General Excellence

## Payroll system changes

By BONNIE BARTAK

That paycheck means a lot to University employees, and a new program of payroll service will begin next month.

As of Nov. 20 the University will handle the preparation and distribution of the school's payroll. The state auditor's office now prepares University paychecks.

In the change, though, employees will have to review their finances because there will be a gap in the pay schedule of several days and a change in pay dates.

The payroll dates for salaried personnel will be moved from the 15th or 16th and last day of the month to the 5th and the 20th of each month. Employees paid hourly, previously given checks on the 10th and 25th, also will be paid on the 5th and 20th of each month.

Due to the change to uniformity in pay dates, the University suggests employees making regular monthly payments consult lending agencies early to adjust their payment schedules.

Student work-study pay will continue to be distributed weekly.

Salaried employees will receive their last check on the present schedule Oct. 31. Their first check under the new system will be distributed Nov. 20, with the second check being given, according to the schedule, Dec. 5.

Hourly-paid personnel receive their last check on the present schedule Nov. 10. Their first check under the new program will be handed out Nov. 20, with subsequent checks following the schedule.

## Mall poll to collect Vietnam reactions

Faculty, staff, graduate and undergraduate students are encouraged to express their opinions on the Vietnam war in a poll conducted by the Associated Women Students.

A table on the Mall in front of the library will be set up today from 8 a.m. to 4 p.m.

A letter with a copy of the poll has been sent to U.S. and State Senators, ASASU Senators, the Board of Regents and acting President Harry K. Newburn. Results and analysis of the poll will be released.

Areas covered by the poll include:

—Feelings on today's moratorium being held on campus.

—Cause-effect relationship in the Vietnam situation.

—Suggested action for the United States to take.

—Individual knowledge of the Vietnam question.

—Outlining of faculty, staff and student status for correct analysis of opinion.

WATER . . .  
. . . WATER

The complicated instrument, one of six in the world, measures velocity changes in fluids. Keeping a check on the laser doppler velocimeter is Dr. Neil Berman.

Photo by Chuck Conley

## Water being studied

By RANDY BAILEY

Water . . . water is everywhere, but what does mankind know about it?

The clear, wet liquid is used to clean dirty cars, irrigate crops, and produce electrical power, but other than its wetness, its properties have received little thought.

Now, scientists can change water by adding soluble polymers and POW! . . . slippery water.

A practical application of this fluid is called, "liquid banana peel," used in riot control. When sprayed into a crowd it becomes impossible to stand up, or escape.

Dr. Neil Berman, associate professor of chemical engineering, and his students are pioneers in using polymers and a laser to measure the velocity fluctuations of fluids.

With financial backing from the American Chemical Society, work began in 1966 on a sophisticated machine called the laser doppler velocimeter which measures velocity fluctuations of fluids moving through a glass pipe. Velocities from .005-inches-per-second to supersonic speeds can be measured.

"Experimental measurements of the behavior of disturbances in pipe flows of liquids are rare, al-

though there have been many theoretical studies," the University scientist explained. "As far as I know, only two American universities . . . ASU and Minnesota . . . are actively conducting research at this time.

The University's velocimeter experimenters measure the speed of polymers in glass pipes by record-

ing the frequency shifts of laser light reflected by the particles. The technique is very similar to the way radar works in tracking airplanes.

"However, radar cannot be focused to the one ten-thousandth of an inch diameter spot which is easily obtained with the laser light," Dr. Berman explained.

## Finance board tight on expense requests

The Board of Financial Control approved only \$9.50 of requested expenditures of \$1,932.82 asked by various groups in its meeting Monday.

Only request approved was a requisition to permit two members of AWS to attend an address by Patricia Hitt, assistant secretary of Health, Education and Welfare, Saturday at the TowneHouse.

The board first denied funds requested by the International Student Relations Board. A letter from the treasurer of ISRB asked for \$50 to reimburse a member for a trip last spring. The request was

denied because there is no record of a request last year.

In the second action of the meeting, the board decided not to reimburse the Student Bar Association for a member's trip to Dallas last year for the annual convention of the national association on the same grounds applied to ISRB.

The board took no official action on the request for funds for uniforms by Angel Flight, AFOTC's women's auxiliary to Arnold Air Society. The BFC said the \$1,000 request would first have to be presented to the Student Senate for its approval.

## Ticket pickup Monday

Ticket pickup for the UofA football game will be earlier than the State Press reported yesterday. Ticket pickup begins Monday instead of Tuesday. Pickup will be from 8 a.m. to 5 p.m. Monday, 8 a.m. to 9 p.m. Tuesday and from 8 a.m. to noon Oct. 22.

The early pickup will help comply with a Board of Regents ruling that all tickets be sold before television coverage of the game can be considered, according to G. Allen Frazier, assistant executive manager of ASASU.

All public tickets have been sold with the exception of general admission seats, offered only after students have picked up their tickets.

All tickets must be sold before Nov. 1 to allow time for television arrangements, Frazier said.

Students may claim two tickets at the new ticket booths at the south end of Sun Devil Stadium by presenting two valid photo identification cards.

Ticket distribution for the Wyoming game will begin Oct. 27. Tickets for the Colorado game will be distributed Nov. 17.

## Mystery clouds Halloween party

The annual MU Halloween Happening still remains a mystery, said Mrs. Gay Holliday, adviser to the events-planning committee.

The time and date of the happening are unknown. It will occur during the last week in October in MU West.

Oct. 31 is already booked with night - before - Homecoming festivities.

"Students will have a great part in deciding what will be included in the Halloween Happening," Mrs. Holliday said.

New ideas are welcomed.

Application deadline for the planning committee is today at the MU front porch.

## Riots in North Ireland veil grievances—Owen

Religious rioting in Northern Ireland is just a veil over deeper political and economic grievances, Dr. John E. Owen, University sociologist, said.

An article published recently in Dublin by Dr. Owen compared the Ulster riots to the struggle between Muslims and Hindus after the partition of India and Pakistan in 1947.

"While religion was the manifest cause of hostility," he wrote, "the latest causes were economic, the Muslims fearing they would be submerged by the commercially and culturally dominant Hindus.

Dr. Owen said there was evidence that the half - million Catholics in Ulster have been

discriminated against in jobs, housing, education and the vote for years.

The irony of the situation, he said, was that American investment, which could raise the island's standard of living and reduce economic hardships underlying tensions, might now be scared off.

Dr. Owen concluded that the record of the Irish in America has been one of the true success stories of the New World.

"It is a tragedy that religious bigotry, which has already led to so much disunity and heartache, should still be a cause of dissension and bloodshed in their homeland," he said.

## Ouster, poll occupy council

An AWS poll on the Vietnam moratorium and the dismissal of State Press editor Larry Ross occupied the ASASU Executive Council meeting Monday.

Sheryl Hutt, AWS president, said a poll is being taken by AWS to check student reaction to the moratorium. According to Miss Hutt, pollsters will question students on the effectiveness of the moratorium and their opinions on the Vietnam war.

Larry Ross, former State Press editor then discussed his dismissal. He said his discharge came after he clashed with the Board of Student Publications over an editorial criticizing The Arizona Republic's policy of refusing ads for X-rated films.

Ross said 10 of 14 State Press staff members resigned after his dismissal Friday. He claimed the issue is whether the State Press is a campus newspaper or just a workshop for the Mass Communications Department.

The former editor said he will appeal the issue to proper authorities.

Tom Edwards, ASASU executive vice president, told Ross he sympathizes with him and other former staffers of the State Press.

## Dr. Farris is named to government body

Dr. Martin T. Farris, professor of economics and transportation specialist, was appointed to the National Defense Executive Reserves by Secretary of Transportation John A. Volpe.

Dr. Farris came to the University in 1957 from Ohio State University.

The Office of Emergency Transportation Unit, which Dr. Farris serves, will coordinate and control the use of American civil transportation resources in support of national need.

Dr. Farris has published more than 50 articles on transportation, public utilities and economics. He was co-author of a university and adult education textbook on transportation theory and practice.

A certified member and former member of the board of examiners of the American Society of Traffic and Transportation, Dr. Farris is a licensed practitioner of the Interstate Commerce Commission.

## Delta Sigma Phi retreaters return

Actives and pledges of Delta Sigma Phi fraternity spent last weekend at their annual retreat in Payson.

The purpose of the retreat was to promote better understanding and feelings between members and to provide a relaxed atmosphere in which the men could discuss matters of much concern.

The 45-man group engaged in football and volleyball games and topped off Saturday's activities with a steak fry. Sunday morning was devoted to a gripe session. The men returned home at noon.

STATE PRESS is published by Arizona State University as the official campus newspaper every Tuesday through Friday during the school year, except holidays and examination periods, and is entered as second class matter at Tempe, Arizona, 85281.

## Student groups must register

Student organizations wanting University recognition must register with the Office of Student Affairs in Matthews Hall by 5 p.m. today.

Registration forms require the name of the organization, its adviser, the officer's names, mailing address, and number of members.

The information is necessary to answer the many inquiries from students who wish to join one of the groups.

## Test applications due

Prospective law students must submit applications for the first Law School Admission Test by Friday.

Applications are at the College of Law admissions office and at the Testing Center, Payne Hall 302.

The first test will be given

Nov. 8. Other testing dates are Feb. 14, April 11 and July 25.

The test, administered by the Educational Testing Service, is designed to measure academic and writing abilities but is regarded by the College of Law as an aptitude examination.

## Calendar

**TODAY**  
Bell and Howell Art and Document Series presents the Canadian Under-ground: "Lords of Creation," "Bed-time Story," "Nicaro," and other films; 3:30 and 5 p.m., MU Rumpus Room.

U.S. Air Force interviews on campus for male seniors and graduate students interested in the pilot and navigator programs, and female students interested in commission opportunities. Contact Placement Service, OBA 109.

Companies holding campus interviews: Travelers Insurance Co., Phoenix; Ampex Corp.; USAF Missile Development Center; Anheuser-Busch, Inc.; North American Rockwell Corp., Autonetics Division; Northwell Corp., Los Angeles, Rocket-dyn and Space Division; and Scott Paper Co.

**TOMORROW**  
Interviewing at Placement Service: American Hospital Supply Co.; Army and Air Force Exchange Service; Brown & Foot Inc.; Caterpillar Tractor Co.; Celanese Corp.; International Telephone and Telegraph Co.

Outing Club will meet at 6 p.m. today in WPE 148 for organizational purposes. All students interested in hiking, backpacking, water - skiing and travel are invited to attend.

The club has scheduled two events this weekend — hiking and camping at Mt. Baldy and water skiing at Lake Pleasant. Those interested may call Jerry Story at 966-3155 or attend to-night's meeting.

A U.S. Navy information team will be on the Mall today and tomorrow with information on naval officer training programs.

Residence Hall Association will not hold its regular general council meeting today.

Dr. John W. Larimer will lecture on "Composition of the Earth as Inferred from Meteorites" at 3:40 p.m. today in a geology colloquium in Ag 150.

## ASASU urge voter sign-up

Will you be 21 by Nov. 3, 1970? If so, the ASASU wants you to register now to vote in the 1970 elections.

To register you must have resided in Arizona for one year prior to Nov. 3, 1970, and in Maricopa County for 30 days prior to that date; and be a citizen of the United States.

A deputy registrar will be on duty at the ASASU office Mondays, Wednesdays and Fridays 10:40-11:30 a.m., 12:30-1:30 p.m. and 2:30-3:30 p.m. Tuesdays and Thursday, the registrar will be on duty from noon to 3:30 p.m.

For further information contact Gary Nelson at 965-3161 during the above hours.

## Do you wear CONTACT LENSES?

New **SWISHER**™ gives you greater wearing comfort

It's the swinging-est way to get greater wearing comfort and keep your contacts sparkling clean. Used with new Contique™ Clean-Tabs and Soak-Tabs, Swisher harnesses the water power of a faucet to clean delicate lenses without rubbing or scratching. Eliminates any chance of lens loss down the drain, too.

Ask your druggist for a Swisher Care Kit. Use the coupon below and save 25¢. For a free booklet, write Alcon Optical Products, Box 1959, Fort Worth, Texas 76101.

REDEEM AT YOUR DRUGSTORE

**25¢ OFF**

with this coupon and purchase of ONE SWISHER CARE KIT

Mr. Dealer: Alcon will redeem this coupon for 25¢ plus 3¢ handling for sale of one Swisher Care Kit. Customer must pay sales tax. Void where prohibited, taxed or restricted by law. Cash value 1/20 of 1¢. Any other use prohibited. Mail to: Alcon Optical/Box 1959/Fort Worth, Texas 76101.

## Codes numbered

Students who want copies of the Student Conduct Code should contact Gary Nelson in the ASASU Lounge in South Hall.

Copies are extremely limited. Only 500 were printed for more than 24,000 students.

Applications for Homecoming king and queen candidates are due by 4 p.m. today in South Hall 232-A.

The Cultural Affairs Board will meet today at 3:30 p.m. in SS 226.

A.S.U. Campus

Bus.: 252-6015 - Res.: 274-8554

**\*CEILING AND VISIBILITY UNLIMITED**

At Pratt & Whitney Aircraft "ceiling and visibility unlimited" is not just an expression. For example, the President of our parent corporation joined P&WA only two years after receiving an engineering degree. The preceding President, now Chairman, never worked for any other company. The current President of P&WA started in our engineering department as an experimental engineer and moved up to his present position. In fact, the majority of our senior officers all have one thing in common — degrees in an engineering or scientific field.

To insure CAVU\*, we select our engineers and scientists carefully. Motivate them well. Give them the equipment and facilities only a leader can provide. Offer them company-paid, graduate education opportunities. Encourage them to push into fields that have not been explored before. Keep them reaching for a little bit more responsibility than they can manage. Reward them well when they do manage it.

Your degree can be a B.S., M.S., or Ph.D. in: MECHANICAL • AERONAUTICAL • ELECTRICAL • CHEMICAL • CIVIL • MARINE • INDUSTRIAL ENGINEERING • PHYSICS • CHEMISTRY • METALLURGY • MATERIALS SCIENCE • CERAMICS • MATHEMATICS • STATISTICS • COMPUTER SCIENCE • ENGINEERING SCIENCE • ENGINEERING MECHANICS.

Consult your college placement officer — or write Mr. William L. Stoner, Engineering Department, Pratt & Whitney Aircraft, East Hartford, Connecticut 06108.

CAVU\* might also mean full utilization of your technical skills through a wide range of challenging programs which include jet engines for the newest military and commercial aircraft, gas turbines for industrial and marine use, rocket engines for space programs, fuel cells for space vehicles and terrestrial uses, and other advanced systems.

# Scientists examine rock ash

By RANDY BAILEY

The ash of four ounces of moon dust was added to the Valley atmosphere last week, and University scientists did the polluting.

The gray, powdery moon rock was burned in a chromatograph by Dr. Carleton Moore, director of the Center for Meteorite Studies. Traces of nitrogen and carbon were detected by the sensitive instrument.

"However, we're not certain if these elements are actually part of the moon or not," Dr. Moore said. "They could have come from the earth or from a sterile cabinet at NASA's Lunar Receiving Laboratory in Houston."

"It really doesn't give us much inkling as to whether the moon was tossed out of what is now the Pacific Ocean, or if it's another planet," he commented.

From preliminary experiments the 146 moon soil scientists have concluded that the moon has no organic matter and that the titanium content is very high. Also the moon samples are extremely old.

"There are many crystalline rocks and much more titanium than we find on earth," Dr. Moore explained.

More moon rocks are coming. Next week a display of samples will be set up in MU West.

The University will receive more samples after the November Apollo mission.

"The Apollo astronauts will spend more time (about seven hours) on the lunar surface and will be intently seeking different rock samples," Dr. Moore said.

# Symphony opens

The Hamburg Symphony Orchestra, under the baton of Hans Schmidt-Isserstedt, will open the Fine Arts Series at Gammage Auditorium Friday at 8:30 p.m.

The orchestra, which toured the United States in 1963, was founded in 1945 by Schmidt-Isserstedt and is composed of some of Europe's most noted musicians.

The Hamburg Symphony has

toured the major Russian cities, as well as the capitals of Europe. Critics have labelled the group "one of the world's finest orchestras."

Friday night's program will include Mozart's "Symphony No. 29 in a Major," "Variations on a Theme of Paganini" and "Eroica" by Beethoven.

Student prices for the Gammage show are \$5, \$4, \$3, and \$2. Tickets are available at the box office.

FUNNY YOU'RE A GIRL...

## Harriers lose to Utah

Despite a first - place finish by Doug Conley, the Sun Devil cross - country squad fell to Utah's Redskins, 24-35, in a meet held in Salt Lake City over the weekend.

Conley was timed in 21:21.7, beating the Utes' Randy Doyle by 2.3 seconds. ASU's Bob Bogle finished third, but after Bogle, the next Devil was Manuel Quintanar in eighth place.

Sun Devils Tim Robinson and John Lincoln came in 11th and 12th respectively.

## Feasors cop paddleball

The Tort Feasors, a team made up of law students, took first place in intramural paddleball competition.

The Feasors captured 116 points to edge Pi Kappa Alpha's 110 in the first event of a long intramural program.

Phi Kappa Psi, Kappa Sigma and Alpha Tau Omega rounded out the top five in the team standings.

Mai. David Bowersock, an instructor in Air Force ROTC, copped first place in the A division. Bowersock beat Sigma Nu's Jarry Godron in the final match.

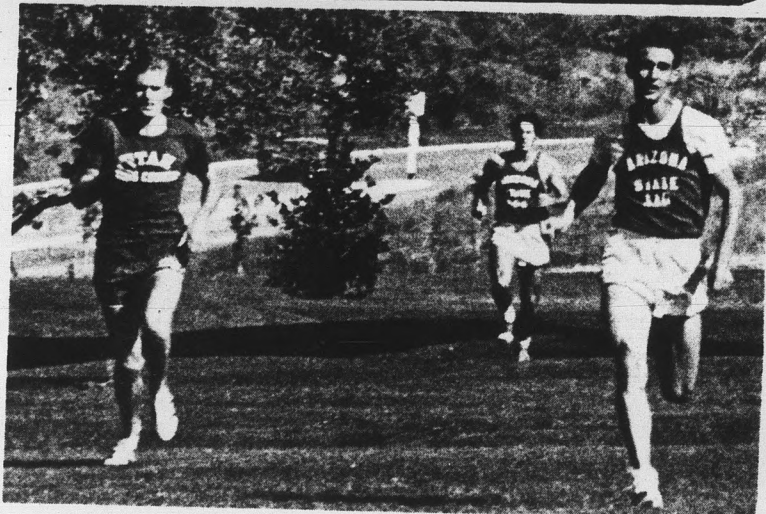

Paul Forrest survived tough competition to take the B league championship.

Intramural tennis is now being played with the finals occurring soon.

Other events on the intramural calendar include football, basketball, softball, swimming and many minor sports.

Any group or organization can organize an intramural team.

Instruction in Classical Guitar by student of Manuel Ramos. 966-5056.

Tutoring. Senior Will tutor zoology, biology, genetics, chemistry (Incl. Organic), and math. 966-6909.

INDIVIDUAL tutoring in math, chemistry, physics and biological sciences. Phone 967-7924.

Tutoring in FORTRAN IV and mathematics. Phone 966-0200, ask for E. Morris.

# Tackle gets break

By DON PODESTA

Mike Shimkus is watching the football games from the sidelines, resting on a pair of crutches.

Shimkus saw action as a defensive tackle last year but a leg injury prevented him from playing this season.

It happened at Camp Tontozona during a scrimmage. Shimkus was pursuing a ball carrier in a path parallel to the line of scrimmage. From across the field came Calvin Demery to block for his offensive teammate. Demery threw his body into Shimkus.

**CRACK!**

The sound was heard by the players on the other side of the field, as Shimkus went down in a tangle of bodies. A day later "Machine" (Shimkus) was no longer in camp.

When the Sun Devil squad got back to the Valley they were visited at practice by a large figure on crutches with an uncomfortable-looking cast on his leg.

There were the usual jokes. "What are you doing . . . resting?"

"Quit goofing off and go suit up."

Even coach Frank Kush said, "Gee, Shimkus, I thought you were supposed to be tough."

Shimkus didn't want to sit out the season. But now that it's happened . . .

"I really don't want to play this year, now. I don't want to waste a year of my eligibility."

If he played the rest of this season he would have only a year and a half left next fall. By waiting he will be eligible to play two full years beginning next season.

**It doesn't really matter**

Mike Shimkus

what Shimkus wants, because he is still on crutches.

When can he get off the crutches?

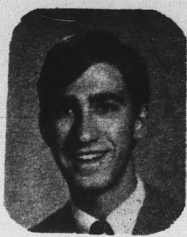

"Right now, as far as I'm concerned," says the 240-pound tackle from Chicago. "But the doc says at least another week."

The scar from the operation on his leg is S-shaped. Ask him about it and he'll tell you it stands for "Shimkus."

# Gentry flies Devil banner

Arizona State has produced many successful professional athletes. So many, that the school is sometimes referred to as a "jock factory."

One of the more recent Sun Devil athletes to make it big is Gary Gentry.

Gentry hurled yesterday's third game of the World Series and shut out the Baltimore Orioles for 6½ innings, picking up the win in a 5-0 rout for the New York Mets.

Although the Mets used to be baseball's laughing

stock, Gentry was never laughed at, at least not by the opposition.

In this, his first year in the majors, Gentry branded himself as a chief candidate for the National League's Rookie of the Year award.

Gentry was good enough to log a 13-12 record and lead the Mets to the National League pennant. Whereas, pitchers of most major league clubs start every fourth day, Gentry pitched only every fifth day for the pitching-strong Mets.

Against the Orioles Gentry gave up no runs and only three hits before walking himself into trouble in the seventh inning.

Bobby Winkles, Sun Devil baseball coach, says, "Gary doesn't pitch much differently than he did here." Winkles added that "he might have better control

now because he's learning to pitch around hitters."

At ASU, Gentry was able to just blow the ball by the hitters, but he's finding he can't do that in the majors.

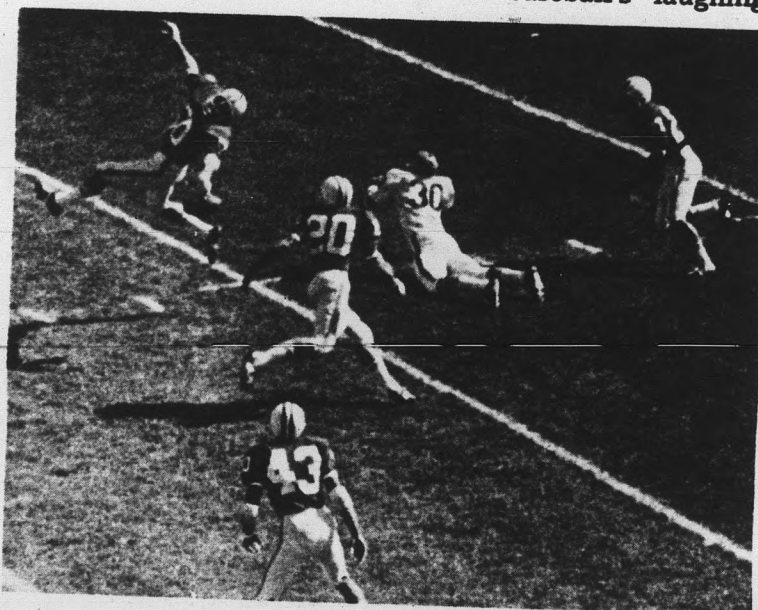

"Gary's best pitch is his slider," Winkles said. "The Mets took it away from him early in the season and Gary wobbled a bit, but he's got it back now and he's throwing hard again."

Gentry, in pitching ASU to the 1967 collegiate championship, holds four Sun Devil single-season records.

During that season, Gentry piled up a 17-1 mark, with 16 of the victories coming in succession. The other records he holds are for most innings, 174; most shutouts, six; and he holds the NCAA record with his 229 strikeouts.

"Gary is really competitive," Winkles adds. "If he can get by the first two or three innings he'll usually pitch okay."

Against the Orioles yesterday, Gentry pitched almost seven innings and did okay.

## DEFLECTED PASS . . .

Utah's Larry Stone (50) deflects an ASU pass intended for Cal Demery (30) during Utah's 24-23 victory. Watching the action are Utes Gary Barker (20), Norm Thompson (43) and Joe Galarze (27).
