FOREWORD

The Arizona Department of Public Safety is pleased to participate in and serve as the coordinating agency for the Arizona Crime Reporting Program.

The purpose of the 1994 "Crime in Arizona" is to provide data regarding the nature and extent of crime throughout the state. This report does not draw conclusions as to the causes of crime. However, it does provide the vital information necessary to assist law enforcement agencies, government, and the public in their approach to crime in our state.

This report is the culmination of a joint effort by our state's law enforcement agencies to collect and organize crime data. The information contained in this report should provide a valuable overview of the crime problem.

This is also the third year that data concerning the nature and extent of bias (hate) crimes has been included. Again, this information does not draw conclusions as to the causes of crimes committed due to bias, but it is an additional resource that can be utilized by the citizens of Arizona.

Sincere appreciation is expressed to all Arizona law enforcement agencies without whose cooperation this publication would not be possible.

JOE ALBO
Director

**THE ARIZONA
UNIFORM
CRIME
REPORTING
SYSTEM**

HISTORY OF UNIFORM CRIME REPORTING

The Committee on Uniform Crime Records of the International Association of Chiefs of Police (IACP) was established in 1927 to initiate a national program for collecting crime information. This Committee's responsibility to provide management information to law enforcement agencies was eventually turned over to the Federal Bureau of Investigation (FBI) in 1930, when the FBI received a Congressional mandate to collect and disseminate national crime information. The IACP has continued to serve the Uniform Crime Reporting (UCR) Program in an advisory capacity and was joined in this responsibility by the Committee on Crime Records of the National Sheriff's Association (NSA) in 1966.

The Arizona Uniform Crime Reporting (AUCR) Section first began receiving voluntary crime information from Arizona law enforcement agencies in January 1975. Prior to this date these agencies submitted their crime data directly to the FBI.

OBJECTIVES OF ARIZONA UCR

Due to increased attention being focused on the problem of crime in our communities in recent years, many segments of our population need more complete information for a variety of reasons.

Law enforcement professionals, managers and administrators who must focus on crime in their own jurisdictions, also need to know what is occurring in surrounding jurisdictions in order to deploy personnel and equipment more efficiently. Researchers and planners need to know what is actually happening to predict trends and recommend changes.

The goal of the *Crime in Arizona* is to identify the nature and extent of criminal activity in this state and present the information needed by each of these groups. This information will not in itself prevent crime, but it may encourage all segments of society, by understanding the problem, to work together with law enforcement agencies to reduce crime through more effective enforcement.

The objectives of the *Crime in Arizona* are: (1) To identify the nature and extent of crime in our state; (2) To provide the management information needed by the law enforcement community to augment their ability to attack the crime problem; (3) To provide our citizens with the most complete information available; (4) To provide legislators with the information necessary to formulate laws which address the crime problem, and (5) To provide sufficient detailed data for researchers and planners.

CONSIDERATIONS FOR INTERPRETATION

Statistics are tools used to summarize information so that patterns or trends become clearer. All statistics must be interpreted with an understanding of just what it is that they can say. Too often information of the type in this report is used incorrectly to draw conclusions that the statistics simply do not support. We ask that great care be taken in analysis and interpretation.

The following factors have a major influence on the statistics presented in this report:

1. Crime figures are police statistics as distinguished from the findings of a court, coroner, jury or decision of a prosecutor.
2. Density and size of community population.
3. Variations in composition of the population, particularly age structure.
4. Stability of population with respect to transient factors.
5. Economic conditions, including job availability.
6. Climate.
7. Effective strength of law enforcement agencies; some police jurisdictions overlap.
8. Attitudes of citizenry toward crime.
9. Crime reporting practices of citizenry.
10. Crime rates are based on census-fixed residential populations of police jurisdictions.
11. Crimes committed on Indian reservations are not reported to the AUCR program, although their population is included in the state's population figures.
12. Incomplete or zero data from reporting agencies or non-participation of some local law enforcement agencies. The number of these agencies will vary from year to year.

To obtain accurate information from many different agencies, the national UCR program had to precisely define the methods for collecting such information as the number of offenses, arrests, clearances and value of stolen or recovered property.

Classification of Offenses

UCR divides offenses into two major classifications which are designated Part I and Part II offenses. This distinction is important to keep in mind because different information is collected for each.

Part I offenses include:

Violent Crimes

- Criminal Homicide
- Forcible Rape
- Robbery
- Aggravated Assault

Property Crimes

- Burglary
- Larceny-Theft
- Motor Vehicle Theft
- Arson

Part II offenses include:

- Other Assaults-simple
- Forgery and Counterfeiting
- Fraud
- Embezzlement
- Stolen Property; Buying, Receiving, Possessing, etc.
- Vandalism
- Weapons; Carrying, Possessing, etc.
- Prostitution
- Sex Offenses (except forcible rape and prostitution)
- Narcotic Drug Laws
- Gambling
- Offenses Against Family and Children
- Driving Under the Influence
- Liquor Laws
- Drunkenness (not reported in Arizona)
- Disorderly Conduct
- Vagrancy
- All Other Offenses (except traffic)
- Suspicion (not reported in Arizona)
- Curfew and Loitering Law Violations (Juveniles)
- Runaways (Juveniles)

Note: Only arrests are counted for Part II offenses.

All offenses are classified on the basis of law enforcement officer investigation in accordance with UCR offense definitions (which will not necessarily be identical to Criminal Code definitions). Because UCR identifies a police problem, offense classifications are not based on the findings of a court, coroner, jury or decisions of a prosecutor.

Counting of Offenses

The number of offenses is collected only for Part I crimes and simple assault. The method of counting offenses varies with the type of crime committed, and it is important to remember that the number of offenders does not determine the number of offenses.

For murder and nonnegligent manslaughter, negligent manslaughter, rape, aggravated assault and simple assault, one offense is counted for each victim, regardless of the number of offenders involved.

For robbery and larceny-theft, one offense is counted for each distinct operation which is separate in time and place. The number of victims in any one operation does not determine the number of offenses.

For burglary, one offense is counted for each structure which is illegally entered. However, when the structure is an apartment house, business or office building in which units are leased for a period of time, one offense is counted for each unit burglarized.

For motor vehicle theft, one offense is counted for each vehicle stolen.

Note: Attempts to commit any one of the above are also counted as offenses, except that attempts to kill and assaults to kill are counted as aggravated assaults.

For multiple offenses that occur in one crime incident, only the most serious offense is counted. In cases when an arson occurs in conjunction with other Part I crimes, both are reported. Part I offenses are ranked according to seriousness and appear in order from most serious to least serious under "Classifications of Offenses."

Clearances

An offense is considered cleared (solved) when at least one offender is arrested for a crime, even though several may have been involved.

Offenses may also be cleared by exceptional means when the offender: commits suicide; makes a dying declaration; confesses while in custody or serving time for another crime; is prosecuted in another jurisdiction for the same offense; is a juvenile who is handled by notifying the parents; when the victim refuses to prosecute or another jurisdiction refuses to extradite the offender.

Clearances are counted as "adult" and "juvenile". A "juvenile" clearance is counted only when juveniles are *exclusively* involved in the clearance of an offense. If the arrest of both adults and juveniles

results in a clearance, it is counted as an "adult" clearance.

Property Stolen and Recovered

The figures for value of property stolen and recovered report the value at each point in time. Although property can increase in value over time, it is more likely that stolen property will be recovered in a damaged condition. Therefore, recovery value does not necessarily represent a "clearance rate" for stolen property, and one cannot use it to determine law enforcement effectiveness in recovering stolen goods. Because stolen and recovered property figures indicate thefts and recoveries in the current year, it is important to note that recovered property may have been stolen in a previous year. In addition, the type and value of stolen or recovered property is reported only for Part I offenses and does not include such Part II offenses as fraud, forgery or embezzlement.

Arrests

Arrest information is collected for all Part I and Part II offenses according to the age, sex and race of the offender. It is not possible, however, to correlate race with sex or specific ages because the information is collected independently, thus limiting analysis. Furthermore, arrest figures cannot be directly related to the number of crimes cleared because arrest totals count all offenders arrested for each offense, and clearance totals count only the offenses for which an arrest(s) or exceptional clearance(s) has occurred.

Reporting Variations and Procedures

One must be aware that unintentional variations from UCR guidelines may occur that would affect the validity of the data presented in this report. Offense totals vary from the actual number of offenses that occur because UCR statistics are based on crimes that are reported to law enforcement agencies and many crimes are not reported.

Each contributing law enforcement agency is responsible for compiling its own monthly reports. An FBI UCR handbook is supplied to all contributors outlining reporting procedures in detail and is also complete with examples and illustrations.

POPULATION GROUPING

The crime statistics reported by an individual agency indicates what is happening in one particular area. AU CR groups jurisdictions on the basis of population size and reports crime rates among these groups. The cities, towns and counties within the state have

been divided into seven groups according to population size. The seventh group (ungrouped) is provided for identification of volume and type of crime to account for total offenses. This population grouping factor has some influence on the volume and type of crime presented in this report. For use in interpreting this report, the UCR grouping is listed below:

Group No

1. Over 250,000 population. There are four (4) cities that fall within this group.
2. 100,001 to 250,000 population. There are four (4) cities and counties that fall within this group.
3. 50,001 to 100,000 population. There are seven (7) cities and counties that fall within this group.
4. 25,001 to 50,000 population. There are nine (9) cities and counties that fall within this group.
5. 10,001 to 25,000 population. There are fourteen (14) cities and counties that fall within this group.
6. 10,000 or less population. There are forty-six (46) cities and counties that fall within this group.
7. Ungrouped. There are ten (10) reporting agencies. These are educational institutions, the State Capitol Police and the Department of Public Safety, that by definition do not have measurable population. For purposes of this report, they are combined for the crimes by population distribution.

The following is a listing by population group of law enforcement agencies submitting crime data to the Uniform Crime Reporting Section.

**SUMMARY
OF STATE
CRIME DATA**

ARIZONA CRIME CLOCK 1994

The crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Offenses. This mode of display should not be taken to imply a regularity in the commission of the Offenses; rather, it represents the annual ratio of crime to affixed time intervals.

ARIZONA CRIME CYCLE

The following represents the approximate number of Crime Index Offenses that were reported to Arizona law enforcement agencies every 24 hours during 1994.

STATE CRIME SUMMARY

CRIME INDEX OFFENSES

- There were 314,931 Crime Index Offenses reported in 1994.
- October recorded the highest incidence of offenses with 26,673 reported while February recorded the lowest incidence of offenses with 23,571 reported.
- The value of property stolen amounted to \$354,547,669 in 1994.
- The value of property recovered amounted to \$139,093,890 for a recovery rate of 39.2 percent.
- The crime rate for 1994 for Arizona was 7,734.1 crimes per 100,000 population.

CRIME INDEX ARRESTS/CLEARANCES

- During 1994, a total of 56,222 persons were arrested for Index offenses.
- Adult Index arrests were 37,787 and juvenile arrests were 18,435.
- Males accounted for 76.4 percent of the Index arrests and females accounted for 23.6 percent.
- A total of 57,680 clearances, representing 18.3 percent, of Index Offenses was reported in 1994. Juveniles represented 22.8 percent of this total.

VIOLENT CRIME

OFFENSES

- A total of 28,011 violent crimes were reported in 1994.
- Violent crimes accounted for 8.9 percent of the total Crime Index.
- The highest number of violent crimes was reported in September with 2,705 offenses while the lowest number was reported in January with 2,113 offenses.
- Aggravated assault accounted for the largest incidence of violent crimes with 19,704 offenses while homicide accounted for the smallest with 419 offenses.
- The value of property stolen was \$5,574,969.
- The crime rate was 687.9 offenses per 100,000 population.

ARRESTS/CLEARANCES

- There were 9,602 arrests for violent crimes in 1994.
- Adult arrests were 7,330 and juvenile arrests were 2,272.
- Males accounted for 86.9 percent and females accounted for 13.1 percent.
- A total of 11,736 clearances, representing 41.9 percent, of violent crimes was reported in 1994. Juveniles represented 17.2 percent of this total.

PROPERTY CRIME

OFFENSES

- A total of 286,920 property crimes were reported in 1994.
- Property crimes accounted for 91.1 percent of the total Crime Index.
- The highest number of property crimes was reported in October with 24,257 offenses while the lowest number was reported in February with 21,353 offenses.
- Larceny-theft accounted for the largest incidence of property crimes with 185,037 offenses while arson accounted for the smallest with 1,325 offenses.
- The value of property stolen was \$348,972,700.
- The crime rate was 7,046.2 offenses per 100,000 population.

ARRESTS/CLEARANCES

- There were 46,620 arrests for property crimes in 1994.
- Adult arrests were 30,457 and juvenile arrests were 16,163.
- Males accounted for 74.2 percent and females accounted for 25.8 percent.
- A total of 45,944 clearances, representing 16.0 percent, of property crimes was reported in 1994. Juveniles represented 24.2 percent of this total.

TOTAL ARRESTS

- There were 271,986 persons arrested in 1994.
- Adult arrests were 207,339 and juvenile arrests were 64,647.
- Males accounted for 78.9 percent and females accounted for 21.1 percent.
- Part I offenses accounted for 56,222 arrests.
- Part II offenses accounted for 215,764 arrests.

The following agencies provided zero (0) data for 1994: Clifton P.D. (Greenlee Co.), Douglas P.D. (Cochise Co.), Duncan P.D. (Greenlee Co.), Eloy P.D. (Pinal Co.), Fredonia M.O. (Coconino Co.), Oro Valley P.D. (Pima Co.), Page P.D. (Coconino Co.), Patagonia M.O. (Santa Cruz Co.), Williams P.D. (Coconino Co.), and Yuma P.D. (Yuma Co.).

The following agencies provided only partial data for 1994: Clarkdale P.D. (Yavapai Co.), Jerome P.D. (Yavapai Co.), NAU P.D. (Coconino Co.), Parker P.D. (La Paz Co.), Pima P.D. (Graham Co.), and Yuma County S.O.

*Motor vehicles that were stolen in conjunction with a more "serious" index offense such as robbery or burglary are not included in this count. This count represents only those instances in which motor vehicle theft was the only or most "serious" offense committed. The total value shown here reflects the value of all property stolen during the commission of the offense (i.e., not just the value of each vehicle).

TYPE AND VALUE OF PROPERTY STOLEN AND RECOVERED-STATE TOTALS

The table below reflects the amount of property stolen and recovered by property type. Locally stolen motor vehicles accounted for the highest property loss in a single category with \$188,058,742. Locally stolen motor vehicles were also the most easily recovered property with a recovery rate of 68 percent or \$127,036,863.

BURGLARY

DEFINITION

The unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify the crime as a burglary. A structure is considered to include, but not limited to, the following: dwelling houses, apartments, public buildings, offices, barns, cabins, etc. Burglary is divided into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

SUMMARY

- There were 58,638 burglaries reported during 1994.
- Burglary accounted for 18.6 percent of the total Index offenses and 20.4 percent of the property crimes.
- August recorded the highest number, with 5,523, while February recorded the lowest with 4,155.
- Forcible entry was used in 34,534, or 58.9 percent of the total burglaries.
- Residential burglaries accounted for 41,956, or 71.6 percent of the total burglaries.
- In burglaries where the time of occurrence was known, 17,189, or 29.3 percent occurred between the hours of 6 AM - 6 PM.
- Residential burglaries accounted for the highest property loss, \$64,358,592.

ARREST/CLEARANCES

- A total of 6,491 persons were arrested in 1994.
- Adults accounted for 3,592 arrests and juveniles accounted for 2,899 arrests.
- Males accounted for 90.0 percent and females accounted for 10.0 percent.
- There were a total of 5,444 clearances for burglary reported in 1994. Juveniles represented 24.1 percent of this total.

MOTOR VEHICLE THEFT

DEFINITION

The unlawful taking or stealing of a motor vehicle including attempts and joyriding. This definition excludes the taking for temporary use by those persons having lawful access to the vehicle.

SUMMARY

- There were 41,920 motor vehicle thefts reported during 1994.
- Motor vehicle theft accounted for 13.3 percent of the total Index offenses and 14.6 percent of the property crimes.
- December recorded the highest number, with 4,182, while February recorded the lowest with 2,825.
- Autos represented the highest single category of motor vehicle theft, with 27,194, or 64.9 percent.
- Recovered motor vehicles that were locally stolen amounted to 28,125 or a 67.1 percent recovery rate.
- The total dollar loss amounted to \$188,058,742. Of that amount, \$127,036,863 was recovered. The recovered amount reflects the value of the vehicle when recovered and may be lower than the value when stolen because of missing parts or damage.

ARRESTS/CLEARANCES

- A total of 3,418 persons were arrested in 1994.
- Adults accounted for 1,810 arrests and juveniles accounted for 1,608 arrests.
- Males accounted for 85.5 percent and females accounted for 14.5 percent.
- There were a total of 4,841 clearances for motor vehicle theft reported in 1994. Juveniles represented 23.9 percent of this total.

**BIAS
CRIMES
DATA**

BIAS (HATE) CRIME DATA COLLECTION

BACKGROUND

The collection of bias (hate) crime statistics is the latest addition to the Uniform Crime Reporting program. It reflects a growing concern on both a federal and state level to the problem of crimes being committed due to bias or hate.

The collection of these statistics began with the passage of Public Law 101-275, known as the Hate Crime Statistics Act, in April 1990. The Act required the Attorney General to establish guidelines and collect data "about crimes that manifest evidence of prejudice based on race, religion, sexual orientation, or ethnicity, including where appropriate the crimes of murder, non-negligent manslaughter, forcible rape, aggravated assault, simple assault, intimidation, arson, and destruction, damage or vandalism of property."

In Arizona, legislation mandating the collection of bias (hate) crime statistics was passed in 1991. Arizona Revised Statutes 41-1750 was amended in part to read that the criminal identification section within the Department of Public Safety shall "Collect information concerning criminal offenses that manifest evidence of prejudice based on race, color, religion, national origin, sexual orientation, gender or disability."

Statewide collection began January 1992. Statistics received from Arizona law enforcement agencies for 1994 are listed on the following pages.
