers in the field of regulatory affairs. The aim of the program is to instruct students about the development and commercialization of medical drugs, devices and other regulated products. The program will focus on safety, as a fundamental aspect of regulatory science, and on leadership development. The program uses a multidisciplinary approach to meet the unique needs of regulating bodies and the regulated industry. It encompasses course work in clinical research, ethics, quality systems, quantitative methods and statistics, leadership and project management in the regulatory field. Students will develop skills that incorporate an evidence-based approach to decision-making, clinical research, regulations and the evaluation of the safety of health products, including drugs, medical devices and nutritional products. They will also develop leadership and project management skills.

Admission Requirements:

Applicants must submit an online Graduate Education application. Admission to graduate status in the College of Nursing and Health Innovation is based upon meeting the following requirements:

- a bachelor's degree from a nationally recognized, regionally accredited academic institution
- an undergraduate junior and senior GPA equal to 3.00, or a cumulative GPA equal to 3.00 (4.00 = A) or higher from any undergraduate or graduate degree attained
- three online recommendations from individuals knowledgeable about the applicant's academic and leadership potential
- proof of English proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Applications are accepted once per year for fall semester enrollment.

Students must fulfill both the requirements of Graduate Education and those of the College of Nursing and Health Innovation.

Public Programs, College of

Applied Ethics and the Professions (Leadership, Management, and Ethics), MA (LAAEPLMEMA)

Online Degree Search Title: Applied Ethics (Ldrshp, Mgmt, and Ethics) MA

Campus: DTPHX

Program Description:

Students pursuing the MA in applied ethics and the professions concentration (leadership, management and ethics) examine a variety of considerations facing managers and leaders in public, private and nonprofit organizations and consider the question of how ethical judgments might be made in these settings.

Topics covered include, but are not limited to, the following issues:

- How does management or leadership contribute to the organization's overall sense of social responsibility? Is the manager or leader seeking moral objectives or moral ends, the right policies or outcomes?
- Is the manager or leader doing the right things for the right reasons and with the proper attention to matters of character and integrity?
- What is the relationship between managers or leaders and followers, and how, if at all, does the act of leadership itself appreciably alter the values of the group in a positive way?

Completion of this degree concentration prepares the student to act more ethically and responsibly as an individual in their organization and in society, as well as to help those groups develop more ethical cultures.

Degree Requirements: 30 credit hours including the required applied project course (AEP 593).

Graduate course work is distributed as follows:

required core courses (6)

required concentration course (3)

elective concentration courses (15)

required capstone courses (6)

Admission Requirements:

All applicants must submit the Graduate Education online application and meet all Graduate Education admission criteria, including those regarding English proficiency, and submit the following:

- GRE, LSAT or MCAT scores
- official transcripts from all postsecondary institutions attended
- statement of interest in applied ethics and career goals
- three letters of recommendation

Students must fulfill both the requirements of Graduate Education and the College of Public Programs.

Assessment of Integrative Health Modalities (certificate), Certificate (PPSWGGRCH)

Online Degree Search Title: Assessment of Integrative Health Modalities (Grad Certificate)

Campus: DTPHX

Program Description:

The School of Social Work graduate certificate in assessment of integrative health modalities will focus on integrative health, the current term used by practitioners in the field who feel strongly that treating the whole person - body, mind and spirit - is the route to the highest quality of health.

The purpose of the certificate is to enhance students' knowledge of integrative health practices. It will provide students with extensive knowledge of integrative health practices through directed readings in evidence-based journal articles, expert lectures from community health professionals and ASU faculty drawn from across disciplines, field observation, an individual research paper and a mindfulness in-class practice and class interaction

that can enhance the quality and effectiveness of treating clients holistically.

Degree Requirements: 15 credit hours.

The certificate will require the completion of credits hours distributed among three required courses, including two approved interdisciplinary electives:

SWG 655 Quality of Life (3)

SWG 656 Treating the Whole Person (3)

SWG 657 Ancient Healing Traditions (3)

In addition, after the completion of three approved courses and prior to completing the last course of the program, students are required to complete a research project highlighting their certificate experience.

Admission Requirements:

Students interested in applying to this program must submit the online Graduate Education application, official transcripts (if not on file with ASU), and the Graduate Education application fee. Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

In addition, applicants are required to submit to the School of Social Work:

- a resume
- a one- to two-page statement
- the School of Social Work application to the assessment of integrative health modalities certificate program

No more than two certificate courses may be completed before applying for admission to the certificate program.

This certificate is open to professionals in social work, nursing or related health and human service professions from the community as well as to students currently admitted to a health and human services degree program at the master's or doctoral level. A minimum of a bachelor's in health or human services or related field is required for entry into the certificate program.

Students must fulfill both the requirements of Graduate Education and those of the College of Public Programs.

Community Resources and Development, MS (PPRECDTMS)

Online Degree Search Title: Community Resources and Development (MS)

Campus: DTPHX

Program Description:

The MS in community resources and development is offered by the School of Community Resources and Development. The master's program prepares students to analyze and understand critical topics and issues pertinent to the fields of tourism; parks and recreation management; nonprofits and nongovernmental organizations; and sustainable communities.

Students choose between two academic options: the thesis or the professional option.

Degree Requirements: 30 credit hours and a thesis, or 36 credit hours and a master's research paper.

Completion of the master's in community resources and development requires two years of study, on the average. Students may select a thesis or professional option. The thesis option is a research-oriented degree and is recommended for students planning to continue graduate studies beyond the master's degree. The professional option is intended for students seeking additional knowledge and expertise relevant to professional career development. Advising and direction in both options are under the direct supervision of an assigned faculty member.

Program Requirements: Thesis Option

The thesis option consists of a minimum of 30 credit hours, including six credit hours of thesis, which must be defended in an oral examination before a supervisory committee of at least three faculty members, one of whom resides in another department.

CRD 500 Research Methods (3)
CRD 502 Statistical and Data Analysis (3)
CRD 552 Critical Issues in Recreation and Tourism (3)
CRD 555 Theoretical Perspectives in Community Development (3)
advanced inquiry (3)
electives (9)
CRD 599 Thesis (6)

Program Requirements: Professional Option

The professional option consists of 36 credit hours, including six credit hours of practicum. A signed affiliation agreement is required to be on file with the graduate coordinator before registration. The purpose of the 300-hour practicum is to provide graduate students with in-depth, agency-based professional experiences. The student committee consists of two school faculty members and one community or agency professional. At the end of the practicum, the student is required to submit a written description and analysis of the project and to present the results to the committee.

CRD 500 Research Methods (3)
CRD 502 Statistical and Data Analysis (3)
CRD 530 Recreation and Tourism Service Management (3)
CRD 552 Critical Issues in Recreation and Tourism (3)
CRD 555 Theoretical Perspectives in Community Development (3)
CRD 580 Practicum (6)
electives (15)

Accelerated Degrees:

This degree is also offered as an accelerated degree with:

Parks and Recreation Management, BS
Tourism Development and Management, BS

Acceptance to the graduate program requires a separate application. Eligible students will be advised in their Junior and Senior years by their academic department to apply.

Admission Requirements:

Students applying to the master's program must have achieved a GPA of 3.00 or the equivalent in the last two years of work leading to the bachelor's degree. Applicants should submit the following items to Graduate Education by March 1 to be considered for fall admission or Oct. 1 for spring admission:

- all undergraduate transcripts
- an online Graduate Education application
- application fee
- statement of professional and academic goals
- GRE scores
- three letters of recommendation
- current resume
- proof of English language proficiency*

*Applicants whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

Only complete application files are reviewed or considered for admission. Students without undergraduate academic work in related disciplines are required to take six credit hours of deficiency course work in addition to the master's requirements. Deficiency course work may be taken in conjunction with master's classes.

Students must fulfill both the requirements of Graduate Education and those of the College of Public Programs.

Community Resources and Development, PHD (PPCRDPHD)

Online Degree Search Title: Community Resources and Development (PhD)

Campus: DTPHX

Program Description:

The School of Community Resources and Development offers a graduate program leading to the PhD in community resources and development.

The doctoral program in community resources and development is a theoretically grounded, research-intensive degree program designed to prepare graduates for research-oriented careers in higher education, governmental agencies, nonprofit organizations and private-sector businesses. The program is based on the concept of building sustainable and healthy communities as the unifying principle in the established focus areas of:

- community studies
- nonprofit leadership and management
- parks, recreation and leisure
- tourism development and management

The theoretical and methodological approaches embedded in this program serve to integrate scholarship in these areas, in order to gain a more meaningful understanding of, and impact on, community life and dynamics. The program is interdisciplinary in nature. The core faculty engaged in this program is housed in the School of Community Resources and Development at the Downtown Phoenix campus. In addition, the program builds on current collaborations with faculty with related research interests from many ASU departments, schools and centers.

Degree Requirements: 84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation.

Up to 30 hours from a previously awarded master's degree can count toward the doctoral requirements.

All students are advised initially by the doctoral program director as a cohort. Students are required to take 24 credit hours of core course work, 15 hours of which are with the cohort during the first year and six hours of which are with the cohort during the second year. Students are assigned an individual advisor or mentor at the end of the first year of study. A supervisory committee is also formed at the end of the first year which reflects the interests of the student and faculty.

Each student develops a plan of study in consultation with the doctoral program coordinator, advisor and supervisory committee. Students complete at least 12 credit hours of elective course work, including courses from contributing disciplines, selected in consultation with their advisor to foster the interdisciplinary nature of the degree program. Students also complete at least six hours of CRD 792 Research and 12 hours of CRD 799 Dissertation. When the majority of course work has been completed and before dissertation research is started, students must complete a written examination followed by an oral examination. These examinations must be completed within five years of admission.

Admission Requirements:

Applicants must submit an online Graduate Education application. Applications are reviewed by the admission committee and recommendations for admission are then made by the graduate program director to the vice provost for Graduate Education. Minimum Graduate Education requirements must be met. Additionally, each applicant must provide:

- a current and professional resume
- a statement of academic and professional goals in sufficient detail to indicate compatibility with the educational objectives and capabilities of the doctoral program
- GRE test scores
- Test of English as a Foreign Language (TOEFL) scores*
- three letters of recommendation**

*International applicants are also required to submit Test of English as a Foreign Language (TOEFL) scores and a financial guarantee statement. An applicant whose native language is not English (regardless of where they may now reside) must provide proof of English proficiency.

**The letters may be a mix of academic and professional references, but each must address the applicant's capacity to successfully complete the doctoral program.

Admission recommendations are made only once a year, with admitted students beginning in the fall semester. To assure consideration for the ensuing fall semester, candidates should submit their application by Feb. 1.

Students applying to the program are expected to have a master's from an accredited institution which included a master's-level research methods and statistics class or classes. If deficiencies exist in community resource and development-related course work at the master's level, appropriate classes are suggested.

Students must fulfill both the requirements of Graduate Education and those of the College of Public Programs.
