Section A Overview

OVERVIEW of the FIVE-YEAR CAPITAL IMPROVEMENT PROGRAM

A Capital Improvement Plan (CIP) is a community planning and fiscal management tool used to coordinate the location, timing, and financing of capital improvements over a five year period. Capital improvements refer to major, non-recurring physical expenditures such as land, buildings, public infrastructure, and equipment, all with a cost of \$100,000 or more. The CIP is necessary to improve public facilities and infrastructure assets for the economic, aesthetic, and functional viability to our City. The plan identifies our City's specific capital needs based on various long-range plans, goals, and policies and also provides analysis for decision making for City officials and strategic capital planning efforts with City departments.

The City of Tucson's practice is to develop, maintain, and revise when necessary a continuing Capital Improvement Program that covers a five-year planning horizon. This budget document covers Fiscal Years 2016/17 through 2020/21 and identifies capital projects during this timeframe to include the funding sources available for projected expenditures.

The objective of this overview is to give the reader a brief look into the CIP which contains the following financial and narrative information:

- Capital Improvement Program Process
- Budget Highlights
- Summary of Expenditures and Funding Sources
- Department Programs
- Impact on the Operating Budget

CAPITAL IMPROVEMENT PROGRAM PROCESS

Defining a Capital Improvement

To be included in the CIP, projects need to meet one of the following criteria:

- Construction of a new City asset or expansion of an existing City-owned facility, including preliminary planning and surveys, cost of land, staff and contractual services for design and construction, and related furnishings and equipment.
- Initial acquisition of a major equipment system which will become a City asset, with a cost of \$100,000 or more and a useful life of at least six years.
- Major renovation or rehabilitation of an existing City-owned facility that requires an expenditure of \$100,000 or more and will extend the life of the original City asset.

Exceptions have been made for inclusion of a few projects that do not meet the above criteria (Sun Tran buses, Sun Van paratransit vans, and street improvements) to make the planning, funding, and acquisition of these purchases more visible to the public and the governing body.

Steps from Submittal to Approval

In December 2015, the CIP process began with the Office of Budget and Internal Audit providing direction and guidelines to department liaisons. Departments were given approximately seven weeks to develop their CIP requests based on their assessment of needs, existing bond authorizations, and grant awards. Departments were directed to include only projects with secured funding. Exceptions were made for annual federal grant appropriations from the Federal Transit Administration (FTA), other pending awards that would require budget capacity (e.g., any non-federal grant or contribution), and future enterprise revenue bonds. Department requests were reviewed by the Office of Budget and Internal Audit and applicable revisions were made.

The proposed CIP was presented to the Mayor and Council on April 19, 2016, along with the Recommended Fiscal Year 2016/17 Budget. The first year of the CIP was included as part of the City's Recommended Budget.

OVERVIEW of the CAPITAL IMPROVEMENT PROGRAM

The Mayor and Council reviewed and discussed both the operating and capital budgets at Study Sessions in May. Two public hearings were held prior to the adoption of the Fiscal Year 2016/17 budget on June 7, 2016.

BUDGET HIGHLIGHTS

This proposed Five-Year CIP totals \$849.9 million; \$269.7 million is budgeted in the first year of the CIP and is a component of the Fiscal Year 2016/17 Adopted Budget. Notable projects include the following:

Aerospace-Sonoran Corridor Transmission Main Extension. Support future expansion needs along the Sonoran Corridor by changing the relocation of the previously planned water treatment facility and modifying piping to support the new facility. Installation of a reservoir and booster facility will provide fire service flows to Section 31 and the Aerospace Parkway. A main extension along the Aerospace Parkway will provide water to World View and additional customers. This project will begin in Fiscal Year 2016/17 and will be completed in Fiscal Year 2018/19. Total project costs are estimated to be \$9.3 million with \$583,000 budgeted in Fiscal Year 2016/17.

Compressed Natural Gas (CNG) Plant. Replace the existing aged CNG Plant with a new plant that has the equipment necessary to meet industry vehicle fueling standards and provide backup emergency generator power to sustain plant operations in the event of a power outage. The project, when complete, will better serve both Sun Tran and Environmental Services' planned expansion of the CNG Fleet. Total project costs are estimated to be \$11.3 million with \$698,900 budgeted in Fiscal Year 2016/17. The project is funded with certificates of participation, Environmental Services user revenues, federal grants, and General Services Internal Services Funds.

Reid Park Zoo Health Center. Design and construct an addition to the existing veterinary facility at the Reid Park Zoo. This project is necessary as the existing facility is extremely dated (approximately 40 years old) and is no longer large enough to accommodate the zoo's current collection of animals. The facility is also needed to help meet the standards set by the Association of Zoos and Aquariums. Total project costs are estimated at \$3.5 million. The Reid Park Zoological Society is raising the funds for this project.

Street Improvements: Proposition 409. Restore, repair, and resurface streets inside Tucson City limits with the \$100 million bond program approved by voters in November 2012. Street resurfacing will be over a five-year period and approximately 85% of bond funds will be allocated to major streets and 15% will be allocated to neighborhood streets. Accordingly, the Tucson Department of Transportation's (TDOT) conservative road repair estimates and a favorable bidding environment resulting from lower material costs and falling gas prices, the arterial road mileage repairs authorized by the bond package are now roughly estimated to cost only \$60 million. As a result, the Bond Oversight Commission recommended, and the Mayor and Council unanimously adopted, an allocation of an extra \$40 million in bonded revenue to be spent on an expanded list of arterial and residential road repairs. With the additional capacity, TDOT added 550 lane miles to the program, resulting in roadway improvements to about 45 more roadway segments. Total project costs are estimated to be \$99.0 million with \$19.0 million budgeted in Fiscal Year 2016/17 (\$1.0 million is for the bond issuance costs).

Tenth Avenue Maintenance Facility. Design and construct a new facility and make improvements at the Environmental Services Container Maintenance Facility located at South Tenth Avenue. A new facility is needed for the welding, storage, and operations maintenance staff. Improvements include demolition, earthwork, infrastructure, and drainage. Safety improvements are necessary to the vacant, former transfer station building. Project design began October 2013. The construction phase started in Fiscal Year 2015/16 and is scheduled to finish in Fiscal Year 2016/17. Total project costs are estimated to be \$4.9 million with \$4.3 million budgeted in Fiscal Year 2016/17. The project is funded from the Environmental Services Fund.

SUMMARY of EXPENDITURES and FUNDING SOURCES

Only funded projects, except as noted earlier, are presented in this Five-Year CIP. The objective is to clarify for the community what the City can do to meet its needs with the limited funds available.

OVERVIEW of the CAPITAL IMPROVEMENT PROGRAM

Expenditures

The proposed Five-Year CIP for Fiscal Years 2016/17 through 2020/21 totals \$849.9 million. The majority of the projects are in the Public Utilities category, which includes Environmental Services and Tucson Water. The majority of expenditures are in the Community Enrichment and Development category, which includes Housing and Community Development, Parks and Recreation, and Transportation.

Five-Year CIP Summary of Expenditures

(in \$000s)	Adopted Year 1 FY 16/17	Projected Five- Year Program
Community Enrichment and Development	\$ 196,225.9	\$ 590,974.7
Public Safety and Justice Services	4,015.8	4,015.8
Public Utilities	66,873.0	252,381.0
Support Services	1,798.9	1,798.9
General Government	750.0	750.0
Total	\$ 269,663.6	\$ 849,920.4

This Five-Year CIP is \$166.8 million less than the approved Five-Year CIP for Fiscal Years 2015/16 through 2019/20.

Fiscal Year 2016/17 includes \$83.1 million carried forward for project expenditures not spent as planned during Fiscal Year 2015/16 and \$186.6 million in new funding. The CIP presumes that all of the Fiscal Year 2016/17 budget will be spent in that year.

CIP expenditures decrease significantly after Fiscal Year 2016/17 from \$269.7 million in Fiscal Year 2016/17 to \$50.6 million by Fiscal Year 2020/21.

For a summary of expenditures by department and fiscal year, see Table I, Five-Year CIP Summary by Department on page E-8.

OVERVIEW of the CAPITAL IMPROVEMENT PROGRAM

Funding Sources

This five-year program of \$849.9 million is funded primarily from Capital Projects Funds.

Five-Year CIP Summary of Funding Sources

(in \$000s)	Adopted Year 1 FY 16/17	Projected Five- Year Program
Capital Projects Funds	\$ 156,303.2	\$ 484,540.0
Enterprise Funds	67,218.0	252,726.0
General Fund	890.9	890.9
Internal Service Fund	1,453.9	1,453.9
Special Revenue Funds	43,797.6	110,309.6
Total	\$ 269,663.6	\$ 849,920.4

Capital Projects Funds. (This category, which includes the City bond funds, is 57% of the five-year CIP). These funds will provide \$484.5 million over the next five years. Regional Transportation Authority (RTA) funds of \$286.5 million account for the largest portion of this category. Next are General Obligation Street Bonds of \$53.8 million. Pima County bonds will provide \$43.9 million. Capacity of \$43.7 million was added for road, regional park, and communications improvements along with \$50.7 million from regional Highway User Revenue Funds (HURF) distributed by the Pima Association of Governments (PAG). Certificates of Participation (COPs) account for \$5.9 million.

Enterprise Funds. Enterprise Funds total \$252.7 million or 30% of the Five-Year CIP. Environmental Services totals \$21.7 million. Tucson Water accounts for the remaining \$231.0 million: \$137.1 million from user revenues, \$27.0 million from Water's Obligation funds, and \$66.9 million from future Water Revenue Bonds.

General Fund. This category totals \$890,900 or less than 1% of the Five-Year CIP and is funding citywide technology upgrades.

Internal Service Funds. This category totals \$1.5 million or less than 1% of the Five-Year CIP and is funding the CNG fueling upgrade and the pipeline.

Special Revenue Funds. This category totals \$110.3 million or 13% of the Five-Year CIP. Included in this category are federal grants of \$78.0 million. The General Fund provides \$11.2 million for Mass Transit. The City's HURF allocation accounts for \$19.7 million, and \$1.4 million comes from fees/charges and civic contributions.

For more detail on funding sources, see Table II, Five-Year CIP Summary by Funding Source beginning on page E-9.

OVERVIEW of the CAPITAL IMPROVEMENT PROGRAM

DEPARTMENT PROGRAMS

Programs are briefly presented in this section by departments which are listed alphabetically within their budget reporting categories, also known as service areas: Community Enrichment and Development, Public Safety and Justice Services, Public Utilities, Support Services, and General Government. For a further listing of the projects by departments see pages E-20 through E-34.

Community Enrichment and Development

The Community Enrichment and Development category, which accounts for 69.6% of the total Five-Year CIP, contains projects managed by Housing and Community Development, Parks and Recreation, and Transportation.

Housing and Community Development. This department's five-year program of \$1.0 million consists of one project. Funding is provided by the Community Development Block Grant Fund (CDBG).

Parks and Recreation. Parks' five-year CIP of \$8.9 million contains 21 projects. These projects are funded primarily from impact fee revenues of \$5.1 million. Civic contributions and certificates of participation provide for the remaining \$3.8 million. These funds provide for a wide range of projects: improvements at regional parks, urban greenway improvements, and amenities at neighborhood parks.

Transportation. The five-year Transportation program of \$581.0 million includes four program areas: Public Transit for \$66.6 million, Streets for \$496.0 million, Street Lighting for \$16.7 million, and Traffic Signals for \$1.7 million. Because there are insufficient funds to meet all of Transportation's needs, this CIP allocates available funding to the highest priority projects.

The largest funding source for Transportation's projects is the funding from the RTA plan which totals \$286.5 million. General Obligation Street Bonds total \$53.8 million. Federal funding provides another significant portion totaling \$75.6 million: \$55.5 million for transit projects and \$20.1 million for street projects. Other funding sources are Pima County bond funds of \$43.9 million, regional HURF from PAG of \$50.7 million, City HURF of \$19.7 million, and impact fee revenues of \$38.3 million. Park Tucson Fees/Charges account for \$1.3 million. The remaining \$11.2 million is from the General Fund for Mass Transit, which is used as the local match for federal transit grants.

OVERVIEW of the CAPITAL IMPROVEMENT PROGRAM

Public Safety and Justice Services

The Public Safety and Justice Services category, which accounts for less than 1% of the total Five-Year CIP, contains projects managed by City Court and Tucson Fire.

City Court. City Court's five-year program of \$2.3 million consists of one project, Court building remodel. This project is funded with certificates of participation in the Capital Improvement Fund.

Tucson Fire. Tucson Fire's five-year program of \$1.7 million consists of two projects: the Alerting System and the Park Ajo Communications Center Administrative Phone System. Funding is provided by the General Fund, the Miscellaneous Federal Grant Fund, and Public Safety impact fees.

Public Utilities

The Public Utilities category, which accounts for 29.6% of the total Five-Year CIP, contains projects managed by Environmental Services and Tucson Water.

Environmental Services. The department's five-year program of seven projects totals \$21.4 million. Environmental Services' CIP is funded from Environmental Services revenues.

Tucson Water. The five-year Tucson Water CIP of \$231.0 million includes \$213.3 million of improvements to the potable water system and \$17.7 million of improvements for the reclaimed water system. Tucson Water's CIP is funded with future water revenue bond authorization of \$67.0 million, operation funds of \$137.1 million, 2015 Revenue Obligation funds of \$10.3 million, and 2016 Revenue Obligation funds of \$16.6 million.

Support Services

The Support Services category, which accounts for less than 1% of the total Five-Year CIP, contains two projects managed by General Services.

General Services. The five-year General Services program of \$1.8 million will bring to completion the CNG fueling upgrade and the CNG Pipeline Southwest Gas (SWG) Bypass. General Services' CIP is funded with Environmental Services Funds and Internal Service Funds.

General Government

The General Government category, which accounts for less than 1% of the total Five-Year CIP, contains two projects that are budgeted here because they are beyond the oversight scope of a single department. The Technology Upgrade Project will upgrade the City's multiple enterprise related systems to a current standard supported by the vendor. The Kronos Citywide System Project will implement an Enterprise Timekeeping management system to automate time keeping for all City departments. Both projects are funded by the General Fund.

IMPACT on the OPERATING BUDGET

The completion of many capital projects is the beginning of recurring costs for the operating budget. Operating and Maintenance (O&M) impacts from projects in this Five-Year CIP total \$95,900 for Fiscal Year 2016/17, increasing to a five-year total of \$3.2 million through Fiscal Year 2020/21. The General Fund O&M impacts in Fiscal Year 2016/17 are for the opening of new or expanded facilities.

For summaries and project detail of O&M impacts by department and funding source over the next five years, see Table III, Summary of CIP Impact on the Operating Budget on page E-11.

**Table III. Environmental Services: CIP Impact
on the Operating Budget
(\$000)**

The impact of this five-year CIP on future operating budgets is estimated to be \$273.0 in Fiscal Year 2017/18, increasing to \$546.0 by Fiscal Year 2020/21 for a five-year total of \$1,911.0. When the following projects in the CIP are completed, they will require funding for annual operations. The estimated impact of these projects on the operating budget over the next five years is shown in the table below.

Project Name	Adopted		Projected Requirements			Five Year Total
	Year 1 FY 16/17	Year 2 FY 17/18	Year 3 FY 18/19	Year 4 FY 19/20	Year 5 FY 20/21

Section B

Department Programs

City Court

Capital Improvement Program Department Statement

FY 2016/17 through FY 2020/21

Department: City Court

Five-Year Total: \$2,336,000

The City Court five-year Capital Improvement Program of \$2.3 million addresses the need of renovating and upgrading the City Court building. Renovations include resurfacing of all exterior walkways; exterior wall sealing of the entire building to eliminate water leaks during rain; improvements to the entrance of the building to facilitate traffic flow; interior painting and carpet replacement. Upgrades are being made to boiler systems and Public Service counters to meet Americans with Disabilities Act (ADA) compliance.

City Court

(\$000)

Court Building Remodel										Project ID: C106	
Description:										Start Date: 7/14	
Renovate and upgrade the existing court building. Renovations would include resurfacing of all exterior walkways; exterior wall sealing of the entire building to eliminate water leaks during rain; improvements to the entrance of the building to facilitate traffic flow; interior painting and carpet replacement. Upgrading boiler systems and public service counters to meet Americans with Disabilities Act (ADA) compliance.										End Date: 6/17	
										Location: Ward 1	
Justification:											
Repair and improve the existing city court building to keep it operational for the next 15 years.											
City-Wide Priorities: Customer Service and Maintenance and Renovation of City Assets.

Environmental Services

Capital Improvement Program Department Statement

FY 2016/17 through FY 2020/21

Department: Environmental Services

Five-Year Total: \$21,353,000

The CIP is Environmental Services' avenue to plan, establish and fund the City's need to safeguard the community from environmental impacts, improve department and landfill facilities, create future landfill capacity, and comply with environmental protection regulations. Projects directly reflect the City's efforts in meeting the long-term needs of the community, enhancing neighborhoods and downtown by restoring the natural environment and removing environmental barriers to redevelopment.

The Los Reales Landfill is a regional facility serving residents and businesses of Tucson and Pima County. It is the only active landfill owned and managed by the City of Tucson. Improvements to the landfill were master planned in phases and include perimeter fencing, utility infrastructure and site facilities for scales, landfill administration, self-haulers, recycling, household hazardous waste, and a learning center.

The five-year program is funded solely from the department's revenues. Projects are divided into the following categories:

Administration. The Replacement Utility Billing and Operations System is a collaborative project with the City of Tucson Water Department to upgrade the current Naviline billing system.

Facilities and Landfill Construction. Projects in this category include improvements to the department's Container Maintenance Facility, construction of the Self Hauler Facility, and a landfill buffer on the northeastern berm with landscaping at the Los Reales Landfill.

Environmental Capital. The Silverbell Landfill Water Quality Revolving Fund Pump and Treat System is a regulatory project to remove landfill contamination from the groundwater that will protect down gradient wells and the Sweetwater Recharge Facility.

Environmental Services

(\$000)

Los Reales Landfill Buffer - Northeastern Berm and Landscape									Project ID: Q334		
Description:									Start Date: 4/16		
Design and construct an earthen berm to include desert landscaping for the northeastern buffer adjacent to the landfill entrance on Craycroft Road.									End Date: 6/17		
									Location: Ward 5		
Justification:											
The construction of the earthen berm with landscaping will provide a buffer along the Craycroft Road landfill entrance. The berm will provide a visual screen for undeveloped property to the east of the landfill entrance and act as a noise reduction barrier for traffic entering the landfill.											
City-Wide Priorities: Health and Safety and Maintenance and Renovation of Existing City Assets.

Los Reales Landfill East Property Acquisition									Project ID: Q413		
Description:									Start Date: 7/13		
Purchase land located south of Los Reales Road and east of Craycroft Road.									End Date: 6/17		
Justification:									Location: Ward 5		
The land will serve as a buffer for neighboring homes.											
City-Wide Priorities: Health and Safety and Maintenance and Renovation of Existing City Assets.

Los Reales Landfill Self Hauler Facility Description: Design and construct a residential self-hauler facility. The design and construction will begin in Fiscal Year 2017. This is the second phase of the 80-acre development. Justification: Having a dedicated location for customer drop-off, away from the landfill's working face will increase landfill safety and efficiency, reduce litter and dust and accommodate future recycling programs. City-Wide Priorities: Balanced Budget, Customer Service, and Health and Safety.										Project ID: Q329		
										Start Date: 7/15		
										End Date: 6/18		
										Location: Ward 5

Silverbell Landfill Final Cover System - South Cell										Project ID: U319	
Description: Design and construct the final landfill cover system for the South Cell at the Silverbell Landfill. Design will begin in Fiscal Year 2018, followed by construction to be completed in Fiscal Year 2019. Security fencing will be installed to secure the groundwater treatment system compound and to prevent illegal dumping in the future.										Start Date: 7/16	
										End Date: 6/19	
										Location: Ward 1	
Justification: This landfill closure project will comply with the Arizona Department of Environmental Quality (ADEQ) closure/post closure municipal solid waste landfill requirements. Final landfill closure will protect against the release of hazardous constituents to the environment per ADEQ guidelines											
City-Wide Priorities: Health and Safety.

Silverbell Landfill Water Quality Assurance Treatment Facility										Project ID: U320	
Description: Design and construct groundwater treatment facility and associated infrastructure at the closed Silverbell Landfill. Improvements include extraction wells, treatment plant and conveyance structures. Final project design to begin in late 2016. Construction phase is scheduled for 2018, with facility operation spanning 20 years.										Start Date: 7/15	
										End Date: 6/18	
										Location: Ward 1	
Justification: This project will meet state regulatory requirements to remove landfill volatile organic compound contamination from the groundwater. In addition, it will protect down gradient wells and the City's Sweetwater Recharge Facility.											
City-Wide Priorities: Balanced Budget, Health and Safety, and Maintenance and Renovation of Existing City Assets.

Tenth Avenue Maintenance Facility**Description:**

Design and construct improvements at the Container Maintenance Facility located at South Tenth Avenue. Improvements include demolition, earthwork, infrastructure, drainage, and installation of a new building.

Justification:

Safety improvements are necessary to the vacant, former transfer station building. A new facility is needed for the welding, storage, and operations of the container maintenance staff.

City-Wide Priorities: Balanced Budget and Maintenance and Renovation of Existing City Assets.

Project ID: Q412
Start Date: 10/13
End Date: 6/17
Location: Ward 6

General Services

Capital Improvement Program Department Statement

FY 2016/17 through FY 2020/21

Department: General Services

Five-Year Total: \$1,798,900

The General Services CIP of \$1.8 million consists of two projects: The Compressed Natural Gas (CNG) Plant replacement and the CNG Pipeline Southwest Gas (SWG) Bypass Project. Completing the existing aged CNG Plant with a new plant that has the equipment necessary to meet industry vehicle fueling standards and provide for backup emergency generator power to sustain plant operations in the event of a power outage. The new natural gas pipeline from the El Paso gas pipeline will be connected to the new CNG plant.

This work is funded through the Environmental Services Fund, the General Services Internal Service Fund, and the Fleet Services Internal Services Fund.

General Services

(\$000)

Compressed Natural Gas (CNG) Plant										Project ID: M896	
Description: This project will replace the existing aged CNG Plant with a new plant that has the equipment necessary to meet industry vehicle fueling standards and provide for backup emergency generator power to sustain plant operations in the event of a power outage. The project, when complete, will better serve both Sun Tran and Environmental Services' planned expansion of the CNG fleet.										Start Date: 7/13	
										End Date: 6/17	
										Location: Ward 5	
Justification: An analysis of fuel types determined CNG-fueled buses and refuse trucks will cost less to operate over the life cycle compared to non-CNG fleet and will provide the reliability and stability needed to protect the integrity of public service.											
City-Wide Priorities: Balanced Budget, Customer Service, and Maintenance and Renovation of Existing City Assets.

CNG Pipeline Southwest Gas (SWG) Bypass Project

Project ID: B813
Start Date: 1/17
End Date: 6/17
Location: Ward 5

Description:

This project covers the design, construction, and connection of a new City of Tucson natural gas pipeline from El Paso gas pipeline to the new CNG Plant. As a result, this pipeline will bypass the SWG pipeline.

Justification:

City of Tucson CNG consumption is increasing due to the replacement of diesel-powered Sun Tran buses and refuse trucks with CNG vehicles. The City pays SWG to transport natural gas through their pipeline to the City of Tucson CNG plant. The cost of transportation is calculated based on usage; therefore, the greater the volume used, the higher the aggregate transport cost. Installing a City-owned pipeline would decrease the transportation cost of natural gas to the City's CNG plant over the long-term.

City-Wide Priorities: Balanced Budget.

Housing and Community Development

Capital Improvement Program Department Statement

FY 2016/17 through FY 2020/21

Department: Housing and Community Development

Five-Year Total: \$1,000,000

The Housing and Community Development Department's CIP consists of one project:

The Community Development Block Grant for Parks and Transportation projects enhance neighborhood recreation areas, addresses traffic and street issues, complies with the ADA, and meets the U.S. Department of Housing and Urban Development Consolidated Annual Action Plan.

The Housing and Community Development Department's five-year CIP is funded with \$1,000,000 in federal grants.

Housing and Community Development

(\$000)

CDBG Master CIP										Project ID: H158	
Description: Community Development Block Grant (CDBG) Public Facilities Neighborhood Enhancements for Parks and/or Transportation. Provide and meet the Consolidated Annual Action Plan's objective of availability and accessibility as submitted to the U.S. Department of Housing and Urban Development.										Start Date: Annual	
										End Date: Annual	
										Location: Citywide	
Justification: To enhance neighborhood recreation areas, such as parks and walking paths. To address safety and access issues for streets, such as bus shelters, traffic calming, street lighting and compliance with the Americans with Disabilities Act.											
City-Wide Priorities: Health and Safety.

FY 2016/17 through FY 2020/21

Department: Parks and Recreation

Five-Year Total: \$8,934,400

The Parks and Recreation Department's CIP is based on the Parks, Recreation, and Open Space component of Plan Tucson; the adopted City of Tucson Parks and Recreation Ten-Year Strategic Service Plan; and Mayor and Council direction. The CIP implements Mayor and Council policy by developing facilities that provide for family, youth, and senior adult recreation, while supporting inner-city revitalization, public art, and using arid and semi-arid landscaping wherever possible to conserve water.

The five-year capital program of \$8.9 million is funded from Impact Fees, Capital Improvement Funds, and civic contributions.

Arcadia Park, Phase I Description: Acquire land, plan, and design the initial phase of a multi-purpose path that provides connectivity between parks, schools, residential areas, workplaces, commercial districts and other destinations. This project is part of a multiphase development; construction is contingent upon future funding. Justification: This project is needed to increase capacity in our parks and recreation system and to address the demands placed on it by new development. City-Wide Priorities: Customer Service.										Project ID: RM01		
										Start Date: 7/08		
										End Date: 6/18		
										Location: Ward 6

Arroyo Chico Urban Path: Country Club to Treat										Project ID: RP1C	
Description:										Start Date: 7/14	
										End Date: 6/18	
Design and construct urban greenway improvements along the Arroyo Chico Urban Path including a pedestrian/bicyclist activated street crossing. This project is in conjunction with a Transportation project in the amount of \$600,000 funded by the Regional Transportation Authority (RTA).										Location: Wards 5 and 6	
Justification:											
Development of these improvements will address the community's need for connectivity and a more complete urban pathway system.											
City-Wide Priorities: Customer Service and Maintenance and Renovation of Existing City Assets.

Reid Park Expansion, Phase I

Project ID: RM09
Start Date: 7/07
End Date: 6/19
Location: Ward 6

Description:

Design and construct a grassy open space, a large-event venue, ADA improvements and a new restroom. This project is part of a multi-phase development. Future phases will include capacity-building improvements to Reid Park.

Justification:

This project is needed to increase capacity in our parks and recreation system and to address the demands placed on it by new development.

City-Wide Priorities: Customer Service and Health and Safety.

Reid Park Zoo Health Center

Project ID: R994
Start Date: 7/14
End Date: 6/17
Location: Ward 6

Description:

Design, permit and construct an addition to the existing veterinary facility at the Reid Park Zoo.

Justification:

This project is necessary as the existing 40-year old facility is extremely dated and is no longer large enough to accommodate the zoo's current collection of animals. The facility is also needed to help meet the standards set by the Association of Zoos and Aquariums.

City-Wide Priorities: Maintenance and Renovation of Existing City Assets.

Transportation

Capital Improvement Program Department Statement

FY 2016/17 through FY 2020/21

Department: Transportation

Five-Year Total: \$581,040,300

Transportation's CIP of \$581.0 million funds improvements for a multi-modal transportation system and infrastructure designed to attract industry and protect neighborhoods. The program is divided into four areas: Public Transit, Streets, Street Lighting, and Traffic Signals.

Public Transit. The Public Transit Program of \$66.6 million replaces and upgrades Sun Tran and Sun Van fleet vehicles and constructs facilities to support transit operations, including Park-and-Ride facilities, ADA access improvements, security improvements, and the Regional Seamless Fare system.

Streets. The Streets Program of \$496.0 million will upgrade the arterial, collector, and residential transportation network, including streets, sidewalks, and bikeways, with the primary goal of maintaining an arterial street system that permits a safe and unimpeded flow of traffic. The program is funded primarily with Regional Transportation Authority (RTA) funds and general obligation street bonds. Other funding sources include capital agreement funds, federal highway grants, impact fees, Pima County bonds, and HURF revenues.

Street Lighting. The Street Lighting Program of \$16.7 million will convert the current lighting with light emitting diode (LED) technology which will save energy usage by 31% to 51%. This project will be funded by HURF revenues.

Traffic Signals. The Traffic Signals Program of \$1.7 million constructs traffic signals, improvements to the Intelligent Transportation System, pedestrian crossing improvements, signal upgrades, and the Regional Transportation Data Network (RTDN). Projects are primarily funded with federal grants and RTA funds.

Transportation

(\$000)

22nd Street: I-10 to Tucson Boulevard										Project ID: SR5A	
Description:										Start Date: 7/07	
Design and construct improvements along this segment of the 22nd Street corridor. Improvements will include widening 22nd Street to a six-lane, divided roadway with full urban amenities.										End Date: 6/19	
										Location: Wards 1 and 5	
Justification:											
This project was approved by Mayor and Council on December 5, 2006 for RTA funding and will enhance the carrying capacity of the corridor. Pima Association of Governments (PAG) 5-Year Regional Transportation Improvement Program (TIP) 131.00.											
City-Wide Priorities: Maintenance and Renovation of Existing City Assets.

LED Lighting Conversion										Project ID: S604	
Description:										Start Date: 7/15	
Design and install Light Emitting Diode (LED) technology for existing Tucson street and garage lights, including adaptive controls to create a network to remotely operate the lighting.										End Date: 6/17	
Justification:										Location: Citywide	
LED lighting provides a 31% - 51% reduction in energy usage and LED lights have a life expectancy five times greater than existing lighting. Additional energy savings are made possible with adaptive controls to remotely monitor each light for on/off and dimming control. LED's white light provides optimal color rendering to improve visibility and public safety.											
City-Wide Priorities: Health and Safety and Maintenance and Renovation of Existing City Assets.

Street Improvements: Proposition 409 Description: Continue to restore, repair, and resurface streets inside Tucson City limits with the \$100 million bond program. Street resurfacing is in its third year of a 5-year plan and approximately 85% of bond funds will be allocated to major streets and 15% will be allocated to neighborhood streets. All work will be competitively bid out to private sector contractors. Justification: Approximately 130 miles of major streets and 114 miles of neighborhood streets will be resurfaced as part of the bond program. City-Wide Priorities: Maintenance and Renovation of Existing City Assets.										Project ID: S409 Start Date: 7/13 End Date: 6/20 Location: Citywide

Sun Tran Replacement Buses										Project ID: M150	
Description:										Start Date: Annual	
Purchase replacement vehicles for fixed-route fleet for Sun Tran. The vehicles being replaced will have exceeded FTA guidelines for replacement. It takes 12 to 24 months to build heavy duty transit buses. Funds are programmed in the year of expenditure.										End Date: Annual	
										Location: Citywide	
Justification:											
To continue to provide the required service levels buses are replaced after exceeding their useful service life. Failure to replace buses that have outlived their useful service life results in increased maintenance and operational costs.											
City-Wide Priorities: Customer Service.

Sun Tran South Park Facility Bus Wash Replacement Description: Design and construct a new automated bus wash at Sun Tran's South Park Maintenance Facility. Maintaining the transit system in a state of good repair is essential for delivering safe and reliable service to thousands of daily riders and is a collaborative effort between the FTA and local governments. Justification: Existing bus wash at the Sun Tran's South Park maintenance facility was built in 1995 and is nearing the end of its useful life. This project focuses on the replacement of the existing bus wash. City-Wide Priorities: Maintenance and Renovation of Existing City Assets.										Project ID: M952 Start Date: 7/16 End Date: 6/19 Location: Ward 5

Sunset: Silverbell to I-10 to River										Project ID: SR12	
Description:										Start Date: 7/16	
Construct a new three-lane roadway between Silverbell Road and River Road, including a new bridge over the Santa Cruz River.										End Date: 6/18	
Justification:										Location: Ward 1	
This project was approved as part of the May 2006 RTA Plan and will re-establish Sunset Road. Pima County has been identified as the lead agency and this funding will provide the City of Tucson's local contribution.											
City-Wide Priorities: Health and Safety and Maintenance and Renovation of Existing City Assets.

Transit Facility Improvements (South Park Stormwater Yard)										Project ID: M951	
Description:										Start Date: 7/15	
Design and construct a stormwater conveyance system to capture stormwater flows entering the bus storage yard from adjacent east and south properties with additional catch basins throughout the south yard. Repave the yard with new asphalt.										End Date: 6/17	
										Location: Ward 5	
Justification:											
Significantly reduce surface flow of stormwater through the storage yard and eliminate ponding which has degraded the existing asphalt pavement.											
City-Wide Priorities: Maintenance and Renovation of Existing City Assets.

Tucson Fire

Capital Improvement Program Department Statement

FY 2016/17 through FY 2020/21

Department: Tucson Fire

Five Year Total: \$1,679,800

The Fire Department's CIP establishes improvements needed to sustain adequate levels of emergency services for fire protection and medical needs through the Alerting System and the Park Ajo Communication Center Administrative Phone System.

The five-year capital program is funded by \$130,000 of Police and Fire Impact fee and the department applied for the FY 2014/15 Assistance to Firefighters Grant (AFG) to fund the Alerting System project for \$1,408,900. The project also includes \$140,900 in General Funds as the local match.

Tucson Fire

(\$000)

Alerting System

Description:

Fund, purchase, and install a complete National Fire Protection Association (NFPA) compliant fire station alerting system through the FY 2015 Assistance to Firefighters Grant (AFG). The system will be managed from the Tucson Fire Department consolidated dispatch center serving Tucson Fire Department and eight partner Fire Districts.

Justification:

The new station alerting system will be installed in 51 regional fire stations and is expandable to meet future demand. A complete NFPA compliant system will enhance the safety of the public and firefighters by improving operational deficiencies and decreasing response times.

City-Wide Priorities: Health and Safety.

Project ID: F830

Start Date: 3/16

End Date: 3/17

Location: Citywide

Park Ajo Communications Center Administrative Phone System

Project ID: F820
Start Date: 7/16
End Date: 6/17
Location: Ward 5

Description:

Design and implement a new administrative phone system for Tucson Fire and Police Emergency Communication Center located at the Thomas O. Price Service Center (TOPSC). State funded NextGen911 managed services will be implemented at TOPSC in the near future. The State funded project does not include administrative phones which must be implemented simultaneously. The current administrative telephones will not integrate with new services or meet public safety needs.

Justification:

Administrative phone implementation is critical for direct hospital communication, fire station phones, panic phones, law enforcement and medical alarm company communications, and direct lines to other Communications Centers providing 911 services to the Tucson and Pima County region.

City-Wide Priorities: Health and Safety.

Tucson Water

Capital Improvement Program Department Statement

FY 2016/17 through FY 2020/21

Department: Tucson Water

Five-Year Total: \$231,028,000

Tucson Water's CIP is a cornerstone in a long-term water supply plan for the community. Major areas of focus include advanced metering; RTA and other roadway agency work relocating water facilities; Santa Cruz Wellfield and Aerospace/Sonoran Corridor construction; control system upgrades; reservoir rehabilitation; recycled water, and necessary infrastructure replacement.

The Tucson Water CIP is divided into two program groups: Potable Water System and Reclaimed Water System. Improvements to both water systems will ensure that:

- potable and reclaimed customers are provided high quality water
- the water supply is reliable
- the safe yield and assured water supply requirements of the Arizona State Groundwater Management Act are met

The five-year capital program of \$231 million includes improvements to both the potable and reclaimed water systems. The program will be funded with a combination of water revenues, water system revenue obligation funds, and is contingent on the utility's ability to obtain debt financing.

Potable Water System – These projects total \$213.3 million over the next five years. The focus of the potable system program is construction of projects needed to secure, store, recover and deliver long term renewable water resources for the community. Projects include:

- \$31.1M for advanced metering;
- \$24.7M for water line relocations in roadway projects;
- \$24.1M for Santa Cruz wellfield upgrades and new facilities for the Sonoran Corridor;
- \$17.0M for critical communications infrastructure upgrades;
- \$14.2M for Clearwell reservoir rehabilitation;
- \$6.0M for recycled water projects;
- \$12.9M for distribution system main replacement;
- \$12.6M for other infrastructure, including cathodic protection of critical transmission mains, arc flash compliance measures, and valve vaults;
- \$3.6M for physical security measures.

Reclaimed Water System - These projects total \$17.7 million over the next five years. The proposed CIP reclaimed projects include:

- \$7.4M for Southwest Houghton Area Recharge Project (SHARP);
- \$2.8M for Houghton Reclaimed Reservoir Rehabilitation

Academy Reservoir Description: Design and construct a new reservoir liner at the Police and Fire Academy Reservoir. A billing meter, backflow assembly, and fire pump will also be installed. Modifications and new operational controls will be added to the well PV-001A so that operators can turn the well on and off remotely. Justification: Modifications and new operational controls will be added to the well PV-001A so that operators can turn the well on and off remotely. City-Wide Priorities: Balanced Budget and Maintenance and Renovation of Existing City Assets.										Project ID: W091 Start Date: 07/14 End Date: 6/17 Location: Ward 4

Advanced Metering Infrastructure Description: This project will set up the network software, cost of the repeaters, and collectors needed to read meters. Justification: This project will increase meter reading efficiency and reduce energy/fuel consumption. It could provide the customers with timely data to assist them with managing their water use and can be used to notify customers that they may have a leak. City-Wide Priorities: Balanced Budget and Customer Service.										Project ID: W138 Start Date: 07/15 End Date: 6/21 Location: City and County

Aerospace-Sonoran Corridor TM Ext Description: This project will support the future expansion needs along the Sonoran Corridor by relocating the previously planned water treatment facility to Section 31, modifying piping to support the new facility. Justification: Installation of a reservoir and booster facility will provide fire service flows to Section 31 and the Aerospace Parkway. A main extension along the Aerospace Parkway will provide water to World View and additional customers. City-Wide Priorities: Balanced Budget, Customer Service, and Economic Development. Arizona Avenue Main Replacement Description: Remove and replace 250 feet of 12-inch concrete-asbestos pipe in Arizona Avenue between Broadway and Congress with new ductile iron pipe. Encase the pipe per SD-800 as needed to compensate for insufficient utility separation. Justification: The existing pipe exceeds its 60-year life expectancy and bears the foundation of an adjacent building and power pole. Construction of the AC Marriott Hotel will increase stresses. Sustained undetected leakage could undermine foundations. City-Wide Priorities: Customer Service and Economic Development.										Project ID: W155 Start Date: 7/14 End Date: 6/17 Location: Ward 6

Bailey Sleeve Valve Replacement										Project ID: W856	
Description:										Start Date: 7/12	
Design and construct necessary piping modifications and replacements of Bailey Sleeve Valves at the high pressure reducing valve (PRV) stations (H1, H2, H3, and H4) on Tucson Water's CAP distribution system.										End Date: 6/17	
Justification:										Location: City and County	
These critical transfer valves have in excess of 30 years of service, and are demanding a significant amount of maintenance. Replacing and rebuilding these valves allow continued use of renewable CAP water in the central water system.											
City-Wide Priorities: Balanced Budget and Maintenance and Renovation of Existing City Assets.

Calle Santa Cruz Transmission Main Replacement										Project ID: W151	
Description:										Start Date: 10/14	
Design and construct two miles of 24-inch transmission main replacement on Calle Santa Cruz between Valencia and Irvington. The main will be in City of Tucson property B1 water service area.										End Date: 6/17	
Justification:										Location: Ward 1	
This replacement maintains existing water pressure in emergency situations.											
City-Wide Priorities: Customer Service, Health and Safety, and Maintenance and Renovation of Existing City Assets.

Cathodic Protection for Critical Pipelines										Project ID: W320	
Description: Design and construct CP and corrosion monitoring facilities. These critical pipelines range from 16 to 96-inches in diameter and are located throughout Tucson Water's service area.										Start Date: Annual	
										End Date: Annual	
										Location: City and County	
Justification: This project is necessary to prevent corrosion related failures of the City's largest and most critical potable water pipelines.											
City-Wide Priorities: Maintenance and Renovation of Existing City Assets.											
Source of Funds Summary	Prior Years	Adopted Fiscal Year 2016/17			Projected Requirements				Five Year Total	Future Years	Total Project

Cavalier Estates Phase I										Project ID: W859	
Description:										Start Date: 7/16	
Design and install 3,600 feet of 8-inch pipe in Wilmot, Zuni Avenue, 31st, and 29th Street. This project will relocate 85 water meters from alleys into streets and replace four existing fire hydrants.										End Date: 6/18	
Justification:										Location: Ward 4	
This area has been identified as having an above average amount of main breaks according to records from Tucson Water's Customer Service and Maintenance Divisions. Much of the pipe in this neighborhood was installed in the 1950s and 1960s and has reached the end of its useful life.											
City-Wide Priorities: Customer Service, Economic Development, Health and Safety, and Maintenance and Renovation of Existing City Assets.

Clearwell Reservoir Rehabilitation Description: Design and construct new interior shear walls, roof and interior lining. The work will be performed one cell at a time to minimize disruption to water system operation. Justification: Review of the reservoir revealed a need for structural improvements to comply with seismic code requirements; and the liner and roof have reached the end of their service life and are in need of replacement. City-Wide Priorities: Customer Service and Maintenance and Renovation of Existing City Assets.										Project ID: W056 Start Date: 7/14 End Date: 6/19 Location: County

Cocio Road Main Replacement Phase II										Project ID: W076	
Description: Design and install 6,200 feet of 6-inch pipe, valves, and pavement replacement in El Cerrito Lane, Cocoraque Lane, Waterman Lane, Redrock Lane, Quemado Lane, and Wolcott Lane east of Cocio Road between Silverbell Road and Trico-Marana Road.										Start Date: 7/14	
										End Date: 6/17	
										Location: County	
Justification: This area has experienced numerous main breaks and customer outages.											
City-Wide Priorities: Customer Service, Economic Development, Health and Safety, and Maintenance and Renovation of Existing City Assets.

Control Panel Replacements: Potable										Project ID: W045	
Description: Install new control panels and electronic equipment at existing production facilities such as wells, boosters, reservoirs, and pressure reducing valve facilities.										Start Date: Annual	
										End Date: Annual	
										Location: City and County	
Justification: The existing control panels are approaching the end of their service life and need to be replaced to ensure system reliability.											
City-Wide Priorities: Customer Service and Maintenance and Renovation of Existing City Assets.

Drill Production Wells										Project ID: W101	
Description:										Start Date: 7/13	
Drilling of two replacement production wells per year in well fields other than the CAVSARP, Southern Avra Valley Storage and Recovery and the Tucson Airport Remediation Project. Replacements will be focused on wells beyond repair, or which are more economical to replace by installing stainless steel constructed wells.										End Date: 6/22	
Justification:										Location: City and County	
This on-going project will equip wells to pump historic production levels of the original wells and will contribute to maintaining 90 million gallons per day (mgd) of redundant well field pumping capacity in the event of a failure of the 96-inch Clearwell pipeline.											
City-Wide Priorities: Balanced Budget, Customer Service, and Maintenance and Renovation of Existing City Assets.

Effluent Pump Station Expansion										Project ID: W049	
Description:										Start Date: 7/13	
This project expands the existing Tertiary/Secondary Effluent Pumping Station (T/SEPS) wetwell at Roger Road to match the filtration system upgrade (W774).										End Date: 6/17	
Justification:										Location: Ward 1	
Pumping capacity will be increased, a new pipeline will deliver the increased flow to the existing chlorine contact basin, and a secondary gravity pipeline will be added from the basin to the existing reclaimed reservoir to reduce the likelihood of basin overflow.											
City-Wide Priorities: Customer Service.

Equip Well W-006

Description:

Design and equip Well W-006. The existing water column (WC) service area is an isolated system and is supplied by only one well, W-001.

Justification:

This new well would provide a level of redundancy in the event of failure or maintenance requirements of Well W-001.

City-Wide Priorities: Customer Service, Health and Safety, and Maintenance and Renovation of Existing City Assets.

Project ID: W062

Start Date: 7/14

End Date: 6/17

Location: County

Fire Hydrants in Annexation Areas Description: On-going installation of fire hydrants in areas of annexation. Justification: The City of Tucson is annexing various adjacent and outlying areas some of which do not have fire service. As a condition of annexation, fire service may be required and 6-inch fire hydrants will need to be installed at locations specified by the Tucson Fire Department. City-Wide Priorities: Customer Service, Economic Development, and Health and Safety.										Project ID: W163 Start Date: Annual End Date: Annual Location: City and County

Gas Engines										Project ID: W140	
Description:										Start Date: 7/14	
This project will install five natural gas engines per year in the CAVSARP well field area. The current engines are approaching the 100,000 hour service hour life span.										End Date: 6/25	
										Location: City and County	
Justification:											
The upgraded engines will have the latest technology needed to meet the emissions control permit requirements, making it more cost effective and advantageous to upgrade to new engines rather than rebuild the existing engines.											
City-Wide Priorities: Balanced Budget and Maintenance and Renovation of Existing City Assets.

Golf Links Main Replacement Phase II										Project ID: W849	
Description: Design and install 1,600 feet of 8-inch pipe in 33rd, 34th Streets, Calle Silvosa, Sahuara and Zuni Avenue. This project will relocate 70 water meters from alleys into streets.										Start Date: 7/14	
										End Date: 6/17	
										Location: Ward 4	
Justification: This area has been identified as having an above average amount of main breaks according to records from Tucson Water's Customer Service and Maintenance Divisions. Much of the pipe in this neighborhood was installed in the 1950s and 1960s and has reached the end of its useful life.											
City-Wide Priorities: Customer Service, Health and Safety, and Maintenance and Renovation of Existing City Assets.

Old Vail Steel Tank Upgrades (Rehab)										Project ID: W168	
Description:										Start Date: 7/15	
Design and construct improvements to the Old Vail Steel Tank which include the design and construction of a back-up storage tank. The interior and exterior of the 200,000 gallon tank will also be removed and recoated.										End Date: 6/17	
Justification:										Location: City and County	
Failure to rehabilitate this tank, and provide back-up storage will result in failure of the tanks ability to hold water. This will result in the inability to adequately serve customers in the area, and we will be unable to provide needed fire flow to customers. In addition to normal customer use needs, reservoirs provide the necessary capacity to provide fire flow required by the fire department. Back-up storage is required due to the lack of water resources in the area, and the possibility of outages if another source of water should fail. Failures can include main breaks, well failures, booster pump failures, etc.											
City-Wide Priorities: Customer Service and Maintenance and Renovation of Existing City Assets.

Payments to Developers for Oversized Systems										Project ID: W108	
Description:										Start Date: Annual	
Reimburse developers for the cost of oversizing water system components (pipes, mains, and boosters) when Tucson Water requests a capacity greater than needed by the development.										End Date: Annual	
Justification:										Location: City and County	
Oversizing is sometimes required to supply future projected demands consistent with Tucson Water's long range planning and to avoid more expensive replacement in the future, after buildings and streets are constructed.											
City-Wide Priorities: Balanced Budget, Customer Service, and Economic Development.

Pima Mine Road Production Well Drilling Description: Drilling of three production wells at Pima Mine Road, which will assist the utility in reaching its goal of 20 mgd of production capacity from the Santa Cruz Well Field. Justification: These wells will ensure water levels remain below the alert levels for the underground storage facility permit and help resolve water quality issues in the Santa Cruz Well Field. Each well will be between 500 and 600 feet below land surface and eventually be equipped to pump approximately 1,500 gallons per minute (gpm). City-Wide Priorities: Balanced Budget, Customer Service, and Maintenance and Renovation of Existing City Assets.										Project ID: W166 Start Date: 7/20 End Date: 6/21 Location: County

Potable Motor Operated Valve (MOV) at Thornydale Reclaimed Reservoir Description: Replace the 12-inch flow meter with a 12-inch magnetic meter. Add a MOV to allow water operations to control the valve from the reclaimed plant. Justification: This will enable reclaimed operators to deliver reclaimed water credits to the reclaimed system, via potable water piping remotely. This will save time by not having to dispatch personnel to this site and assure faster response time. City-Wide Priorities: Balanced Budget and Maintenance and Renovation of Existing City Assets.										Project ID: W086 Start Date: 7/14 End Date: 6/17 Location: County

Rauscher Reservoir Rehabilitation										Project ID: W092	
Description:										Start Date: 7/14	
Design and construct the reservoir roof superstructure, replace the roof covering, and add a liner.										End Date: 6/17	
Justification:										Location: Ward 4	
This work will reduce leakage. Site work will also be performed to address security and general site renewal.											
City-Wide Priorities: Maintenance and Renovation of Existing City Assets.

Recycled Water Program Description: Plan development for the full utilization of the City's effluent entitlement. Effluent quality and quantity, methods of treatment, existing and future uses of effluent will be addressed. Continued expansion of the non-potable reclaimed water and recharge, capital improvement projects and costs needed to implement is included. Justification: The 2011-2015 Action Plan for Water Sustainability Report identified preparation and implementation of the Recycled Water Master Plan as a water resource task. City-Wide Priorities: Balanced Budget and Customer Service.										Project ID: W176 Start Date: 7/15 End Date: 6/26 Location: City and County

Re-Equip Well C-049 Description: Existing well C-049 has been out of service due to failed, antiquated equipment. The well site requires re-equipping of the above ground facilities in order to bring it back into production. This will involve replacing the electrical and control equipment, hydro pneumatic tank, production flow meter, disinfection equipment, modifying and upgrading the site enclosure. Justification: Failure to re-equip this well will mean that an additional well will be needed to be drilled and outfitted in order to maintain an appropriate amount of well capacity to serve our customers. If the well is not re-equipped, and we do not have another source of water to replace this well, then we may not be able to meet our customers' water demands in that area of town during outages of our CAP supply. Outages of that supply occur yearly, due to regular maintenance activities needed on major reservoirs and pipelines. City-Wide Priorities: Customer Service and Maintenance and Renovation of Existing City Assets.										Project ID: W199 Start Date: 7/15 End Date: 6/17 Location: Ward 2

Relocate Craycroft Shadow Ridge PRV									Project ID: W172		
Description:									Start Date: 7/19		
Relocate the current PRV and construct an above ground 6-inch I-H PRV at the Craycroft Booster Station.									End Date: 6/20		
Justification:									Location: County		
The current PRV is located in a vault and the site has access and safety issues. Relocating will improve operating efficiency, reliability, public service and resolve safety issues. Supply and discharge mains will be 8-inch. Approximately 300 feet of "H4" discharge main will be needed on Craycroft.											
City-Wide Priorities: Balanced Budget, Customer Service, and Maintenance and Renovation of Existing City Assets.

Relocate Glenn/Campbell PRV to Conner Park									Project ID: W173		
Description:									Start Date: 7/19		
Relocate the current PRV and construct an above ground 6-inch B-A PRV at the NE corner of Conner Park at Glenn and Plumer.									End Date: 6/20		
Justification:									Location: Ward 3		
The current PRV is located in a vault and the site has access and safety issues. Relocating will improve operating efficiency, reliability, public service and resolve safety issues. Supply and discharge mains will be 8-inch. This PRV is critical when the 1st Ave. 42-inch main is out of service.											
City-Wide Priorities: Balanced Budget, Customer Service, and Maintenance and Renovation of Existing City Assets.

Road Improvement Main Replacements										Project ID: W111	
Description: Relocate water mains during road improvement projects of the City of Tucson, Pima County, Arizona Department of Transportation and other agencies, including Regional Transportation Authority (RTA) projects. Intergovernmental agreements determine the City of Tucson cost allocation for each project.										Start Date: Annual	
										End Date: Annual	
										Location: City and County	
Justification: Replacing water mains during roadway projects allows Tucson Water to maintain system capacity while saving money on the cost of pavement removal and replacement.											
City-Wide Priorities: Balanced Budget, Customer Service, Health and Safety, and Maintenance and Renovation of Existing City Assets.

SA-012A Recovery Well Drilling										Project ID: W082	
Description:										Start Date: 7/15	
Design and drill water recovery wells SA-012A. Project scope provides for the drilling and constructing stainless steel casing to prevent corrosion. Additional wells will allow the Southern Avra Valley Storage and Recovery Project (SAVSARP) well field to be operated more efficiently.										End Date: 6/18	
Justification:										Location: County	
This will enable more complete utilization of the recharged CAP water allowing additional withdrawals as recharge capacity increases, as well as reliability while other wells are down for maintenance.											
City-Wide Priorities: Balanced Budget, Customer Service, and Maintenance and Renovation of Existing City Assets.

Sahuarita Supply Line Slip Liner Description: Design and install a high-density polyethylene pipe (HDPE) slip liner in the existing 30-inch and 36-inch CCP Sahuarita Supply Line from Lumber Street and Old Nogales Highway to Medina Road and Nogales Highway. Justification: This project will increase the capacity available from the Santa Cruz Well Field from 12 mgd to 20 mgd. City-Wide Priorities: Customer Service, Health and Safety, and Maintenance and Renovation of Existing City Assets.										Project ID: W796 Start Date: 7/12 End Date: 6/20 Location: Ward 1

San Paulo Village Main Replacement Phase I Description: Design and install 1,600 feet of 6-inch pipe in alleys bordered by Sylvane and 28th Street, Sonoita and Alamo Avenue. Justification: This area has been identified as having an above average amount of main break records from Tucson Water's Customer Service and Maintenance Divisions. Much of the pipe in this neighborhood was installed in the 1950s and 1960s and has reached the end of its useful life. City-Wide Priorities: Customer Service, Health and Safety, and Maintenance and Renovation of Existing City Assets.										Project ID: W850 Start Date: 7/15 End Date: 6/18 Location: Ward 4

Santa Cruz SC-008 Well Collector Line										Project ID: W039	
Description:										Start Date: 7/13	
Design and install 3,500 feet of 12-inch HDPE collector line from existing Well SC-008 to existing 30-inch transmission main.										End Date: 6/18	
Justification:										Location: County	
This will increase flow from the Santa Cruz Well Field from 10 mgd to 20 mgd.											
City-Wide Priorities: Customer Service, Health and Safety, and Maintenance and Renovation of Existing City Assets.											
Source of Funds Summary	Prior Years	Adopted Fiscal Year 2016/17			Projected Requirements				Five Year Total	Future Years	Total Project

Santa Cruz Transmission Main Replacement Phase II										Project ID: W154	
Description:										Start Date: 7/15	
Install approximately 1,400 feet of 36-inch main -S. Nogales Highway, east to Park Avenue to the Martin Reservoir. The main will be in B1 water service area and in the City of Tucson right-of-way.										End Date: 6/19	
										Location: Ward 5	
Justification:											
This new main will convey flow from the Phase I replaced 36-inch main. Tucson Water's objective is to increase capacity of the Santa Cruz Well Field water delivered to the Martin Reservoir to 20 mgd.											
City-Wide Priorities: Customer Service, Health and Safety, and Maintenance and Renovation of Existing City Assets.

Santa Cruz Wells Re-Equipping Description: Design and construct well equipping of four existing production wells in the Santa Cruz Wellfield. Due to the higher groundwater elevations, this well field provides the most cost-effective access to our renewable water resource. Justification: By returning these wells to service, the production of this well field can be increased to approximately 15 mgd. City-Wide Priorities: Balanced Budget, Customer Service, and Maintenance and Renovation of Existing City Assets.										Project ID: W857 Start Date: 7/13 End Date: 6/18 Location: County

Santa Rita Ranch/Houghton Road 12" Main										Project ID: W768	
Description:										Start Date: 7/10	
Design and install approximately 3,800 feet of 12-inch pipe on Houghton Road between Tallahassee Road and Forrest Freezor Street with a connection to the existing 8-inch pipeline at Vista Monte Drive.										End Date: 6/17	
Justification:										Location: County	
The new pipeline will connect two existing 12-inch mains providing increased reliability between the South Houghton Booster Station, the Santa Rita Booster Station and the Sycamore Canyon Reservoir.											
City-Wide Priorities: Customer Service, Health and Safety, and Maintenance and Renovation of Existing City Assets.											
Source of Funds Summary	Prior Years	Adopted Fiscal Year 2016/17			Projected Requirements				Five Year Total	Future Years	Total Project

SAVSARP Collector Lines Phase II										Project ID: W781	
Description:										Start Date: 7/12	
Design and install approximately 3,710 feet of 16-inch pipe and 2,000 feet of 36-inch pipe including appurtenances.										End Date: 6/17	
Justification:										Location: County	
This will provide collector lines to convey water from wells SA-003A, SA-010A, SA-017A, SA-018A, SA-020A, to the SAVSARP reservoir. This schedule will match the drilling and equipping schedule of the SAVSARP recovery wells.											
City-Wide Priorities: Customer Service, Health and Safety, and Maintenance and Renovation of Existing City Assets.

SAVSARP Raw Water Rcvrd Cathodic Protection										Project ID: W046	
Description:										Start Date: 7/13	
Design and construct the CP to the CAVSARP and SAVSARP pipelines.										End Date: 6/17	
Justification:										Location: County	
Applied cathodic protection will increase the original life span. Failure to apply CP to the pipeline will allow corrosion and over time will degrade and raise the risk of potential pipeline water leaks and possible failures.											
City-Wide Priorities: Balanced Budget and Maintenance and Renovation of Existing City Assets.

SC Well Replacement SC-001, SC-004, SC-014										Project ID: W167	
Description:										Start Date: 7/19	
Drilling for the replacement of inactive wells SC-001, SC-004 and SC-014.										End Date: 6/21	
Justification:										Location: County	
These replacement wells will add to the collective production capacity necessary to meet the utility's goal of 20 mgd from the Santa Cruz Wellfield. Additionally, these wells will help resolve water quality issues in the Santa Cruz Wellfield.											
City-Wide Priorities: Customer Service and Maintenance and Renovation of Existing City Assets.

SCADA Potable Upgrades										Project ID: W782	
Description:										Start Date: 7/12	
The SCADA communication infrastructure has become obsolete and needs to be updated. This project will provide for the installation of field instrumentation, controllers, and communications equipment necessary to communicate water system flows, levels, and pressures to system operators.										End Date: 6/26	
Justification:										Location: City and County	
The existing Master Station hardware and software will be replaced with improved technology. The budget includes construction of a new control center in an existing Tucson Water facility which will allow control operations of the water system from a central location.											
City-Wide Priorities: Customer Service and Maintenance and Renovation of Existing City Assets.

SCADA Reclaimed										Project ID: W783	
Description:										Start Date: 7/12	
The SCADA communication infrastructure has become obsolete and needs to be upgraded. This project will provide for the installation of field instrumentation, controllers, and communications equipment necessary to communicate reclaimed water system flows, levels, and pressures to the system operators. The existing Master Station hardware and software will be replaced with improved technology.										End Date: 6/20	
Justification:										Location: City and County	
This project will allow the utility to control operations of the reclaimed water system from a central location, thereby ensuring operational efficiency.											
City-Wide Priorities: Balanced Budget, Customer Service, and Maintenance and Renovation of Existing City Assets.

Southeast Houghton Area Recharge Project (SHARP)										Project ID: W797	
Description:										Start Date: 7/10	
Tucson Water and Pima County are engaged in a jointly funded reclaimed water recharge project in the southeast Houghton Road area.										End Date: 6/19	
Justification:										Location: City and County	
The project is planned to provide the capability to recharge reclaimed water that would ordinarily be discharged into the Santa Cruz River, resulting in beneficial use of this water within the metropolitan area.											
City-Wide Priorities: Balanced Budget, Customer Service, Health and Safety, and Maintenance and Renovation of Existing City Assets.

TARP R-009A Well										Project ID: W090	
Description:										Start Date: 7/14	
Design and construct a replacement well at R-009A. The Tucson Airport Remediation Project (TARP) remediation system is operated by Tucson Water in accordance with the 1991 Consent Decree with the United States Environmental Protection Agency (USEPA) to contain and treat groundwater contaminated with trichlorethylene (TCE).										End Date: 6/17	
Justification:										Location: Citywide	
This replacement well is required to ensure future capture of the TCE plume at the TARP facility.											
City-Wide Priorities: Customer Service, Health and Safety, and Maintenance and Renovation of Existing City Assets.											
Source of Funds Summary	Prior Years	Adopted Fiscal Year 2016/17			Projected Requirements				Five Year Total	Future Years	Total Project

Tierra Del Sol Main Replacement Phase I										Project ID: W072	
Description:										Start Date: 6/17	
Design and install 5,000 feet of 8-inch pipe and 4,130 feet of 6-inch pipe in Alamo Road, Calle Bellatrix, 22nd Street, and Fordham Road.										End Date: 6/18	
Justification:										Location: Ward 4	
This area has been identified as having an above average amount of main break records from Tucson Water's Customer Service and Maintenance Divisions. Much of the pipe in the neighborhood was installed in the 1950s and 1960s and has reached the end of its useful life.											
City-Wide Priorities: Customer Service, Health and Safety, and Maintenance and Renovation of Existing City Assets.

Trails End Reservoir Rehabilitation										Project ID: W050	
Description:										Start Date: 7/16	
Design and construct improvements as developed through the condition assessment to bring this reservoir up to current standards.										End Date: 6/21	
Justification:										Location: County	
This project must be completed to continue to provide long-term reliability and prevent water loss.											
City-Wide Priorities: Balanced Budget and Maintenance and Renovation of Existing City Assets.

Valve Access Vault										Project ID: W060	
Description:										Start Date: Annual	
Design and construct vaults over BFV actuators to allow safe access for BFV actuator repair, refurbishment or replacement. The project will install up to five vaults per year prioritizing the largest and most critical BFV actuators.										End Date: Annual	
Justification:										Location: City and County	
Installing vaults to grade will eliminate the need to excavate roadways, reduce overall maintenance costs, and improve safety.											
City-Wide Priorities: Balanced Budget, Health and Safety, and Maintenance and Renovation of Existing City Assets.

Water Services										Project ID: W114	
Description:										Start Date: Annual	
Install new metered potable water services upon customer request and payment of connection fees. These services include minor main connections, extensions, and meters to new services.										End Date: Annual	
Justification:										Location: City and County	
This project is required to provide for the installation of new metered services to customers upon request.											
City-Wide Priorities: Balanced Budget, Customer Service, Economic Development, and Maintenance and Renovation of Existing City Assets.

General Government

Capital Improvement Program Department Statement

FY 2016/17 through FY 2020/21

Department: General Government – General Expense

Five-Year Total: \$750,000

The General Expense five-year CIP of \$750,000 has two projects in Fiscal Year 2016/17:

- The Technology Upgrade Project will enhance the City's multiple enterprise related systems to a current standard supported by the vendor.
- The Kronos Citywide System Project will implement an Enterprise Timekeeping management system to automate time keeping for all City departments.
