

Organization -

Independents Plan Two School Rallies

An effort to organize ASU independents will be made at two rallies scheduled during the week.

A rally for independent men is slated for 10:30 tonight in front of the MU and women will meet at an undisclosed time and place Sunday, according to Roger Jones and Janey Sanderson, leaders of the movement.

School unity is the main purpose of the organization, said Jones. Improvement of school spirit and cultivation of individualism would be two main goals of the new group.

Jones said that no program of proposed activities has been created; this is to be left to the membership.

Ideas for activities, however, have been suggested. Among these are running a candidate for homecoming king and sitting together at sporting events, said Jones.

Dr. W. P. Shofstall, dean of students, said that organization of independents "crops up about every third or fourth year."

Jones' and Miss Sanderson's purpose seems to be to "find out whether students really want it (an independent organization) or not," said Dean Shofstall.

Both Jones and Miss Sanderson are freshman pre-med students. Jones has attended the University of Houston and Tulane University.

Tucson Alums Hear Law College Plans

College of Law plans were disclosed by President G. Homer Durham last Saturday during an ASU alumni meeting at Tucson.

The plans to establish a law college by 1967, according to Durham, is being influenced by community pressure. If ASU opens a College of Law in 1967 it would confer its first LL.B. degree by 1971.

Dr. Durham has asked petitioning students and other groups to be patient, to be satisfied temporarily with the regular business law courses taught in the College of Business Administration and to at-

tend the UofA College of Law if possible.

In a report being prepared by the Board of Regents, Dr. Durham notes that the gross expenditures of law schools are 2½ to 5 per cent of the gross expenditures of medical schools for its operating budget.

Dr. Durham believes that in view of the strength of the present UofA College of Law, ASU's plans should not excite public controversy. "Let there be no looking back," he said, "Arizona's future growth . . . should bury all ancient rivalries under the more urgent need to provide higher education . . ."

Regents Approve Budgets For 1964-65

By CARRIE ROSS

The Board of Regents meeting Saturday approved a budget of \$17,123,079 for Arizona's two universities and state college for 1964-65.

This requested budget is more than \$3 million higher than last year's request, and nearly \$10 million more than was granted.

A \$27,700 grant for the construction of concrete steps and a handrail for the 8th Street overpass was included in board action after considering the

plight of high-heeled coeds.

BREAKDOWN

The \$7,330,229 total for ASU includes \$6,330,299 for new building and facilities and \$1 million for land acquisition. The Regents also asked that bonding authority for dormitory housing be increased by \$3 million.

Major items covered by the budget include \$2.2 million for our proposed library, to be added to \$1.17 million already appropriated and \$300,000 for approximately 25,000 square feet of classroom and office space for the School of Nursing.

The Regents also okayed \$600,000 for the relocation of physical plant offices and shops, warehouse and general stores to provide room for the expansion of the central heating and refrigeration plant and \$300,000 for the addition of a chilling unit to the Central Plant to service new buildings.

Others are \$110,000 for the extension of refrigeration piping to Hayden and M.O. Best dormitories, including a proposed addition to the latter; \$1,350,000 for the addition of a mathematics wing to the Physical Sciences building and \$1,250,000 for a women's physical education building.

REQUEST CUT

By deleting \$7,200,000 from the capital request, the following projects have been postponed until 1965: A School of Architecture building and an addition to the proposed Lang-

uage and Literature building.

Also postponed was a Business Administration building, a Fine Arts building, and an additional wing for the Physical Sciences building.

In other action involving ASU the board approved the addition of two associate professors and 30 instructors to the faculty.

Fall Series On America Opens Today

First lecture in the fall series of the Center for American Studies will be at 2:45 p.m. today in the MU ballroom.

Title for the initial program is "The Structure and Use of Power in Early American Political Experience: The Origin of a Recurring Problem."

The address is to be presented by Dr. Richard S. Wells, assistant professor of political science.

This will be the first of five lectures delivered by professors to encompass the current theme of "Shaping the American Society."

Dr. Paul G. Hubbard, chairman of the department of history, is director of the 1963-64 series.

The public is invited.

Stand In Line For Holiday Game Tickets

Tickets for the ASU-UofA game will be distributed at the three outside windows of the Men's Gym 8:30 a.m. to 4:30 p.m. Nov. 4 and 5.

Students must present an ID card for each ticket and no student will be allowed more than two tickets, according to Mrs. Sullivan, ticket agent.

The tickets are for sections T-Z, the regular student seats.

Mrs. Sullivan also said that students who fail to pick up tickets on these two days will be required to purchase student guest tickets Nov. 6 for \$4 each.

LINDA OAKLEY, MISS WOOL OF ARIZONA

Council Crowns Sophomore Coed 1963 Miss Wool

Linda Oakley, sophomore, was crowned Miss Wool of Arizona last Thursday evening in Phoenix.

Seven beauties competed to represent the Arizona-Nevada Sheep Council in the annual Miss Wool of America contest in San Angelo, Texas, next March.

Miss Oakley is the successor to Shyrle Owens of Phoenix College who was a finalist in the national competition.

Crowning ceremonies ended a series of modeling and public speaking competitions. The winning coed presented a three-minute speech on wool fashions. She appeared for final competition in a wool dress of lavender, trimmed in evening blue.

First runner-up in the local competition was Rita Gear, junior.

Republicans Theater Group Host Events To Read Play

Members of Young Republicans will be among the welcoming delegation this Saturday when National Republican chairman William D. Miller arrives at Sky Harbor at 1 p.m.

Miller will speak at 8 p.m. at the Ramada Inn. Tickets may be purchased from the Young Republicans.

The chapter will host the College Service Committee convention Dec. 7-8 at the Safari Hotel in Scottsdale, according to chairman Marilyn Fullerton. The convention will be in conjunction with the state YR convention.

Frank Nangin, executive director of the Maricopa County Republican Committee, will be the featured speaker at the Oct. 30 Young Republican meeting at 7 p.m. in the MU senate chambers.

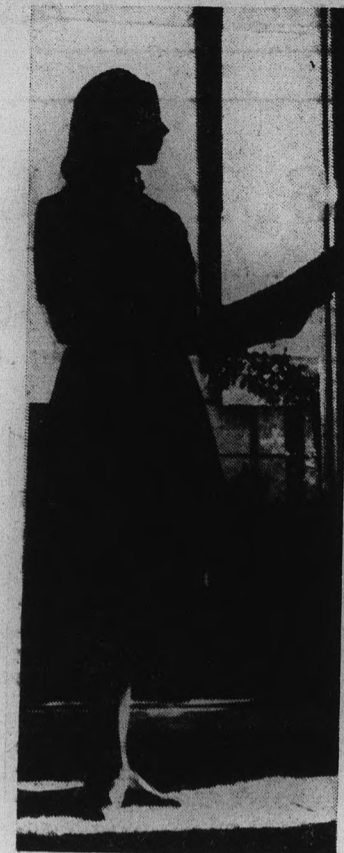

George Stewart is delegate-at-large to the College Service Committee, coordinating body for all Young Republican chapters in the state.

Rodeo Students Receive Honors At Fairgrounds

Incorporation of two rodeos at Pinal County Fairgrounds last weekend concluded with Arizona State students taking top honors.

At the Arizona Rodeo Association event, John Fincher won first place in the calf roping, and Tom Harsh took the second niche. The teams of John Fincher and Jess Patten, Stan Harter and Tom Harsh shared first and second places in the team roping events. Wayne Schaaf captured a second and third place in bareback riding.

Pat Burnette, ASU's representative in the finals of the Arizona Girls Rodeo Association, was presented with a sterling silver buckle for winning the barrel race of the permit division.

READER'S THEATER — Jacquelin Gaston reads lines from 'The Glass Menagerie' to be featured in the Lyceum building by the University Players tomorrow night. (State Press Photo by Larry Ward)

Durham's Talk Explores Growth

President Durham will discuss "Metropolitan Phoenix and Economic Growth" during a luncheon meeting Thursday of the Phoenix Chamber of Commerce at the Hotel Westward Ho.

Dr. Durham will explain how the University will fit into the Phoenix of the 21st century.

Mac & Jack Sez . . .
"Everything Is Not 'Black & White' At The PIONEER CAMERA SHOP
TEMPE CENTER

Tennessee Williams' "The Glass Menagerie" will be presented readers' theater style, Thursday at 8 p.m. in the MU ballroom.

Readers' theater consists of the performers seated on stools with the script before them. They interpret the play as they read it.

Sponsored by the Cultural Affairs Committee, the hour long performance will feature Gary Stephens as the brother Tom, Jacquelin Gaston as the mother Amanda, Carol Willey as the daughter Laura, and Mike Solomon as the gentleman caller.

Ken Salmon serves as the director.

Brother Tom acts as the narrator as well as a character and tells of his afflicted sister and mother who lives in the past.

The action takes place in the slums of St. Louis.

No admission will be charged.

Typing Tests

Two typing proficiency tests will be given in the BA 308 on October 30 and October 31.

Both tests will be given at 3:40 p.m. on Wednesday and 8:40 a.m. on Thursday.

For further information, contact Dr. Natale at BA 302A.

Faculty Donates Books; Aids Academic Library

Between 70 and 100 books pertaining to physics, chemistry, sociology, humanities and other fields were donated to the new library at Hayden Hall.

The hall council conducted an open house for the promotion of the library.

In addition to the reference materials there are several magazines and newspapers available in Hayden's library.

A set of 1963 Collier's Encyclopedias was donated by Matthews Library.

Assistant head resident Sam Cook said "This open house and the beginning of our library is just the first step toward something the men's residence halls have needed for a long time."

Anyone interested in helping promote the project can send books to Richard Scott, head resident, Hayden Hall, through campus mail or take them to the hall.

Chamber Music Concert Tonight

The Chamber Music Society will make its campus debut at 8:15 p.m. today in the MU ballroom.

The concert, featuring members of the music faculty, will be sponsored by the music department.

Students and faculty will be admitted free. A \$1 fee will be collected from the general public.

Javits At Podium For U.N. Day Fete

Senator Jacob K. Javits (R-N.Y.) will address more than 1800 persons in observance of United Nations Day at 8:15 p.m. tomorrow in the Thunderbird Room, Hotel Westward Ho.

Topic for Sen. Javits' speech will be "Case for a Strong UN." All tickets for the event are sold out, according to Madeline Rose, publicity chairman.

Javits is the ranking senator on the Joint Economic Committee. He also has been chairman for four years of the Economics Committee of the NATO Parliamentary Conference.

Author of the book "Discrimination U.S.A.," published in 1960, Sen. Javits is a frequent contributor to magazines and periodicals. He has been awarded honorary degrees from 10 universities.

Clare Boothe Luce, former Ambassador to Italy, will introduce the senator.

Katanga Film

"Katanga — The Untold Story" will be shown tomorrow at 3:40 p.m. in BA 203, according to Norman Wykoff, chairman of Young Americans for Freedom.

The documentary film tells the story of the United Nations police action in the Congo province during the fighting last year.

WANTED: Men & Women to sell nationally advertised product. Generous Commission. Eichenauer — WH 6-5281.

Pardon me if I sound as if the executive position I've landed deals with the whole future of the world.

It does.

Certainly, there's no organization today conducting more vital business than the business of the United States Air Force. And very few organizations that give a college graduate greater opportunities for responsibility and growth.

As an Air Force officer, you'll be a leader on the Aerospace Team—with good pay, a 30-day paid vacation each year, educational opportunities.

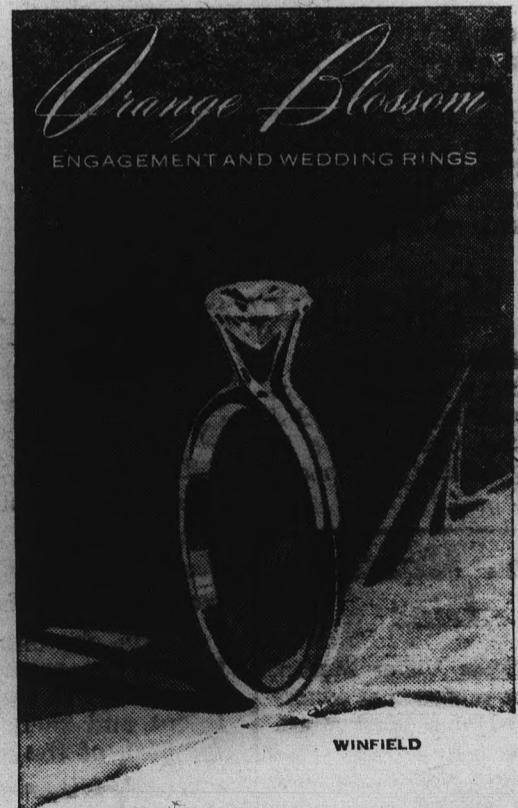

How can you get started? For many, the best way is through Air Force ROTC. But if you missed out on AFRQTC, or if there's no unit on your campus, you can still apply for Air Force Officer Training School. This three-month course leads to a commission as a second lieutenant in the United States Air Force.

For more information about Air Force OTS, see your local Air Force representative.

There Is A Proper Way

"Student opinion and Associated Students' opinion most certainly should be expressed, but only through a proper means."

ASASU President Daryl Winn ended his statement on voluntary ROTC petitions with these words. The statement, printed elsewhere, verifies the Executive Council's stand on the petitions being circulated for a voluntary ROTC lobby at the state legislature.

We ask what could be more proper than a student government committee formed as the result of a petition?

If the Executive Council refused to name a lobbying committee at their Sept. 30 meeting, obviously they are against the idea of an ASASU lobby at the state legislature. The only alternative for voluntary ROTC leaders is a student poll.

We appreciate the Executive Council's concern to protect the students' integrity and reaffirm our responsibility, but when it infringes on a basic freedom to express an opinion or choice, we cannot condone this.

The petition will poll student opinion, in the sense of getting signatures to recommend a committee to lobby in the state legislature. If enough people sign the petition—there is reason to believe a committee should be formed to study the alleged problem.

So much for petitioning. The contents of the petition are another matter. We do not believe that the student government committee, if formed, should have specific authority to promote such a program in whatever manner the committee deems advisable.

If the student government committee were to do this, it would put itself in the same position as the Executive Council; a few determining for the whole on a controversial problem.

We do not believe any one person should appoint such a committee; rather it should be formed by interested students. The best means possible, after the refusal by the Executive Council, is to circulate a petition as one source of student opinion.

Before a committee is formed to represent 15,000 plus students' opinion before the state legislature, there must be proper basis for the formation — enough signatures on a petition may be the basis.

Hootenanny - Heck No

By BOB RANDOLPH

Contrary to what you may believe, the Social Activities Committee is looking out for your pocketbook.

Dr. Martin Dies

Dr. Clyde Victor Martin, assistant professor of education, died of a heart attack Saturday night.

Professor Martin, 49, came to ASU in 1959 from Long Beach State College, Calif., and taught educational psychology in the College of Education.

Author of several publications, Dr. Martin is survived by his wife and 14 year old son.

Funeral arrangements are pending.

In question is the hootenanny show turned down by the committee.

The show was not ABC television's "Hootenanny" but a traveling California group known as "Hollywood Hootenanny."

Prime factors against the program were no knowledge of the group's talent and their demand for 85% of the receipts.

With less than a month's notice before the group would appear, the committee felt that it would not be enough time to print tickets, do ample publicity work and rent the gymnasium.

The committee already had many activities planned which would conflict with the performance.

ROTC Petitions Draw Fire

By DARYL WINN
ASASU President

Today a petition is being passed out to those who support voluntary ROTC. The essence of the petition is to direct the Executive Council of the Associated Students to appoint and officially recognize a committee to transmit the opinions and recommendations of the Associated Students to the officials of the government — directly to the Arizona State Legislature. On Sept. 30, Zig Kalnitz speaking on behalf of voluntary ROTC and Capt. Blanch of the Army ROTC department, speaking on behalf of compulsory ROTC, were present at the Executive Council. From this meeting a decision was reached concerning this issue regarding action which should be taken by the Associated Students. This statement was issued at that time:

"This Executive Council reaffirms the right and responsibility of individual students to lobby as individuals or groups of students. We do not feel, however, that lobbying at the legislature is, in this case of voluntary ROTC, a desirable function of the Associated Students."

To protect the integrity, to uphold and reaffirm the responsibility, Executive Council has taken this position on behalf of you, the Associated Students. The question is not whether voluntary ROTC or compulsory ROTC is desirable or right in the eyes of the students. This question can only be answered by polling student opinion.

The real issue exists in the means to the end and not to the end — that being voluntary ROTC. The members of Executive Council could personally have felt favorably or unfavorably toward voluntary ROTC and still have reached the same decision. This petition, as can be noted, demands that Associated Students recognize and approve a committee that has complete and sovereign discretion to determine what should constitute the most advantageous means of transmitting opinions and to what parties these opinions are to be transmitted.

This is both undesirable and unconstitutional and certainly detrimental to Associated Students' interests. This committee will be used as a tool to apply pressure to the state legislature in favor of voluntary ROTC. Any committee recognized as an official Associated Students committee would certainly have added prestige and impact regarding the opinions expressed. The president of ASASU would be delinquent in his duty if he were to appoint such a committee and to assign to them the authority to act on behalf of 15,500 students.

Student opinion and Associated Students' opinion most certainly should be expressed, but only through proper means.

Letters To The Editor -

'Smother The Students'... Success

TO THE EDITOR:

"Smother: . . . to suffocate, strangle . . . a state of being stifled or suppressed . . . to suppress or prevent expression, utterance, notice, or knowledge of as though by thick covering. To stop or prevent the growth, development, activity, or vitality of, by or as if by thick covering. . . To overcome quickly and completely; vanquish at once and render utterly helpless. . ."

And so are conquered the cheerleaders, the Devil's Disciples and the last small remnant of school spirit.

In 1970 the freshmen will hear of "the way it used to be" while they sit in complete silence at football games.

"SMOTHER THE STUDENTS."

Archer Shelton
Devil's Disciple

TO THE EDITOR:

I would like to express my thanks to the members of the athletic department for making it possible for three cheerleaders to go to El Paso. This past weekend was my first opportunity in two years as head cheerleader to go with the football team to an away game!

The student finance committee wouldn't give the cheerleaders money to go to El Paso so the athletic department came up with enough funds to send three of us.

The few students who were there were very spirited and we had a real good alumni group.

I hope that more students will go to the next away game at San Jose because I would really like ASU to have a good showing there or any-

where we go. I hope the cheerleaders get enough money to send all of us to San Jose.

Once again I'd like to thank Mr. Smith and Mr. Rispoli for their help.

Mike Schwartz
Head Cheerleader

TO THE EDITOR:

It seems a shame that an ASU student can't behave like an adult at a movie. The past two semesters I have tried to program adult movies that the students would enjoy; but during Thursday night's performance of "Les Girls" I thought the attitude of the audience was very childish to say the least.

Next semester I have planned to get such movies as "Sweet Bird of Youth," "Period of Adjustment," "Hatari" and Hemingway's "Adventures of a Young Man."

But if this type of audience behavior continues, future movies will be planned on the level of the audience intelligence. For example we might try "Cinderella," "Snow White" or "Pollyanna."

Gerald Beemiller
Movie Chairman
Cultural Affairs
Committee

TO THE EDITOR:

Questions for Bob Reilly? Do you desire to use our "Maginot Line of Atlas, Titans and Minutemen" before they become harmless?

Haven't "wise" men used the spear, bow, musket, rifle and atomic bomb before they were rendered harmless?

Greek To Me -

'Cheer'-fully He Leads

By MIKE LONGSTRETH
And SUE JEFFRIES

What type of person is a Greek? Well, in reality he or she could be most anyone.

One of the greatest virtues Greek life has to offer a student is variety. Through affiliation, comes a greater awareness and appreciation of unusual and outstanding personalities. This week the Greek To Me column is about one such campus personality — Mike Schwartz.

Mike's calling card is

a pair of black tennies, short white bermudas, and an extra large cheerleader sweater. His game-time enthusiasm is noted by tremendous and fiery enthusiasm for ASU.

When Mike isn't greeting sports fans with "Hi-ya kids, Hi-ya" he's helping the sororities sell pledge 'slaves.' And when he isn't an auctioneer, he's selling men's clothes at a Tempe shop, or leading a fraternity song practice, or arranging an exchange or doing any of ten other things.

NOT EVERYONE can stand in front of an audience of game-size to unify, maintain and even build spirits into a resounding roar of laughter or an explosive yell. Mike can and does.

When you talk to Mike for any length of time you realize that leading cheers is what he enjoys. When we asked him about his position he replied simply, "It's a real honor to be cheerleader. Being cheerleader is the greatest award I'll ever get. It's hard to say what a great feeling it is when the students yell and to hear their favorable comments."

MIKE certainly has a sincere interest in his school and its spirit. "Full of the devil?" well, perhaps, but he well de-

serves a title, "Symbol of Spirit."

Mike Schwartz, student, cheerleader, and a Greek.

"Hi-ya kids, hi-ya!"

"It's a great shot of my birthmark!"

Society Plans Conducted Trip

The Cultural Affairs Committee is offering a tour for all interested students to the Arizona State Capitol and Phoenix City Hall on Nov. 7.

The tour will give students an opportunity to see the principles and administrative techniques used in city and state government.

The group will also meet Governor Paul Fannin, Attorney General Robert Pickrell and Secretary of State Wesley Bolin.

More information and tickets are available at the MU information desk.

Marketing Club Plans Initiation, Guest Speaker

Wonda Chinn, Valley real estate broker, will be the main speaker at a meeting of Pi Sigma Epsilon, national professional fraternity in marketing, selling and sales management at 7:30 p.m. today in MU 211.

Plans for an initiation banquet also will be discussed at the meeting. Governor Paul Fannin has been scheduled as keynote speaker for the banquet.

Organization Plans Lecture Meetings

Sociology Club met Monday in the MU with Dr. Robert Lamm, associate professor of the music department speaking on "Sociology of Music."

Dr. Lamm's lecture concerned the origins and types of influences on exotic music. Types of music discussed were calypso, flamenco, voodoo, jazz and blues.

Dr. Lamm said, "I think it's

presumptuous of musicians to study music without consideration of its social origins."

The club has planned its next meeting for Nov. 4 to make preparation for a presidential election. Dr. Hans Sebald is faculty sponsor.

Next planned speaker will be Dr. Marvin Fisher, associate professor of English, speaking on "Sociological Use of the Literary Imagination."

here is a book that is helping us to think clearly

In these troublesome times it takes some doing to keep one's perspective — to appraise world conditions with intelligence — and to come up with satisfying answers. This book, Science and Health with Key to the Scriptures by Mary Baker Eddy, has helped many of us to do this. It can help you, too.

We invite you to come to our meetings and to hear how we are working out our problems through applying the truths of Christian Science.

CHRISTIAN SCIENCE ORGANIZATION

 Meeting time: 6:15 p.m. Sundays
 Meeting place: Memorial Union
 Science and Health is available at all Christian Science Reading Rooms and at many college bookstores. Paperback Edition \$1.95.

THERE WILL BE AN EAGLE ON THE MOON

Our world-recognized trademark—"the P&WA eagle"—has been identified with progress in flight propulsion for almost four decades, spanning the evolution of power from yesterday's reciprocating engines to today's rockets. Tomorrow will find that same Pratt & Whitney Aircraft eagle carrying men and equipment to the moon and to even more distant reaches of outer space.

Engineering achievement of this magnitude is directly traceable to our conviction that basic and applied research is essential to healthy progress. Today's engineers at Pratt & Whitney Aircraft accept no limiting criteria. They are moving ahead in many directions to advance our programs in energy conversion for every environment.

Our progress on current programs is exciting, for it anticipates the challenges of tomorrow. We are working, for example, in such areas as advanced gas turbines, rocket engines, fuel cells, nuclear power—all opening up new avenues of exploration in every field of aerospace, marine and industrial power application.

The breadth of Pratt & Whitney Aircraft programs requires virtually every technical talent. It requires ambitious young engineers and scientists who can contribute to our advances of the state of the art. Your degree? It can be a B.S., M.S. or Ph.D. in:
MECHANICAL • AERONAUTICAL • ELECTRICAL • CHEMICAL and NUCLEAR ENGINEERING • PHYSICS • CHEMISTRY • METALLURGY • CERAMICS • MATHEMATICS • ENGINEERING SCIENCE or APPLIED MECHANICS.

Career boundaries with us can be further extended through a corporation-financed Graduate Education Program. For further information regarding opportunities at Pratt & Whitney Aircraft, consult your college placement officer—or—write to Mr. William L. Stoner, Engineering Department, Pratt & Whitney Aircraft, East Hartford 8, Connecticut.

SPECIALISTS IN POWER . . . POWER FOR PROPULSION—POWER FOR AUXILIARY SYSTEMS. CURRENT UTILIZATIONS INCLUDE AIRCRAFT, MISSILES, SPACE VEHICLES, MARINE AND INDUSTRIAL APPLICATIONS.

Devils Dump Miners; 4th Straight

Lorick, Taylor Tough In A-State's 27-0 Win

By JOE HEATH

EL PASO, Tex. — Arizona State's runnin' men, featuring Tony Lorick and Charley Taylor, rolled up 451 yards in posting a 27-0 win over Texas Western here Saturday night.

Lorick, the team's leading rusher, set up three TD's and gained 176 yards in 21 carries while Taylor ran out of his halfback position for 111 yards in 14 attempts.

The win was the fourth in a row for the Devils and their first shutout in 14 games. It was the Miners' third loss in five games.

LEAD BY SIX AT HALF

On the final play of the first quarter, Lorick broke through the middle of the Texas Western defense for 38 yards, putting the ball six yards short of the goal line.

Two plays later quarterback John Jacobs plunged over from three yards out and the Devils took a 6-0 lead.

With time running out in the first half, Jacobs and Taylor combined talents to move the ball to the Miner eight yard line, but a fumble, one of two lost by the Devils, gave Texas Western the ball as the half came to an end.

JACOBS TO HARRISON

The Miners kicked-off to open the second half and in 10 plays the Devils moved 68 yards, scoring on an 11-yard pass from Jacobs to end Herman Harrison.

Seedborg's kick was good and the Devils led 13-0 with 10 minutes left in the third period.

At the start of the final period, the Miners had possession of the ball, first down on the A-State 25.

The Devils stopped the drive when a fourth down pass attempt by Western quarterback Jerry Tucker was intercepted

by Tony Lorick and run out to his own 26.

On the second play from scrimmage it was Lorick again, this time for 48 yards, moving the ball into Miner land.

With 9:19 left on the Sun Bowl clock, Taylor circled left end for nine yards and the Devils took a commanding 20-0 lead.

TD CALLED BACK

After taking the kickoff, the Miners were once again forced to punt.

Curt Parsons boomed a long kick that was taken by Benny Hawkins on his own 26 and the Devil speedster ran the ball all the way for what appeared to be another score.

Hawkins, who has had long runs called back on other occasions this season, was once again the victim of a Devil miscue and the play was called back due to a penalty.

Imps At Home -

Arizona State's Sun Imp freshman football team will play its only home game of the season Saturday at 2 p.m. in Sun Devil Stadium.

The contest matches the Sun Imps, entering the game with a 1-0-1 record, against the University of New Mexico Wolfpups, 0-1 on the season.

In the Sun Imps' two previous games, they were tied by EAJC, 7-7, and beat the San Diego State JVs, 27-19.

The Wolfpups lost their season opener last weekend, 27-6, to the UofA Frosh.

With 1:01 left to play, John Torok, replacing Jacobs at the quarterback slot, shot an 11-yard fourth down pass to end Jerry Smith.

Seedborg added the point after and the scoring was all over with the Devils on top, 27-0.

A pre-game attendance prediction of 24,000 was cut down to 13,221 at the newly built Sun Bowl due to the bad weather.

It rained in El Paso right up until game time, but ceased when the game got underway.

The Devils have an open date this weekend, returning to Sun Devil Stadium on Nov. 2 for the game with Utah.

Intramurals

Hooters Inc. took four out seven first places and amassed 31 points to win the intramural swimming competition.

Volleyball and tennis are presently underway and will continue through the month.

Volleyball is being played daily at the A-State courts next to the swimming pool.

Off The Cuff

By AL MICHAELS

Tony Lorick is the most exciting player on this year's A-State football team and is an outstanding professional football prospect.

But he performs for a school with a "so what" reputation among stuffy-headed eastern sportswriters who regard Dartmouth, Princeton and Holy Cross on a higher plane than ASU.

Hence, Lorick is practically an unknown commodity to the majority of the nation's college football followers.

But so were Ernie Ladd, Andy Robustelli, Johnny Unitas, Jack Kemp, Dick (Night Train) Lane and a carload of today's professional stars in their college heydays. Tony Lorick will be in that carload.

A-State Runners Win Cerk Inks With Phillips

By JON MORRIS
The A-State cross country runners upset UofA for the first time, with Phoenix College third in a triangular meet Saturday at Papago Park.

The Sun Devils scored 27 points, UofA 31 and PC 85.

Louis Scott, a 4:11 miler, was individual winner with a time of 14:11 over the 2.9-mile course.

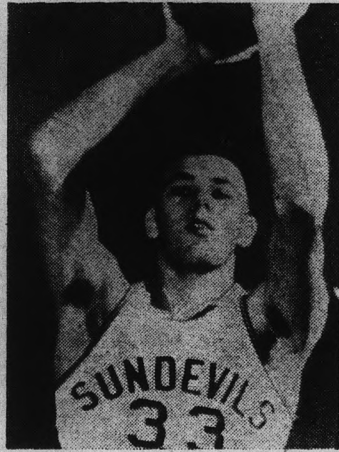

Other A-State scorers included Eric Owers, fifth, with a time of 14:50; Art Reade, sixth 14:51; Bob Stiffler, seventh,

14:52 and Joe Smart eighth, 14:57.

Coach Baldy Castillo's harriers travel to Tucson Saturday for a four-way meet with the UofA, Texas Western and Western New Mexico.

Sun Devil Facts

Frank Kush, head football coach at Arizona State University, won All-America honors while playing guard on a Michigan State team that won the national title in 1952.

TONY CERKVENIK

Tony "The Horse" Cerkvenik, inside man of the Sun Devil basketball team for the past three seasons, has signed to play basketball with the Phillips 66 Oilers, a member of the National Industrial Basketball League.

Cerkvenik withdrew from school Monday and left yesterday morning for Bartlesville, Okla., where team practice will commence tomorrow.

THE 6-4, 220-pound forward played in 83 games wearing the Sun Devil uniform, scored 980 points (11.8 average) and collected 1,002 rebounds (12.4

average).

His three-year rebounding total is a school record. He also holds the record for the most rebounds in one season at 415 and shares the record for the most in a single game with 26 (tied with Art Becker).

"THE HORSE" was due to graduate this year, lacking only 16 hours to complete his major in finance.

"The company will send me to school in the off-season so I can get my degree," said Cerkvenik, "and I'll be back in Tempe this summer to pick up the hours that I'm short."

"I hope that by playing for Phillips that I'll get a chance to

participate in the 1964 Olympic Games in Tokyo."

In leaving, Cerkvenik resigned his office of president of Alpha Tau Omega fraternity.

MUSEUM PIECE

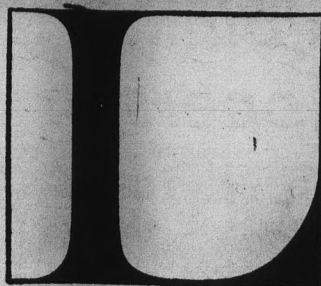

This cyclotron was built and operating by the fall of 1930 and reported at the Washington April Meeting (Phys. Rev. 37, 1707, 1931). The diameter of the chamber was about 5 inches. Placed between the 4-inch diameter poles of a magnet with a field of 12,700 gauss and 2,000 volts on its single dee, it produced 80,000 volt hydrogen molecule ions trapped and measured in a Faraday cage to which a measured and adequate decelerating voltage could be applied.

The do-it-yourself-with-sealing-wax days are gone from cyclotron technology forever. The tiny instrument invented by Dr. Ernest O. Lawrence at Berkeley in 1930 has been superseded many times by increasingly larger and more powerful instruments of nuclear research.

Today the business of discovery is carried on by 3200 people at the Berkeley site of Lawrence Radiation Laboratory, overlooking the University of California campus and San Francisco Bay. And the challenge of innovation remains for engineers—in advanced accelerator design and in a dynamic unclassified research program.

ME's: Our Mechanical Engineering work concentrates on design of accelerators and the instrumentation associated with them, on magnet development, high vacuum systems, shielding problems and mechanical engineering applied to biomedical research.

Engineering graduates at all levels who want to learn more about LRL should contact the Placement Office for appointments. Campus interviews will be held on October 29, 1963.
