Arizona State University East was established in 1996 at the former Williams Air Force Base, 23 miles southeast of ASU Main. There, ASU East and its educational partners have created the Williams Campus—a residential academic community focused on meeting the needs of students, business, industry, and the larger community. The 600-acre Williams Campus offers a small college environment, with access to the amenities of a major metropolitan area and the resources of a major research university.

ASU East offers degree programs that help students develop knowledge and skills they need for success in their professional, civic, and personal lives in the 21st century. Eighteen baccalaureate degree programs, five master's degree programs, and two certificate programs can be completed at ASU East, with additional programs in the planning stages. (See the "Morrison School of Agribusiness and Resource Management Baccalaureate Degrees and Majors" table, page 608, the "East College Baccalaureate Degrees and Majors" table, page 621, and the "College of Technology and Applied Sciences Baccalaureate Degrees and Majors" table, page 634.) The College of Technology and Applied Sciences offers a master's degree and a range of bachelor's programs in high demand areas of technology, the only programs of their kind in Arizona. The unique bachelor's and master's degrees in Agribusiness offered by the faculty in the Morrison School of Agribusiness and Resource Management lead to careers in one of the fastest growing sectors of global business. The Environmental Resources degrees offered through the Morrison School provide opportunities to study wilderness areas and urban habitats and how people's activities affect the regenerative ability of natural resources. East College offers a range of supporting courses for all ASU East programs and bachelor's degrees with majors in Business Administration, Applied Psychology, Nutrition, Elementary Education, Multimedia Writing and Technical Communication, Exercise and Wellness, and Interdisciplinary Studies. Students who are uncertain of their major may start college at ASU East as East College/No Preference majors.

Although it is a young campus, ASU East has already developed significant student-centered innovations in higher education that have earned national recognition.

ASU East assumed leadership in Arizona in developing and offering the Bachelor of Applied Science (B.A.S.) degree, a program designed specifically as a career progression degree for students holding the Associate of Applied Science (A.A.S.) degree. The B.A.S. emphasizes management, leadership, and communication skills, along with additional technical course work.

ASU East has also developed an innovative academic partnership with Chandler Gilbert Community College (CGCC). This partnership combines the strengths of the two institutions to provide ASU students with high quality education in a cost-effective way. CGCC provides lower division general education and major prerequisite courses that are directly equivalent to ASU courses and transfer automatically. ASU East provides both lower- and upper division courses in the major and upper division general studies and general interest courses. Through the partnership, students can get at the Williams Campus all the courses needed to graduate in four years with an ASU baccalaureate degree, generally at some savings in tuition.

New facilities, new programs, and new opportunities are constantly emerging at ASU East. The campus is easily accessible via major interstate routes. See the map on page 661. For the latest information, call 480 727 EAST (3278) or access the Web site at [www.east.asu.edu](http://www.east.asu.edu).

### Accreditation

The North Central Association of Colleges and Schools accreditation of ASU Main includes ASU East. In addition, ASU East programs in Aeronautical Engineering Technology, Electronics Engineering Technology, and Manufacturing Engineering Technology are accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc. (TAC of ABET). For more information, call 410 347 7700 or write

TECHNOLOGY ACCREDITATION COMMISSION  
OF THE ACCREDITATION BOARD FOR  
ENGINEERING AND TECHNOLOGY INC  
111 MARKET PLACE SUITE 1050  
BALTIMORE MD 21202-7102

Both the airway science flight management and the airway science management concentration, in the Department of Aeronautical Management Technology, are fully accredited by the Council on Aviation Accreditation. For more information call 334 844 2431, e-mail [caa@auburn.edu](mailto:caa@auburn.edu), or write

COUNCIL ON AVIATION ACCREDITATION  
3410 SKYWAY DRIVE  
AUBURN AL 36830

### ACADEMIC ORGANIZATION AND ADMINISTRATION

The chief operating and academic officer of ASU East is the provost. There are two colleges and one school at ASU East administered by deans. These academic units develop and implement the teaching, research, and service programs of the institution. Additional support for the academic mission of the campus is provided by Library Services and Information Technology, each administered by a director. See "ASU East Faculty and Academic Professionals," page 663, and "Academic Organization," page 8.

### ADMISSION

**Nondegree Students.** Nondegree students may take courses at ASU East according to the special provisions under "Admission of Undergraduate Nondegree Applicants," page 60.

**Degree-Seeking Students.** Degree-seeking students must meet the university admissions standards set by the Arizona Board of Regents (ABOR). Any student admitted to ASU may take courses at ASU East. To be admitted to an ASU East degree program, the student must meet undergraduate admissions requirements and the specific admission requirements of the ASU East program. A student who is admitted to an ASU East degree program is defined as an ASU East student.

For more admissions information and applications to ASU East degree programs, call 480 727 EAST (3278) or write

<sup>1</sup> Walk-ins are welcome, appointments are recommended

<sup>2</sup> The Barrett Honors College is located at ASU Main.

### Transfer Among ASU Campuses

Degree seeking students currently enrolled at either ASU Main or ASU West who want to relocate to an ASU East degree program should contact the OASIS at ASU East, the Office of the Registrar at ASU Main, or the Admissions and Records Office at ASU West for appropriate procedures. All credit earned at any ASU campus automatically transfers to ASU East. Students should consult with their ASU East major advisor to determine how this credit applies to their major and graduation requirements. Students should be aware that certain requirements (e.g., the minimum number of upper division semester hours to graduate) may differ among campuses.

### TRANSFER CREDIT

Courses taken from Chandler Gilbert Community College through the Partnership in Baccalaureate Education are automatically transferred to ASU East each semester. These courses and courses taken at other Arizona public community colleges transfer according to equivalencies established in the current Arizona Higher Education Course Equivalence Guide. (Transfer guides are available at [www.asu.edu/provost/articulation](http://www.asu.edu/provost/articulation). The acceptability and applicability of courses transferred from other universities and community colleges is determined by ASU Main Undergraduate Admissions in consultation with the faculty or academic advisor of the student's choice of major.

### JOINT ADMISSION CONTINUOUS ENROLLMENT (JAC)

**JAC 001 Joint Admission Continuous Enrollment.** 0-12 F, S, SS  
For use by ASU East to track undergraduate students admitted to East Campus degree programs who are concurrently enrolled or solely enrolled in courses offered by Chandler Gilbert Community College.

### ADVISING

Students are encouraged to take advantage of the skill and knowledge of the advising professionals available to them in the academic units and to seek academic advising early.

For more information or to schedule an advising session, contact an academic advisor (see the "Academic Advising at ASU East" table, page 605)

### ASU EXTENDED CAMPUS

The College of Extended Education was created in 1990 to extend the resources of ASU throughout Maricopa County, the state, and the region. The College of Extended Education is a university-wide college that oversees the ASU Extended Campus and forms partnerships with other ASU colleges to meet the instructional and informational needs of a diverse community.

The ASU Extended Campus goes beyond the boundaries of the university's three physical campuses to provide access to quality academic credit and degree programs for working adults through flexible schedules; a vast network of off-campus sites; classes scheduled days, evenings, and weekends, and innovative delivery technologies including television, the Internet, and independent learning. The Extended Campus also offers a variety of professional continuing education and community outreach programs.

For more information, see "ASU Extended Campus," page 683, or access the Web site at [www.asu.edu/xed](http://www.asu.edu/xed).

### CAMPUS AND STUDENT SERVICES

ASU East is a student-centered campus that offers many of the features of a small residential college in a rural area while providing access to the resources of a major research university and the amenities of a large metropolitan area. The campus includes excellent educational facilities: modern classrooms and laboratories, a 21st century electronic library, and state-of-the-art computer equipment. Other amenities include a learning center, child care services, campus union bookstore, copy center, and free parking. A shuttle service provides transportation between ASU East, Mesa Community College, and ASU Main. An additional shuttle is available for transportation from ASU Main to ASU West.

### Enrollment Services—OASIS

The OASIS provides one-stop services for admission, financial aid, business services, and registration. Conveniently located in the Academic Center Building, students find personnel ready to assist them with registration processes, tuition payment, financial assistance information, student employment, ASU Sun Cards (photo IDs), and parking information.

### Student Affairs

Staff provide new student advising orientation programs, workshops, academic advising for undeclared majors, support for clubs and organizations, international and multicultural students, and students with disabilities. Staff also provide career advising and assessment, career planning workshops, career exploration software programs, and internship information.

### Williams Campus Housing and Residential Life

Living on campus at ASU East provides students with the best opportunity to make the most of their college experience. No matter which housing option students choose, the Residential Life program offers social, academic, and recreational activities that are designed to support and enrich the

student's campus life experience. Residential students benefit from easy access to campus resources such as the library, learning center, fitness center, and campus union, and parking is available for residents at no extra cost.

ASU East's unique residential environment offers housing options for Williams Campus students throughout their undergraduate and graduate education. This includes residence halls, houses, and special residential communities. Residential students can also take advantage of such amenities as outdoor swimming, sand volleyball, tennis, and picnic areas.

**Freshman Year Experience Residence Hall.** Freshmen can begin their on-campus living experience in a dedicated freshman residence hall that includes the Freshman Year Experience (FYE) program. The FYE program helps freshmen achieve academic and personal success by providing on-site tutoring and advising, as well as enhanced opportunities for student learning, campus involvement, and out-of-class interaction with faculty. Research has consistently shown that freshmen participating in living, learning communities, such as FYE, have greater academic success. The FYE residence hall offers two-bedroom suites with a shared bath, to house four students. Each hall also features a computer lab, study area, and community lounge. An optional meal plan is offered through campus dining.

**Residence Halls.** Undergraduate and graduate students are eligible for residence halls with a large private room, featuring a private bath and a shared kitchenette. Students may, if they prefer, elect to share a room with another student. Each room includes basic furnishings; the kitchenette includes a refrigerator and microwave.

**Houses.** A large number of two to five-bedroom houses are available for students with families or for groups of single undergraduate or graduate students. Each house includes basic furnishings.

**Special residential communities.** Special residential communities for honors students, students in particular academic majors, and students sharing common interest areas are also available.

All residential facilities are non-smoking. For more information, call the Williams Campus Housing Office at 480 727 1700, or access the Web site at [www.asu.edu/east/cls/housing](http://www.asu.edu/east/cls/housing).

### Library Services

Strong resources and personal service define the ASU East Library. As a primarily electronic research library, it is designed to take maximum advantage of new technology. Electronic indexes, catalogs, and journals support study and research in many fields, with an emphasis on the majors offered at ASU East. While the library acquires materials in all formats, by intention it prefers electronic text. Thousands of periodicals are available digitally in all subjects, while those that remain in print form can be obtained by the library quickly. Documents in electronic form can be delivered directly to students' computers. Librarians and staff pursue service customized to individual students' needs, cultivating a small college atmosphere. The library's Web address is [eastlib.east.asu.edu](http://eastlib.east.asu.edu).

### Computing Services

With more than 200 workstations in five classrooms and a Computing Commons, information technology at ASU

East provides general computing services, including e-mail and general purpose computing. The IT East department provides specialized software and systems to meet the particular needs of the ASU East programs. In addition, IT East provides mediated classrooms and audiovisual material to support e-learning initiatives. IT East has a staff of support personnel to aid the campus community's diverse computing needs, including Web development.

### Williams Campus Union

The Campus Union is the center of the campus community, serving students, faculty, staff, and guests. Union facilities include meeting and study rooms, a ballroom, TV lounge, and a game room. Programs and services such as movie nights, ice cream socials, dances, and holiday parties complement the educational mission of the Williams Campus and enhance the quality of campus life. The union is staffed primarily by students, providing them the opportunity to develop leadership skills and a customer service orientation. For more information, call 480 727 1098.

### Learning Center

In the Learning Center, undergraduate and graduate students can study, conduct research, and access writing assistance, subject area tutoring, and computer-assisted instruction. Staff members also provide workshops and in-class presentations on writing, presentation, and study skills. Located in the Academic Center Building, the Learning Center offers a convenient and quiet study location for individual students and study groups. Leisure reading is encouraged by offering recycled paperback books and magazines to borrow and comfortable furnishings in which to relax. All Learning Center services are free to enrolled students. For more information or to schedule a tutoring appointment, call 480 727 1452.

### Recreational Facilities and Services

The Williams Campus Fitness Center is equipped with state-of-the-art weight training and cardiovascular machines, racquetball courts, and a gymnasium. Trained exercise professionals are on hand daily to provide personal training assistance. A variety of health, fitness, and sports classes are also offered at the Fitness Center. For students who prefer outdoor sports activities, the campus has basketball and tennis courts, soccer/football fields, baseball fields, a running track, and swimming pool. For more information, call 480 988 8400.

### Student Health Services

Health services for ASU East students are provided by the Veteran's Administration Medical Center located at the Williams Campus. Services include primary assessment and treatment of health problems and injuries, physical examinations and immunizations, women's health care, diagnostic tests, laboratory tests, X-rays, and a pharmacy. Health education and counseling, smoking cessation counseling, and wellness and health assessments are also available. Student registration fees cover the cost of office visits for full-time ASU East students. Part-time students pay a nominal fee. Some off-site procedures and laboratory tests require additional charges. Health insurance is not required to use the health services, however, it is strongly advised for all students and is required for international students. For more information, call 602 222 6568.

# Morrison School of Agribusiness and Resource Management

---

Raymond A. Marquardt, Dean

[www.east.asu.edu/msabr](http://www.east.asu.edu/msabr)

## PURPOSE

The Morrison School of Agribusiness and Resource Management provides academic programs in Agribusiness and in Environmental Resources. Agribusiness is the business of food and fiber production and the technology necessary to change a raw material (a commodity) or an idea into a new product or business for the world's consumers. Producing, financing, marketing, and providing food and fiber for the world amounts to more than one half of the earth's global economy.

Agribusiness courses in the Morrison School are designed to prepare students for a wide range of job opportunities in agribusiness and business. More than 20 percent of all jobs in the United States are agribusiness-related, and the industry is even more important internationally, with more than half of all jobs in developing countries related to food and fiber products. Population increases worldwide have led forecasters to predict that more than nine billion food and fiber consumers will be part of the global agribusiness system by the year 2050. Forecasts also estimate that, at that time, more than 20,000 agribusiness jobs will go unfilled due to a lack of skilled professionals.

The academic programs in Agribusiness are especially designed to meet the needs of the urban student who has little or no previous agriculture experience. An interest in plants, animals, or food can be the starting point for career development in agricultural industries or resource management. The undergraduate programs also provide the necessary training for students preparing to enter graduate degree programs.

The Morrison School is strategically positioned to offer some unique programs. The concentration in professional golf management provides a student with the opportunity to qualify for the Professional Golf Association certification program in addition to majoring in Agribusiness. Similarly, for individuals more interested in the development and management of golf and other turf facilities, the golf and facilities management concentration is well suited.

Food, its marketing and safety, is a paramount importance now and in the future. The Morrison School offers specific concentrations in both of these areas. Food and agribusiness marketing is one of the signature concentrations in the school. Food science and safety are emphases stressed in the food and agribusiness marketing concentration.

For students interested in natural resource management, the school offers a major in Environmental Resources. Environmental resources is a science that applies across the ecological continuum of wilderness areas and urban lands. Students learn not only about wildlands but also about urban habitats and how people's activities affect the regenerative ability of natural resources. The Environmental Resources

curriculum provides the opportunity to develop technological skills such as remote sensing of data from aircraft or satellites, computer-based Geographic Information Systems, and techniques for ecological restoration.

Graduates of the Environmental Resources programs have employment opportunities in environmental resource management, applied ecology, wildlife biology, soil and water conservation, and land reclamation in both private firms and government agencies.

## NATIONAL FOOD AND AGRICULTURAL POLICY PROJECT

The National Food and Agricultural Policy Project (NFAPP) constructs a 10 year baseline forecast for the fruit and vegetable produce industry and specific commodities, responds to congressional inquiries concerning policies affecting the fruit and vegetable industry, and publishes a monthly newsletter highlighting research efforts. Areas of study include domestic and international promotion of fruits and vegetables, trade and the impact of trade agreements, and crop insurance and risk management. For more information, call the director at 480/727-1124.

## DEGREES

See the "Morrison School of Agribusiness and Resource Management Baccalaureate Degrees and Majors" table, page 608. For graduate degrees, see the "Morrison School of Agribusiness and Resource Management Graduate Degrees and Majors" table, page 609.

The Morrison School of Agribusiness and Resource Management offers two B.S. degrees: Agribusiness and Environmental Resources. Students interested in the Agribusiness major may select from the following concentrations: agribusiness finance, food and agribusiness marketing, food science, general agribusiness, golf and facilities management, international agribusiness, management of agribusiness, professional golf management, resource management, e-commerce, and preveterinary medicine. The Environmental Resources major offers concentrations in ecology, watershed ecology, and wildlife habitat management.

For students holding an A.A.S. degree, the school offers the Bachelor of Applied Science degree with concentrations in consumer products technology, food retailing, and resource team specialist.

The school offers the M.S. degree in Agribusiness and the M.S. degree in Environmental Resources. Agribusiness students may select either a research oriented program which leads to the completion of a supervised thesis, or a program consisting of course work only (nonthesis option). All M.S. candidates in Agribusiness must complete a minimum of 36 semester hours. Students in the Environmental Resources

**Morrison School of Agribusiness and Resource Management Baccalaureate Degrees and Majors**

Major	Degree	Concentration	Administered By
Agribusiness	B.S.	Agribusiness finance, e commerce, food and agribusiness marketing, food science, general agribusiness, golf and facilities management, international agribusiness, management of agribusiness, preveterinary medicine, professional golf management, resource management	Morrison School of Agribusiness and Resource Management
Applied Science	B.A.S.	Consumer products technology, food retailing, resource team specialist	Morrison School of Agribusiness and Resource Management
Environmental Resources	B.S.	Ecology, watershed ecology, wildlife habitat management	Morrison School of Agribusiness and Resource Management

degree program may study natural resource management, Geographic Information System/remote sensing, and animal plant ecology All M.S. candidates in Environmental Resources must complete 30 semester hours of approved graduate work. See the *Graduate Catalog* for more information.

**ADMISSION**

The Morrison School of Agribusiness and Resource Management admits students to the B.S. degree programs who meet the undergraduate admission requirements of Arizona State University; see "Undergraduate Admission," page 54. Admission to the B.A.S. degree program is restricted to students holding an A.A.S. degree from a regionally accredited U.S. postsecondary educational institution. A GPA of 2.00 or higher is required for all resident applicants and 2.50 for nonresident applicants.

**GRADUATION REQUIREMENTS**

**Agribusiness—B.S.**

The completion of a minimum of 120 semester hours including First Year Composition, General Studies "General Studies," page 78, and the school and concentration requirements leads to the B.S. degree. Note that all three General Studies awareness areas are required. An overall GPA of 2.00 is required for graduation and students must have completed a minimum of 45 semester hours of upper division credit. Also see special graduation requirements under "Preveterinary Medicine," page 611.

**B.S. Agribusiness Prerequisite Courses**

Students who select the concentrations in agribusiness finance, food and agribusiness marketing, food science, general agribusiness, golf and facilities management, international agribusiness, management of agribusiness, or professional golf management must complete the following courses, some of which can also be used to meet university General Studies requirements.

ACC 230 Uses of Accounting Information I	3
ACC 240 Uses of Accounting Information II	3
BIO 100 The Living World SQ	4
CHM 101 Introductory Chemistry SQ	4
ECN 111 Macroeconomic Principles SB	3
ECN 112 Microeconomic Principles	3
ENG 301 Writing for the Professions L	3

MAT 210 Brief Calculus MA	3
Total	26

This course is not required for the professional golf management concentration.

\* This course is not required for the golf and facilities management concentration.

**Core Requirements.** Agribusiness employers require their employees to possess a greater range of skills and competencies than at any time in the past. Rapid changes in information technology and the increasingly competitive food production and distribution sector mean that agribusiness needs graduates adequately equipped to deal with the business applications of these changes. The agribusiness core, required of all the concentrations, is designed to prepare students with a core set of skills that these firms demand. The core consists of courses in business principles, management, marketing, and finance, as well as in the fundamentals of agribusiness operations management.

Core total	36

\* This course is not required for the professional golf management or golf and facilities management concentrations.

**Concentrations**

After completing the required agribusiness core, students select a concentration in their area of interest. A concentration allows a student to select a series of courses that complement the agribusiness core, supplement the student's desire to master another area of interest, and broaden career opportunities.

Morrison School of Agribusiness and Resource Management Graduate Degrees and Majors

Major	Degree	Concentration	Administered By
Agribusiness	M.S.	Agribusiness management and marketing, food quality assurance	Morrison School of Agribusiness and Resource Management
Environmental Design and Planning*	Ph.D.	Design; history, theory and criticism; planning	Committee on Environmental Design and Planning
Environmental Resources	M.S.	GIS/remote sensing, natural resource management, and range ecology	Morrison School of Agribusiness and Resource Management

Doctoral courses for these interdisciplinary programs administered by ASU Main are also offered at ASU East.

**E-commerce Concentration.** The extraordinary growth of e-commerce in the business and agribusiness venues provides significant opportunities for students prepared to work in this medium. A student following this concentration builds upon the prerequisite core and the agribusiness core to prepare for this field. The opportunities for personal development, advancement, and success are present domestically and internationally.

**Food and Agribusiness Marketing Concentration.** Students in the food and agribusiness marketing concentration develop critical skills relevant to dealing with firms involved in food, fiber, consumer products, and pharmaceutical manufacturing, distribution; and retailing. Students also learn about the relationship between input suppliers, commodity associations, and primary producers. To this end, food and agribusiness marketing students are required to complete a series of courses that analyze the behavior and performance of both commodity and consumer food markets.

**Food Science Concentration.** The food science concentration focuses on both scientific and technical competency skills with an emphasis on food microbiology, food chemistry, biotechnology, mathematics, and statistics. This unique program prepares graduates for employment opportunities in the food, beverage, and dairy industries; regulatory agencies such as the FDA and USDA; international organizations such as FAO and WHO, and consumer organizations. In addition, graduates may choose to pursue advanced degrees.

For an explanation of additional omnibus courses offered but not listed in this catalog, see "Classification of Courses," page 51.

**General Agribusiness Concentration.** The general agribusiness concentration offers students a chance to build a broad perspective in the field of agribusiness. In an age of specialization, there remains a growing need for generalists. These individuals have mastered finance, marketing, management, and other technologies such as computers and statistics and are capable of demonstrating this mastery.

**Professional Golf Management Concentration.** The Professional Golf Management (PGM) concentration, accredited by the Professional Golfer's Association of America, is specifically designed for students who aspire to become Class A PGA Professionals and work in management careers in the golf industry. PGM students complete the agribusiness core, which helps them develop the critical skills needed to manage complex organizations. In addition, the PGM concentration requires a minimum of 23 semester hours of golf-related curriculum, of which nine hours consist of hands-on internship experience at golf facilities. The remaining 14 semester hours include courses selected from the following areas: golf course operations, turf grass management, club fitting and repair, pro shop merchandising, movement analysis, sports psychology and equipment, mechanics and shop maintenance and repair. Students must also complete the majority of requirements in the PGA Golf Professional Training Program, including the PGA Playing Ability Test. All golf-related courses and internships are selected with the assistance of the PGM program director.

**PGM Admission.** To be admitted to the PGM program, students must meet a playing ability test. Call the PGM director at 480 727 1017 for more information.

**Golf and Facilities Management Concentration.** The Golf and Facilities Management (GFM) concentration is designed to prepare students to pursue careers as golf course superintendents. Through the agribusiness core, students develop the critical skills needed to manage complex organizations. In addition, the GFM concentration requires a minimum of 25 semester hours of golf and facilities management-related curriculum, of which six hours consist of hands-on internship experience at golf courses. The remaining 19 semester hours include courses selected from the following areas: golf course operations, plants and landscaping, soils, irrigation and water management, fertilizers, pest control, turf grass management, mechanics and shop maintenance and repair. The GFM concentration also requires the student to complete six semester hours of internship experience at golf facilities, providing valuable hands-on experience. Call the GFM program coordinator at 480 727 1256 for additional information.

<sup>2</sup> Both MIC 205 and 206 must be taken to secure SG credit.

<sup>3</sup> Both PHY 111 and 113 must be taken to secure SQ credit.

**Preveterinary Medicine.** A student studying agribusiness could also be preparing for admission to a professional veterinary school. While completing the courses needed for acceptance into veterinary school, the student is broadening his or her career potential with agribusiness courses. The major reason for the lack of success as a professional veterinarian is rarely bad medicine or science. It is often a lack of knowledge of how to run a business or practice. In addition, should a preveterinary student decide not to apply to a veterinary school, this major provides alternative career paths into human or veterinary pharmaceutical industries or the food industry. Selection of this concentration permits students to complete the preveterinary requirements for entrance to professional veterinary school. The curriculum permits the student to obtain some course work in agribusiness as it relates to professional practice and industry.

**Veterinary College Acceptance.** A student who has been accepted to a school of veterinary medicine before he or she has earned a B.S. degree in the Morrison School may do so by completing a minimum of 30 semester hours at ASU and the General Studies requirement. Students must receive a written statement from the dean of the Morrison School giving senior-in-absentia privileges. A student is eligible to receive the B.S. degree after the ASU Office of the Registrar receives a recommendation from the dean of the veterinary professional school and a transcript indicating the student has completed the necessary semester hours commensurate with ASU graduation requirements.

**Veterinary Medical Schools.** There are approximately 27 schools of veterinary medicine in the United States. Each school establishes the specific prerequisites that are required for admission. Advisors in the Morrison School assist students in designing their class schedules to meet the requirements of the veterinary schools to which they plan to apply. Each school generally looks for courses in biology, chemistry, genetics, microbiology, and organic chemistry. In addition to a science foundation, all students must meet the University General Studies requirement, complete 45 semester hours of upper-division courses, and satisfy the school requirements.

**Resource Management Concentration.** The resource management concentration combines the agribusiness con-

Maintaining fairways and greens is taught in the classroom and on the course.

**Environmental Resources—B.S.**

The primary emphasis of the Environmental Resources major is natural resource management and conservation. Particular attention is given to the study of ecosystem characteristics as they relate to the use of renewable resources. Students learn applications of ecological principles to resource management through examples drawn from forest, range, riparian, and urban ecosystems. The Environmental Resources major offers three concentrations: ecology, watershed ecology, and wild life habitat management.

**GRADUATION REQUIREMENTS**

The completion of a minimum of 120 semester hours including the First Year Composition requirement, General Studies ("General Studies," page 78), the Environmental Resources core, and selected concentration requirements leads to the B.S. degree. An overall GPA of 2.00 and a minimum grade of "C" in the Environmental Resources core are required for graduation. Students must have completed a minimum of 45 semester hours of upper division credit. Some of the Environmental Resources core courses may also be used to meet General Studies requirements.

**Ecology Concentration**

The ecology concentration focuses on connections between basic ecological principles and their application to a broad array of environmental challenges across a wide range of ecosystems. Course work concentrates on the interrelationships of soil, water, and vegetation systems and the fauna that inhabit these systems. In addition to a strong foundation in these areas, students are provided with the analytical tools and skills to evaluate and apply ecological concepts to management issues. Potential employers of graduates in this field of study include federal resource management agencies, environmental protection agencies, departments of environmental quality, state land departments, and private environmental consulting firms.

This concentration is completed by taking the ERS core curriculum and 25 hours of courses listed below, with a minimum of 10 hours from each group.

<i>Group A: Introductory and Background Ecology</i>	
ERS 307 Plant Identification	4
ERS 311 Applied Ecology	4
ERS 420 Ecological Restoration	3
ERS 425 Soil Classification and Management	3
ERS 433 Riparian Ecosystem Management	3

GPH 418 Landforms of the Western United States L	3
GPH 481 Environmental Geography	3

\* Both GLG 101 and 103 must be taken to secure SQ credit.

Additional courses must be approved by an advisor.

**Watershed Ecology Concentration**

The watershed ecology concentration underscores the importance of understanding and placing environmental processes and problems at the watershed or landscape level. Students completing this concentration have a solid background in physical and biological sciences. Upper division course work focuses on providing the intellectual capability and tools to address water related management issues. Graduates may pursue careers with federal and state agencies or in the private sector as resource managers, environmental health specialists, or consultants.

This concentration is completed by taking the ERS core curriculum and 25 hours of courses listed below, with a minimum of 10 hours from each group.

<i>Group A: Introduction and Background Watershed Ecology</i>

**Wildlife Habitat Management Concentration**

The wildlife habitat management concentration focuses on the connection between wildlife ecology and habitat management. The student completing this concentration gains a solid background in wildlife biology, coupled with a strong understanding of the physical and biological elements of vegetation ecology. Upper division course work provides those necessary tools to meet the challenges of maintaining a balance between biological diversity and social pressures on the wildland resources. Potential employers of graduates from this field of study include the U.S. Fish and Wildlife Service, U.S. Forest Service, Bureau of Land Management, Department of Defense, state wildlife management departments, and private environmental consulting firms.

This option is completed by taking the ERS core curriculum and 25 hours of courses listed below, with a minimum of 10 hours from each group.

*Group A Introduction and Basic Wildlife Habitat Management*

Organization, operation, and management of agricultural cooperatives.

**AGB 414 Agribusiness Analysis. (3)**

*fall and spring*

Analysis of agribusiness firm decisions in the economic, social, and political environments. Special emphasis on ethical issues surrounding food production and consumption. *General Studies: L*

**AGB 420 Food Marketing. (3)**

*spring*

Food processing, packaging, distribution, market research, new food research, and development, and social implications. Prerequisite: AGB 320.

**AGB 422 Consumer Behavior. (3)**

*fall*

Application of behavioral concepts in analyzing consumer food purchases and the implications for marketing strategies. Prerequisite: completion of Agribusiness core or its equivalent.

**AGB 424 Sales and Merchandising in Agribusiness. (3)**

*summer*

Principles and techniques of selling and merchandising in the agricultural and food industries.

**AGB 425 Agricultural Marketing Channels. (3)**

*fall*

Operational stages of agricultural commodities in the distribution systems and implementation of marketing strategies. Prerequisite: AGB 320.

**NOTE:** For the General Studies requirement, courses and codes such as L, SQ, C, and H, see General Studies page 78. For graduation requirements, see "University Graduation Requirements," page 74. For an explanation of additional agribusiness courses offered but not listed in this catalog, see "Catalogation of Courses," page 51.

**AGB 429 Marketing Research. (3)***fa*

Examines the marketing research process and its role in facilitating agribusiness decisions. Emphasizes problem identification, survey design, and data analysis. Prerequisite: completion of Agribusiness core or its equivalent.

**AGB 431 Intermediate Agribusiness Financial Management. (3)***spring*

Comprehensive treatment of topics in financial management of agribusiness: capital structure, dividend policy, asset valuation, mergers, and acquisitions, risk management. Prerequisites: AGB 332, 333.

**AGB 433 Intermediate Agribusiness Financial Markets. (3)***spring*

Role and function of agribusiness in U.S. financial system. Topics include: rural banking, farm credit system, monetary policy, and federal reserve. Prerequisite: completion of Agribusiness core or its equivalent.

**AGB 434 Agricultural Risk Management and Insurance. (3)***fa*

Strategies to manage agricultural price and business risk, derivatives insurance, self-insurance, and public policy. Prerequisite: completion of Agribusiness core or its equivalent.

**AGB 436 Entrepreneurship and Financial Management of E-Commerce. (3)***fa*

Uses lectures, case studies, and business plans to highlight challenges of starting and running a small business. Lecture, seminar, case studies, computer labs.

**AGB 440 Food Safety. (3)***spring*

Control, prevention, and prediction of microbial and chemical foodborne diseases. Prerequisite: AGB 442 or instructor approval.

**AGB 441 Food Chemistry. (3)***spring*

Biochemical and chemical interactions that occur in raw and processed foods. Prerequisites: CHM 115, 231.

**AGB 442 Food and Industrial Microbiology. (4)***not regularly offered*

Food and industrial related microorganisms: deterioration and preservation of industrial commodities. Lecture/lab. Prerequisite: microbiology course with lecture and lab.

**AGB 443 Food and Industrial Fermentations. (3)***spring*

Management, manipulation, and metabolic activities of industrial microorganisms and their processes. Prerequisite: AGB 442 or instructor approval.

**AGB 445 Food Retailing. (3)***fa*

Food retail management. Discusses trends, problems, and functions of food retail managers with various retail institutions. Lecture, case studies.

**AGB 450 International Agricultural Development. (3)***fa*

Transition of developing countries from subsistence to modern agriculture. Emphasizes policies and implications for U.S. agribusiness working abroad.

*General Studies G***AGB 452 International Agricultural Policy. (3)***fa*

Use of international trade theory to analyze the effects of government policies, trade agreements, and exchange rates on agribusiness. Prerequisite: ECN 112.

**AGB 454 International Trade. (3)***spring*

International practices in trading of agribusiness, technology, and resource products and services.

**AGB 455 Resource Management. (3)***spring*

Explores differences between scarcity and individual valuations of natural resources and considers public policy versus market-based solutions to environmental concerns. Prerequisite: ECN 112.

*General Studies SB***AGB 456 World Agricultural Resources. (3)***fa*

World production and consumption of agricultural products, international relations, and agencies concerned with world agricultural development problems.

*General Studies G***AGB 457 Resource Policy and Sustainability. (3)***fa*

Considers the evolution of policy design, focusing on how resource and environmental concerns have affected agricultural development and trade policies. Prerequisite: ECN 112.

**AGB 458 Bioremediation. (3)***spring*

Technical, regulatory, and policy issues emanating from metal mining and animal waste. Lecture, case studies.

**AGB 460 Agribusiness Management Systems. (4)***spring*

Development and use of decision support systems for agribusiness management and marketing. Lecture, lab.

**AGB 463 Electronic Commerce Applications. (3)***fa*

Overview of electronic commerce technology with introduction to basics of design, control, operation, organization, and emerging issues. Prerequisite: AGB 460 or its equivalent.

**AGB 466 Integrated Pest Control. (2)***fa and spring*

Management of pests affecting golf turf and landscape plants. Structural Pest Control Board sprayer certification preparation offered during the semester. Lecture/lab.

**AGB 470 Comparative Nutrition. (3)***not regularly offered*

Effects of nutrition on animal systems and metabolic functions. Prerequisite: CHM 231.

**AGB 471 Diseases of Domestic Animals. (3)***spring*

Discussion of animal welfare, mechanisms of disease development, causes, and classification of diseases, disease resistance, and common zoonoses. Prerequisite: BIO 181.

**AGB 473 Animal Physiology I. (3)***not regularly offered*

Control and function of the nervous, muscular, cardiovascular, respiratory, and renal systems of domestic animals. Prerequisites: BIO 181, CHM 113.

**AGB 479 Veterinary Practices. (3)***fa and spring*

Observation of and participation in veterinary medicine and surgery supervised by local veterinarians. Prerequisite: advanced preveterinary student.

**AGB 480 Agribusiness Policy and Government Regulations. (3)***spring*

Development and implementation of government food, drug, pesticide, and farm policies and regulations that affect the management of agribusiness.

**AGB 484 Internship. (1-12)***fa and spring***AGB 490 Recent Advances in Agribusiness. (1)***fa and spring*

Reports and discussions of current topics and problems associated with agribusiness. May be repeated for credit.

**AGB 492 Honors Directed Study. (1-6)***not regularly offered*

Possible topics:

(a) Recent Advances in Food Science 1

**AGB 493 Honors Thesis. (1-6)***not regularly offered***AGB 494 Special Topics. (1-4)***not regularly offered***AGB 498 Pro-Seminar. (1-7)***not regularly offered***AGB 499 Individualized Instruction. (1-3)***not regularly offered***AGB 500 Research Methods. (1-12)***not regularly offered*

**AGB 501 Master's Thesis Preparation. (1)**

*fa and spring*

Step by step guidelines to major elements of a master's thesis along with practical guidelines for conducting research

**AGB 510 Advanced Agribusiness Management I. (3)**

*fa l*

Managing and financing agribusiness emphasizing environmental and economic sustainability in a global economy undergoing radical change. Prerequisite: AGB 310.

**AGB 511 Advanced Agribusiness Management II. (3)**

*spring*

Analysis of organizational behavior change, and resource requirements within agribusiness systems Prerequisite: AGB 310

**AGB 512 Food Industry Management. (3)**

*spring*

Operations and management of food processing factories, food distribution centers and retail food handling firms

**AGB 513 Advanced Cooperatives. (3)**

*fa l*

Advanced study of cooperatives and other nongovernmental organizations (NGO) focus on management and proposal preparation for international agencies

**AGB 514 Advanced Agribusiness Analysis I. (3)**

*spring*

Vertical integration and differentiation in food and agricultural industries. Prerequisite: AGB 510 or 528

**AGB 515 Agribusiness Coordination. (3)**

*spring*

Organizational alternatives for agribusiness with emphasis on cooperatives and trading companies Prerequisite: AGB 510 or 528

**AGB 528 Advanced Agribusiness Marketing. (3)**

*fa*

Theory and analysis of marketing farm commodities, risks and the effect of future trading on cash prices

**AGB 529 Advanced Agribusiness Marketing Channels. (3)**

*spring*

Analysis of agribusiness market channel systems. Formulation of marketing strategies.

**AGB 532 Advanced Agribusiness Finance. (3)**

*fa l*

Financial management of agribusiness firms agribusiness financial analysis, investment analysis agricultural risk management and introduction to agricultural financial derivatives Prerequisites: both computer literacy and 1 finance course or ony instructor approval

**AGB 535 Commodity Analysis. (3)**

*fa*

Analysis of commodity markets.

**AGB 536 Small Business Finance, Entrepreneurship, and E-Commerce. (3)**

*fa*

Uses lectures case studies and business plans to highlight challenges of starting and running a small business Lecture, seminar case studies, computer labs

**AGB 540 Advanced Food Science. (3)**

*not regularly offered*

Chemical and physical nature of processed foods Emphasis on food product development

**AGB 550 International Agricultural Development. (3)**

*fa*

Transition of developing countries from subsistence to modern agriculture Emphasis placed on implications for U.S. agribusiness working abroad

**AGB 551 Agribusiness in Developing Countries. (3)**

*spring*

Factors influencing successful development of agribusiness enterprises in developing countries including poverty access to capital and technology and trade opportunities

**AGB 552 International Agricultural Policy. (3)**

*fa l*

Use of international trade theory to analyze the effects of government policies, trade agreements and exchange rates on agribusiness

**AGB 554 Advanced International Trade. (3)**

*fa l*

Advanced international practices in trading of agribusiness technology and resource products and services

**AGB 557 Resource Policy and Sustainability. (3)**

*fa l*

Considers the evolution of policy design focusing on how resource and environmental concerns have affected agricultural development and trade policies

**AGB 558 Advanced Bioremediation. (3)**

*spring*

Management and policy issues related to bioremediation of metal mining and animal waste and replacement of chemical controls with biological methods Lecture case studies.

**AGB 560 Advanced Agribusiness Management Systems. (3)**

*not regularly offered*

Development and use of decisions on support systems for agribusiness management decisions on making Prerequisite: AGB 510

**AGB 561 Agribusiness Research Methods. (3)**

*fa*

Use of modeling, hypothesis testing and empirical analysis in solving agribusiness problems

**AGB 570 Managerial Economics for Agribusiness. (3)**

*fa l*

Concepts in micro and macroeconomics applied to agribusiness management environments price formation market structure information economics fiscal and monetary policy Prerequisites: introductory micro and macroeconomics.

**AGB 580 Practicum. (1-12)**

*not regularly offered*

**AGB 581 Advanced Agribusiness Policy. (3)**

*fa l*

Policy-making history structure and process

**AGB 583 Field Work. (1-12)**

*not regularly offered*

**AGB 584 Internship. (1-12)**

*not regularly offered*

**AGB 587 Resource Policy and Sustainability. (3)**

*fa l*

Considers the evolution of policy design, focusing on how resource and environmental concerns have affected agricultural development and trade policies

**AGB 590 Reading and Conference. (1-12)**

*not regularly offered*

**AGB 591 Seminar. (1-12)**

*not regularly offered*

**AGB 592 Research. (1-12)**

*not regularly offered*

**AGB 593 Applied Project. (1-12)**

*not regularly offered*

**AGB 594 Conference and Workshop. (1-12)**

*not regularly offered*

**AGB 595 Continuing Registration. (1)**

*not regularly offered*

**AGB 598 Special Topics. (1-4)**

*not regularly offered*

**AGB 599 Thesis. (1-12)**

*not regularly offered*

**AGB 600 Research Methods. (1-12)**

*not regularly offered*

**AGB 690 Reading and Conference. (1-12)**

*not regularly offered*

**NOTE:** For the General Studies requirement courses and codes such as L, SQ, C, and H), see "General Studies" page 78 For graduation requirements see "University Graduation Requirements," page 74 For an explanation of additional omnibus courses offered but not listed in this catalog, see "Classification of Courses" page 51

**ENVIRONMENTAL RESOURCES (ERS)****ERS 130 Introduction to Environmental Science. (4)***fa*

Introduction to soil resources, the physical and chemical properties, classification, energy dynamics, and the role of the environment. Laboratory. Lecture/lab. *General Studies SQ*

**ERS 191 First-Year Seminar. (1-3)***not regularly offered***ERS 207 Applied Plant Taxonomy. (2)***fa*

Introduction to identification of vascular plants. Survey of plant families. Field trips required. 2 hours lecture. Prerequisite: B O 182. Corequisite: ERS 208

**ERS 208 Applied Plant Taxonomy Laboratory. (2)***fa*

Techniques and practices: vascular plant identification. Lab. Prerequisite: B O 182. Corequisite: ERS 207

**ERS 225 Soils. (3)***fa*

Fundamental properties of soils and their relation to plant growth and the nutrition of man and animals. Relation of soils to environmental quality. Prerequisite: CHM 101 or 113. Corequisite: ERS 226

**ERS 226 Soils Laboratory. (1)***fa*

Selected exercises to broaden the background and understanding of basic soil principles. Lab. Corequisite: ERS 225

**ERS 246 Environmental Conservation and Ecology. (3)***spring*

Principles of environmental conservation from global history and ecology perspectives. Consideration of development/sustainability issues.

*General Studies G***ERS 294 Special Topics. (1-4)***not regularly offered***ERS 301 Ecology. (3)***fa*

Introduction to the principles of ecology emphasizing vegetation community ecology. Field trips required. Prerequisite: B O 182

**ERS 307 Plant Identification. (4)***fa*

Identification of key plants of western range lands and forests. Laboratory emphasis on grass identification. Lecture/lab. Prerequisite: ERS 207 or PLB 310. Corequisite: ERS 225

**ERS 311 Applied Ecology. (4)***spring*

Ecology principles and the impact on management of ecosystems. 3 hours lecture, 1 hour lab. Prerequisites: ERS 225, 301, 350

**ERS 333 Water Resources Management. (3)***not regularly offered*

Sources, development and conservation in arid regions for agricultural, natural resources and urban uses. Prerequisite: CHM 101 or 113.

**ERS 350 Environmental Statistics. (3)***fa*

Statistical methods with applications in natural resource management and the environmental sciences. Use of computers and the internet. Prerequisites: CSE 180, MAT 117

*General Studies CS***ERS 353 Wildlife Nutrition. (3)***not regularly offered*

Principles of nutrient metabolism in wild species with emphasis on understanding the interaction of wildlife with the environment. Prerequisites: a combination of B O 181 and 182 and CHM 101 or on instructor approval

**ERS 360 Range Ecosystem Management. (3)***fa*

Ecosystem management principles applied to range lands. Herbivory as an ecological process evaluated in a range land health multipurpose use. Field trips. Lecture/lab. Prerequisite: B O 320 or its equivalent, ERS 246

**ERS 364 Surface Water Hydrology. (3)***fall/even years*

Hydrology principles in an ecological context. Discharge measurements, open channel hydraulics, bed forms, sediment transport as applied to ecological problems. Lecture/lab, field trip. Prerequisite: ERS 350

**ERS 365 Watershed Management. (3)***not regularly offered*

Hydrology, physical biology and ecology principles applied to watershed management. Impact of ecosystem manipulations on water yield and quality. 1 weekend field trip. Prerequisites: ERS 225, 246

**ERS 402 Vegetation Measurement. (4)***spring*

Vegetation sampling and inventory as related to animal habitat relations. Lecture/lab, 1 weekend field trip. Prerequisites: a combination of ERS 301 and 307 and 350 and program major or on instructor approval.

**ERS 415 Wildlife Life Histories. (4)***spring*

Life histories of the major mammal, reptile, amphibian, and avian species found in the Southwest with emphasis on management. Lecture/lab. Prerequisites: B O 370 or 385, ERS 360

**ERS 420 Ecological Restoration. (3)***spring*

Techniques of ecological restoration applied for the improvement of arid and semiarid and sensitive habitats. Weekend field trips. Prerequisite: ERS 360

**ERS 425 Soil Classification and Management. (3)***not regularly offered*

Principles of soil genesis, morphology and classification. Presents management and conservation practices. Prerequisite: ERS 225

**ERS 433 Riparian Ecosystem Management. (3)***not regularly offered*

Examines the functions and components that make up riparian ecosystems and the management of these ecosystems. Lecture/lab, field trip. Prerequisite: ERS 225 or instructor approval

**ERS 434 Wetland Ecosystems and Soils. (3)***not regularly offered*

Wetland ecosystems structure and function including hydrology and biogeochemistry with special emphasis on soils. Lecture, weekend field trip. Prerequisite: ERS 225 or instructor approval

**ERS 448 Soil Ecology. (3)***not regularly offered*

Soil viewed in an ecosystem context: soil-plant relationships, nutrient budgets and abiotic factors that influence soil processes. Prerequisites: a combination of B O 320 and ERS 225 and 226 or only instructor approval

**ERS 449 Landscape Ecology. (3)***not regularly offered*

Causes and ecological consequences of spatial and temporal patterns in the environment. Prerequisite: ERS 301.

**ERS 460 Applied Systems Ecology. (3)***not regularly offered*

Systems approach applied to analysis and management of natural resource ecosystems. Use of simulation models. 2 hours lecture, 3 hours lab. Prerequisites: ERS 350 (or its equivalent) 1 course in ecology

**ERS 465 Surface Water Quality. (3)***spring/odd years*

Examines factors that impact water quality. Surface water sampling and analysis with interpretation for wildlife, humans and other users. Prerequisites: ERS 364, 365

**ERS 474 Wildlife Ecology. (3)***not regularly offered*

Integrates ecological concepts as applied to wildlife populations and their interaction with the habitat and other species. Lecture/lab, 1 weekend field trip. Prerequisite: ERS 360

**ERS 475 Wildlife Management. (4)***spring*

Principles and techniques of applied ecology for the management of wildlife populations. Lecture/lab. Prerequisites: ERS 311 and 474 or their equivalents

**ERS 477 Environmental Risk Assessment and Management. (3)**

*not regularly offered*

Survey of methods related to identification, evaluation, comparison and management of environmental risks. Prerequisite: senior standing.

**ERS 480 Ecosystem Management and Planning. (3)**

*spring*

Planning for management and conservation of wild and ecosystems. Ecological, economic and social constraints on long-term sustainable resource development. Computer software for resource planning. Lecture 1, weekend field trip. Prerequisites: ERS 402 or its equivalent, senior or standing.

*General Studies L*

**ERS 484 Internship. (1-12)**

*not regularly offered*

**ERS 485 GIS in Natural Resources. (3)**

*fall*

Principles of Geographic Information Systems. Geostatistical natural resource management. Use of computers for spatial analysis of natural resources. Lecture/lab. Prerequisite: CSE 180 or its equivalent.

**ERS 486 Remote Sensing in Environmental Resources. (4)**

*spring*

Principles and application of remote sensing technologies in natural resource management. Integration of computerized data from aerial photography and Landsat imagery in resource management. Lecture/lab. Prerequisite: ERS 485 or its equivalent.

**ERS 489 Undergraduate Research. (1-3)**

*fall and spring*

Undergraduate research under the supervision of an environmental resources faculty member. Prerequisite: senior or standing.

**ERS 490 Recent Advances in Environmental Resources. (1)**

*fall and spring*

Current literature and significant developments involving environmental resources. May be repeated for credit.

**ERS 492 Honors Directed Study. (1-6)**

*not regularly offered*

**ERS 493 Honors Thesis. (1-6)**

*not regularly offered*

**ERS 494 Special Topics. (1-4)**

*not regularly offered*

**ERS 498 Pro Seminar. (1-7)**

*not regularly offered*

**ERS 499 Individualized Instruction. (1-3)**

*not regularly offered*

**ERS 500 Research Methods. (1-12)**

*not regularly offered*

**ERS 533 Riparian Ecology. (3)**

*not regularly offered*

Review of recent literature, developments and methods related to riparian ecology. Applications of food webs and landscape ecology to riparian systems. Lecture/discussion/field trips.

**ERS 540 Plant Responses to Environmental Stresses. (3)**

*not regularly offered*

Reaction of plants to environmental stresses: air pollutants, fire, herbivores, mechanical treatments, pesticides and soil amendments. 1 weekend field trip. Prerequisite: ERS 360 or instructor approval.

**ERS 550 Vegetation Dynamics. (4)**

*fall*

Dynamics of vegetation emphasizing ecological succession, applications of landscape ecology and GIS, and analysis of vegetation data. Field trips. Prerequisite: introductory statistics course.

**ERS 551 Advanced Environmental Statistics. (4)**

*spring*

Advanced statistical procedures for environmental resources. Techniques for analyzing research data that do not meet assumptions. Student option. Prerequisite: ERS 350 or its equivalent.

**ERS 553 Advanced Animal Nutrition. (4)**

*not regularly offered*

Metabolic and physiological interactions of nutrients in wild and domesticated animal nutrition. Natural feed. Lecture/lab.

**ERS 560 Systems Ecology. (3)**

*not regularly offered*

Quantitative description and mathematical modeling of ecosystem structure and function. Techniques for model construction and simulation. Lecture/lab. Prerequisites: ERS 350 or its equivalent, computer programming, 6 hours of general studies.

**ERS 561 Spatial Statistics and GIS. (3)**

*fall*

Descriptive spatial data analysis and description. Semivariogram, variograms, kriging and GIS analysis. Lecture/lab. Prerequisites: ERS 350 and 485 or its equivalent.

**ERS 580 Practicum. (1-12)**

*not regularly offered*

**ERS 584 Internship. (1-12)**

*not regularly offered*

**ERS 585 Spatial Modeling with GIS. (3)**

*fall*

GIS technology for spatial modeling of natural resources. Practical application of GIS techniques for problem solving. Lecture/lab. Prerequisite: ERS 485 or its equivalent or instructor approval.

**ERS 590 Reading and Conference. (1-12)**

*not regularly offered*

**ERS 591 Environmental Resources Seminar. (1-12)**

*not regularly offered*

**ERS 592 Research. (1-12)**

*not regularly offered*

**ERS 593 Applied Project. (1-12)**

*not regularly offered*

**ERS 594 Conference and Workshop. (1-12)**

*not regularly offered*

**ERS 595 Continuing Registration. (1)**

*not regularly offered*

**ERS 598 Special Topics. (1-4)**

*not regularly offered*

**ERS 599 Thesis. (1-12)**

*not regularly offered*

**ERS 691 Seminar. (1-12)**

*not regularly offered*

---

**NOTE:** For the General Studies requirement courses and codes such as L, SQ, C and H, see General Studies page 78. For graduation requirements see University Graduation Requirements page 74. For an explanation of additional minor's courses offered but not listed in this catalog see Classification of Courses page 51.

# East College

---

David E. Schwalm, Dean

[www.east.asu.edu/ecollege](http://www.east.asu.edu/ecollege)

## PURPOSE

East College was created by the Arizona Board of Regents in February 1997 to serve four purposes:

1. to offer an array of upper division General Studies and general interest courses for students enrolled in ASU East degree programs;
2. to coordinate the Partnership in Baccalaureate Education with Chandler Gilbert Community College through which ASU East students are provided with lower-division General Studies and major prerequisite courses,
3. to offer an academic home for students who choose the unique environment of ASU East but do not wish to declare a major immediately, and
4. to develop new degree programs for ASU East

**General Studies/General Interest.** Each semester, East College offers a selection of popular upper division ASU General Studies and general interest courses, primarily for support of ASU East students but open to all ASU students who might find the time or location convenient. East College typically offers courses in anthropology, art, communication, economics, English, history, mathematics, music, philosophy, political science, psychology, religious studies, sociology, and women's studies. Students should refer to the current *Schedule of Classes* for specific courses offered at ASU East each semester. All credit earned at ASU East automatically transfers to ASU Main or ASU West.

East College also offers support courses for the Bachelor of Applied Science (B.A.S.) degree. The applied science core (ASC) courses are upper-division courses specifically designed to build upon the mathematics and science base acquired in the Associate of Applied Science (A.A.S.) degree.

## APPLIED SCIENCE CORE (ASC)

### ASC 301 Contextual Uses of Algebra in Technology. (1)

*fall and spring*

Uses algebra to solve real world technology problems using currently available computer software. Prerequisite: B.A.S. major

### ASC 302 Contextual Uses of Geometry in Technology. (1)

*fall and spring*

Uses geometric concepts to solve real world technology problems using currently available computer software. Prerequisite: B.A.S. major

### ASC 303 Contextual Uses of Trigonometry in Technology. (1)

*fall and spring*

Uses trigonometry to solve real world technology problems using currently available computer software. Prerequisite: B.A.S. major

### ASC 315 Numeracy in Technology. (3)

*fall and spring*

Contextual uses of mathematics in applied sciences. Emphasizes using mathematical methodologies to solve technology related problems. Prerequisite: B.A.S. major.

### ASC 325 Physical Sciences in Technology. (4)

*fall and spring*

Physical systems and the interactions on technology systems. Real world applications of physical systems. Lecture/lab. Prerequisite: B.A.S. major

**Partnership in Baccalaureate Education.** Through the partnership with Chandler Gilbert Community College, ASU East students take first year composition courses and courses that meet lower division ASU General Studies requirements listed in the "General Studies," page 78. These courses are available in an innovative integrated first-year curriculum designed to foster academic success. Students can also take major prerequisite courses, introductory language courses, and other lower division courses of general interest through the partnership.

**East College/No Preference Majors.** Students who would like to start their college careers at ASU East to benefit from the unique campus environment can declare "East College/No Preference" as an interim major while completing the General Studies requirements and searching for an ASU major that serves their personal and career objectives. East College provides advising for No Preference majors.

## DEGREE PROGRAMS

See the "East College Baccalaureate Degrees and Majors" table, page 621. For graduate degrees, see the "East College Graduate Degrees and Majors" table, page 622.

East College also offers certificate programs in Multimedia Writing and Technical Communication, minors in Food and Nutrition Management and Human Nutrition, and a concentration for the B.A.S. See the *Graduate Catalog* for more information about graduate programs.

## OTHER NEW PROGRAMS

East College has been authorized to plan a B.S. degree in Human Health, which is currently under development. For more information, access the East College Web site at [www.east.asu.edu/ecollege](http://www.east.asu.edu/ecollege).

## INTERDISCIPLINARY STUDIES—B.I.S.

The Bachelor of Interdisciplinary Studies (B.I.S.) is a university wide program intended for the student who has academic interests that might not be satisfied with existing majors. Building on two academic concentrations and an interdisciplinary core, students in the B.I.S. are expected to take an active role in creating their educational plan and defining their career goals. The B.I.S. emphasizes written communication, versatility, and critical thinking, skills desired in a changing workplace environment. Self assessment, and appraisal of opportunities to support academic and career goals are key elements in the core courses. The concentrations are generally based on approved academic minors, certificate programs, or special coherent clusters of

East College Baccalaureate Degrees and Majors

Major	Degree	Concentration	Administered By
Applied Psychology	B.S.		East College
Applied Science	B.A.S.	Multimedia writing and technical communication	East College
Business Administration	B.S.		East College
Elementary Education	B.A.E.		East College
Exercise and Wellness	B.S.		East College
Interdisciplinary Studies	B.I.S.	See "B.I.S. Concentrations" table, page 109.	Bachelor of Interdisciplinary Studies Advisory Committee
Multimedia Writing and Technical Communication	B.S.		East College
Nutrition	B.S.	Dietetics, food and nutrition management, human nutrition	Department of Nutrition

course work. The student should be able to integrate these into a meaningful program.

The combination of areas of concentration gives students flexibility in creating unique programs to accomplish individual academic goals. Students who declare the B.I.S. as their major in East College at ASU East take their core courses and at least one concentration through ASU East. The second concentration may be taken at ASU Main, ASU West, or ASU East. The B.I.S. core courses are offered by East College. Concentrations at ASU East are offered by East College, the College of Technology and Applied Sciences, and the Morrison School of Agribusiness and Resource Management. Students interested in the B.I.S. should arrange an appointment with an East College advisor at 480 727 1515 before declaring the B.I.S. major.

**Basic Requirements**

The B.I.S. requires 120 semester hours. The major is composed of a 12 hour core and a minimum of 36 hours in two concentrations (18 hours each). Throughout the core sequence, the student assembles a portfolio including self assessment of progress toward career goals and an evaluation of key educational and personal activities that may apply. The core courses must be taken in sequence. These courses may not be transferred from other institutions. BIS 302 and 401 may be taken concurrently. All core courses must be completed with a grade of "C" or higher.

**Core Courses**

BIS 301 Foundations of Interdisciplinary Studies L	3
BIS 302 Interdisciplinary Principles	3
BIS 401 Applied Interdisciplinary Studies	3
BIS 402 Senior Seminar L	3
<b>Total</b>	<b>12</b>

For course descriptions, see "Bachelor of Interdisciplinary Studies," page 111

**Other Requirements**

In addition to the basic requirements, students must complete all university requirements, including First Year Composition and General Studies. Early advising is recommended to ensure that students meet requirements efficiently and optimize their choices.

**Declaring the B.I.S. Major.** Students must receive approval from an East College advisor before declaring the B.I.S. major. In addition, the following requirements must be met:

1. 45 semester hours of college credit completed;
2. cumulative GPA of 2.00 for continuing ASU students or in state transfer students 2.50 for out of state transfers, and
3. selection of two concentrations with a minimum of two courses in each (minimum grade of "C") completed or one completed and one in progress (i.e., after the drop add period) in each area.

**Approved Concentrations**

Each concentration requires 18 semester hours, with each course completed with a grade of "C" or higher. Twelve of the hours must be in upper division courses. Students should check for new information about concentrations on the Web at [www.east.asu.edu/ecollege](http://www.east.asu.edu/ecollege) or contact an East College advisor at 480 727 1515.

**NOTE:** For the General Studies requirement courses and codes such as L, SQ, C, and H) see "General Studies" page 78. For graduation requirements, see "University Graduation Requirements" page 74. For an explanation of additional non-business courses offered but not listed in this catalog, see "Classification of Courses" page 51.

**East College Graduate Degrees and Majors**

Major	Degree	Concentration	Administered By
Curriculum and Instruction	Ph.D	Exercise and wellness education	Interdisciplinary Committee on Curriculum and Instruction
Exercise and Wellness	M.S.		East College
Nutrition	M.S.		Department of Nutrition

Doctoral courses for this interdisciplinary program administered by ASU Main are offered at ASU - East

**Faculty of Applied Psychology**

**Roger W. Schvaneveldt**  
*Faculty Head*  
 (CNTR 78) 480/727-1066

**APPLIED PSYCHOLOGY—B.S.**

This major offers a traditional psychology core leading to graduate school preparation and/or to applications in human factors with an emphasis on human computer interaction, aviation, or manufacturing. Although most careers in psychology require graduate training, there are some employment opportunities for B.S. students in applied settings. For example, there is a need for individuals who can help deal with problems of usability of products and systems. The Applied Psychology program offers courses and experiences to prepare students for these positions. The rigor of the major also provides strong preparation for further graduate study in psychology. The program serves students in other ASU - East programs such as engineering technologies, aeronautical management technology, information management technology, and business administration.

**Graduation Requirements**

The completion of 120 semester hours including First Year Composition, General Studies (see "General Studies," page 5), and major requirements leads to the B.S. degree. The major allows for at least 24 semester hours of electives. The major requirements for the B.S. degree in Applied Psychology consist of a 75-hour core of psychology courses: 12 hours in applied psychology, and 18 hours of related coursework.

**Core Courses (25 hours).** Core courses provide a general background in the basic scientific areas of psychology and provide a culminating experience to integrate the varied studies.

PGS 111	Introduction to Psychology SB	3
PGS 35	Social Psychology SB	3
PSY 25	Introduction to Statistics CS	3
PSY 79	Research Methods L/SG	4
PSY 72	Sensation and Perception	3
PSY 324	Memory and Cognition	3
PSY 325	Physical Psychology	3
PSY 477	Applied Psychology Capstone Experience or HON 495 Honors Thesis	3

Total 75

This PSY course is offered only by ASU - East

**Applied Psychology Courses (12 hours).** Students work with an advisor to select courses in Applied Psychology emphasizing human computer interaction (HCI) aviation, training, manufacturing, or methods. Course work must include a minimum of four of the following courses.

AMT 41	Aviation Safety and Human Factors	3
PGS 471	Psychological Testing	3
PSY 32	Learning and Motivation	3
PSY 330	Statistical Methods CS	3
PSY 360	Cognitive Science	3
PSY 39	Experimental Psychology L	3
PSY 437	Human Factors L	3
PSY 438	Human Computer Interaction	3
PSY 439	Training and Skill Acquisition	3
PSY 44	Industrial/Organizational Psychology	3
PSY 494	Special Topics	1-4

\* This PSY course is offered only by ASU - East.

**Sample 12-hour Course Sets**

**Human Computer Interaction**

PSY 437	Human Factors
PSY 438	Human Computer Interaction
PSY 44	Industrial/Organizational Psychology
PSY 494	Special Topics

**Aviation**

PSY 437	Human Factors
PSY 438	Human Computer Interaction
PSY 44	Industrial/Organizational Psychology
AMT 410	Aviation Safety and Human Factors

**Manufacturing**

PSY 437	Human Factors
PSY 438	Human Computer Interaction
PSY 439	Training and Skill Acquisition
PSY 44	Industrial/Organizational Psychology

**Training**

PSY 32	Learning and Motivation
PSY 437	Human Factors
PSY 439	Training and Skill Acquisition
PSY 440	Industrial/Organizational Psychology

**Methods**

PSY 330	Statistical Methods
PSY 360	Cognitive Science
PSY 39	Experimental Psychology
PGS 471	Psychological Testing

**Related Course Work**

BIO 12	Human Physiology SG	4
	or BIO 181 General Biology 4	
	or BIO 93 The Nature of Biological Science SG 4	
	or BIO 20 Human Anatomy and Physiology I SG 4	
MAT 211	Brief Calculus	3
	A computer programming course	3

For more information about program requirements and courses, call an East College advisor at 480 727 1515, send e mail to east.college@asu.edu, or access the Web site at www.east.asu.edu/ecollege/appliedpsych.

For PGS courses and additional PSY courses, see "Department of Psychology," page 437

**PSYCHOLOGY (PSY)**

For more PSY courses see Department of Psychology under College of Liberal Arts and Sciences

**E PSY 360 Cognitive Science. (3)**

once a year

Examines cognition from the varied perspectives of philosophy, linguistics, psychology, computer science, artificial intelligence, and neuroscience. Lecture/discussion. Prerequisite: PSY 324

**E PSY 438 Human-Computer Interaction. (3)**

once a year

Theories, methods, and findings concerning the usability of computer systems and the design of effective user interfaces. Lecture/discussion/projects. Prerequisite: PSY 437

**E PSY 439 Training and Skill Acquisition. (3)**

once a year

Theories, methods, and findings concerning the acquisition of skilled performance and the design of effective training systems. Lecture/discussion/projects. Prerequisite: PSY 437

**E PSY 440 Industrial/Organizational Psychology. (3)**

once a year

Examines personnel selection, performance assessment, job and workplace design, job satisfaction, organizational behavior, management systems, and industrial safety. Lecture/discussion/projects. Prerequisite: PSY 230 or an equivalent statistics course

**E PSY 477 Applied Psychology Capstone Experience. (3)**

once a year

Applied psychology from a systems perspective. Requires a report based on research and/or applied work as a cumulative experience. Lecture/discussion/projects. Prerequisite: senior standing

**Faculty of Business Administration**

**Roger W. Hutt**  
*Faculty Head*  
 (CNTR 76) 480/727-1055

**BUSINESS ADMINISTRATION—B.S.**

The B.S. degree in Business Administration offers a survey of contemporary business disciplines and additional depth in at least three disciplines. The curriculum enables students to gain essential business competencies, knowledge of business disciplines and methods, and appreciation for contemporary business environments and cultures. Students prepare for careers in business, industry, or government as well as for career advancement and entrepreneurial enterprises. This program operates under the umbrella of the ASU Main College of Business AACSB accreditation, but it is offered through East College. Students seeking admission to the professional program must have completed 56 semester hours in good standing, including 30 hours of skill courses (see "Business Core Requirements," page 154). The major requires an additional 33 hours, including a 15-hour

core seven hours of professional proficiency courses, and 11 hours of business advanced electives. Students may choose to take additional business courses, related courses in industry-specific business programs at ASU East (e.g., agr. business, information and management technology, and aeronautical management technology), or a special optional 12-hour extension of the basic major in industry-specific programs.

For the latest information about application, admissions, program requirements, and courses, call an East College advisor at 480 727 1515, or access the Web site at www.east.asu.edu/ecollege/businessadmin.

**ELEMENTARY EDUCATION—B.A.E.**

**Program Overview**

The Elementary Education program at ASU East is unique in its focus on intensive field experiences, practical application of current theory, and emphasis on technology. The newly revised curriculum is also focused on and directly aligned with Arizona's standards for teachers. Courses are arranged sequentially and taken with peer cohorts in four semester-long blocks. Elementary Education students are immersed in field experiences each semester that directly link with course discussions and assignments. Course instructors have taught in a variety of K-8 settings and can therefore augment class experiences with practical applications. Current educational technologies are incorporated into course delivery and assignments. Additionally, students have the opportunity to choose between the Elementary Education program at the ASU East campus or participate in one of the campus's district-based school partnerships.

**Program Requirements**

A total of 120 semester hours is required for graduation with a minimum of 45 semester hours of upper division credit. As part of the undergraduate degree program, students will complete ASU General Studies (see "General Studies" section, page 78) requirements. In addition, Elementary Education students are required to complete 18 semester hours in an academic specialization, which is tailored to an individual student's academic strengths (e.g., math, science, social studies, English). The remaining program hours, which specifically focus on the teaching

---

**NOTE:** For the General Studies requirement courses and codes such as L, SQ, C, and H, see "General Studies" page 78. For graduation requirement, see "University Graduation Requirements," page 74. For an explanation of additional common business courses offered but not listed in this catalog, see "Classification of Courses" page 51.

profession are outlined below. Students must first be admitted to the ASU East Elementary Education program before enrolling in the Professional Preparation Program courses (Blocks I-IV).

#### Foundations (15 semester hours)\*

EDC 314	The Developing Child	3
EDP 310	Educational Psychology <i>SB</i>	3
MCE 446	Understanding the Culturally Diverse Child C	3
MTE 180	Theory of Elementary Mathematics	3
SPE 311	Orientation to Education of Exceptional Children <i>SB</i>	3

\* For foundation course descriptions see "College of Education," page 188.

#### Professional Preparation Program\*

##### Block I (11-12 hours)

EDC 320	Integrated Learning Experience I: Learning Climate	2
EDC 330	Literacy I: Emerging Literacy and Phonemic Awareness	3
EDC 340	Schooling and Social Context	3
EDC 350	Educational Technology I: Applications	1
EDC 351	Educational Technology II: Instruction and Evaluation	1
EDC 352	Educational Technology III: Design	1
EDC 474	Field Experience	0-1

##### Block II (11-12 hours)

EDC 325	Integrated Learning Experience II: Instructional Design and Implementation	2
EDC 335	Literacy II: Intermediate Literacy and Phonetic Principles	3
EDC 345	Math Methods for the Elementary Classroom	3
EDC 375	Accommodating Instruction for Diverse Learners	3
EDC 474	Field Experience	0-

##### Block III (11-12 hours)

EDC 420	Integrated Learning Experience III: Assessment	2
EDC 430	Literacy III: Interventions	3
EDC 440	Science Methods for the Elementary Classroom	3
EDC 450	Social Studies Methods for the Elementary Classroom	3
EDC 474	Field Experience	0-1

##### Block IV (12-14 hours)

EDC 425	Integrated Learning Experience IV: Professional Knowledge	2
EDC 484	Student Teaching in the Elementary School	10-12

\* Block courses can only be taken upon admission to the Elementary Education program

**Postbaccalaureate Program.** Individuals who hold a bachelor's degree from an accredited institution are encouraged to participate in the Elementary Education program as non-degree graduate students. Postbaccalaureate students complete the same professional preparation program courses as outlined above, which are augmented by the students' unique life and work experiences.

For more information, visit CNTR 82, or call 480 727 1303.

**Application.** Applications for the ASU East Elementary Education programs are due October 15 for spring admission, and May 15 for fall admission. Students eligible for admission must meet the following criteria.

1. admission to ASU East,
2. a minimum cumulative GPA of 2.50,

3. completion of at least 56 semester hours at the time of admission (undergraduate degree-seeking students); or, completion of a bachelor's degree from an accredited institution (postbaccalaureate students),
4. evidence of competence in written English.

Applications include two letters of recommendation and a résumé outlining work with school-age children and/or their families. Students should call the ASU East Teacher Education Office at 480 727 1103 for complete admission packet information and eligibility requirements.

**State Certification.** Students who successfully complete the undergraduate or postbaccalaureate routes to Elementary Education teacher preparation at ASU East are recommended for K-8 certification in the State of Arizona pending the completion of all other requirements mandated by the state. These additional requirements include, but are not limited to, successful completion of all appropriate areas of the Arizona Teacher Proficiency Assessment and course work in the United States and Arizona constitutions. Because of the possibility that requirements for state certification may change, students are urged to maintain close contact with their education advisor.

**Advising Information.** It is important for all students to work closely with an ASU East academic advisor to ensure that their overall curriculum is coherent and best reflects their unique academic talents. For the latest information about application, admissions, program requirements, and courses, access the Web site at [www.east.asu.edu/ecollege/elementaryed](http://www.east.asu.edu/ecollege/elementaryed), or call the ASU East Teacher Education Office at 480/727 1103.

#### ELEMENTARY EDUCATION (EDC)

##### EDC 320 Integrated Learning Experience I: Learning Climate. (2)

*fall and spring*  
Exploration of factors contributing to a positive and productive classroom learning environment. Interactive forum.

##### EDC 325 Integrated Learning Experience II: Instructional Design and Implementation. (2)

*fall and spring*  
Design and implementation of developmentally appropriate instruction, and the alignment of instruction with district and state academic standards. Interactive forum. Prerequisite: EDC 320.

##### EDC 330 Literacy I: Emerging Literacy and Phonemic Awareness. (3)

*fall and spring*  
Development of language from birth to age 8, and appropriate strategies for promoting growth in speaking, listening, reading, and writing. Applied inquiry. Corequisite: EDC 474.

##### EDC 335 Literacy II: Intermediate Literacy and Phonetic Principles. (3)

*fall and spring*  
Strategies for teaching literacy in intermediate elementary classrooms: the application of phonetic principles to instruction and integrating literacy across disciplines. Applied inquiry. Prerequisite: EDC 330. Corequisite: EDC 474. Pre-corequisite: EDC 325.

##### EDC 340 Schooling and Social Context. (3)

*fall and spring*  
Seminar addressing foundational issues in education including the culture of schooling, current social contexts, and educational law. Interactive forum.  
*General Studies L*

**EDC 345 Math Methods for the Elementary Classroom. (3)**

*fall and spring*  
Developmentally appropriate practices for teaching and assessing mathematics in grades K–8. Applied inquiry. Prerequisite: MTE 180. Corequisite: EDC 474. Pre- or corequisite: EDC 325.

**EDC 350 Educational Technology I: Applications. (1)**

*fall and spring*  
Module focused on basic technology skills needed for managing a classroom. Instructional Lab.

**EDC 351 Educational Technology II: Instruction and Evaluation. (1)**

*fall and spring*  
Module focused on technology as an instructional medium, evaluation, and effective classroom use. Lab. Prerequisite: EDC 350.

**EDC 352 Educational Technology III: Design. (1)**

*fall and spring*  
Module focused on instructional design utilizing a variety of technologies including multimedia. Lab. Prerequisite: EDC 351.

**EDC 355 Accommodating Instruction for Diverse Learners. (3)**

*fall and spring*  
Identifying and accommodating learners with special needs, including classroom adaptations in instruction and assessment. Forum. Prerequisite: SPE 311. Corequisite: EDC 474. Pre- or corequisite: EDC 325.

**EDC 420 Integrated Learning Experience III: Assessment. (2)**

*fall and spring*  
Principles related to classroom assessment including the alignment of assessment to curriculum, test interpretation, and a variety of assessment techniques. Interactive forum. Prerequisite: EDC 325.

**EDC 425 Integrated Learning Experience IV: Professional Knowledge. (2)**

*fall and spring*  
Exploration of issues related to professional knowledge including interdisciplinary instruction and the impact of the community on students learning. Interactive forum. Prerequisite: EDC 420. Corequisite: EDC 484.

**EDC 430 Literacy III: Interventions. (3)**

*fall and spring*  
Strategies for accommodating students struggling with learning with a focus on the areas of literacy acquisition and assessment. Forum. Prerequisite: EDC 335–355. Corequisite: EDC 474. Pre- or corequisite: EDC 420.

**EDC 440 Science Methods for the Elementary Classroom. (3)**

*fall and spring*  
Developmentally appropriate practices for teaching and assessing sciences in grades K–8. Applied inquiry. Prerequisites: EDC 325–345. Corequisite: EDC 474. Pre- or corequisite: EDC 420.

**EDC 450 Social Studies Methods for the Elementary Classroom. (3)**

*fall and spring*  
Developmentally appropriate practices for teaching and assessing social studies in grades K–8. Applied inquiry. Prerequisites: EDC 325–335. Corequisite: EDC 474. Pre- or corequisite: EDC 420.

**EDC 474 Field Experience. (0–1)**

*fall and spring*  
Application of course content in a K–8 school. Emphasis on observation, classroom management, planning and delivery of instruction, and assessment. Prerequisite: a methods course in the teacher preparation program must be taken with Field Experience.

**EDC 484 Student Teaching in the Elementary School. (10–12)**

*fall and spring*  
Supervised teaching in the area of specialization. Capstone internship. Prerequisite: 2.50 GPA, completion of professional course sequence. Approval of ASU East teacher preparation office. Corequisite: EDC 425.

**EXERCISE AND WELLNESS—B.S.**

The B.S. degree in Exercise and Wellness consists of 66 semester hours, including 21 semester hours of required EXW core courses.

The required core courses are as follows.

**Required courses**

EXW 300 Foundations of Exercise and Wellness <i>SB L</i>	3
EXW 310 Computer Skills and Technology for Exercise and Wellness	3
EXW 347 Health Behavior Change	3
EXW 450 Cultural/Social Issues in Exercise and Wellness	3
EXW 484 EXW Internship	6
NTR 24 Human Nutrition	3
<b>Total</b>	<b>21</b>

Each EXW core course has specific prerequisite courses that must be taken before taking the respective core course. These prerequisite courses include the following:

BIO 201 Human Anatomy and Physiology I <i>SG</i>	4
BIO 202 Human Anatomy and Physiology II	4
CHM 101 Introductory Chemistry <i>SQ</i> or any equivalent chemistry	4
COM 225 Public Speaking <i>L</i>	3
PGS 101 Introduction to Psychology <i>SB</i>	3
<b>Total</b>	<b>18</b>

All prerequisite and EXW courses must be completed with a minimum grade of “C.” Additional requirements for the major are described below.

EXW 212 Instructional Competency Laboratory	6
EXW 315 Physiological Foundations of Movement	3
EXW 320 Program Development and Leadership	3
EXW 330 Kinesiological Foundations of Movement	3
EXW 400 Stress Management for Wellness	3
EXW 420 Exercise Testing	3
EXW 425 Exercise Prescription	3

**NOTE:** For the General Studies requirement courses and codes such as L, SQ, C, and H, see General Studies page 78. For graduation requirements, see “University Graduation Requirements” page 74. For an explanation of additional non-business courses offered but not listed in this catalog, see “Classification of Courses” page 51.

Elective* . . . . .	3
Total . . . . .	27

\* Three semester hours must be selected from an approved list of concentration electives.

**EXERCISE AND WELLNESS MINOR**

The minor in Wellness Foundations consists of the following plus all prerequisite courses

EXW 300 Foundations of Exercise and Wellness . . . . .	3
EXW 325 Fitness for Life . . . . .	3
EXW 342 Health Behavior Change . . . . .	3
EXW 450 Cultural Social Issues in Exercise and Wellness . . . . .	3
EXW elective* . . . . .	6
Total . . . . .	18

\* Six semester hours must be selected from an approved list of EXW electives. See an advisor for a list of approved electives

**GRADUATE PROGRAMS**

The faculty in the Department of Exercise and Wellness offer programs leading to the M.S. degree in Exercise and Wellness. The department also participates with the Graduate College and College of Education in the program leading to the Ph.D. degree in Curriculum and Instruction with a concentration in Exercise and Wellness. See the *Graduate Catalog* for requirements.

**EXERCISE AND WELLNESS (EXW)**

**EXW Note 1.** A \$5.00 towel and locker fee is required each semester by students using towel and locker facilities for physical activity courses

**EXW Note 2.** Physical activity instruction courses (EXW 105, 205, 305) may not be taken for audit. Excessive absences and tardiness are considered disruptive behavior

**EXW 100 Introduction to Health and Wellness. (3)**

*fall, spring, summer*  
Current concepts in health, exercise, and wellness. Emphasis placed on personal health, theories, attitudes, beliefs, and behaviors. Cross-listed as EPE 100, HES 100. Credit is awarded only for EPE 100 or EXW 100 or HES 100.  
*General Studies, SB*

**EXW 105 Physical Activity Instruction: Beginning. (1)**

*fall and spring*  
Beginning instruction in a variety of physical activities such as aerobic, aquatic, racquet sports, physical conditioning, and golf. "Y" grade only. May be repeated for credit. 3 hours per week. Activity Fee. See EXW Notes 1, 2.

**EXW 205 Physical Activity Instruction: Intermediate. (1)**

*fall and spring*  
Intermediate level instruction in a variety of physical activities. Continuation of EXW 105. "Y" grade only. May be repeated for credit. 3 hours per week. Activity Fee. See EXW Notes 1, 2.

**EXW 212 Instructional Competency Laboratory. (2)**

*fall and spring*  
Methods of instruction and leading fitness activities including aerobic resistance and flexibility activities. May be repeated for credit. Lab. See EXW Note 1. Prerequisite: Exercise and Wellness major.

**EXW 215 Physical Activity and Healthy Lifestyles. (1)**

*fall and spring*  
Application of physical activity to personal fitness testing and program planning for people of all ages. Teacampus course. Not open to Exercise and Wellness majors or to students who have credit for EXW 325.

**EXW 280 Global Issues in Exercise and Wellness. (3)**

*fall and spring*  
Historical overview of health promotion and wellness models as they relate to minority, gender, social, cultural, economic, international, and environmental issues.

**EXW 300 Foundations of Exercise and Wellness. (3)**

*fall and spring*  
Analysis of research in various disciplines which contribute to health promotion and wellness.  
*General Studies, LJSB*

**EXW 301 Concepts of Fitness and Wellness. (1)**

*fall and spring*  
Guidelines for achieving health benefits of physical activity and other healthy lifestyles. Teacampus course. Not open to Exercise and Wellness majors or to students who have credit for EXW 325.

**EXW 305 Physical Activity Instruction: Advanced. (1)**

*fall and spring*  
Advanced level instruction in a variety of physical activities. Continuation of EXW 105. May be repeated for credit. "Y" grade only. 3 hours per week. Activity Fee. See EXW Notes 1, 2.

**EXW 310 Computer Skills and Technology for Exercise and Wellness. (3)**

*fall and spring*  
Use of computers to statistically analyze data and design presentations of findings. Design of health promotion educational applications and presentations. Lecture. Lab. Prerequisite: MAT 117.

**EXW 315 Physiological Foundations of Movement. (3)**

*fall and spring*  
Studies human movement with emphasis on physiological function of the body in response to physical activity and fitness training. Lecture, Lab. Fee. Prerequisites: BIO 201, 202.

**EXW 320 Program Development and Leadership. (3)**

*fall and spring*  
Principles of planning, organizing, promoting, and leading fitness and wellness programs. Prerequisites: COM 225, Exercise and Wellness major.

**EXW 325 Fitness for Life. (3)**

*fall and spring*  
Physical fitness and benefits of exercise with emphasis on self-evaluation and personalized program planning for a lifetime. Not open to Exercise and Wellness majors or to students who have credit for EXW 215 or 301.

**EXW 330 Kinesiological Foundations of Movement. (3)**

*fall and spring*  
Study and consideration of human movement with emphasis on kinesiology principles and their application to movement and fitness. Lecture. Lab. Prerequisites: BIO 201, 202.

**EXW 342 Health Behavior Change. (3)**

*fall and spring*  
Examines major theories of health behavior change. Develops intervention strategies and techniques employed to facilitate health behavior change. Prerequisite: PGS 101.

**EXW 380 Body Image and Wellness. (3)**

*fall and spring*  
Explores body image in American culture from physical, psychological, historical, and societal perspectives. Prerequisites: NTR 241, PGS 101.

**EXW 400 Stress Management for Wellness. (3)**

*fall and spring*  
Examines the stress response and management from a behavioral perspective as it pertains to individuals or groups. Prerequisite: PGS 101.

**EXW 420 Exercise Testing. (3)**

*fall and spring*  
Theoretical bases and practical application of pre-exercise screening, exercise testing, estimates of energy expenditure, and interpretation of results. Lecture. Lab. Fee. Prerequisites: EXW 315, current CPR certification.

**EXW 425 Exercise Prescription. (3)**

*fall and spring*  
Theoretical bases for and application of general principles of exercise prescription to various ages, fitness levels, and health states. Prerequisites: EXW 320, 330. Pre- or corequisite: EXW 420.

**EXW 442 Physical Activity in Health and Disease. (3)**

*fall and spring*

Examines the role of physical activity and fitness in the development of morbidity and mortality throughout the human life span. Prerequisite: EXW 315

*General Studies. L*

**EXW 450 Cultural and Social Issues in Exercise and Wellness. (3)**

*fall and spring*

Examines contemporary cultural and social issues in physical activity. Focus on theories of social behavior, racial/ethnic, and cultural differences. Prerequisite: PGS 101

**EXW 484 Exercise and Wellness Internship. (6)**

*fall, spring, summer*

Supervised practical experience in approved exercise and wellness/health promotion agencies. Fieldwork. Prerequisites: EXW 310, 320, 420. Pre- or corequisite: EXW 425

**EXW 500 Research Methods. (3)**

*fall*

Introduction to the basic aspects of research including problem selection, literature review, instrumentation, data handling, methodology, and writing the report.

**EXW 501 Research Statistics. (3)**

*spring*

Statistical procedures; sampling techniques; hypothesis testing and experimental designs as they relate to research publications

**EXW 505 Applied Exercise and Wellness Laboratory Techniques. (3)**

*spring*

Investigative techniques used in the applied exercise testing/prescription on laboratory. Emphasis on cardiorespiratory assessment, energy balance, body composition, and electrocardiography. Lecture/lab. Fee.

**EXW 534 Sports and Fitness Conditioning. (3)**

*fall*

Bases of sports and fitness conditioning, including aerobic and anaerobic power, strength, flexibility, and analysis of conditioning components for sports and fitness.

**EXW 536 Physiological Aspects of Physical Activity and Chronic Disease. (3)**

*fall*

Role of physiological mechanisms associated with acute and long-term physical activity and its influence on chronic disease and wellness.

**EXW 542 Health Promotion. (3)**

*spring*

Theory and research concerning fitness and wellness programs in nutrition, physical activity, smoking cessation, and stress management.

**EXW 544 Fitness/Wellness Management. (3)**

*spring*

Development of the fitness/wellness industry. Planning, organizing, promoting, and managing fitness/wellness programs.

**EXW 575 Teaching Lifetime Fitness. (3)**

*spring*

Organizing and implementing physical fitness programs in the schools with emphasis on individual problem solving.

**EXW 599 Thesis. (1-12)**

*not regularly offered*

**EXW 642 Exercise Epidemiology. (3)**

*spring*

Physical activity, exercise, and physical fitness and the development of chronic disease.

**Faculty of Multimedia Writing and Technical Communication**

**Barry M. Maid**  
*Faculty Head*  
 (CNTR 80) 480/727-1190

**PROFESSOR**  
 MAID

**ASSOCIATE PROFESSOR**  
 BARCHILON

**MULTIMEDIA WRITING AND TECHNICAL COMMUNICATION—B.S.**

In the Multimedia Writing and Technical Communication program, students learn how to produce, to design, and to manage information using both traditional and developing technologies.

Students learn

1. to communicate, both orally and in writing, across audiences and cultures;
2. issues of ethics in technical communications;
3. awareness of the global nature of technical communication—both culturally and economically;
4. the ability to evaluate print, oral, and electronic sources;
5. understanding of appropriate technical genres;
6. the ability to demonstrate technical editing skills in all work;
7. the ability to incorporate appropriate visual elements and design in written documents and oral presentations; and
8. the ability to work in appropriate media.

The program serves students who wish to pursue careers as technical writers, technical editors, Web page and intranet page designers, multimedia designers, and desktop publishers, publications managers, and information designers.

**GRADUATION REQUIREMENTS**

To graduate with a B.S. degree in Multimedia Writing and Technical Communication, students must complete a minimum of 120 semester hours, including university graduation requirements and requirements of the major.

<b>Multimedia Writing and Technical Communication Core</b>	
TWC 301 General Principles of Multimedia Writing	3
TWC 401 Principles of Technical Communication	3
TWC 411 Principles of Visual Communication	3
TWC 421 Principles of Writing with Technology	3
TWC 431 Principles of Technical Editing	3
TWC 490 Capstone	3
<b>Total</b>	<b>18</b>

**NOTE:** For the General Studies requirement courses and codes (such as L, SQ, C, and H), see "General Studies" page 78. For graduation requirements, see "University Graduation Requirements" page 74. For an explanation of additional omnibus courses offered but not listed in this catalog, see "Classification of Courses" page 51.

**Related Area (12 hours).** Students select a related area consisting of 12 semester hours of study in one other discipline. At least nine of these 12 hours must be in the upper division. Suggested disciplines might be, but are not limited to, applied psychology, business administration, or computer graphics. Students, with the help of an advisor, may also develop a coherent interdisciplinary related area.

**Electives (15 hours).** The remaining hours will be electives in the major (TWC) at least six of which need to be in genre courses, such as TWC 443 Proposal Writing or TWC 447 Business Reports. An Internship (TWC 434) or supervised work experience is strongly recommended.

For information about program requirements and courses, access the Web at [www.east.asu.edu](http://www.east.asu.edu), college, or call an East College advisor at 480/727-1515.

**BACHELOR OF APPLIED SCIENCE DEGREE**

A Bachelor of Applied Science is also offered with a concentration in multimedia writing and technical communication. The B.A.S. degree is a "capstone" degree for the Associate of Applied Science degree. The B.A.S. degree exposes students to advanced concepts and diverse critical thinking skills that prepare them for future career opportunities and professional advancement.

**Admission.** Admission to the B.A.S. degree program is restricted to students holding an A.A.S. degree or equivalent from a regionally accredited U.S. postsecondary educational institution. A GPA of 2.00 or higher is required for all resident applicants and a 2.50 for nonresident applicants.

**Degree Requirements.** In addition to the A.A.S. degree, the B.A.S. in Applied Science through East College consists of 60 semester hours of upper division (300 level and above courses, with 30 semester hours in residence.

Assignable credit	6
B.A.S. core	15
General Studies	19
MWTC concentration	2
<b>Total</b>	<b>60</b>

**General Studies Curriculum (19 hours).** The B.A.S. curriculum builds on the general education content of the A.A.S. degree. Additional General Studies (L, CS, and awareness areas) are met with courses in the core or concentration. General Studies courses focus on contextual learning.

L	3
MA	3
HU	3
HU or SB	3
SB	3
SG	4
<b>Total</b>	<b>19</b>

**Assignable Credit (6 hours).** Assignable credit allows space in the curriculum for prerequisite courses needed for students to succeed in the program. The courses are determined by the student and an advisor.

**B.A.S. core (15 hours).** The area core is focused on management and organization, professional communication, qualitative analysis, and computer competency.

**Multimedia Writing and Technical Communication concentration (20 hours).** In consultation with an advisor, students will select 20 hours of upper division TWC courses.

**CERTIFICATE**

A Multimedia Writing and Technical Communication Certificate is available and requires 18 semester hours.

TWC 301 General Principles of Multimedia Writing	3
TWC 401 Principles of Technical Communication	3
TWC 411 Principles of Visual Communication	3
or TWC 421 Principles of Writing with Technology	3
or TWC 431 Principles of Technical Editing (3)	
Three 4-level TWC courses, at least two of which must be genre courses, such as TWC 443 Proposal Writing or TWC 447 Business Reports	9
<b>Total</b>	<b>18</b>

**MULTIMEDIA WRITING AND TECHNICAL COMMUNICATION (TWC)**

- TWC 194 Special Topics. (1-4)**  
*not regularly offered*
- TWC 200 Impact of Communications Technology on Society. (3)**  
*fall and spring*  
Organization, issues and development of technical communication. Activities include research, evaluations, and presentation of oral arguments in support of positions. Prerequisites: ENG 101 or 105/102  
*General Studies L*
- TWC 294 Special Topics. (1-4)**  
*not regularly offered*
- TWC 301 General Principles of Multimedia Writing. (3)**  
*fall and spring*  
Introduction to writing in a variety of media, understanding the consequences of integrating media and effective editing techniques. Prerequisite: First Year Composition.  
*General Studies L*
- TWC 351 Technical Writing and Editing. (3)**  
*fall and spring*  
Effective style, format and organization of technical material, editing principles and practices, copyediting versus substantive editing, and document management. Prerequisite: ENG 102
- TWC 400 Technical Communications. (3)**  
*fall, spring, summer*  
Planning and preparing technical publications and oral presentations based on directed library research related to current technical topics. Prerequisites: completion of first year English requirements. General Studies L course, senior or standing with a major in College of Technology and Applied Sciences.  
*General Studies L*
- TWC 401 Principles of Technical Communication. (3)**  
*fall and spring*  
Basic information design principles to produce effective written, oral and electronic technical communication. Understanding of rhetoric and audience analysis. Prerequisite/corequisite: TWC 301  
*General Studies L*
- TWC 403 Writing for Professional Publication. (3)**  
*not regularly offered*  
Analyzes the market and examines the publication process including the roles of the author, editor and reviewer. Prerequisite/corequisite: TWC 401
- TWC 411 Principles of Visual Communication. (3)**  
*fall and spring*  
Basic principles of visual communication in print and electronic media. Understanding graphic and document design including typography and color. Prerequisite/corequisite: TWC 401  
*General Studies L*
- TWC 421 Principles of Writing with Technology. (3)**  
*fall and spring*  
Understanding historical and social impact of technology on writing with emphasis on multimedia design, computer mediated communication and hypertext. Prerequisite/corequisite: TWC 411  
*General Studies L*

**TWC 431 Principles of Technical Editing. (3)***fall and spring*

Basic principles of technical editing (for print and electronic media) including copyediting, reviews, standards style and project management. Pre- or corequisite: TWC 401

*General Studies L***TWC 443 Proposal Writing. (3)***once a year*

Develops persuasive strategies and themes for researching and writing professional proposals. Pre- or corequisite: TWC 401

**TWC 444 Manual and Instructional Writing. (3)***once a year*

Design and development of a user manual, writing instructions, improving graphics and page design and usability testing. Pre- or corequisite: TWC 401

**TWC 445 Computer Documentation. (3)***once a year*

Introduction to writing documentation for the computer industry. Pre- or corequisite: TWC 401

**TWC 446 Technical and Scientific Reports. (3)***once a year*

Introduction to strategies, formats and techniques of presenting information on technical and scientific audiences. Pre- or corequisite: TWC 401

*General Studies L***TWC 447 Business Reports. (3)***once a year*

Introduction to strategies, formats and techniques of presenting information to business and other workplace audiences. Pre- or corequisite: TWC 401

*General Studies L***TWC 484 Internship. (3)***fall and spring*

Applies classroom work in a supervised workplace environment. Pre- or corequisite: TWC 411 or 421 or 431

**TWC 490 Capstone. (3)***fall and spring*

Development of a professional portfolio creation of a cumulative document and synthesis of undergraduate experience. Prerequisite: instructor approval.

**TWC 494 Special Topics. (1-4)***not regularly offered***TWC 501 Principles of Technical Communication. (3)***fall and spring*

Basic information on design principles to produce effective written, oral, and electronic technical communication. Understanding of rhetorical and audience analysis. Pre- or corequisite: graduate standing

**TWC 503 Writing for Professional Publication. (3)***not regularly offered*

Analyzes the market and examines the publication process including the roles of the author, editor and reviewer. Pre- or corequisite: TWC 501

**TWC 511 Principles of Visual Communication. (3)***fall and spring*

Basic principles of visual communication in print and electronic media. Understanding graphic and document design including typography and color. Pre- or corequisite: TWC 501

**TWC 521 Principles of Writing with Technology. (3)***fall and spring*

Understanding history and social impact of technology on writing with emphasis on multimedia design, computer mediated communication and hypertext. Pre- or corequisite: TWC 501

**TWC 531 Principles of Technical Editing. (3)***fall and spring*

Basic principles of technical editing for print and electronic media, including copyediting, reviews, standards style and project management. Pre- or corequisite: TWC 501

**TWC 543 Proposal Writing. (3)***once a year*

Develops persuasive strategies and themes for researching and writing professional proposals. Pre- or corequisite: TWC 501

**TWC 544 Manual and Instructional Writing. (3)***once a year*

Design and development of a user manual, writing instructions, improving graphics and page design and usability testing. Pre- or corequisite: TWC 501

**TWC 545 Computer Documentation. (3)***once a year*

Introduction to writing documentation for the computer industry. Pre- or corequisite: TWC 501

**TWC 546 Technical and Scientific Reports. (3)***once a year*

Introduction to strategies, formats, and techniques of presenting information on technical and scientific audiences. Pre- or corequisite: TWC 501.

**TWC 547 Business Reports. (3)***once a year*

Introduction to strategies, formats and techniques of presenting information to business and other workplace audiences. Pre- or corequisite: TWC 501

**TWC 584 Internship. (3)***fall and spring*

Applies classroom work in a supervised workplace environment. Pre- or corequisite: TWC 511, 521, 531

**TWC 598 Special Topics. (1-4)***not regularly offered*

## Department of Nutrition

Linda A. Vaughan

Chair

(HSC 1386) 480/727-1728

**PROFESSORS**

JOHNSTON, MANORE VAUGHAN

**ASSOCIATE PROFESSOR**

MONTE

**ASSISTANT PROFESSOR**

HAMPL

**SENIOR LECTURER**

MARTIN

**LECTURER**

DIXON

**NUTRITION—B.S.**

The B.S. degree in Nutrition offers three concentrations: dietetics, human nutrition, and food and nutrition management. The dietetics concentration provides students with a comprehensive range of nutrition, foods, and science courses that meet the academic (didactic) requirements necessary to become a registered dietitian. This concentration has been granted Developmental Accreditation as a Didactic Program in Dietetics (DPD) by the Commission on Accreditation for Dietetics Education of the American Dietetic Association. Graduates of a DPD may apply for Dietetic Internships to establish eligibility to write the Dietetic Registration examination.

The human nutrition concentration provides a sound foundation in the basic sciences and nutrition, but no foods

---

**NOTE:** For the General Studies requirement, courses and codes (such as L, SQ, C and H) see "General Studies" page 78. For graduation requirements see "University Graduation Requirements" page 74. For an explanation of additional omnibus courses offered but not listed in this catalog see "Classification of Courses" page 51.

courses are required. This program is often used by students who, while not seeking the credential of Registered Dietitian, are working towards a career in nutrition research or completing a premedical predoctoral program of study. The food and nutrition management concentration provides a number of nutrition, foods, and business courses and is offered to students with an interest in food production, nutrition program management, and food/nutrition marketing.

**Accreditation.** The B.S. degree in Nutrition with a concentration in dietetics has been granted Developmental Accreditation as a Didactic Program in Dietetics (DPD) by the Commission on Accreditation for Dietetics Education of the American Dietetic Association. For more information, call 1-800-877-1600, extension 5400, or write

COMMISSION ON ACCREDITATION FOR  
DIETETIC EDUCATION  
AMERICAN DIETETIC ASSOCIATION  
216 W JACKSON BLVD  
CHICAGO IL 60606 6995

**Dietetics Concentration.** The following NTR courses are required of all students in the dietetics concentration:

NTR 142	Applied Food Principles	3
NTR 241	Human Nutrition	3
NTR 341	Introduction to Planning Therapeutic Diets	3
NTR 343	Food Service Purchasing	3
NTR 344	Nutrition Services Management	3
NTR 350	Nutrition Counseling	3
NTR 400	Nutrition and Health Promotion	3
NTR 440	Advanced Human Nutrition I	3
NTR 441	Advanced Human Nutrition II	3
NTR 444	Diet Therapy	3
NTR 445	Quantity Food Production	3
NTR 446	Human Nutrition Assessment Lecture/Laboratory	3
NTR 448	Community Nutrition L	3
Total		39

In addition to the required NTR courses, the following related courses are required in order to complete the academic requirements of the Didactic Program in Dietetics:

BCH 361	Principles of Biochemistry	3
BCH 367	Elementary Biochemistry Laboratory	1
BIO 201	Human Anatomy and Physiology I SG	4
BIO 202	Human Anatomy and Physiology II	4
CHM 113	General Chemistry SQ	4
CHM 116	General Chemistry SQ	4
CHM 231	Elementary Organic Chemistry SQ	3
CHM 235	Elementary Organic Chemistry Laboratory SQ	1
MIC 205	Microbiology SG	3
MIC 206	Microbiology Laboratory SG <sup>2</sup>	1
	Statistics course	3
	Technical writing course	3
Total		34

<sup>1</sup> Both CHM 231 and 235 must be taken to secure SQ credit.

<sup>2</sup> Both MIC 205 and 206 must be taken to secure SG credit.

Additional supporting courses in the social sciences are required for completion of the DPD and must be selected in consultation with the Nutrition academic advisor.

**Human Nutrition Concentration.** The following NTR courses are required of all students in the human nutrition concentration:

NTR 142	Applied Food Principles	3
NTR 241	Human Nutrition	3
NTR 341	Introduction to Planning Therapeutic Diets	3
NTR 440	Advanced Human Nutrition I	3
NTR 441	Advanced Human Nutrition II	3
NTR 444	Diet Therapy	3
NTR 446	Human Nutrition Assessment Lecture/Laboratory	3
Total		21

An additional nine semester hours from the Department of Nutrition are required to complete this concentration. A maximum of three semester hours of Independent Study may be used to satisfy this requirement. Students select these courses in consultation with the Nutrition academic advisor.

In addition to the required NTR courses, the following related courses are required to complete the academic requirements of this concentration:

BCH 361	Principles of Biochemistry	3
BCH 367	Elementary Biochemistry Laboratory	1
BIO 201	Human Anatomy and Physiology I SG	4
BIO 202	Human Anatomy and Physiology II	4
CHM 113	General Chemistry SQ	4
CHM 116	General Chemistry SQ	4
CHM 231	Elementary Organic Chemistry SQ <sup>1</sup>	3
CHM 235	Elementary Organic Chemistry Laboratory SQ <sup>1</sup>	1
MIC 205	Microbiology SG	3
MIC 206	Microbiology Laboratory SG	1
Total		28

<sup>1</sup> Both CHM 231 and 235 must be taken to secure SQ credit.

<sup>2</sup> Both MIC 205 and 206 must be taken to secure SG credit.

**Food and Nutrition Management Concentration.** The following NTR courses are required of all students in the food and nutrition management concentration:

NTR 142	Applied Food Principles	3
NTR 341	Introduction to Planning Therapeutic Diets	3
NTR 343	Food Service Purchasing	3
NTR 344	Nutrition Services Management	3
NTR 442	Experimental Foods	3
NTR 445	Quantity Food Production	3
Total		18

An additional twelve semester hours from the Department of Nutrition are required to complete this concentration. A maximum of three semester hours of Independent Study may be used to satisfy this requirement. Students select these courses in consultation with the Nutrition academic advisor.

In addition to the required NTR courses, the following related courses are required to complete the academic requirement of this concentration:

CHM 101	Introductory Chemistry SQ	4
CHM 231	Elementary Organic Chemistry SQ <sup>1</sup>	3
CHM 235	Elementary Organic Chemistry Laboratory SQ <sup>1</sup>	1
MIC 205	Microbiology SG <sup>2</sup>	3
MIC 206	Microbiology Laboratory SG <sup>2</sup>	1
BUSN	Business technical writing course	3

Management AGB 310 or MGT 301, 380, or 394) . . . . .	3
Marketing AGB 320 or MKT 300 or 394 . . . . .	3
Other agribusiness or business courses <sup>3</sup> . . . . .	6
<b>Total</b> . . . . .	<b>27</b>

Both CHM 231 and 235 must be taken to secure SQ credit  
<sup>2</sup> Both MIC 205 and 206 must be taken to secure SG credit  
<sup>3</sup> Courses taken to fulfill the final six credit business requirement should be taken from courses with the following prefixes: ACC, AGB, BLS, COB, CIS, CSE, ECN, FIN, GBS, HSA, IBS, MGT, MKT, and QBA. Students select these courses in consultation with the Nutrition academic advisor

**MINOR**

The faculty of the Department of Nutrition also offers minors in Food and Nutrition Management and Human Nutrition, each requiring 18 semester hours. At least 12 of the 18 must be in upper division courses.

**Food and Nutrition Management.** The Food and Nutrition Management minor requires that students take the following courses

NTR 100 Introductory Nutrition . . . . .	3
or NTR 241 Human Nutrition 3 . . . . .	3
NTR 142 Applied Food Principles . . . . .	3
NTR 300 Computer Applications in Nutrition . . . . .	3
NTR 343 Food Service Purchasing . . . . .	3
or NTR 343 Nutrition Services Management 3 . . . . .	3
NTR 442 Experimental Foods . . . . .	3
NTR 445 Quantity Food Production . . . . .	3
<b>Total</b> . . . . .	<b>18</b>

**Human Nutrition.** The Human Nutrition minor requires that students take the following courses:

NTR 241 Human Nutrition . . . . .	3
NTR 341 Introduction to Planning Therapeutic Diets . . . . .	3
NTR 440 Advanced Human Nutrition I . . . . .	3
NTR 441 Advanced Human Nutrition II . . . . .	3
NTR 444 Diet Therapy . . . . .	3
<b>Total</b> . . . . .	<b>15</b>

One additional upper division (or graduate) course must be selected from among the following:

NTR 348 Cultural Aspects of Food . . . . .	3
NTR 350 Nutrition Counseling . . . . .	3
NTR 446 Human Nutrition Assessment Lecture Laboratory . . . . .	3
NTR 448 Community Nutrition I . . . . .	3
NTR 450 Nutrition in the Life Cycle I . . . . .	3
NTR 451 Nutrition in the Life Cycle II . . . . .	3
NTR 531 Recent Developments in Nutrition . . . . .	3
NTR 532 Current Research in Nutrition I . . . . .	3
NTR 598 Special Topics . . . . .	3

**NUTRITION (NTR)**

**NTR 100 Introductory Nutrition. (3)**

*fall, spring, summer*

Basic concepts of human nutrition. Recent controversies in nutrition and how food choices affect personal health.

**NTR 142 Applied Food Principles. (3)**

*fall and spring*

Applied scientific principles of food preparation and production. 2 hours lecture, 3 hours lab. Fee.

**NTR 241 Human Nutrition. (3)**

*fall, spring, summer*

Principles of human nutrition. Emphasis on nutrient metabolism and the relationships between diet and disease. Prerequisite: CHM 101 or its equivalent.

**NTR 300 Computer Applications in Nutrition. (3)**

*spring*

Introduction to nutrition and food software including dietary assessment and analysis, food inventory and control and telecommunications. Lecture computer lab. NTR 341 strongly recommended. Prerequisites: NTR 100 or 241 basic computer literacy.

**NTR 341 Introduction to Planning Therapeutic Diets. (3)**

*fall and summer*

Cultural, health and economic aspects of diet planning. Assessment of food and diet composition. Review of common therapeutic diets. Fee. Prerequisites: NTR 100 (or 241) and 142 (or the equivalent).

**NTR 343 Food Service Purchasing. (3)**

*fall*

Introduction to purchasing systems, food processes, receiving and storage procedures and regulatory agencies involved in the food service industry. Prerequisite: NTR 142.

**NTR 344 Nutrition Services Management. (3)**

*spring*

Organization, administration, and management of food and nutrition services in hospitals and other institutions. Field trip may be included. Prerequisites: NTR 100 (or 241) and 142 (or the equivalent).

*General Studies L*

**NTR 348 Cultural Aspects of Food. (3)**

*spring and summer*

Origins, development and diversity of food preferences and dietary habits, food patterns, and attitudes of global populations and US immigrants. Prerequisite: NTR 100 or 241 (or its equivalent).

*General Studies C*

**NTR 350 Nutrition Counseling. (3)**

*spring*

Counseling techniques in nutrition, interpersonal and communication skills in clinical and community settings, nutrition education for individuals and populations. Lecture lab. Prerequisites: NTR 100 (or 241) and 142 (or the equivalent).

**NTR 400 Nutrition and Health Promotion. (3)**

*fall and spring*

Role of nutrition in health promotion, application of academic knowledge in field/practicum components of professional development. Lecture/practicum. Prerequisites: NTR 341, 440 (or 441 or 444); senior standing in dietetics or human nutrition.

**NTR 440 Advanced Human Nutrition I. (3)**

*fall*

Metabolic reactions and interrelationships of vitamins, minerals and water. Prerequisites: BIO 202 and CHM 231 and NTR 241 or the equivalent.

**NTR 441 Advanced Human Nutrition II. (3)**

*spring*

Metabolic reactions and interrelationships of carbohydrate, lipid, and protein. Prerequisites: BCH 361 and BIO 202 and NTR 241 or the equivalent.

**NTR 442 Experimental Foods. (3)**

*fall and spring*

Food product development techniques, food evaluation and testing, and investigation of current research into food composition. 2 hours lecture, 3 hours lab. Fee. Prerequisites: CHM 231, NTR 142.

**NTR 444 Diet Therapy. (3)**

*spring and summer*

Principles of nutrition, support for prevention and treatment of disease. Prerequisites: BIO 201 and 202 and NTR 241 or the equivalent.

**NOTE:** For the General Studies requirement courses and codes such as L, SQ, C, and H, see General Studies page 78. For graduation requirements see "University Graduation Requirements" page 74. For an explanation of additional non-business courses offered but not listed in this catalog, see Classification of Courses, page 51.

**NTR 445 Quantity Food Production. (3)***fall and spring*

Standardized methods of quantity food preparation, operation of nutritional equipment, institutional menu planning, quantity food experiences. May require field trips. Lecture/lab. Fee. Prerequisites: NTR 100 or 241) and 344 or the equivalent.

**NTR 446 Human Nutrition Assessment Lecture/Laboratory. (3)***spring*

Clinical and biochemical evaluation of nutritional status. 2 hours lecture, 3 hours lab. Fee. Prerequisites: BCH 361/367, NTR 440 or 441.

**NTR 448 Community Nutrition. (3)***fall and spring*

Food-related behaviors, organization and delivery of nutrition services, program design, implementation, and evaluation of strategies in nutrition assessment of populations. Prerequisite: NTR 241 (or its equivalent).

*General Studies L***NTR 450 Nutrition in the Life Cycle I. (3)***fall*

Emphasis on nutritional needs and problems during pregnancy, lactation, infancy, and childhood. Prerequisite: NTR 100 or 241 or its equivalent.

**NTR 451 Nutrition in the Life Cycle II. (3)***spring*

Nutritional requirements and nutrition-related disorders of adolescents, middle adulthood, and later life. Prerequisite: NTR 100 or 241 or its equivalent.

**NTR 500 Research Methods in Nutrition. (3)***fall*

Experimental design, methods of data collection, laboratory analyses, and statistical analyses, development of thesis proposals. Lecture/lab. Fee. Prerequisites: 1 course each in advanced nutrition, biochemistry, and statistics.

**NTR 531 Recent Developments in Nutrition. (1)***fall and spring*

Selected topics address current issues in nutrition research. Prerequisites: 1 course each in advanced nutrition and biochemistry.

**NTR 532 Current Research in Nutrition. (3)***spring*

Vitamins and minerals. Prerequisites: 1 course each in advanced nutrition and biochemistry.

**NTR 540 Advanced Micronutrient Metabolism. (3)***fall*

Metabolism of vitamins and minerals primarily as applied to humans, with research literature emphasized. Prerequisites: 1 course each in basic nutrition and biochemistry.

**NTR 541 Advanced Macronutrient Metabolism. (3)***spring*

Metabolism of protein, fat, and carbohydrate, primarily as applied to humans with research literature emphasized. Prerequisites: 1 course each in basic nutrition and biochemistry.

**NTR 542 Advanced Food Product Development. (3)***fall and spring*

Food product development techniques, food evaluation and testing and investigation of current research into food composition. 2 hours lecture, 3 hours lab. Fee. Prerequisites: CHM 231 and NTR 142 or the equivalent.

**NTR 544 Therapeutic Nutrition. (3)***spring and summer*

Current theories of the nutritional prevention and treatment of various diseases. Prerequisites: 1 course each in basic nutrition, nutrition education, dietetics, and physiology.

**NTR 545 Recent Developments in Institutional Feeding. (3)***fall and spring*

Current practice in institutional feeding, including supervised practicum with local quantity food operation. 1 hour lecture, 6 hours lab. Fee. Prerequisites: NTR 142 and 344 or the equivalent.

**NTR 546 Assessment Techniques in Nutrition. (3)***spring*

Clinical and biochemical evaluation of nutritional status. 2 hours lecture, 3 hours lab. Fee. Prerequisites: 1 course each in advanced nutrition, biochemistry, and physiology.

**NTR 548 Nutrition Program Development. (3)***fall and spring*

Planning, development, implementation, and evaluation of community nutrition programs, including the process of grant applications. Prerequisites: 1 course each in basic nutrition and sociology.

**NTR 550 Advanced Maternal and Child Nutrition. (3)***fall*

In-depth review of metabolic characteristics and nutritional needs of the pregnant woman, lactating woman, infant, and child. Prerequisites: 1 course each in basic nutrition, biochemistry, and physiology.

**NTR 551 Advanced Geriatric Nutrition. (3)***spring*

In-depth review of metabolic characteristics and nutritional requirements of the elderly. Prerequisites: 1 course each in basic nutrition, biochemistry, and physiology.

**NTR 580 Dietetics Practicum. (3-9)***fall, spring, summer*

Structured practical experience in the Dietetic Internship, supervised by practitioners with whom the student works closely. Practicum. Prerequisite: acceptance into the Dietetic Internship.

**NTR 592 Research. (1-12)***not regularly offered***NTR 593 Applied Project. (1-12)***not regularly offered***NTR 594 Conference and Workshop. (1-12)***not regularly offered***NTR 598 Special Topics. (1-4)***not regularly offered*

In-depth review of recent research in areas including nutrition and exercise, nutrition and immunology, energy balance, vegetarianism, nutritional pathophysiology. Fee. Prerequisites: 1 course each in advanced nutrition, biochemistry, and physiology.

# College of Technology and Applied Sciences

---

Albert L. McHenry, Dean

[www.east.asu.edu/ctas](http://www.east.asu.edu/ctas)

## PURPOSE

The College of Technology and Applied Sciences (CTAS) helps students develop knowledge and skill in technological fields that qualify them for career positions and leadership responsibility in industry, government, and commercial enterprise. Each student is guided to select a major that addresses short-term employment goals through state-of-the-art technological preparation. Long-term career aspirations are supported through the development of a strong base in mathematics, science, engineering, and technical principles, coupled with a solid foundation in liberal arts and a commitment to lifelong learning.

Engineering technology programs offer professional preparation through a B.S. degree that stresses state-of-the-art technological applications. Special emphasis is placed on the development of knowledge and skill in applied mathematics, natural sciences, and engineering principles with formal laboratory experiences. This mixed educational approach provides the basis for both employment and a long-term career evolution.

The other CTAS technology programs provide the opportunity for students to develop knowledge and skill in solving broad-scale industrial problems, operating modern technological systems, and managing personnel in the implementation of processes and production. Programs of study focus on the latest technologies in areas such as aviation flight training and management, environmentally hazardous waste management, graphic communications, interactive computer graphics, and industrial management.

Each student is encouraged to participate in creative activities through a close relationship with a faculty mentor. Learning through execution of the scientific method, using both inductive and deductive processes in applied research activities, is essential for both faculty and students.

## ORGANIZATION

The College of Technology and Applied Sciences is composed of the following four academic units.

Department of Aeronautical Management Technology

Department of Electronics and Computer Engineering Technology

Department of Information and Management Technology

Department of Manufacturing and Aeronautical Engineering Technology

## DEGREES

See the "College of Technology and Applied Sciences Baccalaureate Degrees and Majors" table, page 634. For graduate degrees, see the "East College Graduate Degrees and Majors" table, page 622.

The College of Technology and Applied Sciences offers programs leading to the B.S. degree and B.A.S. degree. The college also offers the Master of Science in Technology (M.S.T.) degree. For more information on courses, faculty, and programs in the M.S.T. degree, see the *Graduate Catalog*.

## ACCREDITATION

Undergraduate B.S. degree programs in Aeronautical Engineering Technology, Electronics Engineering Technology, and Manufacturing Engineering Technology are accredited by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, Inc. For additional information, call 410/347-7700 or write

TECHNOLOGY ACCREDITATION COMMISSION OF  
THE ACCREDITATION BOARD FOR  
ENGINEERING AND TECHNOLOGY INC  
111 MARKET PLACE SUITE 1050  
BALTIMORE MD 21202-7102

Both the airway science flight management and the airway science management concentrations in the Department of Aeronautical Management Technology are fully accredited by the Council on Aviation Accreditation. For more information call 334-844-2431, e-mail [caa@auburn.edu](mailto:caa@auburn.edu), or write

COUNCIL ON AVIATION ACCREDITATION  
3410 SKYWAY DRIVE  
AUBURN AL 36830

## ADMISSION—B.S. DEGREE

The College of Technology and Applied Sciences admits first-year students who meet the undergraduate admission requirements of Arizona State University. See "Undergraduate Admission," page 54. High school precalculus, physics, and chemistry are recommended. Transfer applicants must meet the university requirements for transfer students as specified under "Transfer Credit," page 57, with the exception that Arizona resident transfer students must have a 2.25 GPA.

---

**NOTE:** For the General Studies requirement course and codes such as L, SQ, C, and H, see "General Studies," page 78. For graduation requirements, see "University Graduation Requirements," page 74. For an explanation of additional omnibus courses offered but not listed in this catalog, see "Catalogation of Courses," page 51.

**College of Technology and Applied Sciences Baccalaureate Degrees and Majors**

Major	Degree	Concentration	Administered By
Aeronautical Engineering Technology*	B.S.		Department of Manufacturing and Aeronautical Engineering Technology
Aeronautical Management Technology*	B.S.	Airway science flight management, airway science management	Department of Aeronautical Management Technology

Aviation maintenance management technology, aviation management technology, computer systems administration, digital media management, digital publishing, emergency management, fire service management, instrumentation, microcomputer systems, municipal operations management, operations management, production technology, semiconductor technology, software technology applications, technical graphics	Bachelor of Applied Science Advisory Committee
Computer Engineering Technology*	B.S.	Computer hardware technology, embedded systems technology, software technology	Department of Electronics and Computer Engineering Technology
Electronics Engineering Technology*	B.S.	Electronic systems, microelectronics, telecommunications	Department of Electronics and Computer Engineering Technology
Industrial Technology	B.S.	Environmental technology management, industrial technology management, graphic information technology	Department of Information and Management Technology
Manufacturing Engineering Technology*	B.S.	Manufacturing engineering technology, mechanical engineering technology	Department of Manufacturing and Aeronautical Engineering Technology

This major requires more than 120 semester hours to complete.

Students admitted to a B.S. degree program in CTAS begin study under one of two student classifications, professional or preprofessional.

#### **Professional Status**

First year students (new freshmen) are admitted to CTAS with professional status if they meet the general aptitude criteria for admission and have no deficiencies in the basic competency requirements for admission. First year students admitted upon completion of the GED are admitted with professional status if they have also achieved the minimum ACT or SAT scores required for undergraduate admission to the university.

Students transferring from other ASU colleges are admitted to CTAS with professional status if they have no remaining admissions deficiencies and meet the required GPA.

Transfer students from other institutions must meet the minimum admission requirements for college transfer students as described under "Transfer Credit," page 57. The CTAS also requires resident transfer students to have a cumulative GPA of 2.25.

All international students must have a minimum 500 TOEFL score to be admitted with professional status.

#### **Preprofessional Status**

All other students are admitted with preprofessional status and may apply for professional status after they have removed the deficiency that disallows awarding professional

status. Students with preprofessional status may not register for 300- and 400-level courses in the college until they have been awarded professional status. See an advisor for details.

#### **Transfer Credit**

Credit for courses taken at a community college or another four-year institution is awarded according to the guidelines under "Transfer Credit," page 57. Students who are transferring from an Arizona community college and have been in continuous residence may continue under the catalog in effect at the time of their entrance into the community college. Students should be aware that some course work that transfers to ASU may not be applicable toward CTAS degree requirements. Students should confer with an advisor. The College of Technology and Applied Sciences maintains a cooperative agreement with most Arizona community colleges and with selected out-of-state colleges and universities to structure programs that are directly transferable into the technology programs at ASU East. For assistance in the transfer from Arizona community colleges, transfer guides are available at [www.asu.edu/provost/articulation](http://www.asu.edu/provost/articulation).

Courses taken more than five years before admission to a CTAS degree program are not normally accepted for transfer credit at the option of the department in which the applicant wishes to enroll. Courses completed within the five years preceding admission are judged as to their applicability to the student's curriculum.

College of Technology and Applied Sciences Graduate Degrees and Majors

Major	Degree	Concentration	Administered By
Technology	M S Tech	Global technology and development	College of Technology and Applied Sciences
		Aviation human factors, aviation management technology	Department of Aeronautical Management Technology
		Computer systems engineering technology, electronic systems engineering technology, instrumentation and measurement technology, microelectronics engineering technology	Department of Electronics and Computer Engineering Technology
		Environmental technology management, fire service administration, information technology, management of technology	Department of Information and Management Technology
		Aeronautics engineering technology, manufacturing engineering technology, mechanical engineering technology, security engineering technology	Department of Manufacturing and Aeronautical Technology

**ADMISSION—B.A.S. DEGREE**

Admission to the B.A.S. degree program is restricted to students holding an A.A.S. degree from a regionally accredited U.S. postsecondary educational institution. A GPA of 2.00 or higher is required for all resident applicants and a 2.50 for nonresident applicants.

**ADVISING**

New incoming and transfer students should seek initial advising from the academic advisor in the Dean's Office. CTAS students are then assigned faculty advisors who assist them with planning a program of study in the department of their major. The college requires that students consult with advisors before registering each semester. Advisors should be made aware of any employment obligations or special circumstances that may affect a student's ability to successfully handle a full course load. CTAS students may register for a maximum of 19 semester hours per semester. Any student wishing to take more than the maximum must petition the CTAS Standards Committee and have an approval on file before registering for an overload.

**GRADUATION REQUIREMENTS**

Students must meet all university graduation requirements given in "University Graduation Requirements," page 74, as well as degree requirements of their major in the College of Technology and Applied Sciences. For detailed information on the degree requirements of a major in CTAS refer to that department's individual description.

**COLLEGE STANDARDS**

**Pass/Fail Grades**

The College of Technology and Applied Sciences does not offer pass/fail grades. Courses graded on a pass/fail basis do not count toward degree credit in CTAS. Students may request credit for pass/fail courses by petitioning the CTAS Standards Committee.

**Entry into Upper-Division Courses (B.S. Degree)**

Before enrolling in courses at the 300 level and above, CTAS students must be in the professional status within the college. Students who are not in good academic standing must petition the CTAS Standards Committee. Students enrolled in another ASU college may not register for any 300- and 400-level CTAS courses unless those courses are required in the degree program and the students have the proper course prerequisites.

**ACADEMIC STANDARDS**

**Retention.** A student is expected to make satisfactory progress toward completion of degree requirements to continue enrollment in the College of Technology and Applied Sciences. Any one of the following conditions is considered unsatisfactory progress and results in the student's being placed on probationary status:

1. a semester or summer session with a GPA less than or equal to 1.50;
2. two successive semesters with GPAs less than 2.00; or
3. an ASU cumulative GPA less than 2.00.

A student on probation is subject to disqualification if (1) a semester GPA of 2.25 is not attained and the cumulative GPA is below 2.00 at the end of the probationary semester or (2) the student is placed on probation for two consecutive semesters and is unable to achieve the standard GPAs stated in number one.

Students on academic probation are not allowed to register for more than 13 semester hours. Probationary students may not register for the semester following the semester in which they were declared probationary without a special permit from an advisor in the dean's office. Special permits are given only after the registrar records grades for the current semester.

**NOTE:** For the General Studies requirement, courses and codes such as L, SQ, C, and H, see "General Studies," page 78. For graduation requirements, see "University Graduation Requirements," page 74. For an explanation of additional omnibus courses offered but not listed in this catalog, see "Classification of Courses," page 51.

**Disqualification.** During a semester on academic probation, a student who fails to meet the retention standards is disqualified. Students may request a review of their disqualification status by contacting the CTAS associate dean in the Academic Center Building (CNTR), room 10. Any disqualified student who is accepted by another college at ASU may not register for courses in CTAS unless the courses are required in the new major. Disqualified students who register for courses in CTAS may be withdrawn from these courses any time during the semester.

**Reinstatement.** The college does not accept an application for reinstatement until the disqualified student has remained out of the college for at least a 12-month period. Merely having remained in disqualified status for this period of time does not, in itself, constitute a basis for reinstatement. Proof of ability to do satisfactory college work in the chosen discipline is required; for example, completing pertinent courses in the discipline at a community college with higher than average grades.

### STUDENT RESPONSIBILITIES

**Course Prerequisites.** Students should consult the *Schedule of Classes* and the catalog for course prerequisites. Students who register for courses without the designated prerequisites may be withdrawn without their consent at any time before the final examination. The instructor, the chair of the department, or the dean of the college may initiate such withdrawals. In such cases, students do not receive monetary reimbursement. Such withdrawals are considered to be unrestricted as described under "Unrestricted Course Withdrawal," page 68, and do not count against the number of restricted withdrawals allowed.

### SPECIAL PROGRAMS

**Academic Recognition.** Students completing baccalaureate degree requirements receive the appropriate honors designations on their diplomas consistent with the requirements specified by the university.

Students in the college are encouraged to seek information concerning entry into honor societies that enhance their professional stature. Tau Alpha Pi is the engineering technology honor society, and Alpha Eta Rho is available for aeronautical management technology students.

**Barrett Honors College.** The College of Technology and Applied Sciences participates in the programs of the Craig and Barbara Barrett Honors College, which provides enhanced educational experiences to academically superior undergraduate students. Participating students can major in any academic program. For more information see "The Craig and Barbara Barrett Honors College," page 112.

**Scholarships.** Information and applications for academic scholarships for continuing students may be obtained by contacting departmental offices. Other scholarships may be available through the university Student Financial Assistance Office.

**ROTC Students.** Students pursuing a commission through either the Air Force or Army ROTC program must take from 12 to 20 semester hours of courses in the Department of Aerospace Studies or Department of Military Science. To preclude excessive overloads, these students should plan on

at least one additional semester to complete degree requirements. Because of accreditation requirements, aerospace studies (AES) or military science (MIS) courses are not accepted in the engineering technology majors.

### ENGINEERING TECHNOLOGY CORE (ETC)

#### ETC 100 Languages of Technology. (4)

*fall and spring*

Introduction to computer-aided design, programming, modeling, and technical documentation. Lecture/lab. *General Studies CS*

#### ETC 191 First-Year Seminar. (1-3)

*not regularly offered*

#### ETC 194 Special Topics. (1-4)

*not regularly offered*

#### ETC 201 Applied Electrical Science. (4)

*fall, spring, summer*

Principles of electricity: passive elements, and AC/DC circuit analysis. Laboratory exploration of circuits using instrumentation and the computer as tools. Lecture/lab. Prerequisites: ETC 100; MAT 170; PHY 112, 114.

#### ETC 211 Applied Engineering Mechanics: Statics. (3)

*fall and spring*

Vectors, forces and moments, force systems, equilibrium analysis of basic structures and structural components, friction, centroids, and moments of inertia. Prerequisites: MAT 260; PHY 111, 113.

#### ETC 340 Applied Thermodynamics and Heat Transfer. (3)

*fall and spring*

Thermodynamic systems and processes, first and second laws of thermodynamics, properties of pure substances, and applications to heat engines and special systems. Fundamentals of conduction, radiation, and convection. Prerequisites: MAT 261; PHY 112, 114.

#### ETC 492 Honors Directed Study. (1-6)

*not regularly offered*

#### ETC 493 Honors Thesis. (1-6)

*not regularly offered*

### PURPOSE

Graduates are prepared for entry into the aviation and aerospace industry in productive, professional employment or, alternatively, for graduate study. Curricula emphasize principles underlying the application of technical knowledge as well as current technology, preparing the graduate to adapt to the rapid and continual changes in aviation and aerospace technology.

**ADMISSION**

New and transfer students who have been admitted to the university and who meet the requirements for admission to the College of Technology and Applied Sciences may be admitted without separate application to the Department of Aeronautical Management Technology. Students are cleared for enrollment in Airway Science Flight Management flight courses on a competitive basis. Transfer credits are reviewed by department faculty advisors. To be acceptable for department credit, transfer courses must be equivalent in both content and level of offering.

**DEGREES**

The faculty in the Department of Aeronautical Management Technology offer a B.S. degree in Aeronautical Management Technology with concentrations in airway science flight management and airway science management. A B.A.S. degree in Applied Science is also offered with concentrations in aviation maintenance management technology and aviation management technology.

A Master of Science in Technology degree is offered for graduate study with concentrations in aviation management technology and aviation human factors. For more information, see the *Graduate Catalog*.

**AERONAUTICAL MANAGEMENT TECHNOLOGY—B.S.**

The Aeronautical Management Technology curricula are designed to provide a thorough technical background combined with an interdisciplinary general university education. The graduate is prepared to assume responsibilities in a wide area of managerial and technically related areas of aviation. The student gains a background in aircraft structures, reciprocating and turbine engines, aircraft performance and design, management skills, business principles, systems analysis, and a variety of course work specific to aircraft flight, airport operations, and air transportation systems. The degree offers two concentrations: airway science flight management and airway science management, both of which have been accredited by the Council on Aviation Accreditation. The concentrations are described separately on the following pages.

All degree requirements are shown on curriculum check sheets for the concentrations that are available by visiting the department or by accessing the department Web site at eastaircraft.asu.edu. Requirements include First Year Composition, university General Studies (see "General Studies," page 78), and the Aeronautical Management Technology Core. Note that all three General Studies awareness areas are required. Consult your advisor for an approved list of courses. Refer to individual concentration degree requirements for additional required courses. Students must complete each Aeronautical Management Technology course with a grade of "C" or higher.

**Airway Science Flight Management Concentration**

Flight training is certified by the Federal Aviation Administration. Students in the airway science flight management concentration must pass an FAA medical examination before flying solo. While this physical examination is not required for admission to the program, it must be completed before flying solo as the medical certificate becomes the student pilot certificate. An FAA Class II medical examination is required to complete the certificates and ratings necessary to meet graduation requirements. It is recommended that a Class I FAA medical examination be completed by an aviation medical examiner of the student's choice before the start of classes.

Airway science flight management combines academic studies and flight training to prepare graduates for a wide variety of positions within the air transportation industry, including general, airline, and military aviation. Ground school and flight training are available, allowing the student to obtain private pilot, commercial pilot, and flight instructor certificates and also the instrument pilot, instrument instructor, and multiengine pilot ratings.

This curriculum concentrates on flying plus the technical management and computer related applications necessary to operate in the high density environment of modern airspace. The program also emphasizes critical thinking, analytical skills, and oral and written communication skills. A career in airway science flight management leads to the development, administration, and enforcement of safety regulations, including airworthiness and operational standards in civil aviation.

While enrolled at ASU, students do not receive college credit for flight activity or instruction received at flight schools other than those entities with which the university has currently contracted for such instruction. Consideration is given for flight experience received before enrollment at the university through the private pilot certificate only.

Flight instruction costs are not included in university tuition and fees. The estimated cost of flight training is \$36,000 in addition to normal university costs.

**Degree Requirements**

Airway science flight management students are required to complete 128 semester hours with a 2.00 cumulative GPA, including a minimum of 50 semester hours of upper division courses. All degree requirements are shown on the student's curriculum check sheet.

**Concentration Requirements**

In addition to the required courses for First Year Composition, university General Studies (see "General Studies,"

**NOTE.** For the General Studies requirement, courses and codes such as L, SQ, C, and H, see "General Studies," page 78. For graduation requirements, see "University Graduation Requirements," page 74. For an explanation of additional omnibus courses offered but not listed in this catalog, see "Classification of Courses," page 51.

page 78 , and the Aeronautical Management Technology core, the following additional courses are required for the airway science flight management concentration:

AET 300 Aircraft Design I	3
AMT 100 Flight Safety I	1
AMT 200 Flight Safety II	2
AMT 214 Commercial/Instrument Ground School I	3
AMT 300 Flight Safety III	2
AMT 322 Commercial Instrument Ground School II	3
AMT 382 Air Navigation	3
AMT 385 Flight Instructor Ground School	3
AMT 387 Multiengine Pilot Ground School	1
AMT 392 Flight Instructor Instrument Ground School	2

\* Both PHY 111 and 113 must be taken to secure SQ credit

**Airway Science Management Concentration**

The airway science management concentration is designed to prepare graduates for managerial and supervisory positions throughout the air transportation industry. An in-depth technical education is included along with broad exposure to business and management courses. This program of study is interdisciplinary in nature and prepares the aeronautical career-oriented student for positions such as air traffic control specialist, air carrier manager, airport manager, and general aviation operations manager.

**Degree Requirements**

Airway science management students are required to complete 128 semester hours with a 2.00 cumulative GPA, including a minimum of 50 semester hours of upper division courses. All degree requirements are shown on the student's curriculum check sheet.

**Concentration Requirements**

In addition to the required courses for First Year Composition, university General Studies (see "General Studies," page 78), and the Aeronautical Management Technology

core, the following additional courses are required in the airway science management concentration

ACC 230 Uses of Accounting Information I	3
AMT 408 National Aviation Policy	3
AMT 444 Airport Management and Planning	3
AMT 489 Airline Administration	3
AMT 496 Aviation Management Capstone	3

**APPLIED SCIENCE—B.A.S.**

The Bachelor of Applied Science degree is a "capstone" degree for the Associate of Applied Science degree. The B.A.S. degree exposes students to advanced concepts and diverse critical thinking skills that prepare students for future career opportunities and professional advancement.

**Admission**

Admission to the B.A.S. degree program is restricted to students holding an A.A.S. degree from a regionally accredited U.S. postsecondary educational institution. A GPA of 2.00 or higher is required for all resident applicants and a 2.50 for nonresident applicants.

**Degree Requirements**

The B.A.S. degree in the College of Technology and Applied Sciences consists of 60 semester hours of upper division (300 level and above) courses, with 30 hours in residence.

A.A.S. degree transfer	60
Assignable credit	6
B.A.S. core	15
General Studies	19
Technical concentration	20
Total	120

**General Studies Curriculum**

The B.A.S. curriculum builds on the general education content of the A.A.S. degree. Additional General Studies (L, CS and awareness areas) are met with courses in the core concentration. General Studies courses focus on contextual learning.

L..	3
MA	3
HU	3
HU or SB	3
SB	3
SG	4
Total	19

**Assignable Credit**

Assignable credit allows space in the curriculum for prerequisite courses needed to succeed in the program. The courses are determined by the student and the advisor.

**B.A.S. Core**

The area core is focused on management and organization, professional communication, quantitative analysis, and computer competency.

GIT 494 ST: Computer Systems Applications	3
IMC 346 Management Dynamics or ITM 344 Industrial Organization (3 or ITM 452 Industrial Human Resource Management (3	3
IMC 470 Project Management	3
STP 420 Introductory Applied Statistics CS	3
TWC 400 Technical Communications L	3
Total	15

**Technical Concentrations**

**Aviation Maintenance Management Technology.** This concentration is for those students who have completed an airframe and powerplant certification as part of their A.A.S. degree. Students receive an orientation in management practices that prepares them for progressively more responsible positions in the field of aviation maintenance management.

**Aviation Management Technology.** This concentration is for those students who have received training and education in some aspect of the air transportation industry (other than aviation maintenance), such as flight certificates and ratings as part of their A.A.S. degree. Students receive an orientation in management practices that prepares them for progressively more responsible positions in the field of aviation management.

**STUDENT ORGANIZATIONS**

The department hosts the local chapter of Alpha Eta Rho, an international professional aviation fraternity open to all students with an interest in aviation. The American Association for Airport Executives is open to all students with an interest in airport management. The Student Advisory Council is a leadership organization that facilitates student communication with faculty, departmental leaders, and university administrative personnel. The Precision Flight Team competes in regional and national flying safety competi-

tions. Women in Aviation is an international organization that is open to all students.

**AERONAUTICAL MANAGEMENT TECHNOLOGY (AMT)**

**AMT Note 1.** Flight instructor costs are not included in university tuition and fees.

**AMT 100 Flight Safety I. (1)**

*fa, spring, summer*  
Supervised private pilot flight training and flight safety briefings. Continuous enrollment required until completion of the FAA Private Pilot Certificate. Lecture/lab. Fee. See AMT Note 1. Corequisite: AMT 182 or 220 or its equivalent.

**AMT 101 Introduction to Aeronautical Management Technology. (1)**

*fa and spring*  
Facilitates entry into Aeronautical Management Technology programs. Emphasizes *General Catalog* and concentration requirements registration, careers, and ASU East facilities.

**AMT 182 Private Pilot Ground School. (3)**

*fa, spring, summer*  
Ground school preparation for Private Pilot Certificate. Aerodynamics, navigation, performance, and regulations. Lecture/lab. Corequisite: AMT 220.

**AMT 194 Special Topics. (1-4)**

*not regularly offered*

**AMT 200 Flight Safety II. (2)**

*fa, spring, summer*  
Supervised commercial instrument flight training and safety briefings. Continuous enrollment required until completion of FAA Commercial Pilot Certificate with Instrument Rating. Lecture/lab. Fee. See AMT Note 1. Prerequisites: AMT 100 Private Pilot Certificate. Pre- or corequisite: AMT 214 or 322.

**AMT 201 Air Traffic Control. (3)**

*fa*  
Ground and air operations, weather services communications and routing flight plans, flight operations, departures and arrivals, and airport conditions and emergencies. Prerequisite: AMT 182.

**AMT 214 Commercial/Instrument Ground School I. (3)**

*fa, spring*  
Ground school leading to FAA Instrument Pilot Rating/Commercial Pilot Certificate, part 1 of 2. 10 hours ground training included. Lecture/lab. Fee. Pre- or corequisites: AMT 182, 220.

**AMT 220 Aviation Meteorology. (3)**

*fa, spring, summer*  
Evaluation, analysis, and interpretation of atmospheric phenomena. Low and high altitude weather from the pilot's viewpoint. Corequisite: AMT 182.

**AMT 280 Aerospace Structures, Materials, and Systems. (4)**

*fa*  
Basic aerodynamics, incompressible and compressible flow, wind tunnel testing, wing theory; analysis of aircraft structures; properties and applications of materials and aircraft systems. Lecture/lab. Fee. Prerequisites: PHY 111, 113.

**AMT 287 Aircraft Powerplants. (4)**

*spring*  
Theory and performance analysis of gas turbine and reciprocating aircraft engines. Engine accessories, systems, and environmental control. Lecture/lab. Prerequisite: AMT 280.

**AMT 300 Flight Safety III. (2)**

*fa, spring, summer*  
Supervised instructor flight training and safety briefings. Continuous enrollment required until completion of FAA Flight Instructor Certificate with Instructor Rating. Lecture/lab. Fee. See AMT Note 1. Prerequisite: AMT 200. Pre- or corequisite: AMT 385.

**NOTE:** For the General Studies requirement courses, and codes (such as L, SQ, C, and H) see "General Studies" page 78. For graduation requirements see "University Graduation Requirements" page 74. For an explanation of additional omnibus courses offered but not listed in this catalog, see Classification of Courses, page 51.

**AMT 308 Air Transportation. (3)***fa*

Study of the historical and international development of air transportation and its social, political, and economic impact upon global interrelationships. Prerequisite: junior or standing. *General Studies: G*

**AMT 322 Commercial/Instrument Ground School II. (3)***spring*

Ground school leading to FAA Instrument Pilot Rating/Commercial Pilot Certificate part 2 of 2 10 hours ground training included. Lecture/lab/Fee. Prerequisite: Private Pilot Certificate. Pre- or corequisite: AMT 214

**AMT 360 Introduction to Helicopter Technology. (3)***not regularly offered*

Introduction to the working functions of modern rotary wing aircraft. rotary wing flight theory, aerodynamics, controls, flight, and power requirements. Prerequisites: PHY 111, 113

**AMT 370 Air Freight Operations. (3)***not regularly offered*

Air freight operations. National Aviation System ramp operations, loading, weight and balance, and administration of airside and groundside operations. Prerequisite: junior or standing

**AMT 382 Air Navigation. (3)***spring*

Theory and application of modern advanced navigation and flight instrument systems. Introduction to crew resource management in multiple cockpit. Lecture/lab. Prerequisite: AMT 322

**AMT 385 Flight Instructor Ground School. (3)***fall and spring*

Ground school preparation for the FAA Flight Instructor Certificate. Lecture/lab. Pre- or corequisite: AMT 322

**AMT 387 Multiengine Pilot Ground School. (1)***fall and spring*

Ground school preparation for the FAA Multiengine Rating. Lecture/lab/Fee. See AMT Note 1. Pre- or corequisite: AMT 200 or instructor approval

**AMT 391 Multiengine Instructor Ground School. (2)***not regularly offered*

Ground school preparation for the FAA Multiengine Flight Instructor Rating. Lecture/lab. See AMT Note 1. Prerequisites: AMT 300, 387, 400

**AMT 392 Flight Instructor Instrument Ground School. (2)***fall and spring*

Ground school preparation for the FAA Instrument Flight Instructor Rating. Lecture/lab. See AMT Note 1. Prerequisite: AMT 200. Pre- or corequisite: AMT 200

**AMT 395 Multiengine Land, Airplane Flight Instructor Rating. (1)***not regularly offered*

Norma and emergency flight operations. Instruction techniques and procedures for flight multiengine and airplane CFAME Rating. Required for course completion. Lecture/lab. See AMT Note 1. Prerequisite: AMT 391

**AMT 396 Aviation Professional. (1)***fall and spring*

Career focus for management and flight students including internships, résumé writing, interviews, and employment search in aviation industry. Prerequisite: junior or standing

**AMT 400 Flight Safety IV. (1)***fall, spring, summer*

Multiengine and crew training and safety briefings. Continuous enrollment required until completion of rating and multiengine training. Lecture/lab/Fee. See AMT Note 1. Prerequisite: AMT 300. Pre- or corequisite: AMT 387

**AMT 408 National Aviation Policy. (3)***fa*

Examination of aviation and aerospace policies and policy process including agencies involved in formulation, implementation, and evaluation of aviation policy. Prerequisite: AMT 308

**AMT 409 Nondestructive Testing and Quality Assurance. (1)***not regularly offered*

Purpose of inspection and quality assurance. Theory and application of nondestructive inspection methods. Application of pertinent standards, specifications, and codes. Lecture/lab. Cross-listed as AET 409. Credit is awarded for any AET 409 or AMT 409. See AMT Note 1. Prerequisite: AMT 280 or MET 230

**AMT 410 Aviation Safety and Human Factors. (3)***fall*

Aviation accident prevention, human factors, the support for prevention, accident investigation, and crash survivability. Development and analysis of aviation safety programs. Prerequisites: junior or standing, completion of 1 semester of General Studies I requirement.

**AMT 412 Air Transportation Research. (1)***fa*

Survey of practical research methodology in use in the air transportation industry. Topics include planning and design considerations.

**AMT 419 Aviation Logistical Management. (3)***spring*

Survey of FAA requirements for personnel and facilities. Topics include parts supply, quality control, product availability, pricing, profitability, and administration. Lecture/lab. Prerequisite: junior standing

**AMT 442 Aviation Law/Regulations. (3)***fa*

Aviation within context of U.S. Common Law system. Public law administration, rule making, sovereignty enforcement, and case analysis. Prerequisite: junior or standing

**AMT 444 Airport Management and Planning. (3)***spring*

Orientation to administration and management of modern public airports. In-depth overview of planning, funding, and development of airport facilities. Prerequisite: AMT 308

**AMT 482 Airline Instrument Procedures. (3)***fa*

Advanced instrument flight using a real instrument procedures and a real crew and cockpit resource management. Lecture/lab. Prerequisites: AMT 322, 382

**AMT 484 Aeronautical Internship. (1-12)***fall, spring, summer*

Work experience assignment with aerospace industry commensurate with student's program. Specific project guidance by industry with university supervision. Prerequisites: advisor approval, junior standing

**AMT 489 Airline Administration. (3)***spring*

Administrative organizations, economics of airline administration, operational structure, and relationship with federal government agencies. Prerequisites: AMT 308, instructor approval

**AMT 491 Aviation Management Capstone. (3)***spring*

Integration and overview of management tools, current business problems, and topics related to aviation industry. Group project with industry and government and business partners. Prerequisite: senior standing

**AMT 494 Special Topics. (1-4)***not regularly offered***AMT 496 Airline Aircraft Systems Capstone. (3)***spring*

Commercial airplane aircraft systems and flight procedures. Includes theoretical education for large commercial passenger aircraft. Lecture/lab. Prerequisite: senior standing

**AMT 498 Pro-Seminar. (1-7)***not regularly offered***AMT 499 Individualized Instruction. (1-3)***not regularly offered***AMT 521 Air Transportation Regulation. (3)***not regularly offered*

Reviews evolutionary history of government regulations. Explores alternatives for economic, safety, social, and administrative regulatory reform in air transportation. Prerequisite: AMT 444 or 489 or its equivalent

**AMT 523 Aviation Systems Management. (3)***not regularly offered*

System theory applied to intermodal transportation networks. Survey of air and ground transportation infrastructure. Institutional framework works and intermodalities promoting connections between modes. Prerequisite: AMT 444 or 489 or its equivalent

**AMT 525 Airport Planning and Design. (3)***not regularly offered*

Students complete various phases of a report/master planning process. Provides guidance for ongoing and timely development of reports. Project work groups assigned. Prerequisite: AMT 444 or 489 (or its equivalent)

**AMT 527 Airline Management Strategies. (3)***not regularly offered*

Since deregulation airlines have undergone profound changes through mergers, consolidation, and acquisition. In-depth look at airline management strategies for the 21st century. Prerequisite: AMT 444 or 489 or its equivalent.

**AMT 528 International Aviation. (3)***not regularly offered*

Major issues of international aviation, historical review of institutional framework. Bilateral route agreements, freedom versus sovereignty, current legal and political arrangements. Prerequisite: AMT 444 or 489 or its equivalent.

**AMT 529 Fixed-Base Operations Management. (3)***not regularly offered*

Examination of FBO role in the national aviation system. Organization of flight operations, aircraft maintenance, and administration for multiple aircraft types. Prerequisite: AMT 444 or 489 (or its equivalent).

**AMT 541 Aviation Physiology. (3)***not regularly offered*

Survey of human physiology and human performance principles related to modern aircraft and aircraft systems operating in multiple environments. Prerequisite: AMT 410 (or its equivalent).

**AMT 543 Ergonomics in High-Technology Environments. (3)***not regularly offered*

Examination of ergonomic design principles regarding man-machine interface requirements of high technology workstations. Emphasis on computer workstation design issues. Prerequisite: AMT 410 (or its equivalent).

**AMT 545 Human Factors in Aviation. (3)***not regularly offered*

Overview of human role in aviation. Issues, problems of unsafe acts and attitudes in human behavior. Human engineering capabilities and limitations. Prerequisite: AMT 410 (or its equivalent).

**AMT 546 Crew Resource Management/Line-Oriented Flight Training. (3)***not regularly offered*

Evaluation of in-depth, multi-crew coordination issues for commercial aviation pilots. Stresses importance of critical thinking, decision making, integrated resource utilization. Prerequisite: AMT 410 (or its equivalent).

**AMT 547 Modern Human Factors Design Issues. (3)***not regularly offered*

Research and discussion of current human factors issues. State of the art analyses of information regarding rapidly evolving designs and applications. Prerequisite: AMT 410 (or its equivalent).

**AMT 549 Human Factors Research. (3)***not regularly offered*

Aviation human factors research principles applied and tested in operational settings. Group projects assigned in conjunction with industry partners. Prerequisite: AMT 410 (or its equivalent).

**AMT 580 Practicum. (1-12)***not regularly offered***AMT 584 Internship. (1-12)***not regularly offered***AMT 590 Reading and Conference. (1-12)***not regularly offered***AMT 591 Seminar. (1-12)***not regularly offered***AMT 592 Research. (1-12)***not regularly offered***AMT 593 Applied Project. (1-12)***not regularly offered***AMT 595 Continuing Registration. (1)***not regularly offered***AMT 598 Special Topics. (1-4)***not regularly offered***AMT 599 Thesis. (1-12)***not regularly offered*

## Department of Electronics and Computer Engineering Technology

Timothy E. Lindquist

*Chair*

(TECH 101) 480/727-2783

Fax 480/727-1723

---

**PROFESSORS**

LINDQUIST, McHENRY MUNUKUTLA, NOWLIN

**ASSOCIATE PROFESSORS**

ABUELYAMAN, MACA, MLLARD,

SUNDARARAJAN, ZENG

**ASSISTANT PROFESSORS**

LIPARI, PETERSON

**PURPOSE**

The Department of Electronics and Computer Engineering Technology prepares graduates to apply scientific and engineering knowledge, methods, and techniques in support of technological applications in electronics and computer engineering activities and processes.

The engineering technology curriculum is applications oriented and builds upon a background of applied science and mathematics, including the concepts and applications of calculus. Graduates are prepared to produce practical, workable, and safe solutions to technologically challenging problems. Graduates are employed in the electronics and computer industries with responsibilities such as designing, installing and operating technical systems, analyzing and (re) engineering systems that embed computer hardware and software for unique applications, developing and producing products, managing manufacturing processes, and providing customer support for technical products and systems.

**DEGREES**

The faculty in the Department of Electronics and Computer Engineering Technology offer the B.S. degree in Electronics Engineering Technology (B.S./EET) and the B.S. degree in Computer Engineering Technology (B.S./CET).

For students holding an A.A.S. degree, the department offers the B.A.S. degree with a major in Applied Science. Five concentrations are available: computer systems administration, instrumentation, microcomputer systems, semiconductor technology, and software technology applications.

A Master of Science in Technology degree program with concentrations in electronics engineering technology, computer systems engineering technology, instrumentation and measurement technology, and microelectronics engineering technology is available for qualified B.S. graduates. See the *Graduate Catalog* for more information.

---

**NOTE:** For the General Studies requirement courses, and codes (such as L, SQ, C and H) see "General Studies" page 78. For graduation requirements see "University Graduation Requirements" page 74. For an explanation of additional omnibus courses offered but not listed in this catalog see "Classification of Courses" page 51.

**Electronics Engineering Technology—B.S.**

Students interested in the B.S. degree in Electronics Engineering Technology may choose to specialize in one of the following three concentrations: electronic systems, microelectronics, and telecommunications.

The *electronic systems* concentration is aimed at preparing persons for careers in control, electronics, instrumentation, and power systems applications. This concentration allows a student to develop a broad based knowledge of electrical/electronic fundamentals with an applications perspective.

The *microelectronics UET* concentration combines applied electronics, monolithic and hybrid integrated circuit processing and applications, device and component fabrication, and manufacturing. The objective of this concentration is to prepare persons to assume positions in the area of microelectronics manufacturing with immediately applicable knowledge as well as to develop a strong foundation of electronic fundamentals and methods. Graduates of this concentration secure positions in processing, manufacturing operations, and applications areas in industry as members of the diverse scientific engineering team.

The *telecommunications* concentration encompasses the fundamentals of information and signal processing, modern bandwidth efficient digital radio analysis with RF and microwave circuits and systems. Applications include telephone pulse code modulation, cable TV, fiber optic links, and satellite transmitter circuits and systems.

The departmental curriculum is organized into two categories, technical studies and General Studies. Technical studies consist of core areas and the concentration specialty area. General Studies consist of courses selected to meet the university General Studies requirement (see "General Studies," page 78) as well as the math/science requirement of TAC of ABET. Note that at least three General Studies awareness areas are required. Consult your advisor for an approved list of courses.

A minimum of 50 upper division hours is required, including at least 24 semester hours of EET, CET, or UET upper division hours to be taken at ASU. A minimum of 128 semester hours with a 2.00 cumulative GPA is required for graduation. Complete program of study guides with typical four-year patterns are available from the department.

The General Studies portion of the B.S. EET curriculum has been carefully structured to meet the specific requirements of the university and to include the content required by the Technology Accreditation Commission of the Accreditation Board for Engineering and Technology, the professional accrediting agency for such curricula.

**ELECTRONICS ENGINEERING TECHNOLOGY—  
B.S. DEGREE REQUIREMENTS**

In addition to the courses listed for First Year Composition and university General Studies, the following courses are required.

**ENGINEERING TECHNOLOGY CORE**

The following courses are required as part of the engineering technology core:

ETC 100 Languages of Technology CS	4
ETC 211 Applied Engineering Mechanics/Statistics	3

ETC 340 Applied Thermodynamics and Heat Transfer	3
Total	10

**Electronics Engineering Technology Core and Major Requirements**

CET 150 Digital Systems I/CS	4
CET 256 C Programming for Engineering Technology	3
CET 350 Digital Systems II	4
CET 354 Microcomputer Architecture and Programming	4
EET 208 Electronic Circuit Analysis I	4
EET 311 Electronic Circuit Analysis II	4
EET 310 Electronic Circuits I	4
EET 372 Communication Systems	4
EET 396 Professional Orientation*	1
EET 407 Energy Conversion and Applications	4
EET 410 Electronic Circuits II	3
UET 331 Electronic Materials	3
UET 415 Electronic Manufacturing Engineering Principles	3
Total	45

Students must take EET 396 the semester in which they are enrolled in the 87th hour of credit (ASU plus transfer hours). If this occurs in summer session, students should take EET 396 the prior spring semester.

**Electronics Engineering Technology Concentrations**

**Electronic Systems**

CET 483 UNIX with C Applications	3
EET 406 Control System Technology	4
EET 431 Instrumentation Systems	4
EET 46 Power Electronics	4
Approved technical electives	8
Total	23

**Microelectronics**

CHM 16 General Chemistry SQ	4
UET 416 Monolithic Integrated Circuit Devices	3
UET 417 Monolithic Integrated Circuit Laboratory	2
UET 418 Hybrid Integrated Circuit Technology	4
UET 421 Applied Device Physics	3
UET 437 Semiconductor Packaging and Heat Transfer	3
Approved technical electives	4
Total	23

**Telecommunications**

CE 473 Digital Data Communications	4
EET 304 Microwave Technology	4
EET 401 Digital Filters and Applications	3
EET 470 Communication Circuits	4
Approved technical electives	8
Total	23

**Electronics Engineering Technology  
Program of Study  
Typical First- and Second-Year Sequence**

**First Year**

<b>First Semester</b>	
CET 150 Digital Systems I/CS	4
ENG 101 First Year Composition	3
MAT 170 Pre-calculus MA	3
PHY 111 General Physics SQ	3
PHY 113 General Physics Laboratory SQ	1
Total	14

**Second Semester**

ENG 102 First Year Composition . . . . .	3
ETC 100 Languages of Technology CS . . . . .	4
MAT 260 Technical Calculus I MA . . . . .	3
PHY 112 General Physics SQ <sup>2</sup> . . . . .	3
PHY 114 General Physics Laboratory SQ <sup>2</sup> . . . . .	1

<b>Total . . . . .</b>	<b>16</b>

<sup>1</sup> Both PHY 111 and 113 must be taken to secure SQ credit  
<sup>2</sup> Both PHY 112 and 114 must be taken to secure SQ credit

**COMPUTER ENGINEERING TECHNOLOGY—  
B.S. DEGREE REQUIREMENTS**

Students interested in the B.S. degree in Computer Engineering Technology (B.S./CET) may choose to specialize in one of the following three concentrations: computer hardware technology, embedded systems technology, and software technology.

The *computer hardware technology* concentration is designed to provide students with an opportunity to develop a broad based knowledge and skills in digital systems, interfacing techniques and computer hardware applications.

The *embedded systems technology* concentration prepares students for the application, interconnection, design, analysis, and realization of systems that involve both software and hardware components. The concentration balances the hardware concerns of computer engineering with the processes and technologies involved in producing reliable software solutions.

The *software technology* concentration prepares students for careers in software applications in the context of an industry in which software solutions are increasingly distributed, using object oriented languages and frameworks, and in which the Internet, Web and wireless technologies play an important role.

Each student must satisfy the courses listed for First Year Composition and the university General Studies requirement. In addition, the following courses are required:

**Lower-Division Core**

CET 100 Object-Oriented Software Development I . . . . .	3
CET 150 Digital Systems I CS . . . . .	4
CET 230 Applied Data Structures . . . . .	3

CE 256 C Programming for Engineering Technology . . . . .	3
EET 208 Electric Circuit Analysis I . . . . .	4
ETC 100 Languages of Technology CS . . . . .	4
<b>Core total . . . . .</b>	<b>21</b>

**Major**

CET 350 Digital Systems I . . . . .	4
CET 354 Microcomputer Architecture and Programming . . . . .	4
CET 476 Assembly Language Applications . . . . .	3
CET 483 UNIX with C Applications . . . . .	3
CET 486 Hardware Description Languages: VHDL . . . . .	3
CET 494 Senior Computer Project . . . . .	3
EET 396 Professional Orientation . . . . .	3
<b>Total . . . . .</b>	<b>21</b>

**Computer Hardware Technology Concentration**

CET 452 Digital Logic Applications . . . . .	4
CET 454 Microcontrollers . . . . .	3
CET 457 Microcomputer Systems Interfacing . . . . .	4

<sup>2</sup> Both PHY 112 and 114 must be taken to secure SQ credit

**APPLIED SCIENCE—B.A.S.**

The Bachelor of Applied Science degree is a "capstone" degree for the Associate of Applied Science degree. The B.A.S. degree exposes students to advanced concepts and diverse critical thinking skills that prepare them for future career opportunities and professional advancement.

**Admission**

Admission to the B.A.S. degree program is restricted to students holding an A.A.S. degree from a regionally accredited U.S. postsecondary educational institution. A GPA of 2.00 or higher is required for all resident applicants and a 2.50 for nonresident applicants.

**Degree Requirements**

The B.A.S. degree in the College of Technology and Applied Sciences consists of 60 semester hours of upper division (300-level and above) courses, with 30 hours in residence.

A.A.S. degree transfer	60
Assignable credit	6
B.A.S. core	15
General Studies	19
Technical concentration	20
Total .. . . .	20

**General Studies Curriculum**

The B.A.S. curriculum builds on the general education content of the A.A.S. degree. Additional General Studies (L, CS and awareness areas) are met with courses in the core or

concentration. General Studies courses focus on contextual learning.

L	2
MA	3
HU	3
HU or SB	3
SB	3
SG	4
Total .. . . .	19

**Assignable Credit**

Assignable credit allows space in the curriculum for prerequisite courses needed to succeed in the program. The courses are determined by the student and the advisor.

**B.A.S. Core**

The area core focuses on management and organization, professional communication, quantitative analysis, and computer competency.

CET 300 Object Oriented Software Development III	3
EET 494 ST Data Analysis	3
GIT 352 Technical Presentations and Visual Literacy	3
IMC 346 Management Dynamics	3
TWC 400 Technical Communication I	3
Total .. . . .	15

**Technical Concentrations**

**Computer Systems Administration.** This concentration is designed to broaden and provide more in depth knowledge in computer networks. Graduates from this concentration will be prepared to specify, install, maintain, and administer various computer networking systems.

**Instrumentation.** This concentration studies instrumentation, power systems, and computer systems. The curriculum prepares the graduate to specify and prepare solutions for a wide variety of electrical and electronic instrumentation systems. Graduates from this concentration are primed for technical leadership positions in the various segments of the electronics industry.

**Microcomputer Systems.** This concentration prepares graduates for product specification and marketing positions in microcomputer applications. The B.A.S. degree provides additional technical skills in microcomputer systems to prepare graduates for responsible and productive positions in the support of computer systems.

**Semiconductor Technology.** This concentration prepares graduates for careers in the semiconductor industry. The B.A.S. degree provides graduates with an understanding of integrated circuit processing, mask making, packaging, and the software tools used in this industry.

**Software Technology Applications.** This concentration prepares graduates for careers in the software industry. The B.A.S. degree furnishes additional technical expertise in software technology to prepare graduates to design, specify, and provide software solutions for industry and the consumer market. This concentration also prepares graduates for computer systems and network administration careers.

**COMPUTER ENGINEERING TECHNOLOGY (CET)****CET 100 C/C++ Programming. (3)***fall and spring*

Applied and practical problem solving using the C programming language. Introduction to C++. Prerequisite: ETC 100

**CET 150 Digital Systems I. (4)***fall and spring*

Number systems, Boolean algebra, combinatorial logic, K-maps for SOPs, sequential circuits, state machines, and minimization techniques.

*General Studies CS***CET 191 First-Year Seminar. (1-3)***not regularly offered***CET 200 JAVA Programming. (3)***fall*

Concepts of JAVA programming language addressing advanced topics such as JAVA architecture, threads, inheritance, dialog boxes, and JAVA beans. Prerequisite: CET 100.

**CET 230 Applied Data Structures. (3)***fall*

Introduction to data structures: strings, stacks, queues, binary trees, recursion, searching, and sorting. Prerequisite: CET 100

**CET 236 Introduction to Visual BASIC. (3)***fall*

Introduction to BASIC and programming in the Visual BASIC environment. Prerequisite: CET 100

**CET 250 Computer and Network Technology. (3)***spring*

Computer technology as related to digital communications and networking. Network operating systems, protocols, and routing technology. Prerequisite: CET 100/150

**CET 256 C Programming for Engineering Technology. (3)***fall / spring / summer*

Applied and practical problem solving using the C programming language. Prerequisite: ETC 100

**CET 294 Special Topics. (1-4)***not regularly offered***CET 300 Object-Oriented Software Development. (3)***fall*

Increases skills in OO concepts and presents C++. Covers JAVA concepts of threads, inheritance, and JAVA beans. C++ language concepts. Prerequisites: CET 20/256

**CET 326 Modern Programming Languages. (3)***fall*

Concepts and semantics and syntactical construction of modern programming languages. Prerequisite: CET 200

**CET 350 Digital Systems II. (4)***fall*

Analysis and design of synchronous and asynchronous state machines. Introduction to VHDL. Lecture, lab. Prerequisite: CET 150

**CET 354 Microcomputer Architecture and Programming. (4)***fall and spring*

Microcomputer architecture, assembly language programming, I/O considerations, exception and interrupt handling. Introduction to interfacing. Prerequisite: CET 150

**CET 386 Operating Systems Principles. (3)***spring*

Fundamentals of operating systems, process management, scheduling, and synchronization techniques, memory and file management, protection and security issues. Prerequisite: CET 256

**CET 400 Software Engineering Technology. (3)***spring*

Software life cycle models, project management, team development environments, software specification, design, implementation, techniques, and tool validation, and maintenance, user documentation. Prerequisite: senior standing in Technology

**CET 401 Digital Signal Processing for Multimedia. (3)***fall*

Application of DSP techniques to multimedia. Digital filter analysis and design. Time and frequency techniques. Computer applications. Cross-listed as EET 401. Credit is awarded for only CET 401 or EET 401. Prerequisites: EET 301, MAT 262

**CET 425 Server Software Programming. (3)***once a year*

Design and implementation of software servers, threaded socket servers, servers for distributed Web-based applications; security for the Web. Prerequisite: CET 300 or instructor approval

**CET 426 Software Tools for the Semiconductor Industry. (3)***spring*

Introduction to software tools commonly used in the semiconductor industry, such as SUPREM, V, PSPICE, VIEWLOG, C, and CED. Cross-listed as UET 426. Credit is awarded for only CET 426 or UET 426. Prerequisite: UET 331

**CET 433 Database Technology. (3)***fall*

Introduction to database technologies and DBMS, data models, and languages. Prerequisites: CET 230, 300

**CET 436 Applications of Visual BASIC. (3)***fall*

Applications of Visual BASIC to graphics, graphical user interfaces, error handling, file processing, OO programming, DBMS, networking, and multimedia. Prerequisite: CET 236

**CET 450 Advanced Internetworking Technologies. (3)***spring*

Effects and benefits, design and functions of internetworking protocols. Prepares students for the Cisco certification examination. Prerequisite: CET 250

**CET 452 Digital Logic Applications. (4)***spring*

Design of sequential machines using system design techniques and complex MSI/LSI devices with lab. Prerequisite: CET 350

**CET 454 Microcontrollers. (3)***spring*

Microcontroller input/output ports and advanced features. Microcontrollers as an embedded system and the interfacing considerations. Prerequisites: CET 350, 354

**CET 456 Assembly Language Applications. (3)***fall*

Programming using BIOS and DOS routines. High-level language interfacing, disk operations, TSR routines, and device drivers. Prerequisite: CET 354

**CET 457 Microcomputer Systems Interfacing. (4)***spring*

Applications of microcomputer hardware and software. Special purpose controllers, interface design. Lecture, lab. Prerequisites: CET 354; CSE 183, EET 310.

**CET 458 Digital Computer Networks. (3)***once a year*

Network technology, topologies, protocols, control techniques, reliability, and security. Prerequisite: CET 354.

**CET 473 Digital/Data Communications. (4)***fall*

Signal distortion, noise, and error detection/correction. Transmission and systems design. Interface techniques and standards. Lecture, lab. Prerequisites: CET 354, EET 372

**CET 483 UNIX with C Applications. (3)***fall*

Generate user proficiency in the use of the UNIX operating systems, shells, environment, and 4th generation language and tools. Prerequisite: senior standing in the ECET department or its equivalent

**CET 484 Internship. (1-12)***not regularly offered*

**NOTE:** For the General Studies requirement, courses and codes (such as L, SQ, C, and H), see "General Studies" page 78. For graduation requirements, see "University Graduation Requirements" page 74. For an explanation of additional omnibus courses offered but not listed in this catalog, see "Class Catalog of Courses" page 51.

**CET 485 Digital Testing Techniques I (3)***once a year*

Hardware software aspects of digital testing techniques systems board a digital testing a dependent Lecture ab Cr ss sted as UET 485 Credit s a wed for o y CET 485 or UET 485. Prerequis tes CET 350 EET 310

**CET 486 Hardware Description Languages: VHDL. (3)***spring*

Introduction to hardware description languages using VHDL Techniques for modeling and simulating small digital systems using a VHDL simulator Prerequis tes CET 350 483

**CET 487 Hardware Description Languages: VERILOG. (3)***fall*

Introduction to hardware description languages digital modeling and simulation techniques using the VERILOG HDL Prerequis te CET 350, 354

**CET 488 UNIX Systems Administration. (3)***fall*

Generate user proficiency administration of UNIX operating systems processes system calls kernel file structure and interprocess communication tools Prerequis te CET 483 or its equivalent C or C++ language

**CET 489 Network Programming Applications (3)***fall*

Generate user proficiency in writing programs and scripts to control and administer a UNIX operating system network Prerequis te CET 473 and 488 or the equivalent C or C++ language

**CET 490 Reading and Conference. (1-12)***not regularly offered***CET 492 Honors Directed Study. (1-6)***not regularly offered***CET 493 Honors Thesis (1-6)***not regularly offered***CET 494 Special Topics. (1-4)***not regularly offered*

Possible topics

a Computer Project

**CET 498 Pro Seminar. (1-7)***not regularly offered***CET 499 Individualized Instruction (1-3)***not regularly offered***CET 501 Digital Signal Processing Applications (3)***fall*

Application of DSP techniques to the design and analysis of digital filters Solution of filtering problems using computer techniques Credit s sted as EET 50 Credit allowed for n y CET 501 or EET 51 P e requis te EET 401 or instructor approval

**CET 520 Computer Architecture (3)***fall*

Basics of computer architecture RTN R SC CS concepts computer arithmetic ALUs memory systems O Prerequis te CET 354.

**CET 533 Database Management Systems. (3)***fall*

System aspects of relational databases relational database design, index and access structures implementation and performance evaluation query processing and optimization Prerequis te CET 433

**CET 546 Computer Vision. (3)***spring*

Image segmentation and enhancement Object recognition and modeling. Morphological operation for object recognition and measurement Prerequis te: CET 300

**CET 552 Digital Systems Design. (3)***spring*

Digital system design techniques and applications Prerequis te CET 452 or instructor approval

**CET 554 Distributed Computing. (3)***spring*

Topics in distributed systems including communication distributed operating systems fault tolerance, a d performance issues Prerequis tes CET 354 386

**CET 556 Windows Programming. (3)***fall*

Programming techniques in the MS Windows and X Window environments Prerequis te CET 256 or its equivalent

**CET 557 Microcomputers and Applications. (3)***fall*

Applications of small computer systems main and micro computer hardware and software Prerequis tes CET 354 SE 100 or 183) EET 310

**CET 566 Principles and Practices of Operating Systems. (3)***spring*

Principles and practices of operating systems virtual memory systems O dev es and systems file systems and organization and their implementation Prerequis te CET 386

**CET 576 Embedded Real Time Programming. (3)***fall*

Topics in real time embedded operating systems such as synchronization communication file system and memory sharing Prerequis tes: CET 300 386

**CET 580 Practicum. (1-12)***not regularly offered***CET 583 Network Programming. (3)***fall*

Generate user proficiency in writing C programs and scripts to control and administer a UNIX operating system network Prerequis tes CET 473 and 488 or the equivalent C or C++ language

**CET 584 Internship (1-12)***not regularly offered***CET 585 Digital Testing Techniques II. (3)***fall*

Testing techniques as applied to digital systems boards and chips Lecture, ab Prerequis te: CET 354

**CET 586 Digital Modeling Techniques. (3)***spring*

Digital system modeling and simulation using hardware description languages Prerequis tes CET 350 354

**CET 590 Reading and Conference. (1-12)***not regularly offered***CET 591 Seminar. (1-12)***not regularly offered***CET 592 Research. (1-12)***not regularly offered***CET 593 Applied Project. (1-12)***not regularly offered***CET 594 Conference and Workshop. (1-12)***not regularly offered***CET 595 Continuing Registration. (1)***not regularly offered***CET 598 Special Topics. (1-4)***not regularly offered***CET 599 Thesis. (1-12)***not regularly offered***ELECTRONICS ENGINEERING TECHNOLOGY (EET)****EET 191 First-Year Seminar. (1-3)***not regularly offered***EET 208 Electric Circuit Analysis I. (4)***fall and spring*

Electrical models AC DC steady state analysis of first and second order systems Circuit theorems Three phase circuits Lecture ab. Pre or corequis te MAT 261

**EET 294 Special Topics. (1-4)***not regularly offered***EET 301 Electric Circuit Analysis II. (4)***fall and spring*

Analysis of continuous time signals and linear systems using Laplace and Fourier response of circuits Lecture ab Prerequis te EET 208 Pre or corequis te MAT 262

**EET 304 Transmission Lines in Computer Engineering. (3)***spring*

Transmission line considerations for computer circuits Reflect on transients crosstalk and other topics High speed circuit considerations Prerequis te EE 301

**EET 310 Electronic Circuits I (4)***fall and spring*

Multi-stage amplifier analysis and design using models and computer simulation Lecture ab Prerequis te EET 208.

**EET 372 Communication Systems. (4)**

*fall and spring*

Systems analysis and design of AM FM PCM and SSB communication systems. No secondary start on performance of communication systems. Lecture lab Pre- or corequisites EET 301, 310

**EET 394 Special Topics. (1-4)**

*not regularly offered*

**EET 396 Professional Orientation. (1)**

*fall and spring*

Technical professional economic and ethical aspects of electronics computer engineering technology practice and industrial organization. Lecture projects Prerequisite junior standing.

**EET 401 Digital Signal Processing for Multimedia. (3)**

*fall*

Application of DSP techniques to multimedia. Digital filter analysis and design Time and frequency techniques Computer applications.

Cross-listed as CET 401. Credit allowed for only CET 401 or EET 401. Prerequisites EET 301 MAT 262

**EET 406 Control System Technology. (4)**

*spring*

Control system components analysis of feedback control systems stability performance, and application. Lecture lab computer simulations Prerequisites EET 301 MAT 262

**EET 407 Energy Conversion and Applications. (4)**

*fall*

Electricity magnetism mechanics heat and units and three phase circuits. Electronic transformers generation transmission and distribution of electrical energy. Lecture lab Prerequisite EET 208

**EET 410 Electronic Circuits II. (3)**

*fall and spring*

Analysis and design of OP amps power amplifiers and digital logic families. Feedback design using frequency response. Computer analysis and design. Prerequisites: EET 301 310

**EET 422 Electronic Switching Circuits. (4)**

*once a year*

Analysis and design of electronic circuits operating in a switching mode. Wave shaping timing and logic. Computer simulation. Lecture lab. Prerequisites CET 350, EET 301 310.

**EET 430 Instrumentation Systems (4)**

*fall*

Measurement principles and instrumentation technique. Signal and error analysis. Lecture lab Prerequisites EET 301, 310

**EET 460 Power Electronics. (4)**

*spring*

Analysis of circuits for control and conversion of electrical power and energy. Lecture lab Prerequisites EET 301 310 407

**EET 470 Communication Circuits. (4)**

*spring*

Analysis and design of passive and active communication circuits. Coupling networks, filters, and impedance matching. Modulation and demodulation techniques. Computer simulations. Lecture lab Prerequisites EET 372 MAT 262

**EET 478 Fiber Optic Communications. (3)**

*spring*

Fiber optic communication systems analysis and design. Study of fiber optic waveguide sources detectors noise signal detection. Prerequisites: EET 372 MAT 262

**EET 482 Industrial Practice: Internship/Co-op. (1-4)**

*fall spring summer*

Specialty assigned or approved activities in electronics industries or institutions. Report required. May be repeated for up to a maximum of 10 credits. Prerequisites: Electronics Engineering Technology major, junior or senior standing.

**EET 484 Internship. (1-12)**

*not regularly offered*

**EET 490 Electronics Project. (1-4)**

*fall, spring, summer*

Individual or small group projects in applied electronics with emphasis on laboratory practice or hardware solutions to practical problems. Prerequisite instructor approval.

**EET 492 Honors Directed Study. (1-6)**

*not regularly offered*

**EET 493 Honors Thesis. (1-6)**

*not regularly offered*

**EET 494 Special Topics. (1-4)**

*fall and spring*

Possible topics

a Data Analysis 3

**EET 498 Pro-Seminar. (1-7)**

*not regularly offered*

**EET 499 Individualized Instruction. (1-3)**

*not regularly offered*

**EET 500 Research/Writing. (2)**

*fall and spring*

Designed to help master's students develop their projects and write the first three chapters of their projects. Lecture seminar. Prerequisite instructor approval.

**EET 501 Digital Signal Processing Applications. (3)**

*fall*

Application of DSP techniques to the design and analysis of digital filters. Solution of filtering problems using computer techniques. Cross-listed as CET 501. Credit allowed for only CET 501 or EET 501. Prerequisite EET 401 or instructor approval.

**EET 506 System Dynamics and Control. (3)**

*spring*

Time-frequency and transform domain analysis of physical systems. Transfer function analysis of feedback control systems performance and stability. Compensation. Prerequisite EET 301 or MAT 262

**EET 508 Digital Real-Time Control. (3)**

*once a year*

Sample data control techniques and applications to process control. Prerequisites CET 354 EET 406

**EET 510 Linear Integrated Circuits and Applications. (3)**

*fall*

Analysis design and application of linear integrated circuits and systems. Prerequisites CE 350; EET 301 310

**EET 522 Digital Integrated Circuits and Applications (3)**

*spring*

Analysis design, and application of integrated circuits and systems. Prerequisites CET 350, EET 301 310

**EET 530 Electronic Test Systems and Applications. (3)**

*fall*

Analysis design and application of electronic test equipment test systems specifications and documentation. Prerequisites CET 354 EET 301 310

**EET 560 Industrial Electronics and Applications. (3)**

*spring*

Analysis design and application of special electronic device and systems to industrial control power, communications and processes. Prerequisites CET 350 EET 301 310 407

**EET 574 Microwave Amplifier Circuits Design. (3)**

*fall*

Analysis and design of microwave amplifier circuits using parameter theory and computer aided design. Prerequisites EET 304, 470.

**EET 578 Digital Filter Hardware Design. (3)**

*spring*

Hardware design of FIR and IIR filters using adaptable filters based on DSP chips. Develop new applications using DSP microprocessor systems. Prerequisites: CET 354 EET 401

**EET 579 Digital Image Communication (3)**

*spring*

Image capture transform compression storage, and transmission on computer environment software and hardware solutions provided to emphasize the practical aspect. Prerequisite EET 401 or instructor approval.

**EET 580 Practicum. (1-12)**

*not regularly offered*

**EET 584 Internship. (1-12)**

*not regularly offered*

**EET 590 Reading and Conference. (1-12)**

*not regularly offered*

**NOTE:** For the General Studies equipment courses and codes such as L, SQ, C and H, see General Studies page 78. For graduation requirements see "University Graduation Requirements" page 74. For an explanation of additional minor courses offered but not listed in this catalog see "Classification of Courses" page 51.

**EET 591 Graduate Seminar. (1-12)***not regularly offered***EET 592 Research. (1-12)***not regularly offered***EET 593 Applied Project. ENGINEERING TECHNOLOGY (UET)****UET 191 First-Year Seminar. (1-3)***not regularly offered***UET 194 Special Topics. (1-4)***not regularly offered***UET 294 Special Topics (1-4)***not regularly offered***UET 331 Electronic Materials. (3)***fa*

Physical, chemical, electromagnetic and mechanical properties of electronic materials. Solid state device characteristics and the material properties. Prerequisites: CHM 113, EET 208, PHY 112, 114.

**UET 411 Applied Vacuum Technology. (3)***spring*

Fundamental applications and practical aspects of vacuum systems and their uses in semiconductor fabrication. Prerequisite: UET 331

**UET 415 Electronic Manufacturing Engineering Principles. (3)***fa and spring*

Electronic equipment design and fabrication principles and practice. Comparison of electronic hardware design project and report. Lecture, lab. Fee. Prerequisite: senior standing (113 hours) in Electronics Engineering Technology

**UET 416 Monolithic Integrated Circuit Devices. (3)***fa*

Physics and electronics of bipolar and MOS devices used in integrated circuits. Prerequisite: UET 331. Corequisite: UET 417

**UET 417 Monolithic Integrated Circuit Laboratory. (2)***fa*

Laboratory practice in the fabrication of integrated circuits. Lab. Prerequisite: UET 331. Corequisite: UET 416

**UET 418 Hybrid Integrated Circuit Technology. (4)***spring*

Layout fabrication design and manufacture of thin and thick film hybrid circuits. Lecture/lab. Prerequisites: EET 310, UET 331

**UET 421 Applied Device Physics. (3)***fa*

Band structures of solids, physics of current carriers in solids, p-n junctions, MOS and bipolar transistors. Prerequisite: senior standing in the department

**UET 424 Integrated Circuit Mask-Making Technology. (3)***fa*

Fundamentals, applications, and techniques for the fabrication of integrated circuit masks. Prerequisite: UET 331

**UET 426 Software Tools for the Semiconductor Industry. (3)***spring*

Introduction to software tools commonly used in the semiconductor industry such as SUPREM, V, PSpice, Verilog and CED. Cross-listed as CET 426. Credits allowed for only CET 426 or UET 426. Prerequisite: UET 331

**UET 432 Semiconductor Packaging and Heat Transfer. (3)***spring*

Packaging theory and techniques, hermetic and plastic assembly; thermal management, electrical characteristics and reliability. Prerequisites: ETC 340 and UET 331 or the equivalent

**UET 437 Integrated Circuit Testing. (3)***spring*

Principles, techniques and strategies employed at wafer level and final product testing, both destructive and nondestructive. Prerequisite: UET 416

**UET 484 Internship. (1-12)***not regularly offered***UET 485 Digital Testing Techniques I. (3)***once a year*

Hardware/software aspects of digital testing technology, systems board and logic testing and equipment. Lecture/lab. Cross-listed as CET 485. Credits allowed for only CET 485 or UET 485. Prerequisites: CET 350, EET 310

**UET 492 Honors Directed Study. (1-6)***not regularly offered***UET 493 Honors Thesis. (1-6)***not regularly offered***UET 494 Special Topics. (1-4)***not regularly offered***UET 498 Pro-Seminar. (1-7)***not regularly offered***UET 499 Individualized Instruction. (1-3)***not regularly offered***UET 513 VLSI Circuit Design and Layout. (3)***fa*

Techniques and practice for the design and layout of very large-scale integrated (VLSI) circuits. Emphasis on system-on-chip using tools for computer-aided design layout. Seminar. Prerequisite: UET 416

**UET 516 Semiconductor Process Simulation and Integration. (3)***spring*

Modern IC processes and process integration design of modern IC processes using SUPREM. Lecture/lab. Prerequisite: UET 416

**UET 518 Hybrid IC Technology and Applications. (3)***spring*

Theory, processing, fabrication, and manufacturing of hybrid microelectronics devices and products. Applications. Prerequisite: UET 331 or the equivalent or instructor approval

**UET 521 Device Physics. (3)***fa*

Band structure of solids, electron-hole pairs, mobility, fets, fermi level, p-n junctions, diodes and bipolar and MOS transistors. Prerequisite: graduate standing in the department

**UET 532 IC Packaging. (3)***spring*

IC packaging theory and techniques, assembly techniques, materials issues, thermal management, electrical performance and reliability. Lecture/lab. Prerequisites: ETC 340 and UET 331 or the equivalent

**UET 580 Practicum. (1-12)***not regularly offered***UET 584 Internship. (1-12)***not regularly offered***UET 590 Reading and Conference. (1-4)***not regularly offered***UET 591 Seminar. (1-12)***not regularly offered***UET 592 Research. (1-12)***not regularly offered***UET 593 Applied Project. (1-12)***not regularly offered***UET 594 Conference and Workshop. (1-12)***not regularly offered***UET 595 Continuing Registration. (1)***not regularly offered***UET 598 Special Topics. (1-4)***not regularly offered***UET 599 Thesis. (1-12)***not regularly offered*

### PROFESSORS

DUFF, H LD, SADOWSKI SCHILDGEN

### ASSOCIATE PROFESSORS

GROSSMAN, H RATA HUMBLE MATSON,  
 OLSON, PETERSON

### ASSISTANT PROFESSOR

KIME

### SENIOR LECTURER

W LSON

### LECTURERS

DOL N HARR S, LESTAR

### PURPOSE

The mission of the department is to prepare graduates who are able to develop and communicate technological solutions to industrial problems, to manage systems operations, to improve and evaluate products, to provide customer support, and to facilitate technology transfer in industry and government. Increased complexity and sophistication have created great demand for those individuals who possess a working knowledge of the technical phases of planning, testing, production, and fabrication of consumer and industrial products and equipment. Technology includes the application of science, systematic methods, procedures, machines, communication protocols, and materials control for the development, improvement, and implementation of state of the art solutions to industrial problems.

### DEGREES

The faculty in the Department of Information and Management Technology offer the B.S. degree in Industrial Technology, with concentrations in the following areas: environmental technology management, industrial technology management and graphic information technology.

For students holding an A.A.S. degree the department offers the B.A.S. degree in Applied Science, with concentrations in digital media management, digital publishing, emergency management, fire service management, operations management technology, municipal operations management, and technical graphics.

A Master of Science in Technology degree is offered for graduate study. The department offers four concentrations for the graduate degree: environmental technology management, fire service management, graphic information tech-

nology, and management of technology. For more information about the graduate program, see the *Graduate Catalog*.

### INDUSTRIAL TECHNOLOGY—B.S.

The curriculum consists of First Year Composition, university General Studies, and technical courses. Note that a 1 three General Studies awareness areas are required. Consult your advisor for an approved list of courses. The technical part of the curriculum includes a required Information and Management core, program concentration course work, and technical electives selected with approval of an advisor.

Information and Management Technology students are required to complete a minimum of 120 semester hours with a 2.00 cumulative GPA, including a minimum of 50 semester hours of upper division courses to graduate.

#### Information and Management Core\*

ETC 100 Languages of Technology CS	...	4
GIT 233 Digital Publishing	...	3
IMC 331 Quality Assurance	...	3
IMC 346 Management Dynamics	...	3
IMC 396 Professional Orientation	...	1
IMC 470 Project Management	...	3
Total	.....	17

\* These courses are for the industrial technology management and graphic information technology concentrations.

#### Environmental Technology Management Concentration

The environmental technology management concentration prepares graduates to manage such challenging problems in industry as regulatory compliance, hazardous materials management, pollution prevention, and international environmental standards for manufacturing. The curriculum is designed to provide a unique blend of critical scientific, technical, and management skills; degree requirements encompass the development of a broad background in the natural sciences and mathematics, social and behavioral sciences, management theory, regulatory issues, and applied sciences. The program is purposely structured to facilitate transfer students who are searching for a degree program that builds upon a strong technical background and focuses on the environmental issues faced by industry.

#### Certificate Program in Hazardous Materials and Waste Management

The Certificate Program in Hazardous Materials and Waste Management is designed to provide current and prospective employees of industry and government with a comprehensive and practical curriculum of study in hazardous materials management. The certificate program features instruction by ASU faculty, attorneys, and professionals who work in the specific area in which they teach. Participation in the certificate program is available in three options: a certificate program for nondegree students, a B.S. degree in Industrial Technology with a Certificate in Hazardous Materials and Waste Management, and a Master of Science in Technology degree with a Certificate in Hazardous Materials and Waste Management. Students must complete seven selected courses (five required and two electives) and earn a grade of "C" or higher to receive the certificate. Except for the introductory course, ETM 501

---

**NOTE:** For the General Studies requirement courses, and codes such as L, SQ, C, and H, see "General Studies," page 78. For graduation requirements, see "University Graduation Requirements," page 74. For an explanation of additional omnibus courses offered but not listed in this catalog, see "Classification of Courses," page 51.

Principles of Hazardous Materials and Waste Management, the remainder of the courses may be taken in any sequence

**Industrial Technology Management Concentration.** The industrial technology management concentration prepares students for supervisory and administrative positions in industry, manufacturing, and public service organizations. Course work includes accounting, data analysis, economics, effective decision making, finance, international business, legal and ethical studies, marketing, operations management, and safety. Emphasis is placed on health and safety within the workplace.

The industrial technology management program may be articulated with a broad range of community college technical courses. Community college specializations in areas such as aeronautics, construction, electronics, fire science, police science, graphic information technology, hazardous materials and waste management, computer graphics, safety and health, human resource management, production management, and manufacturing may form a technical specialty area within the industrial technology management option. Consultation with an advisor is required to coordinate the course selection for transfer to this option.

**Graphic Information Technology Concentration.** The graphic information technology concentration prepares students for technical and management positions in the diverse graphic communication and information technology industries: digital printing and publishing, technical digital media production; management of graphic information assets, quality assurance of graphic products, planning and evaluation of print, Internet, multimedia, and computer-based communications. This is an intensive 120 semester-hour graphic technology program of study emphasizing theory and hands-on laboratory practice. Students develop skills to plan and execute graphics solutions using visualization and sketching, engineering graphic standards, technical document design, higher-level graphic programming languages, computer drawing and illustration, multimedia and three-dimensional modeling, project management, quality assurance, and e-commerce practices. Graduates are able to present technical solutions using graphics in print and Internet publications, engineering documents, multimedia presentations, interactive training and instruction, models, and animations. Typical career opportunities include graphic operations management, sales and marketing, information technology support in graphics-related industries, graphic systems analysis, digital publishing, both print and online, and computer graphics content planning and creation.

**APPLIED SCIENCE—B.A.S.**

The Bachelor of Applied Science degree is a capstone degree for the Associate of Applied Science degree. The B.A.S. degree exposes students to advanced concepts and diverse critical thinking skills that prepare them for future career opportunities and professional advancement.

**Admission**

Admission to the B.A.S. degree program is restricted to students holding an A.A.S. degree from a regionally accredited U.S. postsecondary educational institution. A GPA of 2.00 or higher is required for all resident applicants and a 2.50 for nonresident applicants.

**Degree Requirements**

The B.A.S. degree in the College of Technology and Applied Sciences consists of 60 semester hours of upper-division (300-level and above) courses, with 30 hours in residence.

A.A.S. degree transfer	60
Assignable credit	6
B.A.S. degree	15
General Studies	19
Technical concentration	20
<b>Total</b>	<b>120</b>

**General Studies Curriculum**

The B.A.S. curriculum builds on the general education content of the A.A.S. degree. Additional General Studies (L, CS and awareness areas) are met with courses in the core or concentration. General Studies courses focus on contextual learning.

L	3
MA	3
HU	3
HU or SB	3
SB	3
SG	4
<b>Total</b>	<b>19</b>

**Assignable Credit**

Assignable credit allows space in the curriculum for prerequisite courses needed to succeed in the program. The courses are determined by the student and the advisor.

**B.A.S. Core**

The area core focuses on management and organization, professional communication, quantitative analysis, and computer competency.

GIT 310 Computer Graphics Programming (C++) CS	3
or GIT 424 ST Computer Systems Applications	3
IMC 346 Management Dynamics	3
ITM 452 Industrial Human Resource Management	3
or IMC 47 Project Management 3)	3
MET 411 Quality Assurance	3
or STP 420 Introductory Applied Statistics CS	3
TWC 400 Technical Communications I	3
<b>Total</b>	<b>15</b>

**Technical Concentrations**

**Operations Management Technology.** The purpose of this technical concentration is to prepare supervisors for management functions in industry, manufacturing, and public service organizations. The B.A.S. degree provides the management and supervision content required for industry and governmental agencies.

**Digital Media Management.** This concentration prepares graduates for technical positions in industries implementing, planning, and producing interactive communications, integrated media, and multimedia for design, training, and marketing. Prospective students with A.A.S. degrees in areas such as multimedia, printing and publishing, commercial graphics, desktop publishing, or computer illustration may be interested in pursuing a digital media management concentration.

**Technical Graphics.** This concentration prepares graduates for positions in industries implementing technical and engineering graphics in computer aided design and computer integrated manufacturing. A.A.S degrees in drafting and design, computer aided design, computer integrated manufacturing technology, mechanical technology, architectural technology, or construction technology may provide an excellent foundation for a technical graphics concentration.

**Digital Publishing.** This concentration prepares graduates for lead technical and entry level management positions in the printing and publishing industry. A.A.S degrees in multimedia, printing and publishing, commercial art, desktop publishing, or computer illustration may find that this technical concentration provides excellent opportunities.

**Emergency Management.** The concentration prepares graduates for positions in industry, municipal departments, and government agencies. The curriculum addresses the established Federal Emergency Management Administration (FEMA) guidelines, on site emergency response coordination, contingency planning, first responder scene management, logistical analysis, and communication protocols.

**Fire Service Management.** This concentration prepares graduates for positions in industry, municipal departments, and governmental agencies. The curriculum addresses services delivered by fire departments, fire service personnel development, zoning, planning, inspections, and arson investigations.

**Municipal Operations Management.** This concentration prepares students for supervisory and management functions within municipalities, public service organizations, or businesses that provide services to the public sector. The curriculum addresses quality assurance, ethical issues, leadership practices, operations management, project management, marketing, finance, public sector management, and organizational effectiveness.

#### GRAPHIC INFORMATION TECHNOLOGY (GIT)

##### **GIT 135 Graphic Communications. (3)**

*fall and spring*

Introduction to the technologies involved in the design, image generation, transmission and industrial production of multiple images for consumer utilization. Lecture/lab/field trip

##### **GIT 194 Special Topics. (1-4)**

*not regularly offered*

##### **GIT 210 Creative Thinking and Design Visualization. (3)**

*fall and spring*

Fundamental methods, concepts, and techniques for creative thinking and design visualization and problem solving. Also include communication, culture, and societal influences. Lecture/lab. Prerequisite: ETC 100.

##### **GIT 212 Computer-Aided Design and Drafting (CADD). (3)**

*fall and spring*

CADD for product design representation, and documentation includes projection theory, descriptive geometry, graphics analysis, drafting standards, and precision drawing techniques. Lecture/lab. Prerequisite: ETC 100 or its equivalent.

*General Studies: CS*

##### **GIT 215 Introduction to Graphics Programming. (3)**

*fall*

Introduction to analyzing, planning, and executing graphics programs using industry standard programming tools. Lecture/lab. Prerequisite: ETC 100 or its equivalent.

##### **GIT 233 Digital Publishing. (3)**

*fall and spring*

Introduction to software and hardware used for digital publishing and photographic lecture/lab. Prerequisite: ETC 135/210.

##### **GIT 237 Web Content Design. (3)**

*spring*

Introduction to design principles for visual content on the World Wide Web: raster, vector, fonts, portable documents, color palettes, file formats. Lecture/lab. Prerequisite: ETC 135 or its equivalent. Prerequisite: ETC 233.

##### **GIT 310 Computer Graphics Programming (C++). (3)**

*fall and spring*

Computer graphics software programming techniques in C++ 2D and 3D graphics: object oriented programming, transformations, scaling and database concepts. Lecture/lab. Prerequisite: ETC 100 or GIT 215.

*General Studies: CS*

##### **GIT 312 3D Computer Graphics Modeling and Representation. (3)**

*fall*

3D solid modeling applications, concepts, techniques, data structures, modeling strategies, assemblies, geometric representation. Lecture/lab. Prerequisite: ETC 212.

*General Studies: CS*

##### **GIT 313 Technical Illustration and Photorealistic Rendering. (3)**

*fall*

Computer generated graphics for technical illustration and design presentation: axonometric and perspective drawing, shading, shadowing, materials and textures, photorealistic rendering for PostScript output. Lecture/lab. Prerequisite: ETC 212.

##### **GIT 314 Multimedia Design, Planning, and Storyboards. (3)**

*spring*

Create and conceptual process of content selection, planning, design, flowcharting, storyboard, proposal, configuration, prototyping, and presenting multimedia projects. Lecture/lab. Prerequisite: GIT 237.

##### **GIT 333 Printing Technology. (3)**

*spring*

Theory and application of sheet and web press technology for offset lithography, flexography, screen process, and digital printing. Lecture/lab. Prerequisite: ETC 135.

##### **GIT 334 Image Capture and Manipulation. (3)**

*fall*

Theory and application of image capture techniques used for a copy format and conversion processes required for reproduction or dissemination. Lecture/lab. Prerequisite: ETC 233.

##### **GIT 335 Graphic Systems. (3)**

*not regularly offered*

Survey of graphic technology for private/public sectors including hardware, software, storage, network, global internet, telecommunication and new media technologies. Lecture/lab. Prerequisite: unorthodox information technology graphic information technology consultation.

##### **GIT 337 Web Content Design. (3)**

*fall and spring*

Introduction to design principles for visual content on the World Wide Web: raster, vector, fonts, portable documents, color palettes, file formats. Lecture/lab. Prerequisite: ETC 233.

##### **GIT 352 Technical Presentations. (3)**

*spring*

Techniques for planning, creating, and delivering individual and group presentations. Prerequisites: ENG 12, ETC 233.

##### **GIT 394 Special Topics. (1-4)**

*not regularly offered*

**NOTE:** For the General Studies requirement courses and codes such as L, SQ, C, and H, see 'General Studies, page 78. For graduation requirements, see 'University Graduation Requirements' page 74. For an explanation of additional non-business courses offered but not listed in this catalog, see 'Classification of Courses, page 51.'

**GIT 411 Computer Animation. (3)***fa and spr ng*

2D and 3D computer animation methods, project planning, script writing, storyboards, advanced modeling, lighting materials mapping, and motion. Lecture. ab Prerequisites: GIT 312, 334

**GIT 412 Multimedia Authoring, Scripting, and Production. (3)***fa l and spr ng*

Production of multimedia projects using industry standard authoring applications, project management, content considerations, and professional documentation; user interface design, interactivity, media, and databases. Lecture. ab. Prerequisites: G T 314

**GIT 413 Professional Portfolio Design and Presentation. (3)***spr ng*

Digital media portfolio design and production, planning, audience analysis, media selection, authoring, media formats, production, copyright considerations, marketing, and delivery. Lecture. ab. Prerequisites: GIT 314, 334

**GIT 414 Web Site Design and Internet/Web Technologies. (3)***spr ng*

Website design, authoring, standards, protocols, tools, and development techniques for commercial, content-driven, Web-based graphic information systems. Lecture. ab. Prerequisites: G T 334, 337

**GIT 415 Computer Graphics: Business Planning and Management. (3)***spr ng*

Implementation, planning, feasibility, and application studies, needs assessment, and operational analysis, technical organization, managerial, and technology considerations, business plan development. Lecture. ab, field trips. Prerequisites: senior standing, information technology, graphic information technology concentration. )

**GIT 417 Advanced Internet Programming. (3)***fa*

Use industry standard programming languages and techniques to create interactive graphic information on Websites and applications. Lecture. ab. Prerequisite: G T 414

**GIT 432 Graphic Industry Business Practices. (3)***not regularly offered*

Business practices related to press/prepress/Web industries, trade customs, cost analysis, marketing, and management approaches. Lecture. ab, field trips. Prerequisite: G T 414

**GIT 435 Web Management and E-Commerce. (3)***not regularly offered*

Internet Website management, security, online databases, and new E-commerce business models. Lecture. ab. Prerequisite: G T 237. Corequisite: G T 414

**GIT 436 Gravure Technology. (3)***spr ng*

In-depth study of the market profile and production sequences related to the gravure method of printing. Prerequisite: G T 135

**GIT 437 Color Reproduction Systems. (3)***fa*

Scientific analysis for the engineering of color reproduction systems and color modes used in the graphics industry. Prerequisite: G T 334

**GIT 441 Graphic Information Systems. (3)***not regularly offered*

Graphic information systems common to the workplace, graphic user interfaces for online databases, geographic, industrial, architectural, and management applications. Lecture, lab. Prerequisite: senior standing, information technology, graphic information technology concentration. Prerequisite: G T 434.

**GIT 450 Digital Workflow in Graphic Industries. (3)***fa*

Analysis of digital production systems for input assembly, and output of graphic information to print and Web, including networking and job tracking. Lecture. ab. Prerequisite: GIT 334.

**GIT 494 Special Topics. (1-4)***fa and spr ng*

Possible topics:

a. Computer Systems Applications 3

**GIT 510 Computer Graphics Programming: Design, Customization, and Development. (3)***not regularly offered*

Advanced design, development, and documentation of graphic applications program. Lecture. ab.

**GIT 512 Multimedia Based Education and Training. (3)***fa*

Creation, design, planning, development, documentation, and production of technology-based learning and multimedia-based education and training materials and programs. Lecture. ab. Prerequisite: GIT 412

**GIT 537 Current Issues in Quality Assurance. (3)***not regularly offered*

Directed group study of selected issues relating to quality assurance in the printing, publishing, and information industry.

**GIT 538 Personnel Development for the Graphics Industry. (3)***not regularly offered*

Employee training and development specific to production and management in the graphics industry.

**GIT 590 Reading and Conference. (1-12)***not regularly offered***GIT 598 Special Topics. (1-4)***not regularly offered***ENVIRONMENTAL TECHNOLOGY MANAGEMENT (ETM)****ETM 301 Environmental Management. (3)***fa l*

Focuses on knowledge and skills necessary to manage environmental programs. Perspectives include regulatory, individual, corporate, and consulting. Prerequisites: CHM 113, MAT 170

**ETM 302 Water and Wastewater Treatment Technology. (4)***not regularly offered*

Explores the development of treatment technologies. Addresses regulatory standards. Emphasizes theory and practice of system design, laboratory analysis, standards, and procedures. Lecture. ab. Prerequisite: ETM 301

**ETM 303 Environmental Regulations. (3)***fa and spr ng*

Explores environmental laws, regulations, and directives. Addresses air, land, and water. Prerequisite: ETM 301

**ETM 360 Introduction to Emergency Management. (3)***fa*

Emergency management theories. Comprehensive emergency management, mitigation, preparedness, response, and recovery. Post-disasters and policy formation. Current FEMA and hazards approach.

**ETM 362 Managing Natural and Technological Disasters. (3)***spr ng*

Federal, state, and local responses to emergencies. Management of mass casualties, evacuation, sheltering, and terrorism declaration of emergency procedures.

**ETM 363 Computer Applications in Emergency Management. (3)***spr ng*

Explores specific computer programs which are currently in use for contingency planning, tracking chemical inventories, and response resources. Credits as FSM 363. Credit is allowed for only ETM 363 or FSM 363.

**ETM 364 Toxicology and Biohazards in Emergency Management (3)***fa*

Introduction to poisons. Dose-response routes of exposure and toxicokinetics. Diseases associated with natural disasters. Chemical presentation of treatments.

**ETM 401 Hazardous Waste Management. (3)***fa l and spr ng*

Definition of hazardous waste, RCRA classification, and OSHA criteria. Overview of requirements and methods of waste management. Prerequisite: ETM 301

**ETM 402 Unit Treatment Technologies. (3)***spr ng*

Addresses various treatment technologies for contaminated air, water, and soil. Emphasizes design based upon medium type of contamination and concentration. Prerequisite: ETM 302

**ETM 406 Environmental Chemistry. (3)***fa and spr ng*

Examines reactions, transport, and fates of hazardous chemicals in water, soil, and living organisms. Prerequisites: both CHM 113 and 115 or on CHM 114, MAT 170

**ETM 407 Occupational Hygiene. (3)***spring*

Overview of occupational health hazards including recognition, evaluation and control includes regulatory status and health standards  
Prerequisites: CHM 101 or 113 or 114 MAT 170

**ETM 424 Comprehensive Emergency Management. (3)***summer*

Addresses theory and management techniques for emergency preparedness including mitigation, preparedness, response, and recovery  
Prerequisite: ETM 301

**ETM 426 Environmental Issues. (3)***spring*

Explores the science and policy implications of contemporary problems that threaten the environment. Prerequisite: CHM 113; MAT 170

**ETM 428 International Environmental Management. (3)***summer*

Emphasizes on technological and economic pressures experienced by developing countries. Prerequisite: ETM 301

**ETM 460 Incident Management Systems and Emergency Operations Center. (3)***fall*

Covers IMS, terminology, and management philosophy EOC setup, activation, operation, and termination EOC funding and policies Cross-listed as FSM 460 Credits allowed for only ETM 460 or FSM 460

**ETM 461 Contingency Planning. (3)***not regularly offered*

Provides understanding of techniques for on-site planning as well as community planning.

**ETM 468 Simulation and Exercising. (3)***not regularly offered*

Requirements planning, conduct and critique of exercises related to emergency planning. Emphasizes on realism using moulage and props

**ETM 494 Special Topics. (1-4)***spring*

Possible topics:

- a) Bioremediation. (3)

Technological and policy issues emanating from metal mining and animal waste. Lecture, case studies

**ETM 501 Principles of Hazardous Materials and Waste Management. (3)***fall*

Foundation for courses in curriculum. Topics include definitions of toxic and hazardous substances and wastes RCRA classification, and OSHA criteria. Prerequisite: both CHM 113 and 115 or only CHM 114

**ETM 502 Regulatory Framework for Toxic and Hazardous Substances. (3)***fall*

Examines federal, state and local regulations for hazardous materials and wastes. Includes history and trends in regulatory development  
Prerequisite: ETM 501.

**ETM 503 Principles of Toxicology. (3)***spring*

Interaction of chemicals with life and environment. Mechanisms of toxic action, dose response relationships, toxicity testing methods, predictive toxicology, and epidemiology. Prerequisites: both CHM 113 and 115 or only CHM 114

**ETM 504 Technology for Storage, Treatment, and Disposal of Hazardous Materials. (3)***fall*

Current and state of the art technologies and future trends for storage, treatment and disposal of hazardous materials and waste. Prerequisites: both CHM 113 and 115 or only CHM 114 ETM 501

**ETM 505 Quantitative Analysis and Practical Laboratory Techniques. (3)***fall and spring*

EPA methodologies for sampling and analysis of soils and water includes quality assurance and regulatory requirements. Labs arranged off-site. Prerequisites: both CHM 113 and 115 or only CHM 114 231, MAT 170

**ETM 506 Chemistry of Hazardous Materials. (3)***fall*

Chemistry and toxicology of hazardous chemicals. Topics include proper handling, storage, transportation, and disposal. Prerequisites: both CHM 113 and 115 or only CHM 114 MAT 170 Corequisite: CHM 231

**ETM 507 Industrial Hygiene. (3)***not regularly offered*

Emphasizes on chemical hazards in industrial settings. Topics include recognition and measuring hazards, control techniques and regulatory standards. Prerequisites: both CHM 113 and 115 or only CHM 114 MAT 170

**ETM 522 Air Pollution and Toxic Chemicals. (3)***fall*

Examines issues in the measurement analysis and control of toxic chemicals in air pollution. Prerequisites: both CHM 113 and 115 or only CHM 114 ETM 501, MAT 170

**ETM 523 Soils and Groundwater Contamination. (3)***fall*

Theoretical and practical hydrogeology as it applies to cleaning up contamination. Investigative techniques, monitoring, risk assumptions, and assessment methodology. Prerequisites: both CHM 113 and 115 or only CHM 114; ETM 501 MAT 170 Corequisite: CHM 231.

**ETM 524 Emergency Preparedness, Response, and Planning for Hazardous Materials. (3)***summer*

In-house on-site emergency response contingency planning. Pre-emergency assessment, resources for cooperation, equipment requirements, and coordination with other agencies. Prerequisites: both CHM 113 and 115 or only CHM 114 ETM 501 MAT 170

**ETM 525 Risk Assessment for Hazardous Materials. (3)***spring*

Applies the risk assessment process in situations ranging from hazardous facilities regulated to toxic substances in the environment. Prerequisites: both CHM 113 and 115 or only CHM 114 ETM 501, MAT 170

**ETM 526 Current Environmental Technology Issues. (3)***fall*

In-depth study of current issues in environmental technology facing both the private and public sectors.

**ETM 527 Environmental/Resources Regulations Concepts. (3)***spring*

Develops environmental regulations from common law to statutory requirements. Emphasizes on Superfund, hazardous materials, toxics and liability contracts. Prerequisite: ETM 501

**ETM 591 Graduate Seminar. (1)***not regularly offered***ETM 592 Research. (1-12)***not regularly offered***ETM 598 Special Topics. (1-4)***spring*

Possible topics:

- a) Advanced Bioremediation (3)  
Management and policy issues related to bioremediation of metal mining and animal waste and replacement of chemical control with biological methods. Lecture, case studies

**FIRE SERVICE ADMINISTRATION (FSA)**

See the *Graduate Catalog* for the FSA courses.

**FIRE SERVICE MANAGEMENT (FSM)****FSM 304 Fire Personnel Management. (3)***fall*

Topics include promotion, personnel development, career and incentive systems, evaluation of physical requirements, managerial and supervisory procedures

**NOTE:** For the General Studies requirement courses and codes such as L, SQ, C, and H see "General Studies" page 78. For graduation requirements see "University Graduation Requirements" page 74. For an explanation of additional omnibus courses offered but not listed in this catalog, see "Classification of Courses" page 51.

**FSM 305 Quality Emergency Services. (3)***not regularly offered*

Covers quality issues relating to services delivered by progressive fire departments. Covers management of personnel and resources during organizational change.

**FSM 306 Fire Prevention Organization and Management. (3)***not regularly offered*

Examines and evaluates the techniques, procedures, programs, and agencies involved in preventing fires.

**FSM 363 Computer Applications in Emergency Management. (3)**  
*spring*

Explores specific computer programs which are currently in use for contingency planning, tracking chemical inventories and reserve resources. Cross-listed as ETM 363. Credit is awarded for only ETM 363 or FSM 363.

**FSM 400 Human Behavior and the Fire Threat. (3)***not regularly offered*

Proper ways of conducting post-fire interviews emphasizes the psychological effects of communications during emergencies.

**FSM 421 Political and Legal Consideration in Fire Science. (3)***spring*

Study of legal and political considerations that affect the decisions making of fire service managers.

**FSM 425 Fire Service Administration. (3)***fall*

Presentation of modern management and planning techniques that apply to organizing a fire department.

**FSM 460 Incident Management Systems and Emergency Operations Center. (3)***fall*

Covers IMS, terminology, payers, and management philosophy. EOC setup, activation, operation, and termination. EOC funding and politics. Cross-listed as ETM 460. Credit is awarded for only ETM 460 or FSM 460.

**FSM 494 Special Topics. (1-4)***not regularly offered***FSM 598 Special Topics. (1-4)***not regularly offered***INFORMATION AND MANAGEMENT CORE (IMC)****IMC 233 Desktop Publishing and Infographics. (3)***fall and spring*

Introduction to software and hardware used for desktop publishing and infographics. Lecture, lab.

**IMC 294 Special Topics. (1-4)***not regularly offered***IMC 331 Quality Assurance. (3)***spring*

Instrumentation and methodologies for materials testing and quality control in various manufacturing processes. Lecture, field trips.

**IMC 346 Management Dynamics. (3)***fall and spring*

Management challenges and the leadership skills needed to achieve organizational objectives in the changing industrial and technological environments. Prerequisite: junior or standing.

**IMC 396 Professional Orientation. (1)***fall and spring*

Senior advisement, industry presentations, and career counseling.

**IMC 470 Project Management. (3)***spring*

Introduction to techniques for managing small groups within larger organizations including team building, motivating, planning, tracking activities, and computer tools. Prerequisites: ECN 111; IMC 346. ITM 344.

**IMC 498 Pro Seminar. (1-7)***not regularly offered***IMC 499 Individualized Instruction. (1-3)***not regularly offered***IMC 584 Internship. (1-3)***fall and spring***IMC 590 Reading and Conference. (1-12)***not regularly offered***IMC 592 Research. (1-12)***fall and spring***IMC 593 Applied Project. (1-12)***fall and spring***IMC 595 Continuing Registration. (1)***not regularly offered***IMC 599 Thesis. (1-12)***fall and spring***INDUSTRIAL TECHNOLOGY MANAGEMENT (ITM)****ITM 343 Occupational Safety and Ergonomics. (3)***fall*

Health and safety movement, accident theories and effects, OSHA standards and liability, safeguarding, hazards, workers' compensation ergonomics, and safety. Prerequisite: junior or standing.

**ITM 344 Industrial Organization. (3)***spring*

Industrial organization concepts. Topics relate to industrial relations, governmental regulations, organizational structure, labor relations, human factors, and current industrial practices. Prerequisite: IMC 346.

**ITM 345 Public Sector Management. (3)***fall and spring*

Management in government and public agencies. Includes missions, planning and organizing to provide services, human resource issues, conflict resolution, coordination. Prerequisite: junior or standing.

**ITM 402 Legal Issue for Technologists. (3)***fall*

American legal system and impact on technology management issues: contracts, torts, intellectual property, white collar crime, anti-trust, environmental, and employment.

**ITM 405 Forecasting and Evolution of Technology. (3)***not regularly offered*

History and evolutionary nature of selected technologies, issues in the management of emerging technologies, and methods of technological forecasting. Prerequisite: IMC 346 or its equivalent.

**ITM 430 Ethical Issues in Technology. (3)***spring*

Topics include social responsibility for industrial technology and engineering. Prerequisite: IMC 346.

**ITM 440 Introduction to International Business. (3)***spring*

International business principles and operations, including partnership, trade agreements, currency issues, international sales, and cultural differences between countries. Prerequisite: IMC 346. *General Studies: G*

**ITM 445 Industrial Internship. (1-10)***fall, spring, summer*

Work experience assignment in industry commensurate with student's program. Specialized instruction by industry with university supervision. *Senior Pass/Fail*. Prerequisites: advisor approval, junior or standing, 2.50 GPA.

**ITM 451 Industrial Distribution and Materials Management. (3)***not regularly offered*

Surveys topics in industrial distribution including, but not limited to, materials handling, purchasing, receiving, warehousing, traffic, inventory control, and shipping. Prerequisite: IMC 346 or ITM 343.

**ITM 452 Industrial Human Resource Management. (3)***fall*

Concepts and practices of human resource management in a global industrial environment. Prerequisite: IMC 346.

**ITM 453 Safety Management. (3)***not regularly offered*

Development and management of safety programs, education and training, and relationships within an organization. Prerequisite: ITM 343 or instructor approval.

**ITM 455 Industrial Marketing Concepts. (3)***not regularly offered*

Customer and sales strategies for industrial organizations, including current practice and future planning. Prerequisites: ECN 111, IMC 346; junior standing.

**ITM 456 Introduction to Organized Labor. (3)***spring*

Introduction to labor relations, unions, federal and collective bargaining grievances, and labor legislation. Prerequisites: IMC 346, TM 344.

**Department of Manufacturing  
and Aeronautical Engineering  
Technology**

Scott G. Danielson

Chair

COLLINS

**ASSOCIATE PROFESSORS**

DAN ELSON, NAM, PALMGREN RAJADAS,

ROGERS SCHM DT

**ASSISTANT PROFESSOR**

POST

**PURPOSE**

The mission of the Department of Manufacturing and Aeronautical Engineering Technology is to emphasize applied engineering practice in the manufacturing and aerospace fields through four year degree programs in Manufacturing Engineering Technology and Aeronautical Engineering Technology. This is accomplished by the application of math and science principles to the solution of technical problems in a lecture laboratory environment. The goal of the Manufacturing Engineering Technology program is to prepare students for employment in areas such as materials, mechanics, design manufacturing processes, automation, and quality control. The department actively supports the student chapter of the Society of Manufacturing Engineers. The purpose of the Aeronautical Engineering Technology program is to prepare students for employment in areas such as aircraft and aerospace vehicle design, and manufacturing, applied thermodynamics, fluid mechanics and aerodynamics, propulsion, and wind tunnel testing. For more information, access [www.asu.edu/cmas/maet](http://www.asu.edu/cmas/maet) on the Web.

**ACCREDITATION**

The B.S. degree in Manufacturing Engineering Technology and the B.S. degree in Aeronautical Engineering Technology are accredited by the Accreditation Board for Engineering and Technology, Inc. (See "Accreditation," page 633, for more information.

Planning and controlling staff and project groups to accomplish the project objectives.

**NOTE:** For the General Studies requirement courses and codes such as L, S, Q, C, and H see General Studies "page 78 For graduation requirements see University Graduation Requirements page 74 For an explanation of additional non-business courses offered but not listed in this catalog, see "Classification of Courses," page 51

- ITM 451 Operations Management. (3)
  - Human aspects of supervisory behavior in the dust setting and how they influence efficiency morale and organizational practices. Prerequisite MC 346.
- ITM 494 Special Topics. (1-4)
  - Prerequisite MC 346.
- ITM 501 Managerial Economics. (3)
  - not regu ar y offered
- ITM 502 Financial Management. (3)
  - Examines corporate financial management systems. Budgeting a d financial policy using microcomputers to analyze forecast, and report information.
- ITM 503 Marketing Management. (3)
  - not regu ar y offered
- ITM 504 Law and Ethics for Technical Professionals. (3)
  - not regu ar y offered
- ITM 520 Strategic Management of Technology. (3)
  - not regu ar y offered
- ITM 548 Statistical Methods for Research. (3)
  - not regu ar y offered
- ITM 549 Research Techniques and Applications. (3)
  - not regu ar y offered
- ITM 550 Industrial Training and Development. (3)
  - not regu ar y offered
- ITM 552 Global Management Philosophies. (3)
  - not regu ar y offered
- ITM 570 Advanced Project Management. (3)
  - not regu ar y offered

## DEGREES

The Department of Manufacturing and Aeronautical Engineering Technology offers the B.S. degree in Manufacturing Engineering Technology and the B.S. degree in Aeronautical Engineering Technology.

For students holding an A.A.S. degree, the department offers the B.A.S. degree with a concentration in production technology.

A Master of Science in Technology degree is offered for graduate study. See the *Graduate Catalog* for more information.

### B.S. Degree Requirements

All degree requirements for the program are shown on curriculum check sheets. Requirements include First Year Composition, University General Studies (see "General Studies," page 78), and the Engineering Technology Core. Note that all three General Studies awareness areas are required. Consult your advisor for an approved list of courses. To graduate, students are required to complete a minimum of 128 semester hours with a 2.00 cumulative GPA, including at least 50 semester hours of upper division courses.

### Manufacturing Engineering Technology—B.S.

The B.S. degree in Manufacturing Engineering Technology requires 128 semester hours as specified below:

Engineering technology core	14
First Year Composition	6
General Studies department requirements	45
Manufacturing Engineering Technology major	52
Selected concentration	11
<b>Total</b>	<b>128</b>

The following courses constitute the Manufacturing Engineering Technology major and are required of all manufacturing engineering technology students. Refer to the specific concentrations for additional requirements.

#### Manufacturing Engineering Technology Major

EET 406 Control System Technology	4
MET 231 Manufacturing Processes	3
MET 300 Applied Material Science	4
MET 302 Weidling Survey	3
MET 313 Applied Engineering Mechanics: Materials	4
MET 331 Design for Manufacturing I	3
MET 341 Manufacturing Analysis	3
MET 344 Casting and Forming Processes	3
MET 345 Advanced Manufacturing Processes	3
MET 396 Manufacturing Professional Orientation	1
MET 401 Quality Assurance	3
MET 416 Applied Computer Integrated Manufacturing CS	3
MET 443 N/C Computer Programming	3
MET 444 Production Tooling	3
MET 451 Introduction to Automation	3
MET 460 Manufacturing Capstone Project I	3
MET 461 Manufacturing Capstone Project II	3
<b>Total</b>	<b>52</b>

A student participating in the Manufacturing Engineering Technology program may select from two concentrations manufacturing engineering technology or mechanical engineering technology

### Manufacturing Engineering Technology Concentration.

This concentration is designed to prepare technologists with both conceptual and practical applications of processes, materials, and products related to manufacturing industries. Accordingly, this concentration is intended to prepare students to meet the responsibilities in planning the processes of production, developing the tools and machines, and integrating facilities for production or manufacturing.

Students may select course work that focuses on the implementation of design and manufacturing strategies that favorably impact the environment. Concepts like design for recyclability, manufacturing material reuse, and air quality control during manufacturing are addressed. Required courses follow:

MET 438 Design for Manufacturing II	4
MET 442 Specialized Production Processes	3
Technical electives	4
<b>Total</b>	<b>11</b>

### Mechanical Engineering Technology Concentration.

The primary objective of the mechanical engineering technology concentration is to prepare students for entry level work in mechanical design and testing, either in engineering or manufacturing departments in product-oriented industries.

Major emphasis is placed on reducing the amount of time required by industry to make the graduate productive in any area of work. Students obtain a well rounded academic background with an emphasis in mechanics and thermal sciences. Required courses follow:

AET 415 Gas Dynamics and Propulsion	3
MET 434 Applied Fluid Mechanics	3
MET 438 Design for Manufacturing II	4
Approved technical elective	1
<b>Total</b>	<b>11</b>

### Aeronautical Engineering Technology—B.S.

The B.S. degree in Aeronautical Engineering Technology requires 128 semester hours as specified below

Aeronautical Engineering Technology major	63
Engineering technology core	14
First Year Composition	6
General Studies department requirements	45
<b>Total</b>	<b>128</b>

The following courses constitute the Aeronautical Engineering Technology major and are required of all Aeronautical Engineering Technology students.

#### Aeronautical Engineering Technology Major

AET 150 Introduction to Aeronautical Engineering Technology	1
AET 210 Measurements and Testing	3
AET 215 Mechanics of Aerospace Systems	3
AET 300 Aircraft Design I	3
AET 312 Applied Engineering Mechanics: Dynamics	3
AET 396 Aerospace Professional Orientation	1
AET 415 Gas Dynamics and Propulsion	3
AET 417 Aerospace Structures	3
AET 420 Applied Aerodynamics and Wind Tunnel Testing	4
AET 432 Applied Heat Transfer	3
AET 487 Aircraft Design II	3
EET 406 Control System Technology	4
MET 231 Manufacturing Processes	3
MET 300 Applied Material Science	4

**DEPARTMENT OF MANUFACTURING AND AERONAUTICAL ENGINEERING TECHNOLOGY 657**

MET 313 Applied Engineering Mechanics. Maternal Science	4
MET 331 Design for Manufacturing I	3
MET 432 Thermodynamics II	3
MET 434 Applied Fluid Mechanics	3
Programming Language course	3
Technical elective	6
<b>Total</b>	<b>63</b>

**APPLIED SCIENCE—B.A.S.**

The Bachelor of Applied Science degree is a "capstone" degree for the Associate of Applied Science degree. The B.A.S. degree exposes students to advanced concepts and diverse critical thinking skills that prepare them for future career opportunities and professional advancement.

**Admission**

Admission to the B.A.S. degree program is restricted to students holding an A.A.S. degree from a regionally accredited U.S. postsecondary educational institution. A GPA of 2.00 or higher is required for all resident applicants and a 2.50 for nonresident applicants.

**Degree Requirements**

The B.A.S. degree in the College of Technology and Applied Sciences consists of 60 semester hours of upper division (300 level and above) courses, with 30 hours in residence. A total of 120 semester hours is required for graduation.

A.A.S. degree transfer	60
Assignable credit	6
B.A.S. core	15
General Studies	9
Technical concentration	2
<b>Total</b>	<b>120</b>

**General Studies Curriculum**

The B.A.S. curriculum builds on the general education content of the A.A.S. degree. Additional General Studies (L, CS and awareness areas) are met with courses in the core or concentration. General Studies courses focus on contextual learning.

L	3
MA	3
HU	3
HU or SB	3
SB	3
SG	4
<b>Total</b>	<b>19</b>

**Assignable Credit**

Assignable credit allows space in the curriculum for prerequisite courses needed to succeed in the program. The courses are determined by the student and the advisor.

**B.A.S. Core**

The area core focuses on management and organization, professional communication, quantitative analysis, and computer competency.

IMC 470 Project Management	3
ITM 344 Industrial Organization	3

MET 401 Quality Assurance	3
MET 416 Applied Computer Integrated Manufacturing CS	3
TWC 40 Technical Communications L	3
<b>Total</b>	<b>15</b>

**Technical Concentration**

**Production Technology.** This concentration prepares supervisors and other personnel for technical and management positions in the manufacturing industry. The students increase their knowledge of manufacturing and gain insight into other areas, such as management, that support their professional growth.

**AERONAUTICAL ENGINEERING TECHNOLOGY (AET)**

**AET Note 1.** Flight instruction costs are not included in university tuition and fees.

**AET 150 Introduction to Aeronautical Engineering Technology. (1)**  
*fa*

Introduction to the fields of aeronautical engineering and engineering technology.

**AET 191 First-Year Seminar. (1-3)**

*not regularly offered*

**AET 194 Special Topics. (1-4)**

*not regularly offered*

**AET 210 Measurements and Testing. (3)**

*fa*

Measurement systems, components, system response, and the characteristics of experimental data. Lecture/lab. Prerequisites: MET 230; PHY 112, 114.

**AET 215 Mechanics of Aerospace Systems. (3)**

*spring*

Basic physics of flight. Principles and design of aircraft systems and powerplants.

**AET 294 Special Topics. (1-4)**

*not regularly offered*

**AET 300 Aircraft Design I. (3)**

*fa*

Basic applied aerodynamics, proper performance, and airplane performance analysis. Fee. Prerequisites: AET 210 and 215, or AMT 280 and 287; ETC 100; MAT 260; PHY 112, 114.

**AET 310 Instrumentation. (3)**

*fa*

Measurement systems, components, system response, and the characteristics of experimental data. Methods of collecting and analyzing data. Lecture/lab. Prerequisites: ETC 201; MAT 261. Prerequisite: MET 313.

**AET 312 Applied Engineering Mechanics: Dynamics. (3)**

*fa*

Masses, motion, kinematics; dynamics of machinery. Prerequisites: ETC 211; MAT 261.

**AET 394 Special Topics. (1-4)**

*not regularly offered*

**AET 396 Aerospace Professional Orientation. (1)**

*fa*

Career focus for Aeronautical Engineering Technology students. Familiarization with the aerospace industry. Prerequisite: junior or standing.

**AET 409 Nondestructive Testing and Quality Assurance. (1)**

*not regularly offered*

Purpose of inspection and quality assurance. Theory and application of nondestructive inspection methods. Application of pertinent standards, specifications, and codes. Lecture/lab. Cross-listed as AMT 409. Credit awarded for only AET 409 or AMT 409. See AET Note 1. Prerequisite: AMT 280 or MET 230.

**NOTE:** For the General Studies requirement courses and codes (such as L, SQ, C, and H), see "General Studies" page 78. For graduation requirements, see "University Graduation Requirements" page 74. For an expanded list of additional omnibus courses offered but not listed in this catalog, see "Classification of Courses" page 51.

**AET 415 Gas Dynamics and Propulsion. (3)***spring*

Introduction to compressible flow internal and external flow and aerodynamic thermodynamic analysis of propulsion systems Prerequisite MET 434

**AET 417 Aerospace Structures. (3)***fall*

Analysis and design of aircraft and aerospace structures Shear flow Semimonocoque structures Effects of dynamic loading Prerequisites AET 300 312 MET 313

**AET 420 Applied Aerodynamics and Wind Tunnel Testing. (3)***fall*

Introduction to viscous and inviscid flow and the relationship to aircraft lift and drag Wind tunnel design and testing Lecture lab Prerequisites AET 300 MET 434

**AET 432 Applied Heat Transfer. (3)***fall*

Steady state and transient conduction, heat transfer by convection and radiation Applications of heat transfer Prerequisite MET 434 or instructor approval

**AET 484 Internship. (1 12)***not regularly offered***AET 487 Aircraft Design II. (3)***spring*

Basic aerodynamics and airplane performance analysis methods applied to practical design project Prerequisite AET 300

**AET 490 Advanced Applied Aerodynamics. (3)***not regularly offered*

Study of fluid motion and aerodynamics. Essentials of incompressible aerodynamics and computational fluid dynamics Elements of laminar and turbulent flows Prerequisites AET 312 ETC 100 MAT 262

**AET 492 Honors Directed Study. (1-6)***not regularly offered***AET 493 Honors Thesis. (1-6)***not regularly offered***AET 494 Special Topics. (1-4)***not regularly offered***AET 498 Pro-Seminar. (1-7)***not regularly offered***AET 499 Individualized Instruction. (1 3)***not regularly offered***AET 500 Research Methods. (1 12)***not regularly offered***AET 524 Application of Heat Transfer. (3)***fall*

Energy conservation steady state and transient conduction, convection transfer free and forced convection Reynolds analogy backflow and environmental radiation. Prerequisite MET 434 or instructor approval

**AET 525 Advanced Propulsion. (3)***spring*

Mechanics and thermodynamics of propulsion systems Solid liquid propellant rocket design performance Electrocatalytic nuclear propulsion systems Space missions Prerequisites both AET 415 and 420 or MET 434 or on y instructor approval

**AET 560 Numerical Methods in Engineering Technology. (3)***not regularly offered*

Analyzing problems in physical sciences modeling of physical problems perturbation techniques curve fitting, data analysis numerical solutions, ordinary and partial differential equations

**AET 580 Practicum. (1 12)***not regularly offered***AET 583 Field Work. (1-12)***not regularly offered***AET 584 Internship. (1-12)***not regularly offered***AET 590 Reading and Conference. (1 12)***not regularly offered***AET 591 Seminar. (1 12)***not regularly offered***AET 592 Research. (1 12)***not regularly offered***AET 593 Applied Project. (1 12)***not regularly offered***AET 594 Conference and Workshop. (1-12)***not regularly offered***AET 595 Continuing Registration. (1)***not regularly offered***AET 598 Special Topics. (1-4)***not regularly offered***AET 599 Thesis. (1 12)***not regularly offered***MANUFACTURING ENGINEERING TECHNOLOGY (MET)****MET 191 First-Year Seminar. (1-3)***not regularly offered***MET 194 Special Topics. (1-4)***not regularly offered***MET 230 Engineering Materials and Processing. (3)***fall spring, summer*

Materials their structures properties fabrication characteristics and applications Material forming joining, and finishing processes Automation and quality control

**MET 231 Manufacturing Processes. (3)***fall*

Design documentation and material processes on plastics, ferrous and nonferrous materials emphasizing orthographic projection geometrical dimensions and tolerances. Lecture lab. Prerequisite MAT 117 or 170.

**MET 294 Special Topics. (1-4)***not regularly offered***MET 300 Applied Material Science. (4)***fall*

Principles of materials science emphasizing concepts relevant to manufacturing and use Discusses metals polymers ceramics and composites 3 hours lecture, 1 hour lab Prerequisite MET 231 or instructor approval

**MET 302 Welding Survey. (3)***fall*

Theory and application of industrial welding processes, introductory welding metalurgy and weldment design SMAW GTAW GMAW oxyacetylene and brazing experiences Lecture, lab Prerequisite: junior or senior standing

**MET 313 Applied Engineering Mechanics: Materials. (4)***fall spring, summer*

Stress strain relations between stress and strain shear, moments, deflections, and combined stresses. 3 hours lecture 1 hour lab Prerequisite: ETC 211

**MET 331 Design for Manufacturing I. (3)***spring*

Introduction to design of machines and structures with emphasis on layout design drawing. Emphasizes basics of gears cams fasteners springs bearings packages cylindrical fits, flat pattern development, and surface finishing requirements Prerequisite MET 313

**MET 341 Manufacturing Analysis. (3)***spring*

Organization and functional industrial requirements. Manufacturing economics and group technology. Writing assembly and production plans. Analysis on industrial specifications Prerequisite MET 231 or 343

**MET 343 Material Processes. (4)***spring*

Industrial processing as applied to low medium and high volume manufacturing Basic and secondary processing fastening and joining, coating and quality control Lecture, lab

**MET 344 Casting and Forming Processes. (3)***spring*

Analyzes various forming processes to determine lead requirements necessary for a particular metal-forming operation information used to select equipment and design tooling Metal casting processes and design of castings introduction to powder metalurgy Prerequisites both MET 300 and 313 or on y instructor approval

**MET 345 Advanced Manufacturing Processes. (3)***spring*

Material removal processes emphasizing advanced turning milling and machinability studies using cutting tools CNC programming for machining and turning centers Lecture lab. Prerequisite MET 231.

**DEPARTMENT OF MANUFACTURING AND AERONAUTICAL ENGINEERING TECHNOLOGY 659**

**MET 346 Numerical Control: Point-to-Point and Continuous Path Programming. (3)**

*not regularly offered*

Methods of programming set up and operation of numerical control machines emphasizingathe and mlt systems. Lecture, lab Prerequisite: MET 231

**MET 394 Special Topics. (1-4)**

*not regularly offered*

**MET 396 Manufacturing Professional Orientation. (1)**

*fall*

Career focus for Manufacturing Engineering Technology students Familiarization with the manufacturing industry Prerequisite: Jun or standing

**MET 401 Quality Assurance. (3)**

*spring*

Introduction to statistical quality control methods design of experiments, sampling gage requirements, specifications quality assurance too s emphasis z ng CNC-CMM programming Lecture lab Prerequisite Jun or stand ng

**MET 409 Applied Engineering Economics. (3)**

*spring*

Fundamentals of engineering economics in a practical industry-based approach includes effects of depreciation taxes inflation and replacement analysis Lecture computer lab experiences

**MET 415 Manufacturing Simulation. (3)**

*spring*

Computer simulation of manufacturing operations Discrete event simulation models range from individual processes to whole factories Lecture, computer lab experiences. Prerequisite MET 345

**MET 416 Applied Computer-Integrated Manufacturing. (3)**

*fall*

Techniques and practices of computer integrated manufacturing with emphasis on computer aided design and computer aided manufacturing Prerequisite: MET 345

*General Studies: CS*

**MET 432 Thermodynamics. (3)**

*spring*

Thermodynamics of mixtures Combustion process. Applies thermodynamics to power and refrigeration cycles Prerequisite ETC 340.

**MET 433 Thermal Power Systems. (4)**

*not regularly offered*

Analyzes gas power vapor power and refrigeration cycles Components of air conditioning systems Direct energy conversion Psychrometry. Analyzes internal combustion engines and fluid machines Lecture lab Prerequisite: MET 432 or instructor approval

**MET 434 Applied Fluid Mechanics. (3)**

*spring*

Fluid statics Basic fluid flow equations Viscous flow in pipes and channels Compressible flow Applications fluid measurement and flow instruments. Prerequisite ETC 340

**MET 435 Alternate Energy Sources. (3)**

*not regularly offered*

Alternate energy systems energy use and its impact on the environment and demonstrating practical alternative energy sources to fossil fuels Prerequisite instructor approval

**MET 436 Turbomachinery Design. (3)**

*not regularly offered*

Applies thermodynamics and fluid mechanics to the analysis of machinery design and power cycle performance predictions Prerequisite: ETC 340; MET 434

**MET 438 Design for Manufacturing II. (4)**

*fall*

Applies mechanics in design of machine elements and structures Uses experiments stress analysis in design evaluation Lecture, lab Prerequisite: AET 312 or MET 331 or instructor approval

**MET 442 Specialized Production Processes. (3)**

*fall*

Nontraditional manufacturing processes emphasizing EDM, ECM, ECG CM PM HERF, EBW and LBW. Prerequisite: MET 231

**MET 443 CNC Computer Programming. (3)**

*fall*

Theory and application of NC languages using CAM software and CNC machine tools Lecture lab Prerequisite MET 345 or instructor approval

**MET 444 Production Tooling. (3)**

*fall*

Design and fabrication of jigs fixtures and special industrial tooling related to manufacturing methods Lecture lab Prerequisite MET 345

**MET 448 Expert Systems in Manufacturing. (3)**

*not regularly offered*

Introduction to expert systems through conceptual analysis with emphasis on manufacturing applications Prerequisite: MET 231

**MET 451 Introduction to Automation. (3)**

*spring*

Introduction to automation Topics include assembly techniques fixed and flexible automation systems, robots material handling systems sensors and controls Lecture, lab Prerequisite MET 346.

**MET 452 Implementation of Robots in Manufacturing. (3)**

*not regularly offered*

Robotics workcell design including end effectors, parts presenters and optimum material flow Prerequisite MET 451 or instructor approval

**MET 453 Robotic Applications. (3)**

*spring*

Lab course utilizing robots and other automated manufacturing equipment to produce a part Students are required to program robots as well as interface the robots with other equipment. Prerequisite: instructor approval

**MET 460 Manufacturing Capstone Project I. (3)**

*fall*

Small group projects designing evaluating, and analyzing components assemblies and systems Develop products manufacturing techniques demonstrating state of the art technology Lecture, lab Prerequisites MET 331, 341 346 senior standing.

**MET 461 Manufacturing Capstone Project II. (3)**

*spring*

Small-group projects applying manufacturing techniques, with emphasis on demonstrating state of the art technology Lecture, lab Prerequisite MET 460 or instructor approval.

**MET 484 Internship. (1 12)**

*not regularly offered*

**MET 492 Honors Directed Study. (1-6)**

*not regularly offered*

**MET 493 Honors Thesis. (1-6)**

*not regularly offered*

**MET 494 Special Topics. (1-4)**

*fall and spring*

Possible topics

(a) Consumer Manufacturing (1 3)

(b) Manufacturing Process Simulation (1 3)

(c) Packaging Design (1-3)

**MET 498 Pro-Seminar. (1 7)**

*not regularly offered*

**MET 499 Individualized Instruction. (1-3)**

*not regularly offered*

**MET 500 Research Methods. (1 12)**

*not regularly offered*

**MET 501 Statistical Quality Control Applications. (3)**

*spring*

SPC problem-solving techniques for implementation in industry setting; design and analysis of experiments Prerequisite instructor approval

**MET 502 Specialized Production Processes. (3)**

*fall*

Specialized production processes including lasers electron beam abrasive and water jet and chemical and thermal processes Prerequisite instructor approval

**NOTE:** For the General Studies requirement, courses and codes (such as L SQ C, and H), see "General Studies," page 78 For graduation requirements see "University Graduation Requirements," page 74. For an explanation of additional omnibus courses offered but not listed in this catalog see "Classification of Courses," page 51

**MET 504 Applications of Production Tooling. (3)***fall*

Design and fabrication of fixtures, jigs, templates, and specialized industrial tooling for manufacturing. Lecture, lab. Prerequisite: instructor approval.

**MET 507 Manufacturing Enterprise. (3)***fall and spring*

Organization and project management of cellular manufacturing methods, including IIT and lean manufacturing. Prerequisite: instructor approval.

**MET 509 Applied Engineering Economics. (3)***spring*

Fundamentals of engineering economics in a practical, industry-based approach. Includes effects of depreciation, taxes, inflation, and replacement analysis. Lecture, computer lab experiences.

**MET 512 Introduction to Robotics. (3)***not regularly offered*

Introduction to industrial robots. Topics include: robot workspace, trajectory generation, robot actuators and sensors, design of end effectors, and economic justification. Application case studies. Prerequisite: instructor approval.

**MET 513 Advanced Automation. (3)***fall*

Analysis and design of hard and flexible automation systems. Particular attention to material-handling technology. Prerequisite: instructor approval.

**MET 514 CNC Computer Programming. (3)***spring*

Theory and application of N/C languages using CAM software and CNC machine tools. Lecture, lab. Prerequisite: instructor approval.

**MET 515 Manufacturing Simulation. (3)***spring*

Computer simulation of manufacturing operations. Discrete event simulation models range from individual processes to whole factories. Lecture, computer lab experiences.

**MET 517 Applied Computer-Integrated Manufacturing. (3)***fall*

Techniques and practices of computer-integrated manufacturing, with emphasis on computer-aided design and computer-aided manufacturing. Prerequisite: MET 345 or instructor approval.

**MET 560 Fundamentals of Security Engineering. (3)***fall*

Definitions of threats, fundamentals of design of physical protection systems, computer modeling and analysis of security systems.

**MET 571 Waste Minimization and Waste Prevention. (3)***spring*

Life cycle analysis, selection of environmentally compatible materials, design of waste minimization equipment and operation, economics of waste minimization and prevention. Prerequisite: ETC 340 or instructor approval.

**MET 580 Practicum. (1-12)***not regularly offered***MET 584 Internship. (1-12)***not regularly offered***MET 590 Reading and Conference. (1-12)***not regularly offered***MET 591 Seminar. (1-12)***not regularly offered***MET 592 Research. (1-12)***not regularly offered***MET 593 Applied Project. (1-12)***not regularly offered***MET 594 Conference and Workshop. (1-12)***not regularly offered***MET 595 Continuing Registration. (1)***not regularly offered***MET 598 Special Topics. (1-4)***not regularly offered***MET 599 Thesis. (1-12)***not regularly offered***SECURITY ENGINEERING TECHNOLOGY (SET)**

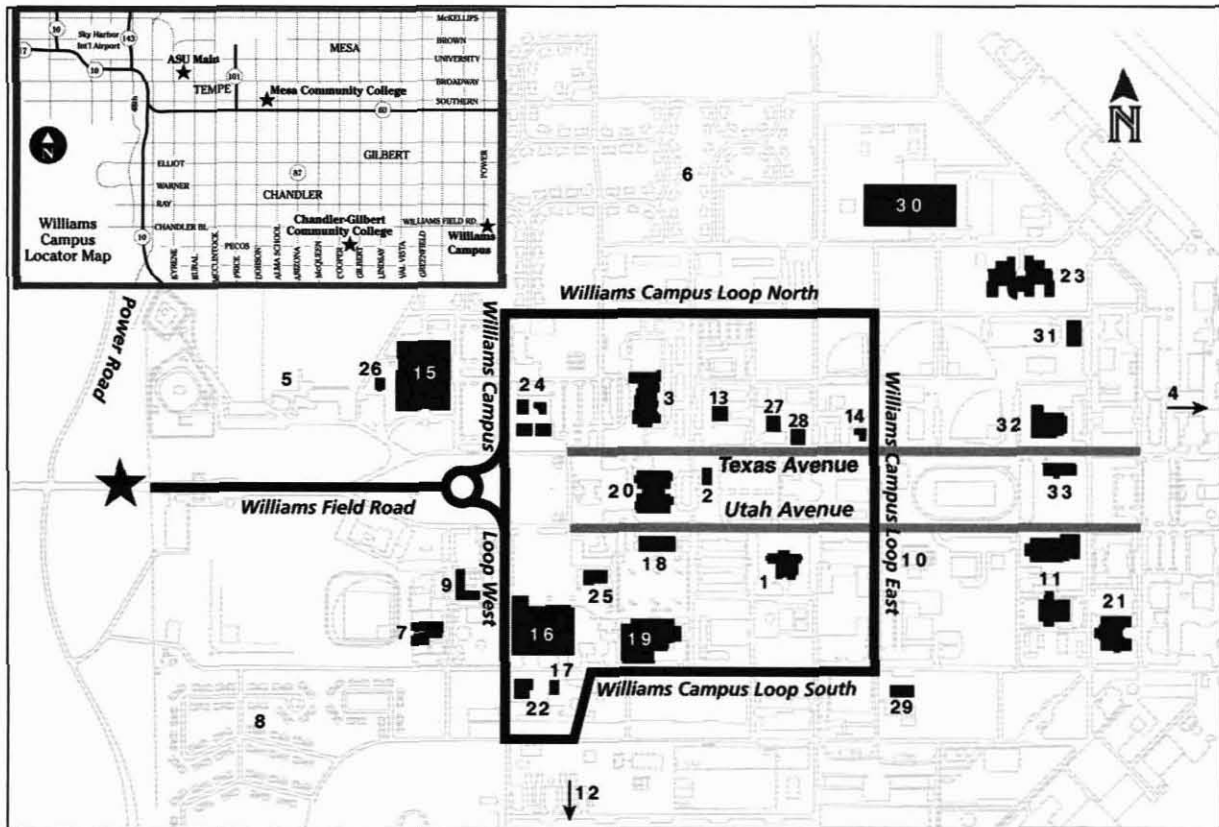

See the *Graduate Catalog* for the SET courses.

Preflight instruction

## WILLIAMS CAMPUS

- 1 Williams Campus Dining Hall (El Mirage)
- 2 Williams Campus Housing Office
- 3 Williams Campus Union (**CU**)
- 4 Williams Gateway Airport and Flight Line
- 5 Toka Sticks Clubhouse and Golf Course
- 6 North Desert Village
- 7 Child Development Center (**CDCTR**)
- 8 West Desert Village
- 9 Administrative Services Building—Security (**ADMIN**)
- 10 Swimming Pool (**POOL**)
- 11 Research Training Laboratory
- 12 South Desert Village
- 13 Williams Express Copy Services (**COPY**)
- 14 Williams Campus Post Office (**WCPO**)

## CHANDLER-GILBERT COMMUNITY COLLEGE AT WILLIAMS CAMPUS

- 30 Aviation Technology Center, Embry-Riddle, and University of North Dakota (**ATC**)
- 31 General Studies Building (**GSB**)
- 32 Physical Education Center (**PEC**)
- 33 Science Lab Building (**SLB**)

## ASU EAST

- 15 Health Sciences Center (ASU East Student Health, VA Clinic)
- 16 Technology Center (**TECH**)
- 17 Agribusiness Food Science Lab (**AGBFS**)
- 18 Auditorium (**AUD**)
- 19 Future Classroom and Lab Building
- 20 Academic Center Building (**CNTR**)
- 21 Classroom Building (**CLRB**)
- 22 TECH II
- 23 Flight Simulator Building (**SIM**)
- 24 Morrison School of Agribusiness and Resource Management Complex (**AGB 1–4**)
- 25 Communication (**COMM2**)
- 26 Professional Golf Management (**PGM**)
- 27 American Indian Programs (**AIP**)
- 28 International Projects Unit (**INTRP**)
- 29 Photovoltaic Testing Lab (**SOLAR**)

# ASU East Faculty and Academic Professionals

---

## A

**Abuleyaman, Eltayeb S.** 1998 Associate Professor of Electronics and Computer Engineering Technology, B.S., University of Khartoum (Sudan); M.S., Oregon State University, Ph.D., University of Arizona

**Autore, Donald D.** (1979), Professor Emeritus of Technology; B.S.E., University of Michigan, M.S.E., Arizona State University

## B

**Backus, Charles E.** 1968, Professor of Electrical Engineering, Campus Chief Executive Officer and Provost, ASU East, Vice President, ASU, B.S.M.E., Ohio University, M.S., Ph.D. University of Arizona

**Barchilon, Marian G.** 1989, Professor of Technical Communication; B.A., State University of New York, Binghamton, M.S., Northeastern University

**Barrett, Thomas W.** 1950, Professor Emeritus of Agribusiness and Resource Management, B.S. Brigham Young University, M.S., Ph.D., Cornell University

**Bergeron, Bette S.** 2000, Professor of Education, B.S. Ed., University of Maine, Orono, M.S.Ed., Ph.D., Purdue University

**Brady, Ward W.** (1973), Professor of Environmental Resources, B.S., M.S., Ph.D., Colorado State University

**Brock, John H.** (1977), Professor of Environmental Resources, B.S., M.S., Fort Hayes State University; Ph.D., Texas A&M University

**Brown, Walter C.** (1966), Professor Emeritus of Technology; B.S., Northwest Missouri State University; M.Ed., Ed.D., University of Missouri, Columbia

**Brownson, Charles W.** (1980), Librarian, ASU East Library Services, Director, ASU East Library Services, B.A., South Dakota State University; M.F.A., University of Oregon, M.L.S., University of California, Berkeley

**Burdette, Walter E.** (1956), Professor Emeritus of Technology; B.S., M.S., Kansas State College of Pittsburg, Ed.D., University of Missouri, Columbia

**Burk, Karl W.** 1949), Professor Emeritus of Technology, B.A. M.A., Arizona State University; Ed.D., Bradley University

**Burkink, Tim** (1998), Assistant Professor of Agribusiness and Resource Management, B.S., M.B.A., Ph.D., University of Nebraska, Lincoln

## C

**Carlsen, Paul A.** 1978, Professor Emeritus of Technology, B.A.E., M.N.S., Ed.D., Arizona State University

**Cavaliere, William A.** 1946), Professor Emeritus of Technology, B.A., M.A., Arizona State University

**Chalquest, Richard R.** 1971), Professor Emeritus of Agribusiness and Resource Management, B.S., D.V.M., Washington State University; M.S., Ph.D., Cornell University

**Collins, Donald W.** 1989), Professor of Manufacturing and Aeronautical Engineering Technology; B.Arch., Virginia Polytechnic Institute and State University, M.S., Ph.D., University of Illinois, Chicago

**Corbin, Charles B.** 1982), Professor of Exercise and Wellness, B.S., University of New Mexico, M.S., University of Illinois, Ph.D., University of New Mexico

**Cox, Frank E.** 1972, Professor Emeritus of Technology, B.S.M.E., Purdue University, M.S.E., Arizona State University

**Cox, Jerry R.** 1984, Adjunct Associate Professor of Environmental Resources, B.S., M.S., New Mexico State University; Ph.D., University of Wyoming

## D

**Daneke, Gregory A.** (1982), Professor of Agribusiness and Resource Management, B.A., M.A., Brigham Young University, Ph.D., University of California, Santa Barbara

**Danielson, Scott G.** (1999) Associate Professor of Manufacturing and Aeronautical Engineering Technology; Chair, Department of Manufacturing and Aeronautical Engineering Technology, B.S., M.S., University of Wyoming, Ph.D., North Dakota State University

**DeBano, Leonard F.** 1983, Adjunct Associate Professor of Environmental Resources; B.S., Colorado State University, M.S., Utah State University; Ph.D., University of California, Berkeley

**Dixon, Kathleen S.** (2000), Lecturer of Nutrition, B.S., University of Arizona, M.Ed., Northern Arizona University

**Dolin, Penny Ann** 1998, Lecturer of Information and Management Technology, B.A., Bard College, M.S., Arizona State University

**Duff, Jon M.** 1997), Professor of Information and Management Technology; B.S., M.S., Purdue University, Ph.D., Ohio State University

## E

**Edwards, Mark R.** 1978, Professor of Agribusiness and Resource Management, B.S.M.E., United States Naval Academy; M.B.A., D.B.A., Arizona State University

**Edwards, Marvin J.** (1959), Professor Emeritus of Technology, B.S., M.A., Arizona State University

## F

**Fordemwalt, James N.** 1987), Professor Emeritus of Electronics and Computer Engineering Technology; B.S., M.S. University of Arizona, Ph.D., Iowa State University of Science and Technology

## G

**Gesell, Laurence E.** 1984, Professor of Aeronautical Management Technology, B.A., Upper Iowa University, M.P.A., University of San Francisco; Ph.D., Arizona State University

**Gordon, Richard S.** 1980, Professor Emeritus of Agribusiness and Resource Management, A.B., University of Rochester, M.A., Harvard University, Ph.D., Massachusetts Institute of Technology

**Green, Douglas M.** (1990), Associate Professor of Environmental Resources; B.S., Oregon State University, M.S., North Dakota State University; Ph.D., Oregon State University

**Grossman, Gary M.** (1994), Associate Professor of Information and Management Technology, B.A., University of the Pacific, M.S., Ph.D., Purdue University

## H

**Hampf, Jeffrey** (1998), Assistant Professor of Nutrition, B.S., Liberty University, M.S., University of Massachusetts, Lowell, Ph.D., University of Nebraska

**Harris, Laverne Abe** (1999), Lecturer of Information and Management Technology, B.A., M.Tech., Arizona State University

**Hefner, Stephen P.** (1973), Instructional Professional of Agribusiness and Resource Management, Morrison School of Agribusiness and Resource Management; B.S., Illinois State University; M.S., Arizona State University

**Hild, Nicholas R.** (1983), Professor of Information and Management Technology, B.S.M.E., M.S.Enve., University of Iowa; Ph.D., Union Graduate School

**Hirata, Ernest T.** (1974), Associate Professor of Information and Management Technology, B.A., San Diego State College, Ed.D., Arizona State University

**Horowitz, Renee B.** 1986, Professor Emeritus of Information and Management Technology, B.A., Brooklyn College; M.A., Ph.D., University of Colorado

**Humble, Jane E.** (1989), Associate Professor of Information and Management Technology; B.S.E., M.S.E., Ph.D., Arizona State University

**Hutt, Roger W.** (1975), Associate Professor of Business Administration; B.S., M.B.A., Ohio State University; Ph.D., Michigan State University

## J

**Jackson, Andrew E.** (1995), Associate Professor of Aeronautical Management Technology, B.A., University of Louisville, M.B.A., Embry Riddle Aeronautical University, Ph.D., University of Central Florida

**Johnson, Randall A.** (1984), Adjunct Associate Professor of Environmental Resources; B.S., California State Polytechnic University, Pomona, M.A., M.S., Ph.D., University of Missouri, Columbia

**Johnston, Carol S.** (1986), Professor of Nutrition, B.S., University of Michigan, M.S., Ph.D., University of Texas, Austin

**Jones, Kathy** (1996), Lecturer of Exercise and Wellness; B.A., University of California, Berkeley, M.S., Ph.D., Arizona State University

## K

**Kagan, Albert** (1992), Professor of Agribusiness and Resource Management; B.S., M.S., Ph.D., Iowa State University of Science and Technology

**Karp, Merrill R.** (1994), Assistant Professor of Aeronautical Management Technology, B.S., Arizona State University, M.A., Central Michigan University; Ph.D., Walden University

**Keith, Marlow F.** 1946, Professor Emeritus of Technology; B.A., M.A., Arizona State University

**Kelley, Donald G.** 1980, Professor Emeritus of Manufacturing and Aeronautical Engineering Technology; B.S., M.S., Arizona State University

**Kigin, Denis J.** 1958-67, 1967, Professor Emeritus of Technology; Dean Emeritus, Continuing Education and Summer Sessions, B.S., Mankato State University, M.S., University of Wisconsin, St. Louis, Ed.D., University of Missouri

**Kime, Charles H.** (1999), Assistant Professor of Information and Management Technology; B.S., Arizona State University, M.B.A., University of Phoenix, D.P.A., Arizona State University

**Kisielewski, Robert V.** (1978), Professor Emeritus of Technology, B.S.M.E., M.S.M.E., University of Wisconsin, Madison

**Kleemann, Gary L.** (1979), Administrative Professional, Academic Programs, Director, E-Learning; B.A., M.S., San Jose State University, Ph.D., Arizona State University

## L

**Lawler, Eugene D.** 1967, Professor Emeritus of Technology, B.S., Northern State College, M.A., Arizona State University

**Lestar, Dot J.** (1995), Lecturer of Information and Management Technology, B.S., M.Tech., Arizona State University

**Lindquist, Timothy** 1985, Professor of Electronics and Computer Engineering Technology; Chair, Department of Electronics and Computer Engineering Technology, B.S., Purdue University, M.S., Ph.D., Iowa State University

**Lipari, Charles A.** (1995), Assistant Professor of Electronics and Computer Engineering Technology, B.S.E.E., M.S.E.E., University of Southwestern Louisiana, Ph.D., Louisiana State University

**Lytle, Robert G.** 1972, Professor Emeritus of Agribusiness and Resource Management; B.S., Western Kentucky University, M.S., Arizona State University

## M

**Macia, Narciso F.** (1990), Associate Professor of Electronics and Computer Engineering Technology, B.S., M.S., University of Texas, Arlington; Ph.D., Arizona State University

**Maddy, Kenneth H.** (1980), Professor Emeritus of Agribusiness and Resource Management, B.S., Pennsylvania State University, M.S., University of Wisconsin, Madison, Ph.D., Pennsylvania State University

**Maid, Barry M.** (2000), Professor of Multimedia Writing and Technical Communication, B.A., University of Wisconsin, Madison, M.A., University of Texas, Austin, Ph.D., University of Massachusetts, Amherst

**Maisel, James E.** 1985, Professor Emeritus of Electronics and Computer Engineering Technology, B.Eng.Sc., B.E.E., Penn College; M.S.E.E., Ohio State University

**Manfredo, Mark R.** 1999, Assistant Professor of Agribusiness and Resource Management, B.S., California State University, Fresno; M.S., New Mexico State University; Ph.D., University of Illinois Urbana

**Manore, Melinda M.** 1984, Professor of Nutrition, B.S., Seattle Pacific University; M.S., University of Oregon; Ph.D., Oregon State University

**Marquardt, Raymond A.** 1997, Professor of Agribusiness and Resource Management, Dean Morrison School of Agribusiness and Resource Management; B.S., M.S., Colorado State University, Ph.D., Michigan State University

**Martin, Rose L.** 1990, Senior Lecturer of Nutrition, B.S., University of Illinois, M.S., Pennsylvania State University

**Matson, John H.** 1978, Associate Professor of Information and Management Technology, B.S., M.S., Illinois State University

**Matthews, James B.** (1989), Professor Emeritus of Aeronautical Technology, B.S. Rose-Hulman Institute of Technology; M.S., Massachusetts Institute of Technology; Ph.D., University of Arizona

**McBrien, Edward F.** (1986), Professor Emeritus of Electronic Computer Technology, B.S.E., Fenn College; M.S.E.E., Cleveland State University

**McCurry, William K.** 1995, Associate Professor of Aeronautical Management Technology, Chair, Department of Aeronautical Management Technology, B.S., Purdue University, M.S., Troy State University; Ph.D., University of Kansas

**McHenry, Albert L.** (1978), Professor of Electronics and Computer Engineering Technology, Dean College of Technology and Applied Sciences, B.S., Southern University and A&M College, M.S., Ph.D., Arizona State University

**Mermis, William L.** 1995, Professor of Human Health; B.S., M.S., Saint Louis University, Ph.D., Arizona State University

**Millard, Bruce R.** (1988), Associate Professor of Electronics and Computer Engineering Technology, B.A., M.S., Washington State University, Ph.D., Arizona State University

**Miller, Victor J.** (1978), Professor Emeritus of Agribusiness and Resource Management, B.S., M.S., Ph.D., University of Illinois

**Miller, William H.** 1984, Associate Professor of Environmental Resources, B.S., M.S., Ph.D., Washington State University

**Minter, Marshall R. Jr.** 1965, Professor Emeritus of Technology, B.S., M.E., Purdue University; M.S., M.E., University of Arizona

**Monte, Woodrow** (1979), Associate Professor of Nutrition, B.S., New Mexico Institute of Mining and Technology; M.S., Ph.D., Colorado State University

**Moody, E. Grant** (1951), Professor Emeritus of Agribusiness and Resource Management; B.S., University of Arizona, M.S., Kansas State University, Ph.D., Purdue University

**Munukutla, Lakshmi V.** 1987, Professor of Electronics and Computer Engineering Technology, Associate Dean College of Technology and Applied Sciences; B.S., M.S., Andhra University (India); Ph.D., Ohio University

## N

**Nam, Changho** (1998), Associate Professor of Manufacturing and Aeronautical Engineering Technology, B.S., M.S., Seoul National University, South Korea, Ph.D., Purdue University

## O

**O'Brien, Marc H.** 1997, Lecturer of Aeronautical Management Technology, B.A., Boston University; M.S., Indiana State University

ASU West, a growing anchor campus of Arizona State University, serves diverse students who balance academics with the multiple demands of careers, family, and community service. More than 5,300 commuting students are enrolled in junior, senior, and graduate-level courses leading to 29 bachelor's degrees, nine master's degrees, and eight professional certificates. Starting in fall 2001, ASU West admits freshmen for the first time, beginning the transition to a full, four-year learning environment.

Through the award-winning University-College Center, some students take community college courses necessary for university transfer on the ASU West campus. Academic advising, child care, and evening tutoring for children of students are just a few examples of innovative services that help families achieve their educational goals. ASU West students enjoy a friendly, small-campus atmosphere while benefitting from the resources and expertise of a research-based, nationally acclaimed, PAC-10 university.

Academic programs are linked directly to community needs, providing relevant, applied learning opportunities, such as internships. Courses are offered through the Colleges of Arts and Sciences, Education, and Human Services and through the Division of Collaborative Programs and the School of Management.

ASU West offers many on-campus services and facilities, including a multimedia resource library, state-of-the-art computer classrooms and labs, tutoring services, bookstore, cafeteria, credit union, fitness center, recreational facilities, and post office, plus many student activities, clubs, and organizations. ASU West facilities are completely accessible for those with disabilities, with academic services provided by a disability resource center. Classes are offered in the day and evening, as well as on weekends, and via television and the Internet.

The architecture and courtyards at ASU West are modeled on those of the University of Oxford in Great Britain, enhanced by a beautifully landscaped natural environment featuring widely acclaimed public art. The campus occupies approximately 300 square acres between 43rd and 51st Avenues on West Thunderbird Road in Phoenix, easily accessed from Interstate 17 and Loop 101.

## ACCREDITATION

ASU West is accredited by the Commission on Institutions of Higher Education of the North Central Association of Colleges and Schools, 30 North LaSalle St., Chicago, IL 60602-2504.

Professional programs in various academic areas are also accredited.

The Business and Accountancy degree programs in the School of Management are accredited by the AACSB—the International Association for Management Education. The

## ASU West Baccalaureate Degrees and Majors

Major	Degree	Concentration	Administered By
Accountancy	B.S.		School of Management
Administration of Justice	B.S.		College of Human Services
American Studies	B.A.	Emphases: American cultures, American lives, American systems, writing	College of Arts and Sciences
Applied Science	B.A.S.	All minors available at ASU West, individualized concentration	Division of Collaborative Programs
Communication Studies	B.A., B.S.	Emphases: communication and culture, communication and organizations; communication and relationships, rhetoric, philosophy, and media studies	College of Human Services
Elementary Education	B.A.E.	Bilingual education, early childhood education, English as a second language Option: middle school education	College of Education
English	B.A.		College of Arts and Sciences
Global Business	B.S.	Financial management, human resources management, information systems management, international studies, marketing	School of Management
History	B.A.		College of Arts and Sciences
Integrative Studies	B.A.	All minors available at ASU West, individualized concentration	College of Arts and Sciences
Interdisciplinary Arts and Performance	B.A.	Media, music, performance studies, theater performance, visual art	College of Arts and Sciences
Life Sciences	B.S.	Emphases: cell biology and physiology, ecology and organismal biology, human biology and environment	College of Arts and Sciences
Nursing	B.S.N.		College of Nursing (ASU Main)
Politics	B.A., B.S.		College of Arts and Sciences
Psychology	B.A., B.S.		College of Arts and Sciences
Recreation and Tourism Management	B.S.		College of Human Services
Secondary Education	B.A.E.	Academic specializations: biological sciences, English history, mathematics, social studies Option: middle school education	College of Education
Social and Behavioral Sciences	B.A., B.S.	Emphases: interdisciplinary behavioral sciences, interdisciplinary social sciences	College of Arts and Sciences
Social Work	B.S.W.		College of Human Services
Sociology	B.A., B.S.		College of Arts and Sciences
Spanish	B.A.		College of Arts and Sciences
Special Education	B.A.E.		College of Education
Women's Studies	B.A., B.S.		College of Arts and Sciences

Accountancy program is also an Endorsed Internal Auditing Program by the Institute of Internal Auditors.

In the College of Human Services, the Department of Recreation and Tourism Management is accredited by the National Recreation and Park Association/American Association for Leisure and Recreation, and the Bachelor in Social Work program is accredited by the Council on Social Work Education (CSWE). The Master in Social Work program is currently in candidacy for accreditation by the CSWE. Full accreditation is anticipated in 2002. See "Academic Accreditation at ASU West," page 694.

## ACADEMIC ORGANIZATION AND ADMINISTRATION

As chief operating and academic officer of ASU West, the vice president and provost provides executive leadership for the continuing development and management of the campus and reports directly to the president of Arizona State University. The vice president and provost is aided in the administration of the campus by vice provosts, deans, directors, department chairs, faculty, and other officers. There are four schools and colleges at ASU West and a Division of Collaborative Programs administered by deans. These academic units develop and implement the teaching, research, and service programs of the institution, aided by the ASU West Fletcher Library and other services.

## ASU West Graduate Degrees and Majors

Major	Degree	Concentration	Administered By
Business Administration	M.B.A.		School of Management
Communication Studies	M.A.	—	College of Human Services
Criminal Justice	M.A.		College of Human Services
Educational Administration and Supervision	M.Ed.		College of Education
Elementary Education	M.Ed.	Bilingual education, educational media and computers, ESL education, reading	College of Education
Interdisciplinary Studies	M.A.		College of Arts and Sciences
Secondary Education	M.Ed.	Educational media and computers	College of Education
Social Work	M.S.W.		College of Human Services
Special Education	M.Ed.	Infants and young children	College of Education

The faculty and students of the institution play an important role in campus governance, with the Academic Senate, Associated Students of ASU West, and numerous cross-campus and joint ASU West-ASU Main-ASU East committees serving the needs of a rapidly growing institution.

See "ASU West Administrative Personnel," page 682, and "Academic Organization," page 8.

## ADMISSION AND ADVISING

### Admission

**Nondegree Students.** Nondegree students may take courses at ASU West according to the special provisions under "Admission of Undergraduate Nondegree Applicants," page 60.

**Degree-Seeking Students.** Any student admitted to ASU may take courses at ASU West. To be admitted to an ASU West degree program, the student must meet university admission requirements and the specific admission requirements of the ASU West program. A student who is admitted to an ASU West degree program is defined as an ASU West student.

For more information on applying to ASU West degree programs, see the current *ASU West Catalog* or *ASU West Schedule of Classes*. For applications and admission information, call 602/543-8203, or write:

ADMISSION SERVICES  
UNIVERSITY CENTER BUILDING 120  
ARIZONA STATE UNIVERSITY WEST  
PO BOX 37100  
PHOENIX AZ 85069-7100

### Change of Major from ASU Main to ASU West

Currently enrolled ASU Main degree-seeking students who want to relocate to an ASU West degree program should contact the Admissions and Records Office at ASU West for the appropriate procedures. Acceptance to an ASU West degree program requires the student to meet the prerequisites for entry to the student's choice of major as stated in the appropriate catalog. Students should be aware that certain requirements (e.g., the minimum number of upper-division semester hours to graduate) differ between ASU West and ASU Main. Students should therefore contact an academic advisor at West campus before relocating to ASU West.

**Application of Course Credit.** All courses completed on any ASU campus may fulfill the 120-semester-hour requirement for graduation with a baccalaureate degree. Every candidate for the baccalaureate degree is required to earn a minimum of 30 semester hours in resident credit courses at the ASU campus from which the student will graduate. Some degree programs have specific requirements that must be completed in the department of the major or through another department at the resident campus. The application of courses to the degree program is determined by the appropriate faculty member or academic advisor of the student's major. Because of these constraints, students should seek advice from the appropriate advisor for their major before registering for classes at another ASU campus.

### Academic Advising

Effective academic advising is an essential aspect of the educational experience at ASU West. Prospective students should contact a general advisor as a first step in the admission process to make an appointment, call 602/543-8217, or visit Transition and Outreach Services in UCB 201. A general counselor reviews admission requirements and processes and makes referrals to academic advisors as appropriate. A convenient alternative is to meet with an outreach advisor at an ASU West Transfer Center located on the campuses of local community colleges.

### DEGREE PROGRAMS

Refer to the "ASU West Baccalaureate Degrees and Majors" table, page 669, "ASU West Graduate Degrees and Majors" table, on this page, and "ASU West Certificates" table, page 672.

The College of Education offers postbaccalaureate programs for teacher certification in elementary education and secondary education. Students who complete the approved program, including student teaching, are recommended for certification to the Arizona Department of Education. The following academic specializations for the B.A.E. degree in Secondary Education require course work in the subject-matter area not currently available at ASU West (but offered at ASU Main): business education, chemistry, family resources and human development, physical education, physics, political science, and Spanish.

For more information on ASU West degree requirements, see the *ASU West Catalog*.

### Minors and Certificates

ASU West offers an extensive selection of minors and certificate programs that may be taken in conjunction with a major. Other certificate programs may be taken independently; for the complete list, see the "ASU West Certificates" table, page 672, and the "ASU West Minors" table, page 671. For more information, refer to the individual department or college descriptions in the *ASU West Catalog*.

**ASU Main Programs Hosted at ASU West.** Courses for the Bachelor of Science in Nursing (B.S.N.) degree are offered at ASU West. For specific information on requirements, see "College of Nursing," page 455.

### Course Information

For information on ASU West course offerings, see the current *ASU West Schedule of Classes*. For ASU West course descriptions and General Studies courses offered at ASU West, see the *ASU West Catalog*.

### Library Services

The ASU West Library provides resources that support the curriculum of the West Campus with a collection of 315,000 volumes, 1.4 million microforms, 7,500 videos, 15,000 slides, 170 electronic databases and more than 5,000 serial titles including 2,800 electronic full-text journals. Approximately 53% of electronic databases are available to ASU registered users from home computers.

The library is open seven days a week to meet the informational needs of the campus community. Knowledgeable staff members are available to provide reference service and instruction in the use of the library's considerable resources.

Individual consultations with subject specialist librarians are available by appointment. The Library Instruction Program provides introduction to the tools and resources available for research in academic disciplines, including Internet resources.

A wide range of information and research tools most accessible from off campus are available through the ASU West Library Web site at [www.west.asu.edu/library](http://www.west.asu.edu/library). For library hours and information, call 602.543.5717.

### ASU EXTENDED CAMPUS

The College of Extended Education was created in 1990 to extend the resources of ASU throughout Maricopa County, the state, and the region. The College of Extended Education is a university wide college that oversees the ASU Extended Campus and forms partnerships with other ASU colleges to meet the instructional and informational needs of a diverse community.

The ASU Extended Campus goes beyond the boundaries of the university's three physical campuses to provide access to quality academic credit and degree programs for working adults through flexible schedules; a vast network of off-campus sites; classes scheduled days, evenings, and weekends; and innovative delivery technologies including television, the Internet, and independent learning. The Extended Campus also offers a variety of professional continuing education and community outreach programs.

For more information, see "ASU Extended Campus," page 683, or access the Web site at [www.asu.edu/xed](http://www.asu.edu/xed).

### ASU West Minors

Minor	Administered By
American Studies	Department of American Studies

# ASU West Faculty and Academic Professionals

---

## A

- Abramson, Marianne** 1999, Visiting Assistant Professor of Psychology; B.A., Northern Arizona University, M.A., Ph.D., Arizona State University
- Achilles, Elayne R.** 1986, Associate Professor of Education; B.M.Ed., Temple University; M.M.Ed.D., Arizona State University
- Ackroyd, William S.** 2000, Lecturer of Social and Behavioral Sciences; B.A., M.A., M.S., Portland State University, Ph.D., University of Arizona
- Aguñaga, Jose** 1999, Assistant Librarian; B.A., University of San Diego, M.L.S., University of Arizona
- Aleshire, Peter** 1993, Senior Lecturer of Professional Writing; B.A., M.A., Stanford University
- Andereck, Kathleen L.** 1993, Associate Professor of Recreation and Tourism Management, B.S., University of Wisconsin Stevens Point; M.S., Texas A&M University; Ph.D., Clemson University
- Anders, Gary C.** 1989, Professor of Economics, Director, Institute for International Business, School of Management; B.S., West Texas State University, M.A., Ph.D., University of Notre Dame
- Anderson, Laurel A.** 1989, Associate Professor of Marketing; B.S.N., University of Minnesota, Twin Cities, M.N., University of Washington; Ph.D., Arizona State University
- Anokye, Akua Duku** (1999), Visiting Associate Professor of American Studies, B.A., Michigan State University, M.A., Federal City College, District of Columbia, M.A., Ph.D., City University of New York Graduate School and University Center
- Armstrong, Gaylene S.** (2000), Visiting Assistant Professor of Administration of Justice, B.A., University of Manitoba, Canada, M.A., Ph.D., University of Maryland
- Armstrong, Todd A.** 1999, Assistant Professor of Administration of Justice, B.A., M.A., Ph.D., University of Maryland, College Park
- Atwater, Leanne E.** 1993, Professor of Management; B.A., M.A., San Diego State University; Ph.D., Claremont Graduate School
- Ávalos, Manuel** 1990, Associate Professor of Political Science; B.A., M.A., University of Arizona; Ph.D., University of New Mexico
- Awender, Michael A.** (2000), Professor of Education, Dean, College of Education; B.A., M.A., University of Windsor, Canada; M.Ed., University of Toronto (Canada); Ph.D., Claremont Graduate School
- B**
- Baldwin, Bruce A.** 1989, Professor of Accountancy, B.A., M.B.A., Michigan State University, Ph.D., Arizona State University
- Balthazard, Pierre A.** 1999, Associate Professor of Information Management Systems, B.S., McGill University (Canada), M.S., Ph.D., University of Arizona
- Beckett, E. Carol** (1996), Assistant Professor of Bilingual Education, B.A., M.Ed., Ed.D., Arizona State University
- Bellizzi, Joseph A.** 1988, Professor of Marketing, B.S., M.A., Ph.D., University of Nebraska, Lincoln
- Berman, Tressa** 1995, Assistant Professor of Anthropology; B.A., San Francisco State University, M.A., University of Colorado, Boulder; Ph.D., University of California, Los Angeles
- Bernat, Frances P.** (1993), Associate Professor of Administration of Justice, B.S., M.A., J.D., State University of New York Buffalo, Ph.D., Washington State University
- Bonakdarian, Mansour** 1999, Visiting Assistant Professor of American Studies; B.A., M.A., Ph.D., University of Iowa
- Brawley, E. Allan** 1997, Professor of Social Work; Certificate of Social Work, University of Strathclyde (United Kingdom); D.S.W., University of Pennsylvania
- Bredbenner, Candice D.** 1990, Associate Professor of American History; Cochair, Department of American Studies, B.A., Russell Sage College; M.A., Ph.D., University of Virginia
- Brett, Joan F.** (1999), Associate Professor of Marketing; B.A., B.S., Ohio State University; Ph.D., New York University
- Bristol, Terry** 2000, Assistant Professor of Marketing, B.S., M.S., San Diego State University; Ph.D., Virginia Polytechnic Institute
- Britt, Chester L. III** (1999), Associate Professor of Administration of Justice; B.S., University of Iowa; M.A., Washington State University, Ph.D., University of Arizona
- Broadus, Dorothy C.** 1990, Associate Professor of English; Cochair, Department of American Studies; B.A., Eastern Kentucky University, M.Ed., Ph.D., University of Louisville
- Brodar, Valerie A.** 1999, Visiting Assistant Professor of Interdisciplinary Arts and Performance, B.A., Carnegie Mellon University, M.F.A., School of the Art Institute of Chicago, M.F.A., Ohio State University
- Bryn, Sandra L.** 1994, Assistant Professor of Curriculum and Instruction; B.S., Minot State College; M.A., Ed.D., Northern Arizona University
- Burleson, Mary H.** 1997, Assistant Professor of Psychology, B.A., M.S., New Mexico State University, Ph.D., Arizona State University
- Buss, Ray R.** (1990), Associate Professor of Educational Psychology; Assistant Dean, College of Education; B.S., M.S., Ph.D., University of Wisconsin, Madison
- Byam, L. Dale** (1999), Visiting Assistant Professor of Interdisciplinary Arts and Performance, B.A., Concordia University, Canada; M.A., Ph.D., New York University

## C

- Cardelle-Elawar, Maria** 1987, Associate Professor of Educational Psychology; B.A., Universidad Experimental Libertador (Venezuela); M.S., University of Southern California, Ph.D., Stanford University
- Cárdenas, Lupe** (1986), Associate Professor of Spanish B.A., M.A., Ph.D., Arizona State University
- Carey, James** (1998), Lecturer School of Management, B.S., M.B.A., Ph.D., Arizona State University
- Carey, Jane M.** (1988), Associate Professor of Management Information Systems, B.S., M.B.A., Eastern Illinois University, Ph.D., University of Mississippi
- Carlile, Barbara J.** (1993), Lecturer of Education Coordinator, Field Placement for Education, B.A., Immaculate Heart College; M.Ed., Arizona State University; Ed.D., Northern Arizona University
- Carter, Wendy** 1997, Assistant Professor of Sociology B.A., Stanford University; M.S., Carnegie Mellon University, M.S., Ph.D., University of Wisconsin, Madison
- Chang, Stanley Y.** 1992, Associate Professor of Accountancy; B.B.A. National Taiwan University (Taiwan), M.A., University of Missouri; Ph.D., Texas Tech University
- Chavez, José G.** 2000, Assistant Professor of Spanish; B.A., M.A., California State University, Sacramento; Ph.D., Arizona State University
- Chisholm, Inés M.** 1991, Associate Professor of Bilingual Education, B.A., M.Ed., University of Puerto Rico, Ph.D., University of Florida
- Christie, Alice A.** 1995, Assistant Professor of Technology and Education; B.A. Denison University; M.Ed., Boston University, Ph.D., Arizona State University
- Cleland, Jo Ann V.** (1991), Associate Professor of Reading Language Arts; B.A., Saint Olaf College, M.A., Ed.D., Northern Arizona University
- Coles, Jerilyn W.** 1994, Assistant Professor of Management, B.S. Brigham Young University, Ph.D., University of Utah
- Collins, Kathleen** (1997), Assistant Librarian, B.A., University of Maine, Farmington M.L.I.S., Dalhousie University, Canada
- Collins-Chobanian, Shari C.** (1994), Associate Professor of Philosophy; B.A., Colorado State University, M.A. Ph.D., Washington University
- Corrigan, John A.** 1992, Professor of American Studies and Religious Studies, Director, Religious Studies Program, B.A. University of Dayton, M.A., Miami University, Ph.D., University of Chicago
- Costantino, James** (1998), Lecturer of Accountancy, B.S., M.Acc., Arizona State University, M.A., University of Southern California
- Cuádras, Gloria H.** (1994) Assistant Professor of American Studies, Director, Ethnic Studies Program, B.A., University of California, Santa Cruz M.A., Ph.D., University of California, Berkeley
- Cutrer, Emily E.** 1990, Associate Professor of American Studies; Dean, Division of Cooperative Programs, Interim Dean of Students; B.A., M.A. Ph.D., University of Texas, Austin
- Cutrer, Thomas W.** 1992, Professor of American Studies, B.A., M.A., Louisiana State University, Ph.D., University of Texas, Austin

## D

- D'Angelo, Barbara** 1999, Assistant Librarian B.A., Emmanuel College, M.S., University of Illinois Urbana-Champaign
- Dallmus, John T.** (2000), Lecturer of Accountancy, B.S., Towson University; M.B.A., Loyola College in Maryland
- Davidson, Ronald** (1997), Associate Professor of Accountancy, B.Comm., University of Manitoba (Canada), M.B.A., York University, Canada, Ph.D., University of Arizona
- De La Cruz, Yolanda** 1991, Associate Professor of Mathematics Education; B.A., M.A., California State University, Northridge; Ed.D., University of California, Berkeley
- Delgado, Fernando** 1994, Associate Professor of Communication Studies, Associate Vice Provost for Academic Programs and Graduate Studies B.A., San Jose State University, M.A., Ph.D., University of Iowa
- Di Mare, Lesley** 1992, Associate Professor of Communication Studies, Chair, Department of Communication Studies; B.A., California State University, Chico, M.A., California State University, Hayward, Ph.D., Indiana University, Bloomington
- Dix, Clarence L.** (1979), Senior Lecturer of Social Work; B.A., Buena Vista College, M.S.W., University of Chicago
- Duncan, William A.** 1991, Associate Professor of Accountancy; Director, Accountancy Program; B.S., Portland State University, Ph.D., University of Texas, Austin

## E

- Elenes, C. Alejandra** 1992, Associate Professor of Women's Studies Licenciada en Ciencias de la Información, University of Monterrey, Mexico; M.A., Ph.D., University of Wisconsin, Madison
- Erfani, Julie A. Murphy** (1989), Associate Professor of Political Science; B.A., Knox College, M.A., Ph.D., University of Minnesota-Twin Cities

## F

- Forest, Cynthia A.** 1994, Assistant Professor of Reading Education; B.S., University of Texas, Austin, M.Ed., Houston Baptist University; Ph.D., University of Texas, Austin
- Farrelly, Greg** 1991, Associate Librarian, B.A., Illinois State University; M.L.S., Rutgers, The State University of New Jersey
- Fedock, Patricia** (1993), Assistant Professor of Science Education; B.A., M.A., Ph.D., Arizona State University
- Feezor-Buttes, Barbara** 1995, Assistant Professor of American Studies, B.A., University of California-Berkeley, M.A., Ph.D., University of California-Los Angeles
- Firat, A. Fuat** 1990, Professor of Marketing, Licencié en Economie, Istanbul University-Turkey; Ph.D., Northwestern University
- Fitzpatrick, Tanya R.** 2000, Associate Professor of Social Work, B.A., Clark University, M.S.W., Simmons School of Social Work, Ph.D., Boston College
- Flint, G. David** (1998), Lecturer of Management, B.A., Grand Canyon University, M.I.M., American Graduate School of International Management, Ph.D., Texas A&M University
- Forster, Bruce A.** 2000, Professor of Economics; Dean, School of Management; B.A., University of Guelph (Canada), Ph.D., Australian National University, Australia

## G

- Gallegos, Bee** 1984 Associate Librarian B.S. University of North Alabama, M.L.S., George Peabody College for Teachers
- Garcia, Mildred** 1997), Professor of Social and Behavioral Sciences; Vice Provost for Academic Personnel; Associate Director, Hispanic Research Center; B.S., Bernard M. Baruch College; M.A., New York University; M.A., Ed.D., Columbia University
- Garrett, Judith N.** 1996, Assistant Professor of Early Childhood Education/Special Education, B.S. State University of New York Fredonia, M.A., University of Tennessee, Knoxville; Ph.D. George Mason University
- Georges-Abeyie, Daniel** 1992), Professor of Administration of Justice; B.A., Hope College; M.A., University of Connecticut; Ph.D., Syracuse University
- Gilkeson, John S.** 1991), Associate Professor of History, A.B., Amherst College; M.A. University of Oklahoma; Ph.D. Brown University
- Gitelson, Richard** (1994), Professor of Recreation and Tourism Management Chair, Department of Recreation and Tourism Management; B.A. M.A. M.S., University of North Carolina, Chapel Hill; Ph.D. Texas A&M University
- Glass, Ronald D.** 1996, Assistant Professor of Professional Counseling; B.A., Harvard College; M.A., Ph.D., Stanford University; Ed.M. Harvard University; C.Phil., University of California, Berkeley
- Gonzalez-Jensen, Margaret** 1994 Associate Professor of Bilateral Education; B.A. Our Lady of the Lake University; M.A. Ed.D., Texas A&M University
- Gopalakrishnan, Mohan** 1998 Associate Professor of Operations Production Management; B.E., College of Engineering India; M.S., Ph.D. University of Alabama at Tuscaloosa
- Graves, Joseph L.** 1994, Professor of Evolutionary Biology, A.B., Oberlin College; Ph.D., Wayne State University
- Greenhut, John G.** 1989, Associate Professor of Finance, Director Undergraduate Global Business Program; B.A., Ph.D., Texas A&M University
- Greenstein, Marilyn** 2000 Associate Professor of Accountancy; B.B.A., University of Houston; Ph.D., Temple University

- Medville, Karen K.** 1995, Assistant Research Scientist in Life Sciences, B.A., Colorado College; M.S., Colorado State University
- Mengesha, Astair Gebre Mariam** 1991, Associate Professor of Women's Studies; Chair, Women's Studies Program, B.A., Purdue University, M.A., Michigan State University; Ph.D., Iowa State University
- Meznar, Martin** 1994, Associate Professor of International Business, B.A., B.S., Bryan College; M.S., University of Texas, Dallas, Ph.D., University of South Carolina
- Midobuche, Eva** 1996, Assistant Professor of Bilingual Education; B.S., M.A., Ed.D., Texas A&M University
- Miller, Paul A.** (1988), Associate Professor of Psychology, Chair, Department of Social and Behavioral Sciences, B.S., Saint Vincent College, M.S., North Carolina State University, Raleigh, M.A., Ph.D., University of Texas, Austin
- Mizzi, Philip J.** 1988, Associate Professor of Economics; B.A., Rockford College; Ph.D., Texas A&M University
- Mohan, Srimathy** (1999), Visiting Assistant Professor of Operations Production Management, B.S., M.S., University of Alabama, Tuscaloosa; M.S., Massachusetts Institute of Technology, Ph.D., University of Montreal, Canada
- Montano, Henry** 2000, Instructor of Social Work, B.A., California State University, Northridge, M.S.W., University of California, Los Angeles
- Moore, David W.** 1989, Professor of Reading, B.A., M.Ed., University of Arizona; Ph.D., University of Georgia
- Moore, Harold E. Jr.** 1990, Lecturer of Administration of Justice, B.A., J.D., University of Denver
- Morris, Maureen** 1999, Assistant Librarian; B.A., M.L.I.S., University of Western Ontario, Canada
- Morris, Richard** (1999), Associate Professor of Communication Studies, B.A., San Jose State University; M.A., Ph.D., University of Wisconsin, Madison
- Moulton, Ian F.** 1995, Assistant Professor of British Literature; B.A., University of Manitoba, Winnipeg, Canada; M.A., University of Western Ontario (Canada); Ph.D., Columbia University
- Mueller, Carol M.** (1988), Professor of Sociology, B.A., University of California, Berkeley, M.A., Rutgers, The State University of New Jersey, Ph.D., Cornell University
- Muller, Barbara J.** (1991), Senior Lecturer of Accountancy; B.S., M.B.A., Arizona State University
- Myers, Marilyn** 1987, Associate Librarian, Interim Dean, ASU West Library; B.A., M.A., Kansas State University, M.S., University of Illinois

## N

**Nadesan, Majia H.** (1994), Associate Professor of Communication Studies; B.A., M.A., San Diego State University, Ph.D., Purdue University

**Nadir, P. Aneesah** (1994), Lecturer of Social Work; B.S.W., Adelphi University, M.S.W., Arizona State University

**Nahavandi, Afsaneh** (1989), Professor of Management, B.A., University of Denver, M.A., Ph.D., University of Utah

**Náñez, José E. Sr.** (1988), Associate Professor of Psychology, B.A., M.A., California State University; Ph.D., University of Minnesota, Twin Cities

**Nevin, Ann** (1991), Professor of Special Education, B.A., Westminster College; M.Ed., University of Vermont; Ph.D., University of Minnesota, Twin Cities

**Noronha, Gregory M.** (1995), Associate Professor of Finance; B.S.E., University of Michigan, M.B.A., Ph.D., Virginia Polytechnic Institute and State University

**Nucci, Christine** (1988), Assistant Professor of Early Childhood Education, B.A., Hunter College, City University of New York, M.S., Brooklyn College, City University of New York; Ph.D., City University of New York

## O

**O'Malley, Mary** (2000), Lecturer of Education, B.A., Indiana University, Bloomington; M.Ed., Arizona State University West

**Olander, George A.** (2000), Lecturer of Finance, B.S., Xavier University, M.B.A., Pepperdine University, D.B.A., United States International University

## P

**Painter, Suzanne R.** (1995), Assistant Professor of Educational Administration, B.S., Eastern Oregon State College, M.Ed., Ph.D., University of Oregon

**Pambuccian, Victor V.** (1994), Associate Professor of Mathematics, Baccalaureat, German Lyceum (Romania); M.S., University of Bucharest (Romania); Ph.D., University of Michigan

**Pecuch Herrero, Marta** (1994), Assistant Professor of Mathematics; M.S., Ph.D., University of Chicago

**Perry, Eleanor A.** (1996), Assistant Professor of Educational Administration, B.A., Douglas College, M.Ed., Rutgers, The State University of New Jersey, Ph.D., University of Oregon

**Persau, Linda** (1999), Lecturer of Integrative Studies, B.A., University of California, Davis; M.A., Ottawa University

**Pough, F. Harvey** (1993), Professor of Systems Ecology; Chair, Department of Life Sciences; B.A., Amherst College; M.A., Ph.D., University of California, Los Angeles

**Pulido, Alberto L.** (1993), Associate Professor of American Studies, Associate Vice Provost for Research and Faculty Development, B.A., University of California, San Diego; M.A., Ph.D., University of Notre Dame

## R

**Ragle, Gael L.** (1988), Senior Lecturer of Educational Psychology, B.S.Ed., M.A.Ed., Northern Arizona University, Ed.D., Arizona State University

**Ramsey, R. Eric** (1994), Associate Professor of Communication Studies, B.A., Rutgers, The State University of New Jersey, M.A., Ph.D., Purdue University

**Reese, Ruth** (1988), Senior Lecturer of Educational Psychology, B.S., University of Wisconsin, Madison, M.S., Ph.D., University of Wisconsin, Milwaukee

**Renne, Dianne** (2000), Lecturer of Education, B.S., M.S., University of Kansas, Ed.D., University of Kentucky

**Ridley, Dale Scott** (1990), Associate Professor of Educational Psychology, B.S., New Mexico State University, M.A., Ph.D., University of Texas, Austin

**Rillero, Peter** (1994), Assistant Professor of Science Education; B.A., State University of New York, Buffalo; M.A., Columbia University; Ph.D., Ohio State University

**Rodriguez, Nancy** (1998), Assistant Professor of Administration of Justice; B.S., Sam Houston University, Ph.D., Washington State University

**Ryan, Joseph M.** (1995), Professor of Education and Collaborative Programs, Director, Research Consultation Center, A.B., M.Ed., Boston College, Ph.D., University of Chicago

## S

**Sabatini, Arthur J.** (1991), Associate Professor of Performance Studies, B.A., M.A., Ohio University, Ph.D., New York University

**Saffo, Mary Beth** (1994), Professor of Physiology, B.A., University of California, Santa Cruz; Ph.D., Stanford University

**Schmidtke, Paul C.** (1998), Senior Lecturer of Integrative Studies, B.S., Rose-Hulman Institute of Technology, Ph.D., Ohio State University

**Schuett, Gordon W.** (1995), Assistant Professor of Integrative Biology; B.A., University of Toledo, M.S., Central Michigan University; Ph.D., University of Wyoming

**Searle, Mark S.** (1995), Professor of Recreation and Tourism Management, Dean, College of Human Services; B.A., University of Winnipeg (Canada), M.S., University of North Dakota; Ph.D., University of Maryland

**Sen, Nilanjan** (1992), Associate Professor of Finance, B.A., Jadavpur University (India); M.A., Ph.D., Virginia Polytechnic Institute

**Shaffer, Dennis M.** (2000), Assistant Professor of Social and Behavioral Sciences, B.S., Denison University; M.A., Ph.D., Kent State University

**Shirreffs, Janet H.** (1977), Professor of Recreation and Tourism Management, Director, Gerontology Program, B.S., Ithaca College, M.S., Syracuse University; Ph.D., Texas Woman's University

**Shome, Raka** (1999), Assistant Professor of Communication Studies, B.A., University of Calcutta (India); Ph.D., University of Georgia, Athens

**Silberman, Jonathan** (1992), Professor of Economics, B.S., Bowling Green State University, M.S., Ph.D., Florida State University

**Slotnick, Susan A.** (1998), Assistant Professor of Operations Production Management, A.B., Brandeis University, M.S., Carnegie Mellon University, M.A., M.Phil., Ph.D., Columbia University

**Solovey, Mark** (1996), Assistant Professor of History and Philosophy of Science, B.A., Rollins College, M.A., University of Wisconsin, Madison

**Sowell, Evelyn J.** (1990). Professor of Education, B.A., Howard Payne College; M.Ed., Wichita State University. Ed.D., Northern Illinois University

**St. Clair, Charles E.** 1991. Fine Arts Specialist, B.F.A. Fairmount Center for Creative and Performing Arts

**Stage, Sarah J.** 1994). Professor of Women's Studies. B.A., University of Iowa; M.A., University of Massachusetts, M.Phil., Ph.D., Yale University

**Stryker, Linda L.** (1987). Associate Professor of Astronomy; Chair, Department of Integrative Studies; B.A., Whittier College; B.A., M.S., San Diego State University, M.A., California State University, Los Angeles Ph.D. Yale University

**Sullivan, Brian K.** 1989. Associate Professor of Evolutionary Biology; B.A., University of California, Berkeley. Ph.D., Arizona State University

**Svoboda, William S.** (1969). Professor Emeritus of Education; B.S., M.S., Ed.D., University of Kansas

**Sweat, Ken Gunter** 2000. Lecturer of Life Sciences, B.A., Claremont McKenna College, M.S., Arizona State University

**Swenson, Daniel** 2000. Associate Professor of Accountancy B.A., Memphis State University; Ph.D., University of Mississippi

## T

**Taylor, Robert D.** (1996). Associate Professor of Theatre Performance; Chair, Department of Interdisciplinary Arts and Performance; B.A., Crewe and Alsager College, Manchester Metropolitan University (United Kingdom), M.A., University of Essex (United Kingdom); Ph.D., University of Kansas

**Toth, Stephen A.** 2000. Visiting Assistant Professor of History; B.A., B.S., University of Nebraska at Omaha, M.A., Arizona State University, Ph.D., Indiana University

## V

**Van Fleet, David D.** (1989). Professor of Management; Director, Master of Business Administration Program, B.S., Ph.D., University of Tennessee, Knoxville

**Vaughan, Suzanne** 1987. Associate Professor of Sociology, B.A., Roanoke College, M.A., University of New Mexico Ph.D. Ohio State University

**Vicedo, Marga** 1992. Associate Professor of Philosophy, B.A., M.A., Ph.D., University of Valencia (Spain)

**Vickrey, Don W.** 1992. Professor of Accountancy, B.B.A., University of Houston; M.B.A., Ph.D., University of Texas, Austin

**Villarreal, Mary Ann** (2000). Lecturer of History B.A., Mount Holyoke College

## W

**Waldman, David A.** (1995). Professor of Management, B.A., University of Kentucky, M.S., Ph.D., Colorado State University

**Waldron, Vincent R.** (1992). Associate Professor of Communication Studies, B.A., M.A., University of Arizona, Ph.D., Ohio State University

**Webb, Vincent J.** (1996). Professor of Administration of Justice; Chair, Department of Administration of Justice. B.A., University of Omaha, M.A., University of Nebraska, Omaha, Ph.D., Iowa State University

**Wertheimer, Eric H. R.** (1995). Assistant Professor of American Literature; B.A., Haverford College, M.A., Ph.D., University of Pennsylvania

**Wetzel, Keith** (1991). Associate Professor of Educational Technology, B.A., Greenville College, M.A., Goddard College, M.A., Ph.D., University of Oregon

**Williams, Jane** (1997). Assistant Professor of Special Education; B.A., Wittenberg University; M.A., University of Iowa; Ph.D., University of Maryland

**Wilson, Denward J.** (1989). Lecturer of Philosophy. B.A., Arizona State University

**Wise, John Macgregor** (1999). Assistant Professor of Communication Studies; B.A., Trinity University; M.A., Ph.D., University of Illinois, Urbana Champaign

**Wosinska, Wilhelmina** 1994. Senior Lecturer of Social Psychology, B.A., University of Warsaw (Poland), M.A., Ph.D., Jagiellonian University (Poland)

**Wu, Jianguo** (1995). Associate Professor of Ecosystem Ecology, B.S., University of Inner Mongolia (China); M.S., Ph.D., Miami University

## Y

**Yungbluth, Stephen C.** (2000). Lecturer of Communication Studies; B.A., Xavier University, M.A., Ph.D., University of Kentucky

## Z

**Zambo, Ronald W.** (1991). Associate Professor of Mathematics Education; B.S., Indiana University, Bloomington, M.A., Ph.D. University of South Florida

**Zorita, Paz Méndez-Bonito** (1993). Associate Professor of Social Work, A.S., School of Social Work of Gijón (Spain); M.S.S.A., Ph.D., Case Western Reserve University

## PURPOSE

The College of Extended Education was created in 1990 to extend the resources of ASU throughout Maricopa County, the state, and the region. The College of Extended Education is a university-wide college that oversees the ASU Extended Campus and forms partnerships with other ASU colleges to meet the instructional and informational needs of a diverse community.

For the most current information, visit the college's Web site at [www.asu.edu/xed](http://www.asu.edu/xed).

## ASU EXTENDED CAMPUS

The ASU Extended Campus goes beyond the boundaries of the university's three physical campuses to provide access to quality academic credit and degree programs for working adults through flexible schedules; a vast network of off-campus sites; classes scheduled days, evenings, and weekends; plus innovative delivery technologies including television, the Internet, and independent learning. The ASU Extended Campus also offers a variety of professional continuing education and community outreach programs.

## DEGREE PROGRAMS

ASU offers degree programs through the ASU Extended Campus. Convenient times and locations as well as today's innovative technologies make it easier for working adults and other nontraditional students to earn a degree. The College of Extended Education facilitates the delivery of these programs. All courses and degrees are offered through the respective university academic departments. These courses are published each fall and spring semester in the *Extended Campus Catalog* and in the *Schedule of Classes*. All degree programs offered through the college are shown in the "Baccalaureate Degrees and Majors Offered Through the College of Extended Education" table, page 685, and the "Graduate Degrees and Majors Offered in Collaboration with the College of Extended Education" table, page 686.

## Undergraduate Degrees

### OFF-CAMPUS DEGREE PROGRAMS

#### Interdisciplinary Studies—B.I.S.

**ASU Main.** This interdisciplinary degree completion program enables students to take an active role in creating their educational plan and defining their career goals. The program is offered for selected corporate and municipal employees. It emphasizes self-assessment and appraisal of

opportunities to support academic and career goals. For more information, call 480/965-9797 or write

COLLEGE OF EXTENDED EDUCATION  
ACADEMIC AND PROFESSIONAL PROGRAMS  
ARIZONA STATE UNIVERSITY  
PO BOX 874001  
TEMPE AZ 85287-4001

#### **Housing and Urban Development—B.S.D.**

**ASU Main.** The faculty in the School of Planning and Landscape Architecture in the College of Architecture and Environmental Design offer this degree primarily at the ASU Downtown Center, although some courses may be available at other locations and via cable television. See the fall and spring issues of the *Extended Campus Catalog* for complete scheduling information. For program information, call 480/965-7167 or write

SCHOOL OF PLANNING AND LANDSCAPE  
ARCHITECTURE  
ARIZONA STATE UNIVERSITY  
PO BOX 872005  
TEMPE AZ 85287-2005

#### **Elementary Education—B.A.E.**

**ASU Main.** This off-campus degree program is targeted to school district audiences. To learn more, call 480/965-1644.

#### **Social Work—B.S.W.**

**ASU Main.** The School of Social Work offers this degree in Tucson. This program is grant-funded for a five-year period and offers a part-time curriculum designed to increase the number of trained child welfare social workers in the rural areas of Arizona. For more information, call 520/884-5507, extension 19.

#### **Applied Science (B.A.S.) and Integrative Studies (B.A.)**

**ASU West.** Because of overlapping degree requirements and the flexibility built into each program, ASU West, working through the College of Extended Education, offers the same set of courses to meet the degree completion needs of students who bring differing educational experiences to the classroom. Thus, students who have completed an Associate of Applied Science (A.A.S.) degree could enroll in the B.A.S. degree program. Students entering the program with Associate of Arts (A.A.) degrees or some other combination of courses that totals 60 semester hours and encompasses the equivalent of the ASU General Studies requirement could receive the B.A. degree in Integrative Studies upon program completion. Both sets of students follow the same program of study.

Both degree programs emphasize focused study in critical thinking, communication, and leadership skills and include individual and team problem-solving experiences. Both include courses designed to refresh students' academic skills and to develop the resources to succeed in their educational pursuits.

Concentration areas, under the Bachelor of Applied Science (B.A.S.) at ASU West, are developed by the advisor and student based on educational goals and interests. The West Campus B.A.S. core curriculum is focused on the arts,

computers, writing, ethics, and career development. For more information on the West Campus B.A.S., call 602/543-4BAS or access the Web site at [www.west.asu.edu/bas](http://www.west.asu.edu/bas).

The Bachelor of Arts degree in Integrative Studies (B.A.) is an upper-division arts and sciences degree. Students are expected to read, write, and think critically which enables them to pursue postbaccalaureate employment, or graduate and professional degrees, in the broadest possible array of fields and specialization. This is a classical liberal arts degree, taught by interdisciplinary scholars in a student-oriented and lifelong learning fashion. Small classes and systematic assessment and feedback are defining characteristics of the program. Students complete 21 semester hours, including a gateway course in Adult Career Development; a capstone internship experience; and academic seminars in ethics, social and environmental theory; history and philosophy of sciences/mathematics; and multicultural perspectives on autobiographies, literature, and art. Students select one of the established minors or construct with a faculty advisor an area of academic concentration to complement the core curriculum with an additional 18 to 21 semester hours. For more information on the West Campus B.A., call 602/543-6000 or access the Web site at [www.west.asu.edu/iasweb](http://www.west.asu.edu/iasweb).

**ASU East.** Students holding an Associate of Applied Science (A.A.S.) degree from a regionally accredited community college can earn the Bachelor of Applied Science (B.A.S.) degree by completing 60 semester hours of upper-division course work through ASU East.

This degree is practical and flexible. ASU East faculty and advisors work with students to match a 60-semester-hour program of study to their individual interests and career goals, or students may select one of the concentrations shown in the "Baccalaureate Degrees and Majors Offered Through the College of Extended Education" table, page 685.

For more information, call 480/727-1874.

### **TECHNOLOGY-SUPPORTED DEGREE PROGRAMS**

#### **History—B.A.**

**ASU Main.** The faculty of the Department of History offer the B.A. degree completion program in History via technology. (Students are required to take two of the courses on campus in the evening.) For more information, call 480/965-8364.

### **ON-CAMPUS EVENING DEGREE PROGRAMS**

#### **CLAS Bachelor's Degree Programs**

**ASU Main.** Students who enroll in the College of Liberal Arts and Sciences (CLAS) evening degree program typically have completed 60 lower-division semester hours. They may pursue a Bachelor of Arts degree in English, History, Political Science, Sociology, or Psychology, or a Bachelor of Science degree in Political Science or Psychology. For more information, call 480/965-3986 and request "degree programs."

#### **Communication—B.A. or B.S.**

**ASU Main.** The faculty in the Hugh Downs School of Human Communication offer the B.A. and B.S. degrees in

**Baccalaureate Degrees and Majors Offered Through the College of Extended Education**

Major	Degree	Concentration	Administered By

Communication through the College of Extended Education's Evening Degree Program For more information, call 480/965 5095.

**Graduate Degrees**

**OFF-CAMPUS DEGREE PROGRAMS**

**Business Administration—M.B.A.**

**ASU Main.** The technology M.B.A. is an evening program designed specifically for technology professionals. The degree program is offered at the ASU Research Park. Cases, applications, and examples emphasize technology, global competition, and rapid organizational change For more information, call 480 965 3332

The evening M.B.A. is offered at the ASU Downtown Center. It is designed to meet the needs of working professionals and combines theoretical concepts with practical applications. For more information, call 480/965 3332

**ASU West.** The Scottsdale M.B.A. degree program meets in the Scottsdale Airpark in north Scottsdale. Classes emphasize the development of critical learning skills, with practical application in analyzing local industries. Students, faculty, and industry experts work together on projects for

local companies. The integrated curriculum provides a comprehensive understanding of interrelated business issues. For more information, call 602/543 6201.

**Public Administration—M.P.A.**

**ASU Main.** The School of Public Affairs offers this interdisciplinary program. The program is designed to provide professional training for careers in public administration and management. Opportunities for completing course work leading to the M.P.A. are offered during evening hours at ASU Main, the ASU Downtown Center, and various off campus sites. For more information, call 480 965 3926 or write

SCHOOL OF PUBLIC AFFAIRS  
ARIZONA STATE UNIVERSITY  
PO BOX 870603  
TEMPE AZ 85287 0603

**Curriculum and Instruction—M.Ed.**

**ASU Main.** The Master of Education degree in Curriculum and Instruction is offered with a concentration in secondary education. This is an off campus degree program targeted to school district audiences. For more information, call 480 965 1644.

### Graduate Degrees and Majors Offered in Collaboration with the College of Extended Education

Major	Degree	Concentration	Administered By
Business Administration	M.B.A.		College of Business (ASU Main) School of Management (ASU West)
Curriculum and Instruction Educational Administration and Supervision	M.Ed. Ed.D.	Secondary education	College of Education College of Education
Electrical Engineering	M.S.E.		College of Engineering and Applied Sciences
Engineering	M.E.		School of Engineering
Public Administration	M.P.A.	Public information management, public management, public policy analysis and evaluation, urban management and planning	School of Public Affairs

\* This collaborative program is offered by the three state universities

#### DELTA Doctorate

**ASU Main.** The DELTA Doctorate, which leads to the Doctor of Education degree in Educational Administration and Supervision, is available as an off-campus degree program. The program is targeted to qualified public school administrators. For more information, call 480 965 6357

#### TECHNOLOGY-DELIVERED DEGREE PROGRAMS

##### Electrical Engineering—M.S.E.

**ASU Main.** The faculty in the Department of Electrical Engineering offer the Master of Science in Engineering degree in Electrical Engineering via interactive television. This program meets the needs of the part-time student who is working full-time in industry. Ten graduate courses are required, six should constitute a major, two courses a minor, and two courses should be taken outside the Department of Electrical Engineering. After completing the required hours of course work, students in this program must pass a comprehensive examination covering topics in the major. Using the department's three-year schedule of courses, students are able to complete course requirements over the interactive television system. For more information, call 480 965 3590

##### Business Administration—M.B.A.

**ASU Main.** The ASU MBA Online program leverages computer and communications technologies to offer the highly ranked ASU M.B.A. to managers and professionals who do not wish to attend a traditional, on-campus program. The program consists of on-site sessions, asynchronous technology-based materials, and electronic communication among faculty and students. This two-year program consists of 24 four-semester-hour courses. For more information, call 480 965 3332

**ASU West.** The connectMBA from ASU West allows working professionals to complete a quality AACSB accredited M.B.A. without weekly attendance on campus. Course delivery combines classroom instruction (every seventh weekend) with self-paced, computer-assisted learning. The two-year program consists of 15 three-semester-hour courses. For more information, access the Web site at [www.west.asu.edu/som/mba](http://www.west.asu.edu/som/mba).

#### ENGINEERING—M.E.

**ASU Main.** The tri-university Master of Engineering degree program is intended to meet the educational needs of Arizona's practicing engineers. With industry input, Arizona's three state universities—Arizona State University, Northern Arizona University, and University of Arizona enhance the skills, knowledge, and understanding that are critical to today's practicing engineers. The courses are offered through a variety of distance delivery methods in flexible formats at any of the three universities.

The M.E. degree offers the practicing engineer opportunities to design, in conjunction with an advisory committee, a program of study that can reflect the increasingly interdisciplinary nature of engineering practice. The M.E. degree requires the completion of 30 semester hours of course work; students must complete a minimum of three hours in applied engineering mathematics as well as three hours of engineering management/business. Up to six semester hours from a practice-oriented project may be applied. A final examination is required.

For application information, call 480 965 1726, send e-mail to [m.eng@asu.edu](mailto:m.eng@asu.edu), or access the program's Web site at [truniv.engr.arizona.edu](http://truniv.engr.arizona.edu)

#### ON-CAMPUS EVENING DEGREE PROGRAM

##### Public Administration—M.P.A.

**ASU Main.** The School of Public Affairs offers this interdisciplinary program. The program is designed to provide professional training for careers in public administration and management. Opportunities for completing course work leading to the M.P.A. are offered during evening hours at ASU Main, the ASU Downtown Center, and various off-campus sites. For more information, call 480/965 3926 or write

SCHOOL OF PUBLIC AFFAIRS  
ARIZONA STATE UNIVERSITY  
PO BOX 870603  
TEMPE AZ 85287 0603

#### WINTER SESSION (MAIN)

The College of Extended Education schedules the winter session courses in collaboration with academic departments.

The condensed, three-week session is offered between the fall and spring semesters. For more information about winter session, call 480 965 9797

## Certificate Programs

Certificate programs provide opportunities for those seeking to advance their careers, to begin a new career, to reenter the workplace, or simply to develop new knowledge. A practical choice for career development, certificate programs are recognized by employers as evidence of professional skill or accomplishment.

### Business English Certificate Program

Designed to help international students and professionals succeed in the world of business, this new program offers five courses that use reading, writing, and discussion exercises to gain practical knowledge of and confidence in American and international business practices. Once students successfully complete three certificate courses, they earn a Business English Certificate. If they wish to complete all five classes, they earn an Advanced Business English Certificate. The program's courses are international business, business decisions, business writing, business communications, and TOEIC test preparation. Classes are ongoing and meet several hours a week for eight weeks. For more information, call the American English and Culture Program at 480 965 2376.

This certificate is not for academic credit.

### English as a Second Language Certificate

The American English and Culture Program offers a certificate in the study of English as a second language (ESL), comprising 21 hours a week for eight weeks of language and culture training.

This certificate is not for academic credit.

### Gerontology Certificate Program

The Certificate in Gerontology, offered by the Graduate College, is available to graduate students enrolled in master's or doctoral degree programs in disciplines such as communication, exercise science, nursing, psychology, social work, and sociology. Unclassified graduate students may pursue the certificate. This program consists of 24 semester hours evenly divided between required and elective course work.

The Gerontology Program has an affiliated faculty of more than 60 members based in 22 different departments throughout the university. Students can work on independent study or participate with faculty in their aging related research.

Because of increased longevity, there could be more than 30 million Americans over the age of 85 by 2040, a demographic change with many ramifications. The certificate is designed for individuals interested in learning more about the aging process. For more information, call 480 965 3225 (ASU Main) or 602 543 6642 (ASU West).

### Human Performance Improvement Certificate Program

The Human Performance Improvement Certificate Program is offered by the College of Extended Education and the American Society of Training and Development. This program is designed to provide a well rounded understanding of the human performance improvement field for those

in a human resource capacity. Individuals can receive a Human Performance Improvement Certificate after completing the six courses of the program or may elect to enroll in one or more classes on a per class basis. For more information, call 480 965 9200.

This certificate is not for academic credit.

### Nonprofit Management Certificate Program

The Nonprofit Management Institute is offered by the College of Extended Education and the United Way. This program is designed to enhance the management skills of those who serve nonprofit human services groups, hospitals, government agencies, churches, private schools, art organizations, environmental groups, and others in the nonprofit sector.

Individuals can receive a Certificate in Nonprofit Management along with 13 Continuing Education Units after completing 130 hours of the program. The individual class option permits participants to enroll in one or more classes on a per class basis. Additional full and half-day workshops are also provided to help those in the nonprofit sector achieve excellence in managing nonprofit organizations. For more information, call 480 965 9200.

This certificate is not for academic credit.

## College Units by Program Area

### Degree Programs and Credit Courses

The College of Extended Education facilitates the delivery of several degree programs and credit courses. Convenient times and locations as well as today's innovative technologies make it easier for working adults and other nontraditional students to earn a degree. All courses and degrees are offered through the respective university academic departments. These courses are published each fall and spring semester in the *Extended Campus Catalog* and the *Schedule of Classes*.

**Academic and Professional Programs.** As a convenience to students, courses are conducted off campus in locations throughout the state, and on campus in the evening and during the winter session.

Academic credits earned off campus are recorded on a student's permanent record in the same manner as those earned on campus and are equivalent in all academic considerations. All academic standards of the university, including policies related to admission and registration, apply to off campus courses. It is the responsibility of the student to be aware of all applicable policies before registering. It is the responsibility of each dean to determine what courses to offer off campus and to make faculty assignments.

The tuition and fees for off campus credit courses are the same as for those offered on campus. (See resident and non resident rates in the latest *Schedule of Classes*.) Before the 21st calendar day of each semester, any combination of on campus and off campus resident credit courses resulting in a combined registration of seven or more semester hours requires that the student pay full time tuition. Off campus credit courses and programs that commence on or after the 21st calendar day of the start of each semester require full time and part time students to pay tuition separate from (but in addition to) those courses starting before the 21st calendar day of the semester.

Professional continuing education activities focus on professional and personal development as well as lifelong learning. Programs are planned and developed to complement the missions of the college and the university. These programs can be customized and transported to reach numerous target populations and levels of need.

**Distance Learning Technology.** Distance Learning Technology uses a variety of technologies. Semester based courses are offered through Instructional Television Fixed Service, cable television, public television, satellite, microwave, videotape, and the Internet. In addition, independent learning courses are offered (print or Internet based). Distance Learning Technology makes it possible for many people to access and share educational resources locally, regionally, nationally, and internationally through a variety of electronic technologies and distribution systems. In addition to distance learning courses, other products and services are available, including teleconferencing and video production.

Many students are unable to attend class on campus due to schedule or commuting difficulties and prefer to participate in distance learning courses at convenient locations such as the work site or home. The distance learning course schedule consists of approximately 135 courses offered by various ASU colleges each semester, and these courses are available for credit at a variety of remote locations, including students' homes. Students participating in televised courses from the work site or home can interact with faculty and students in the classroom on campus while class is in session via teleconferencing technology. Videotapes of most courses are available through University Libraries Video Resources. Other student support services are available to assist off campus students.

**Cable/Public Television.** ASU offers credit courses that require students to view televised class sessions and complete work assignments at home. Exams usually are held on campus. Courses are available throughout the Phoenix area via KAET Channel 8, Cox Communications, Insight Cable, Cable America, Digital Choice TV, and other cable providers. Televised courses are also available in university residence halls.

**Interactive Instructional Television Program (IITP).** Students employed by companies participating in the IITP may take courses for credit at the work site. A daily courier service circulates course materials between faculty on campus and their students at remote sites. Exams typically are held at the work site. Each company has an on-site coordinator to assist with registration, to provide information, and to proctor exams. A Master of Science in Engineering degree with a major in Electrical Engineering is available through the IITP. More information about the degree is available from the College of Engineering and Applied Sciences at 480 965 6738.

**Interactive Television (Public Sites)** Certain sites are open to the public. Students can participate in most televised courses at locations such as ASU Downtown Center, ASU East, ASU West, select community college campuses, Cactus Shadows High School, and the Gila River Indian Community. Each public site has an on-site coordinator to assist with registration, to provide information, and to proctor exams.

**Internet Courses.** ASUonline is the university's gateway to an "online campus." Internet courses are offered by various departments through ASU Extended Campus, allowing students to participate from any location in the world. Through the Web, students can access lectures, participate in class assignments, interact with the instructor, collaborate with other students, and earn ASU credit at convenient times and locations. Students register for Internet courses through the normal university admissions and registration process. Certain computer hardware and software may be required for Internet courses. For more information about Distance Learning Technology, call 480/965 6738, or access the Web site at [asuonline.asu.edu](http://asuonline.asu.edu).

**Independent Learning.** These courses allow students to pursue ASU credit and to fulfill degree requirements or to enhance occupational, professional, and intellectual skills. Independent Learning courses are appropriate for students seeking flexibility in progressing through university courses. Any individual with a high school diploma or GED may enroll; however, enrollment in Independent Learning is not the same as admission to ASU. For ASU degree seeking students, enrollment in these courses requires an advisor's and dean's approval. Generally, ASU students may take one course at a time—other students can participate in two. A maximum of 60 semester hours earned by independent learning and/or by comprehensive examination may be applied toward the baccalaureate degree at ASU. Independent Learning courses are not applicable toward graduate credit, and pass/fail options are not available. Students have up to one year to complete courses. More information on registration, lesson formats, submission of assignments, correspondence with instructors, and other course details is available in a catalog from the Independent Learning office, at 480 965 6563.

### Professional Continuing Education

Academic and Professional Programs provides professional continuing education programs throughout the Phoenix metropolitan area. These ongoing programs are intended to improve professional competence and address current issues and trends, and are offered to adult learners in collaboration with ASU colleges, other educational providers, professional associations, and public and private organizations. In addition, the Elderhostel Program, a series of challenging, thought provoking college level courses, is offered to people over 55. For more information, call 480 965 9200.

The Nonprofit Management Institute is offered by the College of Extended Education and the Valley of the Sun United Way. This program is designed to enhance the management skills of those who serve nonprofit human services groups, hospitals, government agencies, churches, private schools, art organizations, environmental groups, and others in the nonprofit sector. For more information, see "Nonprofit Management Certificate Program," page 687, or call 480 965-9200.

For more information about Academic and Professional Programs, call 480/965 9797.

### Global and Community Outreach

**American English and Culture Program.** The American English and Culture Program (AECIP) features an intensive course of study designed for adult international students who want to become proficient in English as a second language.

guage for academic, professional, or personal reasons. Applicants must be at least 18 years of age and must have a high school diploma or its equivalent. All conditions of the U S Immigration and Naturalization laws pertaining to full time study in the United States must be met by all applicants. Students are required to take an English placement test before the beginning of classes. Certificates of achievement are awarded on completion of the course. Admission to the program does not constitute regular admission to ASU.

Beginning, intermediate, and advanced courses provide instruction in listening, reading, speaking, structure, and writing. Academic advising and orientation to Arizona and the United States are integral parts of the program.

Program wide social activities each cycle include a field trip, a picnic, a cultural activity, visits to museums, historical sites, or musical presentations. Campus housing and American Homestays are available.

Advanced level students may be permitted to enroll concurrently in up to two ASU credit classes with the approval of the director. Several special classes are offered through the AECF. Classes in conversation, speech improvement, and the Test of English as a Foreign Language are offered during alternate terms.

The fall and spring semesters are divided into two eight week cycles. Students may enroll for one or more cycles. An eight-week summer session of study is also offered. Inquiries concerning admission requirements, enrollment, and fee schedules should be sent to

AMERICAN ENGLISH AND CULTURE PROGRAM

ARIZONA STATE UNIVERSITY  
PO BOX 873504  
TEMPE AZ 85287-3504

For more information, call 480/965 2376

**Extended Campus Programs.** Extended Campus Programs was established in response to the rapidly expanding demand for educational services in Maricopa County and throughout Arizona. Analyzing community needs for course offerings, workshops and seminars, the unit oversees the planning, organizing, and staffing necessary to satisfy these educational needs.

A primary goal of this unit is to ensure that qualified students have access to effective, appropriate university programs. Extended Campus Programs focuses on developing and maintaining education, business, government, professional, and community links to further the university's and college's missions.

The major components of Extended Campus Programs are the classes and events at the ASU Downtown Center and emerging programs in the east Valley, Scottsdale, and Ahwatukee. For more information, call 480 965-3046

**ASU Downtown Center.** The ASU Downtown Center is a university wide resource located in downtown Phoenix that serves as an educational, applied research, and community service facility.

Responding to the needs of business, industry, and state and local governments, the center offers traditional and interdisciplinary upper division and graduate level courses. The center also offers professional and continuing education

programs, lectures, and community forums, and serves as a meeting location for conferences, workshops and seminars.

ASU faculty, staff, and students may take advantage of the center's computer lab. A lab assistant is available during posted hours. Faculty, staff, and students also can access the ASU library online catalog and ASU library information and resources. Library books may be ordered and returned through the center. Textbooks for all courses held at the center are available at one of the ASU libraries usually at the beginning of each semester.

Accommodations for small or large meetings or conferences are available at attractive rates and can include beverages, food service, and professional equipment. Meeting rooms include conference rooms, a board room, and two computer classrooms. Most meeting rooms can be configured in a variety of styles and setups. In addition, break out areas are conveniently located throughout the facilities. Advice in logistics planning is available as are a wide range of related services. The center is available for use by outside organizations, subject to the limits of university policies and procedures. Contact the center's facility scheduler for details.

For more information about the programs and services provided at the center, call 480 965 3046 or write

ASU DOWNTOWN CENTER  
502 E MONROE ST  
PHOENIX AZ 85004 2337

Several ASU programs and partnerships are located at the ASU Downtown Center.

*Academic and Professional Programs.* As part of ASU Extended Campus and the College of Extended Education, Academic and Professional Programs brings the resources of ASU to many who may not be pursuing a traditional degree but are seeking professional and personal enrichment. See "Academic and Professional Programs," page 687, for a description.

*Joint Urban Design Program.* The Joint Urban Design Program, located in the ASU Downtown Center, is a partnership between the Colleges of Architecture and Environmental Design and Extended Education. The program directs institutional and public resources toward developing an understanding of issues that affect the urban quality of Phoenix. For more information, call 480 727 5146.

*Urban Data Center.* The Urban Data Center, a partnership with the College of Public Programs, serves as a resource for analysis and implementation of public policy in the Phoenix metropolitan area. The center works closely with ASU researchers and organizations such as the Joint Urban Design Program, the Morrison Institute for Public Policy, University Libraries, local governments, state agencies, and other independent organizations to build a comprehensive database on policy issues for urban planners and community leaders. For more information, call 480 965 3046.

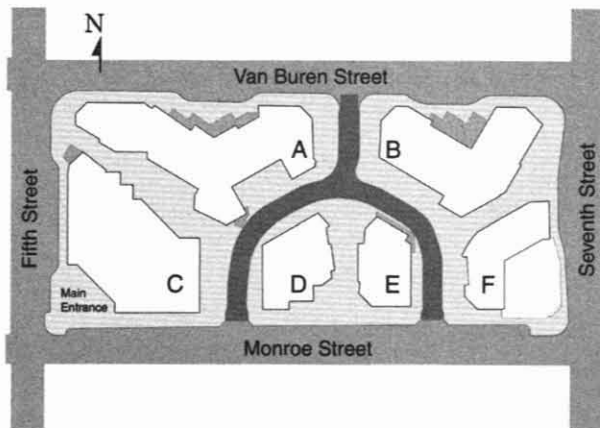

*Advanced Public Executive Program.* The Advanced Public Executive Program of the College of Public Programs is housed at the ASU Downtown Center. This program is designed to provide public managers and administrators with analytical approaches and skills through short courses and seminars to help mobilize ideas, people, and resources in support of public programs. For more information, call 480 965 4006.

*Office of Youth Preparation and Project PRIME.* The Office of Youth Preparation and Project PRIME (Project to Improve Minority Education) are housed at the Downtown Center with evaluation support services located at the Hispanic Research Center. The programs are designed to increase the pool of college-eligible minority students, who have historically been underrepresented in higher education, by providing instructional and support services to seventh-through 12th-grade students and their families at targeted Arizona schools. For more information, call 480/965-8510.

*Arizona Drug and Gang Prevention Resource Center.* The Arizona Drug and Gang Prevention Resource Center serves as a centralized source for individuals, schools, and communities throughout Arizona to support, enhance, and initiate prevention efforts.

For information about planning, mobilizing, training, and evaluating community prevention efforts, call the center at 480/727-2772.

# Accreditation and Affiliation

**ASU Main and ASU East.** Arizona State University Main is accredited by the North Central Association (NCA) Commission on Institutions of Higher Education. Arizona State University East is recognized by the NCA as a full service campus and is accredited under the ASU Main umbrella. Programs in the various colleges, schools, divisions, and departments are accredited by, affiliated with, or members of national bodies as described in the "Academic Accreditation at ASU Main and East" table, on this page; "Academic Affiliation" table, page 694; and "Academic Membership" table, page 695. Some programs in the College of Education are approved by the State Board of Education (Arizona) and the National Association of School Psychologists.

**ASU West.** ASU West is separately accredited by the NCA Commission on Institutions of Higher Education. Professional programs in the various academic areas are accredited by national bodies as described in the "Academic Accreditation at ASU West" table, page 694.

## Academic Accreditation at ASU Main and East

Unit or Program	Accredited By
<b>College of Architecture and Environmental Design</b>	
B.S.D., Interior Design	Foundation for Interior Design Education Research
B.S.L.A.	Landscape Architectural Accreditation Board

# ASU Main Map

- P** Parking structure
- P** Surface parking lot

Building abbreviations, which are used throughout the catalog and shown on page 720, are used to label buildings on this map.

**Front Cover**

(from top left to bottom right)  
 Matthews Center is home to various campus programs, including Disability Resources for Students and the student newspaper, *The State Press*.  
 College of Architecture and Environmental Design students enjoy attractive classrooms, buildings, and a terrace.  
 Palo Verde East, part of the Palo Verde Complex, houses a classroom, computer lab, and tutoring center in addition to living spaces for ASU freshmen.  
 The Student Services Building provides many study areas for students, such as this balcony. Also located in the building are several offices, including Student Financial Assistance, Undergraduate Admissions, and Residential Life.  
 The ASU Moon Devil Team came in second place at the Sixth Annual Great Moon Buggy Race held at the U.S. Space and Rocket Center

in Huntsville, Alabama. Each year students from various majors participate (pictured: a Geography major, an Art major, and an Aerospace Engineering major). Students can find a quiet place to study together at the Life Sciences cactus garden.

**Back Cover**

(clockwise from top)  
 The view atop Wilson Hall provides a grand perspective of the Hayden Library entrance, Hayden Lawn, "A" Mountain, and Sun Devil Stadium.  
 The Life Sciences bridge is an example of how ASU uses bold architectural elements to complement gardens and parks in Arizona's largest urban arboretum.  
 Members of the MAVRIC program – supported by the ASU Unsteady Wind Tunnel research team, ASU NASA Space Grant, and Lockheed-Sanders – display their models of autonomous flight vehicles.

**Above**

(clockwise from top)  
 The Tempe Town Lake, walking distance from campus, is a perfect place to study and relax. A student-run radio station on campus, KASR, provides practical work experience for Broadcasting and Journalism majors.  
 The ASU Main campus provides many inviting outdoor areas to study, relax, or just read a paper.  
 Sitting on the steps of the light well, above Hayden Library's entrance, students enjoy a sunny day of studying.
