## Spotlight: Communications

Gilbert Police Department's Communications Division plays an important public safety role for the Town of Gilbert, its residents and visitors alike. This section of the Gilbert Police Department, when fully staffed, has 37 full time employees and one part time position.

The Communications Center is a twenty-four hour, seven days per week operation. The Communications team is comprised of 911 operators, dispatchers and supervisors who are responsible to receive and dispatch calls from emergency (911) and non-emergency telephone lines from the public requesting police services.

The Gilbert Police Department phone system is comprised of eight 911 lines, six administrative lines, five back up lines and two specialty direct lines connected to agencies we frequently coordinate with. In FY 2016, GPD Communications answered 58,796 incoming 911 calls and 150,057 administrative calls. 911 calls were answered within ten seconds on

average 92% of the time, with administrative calls faring only slightly lower at 91%. Callers run the gamut from the most serious of life threatening emergencies to routine and sometimes even comical inquiries. 911 operators endeavor to answer calls as quickly as possible. During the most serious of calls, 911 operators are challenged to determine the location and nature of the emergency within the first thirty seconds of conversation. This can be incredibly difficult when working with callers who are often panicked, confused, and frightened. Once the call-for-service is received and managed by the 911 operator it is routed to a police dispatcher where it is then sent out into the field for response.

Dispatchers are tasked with dispatching all police calls-for-service and tracking all emergency responder activities. In FY 2016, dispatchers assigned 59,020 citizen generated calls for service. Of those, 617 were considered the most serious of life threatening emergencies. On average, those 617 were dispatched with details of the emergency provided to the closest available units within 14.54 seconds of receipt by the dispatcher. Officers initiated an additional 67,965 events from self-initiated or proactive activity bringing the total of dispatcher managed calls to just over 126,000.

The Communication Center team is highly skilled and driven to provide the best possible service to their customers. Team members work in a collaborative environment and must complete extensive on-the-job training prior to being released to work independently. Training can range from six months to a year depending upon the position the employee

is training for as well as a number of other variables within the work environment. Team members must possess exceptional customer service skills with equal technical proficiency.

## ***Awards and Accolades***

The Communications Team's hard work has not gone unnoticed. They are the recipients of multiple service awards including Distinguished Service and Distinguished Team awards – despite a number of staff vacancy challenges.

- Recognized for participation in the Department's Data Driven Approach to Traffic Safety program or DDACTS program. This traffic enforcement program produced 2,600 traffic stops and 100 arrests. All of these citizen contacts and resultant activities were supported behind the scenes by the Communications Center team.
- Victim called 911 after falling into a pool of chemicals. Unable to relay his exact location, the team tackled this challenge using quick action and technology to guide public safety responders to the victim's exact location.
- An under construction apartment complex, located directly across from the Gilbert Police Department, was engulfed in a five-alarm fire (see inset photo). This event presented an enormous strain on all public safety resources including the Communications Center team who experienced a front row seat. During the event the team managed a 300% increase in call volume as well as the logistics of multi-agency radio coordination, and neighborhood evacuations. The event's proximity to the Gilbert Civic campus impacted all fiber optic communication lines - junction box suffered fire damage causing 911 calls to be rerouted. A homicide also occurred during this time adding a second complex event into the mix.
  - The team members received individual awards with special emphasis given to supervisor Craig Robinson, who was recognized and praised for his strong leadership and quick actions.

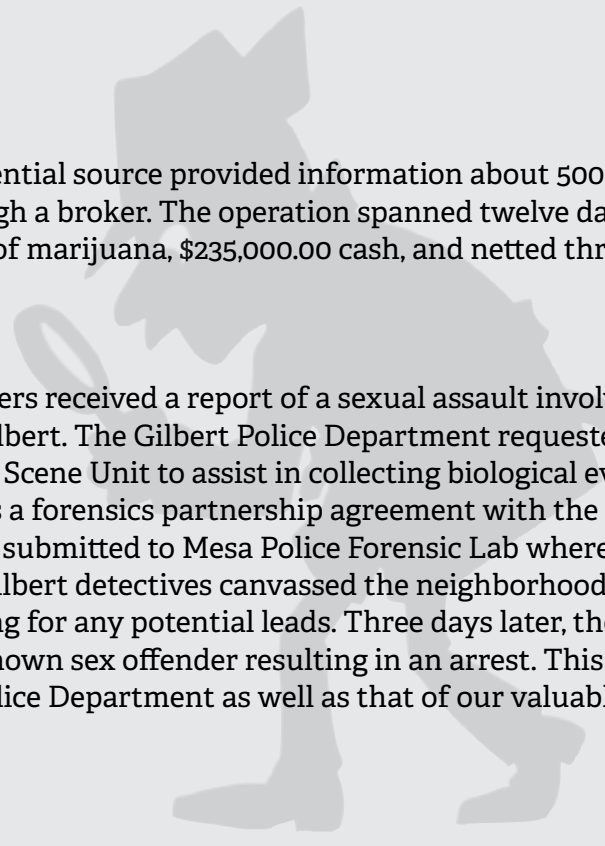

## Spotlight: Body Worn Camera Program

Gilbert Police Department started a testing and evaluation program for body worn cameras (BWC) in the fall of 2014 with full implementation during FY 2016. With full implementation came the responsibility of processing a new style of record for public and law enforcement release. Digital video footage must be reviewed and often edited (i.e. edited for audio and sound redaction) prior to public release to ensure statutory compliance while balancing the public's privacy interests. The process for managing digital data varies significantly from that of paper records. Members of the department's Teleserve Unit and Records Unit are responsible for managing BWC footage prior to its release.

- During FY 2016 the Central Records Team managed just over 1,550 record requests.
- During FY 2016 Police Support Technicians logged over 4,400 reviewing and editing hours.

## Spotlight: Investigations Case Review

In June 2016 a confidential source provided information about 500 lbs. of marijuana that was to be sold through a broker. The operation spanned twelve days and resulted in seizure of the 500 lbs. of marijuana, \$235,000.00 cash, and netted three criminal arrests.

In March of 2015 officers received a report of a sexual assault involving a juvenile victim at a park in south Gilbert. The Gilbert Police Department requested the assistance of the Chandler Police Crime Scene Unit to assist in collecting biological evidence. The Gilbert Police Department has a forensics partnership agreement with the Mesa Police Forensic Lab. The evidence was submitted to Mesa Police Forensic Lab where it was expedited. While awaiting lab results, Gilbert detectives canvassed the neighborhood conducting numerous interviews and scouring for any potential leads. Three days later, the lab results returned with a DNA hit on a known sex offender resulting in an arrest. This case exemplifies the work of the Gilbert Police Department as well as that of our valuable law enforcement partners.

## Community Livability

**Strategic Goal:** Utilize data and technology to effectively and efficiently deploy personnel and resources to provide a timely response to calls for service (CFS).

**Supporting Goal:** Establish average response time targets for each identified CFS priority level. (Note: “Average CFS response time” is defined as the time period from when the CFS is received to responder arrival).

PRIORITY LEVEL	Target Goal	Q1	Q2	Q3	Q4	Average
0 Emergency	5.5 min	4:13	4:05	4:10	4:16	4:11
1 Urgent	6.5 min	6:13	6:28	6:23	6:34	6:24

4 Report Only	70%	94.3%	88.7%	92.8%	91.9%	97.7%

**Supporting Goal:** Establish average dispatch time targets for CFS priority level 0 and 1 (Note: “Average dispatch time” is defined as from time call is received to dispatching/assigning units).

PRIORITY LEVEL	Target Goal	Q1	Q2	Q3	Q4	Average
0 Emergency	90 sec	23 sec	23 sec	21 sec	27 sec	23 sec
1 Urgent	90 sec	43 sec	41 sec	43 sec	42 sec	42 sec

**Supporting Goal:** Meet established average dispatch time targets as follows:

- 90% of target for Priority 0 calls
- 90% of target for Priority 1 calls

PRIORITY LEVEL	Target Goal	Q1	Q2	Q3	Q4	Average
0 Emergency	90%	100.0%	99.4%	98.9%	98.8%	99.3%
1 Urgent	90%	92.5%	93.5%	91.7%	92.1%	92.5%

**Supporting Goal:** Answer 90% of 911 calls within 10 seconds.

Target Goal	Q1	Q2	Q2	Q4		FY14	FY15
90%	93.0%	91.8%	92.2%	92.0%		93.1%	92.3%

**Supporting Goal:** Answer 90% of non-emergency calls within 30 seconds.

Target Goal	Q1	Q2	Q2	Q4		FY14	FY15
90%	99.6%	99.6%	99.6%	99.6%		99.7%	99.6%

## Technology Leader

**Strategic Goal:** Effective use of technology to enhance intelligence led policing.

**Supporting Goal:** Maintain the lowest overall crime rate, based on total UCR Part I offenses per 1,000, of communities with a population greater than 100,000 in Arizona for calendar year. Achieve ranking within top five 100 largest US cities with the lowest overall crime rates based on total calendar year Part I offenses per 1,000 residents.
