Important Information for 2014

This list is for informational purposes only and lists important information or major changes that have occurred since publication of the last hunt draw booklet. Individuals should thoroughly read and understand the appropriate regulations prior to submitting an application or going afield. The current Arizona Hunting and Trapping Regulations can be found at www.azgfd.gov, or at any Department office or license dealer.

New License and Tag Structure and Fees New hunting and fishing license structure and fees go into effect Jan. 1, 2014. For more information, **see pages 6–7.**

Boquillas-Diamond A Ranch (Unit 10) Boquillas-Diamond A Ranch in Unit 10 has implemented new Ranch Rules and a mandatory permitting process which includes an impact fee for all hunting activities within the ranch boundaries. The Boquillas-Diamond A Ranch encompasses the entire western half of Unit 10, about 720,000 acres. If planning to hunt the Boquillas-Diamond A Ranch portion of Unit 10, hunters are advised to visit the Ranch's website: www.HuntBigBoRanch.com.

Paper Correction Period Eliminated Due to decreasing participation in the paper application process and the availability of the online application system that virtually prevents applicants from making application errors, the Commission has eliminated the paper correction period starting with the 2014 spring draw. If you use the online system, you are required to pay the application fee as well as any purchased licenses fees at the time of application. Once the draw takes place, and IF you are successfully drawn, the Department will charge the credit or debit card you have on file for the permit fee. If payment fails, the Department will make three attempts within two business days to contact you and notify you that your payment has been declined. You will then be afforded a means of providing alternative payment within a specified timeframe. If the Department has not received an alternate payment at the end of that specified timeframe, applicants will be rejected. No exceptions will be made for individuals who do not respond to the Department's attempts to contact them. Deadline for updating credit or debit card information online is 11:59 p.m. (MST) Sunday, March 9, 2014.

Camp Navajo Hunts Camp Navajo in Unit 6B is open to antelope and elk hunting only to properly licensed hunters who meet the qualifications as "Authorized Participants" according to Camp Navajo's hunting policies outlined on the Arizona National Guard Website. Applications for these hunts must be submitted to the Arizona Game and Fish Department by the published deadline. Hunters must visit the Arizona National Guard Website and read Camp Navajo's policies and security requirements in order to have access to Camp Navajo hunt numbers: www.azguard.gov/campnavajo.htm. An applicant who applies for a category of permit for which he or she is not eligible may not be authorized to participate in the hunt. All hunters are required to show proof of attendance in a hunter safety education course during paperwork submission for the Camp Navajo permit. Increases in Force Protection Conditions, training missions, and industrial operations may result in partial or complete hunt cancellation at any time with little or no prior notification. In the event a hunt is cancelled hunters drawn for these permits will not be reimbursed or otherwise compensated by the Arizona Game and Fish Department or Camp Navajo.

National Forest System Lands In the last three years the Coconino National Forest and Kaibab National Forest established new restrictions on motor vehicle use. Other Forests such as the Prescott National Forest and Coronado National Forest have had these rules in place for several years; whereas the Tonto and Apache-Sitgreaves National Forests are currently involved in planning processes, in which you can now participate. These rules require motor vehicles to stay on designated roads, trails, and areas as shown on a free Motor Vehicle Use Map. It is likely the motor vehicle use rules may affect where you can drive to camp and whether you can drive off-road for purposes of big game retrieval. Motor Vehicle Use Maps are free to the public and available at each Forest Service office and electronically on smartphone and mobile devices. The map is updated every year. Please know before you go by picking up a free Motor Vehicle Use Map or download the smartphone or mobile device app prior to hunting on the national forests. See phone numbers on page 98 of the 2013-14 Arizona Hunting Regulations.

License Information

Who Can Go?

Everyone needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags, or stamps. Neither a Short-term Combination Hunting and Fishing License nor an Apprentice Hunting License is valid for big game.

Beginning Jan. 1, 2014, youth ages 10–17 must purchase a Youth Combination Hunting and Fishing license. The license fee will be \$5.

A person under 10 may hunt wildlife other than big game without a license only when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.

No one under the age of 14 may hunt big game without having completed a Hunter Education Course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10 to 13 years of age must have in their possession a valid hunt or combination hunt and fish license, a valid Hunter Education Course completion card, plus any required permit-tags or nonpermit-tags.

Where to Buy Licenses

Arizona hunting licenses may be purchased online at www.azgfd.gov. If you purchase a license online, **you must print the license from your home printer**. The Arizona Game and Fish Department will not mail your license to you. Licenses also can be obtained from any license dealer or Arizona Game and Fish Department office (see locations on page 2 of this booklet).

If you are applying for a big game permit-tag or bonus points on a paper application, you may purchase your general hunt (available for residents only) or combination hunt and fish license while you are entering your application for the draw. The license will not be issued and mailed until the draw is complete.

Lifetime License Holders

If a lifetime license holder changes residency status from Arizona, the licensee must then purchase non-resident stamps, tags, and permits. A non-resident tag or stamp can accompany your lifetime resident license. If you are a lifetime license holder who has moved out of state, the 10 percent non-resident cap does not apply to you. The lifetime license will remain legal for the taking of all wildlife as permitted by law.

Residency may be re-established after moving back to Arizona and meeting the required time period as defined below.

Residency Requirements

“Resident” means a person who is domiciled (claims the state of Arizona as their true, fixed and permanent home and principal residence) in this state for six months immediately preceding the date of application for a license, permit, tag, or stamp and does not claim residency for any purpose in another state or jurisdiction; or is a member of the armed forces of the United States on active duty and stationed in: (i) This state for a period of thirty days immediately preceding the date of applying for a license, permit, tag, or stamp; (ii) Another state or country but who lists this state as their home of record at the time of applying for a license, permit, tag, or stamp.

Arizona Residents may purchase a resident license. All other individuals must purchase a non-resident license.

Apprentice License

Resident licensed hunters are able to obtain a free Apprentice Hunting License valid for two days for use when mentoring a new hunter. This affords new hunters the opportunity to “try before you buy,” under the supervision of a licensed hunter.

An apprentice hunting license is valid for two consecutive days when the apprentice is accompanied in the field by a mentor. An apprentice hunting license is valid for the taking of small game, fur-bearing animals, predatory animals, nongame animals, nongame birds, and upland game birds. Any required stamps must be purchased in addition to obtaining an Apprentice License. An apprentice may be a resident or non-resident and may only be licensed pursuant to this paragraph once per calendar year. A mentor must be a domiciled resident of this state who is at least 18 years of age and must possess an annual hunting or combination license or a complimentary or lifetime license. A mentor may apply for no more than two apprentice hunting licenses per calendar year. When applying for an apprentice license, the mentor must name the person he or she will be taking afield.

High Achievement Scout License

The High Achievement Scout License license is offered to a resident youth who has attained either the rank of Eagle Scout (Boy Scout) or

received a Gold Award (Girl Scout). The fee for the reduced license is \$5. The applicant must present proof of their rank or award by providing their certification letter, wallet card, or award certificate at any Department office, and complete the High Achievement Scout License application (Form 306, available on the Department website or at any Department office). This license is not available through the draw. At the age of 21, an Eagle Scout or Gold Award recipient is no longer eligible for the High Achievement Scout License license, and from that point forward would be required to purchase an adult license.

Lost License or Tag Replacement

Lost licenses, hunt permit-tags, and nonpermit-tags may be replaced for a \$4 fee at any Arizona Game and Fish Department license dealer. Duplicate licenses can be purchased online. Consult R12-4-103 Duplicate Tags and Licenses for additional information. Stamps cannot be replaced, they must be repurchased.

Physically Challenged Hunters

Those hunters who are physically challenged may qualify for a Challenged Hunter Access/Mobility Permit (CHAMP). Consult R12-4-217 for information about this permit (page 123 of the 2013-14 Arizona Hunting Regulations). Contact any Arizona Game and Fish Department office for additional information and application.

Non-US Citizens Wanting to Hunt in Arizona

Pursuant to regulations by the U.S. Bureau of Alcohol, Tobacco and Firearms (ATF), non-immigrant aliens who want to temporarily import firearms and/or ammunition into the United States for the allowable purpose of taking wildlife will need an ATF import permit and valid hunting license in possession at the time of entry/import into the United States. For further information or to make application for the import permit, contact ATF's Firearms and Explosives Import Branch at (304) 616-4550, or download an application from the ATF website at www.atf.gov.

Tag Transfers

Under Arizona Revised Statutes and Arizona Game and Fish Commission Rules there are ways people can transfer big game tags to minor children. A \$4 transfer fee applies.

A parent, grandparent or legal guardian holding

License Information

a big game tag may allow the use of that tag by their minor child or minor grandchild pursuant to the following requirements:

- The minor child is 10 to 17 years old on the date of transfer;
- The minor child has a valid hunting or combination license on the date of transfer;
- A minor child less than 14 years old has satisfactorily completed a Department-approved hunter education course by the beginning date of the hunt;
- Any grandparent, parent or the child's

guardian must accompany the child in the field, and must be within 50 yards of the child when the animal is taken.

Once a tag is transferred at a Department office, the original permittee may no longer use it.

Should you be unable to use your big game permit, the Department is unable to reimburse you for your fees or reinstate your bonus points. However, you may donate your tag to a nonprofit organization that provides hunting opportunities to children with life-threatening

medical conditions or qualifying permanent physical disabilities. The \$4 transfer fee does not apply to nonprofit organizations. You may contact the following organizations to arrange for a donation. Consult A.R.S. 17-332 for more information, or visit www.azgfd.gov.

Thank You Hunters and Recreational Shooters

Arizona's rich outdoor heritage is enjoyed by all – thanks to hunters like you, whose purchase of hunting and recreational shooting equipment supports wildlife management and habitat enhancement in the Grand Canyon State. When you purchase a rifle, ammunition, archery equipment, and other sporting gear, you pay a federal excise tax and import duties.

Since 1937, this money has been collected by the federal government and

redistributed to the states using a formula based on hunting license sales and the state's land area. In 2013, that meant more than \$13.2 million for game management in Arizona. This money paid for game surveys, hunter education classes, wildlife water catchment construction, wildlife research and shooting range development and operations, among other projects.

Hunters like you are part of the largest and most successful wildlife conservation programs in the world...thank you.

Great Outdoors, Great Value

Arizona's 2014 Hunting and Fishing Licenses

Some exciting changes are coming to Arizona hunting and fishing licenses beginning Jan. 1, 2014. A new license and fee structure will be easier for customers and offer more value. Benefits of the new licenses include:

- **A simplified structure.** The former structure of more than 40 license and stamp options is reduced to six license options and a single migratory bird stamp.
- **Bundled privileges for better value.** Most licenses will have bundled privileges offering more value. For example, the General Fishing license will now include the privileges of the former Class A general fishing license, plus privileges for trout, two-pole and Community Fishing (no need to buy separate stamps or licenses for those privileges). The license is also planned to include fishing privileges for Arizona's shared Colorado River waters with California and Nevada, dependent on agreements currently under negotiation with those states. The Combination Hunt and Fish license will also include the privileges of the new General Fishing license, along with the privileges of the General Hunting license.
- **Valid for one year.** Licenses (other than the Short-term) will be valid for one year from the date of purchase instead of just for the calendar year.
- **Youth Combination Hunt and Fish license for only \$5.** The Youth Combination Hunt and Fish license will cost only \$5 (as opposed to the current \$26.50) and will be required for youth ages 10-17.
- **Short-term Combination Hunt and Fish license.** This may be purchased for any single day or for multiple days. The purchaser picks the date(s) of validity at the time of purchase. If purchased for multiple days, the days need not be consecutive.
- **Single State Migratory Bird Stamp.** The only state stamp that will be required is the Arizona Migratory Bird Stamp, which is required (along with your hunting license) for the taking of migratory birds (such as doves, band-tailed pigeons), including wa-

terfowl (such as ducks, geese). Keep in mind that individuals ages 16 and older who wish to hunt waterfowl will still be required under federal law to also purchase the Federal Migratory Bird Hunting Stamp (i.e., Federal Duck Stamp).

Other Information

- The Big Game Tag structure will stay the same, but most tag prices will increase. This is the first increase in tag prices since 2007. None of the tag prices exceed the previously authorized statutory cap that existed prior to enactment of SB 1223. See the new tag fees on the next page.
- The application fee for the big game draw and first-come permits will be increased to \$13 for residents (\$3 of which will be dedicated to habitat, public access and recruitment/retention efforts) and \$15 for nonresidents (\$5 of which will be dedicated to habitat, public access and recruitment/retention efforts). The Unit 12A (North Kaibab) Habitat Management Stamp will no longer be required for Unit 12A deer hunters.

Draw Information

The Draw

When the number of hunt permits for a species in a particular area must be limited to prevent over-harvest of wildlife, the Commission Order governing seasons for that species assigns a hunt number to a designated area, and a hunt permit-tag is required to take that species in that area. Hunt permit-tags are issued through a computerized random drawing. Big game tags not issued through the drawing process are nonpermit-tags.

Qualifications

Individuals wishing to participate in a drawing or to obtain bonus points must apply online or in writing using the Hunt Permit-tag Application Form, and submit the form by the deadline specified in the Hunt Permit-tag Application Schedule found in the current year's hunt regulations (page 12).

An applicant must possess a license (including lifetime, pioneer or disabled veteran's) that is valid on the last day of the application deadline for that draw. **Youth applying for big game hunts must be licensed.** If an applicant does not have a license that meets that requirement, he or she must purchase the license at the time of application. An applicant must submit the information and fees required for a license on **each** paper application submitted. Only one license will be issued. License refunds will be made for additional applications. Licenses will not be issued until the draw occurs.

Applying for a Hunt

The online application service will be available early to mid-January please see page 10 or visit azgfd.gov/draw for more information.

Paper applications for hunt permit-tags must be made on Hunt Permit-tag Application Forms available at Department offices, website, and license dealers. Please use the current year's application form, that is WHITE in color. **Do not cut or alter application form.** Applications not prepared in a legible manner may be deemed not valid and shall be rejected as specified in R12-4-104(O). Use standard blue or black ink (no gel ink).

No more than four people may apply on one application in one envelope. All applicants in a group must apply for the same hunt number(s) and in the same order of preference on the same form.

No person, including juniors, may submit more than one valid application per genus of wildlife in any calendar year, except as specified in R12-4-104(L), when genera are drawn in multiple drawings; however the annual bag limit still applies.

Each applicant shall complete only one block per application.

No more than one genus may be included on each Hunt Permit-tag Application Form. **Use a separate form, payment and envelope for each genus of wildlife you wish to hunt. More than one (1) application in an envelope may result in rejection of all applications.** You can list a general hunt as your first choice and another weapon type hunt for the same genus as another choice on the same application—just be sure they are in the same numerical series. Use only one application per genus, even if you are mixing weapon choices.

Hunt Permit, Bonus Points Disclaimer

The issuance of any big game permit has no express or implied guarantee or warranty of hunter success. Any person holding a valid permit assumes the risk that circumstances beyond the control of the Arizona Game and Fish Department may prevent the permit holder from using the permit. In such situations, the Arizona Game and Fish Department disclaims any responsibility to reissue or replace a permit, to reinstate bonus points or to refund any fees, except under specific circumstances, such as activation of military or emergency personnel, as stated in R12-4-107(L).

Fees

Information about fees associated with the online draw process may be found on page 10.

When submitting paper applications, each applicant shall enclose the following fees:

1. The fee for the appropriate hunt permit-tag, which includes the permit application fee.
2. Fee for a hunting or combination hunt and fish license, if a license is requested. Be sure to enclose license fees on **each** application, if required, for each person who is applying on the application for a license. Only one license will be issued per person.
3. **Discounted hunt permit-tag fees are**

for "Juniors-Only" designated hunts. A youth must pay the higher fee unless applying only for "Juniors-Only" hunts.

Each payment enclosed with a hunt permit-tag application shall be made by certified check, cashier's check, money order, or personal check or draft payable to the Arizona Game and Fish Department. Cash will not be accepted and will result in rejection.

One personal check or money order can cover all fees for each application, or separate checks or money orders may be submitted in one envelope for each individual applicant.

The permit and license fees are specified in the fee schedule on page 7. The hunt permit-tag fees on page 7 include the non-refundable application fee.

Submitting Applications

The online application service will be available in early to mid-January. Please check the Department's website or sign up for free e-newsletters for regular updates. You can register for e-news at www.azgfd.gov/signup.

Attention online applicants: Deadline for updating your credit or debit card information online is 11:59 p.m. (MST) Sunday, March 9, 2014.

If any applicant in a group is rejected for any reason, all other applicants in that group will also be rejected and no bonus points will be awarded.

No hunt permit-tag will be issued to anyone in a group if there are not sufficient hunt permit-tags available for all applicants in that group.

Hunt permit-tags will be mailed to each successful applicant.

What if I'm not Drawn?

Please use one of the methods (Internet or telephone) listed on this page to access draw results. These methods of access shall serve as the official notification of draw results.

Over-payments and hunt permit-tag fees received with unsuccessful applications will be returned to applicant "A," as shown on the Hunt Permit-tag Application Form. Application and license fees will not be refunded. You will not be issued more than one license and a refund of any remaining fees will be issued.

If you or a member of your group elected to donate your fees or a portion thereof, the donation will not be refunded.

If an application is rejected and a license has

been requested, the license will not be issued. The license fee will be refunded, however, the application fee will not be refunded.

Unsuccessful, valid applications will be awarded bonus points.

Big game hunt permit-tags remaining after the drawing will be issued on a first-come, first-served basis as specified in the hunt permit-tag application schedule on page 12.

First-come permit-tag results are not posted. You will receive your tag in the mail within 10-15 business days.

Obtaining a Bonus Point Only

In the event you do not wish to participate in a big game drawing for species offered in this draw, but still wish to accumulate bonus points for these genera, you may "obtain a bonus point."

When completing your application, you must choose the bonus point hunt number established for that genus as your first choice. A bonus point hunt number is established within each applicable Commission Order. If you choose this hunt number, you may not choose any other hunt number on your application. **If the bonus point hunt number is any choice other than the first choice or any other hunt numbers appear on the application, your application will be rejected.** You may obtain only one bonus point per genus per drawing.

To obtain a bonus point, the individual must be 10 years old by the deadline date

as specified in the hunt permit-tag application schedule on page 12.

To obtain a bonus point, you must have previously purchased a hunting license or apply for a hunting license through the draw for the year in which the hunt will take place. You must also include the application fee per applicant. If applying for a bonus point, you will not receive a refund on the license fee or the application fee. Do not include the fee for the hunt permit-tag for the genus in which you are applying for the bonus point. **A bonus point costs you only the license fee (if needed) and the application fee per applicant. See page 7 for license fees.**

If applying for more than one species for bonus points, you must complete a separate application for each species. Only a single application and the correct fees may be included in one envelope.

If you apply for a bonus point only using the established bonus point hunt number, you may **NOT** submit another application for the same genus. To do so will cause both applications to be rejected as duplicate applications.

All applicants in a group must apply for the same established bonus point hunt number. The application will not be included in the random number drawing and the individual(s) on the application will each receive a bonus point for that genus.

How to Apply for the Draw

The online application will be available early to mid-January.

How to Submit an Online Application

You will be able to apply for big game hunts and bonus points online at www.azgfd.gov prior to the deadline. There are many advantages in submitting an online application. By using the online method, you can meet deadlines without mailing applications or traveling to a Department office to drop off applications. The possibility of your application being rejected is drastically reduced due to the fact that the online application program will prompt you to accurately complete your application.

Additionally, at the time of application you will only have to pay for the application fee, the license fee (if you do not possess a license that is valid on the last day of the application deadline for that draw) and any donations you might wish to make to the Big Game Habitat Fund. If you purchase a hunting or fishing license online, **you must print the license from your home printer.** The Arizona Game and Fish Department will not mail your license to you. Hunt permit-tag fees will be charged after the drawing is completed only if you are successful in the draw. This eliminates the requirement to pay your tag fees in advance and/or issue a refund if you are not successful in the draw. Costs are identical to the paper application process. No additional fees are charged for using the online application.

If you are applying for a bonus point, you are charged only the application fee and the license fee (if needed). When applying for a hunt, you must have a license valid through deadline day of that draw. If drawn for a hunt permit-tag, you must also have a valid license at the time of the hunt. A valid credit or debit card (Visa or MasterCard) must be used when applying online.

Please be aware that if you are successful in the draw and the credit or debit card used for the application is not approved for the

amount of the required fees for the tag payment after the draw, your application may be rejected. Once the draw takes place, and IF you are successfully drawn, the Department will charge the credit or debit card you have on file for the permit fee. If payment fails, the Department will make three attempts within two business days to contact you and notify you that payment has been declined. You will then be afforded a means of providing alternative payment within a specified timeframe. If the Department has not received an alternate payment at the end of that specified timeframe, applicants will be rejected. No exceptions will be made for individuals who do not respond to the Department's attempts to contact them. Deadline for updating credit or debit card information online is 11:59 p.m. (MST) Sunday, March 9, 2013.

Applicants are encouraged to keep their credit or debit card information up to date, if your card becomes invalid for any reason before the credit card update deadline, update your information online for each species you applied for by selecting the "update my payment information" option and providing the required information. Please note that the Department is not responsible for any over draft charge incurred due to insufficient funds.

To apply online, simply log on to the Arizona Game and Fish Department Web site at azgfd.gov, place the cursor on "Big Game Draw" located on the green bar on the main Web page and follow the step-by-step instructions. You will have 45 minutes to complete your online application. We recommend you have your hunter list and hunt choices completed with all the required information for each hunter prior to logging on to apply.

Completing Your Paper Hunt Permit-tag Application Form

If you choose not to participate in the online application, you must correctly fill out and sign a paper hunt permit-tag application form and submit it by mail or drop it off to any of the seven Arizona Game and Fish Department offices along with a check or money order for the correct amount. Paper application forms are available at all Department offices, more than 300 license dealers statewide, and as a downloadable PDF electronic document from the Department's website at www.azgfd.gov/draw. A list of dealers can be found on the Department's website. The PDF form can be printed from your computer and then filled out using an ink pen. Once the form has been correctly filled out, it must be signed and submitted by mail or dropped off at any Department office along with a check or money order for the correct amount.

R12-4-104 and R12-4-114 explain application and drawing procedures in detail. Complete and proper preparation of an application is the sole responsibility of the applicant. If any applicant in the group fails to complete any required portion of the application, all applicants in the group will be rejected.

Numbered paragraphs correspond to numbers

circled on the SAMPLE form. Use it to assist you in completing your form, which can be found online, at any license dealer or Department office.

1 Enter the hunt number(s) of the hunt(s) in which you wish to participate. The hunt number will indicate the genus (deer, turkey, etc.) and area you want to hunt. **Do not use the Game Management Unit Number.** Hunt numbers are listed in the far left column of each Commission Order. Deer hunts are in the 1000 series, turkey hunts are in the 4000 series, etc. All hunt numbers on an application must be in the same series. **YOU CANNOT MIX HUNT SERIES NUMBERS, BUT YOU CAN MIX WEAPON TYPES WITHIN A SERIES.** You must submit a separate application for each genus (series). No more than five hunt choices can be requested. You may request fewer. You do not have to fill in all the blocks. You may only apply for either a bonus point or a valid hunt number for any genus, NOT both.

2 Enter your correct date of birth (mm/dd/yyyy).

3 Enter your Social Security Number. In accordance with Federal Requirement, 42 U.S.C. Section 666 (A)(13) and A.R.S. 25-320 (P) and 25-502 (K), all

applicants – including youth – **must** provide their valid Social Security Number in the space provided. This is kept on file with the Arizona Department of Economic Security for use in identifying and tracking child support offenders. Any invalid SSN will result in rejection of the application. If you are not a U.S. citizen you must write "NOT US CITIZ" in the Social Security field. If you are not a U.S. citizen, you must obtain a Department I.D. Number prior to submitting and enter it on the application. See #6. You may obtain a Department issued ID number by calling (602) 942-3000 during business hours.

4 Check the appropriate resident or non-resident box. "Resident" means a person who is domiciled (claims the state of Arizona as their true, fixed and permanent home and principal residence) in this state for six months immediately preceding the date of application for a license, permit, tag, or stamp and does not claim residency for any purpose in another state or jurisdiction. Or is a member of the armed forces of the United States on active duty and stationed in: (i) This state for a period of thirty days immediately preceding the date of applying for a license, permit, tag, or stamp; (ii) Another

How to Apply for the Draw

state or country but who lists this state as their home of record at the time of applying for a license, permit, tag, or stamp.

5 Enter your valid Arizona hunting license number for the year in which the hunt for which you are applying occurs. The hunting license number consists of two letters and six numbers. You may purchase a license through the draw by completing the License Application Form at the bottom of the application and submitting payment with each of your applications if you are not licensed.

6 Enter your Department I.D. Number (formerly called Sportsman I.D.). This number is for those individuals who choose to use a Department issued I.D. Number instead of a social security number to track bonus points or for non-U.S. citizens. This is a permanent number and is to be used on all hunt applications. Your I.D. Number (if different from SSN) is vital to track your bonus points and to ensure that you receive the proper credits. Using a different number may result in your not receiving proper bonus point credits. An I.D. Number may be obtained by calling the Department. You must still provide a valid SSN even if you provide a valid Department I.D. Number. See #3.

7 Enter your correct full name (last name first), your P.O. Box or home mailing address, city, state and zip code.

8 Please list a telephone number where you can be reached. You are not required to enter your telephone number.

9 Each individual applying, or an appointed individual, must sign the appropriate application section.

COMPLETE 10-16 ONLY IF APPLYING FOR A LICENSE.

10 Enter M for Male, F for Female.

11 Enter your weight in pounds.

12 Enter your height in feet and inches.

13 Enter the appropriate abbreviation for hair color:

- BLD - Bald
- BLN - Blonde
- BLK - Black
- BRN - Brown

17 Enter the amount you wish to donate in this block. This donation will be subtracted from your refund if you are eligible for a refund.

Motorized Big Game Retrieval on National Forest Lands

All national forests are undergoing or have recently completed travel management planning, which will result in changes to motor vehicle access on national forest lands. National forests that have made a decision implementing the travel management rule (<http://www.fs.fed.us/recreation/programs/ohv/final.pdf>) only allow motorized use on designated roads, trails and areas as identified on a free Motor Vehicle Use Map (MVUM). These maps are available for free at Forest Service offices and electronically on smartphone and mobile devices.

The new travel management rules include restrictions on driving cross-country for game retrieval. The Coronado National Forest and Prescott National Forest have made a decision implementing the new travel management rules and have released MVUM maps; motorized big game retrieval off the designated road system is not allowed on either Forest. The Kaibab National

Forest and the Coconino National Forest have also recently established new travel management rules and published MVUMs. Both Forests only allow for cross-country motorized retrieval of elk, the North Kaibab Ranger District also allows off-road motorized travel for retrieval of bison. Motorized retrieval of all other species including deer is not permitted. The Coconino National Forest has restricted motorized retrieval of elk to Game Management Units 6A, 6B and 7, and 8.

Other national forests including the Apache-Sitgreaves National Forests and Tonto National Forest are engaged in travel management planning and have not yet issued decisions. If you have a permit to hunt in a Game Management Unit that includes one or more national forests, please contact the appropriate national forest(s) for updated information relative to motor vehicle use and motorized big game retrieval, before your hunt starts.

Applications for these hunts must be submitted to the Arizona Game and Fish Department by the published deadline. Hunters must visit the Arizona National Guard Website and read Camp Navajo's policies and security requirements in order to have access to Camp Navajo hunt numbers: www.azguard.gov/campnavajo.htm. An applicant who applies for a category of permit for which he or she is not eligible may not be authorized to participate in the hunt. All hunters are required to show proof of attendance in a hunter safety education course during paperwork submission for the Camp Navajo permit. Increases in Force Protection Conditions, training missions, and industrial operations may result in partial or complete hunt cancellation at any time with little or no prior notification. In the event a hunt is cancelled hunters drawn for these permits will not be reimbursed or otherwise compensated by the Arizona Game and Fish Department or Camp Navajo.

When weather is deemed severe, the core roads may also be closed to prevent excessive road damage, provide for public safety, and protect natural resources. Roads that have been closed are closed to all users. Hunters should respect and obey road closures and drive responsibly during wet periods. It is recommended that hunters contact the appropriate Forest Service office to determine current road status for their hunt area (see the Index: Hunting on Public Lands).

Hunters can Help Monitor Arizona Elk Health – Submit Elk Heads for CWD Testing

Bring the head of your recently harvested elk to any Game and Fish

Department office between 8 a.m. and 5 p.m., Monday through Friday (office addresses are listed on page 2). Department personnel will collect a tissue sample for Chronic Wasting Disease (CWD) testing. Hunters that are successful in Units 1, 2, 3, 4, 27 and 28 are especially encouraged to submit heads because these units are close to New Mexico, a state with infected deer and elk.

It is best if the head has been kept cool and is submitted within a day of harvest. The head may be placed in a garbage bag for delivery. You will be asked to provide information on approximately where the animal was harvested (within your unit) and where you can be reached (phone number) in case the test is

positive. No CWD has been detected in Arizona's deer or elk to date.

CWD results can be found here:
<http://azgfdservices.com/cwdlogin.aspx>
Keep CWD out of Arizona

To protect Arizona's deer and elk herds from Chronic Wasting Disease, new regulations have been placed on movement of animal parts into the state.

Hunters are required to take these precautions when hunting deer or elk out-of-state (effective July 1, 2013):

- Do not bring the brain, intact skull, or spinal column into Arizona.

The following elk or deer parts harvested out-of-state are OK to bring back into Arizona:

- Boneless portions of meat, or meat that has been cut and packaged;
- Clean hides and capes with no skull or soft tissue attached;
- Antlers, clean skull plates or skulls with antlers attached with no meat or soft tissue remaining;
- Finished taxidermy mounts or products; and
- Upper canine teeth (buglers, whistlers, ivories) with no meat or tissue attached.

CWD is present in the neighboring states of Utah, Colorado, and New Mexico, as well as many other popular hunting destinations for deer and elk. Some states have strict regulations governing carcass movement, so we encourage you to contact the wildlife agency where you travel for any applicable regulations.

Hunt Success for 2013 seasons was not available at the time printing; 2012 hunt success is provided where available.

Lead and Wildlife

Know the facts and make your own choice

- Lead is a naturally occurring element in the environment and has many beneficial uses. However, it is a known toxin and has been removed from many consumer products like pipes, paint and gasoline.
- Lead has been used in the manufacture of ammunition and fishing tackle for centuries because of its unique properties, availability, performance, and ease and low cost to manufacture.
- Spent ammunition, lost fishing tackle and lead fragments in carcasses and gut piles can be ingested by wildlife. In some cases, these lead sources can cause illness or death in individual animals.
- Birds are the most susceptible to lead toxicity, and population-level effects have been documented in waterfowl and California condors.
- State fish and wildlife agencies have primary responsibility for managing fish and wildlife resources and use the best science to implement focused management solutions when population effects are documented. Educating the public about wildlife issues is part of their mission.
- Hunters and anglers have been the primary supporters of wildlife conservation in North

America since the early 1900s. Collaboration with industry, conservation organizations and shooting-sports interests is also essential to ensuring continued protection of our wildlife resources and conservation heritage.

- Non-lead ammunition and fishing tackle alternatives are becoming more widely available and reasonably priced. Using non-lead alternatives can prevent lead poisoning of individual wildlife and may offer better performance.
- Hunters who choose to use lead ammunition can still help to reduce lead poisoning in scavenging animals by removing the entire game carcass from the field.

Availability

Non-lead ammo alternatives are available for big game, varmint and small game hunting. Non-fragmenting solid copper or copper alloy bullets are now loaded in most hunting calibers. Highly frangible non-lead varmint bullets (compressed copper or tin powder) are available in both centerfire and rimfire cartridges. Non-lead shot (steel, tungsten, and bismuth) is also available.

To learn more about lead and wildlife, visit www.azgfd.gov/lead.

X-ray of prairie dog (top), coyote (center) and a deer (bottom) gut pile. All contain lead bullet fragments that could be ingested by wildlife.

What hunting magazines and Arizona hunters say about solid copper bullets:

"I was very impressed with the bullet's performance, the buck literally dropped in its tracks." – *Kaibab deer hunter*

"Accurate, zero bloodshot, no wasted game meat." – *Kaibab deer hunter*

"I've never seen deadlier performance on game." – *Safari Club International article*

"While their terminal performance is the stuff of legend, they are also capable of remarkable accuracy." – *American Rifleman article*

Eagles and other raptors feed on game remains and ingest lead shot and bullet fragments. Doves and waterfowl are known to pick up lead shot in the field.

Supplemental (Population Management) Hunts and Hunter Pool

Beginning in 2003-2004, the Arizona Game and Fish Department established Population Management Hunts and the Hunter Pool. AGFD Wildlife Managers found that previous hunt strategies designed to manage some wildlife populations were not meeting objectives. When regular hunt seasons don't meet management objectives, conflicts between wildlife and other uses of the land can occur. Population management hunts are designed to allow the Department to achieve supplemental harvests of wildlife when traditional harvest strategies have not met their objectives. Population management hunts will enhance the Department's ability to meet population and habitat management objectives.

The following information is important to know if you are planning on applying for a population management hunt.

- Population management hunts may occur as necessary, under the provisions of R12-4-115 (refer to the current Hunting and Trapping Regulations).
- The Population Management Seasons Commission Order 26 approved by the Commission designates the range of species, season dates, open areas, legal wildlife, lawful taking methods, and maximum tag numbers for population management hunts to be prescribed by the Director and implemented under R12-4-115.
- When a population management hunt is found to be necessary, as prescribed in R12-4-115, hunters will be selected from the hunter pool made up of hunter pool applicants (see application below).
- The hunter pool list will be purged by the Department Dec. 31, 2014. You may apply at any time during the year (note: do not include the hunter pool hunt application form with a hunt permit-tag application—you must apply separately. See application below for instructions).
- To complete your application, you must designate the species of animal(s) you desire to hunt and the weapon type(s). You must also submit a \$13 application fee (residents) or a \$15 application fee (non-residents) (note: one application fee per application—not per species). Please do not send cash.
- You may designate more than one species and weapon type on the application form. If you choose to designate more than one species and weapon type on your hunter pool application, your name will be included in the hunter pool for each species and weapon type you designate. This means that you may be eligible to participate in a population management hunt for more than one species or method of take each year (note: annual bag limits apply to all population management hunts and may limit your ability to participate in a population management hunt or regular season hunt).
- If you participate in a population management hunt and fill your annual bag limit for that species, you may not participate in a regular hunting season for that species even if you are drawn through the normal draw process (note: A.R.S. 17-332.(E). prohibits the issuing of a refund for the purchase of a license or a permit).
- If your application is selected during a random drawing for a population management hunt, the Department will attempt to contact you three times by telephone within a 24-hour period. If you cannot be contacted within 24 hours, your application will be returned to the hunter pool for inclusion in future population management hunts during that same year.
- If you are offered a restricted non-permit tag for a population management hunt, pursuant to R12-4-115, you may decline to participate. If you decline to participate, your application will be returned to the hunter pool for inclusion in future population management hunts during that year (note: if you agree to participate in a population management hunt but fail to purchase your tag within the timeframe designated when you are contacted, you will not be eligible for further population management hunts that year).
- If you elect to participate in a population management hunt, it is probable that you will be asked to arrive in the field to hunt within a few days of being contacted (note: purchase of restricted nonpermit-tag and applicable hunting license prior to hunting is required).
- Restricted non-permit tags issued through the hunter pool may be purchased through the Department's Phoenix office. See the front of the hunting regulations booklet for the address and phone number.
- You will not gain or lose bonus points when you apply for, or participate in, a population management hunt.

Form may be photocopied.

**Do not include this form with a Hunt Permit-tag Application Form
(See R12-4-115 in the current hunting and trapping regulation booklet)**

Have you:

- Filled in all the blanks?
- Enclosed the \$13 (residents) or \$15 (non-residents) application fee?
- Signed your application?
- Indicated your choice of species?

ATTENTION SPORTSMEN: Wolves, Jaguars and Ocelots may be Encountered in Arizona

Know your animal

Sportsmen may encounter wolves, jaguars or ocelots while engaged in outdoor activities. All three species are listed as endangered in the United States under the Endangered Species Act (Act), and Take, which under federal law means “to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct” is generally unlawful and may subject you to federal and state prosecution. Criminal penalties may include imprisonment of not more than one year and a fine of up to \$50,000 and/or a civil penalty of up to \$25,000. You are responsible for identifying your target before shooting.

Once hunters are aware that they or their dogs are in pursuit of a jaguar or ocelot, they should stop the pursuit immediately. Dogs, if present, should be called off immediately. Sportsmen should let the animal leave the area and take all necessary steps to not intentionally harass or pursue the animal. Wolves, jaguars and ocelots that have been trapped and cannot be safely released should be reported to the Arizona Game and Fish Department immediately.

Jaguar tracks are similar to mountain lion tracks. The front feet of jaguars are

larger than the hind feet (both pads and toes). Typically, jaguar tracks have rounder toes and shorter pad height than mountain lions. Overall, jaguar tracks tend to be wider than those of mountain lions (measuring up to six inches). There is considerable overlap in size between the two species however and their tracks are often difficult to distinguish. Scats are also similar.

The Department asks sportsmen to contact its 24-hour dispatch at (623) 236-7201 **immediately** if a jaguar or ocelot encounter is believed to represent a threat to either the animal or public safety. All other sightings should be reported at the same number as soon as possible, providing location and a description of any physical evidence that may be available. You also may send sighting information (location, physical description and photographs) to rarewlsightings@azgfd.gov.

The Arizona Houndsmen have offered a reward of up to \$5,000 to any individual who provides information leading to the arrest and conviction of any person who intentionally kills a jaguar. If you believe that you have witnessed a violation, please notify Game and Fish Department (Operation Game Thief) at 1 (800) 352-0700.

ATTENTION SPORTSMEN: Wolves, Jaguars and Ocelots may be Encountered in Arizona

Mexican Wolves in Arizona

During the past several years, many wolves have been illegally shot in Arizona and New Mexico, causing significant setbacks to the Blue Range reintroduction project. It is possible that some of these shootings were cases of mistaken identity, where the shooter believed the target was a coyote. It can be difficult to distinguish wolves from coyotes, especially when the sighting is brief, the animal is far away, if it's a juvenile wolf, or a wolf in its summer coat. Coyote hunters should exercise extra caution from July to November because wolf pups are active, and their appearance and behavior make them appear like coyotes. You are responsible for identifying your target before shooting.

If you are hunting in or near Unit 1 or 27, or near the United States/Mexico border east of Nogales, please be aware that Mexican wolves may be present. Mexican wolves are protected under the Endangered Species Act (Act). Take, which means "to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct," is generally unlawful, and may subject you to federal and state prosecution. Criminal penalties may include imprisonment of not more than one year and a fine of up to \$50,000 and/or a civil penalty of up to \$25,000.

Helping wolves and humans coexist

The gray wolf (*Canis lupus*) is classified as an endangered species in Arizona and New Mexico except between Interstate Highway 10 and Interstate Highway 40. Between these two highways, the wolf is classified as a non-essential, experimental population under section 10(j) of the Act (see map).

All wolves in Arizona are protected, and outside of specific exceptions contained in the 10(j) rule pertaining to the non-essential experimental zone, you may only kill a wolf in defense of human life. If you kill a wolf, you must report it to the U.S. Fish and Wildlife Service within 24 hours.

Ways to avoid wolf conflicts

Wolves normally avoid human contact. Like all wildlife, they can be curious and could become habituated to humans. This is especially true if when camping, people feed wolves (or leave dog food out at night).

If a wolf should approach you, raise your arms and look as big as possible. Yell or throw rocks to scare it away. Back away slowly – never run.

Some other tips

- Keep a clean camp.
- Prepare and store food and wash dishes away from sleeping areas.
- Properly store garbage in camp and dispose of trash in predator-proof receptacle.
- Keep pets close to you. Do not leave them unattended or allow to run free.
- Never feed wildlife – including wolves.
