

Arts, Architecture Get New Facilities

Plans for the construction of a block-long Art and Architecture complex costing an estimated \$2,056,000 were recently approved by the Board of Regents.

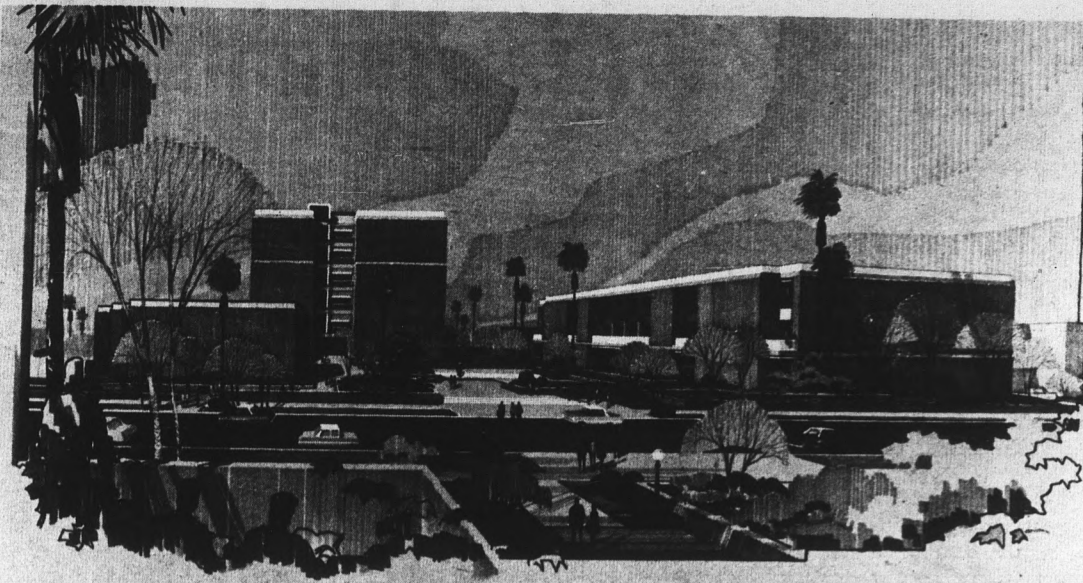

Comprised of two buildings, the complex will be located on Forest Avenue between 9th and 10th Streets, according to John R. Ellingson, director of planning and construction.

THE ART building will include four levels and a full basement of classrooms, laboratories, studios and faculty and administrative offices, with provisions for the subsequent addition of two floors.

The Architecture building will be comprised of 16 studios, a library, exhibition and display areas as well as classrooms and offices. The facilities will be distributed throughout three levels and a basement.

A **COURTYARD** arrangement will connect the buildings.

The complex, slated for completion by July, 1969, was designed by the Phoenix architectural firm of Guirey, Srnka and Arnold.

JOINT TENANTS — The College of Architecture, right and the Department of Art will occupy a block-long complex which is slated for completion by July, 1969. Designed by Guirey, Srnka and Arnold of Phoenix, the buildings cover a total of 113,000 square feet.

SUMMER SESSION

ARIZONA STATE UNIVERSITY

No. 6

Thursday, July 27, 1967

Tempe, Arizona

Films, Talks, Tour . . .

MU Activities in High Gear

Movies, lecture-luncheons, a tour and a coffee get-together will keep the MU bustling with activity this week.

A motion picture, "The Old Dark House," starring Tom Poston, will be shown free of charge at 7:30 p.m. in the MU Ballroom tonight and tomorrow.

The movie is based on J. B. Priestly's novel, and provides a mixture of comedy and mystery intrigue. Poston plays a car salesman who delivers a new auto to "the old dark house" and becomes involved in a murder plot. Robert Morley, Janette Scott and Joyce Grenfell are cast in supporting roles.

On Monday evening, the MU will present a children's cartoon feature, "Alakazam the Great," featuring the voices of Frankie Avalon, Didie Stevens and Jonathan Winters. The film is a winner of the Parent's Magazine Family Medal Award. It will begin at 7:30 p.m. in the MU Ballroom.

A tour to the facilities of the Mountain States Telephone Company will leave the front of the MU at 2:30 p.m. Tuesday. The junket will include a look at relay connections, television phones and other technical aspects of the communications system. The tour will be guided by a phone company engineer. Cost will be 75 cents to cover transportation expenses.

Lecture-luncheons will include a talk today on "The Great Alaska Earthquake of 1964," (see story, col. 3) and "Degree of Law and the Pursuit of Happiness," by Dean Willard Pedrick of the new Law College, on Thursday, Aug. 3. Each buffet costs \$1.25.

A weekly "Coffee and . . ." will be held in the Pagoda Room of the MU on Wednesday from 8:40 to 10:30 a.m.

★ ★ ★ Expert to Discuss Alaska 'Quake'

Slides and a lecture on "The Great Alaska Earthquake of 1964" will be presented by Dr. Troy L. Pewe, chairman of the Geology Department, at a lecture-luncheon today at 12:15 in the MU Ballroom.

Pewe, who was present at the time of the disaster, will describe the greatest change of the earth's crust ever observed in an historic earthquake — about 75,000 square miles were uplifted or depressed.

The quake was so intense that it was felt over an area of more than a million square miles. Huge landslides and tidal waves over 200 feet high caused millions of dollars in property damage and cost many lives.

Pewe was the former head of the geology department at the University of Alaska before joining the faculty here in 1965. He spent a number of years studying arctic and antarctic phenomena in the polar regions.

Recently Pewe returned from field work in Central Alaska and was present at the time of the second greatest recorded earthquake in the Fairbanks area which occurred June 21.

The public is invited to the buffet. Cost will be \$1.25.

TOTAL DESTRUCTION — Dr. Troy Pewe, head of the Geology Department, took this aerial photo the day after the great Alaska earthquake of 1964. This and other pictures will be shown when he presents a talk today at the MU's weekly lecture-luncheon.

Dean Dannenfeldt To Succeed Castle

Dr. Karl H. Dannenfeldt, dean of the College of Liberal Arts, was appointed academic vice-president last week by University President G. Homer Durham.

Dannenfeldt succeeds Dr. Gordon B. Castle who recently asked to be relieved of his administrative duties for health reasons. Castle will return to teaching in the Zoology Department.

DANNENFELDT has been the dean of the College of Liberal Arts, the University's largest college, since 1963. Previously he had served here as a professor of history since 1956.

He taught at Elmira College, Elmira, N.Y., from 1948 to 1956, as a faculty member in the department of history, and from 1952 to 1956, as head of the division of social sciences, before joining the Arizona State faculty.

Dannenfeldt's academic degrees include a bachelor of arts from Valparaiso University, a master of arts from Indiana University, and a doctor of philosophy from the University of Chicago.

HE IS an immediate past-president of the American Society for Reformation Research and since 1963 has been American editor of the society's semi-

Dr. Dannenfeldt

annual publication which is issued jointly with the German Society for Reformation History.

The new vice-president has conducted extensive research on Leonhard Rauwolf, and his manuscript concerning the sixteenth-century scientist has been accepted for publication by the Harvard University Press.

Hippest Hippie Guru Will 'Do His Thing'

Dr. Timothy Leary, self-proclaimed prophet of psychedelia, will get a chance to "do his thing" for the University's hippie colony via a film, "Turn On, Tune In, Drop Out," which will begin a three-day run at Grady Gammage Auditorium next week.

The middle-aged flower child, who dropped out of the Harvard faculty last year, advocates the mass use of hallucinogenic drugs such as LSD (lysergic acid diethylamide) and STP (5-methoxy-NN-dimethyltryptamine).

THE GAMMAGE showing will be the state's premier of the motion picture which has been hailed by some as a message from a messiah.

In a recent issue of Time Magazine, however, an article on the hippie movement stated, "Timothy Leary, a former Harvard psychologist who coined the 'Tune In, Turn On, Drop Out' slogan central to the hippie philosophy, was once a major guru (spiritual leader) but has lately fallen into disfavor with a large majority of hippies, who feel that he is trying too hard to 'put his trip' on everyone."

"Turn On, Tune In, Drop Out," will be presented Aug. 2, 3 and 4, starting at 7:30 p.m. each evening. General admission tickets, priced at \$2, are on sale at the Gammage box office.

Student Plans Rapid Raft Trip

When most University students are recovering from final exams next month, one stalwart soul will be bouncing down 250 miles of Colorado River rapids in a 23-foot raft.

And there's still time for as many as 16 more interested, brave and slightly balmy students to sign up for the story-book adventure trip.

ABOUT A MONTH ago, Everett K. Gibson, a graduate student in chemistry, got his first taste of Grand Canyon river water. Literally. He shot the famed Colorado rapids between Lee's Ferry and Lake Mead with 25 other students and a seasoned river-runner.

Now he wants to do it again.

"If you like adventure, this trip is a great place for it," Gibson says. "It's really not a strenuous trip, but there's enough rough water to get in your blood and make you want to go back and try it a second time."

ON THE FIRST trip, eight of the adventurers were girls, one a 55-year-old woman.

The initial phase of the watery junket will begin at Lee's Ferry on August 21 and conclude (hopefully) at Phantom Ranch in the bottom of the Grand Canyon three days later. The second part of the trip will begin at the ranch and end ten days later at Lake Mead.

Along the way, adventurers will see such curiosities as dinosaur tracks, human skeletons, abandoned boats and mines and, of course, the spectacular Grand Canyon from the bottom up. They will sleep on sandbars at night and shoot some of America's toughest white water during the day.

"**THE COLORADO** is one of the most difficult rivers to run," Gibson says. "Rapids are rated on a scale of 1 to 10 and this stretch of the river has between 12 and 15 rapids in the 9 to 10 cate-

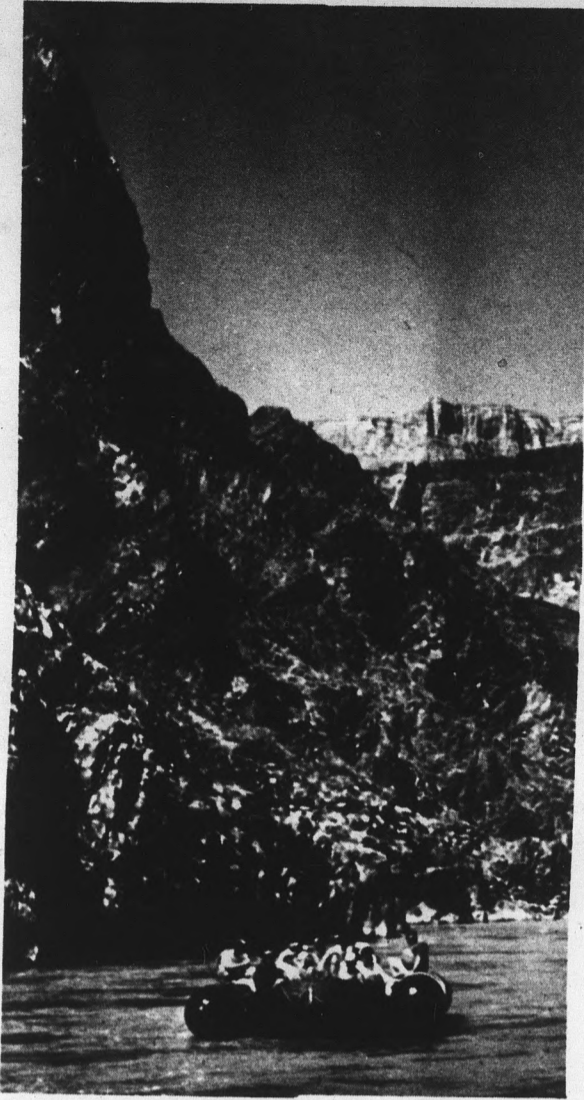

gory. On the last trip, we hit a rock and lost power in the raft's motor. We had no way of maneuvering and had to go through one rapid backwards."

The group will join up with an equal number of people from Utah and together will fill about three or four 28-33 foot rafts. The entire contingent will be under the guidance of John Cross, one of the ten approved river-runners on the Colorado. Cross has the reputation of being the only one never to have overturned a raft in 17 years of shooting the rapids. He has run most of the major rivers in North America.

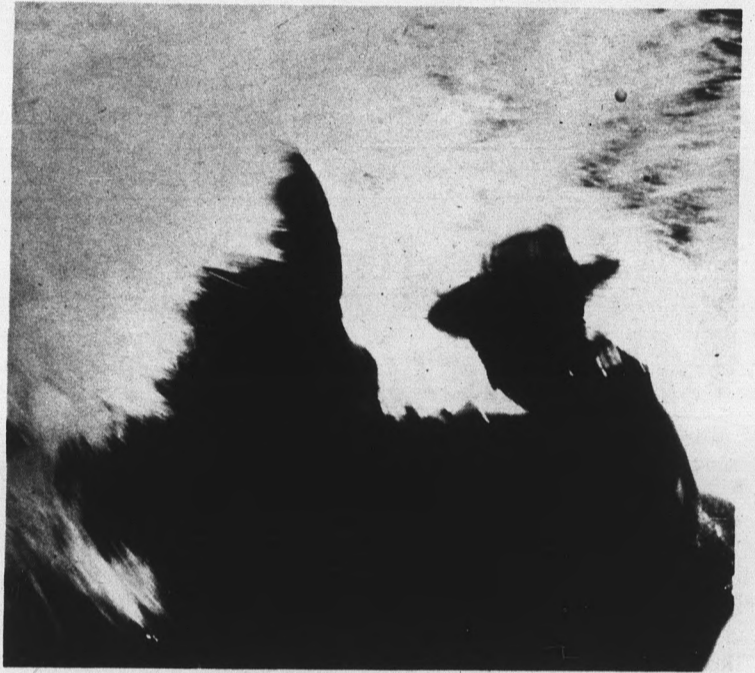

GIBSON SAYS that Cross is offering special student rates for the trip. The cost for the first part of the run is \$100. The journey from Phantom Ranch to Lake Mead is \$150. The entire trip from Lee's Ferry to Lake Mead, including all meals on the river, is \$250.

Interested individuals must provide their own transportation to the point of disembarkation in the rafts. The only equipment needed is regular camping gear, according to Gibson.

A meeting will be held before the group leaves. Movies will be shown of the previous trip and the fledgling adventurers will be told what to take and what to expect. For further information, contact Gibson in PS C-143 or C-160, or call 966-7337.

THE GRAND CANYON — A rubber raft is dwarfed by the soaring, verticle walls of the canyon. In places, the cliffs reach heights of 7,000 feet above the Colorado rapids.

UNEXPECTED SHOWER — Members of Gibson's first excursion are drenched by the pounding Colorado River rapids. Seconds after this picture was taken, Gibson's camera was smashed by a roaring deluge of water. The film, however, remained intact.

state press Classified

For classified advertising submit ad in person to the State Press, MU 3, between 9 and 12 a.m., or call 966-3656. Rate: 5c per word, 75c minimum per issue.

● SERVICES

TYPING — 967-3036.

CALORY GALLERY — where cooking is the art that pleases the palate. Home-like atmosphere. Jim and Juanita welcome you. Open weekdays 7 a.m. to 8 p.m. Closed Sunday. Corner 6th St. and Mill Ave.

PROFESSIONAL aid in preparation of research proposals, dissertations, and reports including statistical analysis of data. Write: Mr. F. L. Whitney, P.O. Box 3063, Scottsdale, Arizona 85237. Phone: 275-1462.

QUALIFIED typing. Near campus. 967-2448.

SWIM SUIT & SKI SWEATER SALE. Girl's French swim suits. Size 10 and 12. Men's and girls' Scandinavian ski sweaters. All sizes. Salesman's samples at cost. Shown by appointment. Call 946-6186.

● INSTRUCTION

INDIVIDUAL tutoring in math, physics, chemistry and biological sciences. 967-7924.

Piano Recital, Lecture Close Festival Arizona

Dr. Donald Isaak, University pianist and associate professor of music, will be presented in a Festival Arizona program at 8:15 p.m. on Tuesday in the MU Ballroom.

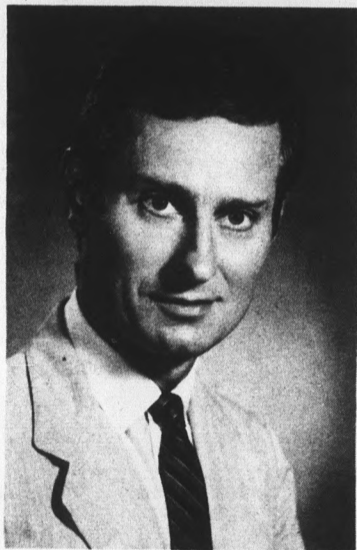

The performance will include a Beethoven sonata, a group of Mendelssohn's "Songs Without Words," two intermezzos and a rhapsody by Brahms, "Reflections in the Water" and "Gardens in the Rain" by Debussy.

Isaak will conclude the program with a group of works by Chopin, including two etudes, a nocturne and a scherzo.

The program is free to the public.

Next week, Edward M. Keating, controversial founder and former publisher of Ramparts Magazine, will lecture on "A Radical's View of America."

The nationally known critic and lecturer, who is author of a book entitled "The Scandal of Silence," will talk in Grady Gammage Auditorium.

Dr. Isaak

CALENDAR

- Thursday July 27** —Lecture-luncheon, "The Great Alaska Earthquake of 1964," featuring Dr. Troy Pewe at 12:15 p.m. in the MU Ballroom. Movie, "The Old Dark House," starring Tom Poston at 7:30 p.m. in the MU Ballroom.
- Friday** —Movie, "The Old Dark House," starring Tom Poston at 7:30 p.m. in the MU Ballroom.
- Monday** —Movie, "Alakazam the Great," a cartoon feature at 7:30 p.m. in the MU Ballroom.
- Tuesday August 1** —Tour to Mountain States Telephone Company leaves front of the MU at 2:30 p.m. Pi Lambda Theta luncheon at 12:30 p.m. in Pagoda Room of the MU. Faculty piano recital featuring Dr. Donald Isaak at 8:15 p.m. in the MU Ballroom.
- Wednesday**—Film, "Turn On, Tune In, Drop Out," at 7:30 p.m. in Grady Gammage Auditorium. "Coffee and . . ." at 8:40 to 10:30 a.m. in Pagoda Room of the MU.

Student Service Offices Relocate into Matthews

Several student service offices have moved into the old Matthews Library building in order to accommodate administrative expansion and still keep the offices in the same general area.

Financial Aids, Dean of Students, and Associate Dean of Students offices have already been moved. Counseling services will be relocated in Matthews when the Law College moves into its new multi-

million dollar complex around the start of the second semester next year.

During the last few months Matthews, now officially "Matthews Center," has been the home of the Law College library and a collection of skeletons belonging to the Anthropology Department.

Mrs. Cecelia Scouler, director of the MU, will move her office into the space vacated by the Associate Dean of Students. Dr. Roy Rice, dean of the summer session, will move into the offices formerly occupied by the Dean of Students.

1,800 Frosh Will Register

About 1,800 freshmen and transfer students are expected to register this morning for the fall term during the last special summer enrollment program.

More than 600 students took advantage of the first sign up session on June 29.

All new freshmen are required to have a chest X-ray if they intend to register for more than six hours. This can be completed today, without cost, from 11 a.m. to 4 p.m. at the Student Health Service.
