

WELCOME TO ASU DAY!

state press

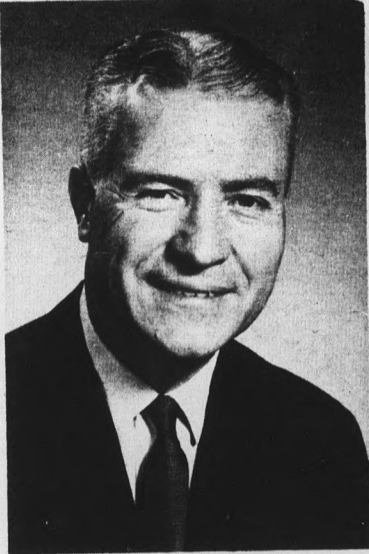

ARIZONA STATE UNIVERSITY

Special ASU Day Edition

Saturday, October 7, 1967

Tempe, Arizona

From the Presidents

President Durham

Welcome to Arizona State University.

Arizona State University is an important center of learning. It must be a center of academic integrity and freedom in the pursuit of truth and knowledge.

In one or two years, most of you will be enrolled as freshmen at Arizona State or some other institution of higher learning. At ASU, the teaching of freshmen continues to be the most important task entrusted to this institution.

The program today has been designed to whet your appetite and to give you an insight into that trust.

I sincerely hope that as you leave our campus after today's activities that you will share, in part, our sense of community, our capacity for friendship, and our energetic quest to educate the whole man.

Dr. G. Homer Durham
President

President Perkins

Welcome to "ASU Day"

As prospective university students, your main objective is to find the institution that will provide the best education possible. This education includes much more than just the academic studies.

When you stop to consider the facts, Arizona State University is the fastest-growing university in the state, both in academic programs and extracurricular activities.

It is a challenge to you as prospective university students to search out the facts that will enable you to make a wise decision about your future education.

As Associated Students president, I invite you to look at all aspects of our university, and we hope you will share our opinion and enthusiasm about ASU and join us in the fall.

Bill Perkins
President, ASASU

University's Invitation

Hey, Look Us Over

More than 4,000 Arizona high school juniors and seniors are expected on campus today for an afternoon and evening's glimpse of college life during the University's annual ASU Day.

Among the day's events will be orientation programs by representatives of the seven undergraduate colleges, campus tours and open houses, and above all an opportunity for each visitor to find out whatever he or she wants to know about ASU.

REGISTRATION begins at 12:15 p.m. in Grady Gammage Memorial Auditorium, the Frank Lloyd Wright - designed cultural arts complex which has brought international attention to the University through its unique design and remarkable acoustics.

Visitors will be greeted at 1:15 p.m. in the auditorium by University President G. Homer Durham, Associated Students President Bill Perkins and other campus leaders.

A program of entertainment showing "ASU On Parade" through the talents of University music, drama and dance students will follow.

AMONG entertainers will be the University Concert Band, conducted by William Hill; the Percussion Ensemble, under direction of Mervin Britton; and the University Singers with conductor Kenneth Seipp.

Master of ceremonies for the

festivities will be James Creasman, director of university relations.

The seven colleges which are represented in Arizona State University — liberal arts, law, engineering, sciences, architecture, nursing, education and fine arts — each will present two orientation programs dur-

ing the day; one at 2:30 p.m., the second at 3:30 p.m.

From 4:30 to 5:30 p.m., visitors will have the chance to tour the campus, visit Palo Verde West women's dormitory, Best C men's dormitory and drop in if they wish at any of the houses of the University's 21 social fraternities.

Sun Devil - Miner Collision Tonight

By JERRY KEMPER
Sports Editor

The Big Ten Football temple collapsed Saturday when the Sun Devils handed Wisconsin its first home opener defeat in 19 years.

The 42-16 defeat of the Badgers caused Wisconsin coach John Coatta to call the Sun Devils one of the best ball clubs he had ever seen.

It's this Sun Devil club that faces the University of Texas at El Paso today in Sun Devil stadium at 8 p.m.

The Devils will have Sports Illustrated Lineman of the Week Curley Culp, Western Athletic Conference Back of the Week Max Anderson; and a United Press International backfield representative, quarterback Ed Roseborough, in the starting lineup.

IT'S NO wonder that UTEP coach Bobby Dobbs is feeling no joy, but he's counting on pulling his first win over the Devils in 10 straight years with

his big linemen. The UTEP offensive line averages 230 pounds per man and the offense 219.

Dobbs will start either Billy Stevens or Brooks Dawson at quarterback. Stevens rifle-armed the long bomb for UTEP last year but lately he has been upstaged by Dawson.

A year ago in the season's opener, the Sun Devils had to fight back from a 19-7 deficit at halftime to down UTEP 30-26. Many observers cited September heat in the Valley of the Sun as the prime cause of the Miners defeat.

Here's What's Happening

10 a.m.-noon—Campus tours for those arriving early will leave from the Memorial Union.

12:15-1:15 p.m.—Registration, Grady Gammage Auditorium

1:15-2:15 p.m.—Welcome, Gammage Auditorium. President Durham and student leaders will speak. Program "ASU On Parade."

2:30-3:30 p.m.—Individual College Sessions: Part 1.

Liberal Arts—Life Sciences 191
Architecture—Engineering Center A, Room 237

Business Administration—Business Administration 105

Education—Education Building Patio

Engineering Sciences—Engineering Sciences G, Room 150

Fine Arts—Gammage Auditorium 301

Law—Matthews Center

Nursing—Nursing Building

7:30-8:00 p.m.—Pre-game activity, Sun Devil Stadium

8:00 p.m.—Football—ASU vs. University of Texas at El Paso, Sun Devil Stadium.

WINDOW ON THE FUTURE—Through a window of Manzanita Hall, newest and tallest building on the campus, the vista of a growing University against the backdrop of South Mountain.

\$750 Scholarship Gift -

AiResearch Honors Senior

A 21-year-old senior has been awarded a \$750 scholarship for earning the highest grade average (3.7) in the department of mechanical engineering after three years of study.

Ralph J. Korstad of Navato, Calif., received the money from the Alcoa Aluminum Co. of America.

Nine students with the next highest grades in the mechanical engineering department were presented \$250 scholarships from five engineering organizations.

AiResearch scholarships were given to William A. Palmer, 21, of Fairborn, Ohio; Fred R. Dauwalder, 20, of 2309 N. 81st Place, Scottsdale; T. (Lee) Moribe, 26, of 7534 N. 61st Place, Glendale;

Conrad M. Rustenburg, 32, of 4010 W. Claremont, Phoenix; and Gene L. Cox, 21, of 2048 N. 37th Place, Phoenix.

Money from the American Society of Professional Engineers was presented to Charles D. Allen, 19, of 8601 E. Edgewood, Mesa. A Phoenix Blueprint Co. scholarship was awarded Ronald

A. Barstad, 19, of 6732 E. Cyprus, Scottsdale.

Funds from the American Society of Heating, Refrigeration and Air Conditioning Engineers were given to Michael L. Jensen, 20, of 6707 E. Monte Vista, Scottsdale, and the George Ghiz scholarship went to Don C. Howard, 21, of 1905 Farmer Avenue, Tempe.

Leftist Eugene Debs Club Interested in Education

Campus members of the New Left have formed a new organization which now boasts 15 members.

The Eugene V. Debs Club, named after one of America's most famous Socialist leaders,

is "a whole new approach to leftist politics," according to Don Critchlow, one of the group's founders.

He said it is now seeking University recognition and expects to receive it in about two weeks.

The group's purpose is primarily educational, Critchlow said. It will publish a newsletter, distribute literature and perhaps bring speakers to campus later in the year.

Although the club represents different points of view within the Socialist spectrum, its basic aim is the social ownership and administration of the means of production and distribution.

The club is organized on a central committee basis with rotating chairmen. The current committee members are Critchlow, William Wingfield, Stephen Shorr, Pat Mason, Bill Ford and Duanne Stormont.

Daily Tutor Service For Math Students

Students who are in need of assistance with their mathematics homework are now in luck.

Dr. A. S. Merrell, retired professor of mathematics at the University of Montana, is tutoring students who have problems requiring special assistance.

His class is open every day from 2:30 to 4:30 p.m.

in Room B254 of the Physical Sciences Center. There is no charge and any student who feels he has mathematics trouble is urged to attend.

Dr. Merrell, who says that he teaches only because he has failed to find another hobby that he enjoys as much as helping students, said the class helps bring the students closer to their subject.

In a week's time, Dr. Merrell instructs about 50 students, but he says the number always seems to rise during examination periods.

STATE PRESS is published by Arizona State University as the official campus newspaper every Tuesday through Friday during the school year, except holidays and examination periods, and is entered as second class matter at Tempe, Arizona, 85281.

Sociology Increases Staff

Three new sociology professors have joined the faculty, President G. Homer Durham announced this week.

Working in the capacity of associate professors are Dr. Paul N. Geisel and Dr. George Kupfer. Dr. Leonard Gordon joins as assistant professor of sociology.

Dr. Geisel, who has received degrees from Willamette and Vanderbilt Universities, taught as assistant professor at Rollins College, was research associate and assistant professor of sociology at the Graduate School of Public Health, Pitt University, and before coming here, served as research director at the Canadian Welfare Council, Ottawa, Ontario.

He has also directed research projects on employment and public welfare, urban low income family evaluation, day-care facilities, and Indian residential schools.

Coming from the University of Alberta where he has taught since 1964, Dr. Kupfer, a specialist in deviant behavior research, graduated from Seattle Pacific College and the Uni-

versity of Washington, where he was a faculty member.

Dr. Gordon holds degrees from Wayne State University and the University of Michigan. In addition to teaching at Wayne State, he has been director of the American Jewish Committee in Michigan.

DAY'S make a great week

Why live plain? Live!

After all, you're only on campus once (hopefully) then it's a bit of a climb to Off-Campus VIP.

Now, enjoy!

And be quality about it. Only Day's makes sport casuals and slacks from the finest fabrics and is so picayunish about their famous fit. It's individual because, frankly, you are. Put some great Days in your week, now! At quality fashion stores everywhere or write Day's, Tacoma, Washington 98401.
