New York 32, New York

Dear Dr. Rugh:

You wrote in your letter of July 9, 1961 that you wanted to have the first 25 figures of the chick series. These I sent to you.

I do not think that it is essential for experimental work to reproduce the others. It would be somewhat difficult to have prints made of the older stages. I hope the reproducing of the first 25 will be satisfactory to you.

As far as credit goes you could quote either Hamburger and Hamilton, 1951. J. Morph. 88 or Lillie's Embryology of the Chick by H. Hamilton, 1952.

With my best regards,

Sincerely yours,

Viktor Hamburger
