Individuals should thoroughly read and understand the appropriate regulations prior to submitting an application or going afield. The current Arizona Hunting and Trapping Regulations can be found at www.azgfd.gov, or at any Department office or license dealer.

A unique QR scan code, as well as a web link, will be located on the back of hunt permit-tags. Scan the code to access our Hunter Harvest Questionnaire webpage then select your species. Completing your hunter questionnaire, honestly and accurately, is very important to the management of wildlife in Arizona.

NEW: Customers Must Have a Free Portal Account to Access Draw Results. Draw results will only be posted to portal accounts. If you don't have an account, create one for free: www.azgfd.gov, select the green "My Account" button at top right, follow the prompts.

PointGuard – Tag Surrender, R12-4-118 Hunters may now choose to surrender their hunt permit-tag prior to the start of their hunt. Hunters must have a Department Portal Account and purchase the Department's PointGuard Membership for \$5 at the time of application for each species. Refer to page 5 for more information.

Keep Credit Card Information Updated Online applicants are encouraged to keep their credit card payment information current. **If your payment is declined at the time of the draw, your application will not be drawn.** The Arizona Game and Fish Department will no longer call customers to obtain payment on drawn applications where credit cards have failed. Deadline for updating your credit or debit card information online is 11:59 p.m. (Arizona time) Thursday, March 15, 2018.

NOTE: If your credit/debit card has been used for multiple applications, please notify your banking institution that multiple charges from Arizona Game and Fish could be processed simultaneously.

Drones Drones are considered aircraft and shall not be used to harass wildlife or assist in the taking of wildlife. For more specific information, please review Commission Rules R12-4-301, R12-4-319 and R12-4-320 located on pages 125 and 130 of the 2017–18 Arizona Hunting Regulations. Also, see Fair Chase information on page 56 of the 2017–18 Arizona Hunting Regulations.

International Border Suspicious Activity Homeland Security Issues along the International Border may affect the quality of a person's hunt (see 2017-18 Arizona Hunting Regulations page 71). Call 800-BE-ALERT to report suspicious activity.

Resident Licenses Available for Military Spouses The Arizona Game and Fish Department now offers a resident license for the taking of wildlife by the spouse of an active duty member of the U.S. Armed Forces who is permanently or temporarily stationed in Arizona. The license also will allow the spouse of an active duty member to apply for big game hunt permit-tags as a resident.

License Information

Who Can Go?

Everyone needs a license to hunt wildlife in Arizona. You need in your possession a valid hunt or combination hunt and fish license, plus any required hunt permit-tags, nonpermit-tags, or stamps. Neither a Short-term Combination Hunting and Fishing License nor an Apprentice Hunting License is valid for big game.

Youth ages 10–17 must purchase a Youth Combination Hunting and Fishing license. The license fee is \$5.

A person under 10 may hunt wildlife other than big game without a license only when accompanied by a properly licensed person 18 years or older. No more than two unlicensed children may accompany any license holder.

No one under the age of 14 may hunt big game without having completed a Hunter Education Course. No one under age 10 may hunt big game in Arizona. To hunt big game, anyone 10 to 13 years of age must have in their possession a valid combination hunt and fish license, a valid Hunter Education Course completion card, plus any required permit-tags or nonpermit-tags.

Where to Buy Licenses

Arizona hunting licenses may be purchased online at www.azgfd.gov. The Arizona Game and Fish Department will not mail your license to you. If you would like a paper copy, you must print the license from a home computer. Licenses also can be obtained from any license dealer or Arizona Game and Fish Department office (see locations on page 3 of this booklet).

If you are applying for a big game hunt permit-tag or bonus points on a paper application, you may purchase your general hunt (available for residents only) or combination hunt and fish license while you are entering your application for the draw. The license will not be issued and mailed until the draw is complete.

Lifetime License Holders

If a lifetime license holder changes residency status from Arizona, the licensee must then purchase non-resident stamps, tags, and permits. A non-resident tag or stamp can accompany your lifetime resident license. If you

are a lifetime license holder who has moved out of state, the 10 percent non-resident cap does not apply to you. The lifetime license will remain legal for the taking of all wildlife as permitted by law. Residency may be re-established after moving back to Arizona and meeting the required time period as defined below.

Residency Requirements

“Resident” means a person who is domiciled (claims the state of Arizona as their true, fixed and permanent home and principal residence) in this state for six months immediately preceding the date of application for a license, permit, tag, or stamp and does not claim residency for any purpose in another state or jurisdiction; or is a member or spouse of a member of the armed forces of the United States who is on active duty and stationed in this state for either permanent or temporary duty; or is a member of the armed forces of the United States on active duty stationed in another state or country but who lists this state as their home of record at the time of applying for a license, permit, tag, or stamp.

Arizona residents may purchase a resident license. All other individuals must purchase a non-resident license.

Apprentice License

Resident licensed hunters are able to obtain a free Apprentice Hunting License valid for two days for use when mentoring a new hunter. This affords new hunters the opportunity to “try before you buy,” under the supervision of a licensed hunter.

An Apprentice Hunting License is valid for two consecutive days when the apprentice is accompanied in the field by a mentor. An apprentice hunting license is valid for the taking of small game, fur-bearing animals, predatory animals, nongame animals, and upland game birds. Any required stamps must be purchased in addition to obtaining an Apprentice Hunting License. An apprentice may be a resident or non-resident and may only be licensed pursuant to this paragraph once per calendar year. A mentor must be a domiciled resident of this state who is at least 18 years of age and must possess an annual hunting or combination license or a complimentary or lifetime license. A mentor may apply for no more than two apprentice hunting licenses

per calendar year. When applying for an apprentice license, the mentor must name the person he or she will be taking afield.

High Achievement Scout License

The High Achievement Scout License is offered to a resident youth who has attained either the rank of Eagle Scout (Boy Scout) or received a Gold Award (Girl Scout). The fee for the reduced license is \$5. The applicant must present proof of their rank or award by providing their certification letter, wallet card, or award certificate at any Department office, and complete the High Achievement Scout License application (Form 306, available on the Department website or at any Department office). This license is not available through the draw. At the age of 21, an Eagle Scout or Gold Award recipient is no longer eligible for the High Achievement Scout License, and from that point forward would be required to purchase an adult license.

Lost License or Tag Replacement

Lost licenses, hunt permit-tags, and nonpermit-tags may be replaced for a \$4 fee at any Arizona Game and Fish Department license dealer. Licenses purchased online can be reprinted for free. Duplicate licenses can be purchased online. Consult R12-4-103 Duplicate Tags and Licenses for additional information. Stamps cannot be replaced, they must be repurchased.

Physically Challenged Hunters

Those hunters who are physically challenged may qualify for a Challenged Hunter Access/Mobility Permit (CHAMP). Consult R12-4-217 for information about this permit. Contact any Arizona Game and Fish Department office for additional information and application. The application is also available online.

Non-US Citizens Wanting to Hunt in Arizona

Pursuant to regulations by the U.S. Bureau of Alcohol, Tobacco and Firearms (ATF), non-immigrant aliens who want to temporarily import firearms and/or ammunition into the United States for the allowable purpose of taking wildlife will need an ATF import permit and valid hunting license in possession at the time of entry/import into the United States. For further information or to make application for the import permit, contact ATF's Firearms and Explosives Import

License Information

Branch at 304-616-4550, or download an application from the ATF website at www.atf.gov.

Tag Transfers

Should you be unable to use your big game permit, the Department is unable to reimburse you for your fees or reinstate your bonus points (except as provided below). However, under Arizona Revised Statutes and Arizona Game and Fish Commission Rules there are ways people can transfer big game tags. A \$4 transfer fee applies, unless donating to a non-profit organization. The Commission may prescribe the manner and conditions of transferring and using permits and tags under this paragraph, including an application process for a qualified organization, to allow a person to transfer the person's big game permit or tag to a qualified organization for use by:

- A minor child who has a life-threatening medical condition or by a minor child who has a permanent physical disability. If a child with a physical disability is under 14 years of age, the child must satisfactorily complete the Arizona hunter education

course or another comparable Hunter Education Course that is approved by the director.

- A veteran of the armed forces of the United States who has a service-connected disability. For the purposes of this paragraph "disability" means a permanent physical impairment that substantially limits one or more major life activities requiring the assistance of another person or a mechanical device for physical mobility.
- "Qualified organization" means a nonprofit organization that is qualified under section 501(c)(3) of the United States internal revenue code and that affords opportunities and experiences to children with life-threatening medical conditions or with physical disabilities or to veterans with service-connected disabilities.

A parent, grandparent or legal guardian may allow the parent's, grandparent's or guardian's minor child or minor grandchild to use the parent's, grandparent's or guardian's big game permit or tag to take big game pursuant to the following requirements:

- The parent, grandparent or guardian must transfer the permit or tag to the child in a manner prescribed by the Commission.
- The child receiving the permit or tag must be accompanied by a parent, grandparent or guardian when in the field.
- The child must possess a valid hunting license and, if under 14 years of age, must satisfactorily complete the Arizona hunter education course or another comparable hunter education course that is approved by the Director before participating in the hunt.
- Any big game that is taken counts toward the child's bag limit. Once a tag is transferred at a Department office, the original permittee may no longer use it.

Visit www.azgfd.gov/hunting and scroll to the additional hunting information. There you will find a link titled "Tag Transfer." Organizations you can donate your tag to are listed on the page.

PointGuard (Tag Surrender, R12-4-118)

Tag Surrender allows a hunter to surrender his or her tag to the Department for any reason prior to close of business the day before the hunt starts.

Requirements:

- Only available to applicants applying online (not available to paper applicants).
- Hunters must have a Department Portal Account.
- Hunters must purchase the Department's PointGuard Membership. Cost is \$5 per species. This membership is purchased at the time of application for each species applied for (Select PointGuard Membership at the end of your online application).
- Hunters are only eligible to surrender one tag per species then the next time drawn for that species, the tag will have to be used (expends bonus points). Once you have expended your bonus points, you will then

be eligible to participate in Tag Surrender again for that species.

When you surrender your hunt permit-tag:

- You will not receive a refund for the cost of your tag.
- The bonus points you expended to draw the hunt permit-tag will be reinstated.
- The bonus point you would have accrued had you not drawn will be awarded.
- You must surrender your hunt permit-tag before your hunt.

If you transfer your hunt permit-tag to a qualified nonprofit, you may still participate in Tag Surrender:

- You must meet the requirements (listed in the left column).
- Hunters must provide acceptable proof to the Department of the Tag Transfer (i.e., receipt from the qualified nonprofit).
- You must submit your Tag Surrender request and provide proof of the tag being donated within 60 days of the donation; and no less than 30 days prior to the next draw deadline for that species.

According to rule, the Department has multiple options for re-issuance of surrendered tags. Proximity to start of a hunt, type of tag and demand for the tag will guide decisions about re-issuance of surrendered tags.

No applications will be accepted after this time regardless of the postmark. **Deadline dates are different for paper applications and online applications.** Deadline dates may be extended in the event of a Department-related system failure that prevents the public from submitting an application within the deadlines listed above. The online system slow down due to heavy traffic is not considered a Department-related system failure and may not result in a deadline extension. Applicants are encouraged to apply early to avoid the last minute rush. Application assistance can be obtained Monday through Friday (8 a.m.–5 p.m. Arizona time) by contacting the Department. The Arizona Game and Fish Department will no longer call customers to obtain payment on drawn applications where credit cards have failed.**

DO NOT DUPLICATE YOUR DEPARTMENT ID

Customers are encouraged to apply online through their portal accounts to avoid duplicating their Department ID. Be aware: If you generate a new Department ID, your existing bonus points may not be transferred to the new ID.

Draw Information

The Draw

When the number of hunt permits for a species in a particular area must be limited to prevent over-harvest of wildlife, the Commission Order governing seasons for that species assigns a hunt number to a designated area, and a hunt permit-tag is required to take that species in that area. Hunt permit-tags are issued through a computerized random drawing. Big game tags not issued through the drawing process are called nonpermit-tags.

Qualifications

Individuals wishing to participate in a drawing or to obtain bonus points must apply online or in writing using the Hunt Permit-tag Application Form, and submit the form by the deadline specified in the Hunt Permit-tag Application Schedule found in the current year's hunt regulations (page 7).

An applicant must possess a license (including lifetime, pioneer or disabled veteran's) that is valid on the last day of the application deadline for that draw. **Youth applying for big game hunts must be licensed.** If an applicant does not have a license that meets that requirement, he or she must purchase the license at the time of application. An applicant must submit the information and fees required for a license on **each** paper application submitted. Only one license will be issued. License refunds will be made for additional applications. Licenses will not be issued until the draw occurs.

Applying for a Hunt

The online application service will be available early to mid-January, see page 10 or visit www.azgfd.gov/draw for more information.

Paper applications for hunt permit-tags must be made on Hunt Permit-tag Application Forms available at Department offices, website, and license dealers. Please use the current year's application form, that is **WHITE** in color. **Do not cut or alter application form.** Applications not prepared in a legible manner may be deemed not valid and shall be rejected as specified in R12-4-104(L). Use standard blue or black ink (no gel ink).

No more than four people may apply on one application in one envelope. All applicants in a group must apply for the

same hunt number(s) and in the same order of preference on the same form.

No person, including Youth, may submit more than one valid application per genus of wildlife in any calendar year, except as specified in R12-4-104(H), when genera are drawn in multiple drawings; however the annual bag limit still applies.

Each applicant shall complete only one block per application.

No more than one genus may be included on each Hunt Permit-tag Application Form. **Use a separate form, payment and envelope for each genus of wildlife you wish to hunt. More than one (1) application in an envelope may result in rejection of all applications.** You can list a general hunt as your first choice and another weapon type hunt for the same genus as another choice on the same application – just be sure they are in the same numerical series. Use only one application per genus, even if you are mixing weapon choices.

Hunt Permit, Bonus Points Disclaimer

The issuance of any big game permit has no express or implied guarantee or warranty of hunter success. Any person holding a valid permit assumes the risk that circumstances beyond the control of the Arizona Game and Fish Department may prevent the permit holder from using the permit. In such situations, the Arizona Game and Fish Department disclaims any responsibility to reissue or replace a permit, to reinstate bonus points or to refund any fees, except under specific circumstances, such as activation of military or emergency personnel, as stated in R12-4-107(M).

Fees

Information about fees associated with the online draw process is on page 10.

When submitting paper applications, each applicant shall enclose the following fees:

1. The fee for the appropriate hunt permit-tag, which includes the permit application fee.
2. Fee for a hunting or combination hunt and fish license, if a license is requested. Be sure to enclose license fees with **each**

paper application, if required, for each person who is applying on the application for a license. Only one license will be issued per person and a refund of any remaining fees will be issued.

3. Discounted hunt permit-tag fees are for "Youth-Only" designated hunts. A youth must pay the higher fee unless applying only for "Youth-Only" hunts.

Each payment enclosed with a hunt permit-tag application shall be made by certified check, cashier's check, money order, or personal check or draft payable to the Arizona Game and Fish Department. Cash will not be accepted and will result in rejection.

One personal check or money order can cover all fees for each application, or separate checks or money orders may be submitted in one envelope for each individual applicant.

The permit and license fees are specified in the fee schedule on page 6. The hunt permit-tag fees on page 6 include the non-refundable application fee.

Submitting Applications

The online application service will be available in early to mid-January. Please check the Department's website or sign up for free e-newsletters for regular updates. You can register for e-news at www.azgfd.gov/signup.

Attention online applicants: Deadline for updating your credit or debit card information online is 11:59 p.m. (Arizona time) Thursday, March 15, 2018.

Paper applications (except first-come, sandhill crane, and raptor applications) may be hand-delivered to Department offices in Phoenix, Mesa, Tucson, Flagstaff, Pinetop, Kingman, or Yuma. Mailed paper applications must be sent only to the Department's Phoenix Office at P.O. Box 74020, Phoenix, AZ 85087-1052. On deadline days, Department business offices close at 5:00 p.m. (Arizona time), but paper applications can be delivered to drop boxes until 11:59 p.m. (Arizona time). Drop boxes are locked promptly at 11:59 p.m. (Arizona time). All paper applications must be **received by** the Department before the deadline. Deadlines for submission are specified in the Hunt Permit-tag Application Schedule on page 7. **Deadline to submit paper applications is Jan. 30. Postmarks don't count.**

Draw Information

Applications will be accepted as soon as the applicable year's hunt regulations are available. Please consult the current year's hunt regulations as unit areas and season dates may change each year.

Complete and proper preparation of an application is the sole responsibility of the applicant.

Why Apply Online?

There are many advantages to submitting an online application:

- Applying online through your portal account will ensure you do not duplicate your Department ID.
- You have until Feb. 13 to apply online, which is two weeks past the paper application deadline.
- Apply from home or work – no driving, no mailing;
- Easy to meet the deadline – go to www.azgfd.gov and click on "Apply for a Draw";
- Reduces chances for errors (**you must still read your options closely**);
- The initial cost to you is only the application fee and license fee (if you don't already have a current license);
- The permit-tag cost will only be charged if you are drawn for that species;
- Easy to donate to the Big Game Habitat Fund and benefit wildlife populations; and
- Opportunity to purchase PointGuard.

What Happens to My Application?

Any application not properly prepared, submitted with insufficient fees or one that is illegible is not valid and will be rejected.

If any applicant in a group is rejected for any reason, all other applicants in that group will also be rejected and no bonus points will be awarded.

No hunt permit-tag will be issued to anyone in a group if there are not sufficient hunt permit-tags available for all applicants in that group.

Hunt permit-tags will be mailed to each successful applicant.

What if I'm not Drawn?

Customers must have a free portal account to access draw results. Don't have one? Go to www.azgfd.gov and select the green "My Account" button at top right. You will be prompted to create an account. Results will only be posted to portal accounts and will no longer be available by phone.

Over-payments and hunt permit-tag fees received with unsuccessful applications will be returned to applicant "A," as shown on the Hunt Permit-tag Application Form. Application and license fees will not be refunded. You will not be issued more than one license and a refund of any remaining fees will be issued. An overpayment of \$5 or less will not be refunded, and shall be considered a donation to the Arizona Game and Fish Fund.

If you or a member of your group elected to donate your fees or a portion thereof, the donation will not be refunded.

If an application is rejected and a license has been requested, the license will not be issued. The license fee will be refunded; however, the application fee will not be refunded.

Unsuccessful, valid applications will be awarded bonus points.

Big game hunt permit-tags remaining after the drawing will be issued on a first-come, first-served basis as specified in the Hunt Permit-tag Application Schedule on page 7.

First-come permit-tag results are not posted. If successful, you will receive your tag in the mail within 10-15 business days.

Obtaining a Bonus Point Only

In the event you do not wish to participate in a big game drawing for species offered in this draw, but still wish to accumulate bonus points for these genera, you may "obtain a bonus point."

When completing your application, you must choose the bonus point hunt number established for that genus as your first choice. A bonus point hunt number is established within each applicable Commission Order. If you choose this hunt number, you may not choose any other hunt number on your application. **If the bonus point hunt number is any choice other than the first choice**

or any other hunt numbers appear on the application, your application will be rejected. You may obtain only one bonus point per genus per drawing.

To apply for a bonus point only, the individual must be 10 years old by the deadline date as specified in the Hunt Permit-tag Application Schedule on page 7.

To apply for a bonus point only, you must have previously purchased a hunting license or apply for a hunting license through the draw for the year in which the hunt will take place. You must also include the application fee per applicant. If applying for a bonus point, you will not receive a refund for the license fee or the application fee. Do not include the fee for the hunt permit-tag for the genus in which you are applying for the bonus point. **A bonus point costs you only the license fee (if needed) and the application fee per applicant. See page 6 for license fees.**

If applying for more than one species for bonus points, you must complete a separate application for each species. Only a single application and the correct fees may be included in one envelope.

If you apply for a bonus point only using the established bonus point hunt number, you may **NOT** submit another application for the same genus. To do so will cause both applications to be rejected as duplicate applications.

All applicants in a group must apply for the same established bonus point hunt number. The application will not be included in the random number drawing and the individual(s) on the application will each receive a bonus point for that genus.

Apply Online for Big Game Hunts and Bonus Points at www.azgfd.gov

The online application will be available early to mid-January.

What If I Buy a License When I Apply for My Hunt?

If you purchase a hunting or fishing license online, you must print the license from your home printer. Your license will not be mailed to you.

Are There Any Additional Fees for Applying Online?

No. The application fee per applicant is the same whether applying online or by paper. The application fee is \$13 per applicant for residents and \$15 per applicant for non-residents.

Can I Apply for a Bonus Point Only?

Yes. Select Bonus Point Only when prompted. You must have a current hunting license or purchase one. You will be charged the appropriate application fee (\$13 application fee per applicant for residents and a \$15 application fee per applicant for non-residents).

What are the License Requirements?

When applying for a hunt, you must have a license valid through deadline day of that

draw. If drawn for a hunt permit-tag, you must also have a valid license at the time of the hunt. These may not be the same license. Please contact customer service if you have any questions. See below for phone numbers.

How Do I Pay?

A valid credit or debit card (Visa or MasterCard) must be used when applying online. Your card will be charged once for the application fee and second time if you are successful in drawing a permit-tag. **Online applicants are encouraged to keep their credit card payment information current. If your payment is declined at the time of the draw, your application will not be drawn. The Arizona Game and Fish Department will no longer call customers to obtain payment on drawn applications where credit cards have failed. Deadline for updating your credit or debit card information online is 11:59 p.m. (Arizona time) Thursday, March 15, 2018.**

If your credit/debit card has been used for multiple applications, please notify your banking institution that multiple charges from Arizona Game and Fish could be processed simultaneously.

IMPORTANT: Applicants are encouraged to keep their credit or debit card information up to date; if your card becomes invalid for any reason before the credit card update deadline, update your information online for **each** species you applied for by selecting the “update my payment information” option and providing the required information. The Department is not responsible for any overdraft charge incurred due to insufficient funds.

What You Need for Each Applicant

To apply online, simply log on to the Arizona Game and Fish Department website at www.azgfd.gov, place the cursor on “Apply for a Draw” on the main webpage and follow the step by-step instructions. We recommend you have your hunter list (including first and last names, dates of birth, Department identification number, and Social Security Number) and hunt choices completed with all the required information for each hunter prior to logging on to apply. This will make for a quicker application process.

A list of dealers can be found on the Department's website.

R12-4-104 and R12-4-114 explain application and drawing procedures in detail. Complete and proper preparation of an application is the sole responsibility of the applicant. If any applicant in the group fails to complete any required portion of the application, all applicants in the group will be rejected.

1. You must use a separate application, a separate payment AND a separate envelope for each genus (deer, elk, etc.) for which you apply. No more than one (1) application (up to 4 applicants) may be included in the same envelope. NOTE: All hunt choices for each genus, regardless of weapon type, must be requested on the same application.
2. You must use valid Hunt Numbers; make sure you refer to appropriate Hunting Regulations. Do not use game management unit numbers.
3. In accordance with federal requirement, 42 U.S.C. Section 666 A13 and state requirement, A.R.S. 25-320 (P) and 25-502 (K), you must provide your Social Security Number in the space provided. This is kept on file with the Department of Economic Security for use in identifying and tracking child support offenders. If you are not a U.S. Citizen you must write "Not US Citiz" in the Social Security field. Applicants declaring "Not US Citiz" must provide a Department I.D. Number (refer to item #7).
4. You must fill in your name, home mailing address, city, state, and zip code. You must include your date of birth. You must specify your date of birth with a two-digit month, a two-digit day, and a four-digit year. (For example: if you were born on Jan. 5, 1950, you would write: 01-05-1950 in the Date of Birth field.)

Thank You Hunters and Recreational Shooters

Arizona's rich outdoor heritage is enjoyed by all – thanks to hunters like you, whose purchase of hunting and recreational shooting equipment supports wildlife management and habitat enhancement in the Grand Canyon State. When you purchase a rifle, ammunition, archery equipment, and other sporting gear, you pay a federal excise tax and import duties.

Since 1937, this money has been collected by the federal government and redistributed to the states using a formula based on hunting license sales and the state's land area. In 2017, that meant more than \$21 million for game management in Arizona. This money paid for game surveys, hunter education classes, wildlife water catchment construction, wildlife research and shooting range development and operations, among other projects.

Hunters like you are part of the largest and most successful wildlife conservation programs in the world...thank you.

Motorized Big Game Retrieval on National Forest Lands

All national forests are undergoing or have recently completed travel management planning, which will result in changes to motor vehicle use on national forest lands. The Coconino, Coronado, Kaibab and Prescott national forests have implemented the Travel Management Rule regulations and only allow motorized use on designated roads, trails and areas as identified on a Motor Vehicle Use Map (MVUM).

These maps are available for free at Forest Service offices and electronically for smartphone and mobile devices – instructions are available at each Forest website. The Travel Management rules include restrictions on driving off of designated roads for big game retrieval.

- The South Kaibab National Forest allows for cross-country motorized retrieval of elk in all Game Management Units.
- The Coconino National Forest allows for cross-country motorized retrieval of elk in Game Management Units 6A, 6B, 7 and 8. It does not allow

cross-country driving for retrieval of any other species or in other Game Management Units on the forest.

- The North Kaibab National Forest allows for cross country motorized travel for retrieval of elk and bison in all Game Management Units.
- The Coronado and Prescott national forests do not allow motorized big game retrieval off the designated road system.

If you have a permit to hunt in a Game Management Unit that includes one or more national forests, please review the information on the appropriate forests' MVUM or contact the national forest(s) for updated information relative to motor vehicle use and motorized big game retrieval, before your hunt starts. Visit <http://www.fs.usda.gov/main/r3/about-region/offices> for contact information.

MINIMAL OCCURRENCE, LOW DENSITY (GENERAL) ELK *Extremely low density population and expected low hunt success*

Open Areas do not include areas within municipal parks, municipal preserves, county parks, county preserves, airports, golf courses, or posted water treatment facilities (except as specifically opened in this Commission Order) or areas closed to hunting under A.R.S. Sections 17-303 and 17-304 or Commission Rules R12-4-321, R12-4-801, R12-4-802 and R12-4-803.

Hunt No.	Season Dates	Notes	Open Areas	Legal Wildlife	Permits
3799	May 1 - Oct 11 and Oct 26, 2018 - Apr 30, 2019	(13,38)	12A, 12B, 13A, and 13B	Any elk	750

Note 38 – Units 12A, 12B, 13A, and 13B have an extremely low-density elk population, less than 50 elk combined for all four units. These units are specifically managed for wildlife values other than elk, and an established elk population is not desirable. The intent of this hunt is to eliminate this elk population. The cost of the tag has been reduced to \$35 to help achieve this objective. The Department cautions you that due to extremely low elk densities, hunt success will be very low, likely less than 5%. If you apply for this hunt during the draw, you will almost certainly draw it, which will cause you to lose your bonus points. If you pick up one of these tags during the first come-first served process your bonus points will not be affected.

Kachina Peaks Wilderness Hunt Area in Unit 7 East - consists of the Kachina Peaks Wilderness including the Inner Basin and the northern portion of the Waterline Road from where it intersects the Inner Basin. The Kachina Peaks Wilderness Hunt Area encompasses the San Francisco Peaks, and the elevation within the hunt area ranges from 8,000 to 12,635 feet with little to no vehicular access. Hunters interested in this hunt should be physically capable of packing out an elk through very steep and rugged terrain at high elevations. The hunt area boundary includes the Kachina Peaks Wilderness, which is signed and regulated by the Coconino National Forest, and the portion of the Inner Basin to the west of the Waterline Road. For a map and more information regarding this hunt, go to the Department's website under Where To Hunt, Region 2 Unit 7 (www.azgfd.com/hunting/units/flagstaff/7/).
 43. Fort Rock Ranch in portions of Units 18A and 18B has restricted access. A limited number of access opportunities are available to youth hunters only. If you are a youth hunter, age 17 or under, who drew this hunt and are interested in hunting on the Fort Rock Ranch, you must submit your request by June 1 through the Arizona Game and Fish Department's Access Program website: www.azgfd.com/landowner-compact/fort-rock-ranch-access/.

Hunters can Help Monitor Arizona Elk Health – Submit Elk Heads for CWD Testing

Bring the head of your recently harvested elk to any Game and Fish Department office between 8 a.m. and 5 p.m., Monday through Friday (office addresses are listed on page 3). Department personnel will collect a tissue sample for Chronic Wasting Disease (CWD) testing. **Hunters that are successful in Units 1, 2, 3, 27, 28, and 31 are especially encouraged to submit heads because these units are close to New Mexico, a state that has detected CWD in deer and elk.**

It is best if the head has been kept cool and is submitted within a day of harvest. The head may be placed in a garbage bag for delivery. You will be asked to provide information about your harvested elk (hunt number, permit number, game management unit, and date of harvest) and where you can be reached (phone number) in case the test is positive. No CWD has been detected in Arizona's deer or elk to date.

CWD results can be found here:

Keep CWD out of Arizona

To protect Arizona's deer and elk herds from Chronic Wasting Disease, new regulations have been placed on movement of animal parts into the state.

Hunters are required to take these precautions when hunting deer or elk out-of-state:

- Do not bring the brain, intact skull, or spinal column into Arizona.

The following elk or deer parts harvested out-of-state are OK to bring back into Arizona:

- Boneless portions of meat, or meat that has been cut and packaged;
- Clean hides and capes with no skull or soft tissue attached;
- Antlers, clean skull plates or skulls with antlers attached with no meat or soft tissue remaining;
- Finished taxidermy mounts or products; and
- Upper canine teeth (buglers, whistlers, ivoryries) with no meat or tissue attached.

CWD is present in the neighboring states of Utah, Colorado, and New Mexico, as well as many other popular hunting destinations for deer and elk. Some states have strict regulations governing carcass movement, so we encourage you to contact the wildlife agency where you travel for any applicable regulations.

Lead and Wildlife

Know the facts and make your own choice

- Lead is a naturally occurring element in the environment and has many beneficial uses. However, it is a known toxin and has been removed from many consumer products like pipes, paint and gasoline.
- Lead has been used in the manufacture of ammunition and fishing tackle for centuries because of its unique properties, availability, performance, and ease and low cost to manufacture.
- Spent ammunition, lost fishing tackle and lead fragments in carcasses and gut piles can be ingested by wildlife. In some cases, these lead sources can cause illness or death in individual animals.
- Birds are the most susceptible to lead toxicity, and population-level effects have been documented in waterfowl and California condors.
- State fish and wildlife agencies have primary responsibility for managing fish and wildlife resources and use the best science to implement focused management solutions when population effects are documented. Educating the public about wildlife issues is part of their mission.
- Hunters and anglers have been the primary supporters of wildlife conservation in North

America since the early 1900s. Collaboration with industry, conservation organizations and shooting-sports interests is also essential to ensuring continued protection of our wildlife resources and conservation heritage.

- Non-lead ammunition and fishing tackle alternatives are becoming more widely available and reasonably priced. Using non-lead alternatives can prevent lead poisoning of individual wildlife and may offer better performance.
- Hunters who choose to use lead ammunition can still help to reduce lead poisoning in scavenging animals by removing the entire game carcass from the field.

Availability

Non-lead ammo alternatives are available for big game, varmint and small game hunting. Non-fragmenting solid copper or copper alloy bullets are now loaded in most hunting calibers. Highly frangible non-lead varmint bullets (compressed copper or tin powder) are available in both centerfire and rimfire cartridges. Non-lead shot (steel, tungsten, and bismuth) is also available.

To learn more about lead and wildlife, visit www.azgfd.gov/lead.

X-ray of prairie dog (top), coyote (center) and a deer (bottom) gut pile. All contain lead bullet fragments that could be ingested by wildlife.

What hunting magazines and Arizona hunters say about solid copper bullets:

"I was very impressed with the bullet's performance, the buck literally dropped in its tracks." – *Kaibab deer hunter*

"Accurate, zero bloodshot, no wasted game meat." – *Kaibab deer hunter*

"I've never seen deadlier performance on game." – *Safari Club International article*

"While their terminal performance is the stuff of legend, they are also capable of remarkable accuracy." – *American Rifleman article*

Eagles and other raptors feed on game remains and ingest lead shot and bullet fragments. Doves and waterfowl are known to pick up lead shot in the field.

Supplemental (Population Management) Hunts and Hunter Pool

Beginning in 2003-2004, the Arizona Game and Fish Department established population management hunts and the hunter pool. Department wildlife managers have found that previous hunt strategies designed to manage some wildlife populations are not meeting objectives. When regular hunt seasons don't meet management objectives, conflicts between wildlife and other uses of the land can occur. Population management hunts are designed to allow the Department to achieve supplemental harvests of wildlife when traditional harvest strategies have not met their objectives. Population management hunts will enhance the Department's ability to meet population and habitat management objectives.

The following information is important to know if you are planning on applying for a population management hunt.

- Population management hunts may occur as necessary, under the provisions of R12-4-115 (refer to the current hunting regulations).
- The Population Management Seasons Commission Order 26 approved by the Commission designates the range of species, season dates, open areas, legal wildlife, lawful taking methods, and maximum tag numbers for population management hunts to be prescribed by the Director and implemented under R12-4-115.
- When a population management hunt is found to be necessary, as prescribed in R12-4-115, hunters will be selected from the hunter pool made up of hunter pool applicants (see application below).
- The hunter pool list will be purged by the Department

Dec. 31, 2018. You may apply at any time during the year (note: do not include the hunter pool hunt application form with a hunt permit-tag application—you must apply separately. See application below for instructions).

- To complete your application, you must designate the species of animal(s) you desire to hunt and the weapon type(s). You must also submit a \$13 application fee (residents) or a \$15 application fee (non-residents) (note: one application fee per application—not per species). Cash will not be accepted and will result in rejection.
- You may designate more than one species and weapon type on the application form. If you choose to designate more than one species and weapon type on your hunter pool application, your name will be included in the hunter pool for each species and weapon type you designate. This means that you may be eligible to participate in a population management hunt for more than one species or method of take each year (note: annual bag limits apply to all population management hunts and may limit your ability to participate in a population management hunt or regular season hunt).
- If you participate in a population management hunt and fill your annual bag limit for that species, you may not participate in a regular hunting season for that species even if you are drawn through the normal draw process (note: A.R.S. 17-332.E. prohibits the issuing of a refund for the purchase of a license or a permit).
- If your application is selected during a random drawing for a population management hunt, the Department will attempt to contact you three times by telephone within a 24-hour period. If you cannot be contacted within 24 hours, your application will be returned to the hunter pool for inclusion in future population management hunts during that year.
- If you are offered a restricted non-permit tag for a population management hunt, pursuant to R12-4-115, you may decline to participate. If you decline to participate, your application will be returned to the hunter pool for inclusion in future population management hunts during that year (note: if you agree to participate in a population management hunt but fail to purchase your tag within the timeframe designated when you are contacted, you will not be eligible for further population management hunts that year).
- If you elect to participate in a population management hunt, it is probable that you will be asked to arrive in the field to hunt within a few days of being contacted (note: purchase of restricted nonpermit-tag and applicable hunting license prior to hunting is required).
- Restricted non-permit tags issued through the hunter pool may be purchased through the Department's Phoenix office. See the front of the hunting regulations booklet for the address and phone number.
- You will not gain or lose bonus points when you apply for, or participate in, a population management hunt.

Form may be photocopied.

**Do not include this form with a Hunt Permit-tag Application Form
(See R12-4-115 in the current hunting regulation booklet)**

Have you:

- Filled in all the blanks?
- Enclosed the \$13 (residents) or \$15 (non-residents) application fee?
- Signed your application?
- Indicated your choice of species?

Population Management Hunts

Population Management Notes:

1. These seasons shall be held in accordance with R12-4-115 and may include shorter time frames, smaller geographic areas, and specification of legal wildlife within that described in this Commission Order.
 2. In accordance with R12-4-304, dogs may not be used to pursue bears between January 1 and July 31.
 3. Hunter access in Units 29, 30A, 30B, and 32 is extremely restricted. Applicants should not apply for these units unless they have secured access.
 4. The Fort Huachuca Army Garrison in Unit 35A is open to hunting only to properly licensed military and civilian personnel holding a valid Fort Huachuca post hunting permit. Special regulations must be obtained from Fort Huachuca. Applications for these hunts must be submitted to the Arizona Game and Fish Department.
 5. The Santa Rita Wildlife Area in Unit 34A is actively used for studies in wildlife management. Researchers are present all months and study sites are not always recognizable; hunters are urged to use caution while hunting and take care not to disturb study sites.
 6. The Grand Canyon-Parashant, Vermilion Cliffs, Sonoran Desert, Ironwood Forest, and Agua Fria National Monuments are open to hunting.
 7. Individuals that have previously harvested a bison in Arizona and have met the one (1) per lifetime bag limit are not eligible to purchase the restricted nonpermit tag for bison.
 8. All bison hunters, including unsuccessful hunters or hunters who did not hunt, with a bison restricted nonpermit-tag for the House Rock Wildlife Area herd shall check out in person or by telephone at either the Department's Flagstaff regional office or the House Rock Wildlife Area headquarters within three days following the close of the season. A successful bison hunter shall report information about the kill to the Department within three business days after taking the bison either in person at the House Rock Wildlife Area headquarters or in person or by telephone at the Department's Flagstaff regional office. If the kill is reported by telephone, the report shall include the name of the hunter, the hunter's tag number, the sex of the bison taken, the number of days hunted, and a telephone number where the hunter can be reached for additional information (R12-4-306).
 9. As prescribed in R12-4-308, all hunters must contact an Arizona Game and Fish Department office in person or by telephone at 1-800-970-BEAR (2327) within 48 hours of taking a bear. The report shall include the hunter's name, hunting license number, tag number, sex of the bear taken, management unit where the bear was taken, and telephone number at which the hunter can be reached to obtain additional information. Within 10 days of taking a bear, the hunter shall present the bear's skull, hide, and attached proof of sex to a designated Arizona Game and Fish Department employee for inspection.
- If a hunter freezes the skull or hide before presenting it for inspection, the hunter shall prop the jaw open to allow access to the teeth and ensure that the attached proof of sex is identifiable and accessible (pursuant to R12-4-308). A premolar tooth will be removed during the inspection. Successful hunters are encouraged to contact the nearest Department office by telephone to coordinate inspections.
10. The Buenos Aires Refuge is open to hunting as permitted by refuge regulations; all other Refuges are closed.
 11. Unit 31 and 32 hunts - Access to Aravaipa Canyon Wildlife Area (as prescribed in R12-4-802) is allowed by permit only, available through the Safford Field Office of the Bureau of Land Management. For more information, contact the Safford Field Office at (928) 348-4450 or Recreation.gov search Aravaipa Canyon Wilderness Permit.

Operation Game Thief

You Can Make a Difference

The Department's Operation Game Thief (OGT) program is a silent witness, anti-poaching campaign that encourages concerned citizens to act as a first line of defense by reporting wildlife poaching activity. By doing so, you are helping to protect one of Arizona's most valuable natural resources – wildlife!

In addition, you are increasing your chances of drawing a permit. Each year the number of sportsman applying for permits far exceeds the number of permits available.

When poachers illegally kill fish and wild-

life, the science-based approach to managing wildlife populations is immediately compromised and has a direct impact on wildlife populations. Simply stated, a decrease in wildlife means a decrease in allocated permits.

The success of the OGT program relies heavily on the information the Department receives by concerned citizens who make an investment in Arizona's wildlife heritage by reporting wildlife crimes. Alert observation and timeliness of reporting can often make the difference on whether a violator is apprehended or not.

If you have information about a wildlife crime you are urged to call the OGT hotline at 800-352-0700 or report via web submission at www.azgfd.gov/thief. The toll free hotline is available 24 hours a day, seven days a week, and 365 days a year to report wildlife violations. Callers can remain confidential and rewards may be paid for information that leads to an arrest.

Not EVERYONE can be drawn but EVERYONE can make a difference, do the right thing and call today 800-352-0700.

Fair Chase: Hunt Hard, Hunt Fair

Remember the fair chase ethic as new technologies are developed

Fair chase is the ethical, sportsmanlike and lawful pursuit and take of free-range wildlife in a manner that does not give a hunter or an angler improper or unfair advantage over such wildlife.

New technology developments impact almost every aspect of life, and sportsmen may wonder how hunting is affected as new equipment hits the market. Advances in technology are inevitable – there always will be a better way to craft a bow, firearm or ammunition. However in terms of fair chase, the line is drawn when that advancement becomes unlawful or provides sportsmen with an improper or unfair advantage. Take, for example, the smart rifle, drones, and exploding arrow tips in Arizona:

- The smart rifle is unlawful for take by nature of its laser-supported sighting system.
- Unmanned aerial vehicles – drones – are aircraft and subject to the same rules as other aircraft.
- Exploding arrow tips or similar items may not be used in an archery or muzzleloader season because they are considered "explosive devices."

The Arizona Game and Fish Commission plans to monitor and give careful consideration to weigh the fair chase implications of a new technology or practices. The following criteria will be used to evaluate whether a new technology or practice is a fair chase issue:

- A technology or practice that allows a hunter or angler to locate or take wildlife without acquiring necessary hunting and angling skills or competency.
- A technology or practice that allows a hunter or angler to pursue or take wildlife without being physically present and pursuing wildlife in the field.
- A technology or practice that makes harvesting wildlife almost certain and/or the technology or practice prevents wildlife from eluding detection and/or take.

Public support of fair chase and ethical hunting are important to the survival of hunting and angling. These pursuits are the cornerstones of the North American Model of Wildlife Conservation and are the primary source of funding for conservation efforts in North America. The support of fair chase and respect for the traditions of hunting and angling are every sportsman's responsibility.
