Synopsis of federal regulations applicable to migratory bird hunting

WEAPON - Migratory game birds may be taken only with a 10 gauge or smaller shotgun capable of holding not more than three shells. Birds may also be taken by falconry or by bow and arrow, or crossbow.

MOTOR-VEHICLE RESTRICTION - No person may take migratory game birds from any motor-driven vehicle, including aircraft. Special regulations govern handicapped hunters.

WATERCRAFT RESTRICTIONS - Waterfowl may be hunted from a watercraft (except a sinkbox) including those propelled by motor, sail and wind, or both when the motor has been completely shut off and/or the sails furled and its progress therefrom has ceased. The watercraft may be drifting as a result of current or wind action on the hull, beached or moored, resting at anchor, or may be propelled by paddle, oars or pole. A watercraft under power may be used to retrieve dead or crippled waterfowl but no shooting is permitted while the watercraft is underway. It is illegal to drive or rally game birds toward hunters by use of any motor-driven conveyance or sail boat.

DECOYS, CALLS AND BAITING - Migratory birds may not be taken with the aid of live decoys, recorded bird calls or electronically amplified bird calls. It is illegal to take birds by the aid of baiting or on or over a baited area where a person knows or reasonably should know that the area is or has been baited. A baited area is considered to be baited for 10 days after complete removal of any bait. Baiting includes placing, exposing, depositing, distributing or scattering of salt, grain, or other feed that could serve as a lure or attraction for migratory game birds to, on, or over areas where hunters are attempting to take them.

RETRIEVAL AND TAGGING - All birds downed shall be retrieved if possible, and retained in the custody of the hunter in the field. Crippled birds must be killed immediately. Any birds given to or left with another person must be tagged by the hunter with a tag showing the hunter's name, address, the number and species of birds, and the dates they were killed. Packages in which migratory game birds are shipped must show the names of the sender and receiver, and the number and species of birds contained in the parcel.

BAG LIMIT - No person may, during any one day take more than one daily bag limit or possess more than one daily bag limit in the field, or while returning to the car, hunting camp or home. One feathered wing must be left attached to all migratory game birds until they reach their final destination.

IMPORTATION - For information regarding the importation of migratory game birds killed in another country, hunters should consult federal regulations (50CFR 20.61 through 20.66). One fully feathered wing must remain attached to all migratory game birds being transported between the port of entry and the hunter's home or to a migratory bird preservation facility. No person shall import any migratory game birds from any country except Canada unless such birds are dressed (except as required above), drawn and the head and feet are removed. No person shall import migratory game birds belonging to another person.

SEASON AND HOURS - No person may take migratory game birds during closed season. Migratory game birds may be taken only during hours open to hunting.

Changes from last year

The opening and closing dates have changed from last year for most seasons. Last year Arizona had a 60 day restricted pintail and canvasback season in each zone. We still have 60 day canvasback seasons, but hunters can now shoot 1 pintail per day whenever the regular duck season is open in each zone. Last year the daily bag/possession on scaup was 4 per day, 8 in possession. This year scaup bag and possession has been reduced to 3 and 6, respectively. White goose bag was 3 per day with 3 in possession last year. That has changed this year and hunters can now harvest 4 white geese and possess 8. Also, there was a complication in the goose regulations in past years that allowed hunters twice the daily bag for possession only along the lower Colorado River; possession in the rest of the state was the same as bag for all geese. This year possession is twice the bag statewide. Hunters can now possess up to 6 dark geese and 8 white geese.

Monuments and military areas

The Grand Canyon-Parashant, Vermilion Cliffs, Sonoran Desert, Ironwood Forest, and Agua Fria National Monuments are open to hunting. The Navajo Army Depot in Unit 6B is open to hunting only to properly licensed members of the Arizona National Guard and Navajo Army Depot civilian personnel holding a valid Navajo Army Depot hunting permit. Season dates and regulations must be obtained from the Arizona National Guard. The Fort Huachuca Army Garrison in Unit 35A is open to hunting only to properly licensed military and Fort Huachuca civilian personnel holding a valid Fort Huachuca post hunting permit. Season dates and special regulations must be obtained from Fort Huachuca.

One feathered wing

Sportsmen should note that one feathered wing (or head for sandhill crane only) must be left attached to all migratory game birds until they reach their final destination.

Nontoxic shot

Possession of lead shot, including plated lead, is prohibited while hunting waterfowl (ducks, geese, coots, mergansers, and common moorhens). NON-TOXIC shot is required for all waterfowl hunting in Arizona. NON-TOXIC shot includes steel, bismuth, tungsten/iron, tungsten/polymer, tungsten-nickel-iron, tungsten matrix shot, tungsten/bronze, and tungsten/tin/bismuth.

Banded birds

Hunters can report recovery of banded birds by calling 1-800-327-BAND (2263).
