MORE BARRIERS — Fences went up this week on what used to be College Avenue to lay out areas of construction of the mall that will stretch from Orange Street to University Drive.

University Given \$369,970 Since April, Regents Told

The University has been awarded \$369,970.21 in contracts, grants, scholarships and student aid and miscellaneous gifts since April 9, date of last board meeting, it was reported to the regents Monday by President Durham.

Largest of the grants is a \$160,463 award from the Office of Economic Opportunity to support an Upward Bound educational motivation project this summer for about 200 Phoenix-area 10th graders.

THE TWO-MONTH residential program, beginning June 15, will be directed by Dr. Richard T. Wootton, director of financial aids and professor of education administration.

A \$57,226 grant from the U. S. Office of Education will support an Institute for Advanced Study in History, conducted by Dr. William W. Phillips, assistant professor of history, from June 13 through Aug. 5.

An Institute for Advanced Study in Reading for elementary teachers to be conducted from July 18 to Aug. 16 by Dr. Nicholas J. Silveroli, associate professor of elementary education, received an Office of Education grant of \$41,485.

DR. JOEL Dauten, chairman of the department of general business administration, is director of an occupational training program which has been awarded a \$52,530 grant by the Arizona State Department of Vocational Education.

A grant of \$19,180 from the Office of Naval Research will enable Dr. Michael O'Keeffe, assistant professor of chemistry, to continue his investigation of "The Solid State Chemistry of Hydrogen Compounds."

Two National Science Foundation grants totaling \$13,800 will enable the University to offer this fall in-service institutes in mathematics and in physical mechanics and astrophysics for secondary school teachers.

DR. LEHI T. Smith, associate professor of mathematics, will direct the math institute while the program in physical mechanics and astrophysics will be conducted by Drs. Alan T. Wager and Ali Kyrala, professors of physics.

A \$5,000 grant from the Ford Foundation through the Music Educators' National Conference enables the organization of "Institutes for Music in Contemporary Education — Western Region," directed by Dr. Henry A. Bruinsma, dean of the College of Fine Arts.

The regents ratified agreements totaling \$6,600 between the bureau of educational research and services, Dr. R. Merwin Deever, director, and the following school districts: Somerton Elementary District No. 11, Yuma County; Chandler Elementary District No. 80 and Roosevelt School District No. 66, both Maricopa County.

In other action involving the University, the board approved a \$4 million loan agreement with the Department of Housing and Urban Development for the construction of a 15-story woman's dormitory accommodating approximately 1,000 with dining and parking facilities.

CONSTRUCTION of the building, which will be located on University Drive east of Palo Verde East dormitory, is expected to begin early this summer, with completion scheduled for September, 1967.

The regents authorized the award of a \$192,880 contract to the Redden Construction Company, Phoenix, for the construction of the University Mall on what was College Avenue between Orange street and University Drive fronting the Charles Trumbull Hayden library. Funds were provided by the 1965 Legislature.

Professors Say U.S. China Policy Must Face Revision

By HUGH BOYLE

The United States will have to alter its attitude toward Red China now, or pay a higher price later, two professors believe.

Associate Professor of History, Guilford A. Dudley said in an interview, "U. S. policy toward Red China is out of date and we should be more flexible in dealing with them or suffer the consequences."

"RED CHINA is going to continue to become stronger each year. We should try to meet them halfway on every issue while still keeping them contained on the mainland," Dudley said.

Abid Al-Marayti, assistant professor of political science, favors Red China's entrance to

NO EARLY TESTS —

New Senior Finals Policy

By VALERIE JONES

Spring graduates will participate in commencement exercises May 27 without knowing if they have actually made grade requirements because of a new final exam policy.

Final exams for all classes will be given at the same time this year instead of having an earlier exam period for seniors. The faculty senate, responsible for the policy change, felt it wasn't a good educational policy to have two exam periods, according to Registrar Alfred Thomas Jr.

ALL FINALS will be May 21-27. Commencement is at 8 p.m. May 27 and grades won't be compiled until May 31.

Students who completed requirements in January or last summer will receive their diplomas during actual commencement exercises. An empty folder will be handed to those just completing requirements.

Thomas said spring graduates will be mailed their diplomas when grades are compiled and degree requirements are checked. This will be about two weeks following graduation.

ALL APPLICATIONS will be listed in the commencement program. It is a graduation requirement that they be present at exercises and a fee will be charged those who don't attend.

In past years about 100 students would fail to complete requirements said Thomas.

He feels there are two ways to look at the effects of the change. It is prolonging the agony for the applicants to have to wait the additional two weeks.

However, Thomas said, after going to the trouble of sending invitations it can be extremely embarrassing to have to cancel everything at the last minute. This way it can be more fair.

Thomas said the policy may be reviewed for another possible change next year.

Regents Decrease UofA's Dormitory Age Minimum

The Board of Regents Monday lowered from 23 to 21 the minimum age at the UofA for single undergraduate women to be permitted to live off campus.

The action came at the request of UofA administrators after student groups organized there to seek revision of the policy.

A similar request initiated here was approved unanimously

by the Student Affairs Committee last month, and has since been before the President's Advisory Council pending that group's recommendation to President Durham.

The new policy, adopted for a two-year trial period, gives the school the right to revoke permission at any time without prior notice if it seems advisable to the administration because of fiscal reasons.

Bell Supporters Pass Petition

Supporters of purchase of the \$23,000 carillon bell system approved by the Student Senate began circulating a petition favoring the action yesterday.

The petition reads: We the undersigned, petition President G. Homer Durham to concur in dedicating the carillon bells and their music to the students, faculty and alumni of Arizona State University who have given of themselves to serve in the defense of their country, whether on the beaches of Iwo Jima, in the fields of France, or in the jungles of Vietnam."

Petitioners said late yesterday they had gathered between 400 and 500 signatures.

WORLD BRIEFS

Negroes Shun Wallaces

By United Press International

ALABAMA — Governor and Mrs. George Wallace were shunned by some of the Negroes waiting in line with them to vote in the Democratic primary yesterday in Clayton, Ala. Federal voting observers were on duty in seven Alabama counties with a history of racial turmoil as thousands of Negroes went to the polls for the first time.

WASHINGTON — The House Armed Services Committee added \$900 million to the Administration's \$17 billion defense authorization request yesterday. Voting unanimously, the committee approved expenditures on a national anti-missile system, an unrequested nuclear frigate and research on a future manned bomber. All were projects opposed by Defense Secretary McNamara.

WASHINGTON — Democratic Senators Edward Kennedy and George McGovern called yesterday for an Administration re-evaluation of U.S.-Red China policy. Kennedy suggested that President Johnson set up a blue ribbon panel to get American policy out of its "present emotional straightjacket" with Peking. McGovern called for an end to U.S. opposition to Peking's membership in the United Nations.

Collins, Bikel Perform in Year's Last Celebrity Series Concert

Folksingers Judy Collins and Theodore Bikel will perform the last concert of the Gammage Celebrity Series Friday.

Miss Collins has performed during numerous folk music festivals, at Carnegie Hall, and in

three albums — "Golden Apples of the Sun," "Judy Collins No. 3" and "A Maid of Constant Sorrow."

Time magazine has picked her as "a major contender for the feminine folk music crown."

Theodore Bikel was born in Vienna, Austria. When asked to sing at the age of two, Theodore replied, "I can't — I have no stage." And he wouldn't sing until his family laid down a newspaper stage.

After graduating from the Royal Academy of Dramatic Art in London, he played for

two years as Mary Martin's leading man in Broadway's "Sound of Music."

Bikel speaks seven languages fluently. He knows folk songs in 17 languages from Gaelic to Zulu, Hebrew to Greek. He has produced 16 albums and a book entitled "Folksongs and Footnotes."

He is also a successful photographer and is active in politics. Theodore Bikel explains his many accomplishments by saying, "Since I am a Jew I might as well fill up the vessel with something worthwhile."

THEODORE BIKEL

VA Educational Aid Forms Available Here, VA Offices

Application blanks for educational benefits under the new Cold War GI Bill are now available in 109 or at any of the local Veterans Administration offices, the Arizona VA Regional Office reported.

June 1 is the earliest date set by the law on which courses can be taken under VA payment. Payments will be made the month following each month's study.

The VA will pay \$100 per month to those veterans who

have no dependents and who carry a full course load. Veterans with one dependent will receive \$125 a month and those with more than one dependent will receive \$150 a month.

There will be time for those who plan to enter summer session to complete the necessary paperwork before June 1 the VA announced.

All veterans with more than 181 days active duty service, any part of which occurred after February 1, 1955, are eligible for this Post-Korean educational program.

Veterans must have a discharge other than dishonorable or, if less than 181 days, they must have been discharged or released for a service-connected disability.

FOOTLOOSE AND FANCY-FREE?

Or just at loose ends? There's a big difference, you know.

Like the difference between the guy with a pie-in-the-sky scheme to get rich quick, and the man with a plan for financial security.

Or the difference between a savings plan that's hale and hearty as long as you are, and a life insurance program that keeps going strong even when you can't.

Life insurance is one investment you can make today that's guaranteed to take the strife out of life years from now. That might be worth more, from the very beginning, than you put into it. That could be worth as much, at any time, as you planned to put into it in a lifetime. And the sooner you start, the less it costs.

Got some loose ends that need pulling together? We're specialists at it... especially for young people.

Press Banquet To Hear Editor

Managing editor of the Arizona Republic J. Edward Murray, will be the major speaker at the annual Press Banquet at 7:30 p.m. Friday in the Sands of Tempe.

Two \$2,000 Eugene C. Pulliam journalism scholarships will be awarded at the dinner, which is sponsored by the mass communications department, Sigma Delta Chi and Pi Delta Epsilon journalism organizations.

Cash awards will also be presented by the Tempe Daily News, the Mesa Tribune, McGrew Printing Co., Tyler Printing Co. and the State Press.

Murray, a Phi Beta Kappa journalism graduate from the University of Nebraska, will discuss "The Changing Role of the Reporter."

He is a former national president of the Associated Press Managing Editors' Association and is a member of the board of directors of the American Society of Newspaper Editors.

He has served as a foreign correspondent in Italy and was managing editor of the Los Angeles Mirror before accepting his present position.

AMS Banquet Is Next Week

The Associated Men Students Awards Banquet will be held Tuesday, at 6 p.m. in the MU ballroom.

Guest speakers include Rosy Ryan, General Manager of the San Francisco Giants Farm League, and Paul Buchler, Commissioner of the Western Athletic Conference. The University Singers will furnish entertainment.

Tickets are 75 cents with meal tickets and \$1.75 without and may be acquired from dorm head residents, fraternity houses, in MU 207 or by calling 966-3449.

Sarah Folsom Here Tomorrow

Sarah Folsom, state superintendent of public instruction, will speak tomorrow at the opening event of Women's Day at 10:45 a.m. in the MU ballroom.

Mrs. Folsom's talk is entitled "Separate But Equal" which will be related to the general theme "Creative Fidelity."

Mrs. Folsom received her bachelor's degree at Judson College and her master of arts degree at Auburn University. She has taught at the elementary, secondary and college levels and served as superintendent of Yavapai County Schools from 1953 to 1964, when she was elected to her present post of state superintendent of public instruction.

MRS. MARY Wright, associate professor of home economics and Faculty Women's Club president, will introduce the speaker.

Karen Darr, Women's Day general chairman, will preside and Dr. Joseph C. Schabacker, academic vice president, will welcome the all-women assembly. A vocal selection will be presented by Betsy Bell.

An award will be presented to the organization with the highest percentage of members at the assembly.

A BANQUET at 5:45 p.m. in the MU ballroom will complete the schedule of events. The Outstanding Senior Woman and the Outstanding Panhellenic

Woman will be announced at the banquet as well as winners of various on-and off-campus scholarships.

Next year's AWS executive officers will be installed and hall officers and new honorary members will be announced at the banquet.

The theme will be carried out in organization center pieces using colors of shocking pink orange and yellow.

July Deferment Test Is Offered

A fourth draft deferment test (college qualification test) will offered in July by the Selective Service to accommodate men students who missed the April 23 application deadline for tests set for May and June.

Selective Service officials announced Monday that a large number of students missed the deadline for the May 14, May 21 and June 3 test.

The fourth test will be given in the latter part of June. No deadline for application or test date has been set.

Students may assure their 2-S draft status by a satisfactory score on the test.

Applications for the first three tests number about 1 million.

Lambda Chi Alpha: On Library Bandwagon

Lambda Chi Alpha has jumped on the Hayden Library Book Fund bandwagon. And we say good for the Lambda Chis.

Collectively the Greeks with their Greek Week philanthropic project were the first campus group to make a substantial contribution to the library book fund.

THE STUDENT Senate followed with a generous \$35,000 grant to fill the shelves of the new library.

The Greeks sponsored appearances by the Kingston Trio and Glenn Yarborough. The senate allocated a portion of the unappropriated balance.

And then along comes Lambda Chi Alpha fraternity and its Library Toad Hop.

The fraternity's 36 members under the leadership of president Randy McGirr hope to raise at least a \$1,000 donation for the library. If they don't make it, it won't be because they haven't worked.

INDICATIVE of the planning that has gone into making the Toad Hop successful is the 25 local businessmen who have donated more than \$285 in prizes for the winning persons and organization. This shows clearly that many businessmen are quick to recognize and support something as beneficial to all as the library book fund.

The fraternity deserves credit for deciding to change the annual Toad Hop from a just-for-fun event into something that's fun for a worthy cause.

There can be no doubt that the Hayden Library book fund is a worthy cause.

And there can be little doubt that the Lambda Chi Alpha Library Toad Hop will be a lot of fun — for everyone — except possibly the toads. The pavement at College and Orange next Tuesday afternoon at 3:30 is apt to be awfully hot on toads' feet.

"My Dear Old Friend! The Last Time We Met Socially, I Tried To Help You Along With A Cattle Prod"

Letters to the Editor

Student Involvement Significant

EDITOR: The recent controversy concerning the carillon bell referendum was more than an issue appealing for a student vote. More significant was the attempt of three students to involve a valid representative opinion concerning a student governmental affair. Over 3,000 signatures were collected on the circulated petitions, worded correctly or not. Perhaps Richard Hork, John Chopak and Bill Maslow accomplished something which the majority of these pro or con carillon bells has overlooked — active interest in student governmental affairs.

THE EFFORTS of the three, who were not backed or connected with any organized group or club, are to be applauded. This in itself warrants recognition. It has been a long time since ASU has seen such interest.

Some complain that the actions of the trio was not timed prudently. If a referendum was desired why didn't the three circulate referendum petitions before the senatorial election of SB 264? If they desired student interest, why didn't they encourage attendance at the pre-voting hearings on the bell bill? Or was this issue a question of

timing at all? Was it an issue, at long last, of an interest in campus affairs, regardless of timing, profundity or legality?

Legislative representatives in ASU's senate could take heed of the energies expended by these three students. They demonstrated a more creditable effort than any individually-motivated initiative in the past few months.

AS A student proud of Ari-

zona State, I want to thank John Chopak, Rich Hork and Bill Maslow for proving to their fellow students that there is more to college life than class, parties and dating. Also, there should be an element of cross-sectional interest in all phases of student vitality.

A fast-growing western university is not, after all, completely apathetic.

VIRGINIA LUCERO

Tradition Grows in Time With Bells

EDITOR: After much soul searching — and sadness at the unfortunate, and apparently growing controversy—we (Dave Johnson and I) have reached the conclusion that those of us in favor of the carillon bells should speak out.

To those who say that you can't buy tradition, we must agree that it can't be "bought" — it must be built, and that takes time. Buildings and grounds don't make a campus, but time and people dedicated to a purpose do. As a matter of fact, many universities do have carillons (you might say that — even Berkeley has bells). When those bells were installed, they had no tradition surrounding them. Over time, and with many students, traditions have grown on those campuses

in relation to their bells. In a day and a half we have collected approximately 500 signatures on a petition that says:

We, the undersigned, petition President G. Homer Durham to concur in dedicating the carillon bells and their music to the students, faculty and alumni of Arizona State University who have given of themselves to serve in the defense of their country, whether on the beaches of Iwo Jima, in the fields of France, or in the jungles of Viet Nam.

We hope that this will give President Durham an indication of the large amount of favorable feeling on campus in regard to the carillon.

R. G. ROSENBERG

As a Freshman Sees It

I'm sure you have noticed lines of children walking about the campus observing the college student. Actually they have come to see something specific. In many cases this "something specific" is the planetarium located on the third floor, south wing, of the Physical Science Building. If you weren't lucky enough as a grade schooler to see a planetarium, then you have missed something. So, . . .

You first enter an alcove with double doors at each end. Then you enter the 25-foot square viewing room with its 20-foot diameter domed ceiling. You then sit on a red leather, reclining couch.

THE LECTURER, standing in the center of the room, speaks as he dims the lights and turns on the shadow lights — two lights which contain two amber and two blue bulbs. The shadow lights simulate twilight and permits the viewer's eyes to get adjusted to the darkness.

The lecture begins with statistics of the planetarium.

"The planetarium was first opened for business in the fall of 1960. Prior to this a console and dome were ordered built, and brought to Phoenix by the Spitz Laboratories Inc., Yorklyn, Delaware, at a cost of a little over \$10,000. The dome was laid out on the floor and raised into place. The console was placed in the center of the room. The red couches were given in 1964 in memory of Rachel Carson.

"**ON TOP** of the console is a 12-sided object which is referred to as the 'ball.' Inside the ball is a light placed on a specially weighed, movable handle. This is so the light will always be pointing up towards the dome as the ball moves around the light.

"The ball contains holes and scopes which cast the constellations on the dome, giving brightness and color. The ball turns so that in four minutes the observer will be able to see all the constellations that it would take him a year to see in actual sky watching.

"Now that the room is dark and the stars brightly shine above our heads, I'll point out the star constellations that you will be able to see if you look tonight about eight. Let's start with Polaris . . ."

To go any further would be to give the plot away. Even if you're not interested in astronomy, I think you'll find the planetarium an interesting, if not exciting place to visit.

Till next week.

'Put Hubby Through' Dinner Honors Wives of Seniors

"Blonde scholarships" will be honored by the MU program staff this Saturday at the 10th annual Putting Hubby Through banquet. Wives of seniors who will graduate any time in 1966 will receive diplomas "for their ever-present understanding and encouragement."

The program will include a steak and lobster dinner, entertainment by Dolan Ellis, local folksinger and Allen Grier, as well as dancing and "commencement" address by Mrs. Grady Gammage.

RESERVATIONS for the banquet must be made by 2 p.m. Thursday in MU104. The cost will be six dollars per couple. Wives who are unable to attend can have their diplomas mailed to them on request.

For many of the wives, their husbands' graduation represents the culmination of years of work and effort. "For a lot of couples, graduation means that the wife can quit working and have a family," said Kay Merkley, whose husband will receive his bachelor's degree in engineering this spring.

"Home life is slim, especially if your husband works at night," commented Linda Allen, wife of an accounting major.

While their husbands are going to school most of the wives work, which sometimes produces a reversal of roles around the house. "We have to do part of the breadwinning and they do part of the housework," Kay said. "My husband does the laundry sometimes."

In addition the girls try to help their husbands wherever possible by picking up books from the library, typing up papers and similar tasks. "You try to help him out as much as he helps you," Linda said. "I'm taking a course in basic accounting this semester and my husband helps me with it."

"I was an art major and my husband is in Engineering, so I can't help him much there,"

Kay said. "He's even a better typist than I am."

Another problem the couples face is the several hours a night that the husband must spend studying. "When my husband is studying, I try to bake or do something quiet," Linda said.

In spite of all the problems involved, both girls agreed that putting hubby through was well worth it. "Actually we're going to miss it. It's sort of a community in itself," Kay said.

Perhaps the wives sentiments are best expressed by the motto that appears at the bottom of their "diplomas." It says "gaudeamus igitur," which means "therefore let us rejoice." One of the wives put it a little more succinctly. At the bottom of the reservation in the space for comments she printed HOORAY in big block letters.

Marsella States IFC Goal.. Unity

Ted Marsella, president of the Interfraternity Council, called for Greek unity in his first speech since his election. Marsella, speaking to Sigma Nu fraternity, said that the key to a strong Greek system at ASU is unity.

He said that the IFC's major goal next year will be getting the fraternities unified. "We are only as strong as our weakest chapter."

HE SAID A first step will be to start a cooperative buying system between the fraternities on campus. The system would provide a single source for the fraternities to buy from, lowering prices by buying in quantity.

"This coming year the individual fraternities are going to find out where their money is going. Your new IFC treasurer, Steve Larson, will put out a monthly statement on the IFC financial status," he said.

"I WOULD LIKE to see IFC money spent on the individual fraternities not on other service projects," Marsella said. He explained that a fraternity loan could be set up through the funds received from IFC dues to help fraternities build and improve houses or help in financial binds.

"IFC money could be used to create scholarships for fraternity men." He said the fraternities would benefit from the money they give to the IFC, since the purpose of the IFC is to help fraternities.

A lot of people believe that someday computers will do all their thinking for them.

Well, a funny thing is going to happen on the way to the future:

You're going to have to think harder and longer than ever.

Computers can't dream up things like Picturephone service, Telstar® satellite, and some of the other advances in communications we have made. Of course, we depended on computers to solve some of the problems connected with their development. But computers need absolutely clear and thorough instructions, which means a new and tougher discipline on the human intelligence.

And it will take more than a computer to create a pocket phone the size of a matchbook, let's say... or find

a practical way to lock a door or turn off an oven by remote telephone control, or to make possible some of the other things we'll have someday.

It takes individuals... perhaps you could be one... launching new ideas, proposing innovations and dreaming dreams.

And someday, we're going to have to find a way to dial locations in space.

Makes you think.

SCORE — Reggie Jackson tallies a run in a recent game. The Devils will have to score quite a few more of these in the next two weeks as the season draws to a close in a dog-fight for the WAC title.

SPORTS-WHYS

Now What?

By ORV FREEBISH

Shell-shocked and air sick, the Devil horsehiders of Bobby Winkles are licking their wounds and wondering just what the next two weeks might bring.

The Western Athletic Conference southern division title race is confusing enough, and to add yet, further question marks to everybody's mind, this weekend's opponent isn't going to be who everybody thought it was going to be.

THE POPULAR opinion had it that Cal State at San Diego (or San Diego State if you're old fashioned) would be in town for a single game Friday and a twin bill Saturday.

Earlier in the season, the Devils racked up a 7-2 record against California State College schools (San Fernando, Los Angeles and Long Beach) and I don't know whether or not San Diego chickened out or what, but their cross-town rivals, San Diego University, will be making the trip instead.

So that makes one schedule change, and next Tuesday will make one schedule addition. The Antelopes of Grand Canyon College will repay a visit the Devils made to their establishment last week in an attempt to avenge a 5-1 ASU victory.

THE BATS OF the Devils were quiet in that game, and it may have been an omen of things to come as a grand total of 17 A-Staters went down swinging in the first game of the New Mexico series last Friday.

But everything between now and May 13-14 is in the shadow of just "what the heck is going to happen?" in the WAC race.

ASU and the UofA are all even in the loss column, both teams having dropped three contests, and you'd have a hard time finding anybody who would bet that the UofA wouldn't even the score in the win column this weekend. The Wildcats, 3-3 on the season, host the Lobos of UNM in Tucson for a three game stand, and the 'Cats are known to be as lethal as the rattlesnakes from those parts when they're the home team.

SO, IT LOOKS LIKE the whole shooting match will come down to the wire in Tucson on May 13-14 when the Devils make that unwelcome journey to the south.

Bobby Winkles must be pacing a path around his office. And Fred Reish thinks HE has ulcers!!

Netters Drop Two to UNM, Host Cal Western Friday

The tennis team will be trying to regain its winning touch when the Sun Devils host Cal Western of San Diego in matches Friday (2 p.m.) and Saturday (9 a.m.) on Sun Devil courts.

Last weekend coach Ted Bredehoff's athletes dropped successive matches to New Mexico at Albuquerque by 9-0 and 7-2 counts. The losses dropped ASU's dual match record to 14-

7. The lone bright spot at Albuquerque came Saturday when Dave Farmer, number one player for the Devils, downed UNM's top netter, Steve Foster, by scores of 6-2, 1-6, 12-10. Tentative lineup for ASU, by position: (1) Dave Farmer, (2) Larry Stanley, (3) Briggs Bosworth, (4) Roger Wright, (5) Paul Pedersen, and (6) Dave Sinovic.

LINKS WIZARD—Devil golf ace, George Boutell, blistered the Provo, Utah, course with an 11-under par 205 to take top honors in last weekend's BYU Invitational Tourney.

★ ★ ★

BOUTELL PACES LINKSMEN —

Golfers Tourney Victors

By JOHN COATES

The golf team continued on the comeback trail last weekend as they used a dramatic final day surge to topple host Brigham Young by a stroke in the annual BYU Invitational Golf Tournament.

Displaying both poise and finesse, the Sun Devils came from six strokes off the pace to win.

THE CHARGE was led by George Boutell, who showed that once again he is the man to beat as he regained his form after an earlier slump.

Boutell played tremendous golf throughout. He took top honors in the tournament with a 205, and shot a sub-par total for the first time this year in tournament play.

Coach Bill Mann had a few words to say about his team's play. On the win: "It was the first tournament we've won, and we're all quite elated. George Boutell played tremendously, and the rest came through, too."

CONCERNING the future, he called this

tournament a "preview of the WAC finish. It was real good to beat them on their home ground. They're tough there, and that's where the conference tournament will be played."

Mann said that the team "hung in there real well," and the facts show that this was hardly an exaggeration. BYU's Bud Allin and Jack Chapman were second and third respectively, but then, tied for fourth, all at 216, were Rick Talt, Mike Morley and Dave Hanten, followed by Wayne Vollmer at 218 and Joe Porter III at 224.

The Sun Devils finished with a winning score of 853, edging BYU by just one stroke. But the Cougars got a measure of revenge in their turn, taking the team low ball play with a 184, compared to ASU's 186.

With Boutell's return to form, things are starting to look up for the Sun Devils. They've got some tough tournaments ahead, but if they continue to play as they have in their last two outings they should be on their way.

Get closer with a **HONDA**

A Honda will circumvent parking lots and take you directly to your destination. And, you'll have a lot more fun getting there. As for economy, prices start about \$215*! And you'll meet the nicest people!
