

## Greek Week Activities Under Way

QUEEN DIANA — Dee Minner, Gamma Phi Beta, stands before two of her Greek servants after being elected to reign over the Greek Week celebrations. The Greek Sing

tonight, the Olympic games tomorrow afternoon and the Grecian Ball tomorrow night are the week's remaining activities. Sal Bando, Phi Gamma Delta, was elected Apollo.

(SP Photo by Ed Ryan)

### Minner, Bando '64 Diana, Apollo

Dee Minner, Gamma Phi Beta, and Sal Bando, Phi Gamma Delta colony will reign over Greek Week as Diana and Apollo.

Miss Minner was crowned by Ed Mauck, last year's Apollo, at the convocation Wednesday which marked the

start of "Year of Decision," Greek Week 1964, Bando was crowned by Gretchen Dierks, last year's Diana in front of the Theta Chi fraternity house last night.

Diana and Apollo were elected Wednesday, but a re-election was necessary for Apollo when a discrepancy was found in the original balloting.

NOTHING illegal was involved, but it was felt that to be fair to all candidates a re-election was necessary, said Margaret Dahl, co-chairman of Greek Week.

Gov. Paul Fannin officially opened the week's events Wednesday night during the convocation in the MU.

Other activities yesterday included a special College Bowl game at 3:30 p.m. and seminars at 4:30 p.m. in the MU.

Yesterday's activities were capped by progressive parties on Adelphi Drive last night.

GREEK BUTTONS stating "I Am A Greek" are the tickets to the week's festivities. The Lambda Chi Alpha Toad Hop at noon will open today's activities.

Harmony will prevail tonight at the annual Greek Sing in the Quad at 7:30. An established high point of Greek Week, this year's sing will feature 12 sororities and fraternities competing for three division trophies and the coveted sweepstakes award.

Tomorrow morning Greeks

will gather in Sun Devil Stadium at 9:45 for the Greek Olympics. Games will include a chariot race, a ping pong relay, tire race, tug of war, and a secret event.

DIANA and Apollo will open the Grecian Ball at 9 p.m. at the Phoenix Sands Saturday. Trophies will be presented to the winning sororities and fraternities during the ball.

Ending the Greeks "Year of Decision" will be the attendance of Greeks in groups at churches of their choice Sunday morning.

### Court Gets First Case In 2 Years

The first case on the docket of the Associated Student Supreme Court in more than two years is scheduled to be heard Wednesday.

Dan Baker, as chief justice, said the court would hear the case of Ron Gercke vs. Campus Security, an appeal from the Traffic Appeals Board at 4 p.m. in MU 7.

Gercke said, in a letter to the court, he is appealing because of "inconsistency between posted signs and Campus Security policy."

"This is one of the first indications that students realize that they have the right to appeal decisions of the Traffic Appeals Board to the Associated Student Supreme Court," Chief Justice Baker said.

A second case, James L. DeRose Jr. vs. Campus Security, has been placed in the court docket, but a hearing date has not been set. This case also involves a traffic citation appeal.

### \$2,600 For Graduate Research -

## Foundation Awards Grants

Ann Marie Yates and David N. Stein have been awarded graduate research fellowships by the ASU Foundation, Dr. William J. Burke, ASU executive vice president, announced Wednesday.

The foundation fellowship, said Dr. Burke, is "one of the greatest honors bestowed on an ASU graduate student."

Each fellowship carries a \$2,600 stipend, and an addi-

tional \$400 goes to the department, school or college in which the graduate students are enrolled.

MISS YATES, 23, is working toward a Ph.D. in chemistry. She will investigate the formation and composition of meteorites, using X-ray fluorescence for the analysis.

She received a bachelor of science degree from St. Lawrence University, Canton, N.Y., in 1962, and is a member of Gamma Sigma Epsilon, Sigma Pi Sigma and Phi Beta Kappa, honorary chemistry, physics and scholastic fraternities.

Miss Yates also held a New York State Regents scholarship at St. Lawrence for four years before coming to ASU as a chemistry assistant in September, 1962. She plans to continue chemistry research in either an industrial or academic position upon completing work toward her doctorate.

STEIN, 21, a teaching assistant in English since September, plans to teach English literature on the college level after earning his Ph.D.

He received an associate of arts degree from Phoenix College in 1961 and a B.A. from

ASU in 1963. Stein was a member of Iota Sigma Alpha, PC honorary scholastic group, and Phi Kappa Phi, honorary academic fraternity at ASU.

## Student Government Convention To Meet

Student body officers from universities and colleges in 12 Western states will assemble at the Valley Ho in Scottsdale April 29 to May 2 for the 39th annual convention of the Pacific Student Presidents Association.

Approximately 50 schools will be represented, according to AS President Daryl Winn, treasurer-host of the PSPA.

The organization, the oldest regional student body officers association in the nation, is directed toward improvement of member schools by mutual exchange of ideas.

"NOT ONLY will questions of government structure, finances, student newspapers, administrative and campus relations be discussed, but a new emphasis will be placed on the individual — as a leader," according to Winn.

Groups will also discuss the ineffective handling of tasks or

problems confronting a committee because of improper maintenance of members roles and/or personal feelings. "An integration of the two aspects will be considered and emphasized," said Winn.

APPROXIMATELY 15 to 20 trained individuals will act as trainers in each of the groups.

During the convention, the PSPA will make an award to J. Edgar Hoover in recognition of his leadership and concern for American students.

ASU asked for the chairmanship of the convention at last year's convention and received the bid, Winn said.

### Applications Due Next Wednesday For Workshop

Applications for the Payson Leadership Workshop may now be obtained at the AS secretary's office, MU 202. The forms are due Wednesday for the 20 openings.

The pre-Payson Workshop will be April 14. The theme of this spring's workshop is "The Puzzle of ASASU."

Entertainment at the workshop will include a dance band Friday night and a fireside show Saturday night.

### Here's One To Use Next Year

On April 1, alias "April Fools Day," pranksters stuffed 15 cubic feet of crushed newspaper into LSC 180.

Dr. David Rasmussen, assistant professor of zoology, found consolation only in the fact the pranksters didn't fill his office with Easter bunnies.

# Annual Blue Key Carnival Planned

At least 12 campus organizations have tentatively signed up for booths at the eighth annual Blue Key Carnival April 11, according to Charles Stewart, carnival publicity chairman.

Deadline for booth entries is 4 p.m. tomorrow.

Carnival proceeds go into the Blue Key General University Scholarship Fund. Last year's carnival raised more than \$250, according to Stewart.

THE CARNIVAL will be held in conjunction with the eighth annual MU Birthday Party. Theme for both is "The Golden Age of Shakespeare," with the carnival dubbed "Carnival on the Green."

The carnival will be from 8 p.m. to midnight on the East Hall south lawn. An estimated 10,000 persons are expected to attend, Stewart said.

Trophies will be awarded by Blue Key to organizations in sweepstake competition and to the most original, most profit potential and most lucrative booths.

BOOTHS WILL be manned by members of sponsoring organizations. Workers will wear

See related editorial, "A Shakespearean Party," on page 4.

costumes exhibiting the carnival theme.

Stewart said a complete list of entries has not been completed, but he listed the following organizations as entered:

Alpha Delta Pi, cake walk; Chi Omega, marriage booth; Theta Delta Chi, auction, and Sigma Chi, gambling booth.

PHI GAMMA Delta, an LDS group, and a McClintock B. Hall group will also sponsor booths, Stewart said.

Last year's carnival had 15 booths, mostly games.

Blue Key members will build this year's booths and sponsoring organizations will decorate them, Stewart said.

(SP Photo by Ed Ryan)

FUN FOR ALL — Pete Decker, Blue Key Carnival chairman, and Dan Baker, Blue Key president, display trophies which will be presented to two of the groups planning

booths for this year's eighth annual carnival. A total of seven trophies will be presented to organizations that follow a Shakespearean theme in decorating their booths.

## English Exam

The Junior English Proficiency Examination, required of all liberal arts second semester sophomores not receiving an A or a B in En. 102, will be given from 2:30 to 5:30 p.m. April 16 in LSC 191.

Students should allow two hours for the test and may bring dictionaries. ID cards will be required.

Students who fail the test or neglect to take it will not be permitted to take upper-division courses next semester.

## 'Meate And Musike' On Tap For Party

"For hit is not used at supper to serve men with greate meate and comin (common) as it is used at dyner, but with specyall lyghte meate and delycouse . . .

Wyrthe of songe and of instruments of musike; noble men use not to make suppers without harpe or symphony."

This description of an Elizabethan banquet is taken from "Social Life in Britain from the Conquest to the Reformation" by G. G. Coulton, but it is applicable to the Elibabethan Banquet scheduled at 7:30 p.m. next Friday during the MU Birthday Party.

Students will be served foods of the period while they are entertained by minstrels, jesters, dancers, magicians and fire-eaters.

Banquet tickets are now on sale at the MU desk for \$2.50. Due to limited space, only 350 tickets will be sold.

## 'Little 500' Bicycle Race Brings In Over \$150,000

Howard S. Wilcox, general manager of The Republic and Gazette, told the ASU Foundation members and guests last night how Indiana University students raised over \$150,000 during a 12-year period of saged bicycle races called the "little 500."

Speaking at the Hotel Westward Ho, Wilcox said Indiana's program was based on the "help - those - who - help - themselves" theory. Only students who work their way through college are eligible for aid under the foundation's program.

Wilcox is a university trustee and foundation director at Indiana.

In addition to Wilcox's speech, President G. Homer Durham reviewed campus activities and the Aires, ASU vocal trio, sang songs from "South Pacific," "The King and I" and "Flower Drum Song." Members of the group are Betty Burton, Patricia Tarpey and Karl Wochner.

## Appeals Results

The following results were released by the Traffic Appeals Board after Wednesday's session:

- Denied**  
 Glen Brooks Jr., Steve Bardin (2), Kenneth Thomas, Milton Vaughan, Anthony Smoot, Frank Rivera (3), Donald Rillings, Charles Haney Rose Marie Freeman, Julie Whitfield (1), Gordon Wheat (1).
- Granted**  
 Dudley Greer, Charles Christensen (2), Edward Royse (2), Claudia Everett, Gail Anderson, Harold Simpson, Alan Perysian, Katherine Bouteille, C. Hamstra, Julie Whitfield (1), Gordon Wheat (1).

## Evangelist Graham Will Appear Here

Billy Graham, internationally-known evangelist, will speak in Sun Devil Stadium April 24 to 26 in the first Arizona Billy Graham Crusade.

Friday's talk will be directed toward youth and will start at 7:30 p.m. Saturday's will also begin at 7:30. The last meeting begins at 4:30 Sunday afternoon.

Graham conducts a weekly radio program, "Hour of Decision" and has a daily syndicated newspaper column, "My Answer."

He has lead crusades in 20 countries and scores of cities

across the nation and has spoken directly to more than 33 million people.

A 1,500-voice choir, under the direction of Cliff Barrows, made up primarily of University students will sing at the three services.

This will be the first time Graham has brought his crusade to the Phoenix area. Following the Tempe Crusade, he will travel to San Diego, Calif., Nebraska, and complete the tour in Ohio.

The meetings will be free and open to the public.

NO!

DON'T BOTHER TO CARRY AN EXTRA SUPPLY.

New Carefree\* tampons promise so much more protection—you can leave the extras at home!

The principle of this superior protection<sup>†</sup> is simple, natural. Most old-style tampons flatten, thin out, elongate when moisture strikes. This shape simply cannot cover the area of flow properly. Thus embarrassing accidents occur.

But a Carefree tampon (firmly compressed so it needs no rigid applicator) expands into a natural, round shape that conforms to your own body's structure, responds to your own body's needs. It gives you more comfort than any tampon or napkin ever developed.

Actual use tests proved that the new Carefree tampon absorbs, without leakage, 73% more than the leading tampon—starts to absorb more quickly than any other.

Better protection—longer protection. That's why you can leave that extra supply at home.

\*Trademark

<sup>†</sup>Because Carefree is far more absorbent, there is no need for a Carefree super size. If you are using tampons for the first time, you may wish to try Carefree Slim (the smaller size).

Carefree

### LITTLE MAN ON CAMPUS

"AFTER BRIEF OBSERVATION, I THINK I'VE FOUND THE BOTTLENECK IN YOUR PLAN TO IMPROVE YOUR STUDY HABITS."

### I Cover College Avenue

By ED HEATH  
 Managing Editor

Spring vacation is over and by looking at the survivors all sun-burned and bleary-eyed, it must have been an active week.

Hope there's still enough energy left in everyone to participate in some of the usually spectacular spring entertainment that will be conducted on campus during the next month.

THESE activities serve two purposes important to college students:

They supplement the academic environment and provide a common interest which brings students together in one place where they can reap the mutual benefits of the event as well as meet other students.

Most immediate is Greek Week's finale, the Olympics are scheduled for Goodwin Stadium, bar any emergencies.

ALTHOUGH only fraternity and sorority members can participate, others are welcome to come and observe the many games and activities.

They have been of good quality in the past and promise more of the same.

Noticed the Greek "big-name-buttons" many are wearing this week? Very clever. Wish I had one.

FOREMOST on the schedule is the MU Birthday Party and the Blue Key Carnival which will run simultaneously.

A great deal of work is being put into these events to make them the best yet. And its following some pretty good shows of past years.

Emphasis is being placed on a costume effect so plan now.

Coming up May 1 to 3 is the Chi Omega-Pi Kappa Alpha Jazz Festival.

Besides promising some of the best-named jazzmen in the country, entries are available to any college jazz group in the West.

WE especially hope that since it is being held on our campus and student participation in the event is so encouraged, it will meet with high student acceptance and not falter as have other attempts to get some big-name talent on campus.

The Gamma Phi Beta-Delta Sigma Phi Follies are coming April 24.

This has always been a very popular event on the spring semester calendar and characteristically "salty" and satiric of campus life.

Wonder what relation the theme of the event, "Follies Go Wild," has with these above characteristics?

## A Shakespearean Party

"For as much as it is manifestly seen in the State of Arizona how it hath pleased Almighty God of His most singular favour to have taken this Memorial Union of Arizona State University into His special protection these eight years, the Lords and Ladies of the most Honorable Privy Council declare a period of festivities. Everything being in readiness, these festivities shall be in honour of Elizabeth I, Queen of England, and in commemoration of the Quadracentennial of the birth of one, William Shakespeare, Bard of Stratford-upon-Avon," proclaims the announcement.

MUCH ADO ABOUT the birthday. For the past few months a committee of very interested and devoted students and Memorial Union staff members have been planning the great eighth annual MU Birthday Party. This one won't just be the party of old we're used to, it will be an authentic, colorful festival of the 400th Anniversary of Shakespeare's birth.

This year the whole MU will be devoted to the one theme, not a collection of diverse themes presented other years. The party will be April 9 to 11, not just one day as in the past. This will be Shakespeare all the way through, but don't worry, Shakespeare has never been so much fun.

THE FOOD, the entertainment and the decor will be strictly Elizabethan. The planning committee is receiving professional help from scholars and museums around the country. Considerable enthusiasm and interest have been expressed by Shakespearean groups throughout the United States and Britain.

Starting the three-day festivities will be a masque next Thursday night. The masque is a dramatic presentation set to music arranged especially by our Collegium Musicum. Friday night is the elaborate banquet for 350 complete with Elizabethan food and entertainment by minstrels and jesters. The crowning comes Saturday with the Grand Progress, the queen's entourage, from the Sun Devil Stadium down College Avenue to the MU. The Grand Ball, the first real costume ball we've had will end the evening.

"I HOPE ASU CAN rise up to a costume ball. The whole thing is big, challenging, exciting. Let's give it a try," said Mrs. Scoular, director of the MU.

The months of planning are showing their fruits but it's going to take a lot of hard work the next six days to complete the work. Sunday will be the principal decorating day and students are urged to help. Hours are from 8 a.m. on and all material will be provided.

## Are We Decadent?

This week the second national news magazine in two-and-a-half months is devoting its cover story to sex, and this time it's that much discussed new subject — promiscuous collegiate sex.

The nation seemed shocked last fall when the first story from Harvard explained the college students' liberal attitudes toward premarital sex. They couldn't understand it; they had never acted that way 20 years ago.

"There is the illusion abroad in the land that sex is the most important thing in life and that life can be built on sex alone," states the article. It seems that relationships are considered moral if they are "meaningful." Are students starting a new moral standard? As future leaders, no doubt our standard will be imposed, if they survive.

But why is everyone so shocked at our morals? We're the products of our environments and the emphasis on sex hasn't been very subtle in our lifetime. It's too late for our elders to distraughtly ask, "Why?" It's time they look within themselves for the answers.

## Letters To The Editor

TO THE EDITOR:

Recently I attended the first Cultural Reciprocity to be conducted on campus. I found it very interesting! Now, may I ask, why was there so little response to such a program? Why wasn't more said about it in the paper?

Are we students afraid to learn more or is it more fun to continue practicing what we already know?

I certainly hope that in the future we can pay more respect to our foreign students and the time they give us! Why not after this try and give them some of our time! Who knows, we might learn something.

Michele DeV Vaughn

TO THE EDITOR:

Look!  
 That is a girls' dorm.  
 Girls live there.  
 They have to.

Look!  
 The dorm is gone.

Look!  
 There is another dorm.  
 It is also a girls' dorm.

Look!  
 That is housing.  
 It is giving the dorm to the boys.

Look!  
 There are no girls.  
 Mary Ellen Brockert

TO THE EDITOR:

I would like to compliment the Cultural Affairs Committee for the quality of the films shown recently at Cosner Auditorium.

I was also pleased to see that the "animals," those noisemakers at the movies, were not there at the last presentation. It is a pleasure to be able to enjoy a good movie without having to read the actors' lips.

Maybe the "animals" have learned to appreciate the movies or have decided to let others enjoy them. Either way, my compliments to the

Cultural Affairs Committee.

Joe Trueba

TO THE EDITOR:

For the third time in 10 days I have left Matthews Library surprised and disgusted at the behavior of some of the so-called students who go there to "study."

On each of these occasions, I and others nearby have been rudely disrupted from our work by people sitting at the same table, who appear to feel that a library is a place to come to chat about frivolities, discuss parties and dates, giggle and make remarks about passersby.

Only on one occasion have I seen these nuisances reprimanded by a member of the library's staff.

I realize that a state-supported university such as this is obliged to accept almost anyone who cares to enroll, whether they do so for academic, social, mate-hunting, draft-dodging or parental reasons, but should those students in the first category have to frequently move about in the library, or even leave it, on account of immature and ill-mannered people who may never take a book from its shelves?

David F. Beer

TO THE EDITOR:

Thank you for consenting to give the homeless girls of East Hall (approximately 100 girls) and Wilson Hall (approximately 150 girls) the spacious Gammage Hall (capacity 85).

Of course some changes must take place: Triple bunk beds will be moved onto the sleeping porches, the two closets per room must be divided to provide space enough to accommodate four or five girls to a room. This presents one problem, there is no room for the girls and they are homeless again.

Why not let the girls live off campus, or provide camp-facilities on campus.

Loa Allen

# Chemicals Tested In Cancer Study

By MICHAEL AVENENTI

Although no cure is known for cancer, progress is being made in fighting the disease through chemotherapy. The new treatment uses chemicals to alleviate the affects of cancer.

On a grant from the National Cancer Institute of the National Institutes of Health, Dr. Roland K. Robins, professor of chemistry, is engaged in the synthesis of compounds which may prove effective against cancer.

With the aid of 16 assistants, Dr. Robins and his staff are producing these compounds. The finished product is sent to a government laboratory to be tested on infected mice. If the drug proves effective on the mice, it is then tried on a higher form of animal. Finally, it is administered to humans.

THE RESEARCH team has numerous files of drugs that proved "active" and "inactive." The results are published in medical and chemical journals.

Dr. Robins pointed out that a great deal of biochemistry is involved in treating cancer, which is an uncontrolled growth of cells. Most of the compounds are designed to be effective against leukemia, cancer of the blood. The process involves putting the molecules together with the right composition and structure.

ALTHOUGH better drugs are being made each year, they cannot cure; they can only prolong a person's life. The hindrance lies in the fact that scientists don't know enough about the disease, its origins and reactions of individuals to different drugs.

The cancer-causing element, carcinogen, has been the target of three types of therapy: an operation to cut it out, bombardment with radioactive elements and chemotherapy.

The secret to cancer cure may be found in DNA, deoxyribose nuclei acid. This is the blueprint of life, found in every cell of the body. Since cancer is an abnormal growth of cells, therein may lie the secret, since DNA is the controlling factor in reproduction.

UNFORTUNATELY, different types of cancer cannot be treated with satisfactory results by the same drug. Some will not respond to any treatment.

Many compounds differ slightly from each other in their structure. This accounts for the large number of drugs that can be tried.

While one may be found to be effective, it may at the same time harm the person who takes it. Others may be effective on one person and have no effect on another.

## Can you avoid living in "Jamsville"?

It won't be easy. By 1980 most Americans will live in 40 large metropolitan areas—each with more than a million population. To keep your community from becoming a "Jamsville" will take people with ideas—ideas that can help cities move more traffic swiftly, safely and economically.

Some of the ideas come from the men and women of General Electric who, in effect, form a "Progress Corps."

In major cities, they're helping to develop balanced transportation built around rapid rail-transit systems . . . and they're providing advanced equipment to power and control the trains. They're also developing a TV monitoring system that enables a single engineer to control miles of auto traffic . . . a jet engine

that speeds commuters in a hydrofoil ship over the waves . . . and another jet engine to lift travelers over traffic via turbocopter at 150 mph.

Traffic is only one of many problems General Electric people are working on. Their numerous projects, in this country and around the world, demand a variety of talents: engineering, finance, marketing, law, physics and many others.

If you'd like to join the "Progress Corps" after graduation, talk to your placement director. He can help qualified young people begin their careers at General Electric.

# Lack Of Quorum Holds Up Senate

The Senate was discussed Wednesday after more than two hours of action because of a lack of a quorum. A quorum is 18 senators.

Speaker George Stewart attempted to stop the flow by ordering the sergeant-at-arms to prevent any more senators from leaving. But, even then, two or three more got out.

AWS Senator Judy Hamer was pointing out amendments to the AWS Constitution when a quorum was called. The AWS Constitution, up for a vote in the committee of the whole, was not voted on, which sets it back a week, and the Senate was dismissed.

SENATOR HAMER asked that the AWS Constitution be placed first on the agenda for committee of the whole action to insure its passage at the next session.

Left on the agenda were Senate bills 204 and 209 which were both up for a final reading.

SB 211, a bill to give \$300 to the Arizona affiliate of the National Center for Education and Politics for a three-day work-

# AWS Selects Campus As Site For 1966 Regional Convention

ASU's bid for the next Western Regional Intercollegiate AWS Convention scheduled for 1966 was accepted by the AWS regional convention last week at the University of Washington, Seattle.

Paula Eisenmann, AWS president, was elected regional coordinator for the Western region. She will help organize activities for the next regional convention. This year's convention ran from March 22 to 25. About 200 delegates from colleges and universities in eleven Western states attended. Dele-

gates attending business sessions and workshops were taken on a tour of the Seattle World's Fair Space Needle.

Western regional officers were elected and several resolutions were passed. Controversy arose over one resolution advocating "that member

schools take an active part in political, social and academic issues which directly affect their campus women." The inclusion of "political issues" was subject to debate. However, the resolution was passed and will be sent to the national convention for approval.

shop, was sent back to the Finance Committee for an indefinite period. The workshop was held March 4 to 6.

ANOTHER BILL in the committee of the whole, SB 212, an act to establish a procedure for recognition of student organizations, was sent back to committee.

## Seminars Established

The National Science Foundation has granted \$26,820 to the University for secondary science and mathematics teacher seminars which will meet Saturdays beginning in September.

Dr. Ernest Snyder, associate professor of science education, was named director of an In-Service Institute in General Science and Mathematics for Junior High School Teachers, with a maximum of 48 participants.

Dr. Lehi Smith, associate professor of mathematics, is the director for an Institute for Secondary School Teachers of Mathematics, with a capacity of 35.

\* \* \*

## Fellowship Received

The College of Business Administration has received a contribution of \$2,500 from the T. J. Bettes Company of Houston, Texas.

The contribution, the T. J. Bettes Fellowship in Business Administration, was awarded by the trustees of the Bettes Foundation, established by Mrs. Ruth R. Bettes.

The contribution will provide a grant of \$250 for the 1964-65 year for an outstanding high school senior interested in real estate, finance or mortgage banking. The award is renewable after four years, provided the recipient maintains a 3.0 accumulative index.

It will also provide two \$500 graduate fellowships in the fields of real estate, finance or mortgage banking. Recipients are required to write a thesis in one of these fields.

Also provided is a \$500 fund to finance a seminar for Arizona mortgage bankers.

## Scholarship Awarded

Senior Robert L. Thayer has been awarded the \$250 George Ghiz Scholarship in sales and marketing. Ghiz is president of the Paddock Pool Construction Co., Phoenix.

Thayer is studying for a career in industrial sales and has an index of 3.44.

## Did You Know

Grady Gammage Memorial Auditorium was originally designed by Frank Lloyd Wright for the government of Iraq.

Shreve Babcock, Los Angeles architect who studied with Wright at Taliesin West, reports that the auditorium, originally intended to be many times its present size, was designed as part of a mammoth cultural and educational center which was abandoned when the sponsoring Iraq government was overthrown by a coup d'etat.

# ASU Hosts High School Science Fair

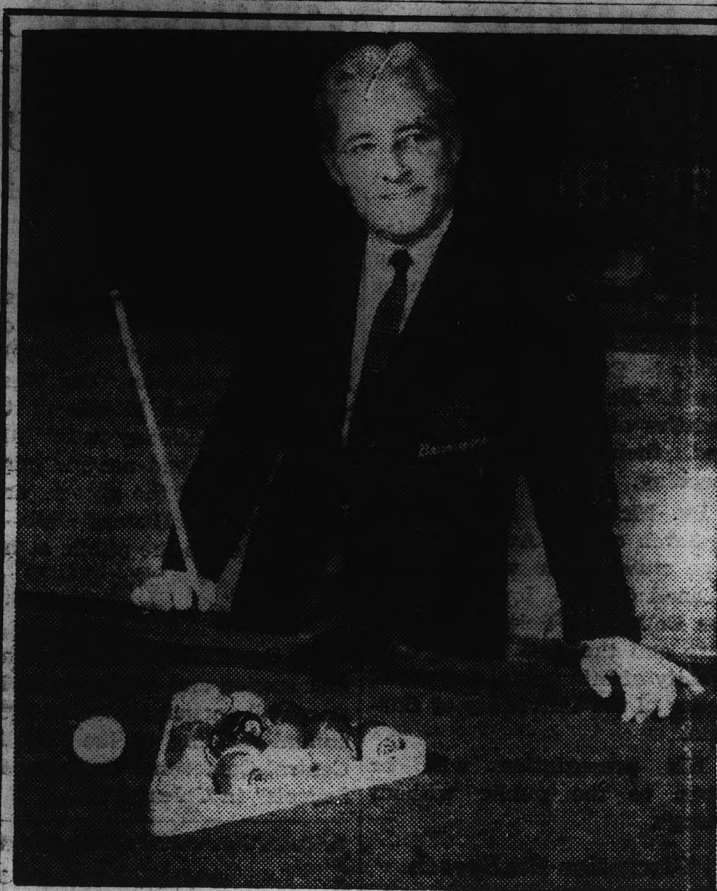

Over 400 junior and senior high school students will participate in the 11th annual Central Arizona Regional Science Fair today and tomorrow in Sun Devil Gym.

The public may see the exhibits from 3 to 7 p.m. and 8:45 to 9:30 p.m. today, and from 8:30 a.m. to noon tomorrow.

Dr. Ernest E. Snyder, chairman of the physical science department, is director of the fair. Many awards, including six ASU academic scholarships and two trips to the Baltimore Science Fair, will be awarded the winners.

Sponsors include The Phoenix Gazette and Valley businesses and industries.

Anne M. Pittman, physical education professor and tennis coach, is co-author of the book "Dance a While." It includes the latest trends in dancing.

# Faculty Schedules Academy Of Science Meet Confabs, Lectures Slated Here Tomorrow

## Colloquium To End

Dr. T. R. McConnell, chairman of the Center for the Study of Higher Education at the University of California, Berkeley, will speak at 3 p.m. today in Ed 101 on "These We Teach." He will discuss characteristics of the college student and their implications for teaching.

Dr. McConnell has directed research on the American college student. He was dean of Cornell College, Iowa; dean of the College of Science, Literature and the Arts at the University of Minnesota, and chancellor of the University of Buffalo.

His presentation will be open to the public without charge.

## Discussion On Speech

Dr. Harry Bracken, associate professor of philosophy, will be guest lecturer at the Philosophy Club meeting at 3:45 p.m. April 20 in the MU Ballroom.

His speech will concern "Our

## Date Is Slated For Selection Of ROTC Men

Army and Air Force ROTC units will begin selection of men for the fall semester's advanced programs next week, it has been announced.

Air Force selection will run through April, and the Army will continue processing until September.

Students interested in a commission in the Air Force should contact T. Sgt. Fred O. Brown, Staff Sgt. Donald Walters or Staff Sgt. John A. Derrickson in Main 215.

Army corps applicants should contact Sgt. Gerald H. Early at Army headquarters in Old Main. Criteria for acceptance are a physical exam, IQ test and interview.

## Middle East Is Topic

Dr. Eric Bethmann, vice president and research director of American Friends of the Middle East, will speak on "The West and the Modern Middle East" at 1:30 p.m. Tuesday in SS 101.

A question-and-answer period will follow the speech, arranged by the History Club.

It is open to the public at no cost.

## Dean To Attend

Dr. Roy C. Rice, dean of summer session and extension division, will participate in the 15th annual meeting of the "North Central Conference on Summer Schools" in Chicago, Ill.

"A Glass of Water" is the title of the Arizona Academy of Science lecture to be delivered by Dr. Gordon L. Bender, zoology professor, at 9:30 a.m. tomorrow in LSC-191.

The talk, said Dr. Bender, "will be concerned with water resources of Arizona and research being carried out."

He will use glasses of water to illustrate Arizona water problems such as desalted water and polluted water. The lecture will include "water resource problems and management from a scientific aspect," according to Dr. Bender.

DR. H. B. Whitehurst, associate professor of chemistry, said the annual meeting of the AAS is the only gathering place

in Arizona for those in the field of science to meet and present their papers.

President G. Homer Durham will welcome the group at the morning general meeting. A business session and election of officers will follow.

The afternoon session will include presentation of 30 papers in the areas of anthropology, astronomy, biology, chemistry, geography, geology, physics and radiation.

SEVERAL faculty members,

graduate students and a few undergraduates will read papers at the various section meetings.

MODERN DANCE—Rehearsing for the 13th annual dance concert are, from left, Orchesis members, Eva Hlava, Sue Marioneaux and Patricia McConnell. (SP Photo by Larry Ward)

# Orchesis Plans Spring Concert

The 13th annual Orchesis dance concert will be presented by the modern dance honorary at 8:15 p.m. in the Tempe Union High School Auditorium. There is no charge for the April 15th program.

Under the direction of Margaret Gisolo, associate professor of physical education, and student chairman Bette Walla, the concert is being produced by committees formed from the dance production class (PE 262).

A special experimental work called, "A Dark Entwining," arranged by Miss Gisolo, is based on "Mourning Becomes

Electra" by Eugene O'Neill.

The dance will run approximately 25 minutes with dancers speaking intermittently. The music was written by Mrs. Margaret Des Jardin, music accompanist for the concert.

A special rehearsal production, designed for high school students, also open to the public free of charge, is scheduled for 7:30 p.m. April 14 in the TUHS Auditorium, in addition to the regular Wednesday performance.

## Officers Elected

New Panhellenic officers were recently installed. They are Sally Davis (Kappa Alpha Theta, president; Diane Battenfield (Kappa Kappa Gamma), vice president; Kathy Butler (Gamma Phi Beta), secretary, and Patty Garnes (Alpha Delta Pi), treasurer. Ellen Roca was the retiring president.

## Senior Lauded

Ronald N. Meyer, senior technical design major has won the National Editorial Award which is given by the Editorial Committee of the American Society of Tool and Manufacturing Engineers.

This award for his news reports about the campus chapter to "The Tool and Manufacturing Engineer" publication makes Meyer the top reporter of the 50 ASTME student chapters in the country, according to Rayburn M. Knabe, chairman of the ASTME editorial committee.

## Two Musicians To Debut In Recital Sponsored By Music Department

Two student trumpeters, Kathleen Jones and Dan Strawbridge, will perform in a junior recital presented by the music department at 8:15 p.m. Monday in Cosner Auditorium. Accompanying them will be pianists Margo Smith and Rosemary McDowell. The show is open to the public free of charge.

Others participating in the program will be Gwen Hanigan playing the trumpet, Howard Pink, French horn; Henry Keenally and Ric Curry, both trombone, and Mike Hamilton, tuba.

Works to be presented include "Concerto for Two Trum-

pets" by Antonio Vivaldi, "Sonata VIII" by A. Corelli, arranged by Fitzgerald; "Concerto for Trumpet" by A. Goedicke; "Aubade" by D. Lesur; "Pas De Deux" by C. Cushing; "Capriccio" by C. Pascale, and "Two Intradas" by M. Frank.

## Bright Lights... And Dim

By LARRY WARD

Connoisseurs of roast beef say traveling to the Beef Eaters Restaurant on West Camelback Road is worth the trip.

Chefs at Beef Eaters seldom see patrons come back for more, but if the first serving isn't enough, then the second time around doesn't cost anything extra.

The buffet at \$1.25 is featured during the lunch hour through the week and for brunch Sundays until 5 p.m. Orders are from the menu other times.

Wild Bill's, on Scottsdale Road near Shea, combines the low-cost meal with entertainment.

**AROUND THE CIRCUIT** — The Ledbetters, featuring John McCormick, will hold down the fort at Dolan's this week until owner Dolan Ellis returns from touring the night spots of the midwest the first of April.

Dance music these evening at the Cross Keys at Scottsdale Road and Camelback comes from the Waylon Jennings Trio. The trio wraps up a second month this week playing Tuesday through Sunday evenings.

Spots to go include Rickey's at Main Street and Stapley's in Mesa. Mesa students have introduced it to friends and it is fast becoming a popular attraction on the weekend night-owls' lists.

## Augustana Songsters Entertain

The Augustana Choir, an internationally-known 70-voice undergraduate choral group from Augustana College, Rock Island, Ill., will present a concert at 8:30 tonight in the MU Ballroom.

Beginning the program will be the "Mass in C Minor" by the contemporary French composer Francis Poulenc. The composition will be sung in Latin.

**THE WOMEN'S** and men's choruses will perform individually during the program.

The "Magnificat" by R. Vaughan Williams, and "Dirge for Two Veterans" from a poem by Walt Whitman, will be sung by the Jenny Lind Women's Chorus.

The Wennerberg Men's Chorus will sing "Grief" by Antonin Dvorak, a Bohemian composer, and "Stomp Your Foot," a choral square dance from an Aaron Copland composition.

**THE CHOIR** will also sing Johann Pachelbel's "Nun Danket Alle Gott," "Lord, Thou Hast Been Our Refuge" by R. Vaughan Williams, "What Cheer?" by Sir William Walton, and "All Men Draw Near" by Zoltan Kodaly.

Two numbers by Russian composers, "Cherubim Song" by Glinka and "Credo" by A. Gretchaninof, will close the program.

The choir will be conducted by its founder, Henry Veld, director of voice and choral music at Augustana College.

### Theory Talk Topic

"Evariste Galois and Group Theory" will be the topic of a speech by Dr. Alvin Swimmer, assistant professor of mathematics, in the meeting of the Math Club at 3:45 p.m. Tuesday in PSB-134.

## Greek To Me A Big 'Hats Off' To Derby Day

By BILL QUAYLE

In an article written in the State Press last Wednesday there was an attack against Derby Day and Interfraternity Council President Sandy Chamberlain.

Derby Day received coverage in the Sunday Supplement "Arizona Days and Ways" and there was a seven-page story in Argosy, a national men's magazine. It's possible True magazine also will carry a story on the activities.

**ANOTHER FACTOR** that was not mentioned was that this year's Derby Day was perhaps the best one Sigma Chi has ever had. More coeds participated in this year's Derby Day than ever before.

The article claimed that Chamberlain's attitude when he said the flooding had happened before and will probably happen again showed "nauseating apathy."

One would be foolish to think steps would not be taken to stop the flooding, yet this is what the article implied.

There is such a thing as writing on a rivalry basis or writing belligerently. This article seemed to reflect the latter.

**IT IS NOT** the intent of the Greek system to take a pugnacious attitude towards the Independents or vice versa. Rather, the relationship should be kept on friendly terms.

It is only when one person continuously attacks one of these groups that this contentious attitude develops.

### BY THE GREEKVINE

Kappa Delta sorority has elected new officers. They are Kathy Farrer, president; Ann Malene, vice president; Jan Allen, secretary; Sharon Beeler, treasurer; Nancy Chambers, assistant-treasurer; Terrie Zenoff, editor, and Kay Johnson, membership chairman.

# Torch Parade Sheds Light On Old Era

Royalty, beggars, tradesmen entertainers from the Elizabethan Era will fill College Avenue when the last day of festivities of the Golden Age of Elizabeth begins April 11 with a torch-lit "progress" or procession.

During a progress, the queen is carried in a sedan chair while her subjects crowd the streets to see her and be entertained by jugglers and minstrels.

The first progress took place in England in 1562 and Queen Elizabeth I continued to appear in the torchlight parades until a year before her death.

The progress will begin at 7:30 p.m. with the queen of the MU Birthday Party being carried in court. All students are invited to take part.

The ball will begin at 8:30 p.m. Contrary to Elizabethan custom, a modern dance band will entertain.

Ruffs and Elizabethan hats will be on sale. "Everyone is welcome to come and dance and are encouraged to wear period costumes," according to the Birthday Party Committee.

### Singers Invited

The Society for Preservation and Encouragement of Barber Shop Quartet Singing in America, Phoenix chapter, will meet at 8 p.m. Thursday in the Interstate Center, 830 E. Second Ave., Mesa.

Students interested in singing in a quartet or chorus are invited to attend or call Dr. William H. Cluff at 969-5851.

(SP Photos by Ed Ryan)

## Duel At High Noon

Advertising the MU Birthday Party are Dave Conovaloff and Chuck Willoughby, members of the fencing club. Club members have

Elizabethan style duels when they meet on campus. This is just one of the events prior to the party April 9 to 11.

## Wives To Dine

The Faculty Wives Club will present its spring luncheon and fashion show at 12:30 p.m. April 11 at the Phoenix Country Club, Thomas Road and Seventh Street.

Fashions will be displayed by six professional models. Stores whose spring clothes will be modeled include Lloyd Kiva, Neary's East-R-West Fashions, Novis Denne and Leona Caldwell Originals.

## Pom Pon Squad, Cheerleaders Set Application Date

Pom Pon tryouts will be conducted at 3 p.m., April 28 and 29 in the MU Ballroom.

Applicants are needed to complete the line of eight members and two alternates. The only requirement is a 2.0 cumulative average.

The current squad will screen the applicants for appearance and personality. Coeds who pass this test will then be taught several routines.

\* \* \*

Deadline for cheerleader applications is 4 p.m. April 8. Applications should be returned to the MU desk.

A cheering school will take place at 3:30 p.m. April 8 to 10 in MPE 103. Tryouts will be 3:30 p.m. April 14 in the men's gym. Each applicant must compose an original cheer.

# Victory String Shattered

By MIKE HELFNER

Wisconsin University broke ASU's baseball winning streak at 17 games when the Badgers downed the Sun Devils 5-3 Wednesday afternoon.

The Devils took the first two games of the series and now have an 18-3 season mark.

Over the Easter vacation A-State took a three-game set from Wyoming and a four-game series from the University of Michigan.

A-STATE, off to a phenomenal start this season, won its first game of the campaign, lost its next two and went on to win the following 17.

A-State introduced night baseball to the new Phoenix Municipal Stadium when it played the final game of the Michigan series there. Skip Hancock pitched a four-hit, 9-1 win over the Wolverines.

A second night contest Tuesday saw the Devils' Jim Merrick hurl a 7-4 win over the Badgers' Dave Tymus.

IN THE FIRST game of the Wisconsin series, Tom MacDougal threw a nifty four-hitter as A-State beat Wisconsin 5-2. John Ruedy hit the solo homer in the sixth inning to put ASU back in the game after being down 2-0.

In Wednesday's game, Ron Lea gave up three runs and was replaced by Sam Cook in the seventh inning. Cook gave Wisconsin two more runs in the ninth to put the Badgers in front, 5-0. However, A-State scored three runs in their half of the ninth but couldn't keep the rally alive. Merrill Hyde blasted a two-run homer to highlight the Devil ninth inning.

A-STATE IS hosting Utah State in a four-game series this week. The Utags opened the series yesterday and finish with a doubleheader tomorrow.

Hancock pitched yesterday's game with Lad Nemecek throwing today and MacDougal hurling the opener tomorrow. No pitcher has been named for tomorrow's second game.

HANCOCK AND Merrick are the two top pitchers for the Devils. Both have 4-0 records. Hancock has been slightly more effective. In 36 innings pitched, he has struck out 51, walked 21 and given up 15 hits. He has

allowed four runs, one of them earned, for a 0.25 earned run average.

Merrick has hurled 32 2/3 innings, struck out 19, walked 11 and given up 23 hits. He has allowed 10 runs, six of them

earned, for a 1.63 ERA. Lea has worked 30 innings, striking out 26, walking five and allowing six earned runs for a 1.80 ERA and a 1-1 mark.

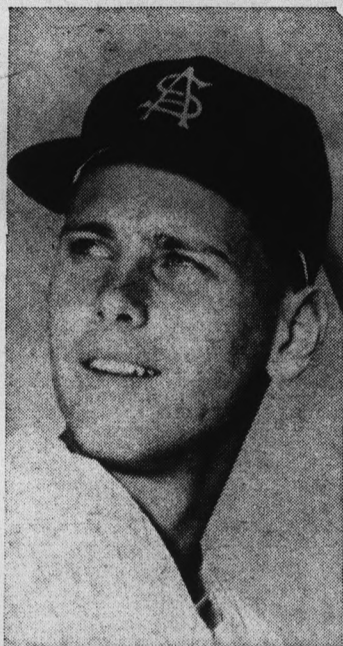

JAN KLEINMAN is the leading batter for A-State. In 18 games he has 26 hits in 61 appearances at the plate for a sparkling .428 average. He has four doubles and three triples.

Right behind Kleinman is Ray Stadler. The husky catcher has 15 hits in 37 at-bats for a .405 mark. Jack Handley is next with a .389 average.

MERRILL HYDE, the leading batter at the start of the season, has dropped to .327. He is still suffering from a knee operation.

Luis Lagunas, starting second sacker, is leading the base-on-balls list with 18 free trips to first base. Close behind is Ruedy with 17.

Lagunas has been outstanding both defensively and offensively. He is close to the .300 mark in batting with a .288 average and has the fewest errors and best fielding percentage of the four infielders.

Jack Handley

# Striders Test A-State; Carr Meets Plummer

By JON MORRIS

Coach Baldy Castillo had no qualms about saying that tomorrow's featured race in the Arizona State-Los Angeles Striders track meet — Henry Carr vs. Adolph Plummer in the 220—will be a good one.

"It'll be a hell of a race."

The word is out that the Striders want to better Carr's 20.3 world record in the furlong, and Plummer, with the fastest 440 in history (44.9), is the man to do it.

MEL ZAHN, publicity agent for the Striders, said, "He's ready and really looking forward to it." Plummer already has a 20.6 time this year, and is reported to be in the finest condition of his career.

Carr has 20.7 but has not met any real competition in the furlong this season.

Plummer shattered the 440 world record in Goodwin Stadium last May and, in so doing, beat the Devils' Ulis Williams for the first and only time.

Meanwhile, the Striders have a host of other name performers. Larry Dunn, ex-UofA athlete, will go in the 100, as will John (Tweety Bird) Gilbert. John was runner-up in the 100 in the 1963 AAU championships with a blazing 9.2.

Mike Larrabee may have no competition in the quarter-mile run. Ulis Williams, who beat Larrabee last year at 46.4 probably will not compete because of a leg injury.

OTIS DAVIS is no slouch either, winning a gold medal at the 1960 Olympics in the 440 meter run. Davis should be a member of the Striders' mile relay team. He has run a 48.6 leg on the tandem this year.

A-State's Glenn Winningham (257-7½) and the Striders' Larry Tucker (244-9) will compete in the javelin.

Big Ten champion George Puce will challenge Larry Hendershot and Jon Cole of the Devils in the field events.

The half-mile run will feature Greg Pelster and Harris Williams (better than 1:53) against ASU's Eric Owers. Eric ran a 1:50.2 against the Striders a year ago.

The Striders have three

pole vaulters—Mel Hein, Rist Anko of Finland and Ron Morris. All have attained 16 feet.

ASU'S INJURIES may pose the biggest problem in their chances for victory. Darrell Jansen, latest of the casualties, fractured his wrist in the March 24 Oklahoma meet. He fell after hitting the last hurdle in the 330 intermediates. This, luckily, didn't keep the Devils from winning 89-55.

JANSEN TIED the meet and school record of 14.1 in the 120 high hurdles earlier that evening. Carr's 9.5 in the 100 tied a meet record and Ray Young's 43-6 in triple jump broke another meet record.

A-State captured ten first places against the Sooners and ran their dual record to 3-2.

Sprinter-hurdler Ben Hawkins also will be out of tomorrow's meet with a leg injury.

# Hot Netters Face Utags Here Today

The Sun Devil tennis team, with a 9-2 mark, is off to its best start yet. Record books only go back 10 years and show that no season started this well. Records also show no winning season in ASU's history. No one can ever remember when A-State ever had a winning tennis season.

ACCORDING TO Coach Ted Bredehoff, this year promises to be the first winning season. "Unless there are some startling surprises or some key injuries, we will have a winning team," he said.

ASU defeated Phoenix College, Colorado State University twice, Texas Western, Denver University and Utah State twice. The Devils split with Wyoming and the San Diego Marines.

A-State has been hosting the

Utags this week and ends its five-match series tomorrow.

MONDAY THE Devils travel to Tucson to take on the Wildcats. A-State's top player, Dave Farmer, goes against the country's 13th ranked amateur player, Bill Lenoir.

Other Wildcats stars are Willie Hernandez, a member of the Philippines Davis Cup Team; Fred Drilling, National Indoor Champ; Robin Ray, No. 2 in northern California and winner of the Southwest District Tennis Association, and Steve Fields, SWDTA runner-up.

# Evans Captures Crown As Sun Devils Nab 13th

Chris Evans took first place in still rings, winning the national championship in the NCAA gymnastics championship Saturday at Los Angeles (Calif.) State College.

Evans accounted for all of ASU's 11 points as the Devils tied Yale University for 13th place.

Evans is the first person from this state to win an NCAA championship. He defeated defending champion Michigan State's Dale Cooper who held the championship for the last two years.

Last year as a junior, Evans finished 4th in the NCAA competition. He has also been de-

## Archery

ASU will host its 1964 invitational archery tournament by mail.

Ten colleges and universities will shoot on their home range and mail in their scores for tabulation. Points will be given for team and individual scores.

Three separate tournaments are scheduled. In the first tournament, April 6 to 11, participants will be shooting from 30 yards at a 48-inch target and April 20, 13 to 17 shooting from 40 yards at a 48-inch face and April 20 to 24 shooting from 50 yards at a 48-inch target.

At the end of the three-week period the school having the most accumulated points from team and individual standings will be the winner.

Competing will be defending champion San Bernardino Valley College, Louisiana Tech, Fresno State College, Chico State College, CalPoly College, Los Angeles Valley College and the UofA.

# Caldwell Shines For Stars

By JOHN NADEL

Sun Devil basketballer Joe Caldwell was one of the deciding factors for a Western All-Star team victory last Saturday. The West defeated the East 79-78 in the annual East-West All-Star game at Lexington, Ky.

Caldwell scored 13 points in the nationally televised affair, plus notching numerous assists and grabbing a few key rebounds.

The contest, played under Olympic rules, had just about every All-American participant with the exception of Gary Bradds, who is not interested in an Olympic berth, and Walt Hazzard, who was performing that night with the NCAA champion UCLA Bruins against the NAIA All-Stars.

Besides being the second Olympic tryout game for the 6-5 Caldwell, it was the second time the Los Angeles senior scored in double figures. Jumpin' Joe hit 14 points in a White vs. Blue contest last week, as his White team defeated the Blues, 86-85.

Among other things, the East-West game also saw the possible emergence of Caldwell as a guard.

After playing the second

quarter as a forward, he played the entire second half at a guard position, displaying excellent poise in passing and dribbling, as well as making

great moves for the basket. Leading the East were Cincinnati star Ron Bonham and center Fred Hetzel of Davidson, each scoring 15 points.

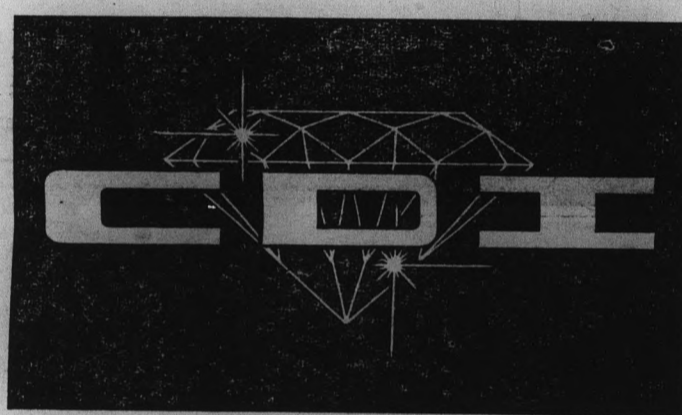

fending WAC champ for the last two years. Evans will be competing in the Pasadena City College Invitational on April 10.

Southern Illinois, pre-meet favorite three years in a row, finally won the NCAA gymnastics championship after finishing second the past two years. Southern Illinois collected 84½ points. Southern California edged Michigan for second, scoring 69½. Penn State and the University of Washington tied for fourth with 30 points.

The Trojans' Ron Barak took all-around honors with 54.86. Ed Isabelle of Penn State was second and James Curzi of Michigan State third in individual standings.

## Sun Devil Facts

The Sun Devil record for most strikeouts by a pitcher in one season is 154, set last year by right-hander Sterling Slaughter. Slaughter is now pitching for the Chicago Cubs.

Perfect?

Did you know a perfect diamond may be off color, poorly cut, and still be called perfect?

Misleading, isn't it?

But if we hadn't told you, who would have?
