City of YUMA

December 11, 2015

To the Citizens, Honorable Mayor and City Council,
and City Administrator

The Finance Department is pleased to present the Comprehensive Annual Financial Report (CAFR) of the City of Yuma, Arizona for the fiscal year ended June 30, 2015. The report includes the independent auditors' report as required by City Charter Article XIII, Section 12, and by Arizona Revised Statutes, Section 9-481. The report is prepared in conformity with generally accepted accounting principles and standards set forth by the Governmental Accounting Standards Board (GASB).

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including disclosures, rests with the City. Management of the City is responsible for establishing and maintaining internal controls to ensure that the assets of the City are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles as they apply to governmental units. Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived; and, 2) the calculation of costs and benefits requires estimates and judgments by management. To the best of our knowledge and belief, the enclosed data is accurate, in all material respects, and is reported in a manner designed to present fairly the financial position and results of operations as measured by the financial activity of its various funds. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

Heinfeld, Meech & Co., P.C., a public accounting firm fully licensed and qualified to perform audits of local governments within the State of Arizona, have audited the City's financial statements. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Yuma, Arizona for the fiscal year ended June 30, 2015, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that the City of Yuma's financial statements for the fiscal year ended June 30, 2015, are fairly presented in conformity with accounting principles generally accepted in the United States. The independent auditors' report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of Federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of Federal awards. These reports are available in the City's separately issued Single Audit Reporting Package.

This report has been prepared using the financial reporting requirements as outlined in GASB Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*. This standard requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of *Management’s Discussion and Analysis (MD&A)*. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The MD&A can be found immediately following the independent auditors’ report.

PROFILE OF THE CITY OF YUMA

The City of Yuma was incorporated in 1914 and adopted its first charter in June of that year. Yuma is the economic hub and county seat of Yuma County. The City is located along the Colorado River in southwestern Arizona and is equidistant from the major population centers of Phoenix, Arizona and San Diego, California.

The City operates under a council-manager form of government. The City Council consists of six members elected at large for staggered four-year terms. The elected Mayor is the seventh voting member of council, who, along with the remaining council members is elected on a non-partisan basis. The City Council is responsible for passing ordinances, adopting the budget, appointing members of commissions and hiring the City Administrator. The City Administrator carries out the policies and ordinances of the City Council, oversees the day-to-day operations of the City and appoints the various department heads.

The City provides a full range of municipal services. These include public safety (police, fire and municipal court), street construction and maintenance, water and wastewater utility services, sanitation and residential refuse collection, parks, recreation and culture, planning and zoning, and general administrative and support services.

This CAFR includes the financial activity of the primary government, which includes several enterprise activities, as well as its blended component units. Component units are legally separate units for which the primary government is financially accountable. Blended component units, while legally separate, are part of the City’s operations and are combined within the report. The Yuma Municipal Property Corporation and the City of Yuma Employee Benefits Trust have been included in the reporting entity. Conversely, the report does not include the City of Yuma Housing Authority as the City is not financially accountable for the authority, nor does the City directly or indirectly rely upon or benefit from the financial activity of the authority.

ECONOMIC CONDITION AND OUTLOOK

Industrial Expansion. Yuma’s economy is based primarily in agriculture, tourism and government, although further diversification continues. Agriculture remains the Yuma area’s dominant industry, producing more than \$3.2 billion in revenues annually¹. Several major agricultural companies maintain operations here. Their chief consumer products of packaged produce and salad mixes continue to be popular products for today’s convenience-minded customers. The Yuma area’s stable allocation of Colorado River water will assure that agriculture remains the foundation of Yuma’s economy.

The United States Marine Corps Air Station (MCAS) and United States Army Yuma Proving Ground (YPG) help provide economic stability. These two installations continue to be cornerstones in the military’s flight training and equipment testing programs. Both should survive any continued base closure efforts by the federal government. In fact, both installations are enjoying new construction and expansion to meet their needs into the 21st century. MCAS is the home of one of the first squadrons of the new Joint Strike Fighter, the new generation aircraft being adopted by all military services.

Although manufacturing currently accounts for less than 10% of countywide employment, the City’s partnership with the Greater Yuma Economic Development Corporation continues to attract attention to the area. Several companies have located or expanded operations in Yuma in recent years.

¹ Source: Greater Yuma Economic Development Corporation

Economic Growth. Yuma’s most reliable indicator of the condition of its economy is sales tax. The graph below reflects the last ten years of data. General sales tax saw an increase of 0.1% for fiscal year 2015. Tax data show that Retail Trade, annually the largest segment of the sales tax measure, increased by 3.9% over 2014. Construction sales tax declined some (20.82)% for the year to offset some of the gains in retail. Projects at MCAS will continue into 2016 to be joined by continued construction at Yuma Regional Medical Center. Overall, sales taxes are anticipated conservatively to grow 3% for fiscal year 2016.

Tourism. Yuma has enjoyed an influx of seasonal residents for decades. Visitors from throughout the United States and Canada continue to call Yuma their winter home. This contributes to the strengthening of sales tax collections.

LONG-TERM FINANCIAL PLANNING

Yuma Crossing National Heritage Area. Plans to restore, preserve and interpret the Yuma Crossing National Heritage area began more than thirty years ago and work continued throughout 2015. This much-needed expansion of beach area along the Colorado River not only enhances the beauty of the river’s edge but provides access to the river for recreation. The river, once the primary reason for Yuma’s existence, was ignored for years as community growth and new development moved away from the riverfront. Awareness of the river’s importance has re-emerged, culminating in the establishment of the Yuma Crossing National Heritage Area in 2000, the first such National Heritage Area west of the Mississippi River.

During fiscal year 2015, city and Federal funding continues to manage and improve both the West and East Wetlands to restore natural vegetation and wildlife habitat, and improve recreational opportunities for area residents. The City will also continue its focus in developing historic and cultural activities in these areas as these are so important in meeting the Council’s goals in enriching the area’s cultural attributes. Progress in providing opportunities for local residents and in attracting employers to the area to diversify the economy is dependent on continuing these plans.

Downtown redevelopment. Revitalization of the downtown area is a vital component of management of the Heritage Area. The new hotel and conference center are cornerstones of the public/private partnership that is developing the river area. The Judge John M. Roll U.S. Courthouse adds to the economic vitality of the area.

FINANCIAL INFORMATION

Budgetary Controls. The annual budget serves as the foundation for City financial planning and control. The City maintains budgetary controls with the objectives to ensure compliance with legal provisions embodied in the annual appropriated budget, approved by the City Council. Activities of the General Fund, Special Revenue Funds, Debt Service Funds, Capital Projects Fund, Enterprise Funds, and three of the City's Internal Service Funds are included in the annual appropriated budget. As with the governmental funds, the City's proprietary funds are presented on a current financial resources basis to account for capital and debt-related expenditures. The City maintains an encumbrance accounting system as one technique of accomplishing budgetary controls. Encumbered amounts lapse at year-end. However, encumbrances generally are re-appropriated as part of the following year's budget. As demonstrated by the budgetary schedules included in the financial section of this report, the City continues to meet its responsibility for sound financial management. In addition to budgetary schedules, Note I-E in the Notes to the Financial Statements beginning on page 34 describes in detail the budget process used by the City.

AWARDS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its comprehensive annual financial report for the fiscal year ended June 30, 2014. This is the thirty third consecutive year the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City published an easily readable and efficiently organized comprehensive annual financial report. The report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another award.

I wish to express my sincere thanks to the employees of the Accounting Division for their dedicated service in preparing this report. Their work, along with those services provided by other members of the Finance Department, has made this report possible. The cooperation and assistance of the accounting firm of Heinfeld, Meech & Co., P.C., also contributed significantly to its production. Finally, I wish to thank the Mayor and Council, City Administrator, and the City Staff for their continued support.

Respectfully submitted,

Donald (Pat) Wicks, CPA
Finance Director

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members of the City Council
City of Yuma, Arizona

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of City of Yuma, Arizona (the City), as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund and the aggregate remaining fund information of the City of Yuma, Arizona, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As described in Note I-B, the City implemented the provisions of the Governmental Accounting Standards Board (GASB) Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, for the year ended June 30, 2015, which represents a change in accounting principle. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management’s Discussion and Analysis budgetary comparison information, and net pension liability information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City’s basic financial statements. The Introductory Section, Combining and Individual Fund Financial Statements and Schedules, and Statistical Section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining and Individual Fund Financial Statements and Schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Financial Statements and Schedules information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The Introductory Section and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2015, on our consideration of City of Yuma, Arizona’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Yuma, Arizona’s internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Required Supplementary Information)

As management of the City of Yuma, we offer readers of the City of Yuma's financial statements this narrative overview and analysis of the financial activities of the City of Yuma for the fiscal year ended June 30, 2015. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal in the introductory section of this report.

FINANCIAL HIGHLIGHTS

- Implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, required the City to recognize the long-term obligation for pension benefits as a liability for the first time. This required the City to restate beginning net position in FY2015. This restatement decreased net position by \$115.5 million, governmental activities decreased by \$102.1 million while business-type activities of the City decreased by \$13.4 million.
- On a government-wide basis, the City's net position decreased by \$9.5 million for the fiscal year, governmental activities decreased by \$8.8 million while business-type activities of the City decreased \$0.7 million. \$5.9 million of this decrease was due to the new process of recognizing pension expense.
- The City's government-wide net position totaled \$350.7 million at June 30, 2015. Due to implementation of GASB pension statements, the City has a deficit unrestricted fund balance for the first time. This includes a deficit \$23.9 million available (unrestricted) to finance ongoing programs which is comprised of a deficit \$68.5 million in governmental programs and positive \$44.6 million in business activities.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the City of Yuma's basic financial statements. The City of Yuma's basic financial statements comprise three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City of Yuma's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the City's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference between the assets and outflows minus the liabilities and inflows reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (uncollected taxes and earned but unused vacation leave are two examples).

Both of the government-wide financial statements distinguish functions of the City of Yuma that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, streets, environmental health and protection, community design and development and parks, recreation and culture. The

MANAGEMENT'S DISCUSSION AND ANALYSIS

business-type activities of the City include water, wastewater, solid waste, radio communications and golf course operations.

The government-wide financial statements can be found on pages 20-21 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Yuma, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains eleven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the three funds considered to be major funds. Data from the other eight governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements beginning on page 80.

Major Governmental Funds:

General
City Road Tax
Debt Service

Nonmajor Governmental Funds:

Community Redevelopment
Capital Projects

Nonmajor Governmental Funds continued:

Local Transportation Assistance
Public Safety Tax
Highway User Revenue
Grants
Two Percent Tax
Yuma Mall Maintenance

The City adopts annual appropriated budgets for all of its governmental funds. Budgetary comparison statements have been provided to demonstrate compliance with these budgets. The basic governmental fund financial statements can be found starting on page 24 of this report.

Proprietary funds. The City of Yuma maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Yuma uses enterprise funds to account for its Water, Sewer, and Solid Waste Authority and for its Radio Communications and golf courses. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City of Yuma uses internal service funds to account for its equipment replacement and maintenance programs, liability insurance, and for its workers compensation and employee health insurance. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Major Enterprise Funds:

Water Fund
Wastewater Fund

Nonmajor Enterprise Funds:

Solid Waste
Radio Communications
Desert Hills Golf Courses

Nonmajor Internal Service Funds:

Equipment Replacement
Equipment Maintenance
Insurance Reserve
Employee Benefits Trust
Workers Compensation

MANAGEMENT'S DISCUSSION AND ANALYSIS

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements group major and nonmajor proprietary funds in a manner similar to governmental fund statements. Conversely, the internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining statements, beginning on page 104.

The City adopts annual appropriated budgets for all of its proprietary funds with the exception of one internal service funds: Employee Benefits Trust. Budgetary comparison statements for the remaining proprietary funds are included within the report to demonstrate compliance with these budgets.

The basic proprietary fund financial statements can be found on pages 28-30 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found beginning on page 31 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Yuma's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found starting on page 66 of this report.

The combining statements referred to earlier in connection with nonmajor governmental, proprietary and internal service funds are presented immediately following the required supplementary information on pensions and budgets. Combining and individual fund statements and schedules can be found starting on page 80.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Statement of Net Position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Yuma, assets and deferred outflows exceeded liabilities and deferred inflows by \$350.7 million at the close of the fiscal year.

Net Position: (millions)	Governmental Activities		Business-type Activities		Total	
	June 30,					
	2015	2014	2015	2014	2015	2014

MANAGEMENT'S DISCUSSION AND ANALYSIS

The largest portion of the City of Yuma's net position reflects its investment in capital assets (e.g., land, buildings, machinery), less any related outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to pay these liabilities. The remaining balance of unrestricted net position may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the City is unable to report positive balances in all three categories of net position, as the City is reporting a deficit governmental unrestricted net position while its business-type net position is positive. The existence of such a deficit does not mean that the City is on the brink of financial disaster. This deficit is caused by long-term pension liabilities that are funded on a pay-as-you-go basis, for which the City appropriates resources each year as payments come due, rather than accumulating assets in advance. Net position dropped to \$350.7 million, down \$9.5 million from the prior year. Governmental activities decreased \$8.8 million while business-type activities decreased \$0.7 million. Capital asset acquisitions were lower than the depreciation expense this year attributing to the decrease in Capital assets in both governmental and business-type activities. Pension reporting requirements accounted for \$6.0 million of the decrease in unrestricted net position of the Governmental Activities. Unrestricted net position are those assets available to finance programs in the upcoming fiscal year and would increase when the portion of taxes and other revenues exceed operating expenses but are not invested in capital assets.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Statement of Activities. Already noted was the statement of activities' purpose in presenting information in how the government's net position changed during the most recent fiscal year. A chart of changes in net position follows.

Changes in Net Position Fiscal Year Ended June 30, (millions)	Governmental activities		Business-type activities		Total	
	2015	2014	2015	2014	2015	2014
Revenues

Increase/(Decrease) in net position before transfers	(7.5)	(12.6)	(2.0)	(0.9)	(9.5)	(13.5)
Transfers	(1.3)	(0.7)	1.3	0.7	-	-
Increase/(Decrease) in net position	(8.8)	(13.3)	(0.7)	(0.2)	(9.5)	(13.5)
Net Position - July 1	260.4	273.7	215.3	215.5	475.7	489.2
Effect of Change in Accounting Principle	(102.1)	-	(13.4)	-	(115.5)	-
Net Position - July 1, as restated	158.3	273.7	201.9	215.5	360.2	489.2
Net Position - June 30	\$ 149.5	\$ 260.4	\$ 201.2	\$ 215.3	\$ 350.7	\$ 475.7

For the fiscal year, net position decreased \$9.5 million, with \$8.8 million of the decrease coming from governmental activities. \$6.0 million of the decrease in governmental activities is due to the new process of reporting pension expense. The reader should remember that the basis of accounting used in the government-wide statement of activities excludes capital expenditures while its revenues include general taxes whose primary purpose is for the construction of those very assets or their related debt service (i.e., public safety or road sales taxes).

MANAGEMENT'S DISCUSSION AND ANALYSIS

Governmental Activities

Revenues

Governmental activities revenues totaled \$95.8 million for fiscal year 2015, an increase of \$2.6 million from 2014, mostly in State Shared Revenues. Local sales taxes remain the largest revenue source for the City and are comprised of the 1% general sales tax along with a .5% road tax and a .2% public safety tax. State-shared revenues are the City's second largest revenue source. State-shared revenues include state sales tax, urban revenue sharing (income tax), auto in-lieu tax and highway user funds (gas tax). Sales taxes and state shared revenues account for 70.1% of governmental revenues for the year. Capital grants and contributions, the third segment of governmental activities revenues, include donations and capital asset contributions. Charges for services count building permits and inspections, fines, recreation fees, police services and civic center rental fees among its largest sources. The charges for services category amounts to 10.4% of governmental revenues. Property taxes represent 10.1% of governmental revenues. The large majority of property taxes are levied for general purposes with a small levy for downtown mall maintenance. No property taxes are levied for debt service. Various grants and contributions and franchise taxes account for most of the remaining governmental revenues. Some of the more significant changes in governmental activities revenues are noted:

- Sales taxes increased 0.1% from 2014, reflecting a slight improvement over last year that was mitigated by a lesser improvement in construction sales taxes.
- Intergovernmental revenues increased \$2.9 million or 10.8%. State-shared income taxes were anticipated to increase 8.6% but due to the census recalculation from 2010 that occurred in 2014 the increase was 13.7% from 2014, while state-shared gas tax increased 10.1%. State-shared sales taxes increased by 10.4% due in part to the census recalculation in 2014.
- Charges for services decreased by \$1.7 million (14.7%) primarily from a decrease of Capital Projects being completed utilizing Developer Deposits.
- Property taxes increased 2.1% to \$9.7 million as the City Council allowed the property tax rate to increase slightly to offset a small decrease in assessed valuation.

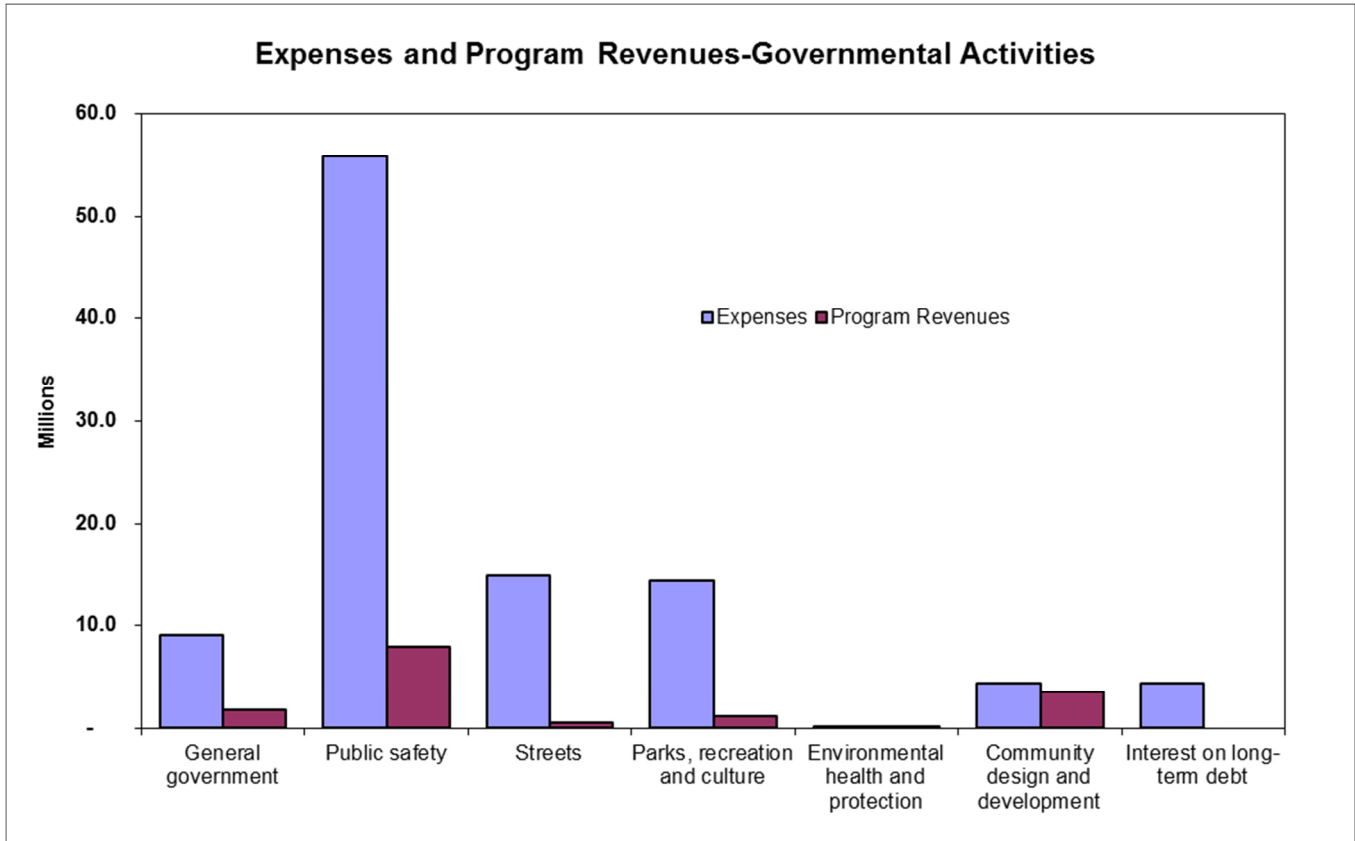

**Revenues-
Governmental Activities**

Expenses

Governmental expenses totaled \$103.3 million for the fiscal year. Of the expenses, 54% or \$55.8 million is related to public safety for police, fire and municipal court services. Parks, recreation and culture expenses amounted to \$14.4 million, or 13.9% and Streets was \$15.0 million, 14.5%, while environmental health and community design and development expenses amounted to 0.2% and 4.3% respectively. General government expenses came to \$9.0 million, or 8.7%. Interest on long-term debt was \$4.5 million, or 4.4% of governmental expenses. Overall, governmental activities expenses decreased \$2.5 million from 2014, led by an increase in Public Safety of \$9.2 million (mainly due to an increase in pension) and a decrease in Streets expenditures of \$10.3 million (adjustments to capital assets for impairments from cancelling capital projects that occurred in 2014).

MANAGEMENT’S DISCUSSION AND ANALYSIS

The chart above compares governmental activities with their respective program revenues, if any. Because the ultimate beneficiary of services of these types is often difficult to ascertain or the services apply to a broad spectrum of users (such as in fire protection), user fees are not created and general revenues provide the funding support for most of these services. Moreover, where ultimate users of the services are determinable, program revenues may generate only a portion of the funding, such as in recreation programs.

Business-type activities

Revenues

General revenues do not support the City’s business-type activities; thus, the largest source of revenues comes from charges for services. Of the \$42.8 million in charges for services, 83.8% comes from the City’s two utility operations, water and wastewater. The remaining charges are from solid waste, radio communications and the City’s two golf courses, Desert Hills and Desert Hills Par 3. The \$5.7 million in contributions are payments for capacity charges, development fees, and constructed additions to the City’s water and wastewater infrastructure by subdivision and other developers as well as grant funds for the water, wastewater and radio communications funds. Finally, investment earnings make up 0.33% of revenues for the City’s business activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS

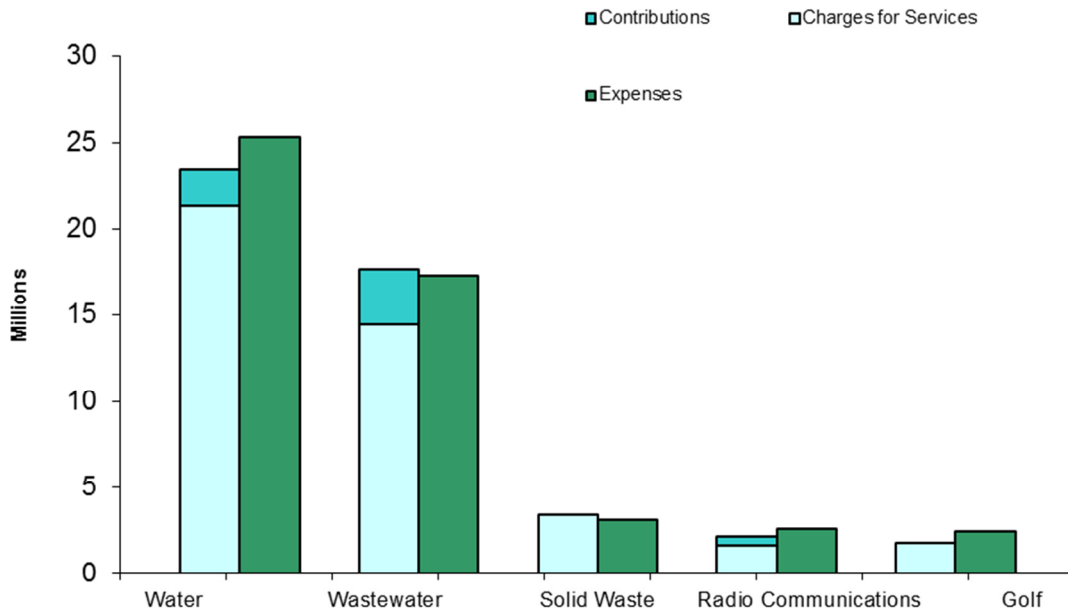

Revenues-Business-type Activities

Expenses

Water and wastewater services account for 83.8% of the City's business-type activities with solid waste, radio communication and golf courses making up the remaining 16.2%. Water expenses amounted to \$25.3 million while wastewater expenses totaled \$17.2 million. Solid Waste, Radio Communications, and Desert Hills Golf Courses recorded expenses of \$3.1 million, \$2.6 million and \$2.5 million, respectively, for a total of \$8.2 million.

Expenses vs. Program Revenues-Business-type Activities

Because the City's business-type activities are supported by user charges, the chart above shows more reliance on program revenues. Moreover, for both water and wastewater, program revenues include capacity charges for new service and developer additions to the utility infrastructure.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

Governmental funds. The combined fund balances of governmental funds for the fiscal year ended June 30, 2015, is \$45.6 million, an increase from 2014 of \$1.5 million. A review of some of the more significant funds follows.

General Fund

The fund balance of the General Fund decreased by \$418 thousand for the fiscal year. Revenues increased by \$3.3 million. Sales taxes, the city's largest source of General Fund revenues, increased \$20 thousand (0.1%) to \$19.5 million as a 20% decrease in construction partially offset a robust 4% increase in retail sales. State-shared income taxes were anticipated to increase 8.6% but due to the census recalculation from 2010 that occurred in 2014 the increase was 13.7% from 2014, up \$1.3 million to \$11.0 million. State-shared vehicle registration tax (auto lieu tax) increased 5.2% to \$3.3 million. State-shared sales taxes increased \$777 thousand or 10.4% also due to a census recalculation occurring in 2014. Total expenditures increased \$762 thousand, or 1.3%, to \$59.9 million. Most of the increase occurred in Public Safety expenditures, in part due to the City again needing to use current staff operating ambulance services in an overtime status. Public Safety Retirement contributions were also increased this year.

City Road Tax Fund

This fund accounts for the one-half cent sales tax for use on the City's roadways in conjunction with HURF. The fund balance grew by \$1.1 million for the year. In the same manner as general sales tax in the General Fund, sales taxes increased in 2015 to \$9.77 million. Operational expenditures increased from 2014, due to some street projects being completed.

Debt Service

Debt Service Fund expenditures decreased \$1.0 million to \$12.6 million due to a debt issue with the final maturities of District 67 in FY 2014. The City is in the process of refunding the three 2007 debt issues to secure a reduction in interest rates. The refunding, along with a new debt issue, will occur in the second quarter of FY 2016.

Highway User Revenue Fund (HURF)

This fund, which accounts for the expenditure of state-shared gasoline taxes, showed an increase in fund balance of \$1.8 million for the year, increasing to \$2.7 million. The City's portion of those taxes increased by 10% for the fiscal year to \$6.9 million. All maintenance expenditures for streets and retention basins are made in the HURF Fund. Expenditures decreased from 2014 by \$0.8 million to \$5.0 million.

Grants Fund

The City continues to receive much needed assistance from both the state and federal levels. During 2015, revenues increased to \$3.5 million, due to receiving new grants. Again this year, Homeland Security was the primary source of grants, funding the Operation Stone Garden. In addition, the City of Yuma received funding from the Environmental Protection Agency for conducting community wide assessments at potential Brownfields sites contaminated with Petroleum or Hazardous Substances.

Community Redevelopment Fund

The City continued to utilize, in part, its Community Development Block Grant funding for eligible street infrastructure improvements and for affordable housing rehabilitation. Community Development Block Grant revenues decreased to \$0.9 million for 2015.

Capital Projects Fund

The Capital Projects Fund's fund balance dropped to \$12.1 million this year as the city continued to expend the proceeds of the 2007 bond sale. Capital expenditures decreased in 2015 to \$3.4 million.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Proprietary funds. The City's enterprise funds posted an overall decrease in net position of \$0.7 million for the fiscal year ended June 30, 2015. Results were mixed between the various funds with the Wastewater, Solid Waste, and Desert Hills Golf Course Funds posting increases in net position while the Water, and Radio Communications Funds showed the reverse.

Water Enterprise Fund

Operating revenues for the Water Fund decreased by \$962 thousand or 4.3% for the year ending June 30, 2015. Operating expenses increased by 3.6% with attendant improvements coming on line. With these changes, operating income fell 65.6% to \$874 thousand. Capital contributions, decreasing to \$2.0 million, led to the fund's net position decrease of \$1.8 million.

Wastewater Enterprise Fund

The Wastewater Fund operating revenues decreased 2.6% from fiscal 2014. Rate-based charges increased 3.2% to \$12.7 million. Operating expenses increased by 1.3% with loss from operations decreasing to \$0.8 million. Capital contributions, increasing to \$3.2 million, increased the fund's net position by \$605,427.

Radio Communications

With the reclassification of the Radio Communications fund to an enterprise fund, federal grants for the Yuma Regional Communications System were classified in the fund. This includes intergovernmental revenues and expenses of \$478 thousand. Operating revenues decreased 51% to \$1.7 million due to a decrease in intergovernmental revenues and an increase in other agencies communication product purchases through the YRCS. Operating expenses decreased 36.8% to \$2.6 million, with the fund's net position decreasing to \$2.3 million.

GENERAL FUND BUDGETARY HIGHLIGHTS

A detailed budgetary comparison schedule for the fiscal year ended June 30, 2015, can be found starting on page 71. A summary of that schedule follows:

	Budget		Actual	Variance with Final
	Original	Final		
Revenues and Transfers In				
Taxes	\$ 33,394,028	\$ 33,394,028	\$ 32,383,378	\$ (1,010,650)
Intergovernmental	22,595,815	22,595,815	22,576,129	(19,686)
Other	7,725,530	7,725,530	8,718,710	993,180
Transfers In	125,780	125,780	425,272	299,492
Total	63,841,153	63,841,153	64,103,489	262,336
Expenditures and Transfers Out				
Expenditures	63,214,388	63,214,336	59,854,075	3,360,261
Transfers Out	4,369,885	4,369,885	4,667,008	(297,123)
Total	67,584,273	67,584,221	64,521,083	3,063,138
Change in Fund Balance	\$ (3,743,120)	\$ (3,743,068)	\$ (417,594)	\$ 3,325,474

General Fund revenues and transfers ended the year \$0.3 million over expectations. Ambulance billing collections, police services, and building permits accounted for \$0.4 million, \$0.3 million, and \$0.2 million of the increase, respectively, while City Sales Tax and Auto-in-Lieu Tax decreased this by \$0.7 million and \$0.2 million, respectively. Transfers occurring from recovery of expenditures to cover payroll and from Equipment Replacement Fund to cover projects accounted for \$0.3 million of the excess. The important revenue source of city sales tax increased by 0.1%.

Expenditures for the fund came in at \$3,360,261 below budget mostly due to contingency budget not being used. General Government, Parks and Recreation, and Community Development showed savings of \$2.9 million, \$0.5 million, and \$0.6 million respectively. Public Safety exceeded budget by \$0.6 million due to overtime needed in

MANAGEMENT'S DISCUSSION AND ANALYSIS

excess of projections by the Ambulance Transport division. Savings in budget occurred in most departments with the City's drive to reduce expenditures throughout the year. The City continued to target all areas of expenditure reduction. Due to the department's diligence, the General Fund's anticipated reduction of fund balance decreased from a reduction of \$3.7 million to a reduction of \$0.4 million.

CAPITAL ASSETS

At June 30, 2015, the City of Yuma's investment in capital assets in both governmental and business-type activities amounted to \$587.2 million, net of depreciation. This includes land, buildings, equipment, and infrastructure (roadways and bridges). Capital assets for governmental activities decreased by 3.2% while business-type capital assets decreased by 4.5%. These changes included the following:

- Improvements to Police department building were completed.
- The Catalina Road, 32nd Street to 4th Avenue construction project was completed.
- A number of major water and sewer lines were completed.
- A number of land sales and swaps were finalized this year.
- The largest decrease was due to less new assets being acquired and/or constructed than depreciation expense on existing assets.

Change in Capital Assets

(In Millions)

	Governmental Activities			Business-type Activities			Total
	July 1, 2014	Net Additions/Deletions	June 30, 2015	July 1, 2014	Net Additions/Deletions	June 30, 2015	
Land	\$ 58.8	\$ (0.9)	\$ 57.9	\$ 10.6	\$ -	\$ 10.6	\$ 68.5
Buildings	92.1	0.3	92.4	164.7	(0.1)	164.6	257.0
Improvements	47.3	0.2	47.5	268.7	0.3	269.0	316.5

Accumulated Depreciation	(209.1)	(14.3)	(223.4)	(151.1)	(15.3)	(166.4)	(389.8)
Total	\$ 300.7	\$ (9.6)	\$ 291.1	\$ 310.2	\$ (14.1)	\$ 296.1	\$ 587.2

Additional information on capital assets can be found in Note II-E starting on page 42.

DEBT ADMINISTRATION

At June 30, 2015, after scheduled debt payments, governmental activity debt increased to \$228.8 million while business activity debt decreased to \$169.6 million. The increase is due to recognizing the City's long-term obligation for pension benefits as a liability for the first time. Additional information on the City's long-term pension liabilities can be found in Note II-G on pages 48-59.

The state limits the amount a municipality may issue in general obligation debt to 20% of the City's secondary assessed valuation for combined water, wastewater, artificial light, parks, open space preserves, playgrounds and recreational facilities. Debt related to other projects is limited to 6% of the valuation. The current debt limitation for the former type is \$123.1 million. This City currently has no outstanding general obligation debt nor is there any debt outstanding for the other type of issuance.

The City's improvement district bonds were rated by Fitch Ratings as "A+". All other bonds are rated "AA-". The underlying ratings of Moody's Investor Services and Standard and Poor's are "Aa3" and "AA-", respectively. With the exception of the improvement district bond, all City bond issues are insured, and while the city enjoys higher ratings, the guarantors can no longer provide "AAA" rating as a result of ratings downgrades of the insurance companies.

MANAGEMENT'S DISCUSSION AND ANALYSIS

A summary of the City's long-term debt follows. Additional information on the City's long-term debt can be found in Note II-F on pages 44-47.

Summary of Long-Term Debt

(Millions)

	Governmental activities		Business-type activities		Total	
	2015	2014	2015	2014	2015	2014

Contracts Payable	-	-	50.0	54.8	50.0	54.8
Total Long-Term Debt	\$ 100.7	\$ 108.6	\$ 155.9	\$ 164.6	\$ 256.6	\$ 273.2

ECONOMIC FACTORS

Yuma County's growth is sluggish but improving. The county grew by an estimated 2,377 residents to 203,247 with the City of Yuma representing 46% of the county's population. Since 2000, the City has grown by 3% to an estimated 93,400 for 2014 (the most recent available). The City's economy is based on a triad of agriculture, tourism and military/government spending. Agribusiness continues to lead the economy, contributing well over \$3 billion annually. The area's 85,000-plus winter visitors add over \$500 million to the mix, while two prominent military installations infuse some \$300 million to the economy.

Property taxes are limited constitutionally in Arizona, so other local revenues make up the most significant reflectors of the condition of the economy. Sales tax, the City's primary source of general revenues, posted a 0.1% increase this year, compared to its historic growth rate of 7%. For fiscal year 2016, General Fund revenues were projected with a 3.2% increase.

With sales tax statistics improving, the economy continues to strengthen. During 2015, the following major economic events occurred:

- The new F-35 Joint Strike Fighter began arriving in December 2012 and the new squadrons continue to grow. Additional construction projects necessitated by the new squadron continued into 2015.
- Yuma Regional Medical Center (YRMC) continues to expand its footprint and its services as new construction projects continue. The hospital is replacing its overburdened emergency room with a new, much-expanded facility which should complete during fiscal 2016.

Not all economic statistics reflect positive results; however, in that Yuma County continues to suffer what appear to be higher unemployment figures than most of the state, according to the Arizona Department of Economic Security (DES). Seasonal farm employment continues to skew this statistic. The City combats this problem as the largest contributor to the Greater Yuma Economic Development Corporation whose two-fold mission is to encourage new employers to the area and to assist local employers in their expansion efforts.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to familiarize our citizens, taxpayers and customers with the City's finances and to demonstrate the City's fiscal accountability for its operations. Questions concerning this report, or requests for additional financial information, should be directed to Mr. Donald (Pat) Wicks, Finance Director, One City Plaza, Yuma, AZ 85364, telephone (928) 373-5087. The reader may also visit the City's website at www.yumaaz.gov for an electronic version of this report.

The accompanying notes are an integral part of these financial statements.

City of Yuma, Arizona
 Reconciliation of the Statement of Revenues, Expenditures and Changes
 in Fund Balances-Governmental Funds to the Statement of Activities
 For the Year Ended June 30, 2015

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances-governmental funds	\$ 1,528,587
Portions of revenues recorded on the statement of activities do not provide current financial resources and are not recorded as revenues in the funds:	
Property taxes revenue	34,438
Public safety ambulance revenue	(844,880)
Loan Payments are recorded as revenues in the funds. In the statement of activities, however, these amounts are recorded as a reduction in receivables:	
Community Redevelopment Loan Payments	(2,490)
Special Assessment Principal Payments	(280,000)
Governmental funds report capital outlays as expenditures. In the statement of activities, however, the cost of those assets is allocated over their useful lives as depreciation	
Depreciation recorded in statement of activities	(14,096,665)
Capital outlay expenditures reported as additions to assets:	
Capital outlay expenditures-governmental funds	5,501,603
Infrastructure maintenance expenditures recorded as capital outlay but not capitalized as asset additions	(132,643)
Governmental funds report debt principal service payments as expenditures. The reduction in liability is recorded on the statement of net position in the government-wide statements	
	8,080,000
Increase in compensated absences expense not recorded in governmental funds	
	(341,329)
Governmental funds report pension contributions as expenditures. GASB68 requires the actual pension expense to be recorded on government-wide statements. In addition, contributions for current year are recorded as deferred outflows of resources in government-wide statements. This amount is the net difference between the amounts.	
	(5,977,410)
The net effect of miscellaneous transactions involving capital assets (trades of land for rights-of-way) is to decrease net position.	
	(1,104,271)
Investment earnings of the internal service funds are general revenues on the statement of activities	
	47,927
Internal Service fund transfers are eliminated on statement of activities as they are combined with governmental. Statement of activities only shows transfers between governmental and business-type activities	
	(2,144,323)
Interest payments accrued in government-wide statements are not recorded in governmental activities until paid	
	104,319
Net revenues of internal service funds in excess of expenses reduce governmental activities expenses on the statement of activities	
	321,186
Contributions of infrastructure assets are not recorded as revenues in the governmental funds	
	511,726
Change in net position of governmental activities	\$ (8,794,225)

The accompanying notes are an integral part of these financial statements.

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Yuma (City) was incorporated April 14, 1914 under Arizona Revised Statute (A.R.S.) Title 9, Chapter 9, Section 101, and adopted its first charter on June 11, 1914. The City presently operates under a charter that was last amended on November 8, 2011. The Charter provides for a Council-Manager form of government and provides such services as are authorized by the Charter. Among these services are general government services, public safety (police and fire), parks, recreation, culture, streets, environmental health and protection, and community design and development.

The accounting policies of the City conform to generally accepted accounting principles (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. With respect to proprietary activities, the City has adopted GASB Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB [Financial Accounting Standards Board] and AICPA Pronouncements*. This statement incorporates into the GASB's authoritative literature certain accounting and financial reporting guidance that was included in pronouncements issued by the FASB, by the Accounting Principles Board and by the American Institute of Certified Public Accountants (AICPA) on or before November 30, 1989. The following is a summary of the more significant policies.

A. Reporting Entity

The City is a municipal entity governed by an elected mayor and council. As required by generally accepted accounting principles, these financial statements present the City and its component units, entities for which the City is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the City's operations, and so data from these units are combined with data of the City, the primary government. The component units presented have a June 30 year-end.

Blended Component Units

Yuma Municipal Property Corporation. The Yuma Municipal Property Corporation's board members are appointed by the City Council. The Corporation was formed to finance the acquisition of certain improvements such as the Yuma Civic and Convention Center, Baseball Complex and Desert Hills Golf Course. The Corporation was also used to finance the acquisition of three public safety buildings (the police headquarters, a fire station and the Municipal Court facility) and Public Works facilities, along with a clubhouse for the municipal golf course and the new Municipal Complex. The Corporation conducts no business other than with the City and that business is solely the retirement of debt related to the aforementioned acquisitions. Complete financial statements may be obtained at the City of Yuma, City Clerk's Office, One City Plaza, Yuma, AZ 85364.

City of Yuma Employee Benefits Trust. The City of Yuma Employee Benefits Trust is responsible for providing health insurance for the City employees. The City Council appoints the Trust's Board of Directors. The Trust provides services entirely to the City and therefore has been included as an Internal Service Fund as of June 30, 1997 in accordance with the criteria established in GASB Statement No. 14, *The Financial Reporting Entity*. Complete financial statements may be obtained at the City of Yuma Employee Benefit Trust's administrative offices, One City Plaza, Yuma, AZ 85364.

B. Accounting Pronouncements

During the year ended June 30, 2015, the City implemented the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. GASB Statement No. 68, as amended by GASB Statement No. 71, replaces the requirements of GASB Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, and GASB Statement No. 50, *Pension Disclosures*, as they relate to governments that provide pensions through pension plans administered as trusts or similar arrangements that meet certain criteria. This statement requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. This statement is intended to enhance accountability and transparency through revised and new note disclosures and required supplementary information. The City of

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

Yuma has restated the prior year for pension liability for the three retirement plans - Arizona State Retirement System (ASRS) and Public Safety Personnel Retirement System (PSPRS) for Police and for Fire. See note II-L for restatement of Net Position.

C. Government-wide and fund financial statements

The government-wide financial statements report financial information on all the activities of the City of Yuma and its component units. These financial statements include the Statement of Net Position and the Statement of Activities, a statement showing changes in net position. Most interfund activities have been removed from these statements to avoid duplicating the information, with some exceptions such as proprietary fund sales to governmental funds (i.e., water bills paid by a governmental fund). Eliminating these transactions would distort both the measurement of income generated in serving proprietary customers as well as the direct cost of governmental functions serving the citizenry. In these government-wide statements, governmental activities, normally supported by taxes and intergovernmental revenues, are separated from business-type activities that rely on fees and charges for services.

The statement of activities presents direct expenses of a given function or segment and the degree to which these expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers who use or directly benefit from the services of the function; and 2) grants and contributions that are restricted to the operational or capital needs of a particular function. Taxes and other revenues that are identifiable with a particular function or segment are reported as general revenues.

In addition to government-wide presentations, fund financial statements are provided for all governmental and proprietary funds. The financial statements are segregated by their respective significance to City operations with individual major governmental and proprietary funds separated from nonmajor funds (aggregate nonmajor financial activity is reported as a column on the major funds presentation for both governmental and proprietary funds). The City uses GASB Statement No. 34 to determine which funds are to be presented as major funds. In addition to those minimum requirements, the City will, from time to time, include within its major funds presentations of other funds, that because of their significance, preclude aggregate reporting outside the basic financial statements.

The City of Yuma reports the following funds:

GOVERNMENTAL FUNDS

General Fund – The General Fund is the general operating fund of the City. It is used to account for all financial resources except those for which another fund is required or used.

City Road Tax Fund – This fund accounts for the collection and expenditure of a local one-half percent transaction privilege tax approved by voters in 1994 for maintenance and construction of roadways.

Debt Service Fund – This fund accounts for and reports financial resources for the payment of long-term debt principal, interest, and related costs of the City of Yuma Municipal Property Corporation, a blended component unit, and Special Assessment Improvement Districts. Pledged excise tax and other revenues are transferred to this fund along with property owner's revenue for payments of long-term bonded debt.

Other Nonmajor Governmental Funds – Other nonmajor governmental funds of the City of Yuma are aggregated and are presented in a combining statement in the Other Supplementary Information section. These include the Highway Users Revenue, Grants, Community Redevelopment, Local Transportation Assistance, Public Safety Tax, Two Percent Tax, and Yuma Mall Maintenance Special Revenue Funds along with the Capital Projects Funds.

PROPRIETARY FUNDS

Water Fund – The operations of the City's drinking water treatment and distribution system are accounted for in this enterprise fund.

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

Wastewater Fund – This enterprise fund accounts for the City’s wastewater collection and treatment system.

Other Nonmajor Enterprise Funds – Other nonmajor enterprise funds of the City of Yuma are aggregated along with the major enterprise funds and are also presented in a combining statement in the Other Supplementary Information section. These funds include the Solid Waste, Radio Communications, and Desert Hills Golf Course Funds.

Internal Service Funds – Internal Service Funds are used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the City on a cost-reimbursement basis. They are also presented in the aggregate with major enterprise funds and are included in a combining internal service fund presentation in the Other Supplementary Information section. Because they service primarily governmental funds, they are not included within the business-type activities of the Statement of Net Position. Rather, they are combined with the governmental activities on that statement. Moreover, because of their essentially duplicative nature in accounting for their operations (revenues of the internal service funds are expenses of the operating funds), the operations of the internal service funds have been eliminated from the operations of the Statement of Activities. Internal service funds include the Equipment Replacement, Equipment Maintenance, Insurance Reserve, Workers Compensation and Employee Benefits Trust Funds.

D. Measurement focus and basis of accounting

The government-wide financial statements, as well as the proprietary fund financial statements, use the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the liability is incurred. Property taxes are recognized as revenue in the year levied. Grants are recognized as revenue when all eligibility requirements are met and the underlying expenses have been recorded.

Governmental fund financial statements are presented using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable *and* available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period (within 60 days). Grant revenues are recognized when all eligibility requirements are met, not necessarily when received. Grant monies that have been received but are as yet unearned are carried forward as unearned revenue. However, earned but not yet received grant monies are recognized as revenue and carried forward as receivables. This practice is defined and supported by GASB Statement 33, as it pertains to “government-mandated nonexchange transactions,” paragraphs 19-25. Expenditures are recorded when the liability is incurred with the exception of debt service. Debt service expenditures are recorded when the payment is due or when amounts have been accumulated in the debt service fund for payments to be made early in the following year.

Property taxes, along with franchise taxes, licenses and sales taxes are susceptible to accrual and have been recognized as revenues of the current period. Delinquent property taxes and property taxes for which there is an enforceable legal claim as of the fiscal year, but which were levied to finance operations of the subsequent fiscal year, have been recorded as unavailable revenue. Grants and similar awards received before the eligibility requirements are met are recorded as unearned revenue. Receivables that will not be collected within the available period have also been reported as unavailable revenue on the governmental fund financial statements. All other revenue items are considered measurable and available only when cash is received.

Proprietary funds classify revenues and expenses as operating or nonoperating items. Operating revenues and expenses relate to the fund’s ongoing operations in providing goods and services. Operating revenues for the City’s proprietary funds are customer charges for sales and services. Operating expenses include the cost of sales or services, administrative expenses and depreciation. All other revenues and expenses are classified as nonoperating revenues and expenses.

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

E. Budget Information

1) The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- i. On or before the first Monday in June, the City Administrator submits to the City Council a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them.
- ii. Two public hearings are held prior to the budget's final adoption in order to obtain taxpayer comments.
- iii. On or before the third Monday in August, the budget is legally enacted through passage of an ordinance.
- iv. At any time during the fiscal year, the City Administrator may transfer part or all of any unencumbered appropriation balance among programs within a fund. Upon written request by the City Administrator, the Council may, by ordinance, transfer part or all of any unencumbered appropriation balance from one fund to another.
- v. Formal budgetary integration is employed as a management control device during the fiscal year for all funds with legally adopted budgets (only the Employee Benefits Trust Internal Service Funds is not budgeted). Appropriations not expended at fiscal year end lapse.
- vi. Budgetary amounts include those as originally adopted, and as amended by Council or City Administrator through the end of the fiscal year. Arizona State Statute does not allow supplemental budgets.
- vii. Expenditures incurred during the fiscal year may not legally exceed the publicly published budget. The maximum legal expenditure permitted for the fiscal year is the total adopted budget.

2) Budgetary Reporting and Budgetary Basis of Accounting:

The City has opted to display budgetary information schedules in a manner similar to its adopted budget; therefore, the information is displayed outside its basic financial statements. Budgetary comparisons are presented for the General Fund and the major Special Revenue Funds in the Required Supplementary Information section. Budgetary comparisons for the Debt Service Fund, the Capital Projects Fund, the nonmajor governmental funds and the proprietary funds are presented in the Other Supplementary Information sections. For proprietary funds, the budgetary comparison includes reconciliation to the accrual-based operating statements.

F. Assets, Liabilities and Fund Equity Disclosures

1) Transactions between Funds:

Interfund transactions consisting of identified services performed for other funds or costs billed to other funds are treated as expenditures in the fund receiving the services and as a reimbursement reducing expenditures in the fund performing the services. Exceptions to this include: (1) sales of water and wastewater treatment are treated as revenue by the Enterprise Fund, radio and software annual maintenance fees are treated as revenue by the Enterprise Fund and expenses in the governmental funds, and in-lieu property taxes are recorded as revenues in the General Fund and expenses in the Enterprise Funds; (2) transfers are made in certain other funds to shift resources from a fund legally required to receive revenue to a fund authorized to expend the revenue; and (3) charges for services of the Internal Service Funds are recorded as expenditures in the funds receiving the service. For purposes of government-wide presentation, these latter transactions are eliminated.

2) Cash and Investments:

Cash balances of the City's funds are pooled and invested by the City. The policy of the City is to invest public funds in a manner which provides the maximum security of principal invested, conforms to all applicable State statutes and City ordinances, delivers the highest yield, and meets the City's daily cash flows. Income earned or loss arising from the investment of the pooled cash is allocated on a monthly basis to the individual funds

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

based upon average daily balance. The City considers short-term investments (including restricted assets) in the State of Arizona Local Government Investment Pool (LGIP), mutual fund-money market, U.S. Treasury bills and notes with original maturities of three months or less at acquisition date to be cash equivalents.

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, the City reports its investments at fair value based on quoted market information obtained from fiscal agents or other sources.

3) Inventories and Prepaid Items:

Inventories consist primarily of expendable supplies held for consumption. Prepaid items represent services for which payment is made in advance. Both inventories and prepaid items are accounted for using the consumption method; therefore, expenditures are recorded at the time inventories are used or the services incurred. Inventories are maintained on a perpetual inventory basis, verified through annual physical counts, and valued using the weighted average method. Nonspendable governmental fund balance for both inventories and prepaid items indicate that a portion of fund balance is not available for future expenditures.

4) Grants Revenue:

The City follows the policy that, grants and similar items are recognized as revenue or contributed revenue as soon as all eligibility requirements imposed by the provider have been met.

5) Unbilled Accounts Receivable:

The City records as receivables and as revenues the amount of water sales, sewer service charges and commercial refuse collection charges accrued but unbilled at fiscal year end. At June 30, 2015, the estimated amounts of unbilled revenues for the Water, Wastewater and Solid Waste Enterprise Funds are \$1,872,524, \$1,162,885, and \$298,886, respectively.

6) Capital Assets:

Capital assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets include property, plant, equipment and infrastructure (e.g., roads, bridges and similar items) and are defined as assets with an individual cost of more than \$5,000 and a useful life exceeding one year. These assets are valued at cost or estimated historical cost if original cost is not available. Gifts or contributions are stated at fair market value at the date received. Depreciation and amortization have been provided over the estimated useful lives using the group life method on a straight-line basis and the following useful lives:

Buildings	33 to 100 years	Infrastructure	35 years
Improvements	20 to 50 years	Equipment	2 to 50 years

For proprietary fund assets constructed with bond proceeds, interest costs have been capitalized, net of interest revenue. Gains or losses are recognized when assets are retired from service or are otherwise disposed.

7) Contributions:

Contributions, as shown in the Enterprise Funds, represent sub-dividers' costs of installing water and sewer mains, water service connections installed at the customers' expense, transfers of equipment from other City funds, and contributions from customers to defray future expansion costs.

8) Long-term obligations:

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

well as insurance premiums, are amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or bond discount. Bond insurance premium costs are reported as unamortized discounts and amortized over the life of the debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

9) Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the pension plans' fiduciary net position and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

10) Fund Balance Policies:

In the fund financial statements, fund balance is reported in classifications that comprise a hierarchy based on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The classifications of fund balance are Nonspendable, Restricted, Committed, and Unassigned. Nonspendable and Restricted fund balances represent the restricted classifications and Committed and Unassigned represent the unrestricted classifications.

Nonspendable fund balance includes amounts that cannot be spent because either 1) it is not in a spendable form, such as inventory or prepaid items or 2) it is legally or contractually required to be maintained intact. Restricted fund balance is comprised of externally (outside the City) enforceable limitations imposed by creditors, grantors, contributors, laws and regulations of other governments, or laws through constitutional provisions or enabling legislation (changes in City Charter). Committed fund balance includes self-imposed limitations adopted at the highest level of decision making authority, namely, City Council. City Council approval, through adoption of an ordinance, is required to commit resources or to rescind the commitment. Unassigned fund balance represents the residual net resources in excess of the other classifications. The General Fund is the only fund that can report a positive unassigned fund balance and any governmental fund can report a negative unassigned fund balance.

When both restricted and unrestricted resources are available for specific expenditures, unrestricted resources are considered spent before restricted resources. Within unrestricted resources, committed is considered spent (if available) before unassigned amounts.

The constraints placed on fund balance for the major governmental funds and all other governmental funds are presented in the following table.

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

	General	City Road Tax	Debt Service	Other Nonmajor Governmental Funds	Total

G. Revenues, Expenditures, Expenses and Other Disclosures

1) Property Tax Revenue Recognition:

Yuma County is responsible for billing and collecting property taxes. Collections by the County in one month are remitted to the City in the next month. For government-wide presentation, revenues equal the taxes levied for the fiscal year. No allowance for uncollectible taxes has been recorded as the City's experience shows that after five years the amount uncollected represents less than one-half percent of the original levy. For governmental fund statement purposes, revenues are recorded as received, with the exception of taxes collected within 60 days by the County Treasurer and reported as current year revenues (County Treasurer collections for June of the current fiscal year). Delinquent property taxes (collections of noncurrent years) are recorded similarly. The balance of delinquent taxes is recorded in the property tax receivable account with a corresponding entry to the unavailable revenue account.

2) Compensated Absences:

The City's administrative regulations provide permanent City employees with general and major illness leave in varying amounts based on years of service. In addition, employees may accrue hours worked on holidays for absences or payment in the future. General leave vests with the employee as it is earned. General and holiday leave with related benefits for the governmental funds, \$5,360,461, and for the internal service funds, \$60,730, are recorded in the governmental activities column of the government-wide financial statements. The amounts of general and holiday leave pay and related benefits attributable to the Water, Wastewater, Solid Waste, Radio Communications, and Desert Hills Enterprise Funds are \$399,337, \$254,802, \$76,572, \$46,755 and \$50,527, respectively, and are recorded in those funds and in the business-type activities of the government-wide statements and accrued as earned.

Major illness leave benefits provided for ordinary sick pay are not vested with the employee. Unused benefits are payable only upon the death or retirement of the employee. At June 30, 2015, the amount accumulated in sick pay and related benefits is \$7,942,470, including \$101,054 attributable to Internal Service Funds and

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

\$1,379,825 to Enterprise Funds. Under GASB Statement No. 16, *Accounting for Compensated Absences*, the City uses the “termination payment” method to determine its provision for major illness leave liability. The portion of the major illness leave liability related to governmental fund types, \$882,246, is reported within the governmental activities column of the government-wide financial statements, as current amounts of that liability have been determined to be immaterial and are not recorded within the respective governmental funds. The provision for probable future major illness leave and related benefits attributable to the Equipment Maintenance and Insurance Reserve Internal Service Funds is \$17,462 and \$1,665, respectively, and Water, Wastewater, Solid Waste, Radio Communications, and Desert Hills Golf Course Enterprise Funds of \$88,465, \$59,773, \$14,345, \$9,043 and \$14,318, respectively, are recorded in those funds and are accrued as earned.

H. Investment Income

Investment income is composed of interest and net changes in the fair value of applicable investments.

I. Use of Estimates

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

II. DETAIL NOTES ON ALL FUNDS

A. Cash and Investments

The City maintains a cash and investments pool that is available to all funds. Each fund’s portion of the cash and investment pool is shown in the accompanying balance sheet as “Cash and Investments”, including the portion listed under “Restricted Assets”. The City also records cash and investments, held by fiscal agents, which are restricted by bond indenture requirements for the payment of principal and interest at the end of the fiscal year.

Deposits

At June 30, 2015, the City’s deposits had a carrying value of \$7,296,368 and a bank balance of \$7,956,193. The difference represents outstanding checks and other reconciling items. The main City checking account is fully collateralized and is disclosed with investments. All pledged bank collateral for demand deposits are held by an independent institution outside the bank’s holding company.

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City’s deposits may not be covered. The City requires all demand deposits be covered by federal depository insurance or by pledged collateral held by the financial institution’s trust department in the name of the City at 102% of market value. At June 30, 2015, there are no deposits exposed to custodial credit risk. Cash on hand at June 30, 2015, included petty cash and change funds balances of \$35,075 which are included as money market funds below.

Investments

The City adheres to State Law and its adopted Investment Policy to invest public funds in a manner which will provide the maximum security of principal invested while providing the highest yield which will also meet the daily cash flow needs of the City. Per GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, the City reports certain money market investments with a remaining maturity of one year or less at time of purchase at amortized cost instead of fair value.

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

The City's investment balances at June 30, 2015, were as follows:

Investment Type	Fair Value	Investment Maturities in Years

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The City's investment policy reduces exposure to investment credit risk by limiting authorized securities to the following:

1. Obligations of the United States Government, its agencies and instrumentalities, excluding mortgage-backed securities;
2. Fully insured or collateralized certificates of deposit and other evidence of deposit at banks and savings and loan associations;
3. Bankers acceptances issued by the ten largest domestic banks;
4. Commercial paper rated A-1/P-1;
5. Repurchase agreements whose underlying collateral consists of the foregoing, provided a signed PSA Master Repurchase Agreement is on file with the counter party bank or broker/dealer;
6. Money Market Funds whose portfolio consists of the foregoing;
7. The State of Arizona Local Government Investment Pool.

At June 30, 2015, all investments, with the exception of the State Investment Pool, are rated AAA or A-1 by Standard and Poor's and Aaa or P-1 by Moody's. The State Investment Pool 5 was rated AAA/s1+ by Standard and Poor's at year end.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investments in a single issuer. The City reduces this risk by diversifying its investment portfolio. Diversification strategies are established and monitored on a monthly basis. The allowed diversification standard and actual percentage at year end by security type and issuer are as follows:

	Maximum %	Actual %
U. S. Treasuries and securities having principal and interest guaranteed by the U.S. Government	100%	5.43%
U. S. Government agencies, instrumentalities and government sponsored enterprises	No more than 80%	25.52%
Fully insured or collateralized CD's	No more than 30%	0%
Banker's Acceptances	No more than 25%	0%
A-1/P-1 Commercial Paper.....	No more than 35%	14.10%
Maximum per issuer.....	10% of total C. P	0%
Repurchase Agreements.....	100%	0%
Money Market Funds.....	100%	37.90%
State Investment Pool	100%	17.05%

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

Interest Rate Risk

Interest Rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with State law and its investment policy, the City sets a maximum maturity on any investment of five years. Unless matched to a specific requirement, no more than 25% of the portfolio may have maturities greater than three years. There are no investments with maturities greater than five years, and there are no holdings with a stated maturity beyond five years. The portfolio at June 30, 2015, had a weighted average maturity of 378 days. The policy does not set a maximum for this measurement.

Custodial Credit Risk

The custodial credit risk for investments is the risk that in the event of the failure of the counterparty to a transaction, the City will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City reduces exposure to custodial credit risk in its safekeeping and collateralization policies. All security transactions are conducted on a delivery versus payment basis and are held by a third party custodian, in the City of Yuma's name. The custodian is required to issue a safekeeping receipt listing the specific instrument, rate, and maturity. Although there were no certificate of deposit or repurchase agreements at June 30, the collateralization level of at least 102% of market value is required for these securities.

B. Property Tax

The City's property tax is levied by the Yuma County Treasurer on or before the third Monday in August based upon the previous January 1 full cash value as determined by the Yuma County Assessor. Under Arizona law, two assessed valuations are used. One is for primary taxes (used to fund operating expenditures) and the other is for secondary taxes (used to meet general obligation debt service requirements). The primary tax levy is limited to a two percent increase over the previous year with adjustments for growth and annexation. Secondary taxes are tied to the annual debt service requirements of voter-approved general obligation bonds. Taxes are due in two equal installments on October 1 and March 1 following the levy date and are delinquent on the first day of November and May, respectively. Liens are filed when taxes are delinquent for two years. Assessed values, levies and collections for fiscal year 2013-14 (Tax Year 2013) and fiscal year 2014-15 (Tax Year 2014), follow:

	Tax Year 2013	Tax Year 2014
Primary Assessed Valuation	\$ 547,206,239	\$ 525,837,088
Primary Tax Rate	1.9962	1.8281
Primary Tax Levy	\$ 10,923,330	\$ 9,612,828
Secondary Assessed Valuation	\$ 632,734,838	\$ 615,552,203
Secondary Tax Rate/Levy	None	None
Current Tax Collections	\$ 9,107,069	\$ 9,307,197
Delinquent Tax Collections	\$ 232,787	\$ 201,717
Delinquent Taxes Outstanding as of June 30	\$ 360,361	\$ 401,957

C. Accounts Receivable

Receivable balances are stated net of an allowance for doubtful accounts. Within the Solid Waste Enterprise Fund, an allowance account is established to record the estimated uncollectible refuse collection billings. Within the Water and Wastewater Enterprise Funds, allowance accounts have been established to record estimated uncollectible water and wastewater billings. No allowance account has been made for other types of receivables. The balances of these accounts are as follows:

The City has adopted GASB Statement No. 48, *Sales and Pledges of Receivables and Future Revenues and Intra-Entity Transfers of Assets and Future Revenues*. The following disclosures are due in part to that statement.

Contracts Payable

Business-type activities – During fiscal year 2004, the City began construction of major additions to its utility infrastructure, including additional water and wastewater treatment plants. Financing for these additions comes from the Arizona Water Infrastructure Financing Authority (WIFA) in the form of 20-year loan contracts. The city pledged each system's net revenues as collateral for the debt.

Bonded Debt - Excluding Refunded Debt

The following is a description of bonded indebtedness at June 30, 2015. In each instance, all bonds have been issued. For each issue, a number of covenants and restrictions are included in the bond indentures. The City is in compliance with these covenants and restrictions.

Special Assessment Bonds – Special assessment bonds are issued by the City on behalf of improvement districts created by property owners for a specific purpose. Property owners in the designated districts agree to be assessed for the principal and interest costs of repaying the bonds. As trustee for improvement districts, the City is responsible for collecting the assessments levied against the owners of the property within the improvement districts and for disbursing these amounts to retire the bonds issued to finance the improvements. Special assessment bonds are secured by liens against the property within each district. In the event of delinquency, the City may secure payment of the bonds through sale of the property. All activity related to these bonds is recorded in the City's Debt Service Fund.

Municipal Property Corporation Bonds – In 1970, the City created the Municipal Property Corporation to finance the acquisition or construction of various City projects. Bonds are issued by the corporation and are repaid through unrestricted revenues, primarily excise taxes, by the City. For each issue, the City has pledged its excise tax collections as follows: *Excise Taxes* – transaction privilege taxes, license fees and franchise fees,

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

along with transaction privilege taxes, income taxes and excise taxes imposed by the State and distributed to the City (except public safety and special sales taxes); *Public Safety Taxes* – a special two-tenths of one percent (.2%) privilege license tax approved by qualified voters in 1994 for public safety and criminal justice facilities and communication equipment; and *Special Sales Taxes* – a special two percent (2%) privilege license tax approved by qualified voters in 1993 on the gross proceeds of sales or gross income from the business of bars, restaurants and hotels. For each bond series, the corresponding pledged tax was:

<u>Issue</u>	<u>Pledged Tax</u>	<u>Project(s) funded</u>
2003 – Series A	Excise and Public Safety Taxes	Refunding 1995 issue
2003 – Series B	Excise Taxes	Art Center/Fire Station construction
2007 – Series B	Excise and Special Sales Taxes	Pool/water park/public safety facilities
2007 – Series D	Excise and Special Sales Taxes	Streets projects
2010 – Series B	Excise Taxes	Refunding 2001 issue

In addition to, or in lieu of, excise taxes, the City may use other operational revenues to repay the debt, as budgeted in each fund. These include payments from the Water, Wastewater, Solid Waste and Desert Hills Golf Course Enterprise Funds, and Highway User Revenue Special Revenue Fund, as determined by the projects acquired or constructed by the debt proceeds.

The Municipal Property Corporation issued a Utility Series in 2007. The water and wastewater system's net revenues were pledged as collateral for this issue as additional parity obligations.

<u>Issue</u>	<u>Pledged Revenues</u>	<u>Project(s) funded</u>
2007 – Series Utilities	Net Utility System Revenues	Water treatment plant/water distribution

For the year ended June 30, 2015, the pledged revenues described above amounted to \$71,862,963 for governmental activities and \$41,285,485 for business-type activities. The bonded debt collateralized by such revenues is presented below. Total future pledged revenues are not determinable for comparison to total collateralized debt; however, for the year ended June 30, 2015, debt service for governmental activities totaled \$12,646,359 and for business-type activities \$15,726,680, or 18% and 38% of pledged revenues, respectively.

Legal Debt Margin

Under Arizona's Constitution, outstanding general obligation bonded debt for combined water, sewer, artificial light, parks, open space preserves, playgrounds and recreational facilities may not exceed 20% of a City's net secondary assessed valuation. Outstanding general obligation debt for all other purposes may not exceed 6% of a City's net secondary assessed valuation. The legal borrowing capacity of the City of Yuma at June 30, 2015, follows:

	Water, Etc. (20%)	All Other (6%)
Secondary Assessed Valuation	\$615,552,203	
Legal Limit	\$ 123,110,441	\$ 36,933,132
Outstanding G.O. Debt	-	-

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

G. Pensions and Other Postemployment Benefits

The City has adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*, which requires the following disclosures.

Plan Descriptions - The City contributes to four plans, three of which are described below. The Arizona Elected Officials Retirement Plan is not described because of its relative insignificance to the City's financial statements. The plans are component units of the State of Arizona.

At June 30, 2015, the City reported the following aggregate amounts related to pensions for all plans to which it contributes:

Statement of Net Position and Statement of Activities	Governmental Activities	Business-Type Activities	Total
Net pension liabilities	\$ 121,787,295	\$ 12,674,356	\$134,461,651
Deferred outflows of resources	23,536,012	1,504,826	25,040,838
Deferred inflows of resources	9,814,810	2,235,124	12,049,934
Pension expense	14,172,470	825,878	14,998,348

Arizona State Retirement System

Plan Description – City employees not covered by the other pension plans described below or the Elected Official Retirement Plan participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on its Web site at www.azasrs.gov.

Benefits Provided – The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefits terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

ASRS	Retirement	
	Initial membership date:	
	Before July 1, 2011	On or after July 1, 2011
Years of service and age required to receive benefit	Sum of years and age equals 80 10 years age 62 5 years age 50* any years age 65	30 years age 55 25 years age 60 10 years age 62 5 years age 50* any years age 65
Final average salary is based on	Highest 36 months of last 120 months	Highest 60 months of last 120 months
Benefit percent per year of service	2.1% to 2.3%	2.1% to 2.3%

*With actuarially reduced benefits

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earning. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Contributions – In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2015, active ASRS members were required by statute to contribute at the actuarially determined rate of 11.6 percent (11.48 percent for retirement and 0.12 percent for long-term disability) of the members annual covered payroll, and the City was required by statute to contribute at the actuarially determined rate of 11.6 percent (10.89 percent for retirement, 0.59 percent for health insurance premium benefit, and 0.12 percent for long-term disability) of the active members' annual covered payroll. In addition, the City was required by statute to contribute at the actuarially determined rate of 9.57 percent (9.31 percent for retirement, 0.20 percent for health insurance premium benefit, and 0.06 percent for long-term disability) of annual covered payroll of retired members who worked for the City in positions that would typically be filled by an employee who contributes to the ASRS. The City's contributions to the pension plan for the year ended June 30, 2015 were \$3,145,752. The City's contributions for the current and 2 preceding years for OPEB, all of which were equal to the required contributions, were as follows:

ASRS	Health Benefit Supplement Fund	Long-Term Disability Fund
Year ended June 30		
2015	\$ 168,848	\$ 34,420
2014	167,318	67,587
2013	179,356	66,840

During fiscal year 2015, the City paid for ASRS pension and OPEB contributions as follows: 55 percent from the General Fund, 26.49 percent from major funds, and 18.51 percent from other funds.

Pension Liability – At June 30, 2015, the City reported a liability of \$46,324,403 for its proportionate share of the ASRS' net pension liability. The net pension liability was measured as of June 30, 2014. The total pension liability used to calculate the net pension liability was determined using update procedures to roll forward the total pension liability from an actuarial valuation as of June 30, 2013, to the measurement date of June 30, 2014.

The City's reported liability at June 30, 2015, decreased by \$5,816,110 from the City's prior year liability of \$52,140,513 because of changes in the ASRS' net pension liability and the City's proportionate share of that liability. The ASRS' publicly available financial report provides details on the change in the net pension liability.

The City's proportion of the net pension liability was based on \$14,796,602,153. The City's proportion measured as of June 30, 2014, was 0.313075 percent, which was a decrease of 0.000565 from its proportion measured as of June 30, 2013.

Pension Expense and Deferred Outflows/Inflows of Resources – For the year ended June 30, 2015, the City recognized pension expense for ASRS of \$3,018,560. At June 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

ASRS	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 2,354,342	\$ -
Changes of assumptions or other inputs	-	-
Net difference between projected and actual earnings on pension plan investments	-	8,100,708
Changes in proportion and differences between city contributions and proportionate share of contributions	-	68,606
City contributions subsequent to the measurement date	3,145,752	-
Total	<u>\$ 5,500,094</u>	<u>\$ 8,169,314</u>

The \$3,145,752 reported as deferred outflows of resources related to ASRS pensions resulting from city contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to ASRS pension will be recognized in pension expense as follows:

Year ending June 30	
2016	\$ (1,031,379)
2017	(1,031,379)
2018	(1,727,038)
2019	(2,025,176)
2020	-
Thereafter	-

Actuarial Assumptions – The significant actuarial assumptions used to measure the total pension liability are as follows:

ASRS	
Actuarial valuation date	June 30, 2013
Actuarial roll forward date	June 30, 2014
Actuarial cost method	Entry age normal
Investment rate of return	8%
Projected salary increases	3-6.75%
Inflation	3%
Permanent benefit increase	included
Mortality rates	1994 GAM Scale BB

Actuarial assumptions used in the June 30, 2013, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2012.

The long-term expected rate of return on ASRS pension plan investments was determined to be 8.79 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

ASRS	Target	Long-Term
Asset Class	Allocation	Expected Real Rate of Return
Equity	63%	7.03%
Fixed Income	25%	3.20%
Real estate	8%	4.75%
Commodities	4%	4.50%
Total	<u>100%</u>	

Discount Rate – The discount rate used to measure the ASRS total pension liability was 8 percent, which is less than the long-term expected rate of return of 8.79 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board’s funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City’s Proportionate Share of the ASRS Net pension Liability to Changes in the Discount Rate – The following table presents the City’s proportionate share of the net pension liability calculated using the discount rate of 8 percent, as well as what the City’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (7 percent) or 1 percentage point higher (9 percent) than the current rate.

ASRS	1% Decrease (7%)	Current Discount Rate (8%)	1% Increase (9%)
City's proportionate share of the net pension liability	\$ 58,551,670	\$ 46,324,403	\$ 39,690,497

Pension Plan Fiduciary Net Position – Detailed information about the pension plan’s fiduciary net position is available in a separately issued ASRS financial report.

Public Safety Personnel Retirement System

Plan Description – City public safety personnel who are regularly assigned hazardous duty participate in the Public Safety Personnel Retirement System (PSPRS). The PSPRS administers an agent multiple-employer defined benefit pension plan and an agent multiple-employer defined benefit health insurance premium benefit (OPEB) plan (agent plans). A seven-member board known as the Board of Trustees and the participating local boards govern the PSPRS according to the provisions of A.R.S. Title 38, Chapter 5, Article 4.

The PSPRS issue publicly available financial reports that include their financial statements and required supplementary information. The reports are available on the PSPRS Web site at www.psprs.com.

Benefits Provided – The PSPRS provides retirement, health insurance premium supplement, disability, and survivor benefits. State statute establishes benefits terms. Retirement, disability, and survivor benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

PSPRS

Initial membership date:

Before January 1, 2012

On or after January 1, 2012

Retirement and Disability

Years of service and age required to receive benefit	20 years any age 15 years age 62	25 years and age 52.5
Final average salary is based on	Highest 36 months of last 20 years	Highest 60 months of last 20 years
Benefit percent		
Normal Retirement	50% less 2.0% for each year of credited service less than 20 years OR plus 2.0% to 2.5% for each year of credited service over 20 years not to exceed 80%	2.5% per year of credited service, not to exceed 80%
Accidental Disability Retirement	50% or normal retirement, whichever is greater	
Catastrophic Disability Retirement	90% for the first 60 months then reduced to either 62.5% or normal retirement, whichever is greater	
Ordinary Disability Retirement	Normal retirement calculated with actual years of credited service or 20 years of credited service, whichever is greater, multiplied by years of credited service (not to exceed 20 years) divided by 20	

Survivor Benefit

Retired Members	80% of retired member's pension benefit
Active Members	80% of accidental disability retirement or 100% of average monthly compensation if death was the result of injuries received on the job

Retirement and survivor benefits are subject to automatic cost-of-living adjustments based on excess investment earning. PSPRS also provides temporary disability benefits of 50 percent of the member's compensation for up to 12 months.

Employees Covered by Benefit Terms – At June 30, 2015, the following employees were covered by the agent pension plans' benefit terms:

	PSPRS Police	PSPRS Fire
Inactive employees or beneficiaries currently receiving benefits	102	72
Inactive employees entitled to but not yet receiving benefits	29	8
Active employees	168	105
Total	<u>299</u>	<u>185</u>

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

Contributions and Annual OPEB Cost – State statutes establish the pension contribution requirements for active PSPRS employees. In accordance with state statutes, annual actuarial valuations determine employer contribution requirements for PSPRS pension and health insurance premium benefits. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. Contributions rates for the year ended June 30, 2015, are indicated below. Rates are a percentage of active members' annual covered payroll.

	PSPRS Police	PSPRS Fire
Active members--Pension City	11.05%	11.05%
Pension	30.25%	36.85%
Health insurance premium benefit	1.32%	1.60%

For the agent plans, the City's contributions to the pension plan and annual OPEB cost and contributions for the health insurance premium benefit for the year ended June 30, 2015, were:

FY2015	PSPRS Police	PSPRS Fire
Pension Contributions made	\$ 3,301,671	\$ 2,608,314
Health Insurance Premium Benefit		
Annual OPEB cost	144,073	120,263
Contributions made	144,073	120,263

During fiscal year 2015, the City paid for PSPRS pension and OPEB contributions as follows: 97.32 percent from the General Fund, 2.68 percent from other funds.

Pension Liability (Asset) – At June 30, 2015, the City reported the following net pension liabilities:

	Net Pension Liability
PSPRS Police	\$ 47,423,155
PSPRS Fire	40,714,094

The net pension liabilities (and asset) were measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of that date. The total pension liabilities as of June 30, 2014, reflect the following changes of benefit terms and actuarial assumptions.

- In February 2014, the Arizona Supreme Court affirmed a Superior Court ruling that a 2011 law that changed the mechanism for funding permanent benefit increases was unconstitutional. As a result, CORP plans changed benefit terms to reflect the prior mechanism for funding permanent benefit increases and revised actuarial assumptions to explicitly value future permanent benefit increases.
- The wage growth actuarial assumption was decreased from 4.5 percent to 4.0 percent.

Pension Actuarial Assumptions – The significant actuarial assumptions used to measure the total pension liability are as follows:

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

PSPRS - Pension

Actuarial valuation date	June 30, 2014
Actuarial cost method	Entry age normal
Discount rate	7.85%
Projected salary increases	4.0%-8.0%
Inflation	4.0%
Permanent benefit increase	included
Mortality rates	RP-2000 mortality table (adjusted by 105% for both males and females)

Actuarial assumptions used in the June 30, 2014, valuation were based on the results of an actuarial experience study for the 5-year period ended June 30, 2011.

The long-term expected rate of return on PSPRS pension plan investments was determined to be 7.85 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

PSPRS	Target	Long-Term
Asset Class	Allocation	Expected Real
		Rate of Return
Short term investments	2%	3.25%
Absolute return	4%	6.75%
Risk parity	4%	6.04%
Fixed income	7%	4.75%
Real assets	8%	5.96%
GTAA	10%	5.73%
Private equity	11%	9.50%
Real estate	11%	6.50%
Credit opportunities	13%	8.00%
Non-U.S. equity	14%	8.63%
U.S. equity	16%	7.60%
Total	<u>100%</u>	

Pension Discount Rates – The following discount rates were used to measure the total pension liabilities:

	PSPRS	PSPRS
	Police	Fire
Discount rates	7.85%	7.85%

The projection of cash flows used to determine the PSPRS discount rates assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between the actuarially determined contribution rate and the member rate. Based on those assumptions, the pension plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Plan Fiduciary Net Position-Detailed information about the pension plans' fiduciary net position is available in the separately issued PSPRS financial report.

Pension Expense-For the year ended June 30, 2015, the City recognized the following pension expense:

	Pension Expense
PSPRS Police	\$ 6,781,752
PSPRS Fire	5,198,036

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

Pension Deferred Outflows/Inflows of Resources-At June 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

PSPRS Police	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 46,282
Changes of assumptions or other inputs	8,384,392	-
Net difference between projected and actual earnings on pension plan investments	-	1,701,076
City contributions subsequent to the measurement date	3,301,671	-
Total	<u><u>\$ 11,686,063</u></u>	<u><u>\$ 1,747,358</u></u>

PSPRS Fire	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ 960,482
Changes of assumptions or other inputs	5,246,367	-
Net difference between projected and actual earnings on pension plan investments	-	1,172,781
City contributions subsequent to the measurement date	2,608,314	-
Total	<u><u>\$ 7,854,681</u></u>	<u><u>\$ 2,133,263</u></u>

The amounts reported as deferred outflows of resources related to pensions resulting from city contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (or an increase in the net pension asset) in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

**Deferred outflow/inflow
amortization**

	PSPRS Police	PSPRS Fire
Year ending June 30		
2016	\$ 953,683	\$ 422,228
2017	953,683	422,228

2019	953,683	422,228
2020	1,378,952	715,423
Thereafter	1,443,350	708,768

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

Agent Plan OPEB Trend Information-The table below presents the annual OPEB cost information for the health insurance premium benefit for the current and two preceding years:

Year Ended June 30	Annual OPEB Cost	Percentage of Annual Cost Contributed	Net OPEB Obligation
PSPRS Police			
2015	\$ 144,073	100.00%	\$ -
2014	139,330	100.00%	-
2013	134,951	100.00%	-
PSPRS Fire			
2015	120,263	100.00%	-
2014	114,522	100.00%	-
2013	126,911	100.00%	-

Agent Plan OPEB Actuarial Assumptions-Actuarial valuations involve estimates of the reported amounts value and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the plans and the annual required contributions are subject to continual revision as actual results are compared to past expectations and new estimates are made. The required schedule of funding progress for the health insurance premium benefit presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of the plans' assets are increasing or decreasing over time relative to the actuarial accrued liability for benefits.

Projections of benefits are based on (1) the plans as understood by the City and plans' members and include the types of benefits in force at the valuation date, and (2) the pattern of sharing benefit costs between the City and plans' members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. The significant actuarial methods and assumptions used are the same for all PSPRS plans and related benefits (unless noted), and the actuarial methods and assumptions used to establish the fiscal year 2015 contribution requirements are as follows:

PSPRS - OPEB Contribution Requirements

Actuarial valuation date	June 30, 2013
Actuarial cost method	Entry age normal
Amortization method	Level of percent closed for unfunded actuarial accrued liability, open for excess
Remaining amortization period	23 years for unfunded actuarial accrued liability, 20 years for excess
Asset valuation method	7-year smoothed market value; 80%/120% market
Actuarial assumptions:	
Investment rate of return	7.85%
Projected salary increases	4.5%-8.5%
Wage growth	4.5%

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

The funded status of the PSPRS health insurance premium benefit plans in the June 30, 2014, actuarial valuation was determined using the following actuarial methods and assumptions, applied to all periods included in the measurement.

PSPRS - OPEB Funded Status

Actuarial valuation date	June 30, 2014
Actuarial cost method	Entry age normal
Amortization method	Level of percent closed for unfunded actuarial accrued liability, open for excess
Remaining amortization period	22 years for unfunded actuarial accrued liability, 20 years for excess
Asset valuation method	7-year smoothed market value; 80%/120% market
Actuarial assumptions:	
Investment rate of return	7.85%
Projected salary increases	4%-8%
Wage growth	4%

Agent Plan OPEB Funded Status—The following table presents the funded status of the health insurance premium benefit plans as of the most recent valuation date, June 30, 2014.

	PSPRS Police	PSPRS Fire
Actuarial value of assets (a)	\$ 2,614,548	\$ 1,617,986
Actuarial accrued liability (b)	1,692,255	1,684,184
Unfunded actuarial accrued liability (funding excess) (b) - (a)	(922,293)	66,198
Funded ratio (a)/(b)	154.50%	96.07%
Annual covered payroll (c)	\$ 10,206,675	\$ 7,145,551
Unfunded actuarial accrued liability (funding excess) as a percentage of covered payroll (b) - (a) / (c)	-9.04%	0.93%

H. Interfund Transfers

<i>Transfers Out</i>			<i>Transfers In</i>		
Governmental funds - major funds:					
General Fund	Radio Comm	\$ 288,215	General Fund	Two Percent Tax	\$ 125,780
	Mall Maintenance	105,408		Grants	218,149
	Debt Service	4,273,385		Equipment Replacement	81,343
City Road Tax	Debt Service	4,806,434	City Road Tax	LTAf	144
			Debt Service	General Fund	4,273,385
				HURF	103,067
				Public Safety Tax	2,974,574
				Water	63,373
				Wastewater	24,456
				Solid Waste	21,321
				City Road Tax	4,806,434
Nonmajor funds:					
Public Safety Tax	Debt Service	2,974,574	Mall Maintenance	General Fund	105,408
Two Percent	General Fund	125,780	Capital Improvement	Insurance Reserve	49,308
	Desert Hills Golf Course	700,000		Equipment Replacement	1,569,281
HURF	Debt Service	103,067			
LTAf	City Road Tax	144			
Grants	General Fund	218,149			
Total Governmental Activities		13,595,156	Total Governmental Activities		14,416,023
Enterprise funds:					
Solid Waste	Debt Service	21,321	Radio Comm	General Fund	288,215
Water	Debt Service	63,373	Desert Hills Golf Course	Two Percent Tax	700,000
Wastewater	Debt Service	24,456		Equipment Replacement	444,391
	Total Enterprise Funds	109,150		Total Enterprise Funds	1,432,606
Internal Service funds:					
Insurance Reserve	Capital Improvement	49,308			
Equipment Replacement	General Fund	81,343			
	Capital Improvement	1,569,281			
	Desert Hills Golf Course	444,391			
Total Internal Service Funds Funds		2,144,323	Total Internal Service Funds Funds		-
Total Transfers Out		\$ 15,848,629	Total Transfers In		\$ 15,848,629

The majority of the transfers listed above are for debt service requirements and are recognizable by the fund from which the transfer is made. This includes Enterprise Fund transfers to debt service as the majority of the related bond debt service is governmental in nature and is recorded in the Debt Service Fund rather than within the Enterprise Funds. As for the remaining transfers, they include operating subsidies from the Two Percent Tax Fund to the General Fund (\$125,780 per a riverfront development agreement) and to the Desert Hills Golf Course Fund (\$700,000 for capital improvements). The \$144 transfer between LTAf and City Road Tax is to close out an inactive fund.

Interfund activity is eliminated within the governmental activities column of the Statement of Activities. Only transfers between governmental and business-type activities appear on that statement. The net transfers of \$1,323,456 are for debt service (\$109,150), Radio Maintenance \$288,215, a CIP project funded by Two Percent Tax \$700,000, and a CIP project funded by Equipment Replacement funds that will be paid back in future years \$444,391.

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

I. Interfund Receivables and Payables

Interfund balances at June 30, 2015, follow:

Interfund Payable	Interfund Receivable Major Funds
	General
Nonmajor Governmental Funds:	
Public Safety Tax Fund	\$ 82,402
Community Redevelopment Fund	78,032
Grants Fund	730,776
Yuma Mall Maintenance Fund	4,968
Internal Service Funds:	
Equipment Maintenance	1,048,676
Workers Compensation	175,700
Total Receivable	\$ 2,120,554

Because they serve primarily governmental funds, the interfund activity noted above in the Internal Service Equipment Maintenance and Workers Compensation Funds are combined within the governmental activities for government-wide reporting. As such, the interfund activity is eliminated in the governmental activities column of the Statement of Net Position. The internal balances amount appearing on that statement, \$1,054,311, represents net balances allocated to business-type activities for consolidation of internal service funds net profits.

J. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; job-related illnesses and injuries to employees; and natural disasters. The City purchases commercial insurance for Property Insurance, Public Employee Fidelity Bonds, Crime Insurance, Excess Workers Compensation, and Miscellaneous Insurance (i.e. surety bonds, special event insurance as needed, and fine arts coverage.) The City retains all the risk not covered by commercial carriers and has effectively managed risk through various employee education and prevention programs. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

The City provides health benefits to its employees and their dependents through the Yuma Area Benefit Consortium (trust). The trust is comprised of four participating entities and provides benefits through a self-funding trust agreement with its members. The consortium purchases insurance for claims in excess of \$210,000 per individual per plan year. A third-party administrator provides claim processing and record keeping services. The City is responsible for paying premiums while employees must contribute for costs of dependent coverage. The trust sets rates through projection of claims cost and administrative expenses, along with a determination of sufficient fund balance to maintain rate stability and trust integrity. Should the Consortium become insolvent or otherwise unable to discharge its liabilities, the participating entities shall be assessed a pro rata share. This assessment may not exceed the amount of each participating entity's annual contribution. Benefit payments to beneficiaries are limited to the amount in the trust. Should the assessment not yield sufficient funds to pay outstanding claims, the trust's obligation to pay claims is limited to the amount in the trust after assessment and the trustees and the participating entities have no further obligation of any type.

The City uses two Internal Service Funds, Insurance Reserve Fund and Workers Compensation Fund, to account for the financing of its risk of loss relating to claims. Charges assessed to the funds are based on historical claims, exposure to risk, and funding necessary reserves. Annually, the City estimates the liabilities for unpaid claims using a historical cost information method. Claims and expenses are recognized when it is probable that a loss has been incurred, and the amount of the loss can be reasonably estimated. Claims accounted for include, reported and paid claims, reported but unpaid claims, and incurred but not reported (IBNR) claims. The funds' claims liabilities are presented below.

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

Fiscal Year	Insurance Reserve Fund				Workers Compensation Fund			
	Beginning of Year Liability	Claims and Changes In Estimates	Claim Payments	End of Year Liability	Beginning of Year Liability	Claims and Changes In Estimates	Claim Payments	End of Year Liability
2014-15	\$ 71,801	\$ 24,363	\$ 24,994	\$ 71,170	\$ 1,429,195	\$ 1,691,704	\$ 993,470	\$ 2,127,429

K. Construction Commitments

The City has active construction projects as of June 30, 2015. At year-end the government's commitments with contractors for specific projects are as follows:

Construction Commitments	Original Contract	Spent to Date	Remaining Commitment
Streets	\$ 492,372	\$ 89,252	\$ 403,121
Water System	738,432	-	738,432
	<u>\$ 1,230,805</u>	<u>\$ 89,251</u>	<u>\$ 1,141,553</u>

L. Change in Accounting Principle

Net position as of July 1, 2014, has been restated as follows for the implementation of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, as amended by GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*.

	Governmental Activities	Business-type Activities	Major Enterprise Water Fund	Major Enterprise Wastewater Fund	Nonmajor Enterprise Funds
Net position as previously reported at June 30, 2014	\$ 260,406,806	\$ 215,343,823	\$ 100,881,391	\$ 108,913,389	\$ 6,430,409
Prior period adjustment-implementation of GASB 68:					
Net pension liability (measurement date as of June 30, 2013)	(109,984,648)	(14,265,642)	(6,741,768)	(4,802,141)	(2,721,733)
Deferred outflows-city contributions made during fiscal year 2014	<u>7,895,966</u>	<u>826,189</u>	<u>390,447</u>	<u>278,114</u>	<u>157,628</u>
Total prior period adjustment	(102,088,682)	(13,439,453)	(6,351,321)	(4,524,027)	(2,564,105)
Net position as restated, July 1, 2014	<u>\$ 158,318,124</u>	<u>\$ 201,904,370</u>	<u>\$ 94,530,070</u>	<u>\$ 104,389,362</u>	<u>\$ 3,866,304</u>

M. Deficits in Fund Equity

At June 30, 2015, no funds, as shown in the basic financial statements, were in a deficit position. The Equipment Maintenance and Workers Compensation Internal Service Funds, as shown in the Combining Statement of Net Position in Other Supplementary Information, have deficit balances of \$206,968 and \$1,269, respectively, at June 30, 2015. The City intends to adjust its internal charges in future fiscal years to eliminate these deficits.

City of Yuma, Arizona
NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended June 30, 2015

N. Subsequent Event

On October 6-7, 2015, the City issued Municipal Property Corporation Senior Lien Utility System Revenue Refunding Bonds, \$89,675,000; Senior Lien Road tax and Subordinate Lien Excise Tax Revenue Refunding Bonds, \$40,280,000; and Senior Lien Excise Tax Revenue and Revenue Refunding Bonds, \$48,105,000. The bonds refunded the 2007 Utility Series, the 2007 D Series (Road), the 2007 B Series and the 2003 B Series bonds. In addition to refunding earlier series bonds, the Senior Lien Excise Tax Revenue Bonds provided \$24,150,000 for two capital projects: the Pacific Avenue Athletic Facility and a new Fleet Services Maintenance Facility. The Utility, Senior Lien Road Tax, and Senior Lien Excise Tax Bonds have an average life of 9, 6 and 11 years and were sold at true interest costs of 2.87%, 2.38% and 3.21%, respectively.

III. CONTINGENT LIABILITIES

A. Pending Litigation

The City is contingently liable in respect to lawsuits and other claims incidental to the ordinary course of its operations. It is the opinion of the City management, based on the advice of the City Attorney, that such matters will not have a material adverse effect on the City's financial position at June 30, 2015.

B. Compliance

The City participates in federally-funded and state-funded programs administered by various government agencies. The programs included in these financial statements may be subject to program compliance and/or financial monitoring by the granting agency or its representatives. The amount, if any, of expenditures that may be disallowed by the granting agencies cannot be determined at this time.

City of Yuma, Arizona
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
For the Year Ended June 30, 2015

A. Pension Plan Schedule Note

1. Actuarially Determined Contribution Rates

Actuarial determined contribution rates for PSPRS are calculated as of June 30 two years prior to the end of the fiscal year in which contributions are made. The actuarial methods and assumptions used to establish the contribution requirements are as follows:

Actuarial cost method	Entry age normal
Amortization method	Level percent closed for unfunded actuarial accrued liability, open for excess
Remaining amortization period as of the 2013 actuarial valuation	23 years for unfunded actuarial accrued liability, 20 years for excess (2012 actuarial used 24 years for unfunded actuarial accrued liability, 20 years for excess)
Asset valuation method	7-year smoothed market value, 80%/120% market
Actuarial assumptions:	
Investment rate of return	In the 2013 actuarial valuation, the investment rate of return was decreased from 8.0% to 7.85%
Projected salary increases	In the 2013 actuarial valuation, projected salary increases were decreased from 5.0%-9.0% to 4.5%-8.5% for PSPRS
Wage growth	In the 2013 actuarial valuation, wage growth was decreased from 5.0% to 4.5% for PSPRS
Retirement age	Experience-based table of rates that is specific to the type of eligibility condition. Last updated for the 2012 valuation pursuant to an experience study of the period July 1, 2006 - June 30, 2011.
Mortality	RP-2000 mortality table (adjusted by 105% for both males and females)

B. Schedule of Agent OPEB Plans' Funding Progress Note

1. Factors That Affect the Identification of Trends

Beginning in fiscal year 2014, PSPRS established separate funds for pension benefits and health insurance premium benefits. Previously, the plans recorded both pension and health insurance premium contributions in the same Pension Fund. During fiscal year 2014, the plans transferred prior-year health insurance premium benefit contributions that exceeded benefit payments from each plan's Pension Fund to the new Health Insurance Fund.

C. Budgetary Reporting and Budgetary Basis of Accounting

Budgets are adopted on a basis substantially consistent with generally accepted accounting principles (GAAP), with the exception of the Enterprise Funds and Internal Service Funds for which budgets are adopted. As such, reconciliations between budgetary schedules and financial statements are not necessary for governmental funds. For Enterprise Funds and Internal Service Funds, expenditures related to debt service and to capital acquisition are budgeted in the same manner as governmental funds. Depreciation is not budgeted. Reconciliations from budgetary schedules and financial statements of these funds are presented on the face of the respective budgetary statements.

D. Excess of Expenditures Over Appropriations

The City's expenditures exceeded appropriations in two funds. The Debt Service Fund had expenditures exceed appropriations by \$7,781 due to Fiscal Agent fees not being budgeted. An increase in Workers Compensation claims caused expenditures to exceed appropriations by \$245,577 in the Workers Compensation Fund. In each case, the fund was not significantly impaired by the excess expenditures.

**OTHER SUPPLEMENTARY
INFORMATION**

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

Special Revenue Funds account for the proceeds of special revenue sources that are used to finance projects or activities as required by law or contractual agreements.

Local Transportation Assistance To record the receipts and uses of monies originating from Arizona Lottery sales. These monies are restricted to transportation uses.

Public Safety Tax To account for the two-tenths percent sales tax designated for public safety and criminal justice facilities and equipment.

Highway Users Revenue. To account for the state-shared gasoline taxes designated for maintenance and construction of roadways.

Grants Fund. The Grant Fund accounts for all of the federal and state grants provided to the City with the exception of the grants received for the Yuma Regional Communication System (recorded in Radio Communications Enterprise Fund), the Water Fund (recorded in Water Enterprise Fund), the Community Development Block Grant, and the Economic Development grant.

Community Redevelopment Fund This fund accounts for the financial activities of Community Development Block Grant and the Economic Development Grant.

Two Percent Tax To record the financial activities of the Two Percent Special Revenue Excise Tax on hotel, motel, restaurant and bar sales. This tax can finance the operations of the Art Center, the Civic and Convention Center, Baseball Complex, Golf Courses, the Yuma Crossing Area and Convention and Tourism.

Yuma Mall Maintenance To record the special maintenance levy for the Yuma Downtown Mall District. The assessment supports cleaning, maintenance, landscaping and utility costs of common areas. Costs in excess of the assessment are financed by a transfer from the General Fund.

Capital Projects Fund

The Capital Projects Fund is used to account for and report financial resources to be used for acquisition or construction of capital facilities and other capital assets (other than those financed by General, Special Revenue, or Proprietary Funds).

NONMAJOR ENTERPRISE FUNDS

Enterprise funds are used to account for activities that are financed and operated in a manner similar to private businesses. The intent of the City Council is that the costs of providing the goods or services be recovered primarily through user charges. Enterprise funds are designed so that creditors, legislators and the general public can evaluate the performance of the municipal enterprise on the same basis as commercial enterprises in the same industry.

Solid Waste To record the financial activities of the city-owned and operated residential garbage collection service.

Radio Communication To record the financial activities of the Radio Communication Fund.

Desert Hills Golf Course To account for the financial activity of the operation of the Desert Hills and Desert Hills Par 3 Municipal Golf Courses.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for the financing of goods and services provided by one department to other departments of the City and to other governmental units, on a cost-reimbursement basis.

Equipment Replacement To account for the associated costs of purchasing vehicles and equipment for rental to other departments.

Equipment Maintenance To record the financial activity of fleet maintenance operations.

Insurance Reserve To record the financial activity related to insurance and risk retention for liability and casualty issues.

Employee Benefits Trust To record the financial activity of a self-funded insurance trust fund that covers eligible employees and dependent health, life, and dental claims.

Workers Compensation To record the financial activity of a self-funded worker's compensation insurance trust fund.
