I do not write much to-day. At any rate I want to thank you for your kind suggestions.

If everything goes well I will move to Rochester by the end of June, to stay there for about a week, and then to move on, probably to see you first. I do not know yet whether the promise of Mr. Roe to support me for a while holds only for Rochester, or whether I may live on it somewhere else. For the last 3 months I have had no income, and my reserves are dwindling. Therefore the financial question must be settled as soon as I arrive in the U.S. As to the Seminar talks, I am quite willing to accept such an assignment.

Recently F. O. Schmitt came to see me for a short visit. We had an enthusiastic conversation on protoplasmic structures, babbling like a love couple about their baby. I liked this man very much and have the faint hope that some day I may work with him.

Say, Vic, can't you give me the address of my sister in Detmold? I have not yet contacted anyone of my family, and it is heartbreaking to see how they are starving

while we are filling our belly with whatever
tickles our fancy. An English friend of
mine is now in Germany, she might help me
in giving them some material comfort.

Yours ever

Hannah.
